

To whom it may concern:

Myself and countless other sacred families
while working at Eielson.

I've always known it was a very
strategic location. The Chinese as well
as the Russian must be closely monitored,
in the same we have in past. Why should
we suddenly change. I've read the
paper and was at their big meeting at
Carlson Center in EBSK so will not
reiterate points you already know.

Sincerely
Walt
