SUBJECT: END OF SURVEY REPORT:
STATE OF RHODE ISLAND

MASTER

During the period November 1, 1978 through May 1, 1979, the State of Rhode Island conducted, by agreement with the United States Department of Energy Energy Information Administration (EIA), a price monitoring survey analysis for the average price of Number 2 heating oil.

A weekly survey was conducted from 46 selected retail oil dealers, 8 refiners and 7 jobbers for weekly rack price. A high and low price was designated and a weekly average computed. Subject prices were transmitted in writing and by telephone to the Department of Energy, Region One Office in Boston, Massachusetts.

Survey showed November posting average to be \$.535 cents per gallon and incremented increase to \$.675 cents per gallon on May 25, 1979.

As required by Cooperative Agreement, two copies of data on average heating oil pricing was submitted to the Department of Energy. Copies of reporting figures and data are attached.

Survey conducted requisitioned data from retail dealers delivery - more than 70% of the total state supply. As a result, an excellent composite of pricing was identified and utilized by both State and Federal agencies.
