CBO cites the economic recession and recent legislative actions as sharply reducing revenues over the past 12 months. For the current 10-year projection period, 2003 through 2012, CBO estimated a total surplus of $2.3 trillion. However, almost half of that total

comes from the surpluses projected for 2011 and 2012—the last 2 years of the
projection period and thus the most uncertain.
