Elsewhere in the United States, the Department of the Interior is responsible for probating estates, partitioning lands, and effecting other transactions involving allotted lands. This bill would do the same for the restricted allotments of the five tribes.

I want to thank the sponsor, the gentleman from Oklahoma (Mr. WATKINS), for working with the Committee on Resources to assure that this bill does not adversely affect any other tribes in Oklahoma. I know that that was not his intent, and I feel that this bill is now clear on that matter.

I urge my colleagues to support this legislation.

Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I am happy to yield such time as he may consume to the gentleman from Oklahoma (Mr. WATKINS), who so ably represents my forefathers in Oklahoma.

Mr. WATKINS. Madam Speaker, would first like to thank the gentleman from California (Mr. CALVERT) and the gentleman from New Mexico (Mr. UDALL) for their kindness and effort to bring this legislation up to date. I also want to thank the gentleman from Michigan (Mr. KILDEE), who is cochair of the Congressional Native American Caucus, for his bipartisan support and help with this important legislation.

I also would like to thank my colleague, the gentleman from Oklahoma (Mr. COBURN), for his help in ensuring the legislation benefits everyone involved.

Today, I offer a bill that would bring fairness and equity, as the gentleman from New Mexico (Mr. UDALL) said, to an injustice that has occurred and that will have a significant impact in helping the members of the Choctaw, Chicasaw, Cherokee, Creek, and Seminole Nations, historically referred to as the Five Civilized Tribes, who still own individual Indian restricted land in eastern Oklahoma.

Unlike all other federally recognized Indian tribes, whose jurisdiction over their trust lands is with the Secretary of the Interior, jurisdiction of probating, partitioning, and transferring interest in restricted land of the Five Civilized Tribes was placed in Oklahoma district courts by the Stigler Act of 1947, or the 1947 Act, as it is known.

The 1947 Act provides the eastern courts in eastern Oklahoma, acting as Federal instrumentalities, with jurisdiction over nearly all significant transactions involving individual Indian lands that are subject to Federal restrictions against alienation, or restricted property.

Another act that had an impact on the Five Civilized Tribes restricted land was the Act of June 1918. The 1918 act subjects restricted property to the State statutes of limitation. And this has had a very negative impact on losing a lot of the land over the years.

H.R. 5308 will provide for probate proceedings and management and disposition of Indian land to proceed through one central point, the Department of the Interior, rather than through multiple State courts, which is the current practice. This would treat the restricted lands of the Five Civilized Tribes like federally protected allotments of land of all other federally recognized tribes.

Madam Speaker, another issue that H.R. 5308 addresses will be to assure that the benefits and net revenues from the sale of water shall go to the tribes and residents of the respective water basin area within the boundaries of the Choctaw and Chickasaw Nations.

Madam Speaker, I urge that my colleagues support the legislation.

Mr. KILDÉÉ. Madam Speaker, I rise today in strong support of H.R. 5308, the Five Nations Citizens Land Reform Act of 2000. This legislation is by far the most significant Indian land bill affecting the restricted allotments of members of the Cherokee, Creek, Seminole,

Choctaw and Chickasaw nations in eastern Oklahoma. I want to thank my colleague, Representative WES WATKINS of Oklahoma, for sponsoring this legislation. I am proud to be a cosponsor of this bill.

The legislation would bring equity and fairness to the Indian people who own allotted lands of the five great Indian nations in Eastern Oklahoma. For much of the 20th century, these people have been the object of special laws applicable only to their lands that are unlike any other Federal laws of Indian land tenure—laws that have afforded these lands much less protection than is afforded to trust allotments elsewhere in the United States.

Under current Federal law, the allotted lands of the five civilized tribes are made subject to the State law of adverse possession, which has contributed to the unfair loss of land owned by many individual Indians in eastern Oklahoma. Allotments in other parts of Oklahoma and the rest of the country cannot be taken by adverse possession. This legislation would bring an end to the loss of these Indian lands by adverse possession.

Current Federal law also gives the State courts of Oklahoma jurisdiction over probating, partitioning and transferring restricted lands and the leasing of restricted mineral interests owned or inherited by members of the Five Tribes, often placing a great financial burden on Indian families who must hire private attornevs to probate estates or transfer interests in restricted land. For this reason, many estates in eastern Oklahoma that include restricted land are not being probated and land ownership has become increasingly fractionated. Elsewhere in the United States, the Department of Interior is responsible for probating estates, partitioning lands and effecting other transactions involving allotted lands. This bill would do the same for the restricted allotments of the five tribes, and in general it would give these allotments the same protection and treatment given allotted Indian lands in the rest of the United States.

I urge my colleagues to support this legislation.

Mr. CALVERT. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. BIGGERT). The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 5308, as amended.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

AUTHORIZING FUNDS FOR ILLI-NOIS/MICHIGAN CANAL COMMIS-SION

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 3926) to amend the Illinois and Michigan Canal National Heritage Corridor Act of 1984 to increase the amount authorized to be appropriated to the Illinois and Michigan Canal National Heritage Corridor Commission.

The Clerk read as follows:

H.R. 3926

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. INCREASE IN AMOUNT AUTHORIZED TO BE APPROPRIATED TO THE ILLINOIS AND MICHIGAN CANAL NATIONAL HERITAGE CORRIDOR COMMISSION.

Section 116(a)(1)(A) of the Illinois and Michigan Canal National Heritage Corridor Act of 1984 (98 Stat. 1467) is amended by striking "\$250,000" and inserting "\$1,000,000".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 3926, introduced by the gentleman from Illinois (Mr. Weller), amends the Illinois and Michigan National Heritage Corridor Act of 1984 to increase the amount authorized to be appropriated to the Illinois and Michigan Canal National Heritage Corridor Commission from \$250,000 to \$1 million.

The Illinois and Michigan Canal Heritage Corridor was established in 1984 to protect the resources associated with the canal. The canal was built in the mid-1800s and rapidly transformed Chicago into a critical Mid-Western transportation and business center. The Heritage Corridor currently contains many significant historical and cultural resources along with a muchused recreational trail.

The commission has been instrumental in making the Heritage Corridor a success. This bill would authorize appropriations to match the levels currently enjoyed by other Heritage Corridors and areas. This is a small but important bill.

Turge my colleagues to support H.R. 3926

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 3926 would increase the amount authorized to be appropriated annually to the Illinois and Michigan Canal National Heritage Corridor Commission from \$250,000 to \$1 million.

H.R. 3926 is being brought to the floor under unusual circumstances by way of a discharge from the Committee on Resources. We have had no hearings or markup of the legislation in the committee despite the fact that this bill has been pending before the committee since March. We have not heard testimony from the commission, nor do we know the views of the administration on this legislation.

While H.R. 3926 may well be a noncontroversial measure, we know very little about it. Members may have questions on the legislation, but the procedure being used today leaves very little opportunity to review the matter.

Mr. Speaker, I yield back the balance of my time.

Mr. CALVERT. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Illinois (Mrs. BIGGERT).

Mrs. BIGGERT. Mr. Speaker, I rise today in support of H.R. 3926 and as a proud cosponsor of this legislation to increase the authorization of the Illinois and Michigan Canal National Heritage Corridor Commission.

I want to commend my colleague, the gentleman from Illinois (Mr. WELLER), for introducing this legislation, which affects my district as well as many others.

Congress first recognized the national significance of the I&M Canal in 1984 when it passed legislation that created the country's first National Heritage Corridor. Since that time, the I&M Canal National Heritage Corridor Commission has worked energetically with local individuals, organizations and communities to preserve, enhance, and celebrate this monument to American engineering and ingenuity.

When the Canal first opened in 1848, it created a vital commercial link between the Great Lakes and the Illinois and Mississippi Rivers. Soon after its opening, the Chicago River became lined with grain elevators, warehouses and industry. A trip that took 3 weeks before the canal was built took only 1 day on a boat towed by mules after the canal opened.

The I&M Canal made Chicago the Nation's largest inland port and fueled an unprecedented wave of settlement and growth in all of northeastern Illinois. Even more importantly, the canal was the final link in a new national trade route between the Eastern Seaboard and the Gulf of Mexico.

But the canal is more than a physical link between communities. It is now a link to our area's historically and culturally rich past. Individuals and communities along the canal recognize the historical importance of the canal and celebrate its contribution to local identity and progress with festivals, fairs, and other community events.

Last year, in fact, I submitted one of these festivals for the Library of Congress' "Local Legacies" project, which celebrated the Library's bicentennial by documenting America's grass-roots heritage.

Started in 1972, Old Canal Days is a community-wide festival that celebrates the heritage of the Illinois and Michigan Canal and the city of Lockport. It is a living history festival that includes reenactment of 19th century life along the canal.

As a result of festivals like Old Canal Days and the work of the Canal Com-

mission, this corridor has become a living history museum of American enterprise, technological invention, ethnic diversity, and cultural creativity linked by parks and trails. Local teachers use the canal as a unique teaching tool for lessons on history, geography, and science.

The additional funding provided by this bill will allow the Canal Commission, the Canal Corridor Association, and Canal communities like Lemont and Lockport in my district to build on this success.

I urge my colleagues to support this bill. We must preserve the canal. These additional funds are essential to shore up aging infrastructure, enhance historic programs, and increase the canal's recreational value.

I urge support of this legislation.

Mr. CALVERT. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. WATKINS). The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 3926.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

### TIMBISHA SHOSHONE HOMELAND ACT

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the Senate bill (S. 2102) to provide to the Timbisha Shoshone Tribe a permanent land base within its aboriginal homeland, and for other purposes.

The Clerk read as follows:

S. 2102

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Timbisha Shoshone Homeland Act".

### SEC. 2. FINDINGS.

Congress finds the following:

- (1) Since time immemorial, the Timbisha Shoshone Tribe has lived in portions of California and Nevada. The Tribe's ancestral homeland includes the area that now comprises Death Valley National Park and other areas of California and Nevada now administered by the Bureau of Land Management.
- (2) Since 1936, the Tribe has lived and governed the affairs of the Tribe on approximately 40 acres of land near Furnace Creek in the Park.
- (3) The Tribe achieved Federal recognition in 1983 but does not have a land base within the Tribe's ancestral homeland.
- (4) Since the Tribe commenced use and occupancy of the Furnace Creek area, the Tribe's membership has grown. Tribal members have a desire and need for housing, government and administrative facilities, cultural facilities, and sustainable economic development to provide decent, safe, and healthy conditions for themselves and their families.

- (5) The interests of both the Tribe and the National Park Service would be enhanced by recognizing their coexistence on the same land and by establishing partnerships for compatible land uses and for the interpretation of the Tribe's history and culture for visitors to the Park.
- (6) The interests of both the Tribe and the United States would be enhanced by the establishment of a land base for the Tribe and by further delineation of the rights and obligations of each with respect to the Furnace Creek area and to the Park as a whole.

### SEC. 3. PURPOSES.

Consistent with the recommendations of the report required by section 705(b) of the California Desert Protection Act of 1994 (Public Law 103-433; 108 Stat. 4498), the purposes of this Act are—

- (1) to provide in trust to the Tribe land on which the Tribe can live permanently and govern the Tribe's affairs in a modern community within the ancestral homeland of the Tribe outside and within the Park:
- (2) to formally recognize the contributions by the Tribe to the history, culture, and ecology of the Park and surrounding area:
- (3) to ensure that the resources within the Park are protected and enhanced by—
- (A) cooperative activities within the Tribe's ancestral homeland; and
- (B) partnerships between the Tribe and the National Park Service and partnerships involving the Bureau of Land Management:
- (4) to ensure that such activities are not in derogation of the purposes and values for which the Park was established:
- (5) to provide opportunities for a richer visitor experience at the Park through direct interactions between visitors and the Tribe including guided tours, interpretation, and the establishment of a tribal museum and cultural center;
- (6) to provide appropriate opportunities for economically viable and ecologically sustainable visitor-related development, by the Tribe within the Park, that is not in derogation of the purposes and values for which the Park was established; and
- (7) to provide trust lands for the Tribe in 4 separate parcels of land that is now managed by the Bureau of Land Management and authorize the purchase of 2 parcels now held in private ownership to be taken into trust for the Tribe

### SEC. 4. DEFINITIONS.

In this Act:

- (1) PARK.—The term "Park" means Death Valley National Park, including any additions to that Park.
- (2) SECRETARY.—The term "Secretary" means the Secretary of the Interior or the designee of the Secretary.
- (3) TRIBAL.—The term "tribal" means of or pertaining to the Tribe.
- (4) TRIBE.—The term "Tribe" means the Timbisha Shoshone Tribe, a tribe of American Indians recognized by the United States pursuant to part 83 of title 25, Code of Federal Regulations (or any corresponding similar regulation or ruling).
- (5) TRUST LANDS.—The term "trust lands" means those lands taken into trust pursuant to this Act.

### SEC. 5. TRIBAL RIGHTS AND AUTHORITY ON THE TIMBISHA SHOSHONE HOMELAND.

(a) IN GENERAL.—Subject to valid existing rights (existing on the date of enactment of this Act), all right, title, and interest of the United States in and to the lands, including improvements and appurtenances, described in subsection (b) are declared to be held in trust by the United States for the benefit of the Tribe. All maps referred to in subsection

- (b) shall be on file and available for public inspection in the appropriate offices of the National Park Service and the Bureau of Land Management.
- (b) PARK LANDS AND BUREAU OF LAND MANAGEMENT LANDS DESCRIBED.—
- (1) IN GENERAL.—The following lands and water shall be held in trust for the Tribe pursuant to subsection (a):
- (A) Furnace Creek, Death Valley National Park, California, an area of 313.99 acres for community development, residential development, historic restoration, and visitor-related economic development, depicted as Tract 37 on the map of Township 27 North, Range 1 East, of the San Bernardino Meridian, California, numbered Map #1 and dated December 2, 1999, together with 92 acre feet per annum of surface and ground water for the purposes associated with the transfer of such lands. This area shall include a 25-acre, nondevelopment zone at the north end of the area and an Adobe Restoration zone containing several historic adobe homes, which shall be managed by the Tribe as a tribal historic district.
- (B) Death Valley Junction, California, an area of approximately 1,000 acres, as generally depicted on the map entitled "Death Valley Junction, California", numbered Map #2 and dated April 12, 2000, together with 15.1 acre feet per annum of ground water for the purposes associated with the transfer of such lands.
- (C)(i) Centennial, California, an area of approximately 640 acres, as generally depicted on the map entitled "Centennial, California", numbered Map #3 and dated April 12, 2000, together with an amount of ground water not to exceed 10 acre feet per annum for the purposes associated with the transfer of such lands.
- (ii) If the Secretary determines that there is insufficient ground water available on the lands described in clause (i) to satisfy the Tribe's right to ground water to fulfill the purposes associated with the transfer of such lands, then the Tribe and the Secretary shall, within 2 years of such determination, identify approximately 640 acres of land that are administered by the Bureau of Land Management in that portion of Inyo County, California, to the north and east of the China Lake Naval Weapons Center, to be a mutually agreed upon substitute for the lands described in clause (i). If the Secretary determines that sufficient water is available to fulfill the purposes associated with the transfer of the lands described in the preceding sentence, then the Tribe shall request that the Secretary accept such lands into trust for the benefit of the Timbisha Shoshone Tribe, and the Secretary shall accept such lands, together with an amount of water not to exceed 10 acre feet per annum, into trust for the Tribe as a substitute for the lands described in clause (i).
- (D) Scotty's Junction, Nevada, an area of approximately 2,800 acres, as generally depicted on the map entitled "Scotty's Junction, Nevada", numbered Map #4 and dated April 12, 2000, together with 375.5 acre feet per annum of ground water for the purposes associated with the transfer of such lands.
- (E) Lida, Nevada, Community Parcel, an area of approximately 3,000 acres, as generally depicted on the map entitled "Lida, Nevada, Community Parcel", numbered Map #5 and dated April 12, 2000, together with 14.7 acre feet per annum of ground water for the purposes associated with the transfer of such lands
- (2) WATER RIGHTS.—The priority date of the Federal water rights described in subpara-

- graphs (A) through (E) of paragraph (1) shall be the date of enactment of this Act, and such Federal water rights shall be junior to Federal and State water rights existing on such date of enactment. Such Federal water rights shall not be subject to relinquishment, forfeiture or abandonment.
- (3) LIMITATIONS ON FURNACE CREEK AREA DE-VELOPMENT.—
- (A) DEVELOPMENT.—Recognizing the mutual interests and responsibilities of the Tribe and the National Park Service in and for the conservation and protection of the resources in the area described in paragraph (1), development in the area shall be limited to—
- (i) for purposes of community and residential development—
- (I) a maximum of 50 single-family residences; and
- (II) a tribal community center with space for tribal offices, recreation facilities, a multipurpose room and kitchen, and senior and youth facilities;
- (ii) for purposes of economic development—
- (I) a small-to-moderate desert inn; and
- (II) a tribal museum and cultural center with a gift shop; and
- (iii) the infrastructure necessary to support the level of development described in clauses (i) and (ii).
- (B) EXCEPTION.—Notwithstanding the provisions of subparagraph (A)(ii), the National Park Service and the Tribe are authorized to negotiate mutually agreed upon, visitor-related economic development in lieu of the development set forth in that subparagraph if such alternative development will have no greater environmental impact than the development set forth in that subparagraph.
- (C) RIGHT-OF-WAY.—The Tribe shall have a right-of-way for ingress and egress on Highway 190 in California.
- (4) LIMITATIONS ON IMPACT ON MINING CLAIMS.-Nothing in this Act shall be construed as terminating any valid mining claim existing on the date of enactment of this Act on the land described in paragraph (1)(E). Any person with such an existing mining claim shall have all the rights incident to mining claims, including the rights of ingress and egress on the land described in paragraph (1)(E). Any person with such an existing mining claim shall have the right to occupy and use so much of the surface of the land as is required for all purposes reasonably necessary to mine and remove the minerals from the land, including the removal of timber for mining purposes. Such a mining claim shall terminate when the claim is determined to be invalid or is abandoned.
- (c) Legal Descriptions.—Not later than 1 year after the date of enactment of this Act. the Secretary shall file a legal description of the areas described in subsection (b) with the Committee on Resources of the House of Representatives and with the Committee on Indian Affairs and the Committee on Energy and Natural Resources of the Senate. Such legal description shall have the same force and effect as if the information contained in the description were included in that subsection except that the Secretary may correct clerical and typographical errors in such legal description and in the maps referred to in the legal description. The legal description shall be on file and available for public inspection in the offices of the National Park Service and the Bureau of Land Management.
- (d) ADDITIONAL TRUST RESOURCES.—The Secretary may purchase from willing sellers the following parcels and appurtenant water

- rights, or the water rights separately, to be taken into trust for the Tribe:
- (1) Indian Rancheria Site, California, an area of approximately 120 acres, as generally depicted on the map entitled "Indian Rancheria Site, California" numbered Map #6 and dated December 3, 1999.
- (2) Lida Ranch, Nevada, an area of approximately 2,340 acres, as generally depicted on the map entitled "Lida Ranch" numbered Map #7 and dated April 6, 2000, or another parcel mutually agreed upon by the Secretary and the Tribe.
  - (e) SPECIAL USE AREAS.—
- (1) IN GENERAL.—The areas described in this subsection shall be nonexclusive special use areas for the Tribe, subject to other Federal law. Members of the Tribe are authorized to use these areas for low impact, ecologically sustainable, traditional practices pursuant to a jointly established management plan mutually agreed upon by the Tribe, and by the National Park Service or the Bureau of Land Management, as appropriate. All maps referred to in paragraph (4) shall be on file and available for public inspection in the offices of the National Park Service and Bureau of Land Management.
- (2) RECOGNITION OF THE HISTORY AND CULTURE OF THE TRIBE.—In the special use areas, in recognition of the significant contributions the Tribe has made to the history, ecology, and culture of the Park and to ensure that the visitor experience in the Park will be enhanced by the increased and continued presence of the Tribe, the Secretary shall permit the Tribe's continued use of Park resources for traditional tribal purposes, practices, and activities.
- (3) RESOURCE USE BY THE TRIBE.—In the special use areas, any use of Park resources by the Tribe for traditional purposes, practices, and activities shall not include the taking of wildlife and shall not be in derogation of purposes and values for which the Park was established
- (4) SPECIFIC AREAS.—The following areas are designated special use areas pursuant to paragraph (1):
- (A) Mesquite use area.—The area generally depicted on the map entitled "Mesquite Use Area" numbered Map #8 and dated April 12, 2000. The Tribe may use this area for processing mesquite using traditional plant management techniques such as thinning, pruning, harvesting, removing excess sand, and removing exotic species. The National Park Service may limit and condition, but not prohibit entirely, public use of this area or parts of this area, in consultation with the Tribe. This area shall be managed in accordance with the jointly established management plan referred to in paragraph (1).
- (B) BUFFER AREA.—An area of approximately 1,500 acres, as generally depicted on the map entitled "Buffer Area" numbered Map #8 and dated April 12, 2000. The National Park Service shall restrict visitor use of this area to protect the privacy of the Tribe and to provide an opportunity for the Tribe to conduct community affairs without undue disruption from the public
- (C) TIMBISHA SHOSHONE NATURAL AND CULTURAL PRESERVATION AREA.—An area that primarily consists of Park lands and also a small portion of Bureau of Land Management land in California, as generally depicted on the map entitled "Timbisha Shoshone Natural and Cultural Preservation Area" numbered Map #9 and dated April 12, 2000.

- (5) ADDITIONAL PROVISIONS.—With respect to the Timbisha Shoshone Natural and Cultural Preservation Area designated in paragraph (4)(C)—
- (A) the Tribe may establish and maintain a tribal resource management field office, garage, and storage area, all within the area of the existing ranger station at Wildrose (existing as of the date of enactment of this Act);
- (B) the Tribe also may use traditional camps for tribal members at Wildrose and Hunter Mountain in accordance with the jointly established management plan referred to in paragraph (1);
- (C) the area shall be depicted on maps of the Park and Bureau of Land Management that are provided for general visitor use;
- (D) the National Park Service and the Bureau of Land Management shall accommodate access by the Tribe to and use by the Tribe of—
- (i) the area (including portions described in subparagraph (E)) for traditional cultural and religious activities, in a manner consistent with the purpose and intent of Public Law 95–341 (commonly known as the "American Indian Religious Freedom Act") (42 U.S.C. 1996 et seq.); and
- (ii) areas designated as wilderness (including portions described in subparagraph (E)), in a manner consistent with the purpose and intent of the Wilderness Act (16 U.S.C. 1131 et seg.); and
- (E)(i) on the request of the Tribe, the National Park Service and the Bureau of Land Management shall temporarily close to the general public, 1 or more specific portions of the area in order to protect the privacy of tribal members engaging in traditional cultural and religious activities in those portions; and
- (ii) any such closure shall be made in a manner that affects the smallest practicable area for the minimum period necessary for the purposes described in clause (i).
- (f) ACCESS AND USE.—Members of the Tribe shall have the right to enter and use the Park without payment of any fee for admission into the Park.
- (g) ADMINISTRATION.—The trust lands shall constitute the Timbisha Shoshone Reservation and shall be administered pursuant to the laws and regulations applicable to other Indian trust lands, except as otherwise provided in this Act.

### SEC. 6. IMPLEMENTATION PROCESS.

- (a) GOVERNMENT-TO-GOVERNMENT AGREE-MENTS.—In order to fulfill the purposes of this Act and to establish cooperative partnerships for purposes of this Act, the National Park Service, the Bureau of Land Management, and the Tribe shall enter into government-to-government consultations and shall develop protocols to review planned development in the Park. The National Park Service and the Bureau of Land Management are authorized to enter into cooperative agreements with the Tribe for the purpose of providing training on the interpretation, management, protection, and preservation of the natural and cultural resources of the areas designated for special uses by the Tribe in section 5(e)(4).
- (b) STANDARDS.—The National Park Service and the Tribe shall develop mutually agreed upon standards for size, impact, and design for use in planning, resource protection, and development of the Furnace Creek area and for the facilities at Wildrose. The standards shall be based on standards for recognized best practices for environmental sustainability and shall not be less restrictive than the environmental standards ap-

plied within the National Park System at any given time. Development in the area shall be conducted in a manner consistent with the standards, which shall be reviewed periodically and revised as necessary.

(c) WATER MONITORING.—The Secretary and the Tribe shall develop mutually agreed upon standards for a water monitoring system to assess the effects of water use at Scotty's Junction and at Death Valley Junction on the tribal trust lands described in subparagraphs (A), (B), and (D) of section 5(b)(1), and on the Park. Water monitoring shall be conducted in a manner that is consistent with such standards, which shall be reviewed periodically and revised as necessary.

### SEC. 7. MISCELLANEOUS PROVISIONS.

(a) TRIBAL EMPLOYMENT.—In employing individuals to perform any construction, maintenance, interpretation, or other service in the Park, the Secretary shall, insofar as practicable, give first preference to qualified members of the Tribe.

(b) GAMING.—Gaming as defined and regulated by the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.) shall be prohibited on

trust lands within the Park.

(c) INITIAL RESERVATION.—Lands taken into trust for the Tribe pursuant to section 5, except for the Park land described in subsections (b)(1)(A) and (d)(1) of such section, shall be considered to be the Tribe's initial reservation for purposes of section 20(b)(1)(B)(ii) of the Indian Gaming Regulatory Act (25 U.S.C. 2719(b)(1)(B)(ii)).

(d) TRIBAL JURISDICTION OVER TRUST LANDS.—All trust lands that are transferred under this Act and located within California shall be exempt from section 1162 of title 18, United States Code, and section 1360 of title 28, United States Code, upon the certification by the Secretary, after consultation with the Attorney General, that the law enforcement system in place for such lands will be adequate to provide for the public safety and the public interest, except that no such certification may take effect until the expiration of the 3-year period beginning on the date of enactment of this Act.

### SEC. 8. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this Act such sums as may be necessary.

The SPEAKER pro tempore (Mrs. BIGGERT). Pursuant to the rule, the gentleman from California (Mr. CAL-VERT) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume

Madam Speaker, the Timbisha Shoshone Tribe has been living in portions of California and Nevada for hundreds of years. At the present time, the majority of the tribe's ancestral homeland is located within Death Valley National Park, which is ably represented by our colleague, the gentleman from California (Mr. Lewis), and other areas currently under the Bureau of Land Management Control.

S. 2102 provides the Timbisha Shoshone Tribe with a land base within its aboriginal homeland on which the tribe can live permanently and govern its own affairs.

□ 1430

The legislation would also form a partnership between the National Park Service and the tribe to ensure that the resources of the park are protected and enhanced. It would formally recognize the contribution the tribe has made in the history and culture of the area, authorize the Secretary of Interior to purchase additional lands and water rights for the tribe's use, as well as help for further clarification of rights and obligations on these lands.

Madam Speaker, the interests of both the Timbisha Shoshone Tribe and the United States would be enhanced by recognizing their coexistence on the same land and by establishing partnerships for compatible land uses. This is a good piece of legislation, and I urge my colleagues to support S. 2102.

Madam Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, this important legislation is the product of years of negotiations among the Timbisha Shoshone Tribe of California, Federal and State land managers, private landowners and many others. It will provide the tribe with a permanent land base within their aboriginal homelands. The tribe is in great need of access to lands for housing, health care, education and other governmental functions. Since 1850, this tribe has been without a permanent land base and this bill will finally right that wrong.

Madam Speaker, I urge my colleagues to support it.

Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield such time as he may consume to the gentleman from California (Mr. Lewis), who represents the area in question with this legislation.

Mr. LEWIS of California. Madam Speaker, first let me express my appreciation to the gentleman from California (Mr. Calvert) for his yielding me this time and further express my appreciation to the gentleman from Alaska (Mr. Young); the gentleman from Utah (Mr. Hansen); and the ranking member, the gentleman from California (Mr. George Miller) for allowing this bill to move forward today.

The Timbisha Shoshone Tribe has lived in the harsh environment around Death Valley National Park for thousands of years. S. 2102 provides for the transfer of approximately 7,754 acres of land in trust for the Timbisha Shoshone Tribe. This land will allow the tribe to live permanently and govern its affairs in a modern community. In the past, the tribe has tried unsuccessfully to obtain trust land within its aboriginal homeland area. After 5 years of intense consultation and negotiations, a study report was completed in late 1999 that set forth recommendations for this legislation implementing

a comprehensive integrated plan for a permanent homeland for the tribe.

S. 2102 also formally recognizes the tribe's contributions to the history, culture and ecology of the Death Valley National Park and surrounding areas. S. 2102 ensures that the resources within the park are protected and enhanced by cooperative activities within the tribe's ancestral homeland and by partnerships between the tribe and the National Park Service and the Bureau of Land Management.

Madam Speaker, I express my appreciation to the committee for its fine work

Madam Speaker, I am pleased today to rise in support of S. 2102, the Timbisha Shoshone Homeland Act.

The Timbisha Shoshone Tribe has lived in the harsh environment in and around Death Valley National Park for thousands of years. This bill provides approximately 7,754 acres of land in trust for the Timbisha Shoshone Tribe. The tribe will be able to use this land to live permanently and govern its affairs in a modern community within their ancestral homelands in the Mojave Desert. This legislation is consistent with the draft report prepared by the Secretary of the interior as required by section 705(b) of the California Desert Protection Act of 1994 (P.L. 103–433).

When the California Desert Protection Act was enacted in 1994, I included a provision that specifically directed the Secretary of the Interior, in consultation with the Timbisha Shoshone Tribe and relevant Federal agencies, to conduct a study to identify lands suitable for reservation for the tribe that are located within the tribe's aboriginal homeland area within and outside the boundaries of the Death Valley National Monument and Death Valley National Park and file a report with Congress.

Madam Speaker, the Timbisha Shoshone Tribe is a small tribe of about 300 Indians whose ancestral home is located within the boundaries of Death Valley National Park. Their aboriginal use areas extended beyond the boundaries of the park to territories nearby, including lands within both California and Nevada. Their current tribal headquarters is at Furnace Creek where the park headquarters is also located.

In the early 1930s the President of the United States signed an Executive order establishing a National Monument at Death Valley, California. By doing this, he placed the lands encompassed in the order under the administrative jurisdiction of the National Park Service.

In the 1980s, the tribe was given formal recognition as a federally recognized tribe entitled to all the services and protections that are given to all federally recognized Indian tribes. What was not provided or granted by BIA or the Park Service was a reservation or permanent tribal home land base. This has created innumerable problems for this tribe ranging from housing, schools, health care facilities, ineligibility for grants and contracts, deprivation from, access to, or gathering of customary natural resources, and a total lack of economic development possibilities.

S. 2102 is the product of an intense consultation and negotiation process that has

taken place between the Timbisha Shoshone Tribe and the U.S. Park Service and Bureau of Land Management as required by section 705(b) of the California Desert Protection Act. There have been a number of public hearings in the local communities in California and Nevada. The Tribe and the Department of the Interior have worked closely with the National Parks Conservation Association; the Sierra Club; and the Wilderness Society to address their concerns.

This bill enjoys the strong support of the department of Interior, the National Park Service and the Timbisha Shoshone Tribe. In addition, the tribe has received supporting resolutions from the three counties where the tribe's lands would be located—Inyo County, CA, and Nye and Esmeralda Counties in Nevada; the Town Board of Pahrump, NV; the Mojave-Southern Great Basin Resource Area Council; and a number of Indian tribes and tribal organizations located in both states and nationally.

This is a good bill and I urge my colleagues to support this much-needed legislation.

Mr. UDALL of New Mexico. Madam Speaker, will the gentleman yield?

Mr. LEWIS of California. I yield to the gentleman from New Mexico.

Mr. UDALL of New Mexico. I just wanted to also recognize the ranking member, the gentleman from California (Mr. George Miller) and Senators Feinstein and Boxer for their hard work on this bill.

Mr. CALVERT. Madam Speaker, this is an excellent piece of legislation. I urge its passage, and I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. BIGGERT). The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the Senate bill, S. 2102.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

UPPER HOUSATONIC NATIONAL HERITAGE AREA STUDY ACT OF 2000

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 4312) to direct the Secretary of the Interior to conduct a study of the suitability and feasibility of establishing an Upper Housatonic Valley National Heritage Area in the State of Connecticut and the Commonwealth of Massachusetts, and for other purposes.

The Clerk read as follows:

### H.R. 4312

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Upper Housatonic National Heritage Area Study Act of 2000".

### SEC. 2. AUTHORIZATION OF STUDY.

(a) IN GENERAL.—The Secretary of the Interior ("the Secretary") shall conduct a

study of the Upper Housatonic National Heritage Area ("Study Area"). The study shall include analysis, documentation, and determinations regarding whether the Study Area—

- (1) has an assemblage of natural, historic, and cultural resources that together represent distinctive aspects of American heritage worthy of recognition, conservation, interpretation, and continuing use, and are best managed through partnerships among public and private entities and by combining diverse and sometimes noncontiguous resources and active communities;
- (2) reflects traditions, customs, beliefs and folklife that are a valuable part of the national story;
- (3) provides outstanding opportunities to conserve natural, historic, cultural, and/or scenic features;
- (4) provides outstanding recreational and educational opportunities;
- (5) contains resources important to the identified theme or themes of the Study Area that retain a degree of integrity capable of supporting interpretation:
- (6) includes residents, business interests, nonprofit organizations, and local and State governments who are involved in the planning, have developed a conceptual financial plan that outlines the roles for all participants including the Federal Government, and have demonstrated support for the concept of a national heritage area:
- (7) has a potential management entity to work in partnership with residents, business interests, nonprofit organizations, and local and State Governments to develop a national heritage area consistent with continued local and State economic activity; and
- (8) has a conceptual boundary map that is supported by the public.
- (b) CONSULTATION.—In conducting the study, the Secretary shall consult with the State historic preservation officers, State historical societies and other appropriate organizations.

### SEC. 3. BOUNDARIES OF THE STUDY AREA.

The Study Area shall be comprised of—

- (1) part of the Housatonic River's watershed, which extends 60 miles from Lanesboro, Massachusetts to Kent, Connecticut;
- (2) the towns of Canaan, Cornwall, Kent, Norfolk, North Canaan, Salisbury, Sharon, and Warren in Connecticut; and
- (3) the towns of Alford, Dalton, Egremont, Great Barrington, Hinsdale, Lanesboro, Lee, Lenox, Monterey, Mount Washington, New Marlboro, Pittsfield, Richmond, Sheffield, Stockbridge, Tyringham, Washington, and West Stockbridge in Massachusetts.

### SEC. 4. REPORT.

Not later than 3 fiscal years after the date on which funds are first available for this Act, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives a report on the findings, conclusions, and recommendations of the study.

### SEC. 5. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated \$300,000 to carry out the provisions of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 4312 introduced by the gentlewoman from Connecticut (Mrs. Johnson) directs the Secretary of Interior to conduct a study of the suitability and feasibility of establishing an Upper Housatonic Valley National Heritage Area in the State of Connecticut and the Commonwealth of Massachusetts. The Housatonic River and associated valley lie in the southwestern corner of Massachusetts and the northwestern corner of Connecticut. The river flows approximately 148 miles eventually emptying into Long Island Sound. The proposed study area would consist of a 60-mile segment of the Housatonic River's watershed extending from Lanesboro, Massachusetts south to Kent, Connecticut.

H.R. 4312 authorizes the Secretary of the Interior to conduct a study to determine whether the area has an assemblage of resources that represent distinctive assets of American heritage, reflects traditions and customs that are valuable national history, provides conservation and recreational opportunities, and contains important resources important to the identity of the area.

The study would include demonstrated local support for the heritage area, identifies a lead management entity and has a conceptual boundary map supported by the public. This is a bipartisan bill. I urge my colleagues to support H.R. 4312.

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 4312 sponsored by the gentlewoman from Connecticut (Mrs. Johnson) directs the Secretary of the Interior to conduct a study to determine the feasibility and suitability of creating the Upper Housatonic National Heritage Area. The study would cover a 60-mile stretch of the Upper Housatonic River's watershed, including 9 towns in Connecticut and 18 towns in Massachusetts, as the gentleman from California (Mr. CALVERT) has laid out.

While no statutory standards exist for national heritage areas, the National Park Service has developed a list of resources all NHAs should exhibit, and H.R. 4312 includes each of the MPS requirements as a component of the study. As one who has canoed portions of the Housatonic, I personally support this legislation and we in the minority also urge passage of this study legislation.

It should be noted that the companion legislation, S. 2421 sponsored by Senator LIEBERMAN of Connecticut passed the Senate in July and is currently pending in the House. Had we approved that bill today, we could be

sending completed legislation to the President rather than sending this House companion over to the Senate so late in the session, but I will accept the assurances of my colleagues on the majority side that politics played no part in setting aside Senator LIEBERMAN's bill and advancing this particular bill.

We regret the decision, but we certainly support H.R. 4312 on its merits.

Mrs. JOHNSON of Connecticut. Madam Speaker, I would like to thank Chairman JAMES HANSEN and Chairman DON YOUNG for their support of my proposal and for bringing it before the House for consideration. H.R. 4312 will authorize a feasibility study to determine if part of my district, and our colleague JOHN OLVER's district, qualify for designation as a National Heritage Area.

The Park Service defines a National Heritage Area as an area in which natural, cultural, historic and scenic resources combine to form a distinctive, national landscape and reflect patterns of human activity shaped by geography. These areas present our national experience through physical features and the traditions they birthed, demonstrating the deep tie between natural history and cultural history.

The people of my district believe this small section of New England is more than qualified to be a National Heritage Area. It is an area rich in history and environmental significance consisting largely of the watershed of the Housatonic. From the 1730s to the 1920s, it was home to many of the nation's earliest iron industries. The first blast furnace was built in 1862 by Ethan Allen and supplied the iron for the cannons that helped George Washington's army to win the American Revolutionary War. The Beckley Furnace in Canaan, Connecticulas been designated an official project by the Millennium Committee to Save America's Treasures.

Among the other historic sites in the area is the Sloane-Stanley Museum of Early American Tools. As you may know. Stanley Tools is one of the few remaining manufacturers in Connecticut and is one of the nation's oldest tool makers. Further, the Norman Rockwell Museum, the Mount (home of Edith Wharton) and Arrowhead (the home of Herman Melville) are all in what would be the Upper Housatonic Valley National Heritage Area. It is also home to over 30 sites on the National Register of Historic Places. The iron furnaces, pre-revolution farms and its many historic structures reflect the deep historical tie between natural resources, culture and American's history, epitomizing some of our earliest and most enduring accomplishments.

The Housatonic Valley is also rich with environmental and recreational treasures. The Housatonic River, just below Falls Village, Connecticut, is one of the prized fly-fishing centers in the Northeast and is enjoyed by fishermen from not only Connecticut and Massachusetts but the entire eastern seaboard. Olympic rowers have trained in this river as children have learned to swim, boat and fish and value its ecosystem.

New England offen brings to mind grand colonial farmhouses scattered between small towns which still revolve around the local town hall and the annual town meeting on the budget. While much of the farmland and open

space are now lost to development, elected and volunteer land trusts are working hard to preserve the scenic and historic resources that are so much a part of Connecticut's and our country's heritage.

However, a coordinated and strong investment is essential to enable this preservation effort to succeed. A National Heritage Designation will enable us to save remaining farmhouses, furnaces and historic and natural wonders and advance the states' aggressive new initiative to preserve these historic open spaces. I believe the Park Service will find this area to be the embodiment of what Congress intended when it created the National Heritage Area. This small region of New England is deserving of at least a feasibility study.

Mr. HOLT. Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 4312.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

### BEND PINE NURSERY LAND CONVEYANCE ACT

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the Senate bill (S. 1936) to authorize the Secretary of Agriculture to sell or exchange all or part of certain administrative sites and other National Forest System land in the State of Oregon and use the proceeds derived from the sale or exchange for National Forest System purposes, as amended.

The Clerk read as follows:

### S. 1936

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Bend Pine Nursery Land Conveyance Act".

### SEC. 2. DEFINITIONS.

In this Act:

- (1) Secretary.—The term "Secretary" means the Secretary of Agriculture.
- (2) STATE.—The term "State" means the State of Oregon.

### SEC. 3. SALE OR EXCHANGE OF ADMINISTRATIVE SITES.

- (a) In GENERAL.—The Secretary may, under such terms and conditions as the Secretary may prescribe, sell or exchange any or all right, title, and interest of the United States in and to the following National Forest System land and improvements:
- (1) Tract A, Bend Pine Nursery, comprising approximately 210 acres, as depicted on site plan map entitled "Bend Pine Nursery Administrative Site, May 13, 1999".
- (2) Tract B, the Federal Government owned structures located at Shelter Cove Resort, Deschutes National Forest, buildings only, as depicted on site plan map entitled "Shelter Cove Resort. November 3. 1997".

- (3) Tract C, portions of isolated parcels of National Forest Land located in Township 20 south, Range 10 East section 25 and Township 20 South, Range 11 East sections 8, 9, 16, 17, 20, and 21 consisting of approximately 1,260 acres, as depicted on map entitled "Deschutes National Forest Isolated Parcels, January 1, 2000".
- (4) Tract D, Alsea Administrative Site, consisting of approximately 24 acres, as depicted on site plan map entitled "Alsea Administrative Site, May 14, 1999".
- (5) Tract F, Springdale Administrative Site, consisting of approximately 3.6 acres, as depicted on site plan map entitled "Site Development Plan, Columbia Gorge Ranger Station, April 22, 1964".
- (6) Tract G, Dale Administrative Site, consisting of approximately 37 acres, as depicted on site plan map entitled "Dale Compound, February 1999".
- (7) Tract H, Crescent Butte Site, consisting of approximately & acres, as depicted on site plan map entitled "Crescent Butte Communication Site. January 1, 2000".
- (b) CONSIDERATION.—Consideration for a sale or exchange of land under subsection (a) may include the acquisition of land, existing improvements, or improvements constructed to the specifications of the Secretary.
- (c) APPLICABLE LAW.—Except as otherwise provided in this Act, any sale or exchange of National Forest System land under subsection (a) shall be subject to the laws (including regulations) applicable to the conveyance and acquisition of land for the National Forest System.
- (d) CASH EQUALIZATION.—Notwithstanding any other provision of law, the Secretary may accept a cash equalization payment in excess of 25 percent of the value of land exchanged under subsection (a).
- (e) SOLICITATIONS OF OFFERS.—
- (1) In GENERAL.—Subject to paragraph (3), the Secretary may solicit offers for sale or exchange of land under this section on such terms and conditions as the Secretary may prescribe.
- (2) REJECTION OF OFFERS.—The Secretary may reject any offer made under this section if the Secretary determines that the offer is not adequate or not in the public interest.
- (3) RIGHT OF FIRST REFUSAL.—The Bend Metro Park and Recreation District in Deschutes County, Oregon, shall be given the right of first refusal to purchase the Bend Pine Nursery described in subsection (a)(1).
  - (f) REVOCATIONS.—
- (1) IN GENERAL.—Any public land order withdrawing land described in subsection (a) from all forms of appropriation under the public land laws is revoked with respect to any portion of the land conveyed by the Secretary under this section.
- (2) EFFECTIVE DATE.—The effective date of any revocation under paragraph (1) shall be the date of the patent or deed conveying the land. SEC. 4. DISPOSITION OF FUNDS.
- (a) DEPOSIT OF PROCEEDS.—The Secretary shall deposit the proceeds of a sale or exchange under section 3(a) in the fund established under Public Law 90–171 (16 U.S.C. 484a) (commonly known as the "Sisk Act").
- (b) USE OF PROCEEDS.—Funds deposited under subsection (a) shall be available to the Secretary, without further Act of appropriation, for—
- (1) the acquisition, construction, or improvement of administrative and visitor facilities and associated land in connection with the Deschutes National Forest;
- (2) the construction of a bunkhouse facility in the Umatilla National Forest; and
- (3) to the extent the funds are not necessary to carry out paragraphs (1) and (2), the acquisition of land and interests in land in the State.
- (c) ADMINISTRATION.—Subject to valid existing rights, the Secretary shall manage any land ac-

quired by purchase or exchange under this Act in accordance with the Act of March 1, 1911 (16 U.S.C. 480 et seq.) (commonly known as the "Weeks Act") and other laws (including regulations) pertaining to the National Forest System.

SEC. 5. CONSTRUCTION OF NEW ADMINISTRATIVE FACILITIES.

The Secretary may acquire, construct, or improve administrative facilities and associated land in connection with the Deschutes National Forest System by using—

- (1) funds made available under section 4(b); and
- (2) to the extent the funds are insufficient to carry out the acquisition, construction, or improvement, funds subsequently made available for the acquisition, construction, or improvement

### SEC. 6. AUTHORIZATION OF APPROPRIATION.

There are authorized to be appropriated such sums as are necessary to carry out this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume

Madam Speaker, S. 1936 was introduced by Senator Ron Wyden. It would allow the Forest Service to sell the Bend Pine Nursery in the State of Oregon and use the proceeds to purchase other lands in that State. The gentleman from Oregon (Mr. Walden) has introduced the House companion bill for this measure, H.R. 4774, and he should be commended for his work on behalf of the State of Oregon.

S. 1936 passed the full committee on September 20 of this year by a voice vote; and I would urge support for the passage of S. 1936, as amended, under suspension of the rules.

Madam Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Madam Speaker, I yield myself such time as I may consume.

Mr. UDALL of New Mexico. Madam Speaker, S. 1936 authorizes the Secretary of Agriculture to sell or exchange seven administrative sites and facilities on approximately 1,325 acres on the Deschutes National Forest in Oregon. The bill provides that the City of Bend, Oregon, will be given the right of first refusal to purchase one particular site, the 210-acre Bend Pine Nursery, for the potential use as a park. Funds from the sale of these Federal assets will be used to construct new Forest Service administrative facilities for the Deschutes and Umatilla National Forests. The estimated value of the land to be conveyed is between \$3 million and \$4 million. The administration supports this legislation, and we do not object to it.

Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield such time as he may consume to the gentleman from Oregon (Mr. WALDEN).

Mr. WALDEN of Oregon. Madam Speaker, I want to thank the gentleman from California (Mr. CALVERT) and the gentleman from New Mexico (Mr. UDALL) for their help in this legislation. Certainly my colleague from Oregon, Senator Wyden, who with Senator SMITH and I, have teamed up on this legislation to make it a bipartisan effort to transfer this land, allow it to be transferred, to surplus property over to the City of Bend who will have the first right of refusal on the Bend Pine Nursery.

The city in turn will turn this wonderful open space, an extraordinary piece of land, into something for all time for parks and ball fields for children and for families. So it is an excellent conveyance. It follows all the rules and all the laws of the Federal Government, and in addition it is a bonus for the taxpayers because the Deschutes National Forest now pays something on the order of \$750,000 a year in leases for their current buildings; and a new headquarters will be built out of the proceeds of these funds so the taxpayers will save this lease payment every year. So it is a win for the taxpayers. It is a win for the children and families of Bend, and it is certainly a win for the Federal Government.

Mr. CALVERT. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the Senate bill, S. 1936, as amended.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill. as amended, was passed.

A motion to reconsider was laid on the table.

### LOWER DELAWARE WILD AND SCENIC RIVERS ACT

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the Senate bill (S. 1296) to designate portions of the lower Delaware River and associated tributaries as a component of the National Wild and Scenic Rivers System.

The Clerk read as follows:

S. 1296

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Lower Delaware Wild and Scenic Rivers Act".

### SEC. 2. FINDINGS.

Congress finds that-

- (1) Public Law 102-460 directed the Secretary of the Interior, in cooperation and consultation with appropriate Federal, State, regional, and local agencies, to conduct a study of the eligibility and suitability of the lower Delaware River for inclusion in the Wild and Scenic Rivers System:
- (2) during the study, the Lower Delaware Wild and Scenic River Study Task Force and

the National Park Service prepared a river management plan for the study area entitled "Lower Delaware River Management Plan" and dated August 1997, which establishes goals and actions that will ensure long-term protection of the river's outstanding values and compatible management of land and water resources associated with the river; and

(3) after completion of the study, 24 municipalities along segments of the Delaware River eligible for designation passed resolutions supporting the Lower Delaware River Management Plan, agreeing to take action to implement the goals of the plan, and endorsing designation of the river.

#### SEC. 3 DESIGNATION.

Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)) is amended—

- (1) by designating the first undesignated paragraph following paragraph 156, pertaining to Elkhorn Creek and enacted by Public Law 104–208, as paragraph 157;
- (2) by designating the second undesignated paragraph following paragraph 156, pertaining to the Clarion River, Pennsylvania, and enacted by Public Law 104-314, as paragraph 158;
- (3) by designating the third undesignated paragraph following paragraph 156, pertaining to the Lamprey River, New Hampshire, and enacted by Public Law 104-333, as paragraph 159;
- (4) by striking the fourth undesignated paragraph following paragraph 156, pertaining to Elkhorn Creek and enacted by Public Law 104–333; and
  - (5) by adding at the end the following:
- "(161) LOWER DELAWARE RIVER AND ASSOCIATED TRIBUTARIES, NEW JERSEY AND PENNSYLVANIA.—(A) The 65.6 miles of river segments in New Jersey and Pennsylvania, consisting of—
- "(i) the segment from river mile 193.8 to the northern border of the city of Easton, Pennsylvania (approximately 10.5 miles), as a recreational river;
- "(ii) the segment from a point just south of the Gilbert Generating Station to a point just north of the Point Pleasant Pumping Station (approximately 14.2 miles), as a recreational river;
- "(iii) the segment from the point just south of the Point Pleasant Pumping Station to a point 1,000 feet north of the Route 202 bridge (approximately 6.3), as a recreational river;
- "(iv) the segment from a point 1,750 feet south of the Route 202 bridge to the southern border of the town of New Hope, Pennsylvania (approximately 1.9), as a recreational river:
- "(v) the segment from the southern boundary of the town of New Hope, Pennsylvania, to the town of Washington Crossing, Pennsylvania (approximately 6 miles), as a recreational river:
- "(vi) Tinicum Creek (approximately 14.7 miles), as a scenic river;
- "(vii) Tohickon Creek from the Lake Nockamixon Dam to the Delaware River (approximately 10.7 miles), as a scenic river; and
- "(viii) Paunacussing Creek in Solebury Township (approximately 3 miles), as a recreational river
- "(B) ADMINISTRATION.—The river segments referred to in subparagraph (A) shall be administered by the Secretary of the Interior. Notwithstanding section 10(c), the river segments shall not be administered as part of the National Park System."

### SEC. 4. MANAGEMENT OF RIVER SEGMENTS.

- (a) MANAGEMENT OF SEGMENTS.—The river segments designated in section 3 shall be managed—
- (1) in accordance with the river management plan entitled "Lower Delaware River Management Plan" and dated August 1997 (referred to as the "management plan"), prepared by the Lower Delaware Wild and Scenic River Study Task Force and the National Park Service, which establishes goals and actions that will ensure long-term protection of the river's outstanding values and compatible management of land and water resources associated with the river; and
- (2) in cooperation with appropriate Federal, State, regional, and local agencies, including—
- (A) the New Jersey Department of Environmental Protection;
- (B) the Pennsylvania Department of Conservation and Natural Resources;
- (C) the Delaware and Lehigh Navigation Canal Heritage Corridor Commission;
- (D) the Delaware and Raritan Canal Commission; and
- (E) the Delaware River Greenway Partnership.
- (b) SATISFACTION OF REQUIREMENTS FOR PLAN.—The management plan shall be considered to satisfy the requirements for a comprehensive management plan under subsection 3(d) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(d)).
  - (c) Federal Role.—
- (1) RESTRICTIONS ON WATER RESOURCE PROJECTS.—In determining under section 7(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1278(a)) whether a proposed water resources project would have a direct and adverse effect on the value for which a segment is designated as part of the Wild and Scenic Rivers System, the Secretary of the Interior (hereinafter referred to as the "Secretary") shall consider the extent to which the project is consistent with the management plan.
- (2) COOPERATIVE AGREEMENTS.—Any cooperative agreements entered into under section 10(e) of the Wild and Scenic Rivers Act (16 U.S.C. 1281(e)) relating to any of the segments designated by this Act shall—
- (A) be consistent with the management plan; and
- (B) may include provisions for financial or other assistance from the United States to facilitate the long-term protection, conservation, and enhancement of the segments.
- (3) SUPPORT FOR IMPLEMENTATION.—The Secretary may provide technical assistance, staff support, and funding to assist in the implementation of the management plan.
- (d) LAND MANAGEMENT.—
- (1) IN GENERAL.—The Secretary may provide planning, financial, and technical assistance to local municipalities to assist in the implementation of actions to protect the natural, economic, and historic resources of the river segments designated by this Act.
- (2) PLAN REQUIREMENTS.—After adoption of recommendations made in section III of the management plan, the zoning ordinances of the municipalities bordering the segments shall be considered to satisfy the standards and requirements under section 6(c) of the Wild and Scenic Rivers Act (16 U.S.C. 1277(c)).
  - (e) Additional Segments.—
- (1) IN GENERAL.—In this paragraph, the term "additional segment" means—
- (A) the segment from the Delaware Water Gap to the Toll Bridge connecting Columbia, New Jersey, and Portland, Pennsylvania (approximately 9.2 miles), which, if made part of the Wild and Scenic Rivers System in ac-

- cordance with this paragraph, shall be administered by the Secretary as a recreational river;
- (B) the segment from the Erie Lackawanna railroad bridge to the southern tip of Dildine Island (approximately 3.6 miles), which, if made part of the Wild and Scenic Rivers System in accordance with this paragraph, shall be administered by the Secretary as a recreational river:
- (C) the segment from the southern tip of Mack Island to the northern border of the town of Belvidere, New Jersey (approximately 2 miles), which, if made part of the Wild and Scenic Rivers System in accordance with this paragraph, shall be administered by the Secretary as a recreational river:
- (D) the segment from the southern border of the town of Phillipsburg, New Jersey, to a point just north of Gilbert Generating Station (approximately 9.5 miles, which, if made part of the Wild and Scenic Rivers System in accordance with this paragraph, shall be administered by the Secretary as a recreational river:
- (E) Paulinskill River in Knowlton Township (approximately 2.4 miles), which, if made part of the Wild and Scenic Rivers System in accordance with this paragraph, shall be administered by the Secretary as a recreational river; and
- (F) Cook's Creek (approximately 3.5 miles), which, if made part of the Wild and Scenic Rivers System in accordance with this paragraph, shall be administered by the Secretary as a scenic river.
- (2) FINDING.—Congress finds that each of the additional segments is suitable for designation as a recreational river or scenic river under this paragraph, if there is adequate local support for the designation.
- (3) DESIGNATION.—If the Secretary finds that there is adequate local support for designating any of the additional segments as a recreational river or scenic river—
- (A) the Secretary shall publish in the Federal Register a notice of the designation of the segment; and
- (B) the segment shall thereby be designated as a recreational river or scenic river, as the case may be, in accordance with the Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.).
- (4) CRITERIA FOR LOCAL SUPPORT.—In determining whether there is adequate local support for the designation of an additional segment, the Secretary shall consider, among other things, the preferences of local governments expressed in resolutions concerning designation of the segment.

### SEC. 5. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated such sums as are necessary to carry out this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, the Delaware River is the last free-flowing river in the eastern United States. Approximately 330 miles in length, the river flows along four State boundaries and provides water to nearly 10 percent of the Nation's population. The upper and

middle Delaware River regions have already received wild and scenic designation; and in 1992, Congress authorized a study of the lower Delaware region to determine its viability for the wild and scenic designation.

The study concluded that 14 segments were eligible for the wild and scenic classification. S. 1296 would designate eight of these segments as wild and scenic. According to S. 1296, the Secretary of Interior will continue working with the local river municipalities and within 3 years of the enactment of this bill may designate any of the remaining segments in the management plan as wild and scenic.

#### □ 1445

Madam Speaker, I urge support for S. 1296.

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I am pleased to offer my strong support for S. 1296, the Lower Delaware Wild and Scenic Rivers Act, introduced by New Jersey Senator Frank Lautenberg.

As one of the Members who represents the Delaware River region, I am proud to be a cosponsor of the House companion legislation to S. 1296, along with my colleagues, the gentleman from Pennsylvania (Mr. Greenwood), the gentleman from Pennsylvania (Mr. TOOMEY), and the gentlewoman from New Jersey (Mrs. ROUNEMA). This Delaware designation is truly a bipartisan effort, and I am pleased that it is now moving toward passage.

In 1978, Congress included two sections of the Upper Delaware River in the National Wild and Scenic River System, protecting 110 miles of outstanding recreational and natural resources. S. 1296 would add the portion of the Delaware River that extends from the Delaware Water Gap to Washington Crossing, a span of about 65 miles, and would add it to the Wild and Scenic River System. The passage of this will add one more glittering accomplishment to the legacy of our colleague. Frank Lautenberg, who is retiring in January from the other body on the other side of the Capitol.

As my colleague has said, the Delaware River is the longest free-flowing river in the eastern United States, spanning from its headwaters in the Catskills of New York to the mouth of the Delaware Bay. Its watershed includes 12,765 square miles in portions of four States.

Over 6 million people make their home in the Delaware River's watershed, and almost 10 percent of the Nation's population relies on these waters for drinking, recreational and industrial use. The Delaware River is among the country's most scenic, and thousands of species of plants and animals

thrive in its waters and along its banks. The river can boast of a proud and prominent place in our Nation's history and now sustains a thriving center of economic development and tourism.

The 65 miles of river that would be protected as a result of this legislation are rich in natural and historic resources. It includes eight national historic landmarks and 29 national historic districts.

To underscore the cultural importance of the Delaware, I would like to read a passage from the frontispiece of the book on the Delaware by Bruce Stutz, a piece by Walt Whitman:

"As I was crossing the Delaware today, saw a large flock of wild geese, right overhead, not very high up, ranging in V-shape, in relief against the noon clouds of light smokecolor. Had a capital, though momentary view of them, and then of their course on and on southeast, till gradually fading . . . the waters below—the rapid flight of the birds, appearing just for a minute—flashing to me such a hint of the whole spread of Nature with her eternal unsophisticated freshness, her never-visited recesses of sea, sky, shore—and then disappearing into the distance."

What Walt Whitman described I think highlights the importance of this area; but unmanaged development and inappropriate use of the river's resources threaten its health, the quality of its waters, natural habitats, scenic beauty, and historical sites. This legislation will protect the river from dangerous and unplanned development and from federally licensed dams, diversion projects, and channelization that could destroy the nature of the watershed and threaten the populations that depend on it.

In addition, the bill, S. 1296, encourages local control through a management plan that will, one, protect riparian landowner rights; two, maintain and improve water quality; three, preserve natural and historical resources; four, encourage recreational use and eco-tourism; five, preserve open space; six, minimize the adverse effects of development; and, seven, involve the public in educational programs that recognize the value of this resource and ways to protect it.

Our citizens along the river who are environmentally wise can use this designation as a scenic river to carry further the improvements that have been made. By the mid-1950s, the popular fish, the shad, had disappeared. Now the shad are back in large numbers, and Lambertville's Shad Fest is a grand occasion every year.

The quality of water has a direct relationship to the Nation's economy, including the number of tourists, shoppers, and recreation enthusiasts who visit the area. The river has provided a vital link to neighboring communities in Pennsylvania, New York, and Delaware.

S. 1296 is needed to ensure that this sense of community that had developed

around the river continues to be nurtured. S. 1296 is needed to ensure that the future environment and the economic benefits of the Lower Delaware River are protected.

The Wild and Scenic River designation would encourage natural and historic resource preservation and would help preserve the future of ecologically sensitive recreation areas.

This legislation has garnered the support of a wide variety of groups and citizens. Over 100 community and advisory groups have worked on this campaign, including the Heritage Conservancy, the Delaware Greenway Commission, the Nature Conservancy, the Delaware River Keeper, the Delaware River Basin Commission, State parks, chambers of commerce, power and water companies, and other local businesses. In addition, 24 of the 30 municipalities along the eligible section of the river have passed resolutions supporting its designation.

In 1992, Congress authorized a study of the Lower Delaware for potential inclusion in the Wild and Scenic River Systems. The National Park Service studies have been completed, and local municipalities have reviewed and supported the draft legislation and the management plan. It is incumbent on us to do our part to support the affected communities by passing this legislation before concluding this session of Congress. In fact, the legislation is overdue.

Quite simply, the communities in the Delaware River watershed understand the importance of the river and the need to protect it. S. 1296 would further aid these communities by providing comprehensive planning and financial and technical assistance to allow local municipalities to sustain the protection of the river.

Referring back to Walt Whitman,
Langston Hughes wrote:
Old Walt Whitman
Went finding and seeking,
Finding less than sought
Seeking more than found,
Every detail minding
Of the seeking or the finding.
Pleasured equally
In seeking as in finding,
Each detail minding,
Old Walt went seeking
And finding.

Langston Hughes also talks about the historical cultural importance of this important river, the longest free-flowing river in the eastern United States. I hope my colleagues will recognize the importance of protecting this valuable natural resource, and I strongly urge all Members to support S. 1296, the Lower Delaware Wild and Scenic Rivers Act.

Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, all I can say after listening to the great passages of our

House to pass this legislation.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. BIGGERT). The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the Senate bill. S. 1296.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

### ALLOWING LEASE OR TRANSFER OF LAND OWNED BY COUSHATTA TRIBE OF LOUISIANA

Mr. CALVERT. Madam Speaker. I move to suspend the rules and pass the bill (H.R. 5398) to provide that land which is owned by the Coushatta Tribe of Louisiana but which is not held in trust by the United States for the Tribe may be leased or transferred by the Tribe without further approval by the United States.

The Clerk read as follows:

### H.R. 5398

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. APPROVAL NOT REQUIRED TO VALI-DATE LAND TRANSACTIONS.

GENERAL.—Notwithstanding any other provision of law, without further approval, ratification, or authorization by the United States, the Coushatta Tribe of Louisiana, may lease, sell, convey, warrant, or otherwise transfer all or any part of the Tribe's interest in any real property that is not held in trust by the United States for the benefit of the Tribe.

(b) TRUST LAND NOT AFFECTED.—Nothing in this section is intended or shall be construed to-

(1) authorize the Coushatta Tribe of Louisiana to lease, sell, convey, warrant, or otherwise transfer all or any part of an interest in any real property that is held in trust by the United States for the benefit of the Tribe; or

(2) affect the operation of any law governing leasing, selling, conveying, warranting, or otherwise transferring any interest in such trust land.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of H.R. 5398, legislation which will allow the Coushatta Tribe of Louisiana to sell, lease, or otherwise transfer its interest in any real property which is not held in trust by the United States. This bill is necessary because Federal law limits a tribe's authority to sell land is not held in trust.

I urge support for this bill.

Madam Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, first let me thank the gentleman from Louisiana (Mr. JOHN) for his dedication and leadership on this legislation.

This legislation would enable the Coushatta Tribe of Louisiana to transfer, sell, or lease fee lands without further approval of the United States. In addition to trust land held by the United States for the benefit of the tribe, the tribe also owns land outside the reservation system. This land, owned in fee status, is subject to State and local laws and taxes. Recently, however, there has been confusion with regard to the authority of the Coushatta Tribe in using these fee lands.

H.R. 5398 would help by alleviating this confusion over the tribe's authority regarding fee lands. This bill would not apply to lands held in trust by the United States, but would allow the tribe to pursue future economic development activities as it determines.

This legislation is good, just policy; and I urge my colleagues to support it.

Mr. JOHN. Madam Speaker, I rise today in support of H.R. 5398, which would provide that land, which is owned in fee by the Coushatta Indian Community in Louisiana and not held in trust by the United States, may be leased or transferred without further approval by the United States.

Existing federal law provides that Indian tribes may not lease, sell or otherwise convey land which they may have title to unless the conveyances are approved by Congress. This prohibition, enacted into law in 1834 to prevent the unfair or improper disposition of Indian-owned land, has been interpreted by the courts to apply even though the land was purchased by the tribes with their own money and even though the land is not held in trust by the federal government.

In 1834, this process made perfect sense. Today, however, this process has proven to be a major detriment to economic development for the Coushatta Tribe. It puts the tribe at a distinct disadvantage, because the tribe finds that it cannot develop or use land which it has acquired to its full advantage. H.R. 5398 will allow the Coushatta Tribe to use the fee land it has purchased just like any other landowner, without having to come to Congress any time it wants to sell, lease, or even mortgage that land.

In addition to the land owned by the tribe and held in trust by the U.S. Department of Interior, the Coushatta Tribe owns the fee land which is not held in trust. This fee land, while owned by the tribe, is subject to state and local laws and the tribe does not have the authority to conduct gaming activities on this land. As the Coushatta Tribe continues to work toward establishing long-term financial security for its members, they are finding it

former literary giants, is I ask the land which it owns, even though that necessary to have the ability to establish business agreements with non-Indian partners using the fee land to pursue future economic development activities, including the development of golf courses, business parks, and recreation and convention centers.

On February 29 of this year, this body granted the Lower Sioux Indian Community in Minnesota these same rights that I am seeking for the Coushatta Indian Community. Companion legislation, S. 2792, has been introduced in the U.S. Senate by Senator JOHN BREAUX of Louisiana. Locally, this legislation is supported by the Town of Elton and the Allen Parish Assessor.

The Coushatta Tribe has made significant progress in recent years to eliminate poverty and reduce reliance on government programs. By passing H.R. 5398, this Congress will further empower the Coushatta Tribe to empower themselves.

Madam Speaker, I thank the leadership for bringing this legislation to the floor today, and I encourage my colleagues to support H.R.

Mr. UDALL of New Mexico. Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I

yield back the balance of my time.
The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 5398.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

PROVIDING FOR CONCURRENCE BY HOUSE WITH AMENDMENT IN SENATE AMENDMENT TO H.R. 1444, FISHERIES RESTORATION IRRIGATION MITIGATION AND ACT OF 2000

Mr. CALVERT. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 630) providing for the concurrence by the House with an amendment in the Senate amendment to H.R. 1444.

The Clerk read as follows:

### H. RES. 630

Resolved, That upon the adoption of this resolution the House shall be considered to have taken from the Speaker's table the bill, H.R. 1444, with the Senate amendments thereto, and to have concurred in the Senate amendment with the following amendments:

(1) Amend the title so as to read: "A bill to authorize the Secretary of the Interior to establish a program to plan, design, and construct fish screens, fish passage devices, and related features to mitigate impacts on fisheries associated with irrigation system water diversions by local governmental entities in the Pacific Ocean drainage of the States of Oregon, Washington, Montana, and Idaho."

(2) In lieu of the matter proposed to be inserted by the amendment of the Senate, insert the following:

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Fisheries Restoration and Irrigation Mitigation Act of

### SEC. 2. DEFINITIONS.

In this Act:

- (1) PACIFIC OCEAN DRAINAGE AREA.—The term "Pacific Ocean drainage area" means the area comprised of portions of the States of Oregon, Washington, Montana, and Idaho from which water drains into the Pacific Ocean.
- (2) PROGRAM.—The term "Program" means the Fisheries Restoration and Irrigation Mitigation Program established by section 3(a).
- (3) SECRETARY.—The term "Secretary" means the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service.

### SEC. 3. ESTABLISHMENT OF THE PROGRAM.

- (a) ESTABLISHMENT.—There is established the Fisheries Restoration and Irrigation Mitigation Program within the Department of the Interior.
- (b) GOALS.—The goals of the Program are-
- (1) to decrease fish mortality associated with the withdrawal of water for irrigation and other purposes without impairing the continued withdrawal of water for those purposes; and
- (2) to decrease the incidence of juvenile and adult fish entering water supply systems.
  - (c) IMPACTS ON FISHERIES.-
- (1) IN GENERAL.—Under the Program, the Secretary, in consultation with the heads of other appropriate agencies, shall develop and implement projects to mitigate impacts to fisheries resulting from the construction and operation of water diversions by local governmental entities (including soil and water conservation districts) in the Pacific Ocean drainage area.
- (2) Types of projects.—Projects eligible under the Program may include—
- (A) the development, improvement, or installation of—
  - (i) fish screens;
  - (ii) fish passage devices; and
- (iii) other related features agreed to by non-Federal interests, relevant Federal and tribal agencies, and affected States; and
- (B) inventories by the States on the need and priority for projects described in clauses (i) through (iii).
- (3) PRIORITY.—The Secretary shall give priority to any project that has a total cost of less than \$5,000,000.

### SEC. 4. PARTICIPATION IN THE PROGRAM.

- (a) Non-Federal.-
- (1) IN GENERAL.—Non-Federal participation in the Program shall be voluntary.
- (2) FEDERAL ACTION.—The Secretary shall take no action that would result in any non-Federal entity being held financially responsible for any action under the Program, unless the entity applies to participate in the Program.
- (b) FEDERAL.—Development and implementation of projects under the Program on land or facilities owned by the United States shall be nonreimbursable Federal expenditures.

### SEC. 5. EVALUATION AND PRIORITIZATION OF PROJECTS.

Evaluation and prioritization of projects for development under the Program shall be conducted on the basis of—

- (1) benefits to fish species native to the project area, particularly to species that are listed as being, or considered by Federal or State authorities to be, endangered, threatened, or sensitive;
  - (2) the size and type of water diversion;
- (3) the availability of other funding sources;
- (4) cost effectiveness; and
- (5) additional opportunities for biological or water delivery system benefits.

### SEC. 6. ELIGIBILITY REQUIREMENTS.

- (a) IN GENERAL.—A project carried out under the Program shall not be eligible for funding unless—
- (1) the project meets the requirements of the Secretary, as applicable, and any applicable State requirements; and
- (2) the project is agreed to by all Federal and non-Federal entities with authority and responsibility for the project
- responsibility for the project.
  (b) DETERMINATION OF ELIGIBILITY.—In determining the eligibility of a project under this Act. the Secretary shall—
- (1) consult with other Federal, State, tribal, and local agencies; and
- (2) make maximum use of all available

### SEC. 7. COST SHARING.

- (a) NON-FEDERAL SHARE.—The non-Federal share of the cost of development and implementation of any project under the Program on land or at a facility that is not owned by the United States shall be 35 percent.
- (b) Non-Federal Contributions.—The non-Federal participants in any project under the Program on land or at a facility that is not owned by the United States shall provide all land, easements, rights-of-way, dredged material disposal areas, and relocations necessary for the project.
- (c) CREDIT FOR CONTRIBUTIONS.—The value of land, easements, rights-of-way, dredged material disposal areas, and relocations provided under subsection (b) for a project shall be credited toward the non-Federal share of the costs of the project.
  - (d) Additional Costs.—
- (1) Non-federal responsibilities.—The non-federal participants in any project carried out under the Program on land or at a facility that is not owned by the United States shall be responsible for all costs associated with operating, maintaining, repairing, rehabilitating, and replacing the project.
- (2) FEDERAL RESPONSIBILITY.—The Federal Government shall be responsible for costs referred to in paragraph (1) for projects carried out on Federal land or at a Federal facility.

  SEC. 8. LIMITATION ON ELIGIBILITY FOR FUND-

# A project that receives funds under this Act shall be ineligible to receive Federal funds from any other source for the same purpose.

### SEC. 9. REPORT.

On the expiration of the third fiscal year for which amounts are made available to carry out this Act, the Secretary shall submit to Congress a report describing—

- (1) the projects that have been completed under this Act;
- (2) the projects that will be completed with amounts made available under this Act during the remaining fiscal years for which amounts are authorized to be appropriated under section 10: and
- (3) recommended changes to the Program as a result of projects that have been carried out under this Act.

### SEC. 10. AUTHORIZATION OF APPROPRIATIONS.

- (a) IN GENERAL.—There is authorized to be appropriated to carry out this Act \$25,000,000 for each of fiscal years 2001 through 2005.
  - (b) LIMITATIONS.—
  - (1) SINGLE STATE.-
- (A) IN GENERAL.—Except as provided in subparagraph (B), not more than 25 percent of the total amount of funds made available under this section may be used for 1 or more projects in any single State.
- (B) WAIVER.—On notification to Congress, the Secretary may waive the limitation under subparagraph (A) if a State is unable

to use the entire amount of funding made available to the State under this Act.

(2) ADMINISTRATIVE EXPENSES.—Not more than 6 percent of the funds authorized under this section for any fiscal year may be used for Federal administrative expenses of carrying out this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, the House originally passed H.R. 1444 by a voice vote on November 9, 1999. The bill authorized the Secretary of the Interior to establish a program to plan, design, and construct fish screens, fish passage devices, and related features to mitigate impacts on fisheries related to irrigation system water diversions by local government entities in the Pacific Ocean drainage of the States of Oregon, Washington, Montana, and Idaho.

On April 13, 2000, the Senate amended H.R. 1444 by substituting H.R. 1444 with the text of S. 1723 and passed the bill by unanimous consent. The substance of S. 1723 is virtually identical to H.R. 1444. However, there are some technical changes which are being made today to clarify that fishery restoration is a priority.

In the Northwest, valuable salmon populations travel through various river basins as juvenile and adult fish. It has been demonstrated that fish screens and passages are an effective way to protect migrating fish from the deadly effects of water diversion projects. H.R. 1444 will encourage the construction of these fish-saving devices.

I compliment the authors, especially our colleague, the gentleman from Oregon (Mr. WALDEN), for their leadership in this matter. This is a sound conservation bill, and I urge Members to vote aye.

Madam Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I want to recognize the leadership and foresight of the gentleman from Oregon (Mr. DEFAZIO) on this bill. He played an instrumental role in this legislation.

H.R. 1444 establishes a fish screen construction program for irrigation projects in Idaho, Washington, Montana, and Oregon. The purpose of this legislation is to protect endangered fish species in the Pacific Northwest. Construction of fish screens authorized by this bill will help decrease fish mortality rates by preventing juvenile salmon from straying into water diversion projects. Participation in the program is voluntary, and a local share of

35 percent of the cost of the project is required.

### □ 1500

Under this amended version of H.R. 1444, the U.S. Fish and Wildlife Service will have responsibility for administering the new fish screen program, in consultation with other Federal agencies.

The Fish and Wildlife Service was chosen as the lead agency in recognition that the Fish and Wildlife Service has the experience, the expertise and on-the-ground capability to most effectively administer the fish screen program. However, other Federal agencies have an interest in this program; and, in fact, the water project construction agency, such as the Corps of Engineering and the Bureau of Reclamation are usually responsible for funding the mitigation of adverse environmental impacts caused by project construction and operation.

The bill requires consultation with such agencies. In addition to a consultive role, we expect these other agencies to actively participate in fish screen projects and also to contribute funds, when appropriate, for projects developed under the authority of this legislation.

Madam Speaker, I urge my colleagues to support H.R. 1444.

Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield such time as he may consume to the gentleman from Oregon (Mr. WALDEN) for whatever comments he may have.

Mr. WALDEN of Oregon. Madam Speaker, I want to thank the gentleman from California for yielding me the time.

Madam Speaker, this is, indeed, another example of getting things done, getting things done for fish, getting things done for farmers in the Northwest. As my colleagues know, our salmon runs face tremendous challenges there, the wild salmon runs do, and our farmers are under incredible pressure.

This is one of those bills that is a win-win for both sides, because we are going to be installing fish screens that will help divert the salmon around these irrigation projects and help them on their way out to sea. We are going to help our farmers improve their water flows and protect their way of life as well.

H.R. 1444 is to encourage irrigators to protect the Northwest endangered fish species. The bill aims to decrease fish mortality rates by constructing fish screens to prevent the juvenile salmon from swimming into water diversion projects. There is a local share that has to be involved here. Participation in the program is voluntary, and a local share of 35 percent of the costs of the project is required.

This is one of those pieces of legislation that is actually a helping hand from the Federal Government in a true partnership with the local irrigation districts. The Department of Interior, Fish and Wildlife Service in consultation with the Army Corps and the Bureau of Reclamation will be responsible for administering the program. And the legislation is supported by many conservation recreation and water user groups, including the Oregon Water Resources Congress; Save Our Wild Salmon, a coalition of sport and fishing groups, fishing businesses and conservation organizations; along with the Oregon Department of Fish and Wildlife.

Madam Speaker, I would like to thank my colleagues Senator SMITH and Senator WYDEN and certainly the gentleman from Oregon (Mr. DEFAZIO) for his leadership in getting this legislation to this point, and the committee and the staff and the leadership for scheduling for a vote today.

Madam Speaker, this will do good things for fish. This will do good things for farmers. I am delighted that, in the bipartisan spirit of this body, we are going to get in passed into law.

Mr. DEFAZIO. Madam Speaker, I rise in strong support of H.R. 1444, the "Fisheries Restoration and Irrigation Mitigation Act," legislation to establish a fish screen construction program for irrigation projects in Idaho, Washington, Montana and Oregon.

H.R. 1444 is needed to assist in the effort to protect the Northwest's endangered fish species. The bill aims to decrease fish mortality rates by aiding in the construction of fish screens to prevent juvenile salmon from straying into water diversion projects.

Many farms in the Northwest are irrigated by water diverted from streams and rivers. Water is transported to farms via irrigation canals connecting to streams and rivers. The irrigation canals pose a major risk to juvenile salmon, called smolts, migrating downstream to the ocean. Smolts die when they are diverted from the rivers and streams into irrigation ditches. Fish screens placed at entrances to irrigation diversions will prevent smolts from swimming into irrigation ditches and decrease mortality rates for fish stocks in the Northwest. H.R. 1444 sets up a federal program to assist in the construction of fish screens. Under the legislation, participation in the program will be voluntary and a local share of 35 percent of the cost of each project is required.

During negotiations over the legislation, there was some debate over which agency will have responsibility for administering the fish screen program. The original House bill put the Army Corps of Engineers in charge of the program while the Senate bill gave the responsibility to the Department of Interior. It was the Senate sponsor's hope that the Bureau of Reclamation, would be responsible for administering the program within the Department of Interior.

Under this final version of H.R. 1444, the U.S. Fish and Wildlife Service will have responsibility for administering the program. The Fish and Wildlife was chosen as the lead

agency because it has the expertise to most effectively administer the fish screen program. However, I would like to make it clear there are other federal agencies with expertise, capability and an interest in reducing fish mortality at irrigation diversions. Recognizing this, the bill directs the Fish and Wildlife Service to consult with other agencies when implementing the program. I also believe that, in addition to a consultative role, other agencies may contribute funds for programs developed under the authority of the act. I see the contribution of funds from federal agencies other than the Fish and Wildlife Services as especially appropriate from agencies involved in water management in the region and in the operations of the Federal Columbia River Power System, including the Bureau of Reclamation, the Army Corps of Engineers, and the Bonneville Power Administration to contribute the funds for the fish screen construction program.

In fact, it is my understanding that the draft Biological Opinion for the Federal Columbia River Power System issued in July calls for offsite mitigation by these agencies. Such mitigation under the draft Biological Opinion can include construction and installation of fish screens at irrigation diversions. I am hopeful that contributions of funds to develop programs under the authority of this act could be credited as offsite mitigation under the finalized Biological Opinion.

As a member of the House Transportation and Infrastructure Committee as well as the House Resources Committee, I want to acknowledge the interest that Transportation Committee maintains in the bill and the projects developed under the bill's authority. The Transportation Committee should receive any reports prepared for Congress on the program. The Committee should particularly be included if projects relate to compliance with the Clean Water Act. In addition, the Corps of Engineers and EPA should be consulted on projects developed for compliance with the Clean Water Act.

The legislation is supported by numerous conservation, recreation and water user groups including the Oregon Water Resources Congress and Save Our Wild Salmon, a coalition of sport and commercial fishing groups fishing businesses and conservation organizations. The bill is also supported by the Oregon Department of Fish and Wildlife.

The bill has bipartisan support in the House and Senate. The bill was approved by the House of Representatives on November 9th of last year. A similar measure was introduced in the Senate by Senator Ron Wyden (D-Ore.) and Senator Gordon Smith (R-Ore.) and was approved by the full Senate on April 13, 2000. I urge my colleagues to vote in favor of this important legislation.

İ also want to thank my colleagues who helped with this bill, including Mr. WALDEN of Oregon. Resources Committee Chairman DON YOUNG and Ranking Member GEORGE MILLER, and Senators RON WYDEN and GORDON SMITH. I'd also like to acknowledge the many congressional staff members who worked on this bill including: Kathie Eastman of my personal staff, Lindsay Slater and Troy Tidwell of Mr. WALDEN'S staff; Steve Lanich, Bob Faber and Doug Yoder of the House of Resources

Committee; Ben Grumbles and Art Chan of the House Transportation and Infrastructure Committee; Joshua Sheinkman, and Eileen McLellan of Senator Wyden's staff; Valerie West of Senator SMITH's staff; and former staffers Cynthia Suchman and Martin Kodis.

Mr. CALVERT. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. BIGGERT). The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and agree to the resolution, House Resolution 630.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

### GENERAL LEAVE

Mr. CALVERT. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 4187; S. Con. Res. 145; S. 406; H.R. 4404, as amended; H.R. 1695; H.R. 2570; S. 1705; S. 2917; H.R. 5041; H.R. 4521, as amended; H.R. 5308, as amended; H.R. 4646, as amended; H.R. 3926; H.R. 4312; S. 2102; S. 1936, as amended; S. 1296; H.R. 5398; and H. Res. 630

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

### FEDERAL FIREFIGHTER RETIRE-MENT AGE CORRECTION ACT

Mr. OSE. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 460) to amend title 5, United States Code, to provide that the mandatory separation age for Federal firefighters be made the same as the age that applies with respect to Federal law enforcement officers.

The Clerk read as follows:

### H.R. 460

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. MANDATORY SEPARATION AGE FOR FIREFIGHTERS.

- (a) CIVIL SERVICE RETIREMENT SYSTEM —
- (1) IN GENERAL.—The second sentence of section 8335(b) of title 5, United States Code, is amended—
- (A) by inserting ", firefighter," after "law enforcement officer"; and
- (B) by inserting ", firefighter," after "that officer".
- (2) CONFORMING AMENDMENT.—Section 8335(b) of title 5, United States Code, is amended by striking the first sentence.
- (b) FEDERAL EMPLOYEES' RETIREMENT SYSTEM.—
- (1) IN GENERAL.—The second sentence of section 8425(b) of title 5, United States Code, is amended—
- (A) by inserting ", firefighter," after "law enforcement officer"; and
- (B) by inserting ", firefighter," after "that officer".

(2) CONFORMING AMENDMENT.—Section 8425(b) of title 5, United States Code, is amended by striking the first sentence.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. OSE) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. OSE).

#### GENERAL LEAVE

Mr. OSE. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 460.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. OSE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I am pleased to have the House consider H.R. 460, important legislation introduced by the from California gentleman (Mr. GALLEGLY). This bipartisan legislation amends Federal civil service law relating to the Civil Service Retirement System and the Federal Employees' Retirement System to provide the same mandatory separation age for Federal firefighters and Federal law enforcement officers who have 20 years of service.

Currently, the mandatory separation age is 55 for firefighters and 57 for law enforcement officers. In both cases, an agency head may allow the employees to work until age 60 if that is required by the public interests.

The Subcommittee on Civil Service has examined the legislative history of these mandatory separation ages and the committee determined that there is no rationale for continuing to maintain the discrepancy that currently exists. If enacted, H.R. 460 will bolster our firefighting capabilities allowing these brave men and women the option of continuing their careers for an additional 2 years and will make it easier to maintain more experienced firefighters in the field and in senior management positions.

Madam Speaker, I encourage all Members to support this bill.

Madam Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, as of early September, more than 6.5 million acres, more than two times the 10-year national average, have burned. Federal manpower resources were spread thin. More than 29,000 people were involved in firefighting efforts, including approximately 2,500 Army soldiers and Marines and fire managers from Canada, Australia, Mexico, and New Zealand. In addition, 1,200 fire engines, 240 helicopters and 50 airtankers were in use this season.

If nothing else, this fire season has taught us that we must take steps to recruit and retain more Federal fire-fighters. H.R. 460 is a step in that direction.

From the start of the Civil Service Retirement System in 1920 until 1978, all Federal workers were required to retire at age 70, if, at that age, they had completed at least 15 years of service. In 1978, mandatory retirement was repealed for most Federal workers; although, it continues to apply to special occupational groups whose duties pertain to public safety.

Under current law, Federal law enforcement officers must retire at age 57 or as soon after that age as they complete 20 years of service. The agency head may grant exemptions up to age 60. Federal firefighters must retire at age 55 or as soon thereafter as they complete 20 years of service.

H.R. 460 would raise the mandatory retirement age for firefighters to mirror that of Federal law enforcement officers. It would raise the mandatory retirement age of Federal firefighters to that of age 57.

In June, The Washington Post reported a 5.8 percent reduction in the number of firefighters nationwide. H.R. 460 will help stem the declining firefighting population and will help the Federal Government retain some of its most experienced firefighters.

In addition to supporting this legislation, I urge my colleagues to support a bill I introduced last year that will be of equal benefit to the Federal public safety community. In May of last year, I introduced H.R. 1769, the Federal Employees Benefits Equity Act of 1999. This bill works to eliminate a number of inequities found in the computation of benefits for public safety employees under the Federal Employees Retirement System and the Civil Service Retirement System.

Although H.R. 1769, like the bill before us, H.R. 460, would be of tremendous benefit to the firefighter and law enforcement communities and their families, it is yet to be scheduled for floor action.

I look forward to working with the gentleman from Florida (Mr. SCAR-BOROUGH), chairman of the Subcommittee on Civil Service, and the author of H.R. 460, the gentleman from California (Mr. GALLEGLY), to bring H.R. 1769 to the floor of the House before the end of session.

Madam Speaker, I would be more than remiss if I did not acknowledge the hard work of the gentlewoman from California (Mrs. CAPPS) who worked so diligently with the gentleman from California (Mr. GALLEGLY) to bring H.R. 460 to this floor today.

I thank the gentlewoman and I thank the members of the Committee on Government Reform. I thank the members of the Subcommittee on Civil Service; and I join with my colleagues, with the gentlewoman from California (Mrs. CAPPS) and the gentleman from California (Mr. GALLEGLY) and ask that my colleagues give this bill your support.

Madam Speaker, I yield back the balance of my time.

Mr. OSE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I want to commend the gentleman from California (Mr. GALLEGLY) for introducing this important bill and for his efforts to bring it to the floor. I also want to thank the gentleman from Maryland (Mr. CUMMINGS), the distinguished ranking member, for cosponsoring the bill and for his continued work and cooperation on it.

I would also like to extend heartfelt thanks to the gentleman from Indiana (Mr. Burton), chairman of the Committee on Government Reform; the gentleman from Florida (Mr. SCAR-BOROUGH), the chairman of the Subcommittee on Civil Service; the gentleman from California (Mr. WAXMAN), the ranking member, for their support.

The Congressional Budget Office estimates that the bill will actually save the government \$4 million in direct spending over the next 5 years. The Office of Personnel Management, which administers civil service retirement, believes that it is appropriate to apply the same mandatory separation age to firefighters and law enforcement officers. I urge Members to lend their support.

Madam Speaker, I yield 5 minutes to the gentleman from Pennsylvania (Mr. WELDON).

Mr. WELDON of Pennsylvania. Madam Speaker, I want to thank my colleagues on both sides of the aisle for this important legislation and the gentleman from California (Mr. GALLEGLY) for his work in this effort.

I want to relate to my colleagues that since I have been in Congress for the past 14 years, the support for our fire and EMS people has been one of my top priorities, partly because I was a volunteer firefighter and a fire chief before coming here.

I have traveled to all 50 States and spoken to all their national and Statewide associations. This has, without any doubt, been the most responsive Congress in the history of this institution in support of the Nation's fire and EMS community.

We passed, earlier this year, a \$2.9 billion appropriation for the forest fire problem in America, including replenishing funds that were used up with the forest fires of this year.

We passed a \$100 million add-on to the supplemental bill, which the leadership has committed will be in the final act signed by the President next week.

We passed as part of our defense bill, not only a \$500 million authorization initiative that I was able to get included, but we increased the avail-

ability for Federal surplus property for fire and EMS departments.

We commissioned a special panel to look at the radio frequency spectrum issue to make more radio frequency spectrum available.

We established a seven-member advisory board in the Pentagon of the fire and EMS groups to look at technology that can benefit firefighters and paramedics around the country, and we have taken a whole new effort to revitalize support for the rural firefighters of America. In fact, a new multiyear grant program that we established under FEMA will, in fact, give fire departments across the country the opportunity to provide matching funds to buy equipment, turn out gear, breathing apparatus and all those other tools that are so necessary.

This bill adds one more dimension to what we have done in this Congress for the Nation's fire and EMS community. They are our domestic defenders. They are the people who respond to every disaster that we have in America, from hurricane and fire to flood and tornado they are there, they have been there longer than the country has been a country, 100 of them are killed each year in the course of doing their duty, even though 85 percent of them are volunteers.

This legislation specifically pays attention to the retirement status of firefighters. It is significant legislation, because it brings them in line with law enforcement and other personnel.

Madam Speaker, I want to applaud our membership and leadership on both sides of the aisle, my colleagues who have done a great job; and I just say to our colleagues they can go home with a great deal of pride and let the fire and EMS community know we are on their side.

In fact, just within the next hour, I will be meeting with the representative of AmeriCorps. Now I have never supported the AmeriCorps program; and I never supported it because it is a half a billion dollar program to create volunteers, but the volunteer fire service has never been eligible for the program.

# □ 1515

Amazing. It is not politically correct to volunteer to fight fires or to be ambulance or paramedic attendants. They want to come in now because AmeriCorps wants to support America's emergency response personnel who are volunteers. To our colleagues, this has been a fantastic situation.

I would just add, not one of these initiatives was proposed by the White House. Every one of these initiatives came from our colleagues on both sides of the aisle who have worked together to bring additional support for America's domestic defenders.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may con-

Madam Speaker, I agree with the gentleman from Pennsylvania (Mr. WELDON) in this light, that the committee has been very responsive to firefighters. We understand clearly the job that they do. We understand the dangers. We also understand that we owe them a great debt of gratitude.

We have seen the fires in the West, and we realize that so often when those fire fighters go into the woods and go to put out those forest fires, and other kinds of fires, of course, they do not know whether they are coming home.

So because of that, I think our committee has been very, very sensitive. I want to thank the gentleman from California (Mr. OSE) for all of his hard work on our subcommittee, and all the other members of the subcommittee, because it was a bipartisan effort.

Mr. TURNER. Madam Speaker, I rise to honor the efforts of thousands of firefighters who have struggled against one of the worst fire seasons in decades. In Texas we saw over 31,000 fires destroy almost 600,000 acres of forests, grasslands, homes, and businesses.

The wildfires that swept across East Texas this summer were part of a nation-wide fire season that burned almost 7 million acres, equal to the entire state of Maryland.

It is difficult to imagine the destruction we would have witnessed if it were not for the thousands of brave men and women who fought the fires that threatened their homes and their communities. Without the work of these firefighters, many more acres would have been reduced to charred fields and skeletal homes. Many more forests would have been left smoldering, and many more lives would have been put in grave danger.

I offer my heartfelt gratitude to every person who took part in the dangerous fight to combat these devastating fires. Their work in protecting our lives, our families, our property, and our environment is deeply appreciated by all East Texans.

Fighting fires is trying and exhausting work. Hot, smoke-filled air and ash clog the lungs, and East Texas summer temperatures often climb well over 100 degrees. In addition to directly attacking the fires, our firefighters spent their time cutting fire lines, burning out dangerous areas, and mopping up after fires so that they do not flare up again. They walk fire lines for miles and spend hours scrapping, chopping, and digging while wearing stifling protective equipment.

Sleep is infrequent, uncomfortable, and rarely uninterrupted. There's no 9 to 5 shift on the fire line; crews work around the clock, pushing themselves past the point of exhaustion. Blistered feet and bloodshot eyes are universal, while heat exhaustion and serious injuries are common. Occasionally, a brave firefighter will lose his life.

Entire communities have banded together fighting the fires. Fire support teams have volunteers working as drivers, equipment managers, and assistant paramedics. It is a mental and physical challenge, and our firefighters have shown commitment, strength and determination that make us all proud.

As children, our parents told us stories of all types of heros. From David fighting Goliath to

knights in shining armor, from Greek warriors to great patriots like George Washington, Sam Houston, and Davy Crockett we strive to reach their level of courage, bravery, determination and faith. We admire them for protecting their families, their lands, and their communities.

This summer, the firefighters of East Texas have given us new stories to tell our children. Their sacrifices saved countless lives, buildings, and acres of natural resources.

We owed them a great debt. I hope that our children will listen closely to the stories we tell. When they grow up, we can only hope that they will follow the example set by these heros. Our firefighters represent the highest standards of public service.

Mr. GALLEGLY. Madam Speaker, I would first like to thank Chairman BURTON, Subcommittee Chairman SCARBOROUGH, Mr. CAMP and Ms. CAPPS for their help in bringing this bill to the floor. I would also like to thank my constituent, retired Captain Mike Hair of the federal firefighting unit at Point Mugu Naval Air Station, for first bringing this important issue to my attention.

Madam Speaker, H.R. 460 is a bill I first introduced in 1995 to stop the forced early retirement of our federal firefighters. The bill raises the mandatory retirement age for federal firefighters from 55 to 57, allowing federal firefighters the option of continuing their careers for an additional two years. The bill has gained over 92 bipartisan cosponsors, and the endorsement of the International Association of Fire Chiefs.

Several years ago, Congress passed legislation which raised the mandatory retirement age for "federal law enforcement officers" from 55 to 57. However, Congress neglected to raise the retirement age for federal fire-fighters. The net result has been that capable firefighters are being denied the opportunity to work simply because they turn 55. I introduced H.R. 460 to correct this omission in the law.

Madam Speaker, when this year's fire season reached its height, communities around the nation endured a dangerous shortage of experienced firefighters. I represent most of Ventura County, California, which has faced two major brush fires since the beginning of the fire season in mid-May. These fires have consumed thousands of acres. The latest of the fires struck dry grass in Piru, injuring five firefighters and scorching hundreds of acres near an underground oil pipeline.

Firefighters from the U.S. Forest Service and California Department of Forestry joined hundreds of firefighters form Ventura and Los Angeles counties to battle the flames.

Despite an increase in the overall fire budget nationally, federal fire management officers in California and the rest of the West faced a shortage of experienced personnel. With a declining firefighting population nationwide, Governors in some cases had to call upon Army National Guard units and volunteers with much less experience and training to fight the fires. In addition, CBS News reported that even retired fire managers were being called up to oversee and manage these fires. In the aftermath, firefighting officials are now looking for ways to help prevent a repeat of this year's devastation, which claimed more than 6 million acres

According to the Washington Post, 57 percent of the U.S. Forest Service firefighters are

45 or older. According to the Brookings Institute, most new hires are 35 and older and training for senior management positions can take 12 to 17 years. As a result, we are losing our best and most experienced firefighters to forced early retirement.

If enacted, this bill will bolster our firefighting capabilities by maintaining more experienced firefighters in the field and in senior management positions by allowing these brave men and women the option of continuing their careers for an additional two years. As an added bonus, Madam Speaker, the CBO estimates that the bill will actually save the government \$4 million over the next 5 years.

We must act now to ensure we have the experienced personnel needed to fight our nation's fires during next year's fire season.

Mrs. CAPPS. Madam Speaker, I rise today in support of H.R. 460, a bill to raise the mandatory retirement age for federal firefighters from 55 to 57. As the lead cosponsor, I am proud that the House has passed this timely legislation.

As the recent wildfires which ravaged much of the West have shown, firefighters, are in great demand. Many of our Nation's firefighters are quickly approaching retirement age, highlighting the growing shortage of welltrained, quality firefighters. In my District, federal firefighters have been part of the team of courageous men and women battling the Harris fire and the smoldering peat bog on Vandenberg Air Force Base during the past several weeks. These heroes deserve our strongest support, and I'm proud to have played a role in securing this victory. This important legislation will allow more firefighters to remain on the front lines in the battle against devastating fires in my District and across the country.

Several years ago, Congress raised the mandatory retirement age for federal law enforcement officers from 55 to 57. H.R. 460 would correct this oversight and adjust the federal firefighters' retirement age so that it is equal to that of federal law enforcement officers. This legislation has bipartisan support and the endorsement of the International Association of Fire Chiefs (IAFC).

Currently, over 2,500 federal firefighters are based in California—the largest percentage of federal firefighters in the country. A recent report issued by the General Accounting Office (GAO) stated that because of an aging work force there will be a shortage of qualified firefighters in the U.S. Forest Service and the Bureau of Land Management, and that the situation could have a direct impact on firefighters' safety. In fact, as reported recently in the Washington Post, 57 percent of Forest Service firefighters are 45 years of older (8/11/00). Because it takes 17-22 years of experience to become eligible for firefighters leadership positions, an extra two years of service would be of critical importance to a qualified and effective fire fighting operation.

Madam Speaker, I thank you for the opportunity to bring this important legislation to the Floor for a vote and I commend the dauntless efforts of the firefighters in my District and across the nation.

Mr. CUMMINGS. Madam Speaker, I yield back the balance of my time.

Mr. OSE. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. BIGGERT). The question is on the motion offered by the gentleman from California (Mr. OSE) that the House suspend the rules and pass the bill, H.R. 460.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

## MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate has passed with an amendment in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 4635. An act making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes.

The message also announced that the Senate insists upon its amendment to the bill (H.R. 4635) "An Act making appropriations for the Department of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. BOND, Mr. BURNS, SHELBY, Mr. CRAIG, Mrs. HUTCHISON, Mr. KYL, Mr. DOMENICI, Mr. STEVENS, Ms. MIKULSKI, Mr. LEAHY, Mr. Lautenberg, Mr. Harkin, Mr. REID, Mr. BYRD, and Mr. INOUYE, to be the conferees on the part of the Senate.

# NATIONAL CHILDREN'S MEMORIAL DAY

Mr. OSE. Madam Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 415) expressing the sense of the Congress that there should be established a National Children's Memorial Day.

The Clerk read as follows:

H. CON. RES. 415

Whereas approximately 80,000 infants, children, teenagers, and young adults of families living throughout the United States die each year from myriad causes;

Whereas the death of an infant child, teenager, or young adult of a family is considered to be one of the greatest tragedies that a parent or family will ever endure during a lifetime: and

Whereas a supportive environment and empathy and understanding are considered critical factors in the healing process of a family that is coping with and recovering from the loss of a loved one: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That—  $\,$ 

(1) it is the sense of the Congress that there should be established a National Children's Memorial Day; and

(2) the Congress requests that the President issue a proclamation calling upon the people of the United States to observe such a day with appropriate ceremonies and activities in remembrance of the many infants, children, teenagers, and young adults in the United States who have died.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. OSE) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. OSE).

## GENERAL LEAVE

Mr. OSE. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on House Concurrent Resolution 415.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. OSE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I am pleased to have the House consider House Concurrent Resolution 415, introduced by my colleague, the gentleman from Michigan (Mr. KNOLLENBERG).

This legislation expresses the sense of Congress that a National Children's Memorial Day should be established. Additionally, it asks the President to issue a proclamation calling upon the people of the United States to observe such a day, with appropriate ceremonies and activities, in remembrance of the many infants, children, teenagers, and young adults in the United States who have died.

Madam Speaker, the death of a child at any age is a shattering experience for any family. By establishing a day to remember children that have passed away, bereaved families from all over the country will be encouraged and supported in the positive resolution of their grief. It is important to families who have suffered such a loss to know that they are not alone. To commemorate the lives of these children with a special day would pay them an honor, and help to bring comfort to the hearts of their bereaved families.

For the past 2 years, the Senate has recognized the second Sunday in December as National Children's Memorial Day. Last year, the House passed a resolution similar to what we are considering here today.

As a husband, and father of two young girls, I can think of nothing more terrifying than losing one of mine. They are my daily source of joy and inspiration. Yet, approximately 80,000 infants, children, teenagers, and young adults die each year from any number of reasons.

After losing a child, parents and siblings are left with a void in their life. Questions are left unanswered. So many things are left unsaid. Those of us who have not experienced such loss are unable to adequately communicate our sympathy, and fail in our task to comfort the bereaved.

To this end, a support network can be of great assistance. The Children's Memorial Day provides an opportunity for these families to collectively express their pain and to form these support networks.

For example, on December 10, starting in New Zealand, candles will be lit for 1 hour, beginning at 7 p.m. local times, creating a 24-hour observance around the globe. This simple act goes a long way to help those who have lost a child, a grandchild, a sibling, or a friend, particularly during the December holiday season, when the loss is the most difficult to bear.

This simple and easy resolution may not seem like much to many, but I can assure the Members that to those families who have lost loved ones, the support that we show here today will go a long way in helping them cope with that loss.

It is important for families who have suffered such a loss to know they are not alone. Please help us in passing this resolution. I ask Members to express their support for this worthy and noble cause by voting aye. We carry the responsibility to honor and remember those who have died before their time. As compassionate concerned citizens, one of the best actions we can take is to support those who are left behind.

Madam Speaker, I encourage all Members to support this bill.

Madam Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I agree with the gentleman from California (Mr. OSE), this is a very, very important resolution. I think when one looks at it on its face we may not fully understand its significance, but it is so important.

Yesterday, hundreds of families journeyed to Washington, D.C. to celebrate the importance of family and to examine the vital role that families play in maintaining stable and prosperous communities. In years past, we have had the Million Man March, the Million Moms March, but this time our children were encouraged to participate. Many thousands of children did attend the march, and some even addressed the crowds about issues that were of particular concern to them.

The Nation took special note of our children yesterday in a positive and inspirational way. We adults were compelled to contemplate the world we have made for them, full of good times and bad, hope and despair, life and death.

Yesterday in the Middle East, Madam Speaker, during the ongoing violence involving the Palestinians and the Israelis, a child was left brain dead from a gunshot wound to the head. The loss of a child, no matter what the circumstances and no matter where, causes tremendous personal grief for the family and friends. It causes some of us to stop and reflect on the loss, and sometimes consider, could or should we have done something to prevent it. It also makes us think about all the unmet and unfulfilled dreams of those children and their families.

It is devastating to me when young lives are cut short. Those affected by such a tragedy often need assistance and support to get through the experience. I am glad to know that help is available. The Compassionate Friends, Incorporated, also known as TCF, is a group whose mission is to assist families in the positive resolution of grief following the death of a child.

TCF conceived and nurtured the worldwide candlelighting. In its fourth year, the candlelighting is held in the second Sunday in December. Participants around the globe light candles for 1 hour to honor children who have died. The candles are lit at 7 p.m. local time starting in New Zealand. As candles burn down in each time zone, they are then lit in the next. This creates a virtual 24-hour wave of light as the observance continues around the world.

In the United States, approximately 228,000 children and young adults die every year. Nineteen percent of the adult population has experienced the death of a child, and 22 percent the death of a sibling. Taking into account people who have lost a child and sibling, 36 percent of the adult population has suffered the death of a child, a sibling, or both.

Madam Speaker, just yesterday in my district I spoke at the West Baltimore Middle School to 37 eighth graders. I asked them a very simple question, but the answer was very telling. I asked them how many of them had had a loved one, a friend, a young person to die by gun violence. Out of those 37 children living in the inner city of Baltimore, 35 raised their hands. That is here in America. That happens in our cities and even in our rural areas. We certainly grieve for those families.

House Concurrent Resolution 415 expresses, therefore, the sense of Congress that a National Children's Memorial Day should be established to remember the infants, children, teenagers, and young adults in the United States who have died.

As we remember America's children, let us also remember those who grieve for them. Whether it be from gun violence, an airplane or car crash, a miscarriage, or a terminal illness, the loss of a child is something no parent, no parent, should have to experience, but many do. Children's Memorial Day is a

time when we as individuals and as a nation can show our compassion to those who have suffered such a loss.

Madam Speaker, I have often said that our children are the living messages we send to a future we will never see. It is sad to think that so often our children die before their parents, so we have no message to send to the future. Hopefully, on this Memorial Day, when we think about our children who have died, we will also think about ways that we can prevent them from dying so that they can experience this wonderful journey called life.

Many organizations and support groups, such as the Compassionate Friends, exist to help bereaved parents deal with their grief. Yet, only 46 percent of parents are aware of them. Let us join TCF in observing December 10 as Children's Memorial Day, and let it serve as an opportunity for grief support organizations and churches to increase awareness of their services and programs.

Madam Speaker, I urge our Members to vote in favor of this very important and wonderful legislation that has been sponsored by the gentleman from Michigan (Mr. KNOLLENBERG), and I reserve the balance of my time.

Mr. OSE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I want to also commend the gentleman from Michigan (Mr. KNOLLENBERG) for introducing this important bill, and for his efforts to bring it to the floor. I would like to thank the distinguished gentleman from Maryland (Mr. CUMMINGS), the ranking member, for cosponsoring this bill, and for his continued work on this subject.

Again, I would like to thank the full committee chairman, the gentleman from Indiana (Mr. Burton), the chairman of the subcommittee, the gentleman from Florida (Mr. SCARBOROUGH), and the ranking member, the gentleman from California (Mr. WAXMAN), for their support.

If passed, Madam Speaker, this will be the third consecutive year we will have designated the second Sunday in December as Children's Memorial Day. I urge Members to lend their support.

Madam Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I would urge that all Members support this legislation. I would thank the gentleman from California (Mr. OSE) for his leadership with regard to Children's issues.

As he talked about his daughters, I could not help but think about the little prayer, Madam Speaker, that we say so often with our children: "Now I lay me down to sleep. I pray the Lord my soul to keep. If I should die before I wake, I pray the Lord my soul to take."

Anyone who has knelt over a child and said that prayer, they cannot help but feel tingles and sometimes a tear at just the thought of that child not rising, just the thought of that child not being able to live out the full potential that God has given to them.

Madam Speaker, I urge our membership to support this very important resolution, but in supporting this, I hope that when December 10 comes that we will also, as a Congress and as a body and as a country and as a world, do everything in our power to make sure that every one of our children, no matter where they are, no matter who they are, are able to rise up to be all that they can be, and be the best that they can be.

# □ 1530

Madam Speaker, I yield back the balance of my time.

Mr. OSE. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. BIGGERT). The question is on the motion offered by the gentleman from California (Mr. OSE) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 415.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. OSE. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

# SOCIAL SECURITY NUMBER CONFIDENTIALITY ACT OF 1999

Mr. OSE. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 3218) to amend title 31, United States Code, to prohibit the appearance of Social Security account numbers on or through unopened mailings of checks or other drafts issued on public money in the Treasury.

The Clerk read as follows:

# H.R. 3218

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

# SECTION 1. SHORT TITLE.

This Act may be cited as the "Social Security Number Confidentiality Act of 1999".

# SEC. 2. OPEN DISCLOSURE OF SOCIAL SECURITY ACCOUNT NUMBERS ON THE FACE OF GOVERNMENT CHECK MAILINGS PROHIBITED.

Section 3327 of title 31 of the United States Code (relating to general authority to issue checks and other drafts) is amended—

- (1) by inserting "(a)" before "The Secretary"; and
- (2) by adding at the end the following new subsection:
- "(b) The Secretary of the Treasury shall take such actions as are necessary to ensure that Social Security account numbers (including derivatives of such numbers) are not

visible on or through unopened mailings of checks or other drafts described in subsection (a) of this section.".

# SEC. 3. EFFECTIVE DATE AND TRANSITIONAL RULE.

(a) IN GENERAL.—The amendments made by this Act shall apply with respect to all mailings of checks or other drafts issued on or after the date which is 3 years after the date of the enactment of this Act.

(b) PHASE-IN OF AMENDMENTS.—Effective on the date of the enactment of this Act, the Secretary of the Treasury shall commence procedures to gradually implement the amendments made by this Act in advance of the effective date described in subsection (a). Not later than one year after the date of the enactment of this Act, and annually thereafter for each of the next two years, the Secretary shall transmit to each House of the Congress a report describing the manner and extent to which the requirements of the preceding sentence have been carried out.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. OSE) and the gentleman from Texas (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. OSE).

Mr. OSE. Madam Speaker, I yield such time as he may consume to the gentleman from California (Mr. CAL-VERT).

Mr. CALVERT. Madam Speaker, I rise as the author of H.R. 3218, the Social Security Number Confidentiality Act of 1999.

First, though, I would like to thank the leadership for bringing the problem of personal privacy into the national arena, especially the gentleman from Florida (Mr. Shaw), chairman of the Subcommittee on Social Security of the Committee on Ways and Means, who presently has a more comprehensive bill before the House, for his long-time advocacy of personal information privacy.

H.R. 3218 is only a small step toward protecting all Americans from identity theft, and I look forward to working with the gentleman from Florida (Chairman SHAW) next year.

H.R. 3218 stops the Federal Government from making identity theft any easier for con artists. How? My bill prohibits the appearance of Social Security account numbers on or through unopened mailings of checks or other drafts issued by the Treasury Department.

This problem was brought to my attention by senior citizens in my district who revealed that their Social Security numbers appeared in the windowed part of their Social Security checks, making them easy targets to scam artists. Just remember the credit card scam that victimized military officers whose names, addresses, and Social Security numbers were printed in the Congressional Record.

Congress has since halted this practice. Is it not time that we take steps to ensure the safety and privacy for our senior citizens?

Just last month, the Treasury Department confirmed that Social Security numbers would no longer be visible through the windows of benefits checks, such as Social Security checks.

However, the need for this legislation still exists. Any future administration could, for the sake of time or efficiency, return to the practice of using Social Security numbers for positive identification. The banking industry's concern over efficiency has been addressed in my bill by leaving Social Security numbers on the benefit checks, just not in a place where it can be seen in a windowed envelope.

H.R. 3218 ensures that seniors are never again put at risk of having their Social Security numbers displayed in plain view where they are available for criminals and fraud. It will protect the privacy and confidentiality of our Social Security numbers.

Again, I would like to thank the leadership and the gentleman from Florida (Chairman SHAW) for bringing this bill to the floor for consideration.

Mr. TURNER. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of this bipartisan legislation, H.R. 3218, the Social Security Number Confidentiality Act, which amends the law to direct the Secretary of the Treasury to make necessary changes to ensure that Social Security numbers are not visible through the unopened mailings of government checks or other drafts.

I appreciate the gentleman from California (Mr. CALVERT) for bringing this legislation forward, and I also commend the Department of the Treasury which also noted that this change needed to be made.

In fact, in August of this year, the Treasury Department announced that Social Security numbers would no longer be visible through the envelope window of checks mailed to Social Security recipients.

This past September, the Treasury Department began using the check numbers rather than the Social Security numbers to identify and to retrieve payments that are ineligible for delivery. This was a welcome and a necessary change.

I commend the gentleman from California (Mr. CALVERT) and the Department of the Treasury both for noting that this important change needed to be made on the mailings of our Nation's Social Security checks.

It is interesting to note that there are a number of House Members who also have privacy bills that are pending who are anxious to have this House act on their legislation. The gentleman from Wisconsin (Mr. Kleczka) has H.R. 1450; the gentleman from Florida (Mr. SHAW) has H.R. 4857; the gentlewoman from Oregon (Ms. HOOLEY) has H.R. 4311; the gentleman from Massachusetts (Mr. Markey) has H.R. 4611. All of these bills are worthy of consideration may have 5 legislative days within by this Congress.

Unfortunately, time seems to be running out on these important measures that are designed, as the bill of the gentleman from California (Mr. CAL-VERT) is designed, to protect the privacy of American citizens.

Again, clearly, our citizens do not deserve to have their Social Security numbers displayed to the public on the envelopes in which they receive their Social Security checks.

Madam Speaker, I urge all Members to join in adopting this resolution.

Madam Speaker, I yield back the balance of my time.

Mr. OSE. Madam Speaker, I also urge adoption of this bill. Having no other requests for time, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. OSE) that the House suspend the rules and pass the bill, H.R. 3218.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. OSE. Madam Speaker, on that I demand the year and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

# GEORGE ATLEE GOODLING POST OFFICE BUILDING

Mr. OSE. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 5210) to designate the facility of the United States Postal Service located at 200 South George Street in York, Pennsylvania, as the "George Atlee Goodling Post Office Building".

The Clerk read as follows:

# H.R. 5210

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

# SECTION 1. GEORGE ATLEE GOODLING POST OF-FICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 200 South George Street in York, Pennsylvania, shall be known and designated as the "George Atlee Goodling Post Office Building'

(b) References.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the George Atlee Goodling Post Office Building.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. OSE) and the gentleman from Texas (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. OSE).

# GENERAL LEAVE

Mr. OSE. Madam Speaker, I ask unanimous consent that all Members which to revise and extend their remarks on H.R. 5210.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. OSE. Madam Speaker, I yield such time as he may consume to the gentleman from Pennsylvania (Mr. GOODLING).

Mr. GOODLING. Madam Speaker, I thank the gentleman for yielding me this time.

Madam Speaker, I am pleased to have the opportunity to speak on behalf of my legislation, H.R. 5210, which would designate the United States postal facility at 200 South George Street in York, Pennsylvania, as the George Atlee Goodling Post Office. I would like to note that this legislation is cosponsored by all of the Members of the Pennsylvania delegation.

Madam Speaker, my father was a man who dedicated his life to public service and to agriculture. He was quite a local athlete, playing football, basketball, baseball, both in prep school and in Pennsylvania State University until he broke his leg. I can remember as an elementary child seeing him continue to play first base on the Loganville baseball team.

My brothers and sisters were not lectured on public service. We were not lectured that we must give back. We learned by example because both Mother and Dad were volunteers in most everything there was in our community.

Dad was the fire chief in Loganville for as long as I can remember. He was the chief cook and bottle washer at all fire company suppers as long as I can remember. He served on the school board for 28 years. He served in the State House of Representatives for 14 years and then came to the U.S. House of Representatives for 12 years.

After serving in the Navy in World War I, he completed his studies at Pennsylvania State University and began coaching and teaching in the State of Delaware.

He then returned to Loganville to begin what became the Goodling Orchard and Truck farming business, which is still continued today.

He used his education to teach vocational agriculture and was, again, the executive secretary for the Pennsylvania Horticulture Association for as long as I can remember.

He used his knowledge both in the State legislature from the education he received and in the Congress to further conservation and agriculture.

As a State representative, he wrote the first Pennsylvania soil conservation legislation and introduced legislation to regulate the marketing of insecticides.

When he came to the Congress, he was assigned to the Committees on Agriculture and Merchant Marine and Fisheries where he could continue his work on behalf of the farmer and conservation. He was known here as the "Farmer Congressman" by his colleagues and worked hard to ensure that the interests of Eastern farmers was carried equally as important as those of the Midwest.

During his tenure in the Congress, he worked to provide funds to the States for hunter education programs and to provide additional funds for wildlife restoration.

Upon his retirement from the Congress of the United States, he returned to Loganville and continued his work on the family farm and family orchards. I am pleased to introduce this legislation and have it come to the floor, and I ask that it would be passed.

Mr. TURNER. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, it is with a great deal of pleasure that I rise in support of H.R. 5210, which names a postal facility after George Atlee Goodling, the father of the gentleman from Pennsylvania (Mr. GOODLING), who has served with such distinction, himself, in this House.

I suppose there is no greater occasion than when we have the opportunity to pay tribute to our fathers. I know it is with a great deal of pride and satisfaction that the gentleman from Pennsylvania (Mr. GOODLING) can stand today before this House and pay tribute to his father in this way.

Clearly, both Goodlings served with distinction in this House and served the people of Pennsylvania very, very well. So I take a great deal of pride and satisfaction personally in being able to be a part of joining in support of H.R. 5210, to name this postal facility after George Atlee Goodling.

Madam Speaker, I yield back the balance of my time.

Mr. OSE. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. OSE) that the House suspend the rules and pass the bill, H.R. 5210.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

# □ 1545

APPOINTMENT OF CONFEREES ON H.R. 4635, DEPARTMENTS OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOPMENT, AND INDEPENDENT AGENCIES APPROPRIATIONS ACT, 2001

Mr. LEWIS of California. Madam Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 4635) making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes, with a Senate amendment thereto, disagree to the Senate amendment, and agree to the conference asked by the Senate.

The SPEAKER pro tempore (Mrs. BIGGERT). Is there objection to the request of the gentleman from California? The Chair hears none and, without objection, appoints the following conferees: Messrs. Walsh, Delay, Hobson, Knollenberg, Frelinghuysen, Mrs. Northup, Messrs. Sununu, Goode, Young of Florida, Mollohan, Ms. Kaptur, Mrs. Meek of Florida, Mr. Price of North Carolina, Mr. Cramer and Mr. Obey.

There was no objection.

# J.T. WEEKER SERVICE CENTER

Mr. OSE. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 5016) to redesignate the facility of the United States Postal Service located at 514 Express Center Drive in Chicago, Illinois, as the "J.T. Weeker Service Center." as amended.

The Clerk read as follows:

#### H.R. 5016

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

# SECTION 1. J.T. WEEKER SERVICE CENTER.

(a) REDESIGNATION.—The facility of the United States Postal Service located at 514 Express Center Road in Chicago, Illinois, and known as the Chicago International/Military Service Center, shall be known and designated as the "J.T. Weeker Service Center".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the J.T. Weeker Service Center.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. OSE) and the gentleman from Texas (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. OSE).

# GENERAL LEAVE

Mr. OSE. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 5016, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. OSE. Madam Speaker, I reserve the balance of my time.

Mr. TURNER. Madam Speaker, I yield myself such time as I may consume.

H.R. 5016, Madam Speaker, names a postal facility after J.T. Weeker. The

legislation was introduced by my friend and committee colleague, the gentleman from Illinois (Mr. BLAGOJEVICH), on July 27 of this year.

Madam Speaker, I yield such time as he may consume to the gentleman from Illinois (Mr. DAVIS) representing the great City of Chicago.

Mr. DAVIS of Illinois. Madam Speaker, I want to thank the gentleman for yielding me this time. I could not let this moment go by without expressing some comments relative to John Thomas Weeker, J.T., as we all called him, especially those who knew him.

He was area vice president of operations for the United States Postal Service; and, unfortunately, he passed away at an early age. It was very interesting to me that as J.T. did his work in the Midwest area, how much he was revered by the individuals who worked with and for him.

As a matter of fact, I had the occasion to attend his funeral services, and he had asked that one of his employees give the eulogy. That was a fellow that he had supervised, Rufus Porter, who is the lead executive for the Chicago post office. It was also interesting that he had asked that the Chicago Postal Choir would perform at his services. Even though he was not from the Midwest, he was not from Chicago, he had grown up on the East Coast, he had adopted the area as his home and decided that that is where he wanted to have the last comments made for him

It is also interesting that employees of the Postal Service made the request to have this facility named for their leader. It was Rufus Porter who was the first person who suggested that there ought to be some lasting way of remembering the tremendous service that J.T. had provided to the Postal Service, and especially to the Midwest region. And so, Madam Speaker, I am pleased to join with my colleagues in bestowing this honor upon a tremendous executive who gave not only of himself, in terms of providing leadership to postal operations, but who was an integral part of his community.

A little phrase he had about moving the mail that he sometimes would like to say, when talking about a letter, clean hands gentle touch; surely we owe a letter that much. And that is how J.T. felt about the work that he did in the Postal Service.

Mr. TURNER. Madam Speaker, I yield myself such time as I may consume to join the gentleman from Illinois (Mr. Davis) and the gentleman from Illinois (Mr. BLAGOJEVICH) in urging the House to adopt this resolution naming this postal facility after an outstanding public servant who worked every day to be sure that the mail arrived on time.

All too often, I think, we fail to acknowledge the contributions that are made every day by the fine employees of our Federal Government. So, Madam Speaker, I urge adoption of H.R. 5016.

Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. OSE. Madam Speaker, I have no requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. OSE) that the House suspend the rules and pass the bill, H.R. 5016, as amended.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to redesignate the facility of the United States Postal Service located at 514 Express Center Road in Chicago, Illinois, as the 'J.T. Weeker Service Center'."

A motion to reconsider was laid on the table.

# NATIONAL TRANSPORTATION SAFETY BOARD AMENDMENTS ACT OF 2000

Mr. SHUSTER. Madam Speaker, I move to suspend the rules and pass the Senate bill (S. 2412) to amend title 49, United States Code, to authorize appropriations for the National Transportation Safety Board for fiscal years 2000, 2001, 2002, and 2003, and for other purposes.

The Clerk read as follows:

# S. 2412

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

# SECTION 1. SHORT TITLE; REFERENCES.

- (a) SHORT TITLE.—This Act may be cited as the "National Transportation Safety Board Amendments Act of 2000".
- (b) REFERENCES.—Except as otherwise specifically provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision of law, the reference shall be considered to be made to a section or other provision of title 49, United States Code.

# SEC. 2. DEFINITIONS.

Section 1101 is amended to read as follows: "\$ 1101. Definitions

"Section 2101(17a) of title 46 and section 40102(a) of this title apply to this chapter. In this chapter, the term 'accident' includes damage to or destruction of vehicles in surface or air transportation or pipelines, regardless of whether the initiating event is accidental or otherwise.".

# SEC. 3. AUTHORITY TO ENTER INTO AGREEMENTS.

(a) In General.—Section 1113(b)(1)(I) is amended to read as follows:

"(I) negotiate and enter into agreements with individuals and private entities and departments, agencies, and instrumentalities of the Government, State and local governments, and governments of foreign countries for the provision of facilities, accident-related and technical services or training in accident investigation theory and techniques, and require that such entities provide appropriate consideration for the reasonable costs of any facilities, goods, services, or training provided by the Board."

- (b) Deposit of Amounts.—
- (1) Section 1113(b)(2) is amended—
- (A) by inserting "as offsetting collections" after "to be credited"; and (B) by adding after "Board." the following:
- (B) by adding after "Board." the following: "The Board shall maintain an annual record of collections received under paragraph (1)(I) of this subsection.".
- (2) Section 1114(a) is amended—
- (A) by inserting "(1)" before "Except"; and (B) by adding at the end thereof the following:
- "(2) The Board shall deposit in the Treasury amounts received under paragraph (1) to be credited to the appropriation of the Board as offsetting collections.".
- (3) Section 1115(d) is amended by striking "of the 'National Transportation Safety Board, Salaries and Expenses'" and inserting "of the Board".

#### SEC. 4. OVERTIME PAY.

Section 1113 is amended by adding at the end the following:

"(g) OVERTIME PAY.—

- "(1) IN GENERAL.—Subject to the requirements of this section and notwithstanding paragraphs (1) and (2) of section 5542(a) of title 5, for an employee of the Board whose basic pay is at a rate which equals or exceeds the minimum rate of basic pay for GS-10 of the General Schedule, the Board may establish an overtime hourly rate of pay for the employee with respect to work performed at the scene of an accident (including travel to or from the scene) and other work that is critical to an accident investigation in an amount equal to one and one-half times the hourly rate of basic pay of the employee. All of such amount shall be considered to be premium pay.
- "(2) LIMITATION ON OVERTIME PAY TO AN EMPLOYEE.—An employee of the Board may not receive overtime pay under paragraph (1), for work performed in a calendar year, in an amount that exceeds 15 percent of the annual rate of basic pay of the employee for such calendar year.
- "(3) LIMITATION ON TOTAL AMOUNT OF OVER-TIME PAY.—The Board may not make overtime payments under paragraph (1) for work performed in any fiscal year in a total amount that exceeds 1.5 percent of the amount appropriated to carry out this chapter for that fiscal year.
- "(4) BASIC PAY DEFINED.—In this subsection, the term 'basic pay' includes any applicable locality-based comparability payment under section 5304 of title 5 (or similar provision of law) and any special rate of pay under section 5305 of title 5 (or similar provision of law).
- "(5) ANNUAL REPORT.—Not later than January 31, 2002, and annually thereafter, the Board shall transmit to the Senate Committee on Commerce, Science, and Transportation and the House Transportation and Infrastructure Committee a report identifying the total amount of overtime payments made under this subsection in the preceding fiscal year, and the number of employees whose overtime pay under this subsection was limited in that fiscal year as a result of the 15 percent limit established by paragraph (2)."

# SEC. 5. RECORDERS.

- (a) Cockpit Video Recordings.—Section 1114(c) is amended—
- (1) by striking "VOICE" in the subsection heading;
- (2) by striking "cockpit voice recorder" in paragraphs (1) and (2) and inserting "cockpit voice or video recorder"; and
- (3) by inserting "or any written depiction of visual information" after "transcript" in the second sentence of paragraph (1).

- (b) Surface Vehicle Recordings and Transcripts.—
- (1) IN GENERAL.—Section 1114 is amended—
  (A) by redesignating subsections (d) and (e)
- (A) by redesignating subsections (d) and (e) as subsections (e) and (f), respectively; and
- (B) by inserting after subsection (e) the following:
- "(d) SURFACE VEHICLE RECORDINGS AND TRANSCRIPTS.—
- "(1) CONFIDENTIALITY OF RECORDINGS.—The Board may not disclose publicly any part of a surface vehicle voice or video recorder recording or transcript of oral communications by or among drivers, train employees, or other operating employees responsible for the movement and direction of the vehicle or vessel, or between such operating employees and company communication centers, related to an accident investigated by the Board. However, the Board shall make public any part of a transcript or any written depiction of visual information that the Board decides is relevant to the accident—
- "(A) if the Board holds a public hearing on the accident, at the time of the hearing; or
- "(B) if the Board does not hold a public hearing, at the time a majority of the other factual reports on the accident are placed in the public docket.
- "(2) REFERENCES TO INFORMATION IN MAKING SAFETY RECOMMENDATIONS.—This subsection does not prevent the Board from referring at any time to voice or video recorder information in making safety recommendations.".
- (2) CONFORMING AMENDMENT.—The first sentence of section 1114(a) is amended by striking "and (e)" and inserting "(d), and (f)".
- (c) DISCOVERY AND USE OF COCKPIT AND SURFACE VEHICLE RECORDINGS AND TRANSCRIPTS.—
- (1) IN GENERAL.—Section 1154 is amended—
  (A) by striking the section heading and inserting the following:

### "§ 1154. Discovery and use of cockpit and surface vehicle recordings and transcripts;

- (B) by striking "cockpit voice recorder" each place it appears in subsection (a) and inserting "cockpit or surface vehicle recorder".
- (C) by striking "section 1114(c)" each place it appears in subsection (a) and inserting "section 1114(c) or 1114(d)"; and
  - (D) by adding at the end the following:
  - "(6) In this subsection:
- "(A) RECORDER.—The term 'recorder' means a voice or video recorder.
- "(B) Transcript".—The term 'transcript' includes any written depiction of visual information obtained from a video recorder.".
- (2) CONFORMING AMENDMENT.—The chapter analysis for chapter 11 is amended by striking the item relating to section 1154 and inserting the following:
- "1154. Discovery and use of cockpit and surface vehicle recordings and transcripts.".

# SEC. 6. PRIORITY OF INVESTIGATIONS.

- (a) In General.—Section 1131(a)(2) is amended—
- (1) by striking "(2) An investigation" and inserting:
- "(2)(A) Subject to the requirements of this paragraph, an investigation"; and
  - (2) by adding at the end the following:
- "(B) If the Attorney General, in consultation with the Chairman of the Board, determines and notifies the Board that circumstances reasonably indicate that the accident may have been caused by an intentional criminal act, the Board shall relinquish investigative priority to the Federal Bureau of Investigation. The relinquishment of investigative priority by the Board shall

not otherwise affect the authority of the Board to continue its investigation under this section.

"(C) If a Federal law enforcement agency suspects and notifies the Board that an accident being investigated by the Board under subparagraph (A), (B), (C), or (D) of paragraph (1) may have been caused by an intentional criminal act, the Board, in consultation with the law enforcement agency, shall take necessary actions to ensure that evidence of the criminal act is preserved."

(b) REVISION OF 1977 AGREEMENT.—Not later than 1 year after the date of the enactment of this Act, the National Transportation Safety Board and the Federal Bureau of Investigation shall revise their 1977 agreement on the investigation of accidents to take into account the amendments made by this

#### SEC. 7. PUBLIC AIRCRAFT INVESTIGATION CLAR-IFICATION.

Section 1131(d) is amended by striking "1134(b)(2)" and inserting "1134 (a), (b), (d), and (f)"

## SEC. 8. MEMORANDUM OF UNDERSTANDING.

Not later than 1 year after the date of the enactment of this Act, the National Transportation Safety Board and the United States Coast Guard shall revise their Memorandum of Understanding governing major marine accidents-

- (1) to redefine or clarify the standards used to determine when the National Transportation Safety Board will lead an investigation: and
- (2) to develop new standards to determine when a major marine accident involves significant safety issues relating to Coast Guard safety functions.

# SEC. 9. TRAVEL BUDGETS.

The Chairman of the National Transportation Safety Board shall establish annual fiscal year budgets for non-accident-related travel expenditures for Board members which shall be approved by the Board and submitted to the Senate Committee on Commerce, Science, and Transportation and to the House of Representatives Committee on Transportation and Infrastructure together with an annual report detailing the non-accident-related travel of each Board member. The report shall include separate accounting for foreign and domestic travel, including any personnel or other expenses associated with that travel.

# SEC. 10. CHIEF FINANCIAL OFFICER.

Section 1111 is amended-

- (1) by redesignating subsection (h) as subsection (i): and
- (2) by inserting after subsection (g) the following:
- "(h) CHIEF FINANCIAL OFFICER.—The Chairman shall designate an officer or employee of the Board as the Chief Financial Officer. The Chief Financial Officer shall-
- "(1) report directly to the Chairman on financial management and budget execution;
- "(2) direct, manage, and provide policy guidance and oversight on financial management and property and inventory control;
- "(3) review the fees, rents, and other charges imposed by the Board for services and things of value it provides, and suggest appropriate revisions to those charges to reflect costs incurred by the Board in providing those services and things of value.

# SEC. 11. IMPROVED AUDIT PROCEDURES.

The National Transportation Safety Board, in consultation with the Inspector General of the Department of Transportation, shall develop and implement comprehensive internal

audit controls for its financial programs based on the findings and recommendations of the private sector audit firm contract entered into by the Board in March, 2000. The improved internal audit controls shall, at a minimum, address Board asset management systems, including systems for accounting management, debt collection, travel, and property and inventory management and control.

#### SEC. 12. AUTHORITY OF THE INSPECTOR GEN-ERAL.

(a) IN GENERAL.—Subchapter III of chapter 11 of subtitle II is amended by adding at the end the following:

# "§ 1137. Authority of the Inspector General

"(a) IN GENERAL.—The Inspector General of the Department of Transportation, in accordance with the mission of the Inspector General to prevent and detect fraud and abuse, shall have authority to review only the financial management, property management, and business operations of the National Transportation Safety Board, including internal accounting and administrative control systems, to determine compliance with applicable Federal laws, rules, and regulations

"(b) DUTIES.—In carrying out this section, the Inspector General shall-

"(1) keep the Chairman of the Board and Congress fully and currently informed about problems relating to administration of the internal accounting and administrative control systems of the Board;

"(2) issue findings and recommendations for actions to address such problems; and

- "(3) report periodically to Congress on any progress made in implementing actions to address such problems.
- "(c) Access to Information.—In carrying out this section, the Inspector General may exercise authorities granted to the Inspector General under subsections (a) and (b) of section 6 of the Inspector General Act of 1978 (5 U.S.C. App.).
- "(d) REIMBURSEMENT.—The Inspector General shall be reimbursed by the Board for the costs associated with carrying out activities
- under this section.".

  (b) Conforming Amendment.—The subchapter analysis for such subchapter is amended by adding at the end the following: "1137. Authority of the Inspector General.". SEC. 13. AUTHORIZATION OF APPROPRIATIONS.

# Section 1118 is amended to read as follows:

# "§ 1118. Authorization of appropriations

"(a) IN GENERAL.—There are authorized to be appropriated for the purposes of this chapter \$57,000,000 for fiscal year 2000, \$65,000,000 for fiscal year 2001, and \$72,000,000 for fiscal year 2002, such sums to remain available until expended.

"(b) EMERGENCY FUND.—The Board has an emergency fund of \$2,000,000 available for necessary expenses of the Board, not otherwise provided for, for accident investigations. Amounts equal to the amounts expended annually out of the fund are authorized to be appropriated to the emergency fund.".

#### SEC. 14. CREDITING OF LAW ENFORCEMENT FLIGHT TIME.

In determining whether an individual meets the aeronautical experience requirements imposed under section 44703 of title 49, United States Code, for an airman certificate or rating, the Secretary of Transportation shall take into account any time spent by that individual operating a public aircraft as defined in section 40102 of title 49, United States Code, if that aircraft is-

(1) identifiable by category and class; and

(2) used in law enforcement activities. SEC. 15. TECHNICAL CORRECTION.

Section 46301(d)(2) of title 49, United States Code, is amended by striking "46302, 46303." and inserting "46301(b), 46302, 46303, 46318,"

# SEC. 16. CONFIRMATION OF INTERIM FINAL RULE ISSUANCE UNDER SECTION 45301.

The publication, by the Department of Transportation, Federal Aviation Administration, in the Federal Register of June 6, 2000 (65 FR 36002) of an interim final rule concerning Fees for FAA Services for Certain Flights (Docket No. FAA-00-7018) is deemed to have been issued in accordance with the requirements of section 45301(b)(2) of title 49, United States Code.

### SEC. 17. AERONAUTICAL CHARTING.

- (a) IN GENERAL.—Section 44721 of title 49, United States Code, is amended-
- (1) by striking paragraphs (3) and (4) of subsection (c): and
- (2) by adding at the end of subsection (g)(1) the following:
- "(D) CONTINUATION OF PRICES —The price of any product created under subsection (d) may correspond to the price of a comparable product produced by a department of the United States Government as that price was in effect on September 30, 2000, and may remain in effect until modified by regulation under section 9701 of title 31, United States Code."; and
- (3) by adding at the end of subsection (g) the following:
- (5) CREDITING AMOUNTS RECEIVED.—Notwithstanding any other provision of law, amounts received for the sale of products created and services performed under this section shall be fully credited to the account of the Federal Aviation Administration that funded the provision of the products or services and shall remain available until ex-
- (b) EFFECTIVE DATE.—The amendments made by subsection (a) take effect on October 1, 2000.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. Shuster) and the gentleman from Mississippi SHOWS) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. Shuster).

Mr. SHUSTER. Madam Speaker, I yield myself such time as I may consume and I simply want to summarize by saying that while NTSB is a small agency, it is a highly respected agency for the quality of its accident investigations. It has also taken on the responsibility for assisting families of airline accident victims, a responsibility that we assigned to them in 1996.

The authorization for the agency expired last year, and this bill before us now will rectify that problem.

The reauthorization bill before you now adopts several changes to the Board's underlying statute. These changes should improve the operations of the NTSB. Many of these changes were requested by the agency itself.

The bill authorizes an increase in funding for the agency; not as much as the agency wanted, but still enough to ensure the Board's efficiency and technical competence.

The bill also-

Allows accident investigators out in the field to get full time-and-a-half overtime when they have to work nights and weekends trying to discover the cause of a crash;

Ensures that voice and video recorders in planes, trains, and trucks will only be used in accident investigations and will not be released to the media for sensational purposes;

Makes clear that NTSB accident investigations take priority over other investigations except in very limited cases where procedures are established for the FBI to take over: and

For the first time, the DOT Inspector General is given responsibility to review the financial and property management of the NTSB to ensure there is no waste, fraud, or abuse.

This is a Senate bill but it is very similar to the NTSB reauthorization bill that the House passed last year.

That bill is more fully described in House Report 106–335.

I urge the House to approve this bill.

Madam Speaker, I yield such time as he may consume to the gentleman from Tennessee (Mr. Duncan), the distinguished chairman of the subcommittee who has been so deeply involved in moving this legislation forward.

Mr. DUNCAN. Madam Speaker, I thank the gentleman from Pennsylvania, our very distinguished chairman, for yielding me this time. First of all, I want to start out by saying that being allowed to be chairman of the House Subcommittee on Aviation has really been the highlight of my congressional career: and that would not have been possible without the support of the chairman, the gentleman from Pennsylvania (Mr. Shuster). I am verv proud to have served with a man of his character. He has served with great honor and distinction in this House, and I appreciate very much his support for me in this position.

Madam Speaker, this bill is very similar to a bill, H.R. 2910, that passed the House by a vote of 420 to 4 on September 30 of last year. This bill reauthorizes the National Transportation Safety Board for 3 years and provides funding of \$57 million, \$65 million, and \$72 million over those 3 years.

The safety board is the agency responsible for investigating transportation accidents and promoting transportation safety. The board investigates accidents, conducts safety studies, and coordinates all Federal assistance for families of victims of catastrophic transportation accidents. It also reviews appeals of certificate and civil penalty actions against airmen and certificate actions against seamen. Most importantly, the NTSB makes safety recommendations.

Based on its investigations, Federal, State, and local government agencies and the transportation industry take actions that will prevent similar accidents in the future. The aviation safety record is remarkably good, and the safety board deserves a lot of the credit for that.

Nonaviation people are amazed when I speak to them and tell them that, unfortunately, we have more people killed in 4½ months on the Nation's

highways than have been killed in all U.S. aviation accidents combined since the Wright Brothers' flight in 1903. Much of that great aviation safety record has been aided by the work of the NTSB.

This legislation makes some changes to the agency's governing statute that should help make the board even more effective. I will list those changes in the statement that I will provide for the RECORD.

The bill also includes several technical changes that were not in either the House or Senate bills. These changes would ensure that the FAA can assess penalties against unruly passengers or passengers who tamper with laboratory smoke detectors. It would ensure that the FAA can issue its overflight fee rule as an interim final rule, and ensures that the FAA can keep the money it makes from the sale of aeronautical charts.

I would also like to make special mention of the provision in the bill on law enforcement flight time. Currently, pilots who fly for police or for sheriff departments cannot count their flight time toward the requirements of a civil air license. This bill would change that. It would direct the FAA to count the time a pilot flies a law enforcement aircraft. This is similar to consideration given to military pilots. I know it will be very helpful to the sheriff departments in Tennessee, but it will also benefit our hardworking law enforcement pilots all over the country.

Madam Speaker, the NTSB has conducted a lengthy and thorough investigation of the TWA 800 crash. I personally do not believe that Chairman Hall, or any of the many good people at the NTSB, would be a party to any type of cover-up about this or any other crash, but I have a few comments that I would like to make about that.

I also recognize that there are many good, sincere, honest, intelligent people across this country who do not agree with or believe the NTSB conclusions about the TWA 800 crash. I want to assure everyone that neither I nor any member of our subcommittee or staff would ever have participated in or aided in any knowing way in any type of cover-up.

# □ 1600

In addition to our public hearings, I personally went to New York with staff to view that wreckage. We had private briefings by the FBI and others. I met with some of the eyewitnesses and people investigating this wreck. I met with Commander Donaldson after one of our hearings.

The gentleman from Ohio (Mr. Traff-Cant) called one day and asked if he could conduct his own personal investigation. I gave him my approval for that

I asked one of my constituents, Mike Coffield, the Continental Airlines pilot,

to investigate this crash. We heard from family members of victims of this terrible tragedy.

Reed Irvine, a man for whom I have very great respect, recently came to my office at my request so that we could discuss this further because of ads and other activities by him and his group.

I doubt that we will ever be able to answer all the questions surrounding this crash to everyone's satisfaction. I personally find it almost impossible to believe that a U.S. Navy ship shot a missile that hit this plane either accidentally or intentionally.

I know very little about ships and missiles, but I do not believe that just one person could shoot off one without someone knowing about it. If several people were involved, someone would have talked to his wife or somebody, in my opinion.

I told Mr. Irvine this, if some terrorist group shot this plane down, they probably would have claimed credit. Yet I am still willing to read any report or listen to anyone about this.

Our government should not have stopped (Mr. Sanders) or anyone else from investigating this crash. If anyone can come up with the final, definite, conclusive answer on this, more power to them.

I am most concerned, however, about the family members of the victims of this crash. I believe closure is an overused, misused word because I do not believe a family member ever gets closure on something like this, particularly if they lost a child. But I certainly do not want to do anything to prolong the agony of any TWA 800 family member. They have suffered too much already.

I will say that, if any family member of victims of this crash wants me to look into this further, I certainly will do so. Absent that type of request, I will simply commend all those at the NTSB and all those private citizens, Mr. Irvine, Commander Donaldson, the many eyewitnesses and many, many others who have tried so hard to seek the causes of and/or solve the puzzle or answer the questions raised by the crash of TWA 800.

I also would like to commend Mr. Jim Hall, who I think has done an outstanding job as chairman of the NTSB during his tenure on that board.

Finally, Mr. Speaker, I would like to say that I am completing 6 years as chairman of the Subcommittee on Aviation. I have already thanked the gentleman from Pennsylvania (Chairman Shuster), who is the man mainly responsible for my having been allowed to be chairman. But I would also like to say that it has been a great honor and privilege to work with the gentleman from Minnesota (Mr. Oberstar), who preceded me as chairman of the Subcommittee on Aviation.

I do not believe a person could have had a better ranking member than the gentleman from Illinois (Mr. LIPINSKI). Our working relationship has been 100 percent friendly and cordial. I am proud that the Committee on Transportation and Infrastructure is considered to be probably the most bipartisan committee or nonpartisan committee in this entire Congress.

I want, finally, to say a personal thank you to a wonderful staff: David Schaffer of the Republican staff, who has been head of that staff for so many years and is such a professional person and on whom I have relied so much, Adam Tsao, Jim Coon, Donna McLean, Ron Chamberlin, David Balloff, John Glaser, Felicia Goss, Diane Rogers, and Amanda Wind on our staff; and on the Democratic staff: Stacie Soumbeniotis, Tricia Loveland, Amy Denicore, Paul Feldman, David Traynham, Marv Walsh, Colleen Corr, Rachel Carr, and Michelle Mihin. All of them have been so helpful and I am very, very grateful to them.

I apologize for taking so much time. I urge passage of this bill.

The bill reauthorizes the agency for 3 years and provides modest increases in its authorized funding levels;

It makes clear that the NTSB has priority over other agencies in the investigation of transportation accidents;

However, the legislation does provide a procedure whereby the Safety Board would turn an investigation over to the FBI when a criminal act may be involved;

The bill allows the Safety Board to enter into agreements with foreign governments, after consultation with the Department of State;

The bill also provides overtime pay to NTSB investigators who have to work at the scene of an accident during nights and weekends.

However, this overtime is capped at one and a half percent of the agency's appropriation to ensure that overtime is not abused.

Also, the bill ensures that information on surface vehicle recorders and cockpit video recorders will not be disclosed. This is the same protection now provided for cockpit voice recordings. At our Subcommittee hearing last April, airline pilots expressed concern about the public release of cockpit video recordings for purely sensationalistic purposes. This bill protects them from that.

Another important provision in this bill is the section that provides authority to the Department of Transportation's Inspector General to oversee the business and financial management of the Board. Indeed, there are several provisions in this bill that ensure continued sound financial management at the Safety Board. These include restrictions on non-emergency travel and the implementation of internal audit controls.

Mr. SHOWS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of S. 2412, the National Transportation Safety Board Amendments Act of 2000.

S. 2412 reauthorizes the NTSB for 3 years so it can continue in playing a critical role in ensuring the safety of the United States transportation system.

Since 1997, the board has investigated more than 7,000 accidents, issued over 60 major reports covering all transportation modes (aviation, highway, transit, maritime, railroad, and pipeline/hazardous materials), and proffered more than 1,100 safety recommendations

The NTSB currently has a workforce of approximately 400 full-time employees, many of whom are charged with investigating thousands of complex aviation accidents both in the U.S. and abroad. It is, therefore, important to ensure that the NTSB has the funds needed to continue its preeminent role in investigating such accidents.

Accordingly, S. 2412 increases NTSB's funding steadily over the next 3 years: \$57 million in FY 2000, \$65 million in FY 2001, and \$72 million in FY 2002. This funding will be used to permit NTSB to hire more technical experts as well as to provide better training for its current workforce.

In addition to increased funding, S. 2412 strengthens oversight of financial matters at the agency by requiring NTSB to hire a chief financial officer and improving its internal audit procedures. S. 2412 also vests the DOT Inspector General with the authority to review the NTSB's financial management and business operations. The DOT Inspector General's authority is specifically limited to financial matters, however, so as not to undermine the NTSB's independence.

Equally important, S. 2412 provides the NTSB with the authority to grant appropriate overtime pay to all of its accident investigators while on an accident scene to give these professionals parity with other Federal agency investigators who are paid for extra hours worked.

S. 2412 also reaffirms NTSB's priority over an accident scene unless the Attorney General, in consultation with the NTSB chairman, determines that the accident may have been caused by an intentional criminal act. In that case, the NTSB would relinquish its priority over the scene, but such relinquishment would not in any way interfere with the board's authority to continue its probable cause investigation.

This is important because accident scenes can often be chaotic with many local, State, and Federal investigative agencies on scene, especially where accidents are not only being investigated for probable cause, but also when criminal activity is suspected.

S. 2412 ensures that the proper coordination between various investigative agencies will take place during a complex accident investigation.

S. 2412 will ensure that the NTSB workforce is well funded and well trained to meet its future challenges.

I urge my colleagues to support this critical piece of legislation.

I compliment the gentleman from Pennsylvania (Chairman Shuster), the

gentleman from Tennessee (Chairman Duncan) and the gentleman from Minnesota (Mr. Oberstar) and the gentleman from Illinois (Mr. Lipinski) for their efforts.

Mr. OBERSTAR. Mr. Speaker, I rise in strong support of S. 2412, the National Transportation Safety Board Amendments Act of 2000. S. 2412 reauthorizes the National Transportation Safety Board (NTSB) for three years to ensure that it continues to play a critical role in maintaining and improving the safety of the United States transportation system.

This agency's roots stem from as far back as 1926 when the Air Commerce Act vested the Department of Commerce with the authority to investigate aircraft accidents. During the 1966 consolidation of various transportation agencies into the Department of Transportation (DOT), the NTSB was created as an independent agency within DOT to investigate accidents in all transportation modes. In 1974, in further resolve to ensure that NTSB retain its independence, Congress re-established the Board as a totally separate entity distinct from DOT. Since that time, the NTSB has investigated more than 100,000 aviation accidents. and more than 10,000 surface transportation accidents. The American traveling public is much safer today due to the hard work of the NTSB staff in conducting investigations and pursuing safety recommendations.

In the last three years alone, the Board has investigated more than 7,000 accidents and issued more than 60 major reports covering all transportation modes (aviation, highway, transit, maritime, railroad, and pipeline/hazardous materials). The Board has also issued more than 1,100 safety recommendations—many of which have been adopted by Congress, federal, state and local governments, and the affected industries.

The NTSB's tireless efforts in investigating accidents and issuing recommendations have led to innovative safety enhancements, such as manual cutoff switches for airbags, measures to prevent runway incursions, and countermeasures against operator fatigue in all modes of transportation. The NTSB has promoted the installation of more sophisticated voice recorders to enhance its ability to investigate aircraft accidents. In addition, the NTSB recently held a General Aviation Accident Prevention Symposium, which brought together all sectors of the growing general aviation community to proactively address safety issues gleaned from GA accident investigations. In 1999 alone, there were 691 aviation-related fatalities-628 of which occurred in general aviation. Last night's news of the tragic crash that took the life of Missouri Governor Mel Carnahan, his son, and a campaign aide underscores the importance of the NTSB's work, both in investigating and preventing accidents.

Despite a small workforce of approximately 400 full-time employees, the NTSB has provided its investigative expertise in thousands of complex aviation accidents—including its painstaking review of the TWA 800 crash. The NTSB is also frequently called upon to assist in aviation accident investigations of foreign flag carriers—such as Egypt Air Flight 990, and in accident investigations in foreign countries. The demands upon this small agency, with its highly trained, professional staff, will

only grow with the aviation market's ever-increasing globalization.

To maintain its position as the world's preeminent investigative agency, it is imperative that the NTSB has the resources necessary to handle the increasingly complex accident investigations. S. 2412 ensures that NTSB has the necessary resources by increasing funding steadily and sensibly over the next three years: \$57 million in FY 2000; \$65 million in FY2001; and \$72 million in FY2002. This funding will be used to permit NTSB to hire more technical experts as well as to provide better training for its current workforce, as was recommended in a recent study by the RAND Corporation. Dramatic changes in technology, such as glass cockpits in aviation, demand such an investment.

However, with this increase in funding also comes the requirement to strengthen the oversight of financial matters at the agency. S. 2412 requires the NTSB to hire a Chief Financial Officer and to improve its internal audit procedures. In addition, S. 2412 vests the DOT Inspector General with the authority to review the financial management and business operations of the NTSB. This will help ensure that money is well spent and the potential for fraud and abuse is reduced. The DOT Inspector General's authority is specifically limited to financial matters, however, so as not to undermine the NTSB's independ-

Equally important, S. 2412 provides the NTSB with the authority to grant appropriate overtime pay to all of its accident investigators while on-scene. These competent individuals are oftentimes called upon to work upwards of 60, 70 or 80 hours per week in extreme conditions-whether in the swamps of the Florida Everglades or the chilly waters off the Atlantic Ocean—side-by-side with other federal agency investigators who are paid for extra hours worked. Moving to this type of parity is the least that we can do to show our appreciation for the efforts of these dedicated professionals.

As we have learned from the tragic TWA 800 crash, accident scenes can often be chaotic with many local, state, and federal investigative agencies on scene. This is especially true where accidents are not only being investigated for probable cause, but also when criminal activity is suspected. Proper coordination between these various investigative agencies performing very important, albeit very different, functions is of paramount importance. S. 2412 reaffirms NTSB's priority over an accident scene unless the Attorney General, in consultation with the NTSB Chairman, determines that the accident may have been caused by an intentional criminal act. In that case, the NTSB would relinquish its priority over the scene, but such relinquishment will not, in any way, interfere with the Board's authority to continue its probable cause investigation.

Having a well funded, well-trained NTSB workforce to meet the challenges of the 21st Century is of the utmost importance for the American traveling public. I compliment Chairman Shuster, Subcommittee Chairman Dun-CAN, and Subcommittee Ranking Member LI-PINSKI for their efforts on this bill.

I urge my colleagues to support this critical piece of legislation.

of my time.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Pennsylvania (Mr. Shuster) that the House suspend the rules and pass the Senate bill, S. 2412.

The question was taken: and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

# GEORGE E. BROWN, JR. UNITED STATES COURTHOUSE

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5110) to designate the United States courthouse located at 3470 12th Street in Riverside, California, as the "George E. Brown, Jr. United States Courthouse".

The Clerk read as follows:

#### H R. 5110

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. DESIGNATION.

The United States courthouse located at 3470 12th Street in Riverside, California, shall be known and designated as the 'George E. Brown, Jr. United States Courthouse".

# SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the United States courthouse referred to in section 1 shall be deemed to be a reference to the "George E. Brown, Jr. United States Courthouse".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. Shuster) and the gentleman from Mississippi (Mr. SHOWS) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. Shuster).

Mr. SHUSTER. Mr. Speaker, George Brown is one of the most highly regarded Members of this Congress, And for so many years and while on the other side of the aisle, I don't know of a single instance in which he put partisan politics ahead of what he believed to be best for this country. And so it is with a great sense of opportunity that I lay before us today the opportunity to recognize a very distinguished American.

Mr. Speaker, H.R. 5110 designates the United States courthouse in Riverside, California as the "George E. Brown Jr. United States Courthouse." George Edward Brown Jr. was born in Holtville, California on March 6, 1920. He attended public schools in Holtville and graduated from El Centro Junior College and the University of California at Los Angeles.

Congressman Brown spent a lifetime in public service working for the betterment of this country. His life work started in the 1930's

Mr. Speaker, I yield back the balance fighting color barriers and integrating housing at UCLA, and continued through the 1990's when he was working toward improving the environment and expanding economic opportunity for all citizens.

Although he first registered as a conscientious objector to the war, Congressman Brown went on to serve as a Second Lieutenant in the Army during World War II. He returned from the war and began his career with the civil service department of the City of Los Angeles. In 1954 he was elected mayor of Monterey Park an LA suburb, in 1958 he was elected to the California State Assembly and served in the assembly until 1962. While in the assembly he introduced a bill to ban the use of lead in gasoline.

In 1962 he was elected to the United States House of Representatives. He served for four terms and was an ardent fighter for civil rights legislation in 1964. In 1970 he ran for the U.S. Senate and was defeated. He returned to the House with a successful election in 1972 and served in the House for the next 13 succeeding Congresses.

Having his degree in Industrial Physics. Congressman Brown was a strong advocate for the advancement of sound science and technology policy. He was the Chairman of the Science Committee for the 102nd and 103rd Congresses. He also worked on policies for energy and resource conservation, sustainable agriculture, national information systems, and the integration of technology in education.

Congressman Brown died in his 18th term at the age of 79, on July 14, 1999. This is a fitting tribute to a dedicated public servant. I support this measure, and urge my colleagues to support it as well.

Mr. Speaker, I reserve the balance of my time.

Mr. SHOWS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 5110, a bill to designate the United States Courthouse located at 3470, 12th Street, Riverside, California, as the "George E. Brown, Jr. Courthouse."

Mr. Brown was born on March 6, 1920, in Holtville, California. He attended the University of California at Los Angeles, where he helped create some of the first cooperative student housing units. While attending the university, he worked tirelessly to break racial barriers by organizing the first integrated campus housing in the late 1930s.

After graduation in 1940, Brown began his public service in the civil service department of the City of Los Angeles. When World War II began, he publicly opposed incarceration of Japanese Americans, a position that later blocked his career path.

During the war, he served as a second lieutenant in the Army. After the war, he returned to Los Angeles and resumed his career with the city and began to organize city workers and veterans' housing projects.

In 1954, Brown won his first election to the Los Angeles City Council; and in 1955, he was elected mayor. From 1958 to 1962, he served in the California Assembly. In 1962, he was elected to Congress.

While in Congress, George Brown was a champion of the landmark 1964 civil rights legislation. Brown was an outspoken critic of the Vietnam War and voted against every defense-spending bill during the Vietnam era.

In 1970, Congressman Brown made a run for the U.S. Senate against the more moderate Congressman, John Tunney. Although he lost the primary race, the current California political party is replete with people who worked on Brown's primary campaign.

In 1972, George Brown returned to the House and represented the 42nd district until the time of his death. As the chairman of the Committee on Science, he became recognized as the architect in forming the institutional framework for science and technology in the Federal Government. He vigorously supported the National Science Foundation, and he was instrumental in forming the permanent science advisory committee in the Executive Office of the President.

George Brown led the early warnings on the dangers of burning fossil fuels and the dangerous effects of freon.

He worked hard for his 42nd district, ensuring his local schools had the benefit of new educational technology and scientific advances. He was instrumental in the Norton Air Base conversion in San Bernardino.

George Brown truly believed in the powers of persuasion to settle differences and developed a polite and courtly style of argument. He was a gentleman with impeccable manners and was always known as a straight shooter. He was the longest serving Member from California.

It is both fitting and proper to honor the great, significant contributions of our former colleague, George E. Brown, with this designation. I urge support for H.R. 5110.

I thank the gentleman from California (Mr. CALVERT) for introducing this legislation. I also would like to recognize the gentleman from California (Mr. BACA) for his steadfast support of this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. SHUSTER. Mr. Speaker, I am pleased to yield such time as he may consume to the distinguished gentleman from California (Mr. CALVERT), the driving force behind this legislation

Mr. CALVERT. Mr. Speaker, I rise to offer H.R. 5110 that would designate the United States courthouse located in Riverside, California, as the "George E. Brown, Jr. United States Courthouse."

I was happy to sponsor this bill along with the gentleman from California (Mr. Jerry Lewis), the gentleman from California (Mr. Packard), the gentlewoman from California (Mrs. Bono), the gentleman from California (Mr. Gary Miller), and the gentleman from California (Mr. Baca).

I could not have brought this bill forward as quickly as we have without the help of the gentleman from Pennsylvania (Chairman SHUSTER), and I certainly appreciate his help and consideration in this matter and certainly the gentleman from Minnesota (Mr. OBERSTAR), the ranking member, for working to help our former colleague, Mr. George Brown, in his memory today.

I met George Brown with my father when I was 12 years old. From the start and throughout his career in Congress, George was really known as one of the last honest liberals, always voting his convictions and conscious.

In the House of Representatives, George served 18 terms as an unselfish public servant. He was the longest serving Member of the House or Senate in the history of California. I should know, he was my member of Congress when I was in high school.

Although George and I have may have disagreed on some things, on differing political philosophies and governing philosophy, my respects and admiration, as I know everyone here, randeep. George was someone that really had strong convictions and was very certain to let us know what those convictions were. On many occasions he would do exactly that. We worked very closely together on issues that affected our area, the Inland Empire of California, which now is populated by over 3 million people; and George did that very ably.

So renaming this courthouse in my district, once in George's district by the way, he represented it for many years as he represented many years in the State of California as his district was moved around California, is more than deserving.

It is a small recognition for his leadership and his lifetime quest for social justice in our society. It will ensure that George will be remembered in the community that he loved and he worked for for so long.

So I know his widow, Marta, I am sure will be watching today and is grateful that this recognition is taking place. I am certainly grateful to my colleagues. And I know that my colleagues throughout the House today will stand with me in honor and remember George's work for the Inland Empire of California and the whole Nation.

Mr. SHOWS. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota (Mr. OBERSTAR).

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, it says as much about the gentleman from California (Mr. CALVERT) as it does about the gentleman we honor today that this bill comes forward to the House floor. It is an extraordinary reaching across the political aisles and across the genera-

tions for the gentleman to not only sponsor this legislation but actually vigorously advocate for it and to ensure that it made its way through the committee process and to the House floor, and of course to the chairman of our full committee, the gentleman from Pennsylvania (Mr. Shuster), who has been very forthright and vigorous in urging us to move this legislation forward.

## □ 1615

As I look back over the Members of this body that I have known over the years I have served as staff and as a Member, George Brown is one of mv favorites. Avuncular comes to mind, a kindly, gentle smile, thoughtful, quizzical look on his face at times; withholding words until just the right ones came forward to fit the situation. whether he was speaking on the floor or in our Democratic Caucus; and principled also comes to mind to characterize George Brown. Whether it was as a young person in the 1930s on housing and fighting segregation or as a Member of Congress supporting the Civil Rights Act, opposing the Vietnam War. standing up for the space flight program, which he thought was important not only for the future of America but for the future of basic science research, he was a true advocate for the science community and for that which is so difficult to do in this body: to invest in basic research, which does not have an immediate outlet. We do not see its results today; but if we do not do the research today, a decade from now we will be in deficit.

George understood that and was an advocate for it, and that advocacy characterizes his whole service in this body. He has done all of us a great service. We honor his memory, perpetrate his integrity, his honesty, his vision, his love of public service and his view that public service should do some good for all people when we designate this courthouse.

I would also like to take this opportunity, while the gentleman from Tennessee (Mr. Duncan) is still on the floor, to offer my tribute and great appreciation for the work that the gentleman from Tennessee (Mr. Duncan) has done as chair of the Subcommittee on Aviation.

When the organizational work was underway for the 104th Congress, and it was clear the majority had shifted, the gentleman from Tennessee (Mr. DUN-CAN) and I had a very long breakfast session, about 21/2 hours, to discuss aviation. It was his intention to bid for the chairmanship of that suhcommittee. I was impressed by the student in the gentleman from Tennessee (Mr. DUNCAN) asking good questions, taking notes, making mental notes, wanting to do the best thing and the right thing, asking questions, what are the tough policy issues; and he has addressed those issues during his tenure. There are many subcommittees on the Committee on Transportation and Infrastructure, but I confess to loving aviation a little more than the others. For that, I have true affection, as well as great professional respect and admiration, for the gentleman from Tennessee (Mr. Duncan), for keeping the aviation agenda on a very high note of integrity, professionalism, looking to the future, dealing with the present, addressing the fundamental issues of aviation, assuring always that we do the right thing for America's leadership in the world in the field of aviation

The tenure of the gentleman from Tennessee (Mr. Duncan) will long stand as a tribute to aviation, a tribute to his judicial bearing, to his equanimity, his fairness and his concern for safety, security, sound investment, airport expansion, international trade in passengers and cargo, and for keeping America the leader that it is in aviation. That will be his mark of service as chair of the Subcommittee on Aviation.

Mr. SHOWS. Mr. Speaker, I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Pennsylvania (Mr. SHUSTER) that the House suspend the rules and pass the bill, H.R. 5110.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

SOUTHEAST FEDERAL CENTER PUBLIC-PRIVATE DEVELOPMENT ACT OF 2000

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and concur in the Senate amendments to the bill (H.R. 3069) to authorize the Administrator of General Services to provide for redevelopment of the Southeast Federal Center in the District of Columbia.

The Clerk read as follows:

Senate amendments:

Page 5, line 11, strike out "Capitol" and insert "Capital".

Page 5, line 21, after "trator" insert, ", in consultation with the National Capital Planning Commission".

Page 7, line 1, strike out "Environment and Public Works" and insert "Governmental Affairs".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. SHUSTER) and the gentleman from Mississippi (Mr. SHOWS) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. Shuster).

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Southeast Federal Center Public-Private Development Act of 2000 authorizes the administrator of GSA to enter into agreements with regard to that activity. The original legislation was reported out of the Committee on Transportation and Infrastructure on March 23 of this year, passed the House on May 8. The Senate Committee on Government Affairs reported theirs and passed the Senate with amendments on October 11. Their amendments are technical in nature and have the support of both sides of the aisle.

This action will simply concur with those amendments, clear the measure to be sent to the President. I support the measure and encourage my colleagues to support it as well.

Mr. Speaker, I reserve the balance of my time.

Mr. SHOWS. Mr. Speaker, I yield such time as she may consume to the gentlewoman from the District of Columbia (Ms. NORTON), the sponsor of this bill.

Ms. NORTON. Mr. Speaker, I thank the gentleman from Mississippi (Mr. SHOWS) for yielding time to me.

Mr. Speaker, I recognize the bill is here for the second time only because of technical amendments that occurred in the Senate. I wanted to come to the floor to express my deep appreciation, however, for the bipartisan leadership this bill has received, especially from the chair of our full committee, the gentleman from Pennsylvania (Mr. SHUSTER), as well as from our ranking member, the gentleman from Minnesota (Mr. OBERSTAR), and from our subcommittee chair, the gentleman from New Jersey (Mr. FRANKS), and the ranking member, the gentleman from West Virginia (Mr. WISE).

The bill is unique. It is the first time that private development will occur on Federal land. In doing so, of course, we make use of land for which the government was receiving no revenue, and at no cost to the government. The bill represents an extraordinary breakthrough of bipartisan work. Precisely because it is unique, the bill typifies the out-of-the-box, nonstereotypic, nonbureaucratic thinking that is typical of the members of this subcommittee.

It took extraordinary collaboration and cooperation for this bill to pass both Houses because we had to think of a way to get some use out of land that had been lying there, very valuable land, for decades, producing no revenue for the Federal Government, even though we are talking about 55 acres of prime land, and some of the most valuable land on the East Coast.

I must say I am also grateful for the quality of leadership the bill received in the Senate, especially from Chairman FRED THOMPSON; from ranking member, JOSEPH LIEBERMAN; from subcommittee chairman, GEORGE

VOINOVICH; and from ranking member, RICHARD DURBIN, the subcommittee chairman of the District Committee and the full committee chairman of the Government Affairs Committee.

The magnitude of the waste in not developing these 55 acres for decades is incalculable. Now we have found a way not only to develop it but to develop it at no cost; to get productive use out of it with revenue for the Federal Government and some revenue may even go to District taxpayers for whatever private development occurs.

The land had been a terribly large brownfield that had produced slums in everything it touched surrounding it, it is so huge. The reason that it had not been developed is because it turned out not to be, in today's economy, developable as a traditional government-owned site, and we had limited tools to make use of it. It took legislation. This legislation is applicable to this parcel alone. The land was too valuable to sell and indeed we do not sell Federal land. We have so little of it in the District of Columbia, we had to think of something to do with it.

Working together, we have thought of something that is unique to do with it but in keeping with public-private partnerships of the type this Congress has long endorsed and with the reinventing government and public-private ideas of the administration. For that reason, I am virtually certain that the President will sign this bill.

I wanted to express my profound appreciation, especially since I knew that the chairman and the ranking member, who are so central to this bill, would be on the floor today.

Mr. SHUSTER. Mr. Speaker, I reserve the balance of my time.

Mr. SHOWS. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota (Mr. OBERSTAR), the ranking member of the Committee on Transportation and Infrastructure.

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman from Mississippi (Mr. Shows) for yielding me this time.

Mr. Speaker, as the gentlewoman from the District of Columbia (Ms. NORTON) has already expressed, this is a very unique initiative we undertake here. The gentleman from New Jersey (Mr. FRANKS), the Chair of the subcommittee, and the gentlewoman from the District of Columbia (Ms. NORTON) have joined forces to craft an effective approach combining the best principles of private sector real estate practice with the benefits of public-private partnerships and have, in this fashion, generated bipartisan support with a notion that already has long-standing bipartisan support, that of public-private partnerships.

The piece of property in question here is 55 acres of prime land along the Anacostia River, less than a mile from our Nation's Capitol. This property has been undeveloped for the last 3 decades. The Office of Management and Budget has tried various schemes to figure out how to pay for its development. Meanwhile, the area surrounding it has deteriorated.

The partnership that has finally been worked out here and, again, great tribute to the gentlewoman from the District of Columbia (Ms. NORTON), who really does dig in to the issues of the District and works with neighborhood groups and with the city council and the mayor and with several committees of the Congress concerned with the affairs of the District, has done a superb job in pulling the business community together with the District government, the Federal Government, to bring together a partnership that will combine a government real estate asset with private sector financial assets.

In this case, the government indeed does have an asset in land but has limited financial resources to develop that asset. The private sector, on the other hand, is searching for sound investment opportunities. At the end of the term of this agreed-upon arrangement, the government will have an enhanced asset. The private sector will have had an opportunity to achieve some profit. Both will benefit. Several Federal agencies have authority to enter into some form of public-private partnerships. The Veterans Administration, for example, has enhanced leasing authority. The National Park Service can enter into public-private arrangements to construct facilities on park lands. This legislation extends to GSA, the agency that primarily has responsibility for overall Federal real estate management, the same type of authority to develop this Southeast Federal Center property.

# □ 1630

The goal will be to enhance the Federal inventory, generate revenue from the use of the asset, revenue that will go into the Federal Buildings Fund. This approach is consistent with private sector practices. It encourages GSA to enter into private partnerships to bring this asset into the Federal Government portfolio as a producing facility, rather than one that simply drains revenue from the Federal Buildings Fund. But in the long run, the larger purpose, the larger benefit, I think, will be to the southeast community surrounding this piece of property.

I hope that there will be some very significant Federal structures established in this piece of property. I am hoping that we will have at least one major anchor, Federal Government activity, that will serve as a magnet to attract other government, as well as private sector, activities to revitalize the whole surrounding neighborhood, create more jobs, enhance property values, and, in the process, generate revenue into the Federal Buildings Fund.

This is a very innovative approach, a constructive approach. It is one that is long overdue, and one that benefits both the Federal Government and the private sector. I urge an aye vote.

Mr. SHOWS. Mr. Speaker, I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Pennsylvania (Mr. SHUSTER) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 3069.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate amendments were concurred in.

A motion to reconsider was laid on the table.

# WILLIAM KENZO NAKAMURA UNITED STATES COURTHOUSE

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5302) to designate the United States courthouse located at 1010 Fifth Avenue in Seattle, Washington, as the "William Kenzo Nakamura United States Courthouse".

The Clerk read as follows:

# H.R. 5302

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

# SECTION 1. DESIGNATION.

The United States courthouse located at 1010 Fifth Avenue in Seattle, Washington, shall be known and designated as the "William Kenzo Nakamura United States Courthouse".

# SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the building referred to in section 1 shall be deemed to be a reference to the "William Kenzo Nakamura United States Courthouse".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. SHUSTER) and the gentleman from Mississippi (Mr. SHOWS) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. Shuster).

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I strongly support this legislation to name the courthouse in Seattle, Washington, the William Kenzo Nakamura United States Courthouse.

Private Nakamura volunteered for the 442nd Regimental Combat Team during World War II. On July 4th, 1944, in Italy, Private First Class Nakamura's actions of heroism freed his platoon's position from gunfire twice. He first advanced an enemy's machine gun nest and allowed his platoon to move forward with minimal casualties. Later that day, Private Nakamura provided cover against ma-

chine gun fire to slow the enemy, which allowed his platoon to retreat to safety. Private First Class Nakamura suffered fatal gunshot wounds to the head while the platoon was able to return to safety. More than 100 Members of the 442nd, including Nakamura, received the Distinguished Service Cross, and 55 years later Private First Class Nakamura rightfully received the Congressional Medal of Honor.

This Courthouse naming him is supported by the entire Washington State delegation, I am told, and many, many other prominent patriotic groups; and I strongly urge support for this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. SHOWS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 5302, a bill to designate the courthouse located at 1010 Fifth Avenue, Seattle, Washington, as the William Kenzo Nakamura Courthouse. The bill has the support of the entire Washington delegation, and I congratulate the gentleman from Washington (Mr. McDermott) for his tireless efforts on behalf of this bill.

The story of William Nakamura is a story of an American hero. He was born and raised in Seattle. As a young man, in 1942, he and his family were forcibly relocated to a Federal internment camp. While at Minidoka Relocation Center in Iowa, William and his brothers then enlisted in the U.S. Army. In their minds, their loyalty to the United States was unquestionable.

He was assigned to the 442nd Regimental Combat Team. It is now well documented that this unit was one of World War II's bravest fighting units and was one of the most decorated units in the history of our Nation's military.

On the 4th of July, 1944, William Nakamura distinguished himself with astonishing bravery and remarkable heroism in a raging battle outside of Castellina, Italy. While his entire platoon was pinned down by enemy machine gun fire, he crawled within 15 feet of the enemy bunker and destroyed the machine gun nest with four hand grenades. Later in the battle he provided extraordinary cover for his platoon as they returned to safety. Tragically, Private Nakamura lost his life to sniper fire in the process.

Although he was nominated for the Medal of Honor, the racial environment at the time prevented him and many other soldiers of color from receiving the honors to which they were due and entitled. In the spring of 2000, over 50 years after Private Nakamura made the ultimate sacrifice for his country, he was posthumously awarded the Congressional Medal of Honor.

Mr. Speaker, it is truly fitting and proper that William Kenzo Nakamura be honored with this designation in his hometown of Seattle, Washington. I support this legislation, and urge my colleagues to join me in honoring a true American hero.

Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota (Mr. OBERSTAR), the ranking member on the Committee on Transportation and Infrastructure.

Mr. OBERSTAR. Mr. Speaker, the Committee on Transportation and Infrastructure might also have a subtitle, the Committee on Commendation of Great Americans. There are few opportunities for us in this body to memorialize Americans who have made great contributions to their country, sacrifice in many ways including, as in this case, sacrifice of their very lives.

It is our good fortune to have jurisdiction over Federal buildings to the extent even of naming those Federal buildings; and we have on this committee, on a bipartisan basis, reserved that responsibility for very special cases. We carefully review the many bills introduced to name structures for figures important locally or statewide or nationally; and in the end, our judgment on a bipartisan basis has been to reserve the naming of a building for someone who has truly made an extraordinary contribution.

This afternoon we have had at least one example of that with the naming of the George Brown building. Here, with the naming of the William Kenzo Nakamura United States Courthouse in Seattle, we have an opportunity to acknowledge, pay tribute to and memorialize for time everlasting, or at least as long as this structure will last, a true American hero, William Kenzo Nakamura.

One of our colleagues on the Committee on Transportation and Infrastructure who came to Congress with me in the same class, the 94th Congress, and later was chairman of the Committee on Public Works and Transportation, as it was known then, Mr. Minetta, was, like Private Nakamura, with his family, taken off to an internment camp in the American desert, simply because he was Japanese and because of the very powerful outpouring of feeling after the bombing of Pearl Harbor.

But Mr. Nakamura and his brothers, and while, of course, I cannot speak for their sentiments, but I know from Mr. Minetta, they were bewildered, they were resentful, they could not understand why their loyalty was being questioned. Americans of German ancestry were not hustled off to camps and sequestered from the rest of the country.

Mr. Nakamura and his brothers felt that they were unquestionably loyal to the United States, and they enlisted in the United States Army. The story of Mr. Nakamura's service in World War II with the 442nd Regimental Combat Team has already been told by the

chairman and by the gentleman from Mississippi (Mr. SHOWS).

What an extraordinary account. What an extraordinary life. To not hold it against your country or your fellow countrymen for discriminating against you or your family, but, indeed, to offer your service, including your very life, for your country, one of the greatest acts of patriotism, meriting the Congressional Medal of Honor, along with other honors.

But today we take an opportunity to stop, reflect and make things right in the long run for Private Nakamura, for his family, and for all Americans of Japanese ancestry who were so unfairly treated in World War II, but, in this case, who rose above discrimination to become a true American patriot.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to compliment my good friend, and while I do not want to withdraw my compliment, I certainly want to let that stand, I will withdraw anything else I might say because I see the gentleman who we have been waiting for with bated breath has now arrived, so this filibuster, at least on this side, now can end.

Mr. Speaker, I reserve the balance of my time.

Mr. SHOWS. Mr. Speaker, I yield such time as he may consume to the gentleman from Seattle, Washington (Mr. McDermott).

Mr. McDERMOTT. Mr. Speaker, I should start first by thanking the gentleman from Pennsylvania (Chairman SHUSTER) and the gentleman from Minnesota (Mr. OBERSTAR) for delaying this process, or extending it. Whatever you want to say, the delaying action was in.

Mr. Speaker, it is a particularly important moment for Seattle, because in 1941, at the time of the height of the Second World War, the United States chose to send to concentration camps all over the West Japanese Americans. One of them was Private First Class Nakamura.

His story is largely unknown, really was unknown in Seattle, and designating this courthouse in his name is really a fitting way to acknowledge not only his memory as a true American hero, but also to acknowledge a blot on our political situation that many of us have tried hard to remove over the years. Naming this courthouse after him will certainly begin or continue that process.

Bill Nakamura was born and raised in an area of Seattle called Japan Town. In 1942, while attending the University of Washington, he and his family and 110,000 other Japanese Americans were forcibly relocated to Federal internment camps. While living at the Minidoko Relocation Camp in Idaho, Nakamura and his brothers enlisted in the United States Army.

□ 1645

They were assigned to what was to become the most decorated unit in the United States military, the 442nd Regimental Combat Team. The courageous service of this unit is matched by no other unit in our history. Mr. Nakamura distinguished himself by extraordinary heroism and action on the 4th of July, 1944 near Castellina, Italy.

His platoon approached the city; and as it did, it came under heavy fire. Acting on his own initiative, PFC Nakamura crawled within 15 yards of an enemy machine gun nest, used four hand grenades to neutralize the enemy fire which allowed his platoon to continue its advance. Nakamura's company was later ordered to withdraw from the crest of the hill, but rather than retreat with his platoon, PFC Nakamura took a position to cover the platoon's withdrawal. As the platoon moved towards safety, they suddenly became pinned down once again by machine gun fire.

PFC Nakamura crawled toward the enemy position and accurately fired upon the machine gunners, allowing his platoon to return to safety. It was during this heroic stand that PFC Nakamura lost his life, an enemy sniper got him. He was immediately nominated by his commanding officer for a Medal of Honor, but the racial climate in 1944, 1945 prevented him and other soldiers of color from receiving the Nation's highest honor. This year, 56 years later, after he made the ultimate sacrifice for his country, he was awarded the Congressional Medal of Honor as the part of the process by which a number of soldiers records were reviewed. Naming the courthouse in his honor will put really an exclamation point on how we treated him and other Japanese Americans and how they repaid us, how they fought to protect the country that had done them not so well.

Mr. Speaker, I do not want to take all the credit here, Steve Finely, one of the people in my district came up with the idea, the gentlewoman from Washington (Ms. Dunn) has worked very hard in getting the gentleman from Pennsylvania (Chairman Shuster) to bring this bill through. This bill has not been on the docket for more than about 3 weeks. So this is a rather rapid transit through this House, and I want to thank again the gentleman from Pennsylvania (Chairman Shuster) and his staffer, Matt Wallen, for their efforts, as well as the gentleman from Minnesota (Mr. OBERSTAR). There are a whole list of organizations in Washington that participated in making this possible, one person I think that needs to be recognized is June Oshima. who is Mr. Nakamura's sister. She was part of the group that asked and persuaded the Department of Defense to look at these men who had served bravely and had not been recognized.

Mr. Speaker, this is a very important thing, not a big thing in the history of the world, but it is important that people who are willing to do the right thing, even when other people have not done the right thing to them, they need to be recognized. For that reason, I urge the passage of the bill.

Mr. Speaker, I rise today in support of H.R. 5302, legislation which designates the United States courthouse in Seattle, Washington, as the "William Kenzo Nakamura United States Courthouse".

This legislation has the strong support of the entire Washington State delegation, Robert Matsui, Representative PATSY MINK, and Representative DAVID WU and locally elected officials in the Pacific Northwest. The legislation is broadly supported by veterans groups including the Nisei Veterans Committee, Northwest Chapter of the Military Intelligence Service, Mercer Island VFW Post 5760, Lake Washington VFW Post 2995, Renton VFW Post 1263, The Seattle Chapter of the Association of the U.S. Army.

Pfc. Nakamura's story is largely unknown; designating the U.S. Courthouse in his name is a fitting way to acknowledge the memory of a true American hero, who for so many years was denied the honor he so justly deserved.

William Kenzo Nakamura was born and raised in an area of Seattle that used to be known as "Japantown." In 1942, while attending the University of Washington, William Kenzo Nakamura, his family, and 110,000 other Japanese Americans were forcibly relocated to federal internment camps. While living at the Minidoka Relocation Center in Idaho, Nakamura and his brothers enlisted in the United States Army. William Kenzo Nakamura was assigned to serve with the 442nd Regimental Combat Team. The courageous service of this unit during World War II made it one of the most decorated in the history of our nation's military.

William Kenzo Nakamura distinguished himself by extraordinary heroism in action on July 4. 1944. near Castellina. Italy. As Pfc. Nakamura's platoon approached Castellina, it came under heavy enemy fire. Acting on his own initiative, Pfc. Nakamura crawled within 15 yards of the enemy's machine gun nest and used four hand grenades to neutralize the enemy fire which allowed his platoon to continue its advance. Pfc. Nakamura's company was later ordered to withdraw from the crest of a hill. Rather than retreat with his platoon, Pfc. Nakamura took a position to cover the platoon's withdrawal. As his platoon moved toward safety they suddenly became pinned down by machine gun fire. Pfc. Nakamura crawled toward the enemy's position and accurately fired upon the machine gunners, allowing his platoon time to withdraw to safety. It was during this heroic stand that Pfc. Nakamura lost his life to enemy sniper fire.

Pfc. Nakamura's commanding officer nominated him for the Medal of Honor but the racial climate of the time prevented him, and other soldiers of color, from receiving the nation's highest honor. This year, fifty-six years after he made the ultimate sacrifice for his country, William Kenzo Nakamura was awarded the Congressional Medal of Honor.

I would like to acknowledge June Oshima, Pfc. Nakamura's sister. This legislation confirms what she and the Nakamura family have long known, William Kenzo Nakamura is an American hero. William Kenzo Nakamura embodies the American spirit—an individual who faced enormous inequity imparted on him by his country, yet nobly volunteered to protect it paying the ultimate sacrifice. The "William K. Nakamura Courthouse" will stand to remind us all of his and other Japanese-American's contributions and sacrifices for this country. Naming the Courthouse in his honor of William Kenzo Nakamura would be a fitting honor for him and other Japanese Americans.

Mr. SHOWS. Mr. Speaker, I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Pennsylvania (Mr. Shuster) that the House suspend the rules and pass the bill, HR 5302

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

# GENERAL LEAVE

Mr. SHUSTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 5110, H.R. 5302, and H.R. 3069

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

# AMENDING PERISHABLE AGRICULTURAL COMMODITIES ACT

Mr. CALVERT. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4965) to amend the Perishable Agricultural Commodities Act, 1930, to extend the time period during which persons may file a complaint alleging the preparation of false inspection certificates at Hunts Point Terminal Market, Bronx, New York.

The Clerk read as follows:

H.R. 4965

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. EXTENSION OF TIME PERIOD FOR FILING CERTAIN COMPLAINTS UNDER PERISHABLE AGRICULTURAL COMMODITIES ACT, 1930.

Section 6(a)(1) of the Perishable Agricultural Commodities Act, 1930 (7 U.S.C. 499f(a)(1)) is amended by adding at the end the following: "Notwithstanding the preceding sentence, a person that desires to file a complaint under this section involving the allegation of false inspection certificates prepared by graders of the Department of Agriculture at Hunts Point Terminal Market, Bronx, New York, prior to October 27, 1999, may file the complaint until January 1, 2001."

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from

California (Mr. CALVERT) and the gentleman from Minnesota (Mr. Peterson) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of the bill, H.R. 4965, a bill to extend the time period to file a complaint arising from the incident at the Hunts Point Terminal Market.

I thank the gentleman from California (Mr. CONDIT) for introducing this legislation. I also would like to thank the gentleman from California (Mr. POMBO), the chairman of the Subcommittee on Livestock and Horticulture for holding a hearing on the Hunts Point matter on July 27. I thank my colleague, the gentleman from Texas (Mr. STENHOLM) for his assistance in bringing this bill to the floor.

On October 27, 1999, eight USDA produce inspectors and individuals from 13 wholesale firms were arrested at the Hunts Point Terminal Market and charged with bribery. These arrests were the result of a 3-year investigation by the USDA's Office of Inspector General. All total, Federal prosecutors were able to obtain convictions for nine USDA inspectors involved in this illegal activity, in addition to the charges filed against 14 wholesale firms.

The AMS inspectors were charged with accepting cash bribes in exchange for reducing the grade of the produce they inspected, which then allowed the wholesale company to purchase produce more cheaply at the expense of the farmer.

The Perishable Agriculture Commodities Act, PACA, enacted in 1930, governs the fair trade of fresh and frozen fruits and vegetables. PACA guidelines provide a mechanism to resolve commercial disputes that arise in the produce trade. PACA also establishes a code of business practices and enables USDA to penalize violations of these practices.

Mr. Speaker, all who believe they suffered from the financial damages as a result of the fraudulent inspection at the Hunts Point Market may seek to recover these damages by filing a PACA complaint. However, PACA guidelines require all claims be filed within 9 months of the incident. In this case, any party seeking damages from the Hunts Point incident would have had to file a claim by July 27, 2000.

Mr. Speaker, it is my understanding that the earliest any producer received a copy of the fraudulent inspection certificates was March 21 and some did not receive theirs until June 23. These certificates, along with other records, are necessary to establish the amount of damages. As my colleagues can see, many did not have adequate time to assemble the required documentation to file a claim by the deadline. H.R. 4965

extends the deadline for filing the PACA claim resulting from the Hunts Point incident to January 1, 2001.

This will provide farmers and others with a claim to gather the information they need to present a claim for compensation resulting from illegal inspection activities.

Mr. Speaker, I reserve the balance of my time.

Mr. PETERSON of Minnesota. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 4965, and I think the gentleman from California (Mr. CALVERT) has done a good job of laying out the situation. This bill is basically technical in nature

Mr. Speaker, I am the ranking member on the Subcommittee on Livestock and Horticulture and I sat through the hearings regarding this Hunts Point situation and it is and was quite a mess, to say the least. What we are trying to accomplish here is merely a technical change to give these folks enough time so they can file these claims, as was indicated by the gentleman from California (Mr. CALVERT).

Under the way the process works, they only had until July 27, some of them did not get notified until June, so this just merely extends it to January 1, 2001, which is appropriate. Basically, this is a technical bill, and I urge my colleagues to support it.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CALVERT. Mr. Speaker, I thank the gentleman from Minnesota (Mr. PETERSON) for his assistance, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 4965.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

# GENERAL LEAVE

Mr. CALVERT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 4965.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

PROVIDING FOR CONCURRENCE BY HOUSE WITH AMENDMENT IN SENATE AMENDMENT TO H.R. 4788, GRAIN STANDARDS AND WAREHOUSE IMPROVEMENT ACT OF 2000

Mr. BARRETT of Nebraska. Mr. Speaker, I move to suspend the rules

and agree to the resolution (H. Res. 632) providing for the concurrence by the House with an amendment in the Senate amendment to H.R. 4788, the Grain Standards and Warehouse Improvement Act of 2000.

The Clerk read as follows:

#### H. RES. 632

Resolved, That upon the adoption of this resolution the House shall be considered to have taken from the Speaker's table the bill H.R. 4788, with the amendment of the Senate thereto, and to have concurred in the Senate amendment with the following amendment:

At the end of the matter proposed to be inserted by the Senate amendment, add the following new sections:

#### SEC. 311. COTTON FUTURES.

Subsection (d)(2) of the United States Cotton Futures Act (7 U.S.C. 15b(d)(2)) is amended by adding at the end the following: "A person complying with the preceding sentence shall not be liable for any loss or damage arising or resulting from such compliance."

