For the payment of readjustment and rehabilitation benefits to or on behalf of veterans as authorized by 38 U.S.C. chapters 21, 30, 31, 34, 35, 36, 39, 51, 53, 55, and 61, \$1,634,000,000, to remain available until expended: Provided, That

expenses for rehabilitation program services and assistance which the Secretary is authorized to provide under section 3104(a) of title 38, United States Code, other than under subsection (a)(1), (2), (5) and (11) of that section, shall be charged to the account: Provided further, That funds shall be available to pay any court order, court award or any compromise settlement arising from litigation involving the vocational training program authorized by section 18 of Public Law 98–77, as amended.

### VETERANS INSURANCE AND INDEMNITIES

For military and naval insurance, national service life insurance, servicemen's indemnities, service-disabled veterans insurance, and veterans mortgage life insurance as authorized by 38 U.S.C. chapter 19; 70 Stat. 887; 72 Stat. 487, \$19,850,000, to remain available until expended.

VETERANS HOUSING BENEFIT PROGRAM FUND

### PROGRAM ACCOUNT

### (INCLUDING TRANSFER OF FUNDS)

For the cost of direct and guaranteed loans, such sums as may be necessary to carry out the program, as authorized by 38 U.S.C. chapter 37, as amended: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That during fiscal year 2001, within the resources available, not to exceed \$300,000 in gross obligations for direct loans are authorized for specially adapted housing loans.

In addition, for administrative expenses to carry out the direct and guaranteed loan programs, \$162,000,000, which may be transferred to and merged with the appropriation for "General operating expenses".

#### EDUCATION LOAN FUND PROGRAM ACCOUNT

#### (INCLUDING TRANSFER OF FUNDS)

For the cost of direct loans, \$1,000, as authorized by 38 U.S.C. 3698, as amended: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That these funds are available to subsidize gross obligations for the principal amount of direct loans not to exceed \$3,400.

In addition, for administrative expenses necessary to carry out the direct loan program, \$220,000, which may be transferred to and merged with the appropriation for "General operating expenses".

## $\begin{array}{c} VOCATIONAL \ REHABILITATION \ LOANS \ PROGRAM \\ ACCOUNT \end{array}$

## (INCLUDING TRANSFER OF FUNDS)

For the cost of direct loans, \$52,000, as authorized by 38 U.S.C. chapter 31, as amended: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That these funds are available to subsidize gross obligations for the principal amount of direct loans not to exceed \$2,726,000.

In addition, for administrative expenses necessary to carry out the direct loan program, \$432,000, which may be transferred to and merged with the appropriation for "General operating expenses".

#### NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM ACCOUNT

## (INCLUDING TRANSFER OF FUNDS)

For administrative expenses to carry out the direct loan program authorized by 38 U.S.C. chapter 37, subchapter V, as amended, \$532,000, which may be transferred to and merged with the appropriation for "General operating expenses".

## $GUARANTEED\ TRANSITIONAL\ HOUSING\ LOANS\ FOR$ $HOMELESS\ VETERANS\ PROGRAM\ ACCOUNT$

## (INCLUDING TRANSFER OF FUNDS)

Not to exceed \$750,000 of the amounts appropriated by this Act for "General operating ex-

penses" and "Medical care" may be expended for the administrative expenses to carry out the guaranteed loan program authorized by 38 U.S.C. chapter 37, subchapter VI.

## VETERANS HEALTH ADMINISTRATION

#### MEDICAL CARE

#### (INCLUDING TRANSFER OF FUNDS)

For necessary expenses for the maintenance and operation of hospitals, nursing homes, and domiciliary facilities; for furnishing, as authorized by law, inpatient and outpatient care and treatment to beneficiaries of the Department of Veterans Affairs, including care and treatment in facilities not under the jurisdiction of the department; and furnishing recreational facilities, supplies, and equipment; funeral, burial, and other expenses incidental thereto for beneficiaries receiving care in the department: administrative expenses in support of planning, design, project management, real property acquisition and disposition, construction and renovation of any facility under the jurisdiction or for the use of the department; oversight, engineering and architectural activities not charged to project cost; repairing, altering, improving or providing facilities in the several hospitals and homes under the jurisdiction of the department, not otherwise provided for, either by contract or by the hire of temporary employees and purchase of materials; uniforms or allowances therefor, as authorized by 5 U.S.C. 5901-5902; aid to State homes as authorized by 38 U.S.C. 1741; administrative and legal expenses of the department for collecting and recovering amounts owed the department as authorized under 38 U.S.C. chapter 17, and the Federal Medical Care Recovery Act, 42 U.S.C. 2651 et seq., \$20,281,587,000, plus reimbursements: Provided, That of the funds made available under this heading, \$900,000,000 is for the equipment and land and structures object classifications only, which amount shall not become available for obligation until August 1, 2001, and shall remain available until September 30, 2002: Provided further, That of the funds made available under this heading, not to exceed \$500,000,000 shall be available until September 30, 2002: Provided further, That of the funds made available under this heading, not to exceed \$28,134,000 may be transferred to and merged with the appropriation for "General operating expenses": Provided further, That the Secretary of Veterans Affairs shall conduct by contract a program of recovery audits for the fee basis and other medical services contracts with respect to payments for hospital care; and, notwithstanding 31 U.S.C. 3302(b), amounts collected, by setoff or otherwise, as the result of such audits shall be available, without fiscal year limitation, for the purposes for which funds are appropriated under this heading and the purposes of paying a contractor a percent of the amount collected as a result of an audit carried out by the contractor: Provided further, That all amounts so collected under the preceding proviso with respect to a designated health care region (as that term is defined in 38 U.S.C. 1729A(d)(2)) shall be allocated, net of payments to the contractor, to that region.

In addition, in conformance with Public Law 105–33 establishing the Department of Veterans Affairs Medical Care Collections Fund, such sums as may be deposited to such Fund pursuant to 38 U.S.C. 1729A may be transferred to this account, to remain available until expended for the purposes of this account.

None of the foregoing funds may be transferred to the Department of Justice for the purposes of supporting tobacco litigation.

## MEDICAL AND PROSTHETIC RESEARCH

For necessary expenses in carrying out programs of medical and prosthetic research and development as authorized by 38 U.S.C. chapter

73, to remain available until September 30, 2002, \$351,000,000, plus reimbursements.

## $\begin{array}{c} \textit{MEDICAL ADMINISTRATION AND MISCELLANEOUS} \\ \textit{OPERATING EXPENSES} \end{array}$

For necessary expenses in the administration of the medical, hospital, nursing home, domiciliary, construction, supply, and research activities, as authorized by law; administrative expenses in support of capital policy activities, \$62,000,000 plus reimbursements: Provided, That technical and consulting services offered by the Facilities Management Field Service, including project management and real property administration (including leases, site acquisition and disposal activities directly supporting projects), shall be provided to Department of Veterans Affairs components only on a reimbursable basis, and such amounts will remain available until September 30, 2001.

## DEPARTMENTAL ADMINISTRATION GENERAL OPERATING EXPENSES

For necessary operating expenses of the Department of Veterans Affairs, not otherwise provided for, including uniforms or allowances therefor; not to exceed \$25,000 for official reception and representation expenses; hire of passenger motor vehicles: and reimbursement of the General Services Administration for security guard services, and the Department of Defense the cost of overseas employee mail, \$1.050,000,000: Provided, That expenses for services and assistance authorized under 38 U.S.C. 3104(a) (1), (2), (5) and (11) that the Secretary determines are necessary to enable entitled veterans (1) to the maximum extent feasible, to become employable and to obtain and maintain suitable employment; or (2) to achieve maximum independence in daily living, shall be charged to this account: Provided further, That of the funds made available under this heading, not to exceed \$45,000,000 shall be available until September 30, 2002: Provided further, That funds under this heading shall be available to administer the Service Members Occupational Conversion and Training Act.

### NATIONAL CEMETERY ADMINISTRATION (INCLUDING TRANSFER OF FUNDS)

For necessary expenses for the maintenance and operation of the National Cemetery Administration, not otherwise provided for, including uniforms or allowances therefor; cemeterial expenses as authorized by law; purchase of two passenger motor vehicles for use in cemeterial operations; and hire of passenger motor vehicles, \$109,889,000: Provided, That travel expenses shall not exceed \$1,125,000: Provided further, That of the amount made available under this heading, not to exceed \$125,000 may be transferred to and merged with the appropriation for "General operating expenses".

## OFFICE OF INSPECTOR GENERAL

### (INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Office of Inspector General in carrying out the Inspector General Act of 1978, as amended, \$46,464,000: Provided, That of the amount made available under this heading, not to exceed \$28,000 may be transferred to and merged with the appropriation for "General operating expenses".

## CONSTRUCTION, MAJOR PROJECTS

For constructing, altering, extending and improving any of the facilities under the jurisdiction or for the use of the Department of Veterans Affairs, or for any of the purposes set forth in sections 316, 2404, 2406, 8102, 8103, 8106, 8108, 8109, 8110, and 8122 of title 38, United States Code, including planning, architectural and engineering services, maintenance or guarantee period services costs associated with equipment guarantees provided under the project, services of claims analysts, offsite utility and storm drainage system construction costs,

and site acquisition, where the estimated cost of a project is \$4,000,000 or more or where funds for a project were made available in a previous major project appropriation, \$66,040,000, to remain available until expended: Provided. That except for advance planning of projects (including market-based assessments of health care needs which may or may not lead to capital investments) funded through the advance planning fund and the design of projects funded through the design fund, none of these funds shall be used for any project which has not been considered and approved by the Congress in the budgetary process: Provided further, That funds provided in this appropriation for fiscal year 2001, for each approved project shall be obligated: (1) by the awarding of a construction documents contract by September 30, 2001; and (2) by the awarding of a construction contract by September 30, 2002: Provided further, That the Secretary shall promptly report in writing to the Committees on Appropriations any approved major construction project in which obligations are not incurred within the time limitations established above: Provided further. That no funds from any other account except the "Parking revolving fund", may be obligated for constructing, altering, extending, or improving a project which was approved in the budget process and funded in this account until one year after substantial completion and beneficial occupancy by the Department of Veterans Affairs of the project or any part thereof with respect to that part only.

### CONSTRUCTION, MINOR PROJECTS

For constructing, altering, extending, and improving any of the facilities under the jurisdiction or for the use of the Department of Veterans Affairs, including planning, architectural and engineering services, maintenance or guarantee period services costs associated with equipment quarantees provided under project, services of claims analysts, offsite utility and storm drainage system construction costs, and site acquisition, or for any of the purposes set forth in sections 316, 2404, 2406, 8102, 8103, 8106, 8108, 8109, 8110, 8122, and 8162 of title 38, United States Code, where the estimated cost of a project is less than \$4,000,000, \$162,000,000, to remain available until expended, along with unobligated balances of previous "Construction. minor projects" appropriations which are hereby made available for any project where the estimated cost is less than \$4,000,000: Provided, That funds in this account shall be available for: (1) repairs to any of the nonmedical facilities under the jurisdiction or for the use of the department which are necessary because of loss or damage caused by any natural disaster or catastrophe; and (2) temporary measures necessary to prevent or to minimize further loss by such causes.

## PARKING REVOLVING FUND

For the parking revolving fund as authorized by 38 U.S.C. 8109, income from fees collected, to remain available until expended, which shall be available for all authorized expenses except operations and maintenance costs, which will be funded from "Medical care".

GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

For grants to assist States to acquire or construct State nursing home and domiciliary facilities and to remodel, modify or alter existing hospital, nursing home and domiciliary facilities in State homes, for furnishing care to veterans as authorized by 38 U.S.C. 8131–8137, \$100,000,000, to remain available until expended.

GRANTS FOR THE CONSTRUCTION OF STATE VETERANS CEMETERIES

For grants to aid States in establishing, expanding, or improving State veterans cemeteries as authorized by 38 U.S.C. 2408, \$25,000,000, to remain available until expended.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

SEC. 101. Any appropriation for fiscal year 2001 for "Compensation and pensions". "Readjustment benefits", and "Veterans insurance and indemnities" may be transferred to any other of the mentioned appropriations.

SEC. 102. Appropriations available to the Department of Veterans Affairs for fiscal year 2001 for salaries and expenses shall be available for services authorized by 5 U.S.C. 3109.

SEC. 103. No appropriations in this Act for the Department of Veterans Affairs (except the appropriations for "Construction, major projects", "Construction, minor projects", and the "Parking revolving fund") shall be available for the purchase of any site for or toward the construction of any new hospital or home.

SEC. 104. No appropriations in this Act for the Department of Veterans Affairs shall be available for hospitalization or examination of any persons (except beneficiaries entitled under the laws bestowing such benefits to veterans, and persons receiving such treatment under 5 U.S.C. 7901–7904 or 42 U.S.C. 5141–5204), unless reimbursement of cost is made to the "Medical care" account at such rates as may be fixed by the Secretary of Veterans Affairs.

SEC. 105. Appropriations available to the Department of Veterans Affairs for fiscal year 2001 for "Compensation and pensions", "Readjustment benefits", and "Veterans insurance and indemnities" shall be available for payment of prior year accrued obligations required to be recorded by law against the corresponding prior year accounts within the last quarter of fiscal year 2000.

SEC. 106. Appropriations accounts available to the Department of Veterans Affairs for fiscal year 2001 shall be available to pay prior year obligations of corresponding prior year appropriations accounts resulting from title X of the Competitive Equality Banking Act, Public Law 100–86, except that if such obligations are from trust fund accounts they shall be payable from "Compensation and pensions".

SEC. 107. Notwithstanding any other provision of law, during fiscal year 2001, the Secretary of Veterans Affairs shall, from the National Service Life Insurance Fund (38 U.S.C. 1920), the Veterans' Special Life Insurance Fund (38 U.S.C. 1923), and the United States Government Life Insurance Fund (38 U.S.C. 1955), reimburse the "General operating expenses" account for the cost of administration of the insurance programs financed through those accounts: Provided. That reimbursement shall be made only from the surplus earnings accumulated in an insurance program in fiscal year 2001, that are available for dividends in that program after claims have been paid and actuarially determined reserves have been set aside: Provided further. That if the cost of administration of an insurance program exceeds the amount of surplus earnings accumulated in that program, reimbursement shall be made only to the extent of such surplus earnings: Provided further, That the Secretary shall determine the cost of administration for fiscal year 2001, which is properly allocable to the provision of each insurance program and to the provision of any total disability income insurance included in such insurance program.

SEC. 108. Notwithstanding any other provision of law, collections authorized by the Veterans Millennium Health Care and Benefits Act (Public Law 106–117) and credited to the appropriate Department of Veterans Affairs accounts in fiscal year 2001, shall not be available for obligation or expenditure unless appropriation language making such funds available is enacted.

SEC. 109. In accordance with section 1557 of title 31, United States Code, the following obligated balance shall be exempt from subchapter

IV of chapter 15 of such title and shall remain available for expenditure until September 30, 2003: funds obligated by the Department of Veterans Affairs for a contract with the Institute for Clinical Research to study the application of artificial neural networks to the diagnosis and treatment of prostate cancer through the Cooperative DoD/VA Medical Research program from funds made available to the Department of Veterans Affairs by the Department of Defense Appropriations Act, 1995 (Public Law 103–335) under the heading "Research, Development, Test and Evaluation, Defense-Wide".

SEC. 110. As HR LINK\$ will not be part of the Franchise Fund in fiscal year 2001, funds budgeted in customer accounts to purchase HR LINK\$ services from the Franchise Fund shall be transferred to the General Administration portion of the "General operating expenses" appropriation in the following amounts: \$78,000 from the "Office of Inspector General", \$358,000 from the "National cemetery administration", \$1,106,000 from "Medical care", \$84,000 from "Medical administration and miscellaneous operating expenses", and \$38,000 shall be reprogrammed within the "General operating expenses" appropriation from the Veterans Benefits Administration to General Administration for the same purpose.

SEC. 111. Not to exceed \$1,600,000 from the "Medical care" appropriation shall be transferred to the "General operating expenses" appropriation to fund personnel services costs of employees providing legal services and administrative support for the Office of General Counsel.

SEC. 112. Not to exceed \$1,200,000 may be transferred from the "Medical care" appropriation to the "General operating expenses" appropriation to fund contracts and services in support of the Veterans Benefits Administration's Benefits Delivery Center, Systems Development Center, and Finance Center, located at the Department of Veterans Affairs Medical Center, Hines, Illinois.

SEC. 113. Not to exceed \$4,500,000 from the "Construction, minor projects" appropriation and not to exceed \$2,000,000 from the "Medical care" appropriation may be transferred to and merged with the Parking Revolving Fund for surface parking lot projects.

SEC. 114. Notwithstanding any other provision of this Act, none of the funds appropriated or otherwise made available in this Act for "Medical care" appropriations of the Department of Veterans Affairs may be obligated for the realignment of the health care delivery system in Veterans Integrated Service Network 12 (VISN 12) until 60 days after the Secretary of Veterans Affairs certifies that the Department has: (1) consulted with veterans organizations, medical school affiliates, employee representatives, State veterans and health associations, and other interested parties with respect to the realignment plan to be implemented; and (2) made available to the Congress and the public information from the consultations regarding possible impacts on the accessibility of veterans health care services to affected veterans.

### 

PUBLIC AND INDIAN HOUSING HOUSING CERTIFICATE FUND

(INCLUDING TRANSFERS OF FUNDS)

For activities and assistance to prevent the involuntary displacement of low-income families, the elderly and the disabled because of the loss of affordable housing stock, expiration of subsidy contracts (other than contracts for which amounts are provided under another heading in this Act) or expiration of use restrictions, or other changes in housing assistance arrangements, and for other purposes, \$13,940,907,000

and amounts that are recaptured in this account to remain available until expended: Provided, That of the total amount provided under heading,\$13,430,000,000, which of \$9,230,000,000 shall be available on October 1, 2000 and \$4,200,000,000 shall be available on October 1, 2001, shall be for assistance under the United States Housing Act of 1937 ("the Act" herein) (42 U.S.C. 1437): Provided further, That the foregoing amounts shall shall be for use in connection with expiring or terminating section  $8\ subsidy\ contracts,\ for\ amendments\ to\ section\ 8$ subsidy contracts, for enhanced vouchers (including amendments and renewals) under any provision of law authorizing such assistance under section 8(t) of the United States Housing Act of 1937 (47 U.S.C. 1437f(t)), contract administrators, and contracts entered into pursuant to section 441 of the Stewart B. McKinney Homeless Assistance Act: Provided further, That amounts available under the first proviso under this heading shall be available for section 8 rental assistance under the Act: (1) for the relocation and replacement of housing units that are demolished or disposed of pursuant to section 24 of the United States Housing Act of 1937 or to other authority for the revitalization of severely distressed public housing, as set forth in the Appropriations Acts for the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies for fiscal years 1993, 1994, 1995, and 1997, and in the Omnibus Consolidated Rescissions and Appropriations Act of 1996: (2) for the conversion of section 23 projects to assistance under section 8: (3) for funds to carry out the family unification program; (4) for the relocation of witnesses in connection with efforts to combat crime in public and assisted housing pursuant to a request from a law enforcement or prosecution agency; (5) for tenant protection assistance, including replacement and relocation assistance; and (6) for the 1-year renewal of section 8 contracts for units in a project that is subject to an approved plan of action under the Emergency Low Income Housing Preservation Act of 1987 or the Low-Income Housing Preservation and Resident Homeownership Act of 1990: Provided further, That of the total amount provided under this heading, \$11,000,000 shall be transferred to the Working Capital Fund for the development and maintenance of information technology systems: Provided further, That of the total amount provided under this heading, \$40,000,000 shall be made available to nonelderly disabled families affected by the designation of a public housing development under section 7 of the Act, the establishment of preferences in accordance with section 651 of the Housing and Community Development Act of 1992 (42 U.S.C. 13611), or the restriction of occupancy to elderly families in accordance with section 658 of such Act, and to the extent the Secretary determines that such amount is not needed to fund applications for such affected families, to other nonelderly disabled families: Provided further, That of the total amount provided under this heading. \$452,907,000 shall be made available for incremental vouchers under section 8 of the United States Housing Act of 1937 on a fair share basis and administered by public housing agencies:

Provided further, That of the total amount provided under this heading, up to \$7,000,000 shall be made available for the completion of the Jobs Plus Demonstration: Provided further, That amounts available under this heading may be made available for administrative fees and other expenses to cover the cost of administering rental assistance programs under section 8 of the United States Housing Act of 1937: Provided further, That the fee otherwise authorized under section 8(q) of such Act shall be determined in accordance with section 8(q), as in effect immediately before the enactment of the

Quality Housing and Work Responsibility Act of 1998: Provided further, That \$1,833,000,000 is rescinded from unobligated balances remaining from funds appropriated to the Department of Housing and Urban Development under this heading or the heading "Annual Contributions for Assisted Housing" or any other heading for fiscal year 2000 and prior years: Provided further, That any such balances governed by reallocation provisions under the statute authorizing the program for which the funds were originally appropriated shall not be available for this rescission: Provided further, That the Secretary shall have until September 30, 2001, to meet the rescission in the proviso preceding the immediately preceding proviso: Provided further, That any obligated balances of contract authority that have been terminated shall be canceled.

## PUBLIC HOUSING CAPITAL FUND (INCLUDING TRANSFER OF FUNDS)

For the Public Housing Capital Fund Program to carry out capital and management activities for public housing agencies, as authorized under section 9 of the United States Housing Act of 1937, as amended (42 U.S.C. 1437), \$3.000.000,000, to remain available until expended, of which up to \$50,000,000 shall be for carrying out activities under section 9(h) of such Act, for lease adjustments to section 23 projects and \$43,000,000 shall be transferred to the Working Capital Fund for the development and maintenance of information technology systems: Provided, That no funds may be used under this heading for the purposes specified in section 9(k) of the United States Housing Act of 1937: Provided further, That of the total amount, up to \$75,000,000 shall be available for the Secretary of Housing and Urban Development to make grants to public housing agencies for emergency capital needs resulting from emergencies and natural disasters in fiscal year 2001. PUBLIC HOUSING OPERATING FUND

For payments to public housing agencies for the operation and management of public housing, as authorized by section 9(e) of the United States Housing Act of 1937, as amended (42 U.S.C. 1437g), \$3,242,000,000, to remain available until expended: Provided, That no funds may be used under this heading for the purposes specified in section 9(k) of the United States Housing Act of 1937.

#### DRUG ELIMINATION GRANTS FOR LOW-INCOME HOUSING

## (INCLUDING TRANSFERS OF FUNDS)

For grants to public housing agencies and Indian tribes and their tribally designated housing entities for use in eliminating crime in public housing projects authorized by 42 U.S.C. 11901-11908, for grants for federally assisted low-income housing authorized by 42 U.S.C. 11909, and for drug information clearinghouse services authorized by 42 U.S.C. 11921-11925, \$310,000,000, to remain available until expended: Provided. That of the total amount provided under this heading, up to \$3,000,000 shall be solely for technical assistance, technical assistance grants. training, and program assessment for or on behalf of public housing agencies, resident organizations, and Indian tribes and their tribally designated housing entities (including up to \$150,000 for the cost of necessary travel for participants in such training) for oversight, training and improved management of this program, \$2,000,000 shall be available to the Boys and Girls Clubs of America for the operating and start-up costs of clubs located in or near, and primarily serving residents of, public housing and housing assisted under the Native American Housing Assistance and Self-Determination Act of 1996, and \$10,000,000 shall be used in connection with efforts to combat violent crime in public and assisted housing under the Operation

Safe Home Program administered by the Inspector General of the Department of Housing and Urban Development: Provided further, That of the amount under this heading, \$10,000,000 shall be provided to the Office of Inspector General for Operation Safe Home: Provided further, That of the amount under this heading. \$20,000,000 shall be available for the New Approach Anti-Drug program which will provide competitive grants to entities managing or operating public housing developments, federally assisted multifamily housing developments, or other multifamily housing developments for lowincome families supported by non-Federal governmental entities or similar housing developments supported by nonprofit private sources in order to provide or augment security (including personnel costs), to assist in the investigation and/or prosecution of drug-related criminal activity in and around such developments, and to provide assistance for the development of capital improvements at such developments directly relating to the security of such developments: Provided further, That grants for the New Approach Anti-Drug program shall be made on a competitive basis as specified in section 102 of the Department of Housing and Urban Development Reform Act of 1989.

## REVITALIZATION OF SEVERELY DISTRESSED PUBLIC HOUSING (HOPE VI)

For grants to public housing agencies for demolition, site revitalization, replacement housing, and tenant-based assistance grants to projects as authorized by section 24 of the United States Housing Act of 1937, \$575,000,000 to remain available until expended, of which the Secretary may use up to \$10,000,000 for technical assistance and contract expertise, to be provided directly or indirectly by grants, contracts or cooperative agreements, including training and cost of necessary travel for participants in such training, by or to officials and employees of the department and of public housing agencies and to residents: Provided, That none of such funds shall be used directly or indirectly by granting competitive advantage in awards to settle litigation or pay judgments, unless expressly permitted herein.

### NATIVE AMERICAN HOUSING BLOCK GRANTS

## (INCLUDING TRANSFERS OF FUNDS)

For the Native American Housing Block Grants program, as authorized under title I of the Native American Housing Assistance and Self-Determination Act of 1996 (NAHASDA) (Public Law 104-330), \$650,000,000, to remain available until expended, of which \$6,000,000 shall be to support the inspection of Indian housing units, contract expertise, training, and technical assistance in the training, oversight, and management of Indian housing and tenantbased assistance, including up to \$300,000 for related travel: Provided. That of the amount provided under this heading, \$6,000,000 shall be made available for the cost of guaranteed notes and other obligations, as authorized by title VI of NAHASDA: Provided further, That such costs, including the costs of modifying such notes and other obligations, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That these funds are available to subsidize the total principal amount of any notes and other obligations, any part of which is to be guaranteed, not to exceed \$54,600,000: Provided further, That for administrative expenses to carry out the guaranteed loan program, up to \$150,000 from amounts in the first proviso, which shall be transferred to and merged with the appropriation for "Salaries and expenses", to be used only for the administrative costs of these guarantees: Provided further, That of the amount provided in this heading, \$2,000,000 shall be transferred to the Working Capital Fund for developing and maintaining information technology systems.

INDIAN HOUSING LOAN GUARANTEE FUND PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

For the cost of guaranteed loans, as authorized by section 184 of the Housing and Community Development Act of 1992 (106 Stat. 3739), \$6,000,000, to remain available until expended: Provided, That such costs, including the costs of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That these funds are available to subsidize total loan principal, any part of which is to be guaranteed, not to exceed \$71,956,000.

In addition, for administrative expenses to carry out the guaranteed loan program, up to \$200,000 from amounts in the first paragraph, which shall be transferred to and merged with the appropriation for "Salaries and expenses" to be used only for the administrative costs of these quarantees.

## COMMUNITY PLANNING AND DEVELOPMENT

HOUSING OPPORTUNITIES FOR PERSONS WITH AIDS For carrying out the Housing Opportunities for Persons with AIDS program, as authorized by the AIDS Housing Opportunity Act (42 U.S.C. 12901), \$258,000,000, to remain available until expended: Provided, That the Secretary shall renew all expiring contracts that were funded under section 854(c)(3) of such Act that meet all program requirements before awarding funds for new contracts and activities authorized under this section: Provided further. That the Secretary may use up to 1 percent of the

funds under this heading for training, over-RURAL HOUSING AND ECONOMIC DEVELOPMENT

sight, and technical assistance activities.

For the Office of Rural Housing and Economic Development in the Department of Housing and Urban Development, \$25,000,000 to remain available until expended, which amount shall be awarded by June 1, 2001, to Indian tribes, State housing finance agencies, State community and/or economic development agencies, local rural nonprofits and community development corporations to support innovative housing and economic development activities in rural areas: Provided, That all grants shall be awarded on a competitive basis as specified in section 102 of the HUD Reform Act.

EMPOWERMENT ZONES/ENTERPRISE COMMUNITIES

For grants in connection with a second round of empowerment zones and enterprise communities, \$90,000,000, to remain available until expended: Provided, That \$75,000,000 shall be available for the Secretary of Housing and Urban Development for "Urban Empowerment , as authorized in the Taxpayer Relief Act of 1997, including \$5,000,000 for each empowerment zone for use in conjunction with economic development activities consistent with the strategic plan of each empowerment zone: Provided further, That \$15,000,000 shall be available to the Secretary of Agriculture for grants for designated empowerment zones in rural areas and for grants for designated rural enterprise communities.

## COMMUNITY DEVELOPMENT FUND

(INCLUDING TRANSFERS OF FUNDS)

For assistance to units of State and local government, and to other entities, for economic and community development activities, and for other purposes, \$5,057,550,000: Provided, That of the amount provided, \$4,409,000,000 is for carrying out the community development block grant program under title I of the Housing and Community Development Act of 1974, as amended (the "Act" herein) (42 U.S.C. 5301), to remain available until September 30, 2003: Provided further,

That \$71,000,000 shall be for grants to Indian tribes notwithstanding section 106(a)(1) of such Act. \$3 000 000 shall be available as a grant to the Housing Assistance Council, \$2,600,000 shall be available as a grant to the National American Indian Housing Council, \$10,000,000 shall be available as a grant to the National Housing Development Corporation, for operating expenses not to exceed \$2,000,000 and for a program of affordable housing acquisition and rehabilitation, and \$45,500,000 shall be for grants pursuant to section 107 of the Act of which \$3,000,000 shall be made available to support Alaska Native serving institutions and native Hawaiian serving institutions, as defined under the Higher Education Act, as amended, and of which \$3,000,000 shall be made available to tribal colleges and universities to build, expand, renovate, and equip their facilities: Provided further, That not to exceed 20 percent of any grant made with funds appropriated herein (other than a grant made available in this paragraph to the Housing Assistance Council or the National American Indian Housing Council, or a grant using funds under section 107(b)(3) of the Housing and Community Development Act of 1974, as amended) shall be expended for 'Planning and Management Development'' and "Administration" as defined in regulations promulgated by the department: Provided further, That \$15,000,000 shall be transferred to the Working Capital Fund for the development and maintenance of information technology systems: Provided further. That \$20,000,000 shall be for grants pursuant to the Self Help Housing Opportunity Program.

Of the amount made available under this heading, \$28,450,000 shall be made available for capacity building, of which \$25,000,000 shall be made available for "Capacity Building for Community Development and Affordable Housing", for LISC and the Enterprise Foundation for activities as authorized by section 4 of the HUD Demonstration Act of 1993 (Public Law 103-120), as in effect immediately before June 12, 1997, of which not less than \$5,000,000 of the funding shall be used in rural areas, including tribal areas, and of which \$3,450,000 shall be made available for capacity building activities administered by Habitat for Humanity International.

Of the amount made available under this heading, the Secretary of Housing and Urban Development may use up to \$55,000,000 for supportive services for public housing residents, as authorized by section 34 of the United States Housing Act of 1937, as amended, and for residents of housing assisted under the Native American Housing Assistance and Self-Determination Act of 1996 (NAHASDA) and for grants for service coordinators and congregate services for the elderly and disabled residents of public and assisted housing and housing assisted under NAHASDA.

Of the amount made available under this heading, \$44,000,000 shall be available for neighborhood initiatives that are utilized to improve the conditions of distressed and blighted areas and neighborhoods, to stimulate investment, economic diversification, and community revitalization in areas with population outmigration or a stagnating or declining economic base, or to determine whether housing benefits can be integrated more effectively with welfare reform initiatives: Provided, That any unobligated balances of amounts set aside for neighborhood initiatives in fiscal years 1998, 1999, and 2000 may be utilized for any of the foregoing purposes: Provided further, That these grants shall be provided in accord with the terms and conditions specified in the statement of managers accompanying this conference report.

Of the amount made available under this heading, notwithstanding any other provision of law, \$60,000,000 shall be available for

YouthBuild program activities authorized by subtitle D of title IV of the Cranston-Gonzalez National Affordable Housing Act, as amended, and such activities shall be an eligible activity with respect to any funds made available under this heading: Provided, That local YouthBuild programs that demonstrate an ability to leverage private and nonprofit funding shall be given a priority for YouthBuild funding: Provided further, That no more than ten percent of any grant award may be used for administrative costs: Provided further, That not less than \$10,000,000 shall be available for grants to establish YouthBuild programs in underserved and rural areas: Provided further, That of the amount provided under this paragraph, \$4,000,000 shall be set aside and made available for a grant to Youthbuild USA for capacity building for community development and affordable housing activities as specified in section 4 of the HUD Demonstration Act of 1993, as amended.

Of the amounts made available under this heading, \$2,000,000 shall be available to the Utah Housing Finance Agency for the temporary use of relocatable housing during the 2002 Winter Olympic Games provided such housing is targeted to the housing needs of low-income families after the Games.

Of the amount made available under this heading, \$292,000,000 shall be available for grants for the Economic Development Initiative (EDI) to finance a variety of targeted economic investments in accordance with the terms and conditions specified in the statement of managers accompanying this conference report.

For the cost of guaranteed loans, \$29,000,000. as authorized by section 108 of the Housing and Community Development Act of 1974: Provided. That such costs including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That these funds are available to subsidize total loan principal, any part of which is to be guaranteed, not to exceed \$1.261.000.000, notwithstanding any aggregate limitation on outstanding obligations guaranteed in section 108(k) of the Housing and Community Development Act of 1974: Provided further, That in addition, for administrative expenses to carry out the guaranteed loan program, \$1,000,000, which shall be transferred to and merged with the appropriation for "Salaries and expenses".

## Administrative Provisions Financing adjustment factors

SEC. 201. Fifty percent of the amounts of budget authority or in lieu thereof 50 percent of the cash amounts associated with such budget authority, that are recaptured from projects described in section 1012(a) of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Public Law 100-628; 102 Stat. 3224, 3268) shall be rescinded, or in the case of cash, shall be remitted to the Treasury, and such amounts of budget authority or cash recaptured and not rescinded or remitted to the Treasury shall be used by State housing finance agencies or local governments or local housing agencies with projects approved by the Secretary of Housing and Urban Development for which settlement occurred after January 1, 1992, in accordance with such section. Notwithstanding the previous sentence, the Secretary may award up to 15 percent of the budget authority or cash recaptured and not rescinded or remitted to the Treasury to provide project owners with incentives to refinance their project at a lower interest rate.

FAIR HOUSING AND FREE SPEECH

SEC. 202. None of the amounts made available under this Act may be used during fiscal year 2001 to investigate or prosecute under the Fair Housing Act any otherwise lawful activity engaged in by one or more persons, including the filing or maintaining of a non-frivolous legal action, that is engaged in solely for the purpose of achieving or preventing action by a Government official or entity, or a court of competent jurisdiction.

## $\begin{array}{c} HOUSING\ OPPORTUNITIES\ FOR\ PERSONS\ WITH\ AIDS\\ GRANTS \end{array}$

SEC. 203. (a) ELIGIBILITY.—Notwithstanding section 854(c)(1)(A) of the AIDS Housing Opportunity Act (42 U.S.C. 12903(c)(1)(A)), from any amounts made available under this title for fiscal year 2001 that are allocated under such section, the Secretary of Housing and Urban Development shall allocate and make a grant, in the amount determined under subsection (b), for any State that—

- (1) received an allocation in a prior fiscal year under clause (ii) of such section; and
- (2) is not otherwise eligible for an allocation for fiscal year 2001 under such clause (ii) because the areas in the State outside of the metropolitan statistical areas that qualify under clause (i) in fiscal year 2001 do not have the number of cases of acquired immunodeficiency syndrome required under such clause.
- (b) AMOUNT.—The amount of the allocation and grant for any State described in subsection (a) shall be an amount based on the cumulative number of AIDS cases in the areas of that State that are outside of metropolitan statistical areas that qualify under clause (i) of such section 854(c)(1)(A) in fiscal year 2001, in proportion to AIDS cases among cities and States that qualify under clauses (i) and (ii) of such section and States deemed eligible under subsection (a).
- (c) Environmental Review.—Section 856 of the Act is amended by adding the following new subsection at the end:
- "(h) Environmental review, a grant under this subtitle shall be treated as assistance for a special project that is subject to section 305(c) of the Multifamily Housing Property Disposition Reform Act of 1994, and shall be subject to the regulations issued by the Secretary to implement such section."

### ENHANCED DISPOSITION AUTHORITY

SEC. 204. Section 204 of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1997, is amended by striking "and 2000" and inserting "2000, and thereafter".

## $\begin{array}{c} \textit{MAXIMUM PAYMENT STANDARD FOR ENHANCED} \\ \textit{VOUCHERS} \end{array}$

SEC. 205. Section 8(t)(1)(B) of the United States Housing Act of 1937 is amended by inserting "and any other reasonable limit prescribed by the Secretary" immediately before the semicolon.

### DUE PROCESS FOR HOMELESS ASSISTANCE

SEC. 206. None of the funds appropriated under this or any other Act may be used by the Secretary of Housing and Urban Development to prohibit or debar or in any way diminish the responsibilities of any entity (and the individuals comprising that entity) that is responsible for convening and managing a continuum of care process (convenor) in a community for purposes of the Stewart B. McKinney Homeless Assistance Act from participating in that capacity unless the Secretary has published in the Federal Register a description of all circumstances that would be grounds for prohibiting or debarring a convenor from administering a continuum of care process and the procedures for a prohibition or debarment: Provided, That these procedures shall include a requirement that a convenor shall be provided with timely notice of a proposed prohibition or debarment, an identification of the circumstances that could result in the prohibition or debarment, an opportunity to respond to or remedy these circumstances, and the right for judicial review of any decision of the Secretary that results in a prohibition or debarment.

## $HUD\ REFORM\ ACT\ COMPLIANCE$

SEC. 207. Except as explicitly provided in legislation, any grant or assistance made pursuant to Title II of this Act shall be made in accordance with section 102 of the Department of Housing and Urban Development Reform Act of 1989 on a competitive basis.

EXPANSION OF ENVIRONMENTAL ASSUMPTION AUTHORITY FOR HOMELESS ASSISTANCE PROGRAMS

SEC. 208. Section 443 of the Stewart B. McKinney Homeless Assistance Act is amended to read as follows:

## "SEC. 443. ENVIRONMENTAL REVIEW.

"For purposes of environmental review, assistance and projects under this title shall be treated as assistance for special projects that are subject to section 305(c) of the Multifamily Housing Property Disposition Reform Act of 1994, and shall be subject to the regulations issued by the Secretary to implement such section."

#### TECHNICAL AMENDMENTS AND CORRECTIONS TO THE NATIONAL HOUSING ACT

SEC. 209. (a) SECTION 203 SUBSECTION DESIGNATIONS.—Section 203 of the National Housing Act is amended by—

(1) redesignating subsection (t) as subsection (u):

(2) redesignating subsection (s), as added by section 329 of the Cranston-Gonzalez National Affordable Housing Act, as subsection (t); and

(3) redesignating subsection (v), as added by section 504 of the Housing and Community Development Act of 1992, as subsection (w).

- (b) MORTGAGE AUCTIONS.—The first sentence of section 221(g)(4)(C)(viii) of the National Housing Act is amended by inserting after "December 31, 2002" the following: ", except that this subparagraph shall continue to apply if the Secretary receives a mortgagee's written notice of intent to assign its mortgage to the Secretary on or before such date".
- (c) MORTGAGEE REVIEW BOARD.—Section 202(c)(2) of the National Housing Act is amended.—
- (1) in subparagraph (E), by striking "and";
- (2) in subparagraph (F), by striking "or their designees." and inserting "and";
- (3) by adding the following new subparagraph at the end:
- "(G) the Director of the Enforcement Center; or their designees.".

## INDIAN HOUSING BLOCK GRANT PROGRAM

SEC. 210. Section 201(b) of the Native American Housing Assistance and Self-Determination Act of 1996 is amended—

- (1) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6) respectively; and
- (2) by inserting after paragraph (3) the following new paragraph:
- "(4) LAW ENFORCEMENT OFFICERS.—Notwithstanding paragraph (1), a recipient may provide housing or housing assistance provided through affordable housing activities assisted with grant amounts under this Act to a law enforcement officer on the reservation or other Indian area, who is employed full-time by a Federal, state, county or tribal government, and in implementing such full-time employment is sworn to uphold, and make arrests for violations of Federal, state, county or tribal law, if the recipient determines that the presence of the law enforcement officer on the Indian reservation or other Indian area may deter crime."

PROHIBITION ON THE USE OF FEDERAL ASSISTANCE
IN SUPPORT OF THE SALE OF TOBACCO PRODUCTS

SEC. 211. None of the funds appropriated in this or any other Act may be used by the Secretary of Housing and Urban Development to provide any grant or other assistance to construct, operate, or otherwise benefit a facility, or facility with a designated portion of that facility, which sells, or intends to sell, predominantly cigarettes or other tobacco products. For the purposes of this provision, predominant sale of cigarettes or other tobacco products means cigarette or tobacco sales representing more than 35 percent of the annual total in-store, non-fuel, sales.

PROHIBITION ON IMPLEMENTATION OF PUERTO RICO PUBLIC HOUSING ADMINISTRATION SETTLE-MENT AGREEMENT

SEC. 212. No funds may be used to implement the agreement between the Commonwealth of Puerto Rico, the Puerto Rico Public Housing Administration, and the Department of Housing and Urban Development, dated June 7, 2000, related to the allocation of operating subsidies for the Puerto Rico Public Housing Administration unless the Puerto Rico Public Housing Administration and the Department of Housing and Urban Development submit by December 31, 2000 a schedule of benchmarks and measurable goals to the House and Senate Committees on Appropriations designed to address issues of mismanagement and safeguards against fraud and abuse.

#### HOPE VI GRANT FOR HOLLANDER RIDGE

SEC. 213. The Housing Authority of Baltimore City may use the grant award of \$20,000,000 made to such authority for development efforts at Hollander Ridge in Baltimore, Maryland with funds appropriated for fiscal year 1996 under the heading "Public Housing Demolition, Site Revitalization, and Replacement Housing Grants" for use, as approved by the Secretary of Housing and Urban Development—

(1) for activities related to the revitalization of the Hollander Ridge site; and

(2) in accordance with section 24 of the United States Housing Act of 1937.

#### COMPUTER ACCESS FOR PUBLIC HOUSING RESIDENTS

Sec. 214. (a) USE OF PUBLIC HOUSING CAPITAL AND OPERATING FUNDS.—Section 9 of the United States Housing Act of 1937 is amended—

(1) in subsection (d)(1)(E), by inserting before the semicolon the following: ", including the establishment and initial operation of computer centers in and around public housing through a Neighborhood Networks initiative, for the purpose of enhancing the self-sufficiency, employability, and economic self-reliance of public housing residents by providing them with onsite computer access and training resources";

(2) in subsection (e)(1)—
(A) in subparagraph (I), by striking the word "and" at the end;

(B) in subparagraph (J), by striking the period and inserting "; and"; and

(C) by adding after subparagraph (I) the fol-

"(K) the costs of operating computer centers in public housing through a Neighborhood Networks initiative described in subsection (d)(1)(E), and of activities related to that initiative.": and

(3) in subsection (h)—

(A) in subsection (h)—
(A) in paragraph (6), by striking the word "and" at the end:

(B) in paragraph (7), by striking the period and inserting "; and"; and

(C) by inserting after paragraph (7) the following:

"(8) assistance in connection with the establishment and operation of computer centers in public housing through a Neighborhood Networks initiative described in subsection (d)(1)(E)."

(b) Demolition, Site Revitalization, Re-Placement Housing, and Tenant-Based As-Sistance Grants for Projects.—Section 24 of the United States Housing Act of 1937 is amended—

(1) in subsection (d)(1)(G), by inserting before the semicolon the following: ", including a Neighborhood Networks initiative for the establishment and operation of computer centers in public housing for the purpose of enhancing the self-sufficiency, employability, an economic self-reliance of public housing residents by providing them with onsite computer access and training resources'; and

(2) in subsection (m)(2), in the first sentence, by inserting before the period the following ", including assistance in connection with the establishment and operation of computer centers in public housing through the Neighborhoods Networks initiative described in subsection (d)(1)(G)".

#### MARK-TO-MARKET REFORM

SEC. 215. Notwithstanding any other provision of law, the properties known as the Hawthornes in Independence, Missouri shall be considered eligible multifamily housing projects for purposes of participating in the multifamily housing restructuring program pursuant to title V of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1998 (Public Law 105-65).

#### SECTION 236 EXCESS INCOME

SEC. 216. Section 236(g)(3)(A) of the National Housing Act is amended by striking out "fiscal year 2000" and inserting in lieu thereof "fiscal years 2000 and 2001".

#### CDBG ELIGIBILITY

SEC. 217. Section 102(a)(6)(D) of the Housing and Community Development Act of 1974 is amended by—

(1) in clause (v), striking out the "or" at the end:

(2) in clause (vi), striking the period at the end; and

(3) adding at the end the following new clause:

"(vii)(I) has consolidated its government with one or more municipal governments, such that within the county boundaries there are no universal areas, (II) has a population of not less than 650,000, (III) for more than 10 years, has been classified as a metropolitan city for purposes of allocating and distributing funds under section 106, and (IV) as of the date of enactment of this clause, has over 90 percent of the county's population within the jurisdiction of the consolidated government; or

"(viii) notwithstanding any other provision of this section, any county that was classified as an urban county pursuant to subparagraph (A) for fiscal year 1999, at the option of the county, may hereafter remain classified as an urban

county for purposes of this Act.".

 $\begin{array}{l} \textit{EXEMPTION FOR ALASKA AND MISSISSIPPI FROM} \\ \textit{REQUIREMENT OF RESIDENT ON BOARD OF PHA} \end{array}$ 

SEC. 218. Public housing agencies in the States of Alaska and Mississippi shall not be required to comply with section 2(b) of the United States Housing Act of 1937, as amended, during fiscal year 2001.

## USE OF MODERATE REHABILITATION FUNDS FOR HOME

SEC. 219. Notwithstanding any other provision of law, the Secretary of Housing and Urban Development shall make the funds available under contracts NY36K113004 and NY36K113005 of the Department of Housing and Urban Development available for use under the HOME Investment Partnerships Act and shall allocate such funds to the City of New Rochelle, New York.

## LOMA LINDA REPROGRAMMING

SEC. 220. Of the amounts made available under the sixth undesignated paragraph under the heading "Community Planning and Development—Community Development Grants" in title II of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999 (Public Law 105-276) for the Economic Development Initiative (EDI) for grants for targeted economic investments, the \$1,000,000 to be made available (pursuant to the related provisions of the joint explanatory statement in the conference report to accompany such Act (House Report 105-769)) to the City of Loma Linda, California, for infrastructure improvements at Redlands Boulevard and California Streets shall, notwithstanding such provisions, be made available to the City for infrastructure improvements related to the Mountain View Bridae.

#### NATIVE AMERICAN ELIGIBILITY FOR THE ROSS PROGRAM

SEC. 221. (a) Section 34 of the United States Housing Act of 1937 is amended(1) in the heading, by striking "PUBLIC HOUSING" and inserting "PUBLIC AND INDIAN HOUSING":

(2) in subsection (a)—

(A) by inserting after "residents," the following: "recipients under the Native American Housing Assistance and Self-Determination Act of 1996 (notwithstanding section 502 of such Act) on behalf of residents of housing assisted under such Act." and

(B) by inserting after "public housing residents" the second place it appears the following: "and residents of housing assisted under such Act".

(3) in subsection (b)—

(A) by inserting after "project" the first place it appears the following: "or the property of a recipient under such Act or housing assisted under such Act";

(B) by inserting after "public housing residents" the following: "or residents of housing assisted under such Act"; and

(C) in subsection (b)(1), by inserting after "public housing project" the following: "or residents of housing assisted under such Act"; and

(4) in subsection (d)(2), by striking "State or local" and inserting "State, local, or tribal".

(b) ASSESSMENT AND REPORT.—Section

(b) ASSESSMENT AND REPORT.—Section 538(b)(1) of the Quality Housing and Work Responsibility Act of 1998 is amended by inserting after "public housing" the following: "and housing assisted under the Native American Housing Assistance and Self-Determination Act of 1996".

## TREATMENT OF EXPIRING ECONOMIC DEVELOPMENT INITIATIVE GRANTS

SEC. 222. (a) AVAILABILITY.—Section 220(a) of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2000 (Public Law 106–74; 113 Stat. 1075) is amended by striking "September 30, 2000" and inserting "September 30, 2001".

(b) APPLICABILITY.—The Secretary of the Treasury and the Secretary of Housing and Urban Development shall take such actions as may be necessary to carry out such section 220 (as amended by this subsection (a) of this section) notwithstanding any actions taken previously pursuant to section 1552 of title 31, United States Code.

 $\begin{array}{c} \textit{HOME PROGRAM DISASTER FUNDING FOR ELDERLY} \\ \textit{HOUSING} \end{array}$ 

SEC. 223. Of the amounts made available under Chapter IX of the Supplemental Appropriations Act of 1993 for assistance under the HOME investment partnerships program to the city of Homestead, Florida (Public Law 103–50; 107 Stat. 262), up to \$583,926.70 shall be made available to Dade County, Florida, for use only for rehabilitating housing for low-income elderly persons, and such amount shall not be subject to the requirements of such program, except for section 288 of the HOME Investment Partnerships Act (42 U.S.C. 12838).

### CDBG PUBLIC SERVICES CAP

SEC. 224. Section 105(a)(8) of the Housing and Community Development Act of 1974 is amended by striking "1993" and all that follows through "City of Los Angeles" and inserting "1993 through 2001 to the City of Los Angeles".

EXTENSION OF APPLICABILITY OF DOWNPAYMENT SIMPLIFICATION PROVISIONS

SEC. 225. Subparagraph (A) of section 203(b)(10) of the National Housing Act (12 U.S.C. 1709(b)(10)(A)) is amended, in the matter that precedes clause (i), by striking "mortgage" and all that follows through "involving" and inserting "mortgage closed on or before December 31, 2002, involving".

 $\begin{array}{c} \textit{USE OF SUPPORTIVE HOUSING PROGRAM FUNDS} \\ \textit{FOR INFORMATION SYSTEMS} \end{array}$ 

SEC. 226. Section 423 of the Stewart B. McKinney Homeless Assistance Act is amended under

subsection (a) by adding the following paragraph:

grant for the costs of implementing and operating management information systems for purposes of collecting unduplicated counts of homeless people and analyzing patterns of use of assistance funded under this Act."

INDIAN HOUSING LOAN GUARANTEE REFORM SEC. 227. Section 184 of the Housing and Com-

munity Development Act of 1992 is amended—
(1) in subsection (a), by striking "or as a result of a lack of access to private financial markets": and

(2) in subsection (b)(2), by inserting "refinance," after "acquire,".

USE OF SECTION 8 VOUCHERS FOR OPT-OUTS

SEC. 228. Section  $\delta(t)(2)$  of the United States Housing Act of 1937 is amended by inserting after "contract for rental assistance under section  $\delta$  of the United States Housing Act of 1937 for such housing project" the following: "(including any such termination or expiration during fiscal years after fiscal year 1996 prior to the effective date of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001)".

HOMELESS DISCHARGE COORDINATION POLICY SEC. 229. (a) DISCHARGE COORDINATION POLICY.—Subtitle A of title IV of the Stewart B. McKinney Homeless Assistance Act is amended by adding at the end the following new section: "SEC. 402. DISCHARGE COORDINATION POLICY.

"The Secretary may not provide a grant under this title for any governmental entity serving as an applicant unless the applicant agrees to develop and implement, to the maximum extent practicable and where appropriate, policies and protocols for the discharge of persons from publicly funded institutions or systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent such discharge from immediately resulting in homelessness for such persons."

(b) ASSISTÂNCE UNDER EMERGENCY SHELTER GRANTS PROGRAM.—Section 414(a)(4) of the Stewart B. McKinney Homeless Assistance Act is amended—

(1) in the matter preceding subparagraph (A), by inserting a comma after "homelessness";

(2) by striking "Not" and inserting the following: "Activities that are eligible for assistance under this paragraph shall include assistance to very low-income families who are discharged from publicly funded institutions or systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions). Not".

### TECHNICAL CHANGE TO SENIORS HOUSING COMMISSION

SEC. 230. Section 525 of the Preserving Affordable Housing for Senior Citizens and Families into the 21st Century Act" (42 U.S.C. 12701 note) is amended in subsection (a) by striking "Commission on Affordable Housing and Health Care Facility Needs in the 21st Century" and inserting "Commission on Affordable Housing and Health Facility Needs for Seniors in the 21st Century".

INTERAGENCY COUNCIL ON THE HOMELESS REFORMS

SEC. 231. Title II of the Stewart B. McKinney Homeless Assistance Act is amended—

(1) in section 202, under subsection (b) by inserting after the period the following:

"The positions of Chairperson and Vice Chairperson shall rotate among its members on an annual basis.": and

an annual basis."; and
(2) in section 209 by striking "1994" and inserting "2005".

SECTION 8 PHA PROJECT-BASED ASSISTANCE

SEC. 232. (a) IN GENERAL.—Paragraph (13) of section 8(o) of the United States Housing Act of

1937 (42 U.S.C. 1437f(o)(13)) is amended to read as follows:

"(13) PHA PROJECT-BASED ASSISTANCE.—

"(A) IN GENERAL.—A public housing agency may use amounts provided under an annual contributions contract under this subsection to enter into a housing assistance payment contract with respect to an existing, newly constructed, or rehabilitated structure, that is attached to the structure, subject to the limitations and requirements of this paragraph.

"(B) PERCENTAGE LIMITATION.—Not more than 20 percent of the funding available for tenant-based assistance under this section that is administered by the agency may be attached to structures pursuant to this paragraph.

"(C) Consistency with Pha Plan and other GOALS.—A public housing agency may approve a housing assistance payment contract pursuant to this paragraph only if the contract is consistent with—

"(i) the public housing agency plan for the agency approved under section 5A; and

"(ii) the goal of deconcentrating poverty and expanding housing and economic opportunities. "(D) INCOME MIXING REQUIREMENT.—

"(i) IN GENERAL.—Not more than 25 percent of the dwelling units in any building may be assisted under a housing assistance payment contract for project-based assistance pursuant to this paragraph.

"(ii) EXCEPTIONS.—The limitation under clause (i) shall not apply in the case of assistance under a contract for housing consisting of single family properties or for dwelling units that are specifically made available for households comprised of elderly families, disabled families, and families receiving supportive services.

"(E) RESIDENT CHOICE REQUIREMENT.—A housing assistance payment contract pursuant to this paragraph shall provide as follows:

"(i) MOBILITY.—Each low-income family occupying a dwelling unit assisted under the contract may move from the housing at any time after the family has occupied the dwelling unit for 12 months.

"(ii) CONTINUED ASSISTANCE.—Upon such a move, the public housing agency shall provide the low-income family with tenant-based rental assistance under this section or such other tenant-based rental assistance that is subject to comparable income, assistance, rent contribution, affordability, and other requirements, as the Secretary shall provide by regulation. If such rental assistance is not immediately available to fulfill the requirement under the preceding sentence with respect to a low-income family, such requirement may be met by providing the family priority to receive the next voucher or other tenant-based rental assistance amounts that become available under the program used to fulfill such requirement.

'(F) CONTRACT TERM.—A housing assistance payment contract pursuant to this paragraph between a public housing agency and the owner of a structure may have a term of up to 10 years, subject to the availability of sufficient appropriated funds for the purpose of renewing expiring contracts for assistance payments, as provided in appropriations Acts and in the agency's annual contributions contract with the Secretary, and to annual compliance with the inspection requirements under paragraph (8), except that the agency shall not be required to make annual inspections of each assisted unit in the development. The contract may specify additional conditions for its continuation. If the units covered by the contract are owned by the agency, the term of the contract shall be agreed upon by the agency and the unit of general local government or other entity approved by the Secretary in the manner provided under paragraph (11).

"(G) EXTENSION OF CONTRACT TERM.—A public housing agency may enter into a contract with the owner of a structure assisted under a housing assistance payment contract pursuant to this paragraph to extend the term of the underlying housing assistance payment contract for such period as the agency determines to be appropriate to achieve long-term affordability of the housing or to expand housing opportunities. Such a contract shall provide that the extension of such term shall be contingent upon the future availability of appropriated funds for the purpose of renewing expiring contracts for assistance payments, as provided in appropriations Acts, and may obligate the owner to have such extensions of the underlying housing assistance payment contract accepted by the owner and the successors in interest of the owner.

"(H) RENT CALCULATION.—A housing assistance payment contract pursuant to this paragraph shall establish rents for each unit assisted in an amount that does not exceed 110 percent of the applicable fair market rental (or any exception payment standard approved by the Secretary pursuant to paragraph (1)(D)), except that if a contract covers a dwelling unit that has been allocated low-income housing tax credits pursuant to section 42 of the Internal Revenue Code of 1986 (26 U.S.C. 42) and is not located in a qualified census tract (as such term is defined in subsection (d) of such section 42). the rent for such unit may be established at any level that does not exceed the rent charged for comparable units in the building that also receive the low-income housing tax credit but do not have additional rental assistance. The rents established by housing assistance payment contracts pursuant to this paragraph may vary from the payment standards established by the public housing agency pursuant to paragraph (1)(B), but shall be subject to paragraph (10)(A).

"(I) RENT ADJUSTMENTS.—A housing assistance payments contract pursuant to this paragraph shall provide for rent adjustments, except

"(i) the adjusted rent for any unit assisted shall be reasonable in comparison with rents charged for comparable dwelling units in the private, unassisted, local market and may not exceed the maximum rent permitted under subparagraph (H); and

"(ii) the provisions of subsection (c)(2)(C) shall not apply.

"(J) TENANT SELECTION.—A public housing agency shall select families to receive projectbased assistance pursuant to this paragraph from its waiting list for assistance under this subsection. Eligibility for such project-based assistance shall be subject to the provisions of section 16(b) that apply to tenant-based assistance. The agency may establish preferences or criteria for selection for a unit assisted under this paragraph that are consistent with the public housing agency plan for the agency approved under section 5A. Any family that rejects an offer of project-based assistance under this paragraph or that is rejected for admission to a structure by the owner or manager of a structure assisted under this paragraph shall retain its place on the waiting list as if the offer had not been made. The owner or manager of a structure assisted under this paragraph shall not admit any family to a dwelling unit assisted under a contract pursuant to this paragraph other than a family referred by the public housing agency from its waiting list. Subject to its waiting list policies and selection preferences, a public housing agency may place on its waiting list a family referred by the owner or manager of a structure and may maintain a separate waiting list for assistance under this paragraph, but only if all families on the agency's waiting list for assistance under this subsection are permitted to place their names on the separate list.

"(K) VACATED UNITS.—Notwithstanding paragraph (9), a housing assistance payment contract pursuant to this paragraph may provide as follows:

"(i) PAYMENT FOR VACANT UNITS.—That the public housing agency may, in its discretion, continue to provide assistance under the contract, for a reasonable period not exceeding 60 days, for a dwelling unit that becomes vacant, but only (I) if the vacancy was not the fault of the owner of the dwelling unit, and (II) the agency and the owner take every reasonable action to minimize the likelihood and extent of any such vacancy. Rental assistance may not be provided for a vacant unit after the expiration of such period.

"(ii) REDUCTION OF CONTRACT.—That, if despite reasonable efforts of the agency and the owner to fill a vacant unit, no eligible family has agreed to rent the unit within 120 days after the owner has notified the agency of the vacancy, the agency may reduce its housing assistance payments contract with the owner by the amount equivalent to the remaining months of subsidy attributable to the vacant unit. Amounts deobligated pursuant to such a contract provision shall be available to the agency to provide assistance under this subsection.

Eligible applicants for assistance under this subsection may enforce provisions authorized by this subparagraph.".

(b) APPLICABILITY.—In the case of any dwelling unit that, upon the date of the enactment of this Act, is assisted under a housing assistance payment contract under section 8(0)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(0)(13)) as in effect before such enactment, such assistance may be extended or renewed notwithstanding the requirements under subparagraphs (C), (D), and (E) of such section 8(0)(13), as amended by subsection (a).

DISPOSITION OF HUD-HELD AND HUD-OWNED MUL-TIFAMILY PROJECTS FOR THE ELDERLY OR DIS-ABLED

SEC. 233. Notwithstanding any other provision of law, in managing and disposing of any multifamily property that is owned or held by the Secretary and is occupied primarily by elderly or disabled families, the Secretary of Housing and Urban Development shall maintain any rental assistance payments under section 8 of the United States Housing Act of 1937 that are attached to any dwelling units in the property. To the extent the Secretary determines that such a multifamily property owned or held by the Secretary is not feasible for continued rental assistance payments under such section 8, the Secretary may, in consultation with the tenants of that property, contract for project-based rental assistance payments with an owner or owners of other existing housing properties or provide other rental assistance.

FAMILY UNIFICATION PROGRAM

SEC. 234. Section 8(x)(2) of the United States Housing Act of 1937 (42 U.S.C 1437f(x)(2)) is amended—

(1) by striking "any family (A) who is otherwise eligible for such assistance, and (B)" and inserting "(A) any family (i) who is otherwise eligible for such assistance, and (ii)"; and

(2) by inserting before the period at the end the following: "and (B) for a period not to exceed 18 months, otherwise eligible youths who have attained at least 18 years of age and not more than 21 years of age and who have left foster care at age 16 or older".

 $\begin{array}{c} PERMANENT\ EXTENSION\ OF\ FHA\ MULTIFAMILY\\ MORTGAGE\ CREDIT\ DEMONSTRATIONS \end{array}$ 

SEC. 235. Section 542 of the Housing and Community Development Act of 1992 (12 U.S.C. 1707 note) is amended—

(1) in subsection (a)—

(A) in the first sentence, by striking "demonstrate the effectiveness of providing" and inserting "provide"; and

(B) in the second sentence, by striking "demonstration" and inserting "the";

(2) in subsection (b)—

(A) in paragraph (1), by striking "determine the effectiveness of" and inserting "provide"; and

(B) by striking paragraph (5), and inserting the following new paragraph:

"(5) INSURANCE AUTHORITY.—Using any authority provided in appropriation Acts to insure mortgages under the National Housing Act, the Secretary may enter into commitments under this subsection for risk-sharing units.";

(3) in subsection (c)-

(A) in paragraph (1), by striking "test the effectiveness of" and inserting "provide"; and

(B) by striking paragraph (4) and inserting the following new paragraph:

"(4) INSURANCE AUTHORITY.—Using any authority provided in appropriation Acts to insure mortgages under the National Housing Act, the Secretary may enter into commitments under

this subsection for risk-sharing units.";
(4) by striking subsection (d):

(4) by striking subsection (d);(5) by striking "pilot" and "PILOT" each place such terms appear; and

(6) in the section heading, by striking "demonstrations" and inserting "programs".

(relating to activities including the AmeriCorps program), of which not more than \$45,000,000 may be used to administer, reimburse, or support any national service program authorized under section 121(d)(2) of such Act (42 U.S.C. 12581(d)(2)); and not more than \$25,000,000 may be made available to activities dedicated to developing computer and information technology skills for students and teachers in low-income commu-

nities: Provided further, That not more than \$10,000,000 of the funds made available under this heading shall be made available for the Points of Light Foundation for activities authorized under title III of the Act (42 U.S.C. 12661 et seq.): Provided further, That no funds shall be available for national service programs run by Federal agencies authorized under section 121(b) of such Act (42 U.S.C. 12571(b)): Provided further. That to the maximum extent feasible, funds appropriated under subtitle C of title I of the Act shall be provided in a manner that is consistent with the recommendations of peer review panels in order to ensure that priority is given to programs that demonstrate quality, innovation, replicability, and sustainability: Provided further, That not more than \$21,000,000 of the funds made available under this heading shall be available for the Civilian Community Corps authorized under subtitle E of title I of the Act (42 U.S.C. 12611 et seq.): Provided further, That not more than \$43,000,000 shall be available for school-based and community-based service-learning programs authorized under subtitle B of title I of the Act (42 U.S.C. 12521 et seq.): Provided further, That not more than \$28,500,000 shall be available for quality and innovation activities authorized under subtitle H of title I of the Act (42 U.S.C. 12853 et seq.): Provided further, That not more than \$5,000,000 shall be available for audits and other evaluations authorized under section 179 of the Act (42 U.S.C. 12639): Provided further, That to the maximum extent practicable, the Corporation shall increase significantly the level of matching funds and in-kind contributions provided by the private sector, shall expand significantly the number of educational awards provided under subtitle D of title I, and shall reduce the total Federal costs per participant in all programs: Provided further, That of amounts available in the National Service Trust account from previous appropriations Acts, \$30,000,000 shall be rescinded: Provided further. That not more than \$7,500,000 of the funds made available under this heading shall be made available to America's Promise—The Alliance for Youth, Inc. only to support efforts to mobilize individuals, groups, and organizations to build and strengthen the character and competence of the Nation's youth: Provided further, That not more than \$5,000,000 of the funds made available under this heading shall be made available to the Communities In Schools, Inc. to support dropout prevention activities: Provided further, That not more than \$2,500,000 of the funds made available under this heading shall be made available to the Parents as Teachers National Center, Inc. to support childhood parent education and family support activities: Provided further, That not more than \$2,500,000 of the funds made available under this heading shall be made available to the Boys and Girls Clubs of America to establish an innovative outreach program designed to meet the special needs of youth in public and Native American housing communities: Provided further, That not more than \$1,500,000 of the funds made available under this heading shall be made available to the Youth Life Foundation to meet the needs of children living in insecure environments.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the Inspector General Act of 1978, as amended, \$5,000,000, which shall be available for obligation through September 30, 2002.

### ADMINISTRATIVE PROVISION

The Department of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2000 (Public Law 106–74) is amended under the heading "Corporation for National and Community Service, National and Community Service Programs Operating Expenses" in title III by reducing to \$229,000,000 the amount available for grants under the National Service Trust program authorized under subtitle C of title I of the National and Community Service Act of 1990 (the "Act") (with a corresponding reduction to \$40,000,000 in the amount that may be used to administer, reimburse, or support any national service program authorized under section 121(d)(2) of the Act), and by increasing to \$33,500,000 the amount available for quality and innovation activities authorized under subtitle H of title I of the Act, with the increase in subtitle H funds made available to provide a grant covering a period of three years to support the "P.A.V.E. the Way" project described in House Report 106-379.

## COURT OF APPEALS FOR VETERANS CLAIMS SALARIES AND EXPENSES

For necessary expenses for the operation of the United States Court of Appeals for Veterans Claims as authorized by 38 U.S.C. 7251-7298, \$12,445,000, of which \$895,000 shall be available for the purpose of providing financial assistance as described, and in accordance with the process and reporting procedures set forth, under this heading in Public Law 102-229.

DEPARTMENT OF DEFENSE—CIVIL CEMETERIAL EXPENSES, ARMY SALARIES AND EXPENSES

For necessary expenses, as authorized by law, for maintenance, operation, and improvement of Arlington National Cemetery and Soldiers' and Airmen's Home National Cemetery, including the purchase of two passenger motor vehicles for replacement only, and not to exceed \$1,000 for official reception and representation expenses, \$17,949,000, to remain available until expended.

DEPARTMENT OF HEALTH AND HUMAN SERVICES
NATIONAL INSTITUTES OF HEALTH

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH
SCIENCES

For necessary expenses for the National Institute of Environmental Health Sciences in carrying out activities set forth in section 311(a) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, \$63,000,000.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE
REGISTRY

## SALARIES AND EXPENSES

For necessary expenses for the Agency for Toxic Substances and Disease Registry (ATSDR) in carrying out activities set forth in sections 104(i), 111(c)(4), and 111(c)(14) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended; section 118(f) of the Superfund Amendments and Reauthorization Act of 1986 (SARA), as amended; and section 3019 of the Solid Waste Disposal Act, as amended, \$75,000,000, to be derived from the Hazardous Substance Superfund Trust Fund pursuant to section 517(a) of SARA (26 U.S.C. 9507): Provided, That not withstanding any other provision of law, in lieu of performing a health assessment under section 104(i)(6) of CERCLA, the Administrator of ATSDR may conduct other appropriate health studies, evaluations, or activities, including, without limitation, biomedical testing, clinical evaluations, medical monitoring, and referral to accredited health care providers: Provided further, That in performing any such health assessment or health study, evaluation, or activity, the Administrator of ATSDR shall not be bound by the deadlines in section 104(i)(6)(A) of CERCLA: Provided further, That none of the funds appropriated under this heading shall be available for the Agency for Toxic Substances and Disease Registry to issue in excess of 40 toxicological profiles pursuant to section 104(i) of CERCLA during fiscal year 2001, and existing profiles may be updated as necessary.

ENVIRONMENTAL PROTECTION AGENCY SCIENCE AND TECHNOLOGY

For science and technology, including research and development activities, which shall include research and development activities under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended; necessary expenses for personnel and related costs and travel expenses, including uniforms, or allowances therefore, as authorized by 5 U.S.C. 5901-5902; services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the maximum rate payable for senior level positions under 5 U.S.C. 5376; procurement of laboratory equipment and supplies; other operating expenses in support of research and development; construction, alteration, repair, rehabilitation, and renovation of facilities, not to exceed \$75,000 per project, \$696,000,000, which shall remain available until September 30, 2002.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

For environmental programs and management, including necessary expenses, not otherwise provided for, for personnel and related costs and travel expenses, including uniforms, or allowances therefore, as authorized by 5 U.S.C. 5901-5902; services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the maximum rate payable for senior level positions under 5 U.S.C. 5376; hire of passenger motor vehicles; hire, maintenance, and operation of aircraft; purchase of reprints; library memberships in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members; construction, alteration, repair, rehabilitation, and renovation of facilities, not to exceed \$75,000 per project; and not to exceed \$6,000 for official reception and representation expenses, \$2,087,990,000, which shall remain available until September 30, 2002: Provided, That none of the funds appropriated by this Act shall be used to propose or issue rules, regulations, decrees, or orders for the purpose of implementation, or in preparation for implementation, of the Kyoto Protocol which was adopted on December 11, 1997, in Kyoto, Japan at the Third Conference of the Parties to the United Nations Framework Convention on Climate Change, which has not been submitted to the Senate for advice and consent to ratification pursuant to article II, section 2, clause 2, of the United States Constitution, and which has not entered into force pursuant to article 25 of the Protocol: Provided further, That none of the funds made available in this Act may be used to implement or administer the interim guidance issued on February 5, 1998, by the Environmental Protection Agency relating to title VI of the Civil Rights Act of 1964 and designated as the "Interim Guidance for Investigating Title VI Administrative Complaints Challenging Permits" with respect to complaints filed under such title after October 21, 1998, and until guidance is finalized. Nothing in this proviso may be construed to restrict the Environmental Protection Agency from developing or issuing final guidance relating to title VI of the Civil Rights Act of 1964: Provided further, That notwithstanding section 1412(b)(12)(A)(v) of the Safe Drinking Water Act, as amended, the Administrator shall promulgate a national primary drinking water regulation for arsenic not later than June 22, 2001.

### OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, and for construction, alteration, repair, reha-

bilitation, and renovation of facilities, not to exceed \$75,000 per project, \$34,094,000, to remain available until September 30, 2002.

#### BUILDINGS AND FACILITIES

For construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities of, or for use by, the Environmental Protection Agency, \$23,931,000, to remain available until expended.

## HAZARDOUS SUBSTANCE SUPERFUND (INCLUDING TRANSFERS OF FUNDS)

For necessary expenses to carry out the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended, including sections 111(c)(3), (c)(5), (c)(6), and (e)(4) (42 U.S.C. 9611), and for construction, alteration, repair, rehabilitation, and  $renovation\ of\ facilities,\ not\ to\ exceed\ \$75,000\ per$ project; \$1,270,000,000 (of which \$100,000,000 shall not become available until September 1, 2001), to remain available until expended, consisting of \$635,000,000, as authorized by section 517(a) of the Superfund Amendments and Reauthorization Act of 1986 (SARA), as amended by Public Law 101-508, and \$635,000,000 as a payment from general revenues to the Hazardous Substance Superfund for purposes as authorized by section 517(b) of SARA, as amended: Provided, That funds appropriated under this heading may be allocated to other Federal agencies in accordance with section 111(a) of CERCLA: Provided further, That of the funds appropriated under this heading, \$11,500,000 shall be transferred to the "Office of Inspector General" appropriation to remain available until September 30, 2002, and \$36,500,000 shall be transferred to the "Science and technology" appropriation to remain available until September 30, 2002.

LEAKING UNDERGROUND STORAGE TANK PROGRAM For necessary expenses to carry out leaking underground storage tank cleanup activities authorized by section 205 of the Superfund Amendments and Reauthorization Act of 1986, and for construction, alteration, repair, rehabilitation, and renovation of facilities, not to exceed \$75,000 per project, \$72,096,000, to remain available until expended.

## OIL SPILL RESPONSE

For expenses necessary to carry out the Environmental Protection Agency's responsibilities under the Oil Pollution Act of 1990, \$15,000,000, to be derived from the Oil Spill Liability trust fund, to remain available until expended.

## STATE AND TRIBAL ASSISTANCE GRANTS

For environmental programs and infrastructure assistance, including capitalization grants for State revolving funds and performance partnership grants, \$3,628,740,000, to remain available until expended, of which \$1,350,000,000 shall be for making capitalization grants for the Clean Water State Revolving Funds under title VI of the Federal Water Pollution Control Act, as amended; \$825,000,000 shall be for capitalization grants for the Drinking Water State Revolving Funds under section 1452 of the Safe Drinking Water Act, as amended, except that, notwithstanding section 1452(n) of the Safe Drinking Water Act, as amended, none of the funds made available under this heading in this Act, or in previous appropriations Acts, shall be reserved by the Administrator for health effects studies on drinking water contaminants; \$75,000,000 shall be for architectural, engineering, planning, design, construction and related activities in connection with the construction of high priority water and wastewater facilities in the area of the United States-Mexico Border, after consultation with the appropriate border commission; \$35,000,000 shall be for grants to the State of Alaska to address drinking water and wastewater infrastructure needs of rural and Alaska Native Villages; \$335,740,000 shall be for making grants for the construction of wastewater and water treatment facilities and groundwater protection infrastructure in accordance with the terms and conditions specified for such grants in the conference report and joint explanatory statement of the committee of conference accompanying this Act, except that, notwithstanding any other provision of law, of the funds herein and hereafter appropriated under this heading for such special needs infrastructure grants, the Administrator may use up to 3 percent of the amount of each project appropriated to administer the management and oversight of construction of such projects through contracts, allocation to the Corps of Engineers, or grants to States; and \$1,008,000,000 shall be for grants, including associated program support costs, to States, federally recognized tribes, interstate agencies, tribal consortia, and air pollution control agencies for multimedia or single media pollution prevention, control and abatement and related activities, including activities pursuant to the provisions set forth under this heading in Public Law 104-134, and for making grants under section 103 of the Clean Air Act for particulate matter monitoring and data collection activities: Provided, That notwithstanding section 603(d)(7) of the Federal Water Pollution Control Act, as amended, the limitation on the amounts in a State water pollution control revolving fund that may be used by a State to administer the fund shall not apply to amounts included as principal in loans made by such fund in fiscal year 2001 and prior years where such amounts represent costs of administering the fund to the extent that such amounts are or were deemed reasonable by the Administrator, accounted for separately from other assets in the fund, and used for eligible purposes of the fund, including administration: Provided further, That for fiscal year 2001, and notwithstanding section 518(f) of the Federal Water Pollution Control Act, as amended, the Administrator is authorized to use the amounts appropriated for any fiscal year under section 319 of that Act to make grants to Indian tribes pursuant to section 319(h) and 518(e) of that Act: Provided further, That for fiscal year 2001, notwithstanding the limitation on amounts in section 518(c) of the Federal Water Pollution Control Act, as amended, up to a total of 11/2 percent of the funds appropriated for State Revolving Funds under Title VI of that Act may be reserved by the Administrator for grants under section 518(c) of such Act: Provided further, That no funds provided by this legislation to address the water, wastewater and other critical infrastructure needs of the colonias in the United States along the United States-Mexico border shall be made available after June 1, 2001 to a county or municipal government unless that government has established an enforceable local ordinance, or other zoning rule, which prevents in that jurisdiction the development or construction of any additional colonia areas, or the development within an existing colonia the construction of any new home, business, or other structure which lacks water, wastewater. or other necessary infrastructure: Provided further, That notwithstanding any other provision of law, all claims for principal and interest registered through any current grant dispute or any other such dispute hereafter filed by the Environmental Protection Agency relative to construction grants numbers C-180840-01, C-180840-04, C-470319-03, and C-470319-04, are hereby resolved in favor of the grantee: Provided further, That EPA, in considering the local match for the \$5,000,000 appropriated in fiscal year 1999 for the City of Cumberland, Maryland, to separate and relocate the city's combined sewer and stormwater system, shall take into account non-federal money spent by the City of Cumberland for combined sewer, stormwater and wastewater treatment infrastructure on or after October 1, 1999, and that the fiscal year 1999 and any subsequent funds may be used for any required non-federal share of the costs of projects funded by the federal government under Section 580 of Public Law 106-53.

#### ADMINISTRATIVE PROVISIONS

For fiscal year 2001 and thereafter, the obligated balances of sums available in multipleyear appropriations accounts shall remain available through the seventh fiscal year after their period of availability has expired for liquidating obligations made during the period of availability.

For fiscal year 2001, notwithstanding 31 U.S.C. 6303(1) and 6305(1), the Administrator of the Environmental Protection Agency, in carrying out the Agency's function to implement directly Federal environmental programs required or authorized by law in the absence of an acceptable tribal program, may award cooperative agreements to federally-recognized Indian Tribes or Intertribal consortia, if authorized by their member Tribes, to assist the Administrator in implementing Federal environmental programs for Indian Tribes required or authorized by law, except that no such cooperative agreements may be awarded from funds designated for State financial assistance agreements.

Section 176(c) of the Clean Air Act, as amended, is amended by adding at the end the following new paragraph:

'(6) Notwithstanding paragraph 5, this subsection shall not apply with respect to an area designated non attainmentunder section 107(d)(1) until one year after that area is first designated nonattainment for a specific national ambient air quality standard. This paragraph only applies with respect to the national ambient air quality standard for which an area is newly designated nonattainment and does not affect the area's requirements with respect to all other national ambient air quality standards for which the area is designated nonattainment or has been redesignated from nonattainment to attainment with a maintenance plan pursuant to section 175(A) (including any pre-existing national ambient air quality standard for a pollutant for which a new or revised standard has been issued).".

## EXECUTIVE OFFICE OF THE PRESIDENT

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

For necessary expenses of the Office of Science and Technology Policy, in carrying out the purposes of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6601 and 6671), hire of passenger motor vehicles, and services as authorized by 5 U.S.C. 3109, not to exceed \$2,500 for official reception and representation expenses, and rental of conference rooms in the District of Columbia, \$5,201,000.

## COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

For necessary expenses to continue functions assigned to the Council on Environmental Quality and Office of Environmental Quality pursuant to the National Environmental Policy Act of 1969, the Environmental Quality Improvement Act of 1970, and Reorganization Plan No. 1 of \$2,900,000: Provided, That, notwithstanding any other provision of law, no funds other than those appropriated under this heading shall be used for or by the Council on Environmental Quality and Office of Environmental Quality: Provided further, That notwithstanding section 202 of the National Environmental Policy Act of 1970, the Council shall consist of one member, appointed by the President, by and with the advice and consent of the Senate, serving as chairman and exercising all powers, functions, and duties of the Council.

FEDERAL DEPOSIT INSURANCE CORPORATION OFFICE OF INSPECTOR GENERAL

(TRANSFER OF FUNDS)

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$33,660,000, to be derived from the Bank Insurance Fund, the Savings Association Insurance Fund and the FSLIC Resolution Fund.

FEDERAL EMERGENCY MANAGEMENT AGENCY

#### DISASTER RELIEF

#### (INCLUDING TRANSFER OF FUNDS)

For necessary expenses in carrying out the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), \$300,000,000, and, notwithstanding 42 U.S.C. 5203, to remain available until expended, of which not to exceed \$2,900,000 may be transferred to "Emergency management planning and assistance" for the consolidated emergency management performance grant program; and up to \$15,000,000 may be obligated for flood map modernization activities following disaster declarations: Provided, That of the funds made available under this heading in this and prior Appropriations Acts and under section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act to the State of Florida. \$3,000,000 shall be for a hurricane mitigation initiative in Miami-Dade County.

For an additional amount for "Disaster relief", \$1,300,000,000, to remain available until expended: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That the entire amount shall be available only to the extent that an official budget request for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, is transmitted by the President to the Congress.

## $\begin{array}{c} \textit{DISASTER ASSISTANCE DIRECT LOAN PROGRAM} \\ \textit{ACCOUNT} \end{array}$

For the cost of direct loans, \$1,678,000, as authorized by section 319 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That these funds are available to subsidize gross obligations for the principal amount of direct loans not to exceed \$25,000,000.

In addition, for administrative expenses to carry out the direct loan program, \$427,000.

## SALARIES AND EXPENSES

For necessary expenses, not otherwise provided for, including hire and purchase of motor vehicles as authorized by 31 U.S.C. 1343; uniforms, or allowances therefor, as authorized by 5 U.S.C. 5901-5902; services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the maximum rate payable for senior level positions under 5 U.S.C. 5376; expenses of attendance of cooperating officials and individuals at meetings concerned with the work of emergency preparedness; transportation in connection with the continuity of Government programs to the same extent and in the same manner as permitted the Secretary of a Military Department under 10 U.S.C. 2632; and not to exceed \$2,500 for official reception and representation expenses, \$215,000,000.

## OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the Inspector General Act of 1978, as amended, \$10,000,000:

Provided, That notwithstanding any other provision of law, the Inspector General of the Federal Emergency Management Agency shall also serve as the Inspector General of the Chemical Safety and Hazard Investigation Board.

## $\frac{EMERGENCY\ MANAGEMENT\ PLANNING\ AND}{ASSISTANCE}$

For necessary expenses, not otherwise provided for, to carry out activities under the National Flood Insurance Act of 1968, as amended, and the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4001 et seq.), the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), the Earthquake Hazards Reduction Act of 1977, as amended (42 U.S.C. 7701 et seq.), the Federal Fire Prevention and Control Act of 1974, as amended (15 U.S.C. 2201 et seq.), the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 et seq.), sections 107 and 303 of the National Security Act of 1947, as amended (50 U.S.C. 404-405), and Reorganization Plan No. 3 of 1978, \$269,652,000: Provided, That for purposes of predisaster mitigation pursuant to 42 U.S.C. 5131(b) and (c) and 42 U.S.C. 5196(e) and (i), \$25,000,000 of the funds made available under this heading shall be available until expended for project grants.

#### RADIOLOGICAL EMERGENCY PREPAREDNESS FUND

The aggregate charges assessed during fiscal year 2001, as authorized by Public Law 106–74, shall not be less than 100 percent of the amounts anticipated by FEMA necessary for its radiological emergency preparedness program for the next fiscal year. The methodology for assessment and collection of fees shall be fair and equitable; and shall reflect costs of providing such services, including administrative costs of collecting such fees. Fees received pursuant to this section shall be deposited in the Fund as offsetting collections and will become available for authorized purposes on October 1, 2001, and remain available until expended.

## EMERGENCY FOOD AND SHELTER PROGRAM

To carry out an emergency food and shelter program pursuant to title III of Public Law 100–77, as amended, \$140,000,000, to remain available until expended: Provided, That total administrative costs shall not exceed 3½ percent of the total appropriation.

## NATIONAL FLOOD INSURANCE FUND

## (INCLUDING TRANSFER OF FUNDS)

For activities under the National Flood Insurance Act of 1968, the Flood Disaster Protection Act of 1973, as amended, not to exceed \$25,736,000 for salaries and expenses associated with flood mitigation and flood insurance operations, and not to exceed \$77,307,000 for flood mitigation, including up to \$20,000,000 for expenses under section 1366 of the National Flood Insurance Act, which amount shall be available for transfer to the National Flood Mitigation Fund until September 30, 2002. In fiscal year 2001, no funds in excess of: (1) \$55,000,000 for operating expenses; (2) \$455,627,000 for agents' commissions and taxes; and (3) \$40,000,000 for interest on Treasury borrowings shall be available from the National Flood Insurance Fund without prior notice to the Committees on Appropriations.

In addition, up to \$17,730,000 in fees collected but unexpended during fiscal years 1994 through 1998 shall be transferred to the Flood Map Modernization Fund and available for expenditure in fiscal year 2001.

Section 1309(a)(2) of the National Flood Insurance Act of 1968 (42 U.S.C. 4016(a)(2)), as amended by Public Law 104–208, is further amended by striking "September 30, 2000" and inserting "December 31, 2001".

The first sentence of section 1376(c) of the National Flood Insurance Act of 1968, as amended

(42 U.S.C. 4127(c)), is amended by striking "September 30, 2000" and inserting "December 31, 2001".

## $NATIONAL\ FLOOD\ MITIGATION\ FUND$

### (INCLUDING TRANSFER OF FUNDS)

Notwithstanding sections 1366(b)(3)(B)–(C) and 1366(f) of the National Flood Insurance Act of 1968, as amended, \$20,000,000 to remain available until September 30, 2002, for activities designed to reduce the risk of flood damage to structures pursuant to such Act, of which \$20,000,000 shall be derived from the National Flood Insurance Fund.

#### General Services Administration

FEDERAL CONSUMER INFORMATION CENTER FUND For necessary expenses of the Federal Consumer Information Center, including services authorized by 5 U.S.C. 3109, \$7,122,000, to be deposited into the Federal Consumer Information Center Fund: Provided, That the appropriations, revenues, and collections deposited into the Fund shall be available for necessary expenses of Federal Consumer Information Center activities in the aggregate amount of \$12,000,000. Appropriations, revenues, and collections accruing to this Fund during fiscal year 2001 in excess of \$12,000,000 shall remain in the Fund and shall not be available for expenditure except as authorized in appropriations Acts.

#### NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

#### HUMAN SPACE FLIGHT

For necessary expenses, not otherwise provided for, in the conduct and support of human space flight research and development activities, including research, development, operations, and services; maintenance; construction of facilities including revitalization and modification of facilities, construction of new facilities and additions to existing facilities, facility planning and design, and acquisition or condemnation of real property, as authorized by law; space flight, spacecraft control and communications activities including operations, production, and services; and purchase, lease, charter, maintenance and operation of mission and administrative aircraft, \$5,462,900,000, to remain available until September 30, 2002.

### SCIENCE, AERONAUTICS AND TECHNOLOGY

For necessary expenses, not otherwise provided for, in the conduct and support of science, aeronautics and technology research and development activities, including research, development, operations, and services; maintenance; construction of facilities including revitalization, and modification of facilities, construction of new facilities and additions to existing facilities, facility planning and design, and acquisition or condemnation of real property, as authorized by law; space flight, spacecraft control and communications activities including operations, production, and services; and purchase, lease, charter, maintenance and operation of andadministrative\$6,190,700,000, to remain available until September 30, 2002.

## MISSION SUPPORT

For necessary expenses, not otherwise provided for, in carrying out mission support for human space flight programs and science, aeronautical, and technology programs, including research operations and support; maintenance; construction of facilities including revitalization and modification of facilities, construction of new facilities and additions to existing facilities, facility planning and design, environmental compliance and restoration, and acquisition or condemnation of real property, as authorized by law; program management; personnel and related costs, including uniforms or allowances therefor, as authorized by 5 U.S.C. 5901-5902;

travel expenses; purchase, lease, charter, maintenance, and operation of mission and administrative aircraft; not to exceed \$40,000 for official reception and representation expenses; and purchase (not to exceed 33 for replacement only) and hire of passenger motor vehicles, \$2,608,700,000 to remain available until September 30, 2002.

### OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the Inspector General Act of 1978, as amended, \$23,000,000.

#### ADMINISTRATIVE PROVISIONS

Notwithstanding the limitation on the availability of funds appropriated for "Human space flight", "Science, aeronautics and technology", or "Mission support" by this appropriations Act, when any activity has been initiated by the incurrence of obligations for construction of facilities as authorized by law, such amount available for such activity shall remain available until expended. This provision does not apply to the amounts appropriated in "Mission support" pursuant to the authorization for minor revitalization and construction of facilities, and facility planning and design.

Notwithstanding the limitation on the availability of funds appropriated for "Human space flight", "Science, aeronautics and technology", or "Mission support" by this appropriations Act, the amounts appropriated for construction of facilities shall remain available until September 30, 2003.

Notwithstanding the limitation on the availability of funds appropriated for "Mission support" and "Office of Inspector General", amounts made available by this Act for personnel and related costs and travel expenses of the National Aeronautics and Space Administration shall remain available until September 30, 2001 and may be used to enter into contracts for training, investigations, costs associated with personnel relocation, and for other services, to be provided during the next fiscal year. Funds for announced prizes otherwise authorized shall remain available, without fiscal year limitation, until the prize is claimed or the offer is withdrawn.

Unless otherwise provided for in this Act or in the joint explanatory statement of the committee of conference accompanying this Act, no part of the funds appropriated for "Human space flight" may be used for the development of the International Space Station in excess of the amounts set forth in the budget estimates submitted as part of the budget request for fiscal year 2001.

No funds in this or any other Appropriations Act may be used to finalize an agreement prior to December 1, 2001 between NASA and a nongovernment organization to conduct research utilization and commercialization management activities of the International Space Station.

### NATIONAL CREDIT UNION ADMINISTRATION

## CENTRAL LIQUIDITY FACILITY

## (INCLUDING TRANSFER OF FUNDS)

During fiscal year 2001, gross obligations of the Central Liquidity Facility for the principal amount of new direct loans to member credit unions, as authorized by 12 U.S.C. 1795 et seq., shall not exceed \$1,500,000,000: Provided, That administrative expenses of the Central Liquidity Facility shall not exceed \$296.303: Provided further, That \$1,000,000 shall be transferred to the Community Development Revolving Loan Fund, of which \$650,000, together with amounts of principal and interest on loans repaid, shall be available until expended for loans to community development credit unions, and \$350,000 shall be available until expended for technical assistance to low-income and community development credit unions.

## NATIONAL SCIENCE FOUNDATION RESEARCH AND RELATED ACTIVITIES

For necessary expenses in carrying out the National Science Foundation Act of 1950, as amended (42 U.S.C. 1861-1875), and the Act to establish a National Medal of Science (42 U.S.C. 1880-1881); services as authorized by 5 U.S.C. 3109; authorized travel; maintenance and operation of aircraft and purchase of flight services for research support; acquisition of aircraft; \$3,350,000,000, of which not to\$275,592,000 shall remain available until expended for Polar research and operations support, and for reimbursement to other Federal agencies for operational and science support and logistical and other related activities for the United States Antarctic program; the balance to remain available until September 30, 2002: Provided, That receipts for scientific support services and materials furnished by the National Research Centers and other National Science Foundation supported research facilities may be credited to this appropriation: Provided further, That to the extent that the amount appropriated is less than the total amount authorized to be appropriated for included program activities, all amounts, including floors and ceilings, specified in the authorizing Act for those program activities or their subactivities shall be reduced proportionally: Provided further, That \$65,000,000 of the funds available under this heading shall be made available for a comprehensive research initiative on plant genomes for economically significant crops: Provided further, That no funds in this or any other Act shall be used to acquire or lease a research vessel with ice-breaking capability built or retrofitted by a shipyard located in a foreign country if such a vessel of United States origin can be obtained at a cost no more than 50 per centum above that of the least expensive technically acceptable foreign vessel bid: Provided further, That, in determining the cost of such a vessel, such cost be increased by the amount of any subsidies or financing provided by a foreign government (or instrumentality thereof) to such vessel's construction: Provided further, That if the vessel contracted for pursuant to the foregoing is not available for the 2002-2003 austral summer Antarctic season, a vessel of any origin may be leased for a period of not to exceed 120 days for that season and each season thereafter until delivery of the new vessel.

## MAJOR RESEARCH EQUIPMENT

For necessary expenses of major construction projects pursuant to the National Science Foundation Act of 1950, as amended, including authorized travel, \$121,600,000, to remain available until expended.

## EDUCATION AND HUMAN RESOURCES

For necessary expenses in carrying out science and engineering education and human resources programs and activities pursuant to the National Science Foundation Act of 1950, as amended (42 U.S.C. 1861-1875), including services as authorized by 5 U.S.C. 3109, authorized travel, and rental of conference rooms in the District of Columbia, \$787,352,000, to remain available until September 30, 2002: Provided, That to the extent that the amount of this appropriation is less than the total amount authorized to be appropriated for included program activities, all amounts, including floors and ceilings, specified in the authorizing Act for those program activities or their subactivities shall be reduced proportionally: Provided further. That \$10,000,000 shall be available for the Office of Innovation Partnerships.

## SALARIES AND EXPENSES

For salaries and expenses necessary in carrying out the National Science Foundation Act of 1950, as amended (42 U.S.C. 1861–1875); services authorized by 5 U.S.C. 3109; hire of passenger motor vehicles; not to exceed \$9,000 for

official reception and representation expenses; uniforms or allowances therefor, as authorized by 5 U.S.C. 5901–5902; rental of conference rooms in the District of Columbia; reimbursement of the General Services Administration for security guard services; \$160,890,000: Provided, That contracts may be entered into under "Salaries and expenses" in fiscal year 2001 for maintenance and operation of facilities, and for other services, to be provided during the next fiscal year.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General as authorized by the Inspector General Act of 1978, as amended, \$6,280,000, to remain available until September 30, 2002.

NEIGHBORHOOD REINVESTMENT CORPORATION
PAYMENT TO THE NEIGHBORHOOD REINVESTMENT
CORPORATION

For payment to the Neighborhood Reinvestment Corporation for use in neighborhood reinvestment activities, as authorized by the Neighborhood Reinvestment Corporation Act (42 U.S.C. 8101–8107), \$90,000,000, of which \$5,000,000 shall be for a homeownership program that is used in conjunction with section 8 assistance under the United States Housing Act of 1937: Provided, That of the amount made available, \$2,500,000 shall be for an endowment to establish the George Knight Scholarship Fund for the Neighborhood Reinvestment Training Institute.

## SELECTIVE SERVICE SYSTEM SALARIES AND EXPENSES

For necessary expenses of the Selective Service System, including expenses of attendance at meetings and of training for uniformed personnel assigned to the Selective Service System, as authorized by 5 U.S.C. 4101-4118 for civilian employees; and not to exceed \$1,000 for official andrepresentation expenses: reception \$24,480,000: Provided, That during the current fiscal year, the President may exempt this appropriation from the provisions of 31 U.S.C. 1341, whenever he deems such action to be necessary in the interest of national defense: Provided further. That none of the funds appropriated by this Act may be expended for or in connection with the induction of any person into the Armed Forces of the United States.

### TITLE IV—GENERAL PROVISIONS

SEC. 401. Where appropriations in titles I, II, and III of this Act are expendable for travel expenses and no specific limitation has been placed thereon, the expenditures for such travel expenses may not exceed the amounts set forth therefore in the budget estimates submitted for the appropriations: Provided, That this provision does not apply to accounts that do not contain an object classification for travel: Provided further, That this section shall not apply to travel performed by uncompensated officials of local boards and appeal boards of the Selective Service System; to travel performed directly in connection with care and treatment of medical beneficiaries of the Department of Veterans Affairs: to travel performed in connection with major disasters or emergencies declared or determined by the President under the provisions of the Robert T. Stafford Disaster Relief and Emergency Assistance Act; to travel performed by the Offices of Inspector General in connection with audits and investigations; or to payments to interagency motor pools where separately set forth in the budget schedules: Provided further, That if appropriations in titles I, II, and III exceed the amounts set forth in budget estimates initially submitted for such appropriations, the expenditures for travel may correspondingly exceed the amounts therefore set forth in the estimates in the same proportion.

SEC. 402. Appropriations and funds available for the administrative expenses of the Depart-

ment of Housing and Urban Development and the Selective Service System shall be available in the current fiscal year for purchase of uniforms, or allowances therefor, as authorized by 5 U.S.C. 5901–5902; hire of passenger motor vehicles; and services as authorized by 5 U.S.C. 3109.

SEC. 403. Funds of the Department of Housing and Urban Development subject to the Government Corporation Control Act or section 402 of the Housing Act of 1950 shall be available, without regard to the limitations on administrative expenses, for legal services on a contract or fee basis, and for utilizing and making payment for services and facilities of Federal National Mortgage Association, Government National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Financing Bank, Federal Reserve banks or any member thereof, Federal Home Loan banks, and any insured bank within the meaning of the Federal Deposit Insurance Corporation Act, as amended (12 U.S.C. 1811–1831).

SEC. 404. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

Sec. 405. No funds appropriated by this Act may be expended—

(1) pursuant to a certification of an officer or employee of the United States unless—

(A) such certification is accompanied by, or is part of, a voucher or abstract which describes the payee or payees and the items or services for which such expenditure is being made; or

(B) the expenditure of funds pursuant to such certification, and without such a voucher or abstract, is specifically authorized by law; and

(2) unless such expenditure is subject to audit by the General Accounting Office or is specifically exempt by law from such audit.

SEC. 406. None of the funds provided in this Act to any department or agency may be expended for the transportation of any officer or employee of such department or agency between their domicile and their place of employment, with the exception of any officer or employee authorized such transportation under 31 U.S.C. 1344 or 5 U.S.C. 7905.

SEC. 407. None of the funds provided in this Act may be used for payment, through grants or contracts, to recipients that do not share in the cost of conducting research resulting from proposals not specifically solicited by the Government: Provided, That the extent of cost sharing by the recipient shall reflect the mutuality of interest of the grantee or contractor and the Government in the research.

SEC. 408. None of the funds in this Act may be used, directly or through grants, to pay or to provide reimbursement for payment of the salary of a consultant (whether retained by the Fedral Government or a grantee) at more than the daily equivalent of the rate paid for level IV of the Executive Schedule, unless specifically authorized by law.

SEC. 409. None of the funds provided in this Act shall be used to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings. Nothing herein affects the authority of the Consumer Product Safety Commission pursuant to section 7 of the Consumer Product Safety Act (15 U.S.C. 2056 et seq.).

SEC. 410. Except as otherwise provided under existing law, or under an existing Executive Order issued pursuant to an existing law, the obligation or expenditure of any appropriation under this Act for contracts for any consulting service shall be limited to contracts which are: (1) a matter of public record and available for public inspection; and (2) thereafter included in a publicly available list of all contracts entered into within 24 months prior to the date on which the list is made available to the public and of all

contracts on which performance has not been completed by such date. The list required by the preceding sentence shall be updated quarterly and shall include a narrative description of the work to be performed under each such contract.

SEC. 411. Except as otherwise provided by law, no part of any appropriation contained in this Act shall be obligated or expended by any executive agency, as referred to in the Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.), for a contract for services unless such executive agency: (1) has awarded and entered into such contract in full compliance with such Act and the regulations promulgated thereunder; and (2) requires any report prepared pursuant to such contract, including plans, evaluations, studies, analyses and manuals, and any report prepared by the agency which is substantially derived from or substantially includes any report prepared pursuant to such contract, to contain information concerning: (A) the contract pursuant to which the report was prepared; and (B) the contractor who prepared the report pursuant to such contract.

SEC. 412. Except as otherwise provided in section 406, none of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency.

SEC. 413. None of the funds provided in this Act to any department or agency shall be obligated or expended to procure passenger automobiles as defined in 15 U.S.C. 2001 with an EPA estimated miles per gallon average of less than 22 miles per gallon.

SEC. 414. None of the funds appropriated in title I of this Act shall be used to enter into any new lease of real property if the estimated annual rental is more than \$300,000 unless the Secretary submits, in writing, a report to the Committees on Appropriations of the Congress and a period of 30 days has expired following the date on which the report is received by the Committees on Appropriations.

SEC. 415. (a) It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available in this Act should be Americanmade.

(b) In providing financial assistance to, or entering into any contract with, any entity using funds made available in this Act, the head of each Federal agency, to the greatest extent practicable, shall provide to such entity a notice describing the statement made in subsection (a) by the Congress.

SEC. 416. None of the funds appropriated in this Act may be used to implement any cap on reimbursements to grantees for indirect costs, except as published in Office of Management and Budget Circular A-21.

SEC. 417. Such sums as may be necessary for fiscal year 2001 pay raises for programs funded by this Act shall be absorbed within the levels appropriated in this Act.

SEC. 418. None of the funds made available in this Act may be used for any program, project, or activity, when it is made known to the Federal entity or official to which the funds are made available that the program, project, or activity is not in compliance with any Federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

SEC. 419. Corporations and agencies of the Department of Housing and Urban Development which are subject to the Government Corporation Control Act, as amended, are hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to each such corporation or agency and in accord with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Act

as may be necessary in carrying out the programs set forth in the budget for 2001 for such corporation or agency except as hereinafter provided: Provided, That collections of these corporations and agencies may be used for new loan or mortgage purchase commitments only to the extent expressly provided for in this Act (unless such loans are in support of other forms of assistance provided for in this or prior appropriations Acts), except that this proviso shall not apply to the mortgage insurance or guaranty operations of these corporations, or where loans or mortgage purchases are necessary to protect the financial interest of the United States Government.

SEC. 420. Notwithstanding section 320(g) of the Federal Water Pollution Control Act (33 U.S.C. 1330(g)), funds made available pursuant to authorization under such section for fiscal year 2001 may be used for implementing comprehensive conservation and management plans.

SEC. 421. Notwithstanding any other provision of law, the term "qualified student loan" with respect to national service education awards shall mean any loan made directly to a student by the Alaska Commission on Postsecondary Education, in addition to other meanings under section 148(b)(7) of the National and Community Service Act.

SEC. 422. Unless otherwise provided for in this Act, no part of any appropriation for the Department of Housing and Urban Development shall be available for any activity in excess of amounts set forth in the budget estimates submitted to the Congress.

SEC. 423. None of the funds appropriated or otherwise made available by this Act shall be used to promulgate a final regulation to implement changes in the payment of pesticide tolerance processing fees as proposed at 64 Fed. Reg. 31040, or any similar proposals. The Environmental Protection Agency may proceed with the development of such a rule.

SEC. 424. Except in the case of entities that are funded solely with Federal funds or any natural persons that are funded under this Act, none of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-Federal parties to lobby or litigate in respect to adjudicatory proceedings funded in this Act. A chief executive officer of any entity receiving funds under this Act shall certify that none of these funds have been used to engage in the lobbying of the Federal Government or in litigation against the United States unless authorized under existing law.

SEC. 425. No part of any funds appropriated in this Act shall be used by an agency of the executive branch, other than for normal and recognized executive-legislative relationships, for publicity or propaganda purposes, and for the preparation, distribution or use of any kit, pamphlet, booklet, publication, radio, television or film presentation designed to support or defeat legislation pending before the Congress, except in presentation to the Congress itself.

SEC. 426. None of the funds provided in title II for technical assistance, training, or management improvements may be obligated or expended unless HUD provides to the Committees on Appropriations a description of each proposed activity and a detailed budget estimate of the costs associated with each activity as part of the Budget Justifications. For fiscal year 2001, HUD shall transmit this information to the Committees by December 1, 2000, for 30 days of review

SEC. 427. None of the funds made available in this Act may be used for the designation, or approval of the designation, of any area as an ozone nonattainment area under the Clean Air Act pursuant to the 8-hour national ambient air quality standard for ozone that was promul-

gated by the Environmental Protection Agency on July 18, 1997 (62 Fed. Reg. 38,356, p. 38855) and remanded by the District of Columbia Court of Appeals on May 14, 1999, in the case, American Trucking Ass'ns. v. EPA (No. 97–1440, 1994) Westlaw 300618) prior to June 15, 2001 or final adjudication of this case by the Supreme Court of the United States, whichever occurs first.

SEC. 428. Section 432 of Public Law 104–204 (110 Stat. 2874) is amended—

(a) in subsection (c) by inserting "or to restructure and improve the efficiency of the workforce" after "the National Aeronautics and Space Administration" and before "the Administrator":

(b) by deleting paragraph (4) of subsection (h) and inserting in lieu thereof—

"(4) The provisions of subsections (1) and (3) of this section may be waived upon a determination by the Administrator that use of the incentive satisfactorily demonstrates downsizing or other restructuring within the Agency that would improve the efficiency of agency operations or contribute directly to evolving mission requirements"

(c) by deleting subsection (i) and inserting in lieu thereof—

"(i) REPORTS.—The Administrator shall submit a report on NASA's restructuring activities to the Committee on Appropriations of the House of Representatives and the Committee on Appropriations of the Senate not later than September 30, 2001. This report shall include—

"(1) an outline of a timetable for restructuring the workforce at NASA Headquarters and field Centers:

"(2) annual Full Time Equivalent (FTE) targets by broad occupational categories and a summary of how these targets reflect the respective missions of Headquarters and the field Centers:

"(3) a description of personnel initiatives, such as relocation assistance, early retirement incentives, and career transition assistance, which NASA will use to achieve personnel reductions or to rebalance the workforce; and

"(4) a description of efficiencies in operations achieved through the use of the voluntary separation incentive."; and

(d) in subsection (j), by deleting "September 30, 2000" and inserting in lieu thereof "September 30, 2002".

SEC. 429. Section 70113(f) of title 49, United States Code, is amended by striking "December 31, 2000", and inserting "December 31, 2001".

SEC. 430. All Departments and agencies funded under this Act are encouraged, within the limits of the existing statutory authorities and funding, to expand their use of "E-Commerce" technologies and procedures in the conduct of their business practices and public service activities.

SEC. 431. Title III of the National Aeronautics and Space Act of 1958, Public Law 85-568, is amended by adding the following new section at the end:

"SEC. 312. (a) Appropriations for the Administration for fiscal year 2002 and thereafter shall be made in three accounts, 'Human space flight', 'Science, aeronautics and technology', and an account for amounts appropriated for the necessary expenses of the Office of Inspector General. Appropriations shall remain available for 2 fiscal years. Each account shall include the planned full costs of the Administration's related activities.

"(b) To ensure the safe, timely, and successful accomplishment of Administration missions, the Administration may transfer amounts for Federal salaries and benefits; training, travel and awards; facility and related costs; information technology services; publishing services; science, engineering, fabricating and testing services; and other administrative services among accounts, as necessary.

"(c) The Administrator, in consultation with the Director of the Office of Management and Budget, shall determine what balances from the Mission support' account are to be transferred to the 'Human space flight' and 'Science, aeronautics and technology' accounts. Such balances shall be transferred and merged with the 'Human space flight' and 'Science, aeronautics and technology' accounts, and remain available for the period of which originally appropriated.".

## $\begin{array}{c} \textit{TITLE V--FILIPINO VETERANS' BENEFITS} \\ \textit{IMPROVEMENTS} \end{array}$

Sec. 501. (a) Rate of Compensation Payments for Filipino Veterans Residing in the United States.—(1) Section 107 of title 38, United States Code, is amended—

(A) by striking "Payments" in the second sentence of subsection (a) and inserting "Except as provided in subsection (c), payments"; and

(B) by adding at the end the following new subsection:

"(c) In the case of benefits under subchapters II and IV of chapter 11 of this title paid by reason of service described in subsection (a) to an individual residing in the United States who is a citizen of, or an alien lawfully admitted for permanent residence in, the United States, the second sentence of subsection (a) shall not apply."

(2) The amendments made by paragraph (1) shall take effect on the date of the enactment of this Act and shall apply to benefits paid for months beginning on or after that date.

(b) ELIGIBILITY FOR HEALTH CARE OF DIS-ABLED FILIPINO VETERANS RESIDING IN THE UNITED STATES.—Section 1734 of such title is amended—

(1) by inserting "(a)" before "The Secretary,"; and

(2) by adding at the end the following:

"(b) An individual who is in receipt of benefits under subchapter II or IV of chapter 11 of this title paid by reason of service described in section 107(a) of this title who is residing in the United States and who is a citizen of, or an alien lawfully admitted for permanent residence in, the United States shall be eligible for hospital and nursing home care and medical services in the same manner as a veteran, and the disease or disability for which such benefits are paid shall be considered to be a service-connected disability for purposes of this chapter."

(c) HEALTH CARE FOR VETERANS RESIDING IN THE PHILIPPINES.—Section 1724 of such title is amended by adding at the end the following new subsection:

"(e) Within the limits of an outpatient clinic in the Republic of the Philippines that is under the direct jurisdiction of the Secretary, the Secretary may furnish a veteran who has a serviceconnected disability with such medical services as the Secretary determines to be needed.".

## TITLE VI—DEBT REDUCTION DEPARTMENT OF THE TREASURY BUREAU OF THE PUBLIC DEBT

GIFTS TO THE UNITED STATES FOR REDUCTION OF THE PUBLIC DERT

For deposit of an additional amount for fiscal year 2001 into the account established under section 3113(d) of title 31, United States Code, to reduce the public debt, \$5,172,730,916.14.

Titles I-VI of this Act may be cited as the "Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001".

The language and allocations set forth in House Report 106-674 and Senate Report 106-410 should be complied with unless specifically addressed to the contrary in the conference report and statement of the managers. Report language included by the House which is not changed by the report of

the Senate or the conference, and Senate report language which is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

Unless specifically addressed in this report, the conferees agree to retain the reprogramming thresholds for each department or agency at the level established by the fiscal year 2000 conference agreement.

## TITLE I—DEPARTMENT OF VETERANS AFFAIRS

## VETERANS BENEFITS ADMINISTRATION READJUSTMENT BENEFITS

Appropriates the budget request of \$1,634,000,000 as proposed by the Senate instead of \$1,664,000,000 as proposed by the House. The conferees retain bill language as proposed by the Senate ensuring that all administrative services are charged to the general operating expenses appropriation.

VETERANS HOUSING BENEFIT PROGRAM FUND PROGRAM ACCOUNT

#### (INCLUDING TRANSFER OF FUNDS)

Appropriates \$162,000,000 as proposed by the Senate instead of \$161,484,000 as proposed by the House.

### VETERANS HEALTH ADMINISTRATION

MEDICAL CARE

## $({\tt INCLUDING\ TRANSFER\ OF\ FUNDS})$

Retains the transfer of \$28,134,000 as proposed by the House instead of \$27,907,000 as proposed by the Senate from medical care to the general operating expenses appropriation for expenses of the Office of Resolution Management and the Office of Employment Discrimination Complaint Adjudication.

Retains bill language delaying the availability of \$900,000,000 for equipment and land and structures until August 1, 2001 and remaining available until September 30, 2002 as proposed by the Senate instead of \$927,000,000 as proposed by the House.

Retains bill language making \$500,000,000 available until September 30, 2002 as proposed by the Senate instead of \$900,000,000 as proposed by the House.

Deletes bill language limiting \$3,000,000.000 for maintenance and operations expenses. The conferees strongly support the redirection of medical resources from the maintenance and operations of unneeded buildings to support direct patient care. The conferees understand that for fiscal year 2001 VA is anticipating spending less than \$3,000,000,000 in this area. The conferees direct that VA carefully monitor maintenance and operation expenditures and that significant efforts to reduce those expenditures be undertaken prior to and in conjunction with full CARES evaluation and implementation over the next several years. A report that identifies these fiscal year 2001 costs by network and the efforts to reduce these costs this year should be submitted by March 31, 2001.

Retains bill language proposed by the House prohibiting the transfer of medical care funds to the Department of Justice for the purpose of pursuing tobacco litigation.

The conferees direct the Department to submit one report within four months of enactment of this Act addressing the concerns regarding hepatitis C expenditures, testing and treatment contained in House Report 106-674 and Senate Report 106-410.

The House report contained language directing the VA to reimburse hepatitis C treatment as a complex care component starting in fiscal year 2001. The conferees recognize VA for releasing \$20,000,000 from the National Reserve in June 2000 to address the growing need for treatment and the geographic differences in prevalence of the disease. The conferees also note the action by the Department in August 2000 to amend the VERA policy to reimburse hepatitis C treatment as a complex care component effective fiscal year 2001. The conferees direct the Department to continue adjusting testing and treatment funds as more is learned about the prevalence of the disease and keep the Committees on Appropriations informed about funding levels and decisions.

The conferees urge the Department to establish up to five centers of excellence for motor-neuron diseases such as Parkinson's disease and multiple sclerosis.

The conferees urge the implementation of the telemedicine project in Huntsville, Alabama.

The conferees direct that the Department include in the fiscal year 2002 budget justification estimates for all national programs, projects and initiatives totaling \$5,000,000 or more. The conferees further direct that the Department include in the fiscal year 2001 operating plan its efforts to implement management efficiencies, including instituting best practices on a national basis.

The conferees direct the Department to continue the demonstration project involving the Clarksburg VAMC and the Ruby Memorial Hospital at West Virginia University.

The conferees direct that of the amounts provided, not to exceed \$250,000 may be used to host The Sixth International Paralympic Committee Scientific Congress on "Sport and Human Performance Beyond Disability." The conferees believe this conference is within the mission of VA considering the Department's current programs, which support disabled athletes.

The conferees support the expansion of the Joslin Vision Network to additional pilot sites in fiscal year 2001. Estimated costs for fiscal year 2001 are \$5.000.000.

The conferees encourage VA to initiate a national demonstration project of excellence in the care of aging veterans with rehabilitative needs involving a collaborative effort between the Atlanta Veterans Affairs Medical Center, Emory Healthcare, and its affiliated network of community-based services, Atlanta Senior Care.

The conferees are aware that the VA undertakes numerous pilot projects in hospitals and VISNs across the country in hopes of providing better access to medical care more efficiently to our nation's veterans. The conferees trust that the Department's leadership carefully reviews the costs and benefits of pilot projects to determine the project's feasibility and value for standard operation prior to inclusion in the Department's budget justification. No funds may be obligated for new pilot projects authorized law in fiscal year 2001 exceeding \$10,000,000 in cost until a reprogramming request is submitted by the Department and approved by the Committees on Appropriations.

The conferees are concerned with the issues raised in the GAO report "Disabled Veterans' Care, Better Data and More Accountability Needed to Adequately Assess Care" regarding VA's ability to measure compliance with maintaining a certain level of care for special disability programs such

as spinal cord injury and mental illness. The conferees urge the VA to re-examine GAO's recommendation to establish a work group to monitor these programs. In addition, the conferees direct VA to develop outcome measures applicable to each VISN to evaluate the Department's performance in these areas.

#### MEDICAL AND PROSTHETIC RESEARCH

Appropriates \$351,000,000 for medical and prosthetic research as proposed by the House instead of \$321,000,000 as proposed by the Senate.

The conferees are aware of the impact that drug addiction has on the veterans population and are pleased with the VA's leadership role in pursuing and developing new treatments for addiction. The conferees strongly encourage the VA to increase its support for addiction research efforts in this area, and note that an effective research program must include large clinical trials, as well as, biochemical and neuro-pharmacological basic research.

The conferees are encouraged by the progress made by the VA and the National Technology Transfer Center (NTTC) during the past year in identifying promising VA technological advances that offer the potential for commercial applications. The conferees direct that this partnership should be continued at the current level of effort and that a targeted partnership identification process is essential to the successful marketing and licensing process.

#### DEPARTMENTAL ADMINISTRATION

GENERAL OPERATING EXPENSES

Appropriates \$1,050,000,000 for general operating expenses as proposed by the Senate instead of \$1,006,000,000 as proposed by the House. Retains bill language proposed by the Senate making \$45,000,000 available until September 30, 2002, instead of \$50,050,000 as proposed by the House.

Deletes without prejudice the provision proposed by the House regarding transfers. The conferees have no objection to fund transfers authorized by law.

Retains bill language as proposed by the Senate allowing administrative services provided for rehabilitation services to be charged to the general operating expenses account.

The conferees direct that of the amount provided, \$826,488,000 is for the Veterans Benefits Administration. Funding priority should be given to hiring additional FTEs for improving claims processing time and accuracy.

The conferees are aware that there is a pressing need for renovating the Lafavette Building at 811 Vermont Avenue to the benefit of both the VA and the Export-Import Bank. The House report included language requesting a feasibility study to be conducted on the potential utilization of enhanced-use leasing authority by the VA as a means of renovating the Lafavette Building. In lieu of the feasibility study recommended by the House, the conferees direct the General Services Administration to work with the VA and the Export-Import Bank on an expedited basis to develop a renovation plan considering all alternatives authorized by law for the Lafayette Building which would ensure the continued ability of both agencies to collocate in the building and submit a joint report to the Committee by June 1,

The conferees have provided funds for the coreFLS and HR LINK\$ projects and expects VA to implement these initiatives as top priorities. The conferees direct VA to submit a

report by December 1, 2000 on the milestones and funding commitments for the projects through fiscal year 2002.

NATIONAL CEMETERY ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$109,889,000 for the National Cemetery Administration as proposed by the Senate instead of \$106,889,000 as proposed by the House.

Retains House language transferring not to exceed \$125,000 from the national cemetery administration appropriation to the general operating expenses appropriation for expenses of the Office of Resolution Management and the Office of Employment Discrimination Complaint Adjudication instead of \$117,000 as proposed by the Senate.

Retains language proposed by the House and stricken by the Senate providing a travel limitation of \$1,125,000 for the National Cemetery Administration.

The conferees are aware of the provision in the Veterans Millennium Heath Care and Benefits Act (P.L. 106-117) requiring VA to conduct a national cemetery needs survey. The conferees direct the National Cemetery Administration to complete this survey expeditiously and include in a report to the Committees on Appropriations the geographic areas in need of a cemetery within 75 miles of veterans populations, when the currently-available cemeteries will close, and a priority ranking for establishing new cemeteries. The survey should include the Albuquerque area of New Mexico.

## OFFICE OF INSPECTOR GENERAL (INCLUDING TRANSFER OF FUNDS)

Retains House language transferring not to exceed \$28,000 from the Office of Inspector General appropriation to the general operating expenses appropriation for expenses of the Office of Resolution Management and the Office of Employment Discrimination Complaint Adjudication instead of \$30,000 as proposed by the Senate.

### CONSTRUCTION, MAJOR PROJECTS

Appropriates \$66,040,000 for construction, major projects instead of \$62,140,000 as proposed by the House and \$48,540,000 as proposed by the Senate.

The conference agreement includes the following changes from the budget estimate:

+\$1,000,000 for advanced planning of a national cemetery in Pittsburgh, Pennsylvania.

+\$2,500,000 for advanced planning of a national cemetery in Atlanta, Georgia.

+\$15,000,000 for land acquisition for a national cemetery in South Florida.

+\$12,000,000 for cemetery construction in Oklahoma City, Oklahoma.

+\$1,000,000 for design of a nursing home at the Beckley, West Virginia VAMC.

-\$26,600,000 from Palo Alto NHCU.

-\$0 for the medical design fund.

+\$1,400,000 for National Cemetery Administration advance planning.

-\$1,735,000 from the working reserve.

The conferees encourage the Department to begin planning efforts for a national cemetery in New Mexico.

### CONSTRUCTION, MINOR PROJECTS

Appropriates \$162,000,000 for construction, minor projects as proposed by the Senate instead of \$100,000,000 as proposed by the House.

The conferees reiterate the expectation that VA will review and approve all minor construction projects in a manner that is consistent with the process applied by the Capital Investment Board which reviews major projects, and consistent with the Cap-

ital Asset Realignment for Enhanced Services (CARES) initiative. A central office work group, consisting of both VHA and other Department officials, is to review all minor projects using criteria consistent with those developed for CARES. If the total costs of projects being initiated at any facility or integrated health care system exceeds \$4,000,000, the recommendations of the work group must be approved by the Deputy Secretary.

The conferees urge the Department to give highest priority to projects improving female patient privacy in VA health facilities.

The conferees recommend \$150,000 for construction of a sunscreen structure for the National Memorial Cemetery of the Pacific.

### PARKING REVOLVING FUND

Retains language proposed by the Senate permitting operation and maintenance costs of parking facilities to be funded from the medical care appropriation.

## GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

Appropriates \$100,000,000 for grants for construction of state extended care facilities as proposed by the Senate instead of \$90,000,000 as proposed by the House.

The conferees note that the VA has not yet promulgated regulations for the state grant program as directed in the Veterans Millennium Health Care and Benefits Act (P.L. 106–117). Until those regulations are issued, many state and local governments which seek to obtain these grants are severely disadvantaged by the lack of criteria available to determine eligibility. The conferees direct the VA to move expeditiously to issue the regulations mandated by P.L. 106–117.

## GRANTS FOR THE CONSTRUCTION OF STATE VETERANS CEMETERIES

The conferees encourage the Department to work with California as the state applies for a state cemetery grant.

## ADMINISTRATIVE PROVISIONS

Retains language proposed by the Senate requiring receipts collected under the Veterans Millennium Health Care and Benefits Act (P.L. 106-117) to be maintained in the collections fund subject to appropriation.

Retains language proposed by the House extending the availability of previously appropriated funds for artificial neural networks research with the Department of Defense until September 30, 2003.

Retains language proposed by the House transferring funds from the Office of Inspector General (\$78,000), national cemetery administration (\$358,000), medical care (\$1,106,000), and medical administration and miscellaneous operating expenses (\$84,000) accounts, and reprogrammed within the general operating expenses account (\$38,000) to general operating expenses for HR LINK\$ services.

Retains language proposed by the House transferring \$1,600,000 from medical care to general operating expenses for general counsel services.

Deletes language proposed by the House directing Capital Investment Board pre-approval for large procurement actions and a report on the establishment of mental illness, education and clinical centers.

Retains language proposed by the Senate transferring up to \$1,200,000 from medical care to general operating expenses for Hines Data Center services.

Retains language proposed by the Senate transferring up to \$4,500,000 from minor construction and up to \$2,000,000 from medical care to the parking revolving fund for surface parking lot projects.

Retains language proposed by the Senate establishing a 60-day wait period for any action related to VISN 12 realignment after the Secretary makes a recommendation and consults all pertinent stakeholders.

## TITLE II—DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

PUBLIC AND INDIAN HOUSING
HOUSING CERTIFICATE FUND
(INCLUDING TRANSFERS OF FUNDS)

Appropriates \$13,940,907,000 for the housing certificate fund, instead of \$13,275,388,000 as proposed by the House and \$13,171,000,000 as proposed by the Senate. The conference agreement includes:

\$12,972,000,000 for expiring section 8 housing assistance contracts, section 8 amendments, and contracts entered into pursuant to section 41 of the Stewart B. McKinney Homeless Assistance Act;

\$452,907,000 to provide 79,000 "incremental" section 8 housing assistance vouchers, to increase the number of low-income individuals and families receiving assistance. The conferees note that HUD took more than 12 months awarding new youchers despite the fact that a formula dictates their distribution. The delay can be attributed, in large part, to including the voucher Notice of Funding Availability (NOFA) with the "Super NOFA," which is rarely published until March-six months into the fiscal year. HUD is encouraged to issue the NOFA earlier, so that vouchers can be awarded within eight months of enactment of this appropriations measure. The Committees will be following HUD's progress making these awards, and will act appropriately if the funds are not awarded with alacrity.

\$40,000,000 to provide section 8 housing vouchers to non-elderly, disabled residents who are affected by the designation of public and assisted housing as "elderly-only" developments as proposed by the Senate instead of \$25,000,000 as proposed by the House;

\$192,000,000 is for section 8 contract administrators as proposed by the House. The Senate did not provide a specific appropriation for this activity; and

\$266,000,000 is for tenant protection vouchers, including for relocating residents impacted by a HOPE VI project.

Deletes language proposed by the House providing \$37,000,000 for Shelter Plus Care renewals. A new account called "Shelter Plus Care" was created for this purpose.

Deletes language proposed by the House providing \$566,000,000 for low-income tax credit vouchers. The Senate did not include a similar provision.

Deletes language proposed by the House providing \$660,000 for systems needed to monitor PHAs that increase the payment standard of vouchers. The Senate did not include a similar provision.

Includes language proposed by the House transferring \$11,000,000 to the Working Capital Fund for developing and maintaining information technology systems. The Senate did not include a similar provision.

Includes language proposed by the House to cancel obligated balances of terminated contract authority. The Senate did not include a similar provision

Deletes language proposed by the Senate providing that funds for administrative fees may be used to cover costs of administering section 8 programs. The House did not include a similar provision.

Inserts new language appropriating \$7,000,000 to complete the funding required for the Jobs-Plus Demonstration program.

Rescinds \$1,833,000,000 in excess section 8 recaptures.

PUBLIC HOUSING CAPITAL FUND (INCLUDING TRANSFER OF FUNDS)

Appropriates \$3,000,000,000 for the public housing capital fund instead of \$2,955,000,000 as proposed by the Senate and \$2,800,000,000 as proposed by the House. Like last year, the conferees recommend increasing this account above the request, and above levels provided in the House and Senate bills, recognizing the serious unmet needs for capital improvements to the nation's public housing

Transfers \$43,000,000 from this account to the Working Capital Fund for the development and maintenance of information technology systems.

Recognizing that public housing for the elderly serves the poorest, the most racially and ethnically diverse, the oldest, and the largest number of seniors of the assisted housing programs, the conferees reiterate the House report regarding the potential importance of the Elderly Plus demonstration which proposes to retrofit these buildings.

### PUBLIC HOUSING OPERATING FUND

Appropriates \$3,242,000,000 for the public housing operating fund instead of \$3,139,000,000 as proposed by the House and \$3,192,000,000 as proposed by the Senate. Like the increase to the public housing capital fund, this increase reflects the conferees' commitment to providing adequate resources to public housing—in this case for basic costs like water, gas and electric utilities, security, and routine maintenance.

The conferees remain troubled by the Department's implementation of the "Public Housing Assessment System" (PHAS). The system has had problems with the reliability of the inspections, the training and skills of some contract inspectors, and the effectiveness of quality assurance measures. Accordingly, the conferees direct HUD to continue to assess the accuracy and effectiveness of the PHAS system and to take whatever remedial steps may be needed, including implementing the recommendations made by GAO in its July 2000 report. Specifically, the conferees direct HUD to revise its April 2000 quality assurance plan to ensure that quality assurance activities it contains will provide HUD with the information it needs to evaluate (1) inspection contractors' compliance with provisions in their contracts and quality control program, (2) inspectors' performance in applying HUD's inspection protocol, (3) the accuracy of the inspections and resulting scores, and (4) the performance of the program as indicated by the precision and replicability of the inspection protocol. Further, the conferees direct HUD to perform a statistically valid test of PHAS, conduct a thorough analysis of the results, and have the methodology and results reviewed by an independent expert. The Department should provide a report to the Committees on Appropriations by March 1, 2001, that describes the results of these reviews and the steps taken to improve the accuracy and reliability of PHAS. In the interim, HUD should not take any adverse actions against housing authorities solely on the basis of PHAS scores.

DRUG ELIMINATION GRANTS FOR LOW—INCOME HOUSING

## $({\tt INCLUDING\ TRANSFERS\ OF\ FUNDS})$

Appropriates \$310,000,000 for drug elimination grants as proposed by the Senate instead of \$300,000,000 as proposed by the House

Includes \$20,000,000 for the New Approach Anti-Drug program as proposed by the Senate instead of no funding as proposed by the House.

Includes \$3,000,000 for technical assistance grants instead of \$5,000,000 as proposed by the House and Senate. This account was reduced from the requested level of \$10,000,000, and the House and Senate proposed levels of \$5.000,000. The conferees are displeased about HUD's refusal to provide information in a timely way about the amount of funds expended and/or obligated on HUD's gun buvback program—an unauthorized activity according to a legal opinion by the Comptroller General of the United States. Even if HUD's attorneys interpret existing legal authority differently from the Comptroller General, refusing to provide information to the Committees, especially about matters clearly within their purview, is unacceptable and will be dealt with accordingly.

Includes \$2,000,000 for the Boys and Girls Clubs of America for operating expenses and start up costs of clubs operating in or near public housing, or in housing assisted under the Native American housing block grant program.

REVITALIZATION OF SEVERELY DISTRESSED PUBLIC HOUSING

#### (HOPE VI)

Appropriates \$575,000,000 for the revitalization of severely distressed public housing program as proposed by the Senate instead of \$565,000,000 as proposed by the House.

Recognizing the importance of affordable basic financial services in low-income neighborhoods, the conferees urge grantees to encourage and facilitate the establishment of community credit unions as part of HOPE VI housing revitalization projects. The conferees further direct HUD to provide technical assistance in meeting this goal, working in cooperation with appropriate staff of the National Credit Union Administration (NCUA).

The conferees commend HUD's decision to continue support for the Campus Affiliates Program, a unique partnership of HUD, the Housing Authority of New Orleans, higher education, and the private sector. This program has begun to meet the needs of public housing residents in New Orleans by providing assistance and activities that foster self-sufficiency. The conferees expect HUD to continue to participate in this activity.

NATIVE AMERICAN HOUSING BLOCK GRANTS (INCLUDING TRANSFERS OF FUNDS)

Appropriates \$650,000,000 for Native American Housing Block Grants as proposed by the Senate instead of \$620,000,000 as proposed by the House.

Appropriates \$6,000,000 for technical assistance grants as proposed by the House instead of \$4,000,000 as proposed by the Senate. The conferees agree not to provide \$2,000,000 to the National American Indian Housing Council (NAIHC) as proposed by the House or \$4,000,000 as proposed by the Senate.

Transfers \$2,000,000 to the Working Capital Fund for the development and maintenance of information technology systems as proposed by the House. Similar language was not included by the Senate.

## $\begin{array}{c} \text{INDIAN HOUSING LOAN GUARANTEE FUND} \\ \text{PROGRAM ACCOUNT} \end{array}$

## $({\tt INCLUDING\ TRANSFER\ OF\ FUNDS})$

Historically, Native Americans have had limited access to private mortgage capital because much of the land in Indian country is held in trust by the Federal government. As such, the land cannot be encumbered or alienated. The Indian Home Loan Guarantee Program was created to address the lack of mortgage capital by authorizing HUD to guarantee loans made by private lenders.

Getting a loan, however, depends on the borrower securing a leasehold on tribally-held lands. This leasehold, which is used as security for the mortgage, can only be obtained after the Bureau of Indian Affairs (BIA) conducts a title status report (TSR). HUD cannot endorse the guarantee until a final TSR is completed and is part of the financial package.

Fortunately, HUD and BIA have made considerable progress making their program requirements more compatible with one another; however, if the loan guarantee program is to be used to its greatest potential, additional progress needs to be made, especially on the length of time it takes to complete a TSR. HUD and BIA should continue their dialogue on removing any impediments to this process.

## COMMUNITY PLANNING AND DEVELOPMENT

HOUSING OPPORTUNITIES FOR PERSONS WITH AIDS

Appropriates \$258,000,000 for housing opportunities for persons with AIDS instead of \$250,000,000 as proposed by the House and \$232,000,000 as proposed by the Senate. Of the amount, one percent is appropriated for technical assistance as proposed by the House instead of .75 percent as proposed by the Senate.

Includes language that requires HUD to renew all expiring HOPWA contracts funded under the non-formula component of the HOPWA program so long as the project meets all other program requirements. The conferees believe that it is critical to maintain the federal investment in existing projects to the maximum extent feasible.

RURAL HOUSING AND ECONOMIC DEVELOPMENT

Appropriates \$25,000,000 for rural housing and economic development instead of \$27,000,000 as proposed by the Senate, and \$20,000,000 as proposed by the House.

## AMERICA'S PRIVATE INVESTMENT COMPANIES PROGRAM ACCOUNT

The conferees are aware that the President and the Speaker of the House of Representatives have agreed to a framework for a "New Markets Initiative" that includes providing \$37,000,000 in credit subsidy for APIC. As part of this conference agreement, the conferees agree, when the initiative is enacted, to provide these funds through a supplemental appropriation measure, or through another appropriate vehicle.

## $\begin{array}{c} {\rm EMPOWERMENT\ ZONES/ENTERPRISE} \\ {\rm COMMUNITIES} \end{array}$

Inserts new language providing \$75,000,000 for grants to urban empowerment zones to be used in conjunction with economic development activities detailed in the strategic plans of each empowerment zone. Neither the House nor the Senate included a similar provision.

Inserts new language providing \$15,000,000 to the Secretary of Agriculture for grants to designated empowerment zones. Neither the House nor the Senate included a similar provision.

As with APIC, the conferees agree to provide an additional \$110,000,000 for EZ/ECs when the New Markets Initiative is enacted.

COMMUNITY DEVELOPMENT FUND

(INCLUDING TRANSFERS OF FUNDS)

Appropriates \$5,057,550,000 for the community development fund instead of \$4,505,000,000 as proposed by the House and \$4,800,000,000 as proposed by the Senate.

Inserts language proposed by the House creating the Community Development Fund

(CDF) and identifying the various set-asides in the account. The conferees agree to the following earmarks:

\$4,409,000,000 for formula grants under the community development block grant program;

\$71,000,000 for grants to Indian tribes instead of \$67,000,000 as proposed by the House and Senate:

\$45,500,000 for section 107 grants. The House provided \$39,500,000 for section 107 grants and the Senate provided \$41,500,000 for section 107 grants. The conference agreement provides the following earmarks within section 107:

\$3,000,000 is for community development work study;

\$10,000,000 is for historically black colleges and universities;

\$8,000,000 is for the Community Outreach Partnerships program;

\$7,000,000 is for insular areas;

\$3,000,000 for tribal colleges and universities;

\$3,000,000 for Alaska Native-Serving Institutions and native Hawaiian-serving institutions:

\$6,500,000 is for Hispanic-Serving Institutions: and

\$5,000,000 is for management information systems;

\$2,600,000 for the National American Indian Housing Council instead of \$3,000,000 as proposed by the House and \$2,200,000 as proposed by the Senate:

\$10,000,000 for the National Housing Development Corporation (NHDC), for continuation of its program of acquisition, rehabilitation, and preservation of at-risk affordable housing. The conferees direct NHDC to establish benchmarks for performance (addressing matters such as the amount of capital and loan funds raised, the degree to which federal investment is leveraged through non-federal sources, and the number of units of housing acquired and transferred to new owners who will continue and protect the housing's affordability for low-income residents), and to report to the Committees on Appropriations regarding performance

and progress in meeting those benchmarks; \$28,450,000 for the Capacity Building for Community Development and Affordable Housing program, authorized by section 4 of P.L. 103–120, as in effect before June 12, 1997, instead of \$23,450,000 proposed by the House and \$25,000,000 proposed by the Senate. Of the amount provided, at least \$5,000,000 shall be for capacity building activities in rural areas as proposed by the Senate instead of \$4,000,000 as proposed by the House. Additionally, \$3,450,000 is for Habitat for Humanity International as proposed by the House. The Senate did not provide funds for this program;

\$60,000,000 for Youthbuild as proposed by the Senate instead of \$45,000,000 as proposed by the House. This amount includes \$4,000,000 for capacity building activities and \$10,000,000 for underserved and rural areas as proposed by the Senate. The House did not include similar language;

include similar language; \$20,000,000 for grants to eligible grantees under section 11 of the Self-Help Housing Opportunity Program Extension Act of 1996, as proposed by the House. The Senate did not include funds for this item:

\$44,000,000 for the Neighborhood Initiatives program instead of \$10,000,000 as proposed by the House and no funding as proposed by the Senate. of which:

\$5,000,000 is for the Institute for Software Research for construction related to a high-technology diversification initiative;

\$10,000,000 is for the City of Syracuse for the Neighborhood Initiative Program; \$2,000,000 is for the Louisville Community Development Bank for the Louisville Neighborhood Initiative:

\$5,000,000 to the Vandalia Heritage Foundation, Inc. for community and neighborhood revitalization and economic diversification initiatives:

\$2,500,000 for the Omaha Housing Initiative to create affordable housing and encourage homeownership in Omah, Nebraska;

2,000,000 for the Community Development Corporation of Kansas City and Health Midwest Partners for Change in Kansas City, Missouri for the revitalization initiative on the northwest corner of 63rd Street and Prospect Avenue;

\$2,850,000 for the Missouri Botanical Gardens in St. Louis, Missouri for development and revitalization activities associated with McRee Town;

\$2,500,000 for Downtwon Now for revitalization efforts of the Old Post Office District in St. Louis Missouri;

\$2,000,000 for the Kansas City Neighborhood Alliance in Kansas City, Missouri for the Neighborhood Preservation Initiative in the Blue Hills and Vineyard neighborhoods;

\$1,500,000 for the City of South Bend, Indiana for the redevelopment of the Studebaker Corridor;

\$1,500,000 for the Midtown Development Corporation in Kansas City, Missouri for the redevelopment of the Mount Cleveland Community;

\$850,000 for the City of Spartanburg, South Carolina for Arkwright/Forest Park revitalization:

\$300,000 for the City of Beloit, Wisconsin for the Beloit urban renewal project;

\$500,000 for the City of Waterloo, Iowa for the redevelopment of blighted portions of the downtown area:

\$500,000 for Patterson Park Development Corporation for the purchase and rehabilitation of homes in the Patterson Park neighborhood in Baltimore, Maryland;

\$1,000,000 for the City of Des Moines, Iowa for planning of the redevelopment of the Riverpoint area;

\$1,200,000 for City of Milwaukee, Wisconsin for revitalization of the Menomonee Valley industrial area:

\$500,000 for the City of Woodbury, New Jersey for downtown economic development activities;

\$1,000,000 for the City of Wildwood, New Jersey for revitalization of the Pacific Avenue Business District;

\$500,000 for the City of Gardena, California for planning of downtown redevelopment;

\$300,000 for the City of Chicago, Illinois for the South Chicago Housing Initiative;

\$500,000 for the city of Detroit, Michigan for the Detroit River Promenade Project.

\$29,000,000 is appropriated separately for credit subsidy for section 108 loan guarantees as proposed by the Senate instead of \$28,000,000 as proposed by the House. Limits loan guarantees to \$1,261,000,000 as proposed by the Senate instead of \$1,217,000,000 as proposed by the House;

\$2,000,000 is for the Utah Housing Finance Agency for temporary housing necessary for the 2002 Olympic Games to be held in Salt Lake City, Utah, as proposed by the Senate. The House did not have similar language;

\$15,000,000 is to be transferred to the Working Capital Fund for the development of information technology systems;

\$292,000,000 for economic development initiatives. The targeted grants shall be made as follows:

\$500,000 for The Palace Theater for its renovation in Manchester, New Hampshire; \$300,000 for the Manchester Historic Association for the restoration of the Millyard Museum in Manchester, New Hampshire;

\$700,000 for Lewis and Clark College in Portland, Oregon for construction and program activities at Bicentennial Hall in Portland, Oregon;

\$1,000,000 for the Omaha Housing Initiative to create affordable housing and encourage homeownership in Omaha, Nebraska;

\$1,000,000 for the LOVE Social Services Center in Fairbanks, Alaska for a facility to serve disadvantaged youth and provide other services:

\$250,000 for the Portland Oregon Visitors Association for the Pioneer Courthouse Square Lobby Renovation project in Portland, Oregon;

\$250,000 for Portland State University for the Portland State Engineering Building and Central City Streetcar;

\$1,100,000 for the Field Museum in Chicago, Illinois for the development of the "Sue" exhibit, a showcase of a 67 million-year-old T-Rey.

\$1,000,000 for the Community Action Agency of Southern New Mexico, Inc., for construction of a regional food bank and supporting offices:

\$700,000 for the City of Santa Fe, New Mexico, to construct a permanent site for the Santa Fe Area Farmers Market at the historic Santa Fe rail vard:

\$250,000 for the Boys and Girls Club of Las Cruces, New Mexico to upgrade existing facilities:

\$500,000 for Tatum, New Mexico to replace its community center;

\$150,000 for the Bataan Death March Memorial renovations in Las Cruces, New Mexico;

\$1,000,000 for Granite Falls, Minnesota to aid in recovery efforts from a tornado and severe thunder storms;

\$1,020,000 for the University of Idaho for the construction of the Center for Science and Technology in Idaho Falls, Idaho;

\$200,000 for Elmore County, Idaho for meeting water system needs in the town of Atlanta:

\$1,000,000 for the City of Salmon, Idaho for land acquisition, construction, and alteration for the Sacajawea Interpretive, Cultural, and Education Center;

\$500,000 for the Clearwater Economic Development Association in Northern Idaho, for implementation of the Lewis and Clark Bicentennial Plan;

\$500,000 for Lewis-Clark State College for start-up activities associated with the Idaho Virtual Incubator:

\$1,200,000 for MSU-Billings for the acquisition of a College of Business facility to house economic development activities;

\$1,000,000 for Billings, Montana for the completion of the Billings depot project;

\$100,000 for Miles Community College in Miles City, Montana for a feasibility study regarding the conveyance of a VA medical facility;

\$500,000 for the Jefferson County Local Development Corporation in Whitehall, Montana for economic development activities;

\$350,000 for the Human Resources Development Council in Bozeman, Montana for the restoration of a historic property for community services offices;

\$300,000 for the City of Columbia Falls, Montana for the restructuring of the Old Main Veterans Facility;

\$1,500,000 for the City of Memphis for the construction of the Stax Museum of American Soul Music in Memphis, Tennessee;

\$500,000 for the City of Chattanooga, Tennessee, Department of Parks Recreation,

Arts, and Culture for revitalization efforts in Alton Park:

\$700,000 for Winston-Salem-Forsyth County, North Carolina for the development of the Science Center and Environment Park of Forsyth County, North Carolina;

\$700,000 for the redevelopment of Midwest City, Oklahoma from damage from a tornado:

\$250,000 for the Allen County Historical Society for the redevelopment of the Funston Museum complex in Iola, Allen County, Kansas:

\$1,000,000 for the Detroit Rescue Mission Ministries for the purchase and renovation of a building:

\$500,000 for Northern Initiatives to capitalize an Upper Peninsula Michigan Equity Fund to assist in the development of small businesses:

\$250,000 for the City of Jackson, Michigan for downtown redevelopment:

\$250,000 for William Tyndale College in Tyndale, Michigan for a learning resource center:

\$500,000 for the University of Utah for the planning and design of the Museum of Science and Nature;

\$700,000 for the Covenant House Michigan for the construction costs of a permanent Rights of Passage facility:

\$1,000,000 for West Valley City, Utah for the construction of the West Valley City Multi-Cultural Community Center.

\$500,000 for the Heart Mountain Wyoming Foundation for an interactive learning center in Powell, Wyoming;

\$500,000 for the Vermont Rural Fire Protection Task Force of Randolph, Vermont for the purchase of equipment;

\$500,000 for the Southern Vermont Recreation Center Foundation in Springfield, Vermont:

\$500,000 for the Vermont Housing and conservation Board for the development of affordable housing in Northern Vermont;

\$500,000 for Marlboro College for a technology incubator facility in downtown Brattleboro, Vermont;

\$500,000 for the Vermont Housing and Conservation Board for the development of affordable housing in Williston, Vermont;

\$500,000 for the Town of Hartford, Vermont for the development of the Railroad Row Historic District in downtown White River Junction, Vermont;

\$500,000 for Vermont Technical College for economic development in Randolph, Vermont:

\$250,000 for the Town of Fairfield, Vermont for the development of the President Chester A. Arthur visitor facility;

\$800,000 for the City of Montrose, Colorado for the development of affordable low-income housing;

\$900,000 for the Trinity Repertory Company in Providence, Rhode Island for the conversion of an abandoned banking building;

\$500,000 to the Center for Economic Development at the University of San Francisco in San Francisco, California for economic development efforts;

\$400,000 to the National Coalition for Homeless Veterans in Washington, DC for the provision of technical assistance to local organizations:

\$150,000 to the Saugerties Historical Society in Saugerties, New York for historic preservation of the Kiersted House;

\$200,000 to the Village of Glenwood, Illinois for renovations to the Glenwood Senior Center;

\$150,000 to the Point Community Development Corporation in New York City, New York for the purchase and/or renovation as a boathouse of an abandoned factory at the corner of Lafayette Avenue and Edgewater Road in South Bronx, New York;

\$500,000 to the City of Falls Church, Virginia to refinance the Winter Hill Apartments, low-income housing complex;

\$100,000 to Roberts Wesleyan College in Rochester, New York for the establishment of a community service center;

\$1,050,000 to Lucas County, Ohio for the acquisition and improvement of Quarry Farms Park;

\$250,000 to Santa Monica College in Santa Monica, California for the Madison Site Theater Center:

\$200,000 to the Lewiston Auburn Economic Growth Council in Lewiston, Maine for administering loans to stimulate economic growth;

\$50,000 to the Borough of Peapack, New Jersey for facility improvements to the Township Hall:

\$225,000 to the City of Los Angeles, California for construction of the Ernest E. Debs Nature Center;

\$450,000 to the American Indian Business Development Corporation for construction of a multi-purpose facility to support business development in south Minneapolis, Minnesota:

\$325,000 to the Berkshire South Regional Community Center in Great Barrington, Massachusetts for planning and construction:

\$165,000 to the Millvale Borough Development Corporation in Millvale, Pennsylvania for the implementation of the Millvale Gateway and Riverfront Plan;

\$200,000 to Nanticoke, Pennsylvania for downtown revitalization and infrastructure improvements:

\$1,000,000 to the George Meany Center for Labor Studies in Silver Spring, Maryland for facility needs: \$500,000 to the Boys and Girls Club of Nogales, Arizona for expenses related to the construction of a facility;

\$250,000 to the City of Buffalo, New York for refurbishing of the exterior of St. Louis Church, including façade work;

\$80,000 to the Eureka Volunteer Fire Department in Tarentum, Pennsylvania for asbestos removal and demolition of the Tarentum Municipal Building;

\$150,000 to the Tioga County Rural Economic Area Partnership in Owego, New York for economic development efforts;

\$100,000 to the Village of Hempstead, New York for infrastructure improvements to Kennedy Park;

\$465,000 to the Prospect Park Alliance in New York City, New York for interior exhibits and furnishing for Prospect Park Audubon Center at the Boathouse;

\$200,000 to the Ukrainian Museum Archives in Cleveland, Ohio for facilities improvements;

\$25,000 to the Orlando Community Redevelopment Agency in Orlando, Florida for redevelopment of Otey Place;

\$125,000 to the Academy Family Foundation in Fairmont, West Virginia for facility and programmatic needs:

\$100,000 to the Little Tokyo Service Community Center in Los Angeles, California for the development of a job training program;

\$200,000 to Broward County, Florida for the Broward County African-American Community and Cultural Center;

\$50,000 to the County of San Diego, California for planning related to the development of a business park in East Otay Mesa; \$150,000 to the Indiana County Community Action Program in Indiana County, Pennsylvania for equipment, facilities and activities needs;

\$200,000 to the City of East Palo Alto, California for the redevelopment of the Ravenswood Industrial Area;

\$300,000 to the City of Huntington, New York for a sewage treatment facility;

\$100,000 to the Town of Beacon Falls, Connecticut for the purchase of Pinesbridge Industrial Park;

\$100,000 to the City of Worcester, Massachusetts for the Gardner-Kilby-Hammond Street neighborhood revitalization project;

\$100,000 to the Bronx Museum of the Arts in New York City, New York for infrastructure improvements, construction, renovation, operation and facility upgrades;

\$50,000 to the Eugene A. Obregon CMH Memorial Foundation for the creation of a memorial to honor Latinos who have served in the Armed Services;

\$50,000 to the City of Garden Grove, California for planning and construction of the West Haven Park Community Center:

\$250,000 to the City of Abilene, Texas for renovation of the historic Wooten Hotel;

\$100,000 to the City of San Leandro, California for landslide mitigation efforts;

\$200,000 to the City of Saint Marys, West Virginia for downtown revitalization, and vehicle and equipment needs to support the Senior Service Advisory Council's senior nutrition program:

\$75,000 to the City of Hartford, Connecticut for the Temple Street redevelopment project:

\$250,000 to the Brotherhood Crusade Business Development and Capital Fund in Los Angeles, California for facility infrastructure needs and/or technical assistance and loans to small businesses;

\$200,000 to West Virginia University at Parkersburg for equipment needs related to the Caperton Center; \$500,000 to the International Glass Museum in Takoma, Washington for capital costs associated with a new facility:

\$400,000 to the Montclair Art Museum in Montclair, New Jersey for facility expansion; \$225,000 to the South Sumter Resource Cen-

ter in Sumter County, South Carolina for facilities renovation and equipment;

\$40,000 to the Schuylkill County Fire Fighters Association in Morea, Pennsylvania for facilities improvements;

\$100,000 to West Liberty State College in West Liberty, West Virginia for planning and development related to the SMART Center;

\$200,000 to Oakwood College in Huntsville, Alabama for the establishment of a Wellness Center:

\$200,000 to the Schlitz Audubon Nature Center in Milwaukee, Wisconsin for facilities construction;

\$200,000 to the Filipino Community Center in Seattle, Washington for costs related to facilities relocation;

\$250,000 to Augsburg College in Minneapolis, Minnesota for rehabilitation of Syerdrup Hall;

\$50,000 to the government of the U.S. Virgin Islands for fire fighting efforts in territorial waters:

\$1,000,000 to the Salvatore Mancini Center on Aging in North Providence, Rhode Island for facilities needs:

\$400,000 to Rostraver Township, Westmoreland County, Pennsylvania for economic development studies and activities;

\$200,000 to the St. Louis County, Missouri Parks & Recreation Department for renovations and improvements to Jefferson Barracks Park;

\$750,000 to John Carroll University in Cleveland, Ohio to support the Center for Mathematics and Science Education:

\$50,000 to the Town of Pelham, New York for renovations to Memorial Park;

\$75,000 to the Town of St. George, South Carolina for the Klauber Building Project;

\$150,000 to the University of North Carolina at Wilmington School of Nursing to provide multidisciplinary nurse-managed primary health care services in rural northern Brunswick County and rural eastern Columbus County, North Carolina;

\$950,000 to the Mid-Atlantic Aerospace Complex, Inc. for operating and marketing expenses, site use assessment, land acquisition and construction of facilities;

\$600,000 to the National Civil Rights Hall of Fame in Gary, Indiana for facility construction;

\$100,000 to Camp Kon-O-Kwee/Spencer YMCA camp in Beaver County, Pennsylvania for continued construction of a wastewater treatment facility:

\$325,000 to the Seneca Center in New York City, New York for the acquisition and partial renovation of a permanent facility in South Bronx, New York;

\$250,000 to the Huntington Park Oldtimers Foundation in Huntington Park, California for the rehabilitation of a senior center;

\$50,000 to Ottawa County, Ohio for street improvements for the central business district in Rocky Ridge, Ohio;

\$200,000 to the Peninsula Marine Institute in Newport News, Virginia for the acquisition of a permanent facility to house its juvenile offenders program;

\$100,000 to the Martin Luther King Freedom Center in Oakland, California for planning and development purposes;

\$1,500,000 to Miami-Dade County, Florida to expand and improve the physical plant of the anchor industry in Poinciana Industrial

\$300,000 to St. John Fisher College in Rochester, New York to establish an Institute of Teaching and Learning.

Teaching and Learning; \$200,000 to the Daniel Freeman Hospital in Inglewood, California for community health outreach to the uninsured and medically underserved;

\$1,000,000 to Columbia University in New York City, New York for its audubon research project;

\$400,000 to the University of California-Merced for the renovation of the civil engineering building on Castle Air Force Base;

\$150,000 to the City of Moundsville, West Virginia for downtown revitalization associated with the Strand Theater;

\$250,000 to the Mystic Valley Development Commission for a regional technology development project known as TeleCom City;

\$200,000 to Bethune Cookman College in Daytona Beach, Florida for costs related to a community services and student union building:

\$50,000 to the city of Dallas, Texas for the Pleasant Wood/Pleasant Grove Community Development Corporation for improvement efforts focused on West Dallas neighborhoods:

\$1,200,000 to the West Virginia High Technology Consortium Foundation, Inc. for continued development of the I-79 Technology Park.

\$100,000 to the City of Dallas, Texas for the Southfair Community Development Corporation for land acquisition and efforts to revitalize the Grand Avenue corridor;

\$1,000,000 to the St. Coletta School in Alexandria, Virginia for facilities needs;

\$50,000 to the St. Louis County, Missouri Economic Council for infrastructure and streetscape enhancements for the Affton/Gravois Business District:

\$110,000 to the Reading Area Community College in Berks County, Pennsylvania for planning and development of an Advanced Technology Center;

\$100,000 to Temple University Ambler in Montgomery County, Pennsylvania for a community planning and sustainable development initiative;

\$150,000 to the Arlington Housing Corporation to purchase investor-owned units at the Arlington Oaks condominium complex for operation as affordable housing;

0,000 to the Abington Township Public Library in Abington, Pennsylvania for facilities renovation;

\$200,000 to Pittson, Pennsylvania for downtown revitalization and infrastructure improvements;

\$1,000,000 to Concord College in Athens, West Virginia for infrastructure development for an information technology training program:

\$200,000 to the St. Louis, Missouri City Parks Department for renovations of Wilmore Park;

\$250,000 to the Village of Mamaroneck, New York for streetscape improvements;

\$50,000 to the St. Louis County, Missouri Economic Council for infrastructure and streetscape enhancements for the LeMay Business District:

\$1,000,000 to the Mandel School of Applied Social Sciences' Center for Community Development at Case Western Reserve University for the establishment of the Lou Stokes Fellows Program in Community Organization and Development;

\$50,000 to the City of Tuscumbia, Alabama for stage and infrastructure improvements at Spring Park;

\$150,000 to Fulton County, Ohio for upgrades of emergency notification/siren systems:

\$225,000 to the Town of Bolton, Mississippi for a business district restoration plan that includes job training and a revolving loan fund:

\$300,000 to the Christiansburg Institute Board in Christiansburg, Virginia for renovation of a historic building into a museum and community learning center;

\$1,000,000 to St. John's County, Florida for water, sewer, wastewater, and stormwater system improvements.

Excludes report language proposed by the Senate directing HUD to make a comprehensive report on all EDI grants. Similar language was not included by the House. However, the conferees agree that HUD should conduct a close-out review of each non-congressionally designated EDI grant within five years of the award. Any funds not obligated should be identified and reported to the Committees by May 1, 2001, for possible rescission and reallocation.

#### BROWNFIELDS REDEVELOPMENT

Appropriates \$25,000,000 for brownfields redevelopment as proposed by the Senate instead of \$20,000,000 as proposed by the House.

HOME INVESTMENT PARTNERSHIPS PROGRAM

## (INCLUDING TRANSFER OF FUNDS)

Appropriates \$1,800,000,000 for the HOME program instead of \$1,585,000,000 as proposed by the House, and \$1,600,000,000 as proposed by the Senate. The conferees increased the funding level for HOME above the Senate and House levels, and above the request, as an indication of their support for producing substantially more affordable homes for low-income Americans.

Recognizing the tremendous unmet need for affordable housing, and in light of the fact that 5,400,000 families pay more than half their income for rent, the conferees seriously considered proposing a new production program targeted at extremely low-income families. In addition to creating new affordable homes, the proposal would have encouraged the concepts of income-mixing, and tenant choice. Unfortunately, in deference to the committees of jurisdiction, the conferees agreed to withdraw the proposal. Nevertheless, the conferees encourage the authorizing committees to consider the need for additional homes for extremely low-income families, and to draft legislation that will meet these increasing needs.

Includes \$20,000,000 for the Housing Counseling program as proposed by the Senate instead of \$15,000,000 as proposed by the House. For two consecutive years, HUD has been directed to develop a process for measuring the performance of housing counseling agencies. This year, several nonprofit intermediaries working cooperatively with HUD developed meaningful recommendations that include such measurements. The conferees direct HUD to implement these recommendations and, upon implementation, report to the Committees on Appropriations.

Transfers \$17,000,000 to the Working Capital Fund for the development and maintenance of information technology systems as proposed by the House instead of no funding as proposed by the Senate.

The conferees are concerned that there appears to be some ambiguity about whether Native American non-profit entities working on Indian lands are eligible to receive HOME funds. After reviewing the relevant statutes, the conferees see nothing that indicates Native American nonprofits are ineligible to compete for HOME funds at the state level. Furthermore, the conferees believe it is highly questionable for states to count lowincome Native American residents in their

funding calculations, but upon receipt of their allocation, be unwilling to share HOME funds with Native American non-profits. Economic and housing conditions on Native American lands are among the most challenging in the United States. The HOME program was designed to assist in meeting these challenges for all Americans and not to discriminate based on where an individual chooses to live.

## HOMELESS ASSISTANCE GRANTS (INCLUDING TRANSFER OF FUNDS)

Appropriates \$1,025,000,000 for homeless assistance grants instead of \$1,020,000,000 as proposed by the House and the Senate. Funds provided in this account include funds for new Shelter Plus Care grants. Renewals of existing grants are included in a new account called "Shelter Plus Care Renewals."

Includes language proposed by the House requiring that all homeless programs be coordinated with health, social service, and employment programs. The Senate did not include similar language.

Includes language proposed by the House providing that 1.5 percent of the funds appropriated for the program shall be for technical assistance and the development and maintenance of management information systems, instead of .75 percent as proposed by the Senate.

Appropriates \$500,000 for the Interagency Council on the Homeless as proposed by the Senate. The House did not include similar language.

The conferees reiterate and endorse language included in the Senate report regarding the need for data and analysis on the extent of homelessness and the effectiveness of McKinney Act programs, the desirability of convening a group of experts to discuss alternatives to the current "pro rata shares" formula, the importance of oversight by HUD field staff, and the need to increase the supply of permanent supportive housing. The conferees concur with the importance of developing unduplicated counts of the homeless at the local level, as well as taking whatever steps are possible to draw inferences from this data about the extent and nature of homelessness in the nation as a whole.

Likewise, the conferees agree that local jurisdictions should be collecting an array of data on homelessness in order to prevent duplicate counting of homeless persons, and to analyze their patterns of use of assistance, including how they enter and exit the homeless assistance system and the effectiveness of the systems. HUD is directed to take the lead in working with communities toward this end, and to analyze jurisdictional data within three years. Implementation and operation of Management Information Systems (MIS), and collection and analysis of MIS data, have been made eligible uses of Supportive Housing Program funds. The conferees direct HUD to report to the Committees within six months after the date of enactment of this Act on its strategy for achieving this goal, including details on financing, implementing, and maintaining the

Recognizing the need to provide assured funding for renewing Shelter Plus Care grants, the conferees have shifted renewal funding to a separate account. The conferees are aware that there is a similar permanent housing component to the Supportive Housing Program (SHP), which remains funded through the Homeless Assistance Grants account under this conference agreement. While the conferees have not shifted renewal funding for the SHP permanent housing program to the new account, they nevertheless

believe there is good reason to provide for reliable renewal of permanent housing for the formerly homeless people with disabilities, addictions, and similar problems who are served by both of these programs.

Accordingly, the conferees direct HUD to implement a mechanism for renewing the permanent housing component of SHP grants as part of its process for awarding funds under this account—provided, of course, that the activities funded by the grant are determined to meet local needs and appropriate standards of performance and financial accountability.

### SHELTER PLUS CARE RENEWALS

Appropriates \$100,000,000 for renewing shelter plus care grants that expire in fiscal years 2001 and 2002 instead of \$105,000,000 as proposed by the Senate. The House proposed renewing these contracts in the Housing Certificate Fund. These are the grants that would be subject to renewal in the fiscal years 2000 and 2001 funding cycles.

Because renewal funding is provided in this account for Shelter Plus Care grants being handled in the fiscal year 2000 continuum of care funding competition now underway, the conferees intend that grants qualifying for renewal under this account be removed from that competition and instead be renewed with funds in this account.

### HOUSING PROGRAMS

HOUSING FOR SPECIAL POPULATIONS (INCLUDING TRANSFER OF FUNDS)

Appropriates \$996,000,000 for housing for special populations as proposed by the Senate instead of \$911,000,000 as proposed by the House.

Includes \$779,000,000 for section 202 housing for the elderly instead of \$783,000,000 as proposed by the Senate and \$710,000,000 as proposed by the House.

Includes \$217,000,000 for section 811 housing for the disabled instead of \$213,000,000 as proposed by the Senate and \$210,000,000 as proposed by the House.

Includes language proposed by the House providing grants under section 202b for converting eligible projects to assisted living.

Includes language proposed by the Senate allowing the Secretary to designate up to 25% of amounts earmarked for section 811 for tenant-based assistance. The House included language that allowed the Secretary to earmark between 25% and 50% of the funds for this use.

Transfers \$1,000,000 to the Working Capital Fund for the development and maintenance of information technology systems as proposed by the House. The Senate did not include a similar provision.

## FEDERAL HOUSING ADMINISTRATION

FHA—MUTUAL MORTGAGE INSURANCE PROGRAM ACCOUNT

### (INCLUDING TRANSFERS OF FUNDS)

Limits obligations for direct loans to no more than \$250,000,000 as proposed by the Senate instead of \$100,000,000 as proposed by the House.

Transfers \$96,500,000 from administrative contract expenses to the Working Capital Fund for the development and maintenance of information technology systems as proposed by the House. The Senate did not include similar language.

The conferees reiterate report language included by the Senate regarding the implementation of the single family property disposition legislation, specifically the staturory authority to discount properties in distressed neighborhoods. In fiscal year 1999, legislation was enacted authorizing HUD to

dispose of its HUD-held single family loans. As part of that agreement, seriously distressed neighborhoods where the possibility of disinvestment is greatest could be designated as asset control areas. For these areas, HUD was granted the authority to establish discounts on the price of foreclosed homes for local governments and nonprofit institutions that establish neighborhood redevelopment plans to revitalize these areas.

HUD, however, has not aggressively implemented this legislative mandate. In fact, HUD has instituted a pricing structure that is far more restrictive than required in the law, making it extremely difficult for local governments to repair deteriorated homes and to reinvigorate neighborhoods. The conferees reiterate their support for the solution contained in the fiscal year 1999 legislation, and direct HUD to implement it-specifically the discount provisions-in a way that allows local governments and nonprofits to rebuild neighborhoods. Furthermore, the conferees reaffirm the Senate's directive to report on the implementation of the disposition program by May 15, 2001.

Finally, the conferees are extremely concerned about the proliferation of predatory lending and commend HUD for acting to combat this practice. As directed in the Senate report, the conferees look forward to being briefed by HUD on the progress made in this area.

The conferees are disappointed that HUD utilized only a small fraction of the lending authority made available in fiscal year 1999 for direct loans to nonprofit organizations and local government agencies in connection with sales of HUD-owned single-family homes under section 204(g) of the National Housing Act. HUD is expected to make fuller use of this lending authority in fiscal year 2001. In particular, the conferees believe that section 204(g) loans could be a valuable tool to assist with the acquisition, rehabilitation. and sale of homes in the asset control areas created in the fiscal year 1999 VA. HUD. and Independent Agencies Appropriations Act, and direct HUD to take steps to facilitate use of section 204(g) loans by nonprofit organizations working to revitalize neighborhoods in these areas.

