Environmental Regulatory Update

This report contains a bi-monthly update of environmental regulatory activity that is of interest to the Department of Energy. It is provided to DOE operations and contractor staff to assist and support environmental management programs by tracking regulatory developments. Any proposed regulation that raises significant issues for any DOE operation should be reported to the Office of Environmental Guidance (EH-23) as soon as possible so that the Department can make its concerns known to the appropriate regulatory agency. Items of particular interest to EH-23 are indicated by a shading of the RU#.

Any questions or comments about any aspects of the Update Table should be directed to Lois Thompson, Air, Water, and Radiation Protection Division, Office of Environmental Guidance, U.S. Department of Energy (EH-23), 202-586-9581.

ABSTRACT

The Environmental Regulatory Update Table provides information on regulatory initiatives of interest to DOE operations and contractor staff with environmental management responsibilities. The table is updated bi-monthly with information from the Federal Register and other sources, including direct contact with regulatory agencies. Each table entry provides a chronological record of the rulemaking process for that initiative with an abstract and a projection of further action.

IRIS Table Update	83
Index to RU Numbers by CFR Citation	101

*RU numbers are identifiers that are assigned to each regulatory initiative for tracking purposes. The first three digits are coded to the statute, and the last three digits are specific to individual initiatives. The update table is first organized by statutes as shown above and then by RU numbers arranged sequentially. An index is provided at the end of the table to relate CFR citations to RU numbers.

Regulatory Highlights - May/June, 1993

1. Native American Graves Protection and Repatriation Regulations - Proposed Rule

The Native American Graves Protection and Repatriation Act (NAGPRA), signed into law on November 16, 1990, addresses the rights of lineal descendants and members of Indian Tribes and Native Hawaiian organizations to certain Native American human remains and cultural items with which they are affiliated. Specifically, NAGPRA provides a mechanism for such individuals or groups to request the return or "repatriation" of human remains and cultural items that are held or discovered by federal agencies. Procedures for implementing the provisions of the NAGPRA were recently proposed by the Department of Interior.

The proposal applies to the identification and appropriate disposition or repatriation of human remains and cultural items that are indigenous to Alaska, Hawaii, and the continental U.S. (Human remains and cultural items are defined in Sect. 10.2 of the proposal.) The proposal is restricted in coverage to Native American human remains and cultural items that are: (1) in federal possession or control; or (2) in the possession or control of an institution or state or local government receiving federal funds, including federally assisted museums; or (3) excavated or discovered on federal or tribal lands. For affected federal agencies or federally-funded institutions, the proposal requires the completion of summaries and inventories of the collections of human remains and cultural items that they possess or control. Summaries are required to be completed by November 16, 1993, while inventories are to be completed by November 16, 1995. These deadlines are statutorily established and apply regardless of the effective date of the final rule. Specific requirements proposed for the contents of summaries and inventories include information on the determination of lineal descendants or cultural affiliation for the covered objects. Procedures for determining lineal descent and cultural affiliation are outlined in the proposal. If the lineal descent or cultural affiliation of the object can be established and other proposed criteria are met, the actual repatriation of objects to individuals or groups could take place. Requirements are also proposed regarding the ownership or control of human remains and cultural items excavated or discovered on federal or tribal lands after November 16, 1990. The Department of Interior will accept comments on the proposed rule until July 27, 1993. (5-28-93, 58 FR 31122, RU# 080-001.00)

2. Land Disposal Restrictions for Ignitable and Corrosive Characteristic Wastes Whose Treatment Standards Were Vacated - Interim Final Rule

Under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, EPA issued the Third Third rule (6-1-90) establishing land disposal prohibitions and treatment standards for the last category of wastes identified or listed as hazardous at the time of the amendments. As part of that rule, treatment standards were promulgated for hazardous wastes exhibiting one or more of the following characteristics:

ignitability, corrosivity, reactivity ("ICR" wastes), or EP toxicity. For many ICR wastes, the treatment standard was established as "deactivation," which allowed the use of any technology, including dilution, to remove or deactivate the characteristic property.

On September 25, 1992, the United States Court of Appeals for the District of Columbia Circuit ruled on various petitions for review filed against the "Third Third" rule. In one of the key parts of the decision, the court held that dilution of ICR wastes to remove their characteristic is impermissible if such dilution is used exclusively and it fails to provide the level of treatment required by RCRA Sect. 3004(m) (i.e., to destroy, remove, or immobilize hazardous constituents). Therefore, the court vacated the "deactivation" standard for certain ignitable and corrosive wastes because deactivation of those wastes can be accomplished by impermissible dilution. In response to the court decision, EPA has issued an interim final rule to replace the vacated treatment standards before the court's mandate becomes effective, and, thereby, avoid an absolute ban on land disposal of the affected wastes. The revised treatment standards apply to ignitable (other than those containing >10% total organic carbon) and corrosive hazardous wastes that are managed in systems other than those: (a) regulated under the Clean Water Act (CWA), (b) performing treatment prior to land disposal which is equivalent to that required by the CWA prior to discharge, and (c) injecting wastes into Class I underground injection wells regulated under the Safe Drinking Water Act. For these wastes, the treatment standards require both deactivation to remove the hazardous characteristic and treatment to meet concentration-based levels for the underlying hazardous constituents that may be present in the waste. EPA also establishes incineration, fuel substitution, and recovery of organics as alternative treatment standards for the affected ignitable wastes. Additional requirements of the rule include monitoring for underlying hazardous constituents "reasonably expected to be present" in the wastes. To allow affected generators and facilities time to implement changes in waste management practices, the Agency is granting (1) a 90-day national capacity variance (i.e., until 8-9-93) for the wastes covered by the rule and (2) a 9-month national capacity variance (i.e., until 2-10-94) for ignitable and corrosive wastes injected into Class V wells where the facilities are not performing CWA-equivalent treatment before injection. It is important to note that the rule is limited to those requirements vacated by the court decision. EPA indicates that it plans future rulemakings to address the issues and requirements of the Third Third rule that were remanded by the court to EPA. This interim final rule became effective on May 10, 1993.

(5-24-93, 58 FR 29860, RU# 840-250.05)

3. Protection of Stratospheric Ozone; Refrigerant Recycling - Final Rule

Under Sect. 608 of the Clean Air Act, EPA promulgates a final rule that establishes a recycling program for ozone-depleting refrigerants recovered during the servicing and disposal of air-conditioning or refrigeration equipment (NPRM: 12-10-92). This rule complements the automobile air conditioner servicing rule promulgated on July 14, 1992 (57 FR 31242) and the statutorily mandated prohibition on the venting of Class I and Class II substances that became effective on July 1, 1992. The rule applies to the

servicing and disposal of most air-conditioning equipment, including household air conditioners and refrigerators, commercial air conditioners and chillers, commercial refrigeration, industrial process refrigeration, refrigerated transport, and air-conditioning in vehicles not covered by the July 14, 1992 rule.

The rule has five main elements, which, taken together, satisfy the criteria of Sect. 608. First, the rule requires technicians servicing and disposing of air-conditioning equipment to observe certain service practices that reduce refrigerant emissions. Second, the rule requires that technicians who service air-conditioning and refrigerant equipment obtain certification through an EPA-approved testing organization. Additionally, the sale of refrigerant is restricted to these certified technicians. Third, the rule establishes reclaimer certification programs that will assure (1) the quality of recovery and recycling equipment and (2) that recovered refrigerant is of acceptable quality to prevent equipment failures. The fourth element is a requirement that equipment leaks of specified rates be repaired within 30 days of detection. Finally, EPA requires that ozone-depleting substances be removed from appliances, machines, and other goods prior to their disposal and that all air-conditioning and refrigeration equipment except for small appliances and room air-conditioners be provided with a servicing aperture that would facilitate recovery of the refrigerant. This rule became effective on June 14, 1993, and will be codified at 40 CFR Part 82.
(5-14-93, 58 FR 28660, RU# 120-503.00)

4. Protection of Stratospheric Ozone; Significant New Alternatives Policy - Proposed Rule

EPA proposes a rule to implement Sect. 612 of the Clean Air Act for evaluating and regulating substitutes for ozone-depleting chemicals that are being phased out. The proposal issues preliminary decisions on the acceptability of certain substances and introduces a plan for administering the Significant New Alternatives Policy (SNAP) program. The objective of the SNAP program is to evaluate substitutes for Class I and II ozone-depleting substances and promote those determined to be acceptable.

The proposed rule would require that producers of substitutes for Class I or II ozone-depleting substances meet certain reporting requirements. Any person who produces a chemical substitute for a Class I or II substance would have to notify the Agency not less than 90 days before new or existing chemicals are introduced for a significant new use as an alternative. The proposal establishes an EPA procedure for the review of such notifications. The Agency proposes to apply the following criteria in determining a substance's acceptability: atmospheric effects and related health impacts, general population risks from ambient exposure, ecosystem risks, occupational risks, consumer risks, cost, and availability. A substance would then be placed in one of five categories: general acceptance, approval subject to use limitations, general prohibition, prohibition with limited exemptions for critical use, and substitutes pending completion of review. The proposal gives a preliminary listing of acceptable substitutes. EPA anticipates that future changes to SNAP listings will be minor and are unlikely to alter a substance's approval status. Quarterly, the Agency will publish complete, updated lists of acceptable

and unacceptable substitutes in the Federal Register. The Agency will also assist users in identifying substitutes for Class I and II substances through an outreach/clearinghouse program which will include hotlines, presentations, and a list of vendors of substitutes. Under the proposal, any person would be able to petition EPA to add or delete a substance from either the acceptable or unacceptable list of substitutes. Finally, the proposal includes a provision which would prohibit the use of any alternative for Class I or II substances that EPA has determined may have adverse effects on human health or the environment where EPA has identified an alternative that (1) reduces overall risk to human health and the environment, and (2) is currently or potentially available. Comments on the proposed rule were accepted until June 28, 1993. (5-12-93, 58 FR 28094, RU# 120-509.00)

5. Reportable Quantity Adjustments for Lead Metal, Lead Compounds, Lead Containing Hazardous Wastes, and Methyl Isocyanate - Final Rule

Under the authority of Sect. 102(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), EPA promulgates reportable quantity (RQ) adjustments for 30 hazardous substances (NPRM: 5-8-92). (A RQ is the amount of a hazardous substance which, when released to the environment in that amount or greater within a 24-hour period, must be reported to the National Response Center.) The rule finalizes RQ adjustments for lead metal, 12 lead compounds, 15 waste streams listed under the Resource Conservation and Recovery Act (RCRA) that contain lead, RCRA characteristic wastes that fail the Toxicity Characteristic Leaching Procedure based on their lead constituents, and methyl isocyanate. Prior to this rule, some of these substances have had their RQs adjusted in previous final rules, while others had retained the statutory one-pound RQ established for hazardous substances in CERCLA Sect. 102(b). By this rule, EPA replaces the RQs for all of the aforementioned substances with a 10-pound RQ. The Agency based the adjusted RQs for lead metal, 12 lead compounds, and lead-containing hazardous wastes on the evaluation of the chronic toxicity of these substances. Scientific studies pointing to lead metal and lead compounds as potential carcinogens and lead's neurotoxic effects in children were major factors in the evaluation. EPA indicates that the revised RQs for lead metal, lead compounds, and lead-containing wastes are consistent with its strategy to reduce overall environmental exposure to lead. The final adjusted RQ for methyl isocyanate was also based on an evaluation of its chronic toxicity. The Agency indicates that the RQ adjustments in the rule will enable it to focus its resources on those releases that are more likely to pose threats to public health or welfare or the environment. The rule becomes effective on July 30, 1993. (6-30-93, 58 FR 35314, RU# 180-105.00)

