08/22/01—OMB releases Mid-Session Review. This update of the President’s FY2002 Budget contains revised estimates of the budget surplus, receipts, outlays, budget authority for FY2001 through FY2011, and other summary information as required by statute. The OMB estimate for the 2001 surplus is estimated to be $158 billion, $123 billion lower than the $281 billion surplus estimated in the April Budget. “The lower surplus is due largely to the year-long economic slowdown and the decision to incorporate immediate fiscal stimulus, the Economic Growth and Tax Relief Reconciliation Act.” (p. 1) [http://w3.access.gpo.gov/usbudget/]

08/28/01—CBO releases the Budget and Economic Outlook: An Update, August 2001. The CBO projects that the total budget surplus in FY2001 will be $153 billion, the second largest surplus in U.S. history. However, it is $122 billion lower than CBO estimated in May. The on-budget surplus is projected to run a deficit of $9 billion. About two-thirds of the decrease results from new legislation (including recent tax cuts enacted on June 7, 2001, in the Economic Growth and Tax Relief Reconciliation Act of 2001, P.L. 107-16); one-third comes from a weaker economy and other factors ... If current tax and spending policies are maintained and the economy performs as CBO estimates, the projected surpluses would allow all public debt that is available for redemption to be retired by 2010. CBO projects small deficits or surpluses in on-budget accounts for the next 4 years; however, steadily increasing on-budget surpluses reemerge by the middle of the decade. 09/14/01—Congress approves a $40 billion emergency supplemental appropriations bill (H.R. 2888/S. 1426) to aid victims of the September 11 terrorist attacks, to bolster security at airports and other sites, to pursue the investigation and prosecution of those responsible, and to strengthen counter-terrorism capabilities. The President had asked Congress to provide an immediate $20 billion in emergency funding, for which the President would retain a high degree of flexibility in how the money would be spent. [http://www.whitehouse.gov/news/releases/2001/09/20010913-6.html]
The House passed the measure by a vote of 422-0 (H. Vote 341, CR, p. H5630), and
