Environmental Regulatory Update

This report contains a bi-monthly update of environmental regulatory activity that is of interest to the Department of Energy. It is provided to DOE operations and contractor staff to assist and support environmental management programs by tracking regulatory developments. Any proposed regulation that raises significant issues for any DOE operation should be reported to the Office of Environmental Guidance (EH-23) as soon as possible so that the Department can make its concerns known to the appropriate regulatory agency. Items of particular interest to EH-23 are indicated by a shading of the RU#.

Any questions or comments about any aspects of the Update Table should be directed to Lois Thompson, Air, Water, and Radiation Protection Division, Office of Environmental Guidance, U.S. Department of Energy (EH-23), 202-586-9581.

ABSTRACT

The Environmental Regulatory Update Table provides information on regulatory initiatives of interest to DOE operations and contractor staff with environmental management responsibilities. The table is updated bi-monthly with information from the Federal Register and other sources, including direct contact with regulatory agencies. Each table entry provides a chronological record of the rulemaking process for that initiative with an abstract and a projection of further action.

IRIS Table Update	85
Index to RU Numbers by CFR Citation	103

*RU numbers are identifiers that are assigned to each regulatory initiative for tracking purposes. The first three digits are coded to the statute, and the last three digits are specific to individual initiatives. The update table is first organized by statutes as shown above and then by RU numbers arranged sequentially. An index is provided at the end of the table to relate CFR citations to RU numbers.

Regulatory Highlights - May/June, 1992

1. Hazardous Waste Management System; Identification and Listing of Hazardous Waste - Proposed Rule

EPA publishes a notice of proposed rulemaking (NPRM) to amend regulations in 40 CFR Part 261 applicable to hazardous waste identification under the Resource Conservation and Recovery Act (RCRA). The proposed rule, termed the Hazardous Waste Identification Rule, is in response to a recent court order which vacated the RCRA "mixture" and "derived-from" rules in 40 CFR 261.3 and remanded them to EPA. At the court's invitation, the Agency (1) reinstated the rules on an interim basis to avoid disrupting the national hazardous waste management system, and (2) issued a proposal seeking comment on the rules and on potential options for regulating waste mixtures and residues (3-3-92, 57 FR 7628 & 7636; see Regulatory Highlights - March/April 1992 for a brief summary). EPA also issued a final rule on 6-1-92 reinserting parts of 40 CFR 261.3 which were promulgated in 1991, but were inadvertently omitted from the 3-3-92 reinstatement. The Agency's latest action was to issue another proposal outlining the specifics of two alternative approaches for identifying hazardous waste. This NPRM takes an initial step in an EPA initiative to set waste management requirements based on the risk of the waste in question. Both approaches would apply to listed hazardous wastes, waste mixtures, derivatives, and media (including soils and ground water) contaminated with certain listed hazardous wastes. The first approach proposed, the Concentration-Based Exemption Criteria (CBEC) approach, would retain the current system for identifying hazardous wastes, but would allow an exemption from Subtitle C hazardous waste management requirements if the waste contained hazardous constituents at or below a certain level. The Agency is considering options for establishing exemption levels based on health risks and/or performance of treatment technologies. To qualify for an exemption, a generator would have to meet certain testing, notification, and recordkeeping requirements. The second approach, the Expanded Characteristics Option (ECHO), would change the manner in which hazardous wastes are identified by relying solely on the presence of a hazardous waste characteristic (i.e., ignitability, corrosivity, reactivity, and toxicity) as the determining factor. Under this approach EPA would expand the toxicity characteristic from its current list of 39 hazardous constituents in appendix VIII of 40 CFR 261 to as many appendix VIII constituents as possible. In addition, the Agency proposes management practices which, if complied with, could conditionally exempt certain wastes and media from Subtitle C requirements even though the wastes or media were determined to contain hazardous constituent concentrations greater than the levels established under the proposed approaches (ECHO or CBEC). EPA will accept comments on the proposal until July 20, 1992. (5-20-92, 57 FR 21450, RU# 840-310)

2. Hazardous Waste Management System; Identification and Listing of Hazardous Waste: Used Oil - Final Rule

EPA has decided to preserve the status quo for used oil destined for disposal. The Agency will not list used oils destined for disposal as hazardous waste, based on the finding that all used oils do not typically or frequently meet the technical criteria for listing a waste as hazardous waste. However, these waste oils remain subject to regulations under RCRA which set the technical criteria to determine whether a solid waste should be listed as a hazardous waste. Under these regulations, a waste is considered hazardous if it exhibits certain toxicity characteristics or contains any of the toxic constituents listed in appendix VIII. In addition, regulations set by other agencies (i.e., U.S. Coast Guard and U.S. Department of Transportation) and required by other statutes (i.e., Comprehensive Environmental Response, Compensation, and Liability Act; Toxic Substances Control Act; Clean Water Act; and Safe Drinking Water Act) prevent the mismanagement of used oil to such an extent that used oil destined for disposal is unlikely to pose a substantial present or potential hazard to human health and the environment. EPA has also taken action to modify regulations to grant an exclusion from the definition of hazardous waste for certain types of used oil filters. To qualify for this exemption, the oil filters must be "Non-terne (alloy of tin and lead) plated used oil filters that are not mixed with waste listed in subpart D of this part (40 CFR 261) if these oil filters have been gravity hot-drained using one of the following methods: (i) Puncturing the filter anti-drain back valve or the filter dome end and hot-draining; (ii) Hot-draining and crushing; (iii) Dismantling and hot-draining; or (iv) any other equivalent hot-draining method which will remove used oil." The effective date for this final rule was June 19, 1992. The Agency is not presently taking action on a listing determination or management standards for used oils that are recycled. This action, along with standards to control the burning of used oil in boilers and furnaces, is planned for the near future.

(5-20-92, 57 FR 21524 and 7-1-92, 57 FR 29220, RU# 840-009)

3. Proposed Rule for the Clean Water Act Regulatory Programs of the Army Corps of Engineers and the Environmental Protection Agency

EPA and the Army Corps of Engineers (COE) issue a proposed rule to make changes in the Clean Water Act (CWA) Section 404 regulatory program. (Section 404 gives EPA and COE the authority to regulate activities involving a discharge of dredged or fill material into the Nation's waters, including wetlands.) The revisions are in response to a settlement agreement from a 2-28-92 court case (*North Carolina Wildlife Federation v. Tulloch*) and the President's 8-9-91 Wetlands Protection Plan. First, the Agencies are proposing to modify the definition of "discharge of dredged material" in 33 CFR 323.2(d) and 40 CFR 232.2(e) to clarify both what is and what is not covered as a regulated activity under the definition. For example, the proposal would add new language to the definition of "discharge of dredged material" to include any incidental discharge (i.e., addition or redeposition) of excavated material into waters of the United States from activities such as mechanized land clearing, ditching, channelization, or other excavation which has or would have the effect of destroying or degrading waters of the United States, including wetlands.

Second, EPA and the COE are proposing to incorporate into the Section 404 regulations provisions from the COE Regulatory Guidance Letter 90-8 to clarify when the placement of pilings is considered a discharge of fill material and, thus, subject to regulation under Section 404. Third, the proposal would revise the definitions of "waters of the United States" and "navigable waters" in 33 CFR 328.3(a) and all other CWA program regulations to clarify that prior converted croplands are not within the scope of CWA jurisdiction. The intended effect of the proposed changes is to promote national consistency in the CWA Section 404 regulatory program and enhance the protection of waters of the United States. Comments on the proposed rule will be accepted until August 17, 1992. (6-16-92, 57 FR 26894 RU# 140-120)

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
RESOURCE CONSERVATION AND RECOVERY ACT				
	Oil Pollution Prevention -- RU# 145-002			
	Pesticide Storage -- RU# 300-003			
	Test Procedures Under CWA and RCRA for the Analysis of Pollutants - Test Methods Using CFCs -- RU# 140-116			
*840-009	Management of Used Oil 40 CFR 261	NPRM 50 FR 49258 11/29/85 NOA 51 FR 8206 3/10/86 Supplemental NPRM 56 FR 48000 9/23/91 Final rule 57 FR 21524 5/20/92	EPA determines not to list used oil destined for disposal as a hazardous waste under RCRA, exempts used oil filters from the definition of hazardous wastes, and postpones making a listing decision on used oils destined for recycling.	Effective 6/19/92.
*840-026	Containerized Liquids in Landfills 40 CFR 260 40 CFR 264 40 CFR 265 40 CFR 271	NPRM 51 FR 46824 12/24/86 NOA 52 FR 23695 6/24/87 NOA 56 FR 55646 10/29/91 NOA 57 FR 18853 5/1/92	EPA proposes to prohibit disposal of free liquids and containers with liquid hazardous wastes and exclude the use of absorbents that biodegrade and release liquids when compressed. These rules will not apply to owners or operators of landfills in which only PCB chemical waste regulated under 40 CFR 761 are disposed. PCBs mixed with a RCRA hazardous waste must comply with all requirements under both RCRA and TSCA.	Final rule 10/92.
			EPA announces the availability of additional information on the Liquids Release Test as part of its 12/24/86 proposal for containerized liquids in hazardous waste landfills.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
840-056	Burning of Hazardous Waste in Boilers and Industrial Furnaces 40 CFR 260 40 CFR 261 40 CFR 264 40 CFR 265 40 CFR 266 40 CFR 270 40 CFR 271	NPRM 52 FR 16982 5/6/87 Corrections 52 FR 18043 5/13/87 Corrections 52 FR 25612 7/8/87 Supplement to NPRM 54 FR 43718 10/26/89 Technical corrections 55 FR 17862 4/27/90 Final rule 56 FR 7134 2/21/91 Technical amendment 56 FR 32688 7/17/91 Technical amendment 56 FR 42504 8/27/91 Administrative stay 56 FR 43874 9/5/91 Notice 56 FR 47959 9/23/91	EPA establishes emission standards for boilers and industrial furnaces that burn hazardous waste fuels in order to control emissions of toxic organic compounds, toxic metals, hydrogen chloride, chlorine gas, and particulate matter. In addition, this rule subjects owners and operators of these devices to the general facility standards applicable to hazardous waste TSD facilities and subjects hazardous waste storage units at regulated burner facilities to part 264 permit standards. Finally, EPA promulgates a definition of sludge dryer and revises the definition of incinerator to explicitly exclude sludge dryers (as proposed 7/18/90, 55 FR 29230). EPA also takes final action on two pending petitions by designating halogen acid furnaces as industrial furnaces and classifying coke and coal tar fuels produced by recycling coal tar decanter sludge as products rather than solid waste.	Final rule of 2/21/91 and technical amendment of 7/17/91 effective 8/21/91. Implementation guidance document issued 3/92. Available from NTIS (NTIS# PB92-154947; EPA# 530-R-92-011).
840-107	Location Standards for TSD facilities 40 CFR 261 40 CFR 264 40 CFR 265 40 CFR 270	Notice 55 FR 19981 5/14/90 Planned NPRM 57 FR 17419 4/27/92	EPA makes several technical amendments to the final rule for boilers and industrial furnaces burning hazardous waste to provide clarification and correct unintended consequences of the rule. EPA announces an administrative stay of the 2/21/91 final rule as it applies to coke ovens burning hazardous waste from the coke by-products recovery process. The stay remains in effect until the rulemaking initiative to exclude such wastes from subtitle C jurisdiction when recycled is promulgated (see RU# 840-268). EPA plans to propose additional standards for location of hazardous waste treatment, storage, and disposal facilities, in particular, in a variety of sensitive environments. Floodplain and seismic restrictions already existing at 40 CFR 264.18 and 265.18 will be amended based on new data and information.	Stay remains in effect until final promulgation of RU# 840-268. NPRM 10/92. Final rule 4/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (e)	ANTICIPATED CHANGES	SCHEDULED ACTION
840-139	Land Disposal Liners and Leak Detection 40 CFR 260 40 CFR 264 40 CFR 265 40 CFR 270 40 CFR 271	NPRM 52 FR 20218 5/29/87 Final rule 57 FR 3462 1/29/92	EPA modifies the existing double-liner and leachate collection and removal system requirements for new, replaced, or laterally-expanded landfills and surface impoundments and extends these requirements to waste piles. The rule sets minimum technology requirements for mandatory double-liner systems and leak detection systems. The rule also requires a construction quality assurance program and a response action plan and requires that the plan be implemented if a specification leakage rate is exceeded. This final rule combines two proposed rules (see RUM# 840-138).	Effective 7/29/92.
840-131	Hazardous Waste TSO Facilities - Financial Assurance for Corrective Action 40 CFR 264 40 CFR 270 40 CFR 271	NPRM 51 FR 37854 10/24/86 Notice 54 FR 40728 10/3/89 Notice 55 FR 19981 5/14/90	EPA proposes to amend the financial responsibility and permitting standards for TSO owners and operators to require them to demonstrate financial assurance for completion of any required corrective action for a release to any medium from any solid waste management unit. Acceptable mechanisms include a trust fund, surety bond guaranteeing performance, letter of credit, financial test, or corporate guarantee.	On hold Indefinitely.
840-135	Solid Waste Management Units - Corrective Action 40 CFR 264 40 CFR 265 40 CFR 270 40 CFR 271	NPRM 55 FR 30798 7/27/90 Regulatory Agenda 57 FR 17424 4/27/92	EPA proposes procedures and technical requirements for implementing corrective action for solid waste management units at facilities seeking a permit under Sect. 3004(u) of RCRA. The proposal would create a new Subpart S to define requirements for conducting remedial investigations, evaluating potential remedies, and selecting and implementing remedies at RCRA facilities. It also proposes to amend permit requirements, make conforming changes to facility closure information requirements, and establish standards for states to be authorized to administer corrective action requirements.	Final rule 12/93.
840-136	Double Liner and Leachate Collection System 40 CFR 124 40 CFR 144 40 CFR 260 40 CFR 264 40 CFR 265 40 CFR 270 40 CFR 271	NPRM 51 FR 10706 3/28/86 NOA 52 FR 12566 4/17/87 Final rule 57 FR 3462 1/29/92	EPA modifies the existing double-liner and leachate collection and removal system requirements for new, replaced, and laterally-expanded landfills and surface impoundments and extends these requirements to waste piles. The rule sets minimum technology requirements for mandatory double liner systems and leak detection systems. The rule also requires a construction quality assurance program and a response action plan and requires that plan to be implemented if a specification leakage rate is exceeded. This final rule combines two proposed rules (see RUM# 840-109).	Effective 7/29/92.