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RJ NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
RESOURCE CONSERVATION AND RECOVERY ACT				
	Oil Pollution Prevention -- RU# 145-002.00			
	Pesticide Storage -- RU# 300-003.00			
340-009.01	Decision Not to List Recycled Oil; Management Standards for Used Oil 40 CFR 260 40 CFR 261 40 CFR 262 40 CFR 266 40 CFR 271 40 CFR 279	NPRM 50 FR 49212 11/29/85 Final rule 57 FR 41566 9/10/92 Technical amendments; corrections 58 FR 26420 5/3/93 Correction 58 FR 33341 6/17/93	EPA promulgates a final listing decision for used oils that are recycled and issues standards for the management of used oil under RCRA Sect. 3014.	Final rule effective 3/8/93. Technical amendment and corrections effective retroactively to 3/8/93.
340-024.00	Containerized Liquids in Landfills 40 CFR 260 40 CFR 264 40 CFR 265 40 CFR 271	NPRM 51 FR 46824 12/24/86 NOA 52 FR 23695 6/24/87 NOA 56 FR 55646 10/29/91 NOA 57 FR 18853 5/1/92 Final rule 57 FR 54452 11/18/92	EPA prohibits the disposal in landfills of free liquids and containers with liquid hazardous wastes and excludes the use of absorbents that biodegrade and release liquids when compressed. These rules do not apply to owners or operators of landfills in which only PCB chemical waste regulated under 40 CFR 761 are disposed. This rule adopts the Paint Filter Liquids Test, Method 9095, for the testing of containerized liquids to which sorbents have been added before land disposal.	Effective 5/18/93.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-173.00	Solid Waste Test Methods (Manual SW-846 Third Edition - Update I) 40 CFR 260 40 CFR 261 40 CFR 262 40 CFR 264 40 CFR 265 40 CFR 268 40 CFR 270	NPRM 54 FR 3212 1/23/89 NOA 55 FR 4440 2/8/90 Notice 57 FR 55114 11/24/92 Corrections 58 FR 6854 2/2/93 Regulatory Agenda 58 FR 25050 4/26/93	EPA proposes to update the Third Edition of SW-846, incorporate it into the RCRA regulations, and mandate minimum QC procedures for all RCRA testing. EPA proposes a number of technical modifications and/or clarifications to the Third Edition of SW-846 and the inclusion of specific QC procedures in SW-846 which are described in the "Report on Minimum Criteria to Assure Data Quality." The Agency is also considering deleting appendices III and X to 40 CFR 261. In response to public comment, EPA gives notice that it has decided not to proceed with the proposed spike recovery correction QA requirements included in the revised Chapter I of SW-846 issued on 2/8/90.	Notice of 11/24/92 effective immediately. Final rule signed; Publish first week of July.
*840-173.D1	Solid Waste Test Methods (Manual SW-846 Third Edition - Update II) 40 CFR 260 40 CFR 261 40 CFR 262 40 CFR 264 40 CFR 265 40 CFR 268 40 CFR 270	Planned NPRM 58 FR 25041 4/26/93	EPA will propose to revise certain test methods and add other new test methods that are approved or required under RCRA. These new and revised methods are found in Update II to the Third Edition of SW-846.	NPRM signed; publish first week of July. Final rule 7/94.
*840-175.00	Releases to Groundwater (Subpart F) - Corrective Action 40 CFR 264 40 CFR 270	Planned NPRM 58 FR 25045 4/26/93	These regulations will amend the technical and procedural requirements for conducting corrective action to clean up significant releases to groundwater from regulated hazardous waste units at operating, closed, or closing RCRA facilities and the requirements for implementing remedial action, remedy selection, and corrective measures.	NPRM placed on hold until 1994 pending final action on Subpart S (RU# 840-133.01) in 12/93.
*840-176.00	Groundwater Monitoring - Hazardous Constituents and Methods 40 CFR 264 40 CFR 270	Planned NPRM 58 FR 25045 4/26/93	EPA will propose revisions to a list of hazardous constituents, Appendix IX of 40 CFR 264, for use in groundwater monitoring. This amendment would also create a new list for the first part (Detection Monitoring) of the groundwater monitoring program.	NPRM 12/93.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-229.00	State Hazardous Waste Management Program - Utah 40 CFR 271	Immediate final rule 58 FR 8232 2/12/93 Correction 58 FR 26689 5/5/93	EPA grants final authorization to Utah for revisions to its state hazardous waste management program, subject to public review and comment.	Interim final rule effective 4/13/93.
*840-231.00	Waste Minimization Program for Hazardous Waste Generators	Draft guidance document 54 FR 25055 6/12/89 Interim final guidance 58 FR 31114 5/28/93	EPA publishes interim final guidance to assist hazardous waste generators and owners/operators of hazardous waste ISDFs in complying with the waste minimization certification requirements of RCRA Sects. 3002(b) and 3005(h).	<u>Comments by 7/27/93.</u>
*840-246.00	Standards for the Tracking and Management of Medical Waste 40 CFR 259	Interim final rule 54 FR 12326 3/24/89 Notice; final rule amendments 54 FR 24310 6/6/89 NOA 55 FR 1770 1/18/90 Corrections 55 FR 27228 7/2/90 NOA 55 FR 28096 7/9/90 NOA 55 FR 43219 10/26/90 NOA 56 FR 2178 1/22/91 Regulatory Agenda 56 FR 54064 10/21/91	EPA publishes an interim final rule implementing the Medical Waste Tracking Act (MWTa) demonstration program. The program sets forth segregation, packaging, labeling, tracking, transportation, and recordkeeping requirements of medical waste generated in the covered states, and lists the wastes to be covered by the program. States participating in the program include NY, NJ, CT, RI, and Puerto Rico.	Interim final rule effective 6/22/89. Amendments effective 6/6/89. Tracking regulations effective 6/22/89 in NY, NJ, CT, 7/24/89 in RI and Puerto Rico. Final report to Congress delayed until <u>EPA Assistant Administrator appointed.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-248.01	Subtitle C Corporate Financial Test Criteria 40 CFR 264 40 CFR 265 40 CFR 280 40 CFR 761	Planned final rule 58 FR 25053 4/26/93	EPA will issue a final rule addressing corporate third party liability coverage and post-closure deed requirements for TSDF owners and operators to satisfy Subtitle C financial test criteria.	No schedule for final rule as yet.
840-250.01	DOE Case-by-Case Extension on Mixed Waste Storage - Petition 40 CFR 268	Notice of proposed decision 57 FR 22024 5/26/92	EPA proposes to find that DOE has made all but one of the demonstrations required in its application, under RCRA rules in 40 CFR 268.5, for a one-year case-by-case extension of the 5/8/92 effective date of the LDRs applicable to certain mixed wastes generated or stored at 31 DOE facilities.	On hold.
*840-250.02	EPA/MRC Guidance on Testing Mixed Radioactive and Hazardous Waste	NOA 57 FR 10508 3/26/92	MRC and EPA jointly issue a proposed guidance document on the testing of mixed radioactive and hazardous waste to assist mixed waste generators in identifying and performing the testing required under RCRA Subtitle C and to ensure that employee radiation exposures are ALARA.	Final guidance 9/93.
840-250.03	Technical Amendment to Third LDRs - Stay of Application 40 CFR 148 40 CFR 264 40 CFR 265 40 CFR 268	Technical amendments 57 FR 8086 3/6/92 Stay of technical amendment 57 FR 31962 7/20/92 Final rule amendment 58 FR 14317 3/17/93	EPA stays the 3/6/92 technical amendment of the 6/1/90 third LDR final rule as it applies to deep wells receiving prohibited characteristic wastes and newly identified or listed unprohibited wastes.	Stay of technical amendment of 3/6/92 expired; extension of stay denied. Amendment superseded by district court ruling, but ruling is being appealed.
			EPA suspends until 6/17/93 portions of the regulatory language in the 3/6/92 technical amendment relating to the applicability of the deactivation standard to reactive sulfide wastes and the applicability of the dilution prohibition to reactive cyanide wastes. EPA is taking this action because it has decided that a three month compliance period is necessary.	Final rule amendment effective 3/17/93. Portions of rule suspended until 6/17/93.
*840-250.04	Third LDRs - National Capacity Variance for Mixed Wastes and Certain Hazardous Soils 40 CFR 268	Interim final variance 57 FR 47772 10/20/92	In its final rule of 6/1/90, EPA set treatment standards and LDRs for the third LDR wastes and granted a national capacity variance for mixed wastes and certain hazardous soils until 5/8/92. EPA now approves an interim final case-by-case extension to 5/8/93 of that national capacity variance for hazardous soils whose BDAI was incineration, retorting, or vitrification and for radioactive mixed wastes. The Administrator may renew this extension to allow continued land disposal until 5/8/94.	Capacity variance extension expired 5/8/93. At present, no Agency initiative to extend it, but is still under consideration.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-250.05	LDRs for Third Third Wastes - Revised Toxicity Characteristic Waste Standards 40 CFR 148 40 CFR 261 40 CFR 264 40 CFR 265 40 CFR 268 40 CFR 270 40 CFR 271	NOA 58 FR 4972 1/19/93 Interim final rule 58 FR 29860 5/24/93	A recent court decision vacated the deactivation treatment standards for certain ignitable and corrosive wastes and remanded the standards for certain other ignitable and corrosive wastes treated by dilution and discharges under the CWA or SDWA Class I wells. EPA now replaces the vacated treatment standards for certain D001 ignitable and D002 corrosive wastes to avoid an absolute ban on land disposal of these wastes when the court's mandate becomes effective. The remanded standards remain in effect until EPA acts to replace them in a future rulemaking.	Interim final rule effective 5/10/93. NPRM 8/93.
840-251.00	Hazardous Waste Sump Requirements 40 CFR 260 40 CFR 264 40 CFR 265	Planned NPRM 58 FR 25045 4/26/93	EPA will propose to extend the deadline by which certain existing sumps that are used to manage hazardous waste must have their integrity tested. EPA would allow an additional year (total of 24 months) to conduct integrity assessments. This requirement would apply to existing sumps that are situated inside buildings and constructed as an integral part of the building's floor or foundation.	No schedule for NPRM; likely to be withdrawn.
*840-286.00	Permit Modifications to Hazardous Waste Management Facilities to Correct Omitted Requirements 40 CFR 270.41	Planned NPRM 58 FR 25039 4/26/93	Amendment will allow EPA to modify a permit to correct an inadvertent omission of an applicable RCRA requirement which is in effect prior to the date of permit issuance. The permit correction would follow the modification procedures in 40 CFR 124. Citizens would be able to request such a correction using existing procedures in 40 CFR 124.5.	NPRM 12/94. Final rule 12/95.
840-287.00	Adequacy Determinations for State/Tribal Municipal Solid Waste Programs 40 CFR 239	Planned NPRM 58 FR 25047 4/26/93	This regulation will describe procedures EPA will use to make determinations of adequacy for state/tribal solid waste permitting programs, as required by Sect. 4005 of RCRA.	NPRM 1/94. Final rule 1/95.
*840-294.00	Amendments to Biennial Reporting Requirements 40 CFR 262.41 40 CFR 264.75 40 CFR 265.75 40 CFR 271.10	Planned NPRM 58 FR 25044 4/26/93	EPA plans an amendment to require states to modify their hazardous waste reporting systems to collect additional data elements from their large quantity generators and TSD facilities. Such data will help EPA to better understand the demographics of hazardous waste generation and management.	NPRM 8/93. Final rule 8/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
840-295.00	Treatment of Indian Tribes as States Under RCRA Subtitle C 40 CFR 271	Planned NPRM 58 FR 25046 4/26/93	EPA will propose to treat Indian tribes as states for purposes of the Subtitle C program. This regulation will establish the definition of an Indian tribe and the criteria it must meet to be treated as a state for authorization purposes.	NPRM 10/93. Final rule 10/94.
*840-302.01	Guidance on Storage of Low-Level Radioactive Mixed Waste	Notice 57 FR 48051 10/21/92	EPA and NRC plan to issue a joint guidance document on the storage of mixed radioactive and hazardous waste to assist individuals currently storing mixed waste to meet the regulatory requirements of AEA and RCRA, and have scheduled a meeting to receive input on issues to be addressed in the document.	<u>Proposed guidance 9/93.</u>
840-305.00	Treatment and Disposal of Hazardous Soil and Newly Identified Wastes (TC Organic Wastes) - LDRs Phase II 40 CFR 268	ANPRM 56 FR 55160 10/24/91 Planned NPRM 58 FR 25038 4/26/93	EPA will propose treatment standards that must be met before contaminated hazardous soil and certain newly identified wastes (e.g., toxicity characteristic wastes) may be disposed of on land.	NPRM 8/93. Final rule 8/94.
*840-307.00	Hazardous Waste Recycling - Batteries, Closed Loop; Use Constituting Disposal (Universal Waste Rule) 40 CFR 261 40 CFR 266	NPRM 58 FR 8102 2/11/93 Regulatory Agenda 58 FR 25050 4/26/93	EPA proposes streamlining requirements for the collection of certain widespread post-user items that are hazardous wastes (e.g., certain batteries and cancelled and suspended or recalled pesticides) to facilitate the separation of these materials from the municipal waste stream and encourage proper treatment and/or recycling.	Final rule 9/93. NPRM on "use constituting disposal" put on delayed track; <u>no schedule as yet.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
840-317.00	Interim Status Groundwater Monitoring Requirements for Newly Regulated Land Disposal Facilities 40 CFR 265 40 CFR 270	Planned NPRM 58 FR 25040 4/26/93	EPA will propose to clarify and revise the timing of certain monitoring requirements and revise the groundwater monitoring certification requirement for interim status land disposal facilities.	NPRM tabled until 1994.
840-318.00	Spent Solvents Listing Determination and Study 40 CFR 261 40 CFR 271 40 CFR 302	Planned NPRM 58 FR 25040 4/26/93	EPA will propose to list or not list as RCRA hazardous wastes ten spent solvents and/or still bottoms from their recovery. The solvents are cumene, phenol, isophorone, acetonitrile, furfural, epichlorohydrin, methyl chloride, ethylene dibromide, benzyl chloride, and p-dichlorobenzene. Any solvents listed will be added to the CERCLA list of hazardous substances with reportable quantities.	NPRM 4/94. Final rule 6/95.
840-319.00	Chlorinated Aliphatics Listing Determination Under RCRA Subtitle C 40 CFR 261 40 CFR 271 40 CFR 302	Planned NPRM 58 FR 25040 4/26/93	EPA will propose to list or not to list as RCRA hazardous wastes wastewaters and wastewater treatment sludge from the production of approximately 25 chlorinated aliphatics. If listed, these wastes will be designated as CERCLA hazardous substances with reportable quantities established.	NPRM 12/94. Final rule 10/95.
840-320.00	Delisting Program - Incorporation of EPA's Composite Model for Landfills 40 CFR 260.22	Planned NPRM 58 FR 25041 4/26/93	The delisting program intends to promulgate the use of EPA's Composite Model for Landfills (EPACML) into the delisting regulations for predicting the potential impact on human health and the environment of hazardous constituents that may be released from the petitioned wastes. Currently the RCRA regulations do not include any specific model for use in delisting.	NPRM 12/93. Final rule 12/94.
840-321.00	Suspension of the TC Rule for Non-UST Petroleum Contaminated Media 40 CFR 261	NPRM 57 FR 61542 12/24/92 Regulatory Agenda 58 FR 25051 4/26/93	EPA proposes to suspend the toxicity characteristic (TC) rule in states with adequate petroleum response programs, as it applies to non-UST petroleum contaminated media and debris (waste codes D018-D043), for a period of three years while EPA researches and makes a final decision as to the appropriate regulatory treatment for these materials.	Final rule 8/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-322.00	Applicability of the TC Rule to Petroleum-Contaminated Media and Debris from USTs 40 CFR 261	NPRM 58 FR 8504 2/12/93 Regulatory Agenda 58 FR 25051 4/26/93	EPA proposes to exempt petroleum-contaminated media and debris, such as soils and groundwater, generated from UST corrective actions from certain hazardous waste regulations under RCRA. The exemption would be limited to the 25 newly listed organic chemicals under the TC (hazardous waste codes D018 through D043).	<u>Final rule 12/93.</u>
*840-323.00	Identification and Listing of Hazardous Waste Treatability Studies Sample Exemption 40 CFR 261	Planned NPRM 58 FR 25042 4/26/93	Under the existing treatability studies exclusions, up to 1000 kg of non-acutely hazardous waste may be treated from a single waste stream with a maximum of 250 kg per day. This quantity limit is insufficient for testing many pilot-scale technologies. EPA will revise this to set new limits based on needs for testing and de minimus risk.	<u>NPRM 8/93. Final rule 3/94.</u>
*840-324.00	Revision of Designation of Pentachlorophenol Listed Wastes and Basis for Listing Criteria 40 CFR 260-261 40 CFR 264-265 40 CFR 271 40 CFR 302	Planned NPRM 58 FR 25043 4/26/93	EPA will propose to delete part of F027, discarded unused formulations of pentachlorophenol, and to add it as U242, pentachlorophenol, to the RCRA listed hazardous wastes under 40 CFR 261.33. EPA will also clarify the criteria used for F021 listing and propose less stringent management standards for F021 and discarded unused portions containing pentachlorophenol.	<u>Rulemaking divided into two parts. Part I NPRM on hold. Part II NPRM on listing criteria 7/93. Final rule 2/94.</u>
*840-325.00	Field Filtering of Ground Water Samples Under Subtitles C and D 40 CFR 258.51(b) 40 CFR 264.97(e)	Planned NPRM 58 FR 25046 4/26/93	Subtitle D presently bans field filtering of groundwater monitoring samples, and subtitle C intends to propose a similar ban. EPA will present its explanation for the banning decision and will propose, based on comments/data, to either (1) remove the ban/intent to ban from subtitle D or (2) maintain the ban in subtitle D and institute it in subtitle C.	<u>NPRM 8/93. Final rule 8/94.</u>
840-326.00	Clarify Lender Liability for Underground Storage Tanks 40 CFR 280	Planned NPRM 58 FR 25048 4/26/93	This regulation will clarify the liability of secured creditors ("lenders") regarding contaminated properties they hold as collateral. The clarification is needed to remove a current barrier to the financing of UST facilities and increase the amount of capital available to UST owners.	<u>NPRM 9/93. Final rule 9/94.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RJ NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-328.00	Hazardous Waste Imports/Exports - Implementation of OECD Decision for Recyclable Wastes 40 CFR 261-266	Planned final rule 58 FR 25051 4/26/93	On March 30, 1992, the Organization for Economic Cooperation and Development (OECD) adopted the Council's Final Decision on the Control of Transfrontier Movements of Wastes Destined for Recovery Operations. This decision establishes a graduated system of procedural controls for the export and import of wastes for recovery depending on whether a waste is included in the green, amber, or red lists. EPA will codify this legally binding decision in a RCRA final rule.	<u>Final rule 11/93.</u>
840-329.00	Modifications to Definition of Solid Waste and Hazardous Waste Recycling 40 CFR 261 40 CFR 266	Planned ANPRM 58 FR 25037 4/26/93	EPA will propose to improve the implementation of the regulations that define a solid waste and the regulations governing the recycling of hazardous wastes.	ANPRM tabled; no action before 10/93.
840-330.00	Standard on Safe Entry and Cleaning of Petroleum Storage Tanks	NOI 58 FR 3934 1/12/93	The National Institute of Standards and Technology, on behalf of the American Petroleum Institute (API), announces a proposed revision to the standard API publication 2015, "Safety Entry and Cleaning of Petroleum Storage Tanks."	Final revisions undetermined.
*840-331.00	State Hazardous Waste Management Program - Vermont 40 CFR 271	Immediate final rule 58 FR 26242 5/3/93	EPA grants final authorization to Vermont for revisions to its base RCRA hazardous waste program, and for final authorization for non-HSWA requirements prior to non-HSWA Cluster I, non-HSWA Clusters I-V, HSWA Cluster I, and TCLP for HSWA Cluster II, subject to public review and comment.	<u>Effective 7/2/93.</u>
*840-332.00	State Hazardous Waste Management Program - Virginia 40 CFR 271	Immediate final rule 58 FR 32855 6/14/93	EPA grants final authorization to Virginia for revisions to its state hazardous waste management program, subject to public review and comment.	<u>Effective 8/13/93.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
COMPREHENSIVE ENVIRONMENTAL RESPONSE, COMPENSATION, AND LIABILITY ACT				
Non-APA Consolidated Rules of Practice for Administrative Assessment of Civil Penalties Under CERCLA, SARA, SDWA, and CWA -- RU# 190-059.00				
List of Substances and Threshold Quantities -- RU# 120-183.00				
190-025.00	Type B Natural Resource Damage Assessments - Revisions 43 CFR 11	ANPRM 54 FR 39016 9/22/89 NPRM 56 FR 19752 4/29/91 Regulatory Agenda 58 FR 24453 4/26/93	To comply with a court decision, DOI proposes revisions to the type B natural resource damage assessment rule. The proposed rule provides for a unified process for trustees to develop claims for both (1) the costs of restoration, rehabilitation, replacement, and/or acquisition of equivalent resources and (2) reliably calculated lost values of the injured resources, with no required hierarchy of valuation methodologies for determining those values.	Will reopen comment period and issue final rule by 10/93.
190-025.01	Type B Natural Resource Damage Assessments - Biennial Review 43 CFR 11	Planned ANPRM 58 FR 24452 4/26/93	As required under CERCLA Sect. 301(c)(3), EPA will begin a biennial review of the type B natural resource damage assessment rule (RU# 180-025.00) once its revisions are finalized.	ANPRM 10/93.
190-042.00	Federally Permitted Releases 40 CFR 117 40 CFR 302 40 CFR 355	NPRM 53 FR 27268 7/19/88 Supplemental Notice 54 FR 29306 7/11/89 Regulatory Agenda 56 FR 25084 4/26/93	EPA proposes to clarify the federally permitted release exemptions from CERCLA release reporting and liability provisions.	Final rule 11/93.
190-056.00	Designation of Extremely Hazardous Substances as CERCLA Hazardous Substances 40 CFR 302	NPRM 54 FR 3388 1/23/89 Notice 54 FR 15802 4/19/89 Regulatory Agenda 58 FR 25087 4/26/93	EPA proposes to designate 226 extremely hazardous substances (EHSS), as defined in Sect. 302 of SARA, as hazardous substances pursuant to Sect. 102 of CERCLA. EPA intends to reduce potential confusion concerning the different SARA Title III and CERCLA requirements by ensuring consistent procedures for reporting releases of all EHSS.	Final rule on hold until Assistant Administrator appointed.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; MOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*180-072.00	RQ Adjustments for Substances on the Extremely Hazardous Substances List 40 CFR 117 40 CFR 302 40 CFR 355	NPRM 54 FR 35988 8/30/89 Regulatory Agenda 58 FR 25087 4/26/93	EPA proposes to adjust the reportable quantities (RQs) for 225 substances on the extremely hazardous substance list, which EPA has proposed for designation as CERCLA hazardous substances and 19 substances that are already CERCLA hazardous substances. In addition, EPA will incorporate the threshold planning quantity methodology as part of the RQ adjustment methodology.	<u>Final rule on hold until Assistant Administrator is appointed.</u>
*180-073.00	National Contingency Plan - Off-Site Response Actions 40 CFR 300.440	NPRM 53 FR 48218 11/29/88 Regulatory Agenda 58 FR 25049 4/26/93	EPA proposes to amend the National Contingency Plan by adding a new Sect. 300.440 dealing with the off-site management of CERCLA wastes, including those resulting from CERCLA decision documents signed before the enactment of SARA. The rule prescribes procedures whereby affected facilities may ask EPA for review of the off-site acceptability determinations.	<u>Final rule 7/93.</u>
*180-077.00	Natural Resource Damage Assessments-Type A - Coastal and Marine Environment 43 CFR 11	ANPRM 54 FR 5093 2/1/89 ANPRM 54 FR 39013 9/22/89 Planned NPRM 58 FR 24453 4/26/93	DOI intends to revise the type A natural resource damage assessment procedure for coastal and marine environments to conform with recent court rulings, specifically, the incorporation of restoration or replacement values and the inclusion of all reliably calculated lost use values, with no required hierarchy of methodologies for conducting those valuations.	<u>MPRM 8/93.</u>
180-077.01	Natural Resource Damage Assessments - Type A - Great Lakes Environment 43 CFR 11	ANPRM 53 FR 20143 6/2/88 ANPRM 54 FR 39015 9/22/89 Correction 54 FR 41363 10/6/89 Planned NPRM 58 FR 24453 4/26/93	DOI intends to make modifications to its ongoing efforts to develop a type A natural resource damage assessment procedure for Great Lakes environments to conform with recent court rulings.	MPRM beginning interagency review; expect publication 7/93.
*180-086.01	Toxicological Profiles - Criteria for Selection for Development	NOA 58 FR 27286 5/7/93	ATSDR announces the criteria it uses to prioritize the development of toxicological profiles for the hazardous substances most commonly found at MPL sites. A background document is also available.	<u>Comments at any time.</u>

