INDEXES TO 708 UNCLASSIFIED DOCUMENTS ON CIVIL DEFENSE

Joanne S. Levey, Ann S. Klein,<sup>\*</sup> and Ann Clark, Editors

INTRODUCTION

Seven hundred and eight unclassified, unlimited-distribution documents<sup>\*\*</sup> from the Civil Defense Research Library are provided with five indexes: Bibliographic, Key Word, Corporate Author, Report Number, and Author. They are described below.

Description of Indexes

Bibliographic

The Bibliographic Index lists the 708 documents according to the 22 subject fields and 188 groups provided by the COSATI<sup>1</sup> Subject Category List (DOD--Modified).<sup>2</sup> To begin to meet the special categorizing needs of the civil defense research literature, a twenty-third subject field and its five sublisted groups<sup>3</sup> have been included.

In addition to the self-explanatory features (author, title, corporate author, etc.), each entry includes the following explanatory information.

---

<sup>\*</sup> Technical Information Division.

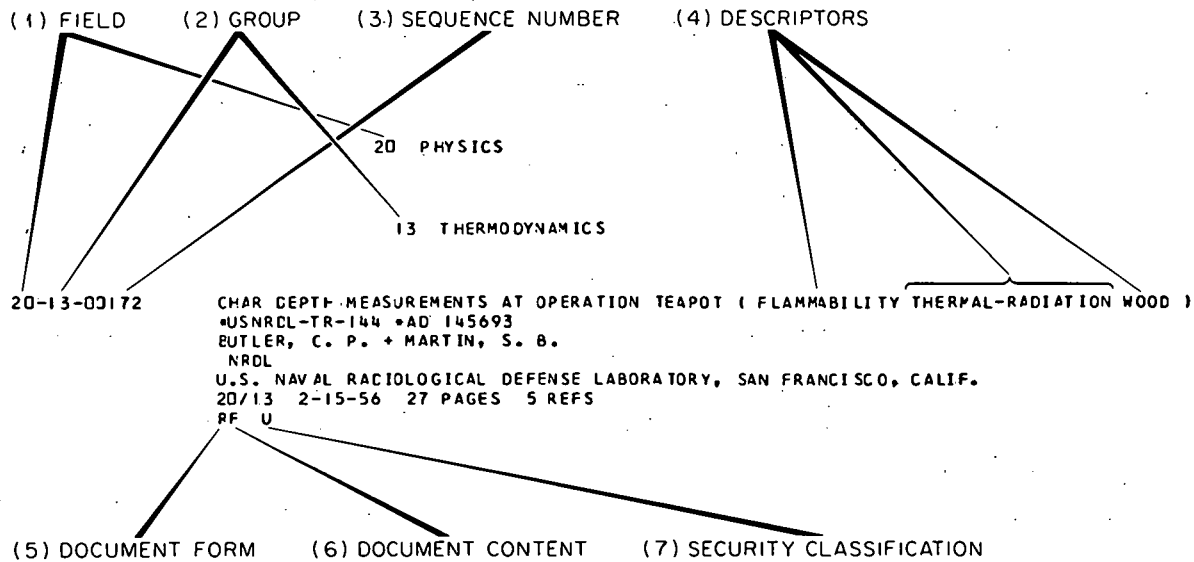

<sup>\*\*</sup> Indexes to the Civil Defense Research Library's classified and unclassified-limited-distribution documents have appeared initially as ORNL-CD-3 and subsequently as ORNL-CD-odd number documents. They carry the security classification CONFIDENTIAL.

<sup>1</sup> Committee on Scientific and Technical Information of the Federal Council on Science and Technology.

<sup>2</sup> COSATI Subject Category List (DOD--Modified), Defense Documentation Center, Defense Supply Agency, Alexandria, Virginia (1965).

<sup>3</sup> Devised by Claire Nader, ORNL.

| K Government Material        | N News, Press Report          |
| M Memorandum, Letters        | O Other                       |
| P Patent                     | S Symposium, Meeting Coverage |
| Q Preprint                   | T Topical Subject             |
| R Report                     | U Progress Report             |
| X Other                      | V State-of-the-Art Review     |
| Z Brochure                   | Y Trip Report                 |
| 6 Document Content           | 7 Security Classification     |
| A Bibliography               | U Unclassified Unlimited      |
| C Calculations               |                               |

<sup>4</sup>Codes for Document Form and Document Content are adapted from the Document Types List of the Nuclear Fuel Technology Information Center (NUFTIC) at Oak Ridge National Laboratory.