(e) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RULE NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
840-171	Amendments to Groundwater Monitoring Regulations 40 CFR 260 40 CFR 264 40 CFR 270	NPRM 53 FR 28160 7/26/88 Regulatory Agenda 57 FR 17424 4/27/92	EPA proposes to amend Subpart F groundwater monitoring regulations to foster the early detection of leaks and to better tailor the current groundwater monitoring regulations to site-specific conditions.	Final rule 9/92.
840-173	Solid Waste Test Methods (Manual SW-846 Third Edition - Updates I and II) 40 CFR 260 40 CFR 261 40 CFR 262 40 CFR 264 40 CFR 265 40 CFR 268 40 CFR 270	NPRM - Update I 54 FR 3212 1/23/89 NOA 55 FR 4440 2/8/90 Regulatory Agenda 57 FR 17422 4/27/92 Planned NPRM - Update II 57 FR 17418 4/27/92	EPA proposes to update the Third Edition of SW-846, incorporate it into the RCRA regulations, and mandate minimum QC procedures for all RCRA testing. EPA proposes a number of technical modifications and/or clarifications to the Third Edition of SW-846 and the inclusion of specific QC procedures in SW-846 which are described in the "Report on Minimum Criteria to Assure Data Quality." The Agency is also considering deleting appendices III and X to 40 CFR 261. EPA will propose to revise certain test methods and add other new test methods that are approved or required under RCRA. These new and revised methods are found in Update II to the Third Edition of SW-846.	Final rule 8/92. NPRM 8/92. Final rule 8/93.
840-175	Releases to Groundwater (Subpart F) - Corrective Action 40 CFR 264 40 CFR 270	Planned NPRM 57 FR 17419 4/27/92	These regulations will amend the technical and procedural requirements for conducting corrective action to clean up significant releases to groundwater from regulated hazardous waste units at operating, closed, or closing RCRA facilities and the requirements for implementing remedial action, remedy selection, and corrective measures.	NPRM placed on hold, pending action on RU# 840-133 by 1/93.
840-176	Groundwater Monitoring - Hazardous Constituents 40 CFR 264 40 CFR 270	Planned NPRM 57 FR 17420 4/27/92	EPA will propose revisions to a list of hazardous constituents, Appendix IX of 40 CFR 264, for use in groundwater monitoring. This amendment would also create a new list for the first part (Detection Monitoring) of the groundwater monitoring program.	NPRM 7/92.
840-179	State Hazardous Waste Management Program - Florida 40 CFR 271	Immediate final rule 57 FR 21351 5/20/92	EPA grants final authorization to Florida for revisions to its state hazardous waste management program, subject to public review and comment.	Effective 7/20/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-180	State Hazardous Waste Management Program - Alabama 40 CFR 271	Immediate final rule 57 FR 20422 5/13/92	EPA grants final authorization to Alabama for revisions to its state hazardous waste management program, subject to public review and comment.	Effective 7/12/92.
840-185	USTs Containing Hazardous Substances - Financial Responsibility 40 CFR 280	ANPRM 53 FR 3818 2/9/88 Planned NPRM 57 FR 17421 4/27/92	EPA will propose to establish financial responsibility requirements for owners and operators of underground storage tanks (UST) containing hazardous substances. An exemption is to be proposed for federally owned tanks.	NPRM 9/92. Final rule 9/93.
*840-193	No-Migration Variance for Restricted Hazardous Waste Land Disposal 40 CFR 268	Notice 56 FR 46431 9/12/91 Planned NPRM 57 FR 17418 4/27/92	A regulation will be proposed that interprets the statutory requirements for making a "no-migration" demonstration that would allow the land disposal of untreated hazardous waste that has been restricted from land disposal.	NPRM 8/92. Final rule 12/93.
*840-195	Identification and Listing of Hazardous Wastes - De minimis Exemption Levels 40 CFR 260-262 40 CFR 264-265 40 CFR 270-271 40 CFR 302	Planned NPRM 57 FR 17419 4/27/92	EPA will propose exemptions from regulation for any currently listed wastes that are not hazardous because the hazardous constituents are present at levels lower than the concentration levels established by this rule. This includes chlorinated aliphatics production wastes and wastes from explosives and inorganic chemicals. In addition, EPA will propose to modify some of the numerical treatment standards listed in the LDRs.	NPRM 8/92. Final rule 8/93.
*840-206	State Hazardous Waste Management Program - Georgia 40 CFR 271	Immediate final rule 57 FR 20055 5/11/92	EPA grants final authorization to Georgia for revisions to its state hazardous waste management program, subject to public review and comment.	Effective 7/12/92.
*840-212	State Hazardous Waste Management Program - Mississippi 40 CFR 271	Immediate final rule 57 FR 20056 5/11/92	EPA grants final authorization to Mississippi for revisions to its state hazardous waste management program, subject to public review and comment.	Effective 7/10/92.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
840-244	Standards for the Tracking and Management of Medical Waste 40 CFR 259	Interim final rule 54 FR 12326 3/24/89 Notice: final rule amendment: 54 FR 24310 6/6/89 NOA 55 FR 1770 1/18/90 Corrections 55 FR 27228 7/2/90 NOA 55 FR 28096 7/9/90 NOA 55 FR 43219 10/26/90 NOA 56 FR 2178 1/22/91 Regulatory Agenda 56 FR 54064 10/21/91	EPA publishes an interim final rule implementing the Medical Waste Tracking Act (MwTA) demonstration program. The program sets forth segregation, packaging, labeling, tracking, transportation, and recordkeeping requirements of medical waste generated in the covered states, and lists the wastes to be covered by the program. States participating in the program include NY, NJ, CT, RI, and Puerto Rico.	Interim final rule effective 6/22/89. Amendments effective 6/6/89. Tracking regulations effective 6/22/89 in NY, NJ, CT, and 7/24/89 in RI and Puerto Rico. Rulemaking initiative withdrawn 9/30/91. Final report to Congress 12/92.
840-248	Revision of Subtitle C Financial Test Criteria 40 CFR 264 40 CFR 265 40 CFR 280 40 CFR 761	NPRM 56 FR 30201 7/1/91 Regulatory Agenda 57 FR 17424 4/27/92	EPA proposes to revise the financial test criteria for closure and post-closure care, the financial tests for closure and post-closure care and third-party liability coverage, the claims reporting provision, and the provisions for obtaining a letter of credit. In addition, the Agency proposes to allow a nonparent company to provide a guarantee as a demonstration of financial assurance for closure and post-closure care. Finally, EPA proposes to require the owner/operator of a disposal facility to certify compliance with deed notice requirements after closure of a hazardous waste facility.	Final rule 7/92.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
840-250	Land Disposal Restrictions for Third Third of Scheduled Wastes 40 CFR 268	Notice of proposed decision 57 FR 22024 5/26/92	EPA proposes to find that DOE has made all but one of the demonstrations required in its application, under RCRA rules in 40 CFR 268.5, for a one-year case-by-case extension of the 5/8/92 effective date of the LDRs applicable to certain mixed wastes generated or stored at 31 DOE facilities.	Comments by 7/27/92.
		Notice 57 FR 28628 6/26/92	EPA approves an extension of the LDR effective date, to May 8, 1993, applicable to lead-bearing hazardous wastes placed in a staging area immediately prior to being introduced into a lead smelter.	Notice effective 6/5/92. Variance extended to 5/8/93.
840-251	Hazardous Waste Sump Requirements 40 CFR 260 40 CFR 264 40 CFR 265	Planned NPRM 57 FR 17420 4/27/92	EPA will propose to amend several hazardous waste tank system requirements as applied to existing tanks that are situated inside buildings and constructed as an integral part of the building's floor or foundation. Boeing Company is petitioning EPA to regulate these tanks independently of other hazardous waste storage/treatment tank systems because of differences in design, construction, and use.	NPRM 7/92.
840-267	Identification and Listing of Hazardous Wastes from Chlorotoluene Production 40 CFR 261 40 CFR 271 40 CFR 302	NPRM 56 FR 51592 10/11/91 Regulatory Agenda 57 FR 17423 4/27/92	EPA proposes to list chlorinated toluenes production wastes as hazardous and to designate these wastes as CERCLA hazardous substances with appropriate RQs.	Final rule 9/92.
840-268	Identification and Listing of Hazardous Wastes from Coke By-Product Industries 40 CFR 261 40 CFR 271 40 CFR 302	NPRM 56 FR 35758 7/26/91 Regulatory Agenda 57 FR 17423 4/27/92	EPA proposes to: (1) amend the regulations for hazardous waste listing by adding seven additional wastes from the coke by-products industry to the list of hazardous wastes under 40 CFR 261.32; (2) amend appendix VII of 40 CFR part 261 to add the constituents for which these wastes are being listed; (3) designate these wastes as hazardous substances under CERCLA; and (4) adjust the reportable quantities (RQs) applicable to these wastes.	Final rule 7/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-274	State Hazardous Waste Management Program - Idaho 40 CFR 271	Immediate final rule 57 FR 24757 6/11/92	EPA proposes to grant final authorization to Idaho for revisions to its state hazardous waste management program, subject to public review and comment.	Effective 8/10/92.
840-286	Permit Modifications to Hazardous Waste Management Facilities 40 CFR 270.41	Planned NPRM 57 FR 17418 4/27/92	Amendment will allow EPA to modify a permit to correct an inadvertent omission of an applicable RCRA requirement which is in effect prior to the date of permit issuance. The permit correction would follow the modification procedures in 40 CFR 124. Citizens would be able to request such a correction using existing procedures in 40 CFR 124.5.	NPRM 3/93. Final rule 6/94.
*840-287	Adequacy Determinations for State/Tribal Solid Waste Programs 40 CFR 239	Planned NPRM 57 FR 17421 4/27/92	This regulation will describe procedures EPA will use to make determinations of adequacy for state/tribal solid waste permitting programs, as required by Sect. 4005 of RCRA.	NPRM 7/92. Final rule 11/92.
*840-289	State Hazardous Waste Management Program - North Dakota 40 CFR 271	Immediate final rule 57 FR 19087 5/4/92	EPA grants final authorization to North Dakota to implement the corrective action provisions of RCRA under its state hazardous waste management program, subject to public review and comment.	Effective 7/6/92.
840-294	Amendments to Biennial Reporting Requirements 40 CFR 262.41 40 CFR 264.75 40 CFR 271.10	Planned NPRM 57 FR 17419 4/27/92	EPA plans an amendment to require states to modify their hazardous waste reporting systems to collect additional data elements from their large quantity generators and TSD facilities. Such data will help EPA to better understand the demographics of hazardous waste generation and management.	NPRM 9/92. Final rule 9/93.
840-295	Treatment of Indian Tribes as States Under RCRA Subtitle C 40 CFR 271	Planned NPRM 57 FR 17420 4/27/92	EPA will propose to treat Indian tribes as states for purposes of the Subtitle C program. This regulation will establish the definition of an Indian tribe and the criteria it must meet to be treated as a state for authorization purposes.	NPRM 3/93. Final rule 3/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-300	Hazardous Waste Surface Impoundment Retrofitting 40 CFR 268	NPRM 57 FR 4170 2/4/92 Regulatory Agenda 57 FR 17425 4/27/92	EPA proposes a rule that will allow four years to retrofit surface impoundments for those wastes granted a national capacity variance unless treatment capacity becomes available sooner.	Final rule 7/92.
840-305	Treatment and Disposal of Contaminated Soil and TC Wastes 40 CFR 268	ANPRM 56 FR 55160 10/24/91 Planned NPRM 57 FR 17417 4/27/92	EPA will propose treatment standards that must be met before contaminated hazardous soil or organic toxicity characteristic (TC) wastes may be disposed of on land.	NPRM 7/92. Final rule 5/93.
840-306	Definition of Solid Waste; Regulations Governing HW Recycling 40 CFR 261 40 CFR 266	Planned ANPRM 57 FR 17416 4/27/92	EPA will propose to modify the current regulatory framework to improve the implementation of the regulations that define a solid waste and the regulations governing the recycling of hazardous wastes.	ANPRM 7/92.
*840-307	Hazardous Waste Recycling - Battery Recycling, Use Constituting Disposal, and Others 40 CFR 261 40 CFR 266	Planned NPRM 57 FR 17418 4/27/92	EPA will propose to modify the regulatory program for hazardous waste recycling to address activities such as use constituting disposal, battery recycling, closed loop recycling, and management of recalled pesticides.	NPRM 10/92. Final rule 10/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * indicates a change in date of scheduled action or a new rulemaking development during the past month. RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*840-310	Definition of "mixture" and "derived-from" Hazardous Wastes 40 CFR 260 40 CFR 261 40 CFR 262 40 CFR 264 40 CFR 268	Interim final rule 57 FR 7628 3/3/92 Technical corrections 57 FR 23062 6/1/92 NPRM 57 FR 7636 3/3/92 NPRM 57 FR 21450 5/20/92	EPA simultaneously removes and revises 40 CFR 261.3, including the "mixture" and "derived-from" rules, on an interim basis in response to a court remand. EPA proposes two approaches to amend its regulations on hazardous waste identification, to address over-regulation of certain wastes under the "mixture" and "derived-from" rules: (1) a concentration-based exemption approach (CBEC), and (2) an expanded toxicity characteristic approach (ECHO).	Interim final rule effective 2/18/92. Corrections effective 6/1/92. Comments by 7/20/92. Final rule 4/93.
*840-312	State Hazardous Waste Management Program - California 40 CFR 271	Notice of tentative determination 57 FR 18827 5/1/92	EPA grants tentative final authorization to California to operate its RCRA hazardous waste management program, subject to public review and comment.	Final decision by 7/30/92.
*840-313	Land Disposal Restrictions for Newly Identified Wastes - Phase III 40 CFR 268	NPRM 57 FR 55160 10/24/91 Planned NPRM 57 FR 17417 4/27/92	EPA will propose BDAT and LDRs for wood preserving waste, aluminum potliners, and characteristically hazardous mineral processing wastes.	NPRM 3/93. Final rule 3/94.
*840-314	Manifest System for Shipping Hazardous Wastes	Notice 57 FR 24765 6/11/92	EPA announces that it is considering establishing an advisory committee to negotiate a rule to improve the manifest system for shipments of hazardous waste under RCRA.	

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. SUPERFUND AMENDMENTS AND REAUTHORIZATION ACT				
*190-014	Technical Assistance Grants - NPL Sites 40 CFR 300	ANPRM 52 FR 22244 6/10/87 Interim final rule 53 FR 9736 3/24/88 Interim final rule amendment 54 FR 49848 12/1/89 Regulatory Agenda 57 FR 17456 4/27/92	EPA issues an interim final rule specifying requirements citizens' groups must meet to obtain technical assistance grants. EPA amends its interim final rule regarding the technical assistance grant program in order to foster greater participation of citizens' groups in the grant program. The grants are limited to \$50,000 per site and requires matching funds. This limit may be waived.	Interim final rule effective 3/24/88. Amendment effective 12/1/89. Final rule 7/92.
*190-038	Prior Notice of Citizen Suits - EPCRA 40 CFR 373	NPRM 54 FR 3918 1/26/89 Regulatory Agenda 57 FR 17457 4/27/92	EPA proposes regulations prescribing the manner in which notice of citizen suits is to be provided. They govern the notice required to be given 60 days prior to the filing of a citizen suit.	Final rule 9/92.
190-042	Administrative Hearing Procedures for Superfund Claims 40 CFR 305	Planned NPRM 57 FR 17456 4/27/92	EPA will establish procedures for conducting administrative hearings for persons who have made claims against Superfund but are dissatisfied with the award.	Interim final rule 7/92.
190-048	Superfund Response Action Contractor Indemnification	Proposed policy 54 FR 46012 10/31/89	EPA issues a proposed guidance document to implement Sect. 119 of CERCLA as amended by SARA. Sect. 119 provides the President with discretionary authority to indemnify response action contractors (RACs) for negligent releases arising out of response action activities at sites on the NPL and removal action sites. As delegated by the President, EPA may also extend indemnification to states (or a political subdivision) and potentially responsible parties (PRPs).	Final guidance document 7/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EW-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
190-053	Toxic Chemical Release Reporting - Ammonium Sulfate 40 CFR 372	NPRM 55 FR 12144 3/30/90 NOA 55 FR 12148 3/30/90	In response to a petition, EPA proposes to delete ammonium sulfate (solution) from the list of toxic chemicals under Sect. 313 of SARA because releases of ammonium sulfate (solution) can be more effectively covered by the ammonia listing. EPA is clarifying the ammonia listing so that it encompasses other sources of aqueous ammonia.	Final rule undetermined; EPA will not release schedule for action.
190-056	Extremely Hazardous Substance List - Explosivity Criteria 40 CFR 355	ANPRM: NOA 55 FR 35012 8/27/90 Planned NPRM 57 FR 17454 4/27/92	EPA is considering proposing that chemicals displaying certain flammability and explosivity criteria be added to the list of extremely hazardous substances under Title III of SARA. The Agency announces the availability of technical background documents on the potential criteria for listing explosives and flammables.	SAB reviewing background documents prior to publication of NPRM; schedule undetermined.
190-059	Non-APA Consolidated Rules of Practice for Administrative Assessment of Civil Penalties Under CERCLA, SARA, SDWA, and CWA 40 CFR 28	NPRM 56 FR 29996 7/1/91	EPA proposes non-APA (Administrative Procedure Act) consolidated rules of practice for its administrative assessment of Class I and II civil penalties under Sect. 109 of CERCLA, Sect. 325 of EPCRA, Sects. 309 and 311 of CWA, and Sect. 1423 of SDWA.	Final rule 12/92.
190-060	Toxic Chemical Release Reporting - Sulfuric Acid 40 CFR 372	NPRM 56 FR 34156 7/26/91	EPA grants a petition to modify the listing for sulfuric acid on the list of toxic chemicals subject to Sect. 313 of EPCRA. Specifically, EPA proposes to delete nonaerosol forms of sulfuric acid from the list of toxic chemicals subject to Sect. 313.	Final rule 7/92.
190-061	Addition of Air Toxics to Release Inventory 40 CFR 372	Planned NPRM 57 FR 17395 4/27/92	EPA will propose to add 17 chemicals to the list of toxic chemicals subject to Sect. 313 reporting requirements under EPCRA. Sixteen were designated hazardous air pollutants under the CAA Amendments of 1990; the seventeenth is extremely toxic to aquatic organisms.	NPRM 9/92.
*190-062	Development of Community Assistance Panels	Notice 57 FR 27779 6/22/92	ATSDR announces the development of Community Assistance Panels at selected Superfund sites for the purpose of enhancing communication between the public and ATSDR.	

