SUMMARY

The Office of Fuels Programs prepares quarterly reports summarizing the data provided by companies with authorizations to import or export natural gas. Companies are required, as a condition of their authorizations, to file quarterly reports with the OFP. This report is for the third quarter of 1993 (July - September).

Attachment A shows the percentage of takes to maximum firm contract levels and the weighted average per unit price for each of the long-term importers during the five most recent reporting quarters.

Attachment B shows volumes and prices of gas purchased by long-term importers and exporters during the past twelve months (October 1992 - September 1993).

Attachment C shows volume and price information pertaining to gas imported on a short-term or spot market basis.

Attachment D shows the gas exported on a short-term or spot market basis to Canada and Mexico.

During the first nine months of 1993, data indicates gas imports grew by about 11 percent over the 1992 level (1706 vs. 1542 Bcf), with Canadian and Algerian imports increasing by 9 and 135 percent, respectively. During the same time period, exports declined by 36 percent (115 vs. 181 Bcf). Exports to Canada were down 44 percent from the 1992 level (41 vs. 73 Bcf), and exports to Mexico decreased by more than 51 percent (33 vs. 67 Bcf).

Long-term imports for the quarter totaled 383.7 Bcf, or an 18 percent increase over the third quarter of 1992. Long-term Canadian imports totaled about 361 Bcf. The average price of these supplies was \$2.12/MMBtu, which was 6 cents less than the preceding quarter. Under other long-

term import arrangements, Distrigas Corporation imported 10.1 Bcf of Algerian LNG at an average landed price of \$2.12/MMBtu and Pan National Gas Sales, Inc. imported 12.7 Bcf of Algerian LNG at an average tailgate price of \$1.75.

During the third quarter, 74 companies used short-term "blanket" authorizations to import 199.1 Bcf of natural gas. This volume represents an 11 percent increase over the third quarter of 1992.

The average price of Canadian natural gas under short-term import arrangements was \$1.66/MMBtu, compared with \$1.72/MMBtu during the preceding quarter. Approximately 27 percent of the short-term sales were made at Sumas, Washington, at \$1.55/MMBtu; 25 percent at Port of Morgan, Montana, at \$1.49/MMBtu; 21 percent at Noyes, Minnesota, at an average price of \$1.84/MMBtu; 10 percent at Eastport, Idaho, at \$1.66/MMBtu; 7 percent at Niagara Falls, New York, at \$1.84/MMBtu; 3 percent at Waddington, New York, at \$2.08/MMBtu; and 7 percent at various other entry points, at \$1.83/MMBtu.

In addition, a total of 21 short-term blanket export authorizations were used, exporting a total of 17.6 Bcf of gas. Six authorizations were used to export about 8.9 Bcf of gas to Canada, at an average price of \$2.09/MMBtu. Under 15 other authorizations, about 8.7 Bcf of gas was exported to Mexico at an average price of \$2.06/MMBtu.

All data are derived from reports filed by importers and exporters, and are subject to future revision. Future revisions to the report will be available on OFP's Electronic Bulletin Board at (202) 586-7853. All general queries concerning this report should be made to Yvonne Caudillo at (202) 586-4587.

- (1) Project Orange purchased 120,000,000 MMBtu's of natural gas over a 20-year period in one lump-sum amount totaling \$88 million, or approximately \$.73 per MMBtu, for its 111 MW cogenerator in Syracuse, N.Y. The demand component includes Nova/TransCanada transportation; production, gathering, processing fees; and tax/royalty payments.
- (2) Gas resold to Cogen Energy Technology, Inc. to fuel a cogeneration facility at Castleton-on-Hudson, N.Y.