## FHA—GENERAL AND SPECIAL RISK PROGRAM ACCOUNT

## (INCLUDING TRANSFERS OF FUNDS)

Transfers \$33,500,000 from administrative contract expenses to the Working Capital Fund for the development and maintenance of information technology systems as proposed by the House. The Senate did not include similar language.

Deletes language included by the Senate requiring at least \$50,000,000 of credit subsidy be directed to insuring multifamily projects where a portion of the units are targeted to extremely low-income families. However, HUD is directed to report back to the Committees on Appropriations on the feasibility of creating an insurance program that targets extremely low- and low-income families. As part of this report, HUD should include an estimate of the costs of providing credit subsidy, or of any other subsidies, that would be necessary for such a program to be successful.

## POLICY DEVELOPMENT AND RESEARCH

## RESEARCH AND TECHNOLOGY

Appropriates \$53,500,000 for research and technology instead of \$45,000,000 as proposed by the Senate and \$40,000,000 as proposed by the House. As proposed by the House, \$3,000,000 of the amount provided is for program evaluation to support the inclusion of

strategic planning and performance measurements in the preparation of the budget. The Senate did not include similar language.

Includes new language providing  $$500,\bar{0}00$  for the Commission on Affordable Housing and Health Care Facility Needs for Seniors in the 21st Century.

## FAIR HOUSING AND EQUAL OPPORTUNITY

#### FAIR HOUSING ACTIVITIES

Appropriates \$46,000,000 for fair housing activities instead of \$44,000,000 as proposed by the House and the Senate. Of the amount provided, \$24,000,000 is for section 561 of the Housing and Community Development Act of 1987.

### OFFICE OF LEAD HAZARD CONTROL

#### LEAD HAZARD REDUCTION

Appropriates \$100,000,000 for lead hazard reduction, as proposed by the Senate instead of \$80,000,000 as proposed by the House.

Of the amount, \$10,000,000 is for the Healthy Homes Initiative as proposed by the House instead of \$5,000,000 as proposed by the Senate

Inserts language proposed by the House and stricken by the Senate providing \$1,000,000 for CLEARCorps.

Deletes language proposed by the Senate transferring balances from pre-existing lead reduction programs. This transfer was included in the fiscal year 2000 appropriations measure and has already been implemented.

#### MANAGEMENT AND ADMINISTRATION

## SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

Appropriates \$1,072,000,000 for salaries and expenses instead of \$1,003,380,000 as proposed by the House and \$1,002,233,000 as proposed by the Senate.

Deletes language proposed by the Senate limiting per-employee costs (including benefits) to an average of \$78,000. The House did not include similar language.

Inserts language proposed by the Senate prohibiting HUD from employing more than 14 employees in the Office of Public Affairs. The House did not include similar language.

Deletes language proposed by the Senate limiting the number of HUD full time equivalent (FTE) positions to no more than 9,100. Inserts new language limiting the personal

services object class to no more than \$758,000,000.

Inserts new language requiring that not less than \$100,000,000 in the Working Capital Fund be used for the development and maintenance of information technology systems.

Inserts new language limiting the number of outside employees that HUD may hire at grade levels of GS-14 and GS-15. Under the limitation, HUD may hire only 7 GS-14 and GS-15 level employees for every 10 such employees who leave the Department. The limitation will be lifted only when the number of GS-14 and GS-15 level employees falls 2.5 percent from the level at the date of enactment. This moratorium on hiring does not include promoting from within HUD, nor does it impact the number of Schedule C employees that can be hired at these grade levels.

The conferees are concerned about the growth of the personal service object class in the salaries and expenses account. To gain control over its growth, a cap of \$758,000,000 has been placed on the personal service object class. Finally, HUD is directed to spend at least \$100,000,000 on the development and maintenance of information technology systems. The conferees hope that HUD will use these tools in a constructive manner to deal with several serious issues.

First, HUD has been unable to accurately portray its salary and expense needs. In its fiscal year 2000 request, HUD requested funding for 9,300 people though only 9,030 people were on staff at the time. Despite this knowledge, which HUD did not share with the Committees, HUD threatened a reduction in force (RIF) unless more funds were forthcoming. Relying on the representation that a RIF was a real possibility, \$20,000,000 more than was recommended was provided. Even then, HUD claimed this amount was insufficient.

However, during fiscal year 2000, instead of threatened staff reductions, HUD hired more than 700 employees, an unprecedented number of new hires. In addition, HUD increased the number of personnel receiving quality step increases from a negligible amount to approximately 30% of the total staff. This action brought the average cost per employee up to \$81,500—a level that is \$2,700 higher than estimated in the fiscal year 2001 budget request—thus making the fiscal year 2001 budget request insufficient by \$18,650,000.

Making a bad situation worse, almost 25% of HUD's total staff—or 2,018 people according to HUD—are at the GS-14 and GS-15 levels of pay. Yet in fiscal year 2000 alone, HUD hired more than 200 new GS-14 and GS-15s, causing displacement of existing staff and making it virtually impossible for younger employees to expect upward movement in their careers in a reasonable amount of time.

Such poor management decisions only underscore other management deficiencies. For years. Congress has requested HUD to provide a staff plan that matches staffing requirements with programmatic responsibilities. For six years, HUD has systematically and deliberately ignored these Congressional requests and directives. Therefore, it isn't surprising that the National Academy of Public Administration (NAPA) recently reported that ". . . the basis for most staff level changes in the recent past has been top-down direction that HUD reduce staff levels to get to a target number. The lack of an analytical basis for much of that direction has not let top management know whether resulting staff levels in individual offices and overall are adequate to accomplish the department's mission." Not only does this conclusion concern the conferees, it flies in the face of HUD's own restructuring plan embodied in Management Reform Plan 2020

Exacerbating these problems is HUD's annual transfer of funds from its information technology account to offset the personal services account, significantly delaying HUD's entry to the information age. HUD's inability to account for its appropriations—and its raid of the IT account to supplement an inadequate personal services account is simply unacceptable. For that reason, the conferees have fenced the IT account and direct HUD to move forward on implementing an enterprise data warehouse that incorporates a geographic information system (GIS) platform for HUD as quickly as possible

The conferees reassert the House report language directing HUD to present a comprehensive, multi-year budget plan that creates, maintains, and refines HUD's information technology systems. Finally, HUD is directed to provide a plan that matches staff resources with programmatic needs by May 15, 2001.

### OFFICE OF INSPECTOR GENERAL

Appropriates \$85,000,000 for the Office of Inspector General instead of \$83,000,000 as pro-

posed by the House and \$87,843,000 as proposed by the Senate.

#### ADMINISTRATIVE PROVISIONS

Restores language proposed by the House and stricken by the Senate giving HUD enhanced authority to dispose of HUD-held mortgages

Restores language proposed by the House and stricken by the Senate allowing HUD to set maximum payment standards for enhanced youchers.

Deletes language proposed by the House authorizing PHAs to utilize any excess section 8 for increasing the value of a voucher in high cost areas, and for other purposes. The Senate had included similar language in its Title II of Division B.

Includes language proposed by the Senate to prohibit HUD from prohibiting or debarring entities that administer the continuum of care process for homeless grants without due process. The House did not include similar language.

Includes language proposed by the Senate to require all Title II programs to comply with the HUD Reform Act. The House did not include similar language.

Includes language proposed by the Senate enabling homeless programs to utilize the environmental assumption authority contained in section 305(c) of the Multifamily Housing Property Disposition Reform Act of 1994. The House did not include similar language.

Includes language proposed by the Senate making technical changes and corrections to the National Housing Act. The House did not include similar language.

Includes language proposed by the Senate making law enforcement officers eligible for housing assistance under the Indian housing block grant program. The House did not include similar language.

Includes language proposed by the Senate prohibiting federal assistance to facilities that sell predominantly cigarettes or other tobacco products. The House did not include similar language.

Modifies language proposed by the Senate prohibiting the implementation of the Puerto Rico PHA settlement agreement until management reform goals and benchmarks are identified including safeguards against fraud and abuse by inserting a date by which the report is due. The House did not include similar language.

Modifies language proposed by the Senate allowing a grant award to the Hollander Ridge project to be used for activities that benefit the site. The House did not include similar language.

Deletes language proposed by the Senate reducing the downpayment requirements for teachers and uniformed municipal employees. The House did not include similar language. However, the Office of Policy Development and Research is directed to contract with an outside entity to determine the feasibility of decreasing the downpayment requirements for these individuals and assess its impact on communities.

Includes language proposed by the Senate authorizing the "neighborhood networks" computer concept to be an eligible activity to receive funding under the modernization and HOPE VI grant programs. The House did not include similar language.

Includes language proposed by the Senate deeming a project in Independence, Missouri, to be eligible for mark-to-market reforms. The House did not include similar language.

Modifies language proposed by the Senate to extend section 236(g)(3)(A) of the National Housing Act for one year. The House did not include similar language.

Modifies language proposed by the Senate enabling a county to elect to remain an "urban county" if it was so defined in fiscal year 1999. The House did not include similar language.

Deletes language proposed by the Senate to authorize a low-income multifamily risksharing mortgage insurance program. The House did not include similar language.

Includes language proposed by the Senate exempting Alaska and Mississippi from the statutory requirement of having a resident on the board of a PHA. The House did not include similar language.

Includes new language making moderate rehabilitation funds available for use under the HOME Investment Partnerships Act for two projects in New Rochelle, New York.

Includes new language reprogramming \$1,000,000 for the City of Loma Linda for infrastructure improvements at Redlands Boulevard and California Streets, for infrastructure improvements in the city related to Mountain View Bridge.

Includes new language making Native American communities eligible to receive funding under the Resident Opportunity and Social Services program.

Includes new language extending for one year an economic development initiative in Miami Beach, Florida.

Includes new language reprogramming funds from Homestead, Florida, to housing for low-income elderly persons in Dade County, Florida.

Includes new language waiving the CDBG social services cap for the City of Los Angeles.

Includes new language extending FHA's downpayment simplification provisions to December 31, 2002.

Includes new language amending section 423 of the Stewart B. McKinney Homeless Assistance Act program to allow grants to be used to pay for the costs of implementing and operating management information systems

Includes new language amending section 184 of the Housing and Community Development Act of 1992 by allowing the program to be used to refinance previously made loans for purposes of rehabilitation, and by eliminating the requirement to show lack of access to private financial markets.

Includes new language making enhanced vouchers available to residents who have continued to reside in section 8 properties which opted out of expired federal assistance contracts prior to enactment of Subtitle C of Title V of the fiscal year 2000 VA, HUD and Independent Agencies Appropriations Act.

Includes new language requiring grantees under Subtitle A of title IV of the Stewart B. McKinney Homeless Assistance Act to coordinate their discharge policies.

Includes new language amending section 525 of the VA, HUD and Independent Agencies Appropriations Act of 2000 by changing the title of the "Commission on Affordable Housing and Health Care Facility Needs" to the "Commission on Affordable Housing and Health Care Facility Needs for Seniors in the 21st Century."

Includes new language amending the McKinney Act allowing for the chair of the Interagency Council for the Homeless to rotate between HUD, the Department of Health and Human Services, the Department of Labor, and the Department of Veterans Affairs

Modifies language proposed by the Senate amending the Quality Housing and Work Responsibility Act of 1998 (QHWRA), to allow PHAs to "project-base" up to 20 percent of their section 8 voucher funds. For many reasons, including burdensome implementation regulations, the option in QHWRA has never worked effectively. Therefore, the conferees have agreed to include legislation that makes substantive revisions to section 8(0)(13) of the United States Housing Act.

First, the revision makes the option to project-base vouchers more flexible, and allows PHAs to designate up to 20% of their available voucher funds for this purpose without any requirement that owners invest additional funding in the units. This change allows PHAs to decide whether to link project-basing to new construction, to rehabilitation, or simply to use project-basing as a tool to promote voucher utilization and to expand housing opportunities. A PHA may project-base their vouchers only if the choice is consistent with the housing needs and strategies identified in the PHA plan. If a PHA chooses this option, the initial contract term with the owner of the development may be no more than 10 years in duration, but may be extended, subject to the agreement of the owner and the PHA. All contracts are subject to the availability of appropriations.

Additionally, it requires PHAs to offer families with project-based vouchers a "continued assistance option"—a program variation that allows families to move from the assisted building, and to retain federal housing assistance. Under this option. PHAs agree to link a specified number of subsidies to a particular development. The initial families are selected by the manager of the development from among families referred by PHAs. Families with the continued assistance option have the right to move after one year but retain their federal housing assistance by going to the top of the PHA waiting list, or by receiving assistance through other means devised by the PHA. Families that move from a subsidized unit are replaced by families referred from the PHA's waiting list, ensuring that the specified number of subsidies continue to be utilized at the development throughout the term of the PHA's contract with the owner. Special rules would be applied in tax credit units.

To promote mixed-income developments, only 25 percent of the units in a multifamily building may have project-based assistance. PHAs are allowed to offer vacancy payments to owners for no more than 60 days. However, PHAs and owners must seek to reduce the need for vacancy payments and such payments may not be made if the vacancy is the fault of the owner—for example, the unit does not pass re-inspection, or a PHA refers a reasonable number of families to the owner but the owner refuses to select any of them.

Modifies language proposed by the Senate requiring HUD to maintain section 8 rental assistance payments on HUD-held or HUD-owned properties that are occupied primarily by elderly or disabled families. If the properties are not viable affordable housing, the Secretary may contract for project-based assistance with other existing housing properties, or provide other rental assistance.

Modifies language proposed by the Senate making the family unification program more flexible.

Includes language proposed by the Senate making the FHA risk-sharing programs permanent.

## TITLE III—INDEPENDENT AGENCIES AMERICAN BATTLE MONUMENTS COMMISSION

SALARIES AND EXPENSES

Appropriates \$28,000,000 for salaries and expenses as proposed by the House instead of \$26,196,000 as proposed by the Senate. The

conferees commend the ABMC for the progress made in reducing the backlogged maintenance needs throughout the ABMC system, and have provided funds in excess of the budget request to continue this important program.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

### SALARIES AND EXPENSES

Appropriates \$7,500,000 for salaries and expenses instead of \$8,000,000 as proposed by the House and \$7,000,000 as proposed by the Senate. Bill language has been included again this fiscal year which limits the number of career Senior Executive Service positions to three. Of the available funds, \$5,000,000 shall remain available until September 30, 2001, and \$2,500,000 shall remain available until September 30, 2002.

In addition, language has been adopted which stipulates that the Inspector General of the Federal Emergency Management Agency shall also serve as the Inspector General of the Board, shall utilize personnel of the Office of Inspector General of FEMA in performing the duties of the Inspector General of the Board, and shall not appoint any individuals to positions within the Board.

The conferees agree that not later than March 1, 2002, and thereafter, the Chief Operating Officer of the Board shall prepare a financial report for the preceding year, covering all accounts and associated activities of the Board. Each such financial report shall be audited according to generally accepted accounting principles by the Inspector General of the Board or another qualified external auditor as determined by the Inspector General, and each such audit report shall be submitted to the Chief Operating Officer not later than June 30 following the fiscal year for which the audit was performed.

DEPARTMENT OF THE TREASURY
COMMUNITY DEVELOPMENT FINANCIAL
INSTITUTIONS

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND PROGRAM ACCOUNT

Appropriates \$118,000,000 for community development financial institutions fund program account instead of \$105,000,000 as proposed by the House and \$95,000,000 as proposed by the Senate.

Includes \$5,000,000 for technical assistance to promote economic development in Native American communities. The conferees intend that this assistance be provided primarily through qualified community development lenders, organizations with experience and expertise in banking and lending in Indian country, Native American organizations, and other suitable providers, as well as through financial assistance to tribes and tribal organizations for procurement of appropriate expertise and services.

Provides \$8,750,000 for administrative expenses instead of \$9,500,000 as proposed by the House, and \$8,000,000 as proposed by the Senate

Provides \$19,750,000 for the cost of direct loans instead of \$23,000,000 as proposed by the House, and \$16,500,000 as proposed by the Senate

Excludes language proposed by the House and stricken by the Senate regarding the accounting of certain administrative costs.

Eliminates language proposed by the Senate capping the Bank Enterprise Award program at \$30,000,000. The House did not include similar language.

CONSUMER PRODUCT SAFETY COMMISSION SALARIES AND EXPENSES

Appropriates \$52,500,000 for the Consumer Product Safety Commission, salaries and ex-

penses, as proposed by the Senate, instead of \$51,000,000 as proposed by the House.

The conferees are in agreement that significant progress has been made by the Commission in reducing children's deaths in cribs. Despite this accomplishment, deaths in used cribs remain too high. Accordingly, the conferees urge the Commission to undertake an initiative to continue its excellent efforts to further reduce crib deaths.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

NATIONAL AND COMMUNITY SERVICE PROGRAMS OPERATING EXPENSES

(INCLUDING TRANSFER AND RESCISSION OF FUNDS)

Appropriates \$458,500,000 for national and community service programs operating expenses, instead of \$433,500,000 as proposed by the Senate. The House proposed termination of the Corporation for National and Community Service using funds appropriated in prior years.

Limits funds for administrative expenses to not more than \$31,000,000, instead of \$29,000,000 as proposed by the Senate. The conferees have included language proposed by the Senate which directs the Corporation to use \$2,000,000 for acquisition of a cost accounting system for the Corporation's financial management system, an integrated grants management system that provides comprehensive financial management information for all Corporation grants and cooperative agreements, and the establishment. operation and maintenance of a central archives. The conferees agree that improvements to the Corporation's accounting systems, including a cost accounting system, is of very high priority and deserves senior management's full attention. The conferees agree that the Corporation is prohibited from providing any salary increases (with the exception of locality adjustments and other appropriate adjustments provided to all government employees) or bonuses to its senior management until the Corporation has certified, with the IG's concurrence, that an adequate cost accounting and grants management system has been acquired, implemented, and conforms to all Federal requirements.

Limits funds as proposed by the Senate to not more than: \$28,500,000 for quality and innovation activities: \$2.500 for official reception and representation expenses; \$70,000,000 for education awards, of which not to exceed \$5,000,000 shall be available for national service scholarships for high school students performing community service; \$231,000,000 for AmeriCorps grants, of which not to exceed \$45,000,000 may be for national direct programs and \$25,000,000 shall be for activities dedicated to developing computer and information technology skills; \$10,000,000 for the Points of Light Foundation; \$21,000,000 for the civilian community corps; \$43,000,000 for school-based and community-based servicelearning programs; and \$5,000,000 for audits and other evaluations.

The conferees agree to add \$3,000,000 to the national civilian community corps (NCCC) account to cover the additional costs of relocating a campus site in San Diego and to administer a program level of 1,100 members, which would match its fiscal year 1998 level. The conferees understand that the number of campuses would remain at the current level of five sites.

Inserts language proposed by the Senate which prohibits using any funds for national service programs run by Federal agencies; provides that, to the maximum extent feasible, funds for the AmeriCorps program will

be provided consistent with the recommendation of peer review panels; and provides that, to the maximum extent practicable, the level of matching funds shall be increased, education only awards shall be expanded, and the cost per participant shall be reduced.

Rescinds \$30,000,000 from the National Service Trust, instead of \$50,000,000 as proposed by the Senate. The conferees have taken this action because the balances in the Trust appear at this time to be in excess of requirements based upon usage rates. The conferees direct the Corporation to provide a quarterly report to the Committees on Appropriations of the House and Senate on the assets and liabilities of the National Service Trust fund, including information on interest earned and interest received and an explanation of the relationship between the amounts in the completed financial statements and the budget request.

The conferees agree to the Senate proposal to earmark \$5,000,000 for Communities In Schools, Inc., \$2,500,000 for Parents as Teachers National Center, Inc., \$7,500,000 for America's Promise—The Alliance for Youth, Inc., and \$2,500,000 for Boys and Girls Clubs of America.

The conferees agree to provide \$1,500,000 for the Youth Life Foundation (YLF). The YLF aims to replicate the programs it has developed in Washington, D.C. to address the challenges of children living in insecure environments and make those programs applicable to other parts of the Nation. The conferees recognize that America's Promise is already trying to establish partnerships with locally-based organizations such as YLF. Accordingly, the conferees expect YLF to continue its effort in coordinating and collaborating its activities with America's Promise.

The House proposed that the Corporation be terminated and did not include any of the foregoing limitations or provisions proposed by the Senate.

### OFFICE OF INSPECTOR GENERAL

Appropriates \$5,000,000 for the Office of Inspector General, the same amount as provided by the House and the Senate.

## ADMINISTRATIVE PROVISION

Includes an administrative provision, as proposed by the Senate, which provides a technical correction to language included in the fiscal year 2000 appropriations Act.

COURT OF APPEALS FOR VETERANS CLAIMS

### SALARIES AND EXPENSES

Appropriates \$12,445,000 for the Court of Appeals for Veterans Claims as proposed by the Senate instead of \$12,500,000 as proposed by the House.

DEPARTMENT OF DEFENSE-CIVIL CEMETERIAL EXPENSES. ARMY

## SALARIES AND EXPENSES

Appropriates \$17,949,000 for salaries and expenses as proposed by the House instead of \$15,949,000 as proposed by the Senate. The conferees note that the funding level represents an increase of over \$5,000,000 above the previous fiscal year, and will be used for the highest priority maintenance and capital improvement projects as identified in the Cemetery's Ten-Year Plan.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

NATIONAL INSTITUTES OF HEALTH
NATIONAL INSTITUTE OF ENVIRONMENTAL
HEALTH SCIENCES

Appropriates \$63,000,000 for the National Institute of Environmental Health Sciences in a new, separate account instead of

\$60,000,000 as proposed in a new account by the House and \$60,000,000 as proposed through the Environmental Protection Agency's Hazardous Substance Superfund account by the Senate. The conferees believe this new account structure will provide higher visibility and better oversight of the NIEHS. The conferees have deleted language proposed by the House making funding available until September 30, 2002.

Of the funds provided, \$40,000,000 is for the research program and \$23,000,000 is for the worker training program.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY

#### SALARIES AND EXPENSES

Appropriates \$75,000,000 for salaries and expenses of the Agency for Toxic Substances and Disease Registry in a new, separate account instead of \$70,000,000 as provided by the House in a new account and \$75,000,000 as provided through the Environmental Protection Agency's Hazardous Substance Superfund account by the Senate. The conferees believe this new account structure will provide higher visibility and better oversight of the ATSDR.

The conferees have also included bill language which permits the Administrator of the ATSDR to conduct other appropriate health studies and evaluations or activities in lieu of health assessments pursuant to section 104(i)(6) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA). The language further stipulates that in the conduct of such other health assessments, evaluations, or activities, the ATSDR shall not be bound by the deadlines imposed in section 104(i)(6)(A) of CERCLA. The conferees have deleted language proposed by the House making funding available until September 30, 2002.

Funds provided for fiscal year 2001 cannot be used by the ATSDR to conduct in excess of 40 toxicological profiles.

Within the appropriated level, ATSDR is to use up to \$2,000,000 to continue the Great Lakes fish consumption study; up to \$6,000,000 for medical monitoring and related activities in Libby, Montana; \$500,000 to conduct subsistence and dietary studies of contaminents in the environment, subsistence resources, and people in Alaska Native populations; and up to \$1,000,000 for completion of the Toms River, New Jersey cancer evaluation and research project. The ATSDR is further directed to provide support for the minority health professions program.

As in the past, ATSDR's administrative costs charged by the CDC are capped at 7.5 percent of the amount appropriated herein.

### ENVIRONMENTAL PROTECTION AGENCY

## SCIENCE AND TECHNOLOGY

Appropriates \$696,000,000 for science and technology instead of \$650,000,000 as proposed by the House and \$670,000,000 as proposed by the Senate.

The conferees have agreed to the following increases to the budget request:

- 1. \$2,500,000 for EPSCoR.
- 2. \$4,000,000 for the Water Environment Research Foundation.
- 3. \$4,000,000 for the American Water Works Association Research Foundation.
- 4. \$2,000,000 for the National Decentralized Water Resource Capacity Development Project, in coordination with EPA, for continued training and research and development.
- 5. \$1,500,000 for the National Jewish Medical and Research Center for research on the relationship between indoor and outdoor pol-

lution and the development of respiratory diseases.

- 6. \$1,900,000 for the National Environmental Respiratory Center at the Lovelace Respiratory Research Institute. The research should be coordinated with EPA's overall particulate matter research program and consistent with the recommendations set forth by the National Academy of Sciences report on PM research.
- 7. \$1,000,000 for the Environmental Technology Commercialization Center to increase the transfer of federally-developed environmental technology.
- 8. \$1,250,000 for the Center for Air Toxics Metals at the Energy and Environmental Research Center.
- 9. \$1,500,000 for the Mickey Leland National Urban Air Toxics Research Center.
- 10. \$250,000 for acid rain research at the University of Vermont.
- 11. \$1,500,000 for the Gulf Coast Hazardous Substance Research Center.
- 12. \$250,000 for the Institute for Environmental and Industrial Science at Southwest Texas State University.
- 13. \$750,000 for the Integrated Public/Private Energy and Environmental Consortium (IPEC) to develop cost-effective environmental technology, improved business practices, and technology transfer for the domestic petroleum industry.
- 14. \$1,000,000 for the University of South Alabama Center for Estuarine Research.
- 15. \$4,527,000 for the Mine Waste Technology Program and the Heavy Metal Water Program at the National Environmental Waste Technology, Testing, and Evaluation Center (\$3,902,000) and for a field demonstration of ceramic microfiltration technology (\$625,000).
- 16. \$400,000 for the Texas Institute for Applied Environmental Research at Tarleton State University.
- 17. \$500,000 for the Consortium for Plant Biotechnology Research.
- 18. \$750,000 for the Geothermal Heat Pump (GHP) Consortium.
- 19. \$750,000 for the Kalamazoo River Watershed Initiative through Western Michigan University's Environmental Research Institute
- 20. \$900,000 to Old Dominion University in Virginia for the continued development, design, and implementation of a research effort on tributyltin-based ship bottom paints.
- 21. \$1,000,000 to the University of California, Riverside for continued research of advanced vehicle design, advanced transportation systems, vehicle emissions, and atmospheric pollution at the CE-CERT facility
- ity.

  22. \$2,000,000 to the University of Miami in Florida for the Rosentiel School of Marine and Atmospheric Science.
- 23. \$1,000,000 for the Environmental Protection Agency to become involved in the Department of Energy's fine particulate matter research program.
- 24. \$3,000,000 to the National Technology Transfer Center to continue its cooperative agreement with EPA to assess, market and license technologies owned by EPA, and to conduct commercialization best practices training activities.
- 25. \$2,000,000 to the Canaan Valley Institute for continuation of its regional environmental data center and coordinated information management system in the Mid-Atlantic Highlands in coordination with the Federal Geographic Data Committee and the National Spatial Data Infrastructure.
- 26. \$1,000,000 above the budget request to the Canaan Valley Institute in close coordination with the Regional Vulnerability and

Assessment (ReVA) initiative to develop research and educational tools using integrative technologies to predict future environmental risk and support informed, proactive decision-making.

27. \$500,000 to establish the Center for Metals in the Environment in Delaware.

28. \$625,000 to New Mexico State University to determine the Carbon Sequestration Potential of southwestern lands.

29. \$1,400,000 to the University of New Hampshire for continuation of the Bedrock Bioremediation Center research project.

30. \$990,000 for research associated with the restoration and enhancement of Manchac Swamp conducted by Southeastern Louisiana at the Turtle Cove Research Station.

31. \$500,000 to the Metropolitan Development Association of Syracuse and Central New York to continue assessing and mitigating the impact of exposure to multiple indoor contaminants on human health.

32. \$3,637,000 to the National Alternative Fuels Foundation for research and development of a new class of alternative fuels known as vapor-phase combustion fuels.

The conferees have agreed to the following reductions from the budget request:

1. \$26,089,000 from the CCTI Transportation research program; and

2. \$1,138,000 from project EMPACT.

Within the funds transferred from the Hazardous Substance Superfund (HSS) account, \$7,000,000 is for the Superfund Innovative Technology Evaluation (SITE) program, including \$500,000 for a demonstration project at the Port of Richfield, Washington involving an innovative steam extraction technology. Also from within those funds transferred from HSS as well as from funds appropriated to science and technology, \$4,500,000 is for continued operation of the Hazardous Substance Research Centers.

The conferees direct EPA to contract, within 30 days of enactment of this Act, with the National Academy of Sciences or other appropriate entity for a study of carbon monoxide episodes in meteorological and topographical problem areas, addressing the role of cold weather inversions and addressing public health significance and strategies, including the use of catalytic converter and other cold-start technology, for managing these rare occurrences in national ambient air quality standards non-attainment areas, due mostly to cold weather inversions. One of the major case studies is to be Fairbanks, Alaska, for which there shall be a preliminary report by September 1, 2001 in order to inform the further development of a State Implementation Plan for such area.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

Appropriates \$2,087,990,000 for environmental programs and management instead of \$1,895,000,000 as proposed by the House and \$2,000,000,000 as proposed by the Senate. The conferees have included bill language as proposed by the House, identical to that carried in the fiscal years 1999 and 2000 Acts, which limits the expenditure of funds to implement or administer guidance relating to title VI of the Civil Rights Act of 1964, with certain exceptions. This provision does not provide the Agency statutory authority to implement its Environmental Justice Guidance. Rather, it simply clarifies the applicability of the Interim Guidance with respect to certain pending cases as an administrative convenience for the Agency.

The conferees have included bill language providing up to an additional 6 months for EPA to issue a final regulation for arsenic in drinking water. The conferees are very concerned about the cost of EPA's proposed ar-

senic drinking water rule to small communities. Moreover, the information EPA used to develop the proposed standard is the subject of considerable controversy and disagreement. The conferees believe EPA should take a full year—as intended by the Safe Drinking Water Act Amendments of 1996—to finalize the new standard and therefore strongly recommend EPA not finalize the rule until June 2001 and provide significant, additional opportunity for public comment.

Bill language proposed by the House and the Senate has been included, as in the past two fiscal years, prohibiting EPA from spending funds to implement the Kyoto Protocol. The conferees note that this restriction on the use of funds shall not apply to the conduct of education activities and seminars by the agency.

The conferees note that several programs funded through this Act conduct science and technology research that are associated partly with global climate change. To the extent that the conferees have funded this work, they have done so based on each program's individual merits of contributing to issues associated with domestic energy production, national energy security, energy efficiency and cost savings, related environmental assessments, and general energy emission improvements. The bill language is intended to prohibit funds provided in this bill from being used to implement actions called for solely under the Kyoto Protocol, prior to its ratification.

The Byrd-Hagel Resolution passed in 1997 (S. Res. 98) remains the clearest statement of the will of the Senate with regards to the Kyoto Protocol, and the conferees are committed to ensuring that the Administration not implement the Kyoto Protocol without Congressional consent. The conferees recognize, however, that there are also long-standing energy research programs which have goals and objectives that, if met, could have positive effects on energy use and the environment. The conferees do not intend to preclude these programs from proceeding, provided they have been funded and approved by Congress.

To the extent future funding requests may be submitted which would increase funding for climate change activities prior to Senate consideration of the Kvoto Protocol (whether under the auspices of the Climate Change Technology Initiative or any other initiative), the Administration must do a better job of explaining the components of the programs, their anticipated goals and objectives, the justification for any funding increases, a discussion of how success will be measured, and a clear definition of how these programs are justified by goals and objectives independent of implementation of the Kyoto Protocol. The conferees expect these items to be included as part of the fiscal year 2002 budget submission for all affected agencies.

The conferees have agreed to the following increases to the budget request:

1. \$14,500,000 for rural water technical assistance and groundwater protection, including \$8,600,000 for the NWRA, \$2,600,000 for RCAP, \$700,000 for GWPC, \$1,600,000 for the SFC, and \$1,000,000 for the NETC.

2. \$1,000,000 for implementation of the National Biosolids Partnership Program.

3. \$1,500,000 for source water protection programs. These funds are to be used to develop local source water protection programs within each state utilizing the infrastructure and process of an organization now engaged in groundwater and wellhead protection programs.

- 4. \$1,250,000 for the national onsite and community wastewater treatment demonstration project through the Small Flows Clearinghouse.
- 5. \$2,500,000 for the Southwest Center for Environmental Research and Policy.
- 6. \$4,000,000 for the Small Public Water System Technology Centers at Western Kentucky University; the University of New Hampshire; the University of Alaska-Sitka; Pennsylvania State University; the University of Missouri-Columbia; Montana State University; the University of Illinois; and Mississippi State University.
- 7. \$500,000 for the final year of Federal funding to assist communities in Hawaii to meet successfully the water quality permitting requirements for rehabilitating native Hawaiian fishponds.
- 8. \$5,000,000 under section 104(b) of the Clean Water Act for America's Clean Water Foundation for implementation of on-farm environmental assessments for livestock operations, with the goal of improving surface and ground water quality.
- $9.\ \$500,\!000$  for the Ohio River Watershed Pollutant Reduction Program, to be cost-shared.
- 10. \$1,650,000 to continue the sediment decontamination technology demonstration in the New York-New Jersey Harbor.
- 11. \$1,500,000 for the National Alternative Fuels Vehicle Training Program.
- 12. \$300,000 for the Coalition for Utah's Future to continue the Envision Utah project including the development of a sustainable plan for future growth and environmental stewardship in the Wasatch Front.
- 13. \$300,000 for the Northeast States for Coordinated Air Use Management.
- 14. \$750,000 for planning, coordination and development of a comprehensive watershed based implementation program for the Santa Fe River.
- 15. \$500,000 for the Brazos-Navasota watershed management project.
- 16. \$500,000 for the Kentucky Center for Wastewater Research to establish training, education and database management for wastewater research to identify the greatest threats to regional watersheds.
- 17. \$250,000 for the Maryland Bureau of Mines for an acid mine drainage remediation project to reduce or eliminate the loss of quality water from surface streams in the Kempton Mine complex.
- 18. \$2,000,000 to the University of Missouri-Rolla for research and development of technologies to mitigate the impacts of livestock operations on the environment.
- 19. \$500,000 for marsh restoration activities at Acowmin Marsh and Little River Marsh near North Hampton and Rye, New Hampshire.
- 20. \$200,000 for the Tri-State Water Quality Council for development of voluntary nutrient reduction programs, establishing a basinwide water quality monitoring program, and related activities.
- 21. \$1,000,000 for the Global Environmental Management Education Center within the College of Natural Resources at the University of Wisconsin-Stevens Point, to provide training and outreach education for safeguarding the quality of surface and groundwater resources.
- 22. \$1,000,000 for the Frank Tejeda Center for Excellence in Environmental Operations to continue its efforts to demonstrate new technology for water and wastewater treatment.
- 23. \$1,250,000 for the Chesapeake Bay Small Watershed Grants Program. Funds provided for the Chesapeake Bay small watersheds

program are to be managed by the Fish and Wildlife Foundation and shall be used for community-based projects including those that design and implement on-the-ground and in-the-water environmental restoration or protection activities to help meet Chesapeake Bay Program goals and objectives.

- 24. 1,000,000 for the Lake Champlain management plan.
- 25. \$4,500,000 for operation of the Long Island Sound Office and programs consistent with new authorization relative to the Long Island Sound. The total program is provided \$5,000,000.
- 26. \$500,000 for the Environmentors project. 27. \$200,000 for the Northeast Waste Management Officials Association to continue

solid waste, hazardous waste, cleanup and

pollution prevention programs.

- 28. \$2,000,000 for the Food and Agricultural Policy Research Institute's Missouri watershed initiative project to link economic and environmental data with ambient water quality.
- 29. \$500,000 for the Small Business Pollution Prevention Center at the University of Northern Iowa.
- 30. \$750,000 for the painting and coating compliance enhancement project through the Iowa Waste Reduction Center.
- 31. \$1,890,000 for the Michigan Biotechnology Institute for development and demonstration of environmental cleanup technologies.
- 32. \$200,000 for the Hawaii Department of Agriculture and the University of Hawaii College of Tropical Agriculture and Human Resources to continue projects aimed at improving the acceptability and efficacy of agriculturally-based environmental restoration technologies.
- 33. \$1,000,000 for the Animal Waste Management Consortium through the University of Missouri, acting with Iowa State University, North Carolina State University, Michigan State University, Oklahoma State University, and Purdue University to supplement ongoing research, demonstration, and outreach projects associated with animal waste management.
- 34. \$1,000,000 to complete a cumulative impacts study by the National Academy of Sciences of North Slope oil and gas development.
- 35. \$750,000 for an expansion of EPA's efforts related to the Government's purchase and use of environmentally preferable products focused on bio-based products with an emphasis on soy-based industrial oils, greases and hydraulic fluid. This includes \$200,000 to complete the soy smoke initiative through the University of Missouri-Rolla.
- 36. \$975,000 for the Alabama Department of Environmental Management water and wastewater training programs.
- 37. \$250,000 for the Vermont Department of Agriculture to work with the conservation districts along the Connecticut River in Vermont to reduce nonpoint source pollution.
- 38. \$600,000 for the Wetland Development project in Logan, Utah.
- 39. \$500,000 for the Economic Development Alliance of Hawaii to accelerate commercialization of biotechnology to reduce pesticide use in tropical and subtropical agricultural production.
- 40. \$100,000 for the Connecticut River Science Consortium to develop an interdisciplinary scientific monitoring and analysis project in the Connecticut River Basin.
- 41. \$1,000,000 to develop and demonstrate new tools for imaging and monitoring the movement of fluids and contaminants in the

- shallow subsurface using time-lapse geophysical imaging and tomography techniques. This project will involve researchers from Boise State University, the Idaho National Engineering and Environmental Laboratory, other Federal labs and industry.
- 42. \$500,000 for Mississippi State University, the University of Mississippi and the University of Georgia to conduct forestry best management practice water quality effectiveness studies in the States of Mississippi and Georgia.
- 43. \$750,000 for the University of Idaho's groundwater assessment project for rural Idaho cities and towns.
- 44. \$500,000 for a study by the City of Fairbanks using geographic information system mapping to assess methods to comply with NPDES requirements.
- 45. \$150,000 to Colchester, Vermont to study nonpoint source influences on water quality in Mallets Bay on Lake Champlain and to plan for mitigation, with a focus on stormwater management and on-site disposal systems.
- 46. \$750,000 for the Resource and Agricultural Policy Systems Project at Iowa State University.
- 47. \$700,000 to continue the Urban Rivers Awareness Program at the Academy of Natural Sciences in Philadelphia for its environmental science program.
- 48. \$500,000 for the Kenai River Center for continued research on watershed issues and related activities.
- 49. \$750,000 for the New Hampshire Estuaries Project management plan implementation.
- 50. \$100,000 to continue the Design for the Environment for Farmers Program to address the unique environmental concerns of the American Pacific area through the adoption of sustainable agricultural practices.
- 51. \$5,000,000 to the Gas Research Institute for the development of a bio-refinery commercialization pilot project which will utilize thermal-depolymerization technology to break down waste streams into usable products
- 52. \$700,000 to the Northwest Indian Fisheries Commission for programs as described in Senate Report 106-410.
- 53. \$300,000 to Davie County, North Carolina for the Cooleemee Falls Project.
- 54. \$1,000,000 to Union County, Arkansas for the continuation of the Union County Sparta Aquifer study.
- 55. \$500,000 to Riverside County, California for the Community and Environmental Transportation Acceptability Process (CETAP).
- 56. \$150,000 for the Santa Clara River Enhancement and Management Plan.
- 57. \$450,000 to Ventura County, California for continued development of the Calleguas Creek Watershed management plan.
- 58. \$1,200,000 to Gateway Cities, Council of Governments in California to complete Phase II of the Truck Impacted Intersections Program and develop the comprehensive Diesel Emissions Reduction Program.
- 59. \$900,000 for continuation of the Sacramento River Toxic Pollution Control Project, to be cost shared.
- 60. \$600,000 to Fort Lauderdale, Florida for design and construction as part of the Fort Lauderdale International Airport Wetlands Development Project.
- 61. \$131,000 to Miami-Dade County, Florida for lead screening, testing, outreach, education and abatement in the Liberty City neighborhood.
- 62. \$600,000 for fishery and habitat restoration in Lake Panasoffkee, Florida.

- 63. \$600,000 to Osceola County, Florida to preserve the watershed and drainage system currently under attack by exotic aquatic plants.
- 64. \$1,150,000 for the Tampa Bay Watch program.
- 65. \$1,000,000 to St. Petersburg, Florida for the Clam Bayou Habitat Restoration Project.
- 66. \$100,000 to Pinellas County, Florida for the cooperative exchange education module on environmental sustainability and the stewardship of natural resources.
- 67. \$1,000,000 to the Illinois Environmental Protection Agency for the "Illinois Rivers 2020" restoration program.
- 68. \$600,000 for the Water Systems Council in Iowa to assist in the effective delivery of water to rural citizens nationwide.
- 69. \$300,000 for investigation of pollution sources in the Lower Arkansas River in Wichita, Kansas.
- 70. \$300,000 for the Urban Waste Management and Research Center in Louisiana.
- 71. \$700,000 for the Louisiana Environmental Research Center.
- 72. \$300,000 for the Oyster Habitat Restoration program in the Chesapeake Bay.
- 73. \$600,000 for the National Center for Manufacturing Sciences in Michigan to facilitate industrial input into EPA's compliance assistance clearinghouse and to expand the scope of compliance assistance centers (\$500,000) and for continuation of EPA's Environmental Roadmapping Initiative (\$300,000).
- 74. \$300,000 to Mississippi State University for the Southeast Center for Technology Assistance for Small Drinking Water Systems.
- 75. \$300,000 to the Ten Towns Great Swamp Watershed Management Committee in New Jersey.
- 76. \$1,000,000 to Alfred University in New York for the Center for the Engineered Conservation of Energy (EnCo).
- 77. \$1,000,000 to the Darrin Fresh Water Institute in New York to extend and expand studies of acid deposition.
- 78. \$500,000 to Cortland County, New York for continued work on the aquifer protection plan of which \$150,000 is for continued implementation of the comprehensive water quality management program in the Upper Susquehanna Watershed.
- 79. \$1,200,000 for continued work on the water quality management plans for the Central New York watersheds in Onondaga and Cayuga Counties.
- 80. \$300,000 to the Central New York Regional Planning and Development Board for the Oneida Lake and Watershed Management Plan.
- 81. \$1,200,000 for the Dry Creek Flood Mitigation project in Cortland, New York.
- 82. \$500,000 to the town of Pilot Mountain, North Carolina for stream restoration and upland protection in the watershed.
- 83. \$300,000 to Charlotte, North Carolina for the Charlotte Surface Water Improvement and Management Program.
- 84. \$855,000 to North Carolina Central University for the Environmental Risk and Impact Research Initiative.
- 85. \$300,000 to Cleveland State University in Ohio for continuation of the Program of Excellence in Risk Analysis.
- 86. \$1,000,000 to the Pennsylvania Geographic Information Consortium to continue development of a comprehensive environmental masterplan for Upper Susquehanna-Lackawanna Watershed.
- 87. \$175,000 to the Pennsylvania State University Technical Assistance Center to provide technical expertise to operate public water systems.

- 88. \$2,000,000 to the University of Houston, Texas and in consultation with the Greater Houston Partnership for Ozone Simulation and Forecasting.
- 89. \$500,000 to Texas A&M University for the National Chemical Safety Data System.
- 90. \$2,500,000 to the Salt Lake Organizing Committee or its designee for environmental programs and operations of the 2002 Winter Olympic and Paralympic Games. Eligible activities may include tree programs; environmental compliance activities; programs highlighting the use of environmentally-friendly technologies including, but not limited to, photovoltaic lighting and CNG fuel; waste management and recycling programs and operations; and public information and outrach efforts
- 91. \$600,000 to Fairfax County, Virginia for the Fairfax County Water Authority to conduct a study on water supply for drought resistance.
- 92. \$1,000,000 to Arlington County and the City of Alexandria, Virginia for demonstration of environmental improvements to Four Mile Run.
- 93. \$600,000 to Franklin, Grant and Adams counties in Washington for the Groundwater Management Area to address nitrate levels in drinking water.
- 94. \$300,000 for the continuation of the Molten Carbonate Fuel Cell Demonstration project in King County, Washington.
- 95. \$168,000 for the Great Lakes Indian Fish and Wildlife Commission for technical work near the Crandon Mine in Wisconsin
- 96. \$1,225,000 to the Canaan Valley Institute for ongoing operations.
- 97. \$2,400,000 for the National Energy Technology Laboratory (NETL) for continued activities of a comprehensive clean water initiative in cooperation with EPA Region III.
- 98. \$2,800,000 to the Polymer Alliance Zone's MARCEE Initiative with oversight being provided by the Office of Solid Waste.
- 99. \$500,000 to the University of North Carolina at Greensboro for the Bioterrorism Water Quality Protection Program with the aim of developing highly automated and inexpensive testing protocols.
- 100. \$500,000 to Water Project 2000 in Tennessee to provide a benchmark water quality study.
- 101. \$500,000 to Fallon, Nevada to address levels of naturally occurring arsenic.
- 102. \$500,000 to the University of Toledo in the Ohio Lake Erie Research Center for participation in the Western Lake Erie Basin Study authorized by Sec. 441 of WRDA 1999, Public Law 106–53.
- 103. \$450,000 for the Water Resources Institute at California State University, San Bernardino to develop and maintain an information repository of water-related research and conflict resolution.
- 104. \$600,000 for the San Bernardino Municipal Water District in California for research and design of a mitigation project addressing the City's contaminated high groundwater table and dangers presented by liquefaction.
- 105. \$990,000 for continuation of the Soil Aquifer Treatment Project.
- 106. \$200,000 to Miami-Dade County Department of Environmental Resources Management in Florida to expand the existing education program.
- 107. \$300,000 to Leon County, Florida for the Aquifer Protection Assessment program.
- 108. \$750,000 to Calhoun County, Michigan for development of a comprehensive research and development plan for Kalamazoo River Watershed.
- 109. \$250,000 to the Northwest Straits Advisory Commission of Washington.

The conferees have agreed to the following reductions from the budget request:

- 1. \$27,413,000 from the CCTI Buildings program.
- 2. \$9,495,000 from the CCTI Transportation program.
- 3. \$31,686,100 from the CCTI Industry program.
  4. \$5,076,200 from the CCTI International
- Capacity Building program.
  5. \$2,025,000 from the CCTI State and Local program.
- 6. \$2,410,000 from the CCTI Carbon Removal program.
  - 7. \$848,800 from Project EMPACT.
- 8. \$9,000,000 from the Integrated Information Initiative. The conferees have provided \$5,000,000 for continued planning and design of this new initiative's exchange network.
- 9. \$4,841,000 from the innovative community partnership program.
- 10. \$9,000,000 from the Montreal Protocol Multilateral Fund.
- 11. \$4,250,000 from the international environmental monitoring program.
- 12. \$3,840,000 from the regional geographic program.
- 13. \$3,395,000 from urban environmental quality and human health.
- 14. \$10,000,000 as a reduction in payroll costs.

The seven Environmental Finance Centers and the Regional Environmental Enforcement Associations are to be funded at the fiscal year 2000 funding level, and the Environmental Education programs are to be funded as proposed in the budget submission. The conferees agree that operations of the Clean Water Act Sec. 104(g)(1) Wastewater Onsite Technical Assistance Centers shall remain at the current funding level.

The conference agreement includes the budget request of \$34,100,000 for pesticides reregistration, and \$39,300,000 for pesticides registration activities performed by EPA. Faster review and approval for registration applications will allow safer, more environmentally friendly products on the market sooner and ensure that farmers have the ability to protect their crop. The conferees expect no reductions to be proposed for these programs in the operating plan submission.

Similarly, the Endocrine Disruptor Screening and the Pesticide Residue Tolerance Reassessment programs are to receive \$10,200,000 and \$14,600,000, respectively. The Tolerance Reassessment program has been funded at a level that equals the budget request if a tolerance fee was imposed by EPA and an additional \$7,000,000 was recovered through that fee. The conferees have prohibited implementation of the fee again this year, due in part to provisions of that fee structure proposed by EPA which would charge more than 100 percent of actual costs and which would make such charges retroactive. Until the Agency works toward a feefor-service proposal which is both fair and reasonable, the conferees do not expect to entertain approval. As noted previously, these programs are not to be proposed for reduction through the operating plan submis-

The Agency is directed to take no reductions below the budget request from the NPDES permit backlog, the High Production Volume Chemical Challenge Program, the Chesapeake Bay Program Office, and the water quality monitoring program along the New Jersey-New York shoreline. The Agency is expected to fund the Great Lakes Program Office and the National Estuary program at no less than the 2000 level, and is directed to fund compliance assistance activities at no less than \$25.000.000.

The conferees direct EPA to contract expeditiously with the National Academy of Sciences (NAS) for a review of the quality of science used to develop and implement TMDLs, and direct that the final report be submitted to Congress by June 1, 2001. Further, EPA is directed to conduct a comprehensive assessment of the potential State resources which will be required for the development and implementation of TMDLs and present the results of the study to Congress within 120 days of enactment of this Act. In conducting this cost assessment, EPA must, in addition to direction included in Senate Report 106-410, provide an estimate of the annual costs to the regulated community in both the private and public sectors; address concerns regarding the economic analysis performed by the Administrator on regulatory changes to the TMDL program that were identified by the Comptroller General in a June 21, 2000, report; and estimate the costs to small businesses that would result from regulatory changes to the TMDL program. In conducting these analyses, the Administrator shall solicit comment from the Comptroller General, each State, and the public regarding the Agency's assessment.

In addition, the conferees direct the Agency to prepare an analysis of the monitoring data needed for development and implementation of TMDLs, and further direct EPA Region IX as well as all other EPA Regions and EPA Headquarters not to impose or mandate new TMDL-related requirements or issue new guidance relative to new TMDL-related permits prior to the date the TMDL rule can be implemented under current law.

The conferees understand that in June 2000, EPA released a substantially revised draft dioxin reassessment after five years of considering recommendations from its Science Advisory Board (SAB). The SAB's November 1995 Report noted numerous weaknesses in the risk characterization and doseresponse chapters of the 1994 draft reassessment and directed EPA to ensure that its conclusions were based on a more complete consideration of available scientific studies.

The conferees commend EPA for convening a peer review panel to assess two key sections of the revised reassessment prior to a second SAB review. The conferees are concerned, based on the report of this peer review panel, that EPA's key conclusions regarding dioxin risks remain controversial and do not completely address questions raised by the SAB in 1995.

The conferees understand that Congressional science and agriculture committees have called for a SAB review of the full dioxin reassessment, including all new information. The conferees further understand that the Department of Agriculture is finalizing an agreement with the National Academy of Sciences to understand better the dioxin impacts on the U.S. food supply. Therefore, the conferees strongly encourage the Agency to await completion of these reviews before finalizing its dioxin reassessment.

This direction should not be interpreted to restrict EPA from issuing regulations to control dioxin emissions such as air toxics rules under Section 112 of the Clean Air Act Amendments of 1990, which have reduced industrial emissions of dioxin by 90 percent.

In view of the uncertain future supply of pharmaceutical-grade CFCs, the conferees are mindful that a smooth and timely transition to chlorofluorocarbon-free metered dose inhalers (MDIs) is needed for patients to continue to have access to the treatments they need. The conferees are aware that a year

ago FDA, in consultation with EPA, issued a proposed rule to determine when CFC MDIs are non-essential, and that a decision was proposed at a July 2000 Meeting of the Montreal Protocol's Open-Ended Working Group. The conferees understand that major patient and physician organizations, environmental groups and industry supported the July decision. This decision has now been revised. The conferees note that the July decision and this revised decision include a provision on the non-essentiality of new CFC MDIs unless certain specified criteria are met. The conferees believe that a decision by the Protocol Parties such as the revised decision could facilitate the transition without putting patients at risk, and believe it is important that a final decision make it clear that each national health authority make the finding as to whether the essentiality criteria are met for a particular product. The conferees strongly urge EPA to work with the U.S. Delegation to the Protocol's Meeting of the Parties this December to actively seek adoption of a decision which incorporates the essential use criteria contained in the revised July decision, which adheres to a timely phase-out of new CFC MDIs, and which retains the ability of FDA to protect the health and safety of U.S. citizens. The conferees further urge EPA to work with FDA on any final Protocol decision.

The conferees note that EPA's plans to promulgate a regulation pertaining to radon in drinking water have significant financial implications for states and local water districts across the United States. The conferees believe it is important that the Agency obtain cost data prior to finalizing such a rule. In this regard, the General Accounting Office is directed to study the financial impacts of the proposed EPA regulation and submit the report expeditiously to the Committees on Appropriations of the House and Senate. Prior to finalizing this rule, the Agency is strongly encouraged to consider fully the GAO's findings.

The conferees note with disappointment that the Agency has not solicited public comment regarding scientific community recommendations for exemptions from the 1994 proposed rule regarding so-called "plant pesticides." The conferees urge EPA to solicit and consider public comment regarding such recommendations before completion of the "plant pesticide" rulemaking. EPA's failure to consider such exemptions timely is not a basis for promulgation of an overreaching final rule.

The conferees fully expect the Agency to follow through on its current commitment to the Sustainable Industry program. The program's success thus far with the metal finishing industry has focused on collaboration rather than confrontation with industry, improved EPA understanding of industry practices, and achieving better environmental results from companies in tandem with concrete improvements to the regulatory system. The Agency is encouraged to provide resources at the fiscal year 1999 level in order to support necessary personnel, outreach, grants, and EPA regional capacity for continued progress with the metal finishing industry and other key participating sectors, including specialty chemicals, meat processing, metal casting, shipbuilding and repair, photo processing, and travel and tour-

The conferees are concerned that EPA has not submitted for independent peer review the Agency's application of the persistent, bioaccumulative toxicants (PBT) criteria and methodology to metals as utilized in

various Agency programs and proposed regulations. Serious doubts about the scientific validity of applying PBT criteria and methodology to metals have been expressed by international scientific bodies, invited experts at a January 2000 public workshop cosponsored by EPA, and EPA's Science Advisory Board (SAB). In May 2000, the SAB noted that "classification of metals as PBTs is problematic, since their environmental fate and transport cannot be adequately described using models for organic contaminants." Therefore, the conferees urge EPA to seek independent peer review and refer to the SAB the question of the scientific appropriateness of applying PBT criteria and methodology to metals before any application of the PBT criteria and methodology to metals.

The EPA has proposed to redesignate the San Joaquin Valley Ozone Nonattainment area from "serious" to "severe" nonattainment. The conferees note that the East Kern County portion of this area is geographically separated from the San Joaquin Valley air basin and in itself may not warrant a reclassification and may not contribute to the ozone nonattainment in the San Joaquin Valley. The conferees also note that within the East Kern County area are two defense installations pursuing vital defense programs and a NASA laboratory conducting advanced aerospace research which could be hampered seriously by reclassification. In view of this the Administrator is strongly encouraged to exclude the East Kern County area from the San Joaquin area redesignation.

The conferees continue to be concerned with EPA's chosen preferred alternative for constructing secondary treatment facilities at the USIWTP near San Diego. The conferees are aware of EPA's request to raise the existing cap on construction spending at the IWTP in order to build 25 mgd of secondary ponds at the IWTP with previously appropriated monies in the BEIF. The conferees are also aware of the significant concerns which exist regarding the limited capacity of EPA's preferred alternative, the lack of available land on which future capacity could be constructed, and its inadequacy in addressing increasing future cross-border sewage flows in the region. Finally, the conferees note there is at least one private sector proposal to construct in Mexico similar secondary facilities which would have considerably greater potential capacity better suited to the long term sewage treatment needs of the rapidly growing border region.

The conferees are encouraged by progress of separate authorizing legislation now pending before the Congress which would facilitate such a proposal, as well as the growing level of documented support for such a proposal by Mexican leaders. The conferees thus continue to believe that it would be inappropriate to lift the cap at this time or to permit construction of a limited capacity secondary treatment facility at the IWTP which would not meet long-term sewage treatment needs. The conferees urge EPA to continue working with the IBWC, State Department, and its counterparts in Mexico to encourage and develop such a viable proposal in a timely manner.

#### OFFICE OF INSPECTOR GENERAL

Appropriates \$34,094,000 for the Office of Inspector General as proposed by the Senate instead of \$34,000,000 as proposed by the House. In addition to this appropriation, \$11,500,000 is available to the OIG by transfer from the Hazardous Substance Superfund account

BUILDINGS AND FACILITIES

Appropriates \$23,931,000 for buildings and facilities as proposed by the House instead of \$23,000,000 as proposed by the Senate.

HAZARDOUS SUBSTANCE SUPERFUND (INCLUDING TRANSFERS OF FUNDS)

Appropriates \$1,270,000,000 for hazardous substance superfund as proposed by the House instead of \$1,400,000,000 as proposed by the Senate. Bill language provides that \$635,000,000 of the appropriated amount is to be derived from the Superfund Trust Fund, while the remaining \$635,000,000 is to be derived from General Revenues of the Treasury. Additional language (1) provides for a transfer of \$11,500,000 to the Office of Inspector General; (2) provides for a transfer of \$36,500,000 to the Science and Technology account; and (3) provides that \$100,000,000 of the appropriated amount shall not become available for obligation until September 1, 2001.

The conferees note that funds for the Agency for Toxic Substances and Disease Registry and for the National Institute of Environmental Health Sciences have been provided in new, separate accounts elsewhere in this Act instead of through the Environmental Protection Agency as has been done in previous years.

The conferees have agreed to the following fiscal year 2001 funding levels:

- 1. \$914,800,000 for Superfund response/clean-up actions.
- 2. \$140,000,000 for enforcement activities.
- 3. \$139,500,000 for management and support. Of this amount, \$11,500,000 is to be provided by transfer to the Office of Inspector General
- 4. \$36,500,000 for research and development activities, to be transferred to the Science and Technology account.
- 5. \$39,200,000 for reimbursable interagency activities, including \$28,500,000 for the Department of Justice, \$650,000 for OSHA, \$1,100,000 for FEMA, \$2,450,000 for NOAA, \$5,500,000 for the Coast Guard, and \$1,000,000 for the Department of the Interior.
- 6. The Brownfields program has been funded at the budget request level of \$91,600,000, which includes funding from various programs within this account and the Environmental Programs and Management account.

The Agency is directed to notify the Committees on Appropriations of the House and Senate of any non-ATSDR resources to be devoted to the Libby, Montana medical monitoring program and related activities.

The conferees remain concerned regarding the Agency's plans to conduct certain dredging or invasive remediation technology activities while these matters remain under study by the National Academy of Sciences (NAS). The pending NAS study is addressing dredging, capping, source control, natural recovery, and disposal of contaminated sediments, and is comparing the risks of each technology. The NAS expects to submit its draft report of this study during Fall 2000 and the conferees strongly encourage the NAS to issue a final report no later than January 2001. Accordingly, the conferees continue to direct the EPA to take no action to initiate or order the use of dredging or invasive remedial technologies where a final plan has not been adopted prior to October 1, 2000 or where such activities are not now occurring until the NAS report has been completed and its findings have been properly considered by the Agency. As in previous years, exceptions are provided for voluntary agreements and for urgent cases where contaminated sediment poses a significant threat to public health.

In adopting this direction to the Agency, the conferees do not intend to prevent EPA from publishing, issuing, or taking public comment on specific proposed or draft remediation plans; but do encourage the Agency to take into account the NAS study when available as it goes through the above process. However, any such plans are not to be finalized until June 30, 2001 or until the Agency has properly considered the NAS report, whichever comes first.

### LEAKING UNDERGROUND STORAGE TANK $\begin{array}{c} \text{PROGRAM} \end{array}$

Appropriates \$72,096,000 for the leaking underground storage tank program as provided by the Senate instead of \$79,000,000 as proposed by the House.

#### OIL SPILL RESPONSE

Appropriates \$15,000,000 for oil spill response as provided by both the House and the Senate.

#### STATE AND TRIBAL ASSISTANCE GRANTS

Appropriates \$3,628,740,000 for state and assistance grants instead \$3,176,957,000 as proposed by the House and 33,320,000,000 as proposed by the Senate. Bill language specifically provides \$1,350,000,000 for Clean Water State Revolving Fund (SRF) capitalization grants, \$825,000,000 for Safe Drinking Water SRF capitalization grants, \$75,000,000 for the United States-Mexico Border program, \$35,000,000 for grants to address drinking water and wastewater infrastructure needs in rural and native Alaska, \$1,008,000,000 for categorical grants to the states and tribes, and \$335,740,000 for grants for construction of water and wastewater treatment facilities and for groundwater protection infrastructure.

The conferees have included bill language which, for fiscal year 2001 only, authorizes the Administrator of the EPA to use funds appropriated under section 319 of the Federal Water Pollution Control Act (FWPCA) to make grants to Indian tribes pursuant to section 319 (h) and 518 (e) of FWPCA. In addition, bill language has been adopted by the conferees to permit states to include as principal amounts considered to be the cost of administering SRF loans to eligible borrowers, with certain limitations.

The conferees have further agreed to include bill language which resolves in favor of the grantee two disputed grants, docket numbers C-180840-01, C-180840-04, C-470319-03, and C-470319-04; as well as language carried in previous years' Acts which stipulates that none of the funds in this or any previous Act may be used by the Administrator for health effects studies on drinking water contaminants. As in past years, funds for such studies have been provided in other EPA accounts. In addition, language requested in the budget submission has been included which permits the Administrator to reserve up to 1½ percent of the funds appropriated for the SRF under Title VI of the Federal Water Pollution Control Act for grants under section 518 (c) of the Act.

Finally, the conferees have included language which stipulates that no funds provided in this Act to address water infrastructure needs of colonias within the United States along the U.S.-Mexico border shall be made available after June 1, 2001 unless the receiving governmental entity has established an enforceable ordinance or rule which prevents the development or construction of any additional colonia areas, or the development within an existing colonia of any new home, business, or other structure which lacks water, wastewater or other necessary infrastructure.

Of the funds provided for the United States-Mexico Border Program, \$3.500.000 is for the El Paso-Las Cruces sustainable water project, \$2,000,000 is for the Brownsville, Texas water supply project, \$1,000,000 is for the Del Rio/San Felipe Springs Water Treatment Plant, and \$3,000,000 is for upgrades and expansion of the Nogales International Waste Treatment Plant, replacement of the International Outfall Interceptor, and replacement of sewer infrastructure facilities of the City of Nogales. Of the funds provided for rural and Alaska Native villages. \$2,000,000 is for training and technical assistance. The State of Alaska must also provide a 25 percent match for all expenditures through this program.

The conferees agree that the \$335,740,000 provided to communities or other entities for construction of water and wastewater treatment facilities and for groundwater protection infrastructure shall be accompanied by a cost-share requirement whereby 45 percent of a project's cost is to be the responsibility of the community or entity consistent with long-standing guidelines of the Agency. These guidelines also offer flexibility in the application of the cost-share requirement for those few circumstances when meeting the 45 percent requirement is not possible. The Agency is commended for its past efforts in working with communities and other entities to resolve problems in this regard. and the conferees expect this level of effort and flexibility to continue throughout fiscal year 2001. The distribution of funds under this program is as follows:

- 1. \$2,100,000 for the Jasper, Alabama sewer extension project.
- 2. \$900,000 for the Scottsboro, Alabama drinking water project.
- 3. \$3,000,000 for the Thomasville, Alabama water facility project.
- 4. \$350,000 to Winfield, Alabama for sewer infrastructure improvements near the Corridor X highway.
- 5. \$350,000 to Hamilton, Alabama for water and sewer infrastructure improvements.
- 6. \$1,000,000 to Cullman County, Alabama for a water infrastructure improvements.
- 7. \$150,000 to the Fayett County Water Board in Alabama for drinking water system enhancements.
- 8. \$60,000 to Winston County, Alabama to complete Phase I of the Houston-Moreland water project.
- 9. \$1,000,000 to Shelby County, Alabama for water infrastructure improvements.
- 10. \$1,000,000 to the City of Huntsville, Alabama for water and wastewater infrastructure improvements.
- 11. \$1,000,000 to the City of Hartselle, Alabama for wastewater infrastructure improvements.
- 12. \$1,000,000 to Morgan County, Alabama for wastewater infrastructure improvements at the Sherbrooke Sanitary Sewer System.
- 13. \$500,000 to the Limestone County Water and Sewer Authority in Alabama for wastewater infrastructure improvements.
- 14. \$250,000 to the City of Rogersville, Alabama for wastewater infrastructure improvements.
- 5. \$250,000 the City of Triana, Alabama for wastewater infrastructure improvements.
- 16. \$3,000,000 for the State of Alaska Department of Environmental Conservation groundwater remediation project near the Kenai River. The match requirement can be met with non-Federally funded pre-award expenditures by the State of Alaska for this project.
- 17. \$2,200,000 for water and sewer improvements in the North Star Borough, Alaska.

- 18. \$1,100,000 for water and sewer improvements in Whittier, Alaska.
- 19. \$2,200,000 for water and sewer improvements in Sitka, Alaska.
- 20. \$2,500,000 for the Water Infrastructure Finance Authority of Arizona (WIFA) for a loan to Pima County, Arizona for wastewater treatment facility improvements. WIFA may lend the funds directly to Pima County or use the funds to support bonds to fund loans to Pima County and other Arizona communities on Arizona's SRF priority list. Pima County and other benefiting communities, if any, shall repay loans to Arizona's SRF.
- 21. \$750,000 to Gila County, Arizona for water infrastructure improvements in the Kellner and Ice House Canyon areas.
- 22. \$450,000 to Barling, Arkansas for water infrastructure development and engineering studies for future water and sewer improvements.
- 23. \$2,000,000 to San Diego, California for the Coastal Low Flow Storm Drain Diversion Project.
- 24. \$1,500,000 to the Mission Springs Water District in California to protect groundwater in the City of Desert Hot Springs.
- 25. \$2,650,000 to Olivenhain Municipal Water District in California for continued construction of a water treatment plant.
- 26. \$1,000,000 for the Cutler-Orosi Wastewater JPA for a wastewater treatment plant serving Cutler, Orosi, East Orosi, and Sultana, California.
- 27. \$1,000,000 for wastewater infrastructure improvements at the Placer County, California Subregional Wastewater Treatment Plant.
- 28. \$1,900,000 to the Metropolitan Water District of Southern California for the Desalination Research and Innovation Partner-
- 29. \$1,500,000 to Lomita, California to upgrade water reservoir infrastructure.
- 30. \$600,000 for the continuation of a water reuse nitrate treatment demonstration project in Yucca Valley, California.
- 31. \$500,000 for continuation of water infrastructure improvements in Twentynine Palms, California.
- 32. \$850,000 for the continuation of water infrastructure improvements in the Yucaipa Valley Water District in Yucaipa, California.
- 33. \$1,300,000 for the Lower Owens River Project in Inyo County, California (\$900,000) and in the City of Los Angeles (\$400,000).
- 34. \$500,000 for storm and wastewater drainage and infrastructure improvements in the City of Yucaipa. California.
- 35. \$1,000,000 to San Clemente, California for the storm drainage management and pilot program implementation.
- 36. \$1,750,000 to Carlsbad, California for the Encina Basin Recycled Water System.
- 37. \$1,000,000 to San Joaquin County, California to rehabilitate water, sewer, storm drains, and surface infrastructure in East Stockton.
- 38. \$1,250,000 to Huntington Beach, California for wastewater and sewer infrastructure improvements.
- 39. \$1,000,000 for the City of Sacramento, California combined sewer overflow project.
- 40. \$1,000,000 for the City of Vallejo, California for a sanitary sewer system at Mare Island.
- $41.\ \$100,000$  for wastewater and groundwater infrastructure improvements in Murrieta, California.
- 42. \$500,000 for Eureka, California for work on the Martin Slough Interceptor.
- 43. \$2,000,000 for the City of Montrose, Colorado sewage treatment upgrade.

- 44. \$1,500,000 for the New Britain Water Department in Connecticut for wastewater infrastructure improvements.
- 45. \$1,000,000 to the Council of Governments of the Central Naugatuck Valley, Connecticut for water and sewer improvements in the Naugatuck Valley.
- 46. \$1,000,000 to Lewes, Delaware to construct pump stations, force mains, storage lagoons and spray irrigation facility.
- 47. \$1,200,000 for the West Rehoboth Expansion of the Dewey Beach Sanitary District, Delaware.
- 48. \$15,000,000 to the Florida Department of Environmental Protection for the Tampa Bay, Florida regional reservoir infrastructure project.
- 49. \$1,700,000 to the City of Tallahassee, Florida for improvements to the stormwater drainage system.
- 50.~\$900,000 to the City of West Palm Beach, Florida for completion of wetlands-based indirect potable water and wastewater reuse program.
- 51. \$1,325,000 to the City of Opa-locka, Florida for wastewater and sewer infrastructure improvements.
- 52. \$2,325,000 to the City of North Miami Beach, Florida for wastewater and sewer infrastructure improvements in the Highland Village Neighborhood.
- 53. \$1,500,000 to Sarasota Bay, Florida for wastewater infrastructure improvements necessary to reduce effluent discharge into the Bay.
- 54. \$1,000,000 to the Escambia County Utilities Authority in Florida for extension of the sanitary sewer collection system.
- 55. \$1,500,000 for the Homosassa Regional Wastewater Project in Citrus County, Florida.
- 56. \$1,000,000 to Paulding County, Georgia for the Richland Creek Reservoir Project.
- 57. \$1,000,000 to the City of Roswell, Georgia for infrastructure development and improvements of the Big Creek Watershed Demonstration Project.
- 58. \$700,000 to the Toombs County Development Authority in Georgia to provide water and wastewater infrastructure improvements.
- 59. \$1,900,000 to Big Haynes Creek, Georgia for continued work on the basin stormwater retention and reuse project.
- 60. \$500,000 for the Waimea Wastewater Treatment Plant Interim Expansion in the County of Kauai, Hawaii.
- 61. \$1,000,000 for Burley, Idaho sewer system improvement project.
- 62. \$2,300,000 for Granite Reeder, Idaho Water and Sewer District sewer system construction.
- $63.\ \$1,\!500,\!000$  for the McCall, Idaho water plant improvement project.
- 64. \$500,000 to Burley, Idaho for water and wastewater infrastructure improvements.
- 65. \$750,000 to the City of Hailey, Idaho for water and wastewater infrastructure improvements.
- 66. \$750,000 to the City of Glenns Ferry, Idaho for the Glenns Ferry Water Improvement Project.
- 67. \$500,000 to Burr Ridge, Illinois for a sanitary sewer improvement project.
- 68. \$400,000 to Earlville, Illinois for a new wastewater treatment facility.
- $69.\ \$250{,}000$  to Maple Park, Illinois for wastewater infrastructure improvements.
- 70. \$1,750,000 to North Aurora, Illinois for construction of water treatment and wastewater treatment facilities.
- 71. \$1,000,000 to West Chicago, Illinois for construction of water treatment and wastewater treatment facilities.

- 72. \$1,750,000 to Dixon, Illinois for construction of water treatment and wastewater treatment facilities.
- 73. \$1,900,000 to Bloomington, Illinois for construction of water treatment and wastewater treatment facilities.
- 74. \$350,000 to DuPage County, Illinois for the Village of Bensenville and the City of Wood Dale water and wastewater infrastructure improvements.
- 75. \$1,400,000 to Prospect Heights, Illinois for construction of a new drinking water conveyance system.
- 76. \$1,000,000 for the Village of Johnsburg, Illinois wastewater treatment project.
- 77. \$3,440,000 to the Metropolitan Water Reclamation District in Chicago, Illinois for continued development of the tunnel and reservoir project (TARP).
- 78. \$550,000 to the City of Liberty, Indiana for the Waterworks System Improvement Project.
- 79. \$1,000,000 to Evansville, Indiana for infrastructure development of the Pigeon Creek Enhancement project.
- 80. \$1,000,000 to West Lafayette, Indiana for infrastructure improvements associated with the development of a new business district.
- 81. \$1,000,000 to Mason City, Iowa for construction of a new water treatment facility.
- 82. \$3,250,000 for Clinton, Iowa to separate storm and sewage systems.
- 83. \$2,000,000 to Wichita, Kansas for water and wastewater infrastructure improvements.
- 84. \$500,000 to Clark County, Kentucky for the WMU head works facility.
- 85. \$500,000 to upgrade the wastewater infrastructure facilities in Cynthiana, Harrison County, Kentucky.
- 86. \$300,000 to the Bluegrass Area Development District in Kentucky for a regional water treatment feasibility study.
- 87. \$200,000 to Scott County, Kentucky for construction of a water tower.
- 88. \$500,000 to Madison County, Kentucky for sewer infrastructure improvements.
- 89. \$100,000 to Mercer County, Kentucky for drinking water system enhancements.
- 90. \$500,000 to the East Casey County Water District, Kentucky for water and wastewater infrastructure improvements.
- 91. \$1,000,000 for the Northern Kentucky Area Development District for the expansion of the Carrollton, Kentucky Regional Wastewater Treatment Plant.
- 92. \$1,000,000 to Pike County, Kentucky for water and wastewater infrastructure improvements.
- 93. \$1,000,000 to Lawrence County, Kentucky for water and wastewater infrastructure improvements.
- 94. \$400,000 to Christian County, Kentucky for water and wastewater infrastructure improvements.
- 95. \$300,000 to the Crittenden-Livingston Regional Water System in Kentucky for the improvement of water distribution facilities.
- 96. \$400,000 to Madisonville, Kentucky for sewer system improvements.
- 97. \$300,000 to Centertown, Kentucky for sewer system improvements.
- 98. \$3,000,000 for Logan/Todd, Kentucky Regional Water Commission for water system improvements.
- 99. \$1,000,000 to the City of Monroe, Louisiana for water and wastewater infrastructure improvements.
- 100. \$800,000 to the East Baton Rouge Parish, Louisiana for water and wastewater infrastructure improvements.
- 101. \$600,000 to the Town of Livingston, Louisiana to expand the town's water system.

- 102. \$100,000 to Iberville Parish, Louisiana for water and sewer infrastructure improvements
- 103. \$1,000,000 to Shreveport, Louisiana to address infrastructure and storage problems affecting water quality as identified in a recent study.
- 104. \$1,400,000 to St. Bernard Parish, Louisiana for water and wastewater infrastructure improvements.
- 105. \$1,200,000 to Iberia Parish, Louisiana for water and wastewater infrastructure improvements in the City of Iberia (\$1,000,000) and to the City of Jeanerette (\$200,000).
- 106. \$100,000 to St. John Parish, Louisiana for water and wastewater infrastructure improvements.
- 107. \$50,000 to Ascension Parish, Louisiana for water and wastewater infrastructure improvements.
- 108. \$100,000 to Plaquemines Parish, Louisiana for water and wastewater infrastructure improvements.
- 109. \$1,000,000 for the Corinna, Maine sewer upgrade.
- 110. \$4,600,000 for biological nutrient removal on the eastern shore of Maryland, including \$2,000,000 to the City of Crisfield; \$1,800,000 for the City of Fruitland; and \$800,000 for the Somerset County Sanitary District for Princess Anne.
- 111. \$2,000,000 for Bristol County, Massachusetts. wastewater projects.
- 112. \$1,000,000 for the Massachusetts Water Resources Authority's combined sewer over-flow control plan.
- 113. \$1,000,000 for water and wastewater infrastructure improvements in Taunton, Massachusetts.
- 114. \$2,000,000 for St. Clair Shores, Michigan combined sewer overflow correction project.
- 115. \$1,000,000 to Bad Axe, Michigan for continued drinking water infrastructure improvements.
- 116. \$1,500,000 to Port Huron, Michigan for water and wastewater infrastructure improvements.
- 117. \$500,000 to Mt. Clemens, Michigan for water and wastewater infrastructure improvements.
- 118. \$1,000,000 to Higgins Lake, Michigan for a wastewater treatment program.
- 119. \$1,500,000 to Grand Rapids, Michigan for combined sewer overflow infrastructure improvements for the National Pollutant Discharge Elimination System.
- 120. \$2,000,000 for continuation of the Rouge River National Wet Weather Demonstration Project.
- 121. \$800,000 to Oakland County, Michigan for infrastructure improvements within the George W. Kuhn Drainage District.
- 122. \$1,000,000 for water system infrastructure improvements in Jackson, Mississippi.
- 123. \$1,500,000 to the City of Picayune, Mississippi for water and wastewater infrastructure improvements.
- 124. \$1,300,000 to Tupelo, Mississippi for water infrastructure needs.
- 125. \$3,000,000 for the DeSoto County, Mississippi comprehensive water and wastewater management project.
- 126. \$1,000,000 for the City of Pearl, Mississippi wastewater collection rehabilitation. 127. \$3,000,000 for Jefferson County, Mississippi water and sewer infrastructure needs.
- 128. \$1,000,000 for West Rankin Metropolitan Sewer Authority to develop alternative water and wastewater systems for Rankin County, Mississippi.
- 129. \$6,500,000 for St. Louis and Kansas City, Missouri for the Meramec River enhancement and wetlands protection project

(\$3,500,000) and the Central Industrial District wastewater project (\$3,000,000).

130. \$100,000 for Allendale, Missouri wastewater infrastructure improvements.

131. \$900,000 for Nodaway County, Missouri wastewater needs, including the communities of Pickering and Ravenwood.

132. \$500,000 to Holt County, Missouri for water and wastewater infrastructure improvements including the communities of Mound City and Craig.

133. \$2,000,000 to Jefferson County, Missouri for water and wastewater infrastructure improvements

134. \$700,000 to the City of Byrnes Mill, Missouri for water and wastewater infrastructure improvements.

135. \$3,000,000 for the Lockwood, Montana wastewater collection system and wastewater treatment and disposal system.

136. \$2,000,000 for the City of Belgrade, Montana wastewater collection, treatment and disposal system.

 $137. \ 1,000,000$  for West Valley, Montana water and sewer development.

138. \$1,000,000 for water and wastewater infrastructure needs of the Moapa Valley, Nevada Water District.

139. 1,000,000 to Omaha, Nebraska for combined sewer overflow infrastructure improvements.

140. \$2,000,000 to Nashua, New Hampshire for combined sewer overflow infrastructure improvements.

141. \$300,000 for Lebanon, New Hampshire combined sewer overflow elimination project.

142. \$400,000 for the Newmarket, New Hampshire outflow discharge pipe.

143. \$2,000,000 for the Berlin, New Hampshire water works improvement project.

144. \$1,500,000 for the City of Elizabeth, New Jersey combined sewer overflow abatement project.

145. \$1,500,000 for the City of Carteret, New Jersey combined sewer overflow improvements.

146. \$2,500,000 to the Musconetcong Sewerage Authority in New Jersey to assist the plant in accommodating sewage from Hopatcong and Jefferson Township.

147. \$800,000 to the Ocean County Utilities Authority in New Jersey for reimbursement of the completed Crestwood Interceptor project.

148. 1,700,000 to Las Cruces, New Mexico for improvements to the wastewater collection and treatment facilities.

 $149.\ 500,000$  to Village Bosque Farms, New Mexico for water and wastewater infrastructure improvements.

150. \$1,000,000 to Silver City, New Mexico for water and wastewater infrastructure improvements.

151. \$4,380,000 for North and South Valley of the City of Albuquerque and the county of Bernalillo, New Mexico regional water and wastewater system improvements.

152. \$990,000 for Corrales, New Mexico centralized water and wastewater treatment system.

153. \$830,000 for Los Lunas, New Mexico wastewater system upgrade.

154. \$750,000 for Clovis, New Mexico wastewater treatment system repair.

155. \$750,000 to the Village of Morrisville, New York for the construction of a wastewater treatment system.

156. \$1,400,000 to Genesee County, New York for Phase I of the Public Water Supply Program

157. \$14,000,000 for continued clean water improvements for Onondaga Lake, New York.

158. \$2,500,000 to the City of Auburn, New York for the Auburn Municipal Water Filtration Plant and Water Reservoir.

159. \$3,000,000 to Wayne County, New York for Phase I of the Wayne County wastewater treatment facility improvements.

160. \$500,000 to Onondaga County, New York for water and wastewater infrastructure improvements in the Village of Minoa.

161. \$350,000 to Onondaga County, New York for drainage improvements in the Town of Onondaga for Nedrow.

162. \$300,000 to Onondaga County, New York for drainage improvements in the Village of Marcellus.

163. \$500,000 to the Town of Clarence, New York for construction of a sanitary sewer system.

164. \$300,000 to the Village of McGraw, New York for the replacement of a water storage tank.

165. \$8,000,000 for drinking water infrastructure needs in the New York City Watershed. 166. \$1,350,000 for extension and construction of water infrastructure in Union County, North Carolina.

167. \$650,000 for water and wastewater infrastructure improvements in Stanly County, North Carolina.

168. \$2,000,000 to the North Carolina Rural Economic Development Center for water and wastewater treatment planning.

169. \$1,500,000 to Henderson County, North Carolina for sewer line connections and improvements.

170. \$1,000,000 to Rosman, North Carolina for facility repairs to the current wastewater treatment facility and engineering plans for a new facility.

171. \$500,000 to Rutherford County, North Carolina for repairs to water and sewer lines in Lake Lure, Spindale and Chimney Rock, North Carolina.

172. \$3,000,000 for Grand Forks, North Dakota water treatment plant.

173. \$1,800,000 to the City of Toledo, Ohio for Secor Garden infrastructure improvements (\$1,400,000) and for Erie Street Market water and wastewater infrastructure improvements (\$400,000).

174. \$300,000 to the City of Oregon, Ohio for extension of water and wastewater infrastructure

175. \$300,000 to Lucas County, Ohio for the Jerusalem Township water and wastewater infrastructure improvements.

176. \$200,000 to Swanton Township, Ohio for the Bittersweet Farms/Camp Courageous Infrastructure project.

177. \$75,000 to Fulton County, Ohio for the Village of Lyons Sanitary Sewer Project.

178. \$825,000 to Wood County Regional Water and Sewer District in Ohio for the Owens-Walbridge-Plumey Roads Sanitary Sewer Project (\$325,000); for the Village of Millbury Infiltration Inflow project (\$250,000); and for water and wastewater infrastructure improvements in the Village of Walbridge (\$250,000).

179. \$1,650,000 for the Doan Brook Watershed Area in Ohio for continued development of a storm water abatement system.

180. \$1,500,000 to Beach City, Ohio for a wastewater infrastructure improvement project.

181. \$2,875,000 for Dunlap Reservoir and related infrastructure upgrades, and phase I and II wastewater treatment plant improvements for the city of Washington Court House, Ohio.

182. \$875,000 for sewer infrastructure upgrades for the villages of DeGraff and Quincy, Ohio.

183. \$250,000 for water and sewer infrastructure upgrades for the City of Springfield, Ohio.

184. \$1,650,000 to Norman, Oklahoma for expanding existing wastewater treatment facilities.

 $185.\ \$1,000,000$  to Hood River, Oregon for water and wastewater infrastructure improvements.

186. \$750,000 to Hermitage, Pennsylvania for the Pine Hollow Pump Station upgrade and forcemain replacement.

187. \$750,000 to Sharon, Pennsylvania for storm and sanitary sewer projects repairs.

188. \$1,000,000 to Washington County, Pennsylvania for construction of wastewater infrastructure improvements in Cecil Township

189. \$2,000,000 to Lincoln Township in Somerset County, Pennsylvania for water and wastewater infrastructure improvements.

190. \$500,000 to Monroe County, Pennsylvania for sewer and water infrastructure improvements.

191. \$500,000 to Wayne County, Pennsylvania to upgrade and renovate a sewer system in the Borough of Honesdale.

192. \$1,000,000 to Lackawanna County, Pennsylvania for upgrade of combined sewer overflow system for the Borough of Moosic (\$500,000) and the Borough of Archbald (\$500.000).

193. \$450,000 for water and wastewater infrastructure improvements in Sandy Township, Clearfield County, Pennsylvania.

194. \$450,000 to Blair County, Pennsylvania for water and wastewater infrastructure improvements in Logan Township.

195. \$450,000 to the Clearfield Municipal Authority in Clearfield County, Pennsylvania for water and wastewater infrastructure improvements.

196. \$450,000 to the Bear Valley, Franklin County, Pennsylvania Joint Authority for water and wastewater infrastructure improvements.

197. \$450,000 to Mifflin County, Pennsylvania for water and wastewater infrastructure improvements in Lewistown Borough.

198. \$450,000 to the Bedford Township Municipal Authority in Bedford County, Pennsylvania for water and wastewater infrastructure improvements.

199. \$1,000,000 for the Springettsbury, Pennsylvania regional sewer project.

200. \$5,000,000 for the Three Rivers Wet Weather Demonstration project, Allegheny County, Pennsylvania.

201. \$750,000 for the Pawtucket, Rhode Island water treatment plant construction.

202. \$1,000,000 to the Narragansett Bay Commission of Rhode Island for the combined sewer overflow control project.

203. \$900,000 to the West Georgetown, South Carolina County Regional Wastewater Treatment System for construction of a wastewater interceptor transmission system.

204. \$1,000,000 for the city of Florence, South Carolina for water and wastewater infrastructure.

205. \$500,000 for Branchville, South Carolina water distribution system.

206. \$1,000,000 for the City of York, South Carolina water treatment plant upgrade.

207. \$500,000 for the City of Alcester, South Dakota for a wastewater treatment facility. 208. \$3,000,000 for Rapid City, South Dakota to upgrade its water reclamation facility.

209. \$4,000,000 for the City of Huron, South Dakota to upgrade its water treatment facility.

210. \$1,000,000 to Athens, Tennessee for storm sewer reconstruction and improvements to the drainage basin.

211. \$500,000 to Clinton, Tennessee for engineering study and design to address water and wastewater system flooding problems.

212. \$1,000,000 to Oak Ridge, Tennessee for the extension of water and sewer infrastructure

213. \$1,000,000 to Sequatchie County, Tennessee for waterline infrastructure improvements.

214. \$1,000,000 to the City of Meridian, Texas for water and wastewater infrastructure improvements.

215. \$1,000,000 for the City of Abilene, Texas water treatment facility.

216. \$1,750,000 to Grand Water and Sewer Service Agency in Utah for the extension of water and sewer lines to Arches National Park

217. \$2,000,000 for Ogden, Utah, water and sewer improvements.

218. \$4,000,000 for water and wastewater infrastructure improvements in Sandy City, Utah.

219. \$1,000,000 for Montgomery, Vermont wastewater demonstration project.

220. \$2,500,000 for the City of Pownal, Vermont wastewater treatment project.

221. \$2,000,000 to Richmond, Virginia for continued development of combined sewer overflow improvements.

222. \$2,000,000 to Lynchburg, Virginia for continued development of combined sewer overflow improvements.

223. \$1,000,000 to Tazewell County, Virginia for construction of a public wastewater system to serve Bluefield and Divides.

224. \$650,000 to the Smith Mountain Lake 4— H Education Center in Wirtz, Virginia for sewage treatment operation improvements.

225. \$2,000,000 to Henry County, Virginia for the Henry County City of Martinsville's water and sewer infrastructure improvements project.

226. \$250,000 to Buckley, Washington for water pipe replacement.

227. \$85,000 to the City of Carnation, Washington for the engineering and design of wastewater treatment plant and collection facilities.

228.~\$3,000,000 for the City of Bremerton, Washington Callow 5 combined sewer overflow project.

229. \$600,000 for the Hoodsport Water System, Mason County, Washington drinking water system improvements.

230. \$2,000,000 for the Coulee Dam, Washington water infiltration system.

231. \$650,000 for the Cowen Public Service District to provide water and sewer to the proposed Cowen Industrial Park in Webster County, West Virginia.

232. \$10,200,000 to the Brooke County PSD, West Virginia for wastewater infrastructure needs in the Eldersville Road, Mahan's Lane and Bruin Drive areas.

 $233.\ \$3,200,000$  to the City of Thomas, West Virginia for water infrastructure needs.

234. \$1,500,000 to Huntington, West Virginia for the Fourpole/Park Sewer project No. 1.

235. \$680,000 to the Lake Tomahawk Sanitary District, Wisconsin for repayment of debt on a water treatment conveyance project.

236. \$1,000,000 for Beloit, Wisconsin combined sewer overflow project.

237. \$3,000,000 for Milwaukee, Wisconsin, Metropolitan Sewerage District for continued renovations and repairs to the sewer system.

The conferees have included bill language which allows the Administrator to use up to 3% of the appropriated amount of each above-listed project to administer the management and oversight of construction of such projects through contracts, allocation to the Corps of Engineers, or grants to the States.

The conferees intend that the non-federal share of the cost of planning, design and construction of water and wastewater infrastructure improvements in Bernalillo, New Mexico and in the North and South Valley areas of Albuquerque and Bernalillo County, New Mexico, may be paid in installments of any amount so long as the entire amount of the non-federal share is paid by the end of the 10-year project period, including fiscal year 2000. Bill language has been included regarding a grant provided in fiscal year 1999 for Cumberland, Maryland clarifying the intent of this grant.

Of the amount provided for categorical grants, \$209,000,000 is for State and local air assistance grants, including \$8,000,000 for section 103 grants to the states to develop regional haze programs under title I, part C of the Clean Air Act. It is the intention of the conferees that these funds be used to aid states in the development of emissions inventories, quantification of natural visibility conditions, monitoring and other data necessary to define reasonable progress and develop control strategies, and to support the states' participation in regional efforts to coordinate their strategies, where necessary, and at the election of the individual The conferees have also provided \$238,000,000 for section 319 non-point source pollution grants and \$172,262,300 for section 106 pollution control grants to, among other things, assist the States in meeting the longterm needs of the TMDL program. Included in the total is \$2,000,000 for grants to coastal states as provided in Senate Report 106-410.

No funds have been provided for the new Great Lakes Initiative program, and funds for the Information Integration Initiative have been provided only in the Environmental Programs and Management account. Funds for the new Clean Air Partnership have not been provided by the conferees. Legislation proposed by the Agency to require a 40% cost-share for the section 106 grant program has not been approved by the conferees.

In the interest of minimizing the need for additional administrative appeals, judicial review, and legislative remedies relative to EPA's construction grant program, the conferees direct EPA to resolve, equitably and as expeditiously as its resources will allow, grantee requests for review or waiver, audit resolutions, and appeals in accordance with a specific set of guidelines set forth on page 62 of House Report 106-674. The conferees expect this process will eliminate the need for Congress to resolve specific audit disputes in the future.

The conferees agree that, due to economic hardship, EPA should not apply the normal cost-share requirements to a grant provided for the Fancy Farm, Kentucky water system in Public Law 106-74

#### ADMINISTRATIVE PROVISIONS

The conferees have included an administrative provision which, for fiscal year 2001 and thereafter, provides that the obligated balances of sums available in multiple year appropriations accounts shall remain available through the seventh fiscal year after their period of availability has expired for liquidating obligations made during the period of availability.

In addition, an administrative provision is included which stipulates that, for fiscal year 2001, the Administrator, in carrying out environmental programs required or authorized by law in the absence of an acceptable tribal program, may award cooperative agreements to federally-recognized tribes or duly authorized intertribal groups to assist

the Administrator in implementing federal environmental programs for tribes required or authorized by law. Funds designated for State financial assistance agreements may not be used for such cooperative agreements.

Finally, an administrative provision has been included which reinstates the 12-month grace period following designation for new nonattainment areas for the National Ambient Air Quality Standards originally contained in EPA conformity regulations.

The conferees direct EPA to implement GPRA to the fullest extent possible. This includes defining its long-term strategic goals in terms of environmental, health, and other outcomes and tracking progress using appropriate outcomes measures. Such measures include indicators of health, ecology and welfare, exposure or body burden or uptake, ambient environmental conditions, discharges or emissions, and actions and/or responses by regulated parties.

The conferees recognize that the Agency

The conferees recognize that the Agency may not be able to establish nor measure all the appropriate outcome measures by the time of its first Strategic Plan revision after 2000. The conferees therefore direct the Agency to make significant progress in its first revision after 2000, and in subsequent revisions to the Strategic Plan. Further, the conferees call on the Agency to organize and present performance measures in a manner that makes appropriate use of performance information supplied by EPA regions and states.

EXECUTIVE OFFICE OF THE PRESIDENT

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Appropriates \$5,201,000 for the Office of Science and Technology Policy as proposed by the Senate instead of \$5,150,000 as proposed by the House.

Public Law 105-261 transferred responsibility for satellite technology export licensing from the Department of Commerce to the Department of State as part of the International Traffic in Arms Regulations (ITAR). An unfortunate and unintended consequence of that move has been that university-based fundamental science and engineering research, widely disseminated and unclassified, has become subject to overly restrictive and inconsistent ITAR direction. The result has been critical delays in NASAfunded research projects and has forced some universities to forgo participation in such projects. Such research traditionally has been excluded from export controls under the fundamental research exemption. The conferees find the current situation to be unacceptable and direct the Office of Science and Technology Policy to work jointly with the National Security Council, in consultation with the NASA Administrator and the Secretary of State, to expeditiously issue clarification of ITAR that ensures that university collaborations and personnel exchanges, which are vital to the continued success of federally-funded research, are allowed to continue as they had under the long-standing fundamental research exception in the Export Administration Regulations, which had governed export controls over this technology when the Department of Commerce had jurisdiction over it. The conferees expect this review to be completed within 120 days of enactment of this Act. Upon the issuance of guidance, NASA shall ensure that university principal investigators are fully aware of their responsibilities.

COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

Appropriates \$2,900,000 for the Council on Environmental Quality and the Office of Environmental Quality as proposed by the House and the Senate. The conferees have once again included bill language which prohibits CEQ from using funds other than those appropriated directly under this heading. The Council is expected to implement this provision in a manner consistent with its implementation during fiscal years 1998 and 1999. Language has also been included again this year which, notwithstanding law, authorizes the Council to operate with one member, that member acting as chairman of the Council.

FEDERAL DEPOSIT INSURANCE CORPORATION
OFFICE OF INSPECTOR GENERAL

#### (TRANSFER OF FUNDS)

Appropriates \$33,660,000 for the Office of Inspector General as proposed by the Senate instead of \$33,661,000 as proposed by the House. Funds for this account are derived from the Bank Insurance Fund, the Savings and Loan Association Insurance Fund, and the FSLIC Resolution Fund, and are therefore not reflected in either the budget authority or budget outlay totals.

FEDERAL EMERGENCY MANAGEMENT AGENCY

#### DISASTER RELIEF

#### (INCLUDING TRANSFER OF FUNDS)

Appropriates \$300,000,000 for disaster relief as proposed by both the House and the Senate. In addition, appropriates \$1,300,000,000 in emergency funding for disaster relief instead of \$2,609,220,000 as proposed by the Senate. The House had proposed no emergency funding. Retains language proposed by the Senate authorizing the transfer of \$2,900,000 to EMPA for the consolidated emergency management performance grant, in lieu of \$5,500,000 as proposed by the House.

The conferees agree that up to \$15,000,000 of the funds provided in this account may be used for flood map modernization activities in areas which receive Presidential disaster declarations, as proposed by the Senate. The House had proposed that \$30,000,000 be transferred from this account to the Flood Map Modernization Fund for non-disaster and disaster-related flood map modernization.

The conferees do not agree with the House proposal to allow up to \$50,000,000 of the disaster relief funds to be obligated for predisaster mitigation and repetitive loss property buyouts. The conferees have taken this action because additional funding was provided for buyouts and elevation of flood damaged properties as part of the fiscal year 2000 supplemental and these funds are not required at this time.

The conferees have agreed to include language in the bill making \$3,000,000 from section 404 hazard mitigation grant funding available to the State of Florida hurricane mitigation initiative in Miami-Dade County. Florida. The conferees recognize that, in light of the devastation of Hurricanes Floyd. Irene, and Dennis to the Southeast United States, resources must be focused on mitigation activities because many communities are not adequately prepared to provide local emergency shelter for category 3 or higher hurricanes. To demonstrate the effectiveness of certain mitigation technologies, the conferees direct that a portion of the section 404 hazard mitigation grant funding available to the State of Florida be used for a pre-disaster hurricane mitigation program initiative in Miami-Dade County, Florida utilizing perforated metal technology employed in fixed, passive protection window applications as demonstrated through the Miami Wind Shutter Program.

The conferees are not in agreement with regard to the issue of insurance require-

ments for public and non-profit buildings. While the goal of reducing Federal costs associated with natural disasters is shared by the conferees, there is not agreement on the best way to achieve that goal. The House continues to believe that FEMA must ensure that the concerns of all interested parties are taken into consideration and that a detailed cost-benefit analysis must be completed prior to finalizing any rule in this regard. The Senate continues to believe that all relevant information is in hand and that a final rule should be promulgated expeditiously. The conferees acknowledge their inability to resolve this issue and urge the Congress to address this issue as part of a comprehensive legislative package.

#### 

The conferees agree to provide a limitation of \$25,000,000 on direct loans, a cost of \$1,678,000 for direct loans, and a limitation on administrative expenses of \$427,000 for the disaster assistance direct loan program account. The foregoing amounts are the same as proposed by the Senate. The House had proposed a limitation of \$19,000,000 on direct loans, a cost of \$1,295,000 for direct loans, and a limitation on administrative expenses of \$420,000.

#### SALARIES AND EXPENSES

Appropriates \$215,000,000 for salaries and expenses as proposed by the Senate instead of \$190,000,000 as proposed by the House.

#### OFFICE OF INSPECTOR GENERAL

Appropriates \$10,000,000 for the Office of Inspector General as proposed by the Senate instead of \$8,015,000 as proposed by the House. The conferees are in agreement that the FEMA Inspector General shall also serve as the Inspector General for the Chemical Safety and Hazard Investigation Board, In order to fulfill these additional duties, the conferees agree to provide the Inspector General with additional funds and anticipate that the duties will require an increase of 8 FTE. To ensure the independence of the Office of Inspector General, funds are provided to enable the OIG to support its own administrative functions rather than relying on FEMA for support services such as budget and accounting, procurement and personnel.

### EMERGENCY MANAGEMENT PLANNING AND ASSISTANCE

Appropriates \$269,652,000 for emergency management planning and assistance as proposed by the Senate instead of \$267,000,000 as proposed by the House. The conferees agree to include bill language earmarking \$25,000,000 of the funds provided in this account for pre-disaster mitigation activities as proposed by the Senate. The House had included authority to use disaster relief funds for this purpose, to be administered through the EMPA account.

EMERGENCY FOOD AND SHELTER PROGRAM

Appropriates \$140,000,000 for emergency food and shelter instead of \$110,000,000 as proposed by both the House and Senate.

#### FLOOD MAP MODERNIZATION FUND

Appropriates no funding for this activity in this account. The conferees have included authority within the disaster relief account to use up to \$15,000,000 for post-disaster flood map activities in areas which receive Presidential disaster declarations.

### NATIONAL FLOOD INSURANCE FUND

#### $({\tt INCLUDING\ TRANSFER\ OF\ FUNDS})$

The conferees agree to include bill language which authorizes the National Flood Insurance Program through December 31. 2001 instead of September 30, 2001 as proposed by the House and Senate. Without this authorization, new flood insurance policies could not be written throughout the fiscal year. In addition, the conferees direct FEMA to make \$2,000,000 available to the New York Department of Environmental Conservation for initiating the Statewide Flood Plain Mapping Program.

# NATIONAL FLOOD MITIGATION FUND (INCLUDING TRANSFER OF FUNDS)

Provides for the transfer of \$20,000,000 from the National Flood Insurance Fund to the National Flood Mitigation Fund as proposed by both the House and Senate.

GENERAL SERVICES ADMINISTRATION
FEDERAL CONSUMER INFORMATION CENTER
FUND

Appropriates \$7,122,000 for the Federal Consumer Information Fund as proposed by both the House and the Senate.

#### NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

The conferees agree with the requirement of the Senate that NASA must articulate a comprehensive agenda and strategy through a strategic plan for each of NASA's primary centers that links staffing, funding resources, mission activities and core competencies in a manner that will ensure each primary center will be vested with specific responsibilities and activities. Within each plan. NASA should identify where a center has or is expected to develop the same or similar expertise and capacity as another center, including the justification for this need. The plan should also include a specific 10-year profile of flight mission elements. This profile should identify the primary NASA center responsible for each flight's mission management. The profile also should articulate clearly the criteria that is used and/or will be used to permit missions to be built intramurally, as well as the strategy for using industry and leading academic laboratories for mission development and execution. These plans are to be updated annually, with the first plan to be submitted to the Committees on Appropriations of the House and Senate by July 31, 2001. For purposes of the foregoing reporting requirement, primary NASA centers shall include the nine centers and the Jet Propulsion Laboratory listed on page AS-21 of the fiscal year 2001 budget submission.

The conferees agree that information on the long-term consequences of reprogramming and operating plan actions should be made available to the Committees on Appropriations of the House and Senate when requested. While the Senate had proposed making the information a requirement to be submitted with all reprogrammings and operating plans, the conferees recognize that this would be a burden on the agency when most of the changes are relatively minor in nature. The conferees expect NASA to be responsive whenever such an information request is made.

The conferees agree that NASA should report annually on the issue of safeguarding sensitive technology as proposed by the Senate

The conferees agree that NASA should not be required to include an accounting of program reserves when addressing a program in the initial operating plan or subsequent operating plans. The conferees expect NASA to be able to provide this information when requested by the Committees on Appropriations.

The conferees have agreed to delete the general provision, proposed by the House

which would have terminated all NASA-Air Force joint aeronautics and space-related research

The conferees do not agree that NASA should conduct a joint study with the National Research Council and the National Academy of Public Administration on the research and analysis portions of NASA's programs. The conferees urge NASA to take actions to ensure that research and analysis funding is sufficient to support the goals of the various programs.

Of the amounts approved in the following appropriations accounts. NASA must limit transfers of funds between programs and activities to not more than \$500,000 without prior approval of the Committees on Appropriations of the House and Senate Further. no changes may be made to any account or program element if it is construed to be policy or a change in policy. Any activity or program cited in this report shall be construed as the position of the conferees and should not be subject to reductions or reprogramming without prior approval of the Committees on Appropriations of the House and Senate. Finally, it is the intent of the conferees that all carryover funds in the various appropriations accounts are subject to the normal reprogramming requirements outlined above.

The conferees recognize that personnel management at an agency such as NASA is difficult and note that the Congress has provided authority in the past for NASA to offer incentives to employees as a way to reduce the agency's overall workforce. The challenge NASA now faces is to ensure that the proper skill mix is in place at the various NASA Centers. To accomplish this task, NASA has proposed a continuation of its current buyout authority with modifications which allow the agency to retain the same number of full-time equivalent personnel, while offering incentives to achieve a workforce reduction in skill areas where an excess exists. The conferees agree to provide NASA with this authority for two years and have included the necessary statutory authority as a general provision of the bill.

The conferees agree to include the House provision on NASA full cost accounting instead of the Senate provision. The conferees remain concerned about the impact of full cost accounting on program and financial information that will be made available to the Congress through full cost accounting. If the program and financial information is determined to be inadequate, the conferees expect NASA to be able to address the concerns of the Congress. In addition, the conferees direct NASA to report to the Committees on Appropriations of the House and Senate on the status of any program or activity that has exceeded its budget plan by 15 percent. The report should be provided to the Committees within 15 days of the date on which NASA has determined that the budget overrun has occurred. This report shall include the reasons for the budget overrun including any proposals for the termination or restructuring of the program or activity and the related impact on the funding of other programs or activities.

#### HUMAN SPACE FLIGHT

Appropriates \$5,462,900,000 for Human Space Flight instead of \$5,472,000,000 as proposed by the House and \$5,400,000,000 as proposed by the Senate. The funding level arrived at for this account includes a reduction of \$40,000,000 as proposed by NASA to provide additional funding for the Mars 2003 Lander program. This reduction includes \$30,000,000 from shuttle reserves and \$10,000,000 from the

commercialization and technology program. Other adjustments follow.

The conferees recognize that NASA is obligated to ensure the well-being of astronauts, who will build the International Space Station (ISS), and live and work there for increasingly longer periods of time. On-orbit stay times beyond 90 days will require implementation of countermeasures against the negative effects of space flight. The basic research and countermeasure development will be done using the ISS crew members as research subjects. This requires establishment of medical baselines prior to flight, close monitoring of in-flight changes to the baseline, including the beneficial impacts of the countermeasures, and post-flight monitoring throughout the rehabilitation process. A key objective of NASA's Bioastronautics Initiative is to re-focus existing NASA biomedical assets to accomplish this aim more effec-

The conferees understand that NASA has determined that the most effective approach to ensuring synergy between a strong research program and necessary astronaut clinical care is to construct a Bioastronautics Facility at the Johnson Space Center. The facility will be sited at NASA's Johnson Space Center because that is the living and working area of the astronaut corps and the medical support personnel. The facility will provide a necessary focal point for human health care delivery, research, and education for Space Medicine and Research. The research capabilities provided in this facility will be consistent with the NASA analysis of research requirements. This facility will enable access to all peer reviewed researchers, including universities across the country, NASA, NIH, and NSBRI, to carry out their science in a symbiotic laboratory setting and accomplish their goals.

The conferees agree to provide \$3,000,000 to complete the facility design effort, and that a design/build approach is being baselined to ensure timely completion of the facility. The conferees further understand that initial construction funding could be required in fiscal year 2001 if the design is completed as planned by mid-2001, and direct NASA to submit an Operating Plan notification to the Committees on Appropriations of the House and Senate at that time to identify construction funds within ISS resources.

The conferees agree that NASA should develop a 10-year plan for all research efforts related to the International Space Station, including operational needs as proposed by the Senate. NASA is directed to submit this report to the Committees on Appropriations of the House and Senate no later than April 15, 2001.

The conferees do not agree with the Senate requirement for a blueprint plan that identifies lead and complimentary universities that will coordinate with NASA for science disciplines that will be the focus of research after assembly of the ISS is complete. The conferees direct NASA to submit a plan to the Committees on Appropriations of the House and Senate which includes various ISS management options. The conferees agree that such a plan will give the Congress the information it needs in order to determine what management structure is best and most able to deliver the benefits of the ISS. The Committees on Appropriations will require this information prior to approving funding for any final agreement. Therefore, the conferees have included an administrative provision which prohibits the expenditure of any funds prior to December 1, 2001 for finalizing an agreement between NASA and a non government organization to conduct research utilization and commercialization management activities of the ISS.

For the past several years, the conferees have expressed dismay at the lack of dedicated life and microgravity research missions being flown on shuttle during station assembly. This problem is made worse by continuing delay in station assembly, leading to a significant backlog of critical research waiting to be flown. The conferees believe it is prudent to plan regular life and microgravity shuttle research missions during station assembly to protect the shuttle flight rate and to prepare experiments for the space station. The conferees therefore direct NASA, within 30 days of enactment of this Act, to submit a plan to the Committees on Appropriations of the House and Senate which details a schedule for shuttle research missions, beginning after the flight of STS-107 and continuing until the space station reaches its full research capability.

#### SCIENCE, AERONAUTICS AND TECHNOLOGY

Appropriates \$6,190,700,000 for science, aeronautics and technology instead of \$5,579,600,000 as proposed by the House and \$5,837,000,000 as proposed by the Senate. The amount provided is \$261,300,000 above the budget request. The amount provided consists of:

\$2,508,300,000 for space science. \$316,900,000 for life and microgravity sciences.

\$1,498,050,000 for earth sciences. \$1,253,150,000 for aero-sapec technology. \$529,400,000 for space operations. \$134,000,000 for academic programs.

\$49,100,000 as a general reduction.

In reaching the amount of \$6,190,700,000 appropriated for science, aeronautics and technology, the conferees have included only \$8,000,000 for space solar power, \$20,000,000 for commercial remote sensing data buys, \$20,000,000 for quiet aircraft technology, \$10,000,000 for the EPSCoR program, and \$19,100,000 for space grant colleges designated under section 208 of the National Space Grant College and Fellowship Act.

The conferees recognize the efforts of

NASA, particularly Goddard Space Flight Center, in developing comprehensive programmatic and operations plans for the Independent Verification and Validation Facility and in confirming the Facility's agency-wide role in software reliability. The conferees further recognize NASA's increased commitment to IV&V as a mission critical activity. as evidenced by the increase in funding (to \$40,000,000 for fiscal year 2001) dedicated to IV&V activities. The conferees expect NASA to report to the Committees on Appropriations of the House and Senate by May 1, 2001 regarding progress on development of the Facility, its role within NASA and the degree to which new and related software initiatives have been implemented.

#### SPACE SCIENCE

The conferees have agreed to provide \$2,508,300,000 for space science programs. Included in this amount is \$75,000,000 for the Mars 2003 Lander program as proposed by NASA in communications with the conferees subsequent to submission of the budget. Of this amount, \$2,000,000 is to be financed within the space science account; \$7,000,000 is to be derived from the life and microgravity account; \$20,000,000 is to be derived from the aeronautics and space technology account; \$6,000,000 is to be derived from the mission support account; and \$40,000,000 is to be derived from the human space flight account.

Prior conference agreements have directed NASA to establish a goal of competitively

selecting 75 percent of space science advanced technology funding. Based upon this direction, NASA recently released an open research announcement in the Cross-Enterprise Technology Development Program (CETDP) that resulted in an impressive response of over 1200 proposals competing for \$40,000,000 in funding. The conferees are aware that NASA was only able to award funding for 8 percent of the proposals and that a 92 percent disapproval rate is frustrating to the university community and industry partners. In addition, the conferees note that NASA has expressed concern that the diversion of a high percentage of funds to open solicitations is contributing to a loss of needed "core competencies" in technology at the NASA field centers. NASA, on the CETDP, is directed to allocate at least 75% of all new procurement awards through full and open competition. If NASA feels that additional funding is needed in fiscal year 2001 to address transitional core competency issues, then the agency may propose for the consideration by the Committees on Appropriations, a reprogramming of funds from other sources.

The conferees understand that the responsibility and funding for the CETDP is being transferred from the Office of Space Science to the Office of Aerospace Technology. Therefore, the conferees direct that NASA's Office of Aerospace Technology submit a report to the Committees on Appropriations of the House and Senate by April 30, 2001 which addresses how NASA plans to increase competitive selection of advanced technology funding while maintaining NASA Center core competencies. The report should identify the core competencies by NASA Center that are critical to the long-term future of the Nation's space program and the level of resources required to ensure their support. The NASA core competency strategy should include long-term strategic alliances with universities and industry partners.

The conferees note that applying the recommendations of the Mars Program Independent Assessment Team to all space science programs may lead to cost increases for those programs. The conferees agree that NASA should provide a five-year profile of the costs associated with implementing these recommendations as part of the budget submission for fiscal year 2002, as proposed by the Senate.

The conferees have provided the budget request of \$20,000,000 for the Living with a Star program, as proposed by the Senate. The House had deleted the funding for this program because of concern about the contracting strategy being used by the program. The NASA Inspector General has reviewed the procurement strategy and the conferees are confident that NASA will take into consideration the recommendations of the Inspector General with regard to this program, as well as the recommendations of the Applied Physics Laboratory and NASA. The conferees agree with the direction of the Senate that NASA should submit a longterm plan to create a resilient Sun-Earth Connection program and that the report should be submitted by February 15, 2001.

The conferees agree that the cost of the Hubble Wide Field Camera 3 should have a cost cap of \$75,500,000 as proposed by the Senate. The conferees do not agree that cost increases associated with the Hubble Servicing Mission should be allocated to the Human Space Flight account. Instead, the conferees direct NASA to provide a report to the Committees on Appropriations of the House and Senate on the policy for allocating cost in-

creases which are associated with launch or payload delays and the rationale for the policy. The report should be provided no later that March 31, 2001.

The conferees agree to the following changes to the budget request:

- 1. An increase of \$1,500,000 for Ohio Wesleyan University for infrastructure needs.
- 2. An increase of \$1,500,000 for the Center for Space Sciences at Texas Tech University, Lubbock. Texas.
- 3. An increase of \$8,000,000 for space solar power.
- 4. An increase of \$5,000,000 for the STEP-AirSEDS tether propulsion program.
  5. An increase of \$2,500,000 for the Hubble
- 5. An increase of \$2,500,000 for the Hubble telescope project to initiate a Composites Technology Institute in Bridgeport, West Virginia.
- 6. An increase of \$3,500,000 for a center on life in extreme thermal environments at Montana State University, Bozeman.
- 7. An increase of \$2,500,000 for the Bishop Museum/Mauna Kea Astronomy Education Center
- 8. An increase of \$1,000,000 for the Chabot Observatory and Science Center, Oakland, California.
- 9. An increase of \$4,000,000 for the Green Bank Radio Astronomy Observatory visitor center.
- 10. An increase of \$2,000,000 for equipment for the South Carolina State Museum's Observatory, Planetarium and Theater.
- 11. An increase of \$8,000,000 for the University of Hawaii for infrastructure needs of the Mauna Kea Education Center.

#### LIFE AND MICROGRAVITY SCIENCES

The conferees agree to provide \$316,900,000 for life and microgravity sciences. This amount includes a reduction of \$7,000,000 from the biomedical research and countermeasures program which has been transferred to the space sciences account for the Mars 2003 Lander program. The conferees agree to the following changes to the budget request:

- 1. An increase of \$5,000,000 for the Space Radiation program at Loma Linda University Hospital.
- 2. An increase of \$1,000,000 to EARTH University and the University of Alabama in Birmingham to research Chagas disease.
- 3. An increase of \$500,000 for ongoing research in the area of disease monitoring and diagnosis through the use of medical intelligence for the manned spaceflight effort.
- 4. An increase of \$3,000,000 for the Donald Danforth Plant Science Center's Modern Genetics project.
- 5. An increase of \$15,000,000 for infrastructure needs for the Life Sciences building at the University of Missouri-Columbia.

#### EARTH SCIENCES

The conferees agree to provide \$1,498,050,000 for the earth sciences account.

The conferees take seriously their responsibility to oversee the activities of the various Departments and Agencies and feel the direction provided by the Congress in the Statement of Managers accompanying the Conference Report for prior fiscal years should be implemented without fail. It has come to the attention of the conferees that this has not been the case with the implementation of direction contained in the fiscal year 2000 Appropriations Act and accompanying Statement of Managers. For this reason, the conferees agree with the Senate proposal to suspend the authority of the Office of Earth Science to reprogram any funds in fiscal year 2001 unless specifically authorized by the Committees on Appropriations of the House and Senate.

The conferees direct NASA to report to the Committees on Appropriations of the House and Senate, by March 15, 2001 with a ten-year strategy and funding profile to extend the benefits of Earth science, technology and data results beyond the traditional science community and address practical, near-term problems. This strategy should incorporate fully the unique data, data products and services available from U.S. companies. NASA is also directed to develop, with universities, existing Applications Centers, such as ARCs and RESACs, NASA Field Centers, and other cognizant Federal agencies, mechanisms through which current public and private remote sensing and related technologies will be made readily available to state and local governments, public agencies and private organizations for applications in agriculture, flood mapping, forestry, environmental protection, urban planning and other land-use issues.

The Vegetation Canopy LIDAR Project (VCL), the first NASA Earth Systems Pathfinder Mission, is designed to provide a global database of forest structure and tree height. The conferees believe that this data will be invaluable as the scientific community continues research into global climate change and related areas. At the same time, the conferees recognize the valuable commercial potential of the data and the associated interest within the commercial sector. The conferees are concerned that if the VCL mission is not launched by 2002, the baseline data needed by the United States scientific and commercial community may be delayed or lost. Therefore, the conferees direct NASA to report by October 2001 on the progress of developing the VCL mission, with the expectation of a Spring 2002 launch date.

The conferees agree to the following changes to the budget request:

- 1. An increase of \$500,000 for the Temporal Landscape Change Research Program to establish a regional baseline monitoring program
- 2. An increase of \$500,000 for the operations of the applications center for remote sensing at Fulton-Montgomery Community College, Johnston, New York.
- 3. An increase of \$1,000,000 for the Center for Earth Observing and Space Research at George Mason University.
- 4. An increase of \$5,000,000 for NASA's Regional Applications Center for the Northeast.
- 5. An increase of \$2,500,000 for the U.S. portion of the joint U.S./Italian satellite development program to remotely observe forest fires.
- 6. An increase of \$450,000 for continuation of application remote sensing to forestry at the State University of New York, College of Environmental Sciences and Forestry.
- 7. An increase of \$4,000,000 for the continuation of programs at the American Museum of Natural History.
- 8. An increase of \$1,000,000 for the Advanced Tropical Remote Sensing Center of the National Center for Tropical Remote Sensing Applications and Resources at the Rosenstiel School of Marine and Atmospheric Science.
- 9. An increase of \$8,800,000 to the Institute for Software Research, for the following activities: \$5,000,000 for development and construction of research facilities; \$2,300,000 for the development of a Goddard Institute for Systems, Software and Technology Research (GISSTR) in cooperation with the Goddard Space Flight Center's Systems, Technology and Advanced Concepts (STAAC) organization; and \$1,500,000 for a microcomputer clustering and data throughput/visualization algorithm research initiative.

10. An increase of \$20,000,000 to continue commercial data purchases.

11. An increase of \$3,000,000 for the University of South Mississippi for research into remotely sensed data for coastal zone management.

12. An increase of \$1,000,000 for carbon cycle remote sensing technology at the KARS Regional Earth Sciences Applications Center at the University of Kansas.

13. An increase of \$1,500,000 for the University of North Dakota to support the Upper Midwest Aerospace Consortium.

14. An increase of \$1,500,000 for topographic sensor measurement efforts in Alaska.

15. An increase of \$2,000,000 for remote ocean sensing research and measurements in the areas of the Bering Sea and the northernmost Pacific Ocean.

16. An increase of \$500,000 for continued development of nickel metal hydride battery technology.

17. An increase of \$3,000,000 for the NASA International Earth Observing System Natural Resource Training Center at the University of Montana. Missoula.

18. An increase of \$1,000,000 for the Pipelines Project at Iowa State University/Southern University—Baton Rouge.

19. An increase of \$35,000,000 for the Earth Observing System Data Information System, for a total fiscal year 2001 program level of \$277,000,000. These additional funds are for the EOSDIS Core System only so that its total program level in fiscal year 2001 shall be \$115,000,000 allocated as follows: First, an additional \$22,500,000 should be added to the core ECS program to provide optimized system functionality, planning for future growth and adaptations due to instrument team changes, provision for additional processing, and archival capabilities needed at DAAC's. Second, the remaining \$12,500,000 is to continue and expand the Synergy program that was begun in fiscal year 2000. In fiscal year 2001, the conferees believe the Synergy program should focus on the following: continued development of the current applications to make them accessible to the general public; expansion of the number of info marts/data store fronts to broaden the application base and implementation of a unified access data server for local. State. and Federal agencies and the commercial marketplace. As part of this effort, NASA is directed to integrate the regional earth science applications centers into the Synergy program by the end of fiscal year 2001.

20. The conferees provided the full amount requested for the EOS follow-on. Within the amount provided, the conferees recommend: \$1,500,000 for studies initiating a Landsat-7 follow-on commercial data purchase; \$2,000,000 for the Global Precipitation Mission for phase A/B studies and preliminary advanced technology development work; \$2,000,000 for the Global Earthquake Satellite for phase A/B studies and preliminary adtechnology development work; \$1,500,000 for studies related to the "New DIS" which the conferees believe should emphasize the re-use of the existing system in order to minimize future costs; \$35,600,000 for studies and advanced technology development for the NPOESS preparatory project of which \$4,000,000 shall be allocated for the development of high speed data processing and algorithm validation processes that maximize prior year investments in this area; and \$2,000,000 to initiate a global wind profile commercial data purchase consistent with the science objectives identified in the National Academy of Sciences study.

#### AERO-SPACE TECHNOLOGY

The conferees agree to provide \$1,253,150,000 for the aero-space technology account. In-

cluded in this amount is a reduction of \$20,000,000 to the research and technology base with the funds transferred to the space sciences account for the Mars 2003 Lander program.

The conferees agree to provide the budget request of \$9,000,000 for the small aircraft transportation system (SATS) as proposed by the Senate. The House had deleted funding for this effort. The House action was based upon limited funding available to NASA and an underlying concern that the Federal Aviation Administration (FAA) was less than enthusiastic about the program which was not very well defined in the budget submission. Based upon new information provided to the conferees, funding for SATS has been restored to be used for operational evaluations, or proofs of concept where operational evaluations are not possible, of four new capabilities that promise to increase the safe and efficient capacity of the National Airspace System for all NAS users, and to extend reliable air service to smaller communities. These capabilities are:

High-volume operations at airports without control towers or terminal radar facilities

Lower adverse weather landing minimums at minimally equipped landing facilities.

Integration of SATS aircraft into a higher en route capacity air traffic control system with complex flows and slower aircraft.

Improved single-pilot ability to function competently in complex airspace in an evolving NAS.

The conferees recognize that the expansion of the SATS is a technically high-risk program, and that the expansion of the SATS program to perform operational evaluations on all four capabilities will require additional resources. Therefore, the conferees direct the Administration to include such resources in the fiscal year 2002 budget request for NASA.

It is the expectation of the conferees that SATS will develop and operationally evaluate these four capabilities in a five-year program which will produce sufficient data to support FAA decisions to approve operational use of the capabilities, and FAA and industry decisions to invest in the necessary technologies. The conferees direct that not less than 75% of the funding provided for development of technologies shall be awarded subject to full and open competition. Collaborative industry/university teams are encouraged to compete for these awards. In addition. NASA is directed to transfer funds as required to the FAA for personnel with authority to set criteria and approve test plans.

The usefulness of the data for this purpose will be ensured through the following process:

1. In fiscal year 2001, NASA will plan SATS activities with, and secure the agreement of, FAA staff from aircraft certification, flight standards, air traffic, and airports before undertaking the proof of concept or operational evaluations. This will also be done with appropriate industry involvement.

2. The SATS plan will identify the operational safety criteria required by FAA for each capability, and test plans determined by FAA to be adequate to establish that these criteria are met.

3. The objective of SATS is that the output of the operational evaluation as defined in the plan will be sufficient for the FAA to give full credit to the test data when an applicant subsequently proposes the certification and operational approvals for a system that would implement these SATS capabilities.

NASA and FAA SATS program managers will keep the SATS Subcommittee, a joint subcommittee of NASA's Aero Space Technology Advisory Committee and FAA's Research Engineering and Development Advisory Committee, fully informed of all planning activities. SATS program managers will seek specific advice on their plan from the Subcommittee and respond in writing to such advice. The Advisory Committees will request status reports from the SATS Subcommittee on the planning activities and their conformance to the above directions of the conferees and these reports shall also be provided to the Committees on Appropriations of the House and Senate.

NASA is directed to provide a report the Committees on Appropriations of the House and Senate on the status of implementing this program with the first report to be submitted by July 31, 2001 and subsequent reports to be submitted on each March 31 thereafter.

The conferees agree to provide the budget request for the Space Launch Initiative (SLI) as proposed by the Senate. The conferees are in general agreement with the direction in the Senate report with regard to the key principles NASA should maintain throughout the life of the program, namely: (1) any launch vehicles developed fully will be owned and operated by private industry and be capable of competing effectively in the commercial marketplace; and (2) the program will rely on competition from existing and emerging launch service providers to ensure innovations, openness, and resiliency. Further, the conferees are in agreement that at least 75% of SLI funding should be subject to full and open competition and that all NASA Centers should be eligible to participate in the SLI program.

The conferees continue to support the Software Optimization and Reuse Technology (SORT) program, which will help NASA address the growing cost and schedule complexities associated with traditional oneat-a-time software development strategies. The conferees are aware of a recent independent assessment of SORT program efforts at the Goddard Space Flight Center (GSFC) Information Systems Center (ISC), which confirmed the compatibility of GSFC/ISC goals with those of the SORT program. The report confirmed that the technologies proposed under the SORT program would promote improvements in productivity, quality, cost and schedule, but identified communication and management problems between the SORT program and NASA. The conferees fully support the transfer of SORT's management to the GSFC/ISC, and expect the contents of the independent assessment to be integrated into a detailed plan for future SORT activities. The conferees direct GSFC/ ISC to submit this plan to Congress no later than April 1, 2001.

The conferees agree to the following changes to the budget request:

1. An increase of \$13,000,000 for the Ultra Efficient Engine Technology program.

2. An increase of \$2,000,000 for the development of eyetracking technology and applications research.

3. An increase of \$500,000 for evaluation and design of Lithium-Ion batteries for use on space shuttles.

4. An increase of \$3,000,000 for the NASA-Illinois Technology Commercialization Center at DuPage County Research Park.

5. An increase of \$3,000,000 for the University of New Orleans Composites Research Center for Excellence at Michoud, Louisiana.

6. An increase of \$5,000,000 for Rotocraft Research and Technology base programs.

- 7. An increase of \$6,000,000 to expand the Space Alliance Technology Outreach Program in the states of Florida, New Mexico, New York, and Texas.
- 8. An increase of \$4,000,000 for deployment of multilateration and Mode-S based Automatic Dependent Surveillance-Broadcast sensors for the Helicopter In-Flight Tracking System.
- 9. An increase of \$1,800,000 to augment deployment of an ATIDS multilateration sensor and surveillance server for the Airport Surface Management System.
- 10. An increase of \$1,600,000 for the continued development of the Dynamic Runway Occupancy Measurement System integration with the Multistatic Dependent Surveillance System and SensorBahn server.
- 11. An increase of \$1,000,000 for the remote sensing SAID research program at Syracuse University.
- 12. An increase of \$1,000,000 for Agile Collaboration Environments for Systems Synthesis in Engineering Education.
- 13. An increase of \$1,000,000 for Enhanced Vision Systems development and testing.
- 14. An increase of \$2,000,000 to continue work on SOCRATES.
- 15. An increase of \$1,000,000 for the Center for Emerging Technologies at Stony Brook, State University of New York.
- 16. An increase of \$1,000,000 for the Garrett Morgan Commercialization Initiative in Ohio.
- 17. An increase of \$6,500,000 to the Institute for Software Research, for the following activities: \$2,000,000 to perform fundamental research of propellantless space propulsion with NASA's Center of Excellence for Space Propulsion, including the analysis of prototype radio frequency momentum sources and the use of automated tensor algorithms to simulate and evaluate prototype drive mechanisms; \$3,500,000 to continue the Self-Adaptive Vehicular Equipment (SAVE) initiative; and \$1,000,000 to continue the Breakthrough Propulsion Physics (BPP) program.
- 18. An increase of \$7,500,000 for completion of the National Space Science and Technology Center for infrastructure needs.
- 19. An increase of \$2,000,000 for the Earth Alert project at the Goddard Space Flight Center.
- 20. An increase of \$10,000,000 for a Propulsion Research Laboratory to be located at NASA's Center of Excellence for Space Propulsion at the Marshall Space Flight Center.
- 21. An increase of \$2,000,000 for Montana State University, Bozeman for research in advanced optoelectronic materials.
- 22. An increase of \$1,000,000 for the University of Akron, for nanotechnology research.
- 23. An increase of \$1,000,000 for aerospace projects at MSE Technology Applications in Butte. Montana.
- 24. An increase of \$250,000 for the Oklahoma Aeronautics and Space Commission for sounding rockets.
- 25. An increase of \$1,000,000 for Montana State University for the techlink program.
- 26. An increase of \$500,000 for the National Aviation Hall of Fame for development of exhibits.
- 27. An increase of \$1.500,000 for the National Technology Transfer Center, for a total of \$7,300,000.

#### SPACE OPERATIONS

The conferees have provided \$529,400,000 for space operations, the same amount as provided by both the House and Senate.

#### ACADEMIC PROGRAMS

The conferees have agreed to provide \$134,000,000 for academic programs. The con-

- ferees agree to the following changes to the budget request:
- 1. An increase of \$3,000,000 for continued academic and infrastructure needs related to the computer sciences, mathematics and physics building at the University of Redlands, Redlands, California.
- 2. An increase of \$1,000,000 for equipment needs at the University of San Diego Science and Education Outreach Center.
- 3. An increase of \$500,000 for Science, Engineering, Math and Aerospace Academy programs at Central Arizona College.
- 4. An increase of \$1,000,000 for the Science Facilities Initiative at Heidelberg College in Ohio.
- 5. An increase of \$1,000,000 for the NASA Glenn "Gateway to the Future: Ohio Pilot" project.
- 6. An increase of \$1,500,000 for the Santa Ana College Space Education Center in California.
- 7. An increase of \$5,400,000 for the EPSCoR program for a total funding level of \$10.000.000 in fiscal year 2001.
- 8. An increase of \$9,100,000 for the Minority University Research and Education program for a total funding level of \$55,000,000 in fiscal year 2001.
- 9. An increase of \$500,000 for a hands-on interactive science education facility at the University of North Carolina at Chapel Hill.
- 10. An increase of \$1,000,000 for the Science Learning Center in Hammond, Indiana.
- 11. An increase of \$1,000,000 for the Environmental Sciences Learning Center (part of the California Science Center) in Los Angeles, California.
- 12. An increase of \$2,000,000 for the University of Wisconsin-Milwaukee to implement the Wisconsin Initiative for Math, Science, and Technology.
- 13. An increase of \$2,500,000 for the JASON Foundation.
- 14. An increase of \$1,000,000 for the NASA Center of Excellence in Mathematics, Science and Technology at Texas College in Tyler, Texas.
- 15. An increase of \$2,000,000 for the Lewis and Clark Rediscovery Web Technology Project.
- 16. An increase of \$500,000 for the Aerospace Education Center in Cleveland, Ohio as a national hub for the SEMAA program.
- 17. An increase of \$1,000,000 for the Carl Sagan Discovery Science Center at the Children's Hospital at Montefiore Medical Center to implement the educational programming for this science learning project.
- 18. An increase of \$1,000,000 for the Challenger Learning Center in Kenai, Alaska.

#### MISSION SUPPORT

Appropriates \$2,608,700,000 for mission support instead of \$2,584,000,000 as proposed by the House and Senate. The funding level arrived at for this account includes a reduction of \$6,000,000 to research operations support from IFMP rescheduling as proposed by NASA to provide additional funding for the Mars 2003 Lander program.

The conferees are aware that NASA owns and operates a small fleet of administrative aircraft that are vital for the oversight and implementation of its mission. The conferees understand that the majority of the aircraft in this fleet are aging, presenting a burden upon NASA management in terms of maintenance requirements and resultant costs. The conferees, therefore, direct that NASA develop a plan to replace these aging administrative aircraft and consider fractional ownership as an alternative. NASA should submit this plan for administrative aircraft replacement to the Committees on Appropria-

tions of the House and Senate by April 15, 2001. The conferees continue to believe that fractional ownership may be of value to NASA and have therefore included \$2,200,000 to be used for a two-year test of the concept. NASA is directed to enter into a fractional ownership contract, to be fully competed, by June 15, 2001.

The conferees agree to provide \$18,000,000 for the E-Complex upgrades at Stennis Space Center and \$10,500,000 for a propulsion test operations building and for upgrades to the East/West access road at Stennis. In addition, the funds used for upgrades to the East/ West access road may be used to match title 23 highway funds.

#### OFFICE OF INSPECTOR GENERAL

The conferees agree to provide \$23,000,000 for the Office of Inspector General, the same as proposed by both the House and Senate.

#### ADMINISTRATIVE PROVISIONS

The conferees agree to include four administrative provisions which were included in the bill in fiscal year 2000. The fifth administrative provision is addressed at the beginning of the NASA section of this statement. The conferees have not included an administrative provision proposed by the Senate which would have incorporated the Senate report into the bill by reference.

NATIONAL CREDIT UNION ADMINISTRATION

### CENTRAL LIQUIDITY FACILITY (INCLUDING TRANSFER OF FUNDS)

Limits direct loans from the Central Liquidity Facility (CLF) to credit unions from borrowed funds to \$1,500,000,000 instead of \$3,000,000,000 as proposed by the House and \$600,000,000 as proposed by the Senate

\$600,000,000 as proposed by the Senate. Appropriates \$1,000,000 to the National Credit Union Administration for the Community Development Revolving Loan Program for low-income credit unions of which \$350,000 is provided specifically for technical assistance, as proposed by the House instead of no funding as proposed by the Senate.

The conferees are very supportive of the credit union industry and the service it provides to its members. Increasing the lending cap for the Central Liquidity Facility (CLF) for new direct loans gives greater financial security to the industry and ensures the statutory role of the CLF to provide liquidity to credit unions experiencing unusual or unexpected shortfalls.

The conferees consider loans administered through the CLF necessary in situations when private sources are not available and when unanticipated events are the cause of liquidity drains. The conferees do not expect that loan sales or other business decisions that result in excessive demand for liquidity should be considered emergency events that warrant the use of CLF funds. To this end, the conferees direct the NCUA to develop written policies and procedures to clarify the role of the CLF and the circumstances when the CLF will approve a Regular or Agent Member's request for a CLF advance. This information is to be included in the budget request for fiscal year 2002. The conferees also direct the NCUA to report on the loans made by the CLF for short-term adjustment, seasonal, and protracted adjustment liquidity needs for each month from 1996 through December 2000. This report is to be submitted to the Committees by February 15. 2001. The conferees request that NCUA continue to provide this information on CLF loans on a monthly basis through September 2001.

# NATIONAL SCIENCE FOUNDATION RESEARCH AND RELATED ACTIVITIES

Appropriates \$3,350,000,000 for research and related activities instead of \$3,117,690,000 as

proposed by the House and \$3,245,562,000 as proposed by the Senate. Bill language provides up to \$275,592,000 of this amount for Polar research and operations support.

The conferees have included bill language which specifies that \$65,000,000 of appropriated funds are to be for a comprehensive research initiative on plant genomes for economically significant crops.

Finally, the conferees have agreed to bill language which: (1) prohibits funds spent in this or any other Act to acquire or lease a research vessel with ice-breaking capability built or retrofitted outside of the United States if such a vessel of United States origin can be obtained at a cost of not more than 50 per centum above the cost of the least expensive, technically acceptable, non-United States vessel; (2) requires that the amount of subsidy or financing provided by a foreign government, or instrumentality thereof, to a vessel's construction shall be included as part of the total cost of such vessel; and (3) provides that should a U.S. vessel as set forth in the foregoing language not be available for leasing for the austral summer Antarctic season of 2002-2003, and thereafter, a vessel of any origin can be leased for a period not to exceed 120 days of that season and every season thereafter until delivery of such a United States vessel occurs.

The conference agreement provides an increase of \$384,000,000 above the fiscal year 2000 appropriated level for research and related activities. Within the appropriated level is \$215.000.000 for the information technology initiative, \$75,000,000 for the biocomplexity initiative, \$65,000,000 for plant genome research for economically significant crops. \$150,000,000 for the new nanotechnology initiative, \$75,000,000 for major research instrumentation, \$94,910,000 facilities within the astronomical sciences activity, and \$1,000,000 to begin design and model testing of a vessel to replace the R/V Alpha Helix.

The increase of \$15,000,000 provided for astronomical sciences facilities is intended to upgrade specifically facilities and operations, including new construction and instrumentation as appropriate, for the Arecibo Observatory, the Green Bank Telescope, the Very Large Array, the Very Long Baseline Array, and other facilities in need of such attention on a priority basis. The Foundation is directed to provide the Committees on Appropriations of the House and Senate with a list of facilities and the specific needs of each, on a priority basis, within the Operating Plan submission and on a semi-yearly basis after that.

The conferees have provided \$5,000,000 within the total for social and behavioral sciences to initiate a separately competed Children's Research Initiative (CRI). While the NSF does fund some research that provides a better understanding of children, a distinct program is needed if the recommendations of the 1997 National Science and Technology Council report are to be achieved. In fact, as the NSF anticipates potential budget growth in future years, the conferees expect the CRI to be a vital part of any planned program expansion. The NSF should employ its normal peer review process for determining grants for the CRI, and should award both principal investigator and no less than three center awards with this first-year funding.

Highest funding priority should be given to proposals from distinct human sciences units in institutions of higher education that have an interdisciplinary academic program in human and family development, nutrition,

and related areas. Proposals should also be evaluated for their effectiveness in utilizing existing delivery systems for program outreach and evaluation to assess how the implementation of research findings can benefit the majority of all children in a given state or region. A strong emphasis should also be placed on pursuing theory-driven, applied policy-related research on children, learning, and the influence of families and communities on child development.

The conferees expect the Foundation to work with the human sciences community in the development of the proposed program guidelines for the CRI and to have awards made by June 2001. Finally, the conferees expect a detailed plan in the fiscal year 2002 budget submission on how the NSF intends to expand the CRI as a multi-year strategic initiative.

The Opportunity Fund has again, without prejudice, not been funded for fiscal year 2001

Except as previously noted, the conferees expect that the remaining funds will be distributed proportionately and equitably, consistent with the ratio of the budget request level above the fiscal year 2000 funding level, among all of the remaining directorates. In the distribution of funds within each directorate, the NSF is directed to provide each program, project, and activity the same percentage of the overall budget as that provided in the budget request. The conferees request that such distribution be specifically noted in the fiscal year 2001 Operating Plan submission.

#### MAJOR RESEARCH EQUIPMENT

Appropriates \$121,600,000 for major research equipment instead of \$76,600,000 as proposed by the House and \$109,100,000 as proposed by the Senate.

The conference agreement provides the budget request level for all ongoing projects MRE account, including the \$45,000,000 for the development and construction of a second, single site, five-plus teraflop computing facility. The conferees are encouraged by the recent progress made in the development of the first terascale facility and urge the Foundation to move as quickly as possible in soliciting proposals for the second facility. The conferees urge the Foundation to pay special attention to qualified proposals that will utilize newer generation processors and other equipment as well as exhibit appropriate cost-share benefits as part of a proposal.

The conferees expect the Foundation to provide regular, informal reports as to the progress of the entire terascale program, including updates on construction, acquisition, funding requirements, and other appropriate information associated with this important program.

The conference agreement also provides \$12,500,000 to continue production of the High-Performance Instrumented Airborne Platform for Environmental Research (HIAPER). This new high-altitude research aircraft will, upon its completion, be available to support critical and outstanding atmospheric science research opportunities over the next 25 to 30 years.

Budget constraints have forced the conferees to not approve funding for two new starts for fiscal year 2001 under major research equipment, the U.S. Array and San Andreas Fault Observatory at Depth, and the National Ecological Observatory Network. This decision was made without prejudice and does not reflect on the quality of research proposed to be developed through these two programs.

EDUCATION AND HUMAN RESOURCES

Appropriates \$787,352,000 for education and human resources instead of \$694,310,000 as proposed by the House and \$765,352,000 as proposed by the Senate. Bill language is included which requires that from within available funds, \$10,000,000 is for the Office of Innovation Partnerships.

Within this appropriated level, the conferees have provided \$75,000,000 for the Experimental Program to Stimulate Competitive Research (EPSCoR) to allow for renewed emphasis on research infrastructure development in the EPSCoR states, as well as to permit full implementation awards to states which have research proposals in the planning process. In addition, the conferees have provided \$10,000,000 to fund the Office of Innovation Partnerships. This new office was created last year to, among other things, house the EPSCoR program, and should continue to examine means of helping those non-EPSCoR institutions receiving among the least federal research funding expand their research capacity and competitiveness so as to develop a truly national scientific research community with appropriate research centers located throughout the nation

The conference agreement provides \$15,000,000 for the HBCU-UP program, including \$14,000,000 from the EHR account and \$1,000,000 from the RRA account. The conferees have provided an increase of \$10,000,000 above the budget request level for the Informal Science Education (ISE) program. This increase is intended to provide additional resources to expand the pool of ISE grantees to providers in smaller communities, thus ensuring that the impact of the ISE program reaches an even more diverse audience.

The conference agreement further provides \$34,250,000 for Advanced Technological Education; \$13,000,000 for the SMETE Digital Library; \$19,750,000 for Graduate Teaching Fellowships in K-12 Education; \$16,500,000 for programs designed for women and persons with disabilities: \$55,200,000 for the Graduate Research Fellowships program; and the fiscal year 2001 budget requests for the Louis Stokes Alliance for Minority Participation program, the new Tribal Colleges program, the Minority Graduate Education program, the Centers of Research Excellence in Science and Technology program, and the Model Institutions for Excellence program.

Finally, the conferees have agreed to provide \$11,200,000 for the new Scholarships for Service program.

Except as previously noted, the conferees

Except as previously noted, the conferees expect that the remaining funds will be distributed proportionately and equitably, consistent with the ratio of the budget request level above the fiscal year 2000 funding level, among all of the remaining directorates. In the distribution of funds within each directorate, the NSF is directed to provide each program, project, and activity the same percentage of the overall budget as that provided in the budget request. The conferees request that such distribution be specifically noted in the fiscal year 2001 Operating Plan submission.

#### SALARIES AND EXPENSES

Appropriates \$160,890,000 for salaries and expenses instead of \$152,000,000 as proposed by the House and \$170,890,000 as proposed by the Senate.

The conferees note that the increase of \$3,000,000 above the budget request is for travel expenses that the budget submission proposed to fund from within the RRA and EHR accounts instead of from within salaries and expenses. Accordingly, the conferees

direct the NSF to fund employee travel from within salaries and expenses, consistent with existing practice.

#### OFFICE OF INSPECTOR GENERAL

Appropriates \$6,280,000 for the Office of Inspector General as proposed by the Senate instead of \$5,700,000 as proposed by the House. The conferees continue to expect the OIG to increase efforts in the areas of costsharing, indirect costs, and misconduct in scientific research. The conferees further direct the OIG to evaluate the Foundation's management of its growing program responsibilities.

 ${\tt NEIGHBORHOOD} \ {\tt REINVESTMENT} \ {\tt CORPORATION}$ 

#### PAYMENT TO THE NEIGHBORHOOD REINVESTMENT CORPORATION

Appropriates \$90,000,000 for the Neighborhood Reinvestment Corporation as proposed by the House instead of \$80,000,000 as proposed by the Senate.

Includes language proposed by the House allowing \$5,000,000 of the total appropriation to be used for a section 8 homeownership program. The Senate did not include a similar provision.

Includes new language making \$2,500,000 available for the purpose of endowing a "George Knight Scholarship Fund." The conferees would like to recognize the retirement of George Knight, executive director of Neighborhood Reinvestment Corporation since 1990. Mr. Knight has dedicated more than 24 years of service to the Corporation and its predecessor organization, the Urban Reinvestment Task Force. To acknowledge Mr. Knight's dedication to America's communities, the conferees are designating a set-aside of \$2.500,000 to establish a scholarship fund in his honor for the Neighborhood Reinvestment Training Institute. This fund will allow hundreds of local leaders, community developers and residents to have access to high-quality training, which will help them acquire the expertise to improve their communities.

### SELECTIVE SERVICE SYSTEM

#### SALARIES AND EXPENSES

Appropriates \$24,480,000 for salaries and expenses as proposed by the Senate instead of \$23,000,000 as proposed by the House.

Retains language proposed by the Senate providing a one-year exemption from 31 U.S.C. 1341 if the President deems the exemption necessary in the interest of national defense

#### TITLE IV—GENERAL PROVISIONS

Inserts language proposed by the Senate permitting EPA appropriations to be used for comprehensive conservation and management plans.

Retains language proposed by the House amending the National Aeronautics and Space Act of 1958 to implement full cost accounting, allow the transfer of administrative funds and allow the transfer of balances from old accounts to new accounts. The Senate deleted the House language, but included language implementing full cost accounting in a new account structure and limiting the transfer of funds. The Senate had also proposed a requirement for notification if program costs increase by 15 percent.

Inserts language proposed by the Senate defining a qualified student loan.

Retains language proposed by the House prohibiting HUD from using funds for any activity in excess of amounts set forth in the budget estimates to the Congress. The Senate included similar language referencing the budget estimates submitted for appropriations, not the Congress.

Deletes language proposed by the Senate prohibiting the use of funds to carry out Executive Order 13083.

Inserts language proposed by the House and stricken by the Senate prohibiting the EPA's expenditure of funds to promulgate a final regulation to implement changes in the payment of pesticide tolerance fees for fiscal year 2001. This issue is addressed under the Environmental Protection Agency elsewhere in this joint explanatory statement of the managers.

Deletes language proposed by the House and stricken by the Senate directing the General Services Administration (GSA) to allocate one of its Senior Executive Service positions for Director, Federal Consumer Information Center. The conferees recognize the GSA has already taken action on this issue

Deletes language proposed by the House and stricken by the Senate restricting the use of funds for joint NASA—Air Force research programs.

Modifies language proposed by the House and stricken by the Senate prohibiting the use of funds for the designation of any area as an ozone nonattainment area. The conferees agree to limit the prohibition until the Supreme Court rules on this issue or June 15, 2001, whichever comes first.

Deletes language proposed by the House and stricken by the Senate prohibiting the use of funds for administration of the Communities for Safer Guns Coalition.

Inserts language proposed by the Senate prohibiting the use of funds for the purpose of lobbying or litigating against any Federal entity or official, with certain exceptions.

Inserts language proposed by the Senate prohibiting the use of funds for any activity or publication or distribution of literature that is designed to promote public support or opposition to any legislative proposal on which Congressional action is not complete.

Inserts language encouraging the use of E-Commerce as a cost effective and efficient method of purchasing needed products in a timely, paperless manner from qualified vendors. In addition, the conferees encourage open, non-proprietary, Internet access to conduct E-Commerce as the use of proprietary software in services can diminish the net value of E-Commerce and limit choices by the customer. The conferees note that the use of E-Commerce is in harmony with the goals of the Federal Acquisition and Streamlining Act of 1994 and will enhance government purchasing efficiency.

Retains language proposed by the House and stricken by the Senate requiring HUD to provide detailed descriptions of how funds identified for technical assistance, training, or management in the budget justifications will be utilized.

Inserts language amending the National Aeronautics and Space Act of 1958 to allow for insurance, indemnification, and liability protection for experimental aerospace vehicle developers through December 31, 2001.

Inserts language extending for two years and modifying NASA employee buyout authority.

# TITLE V—FILIPINO VETERANS' BENEFITS IMPROVEMENTS

The conference agreement bill includes a new title that provides more equitable veterans benefits for certain Filipino Army veterans who served with the U.S. Armed Forces and under the U.S. Command during World War II. Under current law these veterans are entitled to compensation from the VA but at a lower level than other veterans and medical care only for service-connected condi-

tions. The changes covered by this amendment include equal disability payments and health care services for those covered veterans who live permanently and legally in the United States, and expanded outpatient healthcare at the Manila VA Outpatient Clinic for these covered veterans who live in the Philippines.

During WW II the Philippines was a Commonwealth of the United States and members of the Commonwealth Army and the New Philippine Scouts were called into service with the U.S. Armed Forces at the order of President Roosevelt. The bravery, sacrifice and commitment of these soldiers to the cause of winning the war are legendary. In 1946, Congress provided \$200,000,000 to the Philippines to create their own veterans benefit system and passed the Rescissions Act of 1946 which authorized disability pay at a rate for Filipino veterans significantly below that paid to American veterans, except to the Old Philippine Scouts, who to date receive compensation and medical benefits equal to U.S. veterans. The language added by this title restores a portion of these benefits to the small number of these veterans who live in the U.S. The changes include:

Increasing the disability benefits compensation paid to such veterans who live legally and permanently in the United States to full parity with benefits paid to other entitled veterans. Currently these benefits are paid at a 50 percent level. This affects only the level of benefits paid. No new eligibility is established under this section

Filipino veterans who already receive medical care at VA facilities for service-connected conditions are made eligible for full medical and related care at medical care facilities on the same basis as other U.S. veterans. Currently these veterans are only eligible for care for treatment of service-connected problems.

Veterans living in the Philippines who already receive medical care at a VA facility for service-connected conditions are made eligible for full medical care at the VA outpatient facility in the Philippines.

The conferees believe that recognizing the service of these loyal veterans through enactment of a more equitable benefit structure is long overdue. Because of the advanced age of this small population, enacting legislation has been given special consideration in this conference agreement.

#### CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2001 recommended by the Committee of Conference, with comparisons to the fiscal year 2000 amount, the 2001 budget estimates, and the House and Senate bills for 2001 follow:

[In thousands of dollars]

\$99,736,845
109,783,099
103,101,836
107,507,953
107,341,317

-2,441,782

House bill, fiscal year 2001 ... Senate bill, fiscal year 2001 .....

+4.239.481-166.636

DEPARTMENTS OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOP-MENT, AND INDEPENDENT AGENCIES APPROPRIATIONS

Following is explanatory language on H.R. 5482, as introduced on October 18, 2000.

The conferees on H.R. 4635 agree with the matter included in H.R. 5482 and enacted in this conference report by reference and the following description of it. This bill was developed through negotiations by the conferees on the differences in the House and Senate versions of H.R. 4635. References in the following description to the "conference agreement" mean the matter included in the introduced bill enacted by this conference report. References to the House bill mean the House passed version of H.R. 4635. References to the Senate bill or Senate reported bill mean the Senate reported version of H.R. 4635, not the Senate passed version of H.R. 4635, unless otherwise stated.

#### ENERGY AND WATER DEVELOPMENT APPROPRIATIONS

The conference agreement would enact the provisions of H.R. 5483 as introduced on October 18, 2000. The text of that bill follows:

A BILL Making appropriations for energy and water development for the fiscal year ending September 30, 2001, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for energy and water development for the fiscal year ending September 30, 2001, and for other purposes, namely:

#### TITLEI

#### DEPARTMENT OF DEFENSE—CIVIL DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The following appropriations shall be expended under the direction of the Secretary of the Army and the supervision of the Chief of Engineers for authorized civil functions of the Department of the Army pertaining to rivers and harbors, flood control, beach erosion, and related purposes.

#### GENERAL INVESTIGATIONS

For expenses necessary for the collection and study of basic information pertaining to river and harbor, flood control, shore protection, and related projects, restudy of authorized projects, miscellaneous investigations, and, when authorized by laws, surveys and detailed studies and plans and specifications of projects prior to construction, \$160,038,000, to remain available until expended: Provided, That in conducting the Southwest Valley Flood Damage Reduction Study, Albuquerque, New Mexico, the Secretary of the Army, acting through the Chief of Engineers, shall include an evaluation of flood damage reduction measures that would otherwise be excluded from the feasibility analysis based on policies regarding the frequency of flooding, the drainage areas, and the amount of runoff: Provided further, That the Secretary of the Army is directed to use \$750,000 of the funds appropriated herein to continue preconstruction engineering and design for the Murrieta Creek, California flood protection and environmental restoration project in accordance with Alternative 6, based on the Murrieta Creek feasibility report and environmental impact statement dated June 2000 at a total cost of \$90,866,000, with an estimated non-Federal cost of \$31.803.100.

#### CONSTRUCTION, GENERAL

For the prosecution of river and harbor, flood control, shore protection, and related projects authorized by laws; and detailed studies, and plans and specifications, of projects (including those for development with participation or under consideration for participation by States, local governments, or private groups) authorized or made eligible for selection by law (but such studies shall not constitute a commitment of the Government to construction), \$1,717,199,000, to remain available until expended, of which such sums as are necessary for the Federal share of construction costs for facilities under the Dredged Material Disposal Facilities program shall be derived from the Harbor Maintenance Trust Fund, as authorized by Public Law 104-303; and of which such sums as are necessary pursuant to Public Law 99-662 shall be derived from the Inland Waterways Trust Fund, for one-half of the costs of construction and rehabilitation of inland waterways projects, including rehabilitation costs for the Lock and Dam 12, Mississippi River, Iowa; Lock and Dam 24, Mississippi River, Illinois and Missouri: Lock and Dam 3, Mississippi River, Minnesota; and London Locks and Dam, and Kanawha River, West Virginia, projects; and of which funds are provided for the following projects in the amounts specified:

Elba, Alabama, \$8,400,000;

Geneva, Alabama, \$10,800,000;

San Gabriel Basin Groundwater Restoration, California, \$25,000,000;

San Timoteo Creek (Santa Ana River Mainstem), California, \$5,000,000;

Indianapolis Central Waterfront, Indiana, \$10,000,000;

Southern and Eastern Kentucky, Kentucky,

\$4,000,000; Clover Fork, Middlesboro, City of Cumberland, Town of Martin, Pike County (including Levisa Fork and Tug Fork Tributaries), Bell County, Martin County, and Harlan County, Kentucky, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, Kentucky, \$20,000,000: Provided, That the Secretary of the Army, acting through the Chief of Engineers, is directed to proceed with planning, engineering, design and construction of the Town of Martin, Kentucky, element, in accordance with Plan A as set forth in the preliminary draft Detailed Project Report, Appendix T of the General Plan of the Huntington District

Jackson County, Mississippi, \$2,000,000;

Bosque and Leon Rivers, Texas, \$4,000,000;

Upper Mingo County (including Mingo County Tributaries), Lower Mingo County (Kermit), Wayne County, and McDowell County, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project in West Virginia, \$4,100,000:

Provided further, That using \$900,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to undertake the Bowie County Levee project, which is defined as Alternative B Local Sponsor Option, in the Corps of Engineers document entitled Bowie County Local Flood Protection, Red River, Texas, Project Design Memorandum No. 1, Bowie County Levee, dated April 1997: Provided further, That no part of any appropriation contained in this Act shall be expended or obligated to begin Phase II of the John Day Drawdown study or to initiate a study of the drawdown of McNary Dam unless authorized by law: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed hereafter to use available Construction, General funds in addition to

mated Federal cost of \$59,063,900 and an esti-funding provided in Public Law 104-206 to complete design and construction of the Red River Regional Visitors Center in the vicinity of Shreveport, Louisiana at an estimated cost of \$6,000,000: Provided further, That section 101(b)(4) of the Water Resources Development Act of 1996, is amended by striking "total cost of \$8,600,000" and inserting in lieu thereof "total cost of \$15,000,000": Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use \$3,000,000 of the funds appropriated herein for additional emergency bank stabilization measures at Galena, Alaska under the same terms and conditions as previous emergency bank stabilization work undertaken at Galena, Alaska pursuant to Section 116 of Public Law 99-190: Provided further, That with \$4,200,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue construction of the Brunswick County Beaches, North Carolina-Ocean Isle Beach portion in accordance with the General Reevaluation Report approved by the Chief of Engineers on May 15, 1998: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use not to exceed \$300,000 of funds appropriated herein to reimburse the City of Renton, Washington, at full Federal expense, for mitigation expenses incurred for the flood control project constructed pursuant to 33 U.S.C. 701s at Cedar River, City of Renton, Washington as a result of overdredging by the Army Corps of Engineers: Provided further, That \$2,000,000 of the funds appropriated herein shall be available for stabilization and renovation of Lock and Dam 10, Kentucky River, Kentucky, subject to enactment of authorization by law: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use \$3,000,000 of the funds appropriated herein to initiate construction of a navigation project Kaumalapau Harbor, Hawaii: Provided further, That the Secretary of the Army is directed to use \$2,000,000 of the funds provided herein for Dam Safety and Seepage/Stability Correction Program to design and construct seepage control features at Waterbury Dam, Winooski River, Vermont: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to design and construct barge lanes at the Houston-Galveston Navigation Channels, Texas, project, immediately adjacent to either side of the Houston Ship Channel, from Bolivar Roads to Morgan Point, to a depth of 12 feet with prior years' Construction, General carry-over funds: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, may use Construction, General funding as directed in Public Law 105-62 and Public Law 105-245 to initiate construction of an emergency outlet from Devils Lake, North Dakota, to the Sheyenne River, except that the funds shall not become available unless the Secretary of the Army determines that an emergency (as defined in section 102 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122)) exists with respect to the emergency need for the outlet and reports to Congress that the construction is technically sound, economically justified, and environmentally acceptable, and in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.): Provided further, That the economic justification for the emergency outlet shall be prepared in accordance with the principles and guidelines for economic evaluation as required by regulations and procedures of the Army Corps of Engineers for all flood control projects, and that the economic justification be fully described, including the analysis of the benefits and costs, in the project plan documents: Provided further, That the plans for the

emergency outlet shall be reviewed and, to be effective, shall contain assurances provided by the Secretary of State, after consultation with the International Joint Commission, that the project will not violate the requirements or intent of the Treaty Between the United States and Great Britain Relating to Boundary Waters Between the United States and Canada, signed at Washington, January 11, 1909 (36 Stat. 2448; TS 548) (commonly known as the "Boundary Waters Treaty of 1909"): Provided further. That the Secretary of the Army shall submit the final plans and other documents for the emergency outlet to Congress: Provided further, That no funds made available under this Act or any other Act for any fiscal year may be used by the Secretary of the Army to carry out the portion of the feasibility study of the Devils Lake Basin, North Dakota, authorized under the Energy and Water Development Appropriations Act, 1993 (Public Law 102-377), that addresses the needs of the area for stabilized lake levels through inlet controls, or to otherwise study any facility or carry out any activity that would permit the transfer of water from the Missouri River Basin into Devils Lake: Provided further, That within available funds, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue construction of the Rio Grand de Manati flood control project at Barceloneta, Puerto Rico, which was initiated under the authority of the Section 205 program prior to being specifically authorized in the Water Resources Development Act of 1999.

FLOOD CONTROL, MISSISSIPPI RIVER AND TRIBUTARIES, ARKANSAS, ILLINOIS, KENTUCKY, LOUISIANA, MISSISSIPPI, MISSOURI, AND TENNESSEE For expenses necessary for prosecuting work of flood control, and rescue work, repair, restoration, or maintenance of flood control projects threatened or destroyed by flood, as authorized by law (33 U.S.C. 702a and 702g-1), \$347,731,000, to remain available until expended: Provided, That the Secretary of the Army is directed to complete his analysis and determination of Federal maintenance of the Greenville Inner Harbor, Mississippi navigation project in accordance with section 509 of the Water Resources Development Act of 1996.

#### OPERATION AND MAINTENANCE, GENERAL

For expenses necessary for the preservation, operation, maintenance, and care of existing river and harbor, flood control, and related works, including such sums as may be necessary for the maintenance of harbor channels provided by a State, municipality or other public agency, outside of harbor lines, and serving essential needs of general commerce and navigation; surveys and charting of northern and northwestern lakes and connecting waters; clearing and straightening channels; and reobstructions navigation. movalofto\$1,901,959,000, to remain available until expended, of which such sums as become available in the Harbor Maintenance Trust Fund, pursuant to Public Law 99-662, may be derived from that Fund, and of which such sums as become available from the special account established by the Land and Water Conservation Act of 1965, as amended (16 U.S.C. 4601), may be derived from that account for construction, operation, and maintenance of outdoor recreation facilities: Provided, That the Secretary of the Army, acting through the Chief of Engineers, from the funds provided herein for the operation and maintenance of New York Harbor, New York, is directed to prepare the necessary documentation and initiate removal of submerged obstructions and debris in the area previously marked by the Ambrose Light Tower in the interest of safe navigation: Provided further, That the Secretary of the Army is directed to use \$500,000 of funds appropriated herein to remove and reinstall the docks and causeway, in kind, at Astoria East Boat Basin, Oregon: Provided further, That \$500,000 of the funds appropriated herein for the Ohio River Open Channel, Illinois, Kentucky, Indiana, Ohio, West Virginia, and Pennsylvania, project, are provided for the Secretary of the Army, acting through the Chief of Engineers, to dredge a channel from the mouth of Wheeling Creek to Tunnel Green Park in Wheeling, West Virginia.

#### REGULATORY PROGRAM

For expenses necessary for administration of laws pertaining to regulation of navigable waters and wetlands, \$125,000,000, to remain available until expended: Provided, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use funds appropriated herein to: (1) by March 1, 2001, supplement the report, Cost Analysis For the 1999 Proposal to Issue and Modify Nationwide Permits, to reflect the Nationwide Permits actually issued on March 9, 2000, including changes in the acreage limits, preconstruction notification requirements and general conditions between the rule proposed on July 21, 1999, and the rule promulgated and published in the Federal Register; (2) after consideration of the cost analysis for the 1999 proposal to issue and modify nationwide permits and the supplement prepared pursuant to this Act and by September 30, 2001, prepare, submit to Congress and publish in the Federal Register a Permit Processing Management Plan by which the Corps of Engineers will handle the additional work associated with all projected increases in the number of individual permit applications and preconstruction notifications related to the new and replacement permits and general conditions. The Permit Processing Management Plan shall include specific objective goals and criteria by which the Corps of Engineers' progress towards reducing any permit backlog can be measured; (3) beginning on December 31, 2001, and on a biannual basis thereafter, report to Congress and publish in the Federal Register, an analysis of the performance of its program as measured against the criteria set out in the Permit Processing Management Plan; (4) implement a 1-year pilot program to publish quarterly on the U.S. Army Corps of Engineer's Regulatory Program website all Regulatory Analysis and Management Systems (RAMS) data for the South Pacific Division and North Atlantic Division beginning within 30 days of the enactment of this Act; and (5) publish in Division Office websites all findings, rulings, and decisions rendered under the administrative appeals process for the Corps of Engineers Regulatory Program as established in Public Law 106-60: Provided further, That, through the period ending on September 30, 2003, the Corps of Engineers shall allow any appellant to keep a verbatim record of the proceedings of the appeals conference under the aforementioned administrative appeals process: Provided further, That within 30 days of the enactment of this Act, the Secretary of the Army, acting through the Chief of Engineers, shall require all U.S. Army Corps of Engineers Divisions and Districts to record the date on which a section 404 individual permit application or nationwide permit notification is filed with the Corps of Engineers: Provided further, That the Corps of Engineers, when reporting permit processing times, shall track both the date a permit application is first received and the date the application is considered complete, as well as the reason that the application is not considered complete upon first submission.

### $FORMERLY\ UTILIZED\ SITES\ REMEDIAL\ ACTION\\ PROGRAM$

For expenses necessary to clean up contamination from sites throughout the United States resulting from work performed as part of the Nation's early atomic energy program, \$140,000,000, to remain available until expended.

GENERAL EXPENSES

For expenses necessary for general administration and related functions in the Office of the Chief of Engineers and offices of the Division Engineers; activities of the Coastal Engineering Research Board, the Humphreys Engineer Center Support Activity, the Water Resources Support Center, and headquarters support functions at the USACE Finance Center, \$152,000,000, to remain available until expended: Provided, That no part of any other appropriation provided in title I of this Act shall be available to fund the activities of the Office of the Chief of Engineers or the executive direction and management activities of the division offices: Provided further, That none of these funds shall be available to support an office of congressional affairs within the executive office  $of\ the\ Chief\ of\ Engineers.$ 

#### REVOLVING FUND

Amounts in the Revolving Fund are available for the costs of relocating the U.S. Army Corps of Engineers headquarters to office space in the General Accounting Office headquarters building in Washington, D.C.