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EW-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*190-063	Toxic Chemical Release Reporting - HCFCs 40 CFR 372	NPRM; NOA 57 FR 28159; 28180 6/24/92	EPA proposes to add hydrochlorofluorocarbons (HCFCs) as a category to the list of toxic chemicals subject to reporting under Sect. 313 of EPCRA. A guidance document on HCFCs covered by the proposed category is available.	<u>Comments by 8/24/92.</u>
POLLUTION PREVENTION ACT				
*195-002	Mandatory Pollution Prevention Reporting in TRI Reports 40 CFR 372	NPRM 56 FR 48475 9/25/91	EPA proposes to make mandatory the reporting of source reduction and recycling information in the Toxic Chemical Release Inventory (TRI) reports, including the quantity of a chemical entering any wastestream, released, recycled, or treated at a facility, and a production ratio or activity index for the reported chemical.	<u>Final rule 9/92.</u>
		Notice 57 FR 22330 5/27/92	EPA announces that OMB has approved the revised Form R, the Toxic Chemical Release Inventory Reporting Form, which is to be used to comply with Sect. 313 of EPCRA and Sect. 6607 of the Pollution Prevention Act for reporting year 1991.	<u>Approved 5/19/92; effective through 11/30/92.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
880-010	NPDWRs - Synthetic Organic Chemicals and Inorganic Chemicals (Phase II) 40 CFR 141 40 CFR 142 40 CFR 143	ANPRM 48 FR 45502 10/5/83 NPRM MCLGs 50 FR 46936 11/13/85 Corrections 51 FR 4618 2/6/86 NPRM 54 FR 22062 5/22/89 Final rule 56 FR 3526 1/30/91 NPRM 54 FR 3600 1/30/91 Final rule 56 FR 30265 7/1/91	EPA establishes SDWA MCLGs and NPDWRs for 26 synthetic organic chemicals and seven inorganic chemicals. NPDWRs include MCLs or treatment techniques, proposed monitoring, reporting, and public notification requirements. EPA also sets the Best Available Technology (BAT) on which MCLs are based, the BAT for two the purpose of issuing variances, secondary MCLs for two contaminants, and one-time monitoring requirements for 30 chemicals that are not regulated by NPDWRs.	Effective 7/30/92.
			EPA revises monitoring requirements for the eight VOCs promulgated 7/8/87 (52 FR 25690) and establishes MCLs and MCLGs for aldicarb, aldicarb sulfonate, aldicarb sulfone, pentachlorophenol, and base lead.	Monitoring/sampling requirements effective 7/30/92. MCLs/MCLGs effective 1/1/93.
		Notice 57 FR 22178 5/27/92	EPA postpones the 1/1/93 effective date of the SDWA regulations for aldicarb, aldicarb sulfonate, and aldicarb sulfone to reconsider the MCLGs and MCLs for these compounds.	Effective date of 1/1/93 postponed indefinitely.
880-011	NPDWRs - Groundwater Disinfection 40 CFR 141 40 CFR 142	Planned NPRM 57 FR 17412 4/27/92	EPA will propose that all public water systems using groundwater use disinfection treatment processes; variance criteria will be developed. The Agency intends to propose MCLs and MCLGs or treatment technique requirements for disinfectants and disinfection by-products as part of Phase VI (see RU# 880-050).	NPRM 6/93. Final rule 6/95.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
880-013	NPDWRs - Inorganic and Organic Compounds (Phase V/24) 40 CFR 141 40 CFR 142 40 CFR 143	ANPRM 48 FR 45502 10/5/83 NPRM 55 FR 30370 7/25/90 NOA 56 FR 60949 11/29/91 Regulatory Agenda 57 FR 17415 4/27/92	EPA proposes MCLs and NPDWRs for 18 synthetic organic chemicals and six inorganic chemicals. The NPDWRs consist of MCLs and monitoring, reporting, and public notification requirements. EPA also proposes the best available technology (BAT) upon which the MCLs are based, BAT for the purpose of issuing variances, and a SHCL for one contaminant.	Final rule 7/92.
880-027	Amendments to the UIC Program ("Reg Fix Package") 40 CFR 144 40 CFR 146	NPRM 55 FR 26462 6/28/90 Regulatory Agenda 57 FR 17415 4/27/92	EPA proposes amendments to the UIC noncompliance and program reporting requirements and to the mechanical integrity requirements. EPA also clarifies how existing injection wells become authorized by rule and when injection is prohibited for failure to comply with authorization-by-rule requirements. Finally, EPA codifies SDWA Sect. 1445(a)(1) as it applies to the UIC program.	Final rule 7/92.
880-029	NPDWR - Total Coliforms (Phase III) 40 CFR 141	Final rule 57 FR 24744 6/10/92	EPA approves the MM0-MUG analytical detection test for the detection of <i>Escherichia coli</i> .	Effective 7/10/92.
880-030	Wellhead Protection and Sole Source Aquifer Demonstration Programs - Indian Tribes 40 CFR 35	NPRM 52 FR 46712 12/9/87 Regulatory Agenda 57 FR 17414 4/27/92	EPA proposes procedures for determining eligibility of Indian Tribes to apply for treatment as states in receiving grants for wellhead protection and/or sole source aquifer demonstration programs.	Final rule 12/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
880-034	NPDWRs Lead & Copper 40 CFR 141 40 CFR 142	NPRM 53 FR 31516 8/18/88 Corrections 53 FR 35952 9/15/88 Correction 53 FR 36696 9/21/88 NOA 53 FR 40270 10/14/88 NOA 55 FR 42409 10/19/90 Final rule 56 FR 26460 6/7/91 Corrections 56 FR 32112 7/15/91 Correcting amendments 57 FR 28785 6/29/92	EPA promulgates MCLGs and NPDWRs for controlling lead and copper in drinking water. EPA sets MCLGs of zero for lead and 1.3 mg/L for copper. EPA sets NPDWRs consisting of a treatment technique requirement that includes corrosion control treatment, source water treatment, lead service line replacement, and public education.	Final rule effective 12/7/92. Interim MCL for lead remains in effect until that time.
880-046	NPDWRs - Arsenic 40 C.F.R. 141	Planned NPRM 57 FR 17412 4/27/92	The current standard for arsenic in drinking water is an interim standard. This rule will set a final MCL and MCLG as required by the SDWA Amendments of 1986. EPA has been sued on the schedule for proposal and promulgation of the arsenic NPDWRs. The final schedule is dependent on settlement of the suit.	NPRM 11/92. Final rule 11/94.
880-049	Management of Class V Injection Wells Under Part C 40 CFR 144-146	Planned NPRM 57 FR 17414 4/27/92	EPA will establish a regulatory framework for the management of Class V wells, such as certain septic systems and a variety of drainage wells, that will protect against contamination of groundwater while recognizing the difficulties of this diverse well class.	NPRM 11/92. Final rule 2/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
880-050	NPDHRS - Contaminants From First Drinking Water Priority List (Phase VI) 40 CFR 141	Planned NPRM 57 FR 17413 4/27/92	EPA will set MCLs and NPDHRS for about 25 contaminants from the first drinking water priority list, as required by the SDWA Amendments of 1986. The 25 contaminants come from two groups: disinfection by-products (Phase VI-A) and organic and inorganic chemicals (Phase VI-B).	NPRM 6/93. Final rule 6/95.
880-053	Revision of VOC Analytical Methods 40 CFR 141	Planned NPRM 57 FR 17413 4/27/92	EPA will propose to allow the use of the updated VOC methods 502.2, 503.1, 504, 524.1, and 524.2 for compliance monitoring of trihalomethanes in drinking water.	NPRM 9/92. Final rule 9/93.
880-056	Class I Hazardous Waste Injection Wells - UIC Regulations 40 CFR 146	NPRM 56 FR 41108 8/19/91 Regulatory Agenda 57 FR 17414 4/27/92	EPA proposes to require that a casing inspection log (CIL) be run whenever the owner or operator of a Class I hazardous waste injection well conducts a workover in which the injection tubing is pulled.	Final rule 8/92.
CLEAN WATER ACT				
*140-018	Guidelines Establishing Test Procedures for the Analysis of Pollutants 40 CFR 136	NPRM 56 FR 5090 2/7/91 Notice 56 FR 24814 5/31/91	Under Sect. 304(h) of the CWA, EPA proposes to amend the guidelines establishing test procedures for the analysis of pollutants by adding a method for the analysis of 17 tetra- through octa-chlorinated dioxin and furan compounds.	Final rule undetermined; still under review.
		NPRM 56 FR 55410 10/25/91	EPA proposes to add an alternate procedure, microwave heating, for the digestion and preparation of domestic and industrial wastewater samples prior to analysis for the determination of 13 inorganic chemicals.	Final rule 10/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
140-035	Disposal of Sewage Sludge 40 CFR 257 40 CFR 503	NPRM 54 FR 5746 2/6/89 NOA 54 FR 43124 10/20/89 NOA 55 FR 47210 11/9/90 Notice 56 FR 30448 7/2/91 Notice 56 FR 33186 7/18/91 Regulatory Agenda 57 FR 17410 4/27/92	EPA proposes technical requirements for the final use and disposal of sewage sludge when landfarmed, sold, monofilled, surface disposed, or incinerated. Related computer programs and background documents are listed. The standards will be expanded and revised as information becomes available.	Final rule 8/92.
*140-039	NPDES Permit - Compliance Extension for Innovative Technologies 40 CFR 122 40 CFR 124 40 CFR 125	NPRM 50 FR 49904 12/5/85	EPA proposes a revised rule for dischargers of toxic and nonconventional pollutants who apply for NPDES extensions to install innovative technologies under Sect. 301(k) of the Clean Water Act.	Reproposed NPRM undetermined.
140-041	Disposal Sites - Denial or Restriction 40 CFR 231	Planned NPRM 57 FR 17407 4/27/92	EPA will revise 404(c) regulations by establishing the procedures to be invoked when they are considering the use of 404(c) to prevent the discharge of dredged or fill material into a defined area of U.S. waters. The revisions are based on a review of previous experience.	NPRM 1/93. Final rule 1/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (e)	ANTICIPATED CHANGES	SCHEDULED ACTION
*140-066	Water Quality Standards Numeric Criteria for Priority Pollutants - State Compliance 40 CFR 131	NPRM 56 FR 58420 11/19/91 Corrections 56 FR 63471 12/4/91 Regulatory Agenda 57 FR 17408 4/27/92	EPA proposes to establish, on a national basis, numeric water quality criteria for toxic pollutants that will become part of the water quality standards of states that have failed to comply with Sect. 303(c)(2)(B) of the CWA, thus bringing those standards into compliance with the CWA.	<u>Final rule 9/92.</u>
*140-067	Revisions to the NPDES Regulations 40 CFR 122-125 40 CFR 403 40 CFR 434 40 CFR 501	Planned NPRM 57 FR 17406 4/27/92	EPA will propose revisions to the NPDES regulations to clarify existing requirements and policies.	<u>NPRM 9/92. Final rule 9/93.</u>
*140-071	NPDES - Sludge Permit Regulations 40 CFR 122 40 CFR 123 40 CFR 501	NPRM 57 FR 22197 5/27/92	EPA proposes to revise rules on sewage sludge permitting and state sewage sludge program requirements to change the dates for submitting permit applications.	<u>Final rule undetermined.</u>
*140-077	NPDES - State Listing Requirements, Section 303(d) (Water Quality Planning and Management) 40 CFR 122 40 CFR 123 40 CFR 130	NPRM 54 FR 1300 1/12/89 Final rule 54 FR 23868 6/2/89 Regulatory Agenda 57 FR 17409 4/27/92	EPA amends the NPDES surface water toxics control program by incorporating Sect. 308(a) of the CWA into it and re-promulgates and supplements the interpretive final rule of 1/4/89 (54 FR 246) dealing with NPDES permit regulations. EPA will promulgate a supplemental final rule to require states to submit to EPA the list of water-quality limited waters required under Sect. 303(d) every two years using the State Biennial Water Quality Report as the reporting vehicle.	<u>Final rule effective 9/26/89. Supplemental final rule 9/92.</u>
*140-081	Effluent Guidelines Plan	Notice 57 FR 19748 5/7/92	EPA announces its proposed plans for developing new and revised effluent guidelines to regulate industrial discharges to surface waters and POTWs.	<u>Final plan 7/92.</u>

