Dr. Sherwood L. Fawcett
Director
Battelle-Northwest
Pacific Northwest Laboratories
Richland, Washington

Dear Dr. Fawcett:

RESEARCH AND DEVELOPMENT ALLOCATION

- Ref: 1. RL Dickeman to SL Fawcett, "Research and Development Allocations and Plant Assistance Support, FY 1967," July 1, 1966, RL-GEN-1057, (Confidential).
2. MC Leverett, same title as reference 1, RL-GEN-1019, June 30, 1966 (Secret).

I believe you are aware that initially the Hanford FY-1967 indicated funding level for 2000 Program Research and Development was 5.2 million dollars. Subsequently, Mr. H. H. Schipper of AEC-RL00 indicated that an additional \$300,000 would be made available, \$100,000 to each of the three 2000 Program contractors, with the express provision that this additional amount be allocated to Battelle Northwest. The initial allocation made by us to BNW (reference 1) was based on our portion of the augmented fund availability.

We have now been informed by the Commission that the 2000 Program Research and Development funds for Hanford have been established at the original 5.2 million dollar level. Since the presumed additional \$100,000 was allocated in its entirety to Battelle, a re-allocation consistent with available funds is required.

The attached table summarizes revisions which reduce the BNW allocation by \$90,000 (overhead held in HAPD account) from the allocation defined in reference 1. The work order support to BNW of \$695,000 estimated in reference 1 is not expected to change.

Although it would be desirable to supplement the support of affected work programs from production funds, a reduction of production funds of over 3 million dollars is under consideration by the AEC, making the probability of supplemental support from this source uncertain. We will, however, remain in close contact with you to ensure that all possible fiscal support is provided as the year progresses.

The HAPD program managers listed in the table will contact their counterparts in your organization to discuss important program elements which must progress.

Very truly yours,

General Manager

RL Dickeman:MCL:vb