#### ADMINISTRATIVE PROVISIONS

Appropriations in this title shall be available for official reception and representation expenses (not to exceed \$5,000); and during the current fiscal year the Revolving Fund, Corps of Engineers, shall be available for purchase (not to exceed 100 for replacement only) and hire of passenger motor vehicles.

### $GENERAL\ PROVISIONS$

#### CORPS OF ENGINEERS—CIVIL

SEC. 101. (a) The Secretary of the Army shall enter into an agreement with the City of Grand Prairie, Texas, wherein the City agrees to assume all of the responsibilities of the Trinity River Authority of Texas under Contract No. DACW63-76-C-0166, other than financial responsibilities, except as provided for in subsection (c) of this section. The Trinity River Authority shall be relieved of all of its financial responsibilities under the Contract as of the date the Secretary of the Army enters into the agreement with the City.

(b) In consideration of the agreement referred

(b) In consideration of the agreement referred to in subsection (a), the City shall pay the Federal Government a total of \$4,290,000 in two installments, one in the amount of \$2,150,000, which shall be due and payable no later than December 1, 2000, and one in the amount of \$2,140,000, which shall be due and payable no later than December 1, 2003.

(c) The agreement executed pursuant to subsection (a) shall include a provision requiring the City to assume all costs associated with operation and maintenance of the recreation facilities included in the Contract referred to in that subsection.

SEC. 102. Agreements proposed for execution by the Assistant Secretary of the Army for Civil Works or the United States Army Corps of Engineers after the date of the enactment of this Act pursuant to section 4 of the Rivers and Harbor Act of 1915, Public Law 64–291; section 11 of the River and Harbor Act of 1925. Public Law 68-585; the Civil Functions Appropriations Act, 1936, Public Law 75-208; section 215 of the Flood Control Act of 1968, as amended, Public Law 90-483; sections 104, 203, and 204 of the Water Resources Development Act of 1986, as amended (Public Law 99-662); section 206 of the Water Resources Development Act of 1992, as amended, Public Law 102-580; section 211 of the Water Resources Development Act of 1996, Public Law 104-303, and any other specific project authority, shall be limited to credits and reimbursements per project not to exceed \$10,000,000 in each fiscal year, and total credits and reimbursements for all applicable projects not to exceed \$50,000,000 in each fiscal year.

SEC. 103. The Secretary of the Army, acting through the Chief of Engineers, is authorized to construct the locally preferred plan for flood control, environmental restoration and recreation, Murrieta Creek, California, described as Alternative 6, based on the Murrieta Creek Feasibility Report and Environmental Impact Statement dated October 2000, at a total cost of \$89,850,000, with an estimated Federal cost of \$57,735,000 and an estimated non-Federal cost of \$32,115,000.

Sec. 104. St. Georges Bridge, Delaware.— None of the funds made available by this Act may be used to carry out any activity relating to closure or removal of the St. Georges Bridge across the Chesapeake and Delaware Canal, Delaware, including a hearing or any other activity relating to preparation of an environmental impact statement concerning the closure or removal.

SEC. 105. Within available funds under title I, the Secretary of the Army, acting through the Chief of Engineers, shall provide up to \$7,000,000 to replace and upgrade the dam in Kake, Alaska which collapsed July 2000, to provide drinking water and hydroelectricity.

# TITLE II DEPARTMENT OF THE INTERIOR CENTRAL UTAH PROJECT

CENTRAL UTAH PROJECT COMPLETION ACCOUNT

For carrying out activities authorized by the Central Utah ProjectCompletion \$38,724,000, to remain available until expended. of which \$19,158,000 shall be deposited into the Utah Reclamation Mitigation and Conservation Account: Provided, That of the amounts deposited into that account, \$5,000,000 shall be considered the Federal contribution authorized by paragraph 402(b)(2) of the Central Utah Project Completion Act and \$14,158,000 shall be available to the Utah Reclamation Mitigation and Conservation Commission to carry out activities authorized under that Act.

In addition, for necessary expenses incurred in carrying out related responsibilities of the Secretary of the Interior, \$1,216,000, to remain available until expended.

#### BUREAU OF RECLAMATION

The following appropriations shall be expended to execute authorized functions of the Bureau of Reclamation:

#### WATER AND RELATED RESOURCES

#### (INCLUDING TRANSFER OF FUNDS)

For management, development, and restoration of water and related natural resources and for related activities, including the operation, maintenance and rehabilitation of reclamation and other facilities, participation in fulfilling related Federal responsibilities to Native Americans, and related grants to, and cooperative and other agreements with. State and local governments. Indian tribes, and others, \$678,450,000, to remain available until expended, of which \$1.916.000 shall be available for transfer to the Colorado River Basin Fund and \$39,467,000 shall be available for transfer to the Lower Colorado River Basin Development Fund: of which such amounts as may be necessary may be advanced to the Colorado River Dam Fund: of which \$16,000,000 shall be for on-reservation water development, feasibility studies, and related administrative costs under Public Law 106-163: of which not more than 25 percent of the amount provided for drought emergency assistance may be used for financial assistance for the preparation of cooperative drought contingency plans under title II of Public Law 102-250; and of which not more than \$500,000 is for high priority projects which shall be carried out by the Youth Conservation Corps, as authorized by 16 U.S.C. 1706: Provided, That such transfers may be increased or decreased within the overall

appropriation under this heading: Provided further, That of the total appropriated, the amount for program activities that can be financed by the Reclamation Fund or the Bureau of Reclamation special fee account established by 16 U.S.C. 4601-6a(i) shall be derived from that Fund or account: Provided further. That funds contributed under 43 U.S.C. 395 are available until expended for the purposes for which contributed: Provided further, That funds advanced under 43 U.S.C. 397a shall be credited to this account and are available until expended for the same purposes as the sums appropriated under this heading: Provided further, That funds available for expenditure for the Departmental Irrigation Drainage Program may be expended by the Bureau of Reclamation for site remediation on a non-reimbursable basis: Provided further, That section 301 of Public Law 102-250, Reclamation States Emergency Drought Relief Act of 1991, as amended, is amended further by inserting "2000, and 2001" in lieu of "and 2000". Provided further, That the amount authorized for Indian municipal, rural, and industrial water features by section 10 of Public Law 89-108, as amended by section 8 of Public Law 99-294, section 1701(b) of Public Law 102-575, Public Law 105-245, and Public Law 106-60 is increased by \$2,000,000 (October 1998 prices): Provided further, That the amount authorized for Minidoka Project North Side Pumping Division, Idaho, by Section 5 of Public Law 81-864, is increased by \$2,805,000: Provided further, That the Reclamation Safety of Dams Act of 1978 (43 U.S.C. 509) is amended as follows: (1) by inserting in Section 4(c) after "1984," and before "costs" the following: "and the additional \$95,000,000 further authorized to be appropriated by amendments to that Act in 2000,"; (2) by inserting in section 5 after "levels)," and before "plus" the following: "and, effective October 1, 2000, not to exceed an additional \$95,000,000 (October 1, 2000, price levels),''; and (3) by striking "sixty days (which" and all that follows through "day certain" and inserting '30 calendar days''.

### $\begin{array}{c} BUREAU\ OF\ RECLAMATION\ LOAN\ PROGRAM\\ ACCOUNT \end{array}$

For the cost of direct loans and/or grants, \$8,944,000, to remain available until expended, as authorized by the Small Reclamation Projects Act of August 6, 1956, as amended (43 U.S.C. 422a-422l): Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That these funds are available to subsidize gross obligations for the principal amount of direct loans not to exceed \$27,000,000.

In addition, for administrative expenses necessary to carry out the program for direct loans and/or grants, \$425,000, to remain available until expended: Provided, That of the total sums appropriated, the amount of program activities that can be financed by the Reclamation Fund shall be derived from that Fund.

CENTRAL VALLEY PROJECT RESTORATION FUND For carrying out the programs, projects, plans, and habitat restoration, improvement, and acquisition provisions of the Central Valley Project Improvement Act, \$38,382,000, to be derived from such sums as may be collected in the Central Valley Project Restoration Fund pursuant to sections 3407(d), 3404(c)(3), 3405(f), and 3406(c)(1) of Public Law 102–575, to remain available until expended: Provided, That the Bureau of Reclamation is directed to assess and collect the full amount of the additional mitigation and restoration payments authorized by section 3407(d) of Public Law 102–575.

#### $POLICY\ AND\ ADMINISTRATION$

For necessary expenses of policy, administration, and related functions in the office of the Commissioner, the Denver office, and offices in the five regions of the Bureau of Reclamation, to remain available until expended, \$50,224,000, to be derived from the Reclamation Fund and be nonreimbursable as provided in 43 U.S.C. 377: Provided, That no part of any other appropriation in this Act shall be available for activities or functions budgeted as policy and administration expenses.

#### ADMINISTRATIVE PROVISION

Appropriations for the Bureau of Reclamation shall be available for purchase of not to exceed four passenger motor vehicles for replacement only.

#### GENERAL PROVISIONS

#### DEPARTMENT OF THE INTERIOR

SEC. 201. None of the funds appropriated or otherwise made available by this or any other Act may be used to pay the salaries and expenses of personnel to purchase or lease water in the Middle Rio Grande or the Carlsbad Projects in New Mexico unless said purchase or lease is in compliance with the purchase requirements of section 202 of Public Law 106-60.

SEC. 202. Funds under this title for Drought Emergency Assistance shall be made available primarily for leasing of water for specified drought related purposes from willing lessors, in compliance with existing State laws and administered under State water priority allocation. Such leases may be entered into with an option to purchase: Provided, That such purchase is approved by the State in which the purchase takes place and the purchase does not cause economic harm within the State in which the purchase is made.

SEC. 203. Beginning in fiscal year 2001 and thereafter, the Secretary of the Interior shall assess and collect annually from Central Valley Project (CVP) water and power contractors the sum of \$540,000 (June 2000 price levels) and remit, without further appropriation, amount collected annually to the Trinity Public Utilities District (TPUD). This assessment shall be payable 70 percent by CVP Preference Power Customers and 30 percent by CVP Water Contractors. The CVP Water Contractor share of this assessment shall be collected by the Secretary through established Bureau of Reclamation (Reclamation) Operation and Maintenance ratesetting practices. The CVP Power Contractor share of this assessment shall be assessed by Reclamation to the Western Area Power Administration, Sierra Nevada Region (Western), and collected by Western through established power ratesetting practices.

SEC. 204. (a) IN GENERAL.—For fiscal year 2001 and each fiscal year thereafter, the Secretary of the Interior shall continue funding, from power revenues, the activities of the Glen Canyon Dam Adaptive Management Program as authorized by section 1807 of the Grand Canyon Protection Act of 1992 (106 Stat. 4672), at not more than \$7,850,000 (October 2000 price level), adjusted in subsequent years to reflect changes in the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor.

(b) VOLUNTARY CONTRIBUTIONS.—Nothing in this section precludes the use of voluntary financial contributions (except power revenues) to the Adaptive Management Program that may be authorized by law.

(c) ACTIVITIES TO BE FUNDED.—The activities to be funded as provided under subsection (a) include activities required to meet the requirements of section 1802(a) and subsections (a) and (b) of section 1805 of the Grand Canyon Protection Act of 1992 (106 Stat. 4672), including the requirements of the Biological Opinion on the Operation of Glen Canyon Dam and activities required by the Programmatic Agreement on Cultural and Historic Properties, to the extent

that the requirements and activities are consistent with the Grand Canyon Protection Act of 1992 (106 Stat. 4672)

(d) ADDITIONAL FUNDING.—To the extent that funding under subsection (a) is insufficient to pay the costs of the monitoring and research and other activities of the Glen Canyon Dam Adaptive Management Program, the Secretary of the Interior may use funding from other sources, including funds appropriated for that purpose. All such appropriated funds shall be nonreimbursable and nonreturnable.

SEC. 205. The Secretary of the Interior is authorized and directed to use not to exceed \$1,000,000 of the funds appropriated under title II to refund amounts received by the United States as payments for charges assessed by the Secretary prior to January 1, 1994 for failure to file certain certification or reporting forms prior to the receipt of irrigation water, pursuant to sections 206 and 224(c) of the Reclamation Reform Act of 1982 (96 Stat. 1226, 1272; 43 U.S.C. 390ff, 390ww(c)), including the amount of associated interest assessed by the Secretary and paid to the United States pursuant to section 224(i) of the Reclamation Reform Act of 1982 (101 Stat. 1330–268; 43 U.S.C. 390ww(i)).

SEC. 206. CANYON FERRY RESERVOIR, MONTANA. (a) APPRAISALS.—Section 1004(c)(2)(B) of title X of division C of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999 (112 Stat. 2681–713; 113 Stat. 1501A–307) is amended—

(1) in clause (i), by striking "be based on" and inserting "use";

(2) in clause (vi), by striking "Notwithstanding any other provision of law," and inserting "To the extent consistent with the Uniform Appraisal Standards for Federal Land Acquisition," and

(3) by adding at the end the following:

- "(vii) APPLICABILITY.—This subparagraph shall apply to the extent that its application is practicable and consistent with the Uniform Appraisal Standards for Federal Land Acquisition."
- (b) TIMING.—Section 1004(f)(2) of title X of division C of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999 (112 Stat. 2681–714; 113 Stat. 1501A–308) is amended by inserting after "Act," the following: "in accordance with all applicable law."
- (c) Interest.—Section 1008(b) of title X of division C of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999 (112 Stat. 2681–717; 113 Stat. 1501A–310) is amended by striking paragraph (4).

SEC. 207. Beginning in fiscal year 2000 and thereafter, any amounts provided for the Newlands Water Rights Fund for purchasing and retiring water rights in the Newlands Reclamation Project shall be non-reimbursable.

SEC. 208. USE OF COLORADO-BIG THOMPSON PROJECT FACILITIES FOR NONPROJECT WATER.—
The Secretary of the Interior may enter into contracts with the city of Loveland, Colorado, or its Water and Power Department or any other agency, public utility, or enterprise of the city, providing for the use of facilities of the Colorado-Big Thompson Project, Colorado, under the Act of February 21, 1911 (43 U.S.C. 523), for—

(1) the impounding, storage, and carriage of nonproject water originating on the eastern slope of the Rocky Mountains for domestic, municipal, industrial, and other beneficial purposes; and

(2) the exchange of water originating on the eastern slope of the Rocky Mountains for the purposes specified in paragraph (1), using facilities associated with the Colorado-Big Thompson Project, Colorado.

SEC. 209. AMENDMENT TO IRRIGATION PROJECT CONTRACT EXTENSION ACT OF 1998.—(a) Section 2(a) of the Irrigation Project Contract Extension Act of 1998, Public Law 105–293, is amended by striking the date "December 31, 2000", and inserting in lieu thereof the date "December 31, 2003": and

(b) Subsection 2(b) of the Irrigation Project Contract Extension Act of 1998, Public Law 105– 293, is amended by—

(1) striking the phrase "not to go beyond December 31, 2001", and inserting in lieu thereof the phrase "not to go beyond December 31, 2003"; and

(2) striking the phrase "terminates prior to December 31, 2000", and inserting in lieu thereof "terminates prior to December 31, 2003".

SEC. 210. Section 202 of division B, title I, chapter 2 of Public Law 106-246 is amended by adding at the end the following: "This section shall be effective through September 30, 2001.".

SEC. 211. (a) Section 106 of the San Luis Rey Indian Water Rights Settlement Act (Public Law 100–675; 102 Stat. 4000 et seq.) is amended by adding at the end the following new subsection:

"(f) REQUIREMENTS TO FURNISH WATER, POWER CAPACITY, AND ENERGY.—Notwithstanding any other provision of law, in order to fulfill the trust responsibility to the Bands, the Secretary, acting through the Commissioner of Reclamation, shall permanently furnish annually the following:

"(1) WATER.—16,000 acre-feet of the water conserved by the works authorized by title II, for the benefit of the Bands and the local entities in accordance with the settlement agreement: Provided, That during construction of said works, the Indian Water Authority and the local entities shall receive 17 percent of any water conserved by said works up to a maximum of 16,000 acre-feet per year. The Indian Water Authority and the local entities shall pay their proportionate share of such costs as are provided by section 203(b) of title II or are agreed to by them.

"(2) POWER CAPACITY AND ENERGY.—Beginning on the date when conserved water from the works authorized by title II first becomes available, power capacity and energy through the Yuma Arizona Area Aggregate Power Managers (Yuma Area Contractors), at no cost and at no further expense to the United States, the Indian Water Authority, the Bands, and the local entities, in amounts sufficient to convey the water conserved pursuant to paragraph (1) from Lake Havasu through the Colorado River Aqueduct and to the places of use on the Bands' reservations or in the local entities' service areas in accordance with the settlement agreement. The Secretary, through a coterminous exhibit to Bureau of Reclamation Contract No. 6-CU-30-P1136, shall enter into an agreement with the Yuma Area Contractors which shall provide for furnishing annually and permanently said power capacity and energy by said Yuma Area Contractors at no cost and at no further expense to the United States, the Indian Water Authority the Bands and the local entities. The Secretary shall authorize the Yuma Area Contractors to utilize Federal project use power provided in Bureau of Reclamation Contracts num $bered \ \ 6-CU-30-P1136, \ \ 6-CU-30-P1137, \ \ and \ \ 6-$ CU-30-P1138 for the full range of purposes served by the Yuma Area Contractors, including the purpose of supplying the power capacity and energy to convey the conserved water referred to in paragraph (1), for so long as the Yuma Area Contractors meet their obligation to provide sufficient power capacity and energy for the conveyance of said conserved water. If for any reason the Yuma Area Contractors do not provide said power capacity and energy for the conveyance of said conserved water, then the Secretary shall furnish said power capacity and energy annually and permanently at the lowest rate assigned to project use power within the jurisdiction of the Bureau of Reclamation in accordance with Exhibit E 'Project Use Power' of the Agreement between Water and Power Resources Service, Department of the Interior, and Western Area Power Administration, Department of Energy (March 26, 1980).".

(b) Title II of the San Luis Rey Indian Water Rights Settlement Act (Public Law 100-675; 102 Stat. 4000 et seq.) is amended by adding at the end the following new section:

#### "SEC. 210. ANNUAL REPAYMENT INSTALLMENTS.

"During the period of planning, design, and construction of the works and during the period that the Indian Water Authority and the local entities receive up to 16,000 acre-feet of the water conserved by the works, the annual repayment installments provided in section 102(b) of the Colorado River Basin Salinity Control Act (Public Law 93–320; 88 Stat. 268) shall continue to be non-reimbursable. Nothing in this section shall affect the national obligation set forth in section 101(c) of such Act.".

SEC. 212. (a) DEFINITIONS.—For the purpose of this section, the term—

- (1) "Secretary" means the Secretary of the Interior;
- (2) "Sly Park Unit" means the Sly Park Dam and Reservoir, Camp Creek Diversion Dam and Tunnel, and conduits and canals as authorized under the American River Act of October 14, 1949 (63 Stat. 853), including those used to convey, treat, and store water delivered from Sly Park, as well as all recreation facilities thereto;
- (3) ''District'' means the El Dorado Irrigation District.
- (b) In GENERAL.—The Secretary shall, as soon as practicable after date of the enactment of this Act and in accordance with all applicable law, transfer all right, title, and interest in and to the Sty Park Unit to the District.
- (c) SALE PRICE.—The Secretary is authorized to receive from the District \$2,000,000 to relieve payment obligations and extinguish the debt under contract number 14-06-200-949IR3, and \$9,500,000 to relieve payment obligations and extinguish all debts associated with contracts numbered 14-06-200-7734, as amended by contracts numbered 14-06-200-4282A and 14-06-200-8536A. Notwithstanding the preceding sentence, the District shall continue to make payments required by section 3407(c) of Public Law 102-575 through year 2029.
- (d) CREDIT REVENUE TO PROJECT REPAY-MENT.—Upon payment authorized under subsection (b), the amount paid shall be credited toward repayment of capital costs of the Central Valley Project in an amount equal to the associated undiscounted obligation.
- (e) FUTURE BENEFITS.—Upon payment, the Sly Park Unit shall no longer be a Federal reclamation project or a unit of the Central Valley Project, and the District shall not be entitled to receive any further reclamation benefits.
- (f) LIABILITY.—Except as otherwise provided by law, effective on the date of conveyance of the Sly Park Unit under this Act, the United States shall not be liable for damages of any kind arising out of any act, omission, or occurrence based on its prior ownership or operation of the conveyed property.
- (g) Costs.—All costs, including interest charges, associated with the Project that have been included as a reimbursable cost of the Central Valley Project are declared to be non-reimbursable and nonreturnable.

# TITLE III DEPARTMENT OF ENERGY ENERGY PROGRAMS ENERGY SUPPLY

For Department of Energy expenses including the purchase, construction and acquisition of plant and capital equipment, and other expenses necessary for energy supply, and uranium supply and enrichment activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seg.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; and the purchase of not to exceed 17 passenger motor vehicles for replacement only, \$660,574,000 to remain available until expended: Provided, That, in addition, royalties received to compensate the Department of Energy for its participation in the First-Of-A-Kind-Engineering program shall be credited to this account to be available until September 30, 2002, for the purposes of Nuclear Energy, Science and Technology activities.

#### NON-DEFENSE ENVIRONMENTAL MANAGEMENT

For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other expenses necessary for non-defense environmental management activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction or expansion, \$277,812,000, to remain available until expended.

### URANIUM FACILITIES MAINTENANCE AND REMEDIATION

#### (INCLUDING TRANSFER OF FUNDS)

For necessary expenses to maintain, decontaminate, decommission, and otherwise remediate uranium processing facilities, \$393,367,000, of which \$345,038,000 shall be derived from the Uranium Enrichment Decontamination and Decommissioning Fund, all of which shall remain available until expended: Provided, That \$72,000,000 of amounts derived from the Fund for such expenses shall be available in accordance with title X, subtitle A, of the Energy Policy Act of 1992.

#### SCIENCE

For Department of Energy expenses including the purchase, construction and acquisition of plant and capital equipment, and other expenses necessary for science activities in carruing out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or facility or for plant or facility acquisition, construction, or expansion, and purchase of not to exceed 58 passenger motor vehiclesfor replacement \$3,186,352,000, to remain available until expended.

#### NUCLEAR WASTE DISPOSAL

For nuclear waste disposal activities to carry out the purposes of Public Law 97-425, as amended, including the acquisition of real property or facility construction or expansion. \$191.074.000, to remain available until expended and to be derived from the Nuclear Waste Fund: Provided, That not to exceed \$2,500.000 may be provided to the State of Nevada solely for expenditures, other than salaries and expenses of State employees, to conduct scientific oversight responsibilities pursuant to the Nuclear Waste Policy Act of 1982, Public Law 97-425, as amended: Provided further, That \$6,000,000 shall be provided to affected units of local governments, as defined in Public Law 97-425, to conduct appropriate activities pursuant to the Act: Provided further, That the distribution of the funds as determined by the units of local government shall be approved by the Department of Energy: Provided further, That the funds for the State of Nevada shall be made available solely to the Nevada Division of Emergency Management by direct payment and units of local government by

direct payment: Provided further, That within 90 days of the completion of each Federal fiscal year, the Nevada Division of Emergency Management and the Governor of the State of Nevada and each local entity shall provide certification to the Department of Energy that all funds expended from such payments have been expended for activities authorized by Public Law 97-425 and this Act. Failure to provide such certification shall cause such entity to be prohibited from any further funding provided for similar activities: Provided further, That none of the funds herein appropriated may be: (1) used directly or indirectly to influence legislative action on any matter pending before Congress or a State legislature or for lobbying activity as provided in 18 U.S.C. 1913; (2) used for litigation expenses; or (3) used to support multi-State efforts or other coalition building activities inconsistent with the restrictions contained in this Act: Provided further, That all proceeds and recoveries by the Secretary in carrying out activities authorized by the Nuclear Waste Policy Act of 1982 in Public Law 97-425, as amended, including but not limited to, any proceeds from the sale of assets, shall be available without further appropriation and shall remain available until expended.

#### DEPARTMENTAL ADMINISTRATION

For salaries and expenses of the Department of Energy necessary for departmental administration in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the hire of passenger motor vehicles and official reception and representation expenses (not to exceed \$35,000), \$226,107,000, to remain available until expended, plus such additional amounts as necessary to cover increases in the estimated amount of cost of work for others notwithstanding the provisions of the Anti-Deficiency Act (31 U.S.C. 1511 et seq.): Provided, That such increases in cost of work are offset by revenue increases of the same or greater amount, to remain available until expended: Provided further, That moneys received by the Department for miscellaneous revenues estimated to total \$151,000,000 in fiscal year 2001 may be retained and used for operating expenses within this account, and may remain available until expended, as authorized by section 201 of Public Law 95-238, notwithstanding the provisions of 31 U.S.C. 3302: Provided further. That the sum herein appropriated shall be reduced by the amount of miscellaneous revenues received during fiscal year 2001 so as to result in a final fiscal year 2001 appropriation from the General Fund estimated at not more than \$75,107,000.

#### Office of the Inspector General

For necessary expenses of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$31,500,000, to remain available until expended.

ATOMIC ENERGY DEFENSE ACTIVITIES

### NATIONAL NUCLEAR SECURITY ADMINISTRATION

#### WEAPONS ACTIVITIES

For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other incidental expenses necessary for atomic energy defense weapons activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; and the purchase of passenger motor vehicles (not to exceed 12 for replacement only), \$5,015,186,000, to remain availableuntilexpended: Provided. That.\$130,000,000 shall be immediately available for Project 96-D-111, the National Ignition Facility at Lawrence Livermore National Laboratory: Provided further, That \$69,100,000 shall be available only upon a certification by the Ad-

ministrator of the National Nuclear Security Administration to the Congress after March 31. 2001, that: (a) includes a recommendation on an appropriate path forward for the project; (b) certifies all established project and scientific milestones have been met on schedule and on cost; (c) certifies the first and second quarter project reviews in fiscal year 2001 determined the project to be on schedule and cost: (d) includes a study of requirements for and alternatives to a 192 beam ignition facility for maintaining the safety and reliability of the current nuclear weapons stockpile; (e) certifies an integrated cost-schedule earned-value project control system has been fully implemented; and (f) includes a 5-year budget plan for the stockpile stewardship program.

#### DEFENSE NUCLEAR NONPROLIFERATION

For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other incidental expenses necessary for atomic energy defense. Defense Nuclear Nonproliferation activities, in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, \$874,196,000, to remain available until expended: Provided, That not to exceed \$7,000 may be used for official reception and representation expenses for national security and nonproliferation (including transparency) activities in fiscal year 2001.

#### NAVAL REACTORS

For Department of Energy expenses necessary for naval reactors activities to carry out the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition (by purchase, condemnation, construction, or otherwise) of real property, plant, and capital equipment, facilities, and facility expansion, \$690,163,000, to remain available until expended. OFFICE OF THE ADMINISTRATOR

For necessary expenses of the Office of the Administrator of the National Nuclear Security Administration, including official reception and representation expenses (not to exceed \$5,000), \$10,000,000, to remain available until expended.

#### OTHER DEFENSE RELATED ACTIVITIES

### $\begin{array}{c} \textit{DEFENSE ENVIRONMENTAL RESTORATION AND} \\ \textit{WASTE MANAGEMENT} \end{array}$

For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other expenses necessary for atomic energy defense environmental restoration and waste management activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; and the purchase of 30 passenger motor vehiclesfor replacement \$4,974,476,000, to remain available until ex-

#### Defense Facilities Closure Projects

For expenses of the Department of Energy to accelerate the closure of defense environmental management sites, including the purchase, construction and acquisition of plant and capital equipment and other necessary expenses, \$1,082,714,000, to remain available until expended.

#### Defense Environmental Management Privatization

For Department of Energy expenses for privatization projects necessary for atomic energy defense environmental management activities authorized by the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), \$65,000,000, to remain available until expended.

#### OTHER DEFENSE ACTIVITIES

For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other expenses necessary for atomic energy defense, other defense activities, in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, \$585,755,000, to remain available until expended, of which \$17,000,000 shall be for the Department of Energy Employees Compensation Initiative upon enactment of authorization legislation into law.

#### DEFENSE NUCLEAR WASTE DISPOSAL

For nuclear waste disposal activities to carry out the purposes of Public Law 97-425, as amended, including the acquisition of real property or facility construction or expansion, \$200,000,000, to remain available until expended.

#### POWER MARKETING ADMINISTRATIONS

#### BONNEVILLE POWER ADMINISTRATION FUND

Expenditures from the Bonneville Power Administration Fund, established pursuant to Public Law 93-454, are approved for the Nez Perce Tribe Resident Fish Substitution Program, the Cour D'Alene Tribe Trout Production facility, and for official reception and representation expenses in an amount not to exceed \$1,500.

During fiscal year 2001, no new direct loan obligations may be made. Section 511 of the Energy and Water Development Appropriations Act, 1997 (Public Law 104–206), is amended by striking the last sentence and inserting "This authority shall expire January 1, 2003.".

### OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION

For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy, including transmission wheeling and ancillary services, pursuant to the provisions of section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the southeastern power area, \$3,900,000, to remain available until expended: in addition, notwithstanding the provisions of 31 U.S.C. 3302, amounts collected by the Southeastern Power Administration pursuant to the Flood Control Act to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures as follows: for fiscal year 2001, up to \$34,463,000; for fiscal year 2002, year 2003, \$26,463,000; fiscal for \$20,000,000; and for fiscal year 2004, up to \$15,000,000

# OPERATION AND MAINTENANCE, SOUTHWESTERN POWER ADMINISTRATION

For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy, and for construction and acquisition of transmission lines, substations and appurtenant facilities, and for administrative expenses, including official reception and representation expenses in an amount not to exceed \$1,500 in carrying out the provisions of section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the southwestern power area, \$28,100,000, to remain available until expended; in addition, notwith-standing the provisions of 31 U.S.C. 3302, not to exceed \$4,200,000 in reimbursements, to remain available until expended: Provided, amounts collected by the Southwestern Power Administration pursuant to the Flood Control Act to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures as follows: for fiscal year 2001, up to \$288,000; for fiscal year 2002, up to \$288,000; for fiscal year 2003, up to \$288,000; and for fiscal year 2004, up to \$288,000. CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN AREA POWER ADMINISTRATION

For carrying out the functions authorized by title III, section 302(a)(1)(E) of the Act of August 4, 1977 (42 U.S.C. 7152), and other related activities including conservation and renewable resources programs as authorized, including official reception and representation expenses in an amount not to exceed \$1,500, \$165,830,000, to remain available until expended, of which \$154,616,000 shall be derived from the Department of the Interior Reclamation Fund: Provided. That of the amount herein appropriated. \$5.950,000 is for deposit into the Utah Reclamation Mitigation and Conservation Account pursuant to title IV of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That amounts collected by the Western Area Power Administration pursuant to the Flood Control Act of 1944 and the Reclamation Project Act of 1939 to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures as follows: for fiscal year 2001, up to \$65,224,000; for fiscal year 2002, up to \$33,500,000; for fiscal year 2003, \$30,000,000; and for fiscal year 2004, up to \$20,000,000.

#### FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

For operation, maintenance, and emergency costs for the hydroelectric facilities at the Falcon and Amistad Dams, \$2,670,000, to remain available until expended, and to be derived from the Falcon and Amistad Operating and Maintenance Fund of the Western Area Power Administration, as provided in section 423 of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995.

### FEDERAL ENERGY REGULATORY COMMISSION

#### SALARIES AND EXPENSES

For necessary expenses of the Federal Energy Regulatory Commission to carry out the provisions of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including services as authorized by 5 U.S.C. 3109, the hire of passenger motor vehicles, and official reception and representation expenses (not to exceed \$3,000), \$175,200,000, to remain available until expended: Provided, That notwithstanding any other provision of law, not to exceed \$175,200,000 of revenues from fees and annual charges, and other services and collections in fiscal year 2001 shall be retained and used for necessary expenses in this account, and shall remain available until expended: Provided further, That the sum herein appropriated from the General Fund shall be reduced as revenues are received during fiscal year 2001 so as to result in a final fiscal year 2001 appropriation from the General Fund estimated at not more than \$0.

#### RESCISSIONS

### Defense Nuclear Waste Disposal

#### (RESCISSION)

Of the funds appropriated in Public Law 104–46 for interim storage of nuclear waste, \$75,000,000 are transferred to this heading and are hereby rescinded.

### DEFENSE ENVIRONMENTAL MANAGEMENT PRIVATIZATION

#### (RESCISSION)

Of the funds appropriated in Public Law 106–60 and prior Energy and Water Development Acts for the Tank Waste Remediation System at Richland, Washington, \$97,000,000 of unex-

pended balances of prior appropriations are rescinded.

#### GENERAL PROVISIONS DEPARTMENT OF ENERGY

SEC. 301. (a) None of the funds appropriated by this Act may be used to award a management and operating contract unless such contract is awarded using competitive procedures or the Secretary of Energy grants, on a case-by-case basis, a waiver to allow for such a deviation. The Secretary may not delegate the authority to grant such a waiver.

(b) At least 60 days before a contract award, amendment, or modification for which the Secretary intends to grant such a waiver, the Secretary shall submit to the Subcommittees on Energy and Water Development of the Committees on Appropriations of the House of Representatives and the Senate a report notifying the subcommittees of the waiver and setting forth the reasons for the waiver.

SEC. 302. None of the funds appropriated by this Act may be used to—

(1) develop or implement a workforce restructuring plan that covers employees of the Department of Energy; or

(2) provide enhanced severance payments or other benefits for employees of the Department of Energy,

under section 3161 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102–484; 106 Stat. 2644; 42 U.S.C. 7274h).

SEC. 303. None of the funds appropriated by this Act may be used to augment the \$24,500,000 made available for obligation by this Act for severance payments and other benefits and commity assistance grants under section 3161 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102–484; 106 Stat. 2644; 42 U.S.C. 7274h) unless the Department of Energy submits a reprogramming request subject to approval by the appropriate Congressional committees.

SEC. 304. None of the funds appropriated by this Act may be used to prepare or initiate Requests For Proposals (RFPs) for a program if the program has not been funded by Congress.

#### (TRANSFERS OF UNEXPENDED BALANCES)

SEC. 305. The unexpended balances of prior appropriations provided for activities in this Act may be transferred to appropriation accounts for such activities established pursuant to this title. Balances so transferred may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 306. Of the funds in this Act provided to government-owned, contractor-operated laboratories, not to exceed 6 percent shall be available to be used for Laboratory Directed Research and Development.

SEC. 307. (a) Of the funds appropriated by this title to the Department of Energy, not more than \$185,000,000 shall be available for reimbursement of management and operating contractor travel expenses, of which \$10,000,000 is available for use by the Chief Financial Officer of the Department of Energy for emergency travel expenses.

(b) Funds appropriated by this title to the Department of Energy may be used to reimburse a Department of Energy management and operating contractor for travel costs of its employees under the contract only to the extent that the contractor applies to its employees the same rates and amounts as those that apply to Federal employees under subchapter I of chapter 57 of title 5, United States Code, or rates and amounts established by the Secretary of Energy. The Secretary of Energy may provide exceptions to the reimbursement requirements of this section as the Secretary considers appropriate.

(c) The limitation in subsection (a) shall not apply to reimbursement of management and operating contractor travel expenses within the Laboratory Directed Research and Development program.

SEC. 308. No funds are provided in this Act or any other Act for the Administrator of the Bonneville Power Administration to enter into any agreement to perform energy efficiency services outside the legally defined Bonneville service territory, with the exception of services provided internationally, including services provided on a reimbursable basis, unless the Administrator certifies that such services are not available from private sector businesses.

SEC. 309. None of the funds in this Act may be used to dispose of transuranic waste in the Waste Isolation Pilot Plant which contains concentrations of plutonium in excess of 20 percent by weight for the aggregate of any material category on the date of enactment of this Act, or is generated after such date. For the purposes of this section, the material categories of transuranic waste at the Rocky Flats Environmental Technology Site include: (1) ash residues; (2) salt residues; (3) wet residues; (4) direct repackage residues; and (5) scrub alloy as referenced in the "Final Environmental Impact Statement on Management of Certain Plutonium Residues and Scrub Alloy Stored at the Rocky Flats Environmental Technology Site"

SEC. 310. The Administrator of the National Nuclear Security Administration may authorize the plant manager of a covered nuclear weapons production plant to engage in research, development, and demonstration activities with respect to the engineering and manufacturing capabilities at such plant in order to maintain and enhance such capabilities at such plant: Provided, That of the amount allocated to a covered nuclear weapons production plant each fiscal year from amounts available to the Department of Energy for such fiscal year for national security programs, not more than an amount equal to 2 percent of such amount may be used for these activities: Provided further, That for purposes of this section, the term "covered nuclear weapons production plant" means the following:

- (1) The Kansas City Plant, Kansas City, Missouri.
  - (2) The Y-12 Plant, Oak Ridge, Tennessee.
- (3) The Pantex Plant, Amarillo, Texas.
- (4) The Savannah River Plant, South Carolina.

SEC. 311. Notwithstanding any other law, and without fiscal year limitation, each Federal Power Marketing Administration is authorized to engage in activities and solicit, undertake and review studies and proposals relating to the formation and operation of a regional transmission organization.

SEC. 312. Not more than \$10,000,000 of funds previously appropriated for interim waste storage activities for Defense Nuclear Waste Disposal in Public Law 104–46, the Energy and Water Development Appropriations Act, 1996, may be made available to the Department of Energy upon written certification by the Secretary of Energy to the House and Senate Committees on Appropriations that the Site Recommendation Report cannot be completed on time without additional funding.

SEC. 313. TERM OF OFFICE OF PERSON FIRST APPOINTED AS UNDER SECRETARY FOR NUCLEAR SECURITY OF THE DEPARTMENT OF ENERGY. (a) LENGTH OF TERM.—The term of office as Under Secretary for Nuclear Security of the Department of Energy of the first person appointed to that position shall be 3 years.

(b) EXCLUSIVE REASONS FOR REMOVAL.—The exclusive reasons for removal from office as Under Secretary for Nuclear Security of the person described in subsection (a) shall be inefficiency, neglect of duty, or malfeasance in office.

(c) POSITION DESCRIBED.—The position of Under Secretary for Nuclear Security of the Department of Energy referred to in this section is the position established by subsection (c) of section 202 of the Department of Energy Organization Act (42 U.S.C. 7132), as added by section 3202 of the National Nuclear Security Administration Act (title XXXII of Public Law 106–65; 113 Stat 954)

SEC. 314. Scope of Authority of Secretary of Energy to Modify Organization of National Nuclear Security Administration. (a) Scope of Authority.—Subtitle A of the National Nuclear Security Administration Act (title XXXII of Public Law 106–65; 113 Stat. 957; 50 U.S.C. 2401 et seq.) is amended by adding at the end the following new section:

# "SEC. 3219. SCOPE OF AUTHORITY OF SECRETARY OF ENERGY TO MODIFY ORGANIZATION OF ADMINISTRATION.

"Notwithstanding the authority granted by section 643 of the Department of Energy Organization Act (42 U.S.C. 7253) or any other provision of law, the Secretary of Energy may not establish, abolish, alter, consolidate, or discontinue any organizational unit or component, or transfer any function, of the Administration, except as authorized by subsection (b) or (c) of section 3291."

- (b) CONFORMING AMENDMENTS.—Section 643 of the Department of Energy Organization Act (42 U.S.C. 7253) is amended— (1) by striking "The Secretary" and inserting
- (1) by striking "The Secretary" and inserting "(a) Subject to subsection (b), the Secretary"; and
- (2) by adding at the end the following new subsection:

"(b) The authority of the Secretary to establish, abolish, alter, consolidate, or discontinue any organizational unit or component of the National Nuclear Security Administration is governed by the provisions of section 3219 of the National Nuclear Security Administration Act (title XXXII of Public Law 106-65)."

SEC. 315. PROHIBITION ON PAY OF PERSONNEL ENGAGED IN CONCURRENT SERVICE OR DUTIES INSIDE AND OUTSIDE NATIONAL NUCLEAR SECURITY ADMINISTRATION.—Subtitle C of the National Nuclear Security Administration Act (title XXXII of Public Law 106-65; 50 U.S.C. 2441 et seq.) is amended by adding at the end the following new section:

#### "SEC. 3245. PROHIBITION ON PAY OF PERSONNEL ENGAGED IN CONCURRENT SERVICE OR DUTIES INSIDE AND OUTSIDE AD-MINISTRATION.

"(a) Except as otherwise expressly provided by statute, no funds authorized to be appropriated or otherwise made available for the Department of Energy may be obligated or utilized to pay the basic pay of an officer or employee of the Department of Energy who—

"(1) serves concurrently in a position in the Administration and a position outside the Administration: or

"(2) performs concurrently the duties of a position in the Administration and the duties of a position outside the Administration.

"(b) The provision of this section shall take effect 60 days after the date of enactment of this section.".

# TITLE IV INDEPENDENT AGENCIES APPALACHIAN REGIONAL COMMISSION

For expenses necessary to carry out the programs authorized by the Appalachian Regional Development Act of 1965, as amended, for necessary expenses for the Federal Co-Chairman and the alternate on the Appalachian Regional Commission, for payment of the Federal share of the administrative expenses of the Commission, including services as authorized by 5 U.S.C. 3109, and hire of passenger motor vehicles, \$66,400,000, to remain available until expended.

Defense Nuclear Facilities Safety Board

SALARIES AND EXPENSES

For necessary expenses of the Defense Nuclear Facilities Safety Board in carrying out activities authorized by the Atomic Energy Act of 1954, as amended by Public Law 100-456, section 1441, \$18,500,000, to remain available until expended.

#### DELTA REGIONAL AUTHORITY

#### SALARIES AND EXPENSES

For necessary expenses to establish the Delta Regional Authority and to carry out its activities, \$20,000,000, to remain available until expended.

#### DENALI COMMISSION

For expenses of the Denali Commission including the purchase, construction and acquisition of plant and capital equipment as necessary and other expenses, \$30,000,000, to remain available until expended.

#### NUCLEAR REGULATORY COMMISSION

#### SALARIES AND EXPENSES

For necessary expenses of the Commission in carrying out the purposes of the Energy Reorganization Act of 1974, as amended, and the Atomic Energy Act of 1954, as amended, including official representation expenses (not to exceed \$15,000), \$481,900,000, to remain available until expended: Provided, That of the amount appropriated herein, \$21,600,000 shall be derived from the Nuclear Waste Fund: Provided further, That revenues from licensing fees, inspection services, and other services and collections estimated at \$447,958,000 in fiscal year 2001 shall be retained and used for necessary salaries and expenses in this account, notwithstanding 31 U.S.C. 3302, and shall remain available until expended: Provided further, That \$3,200,000 of the funds herein appropriated for regulatory reviews and assistance to other Federal agencies and States shall be excluded from license fee revenues, notwithstanding 42 U.S.C. 2214: Provided further, That the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 2001 so as to result in a final fiscal year 2001 appropriation estimated at not more than \$33,942,000.

#### Office of Inspector General

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$5,500,000, to remain available until expended: Provided, That revenues from licensing fees, inspection services, and other services and collections estimated at \$5,390,000 in fiscal year 2001 shall be retained and be available until expended, for necessary salaries and expenses in this account notwithstanding 31 U.S.C. 3302: Provided further, That the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 2001 appropriation estimated at not more than \$110,000.

### NUCLEAR WASTE TECHNICAL REVIEW BOARD

#### SALARIES AND EXPENSES

For necessary expenses of the Nuclear Waste Technical Review Board, as authorized by Public Law 100–203, section 5051, \$2,900,000, to be derived from the Nuclear Waste Fund, and to remain available until expended.

#### $TITLE\ V$

FISCAL YEAR 2001 EMERGENCY
APPROPRIATIONS
DEPARTMENT OF ENERGY
ATOMIC ENERGY DEFENSE ACTIVITIES
CERRO GRANDE FIRE ACTIVITIES

For necessary expenses to remediate damaged Department of Energy facilities and for other expenses associated with the Cerro Grande fire, \$203,460,000, to remain available until expended, of which \$2,000,000 shall be made available to

the United States Army Corps of Engineers to undertake immediate measures to provide erosion control and sediment protection to sewage lines, trails, and bridges in Pueblo and Los Alamos Canyons downstream of Diamond Drive in New Mexico: Provided, That the entire amount shall be available only to the extent an official budget request for \$203,460,000, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, is transmitted by the President to the Congress: Provided further, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as

### INDEPENDENT AGENCIES

#### APPALACHIAN REGIONAL COMMISSION

For necessary expenses to carry out the programs authorized by the Appalachian Regional Development Act of 1965, as amended, \$11,000,000, to remain available until expended, which shall be available only to the extent an official budget request for \$11,000,000, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, is transmitted by the President to the Congress: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

#### $TITLE\ VI$ GENERAL PROVISIONS

SEC. 601. None of the funds appropriated by this Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in section 1913 of title 18. United States Code.

SEC. 602. (a) PURCHASE OF AMERICAN-MADE EQUIPMENT AND PRODUCTS.—It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available in this Act should be American-made.

(b) NOTICE REQUIREMENT.—In providing financial assistance to, or entering into any contract with, any entity using funds made available in this Act, the head of each Federal agency, to the greatest extent practicable, shall provide to such entity a notice describing the statement made in subsection (a) by the Congress.

(c) Prohibition of Contracts With Persons FALSELY LABELING PRODUCTS AS MADE IN AMERICA.—If it has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a "Made in America" inscription, or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, the person shall be ineligible to receive any contract or subcontract made with funds made available in this Act, pursuant to the debarment, suspension, and ineligibility procedures described in sections 9.400 through 9.409 of title 48, Code of Federal Regulations.

SEC. 603. (a) None of the funds appropriated or otherwise made available by this Act may be used to determine the final point of discharge for the interceptor drain for the San Luis Unit until development by the Secretary of the Interior and the State of California of a plan, which shall conform to the water quality standards of the State of California as approved by the Administrator of the Environmental Protection Agency, to minimize any detrimental effect of the San Luis drainage waters.

(b) The costs of the Kesterson Reservoir Cleanup Program and the costs of the San Joaquin Valley Drainage Program shall be classified by the Secretary of the Interior as reimbursable or nonreimbursable and collected until fully repaid pursuant to the "Cleanup Program—Alternative Repayment Plan" and the "SJVDP—Alternative Repayment Plan" scribed in the report entitled "Repayment Report, Kesterson Reservoir Cleanup Program and San Joaquin Valley Drainage Program, February 1995", prepared by the Department of the Interior, Bureau of Reclamation. Any future obligations of funds by the United States relating to, or providing for, drainage service or drainage studies for the San Luis Unit shall be fully reimbursable by San Luis Unit beneficiaries of such service or studies pursuant to Federal Reclamation law.

SEC. 604. None of the funds appropriated by this Act shall be used to propose or issue rules, regulations, decrees, or orders for the purpose of implementation, or in preparation for implementation, of the Kyoto Protocol which was adopted on December 11, 1997, in Kyoto, Japan at the Third Conference of the Parties to the United Nations Framework Convention on Climate Change, which has not been submitted to the Senate for advice and consent to ratification pursuant to article II, section 2, clause 2, of the United States Constitution, and which has not entered into force pursuant to article 25 of the Protocol.

SEC. 605. FUNDING OF THE COASTAL WETLANDS PLANNING, PROTECTION AND RESTORATION ACT. Section 4(a) of the Act of August 9, 1950 (16 U.S.C. 777c(a)), is amended in the second sentence by striking "2000" and inserting "2009".

SEC. 606. REDESIGNATION OF INTERSTATE SANI-TATION COMMISSION AND DISTRICT. (a) INTER-STATE SANITATION COMMISSION -

(1) IN GENERAL.—The district known as the "Interstate Sanitation Commission", established by article III of the Tri-State Compact described in the Resolution entitled, "A Joint Resolution granting the consent of Congress to the States of New York, New Jersey, and Connecticut to enter into a compact for the creation of the Interstate Sanitation District and the establishment of the Interstate Sanitation Commission", approved August 27, 1935 (49 Stat. 933), is redesignated as the "Interstate Environmental Commission"

(2) REFERENCES.—Any reference in a law, regulation, map, document, paper, or other record of the United States to the Interstate Sanitation Commission shall be deemed to be a reference to the Interstate Environmental Commission.

(b) Interstate Sanitation District.-

(1) IN GENERAL.—The district known as the "Interstate Sanitation District", established by article II of the Tri-State Compact described in the Resolution entitled, "A Joint Resolution granting the consent of Congress to the States of New York, New Jersey, and Connecticut to enter into a compact for the creation of the Interstate Sanitation District and the establishment of the Interstate Sanitation Commission", approved August 27, 1935 (49 Stat. 932), is redesignated as the "Interstate Environmental District

(2) REFERENCES.—Any reference in a law, regulation, map, document, paper, or other record of the United States to the Interstate Sanitation District shall be deemed to be a reference to the Interstate Environmental District.

#### $TITLE\ VII$ DEPARTMENT OF THE TREASURY BUREAU OF THE PUBLIC DEBT

GIFTS TO THE UNITED STATES FOR REDUCTION OF THE PUBLIC DERT

For deposit of an additional amount for fiscal year 2001 into the account established under section 3113(d) of title 31, United States Code, to reduce the public debt, \$5,000,000,000.

#### TITLE VIII

#### NUCLEAR REGULATORY COMMISSION

Section 6101 of the Omnibus Budget Reconciliation Act of 1990 (42 U.S.C. 2214) is amended-(1) in subsection (a)(3), by striking "September

30, 1999" and inserting "September 20, 2005"; and

(2) in subsection (c)-

(A) in paragraph (1), by inserting "or certificate holder" after "licensee"; and

(B) by striking paragraph (2) and inserting the following:

'(2) AGGREGATE AMOUNT OF CHARGES .-

"(A) IN GENERAL.—The aggregate amount of the annual charges collected from all licensees and certificate holders in a fiscal year shall equal an amount that approximates the percentages of the budget authority of the Commission for the fiscal year stated in subparagraph (B), less-

"(i) amounts collected under subsection (b) during the fiscal year; and

"(ii) amounts appropriated to the Commission from the Nuclear Waste Fund for the fiscal

"(B) PERCENTAGES.—The percentages referred to in subparagraph (A) are-

"(i) 98 percent for fiscal year 2001;

"(ii) 96 percent for fiscal year 2002;

"(iii) 94 percent for fiscal year 2003;

"(iv) 92 percent for fiscal year 2004; and "(v) 90 percent for fiscal year 2005."

This Act may be cited as the "Energy and

Water Development Appropriations Act, 2001

#### ENERGY AND WATER DEVELOPMENT APPROPRIATIONS

Following is explanatory language on H.R. 5483, as introduced on October 18, 2000.

The conferees on H.R. 4635 agree with the matter included in H.R. 5483 and enacted in this conference report by reference and the following description of it. This bill was developed through negotiations by subcommittee members of the Energy and Water Development Subcommittees of the House and Senate on the differences in H.R. 4733, a bill that was vetoed. That vetoed bill has been modified and is included in this conference report. References in the following description to the "conference agreement" mean the matter included in the introduced bill enacted by this conference report. References to the House bill mean the House passed version of H.R. 4733. References to the Senate bill mean the Senate passed version of H.R. 4733, not the Senate passed version of H.R. 4635, unless otherwise stated.

The language and allocations set forth in House Report 106-693 and Senate Report 106-395 should be complied with unless specifically addressed to the contrary in the conference report and statement of the managers. Report language included by the House which is not contradicted by the report of the Senate or the statement of the managers, and Senate report language which is not contradicted by the report of the House or the statement of the managers is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate report address a particular issue not specifically addressed in the conference report or joint statement of managers, the conferees have determined that the House and Senate reports are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

Senate amendment: The Senate deleted the entire House bill after the enacting clause and inserted the Senate bill. The conference agreement includes a revised bill.

#### TITLE I

# DEPARTMENT OF DEFENSE—CIVIL DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The summary tables at the end of this title set forth the conference agreement with respect to the individual appropriations, programs, and activities of the Corps of Engineers. Additional items of conference are discussed below.

#### GENERAL INVESTIGATIONS

The conference agreement appropriates \$160,038,000 for General Investigations instead of \$153,327,000 as proposed by the House and \$139,219,000 as proposed by the Senate.

Within available funds, \$50,000 is provided for erosion control studies in the Harding Lake watershed in Alaska. The conference agreement deletes the bill language proposed by the Senate for this project.

The conference agreement does not include funds proposed by the House in this account for the Hamilton Airfield Wetlands Restoration project in California and the Ohio River Greenway project in Indiana. Funding for these projects is included in the Construction, General account. The conference agreement does not include funds in this account for the White River, Muncie, Indiana, project. Funding for this project has been included within the amount provided for the Section 1135 program.

The conference agreement includes \$150,000 for the Corps of Engineers to undertake studies of potential navigational improvements, shoreline protection, and breakwater protection at the ports of Rota and Tinian in the Commonwealth of the Northern Mariana Islands.

The conferees have provided \$200,000 for the Corps of Engineers to initiate and complete a comprehensive water management reconnaissance study for ecosystem restoration and related purposes in the St. Clair River and Lake St. Clair watersheds in Michigan pursuant to section 426 of the Water Resources Development Act of 1999.

Within the amount provided for Research and Development, \$200,000 is provided for a topographic/bathymetric mapping project for Coastal Louisiana in cooperation with the National Oceanic and Atmospheric Administration at the interagency Federal laboratory in Lafayette, Louisiana. The conference agreement does not include bill language proposed by the Senate for this work. The conferees also urge the Corps of Engineers to use available Research and Development funds for a review of innovative dredging technologies for potential implementation in the Peoria Lakes, Illinois, area.

The conference agreement includes language proposed by the House and the Senate which provides that in conducting the Southwest Valley Flood Damage Reduction, Albuquerque, New Mexico, study, the Corps of Engineers shall include an evaluation of flood damage reduction measures that would otherwise be excluded from the feasibility analysis based on policies regarding the frequency of flooding, the drainage area, and the amount of runoff.

The conferees have agreed to include language in the bill which directs the Corps of Engineers to use \$750,000 to continue preconstruction engineering and design of the Murrieta Creek, California, flood control project in accordance with Alternative 6, as identified in the Murrieta Creek Feasibility

Report and Environmental Impact Statement dated June 2000.

The conference agreement deletes bill language proposed by the Senate providing funds for the John Glenn Great Lakes Basin Program, the Detroit River, Michigan, project, and the Niobrara River and Missouri River, South Dakota, project. Funds for these projects have been included in the overall amount provided for General Investigations.

The conference agreement does not include language proposed by the Senate providing funds for the selection of a permanent disposal site for environmentally sound dredged material from navigation projects in the State of Rhode Island. Funds for this work have been provided within the amount appropriated for Operation and Maintenance, General.

Within the amount provided for Flood Plain Management Services, the conference agreement includes \$250,000 for the Corps of Engineers to undertake a study of drainage problems in the Winchester, Kentucky, area. In addition, the conferees urge the Corps of Engineers to complete a report on flood control problems on Negro Creek at Sprague, Washington.

Within the amount provided for Planning Assistance to States, the conference agreement includes \$100,000 for the Corps of Engineers to update the daily flow model for the Delaware River Basin.

#### CONSTRUCTION, GENERAL

conference agreement appropriates \$1,717,199,000 for Construction, General instead of \$1,378,430,000 as proposed by the House and \$1,361,449,000 as proposed by the Senate. The amount recommended by the conferees for the Corps of Engineers construction program represents a significant increase over the budget request and the amount appropriated in fiscal year 2000. However, the conferees note that the budget request grossly underfunds many ongoing construction projects, and its enactment would result in increased project costs, major delays in the completion of projects and loss of project benefits. The conferees also note that the Corps of Engineers, through the use of unobligated balances, expects its fiscal year 2000 construction expenditures to be approximately \$1,600,000,000.

The conferees note that the Lake Worth Inlet, Florida, sand transfer plant project is behind schedule and expect the Corps of Engineers to proceed with the project as expeditionally as possible

Within the amount provided for the West Virginia and Pennsylvania Flood Control Project, \$1,000,000 is provided for the following projects within the State of Pennsylvania: Bloody Run/Everett Borough (\$25,000); Shoups Run/Carbon Township (\$150,500); Six Mile Run/Coaldale (\$125,000); Black Log Creek/Boroughs of Orbisonia and Rockhill Furnace (\$127,000); Newton Hamilton Borough (\$465,500); and Coal Bank Run/Coalmont Borough (\$107,000).

The conference agreement includes \$150,000 for the Southeastern Pennsylvania project for the Corps of Engineers to prepare a decision document to determine the Federal interest in and the scope of the problems in the Logan and Feltonville sections of Philadelphia, Pennsylvania.

The conferees direct the Corps of Engineers to use \$500,000 to initiate the Hillsboro Inlet, Florida, project in accordance with the Jacksonville District's General Reevaluation Report for the project dated May 2000.

The conference agreement includes \$4,000,000 for the Corps of Engineers to under-

take water related infrastructure projects in northeastern Pennsylvania as authorized by section 502(f)(11) of the Water Resources Development Act of 1999.

The conference agreement includes \$500,000 for the Corps of Engineers to undertake water related infrastructure projects in Avis Borough and Renovo Borough, Clinton County, Pennsylvania.

The conference agreement includes \$1,000,000 for sanitary sewer and water and wastewater infrastructure projects in Towanencin Township, Pennsylvania, as authorized by section 502(f)(8) of the Water Resources Development Act of 1999; \$3,000,000 for a project to eliminate or control combined sewer overflows in the city of St. Louis, Missouri, as authorized by section 502(f)(32) of the Water Resources Development Act of 1999; and \$300,000 for water related infrastructure projects in Lake and Porter Counties, Indiana, as authorized by section 502(f)(12) of the Water Resources Development Act of 1999. In addition, the conference agreement includes \$2,500,000 to carry out environmental infrastructure projects in northeastern Minnesota as authorized by section 569 of the Water Resources Development Act of 1999.

The conference agreement includes \$25,000,000 for the Corps of Engineers to design, construct, and operate water quality projects in the San Gabriel Basin of California; and \$4,000,000 for the Corps of Engineers, in coordination with other Federal agencies and the Brazos River Authority, to participate in investigations and projects in the Bosque and Leon Watersheds in Texas to assess the impact of the perchlorate associated with the former Naval Weapons Industrial Reserve Plant at McGregor, Texas.

The conference agreement includes \$300,000 for the Corps of Engineers to continue the environmental restoration pilot project at Dog River, Alabama.

The conference agreement includes \$1,500,000 for a project to eliminate or control combined sewer overflows in the City of Lebanon, New Hampshire, as authorized by section 502(f)(37) of the Water Resources Development Act of 1999; \$1,500,000 for environmental infrastructure projects in Ohio authorized in section 594 of the Water Resources Development Act of 1999: and \$3,000,000 for environmental infrastructure projects in central New Mexico authorized in section 593 of the Water Resources Development Act of 1999.

The conference agreement includes a total of \$37,100,000 for the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project. In addition to the amounts included in the budget request, the conference agreement includes: \$4,000,000 for the Clover Fork, Kentucky, element of the project; \$4,800,000 for the Middlesboro, Kentucky, element of the project; \$1,000,000 for the City of Cumberland, Kentucky, element of the project; \$700,000 for the Town of Martin, Kentucky, element of the project; \$4,200,000 for the Pike County, Kentucky, element of the project, including \$1,400,000 for additional studies along the tributaries of the Tug Fork and the initiation of a Detailed Project Report for the Levisa Fork; \$3,500,000 for the Martin County, Kentucky, element of the project; \$1,200,000 for additional studies along the tributaries of the Cumberland River in Bell County, Kentucky; \$800,000 to continue the detailed project report for the Buchanan County, Virginia, element of the project; \$700,000 to continue the detailed project report for the Dickenson County, Virginia, element of the project; \$1,500,000 for the Upper

Mingo County, West Virginia, element of the project; \$1,600,000 for the Kermit, Lower Mingo County (Kermit), West Virginia, element of the project; \$400,000 for the Wayne County, West Virginia, element of the project; and \$600,000 for the McDowell County, West Virginia, element of the project.

The conference agreement includes \$7,000,000 for the Dam Safety and Seepage Stability Correction Program. Of the amount provided, \$1,000,000 is for repairs to the Mississinewa Lake, Indiana, project, and up to \$2,000,000 is for the Waterbury Dam, Vermont, project.

Within the funds provided for the Missouri River Levee System project, \$227,000 is provided for the Unit L15 levee, the same as the budget request. With these funds, the conferees expect the Corps of Engineers to complete engineering and design, negotiate a Project Cooperation Agreement, and initiate construction of the project.

The conference agreement includes \$4,000,000 for the Rural Nevada project authorized by section 595 of the Water Resources Development Act of 1999. Of the amount provided, \$1,500,000 is for the Lawton-Verdi, Nevada, sewer inceptor project; \$1,000,000 is for the Mesquite, Nevada, project; and \$1,500,000 for the Silver Springs. Nevada, sanitary sewer project.

The conferees direct the Corps of Engineers to undertake the projects listed in the House and Senate reports and the projects described below for the various continuing authorities programs. The recommended funding levels for those programs are as follows: Section 206—\$19,000,000; Section \$4,000,000; Section 14—\$9,000,000; Section 205— \$35,000,000; Section 111—\$300,000; Section 107-\$11,000,000; Section 1135-\$21,000,000; Section 103-\$2.500,000; and Section 208-\$600,000. The conferees are aware that there are funding requirements for ongoing continuing authorities projects that may not be accommodated within the funds provided for each program. It is not the conferees' intent that ongoing projects be terminated. If additional funds are needed during the year to keep ongoing work in any program on schedule, the conferees urge the Corps of Engineers to reprogram funds into the program within available funds.

Of the amount provided for the Section 14 program, \$580,000 is to initiate and complete the planning and design analysis phase, execute a project cooperation agreement, and initiate and complete construction for the Rouge River, Southfield, Michigan, project.

Of the amount provided for the Section 111 program, \$300,000 is to prepare a shoreline stabilization study and plans and specifications, and award a construction contract for the Virginia Key, Florida, project.

Of the amount provided for the Section 205 program, \$100,000 is to undertake the Columbus, New Mexico, project; and \$200,000 is to undertake the Battle Mountain, Nevada, project. The conference agreement deletes the bill language proposed by the Senate for the Hay Creek project. In addition, for the McKeel Brook, Dover and Rockaway Townships, New Jersey, project, the funds provided are to be used to complete plans and specifications and initiate construction of the Morris County plan.

Of the amount provided for the Section 1135 program, \$100,000 is to initiate the upland environmental restoration study for the Virginia Key, Florida, project; \$300,000 is to prepare an environmental restoration report and prepare a project cooperation agreement for the White River, Muncie, Indiana, project; \$250,000 is to initiate and complete a

preliminary restoration plan and a feasibility report for the Sand Creek, Newton, Kansas, project; and \$200,000 is to initiate the ecosystem restoration report for the Lake Champlain Watershed, Vermont, project. In addition, the Corps of Engineers is directed to proceed with the most cost effective solution to the water quality degradation and related environmental and public impacts associated with the western jetty at the mouth of the Genessee River at Rochester, New York.

Of the amount provided for the Section 107 program, \$810,000 is for construction of the Pemiscot Harbor, Missouri, project; \$3,000,000 is for construction of the Ouzinkie Harbor, Alaska, project; and \$500,000 is to initiate construction of the South Basin Inner Harbor, Buffalo, New York, project.

The amount provided for the Section 206 program does not include funds for the Upper Truckee River project. Funds for this project are included in the Bureau of Reclamation's Wetlands Development Program. The amount provided for the Section 206 program includes \$500,000 for the Hay Creek, Roseau County, Minnesota, project. The conference agreement deletes the bill language proposed by the Senate for the Hay Creek project.

The conference agreement includes \$4,000,000 for the Aquatic Plant Control program. Within the amount provided, \$400,000 is for aquatic weed control in Lake Champlain, Vermont, \$250,000 is for aquatic plant control within the State of South Carolina, and \$100,000 is for the control and tracking of aquatic plants in the Potomac River in Virginia and Maryland.

The conferees have included language in the bill earmarking funds for the following projects in the amount specified: Elba, Ala-Alabama. \$8,400,000: Geneva. ba.ma. \$10,800,000; San Timoteo Creek (Santa Ana River Mainstem), California, \$5,000,000; San Gabriel Basin Groundwater Restoration, California, \$25,000,000; Indianapolis Central Waterfront, Indiana, \$10,000,000; Southern and Eastern Kentucky, Kentucky, \$4,000,000; Clover Fork, Middlesboro, City of Cumberland, Town of Martin, Pike County (including Levisa Fork and Tug Fork tributaries), Bell County, Martin County, and Harlan County, Kentucky, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project, \$20,000,000; Jackson County, Mississippi, \$2,000,000; Bosque and Leon Rivers, Texas, \$4,000,000; Upper Mingo County (including Mingo County Tributaries), Lower Mingo (Kermit), Wayne County, County and McDowell County, West Virginia, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project, \$4,100,000.

The conference agreement includes language proposed by the House which directs the Corps of Engineers to proceed with the Town of Martin element of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project in accordance with a Plan A as set forth in the preliminary draft Detailed Project Report, Appendix T of the General Plan of the Huntington District Commander.

The conference agreement includes language proposed by the House which directs the Corps of Engineers to use \$900,000 to undertake the Bowie County Levee project in Texas, which is defined as Alternative B Local Sponsor Option in the Corps of Engineers document entitled Bowie County Local Flood Protection, Red River, Texas, project Design Memorandum No. 1, Bowie County Levee, dated April 1997.

The conference agreement includes language proposed by the Senate which provides that none of the funds appropriated in the Act may be used to begin Phase II of the John Day Drawdown study or to initiate a study of the drawdown of McNary Dam unless authorized by law.

The conference agreement includes language proposed by the Senate which directs the Corps of Engineers to use available Construction, General, funds to complete design and construction of the Red River Regional Visitors Center in the vicinity of Shreveport, Louisiana, at an estimated cost of \$6,000,000.

The conference agreement includes language proposed by the Senate which increases the authorization for the Norco Bluffs, California, project.

The conference agreement includes language proposed by the Senate which directs the Corps of Engineers to use \$3,000,000 of the funds appropriated in the Act for additional emergency bank stabilization measures at Galena, Alaska, under the same terms and conditions as previously undertaken emergency bank stabilization work.

The conference agreement includes language proposed by the Senate directing the Corps of Engineers to use \$4,200,000 appropriated in the Act to continue construction of the Ocean Isle Beach segment of the Brunswick County Beaches, North Carolina, project in accordance with the General Revaluation Report approved by the Chief of Engineers on May 15, 1998.

The conference agreement includes language proposed by the Senate which directs the Corps of Engineers to use \$300,000 of the funds appropriated in the Act to reimburse the City of Renton, Washington, for mitigation expenses incurred for the flood control project constructed on the Cedar River at Renton as a result of over-dredging by the Corps of Engineers.

The conference agreement includes language proposed by the Senate subjecting the expenditure of previously appropriated funds for the Devils Lake, North Dakota, project to a number of conditions.

The conference agreement includes language which provides that \$2,000,000 shall be available for stabilization and renovation of Lock and Dam 10 on the Kentucky River, subject to the enactment of authorization for the project.

The conference agreement includes language which directs the Corps of Engineers to use \$3,000,000 to initiate construction of a navigation project at Kaumalapau Harbor, Hawaii. The project will consist of a 350-foot long breakwater and a channel depth of 19 feet.

The conference agreement includes language which directs the Corps of Engineers to design and construct seepage control features at Waterbury Dam, Winooski River, Vermont. The Dam Safety and Seepage Correction Program includes up to \$2,000,000 to initiate this work. The proposed corrective actions will restore the structural integrity of the dam and reduce the chances of potential failure.

The conference agreement includes language which directs the Corps of Engineers to design and construct barge lanes at the Houston-Galveston Navigation Channels, Texas, project.

The conference agreement includes language which directs the Corps of Engineers to continue construction of the Rio Grand de Manati flood control project at Barceloneta, Puerto Rico.

FLOOD CONTROL, MISSISSIPPI RIVER AND TRIBU-TARIES, ARKANSAS, ILLINOIS, KENTUCKY, LOU-ISIANA, MISSISSIPPI, MISSOURI, AND TEN-NESSEE

The conference agreement appropriates \$347,731,000 for Flood Control, Mississippi River and Tributaries instead of \$323,350,000 as proposed by the House and \$334,450,000 as proposed by the Senate.

The conference agreement includes \$900,000 for the Southeast Arkansas feasibility study. The House had proposed to fund this study in the General Investigations account.

The conference agreement includes language proposed by the Senate which directs the Secretary of the Army to complete the analysis and determination regarding Federal maintenance of the Greenville Inner Harbor, Mississippi, navigation project in accordance with section 509 of the Water Resources Development Act of 1996.

The conference agreement includes \$375,000 for construction of the Yazoo Basin Tributaries project and \$47,000,000 for continuing construction of Mississippi River levees. The conference agreement deletes bill language proposed by the Senate regarding these projects.

The conference agreement includes \$7,242,000 for operation and maintenance of Arkabutla Lake; \$5,280,000 for operation and maintenance of Grenada Lake; \$7,680,000 for operation and maintenance of Sardis Lake; and \$4,376,000 for operation and maintenance of Enid Lake. The conference agreement deletes bill language proposed by the Senate regarding these projects.

OPERATION AND MAINTENANCE, GENERAL

The conference agreement appropriates \$1,901,959,000 for Operation and Maintenance, General, instead of \$1,854,000,000 as proposed by the House and \$1,862,471,000 as proposed by the Senate.

conference The agreement includes \$6,755,000 for the Apalachicola, Chattahoochee, and Flint Rivers project in Georgia, Alabama, and Florida. The additional funds above the budget request shall be used to implement environmental restoration requirements as specified under the certification issued by the State of Florida under section 401 of the Federal Water Pollution Control Act and dated October 1999 including \$1,200,000 for increased environmental dredging and \$500,000 for related environmental studies required by the state water quality certification. The conference agreement does not include bill language proposed by the Senate regarding this project.

The conferees have provided \$5,071,000 for the Red Rock Dam and Lake, Iowa, project. The funds provided above the budget request are for repair and replacement of various features of the project including repair of the scouring of the South-East Des Moines levee.

The conference agreement includes \$10,400,000 for operation and maintenance of the Pascagoula Harbor, Mississippi, project.

The conference agreement includes \$1,500,000 over the budget request for the Corps of Engineers to address impacts of recent fires, undertake habitat restoration activities, and address other essential requirements at Cochiti Lake in New Mexico.

The conference agreement includes an additional \$3,000,000 for the Jemez Dam, New Mexico, project for the Corps of Engineers to address the impacts of increased water releases required to help sustain the endangered silvery minnow.

The conferees have provided an additional \$600,000 for the Waco Lake, Texas, project for the Corps of Engineers to address the higher lake levels associated with the raising of the

The conferees have provided \$12,570,000 for the Grays Harbor, Washington, project, including \$650,000 for repair of the south jetty, \$1,000,000 to complete the rehabilitation of the north jetty at Ocean Shores, and \$1,100,000 for the north jetty operations and maintenance study.

The conference agreement includes language proposed by the Senate which directs the Corps of Engineers to prepare the necessary documents and initiate removal of submerged obstructions in the area previously marked by the Ambrose Light Tower in New York Harbor.

The conference agreement deletes language proposed by the Senate providing \$500,000 for maintenance and repair of the Sakonnet Harbor breakwater in Little Compton, Rhode Island. Funds for this project are included in the amount appropriated for Operation and Maintenance, General.

The conference agreement deletes language proposed by the Senate providing \$50,000 for a study of crossings across the Chesapeake and Delaware Canal. The amount provided for operation and maintenance of the Chesapeake and Delaware Canal project includes \$50,000 for the Corps of Engineers to conduct a study to determine the adequacy and timing for maintaining good and sufficient crossings across the canal.

Although the conference agreement deletes bill language proposed by the Senate regarding the marketing of dredged material from the Delaware River Deepening project, the conferees expect the Corps of Engineers to establish such a program.

The conference agreement includes language which directs the Corps of Engineers to use \$500,000 to dredge a channel from the mouth of Wheeling Creek to Tunnel Green Park in Wheeling, West Virginia.

The conference agreement includes language which provides that \$500,000 of the funds provided for the Columbia and Lower Willamette River below Vancouver, Washington, and Portland, Oregon, project shall be used to remove and reinstall the docks and causeway, in kind, at the Astoria East Boat Basin in Oregon.

The Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to extend the sheet pile wall on the west end of the entrance to the Dillingham, Alaska, small boat harbor, and to replace the existing wooden bulkhead at the city dock under the provisions of Public Law 99–190.

The conferees are aware of costs associated with maintaining and operating the complex computer system used to execute and program activities for the entire Operation and Maintenance program. The conferees direct the Corps of Engineers to specifically budget for this computer system in future years and, within available fiscal year 2001 funds, pay for this effort under Operation and Maintenance. General.

The conferees are aware of a plan to improve the effectiveness of public information exhibits located within visitor centers at Corps of Engineers projects. The initial plan will be developed by a multidiscipline team and is scheduled to be completed this year. The conferees expect the plan to be developed within available Operation and Maintenance, General, funds and expect implementation of any plans to be justified in future budget requests.

FLOOD CONTROL AND COASTAL EMERGENCIES

The Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to extend the existing Bethel Bank Stabilization project in Alaska an additional 1200 linear feet upstream, and to remove sediments from Brown's Slough that hamper safe navigation.

#### REGULATORY PROGRAM

The conference agreement appropriates \$125,000,000 for the Corps of Engineers Regulatory Program as proposed by the House instead of \$120,000,000 as proposed by the Senate.

The conference agreement includes language proposed by the House and the Senate which will improve the analysis and increase the information available to the public and the Congress regarding the costs of the nationwide permit program and permit processing times.

### FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The conference agreement appropriates \$140,000,000 for the Formerly Utilized Sites Remedial Action Program as proposed by the House and the Senate.

The conferees concur with the language in the Senate report regarding the Parks Township Shallow Land Disposal Area in Armstrong County, Pennsylvania.

#### GENERAL EXPENSES

The conference agreement appropriates \$152,000,000 for General Expenses as proposed by the Senate instead of \$149,500,000 as proposed by the House.

#### REVOLVING FUND

The conference agreement includes language proposed by the House and the Senate which provides that amounts in the Revolving Fund are available for the costs of relocating the Corps of Engineers headquarters to the General Accounting Office building.

#### GENERAL PROVISIONS

#### CORPS OF ENGINEERS—CIVIL

Section 101. The conference agreement includes language proposed by the House which provides for the transfer of responsibility of local sponsorship of recreation development at Joe Pool Lake, Texas, from the Trinity River Authority to the City of Grand Prairie, Texas.

Section 102. The conference agreement includes language proposed by the Senate which places a limit on credits and reimbursements allowable per project and annually.

Section 103. The conference agreement includes language authorizing the Corps of Engineers to construct the Murrieta Creek, California, flood control project.

Section 104. The conference agreement includes language proposed by the Senate which provides that none of the funds provided in this Act may be used for activities related to the closure or removal of the St. Georges Bridge across the Chesapeake and Delaware Canal in Delaware.

Section 105. The conference agreement includes language proposed by the Senate which provides that the Secretary of the Army shall provide up to \$7,000,000 to replace and upgrade the dam in Kake. Alaska.

Provisions not included in the conference agreement.—The conference agreement does not include language proposed by the House extending the authorization for spending Coastal Wetlands Restoration Trust Fund receipts. This matter has been addressed in Title VI. The conference agreement does not include language proposed by the Senate regarding the use of continuing contracts for Corps of Engineers projects. The conference agreement does not include language proposed by the Senate earmarking funds for the Pascagoula Harbor, Mississippi, project and the Gulfport Harbor, Mississippi,

project. Funds for those projects are included in the amounts appropriated for Operation and Maintenance, General, and Construction, General, respectively.

The conference agreement does not include language proposed by the Senate regarding the Kihei Area Erosion project in Hawaii. It is the intent of the conferees that the Kihei Area Erosion study shall include an analysis of the extent and causes of the shoreline erosion. Further, a regional economic development (RED) analysis shall be included. The results of the RED analysis shall be displayed in all study documents along with the traditional benefit-cost analysis including recommendations of the Chief of Engineers.

The conference agreement does not include language proposed by the Senate regarding the Waikiki Erosion Control project in Hawaii. It is the intent of the conferees that the Waikiki Erosion Control study shall include an analysis of environmental resources that have been, or may be, threatened by erosion of the shoreline. Further, a regional economic development (RED) analysis shall be included. The results of the RED analysis shall be displayed in all study documents along with the traditional benefit-cost analysis including recommendations of the Chief of Engineers.

The conference agreement does not include language proposed by the Senate directing the Secretary of the Army to conduct a study to determine the need for providing additional crossing capacity across the Chesapeake and Delaware Canal. The con-

ference agreement includes \$50,000 under Operation and Maintenance, General for the Corps of Engineers to conduct a study to determine the adequacy and timing for maintaining good and sufficient crossings across the Chesapeake and Delaware Canal.

The conference agreement does not include language proposed by the Senate expressing the sense of the Senate concerning dredging of the main channel of the Delaware River and language proposed by the Senate regarding the Historic Area Remediation Site.

The conference agreement deletes language proposed by the Senate regarding the Missouri River Master Water Control Man-

#### TITLE II

# DEPARTMENT OF THE INTERIOR CENTRAL UTAH PROJECT

CENTRAL UTAH PROJECT COMPLETION ACCOUNT

The conference agreement appropriates \$39,940,000 to carry out the provisions of the Central Utah Project Completion Act as proposed by the House and the Senate.

#### BUREAU OF RECLAMATION

The summary tables at the end of this title set forth the conference agreement with respect to the individual appropriations, programs and activities of the Bureau of Reclamation. Additional items of the conference agreement are discussed below.

#### WATER AND RELATED RESOURCES

The conference agreement appropriates \$678,450,000 for Water and Related Resources instead of \$635,777,000 as proposed by the House and \$655,192,000 as proposed by the Senate.

The conference agreement includes \$39,467,000 for the Central Arizona Project as proposed by the House.

The additional funds provided by the House under the California Investigations Program for studies of ways to increase the reliability of water supplies in southern Orange County, California, have been included under the Southern California Investigations Program.

The conference agreement includes an additional \$1,000,000 for the Columbia and Snake Rivers Salmon Recovery project. The additional funds may be used for water acquisition and other actions that may be required by Endangered Species Act biological opinions concerning the operation and maintenance of Bureau of Reclamation projects.

The conference agreement includes an increase of \$4,758,000 over the budget request for the Middle Rio Grande project in New Mexico for the Bureau of Reclamation to undertake research, monitoring, and modeling of evapotranspiration, implement a program for the transplant of silvery minnow larvae and young-of-year, and carry out habitat conservation and restoration activities along the middle Rio Grande River valley as specified in the Senate report. Additional funding is also provided for Bureau of Reclamation participation in the recent settlement regarding the recovery of the Rio Grande silvery minnow.

The conference agreement includes \$2,960,000 for the Title XVI Water Reclamation and Reuse Program. Of the funds provided, \$500,000 is provided for the Bureau of Reclamation to participate with the City of Espanola, New Mexico, in a feasibility study to investigate opportunities to reclaim and reuse municipal wastewater and naturally impaired surface and groundwater, and \$300,000 is provided to continue the Phoenix Metropolitan Water Reclamation and Reuse (Aqua Fria) project in Arizona. In addition, \$1,000,000 is provided for the Bureau of Reclamation to support the WateReuse Foundation's research program as described in the House report.

The conferees have provided \$5,000,000 for the Drought Emergency Assistance Program to address the severe drought conditions that currently exist in New Mexico and other western states. The conferees direct the attention of the Bureau of Reclamation to the need for the acquisition of water for the San Carlos Reservoir on the Gila River in Arizona.

The conference agreement includes \$8,500,000 for the Native American Affairs

Program of the Bureau of Reclamation, of which \$200,000 is for the Bureau to undertake studies, in consultation and cooperation with the Jicarilla Apache Tribe, of the most feasible method of developing a safe and adequate municipal, rural and industrial water supply for the residents of the Jicarilla Apache Indian Reservation in New Mexico.

Of the amount provided for the Wetlands Development Program, \$1,500,000 is provided for design and construction of the restoration of the Upper Truckee River in the vicinity of the airport at South Lake Tahoe, California, including channel realignment, and meadow and floodplain restoration.

The conference agreement deletes language proposed by the House which provides that none of the funds appropriated in the Act may be used by the Bureau of Reclamation for closure of the Auburn Dam, California, diversion tunnel or restoration of the American River channel through the Auburn Dam construction site.

The conferees have included language in the bill proposed by the Senate which provides that \$16,000,000 shall be available for the Rocky Boys Indian Water Rights Settlement project in Montana; provides that not more than \$500,000 shall be available for projects carried out by the Youth Conservation Corps; increases the amount authorized for Indian municipal, rural, and industrial water features of the Garrison Diversion project in North Dakota by \$2,000,000; and amends the Reclamation Safety of Dams Act of 1978.

The conference agreement deletes bill language proposed by the Senate providing \$2,300,000 for the Albuquerque Metropolitan Area Water Reclamation and Reuse project. Funding for this project is included in the total amount appropriated for Water and Related Resources

# BUREAU OF RECLAMATION LOAN PROGRAM ACCOUNT

The conference agreement appropriates \$9,369,000 for the Bureau of Reclamation Loan Program account as proposed by the House and the Senate.

CENTRAL VALLEY PROJECT RESTORATION FUND

The conference agreement appropriates \$38,382,000 for the Central Valley Project Restoration Fund as proposed by the House and the Senate.

#### POLICY AND ADMINISTRATION

The conference agreement appropriates \$50,224,000 for Policy and Administration as proposed by the Senate instead of \$47,000,000 as proposed by the House.

#### GENERAL PROVISIONS

#### DEPARTMENT OF THE INTERIOR

Section 201. The conference agreement includes language proposed by the House which provides that none of the funds appropriated by this or any other Act may be used to purchase or lease water in the Middle Rio Grande or Carlsbad projects in New Mexico unless the purchase or lease is in compliance with the requirements of section 202 of Public Law 106-60.

Section 202. The conference agreement includes language proposed by the Senate which provides that funds for Drought Emergency Assistance are to be used primarily for leasing of water for specified drought related purposes from willing lessors in compliance with State laws. The language also provides that leases may be entered into with an option to purchase provided the purchase is ap-

proved in the State in which the purchase takes place and does not cause economic harm in the State in which the purchase is made.

Section 203. The conference agreement includes language proposed by the House which provides authority to the Secretary of the Interior to make an annual assessment upon Central Valley Project water and power contractors for the purpose of making an annual payment to the Trinity Public Utilities District. The language has been amended to clarify that the payments to the Trinity Public Utilities District will be made without the need for appropriations.

Section 204. The conference agreement includes language proposed by the Senate regarding the activities of the Glen Canyon Dam Adaptive Management Program. The language in the Senate bill has been amended to increase the funding limit for the program to not more than \$7,850,000, adjusted for inflation, and to not preclude voluntary contributions to the Adaptive Management Program.

Section 205. The conference agreement includes language proposed by the Senate which authorizes and directs the Secretary of the Interior to use not to exceed \$1,000,000 to refund amounts received by the United States as payments for charges assessed by the Secretary prior to January 1, 1994, for failure to file certain certification or reporting forms prior to the receipt of project water pursuant to sections 206 and 224(c) of the Reclamation Reform Act of 1982.

Section 206. The conference agreement includes language proposed by the Senate which amends the Canyon Ferry Reservoir, Montana, Act.

Section 207. The conference agreement includes language proposed by the Senate which provides that beginning in fiscal year 2000 and thereafter, any amounts provided for the Newlands Water Rights Fund for purchasing and retiring water rights in the Newlands Reclamation Project shall be non-reimbursable.

Section 208. The conference agreement includes language proposed by the Senate which permits the use of Colorado-Big Thompson Project facilities for nonproject water.

Section 209. The conference agreement includes language proposed by the Senate which amends the Irrigation Project Contract Extension Act of 1998.

Section 210. The conference agreement includes a provision proposed by the Senate which extends through fiscal year 2001 the prohibition on the use of funds to further reallocate Central Arizona Project water until the enactment of legislation authorizing and directing the Secretary of the Interior to make allocations and enter into contracts for the delivery of Central Arizona Project water.

Section 211. The conference agreement includes language which amends the San Luis Rey Indian Water Rights Settlement Act, Public Law 100–675.

Section 212. The conference agreement includes language providing for the conveyance of the Sly Park Unit in California to the El Dorado Irrigation District.

Provision not included in the conference agreement.—The conference agreement does not include a provision proposed by the Senate related to recreation development within the State of Montana.

#### TITLE III

#### DEPARTMENT OF ENERGY

The summary tables at the end of this title set forth the conference agreement with respect to the individual appropriations, programs, and activities of the Department of Energy. Additional items of conference agreement are discussed below.

#### PROJECT MANAGEMENT

The conferees strongly support progress being made by the Office of Engineering and Construction Management in bringing standardization, discipline, oversight, and increased professionalism to the Department's project management efforts. The project engineering and design (PED) process developed by the Department represents significant progress toward corserious management deficiencies recting that have historically plagued the Department's construction projects. The conferees believe that implementation of the PED process for all construction and environmental projects throughout the Department will provide the assurance necessary to eliminate the current requirement for an external independent review of all projects prior to releasing funds for construction. The conferees expect the continuation of the external independent review process as discussed in both the House and Senate reports.

#### PASSENGER MOTOR VEHICLES

The conferees have provided statutory limitations on the number of passenger motor vehicles that can be purchased by the Department of Energy in fiscal year 2001. These limitations are included each year, but the Department has been interpreting this limitation to mean that sport utility vehicles are not considered passenger motor vehicles and do not count against the appropriation ceiling. The conferees consider this to be disingenuous at best and a violation of the appropriations language at worst.

The conferees expect the Department to adhere strictly to the limits set for the purchase of motor vehicles. It is the intention of the conferees in prescribing these limitations that sport utility vehicles are to be considered passenger motor vehicles and, therefore, subject to the limitation. Further, the Department is to provide a full and complete accounting of the current motor vehicle inventory at each location. The Department should work with the Committees on Appropriations to ensure that the report provides the necessary information.

#### CONTRACTOR TRAVEL

The conference agreement includes a statutory provision limiting reimbursement of Department of Energy management and operating contractors for travel expenses to not more than \$185,000,000. This limitation consists of \$175,000,000 for contractor travel and a reserve fund of \$10,000,000 to be administered by the Department's Chief Financial Officer and released for emergency travel requirements.

The Department had requested \$200,000,000 for contractor travel. The reduction in fiscal year 2001 is not to be prorated, but should be applied to those organizations that appear to have the most questionable travel practices. This is not meant to restrict trips between laboratories to coordinate on program issues.

#### INDEPENDENT CENTERS

The Department is to identify all independent centers at each DOE laboratory and facility in the fiscal year 2002 budget submission. These centers are to be funded directly in program accounts, rather than overhead,

with the exception of those centers which clearly benefit more than one program at a laboratory or facility. The Department is directed to provide a list of any centers that are funded through overhead accounts with the fiscal year 2002 budget submission.

#### REPROGRAMMINGS

The conference agreement does not provide the Department of Energy with any internal reprogramming flexibility in fiscal year 2001 unless specifically identified by the House, Senate, or conference agreement. Any reallocation of new or prior year budget authority or prior year deobligations must be submitted to the House and Senate Committees on Appropriations in advance, in writing, and may not be implemented prior to approval by the Committees.

# $\begin{array}{c} {\tt LABORATORY\ DIRECTED\ RESEARCH\ AND} \\ {\tt DEVELOPMENT} \end{array}$

The conference agreement includes an allowance of six percent for the laboratory directed research and development (LDRD) program and two percent for nuclear weapons production plants. Travel costs for LDRD are exempt from the contractor travel ceiling. The conferees direct the Department's Chief Financial Officer to develop and execute a financial accounting report of LDRD expenditures by laboratory and weapons production plant. This report, due to the House and Senate Committees on Appropriations by December 31, 2000, and each year thereafter, should provide costs by personnel salaries, equipment, and travel. The Department should work with the Committees on the specific information to be included in the report.

# SAFEGUARDS AND SECURITY BUDGET AMENDMENT

The conferees have chosen to reflect the amounts requested for safeguards and security funding in the manner proposed in the budget amendment submitted to Congress by the Department. Adjustments have been made in each account to reflect the consolidation of safeguards and security costs into a few major accounts and the transfer of these costs from overhead accounts to specific program line items. However, the conferees do not concur with the amendment to the extent its purpose is to reorganize all safeguards and security functions at the Department under the control and direction of the Office of Security and Emergency Operations, or any other entity not part of line management. The conferees agree that the direct responsibility for safeguards and security must be united and integrated with the responsibility of line operations.

# ADDITIONAL DEPARTMENT OF ENERGY REQUIREMENTS

The conferees agree with the House report language on augmenting Federal staff, overhead costs reviews and reprogramming guidelines.

# GENERAL REDUCTIONS NECESSARY TO ACCOMMODATE SPECIFIC PROGRAM DIRECTIONS

The Department is directed to provide a report to the House and Senate Committees on Appropriations by January 15, 2001, on the actual application of any general reductions of funding or use of prior year balances contained in the conference agreement. In general, such reductions should not be applied disproportionately against any program, project, or activity. However, the conferees are aware there may be instances where proportional reductions would adversely impact critical programs and other allocations may be necessary. The report should also include the distribution of the safeguards and security funding adjustments.

#### ENERGY SUPPLY

The conference agreement provides \$660,574,000 for Energy Supply instead of \$616,482,000 as proposed by the House and \$691,520,000 as proposed by the Senate. The conference agreement includes the House proposal to make funds available until expended rather than the Senate proposal to limit availability to two years. The conference agreement does not include the Senate bill language transferring funds from the United States Enrichment Corporation or earmarking funds for a variety of projects to demonstrate alternative energy nologies.

#### RENEWABLE ENERGY RESOURCES

The conference agreement provides \$422,085,000 instead of \$390,519,000 as proposed by the House and \$444,117,000 as proposed by the Senate for renewable energy resources.

Biomass/biofuels.—The conference agreement includes \$112,900,000 for biomass/biofuels. The conferees have provided \$26,740,000 for research to be managed by the Office of Science, the same as the budget request. The conference agreement includes \$40,000,000 for power systems and \$46,160,000 for the transportation program. The conference agreement does not include prescriptive language specifying funding allocations as contained in the House and Senate reports.

The conferees encourage the Department to continue the integrated approach to bioenergy activities and recommend the use of up to \$18,000,000 within available funds for the bioenergy initiative. Funding for this initiative may be derived from both the power and transportation programs.

In the power program, the conference agreement provides \$2,000,000 for the Iowa switch grass project which is a multi-year project; \$4,000,000 for the McNeill biomass plant in Burlington, Vermont; \$395,000 for the final Federal contribution to the project: Vermont agriculture methane \$500,000 for the bioreactor landfill project to be administered by the Environmental Education and Research Foundation and Michigan State University; \$1,000,000 for methane energy and agriculture development (MEAD) in Tillamook Bay, Oregon; and \$1,000,000 for the Mount Wachusett College biomass conversion project in Massachusetts.

The Department is to accelerate the largescale biomass demonstration at the Winona, Mississippi, site.

The conference agreement provides \$4,000,000 in power systems to support a project to demonstrate a commercial facility employing the thermo-depolymerization technology at a site adjacent to the Nevada Test Site. The project shall proceed on a cost-shared basis where Federal funding shall be matched in at least an equal amount with non-Federal funding.

In the transportation program, the conference agreement provides \$1,000,000 for continuation of biomass research at the Energy and Environmental Research Center on the integration of biomass with fossil fuels for advanced power systems transportation fuels; \$600,000 for the University of Louisville to work on the design of bioreactors for production of fuels and chemicals for ethanol production; and \$2,000,000 for the design and construction of a demonstration facility for regional biomass ethanol manufacturing in southeast Alaska.

The conference agreement also includes \$2,000,000 for the Michigan Biotechnology Institute to be derived equally from power and transportation systems.

Funding allocated by the Department for the regional biomass program and feedstock production should be derived equally from the power and transportation programs.

Geothermal.—The conference agreement includes \$27,000,000 for geothermal activities. The conference agreement does not include language specifying funding allocations as contained in the Senate report. The conferees have provided \$2,000,000 to complete the Lake County Basin 2000 Geothermal project in Lake County, California.

Hydrogen.—The conference agreement includes \$29,970,000 for hydrogen activities, including \$350,000 for the Montana Trade Port Authority in Billings, Montana; \$250,000 for the gasification of Iowa switch grass; and \$800,000 for the ITM Syngas project.

The conferees have also provided \$2,000,000 for the multi-year demonstration of an underground mining locomotive and an earth loader powered by hydrogen at existing facilities within the State of Nevada. The demonstration is subject to a private sector industry cost-share of not less than an equal amount, and a portion of these funds may also be used to acquire a prototype hydrogen fueling appliance to provide on-site hydrogen in the demonstration.

Hydropower.—The conference agreement includes \$5,000,000 for hydropower. The conferees are aware that the Department is funding research that is supposed to be applicable to the needs of the large dams in the northwest United States. The Department is concerned that the Federal power marketing administrations are not involved in developing this research program. The Department is directed to provide a report coordinated with the power marketing administrations that indicates how this hydropower research is applicable to the current and future needs of the power marketing administrations and the schedule by which this research will provide useable products.

Solar Energy.—The conference agreement includes \$110,632,000 for solar energy programs. The conference agreement does not include language specifying funding allocations as contained in the House and Senate reports

The conference agreement provides \$13,800,000 for concentrating solar power, including \$1,000,000 to initiate planning of a one MW dish engine field validation power project at the University of Nevada-Las Vegas.

The conference agreement includes \$78,622,000 for photovoltaic energy systems, including up to \$3,000,000 for the million solar roofs initiative. The conferees have provided \$1,500,000 for the Southeast and Southwest photovoltaic experiment stations.

The conference agreement includes \$3,950,000 for solar building technology research.

Wind.—The conference agreement includes \$40,283,000 for wind programs. The conference agreement does not include prescriptive language specifying allocations as included in the Senate report. The conferees have provided \$1,000,000 for the Kotzebue wind project. Of the funding for wind energy systems, not less than \$5,000,000 shall be made available for new and ongoing small wind programs, including not less than \$2,000,000 for the small wind turbine development project. From within available funds, \$100,000 has been provided for a wind turbine and for educational purposes at the Turtle Mountain Community College in North Dakota.

Electric energy systems and storage.—The conference agreement includes \$52,000,000 for electric energy systems and storage. The conferees urge the Department to support the university, industry-based partnership at

the University of California-Irvine Advanced Power and Energy Program to conduct energy and information related technology demonstrations to accelerate the development and deployment of cost-efficient technologies benefiting all energy consumers affected by a deregulated energy industry.

The conference agreement includes \$6,000,000 to accelerate the development and application of high temperature superconductor technologies through joint efforts among DOE laboratories, universities, and industry to be led by Los Alamos and Oak Ridge National Laboratories.

The conference agreement includes \$500,000 for completion of the distributed power demonstration project begun last year at the Nevada Test Site.

Renewable Support and Implementation.— The conference agreement includes \$21,600,000 for renewable support and implementation programs.

The Federal Energy Management Program should report to the Committees on Appropriations by December 31, 2001, on the accomplishments of the Departmental energy management program with the fiscal year 2001 appropriations including the number of energy efficiency projects funded, the number of energy savings performance contracts supported, and the total estimated savings.

From within available funds, the conference agreement provides \$1,000,000 for the Office of Arctic Energy as proposed by the Senate.

The conference agreement includes \$5,000,000 for the international renewable energy program. Of this amount, \$1,000,000 is to be provided to International Utility Efficiency Partnerships, Inc. (IUEP). The IUEP shall competitively award all projects, continuing its leadership role in reducing carbon dioxide emissions using voluntary market-based mechanisms.

The conference agreement includes \$4,000,000 for the renewable energy production incentive program.

The conference agreement includes \$6,600,000 for renewable Indian energy resources projects as proposed by the Senate.

The conference agreement includes \$4,000,000 for renewable program support, of which \$1,000,000 is for an Indoor Air Quality and Energy Conservation Research Planning grant to study and develop technologies to improve air quality within homes and buildings.

Program direction.—The conference agreement includes \$18,700,000 for program direction. The conferees have provided additional funding to support implementation of the management reforms identified in the recent National Academy of Public Administration review.

#### NUCLEAR ENERGY

The conference agreement provides \$259,925,000 for nuclear energy activities instead of \$231,815,000 as proposed by the House and \$262,084,000 as proposed by the Senate.

Advanced radioisotope power systems.—The conference agreement includes \$32,200,000, an increase over the budget request of \$30,864,000. The additional funds are to maintain the infrastructure to support future national security needs and NASA missions.

Isotope support.—The conference agreement includes a total program level of \$27,215,000 for the isotope program. This amount is reduced by offsetting collections of \$8,000,000 to be received in fiscal year 2001, resulting in a net appropriation of \$19,215,000. The conferees understand that the total estimated cost of Project 99–E–201, the isotope production facility at Los Alamos National Labora-

tory, has increased significantly due to factors outside the control of the Office of Nuclear Energy and have included \$2,500,000 to partially cover these additional costs.

University reactor fuel assistance and support.—The conference agreement includes \$12,000,000, the same as the budget request.

Research and development.—The conference agreement provides \$47,500,000 for nuclear energy research and development activities.

The conference agreement includes \$5,000,000, the same as the budget request, for nuclear energy plant optimization. The conferees direct the Department to ensure that projects are funded jointly with non-Federal partners and that total non-Federal contributions are equal to or in excess of total Department contributions to projects funded in this program.

The conferees have provided \$35,000,000 for the nuclear energy research initiative.

conference agreement \$7,500,000 for nuclear energy technologies. The Senate had included these activities in the nuclear energy research initiative program. Funding of \$4,500,000 is provided to develop a road map for the commercial deployment of a next generation power reactor; \$1,000,000 for the preparation of a detailed assessment that analyzes and describes the changes needed to existing advanced light water reactor (ALWR) designs; \$1,000,000 for planning and implementation of initiatives in support of an advanced gas reactor; and \$1,000,000 to undertake a study to determine the feasibility of deployment of small modular reactors.

Infrastructure.—The conference agreement includes the budget request of \$39,150,000 for ANL-West Operations, \$9,000,000 for test reactor landlord activities, and \$44,010,000 for the Fast Flux Test Facility.

Nuclear facilities management.—The conference agreement adopts the budget structure proposed by the House and provides \$34,850,000 for nuclear facilities management activities, the same as the budget request.

The conference agreement provides the full amount of the budget request to complete draining and processing EBR-II primary sodium. The conferees direct the Department to notify the House and Senate Committees on Appropriations immediately if any issues arise that would delay the Department's scheduled date to complete these activities.

Uranium programs.—The conference agreement transfers the budget request of \$53,400,000 for uranium programs to a new appropriation account, Uranium Facilities Maintenance and Remediation.

Program direction.—The conference agreement includes \$22,000,000 for program direction. This reduction reflects the transfer of 25 employees in the field and up to 5 employees at Headquarters who managed the uranium programs to the Office of Environmental Management.

### ENVIRONMENT, SAFETY AND HEALTH

The conference agreement includes \$35,998,000 for non-defense environment, safety and health activities. The conferees direct that the reduction from the budget request be directed to eliminate lower-priority activities currently funded in this program. The conference agreement includes \$1,000,000 to be transferred to the Occupational Safety and Health Administration as proposed by the House. The conferees expect the Department to budget for this activity in fiscal year 2002.

# TECHNICAL INFORMATION MANAGEMENT PROGRAM

The conference agreement includes \$8,600,000 as proposed by the Senate.

#### FUNDING ADJUSTMENTS

The conference agreement also includes \$47,100,000, the same amount as the budget request, for research performed by the Office of Science related to renewable energy technologies, and \$2,352,000 proposed as an offset from nuclear energy royalties to be received in fiscal year 2001. A reduction of \$16,582,000 reflects the transfer of safeguards and security costs in accordance with the Department's amended budget request.

#### NON-DEFENSE ENVIRONMENTAL MANAGEMENT

provides The conference agreement \$277,812,000 for Non-Defense Environmental Management instead of \$281,001,000 as proposed by the House and \$309,141,000 as proposed by the Senate. Funding of \$5,000,000 is provided to expedite environmental cleanup at the Brookhaven National Laboratory. No funding has been provided for the Atlas site in Moab, Utah, which has not been author-The recommendation ized. transfers \$1,900,000 from the post-2006 program to the site/project completion program to maintain the schedule for completing cleanup of three Oakland geographic sites.

# URANIUM FACILITIES MAINTENANCE AND REMEDIATION

The conference agreement provides \$393,367,000 for uranium activities instead of \$301,400,000 as proposed by the House and \$297,778,000 as proposed by the Senate, and adopts the budget structure proposed by the House.

# URANIUM ENRICHMENT DECONTAMINATION AND DECOMMISSIONING FUND

The conference agreement includes \$345,038,000 for the uranium enrichment decontamination and decommissioning fund. This includes \$273,038,000 for cleanup activities and \$72,000,000 for uranium and thorium reimbursements. The conferees recognize there are eligible uranium and thorium licensee claims under Title X of the Energy Policy Act that have been approved for reimbursement, but not yet paid in full. Additional funding of \$42,000,000 over the budget request of \$30,000,000 has been provided for these payments.

### URANIUM PROGRAMS

The conference agreement provides \$62,400,000 for uranium activities, an increase of \$9,000,000 over the budget request of \$53,400,000. Additional funding of \$9,000,000, as proposed by the Senate, has been provided for activities associated with the depleted uranium hexafluoride (DUF6) management and conversion project.

### DOMESTIC URANIUM INDUSTRY

The conferees are very concerned about the front end of the U.S. nuclear fuel cycle. The conferees direct the Secretary to work with the President and other Federal agencies to ensure that current laws with respect to the privatization of USEC and with respect to the implementation of the Russian HEU agreement and their impact on United States domestic capabilities are carried out. In addition, the Secretary is instructed to take timely measures to ensure that conversion capability is not lost in the United States. The conferees expect that any such measures will not interfere with the implementation of the Russian HEU agreement and the important national security goals it is accomplishing.

The conferees direct the Secretary to undertake an evaluation and make specific recommendations on the various options to sustain a domestic uranium enrichment industry in the short and long-term to be delivered to Congress no later than December 31,

2000. The Secretary's evaluation shall include recommendations for dealing with the Portsmouth facility and its role in maintaining a secure and sufficient domestic supply of enriched uranium. Further, this investigation should consider the technological viability and commercial feasibility of all proposed enrichment technologies including various centrifuge options, AVLIS and SILEX technologies, or other emerging technology. The evaluation should also consider the role of the Federal government in developing and supporting the implementation and regulation of these new technologies in order to secure a reliable and competitive source of domestic nuclear fuel.

#### FUNDING ADJUSTMENT

A reduction of \$14,071,000 reflects the transfer of safeguards and security costs in accordance with the Department's amended budget request.

#### SCIENCE

The conference agreement provides \$3,186,352,000 instead of \$2,830,915,000 as proposed by the House and \$2,870,112,000 as proposed by the Senate. The conference agreement does not include the Senate language earmarking funds for various purposes and limiting funding for the small business innovation research program.

High energy physics.—The conference agreement provides \$726,130,000 for high energy physics and reflects the adjustments recommended in the Science budget amendment submitted by the Department. Funding of \$230,931,000 has been provided for facility operations at the Fermi National Accelerator Laboratory.

Nuclear physics.—The conference agreement provides \$369,890,000 for nuclear physics, the same as the original budget request.

Biological and environmental research.—The conference agreement includes \$500,260,000 for biological and environmental research. The conferees have included \$20,135,000 for the low-dose effects program, an increase of \$8,453,000 over the budget request. The conference agreement provides \$9,000,000 for molecular nuclear medicine.

The conferees have provided the budget request of \$2,500,000 for the Laboratory for Comparative and Functional Genomics at Oak Ridge National Laboratory.

conference agreement includes \$2,000,000 for the Discovery Science Center in Orange County, California; \$1,500,000 for the Children's Hospital emergency power plant in San Diego; \$1,000,000 for the Center for Science and Education at the University of San Diego; \$500,000 for the bone marrow transplant program at Children's Hospital Medical Center Foundation in Oakland, California; \$1,000,000 for the North Shore Long Island Jewish Health System in New York; \$1,700,000 for the Museum of Science and Industry in Chicago; \$2,000,000 for the Livingston Digital Millenium Center to be located at Tulane University; and \$1,000,000 for the Center for Nuclear Magnetic Resonance at the University of Alabama-Birmingham.

The conference agreement includes \$3,000,000 for the Nanotechnology Engineering Center at the University of Notre Dame in South Bend, Indiana; \$2,000,000 for the School of Public Health at the University of South Carolina for modernization upgrades; \$2,000,000 for the National Center for Musculoskeletal Research at the Hospital for Special Surgery in New York; and \$1,300,000 for the Western States Visibility Assessment Program at New Mexico Tech to trace emissions resulting from energy consumption.

The conference agreement includes \$1,000,000 for high temperature super con-

ducting research and development at Boston College; \$2,500,000 for the positron emission tomography facility at West Virginia University; \$1,000,000 for the advanced medical imaging center at Hampton University; \$500,000 for the Natural Energy Laboratory in Hawaii; \$800,000 for the Child Health Institute of New Brunswick, New Jersey; and \$900,000 for the linear accelerator for University Medical Center of Southern Nevada.

The conference agreement also includes \$200,000 for the study of biological effects of low level radioactive activity at University of Nevada-Las Vegas; \$1,000,000 for the Medical University of South Carolina Oncology Center; \$11,000,000 for development of technologies using advanced functional brain imaging methodologies, including for conduct of magnetoencephalography, basic research in mental illness and neurological disorders, and for construction; \$2,000,000 for a science and technology facility at New Mexico Highlands University; \$2,000,000 for the University of Missouri-Columbia to expand the federal investment in the university's nuclear medicine and cancer research capital program; and \$2,000,000 for the Inland Northwest Natural Resources Research Center at Gonzaga University.

Basic energy sciences.—The conference agreement includes \$1,013,370,000 for basic energy sciences. The conferees have included \$8,000,000 for the Experimental Program to Stimulate Competitive Research (EPSCoR).

Spallation Neutron Source.—The recommendation includes \$278,600,000, including \$259,500,000 for construction and \$19,100,000 for related research and development, the same as the amended budget request, for the Spallation Neutron Source.

Advanced scientific computing research.—The conference agreement includes \$170,000,000 for advanced scientific computing research.

Energy research analyses.—The conference agreement includes \$1,000,000 for energy research analyses, the same amount provided by the House and the Senate.

Multiprogram energy labs—facility support.— The conference agreement includes \$33,930,000 for multi-program energy labs-facility support.

Fusion energy sciences.—The conference agreement includes \$255,000,000, as proposed by the House, for fusion energy sciences.

Safeguards and security.—Consistent with the Department's amended budget request for safeguards and security, the conference agreement includes \$49,818,000 for safeguards and security activities at laboratories and facilities managed by the Office of Science. This is offset by a reduction of \$38,244,000 that is to be allocated among the various programs which budgeted for safeguards and security costs in their overhead accounts.

Program Direction.—The conference agreement includes \$139,245,000 for program direction. Funding of \$4,500,000 has been provided for science education.

Funding adjustments.—A reduction of \$38,244,000 reflects the allocation of safeguards and security costs in accordance with the Department's amended budget request. A general reduction of \$34, 047,000 has been applied to this account.

### NUCLEAR WASTE DISPOSAL

The conference agreement provides \$191,074,000 for Nuclear Waste Disposal instead of \$213,000,000 as proposed by the House and \$59,175,000 as proposed by the Senate. Combined with the appropriation of \$200,000,000 to the Defense Nuclear Waste Disposal account, a total of \$391,074,000 will be available for program activities in fiscal year 2001. The funding level reflects a reduction of \$39,500,000 from the budget request

and the transfer of \$6,926,000 in safeguards and security costs in accordance with the Department's amended budget request.

In addition, the conferees recommend that \$10,000,000 of funds previously appropriated for interim waste storage activities in Public Law 104-46 may be made available upon written certification by the Secretary of Energy to the House and Senate Committees on Appropriations that the site recommendation report cannot be completed on time without additional funding.

Site recommendation report.—The conferees reiterate the expectation by Congress that the Department submit its site recommendation report in July 2001 according to the current schedule. While the conference agreement does not provide the full funding requested by the Department, the conferees expect the Department to promptly submit a reprogramming request if it becomes apparent that limited funding will delay the site recommendation report beyond July 2001.

The conferees further expect that, if the site is approved, the Department will continue to analyze further design improvements and enhancements between that time and the submittal of a license application to the Nuclear Regulatory Commission.

State oversight funding.—The conference agreement includes \$2,500,000 for the State of Nevada. This funding will be provided to the Department of Energy which will reimburse the State for actual expenditures on appropriate scientific oversight responsibilities conducted pursuant to the Nuclear Waste Policy Act of 1982. These funds are to be provided to the Nevada Division of Emergency Management for program management and execution and may not be used for payment of salaries and expenses for State employees.

Local oversight funding.—The conference agreement includes \$6,000,000 for affected units of local government. The conferees expect the Department to provide the full amount of funding allocated to the State and local counties for oversight activities. Any proposed reduction to the amounts identified by Congress for State and local oversight will require prior approval of a reprogramming request by the Committees on Appropriations.

Limitation on the use of funds to promote or advertise public tours.—The conferees direct that none of the funds be used to promote or advertise any public tour of the Yucca Mountain facility, other than public notice that is required by statute or regulation.

#### DEPARTMENTAL ADMINISTRATION

The conference agreement provides \$226,107,000 for Departmental Administration instead of \$153,527,000 as proposed by the House and \$210,128,000 as proposed by the Senate. Additional funding adjustments include a transfer of \$25,000,000 from Other Defense Activities; the use of \$8,000,000 of prior year balances; and a reduction of \$18,000 for safeguards and security costs. Revenues of \$151,000,000 are estimated to be received in fiscal year 2001, resulting in a net appropriation of \$75,107,000.

The conference agreement provides \$5,000,000 for the Office of the Secretary as proposed by the House. All funds for the newly established National Nuclear Security Administration have been provided in the defense portion of this bill.

The conference agreement provides \$32,148,000 for the Chief Financial Officer, an increase of \$1,400,000 over the budget request of \$30,748,000. These additional funds are to support the DOE project management career development program.

Working capital fund.—The conference agreement does not include statutory lan-

guage proposed by the House prohibiting funding Federal employee salaries and expenses in the working capital fund. However, any proposal by the Department to transfer salaries and expenses to the working capital fund will require prior approval by the House and Senate Committees on Appropriations.

Cost of work for others.—The conference agreement includes a one-time increase of \$40,000,000 in the cost of work for others program to accommodate safeguards and security requirements. It is anticipated that this amount will be offset by an estimated \$40,000,000 in revenues derived from non-Department of Energy customers for the purpose of funding safeguards and security activities throughout the Department. In fiscal year 2002 and beyond, the conferees expect the Department to submit a safeguards and security budget that includes amounts obtained previously from other agencies or customers.

#### OFFICE OF THE INSPECTOR GENERAL

The conference agreement provides \$31,500,000 for the Inspector General as proposed by the House instead of \$28,988,000 as proposed by the Senate. The conference agreement does not include statutory language proposed by the House requiring a study of the economic basis of recent gasoline price levels.

# ATOMIC ENERGY DEFENSE ACTIVITIES NATIONAL NUCLEAR SECURITY

### ADMINISTRATION

The conferees support the Administrator's efforts to establish and fill critical positions within the National Nuclear Security Administration (NNSA). The conferees agree that the Administrator's authority should not be impacted by any action that would otherwise limit or preclude hiring which may occur as a result of a change of administrations, and that the Administrator should to the maximum extent possible under applicable statutes proceed with effecting appointments.

### WEAPONS ACTIVITIES

The conference agreement provides \$5,015,186,000 for Weapons Activities instead of \$4,579,684,000 as proposed by the House and \$4,883,289,000 as proposed by the Senate. Statutory language proposed by the House limiting the funds availability to two years has not been included by the conferees.

Reprogramming.—The conference agreement provides limited reprogramming authority of \$5,000,000 or 5 percent, whichever is less, within the Weapons Activities account without submission of a reprogramming to be approved in advance by the House and Senate Committees on Appropriations. No individual program account may be increased or decreased by more than this amount during the fiscal year using this reprogramming authority. This should provide the needed flexibility to manage this account.

Congressional notification within 30 days of the use of this reprogramming authority is required. Transfers which would result in increases or decreases in excess of \$5,000,000 or 5 percent to an individual program account during the fiscal year require prior notification and approval from the House and Senate Committees on Appropriations.

The Department is directed to submit a report to the Committees on Appropriations by January 15, 2001, that reflects the allocation of the safeguards and security reduction, the use of prior year balances and the application of general reductions, and any proposed accounting adjustments.

Directed stockpile work.—In stockpile research and development, additional funding

of \$19,000,000 has been provided for life extension development activities and to support additional sub-critical experiments. Additional funding of \$10,000,000 has been provided to support activities required to maintain the delivery date for a certified pit. No additional funds are provided for cooperative research on hard and deeply buried targets.

Funding for stockpile maintenance has been increased by \$22,000,000 as follows: \$13,000,000 for life extension operations and development and engineering activities; \$5,000,000 for the Kansas City Plant; and \$4,000,000 for the Y-12 Plant.

Funding for stockpile evaluation has been increased by \$23,000,000 as follows: \$6,000,000 for the elimination of the testing backlog and joint test equipment procurements; \$8,000,000 for the Pantex Plant; \$6,000,000 for the Y-12 Plant; and \$3,000,000 for the Savannah River Plant.

Campaigns.—The conference agreement provides \$41,400,000 for pit certification, the same as the budget request. Additional funding of \$10,000,000 has been provided for dynamic materials properties to support the maintenance of core scientific capabilities, Liner Demonstration Experiments, and other various multi-campaign supporting physics demonstrations for the Atlas pulsed power facility at the Los Alamos National Laboratory and the Nevada Test Site.

An additional \$15,000,000 has been provided to support research, development and preconceptual design studies for an advanced hydrodynamic test facility using protons.

Additional funding of \$17,000,000 has been provided for enhanced surveillance activities as follows: \$3,000,000 for the Kansas City Plant; \$7,000,000 for the Pantex Plant; \$4,000,000 for the Y-12 Plant; \$1,000,000 for the Savannah River Plant; and \$2,000,000 to support accelerated deployment of test and diagnostic equipment.

Funding for pit manufacturing readiness is increased by \$17,000,000. An increase of \$2,000,000 is provided to initiate conceptual design work on a pit manufacturing facility. Additional funding of \$15,000,000 is provided to support the pit production program which is now behind schedule and over cost. The conferees strongly support the Senate language regarding the Department's lack of attention to this critical program and the requirement for a progress report by December 1, 2000, and each quarter thereafter.

An additional \$5,000,000 has been provided to the Y-12 Plant for secondary readiness.

Inertial Fusion.—The conference agreement includes \$449,600,000 for the inertial fusion program in the budget structure proposed by the House.

Additional funding of \$25,000,000 as proposed by the House has been provided to further development of high average power lasers. The conference agreement includes the budget request of \$9,750,000 for the Naval Research Laboratory and the budget request of \$32,150,000 for the University of Rochester. The conference agreement reflects the transfer of \$40,000,000 from National Ignition Facility (NIF) operations funding to the NIF construction project.

The conference agreement provides \$2,500,000 from within available funds to transfer the Petawatt Laser from Lawrence Livermore National Laboratory to the University of Nevada-Reno, as proposed by the Senate.

National Ignition Facility.—The conference agreement provides \$199,100,000 for continued construction of the National Ignition Facility (NIF). The conferees have included a directed reduction of \$25,000,000 in the Weapons

Activities account which is to be applied to programs under the direction of the Lawrence Livermore National Laboratory.

The conferees have included statutory language providing that only \$130,000,000 shall be made available for NIF at the beginning of fiscal year 2001 and the remaining \$69,100,000 shall be available only upon a certification after March 31, 2001, by the Administrator of the National Nuclear Security Administration that several requirements have been met. These requirements include:

A. A recommendation on an appropriate path forward for the project based on a detailed review of alternative construction options that would (1) focus on first achieving operation of a 48 or 96 beam laser; (2) allow for the full demonstration of a such a system in support of the stockpile stewardship program before proceeding with construction and operation of a larger laser complex; and (3) include a program and funding plan for the possible future upgrade to a full NIF configuration. The recommendation should include identification of available "off-ramps" and decision points where the project could be scaled to a smaller system.

B. Certification that project and scientific milestones as established in the revised construction project data sheet for the fourth quarter of fiscal year 2000 and the first two quarters of fiscal year 2001 have been met on schedule and on cost.

C. Certification that the first and second quarter project reviews in fiscal year 2001 determined the project to be on schedule and cost and have provided further validation to the proposed path forward.

D. Completion of a study that includes conclusions as to whether the full-scale NIF is required in order to maintain the safety and reliability of the current nuclear weapons stockpile, and whether alternatives to the NIF could achieve the objective of maintaining the safety and reliability of the current nuclear weapons stockpile.

E. Certification that the NIF project has implemented an integrated cost-schedule earned-value project control system by March 1, 2001.

F. A five-year budget plan for the stockpile stewardship program that fully describes how the NNSA intends to pay for NIF over the out years and what the potential for other impacts on the stockpile stewardship program will be.

The conferees remain concerned about the Department's proposed budget increase and schedule delay for the NIF at the Lawrence Livermore National Laboratory (LLNL). The conferees believe that previously the Department of Energy, and most recently the National Nuclear Security Administration (NNSA), may have failed to examine adequately options for NIF that have fewer than the full 192 beams. For example, a preferred course for NIF may be to complete 48 or 96 beams as soon as possible (although block procurement of infrastructure and glass may be considered), bring the reduced NIF into operation, perform the necessary scientific and technical tests to evaluate whether a full NIF will work and its impact on stockpile stewardship, and then develop a path forward for NIF that balances its scientific importance within the overall needs of the stockpile stewardship program. To move on this path in fiscal year 2001, the conferees recommend that \$199,100,000 be appropriated for NIF as follows: \$74,100,000 as originally proposed for Project 96-D-111, \$40,000,000 from NIF operations funding within the budget request for LLNL, \$25,000,000 to be identified within the budget request at LLNL, plus an additional \$60,000,000 in new appropriations.

Furthermore, the conferees direct the Administration to prepare a budget request for fiscal year 2002 that fully reflects a balanced set of programs and investments within the stockpile stewardship program, and that the overall budget profile over the next eight years will accommodate a \$3.4 billion NIF along with the other critical aspects of the program.

Defense computing and modeling.—The conference agreement provides \$786,175,000 for defense computing modeling and the Accelerated Strategic Computing Initiative in the budget structure proposed by the House. The recommendation is \$10,000,000 less than the budget request, and the reduction should be taken against lower priority activities.

Tritium.—A total of \$167,000,000 is provided for continued research and development on a new source of tritium. Funding of \$15,000,000 has been provided for design only activities in Project 98–D–126, Accelerator Production of Tritium.

Readiness in technical base and facilities.— The conference agreement includes several funding adjustments transferring funds from this program to individual campaigns.

For operations of facilities, \$137,300,000 has been transferred to the inertial fusion program. An additional \$36,000,000 has been provided to the production plants for replacement of critical infrastructure and equipment as follows: \$12,000,000 for the Kansas City Plant; \$12,000,000 for the Pantex Plant; \$10,000,000 for the Y-12 Plant; and \$2,000,000 for the Savannah River Plant.

Additional funding of \$10,000,000 has been provided for the operation of pulsed power facilities; \$20,000,000 for microsystems and microelectronics activities at the Sandia National Laboratory; \$7,000,000 for a replacement CMR facility at Los Alamos National Laboratory; and \$3,100,000 to fund the transition period for the new contractor at the Pantex Plant in Texas.

For program readiness, the conference agreement transfers \$7,400,000 to the inertial fusion program and adds \$6,100,000 for the TA-18 relocation.

For nuclear weapons incident response, a new program established in readiness technical base and facilities, the conference agreement provides \$56,289,000. Funding of \$44,205,000 for the nuclear emergency search team and \$12,084,000 for the accident response group was transferred from the emergency management program in the Other Defense Activities account.

Special projects are supported at the budget request of \$48,297,000. Additional funds have not been provided for AMTEX. From within available funds, \$1,000,000 has been provided to support a program in partnership with university systems to meet the needs of the NNSA.

For materials recycling, the conference agreement provides an additional \$8,000,000 to maintain restart schedules for hydrogen fluoride and wet chemistry operations at the Y-12 Plant

For containers, the conference agreement provides an additional \$4,000,000 to support the effort to repackage pits which is currently behind schedule at the Pantex Plant due to operational problems.

Funding for advanced simulation and computing has been transferred to the defense computing and modeling campaign.

The conference agreement does not provide additional funding to process uranium-233 as proposed by the Senate, but the conferees expect the Department to act expeditiously to

process this material in a manner that would retain and make available isotopes for beneficial use. The Department should provide to the House and Senate Committees a report on the status of this project by March 1, 2001.

Construction projects.—The conference agreement provides \$35,500,000 for preliminary project engineering and design. Funding of \$20,000,000 is provided for design and supporting infrastructure upgrades for the Microsystems and Engineering Sciences Applications facility at Sandia National Laboratory: \$5,000,000 for proof of concept and completion of facility operational capability for the Atlas pulsed power machine at the Nevada Test Site; and \$1,000,000 for initiation of design activities for the relocation of the TA-18 nuclear materials handling facility at Los Alamos National Laboratory.

Safeguards and security.—Consistent with the Department's amended budget request for safeguards and security, the conference agreement includes \$377,596,000 for safeguards and security activities at laboratories and facilities managed by the Office of Defense Programs. This is offset by a reduction of \$310,796,000 to be allocated among the various programs which budgeted for safeguards and security costs in their overhead accounts.

Program direction.—The conference agreement provides \$224,071,000 for program direction as proposed by the Senate.

Funding adjustments.—The conference agreement includes the use of \$13,647,000 in prior year balances and a reduction of \$310,796,000 that reflects the allocation of safeguards and security costs in accordance with the Department's amended budget request. In addition, the conference agreement includes a general reduction of \$35,700,000 of which \$25,000,000 is to be taken against programs at Lawrence Livermore National Laboratory.

### DEFENSE NUCLEAR NONPROLIFERATION

The conference agreement provides \$874,196,000 for Defense Nuclear Nonproliferation instead of \$861,477,000 as proposed by the House and \$908,967,000 as proposed by the Senate. Statutory language proposed by the House limiting the funds availability to two years has not been included by the conferees. Statutory language proposed by the Senate to earmark funding for the Incorporated Research Institutions for Seismology has not been included. The conferees have provided a total of \$53,000,000 for the long-term Russian initiative within this account.

Limitation on Russian and Newly Independent States' (NIS) program funds.—The conferees are concerned about the amount of funding for Russian and NIS programs which remains in the United States for Department of Energy contractors and laboratories rather than going to the facilities in Russia and the NIS. The conferees direct that not more than the following percentages of funding may be spent in the United States in fiscal year 2001 for these programs: Materials Protection, Control and Accounting, 43%; International Proliferation Prevention Program, 40%; Nuclear Cities Initiative, 49%; Russian Plutonium Disposition, 38%; and national Nuclear Safety, 78%.

The conferees expect the Department to continue to increase the level of funding which is provided to Russia versus the funding which remains in the United States for Department of Energy contractors and laboratories in each subsequent year. The Department is to provide a report to the Committees by January 31, 2001, and each subsequent year on the amount of funding provided to Russia and NIS in each program

area. The Department should work with the Committees on the specific information to be included in the report.

Nonproliferation and verification research and development.—The conference agreement provides \$252,990,000 for nonproliferation and verification research and development. Funding of \$17,000,000 has been provided for the nonproliferation and international security center (NISC) at Los Alamos National Laboratory, and \$1,000,000 for the Incorporated Research Institutions for Seismology PASSCAL Instrument Center.

Concerns have been raised repeatedly that there should be more opportunity for open competition in certain areas of the nonproliferation and verification research and development program. A recent report by an outside group established by the Department to review the Office of Nonproliferation Research and Engineering included a similar recommendation. The report stated that, 'There should be greater opportunity for the wider U.S. scientific and technical community to contribute to the success of the NN-20 portfolio. This can be done through open competition administered by DOE Headquarters and through partnerships chosen and managed by the DOE national labora-. . . "Areas that come to mind as tories." candidates for open competition include seismic verification technologies for very low vield underground nuclear tests and chemical and biological agent detection and identification technologies. Other possible areas might be specialized electronic chip development and certain radio-frequency technologies.'

The conferees expect the Department to act in good faith on the recommendations provided by the external review group, and direct the Department to initiate a free and open competitive process for 25 percent of its research and development activities during fiscal year 2001 for ground-based systems treaty monitoring. The competitive process should be open to all Federal and non-Federal entities.

The conferees direct the Department to report to the Committees on Appropriations on the status of implementing the external review panel's recommendations and the results of the directed open competition by March 30, 2001.

Arms control.—The conference agreement provides \$152,014,000 for arms control activities including \$24,500,000 for the Initiative for Proliferation Prevention and \$27,500,000 for the Nuclear Cities Initiative. In addition to the \$10,000,000 added to the Nuclear Cities Initiative, the conferees have provided another \$19,000,000 for the long-term Russian initiative in the arms control program to be distributed as follows: \$15,000,000 for spent fuel dry storage; \$500,000 for the plutonium registry at Mayak; \$2,500,000 for geologic repository cooperation research and planning; and \$1,000,000 for research reactor spent fuel acceptance.

International materials protection, control and accounting (MPC&A).—The conference agreement includes \$173,856,000 for the MPC&A program including \$24,000,000 for the long-term Russian initiative. The conferese have provided \$5,000,000 for plutonium storage at Mayak and \$19,000,000 for expanded MPC&A activities at Russian naval sites.

HEU transparency implementation.—The conference agreement provides \$15,190,000, the same as the budget request.

International nuclear safety.—The conference agreement provides \$20,000,000, the same as the budget request, for the international nuclear safety program. This fund-

ing is to be used only for activities in support of completing the upgrades to Soviet-designed nuclear reactors. From within available funds, the conference agreement provides \$1,000,000 for a cooperative effort between the United States and Russia to address intergranular stress corrosion cracking and restore the structural integrity of Russian nuclear plants until decommissioning.

Fissile materials disposition.—The conference agreement provides \$249,449,000 for fissile materials disposition. Funding of \$139,517,000, as proposed by the House, has been provided for the U.S. surplus materials disposition program. The conference agreement provides \$26,000,000 for Project 99–D-143, the MOX fuel fabrication facility.

Program direction.—The conference agreement provides \$51,468,000 for the program direction account as proposed by the House. The conferees are aware that the Department does not have enough qualified Federal employees available to manage the nonproliferation and national security programs, particularly the Russian programs. The conferees will favorably consider a reprogramming of funds from program areas to the program direction account as Federal employees are hired to replace the contractor employees who currently oversee these programs.

Funding adjustment.—The conference agreement includes a reduction of \$40,245,000 that reflects the transfer of safeguards and security costs in accordance with the Department's amended budget request.

#### NAVAL REACTORS

The conference agreement provides \$690,163,000 for Naval Reactors instead of \$694,600,000 as proposed by the Senate and \$677,600,000 as proposed by the House. Additional funding of \$17,000,000 is provided to optimize the program to shutdown prototype reactors and complete all major inactivation work by fiscal year 2002.

Funding adjustment.—The conference agreement includes a reduction of \$4,437,000 that reflects the transfer of safeguards and security costs in accordance with the Department's amended budget request.

#### OFFICE OF THE ADMINISTRATOR

The conference agreement provides \$10,000,000 for this new account as proposed by the Senate. These funds are provided to the Administrator of the National Nuclear Security Administration for the costs associated with hiring new employees and establishing the office.

OTHER DEFENSE RELATED ACTIVITIES
DEFENSE ENVIRONMENTAL RESTORATION AND
WASTE MANAGEMENT

The conference agreement provides \$4,974,476,000 for Defense Environmental Restoration and Waste Management instead of \$4,522,707,000 as proposed by the House and \$4,635,763,000 as proposed by the Senate. Additional funding of \$1,082,714,000 is contained in the Defense Facilities Closure Projects account and \$65,000,000 in the Defense Environmental Management Privatization account for a total of \$6,122,190,000 provided for all defense environmental management activities.

The conference agreement does not include statutory language proposed by the House pertaining to the use of funds for the Waste Isolation Pilot Plant or language proposed by the Senate earmarking funds for programs to be managed by the Carlsbad office of the Department of Energy.

The conference agreement limits the number of motor vehicles that can be purchased in fiscal year 2001 to not more than 30 for replacement only. The conferees have included

an additional reporting requirement on the entire Department and have specified that sport utility vehicles are to be counted within this ceiling.

National monument designation.—The conferees agree that no funds spent by the Department for the coordination, integration, or implementation of a management plan related to the Hanford Reach National Monument shall result in the reduction or delay of cleanup at the Hanford site.

Site/Project Completion.—The conference

Site/Project Completion.—The conference agreement provides an additional \$11,000,000 for F and H-area stabilization activities at the Savannah River Site in South Carolina as proposed by the House, and \$19,000,000 to address funding shortfalls at the Hanford site in Richland, Washington, as proposed by the Senate. Funding of \$12,308,000 has been transferred to other accounts as proposed by the House.

The conference agreement supports the budget request of \$2,500,000 for the cooperative agreement with WERC and provides \$25,000 for an independent evaluation of the mixed-waste landfill at Sandia National Laboratories in New Mexico.

For construction, the conference agreement provides \$17,300,000 for Project 01–D414, preliminary project engineering and design (PE&D). Project 01–D415, 235–F packaging and stabilization, at the Savannah River Site has been funded at \$4,000,000. Funding of \$500,000 requested for Project 01–D402, INTEC cathodic protection system expansion project, at Idaho Falls has been transferred to the new PE&D project. Funding of \$27,932,000 for the Highly Enriched Blend Down Facility has been transferred to the fissile materials disposition program.

2006 Completion.—The conference agreement includes an additional \$10,000,000 to maintain schedules required by revised compliance agreements with the State of Washington as proposed by the Senate, and \$6,000,000 to support transuranic and lowlevel waste activities at the Savannah River Site in South Carolina as proposed by the House. Funding of \$10,000,000 for the Four Mile Branch project and \$18,000,000 for the Consolidated Incinerator Facility at the Savannah River Site has not been provided as proposed by the House. Funding of \$18,692,000 has been transferred to the Science and Technology program.

The conference agreement provides \$400,000 to begin design activities for a subsurface geosciences laboratory at Idaho.

From within available funds for the Waste Isolation Pilot Plant, \$1,000,000 has been provided for a transparency demonstration project.

A total of \$3,000,000 has been provided to support a program with the United States-Mexico Border Health Commission to demonstrate technologies to reduce hazardous waste streams and to support the Materials Corridor Partnership Initiative.

Funding of \$1,300,000 for Project 01-D-403, immobilized high level waste interim storage facility, at Richland, Washington, has been transferred to the PE&D project in site/project completion account.

Office of River Protection.—The conference agreement provides \$757,839,000 for the Office of River Protection at the Hanford site in Washington. The conference agreement provides \$377,000,000 for Project 01-D-416, Tank Waste Remediation System, at Richland, Washington, to vitrify the high-level waste in underground tanks. Funding to vitrify waste at the Hanford site was requested in the Defense Environmental Management Privatization account in fiscal year 2001.

However, due to the failure of the contractor to provide a viable cost estimate under the concept of a "privatized" contract, the contract will now be structured as a cost plus incentive fee contract and will be funded in the regular appropriation account.

Science and technology development.—The conference agreement provides \$256,898,000 for the science and technology development program. Funding of \$21,000,000 has been transferred to this account for the Idaho validation and verification program. This transfer is not intended to reduce the environmental management base program in Idaho. The Department is directed to provide \$10,000,000 for the next round of new and innovative research grants in the environmental management science program in fiscal year 2001, and \$10,000,000 for technology deployment activities.

conference agreement provides The \$4,000,000 for the international agreement with AEA Technology; \$4,500,000 for the Diagnostic Instrumentation and Analysis Laboratory; \$4,350,000 for the university robotics research program; an additional \$1,000,000 for the D&D focus area; and up to \$4,000,000 to continue evaluation, development and demonstration of the Advanced Vitrification System upon successful completion of supplemental testing. The conferees have provided \$2,000,000 to the National Energy Technology Laboratory to be used for the continuation of the Mid-Atlantic Recycling Center for End-of-Life Electronics initiative (MARCEE) in cooperation with the Polymer Alliance Zone.

The conference agreement includes \$4,000,000 for the long-term stewardship program to be administered at Headquarters and \$4,000,000 for the Idaho National Engineering and Environmental Laboratory. No funds are provided for the low dose radiation effects program, as the entire Senate recommended amount is provided within the Office of Science.

Safeguards and security.—Consistent with the Department's amended budget request for safeguards and security, the conference agreement includes \$203,748,000 for safeguards and security activities at laboratories and facilities managed by the Office of Defense Programs. This is offset by a reduction of \$193,217,000 to be allocated among the various programs which budgeted for safeguards and security costs in their overhead accounts.

Program direction.—The conferees have provided \$363,988,000 for the program direction account. This funding level reflects the transfer of the uranium programs from the office of nuclear energy to the office of environmental management. Funding of \$4,100,000 has been provided to allow for the transfer of up to 5 employees from Headquarters and 25 employees at Oak Ridge who manage the uranium programs.

Funding adjustments.—The conference agreement includes the use of \$34,317,000 of prior year balances and \$50,000,000 in pension refunds, the same as the budget request. The conference agreement includes a reduction of \$193,217,000 that reflects the allocation of safeguards and security costs in accordance with the Department's amended budget request. A general reduction of \$10,700,000 has also been included.

### DEFENSE FACILITIES CLOSURE PROJECTS

The conference agreement appropriates \$1,082,714,000 the same as the amended budget request. The conferees expect the Department to request adequate funds to keep each of these projects on a schedule for closure by 2006 or earlier.

Any savings resulting from safeguards and security costs are to be retained and used for cleanup activities at the closure sites.

# DEFENSE ENVIRONMENTAL MANAGEMENT PRIVATIZATION

provides The conference agreement \$65,000,000 for the defense environmental management privatization program instead of \$259,000,000 as proposed by the House and \$324,000,000 as proposed by the Senate. The conference agreement provides no funds for Tank Waste Remediation System the (TWRS) project at Hanford. Funding for this project, which had previously been considered as a privatization contract, has been transferred to the Defense Environmental Restoration and Waste Management appropriation account.

The conference agreement also includes a rescission of \$97,000,000 of funds previously appropriated for the TWRS project in the Defense Environmental Management Privatization appropriation account.

#### OTHER DEFENSE ACTIVITIES

The conference agreement appropriates \$585,755,000 for Other Defense Activities instead of \$592,235,000 as proposed by the House and \$579,463,000 as proposed by the Senate. Details of the conference agreement are provided below.

#### SECURITY AND EMERGENCY OPERATIONS

For nuclear safeguards and security, the conference agreement provides \$116,409,000 as proposed by the House. The conferees have provided \$3,000,000 for the critical infrastructure protection program, an increase of \$600,000 over fiscal year 2000. The conference agreement also provides \$2,000,000 to procure safety locks to meet Federal specifications.

The conference agreement provides \$33,000,000 for security investigations, the same as the budget request.

The conference agreement includes \$33,711,000 for emergency management. Funding of \$3,600,000 was transferred to the program direction account to reflect the conversion of contractor employees to Federal employees at a substantial cost savings. Funding of \$44,205,000 for the nuclear emergency search team and \$12,084,000 for the accident response group was transferred to the Weapons Activities account.

Program direction.—The conference agreement provides \$92,967,000 for the program direction account as proposed by the House. This reflects the transfer of \$3,600,000 from the emergency management program.

#### INTELLIGENCE

The conference agreement includes \$38,059,000 as proposed by the House and the Senate to support the Department's intelligence program.

#### COUNTERINTELLIGENCE

The conference agreement includes \$45,200,000 as proposed by the House and the Senate to support the Department's counter-intelligence program.

### ADVANCED ACCELERATOR APPLICATIONS

The conference agreement provides \$34,000,000 to establish a new program for advanced accelerator applications, including \$3,000,000 for research and development of technologies for economic and environmentally sound refinement of spent nuclear fuel at the University of Nevada-Las Vegas.

The Department is directed to prepare a program plan for managing and executing this program using the extensive expertise of the Office of Science and the Office of Defense Programs in accelerator research, design, and applications, and the expertise of

the Office of Nuclear Energy in transmutation of nuclear waste. This program plan should be submitted to the Committees by March 1, 2001.

The conferees make no recommendation as to how the Department should manage the advanced accelerator application program.

# $\begin{array}{c} \text{INDEPENDENT OVERSIGHT AND PERFORMANCE} \\ \text{ASSURANCE} \end{array}$

The conference agreement provides \$14,937,000, the same as the budget request for the office of independent oversight and performance assurance.

ENVIRONMENT, SAFETY AND HEALTH (DEFENSE)

agreement conference The \$125,567,000 for defense-related environment, safety and health activities. The conferees have provided \$3,000,000 to establish a program at the University of Nevada-Las Vegas for Department-wide management of electronic records; \$1,750,000 for the University of Louisville and the University of Kentucky to undertake epidemiological studies of workers; \$880,000 to provide medical screening for workers employed at the Amchitka nuclear weapons test site; and \$500,000 for the State of Nevada to address deficiencies in the Cancer Registry, Vital Statistics, and Birth Defects Registry activities.

The conference agreement includes \$17,000,000 for the Department's administrative costs associated with the proposed Energy Employees Compensation Initiative. These funds are not available until the program is authorized by law.

#### WORKER AND COMMUNITY TRANSITION

The conference agreement provides \$24,500,000 for the worker and community transition program, including \$2,100,000 for infrastructure improvements at the former Pinellas plant. The conferees expect that communities denied funds in fiscal year 2000 will be granted priority status in fiscal year 2001.

The conference agreement provides that no funds may be used to augment the \$24,500,000 made available for obligation for severance payments and other benefits and community assistance grants unless the Department of Energy submits a reprogramming request subject to approval by the appropriate Congressional committees.

# NATIONAL SECURITY PROGRAMS ADMINISTRATIVE SUPPORT

The conference agreement provides \$25,000,000 for national security programs administrative support instead of \$51,000,000 as proposed by the House and no funding as proposed by the Senate.

### OFFICE OF HEARINGS AND APPEALS

The conference agreement provides \$3,000,000 as proposed by the House and the Senate.

### FUNDING ADJUSTMENTS

A reduction of \$595,000 and the elimination of the \$20,000,000 offset to user organizations for security investigations reflects the allocation of the safeguards and security amended budget request.

### DEFENSE NUCLEAR WASTE DISPOSAL

The conference agreement provides \$200,000,000 as proposed by the House instead of \$292,000,000 as proposed by the Senate.

### POWER MARKETING ADMINISTRATIONS

BONNEVILLE POWER ADMINISTRATION FUND

The conferees have included the statutory language extending Bonneville's voluntary separation incentive program until January 1, 2003.

During fiscal year 2001, Bonneville plans to pay the Treasury \$620,000,000 of which

\$163,000,000 is to repay principal on the Federal investment in these facilities.

SOUTHEASTERN POWER ADMINISTRATION

agreement conference includes \$3,900,000, the same as the budget request, for the Southeastern Power Administration.

SOUTHWESTERN POWER ADMINISTRATION

conference agreement includes \$28,100,000, the same as the budget request, for the Southwestern Power Administration.

WESTERN AREA POWER ADMINISTRATION

conference agreement \$165,830,000, instead of \$164,916,000 as proposed by the Senate and \$160,930,000 as proposed by the House. The conference agreement increases the amount of purchase power and wheeling to \$65,224,000 and increases offsetting collections by the same amount. Funding of \$5,950,000 is provided for the Utah Reclamation Mitigation and Conservation Account.

#### FALCON AND AMISTAD FUND

The conference agreement includes \$2.670,000, the same as the budget request, for the Falcon and Amistad Operating and Maintenance Fund.

FEDERAL ENERGY REGULATORY COMMISSION

conference agreement \$175,200,000, the same as the budget request for the Federal Energy Regulatory Commission.

#### RESCISSIONS

#### DEFENSE NUCLEAR WASTE DISPOSAL

The conference agreement includes language rescinding \$75,000,000 from funds previously appropriated for interim waste storage activities for Defense Nuclear Waste Disposal in Public Law 104-46, the fiscal year 1996 Energy and Water Development Appropriations Act.

#### DEFENSE ENVIRONMENTAL MANAGEMENT PRIVATIZATION

The conference agreement includes language rescinding \$97,000,000 from the Defense Environmental Management Privatization account. Funds were appropriated in this account in prior years for the Hanford Tank Waste Remediation System Project. project is no longer being considered for a privatization contract. It has been transferred to the Defense Environmental Restoration and Waste Management appropriation account and will be funded there in future appropriation acts.

## GENERAL PROVISIONS

## DEPARTMENT OF ENERGY

SEC. 301. The conference agreement includes a provision proposed by the House that none of the funds may be used to award a management and operating contract unless such contract is awarded using competitive procedures, or the Secretary of Energy grants a waiver to allow for such a deviation. Section 301 does not preclude extension of a contract awarded using competitive procedures.

Sec. 302. The conference agreement includes a provision proposed by the House and Senate that none of the funds may be used to prepare or implement workforce restructuring plans or provide enhanced severance payments and other benefits and community assistance grants for Federal employees of the Department of Energy under section 3161 of the National Defense Authorization Act of Fiscal Year 1993, Public Law 102-484.

Sec. 303. The conference agreement modifies a provision proposed by the House that none of the funds may be used to augment the \$24,500,000 made available for obligation for severance payments and other benefits and community assistance grants unless the Department of Energy submits a reprogramming request subject to approval by the ap-

propriate Congressional committees. Sec. 304. The conference agreement includes a provision proposed by the House and Senate that none of the funds may be used to prepare or initiate Requests for Proposals for a program if the program has not been funded by Congress in the current fiscal year. This provision precludes the Department from initiating activities for new programs which have been proposed in the budget request, but which have not yet been funded by Congress

Sec. 305. The conference agreement includes a provision proposed by the House and Senate that permits the transfer and merger of unexpended balances of prior appropriations with appropriation accounts established in this bill.

Sec. 306. The conference agreement includes language providing that not to exceed 6 percent of funds shall be available for Laboratory Directed Research and Development.

Sec. 307. The conference agreement includes language limiting to \$185,000,000 the funds available for reimbursement of management and operating contractor travel expenses. Of the \$185,000,000, \$175,000,000 is available for contractor travel and \$10,000,000 is to be held in reserve by the Department's Chief Financial Officer for emergency travel requirements. The language also requires the Department of Energy to reimburse contractors for travel consistent with regulations applicable to Federal employees and specifies that the travel ceiling does not apply to travel funded from Laboratory Directed Research and Development funds.

Sec. 308. The conference agreement includes language prohibiting the Bonneville Power Administration from performing energy efficiency services outside the legally defined Bonneville service territory.

Sec. 309. The conference agreement includes language limiting the types of waste that can be disposed of in the Waste Isolation Pilot Plant in New Mexico. None of the funds may be used to dispose of transuranic waste in excess of 20 percent plutonium by weight for the aggregate of any material category. At the Rocky Flats site, this provision includes ash residues; salt residues; wet residues: direct repackage residues: and scrub alloy as referenced in the "Final Environmental Impact Statement on Management of Certain Plutonium Residues and Scrub Alloy Stored at the Rocky Flats Environmental Technology Site"

Sec. 310. The conference agreement includes language allowing the Administrator of the National Nuclear Security Administration to authorize certain nuclear weapons production plants to use not more than 2 percent of available funds for research, development and demonstration activities.

Sec. 311. The conference agreement includes language allowing each Federal power marketing administration to engage in activities relating to the formation and operation of a regional transmission organization.

312. The conference agreement includes language that would permit the Secretary of Energy to use \$10,000,000 of funds previously appropriated for interim waste storage activities for Defense Nuclear Waste Disposal upon receipt of written certification that the site recommendation report cannot be completed on time without additional funding.

Sec. 313. The conference agreement includes language proposed by the Senate that would provide a three year term of office for the first person appointed to the position of the Under Secretary of Nuclear Security of the Department of Energy.

Sec. 314. The conference agreement includes language proposed by the Senate limiting the authority of the Secretary of Energy to modify the organization of the National Nuclear Security Administration.

Sec. 315. The conference agreement includes language proposed by the Senate prohibiting the pay of personnel engaged in concurrent service or duties inside and outside the National Nuclear Security Administra-

Report on impacts of limits on on-site storage.—The conference agreement does not include statutory language proposed by the Senate, but the conferees direct that not later than 90 days after enactment of the fiscal year 2001 Energy and Water Development Appropriations Act, the Secretary of Energy shall submit to Congress a report containing a description of all alternatives that are available to the Northern States Power Company and the Federal government to allow the company to continue to operate the Prairie Island nuclear generating plant until the end of the term of the license issued to the company by the Nuclear Regulatory Commission, in view of a law of the State of Minnesota that limits the quantity of spent nuclear fuel that may be stored at the plant, assuming that the existing Federal and State laws remain unchanged.

Report on electricity prices.—The conferees note that California is currently experiencing an energy crisis. Wholesale electricity prices have soared, resulting in electrical bills that have increased by as much as 300 percent in the San Diego area. Conferees understand that the staff of the Federal Energy Regulatory Commission is currently investigating the crisis. The Commission is directed to submit to Congress a report on the results of the investigation no later than December 1, 2000. The report shall include identification of the causes of the San Diego price increases, a determination whether California wholesale electricity markets are competitive, a recommendation whether a regional price cap should be set in the Western States, a determination whether manipulation of prices has occurred at the wholesale level, and a determination of remedies, including legislation or regulations, that are necessary to correct the problem and prevent similar incidents in California and elsewhere in the United States.

Provisions not adopted by the conferees.—The conference agreement deletes language proposed by the House and Senate prohibiting the use of funds for contracts modified in a manner that deviates from the Federal Acquisition Regulation.

The conference agreement deletes language proposed by the Senate allowing the Secretary of Energy to enter into multivear contracts without obligating the estimated costs.

The conference agreement deletes language proposed by the Senate requiring the Department of Energy's laboratories to provide an annual funding plan to the Department.

conference agreement deletes language proposed by the House prohibiting the payment of Federal salaries in the working capital fund.

The conference agreement deletes language proposed by the Senate prohibiting the expenditure of funds to establish or maintain independent centers at Department of Energy laboratories or facilities. The conference agreement includes report language requiring the Department to identify these centers in the budget request.

The conference agreement deletes language proposed by the House requiring a report on activities of the executive branch to address high gasoline prices and develop an overall national energy strategy.

The conference agreement deletes language proposed by the Senate prohibiting the expenditure of funds to restart the High Flux Beam Reactor.

The conference agreement deletes language proposed by the Senate limiting the inclusion of costs of protecting fish and wildlife within the rates charged by the Bonneville Power Administration.

The conference agreement deletes language proposed by the Senate limiting the cost of construction of the National Ignition Facility.

The conference agreement deletes language proposed by the Senate requiring an evaluation of innovative technologies for demilitarization of weapons components and treatment of hazardous waste.

The conference agreement deletes language proposed by the Senate requiring a report on national energy policy.

The conference agreement deletes language proposed by the Senate noting concern with the House provision on limiting funds for worker and community transition. The

conference agreement deletes language proposed by the Senate requiring a report on the impact of State-imposed limits on spent nuclear fuel storage. This requirement has been included in report language.

The conference agreement deletes language proposed by the Senate limiting the use of funds to promote or advertise public tours at Yucca Mountain. This requirement has been included in report language.

### CONFERENCE RECOMMENDATIONS

The conference agreement's detailed funding recommendations for programs in title III are contained in the following table.

, 	Budget Request	Conference
ENERGY SUPPLY		
RENEWABLE ENERGY RESOURCES		
Renewable energy technologies Biomass/biofuels energy systems Power systems	47,830 54,110	40,000 46,160

TITLE IV

INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

The conference agreement includes \$66,400,000 for the Appalachian Regional Commission as proposed by the Senate instead of \$63,000,000 as proposed by the House.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

The conference agreement includes \$18,500,000 for the Defense Nuclear Facilities Safety Board as proposed by the Senate instead of \$17,000,000 as proposed by the House.

DELTA REGIONAL AUTHORITY

The conference agreement includes \$20,000,000 for the Delta Regional Authority as proposed by the Senate.

DENALI COMMISSION

The conference agreement includes \$30,000,000 for the Denali Commission as proposed by the Senate.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$481,900,000 as proposed by the House and the Senate, to be offset by revenues of \$447,958,000, for a net appropriation of \$33,942,000. This reflects the statutory language adopted by the conference to reduce the revenues collected in fiscal year 2001 by 2 percent.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$5,500,000 as proposed by the House and the Senate, to be offset by revenues of \$5,390,000, for a net appropriation of \$110,000. This reflects the statutory language adopted by the conference to reduce the revenues collected in fiscal year 2001 by 2 percent.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

The conference agreement provides \$2,900,000 instead of \$2,700,000 as proposed by House and \$3,000,000 as proposed by the Senate.

GENERAL PROVISIONS

The conference agreement deletes language proposed by the Senate establishing a Presidential Energy Commission.

TITLE V

FISCAL YEAR 2001 EMERGENCY APPROPRIATIONS DEPARTMENT OF ENERGY

ATOMIC ENERGY DEFENSE ACTIVITIES

CERRO GRANDE FIRE ACTIVITIES

The conference agreement includes an emergency appropriation of \$203,460,000 as proposed by the Senate for Cerro Grande Fire Activities at the Los Alamos National Laboratory in New Mexico.

The recommendation includes \$46,860,000 for repair and risk mitigation associated with physical damage and destruction; \$25,400,000 for restoring services; \$18,000,000 for resuming laboratory operations.

In addition, funding is provided for the following construction projects: \$6,100,000 for Project 97–D–102, Dual-Axis Radiographic Hydrotest Facility (DAHRT); \$25,000,000 for Project 01–D–701, Site-wide Fire Alarm System Replacement; \$20,000,000 for Project 01–D–702, Emergency Operations Center Replacement and Relocation; \$29,100,000 for Project 01–D–703, TA–54 Waste Management Mitigation; \$10,000,000 for Project 01–D–704, Office Building Replacement Program for Vulnerable Facilities; and \$8,000,000 for Project 01–D–705, Multi-channel Communications System. The Department is directed to

include construction project data sheets for these projects in the fiscal year 2002 budget request.

INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

The conference agreement includes an emergency appropriation of \$11,000,000 for the Appalachian Regional Commission for the North Fork Hughes River Watershed project in Ritchie County, West Virginia.

TITLE VI

GENERAL PROVISIONS

Sec. 601. The conference agreement includes language directing that none of the funds in this Act or any prior appropriations Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in section 1913 of title 18, United States Code.

Sec. 602. The conference agreement includes language regarding the purchase of American-made equipment and products, and prohibiting contracts with persons falsely labeling products as made in America.

Sec. 603. The conference agreement includes language providing that no funds may be used to determine the final point of discharge for the interceptor drain for the San Luis Unit of the Central Valley Project until certain conditions are met. The language also provides that the costs of the Kesterson Reservoir Cleanup Program and the San Joaquin Valley Drainage Program shall be classified as reimbursable or non-reimbursable by the Secretary of the Interior and that any future obligation of funds for drainage service or drainage studies for the San Luis Unit shall be fully reimbursable by San Luis Unit beneficiaries pursuant to Reclamation law.

Sec. 604. The conference agreement includes language proposed by the Senate limiting the use of funds to propose or issue rules, regulations, decrees, or orders for the purpose of implementing the Kyoto Protocol. The conferees do not concur with the report language proposed by the House.

Sec. 605. The conference agreement includes language extending the Coastal Wetlands Planning, Protection and Restoration Act.

Sec. 606. The conference agreement includes language redesignating the Interstate Sanitation Commission as the Interstate Environmental Commission.

Provisions not adopted.—The conference agreement deletes language proposed by the House amending the Energy Policy and Conservation Act.

The conference agreement deletes language proposed by the House limiting the use of funds to pay salaries of employees of the Department of Energy who refused to take polygraph examinations.

The conference agreement deletes language proposed by the Senate repealing sections of Public Law 106-246.

The conference agreement deletes language proposed by the Senate requiring the Tennessee Valley Authority to complete an environmental impact statement before proceeding with the sale of mineral rights.

The conference agreement deletes language proposed by the Senate requiring a report to Congress on electricity prices. This requirement has been included in report language

The conference agreement deletes language proposed by the House prohibiting the use of funds to pay an individual who simultaneously holds positions within the Na-

tional Nuclear Security Administration and the Department of Energy. This matter has been addressed in section 315.

TITLE VII

DEPARTMENT OF THE TREASURY

BUREAU OF THE PUBLIC DEBT

GIFTS TO THE UNITED STATES FOR REDUCTION OF THE PUBLIC DEBT

The conference agreement includes language providing funds to reduce the public debt.

TITLE VIII

NUCLEAR REGULATORY COMMISSION

The conference agreement includes language extending the Nuclear Regulatory Commission's (NRC) authority to assess license and annual fees through fiscal year 2005. This extension is necessary to provide the resources needed to fund the activities of the Commission. The conferees have also provided authority to reduce the fee recovery requirement from 100 percent to 98 percent in fiscal year 2001, and further decrease the fee incrementally until the fee recovery requirement is reduced to 90 percent in 2005. This will address fairness and equity concerns relating to charging NRC licensees for agency expenses which do not provide a direct benefit to them.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2001 recommended by the Committee of Conference, with comparisons to the fiscal year 2000 amount, the 2001 budget estimates, and the House and Senate bills for 2001 follow:

[In thousands of dollars]

New budget (obligational) authority, fiscal year 2000	\$21,647,047
(obligational) authority,

LEADERSHIP LACKING ON HMO REFORM

(Mr. GREEN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks).

Mr. GREEN of Texas. Mr. Speaker, I just wanted a one minute at an unusual time of the day because this House has passed one of the strongest HMO reform bills that I have seen. We passed it over a year ago, and yet this bill still languishes in its House-Senate conference committee. Obviously we need more effort to make sure that we pass a national HMO reform bill.

This issue is important to the voters, and it has been, and that is why when I listened to the presidential debates last night, I heard it come up a number of times, how we needed a strong managed care reform or HMO reform bill.

Let me set the record straight: the Texas legislature passed a bill in 1995 that was a strong HMO reform bill. In 1995, the Texas legislature passed a strong HMO reform bill. It was vetoed by Governor Bush. In 1997, they passed another bill that became law without his signature. Last night, listening to the debates, you would have thought there had been a lot of exercise in leadership on HMO reform in the Governor's office in Texas.

What we need is strong leadership in the White House for an HMO reform bill, because it does not look like it is going to happen this year. So next year we will need it. Our bill, the Dingell-Norwood bill, was actually patterned after the Texas law of 1997.

So, just like you want to hear the rest of the story, the whole point is that we need strong HMO reform legislation, it needs to pass the House and the Senate, and it needs to have the aggressive activity from a chief executive in the President of the United States. I would hope that the people would realize for the record who is embellishing their record now.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4461) "An Act making appropriations for Agriculture, Rural Development, Food and Drug Ad-

ministration, and Related Agencies programs for the fiscal year ending September 30, 2001, and for other purposes."

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 1999, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

SCHOOL CONSTRUCTION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. ETHERIDGE) is recognized for 5 minutes.

Mr. ETHERIDGE. Mr. Speaker, I appreciate this opportunity to speak this evening on an issue that is critically important for communities throughout my district and across this country and that is school construction.

I am pleased to be joined this evening by several of my Democratic colleagues in a series of special order speeches to call on the Republican leadership to pass real school construction legislation before this Congress adjourns.

Since the beginning of my service in the United States House nearly 4 years ago, I worked hard with members of both bodies across the partisan aisle to craft a creative legislative response to the urgent problem of overcrowded schools, run-down facilities and the widespread use of trailers and closets as classrooms.

Mr. Speaker, across my district and many places in this country, our schools are bursting at the seams. Just about every day I hear from teachers, parents, students and others that the need for better schools for our children to learn and teachers to teach are desperately needed.

□ 1900

Mr. Speaker, I am pleased that so many Members have come together to support a common sense bipartisan piece of legislation to address this problem.

H.R. 4094, the Rangel-Johnson-Etheridge bill, has enjoyed the support of 228 cosponsors in the House, Republicans and Democrats alike. This important bill would provide about \$25 billion in new school construction bonds for communities throughout this country.

We now have a clear majority of the Members in the U.S. House who will vote for this bill if we can just get it to the floor for a vote; but, unfortunately, the Republican leadership continues to keep it tied up in committee.

Mr. Speaker, this refusal to act on this common sense bipartisan bill to build and renovate schools stands in sharp contrast to the blatant manipulation of the appropriations bills to

ministration, and Related Agencies bring pork back to their home disprograms for the fiscal year ending tricts.

For example, the Transportation appropriations bill is full of earmarked projects for the House districts of powerful Members of the Republican leadership. Senator John McCain of the other body stood on that floor, and I quote, said "there were over \$700 million in transit earmarks in the Chicago Metropolitan Transit Authority in the home district of the Speaker of the House, and yet the Republican leadership refuses to allow an up and down vote on our modest proposal to provide tax credits to help finance just a few neighborhood schools."

The Transportation appropriations bill also reported earmarks of \$102 million for something called the U.S. 82 Bridge across the Mississippi River in Greenville, Mississippi, in the home State of the majority leader of the other body; and yet the Republican leadership of this Congress refuses to have a vote for simple school construction for the children of this country.

Mr. Speaker, as the former chairman of my State's House Committee on Appropriations, I know well the need for government investment in certain projects to help give people a hand up, but I also know that budgets and appropriations represent more than just items on the balance sheet. They represent our values.

What does it say about the values of this Congress that the leadership refuses to allow a vote on a bipartisan school construction bill, while at the same time it loads up must-pass bills with these special-interest pork projects?

The Interior appropriations bill contains many special items earmarked. For example, there is \$500,000 for a National First Ladies Library in Ohio for a senior ranking member. It contains \$176,000 for the Reindeer Herders Association, and it contains \$1.5 million to refurbish the Vulcan Statue in Alabama.

Mr. Speaker, these projects may have their merit. I am not an expert on every line item in an appropriations bill; but as the former superintendent of my State schools, I do know that our schools are bursting at the seams. Our communities need our help to help build and modernize schools, reduce classroom sizes and relieve overcrowding and enhance good order and discipline in classrooms and improving education for all of our children.

H.R. 4094 will not solve all of our problems, but it is a good step in the right direction; and I urge the Republican leadership of this House to bring this common sense bill to the floor without further delay and let us pass it.

H.R. 4094, AMERICA'S BETTER CLASSROOM ACT OF 2000

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. BACA) is recognized for 5 minutes.

Mr. BACA. Mr. Speaker, the challenge confronting us today and the future of education in America is before us. We, as a Nation, must put education as the number one priority if we are to meet the needs of the 21st century, if we are to look at where our children are going to be. We need to invest in education. We need to make sure that class size reduction is in our classroom.

We need to make sure that we do modernization in our classroom. If we look at today's society, if we look at where we were, many years ago many of us were very fortunate, that when we went to school, class sizes were small, we were able to have the relationship between 25 and one ratio. In today's classroom, we have 45 to one ratio. It is ridiculous.

How can we have our children learn? How can we get them to progress and how can we hold accountability when we have so many students in our classroom? We have to put a high priority, that is why we have to look at modernization. We have to look at classroom reduction. If not, what is going to happen to our children? And if we look at modernization, we also have to look to create an atmosphere that is good for our children as well.

When they go into the classroom, we want to make sure that the faucets work well, that there is no broken window, there are no leaking roofs. If we look at technology, we want to make sure that everybody is competitive, that our children and others have the same opportunity that other individuals have. It can only happen if we fund education at the highest level.

What we also have to make sure that we do is, if we have 100-some teachers that we have the accountability. If it is not there, what is going to happen to us? What is going to happen to our children? Our children are at stake. Our future is at stake. They are our future. They are our future taxpayers. They are the ones that are going to guide our Nation, but it is our responsibility to provide for them; and if not, we fail America, we fail our children.

Let me tell say, Mr. Speaker, we have to invest more, and the agenda by the Democratic Party right now and the bipartisan H.R. 4094 deals with a lot of these problems right now, deals with the classroom size, deals with modernization, deals with teacher training, deals with incentives, deals with tax breaks; and at the same time we also have to provide incentives for students to go on to our community colleges and our State colleges.

In California alone, we have over 6 million students in K through 12. If we

do not begin to take steps to build additional schools, what is going to happen to our children there? And these children that are ready to go on to a 4-year institution or community colleges where they are overcrowded, what is going to happen to them? Are they going to have access to our community colleges or State colleges or universities?

The answer is no. That is why we also have to provide a tax incentive and tax break and a tax tuition to make sure our children have that opportunity. We all have to come together. This is not a partisan issue. This is a bipartisan issue. This is about America. This is about our children. This is about investment.

Let me tell my colleagues, when I hear teachers telling me that they are out buying supplies because we are not providing the funding. My son is a teacher at a junior high school and he is going out and spending money. He just became a teacher this year, and let me tell my colleagues he is going out and buying supplies. They should not have to buy supplies. We should fund education. We are not investing enough in education.

The Republican Party plan right now does not invest enough money in education. We have to put more money in education. It is an investment in the future and at the same time we have to deal with Head Start programs, preschool programs, after-school programs, provide the incentives so our children have that opportunity to learn in an environment that is conducive. How can someone go to a school in our ghettos and some of our other areas where they are not even fixed and they are not compared to other institutions, and they look at TV and they see a modern school in that area and they say the environment is great?

Well, teachers have to also be motivated. They are motivated when they know they have good schools, they have the equipment, they have the tools and the instruments to teach our children. It can only happen if we provide those funds.

Mr. Speaker, we have a lot of work ahead of us. We have got a big agenda ahead of us right now, but we have to come together; and if we do not come together, America will lose.