(e) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
140-084	NPDES Permit Application - Standard Form A, Short Form A, 40 CFR 122.21(j)	Planned NPRM 57 FR 17407 4/27/92	EPA will revise the current NPDES Permit Application Standard Form A (municipal), and Short Form A (municipal) to reflect amendments to the Clean Water Act and changes in program requirements and emphasis.	NPRM 8/92. Final rule 8/93.
140-085	NPDES Permit Application Requirements for Storm Water Discharges 40 CFR 122	NPRM 56 FR 12101 3/21/91 Final rule 56 FR 56548 11/5/91 NPRM; Notice 56 FR 40948 8/16/91 Final rule 57 FR 11394 4/2/92	EPA extends until 10/1/92 the deadline for submission of individual industrial storm water applications and sets a fixed deadline of 10/1/92 for submission of individual applications from rejected members of storm water group applications. EPA promulgates (1) a national NPDES permitting strategy and monitoring/reporting requirements for storm water discharges associated with industrial activity, and (2) modifications to the requirements for obtaining a general permit, including minimum notice of intent requirements.	Final rule effective 1/18/91. Individual permit application deadline extended to 10/1/92. Effective 5/4/92.
140-086	Biological Test Procedures for the Analysis of Pollutants 40 CFR 136	NPRM 56 FR 56555 11/5/91 Final rule 57 FR 11394 4/2/92	EPA extends until 10/1/92 the deadline for submitting Part 2 of NPDES group applications for storm water discharges associated with industrial activity.	Effective 5/4/92.
140-089	Biological Test Procedures for the Analysis of Pollutants 40 CFR 136	NPRM 54 FR 50216 12/4/89	EPA proposes to amend 40 CFR 136 by adding new biological measurements and test procedures for the analysis of pollutants under the CWA 304(h) and by updating other procedures. Methods would be added to measure toxicity in effluents and receiving waters, to measure mutagenicity, to monitor viruses in wastewaters and sludges, and to update citations to microbiological methods.	Final rule 9/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*140-095	Effluent Guidelines and Standards - Organic Chemicals, Plastics, and Synthetic Fibers Category 40 CFR 300.440 40 CFR 414	NPRM 55 FR 42332 10/18/90 Regulatory Agenda 57 FR 17409 4/27/92	EPA proposes to allow regulatory authorities to: (1) establish cyanide limitations and standards based on best professional judgement for elevated levels of non-amenable cyanide resulting from the complexing of cyanide at the process source of cyanide-bearing waste streams and (2) establish metals limitations and standards to accommodate low background levels of metals in non-metal-bearing waste streams." EPA also proposes amendments to Appendices A and B to correct listing errors and an amendment to specify the method for determining 8005 and TSS effluent limitations.	<u>Final rule 9/92.</u>
		NPRM 56 FR 63897 12/6/91 Correction 56 FR 66120 12/20/91	In response to litigation, EPA proposes several amendments to 40 CFR 414 which sets effluent limitations for point sources in the organic chemicals, plastics, and synthetic fibers category.	Final rule 5/93.
140-103	Treatment of Indian Tribes as States - NPDES and Sludge Management Programs 40 CFR 122-124 40 CFR 501	NPRM 57 FR 8522 3/10/92	EPA proposes to establish requirements and procedures by which an Indian Tribe may be treated as a state and be approved to administer the NPDES and/or sludge management program.	Final rule undetermined.
*140-104	Treatment of Indian Tribes as States for Purposes of Section 404 40 CFR 230 40 CFR 233	NPRM 54 FR 49180 11/29/89 Regulatory Agenda 57 FR 17410 4/27/92	EPA proposes a rule that would: (1) establish requirements for determining eligibility of Indian Tribes to be treated as states for purposes of Sect. 404 of the CWA, and (2) if found eligible, allow for assumption of the dredge and fill permit program.	<u>Final rule 9/92.</u>
140-108	Shore Protection Act Section 4103(B) Regulations 40 CFR undetermined	Planned NPRM 57 FR 17408 4/27/92	The EPA Administrator, in consultation with the Secretary of DOT, is considering regulations: (1) requiring that waste sources, receiving facilities, and vessels provide the means and facilities to assure that waste will not be deposited into coastal waters during handling; (2) requiring the submission and adoption of an operation and maintenance manual of procedures to prevent, report, and clean up waste deposits; and (3) installing of tracking systems if deemed appropriate.	NPRM 10/92. Final rule 10/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*140-109	Effluent Guidelines and Standards for the Waste Treatment Category 40 CFR Subchapter N	Planned NPRM 57 FR 17405 4/27/92	EPA is developing regulations that will cover centralized waste treatment (CWT) facilities that generally treat aqueous and liquid hazardous and non-hazardous waste as Phase I of this regulation. Phase II will regulate hazardous waste incinerators and landfill leachate discharges. EPA plans on collecting Phase II screening information in conjunction with the Phase I technical study.	Phase I NPRM 4/94. Final rule 1/96. Phase II NPRM 12/95. Final rule 12/97.
*140-110	Secondary Treatment Requirements for Municipal Discharge into Marine Waters 40 CFR 125	NPRM 56 FR 2814 1/24/91 Regulatory Agenda 57 FR 17410 4/27/92	EPA responds to statutory changes made to Sect. 301(h) of the CWA which governs secondary treatment waivers for municipal discharges into marine waters. EPA proposes changes to appendices A and B of Subpart G to simplify and revise the application requirements for waivers and permit renewals.	Final rule 9/92.
140-111	CWA Section 404 Program Definition 40 CFR 252.2(q)	Planned NPRM 57 FR 17407 4/27/92	This action would revise the definition of "waters of the U.S." by adding four examples to those currently contained under that definition. The intent is to clarify aspects of the current definition which define waters, "the use, degradation or destruction of which would or could affect interstate or foreign commerce," as waters of the U.S.	NPRM 7/93. Final rule 7/94.
*140-114	Bioconcentratable Contaminants	NOA 56 FR 13150 3/29/91	EPA announces the availability of the draft guidance document entitled "Assessment and Control of Bioconcentratable Contaminants in Surface Waters" to provide guidance to state and federal regulators on assessing and, where necessary, controlling the release of pollutants which, due to their chemical properties, accumulate in tissues of aquatic organisms.	Final guidance document 7/93.
*140-116	Test Procedures for the Analysis of Pollutants - Test Methods Using CFCs 40 CFR 136 40 CFR 260 40 CFR 261	NPRM 56 FR 30519 7/3/91	EPA proposes analytic methods under the CWA and RCRA to allow the use of alternative solvents instead of CFCs in these methods.	Notice of Withdrawal of NPRM 8/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*140-118	Point/Point Source Pollutant Trading Project	Notice 57 FR 21244 5/19/92	EPA announces it is considering a Point/Point Source Pollutant Trading Project, a market-based approach to water quality improvement, and issues a report discussing this.	
*140-119	Ambient Water Quality Criteria for Aquatic Life - Metals	NOA 57 FR 24041 6/5/92	EPA announces the availability of interim guidance on interpretation and implementation of ambient WQC for aquatic life for metals in state water quality programs.	<u>Comments by 9/3/92.</u>
*140-120	Section 404 Dredge and Fill Program 33 CFR 323 33 CFR 328 40 CFR 110 40 CFR 112 40 CFR 116-117 40 CFR 122 40 CFR 230 40 CFR 232 40 CFR 401	NPRM 57 FR 26894 6/16/92	The COE and EPA propose to modify the definition of discharge of dredged material under Sect. 404 of the CWA, clarify when the placement of fillings is considered discharge of dredged material, and clarify that prior converted croplands are not waters of the United States.	<u>Comments by 8/17/92.</u>
OIL POLLUTION ACT OF 1990	Natural Resource Damage Assessments - Oil Pollution 15 CFR Ch. IX	ANPRM 55 FR 53478 12/28/90	NOAA intends to develop proposed regulations pursuant to Sect. 1006 of the Oil Pollution Act of 1990 to establish procedures by which natural resources trustees may determine recoverable damages as compensation for injury, loss, or destruction of natural resources as a result of a discharge of oil into or upon navigable waters or adjoining shorelines.	Statutory deadline for final rule 8/92.
*145-001		ANPRM 57 FR 8964 3/13/92 Comment period extended 57 FR 23067 6/1/92	NOAA provides a status report concerning the regulations being developed and seeks additional input regarding future content and procedures.	<u>Comments by 10/1/92 for comments specific to the calculation of notruse values.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EM-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
145-002	Oil Pollution Prevention 40 CFR 112	NPRM - Phase I 56 FR 56612 10/22/91 Regulatory Agenda 57 FR 17421 4/27/92	EPA is pursuing a two-phase regulatory approach to propose changes to the oil spill prevention regulation. As Phase I, EPA proposes to establish requirements for Spill Prevention, Control, and Countermeasures (SPCC) to prevent spills of oil into U.S. waters or adjoining shorelines by non-transportation related onshore and offshore facilities and adds a facility notification provision.	Final rule 12/92.
145-003	Revisions to the NCP Required by the Oil Pollution Act 40 CFR 300	Planned NPRM - Phase II 57 FR 17454 4/27/92	The Oil Pollution Act of 1990 was passed requiring facility-specific contingency plans. As Phase II of this rule, EPA will implement the legislative mandate for facility response plans.	Phase II NPRM 8/92. Final rule 8/93.
145-004	Implementation of Oil Pollution Act of 1990 and Clean Water Act Sect. 311	Planned NPRM 57 FR 17453 4/27/92 Executive Order 56 FR 54757 10/22/91	The Oil Pollution Act of 1990 requires that EPA prepare and publish revisions to the National Contingency Plan (NCP) for the removal of oil and hazardous substances to implement the requirements of the Oil Pollution Act. EPA will also consider new mandates, such as adding a Fish and Wildlife Plan and Area Contingency Plans.	NPRM 8/92. Final 8/93.
			The President Issues Executive Order 12777 Implementing Sect. 311 of the Federal Water Pollution Control Act (CWA) of October 18, 1972 as amended, and the Oil Pollution Act of 1990.	Next action undetermined.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NCA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
CLEAN AIR ACT				
RCRA Air Emission Standards for Volatile Organics at TSD Facilities -- RU# 840-142				
120-005	NAAQS - Sulfur Oxides 40 CFR 50 40 CFR 51 40 CFR 58	ANPRM 44 FR 56730 10/2/79 NPRM 53 FR 14926 4/26/88 Notice 53 FR 29346 8/4/88 Clarification notice 53 FR 36587 9/21/88 Regulatory Agenda 57 FR 17444 4/27/92	EPA proposes to retain the existing NAAQS for sulfur oxides. Adding an alternative 1-hour primary standard of 0.4 ppm to replace the 3-hour standard (0.5 ppm) is being considered. EPA also proposes to revise the significant harm levels, the Pollutant Standards Index for SO ₂ , and certain monitoring and reporting requirements. EPA incorporates additional material into the dockets for the proposed revisions to the Ambient Air Quality Surveillance requirements.	Final rule action indefinite. Rule under discussion at upper levels.
120-006	NAAQS - Ozone 40 CFR 50.9	First revisions 49 FR 29845 7/24/84 HOA 50 FR 52556 12/24/85 HOA 53 FR 48308 11/30/88 Notice 57 FR 8429 3/10/92 Regulatory Agenda 57 FR 17432 4/27/92	EPA announces the availability of the second external review draft of Volumes I and V of the Criteria Document. The Clean Air Scientific Advisory Committee reviewed the revised document and an EPA staff paper in January 1986. The Criteria Document may be used as a basis for review and revision of the NAAQS. EPA is assessing health and welfare information which has become available since the last revision of the standard. In order to retain a unified regulatory review package in light of the emerging data base on health and welfare effects associated with longer-term averaging times, EPA is continuing the standard review until such information is published and reviewed in an addendum to the criteria document. Two draft documents are available.	Proposed decision on whether to revise the NAAQS 8/92. Final decision 3/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; HOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	SCHEDULED ACTION	
			ANTICIPATED CHANGES	
120-010	Guideline on Air Quality Models 40 CFR 51 40 CFR 52	NPRM 56 FR 5900 2/13/91 Regulatory Agenda 57 FR 17446 4/27/92	EPA proposes to add several new modeling techniques and to make revisions to the air quality models for estimating ambient air concentrations referenced under the PSD regulations of the CAA.	Final rule 9/92.
120-055	NESHAPS - Chromium Industrial Cooling Towers 40 CFR 61	NOI to list 50 FR 24317 6/10/85 Planned NPRM 57 FR 17434 4/27/92	Chromium compounds are listed as hazardous air pollutants in the CAA Amendments of 1990. Industrial process cooling towers that use chromate-based water treatment programs have been identified as potentially significant sources of chromium air emissions and as a source category for which NESHAPS are warranted.	NPRM 4/93. Final rule 4/94.
120-075	Source Surveillance of Visible Emissions 40 CFR 52	NPRM 51 FR 31076 8/29/86	EPA proposes new visible emission test procedures to evaluate opacity standards compliance when a SIP lacks an appropriate method or when the Administrator enacts a state plan.	Reproposed NPRM 7/92.
*120-083	MAQS - Nitrogen Oxide 40 CFR 50.11	NOA - draft document 56 FR 59285 11/25/91 Regulatory Agenda 57 FR 17427 4/27/92	EPA announces the availability of an external review draft of a revised air quality criteria document of oxides of nitrogen prepared by the Environmental Criteria and Assessment Office (ECAO) of the Office of Research and Development.	Final review and staff paper by 12/92. Rulemaking action 1993.
120-084	MAQS - Carbon Monoxide 40 CFR 50.8	Call for Information 52 FR 27580 7/22/87 NOA 55 FR 14858 4/19/90 Regulatory Agenda 57 FR 17427 4/27/92	EPA will review ongoing studies on health effects of carbon monoxide and make a decision for or against a change in the NAAQS.	Final criteria document 8/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-093	NESHAPS - Hazardous Organics 40 CFR 63	Planned NPRM 57 FR 17434 4/27/92	This regulation will control emissions of hazardous organic chemicals from storage tanks, process vents, equipment leaks, transfer operations, and wastewater treatment in synthetic organic chemical manufacturing plants.	NPRM 9/92. Final rule 3/93.
120-094	Health Assessment Document - Acetaldehyde	NOA draft 52 FR 19918 5/28/87	EPA issues the first external review draft of the health assessment document for acetaldehyde. The document will be used in the decision process for possible regulation of acetaldehyde under the CAA.	Final document 7/92.
120-103	NESHAPS - Organic Solvent Cleaning 40 CFR 63	Planned NPRM 57 FR 17435 4/27/92	This regulation will apply to organic solvent cleaners (degreasers) using any of the hazardous air pollutants listed in the CAA, and will control emissions from new and existing sources.	NPRM 4/93. Final rule 2/94.
120-116	NSPS - Municipal Landfills 40 CFR 60	NPRM 56 FR 24468 5/30/91 Regulatory Agenda 57 FR 17445 4/27/92	EPA proposes to add subpart WWM to 40 CFR 60 for control of new sources and proposes emission guidelines and compliance schedules for existing sources under subpart C. Subpart WWM would limit emissions from certain new and modified municipal solid waste landfills and implement Sect. 111(b) of the CAA. The proposed emission guidelines implement Sect. 111(d) of the CAA which requires the Administrator to prescribe regulations under which the states will submit plans for the control of existing emissions of certain air pollutants for which NSPS have been established.	Final rule 9/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-117	NESHAPs - Benzene 40 CFR 61	NPRM 54 FR 38083 9/14/89 Final rule 55 FR 8292 3/7/90 NPRM 56 FR 64217 12/9/91 Final rule 57 FR 8012 3/5/92 NPRM 57 FR 8017 3/5/92 Correction 57 FR 21368 5/20/92	EPA stays the effectiveness of Subpart FF of 40 CFR 61, the benzene standard for benzene waste operations, for all sources originally subject to this rule until action is taken to amend the rule in response to a settlement agreement with the regulated community. EPA proposes amendments to Subpart FF to clarify provisions of the rule that have been widely misunderstood by affected sources.	Subpart FF stayed until final rule published. Correction effective 5/20/92. Final rule by 12/1/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-118	NESHAPS - Radionuclides 40 CFR 61	NPRM 54 FR 9612 3/7/89 Final rule; reconsideration 54 FR 51654 12/15/89 NPRM 55 FR 13482 4/10/90 Notice of reconsideration; compliance waiver 55 FR 13480 4/10/90 Final rule 57 FR 23305 6/3/92	EPA sets NESHAPS for radionuclide emissions from several source categories including DOE facilities, NRC licensees, uranium fuel cycle facilities, elemental phosphorus plants, coal-fired boilers, high-level nuclear waste disposal facilities, phosphogypsum stacks, underground and surface uranium mines, and uranium mill tailings operations.	Final rule of 12/15/89 effective immediately.
			EPA revises its Subpart R requirements on radon emissions from phosphogypsum stacks to allow the use of phosphogypsum in agriculture and in research and development under certain specified conditions, and establishes a procedure for case-by-case review for permits for other purposes.	Effective 6/3/92.