For vocabulary control and compatibility with comparable systems, the descriptors added to the titles are selected to conform with those in three already existing thesauruses: Defense Documentation Center's Thesaurus of DDC Descriptors,<sup>5</sup> Research Triangle Institute's Thesaurus of Civil Defense Descriptors,<sup>6</sup> and the Engineers Joint Council's Thesaurus of Engineering Terms.<sup>7</sup>

#### Key Word

The second index is a permuted Key Word Index (KWIC). Each significant word in the title of a document, together with each descriptive term by which the title has been extended, is printed in alphabetical order down the center of the page. Thus every title will appear in the index as many times as there are key words in the title.

When the title (with descriptors) is too long to fit on one line, the computer indicates the location of the omitted words by a slash (/). The user may quickly locate the complete title by checking the document number at the far right against that of the bibliographic entry in the first section.

#### Report Number

The third index lists in alphabetical-numerical order all Report Numbers which are preceded by one or more letters. The number at the far right of the page indicates the entire bibliographic entry of the document to which the Report Number refers.

#### Corporate Author

The fourth index lists alphabetically the names of the Corporate Authors which appear in the main bibliography. The user may link the

<sup>5</sup>Thesaurus of DDC Descriptors, Defense Documentation Center, Cameron Station, Alexandria, Virginia (June 1966).

<sup>6</sup>W. T. Herzog and J. E. Jenkins, A Thesaurus of Civil Defense Descriptors, Appendix E of Final Report (Volume II) Civil Defense Information Systems Analysis, Research Triangle Institute, Durham, North Carolina.

<sup>7</sup>Thesaurus of Engineering Terms, Engineers Joint Council, New York (1964).

corporate author (or installation) with the entire bibliographic entry through the number at the right.

### Author

The fifth index lists the Authors whose names appear in the main bibliography. Again, as with the installations, the user may check the number at the right of each author against that of the bibliographic entry for a more complete description of the document.

## Suggested Uses for the Indexes

### Bibliographic Index

1. To provide a rudimentary micro-abstract of the contents of the document through the use of descriptors attached to the title.
2. To indicate at a glance the length and date of the document as well as its form (report, journal, etc.) and nature (historical, bibliographical, etc.).

### Key Word Index

1. To serve as a subject index to the 708 documents listed and -- when joined to subsequent indexes in the series -- to serve as a subject index to the entire ORNL civil defense research document collection.
2. To indicate the current research interests of the Civil Defense Research Project staff and -- over a period of time -- the scope of the Project's coverage.

### Corporate Author Index

To indicate the installations actively engaged in research relevant to civil defense and to provide the nucleus for a referral-oriented information center on civil defense.

### Author Index

To indicate the individuals actively engaged in research relevant to civil defense.

## Acquisition

Since the ORNL Civil Defense Research Library is at present principally for the use of Project members, copies of the documents listed are not normally furnished to outside requestors. However, members of the library staff will gladly provide qualified users with information on how to obtain a document.

## EXTERNAL DISTRIBUTION

260. Prof. Frank Agardy, Department of Civil Engineering, San Jose State College, San Jose, California 95114
261. Harold M. Agnew, Director, Weapons Physics Division, Los Alamos Scientific Laboratory, Los Alamos, New Mexico