#### SEC. 312. IMPROVED INVESTIGATIVE AND EN-FORCEMENT ACTIVITIES UNDER THE PACKERS AND STOCKYARDS ACT, 1921.

- (a) IMPLEMENTATION OF GENERAL ACCOUNTING OFFICE RECOMMENDATIONS.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Agriculture shall implement the recommendations contained in the report issued by the General Accounting Office entitled "Packers and Stockyards Programs: Actions Needed to Improve Investigations of Competitive Practices", GAO/RCED-00-242, dated September 21, 2000.
- (b) Consultation.—During the implementation period referred to in subsection (a), and for such an additional time period as needed to assure effective implementation of the recommendations contained in the report referred to in such subsection, the Secretary of Agriculture shall consult and work with the Department of Justice and the Federal Trade Commission in order to—
- (1) implement the recommendations in the report regarding investigation management, operations, and case methods development processes; and
- (2) effectively identify and investigate complaints of unfair and anti-competitive practices in violation of the Packers and Stockyards Act, 1921 (7 U.S.C. 181 et seq.), and enforce the Act.
- (c) Training.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Agriculture shall develop and implement a training program for staff of the Department of Agriculture engaged in the investigation of complaints of unfair and anti-competitive activity in violation of the Packers and Stockyards Act, 1921. In developing the training program, the Secretary of Agriculture shall draw on existing training materials and programs available at the Department of Justice and the Federal Trade Commission, to the extent practicable.
- (d) IMPLEMENTATION REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Agriculture shall submit to Congress a report describing the actions taken to comply with this section.
- (e) ANNUAL ASSESSMENT OF CATTLE AND HOG INDUSTRIES.—Title IV of the Packers and Stockyards Act, 1921, is amended—
- (1) by redesignating section 415 (7 U.S.C. 229) as section 416; and
- (2) by inserting after section 414 the following:

#### "SEC. 415. ANNUAL ASSESSMENT OF CATTLE AND HOG INDUSTRIES.

"Not later than March 1 of each year, the Secretary shall submit to Congress and make publicly available a report that—

"(1) assesses the general economic state of the cattle and hog industries;

"(2) describes changing business practices in those industries; and

"(3) identifies market operations or activities in those industries that appear to raise concerns under this Act.".

# SEC. 313. REHABILITATION OF WATER RESOURCE STRUCTURAL MEASURES CONSTRUCTED UNDER CERTAIN DEPARTMENT OF AGRICULTURE PROGRAMS.

The Watershed Protection and Flood Prevention Act (16 U.S.C. 1001 et seq.) is amended by adding at the end the following new section:

#### "SEC. 14. REHABILITATION OF STRUCTURAL MEASURES NEAR, AT, OR PAST THEIR EVALUATED LIFE EXPECT-ANCY.

"(a) DEFINITIONS.—For purposes of this section:

"(1) REHABILITATION.—The term 'rehabilitation', with respect to a structural measure constructed as part of a covered water resource project, means the completion of all work necessary to extend the service life of the structural measure and meet applicable safety and performance standards. This may include: (A) protecting the integrity of the structural measure or prolonging the useful life of the structural measure beyond the original evaluated life expectancy; (B) correcting damage to the structural measure from a catastrophic event; (C) correcting the deterioration of structural components that are deteriorating at an abnormal rate; (D) upgrading the structural measure to meet changed land use conditions in the watershed served by the structural measure or changed safety criteria applicable to the structural measure; or (E) decommissioning the structure, if requested by the local organization.

"(2) COVERED WATER RESOURCE PROJECT.— The term 'covered water resource project' means a work of improvement carried out under any of the following:

"(A) This Act.

"(B) Section 13 of the Act of December 22, 1944 (Public Law 78-534; 58 Stat. 905).

"(C) The pilot watershed program authorized under the heading "FLOOD PREVENTION" of the Department of Agriculture Appropriation Act, 1954 (Public Law 156; 67 Stat. 214).

"(D) Subtitle H of title XV of the Agriculture and Food Act of 1981 (16 U.S.C. 3451 et seq.; commonly known as the Resource Conservation and Development Program).

"(3) STRUCTURAL MEASURE.—The term 'structural measure' means a physical improvement that impounds water, commonly known as a dam, which was constructed as part of a covered water resource project, including the impoundment area and flood pool.

"(b) Cost Share Assistance for Rehabilitation.—

"(1) ASSISTANCE AUTHORIZED.—The Secretary may provide financial assistance to a local organization to cover a portion of the total costs incurred for the rehabilitation of structural measures originally constructed as part of a covered water resource project. The total costs of rehabilitation include the costs associated with all components of the rehabilitation project, including acquisition of land, easements, and rights-of-ways, rehabilitation project administration, the provision of technical assistance, contracting, and construction costs, except that the local organization shall be responsible for securing

all land, easements, or rights-of-ways necessary for the project.

"(2) AMOUNT OF ASSISTANCE; LIMITATIONS.— The amount of Federal funds that may be made available under this subsection to a local organization for construction of a particular rehabilitation project shall be equal to 65 percent of the total rehabilitation costs, but not to exceed 100 percent of actual construction costs incurred in the rehabilitation. However, the local organization shall be responsible for the costs of water, mineral, and other resource rights and all Federal, State, and local permits.

"(3) RELATION TO LAND USE AND DEVELOP-MENT REGULATIONS.—As a condition on entering into an agreement to provide financial assistance under this subsection, the Secretary, working in concert with the affected unit or units of general purpose local government, may require that proper zoning or other developmental regulations are in place in the watershed in which the structural measures to be rehabilitated under the agreement are located so that—

"(A) the completed rehabilitation project is not quickly rendered inadequate by additional development; and

"(B) society can realize the full benefits of the rehabilitation investment.

"(c) Technical Assistance for Watershed Project Rehabilitation.—The Secretary, acting through the Natural Resources Conservation Service, may provide technical assistance in planning, designing, and implementing rehabilitation projects should a local organization request such assistance. Such assistance may consist of specialists in such fields as engineering, geology, soils, agronomy, biology, hydraulics, hydrology, economics, water quality, and contract administration.

"(d) Prohibited Use.—

"(1) Performance of operation and maintenance.—Rehabilitation assistance provided under this section may not be used to perform operation and maintenance activities specified in the agreement for the covered water resource project entered into between the Secretary and the local organization responsible for the works of improvement. Such operation and maintenance activities shall remain the responsibility of the local organization, as provided in the project work plan.

"(2) RENEGOTIATION.—Notwithstanding paragraph (1), as part of the provision of financial assistance under subsection (b), the Secretary may renegotiate the original agreement for the covered water resource project entered into between the Secretary and the local organization regarding responsibility for the operation and maintenance of the project when the rehabilitation is finished.

"(e) APPLICATION FOR REHABILITATION AS-SISTANCE.—A local organization may apply to the Secretary for technical and financial assistance under this section if the application has also been submitted to and approved by the State agency having supervisory responsibility over the covered water resource project at issue or, if there is no State agency having such responsibility, by the Governor of the State. The Secretary shall request the State dam safety officer (or equivalent State official) to be involved in the application process if State permits or approvals are required. The rehabilitation of structural measures shall meet standards established by the Secretary and address other dam safety issues. At the request of the local organization, personnel of the Natural Resources Conservation Service of the Department of Agriculture may assist in preparing applications for assistance.

"(f) RANKING OF REQUESTS FOR REHABILITA-TION ASSISTANCE.—The Secretary shall establish such system of approving rehabilitation requests, recognizing that such requests will be received throughout the fiscal year and subject to the availability of funds to carry out this section, as is necessary for proper administration by the Department of Agriculture and equitable for all local organizations. The approval process shall be in writing, and made known to all local organizations and appropriate State agencies.

"(g) PROHIBITION ON CERTAIN REHABILITA-TION ASSISTANCE.—The Secretary may not approve a rehabilitation request if the need for rehabilitation of the structure is the result of a lack of adequate maintenance by the party responsible for the maintenance.

"(h) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to the Secretary to provide financial and technical assistance under this section—

"(1) \$5,000,000 for fiscal year 2001;

- "(2) \$10,000,000 for fiscal year 2002;
- "(3) \$15,000,000 for fiscal year 2003;
- "(4) \$25,000,000 for fiscal year 2004; and

"(5) \$35,000,000 for fiscal year 2005.

"(i) ASSESSMENT OF REHABILITATION NEEDS.—The Secretary, in concert with the responsible State agencies, shall conduct an assessment of the rehabilitation needs of covered water resource projects in all States in which such projects are located.

"(j) RECORDKEEPING AND REPORTS.—

"(1) SECRETARY.—The Secretary shall maintain a data base to track the benefits derived from rehabilitation projects supported under this section and the expenditures made under this section. On the basis of such data and the reports submitted under paragraph (2), the Secretary shall prepare and submit to Congress an annual report providing the status of activities conducted under this section.

"(2) Grant recipients.—Not later than 90 days after the completion of a specific rehabilitation project for which assistance is provided under this section, the local organization that received the assistance shall make a report to the Secretary giving the status of any rehabilitation effort undertaken using financial assistance provided under this section."

#### SEC. 314. RELEASE OF REVERSIONARY INTEREST AND CONVEYANCE OF MINERAL RIGHTS IN FORMER FEDERAL LAND IN SUMTER COUNTY, SOUTH CARO-LINA.

- (a) FINDINGS.—Congress finds the following:
- (1) The hiking trail known as the Palmetto Trail traverses the Manchester State Forest in Sumter County, South Carolina, which is owned by the South Carolina State Commission of Forestry on behalf of the State of South Carolina.
- (2) The Commission seeks to widen the Palmetto Trail by acquiring a corridor of land along the northeastern border of the trail from the Anne Marie Carton Boardman Trust in exchange for a tract of former Federal land now owned by the Commission.
- (3) At the time of the conveyance of the former Federal land to the Commission in 1955, the United States retained a reversionary interest in the land, which now prevents the land exchange from being completed.
- (b) RELEASE OF REVERSIONARY INTEREST.—
  (1) RELEASE REQUIRED.—In the case of the tract of land identified as Tract 3 on the map numbered 161-DI and further described in paragraph (2), the Secretary of Agriculture

shall release the reversionary interest of the United States in the land that—

(A) requires that the land be used for public purposes; and

- (B) is contained in the deed conveying the land from the United States to the South Carolina State Commission of Forestry, dated June 28, 1955, and recorded in Deed Drawer No. 6 of the Clerk of Court for Sumter County, South Carolina.
- (2) MAP OF TRACT 3.—Tract 3 is generally depicted on the map numbered 161–DI, entitled "Boundary Survey for South Carolina Forestry Commission", dated August 1998, and filed, together with a legal description of the tract, with the South Carolina State Commission of Forestry.
- (3) CONSIDERATION.—As consideration for the release of the revisionary interest under paragraph (1), the State of South Carolina shall transfer to the United States a vested future interest, similar to the restriction described in paragraph (1)(A), in the tract of land identified as Parcel G on the map numbered 225-HI, entitled "South Carolina Forestry Commission Boardman Land Exchange", dated June 9, 1999, and filed, together with a legal description of the tract, with the South Carolina State Commission of Forestry.

(c) EXCHANGE OF MINERAL RIGHTS.—

- (1) EXCHANGE REQUIRED.—Subject to any valid existing rights of third parties, the Secretary of the Interior shall convey to the South Carolina State Commission of Forestry on behalf of the State of South Carolina all of the undivided mineral rights of the United States in the Tract 3 identified in subsection (b)(1) in exchange for mineral rights of equal value held by the State of South Carolina in the Parcel G identified in subsection (b)(3) as well as in Parcels E and F owned by the State and also depicted on the map referred to in subsection (b)(3).
- (2) DETERMINATION OF MINERAL CHARACTER.—Not later than 90 days after the date of the enactment of this Act, the Secretary of the Interior shall determine—
- (A) the mineral character of Tract 3 and Parcels E, F, and G; and
- (B) the fair market value of the mineral interests.

#### SEC. 315. TECHNICAL CORRECTION REGARDING RESTORATION OF ELIGIBILITY FOR CROP LOSS ASSISTANCE.

Section 259 of the Agricultural Risk Protection Act of 2000 (Public Law 106-224; 114 Stat. 426; 7 U.S.C. 1421 note) is amended by adding at the end the following:

"(c) COMMODITY CREDIT CORPORATION.—The Secretary shall use the funds, facilities, and authorities of the Commodity Credit Corporation to carry out this section."

# SEC. 316. PORK CHECKOFF REFERENDUM.

Notwithstanding section 1620(c)(3)(B)(iv) of the Pork Promotion, Research, and Consumer Information Act of 1985 (7 U.S.C. 4809(c)(3)(B)(iv)), the Secretary shall use funds available to carry out section 32 of the Act of August 24, 1935 (Public Law 320; 7 U.S.C. 612c) to pay for all expenses associated with the pork checkoff referendum ordered by the Secretary on February 25, 2000.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Nebraska (Mr. BARRETT) and the gentleman from Minnesota (Mr. PETERSON) each will control 20 minutes.

The Chair recognizes the gentleman from Nebreska (Mr. BARRETT).

Mr. BARRETT of Nebraska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I do rise today to suspend the rules and pass H. Res. 632 and urge my colleagues to support the Grain Standards and Warehouse Improvement Act of 2000. The House passed a clean bill on October 10, and we now take up the bill with the Senate amendment.

The reauthorization will provide the Grain Inspection Packers and Stockyards Administration with essential authority to continue the inspection of grain utilized in both domestic and international markets and extends the authority of the Secretary of Agriculture to collect fees to cover the costs of services performed under the act until the year 2005.

On September 30, 2000, Mr. Speaker, the authorization for the collection of fees by the Grain Inspection Packers and Stockyards Administration expired; and the latest figures show that approximately 75 percent of the grain inspection budget is funded through the collection of fees, and only 25 percent funded through appropriations. Therefore, it is imperative that Congress act now to renew this expired authority.

H. Res. 632 also makes improvements to the Warehouse Act. This will provide the United States Department of Agriculture with the uniform regulatory system to govern the operation of federally licensed warehouses involved in storing agricultural products. Currently, warehouse licenses may be issued for the storage of major commodities and cottonseed. According to the USDA, 45.5 percent of the U.S. offfarm grain and rice storage capacity and 49.5 percent of the total cotton storage capacity is licensed under the Warehouse Act.

The revisions to the Warehouse Act will make this program more relevant to today's agricultural marketing system. The legislation would do such things as, number one, authorize and standardize electronic documents to allow their transfer from buyer to seller across State and international boundaries; number two, authorize warehouse operators to enter into contracts or agreements with depositors to allocate available storage space; and, finally, to protect the integrity of State warehouse laws and regulations from Federal preemption.

In 1992, Congress directed the Secretary of Agriculture to establish electronic warehouse receipts for the cotton industry; and since then, participation in the electronic-based program has grown to more than 90 percent of the U.S. cotton crop.

This legislation would extend the electronic warehouse receipts program to include all agricultural commodities covered by the U.S. Warehouse Act.

This legislation has been negotiated with the U.S. Department of Agriculture and relevant industries.

Another important part of H. Res. 632, Mr. Speaker, addresses food aid to

poverty-stricken countries. Many of the groups in the U.S. that assist in feeding the hungry around the world, are faith-based, nonprofit organizations that simply donate their services.

For years, these groups who want to contribute food aid to victims of international disasters have been prevented from fully participating in these efforts.

This legislation would authorize the administrator of the U.S. Agency for International Development to provide grants to private, non-profit and private, voluntary organizations for the stockpiling and rapid distribution, delivery of shelf-stable, prepackaged foods to needy individuals in foreign countries.

In summary, Mr. Speaker, this legislation will bring grain inspection, and the use of warehouse facilities into the 21st century. At the same time, this bill will assist poverty-stricken countries, as they continue to accept the assistance of the United States nutrition programs. I certainly urge my colleagues to support this timely and very important piece of legislation.

Mr. Speaker, I reserve the balance of my time.

#### $\Box 1700$

Mr. PETERSON of Minnesota. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise in support of H.R. 4788, as amended, which contains the reauthorization of the U.S. Grain Standards Act and an update of the U.S. Warehouse Act that was passed in this House last week, as well as several other new provisions which I will go over.

Given today's world market, it is important that our farmers and commodity merchants have the best technical support possible to help them compete in that marketplace. This legislation helps continue the tradition by reauthorizing the inspection and weighing activities of the Grain Inspection, Packers, and Stockyards Administration, GIPSA, as well as updating the U.S. Warehouse Act and providing for the use of electronic documentation under that act.

H.R. 4788 as amended by the Senate now also contains the following provisions:

An amendment to the Perishable Agriculture Commodities Act to extend the time period during which persons may file a complaint, which is, I think, identical to the bill we just passed previously, so we are going to do it twice to make sure that it does not slip by us:

A provision authorizing the Agriculture Marketing Service, AMS, to collect fees for contracted mediation and arbitration services provided by the tri-national Dispute Resolution Corporation, which has been formed by Canada, Mexico, and the United States.

AMS currently provides similar mediation and arbitration services to resolve contract disputes for fruit and vegetable businesses in the U.S. Since these services would be provided on a user-fee basis, the estimated net budgetary effect of this provision would be zero.

Several rural development provisions to further enhance the eligibility of rural areas suffering from severe unemployment and outmigration for a rural development program have been added.

A provision was added entitled "International Food Relief Partnership Act," which will provide incentives to further test the use of prepackaged, shelf-stable food. In addition, it will also provide limited authority to test the concept of pre-positioning commodities overseas for use in emergencies.

It would also extend and update the State mediation grant program, an important tool, given the difficult times facing farmers and ranchers today.

H.R. 4788, as amended by the Senate, has been further modified to include the following new provisions on our side: that is, Title I of the H.R. 728, the Small Watershed Rehabilitation Amendments of 2000. This is a bill that passed the House by voice vote in July.

A provision for the exchange of private land involving the South Carolina Forestry Commission and the U.S. Forest Service. This exchange will be of equal value, and therefore of no cost to the government:

And a provision directing the Secretary to implement the recommendations of the September 21 General Accounting Office study of the enforcement of the Packers and Stockyards Act. It is hoped these changes will help make USDA more efficient and effective in protecting our Nation's livestock producers from any unfair market activities.

Mr. Speaker, I urge my colleagues to support the routine update of these two statutes and other provisions that were included in H.R. 4788.

Mr. Speaker, I would like to say that this may be the last time that we see the gentleman from Nebraska (Chairman Barrett) in this position on the floor. He has, unfortunately, chosen to leave the House.

I just want to say he has been an outstanding Member of the Committee on Agriculture, an outstanding chairman of the Subcommittee on General Farm Commodities, Resource Conservation and Credit. I have gotten to know the gentleman from Nebraska quite well. He is one of the nicest people, the most bipartisan chairman that we have. He is going to be very much missed.

All I can say is that I know that his family, his grandkids, are going to appreciate having him around a little more. He is maybe going to get a chance to fly his airplane like he used to do before he got so busy.

Most importantly, he and I are both musicians. He is going to go back and start playing the upright base again in his band. He is going to have a lot of fun, I know. We are going to miss the gentleman. He has done a great job. I know I speak for all of us in saying the best of luck to him, and have fun on the other side.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BARRETT of Nebraska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I certainly thank my distinguished colleague, the gentleman from Minnesota, for those kind words.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Nebraska (Mr. BARRETT) that the House suspend the rules and agree to the resolution, H. Res. 632.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

# GENERAL LEAVE

Mr. BARRETT of Nebraska. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the resolution just adopted.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

# AMENDING INSPECTOR GENERAL ACT

Mr. OSE. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1707) to amend the Inspector General Act of 1978 (5 U.S.C. App.) to provide that certain designated Federal entities shall be establishments under such Act, and for other purposes.

The Clerk read as follows:

# S. 1707

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. THE TENNESSEE VALLEY AUTHORITY AS AN ESTABLISHMENT UNDER THE INSPECTOR GENERAL ACT OF 1978.

(a) FINDINGS.—Congress finds that—

- (1) Inspectors General serve an important function in preventing and eliminating fraud, waste, and abuse in the Federal Government; and
- (2) independence is vital for an Inspector General to function effectively.
- (b) ESTABLISHMENT OF INSPECTOR GENERAL.—The Inspector General Act of 1978 (5 U.S.C. App.) is amended—
- (1) in section 8G(a)(2) by striking "the Tennessee Valley Authority,"; and

- (2) in section 11—
- (A) in paragraph (1) by striking "or the Commissioner of Social Security, Social Security Administration;" and inserting "the Commissioner of Social Security, Social Security Administration; or the Board of Directors of the Tennessee Valley Authority;"; and
- (B) in paragraph (2) by striking "or the Social Security Administration;" and inserting "the Social Security Administration, or the Tennessee Valley Authority;".
- (c) EXECUTIVE SCHEDULE POSITION.—Section 5315 of title 5, United States Code, is amended by inserting after the item relating to the Inspector General of the Small Business Administration the following:
- "Inspector General, Tennessee Valley Authority.".
- (d) EFFECTIVE DATE AND APPLICATION.—
- (1) IN GENERAL.—The amendments made by this section shall take effect 30 days after the date of enactment of this Act.
- (2) INSPECTOR GENERAL.—The person serving as Inspector General of the Tennessee Valley Authority on the effective date of this section—
- (A) may continue such service until the President makes an appointment under section 3(a) of the Inspector General Act of 1978 (5 U.S.C. App.) consistent with the amendments made by this section; and
- (B) shall be subject to section 8G (c) and (d) of the Inspector General Act of 1978 (5 U.S.C. App.) as applicable to the Board of Directors of the Tennessee Valley Authority, unless that person is appointed by the President, by and with the advice and consent of the Senate, to be Inspector General of the Tennessee Valley Authority.

#### SEC. 2. ESTABLISHMENT OF INSPECTORS GEN-ERAL CRIMINAL INVESTIGATOR ACADEMY AND INSPECTORS GEN-ERAL FORENSIC LABORATORY.

- (a) INSPECTORS GENERAL CRIMINAL INVESTIGATOR ACADEMY.—
- (1) ESTABLISHMENT.—There is established the Criminal Investigator Academy within the Department of the Treasury. The Criminal Investigator Academy is established for the purpose of performing investigator training services for offices of inspectors general created under the Inspector General Act of 1978 (5 U.S.C. App.).
- (2) EXECUTIVE DIRECTOR.—The Criminal Investigator Academy shall be administered by an Executive Director who shall report to an inspector general for an establishment as defined in section 11 of the Inspector General Act of 1978 (5 U.S.C. App.)—
- (A) designated by the President's Council on Integrity and Efficiency; or
- (B) if that council is eliminated, by a majority vote of the inspector generals created under the Inspector General Act of 1978 (5 U.S.C. App.).
- (b) INSPECTORS GENERAL FORENSIC LABORATORY.—
- (1) ESTABLISHMENT.—There is established the Inspectors General Forensic Laboratory within the Department of the Treasury. The Inspector General Forensic Laboratory is established for the purpose of performing forensic services for offices of inspectors general created under the Inspector General Act of 1978 (5 U.S.C. App.).
- (2) EXECUTIVE DIRECTOR.—The Inspectors General Forensic Laboratory shall be administered by an Executive Director who shall report to an inspector general for an establishment as defined in section 11 of the Inspector General Act of 1978 (5 U.S.C. App.)—
- (A) designated by the President's Council on Integrity and Efficiency; or

- (B) if that council is eliminated, by a majority vote of the inspector generals created under the Inspector General Act of 1978 (5 U.S.C. App.).
- (c) SEPARATE APPROPRIATIONS ACCOUNT.— Section 1105(a) of title 31, United States Code, is amended by adding at the end the following:

"(33) a separate appropriation account for appropriations for the Inspectors General Criminal Investigator Academy and the Inspectors General Forensic Laboratory of the Department of the Treasury."

(d) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to carry out this section such sums as may be necessary for fiscal year 2001 and each fiscal year thereafter.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. OSE) and the gentleman from Texas (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. OSE).

#### GENERAL LEAVE

Mr. OSE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on S. 1707.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. OSE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 1707 would make the position of Inspector General of the Tennessee Valley Authority a presidential appointment. The bill would also authorize a Criminal Investigator Academy and Forensic Laboratory for the Inspector General community.

Offices of Inspector General are independent, nonpartisan, and objective units that exist in nearly 60 Federal departments and agencies, including all Cabinet departments, major executive branch agencies, and many smaller boards, commissions, corporations, and foundations.

The primary distinction between the offices of Inspector General in the larger Federal agencies and those in smaller government entities is the method by which the Inspector General is appointed. Inspectors General at larger agencies are appointed by the President, with the advice and consent of the Senate. Inspectors General at smaller Federal entities are appointed, and can be removed from office by the head of the agency.

Regardless of the process, however, the mission of all Inspectors General is the same: to conduct audits and investigations of agency programs in order to promote an economic and efficient operation, and to combat any waste, fraud, or misuse of public money.

The Tennessee Valley Authority's board of directors currently appoints and can remove its Inspector General. S. 1707 would turn that responsibility over to the President.

With an annual budget of more than \$7 million and a staff of more than 80

full-time equivalent employees, the Tennessee Valley Authority is larger than some government entities whose Inspectors General are appointed by the President. S. 1707 would elevate the status of the Tennessee Valley Authority's Inspector General, and would further enhance the independence of this important office.

S. 1707 would also establish a Criminal Investigator Academy and General Forensic Laboratory for all Federal Inspectors General. These facilities would be housed in the Department of the Treasury and would provide high caliber investigative training and forensic services for Inspectors General at all departments, agencies, and government entities, regardless of size.

Mr. Speaker, I urge adoption of this measure, and I reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 1707, as has been mentioned, is intended to enhance the independence of the Inspector General of the Tennessee Valley Authority by making the position presidentially-appointed. Under current law, the Inspector General of the TVA is appointed by the agency head.

As all of us understand, the Inspectors General in all of our agencies perform a very important watchdog function. In order to be able to carry that out effectively, they need to be independent. Therefore, this bill would make the Inspector General of this agency similar to all agencies of the Federal government and require that the President appoint the Inspector General rather than the agency head.

In addition, this bill authorizes such funds as are necessary to establish a criminal investigator academy and a forensic laboratory for the Inspector General community. It is clear that the Inspectors General need to have adequate and continuous criminal investigative training, and this academy will provide such training.

Also, the Inspectors General have a need for forensic lab capability, which this bill authorizes.

Mr. Speaker, I support the bill, and I commend Senator Thompson and Senator Lieberman for their bipartisan work on the matter. I believe the bill will enhance the Inspector General of the TVA and promote economy, effectiveness, and efficiency within that important Federal agency, and I urge adoption of the measure.

Mr. Speaker, I yield back the balance of my time.

Mr. OSE. Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from Tennessee (Mr. Duncan).

Mr. DUNCAN. Mr. Speaker, I want to first of all thank the gentleman from California (Mr. OSE) for yielding me this time and for his support of this legislation.

Mr. Speaker, I rise in support of this bill, which I think can fairly be described as noncontroversial, commonsense legislation. S. 1707 is a bill that was introduced by my colleague from Tennessee, Senator FRED THOMPSON, and I want to salute him for his work on this legislation.

This bill, S. 1707, is the companion to a bill that I originally introduced in the House, H.R. 2013. Simply put, S. 1707 will require that the Inspector General for the Tennessee Valley Authority be appointed by the President and confirmed by the Senate.

Currently, the Inspector General for the TVA is appointed by the TVA board, the very board which it is expected to oversee. This legislation will guarantee that this Inspector General is guaranteed independence, so that any waste, fraud, and abuse can be fully and adequately and properly investigated. Almost everyone agrees that Inspectors General can do much better jobs if they are not controlled by the agency or department which they are expected to oversee.

The bill which was originally introduced would apply to all 33 Federal agencies where the Inspectors General are not truly independent and are presently appointed by the department or agency which they are expected to investigate and oversee. While S. 1707 applies only to TVA, I certainly think it is a step in the right direction, and it is a very significant first step toward my goal of making all 33 of these agency Inspectors General truly independent.

I am also pleased that this bill has provisions that the gentleman from California (Mr. OSE) just mentioned to establish an academy for Inspectors General that all Inspectors General can attend, so that this bill will start a process that will have ramifications far beyond TVA

This proposal has bipartisan support, and it has been endorsed by the Tennessee Valley Authority board of directors. It has already passed the other body by unanimous consent. In addition, the Knoxville News Sentinel, which is published in the city where TVA's headquarters are located, has recommended passage of this legislation.

Finally, I would like to thank the gentleman from Indiana (Mr. Burton) and his staff for their hard work on this bill, and for helping me bring this bill to the floor today. Mr. Speaker, I will say that this is a modest proposal which will certainly help improve the oversight of the Tennessee Valley Authority. I urge passage of S. 1707.

Mr. CLEMENT. Mr. Speaker, I rise today to voice my support for S. 1707, legislation that requires the TVA Inspector General to be nominated by the President and confirmed by the Senate, as is the practice at other large federal agencies. S. 1707 also provides that the President has the authority to remove the TVA IG.

As a cosponsor of similar legislation in the House introduced by Representative JIMMY DUNCAN, I am very pleased that Congress is moving to pass this legislation before we adjourn for the year. S. 1707, like H.R. 2013, amends the Inspector General Act of 1978 to provide for the Presidential appointment of and Senate confirmation of the Inspector General for TVA.

As a former member of TVA's Board of Directors and a former chairman of the TVA Caucus in Congress, I believe this bill will greatly help assure the independence between the IG's office and TVA management. It is critically important to reaffirm the independence of the TVA IG, and thus Congress should amend the Inspector General Act. Most will agree that making TVA's IG a Presidential appointee will strengthen the IG's office. I applaud Senator THOMPSON and Representative DUNCAN for their leadership on this legislation. It is my hope the President will act promptly and sign this bill into law.

Mr. OSE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. OSE) that the House suspend the rules and pass the Senate bill, S. 1707.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

# $\begin{array}{c} {\tt ICCVAM~AUTHORIZATION~ACT~OF} \\ {\tt 2000} \end{array}$

Mr. BLILEY. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4281) to establish, wherever feasible, guidelines, recommendations, and regulations that promote the regulatory acceptance of new and revised toxicological tests that protect human and animal health and the environment while reducing, refining, or replacing animal tests and ensuring human safety and product effectiveness, as amended.

The Clerk read as follows:

# H.R. 4281

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

# $SECTION\ 1.\ SHORT\ TITLE.$

This Act may be cited as the "ICCVAM Authorization Act of 2000".

# SEC. 2. DEFINITIONS.

In this Act:

(1) ALTERNATIVE TEST METHOD.—The term "alternative test method" means a test method that—

(A) includes any new or revised test method; and

(B)(i) reduces the number of animals required; (ii) refines procedures to lessen or eliminate pain or distress to animals, or enhances animal well-being; or

(iii) replaces animals with non-animal systems or 1 animal species with a phylogenetically lower animal species, such as replacing a mammal with an invertebrate.

(2) ICCVAM TEST RECOMMENDATION.—The term "ICCVAM test recommendation" means a summary report prepared by the ICCVAM characterizing the results of a scientific expert peer review of a test method.

#### SEC. 3. INTERAGENCY COORDINATING COM-MITTEE ON THE VALIDATION OF AL-TERNATIVE METHODS.

- (a) IN GENERAL.—With respect to the interagency coordinating committee that is known as the Interagency Coordinating Committee on the Validation of Alternative Methods (referred to in this Act as "ICCVAM") and that was established by the Director of the National Institute of Environmental Health Sciences for purposes of section 463A(b) of the Public Health Service Act, the Director of the Institute shall designate such committee as a permanent interagency coordinating committee of the Institute under the National Toxicology Program Interagency Center for the Evaluation of Alternative Toxicological Methods. This Act may not be construed as affecting the authorities of such Director regarding ICCVAM that were in effect on the day before the date of the enactment of this Act, except to the extent inconsistent with this Act.
- (b) PURPOSES.—The purposes of the ICCVAM shall be to—  $\,$
- (1) increase the efficiency and effectiveness of Federal agency test method review;
- (2) eliminate unnecessary duplicative efforts and share experiences between Federal regulatory agencies;
- (3) optimize utilization of scientific expertise outside the Federal Government;
- (4) ensure that new and revised test methods are validated to meet the needs of Federal agencies: and
- (5) reduce, refine, or replace the use of animals in testing, where feasible.
- (c) COMPOSITION.—The ICCVAM shall be composed of the heads of the following Federal agencies (or their designees):
- (1) Agency for Toxic Substances and Disease Registry.
  - (2) Consumer Product Safety Commission.
  - (3) Department of Agriculture.
  - (4) Department of Defense.
  - (5) Department of Energy.
- (6) Department of the Interior.(7) Department of Transportation.
- (8) Environmental Protection Agency.
- (9) Food and Drug Administration.
- (10) National Institute for Occupational Safety and Health.
  - (11) National Institutes of Health.
  - (12) National Cancer Institute.
- (13) National Institute of Environmental Health Sciences.
- (14) National Library of Medicine.
- (15) Occupational Safety and Health Adminis-
- (16) Any other agency that develops, or employs tests or test data using animals, or regulates on the basis of the use of animals in toxicity testing.
  - (d) Scientific Advisory Committee.—
- (1) ESTABLISHMENT.—The Director of the National Institute of Environmental Health Sciences shall establish a Scientific Advisory Committee (referred to in this Act as the "SAC") to advise ICCVAM and the National Toxicology Program Interagency Center for the Evaluation of Alternative Toxicological Methods regarding ICCVAM activities. The activities of the SAC shall be subject to provisions of the Federal Advisory Committee Act.
  - (2) MEMBERSHIP.—
- (A) IN GENERAL.—The SAC shall be composed of the following voting members:
- (i) At least 1 knowledgeable representative having a history of expertise, development, or evaluation of new or revised or alternative test methods from each of—

- (I) the personal care, pharmaceutical, industrial chemicals, or agriculture industry;
- (II) any other industry that is regulated by the Federal agencies specified in subsection (c); and
- (III) a national animal protection organization established under section 501(c)(3) of the Internal Revenue Code of 1986
- (ii) Representatives (selected by the Director of the National Institute of Environmental Health Sciences) from an academic institution, a State government agency, an international regulatory body, or any corporation developing or marketing new or revised or alternative test methodologies, including contract laboratories.
- (B) NONVOTING EX OFFICIO MEMBERS.—The membership of the SAC shall, in addition to voting members under subparagraph (A), include as nonvoting ex officio members the agency heads specified in subsection (c) (or their designees).
- (e) DUTIES.—The ICCVAM shall, consistent with the purposes described in subsection (b), carry out the following functions:
- (1) Review and evaluate new or revised or alternative test methods, including batteries of tests and test screens, that may be acceptable for specific regulatory uses, including the coordination of technical reviews of proposed new or revised or alternative test methods of interagency interest.
- (2) Facilitate appropriate interagency and international harmonization of acute or chronic toxicological test protocols that encourage the reduction, refinement, or replacement of animal test methods.
- (3) Facilitate and provide guidance on the development of validation criteria, validation studies and processes for new or revised or alternative test methods and help facilitate the acceptance of such scientifically valid test methods and awareness of accepted test methods by Federal agencies and other stakeholders.
- (4) Submit ICCVAM test recommendations for the test method reviewed by the ICCVAM, through expeditious transmittal by the Secretary of Health and Human Services (or the designee of the Secretary), to each appropriate Federal agency, along with the identification of specific agency guidelines, recommendations, or regulations for a test method, including batteries of tests and test screens, for chemicals or class of chemicals within a regulatory framework that may be appropriate for scientific improvement, while seeking to reduce, refine, or replace animal test methods.
- (5) Consider for review and evaluation, petitions received from the public that—
- (A) identify a specific regulation, recommendation, or guideline regarding a regulatory mandate; and
- (B) recommend new or revised or alternative test methods and provide valid scientific evidence of the potential of the test method.
- (6) Make available to the public final ICCVAM test recommendations to appropriate Federal agencies and the responses from the agencies regarding such recommendations.
- (7) Prepare reports to be made available to the public on its progress under this Act. The first report shall be completed not later than 12 months after the date of the enactment of this Act, and subsequent reports shall be completed biennially thereafter.

# SEC. 4. FEDERAL AGENCY ACTION.

(a) IDENTIFICATION OF TESTS.—With respect to each Federal agency carrying out a program that requires or recommends acute or chronic toxicological testing, such agency shall, not later than 180 days after receiving an ICCVAM test recommendation, identify and forward to the ICCVAM any relevant test method specified in a regulation or industry-wide guideline which specifically, or in practice requires, rec-

ommends, or encourages the use of an animal acute or chronic toxicological test method for which the ICCVAM test recommendation may be added or substituted.

- (b) ALTERNATIVES.—Each Federal agency carrying out a program described in subsection (a) shall promote and encourage the development and use of alternatives to animal test methods (including batteries of tests and test screens), where appropriate, for the purpose of complying with Federal statutes, regulations, guidelines, or recommendations (in each instance, and for each chemical class) if such test methods are found to be effective for generating data, in an amount and of a scientific value that is at least equivalent to the data generated from existing tests, for hazard identification, dose-response assessment, or risk assessment purposes.
- (c) TEST METHOD VALIDATION.—Each Federal agency carrying out a program described in subsection (a) shall ensure that any new or revised acute or chronic toxicity test method, including animal test methods and alternatives, is determined to be valid for its proposed use prior to requiring, recommending, or encouraging the application of such test method.

(d) REVIEW.—Not later than 180 days after receipt of an ICCVAM test recommendation, a Federal agency carrying out a program described in subsection (a) shall review such recommendation and notify the ICCVAM in writing of its findings.

(e) RECOMMENDATION ADOPTION.—Each Federal agency carrying out a program described in subsection (a), or its specific regulatory unit or units, shall adopt the ICCVAM test recommendation unless such Federal agency determines that—

(1) the ICCVAM test recommendation is not adequate in terms of biological relevance for the regulatory goal authorized by that agency, or mandated by Congress;

(2) the ICCVAM test recommendation does not generate data, in an amount and of a scientific value that is at least equivalent to the data generated prior to such recommendation, for the appropriate hazard identification, dose-response assessment, or risk assessment purposes as the current test method recommended or required by that agency:

(3) the agency does not employ, recommend, or require testing for that class of chemical or for the recommended test endpoint; or

(4) the ICCVAM test recommendation is unacceptable for satisfactorily fulfilling the test needs for that particular agency and its respective congressional mandate.

# SEC. 5. APPLICATION.

(a) APPLICATION.—This Act shall not apply to research, including research performed using biotechnology techniques, or research related to the causes, diagnosis, treatment, control, or prevention of physical or mental diseases or impairments of humans or animals.

(b) USE OF TEST METHODS.—Nothing in this Act shall prevent a Federal agency from retaining final authority for incorporating the test methods recommended by the ICCVAM in the manner determined to be appropriate by such Federal agency or regulatory body.

(c) LIMITATION.—Nothing in this Act shall be construed to require a manufacturer that is currently not required to perform animal testing to perform such tests. Nothing in this Act shall be construed to require a manufacturer to perform redundant endpoint specific testing.

(d) SUBMISSION OF TESTS AND DATA.—Nothing in this Act precludes a party from submitting a test method or scientific data directly to a Federal agency for use in a regulatory program.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Virginia (Mr. BLILEY) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

from Virginia (Mr. BLILEY).

# □ 1715

#### GENERAL LEAVE

Mr. BLILEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to insert extraneous material on H.R. 4281, as amended.

The SPEAKER pro tempore (Mr. PEASE). Is there objection to the request of the gentleman from Virginia? There was no objection.

Mr. BLILEY. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, I rise today in support of H.R. 4281, the ICCVAM Authorization Act that will provide statutory authority for an ad hoc interagency coordinating committee that was set up over at the National Institute of Environmental Health Sciences in 1994.

On October 5, 2000, the full Committee on Commerce considered H.R. 4281. At that time, the committee negotiated with the committee's ranking member and reached agreement on a substitute, and today I am pleased that we will be able to call up H.R. 4281 as reported from the Committee on Commerce with my full support.

This bill is a win-win for business and animal protection organizations. The legislation provides product makers, who must adequately test their products for safety before bringing them to market, with a one-stop forum to ensure that new, revised and alternative test methods are scientifically valid and acceptable for regulatory use before they spend huge amounts of money to conduct the extensive tests necessary for government approval.

For animal rights groups, the legislation offers an improved forum in which alternatives to animal tests that may reduce, refine, or replace the use of animals can be scientifically validated for regulatory use.

H.R. 4281 does not create a new Federal bureaucracy. Rather, it improves upon an existing interagency committee that is already in operation, and more clearly identifies its responsibilities and duties.

The legislation further instructs Federal programs that require relevant product testing to ensure that the accepted test methods employ sound, objective and peer reviewed science. At the same time, the legislation does not block any party from taking any new or existing test method, test or test data directly to any agency, nor does it prevent any agency from considering any test method or test data that meets its statutory objectives.

That is why so many business groups and animal rights groups alike have written to Congress in support of this legislation. These include Procter and Gamble, Colgate-Palmolive, The Gillette Company, the American Chem-

The Chair recognizes the gentleman istry Council, the Chemical Specialties Manufacturers Association, the Soap and Detergent Association, the American Crop Protection Association, the Synthetic Organic Chemical Manufacturers Association, as well as the Doris Day Animal League, the American Humane Society, the Humane Society of the United States, and the Massachusetts Society for the Prevention of Cruelty to Animals.

> I am pleased to join 32 Republican and 41 Democrat cosponsors in support of this legislation. I congratulate the gentleman from California (Mr. CAL-VERT) for his efforts to bring this legislation forward, and I thank the gentleman from Michigan (Mr. DINGELL), the Committee's ranking member, for his efforts to work with us to achieve bipartisan agreement on the bill under consideration today.

I urge passage of H.R. 4281.

Mr. Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4281, the ICCVAM Authorization Act of 2000. ICCVAM, or the Interagency Coordinating Committee on Validation of Alternative Methods, was established by the director of the National Institute of Environmental Health Sciences in 1994 in response to a directive in the NIH Revitalization Act of 1993 instructing the National Institute to establish criteria and processes for validation and regulatory acceptance of toxicological test methods.

H.R. 4281, which was introduced by the gentleman from California (Mr. CALVERT) with the gentleman from Ohio (Mr. Brown) and the gentlewoman from California (Mrs. CAPPS), has broad bipartisan support, as well as endorsements from the administration, the animal rights community and stakeholder industries. It provides statute authority for ICCVAM to continue its work of establishing, as feasible, guidelines and recommendations that promote the regulatory acceptance of scientifically valid new or revised or alternative test methods. It was reported unanimously by the Committee on Commerce.

H.R. 4281 clearly delineates the purposes, duties, and responsibilities of ICCVAM. It also establishes how ICCVAM's scientific recommendations will be transmitted to Federal agencies involved in toxicology testing and how agencies are expected to respond.

These steps recognize the important role of ICCVAM in maintaining an open, collaborative, scientific review process for validating new and existing testing methods and perpetuating the promotion of alternatives to the use of animals in the critically important field of toxicology testing.

I want to thank the gentleman from Michigan (Mr. DINGELL), the ranking member, for his leadership on this bill.

Mr. Speaker, I yield back the balance of my time.

Mr. BLILEY. Mr. Speaker, I yield such time as he may consume to the gentleman from California (Mr. CAL-VERT), the prime cosponsor of this bill.

Mr. CALVERT. Mr. Speaker, I want to thank the gentleman from Virginia (Mr. BLILEY), chairman of the committee, for helping us bring this bill as rapidly as possible to the floor; and certainly it has been a pleasure working with him these last 8 years. I wish him well in his retirement.

I also want to say that this bill has been carefully crafted through the tireless work and effort of many individuals. This bill, H.R. 4281, the ICCVAM Authorization Act, enjoys support from an overwhelming coalition of companies and groups that span the political spectrum.

We have animal groups, chemical and pharmaceutical companies, industry associations, and the current administration among the bill's supporters. We have Republicans, Democrats that agree on the bill. Many people have worked and worked to ensure that this bill would receive a consensus agreement, and I am proud to say that we have a document here that has achieved that goal.

This legislation is a testament to what can be done when different groups come together for an important cause. This legislation reaches an important outcome, reducing the number of needless animal deaths and so much more. The legislation will save the American taxpayers money by ensuring a streamline approach to approval of toxicological test methods. It will save chemical and pharmaceutical companies thousands of dollars by eliminating duplicative, time-consuming and costly test method validation at several government agencies. Everyone wins with this bill.

Mr. Speaker, I would like to close by thanking the gentleman from Virginia (Mr. BLILEY), chairman of the Committee on Commerce, once again; the gentleman from Michigan (Mr. DIN-GELL), the ranking member; the gentleman from Florida (Mr. BILIRAKIS). the chair of the Subcommittee on Health; and of course the gentleman from California (Mr. LANTOS), who has also worked with me very hard from the beginning to make sure this bill becomes a reality today.

I encourage all of my colleagues to join in this effort and overwhelmingly pass H.R. 4281.

Mr. LARSON. Mr. Speaker, I rise today in support of H.R. 4281, the Interagency Coordinating Committee on the Validation of Alternative Methods (ICCVAM) Authorization Act of 2000, which will create statutory authority for the ICCVAM, a consortium of 17 federal departments and agencies cooperating on the validation of new test methods.

In recent years product manufacturers have been attempting to move away from traditional animal tests in order to respond to public concerns about animal welfare, but have been hampered by Federal regulations slowing down the validation of alternative methods. Strengthening the ICCVAM will create a vital framework to streamline government/industry partnerships in developing and regulating new test methods.

This legislation has three objectives. First, it will establish a centralize clearinghouse for test method information. Second, it will expedite the approval of new technology and test methods with higher accuracy than animalbased test methods. Finally, it will reduce the number of test animals used in laboratories when reliable alternatives are available. This bipartisan bill is supported by a coalition of industry and animal protection organizations.

As a member of the Science Subcommittee on Basic Research I support this bill's effort to coordinate the validation and national harmonization of toxicological test methods. In 1999 the Environmental Protection Agency (EPA) maintained its position that it will continue to do everything it can to limit the amount of animal tests and the number of animals used in the tests. Also, the National Institute of Environmental Health and Sciences, the National Toxicology Program, and the EPA have committed as much as \$5 million over the next two vears to develop and validate non-animal test methods.

I cannot emphasize enough how important it is to increase testing efficiency and reduce redundant animal testing by coordinating interagency test validation efforts. The ICCVAM will not only conserve research funding but also drastically reduce the number of animals needlessly killed by scientific testing. As someone who received a 100% rating on my voting record from the Humane Society of the United States, I believe it is vital that Congress act on these issues and pass this legis-

Therefore, I urge my colleagues to join me

in supporting the ICCVAM Authorization Act. Mr. HORN. Mr. Speaker, I rise today in support of H.R. 4281, The Interagency Coordinating Committee on the Validation of Alternative Methods Authorization Act of 2000, known as ICCVAM, of which I am an original co-sponsor.

Mr. Speaker, this bipartisan legislation seeks to insure that the lives of millions of test animals are not taken needlessly. This legislation will reduce testing costs and reduce liability in product safety testing while increasing the accuracy of results and improving research data. This is accomplished by creating statutory authority for the existing federal Interagency Coordinating Committee on the Validation of Alternative Methods to establish guidelines for the acceptance of new and revised product safety tests.

The Interagency Coordinating Committee on Validation of Alternative Methods, ICCVAM, is a consortium of several federal departments and agencies cooperating on the validation of new safety methods. The committee reviews alternative test methods and recommends to the various agencies where the tests could be used. This legislation simply grants ICCVAM statutory authority while requiring no additional budget expenditures.

The commonsense approach to animal testing in this measure has allowed it to gain sup-

port from a unique alliance of animal protection groups as well as consumer product industry giants. I am pleased that this legislation is being considered by the House today and I urge my colleagues to support this measure.

Mr. CALVERT. Mr. Speaker, I rise to present legislation that has been carefully crafted through the tireless work and effort of many individuals. This bill, H.R. 4281, the ICCVAM Authorization Act, enjoys support from an overwhelming coalition of companies and groups that span the political spectrum.

We have animal rights groups, chemical and pharmaceutical companies, industry associations and the current administration among the bill's supporters. We even have Republican and Democrats that agree on this bill. Many people have worked and worked to ensure that this bill would receive a consensus agreement, and I am proud to say, that we have a document here that has achieved this goal.

This legislation is a testament to what can be done when different groups come together for an important cause. This legislation reaches an important outcome; reducing the number of needless animal deaths and so much more. This legislation will save the American taxpayers money by ensuring a streamlined approach to the approval of toxicological test methods. It will save chemical and pharmaceutical companies millions of dollars by eliminating duplicative, time-consuming and costly test method validation at several government agencies. Everyone wins with this

Mr. Speaker, I would like to close by thanking the Chairman of the Commerce Committee, Mr. BLILEY, the Ranking Member Mr. DINGELL, Health Subcommittee Chair Mr. BILI-RAKIS and of course Mr. LANTOS who have worked with me from the beginning to ensure this bill's passage.

I encourage all of my colleagues to join in this effort and overwhelmingly pass H.R. 4281.

Mr. SHAYS. Mr. Speaker, as an original cosponsor of H.R. 4281, the ICCVAM Authorization Act, I rise in strong support of its passage

I commend my colleague from California, KEN CALVERT, for his work on this important issue and for bringing the bill to the floor. I would also like to recognize the dedication and tireless work of my good friend and colleague, Tom Lantos, who introduced the bill in the 105th Congress and has been a champion of this issue.

H.R. 4281 permanently establishes ICCVAM under the National Institute of Environmental Health Sciences. Under the legislation, federal agencies would be required to review and identify all regulations that require animal use for toxicity tests.

The purposes of ICCVAM are to increase the efficiency and effectiveness of federal agency test method review, eliminate unnecessary duplicative efforts and share expertise between federal regulatory agencies, optimize the utilization of scientific expertise outside the federal government, ensure that new and revised test methods are validated to meet the needs of federal agencies, and reduce, refine, or replace the use of animals in testing, where feasible.

The bill takes important steps to encourage the use of alternative testing procedures that

are of equal value as toxicity indicators and less costly-both in terms of dollars and animal lives.

Alternative tests such as the Eytex system, cloned human cells and computer models have been developed, and more alternative tests are expected to be available in the future. Unfortunately, the federal government has stymied the use and development of these technologically advanced procedures by failing to update its regulations and guidelines for testing. Under current procedures, manufacturers find it is easier to have new products approved by relying on outdated testing than through the use of new alternatives.

As a Co-chair of the Congressional Friends of Animals Caucus, I urge my colleagues on both sides of the aisle to support this taxpaver and animal friendly piece of legislation.

Mr. DINGELL. Mr. Speaker, I rise in support of H.R. 4281, the ICCVAM Authorization Act of 2000. This is a good bill, which enjoys broad bipartisan support, as well as endorsements from the Administration, the animal rights community, and industry.

H.R. 4281 provides statutory authority for the permanent continuation of the 6-year-old ICCVAM, or Interagency Coordinating Committee on the Validation of Alternative Methods. ICCVAM establishes guidelines and recommendations that promote regulatory acceptance of new and alternative toxicological test methods for use by Federal agencies and departments. ICCVAM's history goes back to the NIH Revitalization Act of 1993, when the National Institute of Environmental Health Sciences (NIEHS) was directed to establish and publish criteria and processes for validation and regulatory acceptance of toxicological test methods. It has continued to function under the National Toxicology Program Interagency Center for Evaluation of Alternative Toxicological Methods, within NIEHS ever since. All relevant Federal regulatory and scientific agencies are currently represented on ICCVAM, which receives advice from a scientific advisory committee.

H.R. 4281 emphasizes ICCVAM's priority to review and recommend alternative test methods that will reduce, refine or replace the use of animals in toxicology testing, where appropriate. As stated by the Administration, "the use of these alternative test methods will be contingent upon their effectiveness in generating data in the amount and of a scientific value that is at least equivalent to the data generated by the existing text methods they are meant to replace." ICCVAM provides a forum for this scientific review, and derives its strength by facilitating dialogue across scientific disciplines, Federal agencies and with

The composition and principle duties of ICCVAM and the Scientific Advisory Committee are delineated by this legislation. The legislation also establishes the relationship between ICCVAM and the Federal agencies that are required to conduct toxicological testing. The Administration has called ICCVAM a success and pledges to provide the necessary resources to sustain it.

I support this legislation, and trust that my colleagues will do likewise.

Mr. LANTOS. Mr. Speaker, I welcome House consideration of H.R. 4281, the ICCVAM Authorization Act of 2000, and I want to take this opportunity to commend my colleague from California, Mr. CALVERT, for his work on this important issue and for bringing this bill to the floor.

Mr. Speaker, on March 27, 1996, I introduced H.R. 3173, the Consumer Products Safe Testing Act. This legislation was introduced to promote more humane business practices, increase the efficiency of the Federal Government, encourage scientific innovation and, most importantly, ensure continued consumer safety while eliminating unnecessary and inhumane product safety testing on animals. Today, H.R. 4281, the ICCVAM Authorization Act of 2000—legislation that is the successor to the bill I originally introduced in early 1996—represents the culmination of efforts which began over 5 years ago.

Mr. Speaker, H.R. 4281 is a non-partisan, non-controversial bill that emphasizes the protection of both human health and animal welfare by facilitating the development, acceptance and implementation of non-animal product safety tests.

This bill comes to the floor with an impressive marriage of diverse interests working together to support it. Distinguished Members from both political parties, industry leaders and animal welfare organizations have joined forces to produce a common-sense piece of legislation that safeguards both human and animal well-being. I am honored and delighted that H.R. 4281 is supported by the Procter & Gamble Company, the Gillette Company, the Colgate-Palmolive Company, the American Chemistry Council, the American Humane Association, the Humane Society of the United States, the Doris Day Animal League, and millions of Americans who have demanded safe and reliable alternatives to product safety testing on animals.

Mr. Speaker, for over fifty years, federal regulators have conducted product safety tests on animals. In the last decade, however, biotechnology companies have researched, developed, and manufactured alternative testing procedures that have proved to be just as safe, reliable, and in many cases, much more cost effective. Yet, these innovative technologies have never had an established protocol for receiving approval by federal agencies. In addition, industries desiring to implement alternative testing methods have endured a frustrating and confusing federal process for alternative test method review and approval, despite the fact that many industries have committed themselves to ensuring human safety while eliminating unnecessary. inhumane animal test methods.

Now, for the first time, this legislation which we are considering here on the floor of the House today will enable industries to cut through bureaucratic red-tape and speed the implementation of safe and reliable non-animal test methods. While functioning solely on an ad-hoc basis, the Inter-Agency Coordinating Committee for the Validation of Alternative Methods (ICCVAM) has established sound criteria for the validation and acceptance of alternative methods to product safety testing on animals and it will require federal agencies to consider the ICCVAM's recommendations on alternative test methods. More importantly, H.R. 4281 eliminates the incentive for indus-

tries to prefer status quo animal tests by giving the ICCVAM the authority to make an otherwise fragmented regulatory process coherent, cost effective, and more readily accessible.

Mr. Speaker, the adoption of H.R. 4281 will demonstrate a commitment to increasing the health and environmental safety of all Americans by simplifying the process by which industries implement more technologically advanced methods of research into their product safety testing protocols. We must ensure that as we enter the 21st century the Federal Government is working efficiently to incorporate scientific progress into product safety tests and not solely relying on antiquated and inhumane animal tests to safeguard human health. With this in mind, Mr. Speaker, I strongly urge my colleagues to join me by supporting H.R. 4281.

Mr. BLILEY. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Virginia (Mr. BLI-LEY) that the House suspend the rules and pass the bill, H.R. 4281, as amended

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read:

"A bill to establish, wherever feasible, guidelines, recommendations, and regulations that promote the regulatory acceptance of new or revised scientifically valid toxicological tests that protect human and animal health and the environment while reducing, refining, or replacing animal tests and ensuring human safety and product effectiveness."

A motion to reconsider was laid on the table.

# RICHMOND NATIONAL BATTLEFIELD PARK ACT OF 2000

Mr. CALVERT. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5225) to revise the boundaries of the Richmond National Battlefield Park based on the findings of the Civil War Sites Advisory Committee and the National Park Service and to encourage cooperative management, protection, and interpretation of the resources associated with the Civil War and the Civil War battles in and around the city of Richmond Virginia, as amended.

The Clerk read as follows:

# H.R. 5225

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

# SECTION 1. SHORT TITLE; DEFINITIONS.

- (a) SHORT TITLE.—This Act may be cited as the "Richmond National Battlefield Park Act of 2000".
  - (b) DEFINITIONS.—In this Act:
- (1) BATTLEFIELD PARK.—The term "battlefield park" means the Richmond National Battlefield Park.

- (2) Secretary.—The term "Secretary" means the Secretary of the Interior.
- SEC. 2. FINDINGS AND PURPOSE.
- (a) FINDINGS.—The Congress finds the following:
- (1) In the Act of March 2, 1936 (Chapter 113; 49 Stat. 1155; 16 U.S.C. 423j), Congress authorized the establishment of the Richmond National Battlefield Park, and the boundaries of the battlefield park were established to permit the inclusion of all military battlefield areas related to the battles fought during the Civil War in the vicinity of the city of Richmond, Virginia. The battlefield park originally included the area then known as the Richmond Battlefield State Park.—
- (2) The total acreage identified in 1936 for consideration for inclusion in the battlefield park consisted of approximately 225,000 acres in and around the city of Richmond. A study undertaken by the congressionally authorized Civil War Sites Advisory Committee determined that of these 225,000 acres, the historically significant areas relating to the campaigns against and in defense of Richmond encompass approximately 38,000 acres.
- (3) In a 1996 general management plan, the National Park Service identified approximately 7,121 acres in and around the city of Richmond that satisfy the National Park Service criteria of significance, integrity, feasibility, and suitability for inclusion in the battlefield park. The National Park Service later identified an additional 186 acres for inclusion in the battlefield park.
- (4) There is a national interest in protecting and preserving sites of historical significance associated with the Civil War and the city of Richmond.
- (5) The Commonwealth of Virginia and its local units of government have authority to prevent or minimize adverse uses of these historic resources and can play a significant role in the protection of the historic resources related to the campaigns against and in defense of Richmond.
- (6) The preservation of the New Market Heights Battlefield in the vicinity of the city of Richmond is an important aspect of American history that can be interpreted to the public. The Battle of New Market Heights represents a premier landmark in black military history as 14 black Union soldiers were awarded the Medal of Honor in recognition of their valor during the battle. According to National Park Service historians, the sacrifices of the United States Colored Troops in this battle helped to ensure the passage of the Thirteenth Amendment to the United States Constitution to abolish slavery.
- (b) PURPOSE.—It is the purpose of this Act—
- (1) to revise the boundaries for the Richmond National Battlefield Park based on the findings of the Civil War Sites Advisory Committee and the National Park Service; and
- (2) to direct the Secretary of the Interior to work in cooperation with the Commonwealth of Virginia, the city of Richmond, other political subdivisions of the Commonwealth, other public entities, and the private sector in the management, protection, and interpretation of the resources associated with the Civil War and the Civil War battles in and around the city of Richmond, Virginia.

# SEC. 3. RICHMOND NATIONAL BATTLEFIELD PARK: BOUNDARIES.

(a) ESTABLISHMENT AND PURPOSE.—For the purpose of protecting, managing, and interpreting the resources associated with the Civil War battles in and around the city of Richmond, Virginia, there is established the

Richmond National Battlefield Park consisting of approximately 7,307 acres of land, as generally depicted on the map entitled "Richmond National Battlefield Park Boundary Revision", numbered 367N.E.F.A.80026A, and dated September 2000. The map shall be on file in the appropriate offices of the National Park Service.

(b) BOUNDARY ADJUSTMENTS.—The Secretary may make minor adjustments in the boundaries of the battlefield park consistent with section 7(c) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460*I*–9(c)).

#### SEC. 4. LAND ACQUISITION.

- (a) ACQUISITION AUTHORITY.—
- (1) IN GENERAL.—The Secretary may acquire lands, waters, and interests in lands within the boundaries of the battlefield park from willing landowners by donation, purchase with donated or appropriated funds, or exchange. In acquiring lands and interests in lands under this Act, the Secretary shall acquire the minimum interest necessary to achieve the purposes for which the battlefield is established.
- (2) SPECIAL RULE FOR PRIVATE LANDS.—Privately owned lands or interests in lands may be acquired under this Act only with the consent of the owner.
  - (b) Easements.—
- (1) OUTSIDE BOUNDARIES.—The Secretary may acquire an easement on property outside the boundaries of the battlefield park and around the city of Richmond, with the consent of the owner, if the Secretary determines that the easement is necessary to protect core Civil War resources as identified by the Civil War Sites Advisory Committee. Upon acquisition of the easement, the Secretary shall revise the boundaries of the battlefield park to include the property subject to the easement.
- (2) INSIDE BOUNDARIES.—To the extent practicable, and if preferred by a willing landowner, the Secretary shall use permanent conservation easements to acquire interests in land in lieu of acquiring land in fee simple and thereby removing land from non-Federal ownership.
- (c) VISITOR CENTER.—The Secretary may acquire the Tredegar Iron Works buildings and associated land in the city of Richmond for use as a visitor center for the battlefield park.

# SEC. 5. PARK ADMINISTRATION.

- (a) APPLICABLE LAWS.—The Secretary, acting through the Director of the National Park Service, shall administer the battlefield park in accordance with this Act and laws generally applicable to units of the National Park System, including the Act of August 25, 1916 (16 U.S.C. 1 et. seq.) and the Act of August 21, 1935 (16 U.S.C. 461 et. seq.).
- (b) NEW MARKET HEIGHTS BATTLEFELD.—
  The Secretary shall provide for the establishment of a monument or memorial suitable to honor the 14 Medal of Honor recipients from the United States Colored Troops who fought in the Battle of New Market Heights. The Secretary shall include the Battle of New Market Heights and the role of black Union soldiers in the battle in historical interpretations provided to the public at the battlefield park.
- (c) COOPERATIVE AGREEMENTS.—The Secretary may enter into cooperative agreements with the Commonwealth of Virginia, its political subdivisions (including the city of Richmond), private property owners, and other members of the private sector to develop mechanisms to protect and interpret the historical resources within the battlefield park in a manner that would allow for

continued private ownership and use where compatible with the purposes for which the battlefield is established.

(d) TECHNICAL ASSISTANCE.—The Secretary may provide technical assistance to the Commonwealth of Virginia, its political subdivisions, nonprofit entities, and private property owners for the development of comprehensive plans, land use guidelines, special studies, and other activities that are consistent with the identification, protection, interpretation, and commemoration of historically significant Civil War resources located inside and outside of the boundaries of the battlefield park. The technical assistance does not authorize the Secretary to own or manage any of the resources outside the battlefield park boundaries.

#### SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this Act.

#### SEC. 7. REPEAL OF SUPERSEDED LAW.

The Act of March 2, 1936 (Chapter 113; 16 U.S.C. 423j-423*l*) is repealed.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5225, introduced by the gentleman from Virginia (Mr. BLILEY), chairman of the Committee on Commerce, revises the boundaries of the Richmond National Battlefield Park. These revisions are based on the findings of the Civil War Sites Advisory Committee and the National Park Service. The bill also encourages cooperative management, protection and interpretation of the resources associated with the Civil War and the Civil War battles in and around the city of Richmond. Virginia.

The boundary revision would establish the Richmond National Battlefield Park to include approximately 7,300 acres. The bill authorizes the Secretary of the Interior to acquire land within the boundaries of the new park, but only from willing sellers. This bill also specifies that, to the extent practicable, the Secretary will purchase permanent conservation easements in lieu of outright land acquisitions.

H.R. 5225 also directs the Secretary to provide for the establishment of a suitable monument or memorial to honor the 14 Medal of Honor recipients from the United States Colored Troops who fought in the Battle of New Market Heights.

Mr. Speaker, this is an important piece of legislation, and I urge my colleagues to support H.R. 5225 with an amendment.

Mr. Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5225 would revise the boundaries of the Richmond National Battlefield Park in Virginia to include important resources related to the Civil War battles in and around the city of Richmond, Virginia.

The park was established in 1936 to preserve and commemorate several Civil War battles that took place as part of the capture of the Confederate capital. However, several important sites and resources are not currently within the park boundaries. H.R. 5225 would correct the situation and provides a means to protect and interpret additional Civil War resources. In addition, the bill provides recognition for the New Market Heights Battlefield where 14 Medals of Honor were awarded to African Americans. This is a fitting tribute to the extraordinary bravery that was exhibited there.

Mr. Speaker, H.R. 5225 has the support of the administration and the local community. We support it as well and urge its adoption by the House.

Mr. Speaker, I reserve the balance of my time.

Mr. CALVERT. Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia (Mr. BLILEY), who represents the great city of Richmond, Virginia, the chairman of the Committee on Commerce.

Mr. BLILEY. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise today in support of H.R. 5225, the Richmond National Battlefield Park Act of 2000. This legislation, as has been pointed out, has the support of the National Park Service; it has the support of the local boards of supervisors and the Henrico County NAACP.

As the proud holder of the congressional district with the most Civil War battlefields, I am particularly sensitive to the role these sites play in our Nation's history.

Driving through the Seventh Congressional District of Virginia is, quite literally, a tour of the land which contained the bloodiest fighting during the most tumultuous time in our Nation's history.

As I travel the seventh district, I pass Brandy Station, the site of the largest cavalry battle of the war; Cold Harbor and the Wilderness, which held some of the most ferocious fighting; and the Tredegar Iron Works, which served as the arsenal of the Confederacy.

Not surprisingly, with these important sites so close to privately owned land, there is a great deal of tension between those wanting to preserve these important sites and those wanting to use their own land as they see fit.

Today, with the passage of this legislation, we take a great step towards protecting the rights of the landowners and preserving these Civil War sites for future generations.

For many years, citizens in and around the city of Richmond have lived

in the shadow of the Richmond Battlefield Park. Since 1936, when the battlefield park was created, the boundary of the park has encompassed 225,000 acres, including a good portion of the city of Richmond.

Property owners inside the park boundary have lived with the knowledge that the National Park Service possesses condemnation authority over their land, though I must say they have never used it. At any time, the National Park Service might purchase land without the consent of the property owners. Today, we put an end to the landowners' fears that the Park Service may take their land for use by the Richmond National Battlefield Park.

First and foremost, this legislation accomplishes the long-time goal of repealing the National Park Service's condemnation authority within the park. Landowners no longer have to worry about losing their property to the Federal Government.

The bill also allows the use of Federal funds to buy battlefield land for the park from willing sellers. Only those wanting to sell their product to the National Park Service may do so.

Landowners also have the option of allowing the National Park Service easements on their property for use in historic interpretation instead of the outright sale of land. This is a win for private landowners, the Park Service, and preservationists.

Next, the legislation restricts the acreage the battlefield park can acquire to specific, more limited tracts of land. This legislation limits the battlefield park to approximately 7,300 acres, which includes only the most significant and historic land.

The Richmond National Battlefield Park Act also addresses two very important historic landmarks, the Tredegar Ironworks and the New Market Heights Battlefield.

The act authorizes the use of the Tredegar Ironworks as the park's main visitor center. The Tredegar Ironworks, located on the bank of the James River, was the only page foundry and rolling mill in the South.

The legislation authorizes the Park Service to use this facility to help visitors better understand the battlefields around Richmond and their impact on the Civil War.

Lastly, this legislation emphasizes the importance of the Battle of New Market Heights as a premier landmark in black military history. Many African American soldiers fought bravely and selflessly during the Civil War. However, very few were officially recognized for valor during that war. Indeed, black soldiers received only 16 Medals of Honor during the Civil War. Fourteen of those were awarded for valor at New Market Heights.

The importance of New Heights should not be underestimated, importance of the battle.

The act also directs the Secretary of the Interior to provide for the establishment of a monument to honor the 14 black Medal of Honor winners at New Market Heights. While this legislation does not specifically state that this monument be located at New Market Heights, it is the intent of Congress that this monument be located

#### $\Box$ 1730

It is appropriate for Congress to take this action. While it has taken a long time, the bravery and sacrifice of these soldiers must be honored.

In closing, Mr. Speaker, I want to thank the gentleman from Alaska (Mr. Young) and the gentleman from Utah (Mr. HANSEN) for their help with this legislation. Four years ago we came very close to passing similar legislation. Always a man of his word, in 1996 the gentleman from Alaska (Mr. YOUNG) promised me that he would revisit the issue, and I am grateful for his help today.

Lastly, I would like to thank my colleague, the gentleman from Virginia (Mr. Scott), and his staff for their hard work on this legislation. This is bipartisan common sense legislation which will have a positive impact on Richmond. My colleague, the gentleman from Virginia (Mr. Scott), shares a great deal of the credit for the passage of this legislation.

Mr. Speaker, I urge support of this legislation.

Mr. UDALL of New Mexico. Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia (Mr. Scott), who also has worked with the Committee on Resources and played a key role on this legislation.

Mr. SCOTT. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I join with my colleague, the gentleman from Virginia (Mr. BLILEY), in support of this important measure which reauthorizes the boundaries for the Richmond National Battlefield Park and establishes a memorial to honor the 14 black Union soldiers who were awarded the Medal of Honor for their valor during the battle of New Market Heights.

Let me share with my colleagues just for a moment the story behind the battle of New Market Heights. During the Civil War, on September 29, 1864, near Richmond, Virginia, Union forces attacked an important and heavily fortified Confederate position on a low ridge overlooking flat open terrain. It was on this particular day at New Market Heights that history would be made.

Soldiers then referred to as U.S. colored troops would assault the Confederate position, suffer extreme losses, and have 14 of their members receive Medals of Honor for their bravery in

and this legislation reflects upon the action. It is significant that only two more army medals were awarded to African Americans during the balance of the Civil War, and no other battle in the entire war generated 14 Medal of Honor designees.

Until recently, the story of these valiant 14 African-American soldiers was scarcely remembered or retold, even though some have described this battle to be one of the Nation's most forgotten historic sites. With the assistance of my colleague, the gentleman from Virginia (Mr. BLILEY), this legislation will provide appropriate recognition of these 14 men and will ensure that the battle of New Market Heights will be recognized for its historic significance.

This legislation is also important because it responds to the concerns of nearby landowners who have worried about the possibility of having their land taken by the Richmond National Battlefield Park. For too long the park has had the ability to use the power of eminent domain to take property without the consent of landowners. This bill recognizes those concerns and removes the cloud of uncertainty and concern of residents near the battlefield by prohibiting the acquisition of land without the consent of landowners.

Furthermore, the bill responds to other concerns that the technical boundaries of the park cover a lot more land than is necessary. The bill significantly reduces the area designated for potential use by the park to cover only that land which has been determined to have historic significance.

Mr. Speaker, H.R. 5225 responds to the concerns of landowners in Henrico County, Virginia, and focuses the resources of the National Park Service on the truly historically significant sites, and it gives proper recognition to the valiant African-American soldiers at New Market Heights. I, therefore, join my colleague from Virginia, with whom I have worked in a bipartisan manner on this bill, in support of the bill, and I urge its immediate passage.

Mr. CALVERT. Mr. Speaker, I yield myself such time as I may consume just to say that it is altogether fitting and proper that this legislation today is offered by the gentleman from Richmond, Virginia (Mr. BLILEY), and this is certainly worthwhile and I urge its unanimous passage.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. UDALL of New Mexico. Mr. Speaker. I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from California (Mr. Calvert) that the House suspend the rules and pass the bill, H.R. 5225, as amended.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## GENERAL LEAVE

Mr. CALVERT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 5225, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

# RENAMING NATIONAL MUSEUM OF AMERICAN ART

Mr. THOMAS. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 3201) to rename the National Museum of American Art.

The Clerk read as follows:

S. 3201

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled

#### SECTION 1. RENAMING OF NATIONAL MUSEUM OF AMERICAN ART.

(a) IN GENERAL.—The National Museum of American Art, as designated under section 1 of Public Law 96-441 (20 U.S.C. 71 note), shall be known as the "Smithsonian American Art Museum''.

(b) References in Law.—Any reference in any law, regulation, document, or paper to the National Museum of American Art shall be considered to be a reference to the Smithsonian American Art Museum.

# SEC 2 EFFECTIVE DATE

Section 1 shall take effect on the day after the date of enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. THOMAS) and the gentleman from Virginia (Mr. Scott) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume, and I do want to thank my colleague and friend, the gentleman from Virginia (Mr. Scott), for his willingness to assist us in moving these pieces of legislation.

Mr. Speaker, Senate bill 3201 has its House counterpart authored by the gentleman from Ohio (Mr. REGULA). This is an interesting bill. It is "what is in a name." We currently have the National Museum of American Art, and we are going to rename that National Museum of American Art not for the first time.

In 1906, this Museum of American Art was called the National Gallery of Art. But in 1937, they built a building, which most of us now know is separate, and that name was given to that separate building, the National Gallery of Art.

The National Museum of American Art is confused with a number of other museums because of the national museum connotation. So this piece of legislation will once again rename this museum so that it will never be mistaken again. The new name is the Smithsonian American Art Museum.

Mr. Speaker, I reserve the balance of my time.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume, to state that we have no objection to this legislation and I urge its passage.

Mr. Speaker. I have no requests for time, and I yield back the balance of

Mr. THOMAS. Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio (Mr. REGULA), the author of this piece of legislation on the House side.

Mr. REGULA. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, myself, along with the gentleman from Texas (Mr. SAM JOHN-SON) and the gentleman from California (Mr. Matsui), serve as members of the Board of Regents of the Smithsonian Institution. We have, together, sponsored the legislation that is the House bill, and, of course, it parallels the Senate bill which we are working on today. This legislation is introduced as a result of the approval of the name change for the museum at the September meeting of the Board of Regents.

The regents believe this name change makes a clarification in the minds of many Americans who visit Washington, who are enthusiasts of American art, that the museum is part of the Smithsonian Institution. With this name clarification and the true connection in people's minds with the Smithsonian, the regents believe that more visitors will want to explore the treasures of the museum. We further hope that both attendance and private support for the museum will increase with this change.

Mr. Speaker, I urge the Members to adopt the Senate bill.

Mr. MATSUI. Mr. Speaker, I rise in support of H.R. 5214, offered by my good friend and colleague on the Smithsonian Board of Regents, Mr. REGULA.

H.R. 5214 simply redesignates the current National Museum of American Art as the Smithsonian American Art Museum. This name change has been unanimously approved by the Smithsonian Board of Regents, but requires legislative approval to become official.

The renaming directed in this legislation has become necessary to allieviate confusion that has arisen between the current National Museum of American Art, which is a Smithsonian museum, and the many other museums titled "National Museum" most of which are not Smithsonian museums.

This will be the third name change for this museum, which was first established in 1908 as the "National Gallery of Art." When Congress founded the current National Art Gallery, in 1937, the Smithsonian changed its gallery's name to "National Collection of Fine Arts." Most recently, in 1980, Congress renamed it to its current title to more accurately reflect its collections.

Mr. Speaker, this legislation, while non-controversial, is an important formality for the Smithsonian Institution. The name "Smithsonian" is instantly recognized worldwide, and the Smithsonian American Art Museum will be the beneficiary of that international reputation.

I want to thank Mr. THOMAS, the chairman of the House Administration Committee, and Mr. HOYER, its ranking Member for their support in moving this legislation, and I urge its adoption.

Mr. HOYER. Mr. Speaker, I urge support for

the motion.

This bill renames the wonderful National Museum of American Art as the "Smithsonian American Art Museum". This museum is dedicated to the arts and artists of the United States, and its collections enable the public to enjoy America's visual arts both at the museum and on-line

The museum, part of the Smithsonian Institution, shares the historic Patent Building with the National Portrait Gallery.

Known first as the National Gallery of Art. and later as the National Collection of Fine Arts, Congress in 1980 gave the museum its present name, at the Smithsonian's request, to reflect its mission and to conform to the style of the other Smithsonian "national" museums.

However, since 1980, dozens of other museums have assumed the designation "national" in their names, thus weakening the Smithsonian's distinction as America's primary museum of works by American artists. Visitors to Washington are doubly confused by the presence on the Mall of the current National Gallery of Art, which is not part of the Smithsonian Institution.

This change will clarify the museum's mission and status, and it is hoped, increase visitation numbers as museumgoers better understand and discover the contents and location of this important part of the Smithsonian. This non-controversial legislation has the support of the Smithsonian's Secretary and Board of Regents, and passed the Senate without dissent. I urge its passage by this House.

Mr. THOMAS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. THOMAS) that the House suspend the rules and pass the Senate bill, S. 3201.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

# GENERAL LEAVE

Mr. THOMAS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on S. 3201, the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

AUTHORIZING CONSTRUCTION OF SMITHSONIAN ASTROPHYSICAL OBSERVATORY SUBMILLIMETER ARRAY

Mr. THOMAS. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2498) to authorize the Smithsonian Institution to plan, design, construct, and equip laboratory, administrative, and support space to house base operations for the Smithsonian Astrophysical Observatory Submillimeter Array located on Mauna Kea at Hilo, Hawaii.

The Clerk read as follows:

S. 2498

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. FACILITY AUTHORIZED.

The Board of Regents of the Smithsonian Institution is authorized to plan, design, construct, and equip laboratory, administrative, and support space to house base operations for the Smithsonian Astrophysical Observatory Submillimeter Array located on Mauna Kea at Hilo. Hawaii.

#### SEC. 2. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Board of Regents of the Smithsonian Institution to carry out this Act, \$2,000,000 for fiscal year 2001, and \$2,500,000 for fiscal year 2002, which shall remain available until expended.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. THOMAS) and the gentleman from Virginia (Mr. Scott) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

In 1989, the Smithsonian, as part of its various programs, began an astrophysical observatory located on the island of Hawaii on the volcano Mauna Kea. There are a number of other observatories located there as well.

This bill is to provide funds, as was indicated, to design, construct and equip laboratory and administrative support space. This space had been given free by other institutions, but they now require the utilization of that space, and this bill will provide, over the fiscal years 2001 and 2002, sufficient money to provide the support facilities for the astrophysical observatory.

Mr. Speaker, I reserve the balance of

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume, and state that we have no objection to this legislation and join the gentleman from California in urging its passage.

Mrs. MINK of Hawaii. Mr. Speaker, I rise in support of S. 2498, which authorizes the Smithsonian Institution to plan, design, construct, and equip laboratory, administrative, and support space to house base operations in Hilo, Hawaii, for the Smithsonian Astrophysical Observatory Submillimeter Array on Mauna Kea.

The Smithsonian Astrophysical Observatory Submillimeter Array is a state-of-the-art radio telescope that allows scientists to investigate the universe using high resolution and high frequencies to produce detailed images 50 times sharper than current telescopes. Located on Mauna Kea, the world's premier site for astronomical observations, the telescope array will be used to study a variety of astronomical objects and phenomena emitting in the submillimeter range, the narrow band of radiation between radio and infrared waves, a portion of the electromagnetic spectrum largely unexplored from the ground.

Due to the 14,000 foot elevation and difficult working conditions at the summit of Mauna Kea, support staff for the array must be located at a base facility closer to sea level. Repairs and many of the operations will be done from the base facility with only a small day crew traveling to the summit on any given day. At present the staff is using inadequate, temporary leased space. Approval of this bill will allow the Smithsonian to begin plans for construction of a base facility that will ensure that the full potential for discovery offered by the Submillimeter Array is realized. I urge my colleagues to support S. 2498.

Mr. MATSUI. Mr. Speaker, I want to add my strong support of S. 2498. This legislation was introduced by Senator MOYNIHAN, a member of the Smithsonian Board of Regents, and passed by unanimous consent in the Senate on June 14th, earlier this year.

S. 2498 authorizes \$4.5 million to design and build a new base camp facility for the Smithsonian Astrophysical Observatory (SAO) Submillimeter Array Operation, on Mauna Kea in Hilo, Hawaii. The base camp facility will be constructed at the base of Mauna Kea, at sea level, and will provide necessary space to enable staff to conduct repairs, operations, and scientific analysis of the information gained from the submillimeter telescope array, which is located at the top of Mauna Kea.

As many of my colleagues may be aware, Mauna Kea, an inactive volcano, is home to many telescopic observatories due to its ideal climate and atmosphere. Smithsonian's submillimeter array program, when fully implemented, will consist of eight antennae whose signals will be combined to produce finely detailed images of distant objects.

The need for the Smithsonian's new base camp facility arises from two developments. First, the facilities currently being used by Smithsonian submillimeter array operation staff is in shared space occupied many observatories on the island. As technologies, equipment and staff have expanded, the existing aging shared facilities have become overcrowded. Second, a plan by the Smithsonian to lease space in a building that was to be developed by GSA at the University of Hawaii fell through when GSA canceled the project. A new base camp is the only alternative for the Smithsonian.

Mr. Speaker, the Interior Appropriations legislation signed into law last week, contains \$2 million for this as-yet unauthorized project. The inclusion of those funds was due to the efforts of Chairman RALPH REGULA, another colleague of mine from the Smithsonian's Board of Regents, and I want to thank him for ensuring that this important project does not fall behind schedule.

I also want to thank Mr. Thomas, the Chair of the House Administration Committee, and the Ranking Democrat, Mr. Hoyer, for allowing this bill to be brought to the floor for immediate consideration. Finally, I want to thank my colleagues from Hawaii, Mrs. MINK and Mr. ABERCROMBIE for their support and cosponsorship, along with Mr. Hoyer, of H.R. 4729, the House companion to the legislation before us today. I urge adoption of this legislation.

Mr. HOYER. Mr. Speaker, I rise in support of S. 2498, to authorize \$2.0 million in fiscal 2001 and \$2.5 million in fiscal 2002 to construct a new sea-level base camp for the Smithsonian Submillimeter Array at Mauna Kea on the Island of Hawaii.

The array is a state-of-the art radio telescope located at the 14,000 foot elevation which uses high resolution and high frequencies to produce images 50 times sharper than current telescopes.

This observation site, one of the finest and most important in the world, greatly enhances the ability of scientists to understand, study and track the birth of stars, quasars, and other phenomena.

S. 2498, sponsored by Senator MOYNIHAN, passed the Senate unanimously on June 14, 2000 and was referred to the committee on House Administration. The identical House measure, H.R. 4729, was introduced by Representative MATSUI of California, who is a regent of the Smithsonian Institution. It was cosponsored by Representatives MINK and ABERCROMBIE and myself. Passage of S. 2498 by the House today will clear this measure for the President.

Funding for the base-camp project, which is expected to be completed in 2002, has been included in the interior appropriations bill for fiscal 2001, so passage of this authorization bill will complete the legislative process.

Mr. Speaker, this support facility is needed because, due to the altitude, harsh weather and working conditions at the summit, array operations and staff must be located at sea level with only a small staff traveling to the array on any given day. Economical leasing space is not available in the Hilo area, and construction of the base facility will obviate the need for expensive commercial space in that city. According to the Smithsonian, estimated rental costs for the 30-year life cycle of the array would be more than double that of the base facility being authorized here. The project will provide 16,000 square feet of electronics laboratories, offices and support space for maintenance of the array, under the direction of the Smithsonian Institution Astrophysical Observatory. Like other organizations basing observations at Mauna Kea, the support structure will be built on land donated by the University of Hawaii at Hilo Science Park for \$1 a year.

Mr. Speaker, we live in an age of exploration, and there are few things which so stir the imagination as the exploration of space.

In recent years we have discovered planets orbiting distant stars, gained new understanding of the age of the universe, and discovered phenomena which have forced us to reexamine our understanding of the laws of physics and the underpinnings of the natural world.

The Smithsonian Institution has played a leading role in the advancement of mankind's

understanding of the physical world we can see and touch, as well as of the distant universe, and the world of the imagination which projects like the submillimeter array make real to us.

I strongly support this legislation and I complement Representative MATSUI and the Smithsonian regents from the House, Representatives REGULA and SAM JOHNSON of Texas, for their initiative in bringing it before us.

Mr. SCOTT. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. THOMAS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. THOMAS) that the House suspend the rules and pass the Senate bill. S. 2498.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

## GENERAL LEAVE

Mr. THOMAS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on S. 2498, the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

# LIBRARY OF CONGRESS FISCAL OPERATIONS IMPROVEMENT ACT OF 2000

Mr. THOMAS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5410) to establish revolving funds for the operation of certain programs and activities of the Library of Congress, and for other purposes, as amended.

The Clerk read as follows:

# H.R. 5410

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

# SECTION 1. SHORT TITLE.

This Act may be cited as the "Library of Congress Fiscal Operations Improvement Act of 2000".

# TITLE I—LIBRARY OF CONGRESS REVOLVING FUNDS

# SEC. 101. REVOLVING FUND FOR AUDIO AND VIDEO DUPLICATION SERVICES ASSOCIATED WITH AUDIOVISUAL CONSERVATION CENTER.

(a) ESTABLISHMENT.—There is hereby established in the Treasury a revolving fund for audio and video duplication and delivery services provided by the Librarian of Congress (hereafter in this Act referred to as the "Librarian") which are associated with the national audiovisual conservation center established under the Act entitled "An Act to

authorize acquisition of certain real property for the Library of Congress, and for other purposes", approved December 15, 1997 (Public Law 105–144; 2 U.S.C. 141 note).

(b) FEES FOR SERVICES.—The Librarian

(b) FEES FOR SERVICES.—The Librarian may charge a fee for providing services described in subsection (a), and shall deposit any such fees charged into the revolving fund under this section.

- (c) CONTENTS OF FUND.-
- (1) IN GENERAL.—The revolving fund under this section shall consist of the following amounts:
- (A) Amounts deposited by the Librarian under subsection (b).
- (B) Any other amounts received by the Librarian which are attributable to the services described in subsection (a).
- (C) Amounts deposited by the Librarian under paragraph (2).
- (D) Such other amounts as may be appropriated under law.
- (2) DEPOSIT OF FUNDS DURING TRANSITION.— The Librarian shall transfer to the revolving fund under this section the following:
- (A) Any obligated, unexpended balances existing as of the date of the transfer which are attributable to the services described in subsection (a).
- (B) An amount equal to the difference as of such date between—
- (i) the total value of the supplies, inventories, equipment, gift fund balances, and other assets attributable to such services; and
- (ii) the total value of the liabilities attributable to such services.
- (d) USE OF AMOUNTS IN FUND.—Amounts in the revolving fund under this section shall be available to the Librarian, in amounts specified in appropriations Acts and without fiscal year limitation, to carry out the services described in subsection (a).

#### SEC. 102. REVOLVING FUND FOR GIFT SHOP, DEC-IMAL CLASSIFICATION, PHOTO DU-PLICATION, AND RELATED SERV-ICES.

- (a) ESTABLISHMENT.—There is hereby established in the Treasury a revolving fund for the following programs and activities of the Librarian:
  - (1) Decimal classification development.
- (2) The operation of a gift shop or other sales of items associated with collections, exhibits, performances, and special events of the Library of Congress.
- (3) Document reproduction and microfilming services.
- (b) INDIVIDUAL ACCOUNTING REQUIREMENT.—A separate account shall be maintained in the revolving fund under this section with respect to the programs and activities described in each of the paragraphs of subsection (a).
- (c) FEES FOR SERVICES.—The Librarian may charge a fee for services under any of the programs and activities described in subsection (a), and shall deposit any such fees charged into the account of the revolving fund under this section for such program or activity.
- (d) CONTENTS OF ACCOUNTS IN FUND.—
- (1) IN GENERAL.—Each account of the revolving fund under this section shall consist of the following amounts:
- (A) Amounts deposited by the Librarian under subsection (c).
- (B) Any other amounts received by the Librarian which are attributable to the programs and activities covered by such account.
- (C) Amounts deposited by the Librarian under paragraph (2).
- (D) Such other amounts as may be appropriated under law.

- (2) DEPOSIT OF FUNDS DURING TRANSITION.— The Librarian shall transfer to each account of the revolving fund under this section the following:
- (A) Any obligated, unexpended balances existing as of the date of the transfer which are attributable to the programs and activities covered by such account.
- (B) An amount equal to the difference as of such date between—
- (i) the total value of the supplies, inventories, equipment, gift fund balances, and other assets attributable to such programs and activities; and
- (ii) the total value of the liabilities attributable to such programs and activities.
- (e) USE OF AMOUNTS.—Amounts in the accounts of the revolving fund under this section shall be available to the Librarian, in amounts specified in appropriations Acts and without fiscal year limitation, to carry out the programs and activities covered by such accounts.

# SEC. 103. REVOLVING FUND FOR FEDLINK PROGRAM AND FEDERAL RESEARCH PROGRAM.

- (a) ESTABLISHMENT.—There is hereby established in the Treasury a revolving fund for the Federal Library and Information Network program (hereafter in this Act referred to as the "FEDLINK program") of the Library of Congress (as described in subsection (f)(1)) and the Federal Research program of the Library of Congress (as described in subsection (f)(2)).
- (b) INDIVIDUAL ACCOUNTING REQUIREMENT.— A separate account shall be maintained in the revolving fund under this section with respect to the programs described in subsection (a).
  - (c) FEES FOR SERVICES .-
- (1) IN GENERAL.—The Librarian may charge a fee for services under the FEDLINK program and the Federal Research program, and shall deposit any such fees charged into the account of the revolving fund under this section for such program.
- (2) ADVANCES OF FUNDS.—Participants in the FEDLINK program and the Federal Research program shall pay for products and services of the program by advance of funds—
- (A) if the Librarian determines that amounts in the Revolving Fund are otherwise insufficient to cover the costs of providing such products and services; or
- (B) upon agreement between participants and the Librarian.
- (d) CONTENTS OF FUND.—
- (1) IN GENERAL.—Each account of the revolving fund under this section shall consist of the following amounts:
- (A) Amounts deposited by the Librarian under subsection (c).
- (B) Any other amounts received by the Librarian which are attributable to the program covered by such account.
- (C) Amounts deposited by the Librarian under paragraph (2).
- (D) Such other amounts as may be appropriated under law.
- (2) DEPOSIT OF FUNDS DURING TRANSITION.—Notwithstanding section 1535(d) of title 31, United States Code, the Librarian shall transfer to the appropriate account of the revolving fund under this section the following:
- (A) Any obligated, unexpended balances existing as of the date of the transfer which are attributable to the FEDLINK program or the Federal Research program.
- (B) An amount equal to the difference as of such date between—
- (i) the total value of the supplies, inventories, equipment, gift fund balances, and

other assets attributable to such program; and

- (ii) the total value of the liabilities attributable to such program.
- (e) USE OF AMOUNTS IN FUND.—Amounts in the accounts of the revolving fund under this section shall be available to the Librarian, in amounts specified in appropriations Acts and without fiscal year limitation, to carry out the program covered by each such account.
  - (f) Programs Described.—
- (1) FEDLINK.—In this section, the "FEDLINK program" is the program of the Library of Congress under which the Librarian provides the following services on behalf of participating Federal libraries, Federal information centers, other entities of the Federal government, and the District of Columbia:
- (A) The procurement of commercial information services, publications in any format, and library support services.
  - (B) Related accounting services.
- (C) Related education, information, and support services.
- (2) FEDERAL RESEARCH PROGRAM.—In this section, the "Federal Research program" is the program of the Library of Congress under which the Librarian provides research reports, translations, and analytical studies for entities of the Federal Government and the District of Columbia (other than any program of the Congressional Research Service).

#### SEC. 104. AUDITS BY COMPTROLLER GENERAL.

Each of the revolving funds established under this title shall be subject to audit by the Comptroller General at the Comptroller General's discretion.

#### SEC. 105. EFFECTIVE DATE.

The provisions of this title shall apply with respect to fiscal year 2002 and each succeeding fiscal year.

# TITLE II—LIBRARY OF CONGRESS TRUST FUND BOARD

# SEC. 201. REVISIONS TO MEMBERSHIP AND OPERATION OF LIBRARY OF CONGRESS TRUST FUND BOARD.

- (a) ADDITION OF VICE CHAIR OF JOINT COMMITTEE ON THE LIBRARY AS BOARD MEMBER.—Section 1 of the Act entitled "An Act to create a Library of Congress Trust Fund Board, and for other purposes", approved March 3, 1925 (2 U.S.C. 154), is amended in the first sentence of the first paragraph by inserting "and the vice chair" after "chairman".
- (b) QUORUM REQUIREMENT.—Section 1 of such Act (2 U.S.C. 154) is amended in the second sentence of the first paragraph by striking "Nine" and inserting "Seven".
- (c) TEMPORARY EXTENSION OF BOARD MEMBER TERM.—Section 1 of such Act (2 U.S.C. 154) is amended in the first paragraph by inserting after the first sentence the following: "Upon request of the chair of the Board, any member whose term has expired may continue to serve on the Trust Fund Board until the earlier of the date on which such member's successor is appointed or the expiration of the 1-year period which begins on the date such member's term expires."

# SEC. 202. EFFECTIVE DATE.

The amendments made by this title shall take effect on the date of the enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. THOMAS) and the gentleman from Virginia (Mr. Scott) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

H.R. 5410 is a bill to allow the Library of Congress to create three revolving funds so that the monies garnered from various activities could be retained by the library to be reinvested in those areas.

One of the revolving funds is a gift shop fund, the other is a Federal library and information network program for products and services yielded under that structure.

I would tell the gentleman from Virginia that, because of the recent locating of the audio-video conservation center in Culpeper, Virginia, a major acquisition for the Library of Congress in a facility designed for other purposes but perfect for protecting films and audio, that any funds derived from audio-video duplicating will be allowed to be placed in a revolving fund based upon this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would state that we have no objection to the passage of the legislation. We would particularly encourage the gentleman from California to locate other Federal facilities in the Commonwealth of Virginia, and we urge the passage of this bill.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume just to note that I did thank the gentleman from Virginia for his assistance, and I will gladly and laudatorily praise him for his assistance, but he will have to work to get additional facilities.

The one that we have is an excellent one and it is going to serve the Nation well in preserving the very volatile audio and video treasures of this country.

Mr. HOYER. Mr. Speaker, I urge support for the motion.

This bill resembles one that I introduced in April. It will resolve the sole remaining issue raised in the annual audit of Library financial operations by giving the Library statutory authority to operate its gift revolving funds.

The bill creates three revolving funds, one to support the Library's audio-visual duplication and delivery services; a second to support its gift shop, decimal cataloging and photo duplication services; and a third to support "FEDLINK," the program that acquires library materials for other agencies, and the Federal Research Division, which conducts research for other agencies.

Enactment of this measure will result in significant savings to the Library and its customers by improving financial management of these programs. The Library estimates that FEDLINK's agency customers will collectively save over \$1.3 million annually through administrative efficiencies and increased vendor discounts.

In addition, the bill adds the vice-chair of the Joint Committee on the Library to the trust fund board, to ensure representation from both Houses. Finally, to facilitate the work of the Library's trust fund board, the bill adjusts its quorum requirement. It also permits the board chairman to request that members whose terms have expired continue to serve for up to a year, or until their successors are qualified, whichever comes first.

Mr. Speaker, this is a good-housekeeping bill that will save money for the Library and its customers while resolving auditors' concerns. I urge an "aye" vote.

Mr. THOMAS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. THOMAS) that the House suspend the rules and pass the bill, H.R. 5410, as amended.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## GENERAL LEAVE

Mr. THOMAS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 5410, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF MOTIONS TO SUSPEND THE RULES

Mr. SESSIONS, from the Committee on Rules, submitted a privileged report (Rept. No. 106–984) on the resolution (H. Res. 633) providing for consideration of motions to suspend the rules, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PRO-VIDING FOR CONSIDERATION OF H.R. 4656, LAKE TAHOE BASIN LAND CONVEYANCE

Mr. SESSIONS, from the Committee on Rules, submitted a privileged report (Rept. No. 106–985) on the resolution (H. Res. 634) providing for consideration of the bill (H.R. 4656) to authorize the Forest Service to convey certain lands in the Lake Tahoe Basin to the Washoe County School District for use as an elementary school site, which was referred to the House Calendar and ordered to be printed.

FISH AND WILDLIFE PROGRAMS IMPROVEMENT AND NATIONAL WILDLIFE REFUGE SYSTEM CEN-TENNIAL ACT OF 2000

Mr. YOUNG of Alaska. Mr. Speaker, I move to suspend the rules and concur in the Senate amendments to the bill (H.R. 3671) to amend the Acts popularly known as the Pittman-Robertson Wildlife Restoration Act and the Dingell-Johnson Sport Fish Restoration Act to enhance the funds available for grants to States for fish and wildlife conservation projects and increase opportunities for recreational hunting, bow hunting, trapping, archery, and fishing, by eliminating opportunities for waste, fraud, abuse, maladministration, and unauthorized expenditures for administration and execution of those acts. and for other purposes.

The Clerk read as follows:

Senate amendments:

Strike out all after the enacting clause and

#### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

- (a) SHORT TITLE.—This Act may be cited as the "Fish and Wildlife Programs Improvement and National Wildlife Refuge System Centennial Act of 2000".
- (b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:
- Sec. 1. Short title; table of contents.

#### SEC. 101. SHORT TITLES.

- (a) This Title.—This title may be cited as the "Wildlife and Sport Fish Restoration Programs Improvement Act of 2000".
- (b) PITTMAN-ROBERTSON WILDLIFE RESTORA-TION ACT.—The Act of September 2, 1937 (16 U.S.C. 669 et seq.), is amended by adding at the end the following:

#### "SEC. 13. SHORT TITLE.

"This Act may be cited as the 'Pittman-Robertson Wildlife Restoration Act'.".

(c) DINGELL-JOHNSON SPORT FISH RESTORA-TION ACT.—The Act of August 9, 1950 (16 U.S.C. 777 et seq.), is amended by adding at the end the following:

## "SEC. 15. SHORT TITLE.

"This Act may be cited as the 'Dingell-Johnson Sport Fish Restoration Act'."

## Subtitle A-Wildlife Restoration

#### SEC. 111. EXPENSES FOR ADMINISTRATION.

- (a) SET-ASIDE FOR EXPENSES FOR ADMINISTRA-TION OF THE PITTMAN-ROBERTSON WILDLIFE RESTORATION ACT.—Section 4 of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669c) is amended—
- (1) by redesignating subsection (b) as subsection (c);
- (2) by striking "SEC. 4." and all that follows through the end of the first sentence of subsection (a) and inserting the following:

#### "SEC. 4. ALLOCATION AND APPORTIONMENT OF AVAILABLE AMOUNTS.

- "(α) Set-Aside for Expenses for Administration of the Pittman-Robertson Wildlife Restoration Act.—
- "(1) IN GENERAL.-
- "(A) SET-ASIDE.—For fiscal year 2001 and each fiscal year thereafter, of the revenues (excluding interest accruing under section 3(b)) covered into the fund for the fiscal year, the Secretary of the Interior may use not more than the available amount specified in subparagraph (B) for the fiscal year for expenses for administration incurred in implementation of this Act, in accordance with this subsection and section 9.
- "(B) AVAILABLE AMOUNTS.—The available amount referred to in subparagraph (A) is—
- "(i) for each of fiscal years 2001 and 2002, \$9,000,000;
- "(ii) for fiscal year 2003, \$8,212,000; and
- "(iii) for fiscal year 2003, 30,212,000, and "(iii) for fiscal year 2004 and each fiscal year thereafter, the sum of—
- "(I) the available amount for the preceding fiscal year; and
- "(II) the amount determined by multiplying—
  "(aa) the available amount for the preceding fiscal year: and
- "(bb) the change, relative to the preceding fiscal year, in the Consumer Price Index for All Urban Consumers published by the Department
- "(2) PERIOD OF AVAILABILITY; APPORTIONMENT OF UNOBLIGATED AMOUNTS.—
- "(A) PERIOD OF AVAILABILITY.—For each fiscal year, the available amount under paragraph (1) shall remain available for obligation for use under that paragraph until the end of the fiscal
- "(B) APPORTIONMENT OF UNOBLIGATED AMOUNTS.—Not later than 60 days after the end of a fiscal year, the Secretary of the Interior shall apportion among the States any of the available amount under paragraph (1) that remains unobligated at the end of the fiscal year, on the same basis and in the same manner as other amounts made available under this Act are apportioned among the States for the fiscal year.

- "(b) APPORTIONMENT TO STATES.—";
- (3) in subsection (b) (as designated by paragraph (2)), by striking "after making the aforesaid deduction, shall apportion, except as provided in subsection (b) of this section," and inserting "after deducting the available amount under subsection (a), the amount apportioned under subsection (c), any amount apportioned under section 8A, and amounts provided as grants under sections 10 and 11, shall apportion"; and
- (4) in the first sentence of subsection (c) (as redesignated by paragraph (1)), by inserting "Puerto Rico," after "American Samoa,".
- (b) REQUIREMENTS AND RESTRICTIONS CON-CERNING USE OF AMOUNTS FOR EXPENSES FOR ADMINISTRATION.—Section 9 of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669h) is amended to read as follows:

# "SEC. 9. REQUIREMENTS AND RESTRICTIONS CONCERNING USE OF AMOUNTS FOR EXPENSES FOR ADMINISTRATION.

- "(a) AUTHORIZED EXPENSES FOR ADMINISTRA-TION.—Except as provided in subsection (b), the Secretary of the Interior may use available amounts under section 4(a)(1) only for expenses for administration that directly support the implementation of this Act that consist of—
- "(1) personnel costs of employees who directly administer this Act on a full-time basis;
- "(2) personnel costs of employees who directly administer this Act on a part-time basis for at least 20 hours each week, not to exceed the portion of those costs incurred with respect to the work hours of the employee during which the employee directly administers this Act, as those hours are certified by the supervisor of the employee."
- "(3) support costs directly associated with personnel costs authorized under paragraphs (1) and (2), excluding costs associated with staffing and operation of regional offices of the United States Fish and Wildlife Service and the Department of the Interior other than for the purposes of this Act;
- "(4) costs of determining under section 6(a) whether State comprehensive plans and projects are substantial in character and design;
- "(5) overhead costs, including the costs of general administrative services, that are directly attributable to administration of this Act and are based on—
- "(A) actual costs, as determined by a direct cost allocation methodology approved by the Director of the Office of Management and Budget for use by Federal agencies; and
- "(B) in the case of costs that are not determinable under subparagraph (A), an amount per full-time equivalent employee authorized under paragraphs (1) and (2) that does not exceed the amount charged or assessed for costs per full-time equivalent employee for any other division or program of the United States Fish and Wildlife Service;
- "(6) costs incurred in auditing, every 5 years, the wildlife and sport fish activities of each State fish and game department and the use of funds under section 6 by each State fish and game department;
- "(7) costs of audits under subsection (d);
- "(8) costs of necessary training of Federal and State full-time personnel who administer this Act to improve administration of this Act;
- "(9) costs of travel to States, territories, and Canada by personnel who—
- "(4) administer this Act on a full-time basis for purposes directly related to administration of State programs or projects; or
- "(B) administer grants under section 6, 10, or
- "(10) costs of travel outside the United States (except travel to Canada), by personnel who administer this Act on a full-time basis, for purposes that directly relate to administration of

this Act and that are approved directly by the Assistant Secretary for Fish and Wildlife and Parks;

"(11) relocation expenses for personnel who, after relocation, will administer this Act on a full-time basis for at least 1 year, as certified by the Director of the United States Fish and Wildlife Service at the time at which the relocation expenses are incurred; and

"(12) costs to audit, evaluate, approve, disapprove, and advise concerning grants under sections 6, 10, and 11.

"(b) Reporting of Other Uses.—

"(1) IN GENERAL.—Subject to paragraph (2), if the Secretary of the Interior determines that available amounts under section 4(a)(1) should be used for an expense for administration other than an expense for administration described in subsection (a), the Secretary—

"(A) shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Resources of the House of Representatives a report describing the expense for administration and stating the amount of the expense; and

"(B) may use any such available amounts for the expense for administration only after the end of the 30-day period beginning on the date of submission of the report under subparagraph (A).

(A).
"(2) MAXIMUM AMOUNT.—For any fiscal year,
the Secretary of the Interior may use under
paragraph (1) not more than \$25,000.

"(c) RESTRICTION ON USE TO SUPPLEMENT GENERAL APPROPRIATIONS.—The Secretary of the Interior shall not use available amounts under subsection (b) to supplement the funding of any function for which general appropriations are made for the United States Fish and Wildlife Service or any other entity of the Department of the Interior.

"(d) AUDIT REQUIREMENT.—

"(1) IN GENERAL.—The Inspector General of the Department of the Interior shall procure the performance of biennial audits, in accordance with generally accepted accounting principles, of expenditures and obligations of amounts used by the Secretary of the Interior for expenses for administration incurred in implementation of this Act.

"(2) AUDITOR.—

"(A) In GENERAL.—An audit under this subsection shall be performed under a contract that is awarded under competitive procedures (as defined in section 4 of the Office of Federal Procurement Policy Act (41 U.S.C. 403)) by a person or entity that is not associated in any way with the Department of the Interior (except by way of a contract for the performance of an audit or other review).

"(B) SUPÉRVISION OF AUDITOR.—The auditor selected under subparagraph (A) shall report to, and be supervised by, the Inspector General of the Department of the Interior, except that the auditor shall submit a copy of the biennial audit findings to the Secretary of the Interior at the time at which the findings are submitted to the Inspector General of the Department of the Interior.

"(3) REPORT TO CONGRESS.—The Inspector General of the Department of the Interior shall promptly submit to the Committee on Resources of the House of Representatives and the Committee on Environment and Public Works of the Senate—

"(A) a report on the results of each audit under this subsection; and

"(B) a copy of each audit under this subsection.".

(c) CONFORMING AMENDMENT.—Section 8(b) of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669g(b)) is amended in the first sentence by striking "section 4(b) of this Act" and inserting "section 4(c)".

#### SEC. 112. FIREARM AND BOW HUNTER EDU-CATION AND SAFETY PROGRAM GRANTS.

 $\begin{tabular}{ll} The & Pittman-Robertson & Wildlife & Restoration \\ Act is & amended — \end{tabular}$ 

(1) by redesignating section 10 (16 U.S.C. 669i) as section 12; and

(2) by inserting after section 9 (16 U.S.C. 669h) the following:

#### "SEC. 10. FIREARM AND BOW HUNTER EDU-CATION AND SAFETY PROGRAM GRANTS.

"(a) IN GENERAL.—

"(1) GRANTS.—Of the revenues covered into the fund, \$7,500,000 for each of fiscal years 2001 and 2002, and \$8,000,000 for fiscal year 2003 and each fiscal year thereafter, shall be apportioned among the States in the manner specified in section 4(c) by the Secretary of the Interior and used to make grants to the States to be used for—

"(A) in the case of a State that has not used all of the funds apportioned to the State under section 4(c) for the fiscal year in the manner described in section 8(b)—

"(i) the enhancement of hunter education programs, hunter and sporting firearm safety programs, and hunter development programs;

'(ii) the enhancement of interstate coordination and development of hunter education and shooting range programs;

"(iii) the enhancement of bow hunter and archery education, safety, and development programs; and

"(iv) the enhancement of construction or development of firearm shooting ranges and archery ranges, and the updating of safety features of firearm shooting ranges and archery ranges;

"(B) in the case of a State that has used all of the funds apportioned to the State under section 4(c) for the fiscal year in the manner described in section 8(b), any use authorized by this Act (including hunter safety programs and the construction, operation, and maintenance of public target ranges).

"(2) LIMITATION ON USE.—Under paragraph (1), a State shall not be required to use more than the amount described in section 8(b) for hunter safety programs and the construction, operation, and maintenance of public target ranges.

"(b) COST SHARING.—The Federal share of the cost of any activity carried out with a grant under this section shall not exceed 75 percent of the total cost of the activity.

 $\lq\lq(c)$  Period of Availability; Reapportionment.—

"(1) PERIOD OF AVAILABILITY.—Amounts made available and apportioned for grants under this section shall remain available only for the fiscal year for which the amounts are apportioned.

"(2) REAPPORTIONMENT.—At the end of the period of availability under paragraph (1), the Secretary of the Interior shall apportion amounts made available that have not been used to make grants under this section among the States described in subsection (a)(1)(B) for use by those States in accordance with this Act.".

# SEC. 113. MULTISTATE CONSERVATION GRANT PROGRAM.

The Pittman-Robertson Wildlife Restoration Act (as amended by section 112) is amended by inserting after section 10 the following:

# "SEC. 11. MULTISTATE CONSERVATION GRANT PROGRAM.

"(a) IN GENERAL.—

"(1) AMOUNT FOR GRANTS.—Not more than \$3,000,000 of the revenues covered into the fund for a fiscal year shall be available to the Secretary of the Interior for making multistate conservation project grants in accordance with this section.

"(2) PERIOD OF AVAILABILITY; APPORTION-MENT.—

"(A) PERIOD OF AVAILABILITY.—Amounts made available under paragraph (1) shall remain available for making grants only for the first fiscal year for which the amount is made available and the following fiscal year.

"(B) APPORTIONMENT.—At the end of the period of availability under subparagraph (A), the Secretary of the Interior shall apportion any amounts that remain available among the States in the manner specified in section 4(b) for use by the States in the same manner as funds apportioned under section 4(b).

"(b) SELECTION OF PROJECTS.-

"(1) STATES OR ENTITIES TO BE BENEFITED.—A project shall not be eligible for a grant under this section unless the project will benefit—

"(A) at least 26 States;

"(B) a majority of the States in a region of the United States Fish and Wildlife Service: or

"(C) a regional association of State fish and game departments.

"(2) USE OF SUBMITTED PRIORITY LIST OF PROJECTS.—The Secretary of the Interior may make grants under this section only for projects identified on a priority list of wildlife restoration projects described in paragraph (3).

"(3) PRIORITY LIST OF PROJECTS.—A priority list referred to in paragraph (2) is a priority list of wildlife restoration projects that the International Association of Fish and Wildlife Agencies—

"(A) prepares through a committee comprised of the heads of State fish and game departments (or their designees), in consultation with—

"(i) nongovernmental organizations that represent conservation organizations:

"(ii) sportsmen organizations; and

"(iii) industries that support or promote hunting, trapping, recreational shooting, bow hunting, or archery;

"(B) approves by vote of a majority of the heads of State fish and game departments (or their designees); and

"(C) not later than October 1 of each fiscal year, submits to the Assistant Director for Wildlife and Sport Fish Restoration Programs.

"(4) PUBLICATION.—The Assistant Director for Wildlife and Sport Fish Restoration Programs shall publish in the Federal Register each priority list submitted under paragraph (3)(C).

"(c) ELIGIBLE GRANTEES.-

"(1) IN GENERAL.—The Secretary of the Interior may make a grant under this section only

"(A) a State or group of States;

"(B) the United States Fish and Wildlife Service, or a State or group of States, for the purpose of carrying out the National Survey of Fishing, Hunting, and Wildlife-Associated Recreation; and

"(C) subject to paragraph (2), a nongovernmental organization.

"(2) NONGOVERNMENTAL ORGANIZATIONS.—

"(A) IN GENERAL.—Any nongovernmental organization that applies for a grant under this section shall submit with the application to the International Association of Fish and Wildlife Agencies a certification that the organization—

"(i) will not use the grant funds to fund, in whole or in part, any activity of the organization that promotes or encourages opposition to the regulated hunting or trapping of wildlife; and

"(ii) will use the grant funds in compliance with subsection (d).

"(B) PENALTIES FOR CERTAIN ACTIVITIES.— Any nongovernmental organization that is found to use grant funds in violation of subparagraph (A) shall return all funds received under this section and be subject to any other applicable penalties under law.

"(d) USE OF GRANTS.—A grant under this section shall not be used, in whole or in part, for

an activity, project, or program that promotes or encourages opposition to the regulated hunting or trapping of wildlife.

"(e) Nonapplicability of Federal Advisory Committee Act.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to any activity carried out under this section.".

#### SEC. 114. MISCELLANEOUS PROVISION.

Section 5 of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669d) is amended in the first sentence—

(1) by inserting ", at the time at which a deduction or apportionment is made," after "certify"; and

(2) by striking "and executing".

# Subtitle B—Sport Fish Restoration SEC. 121. EXPENSES FOR ADMINISTRATION.

(a) SET-ASIDE FOR EXPENSES FOR ADMINISTRA-TION OF THE DINGELL-JOHNSON SPORT FISH RES-TORATION ACT.—Section 4 of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c) is amended by striking subsection (d) and inserting the following:

"(d) SET-ASIDE FOR EXPENSES FOR ADMINISTRATION OF THE DINGELL-JOHNSON SPORT FISH RESTORATION ACT.—

"(1) IN GENERAL.—

- "(A) SET-ASIDE.—For fiscal year 2001 and each fiscal year thereafter, of the balance of each such annual appropriation remaining after the distribution and use under subsections (a), (b), and (c) and section 14, the Secretary of the Interior may use not more than the available amount specified in subparagraph (B) for the fiscal year for expenses for administration incurred in implementation of this Act, in accordance with this subsection and section 9.
- "(B) AVAILABLE AMOUNTS.—The available amount referred to in subparagraph (A) is—
- "(i) for each of fiscal years 2001 and 2002, \$9,000,000;

"(ii) for fiscal year 2003, \$8,212,000; and

- ''(iii) for fiscal year 2004 and each fiscal year thereafter, the sum of—
- "(I) the available amount for the preceding fiscal year; and
- "(II) the amount determined by multiplying—
  "(aa) the available amount for the preceding fiscal year: and
- "(bb) the change, relative to the preceding fiscal year, in the Consumer Price Index for All Urban Consumers published by the Department of Labor.
- "(2) PERIOD OF AVAILABILITY; APPORTIONMENT OF UNOBLIGATED AMOUNTS.—
- "(A) PERIOD OF AVAILABILITY.—For each fiscal year, the available amount under paragraph (1) shall remain available for obligation for use under that paragraph until the end of the fiscal year.
- "(B) APPORTIONMENT OF UNOBLIGATED AMOUNTS.—Not later than 60 days after the end of a fiscal year, the Secretary of the Interior shall apportion among the States any of the available amount under paragraph (1) that remains unobligated at the end of the fiscal year, on the same basis and in the same manner as other amounts made available under this Act are apportioned among the States under subsection (e) for the fiscal year."
- (b) REQUIREMENTS AND RESTRICTIONS CON-CERNING USE OF AMOUNTS FOR EXPENSES FOR ADMINISTRATION.—Section 9 of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777h) is amended to read as follows:

#### "SEC. 9. REQUIREMENTS AND RESTRICTIONS CONCERNING USE OF AMOUNTS FOR EXPENSES FOR ADMINISTRATION.

"(a) AUTHORIZED EXPENSES FOR ADMINISTRA-TION.—Except as provided in subsection (b), the Secretary of the Interior may use available amounts under section 4(d)(1) only for expenses for administration that directly support the implementation of this Act that consist of"(1) personnel costs of employees who directly administer this Act on a full-time basis;

"(2) personnel costs of employees who directly administer this Act on a part-time basis for at least 20 hours each week, not to exceed the portion of those costs incurred with respect to the work hours of the employee during which the employee directly administers this Act, as those hours are certified by the supervisor of the employee;

"(3) support costs directly associated with personnel costs authorized under paragraphs (1) and (2), excluding costs associated with staffing and operation of regional offices of the United States Fish and Wildlife Service and the Department of the Interior other than for the purposes of this Act;

"(4) costs of determining under section 6(a) whether State comprehensive plans and projects are substantial in character and design;

"(5) overhead costs, including the costs of general administrative services, that are directly attributable to administration of this Act and are based on—

"(A) actual costs, as determined by a direct cost allocation methodology approved by the Director of the Office of Management and Budget for use by Federal agencies; and

"(B) in the case of costs that are not determinable under subparagraph (A), an amount per full-time equivalent employee authorized under paragraphs (1) and (2) that does not exceed the amount charged or assessed for costs per full-time equivalent employee for any other division or program of the United States Fish and Wildlife Service;

"(6) costs incurred in auditing, every 5 years, the wildlife and sport fish activities of each State fish and game department and the use of funds under section 6 by each State fish and game department:

"(7) costs of audits under subsection (d);

"(8) costs of necessary training of Federal and State full-time personnel who administer this Act to improve administration of this Act;

"(9) costs of travel to States, territories, and Canada by personnel who—

"(A) administer this Act on a full-time basis for purposes directly related to administration of State programs or projects; or

"(B) administer grants under section 6 or 14; "(10) costs of travel outside the United States (except travel to Canada), by personnel who administer this Act on a full-time basis, for purposes that directly relate to administration of this Act and that are approved directly by the Assistant Secretary for Fish and Wildlife and

"(11) relocation expenses for personnel who, after relocation, will administer this Act on a full-time basis for at least 1 year, as certified by the Director of the United States Fish and Wildlife Service at the time at which the relocation expenses are incurred; and

"(12) costs to audit, evaluate, approve, disapprove, and advise concerning grants under sections 6 and 14.

"(b) REPORTING OF OTHER USES.—

"(1) IN GENERAL.—Subject to paragraph (2), if the Secretary of the Interior determines that available amounts under section 4(d)(1) should be used for an expense for administration other than an expense for administration described in subsection (a), the Secretary—

"(A) shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Resources of the House of Representatives a report describing the expense for administration and stating the amount of the expense: and

"(B) may use any such available amounts for the expense for administration only after the end of the 30-day period beginning on the date of submission of the report under subparagraph "(2) MAXIMUM AMOUNT.—For any fiscal year, the Secretary of the Interior may use under paragraph (1) not more than \$25,000.

"(c) RESTRICTION ON USE TO SUPPLEMENT GENERAL APPROPRIATIONS.—The Secretary of the Interior shall not use available amounts under subsection (b) to supplement the funding of any function for which general appropriations are made for the United States Fish and Wildlife Service or any other entity of the Department of the Interior.

"(d) AUDIT REQUIREMENT.—

"(1) IN GENERAL.—The Inspector General of the Department of the Interior shall procure the performance of biennial audits, in accordance with generally accepted accounting principles, of expenditures and obligations of amounts used by the Secretary of the Interior for expenses for administration incurred in implementation of this Act.

"(2) AUDITOR .-

"(A) IN GENERAL.—An audit under this subsection shall be performed under a contract that is awarded under competitive procedures (as defined in section 4 of the Office of Federal Procurement Policy Act (41 U.S.C. 403)) by a person or entity that is not associated in any way with the Department of the Interior (except by way of a contract for the performance of an audit or other review).

"(B) SUPERVISION OF AUDITOR.—The auditor selected under subparagraph (A) shall report to, and be supervised by, the Inspector General of the Department of the Interior, except that the auditor shall submit a copy of the biennial audit findings to the Secretary of the Interior at the time at which the findings are submitted to the Inspector General of the Department of the Interior.

"(3) REPORT TO CONGRESS.—The Inspector General of the Department of the Interior shall promptly submit to the Committee on Resources of the House of Representatives and the Committee on Environment and Public Works of the Senate—

"(A) a report on the results of each audit under this subsection; and

"(B) a copy of each audit under this subsection"

(c) EXPENSES FOR ADMINISTRATION OF CERTAIN PROGRAMS.—Section 4 of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c) is amended by adding at the end the following:

"(g) Expenses for Administration of Certain Programs.—

"(1) IN GENERAL.—For each fiscal year, of the amounts appropriated under section 3, the Secretary of the Interior shall use only funds authorized for use under subsections (a), (b)(3)(A), (b)(3)(B), and (c) to pay the expenses for administration incurred in carrying out the provisions of law referred to in those subsections, respectively.

"(2) MAXIMUM AMOUNT.—For each fiscal year, the Secretary of the Interior may use not more than \$900,000 in accordance with paragraph (1)"

# SEC. 122. MULTISTATE CONSERVATION GRANT PROGRAM.

- (a) ESTABLISHMENT OF PROGRAM.—The Dingell-Johnson Sport Fish Restoration Act is amended—
- (1) by striking the section 13 relating to effective date (16 U.S.C. 777 note) and inserting the following:

# "SEC. 14. MULTISTATE CONSERVATION GRANT PROGRAM.

"(a) IN GENERAL.—

"(1) AMOUNT FOR GRANTS.—Of the balance of each annual appropriation made under section 3 remaining after the distribution and use under subsections (a), (b), and (c) of section 4 in a fiscal year, not more than \$3,000,000 shall be available to the Secretary of the Interior for making

multistate conservation project grants in accordance with this section.

- "(2) PERIOD OF AVAILABILITY; APPORTION-
- MENT.—

  "(A) PERIOD OF AVAILABILITY.—Amounts
  made available under paragraph (1) shall remain available for making grants only for the
  first fiscal year for which the amount is made
  available and the following fiscal year.
- "(B) APPORTIONMENT.—At the end of the period of availability under subparagraph (A), the Secretary of the Interior shall apportion any amounts that remain available among the States in the manner specified in section 4(e) for use by the States in the same manner as funds apportioned under section 4(e).
  - "(b) SELECTION OF PROJECTS.—
- "(1) States or entities to be benefited.—A project shall not be eligible for a grant under this section unless the project will benefit—
  - "(A) at least 26 States;
- "(B) a majority of the States in a region of the United States Fish and Wildlife Service; or
- "(C) a regional association of State fish and game departments.
- "(2) USE OF SUBMITTED PRIORITY LIST OF PROJECTS.—The Secretary of the Interior may make grants under this section only for projects identified on a priority list of sport fish restoration projects described in paragraph (3).
- "(3) PRIORITY LIST OF PROJECTS.—A priority list referred to in paragraph (2) is a priority list of sport fish restoration projects that the International Association of Fish and Wildlife Agencies—
- "(A) prepares through a committee comprised of the heads of State fish and game departments (or their designees), in consultation with—
- "(i) nongovernmental organizations that represent conservation organizations;
  - "(ii) sportsmen organizations; and
- "(iii) industries that fund the sport fish restoration programs under this Act;
- "(B) approves by vote of a majority of the heads of State fish and game departments (or their designees); and
- "(C) not later than October 1 of each fiscal year, submits to the Assistant Director for Wildlife and Sport Fish Restoration Programs.
- "(4) PUBLICATION.—The Assistant Director for Wildlife and Sport Fish Restoration Programs shall publish in the Federal Register each priority list submitted under paragraph (3)(C).
  - "(c) ELIGIBLE GRANTEES.—
- "(1) In GENERAL.—The Secretary of the Interior may make a grant under this section only to—
  - "(A) a State or group of States;
- "(B) the United States Fish and Wildlife Service, or a State or group of States, for the purpose of carrying out the National Survey of Fishing, Hunting, and Wildlife-Associated Recreation, and
- "(C) subject to paragraph (2), a nongovernmental organization.
  - "(2) Nongovernmental organizations.—
- "(Á) IN GENERAL.—Any nongovernmental organization that applies for a grant under this section shall submit with the application to the International Association of Fish and Wildlife Agencies a certification that the organization—
- "(i) will not use the grant funds to fund, in whole or in part, any activity of the organization that promotes or encourages opposition to the regulated taking of fish; and
- "(ii) will use the grant funds in compliance with subsection (d).
- "(B) PENALTIES FOR CERTAIN ACTIVITIES.— Any nongovernmental organization that is found to use grant funds in violation of subparagraph (A) shall return all funds received under this section and be subject to any other applicable penalties under law.
- "(d) USE OF GRANTS.—A grant under this section shall not be used, in whole or in part, for

an activity, project, or program that promotes or encourages opposition to the regulated taking of fish.

- "(e) FUNDING FOR OTHER ACTIVITIES.—Of the balance of each annual appropriation made under section 3 remaining after the distribution and use under subsections (a), (b), and (c) of section 4 for each fiscal year and after deducting amounts used for grants under subsection (a)—
- (a)— ('(1) \$200,000 shall be made available for each
- of—
  "(A) the Atlantic States Marine Fisheries
  Commission:
- "(B) the Gulf States Marine Fisheries Commission;
- "(C) the Pacific States Marine Fisheries Commission; and
- "(D) the Great Lakes Fisheries Commission; and
- "(2) \$400,000 shall be made available for the Sport Fishing and Boating Partnership Council established by the United States Fish and Wildlife Service.
- "(f) NONAPPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to any activity carried out under this section.";
- (2) by moving that section to appear after the section 13 relating to State use of contributions (16 U.S.C. 7771).
- (b) CONFORMING AMENDMENT.—Section 4(e) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c(e)) is amended in the first sentence by inserting "and after deducting amounts used for grants under section 14," after "respectively,".

#### SEC. 123. FUNDING OF THE COASTAL WETLANDS PLANNING, PROTECTION AND RES-TORATION ACT.

Section 4(a) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c(a)) is amended in the second sentence by striking "2000" and inserting "2009".

# SEC. 124. PERIOD OF AVAILABILITY.

Section 4(f) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c(f)) is amended in the first sentence by striking ", and if" and all that follows through "recreation".

# SEC. 125. MISCELLANEOUS PROVISION.

- Section 5 of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777d) is amended—
- (1) by inserting ", at the time at which a deduction or apportionment is made," after "certify"; and
  - (2) by striking "and executing".

# SEC. 126. CONFORMING AMENDMENT.

Section 9504(b)(2)(A) of the Internal Revenue Code of 1986 is amended by striking "(as in effect on the date of the enactment of the TEA 21 Restoration Act)" and inserting "(as in effect on the date of enactment of the Wildlife and Sport Fish Restoration Programs Improvement Act of 2000)".

## Subtitle C—Wildlife and Sport Fish Restoration Programs

# SEC. 131. DESIGNATION OF PROGRAMS.

The programs established under the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669 et seq.) and the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777 et seq.) shall be known as the "Federal Assistance Program for State Wildlife and Sport Fish Restoration".

#### SEC. 132. ASSISTANT DIRECTOR FOR WILDLIFE AND SPORT FISH RESTORATION PROGRAMS.

- (a) ESTABLISHMENT.—There is established in the United States Fish and Wildlife Service of the Department of the Interior the position of Assistant Director for Wildlife and Sport Fish Restoration Programs.
- (b) SUPERIOR.—The Assistant Director for Wildlife and Sport Fish Restoration Programs

shall report directly to the Director of the United States Fish and Wildlife Service.

(c) RESPONSIBILITIES.—The Assistant Director for Wildlife and Sport Fish Restoration Programs shall be responsible for the administration, management, and oversight of the Federal Assistance Program for State Wildlife and Sport Fish Restoration under the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669 et seq.) and the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777 et seq.).

## SEC. 133. REPORTS AND CERTIFICATIONS.

- (a) IMPLEMENTATION REPORT.—
- (1) In GENERAL.—At the time at which the President submits to Congress a budget request for the Department of the Interior for fiscal year 2002, the Secretary of the Interior shall submit to the Committee on Resources of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the steps that have been taken to comply with this title and the amendments made by this title
- (2) CONTENTS.—The report under paragraph (1) shall describe—
- (A) the extent to which compliance with this title and the amendments made by this title has required a reduction in the number of personnel assigned to administer, manage, and oversee the Federal Assistance Program for State Wildlife and Sport Fish Restoration:
- (B) any revisions to this title or the amendments made by this title that would be desirable in order for the Secretary of the Interior to adequately administer the Program and ensure that funds provided to State agencies are properly used; and
- (C) any other information concerning the implementation of this title and the amendments made by this title that the Secretary of the Interior considers appropriate.
- (b) PROJECTED SPENDING REPORT.—At the time at which the President submits a budget request for the Department of the Interior for fixely year 2002 and each fiscal year thereafter, the Secretary of the Interior shall report in writing to the Committee on Resources of the House of Representatives and the Committee on Environment and Public Works of the Senate the amounts, broken down by category, that are intended to be used for the fiscal year under section 4(a)(1) of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669c(a)(1)) and section 4(d)(1) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c(d)(1)).
- (c) SPENDING CERTIFICATION AND REPORT.— Not later than 60 days after the end of each fiscal year, the Secretary of the Interior shall certify and report in writing to the Committee on Resources of the House of Representatives and the Committee on Environment and Public Works of the Senate—
- (1) the amounts, broken down by category, that were used for the fiscal year under section 4(a)(1) of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669c(a)(1)) and section 4(d)(1) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c(d)(1));
- (2) the amounts apportioned to States for the fiscal year under section 4(a)(2) of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669c(a)(2)) and section 4(d)(2)(A) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c(d)(2)(A));
- (3) the results of the audits performed under section 9(d) of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669h(d) and section 9(d) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777h(d));
- (4) that all amounts used for the fiscal year under section 4(a)(1) of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669c(a)(1)) and section 4(d)(1) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c(d)(1)) were

necessary for expenses for administration incurred in implementation of those Acts;

- (5) that all amounts used for the fiscal year to administer those Acts by agency headquarters and by regional offices of the United States Fish and Wildlife Service were used in accordance with those Acts; and
- (6) that the Secretary of the Interior, the Assistant Secretary for Fish and Wildlife and Parks, the Director of the United States Fish and Wildlife Service, and the Assistant Director for Wildlife and Sport Fish Restoration Programs each properly discharged their duties under those Acts.
  - (d) CERTIFICATIONS BY STATES.—
- (1) In GENERAL.—Not later than 60 days after the end of each fiscal year, each State that received amounts apportioned under the Pittman Robertson Wildlife Restoration Act (16 U.S.C. 669 et seq.) or the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777 et seq.) for the fiscal year shall certify to the Secretary of the Interior in writing that the amounts were expended by the State in accordance with each of those Acts.
- (2) TRANSMISSION TO CONGRESS.—Not later than December 31 of a fiscal year, the Secretary of the Interior shall transmit all certifications under paragraph (1) for the previous fiscal year to the Committee on Resources of the House of Representatives and the Committee on Environment and Public Works of the Senate.
- (e) LIMITATION ON DELEGATION.—The Secretary of the Interior shall not delegate the responsibility for making a certification under subsection (c) to any person except the Assistant Secretary for Fish and Wildlife and Parks.

# $\begin{array}{c} \textbf{TITLE II--NATIONAL FISH AND WILDLIFE} \\ \textbf{FOUNDATION} \end{array}$

# SEC. 201. SHORT TITLE.

This title may be cited as the "National Fish and Wildlife Foundation Establishment Act Amendments of 2000".

# SEC. 202. PURPOSES.

Section 2(b) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3701(b)) is amended by striking paragraph (1) and inserting the following:

"(1) to encourage, accept, and administer private gifts of property for the benefit of, or in connection with, the activities and services of the United States Fish and Wildlife Service and the National Oceanic and Atmospheric Administration, to further the conservation and management of fish, wildlife, plants, and other natural resources;".

# SEC. 203. BOARD OF DIRECTORS OF THE FOUNDATION.

- (a) ESTABLISHMENT AND MEMBERSHIP.—Section 3 of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3702) is amended by striking subsection (a) and inserting the following:
  - "(a) ESTABLISHMENT AND MEMBERSHIP.—
- "(1) IN GENERAL.—The Foundation shall have a governing Board of Directors (referred to in this Act as the 'Board'), which shall consist of 25 Directors appointed in accordance with subsection (b), each of whom shall be a United States citizen.
- "(2) REPRESENTATION OF DIVERSE POINTS OF VIEW.—To the maximum extent practicable, the membership of the Board shall represent diverse points of view relating to conservation and management of fish, wildlife, plants, and other natural resources.
- "(3) NOT FEDERAL EMPLOYEES.—Appointment as a Director of the Foundation shall not constitute employment by, or the holding of an office of, the United States for the purpose of any Federal law."
- (b) APPOINTMENT AND TERMS.—Section 3 of the National Fish and Wildlife Foundation Es-

tablishment Act (16 U.S.C. 3702) is amended by striking subsection (b) and inserting the fol-

"(b) APPOINTMENT AND TERMS.—

- "(1) AGENCY HEADS.—The Director of the United States Fish and Wildlife Service and the Under Secretary of Commerce for Oceans and Atmosphere shall be Directors of the Foundation.
- "(2) APPOINTMENTS BY THE SECRETARY OF THE INTERIOR.—
- "(A) IN GENERAL.—Subject to subparagraph (B), after consulting with the Secretary of Commerce and considering the recommendations submitted by the Board, the Secretary of the Interior shall appoint 23 Directors who meet the criteria established by subsection (a), of whom—
- "(i) at least 6 shall be educated or experienced in fish, wildlife, or other natural resource conservation:
- "(ii) at least 4 shall be educated or experienced in the principles of fish, wildlife, or other natural resource management; and
- "(iii) at least 4 shall be educated or experienced in ocean and coastal resource conservation.
  - "(B) TRANSITION PROVISION .-
- "(i) CONTINUATION OF TERMS.—The 15 Directors serving on the Board as of the date of enactment of this paragraph shall continue to serve until the expiration of their terms.
- "(ii) NEW DIRECTORS.—Subject to paragraph (3), the Secretary of the Interior shall appoint 8 new Directors.

"(3) TERMS.-

"(A) IN GENERAL.—Subject to subparagraph (B), each Director (other than a Director described in paragraph (1)) shall be appointed for a term of 6 years.

"(B) INITIAL APPOINTMENTS TO NEW MEMBER POSITIONS.—Of the Directors appointed by the Secretary of the Interior under paragraph (2)(B)(ii), the Secretary shall appoint, in fiscal year 2001, 3 Directors for a term of 6 years.

"(C) SUBSEQUENT APPOINTMENTS TO NEW MEMBER POSITIONS.—Of the Directors appointed by the Secretary of the Interior under paragraph (2)(B)(ii), the Secretary shall appoint, in fiscal year 2002—

- "(i) 2 Directors for a term of 2 years; and
- "(ii) 3 Directors for a term of 4 years.

"(4) VACANCIES.—

"(A) IN GENERAL.—The Secretary of the Interior shall fill a vacancy on the Board.

- "(B) TERM OF APPOINTMENTS TO FILL UNEX-PIRED TERMS.—An individual appointed to fill a vacancy that occurs before the expiration of the term of a Director shall be appointed for the remainder of the term.
- "(5) REAPPOINTMENT.—An individual (other than an individual described in paragraph (1)) shall not serve more than 2 consecutive terms as a Director, excluding any term of less than 6 years.
- "(6) REQUEST FOR REMOVAL.—The executive committee of the Board may submit to the Secretary of the Interior a letter describing the non-performance of a Director and requesting the removal of the Director from the Board.
- "(7) CONSULTATION BEFORE REMOVAL.—Before removing any Director from the Board, the Secretary of the Interior shall consult with the Secretary of Commerce.".
- (c) TECHNICAL AMENDMENTS.—
- (1) Section 4(c)(5) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703(c)(5)) is amended by striking "Directors of the Board" and inserting "Directors of the Foundation".
- (2) Section 6 of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3705) is amended—
- (A) by striking "Secretary" and inserting "Secretary of the Interior or the Secretary of Commerce"; and

(B) by inserting "or the Department of Commerce" after "Department of the Interior".

# SEC. 204. RIGHTS AND OBLIGATIONS OF THE FOUNDATION.

- (a) PRINCIPAL OFFICE OF THE FOUNDATION.— Section 4(a)(3) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703(a)(3)) is amended by inserting after "the District of Columbia" the following: "or in a county in the State of Maryland or Virginia that borders on the District of Columbia".
- (b) INVESTMENT AND DEPOSIT OF FEDERAL FUNDS.—Section 4(c) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703(c)) is amended—
- (1) by redesignating paragraphs (3) through (7) as paragraphs (7) through (11), respectively; and
- (2) by inserting after paragraph (2) the following:
- "(3) to invest any funds provided to the Foundation by the Federal Government in obligations of the United States or in obligations or securities that are guaranteed or insured by the United States:
- "(4) to deposit any funds provided to the Foundation by the Federal Government into accounts that are insured by an agency or instrumentality of the United States;
- "(5) to make use of any interest or investment income that accrues as a consequence of actions taken under paragraph (3) or (4) to carry out the purposes of the Foundation;
- "(6) to use Federal funds to make payments under cooperative agreements entered into with willing private landowners to provide substantial long-term benefits for the restoration or enhancement of fish, wildlife, plants, and other natural resources on private land;".
- (c) AGENCY APPROVAL OF ACQUISITIONS OF PROPERTY.—Section 4(e)(1) of the National Fish and Wildlife Foundation Establishment Act (IU.S.C. 3703(e)(1)) is amended by striking subparagraph (B) and inserting the following:
- "(B) the Foundation notifies the Federal agency that administers the program under which the funds were provided of the proposed acquisition, and the agency does not object in writing to the proposed acquisition within 60 calendar days after the date of the notification"
- (d) REPEAL.—Section 304 of Public Law 102–440 (16 U.S.C. 3703 note) is repealed.
- (e) AGENCY APPROVAL OF CONVEYANCES AND GRANTS.—Section 4(e)(3)(B) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703(e)(3)(B)) is amended by striking clause (ii) and inserting the following:
- "(ii) the Foundation notifies the Federal agency that administers the Federal program under which the funds were provided of the proposed conveyance or provision of Federal funds, and the agency does not object in writing to the proposed conveyance or provision of Federal funds within 60 calendar days after the date of the notification."
- (f) RECONVEYANCE OF REAL PROPERTY.—Section 4(e) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703(e)) is amended by striking paragraph (5) and inserting the following:
- "(5) RECONVEYANCE OF REAL PROPERTY.—The Foundation shall convey at not less than fair market value any real property acquired by the Foundation in whole or in part with Federal funds if the Foundation notifies the Federal agency that administers the Federal program under which the funds were provided, and the agency does not disagree within 60 calendar days after the date of the notification, that—
- "(A) the property is no longer valuable for the purpose of conservation or management of fish, wildlife, plants, and other natural resources;

- "(B) the purposes of the Foundation would be better served by use of the proceeds of the conveyance for other authorized activities of the Foundation.
- (g) Expenditures for Printing Services or CAPITAL EQUIPMENT.—Section 4 of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703) is amended by adding at the end the following:
- "(h) Expenditures for Printing Services OR CAPITAL EQUIPMENT.—The Foundation shall not make any expenditure of Federal funds in connection with any 1 transaction for printing services or capital equipment that is greater than \$10,000 unless the expenditure is approved by the Federal agency that administers the Federal program under which the funds were provided.".

#### SEC. 205. ANNUAL REPORTING OF GRANT DE-TAILS.

Section 7(b) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3706(b)) is amended-

- (1) by striking "Congress" and inserting "the Committee on Resources of the House of Representatives and the Committee on Environment and Public Works of the Senate"; and
- (2) by adding at the end the following: "The report shall include a detailed statement of the recipient, amount, and purpose of each grant made by the Foundation in the fiscal year.

#### SEC. 206. NOTICE TO MEMBERS OF CONGRESS.

Section 4 of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703) (as amended by section 204(g)) is amended by adding at the end the following:

"(i) Notice to Members of Congress.—The Foundation shall not make a grant of funds unless, by not later than 30 days before the grant is made, the Foundation provides notice of the grant to the Member of Congress for the congressional district in which the project to be funded with the grant will be carried out."

#### SEC. 207. AUTHORIZATION OF APPROPRIATIONS.

Section 10 of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3709) is amended by striking subsections (a), (b), and (c) and inserting the following:

- '(a) AUTHORIZATION OF APPROPRIATIONS.-
- "(1) IN GENERAL.—There are authorized to be appropriated to carry out this Act for each of fiscal years 2001 through 2003-
- "(A) \$20,000,000 to the Department of the Interior; and
- "(B) \$5,000,000 to the Department of Commerce.
- "(2) REQUIREMENT OF ADVANCE PAYMENT.— The amount made available for a fiscal year under paragraph (1) shall be provided to the Foundation in an advance payment of the entire amount on October 1, or as soon as practicable thereafter, of the fiscal year.
- "(3) Use of appropriated funds.—Subject to paragraph (4), amounts made available under paragraph (1) shall be provided to the Foundation for use for matching, on a 1-to-1 basis, contributions (whether in currency, services, or property) made to the Foundation by private persons and State and local government agen-
- "(4) Prohibition on use for administrative EXPENSES.—No Federal funds made available under paragraph (1) shall be used by the Foundation for administrative expenses of the Foundation, including for salaries, travel and transportation expenses, and other overhead ex-
  - "(b) Additional Authorization.
- "(1) IN GENERAL.—In addition to the amounts authorized to be appropriated under subsection (a), the Foundation may accept Federal funds from a Federal agency under any other Federal law for use by the Foundation to further the conservation and management of fish, wildlife,

plants, and other natural resources in accordance with the requirements of this Act.

- (2) Use of funds accepted from federal AGENCIES.—Federal funds provided to the Foundation under paragraph (1) shall be used by the Foundation for matching, in whole or in part, contributions (whether in currency, services, or property) made to the Foundation by private persons and State and local government agen-
- "(c) Prohibition on Use of Grant Amounts FOR LITIGATION AND LOBBYING EXPENSES.— Amounts provided as a grant by the Foundation shall not be used for-
  - '(1) any expense related to litigation; or
- "(2) any activity the purpose of which is to influence legislation pending before Congress.". SEC. 208. LIMITATION ON AUTHORITY.

The National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3701 et seq.) is amended by adding at the end the following:

#### "SEC. 11. LIMITATION ON AUTHORITY.

"Nothing in this Act authorizes the Foundation to perform any function the authority for which is provided to the National Park Foundation by Public Law 90-209 (16 U.S.C. 19e et sea.).

#### TITLE III—NATIONAL WILDLIFE REFUGE SYSTEM CENTENNIAL

#### SEC. 301. SHORT TITLE.

This title may be cited as the "National Wildlife Refuge System Centennial Act".

#### SEC. 302. FINDINGS AND PURPOSES.

- (a) FINDINGS.—Congress finds that-
- (1) President Theodore Roosevelt began the National Wildlife Refuge System by establishing the first refuge at Pelican Island, Florida, on March 14, 1903;
- (2) the National Wildlife Refuge System is comprised of more than 93,000,000 acres of Federal land managed by the United States Fish and Wildlife Service in more than 532 individual refuges and thousands of waterfowl production areas located in all 50 States and the territories of the United States;
- (3) the System is the only network of Federal land dedicated singularly to wildlife conservation and where wildlife-dependent recreation and environmental education are priority public uses.
- (4) the System serves a vital role in the conservation of millions of migratory birds, dozens of endangered species and threatened species, some of the premier fisheries of the United States, marine mammals, and the habitats on which such species of fish and wildlife depend;
- (5) each year the System provides millions of Americans with opportunities to participate in wildlife-dependent recreation, including hunting, fishing, and wildlife observation;
- (6)(A) public visitation to national wildlife refuges is growing, with more than 35,000,000 visitors annually; and
- (B) it is essential that visitor centers and public use facilities be properly constructed, operated, and maintained:
- (7) the National Wildlife Refuge System Volunteer and Community Partnership Enhancement Act of 1998 (16 U.S.C. 742f note; Public Law 105-242), and the amendments made by that Act, significantly enhance the ability of the United States Fish and Wildlife Service to incorporate volunteers and partnerships in refuge management:
- (8) as of the date of enactment of this Act, the System has an unacceptable backlog of critical operation and maintenance needs; and
- (9) the occasion of the centennial of the System, in 2003, presents a historic opportunity to enhance natural resource stewardship and expand public enjoyment of the national wildlife refuges of the United States.
- (b) PURPOSES.—The purposes of this title

- (1) to establish a commission to promote awareness by the public of the National Wildlife Refuge System as the System celebrates its centennial in 2003:
- (2) to develop a long-term plan to meet the priority operation, maintenance, and construction needs of the System;
- (3) to require an annual report on the needs of the System prepared in the context of-
- (A) the budget submission of the Department of the Interior to the President; and
- (B) the President's budget request to Congress; and
- (4) to improve public use programs and facilities of the System to meet the increasing needs of the public for wildlife-dependent recreation in the 21st century.

#### SEC. 303. NATIONAL WILDLIFE REFUGE SYSTEM CENTENNIAL COMMISSION.

- (a) ESTABLISHMENT.—There is established the National Wildlife Refuge System Centennial Commission (referred to in this title as the 'Commission'').
  - (b) Members.-
- (1) IN GENERAL.—The Commission shall be composed of-
- (A) the Director of the United States Fish and Wildlife Service;
- (B) up to 10 individuals appointed by the Secretary of the Interior;
- (C) the chairman and ranking minority member of the Committee on Resources of the House of Representatives and of the Committee on Environment and Public Works of the Senate, who shall be nonvoting members; and
- (D) the congressional representatives of the Migratory Bird Conservation Commission, who shall be nonvoting members.
  - (2) APPOINTMENTS.
- (A) DEADLINE.—The members of the Commission shall be appointed not later than 90 days after the effective date of this title.
- (B) APPOINTMENTS BY THE SECRETARY OF THE INTERIOR.-
- (i) IN GENERAL.—The members of the Commission appointed by the Secretary of the Interior under paragraph (1)(B)—
- (I) shall not be officers or employees of the Federal Government: and
- (II) shall, in the judgment of the Secretary-(aa) represent the diverse beneficiaries of the System; and
- (bb) have outstanding knowledge or appreciation of wildlife, natural resource management, or wildlife-dependent recreation.
- (ii) REPRESENTATION OF VIEWS.—In making appointments under paragraph (1)(B), the Secretary of the Interior shall make every effort to ensure that the views of the hunting, fishing, and wildlife observation communities are represented on the Commission.
- (3) VACANCIES.—Any vacancy in the Commission-
- (A) shall not affect the power or duties of the Commission; and
- (B) shall be expeditiously filled in the same manner as the original appointment was made.
- (c) Chairperson.—The Secretary of the Interior shall appoint 1 of the members as the Chairperson of the Commission.
- (d) COMPENSATION.—The members of the Commission shall receive no compensation for their service on the Commission.
  - (e) TRAVEL EXPENSES.
- (1) Legislative branch members.—The members of the Commission from the legislative branch of the Federal Government shall be allowed necessary travel expenses, as authorized by other law for official travel, while away from their homes or regular places of business in the performance of services for the Commission.
- (2) EXECUTIVE BRANCH MEMBERS.—The members of the Commission from the executive branch of the Federal Government shall be allowed necessary travel expenses in accordance

with section 5702 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Commission.

- (3) OTHER MEMBERS AND STAFF.—The members of the Commission appointed by the Secretary of the Interior and staff of the Commission may be allowed necessary travel expenses as authorized by section 5702 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Commission.
  - (f) DUTIES.—The Commission shall—
- (1) prepare, in cooperation with Federal, State, local, and nongovernmental partners, a plan to commemorate the centennial of the National Wildlife Refuge System beginning on March 14, 2003:
- (2) coordinate the activities of the partners under the plan; and
- (3) plan and host, in cooperation with the partners, a conference on the National Wildlife Refuge System, and assist in the activities of the conference.
- (g) STAFF.—Subject to the availability of appropriations, the Commission may employ such staff as are necessary to carry out the duties of the Commission.
  - (h) DONATIONS.-
- (1) In GENERAL.—The Commission may, in accordance with criteria established under paragraph (2), accept and use donations of money, personal property, or personal services.
- (2) CRITERIA.—The Commission shall establish written criteria to be used in determining whether the acceptance of gifts or donations under paragraph (1) would—
- (A) reflect unfavorably on the ability of the Commission or any employee of the Commission to carry out its responsibilities or official duties in a fair and objective manner; or
- (B) compromise the integrity or the appearance of the integrity of any person involved in the activities of the Commission.
- (i) ADMINISTRATIVE SUPPORT.—Upon the request of the Commission—
- (1) the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service, may provide to the Commission such administrative support services as are necessary for the Commission to carry out the duties of the Commission under this title, including services relating to budgeting, accounting, financial reporting, personnel, and procurement: and
- (2) the head of any other appropriate Federal agency may provide to the Commission such advice and assistance, with or without reimbursement, as are appropriate to assist the Commission in carrying out the duties of the Commission.
- (j) Reports.—
- (1) ANNUAL REPORTS.—Not later than 1 year after the effective date of this title, and annually thereafter, the Commission shall submit to Congress a report on the activities and plans of the Commission.
- (2) FINAL REPORT.—Not later than September 30, 2004, the Commission shall submit to the Committee on Resources of the House of Representatives and the Committee on Environment and Public Works of the Senate a final report on the activities of the Commission, including an accounting of all funds received and expended by the Commission.
  - (k) TERMINATION.—
- (1) In GENERAL.—The Commission shall terminate 90 days after the date on which the Commission submits the final report under subsection (j).
- (2) DISPOSITION OF MATERIALS.—Upon termination of the Commission and after consultation with the Archivist of the United States and the Secretary of the Smithsonian Institution, the Secretary of the Interior may—

- (A)(i) deposit all books, manuscripts, miscellaneous printed matter, memorabilia, relics, and other similar materials of the Commission relating to the centennial of the National Wildlife Refuge System in Federal, State, or local libraries or museums: or
  - (ii) otherwise dispose of such materials; and
- (B)(i) use other property acquired by the Commission for the purposes of the National Wildlife Refuge System: or
  - (ii) treat such property as excess property.

# SEC. 304. LONG-TERM PLANNING AND ANNUAL REPORTING REQUIREMENTS REGARDING THE OPERATION AND MAINTENANCE BACKLOG.

- (a) UNIFIED LONG-TERM PLAN.—Not later than March 1, 2002, the Secretary of the Interior shall prepare and submit to Congress and the President a unified long-term plan to address priority operation, maintenance, and construction needs of the National Wildlife Refuge System, including—
- (1) priority staffing needs of the System; and (2) operation, maintenance, and construction needs as identified in—
  - (A) the Refuge Operating Needs System;
  - (B) the Maintenance Management System;
  - (C) the 5-year deferred maintenance list;
  - (D) the 5-year construction list;
- (E) the United States Fish and Wildlife Service report entitled "Fulfilling the Promise of America's National Wildlife Refuge System";
- (F) individual refuge comprehensive conservation plans.
- (b) Annual Submission.—Beginning with the submission to Congress of the budget for fiscal year 2003, the Secretary of the Interior shall prepare and submit to Congress, in the context of each annual budget submission, a report that contains—
- (1) an assessment of expenditures in the prior, current, and upcoming fiscal years to meet the operation and maintenance backlog as identified in the long-term plan under subsection (a); and
- (2) a specification of transition costs, in the prior, current, and upcoming fiscal years, as identified in the analysis of newly acquired refuge land prepared by the Department of the Interior, and a description of the method used to determine the priority status of the transition costs.

### SEC. 305. YEAR OF THE NATIONAL WILDLIFE REFUGE.

- (a) FINDING.—Congress finds that designation of the year 2003 as the "Year of the National Wildlife Refuge" would promote the goal of increasing public appreciation of the importance of the National Wildlife Refuge System.
- (b) PROCLAMATION.—The President is requested to issue a proclamation calling on the people of the United States to conduct appropriate programs, ceremonies, and activities to accomplish the goal of such a year.

#### SEC. 306. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out the activities of the Commission under this title—

- (1) \$100,000 for fiscal year 2001; and
- (2) \$250,000 for each of fiscal years 2002 through 2004.

#### SEC. 307. EFFECTIVE DATE.

This title takes effect on January 20, 2001.

Amend the title so as to read: "An Act to amend the Pittman-Robertson Wildlife Restoration Act and the Dingell-Johnson Sport Fish Restoration Act to enhance the funds available for grants to States for fish and wildlife conservation projects, to reauthorize and amend the National Fish and Wildlife Foundation Establishment Act, to commemorate the centennial of the establishment of the first national wildlife refuge in

the United States on March 14, 1903, and for other purposes.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Alaska (Mr. YOUNG) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from Alaska (Mr. YOUNG).

#### □ 1745

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3671, which reforms the administration of the Pittman-Robertson and the Dingell-Johnson Acts. These acts established trust funds, paid for by sportsmen and women through taxes on guns, ammunition, archery equipment and fishing equipment for State fish and game departments to use for wildlife and sport fish restoration projects. Administration of these acts is the responsibility of the Fish and Wildlife Service.

Oversight conducted by the committee, which I chair, the Committee on Resources, uncovered waste, fraud, and abuse of the administration funds by the Fish and Wildlife Service. The House overwhelmingly passed H.R. 3671 on April 5 by a vote of 423–2.

H.R. 3671 puts in place reforms that will prevent abuse and misuse of administration funds in the future. It caps the amount of funds for administration, provides clear direction as to how these funds will be spent, establishes audits, reporting and certification requirements, and establishes an assistant director to oversee the administration of these programs.

The legislation also establishes a grant program for firearm and bow hunter safety and a grant program for multiple-state conservation projects that will enable States to work collectively on wildlife and sport fish restoration projects that cross State lines.

The Senate has suggested some modifications to H.R. 3671, and I have agreed to those changes. The Senate slightly increased funding for the administration. They also increased funding for the Firearm and Bow Hunter Educational Grant Program and a Multi-State Conservation Grant Program.

By stopping waste, fraud, and abuse and by cutting bureaucracy, the reforms in H.R. 3671 provide more dollars to State fishing and game departments on on-the-ground projects. They will ensure that the money paid into the trust fund by the sportsmen and the sportswomen in their district goes where it belongs, to State wildlife and sport fish restoration. Let us pass H.R. 3671 and safeguard the taxes paid by the hunters and anglers and guarantee continued wildlife and sports fish restoration as intended under the Pittman-Robertson and Dingell-Johnson Act.

H.R. 3671, the Wildlife and Sport Fish Restoration Improvement Act overwhelmingly passed the House 423 to 2 on April 5th. This reform bill amends the Pittman-Robertson and Dingell-Johnson Acts. It provides clear direction to the United States Fish and Wildlife Service on how to administer the wildlife and sport fish programs established under the Acts. Our oversight found that administration funds from the Pittman-Robertson and Dingell-Johnson programs were being used in ways not consistent with either Act. For example we found that administration funds were used to pay for expenses for the rest of the Fish and Wildlife Service and they were used to create grant programs that were not statutorily authorized under the Acts. This is clearly not how the administration funds are to be spent. We did not want to leave any ambiguity as to how the funds can or cannot be spent. When there is ambiguity, the United States Fish and Wildlife Service "interprets" what the law says, and the Pittman-Robertson and Dingell-Johnson programs suffer the consequences.

#### MANAGEMENT STUDY

On April 5th, Representative DINGELL and I engaged in a colloquy about the United States Fish and Wildlife Service and how they should undertake an independent, outside, top-to-bottom review to determine how many people are needed to administer the programs and what mixture of skills they should have. My only concern at the time was that any review be truly independent of undue influence. For that reason, I agreed with Representative DINGELL that the study should be conducted provided the United States Fish and Wildlife Service and the reviewer consult with the House Committee on Resources prior to and during the review, the Committee must agree with the parameters of the review and the Committee must be advised of the process of the review.

I am disappointed to report that the United States Fish and Wildlife Service did not listen to what Representative DINGELL and I said on April 5th. The United States Fish and Wildlife Service initiated and completed the management study without ever consulting with the Committee. In addition, the United States Fish and Wildlife Service instructed the consultant, The Center for Organizational Excellence (COE), to complete the project so that it could be used to impact this legislation. This sounds to me like lobbying legislation pending before Congress with Federal funds. It was not my intent, nor the intent of Representative DINGELL. that the Fish and Wildlife Service use administration funds to lobby Congress on the reform legislation. The management study was not to be used by the United States Fish and Wildlife Service to preserve the status quo, it was to be used to assist the United States Fish and Wildlife Service in deciding how best to restructure the staffing with individuals with the necessary skills to meet the true administration needs of the programs and the letter of the law.

I am further disappointed to report that the conclusions reached by COE on funding needs were not based on correct information. Information provided by the Fish and Wildlife Service to COE was inaccurate. Based on inaccurate information, COE reached the following conclusion regarding funding for administration:

Although H.R. 3671 states that Federal Aid should continue conducting many of its current activities (such as training of States, travel to projects in-progress, consultation to States, etc.), the budget granted to Federal Aid under H.R. 3671 will not allow Federal Aid to continue all of these activities. This assessment is based on the data collected and analyzed by COE to date, including current workload and staffing levels and assessments provided by both Federal Aid and the IAFWA. (Federal Aid Division Resource Requirements Analysis, The Center for Organizational Excellence, September 29, 2000, page 5-2)

COE reported to Committee staff that the United States Fish and Wildlife Service did not provide them with the spending levels that were in H.R. 3671 when it passed the House. In addition, it seems that the United States Fish and Wildlife Service did not explain to COE that the current workload includes tasks that are not considered administration under H.R. 3671. COE was unable to accurately assess the funding needs since the data they were given does not reflect the new parameters for administration established in H.R. 3671.

COE was able to reach conclusions regarding how the programs were being administered by the Fish and Wildlife Service, and the conclusions they reached about the current administration of the programs is troubling. The management report confirms what we found during our oversight—the United States Fish and Wildlife Service is not properly administering the programs. Regarding the issue of how administration funds are used, the report stated:

Resources are not allocated the Regions and functions based on any systematic framework. This relates to the lack of strategic planning described earlier. It is not apparent that Federal Aid currently deploys resources to a particular area on any basis other than that is where resources were deployed last year. There is no evidence that customer requirements, organizational priorities, or other issues are taken into account. (Federal Aid Division Resource Requirements Analysis, The Center for Organizational Excellence, September 29, 2000, page 4–9)

Regarding the grade of employees who are currently employed in the Regional Offices, the report stated:

"Our investigation of work processes revealed variations in how the core processes are performed and by whom, driven at least in part, by the different types of staff present in each Regional Office. For example, Region 2 and 6 have no staff in the grade range of GS 2–6. This raises the possibility that as all Regional Offices are performing the same core processes, Region 2 and 6 have core tasks performed by staff at too high a grade level (which leads to excessive payroll costs)." (Federal Aid Division Resource Requirements Analysis, The Center for Organizational Excellence, September 29, 2000, page 3–1)

Regarding how the Regional Offices have decided what types of positions need to be in each Region:

"Over the years, Regional Offices have added staff in an ad-hoc fashion, based on their interpretation of how best to meet their States' requirements and interests. There was no centralized methodology for determining what types of jobs or at what level are required to perform the workload of the Regional Offices. This may have been the best approach at the time, as the Regional Offices sought to provide the desired level and type of systematic staffing patterns among Regions, with little clear relationship to the workload of the Regional Office. Most importantly, staffing per Region has not been examined strategically and systematically, to ensure that Regional Offices are staffed to meet the mission of Federal Aid." (Federal Aid Division Resource Requirements Analysis, The Center for Organizational Excellence, September 29, 2000, page 3–1)

The report shows us once again how much these reforms are needed. We suggest that the United States Fish and Wildlife Service provide accurate information to the COE and that the management study be continued and completed. In addition, that the management study be prepared for and issued to the House Committee on Resources and the Senate Committee on Environment and Public Works. Prior to continuation of the management study, and regularly thereafter, COE shall consult with the Committees on the information used for, the parameters of, and progress made in the study and management analysis.

It was very important to set out in this legislation exactly how the United States Fish and Wildlife Service can spend administration funds. For an expense to be considered an administration expense available for funding under this Act, the expense will have to directly support the implementation of the Act and also consist of one of the twelve categories outlined in the Act. This will ensure the sportsmen that the administration dollars are being spent only on administration of the

When we wrote this legislation we carefully thought out how administration funds should be spent and established twelve categories of allowable expenses. The United States Fish and Wildlife Service came back to us concerned that there could be another category that we had not thought of. Even though they could not come up with that "other category" or any additional expense, they expressed a need for spending flexibility for unforeseen expenses. We granted this flexibility up to a point. The United States Fish and Wildlife Service will be allowed to spend up to \$25,000 of administration funds under each Act a year for an unforeseen expense, provided that they first inform the House Committee on Resources and the Senate Committee on Environment and Public Works with an explanation of how much of the \$25,000 they are going to spend and on what they are going to spend it. The House and the Senate Committees will have 30 days to get back to the Fish and Wildlife Service with their concurrence of the expenditures. It is not the intention of this Act that the funds for unforeseen expenses become a source of income for the Fish and Wildlife Service.

The amount of funds available for administration of each Act will allow the Fish and Wildlife Service to maintain their current level of 120 employees and to ramp-down to 110 employees in FY 2003. It is apparent that the programs have not used a systematic or logical approach to meet the staffing needs of the

programs. It is important that the United States Fish and Wildlife Service has the ability to change staffing and skills to meet the needs of the programs. This will allow the United States Fish and Wildlife Service to determine how many individuals are needed in the Washington Office and each Region to efficiently and successfully implement the Wildlife and Sport Fish Restoration Program. Starting in 2004, the funds available for administration will increase according to the change in the Consumer Price Index for All Urban Consumers, allowing the United States Fish and Wildlife Service to keep pace with inflation and cost of living increases.

FIREARM AND BOW HUNTER EDUCATION AND SAFETY PROGRAM GRANTS

H.R. 3671 establishes Firearm and Bow Hunter Education and Safety Program Grants for the States. These funds are meant to be an enhancement of the Pittman-Robertson funds the States already spend on hunter education. For fiscal years 2001 and 2002, \$7.500.000 will be available and in 2003 and every year thereafter, \$8,000,000 will be available. This will enable states who can demonstrate that they have used the maximum amount of funds for hunter education under the formula in the law to have access to additional funds for hunter education and safety or for other uses authorized under the Act. The United States Fish and Wildlife Service shall continue to track how much States are spending for Hunter Education purposes. States who use the maximum amount of funds available under Section 4(c) of the law will have access to these funds. At the end of the year, any unexpected funds will be apportioned to the States who have used all of the funds available to them under Section 4(c) of the law. This program is meant to encourage States to fund hunter education and safety programs, construct or update shooting ranges and archery ranges and to enhance interstate coordination and development of hunter education and shooting range programs. The future of the shooting sports depends on the States taking a more active roll in hunter safety and education, providing shooting and archery ranges for the public and working with each other to accomplish these initiatives.

MULTI-STATE CONSERVATION GRANT PROGRAM

H.R. 3671 also establishes a Multi-State Conservation Grant Program that will allow States to work collectively on projects that cross state boundaries. These grants will be available to States, groups of States and Non-Governmental Organizations. The grants are only allowed to be used to fund projects that do not oppose the regulated hunting or trapping of wildlife or the regulated taking of fish. It is important that a "firewall" be kept between the grant fund awarded under the Multi-State Conservation Grant Program and all other funds of the organization. The grant funds are not meant to supplement any other activity of the organization. They are only to be used for the explicit purpose of the grant. Organizations who apply for the grants may not use the grant funds to support activities that in any way oppose the regulated hunting or trapping of wildlife or the regulated taking of fish. If an organization is found to use the grant funds inappropriately, the funds will have to be returned and the organization will be subject to any applicable penalties under law.

Under the Multi-State Conservation Grant Program, The United States Fish and Wildlife Service will be allowed to compete for the grants awarded to conduct the National Survey of Fishing, Hunting, and Wildlife-Associated Recreation. This is the only project the United States Fish and Wildlife Service can compete for. By allowing the United States Fish and Wildlife Service to compete for this grant, we do not intend that the Fish and Wildlife Service will automatically be awarded this grant. They will have to compete with others for this grant. We heard from many in the hunting, trapping and fishing community and the States that this survey wasn't the "best product," but it was all they had. This bill will allow the States to have the opportunity to explore if another organization will be able to conduct the survey more efficiently and according to the parameters of the stakeholders. It is our intent that this legislation will put into the State's hands the control for this and all other Multi-State Conservation Grant Projects. And that when evaluating the merits of the United States Fish and Wildlife Service's proposal, as with all other proposals for this project and other projects, the Non-governmental organizations that represent conservation organizations, sportsmen organizations and industries that fund the Federal Assistance Program for State Wildlife and Sport Fish Restoration Programs will be consulted.

ADMINISTRATION COSTS FOR DINGELL-JOHNSON SMALL GRANT PROGRAMS

H.R. 3671 establishes that the administration costs of the Dingell-Johnson small grant programs (Clean Vessel Act pumpouts, Coastal Program Conservation Grants, Boating Infrastructure and the National Outreach and Communications Program) will be paid out of the funds for those programs. The administration costs of the small grant programs will not be funded through the administration funds for the Dingell-Johnson Sport Fish Restoration Act. A total of \$900,000 is available for the administration of these programs.

ASSISTANT DIRECTOR FOR WILDLIFE AND SPORT FISH
RESTORATION PROGRAMS

H.R. 3671 establishes within the Department of the Interior the position of Assistant Director for Wildlife and Sport Fish Restoration Programs. The funds collected from the excise taxes paid by sportsmen account for more than one-third of the whole budget of the Fish and Wildlife Service—in FY 2001 the amount to be collected is \$528.7 million. Yet, these programs have had no presence at the Directorate level. In their Fiscal Year 2001 budget, the United States Fish and Wildlife Service budget requests for the following programs were:

Migratory Birds & State Programs—\$22.8 million.

Fisheries & Habitat Conservation—\$82.6 million.

Endangered Species & Marine Mammals— \$199.1 million.

All of these programs have Assistant Directors and they each have responsibility for much smaller budgets than the Federal Assistance Program for State Wildlife and Sport Fish Programs. It is time that the Wildlife and Sport Fish Restoration Programs are elevated in the United States Fish and Wildlife Service and

represented by an Assistant Director.

We also found that the managers of the Wildlife and Sport Fish Restoration programs lacked control over their own resources. Decisions on how to use personnel and administration funds were being made by individuals who did not have the best interests of the Wildlife and Sport Fish Restoration Programs in mind. The creation of the Assistant Director position will alleviate this problem. The Assistant Director is very important to the success of these programs. The Assistant Director will be necessary to guide the Wildlife and Sport Fish Restoration Programs under the new direction of this legislation. There will be important changes to how administration will be handled in the future. It will be crucial for this program. in order to establish a level of trust with the sportsmen who are paying the taxes, to show that the Fish and Wildlife Service truly wants the program to be run efficiently and according to the law.

We need to assure the sportsmen and women, who pay the excise taxes that provide the millions of dollars for State wildlife and sport fish restoration programs, that their money will be used as it is intended under the law. The trust needs to be restored between the sportsmen and women who fund the programs and the United States Fish and Wildlife Service. I urge you to pass H.R. 3671, the Wildlife and Sport Fish Restoration Programs Improvement Act, and put into place these much needed reforms of the Pittman-Robertson and Dingell-Johnson Acts.

The bill incorporates the text of H.R. 4442, the National Wildlife Refuge Centennial Act that overwhelmingly passed the House on July 11th. This legislation recognizes a great achievement in conservation—100 years of the National Wildlife Refuge System. While this is an important milestone, this measure recognizes that we still have work ahead of us to reduce the maintenance and operations backlog within the Refuge System.

It establishes a Commission to plan activities to commemorate the 100th Anniversary of the System. The bill also requires the Secretary to submit a comprehensive plan for addressing the maintenance and operations backlog within the Refuge System. The American people deserve the finest Refuge System in the world.

The bill also reauthorizes the National Fish and Wildlife Foundation. Since the Foundation was enacted into law in 1984, more than 3,850 conservation grants worth more than \$490 million have been funded. These grants have been awarded to some 36 Federal agencies, 125 State and local municipalities, 92 colleges and institutions, and 852 different conservation groups.

I have received letters in support of reauthorizing the Foundation from the California Cattlemen's Association, Ducks Unlimited, the Foundation for North American Wild Sheep, the International Association of Fish and Wildlife Agencies, the National Rifle Association, the National Trappers Association, Quail Unlimited, the Rocky Mountain Elk Foundation, and the Wildlife Legislative Fund of America.

While there was no specific testimony on S. 1653, the Resources Committee did conduct several comprehensive oversight hearings on the operation of the Foundation.

Under the terms of this bill, the Foundation's Board of Directors would increase from 15 to

25 members; every dollar of Federal funding would be matched with a corresponding amount of non-Federal money; \$20 million would be authorized for the U.S. Fish and Wildlife Service and \$5 million for NOAA: an annual report would be required detailing each conservation grant; affected Members of Congress would be given a 30-day notice when a project is proposed within their district; and statutory language has been included stipulating that no grant money can be used by the Foundation or its grantees for lobbying or litigation activities.

This is a good bill that will allow the Foundation to continue to undertake a variety of valuable conservation projects throughout the United States.

It is important to reiterate that lands acguired with Pittman Robertson funds are used for an array of wildlife dependent recreation activities such as fishing, trapping, and hunting. This use properly includes field trials with dogs. We expect that these activities will continue on acquired lands subject to reasonable restrictions supported by evidence to conserve wildlife and related habitat. Any guidelines issued by the Fish and Wildlife Service regarding such uses must be reasonable, recognize the value of these activities, and be developed cooperatively with the states as well as affected user groups. Some elements within the Service appear to believe that intensive onthe-ground management actions are inconsistent with the purpose of Pittman Robertson Act conservation programs. The Committee strongly disagrees with any such conclusion. We remind the agency that intensive management is often the key to assuring that multiplicity of wildlife dependent recreation activities can coexist on wildlife lands and can occur with conservation objectives and purposes. This is the case with field trials. So I want no one to mistake that field trials are guite compatible on lands acquired using Pittman Robertson funds. The lands are for hunting and field trials facilitate hunting.

Mr. Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, for years, and most recently during our CARA deliberations, we have heard about the success and the proven track record of Pittman-Robertson and the Dingell-Johnson Sport Fish and Wildlife Restoration Programs administered by the Fish and Wildlife Service.

It was the prospect of CARA contributing an additional \$350 million a year in outer continental shelf oil revenues Pittman-Robertson that spurred the request of the gentleman from Alaska (Chairman Young) of December 1999 for a General Accounting Office review of the Federal Aid Program. This in turn led to the gentleman from Alaska (Chairman Young) initiating the majority's own investigation into the financial conduct of the program.

As it turned out, these investigations did identify problems concerning how the Fish and Wildlife Service admin-

some considerable, several recurrent, but none criminal or even illegal. Nonetheless, I am convinced that the Federal Aid Program was long overdue for an administrative and financial overhaul. I believe all members of this committee share that view.

I think it is also important to note that the Fish and Wildlife Service has recognized and admitted that substantial errors have been made in the enforcement of financial policies and procedures. Serious reforms initiated by Fish and Wildlife Service Director Jamie Clark, including the termination of discretionary grant programs, the hiring of a new Federal aid expert to closely oversee the Federal Aid Office, and the establishment of strict new policies for travel and expenses indicate to me that the service is aggressively moving on reform.

The other body has improved this legislation. I am especially pleased that it will now provide approximately an increase of \$4 million for administration, ensure some flexibility for unexpected administrative costs up to \$25,000, streamline the reporting and certification requirements so that they are less cumbersome and tied into the annual budget process.

I am also pleased that additional provisions were accepted in the conference. Those provisions would require States to file annual certifications that they have spent their grant funds in accordance to the law, allow Puerto Rico to be eligible to receive hunter education funding. And finally, I support the additional changes made by the other body to attach to this legislation a clean reauthorization for the National Fish and Wildlife Foundation and a clean bill to establish a Centennial Commission for the National Wildlife Refuge System.

Mr. Speaker, I yield back the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this has been a long process, and I agree with the gentleman from New Mexico (Mr. UDALL) that this was really instigated by the beginning of CARA legislation when it put in those millions of dollars in the Fish and Wildlife Service. That is why I instigated the investigation.

I want to thank my staff, Duane Gibson, who has worked very hard on this measure, and especially Christina Delmont-Small. For the record, she is now a Small instead of Delmont. She is on her honeymoon today and she cannot be here to actually enjoy the success of 2 years.

But this issue is one, and I said after the hearings that the GAO reported to us, that this is not about who is present and what happened because of those people involved, not individually, but because the agency itself, begin-

isters and executes these programs, ning in 1990, and the acceleration of the expenditures of monies. We believe there was a tremendous amount of money that was spent very frankly illegally. Of those people that voluntarily established the Dingell-Johnson and the Pittman-Robertson fund that voluntarily putting into that every day thinking as they buy a fishing rod or a package of ammunition or a firearm or a bow, that it was going into reestablishing State programs on the State level so that they could have fish and wildlife not only to view but to hunt and fish, and we find that the money is being misspent.

So what we are trying to do through this legislation, and even with the Senate provisions in it, is we have tried to say, okay, forget who has done it. Let us make sure it does not happen in the future. And we believe this has been done in this legislation, and we are strongly supportive of it. I urge all of my colleagues to support this legislation with a good aye vote.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. Pease). The question is on the motion offered by the gentleman from Alaska (Mr. Young) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 3671.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. UDALL of New Mexico. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

#### TRIBAL CONTRACT SUPPORT COST TECHNICAL AMENDMENTS OF 2000

Mr. YOUNG of Alaska. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4148) to make technical amendments to the provisions of the Indian Self-Determination and Education Assistance Act relating to contract support costs, and for other purposes, as amended.

The Clerk read as follows:

#### H.R. 4148

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Tribal Contract Support Cost Technical Amendments of 2000"

#### SEC. 2. AMENDMENT DETAILING CALCULATION AND PAYMENT OF CONTRACT SUP-PORT COSTS.

The Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) is amended by adding after section 106 the following new section:

#### "SEC. 106A. CONTRACT SUPPORT COSTS.

'(a) OTHER FEDERAL AGENCIES.—Except as otherwise provided by statute, an Indian tribe or tribal organization administering a contract or compact under this Act shall be entitled to recover its full indirect costs associated with any other Federal funding received by such tribe or tribal organization (other than funds paid under this Act), consistent with the tribe's or tribal organization's indirect cost rate agreement with its cognizant Federal agency. This subsection shall not independently entitle such tribe or tribal organization to be paid additional amounts associated with such other Federal funding.

"(b) ALLOWABLE USES OF FUNDS.—Notwithstanding any other provision of law (including regulation or circular), an Indian tribe or tribal organization (1) administering a contract or compact under this Act, and (2) employing an indirect cost pool that includes both funds paid under this Act and other Federal funds, shall be entitled to use or expend all Federal funds in such tribe's or tribal organization's indirect cost pool in the same manner as permitted in section 106(j) (relating to allowable uses of funds without approval of the Secretary), and for such purposes only the term 'Secretary' means the Secretary of any Federal agency providing

funds to such tribe or tribal organization.
"(c) NEGOTIATION OF CONTRACT SUPPORT COST AMOUNTS.—Within the Indian Health Service of the Department of Health and Human Services, tribal contract support cost entitlements shall be the responsibility of the Office of Tribal Programs, subject to the tribe's or tribal organization's indirect cost rate agreement with the tribe's or tribal organization's cognizant Federal agency.

"(d) DIRECT CONTRACT SUPPORT COSTS AND FEDERAL EMPLOYEES.—The contract support costs that are eligible costs for the purposes of receiving funding under this Act shall include direct contract support costs associated with all Federal employees employed in connection with the program, service, function, or activity that is the subject of the contract, including all Federal employees paid with funds generated from third-party collections."

#### SEC. 3. AMENDMENTS CLARIFYING CONTRACT SUPPORT COST ENTITLEMENT.

Section 106(a)(5) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450j1(a)(5)) is amended by adding at the end thereof the following flush sentence: "Notwithstanding any other provision of law, the Secretary shall fully pay preaward and startup costs without regard to the year in which such costs were incurred or will be incurred, including such costs payable to tribes and tribal organizations identified by the Indian Health Service as 'ISD Queue Tribes' in its September 17, 1999, report entitled 'FY 1999 IHS CSC Shortfall Data'.'

#### SEC. 4. AMENDMENTS REGARDING JUDICIAL REMEDIES.

Section 110(c) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450m-1(c)) is amended by inserting after "administrative appeals" the following: ", and section 2412(d)(2)(A) of title 28, United States Code, shall apply to appeals filed with administrative appeals boards, in

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Alaska (Mr. Young) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from Alaska (Mr. Young).

yield myself such time as I may consume.

Mr. Speaker, H.R. 4148 makes technical changes in the Indian Health Self-Determination Education Assistance Act, and particularly to the contract support costs for the Indian Health Service and Bureau of Indian Affairs programs previously administered by the two departments.

This bill is technical in nature to ensure that tribal contractors recover their full and direct costs associated with these Federal programs, to receive funding for all Federal employees previously under the employment of IHS and BIA, and to direct the Secretaries of Health and Human Services to fully pay preaward and start-up costs without regard to the year in which such cost occurred.

Many tribal contractors have paid their preaward and start-up costs out of their own funds and have not been reimbursed for these programs by IHS and BIA. This corrects this inequity and prevents tribes from using their own program funds to pay for these administrative costs.

In a recent presentation at the Indian National Self-Governance conference in Nashville, Tennessee, Dr. Trujillio of the Indian Health Service reportedly told tribal representatives that the IHS supports enactment of H.R. 4148, as amended.

Again, Mr. Speaker, this bill is technical in nature and has been supported by all tribal contractors. I urge an aye vote for this important bill for American Indians and Alaskan Natives.

Mr. Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Mr. Speaker, I vield myself such time as I may consume.

Mr. Speaker, the bill we are bringing up this evening is vastly different from the bill we reported from the Committee on Resources a few weeks back. The funding problems that Indian tribes face when assuming responsibility for Federal programs is serious and complex.

Congress has time and again reiterated its support for Indian tribes to take over and run Federal programs that have previously been run by the Bureau of Indian Affairs and the Indian Health Service. We have found that tribes are able to run these programs more innovatively and often provide better services to their tribal members.

Unfortunately, not all start-up and costs are covered in these funds provided tribes for these programs. This bill was introduced and designed to address those shortfalls. But in its current form, I am not sure that it meets the honorable goal of its author, the gentleman from Alaska (Chairman Young).

The administration has informed us they oppose the bill. And while I would

Mr. YOUNG of Alaska. Mr. Speaker, I like to pass contract support cost assistance, I will ask for a de novo vote so we will have an additional day to work on this bill.

I would also like to ask the gentleman from Alaska (Chairman Young) if the cost of this bill has been worked out based on the new structure here.

Mr. YOUNG of Alaska. Mr. Speaker, will the gentleman vield?

Mr. UDALL of New Mexico. I yield to the gentleman from Alaska.

Mr. YOUNG of Alaska. Mr. Speaker, the gentleman I hope would support this legislation. He has a large native contingency in his district that strongly supports this legislation; and if he does not support it, I am sure they will be aware of it. If not, I will let them know about it.

The main thing is that the reason the bill is different is the way it was scored. And I believe it was \$11 billion. And as much as I believe there is justification there, we could not get it to pass the muster of other parts of this House nor the administration.

What we are trying to do is make sure that any tribal group that enters into a forwarding of money to set up a program, which they have been guaranteed, that they are being paid retroactively if they are owed money and in fact will be paid in the future. I think that is only fair. Because what has happened many times is they entered into a contract and then the agency, BIA or IHS, do not pay the forwarded monies and in consequence they have to swallow it themselves, and that takes away from the health programs, very frankly, of the Native American people.

I do hope that the gentleman will recognize the importance of this legislation; and although he may ask for a vote, I do not really put much truck in this administration. Although he is one of the opposite parties, I hope he does not either when it comes to Indian affairs.

They have abused, misused, and misled the American Indians in the last 8 years. They have used them in the vote. They have used them for the money that they should have gotten and that they spent in other areas and very frankly that they are using now. There is over \$2.5 billion that we cannot find that we know is there and the investigation shows it there. In fact. the Supreme Court has subpoenaed and filed in contempt Secretary Babbitt and I belief Secretary Rubin and the Treasury Department.

So anytime anybody talks about the Indians getting too much or not enough, I am saying, look at the facts. I think it is very inappropriate, very frankly, to have the administration even think about a veto of this.

Mr. UDALL of New Mexico. Mr. Speaker, reclaiming my time, I would like to ask the chairman the question again. I am unclear what the cost of the bill is now.

Mr. YOUNG of Alaska. Mr. Speaker, if the gentleman will continue to yield, it is between \$80 million and \$100 million from \$11 billion. That is what we call the striking or the marking of the CBO.

Mr. UDALL of New Mexico. Mr. Speaker, I yield back the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Alaska (Mr. Young) that the House suspend the rules and pass the bill, H.R. 4148, as amended.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. UDALL of New Mexico. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn

## CHEYENNE RIVER SIOUX TRIBE EQUITABLE COMPENSATION ACT

Mr. YOUNG of Alaska. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 964) to provide for equitable compensation for the Cheyenne River Sioux Tribe, and for other purposes, as amended.

The Clerk read as follows:

S. 964

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

## TITLE I—CHEYENNE RIVER SIOUX TRIBE EQUITABLE COMPENSATION

SEC. 101. SHORT TITLE.

This title may be cited as the "Cheyenne River Sioux Tribe Equitable Compensation Act".

#### SEC. 102. FINDINGS AND PURPOSES.

- (a) FINDINGS.—Congress finds that—
- (1) by enacting the Act of December 22, 1944, (58 Stat. 887, chapter 665; 33 U.S.C. 701–1 et seq.), commonly known as the "Flood Control Act of 1944", Congress approved the Pick-Sloan Missouri River Basin program (referred to in this section as the "Pick-Sloan program")—
- (A) to promote the general economic development of the United States;
- (B) to provide for irrigation above Sioux City, Iowa;
- (C) to protect urban and rural areas from devastating floods of the Missouri River; and
- (D) for other purposes;(2) the Oahe Dam and Reservoir project—
- (A) is a major component of the Pick-Sloan program, and contributes to the economy of the United States by generating a substantial amount of hydropower and impounding a substantial quantity of water;
- (B) overlies the eastern boundary of the Cheyenne River Sioux Indian Reservation; and

- (C) has not only contributed little to the economy of the Tribe, but has severely damaged the economy of the Tribe and members of the Tribe by inundating the fertile, wooded bottom lands of the Tribe along the Missouri River that constituted the most productive agricultural and pastoral lands of the Tribe and the homeland of the members of the Tribe:
- (3) the Secretary of the Interior appointed a Joint Tribal Advisory Committee that examined the Oahe Dam and Reservoir project and concluded that—
- (A) the Federal Government did not justify, or fairly compensate the Tribe for, the Oahe Dam and Reservoir project when the Federal Government acquired 104,492 acres of land of the Tribe for that project; and
- (B) the Tribe should be adequately compensated for the land acquisition described in subparagraph (A);
- (4) after applying the same method of analysis as is used for the compensation of similarly situated Indian tribes, the Comptroller General of the United States (referred to in this title as the "Comptroller General") determined that the appropriate amount of compensation to pay the Tribe for the land acquisition described in paragraph (3)(A) would be \$290,723,000;
- (5) the Tribe is entitled to receive additional financial compensation for the land acquisition described in paragraph (3)(A) in a manner consistent with the determination of the Comptroller General described in paragraph (4); and
- (6) the establishment of a trust fund to make amounts available to the Tribe under this title is consistent with the principles of self-governance and self-determination.
- (b) PURPOSES.—The purposes of this title are as follows:
- (1) To provide for additional financial compensation to the Tribe for the acquisition by the Federal Government of 104,492 acres of land of the Tribe for the Oahe Dam and Reservoir project in a manner consistent with the determinations of the Comptroller General described in subsection (a)(4).
- (2) To provide for the establishment of the Cheyenne River Sioux Tribal Recovery Trust Fund, to be managed by the Secretary of the Treasury in order to make payments to the Tribe to carry out projects under a plan prepared by the Tribe.

#### SEC. 103. DEFINITIONS.

In this title:

- (1) TRIBE.—The term "Tribe" means the Cheyenne River Sioux Tribe, which is comprised of the Itazipco, Siha Sapa, Minniconjou, and Oohenumpa bands of the Great Sioux Nation that reside on the Cheyenne River Reservation, located in central South Dakota.
- (2) TRIBAL COUNCIL.—The term "Tribal Council" means the governing body of the Tribe.

#### SEC. 104. CHEYENNE RIVER SIOUX TRIBAL RE-COVERY TRUST FUND.

- (a) CHEYENNE RIVER SIOUX TRIBAL RECOVERY TRUST FUND.—There is established in the Treasury of the United States a fund to be known as the "Cheyenne River Sioux Tribal Recovery Trust Fund" (referred to in this title as the "Fund"). The Fund shall consist of any amounts deposited into the Fund under this title.
- (b) FUNDING.—On the first day of the 11th fiscal year that begins after the date of enactment of this Act, the Secretary of the Treasury shall, from the General Fund of the Treasury, deposit into the Fund established under subsection (a)—
  - (1) \$290,722,958; and

- (2) an additional amount that equals the amount of interest that would have accrued on the amount described in paragraph (1) if such amount had been invested in interest-bearing obligations of the United States, or in obligations guaranteed as to both principal and interest by the United States, on the first day of the first fiscal year that begins after the date of enactment of this Act and compounded annually thereafter.
- (c) INVESTMENT OF TRUST FUND.—It shall be the duty of the Secretary of the Treasury to invest such portion of the Fund as is not, in the Secretary of Treasury's judgment, required to meet current withdrawals. Such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. The Secretary of the Treasury shall deposit interest resulting from such investments into the Fund.
  - (d) PAYMENT OF INTEREST TO TRIBE.—
- (1) WITHDRAWAL OF INTEREST.—Beginning on the first day of the 11th fiscal year after the date of enactment of this Act and, on the first day of each fiscal year thereafter, the Secretary of the Treasury shall withdraw the aggregate amount of interest deposited into the Fund for that fiscal year and transfer that amount to the Secretary of the Interior for use in accordance with paragraph (2). Each amount so transferred shall be available without fiscal year limitation.
  - (2) PAYMENTS TO TRIBE.—
- (A) IN GENERAL.—The Secretary of the Interior shall use the amounts transferred under paragraph (1) only for the purpose of making payments to the Tribe, as such payments are requested by the Tribe pursuant to tribal resolution.
- (B) LIMITATION.—Payments may be made by the Secretary of the Interior under subparagraph (A) only after the Tribe has adopted a plan under subsection (f).
- (C) USE OF PAYMENTS BY TRIBE.—The Tribe shall use the payments made under subparagraph (B) only for carrying out projects and programs under the plan prepared under subsection (f).
- (e) TRANSFERS AND WITHDRAWALS.—Except as provided in subsections (c) and (d)(1), the Secretary of the Treasury may not transfer or withdraw any amount deposited under subsection (b).
  - (f) PLAN.—
- (1) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the governing body of the Tribe shall prepare a plan for the use of the payments to the Tribe under subsection (d) (referred to in this subsection as the "plan").
- (2) CONTENTS OF PLAN.—The plan shall provide for the manner in which the Tribe shall expend payments to the Tribe under subsection (d) to promote—
  - (A) economic development:
- (B) infrastructure development;
- (C) the educational, health, recreational, and social welfare objectives of the Tribe and its members; or
- (D) any combination of the activities described in subparagraphs (A) through (C).
- (3) PLAN REVIEW AND REVISION.—
- (A) IN GENERAL.—The Tribal Council shall make available for review and comment by the members of the Tribe a copy of the plan before the plan becomes final, in accordance with procedures established by the Tribal Council.
- (B) UPDATING OF PLAN.—The Tribal Council may, on an annual basis, revise the plan to update the plan. In revising the plan under this subparagraph, the Tribal Council shall

provide the members of the Tribe opportunity to review and comment on any proposed revision to the plan.