		NPRM 56 FR 6339 2/15/91 Final rule 56 FR 18735 4/24/91	EPA stays until 11/15/92, or until an earlier date on which a determination can be made, the effectiveness of Subpart I of 40 CFR 61, the NESHAPS for radionuclide emissions as applied to NRC-licensed facilities other than nuclear power reactors.	Final rule effective 4/15/91. Subpart I stayed until 11/15/92.
		ANPRM 56 FR 10524 3/13/91 NPRM 56 FR 37196 8/5/91	EPA proposes to rescind Subpart I as it applies to nuclear power reactors.	Final rule 11/92.
		NPRM 56 FR 55432 10/25/91 Final rule 56 FR 67537 12/31/91	EPA stays the effectiveness of Subpart I as applied to owners/operators of uranium mill tailings disposal sites licensed by NRC. The stay does not concern sites under DOE control.	Effective 12/19/91. Stay remains in effect until Subpart I is rescinded or until 6/30/94.
		NPRM 56 FR 67561 12/31/91	EPA proposes to rescind Subpart I as it applies to owners/operators of uranium mill tailings disposal sites licensed by NRC. The stay does not concern sites under DOE control.	Final rule 6/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-148	NAAQs - Lead 40 CFR 50.12	Planned NPRM 57 FR 17432 4/27/92	EPA is assessing new health effects information that has become available regarding lead and will make a decision for or against a change in the NAAQS. EPA has prepared a staff paper which has been reviewed and approved by the Clean Air Act Scientific Advisory Committee (CASAC).	<u>NPRM 1993.</u>
120-149	NESHAPs - Asbestos (Comprehensive Revisions) 40 CFR 61 40 CFR 63	Planned NPRM 57 FR 17434 4/27/92	EPA is considering revising the asbestos NESHAP to require maximum achievable control technology standards. A screening study is underway and a new schedule will be developed when the study is complete.	No schedule for NPRM as yet; final rule due by 11/94.
*120-155	VOC Equipment Leak Fugitive Emissions 40 CFR Ch. 1	Notice 54 FR 37725 9/12/89 Notice 55 FR 14349 4/17/90 Notice 55 FR 27880 7/5/90 Notice 56 FR 9315 3/6/91	EPA issues a notice summarizing major provisions and language of the negotiated rule, agreed to by the negotiating committee, to control VOC fugitive emissions from equipment leaks.	<u>NPRM 9/92. Final rule 9/93.</u>
120-158	NSPS - Medical Waste Incineration 40 CFR 60	Planned NPRM 57 FR 17433 4/27/92	EPA will propose new source performance standards and emission guidelines for existing medical waste incineration sources under Sects. 111 and 129 to reflect the maximum degree of reductions in emissions that have been demonstrated for new units.	NPRM 1/93. Final rule 5/94.
*120-160	Standards of Performance for New Stationary Sources - Appendix A 40 CFR 60	NPRM 54 FR 52190 12/20/89 Final rule 56 FR 5758 2/13/91 Corrections 57 FR 24550 6/10/92	EPA adds Method 23, "Determination of Polychlorinated Dibenzo-p-Dioxins (PCDDs) and Dibenzofurans (PCDFs) from Stationary Sources," and Method 26, "Determination of Hydrogen Chloride Emissions from Stationary Sources," to Appendix A of 40 CFR 60.	Final rule effective 2/13/91. <u>Corrections effective 6/10/92.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-164	Ambient Air Monitoring Methods - Equivalent Method Designation	Notice 57 FR 20823 5/15/92	EPA designates two equivalent methods for the determination of lead in suspended particulate matter collected from ambient air.	
*120-166	List of Source Categories for Hazardous Air Pollutants 40 CFR 63	NOA 56 FR 28548 6/21/91 Regulatory Agenda 57 FR 17445 4/27/92	EPA issues a preliminary draft of the list of source categories of hazardous air pollutants required by Sect. 112(c) of the Clean Air Act.	Final list of categories 8/92; final regulatory schedule 12/92.
*120-167	Compliance Extensions for Early Reduction of Hazardous Air Pollutants 40 CFR 63	NPRM 56 FR 27338 6/13/91 NOA 56 FR 42305 8/27/91 Regulatory Agenda 57 FR 17446 4/27/92	EPA proposes to implement provisions in Sect. 112(i)(5) of the Clean Air Act to allow an existing source to obtain a six-year extension of compliance with an emission standard if the source has achieved an emission reduction of 90 percent or more of hazardous air pollutants by certain dates specified in the Act.	Final rule 9/92.
120-168	List of Hazardous Air Pollutants - Policy on Petitions for Addition/Deletion 40 CFR 63	Planned NPRM 57 FR 17435 4/27/92	Under Sect. 112(b) of the CAA Amendments of 1990, petitions may be submitted to EPA to add to or delete hazardous air pollutants from the initial list of 189 hazardous air pollutants. This notice will describe the data set that must be provided in submitting an adequate petition.	Interim guidance document 8/92. Final action 12/92.
120-170	Ambient Air Quality Surveillance 40 CFR 58	NPRM 57 FR 7687 3/4/92	EPA proposes to revise the ambient air quality surveillance regulations to include provisions for enhanced monitoring of ozone and nitrogen oxides and additional monitoring of VOCs and meteorological parameters. The revisions would require states to establish photochemical assessment monitoring stations as part of their SIP monitoring network in ozone nonattainment areas.	Final rule 9/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-171	Prevention of Significant Deterioration (PSD) and New Source Review (NSR) 40 CFR 51 40 CFR 52	Planned NPRM 57 FR 17428 4/27/92	EPA will propose to amend EPA's existing new source review regulations, including prevention of significant deterioration, to conform with the new requirements of the CAA Amendments of 1990.	NPRM 10/92. Final rule 10/93.
*120-172	Operating Permit Program 40 CFR 70 40 CFR 71	NPRM 56 FR 21712 5/10/91 Regulatory Agenda 57 FR 17442 4/27/92	Under the CAA Amendments of 1990, EPA proposes a new 40 CFR 70 to require states to develop and implement renewable operating programs for issuing permits to major stationary sources, sources covered by NSPS and NESHAPS, and sources covered under the acid rain program.	Final rule 8/92.
*120-173	Enhanced Monitoring and Compliance Certification Regulations 40 CFR 70 40 CFR 71	NOA 56 FR 37700 8/8/91 Planned NPRM 57 FR 17429 4/27/92	Regulations will be developed to provide guidance on the appropriate monitoring methods, recordkeeping and reporting requirements, and periodic compliance certification requirements for permits issued under Title V.	NPRM 12/92.
*120-175	Clean Fuel Fleet Programs 40 CFR 88	NPRM 56 FR 50196 10/3/91 Regulatory Agenda 57 FR 17430 4/27/92	EPA proposes to incorporate clean fuel fleet vehicle credit programs, emission standards, and certain federal fleet requirements into state implementation plans.	Final rule 8/92. Vehicle conversion regulations - NPRM 7/92. Final rule 11/92.
*120-176	General Provisions for Major and Area Sources of Air Toxics 40 CFR 63	Planned NPRM 57 FR 17435 4/27/92	General provisions are being developed for 40 CFR 63 which will include standards for 189 hazardous air pollutants to be regulated under Sect. 112 of the CAA Amendments of 1990.	NPRM undetermined.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
120-177	Identification of Lesser Quantity Cutoffs for Major Sources Under Sect. 112 40 CFR 63	Planned NPRM 57 FR 17436 4/27/92	A regulation is under consideration to address the definition of "major source" in Sect. 112, defined as a source that emits 10 tons or more per year of a listed hazardous pollutant or 25 tons per year or more of a mixture of pollutants. This regulation would list pollutants for which a lesser quantity has been developed and the criteria for doing so.	NPRM on Indefinite hold.
*120-178	Standards for Tank Vessel Loading Operations CFR undetermined	Planned NPRM 57 FR 17437 4/27/92	This regulation will control VOC emissions from tank vessel loading operations, as required by Sect. 183 of the CAA Amendments of 1990. Approximately 65,000 megagrams of VOCs are emitted annually from tank vessel loading operations.	NPRM 12/92. Final rule 12/93.
*120-181	Guidance for Implementation of Sect. 112(g) - Modifications 40 CFR 63	Planned guidance 57 FR 17435 4/27/92	Guidance is being developed in accordance with the requirements of Sect. 112(g) of the CAA Amendments of 1990 that will set de minimis levels for the 189 listed hazardous air pollutants and establish relative toxicity ranking for determinations of offsets.	Proposed guidance document 7/92. Final document 2/93. NPRM 7/92. Final rule 5/93.
120-183	List of Substances and Threshold Quantities 40 CFR 63	Planned NPRM 57 FR 17451 4/27/92	EPA must promulgate an initial list of 100 substances that, in the event of accidental release, are known to cause or be anticipated to cause serious adverse human health or environmental effects. EPA must establish a threshold quantity for each substance listed. EPA is as yet undecided about whether to promulgate under the CAA or CERCLA/SARA.	NPRM 7/92. Final rule 11/92.
*120-184	Prevention of Accidental Releases from Stationary Sources and Risk Management Plan 40 CFR 63	Planned NPRM 57 FR 17452 4/27/92	EPA must promulgate regulations and guidance to provide for the prevention and detection of accidental releases from stationary sources. The regulations must require stationary sources to implement a risk management plan for detection and prevention of accidental releases where a regulated substance is present in quantities greater than a threshold amount.	NPRM 8/92. Final rule 11/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-186	Clarification of Best Available Control Technology Definition 40 CFR 51 40 CFR 52	Planned NPRM 57 FR 17432 4/27/92	To improve the effectiveness of the prevention of significant air quality deterioration program required by Title I of the CAA, EPA will propose to clarify the regulatory definition of best available control technology (BACT) by adding language that clarifies the legal requirements for a BACT analysis.	<u>NPRM 8/92. Final rule 1/93.</u>
*120-187	Radionuclide Major Source Definition 40 CFR 63	Planned NPRM 57 FR 17436 4/27/92	Sect. 112(a) defines major source as any source that emits 10 tons or more per year of any hazardous air pollutant (HAP) or 25 tons or more per year of any combination of HAPs. The ton quantities are inappropriate for radionuclides, as very small emissions of radionuclides may be extremely hazardous. EPA will, thus, establish different criteria for radionuclides.	<u>NPRM 7/92.</u>
120-188	PM-10 Nonattainment Areas - Reclassification - Moderate to Serious 40 CFR 81	NPRM 56 FR 58656 11/21/91	EPA proposes to reclassify 14 of the initial moderate PM-10 nonattainment areas as serious areas. Sect. 188(b)(1) of the CAA requires the Administrator to reclassify any area he determines cannot practicably attain the PM-10 NAAQS by the appropriate attainment date.	Final rule 9/92.
*120-189	Acid Rain Program - Permits, Allowances, Emissions, CEMS 40 CFR 72 40 CFR 73 40 CFR 75 40 CFR 77	NPRM 56 FR 63002 12/3/91 Regulatory Agenda 57 FR 17443; 17444; 17448; 17449 4/27/92	EPA issues proposed regulations on permits, an allowance system, continuous emissions, and excess emissions penalties for the CAA acid rain program.	<u>Still reviewing comments from NPRM. No schedule for final rule.</u>
120-190	Contractor Listing Regulations 40 CFR 15	Planned NPRM 57 FR 17429 4/27/92	The CAA, the CWA, and Executive Order 11738 mandate the exclusion from federal contracts, grants, or loans of facilities which are the source of criminal violations of those statutes and give EPA discretion to so bar facilities which are the source of continuing or receiving civil violations. This rule would revise 40 CFR 15 to indicate when and by whom this new authority will be exercised.	<u>NPRM 8/92. Final rule 4/93.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-191	Title I Economic Incentive Program Rules 40 CFR 51	Planned NPRM 57 FR 17437 4/27/92	Sect. 182(g)(4) of the CAA requires EPA to publish rules for states to follow in developing an economic incentive program for reducing ozone precursors in serious, severe, and extreme ozone nonattainment areas and serious carbon monoxide areas.	NPRM 8/92. Final rule 11/92.
*120-198	Emission Standards for Source Categories of Hazardous Air Pollutants 40 CFR undetermined	Planned NPRM 57 FR 17440 4/27/92	EPA will publish a schedule for promulgation of emission standards for sources of hazardous air pollutants.	NPRM 10/92. Final rule 4/93.
*120-199	Award Regulations CFR undetermined	Planned NPRM 57 FR 17429 4/27/92	Regulations will be developed to define the criteria for administering awards to persons who furnish information or services which lead to criminal convictions or civil penalties under the CAA.	NPRM 7/92. Final rule 1/93.
*120-200	Citizen Suit Regulations 40 CFR 135	Planned NPRM 57 FR 17429 4/27/92	Citizen suit regulations will be revised to establish procedures for EPA intervention in citizen suits. The regulations will establish the penalty fund authorized by the CAA and include criteria for determining how the monies in the fund will be administered and to whom.	NPRM 11/92. Final rule 11/93.
*120-201	Field Citation Regulations CFR undetermined	Planned NPRM 57 FR 17429 4/27/92	Regulations will be developed to implement the Agency's newly authorized field citation enforcement program. The regulations will define the scope of the program and the hearing procedures.	NPRM 11/92. Final rule 11/93.
*120-503	Recycling Program for Ozone-Depleting Substances (Refrigerant Recycling) 40 CFR 82	ANPRM - Recycling 56 FR 18256 5/1/90 Planned NPRM 57 FR 17428 4/27/92	Under Sect. 608, EPA will propose establishing standards and requirements regarding the use and disposal of Class I substances during the service, repair, or disposal of appliances and industrial process refrigeration that maximizes recapture and recycling.	NPRM 8/92. Final rule 2/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*120-504	Montreal Protocol - Phase-out of CFCs	Section 114 information request 55 FR 49116 11/26/90 Temporary final rule 56 FR 9518 3/6/91 Correction 56 FR 10660 3/13/91 Correction 56 FR 30873 7/8/91 Correction 56 FR 46041 9/9/91 NPRM 56 FR 49548 9/30/91 Correction 56 FR 50693 10/8/91 Direct final amendment 56 FR 67368 12/30/91 Regulatory Agenda 57 FR 17441 4/27/92	EPA proposes amended regulations implementing the 1992 and later requirements of Sect. 604 in a manner consistent with the United States' obligations under the Montreal Protocol with the goal of eventual phase-out of CFCs.	Interim final rule remains in effect for calendar year 1991. Final rule 7/92. An additional NPRM to accelerate the phase-out is planned.
120-505	CFCs From Vehicle Air Conditioners; Restrictions on Class I and II Substances 40 CFR 82	ANPRM 55 FR 18256 5/1/90 NPRM 56 FR 43842 9/4/91 Supplemental NPRM 57 FR 14764 4/22/92	Under Sect. 609 of the CAA, EPA proposes requirements for servicing of motor vehicle air conditioners and restrictions on the sale of Class I and II substances under 20 pounds. EPA would require that only approved equipment be used to perform service, and proposes standards for approval of recover/recycle equipment and "recover only" equipment.	Final rule 7/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (e)	SCHEDULED ACTION	
			ANTICIPATED CHANGES	
*110-507	Stratospheric Ozone Protection - Labeling 40 CFR 82	NPRM 57 FR 19166 5/4/92	EPA proposes to require warning labels on containers of, and products containing or manufactured with, certain Class I and II ozone-depleting substances pursuant to Sect. 611 of the CAA. EPA also proposes to require permanent labels on products containing ozone-depleting substances that can be recovered or recycled pursuant to Sect. 608 of the CAA.	Final rule 11/92.
*110-508	Stratospheric Ozone Protection - Federal Procurement 40 CFR 82	Planned NPRM 57 FR 17439 4/27/92	EPA is required to work with GSA and DOD to develop procurement requirements for each department, Agency, and instrumentality of the U.S. to conform its procurement regulations to maximize the substitution of safe alternatives of ozone depleting substances.	NPRM 7/92. Final rule 12/92.
*110-509	Stratospheric Ozone - Class I and II Safe Alternatives 40 CFR 82	ANPRM 57 FR 1984 1/16/92 Planned NPRM 57 FR 17436 4/27/92	EPA will: (1) make unlawful the replacement of any class I or II substance with a substitute that may cause adverse effects, (2) establish a process for publishing a list of safe and unsafe alternatives, (3) publish guidance on petitioning to add or remove a substance from the list, and (4) establish a program for submission of health and safety studies on substitutes.	NPRM 8/92. Final rule 11/92.
710-022	HLW Disposal in Geologic Repositories - EPA and NRC Conforming Amendments 10 CFR 60	NPRM 51 FR 22288 6/19/86 Regulatory Agenda 57 FR 17734 4/27/92	NRC proposes to conform its regulations for disposal of high-level radioactive wastes in geologic repositories to EPA standards of September 19, 1985, as mandated by the NMPA.	On hold pending action on RU# 700-074.
700-066	Radiation Dose Criteria for Accidents at HLW Geologic Repositories (Repository Operations Criteria) 10 CFR 60	Notice of receipt 55 FR 28771 7/13/90 Correction 55 FR 32639 8/10/90 Planned NPRM 57 FR 17739 4/27/92	NRC will propose to amend the regulations concerning radiation dose criteria. A central issue is the development of radiation dose criteria for a postulated accident that DOE would use to establish a limited access area for the high-level waste (HLW) geologic repository. In addition, a number of new definitions would be added.	NPRM placed on hold.

