DISTRIBUTION OF THIS DOCUMENT IS UNLIMITED

**HIGH-LEVEL WASTE BOROSILICATE GLASS:
A COMPENDIUM OF CORROSION CHARACTERISTICS,
VOLUME III**

Compiled and Edited by: J. C. Cunnane

**J. K. Bates, C. R. Bradley, E. C. Buck, J. C. Cunnane,
W. L. Ebert, X. Feng, J. J. Mazer, and D. J. Wronkiewicz**

Argonne National Laboratory

J. Sproull

Westinghouse Savannah River Company

W. L. Bourcier

Lawrence Livermore National Laboratory

B. P. McGrail and M. K. Altenhofen

Battelle Pacific Northwest Laboratory

March 1994

ACKNOWLEDGMENTS

Many individuals have contributed to the preparation and review of this document. The authors would like to particularly acknowledge the contributions of the Technical Review Group (TRG), Peer Reviewers who provided technical direction during the preparation of the early drafts, and the document typists (particularly Roberta Riel) who persisted through interminable change cycles. A listing of these individuals appears below:

Technical Review Group

David E. Clark (Chairman) - University of Florida (USA)
Robert H. Doremus - Rensselaer Polytechnic Institute (USA)
Bernd E. Grambow - Kernforschungszentrum Karlsruhe (Germany)
J. Angwin C. Marples - Atomic Energy Authority (UK)
John M. Matuszek - JMM Consulting (USA)

Steering Group

Rodney C. Ewing - University of New Mexico
Aaron Barkatt - The Catholic University of America
Denis Strachan - Pacific Northwest Laboratory

Typists

Roberta Riel
Norma Barrett
Patricia Halerz
