United States Government

Department of Energy

memorandum

DATE: JUL 12 1993

REPLY TO
ATTN OF: Office of Environmental Guidance:Whitehead:6-6073

SUBJECT: DOE Environment, Environmental Restoration & Waste Management Field Organization Directory

TO: Distribution

The purpose of this memorandum is to provide Program and Operations Offices with a copy of a document entitled: "*DOE Environment, Environmental Restoration and Waste Management Field Organization Directory*." This directory was developed by the Office of Environmental Guidance, RCRA/CERCLA Division (EH-231) from an outgrowth of the Departments efforts to identify and establish the regulatory response lead persons in the Field Organizations.¹ The directory was developed for internal EH-231 use to identify both the DOE and DOE contractor Field Organizations in the Environment, Environmental Restoration and Waste Management areas.

The Field Organization directory is divided into three substantive sections: (1) Environment; (2) Environmental Restoration; and (3) Waste Management which are organized to correspond to the management hierarchy at each Field Organization. The information provided includes the facility name and address, individual managers name, and telephone/fax numbers.

A draft of the directory was sent to DOE elements for review and correction via a December 7, 1992, memorandum. We greatly appreciated the assistance provided by the field in compiling the directory. As a result of the interest expressed in the directory we are providing copies to Program Offices and Field Organizations. If such interest continues, EH-231 will update the directory biannually.

Corrections or modifications to the directory may be provided to Beverly Whitehead of my staff at (202) 586-6073. For additional copies contact the Office of Scientific and Technical Information (OSTI) at (615) 576-8401.

Thomas T. Traceski
Director, RCRA/CERCLA Division
Office of Environmental Guidance

Attachment

¹EH-231 memorandum, dated February 6, 1992, subject: "Identification of RCRA/CERCLA/TSCA Regulatory Response Leads."
