Dear BRAC Commission,

I am writing you because I think that Cannon A.F.B. should stay open. Here are some reasons to not close Cannon A.F.B. down. First of all we have super sonic airspace. The second reason is that our educational system will help train the military and their families. The third reason is that the Melrose Bombing Range is close to Cannon. The fourth reason is that there is really good medical support. The fifth reason is that Clovis has wide open spaces to train our military pilots. Thank you for the time to review this matter.

Sincerely yours,
Kristin Bradley