- (C) CONSULTATION.—In preparing the plan and any revisions to update the plan, the Tribal Council shall consult with the Secretary of the Interior and the Secretary of Health and Human Services.
  - (4) AUDIT.-
- (A) IN GENERAL.—The activities of the Tribe in carrying out the plan shall be audited as part of the annual single-agency audit that the Tribe is required to prepare pursuant to the Office of Management and Budget circular numbered A-133.
- (B) DETERMINATION BY AUDITORS.—The auditors that conduct the audit described in subparagraph (A) shall—
- (i) determine whether funds received by the Tribe under this section for the period covered by the audit were expended to carry out the plan in a manner consistent with this section; and
- (ii) include in the written findings of the audit the determination made under clause (i).
- (C) INCLUSION OF FINDINGS WITH PUBLICATION OF PROCEEDINGS OF TRIBAL COUNCIL.—A copy of the written findings of the audit described in subparagraph (A) shall be inserted in the published minutes of the Tribal Council proceedings for the session at which the audit is presented to the Tribal Council.
- (g) PROHIBITION ON PER CAPITA PAYMENTS.—No portion of any payment made under this title may be distributed to any member of the Tribe on a per capita basis.

## SEC. 105. ELIGIBILITY OF TRIBE FOR CERTAIN PROGRAMS AND SERVICES.

No payment made to the Tribe under this title shall result in the reduction or denial of any service or program with respect to which, under Federal law—

- (1) the Tribe is otherwise entitled because of the status of the Tribe as a federally recognized Indian tribe; or
- (2) any individual who is a member of the Tribe is entitled because of the status of the individual as a member of the Tribe.

#### SEC. 106. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such funds as may be necessary to cover the administrative expenses of the Fund.

#### SEC. 107. EXTINGUISHMENT OF CLAIMS.

Upon the deposit of funds (together with interest) into the Fund under section 104(b), all monetary claims that the Tribe has or may have against the United States for the taking, by the United States, of the land and property of the Tribe for the Oahe Dam and Reservoir Project of the Pick-Sloan Missouri River Basin program shall be extinguished.

## TITLE II—BOSQUE REDONDO MEMORIAL SEC. 201. SHORT TITLE.

This title may be cited as the "Bosque Redondo Memorial Act".

#### SEC. 202. FINDINGS AND PURPOSES.

- (a) FINDINGS.—Congress finds that—
- (1) in 1863, the United States detained nearly 9,000 Navajo and forced their migration across nearly 350 miles of land to Bosque Redondo, a journey known as the "Long Walk";
- (2) Mescalero Apache people were also incarcerated at Bosque Redondo;
- (3) the Navajo and Mescalero Apache people labored to plant crops, dig irrigation ditches and build housing, but drought, cutworms, hail, and alkaline Pecos River water created severe living conditions for nearly 9,000 captives;
- (4) suffering and hardships endured by the Navajo and Mescalero Apache people forged a new understanding of their strengths as Americans;

- (5) the Treaty of 1868 was signed by the United States and the Navajo tribes, recognizing the Navajo Nation as it exists today;
- (6) the State of New Mexico has appropriated a total of \$123,000 for a planning study and for the design of the Bosque Redondo Memorial:
- (7) individuals and businesses in DeBaca County donated \$6,000 toward the production of a brochure relating to the Bosque Redondo Memorial:
- (8) the Village of Fort Sumner donated 70 acres of land to the State of New Mexico contiguous to the existing 50 acres comprising Fort Sumner State Monument, contingent on the funding of the Bosque Redondo Memorial:
- (9) full architectural plans and the exhibit design for the Bosque Redondo Memorial have been completed:
- (10) the Bosque Redondo Memorial project has the encouragement of the President of the Navajo Nation and the President of the Mescalero Apache Tribe, who have each appointed tribal members to serve as project advisors:
- (11) the Navajo Nation, the Mescalero Tribe and the National Park Service are collaborating to develop a symposium on the Bosque Redondo Long Walk and a curriculum for inclusion in the New Mexico school curricula;
- (12) an interpretive center would provide important educational and enrichment opportunities for all Americans; and
- (13) Federal financial assistance is needed for the construction of a Bosque Redondo Memorial.
- (b) PURPOSES.—The purposes of this title are as follows:
- (1) To commemorate the people who were interned at Bosque Redondo.
- (2) To pay tribute to the native populations' ability to rebound from suffering, and establish the strong, living communities that have long been a major influence in the State of New Mexico and in the United States.
- (3) To provide Americans of all ages a place to learn about the Bosque Redondo experience and how it resulted in the establishment of strong American Indian Nations from once divergent bands.
- (4) To support the construction of the Bosque Redondo Memorial commemorating the detention of the Navajo and Mescalero Apache people at Bosque Redondo from 1863 to 1868

#### SEC. 203. DEFINITIONS.

- In this title:
- (1) MEMORIAL.—The term "Memorial" means the building and grounds known as the Bosque Redondo Memorial.
- (2) Secretary.—The term "Secretary" means the Secretary of Defense.

#### SEC. 204. BOSQUE REDONDO MEMORIAL.

- (a) ESTABLISHMENT.— Upon the request of the State of New Mexico, the Secretary is authorized to establish a Bosque Redondo Memorial within the boundaries of Fort Sumner State Monument in New Mexico. No memorial shall be established without the consent of the Navajo Nation and the Mescalero Tribe.
- (b) Components of the Memorial.—The memorial shall include—
- (1) exhibit space, a lobby area that represents design elements from traditional Mescalero and Navajo dwellings, administrative areas that include a resource room, library, workrooms and offices, restrooms, parking areas, sidewalks, utilities, and other visitor facilities; and
- (2) a venue for public education programs; and

(3) a location to commemorate the Long Walk of the Navajo people and the healing that has taken place since that event.

#### SEC. 205. CONSTRUCTION OF MEMORIAL.

- (a) Grant.-
- (1) IN GENERAL.—The Secretary may award a grant to the State of New Mexico to provide up to 50 percent of the total cost of construction of the Memorial.
- (2) Non-federal share.—The non-federal share of construction costs for the Memorial shall include funds previously expended by the State for the planning and design of the Memorial, and funds previously expended by non-federal entities for the production of a brochure relating to the Memorial.
- (b) REQUIREMENTS.—To be eligible to receive a grant under this section, the State shall—
- (1) submit to the Secretary a proposal that—
- (A) provides assurances that the Memorial will comply with all applicable laws, including building codes and regulations; and
- (B) includes such other information and assurances as the Secretary may require; and
- (2) enter into a Memorandum of Understanding with the Secretary that shall include—
- (A) a timetable for the completion of construction and the opening of the Memorial;
- (B) assurances that construction contracts will be competitively awarded;
- (C) assurances that the State or Village of Fort Sumner will make sufficient land available for the Memorial;
- (D) the specifications of the Memorial which shall comply with all applicable Federal, State, and local building codes and laws:
- (E) arrangements for the operation and maintenance of the Memorial upon completion of construction;
- (F) a description of Memorial collections and educational programming;
- (G) a plan for the design of exhibits including the collections to be exhibited, security, preservation, protection, environmental controls, and presentations in accordance with professional standards;
- (H) an agreement with the Navajo Nation and the Mescalero Tribe relative to the design and location of the Memorial; and
- (I) a financing plan developed by the State that outlines the long-term management of the Memorial, including—
- (i) the acceptance and use of funds derived from public and private sources to minimize the use of appropriated or borrowed funds;
- (ii) the payment of the operating costs of the Memorial through the assessment of fees or other income generated by the Memorial;
- (iii) a strategy for achieving financial selfsufficiency with respect to the Memorial by not later than 5 years after the date of enactment of this Act; and
- (iv) a description of the business activities that would be permitted at the Memorial and appropriate vendor standards that would apply.

#### SEC. 206. AUTHORIZATION OF APPROPRIATIONS.

- (a) IN GENERAL.—There are authorized to be appropriated to carry out this title—
  - (1) \$1,000,000 for fiscal year 2000; and
- (2) \$500,000 for each of fiscal years 2001 and 2002.
- (b) CARRYOVER.—Any funds made available under this section that are unexpended at the end of the fiscal year for which those funds are appropriated, shall remain available for use by the Secretary through September 30, 2002 for the purposes for which those funds were made available.

#### TITLE III—SENSE OF THE CONGRESS RE-GARDING THE NEED FOR CATALOGING AND MAINTAINING CERTAIN PUBLIC MEMORIALS

#### SEC. 301. SENSE OF THE CONGRESS.

- (a) FINDINGS.—Congress finds the following:
- (1) There are many thousands of public memorials scattered throughout the United States and abroad that commemorate military conflicts of the United States and the service of individuals in the Armed Forces.
- (2) These memorials have never been comprehensively cataloged.
- (3) Many of these memorials suffer from neglect and disrepair, and many have been relocated or stored in facilities where they are unavailable to the public and subject to further neglect and damage.
- (4) There exists a need to collect and centralize information regarding the location, status, and description of these memorials.
- (5) The Federal Government maintains information on memorials only if they are Federally funded.
- (6) Remembering Veterans Who Earned Their Stripes (a nonprofit corporation established as RVETS, Inc. under the laws of the State of Nevada) has undertaken a self-funded program to catalogue the memorials located in the United States that commemorate military conflicts of the United States and the service of individuals in the Armed Forces, and has already obtained information on more than 7000 memorials in 50 States.
- (b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—
- (1) the people of the United States owe a debt of gratitude to veterans for their sacrifices in defending the Nation during times of war and peace;
- (2) public memorials that commemorate military conflicts of the United States and the service of individuals in the Armed Forces should be maintained in good condition, so that future generations may know of the burdens borne by these individuals;
- (3) Federal, State, and local agencies responsible for the construction and maintenance of these memorials should cooperate in cataloging these memorials and providing the resulting information to the Department of the Interior; and
- (4) the Secretary of the Interior, acting through the Director of the National Park Service, should—
- (A) collect and maintain information on public memorials that commemorate military conflicts of the United States and the service of individuals in the Armed Forces:
- (B) coordinate efforts at collecting and maintaining this information with similar efforts by other entities, such as Remembering Veterans Who Earned Their Stripes (a nonprofit corporation established as RVETS, Inc. under the laws of the State of Nevada); and
- (C) make this information available to the public.

## TITLE IV—CEMETERY SITES AND HISTORIC PLACES

#### SEC. 401. FINDINGS; DEFINITIONS.

- (a) FINDINGS.—The Congress finds the following:
- (1) Pursuant to section 14(h)(1) of ANCSA, the Secretary has the authority to withdraw and convey to the appropriate regional corporation fee title to existing cemetery sites and historical places.
- (2) Pursuant to section 14(h)(7) of ANCSA, lands located within a National Forest may be conveyed for the purposes set forth in section 14(h)(1) of ANCSA.

- (3) Chugach Alaska Corporation, the Alaska Native Regional Corporation for the Chugach Region, applied to the Secretary for the conveyance of cemetery sites and historical places pursuant to section 14(h)(1) of ANCSA in accordance with the regulations promulgated by the Secretary.
- (4) Among the applications filed were applications for historical places at Miners Lake (AA-41487), Coghill Point (AA-41488), College Fjord (AA-41489), Point Pakenham (AA-41490), College Point (AA-41491), Egg Island (AA-41492), and Wingham Island (AA-41494), which applications were substantively processed for 13 years and then rejected as having been untimely filed.
- (5) In addition, as part of the Exxon Valdez Oil Spill Restoration Program, the Federal Government has acquired from a private party land comprising a portion of Kiniklik Village, 1 of 4 major historical Chugach villages, which land Chugach had applied for under section 14(h)(1) of ANCSA.
- (6) The fulfillment of the intent, purpose, and promise of ANCSA requires that applications substantively processed for 13 years should be accepted as timely, subject only to a determination that such lands and applications meet the eligibility criteria for historical places or cemetery sites, as appropriate, set forth in the Secretary's regulations.
- (b) DEFINITIONS.—For the purposes of this Act, the following definitions apply:
- (1) ANCSA.—The term "ANCSA" means the Alaska Native Claims Settlement Act, as amended (43 U.S.C. 1601 et seq.).
- (2) FEDERAL GOVERNMENT.—The term "Federal Government" means any Federal agency of the United States.
- (3) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

#### SEC. 402. WITHDRAWAL OF LANDS.

Notwithstanding any other provision of law, the Secretary shall withdraw from all forms of appropriation all public lands described in the applications identified in section 401(a)(4) of this title.

## SEC. 403. APPLICATION FOR CONVEYANCE OF WITHDRAWN LANDS.

With respect to lands withdrawn pursuant to section 402 of this title, the applications identified in section 401(a)(4) of this title are deemed to have been timely filed. In processing these applications on the merits, the Secretary shall incorporate and use any work done on these applications during the processing of these applications since 1980.

#### SEC. 404. AMENDMENTS.

Chugach Alaska Corporation may amend any application under section 403 of this title in accordance with the rules and regulations generally applicable to amending applications under section 14(h)(1) of ANCSA.

### SEC. 405. PROCEDURE FOR EVALUATING APPLICATIONS.

All applications under section 403 of this title shall be evaluated in accordance with the criteria and procedures set forth in the regulations promulgated by the Secretary as of the date of the enactment of this title. To the extent that such criteria and procedures conflict with any provision of this title, the provisions of this title shall control.

#### SEC. 406. CONVEYANCE OF KINIKLIK VILLAGE.

Notwithstanding any other provision of law, within 1 year of enactment of this title, the Secretary shall sell to Chugach Alaska Corporation, for fair market value, all right, title, and interest of the United States in and to the following tract of land: All that portion of the property identified in United States Survey Number 628, Tract A containing 0.34 acres and Tract B containing 0.63

acres, located in Section 26, Township 9 North, Range 10 East, Seward Meridian, containing 0.97 acres, more or less and further described as Tracts A and B Russian Greek Church Mission Reserve according to United States Survey 628.

#### SEC. 407. APPLICABILITY.

- (a) EFFECT ON ANCSA PROVISIONS.—Notwithstanding any other provision of law or of this title, any conveyance of land to Chugach Alaska Corporation pursuant to this title shall be charged to and deducted from the entitlement of Chugach Alaska Corporation under section 14(h)(8)(A) of ANCSA (43 U.S.C. 1613(h)(8)(A)), and no conveyance made pursuant to this title shall affect the distribution of lands to or the entitlement to land of any Regional Corporation other than Chugach Alaska Corporation under section 14(h)(8) of ANCSA (43 U.S.C. 1613(h)(8)).

  (b) NO ENLARGEMENT OF ENTITLEMENT.—
- (b) NO ENLARGEMENT OF ENTITLEMENT.— Nothing herein shall be deemed to enlarge Chugach Alaska Corporation's entitlement to subsurface estate under otherwise applicable law.

# TITLE V—REVISION OF RICHMOND NATIONAL BATTLEFIELD PARK BOUNDARIES

#### SEC. 501. SHORT TITLE: DEFINITIONS.

- (a) SHORT TITLE.—This title may be cited as the "Richmond National Battlefield Park Act of 2000".
  - (b) DEFINITIONS.—In this title:
- (1) BATTLEFIELD PARK.—The term "battlefield park" means the Richmond National Battlefield Park.
- (2) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

#### SEC. 502. FINDINGS AND PURPOSE.

- (a) FINDINGS.—The Congress finds the following:
- (1) In the Act of March 2, 1936 (Chapter 113; 49 Stat. 1155; 16 U.S.C. 423j), Congress authorized the establishment of the Richmond National Battlefield Park, and the boundaries of the battlefield park were established to permit the inclusion of all military battlefield areas related to the battles fought during the Civil War in the vicinity of the city of Richmond, Virginia. The battlefield park originally included the area then known as the Richmond Battlefield State Park.—
- (2) The total acreage identified in 1936 for consideration for inclusion in the battlefield park consisted of approximately 225,000 acres in and around the city of Richmond. A study undertaken by the congressionally authorized Civil War Sites Advisory Committee determined that of these 225,000 acres, the historically significant areas relating to the campaigns against and in defense of Richmond encompass approximately 38.000 acres.
- (3) In a 1996 general management plan, the National Park Service identified approximately 7,121 acres in and around the city of Richmond that satisfy the National Park Service criteria of significance, integrity, feasibility, and suitability for inclusion in the battlefield park. The National Park Service later identified an additional 186 acres for inclusion in the battlefield park.
- (4) There is a national interest in protecting and preserving sites of historical significance associated with the Civil War and the city of Richmond.
- (5) The Commonwealth of Virginia and its local units of government have authority to prevent or minimize adverse uses of these historic resources and can play a significant role in the protection of the historic resources related to the campaigns against and in defense of Richmond.
- (6) The preservation of the New Market Heights Battlefield in the vicinity of the city

of Richmond is an important aspect of American history that can be interpreted to the public. The Battle of New Market Heights represents a premier landmark in black military history as 14 black Union soldiers were awarded the Medal of Honor in recognition of their valor during the battle. According to National Park Service historians, the sacrifices of the United States Colored Troops in this battle helped to ensure the passage of the Thirteenth Amendment to the United States Constitution to abolish slavery.

- (b) PURPOSE.—It is the purpose of this title-
- (1) to revise the boundaries for the Richmond National Battlefield Park based on the findings of the Civil War Sites Advisory Committee and the National Park Service; and
- (2) to direct the Secretary of the Interior to work in cooperation with the Commonwealth of Virginia, the city of Richmond, other political subdivisions of the Commonwealth, other public entities, and the private sector in the management, protection, and interpretation of the resources associated with the Civil War and the Civil War battles in and around the city of Richmond, Virginia.

#### SEC. 503. RICHMOND NATIONAL BATTLEFIELD PARK; BOUNDARIES.

- (a) ESTABLISHMENT AND PURPOSE.—For the purpose of protecting, managing, and interpreting the resources associated with the Civil War battles in and around the city of Richmond, Virginia, there is established the Richmond National Battlefield Park consisting of approximately 7,307 acres of land. as generally depicted on the map entitled "Richmond National Battlefield Park Revision". Boundary numbered  $367\mathrm{N.E.F.A.80026A},$  and dated September 2000. The map shall be on file in the appropriate offices of the National Park Service.
- (b) BOUNDARY ADJUSTMENTS.—The Secretary may make minor adjustments in the boundaries of the battlefield park consistent with section 7(c) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-9(c)).

#### SEC. 504. LAND ACQUISITION.

- (a) ACQUISITION AUTHORITY.-
- (1) IN GENERAL.—The Secretary may acquire lands, waters, and interests in lands within the boundaries of the battlefield park from willing landowners by donation, purchase with donated or appropriated funds, or exchange. In acquiring lands and interests in lands under this title, the Secretary shall acquire the minimum interest necessary to achieve the purposes for which the battlefield is established.
- (2) Special rule for private lands.—Privately owned lands or interests in lands may be acquired under this title only with the consent of the owner.
  - (b) Easements.
- (1) OUTSIDE BOUNDARIES.—The Secretary may acquire an easement on property outside the boundaries of the battlefield park and around the city of Richmond, with the consent of the owner, if the Secretary determines that the easement is necessary to protect core Civil War resources as identified by the Civil War Sites Advisory Committee. Upon acquisition of the easement, the Secretary shall revise the boundaries of the battlefield park to include the property subject to the easement.
- (2) INSIDE BOUNDARIES.—To the extent practicable, and if preferred by a willing landowner, the Secretary shall use permanent conservation easements to acquire interests in land in lieu of acquiring land in fee simple

ownership.

(c) VISITOR CENTER.—The Secretary may acquire the Tredegar Iron Works buildings and associated land in the city of Richmond for use as a visitor center for the battlefield park.

#### SEC, 505, PARK ADMINISTRATION.

- (a) APPLICABLE LAWS.—The Secretary, acting through the Director of the National Park Service, shall administer the battlefield park in accordance with this title and laws generally applicable to units of the National Park System, including the Act of August 25, 1916 (16 U.S.C. 1 et. seq.) and the Act of August 21, 1935 (16 U.S.C. 461 et. seq.).
- (b) NEW MARKET HEIGHTS BATTLEFIELD.— The Secretary shall provide for the establishment of a monument or memorial suitable to honor the 14 Medal of Honor recipients from the United States Colored Troops who fought in the Battle of New Market Heights. The Secretary shall include the Battle of New Market Heights and the role of black Union soldiers in the battle in historical interpretations provided to the public at the battlefield park.
- (c) COOPERATIVE AGREEMENTS.—The Secretary may enter into cooperative agreements with the Commonwealth of Virginia. its political subdivisions (including the city of Richmond), private property owners, and other members of the private sector to develop mechanisms to protect and interpret the historical resources within the battlefield park in a manner that would allow for continued private ownership and use where compatible with the purposes for which the battlefield is established.
- (d) TECHNICAL ASSISTANCE.—The Secretary may provide technical assistance to the Commonwealth of Virginia, its political subdivisions, nonprofit entities, and private property owners for the development of comprehensive plans, land use guidelines, special studies, and other activities that are consistent with the identification, protection, interpretation, and commemoration of historically significant Civil War resources located inside and outside of the boundaries of the battlefield park. The technical assistance does not authorize the Secretary to own or manage any of the resources outside the battlefield park boundaries.

#### SEC. 506. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this title.

#### SEC. 507. REPEAL OF SUPERSEDED LAW.

The Act of March 2, 1936 (Chapter 113; 16 U.S.C. 423j-423l) is repealed.

#### TITLE VI—SOUTHEASTERN SYSTEM CONSTRUCTION; INTERTIE NAVAJO ELECTRIFICATION ONSTRATION PROGRAM

#### SEC. 601. SOUTHEASTERN ALASKA INTERTIE AU-THORIZATION LIMIT.

Upon the completion and submission to the United States Congress by the Forest Service of the ongoing High Voltage Direct Current viability analysis pursuant to United States Forest Service Collection Agreement #00CO-111005-105 or no later than February 1, 2001, there is hereby authorized to be appropriated to the Secretary of Energy such sums as may be necessary to assist in the construction of the Southeastern Alaska Intertie system as generally identified in Report #97-01 of the Southeast Conference. Such sums shall equal 80 percent of the cost of the system and may not exceed \$384,000,000. Nothing in this title shall be construed to limit or waive any otherwise applicable State or Federal law.

#### and thereby removing land from non-Federal SEC. 602. NAVAJO ELECTRIFICATION DEM-ONSTRATION PROGRAM

- (a) ESTABLISHMENT.—The Secretary of Energy shall establish a 5-year program to assist the Navajo Nation to meet its electricity needs. The purpose of the program shall be to provide electric power to the estimated 18,000 occupied structures on the Navajo Nation that lack electric power. The goal of the program shall be to ensure that every household on the Navajo Nation that requests it has access to a reliable and affordable source of electricity by the year 2006.
- (b) Scope.—In order to meet the goal in subsection (a), the Secretary of Energy shall provide grants to the Navajo Nation to-
- (1) extend electric transmission and distribution lines to new or existing structures that are not served by electric power and do not have adequate electric power service;
- (2) purchase and install distributed power generating facilities, including small gas turbines, fuel cells, solar photovoltaic systems, solar thermal systems, geothermal systems, wind power systems, or biomassfueled systems;
- (3) purchase and install other equipment associated with the generation, transmission, distribution, and storage of electric power:
- (4) provide training in the installation, operation, or maintenance of the lines, facilities, or equipment in paragraphs (1) through (3); or
- (5) support other activities that the Secretary of Energy determines are necessary to meet the goal of the program.
- (c) TECHNICAL SUPPORT.—At the request of the Navajo Nation, the Secretary of Energy may provide technical support through Department of Energy laboratories and facilities to the Navajo Nation to assist in achieving the goal of this program.

(d) ANNUAL REPORTS.—Not later than February 1, 2002 and for each of the five succeeding years, the Secretary of Energy shall submit a report to Congress on the status of the programs and the progress towards meeting its goal under subsection (a).

(e) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to the Secretary of Energy to carry out this section \$15,000,000 for each of the fiscal years 2002 through 2006.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Alaska (Mr. Young) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from Alaska (Mr. Young).

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 964, the Cheyenne River Sioux Tribe Equitable Compensation Act, addresses a number of specific Indian and public land problems that will assist thousands of Americans.

Title 1 of this bill will establish a Development Trust Fund in the Treasury of the United States for the Cheyenne River Sioux Tribe as compensation for the taking by condemnation proceedings by the United States of 104,492 acres of tribal lands.

### □ 1800

The Comptroller General has determined that the appropriate amount of compensation to pay the tribe would be \$290,723,000 for this taking.

Pursuant to S. 964, that amount and certain interest would be deposited by the Secretary of the Treasury into the Cheyenne River Sioux Tribal Recovery Trust Fund on the first day of the 11th fiscal year that begins after the date of enactment of S. 964.

Annual payments will be made to the tribe consisting of the income generated from the investment of the corpus of the trust fund by the Secretary of the Treasury in interest-bearing obligations to the United States.

Recovery funds have been created by Congress for four other Missouri River tribes which were impacted by the Pick-Sloan Missouri River Basin program.

Title II of S. 964, the Bosque Redondo Memorial Act, authorizes the establishment of a Bosque Redondo Memorial in New Mexico to pay tribute to the 9,000 Navajo Indians forced in the 1800s to walk 350 miles to Bosque Redondo where they were incarcerated for 5 years.

Title III expresses the sense of the Congress that public memorials commemorating military conflicts should be maintained in good condition; and to this end, the Secretary of the Interior should coordinate with Federal, State, and local officials to catalog these memorials and use the resulting information to promote and maintain them. This is based on a concurrent resolution sponsored by our colleague, the gentleman from California (Mr. ROGAN).

Title IV requires the sale of a small historic site to the Chugach Alaska Natives and is noncontroversial.

Title V incorporates the provisions of legislation sponsored by the chairman of the Committee on Commerce, the gentleman from Virginia (Mr. BLILEY). It adjusts the boundaries of the Richmond National Battlefield Park, expanding and completing the existing battlefield to include historically significant areas relating to the campaigns against, and in defense of, Richmond, Virginia.

Title VI consists of two important sections addressing the needs of southeast Alaska and the Navajo Nation, respectively.

Section 601 authorizes Southeast Alaskan Intertie system, a project critical to the future of southeast Alaska communities. Construction of an intertie will give southeast Alaska access to cheap, plentiful energy afforded through a power grid linking present and future hydroelectric sites. The Southeast Conference and the U.S. Forest Service have conducted a thorough environmental and economic analysis of this project. This section authorizes such sums that may be necessary for construction of the intertie on an 80/20 Federal-local cost-share basis.

The other section establishes a program to assist the Navajo Nation. The problem here is not lack of cheap electricity. It is lack of any electricity in bill talk to Senator DASCHLE. He asked 18,000 structures. In this modern era, it is inconceivable that electricity is unavailable for any Americans. The Federal Government has a responsibility to ensure the welfare of Indians, and to this end the grant program established in Title VI is key to the future wellbeing of the Navajo Nation.

This is a solid bill. It has been worked out with Senator Daschle. It is his bill. It has been worked out with everybody involved, and I believe it is a bill that should be passed and sent to the President.

Mr. Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the bill S. 964 as passed by the Senate. However, without notice to Members, a number of other bills and language have been added to this text. Some of these may have merit; others are controversial and expensive. One matter involves an issue that is within the jurisdiction of the Committee on Commerce, not the Committee on Resources. This is not the right approach. It is not the way to do business. I do not think it is fair to Members; nor is it fair to the public.

Mr. Speaker, I would ask the chairman, and yield him time to answer this question, of how much notice have Members had to study this bill and know what is coming up in these additional titles that have been added.

Mr. YOUNG of Alaska. Mr. Speaker, will the gentleman yield?

Mr. UDALL of New Mexico. I yield to the gentleman from Alaska.

Mr. YOUNG of Alaska. Unfortunately, the gentleman has not been here that long to recognize one thing: we try to notify everybody. Every one of the bills have had direct notification to the persons involved. The Committee on Commerce, the chairman signed off on this legislation. It directly affects his district.

Everybody that is in this bill that affects someone's district has signed off. If the gentleman believes in a representative form of government, that is the criteria. To my information, there has been nobody who has objected to these. We have been in contact with the White House. We have been in contact with Senator DASCHLE on a daily basis. We have been in contact with every Member dealing with a provision in this bill.

Now, if some staff do not like this, just keep in mind this is about representation of those people elected. It is about nothing else. This is getting into the waning hours, and if the gentleman does not want to pass this legislation, fine. It does not bother me a bit, but I have been trying to work with Senator DASCHLE, and if the gentleman does not want to vote for this me to do this. I am doing it for him. I am doing it for those people involved in this bill, and that is what a chairman is supposed to do.

This is not a process that we go through that takes a long period of time. One tries to get it done; notify those people who are affected; ask them whether they like it or not. If they like it, it works well, nobody objects to it, including the administration, then we do it.

Mr. UDALL of New Mexico. Mr. Speaker, I would ask the gentleman from Alaska (Mr. Young) if it is his understanding that Senator DASCHLE supports this bill in its entirety.

Mr. YOUNG of Alaska. In its entirety, he supports this bill. If he does not, I will not move it. I talked to him last week. He has been talked to every day; and if he does not support the bill, let me know now and I will bring the bill down right now.

Mr. UDALL of New Mexico. Mr. Speaker, I thank the gentleman from Alaska (Mr. Young) for that answer. I appreciate very much his response.

Mr. Speaker, I yield back the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Alaska (Mr. Young) that the House suspend the rules and pass the Senate bill, S. 964, as amended.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. UDALL of New Mexico. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX and the Chair's prior announcement, further proceedings on this motion will be post-

The point of no quorum is considered withdrawn.

#### GENERAL LEAVE

Mr. YOUNG of Alaska. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 4148 and S. 964, the bills just debated.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alaska?

There was no objection.

#### HOUR OF MEETING ON TOMORROW

Mr. YOUNG of Alaska. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 4 p.m. tomorrow.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alaska?

There was no objection.

REAPPOINTMENT AS MEMBER TO COORDINATING COUNCIL ON JUVENILE JUSTICE AND DELIN-QUENCY PREVENTION

The SPEAKER pro tempore. Without objection, and pursuant to the provisions of section 206 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5616), the Chair announces the Speaker's reappointment of the following member on the part of the House to the Coordinating Council on Juvenile Justice and Delinquency Prevention:

Mr. Gordon A. Martin, Roxbury, Massachusetts, to a 2-year term.

There was no objection.

ANNUAL REPORT OF RAILROAD RETIREMENT BOARD—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Transportation and Infrastructure and the Committee on Ways and Means

To the Congress of the United States:

I transmit herewith the Annual Report of the Railroad Retirement Board for Fiscal Year 1999, pursuant to the provisions of section 7(b)(6) of the Railroad Retirement Act and section 12(1) of the Railroad Unemployment Insurance Act.

WILLIAM J. CLINTON. THE WHITE HOUSE, October 17, 2000.

#### SCIENCE SHOWS IT IS NOT SAFE

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Madam Speaker, this Wednesday, scientists will present a research paper on Alloy 22, the material the Department of Energy has proposed to be used for the disposal canister for spent nuclear fuel and high-level waste at Yucca Mountain. Nevada.

The DOE has based the safety of storing high-level waste at Yucca Mountain almost solely on the performance of these waste canisters, since the existing conditions at Yucca Mountain are so poor.

However, this latest research shows that the safety of the canister itself proves to be just as poor.

In fact, scientists induced significant corrosion on the Alloy 22 within only 15 days, raising serious questions whether the material would survive even the first 1,000 years in Yucca Mountain, let alone the 10,000 years needed for safe storage.

It seems that yet again that science is proving that storing high-level nuclear waste at Yucca Mountain would be a disastrous and deadly decision.

I yield back this administration's nuclear storage plan, which is obviously based on trying to put a square peg in a round hole.

Madam Speaker, I include the following advisory for the RECORD:

OFFICE OF THE GOVERNOR, AGENCY FOR NUCLEAR PROJECTS, Carson City, NV,

#### ADVISORY

Scientists working for the State of Nevada will present the results of preliminary research on Alloy 22, the material the Department of Energy (DOE) has proposed to be used for the disposal canister for spent nuclear fuel and high level waste in the proposed repository at Yucca Mountain, Nevada. The presentation will be made to the U.S. Nuclear Regulatory Commission's Advisory Committee on Nuclear Waste at their 122nd meeting Wednesday, October 18, 2000 at Two White Flint North, Room 2B3 11545, Rockville Pike, Maryland.

The Department of Energy has assigned more than 95% of the performance of Yucca Mountain to the waste packages because the existing conditions at the Yucca Mountain Site are so poor. In preliminary tests, scientists working for the State of Nevada have, within 15 days, induced significant corrosion on the Alloy 22 which raises questions whether the material will survive even the first 1,000 years in the Yucca Mountain environment. The Department of Energy has conceded that Yucca Mountain itself cannot contain the wastes and that if the metal containers fail rapidly in the Mountain's environment, DOE will be back to square one in their attempts to make Yucca Mountain work as a repository for high level waste and spent nuclear fuel.

If you would like additional information concerning the Advisory Committee meeting or the Alloy 22 research, please contact the State of Nevada Governor's Agency for Nuclear Projects at the above phone number or address.

#### SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 1999, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

#### SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. UDALL of New Mexico) to revise and extend their remarks and include extraneous material:)

Ms. Lee, for 5 minutes, today.

Mr. PALLONE, for 5 minutes, today. Mrs. MINK of Hawaii, for 5 minutes,

(The following Members (at the request of Mr. Young of Alaska) to revise and extend their remarks and include extraneous material:)

Mr. CANADY of Florida, for 5 minutes, October 18 and 19.

Mr. SHAYS, for 5 minutes, October 18. Ms. PRYCE of Ohio, for 5 minutes, October 19.

Mrs. Morella, for 5 minutes, October 18.

#### SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 1848. An act to authorize the Secretary of the Interior, pursuant to the provisions of the Reclamation Wastewater and Groundwater Study and Facilities Act to participate in the design, planning, and construction of the Denver Water Reuse project; to the Committee on Resources.

S. 2195. An act to authorize the Secretary of the Interior, pursuant to the provisions of the Reclamation Wastewater and Groundwater Study and Facilities Act to participate in the design, planning, and construction of the Truckee watershed reclamation project for the reclamation and reuse of water; to the Committee on Resources.

S. 2301. An act to authorize the Secretary of the Interior, pursuant to the provisions of the Reclamation Wastewater and Groundwater Study and Facilities Act to participate in the design, planning, and construction of the Lakehaven water reclamation project for the reclamation and reuse of water; to the Committee on Resources.

S. 2425. An act to authorize the Bureau of Reclamation to participate in the design, planning, and construction of the Bend Feed Canal Pipeline Project, Oregon, and for other purposes: to the Committee on Resources.

S. 2594. An act to authorize the Secretary of the Interior to contract with the Mancos Water Conservancy District to use the Mancos Project facilities for impounding, storage, diverting, and carriage of non-project water for the purpose of irrigation, domestic, municipal, industrial, and any other beneficial purposes; to the Committee on Resources.

S. 2688. An act to amend the Native American Languages Act to provide for the support of Native American Language Survival Schools, and for other purposes; to the Committee on Education and the Workforce.

S. 2877. An act to authorize the Secretary of the Interior to conduct feasibility studies on water optimization in the Burnt River basin, Malheur River basin, Owyhee River basin, and Powder River basin, Oregon; to the Committee on Resources.

S. 2882. An act to authorize the Bureau of Reclamation to conduct certain feasibility studies to augment water supplies for the Klamath Project, Oregon and California, and for other purposes; to the Committee on Resources.

S. 2951. An act to authorize the Secretary of the Interior to conduct a study to investigate opportunities to better manage the water resources in the Salmon Creek watershed of the upper Columbia River, to the Committee on Resources.

## JOINT RESOLUTION PRESENTED TO THE PRESIDENT

Mr. THOMAS, from the Committee on House Administration, reported that that committee did on the following date present to the President, for his approval, a joint resolution of the House of the following title:

#### CONGRESSIONAL RECORD—HOUSE

On October 13, 2000:

#### H.J. Res. 111. Making further continuing appropriations for the fiscal year 2001, and for other purposes.

#### ADJOURNMENT

Mr. YOUNG of Alaska. Mr. Speaker, I move that the House do now adjourn. The motion was agreed to; accordingly (at 6 o'clock and 8 minutes p.m.),

under its previous order, the House adjourned until tomorrow, Wednesday, October 18, 2000, at 4 p.m.

#### EXPENDITURE REPORTS CONCERNING OFFICIAL FOREIGN TRAVEL

Reports concerning the foreign currencies and U.S. dollars utilized for official foreign travel during the third quarter of 2000, by Committees of the House of Representatives, pursuant to Public Law 95-384, are as follows:

REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON APPROPRIATIONS, HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JULY 1 AND SEPT. 30, 2000

	Date		Per diem ¹		Transportation		Other purposes		Total		
Name of Member or employee	Arrival	Departure	Country	Foreign currency	U.S. dollar equivalent or U.S. currency ²

² If foreign currency is used, enter U.S. dollar equivalent; if U.S. currency is used, enter amount expended

amendment (Rept. 106-981). Referred to the Committee of the Whole House on the State of the Union.

Mr. SMITH of Texas: Committee on the Judiciary. H.R. 4548. A bill to establish a pilot program creating a system of registries of temporary agricultural workers to provide for a sufficient supply of such workers, to amend the Immigration and Nationality Act to streamline procedures for the temporary admission and extension of stay of nonimmigrant agricultural workers under the pilot program, and for other purposes; with an amendment (Rept. 106-982, Pt. 1). Ordered to be printed.

Mr. LEACH: Committee on Banking and Financial Services. H.R. 4209. A bill to amend the Federal Reserve Act to require the payment of interest on reserves maintained at Federal Reserve banks by insured depository institutions, and for other purposes; with amendments (Rept. 106-983). Referred to the Committee of the Whole House on the State of the Union.

Mr. SESSIONS: Committee on Rules. House Resolution 633. Resolution providing for consideration of motions to suspend the rules (Rept. 106-984). Referred to the House Calendar.

Mr. HASTINGS of Washington: Committee on Rules. House Resolution 634. Resolution providing for consideration of the bill (H.R. 4656) to authorize the Forest Service to convey certain lands in the Lake Tahoe Basin to the Washoe County School District for use as an elementary school site (Rept. 106-985). Referred to the House Calendar.

#### TIME LIMITATION OF REFERRED BILL

Pursuant to clause 5 of rule X the following action was taken by the Speaker:

H.R. 4548 Referral to the Committee on Education and the Workforce extended for a period ending not later than October 20, 2000.

#### PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mrs. MINK of Hawaii:

H.R. 5474. A bill to amend title 38, United States Code, to revise the effective date for an award of disability compensation by the Secretary of Veterans Affairs under section 1151 of such title for persons disabled by treatment or vocational rehabilitation; to the Committee on Veterans' Affairs.

By Ms. BALDWIN:

H.R. 5475. A bill to extend for 18 additional months the period for which chapter 12 of title 11 of the United States Code is reenacted; to the Committee on the Judiciary.

By Mr. BLILEY (for himself, Mr.

KLINK, and Mr. UPTON): H.R. 5476. A bill to amend the Federal Food, Drug, and Cosmetic Act to enhance consumer protection in the purchase of prescription drugs from interstate Internet sellers: to the Committee on Commerce.

By Mr. HUNTER (for himself, Mr.

CUNNINGHAM, and Mr. FILNER): H.R. 5477. A bill to provide that gaming shall not be allowed on certain Indian trust lands in California that were purchased with certain Federal grant funds; to the Committee on Resources.

By Mr. RANGEL:

H.R. 5478. A bill to authorize the Secretary of the Interior to acquire by donation suitable land to serve as the new location for the home of Alexander Hamilton, commonly known as the Hamilton Grange, and to authorize the relocation of the Hamilton Grange to the acquired land; to the Committee on Resources.

By Mr. THOMPSON of California (for himself, Mrs. CAPPS, and Mr. FILNER): H.R. 5479. A bill to prohibit certain discriminatory pricing policies in wholesale motor fuel sales, and for other purposes; to the Committee on Commerce.

By Mr. YOUNG of Alaska:

H. Res. 630. A resolution providing for the concurrence by the House with an amendment in the Senate amendment to H.R. 1444; considered and agreed to.

By Mr. SPENCE (for himself and Mr. SKELTON):

H. Res. 631. A resolution honoring the members of the crew of the guided missile destroyer U.S.S. COLE (DDG-67) who were killed or wounded in the terrorist bombing attack on that vessel in Aden, Yemen, on October 12, 2000, expressing the sympathies of the House of Representatives to the families of those crew members, commending the ship's crew for their heroic damage control efforts, and condemning the bombing of that ship; to the Committee on Armed Services.

By Mr. BARRETT of Nebraska:

H. Res. 632. A resolution providing for the concurrence by the House with an amendment in the Senate amendment to H.R. 4788, the Grain Standards and Warehouse Improvement Act of 2000; considered and agreed

> By Mr. MOLLOHAN (for himself, Mr. QUINN, Mr. WISE, Mr. NEY, Mr. KLINK, Mr. Regula, Mr. Holt, Mr. Sher-WOOD, Mr. EVANS, Mr. LOBIONDO, Mr. HOEFFEL, Mr. LAZIO, Mr. MALONEY of Connecticut, Mr. McHugh, Mr. Mur-THA, Mr. ENGLISH, Mr. VISCLOSKY, Mr. BUYER, Ms. CARSON, Mr. SMITH of New Jersey, Mr. Abercrombie, Mr. ACKERMAN, Mr. ADERHOLT, Mr. BAR-CIA, Mr. BARRETT of Wisconsin, Mr. BECERRA, Ms. BERKLEY, Mr. BERRY, Mr. Bilirakis, Mr. Bishop, Mr. BLAGOJEVICH, Mr. BONIOR, Mr. BOR-SKI, Mr. BOSWELL, Mr. BOUCHER, Mr. BOYD, Mr. BRADY of Pennsylvania, Ms. Brown of Florida, Mr. Brown of Ohio, Mr. CALLAHAN, Mr. CANNON, Mr. CAPUANO, Mr. CARDIN, Mr. CLAY, Mr. CLYBURN, Mr. COSTELLO, Mr. COYNE, Mr. CRAMER, Mr. CROWLEY, Mr. CUMMINGS, Ms. DANNER, Mr. DAVIS of Illinois, Mr. DEFAZIO, Ms. DELAURO, Mr. Delahunt, Mr. Dingell, Mr. DIXON, Mr. DOYLE, Mr. EDWARDS, Mr. EHRLICH, Mrs. EMERSON, Mr. EVER-ETT, Mr. FARR of California, Mr. FATTAH, Mr. FORBES, Mr. FORD, Mr. Mr. GEPHARDT. GEKAS. Mr. GILCHREST, Mr. GORDON, Mr. GREEN of Texas, Mr. GREEN of Wisconsin, Mr. Greenwood, Mr. Gutierrez, Mr. HALL of Texas, Mr. HASTINGS of Florida, Mr. HILL of Indiana, Mr. HILL-IARD, Mr. HINCHEY, Mr. HOBSON, Mr. HOLDEN, Mr. HORN, Mr. HOSTETTLER, Mr. Hoyer, Mr. Hunter, Mr. Inslee, Mr. Jackson of Illinois, Mrs. Jones of Ohio, Mr. Kanjorski, Ms. Kaptur, Mrs. Kelly, Mr. Kildee, Ms. Kil-PATRICK, Mr. KLECZKA, Mr. KUCINICH, Mr. LAFALCE, Mr. LARSON, Mr. LATOURETTE, Mr. LEACH, Mr. LEVIN, Mr. Lipinski, Mr. Lucas of Kentucky, Mr. Markey, Mr. Mascara, Mr. Mat-SUI, Mrs. McCarthy of New York, Ms. McCarthy of Missouri. Mr. McGov

ERN, Mr. McIntosh, Mr. McIntyre, Ms. McKinney, Mr. McNulty, Mrs. Meek of Florida, Mr. Meeks of New York, Mr. MENENDEZ, Ms. MILLENDER-McDonald, Mr. Gary MILLER of California, Mrs. MINK of Hawaii, Mr. Moakley, Mr. Moore, Mrs. Myrick, Mr. Nadler, Ms. Nor-TON, Mr. NORWOOD, Mr. OBERSTAR, Mr. PALLONE, Mr. PASCRELL, Mr. PASTOR, Mr. PETERSON of Pennsylvania, Mr. Phelps, Mr. Pitts, Mr. Pomeroy, Mr. Rahall, Mr. Reyes, Mr. RILEY, Ms. RIVERS, Mr. RODRIGUEZ, Mr. ROEMER, Ms. ROYBAL-ALLARD, Mr. RUSH, Mr. SABO, Mr. SANDERS, Mr. SANDLIN, Mr. SAXTON, Mr. SAWYER, Ms. SCHAKOWSKY, Mr. SHOWS, Mr. SKEEN, Ms. SLAUGHTER, Mr. Souder, Ms. Stabenow, Mr. STENHOLM, Mr. STRICKLAND, Mr. STU-PAK, Mr. SWEENEY, Mrs. THURMAN, Mr. Tierney, Mr. Thompson of California, Mr. TRAFICANT, Mr. TURNER, Mr. UDALL of New Mexico, Mr. WALSH, Mr. WELDON of Pennsylvania, Mr. WEXLER, Mr. WEYGAND, Ms. WOOLSEY, Mr. Wu, and Mr. WYNN):

#### SEC. 2. DEFINITION OF SECRETARY.

In this Act, the term "Secretary" means the Secretary of the Army.

#### TITLE I-WATER RESOURCES PROJECTS SEC. 101. PROJECT AUTHORIZATION.

- (a) PROJECTS WITH CHIEF'S REPORTS.—The following projects for water resources development and conservation and other purposes are authorized to be carried out by the Secretary substantially in accordance with the plans, and subject to the conditions, described in the respective reports designated in this subsection:
- (1) BARNEGAT INLET TO LITTLE EGG INLET, NEW JERSEY.—The project for hurricane and storm damage reduction, Barnegat Inlet to Little Egg Inlet, New Jersey: Report of the Chief of Engineers dated July 26, 2000, at a total cost of \$51,203,000, with an estimated Federal cost of \$33,282,000 and an estimated non-Federal cost of \$17,921,000.
- (2) PORT OF NEW YORK AND NEW JERSEY, NEW YORK AND NEW JERSEY.-
- (A) IN GENERAL.—The project for navigation, Port of New York and New Jersey, New York and New Jersey: Report of the Chief of Engineers dated May 2, 2000, at a total cost of \$1,781,235,000, with an estimated Federal cost of \$738,631,000 and an estimated non-Federal cost of \$1,042,604,000.
- (B) CREDIT.—The Secretary may provide the non-Federal interests credit toward cash contributions required-
- (i) before, during, and after construction for planning, engineering and design, and construction management work that is performed by the non-Federal interests and that the Secretary determines is necessary to implement the project; and
- (ii) during and after construction for the costs of the construction that the non-Federal interests carry out on behalf of the Secretary and that the Secretary determines is necessary to implement the project.
- (b) PROJECTS SUBJECT TO FINAL REPORT.— The following projects for water resources development and conservation and other purposes are authorized to be carried out by the Secretary substantially in accordance with the plans, and subject the conditions, recommended in a final report of the Chief of Engineers if a favorable report of the Chief is completed not later than December 31, 2000:
- (1) FALSE PASS HARBOR, ALASKA.—The project for navigation, False Pass Harbor, Alaska, at a total cost of \$15,164,000, with an estimated Federal cost of \$8,238,000 and an estimated non-Federal cost of \$6,926,000.
- ALASKA.—The Unalaska harbor, project for navigation, Unalska Harbor, Alaska, at a total cost of \$20,000,000, with an estimated Federal cost of \$12,000,000 and an estimated non-Federal cost of \$8,000,000.
- (3) RIO DE FLAG, FLAGSTAFF, ARIZONA.—The project for flood damage reduction, Rio de Flag, Flagstaff, Arizona, at a total cost of \$24,072,000, with an estimated Federal cost of \$15,576,000 and an estimated non-Federal cost of \$8,496,000.
- (4) TRES RIOS, ARIZONA.—The project ecosystem restoration, Tres Rios, Arizona, at a

- total cost of \$99,320,000, with an estimated Federal cost of \$62,755,000 and an estimated non-Federal cost of \$36,565,000.
- (5) Los angeles harbor, california.—The project for navigation, Los Angeles Harbor, California, at a total cost of \$153,313,000, with an estimated Federal cost of \$43,735,000 and an estimated non-Federal cost of \$109,578,000.
- (6) MURRIETTA CREEK, CALIFORNIA.—The project for flood damage reduction and ecosystem restoration, Murrietta Creek, California, described as alternative 6, based on the District Engineer's Murrietta Creek feasibility report and environmental impact statement dated October 2000, at a total cost of \$89,850,000, with an estimated Federal cost of \$87,735,000 and an estimated non-Federal cost of \$32,115,000. The locally preferred plan described as alternative 6 shall be treated as a final favorable report of the Chief Engineer's for purposes of this subsection.
- (7) SANTA BARBARA STREAMS, LOWER MISSION CREEK, CALIFORNIA.—The project for flood damage reduction, Santa Barbara streams, Lower Mission Creek, California, at a total cost of \$18,300,000, with an estimated Federal cost of \$9,200,000 and an estimated non-Federal cost of \$9,100,000.
- (8) UPPER NEWPORT BAY, CALIFORNIA.—The project for ecosystem restoration, Upper Newport Bay, California, at a total cost of \$32,475,000, with an estimated Federal cost of \$21,109,000 and an estimated non-Federal cost of \$11,366,000.
- (9) WHITEWATER RIVER BASIN, CALIFORNIA.—The project for flood damage reduction, Whitewater River basin, California, at a total cost of \$27,570,000, with an estimated Federal cost of \$17,920,000 and an estimated non-Federal cost of \$9,650,000.
- (10) DELAWARE COAST FROM CAPE HENLOPEN TO FENWICK ISLAND.—The project for hurricane and storm damage reduction, Delaware Coast from Cape Henlopen to Fenwick Island, at a total cost of \$5,633,000, with an estimated Federal cost of \$3,661,000 and an estimated non-Federal cost of \$1,972,000.
- (11) PORT SUTTON, FLORIDA.—The project for navigation, Port Sutton, Florida, at a total cost of \$6,000,000, with an estimated Federal cost of \$4,000,000 and an estimated non-Federal cost of \$2,000,000.
- (12) BARBERS POINT HARBOR, HAWAII.—The project for navigation, Barbers Point Harbor, Hawaii, at a total cost of \$30,003,000, with an estimated Federal cost of \$18,524,000 and an estimated non-Federal cost of \$11,479,000.
- (13) JOHN MYERS LOCK AND DAM, INDIANA AND KENTUCKY.—The project for navigation, John Myers Lock and Dam, Indiana and Kentucky, at a total cost of \$182,000,000. The costs of construction of the project shall be paid ½ from amounts appropriated from the general fund of the Treasury and ½ from amounts appropriated from the Inland Waterways Trust Fund.
- (14) GREENUP LOCK AND DAM, KENTUCKY AND OHIO.—The project for navigation, Greenup Lock and Dam, Kentucky and Ohio, at a total cost of \$175,000,000. The costs of construction of the project shall be paid ½ from amounts appropriated from the general fund of the Treasury and ½ from amounts appropriated from the Inland Waterways Trust Fund.
- (15) OHIO RIVER MAINSTEM, KENTUCKY, ILLINOIS, INDIANA, OHIO, PENNSYLVANIA, AND WEST VIRGINIA.—Projects for ecosystem restoration, Ohio River Mainstem, Kentucky, Illinois, Indiana, Ohio, Pennsylvania, and West Virginia, at a total cost of \$307,700,000, with an estimated Federal cost of \$200,000,000 and an estimated non-Federal cost of \$107,700,000.
- (16) MONARCH-CHESTERFIELD, MISSOURI.— The project for flood damage reduction,

- Monarch-Chesterfield, Missouri, at a total cost of \$67,700,000, with an estimated Federal cost of \$44,000,000 and an estimated non-Federal cost of \$23,700,000.
- (17) ANTELOPE CREEK, LINCOLN, NEBRASKA.—The project for flood damage reduction, Antelope Creek, Lincoln, Nebraska, at a total cost of \$49,788,000, with an estimated Federal cost of \$24,894,000 and an estimated non-Federal cost of \$24,894,000.
- (18) SAND CREEK WATERSHED, WAHOO, NEBRASKA.—The project for ecosystem restoration and flood damage reduction, Sand Creek watershed, Wahoo, Nebraska, at a total cost of \$29,212,000, with an estimated Federal cost of \$17,586,000 and an estimated non-Federal cost of \$11,626,000.
- (19) WESTERN SARPY AND CLEAR CREEK, NEBRASKA.—The project for flood damage reduction, Western Sarpy and Clear Creek, Nebraska, at a total cost of \$20,600,000, with an estimated Federal cost of \$13,390,000 and an estimated non-Federal cost of \$7,210,000.
- (20) RARITAN BAY AND SANDY HOOK BAY, CLIFFWOOD BEACH, NEW JERSEY.—The project for hurricane and storm damage reduction, Raritan Bay and Sandy Hook Bay, Cliffwood Beach, New Jersey, at a total cost of \$5,219,000, with an estimated Federal cost of \$3,392,000 and an estimated non-Federal cost of \$1,827,000.
- (21) RARITAN BAY AND SANDY HOOK BAY, PORT MONMOUTH, NEW JERSEY.—The project for hurricane and storm damage reduction, Raritan Bay and Sandy Hook Bay, Port Monmouth, New Jersey, at a total cost of \$32,064,000, with an estimated Federal cost of \$20,842,000 and an estimated non-Federal cost of \$11,222,000.
- (22) DARE COUNTY BEACHES, NORTH CAROLINA.—The project for hurricane and storm damage reduction, Dare County beaches, North Carolina, at a total cost of \$69,518,000, with an estimated Federal cost of \$49,846,000 and an estimated non-Federal cost of \$19.672,000.
- (23) WOLF RIVER, TENNESSEE.—The project for ecosystem restoration, Wolf River, Tennessee, at a total cost of \$10,933,000, with an estimated Federal cost of \$7,106,000 and an estimated non-Federal cost of \$3,827,000.
- (24) DUWAMISH/GREEN, WASHINGTON.—The project for ecosystem restoration, Duwamish/Green, Washington, at a total cost of \$115,879,000, with an estimated Federal cost of \$75,322,000 and an estimated non-Federal cost of \$40,557,000.
- (25) STILLAGUMAISH RIVER BASIN, WASH-INGTON.—The project for ecosystem restoration, Stillagumaish River basin, Washington, at a total cost of \$24,223,000, with an estimated Federal cost of \$16,097,000 and an estimated non-Federal cost of \$8.126,000.
- (26) JACKSON HOLE, WYOMING.—The project for ecosystem restoration, Jackson Hole, Wyoming, at a total cost of \$52,242,000, with an estimated Federal cost of \$33,957,000 and an estimated non-Federal cost of \$18,285,000. SEC. 102. SMALL PROJECTS FOR FLOOD DAMAGE REDUCTION.
- (a) IN GENERAL.—The Secretary shall conduct a study for each of the following projects and, if the Secretary determines that a project is feasible, may carry out the project under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s):
- (1) BUFFALO ISLAND, ARKANSAS.—Project for flood damage reduction, Buffalo Island, Arkansas.
- (2) ANAVERDE CREEK, PALMDALE, CALIFORNIA.—Project for flood damage reduction, Anaverde Creek, Palmdale, California.
- (3) Castaic Creek, old road bridge, santa Clarita, California.—Project for flood dam-

- age reduction, Castaic Creek, Old Road bridge, Santa Clarita, California.
- (4) SANTA CLARA RIVER, OLD ROAD BRIDGE, SANTA CLARITA, CALIFORNIA.—Project for flood damage reduction, Santa Clara River, Old Road bridge, Santa Clarita, California.
- (5) COLUMBIA LEVEE, COLUMBIA, ILLINOIS.— Project for flood damage reduction, Columbia Levee, Columbia, Illinois.
- (6) East-West Creek, RIVERTON, ILLINOIS.— Project for flood damage reduction, East-West Creek, Riverton, Illinois.
- (7) PRAIRIE DU PONT, ILLINOIS.—Project for flood damage reduction, Prairie Du Pont, Illinois.
- (8) MONROE COUNTY, ILLINOIS.—Project for flood damage reduction, Monroe County, Illinois.
- (9) WILLOW CREEK, MEREDOSIA, ILLINOIS.— Project for flood damage reduction, Willow Creek, Meredosia, Illinois.
- (10) DYKES BRANCH CHANNEL, LEAWOOD, KAN-SAS.—Project for flood damage reduction, Dykes Branch channel improvements, Leawood, Kansas.
- (11) DYKES BRANCH TRIBUTARIES, LEAWOOD, KANSAS.—Project for flood damage reduction, Dykes Branch tributary improvements, Leawood, Kansas.
- (12) KENTUCKY RIVER, FRANKFORT, KENTUCKY.—Project for flood damage reduction, Kentucky River, Frankfort, Kentucky.
- (13) LAKES MAUREPAS AND PONTCHARTRAIN CANALS, ST. JOHN THE BAPTIST PARISH, LOUISIANA.—Project for flood damage reduction, Lakes Maurepas and Pontchartrain Canals, St. John the Baptist Parish, Louisiana.
- (14) PENNSVILLE TOWNSHIP, SALEM COUNTY, NEW JERSEY.—The project for flood damage reduction, Pennsville Township, Salem County, New Jersey.
- (15) HEMPSTEAD, NEW YORK.—Project for flood damage reduction, Hempstead, New York.
- (16) HIGHLAND BROOK, HIGHLAND FALLS, NEW YORK.—Project for flood damage reduction, Highland Brook, Highland Falls, New York.
- (17) LAFAYETTE TOWNSHIP, OHIO.—Project for flood damage reduction, Lafayette Township, Ohio.
- (18) West Lafayette, Ohio.—Project for flood damage reduction, West Lafayette, Ohio
- (19) BEAR CREEK AND TRIBUTARIES, MED-FORD, OREGON.—Project for flood damage reduction, Bear Creek and tributaries, Medford. Oregon.
- (20) DELAWARE CANAL AND BROCK CREEK, YARDLEY BOROUGH, PENNSYLVANIA.—Project for flood damage reduction, Delaware Canal and Brock Creek, Yardley Borough, Pennsylvania.
- (21) FIRST CREEK, FOUNTAIN CITY, KNOX-VILLE, TENNESSEE.—Project for flood damage reduction, First Creek, Fountain City, Knoxville, Tennessee.
- (22) MISSISSIPPI RIVER, RIDGELY, TENNESSEE.—Project for flood damage reduction, Mississippi River, Ridgely, Tennessee.
- (b) Magpie Creek, Sacramento County, California.—In formulating the project for Magpie Creek, California, authorized by section 102(a)(4) of the Water Resources Development Act of 1999 (113 Stat. 281) to be carried out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s), the Secretary shall consider benefits from the full utilization of existing improvements at McClellan Air Force Base that would result from the project after conversion of the base to civilian use.

### SEC. 103. SMALL PROJECTS FOR BANK STA-BILIZATION.

The Secretary shall conduct a study for each of the following projects and, if the Secretary determines that a project is feasible, may carry out the project under section 14 of the Flood Control Act of 1946 (33 U.S.C. 701r):

- (1) MAUMEE RIVER, FORT WAYNE, INDIANA.—Project for bank stabilization, Maumee River, Fort Wayne, Indiana.
- (2) BAYOU SORRELL, IBERVILLE PARISH, LOU-ISIANA.—Project for bank stabilization, Bayou Sorrell, Iberville Parish, Louisiana.

#### SEC. 104. SMALL PROJECTS FOR NAVIGATION.

The Secretary shall conduct a study for each of the following projects and, if the Secretary determines that a project is feasible, may carry out the project under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577).

- (1) WHITTIER, ALASKA.—Project for navigation, Whittier, Alaska.
- (2) CAPE CORAL, FLORIDA.—Project for navigation, Cape Coral, Florida.
- (3) East two lakes, tower, minnesota.— Project for navigation, East Two Lakes, Tower, Minnesota.
- (4) ERIE BASIN MARINA, BUFFALO, NEW YORK.—Project for navigation, Erie Basin marina, Buffalo, New York.
- (5) LAKE MICHIGAN, LAKESHORE STATE PARK, MILWAUKEE, WISCONSIN.—Project for navigation, Lake Michigan, Lakeshore State Park, Milwaukee, Wisconsin.
- (6) SAXON HARBOR, FRANCIS, WISCONSIN.— Project for navigation, Saxon Harbor, Francis. Wisconsin.

# SEC. 105. SMALL PROJECT FOR IMPROVEMENT OF THE QUALITY OF THE ENVIRONMENT.

The Secretary shall conduct a study for a project for improvement of the quality of the environment, Nahant Marsh, Davenport, Iowa, and, if the Secretary determines that the project is appropriate, may carry out the project under section 1135(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2309a(a)).

## SEC. 106. SMALL PROJECTS FOR AQUATIC ECOSYSTEM RESTORATION.

The Secretary shall conduct a study for each of the following projects and, if the Secretary determines that a project is appropriate, may carry out the project under section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2330):

- (1) ARKANSAS RIVER, PUEBLO, COLORADO.— Project for aquatic ecosystem restoration, Arkansas River, Pueblo, Colorado.
- (2) HAYDEN DIVERSION PROJECT, YAMPA RIVER, COLORADO.—Project for aquatic ecosystem restoration, Hayden Diversion Project, Yampa River, Colorado.
- (3) LITTLE ECONLOCKHATCHEE RIVER BASIN, FLORIDA.—Project for aquatic ecosystem restoration, Little Econlockhatchee River basin, Florida.
- (4) LOXAHATCHEE SLOUGH, PALM BEACH COUNTY, FLORIDA.—Project for aquatic ecosystem restoration, Loxahatchee Slough, Palm Beach County, Florida.
- (5) STEVENSON CREEK ESTUARY, FLORIDA.—Project for aquatic ecosystem restoration, Stevenson Creek estuary, Florida.
- (6) CHOUTEAU ISLAND, MADISON COUNTY, ILLI-NOIS.—Project for aquatic ecosystem restoration, Chouteau Island, Madison County, Illinois
- (7) SAGINAW BAY, BAY CITY, MICHIGAN.— Project for aquatic ecosystem restoration, Saginaw Bay, Bay City, Michigan.
- (8) RAINWATER BASIN, NEBRASKA.—Project for aquatic ecosystem restoration, Rainwater Basin, Nebraska.

- (9) CAZENOVIA LAKE, MADISON COUNTY, NEW YORK.—Project for aquatic ecosystem restoration, Cazenovia Lake, Madison County, New York, including efforts to address aquatic invasive plant species.
- (10) CHENANGO LAKE, CHENANGO COUNTY, NEW YORK.—Project for aquatic ecosystem restoration, Chenango Lake, Chenango County, New York, including efforts to address aquatic invasive plant species.
- (11) EAGLE LAKE, NEW YORK.—Project for aquatic ecosystem restoration, Eagle Lake, New York.
- (12) OSSINING, NEW YORK.—Project for aquatic ecosystem restoration, Ossining, New York.
- (13) SARATOGA LAKE, NEW YORK.—Project for aquatic ecosystem restoration, Saratoga Lake, New York.
- (14) SCHROON LAKE, NEW YORK.—Project for aquatic ecosystem restoration, Schroon Lake, New York.
- (15) CENTRAL AMAZON CREEK, EUGENE, OR-EGON.—Project for aquatic ecosystem restoration, Central Amazon Creek, Eugene, Oregon.
- (16) EUGENE MILLRACE, EUGENE, OREGON.— Project for aquatic ecosystem restoration, Eugene Millrace, Eugene, Oregon.
- (17) LONE PINE AND LAZY CREEKS, MEDFORD, OREGON.—Project for aquatic ecosystem restoration, Lone Pine and Lazy Creeks, Medford, Oregon.
- (18) TULLYTOWN BOROUGH, PENNSYLVANIA.—Project for aquatic ecosystem restoration, Tullytown Borough, Pennsylvania.

### SEC. 107. SMALL PROJECT FOR SHORELINE PROTECTION.

The Secretary shall conduct a study for a project for shoreline protection, Hudson River, Dutchess County, New York, and, if the Secretary determines that the project is feasible, may carry out the project under section 3 of the Act entitled "An Act authorizing Federal participation in the cost of protecting the shores of publicly owned property", approved August 13, 1946 (33 U.S.C. 426g; 60 Stat. 1056).

## SEC. 108. SMALL PROJECT FOR SNAGGING AND SEDIMENT REMOVAL.

The Secretary shall conduct a study for a project for clearing, snagging, and sediment removal, Sangamon River and tributaries, Riverton, Illinois. If the Secretary determines that the project is feasible, the Secretary may carry out the project under section 2 of the Flood Control Act of August 28, 1937 (50 Stat. 177).

## SEC. 109. PETALUMA RIVER, PETALUMA, CALIFORNIA.

- (a) IN GENERAL.—The Secretary shall carry out the Petaluma River project, at the city of Petaluma, Sonoma County, California, to provide a 100-year level of flood protection to the city in accordance with the detailed project report of the San Francisco District Engineer, dated March 1995, at a total cost of \$32.927.000
- (b) COST SHARING.—Cost sharing for the project shall be determined in accordance with section 103(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2213(a)), as in effect on October 11, 1996.
- (c) REIMBURSEMENT.—The Secretary shall reimburse the non-Federal sponsor for any project costs that the non-Federal sponsor has incurred in excess of the non-Federal share of project costs, regardless of the date such costs were incurred.

# TITLE II—GENERAL PROVISIONS SEC. 201. COST SHARING OF CERTAIN FLOOD DAMAGE REDUCTION PROJECTS.

Section 103 of the Water Resources Development Act of 1986 (33 U.S.C. 2213) is amended by adding at the end the following:

"(n) LEVEL OF FLOOD PROTECTION.—If the Secretary determines that it is technically sound, environmentally acceptable, and economically justified, to construct a flood control project for an area using an alternative that will afford a level of flood protection sufficient for the area not to qualify as an area having special flood hazards for the purposes of the national flood insurance program under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Secretary, at the request of the non-Federal interest, shall recommend the project using the alternative. The non-Federal share of the cost of the project assigned to providing the minimum amount of flood protection required for the area not to qualify as an area having special flood hazards shall be determined under subsections (a) and (b).

#### SEC. 202. HARBOR COST SHARING.

- (a) IN GENERAL.—Sections 101 and 214 of the Water Resources Development Act of 1986 (33 U.S.C. 2211 and 2241; 100 Stat. 4082–4084 and 4108–4109) are each amended by striking "45 feet" each place it appears and inserting "53 feet".
- (b) APPLICABILITY.—The amendments made by subsection (a) shall apply only to a project, or separable element of a project, on which a contract for physical construction has not been awarded before the date of enactment of this Act.

#### SEC. 203. NONPROFIT ENTITIES.

- (a) ENVIRONMENTAL DREDGING.—Section 312 of the Water Resources Development Act of 1990 (33 U.S.C. 1272) is amended by adding at the end the following:
- "(g) NONPROFIT ENTITIES.—Notwithstanding section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b), a non-Federal sponsor for any project carried out under this section may include a nonprofit entity, with the consent of the affected local government."
- (b) PROJECT MODIFICATIONS FOR IMPROVEMENT OF ENVIRONMENT.—Section 1135 of the Water Resources Development Act of 1986 (33 U.S.C. 2309a) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following:

  "(e) NONPROFIT ENTITIES.—Notwith-
- "(e) Nonprofit Entities.—Notwithstanding section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b), a non-Federal sponsor for any project carried out under this section may include a nonprofit entity, with the consent of the affected local government."
- (c) Lakes Program.—Section 602 of the Water Resources Development Act of 1986 (100 Stat. 4148–4149) is amended by redesignating subsection (d) as subsection (e) and by inserting after subsection (c) the following:
- "(d) Nonprofit Entities.—Notwithstanding section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b), a non-Federal sponsor for any project carried out under this section may include a nonprofit entity, with the consent of the affected local government."

### SEC. 204. REHABILITATION OF FEDERAL FLOOD CONTROL LEVEES.

Section 110(e) of the Water Resources Development Act of 1990 (104 Stat. 4622) is amended by striking "1992," and all that follows through "1996" and inserting "2001 through 2005".

## SEC. 205. FLOOD MITIGATION AND RIVERINE RESTORATION PROGRAM.

Section 212(e) of the Water Resources Development Act of 1999 (33 U.S.C. 2332(e)) is amended—

- (1) by striking "and" at the end of paragraph (22);
- (2) by striking the period at end of paragraph (23) and inserting a semicolon;

- (3) by adding at the end the following:
- '(24) Lester, St. Louis, East Savanna, and Floodwood Rivers, Duluth, Minnesota:
- '(25) Lower Hudson River and tributaries, New York:
- "(26) Susquehanna River watershed, Bradford County, Pennsylvania; and
- "(27) Clear Creek, Harris, Galveston, and Brazoria Counties, Texas,"

#### SEC. 206. TRIBAL PARTNERSHIP PROGRAM.

- (a) IN GENERAL.—The Secretary is authorized, in cooperation with Indian tribes and other Federal agencies, to study and determine the feasibility of implementing water resources development projects that will substantially benefit Indian tribes, and are located primarily within Indian country (as defined in section 1151 of title 18, United States Code), or in proximity to an Alaska Native village (as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)).
- (b) CONSULTATION AND COORDINATION.—The Secretary shall consult with the Secretary of the Interior on studies conducted under this section.
- (c) CREDITS.—For any study conducted under this section, the Secretary may provide credit to the Indian tribe for services, studies, supplies, and other in-kind consideration where the Secretary determines that such services, studies, supplies, and other inkind consideration will facilitate completion of the study. In no event shall such credit exceed the Indian tribe's required share of the cost of the study.
- (d) AUTHORIZATION OF APPROPRIATIONS.-There is authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2002 through 2006. Not more than \$1,000,000 appropriated to carry out this section for a fiscal year may be used to substantially benefit any one Indian tribe
- (e) Indian Tribe Defined.—In this section, the term "Indian tribe" means any tribe, band, nation, or other organized group or community of Indians, including any Alaska Native village, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

#### SEC. 207. NATIVE AMERICAN REBURIAL AND TRANSFER AUTHORITY.

- (a) IN GENERAL.—The Secretary, in consultation with appropriate Indian tribes, may identify and set aside land at civil works projects managed by the Secretary for use as a cemetery for the remains of Native Americans that have been discovered on project lands and that have been rightfully claimed by a lineal descendant or Indian tribe in accordance with applicable Federal law. The Secretary, in consultation with and with the consent of the lineal descendant or Indian tribe, may recover and rebury the remains at such cemetery at Federal expense.
- Transfer AUTHORITY.—Notwithstanding any other provision of law, the Secretary may transfer to an Indian tribe land identified and set aside by the Secretary under subsection (a) for use as a cemetery. The Secretary shall retain any necessary rights-of-way, easements, or other property interests that the Secretary determines necessary to carry out the purpose of the project.
- (c) DEFINITIONS.—In this section, the terms "Indian tribe" and "Native American" have the meaning such terms have under section 2 of the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001).

#### SEC. 208. ABILITY TO PAY.

Section 103(m) of the Water Resources Development Act of 1986 (33 U.S.C. 2213(m)) is amended-

- inserting the following:
- "(1) IN GENERAL.—Any cost-sharing agreement under this section for construction of an environmental protection and restoration, flood control, or agricultural water supply project shall be subject to the ability of a non-Federal interest to pay.
- "(2) CRITERIA AND PROCEDURES.—The ability of a non-Federal interest to pay shall be determined by the Secretary in accordance with criteria and procedures in effect under paragraph (3) on the day before the date of enactment of the Water Resources Development Act of 2000; except that such criteria and procedures shall be revised, and new criteria and procedures shall be developed, within 180 days after such date of enactment to reflect the requirements of such paragraph (3)."; and
  - (2) in paragraph (3)—
- (A) by inserting "and" after the semicolon at the end of subparagraph (A)(ii);
- (B) by striking subparagraph (B); and
- (C) by redesignating subparagraph (C) as subparagraph (B).

#### SEC. 209. INTERAGENCY AND INTERNATIONAL SUPPORT AUTHORITY.

The first sentence of section 234(d) of the Water Resources Development Act of 1996 (33 U.S.C. 2323a(d)) is amended to read as follows: "There is authorized to be appropriated to carry out this section \$250,000 per fiscal year for fiscal years beginning after September 30, 2000.".

#### SEC. 210. PROPERTY PROTECTION PROGRAM.

- (a) IN GENERAL.—The Secretary is authorized to implement a program to reduce vandalism and destruction of property at water resources development projects under the jurisdiction of the Department of the Army. In carrying out the program, the Secretary may provide rewards to individuals who provide information or evidence leading to the arrest and prosecution of individuals causing damage to Federal property, including the
- payment of cash rewards.
  (b) REPORT.—Not later than 4 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report on the results of the program.
  (c) AUTHORIZATION OF APPROPRIATIONS.-
- There is authorized to be appropriated to carry out this section \$500,000 per fiscal year for fiscal years beginning after September 30,

#### SEC. 211. ENGINEERING CONSULTING SERVICES.

In conducting a feasibility study for a water resources project, the Secretary, to the maximum extent practicable, should not employ a person for engineering and consulting services if the same person is also employed by the non-Federal interest for such services unless there is only 1 qualified and responsive bidder for such services.

#### SEC. 212. BEACH RECREATION.

- (a) IN GENERAL.—In studying the feasibility of and making recommendations concerning potential beach restoration projects. the Secretary may not implement any policy that has the effect of disadvantaging any such project solely because 50 percent or more of its benefits are recreational in nature.
- (b) PROCEDURES FOR CONSIDERATION AND REPORTING OF BENEFITS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall develop and implement procedures to ensure that all of the benefits of a beach restoration project, including those benefits attributable to recreation, hurricane and storm damage reduction, and environmental protection and restoration, are adequately considered and displayed in reports for such projects.

#### (1) by striking paragraphs (1) and (2) and SEC. 213. PERFORMANCE OF SPECIALIZED OR TECHNICAL SERVICES.

- (a) IN GENERAL.—Before entering into an agreement to perform specialized or technical services for a State (including the District of Columbia), a territory, or a local government of a State or territory under section 6505 of title 31, United States Code, the Secretary shall certify that-
- (1) the services requested are not reasonably and expeditiously available through ordinary business channels; and
- (2) the Corps of Engineers is especially equipped to perform such services.
- SUPPORTING MATERIALS.—The retary shall develop materials supporting such certification under subsection (a).
  - (c) Annual Report to Congress.
- (1) IN GENERAL.—Not later than December 31 of each calendar year, the Secretary shall transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the requests described in subsection (a) that the Secretary received during such calendar year.
- (2) CONTENTS.—With respect to each request, the report transmitted under paragraph (1) shall include a copy of the certification and supporting materials developed under this section and information on each of the following:
  - (A) The scope of services requested.
  - (B) The status of the request.
- (C) The estimated and final cost of the requested services.
- (D) Each district and division office of the Corps of Engineers that has supplied or will supply the requested services.
- (E) The number of personnel of the Corps of Engineers that have performed or will perform any of the requested services.

#### (F) The status of any reimbursement.

#### SEC. 214. DESIGN-BUILD CONTRACTING.

- (a) PILOT PROGRAM.—The Secretary may conduct a pilot program consisting of not more than 5 projects to test the design-build method of project delivery on various civil engineering projects of the Corps of Engineers, including levees, pumping plants, revetments, dikes, dredging, weirs, dams, retaining walls, generation facilities, mattress laving, recreation facilities, and other water resources facilities.
- (b) DESIGN-BUILD DEFINED.—In this section, the term "design-build" means an agreement between the Federal Government and a contractor that provides for both the design and construction of a project by a single contract.
- (c) REPORT.—Not later than 2 years after the date of enactment of this section, the Secretary shall report on the results of the pilot program.

#### SEC. 215. INDEPENDENT REVIEW PILOT PRO-GRAM.

Title IX of the Water Resources Development Act of 1986 (100 Stat. 4183 et seq.) is amended by adding at the end the following: "SEC. 952. INDEPENDENT REVIEW PILOT PRO-GRAM.

- "(a) PROJECTS SUBJECT TO INDEPENDENT REVIEW.—The Secretary shall undertake a pilot program in fiscal years 2001 through 2003 to determine the practicality and efficacy of having feasibility reports of the Corps of Engineers for eligible projects reviewed by an independent panel of experts. The pilot program shall be limited to the establishment of panels for not to exceed 5 eligible projects.
  - "(b) ESTABLISHMENT OF PANELS.-
- "(1) IN GENERAL.—The Secretary shall establish a panel of experts for an eligible

project under this section upon identification of a preferred alternative in the development of the feasibility report.

- established MEMBERSHIP.—A panel under this section shall be composed of not less than 5 and not more than 9 independent experts who represent a balance of areas of expertise, including biologists, engineers, and economists.
- "(3) LIMITATION ON APPOINTMENTS.—The Secretary shall not appoint an individual to serve on a panel of experts for a project under this section if the individual has a financial interest in the project or has with any organization a professional relationship that the Secretary determines may constitute a conflict of interest or the appearance of impropriety.
- -The Secretary shall "(4) Consultation.consult the National Academy of Sciences in developing lists of individuals to serve on panels of experts under this section.
- "(5) COMPENSATION.—An individual serving on a panel of experts under this section may not be compensated but may receive travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5, United States Code.
- "(c) DUTIES OF PANELS.—A panel of experts established for a project under this section
- "(1) review feasibility reports prepared for the project after the identification of a preferred alternative;
- "(2) receive written and oral comments of a technical nature concerning the project from the public; and
- '(3) transmit to the Secretary an evaluation containing the panel's economic, engineering, and environmental analyses of the project, including the panel's conclusions on the feasibility report, with particular emphasis on areas of public controversy.
- "(d) DURATION OF PROJECT REVIEWS.—A panel of experts shall complete its review of a feasibility report for an eligible project and transmit a report containing its evaluation of the project to the Secretary not later than 180 days after the date of establishment of the panel.
- "(e) RECOMMENDATIONS OF PANEL.—After receiving a timely report on a project from a panel of experts under this section, the Secretary shall-
- "(1) consider any recommendations contained in the evaluation:
- "(2) make the evaluation available for public review: and
- "(3) include a copy of the evaluation in any report transmitted to Congress concerning the project.
- "(f) Costs.—The cost of conducting a review of a project under this section shall not exceed \$250.000 and shall be a Federal expense.
- "(g) REPORT.—Not later than December 31, 2003, the Secretary shall transmit to Congress a report on the results of the pilot program together with the recommendations of the Secretary regarding continuation, expansion, and modification of the pilot program, including an assessment of the impact that a peer review program would have on the overall cost and length of project analyses and reviews associated with feasibility reports and an assessment of the benefits of peer review.
- "(h) ELIGIBLE PROJECT DEFINED .-- In this section, the term 'eligible project' means-
- "(1) a water resources project that has an estimated total cost of more than \$25,000,000, including mitigation costs; and
  - '(2) a water resources project-

- "(A) that has an estimated total cost of ment Act of 1986 (33 U.S.C. 2283(a)) is amend-\$25,000,000 or less, including mitigation costs; and
- "(B)(i) that the Secretary determines is subject to a substantial degree of public controversy; or
- "(ii) to which an affected State objects." SEC. 216. ENHANCED PUBLIC PARTICIPATION.
- (a) IN GENERAL.—Section 905 of the Water Resources Development Act of 1986 (33 U.S.C. 2282) is amended by adding at the end the following:
  - "(e) Enhanced Public Participation.
- "(1) IN GENERAL.—The Secretary shall establish procedures to enhance public participation in the development of each feasibility study under subsection (a), including, if appropriate, establishment of a stakeholder advisory group to assist the Secretary with the development of the study.
- "(2) MEMBERSHIP.—If the Secretary provides for the establishment of a stakeholder advisory group under this subsection, the membership of the advisory group shall include balanced representation of social, economic, and environmental interest groups, and such members shall serve on a voluntary, uncompensated basis.
- "(3) LIMITATION.—Procedures established under this subsection shall not delay development of any feasibility study under subsection (a).

#### SEC. 217. MONITORING.

- (a) IN GENERAL.—The Secretary shall conduct a monitoring program of the economic and environmental results of up to 5 eligible projects selected by the Secretary.
- (b) DURATION.—The monitoring of a project selected by the Secretary under this section shall be for a period of not less than 12 years beginning on the date of its selection
- (c) REPORTS.—The Secretary shall transmit to Congress every 3 years a report on the performance of each project selected under this section.
- (d) ELIGIBLE WATER RESOURCES PROJECT DEFINED.—In this section, the term "eligible project" means a water resources project, or separable element thereof-
- (1) for which a contract for physical construction has not been awarded before the date of enactment of this Act:
- (2) that has a total cost of more than \$25,000,000; and
- (3)(A) that has as a benefit-to-cost ratio of less than 1.5 to 1; or
- (B) that has significant environmental benefits or significant environmental mitigation components.
- (e) Costs.—The cost of conducting monitoring under this section shall be a Federal expense.

#### SEC. 218. RECONNAISSANCE STUDIES.

Section 905(b) of the Water Resources Development Act of 1986 (33 U.S.C. 2282(b)) is amended-

- (1) in the second sentence by inserting "environmental impacts" "(including whether a lowing: proposed project is likely to have environmental impacts that cannot be successfully or cost-effectively mitigated)"; and
- (2) by inserting after the second sentence the following: "The Secretary shall not recommend that a feasibility study be conducted for a project based on a reconnaissance study if the Secretary determines that the project is likely to have environmental impacts that cannot be successfully or costeffectively mitigated."

#### SEC. 219. FISH AND WILDLIFE MITIGATION.

(a) DESIGN OF MITIGATION PROJECTS.—Section 906(d) of the Water Resources Develop-

- ed-
- (1) by striking "(1)" and inserting "(A)"; and (2) by striking "(2)" and inserting "(B)";
- (3) by striking "(d) After the date" and in-
- serting the following:
  "(d) MITIGATION PLANS AS PART OF PROJECT Proposals.
  - '(1) IN GENERAL.—After the date"
  - (4) by adding at the end the following:
- (2) DESIGN OF MITIGATION PROJECTS.—The Secretary shall design mitigation projects to reflect contemporary understanding of the science of mitigating the adverse environmental impacts of water resources projects.
- (3) RECOMMENDATION OF PROJECTS.—The Secretary shall not recommend a water resources project unless the Secretary determines that the adverse impacts of the project on aquatic resources and fish and wildlife can be cost-effectively and successfully mitigated."; and
- (5) by aligning the remainder of the text of paragraph (1) (as designated by paragraph (3) of this subsection) with paragraph (2) (as added by paragraph (4) of this subsection).
  - (b) Concurrent Mitigation.
- (1) Investigation.—The Comptroller General shall conduct an investigation of the effectiveness of the concurrent mitigation requirements of section 906 of the Water Resources Development Act of 1986 (33 U.S.C. 2283). In conducting the investigation, the Comptroller General shall determine whether or not there are instances in which less than 50 percent of required mitigation is completed before initiation of project construction and the number of such instances.
- (2) Report.—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall transmit to Congress a report on the results of the investigation.

#### SEC. 220. WETLANDS MITIGATION.

In carrying out a water resources project that involves wetlands mitigation and that has an impact that occurs within the service area of a mitigation bank, the Secretary, to the maximum extent practicable and where appropriate, shall give preference to the use of the mitigation bank if the bank contains sufficient available credits to offset the impact and the bank is approved in accordance with the Federal Guidance for the Establishment, Use and Operation of Mitigation Banks (60 Fed. Reg. 58605 (November 28, 1995)) or other applicable Federal law (including regulations)

#### SEC. 221. CREDIT TOWARD NON-FEDERAL SHARE OF NAVIGATION PROJECTS.

The second sentence of section 101(a)(2) of the Water Resources Development Act of 1986 (33 U.S.C. 2211(a)(2)) is amended-

- (1) by striking "paragraph (3) and" and inserting "paragraph (3),"; and
- (2) by striking "paragraph (4)" and inserting "paragraph (4), and the costs borne by the non-Federal interests in providing additional capacity at dredged material disposal areas, providing community access to the project (including such disposal areas), and meeting applicable beautification requirements'

#### SEC. 222. MAXIMUM PROGRAM EXPENDITURES FOR SMALL FLOOD CONTROL PROJECTS.

Section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s) is amended by striking "\$40,000,000" and inserting "\$50,000,000"

#### SEC. 223. FEASIBILITY STUDIES AND PLANNING, ENGINEERING, AND DESIGN.

Section 105(a)(1)(E) of the Water Resources Development Act of 1986 (33 U.S.C. 2215(a)(1)(E)) is amended by striking "Not more than ½ of the" and inserting "The".

#### SEC. 224. ADMINISTRATIVE COSTS OF LAND CON-VEYANCES.

- (a) IN GENERAL.—Notwithstanding any other provision of law, the administrative costs associated with the conveyance of property to a non-Federal governmental or nonprofit entity shall be limited to not more than 5 percent of the value of the property to be conveyed to such entity if the Secretary determines, based on the entity's ability to pay, that such limitation is necessary to complete the conveyance. The Federal cost associated with such limitation shall not exceed \$70.000 for any one conveyance.
- (b) SPECIFIC CONVEYANCE.—In carrying out subsection (a), the Secretary shall give priority consideration to the conveyance of 10 acres of Wister Lake project land to the Summerfield Cemetery Association, Wister, Oklahoma, authorized by section 563(f) of the Water Resources Development Act of 1999 (113 Stat. 359–360).
- (c) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$150,000 for fiscal years 2001 through 2003.

#### SEC. 225. DAM SAFETY.

- (a) INVENTORY AND ASSESSMENT OF OTHER DAMS.—
- (1) INVENTORY.—The Secretary shall establish an inventory of dams constructed by and using funds made available through the Works Progress Administration, the Works Projects Administration, and the Civilian Conservation Corps.
- (2) ASSESSMENT OF REHABILITATION NEEDS.—In establishing the inventory required under paragraph (1), the Secretary shall also assess the condition of the dams on such inventory and the need for rehabilitation or modification of the dams.
- (b) REPORT TO CONGRESS.—Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report containing the inventory and assessment required by this section.
  - (c) Interim Actions.—
- (1) IN GENERAL.—If the Secretary determines that a dam referred to in subsection (a) presents an imminent and substantial risk to public safety, the Secretary is authorized to carry out measures to prevent or mitigate against such risk.
- (2) EXCLUSION.—The assistance authorized under paragraph (1) shall not be available to dams under the jurisdiction of the Department of the Interior.
- (3) FEDERAL SHARE.—The Federal share of the cost of assistance provided under this subsection shall be 65 percent of such cost.
- (d) COORDINATION.—In carrying out this section, the Secretary shall coordinate with the appropriate State dam safety officials and the Director of the Federal Emergency Management Agency.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section a total of \$25,000,000 for fiscal years beginning after September 30, 1999, of which not more than \$5,000,000 may be expended on any one dam.

## TITLE III—PROJECT-RELATED PROVISIONS

### SEC. 301. NOGALES WASH AND TRIBUTARIES, NOGALES, ARIZONA.

The project for flood control, Nogales Wash and Tributaries, Nogales, Arizona, authorized by section 101(a)(4) of the Water Resources Development Act of 1990 (104 Stat. 4606), and modified by section 303 of the Water Resources Development Act of 1996 (110 Stat. 3711), is further modified to provide that the Federal share of the costs associated with addressing flood control problems

in Nogales, Arizona, arising from floodwater flows originating in Mexico shall be 100 percent.

### SEC. 302. JOHN PAUL HAMMERSCHMIDT VISITOR CENTER, FORT SMITH, ARKANSAS.

Section 103(e) of the Water Resources Development Act of 1992 (106 Stat. 4813) is amended—

- (1) in the subsection heading by striking "LAKE" and inserting "VISITOR CENTER"; and
- (2) in paragraph (1) by striking "at the John Paul Hammerschmidt Lake, Arkansas River, Arkansas" and inserting "on property provided by the city of Fort Smith, Arkansas, in such city".

#### SEC. 303. GREERS FERRY LAKE, ARKANSAS.

The project for flood control, Greers Ferry Lake, Arkansas, authorized by the Act entitled "An Act authorizing the construction of certain public works on rivers and harbors for flood control, and other purposes", approved June 28, 1938 (52 Stat. 1218), is modified to authorize the Secretary to construct water intake facilities for the benefit of Lonoke and White Counties, Arkansas.

#### SEC. 304. TEN- AND FIFTEEN-MILE BAYOUS, AR-KANSAS.

The project for flood control, Saint Francis River Basin, Missouri and Arkansas, authorized by section 204 of the Flood Control Act of 1950 (64 Stat. 172), is modified to expand the boundaries of the project to include Tenand Fifteen-Mile Bayous near West Memphis, Arkansas. Notwithstanding section 103(f) of the Water Resources Development Act of 1986 (100 Stat. 4086), the flood control work at Ten- and Fifteen-Mile Bayous shall not be considered separable elements of the project.

#### SEC. 305. CACHE CREEK BASIN, CALIFORNIA.

The project for flood control, Cache Creek Basin, California, authorized by section 401(a) of the Water Resources Development Act of 1986 (100 Stat. 4112), is modified to direct the Secretary to evaluate the impacts of the new south levee of the Cache Creek settling basin on the city of Woodland's storm drainage system and to mitigate such impacts at Federal expense and a total cost of \$2,800,000.

#### SEC. 306. LARKSPUR FERRY CHANNEL, LARK-SPUR, CALIFORNIA.

The project for navigation, Larkspur Ferry Channel, Larkspur, California, authorized by section 601(d) of the Water Resources Development Act of 1986 (100 Stat. 4148), is modified to direct the Secretary to prepare a limited reevaluation report to determine whether maintenance of the project is technically sound, environmentally acceptable, and economically justified. If the Secretary determines that maintenance of the project is technically sound, environmentally acceptable, and economically justified, the Secretary shall carry out the maintenance.

## SEC. 307. NORCO BLUFFS, RIVERSIDE COUNTY, CALIFORNIA.

Section 101(b)(4) of the Water Resources Development Act of 1996 (110 Stat. 3667) is amended by striking "\$8,600,000" and all that follows through "\$2,150,000" and inserting "\$15,000,000, with an estimated Federal cost of \$11,250,000 and an estimated non-Federal cost of \$3,750,000".

### SEC. 308. SACRAMENTO DEEP WATER SHIP CHANNEL, CALIFORNIA.

The project for navigation, Sacramento Deep Water Ship Channel, California, authorized by section 202(a) of the Water Resources Development Act of 1986 (100 Stat. 4092), is modified to authorize the Secretary to provide credit to the non-Federal interest toward the non-Federal share of the cost of

the project for the value of dredged material from the project that is purchased by public agencies or nonprofit entities for environmental restoration or other beneficial uses.

#### SEC. 309. SACRAMENTO RIVER, GLENN-COLUSA, CALIFORNIA.

The project for flood control. Sacramento River, California, authorized by section 2 of the Act entitled "An Act to provide for the control of the floods of the Mississippi River and of the Sacramento River, California, and for other purposes", approved March 1, 1917 (39 Stat. 949), and modified by section 102 of the Energy and Water Development Appropriations Act, 1990 (103 Stat. 649), section 301(b)(3) of the Water Resources Development Act of 1996 (110 Stat. 3110), title I of the Energy and Water Development Appropriations Act, 1999 (112 Stat. 1841), and section 305 of the Water Resources Development Act of 1999 (113 Stat. 299), is further modified to direct the Secretary to provide the non-Federal interest a credit of up to \$4,000,000 toward the non-Federal share of the cost of the project for direct and indirect costs incurred by the non-Federal interest in carrying out activities (including the provision of lands, easements, rights-of-way, relocations, and dredged material disposal areas) associated with environmental compliance for the project if the Secretary determines that the activities are integral to the project. If any of such costs were incurred by the non-Federal interests before execution of the project cooperation agreement, the Secretary may reimburse the non-Federal interest for such pre-agreement costs instead of providing a credit for such pre-agreement costs to the extent that the amount of the credit exceeds the remaining non-Federal share of the cost of the project.

### SEC. 310. UPPER GUADALUPE RIVER, CALIFORNIA.

The project for flood damage reduction and recreation, Upper Guadalupe River, California, authorized by section 101(a)(9) of the Water Resources Development Act of 1999 (113 Stat. 275), is modified to provide that the non-Federal share of the cost of the project shall be 50 percent, with an estimated Federal cost and non-Federal cost of \$70,164,000 each.

#### SEC. 311. BREVARD COUNTY, FLORIDA.

(a) INCLUSION OF REACH.—The project for shoreline protection, Brevard County, Florida, authorized by section 101(b)(7) of the Water Resources Development Act of 1996 (110 Stat. 3667), is modified to provide that, notwithstanding section 902 of the Water Resources Development Act of 1986, the Secretary may incorporate in the project any or all of the 7.1-mile reach of the project that was deleted from the south reach of the project, as described in paragraph (5) of the Report of the Chief of Engineers, dated December 23, 1996, if the Secretary determines, in coordination with appropriate local, State, and Federal agencies, that the project as modified is technically sound, environmentally acceptable, and economically justified

(b) CLARIFICATION.—Section 310(a) of the Water Resources Development Act of 1999 (113 Stat. 301) is amended by inserting "shoreline associated with the" after "damage to the".

#### SEC. 312. FERNANDINA HARBOR, FLORIDA.

The project for navigation, Fernandina Harbor, Florida, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, completion, and preservation of certain works on rivers and harbors, and for other purposes", approved June 14, 1880 (21 Stat.

186), is modified to authorize the Secretary to realign the access channel in the vicinity of the Fernandina Beach Municipal Marina 100 feet to the west. The cost of the realignment, including acquisition of lands, easements, rights-of-way, and dredged material disposal areas and relocations, shall be a non-Federal expense.

#### SEC. 313. TAMPA HARBOR, FLORIDA.

The project for navigation, Tampa Harbor, Florida, authorized by section 4 of the Rivers and Harbors Act of September 22, 1922 (42 Stat. 1042), is modified to authorize the Secretary to deepen and widen the Alafia Channel in accordance with the plans described in the Draft Feasibility Report, Alafia River, Tampa Harbor, Florida, dated May 2000, at a total cost of \$61,592,000, with an estimated Federal cost of \$39,621,000 and an estimated non-Federal cost of \$21,971,000.

### SEC. 314. EAST SAINT LOUIS AND VICINITY, ILLI-

The project for flood protection, East Saint Louis and vicinity, Illinois (East Side levee and sanitary district), authorized by section 204 of the Flood Control Act of 1965 (79 Stat. 1082), is modified to include ecosystem restoration as a project purpose.

#### SEC. 315. KASKASKIA RIVER, KASKASKIA, ILLI-NOIS.

The project for navigation, Kaskaskia River, Kaskaskia, Illinois, authorized by section 101 of the River and Harbor Act of 1962 (76 Stat. 1175), is modified to include recreation as a project purpose.

#### SEC. 316. WAUKEGAN HARBOR, ILLINOIS.

The project for navigation, Waukegan Harbor, Illinois, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, completion, and preservation of certain works on rivers and harbors, and for other purposes" approved June 14, 1880 (21 Stat. 192), is modified to authorize the Secretary to extend the upstream limit of the project 275 feet to the north at a width of 375 feet if the Secretary determines that the extension is feasible.

#### SEC. 317. CUMBERLAND, KENTUCKY.

Using continuing contracts, the Secretary shall initiate construction of the flood control project, Cumberland, Kentucky, authorized by section 202(a) of the Energy and Water Development Appropriations Act, 1981 (94 Stat. 1339), in accordance with option 4 contained in the draft detailed project report of the Nashville District, dated September 1998, to provide flood protection from the 100year frequency flood event and to share all costs in accordance with section 103 of the Water Resources Development Act of 1986 (33 U.S.C. 2213).

#### SEC. 318. LOCK AND DAM 10, KENTUCKY RIVER, KENTUCKY.

(a) IN GENERAL.—The Secretary may take all necessary measures to further stabilize and renovate Lock and Dam 10 at Boonesborough, Kentucky, with the purpose of extending the design life of the structure by an additional 50 years, at a total cost of \$24,000,000, with an estimated Federal cost of \$12,000,000 and an estimated non-Federal cost of \$12,000,000.

(b) DEFINITIONS.—For purposes of this section, the term "stabilize and renovate" includes the following activities: stabilization of the main dam, auxiliary dam and lock; renovation of all operational aspects of the lock; and elevation of the main and auxiliary

#### SEC. 319. SAINT JOSEPH RIVER, SOUTH BEND, IN-DIANA.

Section 321(a) of the Water Resources Development Act of 1999 (113 Stat. 303) is (1) in the subsection heading by striking

"TOTAL" and inserting "FEDERAL"; and (2) by striking "total" and inserting eral"

#### SEC. 320. MAYFIELD CREEK AND TRIBUTARIES, KENTUCKY.

The project for flood control, Mayfield Creek and tributaries, Kentucky, carried out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s), is modified to provide that the non-Federal interest shall not be required to pay the unpaid balance, including interest, of the non-Federal share of the cost of the project.

#### SEC. 321. AMITE RIVER AND TRIBUTARIES, EAST BATON ROUGE PARISH, LOUISIANA.

The project for flood damage reduction and recreation, Amite River and Tributaries, East Baton Rouge Parish, Louisiana, authorized by section 101(a)(21) of the Water Resources Development Act of 1999 (113 Stat. 277), is modified to provide that cost sharing for the project shall be determined in accordance with section 103(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2213), as in effect on October 11, 1996.

#### SEC. 322. ATCHAFALAYA BASIN FLOODWAY SYS-TEM. LOUISIANA.

The Atchafalava Basin Floodway System project, authorized by section 601 of the Water Resources Development Act of 1986 (100 Stat. 4142), is modified to authorize the Secretary to construct the visitor center and other recreational features identified in the 1982 project feasibility report of the Corps of Engineers at or near the Lake End Park in Morgan City, Louisiana.

#### SEC. 323. ATCHAFALAYA RIVER, BAYOUS CHENE, BOEUF, AND BLACK, LOUISIANA.

The project for navigation Atchafalaya River and Bayous Chene, Boeuf, and Black, Louisiana, authorized by section 101 of the River and Harbor Act of 1968 (82 Stat. 731), is modified to direct the Secretary to investigate the problems associated with the mixture of freshwater, saltwater, and fine river silt in the channel and to develop and carry out a solution to the problem if the Secretary determines that the work is technically sound, environmentally acceptable, and economically justified.

#### SEC. 324. RED RIVER WATERWAY, LOUISIANA.

The project for mitigation of fish and wildlife loses, Red River Waterway, Louisiana, authorized by section 601(a) of the Water Resources Development Act of 1986 (100 Stat. 4142) and modified by section 4(h) of the Water Resources Development Act of 1988 (102 Stat. 4016), section 102(p) of the Water Resources Development Act of 1990 (104 Stat. 4613), and section 301(b)(7) of the Water Resources Development Act of 1996 (110 Stat. 3710), is further modified to authorize the Secretary to purchase mitigation lands in any of the 7 parishes that make up the Red River Waterway District, including the par-Caddo, Bossier, Red River, of Natchitoches, Grant, Rapides, and Avoyelles. SEC. 325. THOMASTON HARBOR, GEORGES RIVER,

#### MAINE.

The project for navigation, Georges River, Maine (Thomaston Harbor), authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved June 3, 1896 (29 Stat. 215), is modified to redesignate the following portion of the project as an anchorage area: The portion lying northwesterly of a line commencing at point N86,946.770, E321,303.830 thence running northeasterly about 203.67 feet to a point N86,994.750, E321,501.770.

#### SEC. 326. BRECKENRIDGE, MINNESOTA.

(a) MAXIMUM FEDERAL EXPENDITURE.—The maximum amount of Federal funds that may be expended for the project for flood control. Breckenridge, Minnesota, carried out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s), shall be \$10,500,000.

(b) REVISION OF PROJECT COOPERATION AGREEMENT.—The Secretary shall revise the project cooperation agreement for the project described in subsection (a) to take into account the change in the Federal participation in the project in accordance with this section.

#### SEC. 327. DULUTH HARBOR, MINNESOTA.

The project for navigation, Duluth Harbor, Minnesota, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577), is modified to include the relocation of Scenic Highway 61, including any required bridge construction.

#### SEC. 328. LITTLE FALLS, MINNESOTA.

The project for clearing, snagging, and sediment removal, East Bank of the Mississippi River, Little Falls, Minnesota, authorized under section 3 of the Act entitled 'An Act authorizing the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved March 2, 1945 (33 U.S.C. 603a), is modified to direct the Secretary to construct the project substantially in accordance with the plans contained in the feasibility report of the District Engineer, dated June 2000

#### SEC. 329. POPLAR ISLAND, MARYLAND.

(a) IN GENERAL.—The project for beneficial use of dredged material at Poplar Island, Maryland, authorized by section 537 of the Water Resources Development Act of 1996 (110 Stat. 3776), is modified to authorize the Secretary to provide the non-Federal interest credit toward cash contributions required-

(1) before and during construction of the project, for the costs of planning, engineering, and design and for construction management work that is performed by the non-Federal interest and that the Secretary determines is necessary to implement the project; and

(2) during construction of the project, for the costs of the construction that the non-Federal interest carries out on behalf of the Secretary and that the Secretary determines is necessary to carry out the project.

(b) REDUCTION.—The private sector performance goals for engineering work of the Baltimore District of the Corps of Engineers shall be reduced by the amount of the credit under paragraph (1).

#### SEC. 330. GREEN BROOK SUB-BASIN, RARITAN RIVER BASIN, NEW JERSEY.

The project for flood control, Green Brook Sub-Basin, Raritan River Basin, New Jersey, authorized by section 401(a) of the Water Resources Development Act of 1986 (100 Stat. 4119), is modified to direct the Secretary to prepare a limited reevaluation report to determine the feasibility of carrying out a nonstructural flood damage reduction project at the Green Brook Sub-Basin. If the Secretary determines that the nonstructural project is feasible, the Secretary may carry out the nonstructural project.

#### SEC. 331. NEW YORK HARBOR AND ADJACENT CHANNELS, PORT JERSEY, NEW JER-SEY.

The project for navigation, New York Harbor and adjacent channels, Port Jersey, New Jersey, authorized by section 202(b) of the Water Resources Development Act of 1986 (100 Stat. 4098) and modified by section 337 of the Water Resources Development Act of

- 1999 (113 Stat. 306–307), is further modified to authorize the Secretary to provide the non-Federal interests credit toward cash contributions required—
- (1) before, during, and after construction for planning, engineering and design, and construction management work that is performed by the non-Federal interests and that the Secretary determines is necessary to implement the project; and
- (2) during and after construction for the costs of construction that the non-Federal interests carry out on behalf of the Secretary and that the Secretary determines is necessary to implement the project.

#### SEC. 332. PASSAIC RIVER BASIN FLOOD MANAGE-MENT, NEW JERSEY.

- (a) REEVALUATION OF FLOODWAY STUDY.—The Secretary shall review the Passaic River Floodway Buyout Study, dated October 1995, conducted as part of the project for flood control, Passaic River Main Stem, New Jersey and New York, authorized by section 101(a)(18) of the Water Resources Development Act of 1990 (104 Stat. 4607–4610), to calculate the benefits of a buyout and environmental restoration using the method used to calculate the benefits of structural projects under section 308(b) of the Water Resources Development Act of 1990 (33 U.S.C. 2318(b)).
- (b) REEVALUATION OF 10-YEAR FLOODPLAIN STUDY.—The Secretary shall review the Passaic River Buyout Study of the 10-year floodplain beyond the floodway of the Central Passaic River Basin, dated September 1995, conducted as part of the Passaic River Main Stem project to calculate the benefits of a buyout and environmental restoration using the method used to calculate the benefits of structural projects under section 308(b) of the Water Resources Development Act of 1990 (33 U.S.C. 2318(b)).
- (c) Preservation of Natural Storage Areas.—
- (1) IN GENERAL.—The Secretary shall reevaluate the acquisition of wetlands in the Central Passaic River Basin for flood protection purposes to supplement the wetland acquisition authorized by section 101(a)(18)(C)(vi) of the Water Resources Development Act of 1990 (104 Stat. 4609).
- (2) PURCHASE.—If the Secretary determines that the acquisition of wetlands evaluated under paragraph (1) is cost-effective, the Secretary shall purchase the wetlands, with the goal of purchasing not more than 8,200 acres.
- (d) STREAMBANK EROSION CONTROL STUDY.—The Secretary shall review relevant reports and conduct a study to determine the feasibility of carrying out a project for environmental restoration, erosion control, and streambank restoration along the Passaic River, from Dundee Dam to Kearny Point, New Jersey.
- (e) Passaic River Flood Management Task Force.—
- (1) ESTABLISHMENT.—The Secretary, in cooperation with the non-Federal interest, shall establish a task force, to be known as the "Passaic River Flood Management Task Force", to provide advice to the Secretary concerning reevaluation of the Passaic River Main Stem project.
- (2) MEMBERSHIP.—The task force shall be composed of 22 members, appointed as follows:
- (A) APPOINTMENT BY SECRETARY.—The Secretary shall appoint 1 member to represent the Corps of Engineers and to provide technical advice to the task force.
- (B) APPOINTMENTS BY GOVERNOR OF NEW JERSEY.—The Governor of New Jersey shall appoint 20 members to the task force, as follows:

- (i) 2 representatives of the New Jersey legislature who are members of different political parties.
- (ii) 3 representatives of the State of New Jersey.
- (iii) 1 representative of each of Bergen, Essex, Morris, and Passaic Counties, New Jersey.
- (iv) 6 representatives of governments of municipalities affected by flooding within the Passaic River Basin.
- (v) 1 representative of the Palisades Interstate Park Commission.
- (vi) 1 representative of the North Jersey District Water Supply Commission.
- (vii) 1 representative of each of—
- (I) the Association of New Jersey Environmental Commissions;
- (II) the Passaic River Coalition; and
- (III) the Sierra Club.
- (C) APPOINTMENT BY GOVERNOR OF NEW YORK.—The Governor of New York shall appoint 1 representative of the State of New York to the task force.
- (3) Meetings.-
- (A) Regular meetings.—The task force shall hold regular meetings.
- (B) OPEN MEETINGS.—The meetings of the task force shall be open to the public.
- (4) ANNUAL REPORT.—The task force shall submit annually to the Secretary and to the non-Federal interest a report describing the achievements of the Passaic River flood management project in preventing flooding and any impediments to completion of the project.
- (5) EXPENDITURE OF FUNDS.—The Secretary may use funds made available to carry out the Passaic River Basin flood management project to pay the administrative expenses of the task force.
- (6) TERMINATION.—The task force shall terminate on the date on which the Passaic River flood management project is completed.
- (f) Acquisition of Lands in the Floodway.—Section 1148 of the Water Resources Development Act of 1986 (100 Stat. 4254; 110 Stat. 3718–3719), is amended by adding at the end the following:
- ⁵(e) Consistency With New Jersey Blue Acres Program.—The Secretary shall carry out this section in a manner that is consistent with the Blue Acres Program of the State of New Jersey."
- (g) STUDY OF HIGHLANDS LAND CONSERVATION.—The Secretary, in cooperation with the Secretary of Agriculture and the State of New Jersey, may study the feasibility of conserving land in the Highlands region of New Jersey and New York to provide additional flood protection for residents of the Passaic River Basin in accordance with section 212 of the Water Resources Development Act of 1999 (33 U.S.C. 2332).
- (h) RESTRICTION ON USE OF FUNDS.—The Secretary shall not obligate any funds to carry out design or construction of the tunnel element of the Passaic River Main Stem project.

### SEC. 333. TIMES BEACH NATURE PRESERVE, BUFFALO, NEW YORK.

The project for improving the quality of the environment, Times Beach Nature Preserve, Buffalo, New York, carried out under section 1135 of the Water Resources Development Act of 1986 (33 U.S.C. 2309a), is modified to include recreation as a project purpose.

#### SEC. 334. GARRISON DAM, NORTH DAKOTA.

The Garrison Dam, North Dakota, feature of the project for flood control, Missouri River Basin, authorized by section 9(a) of the Flood Control Act of December 22, 1944 (58 Stat. 891), is modified to direct the Secretary

to mitigate damage to the water transmission line for Williston, North Dakota, at Federal expense and a total cost of \$3,900,000. SEC. 335. DUCK CREEK, OHIO.

The project for flood control, Duck Creek, Ohio, authorized by section 101(a)(24) of the Water Resources Development Act of 1996 (110 Stat. 3665), is modified to authorize the Secretary carry out the project at a total cost of \$36,323,000, with an estimated Federal cost of \$27,242,000 and an estimated non-Federal cost of \$9.081.000.

#### SEC. 336. ASTORIA, OREGON.

The project for navigation, Columbia River, Astoria, Oregon, authorized by the first section of the Act entitled "An Act authorizing the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved July 24, 1946 (60 Stat. 637), is modified to provide that the Federal share of the cost of relocating causeway and mooring facilities located at the Astoria East Boat Basin shall be 100 percent but shall not exceed \$500.000.

### SEC. 337. NONCONNAH CREEK, TENNESSEE AND MISSISSIPPI.

The project for flood control, Nonconnah Creek, Tennessee and Mississippi, authorized by section 401(a) of the Water Resources Development Act of 1986 (100 Stat. 4124), is modified to authorize the Secretary, if the Secretary determines that it is feasible—

- (1) to extend the area protected by the flood control element of the project upstream approximately 5 miles to Reynolds Road; and
- (2) to extend the hiking and biking trails of the recreational element of the project from 8.8 to 27 miles.

#### SEC. 338. BOWIE COUNTY LEVEE, TEXAS.

The project for flood control, Red River below Denison Dam, Texas and Oklahoma, authorized by section 10 of the Flood Control Act of 1946 (60 Stat. 647), is modified to direct the Secretary to implement the Bowie County levee feature of the project in accordance with the plan described as Alternative B in the draft document entitled "Bowie County Local Flood Protection, Red River, Texas Project Design Memorandum No. 1, Bowie County Levee", dated April 1997. In evaluating and implementing the modification, the Secretary shall allow the non-Federal interest to participate in the financing of the project in accordance with section 903(c) of the Water Resources Development Act of 1986 (100 Stat. 4184) to the extent that the Secretary's evaluation of the modification indicates that applying such section is necessary to implement the modification.

### SEC. 339. SAN ANTONIO CHANNEL, SAN ANTONIO, TEXAS.

The project for flood control, San Antonio channel, Texas, authorized by section 203 of the Flood Control Act of 1954 (68 Stat. 1259) as part of the comprehensive plan for flood protection on the Guadalupe and San Antonio Rivers in Texas, and modified by section 103 of the Water Resources Development Act of 1976 (90 Stat. 2921), is further modified to include environmental restoration and recreation as project purposes.

### SEC. 340. BUCHANAN AND DICKENSON COUNTIES, VIRGINIA.

The project for flood control, Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, authorized by section 202 of the Energy and Water Development Appropriations Act, 1981 (94 Stat. 1339), and modified by section 352 of the Water Resources Development Act of 1996 (110 Stat. 3724–3725), is further modified to direct the

Secretary to determine the ability of Buchanan and Dickenson Counties, Virginia, to pay the non-Federal share of the cost of the project based solely on the criteria specified in section 103(m)(3)(A)(i) of the Water Resources Development Act of 1986 (33 U.S.C. 2213(m)(3)(A)(i)).

### SEC. 341. BUCHANAN, DICKENSON, AND RUSSELL COUNTIES, VIRGINIA.

At the request of the John Flannagan Water Authority, Dickenson County, Virginia, the Secretary may reallocate, under section 322 of the Water Resources Development Act of 1990 (104 Stat. 4643–4644), water supply storage space in the John Flannagan Reservoir, Dickenson County, Virginia, sufficient to yield water withdrawals in amounts not to exceed 3,000,000 gallons per day in order to provide water for the communities in Buchanan, Dickenson, and Russell Counties, Virginia, notwithstanding the limitation in section 322(b) of such Act.

### SEC. 342. SANDBRIDGE BEACH, VIRGINIA BEACH, VIRGINIA.

The project for beach erosion control and hurricane protection, Sandbridge Beach, Virginia Beach, Virginia, authorized by section 101(22) of the Water Resources Development Act of 1992 (106 Stat. 4804), is modified to direct the Secretary to provide 50 years of periodic beach nourishment beginning on the date on which construction of the project was initiated in 1998.

#### SEC. 343. WALLOPS ISLAND, VIRGINIA.

Section 567(c) of the Water Resources Development Act of 1999 (113 Stat. 367) is amended by striking "\$8,000,000" and inserting "\$20,000,000".

#### SEC. 344. COLUMBIA RIVER, WASHINGTON.

- (a) IN GENERAL.—The project for navigation, Columbia River, Washington, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved June 13, 1902 (32 Stat. 369), is modified to direct the Secretary, in the operation and maintenance of the project, to mitigate damages to the shoreline of Puget Island, at a total cost of \$1,000.000.
- (b) ALLOCATION.—The cost of the mitigation shall be allocated as an operation and maintenance cost of the Federal navigation project.

#### SEC. 345. MOUNT ST. HELENS, WASHINGTON.

The project for sediment control, Mount St. Helens, Washington, authorized by chapter IV of title I of the Supplemental Appropriations Act, 1985 (99 Stat. 318–319), is modified to authorize the Secretary to provide such cost-effective, environmentally acceptable measures as are necessary to maintain the flood protection levels for Longview, Kelso, Lexington, and Castle Rock on the Cowlitz River, Washington, identified in the October 1985 report of the Chief of Engineers entitled "Mount St. Helens, Washington, Decision Document (Toutle, Cowlitz, and Columbia Rivers)", printed as House Document number 99–135.

#### SEC. 346. RENTON, WASHINGTON.

- (a) MAXIMUM FEDERAL EXPENDITURE.—The maximum amount of Federal funds that may be expended for the project for flood control, Renton, Washington, carried out under section 205 of the Flood Control Act of 1948, shall be \$5,300,000.
- (b) REVISION OF PROJECT COOPERATION AGREEMENT.—The Secretary shall revise the project cooperation agreement for the project described in subsection (a) to take into account the change in the Federal par-

ticipation in the project in accordance with this section.

(c) REIMBURSEMENT.—The Secretary may reimburse the non-Federal interest for the project described in subsection (a) for costs incurred to mitigate overdredging.

#### SEC. 347. GREENBRIER BASIN, WEST VIRGINIA.

Section 579(c) of the Water Resources Development Act of 1996 (110 Stat. 3790) is amended by striking "\$12,000,000" and inserting "\$73.000.000".

### SEC. 348. LOWER MUD RIVER, MILTON, WEST VIRGINIA.

The project for flood damage reduction, Lower Mud River, Milton, West Virginia, authorized by section 580 of the Water Resources Development Act of 1996 (110 Stat. 3790), is modified to direct the Secretary to carry out the project substantially in accordance with the plans, and subject to the conditions, described in the watershed plan prepared by the Natural Resources Conservation Service for the project, dated 1992.

#### SEC. 349. WATER QUALITY PROJECTS.

Section 307(a) of the Water Resources Development Act of 1992 (106 Stat. 4841) is amended by striking "Jefferson and Orleans Parishes" and inserting "Jefferson, Orleans, and St. Tammany Parishes".

#### SEC. 350. PROJECT REAUTHORIZATIONS.

- (a) IN GENERAL.—Each of the following projects may be carried out by the Secretary, and no construction on any such project may be initiated until the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified, as appropriate:
- NARRAGUAGUS RIVER, MILBRIDGE, MAINE.—Only for the purpose of maintenance as anchorage, those portions of the project navigation, Narraguagus Milbridge, Maine, authorized by section 2 of the Act entitled "An Act making appropriations for the construction, repair, completion, and preservation of certain works on rivers and harbors, and for other purposes", approved June 14, 1880 (21 Stat. 195), and deauthorized under section 101 of the River and Harbor Act of 1962 (75 Stat. 1173), lying adjacent to and outside the limits of the 11-foot and 9-foot channel authorized as part of the project for navigation, authorized by such section 101, as follows:
- (A) An area located east of the 11-foot channel starting at a point with coordinates N248,060.52, E668,236.56, thence running south 36 degrees 20 minutes 52.3 seconds east 1567.242 feet to a point N246,798.21, E669,165.44, thence running north 51 degrees 30 minutes 06.2 seconds west 839.855 feet to a point N247,321.01, E668,508.15, thence running north 20 degrees 09 minutes 58.1 seconds west 787.801 feet to the point of origin.
- (B) An area located west of the 9-foot channel starting at a point with coordinates N249.673.29. E667.537.73, thence running south 20 degrees 09 minutes 57.8 seconds east 1341.616 feet to a point N248,413.92, E668,000.24, thence running south 01 degrees 04 minutes 26.8 seconds east 371.688 feet to a point N248,042.30, E668,007.21, thence running north 22 degrees 21 minutes 20.8 seconds west 474.096 feet to a point N248,480.76, E667,826.88, thence running north 79 degrees 09 minutes 31.6 seconds east 100.872 feet to a point N248,499.73, E667,925.95, thence running north 13 degrees 47 minutes 27.6 seconds west 95.126 feet to a point N248,592.12, E667,903.28, thence running south 79 degrees 09 minutes 31.6 seconds west 115.330 feet to a point N248,570.42, E667,790.01, thence running north 22 degrees 21 minutes 20.8 seconds west 816.885 feet to a point N249,325.91, E667,479.30, thence running north 07 degrees 03 minutes 00.3 seconds west

305.680 feet to a point N249,629.28, E667,441.78, thence running north 65 degrees 21 minutes 33.8 seconds east 105.561 feet to the point of origin.

- (2) CEDAR BAYOU, TEXAS.—The project for navigation, Cedar Bayou, Texas, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved September 19, 1890 (26 Stat. 444), and modified by the first section of the Act entitled "An Act authorizing the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved July 3, 1930 (46 Stat. 926), and deauthorized by section 1002 of the Water Resources Development Act of 1986 (100 Stat. 4219), except that the project is authorized only for construction of a navigation channel 12 feet deep by 125 feet wide from mile -2.5 (at the junction with the Houston Ship Channel) to mile 11.0 on Cedar Bavou.
- (b) REDESIGNATION.—The following portion of the 11-foot channel of the project for navigation. Narraguagus River. Milbridge Maine, referred to in subsection (a)(1) is redesignated as anchorage: starting at a point with coordinates N248.413.92. E668.000.24. thence running south 20 degrees 09 minutes 57.8 seconds east 1325.205 feet to a point N247,169.95, E668,457.09, thence running north 51 degrees 30 minutes 05.7 seconds west 562.33 feet to a point N247,520.00, E668,017.00, thence running north 01 degrees 04 minutes 26.8 seconds west 894.077 feet to the point of origin.

### SEC. 351. CONTINUATION OF PROJECT AUTHORIZATIONS.

- (a) IN GENERAL.—Notwithstanding section 1001(b)(2) of the Water Resources Development Act of 1986 (33 U.S.C. 579a(b)(2)), the following projects shall remain authorized to be carried out by the Secretary:
- (1) The projects for flood control, Sacramento River, California, modified by section 10 of the Flood Control Act of December 22, 1944 (58 Stat. 900–901).
- (2) The project for flood protection, Sacramento River from Chico Landing to Red Bluff, California, authorized by section 203 of the Flood Control Act of 1958 (72 Stat. 314).
- (b) LIMITATION.—A project described in subsection (a) shall not be authorized for construction after the last day of the 7-year period beginning on the date of enactment of this Act, unless, during such period, funds have been obligated for the construction (including planning and design) of the project.

### SEC. 352. DECLARATION OF NONNAVIGABILITY FOR LAKE ERIE, NEW YORK.

- (a) AREA TO BE DECLARED NONNAVIGABLE; PUBLIC INTEREST.—Unless the Secretary finds, after consultation with local and regional public officials (including local and regional public planning organizations), that the proposed projects to be undertaken within the boundaries in the portions of Erie County, New York, described in subsection (b), are not in the public interest then, subject to subsection (c), those portions of such county that were once part of Lake Erie and are now filled are declared to be nonnavigable waters of the United States
- (b) BOUNDARIES.—The portion of Erie County, New York, referred to in subsection (a) are all that tract or parcel of land, situate in the Town of Hamburg and the City of Lackawanna, County of Erie, State of New York, being part of Lots 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, and 25 of the Ogden Gore Tract and part of Lots 23, 24, and 36 of the Buffalo Creek Reservation, Township 10,

Range 8 of the Holland Land Company's Survey and more particularly bounded and described as follows:

Beginning at a point on the westerly highway boundary of Hamburg Turnpike (66.0 feet wide), said point being 547.89 feet South 19°36'46" East from the intersection of the westerly highway boundary of Hamburg Turnpike (66.0 feet wide) and the northerly line of the City of Lackawanna (also being the southerly line of the City of Buffalo); thence South 19°36'46" East along the westerly highway boundary of Hamburg Turnpike (66.0 feet wide) a distance of 628.41 feet; thence along the westerly highway boundary of Hamburg Turnpike as appropriated by the New York State Department of Public Works as shown on Map No. 40-R2, Parcel No. 44 the following 20 courses and distances:

- (1) South  $10^{\circ}00'07''$  East a distance of 164.30 feet:
- (2) South  $18^{\circ}40'45''$  East a distance of 355.00 feet:
- (3) South  $71^{\circ}23'35''$  West a distance of 2.00 feet;
- (4) South  $18^{\circ}40'45''$  East a distance of 223.00 feet;
- (5) South 22°29'36" East a distance of 150.35 feet;
- (6) South  $18^{\circ}40'45''$  East a distance of 512.00 feet:
- (7) South 16°49′53″ East a distance of 260.12 feet;
- (8) South  $18^{\circ}34'20''$  East a distance of 793.00 feet;
- (9) South  $71^{\circ}23'35''$  West a distance of 4.00 feet;
- (10) South  $18^{\circ}13'24''$  East a distance of 132.00 feet;
- (11) North 71°23'35" East a distance of 4.67 feet;
- (12) South 18°30′00″ East a distance of 38.00 feet:
- (13) South 71°23′35″ West a distance of 4.86 feet:
- $(1\dot{4})$  South  $18^{\circ}13'24''$  East a distance of 160.00 feet;
- (15) South 71°23′35″ East a distance of 9.80 feet;
- (16) South  $18^{\circ}36'25''$  East a distance of 159.00 feet:
- (17) South  $71^{\circ}23'35''$  West a distance of 3.89 feet;
- (18) South  $18^{\circ}34'20''$  East a distance of 180.00 feet;
- (19) South 20°56′05″ East a distance of 138.11 feet;
- (20) South 22°53′55″ East a distance of 272.45 feet to a point on the westerly highway boundary of Hamburg Turnpike.

Thence southerly along the westerly highway boundary of Hamburg Turnpike, South 18°36′25″ East, a distance of 2228.31 feet; thence along the westerly highway boundary of Hamburg Turnpike as appropriated by the New York State Department of Public Works as shown on Map No. 27 Parcel No. 31 the following 2 courses and distances:

- (1) South  $16^{\circ}17'25''$  East a distance of 74.93 feet;
- (2) along a curve to the right having a radius of 1004.74 feet; a chord distance of 228.48 feet along a chord bearing of South 08°12′16″ East, a distance of 228.97 feet to a point on the westerly highway boundary of Hamburg Turnpike.

Thence southerly along the westerly highway boundary of Hamburg Turnpike, South 4°35′35″ West a distance of 940.87 feet; thence along the westerly highway boundary of Hamburg Turnpike as appropriated by the New York State Department of Public Works as shown on Map No. 1 Parcel No. 1 and Map

- No. 5 Parcel No. 7 the following 18 courses and distances:
- (1) North  $85^{\circ}24'25''$  West a distance of 1.00 feet:
- (2) South  $7^{\circ}01'17''$  West a distance of 170.15 feet:
- (3) South 5°02′54″ West a distance of 180.00 feet;
  (4) North 85°24′25″ West a distance of 3.00
- feet; (5) South  $5^{\circ}02'54''$  West a distance of 260.00
- feet;
  (6) South 5°09'11" West a distance of 110.00 feet;
- (7) South 0°34'35" West a distance of 110.27
- (8) South  $4^{\circ}50'37''$  West a distance of 220.00 feet:
- (9) South  $4^{\circ}50'37''$  West a distance of 365.00 feet;
- (10) South  $85^{\circ}24'25''$  East a distance of 5.00 feet;
- (11) South  $4^{\circ}06'20''$  West a distance of 67.00 feet:
- $(\dot{12})$  South 6°04'35" West a distance of 248.08 feet;
- (13) South 3°18′27″ West a distance of 52.01 feet;
- (14) South 4°55′58″ West a distance of 133.00 feet:
- (15) North 85°24′25″ West a distance of 1.00 feet;
- (16) South 4°55′58" West a distance of 45.00 feet;
- (17) North 85°24′25″ West a distance of 7.00 feet;
- (18) South  $4^{\circ}56'12''$  West a distance of 90.00 feet.

Thence continuing along the westerly highway boundary of Lake Shore Road as appropriated by the New York State Department of Public Works as shown on Map No. 7, Parcel No. 7 the following 2 courses and distances:

- (1) South  $4^{\circ}55'58''$  West a distance of 127.00 feet;
- (2) South 2°29'25" East a distance of 151.15 feet to a point on the westerly former highway boundary of Lake Shore Road.

Thence southerly along the westerly formerly highway boundary of Lake Shore Road, South 4°35′35″ West a distance of 148.90 feet; thence along the westerly highway boundary of Lake Shore Road as appropriated by the New York State Department of Public Works as shown on Map No. 7, Parcel No. 8 the following 3 courses and distances:

- (1) South 55°34′35″ West a distance of 12.55 feet;
- (2) South  $4^{\circ}35'35''$  West a distance of 118.50 feet;
- (3) South 3°04′00″ West a distance of 62.95 feet to a point on the south line of the lands of South Buffalo Railway Company.

Thence southerly and easterly along the lands of South Buffalo Railway Company the following 5 courses and distances:

- (1) North  $89^{\circ}25'14''$  West a distance of 697.64 feet;
- (2) along a curve to the left having a radius of 645.0 feet; a chord distance of 214.38 feet along a chord bearing of South 40°16'48" West, a distance of 215.38 feet;
- (3) South 30°42′49″ West a distance of 76.96 feet;
- (4) South  $22^{\circ}06'03''$  West a distance of 689.43 feet;
- (5) South 36°09′23″ West a distance of 30.93 feet to the northerly line of the lands of Buffalo Crushed Stone. Inc.

Thence North 87°13′38″ West a distance of 2452.08 feet to the shore line of Lake Erie:

thence northerly along the shore of Lake Erie the following 43 courses and distances:

- (1) North 16°29′53″ West a distance of 267.84 feet;
- (2) North 24°25′00″ West a distance of 195.01 feet;
   (3) North 26°45′00″ West a distance of 250.00
- feet;
  (4) North 31°15′00″ West a distance of 205.00
- feet;
  (5) North 21°35′00″ West a distance of 110.00 feet;
- (6) North 44°00′53" West a distance of 26.38 feet;
- (7) North 33°49′18″ West a distance of 74.86 feet;
- (8) North 34°26′26″ West a distance of 12.00 feet;
- (9) North  $31^{\circ}06'16''$  West a distance of 72.06 feet;
- (10) North 22°35′00″ West a distance of 150.00 feet; (11) North 16°35′00″ West a distance of 420.00
- feet; (12) North 21°10′00″ West a distance of 440.00
- feet; (13) North 17°55′00″ West a distance of 340.00
- feet; (14) North 28°05′00″ West a distance of 375.00
- feet; (15) North 16°25′00″ West a distance of 585.00 feet:
- (16) North 22°10′00″ West a distance of 160.00 feet:
- (17) North 2°46′36″ West a distance of 65.54 feet:
- (18) North  $16^{\circ}01'08''$  West a distance of 70.04 feet;
- (19) North 49°07′00″ West a distance of 79.00 feet;
- (20) North 19°16′00″ West a distance of 425.00 feet:
- (21) North 16°37′00″ West a distance of 285.00 feet;
- (22) North 25°20′00″ West a distance of 360.00 feet; (23) North 33°00′00″ West a distance of 230.00
- feet; (24) North 32°40′00″ West a distance of 310.00
- feet; (25) North 27°10′00″ West a distance of 130.00
- feet; (26) North 23°20′00″ West a distance of 315.00
- feet; (27) North  $18^{\circ}20'04''$  West a distance of 302.92
- feet; (28) North  $20^{\circ}15'48''$  West a distance of 387.18 feet;
- (29) North  $14^{\circ}20'00''$  West a distance of 530.00 feet;
- (30) North  $16^{\circ}40'00''$  West a distance of 260.00 feet;
- $(3\dot{1})$  North 28°35′00″ West a distance of 195.00 feet;
- (32) North 18°30′00″ West a distance of 170.00 feet;
  (33) North 26°30′00″ West a distance of 340.00
- (33) North 26°30'00' West a distance of 340.00 feet; (34) North 32°07′52" West a distance of 232.38
- feet;
  (35) North 30°04′26″ West a distance of 17.96
- feet;
  (36) North 23°19′13″ West a distance of 111.23
- feet; (37) North 7°07′58" West a distance of 63.90
- (38) North 8°11′02″ West a distance of 378.90 feet:
- (39) North  $15^{\circ}01'02''$  West a distance of 190.64 feet;
- (40) North 2°55′00″ West a distance of 170.00 feet:
- (41) North  $6^{\circ}45'00''$  West a distance of 240.00 feet:

- (42) North  $0^{\circ}10'00''$  East a distance of 465.00 feet;
- (43) North 2°00'38" West a distance of 378.58 feet to the northerly line of Letters Patent dated February 21, 1968 and recorded in the Erie County Clerk's Office under Liber 7453 of Deeds at Page 45.

Thence North 71°23'35" East along the north line of the aforementioned Letters Patent a distance of 154.95 feet to the shore line; thence along the shore line the following 6 courses and distances:

- (1) South  $80^{\circ}14'01''$  East a distance of 119.30 feet:
- (2) North  $46^{\circ}15'13''$  East a distance of 47.83 feet:
- (3) North  $59^{\circ}53'02''$  East a distance of 53.32 feet:
- (4) North 38°20′43″ East a distance of 27.31 feet;
- (5) North  $68^{\circ}12'46''$  East a distance of 48.67 feet:
- (6) North 26°11'47" East a distance of 11.48 feet to the northerly line of the aforementioned Letters Patent.

Thence along the northerly line of said Letters Patent, North 71°23′35″ East a distance of 1755.19 feet; thence South 35°27′25″ East a distance of 35.83 feet to a point on the U.S. Harbor Line; thence, North 54°02′35″ East along the U.S. Harbor Line a distance of 200.00 feet; thence continuing along the U.S. Harbor Line, North 50°01′45″ East a distance of 379.54 feet to the westerly line of the lands of Gateway Trade Center, Inc.; thence along the lands of Gateway Trade Center, Inc. the following 27 courses and distances:

- (1) South  $18^{\circ}44'53''$  East a distance of 623.56 feet;
- (2) South 34°33′00″ East a distance of 200.00 feet:
- (3) South 26°18′55″ East a distance of 500.00 feet;
- (4) South 19°06′40″ East a distance of 1074.29 feet;
- (5) South 28°03′18" East a distance of 242.44 feet:
- (6) South  $18^{\circ}38'50''$  East a distance of 1010.95 feet;
- (7) North 71°20′51″ East a distance of 90.42 feet;
- (8) South  $18^{\circ}49'20''$  East a distance of 158.61 feet;
- (9) South  $80^{\circ}55'10''$  East a distance of 45.14 feet;
- (10) South  $18^{\circ}04'45''$  East a distance of 52.13 feet;
- (11) North  $71^{\circ}07'23''$  East a distance of 102.59 feet:
- (12) South  $18^{\circ}41'40''$  East a distance of 63.00 feet;
- $(\dot{13})$  South  $71^{\circ}07'23''$  West a distance of 240.62 feet;
- (14) South 18°38′50″ East a distance of 668.13 feet;
- (15) North 71°28′46″ East a distance of 958.68 feet; (16) North 18°42′31″ West a distance of
- 1001.28 feet; (17) South 71°17′29″ West a distance of 168.48
- feet; (18) North 18°42'31" West a distance of 642.00
- (19) North 71°17′37″ East a distance of 17.30
- (20) North 18°42′31″ West a distance of 574.67
- (21) North 71°17′29″ East a distance of 151.18
- (22) North  $18^{\circ}42^{\prime}31^{\prime\prime}West$  a distance of 1156.43 feet;
- (23) North  $71^{\circ}29'21''$  East a distance of 569.24 feet:

- (24) North  $18^{\circ}30'39''$  West a distance of 314.71 feet:
- (25) North  $70^{\circ}59'36''$  East a distance of 386.47 feet:
- (26) North  $18^{\circ}30'39''$  West a distance of 70.00 feet:
- (27) North 70°59′36″ East a distance of 400.00 feet to the place or point of beginning. Containing 1.142.958 acres.
- (c) LIMITS ON APPLICABILITY; REGULATORY REQUIREMENTS.—The declaration under subsection (a) shall apply to those parts of the areas described in subsection (b) which are filled portions of Lake Erie. Any work on these filled portions is subject to all applicable Federal statutes and regulations, including sections 9 and 10 of the Act of March 3, 1899 (30 Stat. 1151; 33 U.S.C. 401 and 403), commonly known as the River and Harbors Appropriation Act of 1899, section 404 of the Federal Water Pollution Control Act (33 U.S.C. 1344), and the National Environmental Policy Act of 1969.
- (d) EXPIRATION DATE.—If, 20 years from the date of enactment of this Act, any area or part thereof described in subsection (a) of this section is not occupied by permanent structures in accordance with the requirements set out in subsection (c) of this section, or if work in connection with any activity permitted in subsection (c) is not commenced within 5 years after issuance of such permits, then the declaration of nonnavigability for such area or part thereof shall expire.

#### SEC. 353, PROJECT DEAUTHORIZATIONS.

- (a) IN GENERAL.—The following projects or portions of projects are not authorized after the date of enactment of this Act:
- (1) BLACK WARRIOR AND TOMBIGBEE RIVERS, JACKSON, ALABAMA.—The project for navigation, Black Warrior and Tombigbee Rivers, vicinity of Jackson, Alabama, authorized by section 106 of the Energy and Water Development Appropriations Act, 1987 (100 Stat. 3341–199).
- (2) SACRAMENTO DEEP WATER SHIP CHANNEL, CALIFORNIA.—The portion of the project for navigation, Sacramento Deep Water Ship Channel, California, authorized by section 202(a) of the Water Resources Development Act of 1986 (100 Stat. 4092), beginning from the confluence of the Sacramento River and the Barge Canal to a point 3,300 feet west of the William G. Stone Lock western gate (including the William G. Stone Lock and the Bascule Bridge and Barge Canal). All waters within such portion of the project are declared to be nonnavigable waters of the United States solely for purposes of the General Bridge Act of 1946 (33 U.S.C. 525 et seq.) and section 9 of the Act of March 3, 1899 (33 U.S.C. 401), commonly known as the Rivers and Harbors Appropriation Act of 1899.
- (3) BAY ISLAND CHANNEL, QUINCY, ILLINOIS.— The access channel across Bay Island into Quincy Bay at Quincy, Illinois, constructed under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577).
- (4) WARSAW BOAT HARBOR, ILLINOIS.—The portion of the project for navigation, Illinois Waterway, Illinois and Indiana, authorized by section 101 of the River and Harbor Act of 1962 (76 Stat. 1175), known as the Warsaw Boat Harbor. Illinois.
- (5) ROCKPORT HARBOR, ROCKPORT, MASSACHUSETTS.—The following portions of the project for navigation, Rockport Harbor, Massachusetts, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577).
- (A) The portion of the 10-foot harbor channel the boundaries of which begin at a point with coordinates N605,741.948, E838,031.378,

thence running north 36 degrees 04 minutes 40.9 seconds east 123.386 feet to a point N605,642.226, E838,104.039, thence running south 05 degrees 08 minutes 35.1 seconds east 24.223 feet to a point N605,618.100, E838,106.210, thence running north 41 degrees 05 minutes 10.9 seconds west 141.830 feet to a point N605,725.000, E838,013.000, thence running north 47 degrees 19 minutes 04.1 seconds east 25.000 feet to the point of origin.

(B) The portion of the 8-foot north basin entrance channel the boundaries of which begin at a point with coordinates N605,742.699, E837,977.129, thence running south 89 degrees 12 minutes 27.1 seconds east 54.255 feet to a point N605,741.948, E838,031.378, thence running south 47 degrees 19 minutes 04.1 seconds west 25.000 feet to a point N605,725.000, E838,013.000, thence running north 63 degrees 44 minutes 19.0 seconds west 40.000 feet to the point of origin.

(C) The portion of the 8-foot south basin anchorage the boundaries of which begin at a point with coordinates N605.563.770. E838,111.100, thence running south 05 degrees 08 minutes 35.1 seconds east 53.460 feet to a point N605,510.525, E838,115.892, thence running south 52 degrees 10 minutes 55.5 seconds west 145,000 feet to a point N605,421,618. E838,001.348, thence running north 37 degrees 49 minutes 04.5 seconds west feet to a point N605,480,960, E837,955,287, thence running south 64 degrees 52 minutes 33.9 seconds east 33.823 feet to a point N605,466.600, E837,985.910, thence running north 52 degrees 10 minutes 55.5 seconds east 158.476 feet to the point of origin.

(6) SCITUATE HARBOR, MASSACHUSETTS.—The portion of the project for navigation, Scituate Harbor, Massachusetts, authorized by section 101 of the River and Harbor Act of 1954 (68 Stat. 1249), consisting of an 8-foot anchorage basin and described as follows: Beginning at a point with coordinates N438,739.53, E810,354.75, thence running northwesterly about 200.00 feet to coordinates N438,874.02, E810,206.72, thence running northeasterly about 400.00 feet to coordinates N439,170.07, E810,475,70, thence running southwesterly about 447.21 feet to the point of origin.

DULUTH-SUPERIOR HARBOR, MINNESOTA AND WISCONSIN.—The portion of the project navigation. Duluth-Superior Minnesota and Wisconsin, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved June 3, 1896 (29 Stat. 212), known as the 21st Avenue West Channel, beginning at the most southeasterly point of the channel N423074.09, E2871635.43 thence running north-northwest about 1854.83 feet along the easterly limit of the project to a point N424706.69, E2870755.48, thence running northwesterly about 111.07 feet to a point on the northerly limit of the project N424777.27. E2870669.46, thence west-southwest 157.88 feet along the north limit of the project to a point N424703.04, E2870530.38, thence southsoutheast 1978.27 feet to the most southwesterly point N422961.45, E2871469.07, thence northeasterly 201.00 feet along the southern limit of the project to the point of origin.

(8) TREMLEY POINT, NEW JERSEY.—The portion of the Federal navigation channel, New York and New Jersey Channels, New York and New Jersey, authorized by the first section of the Act entitled "An Act authorizing the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved August 30, 1935 (49 Stat. 1028), and modified by section

101 of the River and Harbor Act of 1950 (64 Stat. 164), that consists of a 35-foot deep channel beginning at a point along the western limit of the authorized project, N644100.411, E129256.91, thence running southeasterly about 38.25 feet to a point N644068.885, E129278.565, thence running southerly about 1,163.86 feet to a point N642912.127, E129150.209, thence running southwesterly about 56.89 feet to a point N642864.09, E2129119.725, thence running northerly along the existing western limit of the existing project to the point of origin.

- (9) ANGOLA, NEW YORK.—The project for erosion protection, Angola Water Treatment Plant, Angola, New York, constructed under section 14 of the Flood Control Act of 1946 (33 U.S.C. 701r).
- (10) WALLABOUT CHANNEL, BROOKLYN, NEW YORK.—The portion of the project for navigation, Wallabout Channel, Brooklyn, New York, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved March 3, 1899 (30 Stat. 1124), that is located at the northeast corner of the project and is described as follows:

Beginning at a point forming the northeast corner of the project and designated with the coordinate of North N 682,307.40; East 638,918.10; thence along the following 6 courses and distances:

- (A) South 85 degrees, 44 minutes, 13 seconds East 87.94 feet (coordinate: N 682,300.86 E 639 005 80)
- (B) North 74 degrees, 41 minutes, 30 seconds East 271.54 feet (coordinate: N 682,372.55 E 639,267.71).
- (C) South 4 degrees, 46 minutes, 02 seconds West 170.95 feet (coordinate: N 682,202.20 E 639,253.50).
- (D) South 4 degrees, 46 minutes, 02 seconds West 239.97 feet (coordinate: N 681,963.06 E 639.233.56).
- (E) North 50 degrees, 48 minutes, 26 seconds West 305.48 feet (coordinate: N 682,156.10 E
- (F) North 3 degrees, 33 minutes, 25 seconds East 145.04 feet (coordinate: N 682,300.86 E
- (b) ROCKPORT HARBOR, MASSACHUSETTS.— The project for navigation, Rockport Harbor, Massachusetts, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577), is modified—
- (1) to redesignate a portion of the 8-foot north outer anchorage as part of the 8-foot approach channel to the north inner basin described as follows: the perimeter of the area starts at a point with coordinates N605,792.110, E838,020.009, thence running south 89 degrees 12 minutes 27.1 seconds east 64.794 feet to a point N605,791.214, E838,084.797, thence running south 47 degrees 18 minutes 54.0 seconds west 40.495 feet to a point N605.763.760. E838.055.030. thence running north 68 degrees 26 minutes 49.0 seconds west 43.533 feet to a point N605,779.750, E838,014.540, thence running north 23 degrees 52 minutes 08.4 seconds east 13.514 feet to the point of origin; and
- (2) to realign a portion of the 8-foot north inner basin approach channel by adding an area described as follows: the perimeter of the area starts at a point with coordinates N605,792.637, E837,981.920, thence running south 89 degrees 12 minutes 27.1 seconds east 38.093 feet to a point N605,792.110, E838,020.009, thence running south 23 degrees 52 minutes 08.4 seconds west 13.514 feet to a point N605,779.752, E838,014.541, thence running north 68 degrees 26 minutes 49.0 seconds west 35.074 feet to the point of origin.

#### TITLE IV—STUDIES

#### SEC. 401. STUDIES OF COMPLETED PROJECTS.

The Secretary shall conduct a study under section 216 of the Flood Control Act of 1970 (84 Stat. 1830) of each of the following completed projects:

- (1) ESCAMBIA BAY AND RIVER, FLORIDA.—Project for navigation, Escambia Bay and River, Florida.
- (2) ILLINOIS RIVER, HAVANA, ILLINOIS.—Project for flood control, Illinois River, Havana, Illinois, authorized by section 5 of the Flood Control Act of June 22, 1936 (49 Stat. 1583).
- (3) SPRING LAKE, ILLINOIS.—Project for flood control, Spring Lake, Illinois, authorized by section 5 of the Flood Control Act of June 22, 1936 (49 Stat. 1584).
- (4) PORT ORFORD, OREGON.—Project for flood control, Port Orford, Oregon, authorized by section 301 of River and Harbor Act of 1965 (79 Stat. 1092).

### SEC. 402. WATERSHED AND RIVER BASIN ASSESSMENTS.

Section 729 of the Water Resources Development Act of 1986 (100 Stat. 4164) is amended to read as follows:

## "SEC. 729. WATERSHED AND RIVER BASIN ASSESSMENTS.

- "(a) In General.—The Secretary may assess the water resources needs of interstate river basins and watersheds of the United States. The assessments shall be undertaken in cooperation and coordination with the Departments of the Interior, Agriculture, and Commerce, the Environmental Protection Agency, and other appropriate agencies, and may include an evaluation of ecosystem protection and restoration, flood damage reduction, navigation and port needs, watershed protection, water supply, and drought preparedness.
- "(b) Consultation.—The Secretary shall consult with Federal, tribal, State, interstate, and local governmental entities in carrying out the assessments authorized by this section. In conducting the assessments, the Secretary may accept contributions of services, materials, supplies and cash from Federal, tribal, State, interstate, and local governmental entities where the Secretary determines that such contributions will facilitate completion of the assessments.
- "(c) PRIORITY CONSIDERATION.—The Secretary shall give priority consideration to the following interstate river basins and watersheds:
  - "(1) Delaware River.
  - "(2) Potomac River.
  - "(3) Susquehanna River.
  - "(4) Kentucky River.
- "(d) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$15,000,000.".

### SEC. 403. LOWER MISSISSIPPI RIVER RESOURCE ASSESSMENT.

- (a) ASSESSMENTS.—The Secretary, in cooperation with the Secretary of the Interior and the States of Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri, and Tennessee, shall undertake, at Federal expense, for the Lower Mississippi River system—
- (1) an assessment of information needed for river-related management;
- (2) an assessment of natural resource habitat needs; and
- (3) an assessment of the need for river-related recreation and access.
- (b) PERIOD.—Each assessment referred to in subsection (a) shall be carried out for 2 years.
- (c) REPORTS.—Before the last day of the second year of an assessment under sub-

- section (a), the Secretary, in cooperation with the Secretary of the Interior and the States of Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri, and Tennessee, shall transmit to Congress a report on the results of the assessment to Congress. The report shall contain recommendations for—
- (1) the collection, availability, and use of information needed for river-related management:
- (2) the planning, construction, and evaluation of potential restoration, protection, and enhancement measures to meet identified habitat needs; and
- (3) potential projects to meet identified river access and recreation needs.
- (d) LOWER MISSISSIPPI RIVER SYSTEM DEFINED.—In this section, the term "Lower Mississippi River system" means those river reaches and adjacent floodplains within the Lower Mississippi River alluvial valley having commercial navigation channels on the Mississippi mainstem and tributaries south of Cairo, Illinois, and the Atchafalaya basin floodway system.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated \$1,750,000 to carry out this section.

#### SEC. 404. UPPER MISSISSIPPI RIVER BASIN SEDI-MENT AND NUTRIENT STUDY.

- (a) IN GENERAL.—The Secretary shall conduct, at Federal expense, a study—
- (1) to identify significant sources of sediment and nutrients in the Upper Mississippi River basin; and
- (2) to describe and evaluate the processes by which the sediments and nutrients move, on land and in water, from their sources to the Upper Mississippi River and its tributaries.
- (b) CONSULTATION.—In conducting the study, the Secretary shall consult the Departments of Agriculture and the Interior.
  - (c) COMPONENTS OF THE STUDY.—
- (1) COMPUTER MODELING.—As part of the study, the Secretary shall develop computer models at the subwatershed and basin level to identify and quantify the sources of sediment and nutrients and to examine the effectiveness of alternative management measures
- (2) RESEARCH.—As part of the study, the Secretary shall conduct research to improve understanding of—
- (A) the processes affecting sediment and nutrient (with emphasis on nitrogen and phosphorus) movement;
- (B) the influences of soil type, slope, climate, vegetation cover, and modifications to the stream drainage network on sediment and nutrient losses; and
- (C) river hydrodynamics in relation to sediment and nutrient transformations, retention, and movement.
- (d) USE OF INFORMATION.—Upon request of a Federal agency, the Secretary may provide information to the agency for use in sediment and nutrient reduction programs associated with land use and land management practices.
- (e) REPORT TO CONGRESS.—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study, including findings and recommendations.
- (f) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$10,000,000.

#### SEC. 405. UPPER MISSISSIPPI RIVER COM-PREHENSIVE PLAN.

Section 459(e) of the Water Resources Development Act of 1999 (113 Stat. 333) is amended by striking "date of enactment of this Act" and inserting "first date on which

funds are appropriated to carry out this section.".

#### SEC. 406. OHIO RIVER SYSTEM.

The Secretary may conduct a study of commodity flows on the Ohio River system at Federal expense. The study shall include an analysis of the commodities transported on the Ohio River system, including information on the origins and destinations of these commodities and market trends, both national and international.

#### SEC. 407. EASTERN ARKANSAS.

(a) IN GENERAL.—The Secretary shall reevaluate the recommendations in the Eastern Arkansas Region Comprehensive Study of the Memphis District Engineer, dated August 1990, to determine whether the plans outlined in the study for agricultural water supply from the Little Red River, Arkansas, are feasible and in the Federal interest.

(b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the reevaluation.

#### SEC. 408. RUSSELL, ARKANSAS.

(a) IN GENERAL.—The Secretary shall evaluate the preliminary investigation report for agricultural water supply, Russell, Arkansas, entitled "Preliminary Investigation: Lone Star Management Project", prepared for the Lone Star Water Irrigation District, to determine whether the plans contained in the report are feasible and in the Federal interest.

(b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the evaluation.

### SEC. 409. ESTUDILLO CANAL, SAN LEANDRO, CALIFORNIA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for flood damage reduction along the Estudillo Canal, San Leandro, California.

### SEC. 410. LAGUNA CREEK, FREMONT, CALIFORNIA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for flood damage reduction in the Laguna Creek watershed, Fremont, California.

#### SEC. 411. LAKE MERRITT, OAKLAND, CALIFORNIA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for ecosystem restoration, flood damage reduction, and recreation at Lake Merritt, Oakland, California.

#### SEC. 412. LANCASTER, CALIFORNIA.

(a) IN GENERAL.—The Secretary shall evaluate the report of the city of Lancaster, California, entitled "Master Plan of Drainage", to determine whether the plans contained in the report are feasible and in the Federal interest, including plans relating to drainage corridors located at 52nd Street West, 35th Street West, North Armargosa, and 20th Street East.

(b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the evaluation.

#### SEC. 413. NAPA COUNTY, CALIFORNIA.

(a) STUDY.—The Secretary shall conduct a study to determine the feasibility of carrying out a project to address water supply, water quality, and groundwater problems at Miliken, Sarco, and Tulocay Creeks in Napa County, California.

(b) ÜSE OF EXISTING DATA.—In conducting the study, the Secretary shall use data and information developed by the United States Geological Survey in the report entitled "Geohydrologic Framework and Hydrologic Budget of the Lower Miliken-Sarco-Tulocay Creeks Area of Napa, California".

#### SEC. 414. OCEANSIDE, CALIFORNIA.

The Secretary shall conduct a study, at Federal expense, to determine the feasibility of carrying out a project for shoreline protection at Oceanside, California. In conducting the study, the Secretary shall determine the portion of beach erosion that is the result of a Navy navigation project at Camp Pendleton Harbor, California.

#### SEC. 415. SUISUN MARSH, CALIFORNIA.

The investigation for Suisun Marsh, California, authorized under the Energy and Water Development Appropriations Act, 2000 (Public Law 106-60), shall be limited to evaluating the feasibility of the levee enhancement and managed wetlands protection program for Suisun Marsh, California.

### SEC. 416. LAKE ALLATOONA WATERSHED, GEORGIA.

Section 413 of the Water Resources Development Act of 1999 (113 Stat. 324) is amended to read as follows:

### "SEC. 413. LAKE ALLATOONA WATERSHED, GEORGIA.

"(a) IN GENERAL.—The Secretary shall conduct a comprehensive study of the Lake Allatoona watershed, Georgia, to determine the feasibility of undertaking ecosystem restoration and resource protection measures.

"(b) MATTERS TO BE ADDRESSED.—The study shall address streambank and shore-line erosion, sedimentation, water quality, fish and wildlife habitat degradation and other problems relating to ecosystem restoration and resource protection in the Lake Allatoona watershed.".

#### SEC. 417. CHICAGO RIVER, CHICAGO, ILLINOIS.

(a) IN GENERAL.—The Secretary shall conduct a study to determine the feasibility of carrying out a project for shoreline protection along the Chicago River, Chicago, Illinois.

(b) CONSULTATION.—In conducting the study, the Secretary shall consult, and incorporate information available from, appropriate Federal, State, and local government agencies.

## SEC. 418. CHICAGO SANITARY AND SHIP CANAL SYSTEM, CHICAGO, ILLINOIS.

The Secretary shall conduct a study to determine the advisability of reducing the use of the waters of Lake Michigan to support navigation in the Chicago sanitary and ship canal system, Chicago, Illinois.

#### SEC. 419. LONG LAKE, INDIANA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for environmental restoration and protection, Long Lake, Indiana.

## SEC. 420. BRUSH AND ROCK CREEKS, MISSION HILLS AND FAIRWAY, KANSAS.

(a) IN GENERAL.—The Secretary shall evaluate the preliminary engineering report for the project for flood control, Mission Hills and Fairway, Kansas, entitled "Preliminary Engineering Report: Brush Creek/Rock Creek Drainage Improvements, 66th Street to State Line Road", to determine whether the plans contained in the report are feasible and in the Federal interest.

(b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the evaluation.

#### SEC. 421. COASTAL AREAS OF LOUISIANA.

The Secretary shall conduct a study to determine the feasibility of developing measures to floodproof major hurricane evacuation routes in the coastal areas of Louisiana.

#### SEC. 422. IBERIA PORT, LOUISIANA.

The Secretary shall conduct a study to determine the feasibility of carrying out a

project for navigation, Iberia Port, Louisiana.

#### SEC. 423. LAKE PONTCHARTRAIN SEAWALL, LOU-ISIANA.

Not later than 180 days after the date of enactment of this Act, the Secretary shall complete a post-authorization change report on the project for hurricane-flood protection, Lake Pontchartrain, Louisiana, authorized by section 204 of the Flood Control Act of 1965 (79 Stat. 1077), to incorporate and accomplish structural modifications to the seawall providing protection along the south shore of Lake Pontchartrain from the New Basin Canal on the west to the Inner Harbor Navigation Canal on the east.

#### SEC. 424. LOWER ATCHAFALAYA BASIN, LOU-ISIANA.

As part of the Lower Atchafalaya basin reevaluation study, the Secretary shall determine the feasibility of carrying out a project for flood damage reduction, Stephensville, Louisiana.

### SEC. 425. ST. JOHN THE BAPTIST PARISH, LOUISIANA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for flood damage reduction on the east bank of the Mississippi River in St. John the Baptist Parish, Louisiana.

#### SEC. 426. LAS VEGAS VALLEY, NEVADA.

Section 432(b) of the Water Resources Development Act of 1999 (113 Stat. 327) is amended by inserting "recreation," after "runoff),".

## SEC. 427. SOUTHWEST VALLEY, ALBUQUERQUE, NEW MEXICO.

Section 433 of the Water Resources Development Act of 1999 (113 Stat. 327) is amended

(1) by inserting "(a) In General.—" before "The"; and

(2) by adding at the end the following:

"(b) EVALUATION OF FLOOD DAMAGE REDUC-TION MEASURES.—In conducting the study, the Secretary shall evaluate flood damage reduction measures that would otherwise be excluded from the feasibility analysis based on policies of the Corps of Engineers concerning the frequency of flooding, the drainage area, and the amount of runoff."

### SEC. 428. BUFFALO HARBOR, BUFFALO, NEW YORK.

(a) IN GENERAL.—The Secretary shall conduct a study to determine the advisability and potential impacts of declaring as non-navigable a portion of the channel at Control Point Draw, Buffalo Harbor, Buffalo New York.

(b) CONTENTS.—The study conducted under this section shall include an examination of other options to meet intermodal transportation needs in the area.

## SEC. 429. HUDSON RIVER, MANHATTAN, NEW YORK.

(a) IN GENERAL.—The Secretary shall conduct a study to determine the feasibility of establishing a Hudson River Park in Manhattan, New York City, New York. The study shall address the issues of shoreline protection, environmental protection and restoration, recreation, waterfront access, and open space for the area between Battery Place and West 59th Street.

(b) CONSULTATION.—In conducting the study under subsection (a), the Secretary shall consult the Hudson River Park Trust.

(c) REPORT.—Not later than 1 year after the date of enactment of this section, the Secretary shall transmit to Congress a report on the result of the study, including a master plan for the park.

### SEC. 430. JAMESVILLE RESERVOIR, ONONDAGA COUNTY, NEW YORK.

The Secretary shall conduct a study to determine the feasibility of carrying out a

project for aquatic ecosystem restoration, flood damage reduction, and water quality, Jamesville Reservoir, Onondaga County, New York.

#### SEC. 431. STEUBENVIILLE, OHIO.

The Secretary shall conduct a study to determine the feasibility of developing a public port along the Ohio River in the vicinity of Steubenville, Ohio.

#### SEC. 432. GRAND LAKE, OKLAHOMA.

Section 560(a) of the Water Resources Development Act of 1996 (110 Stat. 3783) is amended—

- (1) by striking "date of enactment of this Act" and inserting "date of enactment of the Water Resources Development Act of 2000"; and
- (2) by inserting "and Miami" after "Pensacola Dam".

#### SEC. 433. COLUMBIA SLOUGH, OREGON.

Not later than 180 days after the date of enactment of this Act, the Secretary shall complete under section 1135 of the Water Resource Development Act of 1986 (33 U.S.C. 2309a) a feasibility study for the ecosystem restoration project at Columbia Slough, Oregon. If the Secretary determines that the project is feasible, the Secretary may carry out the project on an expedited basis under such section.

### SEC. 434. REEDY RIVER, GREENVILLE, SOUTH CAROLINA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for aquatic ecosystem restoration, flood damage reduction, and streambank stabilization on the Reedy River, Cleveland Park West, Greenville, South Carolina.

#### SEC. 435. GERMANTOWN, TENNESSEE.

- (a) IN GENERAL.—The Secretary shall conduct a study to determine the feasibility of carrying out a project for flood control and related purposes along Miller Farms Ditch, Howard Road Drainage, and Wolf River Lateral D, Germantown, Tennessee.
  - (b) Cost Sharing.—The Secretary—
- (1) shall credit toward the non-Federal share of the costs of the feasibility study the value of the in-kind services provided by the non-Federal interests relating to the planning, engineering, and design of the project, whether carried out before or after execution of the feasibility study cost-sharing agreement if the Secretary determines the work is necessary for completion of the study; and
- (2) for the purposes of paragraph (1), shall consider the feasibility study to be conducted as part of the Memphis Metro Tennessee and Mississippi study authorized by resolution of the Committee on Transportation and Infrastructure, dated March 7, 1996
- (c) LIMITATION.—The Secretary may not reject the project under the feasibility study based solely on a minimum amount of stream runoff.

### SEC. 436. HOUSTON SHIP CHANNEL, GALVESTON, TEXAS.

The Secretary shall conduct a study to determine the feasibility of constructing barge lanes adjacent to the Houston Ship Channel from Redfish Reef to Morgan Point in Galveston, Texas.

#### SEC. 437. PARK CITY, UTAH.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for water supply, Park City, Utah.

#### SEC. 438. MILWAUKEE, WISCONSIN.

(a) IN GENERAL.—The Secretary shall evaluate the report for the project for flood damage reduction and environmental restoration, Milwaukee, Wisconsin, entitled "Interim Executive Summary: Menominee

River Flood Management Plan', dated September 1999, to determine whether the plans contained in the report are cost-effective, technically sound, environmentally acceptable, and in the Federal interest.

(b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the evaluation

#### SEC. 439. UPPER DES PLAINES RIVER AND TRIBU-TARIES, ILLINOIS AND WISCONSIN.

Section 419 of the Water Resources Development Act of 1999 (113 Stat. 324-325) is amended by adding at the end the following:

"(d) CREDIT.—The Secretary shall provide the non-Federal interest credit toward the non-Federal share of the cost of the study for work performed by the non-Federal interest before the date of the study's feasibility cost-share agreement if the Secretary determines that the work is integral to the study."

## TITLE V—MISCELLANEOUS PROVISIONS SEC. 501. BRIDGEPORT, ALABAMA.

- (a) DETERMINATION.—The Secretary shall review the construction of a channel performed by the non-Federal interest at the project for navigation, Tennessee River, Bridgeport, Alabama, to determine the Federal navigation interest in such work.
- (b) REIMBURSEMENT.—If the Secretary determines under subsection (a) that the work performed by the non-Federal interest is consistent with the Federal navigation interest, the Secretary shall reimburse the non-Federal interest an amount equal to the Federal share of the cost of construction of the channel.

#### SEC. 502. DUCK RIVER, CULLMAN, ALABAMA.

The Secretary shall provide technical assistance to the city of Cullman, Alabama, in the management of construction contracts for the reservoir project on the Duck River.

#### SEC. 503. SEWARD, ALASKA.

The Secretary shall carry out, on an emergency one-time basis, necessary repairs of the Lowell Creek Tunnel in Seward, Alaska, at Federal expense and a total cost of \$3,000,000.

### SEC. 504. AUGUSTA AND DEVALLS BLUFF, ARKANSAS.

- (a) IN GENERAL.—The Secretary may operate, maintain, and rehabilitate 37 miles of levees in and around Augusta and Devalls Bluff, Arkansas.
- (b) REIMBURSEMENT.—After incurring any cost for operation, maintenance, or rehabilitation under subsection (a), the Secretary may seek reimbursement from the Secretary of the Interior of an amount equal to the portion of such cost that the Secretary determines is a benefit to a Federal wildlife refuge.

#### SEC. 505. BEAVER LAKE, ARKANSAS.

The contract price for additional storage for the Carroll-Boone Water District beyond that which is provided for in section 521 of the Water Resources Development Act of 1999 (113 Stat. 345) shall be based on the original construction cost of Beaver Lake and adjusted to the 2000 price level net of inflation between the date of initiation of construction and the date of enactment of this Act.

# SEC. 506. McCLELLAN-KERR ARKANSAS RIVER NAVIGATION SYSTEM, ARKANSAS AND OKLAHOMA.

Taking into account the need to realize the total economic potential of the McClellan-Kerr Arkansas River navigation system, the Secretary shall expedite completion of the Arkansas River navigation study, including the feasibility of increasing the authorized channel from 9 feet to 12 feet and, if justi-

fied, proceed directly to project preconstruction engineering and design.

#### SEC. 507. CALFED BAY DELTA PROGRAM ASSIST-ANCE, CALIFORNIA.

- (a) IN GENERAL.—The Secretary may participate with appropriate Federal and State agencies in planning and management activities associated with the CALFED Bay Delta Program (in this section referred to as the "Program") and shall, to the maximum extent practicable and in accordance with all applicable laws, integrate the activities of the Corps of Engineers in the San Joaquin and Sacramento River basins with the long-term goals of the Program.
- (b) COOPERATIVE ACTIVITIES.—In carrying out this section, the Secretary—
- (1) may accept and expend funds from other Federal agencies and from public, private, and non-profit entities to carry out ecosystem restoration projects and activities associated with the Program; and
- (2) may enter into contracts, cooperative research and development agreements, and cooperative agreements, with Federal and public, private, and non-profit entities to carry out such projects and activities.
- (c) GEOGRAPHIC SCOPE.—For the purposes of the participation of the Secretary under this section, the geographic scope of the Program shall be the San Francisco Bay and the Sacramento-San Joaquin Delta Estuary and their watershed (also known as the "Bay-Delta Estuary"), as identified in the agreement entitled the "Framework Agreement Between the Governor's Water Policy Council of the State of California and the Federal Ecosystem Directorate".
- (d) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$5,000,000 for fiscal years 2002 through 2005.

#### SEC. 508. CLEAR LAKE BASIN, CALIFORNIA.

Amounts made available to the Secretary by the Energy and Water Appropriations Act, 2000 (113 Stat. 483 et seq.) for the project for aquatic ecosystem restoration, Clear Lake basin, California, to be carried out under section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2330), may only be used for the wetlands restoration and creation elements of the project.

### SEC. 509. CONTRA COSTA CANAL, OAKLEY AND KNIGHTSEN, CALIFORNIA.

The Secretary shall carry out a project for flood damage reduction under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s) at the Contra Costa Canal, Oakley and Knightsen, California, if the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified.

#### SEC. 510. HUNTINGTON BEACH, CALIFORNIA.

The Secretary shall carry out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s) a project for flood damage reduction in Huntington Beach, California, if the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified.

## SEC. 511. MALLARD SLOUGH, PITTSBURG, CALIFORNIA.

The Secretary shall carry out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s) a project for flood damage reduction in Mallard Slough, Pittsburg, California, if the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified.

### SEC. 512. PENN MINE, CALAVERAS COUNTY, CALIFORNIA.

(a) IN GENERAL.—The Secretary shall reimburse the non-Federal interest for the

project for aquatic ecosystem restoration, Penn Mine, Calaveras County, California, carried out under section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2330), \$4,100,000 for the Federal share of costs incurred by the non-Federal interest for work carried out by the non-Federal interest for the project.

(b) SOURCE OF FUNDING.—Reimbursement under subsection (a) shall be from amounts appropriated before the date of enactment of this Act for the project described in subsection (a).

#### SEC. 513. PORT OF SAN FRANCISCO, CALIFORNIA.

- (a) EMERGENCY MEASURES.—The Secretary shall carry out, on an emergency basis, measures to address health, safety, and environmental risks posed by floatables and floating debris originating from Piers 24 and 64 in the Port of San Francisco, California, by removing such floatables and debris.
- (b) STUDY.—The Secretary shall conduct a study to determine the risk to navigation posed by floatables and floating debris originating from Piers 24 and 64 in the Port of San Francisco, California, and the cost of removing such floatables and debris.
- (c)  $\overline{\text{FUNDING}}$ .—There is authorized to be appropriated \$3,000,000 to carry out this section.

#### SEC. 514. SAN GABRIEL BASIN, CALIFORNIA.

- (a) SAN GABRIEL BASIN RESTORATION.—
- (1) ESTABLISHMENT OF FUND.—There shall be established within the Treasury of the United States an interest bearing account to be known as the San Gabriel Basin Restoration Fund (in this section referred to as the "Restoration Fund").
- (2) ADMINISTRATION OF FUND.—The Restoration Fund shall be administered by the Secretary, in cooperation with the San Gabriel Basin Water Quality Authority or its successor agency.
  - (3) Purposes of fund.—
- (A) IN GENERAL.—Subject to subparagraph (B), the amounts in the Restoration Fund, including interest accrued, shall be utilized by the Secretary—
- (i) to design and construct water quality projects to be administered by the San Gabriel Basin Water Quality Authority and the Central Basin Water Quality Project to be administered by the Central Basin Municipal Water District: and
- (ii) to operate and maintain any project constructed under this section for such period as the Secretary determines, but not to exceed 10 years, following the initial date of operation of the project.
- (B) Cost-sharing Limitation.—The Secretary may not obligate any funds appropriated to the Restoration Fund in a fiscal year until the Secretary has deposited in the Fund an amount provided by non-Federal interests sufficient to ensure that at least 35 percent of any funds obligated by the Secretary are from funds provided to the Secretary by the non-Federal interests. The San Gabriel Basin Water Quality Authority shall be responsible for providing the non-Federal amount required by the preceding sentence. The State of California, local government agencies, and private entities may provide all or any portion of such amount.
- (b) COMPLIANCE WITH APPLICABLE LAW.—In carrying out the activities described in this section, the Secretary shall comply with any applicable Federal and State laws.
- (c) RELATIONSHIP TO OTHER ACTIVITIES.— Nothing in this section shall be construed to affect other Federal or State authorities that are being used or may be used to facilitate the cleanup and protection of the San Gabriel and Central groundwater basins. In

carrying out the activities described in this section, the Secretary shall integrate such activities with ongoing Federal and State projects and activities. None of the funds made available for such activities pursuant to this section shall be counted against any Federal authorization ceiling established for any previously authorized Federal projects or activities

- (d) AUTHORIZATION OF APPROPRIATIONS.—
- (1) IN GENERAL.—There is authorized to be appropriated to the Restoration Fund established under subsection (a) \$85,000,000. Such funds shall remain available until expended.
- (2) SET-ASIDE.—Of the amounts appropriated under paragraph (1), no more than \$10,000,000 shall be available to carry out the Central Basin Water Quality Project.
- (e) ADJUSTMENT.—Of the \$25,000,000 made available for San Gabriel Basin Groundwater Restoration, California, under the heading "Construction, General" in title I of the Energy and Water Development Appropriations Act. 2001—
- (1) \$2,000,000 shall be available only for studies and other investigative activities and planning and design of projects determined by the Secretary to offer a long-term solution to the problem of groundwater contamination caused by perchlorates at sites located in the city of Santa Clarita, California; and
- (2) \$23,000,000 shall be deposited in the Restoration Fund, of which \$4,000,000 shall be used for remediation in the Central Basin, California.

#### SEC, 515, STOCKTON, CALIFORNIA.

The Secretary shall evaluate the feasibility of the Lower Mosher Slough element and the levee extensions on the Upper Calaveras River element of the project for flood control, Stockton Metropolitan Area, California, carried out under section 211(f)(3) of the Water Resources Development Act of 1996 (110 Stat. 3683), to determine the eligibility of such elements for reimbursement under section 211 of such Act (33 U.S.C. 701b-13). If the Secretary determines that such elements are technically sound, environmentally acceptable, and economically justified, the Secretary shall reimburse under section 211 of such Act the non-Federal interest for the Federal share of the cost of such elements.

#### SEC. 516. PORT EVERGLADES, FLORIDA.

Notwithstanding the absence of a project cooperation agreement, the Secretary shall reimburse the non-Federal interest for the project for navigation, Port Everglades Harbor, Florida, \$15,003,000 for the Federal share of costs incurred by the non-Federal interest in carrying out the project and determined by the Secretary to be eligible for reimbursement under the limited reevaluation report of the Corps of Engineers, dated April 1998.

## SEC. 517. FLORIDA KEYS WATER QUALITY IMPROVEMENTS.

- (a) IN GENERAL.—In coordination with the Florida Keys Aqueduct Authority, appropriate agencies of municipalities of Monroe County, Florida, and other appropriate public agencies of the State of Florida or Monroe County, the Secretary may provide technical and financial assistance to carry out projects for the planning, design, and construction of treatment works to improve water quality in the Florida Keys National Marine Sanctuary.
- (b) CRITERIA FOR PROJECTS.—Before entering into a cooperation agreement to provide assistance with respect to a project under this section, the Secretary shall ensure that

- (1) the non-Federal sponsor has completed adequate planning and design activities, as applicable;
- (2) the non-Federal sponsor has completed a financial plan identifying sources of non-Federal funding for the project;
- (3) the project complies with-
- (A) applicable growth management ordinances of Monroe County, Florida;
- (B) applicable agreements between Monroe County, Florida, and the State of Florida to manage growth in Monroe County, Florida; and
- (C) applicable water quality standards; and (4) the project is consistent with the master wastewater and stormwater plans for Monroe County, Florida.
- (c) CONSIDERATION.—In selecting projects under subsection (a), the Secretary shall consider whether a project will have substantial water quality benefits relative to other projects under consideration.
- (d) CONSULTATION.—In carrying out this section, the Secretary shall consult with—
- (1) the Water Quality Steering Committee established under section 8(d)(2)(A) of the Florida Keys National Marine Sanctuary and Protection Act (106 Stat. 5054):
- (2) the South Florida Ecosystem Restoration Task Force established by section 528(f) of the Water Resources Development Act of 1996 (110 Stat. 3771–3773);
- (3) the Commission on the Everglades established by executive order of the Governor of the State of Florida; and
- (4) other appropriate State and local government officials.
- (e) Non-Federal Share.—The non-Federal share of the cost of a project carried out under this section shall not be less than 35 percent.
- (f) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$100,000,000. Such sums shall remain available until expended.

### SEC. 518. BALLARD'S ISLAND, LASALLE COUNTY, ILLINOIS.

The Secretary may provide the non-Federal interest for the project for the improvement of the quality of the environment, Ballard's Island, LaSalle County, Illinois, carried out under section 1135 of the Water Resources Development Act of 1986 (33 U.S.C 2309a), credit toward the non-Federal share of the cost of the project for work performed by the non-Federal interest after July 1, 1999, if the Secretary determines that the work is integral to the project.

#### SEC. 519. LAKE MICHIGAN DIVERSION, ILLINOIS.

Section 1142(b) of the Water Resources Development Act of 1986 (110 Stat. 4253; 113 Stat. 339) is amended by inserting after "2003" the following: "and \$800,000 for each fiscal year beginning after September 30, 2003.".

#### SEC. 520. KOONTZ LAKE, INDIANA.

The Secretary shall provide the non-Federal interest for the project for aquatic ecosystem restoration, Koontz Lake, Indiana, carried out under section 206 of the Water Resources Development Act of 1996 (22 U.S.C. 2330), credit toward the non-Federal share of the cost of the project for work performed by the non-Federal interest before the date of execution of the project cooperation agreement if the Secretary determines that the work is integral to the project.

#### SEC. 521. CAMPBELLSVILLE LAKE, KENTUCKY.

The Secretary shall repair the retaining wall and dam at Campbellsville Lake, Kentucky, to protect the public road on top of the dam at Federal expense and a total cost of \$200,000.

### SEC. 522. WEST VIEW SHORES, CECIL COUNTY, MARYLAND.

Not later than 1 year after the date of enactment of this Act, the Secretary shall carry out an investigation of the contamination of the well system in West View Shores, Cecil County, Maryland. If the Secretary determines that a disposal site for a Federal navigation project has contributed to the contamination of the well system, the Secretary may provide alternative water supplies, including replacement of wells, at Federal expense.

#### SEC. 523. CONSERVATION OF FISH AND WILD-LIFE, CHESAPEAKE BAY, MARYLAND AND VIRGINIA.

Section 704(b) of the Water Resources Development Act of 1986 (33 U.S.C. 2263(b)) is amended by adding at the end the following: "In addition, there is authorized to be appropriated \$20,000,000 to carry out paragraph (4).".

### SEC. 524. MUDDY RIVER, BROOKLINE AND BOSTON, MASSACHUSETTS.

The Secretary shall carry out the project for flood damage reduction and environmental restoration, Muddy River, Brookline and Boston, Massachusetts, substantially in accordance with the plans, and subject to the conditions, described in the draft evaluation report of the New England District Engineer entitled "Phase I Muddy River Master Plan", dated June 2000.

### SEC. 525. SOO LOCKS, SAULT STE. MARIE, MICHIGAN.

The Secretary may not require a cargo vessel equipped with bow thrusters and friction winches that is transiting the Soo Locks in Sault Ste. Marie, Michigan, to provide more than 2 crew members to serve as line handlers on the pier of a lock, except in adverse weather conditions or if there is a mechanical failure on the vessel.

### SEC. 526. DULUTH, MINNESOTA, ALTERNATIVE TECHNOLOGY PROJECT.

- (a) PROJECT AUTHORIZATION.—Section 541(a) of the Water Resources Development Act of 1996 (110 Stat. 3777) is amended—
- (1) by striking "implement" and inserting "conduct full scale demonstrations of"; and
- (2) by inserting before the period the following: ", including technologies evaluated for the New York/New Jersey Harbor under section 405 of the Water Resources Development Act of 1992 (33 U.S.C. 2239 note; 106 Stat. 4863)".
- (b) AUTHORIZATION OF APPROPRIATIONS.—Section 541(b) of such Act is amended by striking "\$1,000,000" and inserting "\$3,000,000".

#### SEC. 527. MINNEAPOLIS, MINNESOTA.

- (a) IN GENERAL.—The Secretary, in cooperation with the State of Minnesota, shall design and construct the project for environmental restoration and recreation, Minneapolis, Minnesota, substantially in accordance with the plans described in the report entitled "Feasibility Study for Mississippi Whitewater Park, Minneapolis, Minnesota", prepared for the Minnesota department of natural resources, dated June 30, 1999.
  - (b) Cost Sharing.-
- (1) IN GENERAL.—The non-Federal share of the cost of the project shall be determined in accordance with title I of the Water Resources Development Act of 1986 (33 U.S.C. 2211 et seq.).
- (2) LANDS, EASEMENTS, AND RIGHTS-OF-WAY.—The non-Federal interest shall provide all lands, easements, rights-of-way, relocations, and dredged material disposal areas necessary for construction of the project and shall receive credit for the cost of providing such lands, easements, rights-of-way, reloca-

tions, and dredged material disposal areas toward the non-Federal share of the cost of the project.

- (3) OPERATION, MAINTENANCE, REPAIR, REHABILITATION, AND REPLACEMENT.—The operation, maintenance, repair, rehabilitation, and replacement of the project shall be a non-Federal responsibility.
- (4) CREDIT FOR NON-FEDERAL WORK.—The non-Federal interest shall receive credit toward the non-Federal share of the cost of the project for work performed by the non-Federal interest before the date of execution of the project cooperation agreement if the Secretary determines that the work is integral to the project.
- (c) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated \$10,000,000 to carry out this section.

#### SEC. 528. ST. LOUIS COUNTY, MINNESOTA.

The Secretary shall carry out under section 204 of the Water Resources Development Act of 1992 (33 U.S.C. 2326) a project in St. Louis County, Minnesota, by making beneficial use of dredged material from a Federal navigation project.

#### SEC. 529. WILD RICE RIVER, MINNESOTA.

The Secretary shall prepare a general re-evaluation report on the project for flood control, Wild Rice River, Minnesota, authorized by section 201 of the Flood Control Act of 1970 (84 Stat. 1825), and, if the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified, shall carry out the project. In carrying out the reevaluation, the Secretary shall include river dredging as a component of the study.

### SEC. 530. COASTAL MISSISSIPPI WETLANDS RESTORATION PROJECTS.

- (a) IN GENERAL.—In order to further the purposes of section 204 of the Water Resources Development Act of 1992 (33 U.S.C. 2326) and section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2330), the Secretary shall participate in restoration projects for critical coastal wetlands and coastal barrier islands in the State of Mississippi that will produce, consistent with existing Federal programs, projects, and activities, immediate and substantial restoration, preservation, and ecosystem protection benefits, including the beneficial use of dredged material if such use is a cost-effective means of disposal of such material.
- (b) PROJECT SELECTION.—The Secretary, in coordination with other Federal, tribal, State, and local agencies, may identify and implement projects described in subsection (a) after entering into an agreement with an appropriate non-Federal interest in accordance with this section.
- (c) Cost Sharing.—Before implementing any project under this section, the Secretary shall enter into a binding agreement with the non-Federal interests. The agreement shall provide that the non-Federal responsibility for the project shall be as follows:
- (1) To acquire any lands, easements, rights-of-way, relocations, and dredged material disposal areas necessary for implementation of the project.
- (2) To hold and save harmless the United States free from claims or damages due to implementation of the project, except for the negligence of the Federal Government or its contractors.
- (3) To pay 35 percent of project costs.
- (d) NONPROFIT ENTITY.—For any project undertaken under this section, a non-Federal interest may include a nonprofit entity with the consent of the affected local government.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$10,000,000.

#### SEC. 531. MISSOURI RIVER VALLEY IMPROVE-MENTS.

- (a) MISSOURI RIVER MITIGATION PROJECT.—The project for mitigation of fish and wild-life losses, Missouri River Bank Stabilization and Navigation Project, Missouri, Kansas, Iowa, and Nebraska authorized by section 601(a) of the Water Resources Development Act of 1986 (100 Stat. 4143) and modified by section 334 of the Water Resources Development Act of 1999 (113 Stat. 306), is further modified to authorize \$200,000,000 for fiscal years 2001 through 2010 to be appropriated to the Secretary for acquisition of 118,650 acres of land and interests in land for the project.
- (b) UPPER MISSOURI RIVER AQUATIC AND RIPARIAN HABITAT MITIGATION PROGRAM.—
  - (1) IN GENERAL —
- (A) STUDY.—The Secretary shall complete a study that analyzes the need for additional measures for mitigation of losses of aquatic and terrestrial habitat from Fort Peck Dam to Sioux City, Iowa, resulting from the operation of the Missouri River Mainstem Reservoir project in the States of Nebraska, South Dakota, North Dakota, and Montana.
- (B) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report describing the results of the study.
- (2) PILOT PROGRAM.—The Secretary, in consultation with the Director of the United States Fish and Wildlife Service and the affected State fish and wildlife agencies, shall develop and administer a pilot mitigation program that—
- (A) involves the experimental releases of warm water from the spillways at Fort Peck Dam during the appropriate spawning periods for native fish;
- (B) involves the monitoring of the response of fish to, and the effectiveness toward the preservation of native fish and wildlife habitat as a result of, such releases; and
- (C) requires the Secretary to provide compensation for any loss of hydropower at Fort Peck Dam resulting from implementation of the pilot program; and
- (D) does not effect a change in the Missouri River Master Water Control Manual.
- (3) Reservoir fish loss study.-
- (A) IN GENERAL.—The Secretary, in consultation with the North Dakota Game and Fish Department and the South Dakota Department of Game, Fish and Parks, shall complete a study to analyze and recommend measures to avoid or reduce the loss of fish, including rainbow smelt, through Garrison Dam in North Dakota and Oahe Dam in South Dakota.
- (B) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report describing the results of the study.
- (4) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated.—
- (A) to complete the study under paragraph (3) 200,000; and
- (B) to carry out the other provisions of this subsection \$1,000,000 for each of fiscal years 2001 through 2010.
- (c) MISSOURI AND MIDDLE MISSISSIPPI RIVERS ENHANCEMENT PROJECT.—Section 514(g) of the Water Resources Development Act of 1999 (113 Stat. 342) is amended to read as follows:
- "(g) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to pay the Federal share of the cost of carrying out activities under this section \$5,000,000 for each of fiscal years 2001 through 2010."

#### SEC. 532. NEW MADRID COUNTY, MISSOURI.

For purposes of determining the non-Federal share for the project for navigation, New

Madrid County Harbor, Missouri, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577), the Secretary shall consider Phases 1 and 2 as described in the report of the District Engineer, dated February 2000, as one project and provide credit to the non-Federal interest toward the non-Federal share of the combined project for work performed by the non-Federal interest on Phase 1 of the project.

#### SEC. 533. PEMISCOT COUNTY, MISSOURI.

The Secretary shall provide the non-Federal interest for the project for navigation, Caruthersville Harbor, Pemiscot County, Missouri, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577), credit toward the non-Federal share of the cost of the project for in-kind work performed by the non-Federal interest after December 1, 1997, if the Secretary determines that the work is integral to the project.

#### SEC. 534. LAS VEGAS, NEVADA.

- (a) DEFINITIONS.—In this section, the following definitions apply:
- (1) COMMITTEE.—The term "Committee" means the Las Vegas Wash Coordinating Committee.
- (2) PLAN.—The term "Plan" means the Las Vegas Wash comprehensive adaptive management plan, developed by the Committee and dated January 20, 2000.
- (3) PROJECT.—The term "Project" means the Las Vegas Wash wetlands restoration and Lake Mead water quality improvement project and includes the programs, features, components, projects, and activities identified in the Plan.
- (b) Participation in Project.—
- (1) In general.—The Secretary, in conjunction with the Administrator of the Environmental Protection Agency, the Secretary of Agriculture, and the Secretary of the Interior and in partnership with the Committee, shall participate in the implementation of the Project to restore wetlands at Las Vegas Wash and to improve water quality in Lake Mead in accordance with the Plan.
  - (2) Cost sharing requirements.
- (A) IN GENERAL.—The non-Federal interests shall pay 35 percent of the cost of any project carried out under this section.
- (B) OPERATION AND MAINTENANCE.non-Federal interests shall be responsible for all costs associated with operating, maintaining, replacing, repairing, and rehabilitating all projects carried out under this section.
- (C) FEDERAL LANDS.—Notwithstanding any other provision of this subsection, the Federal share of the cost of a project carried out under this section on Federal lands shall be 100 percent, including the costs of operation and maintenance.
- (3) AUTHORIZATION OF APPROPRIATIONS.-There is authorized to be appropriated \$10,000,000 to carry out this section.

#### SEC. 535, NEWARK, NEW JERSEY.

- (a) IN GENERAL.—Using authorities under law in effect on the date of enactment of this Act, the Secretary, the Director of the Federal Emergency Management Agency, the Administrator of the Environmental Protection Agency, and the heads of other appropriate Federal agencies shall assist the State of New Jersey in developing and implementing a comprehensive basinwide strategy in the Passaic, Hackensack, Raritan, and Atlantic Coast floodplain areas for coordinated and integrated management of land and water resources to improve water quality, reduce flood hazards, and ensure sustainable economic activity.
- (b) TECHNICAL ASSISTANCE, STAFF, AND FI-NANCIAL SUPPORT.—The heads of the Federal

agencies referred to in subsection (a) may provide technical assistance, staff, and financial support for the development of the floodplain management strategy

- (c) FLEXIBILITY.—The heads of the Federal agencies referred to in subsection (a) shall exercise flexibility to reduce barriers to efficient and effective implementation of the floodplain management strategy.
- (d) RESEARCH.—In coordination with academic and research institutions for support. the Secretary may conduct a study to carry out this section.

### SEC. 536. URBANIZED PEAK FLOOD MANAGE-MENT RESEARCH, NEW JERSEY.

- (a) IN GENERAL.—The Secretary shall develop and implement a research program to evaluate opportunities to manage peak flood flows in urbanized watersheds located in the State of New Jersey.
- (b) SCOPE OF RESEARCH.—The research program authorized by subsection (a) shall be accomplished through the New York District of Corps of Engineers. The research shall include the following:
- (1) Identification of key factors in the development of an urbanized watershed that affect peak flows in the watershed and downstream.
- (2) Development of peak flow management models for 4 to 6 watersheds in urbanized areas with widely differing geology, shapes, and soil types that can be used to determine optimal flow reduction factors for individual watersheds.
- (c) LOCATION.—The activities authorized by this section shall be carried out at the facility authorized by section 103(d) of the Water Resources Development Act of 1992 106 Stat. 4812-4813, which may be located on the campus of the New Jersey Institute of Technology.
- (d) REPORT TO CONGRESS.—The Secretary shall evaluate policy changes in the planning process for flood damage reduction projects based on the results of the research under this section and transmit to Congress a report on such results not later than 3 years after the date of enactment of this Act.
- (e) AUTHORIZATION OF APPROPRIATIONS.-There is authorized to be appropriated to carry out this section \$11,000,000 for fiscal years beginning after September 30, 2000.