(n) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

FNU NO.	REQUIREMENT	STATUS (a)	SCHEDULED ACTION	
			ANTICIPATED CHANGES	Final rule
700-074	Definition of Term - High-Level Radioactive Waste 10 CFR 60	Petition for rulemaking 55 FR 51732 12/17/90	The states of Washington and Oregon request that NRC revise the definition of "high-level radioactive waste" so as to establish a framework and standards by which to determine whether reprocessing waste, e.g., certain waste stored at DOE's Hanford site, is high-level radioactive waste.	Rulemaking decision date undetermined.
700-078	Training and Qualification of Nuclear Power Plant Personnel 10 CFR 50 10 CFR 52	NPRM 57 FR 537 1/7/92 Regulatory Agenda 57 FR 17741 4/27/92	NRC proposes to require nuclear power plant licensees to establish a safety training program for plant personnel based on a systems approach to training.	Final rule undetermined.
*700-080	Approved Spent Fuel Storage Casks 10 CFR 72	NPRM 57 FR 28645 6/26/92	NRC proposes to add two additional casks, TW-24 and VSC-24, to the current list of four approved spent fuel storage casks certified and listed under 10 CFR 72. A licensee may choose from any of the listed casks to store spent fuel at the reactor site.	Comments by 9/9/92. Final rule 11/92.
LOW-LEVEL RADIOACTIVE WASTE (LLW) POLICY AMENDMENTS ACT				
740-003	Environmental Protection Standards for LLW Disposal 40 CFR 193 40 CFR 764	ANPRM 48 FR 39563 8/31/83 Planned NPRM 57 FR 17411 4/27/92	EPA intends to develop environmental radiation protection standards and/or guides for low-level radioactive (possibly including natural and accelerator produced) waste disposal to protect the public health and general environment from potential adverse effects from this activity. Criteria triggering regulations are being considered.	NPRM 12/92. Final rule 12/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RUM# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
740-004	LLW Below Regulatory Concern 10 CFR 2 10 CFR 20	ANPRM 51 FR 43367 12/2/86 Policy statement 55 FR 27522 7/3/90 Deferral of action 56 FR 21631 5/10/91 Deferral of action; initiation of consensus process 56 FR 36068 7/30/91 Regulatory Agenda 57 FR 17735 4/27/92	NRC may amend its regulations to address radioactive waste disposal when low radionuclide quantities do not merit regulation as radioactive material. A generic rulemaking is favored over current petitions for exemption of specific wastestreams. NRC issues its policy statement on exemptions from regulatory control for small quantities of radioactive material. The statement defines the dose criteria and other considerations that will be used by NRC in making exemption decisions. Individual dose criteria of 1 and 10 mrem per year and a collective dose criterion are established. NRC declares a moratorium on the implementation of its 7/3/90 below regulatory concern (BRC) policy statement and is initiating a consensus process to provide advice to the Commission on the full range of issues related to the BRC policy.	Policy statement effective 7/3/90. NPRM on hold indefinitely until consensus-building process is completed.
740-013	Incineration of Low-Level Radioactively Contaminated Waste Oil from Nuclear Power Plants 10 CFR 20	NPRM 53 FR 32914 8/29/88 Request for clarification 53 FR 48721 12/2/88 Regulatory Agenda 57 FR 17735 4/27/92	NRC proposes to amend its regulations to permit the onsite incineration of slightly contaminated waste oils generated at licensed nuclear power plants. EPA requests of NRC clarification of two issues: (1) the responsibility of NRC's licensees complying with the approval requirements of the Clean Air Act, and (2) the potential need for licensees obtaining state or federal hazardous waste permits.	Final rule on hold indefinitely until consensus-building process is completed.
740-019	Unregulated Disposal of Small Amounts of Radioactive Isotopes 10 CFR 20	Petition for rulemaking 53 FR 41342 10/21/88 Correction 53 FR 44014 11/1/88	Rockefeller University requests that NRC amend its regulations under which a licensee may dispose of animal tissue containing small amounts of radioactivity without regard to its radioactivity. The petition requests that the list of radioactive isotopes for which unregulated disposal is permitted be expanded to include sulfur-35, calcium-45, chromium-51, iodine-125, and iodine-131 in concentrations less than 0.001 microcurie/gm.	Petition resolution placed on hold indefinitely pending action on RU# 740-004.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	SCHEDULED ACTION	
			ANTICIPATED CHANGES	
740-021	Low-Level Waste Manifest Information and Reporting 10 CFR 20 10 CFR 61	NPRM 57 FR 14500 4/21/92	NRC proposes to (1) improve information contained in manifests accompanying shipments of waste to LLW disposal facilities; (2) establish a uniform manifest for national use; (3) require that LLW disposal site operators electronically store portions of this manifest information onsite; and (4) require that operators periodically submit, in an electronic format, reports of shipment manifest information. NRC also requests input on whether and how to establish a national data base for LLW.	Final rule 1/93.
740-025	Licensing Requirements for Land Disposal of Radioactive Wastes 10 CFR 61	NPRM 57 FR 8093 3/6/92	NRC proposes to make changes to its licensing requirements for low-level radioactive waste disposal facilities to (1) clarify that 10 CFR 61 applies to above-ground disposal facilities, (2) replace the phrase "quality control program" with "quality assurance program," (3) update the Paperwork Reduction Act Statement in part 61.8, and (4) identify the correct NRC recipient of the licensees' annual reports.	Final rule 7/92.
*740-026	Byproduct and Special Nuclear Material - Receipt and Onsite Storage 10 CFR 50	NPRM 57 FR 15034 4/24/92	NRC proposes to amend the conditions of licenses for production and utilization facilities to allow a reactor licensee to receive back and store onsite byproduct and special nuclear material (low-level radioactive waste) that is produced by operating the reactor and sent offsite to be reduced in volume by compaction or incineration.	Final rule 4/93.
*740-027	Concentration Averaging and Encapsulation - Technical Position 10 CFR 61	NOA 57 FR 29105 6/30/92	NRC announces the availability of a proposed revision of the 1983 staff technical position on radioactive waste classification entitled "Technical Position on Concentration Averaging and Encapsulation" which provides guidance on the interpretation of 10 CFR 61 as it applies to classification of low-level radioactive waste.	Comments by 8/26/92.
ATOMIC ENERGY ACT				
Transportation Regulations - Compatibility with IAEA -- RU# 400-093				
100-016	Protection Requirements for Spent Fuel Shipments	NPRM 49 FR 23867 6/8/84	The rule modifies the present interim requirements for protection of shipments of irradiated reactor fuel cooled for 150 days or more. Present interim requirements will remain for fuel cooled less than 150 days.	Final rule postponed indefinitely.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*100-018	Residual Radioactive Materials Cleanup - Radiation Protection Criteria 40 CFR 194	ANPRM 51 FR 22264 6/18/86 Planned NPRM 57 FR 17411 4/27/92	EPA is developing public health and environmental radiation protection criteria for cleanup of residual radioactivity at decommissioned sites. Licensees of the NRC or Agreement States; sites owned or used by DOE, DOD, the former AEC, and the former Manhattan Engineering District; and sites where natural and accelerator-produced radioactive materials have been used would be affected.	NPRM 8/92.
100-021	Exposure Limits for Transuranics	NPRM 42 FR 60956 11/30/77 Regulatory Agenda 57 FR 17412 4/27/92	EPA proposes interim guidance to federal agencies to limit radiation doses to the general population from transuranic elements present in the environment.	On hold; no action planned at this time.
100-033	Explanation to Table S-3, Uranium Fuel Cycle Environmental Data 10 CFR 51	NPRM 46 FR 15154 3/4/81 Regulatory Agenda 57 FR 17733 4/27/92	NRC proposes a narrative explanation of the numerical values of Table S-3, "Table of Uranium Fuel Cycle Environmental Data," which appears in the NRC Environmental protection regulations. Values for radon-222 and technetium-99 will be added.	Final rule 9/92.
100-039	Residual Radioactivity Criteria for Unrestricted Release of Lands and Structures 10 CFR 20	NOA 55 FR 6137 2/21/90 Planned NPRM 57 FR 17740 4/27/92	NRC will establish residual radioactive contamination limits that must be met before buildings, structures, equipment, materials, and land may be released and the license terminated.	NPRM 10/93. Final rule 10/94.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*100-041	Standards for Protection Against Radiation 10 CFR 20	ANPRM 45 FR 18023 3/20/80 NPRM 51 FR 1092 1/9/86 Final rule 56 FR 23360 5/21/91 Corrections 56 FR 61352 12/3/91 Notice 57 FR 23929 6/5/92 Correction 57 FR 27845 5/22/92	NRC revises its requirements for protection of individuals exposed within and outside the workplace to ionizing radiation from normal operations licensed by the NRC. The revision reflects current data on health risks, dosimetry, and radiation protection practices.	Final rule effective 6/20/91. Implementation deferred until 1/1/93.
			NRC issues a notice to confirm the effective dates for the information collection requirements (ICRs) of the 5/21/91 final rule.	Part 19 ICRs effective 1/13/92; Part 20 ICRs effective 1/24/92.
			NRC proposes to extend until 1/1/94 the implementation date for its revised standards for protection against radiation.	Implementation proposed to be deferred until 1/1/94.
100-053	Criteria for Extraordinary Nuclear Occurrence 10 CFR 140	NPRM 50 FR 13978 4/9/85 Regulatory Agenda 57 FR 17734 4/27/92	NRC is considering revising the criteria for an "extraordinary nuclear occurrence." The changes are designed to avoid the problems encountered by the NRC in applying existing criteria to Three Mile Island.	Final rule 10/92.
*100-111	Agreement State Radiation Control Programs	Policy statement 52 FR 21132 6/4/87 Proposed policy revision 55 FR 10851 3/23/90 Final policy statement 57 FR 22495 5/28/92	NRC revises its general statement of policy, "Guidelines for NRC Review of Agreement State Radiation Control Programs," to incorporate changes to the regulation of LLW disposal in permanent facilities.	Effective 5/28/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*100-129	Environmental Standards for the Management and Disposal of Spent Nuclear Fuel, HLW, and TRU Radioactive Wastes 40 CFR 191	Planned NPRM 57 FR 17411 4/27/92	EPA will promulgate generally applicable environmental standards for the management and disposal of spent nuclear fuel, high-level and transuranic radioactive wastes to establish limits for the release of radioactive materials to the environment.	NPRM 11/92. Final rule 11/93.
100-131	Integrated Schedules for Implementation of Plant Modifications 10 CFR 50	Proposed policy statement 52 FR 45344 11/27/87	NRC issues a proposed policy statement that describes the policy the Commission intends to use to promote voluntary licensee integrated schedules for implementing regulatory requirements and other improvements in nuclear power plants.	Final policy statement 7/92.
*100-157	Transportation Regulations - Compatibility with IAEA 10 CFR 71	NPRM 53 FR 21550 6/8/88 Corrections 53 FR 23484 6/22/88 Regulatory Agenda 57 FR 17735 4/27/92	NRC proposes to revise its regulations for transportation of radioactive material to make them compatible with those of the IAEA. The basic standards for packaging will remain unchanged, and the transport of low-specific-activity radioactive material is considered. NRC also proposes to include the criteria for approval of packages for air transport of plutonium in 10 CFR 71 (see comparable DOT regulation RU# 400-093).	Final rule 12/92.
100-179	Fitness-For-Duty Programs for Category I Fuel Facilities and Shipments 10 CFR 26	NPRM 57 FR 18415 4/30/92	NRC proposes to amend the Commission's fitness-for-duty regulations to include Category I fuel facilities and Category I shipments.	Comments by 7/29/92. Final rule 12/92.
100-187	Licenses and Radiation Safety Requirements for Large Irradiators 10 CFR 36	NPRM 55 FR 50008 12/4/90 Regulatory Agenda 57 FR 17747 4/27/92	NRC proposes to establish a new part 36 to specify radiation safety requirements and licensing requirements for the use of licensed radioactive materials in large irradiators.	Final rule 11/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
100-214	Nuclear Power Plant Structures, Systems, and Components 10 CFR 50	ANPRM 54 FR 9229 3/6/89 Planned NPRM 57 FR 17737 4/27/92	MRC is proposing to develop regulations requiring enhanced acceptance procedures including, but not limited to, receipt inspection and testing of products purchased for use in nuclear power plant structures, systems, and components.	All action suspended, may be withdrawn.
100-216	Guidance on Management Controls/Quality Assurance, Requirements For Operation, Chemical Safety, and Fire Protection for Fuel Cycle Facilities	Proposed guidance 54 FR 11590 3/21/89	MRC proposes four branch technical positions on management controls/quality assurance, requirements for operation, chemical safety, and fire protection for fuel cycle facilities.	Final branch technical position on fire protection to be issued 8/92.
100-222	Code and Standards for Nuclear Power Plants 10 CFR 50	Planned NPRM 57 FR 17736 4/27/92	MRC will incorporate by reference Subsection IWE, "Requirements for Class MC Components of Light-Water Cooled Power Plants," and Subsection IWL, "Requirements for Class CC Concrete Components of Light-Water Cooled Power Plants," of Sect. XI of the ASME Code.	NPRM 7/92.
100-224	Primary Reactor Containment Leakage Testing for Water-Cooled Reactors 10 CFR 50	NPRM 51 FR 39538 10/29/86 Regulatory Agenda 57 FR 17747 4/27/92	MRC proposes to update and revise the 1973 criteria for preoperational and periodic pressure testing for leakage of primary containment boundaries of water-cooled power reactors in order to eliminate inconsistencies and obsolete requirements.	Final rule 7/92.
*100-234	Physical Protection Requirements - Minor Amendments 10 CFR 70 10 CFR 72 10 CFR 73 10 CFR 75	NPRM 54 FR 33570 8/15/89 Notice 55 FR 7960 3/6/90 Regulatory Agenda 57 FR 17737 4/27/92	MRC proposes to amend its regulations that cover the physical protection of special nuclear materials to correct editorial errors and clarify wording and definitions.	Final rule 7/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
100-249	Requirements for Possession of Industrial Devices 10 CFR 31 10 CFR 32	NPRM 56 FR 67011 12/27/91 Regulatory Agenda 57 FR 17748 4/27/92	NRC proposes to amend the regulations for the possession of industrial devices containing byproduct material to require device users to report to the NRC on a periodic basis if the device is still in use or to whom the device has been transferred to assure that devices are not improperly transferred or inadvertently discarded.	Final rule 8/92.
*100-252	Import and Export of Radioactive Waste 10 CFR 110	ANPRM 55 FR 4181 2/7/90 NPRM 57 FR 17859 4/28/92	NRC proposes to amend its licensing requirements regarding the import and export of radioactive wastes to conform U.S. policies to the international voluntary Code of Practice to guide nations in the development and harmonization of policies and laws on the international transboundary movement of radioactive waste.	Final rule 4/93.
100-256	U-AVLIS Uranium Enrichment - Permits for Access to Restricted Data 10 CFR 725	NPRM 55 FR 15237 4/23/90 Regulatory Agenda 57 FR 16689 4/27/92	DOE proposes to amend the regulations concerning permits for access to uranium isotope separation restricted data by updating category C-24 to include the U-AVLIS technology and requiring private sector permit applicants to pay \$100,000 for an access permit. The purpose of the amendments is to encourage private sector participation in the government's uranium enrichment program.	Final rule 10/92. May be withdrawn.
100-258	Emergency Preparedness Regulations 10 CFR 50	Planned NPRM 57 FR 17738 4/27/92	NRC will propose to clarify the linkage between the need for "reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency" indicated in Sect. 50.47(a) and 16 planning standards outlined in Sect. 50.47(b). In addition, this rule will clarify the term "range of protective" actions and the issues of monitoring of evacuees, actions for recovery and reentry, notification of the public, evacuation time estimates, and exercise frequency.	NPRM on hold. May be withdrawn.
		NOA 56 FR 12734 3/27/91 Planned NPRM 57 FR 17738 4/27/92	NRC will propose a rule to amend the regulations concerning those portions of emergency plans which cannot be exercised prior to issuance of a Part 52 combined license. This rulemaking will be accomplished on a "high priority basis."	NPRM sent to Commission 4/90; awaiting their action on it.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
100-265	Nuclear Plant License Renewal - Environmental Effects 10 CFR 51	ANPRM 55 FR 29964 7/23/90 NOI 55 FR 29967 7/23/90 NPRM 56 FR 47016 9/17/91 NOA 56 FR 47500 9/19/91 Regulatory Agenda 57 FR 17749 4/27/92	NRC proposes to amend its regulations to add provisions concerning the scope of environmental effects which would be addressed by the Commission in conjunction with applications for operating license renewal for nuclear power plants.	Final rule 9/92.
*100-275	Import and Export of Nuclear Equipment and Material 10 CFR 110	Notice 55 FR 53596 12/31/90 Planned NPRM 57 FR 17740 4/27/92	NRC will propose amendments to: (1) permit the expedited import and export of certain nuclear material where no significant proliferation risks are involved, (2) streamline the procedures for public participation in NRC's licensing process, (3) delete from the lists of restricted destinations those countries that signed the Non-Proliferation Treaty, (4) add Namibia to the general license allowing import of their uranium, and (5) make other minor changes. NRC will also propose that the export of heavy water to Canada and low-enriched uranium to EURATOM and to Japan for enrichment will no longer require license application review by the Executive Branch.	Direct final rule 9/92. NPRM 10/92.
*100-276	Timeliness in Decommissioning of Material Facilities 10 CFR 30 10 CFR 40 10 CFR 70 10 CFR 72	Planned NPRM 57 FR 17742 4/27/92	NRC will propose to require decontamination and decommissioning of material facilities within a fixed period of time after cessation of operations.	NPRM 8/92. Final rule 5/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*100-277	Challenges to Orders That Are Made Immediately Effective 10 CFR 2	NPRM 55 FR 27645 7/5/90 Final rule 57 FR 20194 5/12/92	NRC revises its regulations governing orders to provide for the expeditious consideration of challenges to orders that are made immediately effective, and requires that challenges to the merits of an order be heard expeditiously, except where good cause exists for delay.	Effective 6/11/92.
100-279	Code and Standards for Nuclear Power Plants - ASME Code Addenda 10 CFR 50	NPRM 56 FR 3796 1/31/91 Regulatory Agenda 57 FR 17748 4/27/92	NRC proposes to incorporate by reference the 1986, 1987, and 1988 Addenda, and the 1989 edition of Section III, Division 1, and Section XI, Division 1, with a specified modification, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code). NRC also proposes to impose augmented examination of reactor vessel shell welds.	Final rule 9/92.
*100-283	Regulatory Guides	NOA 57 FR 20525 5/13/92	NRC announces the availability of two guidance documents: "Revised Guidance on Disposal of Non-Atomic Energy Act of 1954, section 11e.(2) Byproduct Material in Tailings Impoundments" and "Position and Guidance on the Use of Uranium Mill Feed Materials Other Than Natural Ores."	
100-284	Radiation Protection of the Public and Environment 10 CFR 834	NOA 57 FR 20859 5/15/92	NRC issues revisions to three regulatory guides: "Design and Fabrication Code Case Acceptability," "Materials Code Case Acceptability," and "Inservice Inspection Code Case Acceptability."	NPRM 8/92.
*100-288	Decommissioning and Recordkeeping and License Termination - Documentation 10 CFR 30 10 CFR 40 10 CFR 70 10 CFR 72	NPRM 56 FR 50524 10/7/91 Regulatory Agenda 57 FR 17750 4/27/92	DOE will propose radiation protection requirements for the public and environment for DOE and DOE contractor operations, including a dose limitation system for the protection of the public, requirements for liquid discharges, reporting and monitoring requirements, and residual radioactive material requirements.	Final rule 10/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
100-289	Radiation Protection for Occupational Workers 10 CFR 835	NPRM 56 FR 64334 12/9/91 Notice 56 FR 67066 12/27/91 Regulatory Agenda 57 FR 16690 4/27/92	DOE proposes primary standards that would be applicable to the control of radiation exposures to occupational workers from normal operations under the control of DOE and DOE contractor personnel.	Final rule 12/92.
*100-290	Nuclear Safety Management 10 CFR 830	NPRM 56 FR 64316 12/9/91	DOE proposes the addition of a new part to its regulations establishing a body of rules for DOE contractor and subcontractor activities that will form the basic requirements for ensuring nuclear safety at DOE facilities. The body of rules will include conduct of operations, occurrence reporting, safety analysis and requirements, training, certification, and maintenance.	Final rule 7/93.
		Clarification of NPRM 57 FR 20796 5/15/92	DOE issues a notice to clarify the intended scope of the definition of "Nuclear Safety Requirements" in the proposed 10 CFR 820 on procedural rule for DOE nuclear activities.	
*100-294	Statutory Authority for Purposes of Criminal Enforcement 10 CFR 11 10 CFR 19-21 10 CFR 25-26 10 CFR 30-35 10 CFR 39-40 10 CFR 50 10 CFR 52-55 10 CFR 60-61 10 CFR 70-75 10 CFR 95 10 CFR 110 10 CFR 140 10 CFR 150	NPRM 57 FR 222 1/3/92	MRC proposes to amend its regulations to clarify the applicability of the criminal penalty provisions of the AEA to certain regulations.	Final rule 1/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
100-297	Nuclear Safety Management - Phase II 10 CFR 830	Planned NPRM 57 FR 16688 4/27/92	DOE will propose Phase II rules, applicable to DOE contractor and subcontractor activities, to ensure nuclear safety at DOE facilities. The rules relate to safety concern management, reactor design criteria, seismic and environmental qualifications, fire protection, personnel training, emergency preparedness, safety responsibility, and contractor oversight.	NPRM 3/93.
*100-298	Physical Protection Requirements at Fixed Sites 10 CFR 73	NPRM 57 FR 22670 5/29/92	NRC proposes to amend its general physical protection requirements for fixed sites to clarify that protection against both radiological sabotage and theft of special nuclear material is not required at all licensed facilities.	<u>Comments by 8/12/92.</u>
*100-299	Reducing the Regulatory Burden on Nuclear Licensees 10 CFR 20 10 CFR 50	NPRM 57 FR 27187 6/18/92	NRC proposes to amend its regulations to reduce the regulatory burden on nuclear licensees. The amendments address the frequency of reporting information and core cooling system analysis for operating power reactors, clarify and update regulations, and remove unnecessary regulatory requirements.	<u>Comments by 7/20/92.</u> <u>Final rule 9/92.</u>
*100-300	Nuclear Reactor Event Reporting - Minor Amendments 10 CFR 50	NPRM 57 FR 28642 6/26/92	NRC proposes to amend regulations in 10 CFR 50 to make minor modifications to the current nuclear power reactor event reporting requirements.	<u>Comments by 7/27/92.</u>
URANIUM MILL TAILINGS RADIATION CONTROL ACT				
*930-029	Groundwater Protection Standards for Inactive Uranium Tailing Sites 40 CFR 192	NPRM 52 FR 36000 9/24/87 Regulatory Agenda 57 FR 17412 4/27/92	EPA proposes standards for preventing groundwater contamination at inactive uranium processing sites. The rule will replace the groundwater provisions of the final rule of 1/5/83 for remedial action.	<u>Final rule 8/92.</u>
*930-034	Uranium Mill Tailing Sites - Remedial Action Program and Annotation of Land Records 10 CFR 764	NPRM 54 FR 29732 7/14/89 Regulatory Agenda 56 FR 53248 10/21/91	DOE proposes to clarify the obligation of certain states to annotate local land records so as to ensure that future purchasers of remediated properties will be notified of the extent of the remedial work.	<u>Final rule 2/93.</u>