(n) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

EU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*180-092.00	National Contingency Plan - Subpart K, Federal Facilities Requirements 40 CFR 300	Planned NPRM 58 FR 25083 4/26/93	EPA plans to propose Subpart K which will serve as a roadmap to the MCP for requirements pertaining to federal agencies conducting response actions at federal facilities where the release is on or where the sole source is from their facility.	<u>NPRM 9/93. Final rule 9/94.</u>
180-096.00	CERCLA Cost Recovery Program 40 CFR 300 40 CFR 308	NPRM 57 FR 34742 8/6/92 Regulatory Agenda 58 FR 25085 4/26/93	EPA is granted the authority, under CERCLA, to hold potentially responsible parties (PRPs) liable for the cost of cleanup. It is Agency policy to pursue those PRPs for cost expected if a cleanup settlement is not reached. EPA proposes specific recoverable costs, the documentation sufficient to prove EPA's case, and the documents that will be available to PRPs.	Final rule 12/93.
*180-105.00	RQs of Lead, Lead Compounds, and Lead-Containing Hazardous Waste Streams 40 CFR 117 40 CFR 302 40 CFR 355	NPRM 57 FR 20014 5/8/92 Correction 57 FR 28471 6/25/92 Final rule 58 FR 35314 6/30/90	EPA adjusts the reportable quantity for lead metal, 12 lead compounds, 15 lead-containing hazardous waste streams, lead-containing RCRA TCLP wastes, and methyl isocyanate (MIC).	<u>Effective 7/30/93.</u>
*180-106.00	Procedures for Reimbursement Petitions Under CERCLA 40 CFR undetermined	NOA 57 FR 36402 8/13/92 Planned NPRM 58 FR 25083 4/26/93	EPA is considering proposing a rule to set out a uniform process to review petitions for cost reimbursement filed by parties who have been ordered to clean up Superfund sites.	<u>NPRM 9/94.</u>
180-119.00	CAA Hazardous Pollutants - CERCLA Designation and RQ Adjustments 40 CFR 302.4	Planned NPRM 58 FR 25082 4/26/93	EPA will designate as CERCLA hazardous substances non-CERCLA hazardous air pollutants recently added to Sect. 112 of the CAA by the amendments of 1990 and will adjust the RQs of these hazardous air pollutants.	<u>NPRM 8/93. Final rule 8/94.</u>
180-120.00	Procedures for Contract Laboratory Program Investigation - NCP Appendix 40 CFR 300	NPRM 57 FR 21576 5/20/92 Regulatory Agenda 58 FR 25086 4/26/93	EPA proposes procedures for OSWER to deal consistently with Contract Laboratory Program (CLP) labs under investigation for alleged fraud.	Final rule 8/93.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
180-124.00	Settlement Policy on Risk Assessments at Superfund Sites	Notice 57 FR 6116 2/20/92 NOA 58 FR 13757 3/15/93	EPA announces the availability for review of an evaluation report on its 6/21/90 settlement policy on the performance of risk assessments at Superfund sites under CERCLA.	Final decision on settlement policy 8/93.
*180-126.00	National Priorities List - Thirtieth Update 40 CFR 300	NPRM 57 FR 47204 10/14/92 Regulatory Agenda 58 FR 25086 4/26/93	EPA proposes to add nine sites, including one federal facility site, to the MPL. The federal facility site is a naval air station.	Final rule 12/93.
180-133.00	Administrative Reporting Exemptions for Certain Radionuclide Releases 40 CFR 302 40 CFR 355	NPRM 57 FR 56726 11/30/92 Correction 58 FR 5056 1/25/93 Regulatory Agenda 58 FR 25085 4/26/93	EPA proposes administrative reporting requirements for radionuclide releases from (1) large land holdings, (2) disturbances of land for purposes other than mining, (3) the dumping of coal and coal ash at utility and industrial facilities with coal-fired boilers, and (4) coal and coal ash piles at these facilities.	Final rule 1/94.
*180-134.00	National Priorities List - Fourteenth Update 40 CFR 300	NPRM 58 FR 27507 5/10/93	EPA proposes to revise the National Priorities List (NPL) for uncontrolled waste sites to add 7 sites, including DOE's Paducah Gaseous Diffusion Plant, to the federal facilities section and 19 sites to the general section.	Final rule 6/94.
180-135.00	National Contingency Plan - Technical Revisions 40 CFR 300	Planned NPRM 58 FR 25084 4/26/93	EPA has identified several provisions in the MCP that may be interpreted differently than the Agency intended. EPA will propose clarifications to four sections of the MCP to eliminate potential ambiguity and reaffirm the Agency's original intent.	NPRM still at OMB.
180-136.00	Hazardous Substance Response and Emergency Response Worker Training and Contractor Certification Program CFR undetermined	Planned NPRM 58 FR 24256 4/26/93	DOE is required to assess civil penalties against contractors at DOE nuclear weapons facilities who fail either to provide training to employees engaged in hazardous substance response and emergency response or fail to certify that such workers have been adequately trained. This regulation will provide the requirements for this training and the procedures for enforcement.	NPRM undetermined.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*180-139.00	Environmental Data Needed for Public Health Assessments	NOA 58 FR 12306 3/3/93	EPA announces the availability of a draft guidance document, "Environmental Data Needed for Public Health Assessments," prepared by ATSDR, which describes the general focus of a public health assessment and provides a list of site information and environmental data that ATSDR attempts to obtain from EPA, PRPs, and lead agencies responsible for conducting environmental investigations.	Final guidance document <u>undetermined</u> .
*180-140.00	National Priorities List - Fifteenth Update 40 CFR 300	NPRM 58 FR 34018 6/23/93	EPA proposes to revise the National Priorities List (NPL) for uncontrolled waste sites to add seven sites to the general section and ten to the federal facilities section. None of the proposed sites are DOE sites.	Comments by 8/23/93. Final rule 12/94.
FEDERAL FACILITIES COMPLIANCE ACT				
185-001.00	National Compliance Plan for DOE Mixed Waste	NOA 57 FR 57170 12/3/92	In response to the Federal Facilities Compliance Act of 1992, DOE issues a draft Strategy for Development of a National Compliance Plan for DOE Mixed Wastes. Purpose of the Strategy is to indicate how DOE will develop a National Compliance Plan which will integrate DOE's current mixed waste management activities into a comprehensive long-range plan to ensure development of adequate waste treatment capacity and to promote compliance with applicable laws and regulations.	Issue draft of National Compliance Plan by 10/93; issue final for EPA/state comments by 10/94.
185-003.00	Interim Mixed Waste Inventory Report	NOA 58 FR 25822 4/28/93	Under the FFCA of 1992, DOE announces the availability of the Interim Mixed Waste Inventory Report on Waste Streams, Treatment Capacities, and Technologies.	Comments by 7/26/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RUM indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
190-060.00	Toxic Chemical Release Reporting - Sulfuric Acid 40 CFR 372	NPRM 56 FR 34156 7/26/91	EPA grants a petition to modify the listing for sulfuric acid on the list of toxic chemicals subject to Sect. 313 of EPCRA. Specifically, EPA proposes to delete nonaerosol forms of sulfuric acid from the list of toxic chemicals subject to Sect. 313.	Final rule 9/93.
*190-061.00	Addition of Air Toxics to Toxics Release Inventory 40 CFR 372	Planned NPRM 58 FR 25015 4/26/93	EPA will propose to add 17 chemicals to the list of toxic chemicals subject to Sect. 313 reporting requirements under EPCRA. Sixteen were designated hazardous air pollutants under the CAA Amendments of 1990; the seventeenth is extremely toxic to aquatic organisms.	NPRM 8/93.
*190-063.00	Toxic Chemical Release Reporting - HCFCs 40 CFR 372	NPRM; NOA 57 FR 28159 28180 6/24/92	EPA proposes to add hydrochlorofluorocarbons (HCFCs) as a category to the list of toxic chemicals subject to reporting under Sect. 313 of EPCRA. A guidance document on HCFCs covered by the proposed category is available.	Final rule 12/93.
190-064.00	Toxic Chemical Release Reporting - Addition of Chemicals; SNUR 40 CFR 372 40 CFR 721	NPRM 57 FR 41020 9/8/92	In response to a petition, EPA proposes to add 68 chemicals and 2 chemical categories to the list of toxic chemicals subject to EPCRA reporting. Alternatively, EPA proposes to add only those identified chemicals that are produced in quantities greater than a certain annual manufacturing volume threshold set by EPA, and proposes a significant new use rule (SNUR) under TSCA that would cover substances manufactured in amounts less than this manufacturing volume threshold.	Final rule 9/93.
*190-065.00	Amendments to the Extremely Hazardous Substances List Under EPCRA 40 CFR 355	Planned NPRM 58 FR 25084 4/26/93	EPA will correct mistakes found in the extremely hazardous substances list under Sect. 302 of EPCRA due to errors found in the studies used to place the chemicals on the list.	NPRM 7/93. Final rule 7/94.
*190-066.00	EPCRA Toxic Release Inventory - Expanded Reporting Requirements 40 CFR 372	Planned NPRM 58 FR 25015 4/26/93	EPA is considering an expanded list of chemicals that facilities will have to submit information on for the Toxic Release Inventory. Also, the list of facilities required to submit such information may be expanded. EPA will selectively propose groupings of chemicals and industries to be added.	NPRM 12/93.
190-067.00	Toxic Chemical Release Reporting - Deletion of Di-n-octyl phthalate 40 CFR 372	NPRM 58 FR 4133 1/13/93	EPA proposes to grant a petition to delete di-n-octyl phthalate from the list of toxic chemicals subject to reporting under Sect. 313 of EPCRA.	Final rule undetermined.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*190-069.00	Toxic Chemical Release Reporting - Chromium, Nickel, Copper 40 CFR 372	Denial of petition 58 FR 34738 6/29/93	EPA denies three petitions to exempt from EPCRA Sect. 313 reporting requirements chromium, nickel and copper when contained in stainless steel, brass, bronze and other alloys because these chemicals cause various adverse human health and environmental effects and petitioners failed to provide data to support their belief that activities involving alloys of these metals would not lead to their availability.	Comments by 8/30/93.
POLLUTION PREVENTION ACT				
195-002.00	Mandatory Pollution Prevention Reporting in TRI Reports 40 CFR 372	NPRM 56 FR 48475 9/25/91 Notice 57 FR 22330 5/27/92 Regulatory Agenda 58 FR 25020 4/26/93	EPA proposes to make mandatory the reporting of source reduction and recycling information in the Toxic Chemical Release Inventory (TRI) reports, including the quantity of a chemical entering any wastestream, released, recycled, or treated at a facility, and a production ratio or activity index for the reported chemical.	Final rule 8/93.
SAFE DRINKING WATER ACT				
Drinking Water Chemicals Proposed Test Rule - RU# 920-123.00				
Non-APA Consolidated Rules of Practice for Administrative Assessment of Civil Penalties Under CERCLA, SARA, SDWA, and CWA - RU# 190-059.00				
880-007.00	Primary Drinking Water Regulations - Radionuclides (Phase IV) 40 CFR 141 40 CFR 142	ANPRM for MCLGs 48 FR 45502 10/5/83 ANPRM for MCLs 51 FR 34836 9/30/86 NPRM 56 FR 33050 7/18/91 Corrections 56 FR 43573 9/3/91 Corrections 56 FR 52241 10/18/91 Regulatory Agenda 58 FR 25036 4/26/93	EPA proposes MCLGs of zero and the following MCLs for radionuclides: radium-226 and radium-228, 20 pCi/l; radon-222, 300 pCi/l; uranium, 30 pCi/l; beta and photon emitters (excluding radium-228), 4 mrem/yr; gross alpha emitters (excluding radium-226, uranium, and radon-222), 15 pCi/l. EPA also proposes monitoring, reporting, and public notification requirements for these radionuclides. In addition, this rule will also establish analytical techniques to identify radium-228 in drinking water.	Final rule scheduled for 4/93 but Congress voted to delay the regulation until the end of 1993. EPA will propose an extension and probably issue final rule in 1994.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*880-010.02	Reconsideration of NPDRs - Aldicarb and Atrazine 40 CFR 141	Planned NPRM 58 FR 25035 4/26/93	EPA is reconsidering the NPDRs for aldicarb, aldicarb sulfone, aldicarb sulfoxide and atrazine because new analyses of critical studies have caused the RfDs for all four chemicals to be re-examined. The MCL for atrazine is in effect, while the effective date for MCLs for aldicarb compounds has been stayed (57 FR 22178).	<u>NPRM undetermined.</u>
880-011.00	NPDRs - Groundwater Disinfection 40 CFR 141 40 CFR 142	NOA 57 FR 33960 7/31/92 Planned NPRM 58 FR 25034 4/26/93	EPA will propose that all public water systems using groundwater use disinfection treatment processes unless they have natural disinfection or meet specified variance criteria. EPA makes available a draft summary of the Groundwater Disinfection Rule.	NPRM 8/94. Final rule 9/96.
880-013.00	NPDRs - Inorganic and Organic Compounds (Phase V/24) 40 CFR 141 40 CFR 142 40 CFR 143	ANPRM 48 FR 45502 10/5/83 NPRM 55 FR 30370 7/25/90 NOA 56 FR 60949 11/29/91 Final rule 57 FR 31776 7/17/92 Notice 57 FR 46025 10/6/92	EPA sets MCLs and MCLGs for 18 synthetic organic chemicals and five inorganic chemicals. The NPDRs consist of MCLs and monitoring, reporting, and public notification requirements. EPA defers setting an MCL/MCLG for sulfate and a SMCL for hexachlorocyclopentadiene at this time. EPA also sets the best available technology (BAT) upon which the MCLs are based and BAT for the purpose of issuing variances.	MCLs/MCLGs effective 1/17/94 except for Endrin's which is effective 8/17/92.
*880-013.01	NPDRs - Sulfate 40 CFR 141 40 CFR 142	Planned NPRM 58 FR 25035 4/26/93	EPA will propose a NPDR and MCLG for sulfate in drinking water. The contaminant was deferred from the Phase V regulation in order to allow the Agency time to focus on implementation issues concerning the risk to specific subpopulations of sulfate in drinking water.	<u>NPRM 10/93. Final rule 12/94.</u>
880-027.00	Amendments to the UIC Program ("Reg Fix Package") 40 CFR 144 40 CFR 146	NPRM 55 FR 26462 6/28/90 Regulatory Agenda 58 FR 25036 4/26/93	EPA proposes amendments to the UIC noncompliance and program reporting requirements and to the mechanical integrity requirements. EPA also clarifies how existing injection wells become authorized by rule and when injection is prohibited for failure to comply with authorization-by-rule requirements. Finally, EPA codifies SDWA Sect. 1445(a)(1) as it applies to the UIC program.	Final rule 9/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (e)	ANTICIPATED CHANGES	SCHEDULED ACTION
*880-030.00	Wellhead Protection and Sole Source Aquifer Demonstration Programs - Indian Tribes 40 CFR 35	NPRM 52 FR 46712 12/9/87 Regulatory Agenda 58 FR 25036 4/26/93	EPA proposes procedures for determining eligibility of Indian Tribes to apply for treatment as states in receiving grants for wellhead protection and/or sole source aquifer demonstration programs.	<u>Final rule 6/94.</u>
880-046.00	NPDMs - Arsenic 40 CFR 141	Planned NPRM 58 FR 25034 4/26/93	The current standard for arsenic in drinking water is an interim standard. This rule will set a final MCL and MCLG as required by the SDWA Amendments of 1986. EPA has been sued on the schedule for proposal and promulgation of the arsenic NPDMs. The final schedule is dependent on settlement of the suit.	NPRM 9/94. Final rule 9/96.
*880-049.00	Management of Class V Injection Wells Under Part C 40 CFR 144 40 CFR 145 40 CFR 146	Planned NPRM 58 FR 25036 4/26/93	EPA will establish a regulatory framework for the management of Class V wells, such as certain septic systems and a variety of drainage wells, that will protect against contamination of groundwater while recognizing the difficulties of this diverse well class.	<u>NPRM 9/93. Final rule 6/94.</u>
*880-050.00	NPDMs - Contaminants From First Drinking Water Priority List (Phase VI) 40 CFR 141	NOI 57 FR 42533 9/15/92 Notice 57 FR 53866 11/13/92 Notice 57 FR 61867 12/29/92 Planned NPRM 58 FR 25034 4/26/93	EPA will set MCLGs and NPDMs for about 25 contaminants from the first drinking water priority list, as required by the SDWA Amendments of 1986. The 25 contaminants come from two groups: disinfection by-products (Phase VI-A) and organic and inorganic chemicals (Phase VI-B). EPA announces the establishment of an advisory committee to negotiate a proposed disinfection byproducts rule.	<u>NPRM 12/93. Final rule 12/94.</u>
880-053.00	Revision of VOC Analytical Methods 40 CFR 141	Planned NPRM 58 FR 25037 4/26/93	EPA will propose to allow the use of the updated VOC methods 502.2, 503.1, 504, 524.1, and 524.2 for compliance monitoring of trihalomethanes in drinking water.	NPRM 11/93. Final rule 11/94.
*880-060.00	Revision of Analytical Methods for Regulated DW Chemicals 40 CFR 141	Planned NPRM 58 FR 25033 4/26/93	EPA will propose to withdraw approval of outdated methods for analyzing drinking water contaminants, update older methods, and/or approve new methods. The revisions have been recommended by ORD and various standards-setting organizations.	<u>NPRM 11/93.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
CLEAN WATER ACT				
Non-APA Consolidated Rules of Practice for Administrative Assessment of Civil Penalties Under CERCLA, SARA, SDWA, and CWA - RU# 190-059.00				
140-018.00	Guidelines Establishing Test Procedures for the Analysis of Pollutants - Dioxin Measurement 40 CFR 136	NPRM 56 FR 5090 2/7/91 Notice 56 FR 24814 5/31/91	Under Sect. 304(h) of the CWA, EPA proposes to amend the guidelines establishing test procedures for the analysis of pollutants by adding a method for the analysis of 17 tetra-through octa-chlorinated dioxin and furan compounds.	Final rule placed on hold.
140-039.00	NPDES Permit - Compliance Extension for Innovative Technologies 40 CFR 122 40 CFR 124 40 CFR 125	NPRM 50 FR 49904 12/5/85	EPA proposes a revised rule for dischargers of toxic and nonconventional pollutants who apply for NPDES extensions to install innovative technologies under Sect. 301(k) of the Clean Water Act.	Reproposed NPRM suspended from OMB review and returned to EPA. No action until 11/93; under evaluation.
*140-041.00	Disposal Sites - Denial or Restriction 40 CFR 231	Planned NPRM 58 FR 25027 4/26/93	EPA will revise 404(c) regulations by establishing procedures to be invoked when they are considering the use of 404(c) to prevent the discharge of dredged or fill material into a defined area of U.S. waters. The revisions are based on a review of previous experience.	Low-priority rulemaking; no schedule as yet.
*140-066.00	Water Quality Standards Numeric Criteria for Toxic Pollutants - State Compliance (National Toxics Rule) 40 CFR 131	NPRM 56 FR 58420 11/19/91 Final rule 57 FR 60848 12/22/92 Corrections 58 FR 31177 6/1/93 Correction 58 FR 34499 6/25/93	EPA promulgates for 14 states chemical-specific numeric criteria for priority toxic pollutants necessary to bring all states into compliance with the requirements of Sect. 303. States already in full compliance are not affected by this rule. EPA also withdraws the human health criteria published in 1980 for beryllium, cadmium, chromium, lead, methyl chloride, selenium, silver, and 1,1,1-trichloroethane.	Final rule effective 2/5/93.
*140-077.03	NPDES - Surface Water Toxics Control Program - Section 304(l) (Individual Control Strategies) 40 CFR 130	NPRM 57 FR 33051 7/24/92 Regulatory Agenda 58 FR 25030 4/26/93	EPA proposes two options for determining which facilities newly identified under CWA Sect. 304(l) are required to have individual control strategies (ICSS): (1) require ICSS only for point sources originally subject to such a requirement or (2) give the state discretion to determine eligibility on a case-by-case basis.	Final rule 12/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EN-23.

140-084.00	NPDES Permit Application - Standard Form A, Short Form A 40 CFR 122.21(j)	Planned NPRM 58 FR 25027 4/26/93	EPA will revise the current NPDES Permit Application Standard Form A (municipal), and Short Form A (municipal) to reflect amendments to the Clean Water Act and changes in program requirements and emphasis.	NPRM 9/93. Final rule 9/94.
140-085.04	Phase II Storm Water Permitting Program - Additional Sources 40 CFR 122	Notice 57 FR 41344 9/9/92	Under CWA Sect. 402(p)(6), EPA solicits comment on ways to implement the second phase of the storm water permitting program for sources/activities not regulated under the existing program.	NPRM 10/93.
*140-089.00	Biological Test Procedures for the Analysis of Pollutants 40 CFR 136	NPRM 54 FR 50216 12/4/89	EPA proposes to amend 40 CFR 136 by adding new biological measurements and test procedures for the analysis of pollutants under the CWA 304(h) and by updating other procedures. Methods would be added to measure toxicity in effluents and receiving waters, to measure mutagenicity, to monitor viruses in wastewaters and sludges, and to update citations to microbiological methods.	Final rule 8/93.
*140-095.01	Effluent Guidelines and Standards - Organic Chemicals, Plastics, and Synthetic Fibers Category - Remanded Issues 40 CFR 414	NPRM 56 FR 63897 12/6/91 Correction 56 FR 66120 12/20/91 Notice 57 FR 56883 12/1/92 Regulatory Agenda 58 FR 25029 4/26/93	In response to litigation, EPA proposes several amendments to 40 CFR 414 which sets effluent limitations for point sources in the organic chemicals, plastics, and synthetic fibers category. EPA gives notice that it is considering determining that phenol and 2,4-dimethylphenol do not pass through POTWs. If EPA makes this determination, these two pollutants would not be subject to regulation by the categorical pretreatment standards proposed on 12/6/91.	Final rule signed 5/28/93. Publish 7/93.
*140-103.00	Treatment of Indian Tribes as States - NPDES and Sludge Management Programs 40 CFR 122-124 40 CFR 501	NPRM 57 FR 8522 3/10/92 Regulatory Agenda 58 FR 25030 4/26/93	EPA proposes to establish requirements and procedures by which an Indian Tribe may be treated as a state and be approved to administer the NPDES and/or sludge management program.	Final rule 9/93.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*140-108.00	Shore Protection Act Section 4103(B) Regulations 40 CFR undetermined	Planned NPRM 58 FR 25029 4/26/93	The EPA Administrator, in consultation with the Secretary of DOT, is considering regulations: (1) requiring that waste sources, receiving facilities, and vessels provide the means and facilities to assure that waste will not be deposited into coastal waters during handling; (2) requiring the submission and adoption of an operation and maintenance manual of procedures to prevent, report, and clean up waste deposits; and (3) installing of tracking systems if deemed appropriate.	NPRM 8/93. Final rule 10/94.
140-109.00	Waste Treatment Industry Effluent Guidelines and Standards - CWT Facilities (Phase I) 40 CFR 437	Planned NPRM 58 FR 25026 4/26/93	EPA is developing regulations that will cover centralized waste treatment (CWT) facilities that generally treat aqueous and liquid hazardous and non-hazardous waste as Phase I of this regulation.	NPRM 4/94. Final rule 1/96.
*140-109.01	Waste Treatment Industry Effluent Standards and Guidelines - HW Incinerators and Landfill Leachate Discharges (Phase II) 40 CFR 437	Notice 58 FR 27280 5/7/93	EPA announces that it has sent to OMB for review a survey for collecting information in support of developing regulations setting effluent limitations and guidelines for hazardous waste incinerators and landfill leachate discharges.	NPRM 12/95. Final rule 12/97.
*140-110.00	Secondary Treatment Requirements for Municipal Discharge into Marine Waters 40 CFR 125	NPRM 56 FR 2814 1/24/91 Notice 57 FR 46390 10/8/92 Regulatory Agenda 58 FR 25030 4/26/93	EPA responds to statutory changes made to Sect. 301(h) of the CWA which governs secondary treatment waivers for municipal discharges into marine waters. EPA proposes changes to appendices A and B of Subpart G to simplify and revise the application requirements for waivers and permit renewals.	Final rule 8/93.
*140-111.00	CWA Section 404 Program Definition 40 CFR 232.2(q)	Planned NPRM 58 FR 25028 4/26/93	This action would revise the definition of "waters of the U.S." by adding four examples to those currently contained under that definition. The intent is to clarify aspects of the current definition which define waters, "the use, degradation or destruction of which would or could affect interstate or foreign commerce," as waters of the U.S.	Rulemaking placed on low-priority; no revised schedule as yet.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
140-114.00	Bioconcentratable Contaminants	NOA 56 FR 13150 3/29/91	EPA announces the availability of the draft guidance document entitled "Assessment and Control of Bioconcentratable Contaminants in Surface Waters" to provide guidance to state and federal regulators on assessing and, where necessary, controlling the release of pollutants which, due to their chemical properties, accumulate in tissues of aquatic organisms.	Final guidance document 7/93.
*140-119.00	Ambient Water Quality Criteria for Aquatic Life - Metals	NOA 57 FR 24041 6/5/92	EPA announces the availability of interim guidance on interpretation and implementation of ambient WQC for aquatic life for metals in state water quality programs.	Final guidance 9/93.
		NOA 58 FR 32130 6/8/93	EPA makes available the written recommendations it received at a January, 1993 workshop on aquatic life criteria for metals. The workshop focused on the identification of short-term solutions to problems with criteria and permits for metals and additional research needs for metals bioavailability and toxicity.	
*140-120.00	Section 404 Dredge and Fill Program 33 CFR 323 33 CFR 328 40 CFR 110 40 CFR 112 40 CFR 116-117 40 CFR 122 40 CFR 230 40 CFR 232 40 CFR 402	NPRM 57 FR 26894 6/16/92 Regulatory Agenda 57 FR 51223 11/3/92	The COE and EPA propose to modify the definition of discharge of dredged material under Sect. 404 of the CWA, clarify when the placement of pilings is considered discharge of dredged material, and clarify that prior converted croplands are not waters of the United States.	Final rule 7/93.
140-124.00	Exception From Wetlands Mitigation Sequence for Alaska 40 CFR 230	NPRM 57 FR 52716 11/4/92 Regulatory Agenda 58 FR 25031 4/26/93	EPA proposes to provide an exception from the wetlands mitigation sequence for proposed discharges of dredged or fill material into wetlands in states with less than one percent loss of historic wetlands acreage. The exception would only apply to Alaska.	Final rule 11/93.
*140-126.00	Revisions to CWA Section 403 Ocean Discharge Criteria 40 CFR 120 40 CFR 124 40 CFR 125	Planned NPRM 58 FR 25031 4/26/93	The 10/3/80 Sect. 403 ocean discharge criteria regulations established ocean discharge regulations from which a permit writer must make a determination that a discharge will or will not cause unreasonable degradation of the marine environment. These regulations leave gaps for the permitting agency on discharger-specific requirements, and will be revised to address questions arising in implementing them.	Withdrawn 2/26/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*140-127.00	Definition of Wetlands - Exemption of Certain Man-Made Wetlands Under Section 404 40 CFR 230	Planned NPRM 58 FR 25032 4/26/93	EPA will examine placing limits on the regulation of man-made wetlands created voluntarily for purposes other than mitigation requirements and under circumstances where federal subsidies do not substantially contribute to the success of the created area.	<u>Withdrawn 4/1/93.</u>
140-128.00	Section 404 State Wetlands Protection Programs 40 CFR 233	Planned NPRM 58 FR 25028 4/26/93	EPA will work with the DOE to revise the excessively burdensome procedures and requirements for approving and monitoring state wetlands protection programs by developing performance based criteria for the approval of state programs.	NPRM enabled pending review by new administration.
*140-129.00	Wetlands Protection Program - Sequencing Based on a Categorization Scheme 40 CFR 230	Planned NPRM 58 FR 25032 4/26/93	EPA plans to revise existing regulations based on review of the final categorization definitions to be developed by the White House Domestic Policy Council Task Force on Wetlands to implement the Administrator's proposals for removing sequencing requirements for all but the highest category.	<u>Withdrawn 4/1/93.</u>
*140-130.00	Wetlands Protection Program - Allowance for Projects to Proceed Unless Applicant is Otherwise Notified 40 CFR 230	Planned NPRM 58 FR 25032 4/26/93	EPA plans to revise Sect. 404(b)(1) guidelines to clarify that permits shall be considered approved unless the applicant is otherwise notified within six months by the permitting agency. EPA is taking this action to implement a part of the President's wetlands plan.	<u>Withdrawn 4/1/93.</u>
140-133.00	Water Quality Guidance for the Great Lakes System 40 CFR 132	NPRM 58 FR 20802 4/16/93 Correction 58 FR 21016 4/16/93	To satisfy the requirements of Sect. 118(c)(7)(C) of the CWA, EPA issues proposed guidance for implementing water quality standards, anti-degradation policies, and implementation procedures for waters within the Great Lakes System.	Comments by 9/13/93.
*140-135.00	Comparison of Dredged Material to a Reference Sediment 40 CFR 230	Planned NPRM 58 FR 25028 4/26/93	EPA will propose to revise testing provisions to provide for comparisons between dredged material proposed for discharge and a reference sediment that is substantially free of contaminants. This action would make dredged material testing more consistent with testing under the MPRSA.	<u>NPRM 7/93. Final rule 12/93.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
OIL POLLUTION ACT OF 1990				
*145-001.00	Natural Resource Damage Assessments - Oil Pollution Act 15 CFR Ch. IX	ANPRM 55 FR 53478 12/28/90 ANPRM 57 FR 8964 3/13/92 NOA 58 FR 4601 1/15/93 Planned NPRM 58 FR 24151 4/26/93	NOAA intends to develop proposed regulations pursuant to sect. 1006 of the Oil Pollution Act of 1990 to establish procedures by which natural resources trustees may determine recoverable damages as compensation for injury, loss, or destruction of natural resources as a result of a discharge of oil into or upon navigable waters or adjoining shorelines. On 3/13/92 NOAA provided a status report concerning the regulations being developed. NOAA announces the availability of the report provided by the Contingent Valuation Panel on the contingent valuation methodology as part of the rulemaking process.	<u>NPRM 8/93. Final rule 8/94.</u>
145-002.00	Oil Pollution Prevention (Phase I - Spill Prevention, Control, and Countermeasures) 40 CFR 112	NPRM 56 FR 54612 10/22/91 Regulatory Agenda 58 FR 25049 4/26/93	EPA is pursuing a two-phase regulatory approach to propose changes to the oil spill prevention regulation. As Phase I, EPA proposes to establish requirements for Spill Prevention, Control, and Countermeasures (SPCC) to prevent spills of oil into U.S. waters or adjoining shorelines by non-transportation related onshore and offshore facilities and adds a facility notification provision.	Final rule 10/93.
*145-002.01	Oil Pollution Prevention (Phase II - Facility Response Plans) 40 CFR 112	NPRM 58 FR 8224 2/17/93 Corrections 58 FR 19030 4/9/93 Regulatory Agenda 58 FR 25086 4/26/93	EPA proposes a rule to implement requirements directing owners and operators of onshore, non-transportation-related facilities that handle oil to prepare facility response plans for discharges of oil.	<u>Final rule 10/93.</u>
*145-003.00	Revisions to the MCP Required by the Oil Pollution Act 40 CFR 300	Planned NPRM 58 FR 25083 4/26/93	The Oil Pollution Act of 1990 requires that EPA prepare and publish revisions to the National Contingency Plan (NCP) for the removal of oil and hazardous substances to implement the requirements of the Oil Pollution Act. EPA will also consider new mandates, such as adding a Fish and Wildlife Plan and Area Contingency Plans.	<u>NPRM 7/93; at OMB. Final rule 3/94.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

