PREFACE

This bibliography comprises all known published and unpublished public reports pertaining to the geothermal resources of Colorado through 1980. The report is in two alphabetical sections, BIBLIOGRAPHY and SUBJECT INDEX. The Bibliography section is a listing of the various authors with key words, while the Subject Index section is a listing of the various authors by subject.

NOTICE

This report was prepared to document work sponsored by the United States Government. Neither the United States nor its agent, the United States Department of Energy, nor any Federal Employees, nor any of their contractors, subcontractors or their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product or process disclosed, or represents that its use would infringe privately owned rights.

NOTICE

Reference to a company product name does not imply approval or recommendation of the product by the Colorado Geological Survey or the U.S. Department of Energy to the exclusion of others that may be suitable.