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
920-038	Health and Environmental Standards for Uranium Mill Tailings 40 CFR 192	ANPRM 56 FR 67569 12/31/91	EPA will propose to amend Subpart D to require enforceable closure deadlines and appropriate monitoring for uranium mill tailing disposal sites that are licensed by the NRC or one of its Agreement States.	NPRM 8/92.
TOXIC SUBSTANCES CONTROL ACT				
Containerized Liquids in Landfills -- RU# 840-024				
920-053	Negotiated Consent - Procedural Test Rules 40 CFR 790	Planned NPRM 57 FR 17396 4/27/92	EPA plans to propose appropriate procedural changes to reduce the resources required for consent order negotiation.	NPRM 12/92.
920-064	Comprehensive Assessment Information Rule 40 CFR 704	Planned NPRM 57 FR 17399 4/27/92	EPA is considering revision of the Comprehensive Assessment Information Rule (CAIR) to establish exemptions for small and "de minimis" volumes, refine trade name reporting requirements, reduce certain advance substantiation requirements for Confidential Business Information (CBI) claims, and define processing activities using processor subclasses.	NPRM 7/92.
920-076	Termination of PCBs Disposal Approvals 40 CFR 761	NPRM 55 FR 46470 11/2/90 Regulatory Agenda 57 FR 17401 4/27/92	EPA proposes a rule establishing criteria and procedures for the suspension and revocation of PCB storage and disposal approvals.	Final rule on hold.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	SCHEDULED ACTION	
			ANTICIPATED CHANGES	
*920-092	Chemical Test Data	Notice 57 FR 21657 5/21/92	EPA announces the receipt of chemical test data on 4-nonylphenol branched, submitted pursuant to a final test rule.	
		Notice 57 FR 23227 6/2/92	EPA announces the receipt of chemical test data for isopropanol submitted pursuant to a final test rule.	
		Notice 57 FR 27972 6/23/92	EPA announces the receipt of chemical test data on tetrabromobisphenol A; 2,4,6-tribromophenol; decabromodiphenyl oxide and octabromodiphenyl oxide for dibenzop-dioxins/dibenzofurans submitted pursuant to a final test rule.	
*920-096	PCBs - Commerce Exemptions 40 CFR 750 40 CFR 761	NPRM 57 FR 7349 3/2/92	EPA proposes to grant three and deny two petitions for exemption from the prohibition against the manufacture, processing, and distribution in commerce of PCBs. EPA also proposes to amend the interim procedural rules to require submission of a certified letter at least six months prior to the expiration date of an exemption for which the petitioner wants the exemption to continue.	Final rule 10/92.
*920-103	Preliminary Assessment Information and Health and Safety Data Reporting Rules - Addition of Chemicals 40 CFR 712 40 CFR 716	Final rule 56 FR 42688 8/29/91 Technical amendment 56 FR 49146 9/27/91 Technical amendment 57 FR 29033 6/30/92	EPA adds one substance and four categories of substances to the preliminary assessment information rule (PAIR) and the Sect. 8(d) health and safety data reporting rule. Manufacturers, processors, and importers of these chemicals will be required to report unpublished health and safety data and/or end use, exposure, and production volume data to EPA.	Final rule and technical amendment of 9/27/91 effective 9/30/91. Technical amendment of 6/30/92 effective 6/30/92.
*920-113	SARA Section 110 Chemicals Generic Test Rule 40 CFR 799	Planned NPRM 57 FR 17396 4/27/92	This regulation will set forth the policies and procedures for using the TSCA Sect. 4 testing authority to obtain toxicity and chemical fate testing to fill certain data needs identified in toxicity profiles of chemicals prepared pursuant to SARA.	NPRM 7/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	SCHEDULED ACTION	
			ANTICIPATED CHANGES	Final rule and clarification 9/92.
920-119	PCBs - Wet Weight, Dry Weight Clarification 40 CFR 761	NPRM 55 FR 12866 4/6/90 Regulatory Agenda 57 FR 17402 4/27/92	EPA proposes to amend the PCB regulations final rule of 7/10/84 (49 FR 28171) by adding the phrase "on a dry weight basis" to Sect. 761.1(b).	
920-123	Drinking Water Chemicals Proposed Test Rule 40 CFR 799	NPRM 55 FR 21393 5/24/90 NOA 57 FR 14371 4/20/92	EPA proposes a test rule under Sect. 4 of TSCA that would require manufacturers and processors to test the following substances for certain health effects: chloroethane, 1,1-dichloroethane, 1,1,2,2-tetrachloroethane, n-propylbenzene, and 1,3,5-trimethylbenzene. EPA also proposes a new testing guideline for a 14-day repeated dose oral toxicity study. This proposed rule supports EPA's effort to develop Health Advisories for unregulated drinking water contaminants monitored under the SDWA.	Final rule 9/92.
920-124	Reduction of Lead Consumption and Use 40 CFR 721 40 CFR 750	ANPRM 56 FR 22096 5/13/91 Planned NPRM 57 FR 17398 4/27/92	EPA initiates a regulatory investigation to determine the most cost-beneficial way to reduce human exposure to lead. The investigation will explore use of TSCA Sect. 6 to determine if uses of lead present unreasonable risks.	NPRM 8/92.
920-125	PCBs Disposal Amendments 40 CFR 761	ANPRM 56 FR 26738 6/10/91 NOA 56 FR 26745 6/10/91 Planned NPRM 57 FR 17398 4/27/92	EPA is considering amending its TSCA PCB disposal regulations to address (1) alternative disposal methods to those currently permitted which do not pose an unreasonable risk of injury to human health and the environment, (2) classes of PCBs not contemplated by the disposal regulations, and (3) regulatory requirements for existing classes of PCBs and PCB items.	NPRM 9/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
920-126	Recycling of Lead Acid Batteries 40 CFR Chapter I	Notice 55 FR 52884 12/24/90 Notice 56 FR 2885 1/25/91 Notice 56 FR 7625 2/26/91 Notice 56 FR 42572 8/28/91	EPA gives notice of the final meeting of the advisory committee to negotiate a rule to recycle lead acid batteries. The purpose of the meeting is to discuss recent data generated by EPA and to further determine whether the committee should continue work towards reaching a consensus on a rule to promote recycling of lead acid batteries.	Rulemaking initiative has been dropped. Formal notification/discussion of this action is to be published in Federal Register 7/92.
920-127	Environmental Hazard Communication Rule CFR undetermined	Planned ANPRM 57 FR 17394 4/27/92	The Office of Toxic Substances will propose to require Environmental Hazard Communication (EHC) with the sale of commercial chemicals, probably in the form of requiring that environmental information be included on Material Safety Data Sheets (MSDS) whenever the information is available.	ANPRM 12/92.
*920-129	TSCA Section 4(a)(1)(B) Policy 40 CFR 799	Proposed policy statement 56 FR 32294 7/15/91 Regulatory Agenda 57 FR 17400 4/27/92	EPA proposes standards and criteria it intends to use in interpreting its legal authority to make findings under TSCA Sect. 4(a)(1)(B)(i) for determining substantial production, release to the environment in substantial quantities, and substantial or significant human exposure.	Final policy statement 10/92.
920-130	Metabolism and Pharmacokinetic Test Guideline 40 CFR 798	NPRM 56 FR 32537 7/17/91	EPA proposes to establish a test guideline for generating metabolism and pharmacokinetic data. This joint guideline would harmonize the pharmacokinetics and testing guidelines of the Office of Toxic Substances and the Office of Pesticide Programs and assist EPA in developing health effects test data standards for testing chemicals under TSCA and FIFRA.	Final rule 9/92.
"920-131	TSCA Inventory - Intent to Remove Substances	Notice 56 FR 43920 9/5/91 Notice 57 FR 26842 6/16/92	EPA announces its intent to remove 61 of the 72 chemical substances originally proposed for removal on 9/5/91 from the TSCA Chemical Substance Inventory. The other eleven substances require additional consideration.	Substances deleted from inventory as of 6/16/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	SCHEDULED ACTION	
			ANTICIPATED CHANGES	
*920-132	PCB Transformer Reclassification Rule 40 CFR 761	Planned NPRM 57 FR 17399 4/27/92	EPA will modify the current reclassification requirements of 50 degrees centigrade temperature and 98-day testing for PCB transformers because results of a preliminary analysis indicate many transformers never reach the required temperature but still reduce PCB concentrations to risk-free levels.	NPRM 9/92.
HAZARDOUS MATERIALS TRANSPORTATION ACT				
Transportation Regulations - Compatibility with IAEA -- RU# 100-157				
400-014	Railroad Shipment of Hazardous Material - Use of Cargo tanks	ANPRM 50 FR 18278 4/30/85 Notice extending existing approvals 56 FR 8388 2/28/91	The Federal Railroad Administration and the RSPA are considering development of safety standards to permit the use of cargo tanks, portable tanks, IM portable tanks, and multi-unit tank car tanks in trailers on flatcar and containers-on-flatcar service.	Extension of existing approvals effective 5/1/91. NPRM on hold indefinitely pending results of research.
400-039	Pipeline Operator Qualifications 49 CFR 192 49 CFR 195	ANPRM 52 FR 9189 3/23/87 Planned NPRM 57 FR 17141 4/27/92	RSPA is considering the need to develop additional regulations governing training and qualification of persons that operators hire to design, construct, operate, or maintain pipeline facilities used in transport of gas or hazardous materials.	NPRM 4/93.
*400-040	Transportation of Hazardous Materials - Miscellaneous Amendments 49 CFR 171-178	NPRM 56 FR 37505 8/7/91 Regulatory Agenda 57 FR 17149 4/27/92	RSPA proposes several amendments to update and simplify the Hazardous Materials Regulations.	Final rule 8/92.
400-044	Hazardous Materials - Intrastate Commerce 49 CFR 171-179	ANPRM 52 FR 24195 6/29/87 Planned NPRM 57 FR 17141 4/27/92	DOT is considering extending the application of its hazardous material regulation to all intrastate transportation of hazardous materials in commerce.	NPRM 1/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EN-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
400-057	Railroad Shipment of Hazardous Waste - Defects of Tank Car Tanks 49 CFR 173	ANPRM 52 FR 46510 12/8/87 Planned NPRM 57 FR 17143 4/27/92	This would clarify existing inspection requirements for tank car tanks; add new inspection requirements for thermal protection on tank car tanks; permit the use of new inspection techniques for tank cars transporting low vapor pressure commodities in lieu of periodic hydrostatic retests; and establish minimum in-service tank thickness requirements.	NPRM 12/92. Final rule 12/93.
*400-061	Highway Routing Standards for Hazardous Materials 49 CFR 397	ANPRM 53 FR 11618 4/7/88 Planned NPRM 57 FR 17097 4/27/92	RSPA is considering establishing routing criteria, requirements, and methodologies for analyzing alternative routes for highway transport of non-radioactive hazardous materials.	NPRM 10/92.
400-062	Registration of Shippers and Carriers of Hazardous Materials 49 CFR 171 49 CFR 173 49 CFR 177	NPRM 56 FR 51294 10/10/91 Regulatory Agenda 57 FR 17147 4/27/92	RSPA proposes to establish a national registration program for certain shippers and carriers of hazardous materials and certain hazardous materials package manufacturers. RSPA also proposes to assess and collect an annual fee to fund a nationwide emergency response training and planning grant program.	Final rule 10/92.
400-063	Excavation Damage-Prevention Programs for Pipelines 49 CFR 192 49 CFR 195	NPRM 53 FR 24747 6/30/88 Regulatory Agenda 57 FR 17148 4/27/92	OPS, RSPA, and DOT propose to require operators of buried onshore gas, hazardous liquid, and carbon dioxide pipelines to conduct excavation damage prevention programs in accordance with criteria adopted previously for gas pipeline damage prevention programs.	Interim final rule 10/92. Supplemental NPRM 10/92.
400-064	Maps and Records of Pipeline Location and Characteristics - State Notification 49 CFR 192 49 CFR 195	Planned NPRM 57 FR 17142 4/27/92	As part of a continuing policy to adopt similar safety requirements for gas and hazardous liquid pipelines, this action will propose to equalize the requirements that gas and liquid operators keep maps and records to show the location and other characteristics of pipelines and will require them to provide this information to state agencies upon request.	NPRM 7/92. Final rule 7/93.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	SCHEDULED ACTION	
			ANTICIPATED CHANGES	
*400-073	Implementation of the ICAO's Technical Instructions 49 CFR 171 49 CFR 172 49 CFR 175	NPRM 55 FR 46839 11/7/90 Supplemental NPRM 57 FR 1891 1/16/92 Regulatory Agenda 57 FR 17151 4/27/92	RSPA proposes to amend its regulations in order to permit the offering, acceptance, and transportation by aircraft of hazardous materials shipments conforming to the most recent ICAO technical instructions. RSPA issues a supplemental NPRM to amend the HMR by adding four provisions relating to the transport of hazardous materials by aircraft.	Final rule 8/92.
400-080	Marine Transport of Bulk Solid Hazardous Materials 46 CFR 148	ANPRM 54 FR 18308 4/28/89 Notice 55 FR 11481 3/28/90 Regulatory Agenda 57 FR 17047 4/27/92	DOT will propose to incorporate into 46 CFR 148 the Coast Guard's and the International Maritime Organization's requirements for shipping certain frequently carried hazardous bulk solids, to eliminate paperwork for both the Coast Guard and the shipping industry and to harmonize domestic regulations with international standards.	NPRM 7/92.
*400-093	Transportation Regulations - Compatibility with IAEA 49 CFR 171-178	NPRM 54 FR 47454 11/14/89 NOA 54 FR 48054 11/20/89 Regulatory Agenda 57 FR 17150 4/27/92	RSPA proposes to revise its regulations to make them compatible with those of the IAEA for the safe transport of radioactive materials (see comparable NRC regulation RU# 100-157).	Final rule 8/92.
400-095	Elevated Temperature Materials 49 CFR 171 49 CFR 172 49 CFR 173	NPRM 54 FR 38930 9/21/89 Final rule 56 FR 49980 10/2/91 Compliance date delayed 56 FR 67542 12/31/91	RSPA amends the HMR to regulate materials which pose a hazard due to their being transported at elevated temperatures. Materials include those in a liquid phase having temperatures at or above 212 degrees F or having a flash point at or above 100 degrees F and those in a solid phase having temperatures at or above 464 degrees F.	Effective 3/30/92. Classification and hazard communication requirements effective 10/1/93. Placarding requirements effective 10/1/94. Packaging closure requirements effective 3/30/95.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
400-097	Transportation of Hydrogen Sulfide by Pipeline 49 CFR 192	ANPRM 54 FR 24361 6/7/89 NPRM 56 FR 11490 3/18/91 Regulatory Agenda 57 FR 17151 4/27/92	RSPA proposes to: (1) prohibit operators from transporting in a transmission line downstream of gas processing plants, sulfur recovery plants, or storage fields, natural gas containing more than a designated amount of H ₂ S; (2) require that the release of a designated excess of H ₂ S be reported to DOT; and (3) require that onshore/offshore gathering lines carrying a designated excess of H ₂ S have a contingency plan in place in case of a release of the gas.	Final rule 12/92.
400-099	Gas Pipelines Corrosion 49 CFR 192	NPRM 54 FR 27041 6/27/89 Regulatory Agenda 57 FR 17150 4/27/92	RSPA proposes to require gas pipeline operators who must now inspect for corrosion on buried metallic pipe that is exposed to investigate further to determine the full extent of any corrosion that is found.	Final rule 12/92.
*400-102	Training for Hazardous Materials Transportation 49 CFR 172 49 CFR 174-177	NPRM 54 FR 31144 7/26/89 Final rule 57 FR 20944 5/15/92 Corrections 57 FR 22181 5/27/92	RSPA amends the Hazardous Materials Regulations (HMR) to require that persons involved with the transportation of hazardous materials receive detailed training, and persons who work in proximity to hazardous materials receive training concerning hazardous materials awareness and safety procedures.	<u>Final rule and corrections effective 7/1/92.</u>
400-110	Hydrostatic Pressure Testing of Hazardous Liquid Pipelines 49 CFR 195	NPRM 56 FR 23538 5/22/91 Regulatory Agenda 57 FR 17147 4/27/92	RSPA proposes to extend hydrostatic testing or the alternative reduction in maximum operating pressure to all hazardous liquid steel pipelines where maximum operating pressure has not been established in accordance with the requirements of 49 CFR 195.	Final rule 7/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES		SCHEDULED ACTION
400-112	Operation and Maintenance Procedures for Pipelines 49 CFR 192 49 CFR 195	NPRM 54 FR 46685 11/5/89 Regulatory Agenda 57 FR 17148 4/27/92	OPS proposes to clarify and delineate the items that must be addressed in procedures for operations and maintenance of gas pipelines facilities to assure that operators take timely and appropriate actions under normal or abnormal conditions. Operators would also be required to establish procedures for personnel safety in trenches containing hazardous vapor or gas.		Final rule 10/92.
400-113	Gas Pipeline Operating Above 72 Percent of Specified Minimum Yield Strength 49 CFR 192	ANPRM 54 FR 50780 12/11/89 Correction 54 FR 51816 12/18/89 Planned NPRM 57 FR 17143 4/27/92	A grandfather clause allows certain steel gas pipelines to operate at hoop stress levels above 72 percent of the specified minimum yield strength (SYMS) of the pipe - the highest operating hoop stress permitted on steel pipe in all other regulated gas pipelines. The Office of Pipeline Safety is concerned about this possible disparity in protection and invites public comments to determine an appropriate course of action.		NPRM on hold; no schedule for action.
400-118	Specifications for Tank Car Tanks 49 CFR 173	ANPRM 55 FR 20242 5/15/90 Supplemental ANPRM 55 FR 35327 8/29/90 Planned NPRM 57 FR 17144 4/27/92	RSPA considers amendments to improve the level of safety of tank car tanks through operational changes, design modifications, and retrofitting requirements. In a supplement to its 5/15/90 ANPRM, RSPA considers four further amendments to its tank car tank specifications.		NPRM 12/92.
400-120	Hazardous Liquid Pipelines Operating at 20 Percent or Less of Specified Minimum Yield Strength 49 CFR 195	ANPRM 55 FR 45822 10/31/90 Planned NPRM 57 FR 17144 4/27/92	RSPA solicits comments and information to use in determining whether and to what extent to remove the exception in the pipeline safety standards governing hazardous liquid pipelines which says that they do not apply to pipelines operated at 20 percent or less of the specified minimum yield strength of the pipe.		NPRM 10/92. Final 10/93.
400-121	Excess Flow Valve Installation on Service Lines 49 CFR 192	ANPRM 55 FR 52188 12/20/90 Planned NPRM 57 FR 17142 4/27/92	The Office of Pipeline Safety seeks public participation in determining whether operators should be required to install excess flow valves on gas service lines to improve safety and reduce the frequency of incidents. Flow valves are designed to shut off automatically when a line is broken.		NPRM 10/92.

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
OCCUPATIONAL SAFETY AND HEALTH ACT				
*780-006	Occupational Exposure to Formaldehyde 29 CFR 1910	NPRM 50 FR 50412 12/10/85 Final rule 52 FR 46168 12/4/87 Notice of partial approval 53 FR 6628 3/2/88 Corrections 53 FR 27923 7/25/88 Administrative stay 53 FR 50198 12/13/88 Corrections; technical amendments 54 FR 29545 7/13/89 Correction 54 FR 31765 8/1/89 NPRM 56 FR 32302 7/15/91 Administrative stay extended 57 FR 19262 5/5/92 Final rule 57 FR 22290 5/27/92 Correction 57 FR 24701 6/10/92 Corrections 57 FR 27160 6/18/92	OSHA amends its existing regulation for occupational exposure to formaldehyde in response primarily to a remand by the U.S. Court of Appeals. The amendments lower the permissible exposure level for formaldehyde from the existing level of 1 ppm as an 8-hour time-weighted average to 0.75 ppm. OSHA also adds medical removal protection provisions to supplement the existing medical surveillance requirements for those employees suffering significant eye, nose, throat, or dermal irritation. In addition, certain changes are made to the standard's hazard communication and employee training requirements. These amendments establish specific hazard labeling requirements for solid materials capable of off-gassing formaldehyde between 0.1 and 0.5 ppm and those off-gassing above 0.5 ppm under reasonably foreseeable conditions of use.	Effective date for hazard communication provisions 12/20/88. Amendments effective 7/13/89. Final rule effective 6/26/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. SCHEDULED ACTION

Effective 5/29/92.