40 CFR 58

ANPRM
44 FR 56730
10/2/79
NPRM
53 FR 14926
4/26/88

EPA proposes to retain the existing NAAQS for sulfur oxides. Adding an alternative 1-hour primary standard of 0.4 ppm to replace the 3-hour standard (0.5 ppm) is being considered. EPA also proposes to revise the significant harm levels, the Pollutant Standards Index for SO₂, and certain monitoring and reporting requirements. EPA incorporates additional material into the dockets for the proposed revisions to the Ambient Air Quality Surveillance requirements. EPA announces its final decision not to revise the secondary standards for sulfur oxides. EPA still needs to issue a final decision regarding whether or not to revise the primary standards.

Final decision on secondary standards effective 5/21/93. Action on final rule regarding primary standards 5/94.

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-116.00	MSPS - Municipal Landfills 40 CFR 60	NPRM 56 FR 24468 5/30/91	EPA proposes to add subpart MMU to 40 CFR 60 for control of new sources and proposes emission guidelines and compliance schedules for existing sources under subpart C. Subpart MMU would limit emissions from certain new and modified municipal solid waste landfills and implement Sect. 111(b) of the CAA. The proposed emission guidelines implement Sect. 111(d) of the CAA which requires the Administrator to prescribe regulations under which the states will submit plans for the control of existing emissions of certain air pollutants for which MSPS have been established.	Final rule 9/93.
		NOA 58 FR 33790 6/21/93	EPA announces the availability of additional data and information on changes in EPA's modelling methodology being used in the development of the final MSPS and EG for MSW Landfills.	Comments by 7/21/93.
120-117.01	NESHAPS for Benzene Waste Operations - Alternative Compliance Options 40 CFR 61	ANPRM 58 FR 15457 3/23/93	EPA may propose an alternative compliance option to the NESHAPS for benzene waste operations applicable to chemical manufacturing plants, coke by-product recovery plants, petroleum refineries, and facilities at which waste treatment units are used to treat, store, or dispose of waste generated by any of the above. The alternative compliance option would be based on site-specific risk assessments.	NPRM undetermined.
*120-118.03	Radionuclides NESHAPS - Stay of Effective Date for Subpart I - MRC-Licensed Facilities 40 CFR 61	NPRM 56 FR 6339 2/15/91 Final rule 56 FR 18735 4/24/91 NPRM 57 FR 43173 9/18/92 NPRM 57 FR 56877 12/1/92 Notice 57 FR 58018 12/8/92 Correction 57 FR 60778 12/22/92	EPA proposes to rescind Subpart I as it applies to MRC-licensed facilities other than nuclear power reactors and allows the stay of Subpart I for these facilities to expire as of 11/15/92. On 12/22/92 EPA publishes a memorandum of understanding (MOU) between EPA and MRC which was supposed to be published as an attachment to its 12/1/92 proposed rule.	Final rule to rescind Subpart I 10/93. Stay of Subpart I expired 11/15/92.

*120-118.04	Radionuclides NESHAPS - Subpart I Rescinded for Power Reactors 40 CFR 61	ANPRM 56 FR 10524 3/13/91 NPRM 56 FR 37196 8/5/91	EPA proposes to rescind Subpart I as it applies to nuclear power reactors.	<u>Final rule 10/93.</u>
120-118.06	Radionuclides NESHAPS - Subpart T Rescinded for Uranium Mill Tailings Sites 40 CFR 61	NPRM 56 FR 67561 12/31/91 Proposed settlement 58 FR 17230 4/1/93	EPA proposes to rescind Subpart T as it applies to owners/operators of uranium mill tailings disposal sites licensed by NRC. The proposal does not concern sites under DOE control. EPA gives notice of a proposed settlement in litigation involving this NESHAP's rule.	Final rule 6/94.
120-148.00	MAAQS - Lead 40 CFR 50.12	Planned NPRM 58 FR 25059 4/26/93	EPA is assessing new health effects information that has become available regarding lead and will make a decision for or against a change in the MAAQS. EPA has prepared a staff paper which has been reviewed and approved by the Clean Air Act Scientific Advisory Committee (CASAC).	NPRM 11/93.
120-149.00	NESHAPS - Asbestos (MACT Revisions) 40 CFR 63	Planned NPRM 58 FR 25060 4/26/93	EPA is considering revising the asbestos NESHAP to require maximum achievable control technology standards. A screening study is underway and a new schedule will be developed when the study is complete.	No schedule for NPRM as yet; final rule due by 11/94.
*120-158.00	NSPS - Medical Waste Incineration 40 CFR 60	Planned NPRM 58 FR 25059 4/26/93	EPA will propose new source performance standards and emission guidelines for existing medical waste incineration sources under Sects. 111 and 129 to reflect the maximum degree of reductions in emissions that have been demonstrated for new units.	<u>NPRM 3/94. Final rule 8/95.</u>
120-170.01	Ambient Air Quality Surveillance - Monitoring Data Reporting Requirements 40 CFR 58	NPRM 57 FR 46003 10/6/92	EPA proposes amendments to change the data reporting requirements for state and local air monitoring stations (SLAMS) and national air monitoring stations (NAMS). The changes would affect the number of monitoring sites required to submit air quality data to the Aerometric Information Retrieval System (AIRS) and the timing for such data submittals.	Final rule 10/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-171.00	Prevention of Significant Deterioration and New Source Review ("Update" Rule) 40 CFR 51 40 CFR 52	Planned NPRM 58 FR 25055 4/26/93	EPA will propose to amend EPA's existing new source review regulations, including prevention of significant deterioration, to conform with the new requirements of the CAA Amendments of 1990.	<u>NPRM 8/93. Final rule 8/94.</u>
*120-173.00	Enhanced Monitoring and Compliance Certification Regulations 40 CFR 70 40 CFR 71	NOA 56 FR 37700 8/8/91 Planned NPRM 58 FR 25056 4/26/93	Regulations will be developed to provide guidance on the appropriate monitoring methods, recordkeeping and reporting requirements, and periodic compliance certification requirements for permits issued under Title V.	<u>NPRM 7/93. Final rule 7/94. Court-ordered deadlines: NPRM 9/30/93. Final rule 9/30/94.</u>
*120-175.01	Clean Fuel Fleet Programs -Vehicle Conversion Regulations 40 CFR 88	NPRM 58 FR 32474 6/10/93	EPA proposes regulations governing the conversion of conventional vehicles to meet clean fuel fleet vehicle requirements, heavy-duty standards for all vehicle/engine classes, and general provisions for state implementation of the clean fuel fleet program.	<u>Comments by 8/16/93. Final rule 4/94. Court-ordered deadline 4/15/94.</u>
*120-176.00	General Provisions for Major and Area Sources of Air Toxics 40 CFR 63	Planned NPRM 58 FR 25061 4/26/93	General provisions are being developed for 40 CFR 63 which will include standards for 189 hazardous air pollutants to be regulated under Sect. 112 of the CAA Amendments of 1990.	<u>NPRM awaiting Administrator's signature; publish 7/93. Final rule 7/94.</u>
*120-178.00	Standards for Tank Vessel Loading Operations CFR undetermined	Planned NPRM 58 FR 25066 4/26/93	This regulation will control VOC and HAP emissions from tank vessel loading operations, as required by Sect. 183 of the CAA Amendments of 1990. Approximately 65,000 metric tons (MT) of VOCs and 8000 MT of HAPs are emitted annually from tank vessel loading operations.	<u>NPRM 10/93. Final rule 10/94. Court-ordered deadlines: NPRM 1/30/94. Final rule 1/30/95.</u>
*120-179.01	General Preamble - Requirements for SIP Submittals - Addendum for PM-10 and Lead Nonattainment Areas	Notice 57 FR 31477 7/16/92	EPA issues a draft addendum to the General Preamble (4/16/92) which contains EPA's preliminary views on how it should interpret Title I with respect to SIP submittal requirements for serious PM-10 and lead nonattainment areas.	<u>Final addendum document 9/93.</u>
*120-181.00	Guidance for Implementation of Section 112(g) - Modifications 40 CFR 63	Planned guidance 58 FR 25062 4/26/93	Guidance is being developed in accordance with the requirements of Sect. 112(g) of the CAA Amendments of 1990 that will set de minimis levels for the 189 listed hazardous air pollutants and establish a ranking for determinations of offsets.	<u>NPRM 12/93. Final rule 10/94.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-183.00	List of Substances and Threshold Quantities for Accidental Release Prevention 40 CFR 68	NPRM 58 FR 5102 1/19/93 Regulatory Agenda 58 FR 25084 4/26/93	EPA proposes an initial list of regulated substances as required under Sect. 112(r) of the CAA. The list includes 100 toxic substances, 62 flammable substances, and commercial explosives as defined by DOT. EPA also proposes threshold quantities for accidental releases for each substance listed and the requirements for the petition process to add or delete chemicals from the final list.	Final rule 9/93. Court-ordered deadline 1/15/94.
*120-184.00	Prevention of Accidental Releases from Stationary Sources and Risk Management Plan 40 CFR 68	Planned NPRM 58 FR 25082 4/26/93	EPA must promulgate regulations and guidance to provide for the prevention and detection of accidental releases from stationary sources. The regulations must require stationary sources to implement a risk management plan for detection and prevention of accidental releases where a regulated substance is present in quantities greater than a threshold amount.	NPRM 8/93; at OMB. Final rule 11/93.
*120-186.00	Clarification of Best Available Control Technology Definition 40 CFR 51 40 CFR 52	Planned NPRM 57 FR 52085 11/3/92	To improve the effectiveness of the prevention of significant air quality deterioration program required by Title I of the CAA, EPA will propose to clarify the regulatory definition of best available control technology (BACT) by adding language that clarifies the legal requirements for a BACT analysis.	Incorporated into RU# 120-171.00.
*120-187.00	Radionuclide Major Source Definition 40 CFR 63	Planned NPRM 58 FR 25062 4/26/93	Sect. 112(a) defines major source as any source that emits 10 tons or more per year of any hazardous air pollutant (HAP) or 25 tons or more per year of any combination of HAPs. The ton quantities are inappropriate for radionuclides, as very small emissions of radionuclides may be extremely hazardous. EPA will, thus, establish different criteria for radionuclides.	NPRM on hold.
*120-189.00	Acid Rain Program - Permits, Allowances, Emissions, CENS 40 CFR 72 40 CFR 73 40 CFR 75 40 CFR 77 40 CFR 78	NPRM 56 FR 63002 12/3/91 Final rule 58 FR 3590 1/11/93 Corrections 58 FR 34126 6/23/93	EPA issues final regulations on permits, an allowance system, continuous emissions, and excess emissions penalties for the CAA acid rain program.	Effective 2/10/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-190.00	Contractor Listing Regulations 40 CFR 15	Planned NPRM 58 FR 25070 4/26/93	The CAA, the CWA, and Executive Order 11738 mandate the exclusion from federal contracts, grants, or loans of facilities which are the source of criminal violations of those statutes and give EPA discretion to so bar facilities which are the source of civil violations. This rule will indicate when and by whom this new authority will be exercised.	<u>NPRM 9/93. Final rule 1/94.</u>
*120-191.00	Title I Economic Incentive Program Rules 40 CFR 51	NPRM 58 FR 11110 2/23/93 Regulatory Agenda 58 FR 25077 4/26/93	EPA proposes rules for states to follow in developing an economic incentive program for reducing ozone and carbon monoxide in serious, severe, and extreme ozone nonattainment areas and serious carbon monoxide areas.	<u>Final rule 10/93. Court-ordered deadline 12/15/93.</u>
120-196.00	Determining Conformity of Federal Actions to SIPs 40 CFR 51 40 CFR 93	Proposed consent decree 58 FR 13595 3/12/93 NPRM 58 FR 13836 3/15/93	EPA gives notice of a proposed consent decree in settlement of litigation against EPA for not promulgating final rules establishing criteria and procedures for determining the conformity of certain federal actions to State Implementation Plans (SIPs) providing for attainment of NAAQS. EPA proposes criteria and procedures for determining conformity of federal actions to SIPs under the CAA.	Final rule 10/93.
*120-198.00	Emission Standards for Source Categories of Hazardous Air Pollutants 40 CFR 63	NOA 57 FR 44147 9/24/92 Regulatory Agenda 58 FR 25079 4/26/93	EPA publishes the draft schedule for the promulgation of emission standards for categories of sources emitting hazardous air pollutants listed under Sect. 112(c) of the CAA.	<u>Final schedule 10/93. Court-ordered deadline 11/15/93.</u>
*120-199.00	Award Regulations 40 CFR 65	Planned NPRM 58 FR 25069 4/26/93	Regulations will be developed to define the criteria for administering awards to persons who furnish information or services which lead to criminal convictions or civil penalties under the CAA.	<u>NPRM 12/93. Final rule 6/94.</u>
120-200.00	Prior Notice of Citizen Suits Under Section 304 40 CFR 54	NPRM 58 FR 7870 2/10/93 Regulatory Agenda 58 FR 25070 4/26/93	EPA proposes changes to the procedures governing the service of notice for citizen suits brought under Sect. 304 of the CAA. The changes clarify the precise entities, method, contents, and timing of such notices.	Final rule 2/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
120-201.00	Field Citation Issuance Regulations 40 CFR 28	Planned NPRM 58 FR 25070 4/26/93	Regulations will be developed to implement the Agency's newly authorized field citation enforcement program. The regulations will define the scope of the program and the hearing procedures.	NPRM 9/93. Final rule 9/94.
*120-203.00	Criteria for Imposing Discretionary Sanctions Under Title I 40 CFR 51	NPRM 57 FR 44534 9/28/92 Regulatory Agenda 58 FR 25075 4/26/93	Under Sect. 110(m) of the CAA, EPA proposes criteria it will use when exercising its discretionary authority to apply sanctions on a statewide basis within 24 months of a finding of a deficiency in a state implementation plan.	Final rule 8/93.
120-205.00	Air Quality - Revision to Definition of VOCs 40 CFR 51	NPRM 57 FR 48490 10/26/92	EPA proposes to revise its definition of VOCs for purposes of preparing SIPs to attain NAAQS for ozone. The proposed revision would add perchloroethylene to the list of compounds excluded from the definition of VOC because it has negligible photochemical reactivity and thus does not contribute to tropospheric ozone formation.	Final rule 10/93.
*120-206.00	Acid Rain Opt-In Regulation 40 CFR 74	Planned NPRM 58 FR 25057 4/26/93	Sect. 410 of the CAA Amendments allows sources not affected by Title IV to "opt-in" Title IV. This regulation will provide the necessary procedures for opting in to the acid rain program.	NPRM 4/94. Final rule 3/95.
*120-207.00	Guidance for States Making MACT Determinations When Lacking a Federal Standard 40 CFR 63	Planned NPRM 58 FR 25064 4/26/93	In the event that EPA fails to promulgate MACT standards on time, states are required to establish case-by-case MACT compliance limits for every major source of emissions that would have been subject to a standard. This guidance will aid the states in making those compliance determinations.	NPRM signed 6/30/93; publish 7/93. Final rule 6/94.
*120-208.00	NESHAPS for Solid Waste TSD Facilities 40 CFR 63	Planned NPRM 58 FR 25065 4/26/93	EPA will specify maximum control technology (MACT) for facilities that treat, store, dispose of, recycle, recover and/or refine solid waste received from off-site. These include commercial waste treatment facilities, used oil re-refining solvent recovery plants, transfer stations, and industrial landfills.	NPRM 1/94. Final rule 2/95.
120-209.00	Federal Operating Permit Rules in Lieu of State Programs 40 CFR 71	Planned NPRM 58 FR 25069 4/26/93	Title V of the CAA requires EPA to establish operating permit programs if states fail to submit an appropriate state program for major stationary sources of air pollutants. This regulation will establish rules and procedures governing this program.	NPRM 1/94. Final rule 11/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
120-210.00	Acid Rain Nitrogen Oxides Emission Reduction Program for Boilers 40 CFR 76	NPRM 57 FR 55632 11/25/92 Corrections 57 FR 61489 12/24/92 Regulatory Agenda 58 FR 25078 4/26/93	EPA proposes nitrogen oxide emission requirements for Phase I tangentially-fired, dry bottom wall-fired boilers which must be met by 1/1/95. Emission limits for a second group of boilers (Phase II), including cyclones and wet bottom wall-fired units, will be promulgated and become effective in 2000. In addition, this proposed rule sets conditions of applications for emission averaging and alternative emission limits for both groups.	Final rule 11/93. Phase II NPRM 4/96. Final rule 1/97.
*120-211.00	Approval/Delegation of Federal Air Toxics Programs to States 40 CFR 63	NPRM 58 FR 29296 5/19/93	EPA proposes to establish procedures and guidance for state agencies for the approval and delegation of state air toxics programs that can be adopted in place of otherwise applicable federal requirements under Title III of the CAA.	Final rule 5/94.
120-212.00	Control Technique Guidelines (CTGs)	Regulatory Agenda 58 FR 25078 4/26/93	The 1990 CAA Amendments require EPA to issue control technique guidelines (CTGs) for 13 source categories within three years of enactment. Current CTGs being developed include, among others, those for industrial wastewater treatment, volatile organic liquid storage tanks, and use of clean-up solvents at industrial plants. The wood furniture, aerospace, and shipbuilding CTGs are on a later schedule.	CTGs for all except wood furniture, aerospace, and shipbuilding 11/93, CTGs for excepted categories 11/94.
120-213.00	Test Methods for Measurement of VOC Capture Efficiency	NOA 57 FR 61897 12/29/92	EPA announces the availability of draft revised test methods for measuring capture efficiency (CE) at coating and printing facilities equipped with a volatile organic compound (VOC) capture system and control device. Comments received will be considered in preparing a proposed rule.	NPRM undetermined.
120-214.00	NSPS - Appendix A; Methods 18, 26, and 26A 40 CFR 60	NPRM 57 FR 62798 12/31/92 Corrections 58 FR 11709 2/26/93	EPA proposes revisions to Methods 18 and 26 and the addition of Method 26A to Appendix A. Method 18 will be revised to clarify the phrase "engineering judgment." Method 26 will be revised to add provisions for determining emissions of other hydrogen halides and halogens. Method 26A is proposed as an isokinetic version of Method 26.	Final rule undetermined.
*120-219.00	NOx and Smoke Emissions from Nonroad Compression Ignition Engines 40 CFR 89	NPRM 58 FR 28809 5/17/93	EPA proposes standards for nitrogen oxide (NOx) and smoke emissions from new nonroad compression-ignition (CI) engines greater than or equal to 50 horsepower with exclusions for certain types of engines.	Comments by 7/27/93. Final rule 11/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-220.00	NSPS for Air Emissions from OSWIs 40 CFR 51	Notice 58 FR 31358 6/2/93	EPA publishes a draft list of types of incinerators to be included under the category of other solid waste incinerators (OSWIs) and a regulatory schedule for promulgating new source performance standards (NSPS) and emission guidelines (EG) for these units.	Final list and schedule 12/93. Final rule by 11/15/2000.
*120-221.00	New Source Review Nonattainment Requirements 40 CFR 51 40 CFR 52	Planned NPRM 58 FR 25058 4/26/93	To comply with the more stringent requirements in the CAA as amended for preconstruction review of new and modified major sources in areas that have been designated as nonattainment, EPA plans to amend its new source review rules.	NPRM 9/93. Final rule 9/94.
*120-222.00	1990 Greenhouse Gas Emissions and Sinks for the U.S.	NOA 58 FR 33818 6/21/93	EPA makes available the "Review Draft of Estimation of Greenhouse Gas Emissions and Sinks for the United States: 1990." The report presents a summary of 1990 U.S. greenhouse gas emissions by source category and sector and contains estimates of CO ₂ , CH ₄ , N ₂ O, CO, N ₂ , HFC, PFC and CFC emissions.	Effective 6/14/93.
*120-503.00	Recycling Program for Ozone-Depleting Substances (Refrigerant Recycling) 40 CFR 82	ANPRM 56 FR 18256 5/1/90 Proposed consent decree 57 FR 57230 12/3/92 NPRM 57 FR 58644 12/10/92 Final rule 58 FR 28660 5/14/93	Under Sect. 608, EPA promulgates standards and requirements regarding the use and disposal of Class I substances during the service, repair, or disposal of appliances and industrial process refrigeration that maximize recapture and recycling.	
120-506.00	Stratospheric Ozone - Product Ban 40 CFR 82	NPRM 57 FR 199 1/16/92 Final rule 58 FR 4768 1/14/93 Corrections 58 FR 8820 2/17/93	EPA bans the sale or distribution of products containing Class I chemicals that are determined to be nonessential. Specific consumer products listed in the CAA include party streamers, lens cleaners, and noise horns.	Effective 2/16/93 for products listed in 40 CFR 82.66(a) and (b); effective 1/17/94 for remainder of listed products.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (P)	ANTICIPATED CHANGES	SCHEDULED ACTION
120-507.00	Stratospheric Ozone Protection - Labeling 40 CFR 82	NPRM 57 FR 19166 5/4/92 Final rule 58 FR 8136 2/11/93	EPA establishes requirements for warning labels on containers of, and products containing or manufactured with, certain Class I and II ozone-depleting substances pursuant to Sect. 611 of the CAA.	Final rule effective 3/15/93. Labeling requirements for products manufactured with or containing Class I substances, and containers containing Class I or II substances effective 5/15/93; other requirements effective 1/1/2015.
120-508.00	Stratospheric Ozone Protection - Federal Procurement 40 CFR 82	Proposed consent decree 57 FR 56339 11/27/92 NPRM 58 FR 19080 4/12/93 Executive Order 58 FR 21881 4/23/93	EPA proposes to require each department, Agency, and instrumentality of the U.S. to conform its procurement regulations to maximize the substitution of safe alternatives of ozone depleting substances. The President issues Executive Order 12843, "Procurement Requirements and Policies for Federal Agencies for Ozone-Depleting Substances."	Final rule 12/93.
*120-509.00	Stratospheric Ozone - Class I and II Safe Alternatives 40 CFR 82	ANPRM 57 FR 1984 1/16/92 NPRM 58 FR 28094 5/12/93 Correction 58 FR 33488 6/17/93	EPA proposes its program, called Significant New Alternatives Policy (SNAP), for evaluating and regulating substitutes for the ozone-depleting chemicals being phased out under the CAA, and issues preliminary decisions on the acceptability of certain substitutes.	Final rule 4/94. Court-ordered deadline 2/15/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NDA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-510.00	Stratospheric Ozone - Listing and Accelerated Phaseout of Class I Chemicals 40 CFR 82	NPRM 58 FR 15014 3/18/93	In response to petitions, EPA proposes to accelerate the schedule for phaseout of ozone-depleting chemicals and proposes regulations for implementing the amendments, adjustments, and decisions adopted by the parties to the Montreal Protocol at their November 1992 meeting. EPA also proposes to add methyl bromide and hydrobromofluorocarbons (HBFCs) to the list of Class I substances and to ban specified trade between the U.S. and foreign states not party to the Protocol.	Final rule 11/93 with an effective date of 1/1/94 except for Montreal Protocol trade provisions which will take effect 30 days after final promulgation.
		Notice 58 FR 29410 5/20/93	EPA requests nominations for essential use exemptions for the phase-out of CFCs, methyl chloroform, carbon tetrachloride, and hydrobromofluorocarbons.	Submit nominations by 7/19/93.
		Notice 58 FR 29574 5/21/93	EPA announces it has sent to OMB for review an information collection which will assist EPA in establishing base-line data and promulgating this final rule.	
NUCLEAR WASTE POLICY ACT				
*700-019.01	Emergency Planning Licensing Requirements for ISFSI and MRS Facilities 10 CFR 72	NPRM 58 FR 29795 5/24/93	NRC proposes emergency planning and licensing requirements for independent spent fuel storage installations (ISFSI) and monitored retrievable storage facilities (MRS) to ensure that local authorities will be notified in the event of an accident so that they may take appropriate action.	Comments by 8/9/93. Final rule 2/94.
700-022.00	HLW Disposal in Geologic Repositories - EPA and NRC Conforming Amendments 10 CFR 60	NPRM 51 FR 22288 6/19/86 Regulatory Agenda 58 FR 25390 4/26/93	NRC proposes to conform its regulations for disposal of high-level radioactive wastes in geologic repositories to EPA standards as mandated by the NUPA. The EPA HLW standards, however, have been invalidated by a federal court.	On hold pending promulgation of revised HLW standards by EPA.
700-049.00	Radiation Dose Criteria for Accidents at HLW Geologic Repositories (Design Basis Events) 10 CFR 60	Notice of receipt 55 FR 28771 7/13/90 Correction 55 FR 32639 8/10/90 Planned NPRM 58 FR 25392 4/26/93	NRC will propose to amend the regulations concerning radiation dose criteria. A central issue is the development of radiation dose criteria for a postulated accident that DOE would use to establish a limited access area for the high-level waste (HLW) geologic repository. In addition, a number of new definitions would be added.	NPRM 7/93; still at Commission.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
700-078.00	Training and Qualification of Nuclear Power Plant Personnel 10 CFR 50 10 CFR 52	NPRM 57 FR 537 1/7/92 Final rule 58 FR 21904 4/26/93	NRC amends its regulations to require nuclear power plant licensees to establish, implement, and maintain a safety training program for plant personnel based on a systems approach to training (SAT).	Effective 5/26/93.
*700-080.00	Approved Spent Fuel Storage Casks 10 CFR 72	NPRM 57 FR 28645 6/26/92 Notice 58 FR 5301 1/21/93 Final rule 58 FR 17948 4/7/93 Notice 58 FR 19786 4/16/93	NRC adds one additional cask, VSC-24, to the current list of four approved spent fuel storage casks certified and listed under 10 CFR 72. A licensee may choose from any of the listed casks to store spent fuel at the reactor site. The other cask, TN-24, will be addressed in a future rulemaking. NRC places additional information in the public document room for the 6/26/92 proposal to add two casks to the list of approved spent fuel storage casks. The additional pertains only to storage cask TN-24.	Final rule of 4/7/93 effective 5/7/93. Final rule on TN-24 cask 7/93.
*700-083.00	Interim Storage of Spent Fuel in an ISFSI - Site-Specific License 10 CFR 2 10 CFR 72	NPRM 58 FR 31478 6/3/93	NRC proposes to amend its procedures under which the Director of Materials Safety and Safeguards can issue a site-specific license to a qualified applicant for the interim storage of spent fuel in an independent spent fuel storage installation (ISFSI) following satisfactory completion of safety and environmental reviews to eliminate the need for express Commission authorization for each ISFSI license.	Final rule 12/93.
*700-084.00	Nuclear Waste Management Plan Report	Notice 58 FR 33802 6/21/93	DOE's Office of Civilian Radioactive Waste Management requests comments of NRC, EPA and other interested parties on its Draft Draft Nuclear Waste Management Plan Report. The report considers whether current programs and plans for management of nuclear waste are adequate for management of any additional volumes or categories of nuclear waste that might be generated by nuclear power plants constructed and licensed after October 24, 1992.	Comments by 8/20/93.
*700-085.00	Repository Project-Specific Agreement; NRC/DOE Procedural Agreement	NOA 58 FR 33470 6/17/93	NRC announces the availability of the ratification of the revised Procedural Agreement and the Repository Project-Specific Agreement between NRC and DOE. The documents outline the procedures for interactions between NRC and DOE in connection with the characterization of a site for a HLW geologic repository.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
LOW-LEVEL RADIOACTIVE WASTE (LLW) POLICY AMENDMENTS ACT				
*740-003.00	Environmental Protection Standards for LLW Disposal 40 CFR 193 40 CFR 764	ANPRM 48 FR 39563 8/31/83 Planned NPRM 58 FR 25032 4/26/93	EPA intends to develop environmental radiation protection standards and/or guides for low-level radioactive (possibly including natural and accelerator produced) waste disposal to protect the public health and general environment from potential adverse effects from this activity. Criteria triggering regulations are being considered.	<u>NPRM 12/93. Final rule 12/94.</u>
*740-021.00	Low-Level Waste Manifest Information and Reporting 10 CFR 20 10 CFR 61	NPRM 57 FR 14500 4/21/92 Regulatory Agenda 58 FR 25392 4/26/93	NRC proposes to (1) improve information contained in manifests accompanying shipments of waste to LLW disposal facilities; (2) establish a uniform manifest for national use; (3) require that LLW disposal site operators electronically store portions of this manifest information onsite; and (4) require that operators periodically submit, in an electronic format, reports of shipment manifest information. NRC also requests input on whether and how to establish a national data base for LLW.	<u>Final rule undetermined: no schedule as yet.</u>
*740-025.00	Conforming Guidance on LLW Disposal Facilities With 10 CFR 61 10 CFR 61	NPRM 57 FR 8093 3/6/92 Final rule 58 FR 33886 6/22/93	NRC makes changes to its licensing requirements for low-level radioactive waste disposal facilities to (1) clarify that 10 CFR 61 applies to above-ground disposal facilities, (2) replace the phrase "quality control program" with "quality assurance program," (3) update the Paperwork Reduction Act Statement in part 61.8, and (4) identify the correct NRC recipient of the licensees' annual reports.	<u>Effective 7/22/93.</u>
*740-027.00	Concentration Averaging and Encapsulation - Technical Position 10 CFR 61	NOA 57 FR 29105 6/30/92	NRC announces the availability of a proposed revision of the 1983 staff technical position on radioactive waste classification entitled "Technical Position on Concentration Averaging and Encapsulation" which provides guidance on the interpretation of 10 CFR 61 as it applies to classification of low-level radioactive waste.	<u>Will issue a revised proposed position 8/93.</u>
740-028.00	Near-Surface Disposal of Low-Level Wastes (LLW) (New England Coalition Petition) 10 CFR 61	Petition for rulemaking 57 FR 32743 7/23/92	NRC announces that it has received a petition from the New England Coalition on Nuclear Power requesting that NRC amend its regulations in 10 CFR 61 concerning classification of LLW to restrict the numbers and types of waste streams which can be disposed of in near-surface disposal facilities. The petitioner believes these changes are necessary because of significant new information concerning inadvertent intrusion into such facilities.	Next action 7/93.