262. Robert E. Bailey, Nuclear Engineering Department, Purdue University, Lafayette, Indiana 47907
263. Miss Eleanor Boyles, Librarian, School of Police Administration, Michigan State University, East Lansing, Michigan
264. Arthur Broyles, Department of Physics, University of Florida, Gainesville, Florida
265. Zolin G. Burson, Scientific Executive, Edgerton, Germeshausen and Grier, Inc., 680 East Sunset Road, Las Vegas, Nevada 89101
266. Frank H. Chick, Engineer, Department of the Army, Office of the Secretary of the Army, Office of Civil Defense - Region Eight, Everett, Washington 98201
267. C. E. Collins, TVA, Building 604, Power Building, Chattanooga, Tennessee
- 268-269. D. D. Davis and R. C. Kelly, Division of Technical Information Extension, AEC, ORO
- 270-288. L. J. Deal, Chief, Civil Effects Branch, Division of Biology and Medicine, U.S. Atomic Energy Commission, Washington, D.C.
289. R. Easley, Department of Defense Research and Engineering, Pentagon, Washington, D.C. 20310
- 290-291. L. N. FitzSimons and Douglas Griffin, Office of Civil Defense, Washington, D.C.
292. Prof. Raymond R. Fox, Nuclear Defense Design Center, School of Engineering and Applied Science, George Washington University, Washington, D.C. 20006
293. Col. Robert L. Fox, State Director, Civil Defense, National Guard Armory, Sidco Drive, Nashville, Tennessee 37204
294. Miss Barbara Frautschie, Battelle Memorial Institute, Columbus, Ohio
295. Robert Gilpin, Department of Political Science, Princeton University, Princeton, New Jersey
296. Prof. Robert M. Holcomb, Department of Civil Engineering, Texas A & M University, College Station, Texas 77843
297. Davis C. Holder, Department of Civil Engineering, University of Colorado, Boulder, Colorado 80302
298. Walter Kee, Division of Technical Information, AEC Headquarters, Washington, D.C.
299. Prof. Carl Koontz, Department of Civil Engineering, Worcester Polytechnic Institute, Worcester, Massachusetts 01609
300. Prof. Richard Kummer, Department of Architectural Engineering, Pennsylvania State University, University Park, Pennsylvania 16802
301. Prof. William Miller, Department of Civil Engineering, 307 More Hall, University of Washington, Seattle, Washington 98105
302. Richard Park, National Academy of Sciences, Washington, D.C.
303. Sidney Passman, U.S. Arms Control and Disarmament Agency, New State Department Building, Washington, D.C. 20451
- 304-323. Col. Ralph Pennington, ABMDA, Department of Defense, Washington, D.C.
324. J. C. Petee, National Resource Analysis Center, Office of Emergency Preparedness, Washington, D.C.
- 325-334. James E. Roembke, Architectural and Engineering Services Division, OCD
335. Lawrence Russell III, Office of the Chief of Engineers, Department of the Army, Director T and ME, Washington, D.C. 20315

336. Prof. J. A. Samuel, Department of Mechanical Engineering,  
University of Florida, Gainesville, Florida 32601
- 337-356. W. E. Strope, Office of Civil Defense, Department of the Army,  
Washington, D.C.
357. J. A. Swartout, Union Carbide Corporation, New York, N.Y.
358. Lauriston Taylor, National Academy of Sciences, Washington, D.C.
359. Edward Teller, University of California, Livermore, California
360. William Truppner, Director, National Resource Analysis Center,  
Office of Emergency Preparedness, Washington, D.C.
361. Prof. G. K. Vetter, School of Architecture, University of  
Colorado, Boulder, Colorado 80302
362. L. J. Vortman, Sandia Corporation, Sandia Base, Albuquerque,  
New Mexico
363. J. Wade, ARPA
364. Benjamin W. Watson, Executive Secretary, U.S. Civil Defense  
Council, Editorial Office, P.O. Box 370, Portsmouth, Virginia 23705
365. Captain Jack E. Weatherford, Director for Development and  
Analysis, National Military Command System Support Center,  
Pentagon, Washington, D.C.
366. Leon Weaver, School of Police Administration, Michigan State  
University, East Lansing, Michigan
367. Dr. Clayton S. White, President-Director, Lovelance Foundation,  
5200 Gibson Blvd., SE, Albuquerque, New Mexico 87108
368. Air Force Weapons Laboratory (WLRD), Kirtland Air Force Base,  
New Mexico
369. Army Library, TAGO, Civil Defense Unit, Pentagon, Washington, D.C.
370. Civil Defense Library, Southern California Civil Defense and  
Disaster Association
- 371-372. Defense Supply Agency, Defense Logistics Services Center, Battle  
Creek Federal Center, Battle Creek, Michigan 49016, Attention:  
Anna K. Winger, Librarian
373. Dikewood Corporation, 1009 Bradbury Drive, SE, University Research  
Park, Albuquerque, New Mexico 87106, Attention: Miss Mary Berran,  
Librarian
374. Hudson Institute, Library, Harmon-on-Harmon, New York
375. Illinois Institute of Technology Research Institute, Library,  
Chicago, Illinois
- 376-380. Institute for Defense Analysis, Civil Defense Library, Washington, D.C.
381. Joint Civil Defense Support Group, Office of the Chief of  
Engineers, Department of the Army, Gravelly Point, Virginia
382. Naval Radiological Defense Laboratory, Library, San Francisco,  
California
383. Research Triangle Institute, Library, Durham, North Carolina
384. Stanford Research Institute, Library, Menlo Park, California
385. U.S. Army Engineer Research and Development Laboratories, Library,  
Fort Belvoir, Virginia
386. U.S. Naval Civil Engineering Laboratory, Library, Port Hueneme,  
California 93041
387. University and Laboratory Division, AEC, ORO
- 388-675. Given distribution as shown in TID-4500 under Health and Safety  
category (25 copies - CFSTI)
