DISCLAIMER

This report was prepared as an account of work sponsored by an agency of the United States Government. Neither the United States Government nor any agency Thereof, nor any of their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof.

DISCLAIMER

Portions of this document may be illegible in electronic image products. Images are produced from the best available original document.

LEGAL NOTICE

This report was prepared as an account of Government sponsored work. Neither the United States, nor the Commission, nor any person acting on behalf of the Commission:

- A. Makes any warranty or representation, express or implied, with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that the use of any information, apparatus, method, or process disclosed in this report may not infringe privately owned rights; or
- B. Assumes any liabilities with respect to the use of, or for damages resulting from the use of any information, apparatus, method, or process disclosed in this report.

As used in the above, "person acting on behalf of the Commission" includes any employee or contractor of the Commission to the extent that such employee or contractor prepares, handles or distributes, or provides access to, any information pursuant to his employment or contract with the Commission.

LITHIUM SYMPOSIUM--ANALYTICAL PROCEDURES
AND HIGH-TEMPERATURE CORROSION

Oak Ridge National Laboratory
Oak Ridge, Tennessee
August 7-8, 1957

A list of 222 references pertaining to corrosion by molten lithium and related subjects has been compiled in connection with a Lithium Symposium held at the Oak Ridge National Laboratory on August 7-8, 1957. This list is by no means exhaustive but it is thought to contain most of the information presently available on these subjects. In many cases the individual references will contain additional references.

TABLE OF CONTENTS

I. CORROSION	PAGE NUMBERS
A. Open Literature	4
B. Topical Reports - Unclassified	5
C. Topical Reports - Classified	6
D. Progress Reports - Unclassified	7, 8
E. Progress Reports - Classified	9, 10, 11
F. Proceedings of Meetings - Unclassified	12
G. Proceedings of Meetings - Classified	13
II. ANALYTICAL PROCEDURES, CHEMICAL AND PHYSICAL PROPERTIES	
A. Open Literature	14, 15, 16
B. Topical Reports - Unclassified	17, 18
C. Topical Reports - Classified	19
D. Progress Reports - Unclassified	20

IV. SUMMARIES AND MISCELLANEOUS DATA	
A. Open Literature	27, 28, 29
B. Topical Reports - Unclassified	30
C. Topical Reports - Classified	31
D. Proceedings of Meetings - Unclassified	32

I. CORROSION

A. Open Literature

1. Lithium, Theoretical Studies and Practical Applications, Hans Osborg, The Electrochemical Society, 1935.
2. "Permeability of Steel to Lithium," Albert Herold, Pierre Muller and Pierre Albrecht, Compt. Rend., 235, p 658-659, September 29, 1952. (In French)
3. "Liquid Metal Corrosion," Anton de S. Brasunas, Corrosion, 9, p 78-84, 1953.
4. "Corrosion Tests for Liquid Metals, Fused Salts at High Temperatures," D. C. Vreeland, E. E. Hoffman and W. D. Manly, Nucleonics, 11, p 36-39, November 1953.
5. "Corrosion in Nuclear Power Plants," Mechanical Topics, 16 (No.3), 1955.
6. "Liquid Metal Corrosion," E. E. Hoffman, Corrosion Fundamentals, University of Tennessee Press, 1956.
7. "Fundamentals of Liquid-Metal Corrosion," W. D. Manly, ORNL-2055, 1956. Corrosion, 12, p 46-52, July 1956.
8. "Comparison of Sodium, Lithium and Lead as Heat Transfer Media from a Corrosion Standpoint," E. E. Hoffman and W. D. Manly, Problems in Nuclear Engineering, 1, p 128, Pergamon Press, New York, 1957.
9. "Corrosion Resistance of Metals and Alloys to Sodium and Lithium," E. E. Hoffman and W. D. Manly, Handling and Uses of the Alkali Metals, Advances in Chemistry, Series 19, p 82-92, American Chemical Society, 1957.

I. CORROSION

B. Topical Reports - Unclassified

10. Resistance of Materials to Attack by Liquid Metals, L. R. Kelman, ANL-4417, July 1950.
11. Attack on Metals by Lithium, W. D. Wilkinson and F. C. Yaggee, ANL-4990, October 1950.
12. Attack on Uranium by Lithium, W. D. Wilkinson and F. C. Yaggee, ANL-4991, October 1950.
13. Testing and Examination of Thermal Convection Loops with Lithium and Lead, R. Day and A. Brasunas, ORNL-(Y-12 Rep. No. Y-F31-4) August 1951.
14. Stability of Iron toward Lithium at Elevated Temperatures under Cyclotron Irradiation, W. W. Parkinson, Jr., NAA-SR-73, August 1952.
15. Corrosion Resistance of Ferritic and Austenitic Steels in Lithium at 500°C, E. G. Brush, KAPL-M-EGB-17, April 8, 1954.
16. Interim Report on Static Liquid Metal Corrosion, A. Brasunas, ORNL-1647, May 1954.
17. The Solubility of Nickel in Lithium, K. Q. Bagley and K. R. Montgomery, IGR-TN/C250, United Kingdom, Atomic Energy Authority, 1955.
18. Interactions Between Solid and Liquid Metals and Alloys, V. W. Elred, AERE X/R 1806, 1955.
19. Fundamentals of Liquid-Metal Corrosion, W. D. Manly, ORNL-2055, 1956.
20. Inhibition of Liquid Metal Corrosion, J. W. Taylor, AERE M/TN 35, February 1956.
21. Corrosion Resistance of Various Ceramics and Cermets to Liquid Metals, W. H. Cook, ORNL-2391. (To be published)
22. Corrosion Resistance of Metals and Alloys to Sodium and Lithium, E. E. Hoffman and W. D. Manly, ORNL-2271, 1957.
23. Design, Operation and Test of a Sodium-to-Lithium-to-Air Heat Transfer System, A. R. Crocker et al., APEX-327, August 1957.

I. CORROSION

C. Topical Reports - Classified

24. The Corrosion of Metals by Molten Lithium, G. DeVries, O. T. Pfeffkorn and W. U. Wetmore, NP-3120, March 1950. (Confidential)
25. Preliminary Investigation of Metallic Elements in Molten Lithium, D. S. Jessman, et al, NEPA-1465, June 1950. (Confidential)
26. Preliminary Handling Tests of Liquid Lithium, R. Boggild, NEPA-1591, September 1950. (Confidential)
27. The Corrosion of Metals in Molten Lithium, H. G. Edler, RTM-69, October 1950. (Confidential)
28. Preliminary Circulation Tests of Liquid Lithium, T. M. Hunter, NEPA-1750, April 1951. (Confidential)
29. Interim Report on the Resistance of Metallic Materials to Corrosion Attack by High Temperature Lithium, J. E. Cunningham (Masters Thesis, University of Tennessee) ORNL CF-51-7-135, July 1951. (Secret)
30. High Temperature Liquid Metal Circulating System, R. D. Keen, NAA-SR-985, August 1954. (Confidential)
31. Effect of Nitrogen on Corrosion by Lithium, J. M. McKee, NDA-40, (75-16) June 1957. (Secret)
32. A Method for Determining the Solution Rate of Container Metals in Lithium, M. Kolodney and B. Minushkin, NDA-41, (75-17) June 1957. (Secret)
33. Thermal and Corrosion Properties of Solid and Liquid Lithium, William E. Bost, TID-3605, August 1957. (Confidential)