740-029.00	Procedures and Criteria for On-Site Storage of Low-Level Radioactive Waste 10 CFR 30 10 CFR 40 10 CFR 50 10 CFR 70 10 CFR 72	NPRM 58 FR 6730 2/2/93 Regulatory Agenda 58 FR 25395 4/26/93	NRC proposes to amend its regulations for reactor material, fuel cycle, and independent spent fuel storage licensees to establish procedures and criteria that would apply to on-site storage of low-level radioactive waste beyond January 1, 1996.	Final rule undetermined.
ATOMIC ENERGY ACT				
EPA/NRC Guidance on Testing Mixed Radioactive and Hazardous Waste -- RU# 840-250.02				
Transportation Regulations - Compatibility with IAEA -- RU# 400-093.00				
100-016.00	Protection Requirements for Spent Fuel Shipments	NPRM 49 FR 23867 6/8/84	The rule modifies the present interim requirements for protection of shipments of irradiated reactor fuel cooled for 150 days or more. Present interim requirements will remain for fuel cooled less than 150 days.	Final rule postponed indefinitely.
*100-018.00	Residual Radioactive Materials Cleanup - Radiation Protection Criteria 40 CFR 194	ANPRM 51 FR 22264 6/18/86 Planned NPRM 58 FR 25032 4/26/93	EPA is determining what standards and/or guidance is needed to control radiation exposure levels to the public from residual radioactivity after cleanup of sites and facilities where radionuclides were used and where unrestricted use will be allowed. This action may also control radiation exposure levels to the general public from contaminated materials that will be recycled into general commerce.	<u>NPRM 5/94.</u>
100-021.00	Exposure Limits for Transuranics	NPRM 42 FR 60956 11/30/77 Regulatory Agenda 58 FR 25033 4/26/93	EPA proposes interim guidance to federal agencies to limit radiation doses to the general population from transuranic elements present in the environment.	On hold; no action planned at this time.
*100-033.00	Explanation to Table S-3, Uranium Fuel Cycle Environmental Data 10 CFR 51	NPRM 46 FR 15154 3/4/81 Regulatory Agenda 58 FR 25389 4/26/93	NRC proposes a narrative explanation of the numerical values of Table S-3, "Table of Uranium Fuel Cycle Environmental Data," which appears in the NRC environmental protection regulations. The 3/4/81 NPRM will be reissued as a proposed rule to add values for radon-222 and technetium-99 and to extensively revise the narrative explanation section.	<u>Reproposed NPRM 10/93.</u>