SECURITIES AND EXCHANGE COM-MISSION PROPOSED RULE FOR AUDITING FIRMS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Connecticut (Mr. SHAYS) is recognized for 5 minutes.

Mr. SHAYS. Mr. Speaker, I rise to speak about the rule proposed by the Securities and Exchange Commission, SEC, that would affect the consulting affiliates of auditing firms.

The proposed rule was brought to my attention over a month ago by con-

stituents concerned about its effect on large accounting firms who also perform consulting services for their clients.

In response to the concerns raised by some of my constituents, I wrote to SEC Chairman Arthur Levitt and asked that the comment period on the rule be extended past its September 25 deadline and that the rule be modified to address the concerns raised by members of the accounting industry.

Under no circumstance was it my desire or intention to delay the ultimate decision to next year and a new commission. I particularly want to go on record as opposing any attempt to require a delay through legislative means.

I continue to believe all parties involved, including the accounting industry, should strive to reach a workable and mutually agreeable compromise before a final determination is made. It is my hope as the SEC moves forward with this rule they will remain open to the comments and concerns raised by the accounting industry and the challenges it faces.

OUTRAGE AT STATE DEPART-MENT'S DISMISSAL OF SAILORS WHO DIED ON THE U.S.S. "COLE"

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Washington (Mr. METCALF) is recognized for 5 minutes.

Mr. METCALF. Mr. Speaker, I rise today to share my outrage at our State Department's callous and thoughtless dismissal of the young men and women who died on the U.S.S. *Cole*.

I will quote from an October 16 State Department memorandum telling Voice of America to quash an editorial on terrorism, and I quote from that: "The 17 or so dead sailors does not compare to the 100-plus Palestinians who have died in recent weeks."

Since when are American lives less valuable to our State Department than Palestinian lives? Yes, my colleagues heard me right: our State Department dismissed the lives of our young sailors who died on the U.S.S. Cole. Something is really wrong when the Federal bureaucracy is writing off our servicemen while the rest of the Nation is mourning.

Mr. Speaker, I do sincerely grieve for the Palestinians and Israelis who have lost their lives in the tragic conflict over the recent weeks; however, when our own State Department dismisses the lives of our young men and women protecting our national interests overseas, something is truly wrong and heads should roll.

Mr. Speaker, I will submit the State Department's memorandum for the CONGRESSIONAL RECORD and would like to thank C-N-S-News.com and its executive editor Scott Hogenson for breaking this important story and shedding light on this contemptible behavior by our State Department.

END-OF-THE-YEAR SPENDING ORGY IN CONGRESS RIGHT NOW

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Tennessee (Mr. DUNCAN) is recognized for 5 minutes.

Mr. DUNCAN. Mr. Speaker, we seem to have an end-of-the-year spending orgy going on in Congress right now. David Broder mentions in his column in The Washington Post today that spending for fiscal year 2001 will be \$100 billion more than allowed under the last major budget deal, according to the "Congressional Quarterly."

Apparently most of the congressional leadership feels that we have to give into the excessive spending demanded by the President, because the alternative is to shut down the government. Unfortunately, there simply are not enough fiscal conservatives to override presidential vetoes. However, we are spending away a surplus that we do not yet have.

We are jeopardizing the economy and our children's future in the process. We now have a foreign trade deficit of almost a billion dollars a day. This means we are buying roughly \$350 billion a year from other countries more than we are selling to them. This is primarily because we have entered into bad trade deals, deals good for some big multinational companies, but very bad for small American businesses and American workers.

Most economists agree that we lose roughly 20,000 jobs per billion, and no country can sustain a \$350 billion-a-year trade deficit for very long. Do we ever wonder why so many young people are working as waiters or waitresses or why so many young people are going to graduate school because the good jobs are not there for even college graduates like they used to be?

Along with this foreign trade deficit is all the spending our government does in and for other countries. The liberals found out many years ago that foreign aid was very unpopular, so they just started spending foreign aid money through numerous other foreign programs.

They will very misleadingly say that our foreign aid money is less than 1 percent of our Federal budget. What they do not say is that we spend in addition to regular foreign aid, many billions more through the military, the Agriculture and Commerce Departments, the State Department, the United Nations, the International Monetary Fund, the World Bank and on and on and on.

This administration has deployed our troops around the world more times than the six previous administrations put together, mostly just turning our military in international social work-

ers. Billions and billions and billions in Haiti, Rwanda, Somalia, Bosnia and Kosovo. Right now we are spending \$2 billion a year on what the Associated Press has described as a forgotten war against Iraq.

\sqcap 1915

Most of our people do not even realize we are still bombing there against a nation now so weak that it is absolutely no threat to us at all unless our continued bombing forces them into some type of desperate terrorist actions.

Many large companies benefit greatly from these trade deals and from our sending billions to other countries in military or non-military missions. They and their allies in the national media and elsewhere have made it politically incorrect to oppose these trade deals or oppose sending mega billions overseas.

Those who do oppose all this foreign spending or these trade deals that benefit big international corporations are very falsely accused of being isolationists. However, if Members hear anyone make this charge, they should realize immediately that this name-calling simply means that the person calling someone an isolationist is trying to avoid an argument on the merits.

This Nation should be friends with every nation. We should have all sorts of foreign exchange programs and diplomatic relations, and send our experts in every field when requested, and lead international fundraising in times of human catastrophe. But this does not mean that we should keep sending billions and billions overseas, or continually bombing people who have not threatened us, or be the world's policeman through our military.

President Kennedy said in 1961 that with just 6 percent of the world's population, we must realize that we are neither omnipotent nor omniscient, and that there is not an American solution to every world problem. Now we are less than 4 percent of the world's population.

George Washington warned against entangling alliances with foreign countries, and Dwight Eisenhower warned against a military-industrial complex that would commit us all over the world simply so that it and its companies could get more money.

Professor John Moser, writing in the Autumn 1999 issue of Ohio History, noted that Senator Robert Taft was often falsely called an isolationist when he was really a conservative nationalist. Moser writes of Taft: "...he was remarkably prescient on many of the problems inherent in a highly interventionist foreign policy: unprecedented accumulation of power in the government, curtailment of civil liberties at home, the charge of 'imperialism' arising from American influ-

ence abroad, and most importantly, the danger of what Paul Kennedy referred to as 'imperial overreach,' the extension of overseas commitments beyond the ability of a nation to meet them."

Senator Taft once said, "Nothing can destroy this country except the over-extension of our resources." We should heed these words today.

STUDENT LOAN DEFAULT RATES

The SPEAKER pro tempore (Mr. DICKEY). Under a previous order of the House, the gentleman from Texas (Mr. HINOJOSA) is recognized for 5 minutes.

Mr. HINOJOSA. Mr. Speaker, there is much good news in higher education this year and we should take a few moments in the House of Representatives to take note of it. This is news for which we can all take some credit—the Congress, the Administration, borrowers, colleges and universities, lenders, loan guaranty agencies—so it is in that spirit that I offer these observations.

Twenty to 25 years ago, few people left college with student loan debt. But today, student loans are a fact of life for millions of students and graduates. They have opened the door of opportunity to individuals who otherwise would have no options to improve their earning potential

President Clinton recently announced that the student loan cohort default rate is the lowest on record, falling from a high of 22.4 to 6.9 percent.

This represents a savings to taxpayers of approximately \$7 billion over the period from fiscal year 1993 to fiscal year 2000. But more importantly, it speaks volumes about the Department of Education's program flexibility and willingness to work with borrowers.

Secretary of Education Riley noted that this record has been achieved by "a robust economy, strong department management, tougher enforcement tools authorized by Congress, and stepped up efforts by colleges, lenders, guaranty agencies, and others."

What makes this even more noteworthy is that the decline in defaults came at a time when student loan volume was tripling and educational opportunity was expanding to more low-income students, entailing higher risks. It is a great achievement.

The President also recently announced a reduction in interest rates for students in the Direct Loan Program who make their first 12 payments on time. Students have especially welcomed this reduction in college costs. Student organization leaders have noted that all students benefit when the Direct Loan Program can offer the same kinds of repayment incentives as the bank-based Federal Family Education Loan Program.

This encourages healthy competition between the programs, which makes students the ultimate beneficiaries.

This reduction is possible because of the change Congress made in the 1998 Higher Education Amendments. These changes gave the Secretary the authority to offer the same kind of repayment incentives to Direct Loan borrowers as exist in the bank-based program.

Mr. Speaker, I would also like to note that there is a third piece of good news in which Congress has played an important role. In fiscal year 2000 alone, \$4 billion has been recovered on defaulted loans through vigorous collection efforts by the Department of Education and the loan guaranty agencies. Congress authorized the use of offsetting Federal income tax refunds, wage garnishment, and other methods to aid in the collection of these loans.

What is important, however, is that defaulters also have the opportunity to get out of default through loan consolidation and the opportunity to repay their loans based on their income. We must never burden students with loans they cannot repay, and much of our current as well as future savings will be due to the appropriate use of the carrot as well as the stick.

Declining default rates, increased collections, savings produced by the direct student loan program—when we combine the fruits of all these labors, the end result is that we are saving American taxpayers \$18 billion.

Too often we overlook the good news in education and fail to note the successes of our legislation and its implementation.

Let us take a moment here to offer congratulations to all for the excellent news coming out of higher education this year.

DEMOCRATIC EDUCATION AGENDA

The SPEAKER pro tempore. Under a previous order of the House, the gentle-woman from Indiana (Ms. CARSON) is recognized for 5 minutes.

Ms. CARSON. Mr. Speaker, I rise today in support of the Democratic education agenda for the 107th Congress.

We live in a changed world: a new economy, new technology, and new family realities. More than ever, we all need our children to achieve their full potential. But our children are not getting the support they need.

Our friends in the majority promised radical improvements for public education when they gained control of the House 6 years ago. They said they would get the government out of our schools, and they followed through on that pledge by trying to abolish the Department of Education.

They continually turned their backs on their responsibility to focus on the priorities of the American people. Saying the Federal government has no place in our public schools did nothing to lift up a child or to help a parent, and the American people rightly rejected their plan.

I quote the distinguished majority leader, the gentleman from Missouri (Mr. GEPHARDT), when I say, "It is time for a new vision."

While looking forward to the 107th Congress, Democrats will make six new commitments to modernize our public schools and lift up every child:

First, we will recruit and train high quality teachers and principals. Because America's public schools are attended by 90 percent of American children, we need to ensure that every

class is led by a highly-qualified teacher; we also aim to establish new incentives to recruit highly-qualified teachers.

Secondly, we will reduce class size. We will recruit 100,000 highly-qualified teachers and reduce class sizes for grades one through three to a national average of 18 children:

Thirdly, we will build accountability measures to ensure that school districts and States set high standards and help every student achieve by building on proven reforms;

Fourthly, we will build new schools and repair existing ones. The Federal help to renovate 6,000 local public schools and repair an additional 8,300 schools to improve learning conditions is vital to our children's future.

We will aim to expand educational technology. We will continue to provide schools with Internet capacity, and bring new technology into the classrooms.

Finally, we will promote lifelong learning in all of our public schools. Our agenda wants to put America on the path to have preschool universally available to every child, and to bring the dream of a college education closer to reality for everyone by making tuition more affordable through tax relief, and by increasing funds for college grants and loans.

These simple six steps will ensure that our children are guaranteed the education they deserve

Since coming to the House of Representatives, I have worked to bring Congress to the classroom. Two years ago, I visited Crispus Attucks Junior High School, which was my alma mater. Crispus Attucks is a good example of what can be achieved when people in government are committed to public education and public schools.

The school created a good learning environment and provides training on computers and the Internet.

I worked to have Crispus Attucks High School connected with a school in Darby, United Kingdom, and they are doing a tremendous job because they have similar characteristics, and are getting acquainted in a very vital way with each other.

However, more help is needed. With information technology now a key element of the global economy, we must make sure that our children are prepared to use this technology when they enter the world of work.

The Democratic agenda aims to secure computers for all schools. The future of our children is vital, and Federal help must not be seen as negative big government intervention.

The educator and author Derek Bok once wrote, "If you think education is expensive, try ignorance." Bad House majority policies have cost America dearly. Children are being neglected, and they cannot raise themselves.

We would provide \$1.7 billion for reducing class size. The opposition did

not guarantee one Federal dollar for class size reduction.

We would provide a new \$1 billion teacher quality initiative, whereas the opposition has rejected this proposal and has proposed funding lower than this for two combined programs.

We would provide \$1.3 billion to leverage about \$6.7 billion in grants and loans to fund school renovation. The opposition rejects this approach.

All of our proposals, including funding for after-school programs, safe-and-drug-free schools, accountability and the Head Start and Gear-Up programs have either been rejected or cut dramatically by the House leadership. This is unacceptable.

Mr. Speaker, I ask my colleagues to stand up for education and for our schools, and work towards a better America for all of our children. If we do not stand up for education and our schools, we will fall for anything.

CONGRATULATIONS TO PROFESSOR DANIEL J. McFADDEN ON WINNING NOBEL PRIZE FOR ECONOMICS

The SPEAKER pro tempore. Under a previous order of the House, the gentle-woman from California (Ms. Lee) is recognized for 5 minutes.

Ms. LEE. Mr. Speaker, I rise this evening to recognize and to congratulate a distinguished member of the University of California at Berkeley, Professor Daniel J. McFadden.

Last week, Professor McFadden, along with Professor James Heckman of the University of Chicago, received the Nobel Prize for Economics.

Together, through their research and observations, they have contributed significantly to the understanding of individual and societal behavior. Their vital work cuts across disciplinary barriers and greatly enhances our understanding of economics and public policy.

Prior to joining the world of the academic and social sciences community at the University of California at Berkeley in 1963, Professor McFadden, like many of us, attended public school.

As a young man during his college years, he was always attracted to the studies of human behavior. His passion for the field of behavioral sciences and the drive to learn and analyze human behavior helped launch an ambitious career and a lifelong commitment to the study of behavioral and social sciences.

Subsequently, Dr. McFadden developed and linked these behavioral theories to mathematics, statistics, and economics.

Mr. Speaker, I am proud and honored to congratulate and recognize Professor McFadden for this lifetime of achievements. His dedication and his outstanding work in economics have contributed significantly to our societv.

The implications of his research extend far beyond the ivory tower. Because of his efforts, governmental agencies and city planners in the United States are able to make better decisions about health care services, social services, employment programs, transportation, and other critical areas of modern life.

The cities of the San Francisco-Oakland Bay area, for example, owe a great deal of the work to Professor McFadden in terms of his research in helping to shape the design of our Bay Area Rapid Transit commuter train system, which is very crucial to tens of thousands of people for their daily commute to work.

Professor Daniel McFadden joins 16 other Berkeley colleagues as Nobel Prize winners. This impressive roster of intellectuals also demonstrates the commitment of this university to the larger social and economic world. As an alumna of the University of California at Berkeley, I am especially proud of these accomplishments.

Mr. Speaker, once again, I congratulate Professor McFadden for his Nobel Prize award. I appreciate having this opportunity to express my appreciation for the hard work and commitment of our most recent Nobel Prize winner in economics, Professor Daniel J. McFadden.

EDUCATION

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) is recognized for 5 minutes.

Mrs. CHRISTENSEN. Mr. Speaker. I rise today to speak on the Congress education agenda, or lack of one.

Two months ago, the Nation's schools opened their doors to the largest number of students in history. Yet, the Nation began the 2000-2001 academic year facing a national education crisis.

Our teachers and students are struggling to teach and learn in underfunded, inadequate, substandard, and crowded conditions. The average American school building is now more than 40 years old, and the estimated price tag to bring our schools into good condition is \$127 billion.

Many of our Nation's communities, like my own, are working to build and modernize schools, but they lack or have very limited funding.

Our President has proposed a school construction tax credit to help communities build and modernize 6.000 schools, and grants and loans for emergency repairs to nearly 5,000 schools a year for 5 years. This school construction relief has bipartisan support in the House of Representatives, and needs to be voted on.

support in the House of Representatives for H.R. 4094, the Rangel-Johnson bill, which would amend the Tax Code to provide incentives for school construction and modernization. It has more than 225 cosponsors. I ask my colleagues to include the provisions of that bill in the final agreement, as well.

But school modernization and reconstruction is only a beginning. Mr. Speaker, in the district of the Virgin Islands, which I represent, just under 3.000 members of the American Federation of Teachers are in the fifth day of a strike for retroactive wages and better working conditions.

When our teachers strike, our students suffer. We need the Federal government to help us in many areas so we can better address our teachers' very valid concerns and their long overdue salary increases.

We in the Congressional Black Caucus have an important education agenda. We are calling for a public school emergency recovery program, which comprehensively addresses the needs of our poorest and most needy schools. It will cost \$10 billion of the surplus.

The schools in my and other districts need this help. It is more important than a tax break for the richest 1 percent in our country, and it is a much better and more effective way to address the needs of education than our vouchers, which at best is a risky deflection of funding from public schools, where most of our Nation's children are educated.

Mr. Speaker, my daughter Rabiah is a second grade teacher at Barnard School here in the District, a school that would benefit from the CBC's proposed initiative. This week, she and other teachers are being sent home. She had 22 students in her class. Barnard School and many others need more teachers, not less, to meet the needs of their children.

The time has come for us to send a message across the Nation that our children are a priority and that we value and will invest in the education that they receive. We need to pass a budget that reflects investment in school modernization, that addresses the needs of our teachers by creating smaller classes, by increasing opportunities for training, by giving them more support staffing and programs, and by providing incentives to keep good teachers in our classrooms.

I urge our leadership to follow the will of the majority of the Members of this House by bringing to the floor and passing an education budget that fully responds to the real education needs of all segments of our Nation.

\Box 1930

I echo the President's call for continued work to strengthen accountability and raise test scores; to turn around

Mr. Speaker, there is also substantial failing schools or shut them down or put them under new management; to expand after school programs and college opportunities for young people; and to ensure a qualified teacher in every class.

Mr. Speaker, as we come to the end of this session of Congress, we will be saying good-bye to several of our colleagues. One of them is a steadfast champion of education as well as labor, the gentleman from Missouri (Mr. CLAY). As he leaves the House after his years of distinguished service, he leaves us in this country an outstanding legacy which includes enacting legislation to strengthen Head Start, elementary and secondary education programs, and college financial aid programs, as well as many other mainstays of American education.

I can think of no more fitting tribute to his service than passing landmark funding for this Nation's public schools and creating the Congressional Black Caucus' public school emergency recovery program.

Mr. Speaker, the outcome of our endof-the-term negotiations this year must begin with an education budget that ensures a 21st century education for each and every one of our Nation's children, truly leaving not one of them

GOVERNMENT MUST DO MORE TO IMPROVE EDUCATION

The SPEAKER pro tempore (Mr. DICKEY). Under a previous order of the House, the gentleman from New York (Mr. OWENS) is recognized for 5 minutes.

Mr. OWENS. Mr. Speaker, for the past few years, the American people have, through numerous focus groups and polls, sent a strong message to all elected officials. Government must do more to improve education. Government at every level, the local level, the State level, and at the Federal level must do more to improve education.

Now we are finally approaching the closing days of the 106th Congress, the scandal of this session of Congress is that, despite the existence of a \$230 billion Federal surplus, to date, the Republican majority has refused to respond to the clear demand of the American voters.

The Republicans have chosen to move in the opposite direction. Republican inaction is sabotaging the Federal effort to improve our schools. Even long-standing programs, such as ESEA Title I have not been reauthorized by this Republican-controlled Congress. Only destructive proposals are being placed on the negotiations table by the Republicans.

Publicly funded school vouchers and block grants are two of the most dangerous Republican proposals on the table. Both of these radical programs will hasten the demise of the public school systems in our Nation.

We call on President Clinton to rule that block grants and vouchers are nonnegotiable items in the end game negotiations that are now beginning to take place. Title I block grants are nonnegotiable. We refuse to accept a situation where block grants would return the power to the States using Federal money to decide how Title I will be spent.

It is the neglect, the savage neglect over the years of the States that have created conditions in our inner city communities and poverty rural communities that the Federal Government found necessary to address when the Elementary and Secondary Education System Act was established.

Why should we abandon the very schools and communities that the Elementary and Secondary Education System Act was meant to help? There is no honorable trade-off possible for block grants and vouchers. We hope that, in the negotiations, there will be a flat refusal to trade off with the Republicans on block grants and vouchers.

The bad news is that Republicans have turned their backs on education as the number one priority of the American people. But the good news is that Democrats have responded vigorously. All year long, we have made proposals.

Democrats have proposed two school construction initiatives. One that most people know about is the Rangel-Johnson initiative that proposes to pay the interest on money borrowed by States and local governments. Up to \$25 billion would be covered by a Federal allocation of about \$4 billion to cover the interest. The President has also proposed a direct appropriations initiative of \$1.3 billion.

Democrats support funding for smaller class sizes. Democrats support funding for more teachers in the classrooms, and therefore the ratio of students to teachers would be a more acceptable ratio and encourage greater teaching.

But one cannot have smaller class sizes if one does not have the class-rooms. The construction initiative is vital to the implementation of the Democratic initiative to get smaller class sizes. Certainly in the poorest schools in the poorest communities, we do not have the classes for the smaller class sizes.

The 21st century learning centers proposed by the Democrats for after-school programs, for summer school programs, those programs also need room to operate in. One cannot operate effective summer schools unless one has buildings that are air conditioned in most parts of the country.

The community technology centers are an initiative of this Democratic administration. They want to expand that. We need space. We need buildings.

An increase in Head Start and preschool programs is another Democratic initiative. We cannot increase Head Starts in the poorest communities where they are most needed. We cannot increase preschool programs in the poorest communities where they are most needed unless we have new facilities. We have to have better buildings and more buildings in order to accommodate these programs.

In our inner-city communities, school construction comes first. In Brooklyn, in my 11th Congressional District, we worked vigorously to get rid of coal burning schools, schools that have furnaces that burn coal. I am happy to report that the end is almost in sight, that the School Construction Authority in New York City has an agenda where by the end of the year 2001, there will be no more coal burning furnaces in our schools.

It is imperative that we act now to construct more schools. The Democratic initiative is necessary.

EDUCATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. GREEN) is recognized for 5 minutes.

Mr. GREEN of Texas. Mr. Speaker, I rise today in support of the public schools in our country. I know that should not be a major statement, but after hearing all of what people want to do with vouchers and everything else, maybe we need to have an affirmative affirmation that says, yes, we support our public schools in our country.

Some of the key priorities for our public schools are class size reduction, school modernization, and technology improvements of both our elementary and our secondary schools.

We need to fund the President's plans for school modernization and class size reduction, to ensure that our most valuable national resource, our children, will not continue to suffer from substandard school facilities and overcrowded classrooms.

Studies by the National Center for Education Statistics show that, on the average, public schools in America are 42 years old. School buildings begin rapid deterioration after 40 years. Additionally, 30 percent of our schools were built before 1970 and have never been renovated.

These schools are also lagging behind in our efforts to connect every classroom to the Internet. Only 42 percent of schools built before 1985 are connected to the Internet, compared to almost 60 percent of those built since.

According to GAO's estimate, it would cost \$112 billion to bring all our Nation's schools into good overall condition.

In my home State of Texas, where my wife teaches algebra, we have over 4 million students in almost 7,000 schools. Of those schools, 76 percent of the Texas schools need repairs or upgrades just to reach the "good" condition; 46 percent need repairs to a building such as plumbing, electrical, heating or cooling systems; 60 percent have at least one environmental quality like air quality, ventilation, or lighting; and the student-to-computer ratio stands 11 to 1, 11 to 1 student-computer ratio. So one just has to wait one's turn for the use of that computer.

The cost for this alone in Texas is estimated to be \$10 billion to modernize school infrastructure and over \$4 billion to address the technology needs.

Aging schools, however, are not the only problem we have before us. We have to address the growing student population.

Again, according to the National Center for Educational Statistics, elementary and secondary school enrollment, already at a record-high 52.7 million, will climb to 54.3 million by 2008.

Again, in Texas, we see similar trends. Our education system has stretched past a breaking point when one adds in the expected growth in the number of students.

Over the next decade, the number of students in the elementary and secondary schools are expected to grow almost 8 percent in Texas alone, approximately 316,000 students. It is estimated almost 13,000 new classrooms will have to be built to handle this influx of new students.

Voters in my own hometown in Houston are trying to address this problem. In a recent Houston ISD bond election, they approved \$678 million to repair over 70 schools and to build 10 new ones. Fifty of the schools in HISD are over 50 years old. Twenty-five are over 70 years old. Much more is needed because they downsized it.

Also, voters in the Aldine school district where my wife teaches just approved a \$115.8 million bond package that would fund six new schools, a transportation center, and would provide upgrades for existing campuses.

Aldine Independent School District is already feeling the impact of increased enrollment with the number of students having grown over 1,200 each year for the last 7 years.

\$678 million and \$115 million sound like a lot of money, but it is really a drop in the bucket. School populations continue to increase, newer schools are beginning to show wear and tear; and facilities must be upgraded to keep our schools equipped with the cutting edge technology our children will need to be competitive in tomorrow's job market.

These numbers show that it is absolutely vital that Congress address the conditions of our Nation's schools now because the situation will obviously get worse.

Now, most of the school construction comes from, first, local money but also State money. But we need to make sure that we help what we can. Even if it is only a few pennies on the dollar, Mr. Speaker, we can help. That is the reason I support the President's plan to reduce the class size and build more classrooms

Additionally, I join my colleagues from around the country sponsoring legislation that will make tax credit bonds available to our schools, offer incentives for teachers who choose to teach at low-income or underserved areas and offer tax credits and student loan forgiveness for college students who choose to make teaching their profession.

I hope my colleagues will join me in supporting these important initiatives, and that we can work together and provide funding for our schools to educate our children. Our most important natural resource is the brains in our children that are being educated today.

GOVERNOR BUSH MISSES MARK ON COUNTRY PROSPERITY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. SHERMAN) is recognized for 5 minutes.

Mr. SHERMAN. Mr. Speaker, we are engaged in a great fiscal debate in which the Governor of Texas tells us that, under his plan, every American who pays taxes will get tax relief. He is completely wrong. He should know that there are 15 million Americans who pay Federal taxes, who pay FICA taxes out of their wages that will not get a penny out of his tax plan, because he ignores the working poor. Those who care for people in nursing homes, those who clean our buildings and wash our cars are left behind. What is worse. of course, is that he provides almost half the benefits to the richest 1 percent of Americans.

Now, what concerns me most about the Governor's statements is that he mocks the importance of fiscal responsibility when he tells the country that the prosperity of the last 8 years has nothing to do with governmental decisions made in Washington.

He is correct that the lion's share of the credit for our national prosperity goes to American workers whose ingenuity, hard work and inventiveness is building a new economy. But for political gain, he denies that there is another essential element, and that is fiscal responsibility here in Washington.

By denying that what we do here in Washington has anything to do with how the economy performs, he grants to us a fiscal license, a statement that government has nothing to do with prosperity, hence government can do whatever it wants.

The fact is otherwise. The facts are that, during the mid-1980s and the late 1980s and the early 1990s, Americans were hard working and inventive and ingenious, and yet we did not have prosperity in this country.

 \Box 1945

Why? Because we had a budget deficit that was growing every year and threatened to swallow up private savings in our economy. We cannot afford the license the political rhetoric from the Governor of Texas would grant.

Now, we are told by the Governor that he does not want to provide so much benefit to the upper 1 percent. He tells us that his plan will provide only \$223 billion of tax relief to that richest 1 percent over the next 10 years. He does this by ignoring the second largest piece of his proposal, and that is his repeal of the estate tax. He tries to minimize the fiscal effect of that by using fuzzy phase-in figures.

But the fact is the estate tax will be producing \$50 billion a year, \$500 billion over 10 years, which means the wealthiest 1 percent, over a 10-year period, will be getting \$700 billion of tax relief, not just the \$223 billion the Governor admits to. That is why when we look at the estate tax and the income tax the conclusion is clear: he provides more tax relief for the wealthiest 1 percent than everything he proposes to do to help our health care system, to strengthen Medicare, to strengthen the military and to provide for our schools combined.

It is time that we focus on the fiscal details of the plans of those who are running for President. This is not a popularity contest.

THE NATIONAL IMPROVEMENT IN MATHEMATICS AND SCIENCE TEACHING ACT

The SPEAKER pro tempore (Mr. DICKEY). Under a previous order of the House, the gentleman from New Jersey (Mr. HOLT) is recognized for 5 minutes.

Mr. HOLT. Mr. Speaker, we are fortunate to live in an exciting and prosperous time. The Internet has bridged gaps between generations and nations. Biotechnology has produced medical miracles. Our cars have more computing power than the Apollo spacecraft. Success in this information age depends not just on how well we educate our children generally but how well we educate them in science and mathematics specifically.

Following the launch of Sputnik in 1957, major steps were taken in the United States to improve resources going into science. The goal was to pursue a superior technical workforce. This produced generations of scientists and engineers who have contributed greatly to our economic and technical accomplishments. I am a product of the Sputnik revolution. I have spent several decades in the world of teaching and physics research. But now, as a policymaker, I see the shortcomings of our earlier revolution in science and mathematics education, and I see the need to increase our effort for science and mathematics education today.

The push for improving public competence in science and mathematics is justified by economics, national security, and arguments about democracy. It is also important for personal fulfillment. Mathematics and science bring order and harmony and balance to our lives. They teach us that our world is intelligible and not capricious. They give us the skill for lifelong learning; really for creating progress itself. From the evidence we currently have at hand, it is clear we are not providing this quality education in math and science to our children.

I am proud to have been one of four Members of the House and Senate to serve on the National Commission on the Teaching of Mathematics and Science, chaired by former Senator and astronaut, John Glenn, and including leaders from industry, academia and professional and educational organizations. The Glenn Commission, as it has come to be known, was established to improve math and science education throughout the United States, and in its report, released 3 weeks ago, "Before It's Too Late," the commission identifies teaching as the most powerful instrument for reform; and thus teaching is the place to begin.

The commission calls for major changes throughout the teaching profession, the scientific professions, and the institutions that produce our teachers. Our country must devote attention to the quality, quantity and professional work environment of teachers in science and mathematics. In the next 10 years, we will have to recruit and hire 2.2 million teachers just to stay even with attrition in the teaching force. Most of these teachers. including all elementary schoolteachers, will be called on to teach science, and many will feel inadequate to teach it.

Along with my colleague, the gentle-woman from Maryland (Mrs. Morella), who also served on the commission, I am introducing legislation that seeks to make these changes. The National Improvement in Mathematics and Science Teaching Act, as it is called, establishes a new title in the Elementary and Secondary Education Act to improve the quality of math and science education.

Specifically, this Glenn Commission bill establishes a State assistance grant program to recruit quality teachers into the field. Under this program, every State will receive funding that they can use for a variety of purposes that are designed to attract new and qualified math and science teachers. States can establish a loan forgiveness program, signing bonuses, or even create a career ladder for math and science teachers. The bill also establishes a similar grant program to improve professional development of these teachers. Like the previous grant program. States would have the flexibility to use these funds on a variety of activities, including master teacher initiatives, summer fellowships in relevant industries, or summer workshops, among other things.

The Glenn Commission bill establishes 15 John Glenn academies to recruit recent college graduates and midcareer professionals to compete for 3,000 prestigious 1-year paid academy fellowships. The fellows will be nationally recruited for a 1-year intensive course on effective teaching methods in mathematics and science. In return, these Glenn fellows will agree to teach for 5 years in districts with science and math teacher shortages. I am pleased that this bill establishes a grant program to address the achievement gap in math and science education.

Lastly, this bill establishes industry tax credits and deductions designed to encourage partnerships between schools and business and industry. Specifically, industries can receive tax credits for creating summer fellowships for math and science teachers. Likewise, businesses can receive deductions for donating new math and science equipment and materials to our public schools.

We are just days away from the end of the 106th Congress, so some may wonder why I am introducing a bill so late in this congressional session. In fact, I could have waited to introduce this bill at the start of the next session, but I see this as a critical problem that needs to be addressed starting now. The Glenn Commission only released its report a few weeks ago, and I believe it is important to get to work as quickly as possible to address the recommendations of this commission.

We should not wait until next year to address an issue that will have such a huge impact on the future of our children and our country. If we are going to make a difference in the education and the lives of our citizens, it is imperative that we start making changes right away.

The gentlewoman from Maryland (Mrs. MORELLA) and I are trying to do this, and I urge my colleagues to support this important legislation.

EDUCATION

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Texas (Ms. EDDIE BERNICE JOHNSON) is recognized for 5 minutes.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, as I stand here and think about how the economy is booming, we talk about how many jobs that have been created; yet we have record unemployment, and we are passing bills to bring people over under the H-1B visas to take the better jobs. Now, I do not have a problem with that, Mr. Speaker; but we have got to educate the people here so that we do not continue to do this forever.

It has been said that a school is four walls and a roof with a future inside. If

that is true, then we need to start to look at the investments that we make in education. I have heard far too much about the trillion dollar tax break and far too little on the investment in our future, which is with our young people. It is very simple. It is so easy. And this administration has taken a lead in standing firm and holding the line, hopefully until we can get some of these issues addressed.

All of us know we need additional teachers and after-school programs. We all know that we need to do something about our buildings. In my State of Texas there are buildings that have more portables than the main building, and some of the portables are a block from the first restroom that kids can go to. I do not believe that we think that all of this ought to be left to the local districts because they simply cannot afford it when the districts are poor.

Mr. Speaker, this is a wealthy Nation. This is a Nation that can do about whatever it wants to, and I do not believe that we are thinking soundly when we are willing to leave here without addressing the real needs of our future, which is our students. We have to get rid of these leaky inadequate buildings that have no heat, no running water, and are not even in a condition to be wired properly for today's education. Yet we continue to talk about how much we can give for a tax break.

I do not know why it is so difficult to understand that kids simply cannot grasp what they are being taught if they are in a class with too many other children and only one teacher. In my State of Texas, the ratio is one teacher for 22 children. That is really above the national average, but every one of those asks for a waiver each year so that they can have even more students in a class. Just imagine young children coming to school for the first time and finding themselves in a class of 25, 30, and 40 children with one teacher. We wonder why they do not do well on tests and wonder why they drop out or start being absent from school. No child wants to feel that they are being left out, and yet that is what we are getting when we have our classes that are too large because we do not have enough teachers.

One of the reasons we do not have enough teachers is because we do not pay them adequately. If we graduate young teachers now from college that are well prepared for today's classrooms, they can get a job making twice as much almost anywhere else. We have got to address the issue of educating our young people, and we have to acknowledge that we have a long ways to go in many of these communities.

The answer is not vouchers for a private school. I do not have a thing against private schools. I think whoever wants to send their children to

private schools should be able to do that. But I do not think it should be with taxpayers' money while we are neglecting the public schools, which is where 90 percent of the children have to go. Imagine kids still going to school in areas that are not safe, where half the teachers are eligible for retirement, but they simply cannot retire because they do not have anyone to replace them. They go into schools that are not equipped with our technology and computer hardware that we all say we have to have.

In spite of all this, Mr. Speaker, the Republican leadership stands in the way of bringing a bill to the floor to just spend a portion of what we call the surplus to address these basic needs. I am hoping that we can remember our ABC's. A, for additional teachers and additional after-school programs. Without additional teachers, my own State will lose something like \$146.8 million to reduce overcrowded classroom sizes.

And B is for building improvements. Current estimates indicate that my State faces \$13.7 billion in costs for school modernization; 76 percent of the schools in Texas report a need to upgrade or repair buildings.

And C, of course, Mr. Speaker, is reducing classroom size. Hopefully, that is simple enough that all of us can remember that and not go home this session without addressing this.

CONGRATULATIONS TO CHRISTINE MARTIN. NEW J-SCHOOL DEAN

The SPEAKER pro tempore (Mr. SHIMKUS). Under a previous order of the House, the gentleman from West Virginia (Mr. MOLLOHAN) is recognized for 5 minutes.

Mr. MOLLOHAN. Mr. Speaker, I would like to offer my congratulations to Christine Martin, who was recently named dean of the Perley Isaac Reed School of Journalism at West Virginia University.

Dean Martin led the school of journalism in an interim capacity for 1 year before receiving a permanent appointment. In that short term, she has greatly contributed to a first-class faculty with the addition of award-winning journalists George Esper and Terry Wimmer.

Mr. Speaker, in tribute to this talented, well-respected educator and journalist, and in recognition of her many achievements, I provide for the RECORD a recent newspaper article written on the occasion of her appointment as dean and extend my congratulations.

MARTIN SELECTED AS NEW J-SCHOOL DEAN (By Chandra Broadwater)

Christine Martin, a West Virginia University journalism professor and interim dean of the Perley Isaac Reed School of Journalism, was selected as the permanent dean of the school last week.

The selection of Martin formally concluded a nationwide search for the position.

Martin was named to the post of dean after the search was narrowed down to three total finalists.

"I think that the school of journalism will be very well served with Chris as dean," Dean Bill Deaton of the College of Human Resources and Education and chair of the Journalism Dean Search Committee said. "She's demonstrated through her progress as interim dean her ability to effectively work with different media in the school."

Martin will be the first woman to lead the school and the sixth dean in its history.

"I've worked with Chris since I came to WVU in 1996 and I had also known her from a Pennsylvania paper that we both worked at," journalism professor and search committee member Leslie Rubinkowski said. "I know her as being an excellent journalist and good editor. She brings a lot of these qualities to her job."

Rubinkowski also acknowledges that Martin did a great job in getting projects within the journalism school started.

"Chris has spearheaded many projects in the last year," she said. "Under her guidance, we are redesigning the journalism curriculum. The way that scholarships are awarded has been changed and Journalism Week, which faded away in the last five years, was revived."

In addition to noting Martin's work in creating the Vietnam war correspondent women's panel, Rubinkowski ultimately felt that Martin was chosen as dean of the journalism school because of the respectable and likeable persona that she reflects.

"People like and respect her because she's a good journalist and leader."

After coming to WVU in 1990 as an associate professor, Martin directed the school's writing program, chaired the news editorial sequence and coordinated its honors program.

Before coming to WVU, she taught writing, literature and journalism at Washington and Jefferson College in Washington, Pa. Martin also worked as a reporter, education writer and news editor for the Pittsburgh Tribune Review and the Uniontown Herald-Standard.

Martin is also a 1999 Freedom Forum Teacher of the Year, a 1998 Carnegie Foundation Professor of the Year (the only one in West Virginia), a 1997–98 WVU Foundation Outstanding Teacher and the 1996–97 Journalism Teacher of the Year.

Martin also began a program that brings together WVU and state newsrooms called, "Bridging the Gap: A Personnel and Resource Exchange." In addition to her work with WVU, she conducts writing workshops for newspapers across the state.

Martin also co-directs the reporting and writing fellowship program for college graduates at the Poynter Institute in St. Petersburg, Fla. every summer.

Martin earned her undergraduate degree in English from California University (Pa.). She also holds a master's degree from the University of Maryland, where she is currently completing a Ph.D. in American studies.

Martin currently is in Vietnam, pursuing her interests in female war correspondents who covered the Vietnam War. She was unavailable for comment.

\square 2000

EDUCATION

The SPEAKER pro tempore. Under a previous order of the House, the gentle-

woman from California (Ms. Woolsey) and saw signed into law in my first is recognized for 5 minutes. term, needs to be expanded. It needs to

Ms. WOOLSEY. Mr. Speaker, when I first came to Washington, I was determined to make education our Nation's number one priority. That commitment has not changed.

What has changed is my understanding of what it takes so that our children are ready to learn when they enter the classroom. We can have the best schools and the best teachers in the world; but if our children do not enter the classroom ready to succeed, those schools and those teachers and those students will fail.

Let us face it, if today's children are lucky enough to have two parents living with them, chances are both parents work outside the home, they work long hours, they commute long distances, and it is our children who are being left behind.

It is certainly not their parents' fault. They are working and commuting long hours to support their families. But it is our children who are paying the price because their parents need to earn a living. That is not right. Parents should not have to choose between financial stability and their children's emotional stability. We need to help parents bridge the gap between work and family so their children are ready to learn when they enter the classroom.

Mr. Speaker, we know that learning does not start on the first day of kindergarten. Children are growing and changing from the very day they are born. Study after study has shown that the first 3 years are critical to a child's development. Provisions need to be made for families so that they can be together at these critical times so parents can be with new babies and newly adopted children.

Paid family leave is a key tool we can use to make sure that children get off to a positive start and that their parents can be with them at these critical times. And by providing parents with voluntary universal prekindergarten programs, we will give them the chance to get their children on the right track. Programs like Head Start and Early Head Start show us that pre-K programs work. All parents should have the option of enrolling their children in a structured, quality, voluntary pre-K program.

With parents working hard, children are spending more and more time in child care. Ensuring that quality child care is available to all children will go a long way to making sure that our children are ready to learn when they go to school.

We need more good child care, including care for children under the age of 3 and for night and weekend workers. But it is not just young children who are coming to school unprepared. Older children face challenges also.

Title XI of the Elementary and Secondary Education Act, which I wrote

and saw signed into law in my first term, needs to be expanded. It needs to be expanded to allow schools to use more Federal funds for in-school support services for students and for their families.

Services such as after-school programs, mentoring programs, tutoring and counseling help young people address their angers and their frustrations and their fears before they have tragic consequences, and these programs ensure that young people are ready to learn when they enter the classroom.

Also, Mr. Speaker, students cannot learn when they are hungry. It is proven that those students who eat breakfast do better on tests, they are more well-behaved in school, and they miss less time from school than those who do not eat breakfast. We need to make sure every child starts the day off with a good meal.

My pilot Federal breakfast program, which is underway in five school districts across the Nation, is the first step toward a universal school breakfast program.

We must also make quality education accessible to all of our children. That means building new, modern schools that are welcoming to those with disabilities as well as to those without. That means making sure that no one is left behind.

In the high-tech global economy, however, those without a high-tech education, those without high-tech skills will be left behind. That is why we must make sure that minorities and women are encouraged to study math, science, technology, and engineering. Females make up slightly more than 50 percent of this country's population, but less than 30 percent of America's scientists are women.

My "Go Girl" bill will create a bold new workforce of energized young women in science, math and technology careers.

GENERAL LEAVE

Ms. JACKSON-LEE of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the subject of my special order tonight.

The SPEAKER pro tempore (Mr. SHIMKUS). Is there objection to the request of the gentlewoman from Texas? There was no objection.

EDUCATION IS KEY TO OPPORTUNITY, EQUALITY, AND SUCCESS

The SPEAKER pro tempore. Under a previous order of the House, the gentle-woman from Texas (Ms. Jackson-Lee) is recognized for 5 minutes.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I could not help but listen to

the Members who have preceded me in discussing what I think is a universal issue, and that is to help our children in this Nation learn.

Education is the key to opportunity, the key to equality, the key to success. Unfortunately, we have failed in creating opportunities for excellence.

It is difficult for a country as powerful as America and Members of the United States Congress to be able to come to the floor of the House and admit, in some part, failure. That is why it is so very important for us to emphasize what needs to be done and to also emphasize that all cannot be done at the local level.

Education is national. It should be a national priority. And so, Mr. Speaker, I think it is vital that, before we leave this session, we focus on issues such as reducing class size so that our children can get individual tutoring and teaching and nurturing so that education is fun and education for them is a positive experience.

To do that, we must admit that our schools in America are crumbling and local jurisdictions cannot build all of the schools that are needed. Every one of us have schools in our community that have portable buildings, limited heat, limited air conditioning. They were only supposed to be there on a temporary basis. Yet first-graders and kindergartners and second-graders are all in these portable buildings maybe high school students and middle school students. And for some, in inclement weather, those individuals have to leave those portables to go to the restroom facilities, gym facilities.

What kind of life is that for our children?

We need increased teacher salaries. We need to respect teachers for the learning and the knowledge that they bring to the classroom. And, yes, we need the training of more math and science teachers.

I have seen the actual results of that. The ranking member on the Committee on Immigration Claims, we supported H-1B non-immigrant visas to help in our high-technology industry. But, Mr. Speaker, the real issue is are we preparing Americans for those jobs, are we training incumbent workers, are we training college students? There has to be a greater opportunity and there must be a greater access and opportunity for education.

I visited with some of my elementary school students this past week from Henderson Elementary School, hardworking students. But yet, Mr. Speaker, they had maybe three computers to a classroom, maybe not that many. I asked the 10-year-old and 9-year-old how often they got to the computer, and they said maybe once or twice or three times a week. Even if there is slightly more than that, that is not enough to prepare a technologically educated society.

do more for education.

Let me just simply close on another and different note, but I think it is extremely important to clarify something very close to my heart as a member of the House Committee on the Judiciary, a cosponsor of the Hate Crimes Prevention Act of 1999 and 2000. There seems to be a lot of debate about this, Mr. Speaker. But let me clarify the record.

Coming from Texas, all of the world's eyes were on Jasper, Texas, in 1998 when the heinous act of James Byrd, Jr. was discovered, the dismemberment of a man because of his color. Out of that terrible tragedy, legislators such as Representatives Senfronia Thompson of Texas, Senator Rodney Ellis of Texas, Joe Deshotel, a cosponsor, and many others put forward the Hate Crimes Act of Texas in order to ensure that this terrible act would be an illegal act not only in Texas but to show the world what Texas was made of.

That act was dealing with race, ethnicity, gender, disability, religion or sexual orientation. It was inclusive. It was constitutionally secure. It would pass constitutional muster, unlike the legislation of 1991, which was simply a Hate Crimes Reporting Act that I believe the Governor of the State of Texas was referring to in all of his debates.

We do not have a real hate crimes legislation or bill in the State of Texas. And when the family of James Byrd, Jr. went to the Governor's office and begged for his support for that very strong legislative initiative, he did not give it. Plain and simple, the signals went out to the Senate that it was not a legislative initiative that the Governor's office was supporting.

It passed the House, with Speaker Laney, the Democratic speaker in the House of Representatives in the State of the Texas. But in a Republican Senate in the State of Texas, it could not pass.

The Governor of my State, Governor Bush, did not help it pass and did not support its passage. And now we do not have, in light of the heinous act, murderous act against James Byrd, Jr., not even as a tribute to him could we pass a real hate crimes bill in the State of Texas.

I hope this Congress will take up the challenge and stop the opposing of a real hate crimes legislation that could be passed in this session and do what is right. We could not do what was right for Texas. Let us do what is right for all of America and make it a Federal law, and let us not stand in the way of acknowledging that that country abhors hateful acts because they are simply different. As the Voters' Rights Act was passed and the Civil Rights Act was passed, we can pass a real civil rights bill, the Hate Crimes Prevention Act, and tell America and the world

Mr. Speaker, it is important that we that we stand not for hate but for inclusion and empowerment.

SOCIAL SECURITY SOLVENCY

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 1999, the gentleman from Michigan (Mr. Smith) is recognized for 60 minutes as the designee of the majority leader.

Mr. SMITH of Michigan. Mr. Speaker. I rise tonight to discuss Social Security. It is going to be almost like a professor lecturing a class. So everybody that is interested in Social Security should listen up. Those that are not interested in Social Security should be because it is America's biggest program, probably the United States Government's most important

When I came to Congress in 1993, I left the Michigan Senate as chairman of the Taxation Committee. At that time, we were looking at the consequences of low investment and savings. I discovered that, in the United States, we have the lowest savings of any industrialized country in the world. And then I started looking at Social Security and the problems that Social Security was having in terms of the demographics in terms of financing the current promises in future years.

When I came to Congress, what I did in 1993, I introduced my first Social Security bill. And then 2 years later, in 1995, 1997, and 1999, I introduced subsequent Social Security bills, all scored by the Social Security Administration to keep Social Security solvent for the next 75 years.

I have been serving as chairman of the Bipartisan Task Force on Social Security in the Committee on the Budget. With testimony we received. we came up with 18 unanimous recommendations of what should be in a Social Security bill. I incorporated those and introduced a bipartisan bill that is now before the House.

I would suggest to everybody, current retirees, near retirees and young workers and young people in general to start looking at Social Security because it has the potential of developing a generational warfare if we continue to make promises of increased Social Security benefits and then we simply satisfy that challenge by increasing taxes on future generations.

Let me just say that if we do nothing, if we add no more benefits to Social Security or Medicare or Medicaid but continue under the existing programs to keep those programs solvent, we will have to have a payroll tax to keep Social Security and Medicaid and Medicare solvent that will take 47 percent of our wages.

□ 2015

Right now the FICA tax is 15 percent of wages.

The Social Security Benefit Guarantee Act. When Franklin Delano Roosevelt created the Social Security program over 6 decades ago, he wanted it to feature a private sector component to build retirement income. Social Security was supposed to be one leg of a three-legged stool to support retirees. It was supposed to go hand in hand with personal savings and private pension plans, and it is interesting, searching in the archives for some of the testimony back in 1935 when we started Social Security, to see that the Senate on two different occasions voted that it should allow private investment savings as an alternative to the government doing it; but when the House and the Senate went to conference, the decision was made that year to simply have it a totally government program, and that is what it is, a pay-as-you-go program where existing workers pay in their taxes to support existing retirees.

The demographics, the problem of demographics, fewer workers and more retirees, which we will get into in a moment. The system is really stretched to its limits. Seventy-eight million baby boomers begin retiring in 2008. These are the high-income people in general. That means they go out of the paying-in mode, paying in their taxes, directly related to their higher incomes, and start taking out benefits again directly related to what their incomes have been. That is when the problem starts. Social Security spending exceeds tax revenues starting in 2015. We increased the Social Security taxes substantially in 1983 so currently, temporarily, there are huge surpluses coming in, and we have been spending that surplus for other government programs.

Social Security trust funds go broke in 2037, although the crisis could arrive much sooner. The crisis is going to arrive when we need to start coming up with the money that we borrowed and spent for other programs in the past, and that is the real problem. That is the real challenge.

Insolvency is not some guess or estimate. Insolvency is certain. We know how many people there are, and we know when they are going to retire. We know that people will live longer in retirement, and our estimates on how long they live have been fairly accurate over the past. We know how much they will pay into Social Security and taxes, and we know how much they are going to take out under the benefit structure we have. Payroll taxes will not cover benefits starting in 2015, and the shortfalls will add up to \$120 trillion of extra money needed over and above what is coming in in taxes, \$120 trillion between 2015 and 2075.

To put that in perspective, I am not sure any of us really know how much a trillion dollars is, but our spending that we are going to end up for this current fiscal year that we have just started is going to be approximately \$1.9 trillion. Just for Social Security over the next 75 years, we are going to need to come up with an additional \$120 trillion. It is a huge problem, and it is so frustrating that we have not paid attention to it.

We have let the last 8 years go because politicians have been afraid that they would be demagogued in the election. We have missed an opportunity over the last 8 years by not having the leadership in the White House to move ahead with saving Social Security. Instead, we have had words saying Social Security should come first but no legislation proposed that could be scored to keep Social Security solvent over the next 75 years.

Here is part of the demographic problems. The coming Social Security crisis, pay-as-you-go retirement system, will not meet the challenge of demographic change.

Workers per Social Security beneficiary. Back in 1940, here are 38 workers paying in their taxes for every one retiree. Today there are three workers paying in their taxes for every one retiree, and the estimate is by 2025 there are only going to be two workers paying in their benefits that is going to cover the Social Security check for every one retiree. So if that person's Social Security benefits end up being whatever, \$15,000, or \$1,200, \$1,500 a month, those two workers are going to have to pay in that \$600 or \$750 a month each to cover those benefits of that one retiree. So we would let taxes go that high.

This depicts sort of graphically the short-term surplus and the long-term future deficits. Remember, I mentioned this red represents \$120 trillion, \$120 trillion that we are going to be short; that that much more is needed over and above the Social Security taxes to accommodate the promises that we have made in Social Security. Because we have been raising taxes a great deal on the fewer and fewer workers, we have ended up with a short-term surplus, and Republicans came in as a majority in 1995 and for the first time we started not using all of the Social Security surplus for other government program spending. For the first time in 40 years we started saying, look, we have to stop spending the Social Security surplus, and last year we called it a lockbox. Whatever it is called, what we did was made a decision, and we enforced it by saying we are not going to spend any of the Social Security surplus on any other programs.

We talk about all of these huge surpluses. Most of the surplus coming in is from the Social Security tax.

Let me just give three numbers in terms of what is going to happen this current fiscal year that started the first of this month. This year we are estimating that we are going to take in \$533 billion of Social Security taxes,

\$533 billion coming in. What is needed to pay benefits this year is \$367 billion. That means we have a surplus in Social Security of \$166 billion. So the \$166 billion that is coming in from the Social Security tax, where we are really at this time at least overtaxing American workers to come up with the extra money and we are using that extra money to pay down the debt held by the public. So what we will do is we will write an IOU to the Social Security trust fund. There is a box down in Maryland full of IOUs where we have spent the money in the past, where we have borrowed it and spent it for other things: and this current year we expect to take \$166 billion for the Social Security surplus, write an IOU for it, and use that money to pay down the public debt.

This is Barry Pump. I do not know if the cameras see him; but Barry Pump is from Iowa, one of our star pages. So I thank Barry very much.

Economic growth will not fix Social Security. So some have said the economy is great, it is going to mean that we are not going to have the Social Security problems; let us keep this economy rolling and we can quit worrying about Social Security. Untrue.

Social Security benefits are indexed to wage growth. So the higher one's wages, when they retire the higher their benefits.

So an increased economy means that more taxes are paid in earlier; but later on when one eventually retires, they are going to take more benefits out. So the growing expanding economy, the way we have Social Security structured right now, is not going to solve the problem. I mean, that is why 4 years ago when I introduced my bill Social Security was estimated to go insolvent, to not have enough money coming in in 2012.

The expanding economy over the last 3 years has grown enough, a lot of it coming in from capital gains taxes, by the way, has grown enough that short-term, as far as the extra money coming in, means that we will have enough money to cover benefits another extra 3 years until 2015. Growth makes the numbers look better now but leaves a larger hole to fill later.

The administration has used these short-term advantages as an excuse to do nothing; and I just want to emphasize that this growing economy, though they can say, look, the Social Security trust fund is going to be there to pay benefits until 2035, it used to be 2032, or we are not going to have enough money coming in from the Social Security tax by 2012, now we are extended to 2015, does not solve the long-term financial fiscal problems for Social Security because the paychecks going out later on are going to be that much greater.

I think this is important that most Americans do not realize. Somehow they feel that somehow they earn

something with a Social Security account, a Social Security fund. Not true. There is no Social Security account with their name on it. These trust fund balances, and I am quoting from the Office of Management and Budget of this administration, these trust fund balances are available to finance future benefit payments and other trust fund expenditures but only in a bookkeeping sense. They are claims on the Treasury that when redeemed will have to be financed by raising taxes, borrowing from the public, or reducing benefits or somehow reducing other government expenditures.

Again, the source is the Office of Management and Budget. I think it is interesting to note that the Supreme Court now in two decisions has ruled that there is no entitlement for Social Security. Regardless of how many years one paid into Social Security, Social Security is a tax. The benefits are whatever Congress and the President decide those benefits are going to be. So what we have seen in the past, when there was a financial problem in 1977, 1983, when they were coming short of money, they reduced benefits and increased taxes. I just stress as vigorously as I can that it is going to be unconscionable to yet again raise taxes on the American worker.

We will see a chart later I have, but right now 75 percent of American workers pay more in the Social Security tax than they do in the income tax.

This represents the public debt versus the Social Security shortfall. Our total debt in this country, what we owe the trust funds and what we owe in Treasury bills, is \$3.4 trillion. The shortfall of Social Security between now and 2057 is \$46.6 trillion.

Vice President Gore is suggesting that if we pay off this debt by using extra Social Security money coming in and any other surplus that can be found, that if we pay off this debt it is going to solve this problem and keep Social Security solvent until 2057. It is like adding another giant IOU to the trust fund. So technically if this Chamber passed a bill saying we are going to write an IOU for \$9 trillion to the Social Security trust fund, the actuaries would say well, this will keep Social Security solvent for the next 75 years. The fact is that the challenge, the problem, is coming up with those dollars once we have fewer dollars coming in on the taxes than are required for the benefits.

I am going to portray this in another way. The blue at the bottom, the light blue, represents the \$260 billion that we are now using to pay on financing the debt, the interest on that particular debt approaching \$300 billion. Vice President Gore is suggesting that if we dedicate somehow this savings every year for the next 75 years to Social Security, it will keep Social Security solvent.

So what the difference between the \$46.6 trillion that is needed and what this interest savings will be is \$35 trillion. So the red part of this graph represents the shortfall that still is going to be there even if this Chamber and the Senate and the President has the guts, has the intestinal fortitude, to dedicate this kind of interest rate savings to Social Security. It is a problem that cannot be solved by adding IOUs.

\square 2030

The biggest risk is doing nothing at all. Social Security has a total unfunded liability of over \$9 trillion. I mentioned that over the next 75 years you need \$120 trillion of future dollars, that inflated future dollar. To raise that \$120 trillion over the next 75 years, you need \$9 trillion today. So Alan Greenspan, the Chairman of the Federal Reserve, suggests that we need \$9 trillion today, so put it in a real interest bearing account that will bring in 6 to 7 percent real return in order to accommodate the \$120 trillion shortfall over the next 75 years.

Nine trillion dollars we have got to come up with today if we are going to solve the problem and not make any changes in this program, and not get any better return on the investment than we are getting on Social Security now, which is less than 2 percent for the average taxpayer.

The Social Security trust fund contains nothing but IOUs. To keep paying promised Social Security benefits, the payroll tax will have to be increased by nearly 50 percent, or benefits will have to be cut by 30 percent.

Everyone should start out with a prerequisite that we are not going to increase taxes once again, and we are not going to cut benefits for existing retirees or near term retirees. Somehow we have got to do a better job on getting a better return on that investment.

The Social Security lockbox. A little bit of a gimmick, but it has served us well in trying to make sure that we do not spend the Social Security surplus. It saves the Social Security trust fund dollars for Social Security. It keeps Washington's big spenders from using trust fund dollars for other government spending.

I have heard the Vice President say, look, we need that lockbox for Social Security. The House, this Chamber, has passed the lockbox language. We have sent it to the Senate. Now the Democrats in the Senate are filibustering that so it is not passed into a bill and sent to the President.

If Vice President Gore really wants to implement that lockbox provision to make sure that we do not spend the Social Security surplus, then I think probably all he has to do is tell that particular Chamber that they should go ahead and pass the legislation.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. SHIMKUS). The Chair would remind the

gentleman not to cast reflections on the other Chamber, such as characterizing Senate action or their activities.

Mr. SMITH of Michigan. Thank you, Mr. Speaker, and I would apologize if I did that.

Mr. Speaker, this Chamber passed the bill. It has languished over in the Senate. With the Vice President's help, I am sure we could get it through the Senate Chamber.

The diminishing return of your Social Security investment. The average Social Security taxpayer will receive a 1.9 percent interest rate, real interest rate return, on what that worker and their employer, or, if they are self-employed, what they pay into Social Security. So the average worker is not going to live long enough, even though our life spans are substantially increasing, to get back what they have paid in Social Security tax. So that is part of the problem, is getting a better return on that investment.

The real return on Social Security is 1.9 percent for most workers, and it shows a negative return, as you see over here, for some, compared to over 7 percent for the marketplace. So the marketplace for the last 120 years has averaged a return of 7 percent, a real return. This is what this graph depicts.

You have a negative return if you happen to be a minority. The reason is that a young black worker today, their life expectancy is about 62.5 years. That means they can work all their life, paying into Social Security, but, on average, they die before they start taking any benefits out, and they are substantially shortchanged. But even the average, even the best, even the person that lives to be 105, on average they are only going to get a return that is 1.9 percent real return on the money, tax money, that has been sent in. And this is over and above that amount of the Social Security tax that is used for insurance, for disability insurance. This only counts that amount that is put into the OSDI fund. Again, on the average, the market return is 7 percent.

Another way of depicting the problem, because it is sort of like maybe the mechanic that knows the operation of the internal combustion engine, so they are very careful about taking care of their automobile, and they change the oil and they do the lubrication on a regular basis.

Well, I have been studying Social Security now for 7 years. I know the internal workings of Social Security, and it is running out of lubrication. The friction currently on Social Security means that there are going to be tremendous problems in the future, and that huge liability is going to fall on our kids and our grandkids.

I am a farmer from Michigan, and traditionally we have always tried to pay down the farm mortgage in an effort to leave our kids a little better off. This government, this Congress, this White House, is now taking a course where we are jeopardizing the potential happiness and success of our kids and our grandkids by leaving them this great huge obligation. We have got to deal with it, we have got to change it. It has to be more than rhetoric. It has got to be real action for written bills that can keep Social Security solvent.

This chart, very briefly, is the number of years it takes to get back your Social Security tax. If you were lucky enough to retire in 1940, because of the low taxes, you could get back everything you and your employer paid in in 2 months. By 1980, you have to live 4 years after retirement.

If you retire in 2005, you have got to live 23 years after retirement to break even, to get back just what you and your employer put in into the tax. In 1983, they increased the age limit that starts this next year, and that is why this sort of levels off up here. But by $2015\ \mathrm{and}\ 2025,\ \mathrm{you}\ \mathrm{are}\ \mathrm{going}\ \mathrm{to}\ \mathrm{have}\ \mathrm{to}$ live 26 years after you retire in order to get back what you and your employer paid in. I am not sure our medical technology is going to be that good by that time. It may be, but a better way to do it is to make some changes now that will mean that our kids and our grandkids are not put under this huge burden and that they can appreciate the benefits of Social Security, as their grandparents and their parents hopefully have.

This is a picture of my grandkids getting ready for Halloween. Whether it is Selena or James or Henry or George, he is a real tiger, or Emily or Clair or Francis or Nicholas. Nicholas is now 13. When he retires, he is going to have this challenge, not to mention his younger brothers and sisters and cousins, that they are going to have if we do not do something on Social Security.

I put the picture of my grandkids on my office wall. As I walk out to vote, I try to make my voting decisions on how it will affect this country and the future generations of this country 15, 20, 30, 40 years from now.

We have got to start looking longer range. We have got to start dealing with the two important programs that we have for seniors, Medicare and Social Security; and Medicaid with nursing home care is another issue that we have got to start dealing with.

We cannot keep putting it off simply because it is hard, because it is a difficult problem, simply because somebody might criticize us for things or portions that we do in it. Somehow Republicans and Democrats have got to get together and seriously move ahead.

This chart represents what we have done in the past. I do not know if the cameras still show my grandkids, but imagine them up there, because what we are going to do with their taxes down here can be very significant. Here is what we have done in 1940, 1960, 1980 and 2000. In 1940 the rate was 2 percent and the base was \$3,000. So the total amount of tax for the employee and the employer was \$60, combined; combined.

In 1960, it got to 6 percent, and the base was \$4,800. So you, the employee, paid 3 percent on the first \$4,800, and the employer paid the same; a maximum tax combined for the employee and the employer of \$288.

It got up to 1980, and they raised the tax again; got into a little problem, so this Chamber decided, well, an easy way to do it is load more taxes on the American worker. So, again we increased the tax up to 10.16 on the first \$25,900, total possible tax for employee and employer combined, \$2,631.

In 2000, we got up to 12.4 percent on the first \$76,200, a total tax now of \$9,448.

Mr. DREIER. Mr. Speaker, if the gentleman would yield, I would like to congratulate my friend. I just walked in, and I see the picture and I see the headline saying "increasing payroll taxes again is not the answer."

I would like to say that I could not agree with the gentleman more. Obviously increasing the payroll taxes would be a horrible thing on those struggling workers, certainly the middle-income wage earners.

Mr. Speaker, I would simply like to compliment my colleague on this very interesting special order.

Mr. SMITH of Michigan. Mr. Speaker, reclaiming my time, I would certainly thank the gentleman from California (Mr. DREIER), the chairman of our Committee on Rules.

Mr. Speaker, just finishing the taxes, and maybe really what we have not finished is the bottom line. If we do not get a better return on the investment, we are in for real problems. Governor Bush has suggested that we have some real investment that stays within Social Security; that is not going outside of the Social Security system, but simply allows a better return on some of the money.

We can do better. As we know, you can get a CD and do better than a 1.9 percent return. Any return that we can expand over and above 1.9 percent on average is going to mean that retirees live a better life.

My oldest grandson's name is Nick Smith. Maybe that is my immorality. But Nick painted the fence for us this past year. He made \$180, and I said, Nick, you really need to put some of that into a Roth IRA. Then I went through the tables year by year on the magic of compound interest. So we went year by year and found out that by age 66, he would have almost \$70,000; and if he waited until he was 72 to take that money out at the rate investments have been earning money over the last 100 years on average, it would end up \$140,000.

He said, well, grandpa, can I still put some money, maybe, in your Roth IRA,

is what we have done in 1940, 1960, 1980 but I want to save most of it to buy a and 2000. In 1940 the rate was 2 percent car.

That is part of the problem we are facing today. Our savings and investment in this country is still low, and that means two things. It means we do not have the money to do the research, to put into the companies, to expand to the best possible state-of-the-art machinery to compete in this world, but it also means that the retirement for these individuals is not going to be as good as it really could be.

With good investments, let me say, and I am going to show you some examples from Texas and California, with good investments, a modest-income worker today can retire as a rich retiree. This is one of the problems why it is so important, I think, that we do not again raise taxes on the working poor in this country, on the average working family.

This pie chart represents that 78 percent of families now pay more in the payroll tax than they do the income tax.

□ 2045

Mr. Speaker, 78 percent of our families pay more in the FICA tax than the payroll deduction. Actually, it drops down to 74; 74 percent pay more in the Social Security tax than they do in the income tax.

Let us not raise taxes again. The longer we put off this decision, the longer we put off this decision, the more drastic the changes are going to have to be. So the bills that I introduced in 1995 and 1997 were less drastic, it did not have to make the kind of changes, but the bill I introduced this year actually had to borrow some money from the onbudget surplus to accommodate the transition to make the system work, to make the system solvent, without reducing any benefits for existing or near-term retirees and without increasing taxes. The longer we wait, the more drastic the solution. So let us do it.

Mr. Speaker, the six principles of saving Social Security that Governor Bush has proposed, that are consistent with the bills many of us have introduced: protect current and future beneficiaries; allow freedom of choice; preserve the safety net; make Americans better off, not worse off; create a fully funded system; no tax increases.

Mr. Speaker, let us talk just for a second about personal retirement accounts. They do not come out of Social Security. They stay in Social Security, and they are part of your retirement. They can only be used for retirement purposes, and the way Governor Bush has proposed, the way I have proposed, the way the gentleman from Texas (Mr. STENHOLM) and the gentleman from Arizona (Mr. Kolbe) have all proposed is that we have limited safe investments, that we can only invest in certain safe investments, such as an IRA or a 401(k)

or the Thrift Savings Plan that we have for Federal employees, where you get your choice of four or five safe investments to invest in, and then you can only use it for retirement purposes.

They become part of your Social Security retirement benefits. A worker will own his or her retirement account; and if you die before you reach retirement age, it is not a case where you get zero, zip, nothing; but it will go into your estate for your heirs and, again, limited to safe investments that will earn more than the 1.9 percent paid by Social Security. That is dramatic maybe, but no new taxes, no cut in benefits for existing or near-term retirees.

Mr. Speaker, I borrowed a lot of these charts from Senator Rod Grams. He has also introduced a Social Security bill that keeps Social Security solvent that allows choice within safe savings accounts. Personal retirement accounts offer more retirement security. If John Doe makes an average of \$36,000 a year, he can expect monthly pays of \$6,514 from his personal retirement account compared to Social Security, which is \$1,280. And that is because of the magic of compound interest.

Mr. Speaker, choosing personal accounts, in our law in 1935, we gave State and local governments the option of whether or not to go into Social Security or set up their own retirement pension system, where they could do their own investments for their own pension. The Galveston County, Texas, employees reap the benefits. Employees of Galveston County, Texas, opted out of Social Security.

This is how they faired: death benefits under Social Security \$253. You get a burial benefit. Under the Galveston plan, you get \$75,000 death benefit. Disability benefits per month, Social Security \$1,280, and Galveston plan, they are ending up with \$2,749.

This is disability. This is retirement. The retirement benefits per month, retirement is the same as disability under Social Security \$1,280; but under the Galveston plan for retirement benefits, it is \$4,790 a month compared to Social Security of \$1,280 a month for that same person if they had paid into Social Security and let government use the money the way the government administers and uses this program. Spouses and survivors benefit under the Galveston County plan.

I use these plans to try to argue to my grandson Nick Smith why the magic of compound interest is so important and why savings and investment now can make a huge difference.

This is a quote from a young lady whose husband died, and she said, "Thank God that some wise men privatized Social Security here. If I had regular Social Security, I'd be broke." After her husband died, Wendy Colehill used her death-benefit check of \$126,000 to pay for his funeral ex-

penses and she entered college. Under Social Security, she would have received a mere \$255. Fairly young, so he died at an early age, she was not eligible for all of those benefits.

How do we save Social Security? That is the question. Right now, as chairman of the Joint Task Force on Social Security, some of the witnesses came in making predictions with the new RD&A technology, the new gene sequencing, where the new gene catalog and the nanotechnology that is developing very rapidly, they were estimating that within 25 years a person would have the option of whether or not they wanted to live to be 100 years old; and within 35 years, our technology would be such that they could have the option of whether or not to live to be 120 years old. Tremendous policy implications, let alone the increased argument that young people more than ever before should be as diligent as possible to save and invest today.

You should take that money out, get it out, have it directly taken out of your paycheck, maybe, something to add to those retirement benefits, because you need that personal savings on top of Social Security even at its best, even if we can solve it.

Again, San Diego enjoys the personal retirement accounts because they opted out of Social Security. A 30-year-old employee who earns a salary of \$30,000 for 35 years and contributes 6 percent to his personal retirement account would receive \$3,000 per month in retirement. Under the current system, he would contribute twice as much, but receive only \$1,077 in Social Security.

The difference between the San Diego system and the PRAs and the Social Security is more than the difference in a check. It is also the difference between ownership and depending on politicians in Washington on what they do with your Social Security. Even those who oppose PRAs agree they offer more retirement security.

This is interesting. It is a letter from Senator Barbara Boxer, Senator Diane Feinstein, and Senator Ted Kennedy to President Clinton allow the PRAs in San Diego to continue and not go into Social Security. They said in the letter to the President, quote, "Millions of our constituents will receive higher retirement benefits from their current public pensions than they would under Social Security. So let them keep Social Security. At least that has to be an option."

Nobody is proposing, Governor Bush is not proposing that it be a mandate. Everybody is saying it is still an option whether you want the potential to earn more money where it belongs to you, where it is in your account; but if you want to stay in the existing system, you can.

The United States certainly trails other countries in saving its retire-

ment system. In the 18 years since Chile offered PRAs, 95 percent of Chilean workers have created accounts. Their average rate of return has been 11.3 percent per year. Among others, Australia, Britain, Switzerland offer workers PRAs.

I represented this country in an international conclave, if you will, discussing public pension retirement benefits and listening to those other countries what they are doing to very quickly move ahead with getting a better return on some of that investment. It made me feel somewhat embarrassed as we lag behind, as we have been unwillingly to step up to the plate, if you will, and make some solid decisions that are going to save Social Security, one of our most important programs.

British workers chose PRAs with 10 percent returns. And who could blame them compared to our 1.9 percent return we are getting? Two out of three British workers enrolled in the second tier Social Security, they have half of it they allow to go into the second tier. They chose to enroll in PRAs. The British workers have enjoyed a 10 percent on their pension investment.

Over the past few years, the pool of PRAs in Britain exceeds nearly \$1.4 trillion larger than their entire economy and larger than the private pensions of all other European countries combined. So what we have now is other European countries that are following the lead of Australia, Chile, Great Britain in terms of looking at ways to get a better return on the investment that is coming in.

Based on a family income of \$58,475, the return on a PRA is even better. If you invest 2 percent of what you earn versus 6 percent for pink or if you are investing 10 percent, which is the dark purple, and if you were to invest that kind of money over 20 years and 30 years and 40 years, even at the 2 percent, you see you have \$55,000 at the end of 20 years. That is the magic of compound interest. In 30 years, it keeps going up, and by 40 years, it is worth \$278,000.

Look at what happens if you were to invest 10 percent and the Social Security tax is now 12.4 percent. It takes about 2 percent for the disability insurance program. Nobody is touching that. That insurance has to stay in place for the disability portion; but eventually, if you were allowed to invest 10 percent or you dig into your pocket and come up with other investments to account for 10 percent, in 40 years that would be worth \$1,389,000; and if you have a 10 percent return on that, you would not have to go into the base, but just the interest would be \$138,000 a year. A 5 percent return would be half of that, or about 70,000 a year.

The magic of compound interest is important. Somehow we have to allow

and provide ways for more Americans to save and invest more.

Mr. Speaker, I saved out the chart of my grandkids just to stress with every grandparent, with every parent that might be listening tonight, with every young student who is really the kids that are at risk for the kind of future that we might give them, if we do nothing, because the potential is that they are going to have to pay huge tax obligations, Vice President Gore by suggesting that we add another IOU and take the interest savings and apply it to other Social Security and, therefore, the trust fund gets big enough to pay it simply demands that sometime in the future, somebody is going to have to come up with that money to pay off the trust fund.

To do that, what we have done in the past is increase taxes; that is the easiest thing for this Chamber to do. It is the worst thing for our economy. There are only three ways to come up with the money. Let me point that out; I will put my pointer down so I can use my hands as I conclude this last state-

Some people have said, do not worry, there is a trust fund out there. If we use the payback, the money from the trust fund, Social Security will last until 2035; and for the most of us, that is long enough.

I would suggest to you that there is no difference between having a trust fund and not having a trust fund, if we are going to keep our commitment that we are going to provide the benefits that we promised, because if we do not have a trust fund, the way to come up with the money to continue paying benefits is threefold. You either borrow the money from the public, and all the leading economists say if we were to borrow \$120 trillion over the next 75 years, it would so disrupt our economy that it would be disastrous for the United States of America.

\square 2100

So if we cannot borrow it, then how about the option of increasing taxes? That is the other option, increasing taxes.

Of course, the third option is cutting benefits. What they did in 1973 and again in 1983, before I got here, was they did both, increased taxes and cut benefits. Let us not do that again.

Those are the same alternatives we would have if we have a trust fund. So to pay back the money that is in the trust fund, we still have to raise taxes or cut other spending, or increase public borrowing. So, in effect, it is the same having or not having a trust fund.

It is important to pay down the public debt. It is a good start. It means we do not start spending the money for other government programs, and that is the danger.

The argument between the Republicans and the Democrats is, the Republicans say, let us get the money out ing appropriations for the Departments of town. Otherwise, we will spend it. The Democrats say, we will pay down the debt but we have a lot of increased spending we want to do.

The challenge is not whether we cut spending or pay down the debt, the challenge is, are we going to hold down spending in this country? Can we get this money out of town in some way?

The first choice would be to continue to pay down the debt held by the public with all of these surpluses that we bring in. We have decided 2 weeks ago, our Republican majority, that we were going to draw a line in the sand. Like last year, we drew a line in the sand saying, here is the social security lockbox. We are not going to spend any of the social security surplus for any government programs.

We held to it, we did it. That was good. This year we went further. We said, of all of the social security surplus, of all of the surplus coming into all of the other 120 trust funds, where most of the money is coming from, of all of the surplus, on-budget and offbudget, we are going to take 90 percent of that and use that money to pay down the debt held by the public.

Good. Good policy. That leaves 10 percent that we are arguing about, and that we hope to conclude this budget and this spending this year as we argue about that remaining 10 percent. But I think we have the edge now in the support of public opinion that we at least take 90 percent of all that surplus and use it to pay down the public debt.

REPORT ON RESOLUTION PRO-VIDING FOR CONSIDERATION OF HOUSE JOINT RESOLUTION 114, FURTHER CONTINUING APPRO-PRIATIONS, FISCAL YEAR 2001

Mr. DREIER, from the Committee on Rules (during the special order of Mr. SMITH of Michigan), submitted a privileged report (Rept. No. 106-989) on the resolution (H. Res. 637) providing for consideration of the joint resolution (H.J. Res. 114) making further continuing appropriations for the fiscal year 2001, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CON-FERENCE REPORT ON H.R. 4635, DEPARTMENTS $_{
m OF}$ VETERANS HOUSING AFFAIRS ANDAND DEVELOPMENT. URBAN AND INDEPENDENT AGENCIES APPRO-PRIATIONS ACT, 2001

Mr. DREIER, from the Committee on Rules (during the special order of Mr. SMITH of Michigan), submitted a privileged report (Rept. No. 106-990) on the resolution (H. Res. 638) waiving points of order against the conference report to accompany the bill (H.R. 4635) mak-

of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes, which was referred to the House Calendar and ordered to be printed.

ON RESOLUTION PRO-REPORT VIDING FOR CONSIDERATION OF S. 2796, WATER RESOURCES DE-VELOPMENT ACT OF 2000

Mr. DREIER, from the Committee on Rules (during the special order of Mr. SMITH of Michigan), submitted a privileged report (Rept. No. 106-991) on the resolution (H. Res. 639) providing for consideration of the Senate bill (S. 2796) to provide for the conservation and development of water and related resources, to authorize the Secretary of the Army to construct various projects for improvements to rivers and harbors of the United States, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PRO-VIDING FOR CONSIDERATION OF MOTIONS TO SUSPEND THERULES

Mr. DREIER, from the Committee on Rules (during the special order of Mr. SMITH of Michigan) submitted a privileged report (Rept. No. 106-992) on the resolution (H. Res. 640) providing for the consideration of motions to suspend the rules, which was referred to the House Calendar and ordered to be printed.

ACCESS TO HEALTH INSURANCE

The SPEAKER pro tempore (Mr. SHIMKUS). Under the Speaker's announced policy of January 6, 1999, the gentleman from Pennsylvania (Mr. Pallone) is recognized for 60 minutes as the designee of the minority leader.

Mr. PALLONE. Mr. Speaker, I wanted to make reference initially to last night's debate between Vice President AL GORE and Texas Governor Bush, but my focus this evening is on health insurance and the various health care issues that have come into play in this Congress, as well as in the presidential debate last evening.

I have always felt that one of the most important issues that we face and one of the biggest concerns that I have is the inability of many Americans to find health insurance, to be covered by health insurance. The candidates last night presented starkly different views on how to extend coverage to the 42.6 million Americans who currently lack health insurance. That is a large segment of our population, 42.6 million Americans, and it continues to grow.

During their exchange on this issue last night, the Governor said something which I found to be very telling and very disturbing. I wanted to read back what Governor Bush said during the debate. He said, "There is an issue with uninsured. There sure is. And we have got uninsured in my State. Ours is a big State, a fast-growing State. We share a common border with another nation, but we are providing health care for our people."

Continuing, the Governor added, "One thing about insurance, that's a Washington term."

Mr. Speaker, I was very offended by Governor Bush's referring to insurance, in this context health insurance, as a Washington term. In fact, I consider that remark very elitist and really absurd. All American parents who are out in the real world struggle to find a way to provide insurance for their children. I think they should be very alarmed when the Governor views health insurance as a Washington thing.

Really, all Americans should be alarmed because of his statement that somehow this is a Washington thing. Does that mean that Governor Bush thinks it is okay, for example, that my colleagues here, I will use the opposition, the Republican Members of Congress, the fact that they have health insurance and 42.6 million Americans do not?

And really, I would like to look at Governor Bush's record on the issue of health insurance, because I think that by referring to it as a Washington thing, he belittles it and shows that he really does not have much concern about the 42 million Americans that do not have health insurance.

If we look at the Governor's record in Texas, it shows that Texas has the highest number of uninsured children in the country. When setting up the State's Child Health Insurance Program, which we adopted as a Federal program in this House and was signed into law by President Clinton, but when setting up the State's Child Health Insurance Program pursuant to and with Federal money, Governor Bush wanted to set the eligibility threshold at only 150 percent of the Federal poverty level.

I say that by way of contrast to my own State of New Jersey, which also has a Republican Governor, but set 350 percent of the Federal poverty level for that CHIP Federal kids' health insurance program, or more than twice the level that Governor Bush proposed in Texas.

Now, what happened eventually is the Texas legislature came forward and said they wanted to push this eligibility threshold up to 200 percent, which Governor Bush eventually signed. But the point of the matter, the fact of the matter is that it was possible under the Federal law to push this eligibility higher and to include

more children under the Texas child health care program, and Governor Bush did not do it.

So when he says that insurance is a Washington thing, does that mean that he does not really care that much about the kids in Texas, that they should not be able to take advantage of the Federal program and Federal dollars that are allowing them to be covered by health insurance?

When it comes to insuring adults, Governor Bush's record is really no better than it is with the kids. Texas has the highest percentage of uninsured low-income adults, 51 percent, in the Nation. Its Medicaid eligibility level is just a paltry \$4,728 in annual income for parents of three-person families.

A little later I am going to get into the proposals that Vice President Gore and President Clinton and the Democrats in the House have put forward to try to get more adults insured. We care deeply to try to end the problem of the uninsured in this country. If that is a Washington thing, so be it. But I would maintain it is an American thing, that kids are suffering because they do not have health insurance, parents are suffering because they do not have health insurance.

When it comes to overall spending on health in the State of Texas, the Governor has distorted his own record. He made it look like health care is a much bigger priority for him than it really is.

In last week's debate, the previous debate prior to last night, Governor Bush said Texas had spent \$4.7 billion on health care under his administration when in fact that is simply not true. Something like \$3.5 billion of that money came from private and local sources and not the State expenditure.

I am trying to make the point, Mr. Speaker, that access to health insurance is simply not a priority for the Governor, not a priority in terms of spending, not a priority in terms of trying to get the State of Texas to cover more kids and more adults.

The lack of health insurance in the United States is not a problem that should be cavalierly dismissed as a Washington thing by any policymaker or any politician, let alone a candidate for the President of the United States. It is a very real problem that affects real Americans with real consequences.

Let me just give some statistics about why I say that, and why it is true that health insurance is not just a Washington thing, but something that everyone in the country has to be worried about.

There are millions of American parents who are unable to take sick and suffering children to the doctor because they simply cannot afford it. There are 27,000 uninsured women who are diagnosed with breast cancer every year, and are 50 percent more likely to

die from it because they are uninsured. There are older couples whose hopes for a dignified retirement after a lifetime of work are swept away in an instant by an unexpected avalanche of medical debt. There are young families whose hopes for the future are destroyed when a breadwinner dies or is disabled because an illness was not diagnosed and treated in a timely fashion.

Eighty-three thousand Americans die each year because they do not have insurance, and as a result, do not get adequate or timely care. I can assure the Members, Mr. Speaker, that to them, insurance is far more than just a Washington term to their families.

The Federal government and State governments across the country have spent the last 10 years trying to stem the tide of people turning to the emergency room for their medical care.

I know Governor Bush throughout the debates has talked about the fact that, you know, you can go to an emergency room in Texas, you can go to a hospital emergency room. The problem with that is that that is not really good health care because there is no prevention. If we have preventative care and take measures before we have to go to an emergency room, our likelihood of doing well and living longer and not being disabled are much greater.

Preventative care does not just save lives and stop tragedies before they occur, it is also more efficient and less expensive for everybody, including the Federal government. Those facts are understood by health experts, but not a lot of times by politicians.

I would say the same thing to the Governor: Rather than talk about the fact that people in Texas have access to an emergency room, put programs in effect so people can get health insurance and can take the preventative measures so they do not have to wait until they get so sick that they have to go to an emergency room.

Governor Bush's view that insurance is a Washington term may be a view that is held by wealthy people who have insurance and can foot the bill easily for any medical emergency that may arise, but it is definitely a view that is clearly out of touch with the American mainstream.

It is a view every American, particularly those without insurance, should be aware of in this political season. It is a view that, if followed, will throw a monkey wrench in both private sector and public efforts to bring down the cost of health care, and it is a view that nobody who is interested in addressing the problems of the uninsured in this country should for a single second take seriously.

I know it sounds very critical of me to talk about the Governor in this light, but it really annoyed me to hear the term "insurance" somehow referred to as a Washington term, as if the rest of the country or the average person was not concerned about it. I know that they are.

I want to spend some time also this evening contrasting, if you will, not only the presidential candidates but the parties on the issue of health care. I know it sounds very political, but the bottom line is that this Congress only has another week or so before it adjourns.

The Democrats, including myself, over the last 2 years that this Congress has been in session have put forth a number of proposals, whether it is a prescription drug benefit under Medicare or it is HMO reform with the Patients' Bill of Rights, or it is the idea that whatever surplus is available should be primarily used to shore up social security and Medicare, or it is the idea of trying to cover more kids or more parents.

We have been out there putting forth, with President Clinton and Vice President GORE's support, many proposals that would address some of the problems that Americans face with health insurance, whether they are uninsured or they have some type of insurance that is inadequate.

It really galls me to think that we are here at the 11th hour and most of these problems have not been addressed by the Republican leadership on the other side of the aisle, and will not be addressed if Governor Bush is elected president.

So I think it is important to contrast the candidates and the parties on health care. I am just going to take a little time tonight if I could to give my own view, and then give the view of an independent group that has analyzed the proposals that have been put forth by both sides.

I want to start with the issue of prescription drugs, because I think right now the fact that so many seniors and disabled people who have Medicare are not able to access prescription drugs is a major problem, almost a crisis in the country.

If we listen to what George Bush has been saying, what Governor Bush has been saying, he is saying that he wants to provide some sort of prescription drug program that would provide coverage initially through State-based low-income-only programs, and then through HMOs and insurance companies.

I say that because what the Governor has proposed is not to bring prescription drugs under the rubric of Medicare, but rather, to give a subsidy or a voucher, if you will, to low-income people so they can go out and try to buy prescription drug policies in the open market, in the private market.

That is very different from what Vice President Gore and the Democrats have been saying. I think it was clearly defined in last night's debate. What Vice President Al Gore has been saying is that Medicare is a successful program that provides coverage for one's hospital care and for one's doctor's care, and it would not be that difficult and would not cost that much money, particularly if we have a surplus, for the Federal government to provide prescription drug benefits under Medicare, as well.

So that is the major difference between the Democrat and the Republican proposals. The Democrats are saying they want to expand Medicare to include prescription drugs. The Republicans are saying they do not want to use Medicare as the vehicle, they want to give a subsidy or they want to give a voucher, or in the case of Governor Bush's proposal, a voucher essentially just for low-income people.

There are a lot of other differences, but I just want to say, Members do not have to take my word for it. There is an organization called Families USA which just put out a report on health care and the 2000 election.

I just want to describe Families USA. Families USA is a nonprofit, non-partisan consumer health organization established under section 501(c)(4) of the Internal Revenue Code that has never endorsed, supported, nor opposed any political candidate, and they are not doing it now.

In addition, Families USA has spent two decades working on various aspects of our health care system, and has amassed considerable expertise on health issues. The Democrats and myself have cited them many times, and the Republicans as well.

On the issue of prescription drugs, and I just want to run through this, if I could, in their report that just came out they say, "There is a marked contrast between the two candidates on this issue."

\square 2115

Vice President Gore intends to establish a voluntary prescription drug benefit in the Medicare program, and I stress in the Medicare program. This would ensure that all seniors and people with disabilities gain access to prescription drug coverage. It would also enable Medicare to bring its considerable market clout on behalf of program beneficiaries to the bargaining table.

Now, that sounds a little bureaucratic, but let me explain what that means. One of the biggest problems with prescription drugs right now is the cost for seniors. If they do not have some kind of coverage through their employer or through some sort of coverage that they are able to purchase, which many do not, then they have to go buy it on the open market at the local pharmacy, and the cost is prohibitive.

There is a price discrimination between seniors who have to just go buy the prescription at the local pharmacy out-of-pocket versus seniors who happen to be fortunate to be in some sort of plan, either through their employer or in some other way.

But what Vice President Gore does and what the Democrats do with their Medicare prescription drug proposal is they give the seniors who are now part of this plan clout with regard to prices, because they establish a benefit provider in each region of the country that will bargain for the best price, just like an HMO does, for example, for the prescription drugs, and that brings the price down. So that is what they are talking about here when Families USA says that the Democratic plan is better

Then they say in the Families USA report, they contrast Governor Bush's approach by way of contrast. Initially he relies on State-run pharmaceutical programs and subsequently on insurance companies, HMOs, to offer prescription drug coverage.

To date, however, State pharmaceutical programs reach only a tiny portion of seniors who need drug coverage, and such assistance is usually confined to seniors with very low incomes

The point is that the Republican plan is only going to help seniors with low incomes. It is not going to help the vast majority of seniors with middle incomes, which basically are the people that are crying out for some sort of help.

In addition, in analyzing the Bush plan, Families USA's assessment says that private health plans and insurance companies have very limited success in providing drug coverage for seniors.

I mention that because what they are basically saying here is that, if one gives the senior or the disabled person the voucher, the way Governor Bush has proposed, to go out and try to buy prescription drug coverage in the open market, not under Medicare, they are not going to be able to find it. They are not going to find an insurance company that will offer that for the price of the subsidy that the Bush plan proposes.

Now, additionally, what Families USA says about the GORE plan, the Democratic Medicare prescription drug plan, is that it is very specific in detailing the drug coverage that is guaranteed to every Medicare beneficiary as well as the cost sharing that seniors would have to pay.

So what we are saying in the Democratic plan is that we are going to be able to guarantee one to have any drug that is medically necessary. We are going to tell one exactly what the premium is, exactly what one is going to get.

Under the Bush proposal, on the other hand, decision making about the specifics of the drug benefit as well as out-of-pocket costs are left to the private insurance companies and the HMOs. So, again, one does not really know what one is getting.

But I want to stress again the difference here, the difference is the Bush Republican plan is a voucher plan. It does not come under the rubric of Medicare. The Democratic plan, the Gore plan, is an expansion of Medicare that covers prescription drugs just in the same way that hospital care and physician care is provided under Medicare right now.

Now, let me go to a second category here because I want to cover each of these health care issues because I think they are so important in terms of contrasting the difference between the parties.

The second one is the future of Medicare itself. Medicare, as we know, in the next, maybe, 10, 20 years, not right away, but at some point in the future will start to run out of money because there are going to be so many baby boomers that become 65, that become seniors, that there is not enough money to pay for it.

Now, what President Clinton and Vice President Gore have been saying is that they want to use most of the surplus to shore up the Social Security program and the Medicare program.

But what we see is that, instead, by contrast, Governor Bush talks about restructuring the Medicare program in ways that I believe that will increasingly privatize and encourage people to opt out of Medicare or go to private insurance.

I do not want to dwell on that too much because I want to get to the next issue, which is I think so important and, again, became an issue in last night's debate, right at the beginning of the debate.

That is HMO reform. HMO reform is clearly something that so many Americans are concerned about because more and more people are in HMOs, and they find that they are victims of various abuses, primarily because what they find is that decisions about what kind of Medicare they get, whether they get a particular operation, whether they get to stay in the hospital a particular length of time is determined, not by their physician and themselves as a patient, but by the insurance companies. Naturally they do not like it because it lends itself to all kinds of abuse.

Well, it was interesting last night because, during the debate, Governor Bush said that he was in support of HMO reform and that he mentioned that, in the State of Texas, his home State, that they actually had passed legislation that would provide for certain patient protections if one was in an HMO.

But the interesting thing about it is Governor Bush used the example of HMO reform to say he would be successful if he were to be elected President because, in Texas, he was able to bring both parties together and everyone together to pass patient protections.

Well, I have to point out that, when the issue of patients' rights in the context of HMO reform first came up in the tax legislature and the bill was passed in 1995, Governor Bush actually vetoed the legislation.

So he talked about playing a role and bringing people together, the Texas legislature decided they wanted HMO reform, he vetoes the bill. Well, a couple years later, in 1997, there was again passed in the Texas legislature legislation to protect patients in the context of HMOs. This was a very comprehensive HMO reform that Governor Bush referred to in last night's debate. Well, this time, even though he opposed the legislation and refused to sign it, he let it become law.

That is hardly an advocate for patients' rights. That is hardly someone who, as he says, is trying to bring people together to pass legislation. You veto it once and then you say, okay, I do not like it, but I will let it become law without my signature.

What it means is this was happening despite what Governor Bush wanted. He did not want it to happen, but he did not want to stop it probably because he was afraid of the political consequences if he vetoed it again.

By contrast, Vice President Gore last night and throughout the 7 years now that he has been the Vice President, with the support of Democrats and some Republicans as well in Congress, has been an advocate on a Federal level for a comprehensive HMO reform bill which Vice President Gore mentioned last night, the Norwood-Dingell bill.

He was very specific about bringing up that legislation in the debate last evening and asking Governor Bush repeatedly whether he supported the Norwood-Dingell bill and, of course, Governor Bush would not say whether he supported it or not. If he would not admit he supported it, I would say we have to assume he does not support it.

It is a much stronger bill than even what the Texas legislature passed without Governor Bush's signature. It is a bill that is vehemently opposed by the HMOs and the health insurance industry and all of the special interests and very much supported by the majority of the American people.

We passed the Patients' Bill of Rights, the Norwood-Dingell bill here in the House of Representatives. Almost every Democrat voted for it, and some Republicans voted for it too, otherwise it wouldn't have passed. In fact, the gentleman from Georgia (Mr. Norwood), one of the sponsors, is a Republican, the lead sponsor.

But the bottom line is that the Republicans both here, the Republican leadership, both here in this House as well as in the other body, have tried to kill this bill ever since it passed. It went to conference. I was part of the conference committee. It has never come out of conference.

I would almost guarantee that, in the week or two we have left here, it will not appear on the floor of this House or this Senate. It will not go to the President. It will not become law. Why? Because basically what it does is it does two major things. It says that decisions about what is medically necessary, what kind of care one gets, what kind of operation one gets, how long one stays in the hospital, decisions about what is medically necessary are going to be made by the physician and the patient, not by the insurance companies; and the insurance companies oppose that tooth and nail because they want to make the decisions to save money.

Secondly, it has very good enforcement so that if, in fact, one is denied care by one's insurance company, one has a way of redressing one's grievances by going to an independent panel that will review the decision and have the power to overturn it or ultimately going to a court of law and having the decision overturned so that one can get the medical care that one's doctor and that one feels is necessary.

So, again, marked contrast here between the views of the two candidates, the Presidential candidates as well as the parties on this issue.

I do not mean to suggest that all the Republicans are bad on this, because some of them are good. But the Republican leadership in the House as well as in the Senate, as well as Governor Bush, refuse to support the Patients' Bill of Rights, the Norwood-Dingell bill.

Let me go to an issue that I mentioned earlier, and that is the whole issue of increased access and for people to be covered with insurance who do not have it. I am not going to keep repeating over an over again what Governor Bush said about insurance being a Washington thing. I think he probably regrets that he made the statement, hopefully. But the bottom line is we still have over 40 million Americans who are uninsured. What are we going to do about it.

Again, I would like to contrast the records between the two candidates and again between the two parties. Fortunately, here in the House of Representatives, the effort to expand coverage for children was successfully passed on a bipartisan basis, the CHIP program. Initially, the Republican leadership opposed it, but eventually they came around to passing it, and it was passed on a bipartisan basis.

But what happened is that when this program then was given back to the States to handle it and to try to handle it in a way that would provide for coverage for the 5 million kids that it was meant to try to deal with and to give health insurance, as I mentioned already, Governor Bush, in his capacity as Governor of Texas, tried to make the eligibility for the program very

minimal, only 150 percent of the poverty level. In terms of the outreach to try to get kids signed up for the program, he was very ineffective.

In fact, the situation in Texas got so bad that a Federal judge just ruled a few weeks ago that Texas had to, under pain of the court's action or penalty, do a better job about enrolling kids in Medicaid as well as the CHIP program. So they were not even doing a good job getting kids enrolled in Medicaid at the very low end of poverty, let alone the ones that are eligible for the Federal CHIP program.

Now, by contrast, what Vice President Gore has been saying, and he mentioned it in the debate last night, is that he wants to expand the eligibility at the Federal level, and that money then goes back to the States so kids whose parents are even at a higher income can join up in the Federal-State health insurance program called CHIP

He suggests raising the CHIP program, the Children's Health Insurance Program, eligibility to 250 percent of the Federal poverty level. He also says that, if you are parents and your income is even higher than, that he will allow you to buy into CHIP or Medicaid for children with family incomes above 250 percent of the Federal poverty level.

Now of course Vice President Gore successfully pushed for enactment of the existing CHIP program which Governor Bush tried to cut back in the State of Texas. But beyond that, what the Democrats and what Vice President Gore are now proposing is that the CHIP program be even expanded to cover the parents of the kids who are eligible for CHIP. Basically, this is a way of now expanding health insurance for people who were working but whose incomes are too high to be eligible for Medicaid.

What I would stress again, Mr. Speaker, is that, when we talk about Vice President Gore's program and the Democratic initiative here with children, the CHIP program, and expanding it to adults, we are not talking about people who are on welfare. They are usually eligible for Medicaid. We are talking about working people who on the job, because of their low income or because the employer does not offer it. are not able to get health insurance. These are working people. These are people oftentimes who have two or even three jobs, and they are not able to offer health insurance for their kids or for themselves.

So what Vice President GORE is saying is let us take this CHIP program, which is working, and let us expand it to the parents. If we enroll the parents, we also find that that means that they are more likely to get into the program and enroll their kids.

Some parents, unfortunately, selfishly, will not enroll their kids if they are not eligible for the program. \square 2130

Vice President Gore has also been saying that with regard to the other large group of people that are uninsured, which are the people between 55 and 65, we call them near elderly, who are not yet eligible for Medicare, that they would be able to buy into the Medicare program and pay so much a month, \$300 or \$400 a month, to buy into the Medicare program. It is another way of expanding access to health insurance for people who are currently uninsured.

Now, I have made reference once so far this evening to the Families USA report in the context of prescription drug coverage, but I wanted to make reference to it again, if I could, in the context of health coverage for children and expanding the CHIP program to include more kids at higher incomes and also for their parents. If we look at this Families USA report, and I will not repeat what Bush and Gore are proposing, but I wanted to just give a little bit of the analysis that the Families USA report provides.

The report says, under the section that deals with expanding insurance for adults, that at the centerpiece of his proposal to expand coverage Governor Bush proposes to establish a refundable tax credit for people and families who purchase health coverage on their own if they do not receive insurance through their employers and do not qualify for Medicaid or any other government assistance. For individuals with incomes below \$15,000 per year, the tax credit would equal \$1,000 and would taper off as an individual's income increases above \$15,000. For families with incomes below \$30,000 per year, the tax credit would equal \$2.000 and would taper off as the family's income increases above \$30,000.

Now, Governor Bush has made reference to these tax credits, \$1,000 or \$2,000 depending on where one is below a certain income, and he suggests that that is one way of expanding coverage. This contrasts of course to what Vice President Gore has been saying about expanding the CHIP program for children and expanding it to include adults, the parents of those kids, as well as Gore's proposal to let the near elderly buy into Medicare.

Well, this is how Families USA assesses the two proposals. It says Governor Bush's proposals to expand health coverage for adults are likely to be ineffectual and in some respects may even be harmful. Because of its limited size, the tax credit proposal for low- and moderate-income individuals and families who purchase their own health coverage is unlikely to make a significant dent in the number of people who are uninsured.

Today, the average cost of a family health plan purchased by an employer is \$6,351 per year, and coverage purchased by families in the individual

market typically cost considerably more. As a result, a family would need to spend more than \$4,300 over and above the \$2,000 family tax credit simply to pay for premiums. This amount would constitute over 14 percent of income for a family earning \$30,000 a year and over one-fifth of the income of a family with \$20,000 in annual income. Either way, the tax credit would still leave most of these families with an inability to purchase health coverage.

Now, to his credit, Governor Bush is at least proposing something, and I will grant him that. But it is not anything that is going to be effective in expanding health coverage for those who are uninsured.

Vice President Gore's proposal, by contrast, and this is what Families USA says, to expand health coverage for adults builds on public programs, such as Medicaid, CHIP, and Medicare that work well. His proposal to establish CHIP-type health coverage for low-wage working parents will not only provide increased coverage for those parents but is likely to spur children's enrollment in CHIP as families are enabled to enroll together. The Medicare buy-in proposal is projected to increase health coverage for approximately 300,000 near-elderly persons.

Now, Mr. Speaker, I do not want to spend too much more time, and I think my time is probably running out; but I just wanted to say this in conclusion. I do not look at these health care issues from the point of view of ideology. I know that generally most Republicans tend to be more conservative than most Democrats, and more Democrats are liberal, even though not all of them are. But the bottom line is. I do not look at the ideology. I look at what works. And the difference between what Vice President GORE and Governor Bush are proposing and between what most of the Democrats and most of the Republicans are proposing, I think really does not come down so much to ideology but what works practically.

Practically speaking, if we want to provide a prescription drug coverage program for seniors, we should put it under Medicare, because Medicare works. And we should not look at the Republican proposals to provide some voucher that assume that people are going to go out and buy coverage that does not exist.

And the same thing is true for the CHIP program and the efforts to try to expand health coverage for the uninsured. Basically what Vice President Gore and the Democrats have been doing here for the last 6 years is advocating and, in some cases passing, legislation that would provide for the government to set up a program like CHIP through the States that people can pretty much be guaranteed that they are going to have health insurance. It is health insurance that is provided by the government.

Now, I am not saying that we want national health insurance, but where we have gaps and people who are working and still having the inability to get health insurance on the open market. the government needs to step in. That is what Vice President Gore proposed with CHIP. It is working. That is what he proposes for expanding coverage for the near elderly and for the parents whose kids are in CHIP. What Governor Bush is proposing as an alternative is simply to give a tax credit, which once again will not provide the money or the ability for those families to buy health insurance.

So all I am saying is that there are huge contrasts here between the two presidential candidates. There are huge contrasts between the parties on these various health care issues. And I think the major difference is that the Democrats are proposing plans that will actually work and make a difference for people who do not have health insurance, or who do not have prescription drugs, and who suffer from the abuses of HMOs. That is why what we are proposing should be passed.

My greatest regret in this Congress is that on many occasions when the Democrats have tried to put forward these programs they have not been successful because the Republican leadership has opposed them. We have had a few occasions where the Republicans have joined us, but in most cases they have not. And it is a very sad commentary that this Congress is going to end within the next week or two not having addressed these major problems that face so many Americans.

TRIBUTE TO THE HONORABLE JOHN E. PORTER, MEMBER OF THE HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore (Mr. SIMPSON). Under the Speaker's announced policy of January 6, 1999, the gentlewoman from Illinois (Mrs. BIGGERT) is recognized for 60 minutes.

GENERAL LEAVE

Mrs. BIGGERT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous material on the subject of the Porter special order.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Illinois?

There was no objection.

Mrs. BIGGERT. Mr. Speaker, it gives me great pleasure to host this special order tonight for the gentleman from Illinois (Mr. PORTER), and I want to thank the gentleman from Colorado (Mr. McInnis) for giving up his time to allow us to honor this very special gentleman tonight.

The gentleman from Illinois (Mr. PORTER) is retiring, after serving in Congress for 21 years. It is difficult for

those of us who are gathered to honor JOHN tonight to sum up in the short time everything that he has done for the 10th Congressional District of Illinois and for his country since joining this body in 1980. It is my hope, based on the words that my colleagues and I will offer tonight, that all who are within the sound of our voices will understand the tremendous character of this man and all that he has accomplished, most notably in the areas of human rights, health research, and protecting the environment.

It is also my hope that based on our comments JOHN PORTER will know how well-respected he is, not only by his congressional colleagues but by the elected officials of his home State and district, his staff, former staff, his constituents, and the many groups who have had the pleasure of working with him throughout the years.

Tonight, Mr. Speaker, we will hear of the legacy John has created during his years of service in this body. We will hear a small part of the large impact he has made on his district, his State, his country, and the world.

I have a confession to make. I am an unabashed John Porter fan. It is not because I have lived for many years in his district and know how well his leadership and his views suit those of his constituents there, nor is it because of the small kindnesses he has always personally shown to me. Those are reasons enough to sing the praises of this wonderful man. Like hundreds of thousands of men and women in Illinois, throughout the United States and around the four corners of this globe, I know and love this man for his great humanity, his concern for the underdog, and his unquestioned commitment to making this world a better place in which to live.

When I was elected in 1998, to serve the people of the 13th District of Illinois here in Congress, I knew that it would be helpful for me to look at the other members of the Illinois delegation for guidance. Knowing his excellent reputation, JOHN PORTER was the first person I sought out. Asking him for input was easy, given our similar political ideologies. However, I doubt JOHN, and the ease with which he provided advice, fully understood how much guidance he truly gave

much guidance he truly gave.
With that Mr Speaker I

With that, Mr. Speaker, I am going to turn to some of my colleagues so that they too can share their thoughts on our dear friend. And I will first yield to the gentleman from Illinois (Mr. LAHOOD). As my colleagues know, before his election, the gentleman from Illinois (Mr. LAHOOD) served as the chief of staff to then House minority leader, Bob Michel of Illinois. In this capacity he had the opportunity to work on a number of issues with JOHN PORTER and, as a result, probably knows him as well or better than any other Member in this body.

I yield to the gentleman from Illinois (Mr. LaHood).

Mr. Lahood. Mr. Speaker, I appreciate the time that has been set aside here by the gentlewoman from Illinois (Mrs. Biggert) to honor our colleague, John Porter.

Mr. Speaker, JOHN deserves to be honored. JOHN has been an outstanding Member of this body. Prior to coming to the House of Representatives, he served with great distinction in the Illinois House of Representatives.

JOHN has known political turmoil in his life because he has been through some very, very tough elections. I think people who have not really followed his career should know that JOHN is probably as good a politician as there is. In order to get to this body, one has to be a politician, and JOHN has been, particularly in the early days of his election to the House of Representatives, come through some very, very close elections in the district that he represents.

JOHN represents a district north of Chicago, primarily Lake and McHenry County, Lake County primarily, and it is an area that is not really considered a suburban area of Chicago but kind of an entity unto its own. His district runs right up against the Wisconsin border. JOHN has done so well in representing his district that the last several years, he has had elections that were less contentious and the people of his district have recognized the many good things that he has been able to do.

Serving on the Committee on Appropriations, John is known as a cardinal. What that means is that he is a chairman of a subcommittee. If not the most important, certainly one of the most important subcommittees of the Committee on Appropriations, the Labor-HHS subcommittee, which is the subcommittee that really looks very carefully at dollars that are provided for medical care and dollars that are provided for research. And John has really set a legacy for himself in terms of his commitment to cancer research. to Alzheimer's research, to AIDS research, and to so many of the real, real serious kinds of diseases that face our country.

JOHN PORTER has been at the forefront of making a commitment of dollars to really find cures for these dreaded diseases; as I said, whether it be cancer or Alzheimer's or AIDS, or any other number of diseases. So he has been a leader in this area. And I really think it will be his legacy that he will be remembered for the enormous commitment that he made to research and particularly research to the National Institutes of Health, the National Cancer Institute, and so many of these programs here in Washington that try to reach out and find the very best people in America to help us find cures for these dreaded diseases.

JOHN has been a wonderful public servant not only for the 10th district but also for the State of Illinois and for the country. He has been a strong, strong leader in human rights and has lead the cause of human rights in many different parts of the world that go unrecognized in so many ways because they do not always get the headlines. But I think those people that have worked with JOHN on human rights issues recognize the leadership that he has provided in that area.

\square 2145

So an outstanding career, an outstanding career of leadership, an outstanding career of commitment to the people of Illinois, to the people of the 10th district, and to the people of this country.

JOHN has also been a regular attender of our delegation lunches. And those of us that attend those very regularly, as I know the gentlewoman from Illinois (Mrs. BIGGERT) and the gentleman from Illinois (Mr. EWING) and the gentleman from Illinois (Mr. SHIMKUS), do enjoy sharing our apple pie with JOHN. Because of all I guess the funny things I will remember about JOHN is that he loves apple pie, and he cannot sit through a lunch with just one piece of apple pie. And so the gentleman from Illinois (Mr. EWING) or myself or somebody is always passing him an additional piece of apple pie. That is something that I think I will always remember about JOHN in terms of sort of the funny things, the humorous things, the human things that happen in this business.

So we will miss JOHN for his leadership and his commitment. I am delighted to have had a chance to say a word or two about his leadership, and I thank the gentlewoman from Illinois for setting aside this time to do that.

I know that all of us wish JOHN PORTER good luck and Godspeed in whatever he does. We will surely miss him.

Mrs. BIGGERT. Mr. Speaker, I thank the gentleman for his comments. Is it not curious that it is always the thinnest people that can eat two pieces of pie while the rest of us try to avoid them so we can pass them on to him?

Mr. LAHOOD. I would agree.

Mrs. BIGGERT. Mr. Speaker, the other area that the gentleman from Illinois (Mr. Lahood) and I see a lot of the gentleman from Illinois (Mr. Porter) is at the "Tuesday Lunch Bunch That Meets on Wednesday But Does Not Have Lunch Group." We spent meetings once a week to discuss issues that are important to those of us that belong in that group what we call the "Republican Moderates."

Mr. Speaker, I am pleased to recognize my friend and colleague, the gentleman from Illinois (Mr. SHIMKUS).

I should note that the gentleman from Illinois (Mr. SHIMKUS) will hold a similar special order next week for an-

other Member from Illinois who is retiring from the 106th Congress, the gentleman from Illinois (Mr. EWING), who we will hear from in just a few minutes. But, unfortunately, we are losing two great members of the Illinois delegation due to retirement this year, and it is our pleasure to honor both of them.

Mr. Speaker, I yield to the gentleman from Illinois (Mr. SHIMKUS).

Mr. SHIMKUS. Mr. Speaker, I would like to thank the gentlewoman from Illinois (Mrs. BIGGERT) for arranging this special order. I wish we did not have to have our next one next week. I wish we were finished with our business. But I look forward to taking up that cause next week.

Of course we are here to pay tribute to who has become a good friend of mine, the gentleman from Illinois (Mr. PORTER), who is retiring. It has really been an honor and a privilege to serve with him in the House of Representatives

I have always been impressed by his commitment to his ideas and his beliefs. He has always been a gentleman and treated even newbies like myself as a colleague and as an equal. I have learned much about the process in this House of Representatives by observing how John Porter has gone about doing his business, and I appreciated his tutelage and his friendship.

Most important, however, is that I have a newfound respect for our Nation's efforts and ongoing need for medical research. As we all know here, and it is nice to be able to publicly acclaim the ongoing efforts of the gentleman from Illinois (Mr. PORTER) to increase Federal funding for medical research as our colleague and friend, the gentleman from Illinois (Mr. LAHOOD), just mentioned.

Prior to coming to Congress, I had little knowledge of how much our Government played in the fight against diseases and how much it emphasized medical research. Thanks to JOHN, I now not only understand that role, but I am now an advocate for expanding it.

Far too many of us do not think of sickness or diseases until we have a loved one who is faced with it. We are lucky and the Nation is lucky to have a person like JOHN PORTER who has worked hard to ensure that quality health care will be available when we need it.

There are many people involved in providing health care, whether it is the hospitals, big inner-city hospitals or rural hospitals, community health centers, home health, visiting nurses, you name it, there are many people working diligently in the fields. Most of them are working long hours for little to no pay. They have an advocate here in Washington, D.C., who has also worked numerous long hours, sometimes without recognition, a champion in health care and health care delivery

and medical research. And that is Mr. JOHN PORTER.

We have benefited from his time here in this body. We have benefited as a people. We have benefited as colleagues. We have benefited as a Nation. I have benefited personally from observing his leadership and his thoughtful, deliberate process to help in the benefit of all.

I would really like to thank the gentlewoman from Illinois (Mrs. BIGGERT) for arranging this special order and paying tribute to our colleague, the gentleman from Illinois (Mr. PORTER). It is an important thing to do before we adjourn in this Congress, and her thoughtfulness in remembering him goes a long way and adds to her credentials as being a great new Member who we are glad to have here.

Mrs. BIGGERT. Mr. Speaker, I thank the gentleman for his comments.

Mr. Speaker, it really is a pleasure to be on the Illinois delegation. I think that we have had such a unique opportunity for both sides of the aisle to work so carefully together. So I think that we are going to miss the gentleman from Illinois (Mr. PORTER) so much because of his contribution to that Illinois delegation.

We have another Member, as I mentioned before, from Illinois. So I am pleased to recognize the gentleman from Illinois (Mr. EWING), my friend and colleague. Unfortunately, like the gentleman from Illinois (Mr. PORTER), the gentleman from Illinois (Mr. EWING) is stepping down at the end of this Congress. That is not the only thing that these two men have in common, however.

Much, like they have been in this body for 9 years together. The gentleman from Illinois (Mr. EWING) and the gentleman from Illinois (Mr. PORTER) served together in the Illinois General Assembly in the mid-1970s. So they have been traveling on the same circuit for a long time. I am happy to have the gentleman from Illinois (Mr. EWING) here to say something about the gentleman from Illinois (Mr. PORTER).

Mr. Speaker, I yield to the gentleman from Illinois (Mr. EWING).

Mr. EWING. Mr. Speaker, I thank the gentlewoman very much for putting this special order together for our friend, the gentleman from Illinois (Mr. PORTER), and for allowing me to take a few minutes to talk about JOHN and some of the experiences that we have experienced over the years.

I must say that the gentlewoman is a wonderful addition to our delegation and she is such a good participant in all that we do here and I appreciate that and I will miss working with her.

The gentleman from Illinois (Mr. PORTER) though has spent 11 terms here in this body. That is hard to believe, but that is 22 years.

Prior to that, as the gentlewoman said, he was in the Illinois Assembly. I

was kind of looking back at my figures here and I realized that JOHN came 2 vears before I did. He will have had a career of 28 years in public office. And at the end of my term, I will have put in 26 years.

Besides that, JOHN and I had offices next to each other in Springfield in, I think it is, the Illinois State Office Building behind the Capitol. So we shared a great many things. I do not think we had to share a secretary, as many members do share a secretary, but we did not have the same one. But we would be in there late at night, which is the way the legislature operated back then, and we would have a lot of time to visit about family and our children and those things. So JOHN and I reached a deep friendship early on in our political career.

JOHN then ran for Congress. I do not know exactly how that was, but he ran three times to get to Congress for one term. And there was, I think, an election he lost and than a special election. And then by the time he had done those two elections, it was time for the next election to get him a full term here. So he worked very hard to become a Member of Congress.

After he got here, he went on the Committee on Appropriations. And as he leaves, he leaves as one of the 13 cardinals of that committee, which is an attainment that many here would like to emulate. Few get the opportunity to be one of the cardinals in the appropriations process.

I have heard my other colleagues, the gentleman from Illinois (Mr. LAHOOD) and the gentleman from Illinois (Mr. SHIMKUS), talk about some of his priorities there. And I know that John has had a very kind heart. He is certainly a compassionate conservative in the best sense of the word.

JOHN is a very quiet man. His area now is Labor HHS, one of the hardest of the appropriation bills to pass. And while I know that that sometimes worries John greatly at the end of the sessions, I have seen him go through that, he is always so mild mannered about it. I do not know if I could keep my restraint as much as John does in handling that bill and all the rhetoric that goes on on this floor about that bill.

But he has done many other things in his career here. He has been a great supporter of the Pottawattamie Airport and the Waukegan Regional Airport. And through those efforts, those institutions in his area, his district. have grown and they brought air service to northern Illinois and he has helped secure the funding for very important improvements there.

The gentleman from Illinois (Mr. PORTER) also worked to help local school districts particularly address the shortfall in impact in Federal aid. This may seem like kind of a strange thing to talk about, but that is very important to school districts. Because when they do not get that Federal aid, they have got to reach into their pocket and take it out of the money that they normally would have to spend for education that they get out of their local tax dollars. And that Federal aid comes because of the military people who were in those school districts, and that is very important.

He has been an advocate for strengthening ethics in Government and reforming the way this institution, the

U.S. Congress, operates.

The gentleman from Illinois (Mr. PORTER) has advanced legislation to make urgently needed improvements in Congress's internal standards, and I think that we should thank him for that. That is a thankless job but one that we have to continue to work on always.

He has been a fighter against drunk driving and instrumental in the passage of legislation mandating a 21year-old drinking age in this country.

He has worked to prevent the spread of chemical weapons. He authored the Chemical and Biological Weapons Nonproliferation Act and directed the Secretary of Commerce to develop effective export controls to prevent the spread of deadly chemical and biological weapons to other nations.

He has been a leading voice in support of human rights and democratic reforms in China and Hong Kong. He led the successful effort to defend the Great Lakes Naval Training Center against the threat of closure during the most recent round of cutbacks considered by the Base Realignment and Closure Commission. The decision to keep this center open is expected to bring 8.000 jobs to his area.

Did my colleagues know that that is the only base we have in Illinois? Many States have a number of military installations. Sometimes we talk about how much comes back to our State in tax dollars. Well, one reason we are a little behind some of our sister States is that we only have one major military installation left in our State, where we used to have a number of them. The gentleman from Illinois (Mr. PORTER) is to receive the thanks for protecting that important installation.

I would just say in closing that I consider John Porter a true friend, a real gentleman, a fine legislator, and I know that he will go on to do many, many other fine things in service of his country and his State.

I thank the gentlewoman very much for allowing me the time to talk about my friend.

Mrs. BIGGERT. Mr. Speaker, it is my pleasure to hear what the gentleman had to say about him. I know that he is both of our friends, and we will miss him. It is nice that the gentleman has expressed that so eloquently.

□ 2200

We will now move to Arkansas. I am pleased to yield the gentleman from

Arkansas (Mr. DICKEY). The gentleman from Arkansas (Mr. Dickey) serves on the Committee on Appropriations Subcommittee on Labor, Health and Human Services, and Education of which John Porter is the chairman. So given the attention and controversy that our appropriation bill always seems to attract, I know that John Porter and the gentleman from Arkansas (Mr. Dickey) have gone through some interesting battles together. So I am happy that the gentleman from Arkansas (Mr. Dickey) could join us tonight to honor our friend John Porter.

Mr. DICKEY. Mr. Speaker, I thank the gentlewoman from Illinois (Mrs. BIGGERT) for her thoughtfulness in remembering this fine gentleman.

I would like to state a little bit for the listeners and the viewers just exactly what type of a committee he has been the chairman of. The Committee on Appropriations has 13 subcommittees. One subcommittee is called the Subcommittee on Labor, Health and Human Services, and Education. It has over maybe 820 agencies or programs that it administers. John Porter is the chairman, and I have been a committee member now for 6 years. This will be my sixth year.

A chairman and the subcommittee members get to know each other quite well. They first of all have to jockey for positions to see who is doing what and what positions we have and what favors and corresponding votes that you give and take, and then you set about trying to find out exactly what the purpose of the committee is.

JOHN PORTER took this chairmanship as if he was made for it. It is the most amazing match I have ever seen. Of course, he had been on it as a minority member for some time but as chairman I have sat and watched him and listened to story after story after story of pain, suffering and human misery. He has done it always with attention and he has asked questions. We sometimes in this committee get what is called compassion fatigue. We hear these sad stories and all of these circumstances where people are just left out alone and this committee is the one with the heart, as I call it, of the Committee on Appropriations and we are the ones that go out and try to help others.

JOHN EDWARD, as I call him, has been just a wonderful, patient listener and been an active participant in trying to help use the Federal resources to help the people who are suffering.

As that chairman, he has shown a great gift in bipartisanship, and that is one of the reasons why he can come to this floor and pass these bills. We sometimes have to pass them with just Republican votes, sometimes with Republican and Democrat votes, but mainly it is because of the controversy in the legislation, it is generally considered liberal. The appropriations are considered liberal. He goes and he tells the story and he does not do it in a bragging sort of way or in an emotional sort of way, and maybe he is not even charismatic in his approach but he just methodically explains each part of the bill and he answers questions and he gets the rhetoric from the other side, the loyal opposition as we call it, and I think it is a great thing to watch him go about it.

He led me quite a bit in health care, in that I could not quite understand what our commitment was and the number of dollars that we were spending, let us say on the National Institutes of Health. He kept saying, no, this is the thing we ought to do and this will be something that you will look back over the years as being the best thing that you have done on any of these committees; and he is probably right.

Dr. Francis Collins came to Hot Springs, Arkansas, in my district not long ago and explained the human genome project. That would not have been done, in my opinion, without JOHN EDWARD PORTER being there trying to in a five-year period of time double the budget of the National Institutes of Health. He had a vision for what that institute, the National Institutes of Health, could do and then he stayed with it.

He was constantly going over there. He was taking us over there. He was having their staff come and explain things to us, but without his leadership and understanding I do not think it would have ever worked.

I have also had an opportunity to go with him on a human rights and health mission to China and Cambodia and Hong Kong and other places, and I not only watched how he was able to speak to the people of those countries and in a knowing way he had been there before or he had talked to them or they had been to America and he had visited with them there and he was an outstanding spokesman. The chairman of the CODEL, as we call it, always leads the introduction and always gives the acceptance to the welcome in each country and he was an outstanding ambassador for our country. I mean, he was so well spoken and calm and did such a good job representing what we consider the best of our country, and that is our concern for people who are suffering and who need care.

Some of the things that we worked on besides the NIH was TRIO, where we rescued the program from a cut. TRIO is a program that encourages kids who are not from a family whose parents are college graduates and which says if you want to stay after school, if you want to stay on the weekends, if you want to come back and have extra work in the summer, we will match your ambition with assistance. Money has been added for the TRIO program year after year after year.

AHEC, which is a program providing for health care to rural areas, has seen a dramatic increase. Head Start has seen a dramatic increase in our committee. All of this shows what JOHN EDWARD PORTER was doing as a leader.

There are some problems that I have had with him, of course. In the early days, a chairman just kind of controls things. He is kind of upset about it so I was always badgering him and keeping him with amendments and he was having to deal with my activist type of approach. He is completely different in that respect, and he is always well prepared, always thinks out his product and it is kind of hard for him to see some of us who were just firing off in several different directions at once. One time in particular it was late at night, I can remember, like 11:00 or 12:00 at night and everybody was talking in the committee and I just stood up kind of kiddingly and said, Mr. Chairman, I think you have lost control of this meeting, and he said one reason I have lost control is you are standing up. Why do you not sit down?

He had that way of doing it. So I sat down and we got on with the business, but he got a kick out of that.

I think one of the reasons, and he will not admit it, but one of the reasons he is leaving is because we have term limits in the chairmanships. We have imposed that on ourselves in the House rules. He has a term limit. He knows that he could not go to another committee that would be as satisfying in his heart and his soul as this one. He knows if he went to another committee he could be chairman, but that he might want to stay here and not being chairman is a factor. I think this might be laid at the feet of term limits, the term limits program; but he probably would not say it. He is too much of a gentleman to say something like that.

I am going to miss him. It might surprise him for me to say that because we have really fought hard on several different issues and compromised and worked out our differences as we have had them, but he is such a fine gentleman. It is a pleasure for me to participate in this special order for JOHN EDWARD PORTER. We will miss you, JOHN.

Mrs. BIGGERT. I thank the gentleman from Arkansas (Mr. DICKEY) for his comments. It is nice to hear from somebody who has worked so closely with Mr. PORTER and had such a wonderful experience from it.

I would like to enter into the record, as I said before I had some statements, and this is from Governor George Ryan the governor of the State of Illinois. I am going to read some of it. I will not read the whole thing but that will be submitted for the record. This letter says.

Dear John, on behalf of the State of Illinois please accept our heartfelt gratitude for your extraordinary contributions during a lifetime of public service. On the occasion of

your retirement from the U.S. Congress, it is fair to recognize and applaud what you have accomplished for your constituents, for people within Illinois and throughout the United States. It is also not an exaggeration to highlight the fact that your leadership in human rights and on environmental issues has benefited people around the world. You are a strong advocate for a thoughtful Federal appropriations process, a clean environment and adequate funding for the arts.

You have earned an influential role among the green Republicans to fight for the Nation's environmental interests in Congress. And you are only one of five House members ever to be appointed to the board of directors of the Kennedy Center for the Performing Arts. Your service in Illinois began in the Illinois House of Representatives during 1972 and I am proud that we served together in the State House before you were elected to Congress in 1980. Those of us who were fortunate to work with you then have not been surprised by what you have accomplished since. As a champion and supporter of the National Institutes of Health, your efforts have helped the Institute bring about numerous medical and health advances. You have successfully advocated Federal funding to expand the Metro commuter rails into the northern suburbs of Illinois, including many towns in your district. The 290 acres of open space at Fort Sheridan is an outgrowth of your creative determination and ability to persuade the Federal Government to transfer the land to the Lake County Forest Preserve District when Fort Sheridan was closed. That this land transfer occurred without cost to the district and continues to exist as an open space for all to enjoy is among your most special contributions. The Great Lakes Naval Station remains open, viable and an economic anchor in Illinois because of your efforts. Among the critical military missions conducted here is Navy and Coast Guard training. Your commitment and effectiveness as an advocate of free trade continues to produce immeasurable economic benefits for the people of Illinois. Our farmers have more markets in which to sell their crops and livestock. Our business community has additional opportunities to positively impact their bottom line. Our workers enjoy a more stable work environment with better com-

Additional contributions that will not be forgotten include your efforts for comprehensive flood control measures for the north branch of the Chicago River; the enhancement of safety and operational capacities at Waukegan Airport, including new instrument landing equipment and runway improvements. Waukegan Harbor has been cleaned up with Federal resources and payments you helped secure from the firm who did the polluting.

On behalf of my family and our shared constituents within all walks of life in Illinois, thank you for all you have accomplished. Your ideas and experience and voice in Congress will be sorely missed. We wish you the very best in your next endeavor and hope that it brings you all the joy and happiness that you deserve. Please extend our very best regards to your entire family and especially your children, John, Ann, David, Robin and Donna. Sincerely George H. Ryan, Governor.

STATE OF ILLINOIS, WASHINGTON OFFICE, Washington, DC, October 11, 2000.

Hon. John Edward Porter,

Chairman, Labor, Health & Human Services and Education Appropriations Subcommittee, House of Representatives, Washington, DC.

DEAR JOHN: On behalf of the State of Illinois, please accept our heartfelt gratitude for your extraordinary contributions during a lifetime of public service.

On the occasion of your retirement from the US Congress, it's fair to recognize and applaud what you have accomplished for your constituents, for people within Illinois and throughout the United States. It's also not an exaggeration to highlight the fact that your leadership in human rights and on environmental issues has benefited people around the world.

You are a strong advocate for a thoughtful federal appropriations process, a clean environment and adequate funding for the arts. You have earned an influential role among the "Green Republicans" to fight for the nation's environmental interests in Congress. And you are one of only five House members ever to be appointed to the Board of Directors of the Kennedy Center for the Performing Arts.

Your service in Illinois began in the Illinois House of Representatives during 1972 and I'm proud that we served together in the State House before you were elected to Congress in 1980. Those of us who were fortunate to work with you then haven't been surprised by what you have accomplished since.

The National Institutes of Health and biomedical research have been huge beneficiaries of your legislative skills and your leadership as Chairman of the Labor/HHS Appropriation Subcommittee. As a champion and supporter of the NIH, your efforts have helped the Institute bring about numerous medical and health advances.

You have successfully advocated federal funding to expand the METRA Commuter rails into the northern suburbs of Illinois, including many towns in your district. The METRA extension into these areas via the Wisconsin Central tracks has stimulated wide ranging economic expansion. The passenger rail service this expansion made possible connected the northern suburbs to O'Hare International Airport and Chicago's Union Station.

The 290 acres of open space at Fort Sheridan is an outgrowth of your creativity, determining and your ability to persuade the federal government to transfer the land to the Lake County Forest Preserve District when Fort Sheridan was closed. That this land transfer occurred without cost to the District and continues to exist as open space for all to enjoy is among your most special contributions.

The Great Lakes Naval Station remains open, viable and an economic anchor in Illinois because of your efforts. Among the critical military missions conducted here is Navy and Coast Guard training

Navy and Coast Guard training.

Illinois is among the first tier of states benefiting from new opportunities to market our products, produce and ideas internationally. Your commitment and effectiveness as an advocate of free trade continues to produce immeasurable economic benefits for the people of Illinois. Our farmers have more markets in which to sell their crops and livestock. Our business community has additional opportunities to positively impact their bottom line. Our workers enjoy a more stable work environment with better compensation.

Additional contributions that will not be forgotten include your efforts for comprehensive flood control measures for the North Branch of the Chicago River. The enhancement of safety and operational capabilities at Waukegan Airport, including new instrument landing equipment and runway improvements. Waukegan Harbor has been cleaned up with federal resources and payments you helped secure from the firm who did the polluting.

On behalf of my family and our shared constituents from all walks of life within Illinois, thank you for all that you have accomplished. Your ideas, experience and voice in Congress will be sorely missed. We wish you the very best in your next endeavor and hope that it brings you all the joy and happiness that you deserve. Please extend our very best regards to your entire family and especially your children—John, Ann, David, Robin, and Donna.

Sincerely.

GEORGE H. RYAN,

I think it is amazing all of the correspondence that we have had. The praise from several fellow Illinoians for JOHN PORTER'S service in Illinois include a couple of members from the Illinois delegation that I would like to summarize what they have submitted. The gentleman from Illinois (Mr. LI-PINSKI) points out that not only has John's work resulted in millions of dollars going to fund biomedical research but his legacy will be saving lives. While they have not always agreed on every issue, he commends John for his conservative stance on fiscal issues and his unwavering commitment to eliminating deficits and balancing the Federal budgets. The gentleman from Illinois (Mr. Costello) touts John's efforts to ensure funding for the National Institutes of Health, and his dedication to human rights issues. He expresses his admiration for John's work in the Illinois delegation and on the Committee on Appropriations. He states that his friendship will be missed.

A couple of comments from former chiefs of staff to John Porter. Mark Kirk states that America is not great because we are rich or field the most powerful military. We are great because our Nation has been the largest force for good on this earth. John Porter and the Human Rights Caucus made our values and respect for human rights an essential part of our country's mission to the world. We here in Illinois will miss John Porter's calm, intellectual and dignified service to the Nation.

At this point, I would like to submit his letter.

MARK STEVEN KIRK Glenview, Illinois, October 18, 2000.

Congresswoman JUDY BIGGERT,

U.S. House of Representatives, Washington, DC. DEAR CONGRESSWOMAN BIGGERT: I want to applaud you for leading today's Special Order for John Porter.

Our country and future generations owe a real debt to Congressman Porter. he led our nation's commitment to double funding for medical research. It was his decision that laid the foundation for the mapping of the human genome, finding the cause of Alzheimer's disease and a cure for some types of diabetes. John Porter's legacy is one of longer, healthier lives, not just for our nation but the world.

John Porter also embodies the values we hold most dear. America is not great because we are rich or field the most powerful military. We are great because our nation has been the largest force for good on this Earth. We enshrined our values in the Bill of Rights and exported them through the Universal Declaration of Human Rights. John Porter and the Human Rights Caucus made our values and respect for human rights an essential part of our country's mission to the world.

After 21 years of John Porter's service to the nation, human freedom has spread throughout Eastern Europe and the former Soviet Union, turning enemies into allies. The new leaders in many of these countries were once prisoners of conscience whose best friend and advocate was John Edward Porter. The bond they formed in prison cells with their voice and friend in Congress will reap a permanent reward to the United States.

We here in Illinois will miss John Porter's calm, intellectual and dignified service to the nation. He served us all in the highest tradition of public service and commitment to the greater good.

Sincerely,

MARK KIRK.

Another chief of staff, Robert Bradner, who worked for JOHN for 13 years, cites a specific example of JOHN's foresight. Fifteen years ago, before anyone saw it as a problem, JOHN began pointing out the potential problems with Social Security. While many thought it to be an act of political suicide, he had the courage to take on the issue of Social Security reform. Popular wisdom has finally caught up with him.

□ 2215

Robert further states, "JOHN'S belief in a fair process and his ability to work on the basis of mutual respect with colleagues of widely divergent views allowed him to shepherd difficult legislation through the House over the past 6 years that he has been the chairman of the Labor-HHS Committee, in a manner that confirmed to all the true measure of his policy making talent."

I continue with Robert Bradner. "Ultimately, I regard John Porter as a teacher. He taught me and a number of others who passed through his offices about the honor of public service and the importance of ideas."

OCTOBER 18, 2000.

Hon. JUDY BIGGERT, Member of Congress, Washington, DC.

DEAR JUDY: I am delighted that you have organized a special order on the eve of John Porter's retirement from the House of Representatives to commemorate his many years of public service.

I had the great honor to work for John Porter for a total of thirteen years, both during the time that he served as a member of the minority party in the House, and later when he rose to an important chairmanship in the majority. A litany of all that he accomplished in that time would run many

pages. However, I would like to share a few observations.

During the 1980s, John Porter distinguished himself as a tireless advocate for human rights and the environment, as a defender of the rights of women and an advocate for a common sense approach to family planning, and as a fierce opponent of federal budget deficits. One accomplishment deserves particular note, for it is emblematic of both his intelligence and his political courage. Fifteen years ago, John began pointing out the dangerous growth of unfunded liabilities in the Social Security system and, soon thereafter, he began introducing legislation to provide for individual social security retirement accounts. At the time, such behavior was considered an act of political suicide. But John had the courage to take on the issue, and a constituency that trusted and valued sound judgment over demagoguery. He was well ahead of his time in seeing this problem for what it was. Today, the popular wisdom has finally caught up with where John was well over a decade ago: recognizing this as a serious problem and beginning to come to grips with solutions. Indeed, a very closely related proposal to John's original legislation is playing a very prominent role in the current Presidential election.

Later in his career, John had the opportunity to accede to the Chairmanship of the Labor, Health & Human Services and Education Subcommittee. This was no easy assignment. In recent years, the Labor-HHS bill has been a place where some of the most passionately held beliefs of conservatives and liberals about the shape and size of government and a myriad of emotional social issues collide headlong. And it is the place where, on an annual basis, those disagreements must somehow be resolved. I would argue that John Porter was almost uniquely qualified for this most difficult assignment. This capability stemmed not from his views on any particular issue but rather from the innate decency that he has always shown to his co-workers and his strong belief that the process by which issues are resolved in a democracy is of equal, if not greater, importance than the particular outcome achieved on a particular issue on a particular day. John's belief in a fair process and his ability to work on the basis of mutual respect with colleagues of widely divergent views allowed him to shepherd this most difficult legislation through the House over the past six years in a manner that confirmed to all the true measure of his policy making talent. Ultimately, I regard John Porter as a

teacher. He taught me, and a number of others who passed through his offices, about the honor of public service and the importance of ideas. He encouraged intellectual discourse and vigorous policy discussion within the office toward the goal of developing a better understanding of the issues and a sounder approach to policy. And he showed me that, on the most trying and emotional issues facing the Congress—such as the resolution to authorize hostilities against Iraq-there is no substitute for a member of Congress that exercises, to the best of their ability, independent judgment to ascertain the best course of action and the courage to support that course.

I thank you again for your efforts in organizing this fine tribute to John Porter, and join with you and so many others in wishing John all the best in his future endeavors.

Sincerely,

ROBERT H. BRADNER.

Another Chief of Staff, Gordon

for reducing Federal budget deficits as being "based on his conviction of public service as a responsibility for perpetuating our free and democratic society." He also praises John as being a champion of the ideals upon which our system of governing was originally based. He states that "today's young Americans and their children will be better off for Congressman Porter's 20 years of devoted service in Congress."

OCTOBER 18, 2000.

Hon. JUDY BIGGERT, U.S. Representative, Washington DC.

DEAR CONGRESSWOMAN BIGGERT: I understand that you have organized a "Special Order" to celebrate the career of Congressman John E. Porter, and that you have invited former staff to Congressman Porter to contribute sstatements.

I was fortunate to have been introduced to Congressman Porter in 1983, during his second term in Congress. I was subsequently offered a position as Legislative Assistant in his office beginning in January, 1984. I was promoted to the position of Administrative Assistant in 1995, and served on his staff until early 1997. Since leaving his office I have had the opportunity to continue a professional and a personal relationship with Congressman Porter.

John Porter is an individual of high integrity and deep intellect. He has an unwavering commitment to our open system of representative democracy. I believe that he is one of the finest Members of Congress to serve during the last quarter of the 20th Centurv

During the first eighteen years of his career, Congressman Porter devoted the majority of his time to efforts to reduce federal budget deficits. In my view, his motivation was not simple or myopic fiscal conservatism, his motivation was based on his conviction of public services as a responsibility for perpetuating our free and democratic society. Congressman Porter remained focused for the majority of his tenure in Congress on adopting fiscal policies to enable future generations to avoid being burdened with federal debt. Coming generations of Americans will benefit from his steady and deliberate effort to help balance the federal budget. I am pleased for Congressman Porter that he has been able to stay in the House long enough to see a balanced federal budget.

With federal fiscal policy coming into balance during the past two years. Congressman Porter has refocused his efforts on federal programs of significance to future generations of Americans. He has led an effort in the House to increase funding for medical research, an investment which will improve the quality of life for future generations of all mankind. Also during this period he has conscientiously worked to forward proposals to stabilize a Social Security system which. without changes, will not last to serve our children.

John Porter has been a champion of the ideals upon which our system of governing was originally based. He is a unique individual, and his character and demeanor will be missed in future Congresses. Today's young Americans and their children will be better off for Congressman Porter's twenty years of devoted service in Congress. I wish him well.

Sincerely

GORDON P. MACDOUGALL

We also heard from former Illinois of-MacDougall, cites John's motivation ficials, Mr. Speaker. Former Illinois

State Representative David Barkhausen from John Porter's district states that "one has only to look at the example of JOHN PORTER to recognize that in him we have truly had an exemplary leader and representative in the mold that our Founding Fathers envisioned. The impact of his many contributions will endure, as will the high standards of public service that he has held high for others to follow."

LAKE BLUFF, IL, October 18, 2000. Re "Special Orders" tribute for John Porter. Hon. JUDY BIGGERT, U.S. Representative,

DEAR JUDY: It is my pleasure and privilege to participate in this special tribute to Congressman John Porter from his colleagues and friends.

Washington, DC.

I am fortunate that my service in the Illinois General Assembly from 1981–1997 (2 years in the House and 14 in the Senate) coincided with most of John's years of service in Washington. He was both a great leader and team player. He also recruited and maintained a staff that was second to none and that was always extremely courteous, cooperative, and effective.

John Porter has been an extraordinarily thoughtful and conscientious Congressman and a model servant. He has combined the characteristics that everyone could hope for in a Congressman from our kind of district. He is a deep and original thinker who has greatly influenced important policies in such areas as health care research. He has reflected and continuously sought the views of his constituents while maintaining an admirable independence of judgment. And he has been extremely attentive to problems and projects of local interest and influential in offering solutions.

In the final Presidential debate last night, the candidates were asked at the end what might help to overcome the cynical and negative views that so many citizens have of their government and its leaders. Cloning John Porter might be one effective solution. One has only to look at the example of John Porter to recognize that, in him, we have truly had an exemplary leader and representative in the mold that our Founding Fathers envisioned. We owe him our deep thanks for the many good years of service he has given us. The impact of his many contributions will endure, as will the high standards of public service that he has held high for others to follow.

I am confident that we can look forward to additional, important contributions from Congressman Porter in the service of his country. For now, I want to join all of you in this heartfelt, if inadequate, praise for his job extraordinarily well done as a member of the United States Congress for the past 21 years.

Sincerely,

DAVID N. BARKHAUSEN.

Senator Kathleen Illinois State Parker worked on JOHN'S campaign for state representative, how many years ago was that, and remembers that he once tracked down a cabinet member in an airport to resolve a problem for a constituent. She further states that he was a man of integrity and, above all, a true friend.

ILLINOIS STATE SENATE,

Springfield, IL, October 18, 2000.

Hon, Judy Biggert

Cannon House Office Building, Washington, DC.

DEAR REPRESENTATIVE BIGGERT: Thank you for the opportunity to be included in a Congressional tribute to John Porter.

It's hard to believe that John will have served for 22 years in Congress. It seems like yesterday when I worked on his campaign for State Representative!

I can tell you that through the years Congressman Porter has been loved by his district. He has never forgotten his constituents. While in Washington John has been ever mindful of local views and issues.

Congressman Porter's staff is, if not the best, tied with the best in the country. They work hard, are always responsive and are a pleasure to work with. They work closely with John enabling him to take personal interest in helping his constituents. In one case that I know of Congressman Porter even went as far as to track down a cabinet member in an airport to resolve a problem for an individual in his district.

Out of the four ways to leave office John is leaving the only good way! He has served the Northshore area of Illinois well. He leaves us with the memory of a true statesman and Congressman that we can always admire and be proud of. A man of integrity and above all a true friend.

We will miss John as our Congressman. However, we are hopeful that there is a future ahead in some capacity he may serve our country again. We will all be better off if that occurs.

Sincerely.

KATHLEEN K. PARKER, State Senator, 29th District.

Illinois State Representative Jeff Schoenberg recounts the first time he met JOHN PORTER was when he was working in his first paid political job for JOHN's election opponent, then Congressman Abner Mikva. Despite these beginnings, Jeff has had an extremely good working relationship with JOHN, and states their offices have maintained a "seamless cooperation" in serving the residents of Chicago's North Shore. He agrees that JOHN will best be remembered for his commitment and diligence in bettering the lives of millions of Americans.

His words commending Congressman PORTER follow:

Please allow me to join the many others in offering my best wishes to my colleague and constituent, Congressman John Porter, in his future endeavors.

I must concede that I first became acquainted with John when I was hired in 1978 for my first paid position in politics, as a young field organizer for his election opponent, then Congressman Abner Mikva. Nonetheless, despite that less than auspicious beginning to our working relationship, it has been an extraordinary pleasure to work with Congressman Porter to address our mutual constituent concerns and district needs.

For the past ten years, our offices have maintained a seamless cooperation in serving the residents of Chicago's North Shore. And on the issues that matter most to those who we serve—whether it has been funding for health care and medical research, deficit reduction and greater fiscal accountability in government, or most recently, when we worked shoulder-to-shoulder with the United

Power for Action and Justice coalition to increase the availability of funding for affordable housing and health insurance for lower-income women and children—John Porter will always be remembered for his commitment and diligence in bettering the lives of millions of Americans.

I wish Congressman Porter the best of luck and hope his tenure in the Illinois legislature and the United States Congress will continue to inspire young people to public service.

May you continue to go from strength to strength, John, in your pursuit of just causes.

Sincerely,

JEFF SCHOENBERG

Illinois State Senator Adeline Geo-Karis appreciates how responsive John always was to her constituents, and states how much he will be missed.

ILLINOIS STATE SENATE, Springfield, IL, October 18, 2000. Congresswoman JUDY BIGGERT, 13th Congressional District.

DEAR JUDY: I worked with John Porter in the Illinois House, and he became my Congressman. He was always very responsive to my District and to my people, and he did a great job for the 10th District.

I wish him the best that life has to offer and I shall miss him.

Sincerely,

ADELINE J. GEO-KARIS,

Senator—31st District,

Assistant Majority Leader.

Illinois State Representative Elizabeth Coulson states that she will always remember the lessons she learned from JOHN, and that his work on environmental issues was second to none.

ELIZABETH COULSON,
STATE REPRESENTATIVE,
Springfield, IL, October 17, 2000.
Hon. JOHN EDWARD PORTER,

Congressman, 10th District,

Deerfield, IL.

DEAR CONGRESSMAN PORTER: Congratulations on eleven terms in the United States House. We will miss your compassion and good judgment in our 10th District.

As a State Representative, I have often looked to your leadership as an example. I watch with great interest your lead on the Labor, Health and Human Services and Education Subcommittees. Your work on environmental issues is second to none. Again, we will miss you.

You will always be remembered for your independent thinking. As I continue my career in Government I will remember the lessons that I learned from you. I wish you the best of luck in your future endeavors!

Sincerely,

ELIZABETH COULSON, State Representative, 57th District.

I would like to take a moment to highlight one of John's most notable achievements, and that is his commitment to biomedical research. He is truly a champion in this field, as has been noted by so many who I have quoted. His work on the National Institutes of Health deserves particular mention.

When he became chairman of the Labor-HHS appropriations subcommittee in 1995, NIH had been appropriated \$11.3 billion for the previous fiscal year. While that is hardly small chump change, JOHN recognized that

NIH is responsible for so many of our country's scientific advances and could be responsible for so much more with additional funding.

As a Congress we set out a few years ago, with the guidance of JOHN, to double the funding for the NIH, and JOHN has done this almost all by himself during his tenure. In the long-awaited conference report for Labor-HHS bill, he has set aside \$20.5 billion for NIH. That is a 15 percent increase over last year, and an astounding 81 percent increase during his chairmanship.

These increases in funding for NIH mean good things for so many people. It will, we hope, lead to cures for cancer, AIDS, heart disease, diabetes, depression, Alzheimer's and so many others. In fact, earlier this year in the Wall Street Journal, Al Hunt wrote that this funding increase "may be the most significant achievement of this GOP Congress."

The chairman of Research America, a former representative, Paul Rogers, said in the same article that achieving the consensus necessary for this increase "would have been very difficult without John Porter. He has been the main purpose in this effort." With that praise, Mr. Rogers perhaps understated John Porter's role: He was the single motivating force.

This, of course, is not the only praise that John has received, and I could use up the entire hour reciting the organizations that have honored John for his support for biomedical research. Suffice it to say, it is a long and noteworthy list, from the American Medical Association, to the American Society of Microbiology. So, on behalf of the American public who benefits from this critical research done at the NIH, I know we thank JOHN PORTER.

I would also like to take a moment to pay tribute to John Porter's outstanding human rights record. In 1983, after witnessing the severity of human right violations in the former Soviet Union, John helped to form the Congressional Human Rights Caucus. He knew that applying Congressional pressure on foreign governments could be a significant step towards ending human rights abuses around the world.

I doubt that even John Porter anticipated how successful the caucus would ultimately turn out to be, with a bipartisan membership now totaling 257 Members. Under John's solid leadership, the Human Rights Caucus thoroughly reviewed the actions of and subsequently condemned Chinese authorities for the 1989 Tiananmen Square incident. Under JOHN's leadership the caucus has held regular briefings on important human rights issues, including religious freedom in China, the oppressive regime of the late Nigerian dictator Sani Abacha, the plight of North Korean refugees living in China, and the abhorrent use of children soldiers, just to name a few.

In addition to his work with the caucus, John has been heavily involved personally in human rights work. He has provided a clear and loud voice for the oppressed, and has strongly supported human rights and democratic reform all over the world.

JOHN also cosponsored a Congressional fast and prayer vigil in which numerous Members of Congress fasted on behalf of specific oppressed individuals. Because of his leadership in this area, Representative PORTER received the Anatoly Shcharansky Freedom Award from the Chicago Action for Soviet Jewry, who described him aptly as "a champion of human rights and a powerful ally in the struggle against oppression and the fight for basic human freedoms."

JOHN introduced legislation to create a Radio Free China, a broadcasting service to bring uncensored news reports directly to the Chinese people without government intrusion. He then jointly introduced Radio Free Asia to serve China, North Korea, Burma, Vietnam, Cambodia and Laos. Congress authorized the program and JOHN quickly secured funding for the new service.

A Member of Congress who has served more than 20 years can amass a great deal of influence. John Porter as chairman of an influential appropriations subcommittee is certainly no exception. However, John has bucked the trend and has not used his power and influence for his own personal gain or enrichment. He has used his influence to help those less fortunate than himself, those less fortunate than most Americans.

Gerald LeMelle, Deputy Executive Director for Amnesty International USA, eloquently summed this up when he said of Representative PORTER at a recent farewell reception, "Whether from your keynote speech at the Latin American Ambassadors Colloquium in 1991, or your steadfast support on issue after issue, you have always been there for us and for human rights, with integrity and principle."

I agree. John Porter has always been beside those who could not fight for themselves. For this I admire him.

JOHN PORTER has been a leader in so many areas, and in the middle of our testimonies to him on health care, human rights and health research, it is also important to emphasize his active interest and leadership on issues involving the environment. His record is clear enough on this point and long enough to document his strong and consistent support for major environmental legislation, including the Clean Water Act, the Clean Air Act, the Wilderness Protection Act, the National Park Protection Act and the Land and Water Conservation Fund.

But the fine print of his record also reflects his love of animals and his love of the outdoors. For instance, he voted for the Endangered Species Act and against the inhumane use of animals in product testing and the use of cruel leghold traps. Ten years ago JOHN successfully stopped the radical destruction of tropical rain forests in developing nations by tying future lending to conservation efforts to protect the forests and the wetlands.

Today he is fighting for the protection of the American bear with legislation to stop the illegal poaching of bears for their paws and gallbladders, which has garnered the support of 142 other Members of Congress. For these and many other efforts, he has received awards, honors and accolades from national and international environment groups like the Sierra Club, the Audubon Society, the United Nations Environmental Program and Conservation International.

JOHN is even the recipient of the prestigious Lorax Award from the Global Tomorrow Coalition, a group representing over 100 environmental organizations. But, most important to the people of the Tenth District of Illinois, have been JOHN's efforts to protect human health and the environment at home.

He orchestrated an agreement between the government and the polluters of Waukegan Harbor on Lake Michigan to clean it up. He led an effort to preserve the 290 acres of open space on the northern part of Fort Sheridan and make it available for recreation by transferring it from the army to the Lake County Forest Preserve District at no cost.

He sought and found effective solutions to help area residents and businesses along the North Branch of the Chicago River who suffered from flood damage. Thanks to his efforts, flood waters are now diverted from people's basements to a number of large reservoirs.

JOHN also has been a leading supporter of environmental projects that benefit all the residents of northeastern Illinois. He obtained funding to study Lake Michigan's shoreline erosion and to stabilize it. He introduced legislation to alleviate high water levels in Lake Michigan by increasing water diversion down the Illinois River and secured additional funding for wetland preservation.

So whether you are a resident of JOHN PORTER's district, the City of Chicago and any of its suburbs, or the tropical rain forests of any developing nation, your environment has been positively impacted by the efforts of a great environmental advocate, our friend, JOHN PORTER.

Mr. Speaker, I would like to add that I also have received a statement from the gentleman from New Jersey (Mr. Frelinghuysen), and I would like to just say that he also applauds his work to increase funding for the National Institutes of Health and biomedical research, and says that believing that

more funds would lead to more cures for disease and other medical advances. Chairman PORTER embarked on an ambitious program to double the NIH budget.

I would like to also say that he particularly remembers his work with JOHN PORTER as a Member of the Subcommittee on Foreign Operations. In particular, he recalls one battle that was waged with Mr. PORTER. They worked together, in 1997, when they opposed certain provisions of the fiscal year 1998 foreign operations appropriation bill that they thought should not have been included. He says the one thing that he could say about John PORTER is that he always he always stands up for his principles, and, in this particular case, like so many others, he prevailed in the end because he knew the facts and he knew the cause was

The gentlewoman from New York (Mrs. Maloney) says that she had had the privilege of working with Mr. Porter on such a wide variety of issues; women's rights, health care, human rights, family planning, the environment and many, many more.

\square 2230

He was always a tremendous advocate for bipartisan cooperation. Over the years, they often worked together to forge common sense solutions to important issues facing our Nation. She says that she knows that there are many Members of Congress who would join her in this sentiment, and she believes that that alone is an outstanding tribute to any Member of the U.S. House of Representatives. In the case of Congressman PORTER, it is an exceptionally fitting tribute.

She had the distinct pleasure of working with Mr. PORTER on international family planning issues and stood together in opposition to any antidemocratic gag rules which would interfere with the availability of family planning around the world.

On this issue, as with so many others, Congressman Porter has touched so many lives; it is hard to measure the full impact of his efforts.

I would like to then turn to some remarks which I think are very fitting, and that is a thank you to Mr. PORTER from his staff. And they have said that the House of Representatives and the 10th District of Illinois will not be the same next year as Congressman JOHN PORTER sets off on a new career path. Members of his staff would like to take this opportunity to express their gratitude for the journey that they have traveled with him over the past 21 years.

Mr. Speaker, I will quote:

Some of us have worked for the Congressman almost his entire time in office. Our longevity is a testament to the respect and

appreciation we have for his honesty, integrity, and leadership. The Boss, as we affectionately called him, has been the one constant amidst the hectic pace of a congressional office caught in a whirlwind of issues, including a government shutdown and impeachment hearings.

He has vigorously pursued those issues of greatest interest to him, including biomedical research, human rights, and environmental conservation. He has never wavered from his duty to fairly represent the people of Illinois' 10th Congressional District.

Congressman Porter rarely lets an occasion go by without acknowledging his appreciation for what he calls "the best congressional staff in America." However, leadership and success come from the top.

Congressman Porter has set service to his constituents as the highest priority. From his impeccable manners, to his insistence that no constituent request goes without response, he has taught us that everyone is to be treated equally.

The honor of working for Congressman John Porter has enriched our lives in more ways than we can ever express.

In the communities of Illinois' wonderful 10th Congressional District, it is a name that commands respect. We know this because we hear his praises sung daily. Even constituents who disagree with his vote respect his judgment and his courage to vote his conscience.

So as you move on, Boss, we wish you the great success in your next endeavor. We know that you will continue to contribute your many talents to helping the people of this great Nation. Thank you, Congressman Porter for setting the standard that others follow. Thank you for giving us the joy of working in this exciting environment that allows us to learn something new each day and be of service to others.

Thank you for standing by us during the ups and downs we have experienced in our personal lives over the past 21 years. Most of all, thank you for letting us be members of the Porter family, to work for you and be with you. We have loved every minute.

Signed Linda Maneck, Dee Jay Kweder, Ed Kelly, Ginny Hotaling, Carol Joy Cunningham, Mary Jane Partridge, Nancy Johnson, Linda Mae Carlson, Jerri Lohman, Katharine Fisher, Spencer Perlman, Jeannette Windon, Michael Liles, Erik Rasmussen, Jori Frahler and David Fabrycky."

Is that not a nice tribute to have from the members of your staff?

Mr. Speaker, much has been written during this presidential election year of legacy of what a public servant bequests to his succeeding generations, not just on his last days in office, but over the entirety of his career.

Let me close tonight's special order by summing up the sentiments expressed by my colleagues regarding the legacy of our esteemed colleague, JOHN EDWARD PORTER.

What we have heard tonight is that JOHN PORTER has not sought out glory or tried to advance his name at any cost. JOHN is the kind of Congressman that will leave a long record of accomplishments when he walks out of this Chamber as we adjourn sine die.

First, John leaves a great legacy to the 10th District in the State of Illinois. As our governor, State senators and representatives mentioned in their letters and as my colleagues from Illinois attested tonight, John's contributions are without equal. Among the many projects for which he will be remembered, his funding for the METRA Commuter rails that link the northern suburbs of Illinois with downtown Chicago and O'Hare Airport.

Second, JOHN leaves a great legacy to this country. His crusade to increase NIH funding will no doubt lead one day to the cures for the diseases that will save millions of lives. His work on behalf of women's and children's health issues, it is unparalleled.

JOHN leaves a great legacy for our world community. He has represented those around the world who are not able to represent themselves. JOHN fights not only for the most popular crusades, but also for the countries and people forgotten by the glare of CNN. This is a proud legacy.

Perhaps most importantly, John leaves a great legacy for the people whose lives he has personally and directly touched. The thoughtful and loving testimony shared here tonight by his staff and former staff members speak out volumes on the quality and decency of this fine man.

Tonight we heard of the legacy that JOHN has created during his years of service in this body. We heard but a small part of the large impact he has made on his district, his State, his country, and the world.

But tonight is not a leave-taking. It is the exciting commencement of the next stage of John's career. We will all watch with great pride and interest the new challenges that John will decide to tackle in the months and years to come. We all will know that whatever cause or causes he chooses to take on in his next career will be benefited and blessed by his fine touch.

They say there is no limit to the amount of good that a man can do in this world if he does not care who gets the credit. Well, John never cares and never has cared who has gotten the credit, and John can never be credited sufficiently for the great good he has done in this world.

We will all miss JOHN PORTER a great deal, but we are all honored to have been able to serve with a leader of such integrity, dedication, and commitment to principle.

Tonight we celebrate his legacy, we delight in his friendship, and we wish JOHN EDWARD PORTER the very best that life has to offer.

Mr. Speaker, I include for the RECORD the following speech:

SPEECH DELIVERED BY GERALD LEMELLE, DEPUTY EXECUTIVE DIRECTOR FOR AMNESTY INTERNATIONAL USA, ON THE OCCASION OF A FAREWELL RECEPTION FOR REPRESENTATIVE JOHN PORTER, CO-CHAIRMAN OF THE CON-GRESSIONAL HUMAN RIGHTS CAUCUS, OCTO-BER 3, 2000

Distinguished members of Congress, distinguished staff, dear friends and colleagues, it

is my bittersweet pleasure to be here to bid farewell to our dear friend and Co-Chairman of the Congressional Human Rights Caucus, Congressman John Porter.

Chairman Porter has been a key leader in ensuring that the Congressional Human Rights Caucus did not just survive the abolition of caucuses, but has managed to thrive-even "thrive" might be an understatement! Today, the Human Rights Caucus has an almost frantic pace of briefings-Guatemala, Burma, Sudan, Algeria, East Timor, Turkey-it matters not the range of countries or even issues, all these countries are covered in a week, with recognized experts or with the activists who are on the front line of these issues! But the Caucus does not cover only countries in the headlines but countries and peoples forgotten by the glare of CNN. The Caucus is here to ensure that human rights around the world remain a focal point for congressional activity—even when Congress gets caught up in other business. And for that, sir, we salute you.

But Chairman Porter has gone beyond the Caucus in his pursuit of human rights. When Native American leaders converged on Washington earlier this year to call for the release of Leonard Peltier, they found a receptive ear in Chairman Porter who hosted an important briefing in which we in Amnesty International were honored to participate. When the Turkish government has gone on a public relations offensive, or when the Administration despite its wiser counsel has decided to pursue arms transfers to that NATO ally, it is Congressman Porter who has been publicly on the side of human rights.

In 1995, at a briefing organized by the Congressional Human Rights Caucus, when Nigeria was suffering under the oppression of the late dictator Sani Abacha, Chairman Porter was one of the few voices calling Abacha what he was—a dictator—and one of the lone voices blasting the Administration's policy.

And of course we cannot talk about the Chairman without talking about Kathryn Porter, a human rights activist in her own right. While her work on behalf of the Kurdish people and Afghani women is widely recognized and celebrated, we also remember the singular courage she exhibited when she spent some time with Jennifer Harbury in Guatemala, on a lonely stretch of rural road outside an Army base.

While a politician might boast of the state dinners he or she has attended, Chairman Porter attended a "stateless" dinner on behalf of Chinese dissidents. While politics is well tuned to the powerful and the popular, Chairman Porter has stood by the underdogs, supporting the rights of religious and ethnic minorities throughout the world, including the Armenians and the Ba'hais. While many in Congress have shunned the challenge of confronting the violations by powerful allies such as Saudi Arabia, Chairman Porter seems to embrace such opportunities. While governments and their representatives tend to have relationships with other governments, we can safely say that Chairman Porter has built relationships with peoples.

We in Amnesty International USA with its 300,000 members in the United states and more than a million members worldwide can say that we are a grateful people for your leadership and your support. I should also add, if I want my staff not to kill me, that your staff has also been fabulous, including Rachel Helfand, Karen Davis, Heidi Gasch, Katharine Fisher, Kelly Currie, and Jeannette Windon. We have grown to respect and rely on them as well.

Whether from your keynote speech at the Latin American Ambassadors Colloquium in 1991 or your steadfast support in issue after issue, you have always been there for us and for human rights, with integrity and principle that is second to none. Dear Chairman Porter, it's not just staffers who voted you number one Congressperson who will be missed most—we also read Washingtonian magazine—we too will miss you deeply.

Thank you sir for your wonderful example and contribution to human rights. You are a real hero to us.

Mr. FRELINGHUYSEN. Mr. Speaker, today we salute the very distinguished gentleman from Illinois, Mr. JOHN EDWARD PORTER, as he prepares to retire after 20 years of dedicated service in the House of Representatives, to the people of Illinois, and to our Nation. I rise to join my colleagues in paying tribute to him and the legacy he leaves behind.

Mr. Porter embodies a unique blend of fiscal conservatism and social moderation. He is known as a most thoughtful, articulate, and responsible member of the Appropriations Committee, a consistent advocate for human rights for all people, a protector of volunteers to encourage their greater participation in their communities, and a supporter of programs that help men, women, and children in need to have full and productive lives.

It has been my honor to serve with Mr. PORTER as a member of the House Appropriations Committee for the past six years. As Chairman of its Labor, Health and Human Services, Education Subcommittee, he has had the Herculean task of shepherding the largest domestic spending bill through our committee and this Chamber. Not only does this bill contain a substantial amount of money, it also contains a substantial amount of controversial policy issues. Mr. PORTER has done an excellent job of balancing all the competing interests as he worked to craft his annual bill.

In this regard, I applaud especially his work to increase funding for the National Institutes of Health and biomedical research. Believing that more funds would lead to more cures for diseases and other medical advances, Chairman PORTER embarked on an ambitious program to double the NIH budget over five years. Against all odds, and under tight budget constraints, he has managed to increase NIH funding by 15 percent a year for the past three years. At this rate, Congress would meet his goal of doubling that budget in five years. I hope that my colleagues would continue toward that objective and that his leadership with the NIH will be remembered as one of his greatest legacies.

On a more personal note, I particularly remember our work as members of the Foreign Operations Subcommittee. In particular, I recall one battle we waged together in 1997 when we opposed certain provisions of the Fiscal Year 1998 Foreign Operations Appropriations bill that we thought should not have been included. One thing you can say about JOHN PORTER, he always stands up for his principles. In this particular case, like so many others, he prevailed in the end because he knew the facts and the cause was just.

My work with Mr. PORTER was not just confined to the Appropriations Committee, as both of us have been members of the Tuesday Lunch Bunch. Here we consumed a lot of pizza and discussed issues facing us in Congress that deserved extra attention and deliberation.

While we are saddened to see Mr. PORTER retire, we join in wishing him well in the future and thanking him for the high standard he has set for all of us.

Mrs. MALONEY of New York. Mr. Speaker, I want to thank the Illinois delegation for organizing this Special Order tonight, and I want to thank my friend JUDY BIGGERT for coordinating this particular effort honoring Congressman JOHN EDWARD PORTER.

I am here to honor my friend, Chairman JOHN PORTER, who is retiring at the end of this session of Congress. Mr. PORTER has been a good friend, he has been a terrific legislative partner, and he has been a superior legislator.