#### SEC. 537. BLACK ROCK CANAL, BUFFALO, NEW YORK

The Secretary shall provide technical assistance in support of activities of non-Federal interests related to the dredging of Black Rock Canal in the area between the Ferry Street Overpass and the Peace Bridge Overpass in Buffalo, New York.

#### SEC. 538. HAMBURG, NEW YORK.

The Secretary shall complete the study of a project for shoreline erosion, Old Lake Shore Road, Hamburg, New York, and, if the Secretary determines that the project is feasible, the Secretary shall carry out the project.

### SEC. 539. NEPPERHAN RIVER, YONKERS, NEW

The Secretary shall provide technical assistance to the city of Yonkers, New York, in support of activities relating to the dredging of the Nepperhan River outlet, New York.

#### SEC. 540. ROCHESTER, NEW YORK.

The Secretary shall complete the study of a project for navigation, Rochester Harbor, Rochester, New York, and, if the Secretary determines that the project is feasible, the Secretary shall carry out the project.

#### SEC. 541. UPPER MOHAWK RIVER BASIN, NEW YORK.

(a) IN GENERAL.—The Secretary, in cooperation with the Secretary of Agriculture and the State of New York, shall conduct a study, develop a strategy, and implement a project to reduce flood damages, improve water quality, and create wildlife habitat through wetlands restoration, soil and water conservation practices, nonstructural measures, and other appropriate means in the Upper Mohawk River Basin, at an estimated Federal cost of \$10,000,000

- (b) IMPLEMENTATION OF STRATEGY.—The Secretary shall implement the strategy under this section in cooperation with local landowners and local government. Projects to implement the strategy shall be designed to take advantage of ongoing or planned actions by other agencies, local municipalities, or nonprofit, nongovernmental organizations with expertise in wetlands restoration that would increase the effectiveness or decrease the overall cost of implementing recommended projects and may include the acquisition of wetlands, from willing sellers, that contribute to the Upper Mohawk River basin ecosystem.
- (c) Cooperation Agreements.—In carrying out activities under this section, the Secretary shall enter into cooperation agreements to provide financial assistance to appropriate Federal, State, and local government agencies as well as appropriate nonprofit, nongovernmental organizations with expertise in wetlands restoration, with the consent of the affected local government. Financial assistance provided may include activities for the implementation of wetlands restoration projects and soil and water conservation measures.
- (d) NON-FEDERAL SHARE.—The non-Federal share of the cost of activities carried out under this section shall be 25 percent and may be provided through in-kind services and materials.
- (e) UPPER MOHAWK RIVER BASIN DEFINED. In this section, the term "Upper Mohawk River basin" means the Mohawk River, its tributaries, and associated lands upstream of the confluence of the Mohawk River and Canajoharie Creek. and including Canajoharie Creek, New York.

#### SEC. 542. EASTERN NORTH CAROLINA FLOOD PROTECTION.

- (a) IN GENERAL.—In order to assist the State of North Carolina and local governments in mitigating damages resulting from a major disaster, the Secretary shall carry out flood damage reduction projects in eastern North Carolina by protecting, clearing, and restoring channel dimensions (including removing accumulated snags and other debris) in the following rivers and tributaries:
  - New River and tributaries.
  - (2) White Oak River and tributaries.
  - (3) Neuse River and tributaries.
- (4) Pamlico River and tributaries.(b) Cost Share.—The non-Federal interest for a project under this section shall-
- (1) pay 35 percent of the cost of the project; and
- (2) provide any lands, easements, rights-ofway, relocations, and material disposal areas necessary for implementation of the project.
- (c) CONDITIONS.—The Secretary may not reject a project based solely on a minimum amount of stream runoff.
- (d) Major Disaster Defined.—In this section, the term "major disaster" means a major disaster declared under title IV of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170 et seq.) and includes any major disaster declared before the date of enactment of this Act.
- (e) AUTHORIZATION OF APPROPRIATIONS. There is authorized to be appropriated to carry out this section \$3,000,000 for fiscal years 2001 through 2003.

#### SEC. 543. CUYAHOGA RIVER, OHIO.

- (a) IN GENERAL.—The Secretary shall provide technical assistance to non-Federal interests for an evaluation of the structural integrity of the bulkhead system located along the Cuyahoga River in the vicinity of Cleveland, Ohio, at a total cost of \$500.000.
- (b) EVALUATION.—The evaluation described in subsection (a) shall include design analysis, plans and specifications, and cost estimates for repair or replacement of the bulkhead system.

### SEC. 544. CROWDER POINT, CROWDER, OKLA-HOMA.

At the request of the city of Crowder, Oklahoma, the Secretary shall enter into a long-term lease, not to exceed 99 years, with the city under which the city may develop, operate, and maintain as a public park all or a portion of approximately 260 acres of land known as Crowder Point on Lake Eufaula, Oklahoma. The lease shall include such terms and conditions as the Secretary determines are necessary to protect the interest of the United States and project purposes and shall be made without consideration to the United States.

#### SEC. 545. OKLAHOMA-TRIBAL COMMISSION.

- (a) FINDINGS.—The House of Representatives makes the following findings:
- (1) The unemployment rate in southeastern Oklahoma is 23 percent greater than the national average.
- (2) The per capita income in southeastern Oklahoma is 62 percent of the national average.
- (3) Reflecting the inadequate job opportunities and dwindling resources in poor rural communities, southeastern Oklahoma is experiencing an out-migration of people.
- (4) Water represents a vitally important resource in southeastern Oklahoma. Its abundance offers an opportunity for the residents to benefit from their natural resources.
- (5) Trends as described in paragraphs (1), (2), and (3) are not conducive to local economic development, and efforts to improve the management of water in the region would have a positive outside influence on the local economy, help reverse these trends, and improve the lives of local residents.
- (b) Sense of House of Representatives.—In view of the findings described in subsection (a), and in order to assist communities in southeastern Oklahoma in benefiting from their local resources, it is the sense of the House of Representatives that—
- (1) the State of Oklahoma and the Choctaw Nation of Oklahoma and the Chickasaw Nation, Oklahoma, should establish a Statetribal commission composed equally of representatives of such Nations and residents of the water basins within the boundaries of such Nations for the purpose of administering and distributing from the sale of water any benefits and net revenues to the tribes and local entities within the respective basins:
- (2) any sale of water to entities outside the basins should be consistent with the procedures and requirements established by the commission; and
- (3) if requested, the Secretary should provide technical assistance, as appropriate, to facilitate the efforts of the commission.

#### SEC. 546. COLUMBIA RIVER, OREGON AND WASH-INGTON.

(a) Modeling and Forecasting System.— The Secretary shall develop and implement a modeling and forecasting system for the Columbia River estuary, Oregon and Washington, to provide real-time information on existing and future wave, current, tide, and wind conditions. (b) USE OF CONTRACTS AND GRANTS.—In carrying out this section, the Secretary is encouraged to use contracts, cooperative agreements, and grants with colleges and universities and other non-Federal entities.

#### SEC. 547. JOHN DAY POOL, OREGON AND WASH-INGTON.

- (a) EXTINGUISHMENT OF REVERSIONARY INTERESTS AND USE RESTRICTIONS.—With respect to the lands described in each deed listed in subsection (b)—
- (1) the reversionary interests and the use restrictions relating to port or industrial purposes are extinguished;
- (2) the human habitation or other building structure use restriction is extinguished in each area where the elevation is above the standard project flood elevation; and
- (3) the use of fill material to raise areas above the standard project flood elevation, without increasing the risk of flooding in or outside of the floodplain, is authorized, except in any area constituting wetland for which a permit under section 404 of the Federal Water Pollution Control Act (33 U.S.C. 1344) would be required.

  (b) AFFECTED DEEDS.—The following deeds
- (b) Affected Deeds.—The following deeds are referred to in subsection (a):
- (1) The deeds executed by the United States and bearing Morrow County, Oregon, Auditor's Microfilm Numbers 229 and 16226.
- (2) The deed executed by the United States and bearing Benton County, Washington, Auditor's File Number 601766, but only as that deed applies to the following portion of lands conveyed by that deed:
- A tract of land lying in Section 7, Township 5 north, Range 28 east of the Willamette meridian, Benton County, Washington, said tract being more particularly described as follows:

Commencing at the point of intersection of the centerlines of Plymouth Street and Third Avenue in the First Addition to the Town of Plymouth (according to the duly recorded Plat thereof):

thence westerly along the said centerline of Third Avenue, a distance of 565 feet;

thence south 54° 10′ west, to a point on the west line of Tract 18 of said Addition and the true point of beginning;

thence north, parallel with the west line of said Section 7, to a point on the north line of said Section 7;

thence west along the north line thereof to the northwest corner of said Section 7:

thence south along the west line of said Section 7 to a point on the ordinary high water line of the Columbia River:

thence northeasterly along said high water line to a point on the north and south coordinate line of the Oregon Coordinate System, North Zone, said coordinate line being east 2.291.000 feet:

thence north along said line to a point on the south line of First Avenue of said Addition;

thence westerly along First Avenue to a point on southerly extension of the west line of Tract 18:

thence northerly along said west line of Tract 18 to the point of beginning.

- (3) The deed recorded October 17, 1967, in book 291, page 148, Deed of Records of Umatilla County, Oregon, executed by the United States.
- (c) No Effect on Other Needs.—Nothing in this section affects the remaining rights and interests of the Corps of Engineers for authorized project purposes.

# SEC. 548. LOWER COLUMBIA RIVER AND TILLAMOOK BAY ESTUARY PROGRAM, OREGON AND WASHINGTON.

(a) IN GENERAL.—The Secretary shall conduct studies and ecosystem restoration

projects for the lower Columbia River and Tillamook Bay estuaries, Oregon and Washington.

- (b) USE OF MANAGEMENT PLANS.—
- (1) LOWER COLUMBIA RIVER ESTUARY.-
- (A) IN GENERAL.—In carrying out ecosystem restoration projects under this section, the Secretary shall use as a guide the Lower Columbia River estuary program's comprehensive conservation and management plan developed under section 320 of the Federal Water Pollution Control Act (33 U.S.C. 1330).
- (B) CONSULTATION.—The Secretary shall carry out ecosystem restoration projects under this section for the lower Columbia River estuary in consultation with the States of Oregon and Washington, the Environmental Protection Agency, the United States Fish and Wildlife Service, the National Marine Fisheries Service, and the Forest Service.
- (2) TILLAMOOK BAY ESTUARY.—
- (A) IN GENERAL.—In carrying out ecosystem restoration projects under this section, the Secretary shall use as a guide the Tillamook Bay national estuary project's comprehensive conservation and management plan developed under section 320 of the Federal Water Pollution Control Act (33 U.S.C. 1330).
- (B) Consultation.—The Secretary shall carry out ecosystem restoration projects under this section for the Tillamook Bay estuary in consultation with the State of Oregon, the Environmental Protection Agency, the United States Fish and Wildlife Service, the National Marine Fisheries Service, and the Forest Service.
  - (c) AUTHORIZED ACTIVITIES.—
- (1) IN GENERAL.—In carrying out ecosystem restoration projects under this section, the Secretary shall undertake activities necessary to protect, monitor, and restore fish and wildlife habitat.
- (2) LIMITATIONS.—The Secretary may not carry out any activity under this section that adversely affects—
- (A) the water-related needs of the lower Columbia River estuary or the Tillamook Bay estuary, including navigation, recreation, and water supply needs; or
- (B) private property rights.
  (d) PRIORITY.—In determining the priority of projects to be carried out under this section, the Secretary shall consult with the Implementation Committee of the Lower Columbia River Estuary Program and the Performance Partnership Council of the Tillamook Bay National Estuary Project, and shall consider the recommendations of such entities.
  - (e) Cost-Sharing Requirements.—
- (1) STUDIES.—Studies conducted under this section shall be subject to cost sharing in accordance with section 105 of the Water Resources Development Act of 1986 (33 U.S.C. 2215).
  - (2) ECOSYSTEM RESTORATION PROJECTS.—
- (A) IN GENERAL.—Non-Federal interests shall pay 35 percent of the cost of any ecosystem restoration project carried out under this section.
- (B) ITEMS PROVIDED BY NON-FEDERAL INTERESTS.—Non-Federal interests shall provide all land, easements, rights-of-way, dredged material disposal areas, and relocations necessary for ecosystem restoration projects to be carried out under this section. The value of such land, easements, rights-of-way, dredged material disposal areas, and relocations shall be credited toward the payment required under this paragraph.
- (C) IN-KIND CONTRIBUTIONS.—Not more than 50 percent of the non-Federal share required

under this subsection may be satisfied by the provision of in-kind services.

- (3) OPERATION AND MAINTENANCE.—Non-Federal interests shall be responsible for all costs associated with operating, maintaining, replacing, repairing, and rehabilitating all projects carried out under this section.
- (4) Federal Lands.—Notwithstanding any other provision of this subsection, the Federal share of the cost of a project carried out under this section on Federal lands shall be 100 percent, including costs of operation and maintenance.
- (f) DEFINITIONS.—In this section, the following definitions apply:
- (1) LOWER COLUMBIA RIVER ESTUARY.—The term "lower Columbia River estuary" means those river reaches having navigation channels on the mainstem of the Columbia River in Oregon and Washington west of Bonneville Dam, and the tributaries of such reaches to the extent such tributaries are tidally influenced.
- (2) TILLAMOOK BAY ESTUARY.—The term "Tillamook Bay estuary" means those waters of Tillamook Bay in Oregon and its tributaries that are tidally influenced.
- (g) AUTHORIZATION OF APPROPRIATIONS.-There is authorized to be appropriated to carry out this section \$40,000,000.

#### SEC. 549. SKINNER BUTTE PARK, EUGENE, OR-EGON.

Section 546(b) of the Water Resources Development Act of 1999 (113 Stat. 351) is amended by adding at the end the following: "If the Secretary participates in the project, the Secretary shall carry out a monitoring program for 3 years after construction to evaluate the ecological and engineering effectiveness of the project and its applicability to other sites in the Willamette Valley.

#### SEC, 550, WILLAMETTE RIVER BASIN, OREGON.

Section 547 of the Water Resources Development Act of 1999 (113 Stat. 351-352) is amended by adding at the end the following:

"(d) RESEARCH.—In coordination with academic and research institutions for support, the Secretary may conduct a study to carry out this section."

#### SEC. 551. LACKAWANNA RIVER, PENNSYLVANIA.

- (a) IN GENERAL.—Section 539(a) of the Water Resources Development Act of 1996 (110 Stat. 3776) is amended-
- (1) by striking "and" at the end of paragraph (1)(A);
- (2) by striking the period at the end of paragraph (1)(B) and inserting "; and"; and
- (3) by adding at the end the following:
- "(C) the Lackawanna River, Pennsylvania.".
- (b) AUTHORIZATION OF APPROPRIATIONS.-Section 539(d) of such Act (110 Stat. 3776-3777) is amended-
- (1) by striking "(a)(1)(A) and" and inserting ((a)(1)(A), ((a)(a)); and
- (2) by inserting ", and \$5,000,000 for projects undertaken under subsection (a)(1)(C)" before the period at the end.

#### SEC. 552. PHILADELPHIA, PENNSYLVANIA

- (a) IN GENERAL.—The Secretary shall provide assistance to the Delaware River Port Authority to deepen the Delaware River at Pier 122 in Philadelphia, Pennsylvania,
- (b) AUTHORIZATION OF APPROPRIATIONS.-There is authorized to be appropriated \$1,000,000 to carry out this section.

#### SEC. 553. ACCESS IMPROVEMENTS, RAYSTOWN LAKE, PENNSYLVANIA.

The Commonwealth of Pennsylvania may transfer any unobligated funds made available to the Commonwealth for item number 1278 of the table contained in section 1602 of Public Law 105-178, to the Secretary for access improvements at the Raystown Lake project. Pennsylvania.

#### SEC. 554. UPPER SUSQUEHANNA RIVER BASIN, PENNSYLVANIA AND NEW YORK.

Section 567 of the Water Resources Development Act of 1996 (110 Stat. 3787-3788) is amended-

- (1) by striking subsection (a)(2) and inserting the following:
- "(2) The Susquehanna River watershed upstream of the Chemung River, New York, at an estimated Federal cost of \$10,000,000.";
- (2) by striking subsections (c) and (d) and inserting the following:
- "(c) Cooperation Agreements.-In conducting the study and developing the strategy under this section, the Secretary shall enter into cooperation agreements to provide financial assistance to appropriate Federal, State, and local government agencies as well as appropriate nonprofit, nongovernmental organizations with expertise in wetlands restoration, with the consent of the affected local government. Financial assistance provided may include activities for the implementation of wetlands restoration projects and soil and water conservation measures.
- "(d) IMPLEMENTATION OF STRATEGY.—The Secretary shall undertake development and implementation of the strategy under this section in cooperation with local landowners and local government officials. Projects to implement the strategy shall be designed to take advantage of ongoing or planned actions by other agencies, local municipalities, or nonprofit, nongovernmental organizations with expertise in wetlands restoration that would increase the effectiveness or decrease the overall cost of implementing recommended projects and may include the acquisition of wetlands, from willing sellers, that contribute to the Upper Susquehanna River basin ecosystem.

#### SEC. 555. CHICKAMAUGA LOCK, CHATTANOOGA, TENNESSEE.

- (a) TRANSFER FROM TVA.—The Tennessee Valley Authority shall transfer \$200,000 to the Secretary for the preparation of a report of the Chief of Engineers for a replacement lock at Chickamauga Lock and Dam, Chattanooga, Tennessee.
- (b) REPORT.—The Secretary shall accept and use the funds transferred under subsection (a) to prepare the report referred to in subsection (a).

#### SEC. 556. JOE POOL LAKE, TEXAS.

- If the city of Grand Prairie, Texas, enters into a binding agreement with the Secretary under which-
- (1) the city agrees to assume all of the responsibilities (other than financial responsibilities) of the Trinity River Authority of Texas under Corps of Engineers contract #DACW63-76-C-0166, including operation and maintenance of the recreation facilities included in the contract; and
- (2) to pay the Federal Government a total of \$4,290,000 in 2 installments, 1 in the amount of \$2,150,000, which shall be due and payable no later than December 1, 2000, and 1 in the amount of \$2,140,000, which shall be due and payable no later than December 1,

the Trinity River Authority shall be relieved of all of its financial responsibilities under the contract as of the date the Secretary enters into the agreement with the city.

#### SEC. 557. BENSON BEACH, FORT CANBY STATE PARK, WASHINGTON.

The Secretary shall place dredged material at Benson Beach, Fort Canby State Park, Washington, in accordance with section 204 of the Water Resources Development Act of 1992 (33 U.S.C. 2326).

#### SEC. 558. PUGET SOUND AND ADJACENT WATERS RESTORATION, WASHINGTON.

- (a) IN GENERAL.—The Secretary may participate in critical restoration projects in the area of the Puget Sound and its adjacent waters, including the watersheds that drain directly into Puget Sound, Admiralty Inlet, Hood Canal, Rosario Strait, and the eastern portion of the Strait of Juan de Fuca.
- (b) PROJECT SELECTION.—The Secretary, in consultation with appropriate Federal, tribal, State, and local agencies, (including the Salmon Recovery Funding Board, Northwest Straits Commission, Hood Canal Coordinating Council, county watershed planning councils, and salmon enhancement groups) may identify critical restoration projects and may implement those projects after entering into an agreement with an appropriate non-Federal interest in accordance with the requirements of section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b) and this section.
- (c) PROJECT COST LIMITATION.—Of amounts appropriated to carry out this section, not more than \$2,500,000 may be allocated to carry out any project.
- (d) Cost Sharing.—
  (1) In general.—The non-Federal interest for a critical restoration project under this section shall-
- (A) pay 35 percent of the cost of the project:
- (B) provide any lands, easements, rights-ofway, relocations, and dredged material disposal areas necessary for implementation of the project:
- (C) pay 100 percent of the operation, maintenance, repair, replacement, and rehabilitation costs associated with the project; and
- (D) hold the United States harmless from liability due to implementation of the project, except for the negligence of the Federal Government or its contractors.
- (2) CREDIT.—The Secretary shall provide credit to the non-Federal interest for a critical restoration project under this section for the value of any lands, easements, rightsof-way, relocations, and dredged material disposal areas provided by the non-Federal interest for the project.
- (3) MEETING NON-FEDERAL COST SHARE.—The non-Federal interest may provide up to 50 percent of the non-Federal share of the cost of a project under this section through the provision of services, materials, supplies, or other in-kind services.
- (e) CRITICAL RESTORATION PROJECT DE-FINED.—In this section, the term "critical restoration project" means a water resource project that will produce, consistent with existing Federal programs, projects, and activities, immediate and substantial environmental protection and restoration benefits.
- (f) AUTHORIZATION OF APPROPRIATIONS. There is authorized to be appropriated to carry out this section \$40,000,000.

#### SEC. 559. SHOALWATER BAY INDIAN TRIBE, WILLAPA BAY, WASHINGTON.

- (a) PLACEMENT OF DREDGED MATERIAL ON SHORE.—For the purpose of addressing coastal erosion, the Secretary shall place, on an emergency one-time basis, dredged material from a Federal navigation project on the shore of the tribal reservation of the Shoalwater Bay Indian Tribe, Willapa Bay, Washington, at Federal expense.
- (b) Placement of Dredged Material on PROTECTIVE DUNES.—The Secretary shall place dredged material from Willapa Bay on the remaining protective dunes on the tribal reservation of the Shoalwater Bay Indian Tribe, at Federal expense.

(c) STUDY OF COASTAL EROSION.—The Secretary shall conduct a study to develop long-term solutions to coastal erosion problems at the tribal reservation of the Shoalwater Bay Indian Tribe at Federal expense.

### SEC. 560. WYNOOCHEE LAKE, WYNOOCHEE RIVER, WASHINGTON.

(a) IN GENERAL.—The city of Aberdeen, Washington, may transfer its rights, interests, and title in the land transferred to the city under section 203 of the Water Resources Development Act of 1990 (104 Stat. 4632) to the city of Tacoma, Washington.

(b) CONDITIONS.—The transfer under this section shall be subject to the conditions set forth in section 203(b) of the Water Resources Development Act of 1990 (104 Stat. 4632); except that the condition set forth in paragraph (1) of such section shall apply to the city of Tacoma only for so long as the city of Tacoma has a valid license with the Federal Energy Regulatory Commission relating to operation of the Wynoochee Dam, Washington.

(c) LIMITATION.—The transfer under subsection (a) may be made only after the Secretary determines that the city of Tacoma will be able to operate, maintain, repair, replace, and rehabilitate the project for Wynoochee Lake, Wynoochee River, Washington, authorized by section 203 of the Flood Control Act of 1962 (76 Stat. 1193), in accordance with such regulations as the Secretary may issue to ensure that such operation, maintenance, repair, replacement, and rehabilitation is consistent with project purposes.

(d) WATER SUPPLY CONTRACT.—The water supply contract designated as DACWD 67-68—C-0024 shall be null and void if the Secretary exercises the reversionary right set forth in section 203(b)(3) of the Water Resources Development Act of 1990 (104 Stat. 4632).

#### SEC. 561. SNOHOMISH RIVER, WASHINGTON.

In coordination with appropriate Federal, tribal, and State agencies, the Secretary may carry out a project to address data needs regarding the outmigration of juvenile chinook salmon in the Snohomish River, Washington.

#### SEC. 562. BLUESTONE, WEST VIRGINIA.

- (a) IN GENERAL.—Notwithstanding any other provision of law, the Tri-Cities Power Authority of West Virginia is authorized to design and construct hydroelectric generating facilities at the Bluestone Lake facility, West Virginia, under the terms and conditions of the agreement referred to in subsection (b).
  - (b) AGREEMENT.-
- (1) AGREEMENT TERMS.—Conditioned upon the parties agreeing to mutually acceptable terms and conditions, the Secretary and the Secretary of Energy, acting through the Southeastern Power Administration, may enter into a binding agreement with the Tri-Cities Power Authority under which the Tri-Cities Power Authority agrees to each of the following:
- (A) To design and construct the generating facilities referred to in subsection (a) within 4 years after the date of such agreement.
  - (B) To reimburse the Secretary for—
- (i) the cost of approving such design and inspecting such construction;
- (ii) the cost of providing any assistance authorized under subsection (c)(2); and
- (iii) the redistributed costs associated with the original construction of the dam and dam safety if all parties agree with the method of the development of the chargeable amounts associated with hydropower at the facility.
- (C) To release and indemnify the United States from any claims, causes of action, or

- liabilities which may arise from such design and construction of the facilities referred to in subsection (a), including any liability that may arise out of the removal of the facility if directed by the Secretary.
- (2) ADDITIONAL TERMS.—The agreement shall also specify each of the following:
- (A) The procedures and requirements for approval and acceptance of design, construction, and operation and maintenance of the facilities referred in subsection (a).
- (B) The rights, responsibilities, and liabilities of each party to the agreement.
- (C) The amount of the payments under subsection (f) of this section and the procedures under which such payments are to be made.
- (c) Other Requirements.—
- (1) PROHIBITION.—No Federal funds may be expended for the design, construction, and operation and maintenance of the facilities referred to in subsection (a) prior to the date on which such facilities are accepted by the Secretary under subsection (d).
- (2) REIMBURSEMENT.—Notwithstanding any other provision of law, if requested by the Tri-Cities Power Authority, the Secretary may provide, on a reimbursable basis, assistance in connection with the design and construction of the generating facilities referred to in subsection (a).
  - (d) COMPLETION OF CONSTRUCTION.—
- (1) Transfer of facilities.—Notwith-standing any other provision of law, upon completion of the construction of the facilities referred to in subsection (a) and final approval of such facility by the Secretary, the Tri-Cities Power Authority shall transfer without consideration title to such facilities to the United States, and the Secretary shall—
- (A) accept the transfer of title to such facilities on behalf of the United States; and
- (B) operate and maintain the facilities referred to in subsection (a).
- (2) CERTIFICATION.—The Secretary is authorized to accept title to the facilities pursuant to paragraph (1) only after certifying that the quality of the construction meets all standards established for similar facilities constructed by the Secretary.
- (3) AUTHORIZED PROJECT PURPOSES.—The operation and maintenance of the facilities shall be conducted in a manner that is consistent with other authorized project purposes of the Bluestone Lake facility.
- (e) EXCESS POWER.—Pursuant to any agreement under subsection (b), the Southeastern Power Administration shall market the excess power produced by the facilities referred to in subsection (a) in accordance with section 5 of the Rivers and Harbors Act of December 22, 1944 (16 U.S.C. 825s; 58 Stat. 890).
- (f) PAYMENTS.—Notwithstanding any other provision of law, the Secretary of Energy, acting through the Southeastern Power Administration, is authorized to pay in accordance with the terms of the agreement entered into under subsection (b) out of the revenues from the sale of power produced by the generating facility of the interconnected systems of reservoirs operated by the Secretary and marketed by the Southeastern Power Administration—
- (1) to the Tri-Cities Power Authority all reasonable costs incurred by the Tri-Cities Power Authority in the design and construction of the facilities referred to in subsection (a), including the capital investment in such facilities and a reasonable rate of return on such capital investment; and
- (2) to the Secretary, in accordance with the terms of the agreement entered into under subsection (b) out of the revenues from the sale of power produced by the generating

- facility of the interconnected systems of reservoirs operated by the Secretary and marketed by the Southeastern Power Administration, all reasonable costs incurred by the Secretary in the operation and maintenance of facilities referred to in subsection (a).
- (g) AUTHORITY OF SECRETARY OF ENERGY.— Notwithstanding any other provision of law, the Secretary of Energy, acting through the Southeastern Power Administration, is authorized—
- (1) to construct such transmission facilities as necessary to market the power produced at the facilities referred to in subsection (a) with funds contributed by the Tri-Cities Power Authority; and
- (2) to repay those funds, including interest and any administrative expenses, directly from the revenues from the sale of power produced by such facilities of the interconnected systems of reservoirs operated by the Secretary and marketed by the Southeastern Power Administration.
- (h) SAVINGS CLAUSE.—Nothing in this section affects any requirement under Federal or State environmental law relating to the licensing or operation of such facilities.

### SEC. 563. LESAGE/GREENBOTTOM SWAMP, WEST VIRGINIA.

Section 30 of the Water Resources Development Act of 1988 (102 Stat. 4030) is amended by adding at the end the following:

"(d) HISTORIC STRUCTURE.—The Secretary shall ensure the stabilization and preservation of the structure known as the Jenkins House located within the Lesage/ Greenbottom Swamp in accordance with standards for sites listed on the National Register of Historic Places."

#### SEC. 564. TUG FORK RIVER, WEST VIRGINIA.

- (a) IN GENERAL.—The Secretary may provide planning, design, and construction assistance to non-Federal interests for projects located along the Tug Fork River in West Virginia and identified by the master plan developed pursuant to section 114(t) of the Water Resources Development Act of 1992 (106 Stat. 4820).
- (b) PRIORITIES.—In providing assistance under this section, the Secretary shall give priority to the primary development demonstration sites in West Virginia identified by the master plan referred to in subsection (a).
- (c) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$1,000,000.

### SEC. 565. VIRGINIA POINT RIVERFRONT PARK, WEST VIRGINIA.

- (a) IN GENERAL.—The Secretary may provide planning, design, and construction assistance to non-Federal interests for the project at Virginia Point, located at the confluence of the Ohio and Big Sandy Rivers in West Virginia, identified by the preferred plan set forth in the feasibility study dated September 1999, and carried out under the West Virginia-Ohio River Comprehensive Study authorized by a resolution dated September 8, 1988, by the Committee on Public Works and Transportation of the House of Representatives.
- (b) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$3,100,000.

#### SEC. 566. SOUTHERN WEST VIRGINIA.

Section 340(a) of the Water Resources Development Act of 1992 (106 Stat. 4856) is amended by inserting "environmental restoration," after "distribution facilities,".

#### SEC. 567. FOX RIVER SYSTEM, WISCONSIN.

Section 332(a) of the Water Resources Development Act of 1992 (106 Stat. 4852) is

amended by adding at the end the following: "Such terms and conditions may include a payment or payments to the State of Wisconsin to be used toward the repair and rehabilitation of the locks and appurtenant features to be transferred.".

# SEC. 568. SURFSIDE/SUNSET AND NEWPORT BEACH, CALIFORNIA.

The Secretary shall treat the Surfside/Sunset Newport Beach element of the project for beach erosion, Orange County, California, authorized by section 101 of the River and Harbor Act of 1962 (76 Stat. 1177), as continuing construction.

#### SEC. 569. ILLINOIS RIVER BASIN RESTORATION.

- (a) ILLINOIS RIVER BASIN DEFINED.—In this section, the term "Illinois River basin" means the Illinois River, Illinois, its backwaters, side channels, and all tributaries, including their watersheds, draining into the Illinois River.
  - (b) Comprehensive Plan.—
- (1) DEVELOPMENT.—The Secretary shall develop, as expeditiously as practicable, a proposed comprehensive plan for the purpose of restoring, preserving, and protecting the Illinois River basin.
- (2) TECHNOLOGIES AND INNOVATIVE AP-PROACHES.—The comprehensive plan shall provide for the development of new technologies and innovative approaches—
- (A) to enhance the Illinois River as a vital transportation corridor;
- (B) to improve water quality within the entire Illinois River basin;
- (C) to restore, enhance, and preserve habitat for plants and wildlife; and
- (D) to increase economic opportunity for agriculture and business communities.
- (3) SPECIFIC COMPONENTS.—The comprehensive plan shall include such features as are necessary to provide for—
- (A) the development and implementation of a program for sediment removal technology, sediment characterization, sediment transport, and beneficial uses of sediment:
- (B) the development and implementation of a program for the planning, conservation, evaluation, and construction of measures for fish and wildlife habitat conservation and rehabilitation, and stabilization and enhancement of land and water resources in the basin:
- (C) the development and implementation of a long-term resource monitoring program; and
- (D) the development and implementation of a computerized inventory and analysis system.
- (4) CONSULTATION.—The comprehensive plan shall be developed by the Secretary in consultation with appropriate Federal agencies, the State of Illinois, and the Illinois River Coordinating Council.
- (5) REPORT TO CONGRESS.—Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report containing the comprehensive plan
- (6) ADDITIONAL STUDIES AND ANALYSES.—After transmission of a report under paragraph (5), the Secretary shall continue to conduct such studies and analyses related to the comprehensive plan as are necessary, consistent with this subsection.
  - (c) CRITICAL RESTORATION PROJECTS.—
- (1) IN GENERAL.—If the Secretary, in cooperation with appropriate Federal agencies and the State of Illinois, determines that a restoration project for the Illinois River basin will produce independent, immediate, and substantial restoration, preservation, and protection benefits, the Secretary shall proceed expeditiously with the implementation of the project.

- (2) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out projects under this subsection \$100,000,000 for fiscal years 2001 through 2004.
- (3) FEDERAL SHARE.—The Federal share of the cost of carrying out any project under this subsection shall not exceed \$5,000,000.
  - (d) GENERAL PROVISIONS.—
- (1) WATER QUALITY.—In carrying out projects and activities under this section, the Secretary shall take into account the protection of water quality by considering applicable State water quality standards.
- (2) PUBLIC PARTICIPATION.—In developing the comprehensive plan under subsection (b) and carrying out projects under subsection (c), the Secretary shall implement procedures to facilitate public participation, including providing advance notice of meetings, providing adequate opportunity for public input and comment, maintaining appropriate records, and making a record of the proceedings of meetings available for public inspection.
- (e) COORDINATION.—The Secretary shall integrate and coordinate projects and activities carried out under this section with ongoing Federal and State programs, projects, and activities, including the following:
- (1) Upper Mississippi River System-Environmental Management Program authorized under section 1103 of the Water Resources Development Act of 1986 (33 U.S.C. 652).
- (2) Upper Mississippi River Illinois Waterway System Study.
- (3) Kankakee River Basin General Investigation.
- (4) Peoria Riverfront Development General Investigation.
- (5) Illinois River Ecosystem Restoration General Investigation.
- (6) Conservation Reserve Program and other farm programs of the Department of Agriculture.
- (7) Conservation Reserve Enhancement Program (State) and Conservation 2000, Ecosystem Program of the Illinois Department of Natural Resources.
- (8) Conservation 2000 Conservation Practices Program and the Livestock Management Facilities Act administered by the Illinois Department of Agriculture.
- (9) National Buffer Initiative of the Natural Resources Conservation Service.
- (10) Nonpoint source grant program administered by the Illinois Environmental Protection Agency.
- (f) Justification.—
- (1) IN GENERAL.—Notwithstanding section 209 of the Flood Control Act of 1970 (42 U.S.C. 1962–2) or any other provision of law, in carrying out activities to restore, preserve, and protect the Illinois River basin under this section, the Secretary may determine that the activities—
- $(\boldsymbol{A})$  are justified by the environmental benefits derived by the Illinois River basin; and
- (B) shall not need further economic justification if the Secretary determines that the activities are cost-effective.
- (2) APPLICABILITY.—Paragraph (1) shall not apply to any separable element intended to produce benefits that are predominantly unrelated to the restoration, preservation, and protection of the Illinois River basin.
- (g) Cost Sharing.-
- (1) IN GENERAL.—The non-Federal share of the cost of projects and activities carried out under this section shall be 35 percent.
- (2) OPERATION, MAINTENANCE, REHABILITATION, AND REPLACEMENT.—The operation, maintenance, rehabilitation, and replacement of projects carried out under this section shall be a non-Federal responsibility.

- (3) IN-KIND SERVICES.—The value of in-kind services provided by the non-Federal interest for a project or activity carried out under this section may be credited toward not more than 80 percent of the non-Federal share of the cost of the project or activity. In-kind services shall include all State funds expended on programs and projects which accomplish the goals of this section, as determined by the Secretary. Such programs and projects may include the Illinois River Conservation Reserve Program, the Illinois Conservation 2000 Program, the Open Lands Trust Fund, and other appropriate programs carried out in the Illinois River basin.
  - (4) CREDIT.-
- (A) VALUE OF LANDS.—If the Secretary determines that lands or interests in land acquired by a non-Federal interest, regardless of the date of acquisition, are integral to a project or activity carried out under this section, the Secretary may credit the value of the lands or interests in land toward the non-Federal share of the cost of the project or activity. Such value shall be determined by the Secretary.
- (B) Work.—If the Secretary determines that any work completed by a non-Federal interest, regardless of the date of completion, is integral to a project or activity carried out under this section, the Secretary may credit the value of the work toward the non-Federal share of the cost of the project or activity. Such value shall be determined by the Secretary.

#### SEC. 570. GREAT LAKES.

- (a) GREAT LAKES TRIBUTARY MODEL.—Section 516 of the Water Resources Development Act of 1996 (33 U.S.C. 2326b) is amended—
- (1) by adding at the end of subsection (e) the following:
- "(3) REPORT.—Not later than December 31, 2003, the Secretary shall transmit to Congress a report on the Secretary's activities under this subsection."; and
  - (2) in subsection (g)—
- (A) by striking "There is authorized" and inserting the following:
  - "(1) IN GENERAL.—There is authorized";
- (B) by adding at the end the following:
- "(2) GREAT LAKES TRIBUTARY MODEL.—In addition to amounts made available under paragraph (1), there is authorized to be appropriated to carry out subsection (e) \$5,000,000 for each of fiscal years 2002 through 2006.": and
- (C) by aligning the remainder of the text of paragraph (1) (as designated by subparagraph (A) of this paragraph) with paragraph (2) (as added by subparagraph (B) of this paragraph).
- (b) ALTERNATIVE ENGINEERING TECHNOLOGIES.—
- (1) DEVELOPMENT OF PLAN.—The Secretary shall develop and transmit to Congress a plan to enhance the application of ecological principles and practices to traditional engineering problems at Great Lakes shores.
- (2) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this subsection \$200,000. Activities under this subsection shall be carried out at Federal expense.
- (c) FISHERIES AND ECOSYSTEM RESTORATION.—
- (1) DEVELOPMENT OF PLAN.—The Secretary shall develop and transmit to Congress a plan for implementing Corps of Engineers activities, including ecosystem restoration, to enhance the management of Great Lakes fisheries.
- (2) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this subsection \$300,000. Activities

under this subsection shall be carried out at Federal expense.

#### LAKES REMEDIAL ACTION AND SEDIMENT REMEDI-SEC. 571. GREAT PLANS ATION.

Section 401 of the Water Resources Development Act of 1990 (33 U.S.C. 1268 note; 110 Stat. 3763; 113 Stat. 338) is amended-

- (1) in subsection (a)(2)(A) by striking "50 percent" and inserting "35 percent";
  - (2) in subsection (b)-
  - (A) by striking paragraph (3);
- (B) in the first sentence of paragraph (4) by striking "50 percent" and inserting "35 percent"; and
- (C) by redesignating paragraph (4) as paragraph (3); and
- (3) in subsection (c) by striking "\$5,000,000 for each of fiscal years 1998 through 2000. and inserting "\$10,000,000 for each of fiscal years 2001 through 2005.

#### SEC. 572. GREAT LAKES DREDGING LEVELS AD-JUSTMENT.

- (a) DEFINITION OF GREAT LAKE.—In this section, the term "Great Lake" means Lake Superior, Lake Michigan, Lake Huron (including Lake St. Clair), Lake Erie, and Lake Ontario (including the St. Lawrence River to the 45th parallel of latitude).
- (b) DREDGING LEVELS.—In operating and maintaining Federal channels and harbors of, and the connecting channels between, the Great Lakes, the Secretary shall conduct such dredging as is necessary to ensure minimal operation depths consistent with the original authorized depths of the channels and harbors when water levels in the Great Lakes are, or are forecast to be, below the International Great Lakes Datum of 1985.

#### SEC. 573. DREDGED MATERIAL RECYCLING.

- (a) PILOT PROGRAM.—The Secretary shall conduct a pilot program to provide incentives for the removal of dredged material from a confined disposal facility associated with a harbor on the Great Lakes or the Saint Lawrence River and a harbor on the Delaware River in Pennsylvania for the purpose of recycling the dredged material and extending the life of the confined disposal facility.
- (b) REPORT.—Not later than 90 days after the date of completion of the pilot program, the Secretary shall transmit to Congress a report on the results of the program.
- (c) AUTHORIZATION OF APPROPRIATIONS.-There is authorized to be appropriated to carry out this section \$2,000,000.

#### SEC. 574. WATERSHED MANAGEMENT, RESTORA-TION, AND DEVELOPMENT.

Section 503(d) of the Water Resources Development Act of 1996 (110 Stat. 3756-3757; 113 Stat. 288) is amended by adding at the end the following:

- "(28) Tomales Bay watershed, California.
- "(29) Kaskaskia River watershed, Illinois. "(30) Sangamon River watershed, Illinois.
- "(31) Lackawanna River watershed, Penn-
- "(32) Upper Charles River watershed, Massachusetts.
- "(33) Brazos River watershed, Texas,"

#### SEC. 575. MAINTENANCE OF NAVIGATION CHAN-NELS.

Section 509(a) of the Water Resources Development Act of 1996 (110 Stat. 3759; 113 Stat. 339) is amended by adding at the end the following:

- "(16) Cameron Loop, Louisiana, as part of the Calcasieu River and Pass Ship Channel.
- "(17) Morehead City Harbor, North Carolina."

# SEC. 576. SUPPORT OF ARMY CIVIL WORKS PRO-

The requirements of section 2361 of title 10, United States Code, shall not apply to any contract, cooperative research and development agreement, cooperative agreement, or grant entered into under section 229 of the Water Resources Development Act of 1996 (110 Stat. 3703) between the Secretary and Marshall University or entered into under section 350 of the Water Resources Development Act of 1999 (113 Stat. 310) between the Secretary and Juniata College.

#### SEC. 577. NATIONAL RECREATION RESERVATION SERVICE.

Notwithstanding section 611 of the Treasury and General Government Appropriations Act, 1999 (112 Stat. 2861-515), the Secretary may participate in the National Recreation Reservation Service on an interagency basis and fund the Department of the Army's share of the cost of activities required for implementing, operating, and maintaining the Service.

#### SEC. 578. HYDROGRAPHIC SURVEY.

The Secretary shall enter into an agreement with the Administrator of the National Oceanographic and Atmospheric Administration to require the Secretary, not later than 60 days after the Corps of Engineers completes a project involving dredging of a channel, to provide data to the Administration in a standard digital format on the results of a hydrographic survey of the channel conducted by the Corps of Engineers.

#### SEC. 579. PERCHLORATE.

- (a) IN GENERAL.—The Secretary, in cooperation with Federal, State, and local government agencies, may participate in studies and other investigative activities and in the planning and design of projects determined by the Secretary to offer a long-term solution to the problem of groundwater contamination caused by perchlorates.
- (b) Investigations and Projects.-
- (1) BOSQUE AND LEON RIVERS.—The Secretary, in coordination with other Federal agencies and the Brazos River Authority. shall participate under subsection (a) in investigations and projects in the Bosque and Leon River watersheds in Texas to assess the impact of the perchlorate associated with the former Naval "Weapons Industrial Reserve Plant" at McGregor, Texas.
- (2) CADDO LAKE.—The Secretary, in coordination with other Federal agencies and the Northeast Texas Municipal Water District, shall participate under subsection (a) in investigations and projects relating to perchlorate contamination in Caddo Lake, Texas.
- (3) EASTERN SANTA CLARA BASIN.—The Secretary, in coordination with other Federal, State, and local government agencies, shall participate under subsection (a) in investigations and projects related to sites that are sources of perchlorates and that are located in the city of Santa Clarita, California.
- (c) AUTHORIZATION OF APPROPRIATIONS.-For the purposes of carrying out this section, there is authorized to be appropriated to the Secretary \$25,000,000, of which not to exceed \$8,000,000 shall be available to carry out subsection (b)(1), not to exceed \$3,000,000 shall be available to carry out subsection (b)(2), and not to exceed \$7,000,000 shall be available to carry out subsection (b)(3).

#### SEC. 580. ABANDONED AND INACTIVE NONCOAL MINE RESTORATION.

Section 560 of the Water Resources Development Act of 1999 (33 USC 2336; 113 Stat. 354-355) is amended-

- (1) in subsection (a) by striking "and design" and inserting "design, and construc-
- (2) in subsection (c) by striking "50" and inserting "35";
- (3) in subsection (e) by inserting "and colleges and universities, including the mem-

bers of the Western Universities Mine-Land Reclamation and Restoration Consortium, for the purposes of assisting in the reclamation of abandoned noncoal mines and" after "entities": and

(4) by striking subsection (f) and inserting the following:

"(f) Non-Federal Interests.—In this section, the term 'non-Federal interests' includes, with the consent of the affected local government, nonprofit entities, notwithstanding section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b).

"(g) OPERATION AND MAINTENANCE.—The non-Federal share of the costs of operation and maintenance for a project carried out under this section shall be 100 percent.

- "(h) CREDIT.—A non-Federal interest shall receive credit toward the non-Federal share of the cost of a project under this section for design and construction services and other in-kind consideration provided by the non-Federal interest if the Secretary determines that such design and construction services and other in-kind consideration are integral to the project.
- COST LIMITATION.—Not more than \$10,000,000 of the amounts appropriated to carry out this section may be allotted for projects in a single locality, but the Secretary may accept funds voluntarily contributed by a non-Federal or Federal entity for the purpose of expanding the scope of the services requested by the non-Federal or Federal entity.
- "(j) NO EFFECT ON LIABILITY.-The provision of assistance under this section shall not relieve from liability any person that would otherwise be liable under Federal or State law for damages, response costs, natural resource damages, restitution, equitable relief, or any other relief.
- "(k) AUTHORIZATION OF APPROPRIATIONS.-There is authorized to be appropriated to carry out this section \$45,000,000. Such sums shall remain available until expended.".

#### SEC, 581, LAKES PROGRAM.

Section 602 of the Water Resources Development Act of 1986 (100 Stat. 4148-4149) is further amended-

- (1) in subsection (b) by inserting "and activity" after "project";
- (2) in subsection (c) by inserting "and activities under subsection (f)" before the comma: and
- (3) by adding at the end the following:
- "(f) CENTER FOR LAKE EDUCATION AND RE-SEARCH, OTSEGO LAKE, NEW YORK.-
- "(1) IN GENERAL.—The Secretary shall construct an environmental education and research facility at Otsego Lake, New York. The purpose of the Center shall be to-
- '(A) conduct nationwide research on the impacts of water quality and water quantity on lake hydrology and the hydrologic cycle;
- "(B) develop technologies and strategies for monitoring and improving water quality in the Nation's lakes: and
- "(C) provide public education regarding the biological, economic, recreational, and aesthetic value of the Nation's lakes
- "(2) Use of research.—The results of research and education activities carried out at the Center shall be applied to the program under subsection (a) and to other Federal programs, projects, and activities that are intended to improve or otherwise affect
- "(3) BIOLOGICAL MONITORING STATION.—A central function of the Center shall be to research, develop, test, and evaluate biological monitoring technologies and techniques for potential use at lakes listed in subsection (a) and throughout the Nation.

- "(4) CREDIT.—The non-Federal sponsor shall receive credit for lands, easements, rights-of-way, and relocations toward its share of project costs.
- "(5) AUTHORIZATION OF APPROPRIATIONS.—In addition to sums authorized by subsection (d), there is authorized to be appropriated to carry out this subsection \$6,000,000. Such sums shall remain available until expended."

#### SEC. 582. RELEASE OF USE RESTRICTION.

- (a) RELEASE.—Notwithstanding any other provision of law, the Tennessee Valley Authority shall grant a release or releases, without monetary consideration, from the restriction covenant which requires that property described in subsection (b) shall at all times be used solely for the purpose of erecting docks and buildings for shipbuilding purposes or for the manufacture or storage of products for the purpose of trading or shipping in transportation.
- (b) DESCRIPTION OF PROPERTY.—This section shall apply only to those lands situated in the city of Decatur, Morgan County, Alabama, and running along the easterly boundary of a tract of land described in an indenture conveying such lands to the Ingalls Shipbuilding Corporation dated July 29, 1954, and recorded in deed book 535 at page 6 in the office of the Probate Judge of Morgan County, Alabama, which are owned or may hereafter be acquired by the Alabama Farmers Cooperative, Inc.

#### SEC. 583. COMPREHENSIVE ENVIRONMENTAL RE-SOURCES PROTECTION.

- (a) IN GENERAL.—Under section 219(a) of the Water Resources Development Act of 1992 (106 Stat. 4835), the Secretary may provide technical, planning, and design assistance to non-Federal interests to carry out water-related projects described in this section
- (b) Non-Federal Share.—Notwithstanding section 219(b) of the Water Resources Development Act of 1992 (106 Stat. 4835), the non-Federal share of the cost of each project assisted in accordance with this section shall be 25 percent.
- (c) PROJECT DESCRIPTIONS.—The Secretary may provide assistance in accordance with subsection (a) to each of the following projects:
- (1) MARANA, ARIZONA.—Wastewater treatment and distribution infrastructure, Marana, Arizona.
- (2) EASTERN ARKANSAS ENTERPRISE COMMUNITY, ARKANSAS.—Water-related infrastructure, Eastern Arkansas Enterprise Community, Cross, Lee, Monroe, and St. Francis Counties, Arkansas.
- (3) CHINO HILLS, CALIFORNIA.—Storm water and sewage collection infrastructure, Chino Hills, California.
- (4) CLEAR LAKE BASIN, CALIFORNIA.—Waterrelated infrastructure and resource protection Clear Lake Basin California.
- (5) DESERT HOT SPRINGS, CALIFORNIA.—Resource protection and wastewater infrastructure, Desert Hot Springs, California.
- (6) EASTERN MUNICIPAL WATER DISTRICT, CALIFORNIA.—Regional water-related infrastructure, Eastern Municipal Water District, California.
- (7) HUNTINGTON BEACH, CALIFORNIA.—Water supply and wastewater infrastructure, Huntington Beach, California.
- (8) INGLEWOOD, CALIFORNIA.—Water infrastructure, Inglewood, California.
- (9) Los osos community service district, California.—Wastewater infrastructure, Los Osos Community Service District, California.
- (10) NORWALK, CALIFORNIA.—Water-related infrastructure, Norwalk, California.

- (11) KEY BISCAYNE, FLORIDA.—Sanitary sewer infrastructure, Key Biscayne, Florida. (12) SOUTH TAMPA, FLORIDA.—Water supply
- and aquifer storage and recovery infrastructure, South Tampa, Florida.
- (13) FORT WAYNE, INDIANA.—Combined sewer overflow infrastructure and wetlands protection, Fort Wayne, Indiana.
- (14) Indianapolis, indiana.—Combined sewer overflow infrastructure, Indianapolis, Indiana.
- (15) ST. CHARLES, ST. BERNARD, AND PLAQUEMINES PARISHES, LOUISIANA.—Water and wastewater infrastructure, St. Charles, St. Bernard, and Plaquemines Parishes, Louisiana.
- (16) ST. JOHN THE BAPTIST AND ST. JAMES PARISHES, LOUISIANA.—Water and sewer improvements, St. John the Baptist and St. James Parishes. Louisiana.
- (17) UNION COUNTY, NORTH CAROLINA.—Water infrastructure, Union County, North Carolina.
- (18) HOOD RIVER, OREGON.—Water transmission infrastructure, Hood River, Oregon.
- (19) MEDFORD, OREGON.—Sewer collection infrastructure, Medford, Oregon.
- (20) PORTLAND, OREGON.—Water infrastructure and resource protection, Portland, Oregon.
- (21) COUDERSPORT, PENNSYLVANIA.—Sewer system extensions and improvements, Coudersport, Pennsylvania.
- (22) PARK CITY, UTAH.—Water supply infra-
- structure, Park City, Utah.
  (d) AUTHORIZATION OF APPROPRIATIONS.—
- (1) IN GENERAL.—There is authorized to be appropriated \$25,000,000 for providing assistance in accordance with subsection (a) to the projects described in subsection (c).
- (2) AVAILABILITY.—Sums authorized to be appropriated under this subsection shall remain available until expended.
- (e) ADDITIONAL ASSISTANCE FOR CRITICAL RESOURCE PROJECTS.—The Secretary may provide assistance in accordance with subsection (a) and assistance for construction for each the following projects:
- (1) DUCK RIVER, CULLMAN, ALABAMA.— \$5,000,000 for water supply infrastructure, Duck River, Cullman, Alabama.
- (2) UNION COUNTY, ARKANSAS.—\$52,000,000 for water supply infrastructure, including facilities for withdrawal, treatment, and distribution, Union County, Arkansas.
- (3) CAMBRIA, CALIFORNIA.—\$10,300,000 for desalination infrastructure, Cambria, California.
- (4) LOS ANGELES HARBOR/TERMINAL ISLAND, CALIFORNIA.—\$6,500,000 for wastewater recycling infrastructure, Los Angeles Harbor/Terminal Island, California.
- (5) NORTH VALLEY REGION, LANCASTER, CALIFORNIA.—\$14,500,000 for water infrastructure, North Valley Region, Lancaster, California.
- (6) SAN DIEGO COUNTY, CALIFORNIA.— \$10,000,000 for water-related infrastructure, San Diego County, California.
- (7) SOUTH PERRIS, CALIFORNIA.—\$25,000,000 for water supply desalination infrastructure, South Perris, California.
- (8) AURORA, ILLINOIS.—\$8,000,000 for wastewater infrastructure to reduce or eliminate combined sewer overflows, Aurora, Illinois.
- (9) COOK COUNTY, ILLINOIS.—\$35,000,000 for water-related infrastructure and resource protection and development, Cook County, Illinois.
- (10) MADISON AND ST. CLAIR COUNTIES, ILLINOIS.—\$10,000,000 for water and wastewater assistance, Madison and St. Clair Counties, Illinois.
- (11) IBERIA PARISH, LOUISIANA.—\$5,000,000 for water and wastewater infrastructure, Iberia Parish. Louisiana.

- (12) Kenner, Louisiana.—\$5,000,000 for wastewater infrastructure, Kenner, Louisiana.
- (13) GARRISON AND KATHIO TOWNSHIP, MINNESOTA.—\$11,000,000 for a wastewater infrastructure project for the city of Garrison and Kathio Township, Minnesota.
- (14) Newton, New Jersey.—\$7,000,000 for water filtration infrastructure, Newton, New Jersey.
- (15) LIVERPOOL, NEW YORK.—\$2,000,000 for water infrastructure, including a pump station, Liverpool, New York.
- (16) STANLY COUNTY, NORTH CAROLINA.— \$8,900,000 for wastewater infrastructure, Stanly County, North Carolina.
- (17) YUKON, OKLAHOMA.—\$5,500,000 for water-related infrastructure, including wells, booster stations, storage tanks, and transmission lines Yukon Oklahoma.
- transmission lines, Yukon, Oklahoma. (18) ALLEGHENY COUNTY, PENNSYLVANIA.—\$20,000,000 for water-related environmental infrastructure, Allegheny County, Pennsylvania.
- (19) MOUNT JOY TOWNSHIP AND CONEWAGO TOWNSHIP, PENNSYLVANIA.—\$8,300,000 for water and wastewater infrastructure, Mount Joy Township and Conewago Township, Pennsylvania.
- (20) PHOENIXVILLE BOROUGH, CHESTER COUNTY, PENNSYLVANIA.—\$2,400,000 for water and sewer infrastructure, Phoenixville Borough, Chester County, Pennsylvania.
- (21) TITUSVILLE, PENNSYLVANIA.—\$7,300,000 for storm water separation and treatment plant upgrades, Titusville, Pennsylvania.
- (22) Washington, greene, and fayette counties, pennsylvania.—\$8,000,000 for water and wastewater infrastructure, Washington, Greene, and Fayette Counties, Pennsylvania.

#### SEC. 584. MODIFICATION OF AUTHORIZATIONS FOR ENVIRONMENTAL PROJECTS.

Section 219 of the Water Resources Development Act of 1992 (106 Stat. 4835, 4836) is amended—

- (1) in subsection (e)(6) by striking "\$20,000,000" and inserting "\$30,000,000";
- (2) in subsection (f)(4) by striking "\$15,000,000" and inserting "\$35,000,000";
- (3) in subsection (f)(21) by striking "\$10,000,000" and inserting "\$20,000,000";
- (4) in subsection (f)(25) by striking "\$5,000,000" and inserting "\$15,000,000";
- (5) in subsection (f)(30) by striking "\$10,000,000" and inserting "\$20,000,000";
- (6) in subsection (f)(43) by striking "\$15,000,000" and inserting "\$35,000,000"; and
- (7) in subsection (f) by adding at the end the following new paragraph:
- "(44) WASHINGTON, D.C., AND MARYLAND.— \$15,000,000 for the project described in subsection (c)(1), modified to include measures to eliminate or control combined sewer overflows in the Anacostia River watershed.".

#### SEC. 585. LAND CONVEYANCES.

- (a) THOMPSON, CONNECTICUT.—
- (1) IN GENERAL.—The Secretary shall convey by quitclaim deed without consideration to the town of Thompson, Connecticut, all right, title, and interest of the United States in and to the approximately 1.36-acre parcel of land described in paragraph (2) for public ownership and use by the town for fire fighting and related emergency services purposes.
- (2) LAND DESCRIPTION.—The parcel of land referred to in paragraph (1) is in the town of Thompson, county of Windham, State of Connecticut, on the northerly side of West Thompson Road owned by the United States and shown as Parcel A on a plan by Provost, Rovero, Fitzback entitled "Property Survey Prepared for West Thompson Independent Firemen Association #1" dated August 24, 1998, bounded and described as follows:

Beginning at a bound labeled WT-276 on the northerly side line of West Thompson Road, so called, at the most south corner of the Parcel herein described and at land now or formerly of West Thompson Independent Firemen Association No. 1:

Thence in a generally westerly direction by said northerly side line of West Thompson Road, by a curve to the left, having a radius of 640.00 feet a distance of 169.30 feet to a point;

Thence North 13 degrees, 08 minutes, 37 seconds East by the side line of said West Thompson Road a distance of 10.00 feet to a point;

Thence in a generally westerly direction by the northerly side line of said West Thompson Road, by a curve to the left having a radius of 650.00 feet a distance of 109.88 feet to a bound labeled WT-123, at land now or formerly of the United States of America:

Thence North 44 degrees, 43 minutes, 07 seconds East by said land now or formerly of the United States of America a distance of 185.00 feet to a point:

Thence North 67 degrees, 34 minutes, 13 seconds East by said land now or formerly of the United States of America a distance of 200.19 feet to a point in a stonewall;

Thence South 20 degrees, 49 minutes, 17 seconds East by a stonewall and by said land now or formerly of the United States of America a distance of 253.10 feet to a point at land now or formerly of West Thompson Independent Firemen Association No. 1;

Thence North 57 degrees, 45 minutes, 25 seconds West by land now or formerly of said West Thompson Independent Firemen Association No. 1 a distance of 89.04 feet to a bound labeled WT-277;

Thence South 32 degrees, 14 minutes, 35 seconds West by land now or formerly of said West Thompson Independent Firemen Association No. 1 a distance of 123.06 feet to the point of beginning.

- (3) REVERSION.—If the Secretary determines that the parcel described in paragraph (2) ceases to be held in public ownership or used for fire fighting and related emergency services, all right, title, and interest in and to the parcel shall revert to the United States.
- (b) SIBLEY MEMORIAL HOSPITAL, WASHINGTON, DISTRICT OF COLUMBIA.—
- (1) IN GENERAL.—The Secretary shall convey to the Lucy Webb Hayes National Training School for Deaconesses and Missionaries Conducting Sibley Memorial Hospital (in this subsection referred to as the "Hospital") by quitclaim deed under the terms of a negotiated sale, all right, title, and interest of the United States in and to the 8.864-acre parcel of land described in paragraph (2) for medical care and parking purposes. The consideration paid under such negotiated sale shall reflect the value of the parcel, taking into consideration the terms and conditions of the conveyance imposed under this subsection.
- (2) LAND DESCRIPTION.—The parcel of land referred to in paragraph (1) is the parcel described as follows: Beginning at a point on the westerly right-of-way line of Dalecarlia Parkway, said point also being on the southerly division line of part of Square N1448, A&T Lot 801 as recorded in A&T 2387 and part of the property of the United States Government, thence with said southerly division line now described:
- (A) North 35° 05′ 40″ West—436.31 feet to a point, thence
- (B) South 89° 59′ 30″ West—550 feet to a point, thence
- (C) South 53° 48′ 00″ West—361.08 feet to a point, thence

- (D) South 89° 59′ 30″ West—466.76 feet to a point at the southwesterly corner of the aforesaid A&T Lot 801, said point also being on the easterly right-of-way line of MacArthur Boulevard, thence with a portion of the westerly division line of said A&T Lot 801 and the easterly right-of-way line of MacArthur Boulevard, as now described.
- (E) 78.62 feet along the arc of a curve to the right having a radius of 650.98 feet, chord bearing and distance of North 06° 17′ 20″ West—78.57 feet to a point, thence crossing to include a portion of aforesaid A&T Lot 801 and a portion of the aforesaid Dalecarlia Reservoir Grounds, as now described
- (F) North  $87^{\circ}$  18' 21'' East—258.85 feet to a point, thence
- (G) North 02° 49′ 16″ West—214.18 feet to a point, thence
- (H) South 87° 09′ 00″ West—238.95 feet to a point on the aforesaid easterly right-of-way line of MacArthur Boulevard, thence with said easterly right-of-way line, as now described
- (I) North 08° 41′ 30″ East—30.62 feet to a point, thence crossing to include a portion of aforesaid A&T Lot 801 and a portion of the aforesaid Dalecarlia Reservoir Grounds, as now described
- (J) North  $87^{\circ}$  09′ 00″ East—373.96 feet to a point, thence
- (K) North 88° 42′ 48″ East—374.92 feet to a point thence
- (L) North 56° 53′ 40″ East—53.16 feet to a point, thence
- (M) North 86° 00′ 15″ East—26.17 feet to a point, thence
- (N) South 87° 24′ 50″ East—464.01 feet to a point, thence
- (O) North 83° 34′ 31″ East—212.62 feet to a point, thence
- (P) South 30° 16′ 12″ East—108.97 feet to a point, thence
- (Q) South 38° 30′ 23″ East—287.46 feet to a point, thence
- (R) South 09° 03′ 38″ West—92.74 feet to the point on the aforesaid westerly right-of-way line of Dalecarlia Parkway, thence with said westerly right-of-way line, as now described
- (S) 197.74 feet along the arc of a curve to the right having a radius of 916.00 feet, chord bearing and distance of South 53° 54′ 43″ West—197.35 feet to the place of beginning.
- (3) TERMS AND CONDITIONS.—The conveyance under this subsection shall be subject to the following terms and conditions:
- (A) LIMITATION ON THE USE OF CERTAIN PORTIONS OF THE PARCEL.—The Secretary shall include in any deed conveying the parcel under this section a restriction to prevent the Hospital, and its successors and assigns, from constructing any structure, other than a structure used exclusively for the parking of motor vehicles, on the portion of the parcel that lies between the Washington Aqueduct and Little Falls Road.
- (B) LIMITATION ON CERTAIN LEGAL CHALLENGES.—The Secretary shall require the Hospital, and its successors and assigns, to refrain from raising any legal challenge to the operations of the Washington Aqueduct arising from any impact such operations may have on the activities conducted by the Hospital on the parcel.
- (C) EASEMENT.—The Secretary shall require that the conveyance be subject to the retention of an easement permitting the United States, and its successors and assigns, to use and maintain the portion of the parcel described as follows: Beginning at a point on the easterly or South 35° 05′ 40″ East—436.31 foot plat line of Lot 25 as shown on a subdivision plat recorded in book 175 page 102 among the records of the Office of

the Surveyor of the District of Columbia, said point also being on the northerly right-of-way line of Dalecarlia Parkway, thence running with said easterly line of Lot 25 and crossing to include a portion of the aforsaid Dalecarlia Reservoir Grounds as now described:

- (i) North 35° 05′ 40″ West—495.13 feet to a point, thence
- (ii) North 87° 24′ 50″ West—414.43 feet to a point, thence
- (iii) South 81° 08′ 00″ West—69.56 feet to a point, thence
- (iv) South 88° 42′ 48″ West—367.50 feet to a point, thence
- (v) South 87° 09′ 00″ West—379.68 feet to a point on the easterly right-of-way line of MacArthur Boulevard, thence with said easterly right-of-way line, as now described (vi) North 08° 41′ 30″ East—30.62 feet to a
- (vi) North 08° 41′ 30″ East—30.62 feet to a point, thence crossing to include a portion of the aforesaid Dalecarlia Reservoir Grounds, as now described
- (vii) North  $87^{\circ}$  09' 00'' East—373.96 feet to a point, thence
- (viii) North 88° 42′ 48″ East—374.92 feet to a point, thence
- (ix) North 56° 53′ 40″ East—53.16 feet to a point, thence
- (x) North 86° 00′ 15″ East—26.17 feet to a point, thence
- (xi) South 87° 24′ 50″ East—464.01 feet to a point, thence
- (xii) North 83° 34′ 31″ East—50.62 feet to a point, thence
- (xiii) South 02° 35′ 10″ West—46.46 feet to a point, thence
- (xiv) South 13° 38′ 12″ East—107.83 feet to a point, thence
- (xv) South 35° 05′ 40″ East—347.97 feet to a point on the aforesaid northerly right-of-way line of Dalecarlia Parkway, thence with said right-of-way line, as now described
- (xvi) 44.12 feet along the arc of a curve to the right having a radius of 855.00 feet, chord bearing and distance of South 58° 59′ 22″ West—44.11 feet to the place of beginning containing 1.7157 acres of land more or less as now described by Maddox Engineers and Surveyors, Inc., June 2000, Job #00015.
- (4) APPRAISAL.—Before conveying any right, title, or interest under this subsection, the Secretary shall obtain an appraisal of the fair market value of the parcel.
  - (c) Ontonagon, Michigan.—
- (1) IN GENERAL.—The Secretary shall convey by quitclaim deed without consideration to the Ontonagon County Historical Society all right, title, and interest of the United States in and to the parcel of land underlying and immediately surrounding the lighthouse at Ontonagon, Michigan, consisting of approximately 1.8 acres, together with any improvements thereon, for public ownership and for public purposes.
- (2) SURVEY TO OBTAIN LEGAL DESCRIPTION.— The exact acreage and the legal description of the real property described in paragraph (1) shall be determined by a survey that is satisfactory to the Secretary.
- (3) REVERSION.—If the Secretary determines that the real property described in paragraph (1) ceases to be held in public ownership or used for public purposes, all right, title, and interest in and to the property shall revert to the United States.
- (d) PIKE COUNTY, MISSOURI.-
- (1) LAND EXCHANGE.—Subject to paragraphs (3) and (4), at such time as S.S.S., Inc. conveys all right, title, and interest in and to the parcel of land described in paragraph (2)(A) to the United States, the Secretary shall convey by quitclaim deed all right, title, and interest in the parcel of land described in paragraph (2)(B) to S.S.S., Inc.

- (2) LAND DESCRIPTION.—The parcels of land referred to in paragraph (1) are the following:
  (A) NON-FEDERAL LAND.—8.99 acres with ex-
- isting flowage easements situated in Pike County, Missouri, adjacent to land being acquired from Holnam, Inc. by the Corps of Engineers.
- (B) FEDERAL LAND.—8.99 acres situated in Pike County, Missouri, known as Government Tract Numbers FM-46 and FM-47, administered by the Corps of Engineers.
- (3) CONDITIONS.—The exchange of land under paragraph (1) shall be subject to the following conditions:
  - (A) DEEDS.-
- (i) NON-FEDERAL LAND.—The conveyance of the land described in paragraph (2)(A) to the Secretary shall be by a quitclaim deed acceptable to the Secretary.
- (ii) FEDERAL LAND.—The instrument of conveyance used to convey the land described in paragraph (2)(B) to S.S.S., Inc. shall contain such reservations, terms, and conditions as the Secretary considers necessary to allow the United States to operate and maintain the Mississippi River 9-Foot Navigation Project.
- (B) REMOVAL OF IMPROVEMENTS.—S.S.S., Inc. may remove any improvements on the land described in paragraph (2)(A). The Secretary may require S.S.S., Inc. to remove any improvements on the land described in paragraph (2)(A). In either case, S.S.S., Inc. shall hold the United States harmless from liability, and the United States shall not incur costs associated with the removal or relocation of any of the improvements.
- (C) TIME LIMIT FOR EXCHANGE.—The land exchange under paragraph (1) shall be completed not later than 2 years after the date of enactment of this Act.
- (D) LEGAL DESCRIPTION.—The Secretary shall provide the legal description of the lands described in paragraph (2). The legal description shall be used in the instruments of conveyance of the lands.
- (4) VALUE OF PROPERTIES.—If the appraised fair market value, as determined by the Secretary, of the land conveyed to S.S.S., Inc. by the Secretary under paragraph (1) exceeds the appraised fair market value, as determined by the Secretary, of the land conveyed to the United States by S.S.S., Inc. under paragraph (1), S.S.S., Inc. shall make a payment equal to the excess in cash or a cash equivalent to the United States.
- (e) CANDY LAKE PROJECT, OSAGE COUNTY, OKLAHOMA.—Section 563(c)(1)(B) of the Water Resources Development Act of 1999 (113 Stat. 357) is amended by striking "a deceased individual" and inserting "an individual".
  - (f) Manor Township, Pennsylvania.—
- (1) IN GENERAL.—In accordance with this subsection, the Secretary shall convey by quitclaim deed to the township of Manor, Pennsylvania, all right, title, and interest of the United States in and to the approximately 113 acres of real property located at Crooked Creek Lake, together with any improvements on the land.
- (2) SURVEY TO OBTAIN LEGAL DESCRIPTION.— The exact acreage and the legal description of the real property described in paragraph (1) shall be determined by a survey that is satisfactory to the Secretary.
- (3) CONSIDERATION.—The Secretary may convey under this subsection without consideration any portion of the real property described in paragraph (1) if the portion is to be retained in public ownership and be used for public park and recreation or other public purposes.
- (4) REVERSION.—If the Secretary determines that any portion of the property con-

- veyed under paragraph (3) ceases to be held in public ownership or to be used for public park and recreation or other public purposes, all right, title, and interest in and to such portion of property shall revert to the Secretary.
- (5) PAYMENT OF COSTS.—The township of Manor, Pennsylvania shall be responsible for all costs associated with a conveyance under this subsection, including the cost of conducting the survey referred to in paragraph (2)
- (g) NEW SAVANNAH BLUFF LOCK AND DAM, SAVANNAH RIVER, SOUTH CAROLINA, BELOW AUGUSTA —
- (1) IN GENERAL.—The Secretary shall convey by quitclaim deed to the city of North Augusta and Aiken County, South Carolina, the lock, dam, and appurtenant features at New Savannah Bluff, including the adjacent approximately 50-acre park and recreation area with improvements of the navigation project, Savannah River Below Augusta, Georgia, authorized by the first section of the River and Harbor Act of July 3, 1930 (46 Stat. 924), subject to the execution of an agreement by the Secretary and the city of North Augusta and Aiken County, South Carolina, that specifies the terms and conditions for such conveyance.
- (2) TREATMENT OF LOCK, DAM, APPURTENANT FEATURES, AND PARK AND RECREATION AREA.—The lock, dam, appurtenant features, adjacent park and recreation area, and other project lands, to be conveyed under paragraph (1) shall not be treated as part of any Federal water resources project after the effective date of the transfer.
- (3) OPERATION AND MAINTENANCE.—Operation and maintenance of all features of the navigation project, other than the lock, dam, appurtenant features, adjacent park and recreation area, and other project lands to be conveyed under paragraph (1), shall continue to be a Federal responsibility after the effective date of the transfer under paragraph (1).
- (h) TRI-CITIES AREA, WASHINGTON.—Section 501(i) of the Water Resources Development Act of 1996 (110 Stat. 3752–3753) is amended—
- (1) by inserting before the period at the end of paragraph (1) the following: "; except that any of such local governments, with the agreement of the appropriate district engineer, may exempt from the conveyance to the local government all or any part of the lands to be conveyed to the local government"; and
- (2) by inserting before the period at the end of paragraph (2)(C) the following: "; except that approximately 7.4 acres in Columbia Park, Kennewick, Washington, consisting of the historic site located in the Park and known and referred to as the Kennewick Man Site and such adjacent wooded areas as the Secretary determines are necessary to protect the historic site, shall remain in Federal ownership".
  - (i) Bayou Teche, Louisiana.—
- (1) IN GENERAL.—After renovations of the Keystone Lock facility have been completed, the Secretary may convey by quitclaim deed without consideration to St. Martin Parish, Louisiana, all rights, interests, and title of the United States in the approximately 12.03 acres of land under the administrative jurisdiction of the Secretary in Bayou Teche, Louisiana, together with improvements thereon. The dam and the authority to retain upstream pool elevations shall remain under the jurisdiction of the Secretary. The Secretary shall relinquish all operations and maintenance of the lock to St. Martin Parish.
- (2) CONDITIONS.—The following conditions apply to the transfer under paragraph (1):

- (A) St. Martin Parish shall operate, maintain, repair, replace, and rehabilitate the lock in accordance with regulations prescribed by the Secretary which are consistent with the project's authorized purposes.
- (B) The Parish shall provide the Secretary access to the dam whenever the Secretary notifies the Parish of a need for access to the dam.
- (C) If the Parish fails to comply with subparagraph (A), the Secretary shall notify the Parish of such failure. If the parish does not correct such failure during the 1-year period beginning on the date of such notification, the Secretary shall have a right of reverter to reclaim possession and title to the land and improvements conveyed under this section or, in the case of a failure to make necessary repairs, the Secretary may effect the repairs and require payment from the Parish for the repairs made by the Secretary.
- (j) Joliet, Illinois.-
- (1) IN GENERAL.—The Secretary shall convey by quitclaim deed without consideration to the Joliet Park District in Joliet, Illinois, all right, title, and interest of the United States in and to the parcel of real property located at 622 Railroad Street in the city of Joliet, consisting of approximately 2 acres, together with any improvements thereon, for public ownership and use as the site of the headquarters of the park district.
- (2) SURVEY TO OBTAIN LEGAL DESCRIPTION.— The exact acreage and the legal description of the real property described in paragraph (1) shall be determined by a survey that is satisfactory to the Secretary.
- (3) REVERSION.—If the Secretary determines that the property conveyed under paragraph (1) ceases to be held in public ownership or to be used as headquarters of the park district or for other purposes, all right, title, and interest in and to such property shall revert to the United States.
  - (k) Ottawa, Illinois.-
- (1) CONVEYANCE OF PROPERTY.—Subject to the terms, conditions, and reservations of paragraph (2), the Secretary shall convey by quitclaim deed to the Young Men's Christian Association of Ottawa, Illinois (in this subsection referred to as the "YMCA"), all right, title, and interest of the United States in and to a portion of the easements acquired for the improvement of the Illinois Waterway project over a parcel of real property owned by the YMCA, known as the "Ottawa, Illinois YMCA Site", and located at 201 E. Jackson Street, Ottawa, La Salle County, Illinois (portion of NE ¼, S11, T33N, R3E 3PM), except that portion lying below the elevation feet National Geodetic Vertical of 461 Datum.
- (2) CONDITIONS.—The following conditions apply to the conveyance under paragraph (1):
- (A) The exact acreage and the legal description of the real property described in paragraph (1) shall be determined by a survey that is satisfactory to the Secretary.
- (B) The YMCA shall agree to hold and save the United States harmless from liability associated with the operation and maintenance of the Illinois Waterway project on the property desscribed in paragraph (1).
- (C) If the Secretary determines that any portion of the property that is the subject of the easement conveyed under paragraph (1) ceases to be used as the YMCA, all right, title, and interest in and to such easement shall revert to the Secretary.
- (1) St. Clair and Benton Counties, Missouri.—
- (1) IN GENERAL.—The Secretary shall convey to the Iconium Fire Protection District,

- St. Clair and Benton counties, Missouri, by quitclaim deed and without consideration, all right, title, and interest of the United States in and to the parcel of land described in paragraph (2).
- (2) LAND DESCRIPTION.—The parcel of land to be conveved under paragraph (1) is the tract of land located in the Southeast 1/4 of Section 13, Township 39 North, Range 25 West, of the Fifth Principal Meridian, St. Clair County, Missouri, more particularly described as follows: Commencing at the Southwest corner of Section 18, as designated by Corps survey marker AP 18-1. thence northerly 11.22 feet to the southeast corner of Section 13, thence 657.22 feet north along the east line of Section 13 to Corps monument 18 1-C lying within the right-ofway of State Highway C, being the point of beginning of the tract of land herein described; thence westerly approximately 210 feet, thence northerly 150 feet, thence easterly approximately 210 feet to the east line of Section 13, thence southerly along said east line, 150 feet to the point of beginning, containing 0.723 acres, more or less.
- (3) REVERSION.—If the Secretary determines that the property conveyed under paragraph (1) ceases to be held in public ownership or to be used as a site for a fire station, all right, title, and interest in and to such property shall revert to the United States.
  - (m) GENERALLY APPLICABLE PROVISIONS.—
- (1) APPLICABILITY OF PROPERTY SCREENING PROVISIONS.—Section 2696 of title 10, United States Code, shall not apply to any conveyance under this section.
- (2) ADDITIONAL TERMS AND CONDITIONS.— The Secretary may require that any conveyance under this section be subject to such additional terms and conditions as the Secretary considers appropriate and necessary to protect the interests of the United States.
- (3) COSTS OF CONVEYANCE.—An entity to which a conveyance is made under this section shall be responsible for all reasonable and necessary costs, including real estate transaction and environmental compliance costs, associated with the conveyance.
- (4) LIABILITY.—An entity to which a conveyance is made under this section shall hold the United States harmless from any liability with respect to activities carried out, on or after the date of the conveyance, on the real property conveyed. The United States shall remain responsible for any liability with respect to activities carried out, before such date, on the real property conveyed.

#### SEC. 586. BRUCE F. VENTO UNIT OF THE BOUND-ARY WATERS CANOE AREA WILDER-NESS, MINNESOTA.

- (a) DESIGNATION.—The portion of the Boundary Waters Canoe Area Wilderness, Minnesota, situated north and cast of the Gunflint Corridor and that is bounded by the United States border with Canada to the north shall be known and designated as the "Bruce F. Vento Unit of the Boundary Waters Canoe Area Wilderness".
- (b) LEGAL REFERENCE.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the area referred to in paragraph (1) shall be deemed to be a reference to the "Bruce F. Vento Unit of the Boundary Waters Canoe Area Wilderness".

# TITLE VI—COMPREHENSIVE EVERGLADES RESTORATION

# SEC. 601. COMPREHENSIVE EVERGLADES RESTORATION PLAN.

- (a) DEFINITIONS.—In this section, the following definitions apply:
- (1) Central and southern florida project.—

- (A) IN GENERAL.—The term "Central and Southern Florida Project" means the project for Central and Southern Florida authorized under the heading "CENTRAL AND SOUTHERN FLORIDA" in section 203 of the Flood Control Act of 1948 (62 Stat. 1176).
- (B) INCLUSION.—The term "Central and Southern Florida Project" includes any modification to the project authorized by this section or any other provision of law.
- (2) GOVERNOR.—The term "Governor" means the Governor of the State of Florida.
- (3) Natural system.—
- (A) IN GENERAL.—The term "natural system" means all land and water managed by the Federal Government or the State within the South Florida ecosystem.
- (B) INCLUSIONS.—The term "natural system" includes—
- (i) water conservation areas;
- (ii) sovereign submerged land;
- (iii) Everglades National Park;
- (iv) Biscayne National Park;
- (v) Big Cypress National Preserve;
- (vi) other Federal or State (including a political subdivision of a State) land that is designated and managed for conservation purposes; and
- (vii) any tribal land that is designated and managed for conservation purposes, as approved by the tribe.
- (4) PLAN.—The term "Plan" means the Comprehensive Everglades Restoration Plan contained in the "Final Integrated Feasibility Report and Programmatic Environmental Impact Statement", dated April 1, 1999, as modified by this section.
  - (5) SOUTH FLORIDA ECOSYSTEM.—
- (A) IN GENERAL.—The term "South Florida ecosystem" means the area consisting of the land and water within the boundary of the South Florida Water Management District in effect on July 1, 1999.
- (B) INCLUSIONS.—The term "South Florida ecosystem" includes—
  - (i) the Everglades;
- (ii) the Florida Keys; and
- (iii) the contiguous near-shore coastal water of South Florida.
- (6) STATE.—The term "State" means the State of Florida.
- (b) Comprehensive Everglades Restoration Plan.—
- (1) Approval.—
- (A) IN GENERAL.—Except as modified by this section, the Plan is approved as a framework for modifications and operational changes to the Central and Southern Florida Project that are needed to restore, preserve, and protect the South Florida ecosystem while providing for other water-related needs of the region, including water supply and flood protection. The Plan shall be implemented to ensure the protection of water quality in, the reduction of the loss of fresh water from, and the improvement of the environment of the South Florida ecosystem and to achieve and maintain the benefits to the natural system and human environment described in the Plan, and required pursuant to this section, for as long as the project is authorized.
- (B) INTEGRATION.—In carrying out the Plan, the Secretary shall integrate the activities described in subparagraph (A) with ongoing Federal and State projects and activities in accordance with section 528(c) of the Water Resources Development Act of 1996 (110 Stat. 3769). Unless specifically provided herein, nothing in this section shall be construed to modify any existing cost share or responsibility for projects as listed in subsection (c) or (e) of section 528 of the Water Resources Development Act of 1996 (110 Stat.

- (2) Specific authorizations.—
- (A) IN GENERAL.—
- (i) PROJECTS.—The Secretary shall carry out the projects included in the Plan in accordance with subparagraphs (B), (C), (D), and (E).
- (ii) CONSIDERATIONS.—In carrying out activities described in the Plan, the Secretary shall—
- (I) take into account the protection of water quality by considering applicable State water quality standards; and
- (II) include such features as the Secretary determines are necessary to ensure that all ground water and surface water discharges from any project feature authorized by this subsection will meet all applicable water quality standards and applicable water quality permitting requirements.
- (iii) REVIEW AND COMMENT.—In developing the projects authorized under subparagraph (B), the Secretary shall provide for public review and comment in accordance with applicable Federal law.
- (B) PILOT PROJECTS.—The following pilot projects are authorized for implementation, after review and approval by the Secretary, at a total cost of \$69,000,000, with an estimated Federal cost of \$34,500,000 and an estimated non-Federal cost of \$34,500,000:
- (i) Caloosahatchee River (C-43) Basin ASR, at a total cost of \$6,000,000, with an estimated Federal cost of \$3,000,000 and an estimated non-Federal cost of \$3,000,000.
- (ii) Lake Belt In-Ground Reservoir Technology, at a total cost of \$23,000,000, with an estimated Federal cost of \$11,500,000 and an estimated non-Federal cost of \$11,500,000.
- (iii) L-31N Seepage Management, at a total cost of \$10,000,000, with an estimated Federal cost of \$5,000,000 and an estimated non-Federal cost of \$5,000,000.
- (iv) Wastewater Reuse Technology, at a total cost of \$30,000,000, with an estimated Federal cost of \$15,000,000 and an estimated non-Federal cost of \$15,000,000.
- (C) INITIAL PROJECTS.—The following projects are authorized for implementation, after review and approval by the Secretary, subject to the conditions stated in subparagraph (D), at a total cost of \$1,100,918,000, with an estimated Federal cost of \$550,459,000 and an estimated non-Federal cost of \$550,459,000:
- (i) C-44 Basin Storage Reservoir, at a total cost of \$112,562,000, with an estimated Federal cost of \$56,281,000 and an estimated non-Federal cost of \$56,281,000.
- (ii) Everglades Agricultural Area Storage Reservoirs—Phase I, at a total cost of \$233,408,000, with an estimated Federal cost of \$116,704,000 and an estimated non-Federal cost of \$116,704,000.
- (iii) Site 1 Impoundment, at a total cost of \$38,535,000, with an estimated Federal cost of \$19,267,500 and an estimated non-Federal cost of \$19,267,500.
- (iv) Water Conservation Areas 3A/3B Levee Seepage Management, at a total cost of \$100,335,000, with an estimated Federal cost of \$50,167,500 and an estimated non-Federal cost of \$50.167.500.
- (v) C-11 Impoundment and Stormwater Treatment Area, at a total cost of \$124,837,000, with an estimated Federal cost of \$62,418,500 and an estimated non-Federal cost of \$62,418,500.
- (vi) C-9 Impoundment and Stormwater Treatment Area, at a total cost of \$89,146,000, with an estimated Federal cost of \$44,573,000 and an estimated non-Federal cost of \$44,573,000.
- (vii) Taylor Creek/Nubbin Slough Storage and Treatment Area, at a total cost of

\$104,027,000, with an estimated Federal cost of \$52,013,500 and an estimated non-Federal cost of \$52,013,500.

- (viii) Raise and Bridge East Portion of Tamiami Trail and Fill Miami Canal within Water Conservation Area 3, at a total cost of \$26,946,000, with an estimated Federal cost of \$13,473,000 and an estimated non-Federal cost of \$13,473,000.
- (ix) North New River Improvements, at a total cost of \$77,087,000, with an estimated Federal cost of \$38,543,500 and an estimated non-Federal cost of \$38,543,500.
- (x) C-111 Spreader Canal, at a total cost of \$94,035,000, with an estimated Federal cost of \$47,017,500 and an estimated non-Federal cost of \$47,017,500.
- (xi) Adaptive Assessment and Monitoring Program, at a total cost of \$100,000,000, with an estimated Federal cost of \$50,000,000 and an estimated non-Federal cost of \$50,000,000.
- (D) Conditions.—
- (i) PROJECT IMPLEMENTATION REPORTS.—Before implementation of a project described in any of clauses (i) through (x) of subparagraph (C), the Secretary shall review and approve for the project a project implementation report prepared in accordance with subsections (f) and (h).
- (ii) SUBMISSION OF REPORT.—The Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate the project implementation report required by subsections (f) and (h) for each project under this paragraph (including all relevant data and information on all costs).
- (iii) FUNDING CONTINGENT ON APPROVAL.—No appropriation shall be made to construct any project under this paragraph if the project implementation report for the project has not been approved by resolutions adopted by the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate.
- (iv) Modified water delivery.—No appropriation shall be made to construct the Conservation Area Decompartmentalization and Sheetflow Enhancement Project (including component AA, Additional S-345 Structures; component QQ Phase 1, Raise and Bridge East Portion of Tamiami Trail and Fill Miami Canal within WCA 3; component QQ Phase 2, WCA 3 Decompartmentalization and Sheetflow Enhancement; and component SS, North New Improvements) or the Central Lakebelt Storage Project (including components S and EEE, Central Lake Belt Storage Area) until the completion of the project to improve water deliveries to Everglades National Park authorized by section 104 of the Everglades National Park Protection and Expansion Act of 1989 (16 U.S.C. 410r-8).
- (E) MAXIMUM COST OF PROJECTS.—Section 902 of the Water Resources Development Act of 1986 (33 U.S.C. 2280) shall apply to each project feature authorized under this subsection.
  - (c) Additional Program Authority.—
- (1) IN GENERAL.—To expedite implementation of the Plan, the Secretary may implement modifications to the Central and Southern Florida Project that—
- (A) are described in the Plan; and
- (B) will produce a substantial benefit to the restoration, preservation and protection of the South Florida ecosystem.
- (2) PROJECT IMPLEMENTATION REPORTS.—Before implementation of any project feature authorized under this subsection, the Secretary shall review and approve for the

project feature a project implementation report prepared in accordance with subsections (f) and (h).

- (3) Funding.—
- (A) INDIVIDUAL PROJECT FUNDING.—
- (i) FEDERAL COST.—The total Federal cost of each project carried out under this subsection shall not exceed \$12,500,000.
- (ii) OVERALL COST.—The total cost of each project carried out under this subsection shall not exceed \$25,000,000.
- (B) AGGREGATE COST.—The total cost of all projects carried out under this subsection shall not exceed \$206,000,000, with an estimated Federal cost of \$103,000,000 and an estimated non-Federal cost of \$103,000,000.
- (d) AUTHORIZATION OF FUTURE PROJECTS.
- (1) IN GENERAL.—Except for a project authorized by subsection (b) or (c), any project included in the Plan shall require a specific authorization by Congress.
- (2) SUBMISSION OF REPORT.—Before seeking congressional authorization for a project under paragraph (1), the Secretary shall submit to Congress—
- (A) a description of the project; and
- (B) a project implementation report for the project prepared in accordance with subsections (f) and (h).
  - (e) Cost Sharing.-
- (1) FEDERAL SHARE.—The Federal share of the cost of carrying out a project authorized by subsection (b), (c), or (d) shall be 50 percent.
- (2) Non-federal responsibilities.—The non-Federal sponsor with respect to a project described in subsection (b), (c), or (d), shall be—
- (A) responsible for all land, easements, rights-of-way, and relocations necessary to implement the Plan; and
- (B) afforded credit toward the non-Federal share of the cost of carrying out the project in accordance with paragraph (5)(A).
- (3) Federal assistance.—
- (A) IN GENERAL.—The non-Federal sponsor with respect to a project authorized by subsection (b), (c), or (d) may use Federal funds for the purchase of any land, easement, rights-of-way, or relocation that is necessary to carry out the project if any funds so used are credited toward the Federal share of the cost of the project.
- (B) AGRICULTURE FUNDS.—Funds provided to the non-Federal sponsor under the Conservation Restoration and Enhancement Program (CREP) and the Wetlands Reserve Program (WRP) for projects in the Plan shall be credited toward the non-Federal share of the cost of the Plan if the Secretary of Agriculture certifies that the funds provided may be used for that purpose. Funds to be credited do not include funds provided under section 390 of the Federal Agriculture Improvement and Reform Act. of 1996 (110 Stat. 1022).
- (4) OPERATION AND MAINTENANCE -Notwithstanding section 528(e)(3) of the Water Resources Development Act of 1996 (110 Stat. 3770), the non-Federal sponsor shall be responsible for 50 percent of the cost of operation, maintenance, repair, replacement, and rehabilitation activities authorized under this section. Furthermore, the Seminole Tribe of Florida shall be responsible for 50 percent of the cost of operation, maintenance, repair, replacement, and rehabilitation activities for the Big Cypress Seminole Reservation Water Conservation Plan Project.
  - (5) CREDIT.—
- (A) IN GENERAL.—Notwithstanding section 528(e)(4) of the Water Resources Development Act of 1996 (110 Stat. 3770) and regardless of the date of acquisition, the value of lands or

- interests in lands and incidental costs for land acquired by a non-Federal sponsor in accordance with a project implementation report for any project included in the Plan and authorized by Congress shall be—
- (i) included in the total cost of the project;
- (ii) credited toward the non-Federal share of the cost of the project.
- (B) Work.—The Secretary may provide credit, including in-kind credit, toward the non-Federal share for the reasonable cost of any work performed in connection with a study, preconstruction engineering and design, or construction that is necessary for the implementation of the Plan if—
- (i)(I) the credit is provided for work completed during the period of design, as defined in a design agreement between the Secretary and the non-Federal sponsor; or
- (II) the credit is provided for work completed during the period of construction, as defined in a project cooperation agreement for an authorized project between the Secretary and the non-Federal sponsor;
- (ii) the design agreement or the project cooperation agreement prescribes the terms and conditions of the credit; and
- (iii) the Secretary determines that the work performed by the non-Federal sponsor is integral to the project.
- (C) TREATMENT OF CREDIT BETWEEN PROJECTS.—Any credit provided under this paragraph may be carried over between authorized projects in accordance with subparagraph (D).
  - (D) PERIODIC MONITORING.—
- (i) IN GENERAL.—To ensure that the contributions of the non-Federal sponsor equal 50 percent proportionate share for projects in the Plan, during each 5-year period, beginning with commencement of design of the Plan, the Secretary shall, for each project—
- (I) monitor the non-Federal provision of cash, in-kind services, and land; and
- (II) manage, to the maximum extent practicable, the requirement of the non-Federal sponsor to provide cash, in-kind services, and land.
- (ii) OTHER MONITORING.—The Secretary shall conduct monitoring under clause (i) separately for the preconstruction engineering and design phase and the construction phase.
- (E) AUDITS.—Credit for land (including land value and incidental costs) or work provided under this subsection shall be subject to audit by the Secretary.
  - (f) EVALUATION OF PROJECTS.—
- (1) In GENERAL.—Before implementation of a project authorized by subsection (c) or (d) or any of clauses (i) through (x) of subsection (b)(2)(C), the Secretary, in cooperation with the non-Federal sponsor, shall complete, after notice and opportunity for public comment and in accordance with subsection (h), a project implementation report for the project.
- (2) Project justification.—
- (A) IN GENERAL.—Notwithstanding section 209 of the Flood Control Act of 1970 (42 U.S.C. 1962–2) or any other provision of law, in carrying out any activity authorized under this section or any other provision of law to restore, preserve, or protect the South Florida ecosystem, the Secretary may determine that—
- (i) the activity is justified by the environmental benefits derived by the South Florida ecosystem; and
- (ii) no further economic justification for the activity is required, if the Secretary determines that the activity is cost-effective.

- APPLICABILITY.—Subparagraph (A) shall not apply to any separable element intended to produce benefits that are predominantly unrelated to the restoration, preservation, and protection of the natural system.
- (g) EXCLUSIONS AND LIMITATIONS.—The following Plan components are not approved for implementation:
- (1) Water included in the plan.—
- (A) IN GENERAL.—Any project that is designed to implement the capture and use of the approximately 245,000 acre-feet of water described in section 7.7.2 of the Plan shall not be implemented until such time as-
- (i) the project-specific feasibility study described in subparagraph (B) on the need for and physical delivery of the approximately 245,000 acre-feet of water, conducted by the Secretary, in cooperation with the non-Federal sponsor, is completed;
- (ii) the project is favorably recommended in a final report of the Chief of Engineers; and
- (iii) the project is authorized by Act of Congress.
- (B) Project-specific feasibility study.— The project-specific feasibility study referred to in subparagraph (A) shall include—
- (i) a comprehensive analysis of the structural facilities proposed to deliver the approximately 245,000 acre-feet of water to the natural system;
- (ii) an assessment of the requirements to divert and treat the water:
- (iii) an assessment of delivery alternatives: (iv) an assessment of the feasibility of delivering the water downstream while maintaining current levels of flood protection to
- (v) any other assessments that are determined by the Secretary to be necessary to complete the study.
  - (2) Wastewater reuse.—

affected property; and

- (A) IN GENERAL.—On completion and evaluation of the wastewater reuse pilot project described in subsection (b)(2)(B)(iv), the Secretary, in an appropriately timed 5-year report, shall describe the results of the evaluation of advanced wastewater reuse in meeting, in a cost-effective manner, the requirements of restoration of the natural system.
- (B) SUBMISSION.—The Secretary shall submit to Congress the report described in subparagraph (A) before congressional authorization for advanced wastewater reuse is sought.
- (3) PROJECTS APPROVED WITH LIMITATIONS.-The following projects in the Plan are approved for implementation with limitations:
- (A) LOXAHATCHEE NATIONAL WILDLIFE REF-UGE.—The Federal share for land acquisition in the project to enhance existing wetland systems along the Loxahatchee National Wildlife Refuge, including the Stazzulla tract, should be funded through the budget of the Department of the Interior.
- (B) SOUTHERN CORKSCREW REGIONAL ECO-SYSTEM.—The Southern Corkscrew regional ecosystem watershed addition should be accomplished outside the scope of the Plan.
  - (h) Assurance of Project Benefits
- (1) IN GENERAL.—The overarching objective of the Plan is the restoration, preservation, and protection of the South Florida Ecosystem while providing for other water-related needs of the region, including water supply and flood protection. The Plan shall be implemented to ensure the protection of water quality in, the reduction of the loss of fresh water from, the improvement of the environment of the South Florida Ecosystem and to achieve and maintain the benefits to the natural system and human environment described in the Plan, and required pursuant

authorized.

- (2) AGREEMENT —
- (A) IN GENERAL.—In order to ensure that water generated by the Plan will be made available for the restoration of the natural system, no appropriations, except for any project described in subsection pilot (b)(2)(B), shall be made for the construction of a project contained in the Plan until the President and the Governor enter into a binding agreement under which the State shall ensure, by regulation or other appropriate means, that water made available by each project in the Plan shall not be permitted for a consumptive use or otherwise made unavailable by the State until such time as sufficient reservations of water for the restoration of the natural system are made under State law in accordance with the project implementation report for project and consistent with the Plan.
  - (B) Enforcement.-
- (i) IN GENERAL.—Any person or entity that is aggrieved by a failure of the United States or any other Federal Government instrumentality or agency, or the Governor or any other officer of a State instrumentality or agency, to comply with any provision of the agreement entered into under subparagraph (A) may bring a civil action in United States district court for an injunction directing the United States or any other Federal Government instrumentality or agency or the Governor or any other officer of a State instrumentality or agency, as the case may be, to comply with the agreement.
- (ii) LIMITATIONS ON COMMENCEMENT OF CIVIL ACTION.—No civil action may be commenced under clause (i)-
- (I) before the date that is 60 days after the Secretary and the Governor receive written notice of a failure to comply with the agreement; or
- (II) if the United States has commenced and is diligently prosecuting an action in a court of the United States or a State to redress a failure to comply with the agree-
- (C) Trust responsibilities.—In carrying out his responsibilities under this subsection with respect to the restoration of the South Florida ecosystem, the Secretary of the Interior shall fulfill his obligations to the Indian tribes in South Florida under the Indian trust doctrine as well as other applicable legal obligations.
  - (3) Programmatic regulations.—
- (A) ISSUANCE.—Not later than 2 years after the date of enactment of this Act, the Secretary shall, after notice and opportunity for public comment, with the concurrence of the Governor and the Secretary of the Interior. and in consultation with the Seminole Tribe of Florida, the Miccosukee Tribe of Indians of Florida, the Administrator of the Environmental Protection Agency, the Secretary of Commerce, and other Federal, State, and local agencies, promulgate programmatic regulations to ensure that the goals and purposes of the Plan are achieved.
- (B) CONCURRENCY STATEMENT.—The Secretary of the Interior and the Governor shall, not later than 180 days from the end of the public comment period on proposed programmatic regulations, provide the Secretary with a written statement of concurrence or nonconcurrence. A failure to provide a written statement of concurrence or nonconcurrence within such time frame will be deemed as meeting the concurrency requirements of subparagraph (A)(i). A copy of any concurrency or nonconcurrency statements shall be made a part of the adminis-

to this section, for as long as the project is trative record and referenced in the final programmatic regulations. Any nonconcurrency statement shall specifically detail the reason or reasons for the nonconcurrence

- (C) CONTENT OF REGULATIONS.—
- (i) IN GENERAL.—Programmatic regulations promulgated under this paragraph shall establish a process-
- (I) for the development of project implementation reports, project cooperation agreements, and operating manuals that ensure that the goals and objectives of the Plan are achieved:
- (II) to ensure that new information resulting from changed or unforeseen circumstances, new scientific or technical information or information that is developed through the principles of adaptive management contained in the Plan, or future authorized changes to the Plan are integrated into the implementation of the Plan; and
- (III) to ensure the protection of the natural system consistent with the goals and purposes of the Plan, including the establishment of interim goals to provide a means by which the restoration success of the Plan may be evaluated throughout the implementation process.
- (ii) LIMITATION ON APPLICABILITY OF PRO-GRAMMATIC REGULATIONS.—Programmatic regulations promulgated under this paragraph shall expressly prohibit the requirement for concurrence by the Secretary of the Interior or the Governor on project implementation reports, project cooperation agreements, operating manuals for individual projects undertaken in the Plan, and any other documents relating to the development, implementation, and management of individual features of the Plan, unless such concurrence is provided for in other Federal or State laws.
  - (D) SCHEDULE AND TRANSITION RULE.—
- (i) IN GENERAL.—All project implementation reports approved before the date of promulgation of the programmatic regulations shall be consistent with the Plan.
- (ii) PREAMBLE.—The preamble of the programmatic regulations shall include a statement concerning the consistency with the programmatic regulations of any project implementation reports that were approved before the date of promulgation of the regulations
- (E) REVIEW OF PROGRAMMATIC REGULA-TIONS.—Whenever necessary to attain Plan goals and purposes, but not less often than every 5 years, the Secretary, in accordance with subparagraph (A), shall review the programmatic regulations promulgated under this paragraph.
  - (4) Project-specific assurances.
  - (A) Project implementation reports.-
- (i) IN GENERAL.—The Secretary and the non-Federal sponsor shall develop project implementation reports in accordance with section 10.3.1 of the Plan.
- (ii) COORDINATION.—In developing a project implementation report, the Secretary and the non-Federal sponsor shall coordinate with appropriate Federal, State, tribal, and local governments.
- (iii) REQUIREMENTS.—A project implementation report shall—
- (I) be consistent with the Plan and the programmatic regulations promulgated under paragraph (3);
- (II) describe how each of the requirements stated in paragraph (3)(B) is satisfied;
- (III) comply with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et

- (IV) identify the appropriate quantity, timing, and distribution of water dedicated and managed for the natural system:
- (V) identify the amount of water to be reserved or allocated for the natural system necessary to implement, under State law, subclauses (IV) and (VI);
- (VI) comply with applicable water quality standards and applicable water quality permitting requirements under subsection (b)(2)(A)(ii);
- (VII) be based on the best available science; and
- (VIII) include an analysis concerning the cost-effectiveness and engineering feasibility of the project.
- (B) PROJECT COOPERATION AGREEMENTS.-
- (i) IN GENERAL.—The Secretary and the non-Federal sponsor shall execute project cooperation agreements in accordance with section 10 of the Plan.
- (ii) CONDITION.—The Secretary shall not execute a project cooperation agreement until any reservation or allocation of water for the natural system identified in the project implementation report is executed under State law.
- (C) OPERATING MANUALS.—
- (i) IN GENERAL.—The Secretary and the non-Federal sponsor shall develop and issue, for each project or group of projects, an operating manual that is consistent with the water reservation or allocation for the natural system described in the project implementation report and the project cooperation agreement for the project or group of projects.
- (ii) MODIFICATIONS.—Any significant modification by the Secretary and the non-Federal sponsor to an operating manual after the operating manual is issued shall only be carried out subject to notice and opportunity for public comment.
  - (5) SAVINGS CLAUSE.—
- (A) NO ELIMINATION OR TRANSFER.—Until a new source of water supply of comparable quantity and quality as that available on the date of enactment of this Act is available to replace the water to be lost as a result of implementation of the Plan, the Secretary and the non-Federal sponsor shall not eliminate or transfer existing legal sources of water, including those for—
  - (i) an agricultural or urban water supply;
- (ii) allocation or entitlement to the Seminole Indian Tribe of Florida under section 7 of the Seminole Indian Land Claims Settlement Act of 1987 (25 U.S.C. 1772e);
- (iii) the Miccosukee Tribe of Indians of Florida;
- (iv) water supply for Everglades National Park: or
- (v) water supply for fish and wildlife.
- (B) MAINTENANCE OF FLOOD PROTECTION.— Implementation of the Plan shall not reduce levels of service for flood protection that are—
- (i) in existence on the date of enactment of this Act; and
  - (ii) in accordance with applicable law.
- (C) NO EFFECT ON TRIBAL COMPACT.—Nothing in this section amends, alters, prevents, or otherwise abrogates rights of the Seminole Indian Tribe of Florida under the compact among the Seminole Tribe of Florida, the State, and the South Florida Water Management District, defining the scope and use of water rights of the Seminole Tribe of Florida, as codified by section 7 of the Seminole Indian Land Claims Settlement Act of 1987 (25 U.S.C. 1772e).
  - (i) DISPUTE RESOLUTION.—
- (1) IN GENERAL.—The Secretary and the Governor shall within 180 days from the date

- of enactment of this Act develop an agreement for resolving disputes between the Corps of Engineers and the State associated with the implementation of the Plan. Such agreement shall establish a mechanism for the timely and efficient resolution of disputes, including—
- (A) a preference for the resolution of disputes between the Jacksonville District of the Corps of Engineers and the South Florida Water Management District;
- (B) a mechanism for the Jacksonville District of the Corps of Engineers or the South Florida Water Management District to initiate the dispute resolution process for unresolved issues:
- (C) the establishment of appropriate timeframes and intermediate steps for the elevation of disputes to the Governor and the Secretary; and
- (D) a mechanism for the final resolution of disputes, within 180 days from the date that the dispute resolution process is initiated under subparagraph (B).
- (2) CONDITION FOR REPORT APPROVAL.—The Secretary shall not approve a project implementation report under this section until the agreement established under this subsection has been executed.
- (3) No EFFECT ON LAW.—Nothing in the agreement established under this subsection shall alter or amend any existing Federal or State law, or the responsibility of any party to the agreement to comply with any Federal or State law.
  - (j) INDEPENDENT SCIENTIFIC REVIEW.-
- (1) IN GENERAL.—The Secretary, the Secretary of the Interior, and the Governor, in consultation with the South Florida Ecosystem Restoration Task Force, shall establish an independent scientific review panel convened by a body, such as the National Academy of Sciences, to review the Plan's progress toward achieving the natural system restoration goals of the Plan.
- (2) REPORT.—The panel described in paragraph (1) shall produce a biennial report to Congress, the Secretary, the Secretary of the Interior, and the Governor that includes an assessment of ecological indicators and other measures of progress in restoring the ecology of the natural system, based on the Plan.
  - (k) OUTREACH AND ASSISTANCE.-
- (1) SMALL BUSINESS CONCERNS OWNED AND OPERATED BY SOCIALLY AND ECONOMICALLY DISADVANTAGED INDIVIDUALS.—In executing the Plan, the Secretary shall ensure that small business concerns owned and controlled by socially and economically disadvantaged individuals are provided opportunities to participate under section 15(g) of the Small Business Act (15 U.S.C. 644(g)).
- (2) COMMUNITY OUTREACH AND EDUCATION.—
- (A) IN GENERAL.—The Secretary shall ensure that impacts on socially and economically disadvantaged individuals, including individuals with limited English proficiency, and communities are considered during implementation of the Plan, and that such individuals have opportunities to review and comment on its implementation.
- (B) PROVISION OF OPPORTUNITIES.—The Secretary shall ensure, to the maximum extent practicable, that public outreach and educational opportunities are provided, during implementation of the Plan, to the individuals of South Florida, including individuals with limited English proficiency, and in particular for socially and economically disadvantaged communities.
- (1) REPORT TO CONGRESS.—Beginning on October 1, 2005, and periodically thereafter until October 1, 2036, the Secretary and the

- Secretary of the Interior, in consultation with the Environmental Protection Agency, the Department of Commerce, and the State of Florida, shall jointly submit to Congress a report on the implementation of the Plan. Such reports shall be completed not less often than every 5 years. Such reports shall include a description of planning, design, and construction work completed, the amount of funds expended during the period covered by the report (including a detailed analysis of the funds expended for adaptive assessment under subsection (b)(2)(C)(xi)), and the work anticipated over the next 5-year period. In addition, each report shall include—
- (1) the determination of each Secretary, and the Administrator of the Environmental Protection Agency, concerning the benefits to the natural system and the human environment achieved as of the date of the report and whether the completed projects of the Plan are being operated in a manner that is consistent with the requirements of subsection (h);
- (2) progress toward interim goals established in accordance with subsection (h)(3)(B); and
- (3) a review of the activities performed by the Secretary under subsection (k) as they relate to socially and economically disadvantaged individuals and individuals with limited English proficiency
- limited English proficiency.

  (m) REPORT ON AQUIFER STORAGE AND RECOVERY PROJECT.—Not later than 180 after the date of enactment of this Act, the Secretary shall transmit to Congress a report containing a determination as to whether the ongoing Biscayne Aquifer Storage and Recovery Program located in Miami-Dade County has a substantial benefit to the restoration, preservation, and protection of the South Florida ecosystem.
- (n) Full Disclosure of Proposed Fund-
- (1) FUNDING FROM ALL SOURCES.—The President, as part of the annual budget of the United States Government, shall display under the heading "Everglades Restoration" all proposed funding for the Plan for all agency programs.
- (2) FUNDING FROM CORPS OF ENGINEERS CIVIL WORKS PROGRAM.—The President, as part of the annual budget of the United States Government, shall display under the accounts "Construction, General" and "Operation and Maintenance, General" of the title "Department of Defense—Civil, Department of the Army, Corps of Engineers—Civil", the total proposed funding level for each account for the Plan and the percentage such level represents of the overall levels in such accounts. The President shall also include an assessment of the impact such funding levels for the Plan would have on the budget year and long-term funding levels for the overall Corps of Engineers civil works program.
- (o) SURPLUS FEDERAL LANDS.—Section 390(f)(2)(A)(1) of the Federal Agriculture Improvement and Reform Act of 1996 (110 Stat. 1023) is amended by inserting after "on or after the date of enactment of this Act" the following: "and before the date of enactment of the Water Resource Development Act of 2000".
- (p) SEVERABILITY.—If any provision or remedy provided by this section is found to be unconstitutional or unenforceable by any court of competent jurisdiction, any remaining provisions in this section shall remain valid and enforceable.

# SEC. 602. SENSE OF CONGRESS CONCERNING HOMESTEAD AIR FORCE BASE.

- (a) FINDINGS.—Congress finds that—
- (1) the Everglades is an American treasure and includes uniquely-important and diverse

wildlife resources and recreational opportunities;

- (2) the preservation of the pristine and natural character of the South Florida ecosystem is critical to the regional economy:
- (3) as this legislation demonstrates, Congress believes it to be a vital national mission to restore and preserve this ecosystem and accordingly is authorizing a significant Federal investment to do so:
- (4) Congress seeks to have the remaining property at the former Homestead Air Base conveyed and reused as expeditiously as possible, and several options for base reuse are being considered, including as a commercial airport; and
- (5) Congress is aware that the Homestead site is located in a sensitive environmental location, and that Biscayne National Park is only approximately 1.5 miles to the east, Everglades National Park approximately 8 miles to the west, and the Florida Keys National Marine Sanctuary approximately 10 miles to the south.
- (b) SENSE OF CONGRESS.—It is the sense of Congress that—
- (1) development at the Homestead site could potentially cause significant air, water, and noise pollution and result in the degradation of adjacent national parks and other protected Federal resources:
- (2) in their decisionmaking, the Federal agencies charged with determining the reuse of the remaining property at the Homestead base should carefully consider and weigh all available information concerning potential environmental impacts of various reuse options:
- (3) the redevelopment of the former base should be consistent with restoration goals, provide desirable numbers of jobs and economic redevelopment for the community, and be consistent with other applicable laws;
- (4) consistent with applicable laws, the Secretary of the Air Force should proceed as quickly as practicable to issue a final SEIS and Record of Decision so that reuse of the former air base can proceed expeditiously;
- (5) following conveyance of the remaining surplus property, the Secretary, as part of his oversight for Everglades restoration, should cooperate with the entities to which the various parcels of surplus property were conveyed so that the planned use of those properties is implemented in such a manner as to remain consistent with the goals of the Everglades restoration plan; and
- (6) by August 1, 2002, the Secretary should submit a report to the appropriate committees of Congress on actions taken and make any recommendations for consideration by Congress.

# TITLE VII—MISSOURI RIVER RESTORATION

#### SEC. 701. DEFINITIONS.

- In this title, the following definitions apply:
- (1) PICK-SLOAN PROGRAM.—The term "Pick-Sloan program" means the Pick-Sloan Missouri River Basin Program authorized by section 9 of the Act of December 22, 1944 (58 Stat. 891).
- (2) PLAN.—The term "plan" means the plan for the use of funds made available by this title that is required to be prepared under section 705(e).
- (3) STATE.—The term "State" means the State of South Dakota.
- (4) TASK FORCE.—The term "Task Force" means the Missouri River Task Force established by section 705(a).
- (6) TRUST.—The term "Trust" means the Missouri River Trust established by section 704(a).

#### SEC. 702. MISSOURI RIVER TRUST.

- (a) ESTABLISHMENT.—There is established a committee to be known as the Missouri River Trust.
- (b) MEMBERSHIP.—The Trust shall be composed of 25 members to be appointed by the Secretary, including—
- (1) 15 members recommended by the Governor of South Dakota that—
- (A) represent equally the various interests of the public; and
  - (B) include representatives of—
- (i) the South Dakota Department of Environment and Natural Resources;
- (ii) the South Dakota Department of Game, Fish, and Parks;
  - (iii) environmental groups;
  - (iv) the hydroelectric power industry;
  - (v) local governments;
- (vi) recreation user groups;
- (vii) agricultural groups; and
- (viii) other appropriate interests;
- (2) 9 members, 1 of each of whom shall be recommended by each of the 9 Indian tribes in the State of South Dakota; and
- (3) 1 member recommended by the organization known as the "Three Affiliated Tribes of North Dakota" (composed of the Mandan, Hidatsa, and Arikara tribes).

#### SEC. 703. MISSOURI RIVER TASK FORCE.

- (a) ESTABLISHMENT.—There is established the Missouri River Task Force.
  (b) MEMBERSHIP.—The Task Force shall be
- composed of—
  (1) the Secretary (or a designee), who shall
- (1) the Secretary (or a designee), who shall serve as Chairperson;
- (2) the Secretary of Agriculture (or a designee):
- (3) the Secretary of Energy (or a designee); (4) the Secretary of the Interior (or a designee); and
  - (5) the Trust
  - (c) Duties.—The Task Force shall—
  - (1) meet at least twice each year;
- (2) vote on approval of the plan, with approval requiring votes in favor of the plan by a majority of the members:
- (3) review projects to meet the goals of the plan; and
- (4) recommend to the Secretary critical projects for implementation.
  - (d) Assessment.
- (1) In GENERAL.—Not later than 1 year after the date on which funding authorized under this title becomes available, the Secretary shall submit to the other members of the Task Force a report on—
- (A) the impact of the siltation of the Missouri River in the State, including the impact on the Federal, State, and regional economies, recreation, hydropower generation, fish and wildlife, and flood control;
- (B) the status of Indian and non-Indian historical and cultural sites along the Missouri River;
- (C) the extent of erosion along the Missouri River (including tributaries of the Missouri River) in the State; and
- (D) other issues, as requested by the Task Force.
- (2) CONSULTATION.—In preparing the report under paragraph (1), the Secretary shall consult with the Secretary of Energy, the Secretary of the Interior, the Secretary of Agriculture, the State, and Indian tribes in the State.
- (e) PLAN FOR USE OF FUNDS MADE AVAILABLE BY THIS TITLE.—
- (1) IN GENERAL.—Not later than 2 years after the date on which funding authorized under this title becomes available, the Task Force shall prepare a plan for the use of funds made available under this title.
- (2) CONTENTS OF PLAN.—The plan shall provide for the manner in which the Task Force

- shall develop and recommend critical restoration projects to promote—
- (A) conservation practices in the Missouri River watershed:
- (B) the general control and removal of sediment from the Missouri River; (C) the protection of recreation on the Mis-
- souri River from sedimentation;
  (D) the protection of Indian and non-Indian
- (E) erosion control along the Missouri (E) erosion control along the Missouri River from erosion;
- River; or
- (F) any combination of the activities described in subparagraphs (A) through (E).
  - (3) PLAN REVIEW AND REVISION.—
- (A) IN GENERAL.—The Task Force shall make a copy of the plan available for public review and comment before the plan becomes final, in accordance with procedures established by the Task Force.
  - (B) REVISION OF PLAN.—
- (i) IN GENERAL.—The Task Force may, on an annual basis, revise the plan.
- (ii) PUBLIC REVIEW AND COMMENT.—In revising the plan, the Task Force shall provide the public the opportunity to review and comment on any proposed revision to the plan.
  - (f) CRITICAL RESTORATION PROJECTS.—
- (1) IN GENERAL.—After the plan is approved by the Task Force under subsection (c)(2), the Secretary, in coordination with the Task Force, shall identify critical restoration projects to carry out the plan.
- (2) AGREEMENT.—The Secretary may carry out a critical restoration project after entering into an agreement with an appropriate non-Federal interest in accordance with section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b).
- (3) INDIAN PROJECTS.—To the maximum extent practicable, the Secretary shall ensure that not less than 30 percent of the funds made available for critical restoration projects under this title shall be used exclusively for projects that are—
- (A) within the boundary of an Indian reservation; or
  - (B) administered by an Indian tribe.
  - (g) Cost Sharing.—
  - (1) Assessment.—
- (A) FEDERAL SHARE.—The Federal share of the cost of carrying out the assessment under subsection (d) shall be 50 percent.
- (B) NON-FEDERAL SHARE.—The non-Federal share of the cost of carrying out the assessment under subsection (d) may be provided in the form of services, materials, or other in-kind contributions.
  - (2) PLAN.—
- (A) FEDERAL SHARE.—The Federal share of the cost of preparing the plan under subsection (e) shall be 50 percent.
- (B) NON-FEDERAL SHARE.—Not more than 50 percent of the non-Federal share of the cost of preparing the plan under subsection (e) may be provided in the form of services, materials, or other in-kind contributions.
  - (3) CRITICAL RESTORATION PROJECTS.—
- (A) IN GENERAL.—A non-Federal cost share shall be required to carry out any critical restoration project under subsection (f) that does not primarily benefit the Federal Government, as determined by the Task Force.
- (B) FEDERAL SHARE.—The Federal share of the cost of carrying out a critical restoration project under subsection (f) for which the Task Force requires a non-Federal cost share under subparagraph (A) shall be 65 percent, not to exceed \$5,000,000 for any critical restoration project.
  - (C) Non-federal share.—

- (i) IN GENERAL.—Not more than 50 percent of the non-Federal share of the cost of carrving out a critical restoration project described in subparagraph (B) may be provided in the form of services, materials, or other in-kind contributions.
- (ii) REQUIRED NON-FEDERAL CONTRIBU-TIONS.—For any critical restoration project described in subparagraph (B), the non-Federal interest shall-
- (I) provide all land, easements, rights-ofway, dredged material disposal areas, and relocations:
- (II) pay all operation, maintenance, replacement, repair, and rehabilitation costs:
- (III) hold the United States harmless from all claims arising from the construction, operation, and maintenance of the project.
- (iii) CREDIT.—The non-Federal interest shall receive credit for all contributions provided under clause (ii)(I).

#### SEC. 704. ADMINISTRATION.

- (a) IN GENERAL.—Nothing in this title diminishes or affects-
  - (1) any water right of an Indian tribe;
- (2) any other right of an Indian tribe, except as specifically provided in another provision of this title;

- (3) any treaty right that is in effect on the date of enactment of this Act:
- (4) any external boundary of an Indian reservation of an Indian tribe;
- (5) any authority of the State that relates to the protection, regulation, or management of fish terrestrial wildlife and cultural and archaeological resources, except as specifically provided in this title: or
- (6) any authority of the Secretary, the Secretary of the Interior, or the head of any other Federal agency under a law in effect on the date of enactment of this Act, includ-
- (A) the National Historic Preservation Act (16 U.S.C. 470 et seq.):
- (B) the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470aa et seq.);
- (C) the Fish and Wildlife Coordination Act (16 U.S.C. 661 et seq.);
- (D) the Act entitled "An Act for the protection of the bald eagle", approved June 8, 1940 (16 U.S.C. 668 et seq.);
- (E) the Migratory Bird Treaty Act (16 U.S.C. 703 et seq.);
- (F) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);
- (G) the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 et seq.);

- (H) the Federal Water Pollution Control
- Act (33 U.S.C. 1251 et seq.);
  (I) the Safe Drinking Water Act (42 U.S.C. 300f et seq.); and
- (J) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).
- (b) FEDERAL LIABILITY FOR DAMAGE.—Nothing in this title relieves the Federal Government of liability for damage to private property caused by the operation of the Pick-Sloan program.
- (c) FLOOD CONTROL.—Notwithstanding any other provision of this title, the Secretary shall retain the authority to operate the Pick-Sloan program for the purposes of meeting the requirements of the Act of December 22, 1944 (58 Stat. 887, 33 U.S.C. 701-1 et sea.).

#### SEC. 705. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to the Secretary to carry out this title \$4,000,000 for each of fiscal years 2001 through 2005, \$5,000,000 for each of fiscal years 2006 through 2009, and \$10,000,000 in fiscal year 2010. Such funds shall remain available until expended.

# EXTENSIONS OF REMARKS

THE WHOLESALE MOTOR FUEL FAIRNESS AND COMPETITION RESTORATION ACT

## HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. THOMPSON of California. Mr. Speaker, today I am introducing the "Wholesale Motor Fuel Fairness and Competition Restoration Act," legislation designed to restore fair and competitive practices to the wholesale sale of motor fuel.

Beyond the per barrel price of crude oil, there are a number of other factors that influence the retail pump price Americans pay for gasoline and diesel fuel, including those related to supply, refining, consumer demand and, most important, oil company cost, pricing and marketing practices.

Several cost, pricing and marketing practices employed by the oil companies are unfair and anti-competitive and contribute to the unjustified price Americans pay for fuel. Under the bill I am introducing today, many of them would be expressly prohibited, if not made more difficult. These practices include price zoning, redlining, discriminatory wholesale fuel pricing, and a complex and complicated system of cost allocation the companies use that hide the factors on which wholesale costs are based and published.

Mr. Speaker, for too long, the residents of California's First Congressional District have paid too much for gasoline. For more than a year, they have paid some of the highest pump prices of any region in the country. For more than a year, they have paid well above \$2-a-gallon for regular unleaded gasoline. Many others across the nation face similar unjustified pricing.

Last month, I met with U.S. Energy Secretary Bill Richardson and brought to his attention the unfair situation that confronts the residents of Northern California. I made it clear that I and my constituents were not satisfied with the degree of attention the Department was paying to gas prices in Northern California and I sent both him and the President letters urging them to improve their scrutiny of oil company practices in California.

Nonetheless, it is clear from my discussions with fuel distributors and independent retailers that the wholesale motor fuel market is unfair and anti-competitive. An independent fuel distributor in my district recently related to me that he is charged a price at the terminal facility that is sometimes 30 cents higher than the price charged to company-owned or franchise distributors. Yet, his profit margin on a gallon of gasoline is at times less than one-half a

Another district resident who owns a number of gas stations is also a victim of some of these predatory pricing practices, but in a dif-

ferent way. In his situation, because of pricing discrimination, he buys motor fuel at a high wholesale price and is forced to sell it for less than he paid for it in order to remain competitive

The bill I am introducing today seeks to stop these unfair and anti-competitive practices.

The "Wholesale Motor Fuel Fairness and Competition Restoration Act" addresses several of the major factors that have been identified by industry experts as contributing to the unfair and unjustified pricing of gasoline, including discriminatory pricing, red-lining, price zoning and company ownership of retail stations

Discriminatory pricing occurs when terminal facility owners and operators charge different prices for gasoline depending on the type of contractual relationship that the station has with the refinery. In my district for example, motor fuel sold through an oil-company owned station wholesales is sometimes twenty to thirty cents less per gallon than motor fuel being sold to an independent. This is patently unfair and anti-competitive.

Price zoning is a long-standing oil company practice of setting artificially high or low prices in certain areas to either maximize profit or impede competition. If a particular city or even a particular intersection is deemed to be especially profitable, oil companies will artificially inflate the price to gouge consumers or artificially deflate the price to driver competitors out of business. This, too, is unfair.

Redlining is the practice engaged in by a terminal facility of refusing to sell motor fuel to a particular retail outlet that in some cases had previously purchased fuel from that facility in an effort to eliminate or harm competition.

The "Wholesale Motor Fuel Fairness and Competition Restoration Act" uses a two-pronged approach to address these unfair practices. First, it requires full disclosure by oil companies of their wholesale pricing practices. This means that oil companies will be required to reveal their pricing structure, including rebates, refunds, and discounts, so that the American people will finally be able to most fully understand how these companies arrive at the price on the gas station sign. Currently, much of this information is not publicly available nor is collected by the Department of Energy's Information Administration.

Secondly, this bill will make it illegal for companies to discriminate on price. It does this by requiring that the price charged at the terminal facility, where gasoline is loaded on tanker trucks, is the same regardless of who is purchasing it. By eliminating the price discrimination between company-owned stations, franchisees, and independent operators, it will for the first time introduce a level playing field into the motor fuel marketplace.

The third component of this legislation addresses oil company ownership of gas stations by mandating the Federal Trade Commission to undertake a study into the relationship be-

tween ownership of gas stations and the high price of motor fuel.

In Humboldt County, California, pump prices continue to exceed \$2.00 for a gallon of regular (unleaded) gasoline, evidencing the unique position of the major oil companies to exert undue influence on the price of motor fuels. In California, the six major refineries in California control 92% of all oil refining in the state, whereas the top six refineries in Texas control only 60% of that state's gasoline production. This inordinate market domination allows companies to practice discriminatory pricing practices that favor some customers over others. It allows them to target certain markets in order to gain unfair advantage and drive out competitors. It is the kind of market practice that warrants the bill I am proposing today.

Mr. Speaker, the Wholesale Motor Fuel Fairness and Competition Restoration Act will restore fairness and competition to the motor fuel industry, not just in California but across the nation. I urge its prompt consideration.

TRANSPORTATION RECALL ENHANCEMENT, ACCOUNTABILITY, AND DOCUMENTATION (TREAD) ACT

SPEECH OF

## HON. TOM SAWYER

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 10, 2000

Mr. SAWYER. Mr. Speaker, in the course of the last century, Akron, Ohio, has built millions of tires. Although passenger tires have not been built in Akron for more than 20 years, Akron remains the center point in research and development, technology, and command and control for this global industry. We care deeply about safety and we are profoundly distressed over the deaths linked to the Firestone tires. The Akron community strongly supports the much-needed overhaul of tire regulation and oversight authority embodied in the Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act.

It is our responsibility to bring tire regulation firmly into the 21st century. The current regulations that make up the Federal Motor Vehicle Safety Standards (FMVSS) Section 109 were written in the mid-1960s, when bias tires still dominated the market. To be fair, National Highway and Transportation Safety Administration (NHTSA) and the tire industry have been working for the last three years to elevate tire standards worldwide.

While we must all work together to demand the safest tire possible, we must also recognize that the industry cannot build a perfect tire. In the early part of the last century, in the days of the Model T, cars carried as many as four spare tires. In the 1950's, there were cars carrying two spares. Today, cars typically

carry only one. But the point remains: the only backup piece of equipment that comes on a car is a spare tire, and it is there on purpose.

Today's tires are complex products. They are highly engineered devices operating in one of the most extraordinarily violent environments of any consumer product we use in our ordinary daily lives. Modern cars develop 100's of horsepower, 100's of pound-feet of torque. They also possess extraordinary cornering power and a steering capacity unsurpassed in the history of the automobile. Today's cars also have braking systems designed to bring thousands of pounds to a halt rapidly. All these forces express themselves through four patches, each the size of a human hand. That tires perform 700 revolutions per mile, mile after mile to 50,000 miles and beyond with such low rates of failure is

Oliver Wendell Holmes Jr. said, "great cases, like hard cases, make bad law." Congress was put under extraordinary pressure to act quickly on an extremely complex issue in developing the TREAD Act. The TREAD Act should not be viewed as a panacea for the recent car tragedies. While the TREAD Act sets higher standards for tire performance, tires will continue to fail. Because of the imperfect nature of the tire, it will take continual attention from the industry, consumer groups, regulators and Congress to assure the safety of tire consumers above and beyond the TREAD Act.

While Congress cannot legislate a perfect tire, this is good law and improves current safety standards. In spite of the time constraints, intricacy of the issue, and politically charged atmosphere, the TREAD Act sets out realistic standards that improve safety and can also be reasonably implemented by the industry and enforced by NHTSA.

First, the Act requires manufacturers to report comprehensive foreign and domestic tire data, such as claims and warranty information, that will help NHTSA uncover safety problems across the world, not just in the United States.

Second, the Act holds NHTSA accountable for any data it receives from manufacturers. The agency must tell Congress how it plans to analyze the data as well as what systems it has in place to process the data. This way Congress and the public knows that the information will be used to help identify safety problems and not filed away behind some regulators desk.

The TREAD Act presents a balanced approach to improving tire safety. Because of this Act, we can expect that when a problem occurs, it is identified, its cause is established, and consumers are better protected. In the end, we crafted a bill that is a significant achievement and moves toward greatly improving consumer safety.

SPECIAL RECOGNITION OF SA-MOAN HEAVYWEIGHT BOXER DAVID TUA

#### HON. ENI F.H. FALEOMAVAEGA

OF AMERICAN SAMOA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, October 17, 2000

Mr. FALEOMAVAEGA. Mr. Speaker, what is it that Olympian gold-medalist volleyballer Eric

Fonoimoana, Junior Seau of the San Diego Chargers, Joe Salvare'a of the Tennessee Titans, Edwin Mulitalo of the Baltimore Ravens, Naomi Mulitauaopele of the Utah Starzz, Marcus Tuiasosopo of the Washington Huskies, All-American UCLA discus thrower Seilala Su'a, Yokozuna Sumo Grand Champion Musashimaru, Ozeki Sumo Champion Konishiki, WWF Wrestling Champion Tuifeai, "The Rock", and heavyweight boxer David Tua all have in common? Mr. Speaker, they are all Samoans. Not Somalians. Mr. Speaker-they are Samoan Polynesians who share the same cultural heritage like the Maoris of New Zealand, the Hawaiians or Kanaka Maoli, Tongans, and Tahitians.

After the elections Mr. Speaker, I suggest to my colleagues and to the millions of boxing fans throughout America, to kick back and turn their TV sets on to HBO and witness one of the most historical events that will transpire on the evening of November 11th in Las Vegas—the world heavyweight boxing championship fight between Lennox Lewis and Samoan heavyweight boxer David Tua.

Mr. Speaker, it is against Samoan tradition to be boastful and arrogant—but as a totally neutral observer and with all due respect—Lennox Lewis is going to painfully wake up the next morning and count how many ribs he has left, and then he will wonder if he was hit by either a dump-truck or a D-nine caterpillar tractor, after fighting against David Tua.

You see, Mr. Speaker, this guy David Tua—he has the heart and soul of a true Polynesian warrior. He's got a nasty left hook and a deadly right hand knockout punch. He only weighs about 250 pounds. He has no neck, and his legs and calves are like tree trunks—which is typical of Samoan men who also wear what we here in America describe as skirts, but they are actually lavalavas.

I want to express my personal thanks and appreciation to the good people of New Zealand—all the pakehas and our Polynesian cousins the Tangata Maohi for looking after David Tua and his family, and for their acceptance of David Tua—and I say to my Maori cousins—"Tena Koutou! Tena Koutou!" Thank you, Thank you!

Mr. Speaker, in describing David Tua's physical presence, I am reminded of a poem that a Hawaiian comedian Frank Delima once wrote about Samoans. By the way, Mr. Speaker, David Tua's favorite past time is writing poetry. Anyway, the poem, in part, is entitled "Abdullah Fata'ai" and it goes like this:

I'm nine feet tall and six feet wide.
I got a neck made of elephant hide
I scrape da haoles off the soles of my feet
I drive my Volkswagen from the back seat

I eat green bananas, tree and all
My favorite game is tackle football
I wear a skirt, but you better not laugh
Cause it won't be funny when I break you in
half

I'm as gentle and sweet as a grizzly bear Only difference is he got more hair

*

I got the nicest smile in all the Pacific I got an island home that's super terrific But I don't like fight and you don't like die So when I say, "Talofa!" you better say, "Hi!"

*

Mr. Speaker, I call upon the Prime Minister of the Independent and Sovereign State of Samoa and the Governor of the U.S. Territory of American Samoa to declare November 11th as National David Tua Day. It will be a day that will be remembered by Samoans throughout the world—the Samoan "David" going up against the Goliath "Lennox Lewis"—and we all know the results of that famous encounter.

I do not know if David Tua is listening to this presentation, Mr. Speaker, but I do know that David Tua is a humble man—never speaks ill of his opponents, and I believe the American people and boxing fans around the world are going to remember him well for his talents, and above all, his sportsmanship like conduct.

As we say in the Samoan language, (the gentleman spoke in Samoan) "la pouliuli lou tino, ma ia malamalama ou mata, ma tafe toto ou ala—ou mama na, David Tua," which means, Mr. Speaker, "May your body be as invisible as the air and may your eyes be as bright as the sun. May you be victorious in battle—all our hopes and aspirations are with you, David Tua."

PAUL HAMM'S 2000 SUMMER OLYMPIC PERFORMANCE APPLAUDED

#### HON. GERALD D. KLECZKA

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. KLECZKA. Mr. Speaker, I rise today to honor an outstanding young man from my district who has recently returned from Sydney, Australia, where he represented his country proudly in Olympic competition. In August Paul Hamm, along with his brother Morgan, became the first set of twins to ever qualify for the United States' men's gymnastics team. At 18, the young men from Waukesha, Wisconsin, are also the second youngest male gymnasts in U.S. Olympic history.

Paul's overall performance earned him a 14th place finish in the all around competition. The Olympics are always a time of pride in our nation's athletes, however this was especially true for the people of southeastern Wisconsin this summer. Paul and Morgan's story gave us all another reason to watch and cheer for two of our own.

Paul has put years of hard work and dedication into perfecting the skills that have taken him to the pinnacle of his sport. He has worked with his coach, Stacy Maloney, since the age of six to earn the right to compete with the best in the world. To reach the Olympic stature at such a young age and with relatively little experience in major events is truly amazing.

Of course Paul would not have been able to reach the heights that he has attained without a strong support system. The natural competition he had with his brother Morgan pushed them both to be their best. Their parents, Sandy and Cecily, are to be commended for the sacrifices that they have made to help their sons reach their goals. From the time Sandy convinced Stacy Maloney to coach his six year old sons to the trip to Sydney, the Hamms have provided their sons with the opportunity to excel.

Paul is not only an exceptional athlete, he is also a role model for the young people of America. Despite squeezing two daily practices in between his classes, he is an honor student at Waukesha South High School. Even though he has missed the entire fall semester, he intends to graduate with the rest of his class next spring. Paul's successes, both in the gym and in the classroom, prove just how much can be accomplished through hard work and dedication.

And so it is with great pleasure that I congratulate Paul Hamm on his Olympic accomplishments, and wish him all the best as he looks forward to a long career leading the U.S. men's gymnastics team into the new century.

TRIBUTE TO CONGRESSMAN TOM BLILEY

SPEECH OF

## HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. STARK. Mr. Speaker, I am going to miss Tom BLILEY. He has been wonderful to work with—always a man of his word, always a gentleman, consistent and honorable in his philosophical approach to government.

We worked together as Chairman and Ranking Member of the old House District of Columbia Committee on a bipartisan basis, reflecting the joint agreement among liberal and the conservative ideas that there should be minimal interference in the internal, local affairs of a group of U.S. citizens who do not have all the rights and privileges of the rest of the nation.

This year, we have worked together to expose the outrageous behavior of some of the nation's largest pharmaceutical manufacturers in abusing Medicare, Medicaid, private insurers, and patients through falsified pricing data. The drug companies are huge contributors to both parties, but Chairman BLILEY has subpoenaed and exposed internal company documents that describe a conspiracy against the American people by companies like Glaxo, Pharmacia, and others. I know there was tremendous pressure not to expose these documents, but Chairman BLILEY did the right thing.

The Nation will miss, I will miss Chairman BLILEY's courtly, quiet presence, and I hope he will stay in contact with us in the years ahead.

HONORING THE CALIFORNIA CONSERVATION CORPS AND THE CALIFORNIA DEPARTMENT OF CONSERVATION

#### HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. THOMPSON of California. Mr. Speaker, I rise today in recognition of the California Conservation Corps and the California Department of Conservation.

The partnership between these agencies have spawned the Salmon Restoration Pro-

gram. Since 1980 the Salmon Restoration Program has improved more than 1,000 stream miles, presented more than 65,000 hours of watershed curricula to tens of thousands of Californians, worked in hundreds of watersheds, and planted well over one million trees.

The California Conservation Corps and the California Department of Conservation are at the forefront of the science of stream salmonid habitat restoration. The Salmon Restoration Program is the largest and longest running project of its kind in the country.

Mr. Speaker, because salmon restoration is an issue of national importance, and because the Salmon Restoration Project has reduced the decline in salmon population, it is appropriate at this time that we acknowledge the outstanding efforts and twenty-year anniversary of California's Salmon Restoration Project.

BUILDING SKILLS FOR AMERICA

#### HON. TOM SAWYER

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. SAWYER. Mr. Speaker, on Wednesday September 20, 2000, more than 300 students from across the country converged to support the Skills USA-VICA's "Building Skills for America" campaign.

These students collected more than 200,000 signatures from business and industry in support of worker training. The enclosed letter, which was signed by forty members of Congress, recognizes the fine work of the students of Skills USA–VICA. I submit the following letter into the CONGRESSIONAL RECORD.

Congress of the United States,  $Washington,\ DC,\ September\ 26,\ 2000.$  Skills USA-VICA,

P.O. Box 3000,

Leesburg, VA.

DEAR STUDENTS: The undersigned Members of Congress applaud and congratulate your participation in the "Building Skills for America" campaign.

America is projected to have 50.6 million job openings between now and 2006, most of which will require highly developed skills. Unfortunately, employers across the country are experiencing difficulty finding enough qualified, skilled employees. This shortage is a threat to our strong economy and hampers the ability of American businesses to compete successfully.

Our nation can do more to promote careers in skilled occupations. Programs such as Skills USA-VICA's "Building Skills for America" demonstrate the strong support for vocational and technical education, as students were able to collect more than 200,000 signatures from business and industry that support worker training.

The "Building Skills for America" campaign is also important because it brings students together with the business and industry that will be their future employers. These partnerships provide students with the occupational and professional experience they need to succeed in the workplace, while at the same time increasing the pool from which industry can draw capable employees.

All of you who have participated in the "Building Skills for America" campaign

should be proud of your accomplishment. We congratulate you for this impressive achievement, and look forward to working with you to ensure that we continue to build a strong and productive American workforce. Sincerely.

Tom Sawyer, John Peterson, and 43 other Members of Congress.

CONGRATULATIONS TO MORGAN HAMM OF WAUKESHA, WISCONSIN, ON HIS OLYMPIC PERFORMANCE

#### HON. GERALD D. KLECZKA

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. KLECKZA. Mr. Speaker, I rise today to honor 18 year-old Morgan Hamm of Waukesha, Wisconsin, on his accomplishments in the 2000 Summer Olympics in Sydney, Australia. In August Morgan and his brother Paul became the second youngest gymnasts to ever qualify for the United States' men's team. The Hamms are also the first set of twins in U.S. Olympic gymnastics history.

Morgan beat out stiff competition to earn an at-large berth onto the team. He returned from Sydney with a 7th place finish in the floor competition. In southeastern Wisconsin the excitement of the Olympics was heightened this year by the knowledge that we would have two home town heroes competing half way around the world.

Morgan's accomplishments are not confined to the gymnasium. Despite squeezing two daily practices in between his classes, he is an honor student at Waukesha South High School. After missing a full semester to tour with the Olympic team, Morgan still intends to graduate with the rest of his class next spring.

As much work as Morgan has put into reaching his goals, he could not have made it on his own. Competing with Paul pushed both twins to be their very best. The sacrifices of their parents, Sandy and Cecily, have provided the Hamms with the opportunity to excel.

The years of work with his brother, their sister Betsy and their coach, Stacy Maloney, has earned Morgan the right to compete with the best in the world. To reach the Olympic stature at such a young age and with relatively little experience in major events is truly amazing.

And so it is with great pleasure that I congratulate Morgan Hamm on all that he accomplished thus far, and wish him all the best in his Olympic endeavors still to come.

# RAISING AWARENESS FOR ANGELMAN'S SYNDROME

## HON. RANDY "DUKE" CUNNINGHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. CUNNINGHAM. Mr. Speaker, I rise today to discuss Angelman's Syndrome after a tragic circumstance in my district illustrated the need for greater awareness of this little known and often misunderstood disease.

Denise and Kyle Marx are parents of Nicholas, a ten-year-old boy with Angelman's Syndrome. Those familiar with special needs children know the demands, but also the tremendous blessings that Nicholas has bestowed on his family. Due to recent events, the need to better understand and treat this disorder has become obvious. Today, Nicolas is in a coma and has only a few months to live after being administered medication that caused an allergic reaction. This happened, in part, because those with Angelman's Syndrome are unable to communicate pain or discomfort and Nicolas was powerless to express the effects that the medication was having on his body. Today, I am asking Congress to make efforts to provide for research so that Angelman's Syndrome can be better understood and treated more effectively.

Angelman's Syndrome is a genetic disorder usually caused by a small deletion of molecules on the long arm of the fifteenth chromosome. In some rare cases, Angelman's can also be caused when a child inherits both long arms of the fifteenth chromosome from the father. The effects of this disease include speech impairment, with minimal or almost no use of words, movement and balance disorder, including a stiff gait and tremulous movement of the limbs, behavioral uniqueness, including excitability, frequent laughter and smiling, flapping movements, and a short attention span. More than 80% of people with Angelman's Syndrome have a delayed or disproportionally slow growth in head circumference and seizures that begin around the age of three. Many other cases include symptoms such as hypopigmentation of the skin and eyes, sucking and swallowing disorders, wide mouth, hyperactive tendon reflexes, sensitivity to heat, and sleep disturbances.

One of the most difficult aspects of Angelman's Syndrome is that the disease is usually not recognized at birth. Diagnosis often does not occur until the child is between the ages of three and seven, when the characteristics become evident. Those with Angelman's Syndrome are born with a normal prenatal history and no major birth defects.

It was only 35 years ago that Dr. Harry Angelman, an English physician, diagnosed Angelman's Syndrome for the first time. The first reports of the disease in North America did not begin to appear until the 1980's. Until very recently, many doctors considered Angelman's Syndrome to be extremely rare and some even doubted its existence. Thankfully, through the Human Genome Project, we have been able to gain a better understanding of this disease. However, we still have a long way to go until we fully understand Angelman's Syndrome.

While we now know that Angelman's Syndrome affects anywhere between 1 in 10,000 and 1 in 30,000, we still have much to learn about the disease and its symptoms. Angelman's Syndrome is only diagnosed through genetic laboratory testing. However, it is often misdiagnosed and mistaken for autism. We need to work toward a better and more comprehensive understanding of the disease, its causes, and the best way to treat it is my hope that through research, we can come to understand and effectively treat Angelman's Syndrome and that the medical

community will develop guidelines for treating HONORING patients with these conditions.

DOBKIN,

IN RECOGNITION OF JAMES FORSYTH—AN EXEMPLARY ACTIVIST

# HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. STARK. Mr. Speaker, today I ask my colleagues to join me in paying recognition to a true progressive activist, Jim Forsyth. As Jim continues to fight tirelessly for labor, the environment, housing, seniors, and civil rights, he is an ever-present voice speaking out wherever there is injustice or human need.

Jim was born on July 14, 1927, Bastille Day in Brooklyn, New York. After graduating from Williams College, where he joined the progressive movement, Jim came to California's Bay Area to work on the assembly line in General Motors. Jim and his late wife Fran were the dutiful parents of five children.

Jim is a member of several progressive groups and organizations. He is proud to have been a part of the pro-union group, the Plant Closure Project. Jim is secretary of the South Hayward Parish and was in charge of food distribution at the Parish for ten years. He distributed food every Saturday morning and most Wednesday. He is currently secretary of the Congress for Seniors handling mailing and developing flyers-many times at his own expense. Jim also lends his expertise to the California Consumers Health Care Council and the Californians for Justice. In 1967, Jim founded the Progressive Hayward Demos Democratic Club and is the current newsletter editor. His other memberships include the Starr King Universal Unitarian Church, the Federation of Retired Union Members, and Vote Health.

Jim has been a long-time opponent of war as a means of solving economic or social problems. He began by speaking out against the Korean War and continued with the Vietnam War when Jim, Fran, and their children marched in numerous protests.

In all of these groups and activities for elections and social change, Jim Forsyth works tirelessly, willingly, and with enthusiasm. He is proud of his work. This is his life and his recreation. He feels responsible for attempting to make the world a better place for working people.

Jim's friends and colleagues will honor his work on October 19, 2000 at a public ceremony. I join his friends and admirers in thanking him for his years of service and I am proud that he has been my friend for several years.

HONORING MILT AND BETTE DOBKIN, HUMBOLDT COUNTY, CALIFORNIA

## HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. THOMPSON of California. Mr. Speaker, I rise today to recognize Milt and Bette Dobkin, two extraordinary citizens of Humboldt County, CA, who have dedicated their lives to public service. They are being honored for their life-long contribution to one of the Nation's most precious rights—participation in the political system. Their actions on behalf of Representative Democracy are worthy of appreciation and recognition.

Bette Dobkin has taken on many roles throughout her years of service to the community. She has been an elementary school teacher, school board member, grand juror, and human rights, housing, and elections commissioner. She currently serves on the board of the Arcata Community Recycling Center and the North Coast Repertory Theater. In her career, she has brought distinction and honor to her profession. Bette has been selected as the "Realtor of the Year" by the Humboldt County Board of Realtors and selected as "Honorary Director for Life" by the California Association of Realtors.

Milt Dobkin has been a recognized leader of higher education in our community for many years. He served as the Vice President of Academic Affairs at Humboldt State University for 14 years before retiring. He is Professor Emeritus of Communication Studies and Vice President for Academic Affairs, Emeritus. Milt has served on many local board, including the Humboldt Arts Council, Dell'Arte, Redwood Arts Council, and Humboldt Child Care Council. He is currently an elected member of the Redwoods Community College District Board of Trustees, Chairman of the Retired Public Employees Association and ably serves the California Faculty Association.

Both Milt and Bette Dobkin are being recognized this year for their outstanding contribution to the political process by the Humboldt County Democratic Central Committee as the "Democrats of the Year, 2000."

Democrats of the Year, 2000.

Mr. Speaker, it is appropriate at this time that we recognize Milt and Bette Dobkin for their unwavering commitment and compassion, and for their contribution to the ideals and traditions that have made America great.

TRIBUTE TO WORKING WARDROBES

#### HON. LORETTA SANCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Ms. SANCHEZ. Mr. Speaker: Today, I rise to pay tribute to one of Orange County's outstanding community service groups, Working Wardrobes. Working Wardrobes is dedicated to assisting survivors of domestic violence achieve self-sufficiency in their lives.

Working Wardrobes began in 1990 when six Orange County business women decided to

initiative a program which would help victims of domestic violence regain their dignity, integrity and self-respect. Over 60,000 women in Orange County are severely beaten each year as a result of domestic violence. This cycle of domestic violence also affects children who are 1,000 times more likely to become abusers themselves.

Through programs such as Career/Life Skills Workshops and Annual "Days of Self-Esteem", survivors are given the extra edge they need to be successful in their search for a career and the confidence needed to make changes in their lives.

Colleagues, please join with me today in recognizing Working Wardrobes for excellence in providing victims of domestic violence with educational programs that have given them a new beginning in life.

CELEBRATING TAFT, CALIFORNIA, 90TH BIRTHDAY

#### HON. WILLIAM M. THOMAS

OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, October 17, 2000

Mr. THOMAS. Mr. Speaker, I want to join my friends and constituents in the community of Taft, California in celebrating Taft's 90th birthday. On November 7th, Taft will be 90 years old and the town has come together to celebrate that fact as part of this year's Oildorado Days celebration, entitled "Blowout 2000". It is a proud celebration of the community's history and ties to the California oil industry.

Taft is an oil town, pure and simple. From the time of oil's discovery in the area in the 1860s, the area around this small western Kern County community has been the focus of oil production. Some of the biggest producing fields in the lower 48 states are located around Taft, fields like Midway-Sunset, Cymric, the Belridge Fields, Buena Vista and Elk Hills. Kern County, California produces more oil than the State of Oklahoma and the people of Taft do much of the work that makes the county so very productive.

The Oildorado celebration Taft holds every five years is one way the community celebrates its link to energy production and lets its hair down—literally, since there is a beard growing contest. People who work hard producing energy get together to celebrate their commitment to a very tough trade. I hope my colleagues will join me in celebrating their pride in their work and in their town with them.

FUNDING FOR PUERTO RICO STATUS OPTIONS

#### HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. GEORGE MILLER of California. Mr. Speaker, I was very pleased that the House passed FY 2001 Department of Transportation Appropriations bill which included the President's request of \$2.5 million to assist in pub-

lic education on, and a public choice among, political status options for Puerto Rico. This request was first left out of the FY 2001 Treasury Appropriations bill but the Transportation Conferees saw fit to restore this funding request during their negotiations.

Puerto Rico has been a part of the United States for more than a century. Over the course of this period, the Puerto Rican people have participated in our democracy. Their sons and daughters have fought our wars and their political leaders keep issues that affect Puerto Rico on the surface of our political discourse. Most importantly, the richness of their people and culture have become a part of what is good about America.

After gaining U.S. citizenship in 1917 and eventually adopting their own constitution to increase self-government, the people of Puerto Rico have consistently sought to fully express their political desires through self-determination. In the past 30 years, Puerto Rico has held three plebiscites to gauge the people's preference on a future political status.

Because of their current status, Congress is responsible for assisting Puerto Rico in their status efforts. In 1999, the House Resources Committee issued a bipartisan report that concluded Federal action is needed to establish a process for resolving Puerto Rico's status.

Congress has a responsibility to remain objective and work with the people of Puerto Rico about the status choices. We should ensure that any option put before the voters of Puerto Rico is acceptable to Congress and we should also make certain that the Puerto Rican electorate is well-informed and educated on what each option can mean to their future.

The funding made available to the President in the FY 2001 Department of Transportation bill is a good step toward assisting with any future plebiscite in Puerto Rico. Congress must now be truthful with the people of Puerto Rico on what their options are and in assuring that Congress will stand by those decisions. We must remain mindful that the United States claimed Puerto Rico. There is no "us against them"—they are part of "us." Puerto Rico self-determination will happen and it is our responsibility that within that process we ensure that the residents of Puerto Rico are fully educated on each status option.

TRIBUTE TO CONGRESSMAN TOM BLILEY

SPEECH OF

#### HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. SENSENBRENNER. Mr. Speaker, I rise today to pay tribute to our distinguished colleague, the Chairman of the Commerce Committee, the gentleman from Virginia, Representative Tom BLILEY. Tom BLILEY has served his constituents in Virginia for over 30 years, both on the local and national levels. His dedication to public service has taken him from the Richmond City Council, to the position of Mayor of Richmond, and then to this House where he has risen to chair this body's oldest committee.

Throughout his legislative career, TOM BLI-LEY has accumulated a list of accomplishments most of us can barely imagine. For the last six years, he has led one of the most successful, efficient, and constructive committees in Congress. He oversaw passage of the Telecommunications Act of 1996, which brought fairness, competition, and increased consumer choice to the industry. He led the charge to override President Clinton's veto of the Contract with America, at the same time overhauling and reforming the nation's securities laws. Finally, Tom BLILEY led the effort needed to pass the Mammography Standard Act of 1998, life-saving legislation that will ensure the quality of many women's lives for years to come.

These are only a few of the legislative accomplishments we attribute to our colleague from Virginia. They illustrate his commitment to sound fiscal principles, a balanced budget, increased opportunities for individuals and small business owners, and common sense government. More importantly, they are among the reasons that TOM BLILEY's constituents know that they can count on him to look after their best interests.

I know I join TOM BLILEY's many friends in Virginia's Seventh Congressional District, as well as his many friends and colleagues here in the House, in wishing him the best in the years to come. He has served us well, and we will all miss the dedication and leadership he brought to his work.

TRIBUTE TO GWEN SESSIONS

### HON. JOHN T. DOOLITTLE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. DOOLITTLE. Mr. Speaker, today, I stand to recognize an outstanding public servant in my district. She is a woman who has dedicated her life to not only raising her own four children, but also teaching and nurturing many small children in her community. I wish to recognize my good personal friend Gwen Sessions who was recently named Elementary School Teacher of the Year in the Rocklin Unified School District

As a kindergarten teacher at Antelope Creek Elementary School. Gwen has touched countless lives for good, both directly and indirectly. She has contributed many hours of behind-the-scenes work by participating in numerous district and school site committees. More importantly, she has earned praise from students, parents, and colleagues for her inspirational style of teaching. She sets clear boundaries for the children and reinforces positive behavior through praise. She is also known for maintaining a well organized yet stimulating classroom that is full of color. In fact, one of her fellow teachers has said, "Her room is a learning lab which exudes personal enthusiasm and warmth. She has an ability to motivate students beyond their natural abilities and helps them reach their greatest potential." As a testament to Mrs. Sessions' involved approach to teaching, one parent has said, "It is not uncommon to find Mrs. Sessions with red painted hands, bright colored clothes, and tiny little hands embraced around her."

The first evidence of what Gwen is doing right is found in the fact that she has one of the largest Parent Volunteer programs at the school every year. High school students, parents, and grandparents enjoy volunteering in her classroom because she makes them feel rewarded for helping out.

In addition to getting involved, many parents have also voiced their appreciation for the excellent way in which Gwen Sessions educates their children. Said one student's mother, "It's always scary turning your child over to their first teacher. It didn't take long, however, for our family to learn to completely trust, respect, and appreciate Mrs. Sessions for all her wonderful gifts she has to offer." Remarked another mother, "The first time I entered Mrs. Sessions kindergarten classroom I know my daughter was in the best hands possible.' One parent and long-time instructional aide puts it this way, "I feel her empathy with people and her desire to inspire others has made the difference in countless lives. She puts her heart and soul into her daily task of making the beginnings of our children's many years in school a joy.

As a final and perhaps supreme tribute, another mother has said, "She makes learning exciting and brings even the shyest of children out of their shell . . . I know we will look back in years to come and say, This teacher made a difference between success and failure."

Congress has made improving education a top priority. As we continue searching for ways to better the educational system, we need to look at the positive things happening in schools across the country. I believe that Gwen Sessions is an excellent example of what is right with America's schools.

To my friend Gwen Sessions, the Rocklin Unified School District Elementary School Teacher of the Year, I say, "Thank you and congratulations on a job well done! Keep up the good work."

RECOGNIZING NATIONAL LEARN-ING DISABILITIES MONTH AND THE NATIONAL CENTER FOR LEARNING DISABILITIES

# HON. ANNE M. NORTHUP

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mrs. NORTHUP. Mr. Speaker, for millions of children with learning disabilities in this country, the future is brighter than any other time in this nation's history. That's because we know today what works for children learning to read. This is important because 90 percent of children with learning disabilities have difficulty with reading.

Learning disabilities, or LD, are neurological disorders that affect people's ability to read, write, compute and participate fully in society. The good news is that if LD is identified early, before the age of nine, the majority of children can work up to their potential. Without early detection, the statistics are sobering.

Thirty-five percent of students identified with learning disabilities drop out of high school.

Fifty percent of juvenile delinquents tested were found to have undetected LD. When of-

fered remedial services, their recidivism rates dropped to below 2 percent.

According to the Office of the Inspector General, learning disabilities and substance abuse are the most common impediments to keeping welfare recipients from becoming and remaining employed.

I have been working with learning disabilities issues in Congress for many years, from identifying educational needs, to calling for additional resources and promoting national policies that take into account the concerns of people with LD.

Important progress has been achieved over the last two decades in identifying and treating children with learning disabilities. This is critical, because our nation is in the grip of a monumental and global change. As opposed to previous generations when the United States was primarily an agricultural and manufacturing-based country, our brave new world of technology has elevated information processing as a required skill in today's workers. And the future will only demand more information technology workers across every profession as the global community expands and competition for enterprise increases.

This is why early identification of children with reading problems, and applying proven strategies to enable them to read, is fundamental to the future success of this great country's economy. More importantly, it is essential for the success of our children and our children's self esteem.

Today, in recognition of National Learning Disabilities Month, the National Center for Learning Disabilities is launching a new initiative aimed at beginning readers. The "Get Ready to Read" program will assess the reading progress of children ages four to five. It will target those at risk for reading failure and provide enrichment activities to strengthen their skills. Parents, teachers, and pediatricians will be involved in creating a "constellation of care" around a child, effectively making sure that early on, before the cycle failure and defeat wreaks its damage, that the child is provided help. And you, no doubt, will hear from your constituents as this program progresses, because an important component of 'Get Ready to Read" is for parents and others to keep their legislators apprised of issues affecting young children with reading problems.

Reading is a basic building block in participating fully in society. In this country of opportunity and promise, we owe it to our children to make sure they learn to read, and read well. I applaud this effort by the National Center for Learning Disabilities to help our youngest Americans to hope, to learn and to succeed.

CONFERENCE REPORT ON H.R. 4205, FLOYD D. SPENCE NATIONAL DE-FENSE AUTHORIZATION ACT FOR FISCAL YEAR 2001

SPEECH OF

# HON. BOB RILEY

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 11, 2000

Mr. RILEY. Mr. Speaker, last year's Defense Appropriations Act (FY 00) contained \$10 mil-

lion for the specific purpose of improving the safeguards for storing classified material held by Department of Defense contractors. It is with deep regret that I must report that the Pentagon refused to release these funds which expired on September 30, 2000. The Assistant Secretary of Defense for Command, Control, Communications and Information, Arthur Money, sent me and a number of other House and Senate members a letter on why the Pentagon chose to ignore the direction of Congress.

Mr. Speaker, beyond the fact that the Clinton/Gore Administration defied the law, their rationale for not complying with a federal security standard is troubling and their basis unfounded. First, on the issue of cost, DOD claims that upgrading existing security containers controlled by contractors by replacing old vulnerable mechanical locks with electronic locks that meet minimum federal security standards (FFL-2740A) would be cost prohibitive. The referenced report of the Joint Security Commission II sites an industry estimate from five contractors that is based on an inflated retail price of the electronic lock which is popularly called the "X07" or "X08" lock, rather than the wholesale price which would be the price of the lock in this upgrade program. This is not the first time that DOD has overestimated the cost of the program in an effort to resist implementation. In 1993, DOD grossly overestimated the cost of upgrading its own mechanical locks at \$500 million, but the internal upgrade only actually cost \$59 million. Based on the number of classified containers held by defense contractors, a lock upgrade program would cost between \$45 million and \$60 million, depending upon how the program was managed.

Secondly, on the issue of threat Mr. Speaker, the physical security threat to classified materials that exists with these 1950's vintage mechanical locks cannot be overstated. The threat is why the GSA established a federal standard in 1989 that requires locks on secure containers to withstand an attempt of twenty man-hours of surreptitious entry. Currently, an "insider" or foreign agent with readily available technology can determine the combination of a mechanical lock in a matter of minutes. Since this "safe cracking" can be done without detection on a mechanical lock, no one would ever know that an "insider" possessed the combination to access classified information including sensitive computer hard drives, laptops and access codes. To combat this problem, all new secure containers are fitted with the X08 lock (the only lock that meets the federal standard), but there are still thousands of mechanical lock containers and, worse yet. bar-locked file cabinets that are being used by contractors to protect our nation's classified information. Until all existing secure containers are upgraded with modern electronic locks, gaping security lapses will continue. No perimeter security apparatus involving guns, gates, quards, alarms, check points and other physical security barriers will protect against the "insider" threat to antiquated mechanical locks.

The Defense Intelligence Agency (DIA) has identified 27 foreign intelligence organizations that have the capability to penetrate these old mechanical locks without leaving a visible

trace. These espionage organizations would likely use "insider" agents for this purpose. In fact, Mr. Money's view that the "insider" threat is of greater concern than the threat of covert entry to a safe or vault is precisely why the electronic lock upgrade is needed. The X07/ X08 lock now possesses features that help ensure accountability and control access. More importantly, the lock also has the capability to be equipped with a time/date stamp feature which would automatically record who entered the safe and when. This audit trail feature is already used with great success by large corporations. By adding this feature to the federal requirements, we add another important counter espionage tool to this virtually impenetrable lock.

I certainly understand the many competing interests that DOD must juggle within a constrained budget, but I cannot accept the Pentagon's view of contractor lock upgrades as being unnecessary, cost prohibitive or without commensurate security benefit. The growing volumes of classified information contained in moveable media (i.e. laptop computers, hard drives, back-up tapes, etc.) that is used by the national security agencies and their contractors, and the need to properly secure this classified material, cannot be pushed aside as a trivial matter. If the Department of Defense shows leadership in the proper handling of classified material, I'm certain that government and contractor employees will take a more serious attitude toward the proper stewardship of the Nation's secrets. The United States cannot afford another security lapse like the missing NEST hard drives at Los Alamos or the missing laptops at the State Department.

INTRODUCTION OF THE INTERNET PRESCRIPTION DRUG CONSUMER PROTECTION ACT OF 2000

#### HON. TOM BLILEY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES  $Tuesday,\ October\ 17,\ 2000$ 

Mr. BLILEY. Mr. Speaker, today, I am introducing bipartisan legislation to help protect consumers from sham sales of prescription drugs over the Internet. Oversight hearings held earlier this year in the Committee on Commerce exposed real problems for consumers. Unscrupulous tactics by some sellers using the Internet must be stopped. The bill is focused on one objective—to allow folks to use the Internet as a useful tool for legitimate sales of prescription drugs.

The bill will do a number of things to enhance protection. First, the bill requires interstate Internet sellers of prescription drugs to disclose important information on their web sites and to State licensing boards. This will improve the reliability of consumer transactions and make it easier for State and Federal enforcement officials to patrol for illegal sellers.

Second, the bill enhances the authority of State attorneys general to seek injunctions against interstate Internet sellers that violate disclosure requirements or certain provisions of the Federal Food, Drug and Cosmetic Act.

Third, the bill enhances Federal authority to restrain the disposal of property that is traceable to certain provisions of the act.

Finally, the bill provides for public education about the dangers of unscrupulous Internet prescription drug sellers who fail to follow the law

Senators JEFFORDS and KENNEDY are introducing an identical companion bill in the other body. This bipartisan legislation has the support of the National Association of Attorneys General, the American Pharmaceutical Association, the American Society of Health-System Pharmacists, the National Consumer League, and Drugstore.com.

I ask my colleagues to support this important measure.

HAPPY BIRTHDAY AND CON-GRATULATIONS FOR A LIFETIME OF SERVICE TO MABEL GRIF-FITH LEGG ON THE OCCASION OF HER 100TH BIRTHDAY

#### HON. CHET EDWARDS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. EDWARDS. Mr. Speaker, I rise to congratulate Mabel Griffith Legg on her 100th birthday and to thank her for becoming a teacher and sharing her life with countless numbers of students during her career. She was born October 6, 1900 on a farm near Athens, Texas and graduated from Palestine High School.

Mabel Legg moved to Waco, Texas, in my Central Texas congressional district, in the 1920s. She passed the teacher certification test during her junior year of high school and later earned her bachelor and master of arts degrees from Baylor University. She taught high school English and directed plays for 26 years at the Waco State Home and for another 14 years at La Vega High School. Through her inspiration many hundreds of her students have made significant contributions to our nation and humanity. She has been a longtime member of Highland Baptist Church where she taught Sunday school for 25 years and where she is still active in Sunday school and Bible study.

I ask members to join me in honoring Mabel Griffith Legg for devoting her lifetime to teaching others and to congratulate her on her 100th birthday. Congratulations and happy birthday, Ms. Legg.

CONFERENCE REPORT ON H.R. 4205, FLOYD D. SPENCE NATIONAL DE-FENSE AUTHORIZATION ACT FOR FISCAL YEAR 2001

SPEECH OF

# HON. MARSHALL "MARK" SANFORD

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 11, 2000

Mr. SANFORD. Mr. Speaker, I rise today in support of H.R. 4205, the Floyd Spence National Defense Authorization Act. It might strike some as odd that I support the Authorization conference report after I opposed the Appropriations bill, and I wanted to spell out why.

Admittedly, I have some disappointment with parts of H.R. 4205:

Base Realignment and Closure Commission—H.R. 4205 does not include funding for two new BRAC rounds, despite the fact that the pentagon has estimated it has an excess base capacity of 23 percent. CBO estimates that two new BRAC rounds would save the Defense Department \$4.7 billion by 2010, and that after completion in 2012, DOD could realize recurring savings of about \$4 billion per year which could then be re-channeled toward better training, readiness and quality of life initiatives. It is my hope that Congress sees fit to include a Base Closure round in next year's hill.

Choice of Aircraft—H.R. 4205 includes funding for research, development and procurement of three different fighter planes (the Navy's F–18 E/F, The Air Force F–22, and the Navy & Air Force Joint Strike Fighter) when there is not a strong consensus that all three fighters are necessary. Some defense experts say the military needs the F–18 and F–22. Some say it needs the JSF instead. Congress' answer is simply to fund all of the fighter planes in question, at the expense of other aircraft (specifically bombers and unmanned aerial aircraft [UAVs]) that, while less glamorous, could prove more useful, while costing much less money and American lives.

Colombia—I have deep reservations about the decision to drop a provision in the House-passed bill that would establish a limit of 500 on the number of U.S. military personnel authorized to be on duty in the Republic of Colombia at any one time. I think that it would be a serious mistake for the U.S. to allow itself to get involved in a civil war in Colombia.

But the conference report does include some very important items:

Health Care Improvement-There are thousands of military retirees in the First District of South Carolina. Each of these retirees was once either a draftee or a recruit. They did their duty with the understanding that after 20 years of service, they were to have access to quality health care when they retired, and that that access would continue for the rest of their lives. That has not been the case. The Defense conference report extends Tricare to military retirees beyond age 65 as a supplement to Medicare. It is my hope that eventually Congress may move to a voucher system, in which the government ensures that vets get the care they deserve, without the accompanying bureaucracy and waiting periods. Any military retiree could simply get health care at the facility of their choice, and then be reimbursed.

Readiness Funding—I'm concerned about the Administration's lack of a coherent national defense strategy. Our men and women in uniform have been dispatched across the globe in peacekeeping and humanitarian operations that are not in the national interest. This is wearing out our soldiers and equipment. Aircraft mission capability rates have declined, spare parts shortages continue, and recruiting and retention of quality personnel has become a major challenge. These problems have left the military less prepared to defend real national interests. The conference report to H.R. 4205 provides an additional \$1.2 billion for critical readiness funding. I would prefer that

Congress and the President turn away from trying to be the world's policeman. But if the Administration insists on dispatching troops across the globe, then Congress must ensure that these troops are at least prepared to carry out the mission.

I might have done things a little differently, but I think that the country's soldiers and military retirees have some serious problems, and the gentleman from South Carolina and his committee have made an honest effort to address those problems. On balance, H.R. 4205 is a fair attempt at assessing and meeting the country's defense needs. I find it disturbing that the Defense Appropriations Act looks so different. There are many unauthorized items in the Appropriations bill, that at least appear more directed toward ensuring victory at the ballot box, rather than on the battlefield.

I choose to base my national security votes on national priorities. Therefore, I support the Defense Authorization Conference Report, but oppose the Defense Appropriations bill.

IN MEMORY OF FREDERICK DEBARROS OF NORWICH, CONNECTICUT

## HON. SAM GEJDENSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. GEJDENSON. Mr. Speaker, I rise today in memory of Frederick DeBarros of Norwich, CT. Mr. DeBarros was a life-long resident of Norwich and gave so much to his community over more than eight decades.

Mr. DeBarros was born in Norwich in March 1914 and attended public schools in the community. He worked for Sears and as a custodian with the Norwich school system until his retirement in 1993. He was also an elder of the Easter Pequot Tribe.

Mr. DeBarros will be remembered by many in the community as a tremendous athlete and an avid sports fan. As a young man, he played for the A.C. Softball Team while later in life he served as an umpire in the Norwich City League. The community has recognized his many athletic accomplishments by including him in the Norwich Sports Hall of Fame. Mr. DeBarros was also a lifetime member of the Sportsmen Athletic Club of Norwich. I am told that he was an intense Yankees fan.

Mr. Speaker, Frederick DeBarros was devoted to his family and his community throughout his long life. I join with his neighbors in offering my condolences to his family and the Eastern Pequot Tribe. We can take comfort in knowing that Mr. DeBarros' memory will live on in Norwich through his many achievements on the field of play and his service to the community.

Congress and the President turn away from trying to be the world's policeman. But if the Administration insists on dispatching troops MEL CARNAHAN

## HON. RICHARD A. GEPHARDT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. GEPHARDT. Mr. Speaker, fate seems especially cruel when wonderful people are taken away in the prime of life, and the death of Governor Carnahan is just such a tragedy. Words alone do not fully describe the sorrow Jane and I and all Missourians feel at the loss of our Governor.

Mel Carnahan was a good man. He was a decent, caring man. He loved his state, and he fought hard for every person in it. A man who considered public service a high calling, Mel had a quiet, humble demeanor and his commitment to families in Missouri made a difference in the lives of millions of people.

A beloved governor, the son of two teachers in the Ozark mountains, Mel worked hard day after day to give every child a chance in life. He was committed to education with a sincere passion.

We extend our deepest sympathy to Mel's wife Jean and their three surviving children; our thoughts and prayers are with them at this difficult moment. Missouri has lost a giant, and, humbly, we will work to ensure that Mel's wonderful, positive, humane spirit lives on in all our lives.

McDONALD'S CORPORATION—EPA WASTE WISE PARTNER OF THE YEAR, OCTOBER 17, 2000

## HON. JUDY BIGGERT

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mrs. BIGGERT. Mr. Speaker, I rise today to recognize the McDonald's Corporation for its exemplary leadership in environmental conservation. McDonald's has been a pioneer in a range of efforts to conserve energy, protect natural resources, and reduce solid waste.

In the past, the Corporation has been honored for its conservation work by major environmental organizations, including the Council on Environmental Quality and the Environmental Protection Agency (EPA). As a result of its comprehensive waste reduction program, McDonald's has received further recognition for its efforts in this area by recently receiving the EPA's prestigious Waste Wise Partner of the Year award.

In 1989, McDonald's partnered with the Environmental Defense Fund (EDF) to develop a comprehensive action plan for reducing waste. This cooperative project laid the foundation for a new approach to solving environmental problems. It served as a model for additional EDF alliances with leading U.S. businesses and also as a catalyst for other corporate/environmental organization partnerships.

The following year, McDonald's established one of the first corporate "buy recycle" programs. The Company also initiated an ongoing series of environmentally friendly changes in

packaging design that continues to this day. In 1992, McDonald's enrolled in EPA's Green Lights program to institutionalize the use of energy efficient lighting and, in 1994, became the very first partner in the EPA WasteWise program.

The impact of these commitments and partnerships has been extraordinary. During the course of the 1900's, McDonald's: Eliminated 297 million pounds of packaging; Recycled 2 billion pounds of corrugated cardboard, thus reducing restaurant waste by 30 percent; Purchased over \$3 billion worth of products made from recycled materials—over 300,000 tons in 1999 alone; and Saved over 510 million kilowatt hours, the equivalent of all the energy used by 14,500 homes over ten years.

These impressive numbers do not tell the whole story. By entering into these partnerships, McDonald's is proving that commitment to the environment and core business interests can go hand in hand. In so doing, they are helping to bring about a new environmental ethic and, in a broader sense, the growth of corporate social responsibility.

The Waste Wise award is an appropriate recognition for such leadership and for McDonald's sustained, effective commitment to making the world a better place. I congratulate the McDonald's corporation and its employees for this outstanding achievement.

IN TRIBUTE TO THE LATE REPRESENTATIVE SIDNEY YATES

# HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. NADLER. Mr. Speaker, I rise today to pay tribute to my friend and colleague, the late Congressman Sidney Yates, who passed away earlier this month. Sid Yates represented the Ninth District of Illinois for close to 50 years with great distinction. He was a man of vision who will be remembered most for his dedication to defending and promoting the arts in America.

Throughout his career, Sid Yates made Federal funding of the arts a priority. He helped push for the legislation establishing the National Endowment for the Arts and worked to steadily increase its budget as chairman of the Interior Appropriations Subcommittee. When the NEA came under attack in 1995, it was Sid Yates who helped lead our efforts to preserve. I was proud to stand with Sid as his passionate and eloquent defense of the NEA and of government's role in the arts helped stave off its elimination.

We mourn his passing, but we should celebrate the many contributions he made to this Chamber. The arts community, in particular, has lost one of its great champions, but his memory will live on in the smiles of the young people who will be introduced to the arts thanks to the efforts of Sidney Yates. I speak for all of those who care deeply about the arts in this country when I say that he will be greatly missed, but will never be forgotten.

CONGRATULATING SOUTH KOREAN PRESIDENT KIM DAE JUNG FOR WINNING THE NOBEL PEACE PRIZE

#### HON. THOMAS M. DAVIS

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. DAVIS of Virginia. Mr. Speaker, I rise today to congratulate South Korean President Kim Dae Jung for winning the Nobel Peace Prize. The Nobel Committee announced the decision to award President Kim based on his "moral strength" to pursue democratic goals despite repeated threats on his life and long periods in exile.

The Committee awarded President Kim with the Nobel Prize not only for his work in bringing democracy to South Korea, but for his efforts to reconcile South Korea with North Korea. To facilitate that goal, President Kim established the "Sunshine Policy" in an attempt to overcome more than fifty years of war and hostility between the two Korean nations. President Kim has said that his struggle against dictatorship was the greater achievement in his life. "Democracy is most important. Only when we uphold human rights and freedom, is our struggle against communism meaningful," said President Kim.

Born on December 3, 1925, President Kim was the second son of four. His father was a farmer on an island in the southwestern province of Cholla. President Kim was a good student and elected a leader of his high school class. However, he learned an early lesson about democracy when he was stripped of his position, after he published an essay condemning the Japanese colonial government that controlled Korea at that time. It would be the first of many sacrifices President Kim would make before being elected to lead South Korea.

Prior to being elected, President Kim was jailed repeatedly by the government of South Korea. He has been placed under house arrest more than 55 times, and has survived many assassination attempts. He has been kidnapped by South Korean agents, sentenced to death by a military court for alleged treason following prodemocracy demonstrations, lived in exile in the United States, and returned to South Korea, before winning the Presidency in 1997.

President Kim was credited with bringing South Korea back from the verge of financial collapse just a few years ago. He committed the country to strict reforms requested by the International Monetary Fund and by doing so, the South Korean economy has made significant strides in less than two years.

President Kim's Sunshine Policy to engage North Korea has produced dramatic, historical results. On June 13 of this year, President Kim traveled to Pyongyang to meet with North Korean President Kim Jon II. The summit opened the way for the first reunion between Korean family members, who had been separated by the Korean war and had not seen one another in 50 years.

President Kim's personal courage and moral character are his foundation in times of adversity; and they have inspired generations of Ko-

reans to keep their faith in freedom. As the Washington Post put it, "He helped prove that freedom is a universal value and democracy a universal desire, not limited by race, continent, or culture." I join my Korean-American constituents in congratulating President Kim on receiving the Nobel Peace Prize for the year 2000

ARLINGTON TRADITIONAL SCHOOL

### HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. MORAN of Virginia. Mr. Speaker, I rise today to commend the parents, students and administrators at Arlington Traditional School. I will be pleased to welcome the students and teachers of this extraordinary school to the Capitol on Thursday, October 19, 2000.

For the last 15 years this school has sponsored an extraordinary summer reading and civics program for its students.

The Reading Challenge was started by its first principal, Dr. Frank Miller, who once spent the day on the roof of the school as a reward to the students for meeting their reading challenge.

Since then, the challenge has grown under the leadership of its present principal, Ms. Holly Hawthorne.

Mr. Speaker, the summer challenge program is based around themes including: "Reading Around the Library," to learn more about the different kinds of books in the library; "Read For the Gold," based on the Summer Olympics; "Reading Around the World in Eight Days," to learn about world geography; "Blast Off to Learning," that included a tour of the planets; "Reading Is Monumental," to learn about important places in Washington, DC and Virginia; and "From Sea to Shining Sea," to learn about the fifty states.

The reward for the students' reading accomplishments has evolved into a celebration of reading known as Reading Carnival Day. Activities have included special events in each classroom, school wide parades, and special guest speakers.

Over the years, the entire school has visited the public library and the Education Center where special guests read their favorite books to the students. In addition, a school-wide field trip was taken to the Air and Space Museum and to Mount Vernon for Colonial Days. These experiences undoubtedly enhance the interactive learning process for students beyond compare.

Mr. Speaker, I take great pride in commending the Arlington Traditional School for its many accomplishments over the past 15 years.

It is through their efforts that the prospect for the future is much brighter.

reans to keep their faith in freedom. As the Washington Post put it, "He helped prove that SCHOOL IN EL PASO, TEXAS ON freedom is a universal value and democracy a THEIR 75TH ANNIVERSARY

#### HON. SILVESTRE REYES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. REYES. Mr. Speaker, I am proud of a high school in my district that continues to show exemplarily results in education. Cathedral High School has a long standing tradition of excellence in El Paso, Texas. The school never falters in its steadfast commitment to teaching and to spiritually guiding young men as they prepare for higher education and for life's many challenges.

Through the vision and dedicated efforts of Bishop Anthony Schuler, the Rev. Robert O'Loughran, and Mr. William Fryer, the Christian Brothers established Cathedral High School in September of 1925. Cathedral High School has withstood the trials of the Great Depression, four wars, changing economic, political, and social conditions and has come out with ever increasing strength. Over 4,300 young men have graduated from Cathedral since 1927. It is a school that is emulated by other schools across the city, state, and even the nation. Over 95% of the Cathedral's students go on to colleges and universities.

The staff of Cathedral High School, both the Christian Brothers and the lay faculty, who's commitment and dedication play an integral part in the Cathedral educational experience, should be commended. Their efforts have contributed to the long-term viability of the school.

While accepting students of all faiths, as a Roman Catholic school, Cathedral's curriculum instills the Catholic heritage and stresses reverence for God, concern for others and personal responsibility. As much as any other aspect of the school, the spiritual emphasis at Cathedral fosters an atmosphere of brotherhood and caring and builds the foundation for life-long friendships. Spirituality, as a guiding principal, should be emulated across our nation. The values that are instilled at Cathedral are fundamental values that are central and important to the functioning of society as a whole.

Daily school prayer, religion classes, and school Mass emphasize God's central role in our lives. As a Catholic myself, God and reverence are personally important to me and I appreciate the commitment that Cathedral makes in insuring that our students will have faith and prayer in their lives. I cannot overstate how important faith in God is to overall success and happiness in life.

Cathedral has continually exhibited strong leadership; a clear vision and sense of mission that is shared by and connected with the school, students, parents, and alumni; high quality teaching; and a safe environment for learning. Cathedral has continually been a pilar of excellence in El Paso. I applaud the role that Cathedral High School plays in the fabric of our culturally diverse community and I wish the school continued success in their next 75 years of teaching excellence in the city of El Paso. Go Fighting Irish!

# PERSONAL EXPLANATION

HON. MICHAEL G. OXLEY

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. OXLEY. Mr. Speaker, I was unavoidably absent from the House chamber for the day of Thursday, October 12th.

CONGRATULATING THE SAN LUIS OBISPO SYMPHONY'S CUARTETO DE LAS MISIONES ON THEIR PERFORMANCE AT THE KENNEDY CENTER IN WASHINGTON, D.C.

# HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mrs. CAPPS. Mr. Speaker, I honor the San Luis Obispo Symphony String Quartet, Cuarteto de las Misiones who have traveled from San Luis Obispo, California to perform tonight at the Kennedy Center's Millennium Stage State Days Series. The Cuarteto is Sharon Holland, Ginette Reitz, Mary Houston, and Ken Hustad.

I had the privilege of nominating the Cuarteto to represent the great state of California for the Kennedy Center's program because they have demonstrated a wonderful commitment to their community, a unique sound, and inspiring talent.

The San Luis Obispo String Quartet has been performing at Central Coast schools for over a decade. Last Spring, the quartet was reorganized and renamed the Cuarteto de las Misiones and began working with local Grammy-nominated composer, musicologist and California Polytechnic State University music professor Dr. Craig Russell to design an in-school program for 3rd and 4th graders.

Dr. Russell has devoted the past several years to uncovering a wealth of music originally performed in California and Mexico during the colonial days. Through his discoveries, he has been able to demonstrate that there was a far richer musical life on the West Coast of the United States than was previously thought. Thanks to Dr. Russell, works by European immigrants to California and Mexico, once performed by the Chumash and Salinan people are being performed again after 200 years of silence.

Cuarteto de las Misiones presents a narrated musical journey comparing the unique styles of mid-18th Century western culture. The quartet's performance this evening will include Dr. Russell's arrangements of the newly rediscovered music of the missions, mountain music and reels of the eastern United States and the chamber music enjoyed in Europe's finest salons.

Mr. Speaker, this exciting new program has not only sparked my interest, but has received notice from the California Arts Council and has become part of their "Rural and Inner City Presenting Program" (RICP). They are a fine example for the community and I am proud to be their Representative.

#### EXTENSIONS OF REMARKS

I would like to give thanks to the San Luis Obispo County Community Foundation and the Hock Family Foundation for their generous support of the Cuarteto de las Misiones, and to the ensemble itself for their invaluable contribution to the Central Coast.

THE STEENS MOUNTAIN COOPERATIVE MANAGEMENT AND PROTECTION ACT OF 2000

### HON. GREG WALDEN

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. WALDEN of Oregon. Mr. Speaker, I would like to share with my colleagues two letters I received concerning the Steens Mountain Cooperative Management and Protection Act of 2000 (H.R. 4828) that was debated on the House Floor on October 4, 2000.

House Resolution 4828 was supported by the entire Oregon congressional delegation and is the product of a long and hard-fought battle to ensure that there was an Oregon solution to an Oregon issue. I submit the following letters into the CONGRESSIONAL RECORD.

THE WILDERNESS SOCIETY'S WILDERNESS SUPPORT CENTER

DEAR CONGRESSMAN WALDEN: Although this bill does not contain everything we wanted, we believe that this is a responsible resolution of a very important issue. This bill will grant lasting protection for the wildlands, wildlife, and waters of the magnificent Steens Mountain region. We support its passage today.

BART KOEHLER,

Director.

Recreation Service Providers on Steens Mountain—

The outfitting and guiding industry has been in existence on a small scale and in a variety of ways on Steens Mountain since the early days of trappers and military scouts. From the early 1900's until the early 1960's outfitters, particularly homesteader Chester Nye and partner Paul Howard, primarily offered hunting and fishing trips to the very wealthy into the inaccessible backcountry of the Steens. The completion of the Steens Mountain Loop Road opened up all of the hunting areas that Nve and Howard depended upon for their enterprise and consequently put them out of business. Shortly after during the mid-1970's, the homestead known as the Nye Place consisting of several guest cabins and a cookhouse on the rim of the Little Blitzen Gorge and which Nye and Howard had used was taken over by Velty Pruitt and his summer camp for girls.

From that time until now, outfitters and guides, otherwise known as recreational service providers, have continually modified the services they offer based on the needs and demands of the outfitted public using Steens Mountain. Currently, Steens Mountain has eight permitted outfitters operating on both public and private lands providing a wide range of recreational services. These current and historical uses include: crosscountry high-altitude running training, big game hunting, upland bird hunting, fishing and heli-fishing, multiple day horse packing, trail riding, multiple day llama packing, backpacking, day hiking, mountain biking,

ATV touring, van/pickup tours, snowmobiling, cross-country and backcountry skiing with and without motorized support (snow machine or helicopter), snow shoeing, and snowcat touring. With all of these activities, many service providers include interpretive and educational information to their programs, and/or use these various modes of transportation or travel to provide interpretive and educational services. Additionally, a number of the permitted recreation service providers have historically conducted activities on private lands that may be transferred into public ownership through this legislation. All of these uses are considered current and historical uses and fall under the purpose of promoting viable recreation operations on Steens Mountain.

It should be noted that while there are thousands of places to go in the United States to engage in outdoor recreation, Steens Mountain is a unique natural attraction and is the chosen vacation destination for nearly 100 percent of the 56,000 people currently coming to the region. In fact beginning in 1975, the Bureau of Land Management began tracking visitor numbers of those using the Steens Mountain Loop Road. these visitor numbers have increased over 278 percent since 1975, and with a new designation will likely continue to increase. There will no doubt be a corresponding growth in the numbers of the outfitted public seeking experiences with the permitted recreation service providers on the Steens. As part of ensuring the viability of the recreation operations on Steens Mountain which is a purpose of this legislation, these permitted recreation service providers should be allowed to meet the growth and additional needs of the outfitted public within the current and historic activities they provide.

Further most outfitters, pre-legislation, have invested a great deal into their recreation service operations and public land permits to provide services to the public. Some of the investments are recent and substantial. Because of this the operators may not have had time to realizes a return on these investments. One example of this, and there are many, is Steens Mountain Packers heliconter supported activities particularly the backcountry ski heli-supported program. A great deal of time and money went into the exploration of the Steens to provide a compatible and safe service to the public. The legislation, designation and future management thereof may terminate the operators opportunity to recoup investments with the possible termination of the activity within a given area, such as wilderness. In staying in conformance with the purpose of the Act, the operator should be appropriately compensated for the loss of revenue from the activity, or exchanged for a reasonable like permit. Because of the uniqueness of the area, a like opportunity may be difficult to provide. It should be noted that an opportunity or permit entirely outside of the area may well not be considered a reasonable option (e.g.—a permit in Catlow Valley would not necessarily be a reasonable alternative to an existing permit within the Blitzen Gorge, nor a permit in Idaho as an alternative to a permit on Steens Mountain.).