100-041.00	Standards for Protection Against Radiation 10 CFR 19 10 CFR 20	ANPRM 45 FR 18023 3/20/80 NPRM 51 FR 1092 1/9/86 Notice 55 FR 18689 5/3/90 Final rule 56 FR 23360 5/21/91 Correction 56 FR 23956 5/24/91 Corrections 56 FR 61352 12/3/91 NPRM 57 FR 21216 5/19/92 Notice 57 FR 23929 6/5/92 Correction 57 FR 27845 6/22/92 Final rule 57 FR 38588 8/26/92 Final rule amendment 57 FR 57877 12/8/92 Notice 58 FR 18427 4/9/93	NRC revises its requirements for protection of individuals exposed within and outside the workplace to ionizing radiation from normal operations licensed by the NRC. The revision reflects current data on health risks, dosimetry, and radiation protection practices. NRC also issues a notice to confirm the effective dates for the information collection requirements (ICRs) of the 5/21/91 final rule and extends until 1/1/94 the implementation date for these revised standards. NRC makes minor corrective and conforming amendments to its 8/26/92 final rule on standards for protection against radiation.	Final rule of 5/21/91 effective 6/20/91. Amendment of 12/8/92 effective 12/8/92. Implementation deferred until 1/1/94.
100-053.00	Criteria for Extraordinary Nuclear Occurrence 10 CFR 140	NPRM 50 FR 13978 4/9/85 Regulatory Agenda 58 FR 25389 4/26/93	NRC is considering revising the criteria for an "extraordinary nuclear occurrence." The changes are designed to avoid the problems encountered by the NRC in applying existing criteria to Three Mile Island.	Final rule 9/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*100-129.00	Environmental Standards for the Management and Disposal of Spent Nuclear Fuel, HLW, and TRU Radioactive Wastes 40 CFR 191	NPRM 58 FR 7924 2/10/93 Notice 58 FR 13731 3/15/93 Regulatory Agenda 58 FR 25033 4/26/93	EPA proposes environmental standards for the disposal of spent nuclear fuel, high-level, and transuranic radioactive wastes. EPA also proposes additional UIC regulations, in response to the 1987 court action which remanded the Subpart B standards, in order to make it clear that compliance with 40 CFR 191 Subparts B and C will constitute compliance with SDWA UIC regulations. EPA announces the availability of a toll free telephone number (800-331-WIPP) to access updated information on this proposed rulemaking activity.	Final rule 2/94. Call 1-800-331-WIPP for further information.
100-129.01	Criteria for Certification of Compliance with Environmental Standards for Spent Nuclear Fuel, HLW, and TRU Wastes 40 CFR 194	ANPRM 58 FR 8029 2/11/93	EPA will propose criteria for certifying compliance with 40 CFR 191 (see RU# 100-129.00) pursuant to its authority under the WIPP Land Withdrawal Act.	NPRM 11/93. Final rule 11/94.
*100-157.00	Transportation Regulations - Compatibility with IAEA 10 CFR 71	NPRM 53 FR 21550 6/8/88 Corrections 53 FR 23484 6/22/88 Regulatory Agenda 58 FR 25391 4/26/93	NRC proposes to revise its regulations for transportation of radioactive material to make them compatible with those of the IAEA. The basic standards for packaging will remain unchanged, and the transport of low-specific-activity radioactive material is considered. NRC also proposes to include the criteria for approval of packages for air transport of plutonium in 10 CFR 71 (see comparable DOT regulation RU# 400-093).	Final rule 12/93.
*100-179.01	Fitness-For-Duty Programs for Category I Fuel Facilities and Shipments 10 CFR 26	NPRM 57 FR 18415 4/30/92 Final rule 58 FR 31467 6/3/93	NRC amends the Commission's fitness-for-duty regulations to include Category I fuel facilities and Category I shipments.	Effective 11/30/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES		SCHEDULED ACTION
100-187.00	Licenses and Radiation Safety Requirements for Large Irradiators 10 CFR 19-20 10 CFR 30 10 CFR 36 10 CFR 40 10 CFR 51 10 CFR 70 10 CFR 170	NPRM 55 FR 50008 12/4/90 Final rule 58 FR 7715 2/9/93	NRC establishes a new part 36 to specify radiation safety requirements and licensing requirements for the use of licensed radioactive materials in large irradiators.		Effective 7/1/93.
100-214.00	Nuclear Power Plant Structures, Systems, and Components 10 CFR 50	ANPRM 54 FR 9229 3/6/89 Planned NPRM 58 FR 25387 4/26/93	NRC is proposing to develop regulations requiring enhanced acceptance procedures including, but not limited to, receipt inspection and testing of products purchased for use in nuclear power plant structures, systems, and components.		All action suspended; will be withdrawn.
100-216.00	Guidance on Management Controls/ Quality Assurance, Requirements For Operation, Chemical Safety, and Fire Protection for Fuel Cycle Facilities	Proposed guidance 54 FR 11590 3/21/89 Notice 57 FR 35607 8/10/92	NRC proposed four branch technical positions on management controls/quality assurance, requirements for operation, chemical safety, and fire protection for fuel cycle facilities. NRC issued the revised final "Technical Position on Fire Protection for Fuel Cycle Facilities." Final technical position papers on the other topics have not been issued yet.		Final action on other technical position papers undetermined; no schedule for action.
*100-222.00	Code and Standards for Nuclear Power Plants 10 CFR 50	Planned NPRM 58 FR 25387 4/26/93	NRC will incorporate by reference Subsection IWE, "Requirements for Class MC Components of Light-Water Cooled Power Plants," and Subsection IWL, "Requirements for Class CC Concrete Components of Light-Water Cooled Power Plants," of Sect. XI of the ASME Code.		<u>NPRM 9/93.</u>
*100-224.00	Primary Reactor Containment Leakage Testing for Water-Cooled Reactors 10 CFR 50	NPRM 51 FR 39538 10/29/86 Regulatory Agenda 58 FR 25389 4/26/93	NRC proposes to update and revise the 1973 criteria for preoperational and periodic pressure testing for leakage of primary containment boundaries of water-cooled power reactors in order to eliminate inconsistencies and obsolete requirements.		<u>Withdrawn; no plans to publish this action in Federal Register.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*100-233.00	Acceptability of Plant Performance for Severe Accidents 10 CFR 50	ANPRM 57 FR 44513 9/28/92 Planned NPRM 58 FR 25397 4/26/93	NRC announces that it is considering an amendment to its regulations for future light water reactors to address the ability of the plants to withstand challenges from phenomena associated with severe core damage accidents.	NPRM 8/93. <u>Final rule 8/94.</u>
*100-249.00	Requirements for Possession of Industrial Devices 10 CFR 31 10 CFR 32	NPRM 56 FR 67011 12/27/91 Regulatory Agenda 58 FR 25401 4/26/93	NRC proposes to amend the regulations for the possession of industrial devices containing byproduct material to require device users to report to the NRC on a periodic basis if the device is still in use or to whom the device has been transferred to assure that devices are not improperly transferred or inadvertently discarded.	<u>Final rule 8/93.</u>
*100-252.00	Import and Export of Radioactive Waste 10 CFR 110	ANPRM 55 FR 4181 2/7/90 NPRM 57 FR 17859 4/28/92 Regulatory Agenda 58 FR 25392 4/26/93	NRC proposes to amend its licensing requirements regarding the import and export of radioactive wastes to conform U.S. policies to the international voluntary Code of Practice to guide nations in the development and harmonization of policies and laws on the international transboundary movement of radioactive waste.	<u>Final rule 12/93.</u>
*100-258.00	Emergency Preparedness Regulations - Part 52 Licensing 10 CFR 50	NOA 56 FR 12734 3/27/91 Planned NPRM 58 FR 25406 4/26/93	NRC will propose a rule to amend the regulations concerning those portions of emergency plans which cannot be exercised prior to issuance of a Part 52 combined license. This rulemaking will be accomplished on a "high priority basis."	Rulemaking initiative terminated as of 11/25/92.
100-258.01	Emergency Preparedness Regulations - Exercise Requirements 10 CFR 50	Planned NPRM 58 FR 25387 4/26/93	NRC will propose to clarify the linkage between the need for "reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency" indicated in Sect. 50.47(a) and 16 planning standards outlined in Sect. 50.47(b). In addition, this rule will clarify the term "range of protective" actions and the issues of monitoring of evacuees, actions for recovery and reentry, notification of the public, evacuation time estimates, and exercise frequency.	NPRM 7/93.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
100-297.00	Nuclear Safety Management - Phase II 10 CFR 830	Planned NPRM 58 FR 24258 4/26/93	DOE will propose Phase II rules, applicable to DOE contractor and subcontractor activities, to ensure nuclear safety at DOE facilities. The rules relate to safety concern management, reactor design criteria, seismic and environmental qualifications, fire protection, personnel training, emergency preparedness, safety responsibility, and contractor oversight.	NPRM 9/93.
*100-303.00	Nuclear Power Plants - Reactor Site Criteria 10 CFR 100 10 CFR 50 10 CFR 52	NPRM 57 FR 47802 10/20/92 Regulatory Agenda 58 FR 25403 4/26/93	In response to a petition, NRC proposes to update the criteria used in decisions regarding power reactor siting including geologic, seismic, and earthquake engineering considerations for future nuclear power plants. The Commission also proposes to deny the remaining issue in a petition filed by Free Environment, Inc. and others.	Final rule 9/93.
*100-304.00	Licensing of Source Material 10 CFR 40	ANPRM 57 FR 48749 10/28/92 Planned NPRM 58 FR 25396 4/26/93	NRC is considering amending its regulations governing the licensing of source material and mill tailings to improve control of source material and to update the applicable requirements to conform with the revised standards for protection against radiation.	NPRM 7/93.
*100-306.00	Accessible Air Gap For Generally Licensed Devices 10 CFR 31 10 CFR 32	NPRM 57 FR 56287 11/27/92 Regulatory Agenda 58 FR 25402 4/26/93	NRC proposes a rule to provide for additional regulatory control over devices with both an accessible air gap and radiation levels that exceed specified values to make it more difficult for personnel to obtain access to the gauge's radiation beam, thereby reducing unnecessary exposure.	Final rule 11/93.
100-307.00	Fracture Toughness Requirements for LWR Pressure Vessels 10 CFR 50	Planned NPRM 58 FR 25393 4/26/93	NRC will propose a rule to amend the Commission's regulations concerning fracture toughness requirements to resolve issues that have resulted from technological improvements, including the pressurized thermal shock rule, ferritic materials of pressure-retaining components, and RPV material surveillance.	NPRM 11/93. Final rule 11/94.
100-309.00	Availability of Official Records 10 CFR 2	NPRM 57 FR 61013 12/23/92	NRC proposes to amend its regulations pertaining to the availability of official records to conform the regulations to existing case law and agency practice.	Final rule 12/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
100-312.00	Low Specific Activity Wastes Contaminated with Special Nuclear Material - Exemption 10 CFR 150	Petition for rulemaking 58 FR 9552 2/22/93	NRC publishes a petition for rulemaking filed by Envirocare of Utah, Inc. requesting the NRC to revise its regulations to exempt those persons who generate or dispose of very low specific activity wastes contaminated with special nuclear materials that are not capable of forming a critical reaction.	Action date for response to petition undetermined.
100-314.00	Assistance to Foreign Atomic Energy Activities 10 CFR 810	NPRM 58 FR 13427 3/11/93	DOE proposes to amend its regulations concerning unclassified assistance to foreign atomic energy activities to enhance the operational safety of existing civilian nuclear power reactors in foreign countries.	Final rule 3/94.
*100-316.00	Licensing of Exports of Alpha-Emitting Radionuclides and Byproduct Material 10 CFR 110	NPRM 58 FR 14344 3/17/93	NRC proposes to amend its general licenses for the export of special nuclear material to conform the U.S. export controls to international guidelines and treaty obligations. NRC also proposes that Appendix A to Part 110 be restructured for clarification and to emphasize the distinction between nuclear reactor equipment controlled by NRC and DOE.	Comments by 4/16/93, if possible, but will accept comments after that time. Final rule undetermined.
*100-318.00	Design/Performance Criteria for Sealed Sources Used in Well Logging 10 CFR 39	Planned NPRM 58 FR 25388 4/26/93	NRC will propose to allow the continued use by well logging licensees of sealed sources that were approved by accepted prototype testing before 7/14/89 and previously evaluated and approved sealed sources. Current regulations unintentionally excluded these sources.	NPRM undetermined.
*100-319.00	Reporting Requirements for Transfer of Products to Persons Exempt From Licensing Requirements 10 CFR 32	Planned NPRM 58 FR 25388 4/26/93	NRC will propose to reinstate the annual reporting requirement for transfer of products containing small quantities of radioactive material to persons exempt from licensing requirements.	NPRM undetermined.
*100-320.00	Assessment Requirements for the Siting Criteria and Performance Objectives 10 CFR 60	Planned NPRM 58 FR 25397 4/26/93	NRC will propose to amend siting criteria and performance objectives regulations to resolve conflicting interpretations of the terms "adequately investigated" and "adequately evaluated" and the relationship of performance assessment and potentially adverse conditions.	NPRM 10/93. Final rule 10/94.
*100-321.00	Radiological Health and Safety Policy	Notice 58 FR 33804 6/21/93	DOE publishes its Radiological Health and Safety Policy statement which formally expresses the Department's fundamental policies and objectives on radiological health and safety. The policy is applicable to all elements and activities conducting radiological operations within DOE.	

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
URANIUM MILL TAILINGS RADIATION CONTROL ACT				
Radionuclides NESHAPs - Subpart T Rescinded for Uranium Mill Tailings Sites -- RU# 120-118.06				
930-029.00	Groundwater Protection Standards for Inactive Uranium Tailings Sites 40 CFR 192	NPRM 52 FR 36000 9/24/87 Regulatory Agenda 58 FR 25033 4/26/93	EPA proposes standards for preventing groundwater contamination at inactive uranium processing sites. The rule will replace the remedial groundwater provisions of the final rule of 1/5/83 for remedial action.	Final rule undetermined.
930-034.00	Uranium Mill Tailing Sites - Remedial Action Program and Annotation of Land Records 10 CFR 764	NPRM 54 FR 29732 7/14/89 Regulatory Agenda 56 FR 53248 10/21/91	DOE proposes to clarify the obligation of certain states to annotate local land records so as to ensure that future purchasers of remediated properties will be notified of the extent of the remedial work.	Final rule 9/93.
930-038.00	Health and Environmental Standards for Uranium Mill Tailings 40 CFR 192	ANPRM 56 FR 67569 12/31/91 NPRM 58 FR 32174 6/8/93	EPA proposes amendments to clarify a current rule by ensuring timely emplacement of a permanent radon barrier and by requiring appropriate monitoring for nonoperational uranium mill tailings disposal sites that are licensed by the NRC or one of its affected Agreement States (Colorado, Washington and Texas).	Comments by 7/21/93. Final rule 10/93.
TOXIC SUBSTANCES CONTROL ACT				
Containerized Liquids in Landfills -- RU# 840-024.00				
Toxic Chemical Release Reporting - Addition of Chemicals; SNUR -- RU# 190-064.00				
920-053.00	Negotiated Consent - Procedural Test Rules 40 CFR 790	Planned NPRM 58 FR 25016 4/26/93	EPA plans to propose appropriate procedural changes to reduce the resources required for consent order negotiation.	NPRM 12/93.
920-064.01	Comprehensive Assessment Information Rule 40 CFR 704	Planned NPRM 58 FR 25019 4/26/93	EPA is considering revision of the Comprehensive Assessment Information Rule (CAIR) to establish exemptions for small and "de minimis" volumes, refine trade name reporting requirements, reduce certain advance substantiation requirements for Confidential Business Information (CBI) claims, and define processing activities using processor subclasses.	NPRM 7/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
920-073.01	PCBs Storage for Disposal - Notification Requirements 40 CFR 761	NPRM 58 FR 6184 1/26/93 Correction 58 FR 12352 3/4/93 Correction 58 FR 13128 3/9/93	EPA proposes to amend one of the criteria in 40 CFR 761 which serves as a basis for EPA granting approval to engage in the commercial storage of PCB waste.	Final rule 1/94.
920-076.00	Termination of PCBs Storage and Disposal Approvals 40 CFR 761	NPRM 55 FR 46470 11/2/90 Regulatory Agenda 58 FR 25022 4/26/93	EPA proposes a rule establishing criteria and procedures for the suspension and revocation of PCB storage and disposal approvals.	Final rule on hold indefinitely.
*920-092.00	Chemical Test Data	Notice 58 FR 32122 6/8/93	EPA announces the receipt of chemical test data on commercial hexane submitted pursuant to a final test rule.	Final rule 1/94.
*920-096.01	PCBs - Commerce Exemptions 40 CFR 761	NPRM 57 FR 7349 3/2/92 Regulatory Agenda 58 FR 25022 4/26/93	EPA proposes to grant three and deny two petitions for exemption from the prohibition against the manufacture, processing, and distribution in commerce of PCBs. EPA also proposes to amend the interim procedural rules to require submission of a certified letter at least six months prior to the expiration date of an exemption for which the petitioner wants the exemption to continue.	
*920-113.00	SARA Section 110 Chemicals Generic Test Rule 40 CFR 799	Planned NPRM 58 FR 25016 4/26/93	This regulation will set forth the policies and procedures for using the TSCA Sect. 4 testing authority to obtain toxicity and chemical fate testing to fill certain data needs identified in toxicity profiles of chemicals prepared pursuant to SARA.	NPRM 12/93.
*920-119.00	PCBs - Wet Weight, Dry Weight Clarification 40 CFR 761	NPRM 55 FR 12866 4/6/90 Regulatory Agenda 58 FR 25023 4/26/93	EPA proposes to amend the PCB regulations final rule of 7/10/84 (49 FR 28171) by adding the phrase "on a dry weight basis" to Sect. 761.1(b).	NPRM withdrawn from OMB review 1/93; will either be resubmitted later or incorporated into RU# 920-125.00.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*920-121.00	Interagency Testing Committee Reports	Notice 58 FR 26898 5/5/93	EPA publishes the TSCA Interagency Testing Committee's Twenty-First Report which includes a list of chemicals recommended for testing for risks to human health or the environment.	
920-123.00	Drinking Water Chemicals Proposed Test Rule 40 CFR 799	MPRM 55 FR 21393 5/24/90 NOA 57 FR 14371 4/20/92 Regulatory Agenda 58 FR 25020 4/26/93	EPA proposes a test rule under Sect. 4 of TSCA that would require manufacturers and processors to test the following substances for certain health effects: chloroethane, 1,1-dichloroethane, 1,1,2,2-tetrachloroethane, n-propylbenzene, and 1,3,5-trimethylbenzene. EPA also proposes a new testing guideline for a 14-day repeated dose oral toxicity study.	Final rule 9/93.
*920-125.00	PCBs Disposal Amendments 40 CFR 761	ANPRM 56 FR 26738 6/10/91 NOA 56 FR 26745 6/10/91 Planned MPRM 58 FR 25019 4/26/93	EPA is considering amending its TSCA PCB disposal regulations to address (1) alternative disposal methods to those currently permitted which do not pose an unreasonable risk of injury to human health and the environment, (2) classes of PCBs not contemplated by the disposal regulations, and (3) regulatory requirements for existing classes of PCBs and PCB items.	MPRM 9/93.
*920-127.00	Environmental Hazard Communication Rule CFR undetermined	Planned ANPRM 58 FR 25014 4/26/93	The Office of Toxic Substances will propose to require Environmental Hazard Communication (EHC) with the sale of commercial chemicals, probably in the form of requiring that environmental information be included on Material Safety Data Sheets (MSDS) whenever the information is available.	Rulemaking withdrawn; public notice in Register 11/93.
*920-129.00	TSCA Section 4(a)(1)(8) Policy ("Exposure" Rule) 40 CFR 799	Proposed policy statement 56 FR 32294 7/15/91 Final policy statement 58 FR 28736 5/14/93	EPA issues standards and criteria it intends to use in interpreting its legal authority to make findings under TSCA Sect. 4(a)(1)(8)(i) for determining substantial production, release to the environment in substantial quantities, and substantial or significant human exposure.	Effective immediately.