I have had the privilege of working with Mr. PORTER on such a wide variety of issues—women's rights, health care, human rights, family planning, the environment, and many, many more. He has always been a tremendous advocate for bipartisan cooperation. Over the years, we have often worked together to forge commonsense solutions to important issues facing our Nation. And I know that there are many Members of Congress who would join me in this sentiment. I believe that alone is an outstanding tribute to any Member of this House. In the case of Congressman PORTER, it is an exceptionally fitting tribute.

I had the distinct pleasure of working with Mr. PORTER on international family planning issues. We stood together in opposition to any anti-democratic gag rules, which interfere with the availability of family planning around the world. On this issue, as with so many others, Congressman JOHN PORTER has touched so many lives, it is hard to measure the full impact of his efforts.

He is a leader on protecting the environment. As co-chair of the Human Rights Caucus, he has been a leader on human rights. As Chairman of the Labor-HHS Subcommittee, he has been a leader on biomedical research.

This year, I am proud to serve as the cochair of the Congressional Caucus for Women's Issues. And every year, the Women's Caucus testified before his subcommittee.

Congresswomen would line up to testify about a whole host of issues—family planning, women's health, title IX, biomedical research, education funding, diabetes, cancer, heart disease, obesity, long-term health care, breast cancer, teen pregnancy, mental health, AIDS, osteoporosis, STD's, child care, homelessness, Head Start, pediatric asthma, violence against women, and many more subjects.

Chairman PORTER often said it was his favorite day in the subcommittee. Mr. PORTER was always interested, attentive, informed, and compassionate. We always knew we had a real advocate and friend on so many of these important issues in Chairman PORTER. He will be sorely missed by the Women's Caucus, he will be missed by the entire Congress, and his leadership will be missed by countless Americans whose lives have been touched by his work.

Mr. REGULA. Mr. Speaker, I know JOHN PORTER as a friend and as a member of the Appropriations Committee. We have served together on the committee during his entire twenty year tenure in Congress.

JOHN PORTER will be remembered as one of the most consistent fiscal conservatives on the Appropriations Committee during his service in office. During his first fourteen years as a minority member of the Labor-Health-and-Human Resources Subcommittee, JOHN worked tirelessly to assure strict oversight of the agencies under his jurisdiction. During that period, we looked to his leadership to hold the line on excessive spending by that subcommittee.

Also during our period together in the minority, JOHN worked hard to reform a budget process which he thought contributed to excessive Federal spending. As a member of the majority, JOHN has continued fighting to reform the budget process during the past six years. He has argued throughout his career that adopting a bipartisan budget resolution in March of each year would help restrain domestic spending at the end of each year. We will remember his thoughtful and wise counsel on how to use the budget process to control Federal spending.

As Chairman of the Labor-HHS Sub-committee JOHN has worked closely with the minority. He is respected equally by both Republicans and Democrats on the committee for his bipartisan approach. JOHN has worked effectively with the minority to manage and control Federal appropriations, and to establish and impose performance measures on Federal agencies. He has gained the respect of all of those who have worked closely with him.

Some of our colleagues will remember JOHN for his strong commitment to medical research. JOHN has championed medical research because of his belief in a better society for our children. His leadership on funding for medical research reflects his concern for the well being of all people.

He has used his position on the Appropriations Committee to make the Federal Government more accountable to taxpayers. JOHN has insisted, like his subcommittee predecessor Bill Natcher, on attending every oversight and public hearing. In order to ensure that all of his colleagues have a chance to amend the Labor-HHS bill, he has insisted on bringing the bill to the House floor every year. JOHN has managed the Labor-HHS in a manner which reflects the principles of our representative democracy.

We will miss JOHN's integrity and his independence. JOHN's work in Congress during the past twenty years will contribute to a stronger democracy for future generations. We will miss him as a leading member of the Appropriations Committee, and we hope that he will stay in close contact with all of his former colleagues on both sides of the aisle.

Mr. HOBSON. Mr. Speaker, I rise today to pay tribute to an outstanding Member of Congress and an individual who has helped make this Nation a better place for families, our veterans, and our armed forces.

Mr. Porter first came to Congress in 1980. Since that time he has become a recognized leader in health care issues. He has always done a commendable job in working in a bipartisan manner to fund valuable programs through the most difficult of situations. His keen interest in supporting health care, education and labor issues, has helped set Federal priorities in those critical areas which further the best interests of our country.

Mr. PORTER and I share an interest in health care issues, which I developed in my days in

the Ohio State Senate. I have always appreciated Chairman PORTER's leadership in supporting needed programs in the Labor/Health and Human Services bill to benefit pediatric care, physician training, mental health services, and other important health programs.

As a former Army Reservist, Mr. PORTER has approved a valued member of the Military Construction Appropriations Subcommittee, where I serve as Chairman. Mr. PORTER has always been a strong advocate for improving the living and working conditions for our military personnel and their families and he will be missed on our subcommittee.

Today, as we honor Mr. PORTER, I am pleased to join with his friends and colleagues, his wife, Kathryn, and his children, in wishing him all the best in the years to come and to thank him for his years of dedicated service to our Nation.

As Ohio's Seventh District Representative to the Congress of the United States, I take this opportunity to join with members of the Ohio delegation and other members of the Appropriations Committee to honor the efforts and the many outstanding achievements of Representative JOHN PORTER. His many contributions as a member of the House of Representatives and leadership as a valued Committee Chairman will be remembered.

Mr. RUSH. Mr. Speaker, I rise today to pay tribute to a great Illinoisan and a dedicated Congressman. My colleague, Congressman JOHN EDWARD PORTER, dedicated 20 years of his life to serve as the Representative from Illinois' Tenth Congressional District. At the helm of the Labor, Health and Human Services, and Education Appropriations Subcommittee, Congressman PORTER worked diligently to forge bipartisanship in the appropriations process.

Over the course of Congressman PORTER's tenure in the House of Representatives, he has taken a leadership role on health care issues. As Chairman of the Labor, HHS and Education appropriations since 1995, he was successful in making biomedical research one of our Nation's highest priorities. This is evidenced in the fact that during his tenure as Chairman, Congressman PORTER doubled funding for the National Institutes of Health (NIH). Congressman PORTER understands the great promise that NIH's research holds for saving lives and conquering diseases such as cancer, diabetes, Parkinson's disease, heart disease, and many others. In addition, he worked tirelessly to provide more funding for community health centers that serve the indigent poor.

I can speak endlessly on Representative PORTER's accomplishments, but I would be remiss if I did not point out that beyond his stellar accomplishments, he is a man of honor and integrity. And as Congressman PORTER enters into retirement, I am grateful to have served with a Member of such high esteem.

Mr. COSTELLO. Mr. Speaker, it is an honor for me to rise today to join my colleagues in paying special tribute to my good friend and colleague from Illinois, Mr. JOHN PORTER. Mr. PORTER and I have worked on many bipartisan issues to improve our nation and home state of Illinois including many health care initiatives. Since coming to Congress, I have appreciated his friendship and admired his work within the Illinois delegation and on the House Appropriations Committee.

Mr. Porter began his distinguished career as an attorney, having graduated from the University of Michigan in 1961. John Porter has represented the 10th District and the State of Illinois well. He has dedicated himself to representing the citizens of the Great State of Illinois and has been tireless in his efforts to ensure medical research at NIH will continue and is adequately funded. In addition, he has helped countless people in the United States and around the world in an effort to resolve human rights issues.

Mr. Speaker, JOHN PORTER has served this institution well and he will be greatly missed. I wish Mr. PORTER and his family well in the years to come.

Mr. CRANE. Mr. Speaker, it is a pleasure for me to give this tribute to my good friend and colleague JOHN PORTER. John has served with distinction and honor with me for nearly 22 years in the United States House of Representatives.

JOHN is retiring this year as a senior member of the House Appropriations Committee, Vice-Chairman of the Foreign Operations Subcommittee, and Chairman of the Labor, Health & Human Services and Education Subcommittee. He also serves on the Military Construction Subcommittee.

Like all Congressmen, he on occasion has had things happen to bring him back down to earth. Several years ago when flying into O'Hare he stopped to freshen up before leaving the airport. After washing his hands he went to dry them. The hand dryer had a note attached to it that read: "Press here for a message from your Congressman."

On a more serious note, JOHN is founder and co-chairman of the Congressional Human Rights Caucus, a voluntary bipartisan association of members of Congress working to identify, monitor and end human rights violations worldwide.

JOHN also has nearly as large a kennel of bulldogs called Watchdogs of the Treasury from the National Taxpayers Union as I have in my office.

But JOHN has a record we should all be envious of—in 1992, he was one of only six out of 435 House members named a "Taxpayer Superhero" by the Grace Commission's Citizens Against Government Waste.

In 1994, he was one of only 35 members of the House to be cited by the Grace Commission for his votes against higher spending and taxes.

In 1997, JOHN had the best score of any House member in the bipartisan Concord Coalition's analysis of spending votes, earning him a place on the Coalition's "Honor Roll" of members with the strongest commitment to eliminating deficits and balancing the budget. The Concord Coalition placed him on its "Honor Roll" again for his 1998 voting record.

JOHN is regarded as one of the leaders of the "Green Republicans" in the House. A supporter of the Clean Air and Clean Water Act, he has enacted landmark legislation to stop destruction of tropical rainforests, fought to prevent unregulated export of waste, and has advocated new standards for recycling and energy efficiency.

A strong supporter of the arts and humanities, JOHN was appointed to the Board of Directors of the Kennedy Center for the Per-

forming Arts in 1999, one of only five House members to receive this honor.

We all know JOHN loves golf almost as much as politics. JOHN will now have more time to spending working on his swing on the golf course. It is indeed an honor for me to salute Congressman JOHN PORTER.

Mr. LANTOS. Mr. Speaker, I rise today with a heavy heart to say good-bye to one of my dearest friends in this Chamber. I know that the entire House shares my sense of loss in the departure of one of the truly great legislators who has served this body for now over 20 years, the gentleman from Illinois, my friend JOHN EDWARD PORTER, I know that not only the 10th District of Illinois will miss him sorely.

Mr. Speaker, when I was a very junior Member of this House, I one day received a request from a young but already distinguished Republican, who wanted to meet with me. As you can imagine. I was impressed and honored to receive such a request, and I happily agreed to this meeting. I still remember vividly that day in my office with JOHN, his wife Kathryn Cameron Porter, and my wife Annette. What resulted from this meeting was not only the start of our long friendship with JOHN and Kathryn Porter, but also that JOHN and Kathrvn suggested the creation of what I consider one of the most important entities in this body-the Congressional Human Rights Caucus. JOHN and Kathryn both experienced government harassment first hand, when the female members of their congressional delegation to the former Soviet Union were strip searched.

Mr. Speaker, JOHN and I have proudly cochaired the Congressional Human Rights Caucus since its inception in 1983, and have seen it grow into easily the most active working group on any issue on the Hill with currently over 257 Members from both sides of the aisle. No one can ever measure how many countless people JOHN PORTER has helped, how many people he has given hope, how many times he has spoken out in the defense of human rights, how often he has fought human rights violations wherever they occurred. The Caucus Mandate states, that the purpose of our organization is to "focus bipartisan attention on the most fundamental American values: the sanctity of the individual and the inalienable rights on which the Founders created our country," In doing that, and in continuing to do that, JOHN PORTER is a true American hero

I am grateful that JOHN PORTER invited me to serve with him as co-chairman of the Human Rights Caucus. Annette and I are proud and honored to be his friends, and I know that he and I will continue to work on human rights issues. Farewell and Godspeed, and good luck in all your future endeavors.

Mr. Speaker, a few days ago the Congressional Human Rights Caucus formerly said good-bye to our outstanding Co-Chairman in a moving reception. Let there be no mistake, JOHN PORTER is still needed, and I know that he will always be closely involved with the human rights community in whatever capacity. For those Members of the Caucus who unfortunately could not attend our farewell to JOHN, let me just say that it was one of the most moving events the Caucus has held. Leaders of the human rights community representing

organizations from around the world came to pay tribute to his outstanding leadership. Mr. Speaker, I submit for the RECORD two of the most moving tributes.

The first one is by our outstanding Assistant Secretary for Democracy, Human Rights and Labor, Harold Hongju Koh, and the second by Gerald LeMelle, Deputy Executive Director for Amnesty International USA.

STATEMENT FOR THE RECORD BY ASSISTANT SECRETARY HAROLD HONGJU KOH

I am honored to join Members of Congress in this special tribute to the remarkable Rep. John Porter. A friend and ally to human rights activists and survivors, John has used his extraordinary talents and his time in Congress for decades to bring human rights issues and concerns to their rightful place on the national agenda. The work of John and the brilliant Tom Lantos in forming the Congressional Human Rights Caucus captures everything we seek in an American human rights policy: bipartisan, principled, global, executed by a genuine partnership bethe executive and legislative tween branches, and deeply committed not just to addressing broad policy questions, but to improving the plight of individual people.

Those of us in the Department of State, in particular at the Bureau for Democracy, Human Rights and Labor, are blessed because our work receives such strong bipartisan support on Capitol Hill. There are many Members, on both sides of the aisle, who care deeply and passionately about human rights and fundamental freedoms. But passion needs a leader. And John, along with Tom Lantos, has been more than their leader—he has been their inspiration. Let me also take this occasion to pay tribute to John's own inspiration—Katharine Porter who by her own witness, has given so much of herself for so many years to improving human rights for so many.

To highlight John's many accomplishments would take the rest of the evening. Let me say only that Congressional leadership on human rights issues has largely been the result of John's and Tom's joint vision. activism, and hard work. John not only established himself as a leader in the struggle for human dignity, by calling upon Colleagues to join the Caucus, he has focused their combined energies on a range of human rights issues that others said were losing propositions. From East Berlin to East Timor, the positive developments of the past seventeen years demonstrated again and again just how wrong John's critics were. Together with Katherine and their partners in this endeavor. Tom and Annette Lantos. John has challenged all of us to season after season of work on behalf of human rights victims. He initiated briefings, speeches, letters, phone calls, prayer vigils, and even fasts so that cause after cause was heard. He challenged us to remain dedicated to the principle that the cause of liberty is always worth the effort.

John Porter has been the conscience of the Congress on human rights. Although he now changes venue, whatever path he now choses, he will surely remain a powerful ally in the struggle for human rights. As the Assistant Secretary for Democracy, however, I have half a mind to move to his district and exercise my vote, repeatedly, to force him to stay in office! Congressman Porter, Katharine: Good Luck and Godspeed.

SPEECH DELIVERED BY GERALD LEMELLE, DEPUTY EXECUTIVE DIRECTOR FOR AMNESTY INTERNATIONAL USA

Distinguished member of Congress, distinguished staff, dear friends and colleagues, it

is my bittersweet pleasure to be here to bid farewell to our dear friend and Co-Chairman of the Congressional Human Rights Caucus, Congressman John Porter.

Chairman Porter has been a key leader in ensuring that the Congressional Human Rights Caucus did not just survive the abolition of caucuses, but has managed to thrive-even "thrive" might be an understatement! Today, the Human Rights Caucus has an almost frantic pace of briefings-Guatemala, Burma, Algeria, East Timor, Turkey—it matters not the range of countries or even issues, all these countries are covered in a week, with recognized experts or with the activists who are on the front line of these issues! But the Caucus does not cover only countries in the headlines but countries and peoples forgotten by the glare of CNN. The Caucus is here to ensure that human rights around the world remain a focal point for congressional activity-even when Congress gets caught up in other business. And for that, we salute you.

But Chairman Porter has gone beyond the Caucus in his pursuit of human rights. When Native American leaders converged on Washington earlier this year to call for the release of Leonard Peltier, they found a receptive ear in Chairman Porter who posted an important briefing in which we in Amnesty International were honored to participate. When the Turkish government has gone on a public relations offensive, or when the Administration despite its wiser counsel had decided to pursue arms transfers to that NATO ally, it is Chairman Porter who has been publicly on the side of human rights.

In 1995, at a briefing organized by the Congressional Human Rights Caucus, when Nigeria was suffering under the oppression of the late dictator Sani Abacha, Chairman Porter was one of few voices calling Abacha what he was—a dictator—and one of the lone voices blasting the Administration's policy.

And of course we cannot talk about the Chairman without talking about Kathryn Porter, a human rights activist in her own right. While her work on behalf of the Kurdish people and Afghani women is widely recognized and celebrated, we also remember the singular courage she exhibited when she spent time with Jennifer Harbury in Guatemala, on a lonely stretch of rural road outside an Army base.

While a politician might boast of the state dinners he or she has attended, Chairman Porter attended a "stateless" dinner on behalf of Chinese dissidents. While politics is well tuned to the powerful and the popular, Chairman Porter has stood by the underdogs, supporting the rights of religious and ethnic minorities throughout the world, including the Armenians and the Ba'hais. While many in Congress have shunned the challenge of confronting the violations by powerful allies such as Saudi Arabia, Chairman Porter seems to embrace such opportunities. While governments and their representatives tend to have relationships with other governments, we can safely say that Chairman Porter has built relationships with peoples.

We in Amnesty International USA with its 30,000 members in the United States and more than a million members worldwide can say that we are greatful people for your lead, if I want my staff not to kill me, that your staff has also been fabulous, including Rachel Helfand, Karen Davis, Heidi Gasch, Katharine Fisher, Kelly Currie, and Jeanette Windon. We have grown to respect and rely on them as well.

Whether from your keynote speech at the Latin American Ambassadors Colloquium in 1991 or your steadfast support in issue after issue, you have always been there for us and for human rights, with integrity and principle that is second to none. Dear Chairman Porter, it's not just staffers who voted you number one Congressperson who will be missed most—we also read Washingtonian magazine—we too will miss you deeply.

Thank you sir for your wonderful example and contribution to human rights. You are a

real hero to us.

Mr. GILMAN. Mr. Speaker, I consider it a privilege to rise to honor the retirement of a colleague who has been an outstanding leader of this body.

I have had the opportunity to work with JOHN PORTER since he first came to this Chamber back in 1980. He brought with him honor to this job, and has shown great commitment and dedication to his country.

Prior to his election to Congress, JOHN practiced law and served in the Illinois House of Representatives for eight years. He brought with him a great deal of legislative experience and has shown a rich understanding of the legislative process. The leadership skills that have allowed him to accomplish so much are inspiring.

JOHN has accomplished a great deal while serving as Chairman of the Appropriations Subcommittee on Labor, Health and Human Services, and Education. He has diligently worked to allocate funds for family planning and for Medicaid.

JOHN has worked to revitalize involvement in the political process, trying to draw voters in, to take part in the legislative process. He has been an advocate for education. He has also worked tirelessly to increase spending on medical research, recognizing the need to find cures for many life-threatening diseases.

As Chairman of the International Relations Committee, I am pleased to note that JOHN PORTER co-founded the Congressional Human Rights Caucus, and has in that capacity worked to raise awareness of the injustices that have been occurring in other countries.

JOHN PORTER has been a reformer who has crossed party lines on many issues. He has earned the respect of his colleagues on both sides of the aisle. His courage, and his dedication to his constituents is to be commended.

To JOHN's wife, Kathryn, and their five children, we wish you all the best. I am sure you are as proud as we are of the many great years of service JOHN has given to his office, to his constituents, and to our nation.

JOHN PORTER has been a great asset to this body, having fought hard for the people of his Congressional district and our nation. We all wish JOHN good health and happiness in his retirement.

Mr. LIPINSKI. Mr. Speaker, I rise this evening to pay tribute to my friend and colleague, Chairman JOHN PORTER. JOHN PORTER is retiring from the U.S. House of Representatives after eleven impressive terms. Although I am sure that JOHN will continue to be active on issues such as health care, the environment, and human rights, his presence will be missed by the House of Representatives as a whole and by the Illinois delegation in particular.

As Chairman of the Labor, Health and Human Services and Education Appropriations Subcommittee, JOHN has been a tireless advocate of the Centers for Disease Control and

the National Institutes of Health. In fact, JOHN has worked to increase funding for the National Institutes of Health, with a goal of doubling spending from fiscal year 1997 to 2002. Because of JOHN's efforts, Congress is on track to meet this important goal. By increasing funding for biomedical research into effective treatments and possible cures for diabetes, cancer, AIDS, and other life-threatening diseases, JOHN is helping to save lives. He is also helping to save our nation billions of dollars in health care costs. This is a proud legacy to leave behind.

In addition, JOHN can be proud of his active involvement in protecting and promoting human rights around the world. JOHN is the founder and co-chairman of the Congressional Human Rights Caucus, a voluntary bipartisan association of Members of Congress working to identify, monitor and end human rights violations worldwide. I am proud to be one of the 250 Members of Congress who participate in this important caucus. JOHN cares deeply about the plight of the persecuted around the world and has regularly engaged in fasts and prayer vigils to bring needed national attention to the issue of human rights. Although JOHN's leadership and active participation will be sorely missed, the Congressional Human Rights Caucus will continue JOHN's crusade to protect and promote human rights around the globe. Again, this a proud legacy to leave behind.

Finally, although JOHN and I do not always agree on all issues, I have always admired his conservative stance on fiscal issues. I also consider myself a fiscal conservative and admire JOHN's unwavering commitment to eliminating deficits and balancing the federal budget. He should be proud that he is leaving Congress in an era of balanced budgets and record budget surpluses.

Again, although I am sure that JOHN will remain active on issues like health care, the environment, and human rights, he will be missed here in the House of Representatives. He has served his constituents and the nation well. I wish JOHN the best of luck in all of his future endeavors.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. PASCRELL (at the request of Mr. GEPHARDT) for today on account of official business.

Mr. STUPAK (at the request of Mr. GEPHARDT) for today on account of personal reasons.

AMENDMENTS

Under clause 8 of rule XVIII, proposed amendments were submitted as follows:

S. 2796

OFFERED BY: MR. SHUSTER

(Amendment in the Nature of a Substitute)

AMENDMENT No. 2: Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE: TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Water Resources Development Act of 2000"

(b) Table of Contents.—

Sec. 1. Short title; table of contents.

Sec. 2. Definition of Secretary.

TITLE I—WATER RESOURCES PROJECTS

Sec. 101. Project authorization.

Sec. 102. Small projects for flood damage reduction.

Sec. 103. Small project for bank stabilization.

Sec. 104. Small projects for navigation.

Sec. 105. Small project for improvement of the quality of the environment.

Sec. 106. Small projects for aquatic ecosystem restoration

Sec. 107. Small project for shoreline protection

Sec. 108. Small project for snagging and sediment removal.

Sec. 109. Petaluma River, Petaluma, California.

TITLE II—GENERAL PROVISIONS

Sec. 201. Cost sharing of certain flood damage reduction projects.

Sec. 202. Harbor cost sharing.

Sec. 203. Nonprofit entities.

Sec. 204. Rehabilitation of Federal flood control levees.

Sec. 205. Flood mitigation and riverine restoration program.

Sec. 206. Tribal partnership program.

Sec. 207. Native American reburial and transfer authority.

Sec. 208. Ability to pay.

Sec. 209. Interagency and international support authority.

Sec. 210. Property protection program.

Sec. 211. Engineering consulting services.

Sec. 212. Beach recreation.

Sec. 213. Performance of specialized or technical services.

Sec. 214. Design-build contracting.

Sec. 215. Independent review pilot program.

Sec. 216. Enhanced public participation.

Sec. 217. Monitoring. Sec. 218. Reconnaissance studies.

Sec. 219. Fish and wildlife mitigation.

Sec. 220. Wetlands mitigation.

Sec. 221. Credit toward non-Federal share of navigation projects.

Sec. 222. Maximum program expenditures for small flood control projects.

Sec. 223. Feasibility studies and planning, engineering, and design. Sec. 224. Administrative costs of land con-

vevances. Sec. 225. Dam safety.

TITLE III—PROJECT-RELATED PROVISIONS

Sec. 301. Nogales Wash and Tributaries, Nogales, Arizona.

Sec. 302. John Paul Hammerschmidt Visitor Center, Fort Smith, Arkansas.

Sec. 303. Greers Ferry Lake, Arkansas.

Sec. 304. Ten- and Fifteen-Mile Bayous, Arkansas.

Sec. 305. Cache Creek basin, California.

Sec. 306. Larkspur Ferry Channel, Larkspur, California.

- Sec. 307. Norco Bluffs, Riverside County, California.
- Sec. 308. Sacramento deep water ship channel, California.
- Sec. 309. Sacramento River, Glenn-Colusa, California.
- Sec. 310. Upper Guadalupe River, California.
- Sec. 311. Brevard County, Florida.
- Sec. 312. Fernandina Harbor, Florida.
- Sec. 313. Tampa Harbor, Florida.
- Sec. 314. East Saint Louis and vicinity, Illinois
- Sec. 315. Kaskaskia River, Kaskaskia, Illinois.
- Sec. 316. Waukegan Harbor, Illinois.
- Sec. 317. Cumberland, Kentucky.
- Sec. 318. Lock and Dam 10, Kentucky River, Kentucky.
- Sec. 319. Saint Joseph River, South Bend, Indiana.
- Sec. 320. Mayfield Creek and tributaries, Kentucky.
- Sec. 321. Amite River and tributaries, East Baton Rouge Parish, Louisiana.
- Sec. 322. Atchafalaya Basin Floodway System, Louisiana. Sec. 323. Atchafalaya River, Bayous Chene,
- Boeuf, and Black Louisiana. Sec. 324. Red River Waterway, Louisiana.
- Sec. 325. Thomaston Harbor, Georges River,
- Maine.
- Sec. 326. Breckenridge, Minnesota.
- Sec. 327. Duluth Harbor, Minnesota.
- Sec. 328. Little Falls, Minnesota.
- Sec. 329. Poplar Island, Maryland.
- Sec. 330. Green Brook Sub-Basin. Raritan River basin, New Jersey.
- Sec. 331. New York Harbor and adjacent channels, Port Jersey, New Jer-
- Sec. 332. Passaic River basin flood management, New Jersey.
- Sec. 333. Times Beach nature preserve, Buffalo, New York.
- Sec. 334. Garrison Dam, North Dakota.
- Sec. 335. Duck Creek, Ohio.
- Sec. 336. Astoria, Columbia River, Oregon.
- Sec. 337. Nonconnah Creek, Tennessee and Mississippi.
- Sec. 338. Bowie County levee, Texas.
- Sec. 339. San Antonio Channel, San Antonio, Texas.
- Sec. 340. Buchanan and Dickenson Counties, Virginia.
- Sec. 341. Buchanan, Dickenson, and Russell Counties, Virginia.
- Sec. 342. Sandbridge Beach, Virginia Beach, Virginia.
- Sec. 343. Wallops Island, Virginia. Sec. 344. Columbia River, Washington.
- Sec. 345. Mount St. Helens sediment control,
- Washington.
- Sec. 346. Renton, Washington.
- Sec. 347. Greenbrier Basin, West Virginia
- Sec. 348. Lower Mud River, Milton, West Virginia.
- Sec. 349. Water quality projects.
- Sec. 350. Project reauthorizations.
- Sec. 351. Continuation of project authorizations.
- Sec. 352. Declaration of nonnavigability for Lake Erie, New York.
- Sec. 353. Project deauthorizations.
- Sec. 354. Wyoming Valley, Pennsylvania.
- Sec. 355. Rehoboth Beach and Dewey Beach, Delaware.

TITLE IV—STUDIES

- Sec. 401. Studies of completed projects.
- Sec. 402. Watershed and river basin assessments.
- Sec. 403. Lower Mississippi River resource assessment.
- Sec. 404. Upper Mississippi River basin sediment and nutrient study.

- prehensive plan.
- Sec. 406. Ohio River System.
- Sec. 407. Eastern Arkansas.
- Sec. 408. Russell, Arkansas.
- Sec. 409. Estudillo Canal, San Leandro, California.
- Sec. 410. Laguna Creek, Fremont, California.
- Sec. 411. Lake Merritt, Oakland, California.
- Sec. 412. Lancaster, California.
- Sec. 413. Napa County, California.
- Sec. 414. Oceanside, California. Sec. 415. Suisun Marsh, California.
- Sec. 416. Lake Allatoona Watershed, Georgia.
- Sec. 417. Chicago River, Chicago, Illinois.
- Sec. 418. Chicago sanitary and ship canal system, Chicago, Illinois.
- Sec. 419. Long Lake, Indiana. Sec. 420. Brush and Rock Creeks, Mission Hills and Fairway, Kansas.
- Sec. 421. Coastal areas of Louisiana
- Sec. 422. Iberia Port, Louisiana.
- Sec. 423. Lake Pontchartrain seawall, Louisia.na.
- Sec. 424. Lower Atchafalaya basin, Lou-
- isiana. Sec. 425. St. John the Baptist Parish, Louisiana.
- Sec. 426. Las Vegas Valley, Nevada.
- Sec. 427. Southwest Valley, Albuquerque, New Mexico.
- Sec. 428. Buffalo Harbor, Buffalo, New York.
- Sec. 429. Hudson River, Manhattan, New York.
- Sec. 430. Jamesville Reservoir, Onondaga County, New York.
- Sec. 431. Steubenviille, Ohio.
- Sec. 432. Grand Lake, Oklahoma.
- Sec. 433. Columbia Slough, Oregon.
- Sec. 434. Reedy River, Greenville, South Carolina.
- Sec. 435. Germantown, Tennessee.
- Sec. 436. Houston ship channel, Galveston, Texas.
- Sec. 437. Park City, Utah.
- Sec. 438. Milwaukee, Wisconsin. Sec. 439. Upper Des Plaines River and tributaries, Illinois and Wisconsin.
- Sec. 440. Delaware River watershed.
- TITLE V-MISCELLANEOUS PROVISIONS
- Sec. 501. Bridgeport, Alabama.
- Sec. 502. Duck River, Cullman, Alabama.
- Sec. 503. Seward, Alaska.
- Sec. 504. Augusta and Devalls Bluff, Arkansas.

- Sec. 582. Release of use restriction.
- Sec. 583. Comprehensive environmental resources protection.
- Sec. 584. Modification of authorizations for environmental projects.
- Sec. 585. Land transfers.
- Sec. 586. Bruce F. Vento Unit of the Boundary Waters Canoe Area Wilderness, Minnesota.
- Sec. 587. Waurika Lake, Oklahoma.
- Sec. 588. Columbia River Treaty fishing access.
- Sec. 589. Devils Lake, North Dakota.
 TITLE VI—COMPREHENSIVE
 EVERGLADES RESTORATION
- Sec. 601. Comprehensive Everglades restoration plan.
- Sec. 602. Sense of Congress concerning Homestead Air Force Base.

TITLE VIII—MISSOURI RIVER RESTORATION

- Sec. 701. Definitions.
- Sec. 702. Missouri River Trust.
- Sec. 703. Missouri River Task Force.
- Sec. 704. Administration.
- Sec. 705. Authorization of appropriations.

SEC. 2. DEFINITION OF SECRETARY.

In this Act, the term "Secretary" means the Secretary of the Army.

TITLE I—WATER RESOURCES PROJECTS SEC. 101. PROJECT AUTHORIZATION.

- (a) PROJECTS WITH CHIEF'S REPORTS.—The following projects for water resources development and conservation and other purposes are authorized to be carried out by the Secretary substantially in accordance with the plans, and subject to the conditions, described in the respective reports designated in this subsection:
- (1) BARNEGAT INLET TO LITTLE EGG INLET, NEW JERSEY.—The project for hurricane and storm damage reduction, Barnegat Inlet to Little Egg Inlet, New Jersey: Report of the Chief of Engineers dated July 26, 2000, at a total cost of \$51,203,000, with an estimated Federal cost of \$33,282,000 and an estimated non-Federal cost of \$17,921,000.
- (2) PORT OF NEW YORK AND NEW JERSEY, NEW YORK AND NEW JERSEY.—

- (A) IN GENERAL.—The project for navigation, Port of New York and New Jersey, New York and New Jersey: Report of the Chief of Engineers dated May 2, 2000, at a total cost of \$1,781,235,000, with an estimated Federal cost of \$738,631,000 and an estimated non-Federal cost of \$1.042.604.000.
- (B) CREDIT.—The Secretary may provide the non-Federal interests credit toward cash contributions required—
- (i) before, during, and after construction for planning, engineering and design, and construction management work that is performed by the non-Federal interests and that the Secretary determines is necessary to implement the project; and
- (ii) during and after construction for the costs of the construction that the non-Federal interests carry out on behalf of the Secretary and that the Secretary determines is necessary to implement the project.
- (b) PROJECTS SUBJECT TO FINAL REPORT.— The following projects for water resources development and conservation and other purposes are authorized to be carried out by the Secretary substantially in accordance with the plans, and subject the conditions, recommended in a final report of the Chief of Engineers if a favorable report of the Chief is completed not later than December 31, 2000:
- (1) FALSE PASS HARBOR, ALASKA.—The project for navigation, False Pass Harbor, Alaska, at a total cost of \$15,164,000, with an estimated Federal cost of \$8,238,000 and an estimated non-Federal cost of \$6,926.000.
- (2) UNALASKA HARBOR, ALASKA.—The project for navigation, Unalska Harbor, Alaska, at a total cost of \$20,000,000, with an estimated Federal cost of \$12,000,000 and an estimated non-Federal cost of \$8,000,000.
- (3) RIO DE FLAG, FLAGSTAFF, ARIZONA.—The project for flood damage reduction, Rio de Flag, Flagstaff, Arizona, at a total cost of \$24,072,000, with an estimated Federal cost of \$15,576,000 and an estimated non-Federal cost of \$8,496,000.
- (4) TRES RIOS, ARIZONA.—The project ecosystem restoration, Tres Rios, Arizona, at a total cost of \$99,320,000, with an estimated Federal cost of \$62,755,000 and an estimated non-Federal cost of \$36,565,000.
- (5) Los angeles harbor, california.—The project for navigation, Los Angeles Harbor, California, at a total cost of \$153,313,000, with an estimated Federal cost of \$43,735,000 and an estimated non-Federal cost of \$109,578,000.
- (6) MURRIETTA CREEK, CALIFORNIA.—The project for flood damage reduction and ecosystem restoration, Murrietta Creek, California, described as alternative 6, based on the District Engineer's Murrietta Creek feasibility report and environmental impact statement dated October 2000, at a total cost of \$89,850,000, with an estimated Federal cost of \$57,735,000 and an estimated non-Federal cost of \$32,115,000. The locally preferred plan described as alternative 6 shall be treated as a final favorable report of the Chief Engineer's for purposes of this subsection.
- (7) SANTA BARBARA STREAMS, LOWER MISSION CREEK, CALIFORNIA.—The project for flood damage reduction, Santa Barbara streams, Lower Mission Creek, California, at a total cost of \$18,300,000, with an estimated Federal cost of \$9,200,000 and an estimated non-Federal cost of \$9,100,000.
- (8) UPPER NEWPORT BAY, CALIFORNIA.—The project for ecosystem restoration, Upper Newport Bay, California, at a total cost of \$32,475,000, with an estimated Federal cost of \$21,109,000 and an estimated non-Federal cost of \$11,366,000.
- (9) WHITEWATER RIVER BASIN, CALIFORNIA.—
 The project for flood damage reduction.

- Whitewater River basin, California, at a total cost of \$27,570,000, with an estimated Federal cost of \$17,920,000 and an estimated non-Federal cost of \$9,650,000.
- (10) DELAWARE COAST FROM CAPE HENLOPEN TO FENWICK ISLAND.—The project for hurricane and storm damage reduction, Delaware Coast from Cape Henlopen to Fenwick Island, at a total cost of \$5,633,000, with an estimated Federal cost of \$3,661,000 and an estimated non-Federal cost of \$1,972,000.
- (11) PORT SUTTON, FLORIDA.—The project for navigation, Port Sutton, Florida, at a total cost of \$6,000,000, with an estimated Federal cost of \$4,000,000 and an estimated non-Federal cost of \$2,000,000.
- (12) Barbers Point Harbor, Hawaii.—The project for navigation, Barbers Point Harbor, Hawaii, at a total cost of \$30,003,000, with an estimated Federal cost of \$18,524,000 and an estimated non-Federal cost of \$11,479,000.
- (13) JOHN MYERS LOCK AND DAM, INDIANA AND KENTUCKY.—The project for navigation, John Myers Lock and Dam, Indiana and Kentucky, at a total cost of \$182,000,000. The costs of construction of the project shall be paid ½ from amounts appropriated from the general fund of the Treasury and ½ from amounts appropriated from the Inland Waterways Trust Fund.
- (14) GREENUP LOCK AND DAM, KENTUCKY AND OHIO.—The project for navigation, Greenup Lock and Dam, Kentucky and Ohio, at a total cost of \$175,000,000. The costs of construction of the project shall be paid ½ from amounts appropriated from the general fund of the Treasury and ½ from amounts appropriated from the Inland Waterways Trust Fund.
- (15) OHIO RIVER MAINSTEM, KENTUCKY, ILLINOIS, INDIANA, OHIO, PENNSYLVANIA, AND WEST VIRGINIA.—Projects for ecosystem restoration, Ohio River Mainstem, Kentucky, Illinois, Indiana, Ohio, Pennsylvania, and West Virginia, at a total cost of \$307,700,000, with an estimated Federal cost of \$200,000,000 and an estimated non-Federal cost of \$107,700,000.
- (16) MONARCH-CHESTERFIELD, MISSOURI.— The project for flood damage reduction, Monarch-Chesterfield, Missouri, at a total cost of \$67,700,000, with an estimated Federal cost of \$44,000,000 and an estimated non-Federal cost of \$23,700,000.
- (17) ANTELOPE CREEK, LINCOLN, NEBRASKA.—The project for flood damage reduction, Antelope Creek, Lincoln, Nebraska, at a total cost of \$49,788,000, with an estimated Federal cost of \$24,894,000 and an estimated non-Federal cost of \$24,894,000.
- (18) SAND CREEK WATERSHED, WAHOO, NEBRASKA.—The project for ecosystem restoration and flood damage reduction, Sand Creek watershed, Wahoo, Nebraska, at a total cost of \$29,212,000, with an estimated Federal cost of \$17,586,000 and an estimated non-Federal cost of \$11,626,000.
- (19) WESTERN SARPY AND CLEAR CREEK, NEBRASKA.—The project for flood damage reduction, Western Sarpy and Clear Creek, Nebraska, at a total cost of \$20,600,000, with an estimated Federal cost of \$13,390,000 and an estimated non-Federal cost of \$7,210,000.
- (20) RARITAN BAY AND SANDY HOOK BAY, CLIFFWOOD BEACH, NEW JERSEY.—The project for hurricane and storm damage reduction, Raritan Bay and Sandy Hook Bay, Cliffwood Beach, New Jersey, at a total cost of \$5,219,000, with an estimated Federal cost of \$3,392,000 and an estimated non-Federal cost of \$1,827,000.
- (21) RARITAN BAY AND SANDY HOOK BAY, PORT MONMOUTH, NEW JERSEY.—The project for hurricane and storm damage reduction, Raritan Bay and Sandy Hook Bay, Port Monmouth, New Jersey, at a total cost of

- \$32,064,000, with an estimated Federal cost of \$20,842,000 and an estimated non-Federal cost of \$11,222,000.
- (22) DARE COUNTY BEACHES, NORTH CAROLINA.—The project for hurricane and storm damage reduction, Dare County beaches, North Carolina, at a total cost of \$69,518,000, with an estimated Federal cost of \$49,846,000 and an estimated non-Federal cost of \$19,672,000.
- (23) WOLF RIVER, TENNESSEE.—The project for ecosystem restoration, Wolf River, Tennessee, at a total cost of \$10,933,000, with an estimated Federal cost of \$7,106,000 and an estimated non-Federal cost of \$3,827,000.
- (24) DUWAMISH/GREEN, WASHINGTON.—The project for ecosystem restoration, Duwamish/Green, Washington, at a total cost of \$115,879,000, with an estimated Federal cost of \$75,322,000 and an estimated non-Federal cost of \$40,557,000.
- (25) STILLAGUMAISH RIVER BASIN, WASH-INGTON.—The project for ecosystem restoration, Stillagumaish River basin, Washington, at a total cost of \$24,223,000, with an estimated Federal cost of \$16,097,000 and an estimated non-Federal cost of \$8,126,000.
- (26) JACKSON HOLE, WYOMING.—The project for ecosystem restoration, Jackson Hole, Wyoming, at a total cost of \$52,242,000, with an estimated Federal cost of \$33,957,000 and an estimated non-Federal cost of \$18,285,000. SEC. 102. SMALL PROJECTS FOR FLOOD DAMAGE REDUCTION.
- (a) IN GENERAL.—The Secretary shall conduct a study for each of the following projects and, if the Secretary determines that a project is feasible, may carry out the project under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s):
- (1) BUFFALO ISLAND, ARKANSAS.—Project for flood damage reduction, Buffalo Island, Arkansas.
- (2) ANAVERDE CREEK, PALMDALE, CALIFORNIA.—Project for flood damage reduction, Anaverde Creek, Palmdale, California.
- (3) CASTAIC CREEK, OLD ROAD BRIDGE, SANTA CLARITA, CALIFORNIA.—Project for flood damage reduction, Castaic Creek, Old Road bridge, Santa Clarita, California.
- (4) SANTA CLARA RIVER, OLD ROAD BRIDGE, SANTA CLARITA, CALIFORNIA.—Project for flood damage reduction, Santa Clara River, Old Road bridge, Santa Clarita, California.
- (5) COLUMBIA LEVEE, COLUMBIA, ILLINOIS.— Project for flood damage reduction, Columbia Levee, Columbia, Illinois.
- (6) East-West creek, riverton, IlLinois.— Project for flood damage reduction, East-West Creek, Riverton, Illinois.
- (7) PRAIRIE DU PONT, ILLINOIS.—Project for flood damage reduction, Prairie Du Pont, Illinois.
- (8) MONROE COUNTY, ILLINOIS.—Project for flood damage reduction, Monroe County, Illinois.
- (9) WILLOW CREEK, MEREDOSIA, ILLINOIS.— Project for flood damage reduction, Willow Creek, Meredosia, Illinois.
- (10) DYKES BRANCH CHANNEL, LEAWOOD, KANSAS.—Project for flood damage reduction, Dykes Branch channel improvements, Leawood, Kansas.
- (11) DYKES BRANCH TRIBUTARIES, LEAWOOD, KANSAS.—Project for flood damage reduction, Dykes Branch tributary improvements, Leawood, Kansas.
- (12) KENTUCKY RIVER, FRANKFORT, KENTUCKY.—Project for flood damage reduction, Kentucky River, Frankfort, Kentucky.
- (13) LAKES MAUREPAS AND PONTCHARTRAIN CANALS, ST. JOHN THE BAPTIST PARISH, LOUISIANA.—Project for flood damage reduction, Lakes Maurepas and Pontchartrain Canals, St. John the Baptist Parish, Louisiana.

- (14) PENNSVILLE TOWNSHIP, SALEM COUNTY, NEW JERSEY.—The project for flood damage reduction, Pennsville Township, Salem County. New Jersey.
- (15) HEMPSTEAD, NEW YORK.—Project for flood damage reduction, Hempstead, New York.
- (16) HIGHLAND BROOK, HIGHLAND FALLS, NEW YORK.—Project for flood damage reduction, Highland Brook, Highland Falls, New York.
- (17) LAFAYETTE TOWNSHIP, OHIO.—Project for flood damage reduction, Lafayette Township, Ohio.
- (18) West Lafayette, Ohio.—Project for flood damage reduction, West Lafayette, Ohio
- (19) BEAR CREEK AND TRIBUTARIES, MED-FORD, OREGON.—Project for flood damage reduction, Bear Creek and tributaries, Medford, Oregon.
- (20) DELAWARE CANAL AND BROCK CREEK, YARDLEY BOROUGH, PENNSYLVANIA.—Project for flood damage reduction, Delaware Canal and Brock Creek, Yardley Borough, Pennsylvania
- (21) FIRST CREEK, FOUNTAIN CITY, KNOX-VILLE, TENNESSEE.—Project for flood damage reduction, First Creek, Fountain City, Knoxville. Tennessee.
- (22) MISSISSIPPI RIVER, RIDGELY, TENNESSEE.—Project for flood damage reduction, Mississippi River, Ridgely, Tennessee.
- (b) Magpie Creek, Sacramento County, California.—In formulating the project for Magpie Creek, California, authorized by section 102(a)(4) of the Water Resources Development Act of 1999 (113 Stat. 281) to be carried out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s), the Secretary shall consider benefits from the full utilization of existing improvements at McClellan Air Force Base that would result from the project after conversion of the base to civilian use.

SEC. 103. SMALL PROJECTS FOR BANK STA-BILIZATION.

- The Secretary shall conduct a study for each of the following projects and, if the Secretary determines that a project is feasible, may carry out the project under section 14 of the Flood Control Act of 1946 (33 U.S.C. 701r):
- (1) MAUMEE RIVER, FORT WAYNE, INDIANA.—Project for bank stabilization, Maumee River, Fort Wayne, Indiana.
- (2) BAYOU SORRELL, IBERVILLE PARISH, LOU-ISIANA.—Project for bank stabilization, Bayou Sorrell, Iberville Parish, Louisiana.

SEC. 104. SMALL PROJECTS FOR NAVIGATION.

- The Secretary shall conduct a study for each of the following projects and, if the Secretary determines that a project is feasible, may carry out the project under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577):
- (1) WHITTIER, ALASKA.—Project for navigation, Whittier, Alaska.
- (2) CAPE CORAL, FLORIDA.—Project for navigation, Cape Coral, Florida.
- (3) EAST TWO LAKES, TOWER, MINNESOTA.—Project for navigation, East Two Lakes, Tower, Minnesota.
- (4) ERIE BASIN MARINA, BUFFALO, NEW YORK.—Project for navigation, Erie Basin marina, Buffalo, New York.
- (5) LAKE MICHIGAN, LAKESHORE STATE PARK, MILWAUKEE, WISCONSIN.—Project for navigation, Lake Michigan, Lakeshore State Park, Milwaukee, Wisconsin.
- (6) SAXON HARBOR, FRANCIS, WISCONSIN.— Project for navigation, Saxon Harbor, Francis, Wisconsin.

SEC. 105. SMALL PROJECT FOR IMPROVEMENT OF THE QUALITY OF THE ENVIRONMENT.

The Secretary shall conduct a study for a project for improvement of the quality of the environment, Nahant Marsh, Davenport, Iowa, and, if the Secretary determines that the project is appropriate, may carry out the project under section 1135(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2309a(a)).

SEC. 106. SMALL PROJECTS FOR AQUATIC ECO-SYSTEM RESTORATION.

The Secretary shall conduct a study for each of the following projects and, if the Secretary determines that a project is appropriate, may carry out the project under section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2330):

- (1) ARKANSAS RIVER, PUEBLO, COLORADO.— Project for aquatic ecosystem restoration, Arkansas River, Pueblo, Colorado.
- (2) HAYDEN DIVERSION PROJECT, YAMPA RIVER, COLORADO.—Project for aquatic ecosystem restoration, Hayden Diversion Project, Yampa River, Colorado.
- (3) LITTLE ECONLOCKHATCHEE RIVER BASIN, FLORIDA.—Project for aquatic ecosystem restoration, Little Econlockhatchee River basin, Florida.
- (4) LOXAHATCHEE SLOUGH, PALM BEACH COUNTY, FLORIDA.—Project for aquatic ecosystem restoration, Loxahatchee Slough, Palm Beach County, Florida.
- (5) STEVENSON CREEK ESTUARY, FLORIDA.— Project for aquatic ecosystem restoration, Stevenson Creek estuary, Florida.
- (6) CHOUTEAU ISLAND, MADISON COUNTY, ILLI-NOIS.—Project for aquatic ecosystem restoration, Chouteau Island, Madison County, Illinois.
- (7) SAGINAW BAY, BAY CITY, MICHIGAN.— Project for aquatic ecosystem restoration, Saginaw Bay, Bay City, Michigan.
- (8) RAINWATER BASIN, NEBRASKA.—Project for aquatic ecosystem restoration, Rainwater Basin, Nebraska.
- (9) CAZENOVIA LAKE, MADISON COUNTY, NEW YORK.—Project for aquatic ecosystem restoration, Cazenovia Lake, Madison County, New York, including efforts to address aquatic invasive plant species.
- (10) CHENANGO LAKE, CHENANGO COUNTY, NEW YORK.—Project for aquatic ecosystem restoration, Chenango Lake, Chenango County, New York, including efforts to address aquatic invasive plant species.
- (11) Eagle Lake, New York.—Project for aquatic ecosystem restoration, Eagle Lake, New York.
- (12) Ossining, New York.—Project for aquatic ecosystem restoration, Ossining, New York.
- (13) SARATOGA LAKE, NEW YORK.—Project for aquatic ecosystem restoration, Saratoga Lake, New York.
- (14) SCHROON LAKE, NEW YORK.—Project for aquatic ecosystem restoration, Schroon Lake, New York.
- (15) MIDDLE CUYAHOGA RIVER.—Project for aquatic ecosystem restoration, Middle Cuyahoga River, Kent, Ohio.
- (16) CENTRAL AMAZON CREEK, EUGENE, OR-EGON.—Project for aquatic ecosystem restoration, Central Amazon Creek, Eugene, Oregon.
- (17) EUGENE MILLRACE, EUGENE, OREGON.— Project for aquatic ecosystem restoration, Eugene Millrace, Eugene, Oregon.
- (18) LONE PINE AND LAZY CREEKS, MEDFORD, OREGON.—Project for aquatic ecosystem restoration, Lone Pine and Lazy Creeks, Medford, Oregon.

(19) TULLYTOWN BOROUGH, PENNSYLVANIA.—Project for aquatic ecosystem restoration, Tullytown Borough, Pennsylvania.

SEC. 107. SMALL PROJECT FOR SHORELINE PRO-TECTION.

The Secretary shall conduct a study for a project for shoreline protection, Hudson River, Dutchess County, New York, and, if the Secretary determines that the project is feasible, may carry out the project under section 3 of the Act entitled "An Act authorizing Federal participation in the cost of protecting the shores of publicly owned property", approved August 13, 1946 (33 U.S.C. 426g; 60 Stat. 1056).

SEC. 108. SMALL PROJECT FOR SNAGGING AND SEDIMENT REMOVAL.

The Secretary shall conduct a study for a project for clearing, snagging, and sediment removal, Sangamon River and tributaries, Riverton, Illinois. If the Secretary determines that the project is feasible, the Secretary may carry out the project under secretary may carry out the project under section 2 of the Flood Control Act of August 28, 1937 (50 Stat. 177).

SEC. 109. PETALUMA RIVER, PETALUMA, CALIFORNIA.

- (a) IN GENERAL.—The Secretary shall carry out the Petaluma River project, at the city of Petaluma, Sonoma County, California, to provide a 100-year level of flood protection to the city in accordance with the detailed project report of the San Francisco District Engineer, dated March 1995, at a total cost of \$32,227,000.
- (b) Cost Sharing.—Cost sharing for the project shall be determined in accordance with section 103(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2213(a)), as in effect on October 11, 1996.
- (c) REIMBURSEMENT.—The Secretary shall reimburse the non-Federal sponsor for any project costs that the non-Federal sponsor has incurred in excess of the non-Federal share of project costs, regardless of the date such costs were incurred.

TITLE II—GENERAL PROVISIONS

SEC. 201. COST SHARING OF CERTAIN FLOOD DAMAGE REDUCTION PROJECTS.

Section 103 of the Water Resources Development Act of 1986 (33 U.S.C. 2213) is amended by adding at the end the following:

"(n) LEVEL OF FLOOD PROTECTION .-Secretary determines that it is technically sound, environmentally acceptable, and economically justified, to construct a flood control project for an area using an alternative that will afford a level of flood protection sufficient for the area not to qualify as an area having special flood hazards for the purposes of the national flood insurance program under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Secretary, at the request of the non-Federal interest, shall recommend the project using the alternative. The non-Federal share of the cost of the project assigned to providing the minimum amount of flood protection required for the area not to qualify as an area having special flood hazards shall be determined under subsections (a) and (b).

SEC. 202. HARBOR COST SHARING.

- (a) IN GENERAL.—Sections 101 and 214 of the Water Resources Development Act of 1986 (33 U.S.C. 2211 and 2241; 100 Stat. 4082–4084 and 4108–4109) are each amended by striking "45 feet" each place it appears and inserting "53 feet".
- (b) APPLICABILITY.—The amendments made by subsection (a) shall apply only to a project, or separable element of a project, on which a contract for physical construction has not been awarded before the date of enactment of this Act.

SEC. 203. NONPROFIT ENTITIES.

- (a) ENVIRONMENTAL DREDGING.—Section 312 of the Water Resources Development Act of 1990 (33 U.S.C. 1272) is amended by adding at the end the following:
- "(g) Nonprofit Entities.—Notwithstanding section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b), a non-Federal sponsor for any project carried out under this section may include a nonprofit entity, with the consent of the affected local government."
- (b) PROJECT MODIFICATIONS FOR IMPROVEMENT OF ENVIRONMENT.—Section 1135 of the Water Resources Development Act of 1986 (38 U.S.C. 2309a) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following:
- "(e) Nonprofit Entities.—Notwithstanding section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b), a non-Federal sponsor for any project carried out under this section may include a nonprofit entity, with the consent of the affected local government."
- (c) LAKES PROGRAM.—Section 602 of the Water Resources Development Act of 1986 (100 Stat. 4148-4149) is amended by redesignating subsection (d) as subsection (e) and by inserting after subsection (c) the following:
- "(d) Nonprofit Entities.—Notwithstanding section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b), a non-Federal sponsor for any project carried out under this section may include a nonprofit entity, with the consent of the affected local government."

SEC. 204. REHABILITATION OF FEDERAL FLOOD CONTROL LEVEES.

Section 110(e) of the Water Resources Development Act of 1990 (104 Stat. 4622) is amended by striking "1992," and all that follows through "1996" and inserting "2001 through 2005".

SEC. 205. FLOOD MITIGATION AND RIVERINE RESTORATION PROGRAM.

Section 212(e) of the Water Resources Development Act of 1999 (33 U.S.C. 2332(e)) is amended—

- (1) by striking "and" at the end of paragraph (22);
- (2) by striking the period at end of paragraph (23) and inserting a semicolon;
- (3) by adding at the end the following:
- "(24) Lester, St. Louis, East Savanna, and Floodwood Rivers, Duluth, Minnesota;
- "(25) Lower Hudson River and tributaries, New York;
- "(26) Susquehanna River watershed, Bradford County, Pennsylvania; and
- "(27) Clear Creek, Harris, Galveston, and Brazoria Counties. Texas.".

SEC. 206. TRIBAL PARTNERSHIP PROGRAM.

- (a) IN GENERAL.—The Secretary is authorized, in cooperation with Indian tribes and other Federal agencies, to study and determine the feasibility of implementing water resources development projects that will substantially benefit Indian tribes, and are located primarily within Indian country (as defined in section 1151 of title 18, United States Code), or in proximity to an Alaska Native village (as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)).
- (b) CONSULTATION AND COORDINATION.—The Secretary shall consult with the Secretary of the Interior on studies conducted under this section.
- (c) CREDITS.—For any study conducted under this section, the Secretary may provide credit to the Indian tribe for services, studies, supplies, and other in-kind consideration where the Secretary determines that

such services, studies, supplies, and other inkind consideration will facilitate completion of the study. In no event shall such credit exceed the Indian tribe's required share of the cost of the study.

- (d) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2002 through 2006. Not more than \$1,000,000 appropriated to carry out this section for a fiscal year may be used to substantially benefit any one Indian tribe.
- (e) Indian Tribe Defined.—In this section, the term "Indian tribe" means any tribe, band, nation, or other organized group or community of Indians, including any Alaska Native village, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

SEC. 207. NATIVE AMERICAN REBURIAL AND TRANSFER AUTHORITY.

- (a) IN GENERAL.—The Secretary, in consultation with appropriate Indian tribes, may identify and set aside land at civil works projects managed by the Secretary for use as a cemetery for the remains of Native Americans that have been discovered on project lands and that have been rightfully claimed by a lineal descendant or Indian tribe in accordance with applicable Federal law. The Secretary, in consultation with and with the consent of the lineal descendant or Indian tribe, may recover and rebury the remains at such cemetery at Federal expense.
- (b) TRANSFER AUTHORITY.—Notwithstanding any other provision of law, the Secretary may transfer to an Indian tribe land identified and set aside by the Secretary under subsection (a) for use as a cemetery. The Secretary shall retain any necessary rights-of-way, easements, or other property interests that the Secretary determines necessary to carry out the purpose of the project.
- (c) DEFINITIONS.—In this section, the terms "Indian tribe" and "Native American" have the meaning such terms have under section 2 of the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001).

SEC. 208. ABILITY TO PAY.

Section 103(m) of the Water Resources Development Act of 1986 (33 U.S.C. 2213(m)) is amended—

- (1) by striking paragraphs (1) and (2) and inserting the following:
- "(1) IN GENERAL.—Any cost-sharing agreement under this section for construction of an environmental protection and restoration, flood control, or agricultural water supply project shall be subject to the ability of a non-Federal interest to pay.
- "(2) CRITERIA AND PROCEDURES.—The ability of a non-Federal interest to pay shall be determined by the Secretary in accordance with criteria and procedures in effect under paragraph (3) on the day before the date of enactment of the Water Resources Development Act of 2000; except that such criteria and procedures shall be revised, and new criteria and procedures shall be developed, within 180 days after such date of enactment to reflect the requirements of such paragraph (3)."; and
 - (2) in paragraph (3)—
- (A) by inserting "and" after the semicolon at the end of subparagraph (A)(ii);
- (B) by striking subparagraph (B); and
- (C) by redesignating subparagraph (C) as subparagraph (B).

SEC. 209. INTERAGENCY AND INTERNATIONAL SUPPORT AUTHORITY.

The first sentence of section 234(d) of the Water Resources Development Act of 1996 (33

U.S.C. 2323a(d)) is amended to read as follows: "There is authorized to be appropriated to carry out this section \$250,000 per fiscal year for fiscal years beginning after September 30, 2000."

SEC. 210. PROPERTY PROTECTION PROGRAM.

- (a) IN GENERAL.—The Secretary is authorized to implement a program to reduce vandalism and destruction of property at water resources development projects under the jurisdiction of the Department of the Army. In carrying out the program, the Secretary may provide rewards to individuals who provide information or evidence leading to the arrest and prosecution of individuals causing damage to Federal property, including the payment of cash rewards.
- (b) REPORT.—Not later than 4 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report on the results of the program.
- (c) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$500,000 per fiscal year for fiscal years beginning after September 30,

SEC. 211. ENGINEERING CONSULTING SERVICES.

In conducting a feasibility study for a water resources project, the Secretary, to the maximum extent practicable, should not employ a person for engineering and consulting services if the same person is also employed by the non-Federal interest for such services unless there is only 1 qualified and responsive bidder for such services.

SEC. 212. BEACH RECREATION.

- (a) IN GENERAL.—In studying the feasibility of and making recommendations concerning potential beach restoration projects, the Secretary may not implement any policy that has the effect of disadvantaging any such project solely because 50 percent or more of its benefits are recreational in nature.
- (b) PROCEDURES FOR CONSIDERATION AND REPORTING OF BENEFITS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall develop and implement procedures to ensure that all of the benefits of a beach restoration project, including those benefits attributable to recreation, hurricane and storm damage reduction, and environmental protection and restoration, are adequately considered and displayed in reports for such projects.

SEC. 213. PERFORMANCE OF SPECIALIZED OR TECHNICAL SERVICES.

- (a) IN GENERAL.—Before entering into an agreement to perform specialized or technical services for a State (including the District of Columbia), a territory, or a local government of a State or territory under section 6505 of title 31, United States Code, the Secretary shall certify that—
- (1) the services requested are not reasonably and expeditiously available through ordinary business channels; and
- (2) the Corps of Engineers is especially equipped to perform such services.
- (b) SUPPORTING MATERIALS.—The Secretary shall develop materials supporting such certification under subsection (a).
- (c) Annual Report to Congress.—
- (1) IN GENERAL.—Not later than December 31 of each calendar year, the Secretary shall transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the requests described in subsection (a) that the Secretary received during such calendar year.
- (2) CONTENTS.—With respect to each request, the report transmitted under para-

- graph (1) shall include a copy of the certification and supporting materials developed under this section and information on each of the following:
 - (A) The scope of services requested.
 - (B) The status of the request.
- (C) The estimated and final cost of the requested services.
- (D) Each district and division office of the Corps of Engineers that has supplied or will supply the requested services.
- (E) The number of personnel of the Corps of Engineers that have performed or will perform any of the requested services.
- (F) The status of any reimbursement.

SEC. 214. DESIGN-BUILD CONTRACTING.

- (a) PILOT PROGRAM.—The Secretary may conduct a pilot program consisting of not more than 5 projects to test the design-build method of project delivery on various civil engineering projects of the Corps of Engineers, including levees, pumping plants, revetments, dikes, dredging, weirs, dams, retaining walls, generation facilities, mattress laying, recreation facilities, and other water resources facilities.
- (b) DESIGN-BUILD DEFINED.—In this section, the term "design-build" means an agreement between the Federal Government and a contractor that provides for both the design and construction of a project by a single contract.
- (c) REPORT.—Not later than 2 years after the date of enactment of this section, the Secretary shall report on the results of the pilot program.

SEC. 215. INDEPENDENT REVIEW PILOT PROGRAM.

Title IX of the Water Resources Development Act of 1986 (100 Stat. 4183 et seq.) is amended by adding at the end the following: "SEC. 952. INDEPENDENT REVIEW PILOT PROGRAM.

- "(a) Projects Subject to Independent Review.—The Secretary shall undertake a pilot program in fiscal years 2001 through 2003 to determine the practicality and efficacy of having feasibility reports of the Corps of Engineers for eligible projects reviewed by an independent panel of experts. The pilot program shall be limited to the establishment of panels for not to exceed 5 eligible projects.
 - "(b) ESTABLISHMENT OF PANELS.-
- "(1) IN GENERAL.—The Secretary shall establish a panel of experts for an eligible project under this section upon identification of a preferred alternative in the development of the feasibility report.
- "(2) MEMBERSHIP.—A panel established under this section shall be composed of not less than 5 and not more than 9 independent experts who represent a balance of areas of expertise, including biologists, engineers, and economists.
- "(3) LIMITATION ON APPOINTMENTS.—The Secretary shall not appoint an individual to serve on a panel of experts for a project under this section if the individual has a financial interest in the project or has with any organization a professional relationship that the Secretary determines may constitute a conflict of interest or the appearance of impropriety.
- "(4) CONSULTATION.—The Secretary shall consult the National Academy of Sciences in developing lists of individuals to serve on panels of experts under this section.
- "(5) COMPENSATION.—An individual serving on a panel of experts under this section may not be compensated but may receive travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5, United States Code.

- "(c) DUTIES OF PANELS.—A panel of experts established for a project under this section shall—
- "(1) review feasibility reports prepared for the project after the identification of a preferred alternative:
- "(2) receive written and oral comments of a technical nature concerning the project from the public; and
- "(3) transmit to the Secretary an evaluation containing the panel's economic, engineering, and environmental analyses of the project, including the panel's conclusions on the feasibility report, with particular emphasis on areas of public controversy.
- "(d) DURATION OF PROJECT REVIEWS.—A panel of experts shall complete its review of a feasibility report for an eligible project and transmit a report containing its evaluation of the project to the Secretary not later than 180 days after the date of establishment of the panel.
- "(e) RECOMMENDATIONS OF PANEL.—After receiving a timely report on a project from a panel of experts under this section, the Secretary shall—
- "(1) consider any recommendations contained in the evaluation;
- "(2) make the evaluation available for public review; and
- "(3) include a copy of the evaluation in any report transmitted to Congress concerning the project.
- "(f) Costs.—The cost of conducting a review of a project under this section shall not exceed \$250,000 and shall be a Federal expense.
- "(g) REPORT.—Not later than December 31, 2003, the Secretary shall transmit to Congress a report on the results of the pilot program together with the recommendations of the Secretary regarding continuation, expansion, and modification of the pilot program, including an assessment of the impact that a peer review program would have on the overall cost and length of project analyses and reviews associated with feasibility reports and an assessment of the benefits of peer review.
- "
 (h) ELIGIBLE PROJECT DEFINED.—In this section, the term 'eligible project' means—
- "(1) a water resources project that has an estimated total cost of more than \$25,000,000, including mitigation costs; and
 - "(2) a water resources project—
- "(A) that has an estimated total cost of \$25,000,000 or less, including mitigation costs; and
- "(B)(i) that the Secretary determines is subject to a substantial degree of public controversy; or
- "(ii) to which an affected State objects.".

SEC. 216. ENHANCED PUBLIC PARTICIPATION.

- (a) IN GENERAL.—Section 905 of the Water Resources Development Act of 1986 (33 U.S.C. 2282) is amended by adding at the end the following:
 - "(e) ENHANCED PUBLIC PARTICIPATION.—
- "(1) IN GENERAL.—The Secretary shall establish procedures to enhance public participation in the development of each feasibility study under subsection (a), including, if appropriate, establishment of a stakeholder advisory group to assist the Secretary with the development of the study.
- "(2) MEMBERSHIP.—If the Secretary provides for the establishment of a stakeholder advisory group under this subsection, the membership of the advisory group shall include balanced representation of social, economic, and environmental interest groups, and such members shall serve on a voluntary, uncompensated basis.

"(3) LIMITATION.—Procedures established under this subsection shall not delay development of any feasibility study under subsection (a)."

SEC. 217. MONITORING.

- (a) IN GENERAL.—The Secretary shall conduct a monitoring program of the economic and environmental results of up to 5 eligible projects selected by the Secretary.
- (b) DURATION.—The monitoring of a project selected by the Secretary under this section shall be for a period of not less than 12 years beginning on the date of its selection.
- (c) REPORTS.—The Secretary shall transmit to Congress every 3 years a report on the performance of each project selected under this section.
- (d) ELIGIBLE WATER RESOURCES PROJECT DEFINED.—In this section, the term "eligible project" means a water resources project, or separable element thereof—
- (1) for which a contract for physical construction has not been awarded before the date of enactment of this Act:
- (2) that has a total cost of more than \$25.000.000; and
- (3)(A) that has as a benefit-to-cost ratio of less than 1.5 to 1: or
- (B) that has significant environmental benefits or significant environmental mitigation components.
- (e) COSTS.—The cost of conducting monitoring under this section shall be a Federal expense.

SEC. 218. RECONNAISSANCE STUDIES.

Section 905(b) of the Water Resources Development Act of 1986 (33 U.S.C. 2282(b)) is amended—

- (1) in the second sentence by inserting after "environmental impacts" the following: "(including whether a proposed project is likely to have environmental impacts that cannot be successfully or cost-effectively mitigated)"; and
- (2) by inserting after the second sentence the following: "The Secretary shall not recommend that a feasibility study be conducted for a project based on a reconnaissance study if the Secretary determines that the project is likely to have environmental impacts that cannot be successfully or cost-effectively mitigated.".

SEC. 219. FISH AND WILDLIFE MITIGATION.

- (a) DESIGN OF MITIGATION PROJECTS.—Section 906(d) of the Water Resources Development Act of 1986 (33 U.S.C. 2283(a)) is amended—
- (1) by striking "(1)" and inserting "(A)"; and
- (2) by striking "(2)" and inserting "(B)";
- (3) by striking "(d) After the date" and inserting the following:
- "(d) MITIGATION PLANS AS PART OF PROJECT PROPOSALS.—
 - "(1) IN GENERAL.—After the date";
- (4) by adding at the end the following:
- "(2) DESIGN OF MITIGATION PROJECTS.—The Secretary shall design mitigation projects to reflect contemporary understanding of the science of mitigating the adverse environmental impacts of water resources projects.
- "(3) RECOMMENDATION OF PROJECTS.—The Secretary shall not recommend a water resources project unless the Secretary determines that the adverse impacts of the project on aquatic resources and fish and wildlife can be cost-effectively and successfully mitigated."; and
- (5) by aligning the remainder of the text of paragraph (1) (as designated by paragraph (3) of this subsection) with paragraph (2) (as added by paragraph (4) of this subsection).
- (b) CONCURRENT MITIGATION.—
- (1) INVESTIGATION.—The Comptroller General shall conduct an investigation of the ef-

- fectiveness of the concurrent mitigation requirements of section 906 of the Water Resources Development Act of 1986 (33 U.S.C. 2283). In conducting the investigation, the Comptroller General shall determine whether or not there are instances in which less than 50 percent of required mitigation is completed before initiation of project construction and the number of such instances.
- (2) REPORT.—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall transmit to Congress a report on the results of the investigation.

SEC. 220. WETLANDS MITIGATION.

In carrying out a water resources project that involves wetlands mitigation and that has an impact that occurs within the service area of a mitigation bank, the Secretary, to the maximum extent practicable and where appropriate, shall give preference to the use of the mitigation bank if the bank contains sufficient available credits to offset the impact and the bank is approved in accordance with the Federal Guidance for the Establishment, Use and Operation of Mitigation Banks (60 Fed. Reg. 58605 (November 28, 1995)) or other applicable Federal law (including regulations).

SEC. 221. CREDIT TOWARD NON-FEDERAL SHARE OF NAVIGATION PROJECTS.

The second sentence of section 101(a)(2) of the Water Resources Development Act of 1986 (33 U.S.C. 2211(a)(2)) is amended—

- (1) by striking "paragraph (3) and" and inserting "paragraph (3),"; and
- (2) by striking "paragraph (4)" and inserting "paragraph (4), and the costs borne by the non-Federal interests in providing additional capacity at dredged material disposal areas, providing community access to the project (including such disposal areas), and meeting applicable beautification requirements".

SEC. 222. MAXIMUM PROGRAM EXPENDITURES FOR SMALL FLOOD CONTROL PROJECTS.

Section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s) is amended by striking "\$40,000,000" and inserting "\$50,000,000".

SEC. 223. FEASIBILITY STUDIES AND PLANNING, ENGINEERING, AND DESIGN.

Section 105(a)(1)(E) of the Water Resources Development Act of 1986 (33 U.S.C. 2215(a)(1)(E)) is amended by striking "Not more than ½ of the" and inserting "The".

SEC. 224. ADMINISTRATIVE COSTS OF LAND CONVEYANCES.

- (a) IN GENERAL.—Notwithstanding any other provision of law, the administrative costs associated with the conveyance of property to a non-Federal governmental or nonprofit entity shall be limited to not more than 5 percent of the value of the property to be conveyed to such entity if the Secretary determines, based on the entity's ability to pay, that such limitation is necessary to complete the conveyance. The Federal cost associated with such limitation shall not exceed \$70,000 for any one conveyance.
- (b) SPECIFIC CONVEYANCE.—In carrying out subsection (a), the Secretary shall give priority consideration to the conveyance of 10 acres of Wister Lake project land to the Summerfield Cemetery Association, Wister, Oklahoma, authorized by section 563(f) of the Water Resources Development Act of 1999 (113 Stat. 359–360).
- (c) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$150,000 for fiscal years 2001 through 2003.

SEC. 225. DAM SAFETY.

(a) Inventory and Assessment of Other Dams.—

- (1) INVENTORY.—The Secretary shall establish an inventory of dams constructed by and using funds made available through the Works Progress Administration, the Works Projects Administration, and the Civilian Conservation Corps.
- (2) ASSESSMENT OF REHABILITATION NEEDS.—In establishing the inventory required under paragraph (1), the Secretary shall also assess the condition of the dams on such inventory and the need for rehabilitation or modification of the dams.
- (b) REPORT TO CONGRESS.—Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report containing the inventory and assessment required by this section.
- (c) Interim Actions.—
- (1) IN GENERAL.—If the Secretary determines that a dam referred to in subsection (a) presents an imminent and substantial risk to public safety, the Secretary is authorized to carry out measures to prevent or mitigate against such risk.
- (2) EXCLUSION.—The assistance authorized under paragraph (1) shall not be available to dams under the jurisdiction of the Department of the Interior.
- (3) FEDERAL SHARE.—The Federal share of the cost of assistance provided under this subsection shall be 65 percent of such cost.
- (d) COORDINATION.—In carrying out this section, the Secretary shall coordinate with the appropriate State dam safety officials and the Director of the Federal Emergency Management Agency.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section a total of \$25,000,000 for fiscal years beginning after September 30, 1999, of which not more than \$5,000,000 may be expended on any one dam.

TITLE III—PROJECT-RELATED PROVISIONS

SEC. 301. NOGALES WASH AND TRIBUTARIES, NOGALES, ARIZONA.

The project for flood control, Nogales Wash and Tributaries, Nogales, Arizona, authorized by section 101(a)(4) of the Water Resources Development Act of 1990 (104 Stat. 4606), and modified by section 303 of the Water Resources Development Act of 1996 (110 Stat. 3711), is further modified to provide that the Federal share of the costs associated with addressing flood control problems in Nogales, Arizona, arising from floodwater flows originating in Mexico shall be 100 percent.

SEC. 302. JOHN PAUL HAMMERSCHMIDT VISITOR CENTER, FORT SMITH, ARKANSAS.

Section 103(e) of the Water Resources Development Act of 1992 (106 Stat. 4813) is amended—

- (1) in the subsection heading by striking "LAKE" and inserting "VISITOR CENTER"; and
- (2) in paragraph (1) by striking "at the John Paul Hammerschmidt Lake, Arkansas River, Arkansas" and inserting "on property provided by the city of Fort Smith, Arkansas, in such city".

SEC. 303. GREERS FERRY LAKE, ARKANSAS.

The project for flood control, Greers Ferry Lake, Arkansas, authorized by the Act entitled "An Act authorizing the construction of certain public works on rivers and harbors for flood control, and other purposes", approved June 28, 1938 (52 Stat. 1218), is modified to authorize the Secretary to construct water intake facilities for the benefit of Lonoke and White Counties, Arkansas.

SEC. 304. TEN- AND FIFTEEN-MILE BAYOUS, ARKANSAS.

The project for flood control, Saint Francis River Basin, Missouri and Arkansas, authorized by section 204 of the Flood Control Act of 1950 (64 Stat. 172), is modified to expand the boundaries of the project to include Tenand Fifteen-Mile Bayous near West Memphis, Arkansas. Notwithstanding section 103(f) of the Water Resources Development Act of 1986 (100 Stat. 4086), the flood control work at Ten- and Fifteen-Mile Bayous shall not be considered separable elements of the project.

SEC. 305. CACHE CREEK BASIN, CALIFORNIA.

The project for flood control, Cache Creek Basin, California, authorized by section 401(a) of the Water Resources Development Act of 1986 (100 Stat. 4112), is modified to direct the Secretary to evaluate the impacts of the new south levee of the Cache Creek settling basin on the city of Woodland's storm drainage system and to mitigate such impacts at Federal expense and a total cost of \$2.800.000.

SEC. 306. LARKSPUR FERRY CHANNEL, LARK-SPUR, CALIFORNIA.

The project for navigation, Larkspur Ferry Channel, Larkspur, California, authorized by section 601(d) of the Water Resources Development Act of 1986 (100 Stat. 4148), is modified to direct the Secretary to prepare a limited reevaluation report to determine whether maintenance of the project is technically sound, environmentally acceptable, and economically justified. If the Secretary determines that maintenance of the project is technically sound, environmentally acceptable, and economically justified, the Secretary shall carry out the maintenance.

SEC. 307. NORCO BLUFFS, RIVERSIDE COUNTY, CALIFORNIA.

Section 101(b)(4) of the Water Resources Development Act of 1996 (110 Stat. 3667) is amended by striking "\$8,600,000" and all that follows through "\$2,150,000" and inserting "\$15,000,000, with an estimated Federal cost of \$11,250,000 and an estimated non-Federal cost of \$3,750,000".

SEC. 308. SACRAMENTO DEEP WATER SHIP CHANNEL, CALIFORNIA.

The project for navigation, Sacramento Deep Water Ship Channel, California, authorized by section 202(a) of the Water Resources Development Act of 1986 (100 Stat. 4092), is modified to authorize the Secretary to provide credit to the non-Federal interest toward the non-Federal share of the cost of the project for the value of dredged material from the project that is purchased by public agencies or nonprofit entities for environmental restoration or other beneficial uses.

SEC. 309. SACRAMENTO RIVER, GLENN-COLUSA, CALIFORNIA.

The project for flood control, Sacramento River, California, authorized by section 2 of the Act entitled "An Act to provide for the control of the floods of the Mississippi River and of the Sacramento River, California, and for other purposes", approved March 1, 1917 (39 Stat. 949), and modified by section 102 of the Energy and Water Development Appropriations Act, 1990 (103 Stat. 649), section 301(b)(3) of the Water Resources Development Act of 1996 (110 Stat. 3110), title I of the Energy and Water Development Appropriations Act, 1999 (112 Stat. 1841), and section 305 of the Water Resources Development Act of 1999 (113 Stat. 299), is further modified to direct the Secretary to provide the non-Federal interest a credit of up to \$4,000,000 toward the non-Federal share of the cost of the project for direct and indirect costs incurred by the non-Federal interest in carrying out activities (including the provision of lands, easements, rights-of-way, relocations, and dredged material disposal areas) associated with environmental compliance for the project if the Secretary determines that the

activities are integral to the project. If any of such costs were incurred by the non-Federal interests before execution of the project cooperation agreement, the Secretary may reimburse the non-Federal interest for such pre-agreement costs instead of providing a credit for such pre-agreement costs to the extent that the amount of the credit exceeds the remaining non-Federal share of the cost of the project.

SEC. 310. UPPER GUADALUPE RIVER, CALIFORNIA.

The project for flood damage reduction and recreation, Upper Guadalupe River, California, authorized by section 101(a)(9) of the Water Resources Development Act of 1999 (113 Stat. 275), is modified to provide that the non-Federal share of the cost of the project shall be 50 percent, with an estimated Federal cost and non-Federal cost of \$70,164,000 each.

SEC. 311. BREVARD COUNTY, FLORIDA.

(a) INCLUSION OF REACH.—The project for shoreline protection, Brevard County, Florida, authorized by section 101(b)(7) of the Water Resources Development Act of 1996 (110 Stat. 3667), is modified to provide that. notwithstanding section 902 of the Water Resources Development Act of 1986, the Secretary may incorporate in the project any or all of the 7.1-mile reach of the project that was deleted from the south reach of the project, as described in paragraph (5) of the Report of the Chief of Engineers, dated December 23, 1996, if the Secretary determines, in coordination with appropriate local, State, and Federal agencies, that the project as modified is technically sound, environmentally acceptable, and economically justified.

(b) CLARIFICATION.—Section 310(a) of the Water Resources Development Act of 1999 (113 Stat. 301) is amended by inserting "shoreline associated with the" after "damage to the".

SEC. 312. FERNANDINA HARBOR, FLORIDA.

The project for navigation, Fernandina Harbor, Florida, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, completion, and preservation of certain works on rivers and harbors, and for other purposes", approved June 14, 1880 (21 Stat. 186), is modified to authorize the Secretary to realign the access channel in the vicinity of the Fernandina Beach Municipal Marina 100 feet to the west. The cost of the realignment, including acquisition of lands, easements, rights-of-way, and dredged material disposal areas and relocations, shall be a non-Federal expense.

SEC. 313. TAMPA HARBOR, FLORIDA.

The project for navigation, Tampa Harbor, Florida, authorized by section 4 of the Rivers and Harbors Act of September 22, 1922 (42 Stat. 1042), is modified to authorize the Secretary to deepen and widen the Alafia Channel in accordance with the plans described in the Draft Feasibility Report, Alafia River, Tampa Harbor, Florida, dated May 2000, at a total cost of \$61,592,000, with an estimated Federal cost of \$39,621,000 and an estimated non-Federal cost of \$21,971,000.

SEC. 314. EAST SAINT LOUIS AND VICINITY, ILLINOIS.

The project for flood protection, East Saint Louis and vicinity, Illinois (East Side levee and sanitary district), authorized by section 204 of the Flood Control Act of 1965 (79 Stat. 1082), is modified to include ecosystem restoration as a project purpose.

SEC. 315. KASKASKIA RIVER, KASKASKIA, ILLI-NOIS.

The project for navigation, Kaskaskia River, Kaskaskia, Illinois, authorized by sec-

tion 101 of the River and Harbor Act of 1962 (76 Stat. 1175), is modified to include recreation as a project purpose.

SEC. 316. WAUKEGAN HARBOR, ILLINOIS.

The project for navigation, Waukegan Harbor, Illinois, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, completion, and preservation of certain works on rivers and harbors, and for other purposes", approved June 14, 1880 (21 Stat. 192), is modified to authorize the Secretary to extend the upstream limit of the project 275 feet to the north at a width of 375 feet if the Secretary determines that the extension is feasible.

SEC. 317. CUMBERLAND, KENTUCKY.

Using continuing contracts, the Secretary shall initiate construction of the flood control project, Cumberland, Kentucky, authorized by section 202(a) of the Energy and Water Development Appropriations Act, 1981 (94 Stat. 1339), in accordance with option 4 contained in the draft detailed project report of the Nashville District, dated September 1998, to provide flood protection from the 100-year frequency flood event and to share all costs in accordance with section 103 of the Water Resources Development Act of 1986 (33 U.S.C. 2213).

SEC. 318. LOCK AND DAM 10, KENTUCKY RIVER, KENTUCKY.

(a) IN GENERAL.—The Secretary may take all necessary measures to further stabilize and renovate Lock and Dam 10 at Boonesborough, Kentucky, with the purpose of extending the design life of the structure by an additional 50 years, at a total cost of \$24,000,000, with an estimated Federal cost of \$12,000,000 and an estimated non-Federal cost of \$12,000,000.

(b) DEFINITIONS.—For purposes of this section, the term "stabilize and renovate" includes the following activities: stabilization of the main dam, auxiliary dam and lock; renovation of all operational aspects of the lock; and elevation of the main and auxiliary dams

SEC. 319. SAINT JOSEPH RIVER, SOUTH BEND, INDIANA.

Section 321(a) of the Water Resources Development Act of 1999 (113 Stat. 303) is amended—

(1) in the subsection heading by striking

"TOTAL" and inserting "FEDERAL"; and
(2) by striking "total" and inserting "Federal".

SEC. 320. MAYFIELD CREEK AND TRIBUTARIES, KENTUCKY.

The project for flood control, Mayfield Creek and tributaries, Kentucky, carried out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s), is modified to provide that the non-Federal interest shall not be required to pay the unpaid balance, including interest, of the non-Federal share of the cost of the project.

SEC. 321. AMITE RIVER AND TRIBUTARIES, EAST BATON ROUGE PARISH, LOUISIANA.

The project for flood damage reduction and recreation, Amite River and Tributaries, East Baton Rouge Parish, Louisiana, authorized by section 101(a)(21) of the Water Resources Development Act of 1999 (113 Stat. 277), is modified to provide that cost sharing for the project shall be determined in accordance with section 103(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2213), as in effect on October 11, 1996.

SEC. 322. ATCHAFALAYA BASIN FLOODWAY SYSTEM, LOUISIANA.

The Atchafalaya Basin Floodway System project, authorized by section 601 of the Water Resources Development Act of 1986

(100 Stat. 4142), is modified to authorize the Secretary to construct the visitor center and other recreational features identified in the 1982 project feasibility report of the Corps of Engineers at or near the Lake End Park in Morgan City, Louisiana.

SEC. 323. ATCHAFALAYA RIVER, BAYOUS CHENE, BOEUF, AND BLACK, LOUISIANA.

The project for navigation Atchafalaya River and Bayous Chene, Boeuf, and Black, Louisiana, authorized by section 101 of the River and Harbor Act of 1968 (82 Stat. 731), is modified to direct the Secretary to investigate the problems associated with the mixture of freshwater, saltwater, and fine river silt in the channel and to develop and carry out a solution to the problem if the Secretary determines that the work is technically sound, environmentally acceptable, and economically justified.

SEC. 324. RED RIVER WATERWAY, LOUISIANA.

The project for mitigation of fish and wildlife loses, Red River Waterway, Louisiana, authorized by section 601(a) of the Water Resources Development Act of 1986 (100 Stat. 4142) and modified by section 4(h) of the Water Resources Development Act of 1988 (102 Stat. 4016), section 102(p) of the Water Resources Development Act of 1990 (104 Stat. 4613), and section 301(b)(7) of the Water Resources Development Act of 1996 (110 Stat. 3710), is further modified to authorize the Secretary to purchase mitigation lands in any of the 7 parishes that make up the Red River Waterway District, including the parof Caddo, Bossier, ishes Red River. Natchitoches, Grant, Rapides, and Avovelles, SEC. 325. THOMASTON HARBOR, GEORGES RIVER, MAINE.

The project for navigation, Georges River, Maine (Thomaston Harbor), authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved June 3, 1896 (29 Stat. 215), is modified to redesignate the following portion of the project as an anchorage area: The portion lying northwesterly of a line commencing at point N86,946.770, E321,303.830 thence running northeasterly about 203.67 feet to a point N86,994.750, E321,501.770.

SEC. 326. BRECKENRIDGE, MINNESOTA.

- (a) MAXIMUM FEDERAL EXPENDITURE.—The maximum amount of Federal funds that may be expended for the project for flood control, Breckenridge, Minnesota, carried out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s), shall be \$10,500,000.
- (b) REVISION OF PROJECT COOPERATION AGREEMENT.—The Secretary shall revise the project cooperation agreement for the project described in subsection (a) to take into account the change in the Federal participation in the project in accordance with this section.

SEC. 327. DULUTH HARBOR, MINNESOTA.

The project for navigation, Duluth Harbor, Minnesota, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577), is modified to include the relocation of Scenic Highway 61, including any required bridge construction.

SEC. 328. LITTLE FALLS, MINNESOTA.

The project for clearing, snagging, and sediment removal, East Bank of the Mississippi River, Little Falls, Minnesota, authorized under section 3 of the Act entitled "An Act authorizing the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved March 2, 1945 (33 U.S.C. 603a), is modified to direct the Secretary to

construct the project substantially in accordance with the plans contained in the feasibility report of the District Engineer, dated June 2000.

SEC. 329. POPLAR ISLAND, MARYLAND.

- (a) IN GENERAL.—The project for beneficial use of dredged material at Poplar Island, Maryland, authorized by section 537 of the Water Resources Development Act of 1996 (110 Stat. 3776), is modified to authorize the Secretary to provide the non-Federal interest credit toward cash contributions required—
- (1) before and during construction of the project, for the costs of planning, engineering, and design and for construction management work that is performed by the non-Federal interest and that the Secretary determines is necessary to implement the project; and
- (2) during construction of the project, for the costs of the construction that the non-Federal interest carries out on behalf of the Secretary and that the Secretary determines is necessary to carry out the project.
- (b) REDUCTION.—The private sector performance goals for engineering work of the Baltimore District of the Corps of Engineers shall be reduced by the amount of the credit under paragraph (1).

SEC. 330. GREEN BROOK SUB-BASIN, RARITAN RIVER BASIN, NEW JERSEY.

The project for flood control, Green Brook Sub-Basin, Raritan River Basin, New Jersey, authorized by section 401(a) of the Water Resources Development Act of 1986 (100 Stat. 4119), is modified to direct the Secretary to prepare a limited reevaluation report to determine the feasibility of carrying out a non-structural flood damage reduction project at the Green Brook Sub-Basin. If the Secretary determines that the nonstructural project is feasible, the Secretary may carry out the nonstructural project.

SEC. 331. NEW YORK HARBOR AND ADJACENT CHANNELS, PORT JERSEY, NEW JERSEY.

The project for navigation, New York Harbor and adjacent channels, Port Jersey, New Jersey, authorized by section 202(b) of the Water Resources Development Act of 1986 (100 Stat. 4098) and modified by section 337 of the Water Resources Development Act of 1999 (113 Stat. 306–307), is further modified to authorize the Secretary to provide the non-Federal interests credit toward cash contributions required—

- (1) before, during, and after construction for planning, engineering and design, and construction management work that is performed by the non-Federal interests and that the Secretary determines is necessary to implement the project; and
- (2) during and after construction for the costs of construction that the non-Federal interests carry out on behalf of the Secretary and that the Secretary determines is necessary to implement the project.

SEC. 332. PASSAIC RIVER BASIN FLOOD MANAGE-MENT, NEW JERSEY.

(a) REEVALUATION OF FLOODWAY STUDY.—The Secretary shall review the Passaic River Floodway Buyout Study, dated October 1995, conducted as part of the project for flood control, Passaic River Main Stem, New Jersey and New York, authorized by section 101(a)(18) of the Water Resources Development Act of 1990 (104 Stat. 4607–4610), to calculate the benefits of a buyout and environmental restoration using the method used to calculate the benefits of structural projects under section 308(b) of the Water Resources Development Act of 1990 (33 U.S.C. 2318(b)).

(b) REEVALUATION OF 10-YEAR FLOODPLAIN STUDY.—The Secretary shall review the Pas-

saic River Buyout Study of the 10-year floodplain beyond the floodway of the Central Passaic River Basin, dated September 1995, conducted as part of the Passaic River Main Stem project to calculate the benefits of a buyout and environmental restoration using the method used to calculate the benefits of structural projects under section 308(b) of the Water Resources Development Act of 1990 (33 U.S.C. 2318(b)).

- (c) Preservation of Natural Storage Areas.—
- (1) IN GENERAL.—The Secretary shall reevaluate the acquisition of wetlands in the Central Passaic River Basin for flood protection purposes to supplement the wetland acquisition authorized by section 101(a)(18)(C)(vi) of the Water Resources Development Act of 1990 (104 Stat. 4609).
- (2) PURCHASE.—If the Secretary determines that the acquisition of wetlands evaluated under paragraph (1) is cost-effective, the Secretary shall purchase the wetlands, with the goal of purchasing not more than 8,200 acres.
- (d) STREAMBANK EROSION CONTROL STUDY.—The Secretary shall review relevant reports and conduct a study to determine the feasibility of carrying out a project for environmental restoration, erosion control, and streambank restoration along the Passaic River, from Dundee Dam to Kearny Point, New Jersey.
- (e) Passaic River Flood Management Task Force.—
- (1) ESTABLISHMENT.—The Secretary, in cooperation with the non-Federal interest, shall establish a task force, to be known as the "Passaic River Flood Management Task Force", to provide advice to the Secretary concerning reevaluation of the Passaic River Main Stem project.
- (2) MEMBERSHIP.—The task force shall be composed of 22 members, appointed as follows:
- (A) APPOINTMENT BY SECRETARY.—The Secretary shall appoint 1 member to represent the Corps of Engineers and to provide technical advice to the task force.
- (B) APPOINTMENTS BY GOVERNOR OF NEW JERSEY.—The Governor of New Jersey shall appoint 20 members to the task force, as follows:
- (i) 2 representatives of the New Jersey legislature who are members of different political parties.
- (ii) 3 representatives of the State of New Jersey.
- (iii) 1 representative of each of Bergen, Essex, Morris, and Passaic Counties, New Jersey.
- (iv) 6 representatives of governments of municipalities affected by flooding within the Passaic River Basin.
- (v) 1 representative of the Palisades Interstate Park Commission.
- (vi) 1 representative of the North Jersey District Water Supply Commission.
- (vii) 1 representative of each of—
- (I) the Association of New Jersey Environmental Commissions;
 - (II) the Passaic River Coalition; and
 - (III) the Sierra Club.
- (C) APPOINTMENT BY GOVERNOR OF NEW YORK.—The Governor of New York shall appoint 1 representative of the State of New York to the task force.
 - (3) MEETINGS.—
- (A) REGULAR MEETINGS.—The task force shall hold regular meetings.
- $(B)\ \mbox{OPEN}\ \mbox{MEETINGS.}\mbox{--The meetings of the task force shall be open to the public.}$
- (4) ANNUAL REPORT.—The task force shall submit annually to the Secretary and to the non-Federal interest a report describing the

achievements of the Passaic River flood management project in preventing flooding and any impediments to completion of the project.

- (5) EXPENDITURE OF FUNDS.—The Secretary may use funds made available to carry out the Passaic River Basin flood management project to pay the administrative expenses of the task force.
- (6) TERMINATION.—The task force shall terminate on the date on which the Passaic River flood management project is completed.
- (f) Acquisition of Lands in the Floodway.—Section 1148 of the Water Resources Development Act of 1986 (100 Stat. 4254; 110 Stat. 3718–3719), is amended by adding at the end the following:
- "(e) CONSISTENCY WITH NEW JERSEY BLUE ACRES PROGRAM.—The Secretary shall carry out this section in a manner that is consistent with the Blue Acres Program of the State of New Jersey."
- (g) STUDY OF HIGHLANDS LAND CONSERVATION.—The Secretary, in cooperation with the Secretary of Agriculture and the State of New Jersey, may study the feasibility of conserving land in the Highlands region of New Jersey and New York to provide additional flood protection for residents of the Passaic River Basin in accordance with section 212 of the Water Resources Development Act of 1999 (33 U.S.C. 2332).
- (h) RESTRICTION ON USE OF FUNDS.—The Secretary shall not obligate any funds to carry out design or construction of the tunnel element of the Passaic River Main Stem project.

SEC. 333. TIMES BEACH NATURE PRESERVE, BUFFALO, NEW YORK.

The project for improving the quality of the environment, Times Beach Nature Preserve, Buffalo, New York, carried out under section 1135 of the Water Resources Development Act of 1986 (33 U.S.C. 2309a), is modified to include recreation as a project purpose.

SEC. 334. GARRISON DAM. NORTH DAKOTA.

The Garrison Dam, North Dakota, feature of the project for flood control, Missouri River Basin, authorized by section 9(a) of the Flood Control Act of December 22, 1944 (58 Stat. 891), is modified to direct the Secretary to mitigate damage to the water transmission line for Williston, North Dakota, at Federal expense and a total cost of \$3,900,000. SEC. 335. DUCK CREEK, OHIO.

The project for flood control, Duck Creek, Ohio, authorized by section 101(a)(24) of the Water Resources Development Act of 1996 (110 Stat. 3665), is modified to authorize the Secretary carry out the project at a total cost of \$36,323,000, with an estimated Federal cost of \$27,242,000 and an estimated non-Federal cost of \$9,081,000.

SEC. 336. ASTORIA, OREGON.

The project for navigation, Columbia River, Astoria, Oregon, authorized by the first section of the Act entitled "An Act authorizing the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved July 24, 1946 (60 Stat. 637), is modified to provide that the Federal share of the cost of relocating causeway and mooring facilities located at the Astoria East Boat Basin shall be 100 percent but shall not exceed \$500.000.

SEC. 337. NONCONNAH CREEK, TENNESSEE AND MISSISSIPPI.

The project for flood control, Nonconnah Creek, Tennessee and Mississippi, authorized by section 401(a) of the Water Resources Development Act of 1986 (100 Stat. 4124), is

modified to authorize the Secretary, if the Secretary determines that it is feasible—

- (1) to extend the area protected by the flood control element of the project upstream approximately 5 miles to Reynolds Road; and
- (2) to extend the hiking and biking trails of the recreational element of the project from 8.8 to 27 miles.

SEC. 338, BOWIE COUNTY LEVEE, TEXAS.

The project for flood control, Red River below Denison Dam, Texas and Oklahoma, authorized by section 10 of the Flood Control Act of 1946 (60 Stat. 647), is modified to direct the Secretary to implement the Bowie County levee feature of the project in accordance with the plan described as Alternative B in the draft document entitled "Bowie County Local Flood Protection, Red River, Texas Project Design Memorandum No. 1, Bowie County Levee", dated April 1997. In evaluating and implementing the modification, the Secretary shall allow the non-Federal interest to participate in the financing of the project in accordance with section 903(c) of the Water Resources Development Act of 1986 (100 Stat. 4184) to the extent that the Secretary's evaluation of the modification indicates that applying such section is necessary to implement the modification.

SEC. 339. SAN ANTONIO CHANNEL, SAN ANTONIO, TEXAS.

The project for flood control, San Antonio channel, Texas, authorized by section 203 of the Flood Control Act of 1954 (68 Stat. 1259) as part of the comprehensive plan for flood protection on the Guadalupe and San Antonio Rivers in Texas, and modified by section 103 of the Water Resources Development Act of 1976 (90 Stat. 2921), is further modified to include environmental restoration and recreation as project purposes.

SEC. 340. BUCHANAN AND DICKENSON COUNTIES, VIRGINIA.

The project for flood control, Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, authorized by section 202 of the Energy and Water Development Appropriations Act, 1981 (94 Stat. 1339), and modified by section 352 of the Water Resources Development Act of 1996 (110 Stat. 3724–3725), is further modified to direct the Secretary to determine the ability of Buchanan and Dickenson Counties, Virginia, to pay the non-Federal share of the cost of the project based solely on the criteria specified in section 103(m)(3)(A)(i) of the Water Resources Development Act of 1986 (33 U.S.C. 2213(m)(3)(A)(i)).

SEC. 341. BUCHANAN, DICKENSON, AND RUSSELL COUNTIES, VIRGINIA.

At the request of the John Flannagan Water Authority, Dickenson County, Virginia, the Secretary may reallocate, under section 322 of the Water Resources Development Act of 1990 (104 Stat. 4643–4644), water supply storage space in the John Flannagan Reservoir, Dickenson County, Virginia, sufficient to yield water withdrawals in amounts not to exceed 3,000,000 gallons per day in order to provide water for the communities in Buchanan, Dickenson, and Russell Counties, Virginia, notwithstanding the limitation in section 322(b) of such Act.

SEC. 342. SANDBRIDGE BEACH, VIRGINIA BEACH, VIRGINIA.

The project for beach erosion control and hurricane protection, Sandbridge Beach, Virginia Beach, Virginia, authorized by section 101(22) of the Water Resources Development Act of 1992 (106 Stat. 4804), is modified to direct the Secretary to provide 50 years of periodic beach nourishment beginning on the date on which construction of the project was initiated in 1998.

SEC. 343. WALLOPS ISLAND, VIRGINIA.

Section 567(c) of the Water Resources Development Act of 1999 (113 Stat. 367) is amended by striking "\$8,000,000" and inserting "\$20,000,000".

SEC. 344. COLUMBIA RIVER, WASHINGTON.

- (a) IN GENERAL.—The project for navigation, Columbia River, Washington, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved June 13, 1902 (32 Stat. 369), is modified to direct the Secretary, in the operation and maintenance of the project, to mitigate damages to the shoreline of Puget Island, at a total cost of \$1,000,000.
- (b) ALLOCATION.—The cost of the mitigation shall be allocated as an operation and maintenance cost of the Federal navigation project.

SEC. 345. MOUNT ST. HELENS, WASHINGTON.

The project for sediment control, Mount St. Helens, Washington, authorized by chapter IV of title I of the Supplemental Appropriations Act, 1985 (99 Stat. 318–319), is modified to authorize the Secretary to provide such cost-effective, environmentally acceptable measures as are necessary to maintain the flood protection levels for Longview, Kelso, Lexington, and Castle Rock on the Cowlitz River, Washington, identified in the October 1985 report of the Chief of Engineers entitled "Mount St. Helens, Washington, Decision Document (Toutle, Cowlitz, and Columbia Rivers)", printed as House Document number 99–135.

SEC. 346. RENTON, WASHINGTON.

- (a) MAXIMUM FEDERAL EXPENDITURE.—The maximum amount of Federal funds that may be expended for the project for flood control, Renton, Washington, carried out under section 205 of the Flood Control Act of 1948, shall be \$5,300,000.
- (b) REVISION OF PROJECT COOPERATION AGREEMENT.—The Secretary shall revise the project cooperation agreement for the project described in subsection (a) to take into account the change in the Federal participation in the project in accordance with this section.
- (c) REIMBURSEMENT.—The Secretary may reimburse the non-Federal interest for the project described in subsection (a) for costs incurred to mitigate overdredging.

SEC. 347. GREENBRIER BASIN, WEST VIRGINIA.

Section 579(c) of the Water Resources Development Act of 1996 (110 Stat. 3790) is amended by striking "\$12,000,000" and inserting "\$73,000,000".

SEC. 348. LOWER MUD RIVER, MILTON, WEST VIRGINIA.

The project for flood damage reduction, Lower Mud River, Milton, West Virginia, authorized by section 580 of the Water Resources Development Act of 1996 (110 Stat. 3790), is modified to direct the Secretary to carry out the project substantially in accordance with the plans, and subject to the conditions, described in the watershed plan prepared by the Natural Resources Conservation Service for the project, dated 1992.

SEC. 349. WATER QUALITY PROJECTS.

Section 307(a) of the Water Resources Development Act of 1992 (106 Stat. 4841) is amended by striking "Jefferson and Orleans Parishes" and inserting "Jefferson, Orleans, and St. Tammany Parishes".

SEC. 350. PROJECT REAUTHORIZATIONS.

(a) IN GENERAL.—Each of the following projects may be carried out by the Secretary, and no construction on any such

project may be initiated until the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified, as appropriate:

- MILBRIDGE. (1) NARRAGUAGUS RIVER, MAINE.—Only for the purpose of maintenance as anchorage, those portions of the project navigation, Narraguagus River, Milbridge, Maine, authorized by section 2 of the Act entitled "An Act making appropriations for the construction, repair, completion, and preservation of certain works on rivers and harbors, and for other purposes", approved June 14, 1880 (21 Stat. 195), and deauthorized under section 101 of the River and Harbor Act of 1962 (75 Stat. 1173), lying adjacent to and outside the limits of the 11-foot and 9-foot channel authorized as part of the project for navigation, authorized by such section 101, as follows:
- (A) An area located east of the 11-foot channel starting at a point with coordinates N248,060.52, E668,236.56, thence running south 36 degrees 20 minutes 52.3 seconds east 1567.242 feet to a point N246,798.21, E669,165.44, thence running north 51 degrees 30 minutes 06.2 seconds west 839.855 feet to a point N247,321.01, E668,508.15, thence running north 20 degrees 09 minutes 58.1 seconds west 787.801 feet to the point of origin.
- (B) An area located west of the 9-foot channel starting at a point with coordinates N249.673.29. E667.537.73, thence running south 20 degrees 09 minutes 57.8 seconds east 1341.616 feet to a point N248,413.92, E668,000.24, thence running south 01 degrees 04 minutes 26.8 seconds east 371.688 feet to a point $N248,042.30,\ E668,007.21,\ thence\ running\ north$ 22 degrees 21 minutes 20.8 seconds west 474.096 feet to a point N248,480.76, E667,826.88, thence running north 79 degrees 09 minutes 31.6 seconds east 100.872 feet to a point N248,499.73, E667,925.95, thence running north 13 degrees 47 minutes 27.6 seconds west 95.126 feet to a point N248,592.12, E667,903.28, thence running south 79 degrees 09 minutes 31.6 seconds west 115.330 feet to a point N248,570.42, E667,790.01, thence running north 22 degrees 21 minutes 20.8 seconds west 816.885 feet to a point N249,325.91, E667,479.30, thence running north 07 degrees 03 minutes 00.3 seconds west 305.680 feet to a point N249,629.28, E667,441.78, thence running north 65 degrees 21 minutes 33.8 seconds east 105.561 feet to the point of origin.
- (2) CEDAR BAYOU, TEXAS.—The project for navigation, Cedar Bayou, Texas, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved September 19, 1890 (26 Stat. 444), and modified by the first section of the Act entitled "An Act authorizing the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved July 3, 1930 (46 Stat. 926), and deauthorized by section 1002 of the Water Resources Development Act of 1986 (100 Stat. 4219), except that the project is authorized only for construction of a navigation channel 12 feet deep by 125 feet wide from mile -2.5 (at the junction with the Houston Ship Channel) to mile 11.0 on Cedar Bayou.
- (b) REDESIGNATION.—The following portion of the 11-foot channel of the project for navi-River, Milbridge, Narraguagus Maine, referred to in subsection (a)(1) is redesignated as anchorage: starting at a point with coordinates N248,413.92, E668,000.24, thence running south 20 degrees 09 minutes 57.8 seconds east 1325.205 feet to a point N247,169.95, E668,457.09, thence running north

51 degrees 30 minutes 05.7 seconds west 562.33 feet to a point N247.520.00, E668.017.00, thence running north 01 degrees 04 minutes 26.8 seconds west 894.077 feet to the point of origin. SEC. 351. CONTINUATION OF PROJECT AUTHOR-

IZATIONS.

- (a) IN GENERAL.—Notwithstanding section 1001(b)(2) of the Water Resources Development Act of 1986 (33 U.S.C. 579a(b)(2)), the following projects shall remain authorized to be carried out by the Secretary:
- (1) The projects for flood control, Sacramento River, California, modified by section 10 of the Flood Control Act of December 22, 1944 (58 Stat. 900-901).
- (2) The project for flood protection, Sacramento River from Chico Landing to Red Bluff, California, authorized by section 203 of the Flood Control Act of 1958 (72 Stat. 314).
- (b) LIMITATION.—A project described in subsection (a) shall not be authorized for construction after the last day of the 7-year period beginning on the date of enactment of this Act, unless, during such period, funds have been obligated for the construction (including planning and design) of the project.

SEC. 352. DECLARATION OF NONNAVIGABILITY FOR LAKE ERIE, NEW YORK.

- (a) Area To Be Declared Nonnavigable: PUBLIC INTEREST.—Unless the Secretary finds, after consultation with local and regional public officials (including local and regional public planning organizations), that the proposed projects to be undertaken within the boundaries in the portions of Erie County, New York, described in subsection (b), are not in the public interest then, subject to subsection (c), those portions of such county that were once part of Lake Erie and are now filled are declared to be nonnavigable waters of the United States.
- (b) BOUNDARIES.—The portion of Erie County, New York, referred to in subsection (a) are all that tract or parcel of land, situate in the Town of Hamburg and the City of Lackawanna, County of Erie, State of New York, being part of Lots 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, and 25 of the Ogden Gore Tract and part of Lots 23, 24, and 36 of the Buffalo Creek Reservation, Township 10, Range 8 of the Holland Land Company's Survey and more particularly bounded and described as follows:

Beginning at a point on the westerly highway boundary of Hamburg Turnpike (66.0 feet wide), said point being 547.89 feet South 19°36'46" East from the intersection of the westerly highway boundary of Hamburg Turnpike (66.0 feet wide) and the northerly line of the City of Lackawanna (also being the southerly line of the City of Buffalo); thence South 19°36'46" East along the westerly highway boundary of Hamburg Turnpike (66.0 feet wide) a distance of 628.41 feet: thence along the westerly highway boundary of Hamburg Turnpike as appropriated by the New York State Department of Public Works as shown on Map No. 40-R2, Parcel No. 44 the following 20 courses and distances:
(1) South 10°00'07" East a distance of 164.30

- feet:
- (2) South 18°40'45" East a distance of 355.00 feet:
- (3) South 71°23'35" West a distance of 2.00 feet;
- (4) South 18°40'45" East a distance of 223.00
- feet; (5) South 22°29'36" East a distance of 150.35
- (6) South 18°40'45" East a distance of 512.00 feet:
- (7) South 16°49'53" East a distance of 260.12
- (8) South 18°34′20" East a distance of 793.00

- (9) South 71°23'35" West a distance of 4.00 feet:
- (10) South 18°13'24" East a distance of 132.00 feet:
- (11) North 71°23'35" East a distance of 4.67 feet:
- (12) South 18°30'00" East a distance of 38 00 feet:
- (13) South 71°23'35" West a distance of 4.86 feet: (14) South 18°13'24" East a distance of 160.00
- feet: (15) South 71°23'35" East a distance of 9.80
- feet: (16) South 18°36'25" East a distance of 159.00 feet:
- (17) South 71°23'35" West a distance of 3.89 feet:
- (18) South 18°34′20″ East a distance of 180.00
- feet: (19) South 20°56'05" East a distance of 138.11
- feet: (20) South 22°53′55" East a distance of 272.45
- feet to a point on the westerly highway boundary of Hamburg Turnpike.
- Thence southerly along the westerly highway boundary of Hamburg Turnpike, South 18°36'25" East, a distance of 2228.31 feet; thence along the westerly highway boundary of Hamburg Turnpike as appropriated by the New York State Department of Public Works as shown on Map No. 27 Parcel No. 31 the following 2 courses and distances:
- (1) South 16°17'25" East a distance of 74.93 feet:
- (2) along a curve to the right having a radius of 1004.74 feet; a chord distance of 228.48 feet along a chord bearing of South 08°12'16" East, a distance of 228.97 feet to a point on the westerly highway boundary of Hamburg

Thence southerly along the westerly highway boundary of Hamburg Turnpike, South 4°35'35" West a distance of 940.87 feet; thence along the westerly highway boundary of Hamburg Turnpike as appropriated by the New York State Department of Public Works as shown on Map No. 1 Parcel No. 1 and Map No. 5 Parcel No. 7 the following 18 courses and distances:

- (1) North 85°24'25" West a distance of 1.00 feet:
- (2) South 7°01'17" West a distance of 170.15 feet:
- (3) South 5°02'54" West a distance of 180.00 feet:
- (4) North 85°24'25" West a distance of 3.00 feet:
- (5) South 5°02′54" West a distance of 260.00 feet:
- (6) South 5°09'11" West a distance of 110.00 feet:
- (7) South 0°34'35" West a distance of 110.27 feet:
- (8) South 4°50'37" West a distance of 220.00 feet:
- (9) South 4°50′37" West a distance of 365.00 feet: (10) South 85°24'25" East a distance of 5.00
- feet; (11) South 4°06′20″ West a distance of 67.00
- feet; (12) South 6°04'35" West a distance of 248.08
- feet;
- (13) South 3°18'27" West a distance of 52.01 feet;
- (14) South $4^{\circ}55'58''$ West a distance of 133.00 feet;
- (15) North 85°24'25" West a distance of 1.00 feet:
- (16) South 4°55′58" West a distance of 45.00
- (17) North 85°24'25" West a distance of 7.00 feet:

(18) South $4^{\circ}56'12''$ West a distance of 90.00 feet.

Thence continuing along the westerly highway boundary of Lake Shore Road as appropriated by the New York State Department of Public Works as shown on Map No. 7, Parcel No. 7 the following 2 courses and distances:

- (1) South $4^{\circ}55'58''$ West a distance of 127.00 feet;
- (2) South 2°29'25" East a distance of 151.15 feet to a point on the westerly former highway boundary of Lake Shore Road.

Thence southerly along the westerly formerly highway boundary of Lake Shore Road, South 4°35′35″ West a distance of 148.90 feet; thence along the westerly highway boundary of Lake Shore Road as appropriated by the New York State Department of Public Works as shown on Map No. 7, Parcel No. 8 the following 3 courses and distances:

- (1) South $55^{\circ}34'35''$ West a distance of 12.55 feet;
- (2) South $4^{\circ}35'35''$ West a distance of 118.50 feet;
- (3) South 3°04′00″ West a distance of 62.95 feet to a point on the south line of the lands of South Buffalo Railway Company.

Thence southerly and easterly along the lands of South Buffalo Railway Company the following 5 courses and distances:

- (1) North 89°25′14" West a distance of 697.64 feet;
- (2) along a curve to the left having a radius of 645.0 feet; a chord distance of 214.38 feet along a chord bearing of South 40°16′48″ West, a distance of 215.38 feet;
- (3) South $30^{\circ}42'49''$ West a distance of 76.96 feet;
- (4) South $22^{\circ}06'03''$ West a distance of 689.43 feet;
- (5) South 36°09'23" West a distance of 30.93 feet to the northerly line of the lands of Buffalo Crushed Stone, Inc.

Thence North 87°13′38″ West a distance of 2452.08 feet to the shore line of Lake Erie; thence northerly along the shore of Lake Erie the following 43 courses and distances:

- (1) North $16^{\circ}29'53''$ West a distance of 267.84 feet;
- (2) North $24^{\circ}25'00''$ West a distance of 195.01 feet:
- (3) North 26°45′00″ West a distance of 250.00 feet;
- (4) North $31^{\circ}15'00''$ West a distance of 205.00 feet;
- (5) North $21^{\circ}35'00''$ West a distance of 110.00 feet:
- (6) North $44^{\circ}00'53''$ West a distance of 26.38 feet:
- (7) North 33°49′18″ West a distance of 74.86 feet:
- (8) North 34°26′26″ West a distance of 12.00 feet:
- (9) North $31^{\circ}06'16''$ West a distance of 72.06 feet;
- (10) North $22^{\circ}35'00''$ West a distance of 150.00 feet;
- (11) North $16^{\circ}35'00''$ West a distance of 420.00 feet:
- (12) North $21^{\circ}10'00''$ West a distance of 440.00 feet;
- (13) North 17°55′00″ West a distance of 340.00 feet:
- (14) North $28^{\circ}05'00''$ West a distance of 375.00 feet;
- (15) North $16^{\circ}25'00''$ West a distance of 585.00 feet;
- (16) North 22°10′00″ West a distance of 160.00
- (17) North 2°46′36″ West a distance of 65.54 feet:

- (18) North $16^{\circ}01'08''$ West a distance of 70.04 feet;
- (19) North $49^{\circ}07'00''$ West a distance of 79.00 feet:
- (20) North $19^{\circ}16'00''$ West a distance of 425.00 feet:
- (21) North $16^{\circ}37'00''$ West a distance of 285.00 feet;
- (22) North $25^{\circ}20'00''$ West a distance of 360.00 feet;
- (23) North $33^{\circ}00'00''$ West a distance of 230.00 feet;
- (24) North $32^{\circ}40'00''$ West a distance of 310.00 feet;
- (25) North $27^{\circ}10'00''$ West a distance of 130.00 feet:
- (26) North $23^{\circ}20'00''$ West a distance of 315.00 feet;
- (27) North 18°20′04″ West a distance of 302.92 feet:
- (28) North $20^{\circ}15'48''$ West a distance of 387.18 feet;
- (29) North 14°20′00″ West a distance of 530.00 feet:
- (30) North $16^{\circ}40'00''$ West a distance of 260.00 feet;
- (31) North $28^{\circ}35'00''$ West a distance of 195.00 feet:
- (32) North 18°30′00″ West a distance of 170.00
- feet; (33) North $26^{\circ}30'00''$ West a distance of 340.00
- feet; (34) North 32°07′52″ West a distance of 232.38
- feet;
 (35) North 30°04′26″ West a distance of 17.96
- (36) North 23°19′13″ West a distance of 111.23 feet:
- (37) North 7°07′58″ West a distance of 63.90 feet:
- (38) North 8°11′02″ West a distance of 378.90 feet;
- (39) North $15^{\circ}01'02''$ West a distance of 190.64 feet;
- (40) North 2°55′00″ West a distance of 170.00 feet;
- (41) North $6^{\circ}45'00''$ West a distance of 240.00 feet;
- (42) North $0^{\circ}10'00''$ East a distance of 465.00 feet;
- (43) North 2°00'38" West a distance of 378.58 feet to the northerly line of Letters Patent dated February 21, 1968 and recorded in the Erie County Clerk's Office under Liber 7453 of Deeds at Page 45.

Thence North 71°23′35″ East along the north line of the aforementioned Letters Patent a distance of 154.95 feet to the shore line; thence along the shore line the following 6 courses and distances:

- (1) South $80^{\circ}14'01''$ East a distance of 119.30 feet;
- (2) North 46°15′13″ East a distance of 47.83 feet;
- (3) North 59°53′02″ East a distance of 53.32 feet;
- (4) North 38°20′43″ East a distance of 27.31 feet:
- (5) North 68°12′46″ East a distance of 48.67 feet;
- (6) North 26°11'47" East a distance of 11.48 feet to the northerly line of the aforementioned Letters Patent.

Thence along the northerly line of said Letters Patent, North 71°23′35″ East a distance of 1755.19 feet; thence South 35°27′25″ East a distance of 35.83 feet to a point on the U.S. Harbor Line; thence, North 54°02′35″ East along the U.S. Harbor Line a distance of 200.00 feet; thence continuing along the U.S. Harbor Line, North 50°01′45″ East a distance of 379.54 feet to the westerly line of the lands of Gateway Trade Center, Inc.; thence along

the lands of Gateway Trade Center, Inc. the following 27 courses and distances:

- (1) South 18°44′53″ East a distance of 623.56 feet:
- (2) South $34^{\circ}33'00''$ East a distance of 200.00 feet:
- (3) South $26^{\circ}18'55''$ East a distance of 500.00 feet;
- (4) South $19^{\circ}06'40''$ East a distance of 1074.29 feet;
- (5) South 28°03′18″ East a distance of 242.44 feet;
- (6) South 18°38′50″ East a distance of 1010.95 feet;
 (7) North 71°20′51″ East a distance of 90.42
- feet;
 (8) South 18°49′20″ East a distance of 158.61
- feet; (9) South $80^{\circ}55'10''$ East a distance of 45.14
- feet;
 (10) South 18°04′45″ East a distance of 52.13
- feet; (11) North 71°07′23″ East a distance of 102.59
- feet; (12) South 18°41'40" East a distance of 63.00
- feet; (13) South 71°07′23″ West a distance of 240.62
- feet; (14) South 18°38′50″ East a distance of 668.13
- (14) South 18°38′50″ East a distance of 668.13 feet;
- (15) North 71°28′46″ East a distance of 958.68 feet;
- (16) North $18^{\circ}42'31''$ West a distance of 1001.28 feet;
- (17) South 71°17′29" West a distance of 168.48 feet:
- (18) North 18°42′31″ West a distance of 642.00 feet;
- (19) North 71°17′37″ East a distance of 17.30 feet;
- (20) North 18°42′31″ West a distance of 574.67 feet;
- (21) North 71°17′29″ East a distance of 151.18 feet; (22) North 18°42′31″West a distance of 1156.43
- feet; (23) North 71°29′21″ East a distance of 569.24
- feet;
 (24) North 18°30'39" West a distance of 314.71
 feet;
- (25) North 70°59′36″ East a distance of 386.47 feet;
- (26) North 18°30′39″ West a distance of 70.00 feet:
- (27) North $70^{\circ}59'36''$ East a distance of 400.00 feet to the place or point of beginning. Containing 1,142.958 acres.
- (c) LIMITS ON APPLICABILITY; REGULATORY REQUIREMENTS.—The declaration under subsection (a) shall apply to those parts of the areas described in subsection (b) which are filled portions of Lake Erie. Any work on these filled portions is subject to all applicable Federal statutes and regulations, including sections 9 and 10 of the Act of March 3, 1899 (30 Stat. 1151; 33 U.S.C. 401 and 403), commonly known as the River and Harbors Appropriation Act of 1899, section 404 of the Federal Water Pollution Control Act (33 U.S.C. 1344), and the National Environmental Policy Act of 1969.
- (d) EXPIRATION DATE.—If, 20 years from the date of enactment of this Act, any area or part thereof described in subsection (a) of this section is not occupied by permanent structures in accordance with the requirements set out in subsection (c) of this section, or if work in connection with any activity permitted in subsection (c) is not commenced within 5 years after issuance of such permits, then the declaration of nonnavigability for such area or part thereof shall expire.

SEC. 353. PROJECT DEAUTHORIZATIONS.

- (a) IN GENERAL.—The following projects or portions of projects are not authorized after the date of enactment of this Act:
- (1) BLACK WARRIOR AND TOMBIGBEE RIVERS, JACKSON, ALABAMA.—The project for navigation, Black Warrior and Tombigbee Rivers, vicinity of Jackson, Alabama, authorized by section 106 of the Energy and Water Development Appropriations Act, 1987 (100 Stat. 3341–199).
- (2) SACRAMENTO DEEP WATER SHIP CHANNEL. CALIFORNIA.—The portion of the project for navigation, Sacramento Deep Water Ship Channel, California, authorized by section 202(a) of the Water Resources Development Act of 1986 (100 Stat. 4092), beginning from the confluence of the Sacramento River and the Barge Canal to a point 3,300 feet west of the William G. Stone Lock western gate (including the William G. Stone Lock and the Bascule Bridge and Barge Canal). All waters within such portion of the project are declared to be nonnavigable waters of the United States solely for purposes of the General Bridge Act of 1946 (33 U.S.C. 525 et seq.) and section 9 of the Act of March 3, 1899 (33 U.S.C. 401), commonly known as the Rivers and Harbors Appropriation Act of 1899.
- (3) BAY ISLAND CHANNEL, QUINCY, ILLINOIS.— The access channel across Bay Island into Quincy Bay at Quincy, Illinois, constructed under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577).
- (4) WARSAW BOAT HARBOR, ILLINOIS.—The portion of the project for navigation, Illinois Waterway, Illinois and Indiana, authorized by section 101 of the River and Harbor Act of 1962 (76 Stat. 1175), known as the Warsaw Boat Harbor, Illinois.
- (5) ROCKPORT HARBOR, ROCKPORT, MASSACHUSETTS.—The following portions of the project for navigation, Rockport Harbor, Massachusetts, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577):
- (A) The portion of the 10-foot harbor channel the boundaries of which begin at a point with coordinates N605,741.948, E838,031.378, thence running north 36 degrees 04 minutes 40.9 seconds east 123.386 feet to a point N605,642.226, E838,104.039, thence running south 05 degrees 08 minutes 35.1 seconds east 24.223 feet to a point N605,618.100, E838,106.210, thence running north 41 degrees 05 minutes 10.9 seconds west 141.830 feet to a point N605,725.000, E838,013.000, thence running north 47 degrees 19 minutes 04.1 seconds east 25.000 feet to the point of origin.
- (B) The portion of the 8-foot north basin entrance channel the boundaries of which point with coordinates at begin a N605,742.699, E837,977.129, thence running south 89 degrees 12 minutes 27.1 seconds east 54.255 feet to a point N605,741.948, E838,031.378, thence running south 47 degrees 19 minutes 04.1 seconds west 25.000 feet to a point N605,725.000, E838,013.000. thence running north 63 degrees 44 minutes 19.0 seconds west 40.000 feet to the point of origin.
- (C) The portion of the 8-foot south basin anchorage the boundaries of which begin at a point with coordinates N605 563 770 E838,111.100, thence running south 05 degrees 08 minutes 35.1 seconds east 53.460 feet to a point N605,510.525, E838,115.892, thence running south 52 degrees 10 minutes 55.5 seconds west 145.000 feet to a point N605,421.618, E838,001.348, thence running north 37 degrees 49 minutes 04.5 seconds west feet to a point N605,480.960, E837,955.287, thence running south 64 degrees 52 minutes 33.9 seconds east 33.823 feet to a point N605,466.600, E837,985.910, thence running north 52 degrees 10 minutes

- 55.5 seconds east 158.476 feet to the point of origin.
- (6) SCITUATE HARBOR, MASSACHUSETTS.—The portion of the project for navigation, Scituate Harbor, Massachusetts, authorized by section 101 of the River and Harbor Act of 1954 (68 Stat. 1249), consisting of an 8-foot anchorage basin and described as follows: Beginning at a point with coordinates N438,739.53, E810,354.75, thence running northwesterly about 200.00 feet to coordinates N438,874.02, E810,206.72, thence running northeasterly about 400.00 feet to coordinates N439,170.07, E810,475,70, thence running southwesterly about 447.21 feet to the point of origin.
- (7) DULUTH-SUPERIOR HARBOR, MINNESOTA AND WISCONSIN.—The portion of the project for navigation. Duluth-Superior Harbor. Minnesota and Wisconsin, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved June 3, 1896 (29 Stat. 212), known as the 21st Avenue West Channel, beginning at the most southeasterly point of the channel N423074.09, E2871635.43 thence running north-northwest about 1854.83 feet along the easterly limit of the project to a point N424706.69, E2870755.48, thence running northwesterly about 111.07 feet to a point on the northerly limit of the project N424777.27, E2870669.46, thence west-southwest 157.88 feet along the north limit of the project to a point N424703.04, E2870530.38, thence southsoutheast 1978.27 feet to the most southwesterly point N422961.45, E2871469.07, thence northeasterly 201.00 feet along the southern limit of the project to the point of origin.
- (8) TREMLEY POINT, NEW JERSEY.—The portion of the Federal navigation channel, New York and New Jersey Channels, New York and New Jersey, authorized by the first section of the Act entitled "An Act authorizing the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved August 30, 1935 (49 Stat. 1028), and modified by section 101 of the River and Harbor Act of 1950 (64 Stat. 164), that consists of a 35-foot deep channel beginning at a point along the western limit of the authorized project. N644100.411, E129256.91, thence running southeasterly about 38.25 feet to a point N644068.885, E129278.565, thence running southerly about 1,163.86 feet to a point N642912.127. E129150.209. thence running southwesterly about 56.89 feet to a point E2129119 725, thence running N642864 09 northerly along the existing western limit of the existing project to the point of origin.
- (9) ANGOLA, NEW YORK.—The project for erosion protection, Angola Water Treatment Plant, Angola, New York, constructed under section 14 of the Flood Control Act of 1946 (33 U.S.C. 701r).
- (10) WALLABOUT CHANNEL, BROOKLYN, NEW YORK.—The portion of the project for navigation, Wallabout Channel, Brooklyn, New York, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved March 3, 1899 (30 Stat. 1124), that is located at the northeast corner of the project and is described as follows:

Beginning at a point forming the northeast corner of the project and designated with the coordinate of North N 682,307.40; East 638,918.10; thence along the following 6 courses and distances:

- (A) South 85 degrees, 44 minutes, 13 seconds East 87.94 feet (coordinate: N 682,300.86 E 639 005 80)
- (B) North 74 degrees, 41 minutes, 30 seconds East 271.54 feet (coordinate: N 682,372.55 E 639,267.71).
- (C) South 4 degrees, 46 minutes, 02 seconds West 170.95 feet (coordinate: N 682,202.20 E 639.253.50).
- (D) South 4 degrees, 46 minutes, 02 seconds West 239.97 feet (coordinate: N 681,963.06 E 639.233.56).
- (E) North 50 degrees, 48 minutes, 26 seconds West 305.48 feet (coordinate: N 682,156.10 E 638,996.80).
- (F) North 3 degrees, 33 minutes, 25 seconds East 145.04 feet (coordinate: N 682,300.86 E 639,005.80).
- (b) ROCKPORT HARBOR, MASSACHUSETTS.— The project for navigation, Rockport Harbor, Massachusetts, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577), is modified—
- (1) to redesignate a portion of the 8-foot north outer anchorage as part of the 8-foot approach channel to the north inner basin described as follows: the perimeter of the area starts at a point with coordinates N605,792.110, E838,020.009, thence running south 89 degrees 12 minutes 27.1 seconds east 64.794 feet to a point N605,791.214, E838,084.797, thence running south 47 degrees 18 minutes 54.0 seconds west 40.495 feet to a point N605,763.760, E838,055.030, thence running north 68 degrees 26 minutes 49.0 seconds west 43.533 feet to a point N605,779.750, E838,014.540, thence running north 23 degrees 52 minutes 08.4 seconds east 13.514 feet to the point of origin; and
- (2) to realign a portion of the 8-foot north inner basin approach channel by adding an area described as follows: the perimeter of the area starts at a point with coordinates N605,792.637, E837,981.920, thence running south 89 degrees 12 minutes 27.1 seconds east 38.093 feet to a point N605,792.110, E838,020.009, thence running south 23 degrees 52 minutes 08.4 seconds west 13.514 feet to a point N605,779.752, E838,014.541, thence running north 68 degrees 26 minutes 49.0 seconds west 35.074 feet to the point of origin.

SEC. 354. WYOMING VALLEY, PENNSYLVANIA.

- (a) IN GENERAL.—The project for flood control, Wyoming Valley, Pennsylvania, authorized by section 401(a) of the Water Resources Development Act of 1986 (100 Stat. 4124) is modified as provided in this section.
- (b) ADDITIONAL PROJECT ELEMENTS.—The Secretary shall construct each of the following additional elements of the project to the extent that the Secretary determines that the element is technically feasible, environmentally acceptable, and economically justified:
- (1) The River Commons plan developed by the non-Federal sponsor for both sides of the Susquehanna River beside historic downtown Wilkes-Barre.
- (2) Necessary portal modifications to the project to allow at grade access from Wilkes-Barre to the Susquehanna River to facilitate operation, maintenance, replacement, repair, and rehabilitation of the project and to restore access to the Susquehanna River for the public.
- (3) A concrete capped sheet pile wall in lieu of raising an earthen embankment to reduce the disturbance to the Historic River Commons area.
- (4) All necessary modifications to the Stormwater Pump Stations in Wyoming Valley.
- (5) All necessary evaluations and modifications to all elements of the existing flood

control projects to include Coal Creek, Toby Creek, Abrahams Creek, and various relief culverts and penetrations through the levee.

- (c) CREDIT.—The Secretary shall credit the Luzerne County Flood Protection Authority toward the non-Federal share of the cost of the project for the value of the Forty-Fort ponding basin area purchased after June 1, 1972, by Luzerne County, Pennsylvania, for an estimated cost of \$500,000 under section 102(w) of the Water Resources Development Act of 1992 (102 Stat. 508) to the extent that the Secretary determines that the area purchased is integral to the project.
- (d) Modification of Mitigation Plan and Project Cooperation Agreement.—
- (1) Modification of Mitigation Plan.—The Secretary shall provide for the deletion, from the Mitigation Plan for the Wyoming Valley Levees, approved by the Secretary on February 15, 1996, the proposal to remove the abandoned Bloomsburg Railroad Bridge.
- (2) Modification of Project Cooperation Agreement.—The Secretary shall modify the project cooperation agreement, executed in October 1996, to reflect removal of the railroad bridge and its \$1,800,000 total cost from the mitigation plan under paragraph (1).
- (e) MAXIMUM PROJECT COST.—The total cost of the project, as modified by this section, shall not exceed the amount authorized in section 401(a) of the Water Resources Development Act of 1986 (100 Stat. 4124), with increases authorized by section 902 of the Water Resources Development Act of 1986 (100 Stat. 4183).

SEC. 355. REHOBOTH BEACH AND DEWEY BEACH, DELAWARE.

The project for storm damage reduction and shoreline protection, Rehoboth Beach and Dewey Beach, Delaware, authorized by section 101(b)(6) of the Water Resources development Act of 1996, is modified to authorize the project at a total cost of \$13,997,000, with an estimated Federal cost of \$9,098,000 and an estimated non-Federal cost of \$4,899,000, and an estimated average annual cost of \$1,320,000 for periodic nourishment over the 50-year life of the project, with an estimated annual Federal cost of \$858,000 and an estimated annual non-Federal cost of \$462,000.

TITLE IV—STUDIES

SEC. 401. STUDIES OF COMPLETED PROJECTS.

The Secretary shall conduct a study under section 216 of the Flood Control Act of 1970 (84 Stat. 1830) of each of the following completed projects:

- (1) ESCAMBIA BAY AND RIVER, FLORIDA.—Project for navigation, Escambia Bay and River, Florida.
- (2) ILLINOIS RIVER, HAVANA, ILLINOIS.— Project for flood control, Illinois River, Havana, Illinois, authorized by section 5 of the Flood Control Act of June 22, 1936 (49 Stat. 1583).
- (3) SPRING LAKE, ILLINOIS.—Project for flood control, Spring Lake, Illinois, authorized by section 5 of the Flood Control Act of June 22, 1936 (49 Stat. 1584).
- (4) PORT ORFORD, OREGON.—Project for flood control, Port Orford, Oregon, authorized by section 301 of River and Harbor Act of 1965 (79 Stat. 1092).

SEC. 402. WATERSHED AND RIVER BASIN ASSESSMENTS.

Section 729 of the Water Resources Development Act of 1986 (100 Stat. 4164) is amended to read as follows:

"SEC. 729. WATERSHED AND RIVER BASIN AS-SESSMENTS.

"(a) IN GENERAL.—The Secretary may assess the water resources needs of interstate

river basins and watersheds of the United States. The assessments shall be undertaken in cooperation and coordination with the Departments of the Interior, Agriculture, and Commerce, the Environmental Protection Agency, and other appropriate agencies, and may include an evaluation of ecosystem protection and restoration, flood damage reduction, navigation and port needs, watershed protection, water supply, and drought preparedness.

"(b) CONSULTATION.—The Secretary shall consult with Federal, tribal, State, interstate, and local governmental entities in carrying out the assessments authorized by this section. In conducting the assessments, the Secretary may accept contributions of services, materials, supplies and cash from Federal, tribal, State, interstate, and local governmental entities where the Secretary determines that such contributions will facilitate completion of the assessments.

"(c) PRIORITY CONSIDERATION.—The Secretary shall give priority consideration to the following interstate river basins and watersheds:

- "(1) Delaware River.
- "(2) Potomac River.
- "(3) Susquehanna River.
- "(4) Kentucky River.
- "(d) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$15,000,000.".

SEC. 403. LOWER MISSISSIPPI RIVER RESOURCE ASSESSMENT.

- (a) ASSESSMENTS.—The Secretary, in cooperation with the Secretary of the Interior and the States of Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri, and Tennessee, shall undertake, at Federal expense, for the Lower Mississippi River system—
- (1) an assessment of information needed for river-related management;
- (2) an assessment of natural resource habitat needs; and
- (3) an assessment of the need for river-related recreation and access.
- (b) PERIOD.—Each assessment referred to in subsection (a) shall be carried out for 2 years.
- (c) REPORTS.—Before the last day of the second year of an assessment under subsection (a), the Secretary, in cooperation with the Secretary of the Interior and the States of Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri, and Tennessee, shall transmit to Congress a report on the results of the assessment to Congress. The report shall contain recommendations for—
- (1) the collection, availability, and use of information needed for river-related management;
- (2) the planning, construction, and evaluation of potential restoration, protection, and enhancement measures to meet identified habitat needs; and
- (3) potential projects to meet identified river access and recreation needs.
- (d) LOWER MISSISSIPPI RIVER SYSTEM DEFINED.—In this section, the term "Lower Mississippi River system" means those river reaches and adjacent floodplains within the Lower Mississippi River alluvial valley having commercial navigation channels on the Mississippi mainstem and tributaries south of Cairo, Illinois, and the Atchafalaya basin floodway system.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated \$1,750,000 to carry out this section.

SEC. 404. UPPER MISSISSIPPI RIVER BASIN SEDI-MENT AND NUTRIENT STUDY.

(a) IN GENERAL.—The Secretary shall conduct, at Federal expense, a study—

- (1) to identify significant sources of sediment and nutrients in the Upper Mississippi River basin; and
- (2) to describe and evaluate the processes by which the sediments and nutrients move, on land and in water, from their sources to the Upper Mississippi River and its tributaries.
- (b) CONSULTATION.—In conducting the study, the Secretary shall consult the Departments of Agriculture and the Interior.
- (c) Components of the Study.—
- (1) COMPUTER MODELING.—As part of the study, the Secretary shall develop computer models at the subwatershed and basin level to identify and quantify the sources of sediment and nutrients and to examine the effectiveness of alternative management measures.
- (2) RESEARCH.—As part of the study, the Secretary shall conduct research to improve understanding of—
- (A) the processes affecting sediment and nutrient (with emphasis on nitrogen and phosphorus) movement:
- (B) the influences of soil type, slope, climate, vegetation cover, and modifications to the stream drainage network on sediment and nutrient losses; and
- (C) river hydrodynamics in relation to sediment and nutrient transformations, retention, and movement.
- (d) USE OF INFORMATION.—Upon request of a Federal agency, the Secretary may provide information to the agency for use in sediment and nutrient reduction programs associated with land use and land management practices.
- (e) REPORT TO CONGRESS.—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study, including findings and recommendations.
- (f) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$10,000,000.

SEC. 405. UPPER MISSISSIPPI RIVER COM-PREHENSIVE PLAN.

Section 459(e) of the Water Resources Development Act of 1999 (113 Stat. 333) is amended by striking "date of enactment of this Act" and inserting "first date on which funds are appropriated to carry out this section."

SEC. 406. OHIO RIVER SYSTEM.

The Secretary may conduct a study of commodity flows on the Ohio River system at Federal expense. The study shall include an analysis of the commodities transported on the Ohio River system, including information on the origins and destinations of these commodities and market trends, both national and international.

SEC. 407. EASTERN ARKANSAS.

- (a) IN GENERAL.—The Secretary shall reevaluate the recommendations in the Eastern Arkansas Region Comprehensive Study of the Memphis District Engineer, dated August 1990, to determine whether the plans outlined in the study for agricultural water supply from the Little Red River, Arkansas, are feasible and in the Federal interest.
- (b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the reevaluation.

SEC. 408. RUSSELL, ARKANSAS.

(a) IN GENERAL.—The Secretary shall evaluate the preliminary investigation report for agricultural water supply, Russell,

Arkansas, entitled "Preliminary Investigation: Lone Star Management Project", prepared for the Lone Star Water Irrigation District, to determine whether the plans contained in the report are feasible and in the Federal interest.

(b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the evaluation.

SEC. 409. ESTUDILLO CANAL, SAN LEANDRO, CALIFORNIA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for flood damage reduction along the Estudillo Canal, San Leandro, California.

SEC. 410. LAGUNA CREEK, FREMONT, CALIFORNIA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for flood damage reduction in the Laguna Creek watershed. Fremont, California.

SEC. 411. LAKE MERRITT, OAKLAND, CALIFORNIA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for ecosystem restoration, flood damage reduction, and recreation at Lake Merritt, Oakland, California.

SEC. 412. LANCASTER, CALIFORNIA.

- (a) IN GENERAL.—The Secretary shall evaluate the report of the city of Lancaster, California, entitled "Master Plan of Drainage", to determine whether the plans contained in the report are feasible and in the Federal interest, including plans relating to drainage corridors located at 52nd Street West, 35th Street West, North Armargosa, and 20th Street East.
- (b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the evaluation.

SEC. 413. NAPA COUNTY, CALIFORNIA.

- (a) STUDY.—The Secretary shall conduct a study to determine the feasibility of carrying out a project to address water supply, water quality, and groundwater problems at Miliken, Sarco, and Tulocay Creeks in Napa County, California.
- (b) USE OF EXISTING DATA.—In conducting the study, the Secretary shall use data and information developed by the United States Geological Survey in the report entitled "Geohydrologic Framework and Hydrologic Budget of the Lower Miliken-Sarco-Tulocay Creeks Area of Napa, California".

SEC. 414. OCEANSIDE, CALIFORNIA.

The Secretary shall conduct a study, at Federal expense, to determine the feasibility of carrying out a project for shoreline protection at Oceanside, California. In conducting the study, the Secretary shall determine the portion of beach erosion that is the result of a Navy navigation project at Camp Pendleton Harbor, California.

SEC. 415. SUISUN MARSH, CALIFORNIA.

The investigation for Suisun Marsh, California, authorized under the Energy and Water Development Appropriations Act, 2000 (Public Law 106–60), shall be limited to evaluating the feasibility of the levee enhancement and managed wetlands protection program for Suisun Marsh, California.

SEC. 416. LAKE ALLATOONA WATERSHED, GEOR-GIA.

Section 413 of the Water Resources Development Act of 1999 (113 Stat. 324) is amended to read as follows:

"SEC. 413. LAKE ALLATOONA WATERSHED, GEORGIA.

"(a) IN GENERAL.—The Secretary shall conduct a comprehensive study of the Lake Allatoona watershed, Georgia, to determine

the feasibility of undertaking ecosystem restoration and resource protection measures.

"(b) MATTERS TO BE ADDRESSED.—The study shall address streambank and shore-line erosion, sedimentation, water quality, fish and wildlife habitat degradation and other problems relating to ecosystem restoration and resource protection in the Lake Allatoona watershed."

SEC. 417. CHICAGO RIVER, CHICAGO, ILLINOIS.

- (a) IN GENERAL.—The Secretary shall conduct a study to determine the feasibility of carrying out a project for shoreline protection along the Chicago River, Chicago, Illinois.
- (b) CONSULTATION.—In conducting the study, the Secretary shall consult, and incorporate information available from, appropriate Federal, State, and local government agencies.

SEC. 418. CHICAGO SANITARY AND SHIP CANAL SYSTEM, CHICAGO, ILLINOIS.

The Secretary shall conduct a study to determine the advisability of reducing the use of the waters of Lake Michigan to support navigation in the Chicago sanitary and ship canal system, Chicago, Illinois.

SEC. 419. LONG LAKE, INDIANA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for environmental restoration and protection. Long Lake, Indiana.

SEC. 420. BRUSH AND ROCK CREEKS, MISSION HILLS AND FAIRWAY, KANSAS.

- (a) IN GENERAL.—The Secretary shall evaluate the preliminary engineering report for the project for flood control, Mission Hills and Fairway, Kansas, entitled "Preliminary Engineering Report: Brush Creek/Rock Creek Drainage Improvements, 66th Street to State Line Road", to determine whether the plans contained in the report are feasible and in the Federal interest.
- (b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the evaluation.

SEC. 421. COASTAL AREAS OF LOUISIANA.

The Secretary shall conduct a study to determine the feasibility of developing measures to floodproof major hurricane evacuation routes in the coastal areas of Louisiana.

SEC. 422. IBERIA PORT, LOUISIANA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for navigation, Iberia Port, Louisiana.

SEC. 423. LAKE PONTCHARTRAIN SEAWALL, LOU-ISIANA.

Not later than 180 days after the date of enactment of this Act, the Secretary shall complete a post-authorization change report on the project for hurricane-flood protection, Lake Pontchartrain, Louisiana, authorized by section 204 of the Flood Control Act of 1965 (79 Stat. 1077), to incorporate and accomplish structural modifications to the seawall providing protection along the south shore of Lake Pontchartrain from the New Basin Canal on the west to the Inner Harbor Navigation Canal on the east.

SEC. 424. LOWER ATCHAFALAYA BASIN, LOU-ISIANA.

As part of the Lower Atchafalaya basin reevaluation study, the Secretary shall determine the feasibility of carrying out a project for flood damage reduction, Stephensville, Louisiana.

SEC. 425. ST. JOHN THE BAPTIST PARISH, LOU-ISIANA.

The Secretary shall conduct a study to determine the feasibility of carrying out a

project for flood damage reduction on the east bank of the Mississippi River in St. John the Baptist Parish, Louisiana.

SEC. 426. LAS VEGAS VALLEY, NEVADA.

Section 432(b) of the Water Resources Development Act of 1999 (113 Stat. 327) is amended by inserting "recreation," after "runoff,".

SEC. 427. SOUTHWEST VALLEY, ALBUQUERQUE, NEW MEXICO.

Section 433 of the Water Resources Development Act of 1999 (113 Stat. 327) is amended—

- (1) by inserting "(a) IN GENERAL.—" before "The"; and
- (2) by adding at the end the following:
- "(b) EVALUATION OF FLOOD DAMAGE REDUC-TION MEASURES.—In conducting the study, the Secretary shall evaluate flood damage reduction measures that would otherwise be excluded from the feasibility analysis based on policies of the Corps of Engineers concerning the frequency of flooding, the drainage area, and the amount of runoff."

SEC. 428. BUFFALO HARBOR, BUFFALO, NEW YORK.

- (a) IN GENERAL.—The Secretary shall conduct a study to determine the advisability and potential impacts of declaring as non-navigable a portion of the channel at Control Point Draw, Buffalo Harbor, Buffalo New York.
- (b) CONTENTS.—The study conducted under this section shall include an examination of other options to meet intermodal transportation needs in the area.

SEC. 429. HUDSON RIVER, MANHATTAN, NEW YORK.

- (a) IN GENERAL.—The Secretary shall conduct a study to determine the feasibility of establishing a Hudson River Park in Manhatan, New York City, New York. The study shall address the issues of shoreline protection, environmental protection and restoration, recreation, waterfront access, and open space for the area between Battery Place and West 59th Street.
- (b) CONSULTATION.—In conducting the study under subsection (a), the Secretary shall consult the Hudson River Park Trust.
- (c) REPORT.—Not later than 1 year after the date of enactment of this section, the Secretary shall transmit to Congress a report on the result of the study, including a master plan for the park.

SEC. 430. JAMESVILLE RESERVOIR, ONONDAGA COUNTY, NEW YORK.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for aquatic ecosystem restoration, flood damage reduction, and water quality, Jamesville Reservoir, Onondaga County, New York.

SEC. 431. STEUBENVIILLE, OHIO.

The Secretary shall conduct a study to determine the feasibility of developing a public port along the Ohio River in the vicinity of Steubenville, Ohio.

SEC. 432. GRAND LAKE, OKLAHOMA.

Section 560(a) of the Water Resources Development Act of 1996 (110 Stat. 3783) is amended—

- (1) by striking "date of enactment of this Act" and inserting "date of enactment of the Water Resources Development Act of 2000"; and
- (2) by inserting "and Miami" after "Pensacola Dam".

SEC. 433. COLUMBIA SLOUGH, OREGON.

Not later than 180 days after the date of enactment of this Act, the Secretary shall complete under section 1135 of the Water Resource Development Act of 1986 (33 U.S.C. 2309a) a feasibility study for the ecosystem restoration project at Columbia Slough, Oregon. If the Secretary determines that the project is feasible, the Secretary may carry out the project on an expedited basis under such section.

SEC. 434. REEDY RIVER, GREENVILLE, SOUTH CAROLINA.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for aquatic ecosystem restoration, flood damage reduction, and streambank stabilization on the Reedy River, Cleveland Park West, Greenville, South Carolina.

SEC. 435. GERMANTOWN, TENNESSEE.

- (a) IN GENERAL.—The Secretary shall conduct a study to determine the feasibility of carrying out a project for flood control and related purposes along Miller Farms Ditch, Howard Road Drainage, and Wolf River Lateral D, Germantown, Tennessee.
 - (b) Cost Sharing.—The Secretary—
- (1) shall credit toward the non-Federal share of the costs of the feasibility study the value of the in-kind services provided by the non-Federal interests relating to the planning, engineering, and design of the project, whether carried out before or after execution of the feasibility study cost-sharing agreement if the Secretary determines the work is necessary for completion of the study: and
- (2) for the purposes of paragraph (1), shall consider the feasibility study to be conducted as part of the Memphis Metro Tennessee and Mississippi study authorized by resolution of the Committee on Transportation and Infrastructure, dated March 7, 1996.
- (c) LIMITATION.—The Secretary may not reject the project under the feasibility study based solely on a minimum amount of stream runoff.

SEC. 436. HOUSTON SHIP CHANNEL, GALVESTON, TEXAS.

The Secretary shall conduct a study to determine the feasibility of constructing barge lanes adjacent to the Houston Ship Channel from Redfish Reef to Morgan Point in Galveston, Texas.

SEC. 437. PARK CITY, UTAH.

The Secretary shall conduct a study to determine the feasibility of carrying out a project for water supply, Park City, Utah.

SEC. 438. MILWAUKEE, WISCONSIN.

- (a) IN GENERAL.—The Secretary shall evaluate the report for the project for flood damage reduction and environmental restoration, Milwaukee, Wisconsin, entitled "Interim Executive Summary: Menominee River Flood Management Plan", dated September 1999, to determine whether the plans contained in the report are cost-effective, technically sound, environmentally acceptable, and in the Federal interest.
- (b) REPORT.—Not later than September 30, 2001, the Secretary shall transmit to Congress a report on the results of the evaluation.

SEC. 439. UPPER DES PLAINES RIVER AND TRIBU-TARIES, ILLINOIS AND WISCONSIN.

Section 419 of the Water Resources Development Act of 1999 (113 Stat. 324-325) is amended by adding at the end the following:

"(d) CREDIT.—The Secretary shall provide the non-Federal interest credit toward the non-Federal share of the cost of the study for work performed by the non-Federal interest before the date of the study's feasibility cost-share agreement if the Secretary determines that the work is integral to the study.".

SEC. 440. DELAWARE RIVER WATERSHED.

(a) STUDY.—The Secretary shall conduct studies and assessments to analyze the

- sources and impacts of sediment contamination in the Delaware River watershed.
- (b) ACTIVITIES.—Activities authorized under this section shall be conducted by a university with expertise in research in contaminated sediment sciences.
- (c) AUTHORIZATION OF APPROPRIATIONS.-
- (1) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to the Secretary to carry out this section \$5,000,000. Such sums shall remain available until expended.
- (2) CORPS OF ENGINEERS EXPENSES.—10 percent of the amounts appropriated to carry out this section may be used by the Corps of Engineers district offices to administer and implement studies and assessments under this section.

TITLE V—MISCELLANEOUS PROVISIONS SEC. 501. BRIDGEPORT, ALABAMA.

(a) DETERMINATION.—The Secretary shall review the construction of a channel performed by the non-Federal interest at the project for navigation, Tennessee River, Bridgeport, Alabama, to determine the Federal navigation interest in such work.

(b) REIMBURSEMENT.—If the Secretary determines under subsection (a) that the work performed by the non-Federal interest is consistent with the Federal navigation interest, the Secretary shall reimburse the non-Federal interest an amount equal to the Federal share of the cost of construction of the channel.

SEC. 502. DUCK RIVER, CULLMAN, ALABAMA.

The Secretary shall provide technical assistance to the city of Cullman, Alabama, in the management of construction contracts for the reservoir project on the Duck River. SEC. 503. SEWARD, ALASKA.

The Secretary shall carry out, on an emergency one-time basis, necessary repairs of the Lowell Creek Tunnel in Seward, Alaska, at Federal expense and a total cost of \$3,000,000.

SEC. 504. AUGUSTA AND DEVALLS BLUFF, ARKANSAS.

- (a) IN GENERAL.—The Secretary may operate, maintain, and rehabilitate 37 miles of levees in and around Augusta and Devalls Bluff, Arkansas.
- (b) REIMBURSEMENT.—After incurring any cost for operation, maintenance, or rehabilitation under subsection (a), the Secretary may seek reimbursement from the Secretary of the Interior of an amount equal to the portion of such cost that the Secretary determines is a benefit to a Federal wildlife refuge.

SEC. 505. BEAVER LAKE, ARKANSAS.

The contract price for additional storage for the Carroll-Boone Water District beyond that which is provided for in section 521 of the Water Resources Development Act of 1999 (113 Stat. 345) shall be based on the original construction cost of Beaver Lake and adjusted to the 2000 price level net of inflation between the date of initiation of construction and the date of enactment of this Act. SEC. 506. McCLELLAN-KERR ARKANSAS RIVER

NAVIGATION SYSTEM, ARKANSAS AND OKLAHOMA.

Taking into account the need to realize the total economic potential of the McClellan-Kerr Arkansas River navigation system, the Secretary shall expedite completion of the Arkansas River navigation study, including the feasibility of increasing the authorized channel from 9 feet to 12 feet and, if justified, proceed directly to project preconstruction engineering and design.±

SEC. 507. CALFED BAY DELTA PROGRAM ASSIST-ANCE, CALIFORNIA.

(a) IN GENERAL.—The Secretary may participate with appropriate Federal and State

agencies in planning and management activities associated with the CALFED Bay Delta Program (in this section referred to as the "Program") and shall, to the maximum extent practicable and in accordance with all applicable laws, integrate the activities of the Corps of Engineers in the San Joaquin and Sacramento River basins with the long-term goals of the Program.

(b) COOPERATIVE ACTIVITIES.—In carrying out this section, the Secretary—

- (1) may accept and expend funds from other Federal agencies and from public, private, and non-profit entities to carry out ecosystem restoration projects and activities associated with the Program; and
- (2) may enter into contracts, cooperative research and development agreements, and cooperative agreements, with Federal and public, private, and non-profit entities to carry out such projects and activities.
- (c) GEOGRAPHIC SCOPE.—For the purposes of the participation of the Secretary under this section, the geographic scope of the Program shall be the San Francisco Bay and the Sacramento-San Joaquin Delta Estuary and their watershed (also known as the "Bay-Delta Estuary"), as identified in the agreement entitled the "Framework Agreement Between the Governor's Water Policy Council of the State of California and the Federal Ecosystem Directorate".
- (d) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$5,000,000 for fiscal years 2002 through 2005.

SEC. 508. CLEAR LAKE BASIN, CALIFORNIA.

Amounts made available to the Secretary by the Energy and Water Appropriations Act, 2000 (113 Stat. 483 et seq.) for the project for aquatic ecosystem restoration, Clear Lake basin, California, to be carried out under section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2330), may only be used for the wetlands restoration and creation elements of the project.

SEC. 509. CONTRA COSTA CANAL, OAKLEY AND KNIGHTSEN, CALIFORNIA.

The Secretary shall carry out a project for flood damage reduction under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s) at the Contra Costa Canal, Oakley and Knightsen, California, if the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified.

SEC. 510. HUNTINGTON BEACH, CALIFORNIA.

The Secretary shall carry out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s) a project for flood damage reduction in Huntington Beach, California, if the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified.

SEC. 511. MALLARD SLOUGH, PITTSBURG, CALI-FORNIA.

The Secretary shall carry out under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s) a project for flood damage reduction in Mallard Slough, Pittsburg, California, if the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified.

SEC. 512. PENN MINE, CALAVERAS COUNTY, CALIFORNIA.

(a) IN GENERAL.—The Secretary shall reimburse the non-Federal interest for the project for aquatic ecosystem restoration, Penn Mine, Calaveras County, California, carried out under section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2330), \$4,100,000 for the Federal share of costs incurred by the non-Federal interest for

work carried out by the non-Federal interest for the project.

(b) SOURCE OF FUNDING.—Reimbursement under subsection (a) shall be from amounts appropriated before the date of enactment of this Act for the project described in subsection (a).

SEC. 513. PORT OF SAN FRANCISCO, CALIFORNIA.

(a) EMERGENCY MEASURES.—The Secretary shall carry out, on an emergency basis, measures to address health, safety, and environmental risks posed by floatables and floating debris originating from Piers 24 and 64 in the Port of San Francisco, California, by removing such floatables and debris.

(b) STUDY.—The Secretary shall conduct a study to determine the risk to navigation posed by floatables and floating debris originating from Piers 24 and 64 in the Port of San Francisco, California, and the cost of removing such floatables and debris.

(c) $\overline{\text{FUNDING}}$.—There is authorized to be appropriated \$3,000,000 to carry out this section.

SEC. 514. SAN GABRIEL BASIN, CALIFORNIA.

- (a) SAN GABRIEL BASIN RESTORATION.—
- (1) ESTABLISHMENT OF FUND.—There shall be established within the Treasury of the United States an interest bearing account to be known as the San Gabriel Basin Restoration Fund (in this section referred to as the "Restoration Fund").
- (2) ADMINISTRATION OF FUND.—The Restoration Fund shall be administered by the Secretary, in cooperation with the San Gabriel Basin Water Quality Authority or its successor agency.
 - (3) Purposes of fund.—
- (A) IN GENERAL.—Subject to subparagraph (B), the amounts in the Restoration Fund, including interest accrued, shall be utilized by the Secretary—
- (i) to design and construct water quality projects to be administered by the San Gabriel Basin Water Quality Authority and the Central Basin Water Quality Project to be administered by the Central Basin Municipal Water District; and
- (ii) to operate and maintain any project constructed under this section for such period as the Secretary determines, but not to exceed 10 years, following the initial date of operation of the project.
- (B) Cost-sharing limitation.—The Secretary may not obligate any funds appropriated to the Restoration Fund in a fiscal year until the Secretary has deposited in the Fund an amount provided by non-Federal interests sufficient to ensure that at least 35 percent of any funds obligated by the Secretary are from funds provided to the Secretary by the non-Federal interests. The San Gabriel Basin Water Quality Authority shall be responsible for providing the non-Federal amount required by the preceding sentence. The State of California, local government agencies, and private entities may provide all or any portion of such amount.
- (b) COMPLIANCE WITH APPLICABLE LAW.—In carrying out the activities described in this section, the Secretary shall comply with any applicable Federal and State laws.
- (c) RELATIONSHIP TO OTHER ACTIVITIES.—Nothing in this section shall be construed to affect other Federal or State authorities that are being used or may be used to facilitate the cleanup and protection of the San Gabriel and Central groundwater basins. In carrying out the activities described in this section, the Secretary shall integrate such activities with ongoing Federal and State projects and activities. None of the funds made available for such activities pursuant to this section shall be counted against any

Federal authorization ceiling established for any previously authorized Federal projects or activities

- (d) Authorization of Appropriations.—
- (1) IN GENERAL.—There is authorized to be appropriated to the Restoration Fund established under subsection (a) \$85,000,000. Such funds shall remain available until expended.
- (2) SET-ASIDE.—Of the amounts appropriated under paragraph (1), no more than \$10,000,000 shall be available to carry out the Central Basin Water Quality Project.
- (e) ADJUSTMENT.—Of the \$25,000,000 made available for San Gabriel Basin Groundwater Restoration, California, under the heading "Construction, General" in title I of the Energy and Water Development Appropriations Act. 2001—
- (1) \$2,000,000 shall be available only for studies and other investigative activities and planning and design of projects determined by the Secretary to offer a long-term solution to the problem of groundwater contamination caused by perchlorates at sites located in the city of Santa Clarita, California; and
- (2) \$23,000,000 shall be deposited in the Restoration Fund, of which \$4,000,000 shall be used for remediation in the Central Basin, California.

SEC. 515. STOCKTON, CALIFORNIA.

The Secretary shall evaluate the feasibility of the Lower Mosher Slough element and the levee extensions on the Upper Calaveras River element of the project for flood control. Stockton Metropolitan Area. California, carried out under section 211(f)(3) of the Water Resources Development Act of 1996 (110 Stat. 3683), to determine the eligibility of such elements for reimbursement under section 211 of such Act (33 U.S.C. 701b-13). If the Secretary determines that such elements are technically sound, environmentally acceptable, and economically justified, the Secretary shall reimburse under section 211 of such Act the non-Federal interest for the Federal share of the cost of such elements.

SEC. 516. PORT EVERGLADES, FLORIDA.

Notwithstanding the absence of a project cooperation agreement, the Secretary shall reimburse the non-Federal interest for the project for navigation, Port Everglades Harbor, Florida, \$15,003,000 for the Federal share of costs incurred by the non-Federal interest in carrying out the project and determined by the Secretary to be eligible for reimbursement under the limited reevaluation report of the Corps of Engineers, dated April 1998.

SEC. 517. FLORIDA KEYS WATER QUALITY IMPROVEMENTS.

- (a) IN GENERAL.—In coordination with the Florida Keys Aqueduct Authority, appropriate agencies of municipalities of Monroe County, Florida, and other appropriate public agencies of the State of Florida or Monroe County, the Secretary may provide technical and financial assistance to carry out projects for the planning, design, and construction of treatment works to improve water quality in the Florida Keys National Marine Sanctuary.
- (b) CRITERIA FOR PROJECTS.—Before entering into a cooperation agreement to provide assistance with respect to a project under this section, the Secretary shall ensure that—
- (1) the non-Federal sponsor has completed adequate planning and design activities, as applicable;
- (2) the non-Federal sponsor has completed a financial plan identifying sources of non-Federal funding for the project;
 - (3) the project complies with-

- (A) applicable growth management ordinances of Monroe County, Florida;
- (B) applicable agreements between Monroe County, Florida, and the State of Florida to manage growth in Monroe County, Florida; and
- (C) applicable water quality standards; and (4) the project is consistent with the master wastewater and stormwater plans for
- Monroe County, Florida.
 (c) CONSIDERATION.—In selecting projects under subsection (a), the Secretary shall consider whether a project will have substan-
- under subsection (a), the Secretary shall consider whether a project will have substantial water quality benefits relative to other projects under consideration.
- (d) CONSULTATION.—In carrying out this section, the Secretary shall consult with—
- (1) the Water Quality Steering Committee established under section 8(d)(2)(A) of the Florida Keys National Marine Sanctuary and Protection Act (106 Stat. 5054);
- (2) the South Florida Ecosystem Restoration Task Force established by section 528(f) of the Water Resources Development Act of 1996 (110 Stat. 3771-3773);
- (3) the Commission on the Everglades established by executive order of the Governor of the State of Florida; and
- (4) other appropriate State and local government officials.
 - (e) Non-Federal Share.—
- (1) IN GENERAL.—The non-Federal share of the cost of a project carried out under this section shall be 35 percent.
 - (2) CREDIT.—
- (A) IN GENERAL.—The Secretary may provide the non-Federal interest credit toward cash contributions required—
- (i) before and during the construction of the project, for the costs of planning, engineering, and design, and for the construction management work that is performed by the non-Federal interest and that the Secretary determines is necessary to implement the project; and
- (ii) during the construction of the project, for the construction that the non-Federal interest carries out on behalf of the Secretary and that the Secretary determines is necessary to carry out the project.
- (B) TREATMENT OF CREDIT BETWEEN PROJECTS.—Any credit provided under this paragraph may be carried over between authorized projects.
- (f) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$100,000,000. Such sums shall remain available until expended.

SEC. 518. BALLARD'S ISLAND, LASALLE COUNTY, ILLINOIS.

The Secretary may provide the non-Federal interest for the project for the improvement of the quality of the environment. Ballard's Island, LaSalle County, Illinois, carried out under section 1135 of the Water Resources Development Act of 1986 (33 U.S.C 2309a), credit toward the non-Federal share of the cost of the project for work performed by the non-Federal interest after July 1, 1999, if the Secretary determines that the work is integral to the project.

SEC. 519. LAKE MICHIGAN DIVERSION, ILLINOIS.

Section 1142(b) of the Water Resources Development Act of 1986 (110 Stat. 4253; 113 Stat. 339) is amended by inserting after "2003" the following: "and \$800,000 for each fiscal year beginning after September 30, 2003."

SEC. 520. KOONTZ LAKE, INDIANA.

The Secretary shall provide the non-Federal interest for the project for aquatic ecosystem restoration, Koontz Lake, Indiana, carried out under section 206 of the Water Resources Development Act of 1996 (22 U.S.C.

2330), credit toward the non-Federal share of the cost of the project for work performed by the non-Federal interest before the date of execution of the project cooperation agreement if the Secretary determines that the work is integral to the project.

SEC. 521. CAMPBELLSVILLE LAKE, KENTUCKY.

The Secretary shall repair the retaining wall and dam at Campbellsville Lake, Kentucky, to protect the public road on top of the dam at Federal expense and a total cost of \$200.000.

SEC. 522. WEST VIEW SHORES, CECIL COUNTY, MARYLAND.

Not later than 1 year after the date of enactment of this Act, the Secretary shall carry out an investigation of the contamination of the well system in West View Shores, Cecil County, Maryland. If the Secretary determines that a disposal site for a Federal navigation project has contributed to the contamination of the well system, the Secretary may provide alternative water supplies, including replacement of wells, at Federal expense.

SEC. 523. CONSERVATION OF FISH AND WILD-LIFE, CHESAPEAKE BAY, MARYLAND AND VIRGINIA.

Section 704(b) of the Water Resources Development Act of 1986 (33 U.S.C. 2263(b)) is amended by adding at the end the following: "In addition, there is authorized to be appropriated \$20,000,000 to carry out paragraph (4).".

SEC. 524. MUDDY RIVER, BROOKLINE AND BOSTON, MASSACHUSETTS.