CELEBRATING THE BIRTHDAY OF NANCY LONG

### HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mrs. MORELLA. Mr. Speaker, I honor my constituent, Nancy Long, on the occasion of her seventy-second birthday. Nancy Long has been continuously dedicated to community and civic service for, perhaps, longer than anyone in Glen Echo and Montgomery County, Maryland. Ms. Long was first elected to the Glen Echo Town Council in 1969, and reelected every four years thereafter.

Early on, she was appointed as Town liaison to the National Park Service for the C&O Canal National Historical Park, Glen Echo Park, Clara Barton Historic Site, and the George Washington Memorial Parkway. Her efforts have been and continue to be tireless in the pursuit of preservation of the Park, conservation of the Canal, and protection of the Town's environs.

Ms. Long has been a volunteer at Glen Echo Park since 1970 and, in 1986, became one of three original founders of the Glen Echo Park Foundation. She has been reelected to that Board each term since its inception. She organized and directed a successful fund raising campaign to save the Park's beloved Dentzel Carousel, which today is enjoyed by children and adults. This historic artifact is admired by preservationists for its spectacular and painstaking restoration work. The attention to preserving the Park and the existence of the Carousel today, is in no small measure to Nancy's tireless efforts. Her work continues on the Montgomery County Glen Echo Park Working Group, which has been studying the future of the Park and its cultural and arts programs.

In 1975, Ms. Long was selected by then Congressman Gilbert Gude as one of 25 individuals to travel the entire length of the C&O Canal to call attention to the Canal's importance and need for the preservation and conservation of its resources. She is currently one of two Montgomery County representatives to the C&O Canal National Historical Park Advisory Commission. Nancy Long has walked the 184 mile length of the Canal four times, the latest trek occurring in the spring of 2000.

Ms. Long has also served extensively on other boards and commissions. Just a few additional ports on which she served, are: Potomac Valley League, the Montgomery County Committee of the Maryland Historical Trust, and the Potomac River Basin Consortium.

Ms. Long's 72nd birthday will be celebrated by her friends and Glen Echo neighbors today, October 17, 2000. I am proud that she expects to continue her work on behalf of community, conservation, and preservation.

TRIBUTE TO ERNEST T. DIERKING, U.S. FOREST SERVICE DIRECTOR OF LANDS AND MINERALS

## HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. LEWIS of California. Mr. Speaker, when the millions of people who live in Southern California want to escape our perpetual summer for a little winter fun or cool mountain breezes, we head to a refuge thousands of feet above and a world away from the beaches that are our trademark. Just an hour from those beaches lies the San Bernardino National Forest, which today provides thousands of acres of recreational splendor thanks largely to the efforts of one dedicated public servant: Ernest T. Dierking.

Ernest Dierking began his career with the U.S. Forest Service in June 1958, and has dedicated the last 22 years to expanding the San Bernardino National Forest and making sure the pines and mountain vistas are preserved for an appreciative public. He has served as the District Ranger in San Bernardino, and most recently he was Director of Lands and Minerals. In that role, he has acquired 15,990 acres worth \$17 million to be preserved for the public's enjoyment.

Through the efforts of Ernest Dierking, the public can now enjoy hundreds of miles of mountain trails, ski resorts, wildlife watching and peak climbing from the Cucamonga Wilderness on the Los Angeles County line to the Santa Rosa Wilderness in Riverside County.

Mr. Speaker, Ernest Dierking retired from the Forest Service on Sept. 1, ending his 42-year career of accomplishment and public service. Please join me in thanking him for creating a mountain paradise on the edge of our nation's largest urban area, and wishing him well in his future plans.

EULOGY OF MARTIN T. MEEHAN

## HON. MARTIN T. MEEHAN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. MEEHAN. Mr. Speaker, on behalf of my mother, brothers and sisters, my Aunt Katherine and Uncle John, my cousins, and my entire family, I want to thank all of you for joining us today to help celebrate our father's life. We are all honored by your presence and are grateful for your support and affection over the last few days.

I can imagine my father looking out at the long lines forming outside McCabe's Funeral Home yesterday. He would have said, "Frankie McCabe must be giving something out for free!"

Frank isn't, Dad, believe me.

My father was born in Lowell on July 16, 1927 to Martin H. Meehan and Josephine Ashe Meehan. His father immigrated to the United States from County Claire, Ireland in 1912. His mother, who immigrated from County Kerry the year before, was a cousin of the great Irish patriot Thomas Ashe, who died dur-

ing one of the first hunger strikes—in Ireland's fight for freedom in Mount Joy Jail in 1916.

Thomas Ashe's picture was hung on the wall of his family home on Batchelder Street in the Acre Section of Lowell. In 1963, a portrait of President Kennedy was added.

The Acre was where the Greek and Irish immigrants settled in Lowell. My father grew up there and he loved it. Swimming in the canals, playing baseball for St. Patrick's and Lowell High School, and building lifetime bonds. It was a neighborhood where the kids were tough and strong, and everyone had a nickname—hence "Buster." The Acre was where thousands of new immigrant families were becoming part of the great American Dream.

In 1946 Dad met my mother at a party her cousin Maureen Gay had. Dad was not invited, he crashed. And my mother was glad he did. They were married three years later.

My father had a saying for everything in life. Some of them really bugged me at times. But they all had a purpose and wisdom for how to lead a good life.

"One God, One Country, One Woman" he used to say. That—one woman—was my mother. He was passionately in love with her through 51 years of marriage. Their love for each other intensified and grew. I believe the love our father and mother shared for one another was extended to every person who was a part of their lives.

I can remember as a very small boy first learning the concept of love. "I love you kids with all my heart", he'd say. "But I love your mother even more". "But Dad", I once replied, "Who am I supposed to love more? You or Ma?" "You kids should love your mother the most", he'd say. "She gave birth to you."

First they lived in a tenement on Lincoln Street where Colleen and Kathy and I were born. Later they bought an eight room house the next street over at 22 London Street where they raised seven children in a home that was filled with love, laughter, energy . . . action 24 hours a day . . . a strong commitment to the Catholic Church and to family.

It was a great neighborhood—and my father helped us spread our family's love all over it. And there isn't a better testament to that love—than our relationship with the Durkin family who had seven children of their own, just down the street. So many memories, so many stories.

Visiting the ice cream stand with Dad was unforgettable. He would load all of us into the car with as many of our friends as would fit. He would ask us what we wanted. "I'll have a banana split," I'd shout. My sisters would say, "I'll have a hot fudge sundae." Our friends couldn't believe it—they would order a shake or double ice cream scoop with extra nuts, extra whipped cream!

He'd take everyone's order and then go up to the line. "Don't worry," he'd say, "I'll carry it back". Ten minutes later he'd return with 13 single cups of chocolate ice cream. "That's all they'd had" he'd shrug.

Dad was also a very successful little league coach. On Dad's White Sox team everyone played—at least three innings. I remember how embarrassed I was when Dad's White Sox lost every game. 0–18. Some games we were winning after three innings, 8 to 4 or even 7 to 2. But in the fourth inning Dad put

all of the subs in—no matter what. "Everyone plays!" he'd say. The other teams kept the best players in for the whole game. Naturally, they would win.

Today I am so proud of the way my Dad coached the kids on that 0 and 18 team. Today, I am so proud of how my father lived his life.

As children, we shared so many happy times together each summer with family and friends at Seabrook Beach. Later as adults. with his grandchildren, we spent weekends at Dad and Mom's beach house. After a few morning hours together on the beach, Mom and Dad would head back to the house to begin the day-long cooking ritual so that we could have dinner together. Many times in the evenings, we would sing songs around a bonfire on the beach. We enjoyed lobster bakes and thankfully Mom and Dad got to enjoy an occasional sunrise together. And many times, after a long day, many of us would sit together and watch the sun go down and our father would say to us all, "it's a great life and it's a great country."

Dad worked at the Lowell Sun Publishing Company for 43 years. He started as a truck driver * * * became a linotype operator * * * then became Assistant Foreman in the Composing Room. He loved the Sun and the newspaper business, and he knew it from soup to nuts. There were a lot of great reporters that came through the Sun over the years, but my father never hesitated to tell them when he felt they just didn't get it right—especially on a political story.

Frank Phillips, Chris Black, Brian Mooney and others all heard from Dad on more than one occasion. When he was finished he had earned their respect and they appreciated his wisdom and experience. And they all affectionately repeat those stories—even today.

Dad was an active lifetime member of the Typographical Union—serving in a leadership position. He always stressed the importance of workers being able to organize for fair wages and benefits. It's not surprising that my sisters Colleen and Kathy are members of the teachers union and Mark and Paul are active members of their respective unions as well.

But as strong as a Union person as he was—he loved the Lowell Sun and the company's ownership, the Costello family. He followed the Costello kids' lives as if they were his own—always loyal to the company and the Costello family.

Supporting Mom and seven young children was not always easy. For seven years he got a second job working nights as a corrections officer. On Mondays, Tuesdays, and Wednesdays he would get up at 5:30 to be at the Sun to punch in at 7 o'clock. His shift was over at 3:30. He'd put on his uniform at the Paper, punch in at the jail at 4 o'clock and work until midnight. He got home by 12:30 in the morning, and went to bed for five hours so he could be back at the paper by 7 a.m.

I'm sure it wasn't easy—but he wanted the best for his children and he wanted my mother to be able to be home with us.

My father didn't care what we did for work—but he wanted us to get an education. And we all did. He was especially proud of the fact that my sisters, Colleen, Kathy, and Mary all became school teachers. He thought it was

the most important job of all. "Teaching is NOT a job"—Dad would say—"It's a vocation." He loved the idea that his daughters were helping to shape the minds of 25 kids in a classroom each day.

He was so proud of all his children, in a unique and special way. My brother Mark, a master electrician, "has the biggest and best heart of all my kids," he'd say. And Mark gave Dad his newest precious grandchild "Sarah" just two weeks ago. He was so proud that Paul followed him to the Sheriff's Department. Paul is a model for overcoming obstacles and winning. He recently went back to school for his degree, got married, and was promoted to Captain as well.

When I ran for Congress in 1992 my sister Maureen answered the call and put her work—and life—on hold to take the most important job in the campaign—raising the money to win. My Dad just loved the fact that I turned to my sister. And when we won he knew it was Maureen who was the rock behind us. "Politics is a tough business" he'd say—"you need people you can really trust—and that means family." [That's of course why President Kennedy had Bobby.] Of course after the election, I remember Maureen was sick and I asked, "What's wrong with her now?"—Dad's split second response— "Working for you!"

Dad was so well read, a voracious reader * * * A lover of poetry and words, and boy did he love to sing!

So much love in his heart, and this extension of love was felt by his grandchildren and in-laws. The term "in-laws" didn't mean much to Dad—he welcomed them and loved them like they were his own. And they loved him back

All 15 of his grandchildren are loved as individuals and each of them realizes the power of love and family through their papa and munama. One of my young nieces asked during the last couple of days, "How did Papa have so much love to give to so many people?" Well, I really don't know the answer to that for sure. I just know that he did. Every time our father gave us a hug—or as he would say a hug-a-deen—he would accompany it with an "I love you." "Aren't they wonderful," Dad would say. "Your mother and I will live in them in the next generation through these beautiful kids * * * and as I've told you," he'd say, "that's the sweet mystery of life."

So happy, so content, there was NOTHING more in life that he wanted—than that which he already had—His Family.

And he thanked God for our happiness every single day.

Joseph P. Kennedy, Sr., once said that the measure of a man's success in life was not the money he had made, but rather the family he had raised. That quote has been framed in my parent's home over 15 years. My father believed it and devoted himself to family every day of his life for 73 years. He was an immensely successful man.

We love you Dad and will miss you.

RECOGNIZING THE CAREER OF JOSEPH J. MONFREDO

#### HON. JAMES P. McGOVERN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. McGOVERN. Mr. Speaker, I rise today to honor an outstanding member of the Worcester community, Joseph J. Monfredo, who is retiring this month after 36 years of service in the Worcester Public Schools. Throughout his career in the school system, Mr. Monfredo has been a dedicated and enthusiastic leader.

A graduate of Worcester State College and a veteran of the United States Army, Mr. Monfredo began his teaching career in September of 1963 in Leicester, Massachusetts. His first job with the Worcester Public School System came in September of 1964 when he accepted a position at the Elizabeth Street School. Mr. Monfredo taught at several schools and served as assistant and acting principal of the Thorndyke Road School. In August of 1989, he became principal of the Burncoat Preparatory Elementary School, where he has worked for the past 11 years.

For his service to the schools, Mr. Monfredo has been recognized by the Commonwealth Leadership Academy, the Principals' Institute of the Harvard Graduate School of Education and the Alliance for Education.

A former letterman in varsity baseball at Worcester State College, Mr. Monfredo has also been active in school sports programs. He has coached several varsity and junior varsity teams in football, basketball, and baseball, as well as coaching and managing Babe Ruth League baseball teams. Most recently, Mr. Monfredo coached soccer at Burncoat Elementary.

It is my privilege and honor to recognize Joseph Monfredo for his dedication to the students of Worcester, and his 36 years of service to the Worcester Public Schools. While he will no doubt be missed by the many students, teachers, and parents of the Burncoat Preparatory Elementary School, I wish him, his wife, and family continued health and happiness in the future.

IN HONOR OF OLGA ALVAREZ, ANCHOR WOMAN AND REPORTER FOR UNIVISION

#### HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. MENENDEZ. Mr. Speaker, I rise today to honor Olga Alvarez, anchorwoman and reporter for Univision (Channel 41 in NYC). Ms. Alvarez has made it a priority to keep Latinos well informed about current events and news that affects their community, empowering them to participate fully in American society. For her contributions to broadcast journalism, the National Association of Cuban Journalists in Exile will pay tribute to Ms. Alvarez at an event on Sunday. October 15, 2000.

Olga Alvarez was born in Havana, Cuba and was raised in Puerto Rico. Her parents

were musicians, who regularly performed on live television. As a child, Ms. Alvarez was influenced greatly by her parents' television performances, making television her favorite medium.

Ms. Alvarez began her career as a production assistant and producer, working on projects that included documentaries and video news releases produced in the United States, Mexico, and Puerto Rico. During this time, Ms. Alvarez was a correspondent for Telemundo's "La Buena Vida," a program highlighting the accomplishments of Latinos. In addition, she worked as a segment producer for the daily magazine show "Club Telemundo," developing and writing stories regarding medicine, family relations, and important community issues.

At Univision's WXTV 41, Ms. Alvarez began as a writer and later became a reporter, hosting the station's community service program and reporting tri-state area news on "Despierta America."

In 1997 and 1998, Ms. Alvarez was awarded the "Latin A.C.E." from the New York Latino Entertainment Reporters Association. In 1999, Ms. Alvarez won an Emmy for "La Clave De La Salsa," a series on the history of salsa music. In addition, she was awarded First Plaque in the New Jersey Associated Press Broadcasting Association Awards, and second place in the New Jersey Press Awards. Recently, she received an Honorable Mention from the Associated Press for "Regalo De Vida," a series on the importance of liver donation and transplantation.

Today, I honor Olga Alvarez for her extraordinary career in broadcast journalism, and I ask that my colleagues join me in honoring her.

THE NEW SERBIAN LEADERSHIP: WE SHOULD TEMPER REJOICING WITH CAUTION

## HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. LANTOS. Mr. Speaker, the departure of Slobodan Milosevic as President of Yugoslavia was greeted with almost universal rejoicing. More than most other national leaders in recent memory, Mr. Milosevic has come to identified with the excesses and atrocities of nationalism run amuck. Mr. Milosevic encouraged and fostered excessive Serbian nationalism in order to further his own personal political goals, and he bears a heavy responsibility for the barbarities and savagery of the conflicts in Croatia, Bosnia, and Kosova over the past decade. The international community recognized his personal responsibility for events in the former Yugoslavia by indicting him as a war criminal

Mr. Speaker, in Belgrade general enthusiasm greeted the news that Mr. Milosevic had lost the presidential elections and that the people of Serbia would not tolerate his continued political manipulations to preserve himself in power. The change is a welcome one, and one that I sincerely hope will lead to the restoration of stability in the former Yugoslavia.

While the departure of Mr. Milosevic is most welcome, the arrival of Mr. Kostunica does not mean the resolution of all problems involving Serbia. I think it is important that we temper our rejoicing with a note of caution.

It is important, Mr. Speaker, to place these changes in some perspective. This change is not the result of an upsurge of democratic sentiment, nor is it a rejection of the excesses of Serbian nationalism that have resulted in so much bloodshed and violence over the past decade. To a great extent, Mr. Speaker, it is a rejection not of the bankrupt policies of Mr. Milosevic, but a rejection of the consequences of those policies—the economic hardship created by the international sanctions against Serbia, the destruction in Serbia that resulted from the NATO campaign to halt the depredations against the Kosovars, and international isolation.

Mr. Speaker, Leon Wieseltier published an excellent article in the more recent issue of The New Republic (October 23, 2000) which focuses on these critical issues and the significance of the changes in Serbia. I submit excerpts of Mr. Wieselteir's article to be placed in the RECORD, and I urge my colleagues to give his views the thoughtful attention they deserve.

[The New Republic, October 23, 2000] THE TROUBLE WITH EXHILARATION: KOSTUNICA, THEN

(By Leon Wieseltier)

. The uprising in Belgrade established justice incompletely. The limitations of Kostunica and his revolution are disturbing. He is an unembarrassed Serbian nationalist, who does not see or does not wish to see that the tribal sentiment of his people, their "national question," has been not the solution but the problem. He translated The Federalist Papers into Serbo-Croatian, but during the Bosnian war he was sympathetic to the Serb separatism of Radovan Karadzic, and during the buildup to the Kosovo war he was photographed brandishing an automatic rifle in the company of some Kosovar Serbs . . . He has declared that he will not deliver the war criminal whom he has deposed to the tribunal in The Hague, whose legitimacy he has contested. He is a democrat who wants his country to become a member of the European Union, but he welcomes the machinations of the Russian foreign minister, whose government was singularly unmoved by the democratic ascendancy in Serbia.

In all these ways Kostunica seems genuinely representative of his people, whose ethical energies are ominously circumscribed by ethnic energies. The press accounts of the election that Milosevic lost, and of the uprising that followed his refusal to abide by its results, describe a population that was angry about the consequences of the sanctions that the West had imposed upon Milosevic's country, the poverty and the pariahdom. They were also tired of Milosevic's abuses of state power, especially his authoritarian control of the media. What motivated their rebellion, in other words, was their outrage at all that Milosevic had done to them. What was missing from the hue and the cry (at least as it was reported in the Western press) was outrage at what Milosevic had done to others-to Croatians, to Bosnians, to Kosovars. It was not his mass rapes, mass expulsions, and mass murders that brought Milosevic down. What brought him down were the unhappy consequences for Serbia of his failure in his ugly adventures. And the notion that the opprobrium that was visited upon Milosevic's Serbia was in any way deserved—that it was the right result of Belgrade's criminal actions—seems not to have figured prominently in the thinking of the Serbian crowds. They revolted against their leader, but not against themselves.

Is it asking too much that a society revolt against itself? It is surely asking a lot. Yet it has happened before; and there are circumstances in which a new beginning requires nothing less. The weight of history is heavier for being unacknowledged. In this sense, President Clinton erred significantly when he remarked that "this is just as big a blow for freedom as we saw when the Berlin Wall was torn down, when Lech Walesa led the shipyard workers in Poland." This was precisely the wrong parallel. I do not doubt that there are many genuine democrats in Serbia; but the striking fact, the discouraging fact, about the Serbian opposition during the past decade is that it has not been characterized by the stringent and exalted kind of dissidence that was produced elsewhere in the orbit of communism, where figures arose who directed their criticism at the foundations of their own societies, and who expressed their criticism in ferociously universal terms. Kostunica is certainly not such a figure. He is not proposing such a fundamental examination. It has often been remarked that Milosevic's regime was communism surviving in the form of nationalism: but it is important to observe that in Serbia anti-communism, too, takes the form of nationalism. For this reason, it has been only partially an uprising of conscience. And for this reason, one's exhibaration at the denouement in Belgrade is a little spoiled. . . .

# IN MEMORY OF THOMAS D. GRAHAM

### HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. SKELTON. Mr. Speaker, it is with deep sadness that I inform the House of the death of Tom Graham, of Jefferson City, Missouri. He was 77.

Tom, a son of Charles E. and Margaret Cuthbertson Graham, was born on October 14, 1922, in St. Louis. He attended Jefferson City public schools and was a recipient of the Distinguished Alumnus Award. He also attended the University of Missouri. After serving in the Army Air Corps during World War II, Tom practiced law in Jefferson City for 50 years. From 1951 to 1973, he was in the Missouri House of Representatives, serving three terms as Speaker of the House from 1961 to 1967.

Tom was president of the National Legislative Conference from 1966 to 1967, and commissioner of the National Conference on Commissioners on Uniform State Laws. He was vice-chairman of the Missouri-New York World's Fair Commission. Tom was a member of the First Christian Church and a past member of the Jefferson Lodge 43, Ancient Free and Accepted Masons, Ancient and Accepted Orders of Nobles of the Mystic Shrine, Moolah Temple, St. Louis. He was a member of the Missouri Bar, Phi Gamma Delta social fraternity and Phi Delta Phi legal fraternity.

## October 17, 2000

Tom was also involved in many civic activities in Jefferson City. He was on the Board of Directors of the Jefferson City Chamber of Commerce and the Board of Trustees of Memorial Community Hospital. He served as president of the Cole County Chapter, University of Missouri Alumni Association, and the Cole County Bar Association. He was a merit badge counselor for the Boy Scouts of America.

Tom married the late Christine Wood Graham on April 22, 1944. They were married for almost 54 years and had one son, Christopher Graham.

Mr. Speaker, Tom Graham was my good friend and a great American. I know the Members of the House will join me in extending heartfelt condolences to his family.

IN HONOR OF THE FORT WORTH MASJID OF AL-ISLAM

## HON. MARTIN FROST

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. FROST. Mr. Speaker, this weekend in Fort Worth, Texas, it will be my honor and privilege to attend and participate in events which promote racial and religious unity and peace. On October 21, 2000, the Fort Worth Masjid of Al-Islam, under the leadership of Imam Nasir Ahmed, will host a Southwest Regional Pioneer Banquet honoring those it considers to be pioneers in the causes of diversity, religious interaction, Islam, economic development, political awareness and education.

I am humbled to be among a group of honorees which includes religious radio broadcaster and journalist, Robert Ashley; American Jewish Congress Southwest Region executive director, Joel Brooks; community relations consultant, writer and member of the Thanks-Giving Square Interfaith Council, Rose Marie Stromberg, 97-year old founder of the Tarrant County Black Historical and Genealogical Society, Lenora Rolla; long-time Muslim, 95-year old Dave Hassen; and the organizer of Brooks of Baaziga, a Muslim girl's group, Ruby B. Mu-

The work of the Fort Worth Masjid of Al-Islam is, by itself, noteworthy. Yet, the Masjid's efforts are heightened and broadened by the fact that this celebration will include the personage and the teachings of The Honorable Imam Warith Deen Mohammed, leader of the Muslim American Society. Throughout this country and around the world Imam Mohammed is known, respected and admired for his work towards peace, religious freedom and diversity and liberty for all people. On October 22, 2000, the Fort Worth-Dallas area will have the pleasure of receiving his message on "Dealing With Racism From Religion". It is my great pleasure, therefore, to join with the Fort Worth Masjid of Al-Islam, its brothers and sisters in the Dallas Masjid of Al-Islam and the larger Fort Worth-Dallas community in heartily welcoming Imam Mohammed to our community.

#### EXTENSIONS OF REMARKS

NATIONAL AIDS TESTING DAY

#### HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. HOYER. Mr. Speaker, the Human Immunodeficiency Virus (HIV) epidemic is one of the deadliest foes that we have faced in recent history. Like any foe, we must learn all we can about this deadly virus and take appropriate action to halt its assault on society.

One of the first steps in stopping the spread of HIV is to know if one is infected. A recent study showed that 90% of the people who knew their HIV status changed their sexual behavior, thus helping to stop the spread of HIV. This statistic illustrates the importance of knowing one's HIV status. I believe it is essential for all U.S. citizens to be aware of their HIV status. This will not only help them stay healthy, but it is the first step in preventing the transmission of HIV to other.

Unfortunately, many people in this country are unaware of their HIV status. The Centers for Disease Control and Prevention (CDC) estimate that 900,000 people may be infected with HIV and nearly one-third of these individuals or 270,000 are unaware of their HIV sta-

We must ensure that people have access to all FDA approved HIV tests. It is the simplest and cheapest form of prevention.

A barrier to HIV testing is that it is often perceived as painful because some testing requires blood samples taken through needles. Many people fear needles and therefore would rather not be tested than give blood.

I am pleased to learn that there is FDA approved technologies that do not require the use of needles. Companies like Calypte Biomedical, which is located in my own state of Maryland and in California, have focused on developing HIV diagnostic test than do not use needles, such as the HIV urine tests.

Why then are so many not being tested?

It has come to my attention that some facilities within the public health infrastructure are discouraging local community testing groups from using HIV tests that require only a urine sample. Some states have even passed legislation that prevents organizations from accessing FDA approved HIV urine testing technologies.

It is critical that our public health infrastructure, which receives Federal Medicare, Medicaid and block grant funds, supports all FDA approved HIV testing systems. In our efforts to help people learn their HIV status, we must guarantee access to all HIV testing options, like urine testing.

A first step in this direction is to become involved in the upcoming National AIDS Testing Day. The National AIDS Testing Day is coordinated by the National Association of People with AIDS (NAPWA), which Calypte Biomedical supports.

I strongly encourage all of my colleagues to become involved with this effort.

TRIBUTE TO LOWELL PAXSON

### HON. MARK FOLEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. FOLEY. Mr. Speaker, I would like to take this opportunity to recognize a distinguished broadcaster and American, Mr. Lowell 'Bud" Paxson. Mr. Paxson has been involved in the broadcasting industry for over 40 years, providing wholesome and family-friendly programming to millions of people nationwide.

PAX TV, founded by Paxson and

headquartered near my West Palm Beach home, provides safe programming that the whole family can enjoy. This network has been welcomed by American parents seeking an alternative to much of the violent and sexually suggestive programming currently being marketed to America's children. As a result. the popularity of PAX TV has made it the seventh largest television network in the country.

Bud Paxson is a good friend and an upstanding civic leader. Last year, he received the "Entrepreneur of the Year" award by Florida Atlantic University. This year, he received an honorary Doctor of Laws degree by Barry University. This honor is given to individuals who have been recognized for outstanding achievements in their profession, communities, and the world.

Today I want to honor Bud for his excellent corporate example as well as thank him for his friendship and selflessness.

H.R. 5164: TRANSPORTATION RE-CALL ENHANCEMENT, ACCOUNT-ABILITY, AND DOCUMENTATION

## HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. MARKEY. Mr. Speaker, I rise to offer a few brief additional comments on the so-called "TREAD Act," which passed the House last week in order to clarify the intent of one key provision that was added after committee consideration.

The legislation as it arrived on the floor included a provision addressing child restraints. This was a provision that Representative SHIMKUS (R-IL) had promoted and a subject in which we engaged in a colloguv at the Commerce Committee markup on the bill. I am very pleased that this provision was added to the legislation as it was deliberated on the House floor.

Mr. Speaker, it has become increasingly apparent that child restraints are too often marketed for children who are larger and heavier than the anthropomorphic test dummies used by National Highway Traffic Safety Administration (NHTSA) in the sled tests that the agency utilizes. This was highlighted for the Commerce Committee members through the work performed by Consumer Reports magazine. Its independent testing demonstrated that child restraints tested with a child at the highest weight recommended by the manufacturer of

that product failed. The House added the provision dealing with child restraints to the TREAD Act specifically to encourage NHTSA to allow child restraints to be marketed for children at specific weights only if the restraint has been tested at that weight, even its this means adding weights to a dummy during testing.

Although NHTSA's standard specifies that child restraints be tested at an impact of 30 mph, the Consumer Reports investigation uncovered that tests are regularly conducted at speeds as low as 27.6 mph. This 3-mph differential mean that only 81 percent as much energy is going into the crash. Again, the Consumer Reports' testing indicated child restraint failures when testing was carried out at 30 mph.

As a result, I strongly encourage NHTSA to require testing be carried out at speeds of 27.9 to 30.3. American families will be better served by such testing and I thank the Speaker for the opportunity to include these views in the CONGRESSIONAL RECORD as part of the legislative history on this particular provision of the TREAD Act.

TRIBUTE TO THOMAS J. CAULFIELD, INDUCTEE, W.N.Y. BASEBALL HALL OF FAME

# HON. JACK OUINN

OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. QUINN. Mr. Speaker, I rise to salute the individuals who were inducted into the W.N.Y. Baseball Hall of Fame on September 27, 2000 and pay special tribute to Thomas J. (Sarge) Caulfield, inducted posthumously, for his lifelong commitment to baseball, the youth of the City of Buffalo and the local and national community.

Tom, or "Sarge" as he was affectionately referred to, spent a lifetime teaching, coaching, helping and guiding young men throughout the Niagara Frontier. It is not clearly known how Tom acquired the nickname "Sarge" although there were several theories. One involves his uncanny knack of referring to others as Sarge. Another, and probably closer to the reality, holds that it came from his unique ability to take charge of even the most difficult situation, always with an eye for taking care of his charges, and confronting it with his popular refrain, "not a problem."

In his youth. Tom was an outstanding athlete and baseball player and, indeed, considered by some a professional prospect. He received All-High honors as a baseball player at South Park High School in 1933. Moreover, in 1932, he played for the Millers, New York State Legion champions, and for the Haff and Haskins, 1935 Buffalo Municipal Baseball Association (MUNY) champions. In 1938, he moved to coach/manager leading the South Buffalo Businessmen to a MUNY championship behind pitchers Warren Walters and Warren (Lefty) Spahn, who went on to become the winningest left-handed pitcher in major league baseball. Interestingly, it has been said that Tom was instrumental in the purchase of "Lefty" Spahn's first pair of baseball spikes.

Tom's passion for baseball and his commitment to youth development lead him to progress from player, to coach, to manager and, ultimately, to distinguish baseball organization official. In 1969, "Sarge" received a special award from the MUNY league for his outstanding contributions to Western New York baseball. In 1976. Tom served as the president of MUNY baseball. More significantly, in 1968, he was named "Man of the Year" by the National Amateur Baseball Federation (NABF), a national organization dedicated to amateur baseball and known as the "oldest sand lot organization in America, operating continuously since 1914." Tom was praised by the NABF for his overall contributions to amateur baseball and credited as "one of the top fund raisers for the youth of America." "Sarge," who served as NABF president in 1977, was instrumental in getting the City of Buffalo to host the NABF National Tournament and, by all accounts, did such a magnificent job as a host city official, that the NABF honored Buffalo by returning the tournament to our great city the following year. Through his efforts on behalf of and association with the NABF, Tom was memorialized in the baseball hall of fame at Cooperstown, N.Y. As reported at Tom's induction into the Hall of Fame, in the 1960's and 1970's, "Sarge" was probably the most influential person in amateur baseball throughout the United States. "Sarge" also managed for many years the Ramblers. Originally started as a South Buffalo team, expanded over the years, the Ramblers became a highly competitive force in

However, there is another side to Tom Caulfield that deserves special mention because of its impact on Buffalo area youth. Tom, as Superintendent of the Department of Parks for the City of Buffalo, sincerely believed that participation in sports coupled with an opportunity to work, kept youngsters "off the streets." He worked tirelessly in helping his players and others get jobs for the city and elsewhere. In fact, it has often been repeated by former players and employees that if it were not for the tutelage, encouragement and guidance of the "Sarge," the positive life choices they made would never have been available. One example of his commitment to lend a helping hand, even when not expected, involves a city worker who was experiencing an increasingly troublesome attendance problem. Even though Tom was the head of the Department and receiving pressure from the supervisor, who worked for Tom, to fire the individual, he got up early one morning and drove to the delinquent worker's house and woke him up to take him to work. When the worker complained that Tom had no right to come to his house, Tom calmly pointed to and named the worker's four children and wife as the basis of his right to take such action. The attendance problem was solved.

local amateur baseball.

Although Tom was better known for his practicality and problem-solving acumen, he was also deeply philosophical about parks and recreation. With the passion and understanding generally attributed to the preeminent urban planners and landscape architects of our time, Tom, sincerely believed, and practically applied, during his long tenure with the Parks Department, the concept that harmo-

nious urban living demanded adequate opportunities for individuals to recreate. His pride and efforts in the development and maintenance of recreational outlets was formally recognized in 1974 when the Buffalo Recreation Society presented him with its Outstanding Service Award.

Finally, in spite of all his work on behalf of others, Tom utilized his unique talents and considerable energy to balance his outside activities with an extreme dedication to his own family. Therefore, it is with great pleasure and pride that I join Tom's family, especially his wife Mary (Hanratty), who passed away in 1999; his daughter Marilynn; his sons Mark J., John T., and Thomas E.; his grandchildren John, Alyson, Liam, Lauren, John A. (Jace), Molly; his great grandchildren Rachel, Bridget and great-great grandchild, Maria Christina; his former players, proteges, employees, friends, and a grateful city in giving special recognition for his induction into the W.N.Y. Hall of Fame and his immeasurable contributions to youth development in the Buffalo area.

Mr. Speaker, if the measure of a man's life is his positive influence on others, it can be said, without equivocation, that the legacy of Thomas J. Caulfield will continue for generations through the lives of those he mentored and touched.

# WELCOMING TRADITIONS!

### HON. TOM UDALL

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. UDALL of New Mexico. Mr. Speaker, I would like to bring to your attention the grand opening of Traditions! which is located in my district. Let me first start by thanking Michael Gallegos and James Long and the many others who have worked so hard to establish a shopping and cultural center that keeps alive the culture, traditions and heritage of New Mexico.

While New Mexico proudly proclaims itself as the State of many cultures—some call it a melting pot, others a mosaic—we all have at least one thing in common, and that is keeping together our strong connection to the history and traditions of our state. The heritage of those cultures is rich and proud, is very much alive here today, and one which should be cherished and passed on.

Traditions! has been boasted in various articles as most likely being the largest incubator program for start-up retail businesses my state has ever seen. Traditions! is one of the few multicultural centers in the country that showcases and preserves New Mexico's unique rich, and historical cultures.

This center will contain unique stores and shops that will showcase Indian and Hispanic Arts. Visitors find restaurants which reflect the culinary specialties of New Mexico—like posole, tortillas and green chile burgers. The center will serve as a gathering place where both residents and tourists can come to learn about the culture and traditions of New Mexico.

Native American, Spanish, Mexican, and Anglo cultures will all be featured during year round events and performances—such as exhibits, shows, and festivals.

The economic impact that the center will have is also impressive. More than a hundred jobs will be created, and over a thousand artists will be invited to showcase and sell their work.

That is why Traditions! is so relevant. For our future to be as promising as our past has been successful, we need to keep alive the cultural traditions, history, and heritage of our state. This center not only contributes to the economy of our state—it also helps to preserve our history and spirit.

# DOMESTIC VIOLENCE AWARENESS MONTH

## HON. EARL POMEROY

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. POMEROY. Mr. Speaker, during the month of October, people across the nation will don purple ribbons in support of National Domestic Violence Awareness Month. As an effort to increase public awareness of a problem that causes anguish to so many, residents in my home state of North Dakota, as well as across the nation, will participate in myriad events, such as candlelight vigils, "Take Back the Night" rallies, and other educational demonstrations.

Domestic violence is one of our nation's most prevalent, yet misunderstood, tragedies. The North Dakota Council on Abused Women's Services recently released statistics concerning domestic violence and sexual assault in 1999 that should alarm us all. Last year, 5,821 incidents of domestic violence were reported to crisis intervention centers in North Dakota. These incidents involved 3,597 new victims. Among the victims, 95% were women, 37% were under the age of 30, and 2% were under the age of 18.

The North Dakota Council on Abused Women's Services also reported that at least 4,750 children were directly impacted by domestic violence incidents in 1999. This does not include the large number of unreported cases. Withdrawal, low self-esteem, nightmares, self-blame and aggression against peers, family members and property are just a few of the emotional and behavioral disturbances that children who witness violence at home display. These effects stay with a child ultimately influencing their educational, professional and personal life.

While commemorating this month of awareness, I am proud to also mark the sixth anniversary of one of the most important stands Congress has ever taken against domestic violence: The Violence Against Women Act (VAWA). Through programs that bolster prosecution of sexual assault and domestic violence, increase victim services, and step up education and prevention activities, VAWA has gone far to protect individuals from sexual offenses and domestic abuse. I am pleased to announce that through a bipartisan effort H.R. 1248, the Violence Against Women Act of 1999, of which I was an original co-sponsor, passed in the House of Representatives. This

legislation reauthorizes VAWA programs for five more years allowing a number of federal grant programs intended to care for those affected by these tragic crimes to continue.

Domestic violence will not end until the nation as a whole unites in saying "no more!" Each time one person learns of a domestic violence situation and decides to turn her head she is, in effect, approving of the situation and allowing it to continue. As members of society we must become proactive and take a stand against this horrific situation.

H.R. 5474 AMENDING TITLE 38 TO PROVIDE COMPENSATION FOR VETERANS DISABLED BY TREAT-MENT OR VOCATIONAL REHA-BILITATION

### HON. PATSY T. MINK

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mrs. MINK of Hawaii. Mr. Speaker, I rise today to introduce an important piece of legislation. H.R. 5474 will allow veterans disabled by treatment or vocational rehabilitation to receive compensation from the day they were disabled while under VA care.

The occurrence of medical malpractice in which veterans are disabled while under Veterans Affairs' care is rare compared with the total number of veterans served every year. In 1997, the last year in which data was available, there were 826,846 inpatients treated and 32,640,000 outpatient visits at VA medical centers at a cost of \$17.149 billion. There are 173 VA medical centers, more than 391 outpatient and outreach clinics, 131 nursing home care units and 39 domiciliaries.

Without this network of government run VA hospitals, clinics and nursing care units, many veterans would never receive the care available to them. However, it is clear that the care provided is not always of the highest quality. Worse than inadequate care are the instances in which veterans receive care that leaves them further disabled.

Since 1990, 9,597 administrative malpractice claims were filed by Veterans with VA and 2,134 were settled. The total amount paid in claims settled was nearly \$1.73 million.

During the same time period, 2,064 veterans filed court claims against VA. 626 of these court claims were dismissed, the U.S. won 272, and plaintiffs won 129 court claims for a total of \$65,858,110. 1,315 VA court claims were settled out of court by VA, in the amount of \$253,464,632.

In 1958 Congress established Title 38, U.S.C. Sec. 1151, Benefits for Persons Disabled by Treatment or Vocational Rehabilitation. Along with Sec. 1151, Sec. 5110 of the same Title established the effective date of an award for disability incurred during treatment or vocational rehabilitation. These two sections ensured that veterans disabled by their treatment received compensation. This was the fair and right thing to do.

A close review of these sections reveals an inconsistency. While the U.S. Code allowed compensation for veterans disabled by treatment or vocational rehabilitation, it established

an arbitrary cut off date of one year to deny individuals full compensation.

Individuals who are unable or not aware of this arbitrary application date for medical malpractice claims should not be denied full compensation for administrative reasons. Statutes of limitations like this are important for preserving the rights of individuals but the VA should be held to a different standard.

Veterans who prove that they were disabled while under the care of Veterans Affairs should be compensated from the day of their injury regardless of their date of application.

This bill will repeal U.S. Code Section 5110 which allows Veterans Affairs to avoid its responsibility to veterans it disables during treatment or vocational rehabilitation. H.R. 5474 also allows veterans who did not receive full and fair compensation from the date of their injury to receive this compensation upon enactment of this bill.

I urge my colleagues to end this unfair practice by cosponsoring H.R. 5474.

SECURE RURAL SCHOOLS AND COMMUNITY SELF-DETERMINATION ACT OF 2000

SPEECH OF

#### HON. LARRY COMBEST

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 10, 2000

Mr. COMBEST. Mr. Speaker, as the Chairman of the House Committee on Agriculture, which has primary jurisdiction over the Secure Rural Schools and Community Self-determination Act of 2000 (H.R. 2389), I rise on behalf of myself and Mr. STENHOLM, the ranking member of the committee, to explain the intent behind a number of provisions in the bill and how we expect these provisions to be carried out. We will address these roughly in the order in which they appear in the bill.

Sections 101(a), 102(a), 102(b) and 102(c) of Title I provide how payments to states and allocations to the counties within those states should be calculated and made under this Act. The intent behind these provisions is to ensure that each county's elective share of a state's full payment amount be based, to the extent practicable, on the county's historic percentage of the 25% payments received by the state during the eligibility period. Thus, if over the course of the eligibility period a county received 10% of the aggregate payments made to the state, that county would be allocated 10% of the amount calculated for the state under section 101(a) if the county elected to receive its full payment amount.

It is understood that there will be exceptions to this general rule based on the individual circumstances of states and counties. Congress has been careful to delegate the determination of each county's portion of a state's full payment amount to the state to accommodate these exceptions. It is expected, however, that such exceptions will be relatively rare and the reasons for them compelling.

Title II of the bill establishes a significant new role for counties and local stakeholders in federal land management decision-making. It is essential to explain several provisions in this Title to ensure that it is carried out in a way that will meet the intended policy objectives

The overarching intent of Title II is to foster local creativity and innovation with regard to the projects that participating counties and resource advisory committees propose to the Secretary. This necessarily requires the Secretary concerned to flexibly construe the provisions in this title. It is understood that not every project proposed by resource advisory committees will succeed. It is expected, however, that participating counties and resource advisory committees be given every opportunity, within the parameters of existing law, to make their ideas work.

Section 202 establishes a general limitation on the use of project funds to ensure that such funds are used on projects that meet "resource objectives consistent with the purposes of this Title." This provision is further explained by subsection 203(c), which states that projects submitted to the Secretary under this title "shall be consistent with section 2(b)." Thus, projects conducted under Title II are permissible provided they meet the objectives identified in section 2(b).

A similar dynamic exists between sections 204(f) and 203(c). Section 204(f) requires that 50% of all Title II project funds be used for road maintenance, decommissioning or obliteration or for the restoration of streams and watersheds. It is expected that these requirements be construed to include a broad range of projects that are consistent with the requirements of section 2(b), as provided by section 203(c). For example, a forest thinning project that meets the requirements of section 2(b) would also meet the requirements of section 204(f) if its purpose were to restore the vegetation within a watershed to a more fire-resistant state.

Section 203(a)(1) provides that resource advisory committees must submit project proposals to the Secretary concerned "not later than September 30 for fiscal year 2001 and each September 30 thereafter for each succeeding fiscal year through fiscal year 2006. This provision is reiterated in section 207(a). The relationship between the participating county and the resource advisory committee under these provisions is significant to the policy objectives that these provisions seek to achieve

It is intended that the participating county and the resource advisory committee come to an agreement on the projects to be undertaken prior to submission of such projects to the Secretary concerned. It is for this reason that the date by which the county must elect whether to reserve project funds for Title II projects and the date by which the resource advisory committee must submit Title II project proposals to the Secretary concerned are identical.

It is expected that counties and resource advisory committees will come to an agreement on the projects that will be proposed to the Secretary concerned in advance of the September 30 deadline for each fiscal year. However, it is also understood that, in some cases, this deadline will not be met. It is for this reason that language has been included under section 207(b) allowing unobligated project funds from one fiscal year to be rolled

over for use in the subsequent fiscal year. Thus, if agreement between the participating county and resource advisory committee is not reached by the conclusion of a fiscal year, the county may defer its election regarding the use of such funds to the subsequent fiscal year. A resource advisory committee may not, under any circumstance, propose a project to the Secretary concerned over the objection of the participating county.

Section 204(e)(3) establishes a pilot program for the implementation of projects involving merchantable material. The central concept tested in this pilot program, as identified in paragraph 3(A), is the use of separate contracts for the removal and sale of such material

This provision purposely does not specify how merchantable material shall be handled or transported between removal and sale. This provides maximum flexibility to federal resource managers and private contractors to innovate in ways that will minimize costs and optimize efficiencies while meeting desirable resource management objectives. It is expected, for example, that federal managers will work with private contractors to develop creative ways to minimize transportation and other transactional costs associated with the contracts. It is also expected that implementation of the pilot program will not create market competition between the Secretary and the private sector in markets for the sale and use of merchantable materials.

It is intended that the Secretary concerned will implement this pilot program, to the extent practicable, on a voluntary basis. The Secretary should first include projects in the pilot that have been requested for inclusion by resource advisory committees. The Secretary

The annual percentage requirements provided under paragraph 3(B) requires only that a fixed percentage of all projects involving merchantable material be included in the pilot program for a given fiscal year. This provision is purposefully silent on the size and cost of projects to be included in the pilot. It is intended that the Secretary will, to the extent practicable, limit the pilot program to projects that are smaller in scope in order to test the premises of the pilot with minimal impact on other projects involving merchantable material carried out under Title II.

Paragraph 3(E) authorizes the Secretary concerned to use funds from any appropriated account, not to exceed \$1 million annually, to administer projects under the pilot program. It is intended that the Secretary use this authority only to the extent that it does not reduce or otherwise interfere with program delivery within the accounts from which such funds are taken.

Section 204(e)(3)(E) requires the Comptroller General to review the pilot program and report to Congress on its effectiveness. It is intended that such report will be the basis for determining whether the pilot program should continue. Should the Comptroller General find that the program is not performing efficiently, that it is creating market competition between the government and the private sector, that is hindering the successful planning or implementation of projects, or that it is deterring resource advisory committees from proposing projects involving merchantable material, it is expected that the program will be terminated.

Section 205 establishes resource advisory committees to assist counties in the selection and proposal of projects under Title II and Title III. Because the success of each advisory committee will depend largely on the cooperation of its members, it is expected that the Secretary will appoint to resource advisory committees only individuals who have a demonstrated ability to work collaboratively with others of differing viewpoints and achieve good faith compromise. It is strictly contrary to the intent and purposes of this Act for the Secretary concerned to appoint to a resource advisory committee any individual who will likely act in a dilatory manner so as to impede the ability of the resource advisory committee to propose projects to the Secretary concerned or carry out any of its responsibilities as provided in this Act.

It is the intent of the House sponsors that members of resource advisory committees be selected from within local communities. Section 205(d)(4) provides that "the Secretary shall ensure local representation in each category" of membership within a resource advisory committee. It is expected that, with rare exception, members of resource advisory committees will be selected from among the residents of the eligible counties within which the committee will operate. The Secretary concerned should not appoint non-local individuals to resource advisory committees when local individuals who represent the same viewpoint or interest and meet the requirements for membership are available.

It is expected that the Secretary concerned will established a sufficient number of resource advisory committees to facilitate involvement and collaboration at the most local level possible. It would be inappropriate and contrary to the intent of this Act for the Secretary concerned to establish one resource advisory committee for an entire state. Rather, the Secretary concerned should establish resource advisory committees at the eligible county level to the extent practicable. The Secretary concerned may establish a resource advisory committee to serve more than one eligible county, where circumstances require it (for example, if several small counties border a single unit of the national forest system), but the Secretary concerned should exercise restraint in this regard and make every effort to establish the committee at the most local level possible.

Title III of the bill establishes a separate class of projects to that provided in Title II. Title III projects require approval by the participating county only to the extent that they do not involve management activities on federal lands that would normally be conducted by the Secretary concerned. It is understood and expected that some of the projects arising under Title III will involve activities on federal lands and require cooperation with and approval from the Secretary concerned. For example, fire prevention and county planning efforts provided under section 302(b)(5) may be conducted in cooperation with federal efforts to reduce wildfire risk in the wildland-urban interface. It would be appropriate in this case for a county to leverage county funds against federal funds allocated to do the project planning and NEPA analysis required for forest

## EXTENSIONS OF REMARKS

thinnings and other forms of vegetation management. This kind of cooperation would necessarily require approval from the Secretary concerned in addition to approval by the county for the use of county funds.

Finally, section 403 of Title IV provides that helpful in some cases. It would be contrary to the Secretaries concerned may jointly issue regulations to carry out the purposes of this Act. It is not the intent of the House sponsors that regulations are necessary to carry out the provisions of this Act. However, they might be

congressional intent for the Secretary concerned to delay implementation of any provisions of this act because the Secretary has not completed a rule-making process addressing the implementation of such provision.

# SENATE—Wednesday, October 18, 2000

(Legislative day of Friday, September 22, 2000)

The Senate met at 10:01 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. Thurmond].

#### PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Almighty God, Your omniscience confronts and then comforts us. We know that if we acknowledge Your involvement in the work of this Senate, that You are actually present in the Chamber, we will be accountable to You for what we say and how we say it and the methods we use to both block or boost progress. Your x-ray vision penetrates to reveal the human dynamics as we near the conclusion of this 106th Congress. You see our efforts to complete our work, while at the same time You also see the tensions over control, how we will look to the American people, and our desire to win arguments as well as votes. We harbor vague ideas about Your omniscience, but seldom think about the fact that You are as concerned about legislation and political process as You are about running the universe.

Lord, it is difficult to trust You to work out Your best for America in the midst of our divided ideologies. We need a fresh supply of faith to serve You by doing our work cooperatively, speaking the truth as we have come to understand it, blending the finest thinking we can produce with Your help, and then leaving the results to You

Now in this moment of honest confrontation with You, we ask for Your help to do things Your way. We commit ourselves to excellence in our work and we trust the results to You. We truly believe that You desire to work out Your purposes for America through this Senate. You are our Lord and Saviour. Amen.

#### PLEDGE OF ALLEGIANCE

The Honorable TIM HUTCHINSON, a Senator from the State of Arkansas, led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

# RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The Senator from Arkansas is recognized.

#### ORDER OF PROCEDURE

Mr. HUTCHINSON. Mr. President, I ask unanimous consent that at the hour of 12:30 p.m. the Senate stand in recess until the hour of 2:15 p.m. in order for the weekly party caucuses to meet.

The PRESIDENT pro tempore. Without objection, it is so ordered.

#### SCHEDULE

Mr. HUTCHINSON. Mr. President, for the information of all Senators, the Senate will resume debate on the conference report to accompany the Agriculture appropriations bill. Debate on the conference report will be limited to today's session, with final remarks to begin at approximately 3:30 p.m. Those Senators who have statements are encouraged to come to the floor as early as possible today due to the break for the weekly party conference meetings. The vote on the Agriculture appropriations conference report will occur at 5:30 p.m.

I thank my colleagues for their attention.

The PRESIDING OFFICER (Mr. HUTCHINSON). The distinguished Senator from Nevada is recognized.

Mr. REID. Mr. President, I ask unanimous consent that following my brief remarks, the Senator from North Dakota, Mr. DORGAN, be recognized for 20 minutes as in morning business.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

# CANONIZATION OF MOTHER KATHARINE DREXEL

Mr. REID. Mr. President, I am here today to pay tribute to the legacy of Mother Katharine Drexel, who on October 1, just a few weeks ago, became the fourth American ever to be canonized by the Vatican.

Katharine Drexel was born in 1859 into a very well-to-do family in Bucks County, PA. Early in life, though, she dedicated herself and her inheritance to work for social justice for African Americans and Native Americans.

Mother Drexel's legacy reflects more than simply her commitment to the Catholic faith, though her faith was the inspiration for her life's work. Her activism expanded into the area of civil rights due to her understanding of the lingering effects of racism towards African American and Native Americans.

Due to her commitment to eradicating the vestiges of racism, she founded the Blessed Sacrament for the Christian education of Native Americans and African Americans.

In addition, throughout her life, she founded over 100 educational institutions for African Americans and Native Americans.

The most famous school she founded is Xavier University in New Orleans. At the time, no Catholic university in the South accepted black students and Mother Drexel established Xavier University to fill this void.

Along with her sisters, Mother Drexel inherited close to \$14 million. Mr. President, \$14 million in 1860 was a lot of money. Through her support of civil rights organizations such as the NAACP, and her numerous foundation schools, Mother Drexel donated more than \$20 million through her charitable work, a figure that in today's value exceeds a quarter of a billion dollars.

The excellent management of her inherited estate also earned her the reputation as an accomplished businesswoman. Thus her social justice work in the late 1800s and early 1900s also made her a woman's rights activist.

Although Mother Drexel passed away in 1955, her legacy continues today through the work of the Catholic order that she founded in 1891, an order that continues to carry out her vision of ending racial injustice.

It is my hope that we will all join in acknowledging the work of those who have dedicated themselves to working for the needs and concerns of all Americans. Nevada is home to both Native Americans and African Americans. I find it, therefore, especially appropriate that I speak today in spreading across the RECORD of this Senate the tremendous contribution and legacy of this great American, Mother Katharine Drevel

Mr. DORGAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

# THE TWO PRESIDENTIAL CANDIDATES

Mr. DORGAN. Mr. President, last evening I watched the Presidential debate, as I am sure many other Americans did as well. I was thinking, after the debate, that those who claim there is not a difference between these candidates, and not a choice in this election, just have not been listening. There is clearly a choice and a difference between the two Presidential candidates.

I happen to believe both are pretty good people. You don't get to the point where you achieve the nomination from your party for the Presidency of the United States without having some significant experience and talent. But there are vast differences in public policy. I want to talk just a little about this, and especially about one of the significant issues in this campaign: the proposals for tax cuts.

Governor Bush has proposed tax cuts that are somewhere in the vicinity of \$1.5 trillion over the coming 10 years.

We have had a wonderful economy in recent years. This country has been blessed with economic opportunity and growth that is unprecedented. We have the strongest economy in the world. Virtually everything in our economy has been headed in the right direction. Unemployment has been down; inflation has been down; home ownership up. Virtually all of the indicators of economic health have been good. This economy has been heading in the right direction.

One factor in that health is that Congress made some choices early on; difficult choices, to be sure, but ones that helped put this economy back on track. I worry very much that, as some economists tell us there will be surpluses for the next 10 years, this rush to enact \$1.5 trillion in tax cuts even before the surpluses exist could lead us to a much different economic place. If we take that path, and if we don't get the surpluses we expect, then we will begin to experience, once again, Federal budget deficits. We will be right back in the same dark hole of budget deficits and lower economic growth and more economic trouble.

I will read a couple of quotes.

There is no cause for worry. The high tide of prosperity is going to continue.

September 1928, by Treasury Secretary Andrew Mellon.

No Congress of the United States ever assembled on surveying the state of the Union has met a more pleasing prospect than that which appears at the present time.

December 4, 1928, President Calvin Coolidge.

Economic forecasting is a tricky business under the very best of circumstances. But it is particularly suspect in the political arena, when partisan agendas are at stake and when the forecasts purport to show whether someone's agenda can work or not

work. We have two classes of forecasters, according to one economist: those who don't know, and those who don't know they don't know. We might want to add a third class of economist: those who don't know but don't care because they have an agenda to justify in the political arena with their forecasts.

The problem with economic fore-casting is not just uncertainty around the edges. The problem goes to the very core of the endeavor. Most fore-casting is simply linear; that is, it assumes that tomorrow will be pretty much like yesterday with just a little something added on. Of course, life is not linear. There are sudden lurches and jolts which none of us can anticipate. Yet forecasters always have a model they use that anticipates tomorrow will reflect the experience of yesterday.

If we start writing tax refund checks with money we don't yet have and return to the staggering deficits of recent times—a \$290 billion deficit the year this administration took office 8 years ago—we will have a much less certain economic future. All of us should understand that.

The reason I want to talk about this is that it is at the core of the debate in the Presidential contest. The question for me is, Are we going to move forward and build on our economic success, or are we going to risk slipping back into big deficits?

How much budget surplus is there? We hear candidates talk about trillions, \$3 trillion, \$4 trillion, \$4.5 trillion. I went to a high school with 40 kids in all four grades. My class was ninth. We didn't have a lot of advanced math. We never studied trillions, I confess. I am not sure I understand what a trillion is. I know how many zeros exist in a trillion, but I am not sure I, nor anyone else in this Chamber, knows exactly what a trillion is.

So we hear the Congressional Budget Office say, you have an estimated \$4.6 trillion surplus in the coming 10 years. Then we hear candidates say, if we have all this surplus, let's propose a \$1.5 trillion tax cut, most of which will go to the upper income folks, which I will talk about in a moment. The problem here is this: We may never have this surplus.

First of all, \$2.4 trillion belongs to the Social Security trust fund. It has to go there and should not be touched by anyone for any other purpose. Another \$360 billion goes to the Medicare trust fund. It ought to be put away and not touched for any other purpose. Realistic spending adjustments will be about \$600 billion; we are making these right now to exceed the budget caps because the budget that was passed earlier this year was wildly unrealistic in terms of what is needed for education and health care and a range of other issues, just to keep pace with increased

population needs. These figures, incidentally, are from the Center on Budget and Policy Priorities. This organization says that, if you also include amounts necessary for Social Security and Medicare solvency, which you are going to have to do, you have probably a \$700 billion estimated surplus. That is if everything goes right—\$700 billion, not \$4.6 trillion.

Now, with this prospect, if you add a \$1.5 trillion tax cut, what do you have left? Almost a \$1 trillion deficit.

Should we be a bit cautious? Should we be concerned about talk of giving back taxes on a permanent basis based on surpluses that don't yet exist? The answer is yes. We would be, in my judgment, far better off if we decided to establish some basic principles for the use of any estimated surplus.

The priorities I think are these: First, we ought to pay down the Federal debt. Second, we ought to ensure the long-term solvency of Social Security and Medicare. Then we ought to address the urgent needs of this Nation, such as repairing our schools and making sure our kids are walking through classroom doors in the best schools in the world; and dealing with the prescription drug prices that are too high for many of our senior citizens to afford. Then we should provide targeted tax relief for working families.

There is a very big difference in the agenda of the candidates for President. Governor Bush says his priority is to provide a very large tax cut. The risk is that we won't have the money for a \$1.5 trillion tax cut. The risk is that we way well go into a \$1 trillion deficit because of that proposed tax cut. I hope that will not be the case, but it is certainly possible.

The problem with the tax cut itself is, even if you decided we should cut some taxes, the question is for whom and which taxes. Here is the proposed tax cut by Governor Bush. You can see the lowest 20 percent get \$42 apiece a year, and the top 1 percent get \$46,000 each.

In the debate last night, Governor Bush said: Well, of course, the wealthy, the upper income people get most of the tax cuts; they pay most of the taxes.

You can say that only if you are using a magnifying glass to suggest that the only taxes people pay are income taxes. I have a chart that shows something interesting. People pay \$612 billion in payroll taxes in this country. Go to a convenience store somewhere. Maybe you will run into a person working in that convenience store for the minimum wage, working 40 hours a week, trying to raise two or three kids. They pay more in payroll taxes than they pay in income taxes. Yet that doesn't count, according to Governor Bush. All that counts is this: Let's give money back based on income taxes.

How about proposing a tax cut to the American people based on their real

tax burden? Let me show you that burden. The fact is, 99 percent of the people in the bottom fifth income bracket in this country pay more in payroll taxes than they do in income taxes. As to the second fifth, 92 percent pay more in payroll taxes than they do in income taxes. Those folks work hard every day. They get a check that is less than their salary because money is taken out. Why is money taken out? For taxes. Which taxes? Payroll taxes as well as income taxes. Then they are told that when it comes to tax cuts. they don't count because we are going to give tax cuts based solely on who pays income taxes.

So the wealthiest get the biggest tax cuts. Is that fair to the people at the bottom of the economic ladder who work hard every day and who pay heavier payroll taxes than they do income taxes? The answer is absolutely not. That is another difference in philosophy.

There are people in this Chamber and people who are advisers to Governor Bush and others who believe that the proper approach to taxation is to tax work and exempt investment. That is their philosophy. Why? It is a typical political debate that has gone on for decades. Do you believe this economy works best by pouring something in at the top—that is called trickle down—or by nurturing something at the bottom, called percolate up? Do you believe America's economic engine works best if you just get some cans and pour it in the top? Or do you believe that if you give everybody at the bottom a little something to work with, that this economic engine works because things percolate up? It is a difference in philosophy.

Governor Bush believes, as do those who control the Congress, in the trick-le-down approach.

I received a note from a North Dakotan one day, a farmer. He said: I have been living under this trickle-down stuff for 15 years, and I ain't even got damp yet.

Of course, Hubert Humphrey used to describe the trickle-down approach in his famous quote: That is where you give the horse some hay to eat, hoping that later the birds will have something to nibble on.

So we have this debate in the country. Who is right? It seems to me that if we are going to do this in a conservative, thoughtful way, we ought to decide the following: We don't know what the future holds. Let us hope the future is as wonderful as the last 6 or 8 years have been in terms of economic performance. Things are better in the country; everyone understands things are better.

You can stand on this floor and say, like the rooster taking credit for the sunup, that this person or that person should get the credit for the success of the economy. The fact is, we were

headed in the wrong direction. This economy was in deep trouble. We had run up a \$5.7 trillion in debt, and we had a \$290 billion annual deficit in 1992. We were moving in the wrong direction very rapidly.

We in this Chamber, and over in the House—by one vote in each Chamber—passed a new economic plan. It was controversial as the dickens. It was not easy to vote for. In fact, let me read a couple of statements that were made at the time on the floor of the Senate. I will not read the authors, but we had people stand up on the floor of the Senate, and they had their own predictions regarding what this economic plan would be for our country.

On August 6, 1993, one of my colleagues stood up and said:

So we are still going to pile up some more debt, but most of all, we are going to cost jobs in this country [with this plan].

Another Senator, another colleague, said:

Make no mistake, these higher rates will cost jobs [in this plan of yours].

Another one said:

When all is said and done, people will pay more taxes, the economy will create fewer jobs, government will spend more money, and the American people will be worse off.

Another said:

It will flatten the economy.

That was at a time when we had an anemic economy, with slow growth. huge deficits, and moving in the wrong direction. And where are we in the year 1999 and the year 2000, after 8 years of that experience? We have an economy that is the envy of the world, growing faster than any other industrial economy in the world. Unemployment is down. More people are working. Welfare rolls are down. Inflation is down. Home ownership is up. Almost every indicator of economic health describes a country that is doing better. What should we do at this point? Some say give huge tax cuts, right now. Let's put them in law right now, lock them down.

If during good economic times you don't use the opportunity to pay down the Federal debt, you are never going to be able to pay down the debt. When you run up debt during tougher times, you ought to pay it down during better times. That is as conservative an ethic as you can have, it seems to me.

Why this Congress would not embrace that is beyond me. Why we would not agree together that it is our responsibility to pay down the debt during better times—what greater gift could there be to America's children than to unsaddle them from the debt, the \$4.7 trillion that was added between 1980 and the late 1990s? What better gift could we give to them than to say our first job is to pay down this Federal debt? But, no, there is some political attractiveness, I guess, to say we want to give tax cuts. Gee, that is an easy

thing to say, but it is not at this point a very responsible fiscal policy—especially when the largest portion of those cuts would go to the wealthiest Americans who have done the best in this economy.

It seems to me that tax cuts ought to come after the paydown of the debt and a number of other obligations. But second, when we do them—and we should if we have surpluses—we ought to do them based upon the burden the American families have in the workplace, which includes not just the income tax but also the payroll tax. Those are the things I think we ought to consider.

Now, the other issue in the debate last night was, whose side are you on? I know there is a difference between the two candidates. Let me say I am not here to say one candidate is bad and the other is good. That is not my role. My role is to say there is a very significant difference in what they believe and how they approach public policy. I think on the key issues the American people ought to evaluate these matters that were before this Congress.

A Patients' Bill of Rights: Who is on whose side on the Patients' Bill of Rights? Does anybody really believe that with the growth of the HMOs and managed care organizations that patients are just fine; let them fend for themselves? Or do people really understand it is time to do something to pass a Patients' Bill of Rights? And if they believe we ought to, why has this Congress not been willing to do it? I will tell you why: because too many in this Congress stand with the insurance companies and the managed care organizations, and too few have been willing to stand on the side of patients.

We have heard story after story of people who have had to fight cancer and fight their HMOs at the same time. These stories have been told on the floor of this Senate. I will state again that at one hearing I held on this issue with my colleague from Nevada, a woman stood up and held a picture of her son. She began crying as she described her son's death on his 16th birthday. Her son suffered from leukemia and desperately needed a special kind of treatment in order to have a chance to live. But he had to fight his cancer and fight his managed care organization at the same time because the managed care organization withheld that treatment. She said her son looked up at him from his bedside and said: Mom, how can they do this to a kid like me?

It is not fair to have a child or have parents fight cancer and the insurance company at the same time. That is not a fair fight. Should we pass a Patients' Bill of Rights? Yes, we should. It is what Vice President Gore said last evening. It is what we said in this Congress. Why don't we do it? Because too many stand on the side of the bigger

to stand on the side of patients.

They say the Senate passed a Patients' Bill of Rights. No, the Senate passed a "patients' bill of goods." It was like playing charades, pulling on your ear and saying: It sounds like. Those who wrote it knew what they were doing. Republicans in the House of Representatives say it not only is not worth anything, it is a giant step backwards. The Republicans in the House who support the bipartisan Dingell-Norwood bill know what we ought to do, and this Senate has been unwilling to do it.

Minimum wage: We have people every day who are working their hearts out trying to take care of their families at the bottom of the economic ladder. Somehow, while this Congress is in a rush to help those at the top of the income ladder with tax cuts, these folks who are working at the bottom of the economic ladder, trying to get ahead, are left behind. They deserve an increase in the minimum wage. They deserve to keep pace. It ought to be a priority in this Congress to say work matters and we value you. If you are struggling to work and take care of your families-good for you. We want to do something to make sure you keep pace with that minimum wage.

Other issues include prescription drugs and Medicare. Of course we ought to add a prescription drug benefit to Medicare, but this Congress does not seem to want to get there.

Helping family farmers: You can't say you are pro family and not stand for family farmers.

Education: We have not even passed the Elementary and Secondary Education Act.

We have a lot to do. There are big differences between the political parties. That doesn't mean one is good and one is bad. It simply means there are significant policy choices the American people have an opportunity to make. We have been struggling mightily on these issues. We are a minority on my side of the aisle. The debate last night highlighted some of the differences. And America needs to make a choice. Which path do they want to choose? One with more risk that might upset this economy of ours and throw us back into the same deficit ditch we were in before, or one that is more cautious, that says one of our priorities is to pay down the debt? Or will we choose a course that says we want to stand with the American people against the larger economic interests?

It is not a myth that the economic interests are getting bigger and bigger. Open the paper today and see who merged today. Yesterday it was two big oil companies. Tomorrow it will be two big banks. Every day the economic enterprises are getting bigger. And what is happening is every day the American people are finding they have less power

economic interests and are unwilling in dealing with them, they have less in prison—an act that could be recpower in confronting the prescription drug prices because the pharmaceutical manufacturers decide what the prices are, and they tell the American people: Pay up. If you don't like it, don't buy it. And they will charge ten times more for a cancer drug in the United States than the same drug they sell in Cana.da.

The American people need some help in confronting these concentrations of economic power. That is what we have been fighting for. My hope is that the next time someone says there is no difference in these campaigns, there is no difference between the two candidates for President, no difference between the Republican and Democrats. I hope they look at the record. There is a big difference. I hope they make a choice that says that difference matters in their lives, as well.

I vield the floor.

### RESERVATION OF LEADER TIME

The PRESIDING OFFICER. Under the previous order, the leadership time is reserved.

AGRICULTURE, RURAL DEVELOP-MENT, FOOD AND DRUG ADMIN-ISTRATION. AND RELATED AGENCY PROGRAMS APPROPRIA-TIONS ACT, 2001—CONFERENCE REPORT

The PRESIDING OFFICER. Under the previous order, the Senate will now resume consideration of the conference report accompanying H.R. 4461, which the clerk will report.

The assistant legislative clerk read

A conference report to accompany H.R. 4461, an act making appropriations for Agriculture, Rural Development, the Food and Drug Administration, and related agency programs for fiscal year ending September 30th, 2001, and for other purposes.

The PRESIDING OFFICER. The Senator from New Jersey.

#### CAPITAL PUNISHMENT

Mr. TORRICELLI. Mr. President, for nearly 200 years from the founding of our Republic, capital punishment has loomed as the ultimate punishment for the violation of our laws. This reflected a belief that such a severe penalty would serve as a deterrent to those who might think they can take an innocent life or bring injury to our people.

While this Nation has always believed that capital punishment is an appropriate penalty for those who commit the most heinous of crimes, our criminal justice system has also been based on the premise that it is better and it has been part of American lore to suggest that it is better that ten guilty men go free than an innocent man ever be put behind bars or lose his life.

This is all the more true when what is at stake is not just putting a person tified or proven wrong-but the irretrievable taking of a human life. As long as there has been the American Republic, this has been a founding belief: Taking of a life, if it can deter a crime, but protecting a mistake of jus-

Throughout our history, concerns have been raised about the fair application of the death penalty for exactly this concern.

Almost 30 years ago, the Supreme Court, in Furham v. Georgia, effectively abolished the death penalty when it decided that death penalty statutes at the time did too little to ensure the equal application of the law. In doing so, the Court held that the death penalty, while itself not necessarily unconstitutional, was often being applied in a manner that was both arbitrary and too severe for the crime committed. As such, it constituted, as the death penalty was then applied, that it was a "cruel and unusual" punishment under the Constitution.

Just 4 years later, in 1976, the Court, in its Gregg decision, reinstated the death penalty when it ruled that the newly enacted statutes in Florida, Texas, and Georgia were constitutional. By providing guidelines to assist the judge and the jury in deciding whether to impose death, those statutes addressed the arbitrariness that had previously colored capital sentencing.

It was at this point in my life that I reached my own decision. I agreed with the Court in what had become the tenets of American history that the death penalty was fair and appropriate as a deterrent to crime; it was just when the application of the American Constitution, as the Court had held, where it was arbitrary, where there were not guidelines, where there was not a safety to protect the innocent or arbitrariness of penalty, it was unconstitutional.

As the Court had found by 1976. I believed that with the right guidelines, a second jury, oversight, appeal, fair representation, the death penalty was right and it was appropriate.

In the nearly 25 years since I reached my own judgment, and indeed as our country reached its decision, 666 people have been executed across the Nation.

I rise today to bring attention to the point that in those 25 years, more than 80 people on death row have been found to be innocent and released. Some were hours, minutes, weeks away from their own execution.

These were not reversals on technical grounds. For the people whose convictions were overturned, after years of confinement, years on death row, it was discovered they simply were not guilty of a crime for which they had been convicted.

The Death Penalty Information Center reports that between 1973 and October 1993 there were an average of 2.5 convicted persons released per year. Since the advent of DNA testing, the number has increased to 4.8 people per year. For any American, particularly someone such as myself who supports the death penalty, believes in the fairness of the death penalty, one can only imagine the responsibility individually and collectively we must feel.

The question is begged; If this has happened since DNA testing, 4.8 people released from jail on death row, my God, what has happened in recent decades? How many people were strapped to gurneys, had their wrists attached to leather strips in electric chairs, knowing in their own minds that they were innocent but executed? My God, what must they have thought of our society, justice, and our people?

There are now 3,600 people on State and Federal death rows.

Despite my own support of the death penalty and our society's general belief in it, we must face the reality that those 3,600 people some may be innocent. The events of recent months give little comfort to any of us who support the death penalty.

Two weeks ago, the Governor of Virginia was forced to pardon a mentally retarded man who spent 9½ years on death row for rape and murder after DNA tests proved he was innocent—9½ years awaiting death.

An inmate in Texas served 12 years on death row for the killing of a police officer before a film maker stumbled across his case and discovered evidence that established his innocence. An Illinois inmate was released just 50 hours before his scheduled execution because a student's journalism class at Northwestern University accepted his case as a class project and established with certainty his innocence—50 hours before his death.

The evidence, both academic and anecdotal, shows that the death penalty is not functioning as it must to ensure that innocent people not be put to death.

What has happened to the conviction of the Founding Fathers and Jefferson's admonition that it is better 10 guilty men go free than an innocent man go to jail? It has not been "an innocent man go to jail," but the evidence is overwhelming that some innocent men are going to death.

It is not an easy issue. I am not here to ascribe the responsibility to others. I bear it, too. Through all my public life I have supported the death penalty, and I do not abandon it today. I believe it can be fair; I believe it can be just; and I believe it deters crime. I believe it is appropriate that society take the lives of those who would take the lives of others. But something is wrong.

The fact is that sometimes these people committed other crimes, and most

of the people who commit these crimes who are put to death are guilty. None of those things matter. It doesn't matter if it is only 1 in 100. It doesn't matter if it is 1 in 1,000. As a just and fair society, no one can feel right about the fact that obviously without question some innocent people may be put to death or, if not put to death, are spending years of their lives on death row for crimes they did not commit.

Nowhere is this problem more evident than the State of Texas. I do not say that because its Governor is a Presidential candidate or because of the other party. I don't care. It has no relevance to me. I ascribe nothing to George W. Bush. I am simply discussing the facts in the State for which this problem appears to be most prevalent.

Since 1982, Texas has executed 231 people—and, in fairness, under both Republican and Democrat Governors, to take away any partisan motive.

This year alone, 33 people have been put to death in Texas. Another 446 are on death row.

Because of the frequency of executions in Texas, that State offers us the best window through which to examine some of these concerns because in doing so, it quickly becomes clear that if the death penalty in Texas is representative of the rest of the Nation, we have a real problem.

In a massive study of 131 executions in the State of Texas, it is documented that there were widespread and systematic flaws in trials and in the appeals process.

In a third of the Texas death penalty cases, the defendant was represented by an attorney who had already been disbarred.

How in God's name is it possible in a just and fair society to take a man's life or a woman's life in an American court of justice if that poor person, who is probably inevitably indigent, is represented by an attorney who has been proven to be incapable and is disbarred before the courts of the United States?

My God, what kind of people have we become? Are we so interested in revenge, execution, and punishment of a man or woman that we would not give them a competent attorney? Several of these attorneys have themselves been convicted of felonies. Others have been jailed on contempt charges for sheer incompetence in the performance of their duties.

The Supreme Court has held—and the Founding Fathers must have believed—that any man or woman who shares our citizenship has a right to counsel before the courts and a defense before the Government with their own attorney.

Is this the standard they held? Is this the standard that every American would have for themselves—the right to an attorney who was disbarred, jailed, held in contempt, or found in-

competent? Is this the barrier between an accusation against an American citizen and their execution?

In one-third of the death penalty cases in the State of Texas, defense counsel presented no evidence or presented only one witness during the sentencing phase.

When I made my decision in my life as our country made its judgment to support the death penalty, it was based on the Supreme Court requirement that there be a sentencing phase in the death penalty and a separate jury dealing just with the penalty of death.

I think that is right. I think that is fair. That is why I support the death penalty.

But now we find in the State of Texas that when that separate jury heard the case, these attorneys for these indigent men and women facing death presented no witnesses—or just one.

This cannot possibly be what the Supreme Court envisioned for the protection of our citizens from execution.

At least 23 cases featured notoriously unreliable "hair comparisons"—visual matching of the defendant's hair to that found at the crime scene.

This is unbelievable, but I am giving you the facts about this study of Texas cases.

One hair "expert" in a capital case with a man facing death was temporarily released from a psychiatric ward to testify. Another "expert" in a hair identification case pleaded no contest to multiple charges of falsifying and manufacturing evidence. There is the lone witness in a case that decides whether or not a man would be executed.

Since 1995, the highest criminal appeals court of the State of Texas has affirmed 270 capital convictions, including some where the defendants' lawyers were asleep during trial. But in those 270 cases, new trials were granted on only 8 occasions.

I do not think that I am suggesting to the Senate today an unreasonably high standard. But is it not appropriate at a minimum that in any case where a man or a woman is facing execution and the State is taking their lives, regardless of the evidence, that defense counsel should be awake during the trial? Where the evidence clearly establishes that the trial attorney is asleep, as a matter of simple justice, without contradiction, a new trial should be granted—at least on the penalty of death, if not of guilt or innocence.

This same court of appeals upheld the conviction and sentencing of a Hispanic man who was sentenced to death after a psychiatrist testified that he was more likely to commit future acts of violence because of his ethnicity. A psychiatrist argues before a court in the United States of America that a man is more likely to commit a crime because of his ethnic origin, and a

court in the United States of America hears this evidence without reversal. It is unimaginable.

The U.S. Supreme Court recently ordered a new sentencing hearing in that case because of the evidence.

How many cases get to the U.S. Supreme Court? How many others would have filed? How many others are silent? How many others never got attorneys?

As a result of such injustices, it is not unreasonable to conclude, as Bob Herbert did in a recent New York Times op-ed piece, that the death penalty in the State of Texas is nothing more than "legal lynching."

This is not the death penalty that I have supported most of my life. This is not what the Supreme Court had in mind when it issued its standards. My God, this is not what the Founding Fathers had in mind when they talked about equal justice before the law.

There is a place in the American judicial system for capital punishment. I have not changed my mind. Certain crimes are so offensive, so outrageous, they so violate the public consciousness that capital punishment is the only appropriate response. It is, however, a remedy so severe that it must be administered with the greatest care, the greatest reserve, with the highest possible standards of justice, in representation and review, against arbitrariness, against discrimination, ensuring guilt, fairness, and uniformity.

These cases in Texas—and while Texas may be the most egregious, it does not stand alone—simply do not make that standard.

Supporters of the death penalty, like myself and a majority of Americans, are concerned that innocent people have been, are, or will be executed. And it is not a theoretical problem, it is real. In fact, in a recent survey by CNN/USA Today, 80 percent of Americans surveyed now believe innocent people in the United States have been executed in the last 5 years. That is quite a statement for us to make about our own country, our own system of justice. It is imperative that we take the necessary steps to ensure that it never happens again.

Already we are seeing several States take the lead against just such a threat. The Governor of Illinois, a Republican, to whom I give great credit, troubled by the fact that a number of people on the State's death row had been found innocent, announced earlier this year that he would block all executions until it had been determined that the death penalty was being administered fairly and justly, and I applaud him.

Maryland's Governor recently ordered a 2-year study of racial bias and death penalty procedures in his State, and I applaud him.

The Governor of California recently signed into law a bill that would guar-

antee every convicted felon the right to have DNA evidence tested if it was related to the charges that led to his conviction. Good for California. But it should be good for every State in the Nation and for the United States of America.

Although the Federal Government is not the arbiter of most death row cases, as with most issues, it has a responsibility to set an example. While the Federal Government has not executed someone since 1963, it cannot be said that the Federal system is the best it can be.

This Government has an obligation to reform the death penalty to ensure that innocent people are protected and to ask the States to do the same. This, in my judgment, requires, at a minimum:

First, ensure that defendants in capital cases have competent legal representation at every stage of the case. At every stage, there should be a lawyer who is trained, experienced, and has the ability to ensure, not just for the protection of the defendant but of the society, that we are not taking the life of an innocent person. I do not want just that defense for the defendant; I want that defense for me as an American, to know I am not responsible for the taking of the life of an innocent person.

Second, provide defendants with access to DNA testing. If science has given us the ability to know with certainty whether a person is innocent or guilty, I want that evidence known before a person is executed, no matter what stage, no matter how many trials, no matter how many appeals. I want to know before execution whether that DNA evidence has been made available. States are doing it, and this Government should do it, too.

I am a cosponsor of the Innocence Protection Act that was introduced by my distinguished colleague, Senator LEAHY of Vermont, to ensure that DNA evidence is provided, and I urge the Senate to consider it.

I recognize that all of my colleagues may not support the death penalty as I have supported it and continue to support it, but as a matter of conscience, in fidelity with our founding principles, in a belief in all of our sense of fairness and equal protection before the law, for the reputation of our country, for confidence in our system of justice no matter how we may divide on the question of the death penalty, surely on this we can be of one voice and clearly we can demand no less.

I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

#### ENDING THE 106TH CONGRESS

Mr. GRAMM. Mr. President, today I want to talk about a series of issues that are related to the final things with which we have to deal in ending

this Congress. It is not a long list, but it is a list of things that are important. I hope my colleagues will indulge me while I talk about these issues.

I read this morning in the New York Times, under the headline "Leaders in Congress Agree to Debt Relief for Poor Nations," that an agreement has been worked out on debt relief. I want to make it clear that I am not part of any such agreement. I hope an agreement will be worked out, and I would like to be part of an agreement. But I am not part of any agreement today.

It is important, since so much has been said and written on this issue, that someone on the other side stand up and explain what this issue is about, why it is important, and why people all over America ought to be concerned about it and be concerned that it be done right.

I remind my colleagues and those who might be listening to this discussion that routinely in America people borrow money and are required to repay it. Where I am from, College Station, TX, it is a pretty hard sell to talk about forgiving billions of dollars of debt to countries that borrowed money from us and, in too many cases, simply squandered or stole it, and now they do not want to repay it. They riot, they protest, they demand, but those things do not work in College Station, TX. In College Station, TX, when you borrow money from the bank or finance company or from your brother-in-law, you are expected to pay it back.

Let me make it clear that I am not here to make the most negative case that can be made about debt forgiveness. The flip side of the coin is that many of these countries are desperately poor, and much of this debt can never be repaid. So the debate I want to engage in today is not against debt relief, as hard a sell as that is back home—and I am willing to make that sale or try to—but I am not willing to support debt relief unless we are going to have some reforms to assure that the money is not wasted.

I remind my colleagues, while we talk about debt relief, we are actually appropriating over \$450 million because we are paying off this debt. Our money was lent and was largely squandered, and now it is going to be used to pay off this debt.

So, I am concerned because of the lack of accountability in how the money is being spent. Any Member of Congress knows this is an issue in which a great deal of interest has been taken.

I had a group of holy people come to my office the other day to lobby for this debt forgiveness. I do not think since Constantine the Great called his ecumenical council in Nicaea has there been a larger gathering of holy people in one place than the people who came to see me about supporting debt forgiveness.

And let me quickly add that everybody who came was well intentioned. Their hearts were in the right place. But the problem is not with our hearts; the problem is with our heads. Obviously, in this 2000th year of Christianity—this 2000th year of the birth of Christ—there is a movement all over the world to try to help the poor. But the question is, In forgiving this debt, are we really assuring that the money that we are giving is getting through to the people we are trying to help? And I think that is basically where the problem lies.

Let me now talk about a couple of examples that illustrates this problem. I want to read from four newspaper articles that outline a story, in my opinion, of how this debt forgiveness is abused and how our taxpayer ends up holding the bag.

The first story is from Africa News, July 23, 2000, and is from Kampala, Uganda—one of the initial countries targeted for debt relief.

In March Parliament there approved the direct procurement of a new 12-seat presidential Gulf Stream GIV Special Performance SP jet at a cost of \$31.5 million. Aviation experts said that the final cost of the plane could well be \$47 million.

The current presidential jet is a 9-seater Gulf Stream III acquired just a few years ago.

Now, from the August 2, 2000, issue of the Financial Times in London, I quote:

The Group of Seven leading industrialized countries is pressing the Organization for Economic Cooperation and Development to stop export credits being used to help poor countries buy arms and other "nonproductive" items.

Although the OECD cannot impose binding rules, the U.S. and Britain, leaders of the G7 initiative, believe "naming and shaming" dubious policies could create pressure to get them changed and prevent poor countries from squandering debt relief.

This article is from August 2, and on July 23 we learned that the Ugandan President has bought a new \$47 million plane for his use. And we are naming and shaming, along with the British in the Financial Times.

And now on September 13, 2000, in Africa News, Kampala:

The Paris Club of creditor countries yesterday cancelled \$145 million of Uganda's debt under the Highly Indebted Poor Countries (HIPC) initiative.

Tuesday's Paris Club announcement brings Uganda's total debt relief from the lending countries so far to \$656 million. Uganda has also received \$1.3 billion debt relief pledges from the IMF and World Bank in debt relief over the next 25 years.

So on July 23, which turns out to be the day that debt forgiveness was announced for Uganda, the President of Uganda buys himself a new \$47 million luxury jet. And on August 2 we are naming and shaming people who are abusing debt forgiveness dollars that come from American taxpayers. And then on September 13 it is announced

that we have forgiven this debt, raising the total to \$656 million for Uganda, the same country whose President on the day the debt forgiveness package was announced ordered a \$47 million jet.

Now, the final quote on this point is from the Wall Street Journal, dated October 12, 2000:

On the day that Uganda qualified for debt forgiveness under the Clinton initiative, the president of that struggling African nation signed a \$32 million lease-purchase agreement for a brand-new Gulf Stream jet.

It goes on to say that we have been assured by the administration that he got a pretty good buy on the jet.

Now, I ask my colleagues, when we are talking about this debt forgiveness, should we be forgiving debt with the idea that it is going to help poor people in Uganda when the President of Uganda, on the day the debt relief is announced, buys a \$47 million jet? Maybe you can go to College Station and sell that, but I cannot. And I am not going

Let me go to the next point. All of the people who have written or called me, launched letters and sent calls and prayers and e-mails on this issue, say: We are trying to help people in these poor countries; don't stand in the way; forgive this debt, which I remind my colleagues means appropriating money to pay off the debt on their behalf.

The next country I want to talk about is Chad. This is a country that is next on the list to receive debt forgiveness. The argument is that by forgiving Chad's debt, we are going to help poor people who live there. But let me read from this year's U.S. State Department "Report on Human Rights Violations" in Chad, a country that the administration is pressuring us to appropriate tax money for so he can forgive their debt. This is from the State Department issued under the name of the Secretary of State, who was appointed by President Clinton, not by me. This is what she says about Chad, a country on the list of countries that would receive debt forgiveness if we provide this \$450 million. I quote:

The security forces-

This is in Chad--

continue to commit serious human rights abuses. State security forces continue to commit extrajudicial killings. They torture, beat, abuse and rape.

Now, I ask my colleagues—and I ask public opinion—does it make sense for us to appropriate \$450 million to forgive debt to a country when our own State Department, headed by the Secretary appointed by the same President who champions this debt forgiveness, tells us, "State security forces continue to commit extrajudicial killings; they torture, beat, abuse, and rape"?

Maybe you can go to College Station or Little Rock or Jackson Hole, WY, and sell that. I cannot.

What we are facing is this: Based on good intentions, we want to forgive

this debt, but what happens when there is clear and convincing evidence that the proceeds of the debt forgiveness are going to buy luxury jets for Government officials? And in Chad, remember that the ordinary citizens there did not borrow this money, this was a loan to the Government. So are we going to forgive debts to a government that, according to our very own State Department, continues to murder, brutalize, and rape its own people? I don't think so.

Having said all of that, what is the solution to this problem? It seems to me that if this administration is serious about doing something other than what it believes will be good politics in this election, or something that will make us all feel good—forgiving all of this debt—what we have to do is try to replicate what happens in every American family when people have financial problems.

So, what happens in Arkansas, Texas or anywhere in America, when the bill collector comes knocking at the door? What happens is that families get together around the kitchen table, they get out a pencil and try to figure out on the back of an envelope how much they are making and how much they are spending. They get out their credit cards, they get out the butcher knife, and they cut up their credit cards, and they try to reorganize. They change their habits and their behavior.

It seems to me, when we are talking about forgiving billions of dollars of debt to governments—these loans were made to governments, not to peoplewhen we are forgiving that debt, we have a right—in fact. I would say an obligation—to see that that debt forgiveness benefits the people who live in that country. These countries are not poor because of this debt. They are poor because they have oppressive governments, because they have economic policies that do not work, because they are denied freedom. The sad story is that if we forgive this debt, and we do not demand real reforms, nothing will change. This great opportunity to do something good for poor people in the world will be lost.

In trying to work with the administration—and I would have to say that, in theory, there is a lot of agreement with the administration—but when it comes time to put the requirements into place, that is where we cannot seem to work this issue out. The administration does not contradict its own State Department report on rampant human rights abuses. But when we're trying to set requirements for getting this debt forgiveness, that is where the administration says no.

I have tried to reduce the requirements that I think the conscience of the Senate should require to some very simple things. And I just ask people who might be listening to what I am

saying to ask yourself: Are these unreasonable requirements in return for billions of dollars of taxpayer money?

Let me remind my colleagues, I know there is a drunkenness that has come from this big surplus. Never in my political career have I seen money squandered as it is in our Government this very minute, even as I am speaking right now. It is frightening to me. But even in this moment of a huge surplus, surely everybody realizes and remembers that, for every dollar we get, every dollar we spend, somebody worked hard to earn that money.

I believe that money ought to be respected. So in return for billions of dollars of the American taxpayers' money, here are the conditions to which I have asked the administration to agree.

No. 1, we cannot forgive debt for a country that we find in our most recent human rights evaluation engages in a gross violation of human rights against its own people. In other words, what we would say to the government of Chad is: If you want this debt forgiven, then you have to quit killing, abusing, and raping your people. And if you do not do that, we are not going to forgive the debt. That is condition No.

I do not view that as unreasonable. Quite frankly, I would be ashamed to have my name affixed on a voting list to the forgiveness of this debt if we gave it to murderers, thugs, and rapists.

The second condition has to do with the fact that these countries are poor because they are basically practicing socialism. They deny property rights and economic freedom, and, as a result, they are poor.

We sometimes get the idea that because socialism does not work economically, that it is dying. But socialism works politically, which is why it is alive all over the world and why it is debated in Washington, DC.

Now, here are three economic conditions that, at a minimum, I believe we need. First of all, if countries are going to take our money, they should be required to open their markets to meet the requirements of the World Trade Organization so that we have an opportunity to sell American goods in their economy, and so that their workers have a right to buy goods competitively, instead of being forced to buy expensive, inferior goods from a government-run monopoly.

We have one of the most open economies in the world. We are the richest, freest, happiest people in this world. Asking those who are getting debt relief to do something that will help them is, I think, something that is required. It is something that must be done.

Secondly, they would be required to set up a series of benchmarks, not just on opening up their economy, but also in those countries where government dominates the market, where huge numbers of people work for the government, and, in essence, the government runs everything, we would require, in return for the loan forgiveness, that they set up benchmarks for phasing out subsidies to these government-run enterprises.

The third requirement is simply that in printing their financial and government records on how much money they are spending, how much they are taking in in taxes, how much they are borrowing, that we have transparency so that we and investors can know what is going on in the country and so that we can see whether they are taking actions that will actually improve the life of their people. And that would include transparency in their financial institutions and their banks.

What this would say is, we do not forgive money until these conditions are in place. And if at any point along the way countries do not live up to these commitments, then we stop the debt forgiveness.

Some people think these are outrageous conditions. But I just simply go back to College Station. When you have a line of credit with a bank, and you have told them you are using this line of credit to invest in your restaurant, and it turns out you bought a car for private use, they cut off your line of credit. When you do not tell the truth, you end up losing your line of credit.

So I just want to urge, publicly, the administration to help Congress put together a program that will take this debt forgiveness and put it to work to help ordinary working people. If we do not do something like this, we are going to end up seeing this money spent on jet planes for government leaders; we are going to see the benefits of debt forgiveness go to the leadership elite; and 10 or 15 years from now, when these same countries have the same debt crisis, we will have someone like President Clinton who will be arguing that we could just fix all this if we just forgive this debt.

I am willing to go along with the debt forgiveness. I am willing to go home and try to explain to people why these governments are treated better than citizens here are treated if I know the money is not going to be squandered or stolen or used to abuse the very people we are trying to help. But I intend to fight—and fight hard—to see that we do not take billions of dollars from American taxpayers to give to buy fancy airplanes for government officials, and that we do not use it to basically subsidize corruption and the abuse of the very people we are trying to help.

#### AMNESTY

Mr. GRAMM. Mr. President, a second topic I rise to talk briefly about is the issue of amnesty. The White House sent a letter dated October 12, 2000 to

Congress which in many ways is one of the most extraordinary letters I have ever seen a President send to Congress. This letter, basically says the President will veto the Commerce-Justice-State appropriations bill unless we grant amnesty to people who have violated our laws by coming to this country illegally. In other words, the President is threatening that he will veto a bill that funds DEA—the Drug Enforcement Administration—the FBI, the Federal prison system, our system of criminal and civil justice, he will veto that bill unless we in Congress grant amnesty to people who have broken the law by coming to the United States of America illegally.

It is one thing for the President, functioning under the Constitution, to say: You have your idea about how much money should be spent. I have my idea. I don't think you are spending enough. That is what the President is saying every day. The President is threatening to veto appropriation after appropriation because he doesn't think we are spending enough. We are spending faster than we have ever spent since Lyndon Johnson was President of the United States, yet we are not spending enough money to suit President Clinton.

You can argue that he is wrong, that it is dangerous, that one of the reasons the stock market is in shock today is this runaway Federal spending that endangers our economy and our prosperity, but it is a legitimate issue to be debating on an appropriations bill, how much money we spend.

The President just happens to be wrong—dangerously wrong, in my opinion—and I am not going to support him. But that is one thing.

But to say that unless we pass a law that has nothing to do with spending money, that forgives lawbreakers who came into this country illegally, he is going to veto a bill that funds the FBI, the DEA, and the criminal justice system is an outrageous assertion of Presidential power. Our President has been so successful in manipulating the Congress, he has forgotten that we have a separation of powers in America. He is going to get reminded in this debate.

I don't want to get too deeply into the amnesty issue, but I will say a couple things about it. First of all, as the Presiding Officer knows, as anyone in the Senate knows, if there has been one Member who has been a champion of legal immigration, it is I. I have stood on the floor many times arguing for letting people with a desire to work hard, with talent, genius, creativity, and big dreams into America and to let them come legally. I am proud of the fact that my wife's grandfather came to America as an indentured laborer to work in the sugarcane fields in Hawaii.

I have spoken previously on this issue at great length. One of the most successful employees I ever had was a

young man named Rohit Kumar. The Senate was debating an increase in the quota for legal immigration, if I remember correctly. I talked about the Kumars. His daddy is a research doctor. His mama is a physician. His uncle is an engineer, an architect. The point I made was, America needs more Kumars.

I am sure when you are talking about amnesty, there are going to be those who will say this has something to do with being against foreigners. Well, I don't believe America is full. I was the cosponsor of the H-1B program that will let 200,000 highly skilled technical people—most of them in graduate school in America right now, being funded by our taxpayers—stay temporarily to help us keep the economy strong. But I draw the line on illegal immigration. I draw the line when it comes to breaking the laws of this country.

I believe if we keep granting amnesty to people who came to the country illegally, we are in essence putting up a neon sign on all of our borders saying: Violate our law; come into the country illegally. Then we will later pass laws making it all right and you will be able to stay

I am not for that. I am adamantly opposed to it. Millions of people today are on waiting lists to come to America legally. They are often the wives or husbands of people who have come here and become permanent resident aliens. I am in favor of family unification where someone has come here, they are self-sustaining, they haven't received public assistance within a year, and they show the financial ability to take care of their spouse and children. I say let them come to America. But I draw the line on illegal immigration.

We have somewhere between 5 and 7 million people who have come to America illegally. When we passed the immigration bill in 1986, we granted amnesty to people who were here illegally. That was supposed to be it. Yet now the Clinton administration says they are going to shut down the DEA and FBI and the criminal justice system unless we grant amnesty to more people. We are getting this sort of bait and switch, for which the administration is famous.

I am sure you have heard the argument. There is a claim that there were some aliens here in 1986 who claim they were unfairly denied amnesty and we should now go back and let them qualify. These are the facts: Most didn't qualify for amnesty because the original law, which was going to be the first and last amnesty ever granted to lawbreakers in American history—that was the commitment made here on the floor of the Senate—was for people who could document that they resided here prior to 1982. Now the Clinton administration is saying there were people here when we passed amnesty, who did not get amnesty, and that is unfair, and let's do it for everyone here prior to 1986. I suppose then we can do it up to 1996. We can do this rolling amnesty which, again, simply puts a neon sign along our border which says: Violate America's law; come here illegally.

I don't know what the President is going to do. Maybe he is going to veto Commerce-Justice-State. Maybe he is going to try to shut down the DEA and the FBI, and maybe he is going to try to find somebody to blame. Let me give him a name: PHIL GRAMM.

It may well be that the President can pass this amnesty provision. It may very well be that he has the political power to force us to grant amnesty to lawbreakers in return for funding Commerce-State-Justice. I want to go on record here and sav. I will not make it easy. Any conference report that comes up that has amnesty in it, I am going to offer motions to postpone, to delay, and attempt to force cloture. That is going to take 3 days. Then we are going to have 30 hours of debate, which is going to take another day and a half. Then you are going to do cloture on the conference report itself, and that is going to take another 3 days. Then we are going to have 30 hours of debate on that conference report which is going to take another day.

Bill Clinton is the one moving to New York or Arkansas—I guess the location to be determined by the outcome of the election. I am not going anywhere. I am going to be here next year. Amnesty may pass. We may basically say: Forget about American laws. You come here, violate them; we will just forget it. But it is not going to pass without determined resistance.

I want my colleagues to know that when we are sitting here on election day and there is an effort to pass amnesty, it is not as if people hadn't been told that this was going to be resisted. This is profoundly wrong. This is dangerous for the future of our country. It needs to be stopped.

#### MEDICARE GIVE-BACK

Mr. GRAMM. Mr. President, I had the responsibility in working with the distinguished chairman of the Finance Committee to try to work out our differences with the House on the Medicare give-back.

We passed a bill in 1997 that was aimed at trying to balance the budget and trying to save Medicare. We succeeded in balancing the budget. We have been in the process since that day of trying to undo everything we did. We have put together a package that costs over \$27 billion in Medicare givebacks. About half the package is totally deserved and desperately needed. About half the package in my opinion-I am speaking just for myselfrepresents things that are bad public policy, and it is being done for one simple reason: We have the money. Why not spend it?

I am not going to go down a long list. But let me give you one example—bad debt forgiveness.

Believe it or not, this bill has a provision that says to hospitals, if you don't collect your bad debt—remember, Medicaid pays for health care for poor people. We have two provisions of Medicare that provide taxpayer assistance above Medicaid for very marginal income people who are not poor but they have difficulty paying their bills.

When we are talking about bad debt, we are talking about bad-debt incurred by people who didn't qualify for Medicaid

We have a provision in this bill where the taxpayer will simply come in and pick up 70 percent-plus of bad debt costs for hospitals. Collecting debt is difficult. Ask any retail merchant, or ask anybody who is in business in America. They will tell you it is hard to collect debt.

What do you think is going to happen when the taxpayer pays 70 percent of the debt that hospitals don't want to collect and that people do not want to pay? They are going to stop collecting. People are going to stop paying, and the taxpayer is going to pay.

To get to the bottom line on this issue, the President says: Look, you didn't spend enough money on the things I wanted it spent on, and I am going to veto this \$27 billion give-back.

I hope the President does veto it. I think about half of it is justified. I think we could have done it for \$15 billion, and could have done a reasonably good job.

But my own view is that if the President vetoes it—we are just moments now from an election. We are going to have a new President. My suggestion is, if the President vetoes this bill, that we simply wait until January for a new President—hopefully, someone who will be more responsible than this President—and we will take a very serious look at Medicare.

In this bill, with spending of \$27 billion, we could not find one penny of savings to put in the bill. There is not one thing currently being done in America in health care, including a new scam by States where they simply overcharge the Federal Government and pocket part of the difference—we could not find one thing on which we could save money. I find that difficult to sell.

Finally, there was an article in today's Washington Post by David Broder. I don't always agree with David Broder, but I always think about what he has to say. I guess if you want to define a serious commentator and set it out in a column, you would have to put David Broder's name at the top of that list. You may not like what he says about you. You may not like what he says about your view. But he doesn't say anything that he doesn't think about. I admire that.

He points out today in an article that says "So Long, Surplus" that we are currently—this year—on the verge of spending \$100 billion more than we said we would spend this year when we adopted the much touted Balanced Budget Act in 1997, which Bill Clinton signed. This wasn't just Congress, this was Congress and the President. We are on the verge of spending \$100 billion this year more than we said we were going to spend.

I just want to say that someday people are going to ask: What happened to this surplus? They are going to ask: Why didn't we rebuild Medicare? Why didn't we rebuild Social Security by putting real assets into Social Security—not taking anything out of Social Security but putting real assets into Social Security—by taking this money and investing it in stocks, bonds, and real assets so we have something to pay benefits with in the future?

Someday someone is going to ask: What happened to that surplus? Why couldn't we, when tax rates were at the highest level in American history, have some tax relief for working families? Why did we have to keep forcing people to sell the farm or business in order to pay the Government a death tax? Why did we have to tax marriage and love in the marriage tax penalty?

Someday somebody is going to ask those questions. I just want to be on record saying I think it is outrageous that we are doing this. I think we need to stop doing this.

I read in the paper where the President said he is like the Buddha. He is like Buddha. He just sits and waits and waits, and Congress wants to go home, and the only way they are going to go home is to spend all of this money.

I repeat that I am not going anywhere. President Clinton's number of days as President is now short.

My point is that we have a right to say no. We have a right to say in education when we have spent every penny the President said he wanted but we want to let States decide how to spend the money—we want to give them the same money, but we want them to decide how to spend it, and President Clinton says: No. I am going to veto your bill because I want to tell States how to spend it.

I think we have an obligation to say no. If people need schools, they can take the money and build schools. If they need more teachers, they can take the money and hire more teachers. But if they need other things, they can take the money and do that, because they know their needs better than Bill Clinton.

But that is not what the President wants. We spent every penny he asked for—too much money, in my opinion. But he said he is going to veto that bill because we give the States the ability to decide what they need to spend the money on.

My answer to that is, let him veto it, and then we can pass a continuing resolution. Let's have an election. If people want to spend this surplus, if they want to spend it on program after program after program after program, if they want more government and less freedom, they know how to vote in this election. If you want the Government to spend more, and if you want this surplus to be spent on government programs, you know how to vote.

But we ought not to let Bill Clinton spend the money before the American people vote for more spending. First, I don't think they are going to do it; but, second, that is what elections are about.

I think we have to quit kowtowing to the President. If he wants to force us to stay here and pass these bills day after day after day, if I were running for reelection and were in a close race. I would go home and campaign. But for the 60-some-plus of us who are not up for reelection, let's just stay here in town. And if the President suddenly becomes reasonable, we will reach an agreement. But if he is going to play Budhha, to quote him, and sit there and see if it will work one more timethat is, if by threatening to hold us in session he can get us to spend more money than our budget and more money than his budget—he wants to see if it will work one more time, I want to say no. I think the American people would rejoice in it.

I am hopeful my fellow colleagues will come to the conclusion that the President is asking too high a price to see this session of Congress end. Too much money. Too much change in permanent law that does not represent the will of the American people. I think we need to say no. The sooner we say no, the sooner the President will come to his senses. And he will for a simple reason: He is not holding a strong hand here. He is the one moving off. We are not moving anywhere.

I think we can come to a compromise with the President, but I think we ought to be tired of being run over. I say we should not spend more money simply to get out of town. To do that would basically betray everything we claim to believe in and betrays the people who are going to pay our salary, whether we are in town or not.

I thank my colleagues for their indulgence, and I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. THOMAS. I ask unanimous consent to speak in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLEAR CHOICES

Mr. THOMAS. Mr. President, I certainly join my friend from Texas. He spells out some things that are quite clear but obviously are not talked about very much.

I was listening earlier to my friend from North Dakota, who talked about the differences between the parties, between the Presidential candidates. Certainly there are differences. They talk about them being the same; they are not the same. I think there are some very clear philosophical choices to make.

Of course, that is why we are here. There is nothing unusual about having different points of view. Those points of view are very clear. Often we get involved in details and get bogged down in the choices in terms of direction and where we want to go, in terms of where we want the country to be in 10, 20, 50 years. That gets lost. They are the most important issues that we have.

One of them, in general terms is, what is the role of the Federal Government? How extensively does the Federal Government get involved in all the activities in our lives? What is the role of local government? Of course, most important is the role you and I, as individuals, have experienced over the past decade.

For nearly a decade, the idea was that whatever the problem was, it was up to the Federal Government to resolve it. Of course, much of that comes from politics. That is a great way to get votes. There is a saying: You can teach a person to fish and they always have a fish; give them a fish and you will always have his vote. That is the political aspect.

There are some great differences: whether we have higher taxes; whether we have less taxes; what we do with the surplus that exists now. I think one of the real key issues is the division of authority, the division of responsibility between local governments and the Federal Government, State governments, county governments. These are the issues I believe are extremely important. This is, after all, a "United" States, a union of States, that each constitutionally has some very clear responsibilities.

One of the issues that has been most interesting, and as the Senator from Texas pointed out, has caused us to have a slower resolve in this Congress than usual, is the idea that there will be a surplus, a \$5 trillion surplus over the next 10 years, \$1.8 of that being non-Social Security.

There are several plans. One is to clearly put the Social Security money in the Social Security lockbox so it is used for Social Security, so that people who look forward to benefits, particularly young people, will have some feeling that there will be benefits; they are entitled to those benefits. Of course, as the demographics change—and they do change very much. I think originally there were 20 people working for every one drawing benefits, and now it is three working for every one drawing benefits—there will have to be changes in Social Security.

There are proposals for raising taxes. That is unpopular and not a good idea, in my view. There is some talk about reducing benefits. Again, I don't think that is the solution. One view is to give an opportunity, a choice, particularly for young people, to have an opportunity to put a portion of the money they pay into their own account, to have it invested for the private sector and increase their return. Over a period of time, an increase in return from  $2\frac{1}{2}$  percent to  $5\frac{1}{2}$  percent is very significant. That is one view.

The opposite view is, no, we don't want to touch that. We are not going to touch Social Security. We don't want to change it. At the same time, we have had seven votes here about a lockbox and we have had resistance each time. There is a great deal of discussion and debate about philosophical differences in the approach.

We heard the candidates talk last night for the third time. Clearly, one point of view is to have a government health care program for everyone. I don't happen to agree with that. I think we talked about that. We tried to do that early on. We have seen the difficulties. So we ought to find an alternative solution. The alternative is to give people two choices to ensure health care, those particularly who cannot afford it. Those who want to have some choices are going to pay for them.

Similarly, with pharmaceuticals, an issue is to put it on every Medicare program, whether people really want it, whether people can afford it, as opposed to choices. There are real differences.

Taxes: Of course, we talked a great deal and will continue to talk about the idea of tax reduction, whether spending ought to be what we do with the surplus, which is basically the point of view of AL GORE—the largest spending since Lyndon Johnson and his proposals-or, on the other hand, we ought to take a look at being sure we fund and finance those things that are there. We do education; we do Medicare; we do pharmaceuticals. When we are through with that, there will still be substantial amounts of money. It ought to go back to the people; it belongs to them; they paid in the money. We hear talk about it going to 1 percent of the population. The fact is, the 1 percent would be paying a higher percentage of the total taxes than they are now. I don't think there is much of an argument that people are entitled to some return.

The marriage penalty tax: Why should two married people pay more taxes, earning the same amount of money as when they were single, collectively? That is wrong. It was vetoed.

Estate tax: People spend their lives putting together estates, farms, ranches, businesses. It is not a question of not paying taxes. Capital gains taxes are paid on the increased value of those estates. But the idea that death should

trigger a 52-percent tax on an estate that is already being taxed is a choice.

Those are different directions we take. I certainly agree with the idea that there are choices and there will be choices in this election, whether it be the Presidential election, whether it be the congressional election. And I hope each of us, as we exercise our responsibility as citizens in a government of the people and for the people and by the people, will take a look at those choices. Often it is difficult when we get off on a very specific issue and overlook the general direction and philosophy we want to take. That, it seems to me, is one of the most important things we have before the Senate.

I hope we can move forward and do our work. We have an obligation to do that and do it as quickly as we can. Certainly we want to stay here until we have completed the work in the manner in which we think it should be completed. The idea that we continue to stall, will continue to hold up appropriations bills so they can be joined with things that are unrelated, seems wrong to me.

I hope we move forward. More than anything as we move through this very important election cycle, I hope each of us takes a look at the direction we believe we should move toward. Should we have more Federal Government, more spending, more taxes? Should we have a Federal Government that deals with those essential items and funds them properly, reduces taxes so we don't have excess amounts of money here, returns to local and State governments the kinds of responsibilities they have and, more importantly than that, returns to individuals the choices they can make in their lives and avoid having the Federal Government become the decisionmaker for each of them.

Mr. President, I yield the floor.

Mr. DORGAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. ALLARD). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I ask unanimous consent to speak in morning business for 20 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### NUCLEAR ARMS REDUCTION

Mr. DORGAN. Mr. President, as we near the end of this Congress, one of the profound disappointments for me and for a number of others serving in the Senate is the inattention paid to the issue of arms control, especially the issue of nuclear arms reduction.

As we debate a range of public policy issues in this country during the cam-

paigns for the House and the Senate and the Presidency, we will hear a lot about health care, education, taxes, and economic growth, but we hear almost nothing about the issue of nuclear arms reduction.

It is important to understand what kind of nuclear weapons exist in our world and why nuclear arms reductions are important for us, our children, and our future.

The nuclear arsenal in this world totals about 32,000 nuclear weapons— 32,000 nuclear weapons. The Russians have about 20,000 of them, many of them tactical nuclear weapons, some strategic. The United States has about 10.500 nuclear weapons. France, China, Israel, the United Kingdom, India, Pakistan also have nuclear weapons. We know India and Pakistan have a few nuclear weapons because they have exploded those nuclear weapons right under each other's chin by their borders. These are countries that do not like each other, and they have tested nuclear weapons recently, much to the consternation of the rest of the world.

We have a nuclear arsenal in this world that is frightening. What does this mean, 32,000 nuclear weapons? Let me put it in some perspective. The bomb that was dropped on Hiroshima killed 100,000 people. The bomb was named "Little Boy." It was 15 kilotons. It was 6,500 times more effective and more efficient, as they say—only people who are involved in this could use that word, I suppose—than ordinary high-explosive bombs.

The amount of nuclear weapons that exist today in this world is equivalent to 1 million Hiroshima bombs. Think of that. The bomb that was dropped on Hiroshima killed 100,000 people. We have the equivalent of 1 million of those bombs among the countries that possess nuclear weapons.

It is hard for anyone to understand fully what this means. The world's nuclear arsenal today has a total yield of about 15 billion tons of TNT. That is equivalent to the power of 1 million Hiroshima-type bombs.

This Congress has done very little on the issue of arms control and arms reduction. It took a giant step backward, in my judgment, in the debate over the Comprehensive Nuclear Test-Ban Treaty. A little over one year ago, on October 13, 1999, this Senate rejected ratification of the Comprehensive Nuclear Test-Ban Treaty. The Senate did not hold hearings for 2 years on that issue. Then there were 2 days of hearings cobbled together quickly, and then the Comprehensive Nuclear Test-Ban Treaty was brought before the Senate. There were 2½ days of floor debate, and then it was defeated.

I guess it was defeated by those who say they do not want us involved in the Comprehensive Nuclear Test-Ban Treaty. However, 160 other countries have already signed the treaty. It was interesting. Just before the vote a year ago,

Mr. Blair, Mr. Chirac, and Mr. Schroeder from England, France, and Germany, wrote the following in an op-ed piece that was rather unprecedented, published in the Washington Post:

Failure to ratify the CTBT will be a failure in our struggle against proliferation. The stabilizing effect of the Non-Proliferation Treaty . . . would be undermined. Disarmament negotiations would suffer.

This is from three of our closest allies. Their point was we have this struggle to stop the proliferation of nuclear weapons. Who else will gain possession of nuclear weapons? Many want them. Can we stop the spread of nuclear weapons and stop the spread of delivery vehicles for those nuclear weapons? It is a question this Congress needs to answer. Regrettably, when it voted on the Comprehensive Nuclear Test-Ban Treaty, it answered no; that is not the priority.

I wonder how many of our colleagues are aware of an incident that occurred December 3, 1997, in the dark hours of the early morning in the Barents Sea off the coast of Norway. That morning of December 3, 1997, several Russian ballistic missile submarines surfaced in the cold water and prepared to fire SS-20 missiles. SS-20 missiles have the capability of carrying 10 nuclear warheads. They travel 5,000 miles—far enough to reach the United States from the Barents Sea.

On that morning, those Russian submarines surfaced and launched 20 ballistic missiles. Roaring skyward, they rose to 30,000 feet. They were tracked by our space command in NORAD, and at 30,000 feet, all of those Russian missiles exploded.

Why did those Russian missiles explode? Those missiles did not have nuclear warheads on them. Those missiles were not part of a Russian missile attack on the United States. In fact, seven American weapons inspectors were there, watching from a ship a few miles away as the Russian missiles were launched. These self-destruct launches were a quick and a cheap way for the Russians to destroy submarine-launched missiles that they were required to destroy under the START I arms control treaty they have with the United States.

What an interesting thing to see, the firing of missiles to destroy them—no, not to terrorize or attack an enemy, but to destroy the missiles because arms control agreements require that the missiles be destroyed.

With consent, I hold up a piece of metal that comes from a Backfire bomber. This is from a wing strut on an old Soviet Union—now Russian—bomber called the Backfire bomber. This bomber would fly in this world carrying nuclear weapons from the cold war with the United States, threatening our country. How would I have the piece of a wing strut of a Russian Backfire bomber? Did we shoot it

down? No, we did not shoot this bomber down. I would like to show a picture of what we did with this bomber. This is the Backfire bomber. As you can see, we cut it in half. Why are we cutting up Russian bombers? Because our arms control agreements require a reduction in nuclear arms and vehicles to deliver nuclear weapons.

I have here ground up copper wire from a Typhoon Russian submarine. This used to be wiring on a Russian submarine that would stealthily move under the waters of this world with missiles and multiple warheads, nuclear warheads aimed at the United States of America. How is it that I hold in my hand copper wire from a Typhoon-class Russian submarine? Did we sink that submarine? Did we attack it and sink it and destroy it? No. What happened to the Typhoon submarine was it was brought to a shipyard, under the arms control agreement, and it was chopped up. I do not have a picture of what was left of it when this was brought to drydock and destroyed, but the fact is we cut these weapons systems up as part of our arms control agreements.

This is what the submarine looks like in drydock as it is being destroyed.

In the Ukraine, there is a little spot where you can travel and see some sunflowers growing. Do you know what used to be where the sunflowers now exist? A Russian missile with multiple nuclear warheads aimed at the United States of America. The missile is now gone. Under arms control agreements, it was pulled out and destroyed because our agreements with the Russians require that to happen. Where there was once a missile aimed at the United States of America, there is now a field of sunflowers. What a wonderful metaphor for progress.

I raise all these issues simply to say we have made significant progress in arms control and arms reduction, but not nearly as much as we must. Here is a chart of some of the examples of what we have done: 5,314 nuclear warheads have been removed, 507 ICBMs, 65 silos, 15 ballistic missile submarines, and 62 heavy long range bombers are gone—because we, through what is called the Nunn-Lugar program, have provided taxpayer funding to destroy the weapons that existed in the old Soviet Union, and now in Russia, to say, in concert with our agreements, we will reduce nuclear weapons. We have reduced nuclear weapons and they have reduced nuclear weapons. It makes a lot more sense to destroy these airplanes, missiles and warheads before they are used in hostile actions. It makes a lot more sense to destroy them by arms control agreements and arms reduction agreements. That is exactly what has been happening.

Going back to the chart I put up, despite all the progress and all the reductions in nuclear arms, here is what is

left. It is troublesome because there are a lot of countries that want to get into these arsenals, especially this one. There are a lot of countries, a lot of people, a lot of terrorist groups that want to grab hold of a nuclear weapon here or there, and have nuclear capability for themselves. That is very dangerous. That makes for a very dangerous world and a very dangerous future.

Some days ago we witnessed a cowardly terrorist act of a couple of people in a boat, pulling up by the side of an American Navy ship, the U.S.S. Cole, creating an explosion that took the life of many of our young sailors who were serving their country. I indicated before, I send my thoughts and prayers to all of those families who are now grieving the loss of their loved ones. They should know the service and dedication of their loved ones in serving this country is something a grateful nation will never forget.

But it is a dangerous world. The attack on the Cole reminds us again that there are those who want to commit acts of terrorism. It is a dangerous world. What if that small boat had contained a nuclear weapon? Don't you think those terrorists would love to get their hands on a nuclear weapon? Of course they would.

There are many countries that do not yet have the capability of building nuclear weapons that desperately want it. They are struggling, even now, to try to get their hands on the arsenal, and on the mechanics and capabilities of making a nuclear weapon. We must understand how dangerous it will be for our future and for our children if we do not make arms reduction, and the development of new agreements and new treaties to stop the proliferation of nuclear weapons job No. 1; we must understand how dangerous that is for our future.

This Congress, as I indicated, decided it would not support the Comprehensive Nuclear Test-Ban Treaty. Lord only knows why they would make that decision. It is beyond me. The test ban treaty has formally been ratified by 66 states, signed by 160 states. The major holdouts, incidentally, are the U.S., China, India, Pakistan, and North Korea. Six countries have signed the Comprehensive Nuclear Test-Ban Treaty and 14 have ratified it since our vote to turn it down last October. All of the NATO states, all of our NATO allies, have ratified the Comprehensive Nuclear Test-Ban Treaty except the United States.

We are told by the critics that we not only should threaten our arms reduction agreements, including START I and START II, and the prospect of a Start III, we should also threaten all our arms control agreements—including the anti-ballistic missile agreement, which is so important, the center pole of the tent on arms reduction—we should threaten all of those

for the sake of building a national missile defense program. We should threaten all of those for the sake of defeating the Comprehensive Nuclear Test-Ban Treaty.

It is interesting that this country has already decided of its own volition we will not test nuclear weapons. We decided 7 years ago we would not test nuclear weapons. So we have unilaterally said we will not test nuclear weapons, but we are then the country that says we will refuse to ratify the Comprehensive Nuclear Test-Ban Treaty. That is not a step forward; that is a huge step backwards.

I cannot describe my disappointment at a Congress that turns down the Comprehensive Nuclear Test-Ban Treaty and the responsibility that should come with this country considering the nuclear weapons it has. I cannot describe how profound my disappointment is. We have a responsibility to provide leadership. It is our responsibility. We are the world's leader in this area. We must say that we and our allies and all other countries must work every day, all day, to make sure the spread of nuclear weapons stops; to make sure those who want to achieve the capability of making nuclear weapons will not be able to achieve that capability. We must do that. That is our responsibility. It is on our watch.

We have a Senate that turns down a Comprehensive Nuclear Test-Ban Treaty but says: Let us build a national missile defense no matter what it costs; let's build a national missile defense system no matter what its consequences to our relationship with others in the nuclear club; let's build a national missile defense system no matter what it does to our arms control agreements. Build it, just build it; all the other things are irrelevant, they say.

I disagree with that. We have a lot of threats to which this country must respond. Some of them are nuclear threats. Some of them are nuclear threats that result from a rogue state acquiring a ballistic missile, and attaching to that missile a nuclear warhead, and aiming it at the United States. That truly is a threat. However, it is one of the least likely threats, I might suggest, and all experts have suggested that as well.

The most likely threat, by far, is not to have a rogue nation acquire an intercontinental ballistic missile and fire it at the United States with a nuclear warhead; the most likely threat, by far, is for a rogue nation or a terrorist group to achieve some sort of suitcase nuclear bomb and plant it in the trunk of a rusty Yugo car, set that car on a dock in New York City, and hold the city hostage. That has nothing to do with an intercontinental ballistic missile.

Far more likely is a small glass vial of deadly biological or chemical agents

that can kill 100 million people. Or far more likely, in my judgment—if the threat is a missile threat—is from a cruise missile, not an intercontinental ballistic missile. A cruise missile, which would be more readily available, is a missile which travels at 500 feet above the ground at 500 miles an hour, roughly, and is not detectable or defensible from a national missile defense system once it is built.

So we have our colleagues who turn down the Comprehensive Nuclear Test-Ban Treaty and then say, by the way, we want to build a national missile defense system, and it will protect against one small sliver of the threat, and almost all the rest of the threat will be unresolved because we have spent all the money on this one small sliver, which is the least likely threat.

If the attack on the U.S.S. *Cole* teaches us—and it should —it ought to teach us that the more likely threat to this country is a terrorist threat by two people on a boat or by someone driving a rental truck that is filled with a fertilizer bomb, as happened in Oklahoma City, or dozens of other approaches in which terrorists, or others, use their skill to try to wreak havoc through terrorist acts.

My hope is that while this Congress seems oblivious to the value of arms control and arms reductions, we will at least have some kind of a discussion in this campaign going on in this country about how we feel, as Members of Congress and as Presidential candidates, about our responsibility to provide leadership to reduce the stockpile of nuclear arms and reduce the threat of nuclear war, and especially to stop the spread of nuclear weapons to those who want them but do not yet have them.

What is our leadership responsibility? Some say: It is not our job. Not now. Not us. It is not time. I do not agree with that. We are kind of waltzing along as a country. Everything seems pretty good. The economy is doing pretty well.

We have a great deal of uncertainty in the world. We have a country such as Russia with 20,000 nuclear weapons. We have a lot of others that aspire to get access to the delivery vehicles and to nuclear weapons. We have terrorist groups who are in terrorist training camps, as I speak, who would love to acquire small, low-yield nuclear weapons. We have command and control issues in Russia on both strategic and tactical nuclear weapons. Yet there is almost no discussion here in this Chamber—almost no discussion in the Senate—about these issues.

To the extent there is discussion, it is discussion with a set of very special blinders, saying: Let's do the following. Let's build a national missile defense system. And let's build it now. And notwithstanding the consequences, we don't care what it costs, and we don't care what its consequences might be

with respect to arms control agreements that now exist.

That is not, in my judgment, the best of what we ought to be doing for future generations. It is our responsibility to lead on the issue of arms reduction and arms control. It is our responsibility to say to the world that 20,000 nuclear weapons in the Russian stockpile is too much, and 10,500 nuclear weapons in our stockpile is too much, and we need to begin systematic reduction.

We know what does not work, and we know what does work. What does work is the Nunn-Lugar program, in which this country engages in treaties and, with the verification of those treaties, helps pay for the systematic destruction of nuclear weapons and delivery systems for those nuclear weapons. We know that works. We have been doing it now for several years.

I held in my hand, as I said earlier, a part of a Russian bomber wing. We did not shoot it down, we sawed it up. I held something from a nuclear submarine. We did not sink it, we dismantled it. One day, on the floor of the Senate, I held a hinge from an ICBM silo that was located in the Ukraine. I had that metal hinge not because we destroyed that silo with a nuclear weapon but because we sent bulldozers and heavy equipment over there and took the silo out. What a remarkable success. Nunn-Lugar, that is what the program is called; Republican-Democrat: LUGAR a Republican. Nunn a Democrat. Nunn-Lugar: These two people provided leadership in the Senate saving, this is the program we ought to have to try to steer an area of arms reductions compliance with treaties that actually reduce the nuclear threat.

But it is just a step. It is just a step in what ought to be a journey for us, a long journey, but one we must stick to and must reflect as a priority for our country.

So I just wanted to come, as we finish this session of Congress, to say I have been profoundly disappointed that in this Congress we have made no progress on the issue of stopping the spread of nuclear weapons. We have a requirement to provide the leadership in this world on that issue. We have made no progress on the two major issues: The Comprehensive Nuclear Test-Ban Treaty, we took a huge step backward in terms of our world leadership responsibilities; and, second, on the issue of national missile defense, we have sent a signal to others that our arms control agreements really do not matter very much. That is, in my judgment, exactly the wrong signal to be sending.

I heard the Senator from Texas, my colleague, Mr. GRAMM, talk about another issue. I can't do his Texas twang, but he said: I am going to be here next year. Well, he is. I am going to be here next year as well. We have terms in the Senate. I was elected by my State to

come and serve my State's interests here in the Senate and serve the interests of this country. I am going to be here.

It is my intention, with whatever strength I have, to try to provide some constructive leadership, with my colleagues, to say: This country has a significant responsibility to address the issue of stopping the spread of nuclear weapons. To the extent that we don't care much about it, don't do much about it, don't discuss it, don't talk about it, don't debate it, in my judgment, our country's future is severely injured.

I hope that as we turn the corner and come to January and swear in the 107th Congress, the issue of arms control and arms reductions—dealing with the stopping of the spread of nuclear weapons and the proliferation of both nuclear weapons and delivery vehicles for them—can become part of a significant debate in Congress because all Members of Congress will understand our responsibility and its importance.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### RECESS

The PRESIDING OFFICER. Under the previous order, the Senate stands in recess until the hour of 2:15 p.m.

Thereupon, the Senate, at 12:29 p.m., recessed until 2:17 p.m., whereupon, the Senate reassembled when called to order by the Presiding Officer (Mr. GREGG).

The PRESIDING OFFICER. The Senator from Wyoming is recognized.

Mr. THOMAS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. THOMAS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### EXECUTIVE SESSION

#### EXECUTIVE CALENDAR—UNANI-MOUS CONSENT AGREEMENT

Mr. THOMAS. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following treaties on today's Executive Calendar. They will consist of Nos. 20 through 53.

the treaties be considered as having passed through their various parliamentary stages up to and including the presentation of the resolutions of ratification; all committee provisos, reservations, understandings, declarations be considered and agreed to; that any statements be printed in the CON-GRESSIONAL RECORD as if read: further. that when the resolutions of ratification are voted upon, the motion to reconsider be laid upon the table, the President be notified of the Senate's action, and that following the disposition of the treaties, the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. THOMAS. Mr. President, I ask unanimous consent that the clerk report each treaty by title prior to the vote on each treaty, and further I ask for a division vote on each resolution of ratification.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered. The treaties will be considered to have passed through their various parliamentary stages up to and including the presentation of the resolutions of ratification, which the clerk will report.

## TREATY WITH MEXICO ON DELIMITATION OF CONTINENTAL SHELF

The resolution of ratification was read as follows:

Resolved, (two-thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the United Mexican States on the Delimitation of the Continental Shelf in the Western Gulf of Mexico Beyond 200 Nautical Miles, signed at Washington on June 9, 2000 (Treaty Doc. 106-39), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please rise. (After a

I further ask unanimous consent that pause.) Those opposed will rise and ne treaties be considered as having stand until counted.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

#### PROTOCOL AMENDING THE 1950 CONSULAR CONVENTION WITH IRELAND

The resolution of ratification was read as follows:

Resolved, (two-thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Protocol Amending the 1950 Consular Convention Between the United States of America and Ireland, signed at Washington on June 16, 1998 (Treaty Doc. 106-43), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please rise. (After a pause.) Those opposed will rise and stand until counted.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

#### INTER-AMERICAN CONVENTION ON SERVING CRIMINAL SENTENCES ABROAD

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Inter-American Convention on Serving Criminal Sentences Abroad, done in Managua, Nicaragua, on June 9, 1993, signed on behalf of the United States at the Organization of American States Headquarters in Washington on January 10, 1995 (Treaty Doc. 104-35), subject to the conditions of subsections (a) and (b).

- (a) The advice and consent of the Senate is subject to the following conditions, which shall be included in the instrument of ratification of the Convention:
- (1) RESERVATION.—With respect to Article V, paragraph 7, the United States of America will require that whenever one of its nationals is to be returned to the United States,

the sentencing state provide the United States with the documents specified in that paragraph in the English language, as well as the language of the sentencing state. The United States undertakes to furnish a translation of those documents into the language of the requesting state in like circumstances.

- (2) UNDERSTANDING.—The United States of America understands that the consent requirements in Articles III, IV, V and VI are cumulative; that is, that each transfer of a sentenced person under this Convention shall require the concurrence of the sentencing state, the receiving state, and the prisoner, and that in the circumstances specified in Article V, paragraph 3, the approval of the state or province concerned shall also be required.
- (b) The advice and consent of the Senate is subject to the following conditions, which are binding upon the President but not required to be included in the instrument of ratification of the Convention:
- (1) DECLARATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.
- (2) PROVISO.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of the treaty, please rise. (After a pause.) Those opposed will rise and stand until counted.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

## TREATY WITH BELIZE FOR RETURN OF STOLEN VEHICLES

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of Belize for the Return of Stolen Vehicles, with Annexes and Protocol, signed at Belmopan on October 3, 1996 (Treaty Doc. 105-54), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) Proviso.—The resolution of ratification is subject to the following proviso, which

shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

Mr. BYRD. Mr. President, I ask unanimous consent that the division be shown by raising of hands rather than standing.

The PRESIDING OFFICER. Without objection, it is so ordered.

A division has been requested.

Senators in favor of the ratification of the treaty will please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

TREATY WITH COSTA RICA ON RETURN OF VEHICLES AND AIRCRAFT

The resolution of ratification was read as follows:

Resolved, (two-thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the Republic of Costa Rica for the Return of Stolen, Robbed, Embezzled or Appropriated Vehicles and Aircraft, with Annexes and a related exchange of notes, signed at San Jose on July 2, 1999 (Treaty Doc. 106–40), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President.

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of the treaty will please raise their hand. (After a pause.) Those opposed will raise their hand.

# TREATY WITH CYPRUS ON MUTUAL LEGAL ASSISTANCE IN CRIMINAL MATTERS

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the Republic of Cyprus on Mutual Legal Assistance in Criminal Matters, signed at Nicosia on December 20, 1999 (Treaty Doc. 106–35), subject to the understanding of subsection (a), the declaration of subsection (b) and the provisos of subsection (c).

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

PROHIBITION ON ASSISTANCE TO THE INTERNATIONAL CRIMINAL COURT.—The United States shall exercise its rights to limit the use of assistance it provides under the Treaty so that any assistance provided by the Government of the United States shall not

be transferred to or otherwise used to assist the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the Statute establishing the Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(c) PROVISOS.—The resolution of ratification is subject to the following provisos, which shall not be included in the instrument of ratification to be signed by the President:

(1) LIMITATION ON ASSISTANCE.—Pursuant to the rights of the United States under this Treaty to deny requests which prejudice its essential public policy or interests, the United States shall deny a request for assistance when the Central Authority, after consultation with all appropriate intelligence, anti-narcotic, and foreign policy agencies, has specific information that a senior government official who will have access to information to be provided under this Treaty is engaged in a felony, including the facilitation of the production or distribution of illegal drugs.

(2) SUPREMACY OF THE CONSTITUTION.—
Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty will please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

# TREATY WITH EGYPT ON MUTUAL LEGAL ASSISTANCE IN CRIMINAL MATTERS

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consider to the ratification of the Treaty Between the Government of the United States of America and the Government of the Arab Republic of Egypt on Mutual Legal Assistance in Criminal Matters, signed at Cairo on May 3, 1998 (Treaty Doc. 106–19), subject to the understanding of subsection (a), the declaration of subsection (b) and the provisos of subsection (c).

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

PROHIBITION ON ASSISTANCE TO THE INTERNATIONAL CRIMINAL COURT.—The United

States shall exercise its rights to limit the use of assistance it provides under the Treaty so that any assistance provided by the Government of the United States shall not be transferred to or otherwise used to assist the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability of all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

- (c) PROVISOS.—The resolution of ratification is subject to the following provisos, which shall not be included in the instrument of ratification to be signed by the President:
- (1) LIMITATION ON ASSISTANCE.—Pursuant to the rights of the United States under this Treaty to deny requests which prejudice its essential public policy or interests, the United States shall deny a request for assistance when the Central Authority, after consultation with all appropriate intelligence, anti-narcotic, and foreign policy agencies, has specific information that a senior government official who will have access to information to be provided under this Treaty is engaged in a felony, including the facilitation of the production of distribution of illegal drugs.
- (2) SUPREMACY OF THE CONSTITUTION.— Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty will please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

TREATY WITH FRANCE ON MUTUAL LEGAL ASSISTANCE IN CRIMINAL MATTERS

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of France on Mutual Legal Assistance in Criminal Matters, with an Explanatory Note, signed at Paris on December 10, 1998 (Treaty Doc. 106–17), subject to the understanding of subsection (a), the declaration of subsection (b) and the provisos of subsection (c).

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following un-

derstanding, which shall be included in the instrument of ratification:

PROHIBITION ON ASSISTANCE TO THE INTERNATIONAL CRIMINAL COURT.—The United States shall exercise its rights to limit the use of assistance it provides under the Treaty so that any assistance provided by the Government of the United States shall not be transferred to or otherwise used to assist the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

- (c) PROVISOS.—The resolution of ratification is subject to the following provisos, which shall not be included in the instrument of ratification to be signed by the President:
- (1) LIMITATION ON ASSISTANCE.—Pursuant to the rights of the United States under this Treaty to deny requests which prejudice its essential public policy or interests, the United States shall deny a request for assistance when the Central Authority, after consultation with all appropriate intelligence, anti-narcotic, and foreign policy agencies, has specific information that a senior government official who will have access to information to be provided under this Treaty is engaged in a felony, including the facilitation of the production or distribution of illegal drugs.
- (2) SUPREMACY OF THE CONSTITUTION.— Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty will please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the Hellenic Republic on Mutual Legal Assistance in Criminal Matters, signed at Washington on May 25, 1999 (Treaty Doc. 106-18), subject to the understanding of sub-

section (a), the declaration of subsection (b) and the provisos of subsection (c).

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

Prohibition on assistance to the international criminal court.—The United States shall exercise its rights to limit the use of assistance it provides under the Treaty so that any assistance provided by the Government of the United States shall not be transferred to or otherwise used to assist the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on may 14, 1997.

- (c) Provisos.—The resolution of ratification is subject to the following provisos, which shall not be included in the instrument of ratification to be signed by the President:
- (1) LIMITATION ON ASSISTANCE.—Pursuant to the rights of the United States under this Treaty to deny requests which prejudice its essential public policy or interests, the United States shall deny a request for assistance when the Central Authority, after consultation with all appropriate intelligence, anti-narcotic, and foreign policy agencies, has specific information that a senior government official who will have access to information to be provided under this Treaty is engaged in a felony, including the facilitation of the production or distribution of illegal drugs.
- (2) SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United Stated of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty will please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

TREATY WITH NIGERIA ON MUTUAL LEGAL ASSISTANCE IN CRIMINAL MATTERS

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Federal Republic of Nigeria on Mutual Legal Assistance in Criminal Matters, signed at Washington on September 13, 1989 (Treaty Doc. 102–26), subject to the understanding of subsection (a), the declaration of subsection (b) and the provisos of subsection (c).

(a) UNDERSTANDING.—The Senator's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

PROHIBITION ON ASSISTANCE TO THE INTERNATIONAL CRIMINAL COURT.—The United States shall exercise its rights to limit the use of assistance it provides under the Treaty so that any assistance provided by the Government of the United States shall not be transferred to or otherwise used to assist the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(c) PROVISOS.—The resolution of ratification is subject to the following provisos, which shall not be included in the instrument of ratification to be signed by the President:

- (1) LIMITATION ON ASSISTANCE.—Pursuant to the rights of the United States under this Treaty to deny requests which prejudice its essential public policy or interests, the United States shall deny a request for assistance when the Central Authority, after consultation with all appropriate intelligence, anti-narcotic, and foreign policy agencies, has specific information that a senior government official who will have access to information to be provided under this Treaty is engaged in a felony, including the facilitation of the production or distribution of illegal drugs.
- (2) SUPREMACY OF THE CONSTITUTION.— Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty will please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

# TREATY WITH ROMANIA ON MUTUAL LEGAL ASSISTANCE IN CRIMINAL MATTERS

The resolution of ratification was read as follows:

Resolved, (two-thirds of the Senators present concurring therein), That the Senate advise

and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of Romania on Mutual Legal Assistance in Criminal Matters, signed at Washington on May 26, 1999 (Treaty Doc. 106–20), subject to the understanding of subsection (a), the declaration of subsection (b) and the provisos of subsection (c).

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

PROHIBITION ON ASSISTANCE TO THE INTERNATIONAL CRIMINAL COURT.—The United States shall exercise its rights to limit the use of assistance it provides under the Treaty so that any assistance provided by the Government of the United States shall not be transferred to or otherwise used to assist the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(c) Provisos.—The resolution of ratification is subject to the following provisos, which shall not be included in the instrument of ratification to be signed by the President:

(1) LIMITATION ON ASSISTANCE.—Pursuant to the rights of the United States under this Treaty to deny requests which prejudice its essential public policy or interests, the United States shall deny a request for assistance when the Central Authority, after consultation with all appropriate intelligence, anti-narcotic, and foreign policy agencies, has specific information that a senior government official who will have access to information to be provided under this Treaty is engaged in a felony, including the facilitation of the production or distribution of illegal drugs.

(2) SUPREMACY OF THE CONSTITUTION.— Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty will please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

TREATY WITH SOUTH AFRICA ON MUTUAL LEGAL ASSISTANCE IN CRIMINAL MATTERS

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the Republic of South Africa on Mutual Legal Assistance in Criminal Matters, signed at Washington on September 16, 1999 (Treaty Doc. 106–36), subject to the understanding of subsection (a), the declaration of subsection (b) and the provisos of subsection (c).

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

Prohibition on assistance to the international criminal court.—The United States shall exercise its rights to limit the use of assistance it provides under the Treaty so that any assistance provided by the Government of the United States shall not be transferred to or otherwise used to assist the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

- (c) Provisos.—The resolution of ratification is subject to the following provisos, which shall not be included in the instrument of ratification to be signed by the President:
- (1) LIMITATION ON ASSISTANCE.—Pursuant to the rights of the United States under this Treaty to deny requests which prejudice its essential public policy or interests, the United States shall deny a request for assistance when the Central Authority, after consultation with all appropriate intelligence, anti-narcotic, and foreign policy agencies, has specific information that a senior government official who will have access to information to be provided under this Treaty is engaged in a felony, including the facilitation of the production or distribution of illegal drugs.
- (2) SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

TREATY WITH UKRAINE ON MU- tive, the resolution of ratification is TUAL LEGAL ASSISTANCE IN CRIMINAL MATTERS

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and Ukraine on Mutual Legal Assistance in Criminal Matters, signed at Kiev on July 22, 1998 (Treaty Doc. 106-16), subject to the understanding of subsection (a), the declaration of subsection (b) and the provisos of subsection (c).

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

PROHIBITION ON ASSISTANCE TO THE INTER-NATIONAL CRIMINAL COURT.—The United States shall exercise its rights to limit the use of assistance it provides under the Treaty so that any assistance provided by the Government of the United States shall not be transferred to or otherwise used to assist the International Criminal Court contemplated in the Statute adopted in Rome. Italy, on July 17, 1998, unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II. section 2 of the United States Constitution

(b) DECLARATION —The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

- (c) PROVISOS.—The resolution of ratification is subject to the following provisos, which shall not be included in the instrument of ratification to be signed by the President:
- (1) LIMITATION ON ASSISTANCE.—Pursuant to the rights of the United States under this Treaty to deny requests which prejudice its essential public policy or interests, the United States shall deny a request for assistance when the Central Authorities, after consultation with all appropriate intelligence, anti-narcotic, and foreign policy agencies, has specific information that a senior government official who will have access to information to be provided under this Treaty is engaged in a felony, including the facilitation of the production or distribution of illegal drugs.

With two-thirds of the Senators present having voted in the affirmaagreed to.

INTER-AMERICAN CONVENTION ON MUTUAL ASSISTANCE IN CRIMI-NAL MATTERS WITH RELATED OPTIONAL PROTOCOL

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Inter-American Convention on Mutual Assistance in Criminal Matters ("the Convention"), adopted at the Twenty-Second Regular Session of the Organization of American States ("OAS") General Assembly meeting in Nassau, The Bahamas, on May 23, 1992, and the Optional Protocol Related to the Inter-American Convention on Mutual Assistance in Criminal Matters ("the Optional Protocol"), adopted at the Twenty-Third Regular Session of the OAS General Assembly meeting in Managua, Nicaragua, on June 11. 1993, both instruments signed on behalf of the United States at OAS Headquarters in Washington on January 10, 1995 (Treaty Doc. 105-25), subject to the understandings of subsection (a), the declaration of subsection (b) and the proviso of subsection (c).

(a) UNDERSTANDINGS.—The Senate's advice and consent is subject to the following understanding, which shall be included in the

instrument of ratification:

(1) IN GENERAL.—The United States understands that the Convention and Optional Protocol are not intended to replace, supersede, obviate or otherwise interfere with any other existing bilateral or multilateral treaties or conventions, including those that relate to mutual assistance in criminal matters.

(2) ARTICLE 25.—The United States understands that Article 25 of the Convention, which limits disclosure or use of information or evidence obtained under the Convention. shall no longer apply if such information or evidence is made public, in a manner consistent with Article 25, in the course of pro-

ceedings in the Requesting State.
(3) PROHIBITION ON ASSISTANCE TO THE INTERNATIONAL CRIMINAL COURT.—The United States shall exercise its rights to limit the use of assistance it may provide under the Convention and/or Optional Protocol so that any assistance provided by the Government of the United States shall not be transferred to or otherwise used to assist the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the Presi-

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(c) Proviso.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Convention or the Optional Protocol requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

UNITED NATIONS CONVENTION TO COMBAT DESERTIFICATION IN COUNTRIES EXPERIENCING PARTICULARLY DROUGHT. IN AFRICA, WITH ANNEXES

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the United States Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa, With Annexes, adopted at Paris, June 17, 1994, and signed by the United States on October 14, 1994, (Treaty Doc. 104–29) (hereinafter, "The Convention"), subject to the understandings of subsection (a), the declarations of subsection (b) and the provisos of subsection (c)

(a) UNDERSTANDINGS.—The advice and consent of the Senate is subject to the following understandings, which shall be included in the instrument of ratification of the Convention and shall be binding on the President:

(1) FOREIGN ASSISTANCE.—The United States understands that, as a "developed country," pursuant to Article 6 of the Convention and its Annexes, it is not obligated to satisfy specific funding requirements or other specific requirements regarding the provision of any resource, including technology, to any "affected country," as defined in Article 1 of the Convention. The United States understands that ratification of the Convention does not alter its domestic legal processes to determine foreign assistance funding or programs.

(2) FINANCIAL RESOURCES AND MECHANISM.— The United States understands that neither Article 20 nor Article 21 of the Convention impose obligations to provide specific levels of funding for the Global Environmental Facility, or the Global Mechanism, to carry out the objectives of the Convention, or for any other purpose.

(3) UNITED STATES LAND MANAGEMENT —The United States understands that it is a "developed country party" as defined in Article 1 of the Convention, and that it is not required to prepare a national action program pursuant to Part III. Section 1, of the Convention. The United States also understands that no changes to its existing land management practices and programs will be required to meet its obligations under Articles 4 or 5 of the Convention.

(4) LEGAL PROCESS FOR AMENDING THE CON-VENTION.—In accordance with Article 34(4), any additional regional implementation annex to the Convention or any amendment to any regional implementation annex to the Convention shall enter into force for the United States only upon the deposit of a corresponding instrument of ratification, acceptance, approval or accession.

- (5) DISPUTE SETTLEMENT.—The United States declines to accept as compulsory either of the dispute settlement means set out in Article 28(2), and understands that it will not be bound by the outcome, findings, conclusions or recommendations of a conciliation process initiated under Article 28(6). For any dispute arising from this Convention, the United States does not recognize or accept the jurisdiction of the International Court of Justice.
- (b) DECLARATIONS.—The Senate's advice and consent is subject to the following declarations, which shall be binding on the President:
- (1) CONSULTATIONS.—It is the sense of the Senate that the Executive Branch should consult with the Committee on Foreign Relations of the Senate about the possibility of United States participation in future negotiations concerning this Convention, and in particular, negotiation of any Protocols to this Convention.
- (2) TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the State Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.
- (3) ADOPTION OF NO RESERVATION PROVISION.—It is the sense of the Senate that the "no reservations" provision contained in Article 37 of the Convention has the effect of inhibiting the Senate in its exercise of its constitutional duty to give advice and consent to ratification of a treaty, and that the Senate's approval of the Convention should not be construed as a precedent for acquiescence to future treaties containing such provisions.
- (c) PROVISOS.—The advice and consent of the Senate is subject to the following provisos:
- (1) REPORT TO CONGRESS.—Two years after the date the Convention enters into force for the United States, and biennially thereafter, the Secretary of State shall provide a report to the Committee on Foreign Relations of the Senate setting forth the following:
- (i) a description of the programs in each affected country party designed to implement the Convention, including a list of community-based non-governmental organizations involved, a list of amounts of funding provided by the national government and each international donor country, and the projected date for full implementation of the national action program;
- (ii) an assessment of the adequacy of each national action program (including the timeliness of program submittal), the degree to which the plan attempts to fully implement the Convention, the degree of involvements by all levels of government in implementation of the Convention, and the percentage of government revenues expended on implementation of the Convention;

  (iii) a list of United States persons des-
- (iii) a list of United States persons designated as independent experts pursuant to Article 24 of the Convention, and a description of the process for mailing such designations:
- (iv) an identification of the specific benefits to the United States, as well as United States persons, (including United States exporters and other commercial enterprises), resulting from United States participation in the Convention;
- (v) a detailed description of the staffing levels and budget of the Permanent Secretariat established pursuant to Article 23;

(vi) a breakdown of all direct and indirect United States contributions to the Permanent Secretariat, and a statement of the number of United States citizens who are staff members or contract employees of the Permanent Secretariat:

(vii) a list of affected party countries that have become developed countries, within the meaning of the Convention; and

- (viii) for each affected party country, a discussion of results (including discussion of specific successes and failures) flowing from national action plans generated under the Convention.
- (2) SUPREMACY OF THE CONSTITUTION.—
  Nothing in the Convention requires or authorizes legislation or other action by the
  United States of America that is prohibited
  by the Constitution of the United States as
  interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

## EXTRADITION TREATY WITH BELIZE

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Extradition Treaty between the Government of the United States of America and the Government of Belize, signed at Belize on March 30, 2000 (Treaty Doc. 106–38), subject to the understanding of subsection (a), the declaration of subsection (b) and the proviso of subsection (c)

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

PROHIBITION OF EXTRADITION TO THE INTER-NATIONAL CRIMINAL COURT.—The United States understands that the protections contained in Article 14 concerning the Rule of Specialty would preclude the resurrender of any person extradited to Belize from the United States to the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the United States consents to such resurrender; and the United States shall not consent to the transfer of any person extradited to Belize by the United States to said International Criminal Court unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(c) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

## EXTRADITION TREATY WITH PARAGUAY

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Extradition Treaty between the Government of the United States of America and the Government of the Republic of Paraguay, signed at Washington on November 9, 1998 (Treaty Doc. 106-4), subject to the understanding of subsection (a), the declaration of subsection (b) and the proviso of subsection (c).

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

PROHIBITION OF EXTRADITION TO THE INTER-NATIONAL CRIMINAL COURT — The States understands that the protections contained in Article XV concerning the Rule of Specialty would preclude the resurrender of any person extradited to the Republic of Paraguay from the United States to the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the United States consents to such surrender; and the United States shall not consent to the transfer of any person extradited to the Republic of Paraguay by the United States to said International Criminal Court unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(c) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

## EXTRADITION TREATY WITH SOUTH AFRICA

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Extradition Treaty between the Government of the United States of America and the Government of the Republic of South Africa, signed at Washington on September 16, 1999 (Treaty Doc. 106-24), subject to the understanding of subsection (a), the declaration of subsection (b) and the proviso of subsection (c)

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

PROHIBITION OF EXTRADITION TO THE INTER-NATIONAL CRIMINAL COURT.—The United States understands that the protections contained in Article 18 concerning the Rule of Specialty would preclude the resurrender of any person extradited to the Republic of South Africa from the United States to the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the United States consents to such resurrender; and the United States shall not consent to the transfer of any person extradited to the Republic of South Africa by the United States to said International Criminal Court unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II, section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(c) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

## EXTRADITION TREATY WITH SRI LANKA

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Extradition Treaty between the Government of the United States of America and the Government of the Democratic Socialist Republic of Sri Lanka, signed at Washington on September 30, 1999 (Treaty Doc. 106-34), subject to the understanding of subsection (a), the declaration of subsection (b) and the proviso of subsection (c).

(a) UNDERSTANDING.—The Senate's advice and consent is subject to the following understanding, which shall be included in the instrument of ratification:

PROHIBITION OF EXTRADITION TO THE INTER-NATIONAL CRIMINAL COURT.—The United States understands that the protections contained in Article 16 concerning the Rule of Specialty would preclude the resurrender of any person extradited to the Democratic Socialist Republic of Sri Lanka from the United States to the International Criminal Court contemplated in the Statute adopted in Rome, Italy, on July 17, 1998, unless the United States consents to such resurrender; and the United States shall not consent to the transfer of any person extradited to the Democratic Socialist Republic of Sri Lanka by the United States to said International Criminal Court unless the Statute establishing that Court has entered into force for the United States by and with the advice and consent of the Senate, as required by Article II. section 2 of the United States Constitution.

(b) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding on the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(c) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

## INTERNATIONAL PLANT PROTECTION CONVENTION

The resolution of ratification was read as follows:

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the International Plant Protection Convention (IPPC), Adopted at the Conference of the Food and Agriculture Organization (FAO) of the United Nations at Rome on November 17, 1997 (Treaty Doc. 106–23), referred to in this resolution of ratification as "the amended Convention," subject to the understandings of subsection (a), the declaration of subsection (b) and the provisos of subsection (c).

(a) UNDERSTANDINGS.—The advice and consent of the Senate is subject to the following understandings, which shall be included in the instrument of ratification of the amended Convention and shall be binding on the President:

(1) RELATIONSHIP TO OTHER INTERNATIONAL AGREEMENTS.—The United States understands that nothing in the amended Convention is to be interpreted in a manner inconsistent with, or alters the terms or effect of, the World Trade Organization Agreement on the Application of Sanitary or Phytosanitary Measures (SPS Agreement) or other relevant international agreements.

(2) AUTHORITY TO TAKE MEASURES AGAINST PESTS.—The United States understands that nothing in the amended Convention limits the authority of the United States, consistent with the SPS Agreement, to take sanitary or phytosanitary measures against any pest to protect the environment or human, animal, or plant life or health.

(3) ARTICLE XX ("TECHNICAL ASSISTANCE").— The United States understands that the provisions of Article XX entail no binding obligation to appropriate funds for technical assistance.

(b) DECLARATION.—The advice and consent of the Senate is subject to the following declaration:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the State Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(c) Provisos.—The advice and consent of the Senate is subject to the following provisos:

(1) REPORT TO CONGRESS.—One year after the date the amended Convention enters into force for the United States, and annually thereafter for five years, the Secretary of Agriculture, in consultation with the Secretary of State, shall provide a report on Convention implementation to the Committee on Foreign Relations of the Senate setting forth at least the following:

(A) a discussion of the sanitary or phytosanitary standard-setting activities of the IPPC during the previous year;

(B) a discussion of the sanitary or phytosanitary standards under consideration or planned for consideration by the IPPC in the coming year:

(C) information about the budget of the IPPC in the previous fiscal year; and

(D) a list of countries which have ratified or accepted the amended Convention, including dates and related particulars.

(2) SUPREMACY OF THE CONSTITUTION.— Nothing in the amended Convention requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

The PRESIDING OFFICER. A division has been requested.

Senators in favor of the ratification of this treaty, please raise their hand. (After a pause.) Those opposed will raise their hand.

With two-thirds of the Senators present having voted in the affirmative, the resolution of ratification is agreed to.

Mr. THOMAS. I thank the Presiding Officer, the Senator from West Virginia, and the clerk.

By the way, just for information, these treaties were all approved by the Foreign Relations Committee on October 4 and 5.

#### LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will resume legislative session.

Mr. THOMAS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. ALLARD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER, Without

objection, it is so ordered.

Mr. ALLARD. Mr. President, I ask unanimous consent to speak in morning business for 15 minutes for the purpose of introducing legislation.

The PRESIDING OFFICER. Without

objection, it is so ordered. Mr. ALLARD. I thank the Chair.

(The remarks of Mr. ALLARD pertaining to the introduction of S. 3213 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. ALLARD. Mr. President, I yield back the remainder of my time and suggest the absence of a quorum.

The PRESIDING OFFICER CRAPO). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BRYAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BRYAN. Mr. President, may I inquire as to whether it would be appropriate at this point to request to speak as in morning business for a period of time not to exceed 8 minutes.

The PRESIDING OFFICER. That would be appropriate.

Mr. BRYAN. I make that request. The PRESIDING OFFICER. Without

objection, it is so ordered.

#### REFORM OF MEDICARE

Mr. BRYAN, Mr. President, I am now in my last days of serving the people of the State of Nevada as a U.S. Senator. It is a role in which I am proud and privileged to have had an opportunity to serve. I am also very proud of the opportunity I have had to serve as a member of the Finance Committee, the committee with jurisdiction over the Medicare program.

Having said that, I am greatly troubled by this body's failure to take action on several fronts as it relates to Medicare. I am disappointed that we failed to act on Medicare coverage for prescription drugs as well as the proposed payment changes in the so-called BBA relief bill, a piece of legislation that deals with provider payment enhancements to those services and companies that provide service to Medicare patients.

The impact of Medicare over the past 35 years cannot be overemphasized. Prior to enactment of Medicare in 1965, fewer than half the seniors in America had any kind of health care coverage at all. Today, as a result of Medicare's enactment, 99 percent do. As a result, health care for the Nation's seniors has been improved and the burden of health care costs for them has been greatly ameliorated. But a Medicare program without prescription drug coverage does not meet the promise we made to seniors in 1965.

In 1965, the Medicare program roughly paralleled what was available in the private sector. Today, as all of us know, prescription drugs play such a vital role, a greatly enhanced role in terms of our own Medicare treatment. We had a historic opportunity this year to fulfill the promise of Medicare and to guarantee access to comprehensive prescription drug coverage for Medicare beneficiaries. Yet we have squandered it.

There is no legitimate reason for the Republican leadership to have pushed meaningful prescription drug reform off for another year. The Finance Committee has spent the last 2 years considering prescription drugs. We have heard from experts on all sides of the issue. We have talked to our constituents. Many of us have worked diligently to put together legislation to provide a meaningful, comprehensive, affordable benefit for all Medicare beneficiaries. Yet the Finance Committee did not even hold a markup of a prescription drug benefit bill. By that I mean, for those who are not familiar with legislative language, we did not have the opportunity to vote on a Medicare bill in the Finance Committee, move it from the committee, and debate it on the floor.

I consider it a great tragedy that could have made a difference in the lives of our seniors. Our inaction will consign some 227,000 Medicare beneficiaries in my own State of Nevada and 39 million beneficiaries nationally to yet another year of spending an ever-increasing share of their fixed in-

comes on medically necessary drugs or trying to stretch their prescriptions by taking them every other day instead of every day or sharing them with spouses and friends or, worse, even going with-

We will be voting on the conference report to accompany the Agriculture appropriations bill this afternoon. The prescription drug importation provision is included in the conference report. I was pleased to join Senators DORGAN and JEFFORDS in their amendment in July. I believe this amendment is an important measure that can be helpful. There is no credible reason, no defensible basis that only drug manufacturers should be allowed to reimport prescription drugs.

A well defined reimportation program could help to make drugs more affordable for American consumers. The majority of our seniors are often faced with the difficult choice of paying extremely high prices at retail outlets or forgoing medically necessary prescription drugs because they simply do not have the financial resources to pay for them. However, the best designed reimportation provision is not a sufficient answer to the millions of Medicare beneficiaries who lack prescription drug coverage.

I hope my colleagues will not hide behind this provision when they are asked by their constituents why the Senate didn't approve a Medicare prescription drug benefit this year.

Moreover, the important provision has been altered by the Republican leadership such that it is extremely questionable whether it will actually meet the goal Senators DORGAN and Jeffords and others desired—that of lowered prices.

One very basic problem with the provision is that a "sunset" date was added so that the importation system would end 5 years after it goes into effect. In order to assure the safety of the drugs being imported, laboratory testing facilities would be required. Distribution systems would also clearly be needed. I have serious doubts that the private sector investment to carry out this program will materialize if it is known that the program will only be in operation for 5 years. Why spend the money to develop the infrastructure for such a short-lived program? There is also a serious labeling problem that gives manufacturers the ability to shut down the program.

It is unquestionably and undeniably wrong that American citizens pay the highest prices for prescription drugs particularly when many of these drugs are developed on American soil, by American companies who are receiving enormous tax breaks, patent protections and the benefit of billions of NIH research dollars.

I have been hoping to offer a germane amendment to the Foreign Sales Corporation (FSC) legislation that would deny the export tax benefit to pharmaceutical manufacturers charging Americans at least 100 percent more than they charge foreign consumers for the same drug. This amendment, if I get the chance to offer it, and if approved, would have one of two positive effects for the American consumer and taxpayer: either, the price of prescription drugs would decrease, or if the manufacturer chooses to continue to exploit American consumers, at least the taxpayer would not be providing a tax benefit for doing so.

The prices of prescription drugs could also be lowered through the simple measure of providing more information to purchasers of prescription drugs. I introduced the Consumer Awareness of Market-Based Drug Prices Act of 2000 because purchasers today do not have any meaningful price information—and there is no way competition can work without information on prices. I believe in the free market, but we have to let it work. The availability of real market-based price information is critical to the ability of employers and insurers to negotiate lower prices for their employees and enrollees.

Under the current law, that information is denied to those who purchase prescription drugs on behalf of either their insureds or those who are part of their employee group.

Not only does the lack of price information keep prices artificially high, but it affects the Federal budget. Drug manufacturers have been able to manipulate the average wholesale price, which is a meaningless statistic, but it results in billions of dollars of Medicare overpayments.

My legislation would simply require the Secretary of HHS to make available to the public the market-based information on drug prices that she currently collects: the average manufacturer price for each drug, and the best price available in the market. These prices are already collected to implement the Medicaid prescription drug rebate system—so no new bureaucracy or administrative structures would be necessary. Legislation is necessary, however, because the Secretary is statutorily prohibited from disclosing this information.

Our legislation would simply lift that prohibition and make that information available.

A reimportation provision without the loopholes and the sunset provision could help to lower prices. There are also other ways to lower prices—by requiring manufacturers to treat American patients fairly if they want to receive generous tax benefits, and by disclosing prices—but we also must add an affordable, voluntary prescription drug benefit to the Medicare program. Anything less is an empty promise to our seniors who often go without muchneeded drugs, or pay astronomical prices for them.

Earlier this year, I introduced the Medicare Outpatient Drug Act. Like the Vice President's proposal, this bill would provide prescription drugs as a defined, comprehensive and integral component of the Medicare program to ensure it is available and affordable for all beneficiaries.

The drug benefit must be a part of the Medicare program—if it is not, there is no guarantee to our seniors and those Medicare beneficiaries with disabilities that it will be available, no guarantee that is will be affordable, no guarantee that it will provide catastrophic protection, and no guarantee that it will be around the following year.

Only Medicare can ensure that it is guaranteed to be there, that it is affordable, that there is catastrophic protection, and that it will be there year after year.

The Democrats offer Medicare beneficiaries choices: the Medicare benefit is a voluntary one. If a person has drug coverage through an employer or some other source, he or she can keep that coverage. The beneficiary can choose to receive the drug benefit as a part of the traditional fee-for-service program, or through a managed care plan.

So there are three choices that are available here: either not to accept it, or to have either a fee-for-service program, or a managed care program.

The GOP proposal, in Congress, and as promoted by Governor Bush, gives the choices to the insurers. The insurer can choose whether or not to offer prescription drug coverage—there is no requirement. The insurer can choose the level of the deductible, and the amount of the coinsurance the beneficiary must pay for each prescription. The insurer can choose whether or not to offer catastrophic coverage. The insurer can choose to limit those drugs that are covered to a select few—either by limiting the diseases that qualify for treatment, or by limiting the number of prescriptions that may be filled each month. The insurer can choose to keep the benefit the same from year to year, or the insurer can choose to change the benefit each year or to discontinue coverage.

The Democrats have tried to pass a bill this year that would provide choices for beneficiaries, while our colleagues on the other side of the aisle have advocated a bill that would provide choices for insurers.

Given the cost of a prescription drug benefit, it is critical that we spend those federal dollars in a way that will ensure that the benefit and the choices are going to the Medicare beneficiaries—not to the insurers.

I am also deeply troubled by the way the majority leadership is allocating federal dollars in the "BBA-relief" bill. While members of the Finance Committee have not been allowed to participate in the development of this package, I understand that about \$10 billion out of a total of \$28 billion is to go to Medicare HMOs over the first 5 years. That is over one-third of the money in this package, when only 16 percent of Medicare beneficiaries are enrolled in Medicare HMOs.

The HMOs tell us that they need this level of funding to "stabilize" the market, and that without it they will have to withdraw from the program, or reduce benefits. But we know from the General Accounting Office that we are already overpaying the HMOs—by nearly \$1,000 per enrollee.

And yet, our colleagues on the other side of the aisle are not requiring any accountability on the part of the managed care plans in exchange for this huge influx of funding. They don't require them to stay in the market, and they don't require them to commit to a benefit package.

Managed care plans should be provided a reasonable portion of the funds in this package. But the majority has provided funds for HMOs at the expense of reducing beneficiary cost-sharing for preventive benefits and outpatient visits, at the expense of expanding health options for legal immigrants, at the expense of patients with Lou Gehrig's disease, at the expense of uninsured children, and at the expense of persons with Alzheimer's disease.

This is too great an expense.

I have a letter signed by 23 senior groups opposing this large payment of funds to Medicare+Choice HMOs.

I ask unanimous consent that this letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

LEADERSHIP COUNCIL OF AGING ORGANIZATIONS, Washington, DC, October 18, 2000.

Hon. RICHARD H. BRYAN,

U.S. Senate, Washington, DC.

DEAR SENATOR BRYAN: The undersigned organizations oppose the large payment of funds to Medicare+Choice HMOs rather than using these dollars to help Medicare beneficiaries in the proposed Medicare Balanced Budget Act (BBA). The pending leadership proposal reportedly spends about \$10 billion on HMOs and only a small fraction on America's seniors.

The proposed restoration of funds to HMOs is out of balance with the rest of the bill. Currently less than 16 percent of beneficiaries are enrolled in HMOs, yet one-third of the funds go to these entities. The increase in funds is of particular concern since HMOs are not being held accountable for their participation in Medicare. The plans have not committed to maintaining their benefits or to staying in the program for any length of time. Additionally, the proposed increase flies in the face of the fact that independent experts, such as the General Accounting Office, have found that these plans currently are paid too much.

Earlier in the year, Congress's budget resolution committed to spending \$40 billion on a new Medicare prescription drug benefit. This has not been done. And now rather than spend this \$40 billion on direct beneficiary

improvements, Republican leaders are proposing only a small fraction of the original amount promised for beneficiaries.

There are many other senior concerns that are being shortchanged by this legislation including those that relate to quality of care. The bill would not provide sufficient funding to address a number of serious problems Medicare beneficiaries and their families currently face. The priorities related to the balance of payments in this bill must be changed to assure that the group that Medicare is supposed to serve—America's seniors—receive their fair share of the funds.

Sincerely,

Mr. BRYAN. Mr. President, finally, let me conclude by saying that the administration has indicated the President may veto this legislation because of the heavy tilt toward managed care plans, the lack of accountability, and the lack of provisions that would directly help Medicare beneficiaries—our intended audience. I would support that veto.

I thank the Presiding Officer. I yield the floor.

AGRICULTURE, RURAL DEVELOP-MENT, FOOD AND DRUG ADMIN-ISTRATION, AND RELATED AGENCY PROGRAMS APPROPRIA-TIONS ACT, 2001—CONFERENCE REPORT—Continued

The PRESIDING OFFICER. The Senator from Washington.

Mr. GORTON. Mr. President, I ask the Senator from Mississippi for 10 minutes or less on the bill.

Mr. COCHRAN. Mr. President, I am happy to yield to the distinguished Senator the time he requested.

Mr. LEAHY. Mr. President, I ask unanimous consent that following the comments of the distinguished Senator from Washington, I might be recognized under the normal division of time for about 6 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Washington is recognized.

Mr. GORTON. Mr. President, it has taken a considerable period of time to reach the happy conclusion of the debate over the appropriations bill for the Department of Agriculture. None of that delay is due to the distinguished chairman or to his ranking member, the Senator from Wisconsin, who have worked with extraordinary diligence and I think immense success in bringing this bill before us.

I can't even begin the major portion of my remarks without thanking him for his thoughtfulness to the particular concerns of my own State—first, of course, the field of agricultural research. There is research money in this bill for wheat, apples, asparagus, animal diseases, small fruit, barley, and potatoes, to name a few. In each and every case, that money will help our farmers meet the demands of the market in the future—both here in the United States and overseas.

In addition, without precedent, there is a considerable and most indispensable relief for the tree fruit industry in my State and others-formerly a highly profitable occupation that has fallen on bad times. A bridge is provided in this bill until more successful times in the future. The cranberry industry falls into exactly the same situation. And, of course, with respect to low farm prices in many other commodities nationwide in scope, relief is included in this bill, again with the hope that we will soon have better times in the future for our agricultural products.

There are, however, two subject matter areas of this bill that are of particular importance. The first has to do with sanctions—the unilateral sanctions that the United States has imposed on itself barring the export of our agricultural commodities and for that matter medicines to a number of countries around the world for some form of foreign policy reasons.

Those sanctions by and large are canceled by this bill, and the President is deprived of the power in the future to impose them unilaterally without dealing with us in Congress. This may be very important in the immediate future with the threat that sanctions will be taken against even our good friend Japan with our agricultural products by reason of its whaling practices. I disagree vehemently with its whaling practices. But I don't think we should deal with them by punishing our farmers, ranchers, and agricultural producers. Personally, I would have

preferred the more sweeping language of the original Senate bill in this respect. There was vehement opposition to some of its provisions in the House of Representatives.

My colleague from the State of Washington, Congressman NETHERCUTT. worked diligently, and often in opposition to his own party's leadership, in crafting this compromise. This compromise, I guess, I would describe as being 80 percent of what we need. It includes what I think are some unwise provisions related to travel to Cuba. But, in my view, we should take this three-quarters, or 80 percent, of what we need, and we should begin to restore the opportunity to secure these markets to our farmers. And we should take care of the rest of the controversy next year.

Will we immediately begin to see huge sales of our wheat, for example, to Iran and to other former major customers? I am not at all sure we will. It may take years to repair the damage we have created by these unilateral sanctions. But this is a start. This gives our farm community, at a time of very low prices, once again the ability to compete in the world markets, and not just in some of those markets.

Finally, and most importantly, are the provisions of this bill dealing with the price of prescription drugs. My colleague from Nevada, who just concluded his remarks, had a number of points, with which I don't entirely agree, but I certainly do agree with him on that one. He was one of the cosponsors of the Jeffords-Dorgan proposal on the reimportation of drugs.

Simply stated, we face a situation in which American pharmaceutical manufacturers that are benefiting from huge tax subsidies through research and development tax cuts, and benefiting from the immense research that we do in the National Institutes of Health, nevertheless, sell their products outside of the United States in Canada, in Europe, and in Latin America for prices half or less the price they charge for those drugs in the United States. That is outrageous. It is a form of discrimination without any justification whatsoever.

Six months or so ago, I introduced a bill to directly ban price discrimination in prescription drugs in the same way it has been banned in almost every other commodity in the United States in interstate commerce for some 65 years.

A Congressman from New York, Congressman HINCHEY, made a similar proposal in the conference committee. Personally, I would prefer a more direct approach.

Once again, the perfect was the enemy of the good. We have the ability not only for individuals to go into Canada or Mexico and buy drugs that are manufactured in the United States, but under the same circumstances they are

manufactured in the United States, and then they are reimported to the United States for individuals to use. It is something that I think is very important for people who need to use drugs and find them far too expensive here; but also for our pharmacists to do the same thing to the extent that their wholesale prices are the result of discrimination against them and in favor of Canadians and Europeans and oth-

Some of those costs will be passed back to the purchasers of prescription drugs here in the United States who can't travel to Canada or to Mexico or to someplace else to make their own purchases.

Is this a perfect solution? No. It is not. First, it is indirect rather than di-

Second, there are opportunities, I am convinced, in the way their bill was written, in spite of all of the efforts of its proponents, through which the pharmaceutical manufacturers may find loopholes and may be able to frustrate the proper desire of Americans to lower drug prices.

If that happens, we will certainly be back next year at the same time and at the same place to see to it that a discrimination which is entirely unjustifiable is ended. American companies benefiting from American society, from American tax credits from American research should not discriminate against Americans. We have taken a major step forward in this bill to at least reducing and I hope eliminating that kind of discrimination.

I want to express my enthusiastic support for the passage of this bill.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. LEAHY. Mr. President, I will vote for the Agriculture appropriations conference report. I want to support our farmers. They deserve our support. But I will do so with a great deal of reluctance because of what the House of Representatives did. They inserted a provision which goes directly counter to the views that were expressed in rollcall votes of a bipartisan majority of both the House and the Senate.

I probably shouldn't be that surprised that the House of Representatives, under the Republican leadership, has, once again, abused the legislative process. It has occurred too often. We had very strong votes in both the House and the Senate to lift sanctions on the sale of food and medicine to Cuba. After we had those votes, the House Republican leadership included a provision which prohibits any kind of public financing. What they have said is: Sure, you can have these sales. But we are going to make sure there is no way to pay for them.

We go back home and say how generous we are and how we are helping our farmers, at the same time chuckling all the way out, saying it will never happen.

is very bad for the Cuban people. It is certainly bad foreign policy.

In fact, they even went so far as to codify the restrictions on travel to Cuba. This strikes at the fundamental right of every American to travel freelv. Some of the same people who jingoistically say we are Americans; we can go wherever we want, will say, but not to Cuba.

Senator DODD and I introduced legislation to lift this ban. He spoke eloquently about this. It is ironic, actually outrageous, that Americans can travel to North Korea or Syria or Vietnam but not to Cuba. What a hypocritical, self-defeating, and anachronistic policy. What a policy so beneath a great, good nation as ours, a nation of a quarter billion people, the most powerful, wealthiest nation on Earth. How small-minded. How petty. How beneath this great Nation.

It is a terrible decision, a blatantly partisan decision, a decision driven by politics, and one of the many reasons why the elections on November 7 are so important. It is time we inject intelligence and bipartisanship into our foreign policy. Congress has had its chance, but it has fallen short in too many ways to count. The decision on Cuba is another example of the failure of the 106th Congress to do what is right for America, what is right for America's farmers, what is right for the majority of the American people.

As one who opposes the dictatorial policies of Fidel Castro, I also oppose anybody telling me as an American, or my family, or the people of my State, that we cannot travel anywhere in the world where we might be accepted. It is so beneath a great and good nation. I hope this is something we will correct next year. The majority of Senators and House Members, Republicans and Democrats, have already voted. A small band of the Republican leadership should not be able to thwart that. I vield the floor.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, I am pleased to yield 15 minutes to the distinguished Senator from Arizona, Mr. McCain.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. McCAIN. Mr. President, I regret that I have to come forward once again to oppose another of the annual appropriations bills, particularly one that is vitally important to our nation's farmers and to support social service programs for women and children.

However, this bill once again fails to responsibly appropriate funding to the highest agricultural and resource management priorities, and instead doles out \$300 million in pork-barrel spending. This amount is close to \$70 million more than was included in the Senatepassed bill, and the total overall spend-

That is bad for America's farmers. It ing for this bill exceeds the Senate and House passed bills by close to \$2.8 billion.

> Mr. President, there are several problems with this final conference agreement.

> First, the inclusion of \$300 million in special interest earmarks that either have not been properly reviewed or authorized through the legislative process. Much of this spending is earmarked for towns, universities, research institutes and a myriad of other entities that appear only vaguely related, at best, to addressing the dire situation of farmers, women and children.

> A number of policy riders are also tacked on, without any consideration by either body, that reverse a number of 1996 farm bill reforms and violate trade policies.

Let's first take a look at the "Top Ten Porkbusters" in this year's agriculture bill:

No. 10. An add-on of \$300,000 is provided to a laboratory in East Lansing, Michigan to map and identify genes in chickens;

No. 9, An amount of \$680,000 will be provided to test the "competitiveness" of agricultural products solely from the state of Washington;

No. 8, Despite millions provided for salmon restoration through other appropriations bills this year, \$645,000 is earmarked for research on alternative salmon products in guess where-Alaska; you will find Alaska pops up quite frequently in these pork barrel bills.

No. 7, An add-on of \$1.05 million will pay for sunflower research in Fargo, North Dakota.

Sunflower research, obviously, is unable to be carried out in any other part of America, so we have to add \$1 million to pay for sunflower research in Fargo, ND.

No. 6, \$300,000 is earmarked for the Pineapple Growers Association in Hawaii. whose three members of the Pineapple Growers Association are the impoverished organizations, Dole Food, Del Monte Fresh Produce, and Maui Pineapple Company. These impoverished three corporations are badly in need of \$300,000 of the taxpayers' money so they can deliberate as the Pineapple Growers Association of Hawaii.

A whopping \$5 million is earmarked for an insect rearing facility in Stoneville, MS. That must be an interesting place.

No. 4, an add-on of \$300,000 will pay for manure management systems in Florence, SC. I have spent a lot of time in South Carolina. I hope this \$300,000 will pay for the manure management systems in Florence, SC.

No. 3, a \$250,000 earmark is included for potato research in Prosser, WA, to develop improved varieties of potatoes. Only in Prosser, WA, do we need to do this kind of research.

No. 2, the popular National Center for Peanut Competitiveness in Georgia will receive a healthy endowment of \$400,000. That ever popular National Center for Peanut Competitiveness, in Georgia, will receive this \$400,000.

And No. 1, an earmark of \$100,000 is provided for the Trees Forever Program in Illinois, the vitally important purpose of which is to encourage and provide information on the use of trees. Trees Forever in Illinois is to encourage and provide information on the use of trees.

In my State of Arizona, except in the northern part of my State, we don't have a lot of trees, but we certainly have a lot of cactus. Perhaps we could have next year an earmark for the "Cactus Forever Program." That might be an enjoyable exercise. I urge my pork barreling friends to consider, next time they have Trees Forever, perhaps "Cactus Forever."

Mr. President, this is just a small sample from the 32-page list of earmarks I compiled from this agriculture appropriations conference report. Many are recurring earmarks, year after year, for projects that appear to be either duplicative or, as GAO had found when reviewing agricultural spending, pay for projects not related to basic research or high-priority areas, or which already receive substantial private sector investments.

Mr. President, I am sure that many of these objects may be meritorious and helpful to the designated communities. What I object to is the way these projects have been selectively identified and prioritized for earmarks, mostly for purely political interest, rather than for the national interest.

agriculture appropriations This measure is intended to provide assistance to farmers, women, children and rural communities with the greatest need. Yet, by diverting millions for parochial spending, we fail in this responsibility, forcing Congress to once again attach ad-hoc emergency spending, adding up so far to \$23 billion over the past three years, for farm relief and other disaster assistance. This time around, about \$3.6 billion is designated as emergency spending for farmers and communities who have suffered critical losses due to severe drought and difficult market conditions.

I realize that many of America's family farms are in crisis, and some form of assistance is needed to responsibly address real economic hardship faced by many of our nation's farmers and their families. However, it is quite interesting to note that among those that the budget negotiators consider the most in need are the tobacco, sugar and honey industries.

For example, a last minute provision was added to reverse the limited reforms to the federal sugar program. Behind closed doors, powerful sugar interests have been able to chip away at the

few reforms required by them by the 1996 Freedom to Farm bill.

First, through last year's omnibus appropriations bill, a provision was tacked on in conference to remove the responsibility of sugar producers to pay small marketing assessments on sugar to help pay down the federal debt.

By the way, a large family of sugar growers is one of the major reasons why we are having to pay billions of dollars to clean up the Everglades.

Earlier this year, sugar interests pressured the Agriculture Secretary to spend more than \$60 million to purchase more than 150,000 tons of surplus sugar to prevent mass forfeitures, paid for by the taxpayers once again. An additional 934,000 short tons of sugar was forfeited once again this month, thereby eliminating the responsibility for sugar growers to pay back \$352 million in loans. Many of these sugar growers are capable of making enormous political contributions in soft money to both parties.

And, now, sugar interests have adeptly worked behind the scenes to add another never-before-seen provision, not previously included in the Senate or House bill, to overturn federal sugar policy. This change will reverse the recourse loan provision in the 1996 farm bill that obligates full repayment of the loan in cash. Despite loopholes already existing in current law to allow sugar producers to sidestep loan repayments, this new conference provision directs that all federal price support loans be made permanently "non-recourse" loans, which is a fancy way of saving the loans will not have to be repaid.

Another provision added in conference allows burley tobacco producers to forfeit their crops, much in the same manner that sugar producers are allowed to do. Not only are we letting sugar and tobacco growers off the hook for repayment of Federal loans. the Federal Government will be responsible for selling off tobacco crops that are forfeited to the Federal Government. Such a movement may encourage the overproduction of tobacco, at a time when, thank God, the tobacco demand is lessening and the American people are urging more responsible federal policies toward tobacco because of its impacts on our children and public health. However, once again, special interests win, and the taxpayers will foot the bill, at a cost of \$50 million.

Other egregious last-minute provisions added in conference include:

A new provision that reinstates the federal subsidy for honey producers, previously repealed by the 1996 farm bill. The cost? \$20 million.

The controversial dairy price support program will be extended, while also delaying implementation of the dairy recourse loan program that requires full repayment of federal loans.

\$500,000 is earmarked solely for the State of California for crop insurance, despite the \$8 billion crop insurance reform bill passed earlier this year.

\$2.5 million is directed to capitalize the South Carolina Grain Dealers Guaranty Fund, under the guise of emergency spending; and,

\$7.2 million in emergency funds will pay for sugar transportation costs for the State of Hawaii.

Other provisions are tacked onto this report that clearly do not belong in this particular bill and, therefore, could be subject to budget points-of-order.

A provision, which the Wall Street Journal called a "unique steel-friendly provision," was inserted into this conference report that diverts antidumping and countervailing duties from the Treasury to affected domestic industries. This provision is an almost one-half billion dollar giveaway to U.S. corporations that had not been considered previously by the Senate. As our nation begins to pay down our \$5 trillion debt, we should consider the effect of this provision very carefully. Instead, we will not consider it at all. No member, except those among the negotiators, will have any say about the effects of this policy.

Another equally troubling provision in this report once again concerns legislation that has not been considered by the House or Senate. This provision sets up a Hass Avocado Board for avocado research and promotion. While on its face, it may not sound objectionable, such a provision may unfairly give domestic producers more representation than U.S. importers, thereby violating our WTO obligations by not granting national treatment to avocado imports and acting as an export subsidy.

In addition, this provision currently forces an assessment of avocados at a rate of \$.025 per pound. This rate must be paid by exporters at the time of entry into the United States. However, U.S. domestic producers will not have to pay these taxes until 60 days after the last day of the month that the sale is made. In addition, no tax is collected on Hass avocados that are exported.

Again, these two provisions clearly violate our WTO obligations, and I believe we should study this issue more before passing it into law. I am concerned that this provision will give 85 percent of the fees collected from a state back to the state avocado board. This seems like unnecessary pork for state avocado boards. However, once again, we will not be able to vote up or down on this provision.

The Congress has certain rules that apply to its budget process. One of those rules states that, once a Senate-House conference convenes, negotiations are limited to only the funding and provisions that exist in either bill. Adding funding that is outside the

scope of the conference is not in order, nor is the inclusion of legislative provisions that were not in the preexisting bills.

The final agreement clearly violates our established rules over and over again. Yet, no one pays attention to these violations because Congress appears to favor spending that benefits the special interests of a few, rather than spend the taxpayers' dollars responsibly and enact laws and policies that reflect the best interests of all Americans.

It is all taxpayers who have to shoulder the burden to pay for the pork-barrel spending in this appropriations conference report and the others that will follow, and I will not vote to place that burden on American families.

Mr. President, in conclusion I want to refer to a column by David Broder in this morning's Washington Post. The title of it is, "So Long, Surplus." That is what I have to say this morning and what I have been saying for several weeks now: So long, surplus.

I notice a lot of the Presidential debate is devoted to what we will do with the surplus, whether we cut taxes; whether we pay down the debt; whether we save Social Security; whether we save Medicare. It is not going to be there. We are spending it at an incredibly huge rate.

As a result, said Congressional Quarterly, the nonpartisan, private news service, spending for fiscal 2001, which began on Oct. 1, is likely to be \$100 billion more than allowed by the supposedly ironclad budget agreement of 1997.

More important, the accelerated pace of spending is such that the Concord Coalition, a bipartisan budget-watchdog group, estimates that the \$2.2 trillion non-Social Security surplus projected for the next decade is likely to shrink by two-thirds to about \$712 billion.

Let me repeat. The Concord Coalition, which is a bipartisan organization, predicts that the surplus is not going to be \$2.2 trillion in the next decade; it is going to be about \$712 billion. And that is with the rosiest of scenarios.

What are we doing here? What are we doing here? We are spending the surplus; we are earmarking, pork barrel spending; we are calling things emergencies that are not. We are frivolously and irresponsibly spending this surplus which is so vital to our ability to meet our entitlement obligations in this century, obligations to Social Security and to Medicare and other entitlement programs.

I quote from David Broder again, from this morning.

To grasp what is happening—those now in office grabbing the goodies before those seeking office have a chance—you have to examine the last-minute rush of bills moving through Congress as it tries to wrap up its work and get out of town.

I ask unanimous consent the article by David Broder of this morning be printed in the RECORD. There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Oct. 18, 2000]

So Long, Surplus

(By David S. Broder)

Between the turbulent world scene and the close presidential contest, few people are paying attention to the final gasps of the 106th Congress—a lucky break for the law-makers, who are busy spending away the promised budget surplus.

President Clinton is wielding his veto pen to force the funding of some of his favorite projects, and the response from legislators of both parties is that if he's going to get his, we're damn sure going to get ours.

As a result, said Congressional Quarterly, the nonpartisan, private news service, spending for fiscal 2001, which began on Oct. 1, is likely to be \$100 billion more than allowed by the supposedly ironclad budget agreement of 1997

More important, the accelerated pace of spending is such that the Concord Coalition, a bipartisan budget-watchdog group, estimates that the \$2.2 trillion non-social Security surplus projected for the next decade is likely to shrink by two-thirds to about \$712 billion.

As those of you who have been listening to Vice President Al Gore and Texas Gov. George W. Bush know, they have all kinds of plans on how to use that theoretical \$2.2 trillion to finance better schools, improved health care benefits and generous tax breaks. They haven't acknowledged that, even if good times continue to roll, the money they are counting on may already be gone.

To grasp what is happening—those now in office grabbing the goodies before those seeking office have a chance—you have to examine the last-minute rush of bills moving through Congress as it tries to wrap up its work and get out of town.

A few conscientious people are trying to blow the whistle, but they are being overwhelmed by the combination of Clinton's desire to secure his own legacy in his final 100 days, the artful lobbying of various interest groups and the skill of individual incumbents in taking what they want.

Here's one example. The defense bill included a provision allowing military retirees to remain in the Pentagon's own health care program past the age of 65, instead of being transferred to the same Medicare program in which most other older Americans are enrolled. The military program is a great one; it has no deductibles or copayments and it includes a prescription drug benefit.

Retiring Democratic Sen. Bob Kerrey of Nebraska, himself a wounded Congressional Medal of Honor winner, wondered why—in the midst of a raging national debate on prescription drugs and Medicare reform—these particular Americans should be given preferential treatment. Especially when the measure will bust the supposed budget ceiling by \$60 billion over the next 10 years.

"We are going to commit ourselves to dramatic increases in discretionary and mandatory spending without any unifying motivation beyond the desire to satisfy short-term political considerations," Kerrey declared on the Senate floor. "I do not believe most of these considerations are bad or unseemly. Most can be justified. But we need a larger purpose than just trying to get out of town."

The Republican chairman of the Senate Budget Committee, Pete Domenici of New Mexico, joined Kerrey in objecting to the folly of deciding, late in the session, without "any detailed hearings . . . [on] a little item that over a decade will cost \$60 billion." Guess how many of the 100 senators heeded these arguments? Nine.

Sen. Phil Gramm, a Texas Republican, may have been right in calling this the worst example of fiscal irresponsibility, but there were many others. Sen. John McCain of Arizona, who made his condemnation of porkbarrel projects part of his campaign for the Republican presidential nomination, complained that spending bill after spending bill is being railroaded through Congress by questionable procedures.

"The budget process," McCain said, "can

"The budget process," McCain said, "can be summed up simply: no debate, no deliberation and very few votes." When the transportation money bill came to the Senate, he said, "the appropriators did not even provide a copy of the [conference] report for others to read and examine before voting on the nearly \$60 billion bill. The transportation bill itself was only two pages long, with the barest of detail, with actual text of the report to come later."

Hidden in these unexamined measures are dozens of local-interest projects that cannot stand the light of day. Among the hundreds of projects uncovered by McCain and others are subsidies for a money-losing waterfront exposition in Alaska, a failing college in New Mexico and a park in West Virginia that has never been authorized by Congress. And going out the window is the "surplus" that is supposed to pay for all the promises Gore and Bush are making.

Mr. McCAIN. Mr. President, the Congress has not always acted this way. As a matter of fact, in fiscal years 1997 and 1998, when we still had deficits, the Congress spent less money than the actual budget caps allowed. But since the era of surpluses began in 1999, the Congress and the president have taken this to mean they now have a license to spend freely and irresponsibly without any adherence to limits. We have gradually spent in excess of the discretionary spending limits.

But now, for the fiscal year 2001, the spending has exploded to at least \$33 billion above the spending cap, consuming nearly one-third of fiscal year 2001's projected on-budget surplus, and we still have several appropriations bills yet to go. Our continuing fiscal irresponsibility in threatening to consume a substantial portion of the projected on-budget surpluses before they are actually realized—and, according to a recently released CBO report, even if we are to save all of today's projected surpluses, we still face the possibility of an uncertain long-term fiscal future as adverse demographics and lengthening lifespans lead to surging entitlement costs.