(a) MPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*920-130.00	Metabolism and Pharmacokinetic Test Guideline 40 CFR 798	NPRM 56 FR 32537 7/17/91	EPA proposes to establish a test guideline for generating metabolism and pharmacokinetic data. This joint guideline would harmonize the pharmacokinetics testing guidelines of the Office of Toxic Substances and the Office of Pesticide Programs and assist EPA in developing health effects test data standards for testing chemicals under TSCA and FIFRA.	<u>Final rule 7/93; at OMB.</u>
*920-132.00	PCB Transformer Reclassification Rule 40 CFR 761	Planned NPRM 58 FR 25019 4/26/93	EPA will modify the current reclassification requirements of 50 degrees centigrade temperature and 90-day testing for PCB transformers because results of a preliminary analysis indicate many transformers never reach the required temperature but still reduce PCB concentrations to risk-free levels.	<u>NPRM 8/93; at OMB. Final rule 8/94.</u>
*920-135.00	PCBs - Use of Waste Oil 40 CFR 761	Final rule 58 FR 15435 3/23/93 Correction 58 FR 32060 6/8/93	EPA replaces the references in 40 CFR 761.20(e) to reflect recent changes made under RCRA regarding the use of waste oil containing PCBs.	Final rule effective 3/23/93.
*920-136.00	TSCA Inventory - Intent to Remove 39 Chemical Substances	NOI 58 FR 19251 4/13/93	EPA announces its intent to remove 39 chemical substances from the TSCA Chemical Substances Inventory. EPA feels they were incorrectly reported and listed.	<u>Final action undetermined.</u>
*920-137.00	PAIR and Health and Safety Data Reporting - Addition of Chemicals 40 CFR 712 40 CFR 716	Final rule 58 FR 28511 5/14/93	EPA adds two categories of substances, silohexanes and chloroalkyl phosphates, to its Sect. 8(a) Preliminary Assessment Information Rule (PAIR) and its Sect. 8(d) Health and Safety Data Reporting Rule.	<u>Effective 6/14/93.</u>
*920-138.00	Lead Exposure Reduction - Legislative Mandates 40 CFR undetermined	Planned NPRM 58 FR 25015 4/26/93	EPA will propose regulations governing: (1) lead-based paint additive training and certification programs, (2) model state programs, (3) disclosure of lead-based paint hazards in residential property transfer, and (4) lead-based paint hazards and lead-contaminated soil and dust.	<u>NPRM 10/93.</u>
*920-139.00	Prohibition of Hexavalent Chromium in Cooling Towers - TSCA Export Notification 40 CFR 749	Planned NPRM 58 FR 25019 4/26/93	EPA will propose an amendment to the TSCA hexavalent chromium rule to narrow the Agency's interpretation of TSCA Sect. 12(b) as it applies to the rule. Export notification would be required only for hexavalent chromium water treatment chemicals rather than any compound containing hexavalent chromium.	<u>NPRM 7/93. Final rule 7/94.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
HAZARDOUS MATERIALS TRANSPORTATION ACT				
Transportation Regulations - Compatibility with IAEA -- RU# 100-157.00				
*400-014.00	Railroad Shipment of Hazardous Material - Use of Cargo Tanks, Portable Tanks, and Multi-Unit Tank Car Tanks 49 CFR 171 49 CFR 174	ANPRM 50 FR 18278 4/30/85 Extension of existing approvals 56 FR 8388 2/28/91 NPRM 58 FR 27257 5/7/93	RSPA proposes to permit the use of certain portable tanks to transport by rail hazardous materials that pose a relatively low or moderate hazard in container-on-flatcar (COFC) or trailer-on-flatcar (TOFC) service without obtaining prior approval from the FRA.	Extension of existing approvals effective 3/1/91. <u>Final rule 5/94.</u>
400-033.01	Performance-Oriented Packaging Standards - Infectious Substances 49 CFR 171 49 CFR 172 49 CFR 173	Compliance date extended 58 FR 12182 3/3/93 ANPRM 58 FR 12207 3/3/93	In response to petitions, RSPA extends the compliance date in the final rule of 12/20/91 applicable to performance-oriented packaging standards for infectious substances from 4/1/93 to 1/1/94, and announces that it intends to reexamine the Hazardous Materials Regulations (HMR) for infectious substances, including medical wastes, issued as part of a final rule on 12/20/91, to address issues and comments received on the need for additional action.	Compliance date for infectious substances 1/1/94. NPRM undetermined.
*400-039.00	Pipeline Operator Qualifications 49 CFR 192 49 CFR 195	ANPRM 52 FR 9189 3/23/87 Planned NPRM 58 FR 24757 4/26/93	RSPA is considering the need to develop additional regulations governing training and qualification of persons that operators hire to design, construct, operate, or maintain pipeline facilities used in transport of gas or hazardous materials.	<u>NPRM 7/93.</u>
400-040.00	Transportation of Hazardous Materials - Miscellaneous Amendments 49 CFR 171-178	NPRM 56 FR 37505 8/7/91 Regulatory Agenda 58 FR 24764 4/26/93	RSPA proposes several amendments to update and simplify the Hazardous Materials Regulations.	Final rule 8/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EW-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*400-044.00	Hazardous Materials - Intrastate Commerce 49 CFR 171-179	ANPRM 52 FR 24195 6/29/87 Planned NPRM 58 FR 24757 4/26/93	DOT is considering extending the application of its hazardous material regulation to all intrastate transportation of hazardous materials in commerce.	<u>NPRM 10/93.</u>
*400-057.00	Railroad Shipment of Hazardous Waste - Defects of Tank Car Tanks 49 CFR 173	ANPRM 52 FR 46510 12/8/87 Planned NPRM 58 FR 24759 4/26/93	This would clarify existing inspection requirements for tank car tanks; add new inspection requirements for thermal protection on tank car tanks; permit the use of new inspection techniques for tank cars transporting low vapor pressure commodities in lieu of periodic hydrostatic retests; and establish minimum in-service tank thickness requirements.	<u>NPRM 7/93. Final rule 7/94.</u>
*400-061.00	Highway Routing Standards for Hazardous Materials 49 CFR 397	ANPRM 53 FR 11618 4/7/88 NPRM 57 FR 39522 8/31/92 Regulatory Agenda 58 FR 24713 4/26/93	FHWA proposes routing criteria, requirements, and methodologies for states and Indian tribes to follow when analyzing alternative routes for highway transport of non-radioactive hazardous materials.	<u>Final rule 11/93.</u>
*400-063.00	Excavation Damage-Prevention Programs for Pipelines 49 CFR 192 49 CFR 195	NPRM 53 FR 24747 6/30/88 Regulatory Agenda 58 FR 24763 4/26/93	OPS, RSPA, and DOT propose to require operators of buried onshore gas, hazardous liquid, and carbon dioxide pipelines to conduct excavation damage prevention programs in accordance with criteria adopted previously for gas pipeline damage prevention programs.	<u>Interim final rule 9/93. Supplemental NPRM 9/93.</u>
*400-064.00	Maps and Records of Pipeline Location and Characteristics - State Notification 49 CFR 192 49 CFR 195	Planned NPRM 58 FR 24758 4/26/93	As part of a continuing policy to adopt similar safety requirements for gas and hazardous liquid pipelines, this action will propose to equalize the requirements that gas and liquid operators keep maps and records to show the location and other characteristics of pipelines and will require them to provide this information to state agencies upon request.	<u>NPRM 10/93. Final rule 10/94.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
400-073.00	Implementation of the ICAO's Technical Instructions 49 CFR 171 49 CFR 172 49 CFR 175	NPRM 55 FR 46839 11/7/90 Supplemental NPRM 57 FR 1891 1/16/92 Regulatory Agenda 58 FR 24767 4/26/93	RSPA proposes to amend its regulations in order to permit the offering, acceptance, and transportation by aircraft of hazardous materials shipments conforming to the most recent ICAO technical instructions. RSPA also issues a supplemental proposed rule to amend the HMR by adding four provisions relating to the transport of hazardous materials by aircraft.	Final rule 8/93.
400-080.00	Marine Transport of Bulk Solid Hazardous Materials 49 CFR 148	ANPRM 54 FR 18308 4/28/89 Notice 55 FR 11481 3/28/90 Regulatory Agenda 58 FR 24654 4/26/93	DOT will propose to incorporate into 46 CFR 148 the Coast Guard's and the International Maritime Organization's requirements for shipping certain frequently carried hazardous bulk solids, to eliminate paperwork for both the Coast Guard and the shipping industry and to harmonize domestic regulations with international standards.	NPRM 8/93. Final rule 8/94.
*400-083.02	Bulk Hazardous Materials Tables 46 CFR 147 46 CFR 150 46 CFR 151 46 CFR 153 46 CFR 30 46 CFR 40 46 CFR 98	NPRM 58 FR 29890 5/24/93	The Coast Guard proposes to amend its regulations on carriage of bulk hazardous materials by adding cargoes recently authorized for carriage or added to the International Maritime Organization's Chemical Codes and by making minor technical and editorial changes and corrections.	Final rule 8/94.
*400-093.00	Transportation - Regulations - Compatibility with IAEA 49 CFR 171-178	NPRM 54 FR 47454 11/14/89 NOA 54 FR 48054 11/20/89 Regulatory Agenda 58 FR 24765 4/26/93	RSPA proposes to revise its regulations to make them compatible with those of the IAEA for the safe transport of radioactive materials (see comparable NRC regulation RU# 100-157).	Final rule 8/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
400-095.00	Elevated Temperature Materials 49 CFR 171 49 CFR 172 49 CFR 173	NPRM 54 FR 38930 9/21/89 Final rule 56 FR 49980 10/2/91 Compliance date delayed 56 FR 67542 12/31/91 Final rule amendment 58 FR 3344 1/8/93	RSPA amends the HMR to regulate materials which pose a hazard due to their being transported at elevated temperatures. Materials include those in a liquid phase having temperatures at or above 212 degrees F or having a flash point at or above 100 degrees F and those in a solid phase having temperatures at or above 464 degrees F. In response to petitions for reconsideration, RSPA amends the final rule to provide regulatory relief from certain packaging requirements for asphalt kettles and authorizes continued use of certain packaging now in service for the transportation of elevated temperature materials.	Final rule effective 3/30/92. Amendment effective 1/8/93. Classification and hazard communication requirements effective 10/1/93. Placarding requirements effective 10/1/94. Packaging closure requirements effective 3/30/95.
400-097.00	Transportation of Hydrogen Sulfide by Pipeline 49 CFR 192	ANPRM 54 FR 24361 6/7/89 NPRM 56 FR 11490 3/18/91 Regulatory Agenda 58 FR 24766 4/26/93	RSPA proposes to: (1) prohibit operators from transporting in a transmission line downstream of gas processing plants, sulfur recovery plants, or storage fields, natural gas containing more than a designated amount of H ₂ S; (2) require that the release of a designated excess of H ₂ S be reported to DOT; and (3) require that onshore/offshore gathering lines carrying a designated excess of H ₂ S have a contingency plan in place in case of a release of the gas.	To be withdrawn 10/93.
400-099.00	Gas Pipelines Corrosion 49 CFR 192	NPRM 54 FR 27041 6/27/89 Regulatory Agenda 58 FR 24765 4/26/93	RSPA proposes to require gas pipeline operators who must now inspect for corrosion on buried metallic pipe that is exposed to investigate further to determine the full extent of any corrosion that is found.	Final rule 10/93.
*400-106.01	Noxious Liquid Substances Lists 33 CFR 151	NPRM 58 FR 29940 5/24/93	The Coast Guard proposes to amend its Moxious Liquid Substances (MLSs) regulations to include substances recently authorized for carriage by the Coast Guard or added to the International Maritime Organization's Chemical Codes and by making minor technical and editorial changes and corrections.	Final rule 5/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES		SCHEDULED ACTION
400-110.00	Hydrostatic Pressure Testing of Hazardous Liquid Pipelines 49 CFR 195	NPRM 56 FR 23538 5/22/91 Regulatory Agenda 58 FR 24762 4/26/93	RSPA proposes to extend hydrostatic testing or the alternative reduction in maximum operating pressure to all hazardous liquid steel pipelines where maximum operating pressure has not been established in accordance with the requirements of 49 CFR 195.		Final rule 7/93.
400-112.00	Operation and Maintenance Procedures for Pipelines 49 CFR 192 49 CFR 195	NPRM 54 FR 46685 11/6/89 Regulatory Agenda 58 FR 24763 4/26/93	OPS proposes to clarify and delineate the items that must be addressed in procedures for operations and maintenance of gas pipelines facilities to assure that operators take timely and appropriate actions under normal or abnormal conditions. Operators would also be required to establish procedures for personnel safety in trenches containing hazardous vapor or gas.		Final rule 9/93.
*400-118.00	Crash Worthiness Protection Requirements Tank Car Tanks 49 CFR 173	ANPRM 55 FR 20242 5/15/90 Supplemental ANPRM 55 FR 35327 8/29/90 Planned NPRM 58 FR 24760 4/26/93	RSPA considers amendments to improve the level of safety of tank car tanks through operational changes, design modifications, and retrofitting requirements. In a supplement to its 5/15/90 ANPRM, RSPA considers four further amendments to its tank car tank specifications.		NPRM 7/93.
400-120.00	Hazardous Liquid Pipelines Operating at 20 Percent or Less of Specified Minimum Yield Strength 49 CFR 195	ANPRM 55 FR 45822 10/31/90 NPRM 58 FR 12213 3/3/93	RSPA proposes to remove the exception in the pipeline safety standards governing hazardous liquid pipelines which says that they do not apply to pipelines operated at 20 percent or less of the specified minimum yield strength of the pipe.		Comments by 5/3/93 if possible, but will be accepted beyond that date. Final rule 3/94.
400-121.00	Excess Flow Valve Installation on Service Lines 49 CFR 192	ANPRM 55 FR 52188 12/20/90 NPRM 58 FR 21524 4/21/93	The Office of Pipeline Safety proposes to require the installation of excess flow valves on gas service lines to improve safety and reduce the frequency of incidents. Flow valves are designed to shut off automatically when a line is broken.		Final rule 4/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
400-126.00	Hazardous Materials Identification Systems 49 CFR 172	ANPRM 57 FR 24532 6/9/92 Planned NPRM 58 FR 24758 4/26/93	RSPA will propose methods to improve the current system of placarding vehicles and methods for establishing and operations a central reporting system and computerized telecommunications data center, and will consider the benefits of requiring carriers to establish emergency response telephone systems.	NPRM 8/93.
*400-127.00	Intermediate Bulk Containers for Hazardous Materials 49 CFR 171 49 CFR 172 49 CFR 173 49 CFR 178	NPRM 57 FR 36694 8/14/92 Regulatory Agenda 58 FR 24767 4/26/93	RSPA proposes to adopt requirements for the construction, maintenance, and use of intermediate bulk containers for transporting hazardous materials. The proposal is based on specification and performance standards contained in the U.N. Recommendation on Transport of Dangerous Goods and the commodity assignments set forth in the International Maritime Dangerous Goods Code.	Final rule 8/93.
*400-128.00	Gas Pipeline Safety Standards 49 CFR 192	NPRM 57 FR 39572 8/31/92 NPRM 57 FR 53085 11/6/92 Regulatory Agenda 58 FR 24763 4/26/93	RSPA proposes to change miscellaneous gas pipeline safety standards to provide clarity, eliminate unnecessary or overly burdensome requirements, and foster economic growth. In response to a regulatory review, RSPA also proposes additional changes to various gas pipeline and liquefied natural gas facility reporting and operating standards to eliminate unnecessary requirements.	Final rule 7/93.
400-129.00	Tank Car Tanks and Cargo Tank Motor Vehicles - Attendance Requirements 49 CFR 174 49 CFR 177	NPRM 57 FR 42466 9/14/92 Regulatory Agenda 58 FR 24767 4/26/93	RSPA proposes to allow the use of signalling systems to satisfy the attendance requirements for unloading tank cars and loading cargo tank motor vehicles. RSPA also proposes to allow tank cars containing hazardous materials to remain standing with unloading connections attached when no product is being transferred.	Final rule 9/93.
400-133.00	Passage of Instrumented Internal Inspection Devices 49 CFR 192 49 CFR 195	NPRM 57 FR 54745 11/20/92 Regulatory Agenda 58 FR 24766 4/26/93	RSPA proposes that new and replacement gas and hazardous liquid transmission pipelines and certain carbon dioxide pipelines be designed and constructed to accommodate the passage of instrumented internal inspection devices, commonly referred to as "smart pigs."	Final rule 11/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*400-134.00	Hazardous Liquid and Carbon Dioxide Pipeline Safety Standards 49 CFR 195	NPRM 57 FR 56304 11/27/92 Regulatory Agenda 58 FR 24768 4/26/93	In response to a regulatory review, RSPA proposes revisions to miscellaneous hazardous liquid and carbon dioxide pipeline safety standards to provide clarity and eliminate unnecessary requirements.	<u>Final rule 7/93.</u>
*400-136.00	Cargo Tanks - Miscellaneous Requirements 49 CFR 173 49 CFR 178 49 CFR 180	NPRM 58 FR 12316 3/3/93	RSPA proposes to amend certain requirements on the manufacture, qualification, and maintenance of cargo tank motor vehicles to relax the requirements and reduce unnecessary economic burdens on industry.	<u>Final rule 3/94.</u>
*400-137.00	Thermal Protection Systems That No Longer Need Test Verification	Notice 58 FR 28436 5/13/93	RSPA publishes a current list of thermal protection systems that have been verified by testing in accordance with 49 CFR 179.105-4 for use on certain class DOT 105, 111, 112 and 114 tank cars.	
*400-138.00	Pipeline Facilities in Environmentally-Sensitive and High-Density Population Areas 49 CFR 192 49 CFR 195	Planned NPRM 58 FR 24761 4/26/93	RSPA will propose to require gas pipeline operators to identify pipeline facilities located in high-density population areas and hazardous liquid pipeline operators to identify those in environmentally-sensitive areas.	<u>NPRM 10/93. Final rule 10/94.</u>
OCCUPATIONAL SAFETY AND HEALTH ACT				
*780-009.00	Occupational Exposure to Methylene Chloride 29 CFR 1910.1000	ANPRM 51 FR 42257 11/24/86 NPRM 56 FR 57036 11/7/91 Corrections 57 FR 387 1/6/92 Regulatory Agenda 58 FR 24605 4/26/93	OSHA proposes to amend its existing regulation for occupational exposure to methylene chloride to reduce the 8-hour TWA exposure limit from 500 ppm to 25 ppm.	<u>Final rule 9/94.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
780-011.00	Respiratory Protection 29 CFR 1910.134 29 CFR 1915.152 29 CFR 1918.102 29 CFR 1926.103	ANPRM 47 FR 20803 5/14/82 Planned NPRM 58 FR 24596 4/26/93	OSHA is reviewing current standards for respiratory protection and intends to propose revisions following analysis of the standards.	NPRM 12/93. Final rule 12/94.
780-020.00	Construction Standards - Safety Standards for Scaffolds 29 CFR 1926	NPRM 51 FR 42680 11/25/86 Reopening of rulemaking 58 FR 16509 3/29/93	OSHA proposes to revise the construction industry safety standards for scaffolds to regulate the design, construction, and use of all scaffolds in construction. EPA reopens its record on the proposed standard for scaffolds in order to solicit comments on additional issues, including crossbraces on guardrail systems and a type of scaffolding called chimney bracket scaffolds.	Final rule 12/93.
780-021.00	Construction Industry - Safety Standards for Fall Protection 29 CFR 1926	NPRM 52 FR 42718 11/25/86 Reopening of rulemaking 57 FR 34656 8/5/92 Regulatory Agenda 58 FR 24596 4/26/93	OSHA proposes to revise the construction industry safety standards to regulate the design and use of fall protection systems and procedures. The proposed revisions would address exposure hazards by using performance criteria rather than specification standards.	Final rule 12/93.
*780-025.00	Occupational Exposure to 2-Methoxyethanol, 2-Ethoxyethanol and Their Acetates 29 CFR 1910.1000	ANPRM 52 FR 10586 4/2/87 NPRM 58 FR 15526 3/23/93 Corrections 58 FR 31922 6/7/93	OSHA proposes to reduce the existing 8-hour time weighted average (TWA) PELs for 2-methoxyethanol and its acetate to 0.1 ppm and for 2-ethoxyethanol and its acetate to 0.5 ppm. OSHA also proposes excursion limits for these glycol ethers of five times the proposed PELs and action limits of one-half the proposed PELs measured as an 8-hour TWA. In addition, OSHA proposes that no employee shall be exposed to these chemicals through dermal contact.	Final rule 3/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION

*780-030.00	Air Contaminant Safety Standards for General Industry 29 CFR 1910	NPRM 53 FR 20960 6/7/88 Final rule 54 FR 2332 1/19/89	OSHA amends its air contaminants standard including Tables Z-1, Z-2, and Z-3. Permissible exposure limits (PELs) are revised so that 212 PELs are more protective, 164 new PELs are set, short-term exposure limits are included, skin designations are established, and ceiling limits are added.	Final rule effective 3/1/89.
		Final rule 58 FR 35338 6/30/93	OSHA announces the revocation of the permissible exposure limits (PELs) specified in the "Final rule limits" columns of Table Z-1-A of 29 CFR 1910.1000 promulgated 1/19/89, thus implementing the court decision vacating those limits. Enforcement of those limits was suspended starting 3/23/93. The PELs specified in the "Transitional limits" columns of Table Z-1-A and in Tables Z-2 and Z-3 remain in effect and are being enforced. These are the limits that were in place before the 1989 rule was published.	Revocation effective 6/30/93.
*780-041.00	Generic Standard for Exposure Monitoring 29 CFR 1910	ANPRM 53 FR 37591 9/27/88 Planned NPRM 58 FR 24595 4/26/93	OSHA is evaluating the feasibility and usefulness of adoption of a generic standard on exposure monitoring for employees exposed to toxic substances.	Decision on whether to proceed with NPRM 9/93.
780-042.00	Medical Surveillance Program for Employees 29 CFR 1910	ANPRM 53 FR 37595 9/27/88 Planned NPRM 58 FR 24594 4/26/93	OSHA is evaluating the feasibility and usefulness of adoption of a generic standard on medical surveillance programs for employees exposed to toxic substances or hazardous physical agents.	Rulemaking on hold; new administration may reactivate it.
*780-044.00	Asbestos Short-Term Exposure Limit (Category III Remand Issues) 29 CFR 1910 29 CFR 1926	NPRM 55 FR 29712 7/20/90 Regulatory Agenda 58 FR 24606 4/26/93	In response to litigation, OSHA proposes to lower the PEL to 0.1 f/cc, set additional communication and notification requirements, require oversight of all construction operations, and more explicitly define the exemptions from the negative-pressure enclosure requirement.	Final rule 9/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
780-045.00	Hazardous Waste Training Course Certification 29 CFR 1910	NPRM 55 FR 2776 1/26/90 NOA; reopening of record 57 FR 4858 2/10/92 Regulatory Agenda 58 FR 24607 4/26/93	DOL proposes accreditation procedures for training programs set up under the Hazardous Waste Operations and Emergency Response final rule of 3/9/89 for employees involved in clean-up operations at uncontrolled hazardous waste sites being cleaned up under government mandate and for employees involved in certain hazardous waste treatment, storage, and disposal operations. This rule does not propose to accredit training programs for employees engaged in emergency response activities.	Final rule 12/93.
*780-047.00	Electrical Protective Equipment; Generation, Transmission, Distribution 29 CFR 1910	NPRM 54 FR 4974 1/31/89 Regulatory Agenda 58 FR 24603 4/26/93	OSHA proposes a standard for work practices used in operation and maintenance of electric power generation, transmission, and distribution facilities. Revisions to protective equipment requirements are included.	Final rule 9/93.
*780-051.00	Confined Spaces - Permits and Safety Requirements 29 CFR 1910	NPRM 54 FR 24080 6/5/89 Final rule 58 FR 4462 1/14/93 Corrections 58 FR 34844 6/29/93	OSHA establishes safety requirements, including a permit system, for entry into those confined spaces which OSHA has identified as posing special dangers for entrants due to their configuration or other features.	Final rule effective 4/15/93. Corrections effective 6/29/93.
780-052.00	Methods of Compliance 29 CFR 1910	NPRM 54 FR 23991 6/5/89 Regulatory Agenda 58 FR 24602 4/26/93	OSHA proposes to modify the existing provisions for controlling employee exposures to toxic substances found in 1910.1000(e) and 1910.134(a)(1). The agency proposes to incorporate additional flexibility in its requirements by setting forth the circumstances under which respiratory protection may be used in lieu of engineering controls.	Final rule put on hold; possible action by 11/93.
780-054.00	Personal Protective Equipment 29 CFR 1910	NPRM 54 FR 33832 8/16/89 Regulatory Agenda 58 FR 24604 4/26/93	OSHA proposes to revise portions of the general industry safety standards addressing personal protective equipment. The criteria for personal protective equipment for eye, face, head, and foot would be revised to reflect improved developments in these types of equipment.	Final rule 7/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
780-057.00	General Industry - Personal Fall Protective Equipment 29 CFR 1910	NPRM 55 FR 13423 4/10/90 Regulatory Agenda 58 FR 24602 4/26/93	OSHA proposes to amend the standards for personal protective equipment for general industry by adding criteria pertaining to personal fall protection systems, including fall arrest systems, work positioning systems, travel restricting systems, and fall protection systems for climbing.	Final rule 12/93.
780-058.00	General Industry Standards - Walking and Working Surfaces 29 CFR 1910	NPRM 55 FR 13360 4/10/90 Regulatory Agenda 58 FR 24606 4/26/93	OSHA proposes to revise its general industry standards for workplace walking and working surfaces in order to focus on the hazards that can result in trips, slips, and falls causing serious and fatal injuries. This proposed standard will also eliminate ambiguities and redundancies in the existing Subpart D standards and address areas not covered in the existing standards.	Final rule 12/93.
*780-059.00	Recording and Reporting Occupational Injuries and Illnesses 29 CFR 1904	Planned NPRM 58 FR 24598 4/26/93	OSHA requires covered employers to record all work-related fatalities, illnesses, and certain injuries and to report summary data if selected to participate in the BLS annual survey. BLS and OSHA have tested several data collection vehicles and procedures and are revising the recordkeeping guidelines to improve the usefulness of the survey outputs.	<u>NPRM 10/93.</u>
780-061.00	Reporting of Fatality or Multiple Hospitalization Accidents 29 CFR 1904	NPRM 57 FR 21222 5/19/92 Regulatory Agenda 58 FR 24608 4/26/93	OSHA proposes to revise reporting requirements in 29 CFR 1904.8 to expand the scope and time requirements for reporting hospitalizations and fatalities.	Final rule 9/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*780-062.00	Air Contaminants - Construction, Maritime, and Agricultural Industry 29 CFR 1910 29 CFR 1915 29 CFR 1917-1918 29 CFR 1926 29 CFR 1928	NPRM 57 FR 26002 6/12/92 Interim final rule 58 FR 26590 5/4/93 IFR amendment 58 FR 34218 6/24/93	OSHA proposes to revise its existing air contaminant standards for the construction and maritime industries to establish more protective limits, and proposes to add exposure limits and standards for the agricultural industry. OSHA indefinitely extends the comment period on its proposed rule pursuant to a recent appeals court decision which vacated and remanded the general industry final rule for air contaminants. In response to a Congressional mandate, EPA amends the standards for the construction industry by reducing the permitted level of exposure to lead from 200 to 50 µm/m ³ 8-hour TWA. A final rule setting standards for other air contaminants will be issued at a later date. OSHA amends the 5/4/93 interim final rule to include the OMB information collection requirement (ICR) control number.	<u>Final rule on hold pending resolution of general industry standard vacated rule (see RU# 780-030.00).</u> <u>Effective 6/3/93. Startup dates for various provisions are set forth in 1926.62(r).</u> <u>Effective 6/3/93. OMB clearance expires 5/31/96.</u>
780-063.00	Ergonomic Safety and Health Management 29 CFR 1910	ANPRM 57 FR 34192 8/3/92 Corrections 57 FR 37591 8/19/92 Planned NPRM 58 FR 24600 4/26/93	OSHA is considering the development of a safety and health management standard that would address ergonomic hazards in the workplace for general industry and specific industries.	NPRM undetermined.
780-064.00	Crane Safety Standards 29 CFR 1910 29 CFR 1919 29 CFR 1926	ANPRM 57 FR 47746 10/19/92 Planned NPRM 58 FR 24600 4/26/93	OSHA is considering a multi-phased revision of provisions in general, and crane operator qualifications in particular, and solicits quantitative and qualitative data and expert opinions in this regard.	NPRM undetermined.
*780-065.00	Incorporation of General Industry Standards into Construction Standards 29 CFR 1926	Final rule 58 FR 35076 6/30/93	OSHA incorporates the regulatory text of the general industry safety and health standards (29 CFR 1910) that have been identified as applicable to construction work into the safety and health regulations for construction (29 CFR 1926).	<u>Effective 6/30/93.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*780-066.00	Safety Standards for General Industry and Construction 29 CFR 1910 29 CFR 1926	Final rule; technical amendments 58 FR 35306 6/30/93	OSHA makes nomenclature changes, address changes, and minor technical amendments to the standards for construction and general industry promulgated in two 1971 final rules, and corrects typographical errors in several tables in the regulations.	<u>Effective 6/30/93.</u>
ENDANGERED SPECIES ACT				
*200-053.00	Endangered and Threatened Wildlife - Oregon Chub	NPRM 56 FR 58348 11/19/91	The FWS proposes to list the Oregon Chub (<i>Oregonichthys crameri</i>), found in several counties in western Oregon, as an endangered species under the ESA.	<u>Final rule 9/93.</u>
*200-056.00	Endangered and Threatened Wildlife - Mussels 50 CFR 17	NPRM 57 FR 27203 6/18/92 Final rule 58 FR 5638 1/22/93	The FWS lists the northern riffleshell mussel (<i>Epioblasma torulosa rangiana</i>) and the clubshell mussel (<i>Pleurobema clava</i>) as endangered species under the ESA. Both species occur in stream located in several eastern states including Kentucky, Ohio, and Pennsylvania.	<u>Effective 2/22/93.</u>
200-057.00	Endangered and Threatened Fishes - Duskytail Darter and Others 50 CFR 17	NPRM 57 FR 30191 7/8/92 Final rule 58 FR 25758 4/27/93	The FWS lists three fishes - duskytail darter (<i>Etheostoma caeruleum</i>), palezone shiner (<i>Notropis procerus</i>), and pygmy madtom (<i>Noturus stanali</i>) - as endangered species under the ESA. The fishes inhabit certain streams in Alabama, Kentucky, Virginia, and eastern Tennessee.	<u>Effective 5/27/93.</u>
200-058.00	Endangered and Threatened Wildlife - Least Bell's Vireo 50 CFR 17	Revised NPRM 57 FR 34892 8/7/92 Regulatory Agenda 58 FR 24468 4/26/93	The FWS proposes to revise the designation of critical habitat for the Least Bell's vireo (<i>Vireo bellii pusillus</i>) originally proposed May 3, 1985. The proposed designation encompasses portions of Los Angeles, Riverside, San Bernardino, San Diego, Santa Barbara, and Ventura counties in California.	<u>Final rule by 8/93.</u>
*200-059.00	Endangered and Threatened Species - Sacramento River Chinook Salmon 50 CFR 226	NPRM 57 FR 36626 8/14/92 Notice 58 FR 31688 6/4/93 Final rule 58 FR 33212 6/16/93	The National Marine Fisheries Service designates critical habitat for the Sacramento River winter-run chinook salmon (<i>Oncorhynchus tshawytscha</i>) and identifies physical and biological features of the habitat that are essential to the conservation of the species.	<u>Effective 7/16/93.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
200-060.00	Designated Critical Habitat - Snake River Sockeye Salmon, Spring/Summer/Fall Chinook Salmon 50 CFR 226	MPRM 57 FR 57051 12/2/92 Regulatory Agenda 58 FR 24473 4/26/93	The National Marine Fisheries Service proposes to designate critical habitat for the Snake River sockeye salmon (<i>Oncorhynchus nerka</i>) and the Snake River spring/summer and fall chinook salmon (<i>Oncorhynchus tshawytscha</i>).	Final rule by 12/93.
200-062.00	Endangered and Threatened Plants - San Francisco Bay Serpentine Soil Plants 50 CFR 17	MPRM 57 FR 59053 12/14/92 Regulatory Agenda 58 FR 24466 4/26/93	The FWS proposes endangered status for ten plants and threatened status for two plants which are restricted to serpentine soils in the San Francisco Bay, California region.	Final rule by 12/93.
200-063.00	Endangered and Threatened Wildlife - Colorado River Fishes 50 CFR 17	MPRM 58 FR 6578 1/29/93 Correction 58 FR 13732 3/15/93	FWS proposes to designate critical habitat for four species of fish endemic to the Colorado River Basin: razorback sucker, Colorado squawfish, humpback chub and bonytail chub.	Final rule by 2/94.
MARINE PROTECTION, RESEARCH, AND SANCTUARIES ACT				
*460-016.00	Ocean Dumping - Expansion of Designated Sites - Washington, Oregon 40 CFR 228	MPRM 57 FR 43427 9/21/92	EPA proposes to temporarily expand the boundaries of three of four designated ocean dredged material disposal sites located offshore of the mouth of the Columbia River, to restrict site use to maintenance dredging material, and to alter conditions of site use.	Final rule 7/93.
*460-017.00	Ocean Dumping Regulations 40 CFR 228	MPRM 58 FR 32322 6/9/93	EPA proposes to revise the list of designated ocean dumping sites to better organize the listing format and correct misprints and typographical errors.	Comments by 7/29/93. Final rule 9/93.
NATIONAL ENVIRONMENTAL POLICY ACT				
480-017.00	DOE Integrated Environmental Restoration and Waste Management Program	NOI 55 FR 42633 10/22/90 NOA 57 FR 4193 2/4/92	DOE announces its intent to prepare a programmatic EIS to assess the potential environmental consequences of alternatives for implementing an integrated environmental restoration and waste management program that would provide a broad, systematic approach to addressing cleanup activities and waste management practices.	Draft PEIS third quarter CY 1993.