The Secretary shall carry out the project for flood damage reduction and environmental restoration, Muddy River, Brookline and Boston, Massachusetts, substantially in accordance with the plans, and subject to the conditions, described in the draft evaluation report of the New England District Engineer entitled "Phase I Muddy River Master Plan", dated June 2000.

SEC. 525. SOO LOCKS, SAULT STE. MARIE, MICHIGAN.

The Secretary may not require a cargo vessel equipped with bow thrusters and friction winches that is transiting the Soo Locks in Sault Ste. Marie, Michigan, to provide more than 2 crew members to serve as line handlers on the pier of a lock, except in adverse weather conditions or if there is a mechanical failure on the vessel.

SEC. 526. DULUTH, MINNESOTA, ALTERNATIVE TECHNOLOGY PROJECT.

- (a) PROJECT AUTHORIZATION.—Section 541(a) of the Water Resources Development Act of 1996 (110 Stat. 3777) is amended—
- (1) by striking "implement" and inserting "conduct full scale demonstrations of"; and
- (2) by inserting before the period the following: ", including technologies evaluated for the New York/New Jersey Harbor under section 405 of the Water Resources Development Act of 1992 (33 U.S.C. 2239 note; 106 Stat. 4863)".
- (b) AUTHORIZATION OF APPROPRIATIONS.—Section 541(b) of such Act is amended by striking "\$1,000,000" and inserting "\$3,000,000".

SEC. 527. MINNEAPOLIS, MINNESOTA.

(a) IN GENERAL.—The Secretary, in cooperation with the State of Minnesota, shall design and construct the project for environmental restoration and recreation, Minneapolis, Minnesota, substantially in accordance with the plans described in the report entitled "Feasibility Study for Mississippi Whitewater Park, Minneapolis, Minnesota", prepared for the Minnesota department of natural resources, dated June 30, 1999.

- (b) Cost Sharing.—
- (1) IN GENERAL.—The non-Federal share of the cost of the project shall be determined in accordance with title I of the Water Resources Development Act of 1986 (33 U.S.C. 2211 et seq.).
- (2) LANDS, EASEMENTS, AND RIGHTS-OF-WAY.—The non-Federal interest shall provide all lands, easements, rights-of-way, relocations, and dredged material disposal areas necessary for construction of the project and shall receive credit for the cost of providing such lands, easements, rights-of-way, relocations, and dredged material disposal areas toward the non-Federal share of the cost of the project.
- (3) OPERATION, MAINTENANCE, REPAIR, REHABILITATION, AND REPLACEMENT.—The operation, maintenance, repair, rehabilitation, and replacement of the project shall be a non-Federal responsibility.
- (4) CREDIT FOR NON-FEDERAL WORK.—The non-Federal interest shall receive credit toward the non-Federal share of the cost of the project for work performed by the non-Federal interest before the date of execution of the project cooperation agreement if the Secretary determines that the work is integral to the project.
- (c) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated \$10,000,000 to carry out this section.

SEC. 528. ST. LOUIS COUNTY, MINNESOTA.

The Secretary shall carry out under section 204 of the Water Resources Development Act of 1992 (33 U.S.C. 2326) a project in St. Louis County, Minnesota, by making beneficial use of dredged material from a Federal navigation project.

SEC. 529. WILD RICE RIVER, MINNESOTA.

The Secretary shall prepare a general reevaluation report on the project for flood control, Wild Rice River, Minnesota, authorized by section 201 of the Flood Control Act of 1970 (84 Stat. 1825), and, if the Secretary determines that the project is technically sound, environmentally acceptable, and economically justified, shall carry out the project. In carrying out the reevaluation, the Secretary shall include river dredging as a component of the study.

SEC. 530. COASTAL MISSISSIPPI WETLANDS RESTORATION PROJECTS.

- (a) IN GENERAL.—In order to further the purposes of section 204 of the Water Resources Development Act of 1992 (33 U.S.C. 2326) and section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2330), the Secretary shall participate in restoration projects for critical coastal wetlands and coastal barrier islands in the State of Mississippi that will produce, consistent with existing Federal programs, projects, and activities, immediate and substantial restoration, preservation, and ecosystem protection benefits, including the beneficial use of dredged material if such use is a cost-effective means of disposal of such material.
- (b) PROJECT SELECTION.—The Secretary, in coordination with other Federal, tribal, State, and local agencies, may identify and implement projects described in subsection (a) after entering into an agreement with an appropriate non-Federal interest in accordance with this section.
- (c) COST SHARING.—Before implementing any project under this section, the Secretary shall enter into a binding agreement with the non-Federal interests. The agreement shall provide that the non-Federal responsibility for the project shall be as follows:
- (1) To acquire any lands, easements, rights-of-way, relocations, and dredged material disposal areas necessary for implementation of the project.

- (2) To hold and save harmless the United States free from claims or damages due to implementation of the project, except for the negligence of the Federal Government or its contractors.
 - (3) To pay 35 percent of project costs.
- (d) NONPROFIT ENTITY.—For any project undertaken under this section, a non-Federal interest may include a nonprofit entity with the consent of the affected local government.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$10,000,000.

SEC. 531. MISSOURI RIVER VALLEY IMPROVE-MENTS.

- (a) MISSOURI RIVER MITIGATION PROJECT.—The project for mitigation of fish and wild-life losses, Missouri River Bank Stabilization and Navigation Project, Missouri, Kansas, Iowa, and Nebraska authorized by section 601(a) of the Water Resources Development Act of 1986 (100 Stat. 4143) and modified by section 334 of the Water Resources Development Act of 1999 (113 Stat. 306), is further modified to authorize \$200,000,000 for fiscal years 2001 through 2010 to be appropriated to the Secretary for acquisition of 118,650 acres of land and interests in land for the project.
- (b) UPPER MISSOURI RIVER AQUATIC AND RIPARIAN HABITAT MITIGATION PROGRAM.—
 - (1) IN GENERAL.—
- (A) STUDY.—The Secretary shall complete a study that analyzes the need for additional measures for mitigation of losses of aquatic and terrestrial habitat from Fort Peck Dam to Sioux City, Iowa, resulting from the operation of the Missouri River Mainstem Reservoir project in the States of Nebraska, South Dakota, North Dakota, and Montana.
- (B) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report describing the results of the study.
- (2) PILOT PROGRAM.—The Secretary, in consultation with the Director of the United States Fish and Wildlife Service and the affected State fish and wildlife agencies, shall develop and administer a pilot mitigation program that—
- (A) involves the experimental releases of warm water from the spillways at Fort Peck Dam during the appropriate spawning periods for native fish;
- (B) involves the monitoring of the response of fish to, and the effectiveness toward the preservation of native fish and wildlife habitat as a result of, such releases; and
- (C) requires the Secretary to provide compensation for any loss of hydropower at Fort Peck Dam resulting from implementation of the pilot program; and
- (D) does not effect a change in the Missouri River Master Water Control Manual.
 - (3) Reservoir fish loss study.—
- (A) IN GENERAL.—The Secretary, in consultation with the North Dakota Game and Fish Department and the South Dakota Department of Game, Fish and Parks, shall complete a study to analyze and recommend measures to avoid or reduce the loss of fish, including rainbow smelt, through Garrison Dam in North Dakota and Oahe Dam in South Dakota.
- (B) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report describing the results of the study.
- (4) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated—
- (A) to complete the study under paragraph (3) 200,000; and
- (B) to carry out the other provisions of this subsection \$1,000,000 for each of fiscal years 2001 through 2010.

- (c) MISSOURI AND MIDDLE MISSISSIPPI RIVERS ENHANCEMENT PROJECT.—Section 514(g) of the Water Resources Development Act of 1999 (113 Stat. 342) is amended to read as follows:
- "(g) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to pay the Federal share of the cost of carrying out activities under this section \$5,000,000 for each of fiscal years 2001 through 2010.".

SEC. 532. NEW MADRID COUNTY, MISSOURI.

For purposes of determining the non-Federal share for the project for navigation, New Madrid County Harbor, Missouri, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577), the Secretary shall consider Phases 1 and 2 as described in the report of the District Engineer, dated February 2000, as one project and provide credit to the non-Federal interest toward the non-Federal share of the combined project for work performed by the non-Federal interest on Phase 1 of the project.

SEC. 533. PEMISCOT COUNTY, MISSOURI.

The Secretary shall provide the non-Federal interest for the project for navigation, Caruthersville Harbor, Pemiscot County, Missouri, carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577), credit toward the non-Federal share of the cost of the project for in-kind work performed by the non-Federal interest after December 1, 1997, if the Secretary determines that the work is integral to the project.

SEC. 534. LAS VEGAS, NEVADA.

- (a) DEFINITIONS.—In this section, the following definitions apply:
- (1) COMMITTEE.—The term "Committee" means the Las Vegas Wash Coordinating Committee.
- (2) PLAN.—The term "Plan" means the Las Vegas Wash comprehensive adaptive management plan, developed by the Committee and dated January 20, 2000.
- (3) PROJECT.—The term "Project" means the Las Vegas Wash wetlands restoration and Lake Mead water quality improvement project and includes the programs, features, components, projects, and activities identified in the Plan.
 - (b) PARTICIPATION IN PROJECT.—
- (1) IN GENERAL.—The Secretary, in conjunction with the Administrator of the Environmental Protection Agency, the Secretary of Agriculture, and the Secretary of the Interior and in partnership with the Committee, shall participate in the implementation of the Project to restore wetlands at Las Vegas Wash and to improve water quality in Lake Mead in accordance with the Plan.
 - (2) Cost sharing requirements.-
- (A) IN GENERAL.—The non-Federal interests shall pay 35 percent of the cost of any project carried out under this section.
- (B) OPERATION AND MAINTENANCE.—The non-Federal interests shall be responsible for all costs associated with operating, maintaining, replacing, repairing, and rehabilitating all projects carried out under this section.
- (C) FEDERAL LANDS.—Notwithstanding any other provision of this subsection, the Federal share of the cost of a project carried out under this section on Federal lands shall be 100 percent, including the costs of operation and maintenance.
- (3) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated \$10,000,000 to carry out this section.

SEC. 535. NEWARK, NEW JERSEY.

(a) IN GENERAL.—Using authorities under law in effect on the date of enactment of this Act, the Secretary, the Director of the Fed-

- eral Emergency Management Agency, the Administrator of the Environmental Protection Agency, and the heads of other appropriate Federal agencies shall assist the State of New Jersey in developing and implementing a comprehensive basinwide strategy in the Passaic, Hackensack, Raritan, and Atlantic Coast floodplain areas for coordinated and integrated management of land and water resources to improve water quality, reduce flood hazards, and ensure sustainable economic activity.
- (b) TECHNICAL ASSISTANCE, STAFF, AND FINANCIAL SUPPORT.—The heads of the Federal agencies referred to in subsection (a) may provide technical assistance, staff, and financial support for the development of the floodplain management strategy.
- (c) FLEXIBILITY.—The heads of the Federal agencies referred to in subsection (a) shall exercise flexibility to reduce barriers to efficient and effective implementation of the floodplain management strategy.
- (d) RESEARCH.—In coordination with academic and research institutions for support, the Secretary may conduct a study to carry out this section.

SEC. 536. URBANIZED PEAK FLOOD MANAGE-MENT RESEARCH, NEW JERSEY.

- (a) IN GENERAL.—The Secretary shall develop and implement a research program to evaluate opportunities to manage peak flood flows in urbanized watersheds located in the State of New Jersey.
- (b) SCOPE OF RESEARCH.—The research program authorized by subsection (a) shall be accomplished through the New York District of Corps of Engineers. The research shall include the following:
- (1) Identification of key factors in the development of an urbanized watershed that affect peak flows in the watershed and downstream.
- (2) Development of peak flow management models for 4 to 6 watersheds in urbanized areas with widely differing geology, shapes, and soil types that can be used to determine optimal flow reduction factors for individual watersheds.
- (c) LOCATION.—The activities authorized by this section shall be carried out at the facility authorized by section 103(d) of the Water Resources Development Act of 1992 106 Stat. 4812–4813, which may be located on the campus of the New Jersey Institute of Technology.
- (d) REPORT TO CONGRESS.—The Secretary shall evaluate policy changes in the planning process for flood damage reduction projects based on the results of the research under this section and transmit to Congress a report on such results not later than 3 years after the date of enactment of this Act.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$11,000,000 for fiscal years beginning after September 30, 2000.

SEC. 537. BLACK ROCK CANAL, BUFFALO, NEW YORK.

The Secretary shall provide technical assistance in support of activities of non-Federal interests related to the dredging of Black Rock Canal in the area between the Ferry Street Overpass and the Peace Bridge Overpass in Buffalo, New York.

SEC. 538. HAMBURG, NEW YORK.

The Secretary shall complete the study of a project for shoreline erosion, Old Lake Shore Road, Hamburg, New York, and, if the Secretary determines that the project is feasible, the Secretary shall carry out the project.

SEC. 539. NEPPERHAN RIVER, YONKERS, NEW YORK.

The Secretary shall provide technical assistance to the city of Yonkers, New York, in

support of activities relating to the dredging of the Nepperhan River outlet, New York. SEC. 540. ROCHESTER, NEW YORK.

The Secretary shall complete the study of a project for navigation, Rochester Harbor, Rochester, New York, and, if the Secretary determines that the project is feasible, the Secretary shall carry out the project.

SEC. 541. UPPER MOHAWK RIVER BASIN, NEW YORK.

- (a) IN GENERAL.—The Secretary, in cooperation with the Secretary of Agriculture and the State of New York, shall conduct a study, develop a strategy, and implement a project to reduce flood damages, improve water quality, and create wildlife habitat through wetlands restoration, soil and water conservation practices, nonstructural measures, and other appropriate means in the Upper Mohawk River Basin, at an estimated Federal cost of \$10,000,000.
- (b) IMPLEMENTATION OF STRATEGY.—The Secretary shall implement the strategy under this section in cooperation with local landowners and local government. Projects to implement the strategy shall be designed to take advantage of ongoing or planned actions by other agencies, local municipalities, or nonprofit, nongovernmental organizations with expertise in wetlands restoration that would increase the effectiveness or decrease the overall cost of implementing recommended projects and may include the acquisition of wetlands, from willing sellers, that contribute to the Upper Mohawk River basin ecosystem.
- (c) Cooperation Agreements.—In carrying out activities under this section, the Secretary shall enter into cooperation agreements to provide financial assistance to appropriate Federal, State, and local government agencies as well as appropriate nonprofit, nongovernmental organizations with expertise in wetlands restoration, with the consent of the affected local government. Financial assistance provided may include activities for the implementation of wetlands restoration projects and soil and water conservation measures.
- (d) NON-FEDERAL SHARE.—The non-Federal share of the cost of activities carried out under this section shall be 25 percent and may be provided through in-kind services and materials.
- (e) UPPER MOHAWK RIVER BASIN DEFINED.—In this section, the term "Upper Mohawk River basin" means the Mohawk River, its tributaries, and associated lands upstream of the confluence of the Mohawk River and Canajoharie Creek, and including Canajoharie Creek, New York.

SEC. 542. EASTERN NORTH CAROLINA FLOOD PROTECTION.

- (a) IN GENERAL.—In order to assist the State of North Carolina and local governments in mitigating damages resulting from a major disaster, the Secretary shall carry out flood damage reduction projects in eastern North Carolina by protecting, clearing, and restoring channel dimensions (including removing accumulated snags and other debris) in the following rivers and tributaries:
 - (1) New River and tributaries.
 - (2) White Oak River and tributaries.
 - (3) Neuse River and tributaries.
- (4) Pamlico River and tributaries.
- (b) COST SHARE.—The non-Federal interest for a project under this section shall—
- (1) pay 35 percent of the cost of the project; and
- (2) provide any lands, easements, rights-ofway, relocations, and material disposal areas necessary for implementation of the project.
- (c) CONDITIONS.—The Secretary may not reject a project based solely on a minimum amount of stream runoff.

- (d) MAJOR DISASTER DEFINED.—In this section, the term "major disaster" means a major disaster declared under title IV of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170 et seq.) and includes any major disaster declared before the date of enactment of this Act.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$3,000,000 for fiscal years 2001 through 2003.

SEC. 543. CUYAHOGA RIVER, OHIO.

- (a) IN GENERAL.—The Secretary shall provide technical assistance to non-Federal interests for an evaluation of the structural integrity of the bulkhead system located along the Cuyahoga River in the vicinity of Cleveland, Ohio, at a total cost of \$500.000.
- (b) EVALUATION.—The evaluation described in subsection (a) shall include design analysis, plans and specifications, and cost estimates for repair or replacement of the bulkhead system.

SEC. 544. CROWDER POINT, CROWDER, OKLAHOMA.

At the request of the city of Crowder, Oklahoma, the Secretary shall enter into a long-term lease, not to exceed 99 years, with the city under which the city may develop, operate, and maintain as a public park all or a portion of approximately 260 acres of land known as Crowder Point on Lake Eufaula, Oklahoma. The lease shall include such terms and conditions as the Secretary determines are necessary to protect the interest of the United States and project purposes and shall be made without consideration to the United States.

SEC. 545. OKLAHOMA-TRIBAL COMMISSION.

- (a) FINDINGS.—The House of Representatives makes the following findings:
- (1) The unemployment rate in southeastern Oklahoma is 23 percent greater than the national average.
- (2) The per capita income in southeastern Oklahoma is 62 percent of the national average.
- (3) Reflecting the inadequate job opportunities and dwindling resources in poor rural communities, southeastern Oklahoma is experiencing an out-migration of people.
- (4) Water represents a vitally important resource in southeastern Oklahoma. Its abundance offers an opportunity for the residents to benefit from their natural resources.
- (5) Trends as described in paragraphs (1), (2), and (3) are not conducive to local economic development, and efforts to improve the management of water in the region would have a positive outside influence on the local economy, help reverse these trends, and improve the lives of local residents.
- (b) Sense of House of Representatives.—In view of the findings described in subsection (a), and in order to assist communities in southeastern Oklahoma in benefiting from their local resources, it is the sense of the House of Representatives that—
- (1) the State of Oklahoma and the Choctaw Nation of Oklahoma and the Chickasaw Nation, Oklahoma, should establish a Stateribal commission composed equally of representatives of such Nations and residents of the water basins within the boundaries of such Nations for the purpose of administering and distributing from the sale of water any benefits and net revenues to the tribes and local entities within the respective basins;
- (2) any sale of water to entities outside the basins should be consistent with the procedures and requirements established by the commission; and

(3) if requested, the Secretary should provide technical assistance, as appropriate, to facilitate the efforts of the commission

SEC. 546. COLUMBIA RIVER, OREGON AND WASH-INGTON.

- (a) Modeling and Forecasting System.— The Secretary shall develop and implement a modeling and forecasting system for the Columbia River estuary, Oregon and Washington, to provide real-time information on existing and future wave, current, tide, and wind conditions.
- (b) USE OF CONTRACTS AND GRANTS.—In carrying out this section, the Secretary is encouraged to use contracts, cooperative agreements, and grants with colleges and universities and other non-Federal entities.

SEC. 547. JOHN DAY POOL, OREGON AND WASHINGTON.

- (a) EXTINGUISHMENT OF REVERSIONARY INTERESTS AND USE RESTRICTIONS.—With respect to the lands described in each deed listed in subsection (b)—
- (1) the reversionary interests and the use restrictions relating to port or industrial purposes are extinguished;
- (2) the human habitation or other building structure use restriction is extinguished in each area where the elevation is above the standard project flood elevation; and
- (3) the use of fill material to raise areas above the standard project flood elevation, without increasing the risk of flooding in or outside of the floodplain, is authorized, except in any area constituting wetland for which a permit under section 404 of the Federal Water Pollution Control Act (33 U.S.C. 1344) would be required.
- (b) AFFECTED DEEDS.—The following deeds are referred to in subsection (a):
- (1) The deeds executed by the United States and bearing Morrow County, Oregon, Auditor's Microfilm Numbers 229 and 16226.
- (2) The deed executed by the United States and bearing Benton County, Washington, Auditor's File Number 601766, but only as that deed applies to the following portion of lands conveyed by that deed:
- A tract of land lying in Section 7, Township 5 north, Range 28 east of the Willamette meridian, Benton County, Washington, said tract being more particularly described as follows:

Commencing at the point of intersection of the centerlines of Plymouth Street and Third Avenue in the First Addition to the Town of Plymouth (according to the duly recorded Plat thereof);

thence westerly along the said centerline of Third Avenue, a distance of 565 feet;

thence south 54° 10′ west, to a point on the west line of Tract 18 of said Addition and the true point of beginning;

thence north, parallel with the west line of said Section 7, to a point on the north line of said Section 7:

thence west along the north line thereof to the northwest corner of said Section 7:

thence south along the west line of said Section 7 to a point on the ordinary high water line of the Columbia River;

thence northeasterly along said high water line to a point on the north and south coordinate line of the Oregon Coordinate System, North Zone, said coordinate line being east 2.291.000 feet:

thence north along said line to a point on the south line of First Avenue of said Addition:

thence westerly along First Avenue to a point on southerly extension of the west line of Tract 18;

thence northerly along said west line of Tract 18 to the point of beginning.

- (3) The deed recorded October 17, 1967, in book 291, page 148, Deed of Records of Umatilla County, Oregon, executed by the United States.
- (c) No Effect on Other Needs.—Nothing in this section affects the remaining rights and interests of the Corps of Engineers for authorized project purposes.

SEC. 548. LOWER COLUMBIA RIVER AND TILLAMOOK BAY ESTUARY PROGRAM, OREGON AND WASHINGTON.

- (a) IN GENERAL.—The Secretary shall conduct studies and ecosystem restoration projects for the lower Columbia River and Tillamook Bay estuaries, Oregon and Washington.
- (b) USE OF MANAGEMENT PLANS.—
- Lower columbia river estuary.—
- (A) IN GENERAL.—In carrying out ecosystem restoration projects under this section, the Secretary shall use as a guide the Lower Columbia River estuary program's comprehensive conservation and management plan developed under section 320 of the Federal Water Pollution Control Act (33 U.S.C. 1330).
- (B) CONSULTATION.—The Secretary shall carry out ecosystem restoration projects under this section for the lower Columbia River estuary in consultation with the States of Oregon and Washington, the Environmental Protection Agency, the United States Fish and Wildlife Service, the National Marine Fisheries Service, and the Forest Service.
 - (2) TILLAMOOK BAY ESTUARY.-
- (A) IN GENERAL.—In carrying out ecosystem restoration projects under this section, the Secretary shall use as a guide the Tillamook Bay national estuary project's comprehensive conservation and management plan developed under section 320 of the Federal Water Pollution Control Act (33 U.S.C. 1330).
- (B) Consultation.—The Secretary shall carry out ecosystem restoration projects under this section for the Tillamook Bay estuary in consultation with the State of Oregon, the Environmental Protection Agency, the United States Fish and Wildlife Service, the National Marine Fisheries Service, and the Forest Service.
- (c) AUTHORIZED ACTIVITIES.—
- (1) IN GENERAL.—In carrying out ecosystem restoration projects under this section, the Secretary shall undertake activities necessary to protect, monitor, and restore fish and wildlife habitat.
- (2) Limitations.—The Secretary may not carry out any activity under this section that adversely affects— $\,$
- (A) the water-related needs of the lower Columbia River estuary or the Tillamook Bay estuary, including navigation, recreation, and water supply needs; or
- (B) private property rights.
- (d) PRIORITY.—In determining the priority of projects to be carried out under this section, the Secretary shall consult with the Implementation Committee of the Lower Columbia River Estuary Program and the Performance Partnership Council of the Tillamook Bay National Estuary Project, and shall consider the recommendations of such entities.
- (e) Cost-Sharing Requirements.—
- (1) STUDIES.—Studies conducted under this section shall be subject to cost sharing in accordance with section 105 of the Water Resources Development Act of 1986 (33 U.S.C. 2215).
 - (2) ECOSYSTEM RESTORATION PROJECTS.—

- (A) IN GENERAL.—Non-Federal interests shall pay 35 percent of the cost of any ecosystem restoration project carried out under this section.
- (B) ITEMS PROVIDED BY NON-FEDERAL INTERESTS.—Non-Federal interests shall provide all land, easements, rights-of-way, dredged material disposal areas, and relocations necessary for ecosystem restoration projects to be carried out under this section. The value of such land, easements, rights-of-way, dredged material disposal areas, and relocations shall be credited toward the payment required under this paragraph.
- (C) IN-KIND CONTRIBUTIONS.—Not more than 50 percent of the non-Federal share required under this subsection may be satisfied by the provision of in-kind services.
- (3) OPERATION AND MAINTENANCE.—Non-Federal interests shall be responsible for all costs associated with operating, maintaing, replacing, repairing, and rehabilitating all projects carried out under this section.
- (4) FEDERAL LANDS.—Notwithstanding any other provision of this subsection, the Federal share of the cost of a project carried out under this section on Federal lands shall be 100 percent, including costs of operation and maintenance.
- (f) DEFINITIONS.—In this section, the following definitions apply:
- (1) LOWER COLUMBIA RIVER ESTUARY.—The term "lower Columbia River estuary" means those river reaches having navigation channels on the mainstem of the Columbia River in Oregon and Washington west of Bonneville Dam, and the tributaries of such reaches to the extent such tributaries are tidally influenced.
- (2) TILLAMOOK BAY ESTUARY.—The term "Tillamook Bay estuary" means those waters of Tillamook Bay in Oregon and its tributaries that are tidally influenced.
- (g) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$40,000,000.

SEC. 549. SKINNER BUTTE PARK, EUGENE, OR-EGON.

Section 546(b) of the Water Resources Development Act of 1999 (113 Stat. 351) is amended by adding at the end the following: "If the Secretary participates in the project, the Secretary shall carry out a monitoring program for 3 years after construction to evaluate the ecological and engineering effectiveness of the project and its applicability to other sites in the Willamette Vallev."

SEC. 550. WILLAMETTE RIVER BASIN, OREGON.

Section 547 of the Water Resources Development Act of 1999 (113 Stat. 351–352) is amended by adding at the end the following:

"(d) RESEARCH.—In coordination with academic and research institutions for support, the Secretary may conduct a study to carry out this section.".

SEC. 551. LACKAWANNA RIVER, PENNSYLVANIA.

- (a) IN GENERAL.—Section 539(a) of the Water Resources Development Act of 1996 (110 Stat. 3776) is amended—
- (1) by striking "and" at the end of paragraph (1)(A);
- (2) by striking the period at the end of paragraph (1)(B) and inserting "; and"; and
- (3) by adding at the end the following:
- "(C) the Lackawanna River, Pennsylvania.".
- (b) AUTHORIZATION OF APPROPRIATIONS.— Section 539(d) of such Act (110 Stat. 3776–3777) is amended—
- (1) by striking ''(a)(1)(A) and'' and inserting ''(a)(1)(A),''; and
- (2) by inserting ", and 5,000,000 for projects undertaken under subsection (a)(1)(C)" before the period at the end.

SEC. 552. PHILADELPHIA, PENNSYLVANIA.

- (a) IN GENERAL.—The Secretary shall provide assistance to the Delaware River Port Authority to deepen the Delaware River at Pier 122 in Philadelphia. Pennsylvania.
- (b) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated \$1,000,000 to carry out this section.

SEC. 553. ACCESS IMPROVEMENTS, RAYSTOWN LAKE, PENNSYLVANIA.

The Commonwealth of Pennsylvania may transfer any unobligated funds made available to the Commonwealth for item number 1278 of the table contained in section 1602 of Public Law 105–178, to the Secretary for access improvements at the Raystown Lake project, Pennsylvania.

SEC. 554. UPPER SUSQUEHANNA RIVER BASIN, PENNSYLVANIA AND NEW YORK.

Section 567 of the Water Resources Development Act of 1996 (110 Stat. 3787–3788) is amended—

- (1) by striking subsection (a)(2) and inserting the following:
- "(2) The Susquehanna River watershed upstream of the Chemung River, New York, at an estimated Federal cost of \$10,000,000.";
- (2) by striking subsections (c) and (d) and inserting the following:
- "(c) Cooperation Agreements.—In conducting the study and developing the strategy under this section, the Secretary shall enter into cooperation agreements to provide financial assistance to appropriate Federal, State, and local government agencies as well as appropriate nonprofit, nongovernmental organizations with expertise in wetlands restoration, with the consent of the affected local government. Financial assistance provided may include activities for the implementation of wetlands restoration projects and soil and water conservation measures.
- '(d) IMPLEMENTATION OF STRATEGY.—The Secretary shall undertake development and implementation of the strategy under this section in cooperation with local landowners and local government officials. Projects to implement the strategy shall be designed to take advantage of ongoing or planned actions by other agencies, local municipalities, or nonprofit, nongovernmental organizations with expertise in wetlands restoration that would increase the effectiveness or decrease the overall cost of implementing recommended projects and may include the acquisition of wetlands, from willing sellers, that contribute to the Upper Susquehanna River basin ecosystem."

SEC. 555. CHICKAMAUGA LOCK, CHATTANOOGA, TENNESSEE.

- (a) TRANSFER FROM TVA.—The Tennessee Valley Authority shall transfer \$200,000 to the Secretary for the preparation of a report of the Chief of Engineers for a replacement lock at Chickamauga Lock and Dam, Chattanooga, Tennessee.
- (b) REPORT.—The Secretary shall accept and use the funds transferred under subsection (a) to prepare the report referred to in subsection (a).

SEC. 556. JOE POOL LAKE, TEXAS.

- If the city of Grand Prairie, Texas, enters into a binding agreement with the Secretary under which—
- (1) the city agrees to assume all of the responsibilities (other than financial responsibilities) of the Trinity River Authority of Texas under Corps of Engineers contract #DACW63-76-C-0166, including operation and maintenance of the recreation facilities included in the contract; and
- (2) to pay the Federal Government a total of \$4,290,000 in 2 installments, 1 in the

amount of \$2,150,000, which shall be due and payable no later than December 1, 2000, and 1 in the amount of \$2,140,000, which shall be due and payable no later than December 1, 2003.

the Trinity River Authority shall be relieved of all of its financial responsibilities under the contract as of the date the Secretary enters into the agreement with the city.

SEC. 557. BENSON BEACH, FORT CANBY STATE PARK, WASHINGTON.

The Secretary shall place dredged material at Benson Beach, Fort Canby State Park, Washington, in accordance with section 204 of the Water Resources Development Act of 1992 (33 U.S.C. 2326).

SEC. 558. PUGET SOUND AND ADJACENT WATERS RESTORATION, WASHINGTON.

- (a) IN GENERAL.—The Secretary may participate in critical restoration projects in the area of the Puget Sound and its adjacent waters, including the watersheds that drain directly into Puget Sound, Admiralty Inlet, Hood Canal, Rosario Strait, and the eastern portion of the Strait of Juan de Fuca.
- (b) PROJECT SELECTION.—The Secretary, in consultation with appropriate Federal, tribal, State, and local agencies, (including the Salmon Recovery Funding Board, Northwest Straits Commission, Hood Canal Coordinating Council, county watershed planning councils, and salmon enhancement groups) may identify critical restoration projects and may implement those projects after entering into an agreement with an appropriate non-Federal interest in accordance with the requirements of section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d–5b) and this section.
- (c) PROJECT COST LIMITATION.—Of amounts appropriated to carry out this section, not more than \$2,500,000 may be allocated to carry out any project.
 - (d) COST SHARING.—
- (1) IN GENERAL.—The non-Federal interest for a critical restoration project under this section shall—
- (A) pay 35 percent of the cost of the project:
- (B) provide any lands, easements, rights-ofway, relocations, and dredged material disposal areas necessary for implementation of the project;
- (C) pay 100 percent of the operation, maintenance, repair, replacement, and rehabilitation costs associated with the project; and
- (D) hold the United States harmless from liability due to implementation of the project, except for the negligence of the Federal Government or its contractors.
- (2) CREDIT.—The Secretary shall provide credit to the non-Federal interest for a critical restoration project under this section for the value of any lands, easements, rights-of-way, relocations, and dredged material disposal areas provided by the non-Federal interest for the project.
- (3) MEETING NON-FEDERAL COST SHARE.—The non-Federal interest may provide up to 50 percent of the non-Federal share of the cost of a project under this section through the provision of services, materials, supplies, or other in-kind services.
- (e) CRITICAL RESTORATION PROJECT DEFINED.—In this section, the term "critical restoration project" means a water resource project that will produce, consistent with existing Federal programs, projects, and activities, immediate and substantial environmental protection and restoration benefits.
- (f) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$40.000.000.

SEC. 559. SHOALWATER BAY INDIAN TRIBE, WILLAPA BAY, WASHINGTON.

(a) PLACEMENT OF DREDGED MATERIAL ON SHORE.—For the purpose of addressing coastal erosion, the Secretary shall place, on an emergency one-time basis, dredged material from a Federal navigation project on the shore of the tribal reservation of the Shoalwater Bay Indian Tribe, Willapa Bay, Washington, at Federal expense.

(b) PLACEMENT OF DREDGED MATERIAL ON

(b) PLACEMENT OF DREDGED MATERIAL ON PROTECTIVE DUNES.—The Secretary shall place dredged material from Willapa Bay on the remaining protective dunes on the tribal reservation of the Shoalwater Bay Indian

Tribe, at Federal expense.

(c) STUDY OF COASTAL EROSION.—The Secretary shall conduct a study to develop long-term solutions to coastal erosion problems at the tribal reservation of the Shoalwater Bay Indian Tribe at Federal expense.

SEC. 560. WYNOOCHEE LAKE, WYNOOCHEE RIVER, WASHINGTON.

- (a) IN GENERAL.—The city of Aberdeen, Washington, may transfer its rights, interests, and title in the land transferred to the city under section 203 of the Water Resources Development Act of 1990 (104 Stat. 4632) to the city of Tacoma, Washington.
- (b) CONDITIONS.—The transfer under this section shall be subject to the conditions set forth in section 203(b) of the Water Resources Development Act of 1990 (104 Stat. 4632); except that the condition set forth in paragraph (1) of such section shall apply to the city of Tacoma only for so long as the city of Tacoma has a valid license with the Federal Energy Regulatory Commission relating to operation of the Wynoochee Dam, Washington.
- (c) LIMITATION.—The transfer under subsection (a) may be made only after the Secretary determines that the city of Tacoma will be able to operate, maintain, repair, replace, and rehabilitate the project for Wynoochee Lake, Wynoochee River, Washington, authorized by section 203 of the Flood Control Act of 1962 (76 Stat. 1193), in accordance with such regulations as the Secretary may issue to ensure that such operation, maintenance, repair, replacement, and rehabilitation is consistent with project purposes.
- (d) WATER SUPPLY CONTRACT.—The water supply contract designated as DACWD 67-68—C-0024 shall be null and void if the Secretary exercises the reversionary right set forth in section 203(b)(3) of the Water Resources Development Act of 1990 (104 Stat. 4632).

SEC. 561. SNOHOMISH RIVER, WASHINGTON.

In coordination with appropriate Federal, tribal, and State agencies, the Secretary may carry out a project to address data needs regarding the outmigration of juvenile chinook salmon in the Snohomish River, Washington.

SEC. 562. BLUESTONE, WEST VIRGINIA

- (a) IN GENERAL.—Notwithstanding any other provision of law, the Tri-Cities Power Authority of West Virginia is authorized to design and construct hydroelectric generating facilities at the Bluestone Lake facility, West Virginia, under the terms and conditions of the agreement referred to in subsection (b).
 - (b) AGREEMENT.—
- (1) AGREEMENT TERMS.—Conditioned upon the parties agreeing to mutually acceptable terms and conditions, the Secretary and the Secretary of Energy, acting through the Southeastern Power Administration, may enter into a binding agreement with the Tri-Cities Power Authority under which the Tri-Cities Power Authority agrees to each of the following:

- (A) To design and construct the generating facilities referred to in subsection (a) within 4 years after the date of such agreement.
 - (B) To reimburse the Secretary for—
- (i) the cost of approving such design and inspecting such construction;
- (ii) the cost of providing any assistance authorized under subsection (c)(2); and
- (iii) the redistributed costs associated with the original construction of the dam and dam safety if all parties agree with the method of the development of the chargeable amounts associated with hydropower at the facility.
- (C) To release and indemnify the United States from any claims, causes of action, or liabilities which may arise from such design and construction of the facilities referred to in subsection (a), including any liability that may arise out of the removal of the facility if directed by the Secretary.
- (2) ADDITIONAL TERMS.—The agreement shall also specify each of the following:
- (A) The procedures and requirements for approval and acceptance of design, construction, and operation and maintenance of the facilities referred in subsection (a).
- (B) The rights, responsibilities, and liabilities of each party to the agreement.
- (C) The amount of the payments under subsection (f) of this section and the procedures under which such payments are to be made.
 - (c) Other Requirements.-
- (1) PROHIBITION.—No Federal funds may be expended for the design, construction, and operation and maintenance of the facilities referred to in subsection (a) prior to the date on which such facilities are accepted by the Secretary under subsection (d).
- (2) REIMBURSEMENT.—Notwithstanding any other provision of law, if requested by the Tri-Cities Power Authority, the Secretary may provide, on a reimbursable basis, assistance in connection with the design and construction of the generating facilities referred to in subsection (a).
- (d) COMPLETION OF CONSTRUCTION.—
- (1) Transfer of facilities.—Notwith-standing any other provision of law, upon completion of the construction of the facilities referred to in subsection (a) and final approval of such facility by the Secretary, the Tri-Cities Power Authority shall transfer without consideration title to such facilities to the United States, and the Secretary shall—
- (A) accept the transfer of title to such facilities on behalf of the United States; and
- (B) operate and maintain the facilities referred to in subsection (a).
- (2) CERTIFICATION.—The Secretary is authorized to accept title to the facilities pursuant to paragraph (1) only after certifying that the quality of the construction meets all standards established for similar facilities constructed by the Secretary.
- (3) AUTHORIZED PROJECT PURPOSES.—The operation and maintenance of the facilities shall be conducted in a manner that is consistent with other authorized project purposes of the Bluestone Lake facility.
- (e) Excess Power.—Pursuant to any agreement under subsection (b), the Southeastern Power Administration shall market the excess power produced by the facilities referred to in subsection (a) in accordance with section 5 of the Rivers and Harbors Act of December 22, 1944 (16 U.S.C. 825s; 58 Stat. 890).
- (f) PAYMENTS.—Notwithstanding any other provision of law, the Secretary of Energy, acting through the Southeastern Power Administration, is authorized to pay in accordance with the terms of the agreement entered into under subsection (b) out of the

- revenues from the sale of power produced by the generating facility of the interconnected systems of reservoirs operated by the Secretary and marketed by the Southeastern Power Administration—
- (1) to the Tri-Cities Power Authority all reasonable costs incurred by the Tri-Cities Power Authority in the design and construction of the facilities referred to in subsection (a), including the capital investment in such facilities and a reasonable rate of return on such capital investment; and
- (2) to the Secretary, in accordance with the terms of the agreement entered into under subsection (b) out of the revenues from the sale of power produced by the generating facility of the interconnected systems of reservoirs operated by the Secretary and marketed by the Southeastern Power Administration, all reasonable costs incurred by the Secretary in the operation and maintenance of facilities referred to in subsection (a).
- (g) AUTHORITY OF SECRETARY OF ENERGY.— Notwithstanding any other provision of law, the Secretary of Energy, acting through the Southeastern Power Administration, is authorized—
- (1) to construct such transmission facilities as necessary to market the power produced at the facilities referred to in subsection (a) with funds contributed by the Tri-Cities Power Authority; and
- (2) to repay those funds, including interest and any administrative expenses, directly from the revenues from the sale of power produced by such facilities of the interconnected systems of reservoirs operated by the Secretary and marketed by the Southeastern Power Administration.
- (h) SAVINGS CLAUSE.—Nothing in this section affects any requirement under Federal or State environmental law relating to the licensing or operation of such facilities.

SEC. 563. LESAGE/GREENBOTTOM SWAMP, WEST VIRGINIA.

Section 30 of the Water Resources Development Act of 1988 (102 Stat. 4030) is amended by adding at the end the following:

"(d) HISTORIC STRUCTURE.—The Secretary shall ensure the stabilization and preservation of the structure known as the Jenkins House located within the Lesage/Greenbottom Swamp in accordance with standards for sites listed on the National Register of Historic Places."

SEC. 564. TUG FORK RIVER, WEST VIRGINIA.

- (a) IN GENERAL.—The Secretary may provide planning, design, and construction assistance to non-Federal interests for projects located along the Tug Fork River in West Virginia and identified by the master plan developed pursuant to section 114(t) of the Water Resources Development Act of 1992 (106 Stat. 4820).
- (b) PRIORITIES.—In providing assistance under this section, the Secretary shall give priority to the primary development demonstration sites in West Virginia identified by the master plan referred to in subsection (a).
- (c) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$1,000,000.

SEC. 565. VIRGINIA POINT RIVERFRONT PARK, WEST VIRGINIA.

(a) IN GENERAL.—The Secretary may provide planning, design, and construction assistance to non-Federal interests for the project at Virginia Point, located at the confluence of the Ohio and Big Sandy Rivers in West Virginia, identified by the preferred plan set forth in the feasibility study dated September 1999, and carried out under the West Virginia-Ohio River Comprehensive

Study authorized by a resolution dated September 8, 1988, by the Committee on Public Works and Transportation of the House of Representatives.

(b) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$3,100,000.

SEC. 566. SOUTHERN WEST VIRGINIA.

Section 340(a) of the Water Resources Development Act of 1992 (106 Stat. 4856) is amended by inserting "environmental restoration," after "distribution facilities,".

SEC. 567. FOX RIVER SYSTEM, WISCONSIN.

Section 332(a) of the Water Resources Development Act of 1992 (106 Stat. 4852) is amended by adding at the end the following: "Such terms and conditions may include a payment or payments to the State of Wisconsin to be used toward the repair and rehabilitation of the locks and appurtenant features to be transferred.".

SEC. 568. SURFSIDE/SUNSET AND NEWPORT BEACH, CALIFORNIA.

The Secretary shall treat the Surfside/Sunset Newport Beach element of the project for beach erosion, Orange County, California, authorized by section 101 of the River and Harbor Act of 1962 (76 Stat. 1177), as continuing construction.

SEC. 569. ILLINOIS RIVER BASIN RESTORATION.

- (a) ILLINOIS RIVER BASIN DEFINED.—In this section, the term "Illinois River basin" means the Illinois River, Illinois, its backwaters, side channels, and all tributaries, including their watersheds, draining into the Illinois River.
 - (b) Comprehensive Plan.—
- (1) DEVELOPMENT.—The Secretary shall develop, as expeditiously as practicable, a proposed comprehensive plan for the purpose of restoring, preserving, and protecting the Illinois River basin.
- (2) TECHNOLOGIES AND INNOVATIVE APPROACHES.—The comprehensive plan shall provide for the development of new technologies and innovative approaches—
- (A) to enhance the Illinois River as a vital transportation corridor:
- (B) to improve water quality within the entire Illinois River basin;
- (C) to restore, enhance, and preserve habitat for plants and wildlife; and
- (D) to increase economic opportunity for agriculture and business communities.
- (3) Specific components.—The comprehensive plan shall include such features as are necessary to provide for—
- (A) the development and implementation of a program for sediment removal technology, sediment characterization, sediment transport, and beneficial uses of sediment;
- (B) the development and implementation of a program for the planning, conservation, evaluation, and construction of measures for fish and wildlife habitat conservation and rehabilitation, and stabilization and enhancement of land and water resources in the basin:
- (C) the development and implementation of a long-term resource monitoring program; and
- (D) the development and implementation of a computerized inventory and analysis system.
- (4) CONSULTATION.—The comprehensive plan shall be developed by the Secretary in consultation with appropriate Federal agencies, the State of Illinois, and the Illinois River Coordinating Council.
- (5) REPORT TO CONGRESS.—Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report containing the comprehensive plan

- (6) ADDITIONAL STUDIES AND ANALYSES.—After transmission of a report under paragraph (5), the Secretary shall continue to conduct such studies and analyses related to the comprehensive plan as are necessary, consistent with this subsection.
 - (c) Critical Restoration Projects.—
- (1) IN GENERAL.—If the Secretary, in cooperation with appropriate Federal agencies and the State of Illinois, determines that a restoration project for the Illinois River basin will produce independent, immediate, and substantial restoration, preservation, and protection benefits, the Secretary shall proceed expeditiously with the implementation of the project.
- (2) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out projects under this subsection \$100,000,000 for fiscal years 2001 through 2004.
- (3) FEDERAL SHARE.—The Federal share of the cost of carrying out any project under this subsection shall not exceed \$5,000,000.
- (d) GENERAL PROVISIONS.—
- (1) WATER QUALITY.—In carrying out projects and activities under this section, the Secretary shall take into account the protection of water quality by considering applicable State water quality standards.
- (2) PUBLIC PARTICIPATION.—In developing the comprehensive plan under subsection (b) and carrying out projects under subsection (c), the Secretary shall implement procedures to facilitate public participation, including providing advance notice of meetings, providing adequate opportunity for public input and comment, maintaining appropriate records, and making a record of the proceedings of meetings available for public inspection.
- (e) COORDINATION.—The Secretary shall integrate and coordinate projects and activities carried out under this section with ongoing Federal and State programs, projects, and activities, including the following:
- (1) Upper Mississippi River System-Environmental Management Program authorized under section 1103 of the Water Resources Development Act of 1986 (33 U.S.C. 652).
- (2) Upper Mississippi River Illinois Waterway System Study.
- (3) Kankakee River Basin General Investigation.
- (4) Peoria Riverfront Development General Investigation.
- (5) Illinois River Ecosystem Restoration General Investigation.
- (6) Conservation Reserve Program and other farm programs of the Department of Agriculture.
- (7) Conservation Reserve Enhancement Program (State) and Conservation 2000, Ecosystem Program of the Illinois Department of Natural Resources.
- (8) Conservation 2000 Conservation Practices Program and the Livestock Management Facilities Act administered by the Illinois Department of Agriculture.
- (9) National Buffer Initiative of the Natural Resources Conservation Service.
- (10) Nonpoint source grant program administered by the Illinois Environmental Protection Agency.
- (f) JUSTIFICATION.—
- (1) IN GENERAL.—Notwithstanding section 209 of the Flood Control Act of 1970 (42 U.S.C. 1962–2) or any other provision of law, in carrying out activities to restore, preserve, and protect the Illinois River basin under this section, the Secretary may determine that the activities—
- (A) are justified by the environmental benefits derived by the Illinois River basin; and

- (B) shall not need further economic justification if the Secretary determines that the activities are cost-effective.
- (2) APPLICABILITY.—Paragraph (1) shall not apply to any separable element intended to produce benefits that are predominantly unrelated to the restoration, preservation, and protection of the Illinois River basin.
 - (g) Cost Sharing.—
- (1) IN GENERAL.—The non-Federal share of the cost of projects and activities carried out under this section shall be 35 percent.
- (2) OPERATION, MAINTENANCE, REHABILITATION, AND REPLACEMENT.—The operation, maintenance, rehabilitation, and replacement of projects carried out under this section shall be a non-Federal responsibility.
- (3) IN-KIND SERVICES.—The value of in-kind services provided by the non-Federal interest for a project or activity carried out under this section may be credited toward not more than 80 percent of the non-Federal share of the cost of the project or activity. In-kind services shall include all State funds expended on programs and projects which accomplish the goals of this section, as determined by the Secretary. Such programs and projects may include the Illinois River Conservation Reserve Program, the Illinois Conservation 2000 Program, the Open Lands Trust Fund, and other appropriate programs carried out in the Illinois River basin.
 - (4) Credit.—
- (A) VALUE OF LANDS.—If the Secretary determines that lands or interests in land acquired by a non-Federal interest, regardless of the date of acquisition, are integral to a project or activity carried out under this section, the Secretary may credit the value of the lands or interests in land toward the non-Federal share of the cost of the project or activity. Such value shall be determined by the Secretary.
- (B) Work.—If the Secretary determines that any work completed by a non-Federal interest, regardless of the date of completion, is integral to a project or activity carried out under this section, the Secretary may credit the value of the work toward the non-Federal share of the cost of the project or activity. Such value shall be determined by the Secretary.

SEC. 570. GREAT LAKES.

- (a) Great Lakes Tributary Model.—Section 516 of the Water Resources Development Act of 1996 (33 U.S.C. 2326b) is amended—
- (1) by adding at the end of subsection (e) the following:
- "(3) REPORT.—Not later than December 31, 2003, the Secretary shall transmit to Congress a report on the Secretary's activities under this subsection."; and
 - (2) in subsection (g)—
- (A) by striking "There is authorized" and inserting the following:
 - "(1) IN GENERAL.—There is authorized";
 - (B) by adding at the end the following:
- "(2) GREAT LAKES TRIBUTARY MODEL.—In addition to amounts made available under paragraph (1), there is authorized to be appropriated to carry out subsection (e) \$5,000,000 for each of fiscal years 2002 through 2006."; and
- (C) by aligning the remainder of the text of paragraph (1) (as designated by subparagraph (A) of this paragraph) with paragraph (2) (as added by subparagraph (B) of this paragraph).
- (b) ALTERNATIVE ENGINEERING TECHNOLOGIES.—
- (1) DEVELOPMENT OF PLAN.—The Secretary shall develop and transmit to Congress a plan to enhance the application of ecological principles and practices to traditional engineering problems at Great Lakes shores.

- (2) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this subsection \$200,000. Activities under this subsection shall be carried out at Federal expense.
- (c) FISHERIES AND ECOSYSTEM RESTORATION —
- (1) DEVELOPMENT OF PLAN.—The Secretary shall develop and transmit to Congress a plan for implementing Corps of Engineers activities, including ecosystem restoration, to enhance the management of Great Lakes fisheries.
- (2) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this subsection \$300,000. Activities under this subsection shall be carried out at Federal expense.

SEC. 571. GREAT LAKES REMEDIAL ACTION PLANS AND SEDIMENT REMEDI-ATION.

Section 401 of the Water Resources Development Act of 1990 (33 U.S.C. 1268 note; 110 Stat. 3763; 113 Stat. 338) is amended—

- (1) in subsection (a)(2)(A) by striking "50 percent" and inserting "35 percent";
 - (2) in subsection (b)-
 - (A) by striking paragraph (3);
- (B) in the first sentence of paragraph (4) by striking "50 percent" and inserting "35 percent"; and
- (C) by redesignating paragraph (4) as paragraph (3); and
- (3) in subsection (c) by striking "\$5,000,000 for each of fiscal years 1998 through 2000." and inserting "\$10,000,000 for each of fiscal years 2001 through 2005.".

SEC. 572. GREAT LAKES DREDGING LEVELS AD-JUSTMENT.

- (a) DEFINITION OF GREAT LAKE.—In this section, the term "Great Lake" means Lake Superior, Lake Michigan, Lake Huron (including Lake St. Clair), Lake Erie, and Lake Ontario (including the St. Lawrence River to the 45th parallel of latitude).
- (b) DREDGING LEVELS.—In operating and maintaining Federal channels and harbors of, and the connecting channels between, the Great Lakes, the Secretary shall conduct such dredging as is necessary to ensure minimal operation depths consistent with the original authorized depths of the channels and harbors when water levels in the Great Lakes are, or are forecast to be, below the International Great Lakes Datum of 1985.

SEC. 573. DREDGED MATERIAL RECYCLING.

- (a) PILOT PROGRAM.—The Secretary shall conduct a pilot program to provide incentives for the removal of dredged material from a confined disposal facility associated with a harbor on the Great Lakes or the Saint Lawrence River and a harbor on the Delaware River in Pennsylvania for the purpose of recycling the dredged material and extending the life of the confined disposal facility.
- (b) REPORT.—Not later than 90 days after the date of completion of the pilot program, the Secretary shall transmit to Congress a report on the results of the program.
- (c) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$2,000,000

SEC. 574. WATERSHED MANAGEMENT, RESTORATION, AND DEVELOPMENT.

Section 503(d) of the Water Resources Development Act of 1996 (110 Stat. 3756–3757; 113 Stat. 288) is amended by adding at the end the following:

- ''(28) Tomales Bay watershed, California.
- "(29) Kaskaskia River watershed, Illinois.
- "(30) Sangamon River watershed, Illinois.
- "(31) Lackawanna River watershed, Pennsylvania.

"(32) Upper Charles River watershed, Massachusetts.

"(33) Brazos River watershed, Texas."

SEC. 575. MAINTENANCE OF NAVIGATION CHANNELS.

Section 509(a) of the Water Resources Development Act of 1996 (110 Stat. 3759; 113 Stat. 339) is amended by adding at the end the following:

- "(16) Cameron Loop, Louisiana, as part of the Calcasieu River and Pass Ship Channel.
- "(17) Morehead City Harbor, North Carolina.".

SEC. 576. SUPPORT OF ARMY CIVIL WORKS PRO-GRAM.

The requirements of section 2361 of title 10, United States Code, shall not apply to any contract, cooperative research and development agreement, cooperative agreement, or grant entered into under section 229 of the Water Resources Development Act of 1996 (110 Stat. 3703) between the Secretary and Marshall University or entered into under section 350 of the Water Resources Development Act of 1999 (113 Stat. 310) between the Secretary and Juniata College.

SEC. 577. NATIONAL RECREATION RESERVATION SERVICE.

Notwithstanding section 611 of the Treasury and General Government Appropriations Act, 1999 (112 Stat. 2861–515), the Secretary may participate in the National Recreation Reservation Service on an interagency basis and fund the Department of the Army's share of the cost of activities required for implementing, operating, and maintaining the Service.

SEC. 578. HYDROGRAPHIC SURVEY.

The Secretary shall enter into an agreement with the Administrator of the National Oceanographic and Atmospheric Administration to require the Secretary, not later than 60 days after the Corps of Engineers completes a project involving dredging of a channel, to provide data to the Administration in a standard digital format on the results of a hydrographic survey of the channel conducted by the Corps of Engineers.

SEC. 579. PERCHLORATE.

- (a) IN GENERAL.—The Secretary, in cooperation with Federal, State, and local government agencies, may participate in studies and other investigative activities and in the planning and design of projects determined by the Secretary to offer a long-term solution to the problem of groundwater contamination caused by perchlorates.
 - (b) INVESTIGATIONS AND PROJECTS.—
- (1) Bosque and Leon Rivers.—The Secretary, in coordination with other Federal agencies and the Brazos River Authority, shall participate under subsection (a) in investigations and projects in the Bosque and Leon River watersheds in Texas to assess the impact of the perchlorate associated with the former Naval "Weapons Industrial Reserve Plant" at McGregor, Texas.
- (2) CADDO LAKE.—The Secretary, in coordination with other Federal agencies and the Northeast Texas Municipal Water District, shall participate under subsection (a) in investigations and projects relating to perchlorate contamination in Caddo Lake, Texas.
- (3) EASTERN SANTA CLARA BASIN.—The Secretary, in coordination with other Federal, State, and local government agencies, shall participate under subsection (a) in investigations and projects related to sites that are sources of perchlorates and that are located in the city of Santa Clarita, California.
- (c) AUTHORIZATION OF APPROPRIATIONS.— For the purposes of carrying out this section, there is authorized to be appropriated

to the Secretary \$25,000,000, of which not to exceed \$8,000,000 shall be available to carry out subsection (b)(1), not to exceed \$3,000,000 shall be available to carry out subsection (b)(2), and not to exceed \$7,000,000 shall be available to carry out subsection (b)(3).

SEC. 580. ABANDONED AND INACTIVE NONCOAL MINE RESTORATION.

Section 560 of the Water Resources Development Act of 1999 (33 USC 2336; 113 Stat. 354–355) is amended—

- (1) in subsection (a) by striking "and design" and inserting "design, and construction":
- (2) in subsection (c) by striking "50" and inserting "35":
- (3) in subsection (e) by inserting "and colleges and universities, including the members of the Western Universities Mine-Land Reclamation and Restoration Consortium, for the purposes of assisting in the reclamation of abandoned noncoal mines and" after "entities": and
- (4) by striking subsection (f) and inserting the following:
- "(f) Non-Federal Interests.—In this section, the term 'non-Federal interests' includes, with the consent of the affected local government, nonprofit entities, notwithstanding section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b).

"(g) OPERATION AND MAINTENANCE.—The non-Federal share of the costs of operation and maintenance for a project carried out under this section shall be 100 percent.

- "(h) CREDIT.—A non-Federal interest shall receive credit toward the non-Federal share of the cost of a project under this section for design and construction services and other in-kind consideration provided by the non-Federal interest if the Secretary determines that such design and construction services and other in-kind consideration are integral to the project.
- "(i) Cost Limitation.—Not more than \$10,000,000 of the amounts appropriated to carry out this section may be allotted for projects in a single locality, but the Secretary may accept funds voluntarily contributed by a non-Federal or Federal entity for the purpose of expanding the scope of the services requested by the non-Federal or Federal entity.
- Federal entity. "(j) NO EFFECT ON LIABILITY.—The provision of assistance under this section shall not relieve from liability any person that would otherwise be liable under Federal or State law for damages, response costs, natural resource damages, restitution, equitable relief, or any other relief.
- "(k) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$45,000,000. Such sums shall remain available until expended.".

SEC. 581. LAKES PROGRAM.

- Section 602 of the Water Resources Development Act of 1986 (100 Stat. 4148–4149) is further amended—
- (1) in subsection (b) by inserting "and activity" after "project";
- (2) in subsection (c) by inserting "and activities under subsection (f)" before the comma; and
- (3) by adding at the end the following:
- "(f) CENTER FOR LAKE EDUCATION AND RESEARCH, OTSEGO LAKE, NEW YORK.—
- "(1) IN GENERAL.—The Secretary shall construct an environmental education and research facility at Otsego Lake, New York. The purpose of the Center shall be to—
- "(A) conduct nationwide research on the impacts of water quality and water quantity on lake hydrology and the hydrologic cycle;
- "(B) develop technologies and strategies for monitoring and improving water quality in the Nation's lakes; and

- "(C) provide public education regarding the biological, economic, recreational, and aesthetic value of the Nation's lakes
- "(2) USE OF RESEARCH.—The results of research and education activities carried out at the Center shall be applied to the program under subsection (a) and to other Federal programs, projects, and activities that are intended to improve or otherwise affect lakes.
- "(3) BIOLOGICAL MONITORING STATION.—A central function of the Center shall be to research, develop, test, and evaluate biological monitoring technologies and techniques for potential use at lakes listed in subsection (a) and throughout the Nation.
- "(4) CREDIT.—The non-Federal sponsor shall receive credit for lands, easements, rights-of-way, and relocations toward its share of project costs.
- "(5) AUTHORIZATION OF APPROPRIATIONS.—In addition to sums authorized by subsection (d), there is authorized to be appropriated to carry out this subsection \$6,000,000. Such sums shall remain available until expended."

SEC. 582. RELEASE OF USE RESTRICTION.

- (a) RELEASE.—Notwithstanding any other provision of law, the Tennessee Valley Authority shall grant a release or releases, without monetary consideration, from the restriction covenant which requires that property described in subsection (b) shall at all times be used solely for the purpose of erecting docks and buildings for shipbuilding purposes or for the manufacture or storage of products for the purpose of trading or shipping in transportation.
- (b) DESCRIPTION OF PROPERTY.—This section shall apply only to those lands situated in the city of Decatur, Morgan County, Alabama, and running along the easterly boundary of a tract of land described in an indenture conveying such lands to the Ingalls Shipbuilding Corporation dated July 29, 1954, and recorded in deed book 535 at page 6 in the office of the Probate Judge of Morgan County, Alabama, which are owned or may hereafter be acquired by the Alabama Farmers Cooperative, Inc.

SEC. 583. COMPREHENSIVE ENVIRONMENTAL RESOURCES PROTECTION.

- (a) IN GENERAL.—Under section 219(a) of the Water Resources Development Act of 1992 (106 Stat. 4835), the Secretary may provide technical, planning, and design assistance to non-Federal interests to carry out water-related projects described in this section.
- (b) Non-Federal Share.—Notwithstanding section 219(b) of the Water Resources Development Act of 1992 (106 Stat. 4835), the non-Federal share of the cost of each project assisted in accordance with this section shall be 25 percent.
- (c) PROJECT DESCRIPTIONS.—The Secretary may provide assistance in accordance with subsection (a) to each of the following projects:
- (1) MARANA, ARIZONA.—Wastewater treatment and distribution infrastructure, Marana, Arizona.
- (2) EASTERN ARKANSAS ENTERPRISE COMMUNITY, ARKANSAS.—Water-related infrastructure, Eastern Arkansas Enterprise Community, Cross, Lee, Monroe, and St. Francis Counties, Arkansas.
- (3) CHINO HILLS, CALIFORNIA.—Storm water and sewage collection infrastructure, Chino Hills, California.
- (4) CLEAR LAKE BASIN, CALIFORNIA.—Waterrelated infrastructure and resource protection, Clear Lake Basin, California.

- (5) DESERT HOT SPRINGS, CALIFORNIA.—Resource protection and wastewater infrastructure, Desert Hot Springs, California.
- (6) EASTERN MUNICIPAL WATER DISTRICT, CALIFORNIA.—Regional water-related infrastructure, Eastern Municipal Water District, California.
- (7) HUNTINGTON BEACH, CALIFORNIA.—Water supply and wastewater infrastructure, Huntington Beach, California.
- (8) INGLEWOOD, CALIFORNIA.—Water infrastructure, Inglewood, California.
- (9) Los osos community service district, California.—Wastewater infrastructure, Los Osos Community Service District, California
- (10) NORWALK, CALIFORNIA.—Water-related infrastructure, Norwalk, California.
- (11) KEY BISCAYNE, FLORIDA.—Sanitary sewer infrastructure, Key Biscayne, Florida.
- (12) SOUTH TAMPA, FLORIDA.—Water supply and aquifer storage and recovery infrastructure, South Tampa, Florida.
- (13) FORT WAYNE, INDIANA.—Combined sewer overflow infrastructure and wetlands protection, Fort Wayne, Indiana.
- (14) Indianapolis, indiana.—Combined sewer overflow infrastructure, Indianapolis, Indiana.
- (15) ST. CHARLES, ST. BERNARD, AND PLAQUEMINES PARISHES, LOUISIANA.—Water and wastewater infrastructure, St. Charles, St. Bernard, and Plaquemines Parishes, Louisiana.
- (16) ST. JOHN THE BAPTIST AND ST. JAMES PARISHES, LOUISIANA.—Water and sewer improvements, St. John the Baptist and St. James Parishes, Louisiana.
- (17) UNION COUNTY, NORTH CAROLINA.—Water infrastructure, Union County, North Carolina.
- (18) HOOD RIVER, OREGON.—Water transmission infrastructure, Hood River, Oregon.
- (19) MEDFORD, OREGON.—Sewer collection infrastructure, Medford, Oregon.
- (20) PORTLAND, OREGON.—Water infrastructure and resource protection, Portland, Oregon.
- (21) COUDERSPORT, PENNSYLVANIA.—Sewer system extensions and improvements, Coudersport, Pennsylvania.
- (22) PARK CITY, UTAH.—Water supply infrastructure, Park City, Utah.
 - (d) AUTHORIZATION OF APPROPRIATIONS.—
- (1) IN GENERAL.—There is authorized to be appropriated \$25,000,000 for providing assistance in accordance with subsection (a) to the projects described in subsection (c).
- (2) AVAILABILITY.—Sums authorized to be appropriated under this subsection shall remain available until expended.
- (e) ADDITIONAL ASSISTANCE FOR CRITICAL RESOURCE PROJECTS.—The Secretary may provide assistance in accordance with subsection (a) and assistance for construction for each the following projects:
- (1) DUCK RIVER, CULLMAN, ALABAMA.— \$5,000,000 for water supply infrastructure, Duck River, Cullman, Alabama.
- (2) UNION COUNTY, ARKANSAS.—\$52,000,000 for water supply infrastructure, including facilities for withdrawal, treatment, and distribution, Union County, Arkansas.
- (3) CAMBRIA, CALIFORNIA.—\$10,300,000 for desalination infrastructure, Cambria, California.
- (4) LOS ANGELES HARBOR/TERMINAL ISLAND, CALIFORNIA.—\$6,500,000 for wastewater recycling infrastructure, Los Angeles Harbor/Terminal Island, California.
- (5) NORTH VALLEY REGION, LANCASTER, CALIFORNIA.—\$14,500,000 for water infrastructure, North Valley Region, Lancaster, California.

- (6) SAN DIEGO COUNTY, CALIFORNIA.— \$10,000,000 for water-related infrastructure, San Diego County, California.
- (7) SOUTH PERRIS, CALIFORNIA.—\$25,000,000 for water supply desalination infrastructure, South Perris, California.
- (8) AURORA, ILLINOIS.—\$8,000,000 for wastewater infrastructure to reduce or eliminate combined sewer overflows, Aurora, Illinois.
- (9) COOK COUNTY, ILLINOIS.—\$35,000,000 for water-related infrastructure and resource protection and development, Cook County, Illinois.
- (10) MADISON AND ST. CLAIR COUNTIES, ILLINOIS.—\$10,000,000 for water and wastewater assistance, Madison and St. Clair Counties, Illinois.
- (11) IBERIA PARISH, LOUISIANA.—\$5,000,000 for water and wastewater infrastructure, Iberia Parish, Louisiana.
- (12) Kenner, Louisiana.—\$5,000,000 for wastewater infrastructure, Kenner, Louisiana.
- (13) Garrison and Kathio Township, Minnesota.—\$11,000,000 for a wastewater infrastructure project for the city of Garrison and Kathio Township, Minnesota.
- (14) NEWTON, NEW JERSEY.—\$7,000,000 for water filtration infrastructure, Newton, New Jersey.
- (15) LIVERPOOL, NEW YORK.—\$2,000,000 for water infrastructure, including a pump station, Liverpool, New York.
- (16) STANLY COUNTY, NORTH CAROLINA.— \$8,900,000 for wastewater infrastructure, Stanly County, North Carolina.
- (17) YUKON, OKLAHOMA.—\$5,500,000 for water-related infrastructure, including wells, booster stations, storage tanks, and transmission lines, Yukon, Oklahoma.
- (18) ALLEGHENY COUNTY, PENNSYLVANIA.—\$20,000,000 for water-related environmental infrastructure, Allegheny County, Pennsylvania.
- (19) MOUNT JOY TOWNSHIP AND CONEWAGO TOWNSHIP, PENNSYLVANIA.—\$8,300,000 for water and wastewater infrastructure, Mount Joy Township and Conewago Township, Pennsylvania.
- (20) PHOENIXVILLE BOROUGH, CHESTER COUNTY, PENNSYLVANIA.—\$2,400,000 for water and sewer infrastructure, Phoenixville Borough, Chester County, Pennsylvania.
- (21) TITUSVILLE, PENNSYLVANIA.—\$7,300,000 for storm water separation and treatment plant upgrades, Titusville, Pennsylvania.
- (22) WASHINGTON, GREENE, WESTMORELAND, AND FAYETTE COUNTIES, PENNSYLVANIA.—\$8,000,000 for water and wastewater infrastructure, Washington, Greene, Westmoreland, and Fayette Counties, Pennsylvania.

SEC. 584. MODIFICATION OF AUTHORIZATIONS FOR ENVIRONMENTAL PROJECTS.

Section 219 of the Water Resources Development Act of 1992 (106 Stat. 4835, 4836) is amended—

- (1) in subsection (e)(6) by striking "\$20,000,000" and inserting "\$30,000,000";
- (2) in subsection (f)(4) by striking "\$15,000,000" and inserting "\$35,000,000";
- (3) in subsection (f)(21) by striking "\$10,000,000" and inserting "\$20,000,000";
 (4) in subsection (f)(25) by striking
- (4) in subsection (f)(25) by striking "\$5,000,000" and inserting "\$15,000,000"; (5) in subsection (f)(30) by striking
- (5) in subsection (f)(30) by striking "\$10,000,000" and inserting "\$20,000,000";
- (6) in subsection (f)(43) by striking "\$15,000,000" and inserting "\$35,000,000"; and
- (7) in subsection (f) by adding at the end the following new paragraph:
- "(44) WASHINGTON, D.C., AND MARYLAND.—\$15,000,000 for the project described in subsection (c)(1), modified to include measures to eliminate or control combined sewer overflows in the Anacostia River watershed.".

SEC. 585. LAND CONVEYANCES.

- (a) THOMPSON, CONNECTICUT.—
- (1) IN GENERAL.—The Secretary shall convey by quitclaim deed without consideration to the town of Thompson, Connecticut, all right, title, and interest of the United States in and to the approximately 1.36-acre parcel of land described in paragraph (2) for public ownership and use by the town for fire fighting and related emergency services purposes.
- (2) LAND DESCRIPTION.—The parcel of land referred to in paragraph (1) is in the town of Thompson, county of Windham, State of Connecticut, on the northerly side of West Thompson Road owned by the United States and shown as Parcel A on a plan by Provost, Rovero, Fitzback entitled "Property Survey Prepared for West Thompson Independent Firemen Association #1" dated August 24, 1998, bounded and described as follows:

Beginning at a bound labeled WT-276 on the northerly side line of West Thompson Road, so called, at the most south corner of the Parcel herein described and at land now or formerly of West Thompson Independent Firemen Association No. 1;

Thence in a generally westerly direction by said northerly side line of West Thompson Road, by a curve to the left, having a radius of 640.00 feet a distance of 169.30 feet to a point:

Thence North 13 degrees, 08 minutes, 37 seconds East by the side line of said West Thompson Road a distance of 10.00 feet to a point:

Thence in a generally westerly direction by the northerly side line of said West Thompson Road, by a curve to the left having a radius of 650.00 feet a distance of 109.88 feet to a bound labeled WT-123, at land now or formerly of the United States of America;

Thence North 44 degrees, 43 minutes, 07 seconds East by said land now or formerly of the United States of America a distance of 185.00 feet to a point;

Thence North 67 degrees, 34 minutes, 13 seconds East by said land now or formerly of the United States of America a distance of 200.19 feet to a point in a stonewall;

Thence South 20 degrees, 49 minutes, 17 seconds East by a stonewall and by said land now or formerly of the United States of America a distance of 253.10 feet to a point at land now or formerly of West Thompson Independent Firemen Association No. 1;

Thence North 57 degrees, 45 minutes, 25 seconds West by land now or formerly of said West Thompson Independent Firemen Association No. 1 a distance of 89.04 feet to a bound labeled WT-277;

Thence South 32 degrees, 14 minutes, 35 seconds West by land now or formerly of said West Thompson Independent Firemen Association No. 1 a distance of 123.06 feet to the point of beginning.

- (3) REVERSION.—If the Secretary determines that the parcel described in paragraph (2) ceases to be held in public ownership or used for fire fighting and related emergency services, all right, title, and interest in and to the parcel shall revert to the United States.
- (b) SIBLEY MEMORIAL HOSPITAL, WASHINGTON, DISTRICT OF COLUMBIA.—
- (1) IN GENERAL.—The Secretary shall convey to the Lucy Webb Hayes National Training School for Deaconesses and Missionaries Conducting Sibley Memorial Hospital (in this subsection referred to as the "Hospital") by quitclaim deed under the terms of a negotiated sale, all right, title, and interest of the United States in and to the 8.864-acre parcel of land described in paragraph (2) for medical care and parking purposes. The con-

- sideration paid under such negotiated sale shall reflect the value of the parcel, taking into consideration the terms and conditions of the conveyance imposed under this subsection.
- (2) LAND DESCRIPTION.—The parcel of land referred to in paragraph (1) is the parcel described as follows: Beginning at a point on the westerly right-of-way line of Dalecarlia Parkway, said point also being on the southerly division line of part of Square N1448, A&T Lot 801 as recorded in A&T 2387 and part of the property of the United States Government, thence with said southerly division line now described:
- (A) North 35° 05' 40'' West—436.31 feet to a point, thence
- (B) South 89° 59′ 30″ West—550 feet to a point, thence
- (C) South 53° 48′ 00″ West—361.08 feet to a point, thence
- (D) South 89° 59′ 30″ West—466.76 feet to a point at the southwesterly corner of the aforesaid A&T Lot 801, said point also being on the easterly right-of-way line of MacArthur Boulevard, thence with a portion of the westerly division line of said A&T Lot 801 and the easterly right-of-way line of MacArthur Boulevard, as now described.
- (E) 78.62 feet along the arc of a curve to the right having a radius of 650.98 feet, chord bearing and distance of North 06° 17′ 20″ West—78.57 feet to a point, thence crossing to include a portion of aforesaid A&T Lot 801 and a portion of the aforesaid Dalecarlia Reservoir Grounds, as now described
- (F) North 87° 18' 21'' East—258.85 feet to a point, thence
- (G) North 02° 49′ 16″ West—214.18 feet to a point, thence
- (H) South 87° 09′ 00″ West—238.95 feet to a point on the aforesaid easterly right-of-way line of MacArthur Boulevard, thence with said easterly right-of-way line, as now described
- (I) North 08° 41′ 30″ East—30.62 feet to a point, thence crossing to include a portion of aforesaid A&T Lot 801 and a portion of the aforesaid Dalecarlia Reservoir Grounds, as now described
- (J) North 87° 09′ 00″ East—373.96 feet to a point, thence
- (K) North 88° 42′ 48″ East—374.92 feet to a point, thence
- (L) North 56° 53′ 40″ East—53.16 feet to a point, thence
- (M) North 86° 00′ 15″ East—26.17 feet to a point, thence
- (N) South 87° 24′ 50″ East—464.01 feet to a point, thence
- (O) North 83° 34′ 31″ East—212.62 feet to a point, thence
 (P) South 30° 16′ 12″ East—108.97 feet to a
- (P) South 30° 16′ 12″ East—108.97 feet to a point, thence
- (Q) South 38° 30′ 23″ East—287.46 feet to a point, thence
- (R) South 09° 03′ 38″ West—92.74 feet to the point on the aforesaid westerly right-of-way line of Dalecarlia Parkway, thence with said westerly right-of-way line, as now described
- (S) 197.74 feet along the arc of a curve to the right having a radius of 916.00 feet, chord bearing and distance of South 53° 54′ 43″ West—197.35 feet to the place of beginning.
- (3) TERMS AND CONDITIONS.—The conveyance under this subsection shall be subject to the following terms and conditions:
- (A) LIMITATION ON THE USE OF CERTAIN PORTIONS OF THE PARCEL.—The Secretary shall include in any deed conveying the parcel under this section a restriction to prevent the Hospital, and its successors and assigns, from constructing any structure, other than a structure used exclusively for the parking

of motor vehicles, on the portion of the parcel that lies between the Washington Aqueduct and Little Falls Road.

- (B) LIMITATION ON CERTAIN LEGAL CHALLENGES.—The Secretary shall require the Hospital, and its successors and assigns, to refrain from raising any legal challenge to the operations of the Washington Aqueduct arising from any impact such operations may have on the activities conducted by the Hospital on the parcel.
- (C) EASEMENT.—The Secretary shall require that the conveyance be subject to the retention of an easement permitting the United States, and its successors and assigns, to use and maintain the portion of the parcel described as follows: Beginning at a point on the easterly or South 35° 05′ 40″ East-436.31 foot plat line of Lot 25 as shown on a subdivision plat recorded in book 175 page 102 among the records of the Office of the Surveyor of the District of Columbia, said point also being on the northerly rightof-way line of Dalecarlia Parkway, thence running with said easterly line of Lot 25 and crossing to include a portion of the aforsaid Dalecarlia Reservoir Grounds as now described:
- (i) North 35° 05' 40'' West—495.13 feet to a point, thence
- (ii) North 87° 24′ 50″ West—414.43 feet to a point, thence
- (iii) South 81° 08′ 00″ West—69.56 feet to a point, thence
- (iv) South 88° 42' 48'' West—367.50 feet to a point, thence
- (v) South 87° 09′ 00″ West—379.68 feet to a point on the easterly right-of-way line of MacArthur Boulevard, thence with said easterly right-of-way line, as now described
- (vi) North 08° 41′ 30″ East—30.62 feet to a point, thence crossing to include a portion of the aforesaid Dalecarlia Reservoir Grounds, as now described
- (vii) North $87^{\circ}\ 09'\ 00''$ East—373.96 feet to a point, thence
- (viii) North 88° 42′ 48″ East—374.92 feet to a point, thence
- (ix) North 56° 53' 40'' East—53.16 feet to a point, thence
- (x) North 86° 00′ 15″ East—26.17 feet to a point, thence
- (xi) South 87° 24′ 50″ East—464.01 feet to a point, thence
- (xii) North 83° 34′ 31″ East—50.62 feet to a point, thence
 (xiii) South 02° 35′ 10″ West—46.46 feet to a
- point, thence
 (xiv) South 13° 38′ 12″ East—107.83 feet to a
- (xiv) South 13° 38′ 12″ East—107.83 feet to a point, thence
- (xv) South 35° 05′ 40″ East—347.97 feet to a point on the aforesaid northerly right-of-way line of Dalecarlia Parkway, thence with said right-of-way line, as now described
- (xvi) 44.12 feet along the arc of a curve to the right having a radius of 855.00 feet, chord bearing and distance of South 58° 59′ 22″ West—44.11 feet to the place of beginning containing 1.7157 acres of land more or less as now described by Maddox Engineers and Surveyors, Inc., June 2000, Job #00015.
- (4) APPRAISAL.—Before conveying any right, title, or interest under this subsection, the Secretary shall obtain an appraisal of the fair market value of the parcel.
- (c) Ontonagon, Michigan.-
- (1) IN GENERAL.—The Secretary shall convey by quitclaim deed without consideration to the Ontonagon County Historical Society all right, title, and interest of the United States in and to the parcel of land underlying and immediately surrounding the lighthouse at Ontonagon, Michigan, consisting of approximately 1.8 acres, together

with any improvements thereon, for public ownership and for public purposes.

- (2) SURVEY TO OBTAIN LEGAL DESCRIPTION.— The exact acreage and the legal description of the real property described in paragraph (1) shall be determined by a survey that is satisfactory to the Secretary.
- (3) REVERSION.—If the Secretary determines that the real property described in paragraph (1) ceases to be held in public ownership or used for public purposes, all right, title, and interest in and to the property shall revert to the United States.
 - (d) PIKE COUNTY, MISSOURI.-
- (1) LAND EXCHANGE.—Subject to paragraphs (3) and (4), at such time as S.S.S., Inc. conveys all right, title, and interest in and to the parcel of land described in paragraph (2)(A) to the United States, the Secretary shall convey by quitclaim deed all right, title, and interest in the parcel of land described in paragraph (2)(B) to S.S.S., Inc.
- (2) LAND DESCRIPTION.—The parcels of land referred to in paragraph (1) are the following:
- (A) NON-FEDERAL LAND.—8.99 acres with existing flowage easements situated in Pike County, Missouri, adjacent to land being acquired from Holnam, Inc. by the Corps of Engineers.
- (B) FEDERAL LAND.—8.99 acres situated in Pike County, Missouri, known as Government Tract Numbers FM-46 and FM-47, administered by the Corps of Engineers.
- (3) CONDITIONS.—The exchange of land under paragraph (1) shall be subject to the following conditions:
- (A) Deeds.-
- (i) NON-FEDERAL LAND.—The conveyance of the land described in paragraph (2)(A) to the Secretary shall be by a quitclaim deed acceptable to the Secretary.
- (ii) FEDERAL LAND.—The instrument of conveyance used to convey the land described in paragraph (2)(B) to S.S.S., Inc. shall contain such reservations, terms, and conditions as the Secretary considers necessary to allow the United States to operate and maintain the Mississippi River 9-Foot Navigation Project.
- (B) REMOVAL OF IMPROVEMENTS.—S.S.S., Inc. may remove any improvements on the land described in paragraph (2)(A). The Secretary may require S.S.S., Inc. to remove any improvements on the land described in paragraph (2)(A). In either case, S.S.S., Inc. shall hold the United States harmless from liability, and the United States shall not incur costs associated with the removal or relocation of any of the improvements.
- (C) TIME LIMIT FOR EXCHANGE.—The land exchange under paragraph (1) shall be completed not later than 2 years after the date of enactment of this Act.
- (D) LEGAL DESCRIPTION.—The Secretary shall provide the legal description of the lands described in paragraph (2). The legal description shall be used in the instruments of conveyance of the lands.
- (4) VALUE OF PROPERTIES.—If the appraised fair market value, as determined by the Secretary, of the land conveyed to S.S., Inc. by the Secretary under paragraph (1) exceeds the appraised fair market value, as determined by the Secretary, of the land conveyed to the United States by S.S., Inc. under paragraph (1), S.S.S., Inc. shall make a payment equal to the excess in cash or a cash equivalent to the United States.
- (e) CANDY LAKE PROJECT, OSAGE COUNTY, OKLAHOMA.—Section 563(c)(1)(B) of the Water Resources Development Act of 1999 (113 Stat. 357) is amended by striking "a deceased individual" and inserting "an individual".
 - (f) MANOR TOWNSHIP, PENNSYLVANIA.—

- (1) IN GENERAL.—In accordance with this subsection, the Secretary shall convey by quitclaim deed to the township of Manor, Pennsylvania, all right, title, and interest of the United States in and to the approximately 113 acres of real property located at Crooked Creek Lake, together with any improvements on the land.
- (2) SURVEY TO OBTAIN LEGAL DESCRIPTION.— The exact acreage and the legal description of the real property described in paragraph (1) shall be determined by a survey that is satisfactory to the Secretary.
- (3) CONSIDERATION.—The Secretary may convey under this subsection without consideration any portion of the real property described in paragraph (1) if the portion is to be retained in public ownership and be used for public park and recreation or other public purposes.
- (4) REVERSION.—If the Secretary determines that any portion of the property conveyed under paragraph (3) ceases to be held in public ownership or to be used for public park and recreation or other public purposes, all right, title, and interest in and to such portion of property shall revert to the Secretary.
- (5) PAYMENT OF COSTS.—The township of Manor, Pennsylvania shall be responsible for all costs associated with a conveyance under this subsection, including the cost of conducting the survey referred to in paragraph (2)
- (g) New Savannah Bluff Lock and Dam, Savannah River, South Carolina, Below Augusta.—
- (1) IN GENERAL.—The Secretary shall convey by quitclaim deed to the city of North Augusta and Aiken County, South Carolina, the lock, dam, and appurtenant features at New Savannah Bluff, including the adjacent approximately 50-acre park and recreation area with improvements of the navigation project, Savannah River Below Augusta, Georgia, authorized by the first section of the River and Harbor Act of July 3, 1930 (46 Stat. 924), subject to the execution of an agreement by the Secretary and the city of North Augusta and Aiken County, South Carolina, that specifies the terms and conditions for such conveyance.
- (2) TREATMENT OF LOCK, DAM, APPURTENANT FEATURES, AND PARK AND RECREATION AREA.—The lock, dam, appurtenant features, adjacent park and recreation area, and other project lands, to be conveyed under paragraph (1) shall not be treated as part of any Federal water resources project after the effective date of the transfer.
- (3) OPERATION AND MAINTENANCE.—Operation and maintenance of all features of the navigation project, other than the lock, dam, appurtenant features, adjacent park and recreation area, and other project lands to be conveyed under paragraph (1), shall continue to be a Federal responsibility after the effective date of the transfer under paragraph (1).
- (h) TRI-CITIES AREA, WASHINGTON.—Section 501(i) of the Water Resources Development Act of 1996 (110 Stat. 3752–3753) is amended—
- (1) by inserting before the period at the end of paragraph (1) the following: "; except that any of such local governments, with the agreement of the appropriate district engineer, may exempt from the conveyance to the local government all or any part of the lands to be conveyed to the local government"; and
- (2) by inserting before the period at the end of paragraph (2)(C) the following: "; except that approximately 7.4 acres in Columbia Park, Kennewick, Washington, consisting of the historic site located in the Park and

known and referred to as the Kennewick Man Site and such adjacent wooded areas as the Secretary determines are necessary to protect the historic site, shall remain in Federal ownership".

- (i) BAYOU TECHE, LOUISIANA.—
- (1) IN GENERAL.—After renovations of the Keystone Lock facility have been completed, the Secretary may convey by quitclaim deed without consideration to St. Martin Parish, Louisiana, all rights, interests, and title of the United States in the approximately 12.03 acres of land under the administrative jurisdiction of the Secretary in Bayou Teche, Louisiana, together with improvements thereon. The dam and the authority to retain upstream pool elevations shall remain under the jurisdiction of the Secretary. The Secretary shall relinquish all operations and maintenance of the lock to St. Martin Parish.
- (2) CONDITIONS.—The following conditions apply to the transfer under paragraph (1):
- (A) St. Martin Parish shall operate, maintain, repair, replace, and rehabilitate the lock in accordance with regulations prescribed by the Secretary which are consistent with the project's authorized purposes.
- (B) The Parish shall provide the Secretary access to the dam whenever the Secretary notifies the Parish of a need for access to the dam.
- (C) If the Parish fails to comply with subparagraph (A), the Secretary shall notify the Parish of such failure. If the parish does not correct such failure during the 1-year period beginning on the date of such notification, the Secretary shall have a right of reverter to reclaim possession and title to the land and improvements conveyed under this section or, in the case of a failure to make necessary repairs, the Secretary may effect the repairs and require payment from the Parish for the repairs made by the Secretary.
 - (j) Joliet, Illinois.-
- (1) IN GENERAL.—The Secretary shall convey by quitclaim deed without consideration to the Joliet Park District in Joliet, Illinois, all right, title, and interest of the United States in and to the parcel of real property located at 622 Railroad Street in the city of Joliet, consisting of approximately 2 acres, together with any improvements thereon, for public ownership and use as the site of the headquarters of the park district.
- (2) SURVEY TO OBTAIN LEGAL DESCRIPTION.— The exact acreage and the legal description of the real property described in paragraph (1) shall be determined by a survey that is satisfactory to the Secretary.
- (3) REVERSION.—If the Secretary determines that the property conveyed under paragraph (1) ceases to be held in public ownership or to be used as headquarters of the park district or for other purposes, all right, title, and interest in and to such property shall revert to the United States.
 - (k) OTTAWA, ILLINOIS.—
- (1) CONVEYANCE OF PROPERTY.—Subject to the terms, conditions, and reservations of paragraph (2), the Secretary shall convey by quitclaim deed to the Young Men's Christian Association of Ottawa, Illinois (in this subsection referred to as the "YMCA"), all right, title, and interest of the United States in and to a portion of the easements acquired for the improvement of the Illinois Waterway project over a parcel of real property owned by the YMCA, known as the "Ottawa, Illinois YMCA Site", and located at 201 E. Jackson Street, Ottawa, La Salle County, Illinois (portion of NE ¼, S11, T33N, R3E 3PM), except that portion lying below the elevation

- of 461 feet National Geodetic Vertical Datum.
- (2) CONDITIONS.—The following conditions apply to the conveyance under paragraph (1):
- (A) The exact acreage and the legal description of the real property described in paragraph (1) shall be determined by a survey that is satisfactory to the Secretary.
- (B) The YMCA shall agree to hold and save the United States harmless from liability associated with the operation and maintenance of the Illinois Waterway project on the property desscribed in paragraph (1).
- (C) If the Secretary determines that any portion of the property that is the subject of the easement conveyed under paragraph (1) ceases to be used as the YMCA, all right, title, and interest in and to such easement shall revert to the Secretary.
- (1) St. Clair and Benton Counties, Missouri.—
- (1) IN GENERAL.—The Secretary shall convey to the Iconium Fire Protection District, St. Clair and Benton counties, Missouri, by quitclaim deed and without consideration, all right, title, and interest of the United States in and to the parcel of land described in paragraph (2).
- (2) LAND DESCRIPTION.—The parcel of land to be conveyed under paragraph (1) is the tract of land located in the Southeast 1/4 of Section 13, Township 39 North, Range 25 West, of the Fifth Principal Meridian, St. Clair County, Missouri, more particularly described as follows: Commencing at the Southwest corner of Section 18, as designated by Corps survey marker AP 18-1, thence northerly 11.22 feet to the southeast corner of Section 13, thence 657.22 feet north along the east line of Section 13 to Corps monument 18 1-C lying within the right-ofway of State Highway C, being the point of beginning of the tract of land herein described; thence westerly approximately 210 feet, thence northerly 150 feet, thence easterly approximately 210 feet to the east line of Section 13, thence southerly along said east line, 150 feet to the point of beginning, containing 0.723 acres, more or less.
- (3) REVERSION.—If the Secretary determines that the property conveyed under paragraph (1) ceases to be held in public ownership or to be used as a site for a fire station, all right, title, and interest in and to such property shall revert to the United
- (m) GENERALLY APPLICABLE PROVISIONS.—
- (1) APPLICABILITY OF PROPERTY SCREENING PROVISIONS.—Section 2696 of title 10, United States Code, shall not apply to any conveyance under this section.
- (2) ADDITIONAL TERMS AND CONDITIONS.— The Secretary may require that any conveyance under this section be subject to such additional terms and conditions as the Secretary considers appropriate and necessary to protect the interests of the United States.
- (3) COSTS OF CONVEYANCE.—An entity to which a conveyance is made under this section shall be responsible for all reasonable and necessary costs, including real estate transaction and environmental compliance costs associated with the conveyance
- (4) LIABILITY.—An entity to which a conveyance is made under this section shall hold the United States harmless from any liability with respect to activities carried out, on or after the date of the conveyance, on the real property conveyed. The United States shall remain responsible for any liability with respect to activities carried out, before such date, on the real property conveyed.

SEC. 586. BRUCE F. VENTO UNIT OF THE BOUND-ARY WATERS CANOE AREA WILDER-NESS. MINNESOTA.

- (a) DESIGNATION.—The portion of the Boundary Waters Canoe Area Wilderness, Minnesota, situated north and cast of the Gunflint Corridor and that is bounded by the United States border with Canada to the north shall be known and designated as the "Bruce F. Vento Unit of the Boundary Waters Canoe Area Wilderness".
- (b) LEGAL REFERENCE.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the area referred to in paragraph (1) shall be deemed to be a reference to the "Bruce F. Vento Unit of the Boundary Waters Canoe Area Wilderness".

SEC. 587. WAURIKA LAKE, OKLAHOMA.

The remaining obligation of the Waurika Project Master Conservancy District payable to the United States Government in the amounts, rates of interest, and payment schedules is set at the amounts, rates of interest, and payment schedules that existed, and that both parties agreed to, on June 3, 1986, and may not be adjusted, altered, or changed without a specific, separate, and written agreement between the District and the United States Government.

SEC. 588. COLUMBIA RIVER TREATY FISHING ACCESS.

Section 401(d) of the Act entitled "An Act to establish procedures for review of tribal constitutions and bylaws or amendments thereto pursuant to the Act of June 18, 1934 (48 Stat. 987)", approved November 1, 1988 (102 Stat. 2944), is amended by striking "\$2,000,000" and inserting "\$4,000,000".

SEC. 589. DEVILS LAKE, NORTH DAKOTA.

No appropriation shall be made to construct an emergency outlet from Devils Lake, North Dakota, to the Sheyenne River if the final plans for the emergency outlet have not been approved by resolutions adopted by the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate.

TITLE VI—COMPREHENSIVE EVERGLADES RESTORATION

SEC. 601. COMPREHENSIVE EVERGLADES RESTORATION PLAN.

- (a) DEFINITIONS.—In this section, the following definitions apply:
- (1) CENTRAL AND SOUTHERN FLORIDA PROJECT.—
- (A) IN GENERAL.—The term "Central and Southern Florida Project" means the project for Central and Southern Florida authorized under the heading "CENTRAL AND SOUTHERN FLORIDA" in section 203 of the Flood Control Act of 1948 (62 Stat. 1176).
- (B) INCLUSION.—The term "Central and Southern Florida Project" includes any modification to the project authorized by this section or any other provision of law.
- (2) GOVERNOR.—The term "Governor" means the Governor of the State of Florida.
- (3) NATURAL SYSTEM.—
- (A) IN GENERAL.—The term "natural system" means all land and water managed by the Federal Government or the State within the South Florida ecosystem.
- (B) INCLUSIONS.—The term "natural system" includes—
- (i) water conservation areas;
- (ii) sovereign submerged land;
- (iii) Everglades National Park;
- (iv) Biscayne National Park;
- (v) Big Cypress National Preserve;

(vi) other Federal or State (including a political subdivision of a State) land that is designated and managed for conservation purposes; and

- (vii) any tribal land that is designated and managed for conservation purposes, as approved by the tribe.
- (4) PLAN.—The term "Plan" means the Comprehensive Everglades Restoration Plan contained in the "Final Integrated Feasibility Report and Programmatic Environmental Impact Statement", dated April 1, 1999, as modified by this section.
 - (5) South florida ecosystem.—
- (A) IN GENERAL.—The term "South Florida ecosystem" means the area consisting of the land and water within the boundary of the South Florida Water Management District in effect on July 1, 1999.
- (B) INCLUSIONS.—The term "South Florida ecosystem" includes—
- (i) the Everglades;
- (ii) the Florida Keys; and
- $\left(iii\right)$ the contiguous near-shore coastal water of South Florida.
- (6) STATE.—The term "State" means the State of Florida.
- (b) Comprehensive Everglades Restoration Plan.—
- (1) APPROVAL.—
- (A) IN GENERAL.—Except as modified by this section, the Plan is approved as a framework for modifications and operational changes to the Central and Southern Florida Project that are needed to restore, preserve. and protect the South Florida ecosystem while providing for other water-related needs of the region, including water supply and flood protection. The Plan shall be implemented to ensure the protection of water quality in, the reduction of the loss of fresh water from, and the improvement of the environment of the South Florida ecosystem and to achieve and maintain the benefits to the natural system and human environment described in the Plan, and required pursuant to this section, for as long as the project is authorized.
- (B) INTEGRATION.—In carrying out the Plan, the Secretary shall integrate the activities described in subparagraph (A) with ongoing Federal and State projects and activities in accordance with section 528(c) of the Water Resources Development Act of 1996 (110 Stat. 3769). Unless specifically provided herein, nothing in this section shall be construed to modify any existing cost share or responsibility for projects as listed in subsection (c) or (e) of section 528 of the Water Resources Development Act of 1996 (110 Stat. 3769).
 - (2) SPECIFIC AUTHORIZATIONS.—
 - (A) IN GENERAL.—
- (i) PROJECTS.—The Secretary shall carry out the projects included in the Plan in accordance with subparagraphs (B), (C), (D), and (E).
- (ii) CONSIDERATIONS.—In carrying out activities described in the Plan, the Secretary shall—
- (I) take into account the protection of water quality by considering applicable State water quality standards; and
- (II) include such features as the Secretary determines are necessary to ensure that all ground water and surface water discharges from any project feature authorized by this subsection will meet all applicable water quality standards and applicable water quality permitting requirements.
- (iii) REVIEW AND COMMENT.—In developing the projects authorized under subparagraph (B), the Secretary shall provide for public review and comment in accordance with applicable Federal law.
- (B) PILOT PROJECTS.—The following pilot projects are authorized for implementation, after review and approval by the Secretary,

- at a total cost of \$69,000,000, with an estimated Federal cost of \$34,500,000 and an estimated non-Federal cost of \$34,500,000:
- (i) Caloosahatchee River (C-43) Basin ASR, at a total cost of \$6,000,000, with an estimated Federal cost of \$3,000,000 and an estimated non-Federal cost of \$3,000,000.
- (ii) Lake Belt In-Ground Reservoir Technology, at a total cost of \$23,000,000, with an estimated Federal cost of \$11,500,000 and an estimated non-Federal cost of \$11,500,000.
- (iii) L-31N Seepage Management, at a total cost of \$10,000,000, with an estimated Federal cost of \$5,000,000 and an estimated non-Federal cost of \$5,000,000.
- (iv) Wastewater Reuse Technology, at a total cost of \$30,000,000, with an estimated Federal cost of \$15,000,000 and an estimated non-Federal cost of \$15,000,000.
- (C) INITIAL PROJECTS.—The following projects are authorized for implementation, after review and approval by the Secretary, subject to the conditions stated in subparagraph (D), at a total cost of \$1,100,918,000, with an estimated Federal cost of \$550,459,000 and an estimated non-Federal cost of \$550,459,000:
- (i) C-44 Basin Storage Reservoir, at a total cost of \$112,562,000, with an estimated Federal cost of \$56,281,000 and an estimated non-Federal cost of \$56.281,000.
- (ii) Everglades Agricultural Area Storage Reservoirs—Phase I, at a total cost of \$233,408,000, with an estimated Federal cost of \$116,704,000 and an estimated non-Federal cost of \$116,704,000.
- (iii) Site 1 Impoundment, at a total cost of \$38,535,000, with an estimated Federal cost of \$19,267,500 and an estimated non-Federal cost of \$19,267,500.
- (iv) Water Conservation Areas 3A/3B Levee Seepage Management, at a total cost of \$100,335,000, with an estimated Federal cost of \$50,167,500 and an estimated non-Federal cost of \$50,167,500.
- (v) C-11 Impoundment and Stormwater Treatment Area, at a total cost of \$124,837,000, with an estimated Federal cost of \$62,418,500 and an estimated non-Federal cost of \$62,418,500.
- (vi) C-9 Impoundment and Stormwater Treatment Area, at a total cost of \$89,146,000, with an estimated Federal cost of \$44,573,000 and an estimated non-Federal cost of \$44,573,000.
- (vii) Taylor Creek/Nubbin Slough Storage and Treatment Area, at a total cost of \$104,027,000, with an estimated Federal cost of \$52,013,500 and an estimated non-Federal cost of \$52,013,500.
- (viii) Raise and Bridge East Portion of Tamiami Trail and Fill Miami Canal within Water Conservation Area 3, at a total cost of \$26,946,000, with an estimated Federal cost of \$13,473,000 and an estimated non-Federal cost of \$13,473,000.
- (ix) North New River Improvements, at a total cost of \$77,087,000, with an estimated Federal cost of \$38,543,500 and an estimated non-Federal cost of \$38,543,500.
- (x) C-111 Spreader Canal, at a total cost of \$94,035,000, with an estimated Federal cost of \$47,017,500 and an estimated non-Federal cost of \$47,017,500.
- (xi) Adaptive Assessment and Monitoring Program, at a total cost of \$100,000,000, with an estimated Federal cost of \$50,000,000 and an estimated non-Federal cost of \$50,000,000.
 - (D) CONDITIONS.—
- (i) PROJECT IMPLEMENTATION REPORTS.—Before implementation of a project described in any of clauses (i) through (x) of subparagraph (C), the Secretary shall review and approve for the project a project implementa-

- tion report prepared in accordance with subsections (f) and (h).
- (ii) SUBMISSION OF REPORT.—The Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate the project implementation report required by subsections (f) and (h) for each project under this paragraph (including all relevant data and information on all costs).
- (iii) FUNDING CONTINGENT ON APPROVAL.—No appropriation shall be made to construct any project under this paragraph if the project implementation report for the project has not been approved by resolutions adopted by the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate.
- (iv) Modified water delivery.—No appropriation shall be made to construct the Conservation Water Area Decompartmentalization and Sheetflow Enhancement Project (including component AA, Additional S-345 Structures; component QQ Phase 1, Raise and Bridge East Portion of Tamiami Trail and Fill Miami Canal within WCA 3; component QQ Phase 2, WCA 3 Decompartmentalization and Sheetflow Enhancement; and component SS, North New Improvements) or Lakebelt Storage Project (including components S and EEE, Central Lake Belt Storage Area) until the completion of the project to improve water deliveries to Everglades National Park authorized by section 104 of the Everglades National Park Protection and Expansion Act of 1989 (16 U.S.C. 410r-8).
- (E) MAXIMUM COST OF PROJECTS.—Section 902 of the Water Resources Development Act of 1986 (33 U.S.C. 2280) shall apply to each project feature authorized under this subsection.
- (c) ADDITIONAL PROGRAM AUTHORITY.—
- (1) IN GENERAL.—To expedite implementation of the Plan, the Secretary may implement modifications to the Central and Southern Florida Project that—
 - (A) are described in the Plan; and
- (B) will produce a substantial benefit to the restoration, preservation and protection of the South Florida ecosystem.
- (2) PROJECT IMPLEMENTATION REPORTS.—Before implementation of any project feature authorized under this subsection, the Secretary shall review and approve for the project feature a project implementation report prepared in accordance with subsections (f) and (h).
 - (3) Funding.-
- (A) INDIVIDUAL PROJECT FUNDING.—
- (i) FEDERAL COST.—The total Federal cost of each project carried out under this subsection shall not exceed \$12,500,000.
- (ii) OVERALL COST.—The total cost of each project carried out under this subsection shall not exceed \$25,000,000.
- (B) AGGREGATE COST.—The total cost of all projects carried out under this subsection shall not exceed \$206,000,000, with an estimated Federal cost of \$103,000,000 and an estimated non-Federal cost of \$103,000,000
 - (d) AUTHORIZATION OF FUTURE PROJECTS.—
- (1) IN GENERAL.—Except for a project authorized by subsection (b) or (c), any project included in the Plan shall require a specific authorization by Congress.
- (2) SUBMISSION OF REPORT.—Before seeking congressional authorization for a project under paragraph (1), the Secretary shall submit to Congress—
 - (A) a description of the project; and

- (B) a project implementation report for the project prepared in accordance with subsections (f) and (h).
 - (e) Cost Sharing.-
- (1) FEDERAL SHARE.—The Federal share of the cost of carrying out a project authorized by subsection (b), (c), or (d) shall be 50 percent.
- (2) Non-federal responsibilities.—The non-federal sponsor with respect to a project described in subsection (b), (c), or (d), shall be—
- (A) responsible for all land, easements, rights-of-way, and relocations necessary to implement the Plan; and
- (B) afforded credit toward the non-Federal share of the cost of carrying out the project in accordance with paragraph (5)(A).
 - (3) FEDERAL ASSISTANCE.—
- (A) IN GENERAL.—The non-Federal sponsor with respect to a project authorized by subsection (b), (c), or (d) may use Federal funds for the purchase of any land, easement, rights-of-way, or relocation that is necessary to carry out the project if any funds so used are credited toward the Federal share of the cost of the project.
- (B) AGRICULTURE FUNDS.—Funds provided to the non-Federal sponsor under the Conservation Restoration and Enhancement Program (CREP) and the Wetlands Reserve Program (WRP) for projects in the Plan shall be credited toward the non-Federal share of the cost of the Plan if the Secretary of Agriculture certifies that the funds provided may be used for that purpose. Funds to be credited do not include funds provided under section 390 of the Federal Agriculture Improvement and Reform Act of 1996 (110 Stat. 1022).
- (4) OPERATION AND MAINTENANCE.—Notwithstanding section 528(e)(3) of the Water Resources Development Act of 1996 (110 Stat. 3770), the non-Federal sponsor shall be responsible for 50 percent of the cost of operation, maintenance, repair, replacement, and rehabilitation activities authorized under this section. Furthermore, the Seminole Tribe of Florida shall be responsible for 50 percent of the cost of operation, maintenance, repair, replacement, and rehabilitation activities for the Big Cypress Seminole Reservation Water Conservation Project.
- (5) CREDIT.—
- (A) IN GENERAL.—Notwithstanding section 528(e)(4) of the Water Resources Development Act of 1996 (110 Stat. 3770) and regardless of the date of acquisition, the value of lands or interests in lands and incidental costs for land acquired by a non-Federal sponsor in accordance with a project implementation report for any project included in the Plan and authorized by Congress shall be—
- (i) included in the total cost of the project; and
- (ii) credited toward the non-Federal share of the cost of the project.
- (B) Work.—The Secretary may provide credit, including in-kind credit, toward the non-Federal share for the reasonable cost of any work performed in connection with a study, preconstruction engineering and design, or construction that is necessary for the implementation of the Plan if—
- (i)(I) the credit is provided for work completed during the period of design, as defined in a design agreement between the Secretary and the non-Federal sponsor; or
- (II) the credit is provided for work completed during the period of construction, as defined in a project cooperation agreement for an authorized project between the Secretary and the non-Federal sponsor;

- (ii) the design agreement or the project cooperation agreement prescribes the terms and conditions of the credit; and
- (iii) the Secretary determines that the work performed by the non-Federal sponsor is integral to the project.
- (C) TREATMENT OF CREDIT BETWEEN PROJECTS.—Any credit provided under this paragraph may be carried over between authorized projects in accordance with subparagraph (D).
- (D) PERIODIC MONITORING.—
- (i) IN GENERAL.—To ensure that the contributions of the non-Federal sponsor equal 50 percent proportionate share for projects in the Plan, during each 5-year period, beginning with commencement of design of the Plan, the Secretary shall, for each project—
- (I) monitor the non-Federal provision of cash, in-kind services, and land; and
- (II) manage, to the maximum extent practicable, the requirement of the non-Federal sponsor to provide cash, in-kind services, and land.
- (ii) OTHER MONITORING.—The Secretary shall conduct monitoring under clause (i) separately for the preconstruction engineering and design phase and the construction phase.
- (E) AUDITS.—Credit for land (including land value and incidental costs) or work provided under this subsection shall be subject to audit by the Secretary.
 - (f) EVALUATION OF PROJECTS.—
- (1) In GENERAL.—Before implementation of a project authorized by subsection (c) or (d) or any of clauses (i) through (x) of subsection (b)(2)(C), the Secretary, in cooperation with the non-Federal sponsor, shall complete, after notice and opportunity for public comment and in accordance with subsection (h), a project implementation report for the project.
 - (2) PROJECT JUSTIFICATION.—
- (A) IN GENERAL.—Notwithstanding section 209 of the Flood Control Act of 1970 (42 U.S.C. 1962–2) or any other provision of law, in carrying out any activity authorized under this section or any other provision of law to restore, preserve, or protect the South Florida ecosystem, the Secretary may determine that—
- (i) the activity is justified by the environmental benefits derived by the South Florida ecosystem; and
- (ii) no further economic justification for the activity is required, if the Secretary determines that the activity is cost-effective.
- (B) APPLICABILITY.—Subparagraph (A) shall not apply to any separable element intended to produce benefits that are predominantly unrelated to the restoration, preservation, and protection of the natural system.
- (g) EXCLUSIONS AND LIMITATIONS.—The following Plan components are not approved for implementation:
 - (1) WATER INCLUDED IN THE PLAN.—
- (A) IN GENERAL.—Any project that is designed to implement the capture and use of the approximately 245,000 acre-feet of water described in section 7.7.2 of the Plan shall not be implemented until such time as—
- (i) the project-specific feasibility study described in subparagraph (B) on the need for and physical delivery of the approximately 245,000 acre-feet of water, conducted by the Secretary, in cooperation with the non-Federal sponsor, is completed;
- (ii) the project is favorably recommended in a final report of the Chief of Engineers; and
- (iii) the project is authorized by Act of Congress.

- (B) PROJECT-SPECIFIC FEASIBILITY STUDY.— The project-specific feasibility study referred to in subparagraph (A) shall include—
- (i) a comprehensive analysis of the structural facilities proposed to deliver the approximately 245,000 acre-feet of water to the natural system;
- (ii) an assessment of the requirements to divert and treat the water:
- (iii) an assessment of delivery alternatives; (iv) an assessment of the feasibility of delivering the water downstream while maintaining current levels of flood protection to
- affected property; and
 (v) any other assessments that are determined by the Secretary to be necessary to complete the study.
 - (2) WASTEWATER REUSE.—
- (A) IN GENERAL.—On completion and evaluation of the wastewater reuse pilot project described in subsection (b)(2)(B)(iv), the Secretary, in an appropriately timed 5-year report, shall describe the results of the evaluation of advanced wastewater reuse in meeting, in a cost-effective manner, the requirements of restoration of the natural system.
- (B) SUBMISSION.—The Secretary shall submit to Congress the report described in subparagraph (A) before congressional authorization for advanced wastewater reuse is sought.
- (3) PROJECTS APPROVED WITH LIMITATIONS.— The following projects in the Plan are approved for implementation with limitations:
- (A) LOXAHATCHEE NATIONAL WILDLIFE REF-UGE.—The Federal share for land acquisition in the project to enhance existing wetland systems along the Loxahatchee National Wildlife Refuge, including the Stazzulla tract, should be funded through the budget of the Department of the Interior.
- (B) SOUTHERN CORKSCREW REGIONAL ECO-SYSTEM.—The Southern Corkscrew regional ecosystem watershed addition should be accomplished outside the scope of the Plan.
 - (h) Assurance of Project Benefits.—
- (1) In GENERAL.—The overarching objective of the Plan is the restoration, preservation, and protection of the South Florida Ecosystem while providing for other water-related needs of the region, including water supply and flood protection. The Plan shall be implemented to ensure the protection of water quality in, the reduction of the loss of fresh water from, the improvement of the environment of the South Florida Ecosystem and to achieve and maintain the benefits to the natural system and human environment described in the Plan, and required pursuant to this section, for as long as the project is authorized.
 - (2) AGREEMENT.—
- (A) IN GENERAL.—In order to ensure that water generated by the Plan will be made available for the restoration of the natural system, no appropriations, except for any pilot project described in subsection (b)(2)(B), shall be made for the construction of a project contained in the Plan until the President and the Governor enter into a binding agreement under which the State shall ensure, by regulation or other appropriate means, that water made available by each project in the Plan shall not be permitted for a consumptive use or otherwise made unavailable by the State until such time as sufficient reservations of water for the restoration of the natural system are made under State law in accordance with the project implementation report for project and consistent with the Plan.
 - (B) Enforcement.—
- (i) IN GENERAL.—Any person or entity that is aggrieved by a failure of the United States

- or any other Federal Government instrumentality or agency, or the Governor or any other officer of a State instrumentality or agency, to comply with any provision of the agreement entered into under subparagraph (A) may bring a civil action in United States district court for an injunction directing the United States or any other Federal Government instrumentality or agency or the Governor or any other officer of a State instrumentality or agency, as the case may be, to comply with the agreement.
- (ii) LIMITATIONS ON COMMENCEMENT OF CIVIL ACTION.—No civil action may be commenced under clause (i)—
- (I) before the date that is 60 days after the Secretary and the Governor receive written notice of a failure to comply with the agreement: or
- (II) if the United States has commenced and is diligently prosecuting an action in a court of the United States or a State to redress a failure to comply with the agreement.
- (C) TRUST RESPONSIBILITIES.—In carrying out his responsibilities under this subsection with respect to the restoration of the South Florida ecosystem, the Secretary of the Interior shall fulfill his obligations to the Indian tribes in South Florida under the Indian trust doctrine as well as other applicable legal obligations.
- (3) PROGRAMMATIC REGULATIONS.—
- (A) ISSUANCE.—Not later than 2 years after the date of enactment of this Act, the Secretary shall, after notice and opportunity for public comment, with the concurrence of the Governor and the Secretary of the Interior, and in consultation with the Seminole Tribe of Florida, the Miccosukee Tribe of Indians of Florida, the Administrator of the Environmental Protection Agency, the Secretary of Commerce, and other Federal, State, and local agencies, promulgate programmatic regulations to ensure that the goals and purposes of the Plan are achieved.
- (B) CONCURRENCY STATEMENT.—The Secretary of the Interior and the Governor shall, not later than 180 days from the end of the public comment period on proposed programmatic regulations, provide the Secretary with a written statement of concurrence or nonconcurrence. A failure to provide a written statement of concurrence or nonconcurrence within such time frame will be deemed as meeting the concurrency requirements of subparagraph (A)(i). A copy of any concurrency or nonconcurrency statements shall be made a part of the administrative record and referenced in the final programmatic regulations. Any nonconcurrency statement shall specifically detail the reason or reasons for the nonconcur-
 - (C) CONTENT OF REGULATIONS.—
- (i) IN GENERAL.—Programmatic regulations promulgated under this paragraph shall establish a process—
- (I) for the development of project implementation reports, project cooperation agreements, and operating manuals that ensure that the goals and objectives of the Plan are achieved;
- (II) to ensure that new information resulting from changed or unforeseen circumstances, new scientific or technical information or information that is developed through the principles of adaptive management contained in the Plan, or future authorized changes to the Plan are integrated into the implementation of the Plan; and
- (III) to ensure the protection of the natural system consistent with the goals and purposes of the Plan, including the establishment of interim goals to provide a means by

which the restoration success of the Plan may be evaluated throughout the implementation process.

- (ii) LIMITATION ON APPLICABILITY OF PRO-GRAMMATIC REGULATIONS.—Programmatic regulations promulgated under this paragraph shall expressly prohibit the requirement for concurrence by the Secretary of the Interior or the Governor on project implementation reports, project cooperation agreements, operating manuals for individual projects undertaken in the Plan, and any other documents relating to the development, implementation, and management of individual features of the Plan, unless such concurrence is provided for in other Federal or State laws.
 - (D) SCHEDULE AND TRANSITION RULE.—
- (i) IN GENERAL.—All project implementation reports approved before the date of promulgation of the programmatic regulations shall be consistent with the Plan.
- (ii) PREAMBLE.—The preamble of the programmatic regulations shall include a statement concerning the consistency with the programmatic regulations of any project implementation reports that were approved before the date of promulgation of the regulations.
- (E) REVIEW OF PROGRAMMATIC REGULATIONS.—Whenever necessary to attain Plan goals and purposes, but not less often than every 5 years, the Secretary, in accordance with subparagraph (A), shall review the programmatic regulations promulgated under this paragraph.
 - (4) Project-specific assurances.—
 - (A) PROJECT IMPLEMENTATION REPORTS.—

 (i) IN GENERAL —The Secretary and the secretary are secretary and the secretary and the secretary are secretary and the secretary are secretary as the secretary and the secretary are secretary as the secretary as the secretary are secretary as the secretary as the secretary are secretary as the secretary are secretary as the secretary and the secretary are secretary as the secretary a
- (i) IN GENERAL.—The Secretary and the non-Federal sponsor shall develop project implementation reports in accordance with section 10.3.1 of the Plan.
- (ii) COORDINATION.—In developing a project implementation report, the Secretary and the non-Federal sponsor shall coordinate with appropriate Federal, State, tribal, and local governments.
- (iii) REQUIREMENTS.—A project implementation report shall—
- (I) be consistent with the Plan and the programmatic regulations promulgated under paragraph (3);
- (II) describe how each of the requirements stated in paragraph (3)(B) is satisfied;
- (III) comply with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.):
- (IV) identify the appropriate quantity, timing, and distribution of water dedicated and managed for the natural system;
- (V) identify the amount of water to be reserved or allocated for the natural system necessary to implement, under State law, subclauses (IV) and (VI);
- (VI) comply with applicable water quality standards and applicable water quality permitting requirements under subsection (b)(2)(A)(ii);
- (VII) be based on the best available science; and
- (VIII) include an analysis concerning the cost-effectiveness and engineering feasibility of the project.
- (B) PROJECT COOPERATION AGREEMENTS.—
- (i) IN GENERAL.—The Secretary and the non-Federal sponsor shall execute project cooperation agreements in accordance with section 10 of the Plan.
- (ii) CONDITION.—The Secretary shall not execute a project cooperation agreement until any reservation or allocation of water for the natural system identified in the project implementation report is executed under State law.

- (C) OPERATING MANUALS.—
- (i) IN GENERAL.—The Secretary and the non-Federal sponsor shall develop and issue, for each project or group of projects, an operating manual that is consistent with the water reservation or allocation for the natural system described in the project implementation report and the project cooperation agreement for the project or group of projects.
- (ii) Modifications.—Any significant modification by the Secretary and the non-Federal sponsor to an operating manual after the operating manual is issued shall only be carried out subject to notice and opportunity for public comment.
 - (5) SAVINGS CLAUSE.—
- (A) No ELIMINATION OR TRANSFER.—Until a new source of water supply of comparable quantity and quality as that available on the date of enactment of this Act is available to replace the water to be lost as a result of implementation of the Plan, the Secretary and the non-Federal sponsor shall not eliminate or transfer existing legal sources of water, including those for—
- (i) an agricultural or urban water supply;
- (ii) allocation or entitlement to the Seminole Indian Tribe of Florida under section 7 of the Seminole Indian Land Claims Settlement Act of 1987 (25 U.S.C. 1772e);
- (iii) the Miccosukee Tribe of Indians of Florida;
- (iv) water supply for Everglades National Park; or
 - (v) water supply for fish and wildlife.
- (B) MAINTENANCE OF FLOOD PROTECTION.— Implementation of the Plan shall not reduce levels of service for flood protection that are—
- (i) in existence on the date of enactment of this Act; and
- (ii) in accordance with applicable law.
- (C) No EFFECT ON TRIBAL COMPACT.—Nothing in this section amends, alters, prevents, or otherwise abrogates rights of the Seminole Indian Tribe of Florida under the compact among the Seminole Tribe of Florida, the State, and the South Florida Water Management District, defining the scope and use of water rights of the Seminole Tribe of Florida, as codified by section 7 of the Seminole Indian Land Claims Settlement Act of 1987 (25 U.S.C. 1772e).
- (i) DISPUTE RESOLUTION.—
- (1) IN GENERAL.—The Secretary and the Governor shall within 180 days from the date of enactment of this Act develop an agreement for resolving disputes between the Corps of Engineers and the State associated with the implementation of the Plan. Such agreement shall establish a mechanism for the timely and efficient resolution of disputes, including—
- (A) a preference for the resolution of disputes between the Jacksonville District of the Corps of Engineers and the South Florida Water Management District:
- (B) a mechanism for the Jacksonville District of the Corps of Engineers or the South Florida Water Management District to initiate the dispute resolution process for unresolved issues;
- (C) the establishment of appropriate timeframes and intermediate steps for the elevation of disputes to the Governor and the Secretary; and
- (D) a mechanism for the final resolution of disputes, within 180 days from the date that the dispute resolution process is initiated under subparagraph (B).
- (2) CONDITION FOR REPORT APPROVAL.—The Secretary shall not approve a project implementation report under this section until

the agreement established under this subsection has been executed.

- (3) No EFFECT ON LAW.—Nothing in the agreement established under this subsection shall alter or amend any existing Federal or State law, or the responsibility of any party to the agreement to comply with any Federal or State law.
- (i) Independent Scientific Review.—
- (1) IN GENERAL.—The Secretary, the Secretary of the Interior, and the Governor, in consultation with the South Florida Ecosystem Restoration Task Force, shall establish an independent scientific review panel convened by a body, such as the National Academy of Sciences, to review the Plan's progress toward achieving the natural system restoration goals of the Plan.
- (2) REPORT.—The panel described in paragraph (1) shall produce a biennial report to Congress, the Secretary, the Secretary of the Interior, and the Governor that includes an assessment of ecological indicators and other measures of progress in restoring the ecology of the natural system, based on the Plan.
 - (k) OUTREACH AND ASSISTANCE.—
- (1) SMALL BUSINESS CONCERNS OWNED AND OPERATED BY SOCIALLY AND ECONOMICALLY DISADVANTAGED INDIVIDUALS.—In executing the Plan, the Secretary shall ensure that small business concerns owned and controlled by socially and economically disadvantaged individuals are provided opportunities to participate under section 15(g) of the Small Business Act (15 U.S.C. 644(g)).
- (2) COMMUNITY OUTREACH AND EDUCATION.—
 (A) IN GENERAL.—The Secretary shall ensure that impacts on socially and economically disadvantaged individuals, including individuals with limited English proficiency, and communities are considered during implementation of the Plan, and that such individuals have opportunities to review and comment on its implementation.
- (B) PROVISION OF OPPORTUNITIES.—The Secretary shall ensure, to the maximum extent practicable, that public outreach and educational opportunities are provided, during implementation of the Plan, to the individuals of South Florida, including individuals with limited English proficiency, and in particular for socially and economically disadvantaged communities.
- (1) REPORT TO CONGRESS.--Beginning on October 1, 2005, and periodically thereafter until October 1, 2036, the Secretary and the Secretary of the Interior, in consultation with the Environmental Protection Agency, the Department of Commerce, and the State of Florida, shall jointly submit to Congress a report on the implementation of the Plan. Such reports shall be completed not less often than every 5 years. Such reports shall include a description of planning, design, and construction work completed, the amount of funds expended during the period covered by the report (including a detailed analysis of the funds expended for adaptive assessment under subsection (b)(2)(C)(xi), and the work anticipated over the next 5-year period. In addition, each report shall include-
- (1) the determination of each Secretary, and the Administrator of the Environmental Protection Agency, concerning the benefits to the natural system and the human environment achieved as of the date of the report and whether the completed projects of the Plan are being operated in a manner that is consistent with the requirements of subsection (h):
- (2) progress toward interim goals established in accordance with subsection (h)(3)(B); and

- (3) a review of the activities performed by the Secretary under subsection (k) as they relate to socially and economically disadvantaged individuals and individuals with limited English proficiency.
- (m) REPORT ON AQUIFER STORAGE AND RECOVERY PROJECT.—Not later than 180 after the date of enactment of this Act, the Secretary shall transmit to Congress a report containing a determination as to whether the ongoing Biscayne Aquifer Storage and Recovery Program located in Miami-Dade County has a substantial benefit to the restoration, preservation, and protection of the South Florida ecosystem.
- (n) FULL DISCLOSURE OF PROPOSED FUNDING.—
- (1) FUNDING FROM ALL SOURCES.—The President, as part of the annual budget of the United States Government, shall display under the heading "Everglades Restoration" all proposed funding for the Plan for all agency programs.
- (2) FUNDING FROM CORPS OF ENGINEERS CIVIL WORKS PROGRAM.—The President, as part of the annual budget of the United States Government, shall display under the accounts "Construction, General" and "Operation and Maintenance, General" of the title "Department of Defense—Civil, Department of the Army, Corps of Engineers—Civil", the total proposed funding level for each account for the Plan and the percentage such level represents of the overall levels in such accounts. The President shall also include an assessment of the impact such funding levels for the Plan would have on the budget year and long-term funding levels for the overall Corps of Engineers civil works program.
- (0) SURPLUS FEDERAL LANDS.—Section 390(f)(2)(A)(i) of the Federal Agriculture Improvement and Reform Act of 1996 (110 Stat. 1023) is amended by inserting after "on or after the date of enactment of this Act" the following: "and before the date of enactment of the Water Resource Development Act of 2000".
- (p) SEVERABILITY.—If any provision or remedy provided by this section is found to be unconstitutional or unenforceable by any court of competent jurisdiction, any remaining provisions in this section shall remain valid and enforceable.

SEC. 602. SENSE OF CONGRESS CONCERNING HOMESTEAD AIR FORCE BASE.

- (a) FINDINGS.—Congress finds that—
- (1) the Everglades is an American treasure and includes uniquely-important and diverse wildlife resources and recreational opportunities:
- (2) the preservation of the pristine and natural character of the South Florida ecosystem is critical to the regional economy;
- (3) as this legislation demonstrates, Congress believes it to be a vital national mission to restore and preserve this ecosystem and accordingly is authorizing a significant Federal investment to do so:
- (4) Congress seeks to have the remaining property at the former Homestead Air Base conveyed and reused as expeditiously as possible, and several options for base reuse are being considered, including as a commercial airport; and
- (5) Congress is aware that the Homestead site is located in a sensitive environmental location, and that Biscayne National Park is only approximately 1.5 miles to the east, Everglades National Park approximately 8 miles to the west, and the Florida Keys National Marine Sanctuary approximately 10 miles to the south.
- (b) SENSE OF CONGRESS.—It is the sense of Congress that—

- (1) development at the Homestead site could potentially cause significant air, water, and noise pollution and result in the degradation of adjacent national parks and other protected Federal resources:
- (2) in their decisionmaking, the Federal agencies charged with determining the reuse of the remaining property at the Homestead base should carefully consider and weigh all available information concerning potential environmental impacts of various reuse options:
- (3) the redevelopment of the former base should be consistent with restoration goals, provide desirable numbers of jobs and economic redevelopment for the community, and be consistent with other applicable laws;
- (4) consistent with applicable laws, the Secretary of the Air Force should proceed as quickly as practicable to issue a final SEIS and Record of Decision so that reuse of the former air base can proceed expeditiously;
- (5) following conveyance of the remaining surplus property, the Secretary, as part of his oversight for Everglades restoration, should cooperate with the entities to which the various parcels of surplus property were conveyed so that the planned use of those properties is implemented in such a manner as to remain consistent with the goals of the Everglades restoration plan; and
- (6) by August 1, 2002, the Secretary should submit a report to the appropriate committees of Congress on actions taken and make any recommendations for consideration by Congress.

TITLE VII—MISSOURI RIVER RESTORATION

SEC. 701. DEFINITIONS.

- In this title, the following definitions apply:
- (1) PICK-SLOAN PROGRAM.—The term "Pick-Sloan program" means the Pick-Sloan Missouri River Basin Program authorized by section 9 of the Act of December 22, 1944 (58 Stat. 891).
- (2) PLAN.—The term "plan" means the plan for the use of funds made available by this title that is required to be prepared under section 705(e).
- (3) STATE.—The term "State" means the State of South Dakota.
- (4) TASK FORCE.—The term "Task Force" means the Missouri River Task Force established by section 705(a).
- (6) TRUST.—The term "Trust" means the Missouri River Trust established by section 704(a).

SEC. 702. MISSOURI RIVER TRUST.

- (a) ESTABLISHMENT.—There is established a committee to be known as the Missouri River Trust.
- (b) MEMBERSHIP.—The Trust shall be composed of 25 members to be appointed by the Secretary including—
- (1) 15 members recommended by the Governor of South Dakota that—
- (A) represent equally the various interests of the public; and
- (B) include representatives of-
- (i) the South Dakota Department of Environment and Natural Resources;
- (ii) the South Dakota Department of Game, Fish, and Parks;
- (iii) environmental groups;
- (iv) the hydroelectric power industry;
- (v) local governments;
- (vi) recreation user groups;
- (vii) agricultural groups; and
- (viii) other appropriate interests;
- (2) 9 members, 1 of each of whom shall be recommended by each of the 9 Indian tribes in the State of South Dakota; and

(3) 1 member recommended by the organization known as the "Three Affiliated Tribes of North Dakota" (composed of the Mandan, Hidatsa, and Arikara tribes).

SEC. 703. MISSOURI RIVER TASK FORCE.

- (a) ESTABLISHMENT.—There is established the Missouri River Task Force.
- (b) MEMBERSHIP.—The Task Force shall be composed of—
- (1) the Secretary (or a designee), who shall serve as Chairperson;
- (2) the Secretary of Agriculture (or a designee);
- (3) the Secretary of Energy (or a designee);
- (4) the Secretary of the Interior (or a designee); and
 - (5) the Trust.
 - (c) DUTIES.—The Task Force shall—
 - (1) meet at least twice each year;
- (2) vote on approval of the plan, with approval requiring votes in favor of the plan by a majority of the members;
- (3) review projects to meet the goals of the plan; and
- (4) recommend to the Secretary critical projects for implementation.
 - (d) Assessment.—
- (1) IN GENERAL.—Not later than 1 year after the date on which funding authorized under this title becomes available, the Secretary shall submit to the other members of the Task Force a report on—
- (A) the impact of the siltation of the Missouri River in the State, including the impact on the Federal, State, and regional economies, recreation, hydropower generation, fish and wildlife, and flood control:
- (B) the status of Indian and non-Indian historical and cultural sites along the Missouri River;
- (C) the extent of erosion along the Missouri River (including tributaries of the Missouri River) in the State; and
- (D) other issues, as requested by the Task
- (2) CONSULTATION.—In preparing the report under paragraph (1), the Secretary shall consult with the Secretary of Energy, the Secretary of the Interior, the Secretary of Agriculture, the State, and Indian tribes in the State.
- (e) PLAN FOR USE OF FUNDS MADE AVAILABLE BY THIS TITLE.—
- (1) IN GENERAL.—Not later than 2 years after the date on which funding authorized under this title becomes available, the Task Force shall prepare a plan for the use of funds made available under this title.
- (2) CONTENTS OF PLAN.—The plan shall provide for the manner in which the Task Force shall develop and recommend critical restoration projects to promote—
- (A) conservation practices in the Missouri River watershed;
- (B) the general control and removal of sediment from the Missouri River;
- (C) the protection of recreation on the Missouri River from sedimentation;
- (D) the protection of Indian and non-Indian historical and cultural sites along the Missouri River from erosion;
- (E) erosion control along the Missouri River; or
- (F) any combination of the activities described in subparagraphs (A) through (E).
 - (3) PLAN REVIEW AND REVISION.—
- (A) IN GENERAL.—The Task Force shall make a copy of the plan available for public review and comment before the plan becomes final, in accordance with procedures established by the Task Force.
 - (B) REVISION OF PLAN.—
- (i) IN GENERAL.—The Task Force may, on an annual basis, revise the plan.

- (ii) PUBLIC REVIEW AND COMMENT.—In revising the plan, the Task Force shall provide the public the opportunity to review and comment on any proposed revision to the plan.
 - (f) CRITICAL RESTORATION PROJECTS.-
- (1) IN GENERAL.—After the plan is approved by the Task Force under subsection (c)(2), the Secretary, in coordination with the Task Force, shall identify critical restoration projects to carry out the plan.
- (2) AGREEMENT.—The Secretary may carry out a critical restoration project after entering into an agreement with an appropriate non-Federal interest in accordance with section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d–5b).
- (3) INDIAN PROJECTS.—To the maximum extent practicable, the Secretary shall ensure that not less than 30 percent of the funds made available for critical restoration projects under this title shall be used exclusively for projects that are—
- (A) within the boundary of an Indian reservation; or
 - (B) administered by an Indian tribe.
 - (g) COST SHARING.
 - (1) ASSESSMENT —
- (A) FEDERAL SHARE.—The Federal share of the cost of carrying out the assessment under subsection (d) shall be 50 percent.
- (B) NON-FEDERAL SHARE.—The non-Federal share of the cost of carrying out the assessment under subsection (d) may be provided in the form of services, materials, or other in-kind contributions.
- (2) PLAN.—
- (A) FEDERAL SHARE.—The Federal share of the cost of preparing the plan under subsection (e) shall be 50 percent.
- (B) NON-FEDERAL SHARE.—Not more than 50 percent of the non-Federal share of the cost of preparing the plan under subsection (e) may be provided in the form of services, materials, or other in-kind contributions.
 - (3) CRITICAL RESTORATION PROJECTS.—
- (A) IN GENERAL.—A non-Federal cost share shall be required to carry out any critical restoration project under subsection (f) that

- does not primarily benefit the Federal Government, as determined by the Task Force.
- (B) FEDERAL SHARE.—The Federal share of the cost of carrying out a critical restoration project under subsection (f) for which the Task Force requires a non-Federal cost share under subparagraph (A) shall be 65 percent, not to exceed \$5,000,000 for any critical restoration project.
 - (C) Non-federal share.—
- (i) IN GENERAL.—Not more than 50 percent of the non-Federal share of the cost of carrying out a critical restoration project described in subparagraph (B) may be provided in the form of services, materials, or other in-kind contributions.
- (ii) REQUIRED NON-FEDERAL CONTRIBUTIONS.—For any critical restoration project described in subparagraph (B), the non-Federal interest shall—
- (I) provide all land, easements, rights-ofway, dredged material disposal areas, and relocations:
- (II) pay all operation, maintenance, replacement, repair, and rehabilitation costs; and
- (III) hold the United States harmless from all claims arising from the construction, operation, and maintenance of the project.
- (iii) CREDIT.—The non-Federal interest shall receive credit for all contributions provided under clause (ii)(I).

SEC. 704. ADMINISTRATION.

- (a) In General.—Nothing in this title diminishes or affects— $\,$
 - (1) any water right of an Indian tribe;
- (2) any other right of an Indian tribe, except as specifically provided in another provision of this title:
- (3) any treaty right that is in effect on the date of enactment of this Act:
- (4) any external boundary of an Indian reservation of an Indian tribe;
- (5) any authority of the State that relates to the protection, regulation, or management of fish, terrestrial wildlife, and cultural and archaeological resources, except as specifically provided in this title; or

- (6) any authority of the Secretary, the Secretary of the Interior, or the head of any other Federal agency under a law in effect on the date of enactment of this Act, including—
- (A) the National Historic Preservation Act (16 U.S.C. 470 et seq.);
- (B) the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470aa et seq.);
- (C) the Fish and Wildlife Coordination Act (16 U.S.C. 661 et seq.);
- (D) the Act entitled "An Act for the protection of the bald eagle", approved June 8, 1940 (16 U.S.C. 668 et seq.);
- (E) the Migratory Bird Treaty Act (16 U.S.C. 703 et seq.);
- (F) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);
- (G) the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 et seq.);
- (H) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);
- (I) the Safe Drinking Water Act (42 U.S.C. 300f et seq.); and $\,$
- (J) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).
- (b) FEDERAL LIABILITY FOR DAMAGE.—Nothing in this title relieves the Federal Government of liability for damage to private property caused by the operation of the Pick-Sloan program.
- (c) FLOOD CONTROL.—Notwithstanding any other provision of this title, the Secretary shall retain the authority to operate the Pick-Sloan program for the purposes of meeting the requirements of the Act of December 22, 1944 (58 Stat. 887, 33 U.S.C. 701–1 et seq.)

SEC. 705. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to the Secretary to carry out this title \$4,000,000 for each of fiscal years 2001 through 2005, \$5,000,000 for each of fiscal years 2006 through 2009, and \$10,000,000 in fiscal year 2010. Such funds shall remain available until expended.

EXTENSIONS OF REMARKS

TRIBUTE TO JASON HAYES OF MADISON, ALABAMA

HON. ROBERT E. (BUD) CRAMER, JR.

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 18, 2000

Mr. CRAMER. Mr. Speaker, I rise today to pay tribute to a very brave and fortunate young man from Madison, Alabama, Mr. Jason Hayes. Last Thursday while in a Yemen port, the U.S.S. *Cole* was attacked with a bomb that blew open a 40 by 40 ft. hole in the midsection of the ship. The attack destroyed an engine room and nearby mess hall. Hayes was on the mess deck at the time and is currently recovering from cuts, bruises, smoke inhalation and a chemical burn on his foot.

Hayes, a third class petty officer on the Navy destroyer, is a hero. The word "hero" is not a word to be flippantly uttered—but Hayes and the other surviving sailors aboard the U.S.S. *Cole* that day are heroes. Their quick and brave actions saved lives as well as the ship.

Today, people from all across North Alabama and especially his friends in the Madison area are gathering at the Huntsville International Airport to welcome their hero and his family home. I cannot be there today but I wish I could to join his friends in telling Jason how proud we are of him and how thrilled we are that he is home safe. Hayes is a 1995 graduate of Bob Jones High School and his parents. Jean and Stephen, still live in the Madison community. Our community has come together in this crisis after receiving word of Jason's injuries and it is right that we gather to celebrate his homecoming. Jason and the Hayes family including Jason's wife, Roxanne, in Norfolk have been in our prayers.

What happened last Thursday was an intolerable act of terrorism. Across the country, 17 families are having much different and much more solemn ceremonies than the Hayes today as they bury their sons and daughters who did not survive the attack. My thoughts and prayers are with those families today. I urge our federal agents to exhaust all conceivable avenues to capture those responsible and bring them to justice for this horrific crime.

On behalf of the Congress of the United States, I want to express my gratitude for Jason's bravery and his service. I know today is an emotional and special day for the Hayes family and the Madison community. I hope that this time is a time for them to relish being together and celebrate the bonds of family.

J.T. WEEKER SERVICE CENTER

SPEECH OF

HON. HENRY J. HYDE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 17, 2000

Mr. HYDE. Madam Speaker, I rise in support of H.R. 5016, which designates the facility of the United States Postal Service located at 514 Express Center Drive in Chicago, Illinois, as the J.T. Weeker Service Center. It is with great pride that we in the Illinois Congressional Delegation honor a man for whom our entire Nation is eternally grateful.

John Thomas (J.T.) Weeker was born in New York, New York in 1947. He graduated from Cornell University in 1969 and completed Executive Management Programs at Harvard, Pennsylvania State, and Duke Universities.

Mr. Weeker began his career with the Postal Service in 1972 in Akron, Ohio, as District Director, Employee Relations and served in a variety of management positions for the Postal Service throughout the United States. In 1988 he was appointed General Manager/Postmaster of the Albany, NY Field Division, and served in that capacity until 1993, when he was appointed District Manager for the Albany District.

When Mr. Weeker was appointed to direct operations of the U.S. Postal Service's Great Lakes Area in 1995, mail service in the area had been lambasted by public and postal officials the year before. Joining a rehabilitation effort already in progress, Mr. Weeker, known for fostering optimism in his coworkers, stressed employee development and built a professional relationship with the region's largest postal customers. He brought tremendous energy to this effort, despite his own fragile health. In 1977, he received a kidney and pancreas transplant to replace organs damaged by a lifelong struggle with diabetes.

As Vice President of Operations of the Great Lakes Area, Mr. Weeker was responsible for mail processing and distribution, customer service and sales operations in a territory covering most of Illinois, Indiana, and Michigan, serving 25 million customers and staffed by more than 80,000 employees in 32 plants and 2,140 post offices.

Noted for his innovative leadership and team building activities, Mr. Weeker implemented the first extensive Quality Process in the Postal Service and was a founding member of the first national Management by Participation committee. During the four years he directed operations, Mr. Weeker changed operational structures in the office, as well as the way the region examined its performance. As a result, mail delivery times in the Great Lakes Area, and especially in Chicago, improved considerably. In FY 1998, the overnight committed first-class mail arrived on time in the Great Lakes Area 93.4 percent, and

93.5 percent in Chicago and further improvements were seen in FY 1999 and FY 2000.

Mr. Weeker died on January 6, 2000 at the University of Wisconsin Hospital in Madison, Wisconsin. He is survived by his wife, Julia (from Wheaton, Illinois), his parents Samuel and Maxine, his sister Wendy Vaccaro, and his brothers, Brett and Scott.

Madam Speaker, I urge the adoption of H.R. 5016. I thank the gentleman from Illinois (Mr. BLAGOJEVICH) for recognizing this great man from Illinois.

IN HONOR OF SALLY MORILLAS

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES
Wednesday, October 18, 2000

Mr. KUCINICH. Mr. Speaker, I rise today to pay tribute to one of Cleveland's finest citizens. Mrs. Sally Morillas. At 86 years old, Mrs. Morillas continues to be an example of self-lessness, volunteerism, and the spirit of community.

Sally Morillas was born in Missouri, but she spent most of her childhood in Youngstown, Ohio. Mrs. Morillas became an active force in her community at an early age. Following her graduation from Oberlin College in 1934, Mrs. Morillas was instrumental in organizing the Youngstown Steelworkers Union. She continued her admirable fight on behalf of the Union until moving to Cleveland in 1942.

Since then, Sally Morillas has made immeasurable contributions to the city of Cleveland, particularly for women and the Hispanic community. Her interminable commitment to peace has earned her prominent positions in the Women's International League for Peace and Freedom and Women Speak Out for Peace and Justice. Her unfailing dedication to peace first became evident during the Vietnam War when she participated in anti-war demonstrations in Cleveland and in Washington, DC. However, Mrs. Morillas does not only exercise her political activism during times of war and struggle. She worked diligently on the campaign to lift the embargo on Cuba and on the effort to return Elian Gonzales to his family

Beyond her extraordinary involvement with international issues and world peace, Mrs. Morillas also supports causes that hit closer to home. As a full-time teacher at Glenville High School for 7 years and a substitute teacher for 10 years, Mrs. Morillas aimed to advance the interests of teachers through her membership in the Cleveland Teacher's Union. In addition to the Teacher's Union, Mrs. Morillas honorably served on the first advisory committee of the Hispanic Senior Center, where she is still a member. Finally, she donated considerable time and effort as a senior companion for the Benjamin Rose Institute, a non-profit, health

EXTENSIONS OF REMARKS

and social services organization that seeks to help Cleveland's elderly population.

Despite her numerous other commitments, Sally Morillas always found time for her family. She has one daughter, Lucha, with her husband Diego Morillas who passed away in 1966.

Mr. Speaker, I ask my fellow colleagues in the House of Representatives to join me today in honoring this remarkable woman, Sally Morillas. The tremendous impact that she has made on her community and the city of Cleveland will last for generations to come.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this infor-

mation, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the Congressional Record on Monday and Wednesday of each week.

Meetings scheduled for Thursday, October 19, 2000 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

OCTOBER 20

9 a.m

Armed Services

To hold closed hearings on issues related to the attack on the U.S.S. Cole.

SR-222

SENATE—Thursday, October 19, 2000

(Legislative day of Friday, September 22, 2000)

The Senate met at 10:30 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. Thurmond].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Holy, holy, holy, Lord God Almighty. Heaven and Earth are filled with Your glory. Praise and thanksgiving be to You, Lord most high. Ruler of the universe, reign in us. Creator of all, recreate our hearts to love You above all else. Provider of limitless blessings. may we never forget that we have been blessed to be a blessing. Sovereign of our Nation, we commit our lives to You. We surrender the false idols of our hearts: Pride, position, power, past accomplishments. Without You, we could not breathe a breath, think a thought, or devise a plan. May our only source of security be that we have been called to be both Your friends and Your servants. You are the reason for living, the only one we must please, and the one to whom we are ultimately accountable. With united minds and hearts, we dedicate the work of this Senate to You. Through our Lord and Saviour. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JIM BUNNING, a Senator from the State of Kentucky, led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RESERVATION OF LEADER TIME

The PRESIDING OFFICER (Mr. Bunning). Under the previous order, the leadership time is reserved.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDING OFFICER. The Senator from Missouri is recognized.

SCHEDULE

Mr. ASHCROFT. Mr. President, for the information of all Senators, the Senate will be in a period of morning business until 12:30 p.m. today. At 12:30, the Senate will recess for a party caucus meeting until 2:15 p.m. It is hoped that the Senate will receive the HUD– VA appropriations conference report and/or the continuing resolution from the House by early afternoon. The Senate may also have a procedural vote with respect to the bankruptcy reform bill during today's session. Therefore, Senators can expect up to three votes this afternoon. As usual, Senators will be notified as votes are scheduled.

I thank my colleagues for their attention.

MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of morning business not to extend beyond the hour of 12:30 p.m., with Senators permitted to speak therein for up to 5 minutes each and with the time to be equally divided between the two leaders or their designees.

Under the previous order, the Senator from Missouri, Mr. ASHCROFT, is recognized to speak for 15 minutes.

The Senator from Missouri.

REMEMBERING GOVERNOR MEL CARNAHAN

ASHCROFT. Mr. President. today I rise with a deep sense of sadness. As you all are aware, on Monday Missouri's Governor, Carnahan, was killed in a tragic plane crash. Also killed in the crash were the Governor's son, Randy Carnahan, and the Governor's long-time aide, Chris Sifford. My wife Janet and I join with all Missourians in mourning these deaths. We express our deepest sympathies to the Carnahan and Sifford families. We will continue to pray that God will grant these families comfort, healing, and strength in this time of great sorrow. This is a time when the Carnahan and Sifford families must bear the burden of a tragedy so unexpected and so profound that each of us feels their loss. That our Senate campaign could have ended so tragically is shocking.

As the collective heart of Missouri mourns the loss of a leader, this is a time for unity and common purpose in Missouri. We, as both a State and Nation, join together to mourn the loss of Governor Carnahan—a committed public servant. Although we were competing for the same office, Governor Carnahan and I had a unique relationship united by the common bonds of public service and respect for the people of Missouri. We both were honored to be sons of educators. We both loved time spent with our families on our farms.

Governor Carnahan and I also shared a commitment to the greatest promise for our Nation's future: the education of our children. We committed to the commonsense idea that to continue our prosperity, we should invest part of the Federal surplus in educating America's children. That is a theme which I will pursue with intensity here in the Senate. Governor Carnahan has always been present and accounted for when duty called. He served as a member of the United States Air Force. He was a municipal judge. As a member of the State House of Representatives, he served as majority flood leader. He was elected State Treasurer in 1980, Lieutenant Governor in 1988, and Governor in 1992. He was highly respected and the State prospered during his time as Governor.

As we absorb the blow of this tragedy, we should be reminded of what truly is important in life-commitment to God, to family, and to our fellow citizens. These were the commitments of Mel Carnahan. He served the people of Missouri with dignity and honor for more than four decades. I will remember him, and all of Missouri will remember him, for his dedication to his family—as a husband, a father, and a grandfather. We are all grateful that Mel Carnahan was willing to spend his life serving the people and the State of Missouri. I again extend my deepest sympathies to Governor Carnahan's wife, Jean, and to his family. Our prayers are with them in this time of great loss.

I yield the floor.

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. Mr. President, I join my colleague from Missouri in telling the family of Mel Carnahan how deeply sorry we all are.

It must be a terribly difficult time for the citizens of his State, for his family, and for everyone who knew him. I hope we can carry on his tradition, one about which he talked so much in the last four decades, of making sure all of our children get a good education and the people of this great country have the opportunities about which he cared so deeply.

I thank the Senator from Missouri.

EDUCATION

Mrs. MURRAY. Mr. President, I have come to the floor today to talk about education.

In the past month, students across our country have gone back to school.

They have entered schools where there are health and safety hazards, and they are trying to learn in classrooms that are overcrowded. They are competing for the time and attention of a teacher, and they are looking to us for support.

I am frustrated to say this, but as this session of Congress draws to a close, this Congress has done very little to support those children across this country. This Congress, for the first time in 30 years, has failed to reauthorize the Elementary and Secondary Education Act. That is a disservice to students who are trying to learn in overcrowded classrooms, to students who are stuck in crumbling schools, and to students who do not feel safe at school.

We can't pass ESEA reauthorization; it is too late. But we do have one place to make it up: in the final funding plan for the upcoming fiscal year.

There are kids out there counting on us to do the right thing, and we need to pass a budget that addresses their needs. That is why I have come to the floor today, to urge my colleagues to do just that.

As I look back on this session of Congress, I am frustrated by the way this process has broken down. We have been updating our national education policy for about 30 years. It has always been a bipartisan and productive process—but not this year. This year, the ESEA reauthorization was stalled by sharp partisanship. We had a chance to make a lot of progress, but this Congress failed.

We weren't able to update our Nation's education policy to meet the needs of today's classrooms. As a parent, as a former educator and a former school board member, that is discouraging. What is even more discouraging is some of the talk that we have heard on the campaign trail this year. Not long ago, Governor Bush said that our country is experiencing a "recession in education." I have thought a lot about that statement. To the teachers who are working harder than ever, it certainly doesn't feel like a recession. In fact, I think Governor Bush has it exactly backward. A recession is where there is a slowdown in economic activity, when production and employment decline, when there isn't much demand, when workers are idle and factories are slow. That is a recession.

But that is not what is happening in education today at all. Our schools are not slowing down; they are working harder than ever. Our classrooms aren't empty; they are overcrowded. Our teachers aren't being idle because they are not needed; they are needed more now than ever. It is not that demand has slowed. The demands on our schools are higher than ever. The problem is our investment has not kept up. Any enterprise or business that wants to stay in business invests in its people, invests in the latest equipment, in-

vests in capital projects, so that the capacity will keep up with the demand. That is what we have to do. But for some reason, when it comes to our schools, we have not made those investments. We have let schools that were built 40 or 50 years ago simply decline. We have let great educators leave the classroom because they are frustrated by a system that doesn't give them the support or respect they deserve.

Governor Bush, we are not in an education recession; we are in a period of explosive growth and growing demand in the classroom, and we need to make the investment to meet that growing demand. Governor Bush has the problem backward and that is why he has come up with the wrong solution. As a parent of two students who went to public school. I can tell vou I don't want our next President to close down my school; I want him to make my school better. You don't do that by bashing public schools. You do it by investing in the things that we know work in the classroom.

I have said it before and I will say it again: Our schools are facing overwhelming challenges with inadequate resources. Our public schools are not failing, but by failing to invest in them this Congress is failing our public schools. We need to give our schools the resources, the tools, and the support to meet today's challenges.

There are important needs in my home State in classrooms. Sitting here in the Chamber, it is easy to forget the challenges that schools face across the country. If this Chamber is about to go into recess without making an investment in education, it needs to hear directly from people on the front line. So I decided to read a few letters I have received from students and teachers in my home State of Washington.

Kristen Jensen Story is a parent and a teacher at White Center Heights Elementary School in the Highline School District. At her school, the majority of the students live in public housing and come from homes where English is not the first language.

She tells me:

We have been working hard to make sure these children succeed and become contributing citizens to our great Nation. The need for Federal public education funding is greater now than ever before.

We have the money. The Federal budget is forecasted to have a \$1.9 trillion surplus over the next decade. Make the funding of public education a national priority.

Let me read another letter. This one is from Becky Scheiderer, a teacher from the Bethel School District in Washington State.

She writes:

Children cannot wait another session.

She goes on to explain some of the challenges her school is facing:

Our students need to continue the successful programs, such as Title I, special edu-

cation, and smaller class sizes to work with these students inclusively.

Our district is growing, and we need schools constructed soon.

Our teachers, students and staff need safe schools to work in for 7.5 hours a day.

The need for Federal funding is even greater now than ever before.

Those are some of the real challenges facing our schools, and you don't fix them by bashing educators; you fix them by making an investment in the things that we know work.

I want to turn to a few investments that we should be making in our final budget plan. It is our last chance this year to do the right thing for America's students. Let me start with making classrooms less crowded. We know our classrooms are overcrowded and we know that students can learn the basics, with fewer discipline problems, in less crowded classrooms.

Parents know it, students know it, teachers know it, and studies show it.

Two years ago, we made an investment in making classrooms less crowded. I am pleased to report that the investment is paying off for America's students. It is making a positive difference in their education. We gave local school districts the money to go out and hire more than 29,000 new qualified teachers for the early grades. And today, 1.7 million students are learning in less crowded classrooms.

Our goal is to hire 100,000 new teachers. You would think that with the success we have had so far, there would be no question that we would keep our commitment to reducing class size. But that is not the case in this Congress. Right now, there is no guarantee that schools across the country will have funding guaranteed to reduce classroom overcrowding. Some of my colleagues on the Republican side say we don't need to commit money for class size reduction. They say if schools want to hire teachers, let them take the money out of title VI funding.

Reducing overcrowding should not be done at the expense of something else. That money should be there—guaranteed to make a positive difference for students.

In this debate, two things have been forgotten. First, part of the Federal role is to help disadvantaged students. The class size program is set up to target funding to low-income schools. If you dump that program into a block grant, there is no guarantee that it will be focused toward disadvantaged students. Title I, homeless and migrant education programs are all targeted to ensure that disadvantaged students get the help they need. A block grant offers no guarantees.

The second point overlooked in this debate is the importance of accountability. Under a block grant, there is no guarantee this money will go to hire new teachers.

Block grants mean less accountability. Right now, we can show that

money was spent and how it is making a difference. If the money is block granted, we have no idea if it is making classrooms less crowded. Today, everybody is talking about accountability, and the best way to ensure accountability is to show that Federal dollars are being spent in a specific, targeted way to reach a specific goal. If we put Federal education funding into a block grant, there is no way to keep that money accountable. Class size is just one of the areas in which we need to invest.

Let me mention another: school construction and modernization. Today, too many students enter school buildings that are crumbling or that have major safety hazards. In fact, 7 million students attend schools with safety code violations, including the presence of asbestos, lead paint, or radon in ceilings or walls. Almost 16 million students in this country attend schools without proper heating, ventilation, or air-conditioning. And too many of our schools don't have the technological infrastructure to meet our students' needs. For example, in our poorest schools, only 39 percent of classrooms have Internet access. We need to pass legislation that will give local school districts the financial help they need to build new schools and to modernize old ones.

I want to turn to teacher quality. We can help ensure that every teacher in America is fully qualified and has the tools and the support to help our children reach their full potential. Today, there are thousands of world-class, high-quality teachers in our schools. They are professionals. They care deeply about the quality of our children's education, and any of us would be lucky to have our children learn from them. But the current system makes it harder and harder for teachers to really do their best. Instead of offering them the support they need to make a difference, the current system puts roadblocks in front of too many teach-

Teachers and parents have told me that the main challenges are the three R's: recruiting great teachers, retaining great teachers, and rewarding great teachers.

We need to recruit young people into the teaching profession. We need effective, ongoing, professional development programs that are aligned with local standards and curricula. We need efforts to boost pay for great teachers and to raise respect for educators. In the closing weeks of the 106th session, we should be supporting efforts to improve teacher quality.

Finally, the subject of accountability. We should not accept defeat or give up on our Nation's schools. We need to identify schools that need extra help and turn those schools around.

It is late in the legislative process, and we are in a rush to end this year's

session. Let's remember one thing. America's students didn't create this rush. I am standing here today and I will be fighting to make sure that our students are not penalized because this Senate failed to do its work. I know my colleagues are eager to go home, but we still have time to do the right thing. We still have time to support the work that local educators, students, and parents are doing. The way to do it isn't to bash public schools but to put Federal dollars where they will help the most and to keep those dollars accountable. The way to do that is to invest in things that we know work. such as smaller classes, modern facilities, fully qualified teachers, and accountability. It is not too late to do the right thing.

Parents, teachers, and students across this country are counting on us to do our part as a responsible Federal partner. Let's not let them down.

Thank you, Mr. President.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. THOMAS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. ALLARD). Without objection, it is so ordered.

106TH CONGRESS

Mr. THOMAS. Mr. President, I think the focus today, as we move toward the appropriations bills, is education. It has been a focus during this whole Congress. I saw some figures that we spent a total, in the 106th Congress, of 5 weeks talking about education. That is indicative, I believe, of the importance all citizens place on education. I don't think anyone would say education isn't a very high priority for everyone.

The question is, How is the role of the Federal Government best created? In my view, one of the important things is to have some assistance from the Federal Government, to have some financial assistance. We also are in a system where people move about and are educated in one place and work in another place. There has to be some continuity or accountability that each of us is educated enough to be able to be successful.

One of the most important issues is who makes the decisions with regard to individual school systems. I think the Republicans, working on this side of the aisle, have had a very strong agenda for education, returning control to the parents for sending dollars to the classroom, dollars to States and local school boards so they can make the decisions that are necessary to be made in that particular school, give families greater educational choice, support exceptional teachers, and focus on basic academics, stressing accountability.

I have always thought, as a member of the Wyoming legislature, we cannot have a good school system without the dollars. Dollars alone do not necessarily result in a good school system. There has to be some accountability as well

Of course, on the Federal level, the needs in Chugwater, WY, are quite different from those in Pittsburgh. Many things are that way. There needs to be flexibility; in one particular school, perhaps what is most needed is to build a new school or replace the old school; in another school, what is needed is computers, teacher training, or more academic materials. "One size fits all" does not work. Frankly, that has been the underlying difficulty in this entire debate.

The President of the United States will be here this afternoon pushing for his plan so bureaucrats in Washington can decide and dictate what the Federal dollars are spent for. On the other side of that argument, we have given more dollars to the budget than even the President asked for. We are saying those ought to offer flexibility so local people can decide the best use for the dollars, yet with accountability for the taxpayers' dollars.

The Democratic approach has been a series of mandates: 100,000 federally funded school construction, federally funded afterschool. All those are fine if that is the priority in your particular school district. However, we are not in the business of having a bureaucracy in Washington make those decisions.

There have been difficulties moving forward:

The Taxpayer Relief Act, vetoed by the President, over \$500 million in family tax relief—families could have used that money at any level to have supported schools;

Passing the Ed-Flex bill, with Federal requirements being waived if they are interfering with what they seek to do.

These are the items we are debating with regard to education.

We are, hopefully, near the end of this session. We will wind up next week. We have accomplished quite a number of things. Some people talk about a do-nothing Congress, which absolutely is not the case. The Republicans have balanced the budget, pushed forward and obtained the balanced budget in 1998, the first time since 1969 we have had a balanced budget. We saw that because of some restraints on spending, because of the flourishing economy bringing in more dollars. Nevertheless, it is the first time we have had enough dollars to balance the budget outside of Social Security dollars. We have changed the deficits to surpluses and lowered interest rates, paid down the debt \$360 billion over the past 3 years.

In addition to that, of course, at the same time, Republicans have lowered

the tax burden over the next 5 years. The tax cuts will provide the average household with almost \$2,000 in tax relief. We enacted the \$500 child tax credit that keeps \$70 billion in the checking accounts for 25 million families. These are important things. We created the individual retirement accounts with IRAs to help families save more money, help people prepare for their own retirement, so that Social Security is a supplement, as it was designed to be.

The Republicans have stopped the raid on the Social Security trust fund and set aside Social Security funds so that they will be spent on Social Security and not borrowed and spent for other programs. We need to ensure that continues to be the case.

Welfare has been reformed and has helped Americans go back to work. In 1995, there were 13 million Americans on welfare. In 1996, there was reform, helping more than 6 million of those, nearly half, to be now employed—to be able to sustain themselves. That is really the purpose of Government programs. It is not to have a continuing source of relief but to provide an opportunity to help people help themselves, which not only is a good issue governmentally but, of course, individually it is something that is so important.

We strengthened the military. More needs to be done. We find ourselves in the situation where we have had more military deployments out of this country over the past 6 or 8 years than we have ever had in the past. We find ourselves, of course, in sort of a semipeaceful time but with a voluntary military, so we have to be able to compete somewhat with the private sector in pay so people will join. It is not only in the recruiting, of course, but the maintenance of people who have been trained so they will stay in the military. We have done that. We need to do more, of course.

We need to change the military. Our needs are different than they were 20 years ago. We are not going to see ourselves having to send 12 divisions with tanks somewhere. We are going to see ourselves with smaller, more flexible combat units moved quickly to a place with enough support to stay there for some time.

These are some of the things that continue to be important. I hope we continue to focus on them. Our job now, of course, is to get out about three or five more appropriations bills and fund those programs. I am a little discouraged at the amount of spending we have had this time. Much of that has come from pressure from that side of the aisle and the White House. They will not agree to appropriations bills unless they have all the things in them the President wants. He is entitled to do that. But this is one of the three units of Government, a separate unit. We ought to do those things we think are right and the President can do what he thinks is right. But I hope we do not get ourselves into a position where the President is deciding what we in the Congress do. That is not the system. We ought not be doing it that way.

I look forward to us moving forward, completing our work, and coming back with a new Congress, able to take a look at where we are going. I hope each of us, as Americans, gives some thought to where we would like to be, where we would like to see these various programs go-regardless of which you are looking at; whether you are looking at education; whether you are looking at reregulation of electricity; whether you are looking at the military. One of the difficulties is we move forward many times and make decisions that impact those issues without having a very clear-cut image of where we want to go. It is a little like Alice in Wonderland where she was wandering around and no one was able to tell her anything. She finally saw the Cheshire cat. There was a fork in the road and she said, "Which one should I take?" The cat said, "Where are you going?" "I don't know," Alice replied. The cat said, "Then it doesn't make any difference which road you take."

That is true. So we need to come with an idea of what our goal or mission is, where we want to end up over a period of time in education, and what are the steps we can best take to ensure that happens. Regarding Social Security, where do we want to be in 20 years or 30 years? These people who are paying in 12.5 percent of their salaries into Social Security, are they going to have benefits 40 years from now when they are entitled to them? Not unless we make some changes.

The choices are fairly clear. You can raise taxes; people are not excited about that. You can cut benefits; that is probably not a good idea. One of the alternatives we are pursuing, and there may be others, is to take a portion of the Social Security dollars that have been paid in over time by younger people to make that decision for themselves—take a portion of that and have it invested on their behalf in their accounts in the private sector so the return, instead of being 2.5 percent, could be 5 percent or 6 percent.

People say: Well, look at the market now. Look at the market over time. The market over each 10-year period has grown fairly substantially.

So these are some of the things I hope we consider. I hope we consider them promptly so we are out next

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. KENNEDY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KENNEDY. Mr. President, are we in morning business?

The PRESIDING OFFICER. We are in morning business.

Mr. KENNEDY. Is there a time limitation?

The PRESIDING OFFICER. The Senator has 31 minutes.

Mr. KENNEDY. I thank the Chair.

FOCUSING ON PRIORITIES

Mr. KENNEDY. Mr. President, as we are coming into the final hours, the final days of the Senate session, there are still a number of measures which need focus and attention and priority. I welcome the leadership that is being provided now by the President and a number of our colleagues to try to make sure that before we leave town we try to remedy a situation that has developed since we passed the Balanced Budget Act in 1997. Included in that balanced budget effort were cuts that were directed to the health care providers. It was estimated at that particular time that the cuts would be about \$100 billion. What we have found out over the last several years is that the projected cuts have been well over \$200 billion. As a result, there have been unintended consequences that have developed.

It seems only fair that when we look at the steps that were taken in the past that resulted, and continue to result today, in some very dramatic adverse impacts to a number of different providers in our health care industry, that we remedy that situation. It is particularly important to remedy their situation when we have the fortuitous economic situation in terms of the surplus that we are faced with.

I doubt very much—in fact, I am quite sure—that if we had known in 1997 the actual impact the projected cuts were going to have on health care providers, that those particular provisions of the Balanced Budget Act would have been successful. I am sure they would not have been successful. I certainly would not have voted for those provisions.

But I welcome the opportunity to join with a number of our colleagues to try to remedy the situation. It is the responsible thing to do. It is absolutely necessary. It is not only affecting many of our excellent health care providers in our urban areas, but it also reaches out to many rural communities.

We have had an excellent presentation from our friends as to what these cuts have meant for rural health care and rural health care providers. Let me mention, for a few moments, what is happening to some of the different health care providers now.

We are very fortunate in Massachusetts to have some of the best teaching

hospitals in the world. These teaching hospitals are the backbone of our quality health care system in America and the world.

We are facing many challenges in our health care system. The most obvious one today is a Medicare prescription drug benefit. That is the challenge that comes first to the minds of people when we talk about health care needs and needed changes in our Medicare system. That is a very legitimate challenge. We think of our Patients' Bill of Rights. Many of us deplore the fact that we have not addressed these issues in the Senate.

It is irresponsible that we have not taken action on a Patients' Bill of Rights. Although we have a majority of the Members of the House and a majority of the Members of the Senate in favor of a strong Patients' Bill of Rights, still we are denied the opportunity of addressing the issue. We know that every day we fail to do so, there are tens of thousands of Americans who are suffering as a result.

We are unable to free ourselves from the power of the HMO industry to successfully pass legislation that would allow doctors to make health care decisions, unfettered by the decisions of bean counters from the HMOs who are more interested in profits than in the health of individuals. That is certainly one very important issue. I think we fail in this Congress by the fact that we have not addressed it.

I am constantly amazed as I travel around my State, and the States of Pennsylvania and New York and a few other places where there are candidates running for Congress. One of the first pieces of legislation they say they support is a Patients' Bill of Rights, which obviously has nothing to do with the strong Patients' Bill of Rights that has been supported by more than 300 health providers representing women and children and the disabled, cancer research groups, the doctors, the nurses, the medical professionals. That is one issue. The second, as I mentioned, is a prescription drug benefit.