CBO projects that the three main entitlement programs—Social Security, Medicare, and Medicaid—will rise from roughly 7.5 percent of GDP today to 17 percent by 2040 absent programmatic reforms. The CBO also warns that "Projections of future economic growth and fiscal imbalances are quite sensitive to assumptions about what policymakers will do with the budget surpluses that are projected to arise over the next decade."

only do we avoid squandering the projected surpluses, but the meaningful reforms of entitlement programs be undertaken not to avoid budget deficits and unsustainable levels of debt in the future.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HARKIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SES-SIONS). Without objection, it is so ordered.

Mr. HARKIN, Mr. President, is it correct that I am allotted 45 minutes?

The PRESIDING OFFICER. The Senator is correct.

Mr. HARKIN. Mr. President, before getting into my main comments on the Agriculture Appropriations conference report, I want to make a few comments in response to the Senator from Arizona, who spoke about various items that are in this bill and criticized them.

I am very proud of my service on the agriculture appropriations subcommittee, and I am very proud of our chairman and ranking member for the bill they put together. It is a good bill. I am going to vote for it because it provides needed funding for a range of programs and activities important not only to farm families and rural communities but to consumers and our Nation generally.

I thank our agriculture appropriations chairman, Senator COCHRAN, and the ranking Democratic member, Senator KOHL, for their hard work on this bill. I appreciate the opportunity to have worked with them, and I thank them for their cooperation in responding to my views on various items in this legislation. I commend them for their work in putting this bill together. Overall, it is a good bill.

The Senator from Arizona cited a number of items in the bill. I did not hear him mention some research grants for the fruit and vegetable market analysis for Arizona. There was a produce pricing item in there for Arizona. There was a Federal administration research grant for shrimp aquaculture for several States, including Arizona. Also in the conference report, there is a \$5 million item for Water Conservation and Western Cotton Laboratory in Maricopa, AZ.

I do not know a lot about those facilities. I know our colleague, Senator KYL, is on the committee. I am sure he has looked at these items and may have had something to do with them being in there. I do not know. But I be-

Therefore, it is imperative that not lieve the Senator from Arizona, who just spoke, is off the mark because most of the items in this bill are there because Senators pay attention to the needs of their constituents and they pay attention to the needs of our country.

> I am not cognizant of this Water Conservation and Western Cotton Laboratory in Maricopa for \$5 million, but it probably has something to do with cotton production, which is important to our country. It probably has something to do with cotton production in Arizona, which is obviously important to the people of Arizona and Western States.

> I don't know. Maybe this has something also to do with the large amounts of Federal subsidies that our Government provides for water and for irrigation for cotton in Arizona. I listened in vain to hear my colleague from Arizona decry the use of subsidized water in his State of Arizona. Well, I'm not here today going after it. It is probably necessary for the people of Arizona, probably necessary for western cotton production, and could be important for western animal production.

> So I think my friend from Arizona, in taking after a lot of the items in the Agriculture appropriations bill, is just simply off the mark. Oh, I know it probably makes good press. You can probably get a good column written once in a while about pork barrel spending and all that kind of stuff, but when you go down these items, these are items that are important to the people of those constituencies in those States, important to agriculture in those States and, as such, it is important to agriculture for the entire coun-

> So that is why I commend the chairman and the ranking member for putting this bill together. It is a good bill.

> In fact, if you want to talk about items that are in the bill that pertain to States, let me talk about one in my own State. One of my highest priorities was to obtain funding for the planning and design of new facilities at the Department of Agriculture's National Animal Disease Laboratory in Ames, IA. I am pleased that the bill has the full \$9 million that was requested for this purpose in the President's budget.

> These new facilities are absolutely critical for biocontainment and work with animals with highly contagious diseases. The National Animal Disease Laboratory is one of—of course, in my opinion, it is the preeminent animal disease research facility in the United States. But the conditions of this facility are very poor. The main facility there was constructed beginning in the 1950s. Now we face threats from new animal diseases; some that are highly contagious, some that can be used by terrorists for bioterrorism. Yet the facilities, some that were built some 40

years ago, are not built to contain them adequately, safely, and securely. We need to move forward to improve the National Animal Disease Laboratory facilities as quickly as possible, to protect against emerging, highly contagious, highly infectious animal diseases, many of which, if not contained, if let loose in the environment, could cause tremendous numbers of illnesses and deaths. So the NADL funding is not just about protecting animal life and health; it is also for protecting human life and health as well. Sure, this facility is located in Iowa-I am very proud of it; it predates my service in Congress—but it is a national laboratory. This is another example where money has gone to a State, but it has gone for a national purpose. It is just like any of the other national laboratories that we have. This is the preeminent one for animal disease.

I also want to point out some other priority items of particular interest in Iowa that are in the bill. They are particular to Iowa, but they are broader than the State, including funding for research that will help block the use of anhydrous ammonia to make methamphetamine. That is one that is in this bill. It helps us in Iowa, but it helps us in many other States.

There is an item in the bill for addressing serious erosion problems in Iowa's Loess Hills. The Loess Hills in Iowa make up the only geologic formation of its kind anywhere in the world outside the nation of China. These are a national treasure. There is some money in here to address some of the serious erosion problems in this very unique geologic formation.

There is money in here for research into industrial lubricants made from soybeans and other commodities, for farm safety education, and for dairy research and education.

I see my friend from Minnesota is here. I just joined him in Minnesota yesterday. We traveled around the State. I was reading an article—I think it happened in Minnesota, but if it didn't happen in Minnesota, it happened in Iowa-where a little 3-year-old boy got one arm and his other hand caught in a farm auger. I was reading the tragic story of how the doctors tried to reattach his arm and were unsuccessful in doing so. So this young 3year-old boy has lost his right arm and, I believe, his left hand because of an accident on a farm.

Do we need funds for better research and education so that farmers and their families can be more safe in their occupations? You bet we do. And that is very worthwhile funding.

This bill also includes major increases in funding for food safety activities at USDA and FDA. This has been a priority of mine for a number of years. For USDA, food safety funding will increase by \$28.3 million; and for FDA, the funding will increase by \$30

million. That means that for USDA and FDA we are fully funding the President's food safety initiative. That is good, but there is a lot more we have to do in the way of food safety.

Last month, we had a hearing in the Agriculture Committee on food safety. Chairman LUGAR and I worked together to help set it up. In that hearing we gathered some very telling information about the resources that we are putting into food safety. The General Accounting Office testified that in fiscal year 1999, about \$1 billion was spent on USDA and FDA food safety activities combined. Of that amount, USDA received \$712 million to inspect some 6,000 meat, poultry, and egg establishments.

FDA, however, received only \$260 million with which it had to inspect over 57,000 food establishments and 9,000 animal drug and feed establishments. So USDA gets \$712 million. They have 6,000 establishments to inspect. FDA got only \$260 million. They had to inspect over 66,000 establishments.

Here is the twist. About 85 percent of the instances of foodborne illness are linked to foods that fall under FDA's jurisdiction, and only 15 percent of them fall under USDA's jurisdiction. So clearly, we have our work cut out for us in the area of food safety.

We need more resources for the Food and Drug Administration. But, in reality, we really need a more unified and coordinated structure for federal food safety. Next year, this Congress should work to that end. I know my colleague, Senator DURBIN from Illinois, has a bill on that. Obviously, all the bills will die at the end of this session of this Congress, but we need to ioin forces in a bipartisan fashion next year. I believe there will be broad support among food producers and consumers to have a unified coordinated structure for food safety here at the Federal level.

I was also pleased to be able to work with Congressman Walsh of New York to include in this conference report important hunger relief measures. The provisions in this bill will significantly help in making sure Americans who have high rent and utility costs, or who just happen to have a modest, reliable automobile, can still receive food stamp benefits they need to feed their families. The vehicle provision is especially important in rural areas where people need to have a decent car to get to town or to get to work. They should not be disqualified from food stamps just because they own a modest, dependable vehicle.

I am also pleased that there were significant increases in rural housing, sewer, and water assistance, and economic development support important for rural America. I am, however, concerned about an increase in the fee for rural housing. For the rural housing

loan assistance program, the fee was increased from 1 percent to 2 percent. That was included in the final measure. I believe this hurts the ability of modest-income families to become homeowners in rural areas. I will be working to reverse that.

This legislation also includes a substantial amount of additional emergency spending to respond to the needs arising from various types of economic and natural disaster losses. Overall, there is approximately \$3.6 billion in emergency assistance, including compensation for crop production and crop quality losses, livestock and dairy assistance, and funding for the important emergency conservation and emergency watershed programs. This emergency assistance will be very important to farmers who have suffered from drought and severe weather in Iowa and many other States.

Over the past several years, Congress has provided a good deal of emergency assistance to farmers. In the past 3 years, the emergency assistance has amounted to over \$22 billion. As I said, in this bill there is an additional \$3.6 billion. For the most part, that assistance was clearly needed—in fact, critically needed. It helped keep many farm families on the land who otherwise would have been forced out of business. Keep in mind, these emergency payments were on top of the spending under provisions of the existing farm bill.

For fiscal year 2000, USDA made some \$28 billion in direct payments of one kind or another to U.S. farmers. That is a record. And the overall cost of farm programs was \$32.3 billion, another record. Looking at it another way, in calendar year 2000, U.S. farmers will receive \$23.3 billion in direct payments from the Federal Government, but they will have a net farm income of only \$45.6 billion. Over 50 percent-over half-of U.S. net farm income this year will come from direct Government payments. In fact, last year in Iowa, USDA payments exceeded our net farm income.

I can't help but ask, whatever happened to the promises made by the backers of the so-called Freedom to Farm bill? They were going to "get the Government out of agriculture and let the free market work." What do we have? Commodity prices have crashed. Farm program spending by the Government is at record levels, and farmers are still being driven off the land by the thousands. Get the Government out? Farmers today are every bit, if not more, reliant on the Government than they have ever been before. Freedom to Farm did not get the Government out of agriculture, but it sure has been successful in getting family farmers out of agriculture.

Today our farmers plant for the Government program. They market for the Government program. They rely on the

Government program for over half their net farm income. Already, Freedom to Farm has cost \$29 billion more than its backers promised when it was passed in 1996. The emergency assistance we have passed went to help a lot of farmers. But it is a serious indictment of the current Freedom to Farm bill that Congress has had to provide emergency farm income assistance 4 years in a row. And the way things are going, we are going to have to add more in this fiscal year beyond what is in this bill.

We cannot any longer tolerate a farm policy that lurches from one emergency spending measure to the next. It is time for Congress to recognize that Freedom to Farm has become "freedom to fail." It has failed. We need to write a new farm bill, one that maintains the planning flexibility and the environmental programs we all support—but that restores the income protection, the farm safety net, the countercyclical programs that farmers need.

I listened to the debate last night. What I heard was Vice President Gore say we need to change our farm program, we need a better safety net, we need better conservation programs that are voluntary, that we can put more money into conservation, but to provide a better income protection and a countercyclical program for farmers. To the best of my knowledge and information, Governor Bush has said he wants to stick with Freedom to Farm.

I think those who live in rural America and on our farms should know that, should know the data, the facts I have just laid out. Farm program spending is at an all-time high, yet thousands of farmer are still going out of business. We need a new direction and a new farm bill. We need it soon.

Here is another aspect of the failure of the Freedom to Farm bill. Because farmers are so heavily reliant on direct payments, Congress has stepped in this year and last year to raise the payment limitation for loan deficiency payments, what are known as LDPs, and marketing loan gains. We have raised the payment limitation for loan deficiency payments and marketing loan gains to \$150,000 instead of \$75,000 which was in the farm bill. It was done last year, and it is done again this year in this bill.

But there is a wrinkle that deserves more attention. If an individual sets up partnerships or corporations, that individual can actually double the effective payment limitation. That means that, in reality, the payment limitation for the largest farms is now \$300,000 for an individual.

I have to ask: How can we justify paying out such large amounts of money to the largest farms while family farms are struggling to survive and going out of business? We are told that this payment limitation relief was absolutely necessary, even to help family-size farms. But in reality, only a

very small share of farms actually receive any benefit from this increase in the payment limit.

The Environmental Working Group analyzed the USDA data and determined that fewer than five-tenths of 1 percent of farms and farm businesses that are receiving USDA payments actually benefited from the payment limitation increase Congress approved in 1999. These 3.400 individuals and farm businesses received an average of \$148,000 under this program last year, 14 times higher than the \$7,200 received by the average farmer.

We have similar numbers from the Office of the Chief Economist at USDA. Based on data collected in the 1997 census of agriculture, they found that the number of farmers who might benefit for that year with the change included in this conference report is about 13,000, which is perhaps about 1.5 percent of the total participants in the Federal commodity programs.

So again, this doubling of farm payment limitations went to help just a very small percentage of farms of the largest size. It seems to me, if we are going to provide these amounts of money, we should put it in to help the family size farms that are struggling, the kind of farms Senator Wellstone and I visited yesterday in southern Minnesota. These are not huge farms, these are family farms, yet they are the ones being squeezed. The big ones that are perhaps farming thousands of acres of land are getting huge payments of up to \$300,000. That doesn't make sense. These large farms can protect themselves, take care of themselves. If we are going to put the money in for farmers, let's help the

struggling family farms first.

I also want to talk about the Cuba provisions. I believe what is in this conference report on Cuba was really a step backward. There is a superficial sham opening of the embargo on agricultural shipments to Cuba from the United States, but the restrictions are so great that I do not believe it will amount to anything. Keep in mind that no direct financing can be provided by any U.S. financial institution to anyone who wants to sell products to Cuba. Well, financing is a critical part of agricultural exports. Anyone knows that. Yet no direct financing can be provided. You have to go to some third country to get it. Also, the bill locks into statute the travel restrictions that have been in place regarding Cuba, which are administrative. This locks them into law. It will make it just that much harder to bring down the barriers to change in Cuba.

We have had a failed policy on Cuba for 40 years now—a failed policy. This bill keeps us on the same path. Actually, what we are doing in this bill is the best thing we could ever do to keep Fidel Castro in power. If you want to change things in Cuba, open it up and let people travel there. Open it up for mean? How is this to be done? I could exports. Let our farmers travel there and sell our goods and products in Cuba without the restrictions this bill writes into law. That would be the single best thing we could do. But, no, we are doing the same thing we have done for 40 years. Someone once described insanity as doing the same thing over and over again and expecting a different result. We keep doing the same thing year after year after year with Cuba, and we expect some different results. It is time we change our Cuba policy.

Lastly. I want to talk about the issue of drug reimportation. There was a provision in this bill that would have allowed pharmacists and wholesalers to reimport prescription drugs.

The cost of prescription drugs is a critical issue. I have had meetings with seniors across Iowa to talk about the rising prices of medicines and their prescription drugs. First of all, I must add that the most urgent and important thing I believe we can do here is to enact a meaningful Medicare drug benefit for all seniors. We have it pending, but the Republican leadership will not bring it up and let us vote on it. I think it is a disgrace that we have not acted on this issue before leaving this year.

The drug reimportation amendment, offered by Senators Dorgan and Jef-FORDS, which would allow pharmacies and wholesalers to import FDA-approved prescription drugs, was well intentioned and began as a creative way to try to get lower cost drugs to seniors with important safety precautions. If done correctly, this proposal would have been a real help to seniors, many of whom already travel to Canada and Mexico to buy medications at a fraction of their U.S. price. But not every senior in Iowa or in other States is able to travel to Canada or to Mexico to get those drugs.

Unfortunately, the provision in the bill now is the product of a closed-door discussion. We were kept out. At the last minute, we got some paper handed to us and we voted on it. I believe the authors have rendered it unworkable with language that will prevent any importation of affordable FDA-approved drugs.

In spite of months of bipartisan work to craft this language, the Republican leadership decided abruptly to take a partisan approach that is riddled with loopholes to minimize the impact of the new system. In fact, I think it may be completely unworkable.

The language includes a provision that reads as follows:

The provisions of this section only become effective if the Secretary demonstrates to the Congress that the implementation of this section will: (1) pose no additional risk to the public health and safety; and (2) result in a significant reduction in the cost of covered products to the American consumers.

What does all that language mean? I asked in the conference: What does this

get no answer. Unfortunately, the way the language was finally crafted, it may not be possible to "demonstrate" that the public will be adequately protected or to "demonstrate" that prices will be substantially reduced.

The language has other weaknesses in labeling and marketing that I believe undermine its ability both to protect the public from unsafe drugs and to lower costs.

In addition, the language crafted by the Republican leadership requires the program to be terminated after 5 years. This is going to have a chilling effect on any private investment necessary to set up the distribution systems and the lab testing facilities necessary to carry out the program and to make sure they are safe.

In short, the drug reimportation system in this bill is a charade. I hope the American public will see right through this and recognize it for what it is: a figleaf for the Republican leadership, desperate to disguise the fact that they have done nothing this year to enact a meaningful Medicare prescription drug benefit, which really is the only way we can effectively provide access to affordable prescription drugs for our senior citizens.

Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator has 10 minutes 45 seconds.

Mr. HARKIN. I yield whatever time he needs of that remaining to the Senator from Minnesota.

Mr. WELLSTONE. I say to my colleague, I will only take 5 minutes if that is all right with him.

Mr. HARKIN. How much time is the Senator going to use?

Mr. WELLSTONE. I would rather the Senator keep some time, so 5 minutes will be fine.

Mr. HARKIN. I have a couple of other things I need to say.

Mr. WELLSTONE. Mr. President, I rise to speak in support of this agriculture appropriations bill. While it is clear there are some significant shortfalls with regard to the prescription drug re-importation issue, which I will speak about later, on balance this legislation will provide much needed help to family farmers, rural communities, and low income families.

I am pleased this legislation includes substantial emergency assistance, \$3.6 billion, directed to family farmers in Minnesota, and across the nation, who are suffering from natural disasters, historically low prices and increasingly concentrated markets which have largely been brought on by the failed 1996 Freedom to Farm Bill, or as I call it the Freedom to Fail Act.

Specifically this legislation will provide \$1.6 billion to producers who have been devastated by lost crops due to natural or weather related disasters. In my state of Minnesota, 7 to 10 inches of

rain fell in early June in the Red River Valley, which destroyed what promised to be a bumper crop, and has forced hundreds of family farmers to clean up flood damages for the eighth consecutive year. The Minnesota Farm Service agency tell us that almost 400,000 acres of crops have been destroyed in Minnesota. While crop insurance will cover some of the losses, this additional emergency assistance will be necessary for many family farmers in the region.

This part of Minnesota, largely dependent on a poor farm economy, has been devastated by successive years of floods that have forced many off the farm. And this rain storm affected other areas of my state including localized portions of Southeast Minnesota. Overall twelve counties in Minnesota have been affected by major disasters and experienced major crop losses.

It is vitally important that this disaster aid get out to producers quickly. However, it is also vitally important that we take some action to deal with the root problems in agriculture policy.

As many of my colleagues know, the 1996 farm bill has proven to be a total failure. By destroying any safety net for family farmers and capping loan rates at artificially low levels, the 1996 bill has left farmers vulnerable to the sever economic and weather related events of the past three years, resulting in devastating income losses. And while the premise of the Freedom to Farm bill was to "get the government out of agriculture" the Federal government has been forced to spend more on disaster packages—over \$25 billion over the last four years than was supposed to be spend through the seven year life of the law.

Again this year, Congress has failed to address the impact of plummeting farm incomes and the ripple effect it is having throughout rural communities and their economic base. I can assure my colleagues that if we do not write a new farm bill early next year, if the only help family farmers get from Washington is unreliable, long delayed emergency aid bills that are distributed unfairly, family farmers are not going to survive.

Family farmers deserve a targeted, counter-cyclical loan rate that provides a meaningful level of income support when the market price falls below the loan rate. Lifting the loan rate would provide relief to farmers who need it and increase stability over the long term. We also need to institute farmer-owned reserve systems to give farmers the leverage they need in the marketplace, and conservation incentives to reward farmers who carry out conservation measures on their land. We need a new farm bill.

In addition to the failed farm bill, I have found that family farmers rank the lack of competitive markets as a major factor to explain the price crisis

that is devastating rural America. While there can be no argument that the majority in Congress has failed to pass, or even consider, legislation, such a I and others have proposed, to deal with the rash of agribusiness megamergers, this appropriations bill has taken some positive steps.

Included in this legislation is an increase in the Grain Inspection, Packers and Stockyard Administration's, GIPSA, budget to fund essential programs that ensure competitive markets and fair prices for our independent livestock producers. I am pleased to say that this increase, which I had proposed during Senate consideration of the Agriculture appropriations bill, will result in an increase of \$4.151 million over the Senate approved bill.

As many of my colleagues know, this is essential funding that will help bolster GIPSA's market concentration activities. For several years, livestock producers have expressed their concern over evermore concentrated markets, as well as extreme frustration over what they perceive as inadequate governmental action to ensure fair and competitive markets. Consequently, GIPSA has been asked to assume a more prominent role in ensuring competitiveness and fairness in the livestock industry. GIPSA is conducting a growing number of investigations on market concentration in agriculture, within shorter time frames, using increasingly sophisticated economic and legal analysis.

Examples of what this money will be used for include: anti-competitive behavior investigations; rapid response teams that are utilized for time sensitive issues that require expeditious investigations to protect small family producers; and a contract library that will be used to catalogue each type of contract offered by packers to producers.

This appropriations bill also contains vital emergency assistance for small independent dairy producers. H.R. 4461 will provide \$473 million in direct income relief payments to family dairy farmers throughout the nation. The money is targeted to small- and medium-scale farms who are in the midst of a price crisis as a result of the wild price fluctuations we have been seeing for the past few years.

Mr. President, in my state of Minnesota, dairy production is truly one of the cornerstones of our economy. We have 8,700 dairy farms in Minnesota, ranking us fifth in the nation in dairy production. The average herd size of a Minnesota dairy farm is about 60 cows. Family agriculture is not just an important element of our states heritage, it is vital to our future. But right now, dairy farmers in Minnesota and throughout the country need relief. Therefore, I am pleased this legislation includes a provision, which I joined the Senators from Wisconsin in proposing,

to provide \$473 million in targeted emergency payments to dairy farmers nationwide.

I continue to see the urgency of this is aid, especially as we in Minnesota lose dairy farms at a rate of three per day. This will put money in the pockets of dairy farmers soon, when they need it, not a year from now when many of them will have already sold their cows. However, it is, like last year's funding, merely a bandage to stop the bleeding. Dairy farmers everywhere need meaningful policy reform. In order to achieve a fair, sustainable and stable long term price, we need a dairy price support program that is set at a level sufficient to curb the current market volatility.

In addition, H.R. 4461 contains significant increases in rural development programs to help rural communities make it through these difficult economic times. Furthermore, I am pleased the bill contains a provision I added to provide \$3 million in grants to promote employment of rural residents through teleworking. Telework is a new method of doing work that will allow information technology jobs to be a part of diverse, sustainable rural economies while helping IT employers find skilled workers. Specifically, telework is the use of telecommunications technology, like the Internet, to perform work functions over a distance instead of at the traditional workplace of the employer. This provision will allow rural communities to access federal resources to implement locally designed proposals to use telework as a tool for rural development. This represents a critical opportunity for diversification and revitalization of rural economies.

This bill also takes some important first steps to ensure that all low-income families receive the food stamps they need to prevent hunger and ensure adequate nutrition. The bill incorporates an amendment I offered to require a study in the next 180 days so we can learn what obstacles families face when they try to get food stamps, as well as why the rolls have declines so dramatically in recent years. There is a growing sense that the Food Stamp Program is not functioning adequately in assisting working poor families and helping to "make work pay." Although eligibility for food stamps is no longer tied to welfare receipt, the dramatic declines in the cash assistance rolls appear to have resulted in large numbers of eligible low-income families failing to receive the food stamp assistance for which they qualify, including many families who have moved from welfare to work. This study will help us understand the kinds of policy and program implementation decisions we need to make in order to better ensure that working poor families in this country are not going hungry.

The bill also includes two provisions from the Hunger Relief Act—one which

will raise the vehicle allowance, and one which will raise the shelter cap deduction, for families receiving food stamps. This provision means that working parents who are dependent on a car to get to and from work will still be able to get the food stamps that they need, and parents who spend more than 50 percent of their income on rent because they live in communities that lack available affordable housing will also now be better able to get the food stamps that provide critical nutritional supports for themselves and their children. This is a very important first step, and I now hope that we will see the remaining provisions in the Hunger Relief Act enacted before the end of this session. In particular, it is critical that we restore food stamp benefits to post-96 legal immigrants as soon as possible.

Mr. President, now let me turn to the prescription drug import provision which is included in this conference report. This is legislation designed to correct the injustice that finds American consumers the least likely of any in the industrialized world to be able to afford drugs manufactured by the American pharmaceutical industry because of the unconscionable prices the industry charges only here in the United States.

Mr. President, I meet with many constituents, but none with more compelling stories than senior citizens struggling to make ends meet because of the high cost of prescription drugs—life-saving drugs that are not covered under the Medicare program. Indeed, it is shameful that this Congress has failed to enact a prescription drug benefit under Medicare available to all beneficiaries.

But the issue is not just Medicare's lack of coverage. The unfairness which Minnesotans feel is exacerbated by the high cost of prescription drugs here in the United States—the same drugs that can be purchased for frequently half the price in Canada or Mexico or Europe. These are the exact same drugs, manufactured in the exact same facilities with the exact same safety precautions. Minnesotans know this because they can drive to Canada and see the price differentials for themselves.

Driving to Canada every few months to buy prescription drugs at affordable prices isn't the solution, nor is it an option for most Americans.

That is why I introduced with Senator Dorgan the International Prescription Drug Parity Act, and with Senator Jeffords the Medicine Equity and Drug Safety Act, two bills designed to amend the Food, Drug, and Cosmetic Act to allow American pharmacists and distributors to import prescription drugs into the United States as long as the drugs meet the Food and Drug Administration's (FDA) strict safety standards. Under these proposals, pharmacists and distributors would be able

to purchase these drugs—often manufactured right here in the U.S.—at lower prices overseas and then pass the huge savings along to American consumers.

This legislation has evolved quite a bit through the legislative process. Early in that process there had been two constants: bipartisanship in seeking lower prices for American consumers and opposition every step of the way by a pharmaceutical industry bent on preserving profits.

We were on the verge of producing a strong bipartisan final result until the process was hijacked by the Republican leadership. Rather than a bipartisan bill that would guarantee Americans the opportunity to share in lower drug prices which are available everywhere else in the world, Republicans fell in line with the pharmaceutical industry and shut the door on closing loopholes which would protect the rights of American consumers to affordable, safe prescription drugs.

Following after their leadership, Republican members of the Agriculture appropriations conference committee ditched the bipartisan process, jettisoned legislative language that would have assured American consumers access to affordable drugs, and left open for the pharmaceutical industry loopholes that could defeat the purpose of this legislation.

What language was unilaterally rejected by the Republicans? First, was a provision that would have required manufacturers to provide access to their FDA-approved U.S. labels. Currently, when drugs are reimported to the United States by drug companies, they must be relabeled with the FDA approved label. This new provision would have assured other importers access to those required labels. Without that requirement, manufacturers could stonewall importation by not providing the labels. Second, was a provision that prevents manufacturers from entering into agreements with their foreign distributors that interfere with the resale of prescription drugs back into the United States.

Either of these loopholes could prevent the reimportation of prescription drugs, which is why they should never have been allowed to remain in the final bill. The Secretary of Health and Human Services is given broad authority to draft regulations to facilitate importation of FDA-approved prescription drugs, which gives me some hope. But the Secretary's authority does not lessen my outrage or that of my Democratic colleagues about the process which resulted in those major loopholes going unaddressed. It is unfortunate that the productive bipartisanship which had prevailed during the past year to pass this bill was discarded in the last, critical hours.

This needn't have happened. There was an effort when the conference met

to close the loopholes, ensuring that the pharmaceutical industry could not make en end run around the effective implementation of this bill. But, given the choice of standing with American consumers, especially America's senior citizens, or the most profitable industry in America, Republicans chose the industry that has sought to undermine this bill from the start.

While I am saddened about the missed opportunity to produce a stronger, water-tight legislative product, I do believe the present bill is an improvement over the status quo, and continues to have the potential for lowering prescription drug prices here in the United States. If however, the pharmaceutical industry takes advantage of the Republican-tolerated loopholes, then I will be back next year with legislation to close those loopholes and make this law work.

Mr. President, again, I intend to support this agriculture appropriations bill. I thank my colleagues on the floor, Senator COCHRAN, Senator KOHL, Senator HARKIN, and others for their very good work.

I speak as a Senator from an agricultural State. I want mention the emergency assistance. It is much appreciated. We have gone through some difficult times. We have had flooding and we have had scab disease, and that on top of record-low prices and record-low farm income, which has led to a lot of economic pain. I thank my colleagues for their very good work.

Second of all, let me especially thank Senator KOHL and Senator HARKIN for their work. I had an amendment on the floor to get some additional money for GIPSA. They helped me in conference committee. I thank Senator COCHRAN as well. I really want GIPSA to be about the work of looking at the problem of concentration of power. So many of our livestock producers are not getting a fair shake. The IBPs and ConAgras of this world are muscling their way to the dinner table and muscling family farmers off the farm. I think it is important that GIPSA be able to look at this whole problem of an increasing concentration of economic and, I argue as well, political power.

Third of all, let me thank Senator KOHL, in particular, for his fine work on some direct income relief payments for dairy farmers. I think we have about 473 million nationwide. We have 8,700 dairy farmers in the State of Minnesota. Again, record-low prices have been a nightmare for these farmers. I thank Senator KOHL for his good work. I am proud to be a part of this.

There is also in this bill a provision that I think is historically significant. It only starts out with \$3 million, and this is going to be done within USDA, obviously. This is going to be a telework program where we will try to set up some models, centers of distance

learning, whereby farmers and other rural people with strong ethics and who want to work are going to be able to get training and be connected with information technology companies and find employment at good wages but do it out of farm, out of home, or satellite office—do the telework.

I think this is one of the most important things we have in this bill. I am very excited about it. Many people in Minnesota who transcend all political boundaries helped on this.

Let me also thank in particular Senator HARKIN. He fought it out in conference committee, getting us back to the Food and Nutrition Service—going out there and after 180 days in the field came back with a report telling us why there has been such a steep decline in food stamp participation. The Food Stamp Program is a major safety net program to make sure children do not go hungry. We want to know why there has been such a severe decline in participation. I wish there had been a 30percent decline in poverty in this country. There has been no such decline. There has been a dramatic rise in food shelters and pantries. We know a lot of people are not getting the help they need.

I thank my colleagues for supporting this issue. I thank Senator Kennedy for his fine work on the Hunger Relief Act.

Senator COCHRAN has a longstanding commitment to these issues as well.

I think it is important that we do some revisions when it comes to shelters, as well as dependency on car and transportation in allowing more people to be eligible for food stamp assistance.

Finally, on the International Prescription Drug Parity Act, I don't know that I am in complete agreement with Senator HARKIN, but I know what he is saying.

I did this amendment with Senator Jeffords and Senator Dorgan, originally. I think when it went to the conference committee there was some effort to make sure we would tighten it up. In particular, I think there is a concern that the pharmaceutical companies will make it difficult, for example, for the Canadians to be involved in a reimportation of those drugs back to this country. I think we could have done better on the language. I think there are too many loopholes.

I am disappointed the way this conference was done. I think this is a step forward. But I would like to have seen much more.

I certainly think you have to have prescription drug benefits added onto Medicare if you are going to really provide the help people need. I think we should have done more.

I thank Senator JEFFORDS for the work he has done on this amendment. I was proud to be a part of it.

We have to write a new farm bill. We have to focus on getting farmers a decent price in the marketplace.

I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. HARKIN. Mr. President, I thank my colleague from Minnesota. We always run out of time around here when we get into a good debate.

THE BONNIE CAMPBELL NOMINATION

Mr. HARKIN. Mr. President, as I have done repeatedly every day we have been here for the past few weeks, I want to talk about the stalled nomination of Bonnie Campbell for the Eighth Circuit Court of Appeals.

I understand the Judiciary Committee of the Senate has again scheduled an executive meeting for tomorrow morning at 9:30 a.m.—I guess to talk about subpoenas for the Department of Energy, and something else.

I had my staff do an inquiry, and I found out that Bonnie Campbell's name is not on the agenda.

We are in session. We are in session tomorrow. We are going to be in Friday. We are going to be here next week, yet the Judiciary Committee again refuses to allow Bonnie Campbell's name to come out for a vote. It is bottled up.

All we want is a vote.

Bonnie Campbell has strong bipartisan support. Both Senators from Iowa support her. Senator GRASSLEY, a Republican; I, a Democrat.

She has great support from law enforcement and service groups. We just had a big debate and an overwhelming vote last week to reauthorize the Violence Against Women Act. Senator after senator got up to speak about how great it was. It has been a good law. It has done a lot of good. The one person who has been primarily responsible for the implementation of that act since its inception has been the head of the Office of Violence Against Women in the Justice Department. Who has that been? Bonnie Campbell. She has done a great job. She is the former attorney general of the State of Iowa, now standing in glory in her own right. Yet her nomination is bottled up in the Judiciary Committee.

I ask again: Why is she being bottled up?

Look. In 1992, when we had a Republican President and a Democratic Senate, we had 14 nominations for circuit court judges in 1992 during an election year. Nine of them had hearings. Nine of them were referred, and nine were confirmed, including one in October right before the election. Yet we are told no; Bonnie Campbell's nomination came too late. It is too late when we have a Democratic President and a Republican Senate. But it wasn't too late when we had a Republican President and a Democratic Senate.

Nine hearings; nine referred; nine confirmed in 1992. Here we are in the year 2000: Seven nominated; two had hearings; one referred; and one confirmed.

Who is the one who had the hearing that has not been referred? Bonnie

Campbell. What a disgrace. What a shame. What a slap in the face to an outstanding individual who has done well in the field of law. I haven't heard anyone—Republican or Democrat—say that she hasn't performed superbly in running the Office of Violence Against Women. Her performance is reflected in the House's 415 to 3 vote to reauthorize the act and the Senate's 95 to 0 vote on that legislation.

I will, as I do every day, ask unanimous consent to discharge the Judiciary Committee on further consideration of the nomination of Bonnie Campbell, the nominee for the Eighth Circuit Court, that her nomination be considered by the Senate immediately following the conclusion of action on the pending matter, that the debate on the nomination be limited to 2 hours equally divided, and that a vote on her nomination occur immediately following the use or yielding back of that time

Mr. COCHRAN. Mr. President, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. HARKIN. Mr. President, I knew it would be objected to. But I am going to do it every day to make the point that her name is unfairly being bottled up in the Judiciary Committee. No one has said she is unqualified, or anything such as that.

I can only assume it's that the Republicans figure maybe their nominee will win the Presidency, and all of these will fall by the wayside, and, rather than Bonnie Campbell, we will have somebody else. Maybe that is the way they feel. But that is not the way to run this place.

Once you go far down that road, it may be pretty hard to turn back. Times change. There will be a time when there will be a Republican in the White House and the Senate will be Democratic. Do we want to repeat the same thing this year? Do we want to go down that road? Is that what this place has become? If you start it on that side, that is what is going to happen, because when the Democrats take charge, they'll look back at what happened in the year 2000. We shouldn't go down that road.

#### ALTERNATIVE DISPUTE RESOLUTION

Mr. LEVIN. Mr. President, we have before the Senate the fiscal year 2001 Agriculture Appropriations conference report (H.R. 4461). Included in this bill is funding which will, among other things, assist our Nation's farmers, aid rural development, preserve delicate ecosystems and provide food assistance to our Nation's most needy individuals. However, I am concerned about several recent reports conducted by the USDA's Office of Inspector General, and a report by the General Accounting Office (GAO) that criticizes the ability of USDA's Office of Civil Rights to process and resolve civil rights cases in a timely fashion. I recognize that Secretary Glickman has done much to remedy the civil rights problems he inherited when he became Secretary, and I encourage him to continue these efforts.

Mr. TORRICELLI. I share the concerns held by the Senator from Michigan about USDA's ability to address civil right cases in a timely fashion. Failure to resolve civil rights cases involving access to USDA farm programs delays justice and threatens the affected farmer's well-being. The Secretary of Agriculture needs to use his authority to provide independent and neutral alternative dispute resolution (ADR).

Mr. KOHL. Both Senators make important points. The Senate has acknowledged the important role that alternative dispute resolution plays in addressing civil rights matters.

Mr. LEVIN. Both the distinguished Senator from New Jersey and myself have constituents who have encountered significant delays from USDA in addressing their civil rights cases. We want to do all we can to be certain that, when applicable, the Secretary of Agriculture will ensure the Department's participation in an independent and neutral ADR process as expeditiously as possible.

Mr. TORRICELLI. I agree with my good friend from Michigan that the Secretary of Agriculture has the authority to resolve these matters.

Mr. KOHL. I appreciate these comments and agree that this is a serious matter that ought to be addressed by USDA.

#### TELEWORK

Mr. WELLSTONE. Mr. President, will my friend form Wisconsin yield for the purpose of a colloquy regarding the telework provision of the conference report.

Mr. KOHL. I yield to my colleague from Minnesota for that purpose.

Mr. WELLSTONE. The Senate adopted an amendment to the Agriculture appropriations bill that directed \$3 million to be spent for employer outreach, education, and job placement under the USDA/Rural Utilities Service Distance Learning and Telemedicine Program (DLT). The conferees have changed this provision to report language.

We have a tremendous need in our rural communities to take advantage of today's technology and information revolution. I believe, because it essentially allows distance to be erased, telework is a promising tool for rural development and for making rural and reservation economies sustainable. I would ask my colleague if it is his understanding that the Senate's intent can be carried out by USDA Rural Development under existing authority.

Mr. KOHL. I am happy to clarify this for my colleague. He is correct. The Distance Learning and Telemedicine Loan and Grant Program was designed by Congress to enable rural communities to improve the quality of educational opportunities and medical service. I believe strongly that educational opportunities include worker retraining and transitional education. Applicants can partner with local businesses or businesses considering moving into a rural area. Schools, community colleges, and other teaching institutions partner with the private sector today. Within that mandate, this is a program that is truly limited only by the innovation of the rural communities it serves.

Mr. WELLSTONE. I appreciate this clarification, and I ask my colleagues' indulgence for one further question. Would it also be correct that USDA Rural Development should promote employment of rural residents through teleworking not only through the use of the DLT Program, but also through other programs such as the rural business and the Community Facilities Program? These programs might allow funds to be used to provide employment-related services or high speed communications services which may be necessary to make telework a reality in rural communities.

Mr. KOHL. My colleague is correct. Again, USDA Rural Development should be encouraged to be innovative, within their statutory authority, in making grants for the purpose of promoting telework. In addition, USDA should use rural development programs in a manner that will allow rural communities to best take advantage of the potential of new technology and new methods of doing work, such as telework, in building sustainable, diverse rural economies.

WATERMELON SUDDEN WILT DISEASE

Mr. LUGAR. Mr. President, section 804 of H.R. 4461, the conference report on the fiscal year 2001 agriculture appropriations bill, provides the Secretary of Agriculture with emergency authority to compensate growers for crop losses due to new and emergent pests and diseases, including watermelon sudden wilt disease.

Senator COCHRAN, I want to thank you for including watermelon sudden wilt disease in the list of problems addressed by section 804. This disease, which is characterized by wilting leaves and collapsing vines, often results in the death of mature watermelon plants. The disease became a problem in southwestern Indiana last year and has become a much more serious problem in the region this year. Last year, Indiana farmers grew \$11 million worth of watermelons, ranking sixth in the nation. This year production will likely be significantly less. On September 19, 2000 USDA's Farm Service Agency office in Indianapolis estimated that the disease may be responsible for Indiana watermelon losses of up to \$4.7 million.

Despite ongoing study, scientists at Purdue University have not yet determined what causes the disease, including whether or not adverse weather is a contributing factor. As a result, it appears unlikely that Hoosier watermelon growers affected by this problem will be eligible for assistance under USDA's existing disaster programs or for assistance provided by other sections of the agriculture appropriations conference report. Assistance in these cases is generally limited to weatherrelated crop losses. As a result, full implementation by the Secretary of Agriculture of the emergency compensation authority provided by section 804 is important.

I must note, however, that section 804 permits, but does not require, the Secretary of Agriculture to provide compensation to growers due to watermelon sudden wilt disease and other new and emergent pests and diseases. Is it the intent of the bill's managers that the Secretary of Agriculture fully implement the authority provided by section 804?

Mr. COCHRAN. Yes, the managers intend that the Secretary of Agriculture fully implement section 804 which provides authority to compensate growers for crop losses due to new and emergent pests and diseases: including Mexican fruit flies, plum pox virus, Pierce's disease, grasshoppers and Mormon crickets, and watermelon sudden wilt disease. Senator LUGAR, as you noted, section 804 is designed to provide compensation to growers for crop losses due to several new and emergent pests and diseases, none of which may necessarily be a weather-related problem. Full implementation of section 804 is necessary for growers to receive compensation for these various problems.

## FRUIT FLY EXCLUSION AND DETECTION PROGRAM

• Mrs. FEINSTEIN. Mr. President, I rise today with the chairman and ranking member of the Agriculture Appropriations Subcommittee to discuss one of the greatest threats facing California growers and farmers across the nation—infestations of disease-carrying pests which can potentially destroy entire crops. Just this past year, California has been victimized by a number of pest infestations that have resulted in significant quarantine and eradication programs. California's \$1 billion nursery industry is being threatened by red imported fire ants. The \$2.8 billion grape industry faces complete destruction due to an infestation of the glassy winged sharpshooter which spreads Pierce's disease, and there is no known cure.

Mr. KOHL. I am aware of concerns expressed by the senior Senator from California that several months ago a 72 square mile quarantine affecting 1,470 growers of at least 20 specialty crops was finally removed. I am told that no

pre or post harvest treatment for many of these crops was provided by the USDA and that two fruit flies caused almost 150 growers to loss virtually their entire harvest, costing almost \$3 million. The Fiscal Year 2001 Agriculture Appropriations Bill contains language directing the Secretary of Agriculture to use funds from the Commodity Credit Corporation to compensate these growers. I expected that this assistance will be provided in a timely and efficient manner.

Mrs. FEINSTEIN. I appreciate both the chairman and ranking member's willingness to work with me on this issue. Due to this loss of income, a number of growers are currently unable to pay their bills or prepare for next year's crop.

This assistance is desperately needed, but I believe that more emphasis must be placed on preventing future infestations. I am heartened to see that in Fiscal Year 2001, the USDA will hire 17 new agriculture inspectors for the San Diego ports of entry. This is a badly needed first step. We also need to increase the federal investment in California's Medfly Preventive Release Program. If California's fruits were quarantined from all foreign markets because of Medfly infestations, the State estimates that 35,000 jobs would be lost and economic output would be reduced by \$3.6 billion.

Mr. COCHRAN. I understand the challenges facing California's growers. The Administration's budget request of \$31.91 million for the Program earmarks only \$300,000 for equipment and maintenance of the State's Preventive Release Program. The fiscal year 2001 Agriculture appropriations bill provides \$32.61 million for the Fruit Fly Exclusion and Detection Program. The \$700,000 above the Administration's request is to be used to enhance the release program and detection trapping in California.

Mrs. FEINSTEIN. Again, I thank the chairman and ranking member for their courtesy and understanding. On behalf of California's growers, I want to express my appreciation for your efforts to help shield the State from future fruit fly infestations.

#### AMERICAN HERITAGE RIVERS

Mr. KERRY. Mr. President. I would like to clarify for the record the intent of language included under funding for the National Resources Conservation Service (NRCS) of the Agriculture Appropriation fiscal year 2001 bill. I want to point out that interagency coordination of federal resources is desirable and certainly something many of us have been supporting as a way to eliminate unnecessary activities and spending. We don't want to spend money in Washington duplicating positions and processes. We want money in the field helping local communities. The NRCS "Conservation Operations" and "Watershed Surveys and Planning" funding

sections contain specific language that refers to the American Heritage Rivers Initiative, which is coordinated by an interagency committee to assist communities seeking technical assistance and opportunities for Federal grants. I would like to point out that this initiative has proven to work well for participating communities in my state and others.

Mr. L. CHAFEE. While the language in this conference report places a limitation on assistance by NRCS for activities related to the American Heritage Rivers, it should not be intended to penalize or disadvantage communities that seek or apply for grants and technical assistance. There is no specific limitation in this conference report that would preclude the NRCS from undertaking other authorized activities that are similar to those provided under the American Heritage Rivers Initiative. Would the Chairman and the Ranking Member agree with this interpretation?

Mr. COCHRAN. Yes.

Mr. KOHL. Yes, that is correct.

AMERICAN HERITAGE RIVERS

Mr. COCHRAN. Mr. President, the conference report includes funding for American Heritage Rivers program under the Conservation Operations and Watershed Surveys and Planning accounts of the Natural Resources Conservation Service, NRCS. Funding for this program is limited to that requested in the President's budget. It is my understanding that there are communities which are in the final stages of being included in the American Heritage Rivers program, including Vicksburg and Natchez, Mississippi.

It is not our intention to limit these funds to those communities that were included in the program when the budget was submitted. Further, if additional communities are added during fiscal year 2001, they should be eligible for all funds available for the American Heritage Rivers program. Also, technical assistance can be provided, without limitation, by the NRCS to farmers or communities in an American Heritage River designated area.

NATIONAL RURAL DEVELOPMENT PARTNERSHIP

Mr. CRAIG. Mr. President, first I would like to thank Chairman COCHRAN and Senator KOHL for the hard work they have put into the Fiscal Year 2001 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations bill. It is a challenging process, and they have done an excellent job balancing competing interests within the confines of a balanced budget.

I wish to engage in a colloquy with the distinguished Chairman of the Subcommittee regarding the funding for the National Rural Development Partnership (NRDP) and state rural development councils (SRDCs). As you may be aware, NRDP and SRDCs have always depended on allocations of discretionary funds from USDA and four other federal agencies. They have never had a stable and predictable source of funds.

Earlier this year, the Committee on Agriculture's Subcommittee on Forestry, Conservation, and Rural Revitalization, which I chair, held an oversight hearing on the operations and accomplishments of the NRDP and SRDCs. The Subcommittee heard from a number of witnesses, including officials of the U.S. Departments of Agriculture, Transportation, and Health & Human Services, state agencies, and private sector representatives. The hearing established the need for some legislative foundation and consistent funding. I was recently joined by 27 Senators in introducing legislation to accomplish this.

The legislation formally recognizes the existence and operations of the Partnership, the National Rural Development Council (NRDP) and SRDCs. In addition, the legislation gives specific responsibilities to each component of the Partnership and authorizes it to receive Federal appropriations.

This legislation was not passed in time for the FY2001 appropriations process, so funding is necessary to keep the program viable until the legislation can be passed. Mr. Chairman, it is my understanding that there is no funding earmarked or specified within the Agriculture Appropriations conference report for this program. However, the Secretary has made discretionary funds available for this program in the past and it is my hope he would continue to do so, and that we can encourage him in this regard, until freestanding legislation can be passed.

Mr. BURNS. I would like to join Senator CRAIG in support of the National Rural Development Partnership. This program is extremely important to states like Montana, where we have a large rural population and long distances between our towns. I would hope that the Secretary of Agriculture will continue to fund the NRDP and provide additional funds for the future expansion of this very important program.

Mr. GORTON. Washington state's rural communities have also benefited by the National Rural Development Partnership, particularly those regions that have been forced from their natural resource-based economies. For the sake of those who have come to rely on the NRDP, I would sincerely hope the Secretary of Agriculture would take into consideration the few remaining resources available to these communities when allocating discretionary funds in the future.

Mr. JEFFORDS. I would like to echo my colleagues' support of the National Rural Development Partnership and its affiliates, state rural development councils. These councils, in Vermont and over 35 other states, are playing an important role bringing together the

many governmental and non-governmental entities that work to improve conditions in rural areas. I sincerely hope that Secretary of Agriculture will continue to support this program while authorization legislation is finalized by the Congress.

Mr. COCHRAN. I commend the Senators for their interest in this program. I want to assure the gentlemen that it is the Committee's belief that the Secretary of Agriculture should continue to provide funding from discretionary amounts for this program.

THE INITIATIVE FOR FUTURE AGRICULTURE AND FOOD SYSTEMS

Mr. HARKIN. Mr. Chairman, I note the language in the bill specifying certain institutions that may receive grants under the Initiative for Future Agriculture and Food Systems. I would ask the distinguished chairman if it is his understanding that the program may continue to be carried out in the same manner as during fiscal year 2000 as authorized by law.

Mr. COCHRAN. This language does not intend to create any additional restrictions beyond the restriction on which institutions are eligible to receive grants.

SOLID WASTE MANAGEMENT GRANT PROGRAM

Mr. WELLSTONE. Mr. President, I ask consent to engage in a colloquy with my colleague, Senator KOHL, the ranking member of the Appropriations Subcommittee on Agriculture, Rural Development and Related Agencies. In particular, I would like to discuss the Department of Agriculture's solid waste management grant program, funded as a line item within the utilities section of the Rural Community Advancement Program. Authorized in section 310B(b) of the Consolidated Farm and Rural Development Act, these grants allow public agencies and nonprofit organizations to provide technical assistance to local communities for reducing water pollution and improving solid waste management.

I ask the Senator, whose State is a neighbor of mine, whether he agrees with, and whether it is his understanding that the subcommittee would support, my urging USDA to direct up to \$1 million of the solid waste management grants to the regional, nonprofit, technical assistance organizations known as Rural Community Assistance Programs. These organizations have done an outstanding job serving the smallest, poorest and hardest to serve rural communities in the Midwest and across the country. The Rural Community Assistance Programs are key partners within USDA's Rural Community Advancement Program. Their nationwide network of technical assistance providers—serving water and wastewater system needs for thousands of rural communities—is highly qualified and well placed to improve the effectiveness of rural solid waste management.

For example, the regional Rural Community Assistance Program which serves my State of Minnesota is the Midwest Assistance Program (MAP). Based in New Prague, MN, MAP serves nine midwestern States. The organization has carried out solid waste projects in collaboration with USDA. the Indian Health Service, and with individual tribes in communities throughout the region. MAP is now beginning to target assistance to Minnesota communities for the development of small transfer stations, to improve recycling and better manage solid waste.

Mr. KOHL. Mr. President, I appreciate the Senator's attention to this issue. He is correct to point out the positive role of the Rural Community Assistance Programs in helping carry out this and other important activities in rural areas. The Senator is aware that the President requested \$5 million for these solid waste grants for fiscal year 2001. But whereas there is a general acknowledgment of the effectiveness of the program, we are abe to fund the program only to a level of \$2.7 million in this bill, due to broader fiscal constraints. In view of that limitation, I think the Senator is correct to urge the Department to give special consideration to those very small, often poor, rural communities which can be the hardest to serve. For that reason, I agree, and I believe the subcommittee would agree, that the Department should be urged to consider directing up to \$1 million of the solid waste grants to the regional Rural Community Assistance Programs, which have an excellent record of serving such communities.

Mr. DODD. Mr. President, I rise today to speak once again about the Agriculture appropriations conference report, and specifically to comment on two major provisions that cause me grave concern. One relates to several aspects of U.S.-Cuba policy, and the other to the reimportation of prescription drugs from abroad. I spoke on October 6, when the language first became public, at some length about my opposition to the Cuba provisions in the conference report. At that time, I also expressed support for other provisions of this legislation that dramatically loosen the licensing and financing restrictions on sales of food and medicine to other countries that have been designated as terrorist states— North Korea, Iran, Sudan, and Libya.

I continue to find it appalling that Cuba has been singled out for more restrictive treatment than the other countries I have just mentioned, who are far more of a potential threat to U.S. foreign policy and national security interests than Cuba has ever been.

I would call my colleagues' attention to a remarkable photo that appeared on the cover of the the New York Times on October 11. This photo showed President Clinton meeting with high ranking North Korean General Jo Myong-Nok—the first official meeting of its kind in more than 50 years. The purpose of the general's visit to Washington was to begin a dialogue on ways to enhance relations between our two countries. Secretary Albright has announced she will visit North Korea in the next several weeks. And I won't be surprised if President Clinton also decided to go there before leaving office. How the world has changed.

Let me be clear. I am not opposed to diplomatic efforts to ease tensions on the Korean Peninsula. But I think it is fair to say that North Korea, with its missile programs and hostile government, represents a much greater threat to the United States than Cuba. Cuba no longer seeks to export revolution to its neighbors and is no longer financed by the Soviet Union. Yet there have been no high level meetings of Cuban and American officials held to explore the possibility of improving relations between two close neighbors. In fact, it has been quite the opposite—no one above the rank of Deputy Assistant Secretary in our government can visit Havana or conduct discussions with Cuban officials about such matters. To say that our policy is incredibly skewed when it comes to matters related to Cuba is an understatement.

Emotions and raw domestic politics prevent us from having normal discourse with a small island 90 miles off our coast while, at the same time, we are trying to normalize relations with communist North Korea. A contradiction? I think so.

We cannot have our cake and eat it too. By singling out Cuba for highly restrictive treatment, while throwing the door wide open for countries like Iran and Sudan, we are casting ourselves as hypocrites in the realm of foreign policy, and we are arbitrarily rewarding one oppressive regime while castigating another.

American farmers will not be deceived for very long by supporters of this language who are assuring them that they will indeed be able to sell their crops in Cuban markets. It will quickly become apparent the first time they try to put together a deal that the complexity of the law makes it virtually impossible to complete a sale to that country.

Furthermore, the codification of existing travel restrictions on Americans wishing to travel to Cuba is shameful and irresponsible. By passing this bill, we take away the administration's discretion to grant licenses on a case-bycase basis in circumstances that do not fall into the now codified categories of permissible travel, significantly harming our ability to work to change Cuban society. These restrictions are unfair, hypocritical, and inexplicable to average Americans who believe that their right to travel is a fundamental freedom enshrined in the Constitution.

I also take issue with another major provision that was jammed into this legislation by the Republican leadership—I am speaking of a provision which will allow the reimportation of pharmaceuticals from foreign countries back into the United States. This provision is of concern for several reasons, not the least of which is that it ignores the larger question of whether Congress is going to give all seniors an affordable, reliable drug benefit through Medicare. This provision is far from a comprehensive solution to the very real problem millions of seniors face all over the country in affording their medicines. It is my hope that the enactment of this legislation does not distract us from working toward the goal of providing all seniors with real Medicare drug coverage.

Having laid out my objections, I must state that I am prepared to vote for this bill because it contains funding for many programs that are beneficial to American families and American farmers. These provisions include financial relief for hard hit farmers who have suffered economic and natural disasters, funding for the Women, Infants, and Children Program for school lunches, and food stamps for our less fortunate. These are all vital programs and deserve the support of this body.

The situation we find ourselves in today speaks volumes about those who would slip objectionable language into a bill as important as this one and put in jeopardy its passage. Fortunately, the legislative process does not end with the passage of a single bill. Next year I will be back in this Chamber seeking to put our relations with the Cuban people on the same footing as those of other peoples around the world, and to restore every American's right to travel freely—even to Cuba if they so choose. I will also be working to enact truly meaningful legislation that will ensure that prescription drugs are available and affordable for every American family. These issues are not going to go away with the adjournment of this Congress and in time, reason will prevail on these matters. The American people will demand

Mr. CRAIG. Mr. President, I rise in support of the FY2001 Agriculture Appropriations bill. First I would like to thank Chairman Cochran and Senator Kohl for the hard work they have put into the Fiscal Year 2001 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations bill. It is a challenging process, and they have done an excellent job balancing competing interests. While I don't agree with everything in this bill, I believe this bill provides vital funding for several programs in my state and across the nation.

This conference report includes much needed emergency spending to deal with the fires and drought in the West.

As you all know, the West was hit hard this year by wild fires. In Idaho alone over 1.2 million acres were burned. I visited a ranch where, within a couple of hours time period, a fire had destroyed the rancher's business. Of this rancher's 800 head of cattle, close to 600 were killed or had to be destroyed because they were so badly burned. I think this is an emergency, and it is only right that Congress provide funding to assist producers who have been impacted by such a natural disaster. That is why I support the livestock indemnity payments included in this conference report. Ranchers that were lucky enough to get their cattle out of the fires path are now searching for feed for their cattle and are working to rehabilitate the pastures that were destroyed. This conference report helps them by providing livestock feed assistance, as well as Emergency Conservation, Watershed and Flood Prevention Operations and Pasture Recovery Program funding to help defray the costs of rehabilitating the pasture lands. I also support this.

However, I do not believe that all of the spending called emergency in the conference report is really emergency. I am disappointed to see the size of the emergency spending as well as some of the authorizing contained in this conference report. This and some of the other bills represent a bad omen for the future. We need to have a realistic budget resolution every year and we need to enforce it. We need fiscal discipline to maintain an adequate surplus. We will need that surplus to protect and modernize Social Security, to save and reform Medicare, to meet high priorities we know will be there in defense and other areas, and to provide some relief to the most heavily taxed generation in American history.

The bills we are considering at the end of session do not represent a disaster but they are a bad start in terms of planning for our future. I am not pointing fingers. I think our current process is not responding well to the new idea of surpluses. But we need to start now to do a better job.

I am also concerned with some of the legislative provisions contained in this bill. I do not support a rollback of welfare reform, and I am concerned that some of the provisions contained in this conference report are a start at doing just that. While I am strongly opposed to these provisions, this bill contains many things that benefit my state as well as help that is sorely needed. On balance, I have been forced to conclude that I cannot, in good conscious vote against this bill even though I do not agree with each and every item included in this conference report.

I hope the Senate passes this bill today and the President signs it into law. However, I hope that we will reform the process so next year we are not in the same situation we find ourselves in today.

Mr. HARKIN. Mr. President, I would like to make a few more points on the hunger relief provisions.

The centerpiece of this package would allow states to reform their treatment of cars and trucks when determining whether a household meets the food stamp resource eligibility limits. Rural families need to look for and travel to employment, to get groceries, and for a host of other purposes. Rural roads and seasonal driving hazards make a dependable vehicle a real necessity. Particularly in an era of welfare reform, we should not be forcing households to choose between reliable transportation and needed food assistance, as current rules effectively do.

States have recognized this, and a great many of them have greatly reformed their treatment of cars in their TANF-funded programs. This is particularly true of the first car that a household has. Under this provision, states would be free to apply a more realistic TANF policy to a household's primary vehicle even if its policy is to exclude that vehicle completely from evaluations of the family's resources. If the household had an additional car or truck and its TANF policy was stricter than food stamp rules for second vehicles, that additional car or truck should then be evaluated under the usual food stamp procedures.

This change in the law gives a state the broadest flexibility to adopt a policy that effects vehicles from any assistance program it operates under the TANF statute. The Secretary has appropriately interpreted similar language already contained within the Food Stamp Act as applying to any program that receives support either from federal TANF block grant funds or from the funds that the TANF statute requires states to spend as "maintenance of effort" in order to draw down the TANF block grant. A similar construction is appropriate here. All that would be required is that the program get TANF block grant or maintenance of effort funds that it provide a benefit that can meet the definition of assistance, not necessarily cash assistance. For example, a state could apply the policy it uses in a child care program because HHS's regulations define child care as assistance when provided to non-working families.

Once a state decided to apply the policies from a state program to evaluating cars for food stamp purposes, those policies would apply to all food stamp households in the state, whether or not they receive or even are eligible to receive TANF benefits of any kind.

The other Hunger Relief Act provision would raise the cap on the food stamp excess shelter cost this March and then adjust it for inflation beginning October 1, 2001. The shelter deduction reflects the commons sense principle that the same money cannot be

spent on both housing costs and food. It provides that when a household is spending more than half of its income on food or mortgage, utilities, and similar costs, the amount of those costs that exceed half of its income will be deducted when calculating how much the household can be expected to be able to spend on food. The shelter deduction is also important in rural America, in part because fewer people in rural communities receive housing subsidies and in part because housing costs can easily exceed half of the relatively modest wages that some low-income families receive in rural areas.

Unfortunately, the shelter deduction is arbitrarily capped at \$300 for households that do not contain an elderly or disabled member. This means that lowincome families that are not getting housing subsidies and that are struggling under the burden of extremely high shelter costs are getting unrealistically low food stamp allotments. This provision should help, in particular by making sure that the cap does not lose ground to inflation. I hope that in reauthorization, we can revisit this issue and fully provide fair and equitable treatment to these hardpressed households the vast majority of which have children.

Mr. DORGAN. Mr. President, I want to take a few moments to share my thoughts on the prescription drug reimportation provision included in the Agriculture appropriations conference report before the Senate. As my colleagues know, I have been concerned for a long while that American consumers are charged two to three times more for prescription drugs than consumers in other countries pay. In fact, in June of 1999, I introduced bipartisan legislation, the International Prescription Drug Parity Act, to address this unfair pricing situation by allowing U.S. pharmacists and drug wholesalers to reimport FDA-approved prescription drugs from other countries at a fraction of the cost.

Ten months ago on a cold, snowy day, I accompanied a group of North Dakota senior citizens and pharmacists on a trip to Emerson in Manitoba, Canada. Emerson, Canada, is a tiny one-horse town just 5 miles from the North Dakota-Canadian border. In Emerson, I watched as my North Dakota constituents saved hundreds of dollars each on the exact same prescription drugs available to them in the United States.

One of the folks who went with me was a 70-year-old Medicare beneficiary from Fargo, ND, named Sylvia Miller. Sylvia has diabetes, heart problems, and emphysema, and she takes at least seven different medications each day for her various ailments. Sylvia told me that last year she received \$4,700 in Social Security benefits and paid \$4,900 for her prescription drugs. "Things don't add up, do they?" she asked.

By making the short trip across the border to Canada, Sylvia was able to cut her monthly prescription drug bill in half. As Sylvia said in a Fargo Forum article about this trip, "It sure would be nice if I could just go over to my own drug store and get those prices."

Sylvia couldn't be more right. No American should be forced to travel to Canada or Mexico just to get more affordable prices for his or her prescription drugs. Yet a prescription drug that costs \$1 in the United States costs only 64 cents in Canada, 65 cents in Great Britain, 57 cents in France, and 51 cents in Italy. Those price differences compel many senior citizens who are struggling to pay for their medications and make ends meet to leave the United States to get lower prices elsewhere.

Time and again over the last several years I have been asked by North Dakota consumers why the global economy doesn't work when it comes to prescription drugs. Why can't local pharmacists travel to Canada to buy these same medications at the lower prices and pass along the savings to their customers? Good question.

The answer is that, under current Federal law, only the pharmaceutical manufacturers can reimport prescription drugs into the United States from another country—even though these drugs were originally made in America and approved by the Food and Drug Administration. The lack of competition in the U.S. marketplace has created a situation in which the big drug companies can charge American consumers the maximum the market can bear. And if their 18 percent profit margins are any indication, that is exactly what the drugmakers are doing.

During the Senate's debate on the Agriculture appropriations bill, Senator JEFFORDS and I, along with Senators Wellstone, Gorton, and others, offered an amendment to allow U.S. pharmacists and wholesalers to reimport FDA-approved prescription drugs from Canada, Mexico, and other countries where these medications are sold at a fraction of the price. Our amendment included appropriate safeguards to ensure that only safe and effective FDA-approved medications, made in FDA-approved manufacturing facilities and for which safe handling could be assured, would be imported. This amendment was passed overwhelmingly by the Senate by a 74-21 vote.

The House also overwhelmingly passed amendments to the Agriculture bill back in July that would have allowed for prescription drug importation, although without the safety measures adopted in the Senate. Normally at this point, a House-Senate conference committee would have begun meeting to iron out the differences between the House and Senate bills. This year, however, most of the details were worked out behind closed

doors and without the involvement of most of the members of the conference committee. As a result, many of us who have been working on prescription drug importation legislation for nearly 2 years were shut out of the negotiations.

I am very disappointed with the route that the House and Senate leadership took to develop the final reimportation language. When the Agriculture Appropriations Conference Committee, on which I served, met, the conferees were presented with final language that had been negotiated largely among only the House and Senate majority leadership. While this language is similar to the Jeffords-Dorgan amendment passed in July, there are some changes in the language. Some of these changes represent improvement, but some changes were not made that should have been.

I share in my colleagues' disappointment that some of the changes that I and others proposed, which would have improved this provision, were not included in the final language. After the Senate passed the Jeffords-Dorgan amendment, a few changes were brought to our attention that would help to ensure that our amendment meets the goal of achieving lower prices for American consumers. Therefore, during the conference, I tried to strengthen the final language in a few key areas.

The changes I proposed would have provided greater certainty that this approach would meet my goal of lowering drug prices for American consumers, but unfortunately they were rejected. First, the FDA suggested, and I agreed, that we should require the drug companies to provide importers with the FDA-approved labeling. I think it is pretty indisputable that I, as well as the other authors of the various prescription drug importation bills, intended all along for imported products to be FDA-approved, including having the appropriate labeling. I would prefer that the final provision make this explicit. However, I believe the final language, which gives the Secretary of Health and Human Services new authority to do whatever she believes is necessary to facilitate importation, provides the needed authorization to accomplish this end through the regulations implementing importation. It is my hope that the Secretary who implements this provision will write strong rules to ensure that reimportation will succeed in giving Americans access to safe, cost-effective medicines.

Second, Congressman WAXMAN and others pointed out that drug companies could prevent reimportation from occurring by requiring their foreign distributors to sign contracts promising not to re-sell their products to U.S. importers. To address this concern, the final provision includes language not in the original Jeffords-Dorgan amendment to prevent the drugmakers from

entering into agreements with their distributors that would have the effect of preventing reimportation. Here, too, I wish that this language were stronger and broader, and I unsuccessfully proposed strengthening it.

I have no doubt that the drug companies are already searching for ways to thwart this legislation. If the drug manufacturers do take steps to clearly and purposefully circumvent this legislation, I personally am committed to closing any loopholes or taking another tact altogether to achieve fairer drug prices for American consumers.

Let me make one final point. I think this legislation sends an important message to the big drug companies that Congress will no longer tolerate unfair prescription drug prices. But this legislation is just one step, and it is no substitute for adding a prescription drug benefit to the Medicare program.

I have been saying all along that we have a two-prong problem with prescription drugs in this country. First, prescription drugs cost too much, and I have been fighting for a strong reimportation provision so that we can put pressure on the drug companies to lower their prices. Second, there are too many Medicare beneficiaries who have no prescription drug coverage, and they need it. When the Medicare program was created in 1965, prescription drugs weren't the significant part of the practice of medicine that they are today. Congress must modernize the Medicare program by creating a prescription drug benefit in Medicare, and we should do it this year.

Mr. BROWNBACK. Mr. President, I rise today to put on the record my concerns about numerous provisions contained in this year's conference report of the Ag appropriations bill. Specifically, I am greatly concerned that this vear's bill single-handedly turns back a number of reforms made by the 1996 farm bill and moves us further away from an agriculture policy that looks to the markets rather than government for survival. The danger of following such a philosophy is that government is not likely to have the will to sustain the ag industry indefinitely, so that when the political will to support agriculture dries up, there will be massive calamity.

There are legitimate ag emergencies occurring in the country right now. My family is still on the farm, Kansas is the 4th largest agricultural-producing state in the Nation—and I myself served as Secretary of Agriculture for the State of Kansas before coming to the U.S. Senate. I am not here to find fault with providing additional aid to farmers. Indeed, it is in our national interest to do so. My problem is not with the concept of government assistance to farmers—but rather in the shape this assistance is beginning to take—especially this year.

Specifically, I am referring to the treatment of pet commodities like sugar and tobacco—which have been exempt from the market-oriented reforms faced by most other commodities—including the wheat growers of my state, for example. These reforms were set forth in 1996 to move farmers closer to the market. Some of my Democratic colleagues have accused us of abandoning a financial safety net for farmers-I don't see how they can honestly make that claim since farm spending has gone up dramatically since the '96 law was enacted. The Congressional Research Service notes that program payments combined with emergency spending for calendar year 1999 reached \$22.7 billion—the highest ever and we have continued to provide substantial support to our farmers in 2000—well above that which would have been allowed under previous farm bills. If this conference report merely continued this tradition of backing up the market-reforms of the 1996 farm bill, I would have no problem-but this conference report takes serious steps to undermine those reforms—and that is wrong.

This conference report contains a provision to change the 1996 farm bill language on marketing loans for sugar—now, instead of having to meet a certain threshold, non-recourse loans will be guaranteed for the next two years. This clears the way for additional payments to sugar producers on top of an already complex quota system which allows them to control the amount of imported competition. We don't do this for wheat, corn or soybeans—we should not do it for sugar.

One of the most egregious parts of this bill is language which will promote increased tobacco production from the same government which is trying to decrease domestic demand for tobacco products.

Currently, co-ops can and do purchase low quality or remaining tobacco not bid on by cigarette companies in order to artificially keep the price high. This bill will now allow the co-ops to then sell, this inferior tobacco to the government (through Commodity Credit Corporation funds). This measure is estimated to cost the government \$510 million and cuts out flute-cured tobacco grown in North Carolina—which means there will likely be a similar fix that doubles the cost to the taxpayer.

After obtaining this left-over to-bacco, the U.S. is not allowed to market this tobacco domestically for fear of displacing the controlled market and we will not be able to unload it on the world market due to restrictions about exporting tobacco and the already high amounts of world production that are much cheaper than this U.S. price-inflated tobacco—especially since this is the inferior "left-over" tobacco.

To make matters worse, this language prevents this government action from affecting the quota limits for tobacco growing. This means that once the oversupply is wiped out by selling excess tobacco to the government, tobacco quotas will increase and allow for the growing of more tobacco—which will lead to the need for another bailout next year.

For no other commodity do we have a situation like this: the U.S. government actively encourages a reduction in the use of tobacco, particularly by children—and now the same government is going to subsidize and encourage expanded tobacco production. This is one of the worst market-distorting abuses I've ever seen—at a time when we have repeatedly told farmers of most other commodities to turn toward the market and adjust to the new world economy.

Unfortunately, the Senate does not have the opportunity to vote on these measures—we are forced to vote for these offensive programs because they are tied to an agriculture appropriations bill which is so important to our Nation—which provides a measure of unilateral sanctions reform many of us in this body have fought for—for years. This is no mistake—the numerous faulty measures contained in this bill were added at the last minute in conference—precisely because they would never pass on their own, nor should they.

It is truly a disappointment that the conference report to such an important bill contains the very means to undermine the market reforms this Congress has pushed for, because of the interests of a few.

This bill is a very important one—and just as the conference predicted, it is too important for me to vote against—but I fell compelled to express my frustration, and my disappointment in this process—and the hypocrisy it creates.

Mr. McConnell. Mr. President, I want to express my support for the FY 2001 Agriculture Appropriations bill and offer my support for the prescription drug reimportation provisions included in this conference report. While I do not believe the provisions are perfect and I continue to have grave concerns about the so-called "non-discrimination" language, I believe this final product represents a good faith compromise which will meet the needs of the American people.

However, I would like to emphasize that my support for reimportation was and remains contingent upon the legislation specifically ensuring that any prescription drug reimported from another country meets all of the United States' safety standards. In other words, our citizens must remain confident that their prescriptions will be filled with products that are safe and effective. In particular, I am pleased

that under these provisions, FDA must issue regulations requiring that reimported products be FDA-approved drugs that meet all of the conditions of the New Drug Application, or NDA. It is especially important to maintain our gold standard of drug quality, that all such products comply fully with what FDA calls the "chemistry, manufacturing, and controls" portions of the NDA. Compliance with these requirements assures that the drugs not only have the necessary ingredients but also have been manufactured according to the same specifications as the domestic drug product, and the same high-quality process.

I respectfully ask unanimous consent that several letters outlining concerns similar to mine be printed in the RECORD.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

HOUSE OF REPRESENTATIVES,
COMMITTEE ON COMMERCE,
Washington, DC, September 28, 2000.

Dr. David A. Kessler, Dean, Yale University School of Medicine, New Haven, CT.

DEAR DR. KESSLER: On June 29, 1999, you were kind enough to write me regarding the dangers of weakening provisions of the Prescription Drug Marketing Act (PDMA). I am now in receipt of your recent letter to Senator Dorgan, which is supportive of significant changes to PDMA. I continue to see real risk in making those changes, so I would appreciate your insight as to how safety can be assured.

Your June letter cited my multi-year subcommittee investigation of re-imported prescription drugs which demonstrated that adulterated, misbranded, and counterfeit drugs were entering the U.S. market, posing as American-made. You noted that the problems found in our investigation were addressed by PDMA provisions designed to prevent the "introduction into U.S. Commerce of prescription drugs that were improperly stored, handled, and shipped" and to reduce 'opportunities for importation of counterfeit and unapproved prescription drugs."
Your letter went on to state, "In my view, the dangers of allowing re-importation of prescription drugs may be even greater today than they were in 1986. . . . I know of no changed circumstances that require either a shift in FDA policy or the passage of legislation to repeal PDMA's prohibition on re-importing drugs. Furthermore, I believe that such a repeal of change in policy would re-create the substantial public health risks PDMA was designed to eliminate."

Your September letter now says, "if FDA is given the resources necessary to ensure that imported, FDA-approved prescription drugs are the authentic product, made in an FDA-approved manufacturing facility, [you] believe the importation of these products could be done without causing a greater health risk to American consumers that currently [exists]." Unfortunately, much of your confidence seems to not only be dependent on whether FDA will in fact receive those additional resources, but also whether FDA can in reality undertake the very tasks that were not being done before the PDMA was signed into law.

While FDA has indeed argued that it will need substantial additional resources to un-

dertake this monumental new task, I am not convinced it has done a thorough analysis of what this undertaking will actually cost. For example, while FDA has provided the Committee with a cursory three-page document on expected budgetary needs (approximately \$23 million for the initial ramp-up years, and approximately \$90 million for succeeding years), I remain concerned at the lack of specificity in FDA's effort. When asked by Committee staff for the actual work papers supporting the assumptions made in this document, staff was told that no such supporting documents even exist.

Moreover, certain FDA assumptions reveal other concerns. For example, on page two of its document, FDA mentions that, "[g]iven the expectation that criminal activity will increase with implementation [of the proposed plan], it is expected that investigations and other supporting laboratory work would increase." FDA clearly recognizes that additional criminal elements will attempt to undermine the very "medical armamentarium" you refer to in your letter.

In short, Dr. Kessler, the caveats in your letter raise several questions on which I would appreciate your help:

(1) A June 8, 2000, hearing by the Subcommittee on Oversight and Investigations of the Committee on Commerce revealed that FDA is now substantially behind in their inspections of foreign firms that ship drug products into the U.S., and that much of this lag can be attributed to the same resource constraints that plagued your tenure at FDA. You point out that the success of the proposed legislation hinges directly on whether FDA is properly funded. Did the FDA adequately fund foreign inspections during your tenure as Commissioner? Do you believe FDA will actually receive the full amount necessary to competently address the burdensome new tasks imposed by this legislation, particularly given that FDA is already not afforded enough resources to presently oversee the production, movement, and final delivery of drug products now sent to the U.S. from foreign sources? What might happen if sufficient resources are not available?

(2) On a recent trip to China to investigate issues relating to both FDA foreign inspections and pharmaceutical counterfeiting, committee staff were told by several security officials that counterfeit material is often mixed into shipments of legitimate products, as an additional tactic to elude regulators. Thus, rather than entire shipments being counterfeit, in some cases, only a part of a total shipment may be illegitimate. Would batch testing which is what the proposed legislation envisions as the primary test to determine authenticity, be a reliable method for protecting the U.S. consumers from potentially rogue and dangerous counterfeit drugs? If a batch test were only to test the legitimate product. how, under this legislation, will a portion of counterfeit material be detected? Is there a methodology for doing this? Finally, FDA has long argued that quality assurance can-not be "tested" into a system (hence, the purpose behind the current foreign inspection program), which is why they have rejected batch testing as a final test for finished product and bulk materials sent to the U.S. Do you believe that batch testing will suitably meet the same stringent safety requirements long relied upon by the agency?

(3) As you are aware, the PDMA, and the implementing regulations established standards for storage and handling of medicines as they move from a manufacturer to a retail

pharmacy. These provisions were enacted because pharmaceuticals are very sensitive to various environmental factors, and drugs are thus packaged under controlled conditions. Storage of pharmaceuticals under extreme environments, as you know, can lead to premature deterioration of the drug. As the testing requirements for product degradation called for in the Jeffords amendment will provide information on drug potency at the point a test is conducted (and not across the shelf life of the drug), there is no guarantee that a product imported from another country will arrive with roughly the same shelf life as envisioned by the manufacturer. If drug products have been subjected to temperature extremes while being shipped or stored, or are improperly repackaged, the medicines could not be guaranteed to meet its specifications up to the expiration date. On the recent trip to China, committee staff was told by a security official that he has seen one batch of drug product literally circle the globe several times, over the course of more than a year, including being stored in temperatures in excess of 40 degrees centigrade, before ultimately being bought by an importer. Imported drugs will require repackaging and relabeling (so that the imported product conforms with an FDA-approved and required dosage form, packaging, and product labeling for the American market), so there is a very real chance that an American patient will unknowingly receive pharmaceuticals that are not fully efficacious because of premature loss of potency. Do you agree with this assessment? Specifically, how can these very real and potentially dangerous possibilities be dealt with in this legislation or its implementation, so that we can ensure that the health and wellbeing of American patients is not compromised?

(4) As you know, in the United States, pharmaceutical recalls are initiated by manufacturers because a manufacturer can quickly and efficiently, through its wholesale distribution system, located products. In the case of imported drug products under the proposed amendments, a manufacturer may not have a systematic way of knowing where a drug originated, or even if a product has been transshipped to multiple countries before entering the United States. The Jeffords amendment allows not only for a drug to be shipped through multiple foreign locations, but also for a drug to be transferred among any number of intermediaries. Because of the likelihood of repackaging, it is not even certain that the product will be labeled with the original manufacturers lot number. How can a manufacturer's recall be administered efficiently and effectively under these new conditions?

I appreciate your attention to this matter. In light of the major public health implications associated with loosening reimportation restrictions, I daresay that we will be corresponding well into the future on these issues.

Sincerely,

 $\begin{array}{c} \hbox{\tt JOHN D. DINGELL,} \\ Ranking\ Member. \end{array}$ 

SEPTEMBER 20, 2000.

Hon. Joe Skeen,

Chairman, Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies, Committee on Appropriations, Washington, DC.

DEAR JOE: As you know, the House adopted two amendments to the Agriculture Appropriations bill relating to the reimportation and importation of pharmaceutical products

from abroad. I voted against both these amendments and remain concerned about the potential impact of these proposals on the health and safety of American consumers and the future integrity of the U.S. drug sup-

ply.
While the House amendments were character for the personal terized as simply providing for the personal importation of pharmaceuticals for personal use, they actually go beyond this to reverse longstanding policy in this regard. In my view, such an important change with implications for American consumers should not be implemented through the appropriations process. Such changes warrant careful thought and deliberation through the reg-

ular legislative process.

I recall the congressional investigation in the mid-1980's that led to the enactment of the Prescription Drug Marketing Act and current ban on pharmaceutical reimportation. At the time, there was considerable evidence of both the counterfeiting and diversion of pharmaceutical products outside the United States. I do not believe that the situation has changed. In fact, it may have become worse with the advent of Internet purchases. I agree that seniors need help paying for their prescription drugs, and voted for our plan to do that. But now is not the time to weaken the rules that have protected American patients for more than a decade.

I urge you to address these concerns by dropping these provisions from the Agriculture Appropriations bill in conference.

With best personal regards,

Sincerely,

BILL ARCHER.

Mr. HATCH. Mr. President, I appreciate the many long hours of work by my colleagues on the Agriculture Appropriations Subcommittee to develop this legislation. I admire the efforts of my friend and colleague, Senator Coch-RAN. I believe we all owe him our gratitude for his leadership on behalf of our nation's agriculture industry, including its small family farmers and ranchers. I am well aware that putting these bills together is never easy and seems recently to be an almost thankless task.

There is much in this bill worthy of enthusiastic support. I am particularly pleased that the conferees have included a number of provisions that will benefit farmers and ranchers in the West.

For example, the entire West will benefit from pasture and forage research that is funded by this bill. The information we obtain from this Utah State University program not only makes our livestock producers more efficient, but also contributes significantly to the health of our pasture lands in the West.

Another important contribution to research in the conference report is the funding for Utah State's Poisonous Plant Laboratory. The effort to fight noxious weeds in the U.S. will receive a significant boost as this important facility is finally upgraded. Some people chuckle when they see a program to fight noxious weeds. But, I can assure my colleagues that this is no joke. If you have ever seen a crop overrun with these weeds, you would know that we

need to continue our research efforts to come up with safe and effective means to fight them.

The environment also benefits by this bill's continued funding for the Colorado River Basin Salinity Control Program. This is particularly important to farmers within the vast Colorado River Basin, who must shoulder much of the burden for minimizing agricultural runoff into the Colorado River. The Salinity Control program is good for farmers, good for the environment, and good for the fish species in the river.

Also important to Utah agriculture, Mr. President, is the funding this bill provides to compensate farmers for losses due to the infestation of grasshoppers and Mormon crickets. For the last couple of years, farmers in Utah and other Western states have faced one of the largest infestations on record. I am very pleased that Congress has seen fit to provide these farmers with relief. You wouldn't think that these little insects could do so much damage, but they do. This funding is important to those in my state who have suffered terrible losses.

Finally, Mr. President, I have often reminded my colleagues that Utah is the second driest state in the Union. Utah's farmers understand better than most that water equals life. For that reason, I am pleased that this bill will help to protect the Long Park Reservoir by providing technical and financial assistance to shoring up this important source of water.

Mr. President, these are just a few of the programs funded by the conference report that will benefit Utah's farmers.

I am also proud to say that I worked with Senator Cochran and Senator DURBIN to increase the amount of funds available in FDA's Office of Generic Drugs. When generic drug applications languish at FDA, it is the public that loses, and these additional resources will be a needed shot in the arm. They will enable the FDA to process these applications more quickly and get generic drugs to consumers faster.

This is a momentous piece of legislation, which is why I think it is unfortunate that it is being made a vehicle for an unrelated proposal that is poor policy and that would undoubtedly have been the subject of considerable debate should it have come to the floor as a free-standing bill.

Mr. President, I must register my severe reservations about the drug importation provisions that have been inserted in the Agriculture appropriations conference report.

I commend Senator Cochran for his attempts to improve some of the more egregious features of the controversial pharmaceutical importation provisions that have been slipped into this appropriations bill. But, these mitigation measures do not go far enough to correct what I consider the proposal's principal flaw.

My first and foremost concern about this proposal is patient safety.

I have been around here long enough to gauge momentum and count the votes. I know that the reimportation provisions have been wedged in a mustpass, year-end appropriations bill—one that forces me to choose between supporting a bill that does much to help Utahans and opposing a bill that contains one bad, albeit popular, idea.

But before we adopt this reimportation measure, which has not been the subject of a committee mark-up in either the Senate or House, let's at least stop for a moment and think about the type of risk we are placing upon the

American people.

Although I do not see eye-to-eye with Congressman John Dingell on every, maybe even most, issues, I always respect his views. And, I recognize his many impressive efforts when he chaired the Oversight and Investigations Subcommittee of the House Commerce Committee. In fact, it was the Dingell Oversight and Investigation Subcommittee's investigation into the foreign drug market that led to the enactment of the 1988 Prescription Drug Marketing Act. I was proud to help shepherd this legislation through the Senate.

The good news is that the PDMA law helps prevent pharmaceuticals that are mislabeled, misbranded, improperly stored or shipped, beyond their shelf life, or even bald counterfeits from entering the United States from abroad.

The bad news is that the legislation we are being asked to adopt today will unravel essential elements of the PDMA, which currently controls importation of pharmaceutical products into the United States.

As the committee report accompanying the PDMA stated:

(Re)imported pharmaceuticals threaten the public health in two ways. First, foreign counterfeits, falsely described as reimported U.S. produced drugs, have entered the distribution system. Second, proper storage and handling of legitimate pharmaceuticals cannot be guaranteed by the U.S. law once the drugs have left the boundaries of the United

Congressman DINGELL has also commented on the pending legislation. I am sad to say that this assessment may turn out to be prophetic. As my Democratic friend, Representative DIN-GELL, succinctly summarized the situation: "Make no mistake. This reckless legislation never went through the committees with expertise or experience in these matters. It is going to lead to needless injuries and death.

As chairman of the Judiciary Committee which has jurisdiction over counterfeiting, I am concerned that our members have not had an opportunity to make a careful study, in collaboration with the Drug Enforcement Administration, of the potential for this language to increase the flow of counterfeit drugs. The World Health

Organization has issued several reports that have detailed the international scope of the counterfeit pharmaceuticals problem.

Some might question how Congress could enact legislation that could endanger the health and safety of the American people. As I have argued previously on the floor of the Senate, even the best of intentions in trying to lower drug prices surely can't be adequate justification for sacrificing patient safety.

I recommend a critical reading of the transcript the October 3, 2000, House Commerce Committee Oversight and Investigations Subcommittee hearing on the important issue. I think a fair appraisal of this transcript warrants a conclusion that FDA already has its hands full in the policing the relatively limited area of PDMA-permissible imports.

Based on what we learned at the October 3 hearing, if Congress adopts, and the President signs into law, these new, greatly liberalized reimportation rules, it is difficult to see how the Secretary of Health and Human Services or the Commissioner of Food and Drugs will be able to handle the tremendous responsibilities imposed upon them in this provision.

One of the points that came out of the hearing during the testimony of the Commissioner of Food and Drugs, Dr. Jane Henney, is that there are at least 242 manufacturers spread across some 36 countries that appeared to have exported drug products to the United States but that did not have a current FDA inspection. This is like playing Russian roulette with the public health.

At this same hearing, the Commissioner of Customs, Mr. Raymond Kelly, testified that there are some 301 ports of entry that must be watched by the Customs Service. And keep in mind that this is the situation under the current statutory framework where it is difficult to import drugs into the U.S. Imagine the catastrophic possibilities if we adopt a law that loosens the reigns on importation of drug products into the United States.

The House hearing brought out the fact that it is not only manufacturing plants we need to worry about, but also repackaging facilities and bulk drug facilities as well as the various warehousers and transporters of drug products. We must be concerned about how we can guarantee strict adherence with the general good manufacturing practices in overseas facilities that we have come to expect in the United States. These guidelines provide assurance as to the purity of pharmaceutical products.

Basically the bill says, in effect, don't worry, the FDA will issue regulations that will solve all these problems.

Maybe so. But if it was so easy for FDA to regulate these problems right

out of existence then why are 10 former FDA Commissioners against this bill? I fear that in practice the drafting of these regulations will prove to be an extremely time-consuming and complex endeavor.

And even if the regulations are promptly drafted, what assurance and expectation do we have that all of these foreign establishments will be respectful of the regulations of the United States Food and Drug Administration?

If you don't believe me, get a copy of the transcript of the October 3 hearing and read about what House Commerce Committee and FDA staff found in a recent trip to Chinese and Indian drug manufacturing facilities. Not only did this investigation help uncover that some 46 Chinese firms and 11 Indian firms were exporting apparently misbranded drugs to the United States, there also appeared to be wholesale theft of U.S. intellectual property related to drug products.

Yet instead of tightening the controls we have in place, we are unwisely, in the name of attempting to cut high drug costs, loosening them. Let me say it once again, it is no wonder why ten former FDA Commissioners have come out against these drug importation measures. In enacting this reimportation measure, we will have put in place a ticking time bomb on the public health front as well as creating a regulatory climate that can only encourage an assault on American intellectual property.

While the public health shortcomings of the bill are chief among my concerns, as chairman of the Senate Judiciary Committee, I do want to raise some troubling aspects of the reimportation provisions as they relate to intellectual property.

In my view, it would have been preferable for the Judiciary Committees of both the House and Senate to have had an opportunity to carefully study the rapidly evolving language that was inserted into this appropriations bill.

I share the legitimate concerns of all Members of Congress about the difficulties the many Americans, particularly our senior citizens, have in gaining access to affordable drugs.

In fact, one of my chief concerns about the reimportation measure—public safety, intellectual property, and trade policy concerns aside—is whether consumers will get any substantial benefit when a new phalanx of middlemen get their piece of the action for bringing these drugs into the United States. I am not convinced that consumers will get much in the way of savings. And, what little benefit they get will come at what cost?

I believe that the industry must give the American public and the Congress a better explanation to account for the discrepancies in some drug prices in the United States and in other countries. And, I call upon the industry to ensure that Americans are paying fair prices for pharmaceuticals and that citizens in other nations are also paying their fair share and not merely free riding on the substantial U.S. investment in biomedical research.

We must be especially wary of price control regimes in other countries that may set prices at levels inadequate to reflect their citizens' fair share of the R&D costs. We must recognize, however, that what is a fair and affordable price in the United States may not be affordable in many developing nations. The differences in GDP of the developed and developing world have many dimensions, mostly negative.

We must be mindful of the important fact that virtually every nation in the world has made a commitment, helped along by the leadership of the U.S., to attempt to create that rising tide that lifts all boats by adopting the GATT Treaty, which specifies the rules of international trade. The GATT TRIPS provisions consist of critical new legal protections for the intellectual property. It is intellectual property that undergirds the creation of so many new products, including pharmaceuticals.

In our understandable short-term desire to help the developing world fight back against such infectious disease menaces as HIV, TB, and malaria, we must avoid acting, however unintentionally, to undermine the long-term interest in protecting the intellectual property rights of American inventors.

That goes for our goals to develop new drug therapies benefiting Americans as well. For our own national interest, as well as the interests of our trading partners, particularly developing nations, we must use our influence to build respect for and protect the inventive energies citizens worldwide.

I do not believe the reimportation provisions in this conference report advance the cause of intellectual property protection and, in fact, may have an unintended but unmistakable effect of retarding future drug development.

Mr. President, I ask unanimous consent to include in the RECORD at this point two letters that I wrote, one to Senator LOTT and Speaker HASTERT and one to Senators COCHRAN and KOHL, to object to both the process and substance of these provisions. In addition, House Judiciary Chairman HENRY HYDE expressed similar concerns. I ask consent that his letter also be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered,

(See Exhibit 1.)

Mr. HATCH. As this correspondence indicates, I am particularly concerned by the so-called non-discrimination clause that suddenly materialized, almost out of the vapors, and was added to the conference report at the last moment.

I would also note for the record that, prior to learning that such language was under development, I contacted Chairman Cochran and the majority leadership with a request that a rule of construction be added to these ill-advised importation provisions to the effect that the language be neutral with respect to intellectual property rights.

Imagine my surprise and disappointment to find that not only was my modest proposal, which was consistent with every version of the bill that passed both the House and the Senate up to that point, not adopted, but, instead, all too discriminatory "non-discrimination clause" incorporated in its place.

This provision states: "No manufacturer of covered products may enter into a contract or agreement that includes a provision to prevent the sale or distribution of covered products imported pursuant to subsection (a)." Make no mistake that this clause appears to take direct aim on some of the most traditional of American commercial rights such as freedom to contract and the freedom to license patent rights.

In the United States, manufacturers have great leeway in selling their goods. For example, in its 1919 decision, United States v. Colgate & Co., the Supreme Court noted it is a "long recognized right of [a] trader or manufacturer to exercise his own independent discretion as to parties with whom he will deal." Moreover, this right is particularly strong when the seller holds patent rights which are derived directly from Article I of the Constitution.

As the language is scrutinized, I hear more and more questions being raised about the potential conflict of these provisions with current law.

Mr. President, in some respects, this non-discrimination clause is a major assault on intellectual property rights. It hardly sends a strong signal to our knowledge-based industries that form the backbone of the new high-technology economy.

I serve on the Finance Committee where we had jurisdiction over trade matters. While at the point I have reached no final answers or conclusions about how the non-discrimination clause comports with the TRIPS provisions, I can tell you that I have a lot of questions. And I can tell you that we would be better off if, before we adopt this language, we took the time to work through some of the tough questions that this highly controversial clause raises with, for example, Article 28 of TRIPS. Neither the Finance Committee nor the Ways and Means Committee will have a meaningful opportunity to examine the trade implication of this language.

I can only hope that this language does not result in the importation of sub-standard and unsafe drugs along with a back door system of price controls. Wisely, this body has always resisted direct government price controls on high-technology products like pharmaceuticals. We stand today as the world's leader in pharmaceutical innovation. Let's hope that this bill does not undermine this achievement.

Let me emphasize, Mr. President, that we need to work together to make drugs more affordable for the American public—all of those in Congress with expertise in the policy areas that contribute to addressing this issue should be collaborating on a solution to high drug prices. This is not a simple matter, and a solution that looks simple and obvious could easily prove disastrous to both consumers and the research enterprise.

We must tackle this issue in a manner that doesn't threaten public safety, undermine the incentives for developing new intellectual property, and otherwise adversely affects U.S. trade interests. Frankly, I am concerned that these reimportation provisions, however well-intentioned, will not be able to met these tests.

I will support this conference report, even though I have very serious concerns about the provisions on pharmaceutical reimportation. I hope to work with my colleagues on all the relevant committees in the House and Senate on these many issues concerning pharmaceuticals and their importation into our country.

#### Ехнівіт 1

U.S. SENATE, COMMITTEE ON THE JUDICIARY, Washington, DC, October 4, 2000.

Hon. Trent Lott,
Majority Leader of the Senate,
Washington, DC.
Hon. Thad Coghran,
Chairman, Subcommittee on Agriculture,
Committee on Appropriations, Washington, DC.
Hon. Dennis Hastert,
Speaker of the House of Representatives,
Washington, DC.

Hon. Joe Skeen, Chairman, Subcommittee on Agriculture, Committee on Appropriations, Washington. DC.

DEAR TRENT, DENNY, THAD, and JOE: This is to register my strong objection to the so-"non-discrimination" called amendment that Representative Henry Waxman and others are trying to insert into the pharmaceutical importation provisions in the Agriculture Appropriations Conference Report. This language would affect both intellectual property and contract rights and raises constitutional questions. As Chairman of the Senate Judiciary Committee, I believe it is imperative that you reject these ill-advised, eleventh hour provisions that relate to critical intellectual property rights that have not been considered by either the House or the Senate Judiciary Committees.

Although styled as a "non-discrimination" provision, this language is a thinly disguised attack on intellectual property protection in the United States that conflicts with long-standing U.S. policy, would set a dangerous precedent for all U.S. businesses, and would undermine bipartisan U.S. trade and intelectual property negotiating objectives abroad. Proponents of this language would

deny pharmaceutical manufacturers their freedom in private contracting, and appears to compel them to sell unlimited quantities of their prescription medicines to foreign buyers, including unknown foreign entities lacking any interest in the safety and health of American patients who rely on the safety and effectiveness of prescription medicines. This proposal has not been the subject of a single hearing, let alone a committee markup, and is unquestionably within the jurisdiction of the House or Senate Judiciary Committees, neither of which has been consulted on this controversial measure. I urge you to reject it.

My responsibilities as Chairman of the Senate Judiciary Committee require me to oppose this sneak attack on intellectual property protection and U.S. leadership in innovation benefiting consumers. My responsibilities to my Utah constituents and the American people generally impel me further to object to the adoption of the prescription drug import proposal on safety grounds. I am greatly disturbed to learn that Conferees are apparently considering lowering the traditional gold-standard of "safety and efficacy" to a new, untested, and disturbingly ambiguous standard of "reasonable assurance" safety and efficacy. The Senate passed the Cochran-Kohl amendment 96-0 precisely to seek to ensure that risks to American patients are not increased through re-importation of prescription medicines.

In direct contradiction to these efforts, the "non-discrimination" measure clearly and unacceptably increases such risks. This measure would place domestic medicine supplies in jeopardy by forcing our manufacturers to sell unlimited quantities abroad. It also would prevent them from exercising sound business judgment about to whom to sell, forcing them to sell drug products to anvone—even unscrupulous shady dealers. In conjunction with a price control system of a foreign nation, this "non-discrimination" regime is tantamount to a compulsory licensing system that can only undermine the incentives required for the private sector to make the necessary substantial investment to invent new medicines. In order to protect the safety and health of American patients, advance our Nation's trade policy, and promote the development of the next generation of medicines, this proposal must be rejected.

ORRIN G. HATCH, Chairman.

U.S. SENATE,
COMMITTEE ON THE JUDICIARY,
Washington, DC, October 4, 2000.
Hon. TRENT LOTT,

Majority Leader of the Senate,

Washington, DC.

DEAR MR. LEADER: I understand that the situation on the drug import provisions in the Agriculture Appropriations bill is fluid and that now there is language being proposed that modifies the House proposed text that I have previously criticized. Unfortunately, I must register my objection to this new language as well.

It is my understanding that the new language states: "No manufacturer of a covered product may enter into a contract or agreement that includes a provision to prevent the sale or distribution of covered products." How can this restrictive provision square with such basic American concepts of private property and freedom to contract? It seems to me that Congress, like the courts, should not get into the business of rewriting contracts.

In my view this new "compromise" provision does not escape the fundamental problems presented by the earlier House language because a flat prohibition on the ability of a manufacturer to limit the future sale or distribution of pharmaceutical products flies in the face of current law and policy. I must report to you that as this language circulates among the bar, reputable attorneys are concluding that it presents serious constitu-tional issues. As Chairman of the Judiciary Committee. I believe it wise for our committee to consider this issue before such language is enacted. Given the fact that the import provisions will not go into effect until the FDA issues a complex set of safety testing regulations, I see no need why the Congress must rush in the last few days of the session to include this new provision. I know that my House counterpart. Chairman Henry Hyde, has raised similar objections with Speaker Hastert.

So I must once again add to my concerns about the potential negative public health aspects of the pharmaceutical import amendments, a separate objection concerning the erosion of intellectual property and contract rights. I urge you to oppose these measures until these issues can be carefully reviewed and debated.

Sincerely,

ORRIN G. HATCH, Chairman.

House of Representatives, COMMITTEE ON THE JUDICIARY, Washington, DC, October 4, 2000. Hon. J. Dennis Hastert,

Speaker, House of Representatives,

Washington, DC. DEAR MR. SPEAKER: As Chairman of the

House Judiciary Committee, I urge you to reject intellectual property provisions, disguised as a "non-discrimination" requirement, advocated by Mr. Waxman for inclusion in the drug re-importation measures in the Agriculture appropriations bill or in other legislation. The Waxman gambit is an anti-business, anti-intellectual property effort to force pharmaceutical patent owners to give up their patent rights with respect to re-importation into the U.S. of their patented product, by denying their freedom in contracting. Mr. Waxman further wants to compel drug manufacturers to sell unlimited quantities of their prescription medicines to foreign buyers, including unknown, fly-bynight operations that are unlikely to be held accountable for patient health and safety. This proposal has not been the subject of a single hearing and falls squarely within the jurisdiction of the House Judiciary Committee, whose members have not been consulted on this.

Beyond the serious jurisdictional issue and erosion of intellectual property rights, I further object to the Waxman proposal because it clearly increases risks to the health and safety of American patients. This measure would place domestic medicine supplies in jeopardy by forcing manufacturers to sell unlimited quantities abroad. It also would prevent them from exercising sound business judgment about to whom to sell, forcing them to sell to unscrupulous shady dealers and fast-buck artists abroad. For these reasons, I urge you to reject these measures.

Sincerely.

HENRY J. HYDE. Chairman.

Mr. ASHCROFT. Mr. President, I rise to express my strong support for the Agriculture Appropriations Conference Report, which we will vote on today. funding (and more than \$3.5 billion in emergency assistance for farmers). And it contains important initiatives I have been pushing—doubling the payment limit for LDPs (from \$75,000 to \$150,000) and lifting embargoes on food and medicine

I extend my sincere gratitude to the Chairman of the Agriculture Appropriations Committee, my friend from Mississippi, who has crafted a bill that gives America's farmers the assistance they need in the short term—and keeps a promise we made to open more markets in which to sell their products overseas.

This bill culminates an almost 2-year effort on my part to open overseas markets to American farmers by ending U.S. food and medicine embargoes. We talk a lot about foreign trade barriers, and rightly so. We must continue to be vigilant to remove those barriers, such as the EU ban on U.S. beef. However, it is hypocritical of the U.S. government to target foreign barriers without removing our own barriers. That's exactly what food embargoes are—U.S. barriers against U.S. farmers. A policy shift in this area is long overdue, and I am pleased that this Conference Report reflects that shift. While the final product before us is not perfect, it does change substantially U.S. policy on embargoes of agriculture and medicine.

We know that sanctions hurt farmers. The currently-embargoed market for our food products is estimated by some at about \$6 billion. Cuba alone could purchase about \$1.6 billion worth of food and medicine each year. Jim Guest, the President of the Missouri Pork Producers said: "With 11 million people who enjoy pork, Cuba will become an important U.S. pork export market. In 1998, the last year for which statistics are available, Cuba imported about 10,000 metric tons of pork from Canada, Mexico and the European Union.'

This sanctions reform proposal covers more countries than just Cuba. There are four other countries affected by this legislation that could present substantial opportunities for U.S. producers of wheat, soybeans, beef, corn,

Furthermore, this provision reforms sanctions policy for the future. The President will not be able to impose new sanctions without Congressional involvement.

Food embargo reform can be summed up as a big "win": a win to the U.S. economy, a win for U.S. jobs, a win in foreign policy, and a win for those hungry and hurting in foreign countries.

My goal that I set out to reach years ago—giving the U.S. the opportunity to export more food and medicine—has been achieved in the bill we are voting on today. The Food and Medicine for the World Act, which I introduced in

This bill contains over \$78 billion in 1999, and which is the basis for the agreement in this Ag. Approps. Conference Report, separates out food and medicine from all other products when it comes to sanctions policy.

Current embargos against culture and medicine will be lifted, and there will be no embargoes in the future unless the President first receives Congressional approval. This proposal of mine has remained in place throughout the Senate and House negotiations. It is the underlying basis for real sanctions reform because it does not focus on any one country. Instead, it is a new framework for U.S. policy in general. The differences between my original proposal and this final agreement are merely details on HOW the exports of food and medicine will be facilitated. We made progress in some areas, and in others, we must monitor the effectiveness toward reaching our goal.

Let me explain briefly those differences. On the issue of how the exports will be allowed, there are two things I would like to cover—licensing and financing.

On licensing—we have gone much further than the Administration plan put in place last year, which has two substantial limitations. First, the Administration plan requires case-by-case licensing, whereas, the language before us in the Conference Report ensures that a least restrictive licensing system is set up—to cover a 2 year span instead of being case-by-case. Second. current U.S. policy requires tight restrictions on the end recipient of the food (those to whom we could sell our farm products). However, the bill we are voting on today allows exporters to sell to countries broadly, whoever wants to buy their products.

On financing—all sales to these countries can be freely financed by U.S. banks, but the House added a restriction that will prohibit U.S. banks from being the primary financial institution in any sales to Cuba. U.S. banks will be able to facilitate transactions, but they won't be allowed to assume the risk of the Cuban buyers. While this policy is not my preference, I will point out that it is not a step backward. It simply keeps in place the current restrictions that exist in U.S. law.

One final note on financing, particu-U.S. government financing larly under the bill before us, U.S. government credits will be available to help finance exports of agricultural products if the President determines that it is in the humanitarian or national security interest to extend the credits.

All along. I have been committed to real sanctions reform in a final billand that is what we have accomplished. As with any major reform of U.S. policy, our proposal may not be perfect, but we can address any roadblocks that arise when they are brought to our attention by the farming community and humanitarian organizations.

I welcome the recognition by a sizable majority of Congress that the time has come to reform this nation's obsolete and hurtful policy that allows using food and medicine in embargoes. And I look forward to sending this embargo reform bill to the President's desk so America's farmers are given increased freedom to market.

Mr. President, I would like to insert in the RECORD a letter addressed to me from Charlie Kruse, the President of the Missouri Farm Bureau. Also, I would like to insert a statement from the Missouri Pork Producers. Finally, I would like to insert a letter signed by 15 agriculture organizations supporting this sanctions reform proposal and the Conference Report. Let me just say that this effort—reforming our nation's policy on food embargoes—has been a cooperative effort. The farm organizations that have signed these letters have shown tremendous leadership in getting us where we are today. I extend my sincere appreciation for their support throughout this entire process.

I would like to address one final point, Mr. President, with regard to the intent of those that have drafted this sanctions reform proposal. Senator HAGEL and I, as the drafters of the underlying sanctions reform bill, are submitting a statement of intent on how this proposal should be implemented by the Administration. I ask for unanimous consent that it be printed in the RECORD following my statement.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TRADE SANCTIONS REFORM AND EXPORT ENHANCEMENT ACT—INTENT OF SENATE SPONSORS

#### BRIEF PROCEDURAL HISTORY

A reduction in the amount of agricultural exports and a decline in commodity prices have led to renewed efforts by farm groups and agribusiness firms to win a change in U.S. sanctions policy. While there has been some easing of these sanctions through executive order, agricultural exporters have sought legislation to exempt their products from embargoes to ensure that any positive changes in policies are not reversed based on changing events or a change of Administration.

Title IX of the Fiscal Year 2001 Agriculture Appropriations Conference Report, the "Trade Sanctions Reform and Export Enhancement Act," contains sanctions reform for agricultural products, medicine, and medical devices.

The language in this act can be traced back to the "Food and Medicine for the World Act," (originally, S. 425 and S. 1771, both introduced in 1999). The text of the "Food and Medicine for the World Act" was offered as an amendment to the FY2000 Agriculture Appropriations Bill (S. 1233), on August 4, 1999, by Senator Ashcroft and Sen-Hagel, Baucus, Kerrey, Dodd, ators Brownback and 15 other cosponsors. The Senate defeated a motion to table, 70 to 28, and the amendment, after modifications, was accepted by voice vote. There was not a comparable provision in the House appropriations bill, and ultimately the embargo provisions were deleted from the conference

agreement, at the request of House leadership.

In March 2000, the Senate Foreign Relations Committee held a marked up of S. 1771, the "Food and Medicine for the World Act." During the mark up, the title was changed to the current title, "Trade Sanctions Reform and Export Enhancement Act."

The provision, as marked up by the Senate Foreign Relations Committee, was then offered as an amendment to the FY2001 Agriculture Appropriations Bills (H.R. 4461; S. 2536) in both the Senate and House during Appropriations Committee markups. When the Senate passed S. 2536, the FY01 Agriculture Appropriations bill on July 20, 2000, it contained the sanctions exemption language that had been inserted during committee consideration. The House language was accepted in the House Agriculture Appropriations Subcommittee, but later deleted on the House floor on July 11, 2000, as a result of a point of order that the amendment was an instance of legislating on a spending bill.

A compromise reached between amendment supporters and opponents regarding the application of the exemption to Cuba served as the House leadership's position in conference, and was eventually accepted by House and Senate Republicans. The language of S. 1771 that lifts sanctions and restricts the future use of sanctions was maintained. However, the language on licensing and credits was altered (see explanation below). Furthermore, the House leadership added language regarding travel to Cuba that has the effect of codifying the current regulations that restrict travel.

#### PURPOSE

The overall purpose of this title is clear: to eliminate unilateral food and medicine sanctions and to establish new procedures for the future consideration of such sanctions. In drafting this provision, the intent of the authors is to expand export opportunities for United States agricultural and medical products beyond that currently provided for in law and regulations. As the original sponsors of this provision, we would like to outline briefly what we believe the intent of this provision to be, in order to ensure that agencies that will implement this legislation fully appreciate the expectations of the sponsors. We expect that regulations to implement this provision will promptly liberalize the current administrative procedures for the export of agriculture and medicine. A section by section explanation follows:

#### SECTION 901—TITLE

This section contains the title of the Act, the "Trade Sanctions Reform and Export Enhancement Act."

#### SECTION 902—DEFINITIONS

Definitions in the section are broadly drawn to allow maximum benefit to exporters of agricultural commodities and medicine and medical products.

Agriculture Commodities: The drafters used the definition of "agricultural commodities" in the Agricultural Trade Act (7 U.S.C. §5602) because of its inclusiveness. It includes all food commodities, feed, fish, and livestock, as well as fiber. Also, for all of these items, the definition includes "the products thereof." Therefore, it is the drafters intent to cover all value-added products and processed products that include food, feed, fish, livestock, and fiber. In addition, value added products and processed products are covered even if they contain some inputs that are not of U.S. origin. Note: The drafters specifically chose not to use another definition in

U.S. law that requires all of the inputs to these processed foods be of U.S. origin, 7 U.S.C. §1732. For purposes of administering Title IX of this Act, Section 775 of the Conference Report clarifies that the term "agricultural commodity" shall also include fertilizer and organic fertilizer.

Agricultural Program: The intent of the bill is to lift sanctions on commercial sales, as well as sanctions on the use of federal programs that are used to facilitate the export of agricultural products.

Medical Device and Medicine: These terms should be interpreted broadly to mean all products commonly understood to be within these categories, as explicitly recognized by the Federal Food, Drug and Cosmetic Act, and including supplies, such as but not limited to, crutches, bandages, wheelchairs, etc.

#### SECTION 903—RESTRICTION

This section requires the President to terminate all unilateral agricultural and medical sanctions that are in effect as of the date of enactment (though Section 911 provides a 120 day waiting period to allow the implementation of appropriate regulations). Therefore, 120 days after the enactment of the bill, U.S. exporters should be allowed to sell any agricultural commodity, medicine, or medical device without restrictions to all countries, as well as to participate in any activities related to the sale of those products (subject only to the exceptions in Sec. 904, the licensing requirements of Sec. 906, and the applicable credit limitations of Sec. 908).

This section also prohibits the President from imposing any new unilateral agricultural or medical sanctions without the concurrence of Congress in the form of a joint resolution. If the President imposes broad unilateral sanctions in the future that may or may not be a complete embargo, the President must exempt agriculture and medicine from the broad sanctions and treat these products differently. While his powers to declare national emergencies and impose sanctions are maintained as they relate to other U.S. products, that power will no longer apply in relation to the export of agriculture and medical products. The correct procedure under this Act will require Congressional approval unless Sec. 904 is applicable.

#### SECTION 904—EXCEPTIONS

This section provides a number of exceptions to Section 903 to ensure that the Administration, in certain limited instances, has the ability to impose sanctions in certain instances. While seven particular exceptions are provided, they are narrowly drawn in recognition of the conferees' expectation that food and medicine sanctions should only be used in extraordinary circumstances. Further, these exceptions should not be used to impose sanctions permanently as Section 905 makes clear. It is the intent of the drafters that these exceptions be narrow. Therefore, if a question exists as to whether the proposed sanctions might fall under one of the exceptions (for instance whether there are "hostilities"), it is the desire of the drafters that the President comply with Sec. 903 and seek Congressional approval. It is the intent of the drafters that the President not to use these exceptions liberally for to do so would frustrate the purpose of the bill-to ensure that sanctions on agriculture and medicine are used only when it is in the national security interest of the Untied States to do so.

Specifically with regard to paragraph (2), it is the intent of the drafters that this provision cover only dual-use items. This provision should be narrowly interpreted so as to

allow as many exports as possible—keeping in mind that the products being considered for export are humanitarian products that can feed, clothe, and heal people.

SECTION 905—TERMINATION OF SANCTIONS

This section provides for a sunset of any food or medicine sanctions imposed under Section 903, not later than 2 years after the date the sanction becomes effective. Sanctions may be maintained only if the President recommends to Congress a continuation for not more than 2 years, and a joint resolution is enacted in support of this recommendation.

#### SECTION 906—STATE SPONSORS OF INTERNATIONAL TERRORISM

This section requires licenses for the export of agricultural commodities, medicine or medical devices to Cuba and to countries that are state sponsors of international terrorism

These licenses shall be provided for a period of not less that 12 months. However, the sales of products under the license can span 24 months so that the exporter is able to ship products for 12 months after the license has expired as long as the contract was entered into during the initial 12 month period. This provision gives exporters flexibility to ship for 24 months as long as the contracts are entered into during the first 12 months.

The intent of the bill is for the Administration to develop a licensing system that is, to the extent possible, the least restrictive, least burdensome for the exporter. This section does not give the Administration the authority to put in place a case-by-case licensing system. The Administration must put in place a system for agricultural commodities, medicine, and medical devices that is no more restrictive than license exceptions administered by the Department of Commerce or general licenses administered by the Department of Treasury. It is the expectation of the sponsors that a presumption in favor of sales will to exporters, consistent with the purpose of the act—to support enhanced exports.

Consistent with this expectation, it is the understanding of the authors that the Department of Commerce would be the lead agency for all exports under this title.

Furthermore, any licensing of activities related to the sale or export of products covered by this Act should be under a licensing system that is the least restrictive possible. In the case of exports to Cuba, it is the understanding of the drafters that current restrictions on shipping to Cuba will continue to be waived for licensed exports.

Exports to the Government of Syria and the Government of North Korea are excepted from the licensing requirements of this section. While the provision mentions an exception only for sales to the "governments" of these countries, the Senate recognizes this as a drafting error and would encourage the Administration to except sales to the private sector in those countries as well. It would be inconsistent policy to lift licensing requirements to the governments while not lifting them for the private sector buyers in these countries.

This section also requires that procedures be in place to deny exports to any entity within such country that engages in the promotion of international terrorism. This language is intended to give the Administration very narrow discretion in the granting of licenses for exports to specific sub-entities that are directly involved in the promotion of terrorism.

Finally, this section requires quarterly and biennial reports on these licensing activities  ${f x}$ 

to determine the effectiveness of licensing arrangements. The drafters encourage the Administration to work closely with the U.S. private sector to establish licensing procedures and to determine the effectiveness of the procedures.

#### SECTION 907—CONGRESSIONAL PROCEDURES

This section requires that a report submitted by the President under Section 903 or Section 905 shall be submitted to the appropriate committee or committees of the House of Representatives and the Senate. A joint resolution in support of this report may not be reported before the eighth session day of Congress after the introduction of the joint resolution.

### SECTION 908—PROHIBITION ON UNITED STATES ASSISTANCE AND FINANCING

Section 908(a)(1) prohibits the use of United States government assistance and financing for exports to Cuba. However, consistent with the overall intent of the measure, this prohibition is not intended to modify any provision of law allowing assistance to Cuba.

The provision also restricts the use of government assistance for commercial exports to Iran, Libya, North Korea, and Sudan, unless the President waives the restrictions for national security or humanitarian reasons. In recent months, the Administration has taken several steps to liberalize these and other restrictions on agricultural trade with Iran, Libya, North Korea, and Sudan. As such we believe it will be in the best interest of U.S. agricultural producers, as well as for the United States' balance of trade, for the President to use the waiver authority in subsection (a)(3) to promptly waive these restrictions before the current sanctions are lifted (120 days after enactment of this bill). If the President's waiver authority is not promptly exercised, the restrictions in subsection (a)(1) could act to restrict exports of agricultural commodities, medicines, and medical devices to these countries to a greater extent than current law. This is certainly not the intent of this legislation.

Specifically with regard to Cuba, subsection (b) of section 908 prohibits any United States person from financing U.S. agricultural exports to Cuba. However, in order to accommodate sales of agricultural commodities to Cuba, subsection (b) specifically authorizes Cuban buyers to pay U.S. sellers with cash in advance, or to utilize financing through third country financial institutions.

While they cannot extend financing to Cuban buyers, U.S. financial institutions are specifically authorized to confirm or advise letters of credit related to the sale that are issued by third country financial institutions. Under this procedure, third country financial institutions can manage the Cuban risk associated with these transactions. In turn, the third country financial institution issues a letter of credit free to be confirmed by a U.S. bank, which assumes no Cuban risk. This provision, which creates a "fire-'against "sanctioned-country risk," is wall' consistent with the role played by third country banks in transactions with some other countries subject to U.S. sanctions.

U.S. financial institutions may act as exporters' collection and payment agents, confirm third country letters of credit, and guarantee payments to the U.S. exporters. The provision of such export-related financial services by U.S. financial institutions (commercial banks, cooperatives, and others) will allow U.S. farmers, their cooperatives, and exporters to be assured that they will be paid for exported commodities.

Subsection (b)(3) of section 908 requires the President to issue regulations that are necessary to carry out this section. In addition to waiving the restrictions on assistance as appropriate under subsection (a)(3), these regulations need to facilitate the export of agricultural commodities, medicine, and medical devices. In particular, the regulations need to accommodate these specifically authorized exports by waiving the restrictions with respect to vessels engaged in trade with Cuba found at 31 C.F.R. §515.207.

### SECTION 909—PROHIBITION ON ADDITIONAL IMPORTS FROM CUBA

Section 909 reiterates that this Act does not change current regulations that prohibit entry into the United States of any merchandise that is of Cuban origin, has been transported through Cuba, or is derived from any article produced in Cuba. Despite the title of Sec. 909, the actual language of Sec. 909 does not codify the currently regulatory restrictions. Instead, the language simply states that Sec. 909 does not affect regulations found at 31 C.F.R. §515.204.

SECTION 910—REQUIREMENTS RELATING TO CERTAIN TRAVEL-RELATED TRANSACTIONS WITH CUBA

This section requires the Secretary of Treasury to promulgate regulations to authorize travel to, from, or within Cuba for the "authorized" commercial sale of agricultural commodities. The sponsors of this measure believe that this section should be interpreted in a manner that expands travel currently allowed under the regulations in keeping with the overall Act's purpose of expanding "authorized" exports.

#### SECTION 911—EFFECTIVE DATE

This title shall take effect on the date of enactment and apply thereafter in any fiscal year. The bill does not expire with the expiration of the FY01 Appropriations bill. Unilateral agricultural or medical sanctions in effect as of the date of enactment shall be lifted 120 days after enactment.

MISSOURI FARM BUREAU FEDERATION, Jefferson City, MO, October 18, 2000. Hon. JOHN ASHCROFT, U.S. Senate,

Washington, DC.

DEAR SENATOR ASHCROFT: We are very pleased the U.S. Senate will soon vote on the Conference Report for the fiscal year 2001 Agriculture Appropriations Bill. Missouri Farm Bureau, the state's largest general farm organization, strongly support this legislation. In fact, we have been hoping for this day ever since you introduced the Food and Medicine for the World Act in 1999.

We are grateful for the leadership shown by you and your staff regarding the lifting of unilateral trade sanctions for food and medicine. This measure will result in access to markets that have long been closed to our nation's farmers and ranchers. Frankly, it couldn't come at a better time; the combination of continued low commodity prices and increased fuel and interest expenses are having a devastating effect on both producers and rural communities.

As you know, we recently hosted Fernando Remirez De Estenoz, the First Deputy Minister and Chief of the Cuban Interests Section in Washington, DC, on a series of farm visits in southeast Missouri. During the visit, Ambassador Remirez made it clear that Cuba could provide a significant new market for U.S. agricultural products. The high quality of our production, coupled with favorable transportation rates, makes the U.S. extremely competitive in the Cuban market.

It has become clear that food must not be used as a weapon. Unilaterally denying U.S. agricultural producers access to foreign markets simply does not work in a global economy.

Again, we applaud your on-going leadership on this issue and believe it to be something that will provide long-term benefits to our nation's agricultural producers.

Sincerely,

CHARLES E. KRUSE,

President.

Presiden

PORK PRODUCERS THANK SENATOR ASHCROFT Missouri Pork Producers President Jim Guest today commended Senator John Ashcroft for his work in drafting language that opens the door to potential U.S. pork exports to Cuba.

"Senator Ashcroft has been a leader in the effort to reform outdated sanctions policies that harm American farm families," Guest said. Senator Ashcroft's determination has helped create an environment where Missouri pork producers will have the opportunity to compete for business in Cuba for the first time in 40 years."

Senator Ashcroft authored a sanctions reform provision that was far reaching in its scope and which passed the Senate. The Agriculture Appropriations Conference Agreement includes compromise language to allow the sale of food and medicine to Cuba and four other previously sanctioned nations. On October 11, the bill was overwhelmingly approved in the House and the bill is pending in the Senate. President Clinton has said he will sign the bill.

"Senator Ashcroft's vision has brought us to the point where we can begin to think of Cuba as a potential customer and that is a tremendous achievement," Guest said. "With 11 million people who enjoy pork, Cuba will become an important U.S. pork export market."

The Missouri Pork Producers has supported easing the trade embargo with Cuba, and ending the practice of using food and medicine as foreign policy tools. In 1998, the last year for which statistics are available, Cuba imported about 10,000 metric tons of pork from Canada, Mexico and the European Union.

OCTOBER 10, 2000.

 $\begin{array}{ll} \mbox{Hon. John Ashcroft,} \\ \mbox{U.S. Senate,} \\ \mbox{Washington, } DC. \end{array}$ 

DEAR SENATOR ASHCROFT: The undersigned organizations urge you to support passage of H.R. 4461, the FY01 agriculture spending bill.

In addition to funding important USDA food safety, agricultural research and trade enhancing programs, the legislation is critically important to farmers and ranchers because it includes:

\$3.5 billion of critically needed emergency assistance for agricultural producers hurt by this year's poor weather conditions;

Sanctions reform to lift the embargo on food and medicine to Cuba, Iran, Libya, North Korea and Sudan. In addition, the language makes it much more difficult for future presidents to impose unilateral sanctions:

Doubling of the Loan Deficiency Payment/ Marketing Loan Gain payment cap from \$75,000 to \$150,000 for one year; and

This bill is critically important to the ability of our producers to prosper in the future. We urge your support.

Sincerely, American Farm Bureau Federation American Sovbean Association National Association of Wheat Growers
National Barley Growers Association
National Cattlemen's Beef Association
National Corn Growers Association
National Cotton Council
National Milk Producers Federation
National Sunflower Association
Rice Millers' Association
U.S. Canola Association
U.S. Durum Growers Association
U.S. Rice Producers Association
U.S. Rice Producers' Group
Wheat Export Trade Education Committee

Mr. DURBIN. Mr. President, I rise today to briefly discuss the Fiscal Year 2001 Agriculture Appropriations conference report, H.R. 4461.

First, I would like to commend Senators Cochran and Kohl, the Senate Subcommittee chairman and ranking member. They have put together a very good underlying bill and have done so with bipartisan support and cooperation. From the very first hearing of the year, through conference, Chairman Cochran has endeavored to deliver a bill that is helpful to our farmers and ranchers and fair to the Food and Drug Administration. Again, I congratulate him on this important accomplishment.

I was a conferee on this bill, as I am a member of the Senate Agriculture Appropriations Subcommittee. However, I regret to say that I was unable to sign the conference report because of specific provisions on Cuba sanctions and prescription drug re-importation.

Specifically, I am distressed that the conferees did not support the Senate position on lifting food and medicine sanctions against Cuba. The House language limiting U.S. sales to a cash only or third-country financing basis will unnecessarily restrict the sales of food and medicine to Cuba.

I am further troubled by the language restricting travel by Americans to Cuba. During the Cold War, Americans were able to travel to the Soviet bloc countries, and if they were kept out, it was by the Communists, not by our own government. I believe Castro has more to fear from an invasion force of American tourists than from our sanctions policy. I cannot imagine how restricting the ability of Americans to go to Cuba could possibly advance our shared goal of peaceful change toward democracy and a free market economy in Cuba.

With regard to prescription drug reimportation, too many Americans struggle to afford prescription drugs that their doctors believe are necessary to alleviate or prevent illness. Unfortunately, those who can least afford these drugs because they do not have insurance coverage for prescription drugs generally pay far more than the "most favored" purchasers such as Health Maintenance Organizations, HMOs, and other big insurers.

Instead of dealing with the real issue of providing comprehensive, affordable drug coverage to all America's seniors and the disabled, this conference report takes a much more limited step. It is billed as a means to provide our constituents with access to better priced medicines by allowing for the re-importation of drugs sold at lower prices in other countries. This provision includes measures to ensure the safety of these re-imported products by requiring testing after re-importation. However, the language attached to this conference report still includes several pharmaceutical industry-backed loopholes that will undermine consumer ability to access cheaper drugs. These loopholes were added late in the process and have the potential to nullify the entire provision.

Drug companies will be able to limit supplies in foreign countries to thwart re-importation efforts. Nothing in the language of this conference report addresses this issue. In fact, the limitation on the countries from which wholesalers and pharmacists may reimport drugs will clearly aggravate this loophole. The language also omits provisions that would prevent the pharmaceutical industry from forcing foreign wholesalers to sell products at the inflated American price. Without such a provision, the drug industry will be able to prevent U.S. consumers from obtaining more affordable medicines. There is no effort to focus re-importation so as to benefit the most severely disadvantaged Americans: the elderly and the disabled.

I am convinced that Congress needs to address prescription drug coverage and the cost of pharmaceutical products here at home. Tortuous transport through other countries to re-import products that were originally manufactured here in the U.S. is not the most effective remedy for the high prices that American consumers pay today.

Mr. President, I would like to note with appreciation that this conference report includes important assistance for our nation's farmers who are facing another year of low prices.

The assistance farmers received last year helped many Illinois farmers. An October 1999 study by the University of Illinois projected that average net farm income for Illinois farmers would have been just \$11,000 in 1999 without federal assistance. But with federal assistance, their income rose to \$25,000.

Although the U.S. economy continues to thrive, farmers and those who live in rural America do not appear to be reaping the benefits. This measure provides \$3.6 billion for weather-related crop losses and livestock assistance, and it increases funding for the Farm Service Agency to carry out vital farm programs and emergency measures. The conference report also doubles the loan deficiency limits to ensure farmers are able to receive the income support they need.

The conference report also contains \$1 billion for P.L. 480—Food for Peace,

\$697 million for the Food Safety and Inspection Service, \$2.5 billion for USDA Rural Development programs, \$9.5 billion for child nutrition programs—including a School Breakfast pilot program, and \$1.2 billion for the Food and Drug Administration.

Mr. President, although I have some serious reservations with regard to Cuba sanctions and prescription drug re-importation, I am voting for this conference report because of its other valuable provisions that are simply too important to Illinois agriculture to delay.

Ms. SNOWE. Mr. President, I rise today in support of the prescription drug reimportation provisions included in the conference report for the FY 2001 agriculture appropriations bill. I also want to thank my colleagues, especially Senators JEFFORDS and DORGAN for their hard work and dedication to this important issue.

The United States is in the midst of a time of amazing prosperity. Nearly every week it seems that we hear of astounding new breakthroughs in biomedical research and in new prescription medications. And there is no question in anyone's mind that we have the best—the very best—health care in the world.

But our health care system is not without its flaws. Prescription drugs are revolutionizing health treatments, but their high cost is causing concern throughout the country. Everywhere we turn—from "60 Minutes" to Newsweek—we hear of the struggles that our nation's patients, especially the elderly, face, and the dramatic difference in costs of prescription medication between the U.S. and our neighbors to the North.

The high cost of prescription medications in the United States is forcing many of our nation's seniors to make unthinkable decisions that are harmful to their health and well-being. It is simply unacceptable that the elderly have to chose between filling a prescription or buying groceries.

A solution to the pressing problem of prescription drug coverage can't come soon enough. In 1998, drug costs grew more than any other category of health care—skyrocketing by 15.4 percent in a single year. And that's a special burden for seniors, who pay half the cost associated with their prescriptions as opposed to those under 65 who pay just a third.

Seniors are reeling from the burden of their prescription drug expenses—one of the latest studies shows that the average senior now spends \$1,100 every year on medications. And with the latest HCFA estimates putting the number of seniors without drug coverage at around 31 percent of all Medicare beneficiaries—or about 12 out of nearly 40 million Americans—it's not hard to see why we can no longer wait to provide a solution. In fact, nearly 86 percent of

Medicare beneficiaries must use at least one prescription drug every day.

Who are these seniors who don't have prescription drug coverage? Who are the ones traveling by the busload to Canada to buy their prescription drugs? These are people caught in the middle—most of whom are neither wealthy enough to afford their own coverage, nor poor enough to qualify for Medicaid. We know that seniors between 100 percent and 200 percent of the federal poverty level have the lowest levels of prescription drug coverage.

In my eyes, it is absolutely unconscionable that any senior would be arrested after purchasing their otherwise legal prescription medication in Canada. That is why I teamed up with Senators Jeffords and Dorgan to introduce the "Medicine Equity and Drug Safety Act" as an amendment to the FY 2001 agriculture appropriations bill. The amendment was accepted overwhelmingly by a vote of 74 to 21.

I am pleased that the conference report includes a compromise on this amendment. The conference provision allows pharmacists and wholesalers to import prescription drugs for sale to American customers that were made in the U.S. or in FDA-approved facilities. The provisions require stringent safety and efficacy regulations. Drugs may only be reimported from Europe, Canada, Japan, Australia, Israel, New Zealand, and South Africa. Controlled substances, such as morphine, cannot be imported.

Drugs that are going to be reimported must meet U.S. labeling requirements and there will be stringent reporting requirements on any reimportation. The new provisions prohibit manufacturers from entering into a contract to prevent reimportation. Drug reimportation will not be allowed unless the Secretary of HHS can certify that the reimported drugs are safe and effective. The FDA will not be allowed to send letters to individuals about their personal reimportation unless the FDA believes that the drugs the person is bringing back are not safe, not effective, or not labeled correctly. Finally, the Secretary of HHS must certify that reimported drugs will save consumers money.

Opponents of the reimportation of prescription medications have well-founded concerns about the safety of these medications. There is no doubt that the U.S. Food and Drug Administration is the world's premier agency in ensuring not only that drugs are safe and effective for their intended use, but that the actual manufacture of these drugs is done cleanly and safely.

So when Congress considers changing the law to allow the importation of either retail or personal use prescription medication, we must also consider the safety implications that are involved: Are other countries insisting on the same standards we are? Are other countries guaranteeing the effectiveness of the medication—medication that is purportedly identical in strength? Are other countries using the same ingredients and ensuring that there are no impurities in these ingredients?

The conference provision focuses on these safety considerations and includes substantial safeguards against the reimportation of lesser-quality prescription medication and stringent regulation to ensure that Americans have access to only the safest of products.

Clearly, seniors are traveling to Canada because the price of prescription medications is generally less expensive than in the United States. The difference in the prices between the Canadian and the American market for pharmaceutical products does not come because we are purchasing different drugs or different quantities of drugs. It is this point that I hear the most about from my constituents: why can a person buy the same exact drug, in the same exact dosage, and the same quantity, for so much less in Canada than they can in Maine?

The disparity in costs between U.S. and Canadian drug costs reflects our different markets, but also the government-run health care system that limits choices and proscribes doctors and care for Canadian consumers. The Canadian health care system is a government-run monopoly, an approach soundly rejected by the American public in 1994. In the U.S., costs are constrained through the market—not by the government—as health insurers, pharmacy benefit managers, and preferred customers like the U.S. Department of Veterans Affairs negotiate heavy discounts based on the size of their insurance pool.

Seniors in the U.S. have limited bargaining power to negotiate down drug costs because they are not part of a single pool. Yet if seniors were united in a single group, they could exercise substantial clout in the marketplace to negotiate lower drug costs.

There are 39 million Medicare beneficiaries—and these 39 million customers purchase a third of our nation's prescription medications. This represents a very large section of the market. Enacting prescription drug coverage for Medicare beneficiaries will make seniors a part of buyer groups with greater marketplace clout. This market force will allow seniors as a group to negotiate discounted pharmaceutical costs that will not only be the most economically sound solution, but will also guarantee seniors coverage of their prescription drugs.

When American seniors find they have no market power, they often determine that their only recourse is to buy their much-needed drugs in a completely different market. It is fundamentally unfair when seniors in

Maine feel they must drive across the Canadian border to obtain affordable prescription medications.

Allowing the reimportation of prescription medications is, at best, an interim approach. It can be implemented while Congress debates the larger issue of Medicare reform, and enacting meaningful prescription drug coverage for Medicare beneficiaries.

Again, Mr. President, I rise in support of these provisions and I thank the conferees for their willingness to address this vital issue and their dedication to hammering out a workable compromise.

Mr. ROTH. Mr. President, I rise today to express my grave concerns regarding a provision relating to our trade remedy laws that is a part of the agriculture appropriations conference report that is before us today. My concerns regarding this measure relate both to the way this provision found its way into this conference report, as well as to its substance.

With regard to procedure, I am troubled, to say the least, that a significant modification of our trade laws is being made with no consideration or deliberation by the committees of jurisdiction. I would have hoped that the Agriculture Subcommittee of the Appropriations Committee would have considered the importance of allowing the committee of jurisdiction—the Committee on Finance-to review this provision before deciding to adopt this measure in conference. After all, this amendment represents a dramatic change in the function and purpose of our trade laws.

Currently, our trade laws are designed to address any dumping or subsidized sales into our market by imposing an offsetting duty on imports. With the enactment of this procedure, however, not only will the domestic producer enjoy the benefit of having a surcharge applied to the sales of its foreign competitor, but they will also get a significant cash payment courtesy of the U.S. treasury. This is not an insignificant amount. According to the U.S. Customs Service, over \$200 million of dumping and countervailing duties were assessed on imports last year.

What this will likely do is to encourage the filing of cases in circumstances that would not otherwise merit it. After all, the cash payment will not be made to the whole domestic industry. Instead, only those who supported the filing of the antidumping petition will be paid. Differentiating between different parts of a domestic industry in this way is unprecedented in our trade policy and completely unwarranted.

Now I understand that the money under this proposal is supposed to be funneled to research and development, and other legitimate purposes. But money is fungible, and I fear that we will only be encouraging litigiousness.

Who will benefit from this proposal? It is certainly not our consumers, who

will pay significantly higher prices as a result, and who will likely have to suffer from an even greater number of cases being filed.

Our farmers and our other export industries will not benefit. After all, what will now happen with the enactment of this measure is that we will likely be obliged to pay in some future negotiation, such as market access on agriculture, to preserve what will undoubtedly be described as a private right of action to garner industry-specific government subsidies.

Ironically, the industries that traditionally rely on the dumping and countervailing duty laws will also likely get little benefit from this proposal. While I understand the frustration of some of those who have suffered from foreign dumping and subsidization, this measure, ironically, will do nothing to eliminate unfair trade practices or to ameliorate the conditions that allow these unfair trade practices to persist. We will only have undercut our own efforts to impose greater disciplines on European agricultural subsidies, Japanese support for its steel industry, or Korean support for their automobile industry. This is manifestly bad trade policy wholly apart from the serious technical deficiencies of the proposal.

And what will we say once our trading partners decide to follow our lead and adopt this same scheme in their trade remedy laws? Will we complain? Or will we sit quietly as our farmers and manufacturers begin to face yet another hurdle in their efforts to sell in foreign markets.

Mr. President, this is an ill-considered proposal that not only damages our broader trade policy interests, but it also up-ends the committee structure. I am a strong supporter of our trade remedy laws, but this proposal distorts our laws in a way that serves no constructive purpose. This is unfortunate and unnecessary, and I regret that the Agriculture Subcommittee chose to take this action.

Mr. COCHRAN. Mr. President, the conference report includes a provision that is designed to eliminate an inequity that has arisen regarding a special grade designation of rice known as sweet rice. This rice had been ineligible for price support for some time, but the Department of Agriculture changed the rules in December 1999 to make the 1999 crop eligible for marketing loans and loan deficiency payments for the first time. Unfortunately, producers of this rice had not been notified by the county offices of the crop's eligibility until after the period for obtaining loans and loan deficiency payments had expired.

The provision in the conference report is designed to correct this inequity. The provision would extend the eligibility date for such loans and loan deficiency payments and allow producers of such rice who lost beneficial interest in the crop on or before May

31, 2000, the final date for obtaining loans or loan deficiency payment, to obtain a loan deficiency payment based on the payment rate in effect on the date they lost the beneficial interest. Producers who lost the beneficial interest in their production after May 31, 2000 would be eligible to receive a loan deficiency payment based on the payment rate in effect on May 31. The conferes had agreed that this provision was necessary to make whole those producers of the crop who had lost the opportunity to obtain price support through no fault of their own.

Mr. COCHRAN. Mr. President, with sections 745 and 746 of this bill, the Congress intends to facilitate access for Americans to reimport U.S.-made prescription medicines, as long as it does not lower the safety standards that previous Congresses and Administrations have carefully developed in consumer, health and safety protection legislation over the years. Under these provisions, Americans are allowed access to U.S. products sold overseas at lower prices provided that those medicines, when reimported, are demonstrated to be safe and effective.

At the time the Senate considered this appropriations bill, the Senate adopted an additional safeguard to protect consumer health and safety. By a vote of 96 to 0, the Senate agreed to an amendment which Senator KOHL and I offered to the amendment of Senator JEFFORDS to include the Medicine Equity and Drug Safety Act of 2000 on this bill. That amendment is retained in this conference report, and requires the Secretary of Health and Human Services to make two determinations before the changes to the Federal Food, Drug and Cosmetic Act, FFDCA, in section 745(c) can be implemented. The Secretary is required to demonstrate to the Congress that implementation will: (1) pose no additional risk to the public's health and safety, and (2) result in a significant reduction in the cost of covered products to the American consumer.

As contained in section 745(c), section 804(1) enlists the expertise and conscience of the Secretary of Health and Human Services to make a specific and clear demonstration to assure these changes to the law will produce their intended result and do no unintended harm. In a written report to the Congress, the Secretary is to demonstrate the factual basis for his or her decision. That report should include relevant analysis and information that implementation of these changes in law will pose no additional risks to the American public's health and safety and will significantly reduce retail prices.

After all, the motivation for these changes in law is to let U.S. drugs be brought back from Canada and other countries where they cost less, allowing these drugs to be available to individual American consumers at lower

prices. If reimportation results primarily in profits for importers and does not result in a reduction in the price of drugs to American consumers, then the intent of these provisions is not achieved.

I believe that with the additional safeguard provided by the original amendment adopted by the Senate, we can be more assured that this new drug reimportation system, if implemented, will not have adverse unintended effects on public health and safety and will achieve its intended result of making drugs more affordable for individual American consumers.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, I yield 5 minutes to the distinguished Senator from Vermont, Mr. JEFFORDS.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. JEFFORDS. Mr. President. I have come to the floor to urge my colleagues to support this Agriculture appropriations conference report. I want to thank Senator Cochran, the chairman of the Senate Agriculture Appropriations Committee, for his work on this important legislation. In particular, I want to thank him on behalf of the dairy farmers across the nation, New England and Vermont, Included in this agriculture spending bill is badly needed support for dairy farms. These dairy assistance payments will bring approximately six thousand, four hundred dollars for the average 80-cow dairy farm. At a time when the nation's dairy farmers are facing low milk prices, these payments will help make ends meet.

In Vermont, these payments will give our dairy farmers a much needed boost heading into the long winter. I also want to make a few brief remarks to reiterate my support for the prescription drug provision included in this bill, and to address some of the unfortunate rhetoric that I have heard during this debate.

We all know why this provision is in this bill. The American people are fed up with the situation that exists today, where Americans pay far more for FDA-approved, American-made prescription drugs than patients in any other country in the world. I am not here to demonize the drug industry. It's true that these companies are making some miraculous breakthroughs and improving the lives of many Americans. But why must Americans have to shoulder seemingly the entire burden of paying for research, development and a healthy return to shareholders? I believe it is time we put an end to this unfair burden. I don't think it is fair to expect Americans, especially our senior citizens living on fixed incomes, to pay the highest costs in the world for prescription medicines, many of which are manufactured within our borders. That's why more than a year ago I started working with the Food and Drug Administration, the agency responsible for overseeing the safety of the drug supply in this country to see if there were a way we could safely reimport prescription medicines into our country.

In July, on an overwhelming vote of 74-21, the United States Senate agreed to an amendment I offered with Senators Wellstone, Dorgan, Gorton, SNOWE, and others to do just that. Just three weeks ago, President Clinton endorsed the Jeffords language, saving "I support the Medicine Equity and Drug Safety Act of 2000 which the Senate passed" and "I urge you to send me the Senate legislation." The negotiators for the House and Senate on the agriculture appropriations bill have now completed their work. Unfortunately, the process used in reaching this agreement was marred by partisanship. That is regrettable. But the product is as strong as the one endorsed by the Clinton administration, and even stronger in some respects.

Some of my Republican colleagues have criticized this proposal for going too far. My Democratic friends have criticized this for not going far enough. The legions of lobbyists for pharmaceutical industry vigorously oppose this proposal, and tried their best to get it stripped from this legislation. I continue to believe that the proposal before the Senate today, while slightly different from my plan, is a strong and workable proposal. Critics have argued that the proposal has been weakened because it allows drug companies to frustrate the intent through manipulations of sales contracts. The fact is, this bill is stronger than either the House-passed or Senate-passed versions because it includes a clear prohibition of such agreements—something that was missing in the House and Senate bills. In fact, let me quote from that section of the bill: "No manufacturer of a covered product may enter into a contract or agreement that includes a provision to prevent the sale or distribution of covered products imported pursuant to subsection (a)."

I don't know how to be more clear and simple than that. But just in case my colleagues think that stronger language is needed, the bill grants to the Secretary the ability to react to unanticipated challenges through language in another section which requires that the Secretary issue regulations containing any additional provisions necessary "as a means to facilitate the importation of such products." Such broad authority will ensure that this provision works. In fact, less than 10 days ago, at the very time that the Clinton administration was changing its position on the Jeffords amendment, the New York Times reported that it planned to implement the Patient's Bill of Rights by regulation. It is hard to understand why the administration so eagerly sees regulatory authority where many do not, yet cannot see it when plainly written in the statute. Critics have claimed that the latest version of the bill contains a loophole regarding the labeling requirements. The fact is, the bill requires manufacturers to provide all necessary labeling information, and the provision that I just quoted gives the FDA very broad power to write any other rules necessary to accomplish the intent of the provision. Moreover, this labeling language is unchanged from the version that adopted by the Senate and endorsed by President Clinton.

Critics have claimed that the bill unfairly restricts the countries from which these products may come. The fact is that the bill lists 23 countries to start the process, and lets the FDA expand the list at any time. Critics have complained that this bill will expire after about 7 years. The fact is that this is a vast improvement over the House-passed version which would have expired after only one year. As we all know, major legislation is frequently required to be reauthorized on 5 year cycles in order to force Congress to make improvements, and popular effective laws always survive this process.

Mr. President, this bill, like any other, may not be perfect, but the fact is that it is stronger than the original Jeffords amendment. That is why John Rector, senior vice president for the National Community Pharmacists Association who has been a leader in the effort to reimport lower cost drugs and whose members would be importing under this provision. Mr. Rector recently indicated that this bill, "will result in the importation of far less expensive drugs." This is a workable bill, and that is why the pharmaceutical industry is fighting this tooth and nail they know it will work. They would like nothing more than to see us to kill this bill. One of our colleagues in the House, who has complained that this provision does not go far enough, noted that this is "the first defeat ever suffered by the pharmaceutical industry in memory.'

Now I ask you, if this bill is unworkable as the critics have charged, why is the pharmaceutical industry so opposed to the bill, and why are even our critics calling this a defeat for the industry? That should tell you something about what they really think the effect will be of this provision. As I said before, Mr. President, I am disappointed with how partisan this issue has become, but I am glad that the President has said he will sign the bill. I am calling on Congress to put partisanship aside and pass this bill. And I am calling on the Clinton administration to quickly write these regulations so that ordinary Americans can realize savings on prescription drugs as soon as possible.

Mr. President, I rise also today in support of two important food stamp provisions included in this conference report. These provisions are based upon S. 1805, the Hunger Relief Act of which I was proud to be an original cosponsor.

The language in the bill will allow low-income people who spend more than 50 percent of their income on housing to receive food stamp benefits at a level that more accurately reflects their need. Additionally, it will allow low-income people who need a car to find or keep work to still receive food stamp benefits and continue to own a reliable car.

These provisions will provide important relief for needy families in Vermont and all around the United States. In Vermont alone, 42,000 people, the great majority families with children or senior citizens, are on food stamps.

Both provisions in this conference report are important to my state of Vermont. First, the increase in the maximum amount of excess shelter expense deduction to qualify for food stamps is important as we have lately seen housing prices increasing rapidly in Vermont. Without the increase contained in the conference report, rapidly rising housing prices are diluting the effectiveness of the food stamp program because the true need for food stamps is not being adequately represented. The vehicle allowance provisions are vital in a rural state like Vermont where a reliable car is almost a necessity to get to or find work. Providing flexibility in the vehicle allowance will allow low-income individuals to qualify for food stamps while being able to continue to own a reliable car.

While I would have liked to have seen the entire Hunger Relief Act included in this appropriations bill, the inclusion of these two provisions is an important first step forward. I will continue to push for Congressional passage of the entire Hunger Relief Act, but wanted to express my gratitude to the conferees for the inclusion of these provisions which are so important to my constituents.

Mr. President, as the principal author of the drug importation amendment included in the Agriculture Appropriations bill, I am taking this opportunity to provide a detailed explanation of the provisions of the drug importation section.

The conference report to H.R. 4461 amends the Federal Food, Drug, and Cosmetic Act and expands the entities permitted to import certain drugs into the U.S. under Section 801 of the Act, to include pharmacists and drug whole-salers. The Secretary of Health and Human Services will promulgate regulations to carry out the importation provisions after consultation with the United States Trade Representative and the Commissioner of Customs.

Under the new section 804(b), the regulations promulgated by the Secretary

must ensure that each drug product that is imported under this section complies with section 501, 502, and 505, and any other applicable provisions of the Federal Food, Drug, and Cosmetics Act (FFD&C Act) and is safe and effective for its intended use, as well as the provisions of this section. This provision also grants broad discretionary authority to the Secretary to include any additional provisions in the regulations that are necessary to protect the public health and to facilitate the importation of drug products under this section.

Subsections (c) and (d) outline extensive record keeping requirements that must be met in order to import under this law, including:

- (1) the name, amount and dosage description of the active ingredient;
- (2) the shipping date, quantity shipped, and points of origin and destination for the product, price paid by the importer, and price sold by the importer:
- (3) verification of the original source and amount of the product received;
- (4) the manufacturer's lot or control number:
- (5) the name, address, and telephone number of the importer, including the professional license number of the importer (if any):
- (6) lab records assuring that the product is in compliance with established standards;
- (7) proof that testing was conducted at a qualifying laboratory; and
- (8) any other information the Secretary determines is necessary to ensure the protection of the public health.

For a product that is coming from the first foreign recipient, the importer must also demonstrate: (1) that the product was received from a U.S. manufacturer, (2) the amount received and that the amount being imported into the U.S. is not more than the amount received, (3) for the first shipment, documentation showing that each batch was statistically sampled for authenticity and degradation, (4) for all subsequent shipments, documentation that a statistically valid sample of the shipments was tested for authenticity and degradation, and (4) that the product meets labeling requirements and is approved for marketing in the U.S.

For a product not coming directly from the first foreign recipient, the importer must have documentation demonstrating: (1) that each batch is statistically sampled and tested for authenticity and degradation, and (2) that the product meets labeling requirements and is approved for marketing in the U.S. All testing must be performed at an FDA-approved U.S. laboratory.

Subsection (e) requires that manufacturers provide information to importers sufficient to authenticate the product being imported and to meet the la-

beling requirements of the FFD&C Act. This provision is understood and intended to require manufacturers to provide such labeling information as is necessary for importers to comply with applicable labeling requirements sufficient for sale and marketing in the U.S. It is also understood and intended that the requirements and authority granted in this provision are supplemented, if necessary, by the broad discretionary authority contained in 804(b)(3) to facilitate the importation of drug products under this section. This information shall be kept in strict confidence. Pursuant to the "Enhanced Penalties" subsection below, violation of this subsection is punishable by 10 years in prison or a fine of \$250,000 or both.

Subsection (f) refers to an initial list of countries with recognized regulatory structures from which drugs may be imported under this section. The list includes Canada, Australia, Israel, Japan, New Zealand, Switzerland, South Africa, and the EU (Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden, England, Liechtenstein, and Norway). The Secretary may expand the list at anytime, taking into consideration protection of the public health.

Subsection (g) requires the Secretary to suspend imports of specific products or by specific importers upon discovery of a pattern of importation of counterfeit or violative products, until an investigation has been completed.

Subsection (h) prohibits contracts or agreements that include any provision preventing the sale or distribution of imported drugs under this section. This provision is understood and intended to prevent manufacturers from "gaming" the system or interfering with importation under this section through contractual arrangements that utilize restrictions or disincentives for reselling the drugs into the U.S.

Subsection (i) requires the Secretary to conduct a study regarding the compliance of importers with the requirements of this section, and the incidents of importation of noncompliant shipments of prescription drugs under this section, as well as the effect of importations under this section on trade and patent laws. The Comptroller General will study the effect of this provision on prices of covered products.

Subsection (k) provides definitions for a number of terms in this act, and includes several changes and additions from Senate-passed version. The definition of "covered product" clarifies that certain controlled substances are not eligible for importation, and that biological products are also ineligible. In order that this act not create a disincentive for charitable contributions of drugs to foreign countries or humanitarian organizations, this subsection excludes such products from eligibility under this act.

This provision also recognizes that many parenteral drug products (drugs that are administered through IVs, injections, or other means other than orally) are considered by the Secretary to be more sensitive to improper storage and handling, and may be at a higher risk of degradation or present more difficulty in testing for authentication or degradation. Therefore, the 801(d)(1) importation restriction shall continue to apply to parenteral drug products, the importation of which, according to the Secretary, may pose a threat to the public health.

The definition of pharmacist is similar to that in the Senate-passed bill, and is presumed to include a licensed pharmacist, since such a pharmacy is required to have a licensed pharmacist of record.

Subsection (1) is similar to the amendment offered by Senator COCH-RAN and adopted unanimously by the Senate during the floor debate. The provision, as included in this conference report, has been changed to require the Secretary to "demonstrate" (instead of "certify" in Senate-passed version) that implementation will "pose no additional risk" (instead of "pose no risk" in the Senate-passed version). The provision is otherwise identical to the Senate-passed version.

This act is no longer effective after 5 years from the effective date of the regulations promulgated hereunder. The 5 year clock will begin to run after the regulations are finalized and any litigation is completed.

The conference report includes a new subsection which clarifies that a violation of this section is a prohibited act under the FFD&C Act. This new provision also provides for enhanced penalties (10 years in prison and/or \$250,000 fine) for manufacturers who fail to provide information necessary for testing or labeling of imports, and importers who divulge such information for any purpose other than verifying authentication or degradation tests.

The conference report includes a provision that passed the House earlier this year pertaining to the importation of prescription drugs imported for personal use. Current FDA practice has been to not confiscate certain drugs reimported for personal consumption, but, in many cases, to send intimidating warning letters that do not specify how the law is being violated. This bill includes provisions prohibiting the FDA from sending warning notices unless it includes a statement of the underlying reasons for the notice.

Finally, Mr. President, I would like to thank my colleagues that worked so closely with me on this issue. Specifically, I would like to thank Senators GORTON, WELSTONE, and DORGAN, and their staffs, Kristen Michal, John Gilman, and Stephanie Mohl for their countless hours of work on this provi-

sion. Without the bipartisan cooperation of my collegues, passage today of this provision would have been impossible

I urge my colleagues to support this provision and support this Agriculture appropriations conference report.

The PRESIDING OFFICER. Who yields time?

Mr. KOHL. Mr. President, I yield 4 minutes to Senator BYRD.

Mr. BYRD. Mr. President, now before the Senate is the conference report on H.R. 4461, the Fiscal Year 2001 Appropriations bill for Agriculture, Rural Development, the Food and Drug Administration, and Related Agencies. This conference report includes many items important to West Virginia, and to all states, relating to agricultural research and production, conservation, rural development, food assistance, human health, and many other priority areas. I congratulate Senator THAD COCHRAN, Chairman of the Agriculture Subcommittee, and Senator HERB Kohl, Ranking Member, for their hard work in finalizing this very important conference agreement

This conference report provides a total of \$74.458 billion in new non-emergency budget authority. This total includes \$34.691 billion for agricultural programs (including reimbursement to the Commodity Credit Corporation for net realized losses); \$873 million for conservation programs; \$2.487 billion for rural development programs; \$34.117 billion for domestic food programs; \$1.091 billion for international trade assistance programs; and \$1.168 billion for related agencies, including the Food and Drug Administration.

It is important to note that this conference report includes more than the annual Fiscal Year 2001 appropriations for programs under the jurisdiction of the Agriculture Subcommittee. This conference report also includes \$3.642 billion in emergency spending. This funding is related, in large part, to action taken by the Senate Appropriations Committee on May 9, 2000, when the Committee approved Fiscal Year 2000 Supplemental Appropriations. The House of Representatives approved a similar FY-2000 Supplemental Appropriations bill on March 30, 2000.

Included in the \$3.642 billion in emergency spending are provisions to provide assistance to those who have suffered from natural disasters which have occurred this year and to partially offset certain market losses suffered by the agriculture sector. When the Appropriations Committee considered supplemental spending more than five months ago, I offered a number of amendments, which were adopted, to provide a timely response to predicted summer drought conditions. One of those provisions would provide \$450 million for livestock-related losses, more than double the amount available last year. Another item provided an additional \$50 million in loans and grants to provide water supply in rural communities, especially those suffering from drought conditions. I am happy to report that this conference report includes these two items and levels of \$490 million and \$70 million, respectively.

One other item included in this conference report is a provision which I proposed on the subject of compensation to U.S. industries for losses sustained as a result of unfair foreign trade practices. The U.S. agriculture and manufacturing sectors have been able to avail themselves of legal remedies to challenge foreign actions, but have not had adequate means to recover from the losses resulting from those actions. Now, such a mechanism will be in place and U.S. farmers and workers of all trades affected by unfair trade practices will be able, in essence, to recover monetarily rather than simply having the right to file a complaint.

This extra step is necessary. Current law has simply not been strong enough to deter unfair trading practices, whether in the agriculture or manufacturing industries. Continued foreign dumping and subsidy practices have reduced the ability of our injured domestic industries to reinvest in their workers, equipment, or technology. My provision simply provides a mechanism to help injured U.S. industries recover from the harmful effects of illegal foreign dumping and subsidies. And, most importantly, if our foreign trading partners play by the rules, my provision will never have to be used.

Mr. President, this conference report includes many items important to all Americans, and I am happy to support it. Action on this measure is long overdue. Disaster assistance is badly needed to help people all across the nation who are suffering from drought, storms, floods, and crop loss due to infestations of pests and disease. I urge all my colleagues to join me in support of this conference agreement.

Mr. COCHRAN. Mr. President, I yield 5 minutes to the distinguished Senator from Louisiana, Mr. BREAUX.

Mr. BREAUX. Mr. President, congratulations to the chairman and Senator Kohl for the work they have done on this Agriculture appropriations bill. It indeed has been a very difficult endeavor. I plan to vote for final passage of this Agriculture appropriations bill because I think it is very important and there are many very important things in it dealing with agriculture, which is with what we would think an Agriculture appropriations conference report should deal.

I highlight, however, one thing that I think is very bad public policy; that is, the question of an amendment to this bill allowing for the importation of foreign drugs manufactured in foreign countries, under foreign standards, to

be imported into the United States under the guise of "this is the solution" or even a partial solution to the high costs of prescription drugs and the unavailability of prescription drugs under our Medicare program for the 40 million senior citizens in this country who need prescription drugs.

Many people said when the bill left the Senate that this provision that was added was a sham. I thought it was a sham when it left and it has come back and it is a worse sham than when it left. This is "Son of Sham," or a double sham, in the sense that this makes absolutely no sense.

Members of both sides of the aisle have said: We are against drug price controls because that is un-American; that is not the way we encourage businesses to operate; we want businesses to compete against each other and the companies that can do the best job for the best price get the business. That is what the American system is all about.

Instead, we have in this bill a provision that says, we might not like price controls in this country, but we are going to import not only the drugs from other countries but their price control systems—as if that somehow makes it all right. The concept is other countries have price controls; therefore, it is cheaper. The fact is, in Canada, to which so many of our people point, there are some drugs that are cheaper because of price controls, but there are many other drugs that, in fact, cost more in Canada than they do here. In many cases, the drugs we have here are simply not available in Canada at all, or maybe a year or two after they are available in the United States, because of the adverse impact of a price control system we are now trying to import into this country.

In addition to that reason that this is bad policy, there are about 10 former Food and Drug Administration agencies that said: Wait a minute; hold on, Congress. What in the world are you doing? This is not a safe process you are legislating into law. We are not going to be able to determine the safety of these drugs. Maybe in Canada it would be all right, but what about Pakistan or what about a Third World country or what about a country we have very little to do with? Are we going to let the drugs come in from those countries as well, which this bill allows? How are we going to be able to guarantee that the same safety or precautions that are in effect in a Third World nation are in effect here in the United States in order to protect the consuming public? How are we going to know that the little pill that is the same color and approximately the same size has in it the same material that it has in this country, that has been approved by our Food and Drug Administration?

This may give some of our colleagues a feeling we have done something to

solve the prescription drug cost problem for our seniors. It does not. It does not come close. This is not even a fig leaf of coverage for those who reply to: What have you done on the issue of prescription drugs? The answer is, we probably made the system worse by bringing in drugs the quality of which we cannot guarantee. We cannot guarantee where they came from, how they were produced, or who has been protecting them since they left the factory and ultimately found their way into the United States. The answer is not that complicated. What it takes is a lot of political courage to do what is right and to tell our seniors there are no real easy answers to this problem.

What we need to provide to America's seniors is the same thing that I have as a Member of the Senate, that every one of my colleagues has and every one of the Members of the other body has and the other 9 million Federal employees have; that is, coverage under their health insurance plans that cover prescription drugs. When I walk into a drugstore, I do not pay full retail price, not one of us does. We get a discount because we do volume purchasing under our Federal insurance plan. In addition to the volume purchasing, we also have a very small copay, which allows us, instead of having to pay full price, to pay only a fraction of the price. That is the same type of system we should put into effect for our Nation's seniors.

The PRESIDING OFFICER (Mr. VOINOVICH). The 5 minutes of the Senator has expired.

Mr. COCHRAN. Mr. President, I yield the distinguished Senator 2 additional minutes.

Mr. BREAUX. I don't want to belabor the point, but when I walk into a drugstore, the retail price may be \$100. But because of volume purchasing, it may only cost me \$70, and because I have coverage, I don't pay \$70. I pay a small copayment of maybe \$30. I walk out of the drugstore with \$100 worth of drugs paying only \$30 because I am covered. A Medicare recipient who has no coverage pays the full retail price of \$100. That is what is wrong with the system as it is currently constructed.

The answer clearly is not to say we are going to allow people to import drugs from Bangladesh or Pakistan or other countries around the world where we cannot guarantee the quality. That is not the way to do it. It was a sham when it left the Senate. It is a sham as it is being presented to the Senate today. We should have the political courage to address this in a very serious way.

To those of our two colleagues who have worked so hard on this, I thank them for their understanding and their participation. I do not fault them for what has happened. It passed the House by a huge margin. It passed the Senate by a huge margin. It is not the right

policy and doesn't solve the problem. I wanted to bring it to the attention of my colleagues.

Having said that, I intend to vote for the overall product because of the many good things it has in it for American agriculture and American farmers. I think our two leaders are to be congratulated for that product they bring before the Senate.

Mr. COCHRAN. Mr. President, I yield 5 minutes to the distinguished Senator from Alabama, Mr. Sessions.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. Mr. President, I would like to share a few remarks about the Agriculture bill. I thank Senator Cochran and his committee for their work on a very difficult issue at a very difficult time for agriculture. There are no easy solutions to the problems farmers are facing. We know farmers are in trouble. One experienced farmer who heads the Alabama Farmer's Federation told me that without Federal help, he believes in just the next 2 years, one-third of the farmers in Alabama would have gone out of business. It has been costly, but I believe what we are doing is the right thing to do.

Also, before I make those remarks, I would like to say I did return, with quite a number of Senators this afternoon, from the memorial service at Newport News to recognize the sailors who lost their lives in this attack on the Cole. We have to remember the Cole. We have to remember them. For a whole lot of reasons it was a very meaningful experience for me and I believe for their survivors. I was able to meet a number of sailors who had been wounded. I think all of us in this country need to pause, periodically, to remember how much we owe to the men and women in uniform.

This year, farmers in my home State have faced the worst drought in over a century. In particular, farmers and cattlemen in the southeast region of the state, have been devastated. This drought has come after two previous years of drought. Scorching temperatures and virtually no rain have made it extremely difficult for these fine men and women to continue to farm. In Headland, AL, for example, only 18 inches of rain has fallen this year. This is a part of the State that normally sees over 45 inches by this time.

More rain has come lately but not nearly enough and not soon enough to compensate for the earlier losses. Corn yields are down 40 percent. The peanut crop has had a very bad year, and the cotton crop has been very bad.

It has not been a good year at all for Alabama farmers. This drought has been one of the most severe on record. At some point since March 1, all parts of Alabama have been classified "exceptional drought" by the U.S. Drought Monitor. This is the most severe drought rating.

The entire State has been declared a search will go a long way to nurturing disaster by the Secretary of Agriculture, and the Department of Agriculture has done some good work in helping to respond to the crisis.

However, I continue to hear from farmers at home that they question how long they can actually stay in business if the situation doesn't improve. A combination of bad crop-years and low prices can be devastating. Some livestock producers have liquidated their herds. Nearly all of them had to sell their stock earlier and lighter than normal, costing them money. Over 50 percent of this year's hay harvest has been lost, and this is just in Alabama. There have also been droughts in other States such as Mississippi, Georgia and Texas.

The \$3.6 billion in emergency disaster aid included in this conference report is needed to assist these families and others who have experienced losses from drought, fire and other natural disasters.

I am especially pleased that Senator COCHRAN and the conference committee agreed to retain my amendment in the Senate version of the bill to assist Alabama in its emergency hay and feed operations for livestock producers. The Commissioner of Agriculture and Industries, Mr. Charles Bishop; the Alabama Cattlemen's Association and Dr. Billy Powell, its leader; the Alabama Farmers Federation; and other organizations have worked together to provide assistance to struggling cattlemen throughout the summer. Unfortunately, the funding for this assistance has run out. The State funding has collapsed. The \$5 million in this conference agreement will go a long way to help these cattlemen make it through the winter without having to sell off their herds, which undermines their ability to have a productive economic enterprise.

I am also pleased that the conference report contains funding for a number of fine agricultural research projects in Alabama and all over the country. These projects keep us on the cutting edge of agriculture, and it is the only way we will be able to compete successfully in the world market. It includes catfish disease research. Catfish is one of the biggest cash crops for agriculture in the State. Peanut allergy research is a critical issue for us. I am particularly pleased the funding for Satsuma orange research was retained in the conference report.

The PRESIDING OFFICER. The Senator's 5 minutes have expired.

Mr. SESSIONS. I ask unanimous consent for 2 additional minutes.

Mr. COCHRAN. Mr. President, I yield the distinguished Senator what time he may consume.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. Mr. President, the funding for Satsuma orange frost rethis fledgling industry along the gulf coast.

At the beginning of the 20th century, Satsuma orange groves flourished throughout the gulf coast. Indeed, they were running advertisements encouraging people around the country to come down and grow Satsuma oranges. In fact, 18,000 acres of the sweet, easyto-peel fruit were farmed during the twenties and thirties along the upper gulf coast. However, a period of severe winters around 1940 led to the decline of Satsuma production.

Today, fledgling Satsuma groves exist in Alabama, Louisiana, and Texas. Research by Auburn University. one of the finest research institutions in the world, is being conducted to determine how to make this fruit more frost resistant. There are some ideas percolating that may actually do that. This funding will give us the opportunity to revitalize this industry.

I am certainly pleased with the overall agricultural spending. We have a lot of emergency assistance for farmers this year because it has been a particularly bad year in some areas of the country, including Alabama.

Again, I thank Chairman COCHRAN for his leadership. He understands this issue; he understands this Senate. He has wrestled with these issues for years, and his leadership will help this bill pass with overwhelming support.

I vield the floor.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. KOHL. Mr. President, I thank and congratulate the chairman of the subcommittee, Senator Cochran, for all of his work in crafting this conference report. I believe overall this measure does a very good job of providing funds for ongoing work at USDA, FDA, and the other agencies covered in this bill. It also provides much needed emergency relief for farmers and ranchers suffering from both market loss and natural disasters.

However, I am disappointed that the conference committee could not come to a better conclusion on two highly controversial issues involving trade sanctions and reimportation of prescription drugs.

With regard to the Cuba provision, I would have preferred the Senate language. That language received broad support in this body.

With respect to the reimportation of prescription drugs, I am concerned the language in this report has too many restrictions and may not result in lower drug prices for our seniors, as well as others.

While some of us disagree on the language of these two items, nevertheless this conference report does provide immediate and targeted economic relief to struggling producers. Some producers are receiving the lowest prices for their products in over 20 years.

With respect to the dairy industry, the emergency provisions included in the conference report do not solve the larger problems facing our industry. However, it is an appropriate and vital step in protecting family dairy farmers. I encourage all Senators to support this conference report.

The conference report accompanying the fiscal year 2001 Agriculture appropriations bill provides \$78.5 billion in funding for the operations and programs of the U.S. Department of Agriculture, the Food and Drug Administration and other agencies. This conference report includes much needed emergency relief to assist farmers hurt by economic and weather-related losses. The conference report also includes legislative language regarding food and medicine sanctions and language regarding the reimportation of prescription drugs. I am pleased that the conference committee also accepted a provision that will make it easier for citizens to participate in the federal food stamp program.

From the beginning of this year's appropriation cycle I have been honored to work with the very distinguished Chairman, Senator Cochran. The Senator from Mississippi has done an outstanding job of steering this bill through the appropriation process and I believe that with his leadership we have achieved a very fair and balanced conference report.

There are two highly controversial issues relating to this conference report which prevented the House and Senate conferees from moving this bill prior to today. In fact, the FY 2001 Agricultural Appropriations bill was reported by the full Appropriations Committee on May 20, 2000 and was approved by the full Senate on July 20. 2000. With farmers and ranchers struggling with significant market losses and natural disasters, it was my hope that we would have moved this legislation to the President's desk prior to the August recess period.

With regard to the Cuba language, I am disappointed that the conferees did not accept the language that was included in the Senate version of this bill. The language approved by the Senate received broad support and would have created expanded opportunities for Americans to sell food and medicine to Cuba. The provision included in this conference report makes it more difficult for these sales to take place, by preventing U.S. financial institutions from providing financing. The provision also codifies travel restrictions on Americans going to Cuba, making it more difficult for farmers to travel to Cuba to negotiate a sale. Although I do not believe we should be lifting our broader embargo on Cuba until we see democratic reform in Cuba and the end of the repressive Castro regime, in the meantime, I believe that blocking the sale of food and medicine

has done little to bring us closer to that goal and has the unintended consequence of harming the very people we want to help.

With regards to the reimportation of prescription drugs, I am extremely disappointed with the process by which the conference provision was developed. We started with a very bipartisan process to develop workable language, but unfortunately, that process was hijacked. Instead, decisions were made in backroom deals behind closed doors. Even when improvements were suggested that would improve the language, they were ignored. This process was a disgrace to the Senate and to our nation's seniors who would benefit far more from a bipartisan process.

American consumers are rightly concerned about the high costs of prescription drugs—especially when compared to prices in other countries. These high costs are forcing America's seniors to often choose between buying food or paying for their medicine bills. America's seniors have footed the bill for the pharmaceutical industry's high profits for far too long.

I believe reimportation could help alleviate the high costs for many seniors, but I am concerned that the language in this conference report has several loopholes that will prevent it from being fully effective. In particular, I am concerned that the sunset provision will have a chilling effect on pharmacists and wholesalers, who may not invest in reimportation because the ability to do so will end in five years. And I am very concerned that drug companies can still keep American prices high by demanding that foreign sellers charge American pharmacists and wholesalers the higher, Americanset prices when they reimport drugs. All of these issues, of course, could have been resolved in a bipartisan proc-

That said, I am hopeful that the spirit of the reimportation provision—to lower drug prices for American consumers—will become a reality as it is implemented. Let me remind the drug companies in this country that reimportation was overwhelmingly supported in both Houses of Congress. We fully expect drug companies to comply with the intent of the law, and not look for loopholes to continue to inflate their profits.

Most importantly, let me say that while reimportation is an important first step toward helping seniors with high drug prices, make no mistake: this is not a substitute for a Medicare prescription drug benefit. Anyone who claims that reimportation is the answer to the outrageous drug prices seniors face is out of step with reality.

Drug prices are a major problem—but so is coverage. With one-third of seniors lacking any drug coverage at all, it is critical that we pass a Medicare prescription drug benefit as soon as possible. While some of us may disagree with the outcome on the Cuba sanctions and re-imported drug issues, this conference report does provide immediate and targeted economic relief to struggling farmers and ranchers. In my state of Wisconsin alone, we are losing three dairy farmers a day. While the dairy market loss payments included in this conference report does not solved the larger problems facing our industry, it is an appropriate and vital step necessary to protect our family farmers.

Section 805 of the conference report provides assistance to dairy farmers in an amount equal to 35% of the drop in the price this year from the previous five year average. Let me restate that, "35%" of the "drop" in price. By contrast, earlier this year the administration proposed a farm emergency package for program crops that would have provided payments to guarantee farmers of certain commodities "95%" of the previous 5 year average "total gross income".

I cannot overstate the devastation the current dairy price collapse is bringing to family farms all across America. Back home in Wisconsin, the crises is overwhelming. Recently, I received a call from a dairy producer named Tom LaGesse of Bloomer, Wisconsin. Mr. LaGesse informed me that in his small town, located in northwest Wisconsin, five producers within the span of one week went out of business. He also told me that if we do not provide immediate, and direct emergency payments within 60 days, he would be the next producer to go out of business. All too often we hear a lot of talk about saving the family farm but little action. Mr. President, these dairy payments will hopefully save Mr. LaGesse and many, many others like him.

I am aware that producers may have questions regarding the implementation of the dairy payments included in this conference report. That is why I would like to insert into the RECORD the following questions and answers that may address the concerns of producers across the country.

QUESTIONS AND ANSWERS REGARDING EMERGENCY DAIRY PAYMENTS

Question: How soon after the President signs this bill into law can dairy producers expect to receive payments?

Answer: For existing dairy farmers who received Dairy Market Loss Assistance payments earlier this year, payments should go out fairly quickly. New producers who have not previously applied for or received Dairy Market Loss Assistance payments from USDA may wait a little longer.

Question: How will payments be calculated?

Answer: Each producer's payment will be calculated by multiplying their "eligible" production by the payment rate. The payment rate equals 35 percent of the decline in the market value of milk in 2000 from the previous five year average. During 1995–99, the market value of all farm milk as reported by USDA was \$14.25 per hundred-

weight. USDA currently projects the all milk price will average \$12.40 per hundred-weight in 2000, so the projected payment rate would be .35 times \$1.85 or about 65-cents per hundredweight.

Eligible production for existing producers who received payments under the earlier program will, in most instances, be their actual milk production marketed in either 1997 or 1998, whichever is higher, up to a limit of 3.9 million pounds. Eligible production for existing producers who received payments under the earlier program, but had no production in 1997 or 1998, will be their actual milk production marketed in 1999 up to a limit of 3.9 million pounds.

Existing producers in either of the above categories who had less than 12 months of production in the base year used to calculate their earlier payments will have the option of substituting their actual production marketed during the 12 months from October 1, 1999, through September 30, 2000, up to a limit of 3.9 million, if it is greater than their base period marketings used for the earlier payments.

Finally, eligible production for new producers who did not receive payments under the earlier programs will be their actual production marketed during the 12 months from October 1, 1999, through September 30, 2000, up to a limit of 3.9 million pounds.

Question: Does a producer have to fill out forms or can they expect to automatically receive their payment?

Answer: The Secretary of Agriculture will decide exactly how to administer the program and what will be required of producers. However, I believe he can automatically pay existing producers who participated in the earlier payment programs and that only those new producers and those few who have the option of updating their base period production should need to fill out new applications.

Question: How much should producers expect to receive?

Answer: First, a producer's payment does not depend directly on the number of cows on the producer's farm but on the producer's eligible production as described above. A producer can estimate his own payment by multiplying his eligible production by the estimated payment rate of 65-cents per hundredweight. An average milk cow produces 17,200 pounds of milk per year. Using this average, producers can expect about \$112 per milk cow. A herd of 225 average milk cows will reach the 3.9 million pound limit and receive the maximum payment of about \$25,000.

Also included in the conference report is a cranberry relief package that provides assistance to cranberry growers who are suffering with record low prices. This year, my state of Wisconsin will lead the nation in cranberry production. The language in the conference report provides \$20 million for direct cash payments to growers and language directing the USDA to purchase \$30 million worth of cranberry products.

The cranberry direct payments provision is similar to other market loss assistance provisions in the bill. In order to insure that the funds are equitably distributed in the market place, the provision includes a cap on payments that would be limited to not more than 1.6 million pounds per separate farm unit, regardless of farm ownership.

In recent weeks, the cranberry industry has been working very closely with USDA and the recipients of federal food distribution programs to support purchases of juice concentrate, frozen fruit, or other comparable high-concentration fruit products that will remove the highest quantities of surplus fruit from current inventory. The industry and USDA is working to ensure a nutritious and easy to use product available for the recipients of federal food distribution programs. I appreciate the close cooperation of the Department on this and urge them to move quickly to address this disastrous surplus situation through additional purchases of products containing high concentrations of cranberry products provided for in the bill.

I close by reminding my colleagues that I support the conference report. I also express my sincere appreciation to Senator Cochran for his leadership, his fairness, and expertise in the many programs and accounts included in this bill. I thank Senator Cochran's subcommittee staff for all their work on this conference report. I urge all Senators to join me in support of this important conference report.

I thank the Chair, and I yield the floor.

Mr. COCHRAN. Mr. President, what is the status of the time and the allocation between both sides?

The PRESIDING OFFICER. The Senator from Mississippi has 10 1/2 minutes, and the Senator from Wisconsin has 2 minutes 50 seconds.

Mr. COCHRAN. Mr. President, I appreciate very much the comments that have been made by a number of Senators about the development of this legislation and the efforts we have made to negotiate an agreement with the House and bring back this conference report for final consideration by the Senate today.

There have been some statements made on the floor today that I think require a response. There was some singling out of individual research projects by the distinguished Senator from Arizona as if these were pork barrel projects. One response has already been made, and that was by the distinguished Senator from Alabama as he talked about some of the specialty crops and specific agricultural and aquacultural activities in his State. He explained the importance of ongoing research initiatives that will help improve the opportunities for agricultural producers to grow those crops and engage in those agricultural and aquacultural pursuits, and to do so profitably, helping to guarantee safe and wholesome supplies of food and food products for people in that State and throughout the country.

We have had a very difficult time in agriculture this year, and because of research, we are able to overcome some of those difficulties and provide hope that in these areas of particular stress in agriculture and aquaculture, we will be able to offer better days in the future

A considerable attempt and a determined attempt is made in this legislation to identify ways to help improve the opportunities for U.S. agricultural producers to stay in business, to deal with the problems of drought, of infestation of insects and pests, to deal with the problems of weeds and other threats to efficient operation and production of our agricultural lands.

There is nothing wrong with the Government providing Federal funds to help identify better ways of dealing with these problems in agriculture.

One other comment that particularly distresses me is the emphasis on criticizing the existing farm bill as if it is the reason farmers are having such a difficult time.

I recall several years ago when we first realized that in the Asian economies they were getting to the point where they were no longer able to import from our country agricultural commodities in the quantities that they had in the past because of the economic crisis. Particularly countries such as Korea, Japan, and other Asian economies were suffering—the called "tiger economies" of Southeast Asia. And to hear today a statement that for several years in a row we have had to adopt agricultural disaster and economic assistance programs because of the Freedom to Farm Act. Have Senators forgotten some of the problems that our agricultural producers and exporters have had to overcome that had absolutely nothing to do with the Freedom to Farm Act but everything to do with a worldwide economic crisis? That is the main problem that agriculture had in the first 2 years of this existing farm bill.

To hear some Senators today indicting, again, the Freedom to Farm bill for the results of this year's drought is another new stretch of the imagination and credibility of this institution. Senators know enough not to believe that.

The Senator from Alabama was pointing out how in his State the drought problems are the worst in memory—and not just this year but add to the problems that occurred last year—and you understand how serious, how desperate the situation is in agriculture in Alabama this year, to cite one example. It has nothing to do with the Freedom to Farm Act.

Many worked very hard to craft the farm bill of 1996, Democrats and Republicans in the Senate and in the House—of course, it was not unanimous. But they worked hard to develop the best possible legislation under which we could provide support and rules under which the Federal Government could make available incentives for production agriculture, stabilize prices, and have a predictable level of support

from the Federal Government. The bill attempts to avoid the ups and downs, the whims, of one administration or the other, the vicissitudes of a Congress that is unpredictable at best on these matters. The bill prescribed well in advance, over a period of years, the level of assistance for commodity producers that were eligible for benefits—that was the result of that negotiation in the legislation that was produced.

And now to lay it all off on that, as if that is the reason for these difficulties, to me, goes too far and deserves a response. It ought to have a response. I am pointing out at least two instances where that indictment and that criticism is just not accurate, it is not supported by the facts, and it has nothing whatsoever to do with this legislation.

This legislation includes, however, \$3.6 billion in additional assistance of an emergency nature to try to assist those who have had difficulties this year over and above those that were expected. Because of findings made by the Senate and the House and the administration, this justifies emergency funding, and it is included in this legislation.

So I am hopeful and I am confident that the Senate is going to recognize the legitimacy and the importance of adopting this conference report. It reflects a lot of hard work by members of our appropriations subcommittee that developed the legislation, working in a bipartisan fashion, and working with our colleagues in the other body after our bill was passed and we negotiated this conference report with them, to come up with the best possible work product under the circumstances that we find ourselves today.

But no matter how much money we appropriate for research, for disaster assistance, for export assistance, trying to help stimulate our sales in overseas markets, we cannot solve all the problems of agriculture by the passage of this one bill. Everybody knows that. But it is a major and important step, and it will benefit a lot of American agricultural producers.

There is also more in this bill than just production agriculture assistance, but it is an important aspect of this legislation. This is a \$78 billion bill. Nearly \$40 billion of the funds relates to agriculture, landowner assistance, research to try to help do the things you have to do to maintain efficiency, understand the new technologies, translate the research from the laboratory to the farm through extension programs so that we have the finest, the most efficient, the most dependable agricultural sector in the world. This bill achieves those goals.

We also, at the same time, provide food safety programs, an inspection service that is fully funded, a food safety initiative that is fully funded at the request of the administration, to make sure that we have a wholesome supply of food, and it is fit for consumption by Americans, and it is reasonably priced.

We achieve that goal in this legislation. There are many in our country who do not have the benefit of high incomes. We have low-income people who live in poverty areas who need food assistance. This legislation includes school lunch program and school breakfast program funding. It includes Women, Infants, and Children Program funding, Food Stamp Program funding, assistance to soup kitchens, to those who use surplus commodities to provide lunches and meals for people who cannot afford food, so that we do not have people who are out of work and out of food. This legislation provides that important benefit as well.

So, on balance, this is a good bill. It deserves the support of the Senate. I hope all Senators will support it.

The PRESIDING OFFICER. The Senator from Wisconsin.

 $\operatorname{Mr.}$  KOHL. Mr. President, I yield our time.

Mr. COCHRAN. Mr. President, I ask for the yeas and nays on the conference report.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be.

The question is on agreeing to the conference report. The clerk will call the roll

The legislative clerk called the roll.

Mr. NICKLES. I announce that the Senator from North Carolina (Mr. HELMS) and the Senator from Minnesota (Mr. GRAMS) are necessarily absent.

Mr. REID. I announce that the Senator from Delaware (Mr. BIDEN), the Senator from California (Mrs. FEINSTEIN), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Connecticut (Mr. LIEBERMAN) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 86, nays 8, as follows:

#### [Rollcall Vote No. 277 Leg.]

#### YEAS-86

The conference report was agreed to. Mr. COCHRAN. Mr. President, I move to reconsider the vote.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. COCHRAN. Mr. President, I sug-

gest the absence of a quorum.

The PRESIDING OFFICER. The

clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### MORNING BUSINESS

Mr. COCHRAN. Mr. President, I ask unanimous consent that there be a period for morning business with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEMORIAL TRIBUTE TO FRED-ERICK HART BY REVEREND STE-PHEN HAPPEL

Mr. THURMOND. Mr. President, it was only a little over a year ago when this nation lost one of the most inspiring, talented sculptors of the 20th century. Frederick Hart's passionate spirituality and his extraordinary ability to transform human emotions into physical elements were reflected throughout his works of art, and his tragic death has left a tremendous void. I know that I convey the thoughts of all who had the privilege of thoughts of all who had the privilege of condolences to his wife, Lindy, and their two sons, Lain and Alexander.

On October 6, 2000, Reverend Doctor Stephen Happel, Dean of the School of Religious Studies at Catholic University, paid tribute to Frederick Hart at a memorial service held in his honor at the Washington National Cathedral. Dr. Happel's poignant remarks are a testimony to a man who embraced the complexity of God and art, and I ask unanimous consent that his remarks be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THE CATHEDRAL YEARS

(Remarks of Stephen Happel, Memorial for Frederick Hart, National Cathedral, 6 October 2000)

"We have seen that without the involution of matter upon itself, that is to say, without the closed chemistry of molecules, cells and phyletic branches, there would never have been either biosphere of noosphere. In their advent and their development, life and thought are not only accidentally, but also structurally, bound up with the contours and destiny of the terrestrial mass," (P. Teilhard de Chardin, The Phenomenon of Man [New York: Harper Torchbook, 1961], 273). "The term of creation is not to be sought in the temporal zones of our visible world, but . . the effort required of our fidelity must be consummated beyond a total metamorphosis of ourselves and of everything surrounding us." (P. Teilhard de Chardin, The Divine Milieu [New York: Harper & Row, 1960], 78). The evolution of everything cannot fulfill itself on earth except through reaching for something, someone outside itself. In doing so, literally everything is transformed.

These quotations from the Teihard de Chardin's Phenomenon of Man and The Divine Milieu were the human milieu that I found when I walked into Frederick Hart's life in 1973–74. He had joined an Inquiry Class at St. Matthew's Cathedral during a particularly difficult time in his life. Inquiry classes are traditional Catholic ways for people investigating new knowledge and spiritual meaning. Rick was living in his studio, a garage on P St with a bedroom attached, his first plan for the facade of the Cathedral rejected (along with all the other sculptors). He was looking for a comprehensive vision in which his own work could struggle to be born. Or better, his artistic work struggled to evolve and create a world, an environment that could grow like a green space in a desert, expanding to nourish the beautiful on the planet. And he was looking for some words to mirror the sculptural world he was inventing.

Frederick Hart arrived at the National Episcopal Cathedral in the 1960's as a mail clerk. He had decided, after trying his hand at painting, that sculpture was his vocation. but he needed a place to learn. The learning took place here on this spot, under the guidance of Roger Morigi, one of the last classic master stonemasons, whose techniques went back to Michelangelo and Leonardo da Vinci. Rick graduated from mail clerk to apprentice, when Roger, an often difficult, sometimes volcanic, professional father, found the fellow "promising." After Rick completed a bust of Philip Frohman, the architect of the Cathedral, as a gift for the Cathedral (1969), the clerk of the works, Richard Feller, recognized that this young (now 26) sculptor should be included in the competition for the facade sculpture. Rick continued to produce bosses, gargoyles, and the classic Erasmus, a Catholic reformer with an ironic tone (not unlike Rick's own) until April, 1975 when his second set of motifs for the central tympanum and the trumeau sculpture were approved.

I met Rick at that Inquiry Class at St. Matthew's Cathedral on Rhode Island Avenue. I gave a talk on the sacraments in which I spoke about how symbols are neither subjective nor secondary in our religious lives. I paralleled the power and effectiveness of artwork and the Sacraments. Each of them transform us if we let them, they invite us into the world they project in front of us. They announce a better world that has not quite arrived, but will if faith prevails.

Artistic and sacramental symbols are not substitutes for what is not there, but an incipient presence of the whole, pushing its way into our sometimes dull and quotidian conscious life. Even though the routine of work and domestic life can screen out what is truly beautiful and holy, symbols can break through and insist on being seen, heard, and touched.

Rick, like the symbols themselves, had a way of fidgeting into a conversation. Although he was respectful of the fact that we had never met, he could not quite resist asking lots of questions early on at the meeting. It did not take long for the two of us to discover that we were cultural and religious siblings, we were both committed to the ways in which religious symbols could change public life. After the "official" conversation was over, Rick, Darrell Acree, Father James Meyers and I went to the Dupont Village Pizza, regrettably no longer there, ordered pizza and (I have to say) more than one pitcher of beer while discussing art, the sacraments, and his plans for the Cathedral's facade. Somehow I'm quite sure that the Lord would not have understood our discussing the sacraments over the pizza and beer!

Rick was at the beginning of his new proposal. Basically, he just wanted to know whether his view of the world was theologically crazy. It was not; it was genial. Through the help of his friends, he had not only made his way from Childe Harold and the Benbow, local pubs, but he had also read Teilhard de Chardin and classic philosophies of art. In between these books and his wanderings, he would take his meager paychecks from the National Cathedral to build a garden with a fountain in the backyard of the garage and draperies to remake his interior world. The next winter the drapes were useful; they kept him warm when he wasn't sleeping with the two dogs that sufficed as a heater in the unheated studio.

Rick lived physically on the margins during those years. Deliberately, energetically; he found the "in-between" a creative locus in which he could explore the ways in which the body could evoke mind and heart, in which the material embodied the spiritual and eternal, in which the physical could struggle, emerge, and become other than it is. This was a man for whom ideas were a passion; and passions could become ideas. I had no trouble finding a life-long friend—or better, a friend for all of his life.