(a) MPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*480-019.00	NEPA Implementing Procedures for Bureau of Mines	Notice of proposed revisions 57 FR 3436 1/29/92 Notice of final revisions 58 FR 34816 6/29/93	DOI announces a final revision for implementing NEPA within the Bureau of Mines. The revision primarily reflects changes in organization and responsibilities.	Effective 7/29/93.
NATIVE AMERICAN GRAVES PROTECTION AND REPATRIATION ACT				
*080-001.00	Native American Graves Protection and Repatriation Act Implementation 43 CFR 10	NPRM 58 FR 31122 5/28/93	EPA proposes regulations for implementing the Native American Graves Protection and Repatriation Act of 1990. The regulations develop a systematic process for determining the rights of lineal descendants and members of Indian tribes and native Hawaiian organizations to certain native American human remains and cultural items.	Comments by 7/27/93. Final rule 6/94.
ARCHEOLOGICAL RESOURCES PROTECTION ACT				
090-001.00	Protection of Archeological Resources - Uniform Rules 18 CFR 1312 32 CFR 229 36 CFR 296 43 CFR 7	NPRM 56 FR 46259 9/11/91 Regulatory Agenda 58 FR 24479 4/26/93	To implement changes required by the Archeological Resources Protection Act, an interagency group composed of DOI, DOD, TVA, and USDA proposes to amend the description of prohibited acts to include attempts to excavate, remove, damage, or otherwise alter or deface archeological resources.	Final rule 9/93.
090-002.01	Curation of Federally Owned Archeological Collections 36 CFR 79	NPRM 55 FR 37670 9/12/90 Regulatory Agenda 58 FR 24476 4/26/93	NPS proposes to amend the final rule of 9/12/90 to establish procedures for federal agencies to provide both information on the disposition of collections and copies of certain associated records to pertinent state officials, and procedures for discarding certain collection materials.	Final rule 9/93.
NATIONAL HISTORIC PRESERVATION ACT				
*540-008.00	National Register of Historic Places - Criteria and Eligibility Determinations	Notice 58 FR 33105 6/15/93	The DOI requests comments on the criteria for listing properties in the National Register of Historic Places and the effects of such listings.	Comments by 8/16/93.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT				
*300-003.00	Guidelines on Disposal and Storage - Procedures for Recall of Canceled and Suspended Pesticides (Phase I) 40 CFR 165	Updating underway 50 FR 44656 10/29/85 NPRM 58 FR 26856 5/5/93	EPA proposes procedures for the recall and safe disposal of suspended and canceled pesticides held by registrants and owners of such pesticides. At a later date, EPA will propose data requirements and container design and residue removal regulations.	Phase I final rule 5/94. Phase II NPRM 7/93. Phase III 1994.
*300-004.01	Worker Protection Standards - Pesticide Information Availability 40 CFR 170	NPRM 57 FR 38167 8/21/92 Regulatory Agenda 58 FR 25012 4/26/93	EPA proposes modifying the worker protection standard for agricultural workers and pesticide handlers to require that specific hazard information be made available to covered workers concerning the pesticides to which they are exposed.	Final rule 6/94.
*300-007.00	Restricted Use Classification for Groundwater Contaminating Pesticides	Notice 55 FR 5861 2/20/90 NPRM 56 FR 22076 5/13/91 NOA 56 FR 56643 11/6/91 Regulatory Agenda 58 FR 25011 4/26/93	EPA proposes two options for adding new criteria for selection of pesticide products as candidates for restricted use classification. The proposed criteria would require consideration of restricted use for pesticide products that may contaminate groundwater. Both options address the measured persistence and mobility of an ingredient of a pesticide and the detection of the ingredient in groundwater in at least three different counties.	Final rule 5/94.
*300-014.00	Experimental Use Permit Rule for Microbial Pesticides 40 CFR 172	NPRM 58 FR 5878 1/22/93 Regulatory Agenda 58 FR 25012 4/26/93	EPA proposes to amend its experimental use permit regulations for pesticides to clarify the circumstances under which a permit is presumed not to be required and to specify that the presumption is based on risk. EPA also proposes to require notification before initiation of small-scale testing of certain genetically modified microbial pesticides.	Final rule 2/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.

* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
300-021.00	Certification of Restricted Use Pesticide Applicator 40 CFR 171	NPRM 55 FR 46522 11/7/90 Notice 56 FR 12007 3/21/91 Regulatory Agenda 58 FR 25012 4/26/93	EPA proposes to revise the rules regarding the certification of applicators of restricted use pesticides to upgrade the provisions of certification programs.	Final rule 10/93.
*300-026.00	National Laboratory Accreditation Program 7 CFR 100	ANPRM 57 FR 54727 11/20/92 Planned NPRM 58 FR 24020 4/26/93	The DHHS and the DOA will propose the creation of a National Laboratory Accreditation Program (NLAP) for certain laboratories that request accreditation and conduct pesticide residue analysis of agricultural products or that make claims to the public or buyers of these products. The program will ensure that such laboratories meet minimum quality and reliability standards.	<u>NPRM 1/94.</u>
*300-027.00	Pesticides in Ground Water Database	NOA 58 FR 31646 6/3/93	EPA announces the availability of the "Pesticides in Ground Water Database, a Compilation of Monitoring Studies: 1971-1991" which presents summary results on pesticide monitoring of ground water in the U.S. from 1971 to 1991.	<u>Copies of report available from GPO or NTIS.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
FEDERAL MINE SAFETY AND HEALTH ACT				
*330-004.00	Safety Standards for Explosives at Metal and Nonmetal Mines 30 CFR 56 30 CFR 57	ANPRM 53 FR 45487 11/10/88 Final rule 56 FR 2070 1/18/91 Stay of final rule; reopening of rulemaking record 56 FR 14470 4/10/91 Partial administrative stay; effective date stayed 56 FR 46500 9/12/91 Partial stay extended 58 FR 44256 9/24/92 Partial stay extended 58 FR 31908 6/7/93	DOL updates and clarifies the Mine Safety and Health Administration's safety standards for explosives at metal and nonmetal mines to make them consistent with technological advances such as gaseous initiation systems, miniaturized detonating cord systems, and the use of bulk mixing of explosives materials.	Effective date of final rule stayed until 11/1/91 except for certain provisions which are stayed until 12/31/93.
330-004.01	Safety Standards for Explosives at Metal and Nonmetal Mines 30 CFR 56 30 CFR 57	ANPRM 57 FR 47524 10/16/92 Correction 57 FR 49218 10/30/92 Regulatory Agenda 58 FR 24590 4/26/93	DOL proposes a rule to address stayed provisions of the 1/18/91 final rule on safety standards for explosives at metal and nonmetal mines.	Final rule 10/93.

(a) ANPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
330-005.00	Air Quality, Chemical Substances, and Respiratory Protection Standards 30 CFR 56-58 30 CFR 70-72 30 CFR 75 30 CFR 90	NPRM 54 FR 35760 8/29/89 Correction 55 FR 5118 2/13/90 Regulatory Agenda 58 FR 24591 4/26/93	The Mine Safety and Health Administration proposes to revise existing standards for air quality and chemical substances at coal and metal/nonmetal mines. Permissible exposure limits (PELs) for substances that may pose health hazards at these mines and revised requirements for exposure monitoring, carcinogens, and respiratory protection programs are proposed.	Final rule 12/93.
330-006.00	Hazard Communication CFR undetermined	NPRM 55 FR 46400 11/2/90 Regulatory Agenda 58 FR 24591 4/26/93	MSHA proposes to establish a hazard communication standard that would require mine operators to assess the hazards of chemicals they produce or use and provide information to their employees concerning chemical hazards by means of a written hazard communication program, labeling of containers, MSDS sheets, and training programs.	Final rule 10/93.
HISTORIC SITES ACT OF 1935				
*410-004.00	National Natural Landmarks - Designation of Geological and Ecological Natural Areas 36 CFR 62	ANPRM 55 FR 43384 10/29/90 NPRM 56 FR 58790 11/21/91 Regulatory Agenda 58 FR 24479 4/26/93	The National Park Service proposes to amend its regulations governing the identification, notification, evaluation, nomination, and designation of geological and ecological natural areas as National Natural Landmarks (NNLs) to ensure that landowners are fully notified and provided full program disclosure and an understanding of the consequences of NNL designation before agreeing to it.	Final rule 11/93.
BIOTECHNOLOGY				
*110-005.00	Microbial Products (Biotechnology) 40 CFR 700 40 CFR 720 40 CFR 721	Planned NPRM 58 FR 25017 4/26/93	EPA will propose to amend its definition of "small quantities solely for research and development" and to amend reporting requirements for persons who are using microorganisms. EPA will establish a special notification mechanism for experimental releases of microorganisms and propose significant new use notification requirements under TSCA Sect. 5(a)(2).	NPRM 1/94. Final rule 1/95.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION				
*810-009.00	Power Plan Amendments - Columbia River Basin (Phase IV)	Notice 56 FR 23947 5/24/91 Notice 57 FR 61608 12/28/92 Proposed amendments 58 FR 30832 5/27/93	The Pacific Northwest Electric Power and Conservation Planning Council proposes amendments to the resident fish and wildlife provisions of the Columbia River Basin Fish and Wildlife Program, and invites comment on them.	Comments by 8/13/93. Final action 10/93.
COASTAL ZONE MANAGEMENT ACT				
160-002.00	National Estuarine Reserve Research System 15 CFR 921	NPRM 53 FR 43816 10/28/88 Interim final rule 55 FR 29940 7/23/90 NPRM 57 FR 31926 7/17/92 Regulatory Agenda 58 FR 24162 4/26/93	NOAA proposes to revise the existing interim final rules for selecting, designating, operating and funding national estuarine research reserves to bring them into accord with requirements of the Coastal Zone Act Reauthorization Amendments of 1990.	Interim final rule effective 7/23/90. Final rule 7/93.
OTHER				
*805-023.00	Assessing Female Reproductive Risk	Proposed guidelines 53 FR 24834 6/30/88	EPA proposes guidelines for assessing the female reproductive risk of environmental pollutants. The guidelines are intended to guide Agency analysis of data on female reproductive toxicants according to appropriate scientific standards.	Final guidelines 11/93.
*805-024.00	Assessing Male Reproductive Risk	Proposed guidelines 53 FR 24850 6/30/88	EPA proposes guidelines for assessing the male reproductive risk of environmental pollutants. The guidelines are intended to guide Agency analysis of data on male reproductive toxicants according to appropriate scientific standards.	Final guidelines 11/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
* Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
805-049.00	Task Force on Wetlands - No Net Loss Strategy	Notice 55 FR 30279 7/25/90 NOA 56 FR 8560 2/28/91	The Domestic Policy Council's Task Force on Wetlands requests comments on strategies for attaining "no net loss" of wetlands. DOE is represented on the Council.	Awaiting final revision of wetlands manual (see RU# 805-049.00).
805-047.00	WAPA's Energy Planning and Management Program	Proposed Program 56 FR 16093 4/19/91	WAPA proposes to establish an Energy Planning and Management Program to replace its Guidelines and Acceptance Criteria for the Conservation Renewable Energy Program.	Final action by 12/93.
*805-048.00	Security Skills Training and Qualifications Standards for Protective Force Personnel 10 CFR 1046	NPRM 56 FR 21631 5/10/91 Regulatory Agenda 58 FR 24255 4/26/93	DOE proposes new requirements for access authorizations and security skills training and qualification for DOE contractor personnel responsible for protection of DOE facilities.	Final rule 10/93.
805-049.00	Federal Manual for Identifying and Delineating Jurisdictional Wetlands 7 CFR Ch.VI 33 CFR Ch.II 40 CFR Ch.I 50 CFR Ch.I and IV	NPRM 56 FR 40446 8/14/91	EPA, in cooperation with the Departments of Defense, Agriculture, and Interior, proposes revisions to the "Federal Manual for Identifying and Delineating Jurisdictional Wetlands."	Final rule after MAS completes its wetlands study by fall of 1993.
805-049.01	Wetland Identification and Delineation Rule 7 CFR 12 33 CFR 328 40 CFR 110 40 CFR 116 40 CFR 117 40 CFR 122 40 CFR 230 40 CFR 232 40 CFR 435 50 CFR Ch.I and IV	NPRM 56 FR 65964 12/19/91 Regulatory Agenda 58 FR 25031 4/26/93	EPA, COE and the Soil Conservation Service propose to incorporate portions of the Federal Manual for Delineating Jurisdictional Wetlands into the regulations governing the agencies' wetland protection programs. The provisions proposed reflect revisions to the manual proposed on 8/14/91, and the final rule will be consistent with the final manual. In addition, field data and other technical references are made available for review and comment.	Awaiting final revisions of wetlands manual (see RU# 805-049.00).

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1993

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*805-055.00	Guide to Record Retention Requirements - Supplement	Notice 58 FR 26450 5/3/93	The Office of the Federal Register publishes the Supplement to the 1992 Guide to Record Retention Requirements in the CFR. The Supplement and 1992 Guide list recordkeeping regulations in effect as of 1/1/93.	Current through <u>12/31/92.</u>
*805-056.00	Transfer by Federal Agencies of Information to NTIS 15 CFR 1180	NPRM 58 FR 27681 5/11/93	NTIS proposes procedures for the timely transfer to NTIS of unclassified scientific, technical and engineering information resulting from federally funded research and development activities.	Final rule <u>5/94.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advanced Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability.
 * Indicates a change in date of scheduled action or a new rulemaking development during the past two months. Shaded RU# indicates item of special interest to EN-23.

IRIS DATABASE UPDATE

A DOE EH-231 Memorandum entitled *Integrated Risk Information System (IRIS) and Availability of Chemical Risk Assessment Guidance* was distributed in June 1991 to DOE Program Offices and Field Organizations. Attachment 1 to the memorandum, an ORNL-ESD report discussing access to and utilization of the *IRIS* online database, included "Table 1. *IRIS* Chemicals With Reference Doses and Carcinogen Assessments." The *IRIS* database has been updated extensively since that table was generated. The following table is the bimonthly updated version of Table 1 including all the chemicals listed in Table 1 along with additions/changes to the database as of June 30, 1993. Additions/changes are those listed in the online *IRIS* database as accessed by our personnel through the National Library of Medicine. Changes in our table are shaded for ease of identification. Future issues of the *Environmental Regulatory Update Table* will include updates to the *IRIS* database during the previous two months. *Use only the most current version of the table.*

IRIS CHEMICALS WITH REFERENCE DOSES AND/OR CARCINOGEN ASSESSMENTS

(Values current through June 30, 1993. Use only the most current version of this table.)

EPA CARCINOGENICITY GROUPS

A = HUMAN CARCINOGEN

B1 = PROBABLE HUMAN CARCINOGEN

Limited evidence in human studies

B2 = PROBABLE HUMAN CARCINOGEN

Sufficient evidence from animal studies, inadequate evidence or no data from human studies

C = POSSIBLE HUMAN CARCINOGEN

D = NOT CLASSIFIABLE AS TO HUMAN CARCINOGENICITY