12

REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
780-020	Construction Standards - Safety Standards for Scaffolds 29 CFR 1926	NPRM 51 FR 42680 11/25/86 Regulatory Agenda 57 FR 16993 4/27/92	OSHA proposes to revise the construction industry safety standards for scaffolds to regulate the design, construction, and use of all scaffolds in construction.	Final rule 11/92.
780-021	Construction Industry - Safety Standards for Fall Protection 29 CFR 1926	NPRM 52 FR 42718 11/25/86 Regulatory Agenda 57 FR 16992 4/27/92	OSHA proposes to revise the construction industry safety standards to regulate the design and use of fall protection systems and procedures. The proposed revisions would address exposure hazards by using performance criteria rather than specification standards.	Final rule 8/92.
*780-025	Occupational Exposure to 2-Methoxyethanol, 2-Ethoxyethanol and Their Acetates 29 CFR 1910.1000	ANPRM 52 FR 10586 4/2/87 Planned NPRM 57 FR 16988 4/27/92	OSHA plans to develop standards for occupational exposure to 2-methoxyethanol, 2-ethoxyethanol, and their acetates, all of which are compounds used as industrial solvents.	NPRM 8/92.
*780-026	Occupational Exposure to Methylenedianiline (MDA) 29 CFR 1910 29 CFR 1926	Proposed standards 52 FR 26776 7/16/87 NPRM 54 FR 20672 5/12/89 Regulatory Agenda 57 FR 16994 4/27/92	OSHA proposes an eight-hour time-weighted average (TWA) of 10 ppb and a short-term exposure limit (STEL) of 100 ppb for methylenedianiline. The regulation also includes requirements such as medical surveillance, exposure monitoring, hygiene facilities, engineering controls and work practices, proper respirator use, and recordkeeping.	Final rule 8/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*780-028	Hazardous Materials - Process Hazards Management 29 CFR 1910	NPRM 55 FR 29150 7/17/90 NOA 56 FR 48133 9/24/91 Final rule 57 FR 6356 2/24/92 Corrections 57 FR 7847 3/4/92 Administrative stay 57 FR 23060 6/1/92	OSHA establishes procedures for process safety management of hazards associated with processes using highly hazardous materials. These performance-oriented requirements replace the specification-oriented requirements now in place. This is the first phase of a three-phase action.	Effective 5/26/92. Administrative stay of certain provisions of final rule until 8/26/92.
780-029	Occupational Exposure to Cadmium 29 CFR 1910	NPRM 55 FR 4052 2/6/90 Reopening of rulemaking 56 FR 47348 9/18/91 Regulatory Agenda 57 FR 16997 4/27/92	OSHA proposes two 8-hour time-weighted average permissible exposure limits (TWA PEL) of 5 and 1 micrograms of cadmium per cubic meter of air and a 15-minute excursion limit (EL) of five times the TWA PEL for all cadmium compounds, as well as a number of ancillary employee protection provisions dealing with monitoring, recordkeeping, hazard communication, and personal protective equipment.	Final rule delayed; no schedule for action.
*780-041	Generic Standard for Exposure Monitoring 29 CFR 1910	ANPRM 53 FR 37591 9/27/88 Planned NPRM 57 FR 16986 4/27/92	OSHA is evaluating the feasibility and usefulness of adoption of a generic standard on exposure monitoring for employees exposed to toxic substances.	Decision on whether to proceed with NPRM 9/92.
*780-042	Medical Surveillance Program for Employees 29 CFR 1910	ANPRM 53 FR 37595 9/27/88 Planned NPRM 57 FR 16986 4/27/92	OSHA is evaluating the feasibility and usefulness of adoption of a generic standard on medical surveillance programs for employees exposed to toxic substances or hazardous physical agents.	Decision on whether to regulate 10/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RV NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
780-044	Asbestos Short-Term Exposure Limit 29 CFR 1910.26 CFR 1926	NPRM 55 FR 29712 7/20/90 Regulatory Agenda 57 FR 16998 4/27/92	In response to litigation, OSHA proposes to lower the PEL to 0.1 f/cc, set additional communication and notification requirements, require oversight of all construction operations, and more explicitly define the exemptions from the negative-pressure enclosure requirement.	Final rule 12/92.
780-045	Hazardous Waste Training Course Certification 29 CFR 1910	NPRM 55 FR 2776 1/26/90 NOA; reopening of record 57 FR 4858 2/10/92	DOL proposes accreditation procedures for training programs set up under the Hazardous Waste Operations and Emergency Response final rule of 3/9/89 for employees involved in clean-up operations at uncontrolled hazardous waste sites being cleaned up under government mandate and for employees involved in certain hazardous waste treatment, storage, and disposal operations. This rule does not propose to accredit training programs for employees engaged in emergency response activities.	Final rule 12/92.
780-047	Electrical Protective Equipment; Generation, Transmission, Distribution 29 CFR 1910	NPRM 54 FR 4974 1/31/89 Regulatory Agenda 57 FR 16994 4/27/92	OSHA proposes a standard for work practices used in operation and maintenance of electric power generation, transmission, and distribution facilities. Revisions to protective equipment requirements are included.	Final rule 7/93.
780-041	Confined Spaces - Permits and Safety Requirements 29 CFR 1910.146	NPRM 54 FR 24080 3/5/89 Regulatory Agenda 57 FR 16993 4/27/92	OSHA proposes to establish safety requirements, including a permit system, for entry into those confined spaces which OSHA has identified as posing special dangers for entrants due to their configuration or other features.	Final rule 12/92.
780-052	Methods of Compliance 29 CFR 1910	NPRM 54 FR 23991 6/5/89 Regulatory Agenda 57 FR 16992 4/27/92	OSHA proposes to modify the existing provisions for controlling employee exposures to toxic substances found in 29 CFR 1910.1000(e) and 1910.134(a)(1). The agency proposes to incorporate additional flexibility in its requirements by setting forth the circumstances under which respiratory protection may be used in lieu of engineering controls.	Final rule 8/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
780-054	Personal Protective Equipment 29 CFR 1910	NPRM 54 FR 33832 8/16/89 Regulatory Agenda 57 FR 16995 4/27/92	OSHA proposes to revise portions of the general industry safety standards addressing personal protective equipment. The criteria for personal protective equipment for eye, face, head, and foot would be revised to reflect improved developments in these types of equipment.	Final rule 9/92.
780-057	General Industry - Personal Fall Protective Equipment 29 CFR 1910	NPRM 55 FR 13423 4/10/90 Regulatory Agenda 57 FR 16993 4/27/92	OSHA proposes to amend the standards for personal protective equipment for general industry by adding criteria pertaining to personal fall protection systems, including fall arrest systems, work positioning systems, travel restricting systems, and fall protection systems for climbing.	Final rule 12/92.
*780-058	General Industry Standards - Walking and Working Surfaces 29 CFR 1910	NPRM 55 FR 13360 4/10/90 Regulatory Agenda 57 FR 16997 4/27/92	OSHA proposes to revise its general industry standards for workplace walking and working surfaces in order to focus on the hazards that can result in trips, slips, and falls causing serious and fatal injuries. This proposed standard will also eliminate ambiguities and redundancies in the existing Subpart D standards and address areas not covered in the existing standards.	Final rule 12/92.
780-059	Recording and Reporting Occupational Injuries and Illnesses 29 CFR 1904	Planned NPRM 57 FR 16990 4/27/92	OSHA requires covered employers to record all work-related fatalities, illnesses, and certain injuries and to report summary data if selected to participate in the BLS annual survey. BLS and OSHA have tested several data collection vehicles and procedures and are revising the recordkeeping guidelines to improve the usefulness of the survey outputs.	NPRM 7/92.
*780-061	Reporting of Fatality or Multiple Hospitalization Accidents 29 CFR 1904	NPRM 57 FR 21222 5/19/92	OSHA proposes to revise reporting requirements in 29 CFR 1904.8 to expand the scope and time requirements for reporting hospitalizations and fatalities.	Comments by 8/17/92.

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
*300-004	Worker Protection Standards 40 CFR 156 40 CFR 170	ANPRM 49 FR 32605 8/15/84 NPRM 53 FR 25970 7/8/88 Corrections 53 FR 32322 8/24/88 Notice 56 FR 27485 6/14/91 Regulatory Agenda 57 FR 17394 4/27/92	EPA proposes to revise its regulations governing worker protection from agricultural pesticides. These revisions would expand the scope of the standards to include workers in forests, nurseries, and greenhouses, and workers who mix, load, and apply pesticides.	Final rule 10/92.
300-007	Restricted Use Classification for Groundwater Contaminating Pesticides	Notice 55 FR 5861 2/26/90 NPRM 56 FR 22076 5/13/91 NOA 56 FR 56643 11/6/91 Regulatory Agenda 57 FR 17393 4/27/92	EPA proposes two options for adding new criteria for selection of pesticide products as candidates for restricted use classification. The proposed criteria would require consideration of restricted use for pesticide products that may contaminate groundwater. Both options address the measured persistence and mobility of an ingredient of a pesticide and the detection of the ingredient in groundwater in at least three different counties.	Final rule 7/92.
*300-014	Experimental Use Permit Rule for Microbial Pesticides 40 CFR 172	Planned NPRM 57 FR 17390 4/27/92	EPA will propose to amend its experimental use permit regulations for pesticides to clarify the circumstances under which a permit is presumed not to be required and to specify that the presumption is based on risk. EPA will also propose to require notification before initiation of small-scale testing of certain genetically modified microbial pesticides.	NPRM 8/92.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
300-021	Certification of Restricted Use Pesticide Applicator 40 CFR 171	NPRM 55 FR 46890 11/7/90 Notice 56 FR 12007 3/21/91 Regulatory Agenda 57 FR 17393 4/27/92	EPA proposes to revise the rules regarding the certification of applicators of restricted use pesticides to upgrade the provisions of certification programs.	Final rule 12/92.
*300-024	Pesticide Handlers Exposure Data Base	NOA 57 FR 23403 6/3/92	EPA announces the availability of a data base that estimates exposures to mixers, loaders, and applicators of pesticides.	Call 1-800-283-7727 to order copy of the data base.
*300-025	Pesticides and Toxic Substances Offices - Name Change	Notice 57 FR 28087 6/24/92	EPA changes the name of the Office of Pesticides and Toxic Substances and the Office of Toxic Substances to the Office of Prevention, Pesticides and Toxic Substances and the Office of Pollution Prevention and Toxics, respectively.	Effective retroactively to 12/15/91.
FEDERAL MINE SAFETY AND HEALTH ACT				
330-005	Air Quality, Chemical Substances, and Respiratory Protection Standards 30 CFR 56-58 30 CFR 70-72 30 CFR 75 30 CFR 90	NPRM 54 FR 35760 8/29/89 Correction 55 FR 5118 2/13/90 Regulatory Agenda 57 FR 16981 4/27/92	The Mine Safety and Health Administration proposes to revise existing standards for air quality and chemical substances at coal and metal/nonmetal mines. Permissible exposure limits (PELs) for substances that may pose health hazards at these mines and revised requirements for exposure monitoring, carcinogens, and respiratory protection programs are proposed.	Final rule 11/92.
330-006	Hazard Communication CFR undetermined	NPRM 55 FR 46400 11/2/90 Regulatory Agenda 57 FR 16981 4/27/92	MSHA proposes to establish a hazard communication standard that would require mine operators to assess the hazards of chemicals they produce or use and provide information to their employees concerning chemical hazards by means of a written hazard communication program, labeling of containers, MSDS sheets, and training programs.	Final rule 4/93.

(*) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
HISTORIC SITES ACT OF 1935				
*410-004	National Natural Landmarks - Designation of Geological and Ecological Natural Areas 36 CFR 62	ANPRM 55 FR 43384 10/29/90 NPRM 56 FR 58790 11/21/91 Regulatory Agenda 57 FR 16881 4/27/92	The National Park Service proposes to amend its regulations governing the identification, notification, evaluation, nomination, and designation of geological and ecological natural areas as National Natural Landmarks (NNLs) to ensure that landowners are fully notified and provided full program disclosure and an understanding of the consequences of NNL designation before agreeing to it.	Final 12/92.
BIOTECHNOLOGY				
110-005	Microbial Products (Biotechnology) 40 CFR 704 40 CFR 720 40 CFR 721	Planned NPRM 57 FR 17397 4/27/92	EPA will propose to amend its definition of "small quantities solely for research and development" and to amend reporting requirements for persons who are using microorganisms. EPA will establish a special notification mechanism for experimental releases of microorganisms and propose significant new use notification requirements under TSCA Sect. 5(a)(2).	NPRM 7/92. Final rule 7/93.
PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION				
810-009	Power Plan Amendments - Columbia River Basin - Phase IV	Notice 56 FR 23947 5/24/91	The Pacific Northwest Electric Power and Conservation Planning Council invites recommendations to amend the resident fish and wildlife provisions of the Columbia River Basin Fish and Wildlife Program.	Final action by 9/15/92.
810-112	Columbia River Basin - Protected Areas	Proposed amendments 57 FR 8786 3/12/92	In response to petitions, the Pacific Northwest Electric Power and Planning Council proposes amendments to the "protected areas" provisions of the Columbia River Basin Fish and Wildlife Program.	Final amendments by 7/92.
*810-013	Power Plan Amendments - Columbia River Basin - Phase III	Proposed amendments 57 FR 24519 6/9/92	The Pacific Northwest Electric Power and Planning Council proposes amendments to the salmon and steelhead provisions of the Columbia River Fish and Wildlife Program. The amendments address program goals and objectives, system planning, monitoring and evaluation, and habitat and production issues.	Final action undetermined.

(a) NPRM = Notice of Proposed Rulemaking; ANPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. Shaded RU# indicates item of special interest to EH-23.

[illegible]

COASTAL ZONE MANAGEMENT ACT				
*160-002	National Estuarine Reserve Research System 15 CFR 921	NPRM 53 FR 43816 10/28/88 Interim final rule 55 FR 29940 7/23/90 Regulatory Agenda 57 FR 16611 4/27/92	NOAA revises the process for designation of research reserves to place greater emphasis using the reserves to address research and management issues and to provide financial assistance to states to enhance public awareness and education about estuarine areas. The regulations provide new guidance for delineating reserve boundaries, new procedures for the acquisition of land, and criteria for withdrawing the designation of a reserve.	Interim final rule effective 7/23/90. <u>Reproposed NPRM 9/92.</u>
*160-003	Implementation of 1990 Reauthorization of Coastal Zone Management Act 15 CFR 928 15 CFR 932	NOA 56 FR 27618 6/14/91 Correction 56 FR 28959 6/25/91 NOA 57 FR 26845 6/16/92	EPA issues proposed guidance specifying management measures for the control of non-point sources causing coastal water pollution. EPA announces the availability of additional reports and information on their proposed management measures guidance.	<u>Final guidance 11/92.</u>
		NOA 56 FR 51882 10/16/91	EPA and NOAA issue proposed guidance specifying procedures and criteria that will guide the Agencies' approval of state programs, to assist states in developing and obtaining approval for their coastal non-point pollution control programs.	<u>Final guidance 12/92.</u>
		NPRM - Phase I 56 FR 52220 10/18/91 Regulatory Agenda 57 FR 16619 4/27/92	To implement the Coastal Zone Reauthorization Amendments of 1990, NOAA proposes phase I of a regulatory initiative to implement the Coastal Zone Enhancement Grants Program, revised procedures for conducting reviews of performance under Sect. 312, and new authority for interim sanctions under Sect. 312. Phase II will include program approval requirements for coastal nonpoint pollution control programs.	<u>Final rule 7/92.</u>
OTHER				
*805-023	Assessing Female Reproductive Risk	Proposed guidelines 53 FR 24834 6/30/88	EPA proposes guidelines for assessing the female reproductive risk of environmental pollutants. The guidelines are intended to guide Agency analysis of data on female reproductive toxicants according to appropriate scientific standards.	<u>Final guidelines 12/92.</u>

(e) NPRM = Notice of Proposed Rulemaking; NPRM = Advance Notice of Proposed Rulemaking; NOI = Notice of Intent; NOA = Notice of Availability. * Indicates a change in date of scheduled action or a new rulemaking development during the past month. REGULATORY UPDATE TABLE - MAY/JUNE 1992

RU NO.	REQUIREMENT	STATUS (a)	ANTICIPATED CHANGES	SCHEDULED ACTION
805-049	Federal Manual for Identifying and Delineating Jurisdictional Wetlands	NPRM 56 FR 40446 8/14/91	EPA, in cooperation with the Departments of Defense, Agriculture, and Interior, proposes revisions to the "Federal Manual for Identifying and Delineating Jurisdictional Wetlands."	Final rule 10/92.
	Wetlands	NPRM 56 FR 65964 12/19/91	EPA, COE and the Soil Conservation Service propose to incorporate portions of the Federal Manual for Delineating Jurisdictional Wetlands into the regulations governing the agencies' wetland protection programs. The provisions proposed reflect revisions to the manual proposed on 8/14/91, and the final rule will be consistent with the final manual. In addition, field data and other technical references are made available for review and comment.	Final rule 12/92.

IRIS DATABASE UPDATE

A DOE EH-231 Memorandum entitled *Integrated Risk Information System (IRIS) and Availability of Chemical Risk Assessment Guidance* was distributed in June 1991 to DOE Program Offices and Field Organizations. Attachment 1 to the memorandum, an ORNL-ESD report discussing access to and utilization of the *IRIS* online database, included "Table 1. *IRIS* Chemicals With Reference Doses and Carcinogen Assessments." The *IRIS* database has been updated extensively since that table was generated. The following table is the monthly updated version of Table 1 including all the chemicals listed in Table 1 along with additions/changes to the database as of June 30, 1992. Additions/changes are shaded for ease of identification. Future issues of the *Environmental Regulatory Update Table* will include updates to the *IRIS* database during the previous month. *Use only the most current version of the table.*

**IRIS CHEMICALS WITH REFERENCE DOSES AND/OR
CARCINOGEN ASSESSMENTS**

(Values current through June 30, 1992. Use only the most current version of this table.)

EPA CARCINOGENICITY GROUPS

A = HUMAN CARCINOGEN

B1 = PROBABLE HUMAN CARCINOGEN

Limited evidence in human studies

B2 = PROBABLE HUMAN CARCINOGEN

Sufficient evidence from animal studies, inadequate evidence or no data from human studies

C = POSSIBLE HUMAN CARCINOGEN

D = NOT CLASSIFIABLE AS TO HUMAN CARCINOGENICITY
