CODEN: ECSYE

January 1991

PURPOSE

Energy Conferences and Symposia, a monthly publication, was instituted to keep scientists, engineers, managers, and related energy professionals abreast of meetings sponsored by the Department of Energy (DOE) and by other technical associations. Announcements cover conferences, symposia, workshops, congresses, and other formal meetings pertaining to DOE programmatic interests.

Complete meeting information, including title, sponsor, and contact, is presented in the main section, which is arranged alphabetically by subject area. Within a subject, citations are sorted by beginning date of the meeting. New listings are indicated by a bullet (●) after the conference number and DOE-sponsored conferences are indicated by a star (★). Two indexes are provided for cross referencing conference information. The Chronological Index lists conference titles by dates and gives the subject area where complete information may be found. The Location Index is alphabetically sorted by the city where the conference will be held.

To report a future meeting for inclusion in the publication, complete and return the form provided on the back cover. Appropriate meetings will be added to the conference database whenever submitted; however, for timely announcement in *Energy Conferences and Symposia*, information must be received by OSTI at least six weeks before the month of the meeting date.

AVAILABILITY

DOE and DOE contractors who have OSTI deposit accounts can obtain copies for \$3.00 per issue. Contact the Office of Scientific and Technical Information, P. O. Box 62, Oak Ridge, TN 37831, Attention: Information Services. For further information, call (615)576-8401, FTS 626-8401.

Public availability is by subscription from the National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Rd., Springfield, VA 22161. Order PB91-901500.