We also are now focusing on teaching hospitals. These are the hospitals that provide the training and teaching for our future medical professionals including doctors, some of the applied health professionals, and advanced practice nurses. We have the best teaching hospitals in the world. We ought to keep them healthy, not endanger them. By not providing a healthy and robust provision in legislation in these final 2 days, we risk endangering our teaching hospitals.

What do these teaching hospitals do? No. 1, they provide the best teaching. Secondly, they provide about 30 percent of the indigent care in our country, primarily—obviously—in the communities in which they serve. They play a very important role in providing health care to those who have no

health insurance. Third, they are also the places that are developing the new technologies and techniques used in treating some of the most complicated cases. From there the research disseminates; other hospitals and other health care delivery centers benefit from the research done at teaching hospitals.

These teaching hospitals are really the jewels of our health care system. and we cannot put them at risk. And they are at risk. The proposal that is being advanced by the Republicans is basically a nice blank check to the HMOs, the industry that is leading the fight against the Patients' Bill of Rights. Yet there is no guarantee that they will continue to provide health care to people in our society or to Medicare recipients. More than 900,000 Medicare recipients will be dropped from HMOs next year. Yet we find the Republicans shoveling billions of dollars into HMO coffers without any assurance that they will use those resources to look after the elderly. The Republicans are shoveling the funds into HMOs rather than investing in a prescription drug program for our seniors.

We know we have the teaching hospitals on the one hand. Next we have the community hospitals. The community hospitals are the backbone of health care delivery in our communities. They are the primary health delivery provider in communities all across this country. They have an irreplaceable position. They are exceedingly hard pressed and stressed in being able to perform this function. They need some relief. Any legislation ought to have provisions in it to help provide needed assistance to community hospitals.

Then there is the home health care system—the visiting nurses, home health care agencies. We have seen a significant decline in home health care agencies and home health care services generally. At a time when our senior population is going to double over the next 20-25 years, we are seeing a significant decline in home health care services, which makes absolutely no sense. We end up finding out that if patients aren't going to be able to receive home health care services, they will have to go into the more costly hospitals and nursing homes. It makes no sense from a health standpoint, and it certainly makes no sense from a humane standpoint.

Our nursing homes are facing bankruptcy in increasing numbers. We have seen scores of bankruptcies of nursing homes in my own State of Massachusetts. The number of nursing homes going bankrupt is increasing every single day. They are in desperate straits. Not only are they in desperate straits, but other health care providers, such as the hospice program that provides such important help and assistance to those who have terminal illnesses, are in desperate straits as well. It isn't just those of us who have these facilities in our States. We have heard eloquent statements from those who come from rural areas. We want to work with them as well. We are not trying to rob Peter to pay Paul. We ought to have something that is going to address the needs of rural areas, and we welcome the opportunity to work with our colleagues.

Under the leadership of Senator DASCHLE and Senator REID, Senator MOYNIHAN on the Finance Committee, Senator BAUCUS, and others, an excellent program has been developed from our side. We want to try to make sure that that is going to be considered. We don't want to be shut out of the process, as we are shut out of a lot of issues here.

We have heard a good deal of debate about desiring bipartisanship. Well, for a good part of the time I have been in the Senate, when we had these kinds of matters that needed to be discussed or debated, we had Republican and Democratic leaders working these matters out with the Administration. But we are finding out that this apparently is a solo flight by our Republican friends, to the great disadvantage of our health care system. That makes no sense.

The President has indicated he would veto this early proposal that has been put forward by the Republicans as a nonstarter. I certainly would defend that position and welcome the opportunity to discuss it or debate it, whatever will be necessary, because their proposal just does not do the job. It is one of the key remaining issues we have as we come to the end of this session.

Finally, I do hope we will be able to have included in the final wrap-up in our balanced budget refinement the Grassley-Kennedy bill that helps parents of children who have disabilities. Last year, in a bipartisan effort, we developed legislation that permitted those individuals who were disabled to go into the labor market and not lose their health insurance. We had a good debate on it. We passed it. Now we find people saying, Why did it take you so long? What is happening is these individuals are moving towards greater independence and self-reliance. They are becoming taxpayers and paying into the public system rather than just drawing from it. It has taken a good deal of time to achieve, but it has been enormously important.

What we are saying now, Senator GRASSLEY and I—and I pay tribute to Senator GRASSLEY for the hard work he has done on this in the Finance Committee—is help parents who have children with severe disabilities. So many parents have children who have severe disabilities. The parents are unable to take any increase or any enhancement of their own pay because if they do, they will no longer qualify for Medicaid. And if they no longer qualify for

Medicaid, they lose the health care they get for their children under Medicaid, and they can't afford the health care bills. These parents have to refuse pay increases and advancement to remain below the income levels for Medicaid coverage. Of course, this not only does an enormous disservice to that individual but also to the other members of the family.

Many of these children with severe disabilities have brothers and sisters, yet the parent still has to work at a wage below the Medicaid level in order to qualify for health coverage of their children. It makes no sense. It is wrong. We have legislation that will address it, and we hope that will be considered.

We say once again that the proposal our Republican friends are putting forth is a nonstarter, because we know what they are trying to do; that is, to give a great bundle of cash—so to speak a blank check—to the HMOs that have been resisting our ability to take actions to protect American patients. It makes no sense. It is unfair, and it is fundamentally wrong.

We are going to do everything we can to try to fashion a proposal that is balanced, fair, and that really meets the health care needs of our people.

EDUCATION AND HEALTH CARE

Mr. KENNEDY. Mr. President, on Tuesday night the American people witnessed the third and final Presidential debate between Vice President AL GORE and Governor Bush.

We are now less than 3 weeks away from the election. As the debate demonstrated, the choices for the American people could not be clearer.

Are we going to continue the economic prosperity of the past 8 years? Or are we going to waste it on excessive tax breaks for the wealthiest one percent of Americans?

I remember in 1981 when the economic program of then President Reagan came to the Congress. It had the same kind of rhetoric around it. We are going to cut all of the taxes and increase defense spending and balance the budget, all at the same time. During that period of time, only a handful of us voted against it. It was so clear and obvious at that time that we were going to move into large deficits, which we eventually did—deficits in the hundreds of billions of dollars.

I am always amused to hear from others who say it really wasn't the establishment of economic policies; it was just the American energy. If it had been the American energy, why wasn't it the American energy when we were running up deficits? It is quite clear that you had two entirely different economic policies that were being followed. One was a disaster.

I am always interested in the fact that it was President Bush who called Ronald Reagan's proposal "voodoo economics."

Now we are coming right on back again to that similar kind of proposal of excessive tax breaks for wealthy individuals. That is the heart and soul of the Bush proposal, although it was difficult to quite understand what it was following the debate the other evening.

Are we going to continue to have balanced Federal budgets? Or are we going to return to the bad old days of trickledown economics that created the biggest deficits in our history?

And perhaps most importantly—are we going to stand with working families to make the critical investments in education and health care that are needed to help children, help parents, help working men and women, and help senior citizens in their retirement years?

These issues are critical not only for the Presidential race but in Congress as well.

Governor Bush and the Republicans like to talk education and health care. But look what has happened in this Congress. For the first time in 35 years, they have not reauthorized the Elementary and Secondary Education Act. They are 3 weeks late in providing the needed funds for the Nation's public schools.

The time has expired. The new fiscal year is here. Yet we haven't done our business. We always leave the appropriations bill which funds the schools in this country for last.

It is always interesting to me to hear and watch these promises that are made by the Republican leadership on education.

On January 6, 1999, Senator LOTT said:

Education is going to be the central issue this year. . . . For starters, we must reauthorize the Elementary and Secondary Education Act.

On January 29, 1999, he said:

But education is going to have a lot of attention, and it's not going to just be words.

On June 22, 1999 the Majority Leader stated:

Education is Number one on the agenda for Republicans in the Congress.

On February 1, 2000 he said:

We're going to work very hard on education. I have emphasized that every year I've been majority leader. . . . And Republicans are committed to doing that.

On February 3, 2000:

We must reauthorize the Elementary and Secondary Education Act. . . . Education will be a high priority in this Congress.

On May 1,2000:

This is very important legislation. I hope we can debate it seriously and have amendments in the education area. Let's talk education.

Why don't you bring up the appropriations to fund education? Why is it 3 weeks late? Why is it the last appropriations bill? Why is it that we didn't reauthorize it? Don't come and tell

American families that education is number one in your priorities when for the first time in 35 years we don't have a reauthorization.

What is the Republican leadership going to do? They are calling the bankruptcy bill back up—the bankruptcy bill. We had 14 days and 55 amendments on that bill. But that isn't enough. They are going to call that up later on for a vote this afternoon. They are going to try to jam that bill, which benefits a small group of credit card companies, rather than deal with the education of American families. That is their priority. Any American family can understand that.

We are here. We are prepared to deal with the education program. Oh, no. We can't do that. We are going to go back to bankruptcy which is so important. Important for whom? Important for the credit card companies. Just as in their patients' bill of rights, they have not been able to quote a single health organization in the country that supports them because it is fraudulent. Every health group in the country supports the proposal that was passed by a bipartisan majority in the House of Representatives, and that was supported by the Democrats and a few Republicans in the Senate. Every health organization—over 300 of them.

Now we have the industry itself saying no, no—the HMOs saying don't pass the good bill, because we don't want it. Now what happens? The credit card industry says they want this bill. And what happens? The Republican leadership is trying to jam that right down here. What has happened to education in between? Not only are we not reauthorizing it, but we are not funding it. It is 3 weeks late already.

What happened to children in this country? If they hand their homework in 3 weeks late, they would be in the principal's office. They would be getting some kind of discipline in any school in the country. But, nonetheless, we are 3 weeks late. We haven't reauthorized it, and the appropriations have not been finished.

I hope our friends on the other side are going to ease off when they talk about how committed their party is on education. I hope they are going to at least have the decency not to try to say: Oh, yes. We are really interested in education—we really do care about it

I was here when one of the first things the Republican leadership did in 1995 was to rescind some \$1.7 billion that had been appropriated—the greatest rescission on any single bill that I can remember in my service in 39 years. On what subject? Education. Who offered it? Republicans. How many supported it? Virtually the whole Republican Party.

I was here a few years later after we were able to dull some of those rescissions when they came back and tried to abolish the Department of Education. Who offered it? Republicans. Who supported it? The Republican Party. Who opposed it? We did. Not just because it is an agency, but because many of us believe that any President ought to have in the Cabinet office someone talking about education every time that Cabinet meets.

That is why we need a Department of Education. We have a department for housing. We have a department for the interior lands of this country. Many believe we ought to have a department for education. Not the Republicans. No, they wanted to abolish it.

We have the rescinding of education funding. We have proposals to abolish the Department of Education. We have the refusal to authorize the Elementary and Secondary Education Act, and we have the denying of funding of the existing law—3 weeks late. That happens to be the record.

Now, we watched the other night the Republican candidate for office talking about how concerned they were. I wish he had called up our majority leader and said: Look, I am interested in education; why don't you take that up?

Let's take up our proposals. We know what they are. We are prepared to vote on them. We are prepared to take those to the American people. Why isn't the other side prepared to do it? What are they so frightened of? What are they so scared of?

All we have is silence. We have this empty Chamber where all of these other deals are going on-All these other deals that are not on education. They are on how we can try and get bankruptcy that will basically undermine families who in many instances are hard pressed, mothers who have not been able to get their alimony or child support and are going into bankruptcy. Half the bankruptcies are a result of health care costs for older workers. We cannot wait in order to draw out the last few dollars from those individuals for the credit card companies and shuffle aside education. That is what is happening. The American people ought to begin to understand it.

The Republican leadership keeps on saying how important education is. On July 10, 2000 the majority leader said:

I, too, would very much like to see us complete the Elementary and Secondary Education Act. . . I feel strongly about getting it done. . . . We can work day and night for the next 3 weeks.

On July 25, 2000 he said:

We will keep trying to find a way to go back to this legislation this year and get it completed.

Mr. President, SAT scores are the highest in 30 years. They have not moved up greatly, but they are going in the right direction for males and females. Of course, it isn't going in the right direction in the State of Texas. Texas falls below the national average on SAT scores between 1997–2000. The

national scores are going up a little bit in the right direction. Texas is going along in the wrong direction for SAT scores.

We have heard a great deal about what happened to the children in the State of Texas, being 48th of 50 for the number of children that are covered by health insurance. The other night, Governor Bush was talking about what a high priority they put on education and what they have done on education.

This tells the story. These are the SAT scores, standard scores. This reflects the national average moving up over the last 3 years, while Texas has been moving down the last 3 years. We don't have any explanation. I know the Vice President didn't want to appear negative, but the fact is, I don't think drawing out what the records are should be considered negative. These are the facts. The American people ought to be able to understand them. The national average has gone up; in Texas the scores have gone down.

I was here 30 years before we ever had a vote on education. We had Democratic chairs and Republican chairs. We had Senator Stafford, the education chairman of our committee; Senator Pell was the chairman. During that period of time, education was never a partisan issue. The American people don't want it to be partisan. But it is now. It is when you refuse to let us debate it and abide by the outcome. That is wrong. We ought to fund the education for the children in this country. The Republican leadership has not done it. We ought to be dealing with the education reauthorization prior to bankruptcy and other priorities, and the Republican leadership refuses to do

I yield the floor. The PRESIDING OFFICER. The Senator from Utah.

EDUCATION

Mr. BENNETT. Mr. President, I listened with interest to my colleague from Massachusetts. I am always interested as he holds forth on these issues about which he feels passionately, and I congratulate him on his passion.

I have a similar commitment to education but a rather different view of things. Let me review again, as I have in this Chamber before, my own experience with respect to education that causes me to come to a different opinion and a different position than that of the senior Senator from Massachusetts.

As I have related to the Senate before, I was happy in a business career when I received a phone call that asked me to serve as chairman of the Strategic Planning Commission of the Utah State Board of Education. That got me into educational issues and actually started me down the road out of corporate life and into public life, ultimately leading me here to the Senate.

Apropos of the things that the Senator from Massachusetts has said, I share an experience I had that resonated with the comment that Governor Bush made the other night. The Senator from Massachusetts has already referred to the debate between the two Presidential candidates, so I think it is appropriate I should go there, as well.

We started, in my education about what happens in education by talking about the money. That is always a good place to start. Start with the numbers, start with the dollars. The dollars pretty much drive everything else.

I looked at the various things that were being done in the State of Utah, some of which struck me, as a businessman, as being maybe a lesser priority than some other areas. I asked the question: Who sets the priorities? Who determines that we spend more money on topic A than topic C? I was told, that is the Federal Government. The Federal Government puts up matching funds and requires that the States come up with their match, and the Federal Government determines that topic A will be topic A, topic B will be topic B, and so on.

I looked at some of the programs. I said, we would be better off in Utah if we spent that money on something else. Our needs in Utah are different than the needs in other States. Maybe it is nice to have the Federal dollars, but why don't we tell the Feds, sorry, we won't take your dollars for topic A, because for us topic C or topic D should be topic A, so we will forego the Federal dollars, and we will take the money that we have been forced to put up as matching dollars and spend it on our priorities.

The fellow who was briefing me on this kind of smiled at how naive I was, how foolish a notion that was. He said:

You can't do that. The Federal Government will sue you and will win. They have already sued States that tried to do that and won.

So if the Federal Government says this is what you have to spend your money on, then you have no choice but to do that, even if it is not in the best interests of the schoolchildren in your State.

That was a disappointing thing for me to realize, but I thought: OK, we are dealing with 50-cent dollars here, at least. We are putting up matching funds. So the Feds put up 50 cents and we put up 50 cents, so it is not hurting us quite as badly to be spending 50-cent dollars on a project we would not have chosen.

Once again, smiles of indulgence on the part of the fellow who was briefing me. He said:

No, no, you don't understand, Bob. The State doesn't put up 50 cents. The State puts up 80 cents, the State puts up 90 cents. When we say matching dollars, we don't mean matching dollar for dollar; we mean the Feds

put up 5 percent or 10 percent or, if they are feeling really generous, 15 percent or 20 percent. But the States are required to put up the rest of it.

I thought: That is really not fair. That is not a good deal. That is controlling the direction of education everywhere with a small amount of money. I thought: There is something wrong with that. I looked into it. I found that the only program where the Federal Government puts up half or more of the money in so-called matching funds is school lunch—which is not an educational program; it is a welfare program. I have nothing against school lunch. Indeed, I recognize that there is a great need for school lunch. I am a supporter of school lunch. But let us not stand here and say that, because the Feds put up more money for school lunch percentagewise than anything else, they are making a major contribution to education.

When Governor Bush was speaking about this the other night, he made this point that went by many people but that I would like to focus on here. He said the Federal Government puts up about 6 percent of the money but they control—if my memory is correct from what the Governor said-60 percent of the strings.

I don't know whether that 60 percent is exactly right, but it is in the ball park, and I will use that figure because that is what my memory says. Six percent of the money, but they control 60 percent of the strings that are attached to that money. So the people in Utah, Colorado, or Arizona or, yes, Massachusetts, have to jump through the Federal hoops with the 96 cents that they put into every dollar spent on education, jumping through at the dictate of the people who put up the 6 cents.

Here is the fundamental difference we need to confront when we have this debate on education, the fundamental difference between the Republicans and the Democrats, between those who are demanding we put more money into the present system, as does the Senator from Massachusetts, and those who are saying let's experiment a little bit. The fundamental difference is, Who should be allowed to call the shots? The people closest to the problem, the people facing the children day by day, the people administering the schools on a regular basis in their home communities? Or the people in Washington, DC? Who should make the ultimate decisions about education?

Let me make it clear, I am not calling for the abolition of the Department of Education. The senior Senator from Massachusetts would seem to be very upset that somebody suggested we abolish the Department of Education. I have never made that suggestion, so I am on his side on that one. I agree there should be a voice at the Cabinet level talking about education. But I do not think the voice at the Cabinet level

that is talking to the President about role to play, they have a function they education should be the voice at the school board level, talking to the principal of the school where my grandchildren go about education.

I have to talk about my grandchildren now because all of my children have graduated. All of them are out of school, out of college, raising families, pursuing careers. But there was a time with six children—seven, actually, because we had a foster child in our home for 4 years—when I spent a lot of time at school board meetings. I went to school board meetings and listened to them discuss the budgets. I recognized that there were differences within the school district, between schools, I heard them debate about how they were going to take care of problems in this middle school that were different from problems in that middle school. I recognize that is where the rubber meets the road. That is where the decisions have to be made. That is where the problems really arise.

I do not think there is anybody in Washington who can differentiate between the problems in this middle school in the Las Virgenes School District in California, where my children went, and that middle school in Las Virgenes School District in California where my children went. I don't think there are very many people in Washington who have ever heard of the Las Virgenes School District in California where my children went. That is the issue. That is what we are talking about.

Senator from Massachusetts The says the Republicans don't care about Massachusetts because all they do is block all of our efforts to go forward with a massive Federal program in education. Yes, we do try to block some of those efforts. Not because we are saying the Federal Government should have no role in education, but we are saying the Federal Government should begin to trust people at the local level to make their own decisions. It is a fundamental difference. We saw it in the debates the other night. We are saying it on the floor now.

Whom do you trust? Do you trust the Federal Government and the Federal bureaucracy and the Federal Department of Education as the ultimate authority as to what should be done or do you trust the people who are closest to the problem to decide what should be done? It should be a partnership, not a dictatorship. It seems to me someone who puts up 6 percent of the money, who then controls 60 percent of the decisions, is getting close to dictatorship

and not partnership. At the State level, I found myself resenting it. Now that I have come to the Federal level, I bring that bias with me. I continue to resent it. I continue to think we would be better off if we said those who are putting up 6 percent of the money have an opinion, have a can perform that no one else can perform, but when it comes to the nittygritty of the daily decisions, those who are putting up 6 percent of the money should yield to the decisionmaking power of those who are putting up 94 percent of the money and doing virtually 100 percent of the work.

Let's look at this Congress. The Senator from Massachusetts attacked the record of this Congress on education and said we have not done anything. We have. For example, we passed the education savings accounts which would have put more power in the hands of individuals and parents. Once again, the fundamental difference: Whom do you trust?

The education savings account bill, which was cosponsored by the chairman of the Democratic Senatorial Campaign Committee, the Senator from New Jersey, Mr. TORRICELLI, would have put more power in the hands of individuals, and the President vetoed it. The President vetoed an education bill on the grounds that it would have taken power away from the Washington establishment and put power in the hands of the parents.

It is not fair to stand here on this floor and say, regardless of the decibel level at which you say it, that this Congress has done nothing about education, because we have passed education bills that the President has vetoed and he has vetoed it on this basic

Straight A's: This is a bill, we call it the Academic Achievements for All Act—Straight A's Act. It was supported by the Senator from Georgia who used to occupy this place on the Senate floor, Mr. Coverdell.

The Democrats blocked it. The Democrats said the President will veto it. The Democrats said: No, we cannot allow this kind of flexibility at the local level. We must continue to dictate to the local people what will happen with respect to education.

Once again, those who put up 6 percent of the money control 60 percent of the strings, and they are using their 6 percent of the money to dictate to the people at the local level how things should be.

I remember the debate on the Elementary and Secondary Education Act. We have had that debate. I regret that it did not result in the passing of the act, but one of the reasons it did not result in the passing of the act was because of blocking efforts on the part of the Democrats to a Republican proposal that would have given States, on an experimental basis, the opportunity to try something new. There was no dictating in the position of the Senator from Washington, Mr. GORTON, that said States have to try this. His amendment said if a State thinks the present system is wonderful, the State can continue to receive money with the

present system. They can continue to accept those 60 percent of the strings. They can continue to do exactly what they are doing.

What if a State does not want to do it quite that way? What if a State wants to experiment in a very tentative fashion with something new? Let's give them the opportunity to try it. The senior Senator from Massachusetts was one of the first to take the floor and roar that we must not allow that kind of experimentation. We must not allow anyone to try anything different.

Look at the States that are making progress. And, yes, look at the State of Texas. Look at the progress that has been made among Hispanic students, the progress that has been made among black students—the progress that has been made among minorities generally in the State of Texas. It leads the national average. It is a record of extremely beneficial accomplishment, and it is taking place in the early grades where it needs to take place because if you wait until the time they get to the SAT scores, it is too late.

If you want to look at SAT scores, you are looking at high school students, and the high school students in Texas were cheated by the administrations in Texas that were there prior to the time Governor Bush took over. It is in the lower grades where they are seeing the fruits of the activities in Texas where they are trusting people, trusting the locals, giving the opportunities that need to be given to those who need education the most.

The white middle-class suburban kids do pretty well in this country in almost every State in which they live. The real educational crisis is among the minorities. The real educational crisis is among those people who live in the inner cities and do not have the opportunities that come to the white middle-class suburban kids. Let's be honest and straightforward about that.

It is very interesting. Who has led the fight, which seems to upset the senior Senator from Massachusetts more than any other, for experimentation with vouchers? It has been Polly Williams, an inner-city representative of a minority, a black member of the State legislature. She comes from Milwaukee, and she has led the fight not for the rich, not for the upper 1 percent, not for the other groups that have been demonized in this political campaign. She has led the fight for poor inner-city kids. She has won the fight, and the fight in Milwaukee is over. If you run for an educational position in Milwaukee now, you better be for vouchers because the public has seen it and has embraced it, and it is now the strong majority position.

It comes down to this fundamental question when we talk about money: Do you want to fund the individual or do you want to fund the system? We say let's fund the individual and let the individual take the money wherever he wants to go. They say: Oh, no; that's terrible. He might take it to a—dare we say it?—religious school. He might take the money in such a way that violates the separation of church and State. We can't have that.

In what is considered the most successful social program since the Second World War, we did exactly that. We gave the money to individuals, and we said to them: We don't care what you do with it; just use it to get an education. I am talking, of course, about the GI bill. When we said to the GIs who came home from World War II. "We are going to give you money to go to school," we did not say, "We are going to pick the institutions that will receive this money and then you go petition for it." We just said if they served in the Armed Forces, they have the money under the GI bill of rights. And if they wanted to go to Notre Dame and study to be a Catholic priest, they could do that and nobody was going to claim that was somehow a violation of the separation of church and State.

We said if they want to take the money and go to Oral Roberts University, they could do that. It may well be Oral Roberts University did not exist under the GI bill-I am not sure-but the principle still holds. If they wanted to go to Harvard, if they wanted to go to Wellesley, if they wanted to go to Ohio State University, or if they wanted to go to Baylor or Southern Methodist-they pick the school and the money follows the individual, giving the individual power, and America is the better for it. That is what we are talking about here. The money should go where it will do the individual the most good and not be controlled out of Washington that puts up 6 cents out of every educational dollar and then wants to make 60 percent of every educational decision.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BENNETT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

RECESS

The PRESIDING OFFICER. Under the previous order, the hour of 12:30 p.m. having arrived, the Senate will now stand in recess until the hour of 2:15 p.m.

Thereupon, at 12:29 p.m., the Senate recessed until 2:17 p.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer (Mr. VOINOVICH).

The PRÉSIDING OFFICER. The Senator from Missouri.

DEPARTMENTS OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOPMENT APPROPRIATIONS ACT, 2001—CONFERENCE REPORT

Mr. BOND. Mr. President, I ask unanimous consent that the Senate now begin consideration of the conference report to accompany H.R. 4635, the VA-HUD appropriations bill, notwithstanding the receipt of the papers, and it be considered as having been read and the conference report be considered under the following agreement: 30 minutes under the control of Senator GRAHAM of Florida, 10 minutes equally divided between Senators BOND and MI-KULSKI, 20 minutes equally divided between Senators Domenici and Reid, and 10 minutes equally divided between Senators Stevens and Byrd. I further ask consent that at the conclusion or yielding back of time, the Senate proceed to vote on adoption of the conference report without any intervening action, motion, or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senate proceeded to consider the conference report.

(The report was printed in the House proceedings of the RECORD of October 18, 2000.)

Mr. BOND. Mr. President, for the information of all Members, let me point out that at the request of the leadership on both sides of the aisle, we are moving forward and hope to have a vote, certainly no later than 3:30 this afternoon, because we do need to get this measure passed, as well as several others.

I will take just a few minutes of my time now. I am pleased to present to the Senate the conference report to H.R. 4635, the VA-HUD appropriations bill for fiscal year 2001. As I indicated previously, this has been a very unusual year. The conference report represents the compromise agreement reached with Senator Mikulski, Congressman Walsh, Congressman Mollohan, and myself, in consultation with the administration.

Certainly it is not a perfect situation. It is not the way I would like to do the bill. I would prefer to proceed with passage of the VA-HUD appropriations bill in a more customary manner. Nevertheless, with the assistance of the leaders of the committee, and the leadership, we have brought the bill to the floor. I think it is a good and balanced compromise that I believe addresses the concerns of our colleagues, both in the House and the Senate, while striking the right balance in

funding programs under the jurisdiction of the VA-HUD appropriations subcommittee.

The conference report totals approximately \$105.8 billion, including \$24.6 billion in mandatory veterans benefits, some \$1 billion over the Senate committee-reported bill and almost \$1 billion less than the President's budget request. Outlays are funded at roughly \$110.8 billion for the current fiscal year, \$540 million over the Senate committee-reported bill.

We did our best to satisfy priorities of Senators who made special requests for high-priority items, such as economic development grants, water infrastructure improvements, and the like. Such requests numbered several thousand, demonstrating the high level of interest and demand for assistance provided in this bill.

We also attempted to address the administration's top concerns, including funding for 79,000 new housing vouchers, as well as record funding for EPA at roughly \$7.8 billion.

I am not going to summarize the bill today. We have done that before when the Senate passed the identical bill on October 12. The conference between the House and Senate has now confirmed that legislation.

I think everyone has had an opportunity to review the bill.

I offer my sincerest thanks to my ranking member, Senator MIKULSKI, and her staff for their cooperation and support throughout the process. Particularly, I thank Paul Carliner, Sean Smith, and Alexa Mitrakos from Senator MIKULSKI's staff. I obviously could not have done it without the good leadership and hard work of my team: John Kamarch, Carrie Apostolou, Cheh Kim, and Joe Norrell.

Mr. President, I suggest the absence of a quorum and ask unanimous consent that the time be charged equally to all those allocated time.

The PRESIDING OFFICER. The time will be charged to all sides. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BOND. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BOND. Mr. President, I now wish to use time allotted to Senator STE-VENS under the agreement just reached. He has agreed to delegate that time to me.

The PRESIDING OFFICER. Without objection, it is so ordered.

IMPROVING EDUCATION

Mr. BOND. Mr. President, I rise to speak on another very important appropriations bill that has been addressed on this floor and is being considered. That is the debate on education in the Labor-HHS bill. We want to see that important bill moved for-

ward, get passed and signed by the President.

It is clear that the two sides of the aisle have very differing views on how we ought to go about improving education. Let us all agree that improving education should be our national priority. We on this side happen to think it is a local and State responsibility, but it is a national priority, the top national priority.

Now, one side of the aisle trusts the Federal Government to make the decisions. The other side of the aisle, our side, trusts the parents and teachers, the school districts, the school board members, to make those decisions. This side of the aisle seems to base its decision on whether we are successful in education on the total dollars spent. Our side would judge success on academic achievement of students. This side of the aisle believes accountability comes in successfully filling out paperwork, jumping through the hoops that Washington lays out for school boards and teachers. Our side believes accountability is based on academic achievement.

Our friends on the other side of the aisle believe that the Olympians on the Hill—Capitol Hill, that is—know what is best for the folks down in the valley. Our side believes that the great ideas, accomplishments, and actions occur on the local level and that the Olympians on the Hill should watch and learn.

My colleagues on the other side of the aisle and the Vice President talk a good game. Let me give you my view on what is going on. First, they have talked about the 100,000 teachers program, the school construction program. They have proposed to set aside billions of dollars for these programs alone and not allow flexibility that we strongly believe should be rested in the hands of the local schools, the parents who are served by them, and their children, and the people who run them.

I support reduced class size. I campaigned for Governor on that basis. I know there are many school districts around the country that need new school buildings. However, as one of my colleagues on the other side of the aisle said, I want to do the right thing. I agree with that. I know our children and parents and schools are counting on us, in my view, to get out of the way and let them do the job they are not only hired to do but they are dedicated to do.

We saw in the first debate what happens when Washington tries to make decisions for what is best in local schools. Vice President Gore told a terrible tale about this young girl who had to stand up in class. After the debate, we found out that she had to stand up or she had to have a chair brought in for 1 day because they had \$100,000 worth of new computers. The school superintendent said that getting a place for her to sit was not really the

problem. I understand he mentioned something about school lunches in another school district, and very quickly some of the folks from that school district said that is not the problem at all. That is not to say—and I am not saying here—that the Vice President didn't hear real concerns, that he made them up.

I am just saying: How are we here in Washington, how is the Federal bureaucracy, how is the Department of Education, and how are those of us who are sitting here in this room trying to make decisions for local schools all across the country supposed to know what the problems are in the Sarasota School or the Callaway County R-6 school in Missouri or a school district in California or a school district in Washington or a school district in Maine?

There is a lot of talk about 100,000 new teachers. That proposal sounds good. It is a great slogan to use when you are trying to gain national headlines. But when you look at the formula, trying to find out whether it works, it doesn't work.

I traveled around to school districts and talked to school boards and teachers and administrators. Let me tell you how that formula works in Missouri. The Gilliam C-4 School District would get \$384; the Holliday C-2 School District would get \$608; the Pleasant View R-VI School District would get \$846.

I first heard about this problem from a small school district when someone in that room said: We would get enough money for 11 percent of a teacher. One other person in the room said: We would get enough money for 17 percent of a teacher. They haven't quite figured out how to use 11 percent of a teacher or 17 percent of a teacher or how to spend \$846 on a teacher.

Over 175 school districts in the State of Missouri would receive less than \$10,000 under this program. Surely you don't think they are going to be able to hire a teacher to reach that 100,000 new teacher goal for less than \$10,000.

Many of the schools have already addressed classroom size at the expense of other things.

Yet my colleagues on the other side of the aisle oppose giving them the flexibility to utilize these resources in another manner which may suit their needs but which doesn't fall into the dictates of the one-size-fits-all solution that Washington is being pushed to propose by the administration and by my colleagues on the other side of the aisle.

They are saying that we are not providing the school the resources to do what they need to do because Washington is trying to tell them what their priorities should be without knowing why that girl had to stand up or sit on a stool brought in for that one classroom

Our colleagues on the other side of the aisle and Vice President Gore advocate taking billions of dollars off the table for thousands of schools across the country. To me, the issue is simple. We must give our States and localities the flexibility to use the resources to improve our public education system and to make decisions at the local level.

UNANIMOUS CONSENT AGREEMENT

Mr. BOND. Mr. President, on behalf of the leader, I ask unanimous consent that following the debate on the HUD-VA conference report, notwithstanding the receipt of the papers, the Senate proceed to the continuing resolution and that it be considered under the following agreement, with no amendments or motions in order: 20 minutes under the control of Senator DORGAN; 10 minutes equally divided between Senators Stevens and Byrd.

I further ask unanimous consent that at the conclusion or yielding back of time the Senate proceed to vote on adoption of the joint resolution, without any intervening action, motion, or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BOND. Mr. President, in light of this agreement, two back-to-back votes can be expected to occur sometime between 3:30 and 4 o'clock this afternoon. I vield floor.

The PRESIDING OFFICER. Who vields time?

Mr. KERREY. Mr. President, what is the order of business?

The PRESIDING OFFICER. The time is reserved.

Mr. KERREY. Mr. President, I ask unanimous consent to speak as if in morning business for 10 minutes.

Mr. BOND. Mr. President, I must object to speaking in morning business. We reached an agreement to utilize this time. Perhaps my colleague could gain time.

All right. I am advised by the staff that Senator DORGAN might be willing to yield some of his 20 minutes to the Senator. If that is agreeable with my colleague from Nebraska, I would be happy to give up Senator Dorgan's time.

Mr. KERREY. I thank the Senator.

Mr. President, I revise my unanimous consent to ask unanimous consent to speak for up to 10 minutes under Senator Dorgan's time.

The PRESIDING OFFICER. Without objection, it is so ordered.

IRAQ

Mr. KERREY. Mr. President, at Pier 12 in the Norfolk Navy Base, along with the Presiding Officer in Norfolk, VA. I joined 10.000 others to mourn and to pay our respects to the families of 17 U.S. Navy sailors who were killed or who are missing following the explosion that ripped into the portside of U.S.S. Cole as she was preparing to set anchor in the Yemen Port of Aden.

It was one week ago today at fifteen past midnight that a routine port call became a violent killing of 17 Americans, the wounding of 34 more, and the disabling of a billion dollar destroyer.

In attendance at the ceremony to honor those lost on the Cole were many Members of Congress, Attorney General Janet Reno, National Security Adviser Sandy Berger, the Secretaries of Defense and the Navy, and the uniformed commanders of the Navy and the Marine Corps. In a gesture of Yemen's cooperation, their Ambassador to the United States, Abdulwahab A. al-Hajjri, was also present.

As I sat and listened to the powerful words of President Clinton, Secretary of Defense Cohen, Chairman of the Joint Chiefs Shelton, and others, I looked at the solemn faces of the Naval officers and enlisted men who stood on the decks of the aircraft carrier U.S.S. Dwight D. Eisenhower and two of the Cole's sister ships, the destroyers Ross and McFaul and wondered how long the unity we felt would last? How long would the moving stories of the lives of these 17 young Americans bind us together?

Their stories define what makes America such a unique place. President Clinton captured it perfectly:

In the names and faces of those we lost and mourn, the world sees our nation's greatest strength. People in uniform rooted in every race, creed and region on the face of the earth, yet bound together by a common commitment to freedom and a common pride in

They were bound together by other common characteristics. Sixteen were enlisted men and women; the lone officer was an ensign who had served more than a decade in the enlisted ranks. None were college graduates, though many saw the Navy as a means to that end. They were from small towns and Navy towns, the places where patriotism burns bright and crowds still form to remember on Memorial Day and Veterans Day.

I watched young widows and brothers and fathers cry without restraint or shame when President Clinton read the rollcall of the fallen heros. Sadness gripped me as once more I thought of lives that ended too soon knowing their dreams would not now come true.

Chief of Naval Operations Admiral Clark appropriately reminded us that risk is a part of all sailors' lives. When going out to sea, there is never certainty of a joyous homecoming. Death is a frequent visitor in Navy households. Loss is never a complete surprise.

However, in this instance it was not the unpredictable ways of the ocean or the violence of a storm that ended these American lives. No, in this instance the killer was a highly sophisticated, high-explosive device set and detonated by as yet unknown villains.

There were words from our leaders that addressed the anger we feel in the

aftermath of this tragedy. From President Clinton: "To those who attacked them we say: you will not find a safe harbor. We will find you, and justice will prevail." From Secretary of Defense Cohen: "This is an act of pure evil." And from General Shalter "They should never forget that America's memory is long and our reach longer."

Yet, this desire for vengeance is as misplaced as it is understandable. Vengeance is one of the things a terrorist hopes to provoke. Such acts of vengeance—especially when carried out by the United States of America—are bound to provoke sympathy for our enemies. If we are to give meaning to the sacrifice of these men and women, we must take care not to allow the bitter feelings to govern our action.

While we await the results of a combined U.S.-Yemeni effort to find out who was responsible for this attack, let me challenge the idea that the attack on the Cole was a pure act of terrorism or criminal action. In my opinion it is not. In my opinion, it is a part of a military strategy designed to defeat the United States as we attempt to accomplish a serious and vital mission.

This is the third in a series of violent attacks on the United States dating back to the car bombing of Khobar Towers in Saudi Arabia at 10 pm, on Tuesday, June 25, 1996, that killed 19 United States Air Force Airmen and wounded hundreds more. The second attack occurred on August 7, 1998, when U.S. Embassies in Dar es-Salam, Tanzania, and Nairobi, Kenya were bombed. These attacks wounded more than 5,000 and killed 224, including twelve Americans who were killed in the Nairobi blast.

I believe all three of these incidents should be considered as connected to our containment policy against Saddam Hussein's Iraq. The Cole was heading for the Persian Gulf to enforce an embargo that was authorized by the United Nations Security Council following the end of the Gulf War in 1991.

In order to evaluate this incident and put it in its larger context, I had to relearn the details of the action of Gulf War and its aftermath. The Gulf War began on August 8, 1990, when United States aircraft, their pilots, and their crews arrived in Saudi Arabia. Two days earlier the Saudi King Fahd had asked Secretary of Defense Cheney for help. Saudi Arabia was afraid that Iraq's August 2 invasion of Kuwait would continue south. Without our help they could not defend themselves. Desert Shield—a military operation planned to protect Saudi Arabiabegan.

At that time, General Norman Schwarzkopf was Commander-in-Chief of Southern Command. On September 8, 1990, he ordered Army planners to begin designing a ground offensive to liberate Kuwait. His instructions from

President Bush were to plan for success. We were not going to repeat the mistakes of the Vietnam War. On November 8th, President Bush announced that a decision had been made to double the size of our forces in Saudi Arabia. On November 29, the UN Security Council voted to authorize the use of "all means necessary" to drive Iraq from occupied Kuwait. On January 12, 1991, Congress authorized the President to use American forces in the Desert Storm campaign.

The campaign began at 2:38 AM on January 17 with Apache helicopters equipped with anti-tank ordnance. The next day Iraq launched Scud missiles against Israel. The first U.S. air attacks, flown out of Turkey, were launched and were continued until February 24 when the ground war began. The ground war was executed with swift precision and was ended at 8 AM on February 28 when a cease fire was declared.

The purpose of the Gulf War-to liberate the people of Kuwait—had been accomplished in an impressive and exhilarating display of U.S. power and ability to assemble an alliance of likeminded nations. Afterwards, Iraq was weakened but still led by Saddam Hussein. In their weakened state, they agreed to allow unprecedented inspections of their country to ensure they did not possess the capability of producing weapons of mass destruction. The United Nations Security Council voted unanimously to impose an economic embargo on Iraq until the inspections verified that Iraq's chemical, biological, and nuclear programs were destroyed.

Contrary to popular belief, the military strategy to deal with Iraq did not end with the February 28, 1991, cease fire. It has continued ever since with considerable cost and risk to U.S. forces. In addition to the embargo, the United States and British pilots have maintained no-fly zones in northern and southern Iraq designed to protect the Kurds and Shia from becoming victims of Saddam Hussein's wrath. The purpose of both the embargo and the no-fly zones is to "contain" Iraq so that Saddam Hussein does not become a threat in the region again.

Unfortunately, this containment object was doomed from the beginning. And while we have begun to change our policy from containment to replacement of the dictator, change has been too slow. The slowness and uncertainty of change has increased the risk for every military person who receives orders to carry out some part of the containment mission.

There are three reasons to abandon the containment policy and aggressively pursue the replacement of Saddam Hussein with a democratically elected government. First, it has not worked; Saddam Hussein has violated the spirit and intent of UN Security

Council Resolutions. Second, he is a growing threat to our allies in the region. Third, he is a growing threat to the liberty and freedom of 20 million people living in Iraq.

As to the first reason, under the terms of paragraph Eight (8) of United Nations Security Council Resolution 687 which passed on April 3, 1991, Iraq accepted the destruction, removal, or rendering harmless of its chemical, biological, and nuclear weapons program. Under the terms of paragraph Nine (9), Iraq was to submit to the Secretary-General "within fifteen days of the adoption of the present resolution, a declaration of the locations, amounts and types of all items specified in paragraph 8 and agree to urgent, on-site inspection" as specified in the resolution.

From the get-go, Saddam Hussein began to violate this resolution. Over the past decade, he has slowly but surely moved to a point where today no weapons inspectors are allowed inside his country. As a consequence, he has been able to re-build much of his previous capability and is once again able to harass his neighbors. All knowledgeable observers view Iraq's threat to the region as becoming larger not smaller.

As to the third reason—his treatment of his own people—there is no worse violator of human rights than Saddam Hussein. The people of Iraq are terrorized almost constantly into compliance with his policies. His jails are among the worst in the world. His appeal for ending sanctions on account of the damage the embargo is doing to his people rings hollow as the food and medicine purchased under the Oil-for-Food Program goes undistributed. Desperately needed supplies sitting in Iraqi warehouses while construction continues on lavish new palaces demonstrates that Saddam Hussein has no real interest in the welfare of his people. Rather, he maintains their misery as means to make political points.

If these reasons do not persuade, consider what happened in the other two cases when the United States was attacked. In 1996 we sent an FBI team to Saudia Arabia to investigate Khobar Towers. The investigation led to improving security on other embassies but no other action was taken. In time we have forgotten Khobar. In 1998 following the attack on our embassies in East Africa we sent Tomahawk missiles to bomb a chemical factory in Khartoum, Sudan, and Osama Bin Laden's training compound in Afghanistan. Neither had the decisive impact we sought and may-in the case of Sudan—have been counterproductive.

For all these reasons, I hope we will direct the anger and desire for vengeance we feel away from Yemen and towards Saddam Hussein. I hope we will begin to plan a military strategy with our allies that will lead to his removal and replacement with a democratically elected government. This would allow

us to end our northern and southern no-fly zone operations, remove our forces from Saudi Arabia, and cease the naval patrols of the Persian Gulf. I can think of no more fitting tribute to the 17 sailors lost on-board the *Cole* than completing our mission and helping the Iraqi people achieve freedom and democracy.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I understand I have with Senator Reid 20 minutes equally divided.

The PRESIDING OFFICER. The Senator is correct.

Mr. DOMENICI. Senator REID is not here, but I understand he might want some time. I yield myself 8 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. First, I say to the distinguished Senator from Nebraska, I don't know if I will have an opportunity again to be on the floor when the Senator makes a speech on the Senate floor because I don't know where the next 5 or 6 or 8 days will bring us. But I want to tell the Senator thanks for all he has done while he has been here. You have been, as you were in the military, a hero; you have taken some tough stands.

While not a budgeteer, as I am, you have chosen to express yourself many times in terms of the great concern you have for the outyear, the long-term effect of some of our entitlement programs, and actually you have expressed yourself that maybe appropriations are not getting enough money. That is perception, with reference to the Federal Government, of a very, very right kind.

Mr. KERREY. If I could respond to say the Senator from New Mexico and any of my colleagues who are uncomfortable and wish I would not do this, if I had not done this the last 6 or 7 years, it is the fault of the Senator from New Mexico. You and Senator Nunn came repeatedly to the floor, I think, in 1990, 1991, 1992, and 1993. I think in 1990, 1991, and 1992 I voted against you, but in 1993 the light bulb came on. It takes me a while to learn, I say to my friend from New Mexico, but I appreciate very much your leadership on these issues.

Mr. DOMENICI. Mr. President, I rise today to discuss the Energy and Water Development Appropriations Act which is included in this conference report along with the VA-HUD appropriations bill.

The energy and water bill is a very good bill that has unfortunately had a difficult path toward enactment. The bill originally passed the Senate by a vote of 93-1 on September 7. The Senate then approved the original energy and water conference report by a vote of 57-37 on October 2. However, the President vetoed that bill because of a provision intended to prevent increased

springtime flood risk on the lower Missouri River—a provision the President had signed the previous 3 years.

Whatever the reason, it was vetoed, it came back to us, and now it is in a conference form. I regret it has taken so much of our time and taken so long to get done but it is a very good bill.

Earlier today, the House passed the conference report by a vote of 386-24, and I hope the Senate will also overwhelmingly support the conference report.

Senator REID and I, along with Chairman STEVENS and Senator BYRD, have worked hard to prepare an outstanding bill that meets the needs of the country and addresses many of the Senators' top priorities.

The Senate and House full committee chairmen were very supportive and have provided the additional resources at conference that were necessary to address many priority issues for Members. They have allowed the House to come up \$630 million to the Senate number on the defense allocation (\$13.484 billion), and the Senate non-defense allocation to be increased by \$925 million.

I would now like to highlight some of the great things we have been able to do in this bill.

The conference report provides \$5.0 billion for nuclear weapons activities within the National Nuclear Security Administration, an increase of \$370 million over the request and \$580 million over current year.

The additional funds are required to meet additional requirements within the aging nuclear weapons complex, and reflects the conferees' concern about the state of the science-based Stockpile Stewardship Program. As it is now, the program is not on schedule. given the current budget, to develop the tools, technologies and skill-base to refurbish our weapons and certify them for the stockpile. For example, we are behind schedule and over cost on the production of both pits and secondaries for our nuclear weapons. The committee has provided significant increases to these areas.

When we use the term "Stockpile Stewardship Program," we are talking about a program that the United States has put in place to make sure that our weapons systems are indeed safe, reliable, and that we do not have to do underground testing to confirm that. In fact, we have not been doing testing because the Congress of the United States said we should not. To supply the information necessary to keep the stockpile strong, reliable, and safe, this science-based Stockpile Stewardship Program was put in place. It has a few more years before we will have it proved up and then we will look at it carefully and make sure that it does the job.

This does not mean we are making nuclear weapons, for we are not. It will come as a surprise to some who are listening that the United States makes no nuclear weapons and we have not for some time. Nonetheless, we must keep in place the infrastructure and the things that are necessary in the event we have to do that, because of a failure of our program called science-based stockpile stewardship or some other untoward event that might occur in the world.

Furthermore, DOE has failed to keep good modern facilities and our production complex is in a terrible state of disrepair. To address these problems, the mark provides an increase of over \$100 million for the production plants in Texas, Missouri, Tennessee, and South Carolina.

But it is not just the physical infrastructure that is deteriorating within the weapons complex, morale among the scientists at the three weapons laboratories is at an all-time low. For example, the last 2 years at Los Alamos have witnessed security problems that greatly damaged the trust relationship between the Government and its scientists. Additionally, research funds have been cut and punitive restrictions on travel imposed. None of this seems to move in the right direction, in fact, they probably did not help.

As a result, the labs are having great difficulty recruiting and retaining America's greatest scientists. To help address this problem, the conference agreement has increased the travel cap from \$150 million to \$185 million, and increased laboratory directed research and development to 6 percent.

The travel restrictions which have become so burdensome were put in because, somehow, we thought if we didn't let scientists travel they wouldn't go to meetings in Taiwan and China and someplace like that and exchange secret information. Clearly, travel restriction has become a very onerous burden, for good scientists working for universities or otherwise do travel. That is part of their growing up, maturing, and once they are mature and great scientists, they go there to show their fellow scientist what the past has put into their minds.

The conference agreement also includes a compromise proposal that allows work on the National Ignition Facility, a major laser complex to be used for nuclear weapons stewardship work, to continue. That project is funded at \$199 million, \$10 million below the request of \$209 million. Of that amount, \$70 million is fenced pending the project meeting a number of milestones by March 3, 2001.

The conference agreement also includes several provisions to strengthen and clarify the operation of the National Nuclear Security Administration. The conference report includes provisions to give the Administrator a 3-year term of office, prohibit the "dual-hatting" of NNSA and DOE em-

ployees, and limit the authority of the Secretary of Energy to reorganize the statutory structure of the NNSA.

I tell the Senate they have to do some very difficult things by March 15 or they do not get the fenced funding that is in this bill.

For defense nuclear nonproliferation activities within the NNSA, the conference report provides \$874 million, which is \$8 million above the request and \$145 million over current year. This amount of funding again shows the Congress' strong support of a broad variety of efforts to stem the proliferation of nuclear materials and expertise from the former Soviet Union.

For other programs within the Department of Energy, the conference agreement provides \$422 million for solar and renewables, which is \$33 million below the request but \$60 million over current year.

For nuclear energy, the conference report provides \$260 million, \$28 million below the request. The decrease is due to a transfer of cleanup obligations to the Office of Environmental Management. Nuclear power R&D actually increased significantly over current year.

The conference report provides \$6.8 billion for environmental cleanup at DOE sites across the country. That is \$56 million over the request and \$496 million over current year.

For the Office of Science, the conference report provides \$3.19 billion, \$24 million over the request and \$400 over current year. The conference added over \$300 million in order to address significant shortfalls that existed in both the Senate and House bills. The conference agreement includes full funding of \$278 million for the Spallation Neutron Source in Tennessee

On the water side of the bill, the conference report provides \$4.5 billion for water resource development activities of the Army Corps of Engineers, including \$1.7 billion for construction activities, and \$1.9 billion for ongoing operation and maintenance activities. The total Corps number is \$461 million over the budget request and \$415 million over the enacted level for fiscal year 2000.

The conference agreement includes funding for approximately 40 high priority new construction starts across the country. While the recommendation is a significant increase over both the budget request and fiscal year 2000 level, it should be pointed out that there is a \$40 to \$50 billion backlog of authorized projects awaiting construction.

Regarding the construction account of \$1.7 billion, although it is \$350 million above the request, it is within the range of the current year construction level of \$1.6 billion.

The conference agreement provides \$776 million for activities of the Bureau of Reclamation. That is \$25 million below the budget request and \$23 million over the funding level for fiscal

year 2000. No funding is included for the California Bay-Delta restoration due to the lack of program authorization for fiscal year 2001 and future years.

The conference agreement includes funding to initiate a small number of new water conservation and water recycling and reuse projects. Finally, the conference agreement provides funding for a number of independent agencies.

For the Appalachian Regional Commission, the conference report provides \$66.4 million, \$5 million below the request but slightly above the current year. For the Denali Commission, the conference report provides \$30 million, compared to \$20 million provided in the current year. For the Delta Regional Authority, the conference report provides \$20 million for the initial year of funding, a reduction from the request of \$30 million. For the Nuclear Regulatory Commission, the conference report provides \$482 million, the amount of budget request. The conferees have also included a provision extending and revising NRC's fee recovery authority. The revised fee structure will reduce fees gradually over 5 years to address fairness and equity issues raised by licensees.

Overall, this is an outstanding energy and water conference report. We have made a good faith effort to address the concerns raised in the President's veto message and I believe we have a bill that the President will sign.

Suffice it to say, we have been able in this bill to keep the Corps of Engineers moving ahead, to have projects in the States that many Senators requested that we believe feel are very solid projects. Without the extra money given to us in the allocation, we would have been unable to do that.

I vield the floor.

The PRESIDING OFFICER. The Senator from Florida.

Mr. GRAHAM. Mr. President, the Senate is now considering the combined VA/HUD and Energy and Water appropriations bills. This combined bill follows the pattern established by previous appropriations bills considered by the Senate. Looking first to the VA/HUD appropriations bill, in the fiscal year 2000 that ended September 30 of this year, the appropriation for these accounts was \$99.2 billion.

We had committed ourselves to a standard of previous year appropriations plus inflation. The Consumer Price Index has risen 3.5 percent over the past year. Making that adjustment, we would have set as a target for the VA-HUD bill an appropriation this year of \$102.7 billion. In fact, the bill we are about to vote on has an appropriation of \$105.5 billion, or approximately \$2.8 billion over the standard that has been set. This budget represents an increase from fiscal year 2000 to fiscal year 2001, not of the 3.5percent inflation but, rather, of 6.4 percent.

Looking at the second bill which has been added to the VA-HUD bill, which is the energy and water appropriations bill, again in fiscal year 2000, the appropriation for this budget was \$21.2 billion. Adjusting it for the 3.5-percent inflation increase, we would have had a target of \$21.9 billion for energy and water. In this conference report, we are being asked to authorize spending of \$23.3 billion, or approximately \$1.4 billion over the scheduled maximum increase. The increase in the energy and water appropriations bill represents a 9.9-percent growth from fiscal year 2000 to fiscal year 2001.

What is the significance of this? The significance is we started with a budget plan, and the plan was that we would attempt to restrain the growth in spending to the rate of inflation. If we did that, according to the Congressional Budget Office, we would have at the end of 10 years substantial surpluses not only in the Social Security trust fund but also surpluses in general government.

There are many important events which are taking place in the world today: The tragedy of the U.S.S. Cole, the crisis in the Middle East and, of course, the heat of fall Presidential and congressional elections. All of these things are fighting for the attention of the American people. In that context, it is easy to understand why most Americans have not focused their attention on what is happening under this dome, but I suggest that in the autumn of 2000, some of the most important decisions for our individual and our national futures are being made in these changes.

The House and the Senate are slowly closing the curtain on the 106th Congress. As the curtain draws to a close, we are in the midst of an orgy of spending and tax cuts, an orgy which threatens the fiscal discipline that many Members of this Congress and the administration have worked so hard to achieve. Worse than the decisions that are being made, however, is the process that is being used to make those decisions

Long gone is the normal legislative process where we had hearings on ideas in the committees with jurisdiction. We developed legislation on a bipartisan basis with amendments being offered and votes taken; Presidential consideration of individual bills; and, should the President exercise his or her veto power, further debate and congressional action to potentially override the veto; finally, the give and take of negotiation that results in bills which will secure a Presidential signature.

In the place of this normal legislative process, we now have a process—if it deserves that word—where a handful of individuals make far-reaching decisions on legislation. Those decisions are then rushed to the House and Senate floors for final votes, often without

the actual language of the measure being considered available to the Members of the House and the Senate.

Lest we be overly critical of October 2000, I say sadly that, with some tactical variations, we were in exactly the same position in the fall of 1999. At that time, I wrote an article for the Orlando Sentinel which outlined my distress with what was occurring a year ago. I ask unanimous consent that this article be printed in the RECORD immediately following my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit 1.)

Mr. GRAHAM. Mr. President, what we are now doing in the fall of 2000 is characterized by some representative examples of our excess. The Transportation appropriations conference report was not available for Members to review the night before the final vote, but at least there had been some debate on the Senate floor on the Transportation appropriations bill when it originally passed the Senate.

In the remaining days, we are going to be asked to approve measures for which there has never been Senate debate. As an example, we are going to be asked to make some significant paybacks to the providers of services through the Medicare program. This add-back legislation was never considered in the Senate Finance Committee, nor has it been considered on the Senate floor, but mark my word, we will soon be asked to vote on this substantial legislation.

The Commerce-State-Justice appropriations bill will also likely come to this body attached to an unrelated conference report without ever having been separately considered by the Senate.

I suggest we all need to grab hold of our aspirin bottles because we are likely to need plenty of those pills when we find out what is in these measures, a disclosure that is likely to occur several weeks after we have adjourned.

I ask unanimous consent to print in the RECORD immediately following my remarks a column which appeared in the October 18 Washington Post by David Broder under the headline "So Long, Surplus."

The PRESIDING OFFICER (Mr. L. CHAFEE). Without objection, it is so ordered.

(See Exhibit 2.)

Mr. GRAHAM. Mr. President, it is hard to determine why we have fallen into this legislative abyss. It appears there is a strong desire to avoid the traditional legislative process in order to protect against having to take any votes at all, particularly any votes on controversial issues. In order to achieve that desire to avoid public commitment as to how we stand on various issues, we have abandoned all semblance of fiscal responsibility. Let me provide some large numbers.

In 1997, we passed the Balanced Budget Act which was a key step toward achieving first the elimination of the annual deficits that had become so much a part of our Nation's fiscal life and ushered in this era of surpluses.

In that 1997 Balanced Budget Act, we set a spending target for each of the future years. For the fiscal year 2001, our spending target for domestic discretionary accounts—these are the subject of the 13 appropriations bills, not taking into account expenditure for items such as Social Security, Medicare, interest on the national debt. But focusing on those things for which we in Congress have a responsibility to annually appropriate, we decided in 1997 that the spending limit for this year should be \$564 billion. When the Senate passed its budget resolution in the spring of this year, we set a target, a constraint on ourselves, not of \$564 billion, not even of \$564 billion adjusted for some inflation, but rather \$627 billion was the number to which we committed ourselves in the budget resolution.

As of today, with one appropriations bill that is an amalgamation of two bills before us and three more appropriations bills yet to be considered, we have already committed ourselves to appropriations of \$638 billion. It is estimated that when those final three bills are voted on, we will likely raise the final tally of total appropriations to as much as \$650 billion, or some \$85 billion more than the 1997 Balanced Budget Act indicated we should be spending this year.

There has been an attempt to lay the blame for this orgy of spending at the White House step. In the Washington Post of October 13, there was an article under the headline, "DeLay Urges GOP Showdown With Clinton Over Spending Bill," where the majority whip in the House made this statement:

[He] argued that Clinton is "addicted to spending" and that Republicans must draw the line if they hope to conclude budget negotiations next week.

Mr. President, I ask unanimous consent that that article be printed in the RECORD immediately after my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit 3.)

Mr. GRAHAM. Mr. President, I would say this is not the case; that we have both Republicans and Democrats alike entered into an enthusiastic, willing, and self-confessed role as coconspirators to the raiding of the surplus.

Our colleague from Arizona, Senator McCain, stated it clearly last week when he chided his fellow Republican colleagues. "We didn't come to the President with clean hands—we came with dirty hands," said Senator McCain.

In another example of the lack of fiscal discipline—and it is part of the bill that we are going to be asked to vote upon this afternoon—the President vetoed the appropriations bill covering energy and water projects because there had been added to the appropriations bill a provision prohibiting, under certain circumstances, the use of funds to revise the Corps of Engineers' Missouri River Master Water Control Manual. This was not an issue of spending; it was an issue of the management of the Missouri River and who should have ultimate responsibility for that management.

Nevertheless, when this bill came back from the President's office with his veto, the response was to revise the bill by excising the provision which had led to the veto and then adding \$26 million in additional water projects. This spending spree is not limited to the appropriators. Others have eagerly joined in the party.

Other spending and tax cuts which are being considered in the final hours include increases in spending for Medicare providers. I mentioned that earlier as an example of a provision that we are likely to get with no opportunity for debate or amendment. News reports indicate that this may total \$28 billion over the next 5 years and perhaps as much as \$80 billion over the next 10 years. We are about to be asked to do that without any debate, without any opportunity to amend or give the thoughtful consideration for which this institution is supposedly empowered.

We passed a military retiree health benefit that will add \$60 billion over the next 10 years—again, with no open debate or opportunity to amend.

We repealed the Federal telephone tax, a provision that was tucked away in the Treasury-Postal appropriations bill. That will reduce revenues by \$55 billion over 10 years.

I understand that there may be further proposed tax cuts that could have a cost of \$200 to \$250 billion over the next 10 years.

These are just examples of the almost total absence of any sense of fiscal discipline. It is possible to support many of these proposals, but I am concerned that we are operating without a blueprint. Congress is flying blind, and our plane has no global positioning system. In fact, we do not even have a hand compass to give us general direction as to where we should be going.

You might ask, What difference does it make? Why should Americans care this fall in the year 2000 as to what we are doing? Don't we have an enormous surplus? Can't we afford to do all of these things?

Americans can and do care because Congress is frittering away the hardwon surplus without a real plan for utilizing those surpluses and without addressing the big long-term problems facing our Nation.

Americans should care because by sleepwalking through the surplus, we

are denying ourselves the chance to face these major national challenges.

A few days ago, the Congressional Budget Office released its long-term budget outlook. The Congressional Budget Office findings are not encouraging, but they are not surprising. That may explain why that report garnered such little attention by the media and by Members of Congress.

What were those Congressional Budget Office findings? The Federal Government spending on health and retirement programs-Medicare, Medicaid, Social Security-dominates the longterm budget outlook. Why? The retirement of the baby-boom generation will drastically increase the number of Americans receiving retirement and health care benefits. The cost of providing health care is growing faster than the overall economy. The number of Americans working to support that much larger retirement segment of our population will be essentially stahilized

Saving most or all of the budget surplus that CBO projects over the next 10 years—using those savings to pay down the debt—according to the Congressional Budget Office, would have a positive impact on those projections of future obligations and substantially delay the emergence of a serious fiscal imbalance.

Despite the clear delineation of the long-term problems, and the even clearer outline of the short-term steps Congress can take to begin to address those problems—primarily, saving the surplus and paying down the debt—Congress seems content on frittering away the surplus.

We have an obligation to not let this happen. In fact, it is not necessary. There are some basic principles to which we could recommit ourselves which would avoid the path that I fear is about to take us over the canyon cliff.

First, we should return to that admonition that guided us so effectively just 2 years ago, and that was: Save Social Security first. The surplus should be used to pay down the debt. The kind of direction which the Republican leadership in the House of Representatives has suggested to us-that we should use 90 percent of the fiscal year 2001 surplus for debt reduction—is not only a good idea for the fiscal year 2001 but should be a guiding principle into the future until we have met that first obligation of saving Social Security first. We also need to establish some priorities.

In those ugly days of deficits, we were taught some valuable lessons. One of those lessons was the need to prioritize. The tool that forced us to do that was a requirement that for each additional dollar of spending enacted, a dollar of spending had to be reduced or a dollar of taxes had to be raised. That was a firm discipline.

The surplus has eroded that discipline. Many of the proposals being enacted in these waning days are desirable. Perhaps they are even more desirable than commitments that are already on our law books.

We are failing the American public by not having an honest, open debate about the tradeoffs that are necessary to enact these programs. If we are going to add a substantial new benefit—whether it be to Medicare providers or whether it be to military veterans—we should be prepared to answer the question, Where are we going to pay for that new commitment, either in terms of reducing spending elsewhere or raising taxes to pay for it?

We should not be eating away at the surplus which is going to be the basis upon which we can meet some of the long-term significant challenges that face our Nation.

There are few Congresses in the history of this Nation which have had such a wonderful opportunity to face and respond to important challenges to our Nation's future. Few Congresses will be judged so harshly for avoiding, trivializing, and ultimately failing to seize that opportunity.

I urge my colleagues in Congress, as well as those in the White House, to stop acting as the proverbial children in the candy store and start acting as statesmen and stateswomen. At the very least, let us follow the admonition given to all healers, which is: First, do no harm.

I regretfully announce that I will have to vote against this appropriations bill because it fails to comply with the fiscal discipline we established for ourselves, first in 1997 as part of the Balanced Budget Act and then this year in the development of our own budget resolution. I hope there will be a sufficient number of my colleagues who will join me in expressing our outrage as to what we are doing in terms of our Nation's future, what we are doing in terms of asking our children and grandchildren to have to deal with some of the issues that will be much more difficult for them than they are for us today.

Now is the time to face the issue of dealing with these long-term commitments that we as a society have undertaken. We have the capacity to do so. The question is, Do we have the will to do so?

I thank the Chair.

EXHIBIT 1

[From the Orlando Sentinel, Thurs., September 23, 1999]

CONGRESS' SPENDING IMPERILS ECONOMIC GROWTH

In early 1993, a new U.S. Congress and a new presidential administration took office under the cloud of the largest deficit in our nation's history: \$290 billion. In the past year, we have learned that five years of fiscal austerity and economic growth have transformed that record deficit into the first budget surplus in more than a generation—

and paved the way for annual surpluses far into the future.

This historic reconstruction of our nation's fiscal house was no small accomplishment. Both Congress and the president made tough choices—a combination of revenue increases, spending reductions and long-term budget restraints—in stemming the tidal wave of red ink that had threatened to drown our children and grandchildren's economic future.

That fiscal life-preserver worked better than anyone could have imagined. In addition to eliminating the deficit, it powered one of the strongest economic expansions in our nation's history:

—Nineteen million jobs have been created since 1992, including more than a million in Florida.

—In the past six years, long-term interest rates have been reduced by nearly 20 percent while our national savings rate—personal savings plus governmental savings—has doubled.

—We enjoy the lowest national unemployment rate in 29 years and the highest homeownership rate in history.

But these successes do not give lawmakers license to return to the fiscally irresponsible days of the past. If anything, we face an even more difficult test in preserving the discipline that has brought us to this enviable economic position. It is a test that requires us to forego instant gratification in favor of policies that will reap benefits for future generations. Thus far, it is a test that Congress is failing miserably.

The current surplus is the result of surpluses in the Social Security Trust Fund and the federal government's annual operating budget. Congress has mishandled both. Earlier this summer, the U.S. House of Representatives passed a plan to protect Social Security by holding its surpluses in a socalled lockbox. One political pundit even asserted that this action removed Social Security as an issue for debate.

Wrong. While a lockbox seems responsible, it does nothing to extend Social Security's solvency beyond its currently projected expiration date of 2034. In fact, it numbs us to the structural changes that will be needed to preserve Social Security until 2075, a life-span that will ensure that this important program is there for three generations of Americans.

Worse yet, Congress seems determined to exhaust the surpluses before they can even enter the lockbox. Wisely, the president has said he will veto a risky tax scheme that would deplete nearly \$800 billion from the federal government's operating surplus during the next 10 years—leaving no resources whatsoever to enhance Social Security's solvency further or to strengthen Medicare.

The story gets worse when it comes to federal spending, where Congress' appetite is as voracious as ever. The historic deficit-reduction legislation enacted in 1993 and 1997 included strict discretionary-spending limits. Not surprisingly, it has been difficult to maintain these limits. But rather than dealing with this challenge in an honest manner that salutes fiscal austerity, Congress has reverted to using an escape clause that allows "emergency" spending to fall outside the budget limits and further deplete the surplus.

When this emergency-spending provision was originally passed, many assumed that it would be reserved for natural disasters such as hurricanes or floods, urgent threats to national security and other sudden, urgent or unforeseen needs. For the past year, how-

ever, Congress has misused its emergencyspending powers in a manner befitting the little boy who cried wolf.

In October of 1998, it stretched the emergency definition to direct \$3.35 billion to the long-foreseen Year 2000 (Y2K) computer problem and \$100 million for a new visitors center at the U.S. Capitol. In June of 1999, Congress added non-emergency spending items to an "emergency" bill for the Balkans conflict. And this fall, Congress is expected to consider an "emergency" bill to pay for the cost of the 2000 Census, which was ordered by our Founding Fathers in Article I of the U.S. Constitution.

It took the federal government 30 years to turn its federal budget deficit into a surplus. Yet it has taken us less than 12 months to revert to the same irresponsible behavior that produced record deficits in the first place. For the sake of our economy and our children and grandchildren's futures, I hope that the American people will demand that the 106th Congress establish a new record of fiscal prudence.

EXHIBIT 2

So Long, Surplus (By David S. Broder)

Between the turbulent world scene and the close presidential contest, few people are paying attention to the final gasps of the 106th Congress—a lucky break for the lawmakers, who are busy spending away the promised budget surplus.

President Clinton is wielding his veto pen to force the funding of some of his favorite projects, and the response from legislators of both parties is that if he's going to get his, we're damn sure going to get ours.

As a result, said Congressional Quarterly, the nonpartisan, private news service, spending for fiscal 2001, which began on Oct. 1, is likely to be \$100 billion more than allowed by the supposedly ironclad budget agreement of 1997.

More important, the accelerated pace of spending is such that the Concord Coalition, a bipartisan budget-watching group, estimates that the \$2.2 trillion non-Social Security surplus projected for the next decade is likely to shrink by two-thirds to about \$712 billion.

As those of you who have been listening to Vice President Al Gore and Texas Gov. George W. Bush know, they have all kinds of plans on how to use that theoretical \$2.2 trillion to finance better schools, improved health care benefits and generous tax breaks. They haven't acknowledge that, even if good times continue to roll, the money they are counting on may already be gone.

To grasp what is happening—those now in office grabbing the goodies before those seeking office have a chance—you have to examine the last-minute rush of bills moving through Congress as it tries to wrap up its work and get out of town.

A few conscientious people are trying to blow the whistle, but they are being overwhelmed by the combination of Clinton's desire to secure his own legacy in his final 100 days, the artful lobbying of various interest groups and the skill of individual incumbents in taking what they want.

Here's one example. The defense bill included a provision allowing military retirees to remain in the Pentagon's own health care program past the age of 65, instead of being transferred to the same Medicare program in which most other older Americans are enrolled. The military program is a great one; it has no deductibles or copayments and it includes a prescription drug benefit.

Retiring Democratic Sen. Bob Kerrey of Nebraska, himself a wounded Congressional Medal of Honor winner, wondered why—in the midst of a raging national debate on prescription drugs and Medicare reform—these particular Americans should be given preferential treatment. Especially when the measure will bust the supposed budget ceiling by \$60 billion over the next 10 years.

"We are going to commit ourselves to dramatic increases in discretionary and mandatory spending without any unifying motivation beyond the desire to satisfy short-term political considerations," Kerrey declared on the Senate floor. "I do not believe most of these considerations are bad or unseemly. Most can be justified. But we need a larger purpose than just trying to get out of town."

The Republican chairman of the Senate Budget Committee, Pete Domenici of New Mexico, joined Kerrey in objecting to the folly of deciding, late in the session, without "any detailed hearings...[on] a little item that over a decade will cost \$60 billion." Guess how many of the 100 senators heeded these arguments? Nine.

Sen. Phil Gramm, a Texas Republican, may have been right in calling this the worst example of fiscal irresponsibility, but there were many others. Sen. John McCain of Arizona, who made his condemnation of porkbarrel projects part of his campaign for the Republican presidential nominations, complained that spending bill after spending bill is being railroaded through Congress by questionable procedures.

"The budget process," McCain said, "can

"The budget process," McCain said, "can be summed up simply: no debate, no deliberation and very few votes." When the transportation money bill came to the Senate, he said, "the appropriators did not even provide a copy of the [conference] report for others to read and examine before voting on the nearly \$60 billion bill. The transportation bill itself was only two pages long, with the barest of detail, with actual text of the report to come later."

Hidden in these unexamined measures are dozens of local-interest projects that cannot stand the light of day. Among the hundreds of projects uncovered by McCain and others are subsidies for a money-losing waterfront exposition in Alaska, a failing college in New Mexico and a park in West Virginia that has never been authorized by Congress. And going out the window is the "surplus" that is supposed to pay for all the promises Gore and Bush are making.

EXHIBIT 3

[From the Washington Post, Oct. 13, 2000] DELAY URGES GOP SHOWDOWN WITH CLINTON OVER SPENDING BILL

(By Eric Pianin and Dan Morgan)

After weeks of trying to accommodate the White House on key budget issues, House Republican leaders are pushing for a more confrontational strategy over a giant health and education spending bill, the largest piece of unfinished business in the final days of the session.

Unable to resolve their differences over spending for new school construction and for hiring more teachers to reduce class sizes, GOP leaders are prepared to challenge President Clinton to sign or veto a GOP-crafted labor, health and education bill rather than making further concessions.

House Majority Whip Tom DeLay (R-Tex.), the chief architect of the strategy, has argued that Clinton is "addicted to spending" and that Republicans must draw the line of they hope to conclude budget negotiations next week. House Speaker J. Dennis Hastert

(R-III.) agrees that Republicans already have made ample concessions, according to an aide

"If it's considered confrontational to reject the idea we should just write the White House a blank check, I guess we're being confrontational," Jonathan Baron, a spokesman for DeLay, said yesterday.

But Senate Majority Leader Trent Lott (R-Miss.), House Appropriations Committee Chairman C.W. Bill Young (R-Fla.) and others have argued in private meetings that it would be politically risky to confront Clinton over education spending policy only weeks before the election.

Those Republicans are worried about appearing to be resisting new spending for education when Vice President Gore and Gov. George W. Bush have made education a top priority in the presidential campaign.

"I've never been an advocate of a veto strategy," Lott said yesterday. "I don't understand the wisdom of running a bill down to be vetoed and then bringing it back and doing it over. For one thing, it usually grows."

GOP leaders have put off a decision on how to proceed until next week, when they determine whether they have the votes in the House and Senate to pass the bill without Democratic and administration support. A White House budget office spokeswoman said that Clinton would not back down on his demands for increased spending for education.

The threatened showdown comes just when it appeared that the two sides were making substantial headway in completing work on the 13 must-pass spending bills for the fiscal year that began Oct. 1.

The Senate approved two packages that each carried two compromise spending bills. One combined a \$107 billion measure financing veterans, housing, environment and science programs with a \$23.6 billion energy and water bill. The other contains the \$30.3 billion Treasury Department bill, a \$2.5 billion measure to fund the legislative branch and another repealing a 3 percent federal excise tax on telephones.

The Treasury measure also would pave the way for members of Congress to receive a \$3,800 pay raise in January, to \$145,100.

The spending bill for veterans, housing, space and environmental programs provides much of what Clinton had sought. That includes increased funds for AmeriCorps, the president's signature national service program; the Environmental Protection Agency; veterans' health care and housing vouchers; and other subsidies for low-income families.

The energy and water bill to which it was attached was retooled after Clinton vetoed it in a dispute over water management along the Missouri River.

The pairing of unrelated appropriations bills for final passage is part of the leader-ship's efforts to finish work on the spending bills as soon as possible, so lawmakers can return to campaigning. Congress yesterday approved its third short-term continuing resolution that will keep the government operating through next Friday.

The festering dispute over the labor, health and education appropriations bill for the coming year has as much to do with how money will be spent as how much will be made available.

Although the \$108.5 billion bill worked out by House and Senate Republicans exceeds the president's original request, Democrats say it largely reflects Republican priorities, such as health research and special education. The White House and congressional Democrats want an additional \$6 billion for their priorities.

About half that amount would go to summer job programs, the training of dislocated workers, health care for the uninsured and the Centers for Disease Control and Prevention, along with smaller programs.

But the largest differences are over education, where Republicans fall about \$3.1 billion short of Democratic targets.

The White House is pressing for another \$1.8 billion to pay for initiatives to train high-quality teachers, renovate schools and fund after-school programs. At the same time, House Democrats want an additional \$1.3 billion for special education and for Pell Grants for needy college students.

In addition to the money difference, Republicans are insisting that more than \$3 billion sought by Clinton for school construction and reducing class sizes be rolled instead into a block grant to the states.

GOP officials contend the argument over this issue is more political than substantive, because federal funds going to states and school districts invariably are mixed with local money. But Democratic officials say that the Clinton plan would be far more effective in targeting the money to the neediest school districts.

The PRESIDING OFFICER. The Senator from Maryland.

Ms. MIKULSKI. Mr. President, I rise in support of the VA-HUD conference report and I urge my colleagues to do the same.

I want my colleagues to know that this conference report is the exact same bill that was passed in the Senate last week

It has come back to the Senate in the form of a conference report, which includes report language in the statement of the managers.

I urge my colleagues to vote for this measure to give our veterans the health care and benefits they deserve, to provide housing for families of modest income, and to protect our environment.

First, I am especially pleased that we were able to provide a significant increase in funding for veterans health care. We met the President's request of \$20.2 billion and are \$1.4 billion above last year's level.

We were also able to provide \$351 million for medical and prosthetic research. This is \$30 million above the budget request and last year's level.

The VA plays a major role in medical research for the special needs of our veterans, such as geriatrics, Alzheimer's, Parkinson's, and orthopedic research.

We are also providing \$100 million in funding for State veterans homes. This is \$40 million above the budget request and \$10 million above last year's level.

I am also very pleased that we were able to include a new title in our bill that will provide medical care and veterans benefits to Filipino veterans who fought alongside Americans in World War II and who live in the United States

Finally, our Filipino-American veterans will receive equal benefits for equal valor.

Our bill provides almost \$13 billion to renew all expiring section 8 housing vouchers. We have included \$453 million in funding to issue 79,000 new vouchers to help working families find affordable housing.

Unfortunately, we were forced to drop Senator Bond's housing production bill due to objections from the authorizing committee, but I hope we will revisit the issue next year.

We were also able to maintain level funding for other critical core HUD

programs.

We provided \$779 million for housing for the elderly, which meets the President's request and is \$69 million more than last year. This includes funds for assisted living and service coordinators.

We also provided \$217 million in funding for housing for disabled Americans, which is \$7 million above the President's request and \$23 million over last year's level.

We were able to provide both the Community Development Block Grant Program and the HOME Program with \$150 million increases over the President's request. CDBG is funded at more than \$5 billion, and HOME is funded at \$1.8 billion. The CDBG program is one of the most important programs for rebuilding our cities and neighborhoods.

We also provided increased funding to help our neighborhoods and communities through the Hope VI Program. This year, we provided \$575 million for Hope VI, the same as last year's level.

I am pleased that we were able to provide funding for other programs that help America's communities. We increased funding for empowerment zones by providing \$90 million in this bill for urban and rural empowerment.

We also help homeowners by extending the FHA downpayment simplification program for 25 months.

I am extremely pleased that our bill fully funds NASA at \$14.3 billion, an increase of \$250 million above the President's request.

All of NASA's core programs are fully funded and all NASA centers are fully funded, including the Goddard Space Flight Center in my home State of Maryland.

The VA-HUD bill includes \$1.5 billion for Earth science and more than \$2.5

billion for space science.

It includes \$20 million to start an exciting new program called "living with a star," which will study the relationship between the Sun and the Earth and its impact on our environment and our climate. I am especially proud that this program will be headquartered at the Goddard Space Flight Center.

And, of course, we fully fund the space shuttle upgrades, space station construction, and the new "space launch initiative" to find new, low-cost launch vehicles that will reduce the cost of getting to space.

The VA-HUD manager's amendment also increases funding for the Corpora-

tion for National Service. The corporation is funded at \$458 million, a \$25 million increase over last year's level. The Corporation for National Service has enrolled over 100,000 members and participants across the country.

As many of my colleagues know, I have been very concerned about the digital divide in this country. I introduced legislation called the Digital Empowerment Act to provide a one-stop shop and increased funds to local communities trying to cross the digital divide. I am pleased that this bill contains \$25 million within the national service budget to create an "e-corps" of volunteers by training and mentoring children, teachers, and non-profit and community center staff on how to use computers and information technology.

With regard to the EPA, our bill provides \$7.8 billion in funding. All together, this is an increase of \$400 million over last year's level and \$686 million more than the President's request.

We increased funding by \$246 million for EPA's core environmental programs.

We also provided an additional \$550 million for the clean water state revolving fund.

Taking care of the infrastructure needs of local communities has always been a priority for the VA-HUD Subcommittee.

A number of my colleagues have raised concerns about some environmental provisions in the bill.

I will address these topics in more detail later. But let me say that the administration helped negotiate these provisions and the administration supports them. They do not threaten the environment and they maintain EPA's authority and flexibility.

A am a strong supporter of FEMA and am proud that we have provided \$937 million in funding for FEMA, plus an additional \$1.3 billion in emergency disaster relief funding.

The National Science Foundation is funded at \$4.43 billion, a \$529 million increase over last year's enacted level and one of the largest increases in NSF's history. This is a downpayment toward our goal of doubling the NSF budget over the next five years.

I am especially pleased that we were able to provide \$150 million for the new nanotechnology initiative.

Mr. President, I once again appreciate the cooperation of my colleagues throughout this process. While I regret that this year's process was highly irregular, I am pleased that we worked together to bring a conference agreement to the Senate floor. I believe this year's VA-HUD bill is good for our country, our veterans, and our communities.

To reiterate, Mr. President, I rise in support of the VA-HUD conference report and urge my colleagues to do the same. As I said, this conference report

is the exact same bill we passed last week. It has come back to the Senate in the form of a conference report and includes the report language contained in the Statement of Managers.

That is kind of inside baseball, but what I want people to know is, this is the same bill we voted on, so there does not need to be extensive debate. What is not inside baseball, and it is how we played the game, is that we played it very fairly. We tried to both exercise a great deal of fiscal prudence while looking out for the day-to-day needs of our constituents and the long-range needs of our country.

Our appropriation—the VA-HUD, EPA, National Federal Emergency Management, space program, National Science Foundation, and 22 other agencies—had the least increase, the least gross increase, of any other subcommittee to come before the Senate. I tell my colleagues who believe in fiscal discipline, have worked for fiscal discipline, and have voted for fiscal discipline, that they need not fear voting for the VA-HUD-other agencies appropriations.

Throughout our entire deliberation on moving this bill, we wanted to have legislation that could both meet the responsibilities of fiscal stewardship as well as meet the needs. I believe we did do it. Sure, there are increases, but it costs more to do what we do. One of the major areas where it costs us more to do what we do is in veterans health care.

Health care is on the rise everywhere. It costs money to have the best nurses in America working for our veterans. It costs money to be able to have primary care facilities. It costs money to provide a prescription drug benefit. The cost our veterans gave in their service to America is far greater than any monetary spending we can do to ensure they get the health care they need.

That is why we do have increases. We have increased veterans health care. We have ensured the benefits that they deserve. At the same time, we have worked very hard to provide housing for people of modest income. We have an increase in section 8 vouchers.

What does that mean? It means there are Federal funds to enable the working poor to be able to have a subsidy for housing. If you have gotten off welfare, we make work worth it by making sure that if you are working and you can't afford to live and pay for the housing that you need, there will be this modest subsidy.

We are also doing housing for the elderly. Like it or not, America is getting older. Like it or not, we need housing for the elderly, and we also bring some innovations to it. Those need to be project based.

My esteemed Republican colleague and I don't believe vouchers work for the elderly. We don't believe if you have a wheelchair or a walker, we should give you a little voucher while you forage for housing in your neighborhood. We met those needs.

We have also protected the environment. We have encouraged voluntarism, and we have also made major public investments in science and technology. Why did we do that? Because we want to be sure America is working in this century.

These major investments in science and technology are to generate the new ideas that are going to give us the new jobs for the new economy.

We believe we bring to the Senate a bill that really does represent what America wants—yes, fiscal stewardship, but promises made, promises kept to those who served the country in the U.S. military through its benefits, to make work worth it, and make sure we have a helping hand for those who are out there working every day and have moved from welfare to work, to protect our environment, encourage voluntarism, and come up with the science and technology for the new ideas, for the new jobs.

I encourage my colleagues to vote for this bill.

I again thank my colleague. There has been much made about bipartisan cooperation. We saw it in the debates. We see it in the ads, and so on. I can tell my colleagues, I saw it in the Subcommittee on VA, HUD, and Independent Agencies. I thank my colleague, Senator Bond, for his cordial and collegial support. I thank the members of the subcommittee on both sides of the aisle. It really worked for us. Quite frankly, I believe if the rest of the Senate is working in the cooperative way we work, when all is said and done, more will get done.

I yield the floor.

SEDIMENT REMEDIATION TECHNOLOGIES

Mr. INHOFE. Mr. President, I know the Senator from Missouri has addressed similar questions before the conference on this legislation was convened, but now that we have the actual text of the statement of managers before us. I would like to clarify a section in the statement of managers. The language directs EPA to take no action to initiate or order the use of certain technologies such as dredging or capping until specific steps have been taken with respect to the National Academy of Science report on sediment remediation technologies, with limited exceptions. It is my understanding that in directing that the report's findings be properly considered by the Agency, the conferees are not directing any change in remediation standards. However, the conferees are directing EPA to consider the findings and recommendations of the forthcoming report, in addition to the existing guidance provided by the Agency's Contaminated Sediments Management Strategy, when making remedy selection decisions at contaminated sediment sites, and as the Agency develops guidance on remediating contaminated sediments.

Mr. BOND. The Senator is correct. I have addressed similar questions, but to remove any confusion, I clarify the statement of managers now before the Senate. In directing that the NAS report by properly considered by the Agency, the language in the statement of managers directs the Agency to consider the findings of the report when making site-specific remedial decisions and in developing remediation guidance for contaminated aquatic sediments. In both cases, EPA should consider the findings of the report so that the best science available will be taken into account before going forward. In implementing this direction, EPA should seek to ensure that Congress can evaluate how the findings of the report have been considered.

Mr. INHOFE. It is also my understanding that in providing for an exception for urgent cases, we anticipate that the EPA will use the four part test set forth in previous committee reports, namely that (1) EPA has found on the record that the contaminated sediment poses a significant threat to the public health to which an urgent or time critical response is necessary, (2) remedial and/or removal alternatives to dredging have been fully evaluated, (3) an appropriate site for disposal of the contaminated material has been selected, and (4) the potential impacts of dredging, associated disposal, and alternatives have been explained to the affected community.

Mr. BOND. The Senator is correct.

Mr. INHOFE. Finally, it is my understanding that the references to "urgent cases," "significant threat," "properly considered" and other key terms should be interpreted consistent with ordinary dictionary definitions and in light of previous years' statements of managers

Mr. BOND. Again, the Senator is correct.

RELICENSING NON-FEDERAL HYDROELECTRIC PROJECTS

Mr. CRAIG. Mr. President, one of my top priorities this Congress has been to improve the process by which our Nanon-federal hvdroelectric tion's projects are relicensed by the Federal Energy Regulatory Commission. Over the next 15 years, over half of all nonfederal hydroelectric capacity (nearly 29,000 MW of power) must go through a relicensing process that takes too long and results in a significant loss of domestic hydropower generation. Oversight and legislative hearings before the Energy and Natural Resources Committee this Congress have established a solid record of the problem and the need for a legislative solution. I want to commend the Chairman of the Water and Power Subcommittee, Senator SMITH, for his dedication to this

issue and for working with me to seek a bipartisan, legislative solution to the licensing problem. I look forward to working with all my colleagues to pass this legislation in the next Congress.

Mr. BINGAMAN. I thank the Senator for addressing this issue. We are clearly looking, in the next 15 years, at a substantial relicensing workload for hydropower facilities. No one can be against wanting to conduct that process in an efficient and informed manner. But, these projects have multiple impacts and benefits that cut across a wide range of issues that are important to the citizens who live in the vicinity of those projects and to the country at large. Any changes to the current system should deal with these multiple impacts in a sensible way. I fully expect that the hydropower relicensing issue will remain as a topic of concern on our Committee agenda in the next Congress, and I am ready to engage in discussions on how to move forward on this issue in a bipartisan fashion.

ABATEMENT PROGRAM FUNDING

Mr. CRAIG. Mr. President, I note that the bill allocates approximately \$100 million to HUD to fund its lead abatement program. In a number of areas around the country some of our children are still at increased risk of exposure to high levels of lead, which can lead to development problems.

The bill further provides that from this account, HUD will provide financial assistance to the Clear Corps lead abatement and education network administered by the University of Maryland at Baltimore. This assistance is set at \$1 million.

Clear Corps is a public-private partnership which organizes and manages cleanup and education affiliates around the country in close cooperation with local organizations and government. Significant resources are provided to this program by various companies in the paint industry, and by the National Paint and Coatings Association.

Based on reports I have seen, it has proven highly efficient and cost effective. At my invitation, Clear Corps representatives visited Northern Idaho to meet with officials of several private and public organizations, including U.S. EPA, to determine if an affiliate arrangement might prove helpful in addressing the lead exposure issue in that area. While significant progress has been made, there remain pockets where further testing, cleanup (particularly inside some older houses), and focused education could reap large rewards in the near future. It appears that with its growing national network and indepth experience in providing cost effective solutions, my state and its children would benefit from such a project. Clear Corps is currently evaluating the resources which might be required to establish a new site in Idaho. It is my hope, Mr. Chairman, that we are able to at least begin to establish this program this year in Northern Idaho. Next year, I hope to work with the Chairman and the other members of the VA-HUD Subcommittee to review the Clear Corps approach with a view towards increasing the federal share of its resources. We need to see more of creative and cost effective approaches to issues such as reducing lead exposure of children. Public-private ventures to address such issues make a lot of sense.

Mr. BOND. I thank the Senator from Idaho for his thoughtful remarks on the lead exposure issue and the Clear Corps program. I might point out that in my home state, St. Louis now has a Clear Corps affiliate. I might also point out that Senator MIKULSKI has a Clear Corps affiliate in Baltimore. I concur that the public-private approach as one avenue of a larger program should be encouraged. I would be happy to work with Senator CRAIG and other members to determine an appropriate level of higher funding for Clear Corps.

DEFINITION OF AN "URBAN COUNTY" UNDER FEDERAL HOUSING LAW

Mr. MACK. Mr. President, I would like to engage my colleague, Senator BOND, and Chairman of the Senate VAHUD Appropriations Subcommittee in a brief colloquy concerning a provision in the conference agreement relating to the definition of "urban county" under federal housing law.

Mr. BOND. I would be pleased to engage my colleague in such a colloquy.

Mr. MACK. Mr. President, as the Chairman knows, the Community Development Block Grant (CDBG) Program statutory provisions relating to the "urban county" classification do not contemplate the form of consolidated city/county government found in Duval County, Florida (Jacksonville) where there is no unincorporated area. A recent decision by the Bureau of the Census, and subsequently by the U.S. Department of Housing and Urban Development (HUD), has questioned the status of Jacksonville/Duval County as an entitlement area.

Mr. BOND. I am aware of this problem facing the city of Jacksonville.

Mr. MACK. Mr. President, my purpose for entering into this colloquy is to seek clarification from the Chairman about the effect of the provision adopted by the Conference Committee to amend the definition of "urban county" to address this problem facing Jacksonville.

Is it the Chairman's understanding that section 217 of the VA-HUD Conference Report addresses the concerns of the Town of Baldwin, Jacksonville and the Beaches communities, by amending current law to classify Jacksonville as an "urban county". Is it further his understanding that the language would preserve the area's long-standing status as an entitlement area for CDBG grants, while also allowing the Town of Baldwin to elect to have its population excluded from the entitlement area?

Mr. BOND. Yes. I believe the language clarifies that Jacksonville/Duval County meets the definition of an urban county under the statute, as amended. HUD also agrees with this interpretation.

Mr. MACK. I thank the Chairman for his comments.

• Mr. McCAIN. Mr. President, I want to thank both Senator BOND and Senator MIKULSKI for their hard work on this important legislation which provides federal funding for the Departments of Veterans Affairs, VA, and Housing and Urban Development (HUD), and Independent Agencies. Unfortunately, Mr. President, this yearend process to rush spending measures through Congress at the last minute again leaves very little time for members to review in full detail the finalized conference reports, which are all too often bottled up until just before they arrive on the Senate floor. The VA-HUD conference report, regrettably, is no exception.

The House of Representatives just passed this report, despite the fact that most of the voting members did not have adequate time to fully review its contents. And now, the Senate is being asked to do the same. How can we make sound policy and budget decisions with this type of budget steamrolling?

This conference report provides \$22.4 billion in discretionary funding for the Department of Veterans Affairs. That amount is \$17.2 million more than the budget request and \$1.5 billion above the fiscal year 2000 budget level. It does appear that some progress has been made to reduce the overall amount of earmarks in this spending bill. The conferees have earmarked approximately \$40 million this year; last year, earmarks exceeded \$31 million.

Certain provisions in the Veterans Affairs section of the bill also illustrate that Congress still does not have its priorities in order. Let me review some examples of items included in the bill.

The conferees direct that \$250,000 be used by the Department of Veterans Affairs to host The Sixth International Scientific Congress on "Sport and Human Performance Beyond Disability." The conference report continues to express the view that the conferees believe this sporting event is within the mission of the VA.

Neither budgeted for nor requested by the Administration over the past nine years is a provision that directs the Department of Veterans Affairs to continue the nine-year-old demonstration project involving the Clarksburg, West Virginia, Veterans Affairs Medical Center, VAMC, and the Ruby Memorial Hospital at West Virginia University. Several years ago, the VA-HUD appropriations bill contained a plus-up of \$2 million to the Clarksburg VAMC that ended up on the Administration's line-item veto list. The committee has also added \$1 million for the design of a nursing home care unit at the Beckley, West Virginia, VAMC.

The VA-HUD funding bill also includes construction projects not originally included in the President's budget request.

For example, the VA-HUD appropriations report adds \$12 million not previously included in the President's budget for the construction of the Oklahoma National Cemetery. Obviously, the VA-HUD Appropriations Subcommittee felt compelled to include this money since the VA and the Administration chose to ignore the Committee's report language last year. Last year the VA-HUD Senate report directed the VA to award a contract for design, architectural, and engineering services in October 1999 for a new National Cemetery in Lawton (Oklahoma City/Fort Sill), Oklahoma, and also directed the President's fiscal year 2001 budget to include construction funds for a new Oklahoma National Cemeterv.

Most questionable are several special interest projects not previously included in the House or Senate version of the fiscal year 2001 VA-HUD appropriations bill. Some examples are: \$15 million for land acquisition for a national cemetery in South Florida, \$5 million for the Joslin Vision Network for telemedicine in Hawaii, and continued funding for the National Technology Transfer Center, NTTC, at Wheeling Jesuit College in Wheeling, West Virginia. None of these programs were in the President's budget request, nor in either House or Senate veterans funding bills.

In addition, the bill adds \$1 million not previously included in the President's budget for planning and design activities for a new national cemetery in Pittsburgh, Pennsylvania, and \$2.5 million for advanced planning and design development for a national cemetery in Atlanta, Georgia. Last year, the Senate provided an additional \$500,000 for design efforts for Atlanta, as well as other congressionally-directed locations.

Although these areas are likely deserving of veterans cemeteries, I wonder how many other national cemetery projects in other states were bypassed to ensure that these states received the VA's highest priority.

This bill also contains the funding for the Department of Housing and Urban Development. The programs administered by HUD help our nation's families purchase their homes, helps many low-income families obtain affordable housing, combats discrimination in the housing market, assists in rehabilitating neighborhoods and helps our nation's most vulnerable—the elderly, disabled and disadvantaged—have access to safe and affordable housing.

Unfortunately, this bill shifts money away from many critical housing and community programs by bypassing the appropriate competitive process and inserting earmarks and set-asides for special projects that received the attention of the Appropriations Committee. This is unfair to the many communities and families who do not have the fortune of residing in a region of the country represented by a member of the Appropriations Committee.

And once again, Utah has managed to receive additional funds set aside for the 2002 winter Olympic games.

This bill includes \$2 million for the Utah Housing Finance Agency to provide temporary housing during the Olympics. It is certainly a considerate gesture that the housing facilities are expected to be used after the 2002 games for low-income housing needs in Utah. However, I am confident that the many families in Utah and around the country who are facing this winter and next without affordable and safe housing would much rather have this \$2 million used for helping them now rather than in two or three years when the Olympics are over.

Some of the earmarks for special projects in this bill include:

\$500,000 for the restoration of a carousel in Cleveland, Ohio;

\$500,000 for the Chambers County Courthouse Restoration Project in the City of LaFayette, Alabama;

\$2.6 million for the rehabilitation of the opera house in the City of Meridian, Mississippi;

\$3 million for restoration of an historic property in Anchorage, Alaska;

\$2 million for renovation on the Northwest corner of 63rd Street and Prospect Avenue in Kansas City;

\$500,000 for infrastructure improvements to the W.H. Lyons Fairgrounds in Sioux Falls, South Dakota; and

\$400,000 for Bethany College in Bethany, West Virginia for continued work on a health and wellness center.

This bill also funds the Environmental Protection Agency, EPA, which provides resources to help state, local and tribal communities enhance capacity and infrastructure to better address their environmental needs. I support directing more resources to communities that are most in need and facing serious public health and safety threats from environmental problems. Unfortunately, after a cursory review of this year's conference report for EPA programs, I find it difficult to be most urgent environmental issues.

There are many environmental needs in communities back in my home state of Arizona, but these communities will be denied funding as long as we continue to tolerate earmarking that circumvents a regular merit-review process.

For example, some of the earmarks include:

\$300,000 for the Coalition for Utah's Future;

\$1 million for the Animal Waste Management Consortium in Missouri;

\$2 million for the University of Missouri-Rolla for research and development of technologies to mitigate the impacts of livestock operations on the environment;

\$200,000 to complete the soy smoke initiative through the University of Missouri-Rolla; and

\$500,000 for the Economic Development Alliance of Hawaii.

While these projects may be important, why do they rank higher than other environmental priorities?

For independent agencies such as the National Aeronautics and Space Administration, this bill also includes earmarks of money for locality-specific projects such as:

\$3.5 million for a center on life in external thermal environments at Montana State University in Bozeman; and

\$15 million for infrastructure needs of the Life Sciences building at the University of Missouri-Columbia.

Let me also read two paragraphs from an article by David Rodgers, to be included for the RECORD, in today's Wall Street Journal:

"Never before has the appropriations process been such a clearinghouse for literally thousands of individual grants and construction projects coveted as favors for voters. Budget negotiators gave their blessing last night to more than 700 "earmarks"—listed on 46 double-spaced pages—in a single account for the Department of Housing and Urban Development. The Environmental Protection Agency budget bulges with about 235 clean-water projects. Hundreds of "member initiatives" totaling nearly \$1 billion are expected to be spread among the departments of Labor, Education and Health and Human Services.

Perhaps the most striking example of earmarks is the so-called economic-development initiative in the HUD budget, for which about \$292 million is spread among an estimated 701 projects. The precise language has been closely guarded by the committee, and the clerks deliberately compiled the list in no particular order to make it more difficult to decipher.

In closing, I urge my colleagues to develop a better standard to curb our habit of directing hard-earned taxpayer dollars to locality-specific special interests so that, in the future, we can better serve the national interest.

Mr. President, I ask that the full text of the attached Wall Street Journal article be printed in the RECORD immediately following the conclusion of my remarks on the Fiscal Year 2001 VAHUD Appropriations bill.

The article follows.

[From Wall Street Journal, Oct. 19, 2000] SPENDING BILL IS FULL OF PROJECTS COVETED AS FAVORS FOR ELECTORATE

(By David Rogers)

WASHINGTON.—As Congress dithers over spending bills, committee clerks are putting

the final touches on what may be the most important political business at hand: an unprecedented number of home-state projects attached to the budget this election year.

Never before has the appropriations process been such a clearinghouse for literally thousands of individual grants and construction projects coveted as favors for voters. Budget negotiators gave their blessing last night to more than 700 "earmarks"—listed on 46 doubled-spaced pages—in a single account for the Department of Housing and Urban Development. The Environmental Protection Agency budget bulges with about 235 clean-water projects. Hundreds of "member initiatives" totaling nearly \$1 billion are expected to be spread among the departments of Labor, Education and Health and Human Services.

Pork-barrel politics are nothing new. The annual \$78 billion agriculture budget bill, which cleared Congress last night, has always been a haven for dozens of research projects favored by lawmakers. But this year's surplus-inspired spending breaks new ground, it permeates the labor, health and education accounts, once considered sacrosanct. Moreover, as the number of items has exploded, both parties are openly steering funds to districts to help win seats in November.

The tone was set in the free-for-all negotiations on a \$58 billion transportation budget. Dozens of highway and bridge projects to tailing more than \$1.9 billion were added. When Republicans insisted on \$102 million to help a hard-pressed Arkansas incumbent, Democrats got an almost equal sum to spread among candidates in tight races in Mississippi, Connecticut, New Jersey, Pennsylvania and Kansas.

Running for Congress from Utah, Republican Derek Smith isn't even a member of the House yet. But thanks to the intervention of House Majority Leader Dick Armey of Texas, he can already lay claim to two budget earmarks worth \$5 million to fund water and lands-related projects in his district

Sen. John McCain, the Arizona maverick and former presidential candidate, took to the Senate floor again yesterday to chastise fellow Republicans. But one of his greatest allies in the House, Rep. Brian Bilbray (R., Calif.), hasn't been shy about claiming credit for Washington money that could help his chances in a tough reelection campaign. "Bilbray Applauds San Diego Funding'" a press release for the congressman said last Thursday, trumpeting millions of dollars in earmarks attached to a housing, veterans and environmental budget bill pending in the House.

"I will condemn it in his district," said Mr. McCain, who is scheduled to campaign for his friend in California next week. "It is one of those gentleman's disagreements," said an aide to Mr. Bilbray.

Perhaps the most striking example of earmarks is the so-called economic-development initiative in the HUD budget, for which about \$292 million is spread among an estimated 701 projects. The precise language has been closely guarded by the committee, and the clerks deliberately compiled the list in no particular order to make it more difficult to decipher.

Most of the grants appear to be less than \$2 million, some as small as \$21,500. Thanks to the New York delegation, Buffalo would lay claim to two grants of \$250,000; one to help renovate a Frank Lloyd Wright-designed home, the other to build a new city boathouse—based on Mr. Wright's blueprints—for the West Side Rowing Club.

Meanwhile, in related action:

The Senate approved the agriculture budget 86-8. The measure provides increased spending for food safety and rural development while relaxing trade sanctions against Cuba. For the first time in decades, commercially financed, direct U.S. shipments of food to Havana would be permitted. Shipments of medical supplies, which are already sold on a modest basis, may also be increased.

Trying to free up a \$14.9 billion foreign-aid bill, Republicans are proposing compromise language on the divisive issue of U.S. assistance to population-planning programs overseas. The proposal would continue current restrictions, favored by antiabortion forces, only through March 1, as a transition to the next administration. The initial reaction from Democrats was skeptical, but if the transition period is shortened—and funding increased—it could yet be the framework for a deal.

Top House Republicans are pressing for big increases in aid to children's hospitals under a fledgling program to help train pediatric medical residents. Last year, spending was \$40 million, but it could grow to \$280 million under the proposal, three times the administration's request.

SPECIAL TREATMENT
[Examples of funds set aside for Members' projects.]

Project/sponsor	Cost
San Diego Storm Drain Diversion Rep. Brian Bilbray (R., Calif.)	\$4,000,000
I-49 and Great River Bridge Study Rep. Jay Dickey (R., Ark.)	102,000,000
Route 7 Brookfield Bypass Rep. James Maloney (D., Conn.) Frank Lloyd Wright Boathouse N.Y. Delegation	25,000,000 250.000

Mr. JEFFORDS. Mr. President, today the Senate will pass the final version of fiscal year 2001 Energy and Water Appropriations bill. Included in the legislation is a provision that requires the Department of Energy to spend not less than \$2 million on the Small Wind Turbine Project. This effort is vitally important to our Nation's continued development of American wind technology for consumer use. It was added as a program at the Department of Energy in 1995, to develop cost-effective, highly reliable Small Wind Turbine systems for both domestic and international markets. In fact, due to the Small Wind Turbine Program, U.S. companies have been able to advance the performance and cost-effectiveness of small wind turbine systems. The participants in the Small Wind Turbine Project are Windlite Corp, a subsidiary of Atlantic Orient Corp, Bergey Windpower Co., and World Power Technology. Through the Small Wind Turbine Project, these three companies are advancing the technology of wind energy for homes, small businesses, rural development and export. To end the effort that these three companies are undertaking at this time would be a giant setback and for this reason the Congress has included funding to continue the project under their guidance.

I worked closely with Senators DOMENICI and REID and Assistant Secretary of Energy Dan Reicher in developing the language in this legislation related to small wind. The language is clear, that the department should spend no less than \$2 million on the Small Wind Turbine Project. We must continue to develop, test and certify the wind turbines being developed under this program to date.

Mr. WELLSTONE. Mr. President, I rise today to offer a few remarks on the fiscal year 2001 VA-HUD Appropriations bill.

First. I would like to commend my colleagues on the Appropriations Committee for doing some excellent work on this bill. Many important housing initiatives—including housing assistance for the elderly and disabled, the HOME Investment Partnership Program, the Community Development Block Grant, Housing for People With AIDS, and the Lead-Based Paint Hazard Reduction Program-will all receive funding increases under this bill in fiscal year 2001. Furthermore, an additional 79,000 Section 8 vouchers will be funded under this bill. These are all critical programs, program that help low-income working families find safe and affordable housing, and the authors of this bill should be commended for recognizing the need to continue to fund these programs at the appropriate levels.

Having said this, though, I would also like to take a few minutes to express my disappointment that this bill does not include funding for a housing production incentives program, despite the fact that the need to produce more affordable housing in this country is critical. Unfortunately, a Senate provision which would have used \$1 billion in excess Section 8 funds to pay for the production and preservation of affordable housing failed to make it into the final conference report. Yet many of the programs that are funded in this bill, including Section 8 housing assistance, only work when affordable housing units are available. It does low-income working families no good whatsoever to be given a rent voucher when they can't find an apartment on which to spend it.

As it is written, this bill fails to address one of the most important problems underlying the current affordable housing crisis: the rapid erosion of this country's affordable housing stock. Every year, in fact, every day, we see the demolition of old affordable housing units without seeing the creation of an equivalent number of new affordable housing units. And while there can be no question that some of our existing affordable housing units should be demolished, we have yet to meet our responsibility to replace the old units that are lost with new, better, affordable units. We must do a better job of this, for our current policy simply results in too many displaced families, families who are forced to sometimes double-up or even become homeless in worst-case scenarios, overburdening otherwise already fragile communities.

The National Low Income Housing Coalition reports that right now there are a record 5.4 million households, 12.5 million people, that pay more than one half of their income in rent or live in seriously substandard housing. Who are these people? One and a half million are elderly, 4.3 million are children, and between 1.1 and 1.4 million are adults with disabilities. Waiting lists for housing assistance are longer than ever, and there are still far too many people who simply lack shelter altogether—an estimated 600,000 people are homeless in this country on any given night.

The fact is that incomes for our poorest citizens are simply not keeping pace with the increase in housing costs. A July 1998 study by the Family Housing Fund found that in Minneapolis-St. Paul rents increased 13 percent from 1974 to 1993 while real incomes declined by 8 percent. They found that there were 68.900 renters with incomes below \$10,000 in the Twin-Cities and only 31,200 housing units with rents affordable for these families. That means that there were more than two families for every affordable unit available, and the situation has only gotten worse since then, as the vacancy rate has plummeted to below two percent.

Housing is usually considered to be affordable if it costs no more than 30 percent of a household's income. In the Twin Cities area, however, 185,000 households with annual incomes below \$30,000 pay more than this amount for their housing. Knowing this, it isn't hard to understand why the number of families entering emergency shelters and using emergency food pantries is on the rise.

This situation certainly isn't unique to Minneapolis-St. Paul. Out of Reach 2000, a recent publication by the National Low Income Housing Coalition, finds that the cost of housing is exceeding the reach of low-income families across the country. This study estimates that the national "housing wage"—a measure that represents what a full-time worker must earn to afford fair market rent, paying no more than 30 percent of their income for a 2 bedroom apartment is \$12.47 an hour, more than twice the minimum wage. The report notes that in no county, metro area, or state is the minimum wage as high as the corresponding housing wage for a 1, 2, or 3 bedroom home at the fair market rent: in more than half of metropolitan areas, the housing wage is at least twice the federal minimum wage.

Such high rents are, of course, fueled at least in part by the shortage of housing. Demand for housing exceeds the supply, so rents spiral upwards, far beyond the reach of the poor and often well-beyond the reach of the middle class who find themselves priced out of the very communities in which they grew up. The shortage of affordable

housing is so drastic that in Minneapolis-St. Paul, like many other cities, even those families fortunate enough to receive housing vouchers cannot find rental units. Landlords are becoming increasingly selective given the demand for housing and are requiring three months security deposit, hefty application fees, and credit checks that price the poor and young new renters out of the market.

In my own State of Minnesota, a family must earn \$11.56 an hour, 40 hours a week, 52 weeks out of the year to afford the fair market rent for a two-bedroom apartment, more than double the minimum wage. That's more than double the minimum wage. This means that a person earning the minimum wage in Minnesota would need to work 90 hours a week in order to afford a two bedroom apartment at the fair market rent. Here's the real secret of why so many single parents are in poverty, because it has become impossible for one parent, one worker, to support a family on the bottom rung of the economic ladder.

So what happens to those families who are unable to earn \$11.56 an hour? Families with a single worker at minimum wage who cannot work 90 hours? The answer is no secret, and is unfortunately too common in all parts of our country. These families quite simply can't afford adequate housing. Instead, families crowd into smaller units, a one bedroom, an efficiency. Sometimes these families double up, two or more families in a home, with multiple generations crowded under one roof. When the stress of multiple families becomes unbearable, they are left with no other option than homeless shelters. Families rent seriously substandard housing, exposing their children to lead poisoning and asthma, in neighborhoods where they don't feel safe allowing their children to play outdoors. They rent housing with leaky roofs, bad plumbing, rodents, roaches, and crumbling walls.

And even for such substandard housing, many families find themselves forced to pay more than the recommended 30 percent of their income in rent, sometimes spending more than half of their income on housing costs. Families in this situation must then "cut corners" in other ways, sometimes doing without what others might consider necessities. Not luxuries like cable television, but necessities: gas, heat, electricity, food, or medical care. This is simply unacceptable. In an era of such tremendous economic prosperity, no family should have to choose between food and shelter, or heat and medical care.

In a recent study of homelessness in Minneapolis-St. Paul, the Family Housing Fund reported that more and more children are experiencing homelessness. On one night in 1987, 244 children in the Twin Cities were in a shelter or other temporary housing. By 1999, 1,770 children were housed in shelter or temporary housing. Let me repeat that: 1,770 children in the Minneapolis-St. Paul area on one night alone spent the night in a homeless shelter or temporary housing. That's seven times as many homeless children in 1999 than in 1987. And families are spending longer periods of time homeless. If they had a family crisis, if they lost their housing due to an eviction, if they have poor credit histories, if they can't save up enough for a two or three month security deposit, they will have longer stretches, longer periods of time in emergency shelters before they transition into homes.

Let me provide a stark and disturbing example of the desperate need for affordable housing in this country: for six days in February of this year, the Minneapolis Public Housing Authority distributed applications for families interested in public housing. They distributed applications for only six days, and then stopped entirely. This was the first time since 1996 applications were accepted for public housing and it is likely to be the last time for several years to come. Mr. President, 6,000 families sought applications for public housing in those six days -an average of 1,000 families each day requesting public housing in one metropolitan area. This is not free housing. Residents would be required to pay one-third of their income in rent. This is not luxury housing. Many families seem to look upon public housing with disdain, though I know those communities are rich with the talents and contributions of their tenants. This is not even immediate housing. Many of those families will wait years to get into public housing.

Surely this should tell us there is a huge housing crisis. One thousand families a day sought to pay one-third of their income in rent to live in public housing in one metropolitan area. Surely, if this tells us anything, it tells us we must do more.

Mr. President, I know this Nation is prosperous. I know we can afford to solve this problem. We can afford to take this step today. We must make a commitment to address the shortage of affordable housing. Although we were not able to include funding for housing production initiatives in this appropriations bill, it is my hope that each of my colleagues will join me next year in assuring that this critical need is met.

Mrs. BOXER. Mr. President, the Senate considered the VA-HUD conference report a week ago today. During consideration of the bill, the Senate extensively debated report language included in the conference report that dealt with the cleanup of river and ocean sediment contaminated with DDT, PCBs, metals and other toxic chemicals.

Upon passing the conference report today, it is critically important to reiterate that it was understood by the managers of the bill in the House and the Senate that our resolution of the contaminated sediments issue in the VA-HUD conference report on October 12, 2000 was final, and that modifications to the report language or bill language relating to this issue would not be permitted this legislative session on any legislative vehicle.

It is also important to reiterate and to underscore the clarifications the Senate made to that report language.

One of the most important clarifications was a statement of the managers that the report language would not apply presently or prospectively to any site in California.

Another important clarification included a colloquy between Senators BOND, MIKULSKI and LEVIN stating that EPA had full discretion to define the operative terms of the report language.

Yet another critical clarification was a colloquy between Senators Bond, Mikulski and Lautenberg that stated that the National Academy of Sciences study referred to in the report language was not to be afforded any type of extraordinary or special standing in the Environmental Protection Agency's established process for selecting remedies under Superfund.

Finally, a colloquy between Senators BOND and L. CHAFEE clarified that report language would not affect the cleanup of the Centredale Manor Restoration Project in Rhode Island.

Make no mistake about it, Mr. President, I would have preferred that the proponents of this report language not be given even one bite at the apple in an appropriations bill on the important issue of cleaning up heavily contaminated river and ocean waters. I was concerned that the report language they advanced would slow cleanups in California and around the nation.

I am satisfied that our debate on the report language will ensure that it does not have that effect.

Under no circumstances, however, should the proponents of this report language be permitted a second bite at the apple to undo the work of this chamber and the commitments of the House and Senate managers not to revisit the issue of contaminated sediments—in bill or report language—in this legislative session on any legislative vehicle.

Mr. REID. Mr. President, I truly enjoy working with the chairman and his staff in putting together the Energy and Water appropriations bill each year

The third time's the charm.

This time, I think we really have completed work on the FY 2001 Energy and Water Appropriations bill.

I am a little surprised to be talking about final passage of the Energy and Water Appropriations bill in late October. Ours is usually one of the earliest to be passed and signed by the President.

Ours is also a bill that is very rarely vetoed. However, this has been an unusual year.

We have modified our bill to meet the Administration's needs on the Missouri River and I am confident that the President will now sign this bill promptly.

For the information of Senators: the Energy and Water portion of this Conference Report has not changed since all of our colleagues joined us in voting on this matter last week.

Our counterparts in the House insisted upon having a Conference, but no changes have been made since we completed work on the package that came before the Senate last week. In fact, it has not changed much at all since it originally passed both Houses earlier this month.

For the third, and, I hope, final time this year, I encourage all of my colleagues to support final passage of this Conference Report which includes both the final energy and Water and VAHUD Conference Reports.

This is a very important appropriations bill, one where we are asked to pay for a broad array of programs critical to our nation's future. We fund

the guardians of our Nation's nuclear weapons stockpile our nation's flood control and navigation systems, infrastructure that contributes to human safety and economic growth

Long-term research, development, and deployment of solar and renewable technologies, programs critical to our nation's long-term energy security and environmental future and

Science programs that are unlocking the human genome and other breakthroughs that help to keep the U.S. at the scientific forefront of the world.

By and large I think this is a fine Conference Report.

The Conference Report we lay before the Senate totals just over \$23.5 billion. Of that, \$13.7 billion is set aside for defense activities and just under \$9.9 billion will be spent on nondefense activities at the Department of Energy, Army Corps of Engineers, Bureau of Reclamation, and several other independent agencies.

It addresses the needs of our Nation's nuclear stockpile and the crumbling infrastructure at the weapons labs and plants.

Enhanced funding in the water accounts allows us to move forward on a handful of important new construction starts while maintaining our emphasis on clearing out the \$40 billion backlog in work already authorized and ready

We have also been able to provide much needed additional funding to both the Science and Solar and Renewable accounts at DOE.

I am particularly pleased to report that funding for the solar and renewable programs is \$60 million higher than last year. This year's numbers are the highest these programs have seen in quite some time.

At a time when our Nation is once again questioning our utter and singular dependence on fossil fuels, I am delighted that we are going to be able to move forward aggressively on renewable programs.

Obviously, I have some disappointments about things we were not able to do this year.

However, as all of us know, an appropriations bill is a one year funding bill. We are never able to do all that we want and there is always next year.

The twin notions of one-year funding and re-visiting issues next year brings me to my final point this evening.

Today we are providing \$199 million for the National Ignition Facility at the Lawrence Livermore National Lab in California. This is about \$15 million below the oft-revised DOE request for this project. They are lucky to get that much.

The final funding figure represents a compromise between the Administration and Congressman PACKARD, both supportive of NIF, and Senator DOMENICI and I who both would have preferred a substantially smaller dollar amount.

For reasons I have discussed at length in other venues, I believe the Department and laboratory sold the Congress a bill of goods on NIF, and I do not feel that they can be trusted to get it right now.

Chairman PACKARD feels strongly that the lab and Department have gotten their House in order and should be given the opportunity to proceed for another year in order to prove it.

I have great respect for the chairman of the conference. We both came to the House of Representatives together in 1982 and I consider him a friend. I do, however, disagree with him on this matter.

His work on this subcommittee has been excellent and I will miss both his good nature and his fine judgement after he retires this Fall.

He has prevailed upon Chairman DOMENICI and me to allow NIF to go forward for one year, albeit with substantial reporting and milestone requirements.

It is my hope and expectation that DOE will go out of their way to find credible, external reviewers to add some element of objectivity to the new project reviews we are imposing on the Department.

I am going to watch this program like a hawk for the next year.

If the Department and lab fall a day behind schedule or go a dollar over budget, I will not hesitate to zero NIF right out of the Senate bill next year and I suspect that Senator DOMENICI will help me do it.

We have given them all but a couple of percent of what the Administration

requested for this project. Now is the time for performance, not excuses.

After nearly a year of listening to DOE and Livermore discuss the problems with this project, I am still not sure what bothers me more: The notion that DOE woke up one morning and discovered that their estimate was off by a billion dollars; or that they simply expected us to give them the money without much of a fuss.

A billion dollars is a tremendous amount of money.

I am done sitting by while DOE and the three weapons labs continue to sweet talk us into beginning projects and then revealing the real price tag to us later.

Livermore is on the hot seat now, deservedly so, but this is a complex-wide problem.

It is going to stop.

The chairman and I have worked together on this bill and so many other issues for many years. Despite the hard work and late nights that completing this bill requires, it is always a pleasure to work with him and his staff to get the job done.

Both of us had staff changes at the clerk position this year and we just kept humming along. The bill has worked as well as it ever has.

I thank the entire staff for all their hard work. Clay Sell, David Gwaltney, and LaShawnda Smith of Senator DOMENICI's staff have worked very well with Drew Willison, Roger Cockrell, and Liz Blevins of my staff.

Every year the associate subcommittee staff provides valuable advice, input, and recommendations to our staff and I am grateful for their help, too.

The PRESIDING OFFICER. The Senator's time has expired.

The Senator from Nevada.

Mr. REID. Mr. President, under the unanimous consent agreement before the Senate, it is my understanding I have 10 minutes.

The PRESIDING OFFICER. The Senator is correct.

Mr. REID. Mr. President, as I did at the conference committee we had last night, I express my appreciation to Senator MIKULSKI for the great leadership she has shown in working this bill through this very difficult process.

As she has indicated, it takes two to do that. It is important we recognize that there are matters, when we are able to work together, where both Democrats and Republicans can work toward a common goal. That goal has been, for many months now, getting this very difficult VA-HUD bill to a point where we are now going to approve it. The Senator from Missouri is also to be commended for working so closely with the Senator from Maryland in coming up with this great piece of legislation. They are both a couple of experts in this field, not only experts in the field that covers the legislative

matters before us but experts in moving the matters through the legislative process. Both sides of the aisle recognize their expertise.

After this conference report is approved, we will next move to a vote on a continuing resolution. What is a continuing resolution? It is when we have failed here to do our work to extend the operation of Government so it doesn't shut down.

So we are going to have another continuing resolution approved this afternoon. I am disappointed that we are now to a point where this is the fourth continuing resolution, I believe, that we will approve. This is for 6 days—until next Wednesday. We just completed work on a long continuing resolution. We basically completed very little during that period of time.

The new fiscal year is now nearly 3 weeks old, and Congress has still failed to have signed into law 9 of the 13 appropriations bills.

To compensate for the failure to do our work, we pass these continuing resolutions that I have talked about to stop the Government from shutting down. We have been through a Government shutdown. We know it can happen. We will now consider in a few minutes another continuing resolution. That is too bad. I find it disturbing that the continuing resolution didn't go for 24 hours at a time.

I have not been in the Congress as long as some people, but I have been here a long time. I can remember when a congressional session was winding down and we worked day and night. We worked Mondays. We worked Fridays, Saturdays, and on occasion we worked Sundays to complete our work. No, not here. We have had leisure time. We have not had any hard lifting. We just took a 5-day break.

I understand the importance of the upcoming elections as well as anyone else. The elections represent a crucial choice regarding the future of this great Republic. However, no election is more important than the election that takes place here in this Congress every day when we, in effect, vote on legislation. This election represents something just as important. That is why we were sent here—to do the work of the people. We are not doing it. The majority isn't allowing us to do it.

We will never finish these appropriations bills until it is clear to everyone that we must do our work and do it every day of the week. We have been used to 3-day weeks around here where we worked Tuesdays starting about 2:30, and Wednesday and Thursday. But we finished early on Thursday. I have never seen a congressional session such as this. We don't work on Mondays. We don't work on Fridays. And now we have a new deal: We are working 2-day weeks. We are now going to a 2-day week schedule. Of course, on the first day we will work late. So it will only

be about a day and a half. I don't think when we have work to do that we should be working 2-day weeks.

I bet the hard-working American people who work for these massive corporations and small businesses would like a 2-day workweek. That is what we are having here.

It is no secret that this exceptionally slow work schedule is responsible for the fact that Congress has completed only a few appropriations bills. We passed one in July, one in August, none in September, and two so far this month. I think we should pick up the pace a little. I think the American people would agree.

Until we finish the 106th Congress, I think every continuing resolution we pass in the future should be for 24 hours. I am not going to vote for any more continuing resolutions that are for more than 24 hours. I don't know if I am going to vote for this continuing resolution. I think it is a shame that we are not going to be here literally doing work on this floor until probably next Tuesday with probably no votes until next Wednesday.

Not everyone would like this approach—because we have more certainty with a longer continuing resolution. I hope the President will support our efforts to have a 24-hour continuing resolution. I want to give everyone a hint here. The President just told us that is what he is going to do—that he will no longer approve a multiday continuing resolution—24 hours only.

When we get here Wednesday and that expires, remember that we are not going to get one for more than 24 hours. We have to complete our work. It is important that we do that.

Let's set aside for the moment the disappointing record on the appropriations bills and focus instead on the laundry list of missed opportunities that litter Capitol Hill this fall.

The lack of action on the appropriations bills is rivaled only by the chronic inaction by this Republican Congress on the many other important issues that face our country. While the Republicans blame the Democrats for lack of action, how they can do that with a straight face is a little hard for me to comprehend. The problem is the Republican majority doesn't seem to work with each other.

We all recognize that one of the highest priorities for America at the beginning of this century is education. We have spent in this Congress parts of 6 days working on education. That is it. It couldn't be a very high priority. We don't set the agenda here. I wish we could. But instead of parts of 6 days, we would spend weeks working on education. For the first time in 35 years we haven't approved the Elementary and Secondary Education Act. That is too bad.

Another issue before the Congress is that we have failed to address any meaningful way raising the minimum wage. Sixty percent of the people who draw minimum wage are women. For many of these women it is the only money they earn for their families.

I think it is important that women who get only 74 percent of what men make for the same job should at least be recognized by getting an increase in the minimum wage.

This long list of missed opportunities which will be compounded by a 2-day workweek that we are now going to have demonstrates the irony that the majority is more interested in plowing down the campaign trail than helping plow down the field to help us pass some legislation that helps working Americans.

What legislation am I talking about? Am I making this up? The long list of missed opportunities of this Republican-controlled Congress is:

The minimum wage we talked about; The failure to enact anything dealing with health care; Prescription drug benefits, no; Prescription bill of rights, no; Helping make college education affordable, no; Doing something about education and lower class sizes, no; Having money for school construction, no

In the State of Nevada—the most rapidly growing State in the Nation—we have to build a school every month in Las Vegas to keep up with the growth. We need some help.

The average school in America is over 40 years old. We have crumbling schools. We must build some new schools. In one school in Ohio, the ceiling collapsed and kids were hurt.

Then there is the failure to pass a meaningful targeted tax cut for middle-class working Americans.

It is important.

One issue that we should talk about a little bit is campaign finance reform. We are awash in money. People are out raising money. Why? Because one has to be competitive. JOHN MCCAIN has been very courageous. He is one of the few Republicans to join with every Democrat over here to do something about campaign finance reform.

Get rid of corporate money; let's at least do that.

Two years ago, in the small State of Nevada, over \$20 million was spent on the election for the Senate. Neither one of us spent more money. We spent the same amount of money. Can you imagine that in a small State of Nevada with over \$10 million each? It is shameful. We have to change it. But, no, we are not able to even vote on it.

This continuing resolution is going to be coming up, and I am not happy with it. I am certainly supportive of making sure that we complete our work. But we don't need to take off from Thursday until next Wednesday. That is, in effect, what we are doing. That is too bad.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. BOND. Mr. President, I believe there is some time left for Senator STEVENS under this agreement. We are interested in yielding back time, to the extent that the other side will yield back time.

Mr. President, there are lots of statements that could be made to answer the political charges of my colleague from Nevada. Let's just say we disagree with them. We will debate those later.

We have been delayed in this process because we had to file cloture because of filibusters this summer on the meas-

I ask the distinguished chairman of the committee if he would like time. I would be happy to yield the floor.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. STEVENS. Has my time expired? Mr. BOND. On the continuing resolution?

Mr. DOMENICI. He had 5 minutes.

The PRESIDING OFFICER. On the pending conference report.

Mr. STEVENS. Whatever it is, I am happy to yield back my time so we can vote.

Mr. REID. Senator BYRD has time. He is not here. I am confident that we can yield back his time.

MAKING CONTINUING APPROPRIATIONS FOR THE FISCAL YEAR 2001

The PRESIDING OFFICER. If the Senator wishes, he may use his time on the continuing resolution.

Mr. REID. I reserve Senator BYRD's

It is my understanding now the time goes to the CR, and Senator DORGAN has 10 minutes; is that right?

The PRESIDING OFFICER. The Senator is correct.

Ms. MIKULSKI. Are we going to vote on VA-HUD now or have stacked votes? Mr. REID. It is my understanding we

are to use the time on the CR and on the VA-HUD conference report and have two back-to-back votes.

Mr. BOND. That is our understanding. So the sooner we use up or vield back the time on the continuing resolution, the sooner we can vote, and perhaps colleagues who wish to use time can talk quickly.

Ms. MIKULSKI. Are we now done with VA-HUD?

Mr. BOND. It is my understanding the time for VA-HUD has expired. Some of the time has been used off the CR. I believe there is a willingness to yield back on our side.

Mr. REID. I used time I had reserved for me under the continuing resolution. Senator Byrd has 5 minutes. He is not here. I am sure he would be willing to yield that back. The only time remaining, as I understand it, is time on the CR. Is that right, Mr. President?

The PRESIDING OFFICER. That is correct.

Mr. REID. Who has time reserved under the CR?

The PRESIDING OFFICER. Senator

utes each.

Mr. STEVENS. I have yielded back my time, if I had any.

Mr. DORGAN. Mr. President, it is my understanding Senator STEVENS yielded back his time on the continuing resolution?

Mr. STEVENS. Yes.

Mr. DORGAN. Mr. President, I may not take all of the 10 minutes, but I want to speak on the continuing resolution for a moment.

It is now Thursday, October 19. We have a continuing resolution, which in English means continuing the funding for the Government for appropriations bills that have not yet been completed, until next Wednesday. This is one more in a series of continuing resolutions required by this Congress because we do not have the appropriations bills completed and sent to the President to be signed into law.

Now we have to do this. I understand that. We have to pass a continuing resolution. But this is not the way for the Senate to do its business. I came from a meeting we had with the President. The President indicated this is the last continuing resolution of this sort that he will sign. He indicated the next continuing resolution will be for 24 hours, no more than 24 hours. That is what he told a large group of people a bit ago. This continuing resolution takes us until next Wednesday, after which, apparently, continuing resolutions will be for no more than-

Mr. STEVENS. Will the Senator yield?

Mr. DORGAN. Of course.

Mr. STEVENS. Mr. President, I ask the Senator, if the President said we can only have 24 hours, does that mean within 24 hours we will have the full scope of his demands under the Appropriations Committee?

We have not seen the full scope of the President's demands, and until we do we will continue to have continuing resolutions.

Mr. DORGAN. Mr. President, let the record show there is a search for scope around here.

The President's number is 456-1414. Certainly, the Senator can consult with the President on that issue.

It is now October 19. We are keeping the Senate in session and preventing the Senate from doing business in many ways. We have something pending. As soon as we finish these votes, do you know what is pending on the floor of the Senate? The motion to proceed to S. 2557. Do you know when the motion to proceed was filed in the Senate? A month ago; a motion to proceed to an energy bill. Does anybody think there was ever an intent to proceed to a bill? No.

Why is this motion to proceed pending? To block every other amendment that would be offered by anybody else DORGAN has 10 minutes and Senator in the Senate. So the purpose is, keep

STEVENS and Senator BYRD have 5 min- us here for the desires of those who need to do the appropriations bills but don't let anybody do anything else with respect to other issues.

That is the purpose of this block motion. It has been in place a month. Some of us chafe a little by being told, you stay in session for our purposes; that is, the purposes of those who control the agenda. But in terms of what you are here for, in terms of your desires and your passions on a range of issues, forget it because we will block it with this motion to proceed.

Now, this continuing resolution takes us until next Wednesday. We apparently will have at least two votes stacked, two sequential votes, following this discussion. Then I guess the question is—this is Thursday what happens tomorrow, on Friday or Saturday or Sunday, Monday, Tuesday, or Wednesday? Who is doing what? When are we going to get these issues resolved?

I think the import of the question from my colleague was that this is somebody else's fault. Maybe so, Maybe someone hasn't provided a list of scope here or there. All I can say is it is now October 19. This is, I think, the third CR, perhaps the fourth, and more will be required, I suspect. But if we are going to be in session, if we are going to be in session for some while, some days, then I ask the question, why aren't we working on other issues? Why should we be prevented—those on this side of the aisle-from offering amendments on a range of issues?

I think it is not the way to run this Senate, to put up a blocking motion. I believe it was put up September 22. It is now October 19. The import of that blocking motion to proceed was to say we are only going to allow the Senate to work on the following issues, and we will do it by blocking all other amendments to be offered.

I don't know what next week will bring. I will say the President indicated he is not going to sign long-term continuing resolutions. I don't know how you could. A week from now, next Wednesday, is October 25. I don't know how much further you can take this session of Congress.

At some point we have to do the appropriations bills and resolve the funding issues. I don't think anybody has had an easy job doing this. The difficulty of this job started with the passage of the budget. That budget never added up. It was not realistic. We all knew we would have to spend more money than called for in the budgets on discretionary spending.

Mr. STEVENS. Will the Senator yield?

Mr. DORGAN. Of course I yield.

Mr. STEVENS. Yesterday, this Senator completed 5 days of negotiations and finally got an agreement with the House and with everyone on how to lift the caps of the 1997 act. That did not

take place because the Senator's side of the aisle objected at the last minute. We don't have a provision in this bill lifting the 1997 caps; we can't go forward until we do.

We don't have the ability to go forward yet this afternoon and tomorrow and the next day. We have to lift those caps.

It is enough to take abuse once in a while, but this Senator doesn't take it when it is undeserved. To accuse this side of the aisle for delay now is absolutely wrong. The President of the United States just came here and demanded 100 percent of what he asked for, but we don't know what it is.

Mr. DORGAN. Mr. President, let me reclaim my time. If the Senator from Alaska heard anything that represented "abuse," that was not my intent. If there were discussions yesterday about lifting the cap, yesterday was October 18, 18 days past the October 1st deadline.

I happen to think the chairman of the Appropriations Committee is someone for whom I have had great respect. I don't think he has caused these problems. But I do think if you go back to the spring of this year with respect to the budget that was passed, there was not enough money in it, and we knew it then. There wasn't enough money in it for domestic discretionary programs, and we knew we would come to the end of the process with gridlock. Now we have this gridlock, and then we have these CRs that say: By the way, we will keep you in session until Wednesday but only on our issue. If you have issues—prescription drugs, minimum wage, the Patients' Bill of Rights-you ought not offer them, and we will block you. So they block it for a month.

I say to my colleagues, if you were in this circumstance, I don't think you would be as quiet as we have been. The fact is, we have been blocked for a month from offering amendments dealing with the central issues that we came to Congress to deal with and resolve and deal with. People talk about not leaving people behind. There are a whole lot of folks left behind with the agenda this Congress hasn't dealt with.

I am going to relinquish the floor, and we will vote on a CR. I assume this is not the last CR. I assume we will have more. I don't think any of us ought to be white eyed with surprise when we find ourselves in October trying to get out of a budget that was passed this spring. Incidentally, that is a budget I did not vote for because, in my judgment, it did not add up in the first place.

I yield the floor.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. I ask unanimous consent I might be permitted to speak for 5 minutes since all the time has expired.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. SPECTER. I think the arguments by the Senator from North Dakota require some response. If I could have the attention of the Senator from North Dakota? I know the number of the White House. I called it last night in an effort to try to resolve the outstanding differences on the appropriations bill for the Departments of Labor, Health and Human Services, and Education, the subcommittee of appropriations which I chair.

When the Senator from North Dakota talks about insufficient money for discretionary spending, that is not necessarily true. In our subcommittee, on those three Departments we met the President's figure, \$106.2 billion. We have structured our priorities somewhat differently. He wanted \$2.7 billion for school construction and for more teachers. We gave that to him. But we added a very appropriate proviso, and that is, if the local boards decide they have sufficient of those items, they can use it for something else.

The grave difficulty here has been, since the Government was closed, there has been a radical shift in power between the Congress and the President. Now the President expects everything on the threat of a veto. If he is going to veto something, that means the Congress has to cave to him and knuckle to him. We are proceeding in a nonconstitutional way. We have the executive branch in our legislative discussions before we arrive at our bills, and then we have a situation where the President has to have his way. There is no such thing as compromise. We are discussing language-

Mr. DORGAN. Mr. President, will the Senator from Pennsylvania yield?

Mr. SPECTER. No.

We are discussing the issue of school-teachers. Last year, in the middle of the night, there was a compromise which went around this Senator, the chairman of the subcommittee, and I am not prepared to take that unacceptable language. But it is a high-handed demand. We are not going to retreat from last year's language on a program the President thinks is important.

We need to go back on track, and that is to follow the Constitution and submit our bills to the President. The Congress has the primary authority and responsibility for assessing priorities. We have the purse strings, it says in the Constitution. But that is not the way it is functioning today.

When the President comes to Capitol Hill and issues a dictatorial statement that he is not going to sign continuing resolutions for longer than a day, fine, let him stay in town. It will be quite a change for the President's schedule if he stays in town to sign these continuing resolutions day in and day out. It is time the Congress stopped being blamed for everything.

If the American people understood where we stand on my bill, that the President got the full sum he asked for, there is a difference in priorities—I ask unanimous consent for 2 more minutes, Mr. President.

Mr. DORGAN. Reserving the right to object—and I shall not object—I would like to observe, I have yielded to requests on that side and I hope the Senator will yield at the end of his time.

Mr. SPECTER. I will be glad to yield at the end of my time, limited as it is. The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SPECTER. If the American people knew we met the President's figure of \$106.2 billion but we think the National Institutes of Health ought to have a priority—we have raised them \$1.7 billion more than the President, we have given more money to special education—I think if the American people knew that, they would say those are more important priorities.

If the American people knew that we want to retain local control so school boards can spend the money the way they see fit on the local level if they do not think the President's priorities are preferable, that they prefer local control to a Washington, DC, bureaucratic straitjacket, then we could have that decision.

But this Senator is not at all concerned about 1-day continuing resolutions. I am prepared to stay here a lot longer than is the President.

I yield for a question.

Mr. DORGAN. I thank the Senator for yielding for a brief question. If the Senator's contention is there was enough money in the budget this spring for domestic discretionary, why, then, are people on his side discussing the need to increase the budget caps, the spending caps?

Mr. STEVENS. If I may answer that, with regard to the bill on which we are about ready to vote, I, as chairman, delegated some of the 302(b) allowance to Health and Human Services to VAHUD and to the other bill, energy and water. It is because of the limits that were set in the 1997 act, not just the budget resolution. We have not lifted them to the point to have enough money to pass this bill.

Mr. BOND. Mr. President, might I ask if everybody will yield back the time so we can get on with the votes?
Mr. DORGAN. Mr. President, I make

Mr. DORGAN. Mr. President, I make a point of order a quorum is not present.

Mr. BOND. Mr. President, there are other pressing matters. It is an interesting discussion that might go on after the vote.

Mr. DOMENICI. Regular order.

The PRESIDING OFFICER. Time has expired.

The Senator from Nevada.

Mr. REID. Mr. President, it is my understanding now we are going to vote on VA-HUD. After that, because of one of the senior Members, and others, we are going to have to wait until the papers get here before we vote on the CR.

I understand they should be here momentarily. I am sure by the time the vote is closed they will be here, so I hope we can go to the vote now on VAHUD.

Mr. STEVENS. Mr. President, parliamentary inquiry: Isn't there an order to vote back to back on these bills?

The PRESIDING OFFICER. There is an understanding that will occur. That will be the case.

Mr. STEVENS. Is it the order, the unanimous consent agreement?

The PRESIDING OFFICER. Time has expired on both measures, and votes will occur on both measures back to back.

Mr. STEVENS. Let's run the first one here.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

VOTE ON H.R. 4635 CONFERENCE REPORT

Mr. BOND. Mr. President, have the yeas and nays been ordered on the VA-HUD conference report?

The PRESIDING OFFICER. They have not.

Mr. BOND. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to the conference report. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. NICKLES. I announce that the Senator from Minnesota (Mr. GRAMS), the Senator from North Carolina (Mr. HELMS), and the Senator from Arizona (Mr. McCAIN) are necessarily absent.

Mr. REID. I announce that the Senator from California (Mrs. FEINSTEIN), the Senator from Hawaii (Mr. INOUYE), the Senator from Massachusetts (Mr. Kerry), and the Senator from Connecticut (Mr. Lieberman) are necessarily absent.

The PRESIDING OFFICER (Mr. INHOFE). Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 85, nays 8, as follows:

[Rollcall Vote No. 278 Leg.]

The conference report was agreed to. Mr. BOND. Mr. President, I move to reconsider the vote.

Mr. MOYNIHAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The majority leader.

Mr. LOTT. Mr. President, I thank the chairman of the committee and the ranking member, Senator Mikulski, for the work they have done on this bill. It has been a long process, and they both have done excellent work. We appreciate their leadership.

UNANIMOUS CONSENT REQUEST— H.R. 2415 CONFERENCE REPORT

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate now proceed to the conference report containing the bankruptcy bill, H.R. 2415, and the conference report be considered as having been read.

The PRESIDING OFFICER. Is there objection?

Mr. WELLSTONE. I object.

The PRESIDING OFFICER. Objection is heard.

WITHDRAWAL OF MOTION TO PROCEED TO S. 2557

Mr. LOTT. I now withdraw my motion to proceed to S. 2557 regarding America's dependency on foreign oil.

The PRESIDING OFFICER. The Senator has that right.

BANKRUPTCY REFORM ACT OF 2000—CONFERENCE REPORT

MOTION TO PROCEED

Mr. LOTT. Mr. President, I move to proceed to the conference report containing the bankruptcy reform bill, H.R. 2415, and I ask for the yeas and navs

The PRESIDING OFFICER. Is there a sufficient second? There appears to be a sufficient second.

The question is on agreeing to the motion. The clerk will call the roll.

The legislative clerk called the roll.

Mr. NICKLES. I announce that the Senator from Montana (Mr. Burns), the Senator from Idaho (Mr. Crapo), the Senator from Minnesota (Mr. Grams), the Senator from North Carolina (Mr. Helms), and the Senator from Arizona (Mr. McCain) are necessarily absent.

Mr. REID. I announce that the Senator from California (Mrs. Feinstein), the Senator from Hawaii (Mr. Inouye), the Senator from Massachusetts (Mr. Kerry), the Senator from Connecticut (Mr. Lieberman), and the Senator from Washington (Mrs. Murray) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 89, nays 0, as follows:

Grams	Lieberman	

The motion was agreed to.

BANKRUPTCY REFORM ACT OF 2000—CONFERENCE REPORT

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Committee of Conference on the disagreeing votes of the two Houses on the amendment of the Senate on the bill H.R. 2415, an Act to enhance security of United States missions and personnel overseas, to authorize appropriations for the Department of State for fiscal year 2000, and for other purposes, having met, have agreed that the House recede from its disagreement to the amendment of the Senate, and agree to the

same with an amendment, and the Senate agree to the same, signed by a majority of the conferees on the part of both Houses.

The PRESIDING OFFICER. The Senate will proceed to the consideration of the conference report.

(The report was printed in the House proceedings of the RECORD of October 11, 2000.)

NATIONAL ENERGY SECURITY ACT OF 2000—MOTION TO PROCEED

The PRESIDING OFFICER. The majority leader.

Mr. LOTT. I now move to proceed to S. 2557, regarding America's dependence on oil.

The PRESIDING OFFICER. The motion is debatable.

UNANIMOUS CONSENT AGREEMENT—H.J. RES. 114

Mr. LOTT. I ask unanimous consent when the Senate receives from the House the continuing resolution, the resolution be immediately considered, advanced to third reading and passed, and the motion to reconsider be laid upon the table, all without intervening action, motion, or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. LOTT. Mr. President, for the information of all Senators, then, the Senate will have conducted its last vote for the day. We will adjourn shortly, although I understand there is one bill that is going to be taken up with some brief debate, and also there will be some debate on the bankruptcy issue. The Senate will not be in session on Friday, but the appropriations negotiators and others who are negotiating some policy decisions will be meeting tomorrow and throughout the weekend, if necessary.

The Senate will be in session on Monday, and I expect that there will be a period for morning business. Unless some procedural step is necessary regarding the bankruptcy bill, I do not expect any further announcements with regard to the schedule.

The Senate will next be in session after that on Tuesday. Therefore, votes could occur on Tuesday in an effort to wrap up the session of Congress. We do have four appropriations bills that need to be completed, and, one way or another, we also are looking at a tax package and, of course, bankruptcy, with a vote on cloture if necessary.

Later on, either tomorrow or Monday, we will notify Members jointly as to exactly when votes could be expected, but it will depend on when agreements are reached, when the conference reports are filed, and when the House acts because I think in each of these four instances the House would

have to act first. We will move on the bankruptcy, depending on what is happening on these appropriations bills and the tax package.

MORNING BUSINESS

I now ask unanimous consent the Senate proceed to a period for morning business with Senators permitted to speak up to 10 minutes each.

The PRESIDING OFFICER. Is there objection?

Mr. WELLSTONE. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. WELLSTONE. Mr. President, my understanding is we are on the bank-ruptcy bill, is that correct?

The PRESIDING OFFICER. No. We are on a motion to proceed to S. 2557.

Mr. WELLSTONE. Mr. President, I withdraw my objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

Several Senators addressed the

Mr. REID. Mr. President, if the Senator from Minnesota will withhold for a moment?

The PRESIDING OFFICER. The assistant minority leader.

Mr. REID. I wanted to ask the majority leader a couple of questions. I say to my friend, as he knows, there is some angst over here as to whether or not the people, especially from the West, have to travel back here on Tuesday.

We will have to know Monday night; otherwise, Senators have to catch planes early Tuesday morning to get back on time.

Mr. LOTT. Mr. President, I say to Senator REID, we had to make a decision last Monday. Unfortunately, we did not immediately communicate with both sides of the aisle because it was late in the afternoon. We need to be in close touch. I will be here Monday. I know the Senator from Nevada will be. Once we see when the reports are filed and when these votes will be ready, we will be prepared to notify everybody as to when they can expect a vote.

It appears to me it is possible we could have one or more of these conference reports ready late Tuesday, but if it becomes apparent the House is not going to get it until late Tuesday or even late in the afternoon, we may want to make a conscious decision to go ahead and announce Monday those votes may not occur until Wednesday.

I think we need another day or perhaps the weekend to see if these agreements can be worked out between the House and Senate Republicans and Democrats and the White House and get the reports filed. It is impossible to say right now. I assume all Senators would like to get this work completed as soon as possible. If we can do it Tuesday and Wednesday, I presume

that is preferable, but if it is going to be Wednesday or Wednesday/Thursday, then obviously Senators want to know that. I will stay in close touch with Senator REID, and we will make those decisions and those announcements jointly, not later than Monday afternoon.

Mr. REID. Mr. President, I say to my friend, if we knew sometime late Monday afternoon, 4, 5, even 6 o'clock, we could—

Mr. LOTT. I will be out here. I will see the Senator from Nevada on the floor. We will make those calls at that time and notify everybody so they at least have 24 hours' notice.

I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

BANKRUPTCY REFORM

Mr. WELLSTONE. Mr. President, I am going to take a few moments. I know Senator Kennedy is here on the floor, and I believe Senator Feingold may be coming down as well. In any case, I want colleagues to know next week when we do get back to the bankruptcy bill, whenever it is, there are a number of Senators who are ready to speak on this bill and go into its substance

I think the 100-0 vote is an indication that we do not mind going forward with the bill, but we do intend to speak about this legislation because the more people know about this legislation, the more likely Senators will vote against it. We certainly intend to have the debate, and if there is a cloture vote next week—there may or may not be—we intend to do everything we can to defeat this legislation. We have time to debate this legislation next week. If it goes to beyond cloture, we will have more hours then to debate this legislation. Let's take one step at a time.

I will point out to Senators the process first, and then we will go to substance. I do not know whether or not this is an argument that wins with the public. The argument about this bankruptcy bill on substance wins with the public. We have had some discussion about the scope of the conference and rule XXVIII.

This was a State Department authorization bill. We had an "invasion of the body snatchers" where all of the content dealing with State Department reauthorization has been taken out and bankruptcy has been put in. It is a clear abuse of the legislative process. I doubt whether any Senator who views himself as a legislator can be comfortable with the way we are proceeding.

I believe there are many Senators who are going to want to speak about this outrageous process. I do not know if I have ever seen anything like this where we have a State Department reauthorization bill conference report

that is hollowed out, gutted completely, and replaced by the bankruptcy reform bill conference report. It is unbelievable. It is beyond anything I ever imagined could go wrong in the Senate. It is a way to jam something through, but in one way I can understand why the majority leader and others would try to jam this through because the content, the actual legislation itself, is so egregious.

I simply point out to Senators that there is not one word, not one aspect of this legislation—next week I will have a chance to talk a lot about it; we will talk a lot about this legislation—there is not one word, not one provision, not one sentence, not one section which holds credit card companies or large banks accountable for their predatory practices. There is no accountability whatsoever.

We have nothing in this legislation that holds them accountable, but what we do have is legislation that, first of all, rests on a faulty premise. The bill addresses a crisis that does not exist. We keep hearing these scare statistics, which, by the way, do not jibe with the empirical evidence that there has been all these increased bankruptcy filings. In fact, bankruptcy filings have fallen dramatically over the last 2 years.

We have heard about the abuse. The American Bankruptcy Institute points out that, at best, we are talking about 3 percent of the people who file chapter 7 who actually could pay back their debts; 3-percent abuse, and for 3-percent abuse, what we are doing is tearing up a safety net for middle-income people, for working-income people, for low-income people who are trying to rebuild their lives.

Do we do anything about health care costs? No. Is the No. 1 cause of bankruptcy medical bills? Yes. Do we do anything about raising the minimum wage? No. Do we do anything about affordable housing? No. Do we do anything about affordable prescription drugs for elderly people? No. But the banking industry and the credit card industry get a free ride, and we pass a piece of legislation which is so harsh that it will make it difficult for middle-income people, much less low-income people, to rebuild their lives.

Hardly anybody abuses this. No one wants to go through bankruptcy. People are doing it because there is a major illness in their family. They are doing it because somebody lost their job. They are doing it because of some financial catastrophe. When people today try to rebuild their lives, we come to the floor of the Senate with a piece of legislation basically written by the credit card industry, written by the big financial institutions. They are the ones with all the clout. They are the ones with all the say.

I say to my colleagues, it is not coincidental that every civil rights organization opposes this; that every labor

organization opposes this; that almost every single women's and children's organization opposes this; that the vast majority of the religious communities and organizations oppose this.

Today we had a vote to proceed, but next week there will be an all-out debate and we will focus on the harshness of this legislation, the one-sidedness of this legislation. By the way, this legislation in this hollowed out sham conference report is worse than the legislation that passed the Senate.

Now we have a bill that says to women, single women, children, low-and moderate-income families: You are not going to be able to rebuild your lives; we are going to pass a piece of legislation that is going to make it impossible for you to rebuild your lives even when you have been put under because of a huge medical bill, no fault of your own. At the same time, for those folks who have lots of money, if they want to go to one of the five States where they can put all their money into a \$1 million or \$2 million home, they are exempt; they are OK.

This is what the majority party brings before the Senate. It is unbelievable. No wonder they have to do it through this "invasion of the body snatchers" conference report. They take a State Department conference report, gut it, take out every provision that deals with the State Department reauthorization, and put in a bankruptcy bill that is even more harsh than the one that passed the Senate that is anticonsumer, antiwomen, antichildren, antiworking people and I think anti some basic values about fairness and justice.

I hope next week—I do not hope, I know—there will be a sharp debate, and we are prepared to debate this; we are prepared to use every single privilege we have as Senators to fight this tooth and nail.

And next week there will be a long, spirited discussion about this piece of legislation.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. SMITH of Oregon). The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, I want to, first of all, thank my friend and colleague, the Senator from Minnesota, for his very eloquent statement, and most of all for all of his good work in protecting working families in this country on this extremely important piece of legislation.

I, too, am troubled, as I mentioned earlier today, by the fact that with all the unfinished business we have in the Senate that now with the final hours coming up next week, we are being asked to have an abbreviated debate and discussion on the whole issue of bankruptcy without the opportunity for amendments. Effectively, we are being asked to take it or leave it on legislation which is going to affect millions of our fellow citizens.

I had wished that we had scheduled other legislation, as I mentioned earlier today. I wish we were willing to come on back to the Elementary and Secondary Education Act or in terms of a Patients' Bill of Rights or a prescription drug program for our seniors in our country.

As someone who has been traveling around my own State, this is what I hear from families all over Massachusetts: Why isn't the Senate doing its business? Why didn't it do its business reauthorizing the Elementary and Secondary Education Act? This is the first time in 34 years that it has not done so. Why is it 3 weeks late in terms of appropriating funding for education, of which we hear a great deal in the Presidential debates? And in the Congress, aren't we somehow sensitive to what our leaders are saying in the Republican and Democratic parties about the importance of education? Here we are now 3 weeks late, and the last appropriation, evidently, is going to be the education one. That is not the way that we think we ought to be doing business.

So we find ourselves coming back to this issue—or will next week—on the question of whether we are going to accept bankruptcy legislation.

I want to make a few points at the outset of my remarks: some proponents of this legislation argue that all the outstanding concerns about the bill have been resolved and that the problems have been fixed. That is simply untrue. It is a myth that women and children are protected under the provisions of this bill.

Over 30 organizations that advocate for women and children wrote us and said that by increasing the rights of many creditors—including credit card companies, finance companies, auto lenders, and others—the bill would set up a competition for scarce resources between parents and children owed child support, and commercial creditors, both during and after bankruptcy. Contrary to the claims of some, the domestic support provisions included in the bill would not solve these problems

I have here a list of advocates for women and children who are opposed to this bill. I listened recently, a few hours ago, to a very impassioned statement by one of my colleagues about how the women and children were being protected. Here is a list—and I will include the list in the Record-of groups that, for the life of their years, have been advocates for children and women. These groups say that provisions in the conference committee report are going to put children and women at serious risk and that the proposed bankruptcy law will do a significant disservice to their rights. This is not only what these various groups have said, but this is also the conclusion of the 82 bankruptcy scholars I have listed that I will include in the RECORD.

Mr. President, I ask unanimous consent that the letter written by 82 bankruptcy scholars to our colleagues outlining the provisions of the conference report that put women and children at risk be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

SEPTEMBER 7, 1999.

Re The Bankruptcy Reform Act of 1999 (S. 625)

Hon. Orrin Hatch, Chairman, Committee on the Judiciary, U.S. Senate, Washington, DC.

Hon. PATRICK LEAHY,

Ranking Member, Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR SENATORS: We understand that the United States Senate is scheduled to consider S. 625, the Bankruptcy Reform Act of 1999, in the near future. This letter offers the views of the eighty-two (82) undersigned professors of bankruptcy and commercial law on important consumer bankruptcy aspects of this legislation.

We recognize the concern that some individuals and families are filing for chapter 7 bankruptcy to be relieved of financial obligations when they otherwise could repay some or all of their debts. Fostering increased personal responsibility is a worthwhile aim. However, we believe that S. 625 as currently drafted will not achieve the goals of bankruptcy reform in an equitable and effective manner, and we fear that some provisions of the bill have the potential to do more harm than good.

Specifically, we urge consideration of two principal points:

The "means test" in S. 625 may not identify those individuals with the ability to repay a substantial portion of their debts, while at the same time it may work considerable hardship on financially strapped individuals and families filing bankruptcy petitions that are not abusive.

This bill contains much more than a means test. Dozens of provisions in S. 625 substantially enhance the rights of a variety of creditor interests and increase the cost and complexity of the system. Taken as a whole, these provisions may adversely affect women and children—both as debtors and creditors—as well as other financially vulnerable individuals and families.

MEANS TEST

The cornerstone of consumer bankruptcy reform is the "means test." Why have a means test? The perception is that some debtors with a meaningful ability to repay their debts are filing chapter 7 to discharge those debts, and instead should repay their debts in chapter 13. A means test is supposed to find and exclude those "can-pay" debtors from chapter 7. The trick is identifying the real abusers at an acceptable cost, without unfairly burdening those "honest but unfortunate" debtors who legitimately need chapter 7 bankruptcy relief.

In thinking about the proper design of a means test, it first is essential to understand the extent to which individuals and families are actually abusing the bankruptcy system. Since last year's debates on bankruptcy reform, a study funded by the independent and nonpartisan American Bankruptcy Institute found that less than 4% of consumer debtors could repay even 25% of their unsecured non-priority debts if they could dedicate every

penny of income to a repayment plan for a full 5 years. In short, for about 96% of consumer debtors, chapter 7 bankruptcy is an urgent necessity. Of course, the fact that most debtors cannot pay does not mean that the S. 625 means test will not affect them.

Last year, the Senate worked hard on a bankruptcy reform bill that went through substantial revision and ultimately passed by a vote of 97 to 1 (S. 1301). S. 1301 was reintroduced this year (now S. 945, known as the Durbin-Leahy bill), but was not the starting point for this year's bankruptcy reform debate, and many key provisions of S. 625 differ substantially from those in S. 1301, including many details of the means test:

S. 625 uses a rigid, arbitrary, nondiscretionary mathematical test to define "abuse": whether a debtor could repay 25% of \$15,000 of unsecured nonpriority debts over 5 years versus S. 945, which considers whether a debtor could repay 30% of such debts over 3 years in a chapter 13 plan under the standards used in chapter 13 today. In an effort to impose a standardized and objective means test, S. 625 contains loopholes that permit high income debtors to escape the means test by incurring extra secured debt or reducing income. Individualized discretion vested in the hands of those closest to the front-the able bankruptcy judges-will be more effective in identifying abusive cases.

S. 625 uses rigid IRS collection standards, which have been criticized by Congress in other debates, to determine the allowable expenses of families versus S. 945, which analyzes actual expenses and whether those expenses are reasonable. The IRS collection standards are used by the IRS on a case-bycase basis and are not well suited to form the basis of an objective bankruptcy means test, particularly because they do not automatically cover critical expenses such as health insurance and child care. As noted by House Judiciary Committee Chairman Henry Hyde, using the IRS collection standards as part of a bankruptcy means test may produce substantial hardship for financially troubled families. That hardship is unnecessary when there are other more effective ways to determine whether a debtor has the ability to repay debts.

S. 625 measures debtors' ability to pay over 5 years versus S. 945, which measures ability to pay over 3 years, which is currently the standard duration of chapter 13 repayment plans. Already, two-thirds of individuals who file under chapter 13 do not make it to the end of a 3-year plan. It is unrealistic, and perhaps even a bit misleading, to gauge an individual's ability to pay over 5 years when the likelihood of that happening is not very high

ADVERSE EFFECT OF CONSUMER BANKRUPTCY OVERHAUL ON FINANCIALLY VULNERABLE FAMILIES, SUCH AS SINGLE PARENT HOUSE-HOLDS

Spanning approximately 350 pages, S. 625 clearly is much more than a means test. Many of the provisions in this reform effort, particularly those that enhance creditors' rights and complicate bankruptcy procedures, substantially alter the relief available in both chapter 7 and chapter 13 repayment plans. These changes may or may not do much to prevent abuse of the system, but for the most part they apply to all bankruptcy cases and may produce unintended consequences.

Last year, numerous Senators, Administration officials, and bankruptcy experts expressed concern that certain elements of bankruptcy reform may increase the hurdles for financially troubled women and children

to collect support payments and gain financial stability. Since then, a set of domestic support provisions has been added to the bill. Those provisions may be helpful to state support enforcement agencies and, in some instances, to women and children trying to collect support. However, those provisions are not at all responsive to the concerns originally identified. A close look suggests that these concerns persist:

First: Women and children as creditors will have to compete with powerful creditors to collect their claims after bankruptcy.

Current bankruptcy law provides that deadbeat debtor husbands and fathers cannot be relieved of liability for alimony, maintenance, and support, which means that those women and children as creditors are still entitled to collect domestic support from the debtor after he emerges from bankruptcy. Importantly, relatively few other debts are usually excluded from discharge, increasing the likelihood that the support recipients will be able to collect both past-due and ongoing support payments. S. 625 substantially alters that situation and increases the number of large and powerful creditors who can continue to collect their debts after bankruptcy, competing with women and children to collect their debts after bankruptcy. Women and children are likely to lose that competition.

Following are just a few examples of how S. 625 increases the competition women and children will face:

Debtors will remain liable for more credit card debts after the bankruptcy process is over. This will be true even for debtors who dedicate every penny to a 5-year chapter 13 repayment plan.

Debtors will be pressured to retain legal liability for more consumer debts by signing reaffirmation agreements, particularly in connection with debts incurred with the charge cards of large retail stores.

More of the debtor's limited resources will be siphoned off to pay creditors claiming that their debts are secured by the debtor's property, even if that property is nearly worthless.

Second: Giving "first priority" to domestic support obligations does not address the problem.

Arguing that the bill now favors the claims of women and children, proponents of this reform effort emphasize that the bill gives "first priority" to domestic support obligations. In practice, this change in priority is not responsive to the major problems for women and children in this bill. Why is this so?

Changing the priority in distribution during bankruptcy will make a difference to women and children in less than 1% of the cases, and could actually result in reduced payments in some instances.

The priority provision does not affect priority or collection rights after the bankruptcy case is over. Collecting after bankruptcy—not during bankruptcy—is often the significant issue for support recipients.

Third: Substantial enhancements of creditors' rights, without sufficient protections to keep those powers in check, undercut the opportunity for financial rehabilitation for women and children who file for bankruptcy themselves.

It is estimated that 540,000 women will file bankruptcy alone in 1999. Many of the provisions that harm the interests of women as creditors will hurt women who use the system as debtors, some of whom file after being unable to collect support. S. 625 is replete with provisions that tighten the screws on families who legitimately need debt relief through bankruptcy, and also contains many new roadblocks and cumbersome informational requirements that will substantially increase the cost of accessing the system for the families who are most in need of debt relief and financial rehabilitation.

As professors of commercial and bankruptcy law, we urge the distinguished members of the United States Senate to enact bankruptcy reform that restores an appropriate balance to the legitimate interests of all debtors and creditors. Bankruptcy law is a very complex system. Great care must be taken when revising that system not to make things worse. We have faith that you can bring about positive change.

Thank you for your consideration.

Mr. KENNEDY. I will just read at this time this particular paragraph of the letter:

Last year, numerous Senators, Administration officials, and bankruptcy experts expressed concern that certain elements of bankruptcy reform may increase the hurdles for financially troubled women and children to collect support payments and gain financial stability. Since then, a set of domestic support provisions has been added to the bill. Those provisions may be helpful to state support enforcement agencies and, in some instances, to women and children trying to collect support. However, those provisions are not at all responsive to the concerns originally identified. A close look suggests that these concerns persist:

Women and children as creditors will have to compete with powerful creditors to collect their claims after bankruptey.

There it is: "Women and children as creditors will have to compete with powerful creditors to collect their claims after bankruptey"—period.

Who do you think is going to win? The powerful creditors or the women and the children? The women who might be out there trying to collect alimony, or the mothers who, as a result of a separation or divorce, are trying to get child support, or the creditors who are represented by powerful financial interests and a whole battery of lawyers? Who do we think is going to win?

Those who have studied the bank-ruptcy laws—without being Republican or Democrat—have all stated their belief that creditors are going to win. As a result, the women and children are going to be put at risk. So we are going to hear a great deal about how this legislation protects women and children. It does not. It does not. And we will welcome the opportunity to engage in that debate as this process moves along.

A second point that is mentioned in this letter—I will again just read a portion of it:

Giving "first priority" to domestic support obligations does not address the problem.

Arguing that the bill now favors the claims—

This is an additional reference to the point about women and children—

Arguing that the bill now favors the claims of women and children, proponents of this reform effort emphasize that the bill gives "first priority" to domestic support obligations. In practice, this change in priority is

not responsive to the major problems for women and children in the bill. Why is this so^{9}

Changing the priority in distribution during bankruptcy will make a difference to women and children in less than 1 percent of the cases, and could actually result in reduced payments in some instances.

Second:

The priority provision does not affect priority or collection rights after the bankruptcy case is over. Collecting after bankruptcy—not during bankruptcy—is often the significant issue for support recipients.

Here it is. They know how to work the language. The credit card companies know how to work the language to give the facade that they are protecting the women and children, but they are not. They are putting them at greater risk.

Why, with all the things that need to be done in this country at this time, we are trying to stampede the Senate into legislation that is going to put women and children at greater risk when they are facing hardships in their lives, is beyond my comprehension in one respect, but it is very understandable in another respect; and that is because of the same reasons that we are not getting a Patients' Bill of Rights up before us, because of the power of the HMOs and the HMO industry that are daily putting at risk the well-being and the health of American patients all across this country.