Later that evening I saw the gouache designs he had already completed for the project of Creation, Adam and Sts. Peter and Paul. But as in all cases with my experience of Rick's work as it evolved, the idea was somewhere within, grasping for life and open air, to live in the public world. Rick had to produce a "statement," as you know, for the competition. That night he and I spoke about how creation evolved, the role of human beings in this evolution, and the primary, initiating power of God's love. If you will, it was a course in Christian anthropology, a human nature aiming beyond itself, a human being unable to make sense of itself without reference to the Other-to God. I took the pieces he had produced, added some theological jargon and sent them back to him. He re-worked them again and sent them in along with the drawings. He won. We are living in the results of his labor.

Medieval Cathedrals emerged from a vastly different anticipated future. They were painted, very colorful places of worship, filled with multiple altars, incense, and song. An entry through the main doors at the Ca-

thedral at Autun shows an either/or world—either heaven or hell. Christ the Judge seated on a throne presides in the midst of a heavenly court. On Christ's right, angels push souls into the mansions of heaven where Mary and the apostles reside; on the left, demons weigh souls and send them off to torment.

Rick's vision for the façade of the National Cathedral coincided with the courageous commitment of the building committee. The theme was creation, a new image for a National Cathedral in a new country. The vision was both/and—the material and the spiritual. How to imagine both a primordial past and a transformed future—at the same time? How to make the stone fly from earth into the infinite horizon of the Universe? How to unite the individual and the communal in a contemporary world where the radically autonomous, isolated subject is the ideal? Can what is new be rooted in history and tradition? For Rick, it was both/and in his sculpture, not either/or.

Creation in the stone embodiment of Frederick Hart is an ongoing event-what theologians call a creatio continuia—simultaneously "conservation" and "preservation" by God. This is not an image of a distant past event, astronomical or human, but the constantly emerging present life of the human community. Ex Nihilo symbolizes the choral dance, the human perichoresis in which we are all even now part of one another, linked body, soul, mind, and heart. The figures emerge from the ground, but are not yet completely defined. As Rick used to say, the Ground from which they come is as primordial as the figures that emerge. Without the involution of matter, sinew and bone folding and revitalizing themselves (as Teilhard said), the unique figures that are human beings would not appear.

Adam is the test case. The central trumeau figure is at once grasping for the air and being grasped. With closed eyes, he is the old Adam yearning with his right arm to push from the ground from which he comes; with the left, he is being pulled, however tentatively, from the swirling ooze, tugged by an invisible hand. The torso leans ever so slightly upward.

This Adam is both the old Adam—and on a longitudinal axis with the new Adam sitting in glory over the high altar on the reredos. It is also an Adam for an American context, both striving to enter the world and helped by One he cannot yet see. This is not a solo, antagonistic, power-hungry figure in the style of Nietzsche; this sculpture has its humanity in and with an Other, a partner who cooperates to bring it into existence.

Perhaps it is this theme that is subversive in Hart's sculptural theology: the sculpture invites, seduces, even provokes the viewer into participation in the world it is announcing. St. Paul, caught at the moment of transformation, the mystic transported to the seventh heaven, sinks below the emergence of the night sky from the swirling chaos. St. Peter, the only facade sculpture with his eyes open, draws his net to build the church under the creation of the day. Thus Hart presents time and space in a single sensuous continuum in which the history of the early Church unfolds from the call of Adam and all humanity pulled out of the visible chaotic ground.

In this sense, Rick's work here (and elsewhere) offends people. Not simply because it does not 'fit into' the current or recent art establishment—though the 70's were not a time for well-modeled, fine art. His work demands of the viewer a participation that in-

sists on re-making the world. Again I quote Teilhard de Chardin: "To create, or organize material energy, or truth, or beauty, brings with it an inner torment which prevents those who face its hazards from sinking into the quiet and closed-in-life wherein grow the vice of egoism and attachment. An honest workman not only surrenders his tranquility and peace once and for all, but must learn to abandon over and over again the form which his labor or art or thought first took. and go in search of new forms." (P. Teilhard de Chardin, The Devine Milieu, 41) Frederick Hart knew this intimately, even painfully. The facade sculptures reach out from the center to the edges of day and night and extend themselves into the city and our world. They proselytize; they preach; they evangelize about how the world could be if values of beauty and truth were embraced. For Rick these were moral values.

Just as Enlightenment values of autonomy, individual history, and emotional independence were moral imperatives, so Rick Hart's work pushes beholders into their inner lives, asking for cooperation to build a world. Rick's sculptures embody the very boundaries he lived between: they provoke viewers into asking about the aura of the Other that envelops them in the material stuff of their day to day lives. But sensing the material as a symbol of the immaterial is not a current ideal. Cooperation is not a current norm. Newspapers are sold on conflict and disagreement; debates are structured on differences; business is won or lost on the basis of unique combative marketing: computer systems are structured on eitheror options.

The theology of cooperation Rick espoused in his art, despite his love of playing the antagonist in conversation, was absolutely Trinitarian. The chorus of human activity was a symbol of the internal life of God. The God who creates us; the God whose Beloved Incarnate One we follow and worship; the Spirit that animates human history—all are One terrifying and vivifying, swirling fire. We live in the midst of the divine milieu, as Teilhard says; we cannot escape our God. "Is the Kingdom of God a big family? Yes, in a sense it is. But in another sense it is a prodigious biological operation—that of the Redeeming Incarnation." For Rick, God lives in the heart of matter, calling us, prodding us to share in the divine life of love, justice,

Rick's best work, his masterpiece on the facade of this building, invites the city to admire the house of prayer, but more to enter it. The sculptures set up the conditions under which a community, a city might transform itself. Enter the choric dance; establish a cooperative rhythm; be drawn like Adam to what you cannot see; drop the sword of contention and enter the mystical night—and maybe, just maybe, you will be able to build the day. You might find God.

Rick Hart was a friend. But I make no apologies for my praise of his work; I believe I have been privileged to know a great, passionate artist whose values emerged within his creative processes and embodied themselves there. As a result, I know that long after I am dead, the ideas and values he, I and others shared in friendship will awaken others. The symbols will remain—continuing to make parts into wholes, building a community of living stones from the stones he shaped, drawing us beyond ourselves into God.

TRIBUTE TO GOV. MEL CARNAHAN

Mr. HARKIN. Mr. President, it is with a heavy heart that I stand here today to pay tribute to a good friend, Mel Carnahan, Governor of Missouri, and express my sorrow at the loss of his son Randy and his longtime aide, Chris Sifford.

I had known Mel for a long time. I have followed his career with pride and admiration as his neighbor to the North. Mel's service to the State of Missouri spans four decades and even more elected offices. He started out as a municipal judge in his hometown of Rolla at the age of 26. He served in the Missouri State Legislature. He was State treasurer and Lieutenant Governor, and in 1992 became the 51st Governor of Missouri.

Like many of my colleagues, I had the privilege of campaigning with Mel this past year. As I watched Mel Carnahan on the trail and watched him talk with the people of Missouri and listen to their concerns and their hopes to gain their confidence and trust, I was reminded of something Adlai Stevenson once said:

Every age needs men who will redeem the time by living with a vision of things that are to be.

Mel Carnahan was one of those men, and as Governor of Missouri, he had a vision for his State and for our country. We saw it in his work on education. We saw it in his work on Missouri's economy. He created thousands of jobs and moved some 100,000 people from welfare to work. We saw it in his work on crime and children's health insurance and so many other issues, how he stood up to the gun industry and stood strong for those who have the deck stacked against them.

He had a vision for this Nation which he took into his Senate race. He believed, as Hubert Humphrey stated, that the measure of government is in how it treats those who are in the dawn of life, the children, those who are in the twilight of life, the elderly, and those who are in the shadows of life, the sick and the needy. That is why he wanted to come to Washington. This was his vision.

Its very urgency makes it harder to accept the fact that he was taken from us before he could help make it a reality. His death is a loss for all of us in Congress who would have had the honor of working with him. It is a loss for the people of Missouri who would have had the privilege of being represented by him. It is a loss for the people of this Nation who would have had the good fortune of being served by him.

We cannot let our sorrow overwhelm us. We cannot let our sadness become bitterness, despair, or regret. That would not be a fitting tribute to Mel Carnahan. Rather, we owe it to him, to his country, and to his family to take up the torch of his life's work and to

carry it on. We owe it to ourselves to let his memory be our solace, his record our guide, and his legacy our inspiration, to let the life of this good and decent man continue to light our way. That is the best and enduring memorial for our friend Mel Carnahan.

Earlier this year, I was flying in that very plane with Mel and his son Randy at the controls. Being a pilot myself, we talked a lot about flying. It was a night flight. We talked about the aircraft. I talked to Randy about the different instrumentation he had on his aircraft. Randy was a very qualified pilot. He knew what he was doing. Mel was, too. Mel had been taking flying lessons and had hoped to complete them at some time but had to interrupt them for his campaign.

For me, it makes the loss even so much more poignant and tragic since just a couple of months ago I was on that very plane with them. We do not know exactly what happened. Right now what went wrong is really of no consequence. What is of consequence is that we have lost three good lives in that tragic accident in Missouri.

My heart and my prayers are with Jean, his very lovely and very dedicated wife, their children Russ, Robin, and Tom, and with the family and friends of Chris Sifford who also lost his life in that tragic accident.

Mr. DODD. Mr. President, I rise to add my voice to those who have come to the Senate floor to pay tribute to Missouri Gov. Mel Carnahan.

Those of us who knew and admired Governor Carnahan share a profound sense of loss at the news of his untimely death and the deaths of his son Randy and longtime aide Chris Sifford in a plane crash on Monday night.

I had the pleasure to meet Mel Carnahan on several occasions in recent years. I knew him as a good man, as someone who spoke passionately and cared deeply about the people of his State, especially its children. He was a dedicated and talented public servant who never wavered in his belief that public service is a noble calling.

Few if any would question that Mel Carnahan's heart was with the working people of his State. In his first year as Governor, he called for a tax increase to fund the State's public schools. Allies and opponents alike said he was sealing his fate as a one-term Governor. The voters saw his decision for what it was: an act of political courage. They reelected him in a landslide.

In addition to work on behalf of the children of Missouri, he fought for better health and safety standards for seniors in nursing homes. He championed tough measures to fight crime. He brought about sensible welfare reform. And he successfully streamlined his State's government, redirecting hundreds of millions of dollars for job creation, education, and law enforcement.

The Democratic leader said earlier this week that Governor Carnahan was a man of such talent and insight that he would have succeeded in any field which he chose. Anyone who knew this man would, I believe, have to agree with that view; that he chose the field of public service and brought credit and esteem to a profession that is all too often criticized. It brought a better life for millions of Americans who reaped the harvest of his tireless efforts on their behalf.

I extend my deepest sympathies to the Governor's wife Jean, their family, the family of Chris Sifford, and the people of the State of Missouri.

#### VICTIMS OF GUN VIOLENCE

Mr. WELLSTONE. Mr. President, it has been more than a year since the Columbine tragedy, but still this Republican Congress refuses to act on sensible gun legislation.

Since Columbine, thousands of Americans have been killed by gunfire. Until we act, Democrats in the Senate will read the names of some of those who have lost their lives to gun violence in the past year, and we will continue to do so every day that the Senate is in session.

In the name of those who died, we will continue this fight. Following are the names of some of the people who were killed by gunfire one year ago today.

October 18, 1999: Michelle Alexander, 21, Charlotte, NC; Earl Baker, 22, St. Louis, MO; Karlton Cannon, 30, Chicago, IL; Michael Jones, 49, Knoxville, TN; Kenneth Pastuszak, 28, Detroit, MI; Brian Webster, 26, Detroit, MI; and Unidentified Male, 45, Honolulu, HI.

We cannot sit back and allow such senseless gun violence to continue. The deaths of these people are a reminder to all of us that we need to enact sensible gun legislation now.

#### FEDERAL REGULATIONS

Mr. INHOFE. Mr. President, in fiscal year, FY, 2000, some 54 federal departments and agencies and over 130,000 federal employees spent over \$18.7 billion writing and enforcing federal regulations.

The number of full-time positions in regulatory agencies reached an all-time high during the Clinton/Gore Administration. The era of big government is not over. In fact, it is in its hey day. In FY 2000, bureaucratic staffing set a new record, exceeding the previous all-time high of 130,039 in FY 1905

Rochester Institute of Technology's Professor Thomas Hopkins estimates that the total cost of federal regulation will be \$721 billion in 2000, which is equal to about 40 percent of all federal spending—representing a hidden tax of more than \$6,800 per year for each American family. This represents direct compliance costs, not indirect

costs such as the cost of lost productivity, increased cost of goods and services, as we are seeing with gas prices right now, and lower wages—among others.

These figures are very important for us in Washington to keep in mind—when we are developing laws and regulations. When considering the entire federal budget, \$6,800 per year may seem like peanuts, but \$6,800 is a great deal of money to millions of hard working Americans.

To put Professor Hopkins' estimates in perspective, current regulatory costs are about 40 percent of the size of the federal budget—which stands at an estimated \$1.9 trillion in FY2000—and represent about 8 percent of America's gross domestic product. Moreover, Hopkins' estimates of annual U.S. regulatory costs exceed the entire 1998 GDP of such countries as Canada, \$604 billion; Spain, \$553 billion; Australia, \$364 billion; and Russia, \$275 billion.

Beyond the cost of regulations and the size of the federal bureaucracy, a very troublesome trend is occurring in the regulatory arena right now. In its last few days in office, the Clinton/Gore Administration is currently pushing through a number of new rules—particularly in the environmental arena. This last-minute regulatory push, also known as "midnight-regulation," serves two purposes for the Clinton/ Gore administration: (1) to pander to the special interest groups and (2) to make regulatory decisions more difficult for the next administration.

This administration is playing a zero sum loss game with the regulatory process. While special interests and bureaucrats are winning, the American people are losing. When well thought out and reflecting consensus, regulations can certainly provide benefits to the American people. However, what is most disturbing is the fact that this administration will promulgate these regulations at any cost-at the financial cost of the American people—at the cost of making a mockery of rulemaking due process—even at the cost of environmental protection. This isn't just my opinion, other experts agree. Wendy Gramm, former Administrator of OMB's Office of Information and Regulatory Affairs, and Susan Dudley-both of whom are with George Mason University's Mercatus Centerrecently wrote in an article in The Atlanta Journal, "when regulations are rushed into effect without adequate thought, they are likely to do more harm than good."

Eighty-eight rulemakings are in the process at the EPA.

On August 25, 2000, a Washington Post article's byline read, "[m]indful that Republicans could occupy the White House in less than six months, the Clinton administration is working feverishly to issue a host of new regulations supported by environmentalists

and other liberal leaning groups . . ." The article goes on to state that, "[a]t the EPA alone, officials have listed 67 regulatory decisions looming before Clinton's second term expires in January."

In response to the Washington Post article, the National Manufacturers' Association requested this list of 67 pending "regulatory decisions." However, NMA's request was denied. Thanks to the leadership of Representative DAVID McIntosh, the Clinton/ Gore Administration submitted the list of Representative regulations. McIntosh discovered that it was not 67 regulatory decisions—but rather 88! This does not include the numerous interim final regulations, policy statements, and guidance documents, which EPA is pushing through.

In fact, the average pages of regulations in the Federal Register is currently sky-rocketing. Currently, the Clinton/Gore Administration is averaging 210 pages of regulations per day in the Federal Register. The last time that the American people experienced such a flood of regulations was at the end of the Carter Administration—when the Federal Register had an average of 200 pages of regulations per day. Mr. President, there is a graph of the average number of regulations in the Federal Register during election years since the Ford Administration.

Here are some examples:

The Clinton/Gore administration's "Total Maximum Daily Load" or "TMDL" Rule.

The now final TMDL rule drew more than 30,000 public comments and has been the subject of 12 congressional hearings. An overwhelming majority of these citizens, including environmental, community, state, labor union, and business organizations, expressed their opposition to the rule. Their concerns have included such issues as the rule's effectiveness, costs, technical and scientific feasibility, and basic structure.

On June 30, 2000, in response to the testimony and thousands of letters that I and other Members of Congress received in opposition to EPA's proposed TMDL rule, Congress included a provision in the FY 2001 Military Construction Appropriations Act that would prohibit EPA from implementing this rule. This provision was a bipartisan attempt to direct the EPA to take a step back and address the concerns of the American people—not a sneak attack on the environment as many extremist environmental groups tried to portray it.

The U.S. Congress sent a clear message to the White House and EPA. However, the Clinton/Gore Administration allowed EPA to finalize its proposed TMDL rule shortly before President Clinton signed the FY 2001 Military Construction Appropriations Actinto law. I have grave concerns about

any Administration which seeks to make the will of Congress "meaningless"—which is what the White House was quoted as saying. The very thought of such an action is a vulgar abuse of power and blatant disregard for the legislative branch of our government.

The Clinton/Gore EPA's poorly thought-out sulphur/diesel rule.

For some reason the EPA is shocked and surprised that fuel prices are spiking because of the introduction of the new RFG phase 2 regulations. The trouble is the EPA continues to roll out new restrictions and regulations on gasoline and gasoline formulas without any regard to what the consequences are to the consumer. I am concerned that the Clinton/Gore sulfur diesel regulation is a perfect example. This is a regulation which will cause price spikes for fuel over the next ten years, and EPA has done a miserable job in predicting the consequences of this regulation. I believe there will be severe shortages of diesel fuel which will lead to higher prices for truckers, farmers, and the home heating market. It is highly likely that instead of installing the expensive desulfurization equipment many companies will choose to export their diesel instead of selling in the U.S., creating greater shortages. While they are discussing finalizing this rule, they are also discussing the need for a technology review in three years on the pollution devices for the trucks themselves. It seems the EPA is not sure if the technology will be available which requires the low sulfur diesel fuel. But this review will take place after the refiners begin installing the expensive low sulfur equipment.

The real shame in this is that it could be avoided if the EPA were more reasonable in their expectations. Instead of calling for a 97 percent reduction in sulfur, they could have taken a 90 percent reduction in sulfur which would have produced the same benefits for particulate matter at half the cost. While it is true that NOx would only be reduced by 75 percent instead of 95 percent. I think we need to stop and look at it, 75 percent reduction at half the cost is a bargain. Once again the EPA appears bent on chasing pennies of benefits for dollars of costs.

My subcommittee will be looking even more closely at the cost of EPA's programs on our nation's fuel supply. I really think the lasting legacy of Carol Browner might very well end up being these gasoline price spikes over the next ten years, unless something is done to restore some sanity to this process.

EPA's arsenic regulation.

The EPA is reconsidering its proposal for lowering the federal standard for arsenic in drinking water. The 5ppb standard, for which EPA is seeking comment, is scientifically unjustifiable. Many experts believe that "given the available information EPA has provided, a final standard below 20 ppb can

not be justified." This rule is anticipated to cost \$1.5 billion annually and require \$14 billion in capital investments—threatening to bankrupt small towns. EPA's own analysis reveals will impose net costs on users of drinking water systems. Unfortunately, this regulation is just another example of the EPA putting the policy ahead of the science—at the cost of the American people.

Mr. President, I could go on and on about these midnight regulations.

The Clinton/Gore administration is circumventing regulatory rulemaking due process.

A fundamental safeguard provided by the Administrative Procedure Act (the "APA") is to ensure that federal agencies provide an opportunity for informed and meaningful public participation as part of the regulatory rulemaking process.

As if midnight regulations were not bad enough, the Clinton/Gore administration attempts to short-cut APA safeguards by the issuance of interim final rules, guidance documents, and policy statements. These documents, which do not go through the notice and comment rulemaking process required by the APA, are not subject to review by the courts. Often, these documents suggest that regulated entities must comply with requirements beyond the requirements found in law or regulation. Though agencies deny the fact these documents are legally biding, it is clearly an attempt to make law outside the rulemaking process—in a way which tries to shield agencies from judicial review.

For example, on April 14, 2000, the U.S. Court of Appeals, in Appalachian Power v. EPA, struck down EPA's "Periodic Monitoring" Guidance. Among it's findings, the Court found: (1) EPA was creating broad new authority through the guidance document; (2) EPA did intend the guidance document to have binding effect; and (3) the guidance was illegally issued outside the APA rulemaking procedures.

From 1992 to 1999, the Clinton/Gore EPA published over sixty-five interim final rules, guidance, and policy statements in the Federal Register. However, there are many more of these documents, which have never been published in the Federal Register—in violation of the Federal Register Act.

And the cycle continues . . . on August 28, 2000, EPA has just issued a guidance document on Environmental Justice. While I will reserve the policy discussion on environmental justice for another time, the process question arises again. Even though the Congress and many stakeholders urged EPA to issue an Environmental Justice Rule, which would be subject to the APA's opportunity for notice and comment as well as judicial review, the EPA refused to do so. Instead, the EPA again

created a binding regulation, albeit the subject. Moreover, the losses inthrough a guidance document, which is not subject to judicial review. the subject. Moreover, the losses incurred in that conflict and our responsibility to do what we can to help bring

Additionally, in the case of many of the 88 rules, EPA will argue that the regulation has been a work in progress for years. EPA's claim begs the question, "Then why cram through the final product when EPA is juggling so many balls at once." Though some of the regulations may have been proposed before, it does not mean that the proposal is still relevant—which we see with EPA's Proposed New Source Review Rule. In this and other cases, EPA should re-propose the rule rather than going final with it's obsolete, out-dated proposed rule.

In conclusion, the Clinton/Gore Administration is in overdrive to make policy by administrative edict where it has failed to do so by the legislative process or by following the regular regulatory order. President Clinton and Vice President Gore can't really believe that the less the public participates the better-but they're acting like they do. The fact that the EPA is cramming though scores of rules and other regulatory decisions without public discourse is irresponsible. I call on the Administration to exercise regulatory restraint and stop exceeding its legal authority without undergoing appropriate rulemaking procedures.

Rushed and poor judgement and deliberate acts that exceed an agency's authority can cause serious disruptions in the course of American families' lives. Therefore, I, along with other Members of Congress, will explore the various options, which Congress could use to address this Administration's numerous egregious political and antidemocratic actions. Environmental protection is vitally important, but so is the integrity of our government.

## STATE DEPARTMENT MEMORANDUM

Mr. McCAIN. Mr. President, yesterday, we learned that a memorandum from the Inter-Agency Coordinator for the State Department instructed the Voice of America to refrain from broadcasting an editorial denouncing the terrorist act that took the lives of seventeen American sailors on the U.S.S. Cole and expressing the United States' resolute opposition to all terrorism. Apparently she perceived in the editorial an insensitivity to the fact that "the seventeen or so dead does not compare to the 100+ Palestinians who have died in recent weeks where we have remained silent."

Mr. President, I was not aware that the United States had remained silent about the loss of life, both Israeli and Palestinian, in the current conflicts threatening the prospects for peace in the Middle East. Indeed, I believe the President and a good many members of Congress have been quite outspoken on

the subject. Moreover, the losses incurred in that conflict and our responsibility to do what we can to help bring violence there to an end, does not preclude the United States from strongly, unequivocally addressing the first responsibility of any U.S. Government: the safety of American lives.

I understand that the State Department spokesman has issued a statement calling the official's extraordinarily offensive memorandum "wrong," "not approved through appropriate channels" and assuring that it in "no way reflects the views of the Secretary or the Department." Fine, we can let the matter rest there.

Let me add a thought, though. It's a free country, but the official in question is not free to represent her own controversial priorities as official U.S. policy. Should she be unable to meet this basic professional and civic responsibility, perhaps she should seek a place of employment that is more compatible with her views.

#### TREASURY-POSTAL/LEGISLATIVE BRANCH APPROPRIATIONS—CON-FERENCE REPORT

Mr. JOHNSON. Mr. President, last week, the Senate passed a conference report which contained the Treasury-Postal appropriations bill, the legislative branch appropriations bill, and a repeal of the century-old telephone excise tax. This package was the first of the several "mini-omnibus" packages we will likely consider in the waning days of this Congress, and unfortunately, it demonstrates the fundamental problems associated with this type of legislating.

I voted against this mini-omnibus for several reasons. The Senate never had the opportunity to even consider the Treasury-Postal bill on the floor. Many issues that are critical to Senators could not receive deliberation because of the unwillingness of the leaders to allow the Senate to fulfill its constitutional directive of deliberating on the crucial issues facing the nation. I will not review the entire list of neglected issues again. That recitation has occurred elsewhere, and I am confident we will hear more about them in the coming days.

Suffice it to say, I deplore the procedure that permits unpassed appropriations bills to go right to conference. Other than the procedural irregularity, I opposed this conference report because it did not contain language to strike the congressional pay raise. It is unfathomable to me that at a time we cannot raise the minimum wage to bring a full-time worker above the poverty line, we once again raise salaries for Members of Congress. I have opposed any effort to raise congressional salaries in every year since 1994. I, and similarly-minded colleagues, were denied the opportunity to fully debate this issue. I cannot support this increase, especially under the current circumstances with so much unfinished business.

Unfortunately, many initiatives I support were also included in this package. Among them is the repeal of the telephone excise tax, a revenue used originally to help fund the Spanish-American war. This three percent surcharge is among the most regressive taxes, and I was proud to be an early cosponsor of the effort to repeal it. In addition to cosponsoring the original legislation, I voted to repeal this tax when the repeal was offered as an amendment to the estate tax repeal.

In a time of unprecedented surpluses. we must fix some of the inequities in the tax code. I am disappointed we have not managed to accomplish more. Once again, this is indicative of the overly partisan nature of Senate activity, and this partisanship has blocked fair tax reform. Nonetheless, I am pleased we have at least resolved the federal telephone excise tax, a reform which will save all Americans \$51 billion over the next decade. I commend the major telephone providers for committing to pass fully these savings to consumers, and I once again regret that the unique and deplorable manner in which this Congress is fulfilling its responsibilities forced me to vote against this package.

#### CONGRATULATIONS TO KIM DAE-JUNG

Mrs. BOXER. Mr. President, I would like to congratulate Kim Dae-jung, the President of South Korea, on receiving the Nobel Peace Prize for 2000. This award is well-earned for a great leader whom many call the "Nelson Mandela of Asia." President Kim's life-long dedication to peace and reconciliation is evident in the fact that he had been nominated for this award on 14 different occasions. Last Friday's announcement made President Kim his nation's first Nobel laureate, a source of great pride for the people of South

Kim Dae-jung has led an extraordinary life, highlighted by an unwavering commitment to democracy. In fact, throughout his career, President Kim has been willing to risk his own life in standing up for the principles that allow South Korea to be the great nation it is today.

President Kim has indeed paid a heavy price for speaking out against totalitarian rule. Shortly after his first run for President in 1971, Kim was nearly killed in a car accident that many believed to be an assassination attempt. Two years later, he was kidnapped by South Korean agents, ostensibly because he was perceived as a threat to the status quo. He would have been killed, had the United States not intervened. In the years that followed,

President Kim survived jailings, house arrest, exile and numerous beatings.

Three years ago, President Kim campaigned on an innovative, open approach to reconciliation with North Korea, which he called the "sunshine policy." This policy of building ties with the North is on a scale that has not been seen in the history of postwar Korea. After winning the election, President Kim, a forgiving and religious man above all, pardoned the former military rulers who tried to kill him as his first act in office. He has also been a positive force for South Korea's economy which was at a low point when President Kim was elected. The South Korean economy grew by 10.2 percent in 1999 and is projected to grow by 6 percent in 2000.

President Kim's "sunshine policy" culminated in a June summit between the leaders of North Korea and South Korea. The summit was a success, and set a tremendous precedent for the relationship between the two countries. Speaking of the meeting, President Kim said, "the Korean people are one; we have a common fate. There is nothing we cannot do if we make steady efforts with good faith and patience." The possibility for continued conversation between North and South gives me great hope that the two sides have taken the first steps to a true and last-

ing peace.

The rebuilding process between the Koreas has been enhanced by several small but meaningful achievements. North Korea and South Korea have pledged to work on rebuilding roads and rail lines between the two countries. Earlier this summer, a brief reunion occurred of families separated by the Korean war 50 years ago. Just last month, the entire world was moved when the North Korean and South Korean teams marched together in the opening ceremonies of the Sydney Olympics.

I had the opportunity to meet President Kim in 1986 when he was under house arrest. I was very moved by his courage and faith and thought that he would some day lead his beloved nation. It is with great happiness that I take this opportunity to congratulate Kim Dae-jung and the people of South Korea on this historic occasion.

#### A SALUTE TO THE SAILORS OF THE U.S.S. "COLE"

Ms. LANDRIEU. Mr. President, I am deeply saddened by the loss of the brave men and women of the U.S.S. Cole. October 12, 2000 will long be remembered as a day of heavy emotions for our armed forces and all American people. All of our hearts have been consumed with anger and sorrow at the senseless act of terrorism that, on that day, left seventeen United States sailors dead, and thirty-nine injured. All young, all promising, all dedicated to defending America's values and way of

But my heart is also filled with pride in these men and women. Our sailors served in the finest traditions of the Navy, selflessly dedicating themselves to serving our country with bravery and integrity. And I rise today to honor those who gave their lives in the line of duty. We will not forget your superb service and ultimate sacrifice.

As I extend my heartfelt sympathy to the families of the Cole Sailors, let me also say to the world that the United States will not rest until those responsible for this attack are held accountable for this atrocious destruction of innocent American life. Let there be no mistake. We will use every tool in our arsenal to track down and charge our adversaries for this cowardly act.

The British poet A.E. Housman wrote, "The troubles of our proud and angry dust are from eternity and shall not fail. Bear them we can, and if we can, we must." Housman's poem speaks to our strong tradition of persistence and moral courage to stand up for our values. Let our resilience signal to the world that no terrorist attack can encroach our resolve. We will not shrink to defeat, but grow stronger in our commitment to securing peace and stability throughout this nation's areas of interest. Seventeen U.S.S. Cole sailors did not suffer tragic deaths in vain. They died protecting freedom, and defending the greatest nation on Earth.

So now, I join my colleagues and the families of the U.S.S. Cole crew in solemn prayer for these brave sailors, the protectors of America's great democracy. God bless you and God bless America.

#### FEDERAL PRISONER HEALTH CARE COPAYMENT ACT

Mr. JOHNSON. Mr. President, I am pleased the President recently signed into law the Federal Prisoner Health Care Copayment Act. As you know, Senator Jon Kyl and I introduced last year a bill to require Federal prisoners to pay a nominal fee when they initiate certain visits for medical attention. Fees collected from prisoners will either be paid as restitution to victims or be deposited into the Federal Crime Victims' Fund. My State of South Dakota is one of 38 States that have implemented State-wide prisoner health care copayment programs. The Department of Justice supported extending this prisoner health care copayment program to Federal prisoners in an attempt to reduce unnecessary medical procedures and ensure that adequate health care services are available for prisoners who need them.

My interest in the prisoner health care copayment issue came from discussions I had in South Dakota with a number of law enforcement officials and US Marshal Lyle Swenson about the equitable treatment between presentencing Federal prisoners housed in county jails and the county prisoners residing in those same facilities. Currently, county prisoners in South Dakota are subject to State and local laws allowing the collection of a health care copayment, while Marshals Service prisoners are not, thereby allowing Federal prisoners to abuse health care resources at great cost to state and local law enforcement.

As our legislation moved through the Senate Judiciary Committee and Senate last year, we had the opportunity to work on specific concerns raised by South Dakota law enforcement officials and the US Marshals Service. I sincerely appreciate Senator KYL's willingness to incorporate my language into the Federal Prisoner Health Care Copayment Act that allows state and local facilities to collect health care copayment fees when housing pre-sentencing federal prisoners.

I also worked with Senator KYL and members of the Senate Judiciary Committee to include sufficient flexibility in the Kyl-Johnson bill for the Bureau of Prisons and local facilities contracting with the Marshals Service to maintain preventive-health priorities. The Kyl-Johnson bill prohibits the refusal of treatment for financial reasons or for appropriate preventive care. I am pleased this provision was included to pre-empt long term, and subsequently more costly, health problems among prisoners.

The goal of the Kyl-Johnson Federal Prisoner Health Care Copayment Act is not about generating revenue for the Federal, State, and local prison systems. Instead, current prisoner health care copayment programs in 38 States illustrate the success in reducing the number of frivolous health visits and strain on valuable health care resources. The Kyl-Johnson bill will ensure that adequate health care is available to those prisoners who need it, without straining the budgets of taxpayers.

#### ADDITIONAL STATEMENTS

## NATIONAL INVENTORS HALL OF FAME INDUCTEES

• Mr. VOINOVICH. Mr. President, I rise today to pay tribute to the inductees into the National Inventors Hall of Fame for the year 2000. Located in Akron, OH, the National Inventors Hall of Fame is America's shrine to those who have made significant contributions to our nation, and improvements to the quality of life for all mankind. As Governor of Ohio, I was proud to speak at the dedication ceremony for this magnificent facility in July of 1995, and I was pleased to have the Hall also serve as the backdrop for the Edi-

son Innovator Awards my office presented to companies throughout the State of Ohio.

Inductees into the National Inventors Hall of Fame represent the epitome of ingenuity and inspiration, and this year's class is no exception. Inductees for the year 2000 include: Walt Disney, whose name has become synonymous with imagination and creativity; Reginald Fessenden, whose pioneering work in the area of wireless communication led to the modern radio broadcasting industry; Helen and Alfred Free, whose work developing the "dip-and-read" urinalysis test greatly eased the lives of those suffering from diabetes; J. Franklin Hyde, whose discovery of fused silica made possible the fiber optic cable so widely used today; William Kroll, who escaped Europe before the onset of World War II, and whose work in his home laboratory resulted in a process that allows titanium and zirconium to be produced; and Steve Wozniak, co-founder of Apple Computer and the inventor of the modern personal computer.

Build a better mousetrap, and the world will beat a path to your door. In modern parlance, one might say that technological advancement is the engine that drives our economy. It is the biggest contributor to increasing our standard of living here in the United States, and the best way to improve the lives of individuals the world over. This progress is essentially made possible through the protection of intellectual property that is afforded by the U.S. Patent and Trademark Office, the main force behind the founding of the National Inventors Hall of Fame. In today's rapidly changing world, the Patent and Trademark Office is the "safe haven'' that encourages men and women to accept the challenge to build the better mousetrap through the protection of creativity and what our minds can produce.

Consider the accomplishments of the 158 inventors enshrined at the Hall. Consider the contributions they have made to society: to prolonging our lives and making them more enjoyable; to reducing our workload; and to allowing us to explore new continents and the heavens themselves. It is easy to see the power of invention and the tremendous impact inventors have on all of us.

As an Ohioan, I am always struck by the ingenuity and sheer determination of two Dayton bicycle workers who dared to believe that they could defy gravity with their winged invention. Little did the Wright Brothers realize that 66 years after their historic flight, man's inquisitive nature would improve upon their invention and put another Ohioan—Neil Armstrong—on the moon.

Invention is progress, and I salute the work of America's inventors, the U.S. Patent & Trademark Office and the National Inventors Hall of Fame in Akron, Ohio, for their continuing efforts to improve and enrich our lives.

#### A TRIBUTE TO VIRGINIA SHEHEE

• Ms. LANDRIEU. Mr. President, I wish to join with my colleague, Senator BREAUX, in recognizing the great civic contributions of my dear friend, Virginia Shehee. It is so appropriate that the Biomedical Research Foundation of Northwest Louisiana should be gathering to honor this amazing woman, whose vision and energy led to the creation of the Foundation and the many benefits that it has produced for the citizens of Shreveport—Bossier and Northwest Louisiana.

I have known Virginia Shehee and come to treasure her example and her friendship in my service as a State official in Louisiana and in my first term as a U.S. Senator. To those of us who believe that Louisiana must move aggressively to be part of the knowledge-based economy, the evolution of Biomed and the opportunities it has come to represent stand as a model of civic leadership and foresight. It is the story of a community that dared to dream big dreams at a time in its history when those dreams seemed most remote.

But those dreams are coming true, and young people who once had to leave home to participate in the new economy are now finding significant career opportunities in Northwest Louisiana. Of all the community leaders who can share in the credit for this remarkable achievement, none has played a larger role than Virginia Shehee. Her grit and unyielding persistence led to millions of dollars in state and federal construction and program dollars for a Biomedical Research Institute. And her salesmanship and gentle charm have opened doors to a world of promising cooperative relationships and new corporate citizens for Shreveport.

Some years ago, not too long after the Institute opened its doors, Virginia led a blue-ribbon group of Shreveporters, some half her age, on an industry-hunting trip through the mid-Atlantic and New England. Nothing could capture the indefatigable energy of the leader of the trip more than the words of a lapel button, which someone distributed to participants after the trip: "I Survived Shehee's March!"

As the CEO of one of Louisiana's largest companies and as a leader in the insurance industry, as one of the earliest women members of the Louisiana Legislature, as a caring steward of our great state university, as a devoted wife and mother and as someone who gives utterly selflessly and endlessly to her community, Virginia Shehee has earned the love and admiration of all of us who are privileged to know her and work with her. It will be

a great moment for me on the evening of Friday, November 3, when I get to be part of the evening in which the Shreveport community says, "Thanks, Virginia. Let Shehee's March continue." ●

## A TRIBUTE TO SPECIAL AGENT TOM LAPISH

• Mr. ABRAHAM. Mr. President, during the 106th Congress, the Detroit Field Office of the Federal Bureau of Investigation lost two of its most dedicated agents to battles with cancer. Both were respected not only for their professional accomplishments, but also for the manner in which they conducted themselves outside of their work, as each contributed considerably to the Detroit community. I rise today in honor and in memory of Special Agent Tom Lapish, one of these two men.

Special Agent Lapish entered on duty with the FBI in 1976. After a brief stay in Kansas City, he was assigned to the Detroit Field Office. In Detroit, he developed an expertise in white collar crime investigations, and was regarded as one of the Bureau's top agents in that arena. With a background in accounting, he thrived on the protracted, intricate nature of investigating complex fraud matters, and was formally commended for his investigative accomplishments on several occasions.

Not surprisingly, Special Agent Lapish was known for his attention to detail. He was also known for his high ethical standards. He stood for the ideals of the FBI motto—Fidelity, Bravery and Integrity—at all times. Even as his illness made him weak, he would contemplate going to the office to work on cases he had been assigned. In addition, he was very active within his church, helping to promote the Christian lifestyle which he believed so deeply in.

Special Agent Lapish was also an extremely gifted athlete, and his passion for soccer became legendary within the Detroit community. He served as the coach for nearly 30 soccer teams, and in this capacity mentored hundreds of young individuals. His impact on them was seen at his memorial service, which was crowded with soccer players paying final respects to their favorite coach. It can also physically be seen in the Detroit area, where a soccer field was posthumously named in his honor.

Special Agent Lapish passed away on May 18, 2000 at the age of 50. He is survived by his wife, Mary, and two sons, Matthew and Andrew.

The Federal Bureau of Investigation works hard to ensure that its agents set a strong moral example for the people they are entrusted to protect. There is no question that Special Agent Lapish was a leader in this regard. Dedicated to his Nation, his agency, his family and his faith, he was a

role model in the Detroit community, and he will be deeply missed.●

### IN RECOGNITION OF DR. CHARLES E. THOMAS

• Mr. TORRICELLI. Mr. President, I rise today to recognize Dr. Charles E. Thomas, pastor of New Hope Baptist Church upon the occasion of his retirement. During his time in the ministry, Pastor Thomas has shown a great commitment to both church and community.

Under Pastor Thomas's leadership and guidance, The New Hope Baptist Church has accomplished a great deal and continues to grow. The New Hope Day Care Center has been established and the edifice of New Hope has been renovated and expanded, creating a beautiful church with seating for over 1,200. Further, numerous programs have been implemented to enhance the lives of The New Hope members.

Pastor Thomas has also contributed much to the Newark community. He established the Minority Contractors and Craftsmans Trade Association and the New Hope Skills Center to enable individuals to pursue careers in carpentry, masonry, and machinery. In 1975, the New Hope Development Corporation was organized to build New Hope Village, a 170 family housing complex in Newark that provides affordable housing for lower income families.

For over 20 years, Pastor Thomas has dedicated himself to both his congregation and his community. His efforts have benefitted the lives of countless individuals, and he is richly deserving of our thanks and well wishes for his retirement.

#### REVEREND DR. BENNIE THAYER

• Mr. GREGG. Mr. President, it is with great sadness that I rise to note the recent passing of the Reverend Dr. Bennie Thayer. Dr. Thayer was an extraordinary and inspiring figure in the eyes of all who knew him, and I would like to take this opportunity to describe for the record just a few of his achievements and his many attributes.

I have found it striking that the people who are now mourning Dr. Thayer's loss come from so many different backgrounds and walks of life. Clearly this was a man who touched many people in many different ways. Dr. Thayer was an ordained minister, the Senior Pastor at the United Methodist Church of the Redeemer in Temple Hills, Maryland. He also worked tirelessly to expand the political activities and economic opportunities for African Americans, both within his community and across the nation. His funeral last Saturday literally produced an overflow crowd—testimony to the high esteem in which he was held in religious communities, in political circles, and among many others.

Reverend Thayer was also the President and the CEO of the National Association for the Self-Employed, and it was in this capacity that I had come to know him. Along with Senator JOHN BREAUX, Congressman JIM KOLBE and Congressman Charlie Stenholm, I cochaired the CSIS National Commission on Retirement Policy. In the course of our work we took testimony from all sorts of groups—seniors' groups, youth advocacy groups, employer groups, and others—and it was through the gathering this testimony that my office first established regular contact with Reverend Thaver.

Among those who worked in the area of Social Security reform, Dr. Thayer stood out for his passionate and unswerving dedication to his cause. He also stood out in every other respect as well. He was an impressive, imposing figure of a man, with a deep and sonorous voice that he used to tremendous effect. And he was always there to do whatever was necessary to advance the work in which he so deeply believed. In the rough and tumble world of Social Security politics, it is easy to become discouraged or demoralized, but Dr. Thayer was unfazed by any setback. Regardless of the short-term fortunes, he always kept his eye on the longterm horizon, and applied all of his considerable gifts and his hard work to achieving it.

All of us who knew Dr. Thayer admired him deeply for his willingness to argue passionately for an unconventional position when he knew that he was right. What was striking about Dr. Thayer's oratorical style was that he always strove to appeal to the very best instincts in his listeners—never selfishness, never division, never despair—always hope, opportunity, advancement, responsibility, self-reliance, and giving all that one can. There's a poignant example of this in a recent speech that he gave in Nashville, Tennessee, "The Power of Small Business for Wealth Creation in the Minority Community"-when he talks about why he felt that African Americans should support reform of the Social Security system. To quote from his words:

"First, African Americans tend to start working at a younger age than whites. So we pay taxes into the system for more years than whites. And second, African-Americans also have shorter life expectancies than whites. The average African-American male currently has a life expectancy of less than the retirement age of 65! So many African-Americans will spend their entire working lives paying taxes into Social Security. But then, they won't draw out a dime in retirement benefits. Or accumulate any wealth to pass along to their children, or other heirs." This is typical of his approach; noting not what was in it for him—but what kind of legacy was being left behind.

The sad irony here is that Bennie himself died at the age of 61. When one heard Bennie speak those words, one didn't think that he was talking about himself. I think that everyone close to him assumed that he had come so far in life that he would beat the odds.

And indeed Reverend Thaver had come very far from his birthplace in Pickens County, South Carolina. He was fully 36 when he received his bachelor's degree from the University of Maryland, 54 when he received his master's in divinity, and 58 when he received his doctorate of divinity. His biography shows the mark of a man who was always striving, always working to create the next opportunity. But when you look carefully at the opportunities that he sought, they so frequently centered on creating new hopes for others—promoting economic opportunities with the National Association of the Self-Employed, spiritual guidance through his ministry, bequeathing wealth to our children and our grandchildren through reform of the Social Security system. This theme of striving to create a constructive and uplifting legacy ran throughout his life and throughout his work.

Dr. Thayer was an extraordinary man who led an extraordinary life. He is already deeply missed.●

# HONORING THE WORK OF ANTHONY ROMOLO

• Mr. DURBIN. Mr. President, I rise today to recognize Tony Romolo, in whose honor the Anthony C. Romolo Training Center in Mt. Sterling, Illinois, is being dedicated this month.

Tony Romolo was the Center's founding administrator and is now the longest-serving training administrator within the Laborers' International Union of North America.

As administrator, Tony has been responsible for creating policies that have guided the procedures and management of the training center, including the development of training goals and priorities. His leadership has resulted in the training of thousands of laborers throughout Illinois.

The Laborers' Training Program was one of the first within the State of Illinois to receive accreditation from the Illinois Department of Public Health for teaching environmentally beneficial courses in asbestos abatement. Mr. Romolo also oversaw the creation of the Construction Craft Laborers' Apprenticeship Program that was approved February 3, 1997.

Tony Romolo's work has been diverse but unwavering in its commitment to improving the skills of our nation's workers. We are fortunate to have dedicated, hard-working men like Tony in our society today. Illinois is a better place because of his commitment to the working men and women of our state and country.

TRIBUTE TO WORKERS AT THE PADUCAH GASEOUS DIFFUSION PLANT

• Mr. McCONNELL. Mr. President, I rise today to pay tribute to the thousands of workers, both past and present, at the Gaseous Diffusion Plants in Paducah, Portsmouth, and Oak Ridge for their patience and persistence through what has been, and continues to be, a challenging time.

When the reports of contamination broke in the August 8, 1999 edition of the Washington Post, my first thoughts were of the individuals and families who had suffered because of DOE's mistakes. I thought of the pain those workers must have endured from the illnesses and continue to endure in many cases, and the sense of loss families must have felt for those whose loved ones did not survive the harsh effects of contamination.

The story of the Harding Family, of Paducah, still haunts me. To think that a man suffered and died a painful death because of the carelessness of officials at the Department of Energy is incomprehensible. My heart goes out to the Harding Family for the loss of Mr. Joe Harding, and I hope that this dear family can take some solace in the knowledge that it was because of Joe's persistence that this story came to light. Because of Joe's willingness to speak in the face of high-powered opposition, at least 120 other workers who suffer effects of contamination will now be treated and compensated by the United States government. Joe paid the ultimate price in his death, and for that he deserves our sympathy, our respect, and our gratitude.

From that very first moment the story broke, I have been determined to make sure all current and former employees are tested for contamination and that sick employees receive the treatment they need and deserve. Of course, nothing can take the place of good health or life, but every effort should be made to provide compensation for DOE's wrongs.

I want the workers in Paducah, Portsmouth, and Oak Ridge to know that I am working here in the Senate to ensure that they are adequately tested and treated for any problems they experience as a result of contamination at the plant. I have continually sought funding, as a member of the Senate Appropriations Committee, and am pleased to have played a role in providing the funding to make health testing equipment, such as the vital lung screening van for Paducah, available to all of the dedicated workers who have served at the each of the Gaseous Diffusion Plants.

The mobile lung screening unit should serve as a symbol to each of the workers and their families that we will keep fighting for your health and safety, for your economic livelihood, and for the cleanup of the plant sites and surrounding neighborhoods.

On behalf of my colleagues in the Senate, I want to say thank you to the employees at the plants for their service to the United States. Your sacrifice to help us win the Cold War will never be forgotten.

#### HONORING DR. ORLANDO EDREIRA

• Mr. TORRICELLI. Mr. President, I rise today to recognize the retirement of Dr. Orlando Edreira. Dr. Edreira's hard work and dedication as a Councilman in Elizabeth, New Jersey has had a lasting impact on communities throughout Union County and the State of New Jersey.

For more than four decades, Councilman Edreira has been contributing to the future of our children and the improvement of our communities as both an educator and a civil servant. He has contributed to hundreds of community projects and has been a member of numerous professional and community-based organizations in New Jersey. Councilman Edreira has also been a well-recognized and respected advocate for the Latino community of New Jersey throughout his career.

I salute Councilman Edreira's leadership in Elizabeth, which during his service has enjoyed a remarkable economic renaissance as new jobs and economic development have brought new life to one of New Jersey's historic cities. He is to be thanked for helping to sow these seeds of revitalization in the community.

Councilman Edreira's retirement from the Elizabeth City Council is a true loss for both the City of Elizabeth and the entire State of New Jersey. After a career marked by many accomplishments, I am pleased today to highlight his remarkable record of service on the occasion of his retirement. While we are losing one of our State's finest and most valuable leaders, we can take pride in the countless contributions that Councilman Edreira has made to one of New Jersey's most important communities.

#### A TRIBUTE TO SPECIAL AGENT DAVID J. WILSON

• Mr. ABRAHAM. Mr. President, during the 106th Congress, the Detroit Field Office of the Federal Bureau of Investigation lost two of its most dedicated agents to battles with cancer. Both were respected not only for their professional accomplishments, but also for the manner in which they conducted themselves outside of their work, as each contributed considerably to the Detroit community. I rise today in honor and in memory of Special Agent David J. Wilson, one of these two men.

Before joining the Federal Bureau of Investigation in 1980, Special Agent Wilson served the Nation as a military police officer, earning the National Defense, Marksman and Sharpshooter service medals. Upon joining the FBI, he quickly earned top honors in his Academy Class for academics, physical fitness and marksmanship.

Special Agent Wilson spent the majority of his FBI career working in Detroit. He specialized in drug and white collar crime matters, and was highly regarded for his investigative skills. Indeed, he was a pioneer in the investigation of health care fraud, and his undercover work in the Detroit area yielded numerous successful prosecutions which saved and recovered millions of dollars for the State of Michigan in fraudulent medical billings. They also helped to prevent the illegal diversion of controlled substances by health care professionals.

Special Agent Wilson received many commendations, including two national awards, on account of his investigative prowess. In 1997, he was appointed to the position of Polygrapher for the Detroit Field Office, a position he held with great pride.

The City of Detroit was in many ways a perfect fit for Special Agent Wilson. He developed a unique interest in its history and architecture. An accomplished vocalist himself, he had a passion for music, and particularly for the "Motown" sound. He also had an appreciation for fine arts and for the theater, both of which were nurtured in Detroit. And, as an avid basketball player and fan, he was able to cheer on the Detroit Pistons during the greatest years that organization has known.

Special Agent Wilson passed away on August 29, 1999 at the age of 47. He is survived by his wife, Patricia, and two sons, Lerone and Paul.

The Federal Bureau of Investigation works hard to ensure that its agents set a strong moral example for the people they are entrusted to protect. There is no question that Special Agent Wilson was a leader in this regard. Dedicated to his Nation, his agency and his family, he was a role model in the Detroit community, and he will be deeply missed.

## HONORING SHERIFF JOHN T. PIERPONT

• Mr. ASHCROFT. Mr. President, I would like to honor John T. Pierpont for his outstanding service as Sheriff of Greene County, Missouri. I want to extend my personal appreciation and heartfelt thanks to John for his dedication and hard work.

There are few careers more noble than those spent in public service. Sheriff Pierpont's twenty years of service with the Greene County Sheriff's Office have meant a great deal to the people he has served. Prior to being elected Sheriff of Greene County, Mr. Pierpont served as U.S. Marshal for the Western District of Missouri for eight years. His service has extended well beyond the Sheriff's office and law en-

forcement to community and charitable organizations across Greene County and throughout our state.

Sheriff Pierpont has represented the state of Missouri and the Sheriff's Department with dignity, integrity, and professionalism. His commitment to the enforcement of Missouri law and the protection of our residents is to be commended. I am delighted to honor my friend and fellow Greene County resident, John Pierpont.

May God richly bless John and his family as they begin this next chapter in their lives.●

#### TRIBUTE TO MICHAEL DAWSON

• Mr. VOINOVICH. Mr. President, I rise today to pay tribute to Michael Dawson, who, over the past 11 years, has been my press secretary, one of my most trusted advisors, and a man whose judgement has been a key component to my success, from the campaign trail, to the Statehouse of Ohio and to the Capitol of the United States. But most of all, Mike Dawson has been, and will always be. my friend.

I first got to know Michael in 1989, when I was pursuing the governorship of Ohio and he was working as a top then-Congressman to DeWine during his campaign for Lieutenant Governor. I was immediately struck by his work ethic and his tenacity. During that campaign, it was reported that if Mike saw the lights on in the offices of our opponent when he was leaving the office, no matter what time it was, Mike would turn around, go back inside and continue to work. Mike refused to allow them to get the upper hand by putting in more time or

Once the election was over, and I was elected Governor, there was little doubt in my mind that one of the people I had to have on my executive team was Mike Dawson. Since then, Mike has been with me through thick and thin and through good times and bad. Whatever the situation, and no matter how rough things got, Mike was always there providing me sound advice.

I will never forget Mike's dedication and professionalism during Lucasville prison riots in April of 1993—a period I consider to be the darkest days of my administration. For eleven days, Ohio held its breath as the Lucasville prison erupted in violence. As I worked to find a peaceful solution to the crisis, one of the people I depended upon most for assistance was Mike Dawson. Not only did Mike serve as press secretary at that time, but he was also my executive assistant in charge of emergency management operations. In that position, Mike had a strong hand in working with the Department of Rehabilitation and Corrections, the Ohio Highway Patrol, and several other agencies in helping to put an end to the siege at the prison and restoring order. Mike initiated a task force to review what had gone wrong at Lucasville and to make recommendations on how to avoid similar Lucasville situations in the future. A special emphasis of the task force focused on the proper role of the media in covering prison situations.

Mike's service in emergency management operations was not limited just to the Lucasville riots. He was instrumental in Ohio's efforts to coordinate assistance to flood-ravaged areas of Ohio in 1997 and 1998, and was always right in the middle of things whenever Ohio was faced with an emergency situation during my two terms as Governor.

But no tribute to Mike would be complete without mentioning the work he has done as my press secretary. Mike has a relationship with Ohio's press corps and editorial writers that is legendary. All you would have to do, Mr. President, is ask any reporter who has covered my two terms as governor or my first two years in the Senate to find out what kind of a professional Mike really is.

Throughout the entire time that he has been my press secretary, Mike has always been accessible, always wiling to go the extra mile to furnish the information that will make a reporter's job easier and he has made it a point to be able to provide an answer to whatever questions the press ask. If Mike does not know an answer, he will find it, and he will make sure that he understands the entire issue well-enough to be able to explain it. Mike has always been relentless in wanting to guarantee that the press gets the story right the first time.

Of course, the Ohio press corps could write volumes of examples of Mike's tenacity in wanting a story reported correctly. If Mike felt he was right, he would argue his point until that reporter understood what he was talking about and where he was coming from. If Mike knew he was right, he would be relentless in his effort to not only convince the reporter to see his point of view, but to agree with it as well.

Mike's style has earned him the respect of reporters from all across Ohio. In fact, when I left the Governor's office to come to the Senate, Mike was lauded in a column written by Joe Hallett in the Cleveland Plain Dealer for how diligently he served as press secretary during my administration: probably the highest compliment any press secretary can receive from his peers.

That column put in print what I already knew and what I told millions of Ohioans on the night I was elected to the Senate—that Mike Dawson was the best press secretary in America. It was true then, and it is true today. In all the years I have known him, and in the hundreds, if not thousands, of stories that Mike handled for my gubernatorial administration, as well as here

in the Senate, he has always kept the best interests of Ohio at heart. I have been truly blessed to have had Mike provide me such tremendous professional service over the years.

As I have been blessed with Mike's service, he has been blessed even more so with a wonderful and loving family. To witness the love that Mike has for his wife Laurel and his son Will makes it evident that they are the most important priorities in his life, and to see them all together makes it easy to realize that God's love truly shines upon them.

Mike is an Ohioan to the core, and he has always considered it his distinct privilege to work on behalf of the people of his state of Ohio in an effort to improve government and make government work more efficiently, and for the benefit of all Ohioans. When serving the people of Ohio, Mike was the first to arrive in the morning and the last to leave at night, and it was a given that Mike was on-call 24 hours a day, 7 days a week.

Today, though, Mike's responsibilities are focused a little more closer to home, and he and Laurel have decided to go back to their roots and raise Will in the Buckeye State. And while I am losing a valued member of my staff, I take great comfort in the knowledge that my friend Mike Dawson's service to the people of Ohio will continue. Mike has gone back to work for his former boss and my very dear friend, Senator MIKE DEWINE. I know that he will be successful in this new endeavor.

I consider myself a better person and a better public servant for having the opportunity to know Michael Dawson. He has been a loyal friend and a sage counselor whom I will truly miss.•

### TRIBUTE TO WILLIAM F.X. McCONNELL

• Mr. HATCH. Mr. President, I rise today to honor a fellow Utahn, William F.X. McConnell of Salt Lake City, a remarkable man with a remarkable story. I am not sure that in this retelling I can do justice to his sacrifices or of those who fought along side of him during World War II's campaign for the Rhine River. But, I think my colleagues would be interested in this history and would like to join me in paying tribute to the bravery of these men.

In December 1944, Bill McConnell arrived in France and was assigned to the 168th Engineer Combat Battalion. Shortly thereafter, Bill McConnell and his battalion fought in the terrible Battle of the Bulge. His battalion paved the way for an allied victory by removing road blocks and tank traps, building bridges under fire, and other perilous assignments. But, these were not the most harrowing experiences to which McConnell was assigned. The worst was yet to come.

McConnell and his battalion were called to cross the Rhine River, an assault as dangerous as it was important. He was told that this would be a simple assault, with plenty of support provided. At 2:00 a.m. on March 26, 1945, he boarded a row boat to cross the Rhine River into Germany. During the crossing, a bank of lights on the German side of the river were suddenly turned on, spotlighting the American soldiers. German tracer bullets fell like deadly rain upon them. The promised support from the American side never came.

While rowing, McConnell was hit in the wrist. Bleeding profusely, he continued to row. Shortly thereafter, several tracer bullets ripped through his thigh and knee. Continuing to row, he was hit a third time by an unidentified object on the side of his face and head. This blow knocked him into the water where he was miraculously saved by an assault boat returning from the German shore. Still without cover, the occupants of the boat were forced to debark and trudge through an active sewer line in order to escape the German gunfire.

For this act of bravery, Bill McConnell was awarded a well-deserved Purple Heart. In addition, he has been honored with the American Campaign Medal, Good Conduct Medal, Distinguished Unit Citation, European Theater of Operations with four battle stars, and the Belgium Croix de Guerre (War Cross). These medals stand as a symbol of his dedication.

But, Bill McConnell's battle since the war has been to keep this military history alive. While the battle at Remagen and other locations during the war to defeat the Third Reich have been well-chronicled in books and on film, engagements such as the Rhine crossing are still unknown to many Americans.

Since the war, McConnell has worked tirelessly in support of veterans organizations. Shortly after returning from the war he worked as a national service officer with the Disabled American Veterans. For 25 years, he served in the Veterans Administration Adjudication Division, in positions including senior adjudicator, chairman of the rating board, and adjudication officer.

For more than 40 years, he has been the American Legion member in charge of placing U.S. flags on graves for Memorial Day. He has served as past state commander in Utah of the Disabled American Veterans. He is the founder of the Salt Lake City chapter and national service officer of the Military Order of the Purple Heart, where he volunteers to help veterans with their disability claims. Clearly, he is one who has helped many.

There are thousands of World War II veterans just like Bill McConnell, who fought courageously for freedom. But, William F.X. McConnell is one who happens to live in my home state. He

exemplifies the dedication of all American soldiers, sailors, airmen, and marines—past, present, and future—who have always been on watch to defend our country and its vital interests.

Today, I want to thank Bill McConnell for his service in uniform and for his service to our nation's veterans. This stand as his own monument. I am pleased to call the Senate's attention to his bravery in battle and to his many contributions to veterans.

## MR. LEONARD E. AND MRS. LOUISE A. PLACHTA DAY

• Mr. ABRAHAM. Mr. President, November 11, 2000 is a very special day on the campus of Central Michigan University in Mount Pleasant, MI. The day has been proclaimed Mr. Leonard E. and Mrs. Louise A. Plachta Day, in honor of the former President and First Lady of the University. I rise today to recognize this occasion and to pay tribute to the magnificent couple being honored.

The couple arrived in Mt. Pleasant in 1972 when Mr. Plachta took a job as Professor of Accounting. He served as Assistant Dean of CMU's College of Business Administration from 1977 to 1979, when he took over the position of Dean. In January of 1992, he was appointed to serve as President of the University, and he served in this position until his retirement in July of 2000.

Mr. Plachta's 8-year tenure as President stands as one of the most productive stints in the history of the University. His financial restructuring of CMU has allowed it to remain one of the most affordable public universities in the State of Michigan. He initiated a number of programs to give students real-world experience to help prepare them for future employment, including developing a state-of-the-art Career Services Center and expanding internship opportunities for students.

He drew national attention for the Degree Partners Program, which is a guaranteed four-year degree agreement with students designed to save them money as well as get skilled professionals into the job market quickly. He also initiated one of the first leadership scholar programs in the country, a four-year educational protocol designed to help students develop ethical leadership skills they can apply in their professions.

Mr. Plachta oversaw significant upgrading of classrooms and facilities during his tenure. This included new, highly technological music and science buildings; new and renovated athletic facilities; and a pending Library and Information Services Center that will incorporate technology to link students with academic resources from around the world.

He also oversaw a complete reorganization of CMU's academic programs

in order to increase interdepartmental cooperation and draw attention to the University's strengths. This reorganization included a new College of Communication and Fine Arts, a new College of Health Professions, redefined science programs through a new College of Science and Technology, and a revamped College of Business Administration, College of Education and Human Services, and College of Humanities and Social and Behavioral Sciences.

One of the greatest accomplishments of his tenure, though, has been the leadership role CMU has taken in terms of the chartering of public school academies, charter schools. More than 17,000 K-12 students, approximately 50 percent of whom are minorities or at risk children, are enrolled in 59 CMU-licensed schools throughout the State of Michigan, with families on waiting lists at nearly every school. In addition, the national Charter Schools Development and Performance Institute, housed at CMU, had its grand opening earlier this year, on May 1, 2000.

Mrs. Plachta has also greatly contributed to the CMU community. For twelve years, she worked as a member of the clerical staff. She provided superior guidance and caring support to nontraditional students as the nontraditional student services liaison. which is a volunteer position. Her knowledge in this position came honestly, as she earned a master's degree herself as a nontraditional student. And, as First Lady, she has been a much-loved ambassador for CMU and an outstanding member of the Mount Pleasant community, volunteering with numerous organizations and strongly supporting adult literacy programs.

Central Michigan University stands where it does today, poised for success in the 21st Century, in large part due to the efforts of Mr. and Mrs. Plachta. They have worked together to bring about positive change not only for the University, but also for the State of Michigan, on many different fronts, and I thank them for their extraordinary efforts. On behalf of the entire United States Senate, I congratulate Mr. Leonard E. and Louise A. Plachta on having a day designated in their honor, and I hope that they enjoy every minute of it.●

#### MESSAGES FROM THE HOUSE

At 2:22 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 460. An act to amend title 5, United States Code, to provide that the mandatory separation age for Federal firefighters be made the same as the age that applies with respect to Federal law enforcement officers.

H.R. 2570. An act to require the Secretary of the Interior to undertake a study regarding methods to commemorate the national significance of the United States roadways that comprise the Lincoln Highway, and for other purposes.

H.R. 3926. An act to amend the Illinois and Michigan Canal National Heritage Corridor Act of 1984 to increase the amount authorized to be appropriated to the Illinois and Michigan Canal National Heritage Corridor Commission.

H.R. 4187. An act to assist the establishment of an interpretive enter and museum in the vicinity of the Diamond Valley Lake in southern California to ensure the protection and interpretation of the paleontology discoveries made at the lake and to develop a trail system for the lake for use by pedestrians and nonmotorized vehicles.

H.R. 4281. An act to establish, wherever feasible, guidelines, recommendations, and regulations that promote the regulatory acceptance of new or revised scientifically valid toxicological tests that protect human and animal health and the environment while reducing, refining, or replacing animal tests and ensuring human safety and product effectiveness.

H.R. 4312. An act to direct the Secretary of the Interior to conduct a study of the suitability and feasibility of establishing an Upper Housatonic Valley National Heritage Area in the State of Connecticut and the Commonwealth of Massachusetts, and for other purposes.

H.R. 4404. An act to permit the payment of medical expenses incurred by the United States Park Police in the performance of duty to be made directly by the National Park Service, to allow for waiver and indemnification in mutual law enforcement agreements between the National Park Service and a State or political subdivision when required by State law, and for other purposes.

H.R. 4493. An act to establish grants for drug treatment alternative to prison programs administered by State or local proscentors

H.R. 4521. An act to direct the Secretary of the Interior to authorize and provide funding for rehabilitation of the Going-to-the-Sun Road in Glacier National Park, to authorize funds for maintenance of utilities related to the Park, and for other purposes.

H.R. 4646. An act to designate certain National Forest System lands within the boundaries of the State of Virginia as wilderness areas.

H.R. 4965. An act to amend the Perishable Agricultural Commodities Act, 1930, to extend the time period during which persons may file a complaint alleging the preparation of false inspection certificates at Hunts Point Terminal Market, Bronx, New York.

H.R. 5016. An act to redesignate the facility of the United States Postal Service located at 514 Express Center Drive in Chicago, Illinois, as the "J.T. Weeker Service Center."

H.R. 5041. An act to establish the boundaries and classification of a segment of the Missouri River in Montana under the Wild and Scenic Rivers Act.

H.R. 5110. An act to designate the United States courthouse located at 3470 12th Street in Riverside, California, as the "George E. Brown, Jr. United States Courthouse."

H.R. 5210. An act to designate the facility of the United States Postal Service located at 200 South George Street in York, Pennsylvania, as the "George Atlee Goodling Post Office Building."

H.R. 5225. An act to revise the boundaries of the Richmond National Battlefield Park

based on the findings of the Civil War Sites Advisory Committee and the National Park Service and to encourage cooperative management, protection, and interpretation of the resources associated with the Civil War and the Civil War battles in and around the city of Richmond, Virginia.

H.R. 5302. An act to designate the United States courthouse located at 1010 Fifth Avenue in Seattle, Washington, as the "William Kenzo Nakamura United States Courthouse."

H.R. 5312. An act to amend the Controlled Substances Act to protect children from drug traffickers.

H.R. 5398. An act to provide that land which is owned by the Coushatta Tribe of Louisiana but which is not held in trust by the United States for the Tribe may be leased or transferred by the Tribe without further approval by the United States.

H.R. 5410. An act to establish revolving funding for the operation of certain programs and activities of the Library of Congress, and for other purposes.

The message also announced that the House has passed the following bills, without amendment:

- S. 406. An act to amend the Indian Health Care Improvement Act to make permanent the demonstration program that allows for direct billing of medicare, medicaid, and other third party payors, and to expand the eligibility under such program to other tribes and tribal organizations.
- S. 1296. An act to designate portions of the lower Delaware River and associated tributaries as a component of the National Wild and Scenic Rivers System.
- S. 1705. An act to direct the Secretary of the Interior to enter into land exchanges to acquire from the private owner and to convey to the State of Idaho approximately 1,240 acres of land near the City of Rocks National Reserve, Idaho, and for other purposes.
- S. 1707. An act to amend the Inspector General Act of 1978 (5 U.S.C. App.) to provide that certain designated Federal entities shall be establishments under such Act, and for other purposes.
- S. 2102. An act to provide to the Timbisha Shoshone Tribe a permanent land base within its aboriginal homeland, and for other purposes.
- S. 2412. An act to amend title 49, United States Code, to authorize appropriations for the National Transportation Safety Board for fiscal years 2000, 2001, 2002, and 2003, and for other purposes.
- S. 2498. An act to authorize the Smithsonian Institute to plan, design, construct, and equip laboratory, administrative, and support space to house base operations for the Smithsonian Astrophysical Observatory Submillimeter Array located on Mauna Kea at Hilo, Hawaii.
- S. 2917. An act to settle the land claims of the Pueblo of Santo Domingo.
- S. 3201. An act to rename the National Museum American Art.

The message further announced that the House has agreed to the following concurrent resolution, without amendment:

S. Con. Res. 145. Concurrent resolution expressing the sense of Congress on the propriety and need for expeditious construction of the National World War II Memorial at the Rainbow Pool on the National Mall in the Nation's Capital.

The message also announced that the House has passed the bill (S. 1936) to

authorize the Secretary of Agriculture to sell or exchange all or part of certain administrative sites and other National Forest System land in the State of Oregon and use the proceeds derived from the sale or exchange for National Forest System purposes, with an amendment.

The message also announced that the House has agreed to the amendments of the Senate to the bill (H.R. 1444) to authorize the Secretary of the Interior to establish a program to plan, design, and construct fish screens, fish passage devices, and related features to mitigate adverse impacts associated with irrigation system water diversions by local governmental entities in the States of Oregon, Washington, Montana, Idaho, and California, with amendments.

The message further announced that the House has agreed to the amendment of the Senate to the bill (H.R. 4788) to amend the United States Grain Standards Act to extend the authority of the Secretary of Agriculture to collect fees to cover the cost of services performed under the Act, extend the authorization of appropriations for that Act, and improve the administration of that Act, to reenact the United States Warehouses used to store agricultural products and provide for the issuance of receipts, including electronic receipts, for agricultural products stored or handled in licensed warehouses, and for other purposes, with an amendment.

The message also announced that the House has agreed to the amendment of the Senate to the bill (H.R. 209) to improve the ability of Federal agencies to license federally owned inventions, without amendment.

The message further announced that the House has agreed to the amendments of the Senate to the amendments of the House to the bill (S. 1402) to amend the United States Code, to enhance programs providing education benefits for veterans, and for other purposes, without amendment.

The message also announced that the House has agreed to the amendments of the Senate to the bill (H.R. 1695) to provide for the conveyance of certain Federal public lands in the Ivanpah Valley, Nevada, to Clark County, Nevada, for the development of an airport facility, and for other purposes, without amendment.

The message further announced that the House has agreed to the amendment of the Senate to the bill (H.R. 2607) to promote the development of the commercial space transportation industry, to authorize appropriations for the Office of the Associate Administrator for Commercial Space Transportation, to authorize appropriations for the Office of Space Commercialization, and for other purposes, without amendment.

The message also announced that the House has agreed to the amendments of

the Senate to the bill (H.R. 3069) to authorize the Administrator of General Services to provide for redevelopment of the Southeast Federal Center in the District of Columbia, without amendment.

The message further announced that the House has agreed to the amendments of the Senate to the bill (H.R. 4850) to provide a cost-of-living adjustment in rates of compensation paid to veterans with service-connected disabilities, to enhance programs providing compensation and life insurance benefits for veterans, and for other purposes, without amendment.

The message also announced that the House has agreed to the amendment of the Senate to the bill (H.R. 4864) to amend title 38, United States Code, to reaffirm and clarify the duty of the Secretary of Veterans Affairs to assist claimants for benefits under laws administered by the Secretary, and for other purposes, without amendment.

The message further announced that the House disagreed to the amendment of the Senate to the bill (H.R. 4635) making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes, and agreed to the conference asked by the Senate on the disagreeing votes of the two Houses and appoints Mr. WALSH, Mr. DELAY, Mr. HOBSON, Mr. KNOLLENBERG, Mr. Frelinghuysen, Mrs. Northup, Mr. SUNUNU, Mr. GOODE, Mr. YOUNG of Florida, Mr. Mollohan, Ms. Kaptur, Mrs. MEEK of Florida, Mr. PRICE of North Carolina, Mr. CRAMER, and Mr. OBEY, as the managers of the conference on the part of the House.

The message also announced that pursuant to provisions of section 206 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5616), the Speaker reappointed Mr. Gordon A. Martin of Roxbury, Massachusetts, on the part of the House to the Coordinating Council on Juvenile Justice and Delinquency Prevention, to a 2-year term

At 4:39 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

S. 624. An act to authorize construction of the Fort Peck Reservation Rural Water System in the State of Montana, and for other purposes.

S. 2686. An act to improve service systems for individuals with developmental disabilities, and for other purposes.

S. 1809. An act to amend chapter 36 of title 39, United States Code, to modify rates relating to reduced rate mail matter, and for other purposes.

H.R. 3986. An act to provide for a study of the engineering feasibility of a water exchange in lieu of electrification of the Chandler Pumping Plant at Prosser Diversion Dam, Washington. H.R. 34. An act to direct the Secretary of the Interior to make technical corrections to a map relating to the Coastal Barrier Resources System.

H.R. 208. An act to amend title 5, United States Code, to allow for the contribution of certain rollover distributions to accounts in the Thrift Savings Plan, to eliminate certain waiting-period requirements for participating in the Thrift Savings Plan, and for other purposes.

H.R. 707. An act to amend the Robert T. Stafford Disaster Relief and Emergency Assistance Act to authorize a program for predisaster mitigation, to streamline the administration of disaster relief, to control the Federal costs of disaster assistance, and for other purposes.

H.R. 1654. An act to authorize appropriations for the National Aeronautics and Space Administration for fiscal years 2000, 2001, and 2002, and for other purposes.

H.R. 1715. An act to extend and reauthorize the Defense Production Act of 1950.

H.R. 2389. An act to restore stability and predictability to the annual payments made to States and counties containing National Forest System lands and public domain lands managed by the Bureau of Land Management for use by the counties for the benefit of public schools, roads, and other purposes.

H.R. 2842. An act to amend chapter 89 of title 5, United States Code, concerning the Federal Employees Health Benefits (FEHB) Program, to enable the Federal Government to enroll an employee and his or her family in the FEHB Program when a State court orders the employee to provide health insurance coverage for a child of the employee but the employee fails to provide the coverage, and for other purposes.

H.R. 2879. An act to provide for the placement at the Lincoln Memorial of a plaque commemorating the speech of Martin Luther King, Jr., known as the "I Have A Dream" speech.

H.R. 2883. An act to amend the Immigration and Nationality Act to modify the provisions governing acquisition of citizenship by children born outside of the United States, and other purposes.

H.R. 2984. An act to direct the Secretary of the Interior, through the Bureau of Reclamation, to convey to the Loup Basin Reclamation District, the Sargent River Irrigation District, and the Farwell Irrigation District, Nebraska, property comprising the assets of the Middle Loup Division of the Missouri River Basin Project, Nebraska.

H.R. 3235. An act to improve academic and social outcomes for youth and reduce both juvenile crime and the risk that youth will become victims of crime by providing productive activities conducted by law enforcement personnel during non-school hours.

H.R. 3236. An act to authorize the Secretary of the Interior to enter into contracts with the Weber Basin Water Conservancy District, Utah, to use Weber Basin Project facilities for the impounding, storage, and carriage of nonproject water for domestic, municipal, industrial, and other beneficial purposes.

H.R. 3292. An act to provide for the establishment of the Cat Island National Wildlife Refuge in West Feliciana Parish, Louisiana.

H.R. 3468. An act to direct the Secretary of the Interior to convey certain water rights to Duchesne City, Utah.

H.R. 3577. An act to increase the amount authorized to be appropriated for the north side pumping division of the Minidoka reclamation project, Idaho.

H.R. 3767. An act to amend the Immigration and Nationality Act to make improvements to, and permanently authorize, the visa waiver pilot program under section 217 of such Act.

H.R. 3986. An act to provide for a study of the engineering feasibility of a water exchange in lieu of electrification of the Chandler Pumping Plant at Prosser Diversion Dam, Washingon.

H.R. 3995. An act to establish procedures governing the responsibilities of court-appointed receivers who administer departments, offices, and agencies of the District of Columbia government.

H.R. 4002. An act to amend the Foreign Assistance Act of 1961 to revise and improve provisions relating to famine prevention and freedom from hunger.

H.R. 4259. An act to require the Secretary of the Treasury to mint coins in commemoration of the National Museum of the American Indian of the Smithsonian Institution, and for other purposes.

H.R. 4386. An act to amend title XIX of the Social Security Act to provide medical assistance for certain women screened and found to have breast or cervical cancer under a federally funded screening program, to amend the Public Health Service Act and the Federal Food, Drug, and Cosmetic Act with respect to surveillance and information concerning the relationship between cervical cancer and the human papillomavirus (HPV), and for other purposes.

H.R. 4389. An act to direct the Secretary of the Interior to convey certain water distribution facilities to the Northern Colorado Water Conservancy District.

H.R. 4681. An act to provide for the adjustment of status of certain Syrian nationals.

H.R. 4828. An act to designate the Steens Mountain Wilderness Area and the Steens Mountain Cooperative Management and Protection Area in Harney County, Oregon, and for other purposes.

H.R. 5107. An act to make certain corrections in copyright law.

H.R. 5417. An act to rename the Stewart B. McKinney Homeless Assistance Act as the "McKinney-Vento Homeless Assistance Act."

The enrolled bills were signed subsequently by the President pro tempore (Mr. Thurmond).

At 4:55 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 5308. An act to amend laws relating to the lands of the citizens of the Muscogee (Creek), Seminole, Cherokee, Chickasaw and Choctaw Nations, historically referred to as the Five Civilized Tribes, and for other purposes.

## EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-11156. A communication from the Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled

"Tebuconazole; Extension of Tolerances for Emergency Exemptions" (FRL #6749-5) received on October 17, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-11157. A communication from the Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Norflurazon; Extension of Tolerances for Emergency Exemptions" (FRL #6748-2) received on October 17, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-11158. A communication from the Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Zinc Phosphide; Extension of Tolerances for Emergency Exemptions" (FRL #6748-1) received on October 17, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-11159. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of rule entitled "Citrus Canker; payments for Commercial Citrus Tree Replacement" (Docket No. 00-037-1) received on October 17, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-11160. A communication from the Deputy General Counsel, Small Business Administration, transmitting, pursuant to law, the report of a rule entitled "8(a) Business Development/Small Disadvantaged Business Status Determination; Rule of Procedure Governing Cases Before the Office of Hearings and Appeals" (RIN 3245-AE60) received on October 17, 2000; to the Committee on Small Business.

EC-11161. A communication from the Director of the Regulations Policy and Management Staff, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Listing of Color Additives Exempt From Certification; Luminescent Zinc Sulfide; Confirmation of Effective Date" (Docket No. 97C-0415) received on October 17, 2000; to the Committee on Health, Education, Labor, and Pensions.

EC-11162. A communication from the Director of the Regulations Policy and Management Staff, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Listing of Color Additives Exempt From Certification; Phaffia Yeast; Confirmation of Effective Date" (Docket No. 97C-0466) received on October 17, 2000; to the Committee on Health, Education, Labor, and Pensions.

EC-11163. A communication from the Director of the Regulations Policy and Management Staff, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Listing of Color Additives Exempt From Certification; Haematococcus Algae Meal; Confirmation of Effective Date" (Docket No. 98C-0212) received on October 17, 2000; to the Committee on Health, Education, Labor, and Pensions.

EC-11164. A communication from the Deputy Associate Administrator, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Connecticut; Changes to Various VOC Regulations" (FRL #6886-5) received on October 13, 2000; to the Committee on Environment and Public Works.

EC-11165. A communication from the Deputy Associate Administrator, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans: Connecticut: Post-1996

Rate of Progress Plans' (FRL #6877-5) received on October 13, 2000; to the Committee on Environment and Public Works.

EC-11166. A communication from the Deputy Associate Administrator, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans; State of Missouri; Designation of Areas for Air Quality Planning Purposes, Dent Township" (FRL #6885-6) received on October 17, 2000; to the Committee on Environment and Public Works.

EC-11167. A communication from the Deputy Associate Administrator, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans; Virginia; Approval of Removal of tSP Ambient Air Quality Standards" (FRL #6887-7) received on October 17, 2000; to the Committee on Environment and Public Works.

EC-11168. A communication from the Deputy Associate Administrator, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans; Maryland; Nitrogen Oxides Budget Program" (FRL #6878-4) received on October 17, 2000; to the Committee on Environment and Public Works.

EC-11169. A communication from the Deputy Associate Administrator, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans; Colorado and Utah; 1996 Periodic Carbon Monoxide Emission Inventories" (FRL #6889-2) received on October 17, 2000; to the Committee on Environment and Public Works.

EC-11170. A communication from the Deputy Associate Administrator, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans; Texas; Water Heaters, Small Boilers, and Process Heaters; Agreed Orders; Major Stationary Sources of Nitrogen Oxides in the Beaumont/Port Arthur Ozone Nonattainment Area" (FRL #6886-1) received on October 17, 2000; to the Committee on Environment and Public Works.

EC-11171. A communication from the Acting Director of the Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Endangered and Threatened Wildlife and Plants; Final Determination of Critical Habitat for the San Diego Fairy Shrimp (Branchinecta sandiegoensis)" (RIN1018–AF97) received on October 17, 2000; to the Committee on Environment and Public Works.

EC-11172. A communication from the Director of the Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Endangered and Threatened Wildlife and Plants; Final Determination of Critical Habitat for the Coastal California Gnatcatcher" (RIN1018-AF32) received on October 17, 2000; to the Committee on Environment and Public Works.

EC-11173. A communication from the Assistant Secretary of State (Legislative Affairs), transmitting, pursuant to law, a report relative to Nonproliferation and Disarmament Fund (NDF) activities; to the Committee on Foreign Relations.

EC-11174. A communication from the Assistant Secretary of State (Legislative Affairs), transmitting, pursuant to law, the report of the transmittal of the certification of

the proposed issuance of an export license to Algeria and Israel; to the Committee on Foreign Relations.

EC-11175. A communication from the Assistant General Counsel for Regulations, Office of Housing, Department of Housing and Urban Development, transmitting, pursuant to law, the report of a rule entitled "Increased Distributions to Owners of Certain HUD-Assisted Multifamily Rental Projects" (RIN2502-AH46) (FR-4532-F-01) received on October 13, 2000; to the Committee on Banking, Housing, and Urban Affairs.

EC-11176. A communication from the President and Chairman of the Export-Import Bank, transmitting, pursuant to law, a report relative to exports to Algeria; to the Committee on Banking, Housing, and Urban Affairs.

EC-11177. A communication from the President and Chairman of the Export-Import Bank, transmitting, pursuant to law, a report relative to exports to Uzbekistan; to the Committee on Banking, Housing, and Urban Affairs.

EC-11178. A communication from the Assistant Secretary for Export Administration, Office of Strategic Industries and Economic Security, Bureau of Export Administration, transmitting, pursuant to law, the report of a rule entitled "Effect of Imported Articles on the National Security" (RIN0694-AC07) received on October 13, 2000; to the Committee on Banking, Housing, and Urban Affairs.

EC-11179. A communication from the Assistant Secretary for Export Administration, Office of Strategic Industries and Economic Security, Bureau of Export Administration, transmitting, pursuant to law, the report of a rule entitled "Revisions to Encryption Items" (RIN0694-AC32) received on October 13, 2000; to the Committee on Banking, Housing, and Urban Affairs.

EC-11180. A communication from the Commissioner of Social Security, transmitting, pursuant to law, a report relative to the processing of continuing disability reviews (CDR) for fiscal year 1999; to the Committee on Finance.

EC-11181. A communication from the Chief of the Regulations Unit, Internal Revenue Service, Department of Treasury, transmitting, pursuant to law, the report of a rule entitled "July-September 2000 Bond Factor Amounts" (Revenue Ruling 2000-48) received on October 16, 2000; to the Committee on Finance.

EC-11182. A communication from the Chief of the Regulations Unit, Internal Revenue Service, Department of Treasury, transmitting, pursuant to law, the report of a rule entitled "Preparer Due Diligence Requirements for Determining Earned Income Credit Eligibility" (RIN1545-AW74, TD 8905) received on October 16, 2000; to the Committee on Finance.

EC-11183. A communication from the Program Manager, Bureau of Alcohol, Tobacco and Firearms, Department of Treasury, transmitting, pursuant to law, the report of a rule entitled "Labeling of Flavored Wine Products" (RIN1512-AB86) received on October 17, 2000; to the Committee on Finance.

EC-11184. A communication from the District of Columbia Auditor, transmitting, pursuant to law, a report entitled "Audit of the Advisory Neighborhood Commission 3B for the period October 1, 1997 through December 31, 1999"; to the Committee on Governmental Affairs

EC-11185. A communication from the Deputy Archivist, National Archives and Records Administration, transmitting, pursuant to law, the report of a rule entitled

"NARA Reproduction Fee Schedule" (RIN3095-AA87) received on October 13, 2000; to the Committee on Governmental Affairs

EC-11186. A communication from the Executive Director of the Federal Retirement Thrift Investment Board, transmitting, pursuant to law, a report relative to the year 2000 commercial activities inventory; to the Committee on Governmental Affairs.

EC-11187. A communication from the Secretary of the Air Force, transmitting, pursuant to law, a report relative to the B-1B Defensive System Upgrade Program (DSUP); to the Committee on Armed Services.

EC-11188. A communication from the Under Secretary of Defense, transmitting, pursuant to law, a report relative to the fiscal year 2000 commercial activities; to the Committee on Armed Services.

EC-11189. A communication from the Assistant Secretary of Indian Affairs, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "25 CFR Part 20, Financial Assistance and Social Services Programs" (RIN1076-AD95) received on October 13, 2000; to the Committee on Indian Affairs.

EC-11190. A communication from the Assistant Secretary for Land and Minerals Management, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Amendments to Gas Valuation Regulations for Indian Leases (MT and ND time limits)" (RIN1010-AC72) received on October 16, 2000; to the Committee on Indian Affairs.

EC-11191. A communication from the Attorney-Advisor, National Highway Traffic Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Repeat Intoxicated Driver Laws" (RIN2127-AH47) received on October 13, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11192. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: General Electric Company CF6 Turbofan Engines; Docket no. 2000–NE-38 [10-2/10-16]" (RIN2120–AA64) (2000–0483) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11193. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Standard Instrument Approach Procedures; Miscellaneous Amendments (88); amdt. no. 2013; [10-5/10-16]" (RIN2120-AA65) (2000-0051) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11194. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Standard Instrument Approach Procedures; Miscellaneous Amendments (38); amdt. No. 2012; [10-5/10-16]" (RIN2120-AA65) (2000-0052) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11195. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Service Difficulty Reports; technical amendment; Docket No. 28293" (RIN2120-AF71) (2000-0002) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11196. A communication from the Program Analyst. Federal Aviation Administra-

tion, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Fees for Air Traffic Services for Certain Flights Through U.S.-Controlled Airspace and for Aeronautical Studies; extension of comment period; interim final rule; docket no. FAA-00-7018; [10-6/10-16]" (RIN2120-AG17) (2000-0003) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11197. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Advanced Qualification Program; docket no. FAA-2000-7497 [10-10/10-16]" (RIN2120-AH01) (2000-0002) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11198. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Commercial Air Tour Limitations in the GCNPSFRA; Modification of the Dimensions of the GCNPFRA and FFZone; Disposition of a request for stay of compl. date; [10-11/10-16]" (RIN2120-ZZ30) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11199. A communication from the Acting Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Safety/Security Zone Regulations; Strategic Booming Exercise in the Cape May Harbor, Cape May, NJ (CGD05-00-047)" (RIN2115-AA97) (2000-0086) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11200. A communication from the Acting Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Safety/Security Zone Regulations; Thunderbird Air Show, Long Island Sound, Governor Alfred E. Smith/Sunken Meadow State Park, Kings Park, NY (CGD01-00-224)" (RIN2115-AA97) (2000-0087) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11201. A communication from the Acting Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Special Anchorage Areas/Anchorage Grounds Regulations; Delaware Bay and River (CGD05-00-048)" (RIN2115-AA98) (2000-0007) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11202. A communication from the Acting Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Drawbridge Regulations; Milford Haven, Virginia (CGD05-00-042)" (RIN2115-AE47) (2000-0049) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11203. A communication from the Acting Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Drawbridge Regulations; Florida East Coast Railway Bridge, Across the Okeechobee Waterway, Mile 7.4, at Stuart, Martin County, FL (CGD07-00-097)" (RIN2115-AE47) (2000-0050) received on October 16, 2000; to the

Committee on Commerce, Science, and Transportation.

EC-11204. A communication from the Acting Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Drawbridge Regulations; CSX Railroad Bridge (South Fork of the New River), Ft. Lauderdale, Broward County, FL (CGD07–00–092)" (RIN2115–AE47) (2000–0051) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11205. A communication from the Acting Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Allowing Alternative Source to Incandescent Light in Private Aids to Navigation (USCG-2000-7466)" (RIN2115-AF98) (2000-0001) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11206. A communication from the Acting Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Traffic Separation Scheme; In the Approaches to Los Angeles-Long Beach, California (USCG-2000-7695)" (RIN2115-AF99) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11207. A communication from the Acting Chief of the Office of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Technical Amendments; Organizational Changes; Miscellaneous Editorial Changes and Conforming Amendments (USCG-2000-7790)" (RIN2115-ZZ02) (2000-0002) received on October 16, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11208. A communication from the Acting Secretary of the Bureau of Consumer Protection, Federal Trade Commission, transmitting, pursuant to law, the report of a rule entitled "Appliance Labeling Rule, 16 C.F.R. Part 305" (RIN3084-AA74) received on October 17, 2000; to the Committee on Commerce, Science, and Transportation.

EC-11209. A communication from the Administrator, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, a report on the Application of New Standards or Technologies to Reduce Aircraft Noise Levels; to the Committee on Commerce, Science, and Transportation.

#### REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. JEFFORDS, from the Committee on Health, Education, Labor, and Pensions, with amendments:

S. 2731: A bill to amend title III of the Public Health Service Act to enhance the Nation's capacity to address public health threats and emergencies (Rept. No. 106-505).

By Mr. CAMPBELL, from the Committee on Indian Affairs:

Report to accompany S. 2917, a bill to settle the land claims of the Pueblo of Santo Domingo (Rept. No. 106-506).

### EXECUTIVE REPORT OF COMMITTEE

The following executive report of committee was submitted:

By Mr. McCAIN for the Committee on Banking, Housing, and Urban Affairs.

Marjory E. Searing, of Maryland, to be Assistant Secretary of Commerce and Director General of the United States and Foreign Commercial Service.

(The above nomination was reported with the recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. SMITH of New Hampshire (for himself, Mr. Gregg, Mr. Leahy, and Mr. Jeffords):

S. 3212. A bill to authorize the Secretary of the Interior to provide assistance in implementing cultural heritage, conservation, and recreational activities in the Connecticut River watershed of the States of New Hampshire and Vermont; to the Committee on Energy and Natural Resources.

By Mr. ALLARD (for himself and Mr. CRAPO):

S. 3213. A bill to amend the Internal Revenue Code of 1986 to allow an individual to designate \$3 or more on their income tax return to be used to reduce the public debt; to the Committee on Finance.

By Mr. GREGG (for himself, Mr. HAR-KIN, and Mr. KENNEDY):

S. 3214. A bill to amend the Assets for Independence Act (Title IV of the Community Opportunities, Accountability, and Training and Educational Services Act of 1998) to enhance program flexibility, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. HARKIN:

S. 3215. A bill to amend the Public Health Service Act to reauthorize women's health research award programs conducted through the National Institutes of Health; to the Committee on Health, Education, Labor, and Pensions.

By Mr. CRAIG (for himself and Mr. BAUCUS):

S. 3216. A bill to provide for review in the Court of International Trade of certain determinations of binational panels under the North American Free Trade Agreement; to the Committee on Finance.

By Mr. MACK (for himself and Mr. Brownback):

S. 3217. A bill to amend the Internal Revenue Code of 1986 to provide for individuals who are residents of the District of Columbia a maximum rate of tax of 15 percent on income from sources within the District of Columbia, and for other purposes; to the Committee on Finance.

By Mr. McCONNELL:

S. 3218. A bill to amend the Clean Air Act to exclude beverage alcohol compounds emitted from aging warehouses from the definition of volatile organic compounds; to the Committee on Environment and Public Works.

## SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. WARNER (for himself, Mr. LEVIN, Mr. THURMOND, Mr. KENNEDY, Mr. McCain, Mr. Byrd, Mr. Smith of New Hampshire, Mr. Robb, Mr. INHOFE, Mr. LIEBERMAN, Mr. SANTORUM, Mr. CLELAND, Ms. SNOWE, Ms. Landrieu, Mr. Roberts, Mr. REED, Mr. ALLARD, Mr. HUTCHINSON, Mr. Sessions, Mr. Bond, Mr. Binga-MAN, Mrs. HUTCHISON, Mr. SARBANES, Ms. Mikulski, Mr. Kerry, Mr. Mil-LER, Mr. EDWARDS, Mr. VOINOVICH, Mr. Wellstone, and Mrs. Feinstein):

S. Res. 378. A resolution honoring the members of the crew of the guided missile destroyer U.S.S. Cole (DDG-67) who were killed or wounded in the terrorist bombing attack on that vessel in Aden, Yemen, on October 12, 2000, expressing the sympathies of the Senate to the families of those crew members, commending the ship's crew for their heroic damage control efforts, and condemning the bombing of that ship; considered and agreed to.

By Ms. SNOWE (for herself, Mr. McCain, Mr. Robb, Mr. Inhofe, Mr. Thurmond, Mr. Bond, Ms. Landrieu, Mr. Roberts, Mr. Santorum, Mr. Hutchinson, Mr. Reed, Mr. Lieberman, Mr. Levin, Mr. Kennedy, and Mrs. Feinstein):

S. Res. 379. A resolution memorializing the sailors of the Navy lost in the attack on the U.S.S. *Cole* (DDG-67) in the port of Aden, Yemen, on October 12, 2000; extending condolences to their families and other loved ones; extending sympathy to the members of the crew of that vessel who were injured in the attack and commending the entire crew for its performance and professionalism in saving the U.S.S. *Cole*; considered and agreed to.

## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. SMITH of New Hampshire (for himself, Mr. GREGG, Mr. LEAHY, and Mr. JEFFORDS):

S. 3212. A bill to authorize the Secretary of the Interior to provide assistance in implementing cultural heritage, conservation, and recreational activities in the Connecticut River watershed of the States of New Hampshire and Vermont; to the Committee on Energy and Natural Resources.

UPPER CONNECTICUT RIVER PARTNERSHIP ACT OF 2000

Mr. SMITH of New Hampshire. Mr. President, I am pleased to introduce the Upper Connecticut River Partnership Act of 2000. This legislation is a truly locally-led initiative. I believe it will result in great environmental benefits for the Connecticut River.

The Connecticut River forms the border to New Hampshire and Vermont and provides for a great deal of recreational and tourism opportunities for residents of both States. This legislation takes a major step forward in making sure this River continues to thrive as a treasured resource.

To understand just how significant this legislation is, I would like to share with my colleagues some history about the Connecticut River program. In 1987–88, New Hampshire and Vermont each created a commission to address

environmental issues facing the Connecticut river valley. The commissions were established to coordinate water quality and various other environmental efforts along the Connecticut river valley. The two commissions came together in 1990 to form the Connecticut River Joint Commission. The Joint Commission has no regulatory authority, but carries out cooperative education and advisory activities.

To further the local influence of the Commission, the Connecticut River Joint Commission established five advisory bi-state local river subcommittees comprised of representatives nominated by the governing body of their municipalities. These advisory groups developed a Connecticut River Corridor Management Plan. A major portion of the plan focuses on channeling federal funds to local communities to implement water quality programs, nonpoint source pollution controls and other environmental projects. Over the last ten years, the Connecticut River Joint Commission has fostered widespread participation and laid a strong foundation of community and citizen involvement.

As a Senator from New Hampshire and chairman of the Environment and Public Works Committee, as well as someone who enjoys the beauty of the Connecticut river, I am proud to be the principal author and cosponsor of this locally led, voluntary effort that accomplishes realenvironmental progress. Too often we depend on bureaucratic federal regulatory programs to accomplish environmental success. This bill takes a different approach and one that I bet will achieve greater results on the ground. I hope that other communities and neighboring states will look at this model as an example of how to develop and implement true voluntary, on the ground, locally-led environmental programs.

I want to thank my colleague from New Hampshire, Senator GREGG, and the two distinguished Senators of Vermont, Senators LEAHY and JEFFORDS, for joining me as original cosponsors to this legislation. I look forward to working with them as we move this important legislation through the Senate.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 3212

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Upper Connecticut River Partnership Act".

#### SEC. 2. FINDINGS AND PURPOSE.

- (a) FINDINGS.—Congress finds that—
- (1) the upper Connecticut River watershed in the States of New Hampshire and

Vermont is a scenic region of historic villages located in a working landscape of farms, forests, and the mountainous headwaters and broad fertile floodplains of New England's longest river, the Connecticut River:

(2) the River provides outstanding fish and wildlife habitat, recreation, and hydropower generation for the New England region;

- (3) the upper Connecticut River watershed has been recognized by Congress as part of the Silvio 0. Conte National Fish and Wildlife Refuge, established by the Silvio O. Conte National Fish and Wildlife Refuge Act (16 U.S.C. 668dd note; Public Law 102-212);
- (4) the demonstrated interest in stewardship of the River by the citizens living in the watershed led to the Presidential designation of the River as 1 of 14 American Heritage Rivers on July 30, 1998;
- (5) the River is home to the bistate Connecticut River Scenic Byway, which will foster heritage tourism in the region;
- (6) each of the legislatures of the States of Vermont and New Hampshire has established a commission for the Connecticut River watershed, and the 2 commissions, known collectively as the "Connecticut River Joint Commissions"—
- (A) have worked together since 1989; and
- (B) serve as the focal point for cooperation between Federal agencies, States, communities, and citizens:
- (7) in 1997, as directed by the legislatures, the Connecticut River Joint Commissions, with the substantial involvement of 5 bistate local river subcommittees appointed to represent riverfront towns, produced the 6-volume Connecticut River Corridor Management Plan, to be used as a blueprint in educating agencies, communities, and the public in how to be good neighbors to a great river:
- (8) this year, by Joint Legislative Resolution, the legislatures have requested that Congress provide for continuation of cooperative partnerships and support for the Connecticut River Joint Commissions from the New England Federal Partners for Natural Resources, a consortium of Federal agencies, in carrying out recommendations of the Connecticut River Corridor Management Plan;
- (9) this Act effectuates certain recommendations of the Connecticut River Corridor Management Plan that are most appropriately directed by the States through the Connecticut River Joint Commissions, with assistance from the National Park Service and United States Fish and Wildlife Service;
- (10) where implementation of those recommendations involves partnership with local communities and organizations, support for the partnership should be provided by the Secretary.
- (b) Purpose.—The purpose of this Act is to authorize the Secretary to provide to the States of New Hampshire and Vermont (including communities in those States), through the Connecticut River Joint Commissions, technical and financial assistance for management of the River.

#### SEC. 3. DEFINITIONS.

- In this Act:
- (1) RIVER.—The term "River" means the Connecticut River.
- (2) SECRETARY.—The term "Secretary means the Secretary of the Interior.
- (3) STATE.—The term "State" means—
- (A) the State of New Hampshire: or
- (B) the State of Vermont.

#### SEC. 4. ASSISTANCE FOR STATES.

The Secretary of the Interior may provide to the States, through the Connecticut River Joint Commissions, technical and financial

- assistance in managing the River, including assistance in—  $\,$
- (1) developing a joint policy for water quality, flow management, and recreational boating for the portion of the River that is common to the States:
- (2) developing protection plans for water quality in the tributaries that flow into the River:
- (3) developing a coordinated, collaborative approach on the part of the States for monitoring the quality of the River for human use and ecological health:
- (4) restoring and protecting priority riverbanks to improve water quality and aquatic and riparian habitat:
- (5) encouraging and assisting communities, farmers, and other riverfront landowners in...
- (A) establishing and protecting riparian buffers; and
- (B) preventing nonpoint source pollution;
- (6) encouraging and assisting communities in—
- (A) protecting shoreland, wetland, and flood plains; and
- (B) managing and treating stormwater runoff;
- (7) in cooperation with dam owners—
- (A) evaluating the decommissioning of uneconomic dams in the watershed; and
  - (B) restoring natural riverine habitat;
- (8) protecting and restoring the habitat of native trout, anadromous fisheries, and other outstanding fish and wildlife resources;
- (9) encouraging new and improved markets for local agricultural products;
- (10) encouraging the protection of farm land and economically sustainable agriculture;
- (11) developing and promoting locally planned, approved, and managed networks of heritage trails and water trails in the River valley:
- (12) coordinating and fostering opportunities for heritage tourism and agritourism through the Connecticut River Scenic Byway;
- (13) demonstrating economic development based on heritage tourism;
- (14) supporting local stewardship;
- (15) strengthening nonregulatory protection of heritage resources;
- (16) encouraging the vitality of historically compact village and town centers;
- (17) establishing indicators of sustainability; and
- (18) monitoring the impact of increased tourism and recreational use on natural and historic resources.

#### SEC. 5. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this Act.

## By Mr. ALLARD (for himself and Mr. CRAPO):

S. 3213. A bill to amend the Internal Revenue Code of 1986 to allow an individual to designate \$3 or more on their income tax return to be used to reduce the public debt; to the Committee on Finance.

TAXPAYERS CHOICE DEBT REDUCTION ACT

Mr. ALLARD. Mr. President, I have introduced S. 3213. I want to take a few moments to talk about this important piece of legislation for paying down the national debt.

As the 106th Congress comes to an end, I rise to make a few comments on the evolution of an issue of great concern to myself and to many Americans.

The issue is the \$5,661,548,045,674 national debt we had as of October 2, 2000.

In August of 1993, while serving in the House of Representatives, I introduced House Joint Resolution 251 with the support of a number of my colleagues. The intention of this resolution was to amend the Constitution of the United States to provide for budgetary reform by requiring the reduction of the deficit, a balanced Federal budget, and the repayment of the national debt. During my years in the House, I had the good fortune to work with many Republican colleagues who were committed to these fiscally sound and enormously important issues.

Today, a scant 7 years later, we are enjoying unsurpassed Federal budget surpluses and the many difficulties that accompany such prosperity. I am concerned that the running dialog in Washington is far too focused on today's spending, today's enormous Federal programs, today's immediate wants and needs. I am concerned that we are talking too much about spend today and not enough about the consequences of tomorrow. As we conclude the appropriations process, it is apparent that many Members of this body are eager to transform the Federal budget surplus into new Federal spending, creating more Federal programs that will begat future obligations.

I am primarily concerned that efforts to recklessly spend every nickel of the taxpayers' money will threaten the long-term fiscal health of our Nation, the Nation our children and grand-children will inherit. The majority of my colleagues on this side of the aisle are focusing on returning the surplus to its rightful owners—the American people.

In recent months, the current administration has taken a hardline against tax cuts, making it clear that the President believes the Federal budget surplus belongs to Washington and not the hard-working men and women who send far more money to the Internal Revenue Service than they often save for retirement, college, or for buying a home.

I find it frustrating and the height of arrogance to assume that the Federal Government can do more with this money than the taxpayers. So many of my Republican colleagues have such a profound conviction regarding returning the money to the working man and woman that, in fact, they have been hesitant to engage in development of a comprehensive long-term debt repayment plan.

I have come to the floor before, and I will come to the floor again, to make clear what is required to manage the national debt in a comprehensive repayment strategy. The sheer enormity of the national debt demands such diligence. I admit that I have no desire to increase the growth of the Federal Government instead of paying down

the debt. I am, as many of my colleagues, however, personally committed to cutting taxes.

I have come to the floor today for no other reason than to make one thing crystal clear: We can pay down the debt and cut taxes. It is not an either/ or proposition. It takes planning, and it takes commitment. It takes a plan to repay the debt and a commitment to cut taxes and the discipline to refrain from pouring ever more money into newer or larger programs.

At the end of fiscal year 1999, the gross Federal budget was \$5,656,270,901,615 and at the end of fiscal year 2000, the gross Federal budget was \$5,674,178,209,886.

Our past fiscal irresponsibilities have created this overwhelming mess, and an unpleasant task lies before us. For the health and well-being of our national economy and the future security of our young people, we must commit to the elimination of this debt.

The journey of 5½ trillion miles begins with a single step. Early in the 106th Congress, I introduced the American Debt Repayment Act. A year later, I followed that legislation with the American Social Security Protection and Debt Repayment Act. I believe each of these bills provided a sensible first step toward debt repayment and the 5 trillion steps to follow.

Both pieces of legislation suggested we treat the Federal debt just as every American treats the largest purchase they will ever make. That is their home. In February of this year, I came to the floor with my friends, George VOINOVICH, ROD GRAMS and MIKE ENZI, with an amortization schedule for debt repayment to be offered to the budget resolution. Just as any American home buyer would amortize the purchase of their home with a mortgage, we offered a dutiful and moderate restriction on Federal spending combined with a specific debt repayment schedule. Our amendment was defeated. I believe the chief reason for the defeat of the amendment was the fear of being locked into a long-term repayment plan that would prohibit future tax cuts. The July 2000 budget economic and outlook update by the Congressional Budget Office disputes this understandable fear.

According to the CBO, assuming spending is frozen at fiscal year 2000 levels, the next 10 years will yield an on-budget surplus of \$3.4 trillion. If this Congress had exercised some discipline this year and appropriated within a freeze, the on-budget surplus in fiscal year 2001, which we have just begun, is projected to be \$116 billion.

One criticism of the long-term debt amortization plan that I brought to the floor was that it would prevent tax cuts and tie the hands of appropriators by absorbing all of the surplus. My most recent plan simply dedicates \$15 billion of on-budget surplus to debt re-

payment and adds \$15 billion each year thereafter. The sum total after 10 years of structured debt repayment is \$825 billion from on-budget surplus.

This repayment schedule would have left \$2.6 trillion remaining for tax cuts and new spending over the next 10 years.

It is important to note that these numbers do not take into account the off-budget surplus created by Social Security. I have said on the floor many times before that paying down the national debt is one of the best ways to provide long-term fiscal stability to Social Security.

In the past, I proposed restricted use of the Social Security surplus to help pay down the debt. This not only provides for the future stability of Social Security by paying down the debt but protects Social Security money from Federal discretionary spending.

Social Security surplus money should be used for debt repayment only until such time as Congress can initiate sensible reform to preserve the long-term integrity of Social Security. Social Security reform has been a priority of this Congress, and we can act to reduce the debt and reform this important program in one commitment.

When the new Congress convenes in 2001, I intend to continue to work with my colleagues on developing a sensible and concrete debt repayment plan. I am also interested in working with my colleagues on other innovative ways to reduce the national debt. Legislation was recently introduced in the House, and I am pleased to come to the floor today on behalf of myself and the Senator from Idaho, Mr. CRAPO, to introduce the Taxpayers Choice Debt Reduction Act.

Every year, millions of taxpaying Americans have the opportunity to designate on their tax form a \$3 contribution to the Presidential Election Campaign Fund. This checkoff on all 1040 forms would allow for the taxpayers themselves to designate that \$3, or \$6 for joint filers, would be dedicated to a special Department of the Treasury account to pay down the national debt.

Checking the box on the tax document would not increase the amount of taxes to be paid, nor would it decrease any refund. Checking "yes" in this box would simply provide a directive from the taxpayer that 3 of the dollars they were paying in taxes be used solely to pay down the Nation's debt. Importantly, these funds would be beyond any money set aside by Congress for debt reduction.

In my annual town meetings around the State of Colorado, I often speak with my constituents over the enormous debt owed by this country. I can say with great confidence that this is an issue where the public desires action. It is my hope that with this legislation Congress will empower these

concerned taxpayers to act on their impulse to eliminate the debt.

Before I yield the floor, I extend my thanks to all of my Senate colleagues who have expressed an interest in debt repayment during this Congress, particularly Senators VOINOVICH, ENZI, GRAMS of Minnesota, CRAPO, REID of Nevada, and FEINGOLD. I have enjoyed working with each of these Members over the course of the year as we have brought debt repayment amendments to the floor. I look forward to continuing to work on this important issue with my colleagues.

## Mr. GREGG (for himself, Mr. HARKIN, and Mr. KENNECY):

S. 3214. A bill to amend the Assets for Independence Act (Title IV of the Community Opportunities, Accountability, and Training and Educational Services Act of 1998) to enhance program flexibility, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

ASSETS FOR INDEPENDENCE ACT AMENDMENTS  ${\rm OF} \ 2000$ 

Mr. GREGG. Mr. President. in his 1991 book "Assets and the Poor: a New American Welfare Policy," Washington University Professor Michael Sherraden argues that people move forward economically through savings and investment, not through spending and consumption. Owning assets gives people a stake in the future—a reason to save, to dream, and to invest time, effort and resources in creating a future for themselves and their children. As Sherraden puts it, "income may feed people's stomachs, but assets change their heads."

I am pleased today to be joined by Senator HARKIN in introducing legislation designed to further promote innovative asset-building strategies for the poor.

Over the past two years, asset-building strategies have gained widespread, bi-partisan support at both the federal and state levels. Legislation has been introduced and laws have been enacted to develop and promote Individual Development Accounts (IDAs) among low income Americans. IDAs reward the monthly savings of working poor families who are trying to buy their first home, pay for post secondary education, or start a business.

In some respects, IDAs are like Individual Retirement Accounts for the working poor. IDAs are dedicated savings accounts that can be used for purchasing a first home, paying for postecondary education, or capitalizing business. These investments are associated with extremely high rates of return that have the potential to bring a new level of economic and personal security to families and communities. Participants also are able to make emergency withdrawals in limited circumstances and must pay back such withdrawals within 12 months.

The individual or family deposits whatever dollar amount they can save (typically \$5 to \$20 a month) into the account. The sponsoring organization matches that deposit with funds provided by local churches and service organizations, corporations, foundations, and state or local governments. The sponsoring organization determines the ratio at which they will match an individual's contribution (not less than \$0.50 and not more than \$4 for every \$1).

In 1998, Congress enacted legislation entitled the "Assets for Independence Act". This Act established a five year demonstration program to determine the social, civic, psychological and economic effects that individual development account, IDA, savings accounts can have on low income individuals and their families. The assets for independence demonstration program is presently the largest source of federal funding for individual development accounts.

The intent of this demonstration program is to encourage participants to develop and reinforce strong habits for saving money. To assist this, sponsor organizations provide participating individuals and families intensive financial counseling and counseling to develop investment plans for education, home ownership, and entrepreneurship. In addition, participating welfare and low-income families build assets whose high return on investment has the capacity for propelling them into independence and stability.

The community also benefits from the significant return on investment in IDAs: we expect welfare rolls to be reduced, tax receipts to increase, employment to increase, and local enterprises and builders can expect local businesses to benefit from increased activity. Neighborhoods will be rejuvenated as new micro-enterprises and increased home renovation and building drive increased employment and community development.

In fact, it is estimated that an investment of \$125 million in assert building through these individual accounts will generate 7,050 new businesses, 68,799 new jobs, \$730 million in additional earnings, 12,000 new or rehabilitated homes, \$287 million in savings and matching contributions and earnings on those accounts, \$188 million in increased assets for low-income families, 6,600 families removed from welfare rolls, 12,000 youth graduates from yocational education and college programs, 20,000 adults obtaining high school, vocational, and college degrees.

IDA programs currently exist in about 250–300 communities, with another 100 in development. Overall, at least 10,000 people are currently saving in an IDA and another 30,000–40,000 are expected to be reached by the year 2003. All but three states have IDA programs in their states or mechanisms in place to permit the start up of an IDA program.

The field of economic development has rapidly changed over the course of the last few years, and as a result, those administering IDAs on a national basis have sought to work within the structure defined by Congress. Unfortunately, because of changes in the field and certain unforeseen difficulties with the implementation of the demonstration in its current form, we have been asked to consider making a handful of technical changes that will help with program administration and make the program run more consistently and effectively.

Those changes include: (1) changing the legal accounting structure of IDAs; (2) expanding the potential field of grantees to include low-income credit unions and community development financial institutions; (3) providing additional flexibility for withdrawals from IDA accounts for the purchase of a home; (4) expanding the availability of funds for economic literacy training; and (5) adding a Federal poverty measure to the current eligibility criteria; and (6) making the AFIA and TANF Individual Development Account programs consistent with respect to the treatment of funds for purposes of determining eligibility for Federal programs based on need.

These are modest but needed changes in the law that will help Federal IDA programs function more as originally intended. I urge their adoption.

I ask unanimous consent that a summary of the bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

ASSETS FOR INDEPENDENCE ACT AMENDMENTS OF 2000—SECTION-BY-SECTION SUMMARY

NOTE: Except where otherwise specified, references in this summary to provisions of law are references to provisions of the Assets for Independence Act (the Act), title IV of the Community Opportunities, Accountability, and Training and Educational Services Act of 1998

# SEC. 2. MATCHING CONTRIBUTIONS UNAVAILABLE FOR EMERGENCY WITH-DRAWALS.

This section amends section 404(5)(A) (which defines the term "Individual Development Account" (IDA) and specifies required IDA elements), in clause (v), to eliminate language which permits use of matching contributions by the qualified entity serving as IDA trustee for emergency withdrawals. As amended, clause (v) would permit use of matching contributions only for qualified expenses (as defined in section 404(8)). The amendment would eliminate the inconsistency between section 404(5)(A)(v) as currently drafted and section 404(3), which defines the term "emergency withdrawal" to mean a withdrawal by the eligible individual of some or all of the funds deposited by that individual for specified emergency situations.

#### SEC. 3. ADDITIONAL QUALIFIED ENTITIES.

This section amends section 404(7) (the definition of "qualified entity") to expand the category of entities eligible to operate IDA

programs under the Act to include low-income credit unions (as designated by the National Credit Union Administration) and organizations designated as community development financial institutions by the Secretary of the Treasury (or the Community Development Financial Institutions Fund) that can demonstrate a collaborative relationship with a community-based organization.

#### SEC. 4. HOME PURCHASE COSTS.

Section 4(a) amends section 407(8)(B) (which includes the purchase of a first home in the definition of "qualified expenses" for which IDA funds can be withdrawn by the participant) to increase the purchase price limit to 120 percent of the average area purchase price for such a residence.

# SEC. 5. INCREASED SET-ASIDE FOR ECONOMIC LITERACY TRAINING AND ADMINISTRATIVE COSTS.

Section 5 amends section 407(c)(3) by increasing from 9.5 percent of 15 percent the amount of funds that grantee organizations may use to provide economic literacy training and other administrative functions. Of this amount, not more than 7.5 percent may be used for administrative functions.

#### SEC. 6. ALTERNATIVE ELIGIBILITY CRITERIA.

This section amends section 408(a) (which sets forth IDA participation criteria) by adding an additional criteria for eligibility as an IDA program participant. Under this amendment, an individual with an income less than 200% of the poverty line (as defined by OMB), would be eligible to participate.

### SEC. 7. REVISED ANNUAL PROGRESS REPORT DEADLINE.

Section 7 amends Section 412 © which currently requires the first Annual Progress Report to be delivered not later than 60 days after the end of the calendar year. This amendment would require the first report to be delivered not later than 60 days after the end of the project year.

### SEC. 8. REVISED INTERIM EVALUATION REPORT DEADLINE.

This section amends section 414(d) which currently requires the first interim evaluation to be delivered not later than 90 days after the end of the calendar year in which the Secretary first authorizes a demonstration project. This amendment would require the first interim evaluation to be delivered not later than 90 days after the end of the project year.

#### SEC. 9. INCREASED APPROPRIATIONS FOR EVAL-HATION EXPENSES.

The section amends section 414(e) (which sets forth the amount the Secretary may set aside to evaluate the IDA program) by changing from 2% to not more than \$500,000 the amount of IDA appropriations set aside for such evaluation.

#### SEC. 10. NO REDUCTION IN BENEFITS.

This section strikes section 415 which pertains to the treatment of funds deposited in IDA accounts for purposes of determining eligibility for Federal or federally assisted program based on need and replaces it with similar language found in P.L. 104–193, the TANF block grant. Currently, only funds contributed into an IDA by a sponsoring organization are disregarded for purposes of determining eligibility for federal needs tested programs. With this change, both an individual's own contributions and the contributions made on behalf of an individual by a sponsoring organization will be disregarded for this purpose.

#### By Mr. HARKIN:

S. 3215. A bill to amend the Public Health Service Act to reauthorize

women's health research award programs conducted through the National Institutes of Health; to the Committee on Health, Education, Labor, and Pensions

#### WOMEN'S HEALTH RESEARCH CAREER ENHANCEMENT ACT

Mr. HARKIN. Mr. President, I am pleased to introduce today the Women's Health Research Career Enhancement Act of 2000. This legislation addresses a critical shortage of qualified clinician researchers available to investigate the diseases and conditions that primarily affect women.

As the brother of two sisters lost to breast cancer and the father of two daughters, I know first-hand the importance of making women's health initiatives a top priority. More can and must be done to guarantee that women have the quality care they deserve. This includes making sure that qualified researchers are out there leading the search for cures and treatments.

In 1985, the United States Public Health Task Force on Women's Health Issues concluded that women's health care was getting short shrift by the lack of research focus on women's health concerns. Since then we have made good progress to expand women's health research, but more needs to be done.

In 1990, the U.S. General Accounting Office (GAO) found that the National Institutes of Health (NIH) had been slow and ineffective in implementing a policy to include women in research study populations. At the urging of myself and others, and in response to passage of the NIH Revitalization Act of 1993, the NIH began to take more comprehensive measures to increase research on health problems affecting women

And more recently, at my request, along with Senators Olympia Snowe and Barbara Mikulski, and Representative Harry Waxman (D-CA), the GAO published a report last May assessing the Nih's progress on conducting research on women's health in the past decade. The GAO's report found that while Nih has made significant progress in implementing a strengthened policy on including women in clinical research, they have failed to fully analyze clinical data on women's health.

It is clear we can and must do more to advance a comprehensive women's health agenda.

A growing body of evidence is emerging that demonstrates significant differences between men and women and how they get sick and how they react to potential treatments. Women and men metabolize food, alcohol, medication and environmental toxins differently.

And certain diseases and conditions disproportionately affect women. For example, women comprise 80% of those suffering from osteoporosis. Seventy-

five percent of those afflicted with autoimmune diseases are women. And although we have made significant progress, we are still fighting the terrible epidemic of breast cancer in this country, a disease that strikes 1 out of every 8 American women.

Women everywhere will benefit through more and better scientific research on the diseases and conditions that affect them. And our scientific enterprise will reap maximum returns when it involves teams of investigators with expertise in various disciplines. A comprehensive, targeted approach is necessary to develop a multi-disciplinary cadre of researchers with the interest and expertise to broaden the field of women's health research.

In addition, mentoring between junior and senior scientists is important to promoting an inclusive and diverse research environment. Mentoring relationships can lead to the retention and advancement of talented scientists from all segments of the population and enhance our investment in medical research.

Mr. President, my legislation authorizes two important initiatives to expand the number of qualified investigators in women's health research by providing improved career development opportunities through the National Institutes of Health (NIH):

First, the Building Interdisciplinary Research Careers in Women's Health Program—will support the career development of junior women's health scientists by providing new opportunities to improve their research skills in interdisciplinary settings. The NIH, through the Office of Research on Women's Health, will provide grants to research institutions to pair junior investigators with seasoned senior investigators, who will mentor them for 2–5 years.

Second, the Women's Reproductive Health Research Career Development Centers—will help build the next generation of investigators in obstetrics and gynecology by giving clinicians the experience they need to become women's health scientists. The NIH, through the National Institute of Child Health and Human Development and the Office of Research on Women's Health, will provide grants to research institutions and hospitals for the training of new women's health researchers.

The Women's Reproductive Health Research Career Development Centers program and the Building Interdisciplinary Research Careers in Women's Health grant program have already stimulated women's health research across a variety of disciplines. Authorizing and expanding these programs will speed breakthroughs in women's health research by building and improving the network of scientific investigators expert in the diseases and conditions that affect women.

Mr. President, I have a long tradition of supporting research and specifically women's health research both as Chairman and now Ranking Member of the Senate Labor, Health and Human Services and Education Appropriations Subcommittee. This year we will provide an unprecedented, \$2.7 billion increase for the National Institutes of Health, keeping us well on track towards our goal of doubling the NIH budget over 5 years.

But all the funding in the world will do us no good if we don't have talented investigators ready and able to take on the challenge of finding the cures and treatments for the diseases that afflict us. We must do more to make sure we grow and strengthen a diverse network of our best and brightest clinicians and scientists to keep pace with our increased investment in medical research. The bill I am introducing today will help to do just that. It has the support of the National Institutes of Health, the Society for Women's Health Research, the Women's Health Research Coalition and the American College of Obstetricians and Gynecologists. I urge my colleagues to support this important legislation. I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 3215

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Women's Health Research Career Enhancement Act of 2000"

#### SEC. 2. FINDINGS.

Congress makes the following findings:

- (1) The Public Health Service's Task Force on Women's Health Issues concluded in 1985 that women's health care was compromised by the lack of research focus on women's health concerns. Since then, progress has been made to expand women's health research, but more can be done to strengthen our nation's capacity to aggressively investigate the diseases and conditions primarily affecting women.
- (2) A growing body of evidence demonstrates dramatic differences between women's and men's biology, including symptoms of disease, mechanism of disease and responses to treatment.
- (3) Women and men differ in disease presentation and treatment outcomes of coronary heart disease. Women comprise 80 percent of the population suffering from osteoporosis. Women comprise 75 percent of those afflicted with autoimmune diseases. Women and men metablolize food, alcohol, medication, and atmospheric toxins differently.
- (4) Scientific research will reap maximum returns when it involves teams of investigators with expertise in various disciplines. A comprehensive, targeted effort is necessary to develop a multi-disciplinary cadre of researchers with the interest and expertise to develop the field of gender based health research so that it has the greatest impact on all women and men.
- (5) Mentoring between junior and senior scientists is vitally important to promoting

an inclusive and diverse research environment, leading to the retention and advancement of talented scientists from all segments of the population and enhancing the nation's investment in treatments and cures for the diseases and conditions that affect Americans.

- (6) The Women's Reproductive Health Research Career Development Centers and the Building Interdisciplinary Research Careers in Women's Health grant programs have stimulated women's health research across a variety of disciplines.
- (7) Expanding the initiatives described in paragraph (6) will speed breakthroughs in women's health research by building and improving the network of scientific investigators who are experts in the diseases and conditions that affect women.

#### SEC. 3. BUILDING INTERDISCIPLINARY RE-SEARCH CAREERS IN WOMEN'S HEALTH.

Part A of title III of the Public Health Service Act (42 U.S.C. 241 et seq.) is amended by adding at the end the following:

#### "SEC. 310A. BUILDING INTERDISCIPLINARY RE-SEARCH CAREERS IN WOMEN'S HEALTH.

"(a) PURPOSE.—It is the purpose of the section to provide funding to enable the Director of the Office of Research on Women's Health, in coordination with the Director of the National Institute of Child Health and Human Development and other Institutes and centers of the National Institutes of Health, to carry out the Building Interdisciplinary Research Careers in Women's Health program (as authorized under section 301) to support the career development of scientists who are commencing basic. translational, clinical, behavioral or health services research relevant to women's health in an interdisciplinary scientific setting.

"(b) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated such sums as may be necessary for each of fiscal years 2001 through 2006 to enable the Director of the Office of Research on Women's Health to carry out program described in subsection (a).

"(c) REQUIREMENTS FOR GRANTS.—

"(1) ELIGIBILITY.—In making awards under the program described in subsection (a), the Director of the Office of Research on Women's Health, acting through the Director of the National Institute of Child Health and Human Development and other Institutes and centers of the National Institutes of Health, shall, with respect to an institution, consider—

"(A) domestic profit and nonprofit, non-Federal, public or private organizations;

"(B) the extent to which the institution has the clinical specialities and subspecialities, and the clinical and research facilities, sufficient to meet the objective of the program of bridging clinical or post-doctoral training with a career in interdisciplinary research relevant to women's health; and

"(C) other factors determined appropriate by the Directors.

"(2) RULE OF CONSTRUCTION.—With respect to the program described in subsection (a), nothing in this subsection shall be construed to prohibit the application by the Director of the Office of Research on Women's Health of eligibility or other requirements, including requirements applied to applicants under such program in the fiscal year prior to the date of enactment of this section."

#### SEC. 3. WOMEN'S REPRODUCTIVE HEALTH RE-SEARCH CAREER DEVELOPMENT CENTERS.

Part A of title III of the Public Health Service Act (42 U.S.C. 241 et seq.), as amended by section 3, is further amended by adding at the end the following:

#### "SEC. 310B. WOMEN'S REPRODUCTIVE HEALTH RESEARCH CAREER DEVELOPMENT CENTERS.

- "(a) PURPOSE.—It is the purpose of this section to provide for the funding of Women's Reproductive Health Research Career Development Centers to enable the Director of the National Institute of Child Health and Human Development, in collaboration with the Director of the National Institutes of Health, to—
- "(1) assist in improving the health of women and infants by training new researchers in reproductive health science;
- "(2) address concerns raised in a recent study by the National Research Council about the declining number of physician-investigators; and
- "(3) provide newly trained obstetricgynecologic clinicians with training and support, through the Women's Reproductive Health Research Career Development Centers, to assist in such clinicians in their pursuit of research careers to address problems in women's obstetric and gynecologic health.
- "(b) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated such sums as may be necessary for each of fiscal years 2001 through 2006 to enable the Director of the National Institute of Child Health and Human Development to fund Women's Reproductive Health Research Career Development Centers for the purposes described in subsection (a).
- "(c) RULE OF CONSTRUCTION.—With respect to the program described in subsection (a), nothing in this section shall be construed to prohibit the application by the Director of the National Institute of Child Health and Human Development of eligibility or other requirements, including requirements applied to applicants under such program, in the fiscal year prior to the date of enactment of this section."

### Mr. CRAIG (for himself and Mr. BAUCUS):

S. 3216. A bill to provide for review in the Court of International Trade of certain determinations of binational panels under the North American Free Trade Agreement; to the Committee on Finance.

#### INTEGRITY OF THE U.S. COURTS ACT

Mr. CRAIG. Mr. President, I rise to introduce important legislation designed to correct a fundamental flaw within the North American Free Trade Agreement (NAFTA) dispute resolution mechanism, known as Chapter 19. As many of my colleagues are aware, Chapter 19 has revealed itself to be unacceptable in its current form. The Integrity of the U.S. Courts Act, that I introduce today with my colleague Mr. BAUCUS, is necessary to make certain bilateral dispute resolution decisions from the NAFTA are made pursuant to U.S. trade laws.

At present, antidumping and countervailing duty determinations made by NAFTA members are appealed to ad hoc panels of private individuals, instead of impartial courts created under national constitutions. These panels are supposed to apply the same standard of review as a U.S. court in order to determine whether a decision is supported by substantial evidence on the

agency record, and is otherwise in accordance with the law. This standard requires that the agency's factual findings and legal interpretations be given significant deference. Unfortunately, in spite of the panels's mandate, they all too often depart from their directive and fail to ensure that the correct standard of review is applied.

The Integrity of the U.S. Courts Act would permit any party to a NAFTA dispute involving a U.S. agency decision to remove appellate jurisdiction from the Extraordinary Challenge Committees (ECC) to the U.S. Court of International Trade. Doing so would resolve some of the constitutional issues raised by the Chapter 19 system, expedite resolution of cases, and ensure

conformity with U.S. law.

The infirmities of Chapter 19 are real. and have been problematic from the beginning. The Justice Department, the Senate Finance Committee, and other authorities are on record of having expressed serious concern about giving private panelists—sometimes a majority of whom are foreign nationals—the authority to issue decisions about U.S. domestic law that have the binding force of law. These appointed panelists, coming from different legal and cultural disciplines and serving on an ad hoc basis, do not necessarily have the interest that unbiased U.S. courts have in maintaining the efficacy of the laws, as Congress wrote them.

One of the most egregious examples of the flaws of Chapter 19 is reflected in a case from early in this process, reviewing a countervailing duty finding that Canadian lumber imports benefits from enormous subsidies. Three Canadian panelists outvoted two leading U.S. legal experts to eliminate the countervailing duty based on patently erroneous interpretations of U.S. lawinterpretations that Congress had expressly rejected only months before. Two of the Canadian panelists served despite undisclosed conflicts of interest. The matter was then argued before a Chapter 19 appeals committee, and the two committee members outvoted the one U.S. member to once again insulate the Canadian subsidies from U.S. law.

The U.S. committee member was Malcolm Wilkey, the former Chief Judge of the Federal Court of Appeals for the D.C. circuit, and one of the United States' most distinguished jurists. In his opinion, Judge Wilkey wrote that the lumber panel decision "may violate more principles of appellate review of agency action than any opinion by a reviewing body which I have ever read." Judge Wilkey and former Judge Charles Renfrew (Also a chapter 19 appeals committee member) have since expressed serious constitutional reservations about the system. While some have claimed that Chapter 19 decides many cases well, its inability to resolve appropriately large disputes, and its constitutional infirmity, demand a remedy.

It is clear that the time is long past due to remedy Chapter 19. From the outset, the NAFTA agreement contemplated that given the sensitive and unusual subject matter, signatories might have to alter their obligations under Chapter 19. The Integrity of the U.S. Courts Act is a reasonable solution to a serious problem.

I urge my colleagues to join Senator BAUCUS and me in our effort to fix this problem that is unfairly harming American industry, and more important, the U.S. Constitution. I ask unanimous consent that the full text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 3216

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Integrity of the United States Courts Act of 2000"

#### SEC. 2. JUDICIAL REVIEW OF BINATIONAL PANEL DECISIONS.

(a) IN GENERAL.—Subtitle A of title IV of the North American Free Trade Agreement Implementation Act (19 U.S.C. 3431 et seq.) is amended by inserting after section 404 the following new section:

#### "SEC. 404A. REVIEW OF BINATIONAL PANEL DE-TERMINATIONS.

"(a) Basis for Review in Court of Inter-NATIONAL TRADE.—

"(1) IN GENERAL.—If, within 30 days after publication in the Federal Register of notice that a binational panel has issued a determination following a review under article 1904 of a decision of a competent investigating authority in the United States, a party or person within the meaning of paragraph 5 of article 1904 alleges that-

"(A)(i) the determination of the panel was based on a misinterpretation of United States law:

"(ii) a member of a panel was guilty of a gross misconduct, bias, or a serious conflict of interest, or otherwise materially violated the rules of conduct.

"(iii) the panel seriously departed from a fundamental rule of procedure, or

"(iv) the panel manifestly exceeded its powers, authority, or jurisdiction set out in article 1904, as in failing to apply the appropriate standard of review, and

"(B) any of the actions described in subparagraph (A) has materially affected the panel's decision and threatens the integrity of the binational panel review process,

then such party or person may file an appeal with the United States Court of International Trade, seeking review of the binational panel determination, pursuant to section 516A of the Tariff Act of 1930.

"(2) REVIEW IN COURT OF INTERNATIONAL TRADE WHERE BINATIONAL PANEL DOES NOT ACT.—If a request for a panel review has been made under article 1904 and a panel is not convened within 315 days of the request, the Party requesting the panel review or person within the meaning of paragraph 5 of article 1904 may file an appeal of the antidumping or countervailing duty determination with respect to which the request was filed with the United States Court of International Trade.

"(b) Decisions of the Court.

"(1) IN GENERAL.—In any appeal filed under subsection (a)(1) for review of a binational panel determination, the Court of International Trade shall, after examining the legal and factual analysis underlying the findings and conclusions of the panel's decision, determine whether any of the actions described in subsection (a)(1)(A) has been established. If the court finds that any of those actions has been established, the court shall vacate the original panel decision and enter judgment accordingly. If the actions are not established, the court shall affirm the original binational panel decision. Decisions of the Court of International Trade under this section shall be binding on the parties with respect to the matters between the parties that were before the panel.

"(2) DECISIONS WHERE PANEL NOT CON-VENED.—In the case of an appeal filed under subsection (a)(2) for review of a determination of a competent investigating authority. the Court of International Trade shall, after examining the legal and factual analysis underlying the findings and conclusions of the investigating authority's determination, determine whether the determination was made in accordance with article 1904. If the court finds that the determination was not in accordance with article 1904 or is not supported by the legal and factual analysis, the court shall vacate the investigating authority's determination and enter judgment accordingly. If the court finds that the determination was in accordance with article 1904 and is supported by the legal and factual analysis, the court shall affirm the investigating authority's determination. Decisions of the Court of International Trade under this section shall be binding on the parties with respect to the matters between the parties that would have been before a panel had the panel been convened.

(c) Exclusive Jurisdiction.—If a party or person within the meaning of paragraph 5 of article 1904 timely files a notice of appeal to the Court of International Trade pursuant to this section, then jurisdiction exclusively resides with the United States Court of International Trade, and such determinations are not subject to review by an extraordinary challenge committee under paragraph 13 of article 1904.

"(d) Applicability.—Subsections (b)(1), and (c) apply to all goods from NAFTA countries which were subject to an antidumping duty or countervailing duty determination of a competent investigating authority in the United States."

(b) CONFORMING AMENDMENT.—The table of contents of the North American Free Trade Implementation Act is amended by inserting after the item relating to section 404 the following:

"Sec. 404A. Review of binational panel determinations.'

#### SEC. 3. JURISDICTION OF THE COURT OF INTER-NATIONAL TRADE.

Section 516A of the Tariff Act of 1930 (19 U.S.C. 1516a) is amended—

(1) in subsection (a)(2)—

(A) in subparagraph (A)(i)(I), by striking "or (viii)" and inserting "(viii), (ix), or (x)"; and

(B) in subparagraph (B), by adding at the end the following:

"(ix) A final determination of a binational panel convened pursuant to article 1904 of the NAFTA.

"(x) A final determination of an investigating authority described in section 404A(a)(2) of the North American Free Trade Agreement Implementation Act.";

(2) in subsection (a)(5), in the matter preceding subparagraph (A), by inserting "(other than a determination described in subsection (g)(3)(A)(vii))" after "apply"; and (3) in subsection (g)(3)(A)—

(A) in clause (v), by striking "or" at the end;

(B) in clause (vi), by striking the period and inserting ", or"; and

(C) by adding at the end the following:

"(vii) a determination of which either a party or person within the meaning of paragraph 5 of article 1904 of the NAFTA has requested review pursuant to section 404A of the North American Free Trade Agreement Implementation Act."

#### SEC. 4. APPLICATION TO CANADA AND MEXICO.

Pursuant to article 1902 of the North American Free Trade Agreement and section 408 of the North American Free Trade Agreement Implementation Act, the amendments made by this Act shall apply with respect to goods from Canada and Mexico.

#### SEC. 5. EFFECTIVE DATE.

The amendments made by this Act shall apply to any final determination of a binational panel convened pursuant to article 1904 of the North American Free Trade Agreement or to a final determination of a competent investigating authority with respect to which section 404A(a)(2) of the North American Free Trade Agreement Implementation Act applies, notice of which is published in the Federal Register on or after the date of enactment of this Act.

#### ADDITIONAL COSPONSORS

S. 61

At the request of Mr. DEWINE, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 61, a bill to amend the Tariff Act of 1930 to eliminate disincentives to fair trade conditions.

S. 459

At the request of Mr. Breaux, the name of the Senator from Florida (Mr. Graham) was added as a cosponsor of S. 459, a bill to amend the Internal Revenue Code of 1986 to increase the State ceiling on private activity bonds.

S. 922

At the request of Mr. ABRAHAM, the names of the Senator from Delaware (Mr. BIDEN) and the Senator from New York (Mr. SCHUMER) were added as cosponsors of S. 922, a bill to prohibit the use of the "Made in the USA" label on products of the Commonwealth of the Northern Mariana Islands and to deny such products duty-free and quota-free treatment.

S. 1536

At the request of Mr. DEWINE, the name of the Senator from Nevada (Mr. REID) was added as a cosponsor of S. 1536, a bill to amend the Older Americans Act of 1965 to extend authorizations of appropriations for programs under the Act, to modernize programs and services for older individuals, and for other purposes.

S. 1822

At the request of Mr. McCain, the name of the Senator from Washington (Mr. Gorton) was added as a cosponsor of S. 1822, a bill to amend the Public Health Service Act, the Employee Re-

tirement Income Security Act of 1974, and the Internal Revenue Code of 1986 to require that group and individual health insurance coverage and group health plans provide coverage for treatment of a minor child's congenital or developmental deformity or disorder due to trauma, infection, tumor, or disease.

S. 2068

At the request of Mr. GREGG, the name of the Senator from Wyoming (Mr. ENZI) was withdrawn as a cosponsor of S. 2068, a bill to prohibit the Federal Communications Commission from establishing rules authorizing the operation of new, low power FM radio stations.

S. 2341

At the request of Mr. GREGG, the names of the Senator from Wyoming (Mr. ENZI) and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of S. 2341, a bill to authorize appropriations for part B of the Individuals with Disabilities Education Act to achieve full funding for part B of that Act by 2010.

S. 2393

At the request of Mr. Durbin, the names of the Senator from Nevada (Mr. Reid) and the Senator from Oregon (Mr. Wyden) were added as cosponsors of S. 2393, a bill to prohibit the use of racial and other discriminatory profiling in connection with searches and detentions of individuals by the United States Customs Service personnel, and for other purposes.

S. 2440

At the request of Mr. Dorgan, his name was added as a cosponsor of S. 2440, a bill to amend title 49, United States Code, to improve airport security

S. 2698

At the request of Mr. MOYNIHAN, the name of the Senator from Georgia (Mr. MILLER) was added as a cosponsor of S. 2698, a bill to amend the Internal Revenue Code of 1986 to provide an incentive to ensure that all Americans gain timely and equitable access to the Internet over current and future generations of broadband capability.

S. 2699

At the request of Mr. Baucus, his name was added as a cosponsor of S. 2699, a bill to strengthen the authority of the Federal Government to protect individuals from certain acts and practices in the sale and purchase of social security numbers and social security account numbers, and for other purposes.

S. 2726

At the request of Mr. Helms, the name of the Senator from Alabama (Mr. Sessions) was added as a cosponsor of S. 2726, a bill to protect United States military personnel and other elected and appointed officials of the United States Government against criminal prosecution by an inter-

national criminal court to which the United States is not a party.

S. 2773

At the request of Mr. FEINGOLD, the names of the Senator from Minnesota (Mr. Grams), the Senator from Vermont (Mr. Leahy), and the Senator from Pennsylvania (Mr. Santorum) were added as cosponsors of S. 2773, a bill to amend the Agricultural Marketing Act of 1946 to enhance dairy markets through dairy product mandatory reporting, and for other purposes.

S. 2938

At the request of Mr. BROWNBACK, the names of the Senator from Maine (Ms. SNOWE), the Senator from Louisiana (Mr. BREAUX), the Senator from Nevada (Mr. Reid), the Senator from Missouri (Mr. BOND), the Senator from Rhode Island (Mr. REED), the Senator from North Carolina (Mr. EDWARDS), the Senator from Louisiana (Ms. LANDRIEU), and the Senator from Oklahoma (Mr. INHOFE) were added as cosponsors of S. 2938, a bill to prohibit United States assistance to the Palestinian Authority if a Palestinian state is declared unilaterally, and for other purposes.

S. 2964

At the request of Ms. Collins, the name of the Senator from Maine (Ms. SNOWE) was added as a cosponsor of S. 2964, a bill to amend the Internal Revenue Code of 1986 to provide new tax incentives to make health insurance more affordable for small businesses, and for other purposes.

S. 3009

At the request of Mr. DEWINE, his name was added as a cosponsor of S. 3009, a bill to provide funds to the National Center for Rural Law Enforcement.

S. 3020

At the request of Mr. Grams, the name of the Senator from Wyoming (Mr. Enzi) was added as a cosponsor of S. 3020, a bill to require the Federal Communications Commission to revise its regulations authorizing the operation of new, low-power FM radio stations.

S. 3072

At the request of Mr. GRAMS, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 3072, a bill to assist in the enhancement of the development of expansion of international economic assistance programs that utilize cooperatives and credit unions, and for other purposes.

S. 3089

At the request of Mr. Hagel, the names of the Senator from Kentucky (Mr. McConnell), the Senator from Alaska (Mr. Stevens), the Senator from Connecticut (Mr. Dodd), the Senator from Wisconsin (Mr. Feingold), the Senator from North Dakota (Mr. Dorgan), and the Senator from Louisiana (Mr. Breaux) were added as cosponsors of S. 3089, a bill to authorize

the design and construction of a temporary education center at the Vietnam Veterans Memorial

S. 3127

At the request of Mr. Santorum, the name of the Senator from Washington (Mr. Gorton) was added as a cosponsor of S. 3127, a bill to protect infants who are born alive

S. 3145

At the request of Mr. Breaux, the name of the Senator from Alabama (Mr. Shelby) was added as a cosponsor of S. 3145, a bill to amend the Internal Revenue Code of 1986 to clarify the treatment under the tax-exempt bond rules of prepayments for certain commodities

S. 3152

At the request of Mr. ROTH, the name of the Senator from New Jersey (Mr. TORRICELLI) was added as a cosponsor of S. 3152, a bill to amend the Internal Revenue Code of 1986 to provide tax incentives for distressed areas, and for other purposes.

S. 3169

At the request of Mr. SESSIONS, the names of the Senator from Idaho (Mr. CRAIG) and the Senator from Maine (Ms. COLLINS) were added as cosponsors of S. 3169, a bill to amend the Federal Food, Drug, and Cosmetic Act and the International Revenue Code of 1986 with respect to drugs for minor animal species, and for other purposes.

S. 3175

At the request of Mr. CRAIG, the names of the Senator from Maine (Ms. SNOWE) and the Senator from Utah (Mr. BENNETT) were added as cosponsors of S. 3175, a bill to amend the Consolidated Farm and Rural Development Act to authorize the National Rural Development Partnership, and for other purposes.

S. 3180

At the request of Mr. EDWARDS, the name of the Senator from South Carolina (Mr. HOLLINGS) was added as a cosponsor of S. 3180, a bill to provide for the disclosure of the collection of information through computer software, and for other purposes.

S. 3181

At the request of Mr. HAGEL, the names of the Senator from Arizona (Mr. McCain), the Senator from Virginia (Mr. Warner), and the Senator from New York (Mr. Moynihan) were added as cosponsors of S. 3181, a bill to establish the White House Commission on the National Moment of Remembrance, and for other purposes.

S. 3198

At the request of Mr. Jeffords, the name of the Senator from Colorado (Mr. Campbell) was added as a cosponsor of S. 3198, a bill to provide a pool credit under Federal milk marketing orders for handlers of certified organic milk used for Class I purposes.

S. CON. RES. 130

At the request of Mrs. LINCOLN, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. Con. Res. 130, concurrent resolution establishing a special task force to recommend an appropriate recognition for the slave laborers who worked on the construction of the United States Capitol.

S. RES. 343

At the request of Mr. FITZGERALD, the name of the Senator from Wisconsin (Mr. KOHL) was added as a cosponsor of S. Res. 343, a resolution expressing the sense of the Senate that the International Red Cross and Red Crescent Movement should recognize and admit to full membership Israel's Magen David Adom Society with its emblem, the Red Shield of David.

S. RES. 353

At the request of Mr. BIDEN, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. Res. 353, a resolution designating October 20, 2000, as "National Mammography Day."

S. RES. 373

At the request of Mrs. Feinstein, her name was added as a cosponsor of S. Res. 373, supra.

At the request of Mr. Lugar, the name of the Senator from Alaska (Mr. STEVENS) was added as a cosponsor of S. Res. 373, supra.

At the request of Mr. LEVIN, his name was added as a cosponsor of S. Res. 373, supra.

At the request of Mr. Kennedy, his name was added as a cosponsor of S. Res. 373, a resolution recognizing the 225th birthday of the United States Navy.

S. RES. 375

At the request of Mr. Lugar, the names of the Senator from Rhode Island (Mr. L. Chafee) and the Senator from Indiana (Mr. Bayh) were added as cosponsors of S. Res. 375, a resolution supporting the efforts of Bolivia's democratically elected government.

RESOLUTION 378—HON-SENATE ORING THE MEMBERS OF THE CREW OF THE GUIDED MISSILE DESTROYER U.S.S. "COLE" (DDG-WHO WHERE KILLED OR WOUNDED IN THE TERRORIST BOMBING ATTACK ON THAT VES-SEL IN ADEN, YEMEN, ON OCTOBER 12, 2000, EXPRESSING THE SYMPATHIES OF THE SENATE TO THE FAMILIES OF THOSE CREW MEMBERS, COMMENDING THE SHIP'S CREW FOR THEIR HEROIC CONTROL DAMAGE EFFORTS. AND CONDEMNING THE BOMBING OF THAT SHIP

Mr. WARNER (for himself, Mr. LEVIN, Mr. THURMOND, Mr. KENNEDY,

Mr. McCain, Mr. Byrd, Mr. Smith of New Hampshire, Mr. Robb, Mr. Inhofe, Mr. Lieberman, Mr. Santorum, Mr. Cleland, Ms. Snowe, Ms. Landrieu, Mr. Roberts, Mr. Reed, Mr. Allard, Mr. Hutchinson, Mr. Sessions, Mr. Bond, Mr. Bingaman, Mrs. Hutchison, Mr. Sarbanes, Ms. Mikulski, Mr. Kerry, Mr. Miller, Mr. Edwards, Mr. Voinovich, Mr. Wellstone, and Mrs. Feinstein) submitted the following resolution; which was considered and agreed to:

#### S. RES. 378

Whereas the guided missile destroyer U.S.S. COLE (DDG-67) was severely damaged on October 12, 2000, when a boat bomb exploded alongside that ship while on a refueling stop in Aden, Yemen;

Whereas the explosion resulted in a 40-by-45 foot hole in the port side of the ship at the waterline and left seven of the ship's crew dead, ten who as of October 17, 2000, are missing and presumed dead, and over three dozen wounded:

Whereas the U.S.S. COLE had stopped in Aden for routine refueling while in transit from the Red Sea to the Persian Gulf to conduct forward maritime presence operations in the Persian Gulf region as part of the U.S.S. George Washington battle group;

Whereas the members of the United States Navy killed and wounded in the bombing were performing their duty in furtherance of the national security interests of the United States;

Whereas United States national security interests continue to require the forward deployment of elements of the Armed Forces;

Whereas the members of the Armed Forces are routinely called upon to perform duties that place their lives at risk;

Whereas the crew members of the U.S.S. COLE who lost their lives as a result of the bombing of their ship on October 12, 2000, died in the honorable service to the Nation and exemplified all that is best in the American people; and

Whereas the heroic efforts of the surviving crew members of the U.S.S. Cole after the attack to save their ship and rescue their wounded shipmates are in the highest tradition of the United States Navy: Now, therefore, be it

Resolved, That the Senate, in response to the terrorist bombing attack on the U.S.S. COLE (DDG-67) on October 12, 2000, while on a refueling stop in Aden, Yemen, hereby—

- (1) honors the members of the crew of the U.S.S. COLE who died as a result of that attack and sends heartfelt condolences to their families, friends, and loved ones;
- (2) honors the members of the crew of the U.S.S. COLE who were wounded in the attack for their service and sacrifice, expresses its hopes for their rapid and complete recovery, and extends its sympathies to their families:
- (3) commends the crew of the U.S.S. COLE for their heroic damage control efforts; and
- (4) condemns the attack against the U.S.S. COLE as an unprovoked and cowardly act of terrorism

SENATE RESOLUTION MEMORALIZING THE SAILORS OF THE NAVY LOST IN THE ATTACK ON THE U.S.S. "COLE" (DDG-67) IN THE PORT OF ADEN. YEMEN. ON OCTOBER 12, 2000; EXTENDING CONDOLENCES TO THEIR FAMI-LIES AND OTHER LOVED ONES: EXTENDING SYMPATHY TO THE MEMBERS OF THE CREW OF THAT VESSEL WHO WERE IN-JURED IN THE ATTACK AND COMMENDING THE ENTIRE CREW FOR ITS PERFORMANCE AND PROFESSIONALISM IN SAVING THE U.S.S. "COLE"

By Ms. SNOWE (for herself, Mr. McCain, Mr. Robb, Mr. Inhofe, Mr. THURMOND, Mr. BOND, Ms. LANDRIEU, Mr. Roberts, Mr. Santorum, Mr. HUTCHINSON, Mr. REED, Mr. LIEBERMAN, Mr. LEVIN, Mr. KENNEDY, and Mrs. FEINSTEIN) submitted the following resolution; which was considered and agreed to:

#### S. Res. 379

Whereas the Arleigh Burke class destroyer U.S.S. Cole (DDG-67) was attacked in the port of Aden, Yemen, on October 12, 2000, apparently by terrorists who, by insidious ruse, drew along side the vessel in a small boat containing powerful explosives that detonated next to the hull of the vessel:

Whereas the horrific explosion in that attack resulted in the loss of 17 sailors and injury to another 39 sailors, all of them being members of the Navy serving in the crew of the U.S.S. Cole:

Whereas those sailors who lost their lives made the ultimate sacrifice in the service of the United States and the Navy;

Whereas all of the remaining members of the crew of the U.S.S. Cole responded valiantly and courageously to save their ship from sinking from the explosion and, in so doing, proved themselves to be "Determined Warriors", the motto of their ship; and

Whereas the men and women of the crew of the U.S.S. Cole, like all of the men and women of the Armed Forces, are the current patriots who stand ever vigilant against the attacks of those who seek to undermine peace and stability in an uncertain world: Now, therefore, be it

Resolved, That (a) the Senate memorializes those sailors of the Navy who were lost in the despicable attack on the U.S.S. Cole (DDG-67) on October 12, 2000, in the port of Aden. Yemen, as follows:

- (1) Richard Costelow, Electronics Technician First Class, of Morrisville, Pennsylvania.
- (2) Cherone Louis Gunn, Signalman Seaman Recruit, of Rex. Georgia.
- (3) James Rodrick McDaniels, Seaman, of Norfolk, Virginia.
- (4) Craig Bryan Wibberley, Seaman Apprentice, of Williamsport, Maryland.
- (5) Timothy Lamont Saunders, Operations Specialist Second Class, of Ringold, Virginia. (6) Lakiba Nicole Palmer, Seaman Recruit,
- of San Diego, California. (7) Andrew Triplett, Ensign, of Macon, Mis-
- sissippi.
- (8) Lakeina Monique Francis, Mess Management Specialist, of Woodleaf, North Caro-
- (9) Timothy Lee Gauna, Information Systems Technician Seaman, of Rice, Texas.

- (10) Ronald Scott Owens, Electronics Warfare Technician Third Class, of Vero Beach, Florida.
- (11) Patrick Howard Roy, Fireman Apprentice, of Cornwall on the Hudson, New York. (12) Kevin Shawn Rux, Electronics Warfare

Technician Second Class, of Portland, North Dakota.

(13) Ronchester Manangan Santiago, Mess Management Specialist Third Class, of Kingsville, Texas.

- (14) Gary Graham Swenchonis, Jr., Fireman, of Rockport, Texas.
- (15) Kenneth Eugene Clodfelter, Hull Maintenance Technician Third Class, of Mechanicsville, Virginia.
- (16) Mark Ian Neito, Engineman Second Class, of Fond du Lac, Wisconsin.
- (17) Joshua Langdon Parlett, Engineman Fireman, of Churchville, Maryland.
- (b) The Senate extends condolences to the members of the families, other loved ones, and shipmates of those devoted sailors who made the ultimate sacrifice in the service of the United States.
- (c) It is the sense of the Senate that all of the people of the United States join the Chief of Naval Operations and the other members of the Navy in mourning the grievous loss of life among the members of the crew of the U.S.S. Cole resulting from the attack on that vessel.

SEC. 2. The Senate-

- (1) recognizes the loss, sacrifice, valor, and determination of the surviving members of the crew of the U.S.S. Cole;
- (2) extends sympathy to the 39 sailors of that crew who were injured in the attack on their vessel: and
- (3) commends the members of the crew for their remarkable performance, professionalism, skill, and success in fulfilling their duties to support and save the U.S.S. Cole following the attack.

SEC. 3. The Secretary of the Senate shall transmit an enrolled copy of this resolution to the Chief of Naval Operations, the commanding officer of the U.S.S. Cole, and the family of each member of the United States Navy who was lost in the attack on the U.S.S. Cole (DDG-67) in the port of Aden, Yemen, on October 12, 2000.

#### AMENDMENTS SUBMITTED

#### EARTH, WIND, AND FIRE AUTHORIZATION ACT OF 2000

#### FRIST AMENDMENT NO. 4323

Mr. SESSIONS (for Mr. FRIST) proposed an amendment to the bill (S. 1639) to authorize appropriations for carrying out the Earthquake Hazards Reduction Act of 1977, for the National Weather Service and Related Agencies, and for the United States Fire Administration for fiscal years 2000, 2001, and 2002; as follows:

Strike out all after the enacting clause and insert the following:

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Earthquake Hazards Reduction Authorization Act of

#### SEC. 2. AUTHORIZATION OF APPROPRIATIONS.

(a) FEDERAL EMERGENCY MANAGEMENT AGENCY.—Section 12(a)(7) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7706(a)) is amended-

- (1) by striking "and" after "1998", and (2) by striking "1999." and inserting " \$19,861,000 for the fiscal year ending September 30, 2001, of which \$450,000 is for National Earthquake Hazard Reduction Program-eligible efforts of an established multistate consortium to reduce the unacceptable threat of earthquake damages in the New Madrid seismic region through efforts to enhance preparedness, response, recovery, and mitigation; \$20,705,000 for the fiscal year ending September 30, 2002; and \$21,585,000 for the fiscal year ending September 30, 2003.'

(b) United States Geological Survey .-Section 12(b) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7706(b)) is amended-

- (1) by inserting after "operated by the Agency." the following: "There are authorized to be appropriated to the Secretary of the Interior for purposes of carrying out, through the Director of the United States Geological Survey, the responsibilities that may be assigned to the Director under this Act \$48,360,000 for fiscal year 2001, of which \$3.500,000 is for the Global Seismic Network and \$100,000 is for the Scientific Earthquake Studies Advisory Committee established under section 10 of the Earthquake Hazards Reduction Act of 2000; \$50,415,000 for fiscal vear 2002, of which \$3,600,000 is for the Global Seismic Network and \$100,000 is for the Scientific Earthquake Studies Advisory Committee; and \$52,558,000 for fiscal year 2003, of which \$3,700,000 is for the Global Seismic Network and \$100,000 is for the Scientific Earthquake Studies Advisory Committee;
- (2) by striking "and" at the end of paragraph (1);
- (3) by striking "1999," at the end of paragraph (2) and inserting "1999;"; and
- (4) by inserting after paragraph (2) the following:
- (3) \$9,000,000 of the amount authorized to be appropriated for fiscal year 2001:
- '(4) \$9,250,000 of the amount authorized to be appropriated for fiscal year 2002; and

(5) \$9,500,000 of the amount authorized to be appropriated for fiscal year 2003,"

- REAL-TIME SEISMIC HAZARD WARNING SYSTEM.—Section 2(a)(7) of the Act entitled "An Act To authorization appropriations for carrying out the Earthquake Hazards Reduction Act of 1977 for fiscal years 1998 and 1999, and for other purposes (111 Stat. 1159; 42 U.S.C. 7704 nt) is amended by striking "1999." and inserting "1999, \$2,600,000 for fiscal year 2001, \$2,710,000 for fiscal year 2002, and \$2,825,000 for fiscal year 2003."
- (d) NATIONAL SCIENCE FOUNDATION.—Section 12(c) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7706(c)) is amend-
- (1) by striking "1998, and" and inserting "1998,"; and
- (2) by striking "1999." and inserting "1999, and (5) \$19,000,000 for engineering research and \$11,900,000 for geosciences research for the fiscal year ending September 30, 2001. There are authorized to be appropriated to the National Science Foundation \$19,808,000 for engineering research and \$12.406.000 for geosciences research for fiscal year 2002 and \$20.650.000 for engineering research and \$12,933,000 for geosciences research for fiscal year 2003;
- (e) NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY.—Section 12(d) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7706(d)) is amended—
- (1) by striking "1998, and"; and inserting "1998,"; and
- (2) by striking "1999." and inserting "1999, \$2,332,000 for fiscal year 2001, \$2,431,000 for fiscal year 2002, and \$2,534,300 for fiscal year 2003 ''

#### SEC. 3. REPEALS.

Section 10 and subsections (e) and (f) of section 12 of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7705d and 7706 (e) and (f)) are repealed.

## SEC. 4. ADVANCED NATIONAL SEISMIC RE-SEARCH AND MONITORING SYSTEM.

The Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.) is amended by adding at the end the following new section:

#### "SEC. 13. ADVANCED NATIONAL SEISMIC RE-SEARCH AND MONITORING SYSTEM.

"(a) ESTABLISHMENT.—The Director of the United States Geological Survey shall establish and operate an Advanced National Seismic Research and Monitoring System. The purpose of such system shall be to organize. modernize, standardize, and stabilize the national, regional, and urban seismic monitoring systems in the United States, including sensors, recorders, and data analysis centers, into a coordinated system that will measure and record the full range of frequencies and amplitudes exhibited by seismic waves, in order to enhance earthquake research and warning capabilities.

"(b) Management Plan.—Not later than 90 days after the date of the enactment of the Earthquake Hazards Reduction Authorization Act of 2000, the Director of the United States Geological Survey shall transmit to the Congress a 5-year management plan for establishing and operating the Advanced National Seismic Research and Monitoring System. The plan shall include annual cost estimates for both modernization and operation, milestones, standards, and performance goals, as well as plans for securing the participation of all existing networks in the Advanced National Seismic Research and Monitoring System and for establishing new, or enhancing existing, partnerships to leverage

"(c) AUTHORIZATION OF APPROPRIATIONS.

- "(1) EXPANSION AND MODERNIZATION.—In addition to amounts appropriated under section 12(b), there are authorized to be appropriated to the Secretary of the Interior, to be used by the Director of the United States Geological Survey to establish the Advanced National Seismic Research and Monitoring System-
  - "(A) \$33,500,000 for fiscal year 2002;
  - "(B) \$33,700,000 for fiscal year 2003;
- "(C) \$35,100,000 for fiscal year 2004;
- "(D) \$35,000,000 for fiscal year 2005; and
- "(E) \$33,500,000 for fiscal year 2006.
- "(2) OPERATION.—In addition to amounts appropriated under section 12(b), there are authorized to be appropriated to the Secretary of the Interior, to be used by the Director of the United States Geological Survey to operate the Advanced National Seismic Research and Monitoring System-
  - "(A) \$4,500,000 for fiscal year 2002; and
- "(B) \$10,300,000 for fiscal year 2003."

#### SEC. 5. NETWORK FOR EARTHQUAKE ENGINEER-ING SIMULATION.

The Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.) is amended by adding at the end the following new section:

## "SEC. 14. NETWORK FOR EARTHQUAKE ENGINEERING SIMULATION.

"(a) ESTABLISHMENT.—The Director of the National Science Foundation shall establish the George E. Brown, Jr. Network for Earthquake Engineering Simulation that will upgrade, link, and integrate a system of geographically distributed experimental facilities for earthquake engineering testing of full-sized structures and their components and partial-scale physical models. The system shall be integrated through networking software so that integrated models and databases can be used to create model-based simulation, and the components of the system shall be interconnected with a computer network and allow for remote access, information sharing, and collaborative research.

"(b) Authorization of Appropriations.— In addition to amounts appropriated under section 12(c), there are authorized to be appropriated \$28,200,000 for fiscal year 2001 for the Network for Earthquake Engineering Simulation. In addition to amounts appropriated under section 12(c), there are authorized to be appropriated to the National Science Foundation for the Network for Earthquake Engineering Simulation-

"(1) \$24,400,000 for fiscal year 2002;

"(2) \$4,500,000 for fiscal year 2003; and

"(3) \$17,000,000 for fiscal year 2004.".

#### SEC. 6. BUDGET COORDINATION.

Section 5 of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7704) is amend-

- (1) by striking subparagraph (A) of subsection (b)(1) and redesignating subparagraphs (B) through (F) of subsection (b)(1) as subparagraphs (A) through (E), respectively;
- (2) by striking "in this paragraph" in the last sentence of paragraph (1) of subsection (b) and inserting "in subparagraph (E)"; and
- (3) by adding at the end the following new subsection:
- "(e) BUDGET COORDINATION.—
- "(1) GUIDANCE.—The Agency shall each year provide guidance to the other Program agencies concerning the preparation of requests for appropriations for activities related to the Program, and shall prepare, in conjunction with the other Program agencies, an annual Program budget to be submitted to the Office of Management and Budget.
- "(2) REPORTS.—Each Program agency shall include with its annual request for appropriations submitted to the Office of Management and Budget a report that-
- "(A) identifies each element of the proposed Program activities of the agency;
- "(B) specifies how each of these activities contributes to the Program; and
- "(C) states the portion of its request for appropriations allocated to each element of the Program."

#### SEC. 7. REPORT ON AT-RISK POPULATIONS.

Not later than one year after the date of the enactment of this Act, and after a period for public comment, the Director of the Federal Emergency Management Agency shall transmit to the Congress a report describing the elements of the Program that specifically address the needs of at-risk populations, including the elderly, persons with disabilities, non-English-speaking families, single-parent households, and the poor. Such report shall also identify additional actions that could be taken to address those needs and make recommendations for any additional legislative authority required to take such actions.

#### SEC. 8. PUBLIC ACCESS TO EARTHQUAKE INFOR-MATION.

Section 5(b)(2)(A)(ii) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7704(b)(2)(A)(ii)) is amended by inserting ", and development of means of increasing public access to available locality-specific information that may assist the public in preparing for or responding to earthquakes" after "and the general public".

#### SEC. 9. LIFELINES.

Section 4(6) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7703(6)) is amended by inserting "and infrastructure" after "communication facilities".

#### SEC. 10. SCIENTIFIC EARTHQUAKE STUDIES AD-VISORY COMMITTEE.

(a) ESTABLISHMENT.—The Director of the United States Geological Survey shall establish a Scientific Earthquake Studies Advisory Committee.

(b) ORGANIZATION.—The Director shall establish procedures for selection of individuals not employed by the Federal Government who are qualified in the seismic sciences and other appropriate fields and may, pursuant to such procedures, select up to ten individuals, one of whom shall be designated Chairman, to serve on the Advisory Committee. Selection of individuals for the Advisory Committee shall be based solely on established records of distinguished service. and the Director shall ensure that a reasonable cross-section of views and expertise is represented. In selecting individuals to serve on the Advisory Committee, the Director shall seek and give due consideration to recommendations from the National Academy of Sciences, professional societies, and other appropriate organizations.

(c) MEETINGS.—The Advisory Committee shall meet at such times and places as may be designated by the Chairman in consulta-

tion with the Director.

(d) DUTIES.—The Advisory Committee shall advise the Director on matters relating to the United States Geological Survey's participation in the National Earthquake Hazards Reduction Program, including the United States Geological Survey's roles, goals, and objectives within that Program, its capabilities and research needs, guidance on achieving major objectives, and establishing and measuring performance goals. The Advisory Committee shall issue an annual report to the Director for submission to Congress on or before September 30 of each year. The report shall describe the Advisory Committee's activities and address policy issues or matters that affect the United States Geological Survey's participation in the National Earthquake Hazards Reduction Program.

#### FIRE ADMINISTRATION AUTHORIZATION ACT OF 2000

#### FRIST AMENDMENT NO. 4324

Mr. SESSIONS (for Mr. FRIST) proposed an amendment to the bill (H.R. 1550) to authorize appropriations for the United States Fire Administration for fiscal years 2000 and 2001, and for other purposes, as follows:

Strike out all after the enacting clause and insert the following:

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Fire Administration Authorization Act of 2000".

#### SEC. 2. AUTHORIZATION OF APPROPRIATIONS.

Section 17(g)(1) of the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2216(g)(1)) is amended-

(1) by striking "and" at the end of subparagraph (G):

(2) by striking the period at the end of subparagraph (H) and inserting a semicolon; and (3) by adding at the end the following:

"(I) \$44,753,000 for fiscal year 2001, of which \$3,000,000 is for research activities, and \$250,000 may be used for contracts or grants to non-Federal entities for data analysis, including general fire profiles and special fire analyses and report projects, and of which \$6,000,000 is for anti-terrorism training, including associated curriculum development, for fire and emergency services personnel;

"(J) \$47,800,000 for fiscal year 2002, of which \$3.250.000 is for research activities, and \$250,000 may be used for contracts or grants to non-Federal entities for data analysis, including general fire profiles and special fire analyses and report projects, and of which \$7,000,000 is for anti-terrorism training, including associated curriculum development, for fire and emergency services personnel;

"(K) \$50,000,000 for fiscal year 2003, of which \$3,500,000 is for research activities, and \$250,000 may be used for contracts or grants to non-Federal entities for data analysis, including general fire profiles and special fire analyses and report projects, and of which \$8,000,000 is for anti-terrorism training, including associated curriculum development for fire and emergency services personnel.' None of the funds authorized for fiscal year 2002 may be obligated unless the Administrator has verified to the Committee on Science of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate that the obligation of funds is consistent with the strategic plan transmitted under section 302 of this Act.".

#### SEC. 3. STRATEGIC PLAN.

- (a) REQUIREMENT.—Not later than April 30, 2001, the Administrator of the United States Fire Administration shall prepare and transmit to the Committee on Science of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a 5-year strategic plan of program activities for the United States Fire Administration.
- (b) CONTENTS OF PLAN.—The plan required by subsection (a) shall include-
- (1) a comprehensive mission statement covering the major functions and operations of the United States Fire Administration in the areas of training; research, development, test and evaluation; new technology and non-developmental item implementation; safety; counterterrorism; data collection and analysis; and public education;
- (2) general goals and objectives, including those related to outcomes, for the major functions and operations of the United States Fire Administration;
- (3) a description of how the goals and objectives identified under paragraph (2) are to be achieved, including operational processes. skills and technology, and the human, capital, information, and other resources required to meet those goals and objectives;
- (4) an analysis of the strengths and weaknesses of, opportunities for, and threats to the United States Fire Administration:
- (5) an identification of the fire-related activities of the National Institute of Standards and Technology, the Department of Defense, and other Federal agencies, and a discussion of how those activities can be coordinated with and contribute to the achievement of the goals and objectives identified under paragraph (2);
- (6) a description of objective, quantifiable performance goals needed to define the level of performance achieved by program activities in training, research, data collection and analysis, and public education, and how these performance goals relate to the general goals and objectives in the strategic plan;
- (7) an identification of key factors external to the United States Fire Administration and beyond its control that could affect significantly the achievement of the general goals and objectives;
- (8) a description of program evaluations used in establishing or revising general goals

and objectives, with a schedule for future program evaluations:

(9) a plan for the timely distribution of information and educational materials to State and local firefighting services, including volunteer, career, and combination services throughout the United States:

(10) a description of how the strategic plan prepared under this section will be incorporated into the strategic plan and the performance plans and reports of the Federal Emergency Management Agency:

(11)(A) a description of the current and planned use of the Internet for the delivery of training courses by the National Fire Academy, including a listing of the types of courses and a description of each course's provisions for real time interaction between instructor and students, the number of students enrolled, and the geographic distribution of students, for the most recent fiscal year:

(B) an assessment of the availability and actual use by the National Fire Academy of Federal facilities suitable for distance education applications, including facilities with teleconferencing capabilities; and

(C) an assessment of the benefits and problems associated with delivery of instructional courses using the Internet, including limitations due to network bandwidth at training sites, the availability of suitable course materials, and the effectiveness of such courses in terms of student performance

(12) timeline for implementing the plan; and

(13) the expected costs for implementing the plan.

#### SEC. 4. RESEARCH AGENDA.

- (a) REQUIREMENT —Not later than 120 days after the date of the enactment of this Act. the Administrator of the United States Fire Administration, in consultation with the Director of the Federal Emergency Management Agency, the Director of the National Institute of Standards and Technology, representatives of trade, professional, and nonprofit associations, State and local firefighting services, and other appropriate entities, shall prepare and transmit to the Committee on Science of the House of Representatives and the Committee on Commerce. Science, and Transportation of the Senate a report describing the United States Fire Administration's research agenda and including a plan for implementing that agenda.
- (b) Contents of Report.—The report required by subsection (a) shall-
- (1) identify research priorities;(2) describe how the proposed research agenda will be coordinated and integrated with the programs and capabilities of the National Institute of Standards and Technology, the Department of Defense, and other Federal agencies:
- (3) identify potential roles of academic, trade, professional, and non-profit associations, and other research institutions in achieving the research agenda:
- (4) provide cost estimates, anticipated personnel needs, and a schedule for completing the various elements of the research agenda;
- (5) describe ways to leverage resources through partnerships, cooperative agreements, and other means; and
- (6) discuss how the proposed research agenda will enhance training, improve State and local firefighting services, impact standards and codes, increase firefighter and public safety, and advance firefighting techniques.
- (c) USE IN PREPARING STRATEGIC PLAN.-The research agenda prepared under this section shall be used in the preparation of the strategic plan required by section 302.

#### SEC. 5. SURPLUS AND EXCESS FEDERAL EQUIP-MENT

The Federal Fire Prevention and Control Act of 1974 is amended by adding at the end the following new section:

#### "SEC. 33. SURPLUS AND EXCESS FEDERAL EQUIP-MENT.

"The Administrator shall make publicly available, including through the Internet, information on procedures for acquiring surplus and excess equipment or property that may be useful to State and local fire, emergency, and hazardous material handling service providers."

#### SEC. 6. COOPERATIVE AGREEMENTS WITH FED-ERAL FACILITIES.

The Federal Fire Prevention and Control Act of 1974, as amended by section 304, is amended by adding at the end the following new section:

#### "SEC. 34. COOPERATIVE AGREEMENTS WITH FED-ERAL FACILITIES.

"The Administrator shall make publicly available, including through the Internet, information on procedures for establishing cooperative agreements between State and local fire and emergency services and Federal facilities in their region relating to the provision of fire and emergency services.

#### SEC. 7. NEED FOR ADDITIONAL TRAINING IN COUNTERTERRORISM.

- (a) IN GENERAL.—The Administrator of the United States Fire Administration shall conduct an assessment of the need for additional capabilities for Federal counterterrorism training of emergency response personnel.
- (b) Contents of Assessment.—The assessment conducted under this section shall include-
- (1) a review of the counterterrorism training programs offered by the United States Fire Administration and other Federal agencies:
- (2) an estimate of the number and types of emergency response personnel that have, during the period between January 1, 1994, and October 1, 1999, sought training described in paragraph (1), but have been unable to receive that training as a result of the oversubscription of the training capabilities: and
- (3) a recommendation on the need to provide additional Federal counterterrorism training centers, including
- (A) An analysis of existing Federal facilities that could be used as counterterrorism training facilities; and
- (B) a cost-benefit analysis of the establishment of such counterterrorism training facilities.
- (c) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Administrator shall prepare and submit to the Congress a report on the results of the assessment conducted under this section.

#### SEC. 8. WORCESTER POLYTECHNIC INSTITUTE FIRE SAFETY RESEARCH PROGRAM.

From the funds authorized to be appropriated by section 2, \$1,000,000 may be expended for the Worcester Polytechnic Institute fire safety research program.

#### SEC. 9. INTERNET AVAILABILITY OF INFORMA-TION

Upon the conclusion of the research under a research grant or award of \$50,000 made with funds authorized by this Act (or any Act amended by this Act), the Administrator of the United States Fire Administration shall make available through the Internet home page of the Administration a brief summary of the results and importance of such research grant or award. Nothing in this section shall be construed to require or permit the release of any information prohibited by law or regulation from being released to the public.

#### SEC. 10. CONFORMING AMENDMENTS AND RE-PEALS.

(a) 1974 Act.

(1) IN GENERAL.—The Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2201 et seq.) is amended—

(A) by striking subsection (b) of section 10 (15 U.S.C. 2209) and redesignating subsection (c) of that section as subsection (b);

(B) by striking sections 26 and 27 (15 U.S.C. 2222: 2223):

(C) by striking "(a) The" in section 24 (15 U.S.C. 2214) and inserting "The"; and

(D) by striking subsection (b) of section 24. (2) REFERENCES TO SECRETARY.—The Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2201 et seq.) is amended-

(A) in section 3 (15 U.S.C. 2203)-

(i) by inserting "and" after the semicolon in paragraph (7):

(ii) by striking paragraph (8); and

(iii) by redesignating paragraph (9) as paragraph (8);

(B) by striking paragraph (2) of section 15(a) (15 U.S.C. 2214(a)) and inserting the fol-

lowing:
"(2) the Director's Award For Distinguished Public Safety Service (Director's Award')'

(C) by striking "Secretary's Award" each place it appears in section 15 (15 U.S.C. 2214) after subsection (a) and inserting "Director's Award"; and

(D) by striking "Secretary" each place it appears in section 15 (15 U.S.C. 2214) after subsection (a), in section 16(a) (15 U.S.C. 2215(a)), and in section 21(c) (15 U.S.C. 2218(c)) and inserting "Director"

(b) DEPARTMENT OF COMMERCE.—Section 12 of the Act of February 14, 1903 (15 U.S.C. 1511) is amended-

(1) by inserting "and" after "Census;" in paragraph (5):

(2) by striking paragraph (6); and

(3) by redesignating paragraph (7) as paragraph (6).

#### SEC. 11. NATIONAL FIRE ACADEMY CURRICULUM REVIEW.

(a) IN GENERAL.—The Administrator of the United States Fire Administration, in consultation with the Board of Visitors and representatives of trade and professional associations, State and local firefighting services, and other appropriate entities, shall conduct a review of the courses of instruction available at the National Fire Academy to ensure that they are up-to-date and complement, not duplicate, courses of instruction offered elsewhere. Not later than 180 days after the date of enactment of this Act, the Administrator shall prepare and submit a report to the Committee on Science of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

(b) CONTENTS OF REPORT.—The report required by subsection (a) shall-

(1) examine and assess the courses of instruction offered by the National Fire Academv:

identify redundant and out-of-date (2)courses of instruction:

(3) examine the current and future impact of information technology on National Fire Academy curricula, methods of instruction, and delivery of services; and

(4) make recommendations for updating the curriculum, methods of instruction, and delivery of services by the National Fire Academy considering current and future needs, State-based curricula, advances in information technologies, and other relevant factors.

#### SEC. 12. REPEAL OF EXCEPTION TO FIRE SAFETY REQUIREMENT.

(a) Repeal.—Section 4 of Public Law 103-195 (107 Stat. 2298) is hereby repealed.

(b) Effective Date.—Subsection (a) shall take effect 1 year after the date of the enactment of this Act.

#### SEC. 13. NATIONAL FALLEN FIREFIGHTERS FOUNDATION TECHNICAL CORREC-TIONS.

(a) Purposes.—Section 151302 of title 36, United States Code, is amended-

(1) by striking paragraph (1) and inserting the following:

"(1) primarily—

"(A) to encourage, accept, and administer private gifts of property for the benefit of the National Fallen Firefighters' Memorial and the annual memorial service associated with the memorial: and

'(B) to, in coordination with the Federal Government and fire services (as that term is defined in section 4 of the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2203)), plan, direct, and manage the memorial

service referred to in subparagraph (A);' (2) by inserting 'and Federal' in

graph (2) after "non-Federal";

(3) paragraph (3)—
(A) by striking "State and local" and in-

(A) by striking "Federal, State, and local"; and
(B) by striking "and" after the semicolon;
(4) by striking "firefights." in paragraph (4) and inserting "firefighters;"; and

(5) by adding at the end the following: "(5) to provide for a national program to assist families of fallen firefighters and fire departments in dealing with line-of-duty deaths of those firefighters; and "(6) to promote national, State, and local

initiatives to increase public awareness of

fire and life safety."

(b) BOARD OF DIRECTORS.—Section 151303 of title 36, United States Code, is amended-

(1) by striking subsections (f) and (g) and inserting the following:

"(f) STATUS AND COMPENSATION.

"(1) Appointment to the board shall not constitute employment by or the holding of an office of the United States.

"(2) Members of the board shall serve without compensation."; and

(2) by redesignating subsection (h) as sub-

section (g). (c) OFFICERS AND EMPLOYEES.—Section 151304 of title 36, United States Code, is

amended-(1) by striking "not more than 2" in subsection (a): and

(2) by striking "are not" in subsection (b)(1) and inserting "shall not be considered

(d) SUPPORT BY THE ADMINISTRATOR.—Section 151307(a)(1) of title 36, United States Code, is amended—
(1) by striking "The Administrator" and

inserting "During the 10-year period beginning on the date of enactment of the Fire Administration Authorization Act of 2000, the Administrator"; and

(2) by striking "shall" in subparagraph (B) and inserting "may".

#### PRIVILEGE OF THE FLOOR

Mr. HARKIN. Mr. President, I ask unanimous consent that a staff member, Sally Phillips, be granted the privilege of the floor for debate during consideration of the Agriculture appropriations bill

The PRESIDING OFFICER. Without objection, it is so ordered.

#### DEATH OF GOVERNOR MEL CARNAHAN

Mr. BOND. Mr. President, I rise today to share with my colleagues the sadness that all of us in Missouri feel this week. This has been a very, very sad week for us.

Late Monday evening, we lost our Governor, Mel Carnahan, along with his son, Randy, and a top aide, Chris Sifford, who were killed tragically in a plane crash.

Nearly having completed two terms as Governor, Mel Carnahan was in a heated race for the Senate with our JOHN ASHCROFT. colleague, Mel Carnahan was a devoted husband, father, and grandfather as well as a public servant who had devoted much of his career and much of his adult life to serving the people of our State.

The news of Governor Carnahan's very untimely and tragic death serves as a reminder to all of us of the preciousness of life and its unpredict-

Our thoughts, our prayers, and our sympathy go out to his wife Jean, to his daughter Robin, to his sons, Russ and Tom, and his grandchildren during this difficult time. We also extend our deepest sympathies to all the people who worked closely with him and considered him their close friend. None of us can pretend to understand the pain they must feel at this time.

But I hope they will find comfort in knowing that their husband, father, grandfather, and friend will have a lasting impact on many lives. The fruits of Mel Carnahan's efforts will be felt in our State for many years to come. He presided over a period of economic growth in our State. He worked hard to reform Missouri's welfare system, crime laws, and educational system.

Mel Carnahan and I were friends for a long time—probably 30 years. It is no secret that we were often political opponents. We disagreed on a lot of things, and he was a tough opponent; no question about that.

A couple of years ago when I was getting ready to run for reelection, there was some thought that we might have to run against each other. But at that time, he chose to stay in Jefferson City and serve the people of Missouri for the remainder of his term as Governor. When asked why he entered public service, Governor Carnahan said he was inspired by the words of Adlai Stevenson, who said public service was a "high calling," and he urged young people to get involved.

Mel Carnahan lived his belief that public service was a "high calling." He brought the best of himself to the job. He loved Missouri and Missourians. He loved rural Missouri and his adopted hometown of Rolla, MO. He always wanted the best for our State. While the two of us may only have agreed on a handful of issues in 30 years, when it came time to defend the interests of Missouri, we fought arm in arm together. Some of you may recall a few battles we had on behalf of Missouri

and the neighbors of the Missouri River in a battle against the Fish and Wildlife Service.

But in the end, a man's position on the issues of the day is only a small measure of his life.

In this age of multimillion-dollar campaign advertising budgets and media consultants, Gov. Mel Carnahan still believed in keeping in touch with individual Missourians. He died while attempting to get to a campaign event in a small town in Missouri that maybe few outside our State ever heard of. As Governor, he crisscrossed our State endlessly, visiting schools and farms, veterans, and highway dedications. He worked hard and Missourians loved him for it. Twice they elected him by large margins to the highest office in our State.

I particularly admired and appreciated the friendship we had as political opponents, as people committed to public service in our State.

I was with him on Saturday at the homecoming for the University of Missouri. We shared a common interest on that day; our football team didn't do well. But Mel Carnahan, with a ready smile and a lovely wife, was there. We enjoyed our time together as we appreciated and looked back on the tremendous accomplishments he had and the contributions he made to the State of Missouri.

At a commencement speech in his town of Rolla last year, Governor Carnahan told graduates, "Each of you was put on this Earth for a reason . . . life is precious and fragile . . . and each of us has such a short time to make our mark on the world that we must not waste it."

Surely Mel Carnahan wasted no time. He made the most of every minute, and our lives are richer for it, and for his friendship.

Our thoughts and prayers are with his family and his friends in Missouri.

Mr. CONRAD. Mr. President, I too want to speak about the former Governor of Missouri, Mel Carnahan.

Over the last 3 weeks, I was engaged, along with my colleague, Senator DORGAN, in intense negotiations with Governor Carnahan and the two Senators from Missouri with respect to a major water project in our State, the Dakota Water Resources Act.

We had the opportunity to talk to Governor Carnahan directly, and we talked to his top staff repeatedly. I found him to be a fierce advocate for the people of Missouri, just as I have found Senator BOND and Senator ASHCROFT to be fierce advocates for the people of Missouri.

We have had a difficult time reaching conclusion on our water project because of objections from the State of Missouri. But the representatives of that State—Senator BOND, Senator ASHCROFT, and Governor Carnahan—worked in good faith with us, all the

while protecting vigorously and aggressively the interests of their State. I respect that. That is what representatives are supposed to do.

I found Governor Carnahan to be absolutely ferocious on the issues that he thought were important to the people of his State. When I heard the news that he had been killed in a tragic plane accident, it saddened me. It saddened our family because we are certain that the Carnahans are suffering greatly. And the people of Missouri have had a terrible loss.

It reminded me of a similar incident with a Missouri Senate candidate more than 20 years ago, Congressman Litton, who was also killed in a light plane crash in that State. It almost makes one wonder if Missouri is somehow star crossed with leaders of that caliber—so widely respected by the people of their States—being lost in these tragic accidents.

I send my best wishes to the Carnahan family and to people all over the country who are grieving at the loss of the Governor of that great State. We are thinking of the family and thinking of the friends and staff of Governor Carnahan.

As I say, I have had several weeks in which I talked frequently to the Governor's chief of staff and the head of his department of natural resources. I found them to be very good people, very decent people—very difficult to negotiate with but very good people. We share their loss.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LAUTENBERG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LAUTENBERG. Mr. President, I understand we are in morning business; is that correct?

The PRESIDING OFFICER. The Senator is correct.

#### WORLD PEACE

Mr. LAUTENBERG. Mr. President, I take a few minutes to discuss something that has been in front of our eyes and in front of our minds these last couple of weeks; that is, the turmoil we are witnessing in the Middle East. Those horrible pictures of young people engaged in violence and paying a terrible price for the consequence of that violence. Not just the young people—women, children, young men.

I think it is fair to say that everyone who sees what is taking place wishes it weren't happening. The question is raised about our responsibility and what do we do about it. Is there an opportunity for us to lend peace a hand,

to see whether or not we can encourage the reduction of violence, the elimination of the confrontation with stones and tanks and guns, to see if there isn't something more that we could do than to simply be a witness.

Mr. President, I commend President Clinton's efforts. He has been such a wonderful peacemaker in his term of office.

I have been to the places he has exerted some effort, i.e., Ireland. I was there many years ago and met with people in the north and met people from the Republic. I talked to Catholics and Protestants and tried to help make adjustments in our funding support so it would be more balanced, balanced towards those people who needed help while asking those who did not to at least participate in a nonviolent manner to get the killing and the mayhem stopped.

President Clinton took the initiative there. He sent Senator Mitchell, one of our very good friends from this place, a distinguished Senator; a distinguished before he came to the Senate. He worked tirelessly. He would get the two sides to at least stop shooting at one another and come to the negotiating table. It has had a shaky peace arrangement, but at least people are not dying. And if they are, it is an exceptional occasion and not the usual thing.

I was in Kosovo and Bosnia with other Members of the Senate and saw the unacceptable behavior of the leadership there, as they committed the genocidal acts against innocent people. We became engaged, and it was a tough fight to become a part of the peacemaking structure. We didn't always agree with our friends in Europe about whether or not it was in their interests or our interests. I think we have seen that too many times.

I was a veteran during the war a long time ago. I enlisted in the Army. Even in those early days in the last century when Hitler started to invade neighboring countries, killing people, separating groups from one another so they could be attacked in an organized fashion, there were people, I understand, as I read the history, who questioned whether it was something in which the United States should become involved. Before we knew it, we had no choice. When our ships were attacked in Pearl Harbor, we were in it 110 percent, with some 15 million people in uniform. We fought hard. Hearts were broken. Families paid a price. Young people diedamong others, but those who were involved in the military were young.

In the last half of the 20th century, democracy flourished in some of those places. We still have troops in Germany, in Japan, in South Korea—50 years later.

Sometimes, I must tell you, I do not understand it when questions are raised here about our role: Are we going to be the policeman of the world? Does it have our interest in it?

I remember the debate on Kosovo and Bosnia. There were many who said we have no business being there. I disagreed. I disagreed strongly, and I encouraged us to do what we did. President Clinton and Vice President GORE led the charge, if I may say, by making certain we protected our pilots and our military servicepeople wherever they were in the area as we took on the task of stopping a mad, genocidal attack on people in Kosovo and at times before that in Bosnia itself. It was a wonderful conclusion that we lost no one in combat, but we stopped the killing of innocent people. Kosovo is being rebuilt. Again, maybe it is a shaky peace but a peace. That is the critical issue. The question was raised, as I said, was that in our national interest? Are we going to be the policeman of the world?

Now we are faced with another situation. When terrorism rears its ugly head, and when those who want to violate the safety and well-being of ordinary citizens and take it into their hands to determine who is wrong and who is right commit atrocious acts, it does almost always come home to roost. It is proven that at some point in time it is in our national interest. Our national interest is to protect our people. Maybe in the process we reach out to protect others so violence does not spread and we are not looking at wholesale attacks on innocent people.

The other day when the U.S.S. Cole was struck by madmen who detonated bombs that tore the U.S.S. Cole apart, left a hole in the hull of the U.S.S. Cole, in a ship that was designed to withstand torpedoes and other pieces of military weaponry, and killed 17 people, if one read the biography of so many of them who died, they were young: 19, 20 years old. I enlisted when I was 18. It is so very young. And 37 more, I think the number is, were wounded, many of them seriously wounded, and just brought home. Today I know there was a memorial service in Norfolk, VA, for those who died. The President was there. He made certain he got back from Egypt on time to be there.

