

JUNE 6, 2005

DCN: 2060

ADM. HAROLD W. GEHMAN, JR  
BRAC COMMISSIONER

Please remove Cannon AFB, NM from the BRAC closure list. It is a clean well built base with all the operation maintenance, training, recreational and thousands of domestic living facilities to house Air Force military personnel.

Let me tell you about myself. I lived 25 years of my life in heavily populated Brooklyn, NY. The Air Force drafted me on 2-21-42. They trained me at several bases, Keesler, Ms. Ft Logan, Co., and Geiger Field in Washington State. Finally myself and 150 men came to Cannon (previously called Clovis Army Air Field). I served nearly 4 years as a Private, Corporal, Staff Sergeant and finally made Warrant Officer. At first no bldgs were on the base. We 150 men lived in private homes in the city of Clovis for six months waiting on our barracks and Officer Quarters to be built. For four years we trained Air Crews in B-24's, B-17's, and last B-29's. These WWII crews played a major part in Europe and in Japan that finally brought an end

2.

Later on in the 1950's we trained crews for Vietnam and for the North Korean wars. Cannon has a great history in the support of U S A. Three fourths of all WWII facilities were finally replaced by permanent type structures from 1950 to 1980 and even in very recent years. Congress invested billions of dollars in building a Premier Air Base.

The Clovis Community had great relations with the military personnel. They also provided the base with land expansion and air space needed by providing a large bomber and gunnery range some 40 miles from the base.

Of course the base provided a major economical support for employment and for business expansion for some 30,000 plus population and for many needed support of the military personnel. Our town, Clovis is good place to provide for families and children and great education schools and also a community college. It helped me to

3.

of their own.

I could share many more reasons in support of retaining Cannon AFB. I hope when you personally arrive in Clovis that you will be impressed by our base and by our community.

Please do your best to look at our base fairly and carefully. If you are a christian ask God to help you by praying for His help in making the right decision.

God bless you, God bless Cannon, God bless Clovis and God bless America.

For your information I am sending a copy of this letter to each one on the BRAC commission. Please help us retain Cannon AFB.
