Total Program Personnel Listing 49

SECTION V

Keyword Index 65

INTRODUCTION

This directory is designed to aid effective communication throughout the National Science Foundation's Trace Contaminants Program, Research Applied to National Needs. The majority of the participants in the Program are represented--by name, address, telephone number, and a very brief description of research interest. Each research project is described more completely in Reports of Awards, Division of Environmental Systems and Resources, Research Applied to National Needs, National Science Foundation; and the publications of research results are abstracted in the bimonthly NSF-RANN Trace Contaminants Abstracts.

The directory has five major divisions to facilitate its use. Section I contains a listing of the program managers associated with the NSF-RANN Trace Contaminants Program. Section II lists the principal investigators, co-principal investigators, and coordinators of each of the research grants in the Program. Section III lists the personnel by individual projects. Section IV contains a total alphabetic listing complete with project titles and Section V contains a keyword index.

This directory is maintained by the Toxic Materials Information Center as part of the Environmental Resource Center of the Information Center Complex, Information Division, Oak Ridge National Laboratory. This computerized directory of information centers, research projects, and individual investigators has been established by the Information Center Complex to serve research administrators, scientists, group leaders, and information specialists who need to contact active workers in the environmental field. Additions and corrections to this particular directory should be sent to the Toxic Materials Information Center, Oak Ridge National Laboratory, Building 2028, P. O. Box X, Oak Ridge, Tennessee 37830.

This document was produced with the assistance of the staff of the NSF-RANN Trace Contaminants Office and the Computer Applications Section of the Computer Sciences Division of Union Carbide Corporation.

SECTION I

PROGRAM MANAGERS

RICHARD CARRIGAN
DIVISION OF ADVANCED ENVIRONMENTAL
RESEARCH AND TECHNOLOGY
NATIONAL SCIENCE FOUNDATION; 1800 G STREET, NW
WASHINGTON, DC 20550
PHONE NO: 202-632-5888
PROGRAM MANAGER, ENVIRONMENTAL ASPECTS OF TRACE
CONTAMINANTS DIVISION OF ENVIRONMENTAL SYSTEMS
AND RESOURCES, RESEARCH APPLIED TO NATIONAL NEEDS

GLENN S. GORICH
DIVISION OF ADVANCED ENVIRONMENTAL
RESEARCH AND TECHNOLOGY
NATIONAL SCIENCE FOUNDATION; 1800 G ST., NW
WASHINGTON, DC 20550