I wonder how many people are saying, do we have an interest, a national interest in what is taking place there when terrorism is allowed to flourish, and included in that activity are American citizens, those who were there to maintain the peace?

The other day we passed a piece of legislation which I had the privilege of authoring that compensated victims of terrorist activity, families who lost people I knew, who lost a daughter in Israel in an attack on a bus outside the Gaza Strip. She was 20 years old, there on business, innocent, studying, trying to learn something about a heritage that she and her family were proud of —killed by a terrorist's bomb.

Iran was held in our courts to be the country of responsibility. We took further action based on legislation that had passed through this House that enabled people to bring suits against those countries, to attach their assets that may have been in America. A resolution was adopted and the President is going to be signing a bill into law very shortly permitting the distribution of funds to those families. They didn't want other families to have to suffer the same consequences they did.

Now we look at the President's attempt to bring peace to Israel and the Palestinians. We do not know whether that effort is going to work. But we do know that the President did the right thing to assert the presence of America and to say we want to see peace in this

We are friendly with both sides in the dispute there, perhaps friendlier, as I think we should be, in many ways to the democratic nation of Israel because it is a democracy and people have choices about things. But we do not want to see Palestinians killed. It pained us all to see the picture of that young boy who was shot in a crossfire. It pained us all to see a couple of soldiers, who were doing no harm, taken to a jail and held there as prisoners until a mob was able to get their hands on them and lynch them, mutilate them-lynched them not with a rope but lynched them in terms of taking their lives in a mob attack, parading their bodies through the streets, mutilating them even as they lay dead.

It is time for us to ask those who can stop this violence, who can at least slow it down, at least encourage peace, to step up and do so and not hold out a friendly American hand to those who will not.

I welcomed Mr. Arafat here in 1993. I was amazed to see Prime Minister Rabin; the President of the United States; and the Chairman of the Palestinian Authority, Yasser Arafat; shaking hands because I had only known about Yasser Arafat in an earlier time when he wore a gun on his hip and went to the United Nations and held the gun up as a manifestation of his view of how disputes are resolved.

Now we see what is happening, even though there was a tacit agreement to try and stop the violence and the Israelis were cooperating. They permitted the reopening of the Gaza airport. I was there the week before that airport was opened. I was so positive about it bringing an opportunity to the Palestinian people in Gaza to have their economy lifted, to have their hopes and spirits lifted at the same time, that perhaps an improvement in their way of life and their economy might be possible because they live in desperate conditions.

We have seen the violence, the rioting, the abuse, the stone throwing.

Stone throwing is not an acceptable way of resolving disputes. It does not matter what the weapon is; it is a weapon; and it is designed to intimidate and punish a people with whom there is a disagreement. The Israelis retaliated. They have a responsibility, in my view, to protect their people and protect their property, protect their integrity as a democratic nation.

I did not see any Israeli gloating about the fact that a Palestinian life was taken. We saw some action by some of the so-called settlers in territories in the West Bank who took action against their Palestinian neighbors, and the Prime Minister rebuked them and said: No Jewish Israelis, no Israelis should be taking mob rule into their own hands and harming people or killing them.

He came out against it.

Chairman Arafat in 1993, when he stood on the lawn at the White House, signed a statement that violence was no way to resolve differences, and he took an oath, practically speaking, that he would do whatever he could to abolish it.

What we have seen in the last few days is inconsistent with that position, and we ought to notice it. When the U.N. took up a resolution that blamed Israel for all the problems, I was disappointed that the United States did not veto that resolution. But I know in this administration, this President, the Vice President, and the Secretary of State, all have peace in mind. I thought perhaps that was the reason we did not veto this resolution but, rather, abstained. Therefore, I do not second-guess the decision, but I hope if there are more such lopsided resolutions, the United States will veto it and not permit it to continue.

It is fair to say the Israelis are making a genuine effort to stop the violence. And on the Palestinian side, they want it stopped. We heard Prime Minister Barak talking about it. They do not want to kill Palestinians. They do not want to injure people on the other side of the issue, but it is fair to say, Mr. Arafat, I was one in the Senate who supported financial assistance for the Palestinians when they signed the agreement to establish a peaceful relationship. I was one of those who encouraged it. I was one of those who said the Palestinians needed some hope and some expectation that their lives would improve, that their standard of living would be better, that their children could get an education, that they could have the proper health services they needed.

I was filled with hope. I wanted to make certain that we showed our good faith by doing something positive for the Palestinians.

I know Israel very well. I have visited there many times, and I know a lot of people there. Yitzhak Rabin was a personal friend of mine. When he was killed by one of his own people, it was a tragedy felt round the world.

The nation of Israel continued to try to make peace. Prime Minister Barak, the most heavily decorated soldier in the Israeli military, the most highly decorated soldier, is a prominent peacemaker. He wants to establish peace. He has seen war at its worst. That is why he has the medals that reflect heroism, bravery, and valor, but he did not like the killing. He did what he had to do to protect his country, and he is doing the same thing now, trying to protect his country and is trying to do it without violence, without responding violently to the attacks of his country. He is pleading for there to be peace, some measure of tranquillity on both sides.

So as we mourn the loss of our young people, the sailors from the U.S.S. *Cole*, we wish those who are ill, who are wounded, who are injured, a full and speedy recovery.

We also wish we can be witnesses to a more peaceful discussion about where the relationship between Israel and the Palestinians will go. They can get along—they must get along—to try to resolve every difference. Whether it is with slingshots and stones or rifles or artillery pieces, it is not an appropriate way to resolve those problems.

But I do respect Israel's right to defend itself, and I do respect the wishes of many of the people in Palestine, the Palestinian community, to have their freedoms enumerated very clearly—their capacity to raise their families, to have an opportunity for the appropriate education and standard of living that all people want.

But I call on Mr. Arafat, Yasser Arafat, with whom I have shaken hands many times—and in the tradition of the Middle East, we kissed each other on the cheek in good will when I was there at Gaza at the opening of the airport, when I was there to see the economic development that was taking place; I had so much respect for the things he was trying to do for his people—I send out a plea to him to gather whatever strength he has to take the leadership of the Palestinian Authority and do what he is supposed to as the chairman; that is, call for reconciliation, call for the end of the violence. Get back to the negotiating table. Air your differences. Ask the United States to help. Do not invite imbalance in resolutions and things such as that. Do not search for those who have a bias in this case to present programs for peace. But do what you said you would do, Mr. Arafat, when you came here in 1993, when we sat around dinner tables together, when I visited you in Jericho, and we talked in such friendly fashion that I walked away believing we were seeing the accomplishment of miracles, small though they may be.

So I wish both sides the best wish I can, and that is for peace, to take care

of your families, save your children by not taking other people's children, by not taking other people's lives.

Mr. President, I yield the floor. The PRESIDING OFFICER. The majority whip.

Mr. NICKLES. Mr. President, I heard my colleague from New Jersey making a very eloquent statement concerning the violence in the Middle East. I certainly share his concern and his wish that peace will be restored amongst the Palestinians and the Israelis.

I also heard him compliment the President on his efforts. And I compliment the President on his efforts in trying to contain the violence. But I am critical of the administration for a couple of things. I am critical of the administration for not vetoing Security Council Resolution 1322, which passed the Security Council on October 7. We could have vetoed this resolution. It was a biased resolution. It was an unbalanced resolution, a resolution that criticized Israel and did not criticize the Palestinians. The Palestinians have been very involved in creating a lot of the violence. This is a one-sided resolution. This administration did not veto it, for whatever reason.

Now the United Nations is considering another resolution, from what I understand from press reports and so on, that very strongly condemns Israel and is somewhat silent on the Palestinians.

Mr. President, I ask unanimous consent this Security Council resolution 1322 be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### RESOLUTION 1322 (2000)

(Adopted by the Security Council at its 4205th meeting on 7 October 2000)

 $The \ Security \ Council,$ 

Recalling its resolutions 476 (1980) of 30 June 1980, 478 (1980) of 20 August 1980, 672 (1990) of 12 October 1990, and 1073 (1996) of 28 September 1996, and all its other relevant resolutions,

Deeply concerned by the tragic events that have taken place since 28 September 2000, that have led to numerous deaths and injuries, mostly among Palestinians.

Reaffirming that a just and lasting solution to the Arab and Israeli conflict must be based on its resolutions 242 (1967) of 22 November 1967 and 338 (1973) of 22 October 1973, through an active negotiating process.

Expressing its support for the Middle East peace process and the efforts to reach a final settlement between the Israeli and Palestinian sides and urging the two sides to cooperate in these efforts,

Reaffirming the need for full respect by all of the Holy Places of the City of Jerusalem, and condemning any behaviour to the contrary.

1. Deplores the provocation carried out at Al-Haram Al-Sharif in Jerusalem on 28 September 2000, and the subsequent violence there and at other Holy Places, as well as in other areas throughout the territories occupied by Israel since 1967, resulting in over 80 Palestinian deaths and many other casualties;

- 2. Condemns acts of violence, especially the excessive use of force against Palestinians, resulting in injury and loss of human life:
- 3. Calls upon Israel, the occupying Power, to abide scrupulously by its legal obligations and its responsibilities under the Fourth Geneva Convention relative to the Protection of Civilian Persons in Time of War of 12 August 1949:
- 4. Calls for the immediate cessation of violence, and for all necessary steps to be taken to ensure that violence ceases, that new provocative actions are avoided, and that the situation returns to normality in a way which promotes the prospects for the Middle East peace process;
- 5. Stresses the importance of establishing a mechanism for a speedy and objective inquiry into the tragic events of the last few days with the aim of preventing their repetition, and welcomes any efforts in this regard;
- 6. Calls for the immediate resumption of negotiations within the Middle East peace process on its agreed basis with the aim of achieving an early final settlement between the Israeli and Palestinian sides;
- 7. Invites the Secretary-General to continue to follow the situation and to keep the Council informed;
- 8. Decides to follow closely the situation and to remain seized of the matter.

Mr. NICKLES. But it is interesting, the second statement says it:

Condemns acts of violence, especially the excessive use of force against Palestinians, resulting in injury and loss of human life.

No. 3. it:

Calls upon Israel, the occupying Power, to abide scrupulously by its legal obligations. . . .

It does not say for the Palestinians and it does not say for Mr. Arafat to abide by its obligations, and it does not talk about the Palestinians and their use of force.

I heard my colleague from New Jersey talk about the fact that Palestinians had a couple of Israelis who were murdered.

So my point is that the President of the United States should have urged our representative at the United Nations to veto this, use our veto in the Security Council to veto this very unbalanced, very biased, very anti-Israel resolution. And they did not do it. I think that was a mistake.

Now we see more violence. This recent attack on the U.S.S. Cole on October 12 killed 17 and wounded dozens. I think many of us were shocked by that. I heard some of the statements by the Secretary of State, by the Secretary of Defense, by the President: Boy, we're going to hold those people, those terrorists, those cowards who committed this cowardly deed and killed innocent U.S. soldiers, accountable.

Well, Mr. President, I have heard those words before. In many cases in past history, those words have been a lot stronger than our deeds. That bothers this Senator. I look back at some of the terrorist activity that has happened in the Middle East over the last

few years directed at the U.S. citizens and soldiers, and I am thinking: Wait a minute, I have heard those exact same words: We are going to hold these people accountable. And I look at what has happened.

In 1993, we had President Bush—at that time he was former President Bush. He traveled to Kuwait in April of 1993. He was there April 14 through 16. The Kuwaiti Government captured a van loaded with 180 pounds of explosives. This was an attempt to assassinate former President Bush. This administration launched 23 cruise missiles to show they were really upset about that, most of which hit in the sand; some may have hit the targets, or at least they are saying that—but a pretty mild response.

Again, was it directly targeted at those people who were directly responsible, or was it the United States kicking up and showing, well, we are a little peeved about this? Did we hold those people directly responsible who tried to assassinate President Bush? The answer is no. Did we capture those people who were directly involved in that? I believe the answer is no.

If the intelligence community knows more about this than I do, I would be happy for them to inform this Senator. But I do not believe the individuals who were directly involved in that terrorist activity were held accountable, that they were tried, that they were punished for that action.

What about the bombing of Khobar Towers? This happened June 25, 1996 as a result of a car bomb. The destruction looked very similar to the bombing in Oklahoma City, another car bomb that blew up the Federal building in Oklahoma City and killed 168 people. The car bomb outside the Khobar Towers killed 19 Americans, and it wounded 364

I remember the President, I remember the Secretary of Defense, I remember the Secretary of State say: We will not stop until these cowards are brought to justice.

How many people have been brought to justice from the Khobar Towers bombing of 1996? The answer is, no one. The answer is, one person has been arrested. He is now in a Saudi jail—one person. A lot more than one person was responsible for the Khobar Towers bombing, a lot more than one person.

What has been the result? Have we held people accountable? No. That was the most massive terrorist attack against military personnel, certainly since the bombing in Lebanon. What did we do? Well, basically nothing. Basically nothing.

What about the bombings of the Embassies in Kenya and Tanzania? That was August 7, 1998. Bombs exploded at the U.S. Embassies in both Kenya and Tanzania, killed 252 people, including 12 Americans. Again, we heard this President, this Secretary of State, this

Secretary of Defense say: We will hold them accountable. What did we do? Once again, we lobbed some cruise missiles, and we hit, I guess, a terrorist camp in Afghanistan. I guess the principal terrorist we were aiming at was not there. Maybe some people were killed. Maybe those people were directly involved in the bombing; maybe they weren't. That is not very targeted, in my opinion. We also bombed a pharmaceutical plant that we may be making significant payments on because people determined maybe it wasn't directly involved. I don't know.

My point is, this administration has made very strong statements that we are going to hold people accountable for attacking U.S. facilities, U.S. soldiers. We did it again with the U.S.S. Cole. Frankly, we haven't done it. Our country hasn't done it. Maybe we lobbed some cruise missiles and maybe we directly or indirectly hit some people who might have been responsible, but it is a little questionable.

I think it almost sends a signal of weakness, if we don't hold people accountable. I think the rhetoric has been good. I think the language has been good. I don't think the results have been good. I think if there is a U.N. resolution that is biased and anti-Israel, it should be vetoed. I certainly believe we should find out those people who are responsible for the bombing of the U.S.S. Cole, and we should hold them accountable. We should find the people who are responsible for the bombing of the Khobar Towers, and we should hold them accountable. They should pay a penalty, a price, and, frankly, that has not happened.

I see my colleague wanting to speak. Mr. LAUTENBERG. If the Senator will allow me a few minutes, I appreciate that. It is very nice of him to do

I listened carefully. I have respect for our friend from Oklahoma. He has been here, despite his youth, for a long time. He knows how this place works.

President Bill Clinton went immediately to the scene of the violence, to Egypt, to the region where so much is taking place, to plead and beg and to force a peaceful resolution, to stop the violence. That is what he said: Stop the violence. He wasn't drawing the terms. It is not fair to say that we have done nothing.

We went into Afghanistan with bombs. We attacked what we thought was the appropriate target. Yes, we missed when we went to the Sudan, but is that a criticism of our troops, of our pilots? Are they saying that mistakes don't happen in conflict or in a wartime exercise? I am not talking about practice. I am talking about the exercise of defense. Would we restrict the rights of our citizens to travel? Do we say that our warships can't circulate around the world? Do we say we have to stay home, come back here and just

hide in our harbors so that we don't have any problems? Our people who enlist always know there is some risk. They have been asked to do tough duty.

I am not sure about how the votes went when we decided to go to Kosovo, in deference to my colleague and friend from Oklahoma. I think there was a vote not to go to Kosovo by lots of people. I am not sure how the Senator from Oklahoma voted, but I do know there was sharp resistance: It was not in our national interest to stop the killing; it wasn't in our national interest to be on the side of antigenocide, to stop the mutilation of communities and families and people and the abuse of women, the likes of which has rarely been seen in history.

It is not fair to say we have done nothing. We have tried. We have sent dozens of investigators to Yemen, and we have already made some progress. It is in the papers. I am not telling anything from the Intelligence Committee. But we have already found explosives in an apartment there. We are on the trail.

When Pan Am 103 went down, brought down by terrorists, we found, from the tiniest fiber of thread from a jacket, people who were the likely perpetrators.

This is not an idle administration. I would never say, because I am a Democrat and we have a Republican President, that there were times that I voted against going to war. There were times that I voted going for it. Because whenever I have a vote such as that, I look to the eyes of my son, when he was 22, and I say: This isn't a war I would send you to and, therefore, I am not sending other parents' sons. I enlisted when I was 18. My father was on his deathbed. My mother was 36 years old. I felt it was my responsibility to serve my country.

I think one has to be careful when we start suggesting that nothing is happening. As to the Khobar Towers, the example the Senator cited, it is outrageous that we haven't found the perpetrators of those killings of our troops. But I want to point a finger at Saudi Arabia, the country that we sent our troops to protect in 1990. We sent them out there, 450,000 or maybe even over 500,000, to protect the Saudis, our good friends, who are holding us by the throat with their oil prices. That is where they are. What have they done to help us find the perpetrators of the murder of our troops? Not very much, I can tell you that.

I have watched this very closely. So I will point fingers where they belong. Those pointed fingers didn't belong against the Bush administration who served until 1992 and they don't belong at the Clinton administration. Those examples are invalid.

We have done what we have to do. We are fully committed, every one of us, to

finding those who did that dastardly bombing against the U.S.S. Cole. I predict we will find them, and we are going to get help from people we never expected. When the trade towers went down in New York City, I was commissioner of the port authority. We had offices, before I came to the Senate, in that building. Unfortunately, a couple of the perpetrators came from my side of the Hudson River. But we searched until we found the people, just as we did in Oklahoma. We searched until we found the people. We can't push buttons and instantly solve these crimes that are planned by crazies, masterminded by people who have lots of skills in the wrong areas.

We do our share; we really do. I think it is unfair to cast a net. Yes, I disagree with the decision on the vote of the U.N., but I trusted this administration, I trusted our Government to say, OK, the reason we don't want to do it is to create a further imbalance, to further enrage the Palestinian young people, to further the violence that is going on there. We have hopes for peace. Our mission is peace, not to make more war.

So while we disagree—in hindsight it is always easy to disagree—the fact is, President Clinton picked up bag and baggage, went there overnight to try to bring the parties together. He is not disengaged by a longshot. We are not taking the Palestinian side in any issue. We are friends of Israel, but we are also cognizant that the Palestinians are humans. We don't want harm brought to them, either.

I am sorry to get so passionate about this, but I have strong views and I just disagree with our colleague from Oklahoma.

Mr. NICKLES. Mr. President, I didn't hear total disagreement. I think I heard my colleague say he agreed with me that the administration should have vetoed the U.N. resolution that strongly condemned Israel and was silent about Palestinian violence. We agree.

I think he also said he agreed with me that we should be very assertive in trying to find those people responsible for the Khobar Towers, for that bombing that was so damaging, that killed 19 Americans, wounded a couple hundred others. We haven't had success. He is critical of the Saudi Government. So am I.

The point being, our language and our rhetoric in some cases has exceeded our results. When we had two American embassies that were bombed, what did we do? We lobbed a few cruise missiles. We don't know if those hit the people who were directly responsible or not.

The point is, if you are going to hold people accountable, you want to hold the people who are directly accountable for committing the crime against American citizens who killed American

citizens, and we haven't done that in the two latest cases of terrorism. Frankly, if you don't hold them accountable, I think that sends a bad signal.

I would agree with my colleague from New Jersey, we should certainly hold people accountable for the U.S.S. Cole. Likewise we should hold people accountable on Khobar Towers and on American embassies, and that hasn't happened yet. That was my point.

## THE AGRICULTURE CONFERENCE REPORT

Mr. NICKLES. Mr. President, I want to comment on the Agriculture conference report that just passed overwhelmingly today in the Senate. It already passed the House and it will be going to the President to be signed. In my opinion, there are a couple of provisions in this bill that really should not have been included and are serious mistakes that may come back to haunt Congress or will require Congress to change their actions.

One of them deals with private contracts. I happen to believe very strongly in private contracts. I came from the business sector, the private sector. When Congress interferes in private contracts, it ought to have a good reason. It ought to know what it is doing. Frankly, it should hardly ever do so. In this case, we put some language in this bill that I venture to say very few of our colleagues—maybe only a couple—even know it exists or what its ramifications will be.

There is language in the Agriculture conference report that doesn't deal with Agriculture but deals with reimportation of drugs. Yes, we debated reimportation language on the Senate floor, but we didn't debate this contracting issue.

Senator JEFFORDS offered an amendment dealing with reimportation of drugs. However, the amendment offered by Senator Jeffords contained some serious flaws, which led me to oppose the amendment. For example, the original Senate language included a provision that would have established two separate standards for drugs that were sold in the United States. One standard, which is current law, with regard to drugs that are manufactured and sold in the U.S. And a separate, and in my opinion, inferior standard for drugs that are imported or reimported into the U.S. Fortunately. the conference agreement corrected the flaws of the original Jeffords language and will require that all drugs, including those imported by businesses other than the manufacturer, must fully comply with Section 505 of the Federal Food, Drug and Cosmetic Act. This means that every importer must ensure that all safety standards which are included in a new drug approval application (NDA) are fully met for every

drug which is imported into the U.S. Additionally, the conference agreement retained Senator Cochran's amendment that perfected and improved the Jeffords amendment to require that the Secretary ensure that if drugs are imported, U.S. safety standards will be used to ensure that these drugs pose no risk to the public health and that consumers will benefit from any potential savings prior to this law going into effect. I supported the Cochran amendment and I am pleased that this bill included that language.

However, in conference, new language was added that was not in either the House bill or the Senate bill. It wasn't in any of the language adopted on the Senate floor. This language states:

No manufacturer of covered products—[prescription drugs]—may enter into a contract or agreement that includes a provision to prevent the sale or distribution of covered products under this subsection.

What does that mean? Well, it means that this Congress could either abrogate or direct contracts which don't meet this new federal test. I think that is a serious problem. This could make it illegal for a patent holder to insert a clause into a private licensing agreement with a foreign distributor that prevents a foreign distributor from reselling that product for any reason.

This proposal could prohibit any private agreement that limits or restricts the sale of drugs, including quantities, territories, resale conditions, or other normal terms of commerce.

I think this Congress is inappropriately intruding into commerce in ways that we don't have any idea what we are doing, what the ramifications may be and may in fact be unconsitutional. But that's not all. Additionally, the language we have adopted would direct the U.S. Government to sanction companies that structure their business relationships with foreign distributors in a manner inconsistent with the legislation. A lot of these businesses have been doing business with people to resell their drugs, and we are going to say they are not doing it right so we can fine them. We may in fact require them to sell to anybody. Can they resell in any way they want to? Not according to this language. So a manufacturer can lose total control of its products and this may at some point result in a number of counterfeit drugs and other safety problems. How is this type of provision consistent with the basic concept of private property and freedom to contract? It is not. It really makes no sense. Have we had any hearings on this? No. If you restrict this kind of contract for pharmaceutical companies, why in the world can't you do it for any other contract? So somebody says, wait a minute; this just deals with pharmaceutical products. Frankly, if Congress can insert itself

going to do the same thing on contracts between auto dealers or other private business.

There is a little bill floating around that would try to do that. We can do it on other contracts where maybe we deem we have superior wisdom to all the business groups out there or anybody who has a contract, that we know better. What does this language mean? What is its impact? We are going to go and give the authority to fine somebody if they don't comply. Wow. This is in an appropriations bill. It didn't come through the Judiciary Committee or a committee composed of people who work on contracts or work on judicial issues. We are setting up that kind of a program, and I am embarrassed for us to do that.

This type of legislating sets a horrible precedent for other businesses as well. It is not appropriate for this Congress to force American manufacturers to sell their products to consumers that they do not want to sell to under contract terms that the federal government approves. This type of requirement is unfair and lacks common sense. I predict it will raise serious constitutional questions as well and may interfere with the exercise of intellectual property rights. It is unfortunate that this language was included in this bill. I think this is a serious mistake.

It is somewhat similar to another mistake, in my opinion, included in this bill, which is title X, the continued dumping and subsidies offset. It is a brand new provision. It is a provision inserted in the Agriculture conference. It deals with subsidies and with dumping. Those are trade issues, trade sanctions, usually handled in the Wavs and Means Committee in the House and the Finance Committee in the Senate. This didn't go through either. I will tell my colleagues this provision could not pass the Finance Committee. It could not pass the Ways and Means Committee.

This runs directly contrary, frankly, to free trade and the idea of trying to expand trade. This says if you have a dumping complaint, and if you happen to win, the benefits go back directly to that company, directly to the individuals involved. So there is a reward and incentive that if you file a dumping complaint and win, you will receive benefits. This encourages lawsuits on dumping because you can win the "lottery." Here they come. It doesn't make sense. It is probably not WTO consistent. This says "consistent with the rights under the World Trade Organization." I venture to say that it is not consistent with WTO rights in any way, shape, or form. It will probably be thrown out by the courts.

Why are we doing this? I am on the Finance Committee, and did we have a hearing on this? No. we did not. Did the Ways and Means Committee have a all of a sudden, it is inserted into a conference report which is not amendable. Some colleagues say they don't like this process. I don't like this process either. I think it is bad legislation. I think it can come back to haunt us, and we could be talking about hundreds and hundreds of millions of dollars from this provision alone.

Again, how many colleagues are even aware that this is in the bill? We have committees of jurisdiction, such as the Judiciary Committee, that should be dealing with contracts and they should have handled this contracting issue. My guess is that they would have scrubbed it and done a better job. The Finance Committee, which deals with trade, would totally reject this idea of rewarding people if they file successful dumping lawsuits.

Mr. President, it is with regret that I say there are other aspects of this Agriculture appropriations bill, which has grown substantially, that bother this Senator. We would end up passing a bill that increases budget authority over the President by 22 percent in outlays and 24 percent in budget authority. That bothers me. It bothers me when we see growth in the discretionary portion of this bill to that extent—to be growing at 24 percent I don't think is affordable or responsible. I could go on.

Also, there are expansions of entitlements. I remember earlier this year when we passed emergency assistance. and we busted that. We busted it big time. I understand there are a lot of problems. We had a drought as bad as anybody. Texas suffered from a drought and so did we. This is fiscally irresponsible, in my opinion. And because of the provision dealing with dumping and the abrogation of contracts, or the changing of contracts, and the total cost of this bill, regretfully, this Senator had to vote against the Agriculture conference report.

I see my colleague from Alabama is here. I am prepared to wrap up. How long does he wish to speak?

Mr. SESSIONS. Fifteen minutes.

Mr. NICKLES. I will give the Senator from Alabama the pleasure of closing the Senate then.

I vield the floor.

The PRESIDING OFFICER BROWNBACK). The Senator from Alabama is recognized.

#### THANKING THE ASSISTANT MAJORITY LEADER

Mr. SESSIONS. Mr. President, the assistant majority leader is becoming the conscience of this Senate. It is a thankless task to say no on bills as popular as the Agriculture bill—something that was important for my State. I voted for it and I respect it. I think it is also important if we are going to have any respect for our ultimate budget requirements, the people in our

into contracting language, are we hearing on this? I don't believe so. But leadership need to stand up and speak out, and I appreciate him doing so. He provides great leadership for us.

#### CONGRESS' OVERSIGHT RESPONSIBILITIES

Mr. SESSIONS. Mr. President, I am concerned that we as a Congress have not been as effective in our oversight responsibility as we should. I want to share some remarks on that subject in a minute. The distinguished assistant majority leader made some remarks about our failure to identify, prosecute, and hold to account individuals who have committed terrorist acts against American service men and women and citizens. That is an important issue. In fact, we have not been effective at it.

I remember when the attack was made on the Sudan pharmacy, the pill factory there. I remember the attack made on the facility in Afghanistan not long after that. The committee on which I serve had a hearing where the Director of the FBI, Louis Freeh; former Director of the CIA under President Clinton, Mr. Woolsey; and Jean Kirkpatrick discussed that event.

Prior to that time, I had publicly stated that I did not believe President Clinton had utilized these attacks to distract attention from the domestic problems he was having at home. People were suggesting it was a "wag the dog" syndrome—an attack that may not have been justified but helped distract public attention from his own troubles. I said no about that. But I must admit after having heard at that hearing these distinguished Americans discuss how that attack was conducted that I was very troubled. I really did not believe it made a lot of sense to just lob missiles into a factory and hope that was justified factually; that it was a factory that may have had something to do with it; and, who would be injured. That kind of thing was very troubling, and certainly had no realistic impact or potential to hurt Bin Laden who may have been involved in that. In fact, he is under indictment now for terrorist acts.

Then in Afghanistan, we just shot off some missiles. We don't know whether or not anybody was hurt. That is all it was. So we retaliated. We had done something. We didn't really do anything. That is the fact. We really did not do anything. Nobody involved in that terrorist act that we know of to this day has been held to account because of it.

We have to be prepared to work hard to identify who was involved in those activities, and to do everything we can to arrest them and bring them into custody, and, if not and if they resist, to be able to take them out wherever they may be.

That is just the plain fact of it. Bin Laden, for example, has openly declared war on the United States. The

attack on this vessel—the U.S.S. Cole was more than just a terrorist attack. It was an act of war. We have every right, and we have a duty as any great nation does to defend itself and its ability to send its ships on the open seas, and to enter port in which it should be safe. We have every right. and we have a duty to respond to that. If we don't do so, who will be next? Who else will be hurt? I left the memorial service at Norfolk just today. It was a very moving ceremony with all of those sailors standing on the Eisenhower. When the Chief of Naval Operations for the Atlantic finished his speech, he said, "Remember the Cole." When the ceremony was over, one of those sailors on that great aircraft carrier velled "Remember the Cole." It is our responsibility to remember those 17 who are no longer with us and the ones who are injured. We cannot allow this kind of activity time and time and time again, as Senator Nickles said, to be carried out and nothing happen.

I am glad he talked about that. We need to do better.

#### OVERSIGHT OF GOVERNMENT BUILDINGS AND LEASES

Mr. SESSIONS. Mr. President, I believe it is our responsibility as Members of Congress to do unglamorous work called oversight. It is our duty to make sure our governmental agencies are, on a daily basis, spending money wisely and not ripping off the American taxpayer. I believe that is a constitutional duty. I believe we are legitimately criticized in this body for not being more aggressive about that. I have tried to resolve it. I am going to do better. I am going to take some action with regard to what I consider to be poor expenditures of money.

I initiated a project in my office I call "Integrity Watch." We examine suspected cases of waste, fraud, and abuse in the Federal Government. I think that is healthy.

I have exposed the enormous costs associated with the building of a new United Nations mission in New York. That building came in at \$88 million. It is nothing more than an office space for governmental employees who work at the U.N., and for two-thirds of the year almost half as many people are there. Only half the year will the space be nearly utilized.

It came in on a per square foot basis as the most expensive building that this Government has ever built—more expensive than our great Federal courthouses, some of which have been criticized like the one in Boston. It is more expensive per square foot than those great Federal courthouses.

Today I alert my colleagues to a problem I have noted. I hope we are not seeing a pattern of abuse of taxpayers.

The General Services Administra-

The General Services Administration, the Government's landlord, is responsible for purchasing, leasing, and refurbishing the buildings that house Federal agencies and Departments. My concern is that too often Congress is simply rubber stamping leasing requests of GSA without exercising careful oversight responsibilities. Specifically, I am concerned about the proposed expenditure of Federal funds to lease space for the Department of Transportation and the procedure being used in that process.

In 1996, GSA came to Congress to receive authorization to secure a new lease for DOT. The current lease was to expire on March 31 of 2000. The prospectus GSA provided to Congress was very simple. It plainly stated that GSA "proposes a replacement lease of 1,199,000 to 1,320,000 rentable square feet of space and 145 official inside parking spaces for the Department of Transportation."

That was basically it.

On November 6 of 1997, the Senate Committee on Environment and Public Works, of which I was a member at that time, approved a resolution authorizing GSA to secure an operating lease for the headquarters. The resolution was just as simple as the prospectus. It was a one-page resolution authorizing GSA to enter into an operating lease not to exceed 20 years for approximately 1.1 million net usable square feet of space plus 145 official parking spaces at an estimated annual cost of \$55 million plus escalations.

Almost 2 years after GSA was given the go-ahead to procure the lease, the agency issued a 250-page solicitation for offers asking people to make proposals to secure this space for DOT. Buried in this SFO—Solicitation for Offers—are a number of alarming statements used by GSA in making its decision which may have a profound impact on the cost and the quality of the building, and, more importantly, the expense that we as taxpayers will pay over the next few decades.

It strikes me that GSA may well be deliberately ignoring their 1997 mandate, or at least violating the spirit and intent of the congressional authorization. One only needs to review the 250-page SFO to determine that GSA has decided unilaterally to go far beyond what they were authorized to lease by Congress.

Specifically, the requirement in the SFO that proposals are to provide a level of quality consistent with "the highest quality commercial office buildings over 250,000 square feet in Washington, DC."

I don't believe a Federal office building has to be equal to the highest quality private office space in this city. Federal dollars are paying for the building—taxpayer dollars—and that requirement cannot be justified.

Additionally, the congressional authorizing resolution said nothing about GSA securing a lease equal to the high-

est quality commercial building. They weren't given that commission.

I am also concerned about what appears to be the lavish excesses included in the performance specifications. Just for example, the SFO explains that the passenger elevators—this is not a ceremonial building; this is an office building—are to be made of "premium quality natural stone or terrazzo," and that the walls in each passenger elevator are to be "a combination of premium quality architectural wood paneling, premium quality natural stone, and finished metal."

I think this shows a real sense of disconnect from the American people, even of arrogance. Most families in the United States work hard to achieve the American dream of building and owning a home but can't afford to place "premium quality architectural wood paneling" in their home. Why should their hard-earned tax dollars that are extracted from them be spent so that Government workers can ride up and down these elevators with "premium quality natural stone" floors?

Additionally, I am concerned that other Government agencies will come to expect this same "highest quality, best-in-class" office space in Washington, DC, whether in a leased or renovated Government building. This could have a snowballing effect and create a procurement and budgetary drain on the country.

I am also disturbed by GSA's clear statement that price and cost to the Government are significantly less important than the scoring on technical factors

In Alabama, families who are building a home first start with a budget. Once they begin to design a home, if they cannot afford a "premium quality natural stone or terrazzo" floor for the dining room, they may be forced to settle for a less expensive alternative. For the majority of families in this country, price and cost are the determining factors in all their decisions when they are building a new home. Why should the Government think it should act differently?

It is my belief that among the finalists who can clearly and credibly show that they meet the space and program requirements of the SFO, price and cost should clearly be the determining factor ultimately in making the lease award. To select a building on any other basis than best value seems, to me, quite unjustifiable.

In the next few weeks, GSA will make their decision on the location of the Department of Transportation headquarters building. I will be sending a letter to Senator Bob Smith, the outstanding chairman of the Senate Committee on Environment and Public Works. I thank Chairman Smith for taking a hard look at the U.N. building, too, in his role as the committee chairman. I will ask him and his committee to work with me to look into

the procedures and standards that were passed by Congress in 1997 versus the solicitation for offer being used by GSA today for the Department of Transportation building.

I am afraid that under the current system, GSA is working with vague guidelines from Congress, very vague guidelines. In fact, their language, as I noted earlier, was "\$55 million plus escalations." That is not a crack in the door. That is a wide-open door, big enough to drive a truck through. I think they are using these vague guidelines, and these guidelines allow them to be free to set their own standards, potentially allowing them to commit to a building of unjustifiable expense.

I believe this Congress has a responsibility to our constituents to oversee and ensure all Government leases and all Government expenditures across the board, and that they are awarded to provide the Government the best quality. If we refuse to look at this, I believe we will have failed the taxpayers who will be paying for this bill. We will be potentially burdening them with an exorbitant price tag for simple office space beyond reason and justification.

I believe if we allow GSA to proceed with their current plans, we will not have followed through on our requirements of oversight to ensure that these moneys for lease space are properly approved. We want good space for the employees at the Department of Transportation. I hear they are happy where they are. They are not asking to go to a new building or have a new building. We need to be sure that we give them a new 15-year lease, wherever it is, and that it is comparable in price. We ought not to spend a whole bunch of money to get a fancy new building somewhere at much greater expense than what they have if they are happy where they are. This is not a building that is old; it is about 30 years old. We need to look at that. I will be writing the chairman. I think we need to talk more about that.

#### EXECUTIVE SESSION

#### EXECUTIVE CALENDAR

Mr. SESSIONS. Mr. President, I ask unanimous consent that the Senate immediately proceed to executive session to consider the following nomination on today's Executive Calendar: No. 659. John E. McLaughlin, of Pennsylvania, to be Deputy Director of Central Intelligence.

I further ask unanimous consent the nomination be confirmed, the motion to consider be laid upon the table, the President be immediately notified of the Senate's action, and the Senate then return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

firmed is as follows:

#### CENTRAL INTELLIGENCE

John E. McLaughlin, of Pennsylvania, to be Deputy Director of Central Intelligence.

#### LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will resume legislative session.

#### ORDER FOR STAR PRINT

Mr. SESSIONS. Mr. President, I ask unanimous consent that S. Res. 376, previously agreed to, be modified and star printed with the changes that are at the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ORDER FOR STAR PRINT

Mr. SESSIONS. I further ask unanimous consent that the report to accompany S. 2580 be star printed with the changes that are at the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

REAUTHORIZING GRANTS UNDER THE WATER RESOURCES RE-SEARCH ACT OF 1984

Mr. SESSIONS. I ask unanimous consent that the Environment and Public Works Committee be discharged from further consideration of H.R. 4132, and the Senate then proceed to its immediate consideration.

OFFICER. The The PRESIDING clerk will report the bill by title.

The legislative clerk read as follows: A bill (H.R. 4132) to reauthorize grants for water resources research and technology institutes established under the Water Resources Research Act of 1984.

There being no objection, the Senate proceeded to consider the bill.

Mr. SESSIONS. Mr. President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 4132) was read the third time and passed.

#### RELEASE OF MR. EDMOND POPE

Mr. SESSIONS. Mr. President, I ask unanimous consent the Senate proceed to the immediate consideration of H. Con. Res. 404, which is at the desk.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows: A concurrent resolution (H. Con. Res. 404) calling for the immediate release of Mr. Edmond Pope from prison in the Russian Fed-

The nomination considered and con- eration for humanitarian reasons, and for other purposes.

> There being no objection, the Senate proceeded to consider the concurrent resolution.

> Mr. SESSIONS. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and any statements relating to the resolution be printed in the RECORD.

> The PRESIDING OFFICER. Without objection, it is so ordered.

> The concurrent resolution (H. Con. Res. 404) was agreed to.

The preamble was agreed to.

#### RECOGNIZING AND ADMITTING ISRAEL'S MAGEN DAVID ADOM SOCIETY

Mr. SESSIONS. I ask unanimous consent the Senate now proceed to the immediate consideration of Calendar No. 863. S. Res. 343.

The PRESIDING OFFICER. The clerk will report the resolution by title.

A resolution (S. Res. 343) expressing the sense of the Senate that the International Red Cross and Red Crescent Movement should recognize and admit to full membership Israel's Magen David Adom Society, with its emblem, the Red Shield of David.

There being no objection, the Senate proceeded to consider the resolution.

Mr. SESSIONS. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and any statements relating to this resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 343) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 343

Whereas Israel's Magen David Adom Society has since 1930 provided emergency relief to people in many countries in times of need, pain, and suffering, regardless of nationality or religious affiliation;

Whereas in the past year alone, the Magen David Adom Society has provided invaluable humanitarian services in Kosovo, Indonesia. Ethiopia, and Eritrea, as well as Greece and Turkev in the wake of the earthquakes that devastated these countries;

Whereas the American Red Cross has recognized the superb and invaluable work done by the Magen David Adom Society and considers the exclusion of the Magen David Adom Society from the International Red Cross and Red Crescent Movement "an injustice of the highest order";

Whereas the American Red Cross has repeatedly urged that the International Red Cross and Red Crescent Movement recognize the Magen David Adom Society as a full member, with its emblem;

Whereas the Magen David Adom Society utilizes the Red Shield of David as its emblem, in similar fashion to the utilization of the Red Cross and Red Crescent by other national societies:

Whereas the Red Cross and the Red Crescent have been recognized as protective emblems under the Statutes of the International Red Cross and Red Crescent Movement:

Whereas the International Committee of the Red Cross has ignored previous requests from the United States Congress to recognize the Magen David Adom Society:

Whereas the Statutes of the International Red Cross and Red Crescent Movement state that it "makes no discrimination as to nationality, race, religious beliefs, class or political opinions," and it "may not take sides in hostilities or engage at any time in controversies of a political, racial, religious or ideological nature";

Whereas although similar national organizations of Iraq, North Korea, and Afghanistan are recognized as full members of the International Red Cross and Red Crescent Movement, the Magen David Adom Society has been denied membership since 1949:

Whereas in the six fiscal years 1994 through 1999, the United States Government provided a total of \$631,000,000 to the International Committee of the Red Cross and \$82,000,000 to the International Federation of Red Cross and Red Crescent Societies; and

Whereas in fiscal year 1999 alone, the United States Government provided \$119,500,000 to the International Committee of the Red Cross and \$7,300,000 to the International Federation of Red Cross and Red Crescent Societies: Now, therefore, be it

Resolved, That-

- (1) the International Committee of the Red Cross should immediately recognize the Magen David Adom Society and the Magen David Adom Society should be granted full membership in the International Red Cross and Red Crescent Movement;
- (2) the International Federation of Red Cross and Red Crescent Societies should grant full membership to the Magen David Adom Society immediately following recognition by the International Committee of the Red Cross of the Magen David Adom Society:
- (3) the Magen David Adom Society should not be required to give up or diminish its use of its emblem as a condition for immediate and full membership in the International Red Cross and Red Crescent Movement; and
- (4) the Red Shield of David should be accorded the same recognition under international law as the Red Cross and the Red Crescent.

## CONDEMNING THE ASSASSINATION OF FATHER JOHN KAISER

Mr. SESSIONS. I ask unanimous consent the Foreign Relations Committee be discharged from further consideration of S. Con. Res. 146, and the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Con. Res. 146) condemning the assassination of Father John Kaiser and others in Kenya and calling for a thorough investigation to be conducted in those cases, a report on the progress made in such an investigation to be submitted to Congress by December 15, 2000, and a final report on such an investigation to be made public, and for other purposes.

There being no objection, the Senate proceeded to consider the resolution.

Mr. SESSIONS. I ask unanimous consents the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Con. Res. 146) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. CON. RES. 146

Whereas Father John Kaiser, a Catholic of the Order of the Mill Hill Missionaries and a native of Minnesota, who for 36 years served as a missionary in the Kisii and Ngong Dioceses in the Republic of Kenya and advocated the rights of all Kenyans, was shot dead on Wednesday, August 23, 2000;

Whereas Father Kaiser was a frequently outspoken advocate on issues of human rights and against the injustice of government corruption in Kenya;

Whereas fellow priests report that Father Kaiser spoke to them of his fear for his life on the night before his assassination;

Whereas the murders of Father Stallone, Father Graife, and Father Luigi Andeni, all of Marsabit Diocese in Kenya, the circumstances of the murder of Brother Larry Timors of Nakaru Diocese in Kenya, the murder of Father Martin Boyle of Eldoret Diocese, and the murders of other local human rights advocates in Kenya have not yet been fully explained, nor have the perpetrators of these murders been brought to justice:

Whereas the report of a Kenyan governmental commission, known as the Akiwumi Commission, on the government's investigation into tribal violence between 1992 and 1997 in Kenya's Great Rift Valley has not yet been released in spite of several requests by numerous church leaders and human rights organizations to have the Commission's findings released to the public:

Whereas, after Father Kaiser's assassination, documents were found on his body that he had intended to present to the Akiwumi Commission:

Whereas the nongovernmental Kenyan Human Rights Commission has expressed fear that the progress achieved in Kenya during the last few years in the struggle for democracy, the rule of law, respect for human rights, and meeting the basic needs of all Kenyans is jeopardized by the current Kenyan government; and

Whereas the 1999 Country Report on Human Rights released by the Bureau of Democracy, Human Rights, and Labor of the Department of State reports that the Kenyan Government's "overall human rights record was generally poor, and serious problems remained in many areas; while there were some signs of improvement in a few areas, the situation worsened in others.": Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

- (1) condemns the violent deaths of Father John Kaiser and others who have worked to promote human rights and justice in the Republic of Kenya and expresses its outrage at those deaths;
- (2) calls for a thorough investigation of those deaths that includes other persons in addition to the Kenyan authorities;
- (3) calls on the Secretary of State, acting through the Assistant Secretary of State for

Democracy, Human Rights, and Labor, to prepare and submit to Congress, by December 15, 2000, a report on the progress made on investigating these killings, including, particularly, a discussion of the actions taken by the Kenyan government to conduct an investigation as described in paragraph (2);

- (4) calls on the President to support investigation of these killings through all diplomatic means; and
- (5) calls for the final report of such an investigation to be made public.

## 225TH BIRTHDAY OF THE U.S. NAVY

Mr. SESSIONS. Mr. President, I ask unanimous consent that the Armed Services Committee be discharged from further consideration of S. Res. 373, and the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The legislative clerk read as follows: A resolution (S. Res. 373) recognizing the 225th birthday of the United States Navy.

There being no objection, the Senate proceeded to consider the resolution.

• Mr. GRAMS. Mr. President, today it is my pleasure to pay tribute to the United States Navy as it celebrates the 225th anniversary of its founding. The Navy can be proud of a distinguished heritage, a heritage longer than that of the United States itself. Because of the dedicated service of our nation's sailors, Americans can feel secure that our shores are free from foreign aggression, and the world's oceans and seaways are open for peaceful commerce. The recent terrorist attack on the U.S.S. Cole, resulting in the death or presumed death of 17 sailors, reminds us of the personal risk that the members of our Navy bravely face every day, in peacetime as well as wartime.

On October 13, 1775, the Second Continental Congress authorized the acquisition of ships and establishment of a navy. Within a few days, a Naval Committee was established to coordinate the purchase of ships and the recruitment of personnel, and to draft rules regulating the Navy's administration. Although the Continental Navy of the Revolutionary War was rather humble compared to today's Navy-it was made up of only 40 vessels at its peak it played an important role in the miraculous success of the American Revolution. The Navy was able to seize almost 200 British ships as prizes, including many off the British coast, and this forced the British to divert valuable warships to the protection of transport convoys. It was in one of these raids that the legendary John Paul Jones uttered his immortal words: "I have not yet begun to fight!" And this spirit of unflagging courage and selfless discharge of duty has animated the hearts of every sailor since.

Our Founding Fathers saw the role of the Navy as important enough to merit specific mention in Article I, Section 8 of the Constitution, which empowers Congress to "provide and maintain a Navy." As American history has unfolded since then, the U.S. Navy has distinguished itself in every major armed conflict in the history of our country, from the War of 1812 and the Civil War all the way to the Gulf War and the conflict in Kosovo.

As we enter the 21st century, the U.S. Navy is without question the preeminent sea power in the world. On October 2, 2000, the active fleet contained 318 ships and 4,108 aircraft, and over 373,000 active-duty personnel filled the Navy's ranks. The U.S. Naval Academy in Annapolis provides its midshipmen with an academically rigorous curriculum, and no less important, leadership and character development. This rigorous preparation continues at a more advanced level at the Naval War College, which teaches the latest naval doctrine and strategy to senior and mid-level officers. Thanks to these prestigious institutions, the U.S. Navy boasts the finest and best qualified naval officers in the world, and the ability to face with confidence any challenge to American security.

According to the Navy, its mission is to "maintain, train and equip combatready naval forces capable of winning wars, deterring aggression and maintaining freedom of the seas." No matter where a sailor serves, whether on an aircraft carrier, submarine, battleship, cruiser, or naval base, his or her contribution is vital to fulfilling this mission. The Navy's worldwide reach allows our country to maintain U.S. national security through dominance of the seas, a dominance made possible by a combination of highly trained service members and highly sophisticated technology.

I'd like to take this opportunity to thank in particular those Minnesotans who have served, or are currently serving, in the Navy. I am proud of them, and they should know that their sacrifices on behalf of the cause of freedom are not taken for granted by their friends and neighbors in Minnesota.

I'm sure my colleagues will join me in recognizing the rich heritage and dedicated service of the United States Navy on its anniversary.●

Mr. SESSIONS. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 373) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. Res. 373

Whereas on Friday, October 13, 1775, the Continental Congress, representing the citi-

zens of 13 American colonies, passed a resolution which stated "That a swift sailing vessel, to carry ten carriage guns, and a proportionable number of swivels, with eighty men, be fitted, with all possible dispatch, for a cruise of three months, and that the commander be instructed to cruise eastward, for intercepting such transports as may be laden with warlike stores and other supplies for our enemies, and for such other purposes as the Congress shall direct.":

Whereas the founders recognized the essential nature of a Navy to the strength and longevity of the Nation by providing authority to Congress "To provide and maintain a Navy" in article I of the Constitution:

Whereas a Naval Committee was established to build a fitting Navy for our fledgling country, acquire and fit out vessels for sea, and draw up regulations;

Whereas the Continental Navy began a proud tradition, carried out for 225 years by our United States Navy, to protect our island Nation and pursue the causes of freedom we hold so dear;

Whereas, for the past 225 years, the central mission of the Navy has been to protect the interests of our Nation around the world on the high seas, to fight and win the wars of our Nation, and to maintain control of the sea lines of communication enabling this Nation and other free nations to grow and prosper;

Whereas, whether in peace or at war, United States citizens around the world can rest assured that the United States Navy is on watch, ever vigilant, and ready to respond;

Whereas, for the past 225 years, Navy men and women, as both ambassadors and warriors, have won extraordinary distinction and respect for the Nation and its Navy on the high seas, among the ocean depths, on distant shores, and in the skies above;

Whereas the core values of "Honor, Courage, and Commitment" are the guides by which United States sailors live and serve;

Whereas the United States Navy today is the most capable, most respected, and most effective sea service in the world;

Whereas 75 percent of the land masses in the world are bounded by water and 75 percent of the population of the world lives within 100 miles of the sea, assuring that our Naval forces will continue to be called upon to respond to emerging crises, to maintain freedom of the sea, to deter would-be aggressors, and to provide our allies with a visible reassurance of the support of the United States of America; and

Whereas, no matter what the cause, location, or magnitude of future conflicts, the Nation can rely on its Navy to produce well-trained, well-led, and highly motivated sailors to carry out the missions entrusted to them: Now, therefore, be it

Resolved, That the Senate—

- (1) recognizes the historic significance of the 225th birthday of the United States Navy;
- (2) expresses the appreciation of the people of the United States to the Navy, and the men and women who have served in the Navy, for 225 years of dedicated service;
- (3) honors the courage, commitment, and sacrifice that Americans have made throughout the history of the Navy; and
- (4) gives special thanks to the extended Navy family of civilians, family members, and loved ones who have served and supported the Navy for the past 225 years.

## UNANIMOUS CONSENT AGREEMENT—S. 2508

Mr. SESSIONS. Mr. President. I ask unanimous consent that at a time determined by the majority leader, after consultation with the minority leader. the Senate proceed to the consideration of Calendar No. 723, S. 2508 and it be considered under the following terms: 30 minutes for debate on the bill equally divided in the usual form; the only amendments in order be a substitute amendment No. 4303, submitted by Senator Campbell. Further, I ask unanimous consent that a Feingold amendment be in order to the substitute relative to non-Indian water users and limited to 30 minutes equally divided in the usual form.

I further ask unanimous consent that following the above debate time, the Senate proceed to vote in relation to the Feingold amendment; further, the substitute amendment then be agreed to, as amended, if amended, the bill then be read the third time, and the Senate proceed to a vote on passage of the bill, with no further intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

## EARTH, WIND, AND FIRE AUTHORIZATION ACT OF 2000

Mr. SESSIONS. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of Calendar No. 760, S. 1639.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows: A bill (S. 1639) to authorize appropriations for carrying out the Earthquake Hazards Reduction Act of 1977, for the National Weather Service and Related Agencies, and for the United States Fire Administration for fiscal years 2000. 2001. and 2002.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Commerce, Science, and Transportation with an amendment, as follows:

[Strike out all after the enacting clause and insert the part printed in italic.)

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Earth, Wind, and Fire Authorization Act of 2000".

TITLE I—EARTHQUAKE HAZARDS REDUCTION ACT

#### $SEC.\ 101.\ AUTHORIZATION\ OF\ APPROPRIATIONS.$

- (a) FEDERAL EMERGENCY MANAGEMENT AGEN-CY.—Section 12(a)(7) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7706(a)) is amended—
- (1) by striking "and" after "1998"; and
  (2) by striking "1999." and inserting "1999;
  \$19,861,000 for the fiscal year ending September
  30, 2001, of which \$450,000 shall be used to support the National Earthquake Hazard Reduction
  Program-eligible efforts of an established multistate consortium to reduce the unacceptable
  threat of earthquake damages in the New madrid seismic region through efforts to enhance
  preparedness, response, recovery, and mitigation; \$20,953,000 for the fiscal year ending September 30, 2002; and \$22,105,000 for the fiscal
  year ending September 30, 2003."

- (b) UNITED STATES GEOLOGICAL SURVEY.—Section 12(b) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7706(b)) is amended—
- (1) by inserting after "operated by the Agency." the following: "There are authorized to be appropriated to the Secretary of the Interior for purposes of carrying out, through the Director of the United States Geological Survey, the responsibilities that may be assigned to the Director under this Act \$47,360,000 for fiscal year 2001; \$49,965,000 for fiscal year 2002; and \$52,713,000 for fiscal year 2003."
- (2) by striking "and" at the end of paragraph (1);
- (3) by striking "1999," at the end of paragraph (2) and inserting "1999;"; and
- (4) by inserting after paragraph (2) the following:
- "(3) \$9,000,000 of the amount authorized to be appropriated for fiscal year 2001;
- "(4) \$9,250,000 of the amount authorized to be appropriated for fiscal year 2002; and
- "(5) \$9,500,000 of the amount authorized to be appropriated for fiscal year 2003,".
- (c) NATIONAL SCIENCE FOUNDATION.—Section 12(c) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7706(c)) is amended—
- (1) by striking "1998, and" and inserting "1998,"; and
- (2) by striking "1999." and inserting "1999, and (5) \$19,000,000 for engineering research and \$11,900,000 for geosciences research for the fiscal year ending September 30, 2001. There are authorized to be appropriated to the National Science Foundation \$20,045,000 for engineering research and \$12,555,000 for geosciences research for fiscal year 2002 and \$21,147,000 for engineering research and \$13,246,000 for geosciences research for fiscal year 2003."
- (d) NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY.—Section 12(d) of the Eearthquake Hazards Reduction Act of 1977 (42 U.S.C. 7706(d)) is amended—
- (1) by striking "1998, and"; and inserting "1998,"; and
- (2) by striking "1999." and inserting "1999, \$2,332,000 for fiscal year 2001, \$2,460,000 for fiscal year 2002, and \$2,595,300 for fiscal year 2003."

#### SEC. 102. REPEALS.

Section 10 and subsections (e) and (f) of section 12 of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7705d and 7706 (e) and (f)) are repealed.

#### SEC. 103. ADVANCED NATIONAL SEISMIC RE-SEARCH AND MONITORING SYSTEM.

The Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.) is amended by adding at the end the following new section:

#### "SEC. 13. ADVANCED NATIONAL SEISMIC RE-SEARCH AND MONITORING SYSTEM.

- "(a) ESTABLISHMENT.—The Director of the United States Geological Survey shall establish and operate an Advanced National Seismic Research and Monitoring System. The purpose of such system shall be to organize, modernize, standardize, and stabilize the national, regional, and urban seismic monitoring systems in the United States, including sensors, recorders, and data analysis centers, into a coordinated system that will measure and record the full range of frequencies and amplitudes exhibited by seismic waves, in order to enhance earthquake research and warning capabilities.
- "(b) MANAGEMENT PLAN.—Not later than 90 days after the date of the enactment of the Earthquake Hazards Reduction Authorization Act of 2000, the Director of the United States Geological Survey shall transmit to the Congress a 5-year management plan for establishing and operating the Advanced National Seismic Research and Monitoring System. The plan shall include annual cost estimates for both modernization and operation, milestones, standards,

and performance goals, as well as plans for securing the participation of all existing networks in the Advanced National Seismic Research and Monitoring System and for establishing new, or enhancing existing, partnerships to leverage resources

"(c) AUTHORIZATION OF APPROPRIATIONS.—

- "(1) EXPANSION AND MODERNIZATION.—In addition to amounts appropriated under section 12(b), there are authorized to be appropriated to the Secretary of the Interior, to be used by the Director of the United States Geological Survey to establish the Advanced National Seismic Research and Monitoring Sustem—
  - '(A) \$33,500,000 for fiscal year 2001;
  - "(B) \$33,700,000 for fiscal year 2002;
  - "(C) \$35,100,000 for fiscal year 2003;
- "(D) \$35,000,000 for fiscal year 2004; and
- "(E) \$33,500,000 for fiscal year 2005.
- "(2) OPERATION.—In addition to amounts appropriated under section 12(b), there are authorized to be appropriated to the Secretary of the Interior, to be used by the Director of the United States Geological Survey to operate the Advanced National Seismic Research and Monitoring System—
  - "(A) \$4,500,000 for fiscal year 2001; and
  - "(B) \$10,300,000 for fiscal year 2002.".

## SEC. 104. NETWORK FOR EARTHQUAKE ENGINEERING SIMULATION.

The Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.) is amended by adding at the end the following new section:

## "SEC. 14. NETWORK FOR EARTHQUAKE ENGINEERING SIMULATION.

- "(a) ESTABLISHMENT.—The Director of the National Science Foundation shall establish a Network for Earthquake Engineering Simulation that will upgrade, link, and integrate a system of geographically distributed experimental facilities for earthquake engineering testing of full-sized structures and their components and partial-scale physical models. The system shall be integrated through net-working software so that integrated models and databases can be used to create model-based simulation, and the components of the system shall be interconnected with a computer network and allow for remote access, information sharing, and collaborative research.
- "(b) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts appropriated under section 12(c), there are authorized to be appropriated, out of funds otherwise authorized to be appropriated to the National Science Foundation, \$28,200,000 for fiscal year 2001 for the Network for Earthquake Engineering Simulation. In addition to amounts appropriated under section 12(c), there are authorized to be appropriated to the National Science Foundation for the Network for Earthquake Engineering Simulation—
  - "(1) \$24,400,000 for fiscal year 2002;
  - "(2) \$4,500,000 for fiscal year 2003; and "(3) \$17,000,000 for fiscal year 2004.".

#### SEC. 105. BUDGET COORDINATION.

Section 5 of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7704) is amended—

- (1) by striking subparagraph (A) of subsection (b)(1) and redesignating subparagraphs (B) through (F) of subsection (b)(1) as subparagraphs (A) through (E), respectively:
- graphs (A) through (E), respectively;
  (2) by striking "in this paragraph" in the last sentence of paragraph (1) of subsection (b) and inserting "in subparagraph (E)"; and
- (3) by adding at the end the following new subsection:
- "(c) BUDGET COORDINATION.—
- "(1) GUIDANCE.—The Agency shall each year provide guidance to the other Program agencies concerning the preparation of requests for appropriations for activities related to the Program, and shall prepare, in conjunction with the other Program agencies, an annual Program budget to be submitted to the Office of Management and Budget.

- "(2) REPORTS.—Each Program agency shall include with its annual request for appropriations submitted to the Office of Management and Budget a report that—
- "(A) identifies each element of the proposed Program activities of the agency;
- "(B) specifies how each of these activities contributes to the Program; and
- "(C) states the portion of its request for appropriations allocated to each element of the Program.".

#### SEC. 106. REPORT ON AT-RISK POPULATIONS.

Not later than one year after the date of the enactment of this Act, and after a period for public comment, the Director of the Federal Emergency Management Agency shall transmit to the Congress a report describing the elements of the Program that specifically address the needs of at-risk populations, including the elderly, persons with disabilities, non-English speaking families, single-parent households, and the poor. Such report shall also identify additional actions that could be taken to address those needs and make recommendations for any additional legislative authority required to take such actions.

## SEC. 107. PUBLIC ACCESS TO EARTHQUAKE INFORMATION.

Section 5(b)(2)(A)(ii) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7704(b)(2)(A)(ii)) is amended by inserting ", and development of means of increasing public access to available locality-specific information that may assist the public in preparing for or responding to earthquakes" after "and the general public".

#### SEC. 108. LIFELINES.

Section 4(6) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7703(6)) is amended by inserting "and infrastructure" after "communication facilities".

#### SEC. 201. DEFINITIONS.

For purposes of this title, the term—
(1) "Administrator" means the Administrator

- (1) "Aammistrator" means the Aammistrator of the National Oceanic and Atmospheric Administration; and
- (2) "Secretary" means the Secretary of Commerce.

#### SEC. 202. NATIONAL WEATHER SERVICE.

- (a) OPERATIONS, RESEARCH, AND FACILITIES.— There are authorized to be appropriated to the Secretary to enable the National Oceanic and Atmospheric Administration to carry out the Operations, Research, and Facilities activities of the National Weather Service \$634,872,000 for fiscal year 2001, \$669,790,000 for fiscal year 2002, and \$706,628,000 for fiscal year 2003, to remain available until expended. Of such amounts—
- (1) \$466,471,000 for fiscal year 2001, \$492,127,000 for fiscal year 2002, and \$519,194,000 for fiscal year 2003 shall be for Local Warnings and Forecasts;
- (2) \$1,000,000 for fiscal year 2001, \$1,055,000 for fiscal year 2002, and \$1,113,000 for fiscal year 2003 shall be for Advanced Hydrological Prediction System;
- (3) \$619,000 for fiscal year 2001, \$653,000 for fiscal year 2002, and \$689,000 for fiscal year 2003 shall be for Susquehanna River Basin Flood Systems;
- (4) \$35,596,000 for fiscal year 2001, \$37,554,000 for fiscal year 2002, and \$39,619,000 for fiscal year 2003 shall be for Aviation Forecasts;
- (5) \$5,250,000 for fiscal year 2001, \$5,539,000 for fiscal year 2001, \$cal year 2002, and \$5,843,000 for fiscal year 2003 shall be for Weather Forecast Offices (WFO) Facilities Maintenance;
- (6) \$38,001,000 for fiscal year 2001, \$40,091,000 for fiscal year 2002, and \$42,296,000 for fiscal year 2003 shall be for Central Forecast Guidance;

- (7) \$3,068,000 for fiscal year 2001, \$3,237,000 for fiscal year 2002, and \$3,415,000 for fiscal year 2003 shall be for Atmospheric and Hydrological Research:
- (8) \$38,802,000 for fiscal year 2001, \$40,936,000 for fiscal year 2002, and \$43,188,000 for fiscal year 2003 shall be for Next Generation Weather Radar (NEXRAD):
- (9) \$7,423,000 for fiscal year 2001, \$7,831,000 for fiscal year 2002, and \$8,262,000 for fiscal year 2003 shall be for Automated Surface Observing System (ASOS); and

(10) \$38,642,000 for fiscal year 2001, \$40,767,000 for fiscal year 2002, and \$43,010,000 for fiscal year 2003 shall be for Advanced Weather Interactive Processing System (AWIPS).

- (b) PROCUREMENT, ACQUISITION, AND CON-STRUCTION.—There are authorized to be appropriated to the Secretary to enable the National Oceanic and Atmospheric Administration to carry out the Procurement, Acquisition, and Construction activities of the National Weather Service \$75,360,000 for fiscal year \$77,754,000 for fiscal year 2002, and \$71,012,000 for fiscal year 2003 to remain available until expended. Of such amounts-
- (1) \$9,580,000 for fiscal year 2001, \$16,798,000 for fiscal year 2002, and \$15,931,000 for fiscal year 2003 shall be for Next Generation Weather Radar (NEXRAD).
- (2) \$5,125,000 for fiscal year 2001, \$5,125,000 for fiscal year 2002, and \$5,125,000 for fiscal year 2003 shall be for Automated Surface Observing System (ASOS).
- (3) \$17,300,000 for fiscal year 2001, \$17,300,000 for fiscal year 2002, and \$9,645,000 for fiscal year 2003 shall be for Advanced Weather Interactive Processing System (AWIPS);
- (4) \$13,085,000 for fiscal year 2001, \$17,505,000 for fiscal year 2002, and \$19,285,000 for fiscal year 2003 shall be for Center Computer Facilities Upgrades.
- (5) \$7,000,000 for fiscal year 2001, \$7,000,000 for fiscal year 2002, and \$7,000,000 for fiscal year 2003 shall be for Radiosonde Replacement;
- (6) \$9,526,000 for fiscal year 2001, \$9,526,000 for fiscal year 2002, and \$9,526,000 for fiscal year 2003 shall be for Weather Forecast Office (WFO) Construction;
- (7) \$6,244,000 for fiscal year 2001, \$4,500,000 for fiscal year 2002, and \$4,500,000 for fiscal year 2003 shall be for NOAA Weather Radio Expansion; and
- (8) \$5,500,000 for fiscal year 2001 shall be for the Evansville Infrastructure Protection.

#### SEC. 203. ATMOSPHERIC RESEARCH.

- (a) Operations, Research, and Facilities. (1) IN GENERAL.—There are authorized to be appropriated to the Secretary to enable the National Oceanic and Atmospheric Administration to carry out the Atmospheric Research Operations, Research, and Facilities environmental research and development activities of the Office Oceanic andAtmospheric\$201,963,000 for fiscal year 2001, \$213,071,000 for fiscal year 2002, and \$224,790,000 for fiscal year 2003 to remain available until expended.
- (2) CLIMATE AND AIR QUALITY RESEARCH.the amounts authorized under paragraph (1), \$154,356,000 for fiscal year 2001, \$162,846,000 for fiscal year 2002, and \$171,802,000 for fiscal year 2003 shall be for Climate and Air Quality Research, of which-
- (A) \$14,986,000 for fiscal year 2001, \$15,813,000 for fiscal year 2002, and \$16,683,000 for fiscal year 2003 shall be for Interannual and Seasonal Climate Research;
- (B) \$30,525,000 for fiscal year 2001, \$32,204,000 for fiscal year 2002, and \$33,975,000 for fiscal year 2003 shall be for Long-Term Climate and Air Quality Research;
- (C) \$67,095,000 for fiscal year 2001, \$70,785,000 for fiscal year 2002, and \$74,678,000 for fiscal year 2003 shall be for Climate and Global

- (D) \$5,000,000 for fiscal year 2001, \$5,275,000 for fiscal year 2002, and \$5,565,000 for fiscal year 2003 shall be for Global Learning and Observations to Benefit the Environment (GLOBE); and
- (E) \$12,750,000 for fiscal year 2001, \$13,451,000 for fiscal year 2002, and \$14,191,000 for fiscal year 2003 for High Performance Computing and Communications.
- (3) ATMOSPHERIC PROGRAMS.—Of the amounts authorized under paragraph (1), \$47,607,000 for fiscal year 2001, \$50,225,000 for fiscal year 2002, and \$52,988,000 for fiscal year 2003 shall be for Atmospheric Programs, of which-
- (A) \$37,075,000 for fiscal year 2001, \$39,114,000 for fiscal year 2002, and \$41,265,000 for fiscal year 2003 shall be for Weather Research;
- (B) \$4,350,000 for fiscal year 2001, \$4,589,000 for fiscal year 2002, and \$4,842,000 for fiscal year 2003 shall be for Wind Profiler; and
- (C) \$6,182,000 for fiscal year 2001, \$6,522,000 for fiscal year 2002, and \$6,881,000 for fiscal year 2003 shall be for Solar-Terrestrial Services and Research.
- (b) PROCUREMENT, ACQUISITION, AND CON-STRUCTION.—There are authorized to be appropriated to the Secretary to enable the National Oceanic and Atmospheric Administration to carry out the Atmospheric Research Procurement, Acquisition, and Construction environmental research and development activities of the Office of Oceanic and Atmospheric Research \$7,000,000 for fiscal year 2001, \$7,000,000 for fiscal year 2002, and \$7,000,000 for fiscal year 2003. for the Geophysical Fluid Dynamics Laboratory Supercomputer.

#### SEC. 204. NATIONAL ENVIRONMENTAL ELLITE, DATA AND INFORMATION SERVICE.

- (a) Operations, Research, and Facilities.— (1) IN GENERAL.—There are authorized to be appropriated to the Secretary to enable the National Oceanic and Atmospheric Administration to carry out the Operations, Research, and Facilities environmental research and development and related activities of the National Environmental Satellite, Data and Information Service \$108,201,000 for fiscal year 2001, \$114,152,000 for fiscal year 2002, and \$120,430,000 for fiscal year 2003 to remain available until expended.
- (2) SATELLITE OBSERVING SYSTEMS.—Of the amounts authorized under paragraph (1), \$63,412,000 for fiscal year 2001, \$66,900,000 for fiscal year 2002, and \$70,579,000 for fiscal year 2003 shall be for Satellite Observing Systems, of
- (A) \$5,500,000 for fiscal year 2001, \$5,803,000 for fiscal year 2002, and \$6,122,000 for fiscal year 2003 shall be for Global Disaster Information Network (GDIN);
- (B) \$4,000,000 for fiscal year 2001, \$4,220,000 for fiscal year 2002, and \$4,452,000 for fiscal year 2003 shall be for Ocean Remote Sensing; and
- (C) \$53,912,000 for fiscal year 2001, \$56,877,000 for fiscal year 2002, and \$60,005,000 for fiscal year 2003 shall be for Environmental Observing Services.
- (3) ENVIRONMENTAL DATA MANAGEMENT SYS-TEMS.—Of the amounts authorized under paragraph (1), \$44,879,000 for fiscal year 2001, \$47,252,000 for fiscal year 2002, and \$49,851,000 for fiscal year 2003 shall be for Environmental Data Management Systems.
- (b) PROCUREMENT, ACQUISITION, AND CON-STRUCTION.—There are authorized to be appropriated to the Secretary to enable the National Oceanic and Atmospheric Administration to carry out the Procurement, Acquisition, and Construction environmental research and development and related activities of the National Environmental Satellite, Data and Information \$445,828,000 for fiscal year 2001. \$515,271,000 for fiscal year 2002, and \$554,945,000 for fiscal year 2003 to remain available until expended of such amounts-

- \$136,965,000 for fiscal year \$136,965,000 for fiscal year 2002, and \$103,010,000 for fiscal year 2003 shall be for the procurement and launch of, and supporting ground systems for, Polar Orbiting Environmental Satellites (POES), K, L, M, N, and N'.
- $(2)\ \$76,654,000\ for\ fiscal\ year\ 2001,\ \$156,731,000$ for fiscal year 2002, and \$236,471,000 for fiscal year 2003 shall be for the procurement and launch of, and supporting ground systems for, the National Polar-Orbiting Operational Environmental Satellite System (NPOESS).
- (3) \$323,209,000 for fiscal year 2001, \$221,575,000 for fiscal year 2002, and \$215,464,000 for fiscal year 2003 shall be for the procurement and launch of, and supporting ground systems for, Geo-stationary Operational Environment NEXT follow-on Satellites (GOES N-Q).

#### SEC. 205. MINORITY SERVING INSTITUTIONS.

There are authorized to be appropriated \$17,000,000 for fiscal year 2001, \$17,935,000 for fiscal year 2002, and \$18,921,000 for fiscal year 2003 for Minority Serving Institutions in the Atandmospheric,Environmental, Oceanic Sciences.

## SEC. 206. INTERNET AVAILABILITY OF INFORMA-

TheAdministrator shall make available through the Internet home page of the National Oceanic and Atmospheric Administration the abstracts relating to all research grants and awards made with funds authorized by this Act. Nothing in this section shall be construed to require or permit the release of any information prohibited by law or regulation from being released to the public.

#### TITLE III—FIRE ADMINISTRATION AUTHORIZATION ACT

#### SEC. 301. AUTHORIZATION OF APPROPRIATIONS.

Section 17(g)(1) of the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2216(g)(1)) is amended-

- (1) by striking "and" at the end of subparaaraph(G):
- (2) by striking the period at the end of subparagraph (H) and inserting a semicolon; and
  - (3) by adding at the end the following:
  - '(I) \$69,753,000 for fiscal year 2001;
- "(I) \$46.096.000 for fiscal year 2002; and
- "(K) \$47,479,000, for fiscal year 2003."

None of the funds authorized for fiscal years 2001 and 2002 may be obligated unless the Administrator has verified to the Committee on Science of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate that the obligation of funds is consistent with the strategic plan transmitted under section 302 of this Act.

#### SEC. 302. STRATEGIC PLAN.

- (a) REQUIREMENT.—Not later than April 30, 2000, the Administrator of the United States Fire Administration shall prepare and transmit to the Committee on Science of the House of Renresentatives and the Committee on Commerce. Science, and Transportation of the Senate a 5year strategic plan of program activities for the United States Fire Administration.
- (b) CONTENTS OF PLAN.—The plan required by subsection (a) shall include-
- (1) a comprehensive mission statement covering the major functions and operations of the United States Fire Administration in the areas of training; research, development, test and evaluation; new technology and non-developmentalitemimplementation;safety; counterterrorism; data collection and analysis; and public education;
- (2) general goals and objectives, including those related to outcomes, for the major functions and operations of the United States Fire Administration;
- (3) a description of how the goals and objectives identified under paragraph (2) are to be

achieved, including operational processes, skills and technology, and the human, capital, information, and other resources required to meet those goals and objectives;

(4) an analysis of the strengths and weaknesses of, opportunities for, and threats to the United States Fire Administration;

(5) an identification of the fire-related activities of the National Institute of Standards and Technology, the Department of Defense, and other Federal agencies, and a discussion of how those activities can be coordinated with and contribute to the achievement of the goals and objectives identified under paragraph (2);

(6) a description of objective, quantifiable performance goals needed to define the level of performance achieved by program activities in training, research, data collection and analysis, and public education, and how these performance goals relate to the general goals and objec-

tives in the strategic plan;

- (7) an identification of key factors external to the United States Fire Administration and beyond its control that could affect significantly the achievement of the general goals and objec-
- (8) a description of program evaluations used in establishing or revising general goals and objectives, with a schedule for future program
- (9) a plan for the timely distribution of information and educational materials to State and local firefighting services, including volunteer, career, and combination services throughout the United States;
- (10) a description of how the strategic plan prepared under this section will be incorporated into the strategic plan and the performance plans and reports of the Federal Emergency Management Agency;
- (11)(A) a description of the current and planned use of the Internet for the delivery of training courses by the National Fire Academy, including a listing of the types of courses and a description of each course's provisions for real time interaction between instructor and students the number of students enrolled and the aeoaraphic distribution of students, for the most recent fiscal year:
- (B) an assessment of the availability and actual use by the National Fire Academy of Federal facilities suitable for distance education applications, including facilities with teleconferencing capabilities; and
- (C) an assessment of the benefits and problems associated with delivery of instructional courses using the Internet, including limitations due to network bandwidth at training sites, the availability of suitable course materials, and the effectiveness of such courses in terms of student performance;
- (12) timeline for implementing the plan; and
- (13) the expected costs for implementing the plan.

#### SEC. 303. RESEARCH AGENDA.

- (a) REQUIREMENT.—Not later than 120 days after the date of the enactment of this Act, the Administrator of the United States Fire Administration, in consultation with the Director of the Federal Emergency Management Agency, the Director of the National Institute of Standards and Technology, representatives of trade, professional, and nonprofit associations, State and local firefighting services, and other appropriate entities, shall prepare and transmit to the Committee on Science of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report describing the United States Fire Administration's research agenda and including a plan for implementing that agenda.
- (b) CONTENTS OF REPORT.—The report required by subsection (a) shall-
- (1) identify research priorities;

- (2) describe how the proposed research agenda will be coordinated and integrated with the programs and capabilities of the National Institute of Standards and Technology, the Department of Defense, and other Federal agencies:
- (3) identify potential roles of academic, trade, professional, and non-profit associations, and other research institutions in achieving the research agenda:
- (4) provide cost estimates, anticipated personnel needs, and a schedule for completing the various elements of the research agenda;
- (5) describe ways to leverage resources through partnerships, cooperative agreements, and other means: and
- (6) discuss how the proposed research agenda will enhance training, improve State and local firefighting services, impact standards and codes, increase firefighter and public safety, and advance firefighting techniques.
- (c) Use in Preparing Strategic Plan.—The research agenda prepared under this section shall be used in the preparation of the strategic plan required by section 302.

#### SEC. 304. SURPLUS AND EXCESS FEDERAL EQUIP-MENT.

The Federal Fire Prevention and Control Act of 1974 is amended by adding at the end the following new section:

#### "SEC. 33. SURPLUS AND EXCESS FEDERAL EQUIP-MENT.

"The Administrator shall make publicly available, including through the Internet, information on procedures for acquiring surplus and excess equipment or property that may be useful to State and local fire, emergency, and hazardous material handling service providers."

#### SEC. 305. COOPERATIVE AGREEMENTS WITH FED-ERAL FACILITIES.

The Federal Fire Prevention and Control Act of 1974, as amended by section 304, is amended by adding at the end the following new section:

#### "SEC. 34. COOPERATIVE AGREEMENTS WITH FED-ERAL FACILITIES.

"The Administrator shall make publicly available, including through the Internet, information on procedures for establishing cooperative agreements between State and local fire and emergency services and Federal facilities in their region relating to the provision of fire and emergency services.".

#### SEC. 306. NEED FOR ADDITIONAL TRAINING IN COUNTERTERRORISM.

- (a) IN GENERAL.—The administrator of the United States Fire Administration shall conduct an assessment of the need for additional capabilities for Federal counterterrorism training of emergency response personnel.
- (b) CONTENTS OF ASSESSMENT.—The assessment conducted under this section shall include-
- (1) a review of the counterterrorism training programs offered by the United States Fire Administration and other Federal agencies;
- (2) an estimate of the number and types of emergency response personnel that have, during the period between January 1, 1994, and October 1, 1999, sought training described in paragraph (1), but have been unable to receive that training as a result of the oversubscription of the training capabilities; and
- (3) a recommendation on the need to provide additional Federal counterterrorism training centers, including-
- (A) an analysis of existing Federal facilities that could be used as counterterrorism training facilities: and
- (B) a cost-benefit analysis of the establishment of such counterterrorism training facilities.
- (c) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Administrator shall prepare and submit to the Congress a report on the results of the assessment conducted under this section.

#### SEC. 307. WORCESTER POLYTECHNIC INSTITUTE FIRE SAFETY RESEARCH PROGRAM.

From the funds authorized to be appropriated by section 301, \$1,000,000 may be expended for the Worcester Polytechnic Institute fire safety research program.

#### AMENDMENT NO. 4323

(Purpose: To authorize appropriations for earthquake reduction activities, and for other purposes)

Mr. SESSIONS. Mr. President. Senator FRIST has an amendment at the desk, and I ask for its consideration.

The PRESIDING OFFICER. clerk will report.

The legislative clerk read as follows:

The Senator from Alabama [Mr. Sessions], for Mr. FRIST, proposes an amendment numbered 4323.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

Mr. SESSIONS. Mr. President, I ask unanimous consent that the amendment be agreed to, the committee amendment, as amended, be agreed to, the bill, as amended, be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4323) was agreed

The committee amendment in the nature of a substitute, as amended, was agreed to.

The bill (S. 1639), as amended, was read the third time and passed.

(The bill will be printed in a future edition of the RECORD.)

#### FIRE ADMINISTRATION AUTHORIZATION ACT OF 2000

Mr. SESSIONS. Mr. President. I ask unanimous consent that the Commerce Committee be discharged from further consideration of H.R. 1550 and the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 1550) to authorize appropriations for the United States Fire Administration for fiscal years 2000 and 2001, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. HOLLINGS. Mr. President, the United States has over 2 million fires annually. Each one can devastate a family or business. I should know. Last year, I lost my home in Charleston, SC to fire. The statistics—approximately 4500 deaths, 30,000 civilian injuries, more than \$8 billion in direct property losses, and more than \$50 billion in costs to taxpayers each year-do not tell the whole story. A fire can take away a lifetime of things that have true value only to the person who has suffered the loss. The tragic thing is that most of these fires are preventable.

HONORING THE MEMBERS OF THE CREW OF THE GUIDED MISSILE DESTROYER U.S.S. "COLE" WHO

H.R. 1550 would authorize appropriations for the United States Fire Administration for fiscal years 2001, 2002, and 2003. The Fire Administration provides invaluable services—such as training, data, arson assistance, and research for better safety equipment and clothing—to the more than 1.2 million paid and volunteer firefighters throughout the Nation.

The administration's FY 2001 budget request for the Fire Administration was \$69 million, \$25 million of which was for grants to local fire departments. S. 1941, the Firefighter Investment and Response Enhancement Act, authorizes \$100 million in FY 2001 and \$300 million in FY 2002 for these grants. That bill was ordered to be reported by Commerce Committee Spetember 20, 2000. Subsequently, the text of S. 1941, as reported, was included in the Department of Defense Authorization Act. Therefore, the substitute amendment to H.R. 1550 now under consideration does not include funding for grants to local fire departments within the Fire Administration's FY 2001 authorization.

The bill also provides additional funding for counterterrorism training, requires the Fire Administration to submit a strategic plan and a plan for research, and makes technical corrections to the Fire Prevention and Control Act of 1974 and the National Fallen Firefighters Foundation Act. I support H.R. 1550 and urge its immediate passage.

#### AMENDMENT NO. 4324

(Purpose: To authorize appropriations for the Fire Administration, and for other purposes)

Mr. SESSIONS. Mr. President, Senator Frist has an amendment at the desk, and I ask for its consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Alabama [Mr. Sessions], for Mr. Frist, proposes an amendment numbered 4324.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

Mr. SESSIONS. Mr. President, I ask unanimous consent that the amendment be agreed to, the bill, as amended, be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 1550), as amended, was read the third time and passed.

HONORING THE MEMBERS OF THE CREW OF THE GUIDED MISSILE DESTROYER U.S.S. "COLE" WHO WERE KILLED OR WOUNDED IN THE TERRORIST BOMBING ATTACK ON THAT VESSEL

Mr. SESSIONS. Mr. President, I ask unanimous consent that the Senate now proceed to the immediate consideration of S. Res. 378, submitted by Senator WARNER for himself and others

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 378) honoring the members of the crew of the guided missile destroyer U.S.S. *Cole* (DDG-67) who were killed or wounded in the terrorist bombing attack on that vessel in Aden, Yemen, on October 12, 2000, expressing the sympathies of the Senate to the families of those crew members, commending the ship's crew for their heroic damage control efforts, and condemning the bombing of that ship.

There being no objection, the Senate proceeded to consider the resolution.

Mr. SESSIONS. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and that any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 378) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 378

Whereas the guided missile destroyer U.S.S. COLE (DDG-67) was severely damaged on October 12, 2000, when a boat bomb exploded alongside that ship while on a refueling stop in Aden, Yemen;

Whereas the explosion resulted in a 40-by-45 foot hole in the port side of the ship at the waterline and left seven of the ship's crew dead, ten who as of October 17, 2000, are missing and presumed dead, and over three dozen wounded;

Whereas the U.S.S. COLE had stopped in Aden for routine refueling while in transit from the Red Sea to the Persian Gulf to conduct forward maritime presence operations in the Persian Gulf region as part of the U.S.S. George Washington battle group;

Whereas the members of the United States Navy killed and wounded in the bombing were performing their duty in furtherance of the national security interests of the United States:

Whereas United States national security interests continue to require the forward deployment of elements of the Armed Forces;

Whereas the members of the Armed Forces are routinely called upon to perform duties that place their lives at risk;

Whereas the crew members of the U.S.S. COLE who lost their lives as a result of the bombing of their ship on October 12, 2000, died in the honorable service to the Nation and exemplified all that is best in the American people; and

Whereas the heroic efforts of the surviving crew members of the U.S.S. Cole after the at-

tack to save their ship and rescue their wounded shipmates are in the highest tradition of the United States Navy: Now, therefore, be it

Resolved, That the Senate, in response to the terrorist bombing attack on the U.S.S. COLE (DDG-67) on October 12, 2000, while on a refueling stop in Aden, Yemen, hereby—

(1) honors the members of the crew of the U.S.S. COLE who died as a result of that attack and sends heartfelt condolences to their families, friends, and loved ones;

(2) honors the members of the crew of the U.S.S. COLE who were wounded in the attack for their service and sacrifice, expresses its hopes for their rapid and complete recovery, and extends its sympathies to their families:

(3) commends the crew of the U.S.S. COLE for their heroic damage control efforts; and

(4) condemns the attack against the U.S.S. COLE as an unprovoked and cowardly act of terrorism.

Mr. SESSIONS. Mr. President, I will just add that I know how deeply Senator Warner feels about this. I am very appreciative that he submitted this resolution. Senator Warner served in both the Marines and the Navy, serving as Secretary of the Navy, and now serves as chairman of the Armed Services Committee. He and a substantial delegation of Senators and Congressmen attended the services today for those sailors we lost on the Cole.

We need to remember the Cole, and we need to remember the hundreds of thousands of service men and women who are serving us around the globe who cannot be fully protected where they are. I think this is an important resolution today. It is appropriate that this Senate pauses to remember them.

MEMORIALIZING THE SAILORS OF THE NAVY LOST IN THE ATTACK ON THE U.S.S. "COLE"

Mr. SESSIONS. Mr. President, I ask unanimous consent that the Senate now proceed to the immediate consideration of S. Res. 379, submitted earlier by Senator SNOWE.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 379) memorializing the sailors of the Navy lost in the attack on the U.S.S. Cole (DDG-67) in the port of Aden, Yemen, on October 12, 2000; extending condolences to their families and other loved ones; extending sympathy to the members of the crew of that vessel who were injured in the attack; and commending the entire crew for its performance and professionalism in saving the U.S.S. Cole.

There being no objection, the Senate proceeded to consider the resolution.

Ms. SNOWE. Mr. President, I rise today to express how deeply saddened and angered I am by the apparent terrorist attack on the U.S.S. *Cole* on October 12th. Earlier today, along with many of my distinguished colleagues, I attended a memorial service in Norfolk, Virginia, the homeport of *Cole*. It

was an emotional event. The nation lost 17 of its sons and daughters in the prime of their lives.

And we ask why? Why did this happen? I am hopeful that the details of the facts of this despicable act will be determined by the vigorous ongoing investigation. But I will tell my colleagues why—it is because we have national interests throughout the world and we have established a world wide military presence to protect these interests. We rely on these courageous young men and women who have volunteered to serve in our military to make the sacrifices necessary to protect these national interests. Mr. President, these young men and women of the U.S.S. Cole who were lost have made the ultimate sacrifice.

As the chair of the Seapower Subcommittee, I submitted a Senate resolution to memorialize those Sailors who were lost and to extend our heartfelt condolences to their families, shipmates, and other loved ones, to express our concern for the Sailors injured in the attack and wish them a speedy and full recovery, and to commend the entire crew for the performance and professionalism in saving their shipmates and their ship. You all remain in our prayers.

With this apparent terrorist attack, once again, we were brutally reminded of the dangers and risks that our young men and women who serve in uniform face each hour of the day as they safeguard our nation's security interests around the world. In difficult times, one's true colors are revealed—and so I applaud the valiant and courageous actions of the entire crew of the U.S.S. *Cole* as they fought to save their shipmates and their ship from this despicable act.

The courageous crew of the Cole embodies the motto of their ship as "Determined Warriors." As we watched those first pictures unfold before our eves I was struck by their professionalism, skill, and pride in fulfilling their duties. In that photo which shows a close up of the gaping hole at the waterline, I notice Sailors working on the deck just above, at once no doubt shocked and saddened by the loss of their shipmates, yet doing their jobs running pumps, securing lines, and carrying out the myriad other duties in this emergency with courage and determination.

Although I will reserve my judgement on the specific cause of this tragedy until the formal investigation has concluded and those responsible have been identified, there should be no mistake: those who want to disrupt peace and deter our nation from our global responsibilities must know that we will leave no stone unturned in our search to determine who is culpable. They must and will be held accountable. And I feel strongly that the US should keep all options open in determining the ap-

propriate actions for holding those responsible accountable for this cowardly action.

The courage and resoluteness in the face of adversity shown by the gallant crew of the U.S.S. *Cole* is a national characteristic of Americans and when we are attacked under such circumstances, we all become "determined warriors."

The men and women of our armed forces are today's patriots who remain ever vigilant against those who seek to undermine peace and stability in the uncertain world in which we live. I have said before and I continue to believe that one of the United States' greatest blessings is that so many of her young men and women elect to stand vigil knowing full well the sacrifices they may be called upon to make. Certainly, America is stronger for their sacrifice and remains forever indebted

Mr. President, again it is with the deepest sorrow that I rise today to mourn the loss of our brave Sailors—my heart goes out to their families as well as those who have suffered injuries and their loved ones. May God grant them comfort and solace in the days ahead. It is my hope that, with this enrolled resolution, they will know that the entire nation grieves with them.

Mr. SESSIONS. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and that any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 379) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. Res. 379

Whereas the Arleigh Burke class destroyer U.S.S. Cole (DDG-67) was attacked in the port of Aden, Yemen, on October 12, 2000, apparently by terrorists who, by insidious ruse, drew along side the vessel in a small boat containing powerful explosives that detonated next to the hull of the vessel;

Whereas the horrific explosion in that attack resulted in the loss of 17 sailors and injury to another 39 sailors, all of them being members of the Navy serving in the crew of the U.S.S. Cole;

Whereas those sailors who lost their lives made the ultimate sacrifice in the service of the United States and the Navy:

Whereas all of the remaining members of the crew of the U.S.S. Cole responded valiantly and courageously to save their ship from sinking from the explosion and, in so doing, proved themselves to be "Determined Warriors", the motto of their ship; and

Whereas the men and women of the crew of the U.S.S. Cole, like all of the men and women of the Armed Forces, are the current patriots who stand ever vigilant against the attacks of those who seek to undermine peace and stability in an uncertain world: Now, therefore, be it

Resolved, That (a) the Senate memorializes those sailors of the Navy who were lost in

the despicable attack on the U.S.S. Cole (DDG-67) on October 12, 2000, in the port of Aden, Yemen, as follows:

- (1) Richard Costelow, Electronics Technician First Class, of Morrisville, Pennsylvania.
- (2) Cherone Louis Gunn, Signalman Seaman Recruit, of Rex, Georgia.(3) James Rodrick McDaniels, Seaman, of
- Norfolk, Virginia.

  (4) Craig Bryan Wibberley, Seaman Ap-
- prentice, of Williamsport, Maryland.

  (5) Timothy Lamont Saunders Operation
- (5) Timothy Lamont Saunders, Operations Specialist Second Class, of Ringold, Virginia. (6) Lakiba Nicole Palmer, Seaman Recruit,
- of San Diego, California. (7) Andrew Triplett, Ensign, of Macon, Mis-
- (2) Labring Manisus Eponeis, Mass Mars
- (8) Lakeina Monique Francis, Mess Management Specialist, of Woodleaf, North Carolina.
- (9) Timothy Lee Gauna, Information Systems Technician Seaman, of Rice, Texas.
- (10) Ronald Scott Owens, Electronics Warfare Technician Third Class, of Vero Beach, Florida.
- (11) Patrick Howard Roy, Fireman Apprentice, of Cornwall on the Hudson, New York.
- (12) Kevin Shawn Rux, Electronics Warfare Technician Second Class, of Portland, North Dakota.
- (13) Ronchester Manangan Santiago, Mess Management Specialist Third Class, of Kingsville, Texas.
- (14) Gary Graham Swenchonis, Jr., Fireman, of Rockport, Texas.
- (15) Kenneth Eugene Clodfelter, Hull Maintenance Technician Third Class, of Mechanicsville, Virginia.
- (16) Mark Ian Neito, Engineman Second Class, of Fond du Lac, Wisconsin.
- (17) Joshua Langdon Parlett, Engineman Fireman, of Churchville, Maryland.
- (b) The Senate extends condolences to the members of the families, other loved ones, and shipmates of those devoted sailors who made the ultimate sacrifice in the service of the United States.
- (c) It is the sense of the Senate that all of the people of the United States join the Chief of Naval Operations and the other members of the Navy in mourning the grievous loss of life among the members of the crew of the U.S.S. Cole resulting from the attack on that vessel.
- SEC. 2. The Senate—
- (1) recognizes the loss, sacrifice, valor, and determination of the surviving members of the crew of the U.S.S. Cole;
- (2) extends sympathy to the 39 sailors of that crew who were injured in the attack on their vessel; and
- (3) commends the members of the crew for their remarkable performance, professionalism, skill, and success in fulfilling their duties to support and save the U.S.S. Cole following the attack.
- SEC. 3. The Secretary of the Senate shall transmit an enrolled copy of this resolution to the Chief of Naval Operations, the commanding officer of the U.S.S. Cole, and the family of each member of the United States Navy who was lost in the attack on the U.S.S. Cole (DDG-67) in the port of Aden, Yemen, on October 12, 2000.
- Mr. SESSIONS. Mr. President, the Senator from Maine, Ms. SNOWE, chairs the Seapower Subcommittee in the Armed Services Committee, of which I am honored to be a member. I likewise appreciate very much her interest in expressing our sympathy to the families of those sailors who were lost.

ORDERS FOR THURSDAY, OCTOBER 19, 2000

Mr. SESSIONS. Mr. President, I ask unanimous consent that when the Senate completes its business today, it recess until the hour of 10:30 a.m. on Thursday, October 19. I further ask consent that on Thursday, immediately following the prayer, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate then proceed to a period of morning business until 12:30, with the time equally divided between the two leaders or their designees, with Senators speaking for up to 5 minutes, with the following exceptions: Senator ASHCROFT for the first 15 minutes; Senator DURBIN or his designee, 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. Mr. President, I further ask unanimous consent that the Senate recess from 12:30 until 2:15 to accommodate a party caucus.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PROGRAM

Mr. SESSIONS. For the information of all Senators, I say on behalf of the majority leader, following the recess on Thursday, the Senate may consider the VA-HUD appropriations conference report, if available; a continuing resolution, if received from the House; or a procedural vote with respect to the bankruptcy reform issue. Therefore, rollcall votes will occur during Thursday's session of the Senate.

## RECESS UNTIL 10:30 A.M. TOMORROW

Mr. SESSIONS. Mr. President, if there is no further business to come before the Senate, I now ask unanimous consent that the Senate stand in recess under the previous order.

There being no objection, the Senate, at 7:29 p.m., recessed until Thursday, October 19, 2000, at 10:30 a.m.

#### CONFIRMATION

Executive nomination confirmed by the Senate October 18, 2000:

CENTRAL INTELLIGENCE

JOHN E. MCLAUGHLIN, OF PENNSYLVANIA, TO BE DEP-UTY DIRECTOR OF CENTRAL INTELLIGENCE.

### HOUSE OF REPRESENTATIVES—Wednesday, October 18, 2000

The House met at 4 p.m.

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord, sometimes we are bewildered by what occurs around us. Forgive us, if we think our difficulties are so extraordinary. The fear of pain reveals us as human. We are vulnerable when anticipating troublesome times.

If we are to suffer, Lord, let it not be for our misdeeds, mistaken judgments or because we have infringed on the rights of others. If any one of us is suffering, let there be no disgrace.

You reveal Yourself as the God of compassion, You are close to all who suffer. Be their strength that in Your name, they may persevere in seeking justice and doing what is right.

Even the weakest among us, by being faithful, can give You glory now and forever. Amen.

#### THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from New York (Mr. GILMAN) come forward and lead the House in the Pledge of Allegiance.

Mr. GILMAN led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate has passed bills of the following titles in which the concurrence of the House is requested:

- S. 1066. An act to amend the National Agricultural Research, Extension and Teaching Policy Act of 1977 to encourage the use of and research into agricultural best practices to improve the environment, and for other purposes.
- S. 1109. An act to conserve global bear populations by prohibiting the importation, exportation, and interstate trade of bear viscera and items, products, or substances containing, or labeled or advertised as containing, bear viscera, and for other purposes.
- S. 1482. An act to amend the National Marine Sanctuaries Act, and for other purposes.

The message also announced that pursuant to Public Law 106-65, the Chair, on behalf of the Majority Leader, and in consultation with the Chairman of the Senate Committee on Armed Services, announces the appointment of the following individuals to serve as members of the Commission on the National Military Museum:

John G. Campbell, of Virginia. Henriette V. Warfield, of Virginia.

## COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER laid before the House the following communication from the Clerk of the House of Representatives:

HOUSE OF REPRESENTATIVES, Washington, DC, October 18, 2000. Hon. J. DENNIS HASTERT,

The Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted to Clause 2(h) of Rule II of the Rules of the House of Representatives, the Clerk received the following message from the Secretary of the Senate on October 18, 2000, at 9:27 a.m.

That the Senate passed without amendment H.R. 2296.

That the Senate passed without amendment H.R. 5212.

That the Senate passed without amendment H. Con. Res. 428.

With best wishes, I am

Sincerely.

JEFF TRANDAHL, Clerk of the House.

UNITED NATIONS CONSIDERING RESOLUTION CONDEMNING ISRAEL REGARDING ONGOING VIOLENCE IN MIDDLE EAST

(Mr. GILMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GILMAN. Mr. Speaker, most of our colleagues are fully aware that Israel is being treated abysmally at the hands of the United Nations, principally in the General Assembly. Regrettably, the Palestinians have promoted and have adopted anti-Israel and anti-peace process resolutions.

Today, unfortunately, is no different. Despite UN Secretary General Kofi Annan's recent statement that, "words can inflame or soothe, and everyone needs a restoration of calm and quiet so as to create the best possible atmosphere for resumption of peace talks," the UN General Assembly is presently in an emergency session in which they will be considering, despite U.S. opposition, a resolution condemning Israel

The message also announced that regarding the ongoing violence in the ursuant, to Public Law 106-65, the Middle East.

As our U.S. Ambassador to the UN, Richard Holbrooke, stated, "the General Assembly wants to beat up on Israel" once again. It sounds to me that it is similar to the UN's "Zionism is Racism" resolutions of old. Accordingly, I urge our colleagues to join in condemning this latest act of incitement at the UN.

## CHINA BOLDLY TRYING TO PICK OUR PRESIDENT

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFÍCANT. Mr. Speaker, news reports say a Chinese spokesman said, "America is our enemy, and we must prepare to fight them." Now, if that is not enough to infuriate Ronald Reagan, the spokesman further stated, "China does not want to see George Bush get elected." He said, "Bush will support and bolster Taiwan, and Bush will, in fact, build a missile shield around America, weakening China." I say that is a compliment to George Bush

Because think about it, last election, China got away with funneling cash illegally to the Democratic National Committee. No investigation. This time they are boldly trying to pick our President. Beam me up, Congress. It is time to mandate an independent investigation into this Chinese business.

Mr. Speaker, I yield back the lessons we should have learned at Pearl Harbor

## NATIONAL SECURITY THREATENED BY A LETTER

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, here we go again. The Clinton-Gore administration is illegally threatening vital national security interests of the American public.

This time the illegality involved a letter written by Russian Prime Minister Viktor Chernomyrdin to Vice President GORE about a secret, illegal nuclear arms deal with an unidentified terrorist nation "that was not to be conveyed to third parties, including the United States Congress."

Yes, sadly, Vice President Gore kept his promise to the Russian Prime Minister instead of his promise to the American public. He did not tell Congress about the letter or about Moscow's continued sale of nuclear equipment to Iran, a blatant violation of the Nuclear Non-proliferation Act.

Instead of being open and honest with Congress about this high level national security threat, GORE simply filed the letter away and kept silent.

Mr. Speaker, America deserves an administration that will work with Congress to protect the national security interest of our Nation.

Mr. Speaker, I yield back Mr. Gore's flagrant disregard for our Constitution, our security, and our country.

## COSPONSOR H. RES. 635, EXECUTIVE STEEL DEFENSE RESOLUTION

(Mr. VISCLOSKY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VISCLOSKY. Mr. Speaker, I ask all of my colleagues to consider cosponsoring House Resolution 635, the Executive Steel Defense Resolution. We currently have 205 cosponsors calling upon the President of the United States to initiate a section 201 trade case to bring to an end illegally traded steel in the U.S. domestic market.

Despite investing \$35 billion to modernize, despite the loss of 240,000 jobs, despite cutting back capacity by 20 percent, despite doubling productivity since 1983 because of collusion overseas, because of illegal dumping from countries overseas, particularly during the intervening time from 1998 until now, we have seen six bankruptcies of steel companies. We have seen an additional 6,000 steelworkers lose their jobs. We have seen capacity utilization decline from 90 percent to 75 percent.

We cannot afford to wait till the next Congress. We cannot afford to wait for the next administration. I call upon President Clinton to immediately file a section 201.

## REMEMBERING COURAGEOUS SAILORS ABOARD U.S.S. "COLE"

(Mrs. FOWLER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. FOWLER. Mr. Speaker, today we remember those courageous sailors aboard the U.S.S. *Cole* whose dedication and conviction to freedom and democracy cost them their lives. We honor the sacrifice of those who were killed and pray for the speedy recovery of those who were injured and for the families of all those brave Americans.

To EMC Fred Stozier of Jacksonville, my thoughts are with him and his family as he recovers from his injuries.

We can never be completely immune from the darker forces of terrorism that lurk in every corner of the world. We must counter these threats with a complete commitment to preparedness and strength. Our adversaries must know we will not shy away from our responsibility to preserve our national security and the precious ideals of democracy. The sacrifice of these Americans on the altar of freedom will never be forgotten. May God bless their souls and may God bless America.

## UNITED STATES IN THIRD YEAR OF IMPORT STEEL CRISIS

(Mr. MOLLOHAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MOLLOHAN. Mr. Speaker, what happens when a crisis is not resolved, a crisis that is allowed to grow, both in scope and intensity? In time, that crisis will become a disaster. Such a time is near at hand for our domestic steel industry.

We are in the third year of an import steel crisis. Our steel companies and workers are buckling under the weight of unprecedented, record-breaking foreign imports, much of it illegal. Thousands of our workers have been laid off. Six of our steel companies in the last 2 years have gone bankrupt. With this year's imports running higher than ever, the continued existence of a viable steel industry in this country is at risk.

The only way to avert such a disaster is to cut imports, to reverse the trend which is threatening an industry that is vital to our economy and our national defense.

That is why I join the gentleman from New York (Mr. QUINN) in introducing the bipartisan Executive Steel Defense Resolution. That is why I have joined the gentleman from Indiana (Mr. VISCLOSKY); the gentleman from Ohio (Mr. REGULA); the gentleman from Ohio (Mr. NEY); the gentleman from West Virginia (Mr. WISE), from my home State; the gentleman from Pennsylvania (Mr. KLINK); the gentleman from Pennsylvania (Mr. MASCARA); and the gentleman from Pennsylvania (Mr. DOYLE) in the bipartisan effort to achieve relief against disastrous steel import levels.

We call on the President to initiate a 201 proceeding, Mr. Speaker.

# EFFORTS TO REDUCE PUBLIC DEBT AND PROTECT SOCIAL SECURITY AND MEDICARE HELD HOSTAGE BY ADMINISTRATION

(Mr. HERGER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HERGER. Mr. Speaker, our efforts to reduce public debt and protect the Social Security and Medicare Trust Funds are being held hostage by the Clinton-Gore administration.

It has been 36 days since Congress proposed locking away Social Security and Medicare surpluses and dedicating 90 percent of the total surplus to paying off the public debt; and still no response from President Clinton and Vice President AL GORE.

There is a good reason they have not responded. They want to overspend.

President Clinton has threatened to veto seven appropriations bills because he claims they do not spend enough. Vice President GORE's budget proposal spends the entire surplus and raids the Social Security Trust Fund.

The President and Vice President should put debt reduction and protection of Social Security and Medicare ahead of spending and support the 90–10 debt reduction plan proposed by the Republican Congress.

#### REMEMBERING CHERONE LOUIS GUNN, KILLED ON U.S.S. "COLE"

(Mr. COLLINS asked and was given permission to address the House for 1 minute.)

Mr. COLLINS. Mr. Speaker, on October 12, a terrorist bomb left, not only a hole in the side of the U.S.S. *Cole*, but a hole in the lives of families and friends of the 17 sailors killed by the blast. This is especially true of friends and family of 23-year-old Signalman Seaman Recruit Cherone Louis Gunn.

Seaman Gunn's life was marked by service to family, friends, community and Nation. His neighbors in Rex, Georgia remember him for always being available to help the local youth.

His passion to serve his community fueled his ambition to serve in law enforcement.

His desire to serve his Nation was expressed by his decision to follow his father's footsteps and join the Navy, where he would gain valuable experience which would help him enter law enforcement upon the end of his tour of duty.

#### □ 1615

Mr. Speaker, Cheron Louis Gunn always sought to serve his country, knowing the risk inherent in the military and in law enforcement. Yet he did not shrink from making his commitment.

I wish to offer my condolences to the Gunn family. It may be inadequate consolation, but it is important to remember that Seaman Gunn serves as a bright example of the qualities of honor and self-sacrifice which inspire the men and women of our Armed Forces.

CORRECTING ENROLLMENT H.R. 2348, AUTHORIZING BUREAU OF RECLAMATION TO PROVIDE SHARING FOR ENDAN-GERED FISH RECOVERY IMPLE-MENTATION PROGRAMS FOR UPPER COLORADO

Mr. WALDEN of Oregon. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate concurrent resolution (S. Con. Res. 151) to make a correction in the enrollment of the bill, H.R. 2348, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate concurrent resolution.

The SPEAKER pro tempore (Mr. BLI-LEY). Is there objection to the request of the gentleman from Oregon?

There was no objection.

The Clerk read the Senate concurrent resolution, as follows:

#### S. CON. RES. 151

Resolved by the Senate (the House of Representatives concurring), That in the enrollment of the bill (H.R. 2348) entitled "An Act to authorize the Bureau of Reclamation to provide cost sharing for the endangered fish recovery implementation programs for the Upper Colorado and San Juan River Basins.", the Clerk of the House of Representatives shall make the following correction:

Strike section 4 and insert:

#### "SEC. 4. EFFECT ON RECLAMATION LAW.

"Specifically with regard to the acreage limitation provisions of Federal reclamation law, any action taken pursuant to or in furtherance of this title will not-

"(1) be considered in determining whether a district as defined in section 202(2) of the Reclamation Reform Act of 1982 (43 U.S.C. 390bb) has discharged its obligation to repay the construction cost of project facilities used to make irrigation water available for delivery to land in the district:

"(2) serve as the basis for reinstating acreage limitation provisions in a district that has completed payment of its construction obligations: or

"(3) serve as the basis for increasing the construction repayment obligation of the district and thereby extending the period during which the acreage limitation provisions will apply."

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

TO AUTHORIZING THE CLERK CORRECTIONS EN-MAKE IN GROSSMENT OF H.R. 5308, FIVE NATIONS CITIZENS LAND RE-FORM ACT OF 2000

Mr. WALDEN of Oregon, Mr. Speaker, I ask unanimous consent that in the engrossment of the bill (H.R. 5308) to amend laws relating to the lands of the citizens of the Muscogee (Creek), Seminole, Cherokee, Chickasaw and Choctaw Nations, historically referred to as the Five Civilized Tribes, and for other purposes, the Clerk be authorized to make the following correction that I have placed at the desk.

The Clerk read the title of the bill.

Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. Walden of Oregon:

At the end of section 403, add the following new paragraph:

"(2) OTHER CONSTRUCTION NOT VALID.— Nothing in this subsection is intended to or shall be construed to create, affect, or imply the existence or nonexistence of authority of any federally recognized Indian tribe over-

"(A) any other federally recognized Indian tribe:

"(B) the members of any other federally recognized Indian tribe; or

"(C) any land in which any other federally recognized Indian tribe or any member of any other federally recognized Indian tribe has or is determined by the Secretary or a court of competent jurisdiction to have any interest.".

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

There was no objection.

#### CHEYENNE RIVER SIOUX TRIBE EQUITABLE COMPENSATION ACT

Mr. WALDEN of Oregon. Mr. Speaker. I ask unanimous consent that when proceedings resume on the unfinished business of the motion to suspend the rules and pass the Senate bill (S. 964) to provide for equitable compensation for the Cheyenne River Sioux Tribe, and for other purposes, as amended, that the amendment be deemed to include the corrections that I have placed at the desk.

The Clerk read the title of the Senate

The SPEAKER pro tempore. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. WALDEN of Oregon:

Strike Title IV of the bill and insert instead-

"TITLE IV—CONVEYANCE OF KINIKLIK VILLAGE

#### "SEC. 401. CONVEYANCE OF KINIKLIK VILLAGE.

"(a) That portion of the property identified in United States Survey Number 628, Tract A. containing 0.34 acres and Tract B containing 0.63 acres located in Section 26, Township 9 North, Range 10 East, Seward Meridian, containing 0.97 acres, more or less, and further described as Tracts A and B Russian Creek Church Mission Reserve according to U.S. Survey 628 shall be offered for a period of one year for sale by quitclaim deed from the United States by and through the Forest Service to Chugach Alaska Corporation under the following terms:

"(1) Chugach Alaska Corporation shall pay consideration in the amount of \$9,000.00;

"(2) In order to protect the historic values for which the Forest Service acquired the land, Chugach Alaska Corporation shall agree to and the conveyance shall contain the same reservations required by 43 CFR §§ 2653.5(a) and 2653.11(b) for protection of historic and cemetery sites conveyed to a Regional Corporation pursuant to section 14(h)(1) of the Alaska Native Claims Settlement Act.

"(b) Notwithstanding any other provision of law, the Forest Service shall deposit the

The SPEAKER pro tempore. The proceeds from the sale to the Natural Resource Damage Assessment and Restoration Fund established by Public Law 102-154 and may be expended without further appropriation in accordance with Public Law 102-229."

> Mr. WALDEN of Oregon (during the reading). Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

> The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

There was no objection.

The SPEAKER pro tempore. Is there objection to the original request of the gentleman from Oregon?

There was no objection.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess until 5 p.m.

Accordingly (at 4 o'clock and 18 minutes p.m.), the House stood in recess until 5 p.m.

#### □ 1700

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. BLILEY) at 5 p.m.

HONORING MEMBERS OFTHE CREW OF THE GUIDED MISSILE DESTROYER U.S.S. "COLE"

Mr. SPENCE. Mr. Speaker, I ask unanimous consent that the Committee on Armed Services be discharged from further consideration of the resolution (H. Res. 631) honoring the members of the crew of the guided missile destroyer U.S.S. Cole (DDG-67) who were killed or wounded in the terrorist bombing attack on that vessel in Aden, Yemen, on October 12, 2000, expressing the sympathies of the House of Representatives to the families of those crew members, commending the ship's crew for their heroic damage control efforts, and condemning the bombing of that ship, and ask for its immediate consideration in the House.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

The Clerk read the resolution, as fol-

#### H. Res. 631

Whereas the guided missile destroyer U.S.S. COLE (DDG-67) was severely damaged on October 12, 2000, when a boat bomb exploded alongside that ship while on a refueling stop in Aden, Yemen;

Whereas the explosion resulted in a 40-by-45 foot hole in the port side of the ship at the waterline and left seven of the ship's crew dead, ten of who as of October 17, 2000, are missing and presumed dead, and over three dozen wounded:

Whereas the U.S.S. COLE had stopped in Aden for routine refueling while in transit from the Red Sea to the Persian Gulf to conduct forward maritime presence operations in the Persian Gulf region as part of the U.S.S. George Washington battle group;

Whereas the members of the United States Navy killed and wounded in the bombing were performing their duty in furtherance of the national security interests of the United States:

Whereas United States national security interests continue to require the forward deployment of elements of the Armed Forces;

Whereas the members of the Armed Forces are routinely called upon to perform duties that place their lives at risk;

Whereas the crew members of the U.S.S. COLE who lost their lives as a result of the bombing of their ship on October 12, 2000, died in the honorable service to the Nation and exemplified all that is best in the American people; and

Whereas the heroic efforts of the surviving crew members of the U.S.S. COLE after the attack to save their ship and rescue their wounded shipmates are in the highest tradition of the United States Navy: Now, therefore, be it

Resolved, That the House of Representatives, in response to the terrorist bombing attack on the U.S.S. COLE (DDG-67) on October 12, 2000, while on a refueling stop in Aden, Yemen, hereby-

- (1) honors the members of the crew of the U.S.S. COLE who died as a result of that attack and sends heartfelt condolences to their families, friends, and loved ones.
- (2) honors the members of the crew of the U.S.S. COLE who were wounded in the attack for their service and sacrifice, expresses its hopes for their rapid and complete recovery, and extends its sympathies to their fam-
- (3) commends the crew of the U.S.S. COLE for their heroic damage control efforts; and
- (4) condemns the attack against the U.S.S. COLE as an unprovoked and cowardly act of terrorism

The SPEAKER pro tempore. The gentleman from South Carolina (Mr. SPENCE) is recognized for 1 hour.

#### GENERAL LEAVE

Mr. SPENCE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Res. 631.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

Mr. SPENCE. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Missouri (Mr. SKELTON), pending which I yield myself such time as I may consume.

Mr. Speaker, it is with a profound sense of sadness that I join my colleague, the gentleman from Missouri (Mr. Skelton), in offering this resolution for consideration by the House.

Last Thursday, October 12, 2000, a small boat exploded alongside the U.S.S. Cole during a brief refueling stop in the port of Aden in Yemen. The blast ripped a 40 by 45 foot hole in her side, killing 17 sailors and wounding some three dozen more.

terrorism was perpetrated against an American warship while en route to the Persian Gulf to conduct maritime operations in the legitimate pursuit of our national security interests abroad.

The resolution before the House condemns this senseless act of violence against our military forces and expresses the sympathies of the House of Representatives to the families of those crew members who were killed or wounded in the attack.

What can you say? What can you do? How can you really express to the families of these young men and women our profound sympathies and appreciation for their commitment?

Mr. Speaker, as we meet today, hundreds of thousands of young Americans from all corners of our great Nation are serving in the military, overseas and here at home. They go about their daily duty quietly and without fanfare. Yet, until something like this happens, we, as a Nation, tend to forget what they do every single day of the year to uphold our values, to protect our freedom and deter those who seek to do us harm.

Mr. Speaker, we forget; freedom is not free.

The resolution before us today appropriately, I think, recognizes and honors the price of freedom paid by the members of the crew of the U.S.S. Cole.

We are free and secure as a Nation today because of all the men and women of our military who fought to gain our freedom and independence, in the very first instance during the Revolutionary War, and have gone all over this world in war and peace since that time defending that freedom, every day. People who are no longer with us, they have done it.

Mr. Speaker, I do not know. I think as we honor these today, who have paid the price for freedom, and their families too, I think of all the others who have gone before too, who have paid the price, with their lives, their limbs, their health, many were prisoners of war, many are still missing in action, we should remember every single day we live that the price of freedom has been paid by other people, so that we can be free today.

Mr. Speaker, I urge my colleagues to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. SKELTON. Mr. Speaker, I yield myself such 3 minutes.

Mr. Speaker, Members speak on this floor for many reasons. We debate, we advocate, we commemorate, we cele-

Today, though, I rise to give honor to a crew of brave Americans, the crew of the U.S.S. Cole, and to give warning.

I want to honor those who gave their lives or were wounded while serving their country in a distant port, far away from home and in the cause of

This unprovoked and cowardly act of furthering the national security interests of our country. I also want to honor the surviving crew members, who stayed with the crippled ship and worked valiantly to recover their wounded or missing shipmates and to repair the damage to their ship.

And while I say I speak to give them honor, truly it is they who honor us. They and the millions of others who wear our country's uniform, who honor America by their gift of service and dedication.

I also want to extend my deepest sympathies to the families and to the friends of those who perished in this tragedy. Although I know they are saddened by their loss, they should take comfort in that their loved ones died pursuing the most noble of callings, serving in the Armed Forces of the United States. They should know that we in Congress, and indeed the people of this great Nation, are grateful for their extraordinary service and sacrifice.

Finally, Mr. Speaker, I rise today to give warning. Those who committed this barbarous act are already being judged beyond our capacity to review. But to those whose dark and craven hearts conceived it, hear this: While you may walk free today in a sunshine you have denied so many others, so many families, so many communities, know simply and surely that you will be held accountable.

Our memory is long, our reach is no less so. This outrage cost lives, Mr. Speaker, and it left others in peril. We hear that this many men were hurt, or that many women were hurt. No, Mr. Speaker. They are all American sailors, one and all, and an injury to anyone is an insult to America.

I do not doubt that such insult was the goal of the perpetrators. But they should understand that they will pay a price for this heinous act. Justice and the memory of those whose lives have been lost demand no less.

Mr. SPENCE. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana (Mr. Buyer).

Mr. BUYER. Mr. Speaker, I rise in support of this resolution. My heartfelt condolences go out to the families of the men and women who were killed or wounded in this cowardly act, an act that was despicable and premeditated.

This tragedy is a distressing reminder though of how dangerous the world has become since the end of the Cold War. As the unprovoked attack on the U.S.S. Cole demonstrates, the men and women of the Armed Services are exposed daily to very real threats of death, violence and destruction. For these reasons, our men and women in uniform, indeed, all Americans, must remain vigilant in the defense of freedom and our interests. Equally important, we must do everything we can to provide for our military personnel the resources necessary to protect them as

they defend our interests around the world and that of our allies.

While these brave defenders of freedom will greatly be missed, their spirit and legacy lives on. It is their values and their beliefs of duty, honor, courage and commitment to God, country, family and our fellow men and women that serve as an example for all of us to live and aspire.

I urge the President to take appropriate action against the perpetrators once the investigation is concluded and to take appropriate measured response.

Mr. Speaker, I rise in strong support of this resolution, and my heart goes out to the deceased sailors of the U.S.S. *Cole*.

Mr. SKELTON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Virginia (Mr. SISISKY).

Mr. SISISKY. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, you have just heard it again. We said it last Thursday on this floor; the world is still a very dangerous place.

Many members of the Virginia delegation last Saturday met with the families of the wounded and the deceased in Norfolk, and many of us in this body just returned from Norfolk where we attended services honoring those who gave their lives on the U.S.S. *Cole*.

First, our condolences and prayers go out to the sailors who were hurt or killed and their families. We will continue to provide them with the best care and assistance that we possibly can.

For all of us from Hampton Roads, the fact that the U.S.S. *Cole*'s home port is Norfolk, and I use the present tense, because that ship is coming home, the fact that U.S.S. *Cole* is a Norfolk ship brought this terrible tragedy a little closer to home.

It reminds us how much these young men and women in uniform really mean to us. They are our sons and our daughters, husbands and wives, fathers and mothers, neighbors and friends.

Knowing what happened makes us feel immeasurable pride in their lives, inconsolable grief for their deaths, and gratitude for the homecoming of their shipmates. Their ship made a sacrifice for which we feel an unbearable sense of loss.

In the Bible, when his friends died in battle, King David said: "They were beloved and pleasant in life, and in death they were together; they were swifter than eagles, they were strong as lions."

That is exactly what we say.

And now it is our responsibility to love and support their families, protect and defend their country, and honor their memory forever.

But those who survive may face the toughest challenge, and I want them to know that all Americans are deeply grateful for their service to our country.

Indeed, this world is still a very dangerous place.

Mr. SKELTON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Texas (Mr. ORTIZ), a member of the Committee on Armed Services.

Mr. ORTIZ. Mr. Speaker, I rise today with a heavy heart in support of House Resolution 631, to honor the men and women of the U.S.S. *Cole*.

#### $\Box$ 1715

Mr. Speaker, I thank the gentleman from South Carolina (Chairman SPENCE) and the gentleman from Missouri (Mr. Skelton), the ranking member, as well as the leadership, for moving rapidly and allowing the House of Representatives to speak to this important national moment.

I represent Navy country in south Texas, so we have a special perspective of their service and a loss in a hostile action. Two of the soldiers who lost their lives in the insidious act of terror were south Texas' Specialist Third Class Ronchester Mananga Santiago of Kingsville and Fireman Gary Graham Swenchonis, Jr. of Rockport, Texas.

Texas also lost Information Systems Technician Seaman Timothy Lee Gauna of Rice.

Two women from south Texas were also on the ship, Elizabeth Sanchez LaFountaine of Brownsville, who sustained a broken leg, and Esther Arriaga Hood of Corpus Christi, who is still aboard the *Cole*.

Texans are proud that our sons and daughters seek to serve a larger purpose by volunteering to serve in the United States military service. It is, Mr. Speaker, a noble undertaking, but it often means that those sons and daughters pay a heavy price to serve and protect the United States' interests

Our hearts wrench at the thought of our neighbors answering the door to see the drawn faces of naval officers there to deliver the most devastating news a parent can ever hear.

This should bring home the reality of all others that service in our military today is a highly dangerous prospect for our soldiers and sailors.

Just because we are not at war does not guarantee a level of safety for those who serve in our military. This tragic incident has brought together the ship's crew in a way no other experiences could, the way only sailors have seen and been in battle together can understand.

These young people have learned to depend upon each other in the aftermath of this cowardly act. They worked tirelessly to save the U.S.S. *Cole* after the explosion.

Mr. Speaker, we mourn the young people who perished. We will hold up those who were injured, and we will continue to pray for the safety of men and women in uniform around the world. We offer our condolences to the families.

Mr. SKELTON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Hawaii (Mr. ABERCROMBIE), a member of the committee.

Mr. ABERCROMBIE. Mr. Speaker, it is with deep admiration that I rise to express gratitude and respect for the sacrifices given of the men and women serving on board the U.S.S. *Cole*.

Speaking as the senior Democrat on the Subcommittee on Military Personnel of the Committee on Armed Services, I want to indicate that these men and women, like thousands of other Americans across the world, volunteered each and every day to defend and protect this Nation. Sadly, on October 12, several sailors of the U.S.S. Cole paid the ultimate sacrifice in defense of our country while carrying out their duties.

My heart and prayers are with these sailors' friends, families and loved ones.

Despite the explosion that ripped through the U.S.S. *Cole* and wounded many members of the crew, these dedicated sailors continue to defend their ship and rescue other wounded shipmates. Their actions exemplify the perseverance of Americans and the finest tradition of our Armed Services.

I want to commend and pay tribute to these selfless Americans for their service and dedication and wish them a speedy recovery.

Mr. Speaker, terrible events such as these put a face to patriotism. They remind us that those in uniform around the world are young men and women from our towns and cities who volunteer in service to their country. Last year, they graduated from high school down the street; perhaps they worked at the corner store. Today they unflinchingly stare danger in the face with selfless dedication.

This tragedy reminds us of the human element of our armed forces and highlights the importance of maintaining a focus on those policies that best serve these young patriots, our military personnel, and enhance the quality of their lives.

Finally, this tragedy offers a window into the composition of today's military. I want to quote, Mr. Speaker, in conclusion, a piece from yesterday's Boston Globe: "The faces of the 17 sailors who were killed aboard the U.S.S. Cole by a terrorist bomb attack last week are a portrait of today's America, a mosaic of colors of which the U.S. military is justly proud. To call out their given names is to sing a contemporary chorus of 'This Land is Your Land.' Two of the casualties even represent a grim kind of civil rights milestone: They are the first women killed in naval action."

Mr. Speaker, the crew of the U.S.S. *Cole* embodies what is great in America—our people and their courage, dedication, commitment, and sacrifice. To the crew of the U.S.S. *Cole*, their families, friends and loved ones,

thank you for your service to a most grateful

Mr. SPENCE, Mr. Speaker, I vield 21/2 minutes to the gentleman from California (Mr. BILBRAY).

Mr. BILBRAY. Mr. Speaker, our hearts go out and our prayers go out to the families of the 17 men and women who were lost in this tragic incident in the Red Sea. Coming from a naval family myself, born on a Navy base and raised with a father who went off to sea months at a time, I understand the challenges that not only the active duty personnel go through but also the trials and tribulations of those who are left behind, the families, the loved ones.

This is a great Nation that demands great sacrifices to maintain its greatness, and I think we underestimate the price of our greatness so often. This last week, we were able to see exactly what kind of price Americans have to pay for our greatness. San Diego has some of the largest military installations in the world, Mr. Speaker. In fact, it is the largest naval facility on the West Coast.

San Diego is especially proud of our military tradition; but this week, we are grieving for the loss of our native daughter, Lakiba Nicole Palmer. Ms. Palmer was only 22 years old and a seaman recruit fresh out of boot camp. She was looking forward to a bright new future and a challenging new career.

Along with another woman, Seaman Palmer sadly are the first women killed in a hostile action against an American combat ship.

Mr. Speaker, what is particularly tragic for this family and to our community is that she was looking so much towards her service as an American sailor. She was an athlete at San Diego High School in my district, Mr. Speaker, and she was a member of the all-academic team on the track in 1995. It was known that she was a fierce competitor who always tried harder than anyone else.

Mr. Speaker, our hearts go out to the family of this young lady and our sympathies to the family. And I just ask every one of us to remember when we vote here in the House at what price the freedom of representative government comes to and what a great responsibility we have, not just to our colleagues and our citizens, but also to our men and women who stand in harm's way every day and every night.

Mr. SKELTON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Texas (Mr. REYES), a member of the Committee on Armed Services.

Mr. REYES. Mr. Speaker, I thank the gentleman for yielding me the time and thank him for his leadership, as well as the gentleman from South Carolina (Chairman SPENCE), at this terrible tragic time for our country.

of H. Res. 631, honoring the crew of the U.S.S. Cole and extending our sympathy to their families and their loved ones. My wife, Carolina, and I attended the memorial service held this morning for the brave sailors who have lost their lives in this tragic and despicable act of terrorism.

All of our thoughts and our prayers are with them and their family members as they persevere under these very difficult times. My thoughts this morning, on a gray and somewhat drizzly midmorning ceremony, were that we simply do not do enough for our men and women in uniform and for their families.

It is truly unfortunate that it takes the loss of fine American men and women like these sailors to remind us again of the dangers and sacrifices that the men and women of our armed forces face each and every day. However, at the memorial service this morning, it was also reminded that we sometimes forget the everyday sacrifices that the families and the loved ones of our service members make each and every time their husbands, wives. sons, and daughters deploy.

We simply do not do enough for our men and women in uniform and their families. I am moved by their strength under these difficult circumstances and a difficult time and their commitment to the importance of their loved ones' mission and service to their country.

In return for that strength, we can only offer them our prayers and our guarantees that our country will not stop until we find the individuals responsible for this horrific act of senseless violence and bring them to justice.

Mr. Speaker, in closing, I fervently believe we do not do enough for our men and women in uniform and for their families.

Mr. SKELTON. Mr. Speaker I yield 2 minutes to the gentleman from the Norfolk, Virginia, area (Mr. Scott).

Mr. SCOTT. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I join my colleagues in paying homage to the brave young crew members of the U.S.S. Cole who made the ultimate sacrifice for their country, as well as those who are still missing and others who were injured and, of course, the families of all of these fine sailors.

Mr. Speaker, this is a particular tragedy for Virginia, because the U.S.S. Cole is home-based to the Norfolk Naval Base in Virginia. We were honored to have the President of the United States, the Secretary of Defense, the Secretary of the Navy, the Chairman of the Joint Chiefs of Staffs, both of our United States Senators, as well as all of the local congressmen in Norfolk today for the memorial serv-

Mr. Speaker, while it is imperative that we take swift action to bring

Mr. Speaker, I rise in strong support those responsible to justice, we must not jump to hasty conclusions. We should remember that after the Oklahoma bombing, an innocent man was arrested for that heinous act, simply because of his ethnicity.

When we determine who is responsible for this attack, we will remember President Clinton's frequent admonition that America takes care of its own. When we determine who is responsible, our response will make those who did it sorry they did it, and we will cause others who might be thinking of doing the same to change their minds.

Mr. Speaker, all of the crew members of the U.S.S. Cole are to be saluted for their bravery and dedication to duties. These casualties remind us that freedom is not free. Their service to our Nation will long be remembered.

Mr. SPENCE. Mr. Speaker, I yield 5 minutes to the gentleman from California (Mr. ROHRABACHER).

Mr. ROHRABACHER. Mr. Speaker, I gladly join my fellow colleagues in supporting this commemoration and this resolution.

I grew up in a military family. I remember when I was a young boy, I was 10 years old, my father was stationed in Japan. We lived in a small enclave of military families. All the kids' fathers were pilots, and one day the news came that the Chinese had shot down one of our friend's father's plane, and I still remember the heartache and the crying and the tears just as a little boy.

I remember seeing that and wondering what it was all about. But this family would no longer have a father, a wife would no longer have a husband, and there would be a vacant place around the Thanksgiving table and the Christmas tree. These sacrifices that our military people make, I do not think anybody knows the name of that gentleman and many gentlemen like him, men and women who have given their lives during the Cold War and since in order to protect our country.

They are truly heroes; and wherever they go, whatever job there is in the military, they know they are taking the chance, the chance of giving their lives and leaving their own loved ones alone in order to protect all of us and our loved ones. And how much greater tribute and how much greater sacrifice and how much greater service can there be than that?

#### □ 1730

So this resolution and the sacrifice of the American sailors who perished and suffered injuries on the U.S.S. Cole is something that we have to commemorate. This represents the voice of Congress, this resolution, in expressing our condolences to the families of those heroes who made the ultimate sacrifice for their country.

Unfortunately, the official radio of the United States government, the Voice of America, has been prevented by our State Department, this administration, from doing the same thing that we are now doing in this resolution.

On October 16, the State Department, in an official message to the Voice of America, denied approval of the Voice of America editorial that would have been broadcast worldwide expressing the sorrow of the American people over the loss of our sailors, the damage done to the U.S.S. *Cole* and the loss of life of our brave defenders.

I am submitting for the RECORD a copy of this disgraceful State Department message to Voice of America saying that they cannot commemorate, cannot broadcast, this opinion about our brave men and the sacrifice they made. I will read that, for those who are listening and are reading the Congressional Record.

Mr. Speaker, this is from the State Department to a request from the Voice of America to have an editorial memorializing these brave Americans who gave their lives for us.

It said: "This editorial will reach an audience that is caught up in violence in Israel and the Occupied Territories. The 17 or so dead sailors," that is American dead sailors, "does not compare to the 100+ Palestinians who have died in recent weeks where we have remained silent."

I would suggest it is the job of this administration and of the State Department to care more about our American military personnel who give their lives than it is to care about things, tragic events that are going on overseas. If our military people give their lives for their country, they should expect that we will memorialize them in a fitting way, and that this administration and that the State Department will not get in the way because of some far-flung event in another part of the world.

This is an insult. This is an insult to those brave people who gave their lives. As we remember them today, let us pass this resolution. Let us say our prayers for those families, and let us be very sincere in this effort. I am sorry that I had to read this State Department position here today, but I think it is important for the American people to know just what the attitude of this administration is toward our people who are defending this country and give their lives for us.

Mr. SKELTON. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. Murtha), a distinguished member of the Committee on Appropriations.

Mr. MURTHA. Mr. Speaker, I have a young sailor, a bosun's mate, Richard Ying, that was hurt severely aboard the U.S.S. Cole. My staff has talked to him several times. I tried to call and he was in rehabilitation. He is back home, and they expect him to be back in Windber, Pennsylvania, by Friday.

The gentleman from Florida (Mr. Young) and I had anticipated trying to go to visit the U.S.S. *Cole* over the weekend just to see how it was going. All of us sympathize with the families who lost loved ones, and all of us feel badly about the ones that were wounded.

But there is something else here that shows how good our troops are operating. It was marvelous. I went aboard the U.S.S. Roberts when it hit a mine. It had a hole about the size of a bus in the side. This hole was even bigger, 40 feet. People do not realize how close it came to sinking. We are talking about a ship that was in the harbor in water that was calm, and it almost sank. If it had not been for the heroic effort of this crew, actually using buckets to bail out the water, we would have probably lost that ship.

So I want to commend the men and women that served on the *Cole* for the phenomenal job they did in saving this ship. All of us hate to see our men and women in harm's way. We have responsibilities and we cannot withdraw from those responsibilities. But one thing for sure, that ship was saved by the dedication of the men and women who served aboard the *Cole*.

I add my commiseration and sympathy to the families, but I want to commend the captain and the shipmates aboard the U.S.S. *Cole* for the phenomenal job they did in saving that magnificent vessel.

Mr. SKELTON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Texas (Mr. Frost).

Mr. FROST. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, as we all know by now, 17 sailors were either killed or are missing from the attack on the U.S.S. *Cole*. Information Systems Technician Seaman Timothy Gauna, a constituent of mine from Rice, Texas, is among the missing. Like all the sailors aboard the U.S.S. *Cole*, he was serving his country bravely and honorably when this vicious attack took place.

I join the Gauna family, and all the families of the missing sailors, in hoping that they will soon be accounted for.

Immediately after the attack, Mr. Speaker, I had the chance to visit personally with seaman Gauna's family. I spoke with a mother who is proud of her son's courage and patriotism. I talked to various family members who admire Tim's dedication to America.

I do not know all the sailors on the U.S.S. *Cole*, Mr. Speaker, but I know the family of Seaman Gauna. They, like all of the U.S.S. *Cole*'s sailors and their families, have America's gratitude and our prayers.

I was moved by the memorial service today in Norfolk that a number of us attended. There the entire Nation joined injured sailors, some fresh from the hospital, their IVs still attached to

their arms, in paying tribute to their fallen and missing comrades.

But our obligation to these brave men and women is greater than that, Mr. Speaker. We must continue to be vigilant in the face of threats from terrorists around the world. We must find the criminals responsible for this cowardly act, and they must be brought to justice. Make no mistake, Mr. Speaker, these terrorists will soon learn that America responds quickly and forcefully whenever we are attacked.

The FBI has now more than 60 agents in place investigating this attack, and the Navy has assigned six U.S. warships to Aden harbor to assist the U.S.S. *Cole* and its exhausted crew.

Mr. Speaker, every time anyone in uniform gets into a ship, a plane, or a tank, they risk their lives in defense of America. For that, we owe these great men and women of the United States Armed Forces our most profound gratitude. They have it, Mr. Speaker, as well as the solemn promise that America stands with them always and everywhere.

Mr. SKELTON. Mr. Speaker, I yield 2 minutes to the distinguished gentlewoman from Texas (Ms. Jackson-Lee).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the distinguished ranking member and the chairman of the committee for this resolution.

Mr. Speaker, this morning I joined my colleagues to memorialize our fallen and missing sailors of the U.S.S. *Cole*. What I am most reminded of, as I saw the humanity and love and respect permeating and moving throughout that huge and enormously sad audience, was the greatness of America.

The Chaplain who offered the invocation reminded us that freedom is not free. This morning was a moment personally of profound grief, for my State of Texas suffered great losses. But the country suffered a loss, because these were bright and young and energetic and aspiring young people, none over the age of 26.

So I join in the support of this resolution, and I join this Nation in expressing sadness, loss, and resolve. I celebrate the lives of these young people, some found, some still missing.

It is impossible to capture the pain of the family members, mothers and fathers, grandmothers and grandfathers, aunts, uncles, cousins, sisters and brothers who bear this great loss. But I do believe we can speak today for this Nation that gathers around and embraces each other in time of trouble.

We must salute the Navy, along with the entire military. These young sailors who dedicated their lives to the Navy, and like gladiators of old, took pride in their service to country, and wore their patriotism as a shield so the world could sleep under a blanket of freedom.

Mr. Speaker, I think it is important to say to those who have done this dastardly act that we have no fear, and that those who would do this evil act, that we will find them and they will pay the appropriate price. We must be safe, but the only way that we are safe is with these strong men and women who have offered themselves to protect our freedom.

There is a poem, Mr. Speaker, that I would like to offer, "Genuine Grace in Command":

"Define me a legend,

A soldier of infinite truth:

Define for me a soldier of valor, successful or obtuse,

Enlighten me of nobility,

A birthright of kings and queens.

Fill all the pages of history books with stories forever sung.

I swear I can hear them saying: It is simple, the reason we fight: Freedom, liberty, integrity,

These were given as our birthright."

As I close, Mr. Speaker, in my salute to these fallen and missing heroes and to their families, let me simply repeat Psalm 23.4:

"Even as I go through the valley of the shadow of death, I will fear no evil, for Thou art with me."

We in this Nation, we as a Congress, we as family members, we fear no evil, for Thou art with us.

Mr. Speaker, this morning I traveled to Norfolk, Virginia where I took part in a memorial service with President Clinton, Defense Secretary Cohen, Attorney General Reno, Secretary Danzi, Members of Congress from both the House and the Senate, members from all the military branches, the sailors and family from the U.S.S. Cole, the Norfolk Naval community, to honor our fallen sailors who dedicate their lives to ensuring our freedom here in the United States.

This morning was a moment of profound grief for me as I joined the country in expressing sadness, loss and resolve; and the celebration of the lives of our fallen sons and daughters through love and prayers. It is impossible for me to describe the pain that the family members and the country bears over this great loss. But I can speak of the love that this Nation has for those who dedicated their lives to the Navy, and like the gladiators of old, took pride in their service to country, and wore their patriotism as a shield so the world could sleep under a blanket of freedom.

As I think of our brave fallen soldiers, I am reminded of a poem entitled Genuine Grace in Command:

Define for me a legend, a soldier of infinite truth, define for me a soldier of valor, successful or obtuse? Enlighten me of nobility, a birthright of kings and queens? Fill all the pages of history books, with stories forever sung!

But while you regale nameless faces of glory, times over and over again! I beg you remember the individuals, who's honors I now proudly present!

I speak here of soldiers with humility, yet clearly a leaders. Quietly commanding, entirely through their presence within.

Their desires were not for greatness, simply the survival of team! Their goal not for fame or fortune, but to share their gift till the end!

Many times we are left with a memory, which overshadows us all! Many times we are left and dishearten, wondering why we fought for the cause?

And yet here were soldiers who never questioned, the mission life had set them on! Perhaps the greatest gift they gave us was the understanding of truth!

I swear I can hear them saying, it's simple the reason we fight. Freedom, liberty, integrity, these were given as our birthright.

We must fight to preserve what was given us, even fight unmercifully to the end!

We shall provide their tomorrow even their better life! Let it not dishearten you, the lack which they seem to know. There will come a day when we are remembered for what we had to show!

To the sailors of the U.S.S. *Cole* who sacrificed their lives for us, you will be remembered for the sacrifice you showed the world. I pay tribute to our missing and lost U.S. Sailors:

Electronics Technician Chief Petty Officer Richard Costelow, of Morrisville, Pennsylvania. Hull Maintenance Technician Third Class Kenneth Clodfelter, of Mechanicsville, Virginia. Mess Management Specialist Seaman

Lakeina Francis, of Woodleaf, North Carolina. Information Systems Technician Seaman Timothy Gauna, from Rice, Texas.

Signalman Seaman Apprentice Cherone Gunn, of Rex, Georgia.

Seaman James McDaniels, of Norfolk, Virginia.

Engineman Second Class Mac Nieto, of Fond Du Lac, Wisconsin.

Electronics Warfare Technician Third Class Ronald Owens of Vero Beach Florida.

Engineman Fireman Joshua Parlett, of Churchville, Maryland.

Seaman Apprentice Lakiba Nicole Palmer of San Diego, California.

Fireman Apprentice Patrick Roy of Cornwall on Hudson, New York.

Electronics Warfare Technician Second Class Kevin Rux, of Portland, North Dakota. Mess Management Specialist Third Class

Ronchester Santiago, of Kingsville, Texas.

Saunders, of Ringold, Virginia.

Fireman Gary Swenchonis, Jr., of Rockport,

Texas.
Ensign Andrew Triplett, of Mason, Mis-

sissippi.
Seaman Apprentice Craig Wibberley, of Wil-

Seaman Apprentice Craig Wibberley, of Williamsport, Maryland.

They were the best America had to offer, for they took upon themselves an oath taken by men and women from the beginning of time, and that is the oath of service to country.

For those of you who have caused this misery, I assure you, this country will not rest until you are found and brought to justice. The United States will not shy away from its commitment for ensuring peace, freedom and stability in the Middle East and around the world.

Mr. SPENCE. Mr. Speaker, I am pleased to yield 4 minutes to the gentleman from New York (Mr. GILMAN), the chairman of the Committee on International Relations.

Mr. GILMAN. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I want to commend the gentleman from South Carolina (Chairman SPENCE) and the ranking member,

the gentleman from Missouri (Mr. SKELTON), for introducing this important resolution at this time.

I am pleased to join in supporting this timely bipartisan resolution condemning the terrorist attack on the U.S.S. *Cole* and honoring its courageous crew and those who lost their lives or were injured, and recognizing the heroic efforts that were made to save this ship despite massive damage to its hull.

The terrorist attack on the U.S.S. *Cole*, which was docked in Yemen for refueling, reminds us all that despite our best efforts, it is not always possible to harden every U.S. target abroad.

It also highlights the need for increased intelligence capacity in these dangerous parts of the world.

Our U.S. embassy in Yemen is a highly secure facility with substantial set backs, making it hard to hit with terrorist bombs. The search for softer targets is how the determined new terrorists now operate as we harden more and more traditional U.S. diplomatic targets abroad.

Greater intelligence efforts are essential as these ruthless terrorists search for our soft underbelly. In this day of local criminal elements supporting terrorist networks through collaboration in the drug trade, and in supplying stolen vehicles, explosives, and safe houses, we often overlook one key source of better intelligence on terrorists; that is, the police in the tough regions such as the Middle East.

We need better and closer cooperation on the police front, both in fighting the crime and terrorism from abroad targeting our Nation, and we need their help.

Under Director Louis Freeh, the FBI has been trying to help some moderate and friendly Arab nations get an international law enforcement style type regional police training at the police academy, the ILEA, off the ground in the Middle East. These police schools help create the vital cop-to-cop relations and links on the ground that result in greater crime-fighting information and information-sharing with our U.S. law enforcement entities, and especially among the various regional police agencies.

Washington bureaucratic inertia stalled these FBI efforts in the Middle East until our House Committee on International Relations recently urged action on that initiative. Movement is now underway for a Middle East regional police training school, costing the taxpayer no monies to satisfy State Department bureaucratic concerns.

Another lesson from the U.S.S. *Cole* attack is the need for prompt and aggressive law enforcement response to preserve evidence, to interview witnesses, to pursue leads before the terrorists and their followers flee to safe

havens. We must make certain that those responsible are brought to justice

I am proud that our committee played a key role in giving the FBI new commercial leasing authority for transport planes for a quick response to these kinds of attacks.

#### $\Box 1745$

I commend our FBI, our diplomatic security and other agencies for their quick action to help secure facilities in Aden and the efforts to apprehend those responsible for this heinous crime.

I want to again commend the authors of this resolution in bringing this issue to the floor today as our Nation honors the crew of the U.S.S. *Cole.* With all of us working together, I am certain we can bring those responsible to justice for this attack and work to ensure that we minimize the likelihood of any other similar attack in the future.

Mr. SKELTON. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from North Dakota (Mr. Pomprov)

Mr. POMEROY. Mr. Speaker, I thank the gentleman for yielding me this time.

I think that, in this hour, it perhaps does us good to put aside for a minute the geopolitical discussions advanced by the gentleman from New York (Chairman GILMAN), my friend speaking before me, and concentrate instead on the loss that we have suffered, memorialize and honor the service of the men and women of the U.S.S. Cole, and grieve with them the loss of their classmates.

When the terrible news about this terrorist attack flashed across the television sets of this country, we had a sick feeling across the entire country about this senseless loss of life in a pathetic, cowardly terrorist act.

This feeling of sadness became much deeper when we learned that one of the dead was one of our own. Kevin Shawn Rux from Portland, North Dakota. Kevin was 30 years old. He was an electronic warfare technician, second class. He was the son of a Navy man, the nephew of another Navy man, and he was in his 11th year of service to our country in the United States Navy.

Earlier, in the week, Kevin had called his wife Olivia in Norfolk, Virginia to extend his love on their 10th anniversary. He was halfway across the world, serving his country. On his anniversary, perhaps his last visit with Olivia, he extended his love in this fashion.

We cannot really fully appreciate, until a tragedy drives us to really think about it, the measure of commitment and sacrifice that the men and women in our military make. I mean they are some of our finest. They are in really up-close personal ways some of our very finest.

Some of those who went to high school with Mr. Rux were quoted as

saying, "He was a friendly, good student, wrestler, not a trouble maker, had his head screwed on straight." His former wrestling coach was quoted as saying, "Kevin was a tough little cookie. He was all business. He was consistent. He was always there. He knew his role."

Well, those observations of a high school wrestling coach were very true of his service to our country in the Navy as well. He had his head screwed on straight. He was always there. He was a tough little cookie.

What a tragedy for his wife and his family. What a tragedy for us in North Dakota. What a tragedy for our country to have lost sailors the caliber of Mr. Rux.

So I ask that we in this time think and pray for the departed and their families. They have served their country very well.

Mr. SPENCE. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. GREENWOOD).

Mr. GREENWOOD. Mr. Speaker, I thank the chairman for yielding me this time.

Mr. Speaker, today I rise to both celebrate and mourn the loss of life of those who carried our freedom and beliefs across the seas aboard the U.S.S. *Cole*.

One of the 17 who died was 35-yearold Richard Costelow who grew up in my county of Bucks County, Pennsylvania. Richard attended Morrisville High School, and he graduated in 1983. As one of his teachers remembered him, Richard "gave 100 percent every day. That kind of kid doesn't come along too often."

Richard joined the Navy in 1988 and worked his way up to the ranks to electronic technician, first class. As the President mentioned at this morning's memorial service, he spent 5 years in the White House Communications Office and received the prestigious National Defense Service Medal.

My heart goes out to the Costelow family, his wife Sharla, and their three boys as well as to his parents and extended family.

Today we mourn this tragic loss, but we will never forget those who served to protect the ideals we as a Nation hold dear.

Mr. Speaker, it is particularly grotesque that these young men and women killed and injured in this event were in service of the greatest beacon of freedom ever in the history of the world, and that so often those who commit these acts of terrorism are individuals who themselves are victimized by brutal leaders who, while keeping their boot on the faces of the people of their countries, use the United States as a scapegoat for the frustration and the agony that their own people feel.

Someday we will conquer this ignorance, and someday all of the peoples

of the world will be free. Until that day comes, we will rely on the Richard Costelows of the world to protect us from those who live in ignorance.

Mr. SKELTON. Mr. Speaker, I yield 2 minutes to the distinguished gentlewoman from California (Ms. SANCHEZ).

Ms. SANCHEZ. Mr. Speaker, I thank the gentleman from Missouri (Mr. SKELTON), the ranking member of the House Committee on Armed Services for yielding me this time.

Mr. Speaker, I rise in support of House Resolution 631 in honor of the crew members killed and wounded on the U.S.S. Cole.

As a member of the House Committee on Armed Services, I am continually impressed by the dedication to duty of those serving in the armed services. These young men and women volunteer. They volunteer, and they put their lives on the line to defend the freedoms that many of us take for granted.

Last week, this Nation was reminded of their sacrifice. Seventeen people died, and 39 were injured serving aboard the U.S.S. *Cole* when a cowardly act of terrorism changed their lives forever and the lives of their families.

This incident opens up old wounds such as the 1983 bombing of the Marine barracks in Lebanon that killed 241 and the 1996 bombing of the Khobar Towers that killed 19.

Our Nation is blessed with many virtues. Unfortunately, these incidents affirm that none are as precious as the men and women who risk their lives in the service of this country.

It has been said "For those who manned the battle line the bugle whispers low, and freedom has a taste and price the protected never know."

Our hearts go out to the families of the brave men and women we honor today. They are now part of the soul of our great Nation.

Mr. SPENCE. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan (Mr. SMITH).

Mr. SMITH of Michigan. Mr. Speaker, well, again, thanks to the gentleman from South Carolina (Mr. SPENCE) and the gentleman from Missouri (Mr. SKELTON), ranking member.

Seventeen young crew members in the U.S. Navy were serving their country. In an instant, their lives were taken as a result of this terrorist attack on the U.S.S. *Cole*. Of those killed, most were young. Most came from our typical American hometown. They all left families and friends to mourn them. My thoughts and prayers go out to those families and friends. We, as a country, grieve with them.

I feel, I think, some of this grief as I remember that day in 1957 when we received word that my brother's plane had gone down, and he was killed. The family is never quite the same.

A senseless tragedy like this attack on the U.S.S. *Cole*, I think, allows us to reflect on all those military service members and their families who sacrifice so much while serving this great country.

Our brave men and women in all the branches of the armed services stand ready to defend America, not only within our borders, but throughout unpredictable international waters and lands.

Let us continually stand behind them and support them and humbly recognize their sacrifices. I think too often we take their services for granted. We would not be enjoying the freedoms we have now without the sacrifices of so many during our great country's history.

I hope we will often remember how important America's military is to ensure the freedoms and liberties we have in this country.

Again, my very sincere condolences go out to the family and the loved ones of those service men and women who had their life taken. May God help them through this difficult time.

Mr. SKELTON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Connecticut (Mr. Gejdenson).

Mr. GEJDENSON. Mr. Speaker, we all send our deep-felt thoughts to the families of those who are lost and injured. Any of us who have military facilities in our districts know that the daily sacrifice that the men and women in uniform give to this Nation is something that keeps us free and frankly keeps the world free. Without American service personnel, this world would not be a world filled with burgeoning democracies.

But for those families whose tragic loss by these cowardly terrorists, every Member in this Chamber, everyone in the administration will take every effort to make sure that they are caught and punished.

America is the leading force in the world for freedom, and often we are the leading target of the mad men of this world. They will not succeed. We will join together with other freedom-loving Nations, and we will end terrorism. We will win this fight, and we will do this united with many of our friends across the globe.

All of my constituents and all my colleagues again send our prayers to the families and our gratitude to all the men and women in uniform.

The SPEAKER pro tempore (Mr. BLI-LEY). The Chair announces that the gentleman from South Carolina (Mr. SPENCE) has 7½ minutes remaining. The gentleman from Missouri (Mr. SKELTON) has 3 minutes remaining.

The gentleman from South Carolina (Mr. Spence) has the right to close.

Mr. SPENCE. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from Pennsylvania (Mr. WELDON), chairman of the Subcommittee on Military Research and

Development of our Committee on colleagues that I am concerned. We Armed Services. cannot cut our Navy back from 585 to

Mr. WELDON of Pennsylvania. Mr. Speaker, I thank the distinguished chairman for yielding me time. I thank both the gentleman from South Carolina (Mr. Spence) and the gentleman from Missouri (Mr. Skelton), our distinguished ranking member, for this particular legislation.

I rise with a deep sense of sorrow shared by all of our colleagues on both sides of the aisle in remembering those brave Americans who paid the ultimate price for the freedom and democracy that we enjoy.

It is appropriate, Mr. Speaker, that, during this time of reflection on the lives of these individuals, these young sons and daughters and mothers and fathers, these young relatives of so many families in America that have been taken away from us, that we reflect on the value of our military and the role they perform every day of the year.

Mr. Speaker, we lost 17 brave Americans. We lost dads who left kids. We lost daughters who left behind moms and dads. We lost people who were involved in their community and charity events and church organizations. We lost future leaders of America. Perhaps even among them was a Member of Congress. I heard the President say today that one of the individuals actually had worked at the White House, helping with the computer system.

These were not just sailors. These were individuals who were destined to become a part of the American fabric, who were going to eventually assume their leadership role in both the military and also in civilian life. Tragically, they were cut down.

#### □ 1800

I would ask our colleagues to remember the individuals that are being honored here tonight and the entire crew of the ship, and that we think about the implications of having a Navy where one-third of our ships are right now deployed, and over one-half of those ships underway steaming across the seas to distant lands to protect America. We have military personnel in dozens of cities and countries around the world today performing important functions of keeping peace, allowing us to have that forward presence and making sure that the world is stable.

Sometimes I think we take that for granted as a nation, and it takes this kind of incident to remind us that these are human beings; that we have the responsibility to give them the proper benefits, the responsibility to give them the proper equipment, and the proper training.

I agree with what the President has been saying and what Governor Bush has been saying and Vice President Gore. We do have the best military in the world, and it is the best-trained military in the world. But I can tell my colleagues that I am concerned. We cannot cut our Navy back from 585 to 317 and keep the level of deployments up. We cannot continue to have 35 deployments in 9 years all over the world and not expect additional pressures like what we have seen.

Mr. Speaker, there needs to be a full investigation of this incident, and there needs to be a full accounting for those who perpetrated the act and the reasons why this act occurred.

But today we remember those brave souls, those brave heroes, and I join with my colleagues in extending our warmest and deepest sympathy to the families and loved ones of these brave sailors. I ask all of us in America to reflect on the importance of our military and make a renewed commitment in honor of those brave 17 Americans and the entire crew of the Cole that we will continue to provide the full support of all Americans in providing the funding for an adequate military, for the proper quality of life, for proper health care, and for all those other commitments that America needs to make to its uniformed personnel.

Mr. SKELTON. Mr. Speaker, I yield 1 minute to the gentleman from Guam (Mr. UNDERWOOD).

Mr. UNDERWOOD. Mr. Speaker, I thank the ranking member for yielding me this time, and I rise in strong support for this resolution introduced by the chairman of the House Committee on Armed Services and the ranking member.

At a tragic time like this, it is important to remember that freedom is not defended by ships or airplanes or tanks, freedom is defended by people; people from all walks of life and people from all around the country; people who are capable of doing individual things and making their contribution to the Nation. These sailors who were victims of a very cruel and vicious act are amongst freedom's best, are amongst America's best.

Terrorist acts are supposed to inspire terror. I think that this resolution, I think the comments of many of the Members today, I think the sentiments of the American public, I think the moving memorial service earlier today indicates that America is anything but terrorized by this act. Instead, we are galvanized to do the best that we can by our men and women in uniform, to continue the policy of trying to extend freedom around the world and to protect it wherever it is threatened.

So today at this time I think we want to extend our deepest and sincerest condolences to the families and again to pay tribute to these fine young Americans.

Mr. SKELTON. Mr. Speaker, I yield  $1\frac{1}{2}$  minutes to the distinguished gentleman from Virginia (Mr. PICKETT), a member of the Committee on Armed Services.

Mr. PICKETT. Mr. Speaker, I thank the gentleman for yielding me this time.

Today, in Norfolk, Virginia, we were touched as a Navy family, community, and Nation as we mourned the brave American sailors who paid the ultimate sacrifice on board the U.S.S. Cole in the name of liberty and freedom. These men and women, our fathers and sons, brothers and sisters, mothers and daughters, were violently attacked as they stood watch for their country. Instantly, the promise and hope of 17 voices were forever quieted by an act of hate. Even now, the captain, officers, and crew of the U.S.S. Cole are working around the clock to save their ship. Let there be no mistake, the United States condemns those responsible for these acts and will relentlessly pursue the attackers until their identity is known and justice is served.

Sometimes, Mr. Speaker, in times of peace and prosperity, which we largely enjoy today, it is easy to forget the perils our men and women in uniform face each day. Our sailors, soldiers, airmen, and Marines put their lives on the line not just when they are deployed in harm's way in the world's volatile areas like those aboard the Cole, but also each day as they train to get ready for such missions. These brave Americans heard the call of duty to serve their country, and like all men and women in the service, the U.S.S. Cole answered that call to travel to faroff lands to keep the peace and carry American ideals to places where they are so desperately needed. Their bravery is exemplary of the American spirit and one reason the United States serves as a beacon of hope and freedom to others around the world.

To these servicemen and women courageously serving their country, we say thank you. We will find these attackers and they will be brought to justice.

Mr. SKELTON. Mr. Speaker, I yield 30 seconds to the gentleman from Indiana (Mr. ROEMER), who is a member of the Permanent Select Committee on Intelligence.

Mr. ROEMER. Mr. Speaker, I thank my good friend on the Committee on Armed Services for yielding me this time.

I know my entire State and my district back home in Indiana send their thoughts and prayers not only to the 17 families but all our families that are present overseas today and tomorrow doing the great job they do to protect this great Nation.

As a member of the Permanent Select Committee on Intelligence, a few days ago I received a briefing out at Langley, and I know that the intelligence community is working tirelessly, day in and day out, to follow every lead to gather all the evidence and the facts so that we can find out who did this and make sure when we find out that there is swift justice. We

will find the culprits and the cowards that inflicted this on our people, and justice hopefully will be done soon.

Our prayers go to our service personnel and to our intelligence and military community to help us address this very serious situation.

The SPEAKER pro tempore (Mr. Pease). The time of the gentleman from Missouri (Mr. Skelton) has expired. The gentleman from South Carolina (Mr. Spence) has  $4\frac{1}{2}$  minutes remaining.

Mr. SPENCE. Mr. Speaker, I yield 1 minute to the gentleman from Missouri (Mr. SKELTON).

Mr. SKELTON. Mr. Speaker, I yield 30 seconds of that time to the gentleman from New Jersey (Mr. ANDREWS), a member of our committee.

Mr. ANDREWS. Mr. Speaker, I thank the gentleman for yielding me this time, and let me extend my profound and personal sense of grief and appreciation to the families of those brave Americans who served on the *Cole*.

Let me say this. I know these words will be of little comfort to those who have suffered such a great loss, but to those who question the character of the young people in America today, I would say that we have a resounding answer. We had young people who were willing to enlist voluntarily in the service of their country and give their lives. They have done so with great honor. We are very proud of them, and their families should know they have given their lives nobly and will not be forgotten.

Mr. SKELTON. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, it was the Roman orator Cicero who once said that gratitude is the greatest of all virtues. This morning in a ceremony next to the U.S.S. Eisenhower at Norfolk, Virginia, commemorating the lives of those 17 sailors, feelings came to each of us; feelings of sympathy for the families of those injured and those deceased, admiration for the sailors who carried on and saved their ship and did so well by doing their duty, and anger, anger at those who perpetrated this deed. And vet that anger will fade into determination to cause America to seek justice.

I will repeat the words of Admiral Robert Natter, as he spoke during the ceremony: "All Americans should remember. Remember the *Cole*."

Mr. SPENCE. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, we are gathered here on this very solemn occasion to honor these people who have paid the price for our freedom. How can we honor them? What can we say? What can we do?

I think one thing we can do as a Nation is to assure those families of these young men and women, and the ones who were injured and all the other members of our armed forces today

who are paying the price every day in all kinds of ways all over this world. The price for what? Freedom.

We have heard many of us use the word freedom many times today. And some might wonder, what does that have to do with it? That is what it is all about. These young men and women not only today but in the past who served our country have not only given us our freedom but defended it every day all over this world at great sacrifice. Why is that freedom so important? Without it, where would we be?

Some wonder about some of us who are so strong for national defense, that is why. Freedom is so important. Without freedom, we would not have the environment necessary to consider all the other problems we have in this country to deal with. First, we must have our freedom. In a free society we can then go about dealing with the rest of our problems. But I never, never, never get away from the fact that we, every day, take for granted what other people before us over the years have done in giving us and defending our freedom for us today who have not paid that price.

As I said earlier, I think every day we should honor people, not just one day every so often when these kinds of things happen. We should every day pay honor to those who have given us our very freedom.

Mr. GEPHARDT. Mr. Speaker, events are sometimes so horrible that words alone do not fully describe the pain and sorrow that is in all of our hearts. The tragedy aboard the U.S.S. *Cole* was just such an event. This act of cowardice and malice against 17 Americans who were simply doing their duty is beyond all reason.

These brave soldiers died in the line of duty, and the resolution before us honors those who so valiantly gave their lives in the service of their country.

It is a simple gesture, but it is so necessary. Our fallen sailors are the true heroes of our society.

They worked day after day and week after week to protect our nation from harm. They spent their time promoting peace in the world. They were symbols of American values—democracy, diversity, human tolerance and understanding, opportunity and freedom.

Today, America is stronger because of your brave service overseas—and the world is a better place because of your sacrifice.

We say as a country that we will not let heinous acts of terrorism deter us from our mission of peace in the Middle East and around the world. We will not rest until the people responsible for this crime are brought to justice. And we will not shrink from our duties in the world—we will continue to maintain our presence and promote freedom, democracy, and better relations among all people.

I want to extend my deepest sympathies to the victims' families. Our thoughts and prayers are with you. You, too, have made the ultimate sacrifice, and we as a country are forever in your debt. Our hearts and gratitude also go out to the injured and their families who have also suffered from this attack.

I salute the brave souls who fought to reclaim their ship—to save their vessel under the most difficult, wrenching circumstances. They are a tribute to our armed forces and they embody the best values in our society.

Finally, I want to say, humbly, that America will never forget our fallen heros. We will always honor the sacrifice you have made so that others might live in peace.

Mr. WATTS of Oklahoma. Mr. Speaker, I rise in strong support of H. Res. 631, honoring our servicemen and women who were victims of the terrorist attack on the destroyer U.S.S. *Cole*.

I was saddened and outraged by the cowardly attack carried out against the U.S.S. *Cole* on October 12 off the Yemeni Coast. First and foremost, my thoughts and prayers are with the families and friends of those who laid down their lives serving their country and representing the highest traditions of the United States Navv.

As I sat and watched the television that dark Thursday morning, I could not help but feel for the loved ones of the fallen. I hope that time and reflection and God's healing hand can put their pain at ease.

The 17 sailors who perished and the over three dozen wounded were carrying out a mission of vital national interest to America. They were part of a carrier battle group that projects our forward maritime presence by taking station in the Persian Gulf region. These brave Americans's knew they were going into a volatile region. They were made ever more aware of their situation as fighting broke out between the Israeli government and Palestinians. However, members of our armed forces are regularly called upon to carry out their assignments that place them in harms way. Still, when even one American dies in the line of duty, it is a time for reflection and sorrow.

The heroic damage control efforts of the U.S.S. *Cole's* crew after the explosion saved not only the ship, but lives. After the blast that ripped a 40 by 45 foot hole in the port side of the ship and exploded windows on land, the crew was able to maintain composure and stop the flooding. I can only image what it must have taken for a sailor aboard to see the havoc but still have the courage and presence of mind to do their duty by sealing off the bulkheads and evacuating the injured.

The terrorists that carried out this cowardly mission perished in the blast, but there are numerous responsible parties that financed, trained, and planned the attack. Our government must locate these perpetrators and bring them to justice no matter where they are in the world as soon as possible.

America must always be vigilant for those who wish to do harm to our troops and citizens. We must never let those who harm U.S. citizens go unpunished. However, America will not be deterred by this act from carrying out missions that are vital to our national interests in the region.

Mr. KIND. Mr. Speaker, I join my colleagues in honoring the entire crew of the U.S.S. *Cole*, and in offering my heartfelt condolences to the families of those sailors who gave their lives in service to their country.

As often as I can, I offer my sincere appreciation and admiration to the men and women who proudly serve in uniform on behalf of the

United States of America. The efforts of these fine Americans, both in peacetime and in war, not only have allowed this nation to achieve its stature as the greatest institution of democracy and liberty the world has ever known, but have ensured the high level of security and prosperity we now know.

However, on this day we must sadly confront the harsh reality that national security is not without risk. Today we are reminded that our soldiers, sailors and airmen are, in fact, our front line of defense in an unpredictable and sometimes dangerous world. We realize, as is carved in granite at the National Korean War Memorial, "peace is not free." Sometimes the cost of peace comes at a very high price.

The sailors of the U.S.S. *Cole*, those cruelly snatched from this Earth, those injured in the blast, and those still on board who bravely worked to assist their mates and who continue to struggle to maintain their ship, represent the noblest principles of our nation and of our history.

Almost 140 years ago, when consecrating the graves of Americans who gave their lives in the fields of Gettysburg, President Abraham Lincoln said: "The world will little note nor long remember what we say here, but we must never forget what they did here." Few words ring as true through the ages, or as appropriate on this solemn day.

Today, my colleagues and I grieve and pray with the families who lost loved ones on board the *Cole*, and with the sailors recovering from injuries sustained in the vicious attack. Our nation's resolve to find those responsible for this tragedy is strong, and our will to ensure justice is unbending. All Americans, across this nation and at all points of the globe, must never forget the ultimate sacrifice of these men and women and of their families. But, I submit, each of us must also strive to better remember and honor the acts of bravery and sacrifice our men and women in uniform commit each and every day.

Mr. GREEN of Texas. Mr. Speaker, I rise today to mourn the brave young men from Texas who died in last week's attack against the U.S.S. *Cole*—Ronchester M. Santiago of Kingsville, Timothy L. Gauna of Rice, and Gary G. Swenchonis, Jr. of Rockport.

These young men, none older than 26, were pillars of their communities who joined the U.S. Navy to serve their country and protect our national security. Specialist Third Class Santiago, a cook aboard the *Cole*, was remembered as an excellent student and well-respected by his peers.

Seaman 'Gauna, an information systems technician, was a standout on his high school basketball and baseball teams. He also served as a bilingual teacher's aide at a local elementary school after graduation, before joining the Navy.

Fireman Swenchonis, who had not joined the Navy until January 1999, was remembered as a good student, always willing to volunteer or lend a helping hand.

They are just three of the 17 sailors killed or presumed dead in this despicable act of terrorism. Our sympathies are with the families of those sailors, along with the families of the injured, including Kesha Stidham of Austin, who lies in critical condition.

As the Navy continues to recover its dead, the FBI, along with military and Yemeni au-

thorities, are working around the clock to find those who are responsible. I congratulate them on their quick work so far and hope that additional leads and arrests will be forthcoming.

Let those who conceived this brutal act, however, heed our words. America will not stand idly by as her young men and women are slaughtered by cowardly men in cowardly acts. You will be found, you will be brought to justice, and you will be punished.

Mr. Speaker, our resolve will not be affected by this attack. The United States will continue to work for peace and stability to the Middle East, and we will continue to oppose those who seek to deal in the currency of violence and terror.

Mr. EVERETT. Mr. Speaker, I would like to pay tribute to Petty Officer First Class Douglas Hancock, a brave young sailor from Enterprise who was injured in the disgusting and cowardly act of terrorism that was the attack on the guided missile destroyer U.S.S. *Cole* (DDG-67).

In the early hours of October 12, 2000, a worried Grady White called my office asking for my assistance in determining whether his grandson was injured or killed in the attack. Due to some confusion over who was listed on Douglas' notification list, the Hancock family was worried they might not be contacted. The Navy did an admirable job keeping all the families of the crew members of the U.S.S. Cole informed under the circumstances. However, when CNN ran footage of injured sailors being carried into the hospital, Mrs. Becky Hancock, Douglas' mother, was both relieved and worried when she recognized Douglas' face as one of the injured sailors.

Douglas Hancock suffered a broken jaw and cuts from the explosion. He was one of the 37 injured. He was not among the seven confirmed dead or the ten missing and presumed dead. He is going home to his close-knit family and friends.

I salute Petty Officer Douglas Hancock and the rest of the U.S.S. *Cole's* crew for their bravery and service to our nation.

Mr. HORN. Mr. Speaker, it is with great sadness that we honor the brave young men and women who lost their lives in last week's shocking attack on the U.S.S. *Cole* in the Port of Aden, Yemen. This terrorist attack provides us with another painful reminder that the United States military must always remain vigilant in a world often hostile to our country's interests.

Our military is constantly threatened by enemies of peace throughout the world. From peace-keeping operations in the Balkans, to preventing communist aggression on the Korean Peninsula, to keeping a cautioned eye on the increasing turmoil in the Middle East—our military is spread disturbingly thin. In order to deter our enemies and protect the lives of our courageous servicemen and women, Congress must continue to make every effort to strengthen our armed forces' ability to stop these types of attacks from happening in the first place.

This tragedy also reminds us that though we are living in an era of relative peace and prosperity, we must never take it for granted. America would not be free today without the sacrifices of the brave individuals who choose

to serve our country for many reasons, but who all share the risk and sacrifice this service brings. The men and women of our armed forces exemplify personal courage by facing fear, danger and adversity every day. And they carry out their duties with honor, integrity, and respect.

Our hearts, and our prayers, go out to the families of the young men and women killed in Yemen, and to all American military men and women serving our nation all over the world. Their sacrifice and their spirit call upon each generation of Americans to recognize and appreciate those who pay the ultimate price four nation's freedom. We will always remember and honor their sacrifice.

Mrs. KELLY. Mr. Speaker, almost a week ago, people all over the world awoke to the news of a terrorist strike against one of our naval ships. Like countless other Americans, I was stunned by the early reports. Over the next several hours and days, the gravity of the situation became clearer. The Navy has reported that seventeen sailors were killed by this blast and another 33 were injured. Today, I join many with my colleagues in rising to honor these men and women who gave their lives to protect our nation and all she stands for.

Today, the families of those lost honored them at a memorial service in Norfolk. Virginia, the Cole's home port. Throughout the ceremony we were reminded of the sacrifice by not only those in uniform, but their families as well. Unfortunately this sacrifice is often forgotten, but it is never unappreciated. It is truly an extraordinary person who is willing to commit to this type of service and dedicate his/her life to something larger than him/herself. It is an individual's commitment to the service of this country that we are reminded of as we mourn those who gave their lives. My own district also suffered the loss of a loved one in this attack. Patrick Roy, a onetime resident of Cornwall on Hudson, New York was a Fireman Apprentice on the U.S.S. Cole, and I offer my deepest sympathies to his friends and family

I want to applaud the efforts of the remainder of the *Cole*'s personnel who did their job, manned their stations and saved their ship even while they knew that they had suffered the possible terrible loss of shipmates and members of their naval family.

The United States military has served as liberator and protector and has provided a source of hope for millions around the world in times of peace and in war. While it may be of little solace to those who have lost a loved one, the men and women of the *Cole* who gave their lives in an effort to serve as a protector will remain beacons of hope and will be remembered as heroes. My deepest condolences go out to all of the friends and families who have lost a loved one in this cowardly attack.

Mr. SWEENEY. Mr. Speaker, today I commend the valiant sailors of the U.S.S. *Cole* and to express my deepest condolences to the families and loved ones who suffered losses due to an act of terrorism.

On October 12, 2000, the Navy family suffered a tremendous loss, when the U.S.S. *Cole* fell victim to terrorism while attempting to refuel at the Port of Aden in Yemen. My heart

continues to go out to the families and friends of the American sailors who were killed, injured or are still missing. I comment our valiant sailors who responded quickly to this tragedy, minimizing casualties and damage to their ship.

It was an honor to assist three families from my District as they waited to hear news on their loved ones. Fortunately, the families and friends of Petty Officer Kevin Benoit of Cairo, NY, Ensign & Deck Division Commander Gregory McDearmon of Ballston Lake, NY, and Chief Petty Officer Charles Sweet of Broadalbin, NY, after hours of waiting, received word that their loved ones were safe.

It is important that we always remember that these brave men and women are serving our Nation and we should pay tribute to them. These sailors have made the ultimate sacrifice in service to their country. This is a loss felt by the entire nation.

This tragedy highlights the constant dangers faced by our armed forces around the world. Our country must remain vigilant in protecting them from future terrorist or other attacks. Our government must work diligently to protect and provide aid to those who are injured and work with the families who are going through a period of grieving.

Again, Mr. Speaker, our prayers go out to the sailors, their families and friends.

Mr. FROST. Mr. Speaker, last Thursday a terrible and cowardly act of terrorism was made against America and our armed forces. The U.S.S. *Cole*, which had entered the Yemeni port of Aden, was blindsided by a small boat in a group helping to moor the ship for refueling. The boat was loaded with explosives and blew up alongside the U.S.S. *Cole*.

Mr. Speaker, 17 sailors were either killed or are missing from the blast, and 39 were injured.

Information Systems Technician Seaman Timothy Gauna, a constituent of mine from Rice, Texas, is among the missing. Like all the sailors aboard the U.S.S. *Cole*, he was serving his country bravely and honorably when this vicious attack took place. I join the Gauna family, and all the families of the missing sailors, in hoping that they will soon be accounted for

Immediately after the attack Mr. Speaker, I flew down to North Texas to visit Seaman Gauna's family. There, I spoke with a mother who is proud of her son's courage and patriotism. And I talked to various family members who admire Tim's dedication to America.

I do not know all the sailors on the U.S.S. *Cole*, Mr. Speaker, but I know the family of Seaman Gauna. They—like all of the U.S.S. *Cole's* sailors and their families—have America's gratitude, and our prayers.

That's why I was so moved by the memorial service today in Norfolk, Virginia. There, the entire nation joined injured sailors—some fresh from the hospital, their IV's still attached to their arms—in paying tribute to their fallen and missing comrades.

But our obligation to these brave men and women is greater than that, Mr. Speaker. We must continue to be vigilant in the face of threats from terrorists around the world. We must find the criminals responsible for this cowardly atrocity, and they must be brought to justice.

Make no mistake, Mr. Speaker, these terrorists will soon learn that America responds quickly and forcefully whenever we are attacked. The FBI now has more than 60 agents in place investigating this attack and the Navy has assigned six U.S. warships to Aden harbor to assist the U.S.S. *Cole* and its exhausted crew.

Mr. Speaker, every time anyone in uniform gets into a ship, a plane, or a tank, they risk their lives in defense of America. For that, we owe the great men and women of the United States Armed Forces our most profound gratitude. They have it, Mr. Speaker, as well as the solemn promise that America stands with them—always and everywhere.

Mr. LEWIS of California. Mr. Speaker, when we are confronted by the despicable, cowardly attack on the U.S.S. *Cole* during a simple refueling stop in a troubled port, our first reaction is anger and a desire to punish those who are responsible.

But today I believe we should put those thoughts aside and consider instead on the sacrifice made by those members of the Cole's crew, and reflect on how our country—and the entire world—depends on such sacrifices by all our men and women in uniform around the globe.

These crew members put themselves at risk to bring peace to a region that could self-destruct at any time if our warships were not present. The U.S.S. *Cole* was in Yemen, a nation with a history of antagonism to the United States, to help establish a new relationship of trust and friendship. They put their lives on the line not only to keep the peace, but spread its benefits.

The force of the explosion gouged a 40-foot-by-40 foot hole in the side of the *Cole*. If this attack had occurred to a ship of almost any other navy in the world, the ship would have sunk with many lives lost. But the *Cole*'s crew showed the intense training, high skill level and sheer determination that we have come to expect of all of America's armed forces. Twice in three days they contained the damage, keeping the ship afloat and saving many of their injured colleagues.

Because of the unselfish dedication of Americans like those on the U.S.S. Cole, the United States is one of the few nations in history that can reduce military tensions anywhere simply with the presence of our warships. The hearts of peace-loving people around the world are lifted at the sight of a U.S. Navy ship steaming into port. And sadly, the angry dreams of those who would disrupt the peace focus on destroying those peace-keepers, as well.

The crew of the U.S.S. *Cole* knew that they could be in danger in an unsettled region, and would not be deterred from performing their duty as our front-line peacekeepers. We are aware that there are those who will go to any extreme, including trying to sink the *Cole*, in a desperate effort to undermine America's commitment to bring peace to this war-torn part of the world. When the attack came, the crew of the *Cole* would not allow their ship to sink.

Our nation is deeply saddened by the loss of the brave men and women who gave their lives so that peace may spread around the world. But we say to the enemies who would attack us in the hopes of spreading war: Look

carefully at the lesson of determination that is the U.S.S. *Cole*. We will not be deterred.

Mr. THOMPSON of California. Mr. Speaker, I join Chairman SPENCE and Ranking member SKELTON, and all Americans, in honoring the crew of the U.S.S. *Cole* and expressing the nation's sympathies to the families of those killed or injured.

Like my colleagues, I was struck by the photographs of the 17 sailors killed or presumed dead that appeared in the newspapers in the days following the terrorist attack against the *Cole*. Even the eldest of them—aged 35—died all too young.

As has been stated elsewhere, the photos put faces to the phrase "in harm's way." Particularly young faces.

The phrase is also part and parcel to another: "doing one's duty."

We know from service members that the phrase "doing one's duty" is more than a combination of words. It is also reflective of a spirit, a commitment, a calling that attracts the very best of our youth to military service.

And it is not a phrase not taken lightly.

The crew of the U.S.S. *Cole* is but one of hundreds of units of men and women deployed around the world. Each knows the risk of such service. Each also knows of the contribution they make to our nation's defense and the defense of freedom around the world.

But, all too often, the contribution and sacrifice these men and women make is taken for granted. Too often, we have only assembled after a tragic incident like the bombing of the *Cole* to belatedly express our appreciation and thanks.

Let us resolve to thank the men and women of our Armed Forces everyday for their dedication, sacrifice, and courage. And let us remember 17 members of the crew of the U.S.S. *Cole* for making the ultimate sacrifice.

To their families and friends, we assure you that their memory will not be forgotten. And the values for which they gave their lives will be forever cherished, honored and protected.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise to honor the sacrifice and the memory of the crew of America's guided missile destroyer U.S.S. Cole who were killed or wounded on October 12 as a suspected terrorist bomb ripped through the ship's hull. The State of Texas mourns the loss of three of its sons: Fireman Gary Graham Swenchonis, Jr. of Rockport, TX; Information Systems Technician Timothy Guana of Rice, TX; and Petty Officer 3rd Class Ronchester Santiago of Kingsville, TX. We Texans add our sadness and pride in our Nation to the family of Americans in saluting the honor and valor of all seventeen patriots and the remaining crew of the U.S.S. Cole.

The Nation especially grieves the loss of our first female sailors killed in hostile action aboard a U.S. combat ship. It is important to acknowledge that this historic sacrifice was made by two African American women. Lakeina Monique Francis of Woodleaf, North Carolina, a 19 year-old Mess Management Specialist Seaman, followed in her father's footsteps to serve her country in the Navy. Lakiba Nicole Palmer of San Diego, California was a 22 year-old Seaman Recruit. History will record their sacrifice as a milestone of great proportions. For today, there can be no

doubt that America's sons and America's daughters will lay down their lives for freedom and peace around the globe. I urge this Congress to resolve that as this story is written and retold, the names of these women must not be forgotten as has too often been the case for the legacy and sacrifice of African American women throughout our Nation's history.

I stand with my colleagues to offer sincere condolences to every loved one who survives each of the seventeen patriots we honor through this resolution. Their supreme sacrifice compels us to live for peace and redouble our efforts to broker a lasting Middle East peace with the strongest determination.

Mr. Speaker, on this occasion, I pray God's blessing on the memories of these sailors, God's comfort for their families, and may God bless an America that is more resolute that ever to preserve the peace!

Mr. DOOLEY of California. Mr. Speaker, I rise today to honor the brave American sailors aboard the U.S.S. *Cole* whose lives were taken off the coast of Yemen on October 12, 2000. I would like to express my deepest sympathies to the sailors' families during this difficult time.

We will never forget the sailors and the sacrifice they have made for our country. It is through their courageous service that all Americans are allowed to live in freedom.

I would also like to honor the other sailors aboard the U.S.S. *Cole*, both those injured and non-injured. This tragedy should be a reminder to all Americans that on a daily basis our men and women serving in the military are continually putting their lives on the line for our country in many parts of the world. Even in times of relative peace, the potential dangers faced by our service members never cease to exist.

This horrible incident is of particular concern to me because my District is home to Naval Air Station, Lemoore. Men and Women in my district proudly serve their country and bravely confront serious dangers. I know that the tragedy aboard the U.S.S. *Cole* evokes a paintier reminder of these dangers to all military families. My thoughts are with the Navy families in my district who are mourning the loss of their fellow service men and women.

I am hopeful we will find those who were responsible for this cowardly act and hold them accountable. We owe it to the lost sailors and their families.

Today, as the families and friends of the victims come together in Norfolk, Virginia to honor their loved ones, I would like to offer my condolences and prayers. They will not be forgotten.

Ms. PELOSI. Mr. Speaker, I rise to extend my heartfelt support for House Resolution 631, honoring the crew of the U.S.S. *Cole*. Today on a gray and sad day in Norfolk, Virginia and around the country, our nation mourns the loss of life and celebrates the service of sailors on the U.S.S. *Cole*.

My thoughts and prayers go out to the families of the seventeen sailors killed, and the thirty six injured in the terrorist bombing attack off the coast of Yemen. Our nation owes a profound debt of gratitude to these proud sailors who lost their lives or suffered injury defending the American people and the values of

freedom and democracy on which our nation stands.

I extend my deep admiration to the entire crew of the U.S.S. *Cole* for the bravery and professionalism they displayed in caring for their wounded and stabilizing their ship. This tragedy underscores the commitment and sacrifice of our nation's fighting men and women who put their lives in danger on a daily basis for the security of our country.

This attack was an unconscionable act of cowardice and those responsible will be sought out and swiftly brought to justice. The United States will stay the course, acting as the leading force of stability and freedom in the fight against terrorism.

We will not be bowed or intimidated by this attack, as will carry the memory of the U.S.S. *Cole* in our hearts to strengthen our resolve and continue the struggle for world peace. Just as these seventeen sailors protected us in life, we shall honor and protect the memory of their sacrifice by standing firm against this type of senseless violence.

Mr. SPENCE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the resolution.

There was no objection.

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. SPENCE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on House Resolution 631 will be followed by several 5-minute votes on motions to suspend the rules that were debated yesterday.

The vote was taken by electronic device, and there were—yeas 386, nays 0, not voting 46, as follows:

### □ 1833

Mrs. CUBIN changed her vote from "nay" to "yea."

So the resolution was agreed to. The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. PEASE). Pursuant to clause 8 of rule XX, the Chair will now put the question on each motion to suspend the rules on which further proceedings were postponed on Tuesday, October 17, 2000, in the order in which that motion was entertained.

Votes will be taken in the following order:

H. Con. Res. 415, by the yeas and

H.R. 3218, by the yeas and navs: Concurring in Senate amendments to H.R. 3671, de novo;

H.R. 4148, de novo; and

S. 964, de novo.

The Chair will reduce to 5 minutes the time for each electronic vote in this series.

## NATIONAL CHILDREN'S MEMORIAL

The SPEAKER pro tempore. The unfinished business is the question of suspending the rules and agreeing to the concurrent resolution, House Concurrent Resolution 415.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. OSE) that the House suspend the rules and agree to the concurrent resolution. House Concurrent Resolution 415, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 376, nays 0, not voting 56, as follows:

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill, as amended, was passed.

A motion to reconsider was laid on the table.

## REAPPOINTMENT AS MEMBER TO ADVISORY COMMITTEE ON STU-DENT FINANCIAL ASSISTANCE

The SPEAKER pro tempore. Without objection, and pursuant to section 491 of the Higher Education Act, 20 USC 1098(c), the Chair announces the Speaker's reappointment of the following member on the part of the House to the Advisory Committee on Student Financial Assistance for a 3-year term:

Mr. Henry Givens, St. Louis, Missouri.

There was no objection.

CONFERENCE REPORT ON H.R. 4635, DEPARTMENTS OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOPMENT, AND INDEPENDENT AGENCIES APPRO-PRIATIONS ACT, 2001

Mr. WALSH submitted the following conference report and statement on the bill (H.R. 4635) making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes:

Conference Report (H. Rept. 106-988)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4635) "making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes", having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

Section 1. (a) The provisions of the following bills of the 106th Congress are hereby enacted into law:

(1) H.R. 5482, as introduced on October 18, 2000

(2) H.R. 5483, as introduced on October 18, 2000.

(b) In publishing this Act in slip form and in the United States Statutes at Large pursuant to section 112 of title 1, United States Code, the Archivist of the United States shall include after the date of approval at the end appendixes setting forth the texts of the bills referred to in subsection (a) of this section.

; And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF
THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4635) making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying report.

This conference agreement includes more than the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001. The conference agreement has been expanded to include the Energy and Water Development Appropriations Act, 2001, as well as the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001. Both of these Acts have been enacted into law by reference in this conference report; however, a copy of the referenced legislation has been included in this statement for convenience.

DEPARTMENTS OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOP-MENT, AND INDEPENDENT AGENCIES APPROPRIATIONS

The conference agreement would enact the provisions of H.R. 5482 as introduced on October 18, 2000. The text of that bill follows:

A BILL Making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes, namely:

 $\begin{array}{c} \textit{TITLE I---DEPARTMENT OF VETERANS} \\ \textit{AFFAIRS} \end{array}$ 

VETERANS BENEFITS ADMINISTRATION COMPENSATION AND PENSIONS (INCLUDING TRANSFERS OF FUNDS)

For the payment of compensation benefits to or on behalf of veterans and a pilot program for disability examinations as authorized by law (38 U.S.C. 107, chapters 11, 13, 18, 51, 53, 55, and 61); pension benefits to or on behalf of veterans as authorized by law (38 U.S.C. chapters 15, 51, 53, 55, and 61; 92 Stat. 2508); and burial benefits, emergency and other officers' retirement pay, adjusted-service credits and certificates, payment of premiums due on commercial life insurance policies guaranteed under the provisions of Article IV of the Soldiers' and Sailors' Civil Relief Act of 1940, as amended, and for other benefits as authorized by law (38 U.S.C. 107, 1312, 1977, and 2106, chapters 23, 51, 53, 55, and 61; 50 U.S.C. App. 540-548; 43 Stat. 122, 123; 45 Stat. 735; 76 Stat. 1198), \$22,766,276,000, to remain available until expended: Provided, That not to exceed \$17,419,000 of the amount appropriated shall be reimbursed to "General operating expenses" and "Medical care" for necessary expenses in implementing those provisions authorized in the Omnibus Budget Reconciliation Act of 1990, and in the Veterans' Benefits Act of 1992 (38 U.S.C. chapters 51, 53, and 55), the funding source for which is specifically provided as the "Compensation and pensions" appropriation: Provided further, That such sums as may be earned on an actual qualifying patient basis, shall be reimbursed to "Medical facilities revolving fund" to augment the funding of individual medical facilities for nursing home care provided to pensioners as authorized.