Even though there is a bipartisan majority in the House and in the Senate, the Republican leadership is refusing to bring that bill up for a vote. At the same time, they are developing what they are calling balanced budget legislation to try to give allegedly a restoration of some funding to assist some providers because of the cuts that were made at the time of the balanced budget amendment a few years ago, which took a great deal more out of those providers than ever was intended. It is generally agreed that we would restore some of those funds. Who has the priority under the Republicans? The HMOs. They want to give them the money whether they agree to continue to provide the health care or not to our Medicare beneficiaries. They iust dropped close to a million of them last year, and they are here with their hands out to get another payoff.

Well, we should ask, why have we gotten this legislation? It is quite clearly because of the credit card companies that have been willing to make those contributions as well. Let the contributions fall where they may, whether they include the Democrats or the Republicans. There is no question the Republican leadership has put us in the position of bringing this proposal up in the final hours of the Congress.

Proponents also argue that the bill provides relief to small businesses which are filing for bankruptcy, but the legislation in many ways makes it more difficult for small businesses to

reorganize. The effect is, more and more small businesses will fail and thousands of American workers will lose their jobs. That is the reason the various organizations that represent workers are strongly opposed to it. We heard from one of our colleagues that this is going to make it a great deal easier for small businesses. Why then are organizations that are representing these workers coming out so strongly in opposition? They understand that the provisions of the small business proposal impose more onerous and costly requirements on small businesses than they do on big businesses.

The bill requires that small business debtors comply with a host of new bureaucratic filing requirements and periodic reports. Large businesses are not subject to these requirements. Senior management of small business debtors must attend a variety of meetings at the U.S. trustee's discretion. Senior management of large businesses do not. Under this bill, small business debtors are subject to an extra layer of scruting by the U.S. trustee who must assess whether the debtor lacks business viability and should be dismissed out of bankruptcy. Large business debtors are not. Small business debtors are subject to repeated filing restrictions. Large business debtors are not.

I am not suggesting that large businesses should be subject to all of these provisions. I am suggesting, however, that these provisions should be reconsidered.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. KENNEDY. Are we under a time constraint?

The PRESIDING OFFICER. Ten minutes.

Mr. KENNEDY. Mr. President, I ask unanimous consent for 3 more minutes. The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KENNEDY. Mr. President, I will have more to say about this. I think it is very important to understand that traditionally when we get legislation, we ask who are the beneficiaries and who will pay the price for the legislation. We balance those various factors.

Quite frankly, when we look at this legislation, the people who will bear the hardship for the fact that there is some abuse in the bankruptcy laws—that we could all agree need attention and need to be addressed—are the most vulnerable in our society and are paying an extremely unfair price. That is absolutely wrong. We are going to have a good opportunity to address that in the debate to come.

I thank the Chair and yield the floor. Mr. SESSIONS. Mr. President, I am compelled to respond to some of the outlandish allegations that have been made against the bipartisan bankruptcy bill that passed this Senate twice with over 90 votes, I believe, both times. It is a bill that has been under

discussion for well over 2 years. I personally negotiated not long ago with the White House and Senator Reid the last problem we had with the bill. We worked that out to the satisfaction of those who were negotiating it. I thought we were well on the way to finally passing this bill.

What we have in this body is a group of Senators who vote for it but, when the chips are down, don't help us get it up for the final vote.

The suggestion that there has been no opportunity for debate is certainly wrong. We debated it in committee, extensively in the Judiciary Committee, where I am a member. We debated it on the floor two separate years and earlier this year in great detail. We received a whole host of amendments, and we debated those amendments in detail. We voted on those amendments. It has gone to conference. Now we have a bill on the floor, and Senators are complaining that they can't now offer more amendments. You don't amend a conference report after it has been to conference. That is true of every bill that ever goes through this body.

It is shocking to me to hear some of the things that have been said about this bill. What this legislation does is say we have to do something about this incredible increase in the filing of bankruptcies in America. Over a million—it has doubled in 10 or 12 years is the number of people who have been filing bankruptcy. Why is that so? Because you can go to your bankruptcy lawyer and if you owe \$30,000 and you make \$30,000 a year, you can file bankruptcy, not pay your debts, not pay one dime that you owe-not a dime-and walk away scot-free by filing under chapter 7. That is happening every day in this country, and it is an absolute abuse. It is wrong.

The family that does its best every day to pay its debts and tries to do right, are they chumps? Are they dumb because they don't run up a bunch of debts and not pay their debts and then go down to the bankruptcy lawyer and just file bankruptcy, even though they could have paid those debts if they tried to do so?

This bill addresses at its fundamental core the bankruptcy machine that is out there being driven by advertising you see on your TVs virtually every night all over America until 11 or 12 o'clock. There are these ads: Got debt problems? Call old Joe, the bankruptcy lawyer. He will take care of you.

Do you know what they tell them when they get there? They say: First of all, Mr. Client, you need to pay me \$1,000, \$2,000.

I really don't have that, Mr. Lawyer. Don't pay any more debts. Get all your paychecks. Collect all your paychecks. Bring the money to me. Keep paying on your credit card. Run up your debt, and then we will file bankruptcy for you, and we will wipe out all the debts; you won't have to pay them.

The lawyer gets his money. There are lawyers of whom I am aware personally who get paid \$1,000 or more and have done 1,000 or more in 1 year. That is \$1 million a year, just routine, running this money through the system, basically ripping off people who need to be paid.

Make no mistake about it, when an individual does not pay what he owes and what he could pay, we all pay. Who pays? The one who is honest and pays his debts. He ultimately gets stuck with higher interest rates. The businesses lose money and can't afford to operate. That is what is happening.

They say: Well, it is health care. If you have severe medical problems and you are not able to pay your debts, you ought not to have to pay your debts.

But why should you be able to not pay the hospital, if you can? That is the question. If you can pay the bill, shouldn't you pay it? That is the question

The fundamental part of this bill is, if you are making above median income in America, that is adjusted by how many children you have. If you have more children, your income level goes up for median income—the factors included in that. So if you can't pay your debt, you get to wipe out all your debts just like today under chapter 7. If your income is \$100,000 a year and you owe \$50,000 and you can easily pay at least some of that \$50,000, under this law-and vou make above median income-you can ask the creditors whom who you are not paying to ask the judge to put you into chapter 13. The judge may say: Mr. Debtor, you owe \$50,000. We don't believe you can pay all the debt. You need to pay \$10,000 of that back, and you will pay it so much a month over 3 years in chapter 13.

Chapter 13 is not a disaster. It is not a horrible thing. As a matter of fact, in my State, chapter 13 is exceedingly popular. I believe more than half of the bankruptcy filings in Alabama are filed under chapter 13 instead of chapter 7, which just wipes out your debt. With chapter 13, you go to the judge and say: I have more debts than I can pay. The creditors are calling me, and I can't pay all of them at once. The judge says: OK, stop. Pay all of your money to the court, and we will pay it out to each one of these creditors so much a month. You get to have so much to live on for you and your family.

It works pretty well. We need to do more of this. That is what this legislation will do. That is the fundamental principle.

They say: Well, it doesn't do anything about credit card solicitations.

This isn't a credit card bill. This is a debt bill. This is a bankruptcy bill. We have a banking committee that deals with credit card legislation. We had votes on credit card legislation on the floor, and people have had their say. Some passed, and some didn't. This is

not a credit card bill. This is a bill to reform a legal system in America, the bankruptcy court system, which is a Federal court system that I believe is in a disastrous condition.

We have had this surge of bankruptcy filings. It has become a common thing to just up and file for bankruptcy. People used to have a severe aversion to ever filing for bankruptcy. Now that is being eroded by the advertisements and so forth that they see. There is an abuse going on.

They say it does not do anything for women and children. I am astounded at that. Under this law, alimony and child support will be moved up to the No. 1 priority in bankruptcy—even above the lawyers. That is probably why we got such an objection. The bankruptcy lawyers are the ones stirring this up, in my view.

That means if a deadbeat dad wants to file bankruptcy and doesn't pay his debt, comes in and has a low or moderate salary and doesn't want to pay anybody, under the old law his child support was way down behind the lawyer fees, bankruptcy fees, and some other things. We moved it up to No. 1. The first money that comes into the bankruptcy pot, if there is any, comes in there. Normally, that money goes to pay child support, which is, I believe, a historic move in favor of children.

This bill has broad support. It was suggested earlier that small business is being hurt by it. Small business favors it. They all favor this.

We are not stampeding this bill. This bill has been delayed unconscionably. It should have passed 2 years ago. It should have passed last year. It ought to pass this year. We have a veto-proof majority in the House and a veto-proof majority in the Senate.

It helps this economy. It helps bring integrity back into the system. It allows individuals to go down there to bankruptcy and represent themselves. They don't even have to have a lawyer. It has a lot of different things in it that are good. It eliminates a lot of loopholes and abuses that everybody agrees need to be fixed.

I can't understand this. It seems to me there is some sort of effort to yell, scream, and just say how horrible it is, and perhaps provide some figleaf to encourage the President to veto this bill. I hope he does not.

They say: Well, it has a protection in there for millionaires to have money in their houses in Florida and Texas and States that have an unlimited homestead exemption.

That is a problem. I have fought to eliminate that. We were not able to do that. The States that have the historic State procedures on this fought us tooth and claw. But this bill makes substantial progress toward eliminating that view. There is no doubt that the problem with homestead is far better in this legislation today than it

is under current law if we don't do anything about it. A vote against this bill is a vote to keep the ineffective, bad current law, and not make the improvement this bill makes.

I believe it is good legislation. Senator GRASSLEY has worked on it tenaciously. We have been very cooperative with others who have problems. Time and again, it has been fixed to accommodate concerns that others would have. I believe it is a fair bill. I believe it is a good bill. I believe it is time for this country to improve what is going on in bankruptcy all over America today. And most bankrupts are entitled to it and need it.

But there are substantial numbers with high incomes who could pay large portions of that debt, if they wanted to. But once they talked to those lawyers who tell them they don't have to, they file under chapter 7 and wipe out much of their debts, and they go on leaving someone else to carry the burden.

I thank the Chair for the time. I yield the floor.

Mr. GRASSLEY. Mr. President, I'm glad we're getting around to the bankruptcy bill. I think we've got a good product. This conference report is basically the Senate-passed bankruptcy bill with certain minimal changes made to accommodate the House of Representatives. The means-test retains the essential flexibility that we passed in the Senate. The new consumer protections sponsored by Senator REED of Rhode Island relating to reaffirmations is in this report. The credit card disclosures sponsored by Senator Torricelli are also in this final conference report. We also maintained Senator Leahy's special protections for victims of domestic violence and Senator Feingold's special protections for expenses associated with caring for non-dependent family members.

So, Mr. President, on the consumer bankruptcy side, we maintained the Senate's position.

On the business side of things, we kept Senator Kennedy's changes to the small business provisions. We have kept the international trade section intact. The financial netting provisions were updated to reflect technical changes suggested by the House. The new netting provisions, however, have universal support.

Finally, Mr. President, I want to make one point crystal clear. Because of objections from the other side of the aisle, we have been delayed in getting this conference report up. Because of this delay and these kind of underhanded tactics, Congress has allowed chapter 12 to just expire. Chapter 12 gives family farmers a real chance to reorganize their affairs. But that's gone now. This bill restores chapter 12. This conference report also expands the eligibility for chapter 12 so more farmers will have access to these special

conference report gives farmers in chapter 12 much-needed capital gains tax relief.

We hear a lot about helping farmers around here. This bill gives us a chance to do a lot of good. We should get on with passing this bill right away and stop playing political games with our farmers.

The PRESIDING OFFICER. The Senator from New Jersey is recognized.

BROWNFIELDS REVITALIZATION

Mr. LAUTENBERG. Mr. President, I want to raise an issue that I believe is critical for the Congress to address before we adjourn this year. It is an issue on which environmentalists, the business community, and the labor community strongly agree. It is called the Brownfields Revitalization Act. I say it is called that. I have to explain exactly what we are talking about here.

It is an issue upon which Republicans and Democrats agree. The Brownfields Revitalization Act of 2000 is a bill I introduced with Senator Chafee. It now has 67 cosponsors. Two-thirds of the Senate say this is a good piece of legislation and we ought to pass it. That includes, obviously, a majority of both sides of the political aisle—a rare example of overwhelming bipartisan support.

Some accuse us of being a "do-nothing Congress," that we are stuck in partisan disagreement. That can be said. But I can tell you, it cannot be said about this brownfields bill. We ought to pass it here and now as a way to show that we can still move bipartisan legislation in the Senate.

We have strong support. Dozens of environmental organizations, business, labor, and State and local governments support the bill, including the U.S. Conference of Mayors, the Real Estate Round Table, and the National Association of Realtors. It is a mix of people and interests, including the Institute of Scrap Recycling Industries and the Natural Resources Council. The list is a very long one, including various communities throughout the country as well as the organizations I mentioned.

Many don't know what we are talking about when we say brownfields. We will explain it. These are contaminated sites. They are abandoned properties that blight our communities. But also, they lie there waiting to be developed because they offer great promise for the future.

According to the Conference of Mayors, there are over 450,000 brownfield sites in the United States. They are, of course, in every State of the Union. There are brownfields in rural and urban areas and large and small communities. Citizens everywhere would benefit from this bill.

There are economic and environmental benefits from cleaning up

protections. Also, Mr. President, this brownfields. That is why the business community and labor so strongly support the bipartisan brownfields bill.

> The Conference of Mayors has estimated that redeveloping these sites would create almost 600,000 jobs, would increase tax revenues, by their estimate, from somewhere between \$900 million to \$2.4 billion. What a benefit that would be to communities.

> In a city in my State, Elizabeth, NJ, a town I lived in when I was growing up, we turned an abandoned site, that lay fallow for years, into an enormous shopping mall, with more than a million square feet of retail space and 5,000 permanent jobs. Elizabeth is one of the oldest industrial cities in the State of New Jersey. It is actively trying to build for the future. They are looking at hotels and a convention center thanks to brownfield revitalization. The successes in Elizabeth established proof that brownfields create jobs, hope, and opportunity for communities

> In Trenton, NJ, we have a very famous company that builds steel for bridges and structures all across this country, formally called Roebling & Sons. We have a picture of what happened to this site as it sat for years. I know my State so well; I remember the dump site. It was almost a lagoon of toxins. It was broken down. Anyone could see in the picture the terrible deteriorating condition.

> Then we have a brownfield restoration program and this is what happened: It became a full-service supermarket, the first market in the city in many years. This is our capital city, with an office building and senior housing. It is almost a miraculous rebirth.

> There is a risk in letting these brownfield sites sit there. The risks are substantial. They pose threats to human health and the environment, they create blighted downtown areas often leading to crime and loss of jobs. It forces development of farmland and open spaces. It causes sprawl. The result is increased driving time for those who have cars living in these cities. with traffic congestion and air pollution.

> The bipartisan brownfields bill will make major strides in revitalizing sites across the country. They are small sites, typically for \$200,000 and less. They can be turned into productive urban centers or rural centers where commerce can take place and jobs exist.

> The bill provides critically needed funds to assess and clean up abandoned and underutilized brownfield sites. They can use them for parks and greenways. They encourage cleanup and redevelopment of the properties by providing another important element: legal protection for innocent parties such as contiguous property owners and prospective purchasers, innocent land owners. They need to know that

their liabilities are limited. Otherwise they are not going to take the risk in putting money into the sites.

It helps, also, to encourage other cleanups of State and local sites creating a certainty for those who would invest there, and ensures protection for public health. When the sites are revitalized, the results are obvious: jobs, a stronger local tax base, curbing sprawl, preserving open space, and protecting the health of our citizens.

Some suggest there are other ways to solve this problem by revitalizing or reforming or reauthorizing our Superfund Program. That is a nice idea, but unfortunately, we have been working 8 years to get the parties together to get the Superfund Program reauthorized. The Superfund handles the enormous sites that dot our landscape, without

I, personally, since I have been so involved in the environmental committee and in environmental issues, wanted to get to work on Superfund and get it done before I left the Senate, which is effectively in the next few days. I will have lost my opportunity to talk on this floor and get some of the things done that we still have ahead. The value of this legislation is real and it is current.

While the sites, by their very definition, are not the size of Superfund sites, the overwhelming majority of brownfields are not Federal cleanup problems but are being cleaned up by States and local governments.

This bill will give incentives and protection at those hundreds of thousands of State sites. We owe this relief to our communities. They can take the money and get an investor to develop the site. We should not hold this bill hostage. There are 67 Members, two-thirds of the Senate, bipartisan, who do not want to see this bill lying around here and not getting passed. Mr. President, 67 Senators have spoken. Business groups support this, as do environmentalists, and State and local governments. The legislation ought to pass.

It is a very simple task. The time for this bill to pass is now. I hope my colleagues will act to move this legislation as quickly as possible. They have cosponsored the bill. If we can just put it in the line of things, it need not take a long time to debate or discuss. I hope we can pass this legislation soon.

I yield the floor.

MAKING FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 2001

The PRESIDING OFFICER. Under the previous order, H.J. Res. 114 is read the third time and passed.

The motion to reconsider is laid upon the table.

COLORADO UTE SETTLEMENT ACT AMENDMENTS OF 2000

The PRESIDING OFFICER. The Senator from Colorado.

Mr. CAMPBELL. I ask unanimous consent that the Senate now proceed to the consideration of Calendar No. 723, S. 2508, as under a previous order. I further ask consent that any votes ordered with respect to that legislation be stacked to occur at a time to be determined by the majority leader with the concurrence of the minority leader.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title. The legislative clerk read as follows:

A bill (S. 2508) to amend the Colorado Ute Indian Water Rights Settlement Act of 1988 to provide for a final settlement of the claims of the Colorado Ute Indian Tribes, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 4303

Mr. CAMPBELL. Mr. President, I call up my amendment No. 4303.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows: The Senator from Colorado [Mr. CAMP-BELL], for himself, Mr. ALLARD, Mr. BINGA-MAN, and Mr. DOMENICI, proposes an amendment numbered 4303.

Mr. CAMPBELL. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

Mr. CAMPBELL. I ask unanimous consent that 30 minutes of debate on the bill be under my control, and that 30 minutes of debate on Senator Feingold's amendment be divided, 20 minutes under Senator Feingold's control and 10 minutes under my control.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CAMPBELL. Mr. President, I am pleased to be joined in offering the proposed amendment by three of my distinguished colleagues: Senator ALLARD, who is with me on the floor tonight; Senator BINGAMAN; and Senator DOMENICI from New Mexico. This is a bipartisan effort. I thank each of them for their support. All four of us representing the States of Colorado and New Mexico have actively supported this project since its inception. And, hopefully, S. 2508 will be the last time we need to deal with this long overdue project.

In 1956 and 1968, decades ago—in fact, before I was ever elected to any public office—the United States promised the residents of southwestern Colorado they could count on the Government to assist them in developing the region by ensuring an adequate and reliable water supply for the benefit of the tribes and the non-Indian community.

In fact, in 1968, this project was authorized at the same time as the central Arizona project and the central Utah project, both of which have been completed.

Even before that, nearly 100 years before in 1868, the United States made a treaty that guaranteed the southern Ute and Ute Mountain Indian tribes of California a permanent homeland. No one could suggest this did not include the right to an adequate water supply.

In 1987, as a freshman Member of the House of Representatives, I introduced legislation to settle the Ute water rights claims. This settlement act was signed by President Ronald Reagan in November of 1988. For the next two Congresses, I worked to obtain the funding needed to implement this agreement, as did my colleagues from New Mexico and Colorado. The 1988 settlement act is currently the law of the land.

Unfortunately, that law has never been complied with. When I came to the Senate, I worked to secure the funding for the massive environmental studies needed on the proposed projects. I have also worked to prevent misguided attempts to deauthorize or defund this necessary project. The Federal Government's responsibility to build this project is even more urgent because the Colorado Ute tribes have claims to much of the water that is already being used and has been used for generations by their non-Indian neighbors.

The urgency of this bill has increased too because under the 1988 Agreement the Tribes can go back to court to sue the Federal Government if the project was not completed by the year 2000. That is obviously not going to happen.

The four of us I have fought for the fulfillment of these promises because I know what will happen if the Government is allowed to forget its promise to this region and walk away from its commitment to provide a firm water supply. Most important, the United States, the State of Colorado, the two Ute Tribes, and the non-Indian residents will spend the next few decades and millions of dollars in the Federal courts fighting for the limited water supply that exists in this region. There will only be losers in this fight because the non-Indians will lose the legal right to use the water, and the Indians may never have the ability to put the water to use. The ironic part is that if this issue ends up in the courts—it will pit one Federal agency against another with your tax money paying for attorneys on both sides.

As the author of the Colorado Ute Indian Water Rights Settlement Act of 1988 and now as the chairman of the Senate Indian Affairs Committee, I have an additional responsibility to make the United States fulfill its promise to this region.

The Ute Water Rights Settlement Act of 1988 is a commitment to the Ute

Tribes. This commitment is very similar to the 472 treaties previously approved by the United States Senate. In those treaties, each tribe agreed to give up a great deal in return for a guarantee that the United States would recognize and protect the tribes' rights to the reservation land guaranteed to them by the treaty. Also, as with other treaties, the opponents did not even wait until the ink was dry before they began trying to convince the United States to break its terms. Even though the States of Colorado and New Mexico have spent over \$40 million to implement their part of the agreement. and Congress has already appropriated over \$50 million which went to pay the Tribes to drop their lawsuits.

All of the 472 other treaties have been violated by the United States. But in this case, if the government does not fulfill the treaty terms, it is not only the Indians who will suffer, but all of the non-Indians in the region.

As many of my colleagues are aware, the United States has two choices when it comes to the Ute water rights: we can build the facilities needed to store water for the tribes or we can reallocate the water from those who are presently using it. Estimates are that between ¼ and ½ of all non-Indian irrigators would lose their water rights if we forcibly reallocate it.

Throughout a negotiation process sponsored by the state of Colorado, the tribes and local water users tried to convince the project opponents that reallocating the limited water supply is an unrealistic, risky, and disruptive way to resolve the tribal water rights claims; because it deprives hundreds of non-Indian water users of their rights to life giving water.

Clearly, the ALP opponents will continue to oppose any project that provides any water storage. Compromiseand this bill is the 4th one—is not in their vocabulary. When the opponents tried to use environmental laws to delay and frustrate the project, the coalition of Indian tribes and local water users responded in two ways. First, they agreed to reduce the size of the project, so it could be built in a manner consistent with numerous existing environmental studies and reports, and would cost 1/3 of the cost of the original project. They also insisted that any reduction in the project size should require the government to make use of its existing studies when analyzing the project's environmental impact; rather than restart the whole process all over again.

It was difficult to convince me that we should follow this strategy and agree to build only a small part of the ALP that was passed in 1988. When I introduced this proposal in the last Congress, I knew that even a substantially reduced project would not satisfy the project's opponents. They don't want a smaller project: they want a dead

project. I also knew that these opponents would work to mischaracterize any attempt to make use of the existing environmental documents. We did not have to wait very long for everyone to see that each of these concerns was correct. During the 105th Congress, the last time we reached a compromise and a bill was introduced, an administration official appeared before my committee and opposed a bill that offered to downsize the project in order to settle the tribal water rights claims.

But this left the administration with no feasible way to resolve the tribal claims. In fact, as the Department of Interior began to produce a new supplemental environmental impact statement, it compared the smaller project with the idea of just buying water rights. Even the present management of the Department of Interior could not deny that the only realistic, feasible alternative available to the government is to store some of the waters of the Animas River.

The Record of Decision signed by the Interior Secretary on September 25, 2000 explicitly and implicitly recognize all of these facts. It can be found at http://indian.senate.gov.

In fact Mr. President, the lateness of having this Record of Decision on file is the reason we could not move this bill sooner. For the first time, this administration is strongly on record in favor of settling tribal water claims by building an off-stream storage facility at Ridges Basin. The Record of Decision also rejects the any alternative to settling the tribal water claims, especially the unrealistic, risky, and disruptive schemes that have been proposed by the opponents of the ALP.

Although I have agreed to sponsor this amendment, which implements the Record of Decision, I am still very concerned that the non-Indian beneficiaries of the project have been asked to give up too much. I am sure that there are those who will ask these people to give up even more. But I think that they have given up more than enough.

Under my amendment, the Animas-La Plata Project will consist of the facilities needed to divert and impound water in an off-stream reservoir. This provision will only take effect if these features are actually constructed. By taking this step, a number of potential project beneficiaries agree to forgo a substantial number of benefits that were promised to them by their own government in 1968.

In my view, the Federal Government is not fulfilling all of its obligation to these people, but they seem to have no alternative. They will receive substantially fewer benefits than they were promised. In addition, they will bear an even greater share of the cost for the benefits than those using Federal reclamation projects in other states, especially in the States of Arizona, Cali-

fornia, and Utah which were originally authorized at the same time in 1968.

Many people now regret the subsidy of western water development, so they are taking it out on the ALP. However, in this case, they cannot do this without injuring the Ute Tribes. Some people will argue that they are only opposed to the part of the project that provides water to non-Indians. But the Ute Tribes refuse to allow the Federal Government to break all of its promises to the non-Indian project beneficiaries. Why? Because the Ute tribes know that they will be next. The tribes and their non-Indian neighbors have held together in a unique and strong coalition of Indians and their non-Indian neighbors that from my perspective is quite rare.

This project has been an 18 year effort for myself, for Senator BINGAMAN, Senator Allard and Senator Domenici. We worked together on it. The tribes have worked in good faith with the non-Indian project users to produce an agreement that allows the project to be built in a manner consistent with every existing environmental study and standard. We are consistent in the writing of this bill. As I understand the Record of Decision, the Department of Interior has also concluded that the time for studying the project has come to an end. And the time for actually fulfilling the government's promises to Indians and non-Indians is finally at hand.

For these reasons, I ask my colleagues to support S. 2508 as presented in amendment No. 4303. This is the last best chance for the United States to live up to the obligations freely embraced in 1956, 1968, and 1988, not to mention the 1868 treaty with the Ute Tribe.

Mr. President, I ask unanimous consent the following letters of support of the bipartisan version of S. 2508 be printed in the RECORD, opposed to the Feingold amendment: From the State of Colorado, the Governor of Colorado, the Attorney General of Colorado, elected tribal governments of Ute Mountain and Southern Ute Indian Tribe, and the Native American Rights Fund.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

STATE OF COLORADO,

Denver, CO, October 17, 2000.

DEAR REPRESENTATIVE: Before you decide whether to support the scaled-down Animas La Plata Project as described in H.R. 3112 and S. 2508 (as now proposed by Senator Campbell), the people of the State of Colorado urge you to consider the following facts:

The Clinton Administration has completed NEPA review of the scaled-down ALP as proposed by Secretary Babbitt in August of 1998.

The Department of Interior's Final EIS, and the accompanying Record of Decision signed by Secretary Babbitt, both determined that the scaled-down project "is the environmentally preferred alternative, to

implement the 1988 Settlement Act'' with the Colorado Ute Tribes.

The proposed amendments by Senators Campbell and Allard ensure repayment of all non-Indian water supply costs. There are no "caps" on the non-Indian repayment obligation. In fact, the bill calls for an up-front payment and a final cost allocation after the project is completed. The Record of Decision and the Campbell/Allard amendment both require repayment to comply with federal law—it is the opponents who want to change federal law with respect to project repayment

The legislation allows for only the construction of the scaled-down project—it prevents construction of any part of the ALP that is not explicitly referenced in the bill. This preserves the complex balance of interstate issues on the Colorado River while preventing the construction of components not referenced in the legislation.

The amendments proposed by Senators Campbell and Allard remove any language from the bill that could remotely be construed as "sufficiency language" that would preclude future environmental review. Through the Record of Decision, the Department of the Interior, the Environmental Protection Agency and the Council on Environmental Quality call on Congress to amend the 1988 Act to provide for the construction of the scaled-back project.

In light of the federal government's trust obligation to the Colorado Ute Indian Tribes, Congress has a responsibility to know the facts about the project. Once you know the facts, I'm sure you will join us in supporting legislation to resolve this 100 year Indian water rights controversy. Thank you.

Sincerely,

BILL OWENS, Governor.

Attorney General of Colorado, $Denver,\ CO,\ June\ 16,\ 2000.$

Re: Animas-La Plata project

Wesley Warren,

Associate Director for Natural Resources, the Environment and Science, Office of Management and Budget, Old Executive Office Building, Washington, DC.

DEAR WESLEY: Thank you for meeting with me by telephone yesterday. I think our discussion was very productive. I want to follow up with a more detailed explanation of why it is important to the State of Colorado that Ute Tribes settlement legislation not deauthorize those features of the Animas-La Plata Project that are not currently contemplated.

In 1956, Congress enacted the Colorado River Storage Project Act to enable the states of the Upper Colorado River Basin to use their compact allocations. CRSP is composed of four initial storage units—Aspinall, Flaming Gorge, Navajo, and Glen Canyon—and 25 additional authorized participating projects in Colorado, New Mexico, Utah, and Wyoming—eight of which (including Animas-La Plata) have not been built.

The CRSP Act authorized a separate fund in the United States Treasury, the Upper Colorado River Basin Fund. Revenues in the Basin Fund collected in connection with operation of the initial units are used first to repay the operating costs of the initial units and second to repay the United States Treasury investment costs previously spent on those units. Any excess revenues from the initial units are then used to help repay the Treasury for participating project irrigation costs within each upper basin state that exceed the irrigators' ability to repay. These

excess revenues are apportioned among Colorado (46%), Utah (21.5%), Wyoming (15.5%), and New Mexico (17%).

This allocation of Basin Fund revenues was the result of hard bargaining among the upper basin states. Colorado anticipated that a large part of its allocation would be used to repay the irrigation costs of the Animas-La Plata Project, and those costs are still included in the apportioned revenue repayment schedule. Although H.R. 3112 and S. $2508\ {\rm authorize}\ {\rm a}\ {\rm much}\ {\rm smaller}\ {\rm project}\ {\rm than}$ originally contemplated and completely eliminate irrigation uses, the authorized parproject still serves ticipating as for Colorado's share of the "placeholder" Basin Fund. Colorado could in the future seek legislation that would allow it to use those revenues for other purposes, such as the endangered species recovery programs on the Colorado River, San Juan River, and

Environmental and "green scissors" organizations have raised the concern that, unless the remainder of Animas-La Plata is deauthorized, the reduced project will be a foot in the door for a larger project. H.R. 3112 and S. 2508 address that concern by explicitly requiring express Congressional authorization before any other facilities could be added. Moreover, any additional facilities would be subject to all the requirements of NEPA, the Clean Water Act, and the Endangered Species Act. In short, any attempt to build additional project facilities would encounter all the obstacles that have blocked construction in the past.

Although I believe that the "delinking" language of H.R. 3112 and S. 2508 is adequate to ensure that the smaller project is not the opening wedge for a larger project, Colorado and its water users are willing to work with the Administration to satisfy its concerns. We ask that you meet us halfway, however, and to insist on language that could deprive Colorado of the benefit of hard-fought negotiations and a carefully crafted agreement with the other upper basin states and the United States. This narrow Indian water rights settlement legislation is not the place to try to resolve broader "law of the river" issues.

Another issue that is important to Colorado and its water users is the repayment provision. We agree that the non-Indian project partners should pay their full share of project costs. However, it is important that Colorado water users have the option of paying their share as a lump sum prior to construction. In agreeing to a smaller project, the State of Colorado and its water users are giving up substantial benefits negotiated as part of the original settlement and Phase I of the project. In return, we should receive reasonable certainty as to project costs. I also urge the Administration to deal fairly with water users in determining reimbursable costs. For instance, they should not be held responsible for sunk costs associated with water that will not be provided to them by the reduced project.

I appreciate the Administration's support for this legislation. I am committed to working with the Administration to achieve final settlement this session. Please feel free to call me if I can be of any assistance.

Sincerely.

KEN SALAZAR.

UTE MOUNTAIN UTE TRIBE, SOUTHERN UTE INDIAN TRIBE, October 18, 2000.

DEAR SENATOR: We are writing as the elected leaders of the Southern Ute and Ute

Mountain Ute Indian Tribes to ask that you support the bipartisan version of S. 2508 introduced by Senators Campbell, Bingaman, Domenici and Allard on October 6, 2000, and oppose the amendment offered by Senator Feingold of Wisconsin.

The bipartisan version of S. 2508 is the product of years of hard work by our Tribes, the States of Colorado and New Mexico and local water users. Just like any other settlement, S. 2508 is the result of many compromises that were required to make it acceptable to all of the affected parties. Our settlement has the full support of the Clinton Administration.

Senator Feingold's proposed amendment upsets this delicate balance. First, it singles out the non-Indian parties to our settlement to pay the costs for recreation and fishery uses which benefit the general public. Such costs have never before been imposed on those who use water from federal reclamation projects. Second, the amendment demands that Colorado, alone among the Colorado River Basin States, surrender significant revenues from the power generated on the Colorado River in order to settle the pending tribal claims to water. These belated and punitive changes impose an unfair burden on our settlement partners.

Please help us to complete the settlement of our tribal water rights by opposing Senator Feingold's amendment which undermines the equitable agreement which the Tribes and our non-Indian neighbors have negotiated.

Sincerely,

JOHN BAKER, Jr.,
Chairman, Southern Ute Indian Tribe.
ERNEST HEUSE, Sr.,
Chairman, Ute Mountain Ute Tribe.

NEW MEXICO

INTERESTATE STREAM COMMISSION, Santa Fe, NM, October 19, 2000. Senator Ben Nighthorse Campbell, Chairman, Senate Indian Affairs Committee, Washinaton. DC

DEAR SENATOR CAMPBELL: As chairman of the New Mexico Interstate Stream Commission, I urge you to defeat Sen. Russell Feinglold's proposed amendments to S. 2508 because they are unfair and contrary to current law. Your substitute bill, which is the product of compromise and sacrifice by New Mexico, should be passed without amendment

The substitute bill we have is fair to the parties, and it should not be changed at this late date. The proposal to make fish and wildlife mitigation expenses reimbursable is patently unfair to the people of New Mexico. The recreation facility is in Colorado, and making New Mexicans pay for the mitigation is unreasonable. More importantly, the provision is contrary to the 1956 Colorado River Storage Project Act, Section 620g of the Act specifically says that fish and wildlife mitigation activities will be non-reimbursable.

The irony is that if the project proponents had not reached a compromise to settle the Indian water claims and built the Animas-La Plata Project, the mitigation costs would not be reimbursable. But this amendment punishes new Mexico and the Colorado non-Indians for compromising by taking away that protection and making the costs reimbursable. Likewise, the amendment to remove the protection of the Colorado River Storage Project Act on payment issues is unjust. It is an issue of simple fairness. Additionally, this is not the proper vehicle for changing Reclamation law. The amendments should be defeated.

The amendment to change the deauthorization provision of the bill also should be defeated. Under the current bill, once the ALP is constructed, any further facilities would require Congressional action. This in effect is deauthorization. Under Feingold's amendment, the deauthorization is included in the bill, but there is no guarantee of construction of the project.

We've seen the federal government back out of building this project many, many times, and we don't trust them. We want the project to be built, then we'll accept the provision that additional facilities must obtain separate Congressional authorization. Reversing the order, as provided in the amendment, is not acceptable.

Both versions have equivalent results in terms of making sure additional facilities obtain new Congressional approval, but Feingold's version does not give us the necessary guarantee that the project will be built before the provision takes effect. It should be defeated along with the rest of his amendments.

Senator Campbell, I appreciate your hard work on this important legislation, and I urge you to pass it without the amendments offered at the 11th hour.

Sincerely.

RICHARD P. CHENEY,
Chairman.

SAN JUAN WATER COMMISSION, Farmington, NM, October 19, 2000. Senator Ben Nighthorse Campbell, Chairman, Senate Indian Affairs Committee, Washington, DC.

DEAR SENATOR CAMPBELL: As Executive Director of the San Juan Water Commission, I urge you to defeat Sen. Russell Feingold's proposed amendments to your S. 2508 as amended because they are unfair and contrary to current law. Your substitute bill, which is the product of hard compromise and sacrifice by New Mexico, should be passed without further amendment.

The substitute bill treats all parties fairly, and it should not be changed now. The proposal to make fish and wildlife mitigation expenses reimbursable is grossly unfair to New Mexico. The recreation facility is in Colorado, and making New Mexicans pay for the mitigation is unreasonable. More importantly, the provision is contrary to the 1956 Colorado River Storage Project Act. Section 620 g of the Act specifically says that fish and wildlife mitigation activities will be non-reimbursable.

If the project proponents had not reached a compromise to settle the Indian water claims and built the Animas-La Plata Project, the mitigation costs would not be reimbursable. But this amendment punishes New Mexico and the Colorado non-Indians for compromising by taking away that protection and making the costs reimbursable. Likewise, the amendment to remove the protection of the Colorado River Storage Project Act on payment issues is unjust. Additionally, this is not the proper vehicle for changing Reclamation law. The amendments should be defeated.

The amendment to change the deauthorization provision of the bill also should be defeated. Both versions have equivalent results in terms of making sure additional facilities obtain new Congressional approval, but Feingold's version does not give us the necessary guarantee that the project will be built before the provision takes effect. It should be defeated along with the rest of his amendments.

If the Feingold amendments are passed, the San Juan Water Commission will be forced to reconsider its support for S. 2508 as you reported it in the Congressional Record. Senator Campbell, we appreciate your hard work on this important legislation, and I urge you to pass it without the amendments. Sincerely.

L. RANDY KIRKPATRICK.

UTE MOUNTAIN UTE TRIBE SOUTHERN UTE INDIAN TRIBE, September 13, 2000.

TAKE NOTE: IT'S NOT YOUR FATHER'S ALP (H.R. 3112 AND S. 2508)

No matter how things change, they remain the same.

Opponents of the Colorado Ute Indian Water Rights Settlement Act and proposed amendments which would drastically reduce the size and cost of the Animas-La Plata Project continue to distort the truth about our Tribes, the project's impacts and its costs.

The Southern Ute and Ute Mountain Ute Indian Tribes, and our sister Tribes the Navajo Nation and the Jicarilla Apache Tribe, strongly support legislation which would amend the original Settlement Act of 1988 to provide for the construction of a downsized reservoir.

Opponents still believe they know better than the Tribes themselves how best to settle our water rights claims. In a September 5 letter from the Green Scissors Campaign, they say there is a less costly and less environmentally destructive way to achieve that goal. They offer you no explanation of what that alternative is. They also don't tell you that the recently completed analysis under NEPA finds that the least costly and least environmentally destructive solution to resolving our water rights is to build the reduced-size project. The nonstructural alternative favored by the opponents of the Indian settlement will cost more than the down-sized ALP and that its impact on wetlands in particular is more destructive than ALP. And, they won't tell you that our Tribes have emphatically rejected the nonstructural alternative.

Still, the opponents of our Indian water rights settlement say the project as proposed is a foot in the door for the project authorized in 1968. Read carefully, H.R. 3112 and S. 2508 clearly cut the tie between this project and any other facilities for purposes of our settlement, and the bills explicitly state that any additional facilities separate from this project would require new authorization from Congress.

The local rafting industry, devastated this year by drought says the project will forever affect their livelihood and dewater the river. In fact, the current NEPA analysis finds that, on average, only six of 112 rafting days with flow of 300 cfs or higher would be lost.

Opponents of our settlement continue to

olphonents of our settlement continue to claim that our non-Indian neighbors will get subsidized water for development and that they are the true beneficiaries of H.R. 3112 and S. 2508. The bills provide for small amounts of water for the two non-Indian water districts for rural and domestic use purposes, and storage of water already allocated to New Mexico communities. Current law does not require that "other project costs" be paid by water users as suggested by our opponents, and the non-Indians will be required to pay an amount determined by agreement with the Administration for their portion of the water.

Finally, to suggest that "a water project of this size should not be constructed without full and fair environmental review" is ludicrous. The settlement was approved in 1988. Repeated environmental and public review have taken place before that and since then. An entirely new NEPA analysis has just been completed and we are awaiting the issuance of a Record of Decision. The pending NEPA document indicates this proposal to be the best way, economically and environmentally, to provide full settlement of our legitimate claims. It also concludes it is the best alternative for the other Tribes—Navajo and Jicarilla—in the basin.

Let's get to the bottom line. No project, regardless of its size or the amount of water provided to our people, will ever get the support of our opponents. Storage of our water is our "foot in the door" for a long-term, firm supply of water for present and future generations of Utes.

When the House Resources Committee marked up H.R. 3112, only one member voted no and one voted present. In the Senate Indian Affairs Committee, no opposing votes were cast. Clearly there is recognition of sacrifices made in the name of fulfilling our settlement.

Those who have fought the Animas-Las Plata Project and our settlement as a symbol of the past (Jurassic Park) should declare victory and move on. Costs are cut by two-thirds, the lion's share of the water goes to our Tribes and irrigation facilities have been eliminated. Everyone has compromised except the opponents.

We hope that you will look at today's Animas-La Plata Project, and how much has been foregone by our non-Indian neighbors in order to fulfill the promise of the 1988 Act and the government's word of more than a century ago.

Thank you in advance for keeping faith and supporting amendments to the Colorado Ute Indian Water Rights Settlement Act.

Chairman John E. Baker, Jr., Southern Ute Indian Tribe. Chairman Ernest House, Sr., Southern Ute Indian Tribe.

NATIVE AMERICAN RIGHTS FUND, Boulder, CO, October 18, 2000.

DEAR SENATOR: I am distressed by continued opposition to the Colorado Ute Indian Water Rights Settlement and construction of a much-downsized Animas-La Plata Project to implement the settlement passed in 1988. The Native American Rights Fund also opposes the Feingold amendments to the pending Senate bill S. 2508.

During the last 12 years, I have watched the Southern Ute and Ute Mountain Ute Indian Tribes struggle to achieve their goal of a firm water supply for present and future generations, without taking water away from their neighbors. In the course of that struggle, many sacrifices have been made in an effort to address concerns opponents raised about project cost, environmental impacts, even the allocation of water between Indians and non-Indians.

Now, those who have sacrificed nothing—made no compromises at all—continued to urge Congress to reject the amendments which would downsize the project. It seems nothing will satisfy project opponents except no project at all.

Turge you to support the Campbell amendment to the Colorado Ute Indian Water Rights Settlement Act. Those amendments implement the Record of Decision signed by the Secretary of the Interior Bruce Babbitt on September 26 of this year. NARF also urges a no vote on the proposed amendments by Senator Feingold. Further delay in satisfying the Utes' legitimate claims is further injustice to the Ute people.

Sincerely,

JOHN E. ECHOHAWK.

Mr. CAMPBELL. Mr. President, before I yield the floor, I would like to yield a few minutes to Senator AL-LARD, my colleague, who has also worked on this bill for so long.

Mr. ALLARD addressed the Chair. The PRESIDING OFFICER. The Senator from Colorado.

Mr. ALLARD. Mr. President, I thank my colleague from Colorado for yielding me some time here. This is an important piece of legislation that my colleague has been working for. I rise in support of S. 2508, called the Colorado Ute Settlement Act Amendments of 2000. It has been worked on for some 18 years by my colleague, Senator BEN NIGHTHORSE CAMPBELL. I wish to take a few moments to commend everyone who has worked on behalf of this piece of legislation, and for their efforts to resolve this issue.

In Colorado, earlier this year—maybe it was last year—there was a group of us who did get together, Congressman McInnis, myself, we had Senator Camp-BELL, and Secretary of Interior Babbitt.

We got together what we called the great sand dunes conference. All four of us walked up on those great majestic sand dunes. We talked about the future of the great sand dunes, and we had a discussion about the Animas project. At that point, we had our staffs standing off on the far side. All of our supporters were wondering what the four of us were talking about. We were talking about common ground and how we could come to an agreement to get the Animas-La Plata project passed. It was a great opportunity my colleague took at that time to talk to the Secretary of Interior while he was breathing some of that fresh mountain air of Colorado and clearing his thinking a little bit, and that got things off to a good start.

This new legislation is a product of that meeting, and it reflects significant compromises and challenges we all faced in getting to this historical moment.

Growing up in rural Colorado and throughout my tenure as a public servant, it seems the Animas-La Plata conflict has endured. Every time water and water projects were discussed, the promises and unsettled claims to the Colorado Ute Indian tribes always persisted.

Now the time has come for the Federal Government to fulfill its obligations to the Ute Indian tribes and satisfy the water treaty.

The project was originally authorized in 1968 with the help of then-Congressman Wayne Aspinall, a good friend of the Allard family and former chairman of the House Interior Committee. I knew Mr. Aspinall. He served Colorado honorably. Over the past 32 years, since authorization, we have tried to get this project completed with bipartisan efforts by former Congressmen Ray Kogovsek and Mike Strang. Now, with the

outstanding leadership of Senator CAMPBELL, who for 14 years has championed this project, I believe the end is near. After 132 years, the time has come for the United States to finally do the right thing and meet its treaty obligations.

I commend Senator CAMPBELL for his tireless efforts, from his days in the House of Representatives, to his current time in the Senate and through three different Presidential administrations, to fulfill our Nation's treaty obligations.

I yield the floor.

The PRESIDING OFFICER (Mr. BEN-NETT). The Senator from Colorado.

Mr. CAMPBELL. Mr. President, I yield to my friend from New Mexico, Senator BINGAMAN, who has worked long and hard on this issue.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President. I thank my colleague from Colorado. Senator CAMPBELL has worked very hard on this. This has been a major project of his. I do not know how many conversations he and I have had on this subject in the last 2 years, but I can tell you it has been many. There have been many of those conversations.

In 1988, Congress passed legislation endorsing a settlement of Indian water rights for the southern Ute and Ute Mountain Indian Tribe which had been agreed to by the Departments of Justice and Interior, the two tribes, and the State of Colorado and the State of New Mexico. But that 1988 legislation envisioned an Animas-La Plata River Project that would meet a number of regional water needs, including the water for the Navajo Nation and the non-Indian communities.

The project envisioned by that legislation has proven infeasible to implement in terms of the cost and also in terms of the environmental consequences, but the need to settle these water rights and live up to the national commitment to these two tribes remains. The two Ute tribes and their neighbors within the San Juan basin have developed a revamped water allocation for a downsized Animas project which the Ute tribes will agree to as a settlement of their water rights. The allocation also supplies a much needed water supply to the Shiprock community of the Navajo Nation and continues the concept that tribes in non-Indian communities must work together collaboratively on a regional basis to solve their water needs.

The downsized project is in accordance with the final environmental impact statement issued by the Department of the Interior. In the judgment of the Secretary of Interior, it would comply with Federal environmental laws. He has made that very clear. The Secretary has determined that the project authorized in this legislation also will meet the trust responsibilities

of the United States with regard to the settlement of the water rights of these two tribes.

This is a project and an issue that has been a concern of people in the northwest part of New Mexico for many years. I have seen various versions of this project discussed and considered over this period of time. I am persuaded that this final so-called "Animas Lite," which is what is generally discussed, or the name that has come to be attached to what is now being considered by the Senate, is a good resolution of many conflicting and competing concerns.

I hope very much that we can pass this bill, that we can do so without amendment, and that we can send it to the President for his action.

Again, I commend Senator CAMPBELL for his hard work in getting us to this point. I hope very much we can follow his lead and send this legislation to the President for his signature.

Mr. President, I yield the floor and yield back my time.

Mr. DOMENICI. Mr. President, I am very pleased today, Mr. President, that Senator Campbell introduced this critical legislation, and am proud to have supported and cosponsored his efforts from the beginning. He and I have faced many a battle regarding this issue over the years. I believe, however, that this legislation reflects the cooperative efforts among the parties to secure needed water supplies in Colorado and New Mexico, and I am pleased it may finally become law.

While we are running out of time in this Congress, the Secretary of Interior signed a Record of Decision on September 25 supporting these amendments, and his staff helped to negotiate them. The time is ripe for action. After years of hard work by the proponents, everyone is ready to move forward.

The Southern Utes and the Mountain Utes have a 5-year window before they have to sue to enforce their water rights. Passage of this legislation will settle negotiated claims by the Colorado Ute Tribes on the Animas and La Plata Rivers, while protecting other water users.

For years now, the San Juan Water Commission, together with non-Indian water users in New Mexico, Colorado, and the Ute Mountain Ute and Southern Ute tribes have been negotiating with the Department of the Interior, the Environmental Protection Agency and other to resolve the complex problems surrounding the Animas-La Plata project and water usage in the four corners area. The bill has Administration support, which has been long-fought and hard-won. Finally, the administration has shown their interest in settling the Colorado Ute Indian water rights claims by accepting the tribes' own suggestions and water needs of the Four Corners non-Indian community.

In New Mexico, this legislation will provide needed water for the Navajo Community of Shiprock and protect San Juan-Chama project water, on which tribes, towns and cities along the Rio Grande rely. The New Mexico portion of the project will be used by the San Juan Water Commission to provide water to the residents of North Western New Mexico and by the Navajos for their use in the Northern Navajo Nation. This legislation is not intended to quantify or otherwise adversely affect the water rights of the Navajos, and they support this legislation.

In anticipation of development of the Animas-La Plata project, the state of New Mexico set aside 49,200 acre feet of water in 1956. Importantly, this legislation allows the State Engineer from the State of New Mexico to return all or any portion of the New Mexico water right permit to the Interstate Stream Commission or the Animas-La Plata beneficiaries.

I am pleased the proponents of the Animas-La Plata project have participated in the long process to search for compromise. I support the direction of the participants in this process to reduce costs, provide environmental benefits, and provide water for the Colorado Ute tribes under the 1988 Settlement Act.

Mr. President, the administration has a duty to protect the federal trust relationship with the Ute tribes, as well as a duty to the state of New Mexico to make good on the promises of 40 years ago. S. 2508 represents a compromise for which all parties affected have labored long and hard to achieve. It is the long-overdue vehicle for implementing the United States' promise of water to New Mexico, Colorado and the Colorado Ute tribes while still addressing the needs of endangered species and the American taxpayer. Water scarcity continues to be a critical issue in the arid West and no one would benefit from litigation of water rights if we do not press forward.

According to recent scientific predictions, rationing may be required within the next two years. Successful development of additional water in the San Juan Basin, with its endangered fish, will give the rest of New Mexico good arguments why other endangered fish, such as the silvery minnow, can co-exist with additional water development. Additionally, successful settlement of the two tribes' claims will remove the threat of disrupting the water supply vital to the economic and industrial base for Northwest New Mexico, which contributes to the rest of New Mexico. The citizens of Northwest New Mexico have waited more than 40 years for this water—that's long enough.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. CAMPBELL. Mr. President, I thank my friend and colleague from New Mexico. We are neighbors. Cer-

tainly his northern New Mexico area and the southwest Colorado area have histories which are very similar, our present is similar, and our futures are literally tied together. I thank him for the years of service and hard work he has done on this issue.

Mr. President, I have no further comments. I ask unanimous consent, as under the agreement, Senator Feingold be recognized to offer his amendment.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Wisconsin.

AMENDMENT NO. 4326 TO AMENDMENT NO. 4303

Mr. FEINGOLD. Mr. President, I thank the Senator from Colorado. Pursuant to the previous order, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Wisconsin [Mr. Feingold] proposes an amendment numbered 4326 to amendment No. 4303.

Mr. FEINGOLD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 10 of the amendment, line 11, insert ", to restrict the availability or scope of judicial review, or to in any way affect the outcome of judicial review of any decision based on such analysis" before the period.

On page 10 of the amendment, strike lines 12 through 23 and insert the following:

"(C) LIMITATION.—No facilities of the Animas-La Plata Project, as authorized under the Act of April 11, 1956 (43 U.S.C. 620)(commonly referred to as the 'Colorado River Storage Act'), other than those specifically authorized in subparagraph (A), are authorized after the date of enactment of this Act.

On page 11 of the amendment, beginning on line 21, strike "Such repayment" and all that follows through ".)." on line 24.

On page 12 of the amendment, line 9, insert after the period the following: "Fish and wildlife mitigation costs associated with the facilities described in paragraph (1)(A)(i) shall be reimbursable joint costs of the Animas-La Plata Project. Recreation costs shall be 100 percent reimbursable by nontribal users.".

On page 13 of the amendment, beginning on line 2, strike "Additional" and all that follows through line 6.

Mr. FEINGOLD. Mr. President, I rise to offer an amendment to the substitute offered by my colleague from Colorado, Mr. CAMPBELL. I do so fully acknowledging that the Animas-La Plata project, as outlined by the Senator from Colorado's substitute amendment, has undergone a significant modification from its original configuration. What was a more than \$750 million dam, reservoir, pumping plant, and associated pipelines and irrigation components, is now proposed to be a much smaller and less costly reservoir project to satisfy the Ute and Navajo

claims and provide water delivery to the Navajo Reservation. The scaleddown project is now a \$278 million project to build a reservoir and pipeline according to the administration's Record of Decision released on September 25, 2000.

The Senator from Colorado and I have shared an interest in settling the Utes' claims for many years. We agree that those claims must be settled and that construction of a reservoir is an acceptable way to achieve that goal. Moreover, he has worked to accomplish that objective. In passing his substitute, Congress will be seeking to downsize the project to effectuate a settlement that satisfies the tribes water needs at 100 percent Federal cost, which is appropriate. However, and I want to make this clear to colleagues, the sized-down project also provides a significant new water supply for non-tribal municipal and industrial use. The Senator from Colorado's substitute amendment guarantees that about 35 percent of the water held in the reservoir would be stored for use by non-tribal interests: 10,400 acre feet for the San Juan Water Commission: 2.600 acre feet for the Animas-La Plata Conservancy District; 5,230 acre feet for the State of Colorado: and 780 acre feet to the La Plata Conservancy District of New Mexico.

So this legislation is not solely an Indian water rights settlement. The Senator from Colorado and I differ in our opinions as to how the nontribal entities should be treated in this legislation, and that is why I am offering my amendment today. I want to make sure that the outcome Congress is "seeking" to implement through this legislation is one that it actually finds. I have three reasons for offering this amendment, which I will describe in a little bit of detail.

First, I remain concerned that the substitute only does half the job with respect to making sure that the taxpayers are off the hook for the original full-scale project. Those who support the construction of the Animas-La Plata project now want to proceed with an alternative which they believe to be a cheaper and scaled-down version of the original project. They want to do without so. however, expressly deauthorizing the original project. It appear to me that proponents won't give up the authorization for the original project because it provides them with the ultimate insurance. Should this alternative be infeasible, retaining the original authorization would allow a fallback position for proceeding with the old project. My amendment makes it absolutely clear that Congress is granting its approval only for the scaled-back year 2000 version of the project and not the original 1956 version of the project.

By deauthorizing all additional features of the old project, Congress would

ensure that no such project features or components could be built without a demonstration by the project proponents that such features meet specific economic and engineering standards designed to protect the Federal Treasury, public safety and welfare. The Reclamation Project Act of 1939 requires engineering feasibility reports, cost estimates and economic analyses for a "new project, new division of a project, or new supplemental works on a project * * *" A project which is not authorized would be considered a "new project, new division of a project, or new supplemental works on a project" and be subject to the planning and reporting requirements. The substitute of the Senator from Colorado allows a future Congress to give its approval for a project or part of a project which has previously been authorized as part of the Animas-La Plata project as described in the Colorado River Storage Project Act of 1956. So, what it comes down to without my amendment, it is not clear that the additional construction would be subject to any feasibility requirements. I think taxpayers have a right to know that information.

Moreover, newly authorized projects are also subject to the Economic and Environmental Principles and Guidelines for Water and Land Resources Implementation Studies-known "Principles and Guidelines"—promulgated pursuant to the Water Resources Planning Act of 1965. The Principles and Guidelines are the seminal policy statement requiring Bureau projects to integrate full economic cost recovery, financial and economic feasibility principles, and protection of the environment into planning for water resource projects. The Principles and Guidelines are the bridge between the old era of costly and economically ruinous Bureau projects and a new era of careful, resource protective planning. Many Members of this body fought hard to ensure these reforms would move forward. The old full-size Animas-La Plata project has not been analyzed under the Principles and Guidelines. One of the key criticisms of the old project has been the Bureau of Reclamation's failure to utilize the current discount rate, the cost of any electric power revenues produced by the project, and other economic variables in its studies. So if my amendment becomes law, any future features would be subject to the planning requirements of the Principles and Guidelines.

The second point of my amendment is that it requires that nontribal water users actually pay recreation and fish and wildlife costs. The nontribal project proponents have argued that because section 8 of the Colorado River Storage Project Act of 1956 makes recreational and fish and wildlife costs nonreimbursable for the projects it authorized, they should not have to repay

such costs. ALP in its original, 1956, design, with no Indian water rights purposes or beneficiaries, was authorized by CRSP. I believe that the nontribal water users should pay these costs for a couple of reasons.

First, the administration's Final Supplemental Environmental Impact Statement for ALP takes the position that the version of the ALP project now being proposed for construction is so significantly different in size, features and purposes that the limitation in section 8 of CRSP does not apply. Page 5, Section 1.8 of that appendix states:

A contemporary determination of reimbursable and non-reimbursable project costs is justifiable based on the significant re-defining of the current project's purpose and limitation of water use as well as current Administration policies.

Second, as the just-quoted language implies, the policy of the current administration, as well as the policy of preceding administrations throughout the 1980s and 1990s, has been to seek reimbursement of recreation and fish and wildlife mitigation costs of Federal water projects. There are numerous examples, such as the Garrison project, Central Utah Project, and the Central Valley Project Improvement Act. Many Members of this body worked hard to enact these reforms. In fact, obtaining reimbursement for recreation and fish and wildlife mitigation costs has been an element of Federal policy dating back to the Fish and Wildlife Coordination Act of 1946, Federal Water Project Recreation Acts of 1965 and 1974, and various Water Resource Development Acts, most notably WRDA 1986.

Obtaining reimbursement for fish and wildlife and recreation costs is far from unprecedented, and, in fact, is consistent both with contemporary policy and with the actual practice of recent years. We are authorizing a smaller project today, and that smaller project should be held to year 2000 reimbursement standards.

In addition to making clear the intent of Congress to require the repayment of fish and wildlife costs, my amendment further clarifies amount of construction costs that the nontribal water users have to repay to the Federal Government. The substitute of the Senator from Colorado gives the nontribal water users the right to prepay for construction. At the end of the construction they are given the choice of electing whether to make a second payment to settle their account with the Federal Government. If they choose to enter into a new contract, under the terms of the substitute, they are required to only repay construction costs that are "reasonable and unforeseen." I think that allowing a second bite at the apple by giving water users the option of not making the second payment is a big enough gift from the taxpayers. I have repeatedly opposed prepayment because I believe and feel that the tax-payers often get stuck for contract delays and cost overruns. I am concerned that the substitute opens the door to allowing the definition of "reasonable and unforseen" to be argued in court. My amendment makes it clear that, when the final tally is levied, even though that is a practice I find questionable, it should include all of the costs—all the costs—the Federal Government has incurred.

Third, and finally, I remain concerned that the findings in section 1(b) of the substitute may have the unintended effect of influencing a court's review of the sufficiency of agency compliance with Federal environmental laws applicable to the Animas-La Plata project. My amendment adds language to the bill to make sure that tampering with court review does not occur.

Colleagues may say, well, these are only findings in the bill. What effect could they possibly have on a court? I would ask my colleagues to first ask themselves what other purpose these findings could possible have in this bill that is not to have influence on a court.

Second, these finds are a compromise from the prior version of S. 2508, which included explicit determinations by Congress entitled "compliance with the National Environmental Policy Act" and "compliance with the Endangered Species Act of 1973" and which relied in part upon the findings. These sections have been deleted from the substitute, but the findings remain as determinations by Congress that could be used to attempt to influence judicial review of compliance with environmental laws.

For example, the finding in section 1(b)(5) states in effect that the passage of S. 2508 is "in order to meet the requirements of the Endangered Species Act." The finding that Congress has reviewed all of the environmental studies—section 1(b)(8)—in combination with the finding that Congress has decided to enact S. 2508 to implement the Record of Decision that resulted from those environmental studies—section 1(b)(10)—would have the effect, I am afraid, of influencing a court's review of a challenge to the adequacy of the studies or the soundness of the decision contained in the Record of Decision.

Indications of Congress's substantive views about a proposed project, as expressed in the legislation authorizing the project, have been used by the federal courts in evaluating whether the project complies with applicable federal environmental laws. Because the findings in S. 2508 appear to be designed to influence judicial review, as explained above, and because the precise intent of the findings is open to interpretation, a reviewing court could ascribe little weight, extreme weight, or no weight at all to these findings

during the course of ruling upon a citizen suit.

To neutralize this potential impact upon a reviewing court in a subsequent citizen challenge to environmental compliance, I propose to add language, so that section 2(a)(1)(B) will read:

Nothing in this Act shall be construed to predetermine or otherwise affect the outcome of any analysis conducted by the Secretary or any other federal official under applicable laws, to restrict the availability or scope of judicial review, or to in any way affect the outcome of judicial review of any decision based on such analysis.

I believe overall that this amendment in all its parts will make this bill better. It commits the Federal Government solely to the construction of a reservoir and protects the taxpayer. It preserves the right of courts to review the project's environmental compliance and it ensures that the nontribal water recipients pay their fair share. So, Mr. President, I urge my colleagues to support this amendment.

Mr. President, I ask for the yeas and nays on my amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be.

The year and nays were ordered.

Mr. FEINGOLD. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. There are $8\frac{1}{2}$ minutes.

Mr. FEINGOLD. I reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. CAMPBELL. Pursuant to the unanimous consent agreement, I will, at the end of my statement, move to table Senator FEINGOLD's amendment. Also pursuant to that agreement, I request 10 minutes of the 30 that has been agreed to under the unanimous consent.

Each of the changes proposed by Senator Feingold is either unnecessary or would have the opposite effect to what he intends. I will tell the Senator, who I consider a good friend, that I was in his State just last week with his very fine Governor, Tommy Thompson, traveling across the State doing several things. It was raining the whole time I was there. I rather marveled about how green and nice it was and how much water it had. I was somewhat envious coming from a State that has to store roughly 85 percent of its water needs a year. And as I looked around, I saw many roads and bridges and more than one or two lakes that I think had been paid for with the taxpayers' money in one form or another.

I would tell him that if he lived in a State such as mine or any of the Western States, as the Presiding Officer lives, he would understand how desperately we need water and how in a fast growing State it puts more and more strains and stresses on existing water.

I will talk about the Senator's amendment a little bit. Senator FEIN-

GOLD's amendment proposes that we make existing Federal reclamation law inapplicable to non-Indian project beneficiaries. The Senator asks the Senate to amend S. 2508 to eliminate all references to the Colorado River Storage Project Act of 1956. I don't know the age of the Senator, but I have a hunch it was about the time he was born. I assume Senator FEINGOLD believes that his amendment will make the repayment obligations more fair. In fact, it would be completely unfair to require these individuals to bear a greater repayment burden than all the other projects constructed under the authority of the 1956 and 1968 act. It would, in fact, in my view, be somewhat discriminatory against non-Indians.

If the Senate makes any of the changes proposed by Senator Feingold, we will be saying that existing Federal law should not control the repayment obligation of the non-Indian water users of the project. Other water users up and down the Colorado River—and there are many in our States, as the Presiding Officer knows—will have their repayment obligation set by existing Federal law, but those getting water from this part of the Colorado River system and at this late hour will be told that a new law controls their repayment obligation.

I have to ask my colleagues, why should these project users be singled out in this manner? The most unfair part of this amendment is that it would be part of an Indian water rights settlement act. These non-Indian people are only being treated differently because they agreed to accept the smaller project as part of their agreement with the Ute Indian tribes. As the chairman of the Indian Affairs Committee. I can't think of a worse precedent or message to send. In my view, we ought to be rewarding the non-Indian neighbors who have worked cooperatively with their Indian neighbors. not making them pay more money for their cooperation.

If any of the repayment provisions proposed by Senator FEINGOLD were to pass, I would have to advise my non-Indian constituents that it is actually in their best interest to break their agreement with the tribes, because the price they must pay for fulfilling their commitment to the tribes is to give up all the rights they already have under existing law. I am sure that isn't what the Senator intends, but that will be the result of the proposed amendment.

Senator FEINGOLD's proposed change concerning project deauthorization has the same effect. Under my bill, the only parts of the project that are to be constructed are the components that are explicitly included in S. 2508. Every other part of the project cannot be built unless and until they are authorized by Congress. That is the compromise on deauthorizing the project.

The administration agrees with this compromise. It was even accepted in the House Resources Committee on a bipartisan vote.

This compromise is fair because it only becomes effective if the small part of the project is actually constructed. The Senator from Wisconsin asks the non-Indian project beneficiaries, including the State of Colorado, to accept project deauthorization now and accept the Government's promise that a smaller project will be built someday. I can tell you, with the history of promises made by the Federal Government to Indians, in fact to many people in the West, I am somewhat skeptical. I know the Republican Governor of the State of Colorado and the Democratic Attorney General also reject this idea. I ask the Senate to reject it as well. It is simply not fair.

Senator FEINGOLD also proposes a provision concerning judicial review. I assume this is intended to preserve judicial review. At best, however, this will have no effect because there is nothing in the bill that constricts judicial review. There is nothing to preserve. Since the provision has no obvious application, we should be concerned that a court will be encouraged to make some kind of a provision that doesn't exist now. Maybe a court will decide to interpret the provision as an invitation to ignore all the work Congress and the administration have done to analyze the project and its alternative. There is simply no reason to take that risk.

The administration has had its say in its record of decision. Congress will have its say by enacting S. 2508. There is nothing in the bill that prevents the court from doing what courts do or what they are supposed to do. They can have their say on whether the other two branches have followed the law. There is no reason to supplement or enhance the authority of the Federal courts with respect to this bill or the project.

The most unfair change suggested by the Senator is his desire to require nontribal recreation costs be made nonreimbursable. First, this is directly contrary to existing law. Ever since Congress enacted the Colorado River Storage Project Act in 1956, all recreation and fish and wildlife enhancement costs are nonreimbursable. Senator Feingold proposes we do away with that part of the law. This would require water users in New Mexico to pay for recreation facilities or benefits in Colorado. Again, this provision would be included in an Indian water rights settlement. I think it is completely unfair to have New Mexico bear additional unwarranted expenses solely because they agreed to be part of this historic agreement.

I am sure the Senator from Wisconsin means well, but meaning well is not a test of whether we should amend

S. 2508. Upon inspection, none of the proposed changes is necessary and most will be harmful. Each of them would wreck years of good faith negotiations among the parties. Also, they would mean breaking explicit promises made decades ago by the Federal Government.

For those reasons, I urge my colleagues to vote to table the proposed amendment, and I move to table the amendment and ask for the yeas and nays as outlined under the unanimous consent agreement.

The PRESIDING OFFICER. The motion to table is not in order until all time has been used or yielded back.

Mr. CAMPBELL. I will withhold.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. FEINGOLD. I thank the Chair. As I understand, I have 8 minutes remaining.

The PRESIDING OFFICER. That is

Mr. FEINGOLD. Mr. President, let me briefly respond to my colleague's remarks. Let me, first, indicate not only am I not insensitive to the needs of Colorado, my mother is a native of Colorado, who did not come to Wisconsin until she came to college. I have great affection for the State and certainly respect the water needs that are so central to the State and to Western States.

Let me respond to the specific points because I think we have worked together well to try to narrow our differences and to come up with this agreement in a way to try to have these matters discussed on the Senate floor in an expeditious way and to have a vote and to have the matter go forward as appropriate.

The first point the Senator seemed to put his greatest emphasis on was whether or not the non-Native American users of the water should somehow be put in the same position of others who were the beneficiaries of the previous projects that were based in 1956. He suggested that somehow it would be discriminatory for these individuals and families to have to pay certain costs that the others did not have to pay in the past. I suppose that is one way to look at it, but I really look at it a different way.

I don't see the people who have benefited from some of these water projects in the past as really the relevant group. The relevant people now are those of us here today, both those who need the help of the water, the Native Americans and others, but also the taxpayers today. To not alter the repayment system for this is to ignore the reforms that have occurred since 1956.

There has been an effort and success in legislating a different way to handle this, to make sure that some of these expenses are reimbursed. I understand there may be those in this situation who may believe it is unfair that they are not put in the same position as those in the past, but I don't really understand how that is as important or relevant as making sure the taxpayers of today are not unfairly being discriminated against by having to pay more than they should for this project.

The Senator from Colorado even alluded in his initial remarks to the fact that he could at least understand the criticism of some of the past water projects. I think that same argument holds for some of the failure to reimburse on some of the past water projects.

This is not just my idea. I want to assure you that the OMB in this matter in their report on the Animas La-Plata project indicated this kind of reimbursement is entirely appropriate.

I will ask to have printed in the RECORD a statement of administration policy in support of my amendment. It reads in part:

The administration understands that Senator Feingold is proposing to offer a floor amendment to S. 2508. The amendment would provide additional safeguards concerning existing environmental laws, a more explicit deauthorization of unplanned project features, additional safeguarding of proposed taxpayer investment in this project, and would update the project's cost-sharing—

I emphasize "cost sharing"—

to reflect current Administration policy for fish and wildlife mitigation and recreation costs.

I ask unanimous consent that it be printed in the ${\tt RECORD}.$

There being no objection, the material was ordered to be printed in the RECORD, as follows:

STATEMENT OF ADMINISTRATION POLICY

S. 2508—TO AMEND THE COLORADO UTE INDIAN WATER RIGHTS SETTLEMENT ACT OF 1988

The Administration supports S. 2508 as proposed to be modified by the manager's amendment. The bill, as amended, would accomplish the important goal of providing for a final settlement of the water rights claims of the Colorado Ute Indian Tribes that complies with our environmental laws by authorizing a scaled-down Animas-La Plata project in conjunction with a water acquisition fund.

The Administration had noted concerns with S. 2508, as introduced, because it: (1) contained objectionable language relating to compliance with the nation's environmental laws, (2) did not adequately eliminate the extensive number of Animas project features previously authorized but not currently contemplated, and (3) shifted the risk of unforeseen construction cost increases to federal taxpayers. The latest version of the bill as modified by the manager's amendment satisfactorily addresses these concerns.

In addition, the Administration understands that Senator Feingold is proposing to offer a floor amendment to S. 2508. The amendment would provide additional safeguards concerning existing environmental laws, a more explicit deauthorization of unplanned project features, additional safeguarding of the proposed taxpayer investment in this project, and would update the project's cost-sharing to reflect current Administration policy for fish and wildlife mitigation and recreation costs.

The Administration would support the Feingold amendment, which is consistent with the Administration's Animas proposal as outlined in the Interior Department's July 2000 Final Supplemental Environmental Impact Statement and subsequent Record of Decision. However, if the Feingold amendment does not pass, the Administration supports S. 2508 as modified by the manager's amendment.

Mr. FEINGOLD. Mr. President, I am not talking about something that is actually discriminatory. It is simply inconsistent with the law and the policy with regard to how these projects should be handled today to protect tax-payers—not in 1956.

Second, the Senator from Colorado talked about the fact that, yes, our bill does try to make sure that this project, since it has been scaled down—and I give the Senator credit for that—in fact, that is what we authorized. We don't leave the door open for sort of behind-the-scenes reauthorization of this.

He does point out clearly that in certain contexts it would be necessary to actually formally reauthorize the project for additional aspects of the project.

But my understanding is—and the reason we offered this is—if this current scaled-down project is not built, there would not be a requirement of a new authorization; that the situation would revert back without the need for more authorization for the much larger project. I believe it was something like \$750 million.

It is not that the Senator is wrong about the fact that there are some situations where there might be the requirement for an authorization in the future. But if it isn't built—the Senator has alluded to the possibility it wouldn't happen—if, in fact, his central complaint is that it hasn't happened, and if it doesn't happen, we don't go back to an open process to figure out what this ought to be. It automatically gets reauthorized.

That is what troubles me. That is what I want to nail down. I want to make sure this project actually fits the size it needs to be and the people who need the help will get the help they deserve.

Finally, the Senator spoke about the third part of our amendment. In fact, in our amendment we want to make sure there is the opportunity for the full judicial review that is appropriate in situations such as this.

The Senator says the bill does nothing to undo the possibility of additional review. But I have raised the concern about some of the findings that are placed in the bill and why those findings would be there if they were not in some way to influence the court.

I accept his statement. That is not his intent.

All we are trying to do is have some language, which I read into the Record. It is very simple. It states clearly that

the information and findings should not be used in a way that would preclude the court from using the current laws that apply to this situation.

That is all. It certainly does no harm to the Senator's position—unless, in fact, there is something in the bill that is intended to prevent the courts from having the full opportunity to review that they now are required to do under current law.

Mr. President, I reserve the remainder of my time.

Mr. CAMPBELL. Mr. President, I guess we could talk about everything, put it on spreadsheets, and talk about the dollars spent. But the Senator from Wisconsin mentioned something that I think is very important. He talked about the relevancy.

It seems to me that relevancy is part of the big picture and whether we ought to keep our promises. After 474 broken treaties by this Nation towards Indians, isn't it time we kept one?

We made a promise in 1935 to senior citizens called Social Security. If we can break our promise to one class of people in America, why can't we break it to another? Why can't we break our promise made to senior citizens? I will tell you why. We can't and won't because it is called stepping on a third rail called the AARP. Some thirty-million seniors belong to it-or more, for all I know—and they would absolutely come down the throat of everybody that is a Member of this body. So we don't fool around with them. We don't break our promises to people with high-powered lobbyists and full-time lawyers and lots of members that can write letters and oust us out of office.

Indians can't do that. There are not many of them. They don't have much money. They lost almost everything. So they have very little voice here. It is easy to take away the promise that we made to them. I think it is wrong. We talk about relevancy. This Nation ought to be greater than that, and keep our promises.

The statement of administration policy in the last paragraph basically says they would support this bill with or without the Feingold amendment.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. FEINGOLD. Mr. President, I will be very brief. I respect the Senator's time, and I want to keep my promise.

I want to be absolutely clear in the Record. There is absolutely nothing in the amendment I am proposing that in any way breaks the promise to the Utes and others who will certainly benefit from this project. We are very careful about that.

But it talks about the size of the project. It is a project that the Senator from Colorado has agreed to as a scaled-down project. But surely he is not suggesting that he is breaking a promise to anybody with that proposal; therefore, neither am I by suggesting it be that size.

I just want to be sure that somehow we do not end up with a wholly larger project later on, which the Senator from Colorado has agreed to leave aside, and certainly make sure that various reimbursements become, under law, a standard practice in these kinds of situations. Certainly, that is not a breach of a promise.

This is the law of the land and the way we do these things at this point to protect our taxpayers. Surely, it is not a breach of a promise to suggest that there ought to be a chance for the kind of judicial review that should occur in situations such as this.

In fact, I would suggest to the Senator—because I think we work together well on this—that I promised months ago that my goal here was not to put a hold on the bill so it could never come up. All I said was I would like an opportunity to offer some amendment. We worked together. I agreed to a time limit, which is exactly what is happening here. The promise was kept in that regard as well.

I am trying to be constructive and improve this bill. And the administration agrees. Even though they agreed fundamentally with the legislation, they also agree that my amendment is not harmful, but is, in fact, beneficial in making the bill better in the context of keeping our promises.

I yield the remainder of my time.

Mr. CAMPBELL. Mr. President, I yield any remaining time. I move to table the Feingold amendment, and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The Senator from Alabama.

ALABAMA'S DISTINGUISHED PRIN-CIPAL OF THE YEAR, TERRY BEASLEY

Mr. SESSIONS. Mr. President, this Capital and in the world too seldom do people of real achievement, people who have given of themselves sacrificially for others, receive proper recognition. As Leo Durocher once said, "Nice guys finish last." But, today there is good news. I want to celebrate the fact that good things do happen to those who serve in America. Often, it takes time, often it comes only after long years of service, but our country still remains capable of recognizing excellence.

Today I want to describe for you the magnificent contributions to children, to teachers, to community and to the highest ideals of education and enrichment that have been made by Alabama's Distinguished Principal of the Year, Mr. Terry Beasley. The Greeks once said that the purpose of education is more than technical learning, it was to make a person "good". In those days, people apparently didn't have the

difficulty distinguishing between good and the bad that we seem to have today. In addition to academic excellence, in abundance, Terry Beasley exemplifies "the good."

Although I did not know he was being considered for this award and had absolutely nothing to do with his selection, the name "Mr. Beasley" has always held the highest position in our family. You see, he taught our children at Mary B. Austin elementary School, a part of the public school system in Mobile County, AL, my home. He taught math and his name was mentioned with the greatest respect, even awe, by my children.

You could tell just the way they said "Mr. Beasley" and how often the name "Mr. Beasley" was repeated, that they knew he was special.

My wife, Mary, a former elementary school teacher herself, was a regular volunteer parent in the classroom at Mary B. Austin. She knew Mr. Beasley then and the fire reputation he had with teachers, principal, parents and students. People still talk about the famous school playday when Mr. Beasley would not only play ball with the children but would race the bases and slide into home. Our friends, also, with children in the school, frequently discussed his remarkable skill as a teacher and his dedication to teaching.

Before he became a teacher. Terry Beasley was a minister and youth director at a Mobile church. He considered that perhaps teaching could be a calling too, and decided to give it a try. In fact, the scripture lists "teacher" as a person who can be called. So he decided to give it a try. It was a divine inspiration, indeed. As he told me recently, it soon became clear to him that "I had found my calling in teaching". His first job was at Mary B. Austin. Certainly, his later skills as a principal benefitted from the fact that he was able to work under and observe the great leadership skills of Glenys Mason, who was principal at Austin at the time, and to work with excellent teachers

Later, he moved across Mobile Bay to the Baldwin County school system and became principal at Fairhope Elementary School. They have 370 students and 36 teachers in the second and third grade school. Under Mr. Beasley's leadership the school has flourished.

Last year the school was recognized as having the best physical fitness program in Alabama, and was also recognized for its Kindness and Justice Program which teaches kindness and consideration to others with reference to the teachings of Dr. Martin Luther King.—We need to be intentional about these character programs. Finally, the school was also recognized as having the best elementary environmental science program in Alabama. In fact, the third graders drafted a statute which became Alabama law to name

the Red Hill Salamander as the state amphibian. As a result of this work, and the efforts of the teachers, the student scores on the Stanford Achievement Test showed a significant increase.

Fairhope Elementary is a wonderful school with a diverse student population. 23 percent of the students are on free or reduced lunch and 18 percent are minority students. Mr. Beasley has created a learning environment that is dedicated to helping each child reach his/her fullest potential. He is in the classroom constantly, assisting teachers, training teachers, and insisting on excellence. His leadership is extraordinary. Being a good teacher has certainly helped him be a great principal.

As he told me, "Math is my love, I don't claim to be an expert, but I love it. If we can't make math real then kids won't learn." These are not just words for Mr. Beasley. His intense interest in helping children led him to study how they learn. His experience caused him to write a paper on "writing math". Ohio State University wants to publish it. In this technique, Mr. Beasley encourages students to write out in their own words exactly the processes they are going through when they do their math calculations. From this experience, the student comes to understand what they do not know and the teacher is able to help them. It helps them to relieve their anxiety about math and makes them more comfortable with it. Mr. Beasley quotes John Updike as saying, "Writing helps me clear up my fuzzy thoughts". He adds, "Write about math and it becomes clear." A principal is a valuable thing indeed, as is an exceptional teacher. This nation needs to venerate them, to lift them up and to celebrate their accomplishments. Hundreds of thousand of them strive daily to help each child learn too often with little recognition.

As Mr. Beasley notes, the scripture lists teaching as a "calling." It is good for us to praise and give thanks to those who touched us with their work and those who daily work to prepare the next generation for service.

Terry Beasley is a great American with a powerful determination to fulfill his calling—to help make young people better and to help them learn. He is a native of Waynesboro, Mississippi, and his wife, Charlotte, also an educator at Spanish Fort Middle School in Baldwin County, Alabama, is a native of Millry, AL. Together they represent the best in education in America.

I have been honored to know them. I am pleased and honored that Mr. Beasley has been able to teach my children. There are so many others like him. I have been in 20 different schools in Alabama this year and there are a lot of problems. Teachers have shared with me from their heart their frustra-

tions. But we have some great teachers all over America and some great principals. Sometimes I think we don't realize how important a good principal is because without a good principal a school just can't reach its best.

In my visit to those 20 schools, they didn't ask for a bunch more Federal programs. We have 700 Federal programs right now. What they have told me, time and again, was that Federal regulations are micromanaging the work they have to do, requiring them to fill out much more paperwork than even their whole school system requires and, in fact, undermining their ability to maintain discipline in the classroom. I hear that time and time again. That is another matter.

I simply want to say again how much I appreciate the distinguished group that had the wisdom and insight to select Terry Beasley as the principal of the year because he is indeed special.

The PRESIDING OFFICER. The Senator from Wisconsin.

TRAFFIC STOPS STATISTICS STUDY ACT

Mr. FEINGOLD. Mr. President, I rise to speak for a few moments about the subject of race in America. I want to speak today about how sometimes it seems that whites and African-Americans are living in different Americas. And I want to speak about how we still need to do more to see that we become one America.

There is a movie playing now in the theaters called Remember the Titans. That movie depicts how there were two Americas, not that far from here, not that long ago. It depicts the great civil rights struggle of school integration, through the lens of a high school football team in 1971, at T.C. Williams High School, just across the river from here in Alexandria, Virginia.

The film stars Denzel Washington as Herman Boom, who became head football coach at all-white T.C. Williams High School, when it was just beginning to integrate. Although some in the white community in Alexandria did not welcome integration, in the film, Coach Boom steps into this tempest, and teaches the players and coaches to overcome racial prejudice. He teaches the players to respect each other and to work together as a team, regardless of the color of their skin. In the end, the team conquers racial barriers and goes on to win the state championship. Titans teaches us that we must be willing to confront our prejudices, so that we can build a better America, together.

Since 1971, we have made significant progress in public education. But we still have a long way to go. And we are still failing in other areas, like the treatment of African Americans and Latino Americans by law enforcement agencies. They have become the tar-

gets of racial profiling. It is time for us to confront our prejudices, to address racial profiling.

White Americans have not had similar experiences. We live in a different America. We won't be stopped on the side of the road, at the airport, or while walking through our neighborhoods, based on the color of our skin. We live in an America where we are free to move about. But African Americans, Latino Americans and Americans of other racial or ethnic groups do not live in this same America. They live in an America where they do not have freedom of movement. When it comes to the enforcement of our laws, they surely live in a completely different America.

Mr. President, racial profiling is a terrible practice. It's unfair, unjust and un-American. It should be thoroughly reviewed, so that we can determine how to end it.

Mr. President, racial profiling casts its net so far and wide that its victims include Americans regardless of their education, wealth, or status. Just last month, that net caught Bob Nash and his wife Janis Kearney, both very highlevel officials at the White House. Montgomery County police in suburban Washington pulled over Mr. Nash and his wife, who are both African American. The officers drew their guns. The officers asked them to step out of their car. And the officers handcuffed them.

Why? Well, as far as I can see, the only thing that they were guilty of doing was "Driving While Black." They were stopped, questioned and hand-cuffed for no apparent reason other than the color of their skin. This is an outrage for Mr. Nash, Ms. Kearney, and all Americans who live in a nation that guarantees liberty and justice for all.

At the end of last month, the San Diego police department released a study of traffic stops that found its officers are more likely to stop and search African and Hispanic Americans than whites and Asian Americans. And earlier this month, according to a story that appeared on the front page of the New York Times, a Federal investigation of the New York Police Department's Street Crime Unit determined that its officers engaged in racial profiling in recent years as they conducted their aggressive campaign of street searches in New York. More and more the evidence mounts.

African Americans and other minority Americans have been on the receiving end again and again, of this horrendous practice. It is intolerable. And it screams out for action by the Federal Government. The Senate should take the first step toward ending this terrible practice by passing S. 821, the Traffic Stops Statistics Study Act.

This bill was introduced in the House by Representative JOHN CONYERS and in the Senate by my distinguished colleague and friend from New Jersey, Senator Lautenberg. I commend them ought to do everything we can to end the Federal agents I know, are very for their leadership on this issue, and I am proud to have been able to join them in this effort.

Ought to do everything we can to end the Federal agents I know, are very sensitive about these issues. They have need to find out where racial profiling been trained about them. They know occurs." His own Department of Public precisely what they have to do. It al-

The Traffic Stops Statistics Study Act would require the Attorney General to conduct an initial analysis of existing data on racial profiling and then design a study to gather data from a nationwide sampling of jurisdictions. This is a reasonable bill. It simply requires the Attorney General to conduct a study. It doesn't tell police officers how to do their jobs. And it doesn't mandate data collection by police departments. The Attorney General's sampling study would be based on data collected from police departments that voluntarily agree to participate in the Justice Department study.

In fact, since our traffic stops study bill was introduced in April 1999, we have already seen significant, increased recognition in the law enforcement community of the need for and value of collecting traffic stops data. Over 100 law enforcement agencies nationwide—including state police agencies like the Michigan State Policehave now decided to collect data voluntarily. Eleven state legislatures have passed data collection bills in the last year or so. So this is tremendous progress from where we were when the bill was introduced. I applaud those states and law enforcement agencies that are collecting data on their own.

But more can be done. And more should be done. Indeed, the state and local efforts in this area underscore the need for Federal action. Not all states and law enforcement agencies have undertake data collection efforts. A Federal role is critical for Congress and the American people to understand the extent of problem nationwide. This effort can lay the groundwork for national solutions to end this horrendous practice.

Mr. President, I certainly believe this is not a Republican or Democratic issue. Governor George W. Bush supports data collection. During the second presidential debate, he said, "we

ought to do everything we can to end racial profiling." He also said, "we need to find out where racial profiling occurs." His own Department of Public Safety in Texas has begun collecting data. And Vice President Gore, as well, has been a forceful leader on the issue. All Americans can agree that racial profiling is unfair and unjust and that we need to better understand the scope of the problem.

Our Nation has come a long way in the struggle to live up to its highest ideals of liberty, justice, and equality for all. Congress, historically, has played a critical role in addressing racial discrimination, through legislation that grappled with civil rights issues like voting rights and employment discrimination. Americans are once again calling on the Congress to combat racial discrimination. With this legislation, we can take a step in the right direction, a step closer to becoming truly one America.

I urge my colleagues to support the Traffic Stops Statistics Study Act, and to back its enactment this session.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. I thank Senator FEINGOLD for his concerns about civil liberties in America. It is important for us to give great attention to these issues. Police need to be constantly reminded of their responsibilities.

I was a prosecutor for nearly 18 years full time. I have dealt with police. I remember clearly the policies for years against racial profiling. The law is against that. One of the most famous cases was 25 or 30 years ago, when an immigration officer stopped some individual in a car and arrested him for being an illegal alien. When he asked why he stopped him, he said he had a "psychic feeling" that there was something wrong there.

The court said no. A psychic feeling is not good enough. A racial profile is not good enough. You have to have an articulable basis to make a stop.

But we do not want to suggest, in my view, that this is a routine thing in America. Police officers I know, and

the Federal agents I know, are very sensitive about these issues. They have been trained about them. They know precisely what they have to do. It almost takes a law degree to know what to do, but they know precisely how and when they can make stops and when they cannot. I believe consistently they follow those rules.

I know Vice Presidential candidate Senator LIEBERMAN, in one of his debates, said that he knew someone who had been stopped, an African American, a Government employee. He described that he was offended by it. But the local police said, when they were asked about it—the local police said he was stopped because the car matched perfectly the description of a stolen car. When they stopped it, they did not even know whether the driver was white or black. They were just doing their job. It was not a racial profiling.

So we need not to go too far, suggesting this is too common. I do not believe it is. I think it may happen and it should not happen. It is against the law. It is not proper, and arrests and matters rising from it should not be justified.

I appreciate Senator FEINGOLD's interest in making sure the law is properly followed.

SUBMITTING CHANGES TO THE BUDGETARY AGGREGATES AND APPROPRIATIONS COMMITTEE ALLOCATION

Mr. DOMENICI. Mr. President, section 314 of the Congressional Budget Act, as amended, requires the Chairman of the Senate Budget Committee to adjust the appropriate budgetary aggregates and the allocation for the Appropriations Committee to reflect amounts provided for emergency requirements.

I hereby submit revisions to the 2001 Senate Appropriations Committee allocations, pursuant to section 302 of the Congressional Budget Act, in the following amounts:

	Budget authority	Outlays
Current Allocation: General purpose discretionary Highways		\$597,098,000,000 26,920,000,000
Mass Transit	327,787,000,000	4,639,000,000 310,215,000,000
Total	934,461,000,000	938,872,000,000
Adjustments: General purpose discretionary		
Total	1,299,000,000	
Revised Allocation: General purpose discretionary Highways Mass transit Mandatory	607,973,000,000	597,098,000,000 26,920,000,000 4,639,000,000 310,215,000,000
Total	935,760,000,000	938,872,000,000

I hereby submit revisions to the 2001 budget aggregates, pursuant to section 311 of the Congressional Budget Act, in the following amounts:

	Budget authority	Outlays	Surplus
Current Allocation: Budget Resolution	\$1,532,779,000,000 1,299,000,000	\$1,495,819,000,000	\$7,381,000,000
Revised Allocation: Budget Resolution	1,534,078,000,000	1,495,819,000,000	7,381,000,000

NOMINATION OF MS. LOIS EP-STEIN TO BE A BOARD MEMBER OF THE CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

Mr. LAUTENBERG. Mr. President, the President of the United States today nominated Ms. Lois Epstein to be a Board Member of the Chemical Safety and Hazard Investigation Board.

Ms. Epstein is a licensed professional engineer with over 16 years of technical and regulatory experience involving toxic and hazardous chemicals, with a significant focus on accident and pollution prevention. She currently is a Senior Engineer with Environmental Defense. In that capacity, she has served on three federal advisory committees, two for the Environmental Protection Agency (EPA) and one for the Department of Transportation (DOT). She has also served as a consultant to the Science Advisory Board of EPA. Prior to coming to Environmental Defense, Ms. Epstein worked in the private sector and for the federal government in the EPA Region 9 office.

Ms. Epstein has demonstrated integrity, technical and analytical expertise, industrial plant knowledge, and a stong understanding of environmental laws and regulations. She has the ability to work with a diverse array of interests, and a commitment to resolving environmental and worker safety problems. These qualities, in combination with Ms. Epstein's expertise in engineering, petroleum refining, and her familiarity with the National Transportation Safety Board—the model for the Chemical Safety Board—make her a strong candidate.

Although she is being nominated without enough time remaining in the 106th Congress for confirmation, I hope that the next Administration and Congress will look favorably upon this qualified candidate.

DISTURBING DOD POLICY

Mr. SMITH of New Hampshire. Mr. President, I rise today to speak on a disturbing Department of Defense (DOD) policy that prohibits the adoption of retired military working dogs (MWD).

The bill that I am speaking in support of today, H.R. 5314, will amend the law to allow a handler to adopt a retired military working dog. This legislation was constructed with the guidance and input of all the parties involved. While the Senate version provides more flexibility for the DOD than I would prefer, in the future the Con-

gress will have the opportunity to evaluate the DOD's work when they report back to Congress on their progress in facilitating military dog adoptions.

In discussions with the Managers, my understanding is that this change is only intended to protect the Department of Defense's flexibility to retain animals it determines to be unsuitable for release. In no way is this intended to allow the Defense Department to retain animals that are suitable for release and are no longer needed. I believe it is important to clarify this point, but with that understanding, I am pleased to support this legislation.

The DOD's policy callously discards these highly trained and devoted animals after completion of their service to their country after 8-10 years of age, even if their handlers wish to adopt them.

Under the current law there is no happy retirement for these loyal canines. After their body is no longer able to sustain the workload of their mission, the future becomes bleak for these dogs. In a best case scenario, the dogs are sent back to Lackland Air Force Base, their original training school, where they are used to instruct their human counterparts to become handlers.

After they have served this final duty, they are kenneled for an undertermined amount of time and then put down. In some instances, military working dogs are caged as long as a year until they meet their final outcome. If no kennel space is available, the less fortunate are terminated directly upon their arrival to Lackland.

Without the loyal service of Military Working Dogs and their devotion to their handlers, countless American soldiers would have died or become casualties of war.

These dogs have abilities that our most advanced technology cannot match, rendering them priceless to the men and women serving in our military.

Of the 10,000 men who served with K-9 units during the Vietnam War more than 265 were Killed in Action. Of the 4,000 dogs that served, 281 were "Officially" listed as "Killed in Action," but only 190 were returned home at the end of the war.

More than 500 dogs died on the battlefields of Vietnam.

Military Working Dogs not only helped win battles and save lives, but had an enormous impact upon the mental well-being of those humans that surrounded them in the severest of battle conditions.

It is clear that the DOD's policy does not work in the best interests of the dog handlers and the dogs. There is a distinctly strong bond between dog handlers and their dogs, who work, live and play together on a daily basis.

I believe that the military's policy unnecessarily severs a bond that has taken years to cultivate which can easily be alleviated by allowing dog handlers or other qualified people to care for these highly intelligent dogs after they can no longer serve their country.

The 1949 Federal Property and Administrative Services Act, enacted after World War II, reclassified military working dogs as equipment. According to the military mentality, any piece of equipment no longer operable, becomes a hardship to the unit and must be disposed.

In 1997, the Federal Property and Administrative Services Act was amended. The law was altered to permit federal dog handlers, such as those in the Drug Enforcement Administration, to adopt their aging K-9 partners after their service in law enforcement was completed.

The DOD's K-9 partners were the only federal canine group not included in the modification. Are these worthy canines any less deserving of peacefully living out the remainder of their days than another federal working dogs? These dogs can be detrained of their aggressive responses and we have no reason to assume that they will not continue to obey their handlers.

The bill that I am speaking in support of today, H.R. 5315, will amend the law to allow a handler to adopt a retired military working dog. I believe that legislation was constructed with the best interest for all parties involved.

The decision to allow a handler to adopt their canine partner rests on the shoulders of those who know the dog best: the dog's last unit commander an the last unit veterinarian. Made on a case-by-case basis, the commander and veterinarian are obligated to give their consent before the adoption process can move forward.

Furthermore, H.R. 5314 provides an additional safeguard at the federal level. Upon receipt of the dog, the adopting handler waives all liability against the federal government.

H.R. 5314 will effectively accomplish two goals: it offers the DOD a solution to their dilemma of maintaining aging canines and lifts the restriction that prohibits the adoption of military working dogs. Former dog handlers, individuals with comparable experience, or law enforcement agencies will be able to provide a loving home for such deserving animals.

Through the passage of this legislation, not only will the military working dog be taken from a permanently caged status, but the dog will also be given the opportunity for a positive home environment. I know you will agree that after a lifetime of service, there can be no better reward for both handler and dog.

In closing, H.R. 5314 has been endorsed by the Humane Society of the United States, the American Veterinary Medical Association, the Society for Animal Protective Legislation, the Doris Day Animal Rights League, and The American Society for the prevention of Cruelty to Animals. This is a positive measure which is a win-win solution for dog, handler and the Department of Defense.

I ask unanimous consent to have printed in the RECORD a letter to Senator WARNER from William W. Putney, DVM. He was a C.O. of the War Dog Training School at Camp Lejeune, NC, was awarded the Silver Star for his bravery during his command of a "war dog" platoon in the 3rd Marine Division during World War II.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

WOODLAND HILLS, CA, October 18, 2000.

Senator John Warner, Chairman, Committee on Armed Forces, Washington, DC.

DEAR SENATOR WARNER: I was born in Prince Edward County Virginia. Attended Virginia Tech (VPI then) then graduated from Auburn University in 1943. I immediately went into the Marine Corps and served throughout the war as a line officer in the war dog program and later as the Chief Veterinarian, USMC. Although I am not a constituent of yours, I have many relatives, living in Virginia, that are. I was the platoon leader of the 2nd and 3rd Marine War Dog Platoons that served with the 3rd Marine Division on Guadalcanal, Guam and Iwo Jima and the 2nd Marine Division on Saipan, Okinawa and Japan.

After the cessation of hostilities, I was C.O. of the War Dog Training School at Camp Lejeune, NC when we detrained and returned to civilian life our dogs that we used in WWII on places like Guadalcanal, Bougainville, Kuajalien, Enewetok, Guam, Pelelieu, Saipan, Okinawa and Japan. Our dogs saved a lot of Marines' lives including mine.

Of the 550 Marine war dogs that we had on duty at the end of the war, only four were destroyed due to our inability to detrain them sufficiently to be returned safely to civilian life. Never to my knowledge was there a recorded an instance where any one of those dogs ever attacked or bit anyone. It is not true that once a dog has had attack training, it can never be released safely into the civilian population. All of our dogs were attack trained.

I strongly support Senator Smith in his efforts to change present DoD policy that once a dog has received attack training, it will always be destroyed when he can no longer perform his military duties.

To use animals for our own use and then destroy them arbitrarily when they can no longer be of use to us is the worst kind of animal abuse.

WILLIAM W. PUTNEY, DVM, Captain, USMC, WWII.

Mr. SMITH of New Hampshire. He offers his strong support for a change in the law that will allow the adoption of military working dogs. Former Marine Lt. Putney led a successful effort to build a cemetery and monument for the 25 dogs who died in the liberation of Guam in 1944, and I applaud his work to memorialize their contribution to preventing more loss of life during WWII. I also want to have printed for the RECORD an article that provides some details of his military life and his accomplishments in recognizing the special canine contribution to our wartime successes.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Los Angeles Times, Sept. 3, 1995] MARINE, NOW 75, HONORED FOR HIS WARTIME COURAGE

(By Doyle McManus)

Marine Lt. William W. Putney was awarded the Silver Star for bravery on Saturday—at the age of 75, half a century after the end of his war.

Putney, a Woodland Hills veterinarian, commanded a "war dog" platoon in the 3rd Marine Division during World War II—a little-known specialty that used trained dogs both to guard American positions and sniff out enemy troops hidden in tunnels or caves.

On July 26, 1944, Putney's unit was defending 3rd Marine headquarters on Guam when the lieutenant, then 24, spotted a Japanese platoon heading toward the division hospital.

"Putney ordered the war dog handlers to tie their dogs to bushes and take up a firing line in the path of the enemy." His citation reads, "An enemy machine gun emplacement savagely opened fire. . . Disregarding his own safety, (Putney) unhesitatingly arose from his position of cover, and standing exposed to the hail of bullets aimed at him, began firing.

"He succeeded in silencing the machine gun and killing the two enemy machine gunners. Although wounded, he exhorted the platoon to press the attack, resulting in the killing of all enemy soldiers, including the Japanese officer leading the attack."

Officials said Putney had been recommended for a decoration during the war but unaccountability did not receive one. His former commanding officer resubmitted the recommendation a few years ago, and Navy Secretary John H. Dalton approved it in time for Putney to formally receive the award at the Punchbowl military cemetery here as part of Saturday's commemoration of the end of World War II.

After the war, Putney served as chief veterinarian and commander of the U.S. Army War Dog Training School. He retired from the Marines and practiced as a veterinarian in Woodland Hills.

In recent years, he led a successful effort to build a cemetery and monument for the 25 Doberman pinschers and German shepherds who died in the liberation of Guam in 1944.

The memorial, which includes the names of the dogs and a life-size bronze statue of a Doberman, was dedicated in a military ceremony last year.

TESTING NORTH KOREA'S COMMITMENT TO PEACE

Mr. BIDEN. Mr. President, today I rise to discuss the momentous changes underway on the Korean Peninsula and to take note of the contributions of one extraordinary American public servant to the cause of peace there. Former Secretary of Defense Bill Perry stepped down this month as special adviser to the President on Korea policy, a role he assumed when our relations with North Korea were in crisis and when congressional faith in our approach to the Korean challenge was at a nadir.

It was a job no one coveted. North Korea ranks as one of the most difficult foreign policy challenges we face.

It was a job fraught with risk. Err too far towards confrontation, and you might send North Korea over the brink and start another war. Err too far towards conciliation, and your initiative might be mistaken for appeasement, emboldening the North and undermining political support at home.

Under Bill Perry's leadership, the U.S. launched a hard-headed initiative designed to test North Korea's willingness to abandon the path of confrontation in favor of the road to peace. From its inception, the Perry initiative was predicated on maintenance of a strong military deterrent. But Dr. Perry recognized that deterrence alone was not likely to lure North Korea out of its shell and reduce the threat of war.

The Perry initiative was designed and implemented in concert with our South Korean and Japanese allies, and it continues to enjoy their full support.

The results of this comprehensive and integrated engagement strategy have stunned even the most optimistic observers.

The year began with a mysterious and unprecedented visit by Kim Jong-il to the Chinese Embassy in Pyongyang. Over the course of a four-hour dinner, Kim made it plain that the year 2000 would see a shift in the North's approach to reviving its moribund economy and ending its diplomatic isolation.

In quick succession, Kim hosted Russian President Putin and then South Korean President Kim Dae-jung. The historic Korean summit meeting in Pyongyang was a tremendous victory for South Korean President Kim Dae-jung's "Sunshine Policy" and a validation of Perry's engagement strategy. It is fitting that President Kim Dae-jung was just awarded the Nobel Peace prize for his life-long efforts on behalf of peace and democracy on the Korean peninsula.

With the rapid emergence of Kim Jong-il from what he admitted was a "hermit's" existence in North Korea, the prospects for a lasting peace on the peninsula are better today than at any time since the Korean War began more than 50 years ago. Time will tell.

If fully implemented, the agreement reached in Pyongyang by President

Kim Dae-jung and Kim Jong-il promises to reduce tensions in this former war zone and enhance economic, cultural, environmental, and humanitarian cooperation.

There are encouraging signs that the summit meeting was not a fluke:

Family reunification visits are proceeding, albeit at a pace that is slower than the families divided for 50 years desire or deserve.

Ground will be broken soon to restore rail connections across the DMZ, restoring trade and communication links severed for 50 years.

A follow-on meeting of the North and South Korean Defense Ministers in September led to an agreement to resume military contacts and to explore confidence building measures along the DMZ, including notification of exercises and creation of a North-South hot-line.

Planning is proceeding smoothly for next year's North-South summit meeting in Seoul.

There has also been progress in U.S.-North Korean relations. An historic meeting between President Clinton and senior North Korean military officer Cho Myong-nok occurred this month in Washington, setting the stage for next week's first ever visit to the North by an American Secretary of State.

Mr. President, this flurry of diplomatic activity has been dismissed by some critics as all form, and no substance. They marvel at our willingness—and that of our South Korean ally—to provide food aid to a despotic regime that continues to spend precious resources on weapons and military training rather than tractors and agricultural production.

No one condones the North Korean Government's callous disregard for the suffering of its own people. And obviously, much work remains to be done—especially in the security realm—to realize the hope generated by the summits. The North has not withdrawn any of its heavy artillery poised along the Demilitarized Zone.

It has not halted provocative military exercises. It has not yet ended all of its support for terrorist organizations.

And, although the North did reaffirm its moratorium on long-range missile testing this month in Washington, it has not stopped its development or export of long-range ballistic missile technology. North Korea's missile program continues to pose a serious threat not only to our allies South Korea and Japan, but also to other nations confronting the odious clients of North Korea's arms merchants.

All of these issues must be addressed if we are to forge a lasting peace on the Korean peninsula.

Our efforts to engage North Korea must ultimately be matched by reciprocal steps by the North. Engagement is not a one-way street.

But the question is not whether North Korea is a desirable partner for peace. Kim Jong-il has all the appeal of Saddam Hussein. The question is how we manage the North Korean threat.

I can't imagine how the situation would be improved if we did not offer North Korea a chance to choose peace over truculence. I can't imagine how the situation would be improved in any way if North Korean children were dying in droves from malnutrition and disease as they were prior to the launch of the U.S.-funded World Food Program relief efforts.

Mr. President, we should not discount the importance of the recent diplomatic developments on the peninsula. How soon we forget that it was a process called glasnost—openness—combined with maintenance of a strong NATO alliance, which ultimately brought about the demise of the Soviet Union and the reunification of East and West Germany.

Information about the outside world is hard to come by in North Korea, just as it was hard to get in the Soviet Union before detente opened the window and let the Soviet people catch the scent of the fresh air of freedom.

Perhaps dialog with North Korea and greater openness there will bring about a similar result. If so, we will have Secretary Perry to thank for his role in getting that dialog jump-started after it had stalled amidst mutual suspicions and acrimony during the mid-1990s.

Mr. President, in closing I would like to extend my profound thanks to Bill Perry for the way he carried out his responsibilities. He answered the call to public service two years ago, trading the comfort of northern California for the landmine-strewn terrain of Washington and North Korea. He has conducted himself with honor and a strong sense of duty. He will be missed.

The stakes on the peninsula are high. Events there will not only shape the security environment of Northeast Asia, but also affect our decision whether to deploy a limited national missile defense, and if so, what kind of defense. From my perspective, it would be a great accomplishment if we could neutralize the North Korean missile threat through diplomacy rather than spend billions of dollars to construct a missile defense system which might do more harm to our national security than good.

I wish Secretary Albright and her new Korea policy adviser Wendy Sherman well as they strive to build on the momentum generated over the past few months. It is a tough job, but it is incumbent on us to test North Korea's commitment to peace.

DEMOCRACY DENIED IN BELARUS

Mr. CAMPBELL. Mr. President, I am pleased to join as an original cosponsor of this resolution introduced by my

colleague from Illinois, Senator DUR-BIN, to address the continuing constitutional crisis in Belarus.

As Co-Chairman of the Helsinki Commission, during the 106th Congress I have worked on a bipartisan basis to promote the core values of democracy, human rights and the rule of law in Belarus in keeping with that country's commitments as a participating State in the Organization for Security and Cooperation in Europe (OSCE). Back in April the OSCE set four criteria for international observation of liamentary elections held this past weekend: respect for human rights and an end to the climate of fear; opposition access to the state media; a democratic electoral code; and the granting of real power to the new parliament.

Regrettably, the Lukashenka regime responded with at best half-hearted measures aimed at giving the appearance of progress while keeping democracy in check. Instead of using the elections process to return Belarus to the path of democracy and end that self-isolation. country's Mr. Lukashenka tightened his grip on power launching an intensified campaign of harassment against the democratic opposition and fledgling independent media. Accordingly, a technical assessment team dispatched by the OSCE concluded that the elections "fell short of meeting minimum commitments for free, fair, equal accountable, and transparent elections." The President of the Parliamentary Assembly of the OSCE confirmed the flawed nature of the campaign period.

We recently saw how Slobodan Milosevic was swept from power by a wave of popular discontent following years of repression. After his ouster, Belarus now has the dubious distinction of being the sole remaining dictatorship in Europe. Misguided steps toward recognition of the results of Belarus' flawed parliamentary elections would only serve to bolster Mr. Lukashenka in the lead up to presidential elections slated for next year.

This situation was addressed today in an editorial in the Washington Times. Mr. President, I ask unanimous consent that a copy of this editorial be printed in the RECORD following my remarks.

I commend Senator DURBIN for his leadership on this issue and will continue to work with my colleagues to support the people of Belarus in their quest to move beyond dictatorship to genuine democracy.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Times, Oct. 19, 2000] $$\operatorname{Battle}$ For Belarus

In Belarus last weekend, the opposition leaders did not light their parliament on fire as their Yugoslavian counterparts had the week before. They did not crush the walls of the state media outlet with bulldozers or leave key sites in their capital in shambles. No, the people living under the last dictator of Europe met this weekend's parliamentary elections with silence. Opposition parties rallied the people to boycott, and what they didn't say at the polls, the international community said for them.

The U.S. State Department declared the results "not free, fair, or transparent" and replete with "gross abuses" by President Alexander Lukashenko's regime. The Organization for Security and Cooperation in Europe (OSCE), the Council of Europe, the European parliament and the European Union said the same. The dictator's allies got most of the 43 seats in districts where the winner received a majority of the vote. Where no candidate received a majority of the vote, run-offs will occur Oct. 26, another opportunity for the dictator to demonstrate his unique election methods. However, a record-low turnout in many towns, claimed as a victory by the opposition, will force new elections in three months.

What will it take for the people to push Mr. Lukashenko to follow Yugoslav leader Slobodan Milosevic into political oblivion in next year's presidential election? Nothing short of war, if one asks the international '97, coordinator for Charter Andrei Sannikov. "I don't know how the country survives. [Approximately] 48.5 percent live below the poverty level," Mr. Sannikov told reporters and editors of The Washington Times. "That increases to 60 percent in rural areas. It would provoke an extreme reaction anywhere else. Here, they won't act as long as there is no war".

But the people of Belarus are getting restless. Out of the 50 percent of the people who don't know who they support, 90 percent are not satisfied with Mr. Lukashenko and with their lives in Belarus, Mr. Sannikov said. The dictator's behavior before last weekend's elections didn't help any. In his statement three days before the elections, Rep. Chris Smith, chairman of the OSCE, listed just a few reasons why the people should take to "Since August 30, the the streets: Lukashenko regime has denied registration to many opposition candidates on highly questionable grounds, detained, fined or beaten over 100 individuals advocating a boycott of the elections, burglarized the headquarters of an opposition party, and confiscated 100,000 copies of an independent newspaper."

Mr. Sannikov, a former deputy foreign minister, was himself a victim last year when he was beaten unconscious, and three ribs and his nose were broken, in what he said was a government-planned attack. He and the rest of the opposition don't want to be victims in next year's elections. If the opposition can rally behind one formidable leader, war won't have to precede change—nor will Mr. Lukashenko once again make democracy a fatality.

CONTINUING PROBLEMS FOR FEDERAL LAW ENFORCEMENT DUE TO THE MCDADE LAW

Mr. LEAHY. Mr. President, I have spoken several times this year about the so-called McDade law, which was slipped into the omnibus appropriations bill at the end of the last Congress, without the benefit of any hearings or debate in the Senate. I have described the devastating effects that this ill-considered law is having on

Federal law enforcement efforts across the country. Recent articles in the Washington Post, the Washington Times and U.S. News & World Report also describe how the McDade law has impeded Federal criminal investigations.

For over a year, I have been proposing legislation to address the problems caused by the McDade law. My corrective legislation would preserve the traditional role of the State courts in regulating the conduct of attorneys licensed to practice before them, while ensuring that Federal prosecutors and law enforcement agents will be able to use traditional Federal investigative techniques. Although the bill does not go as far as the Justice Department would like-it does not establish a Federal code of ethics for government attorneys, nor does it authorize the Justice Department to write its own ethics rules-nevertheless, the Justice Department has supported the bill as a reasonable, measured alternative to the McDade law.

Congress's failure to act on this or any other corrective legislation this year means more confusion and uncertainty, more stalled investigations, and less effective enforcement of the Federal criminal laws. I regret that we have not made more progress, and hope that we can work together in the next Congress, on a bipartisan and bicameral basis, to resolve the situation.

I ask unanimous consent that these articles be included in the ${\tt RECORD}.$

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Oct. 19, 2000] Repeal the McDade Law

Two years ago, Congress approved a seemingly innocuous requirement that federal prosecutors observe the ethical standards of the state bars that gave them their law licenses. Members probably didn't think that, in supporting the proposal, they would be harming important federal investigations. They thought rather to stand against prosecutorial excess and show support for retiring Rep. Joseph McDade, who had once been prosecuted unsuccessfully by the Justice Department. Yet even as Congress was moving ahead with the bill, many people—including in the Justice Department and on the Senate Judiciary Committee—warned of unintended consequences. Now the warnings are coming true. The so-called McDade law has compromised Justice Department investigations on matters ranging from airline safety to child pornography.

State bar rules are generally not written with investigative concerns in mind—and are sometimes written to hamper prosecutors. Lawyers, for example, are generally forbidden from contacting directly people whom they know to be represented by counsel. The rule makes sense as a general matter, but riguring out how it should apply to investigative work is exceptionally difficult. A prosecutor investigating a corporation who wants to talk with company employees could be read to violate this ethical stricture if the corporation's lawyers are not present. Such a rule would make federal investigations of

corporations dependent on the corporation's consent. According to a Justice Department report, this precise issue hampered an investigation of an airline—which press reports identify as Alaska Airlines—for allegedly falsifying maintenance reports. Unable to have agents interview key witnesses, the department had to bring them before a grand jury—a process that involved lengthy delays. "When the witnesses finally appeared before the grand jury, they had trouble remembering anything significant to the investigation," the report notes. "After about a year of investigation, one of the airline's planes crashed."

In Oregon, the U.S. Attorney's Office recently notified the FBI that it would not participate further in an undercover program that targets child pornography. The Oregon Supreme Court has interpreted state ethics rule to prohibit dishonesty or deceit in investigations-with no exception for law enforcement. That makes undercover work of any kind the stuff of potential bar discipline for lawyers who get involved. In a letter to the FBI field office, Portland's U.S. attorney announced that, under the rule, "the attorneys in our Criminal Division cannot approve or authorize any undercover operations or consensual monitoring" at all. Such an outcome has nothing to do with prosecutorial ethics but will harm law enforcement.

The McDade problem needs to be fixed, and Sen. Patrick Leahy is pushing a bill that would do that. Federal prosecutions and investigations cannot be held hostage to whatever rules 50 state bars choose to pass.

[From the Washington Times, Oct. 10, 2000] FEDERAL PROSECUTORS HOSTAGE TO STATE CODES

(By Bruce Fein)

If you think United States Secret Service protection of the president should be held hostage to state law, then you should love the 1-year-old "McDade" statute. Ditto if you think FBI attempts to thwart or investigate presidential assassinations or corruption of Members of Congress also should be held hostage. But you might think the McDade law reflects federalism run riot, and thus champion its overhaul, like Sen. Patrick J. Leahy, Vermont Democrat, and Sen. Orrin G. Hatch, Utah Republican and chairman of the Senate Judiciary Committee.

Without hearings, the law was tucked into an appropriations bill in a fit of congressional disenchantment with aggressive investigative tactics symbolized (rightly or wrongly) by Independent Counsel Kenneth Starr. It subjects all federal government attorneys in conducting federal criminal or civil investigations to state professional disciplinary rules in the state in which they operate. On its face, the McDade law seems unalarming. Why shouldn't federal attorneys conform to the same ethical standards required of their professional colleagues whether in private practice of state government?

The answer is that the parochial perspectives of states may discount or overlook broader and compelling federal law enforcement interests. The state of Oregon sports a typical disciplinary rule prohibiting attorney dishonesty, deceit or misrepresentation. It has been interpreted to prohibit federal prosecutors from either authorizing or supervising undercover operations of the FBI or consensual monitoring of conversations by informants. Under the McDade law, for instance, suppose the United States Attorney in Oregon and the FBI suspect an attempted

assassination of President Clinton during a fund-raising visit to Portland by extremists. A plan is devised to infiltrate an informant into the suspected circle of conspirators with an electronic recording device to forestall the villainy. it would be frustrated by Oregon's disciplinary code coupled with the McDade law.

Federal terrorism investigations or prosecutions are likewise jeopardized in Oregon. Suppose a terrorist suspect pleads guilty to a federal conspiracy offense and agrees to cooperate in the apprehension and trial of coconspirators in exchange for a lenient sentence. The United States Attorney contemplates the terrorist-informant's use of an electronic recording or transmitting device to prove the guilt of the conspirators from their own words. The U.S. Supreme Court held in United States vs. White (1971) that such investigatory deceit is no affront to the Constitution, and added: "An electronic recording will many times produce a more reliable rendition of what a defendant has said than will the unaided memory of a police agent. It may also be that with the recording in existence it is less likely that the informant will change his mind, less chance that threat or injury will suppress unfavorable evidence, and less chance that cross-examination will confound the testimony.'

Under the McDade law in Oregon, however, the United States Attorney would be required to forgo his impeccable plan for electronic monitoring to ensnare a nest of terrorists.

Its mischief is not confined to these troublesome hypotheticals, but handcuffs the investigation of every federal crime and has thrown a spanner in real cases. The FBI initiated an "Innocent Images" investigation in Portland spurred the burgeoning problem of child pornography and exploitation in Orchid pornography and the involvement of undercover agents and the monitoring of telephone calls with the consent of but one party could be deemed deceitful by the State Bar.

During a recent Oregon drug trafficking investigation, the FBI located a cooperating witness willing to use an electronic monitoring device to record the conversations of drug trafficking suspects. The United States Attorney nixed the idea because of the McDade law.

In 1980, the FBI's Abscam investigation employed undercover agents to implicate six House members and one senator in corruption. One videotape captured Rep. John W. Jenrette Jr., South Carolina Democrat, confessing to an agent, "I've got larceny in my blood." Abscam would have been problematic if the McDade law had then been in effect.

A recurring impediment in all states are codes that prohibit federal attorneys and their agents from contacting and interviewing corporate employees without the consent and presence of corporate counsel. In California, the FBI's investigation of Alaska Airlines maintenance records through separate interviews of employees was thwarted by a company attorney's claiming to represent all. After a Jan. 31, 2000, crash of an Alaska Airlines jet killing everyone on board, FBI agents were blocked from questioning ground mechanics for the same reason. Sen. Leahy, a former seasoned prosecutor, lamented: "[T]hose interviews that are most successful simultaneous interviews of numerous employees could not be conducted simply because fear that a [state] ethical rule . . . might result in proceedings against the prosecutor."

The Supremacy Clause of Article VI of the Constitution that when legitimate federal interests are at stake, state law should bow. It was underscored by the Supreme Court's ruling in In re Neagle (1890), which denied California authority to prosecute a federal deputy marshal for killing an attacker in the course of defending Supreme Court Justice Stephen J. Field.

An ethics code to ensure that federal government attorneys turn square corners is admittedly necessary. But shouldn't it be drafted by federal authorities sensitive to federal needs rather than consigned to the whims of 50 different states?

[From U.S. News & World Report, Oct. 16, 2000]

FEDERALLY SPEAKING, A FINE KETTLE OF FISH

(By Chitra Ragavan)

Two Octobers ago, Congress passed a funny little law. It was named after its sponsor, Pennsylvania Republican Joseph McDade, but for the congressman, there was nothing funny about it. The Justice Department had spent eight years investigating McDade on racketeering charges. He was finally acquitted by a jury in 1996, but by then McDade's health and spirits were broken. The McDade bill was his payback to Justice. It simply requires federal prosecutors to comply with state ethics laws.

No big deal? Not quite. In August, the Oregon Supreme Court forbade all lawyers in the state to lie, or encourage others to lie, cheat, or misrepresent themselves. Under McDade, the ruling now applies to Oregon's federal prosecutors. "We've handcuffed the agents. says senior FBI official David Knowlton, "not the criminals." The U.S. attorney for the Oregon district, Kristine Olson, has informed the FBI and other federal investigative agencies that she cannot OK agents or informants to assume false identities, wear body wires, or engage in undercover activities. "In effect," says David Szady, special agent in charge of the FBI's Portland office, "we now have to go to a drug dealer and say, 'FBI! Would you sell us some drugs, please?'" The FBI, Szady says, has had to suspend 50 investigations, including probes of Internet child pornographers, A Russian organized-crime group, and a massive check-fraud ring.

Federal prosecutors despise the McDade law. David Margolis, a senior Justice Department official and a veteran organized-crime prosecutor, says McDade has had a major chilling effect. "Even I wouldn't go out on a limb," he says. Justice officials are trying to gut the law before Congress goes out of session this week. The department warned lawmakers in 1998 that prosecutors would be lost in a morass of quirky state ethics lawsespecially during complicated multistate investigations. But defense lawyers won the day. "Why should prosecutors be exempt from rules that apply to all other lawyers in that state?" says Mark Holscher, lawyer for former Los Alamos scientist Wen Ho Lee. So far, no court has dismissed a case or excluded evidence on the basis of McDade. "These are crocodile tears," says veteran defense lawyer Irv Nathan.

Major headache. The biggest headache for prosecutors is the American Bar Association's controversial Model Rule 4.2, adopted by many states. It prohibits prosecutors from contacting people represented by lawyers without first talking to the attorneys. Remember when Kenneth Starr's prosecutors ignored Monica Lewinsky's tearful entreaties to call her lawyer? They got away

with it because, since 1989, Justice had defied Rule 4.2.

No more. Prosecutors now say adhering to 4.2 has hurt white-collar probes, where securing the cooperation of informers in often vital. In an investigation of Alaska Airlines last year, company lawyers barred federal agents from questioning employees. Sen. Patrick Leahy of Vermont says, "The pendulum has swung too far in the other direction." But House Judiciary Committee Chairman Henry Hyde of Illinois says he's not inclined to repeal McDade. "That doesn't mean I'm for crooks," Hyde says. "I'm for ethical behavior both by law enforcement and by defense counsel." Watching the fight from the sidelines in Joe McDade, now 69. "I didn't read about it. I lived it," he says, of prosecutorial zealotry. "The effort is not justice. The effort is to break a citizen."

STUDENT PLEDGE AGAINST GUN VIOLENCE

Mr. LEVIN. Mr. President, on Tuesday, thousands of young people observed the Fifth Annual Day of National Concern About Young People and Gun Violence. Students across the country who participated in the day's activities were given the chance to make a strong statement renouncing the violent use of guns by signing a voluntary pledge.

In my own State of Michigan, high school senior Vince Villegas of Lansing worked to ensure that the anti-gun violence pledges were distributed to students in his own school district. Vince is the co-founder and current president Students Against Firearm $\circ f$ Endangerment, SAFE, USA, an organization whose mission is to reduce the number of gun casualties by increasing gun education in America's schools. With help from students like Vince. more than one million young people have signed the Student Pledge Against Gun Violence during this year

Here is what that pledge says: "I will never bring a gun to school; I will never use a gun to settle a dispute; I will use my influence with my friends to keep them from using guns to settle disputes. My individual choices and actions, when multiplied by those of young people throughout the country, will make a difference. Together, by honoring this pledge, we can reverse the violence and grow up in safety."

Vince and students like him around the country have pledged to do what they can to reduce the toll of gun violence in their lives. Now it's up to Congress to learn from our young people and pledge to combat the gun violence that plagues the Nation's schools and communities.

VICTIMS OF GUN VIOLENCE

Ms. MIKULSKI. Mr. President, it has been more than a year since the Columbine tragedy, but still this Republican Congress refuses to act on sensible gun legislation.

Since Columbine, thousands of Americans have been killed by gunfire. Until we act, Democrats in the Senate will read the names of some of those who have lost their lives to gun violence in the past year, and we will continue to do so every day that the Senate is in session

In the name of those who died, we will continue this fight. Following are the names of some of the people who were killed by gunfire one year ago today.

October 19, 1999:

Jerry G. Bowens, 25, Memphis, TN; Nathaniel Bryan, 20, Washington, DC; Wayne Butts, 43, Atlanta, GA; Arnold Handy, 19, Baltimore, MD; Paul Johnson, 31, New Orleans, LA; Russell Manning, 52, Dallas, TX; Rebecca Rando, 25, Houston, TX; Mark Smith, 31, Dallas, TX; Kirk Tucker, 32, Chicago, IL; Jermaine Wallace, 22, Baltimore, MD: and

George Williams, 19, Pittsburgh, PA. We cannot sit back and allow such senseless gun violence to continue. The deaths of these people are a reminder to all of us that we need to enact sensible gun legislation now.

VOICE OF AMERICA EDITORIAL

Mr. BIDEN, Mr. President, on October 18 the Voice of America broadcast an editorial entitled "Terrorism Will Fail," strongly condemning the terrorist bomb attack on the U.S.S. Cole in Aden harbor, which took the lives of 17 U.S. sailors. The editorial concluded: "U.S. policy remains unchanged. The U.S. will make no concessions to terrorists. The U.S. will bring to justice those who attack its citizens and interests. The U.S. will hold state sponsors of terrorism fully accountable."

This is unambiguous language, which reflects not only United States government policy but also the feelings of all Americans. Unfortunately, however, the bureaucratic road from writing, to approval, to broadcasting this editorial was anything but unambiguous. In fact, it revealed both initial bad judgment by the State Department, and the need for better vetting procedures of VOA editorials by the appropriate authorities.

VOA editorials are statements of American policy, so they are rightly cleared by the State Department for consistency with official U.S. Government policy. Regrettably, in this case the State Department initially vetoed the editorial's language. The reason for stopping the editorial was totally unjustified. It was dead wrong to stop the editorial because of fighting and casualties that were occurring elsewhere in the Middle East. American service men and women were tragically killed in this terrorist attack and a clear statement by Voice of America condemning the action should have gone out immediately.

fortunately disavowed the earlier veto of the editorial memo, saying that the initial veto memorandum "in no way reflects the views of the Secretary of State, the Department or the Bureau of Near Eastern Affairs." Moreover, it stated that the initial veto memorandum had not been vetted or approved through appropriate channels.

It is inconceivable to me how anyone could advocate deleting an editorial condemning the cruel, cowardly, terrorist murder of American service men and women

I hope and trust this occurred because of the understandable stress officials at the Department of State were under due to the tragic deaths from this dastardly act of terrorism in Yemen occurring at the same time the crises in the Middle East was also absorbing the attention of the Department.

Fortunately, as I mentioned earlier, the Voice of America did broadcast the editorial in its entirety.

AGRICULTURE APPROPRIATIONS BILT.

Mr. BINGAMAN. Mr President, I rise today to clarify my position on the vote we are about to take on the Agriculture Appropriations bill. I voted for the bill because it contains funding for a broad range of programs that are very important to farmers in New Mexico and the rest of the United States. But that said, I would like to express my opposition and disappointment at this time to the way this bill frames our national policy toward Cuba.

First, let me say that this bill is remarkable in that it represents a dramatic step forward in how the United States deals with restrictions on sales of food and medicine to designated terrorist states. After considerable debate among my colleagues on this issue, relative consensus has been attained that suggests that unilateral sanctions against countries like North Korea, Sudan, Iran, and Libya are not effective, and that any future economic policy in this regard must include the multi-lateral cooperation of other likeminded governments. Even more importantly, many of my colleagues have come to the conclusion that official sanctions on food and medicine is an inappropriate way to achieve our foreign policy goals. The logic here is straightforward: not only do these sanctions hurt those individuals most in need in these countries—the innocent civilians who are being oppressed by oftentimes ruthless regimes—but they also hurt American businesses that would directly gain from such exports. American farmers in particular suffer under these constraints, and I am convinced those constraints should be removed immediately.

I should emphasize here that the elimination of sanctions does not

Subsequently, the State Department imply that we as a deliberative body agree with the policy pronouncements or activities of terrorist countries. Quite the contrary, they are reprehensible and, as such, we will continue to register our opposition to them at every opportunity. But as a practical matter the elimination of the sanctions does suggest that we finally recognize that we cannot effectively punish dictators or despots through their own people. Perhaps more significantly in this regard, the United States should not be placed in the difficult position of defending such policies as, in my view, they run against some of our most basic values and traditions.

It is for this reason that the Agricultural Appropriations bill as it relates to Cuba is seriously flawed. What we have done in this bill is permitted the sale of food and medicine to most of these countries and, moreover, authorized U.S. public and private financing that would allow this to occur. But we have refused to apply these exact same provisions to Cuba. In the case of Cuba, we have permitted the sale of food and medicine, but we have prohibited U.S. financial institutions from assisting in this process. Of course, Cuba can still purchase food or medicine from the United States, but it must do so with its own capital, or with assistance from third-party financial institutions. In short, Cuba must somehow convince a foreign bank to lend it money to purchase food or medicine, an obvious liability given its current situation. Clearly this limitation placed on Cuba defeats the basic rationale underlying the bill, and makes the exercise of sanctions reform almost entirely symbolic in nature. The bottom line is that our farmers will gain little or nothing in terms of increased sales to Cuba, and that is just plain wrong.

This bill is also flawed in that it further restricts travel to Cuba, this after several years of moving forward in areas related to increased scientific. academic, social, and cultural exchange. I find this to be an ill-advised provision in that it runs counter to everything we have experienced in Eastern Europe, East Asia, and Latin America in terms of the dynamics of freedom and democratization. For a number of years now I have supported the right of Americans to travel to Cuba, and I continue to do so at this time. I have also suggested that we allow non-governmental organizations to operate in Cuba and to provide information and emergency relief when needed. Furthermore, I believe that Cuban-Americans with relatives still in Cuba should be permitted to visit Cuba to tend to family emergencies.

Let me state clearly that I personally deplore the Castro regime and its heavy-handed tactics toward its people. The lack of freedom and opportunity in that country stands in direct contrast to the United States, as well as most

countries in the Western Hemisphere. Cuba now stands alone in the West in its inability to allow the growth of democracy and the protection of individual rights.

In my view, Cuba is ripe for change, and the best way to achieve positive change is to allow Americans to communicate and associate with the Cuban people on an intensive and ongoing basis, to re-establish cultural activities, and to rebuild economic relations. To allow the Cuban system to remain closed does little to assert United States influence over policy in that country and it does absolutely nothing in terms of creating the foundation for much-needed political economic transformation. The spread of democracy comes from interaction, not isolation.

So for all the positive attributes contained within this bill, I see the provisions as they relate to Cuba to represent a serious step backward that will ultimately harm, not help, the U.S. national interest. This is an anachronistic policy that does no one any good. It is my hope that what some of my colleagues are saying today on the floor is true, that this is merely an initial compromise that lays the foundation for more significant change through legislation in the future. If this is correct, I look forward to working with them to ensure that more constructive policy is indeed enacted. I am convinced it is long overdue.

THE INNOCENCE PROTECTION ACT

Mr. LEAHY. Mr. President, I have come to the floor several times this year to focus attention on the national crisis in the administration of the death penalty. I rise today, in what I hope are the closing days of the 106th Congress, to report on how far we have come on this issue in Congress and across the country, and to discuss the important work that is yet to be done.

In recent years, many grave flaws in the capital punishment system nation-wide have come to light. Time and again, across the nation, we have heard about racial disparities, incompetent counsel who make a mockery of our adversarial process, testimony and scientific evidence that is hidden from the court, and the ultimate injustice, the conviction and sentencing to death of innocent people.

In the last quarter century, some 88 people have been released from death row, not on technicalities, but because they were innocent. Those people were the "lucky" ones; we simply do not know how many innocent people remain on death row, and how many have been executed.

Earlier this year, after it came to light that his State had sent more innocent people to death row than it had executed guilty people, Governor Ryan announced a moratorium on executions in Illinois and launched a systematic

inquiry into the crisis and to consider possible reforms.

At around the same time, along with colleagues from both sides of the aisle, from the Senate and from the House, I introduced the Innocence Protection Act as a first step to stimulate a national debate and inquiry and begin work on national reforms on what is a nationwide problem.

Almost a year later, our informal national public inquiry has yielded a wealth of evidence. The American people have reached some compelling findings. And our reform effort has gained the endorsement, and—more important—the wisdom and insight, of Republicans and Democrats, of judges, law enforcers and defense attorneys, and of scholars and ordinary people who have experienced the system first hand.

The evidence has shown that the system is broken, and the American people are demanding that it be fixed or scrapped. We have meaningful, carefully considered reforms ready to be put into place. It is now time for Congress to act.

Let me first review just a few highlights of the evidence that has mounted since we first introduced the bill.

On June 12, Professor James Liebman of the Columbia Law School released the most comprehensive statistical study ever undertaken of modern American capital appeals. This rigorous study, which was nine years in the making, revealed a death penalty system fraught with error reaching crisis proportions. It revealed a system that routinely makes grave errors, and then hopes haphazardly and belatedly to correct them years later by a mixture of state court review, federal court review and a large dose of luck.

During the 23-year study period, courts across the country threw out nearly seven out of every ten capital sentences because of serious errors that undermined the reliability of the outcome. The single most common error, the study showed, was egregiously incompetent defense lawyering.

Before the Columbia study came out, there was speculation that the problems in the administration of the death penalty were confined to a few atypical States with lax procedures. That is clearly not the case. The study documented high error rates across the country, in nearly every death penalty State. It left no room for doubt: This is not a local problem, this is a national problem, and it requires a national response.

Shortly after the Columbia study issued, the Senate and House Judiciary Committees held hearings to consider some of the issues raised by the Innocence Protection Act. I had hoped that these hearings would be the first in a series of hearings that would help focus the Congress' attention on steps we can take to help restore public confidence in our death penalty system.

The Committees heard from judges, prosecutors, and defense attorneys about when and how post-conviction DNA testing should be required by law, and about the overwhelming importance of providing the accused with qualified and adequately funded defense counsel.

We also heard from two men who between them spent over 20 years in prison for crimes they did not commit before being cleared by DNA evidence and freed. One of these men. Dennis Fritz. was represented at trial by a civil liability lawyer who had never handled any type of criminal case, much less a capital murder case. When Mr. Fritz finally got access to the crime scene evidence for DNA testing, the results not only cleared him, they also cleared his codefendant, who had come within five days of being executed. The tests also established the identity of the real killer.

Now, hardly a month goes by that we do not hear about more wrongfully convicted people who owe their freedom to DNA testing.

Most recently, on October 2, 2000, the Governor of Virginia finally pardoned Earl Washington, after new DNA tests confirmed what earlier DNA tests had shown: He was the wrong guy. Earl Washington's case only goes to show that we cannot sit back and assume that prosecutors and courts will do the right thing when it comes to DNA. It took Earl Washington years to convince prosecutors to do the very simple tests that would prove his innocence, and more time still to win a pardon. And he is still in prison today.

Several other recent reports have provided additional evidence of a system in crisis. The Justice Department released a report in September concerning the administration of the Federal death penalty. The report revealed dramatic racial and geographic disparities in the Federal death penalty system. Of the 682 cases submitted to the Justice Department in the last five years for approval to seek the death penalty, 80 percent involved defendants who were black, Hispanic, or another racial minority, and five jurisdictions accounted for about 40 percent of the submissions.

Also in September, the Charlotte Observer published a study of capital cases in the Carolinas, which found that those who are on trial for their lives are often represented by the legal profession's worst attorneys. The high stress and low pay of capital trials limits the pool of lawyers willing to take them on. Some lawyers abuse drugs and alcohol, some fail to investigate evidence that could clear their client. Judges in the Carolinas have overturned at least 15 death verdicts because of serious errors made by defense lawyers, and another 16 death row inmates were represented at trial by lawvers who were later disbarred or disciplined for unethical conduct.

Much has been written about the appalling state of affairs in the State of Texas. The Dallas Morning News reported on September 10 that more than 100 prisoners awaiting execution in Texas as of May 1—about one in four convicts on Texas's death row—has been defended by court-appointed lawyers who have been reprimanded, placed on probation, suspended, or banned from practicing law by the State Bar of Texas.

The infractions that triggered the extraordinary step of bar discipline included failing to appear in court, falsifying documents, failing to present key witnesses, and allowing clients to lie. In about half of these instances, the misconduct occurred before the attorney was appointed to handle the capital case.

Just this week, a comprehensive new report by the Texas Defender Service described that State's death penalty system as thoroughly flawed and in dire need of change because of problems like racial bias, prosecutorial misconduct and incompetent defense counsel. The report, which reviews hundreds of cases and appeals, confirmed that indigent defendants in Texas are routinely represented in trials and during appeals by underpaid court-appointed lawyers who are inexperienced, inept, or uninterested.

These lawyers spend little time on the cases and present inadequate arguments and flawed defenses. In several notorious cases, defense lawyers slept in court, drank heavily, or used illegal drugs during a death penalty case.

Time and again, we hear defenders of the status quo say that as long as an accused person has access to the courts, the system is working properly. Statements of this sort reflect either ignorance or worse. The question we must ask is whether the promise of access to the courts is real, or just a cruel joke. Does access mean meaningful access, with qualified defense counsel who know what they are doing and have the resources to do the job properly, or does it mean merely token access. The evidence shows that it is too often the latter.

The evidence is overwhelming that the capital punishment system is broken—not just in Illinois, where the high error rate has prompted a moratorium on executions—not just in Texas, with its sleeping lawyers and racial biases—but across the Nation.

The people have heard this evidence, and they know this. A recent poll conducted by Peter D. Hart Research, a Democratic research firm, and American Viewpoint, a Republican research firm, shows that the public discourse on the death penalty has matured from a debate over whether the death penalty system is broken into a constructive dialogue on how broken it is, and about how much reform we need to fix it—if indeed it can be fixed at all.

New developments in DNA technology have helped expose some of the flaws in the system, and they have been invaluable in freeing innocent Americans like Dennis Fritz. But the public knows that the injustices revealed by DNA testing are just the tip of the iceberg. The central theme running through the vast majority of the tragedies we have seen has been incompetent, under-funded trial counsel making a mockery of our adversarial system.

Any reform that does not deal with the counsel issue is inadequate. The American people understand this. When it comes to matters of life and death, most Americans—55 percent of those surveyed—believe that it is not enough to ensure access to DNA testing without also ensuring access to competent and experienced defense counsel

There is one more key lesson to be learned from listening to the American people. We are a nation founded on tolerance, but not tolerance of incompetence and failure. When there's a broken product out there endangering innocent lives, Americans rightly demand that it be fixed or recalled. Some irresponsible corporations are currently learning what comes of those who continue to put more and more broken, dangerous products into circulation.

As conservatives like George Will have pointed out, there is a parallel American tradition that we here in Washington know well of demanding that incompetent officials and broken government programs shape up or face the scrap heap.

Now that they have heard the evidence, Americans are ready to apply that same common sense to the government program known as the death penalty. Americans may be divided on whether the capital punishment system needs to be recalled, but there is a clear and growing consensus that the system needs to be reformed. An overwhelming majority—some 80 percent of those surveyed—want to see concrete measures to ensure competent and adequately funded counsel.

An even larger majority—nearly 90 percent of those surveyed—want to ensure that death row inmates can obtain DNA testing.

When a government program has a record of incompetence, failure, and harming innocent lives, ordinary Americans say fix it or scrap it; do not under any circumstances expand it. In the past few years, as the defects of our capital punishment system have become more and more obvious, the States have largely ignored the problem, while they have expanded the program, executing more and more people. Neither history, nor the American people, will be kind to a Congress that stands by and does nothing while this trend continues.

The evidence has shown that the death penalty is broken; the American people know the death penalty is broken; and they are calling upon us, their elected representatives, to fix it or scrap it.

The bipartisan Innocence Protection Act is a real, practical response to that demand. Of critical importance, it meaningfully addresses not just the tip of the iceberg—DNA testing—but also the bulk of the problem—ineffective and under-funded defense counsel.

Our bill does not go as far as some Americans would like. It does not scrap the death penalty; it does not place a moratorium on executions; and it does not tackle all the injustices inflicted upon racial minorities and the mentally retarded by the present capital punishment system. Rather, it embodies a consensus approach, informed by the wisdom of Democrats and Republicans in the Senate and House, the Department of Justice and experts and ordinary Americans on all sides of our criminal justice system.

Because of this, it has been gaining ground. We now have 14 cosponsors in the Senate, and about 80 in the House. We have Democratic and Republican cosponsors, supporters of the death penalty and opponents. President Clinton, Vice-President Gore, and Attorney General Reno have all expressed support for the bill.

I had hoped that my colleagues would heed the American people's call for practical, bipartisan reform and expedite passage of this important legislation. Unfortunately, every opportunity for progress has been squandered. Even with respect to post-conviction DNA testing, where there is strong bipartisan consensus that federal legislation is appropriate and necessary, we could not even manage to report a bill out of committee.

While our lack of progress on Federal legislation is regrettable, there have been some positive developments that may facilitate broader access to postconviction DNA testing. On September 29, a federal district judge in Virginia held that State prisoners may file federal civil rights suits seeking DNA testing, reasoning that the denial of possibly exculpatory evidence states a claim of denial of due process. If this decision is upheld, it could go a long way toward persuading State prosecutors and courts to stop stonewalling on requests for postconviction DNA testing.

I was also greatly heartened this week to read that the Virginia Supreme Court has moved to eliminate that State's shortest-in-the-nation deadline for death row inmates to introduce new evidence of their innocence. Currently, inmates in Virginia have only 21 days after their sentencing to ask for a new trial based on new information. The proposed rule change would re-open Virginia's courts

to inmates like Earl Washington, who had to wait six years for a Governor to order additional DNA tests and grant a pardon.

Outside of Virginia, some State legislatures have begun considering the need for criminal justice reforms. Since the initial introduction of the Innocence Protection Act early this year, Arizona, California, Oklahoma, Tennessee, and Washington have passed laws providing prisoners greater access to post-conviction DNA testing, and other States are considering similar measures. I am especially pleased that California's legislators saw fit to model their law in part on the Innocence Protection Act.

By contrast, Tennessee's statute allows post-conviction DNA testing only to prisoners under sentence of death, leaving the vast majority of prisoners without access to what could be the only means of demonstrating their innocence. And neither of these laws addresses the larger and more urgent problem of ensuring that capital defendants receive competent legal representation. There is still much to do.

There can no longer be any doubt that our nation's capital punishment system is in crisis. I urge my colleagues on both sides of the aisle, those who support the death penalty, and those who oppose it, let us work together to find solutions.

ADDITIONAL STATEMENTS

TRIBUTE TO COMMEMORATE THE 65TH ANNIVERSARY OF THE CHINA CLIPPER'S FIRST FLIGHT

• Mr. INOUYE. Mr. President, this month marks the 65th anniversary of the world's first commercial trans-Pacific flight. I wish to pay tribute to those who possessed the vision and tenacity to achieve this historic milestone, which significantly altered the travel industry, mail service, and cargo service, and forever change my home state of Hawaii.

On November 22, 1935, Pan American World Airways' China Clipper traveled from San Francisco to Manila. This feat was remarkable for many reasons, including the following:

This inaugural fight was the longest ocean-spanning flight in history. The China Clipper traveled 8,746 miles and completed the one-way route in six days. Prior to this flight, the longest over-water flight was a 1,865-mile journey from Dakar in French West Africa to Natal, Brazil, in South America.

This aircraft delivered the first airmail across the Pacific ocean. It carried 110,865 letters weighing a total of 1,837 pounds.

This China Clipper, an M-130 aircraft built by G. L. Martin Company specifically to meet the demands of this trans-oceanic flight, was the largest flying boat ever.

About 125,000 people cheered as the four-engine China Clipper taxied out of a harbor in San Francisco Bay and headed for the Philippines. They watched from vantage points along the shore and the still-under-construction Golden Gate Bridge, and aboard recreational boats and small private planes. Postmaster General James A. Farley traveled from Washington, D.C. to witness this inaugural event and President Franklin D. Roosevelt sent a special message conveying his heartfelt congratulations.

The China Clipper made stops at several Pacific Islands. On November 23, 1935, its arrival in Oahu's Pearl Harbor was watched by about 3,000 people. Then the aircraft continued on, making stops at Pan American bases at Midway Island, Wake Island, and Guam. The China Clipper brought the staffs at these bases 12 crates of turkeys, and cartons of cranberries, sweet potatoes, and mincemeat. The meals represented these islands' first Thanksgiving celebrations.

The China Clipper's brave crew of seven were: Captain Edwin C. Musick, First Officer R. O. D. Sullivan, Second Officer George King, First Engineering Officer Chan Wright, Engineering Officer Victor Wright, Navigation Officer Fred Noonan, and Radio Officer W. T. Jarboe, Jr.

Captain Musick's own description of the landing at Wake Island, a barren atoll, offers a glimpse of what it was like to be aboard the China Clipper's inaugural trans-Pacific flight. According to Captain Musick, the landing was the "most difficult" on the trip and "called for the most exacting feats of navigation on record." It was like striking a point that was "smaller than a pinhead" in the "vast map of the Pacific Ocean."

On November 29, 1935, the China Clipper landed in Manila and on December 6, it arrived in San Francisco to complete the round trip. Although the aircraft did not carry any paying passengers, its journey marked the beginning of trans-oceanic passenger commercial aviation.

Eleven months later, on October 21, 1936, Pan American inaugurated a passenger service route with stops in San Francisco, Honolulu, and Manila. The four-engine China Clippers cruised at 150 miles per hour. Passengers, who sat in broad armchairs and ate their meals with fine china and silverware, paid \$1,438 for a round trip from San Francisco to Manila. The airlines purchased six Boeing B-314 aircraft to add to its Pacific-route fleet.

Thirty years later, the advent of the jet age brought Hawaii—located approximately 2,400 miles from the nearest major port—closer to the rest of the world. In 1967, visitor arrivals jumped 34.6 percent to 1.1 million tourists from the previous year when the first jets arrived in Hawaii. By 1968,

Continental Airlines, Western Air, Braniff International, American Airlines, Trans World Airlines, Inc., and United Airlines had joined Pan Am in flying Hawaii-Mainland routes. Today, Honolulu International Airport is home to about 40 carriers. In recent years, the state's annual visitor count has approached 7 million tourists.

The China Clipper also paved the way for the export of Hawaii's agricultural products, such as pineapples and flowers. The Hawaii floriculture industry's out-of-state sales each year are about 40 million. The timely export of these perishable goods is made possible by aviation.

Today, agriculture and tourism are mainstays of Hawaii's economy. The China Clipper's crew and Juan Trippe, who was president of Pan American at the time of the inaugural flight, would marvel at the economic and social ramifications of that historic journey more than six decades ago.

I salute the people of Pan American World Airways, G. L. Martin Company, and Boeing who pursued what others thought was impossible. It is my hope that today's aviation industry will follow the example of its forebears by continually striving to achieve new milestones in safety, efficiency, and customer service.

THE 100TH ANNIVERSARY OF PAUL ARPIN VAN LINES INC.

• Mr. L. CHAFEE. Mr. President, I rise today to congratulate Paul Arpin Van Lines Inc., a moving company based in West Warwick, Rhode Island, on its 100th anniversary.

The business community of the State of Rhode Island is comprised primarily of small, family businesses. Indeed, 98 percent of Rhode Island businesses are small businesses. These businesses have played an extremely important role in the growth and strength of the Rhode Island economy. One of these businesses is a moving company, Paul Arpin Van Lines Inc., of West Warwick, Rhode Island.

One hundred years ago this month, the company was founded by Paul G. Arpin, who left it to his son, Paul Arpin. Paul Arpin is still very active in the daily affairs of the business as Chief Financial Officer. Paul's son, David, is now the company's President.

Paul Arpin Van Lines Inc., has grown considerably since its founding. It now employs 400 Rhode Islanders and has 160 agents throughout the country. It has survived the Great Depression, a number of recessions and various other financial downturns that challenged far larger businesses in the state. Its sound business practices and active community involvement through the years have been a constant source of pride, not only to the Arpin family, but to many generations of Rhode Island families employed by them.

the entire Arpin family for its many accomplishments over this past century and wish them many, many more vears of success.

TRIBUTE TO JOE DEAN BOBO

• Mrs. BOXER. Mr. President, I rise today to recognize the record and accomplishments of one of my constituents who has devoted his career to serving working men and women in California. On the occasion of his retirement from the International Association of Machinists and Aerospace Workers, I salute Joe Dean Bobo for his tireless efforts over the last three decades, and applaud his lifetime of accomplishments.

Joe Bobo was born in rural Arkansas to a family of fifteen. He moved to Oakland, California as a teenager, and served three years in the United States Army before beginning work in his family's scrap metal business. Joe's involvement with the IAMAW began in 1969, when he began work as an apprentice mechanic. He quickly advanced to become a shop steward, and was appointed a full-time union official with the IAMAW Northern California District Lodge 190 in 1979.

Since that time, Joe has worked tirelessly in advocating for fair wages and benefits on behalf of the men and women he represents. He has gained the respect of both labor union members and employers through his dedicated service.

In addition to his full-time position with the IAMAW, Joe's experience and passion for labor issues have resulted in him being called on to participate in a variety of leadership positions. He is currently the Secretary/Treasurer of the Automotive Machinists Coordinating Committee of Northern California and a Trustee of the Automotive Industries Health, Welfare and Pension Fund. Joe's labor leadership has also included a term as President of the California Conference of Machinists, representing 150,000 members employed in the aerospace, airlines, automotive, electronics and manufacturing indus-

His community service is also commendable, including service as an advisory member of the Transition Committee for Waste Management and on the New Oakland Committee. Joe is an exceptional person who has earned the gratitude and respect of the scores of people who have worked with him and come to know him.

I am pleased to join Joe's friends, family and colleagues in recognizing his outstanding service to his fellow workers and to the community and wish him well as he moves on to new challenges in his retirement.

It is with great pleasure that I salute HONORING MINNESOTA TEACHER OF THE YEAR, KATIE KOCH-LAVEEN

> • Mr. GRAMS, Mr. President, I appreciate the opportunity to be here today to honor Ms. Katherine Koch-Laveen as Minnesota's Teacher of the Year for the year 2000. This is certainly a high honor, as I note that 98 Minnesota educators were nominated for this award, and their accomplishments were reviewed by 18 judges. It is all the more impressive considering Minnesota's public schools reputation for academic excellence. I also commend the 98 nominees for this honor, 28 of whom were chosen as "teachers of excellence," and 10 of whom were further chosen for an "honor roll" of teachers. School teachers that excel at their craft are critically important to the intellectual development of their students, and help shape the student's vision for what they can accomplish in their lives.

> I still can vividly remember the excellent educators that taught me at Zion Lutheran Christian Day School in Crown. Excellent teachers motivate. show enthusiasm for inquiry, and instill in their students a passion for learning that often continues for a lifetime. A great educator gives the student a core foundation of knowledge about a subject, and a curiosity about the topic that drives a student to study and research more extensively long after they have left that particular

> Great teachers also make sacrifices for their students. It's no secret that in today's high-tech, knowledge-based economy, Ms. Koch-Laveen could probably find a more financially rewarding profession, especially with her science background. And our great teachers need to be rewarded financially, so that we do not lose too many to industry. But ultimately, I have to believe that what keeps them in the classroom is the intangible reward of seeing their students excel, and having a group of students come in to a class with little knowledge about a topic and have them leave with a firm grasp of core concepts, a desire to learn much more, and an excitement to apply what they have learned in "real world" situations. And I hesitate to use the term "real world," because these days there is probably nothing more real world than a high school classroom.

> So congratulations and thank you, Ms. Koch-Laveen, for your commitment to excellence and dedicated service to your students, your community, and to Minnesota. Thanks also to the other hardworking Apple Valley teachers here today that strive for excellence in the classroom and shoulder so much responsibility for Minnesota's future. It has been a pleasure to be here.

HONORING LINCOLN McILRAVY

• Mr. JOHNSON. Mr. President, I rise publicly to commend Lincoln McIlravy, a native of Phillip, SD, on earning a bronze medal for his remarkable display of athleticism in the freestyle wrestling event at the 2000 Summer Olympics in Sydney, Australia.

Lincoln McIlravy's wrestling talent combined with years of practice, and an extraordinary dedication to physical excellence attribute to his athletic success. On October 1, 2000, Lincoln became one of America's best wrestlers on the global Olympiad stage where he scored a solid 3-1 victory over Sergei Demtchenko of Belarus, thus victoriously claiming the bronze medal in the 69kg freestyle event.

Success has been abundant in Lincoln's wrestling career, as his honors include being a three-time NCAA champion for the University of Iowa, as well as four U.S. National titles, 1997-2000. Yet, Lincoln's prominence as an international contender began when he was a member of the 1997 World team. McIlravy then became a two-time world medalist having won a silver medal at the 1999 World Championships and a bronze medal in the 1998 World Championships. He not only was a 1999 Pan American Games champion, but also a 1998 Goodwill Games champion, in addition to the three-time World Cup champion, 1998–2000.

Lincoln McIlravy is an exemplary athlete who richly deserves this distinguished recognition. Therefore, it is with great honor that I share Lincoln's impressive Olympic accomplishments with my colleagues.

TRIBUTE TO BOAZ SIEGEL

• Mr. LEVIN. Mr. President, I am delighted to rise today to acknowledge a lawyer, from my home State of Michigan, of great intellectual capacity and a passion for justice, Boaz Siegel, who dedicated his life to fighting for working men and women. On October 20th of this year, hundreds of people will gather for the dedication of the new headquarters for the Pipefitters, Refrigeration & Air Conditioning Service Local 636. This dedication will also serve as a tribute to Mr. Siegel, and will culminate in his being made an honorary member of Local 636.

Boaz Siegel has dedicated his academic and professional life to studying, teaching and practicing the laws that affect the well-being of all workers. Believing that the law could be a noble profession dedicated to the public good, he enrolled in the Wayne State University Law School. While in law school he balanced the responsibilities of family, work and pursuing numerous social causes. He excelled in his law studies at Wayne State University, and received his Juris Doctorate in 1941.

Upon graduating law school, Boaz's plans to enter private practice were delayed as he was asked to work in the Wayne State Law Library. This quickly led to a teaching position at the law school where he taught from 1941 through 1972. During this time, he briefly left to join Samuel Schwartz and Rolland O'Hare in a private practice that my brother, Sander Levin, joined shortly after its inception. After a year in practice, Boaz returned to teaching and was made assistant to the provost and a full professor at Wayne State University Law School.

Although passionate about teaching, Boaz Siegel's first love remained labor law. While teaching at Wayne State in the 1950s, he served as legal counsel to the trustees of fringe benefit, pension and health funds. One such fund, the Detroit and Vicinity Construction Workers Health and Welfare Fund, possessed 45,000 participants. In 1962, he was appointed by the United States Secretary of Labor to a position on the first U.S. Council on Employee Welfare and Pension Plans.

Two years later, his considerable talents as an arbitrator were acknowledged when he became a member of the National Academy of Arbitrators. However, it was his fund work that consumed most of his time, and led him to leave teaching and enter law practice full-time in 1972. His work with many unions, including Local 636, has ensured a better future for thousands of workers and their families.

Boaz Siegel can take pride in his long and honorable service to the working people of Michigan. I am honored to call this man a mentor, colleague and friend. I hope my Senate colleagues will join me in saluting Boaz Siegel for his commitment to working men and women, the labor movement and teaching and practicing law.

TRIBUTE TO FRAMATOME CONNECTORS USA, INCORPORATED

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to and congratulate Framatome Connectors USA, of Manchester, on their nomination for this year's Secretary of Defense Employer Support Freedom Award. Their dedication to their employees who serve our country as part of the National Guard and Reserve is admirable and an example for other businesses.

Framatome, which manufactures electrical connectors, serves the needs of its five employees who serve in the National Guard and Reserve in several very important ways. First, their compensation package for all employees includes differential pay between civilian and military salaries. The package also includes medical, dental, and life insurance and 401(k) coverage for the duration of the employee's duty commitment.

Framatome has also established a policy that allows the employee on active duty to maintain his or her posi-

tion with the company for as long as they required to remain on active duty. They believe the service of their employees to their country is important to our nation's defense, and anything they can do to make this service easier for their employees and their families is worth the effort.

Framatome put this generous plan into action recently when one of their employees was mobilized and sent to Bosnia during a Presidential call up. The company believed that when an employee is activated and pulled away from his or her family, a financial cushion should be available to help bridge the gap during the salary transition from civilian to military pay. They wanted to be sure the family of the reservist or guardsman or woman would have the financial resources they needed to continue as close to normal a life as possible while their loved one was away.

I applaud Framatome's effort to make Reserve or National Guard service easier for their employees, and the company's national recognition is certainly well-deserved. I know the employees who sacrifice so much to serve their country are extremely grateful for the chance to serve their country and work for such a compassionate, understanding company. It is an honor to serve all the people of Framatome, USA in the U.S. Senate.

TRIBUTE TO CAPTAIN JOHN O'GRADY

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Captain John O'Grady, who recently completed a charity bicycle ride from Dayton, Ohio to Albuquerque, New Mexico to raise awareness and money for epilepsy charities. I am particularly proud of John because I had the pleasure of coaching this amazing young man during the 1973–74 baseball season at Kingswood Regional High School.

John's desire to make his ride is deeply personal. Just this year, after 23 years as a pilot with United Parcel Service and Airborne Express, John suffered a grand mal seizure while dining at an airport restaurant after a flight. A few weeks later, John was stricken again and diagnosed with epilepsy. This was a shocking blow for a man who flew planes and hot air balloons for so many years.

With his flying and driving privileges permanently taken away from him, John was forced to ride his bicycle everywhere he went. In fact, it was on a bike that he suffered the seizure that led to his epilepsy diagnosis, but John did not give up. Instead, he decided to try to use his experience to help others facing epilepsy and the charities that do such important work as we research and try to find a cure for this terrible disease.

Since John enjoys hot-air ballooning so much and could not bear to miss the annual International Balloon Fiesta, he decided to ride his bike the 1,600 miles from Dayton, Ohio to the event in Albuquerque. Along the way, John has raised more than \$11,000 for several epilepsy charities and inspired others battling epilepsy. John's ride has given people with epilepsy a platform on which they can finally talk about their disease and the discrimination they face on a daily basis. That is perhaps the most important legacy of this magnificent achievement.

I want to congratulate John and wish him well in all he does. I am so proud of his courage and determination, and I am honored to have known him. It is an honor to serve him in the U.S. Senate.•

TRIBUTE TO ERIC KINGSLEY

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Eric Kingsley as he leaves his position as Executive Director of the New Hampshire Timberland Owners Association, NHTOA.

Erio's five year tenure at NHTOA has been marked by progress and success. The organization's programs and services have grown to meet the needs and concerns of its members, and have established a strong, stable foundation for the association's future.

Through the years, I have grown to value Eric's input on the many issues that significantly impact New Hampshire's timberlands. Eric has done an outstanding job of keeping me, and other policy makers, informed on the issues and has been a true leader in making sure the voice of NHTOA was heard throughout the country.

Of all of Eric's achievements at NHTOA, perhaps his most important success came this past spring. Eric helped lead the charge to defeat the Environmental Protection Agency's ill-considered proposal to treat some forestry activities as "point source pollution" under the Clean Water Act. These rules, known as Total Maximum Daily Loads-TMDL-would have required landowners, foresters, and homeowners to obtain federal permits before conducting a timber harvest and could have exposed them to lengthy bureaucratic delays and costly citizen lawsuits.

This past May, I held a field hearing in Whitefield, New Hampshire, on the TMDL issue, and not only did Eric successfully testify, but he organized hundreds of foresters to ensure their message was heard loud and clear in Washington. Thanks in large part to Eric's leadership on this issue, the EPA withdrew the section of the TMDL rules that adversely affected forestry.

My staff and I have also worked closely with Eric on issues of importance to the White Mountain National Forest. When the President issued his "roadless" initiative stripping the people of New Hampshire and New England with the opportunity to have a voice in the management of their public lands, Eric was there to ensure we took this measure to task. This time we were not successful, but we were very close to creating an exemption for the White Mountain National Forest from this heavy-handed proposal.

Eric also rose to the occasion in the face of destruction from Mother Nature's wrath. The Ice Storm in January 1998 brought unprecedented challenges to New Hampshire's forest lands. Hundreds of thousands of acres were significantly damaged. Eric worked closely with me and my colleagues to help us turn this tragedy into an opportunity. Today, not only has the federal government provided resources to help recover from the storm, but we have a record number of acres under forest stewardship plans.

My staff and I have worked with Eric on a wide variety of other issues during his time at NHTOA, and have always been impressed with his dedication and the depth of knowledge he displayed on issues ranging from estate tax reform to rural economic development. He has always been an effective and honest advocate for the causes he holds close to his heart, and I know he will be greatly missed by me and NHTOA's 1,500 members.

I wish Eric well in all his future endeavors, and am confident he will succeed in whatever pursuits he chooses. It is an honor to represent him in the U.S. Senate.●

TRIBUTE TO BARBARA BEDFORD

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Barbara Bedford of Etna, New Hampshire, on her fine performance at the Sydney Olympic Games. Her hard work, dedication and perseverance in making her Olympic dream a reality are an example for us all, and the people of New Hampshire are so very proud of her excellent performance.

Barbara, along with Jenny Thompson, was part of the gold-medal winning 4x100 medley relay that shattered the world record. It was so great to see Barbara fly through the water during the backstroke leg of the relay with her extremely patriotic red, white and blue-dyed hair. Her Olympic moment was years in the making, as she finally made her first Olympic team at the age of 27 after disappointments at the 1988, 1992 and 1996 Olympic Trials. After those heartbreaking defeats, Barbara could have easily given up her dream of making an Olympic team. However, with the help of her family and coach, Barbara did not retreat. Instead, she worked tirelessly toward her dream and was rewarded at this year's Olympic trials, where she placed first in the

50-meter backstroke. Barbara was able to keep her focus squarely on making the team this year and reach her goal, and this is an inspiration to all of us and proves once again that if we work hard, we can do just about anything. Her positive attitude and passion for her sport is so refreshing in an age when far too many athletes seem more interested in endorsements than their sport.

Once again, I want to congratulate Barbara on her accomplishments, and I wish her all the best in her future endeavors. It is an honor to represent her in the U.S. Senate.

TRIBUTE TO JENNY THOMPSON

• Mr. SMITH of New Hampshire. Mr. President, I rise today to congratulate Jenny Thompson of Dover, New Hampshire on her magnificent performance in the Sydney Olympic games. Her hard work and dedication through three Olympics is an example for all of us, and the people of New Hampshire are extremely proud of her success.

Jenny has done so much throughout her career to make the people of Dover and New Hampshire proud during her distinguished career. Whether it was breaking records at Stanford University or winning numerous competitions, Jenny has set the standard for women's swimming in the United States over the past decade. Jenny's Olympic teammates often cite her achievements as their inspiration for striving for excellence in the pool.

During the Sydney games, American swimmers brought home an impressive 33 of a possible 96 swimming medals, more than any other nation, and Jenny played a key role in that amazing success. She anchored two gold medal-winning relays and brought home her first individual Olympic medal, a bronze in the 100-meter freestyle. These blistering performances brought Jenny's individual Olympic medal count to nine, breaking Bonnie Blair's record for Olympic medals won by an American woman. Jenny performed beautifully under amazing pressure and against tough competition, and she will always be a champion in the eyes of the people of New Hampshire.

As Jenny ends her Olympic swimming career, I wish her all the best as she heads to medical school. I am confident her amazing work ethic and dedication to excellence will serve her well in her career in medicine and any other endeavor she pursues. It is truly an honor to represent Jenny in the U.S. Senate.

TRIBUTE TO KNIGHTS OF COLUMBUS OF MERRIMACK

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to the Knights of Columbus Number 6725 of Merrimack, New Hampshire as

they gather to celebrate their 25th anniversary. This is a milestone of which they and the community of Merrimack should be extremely proud.

Throughout its quarter-century of existence, the Knights of Columbus has been a major presence in the Greater Merrimack Area. They have donated their time and energy to making their entire community a better place through public service. Whether it is manning a soup kitchen in Nashua, making annual donations to the New Hampshire Kidney Fund or recognizing Families of the Year, K of C 6725 has shown their dedication to their core values of family, Church, council, and community.

Furthermore, the K of C 6725 has worked to help those who do not have a voice, including the needy, the handicapped, and the unborn. They have donated countless items of clothing to people in need, worked tirelessly to help WMUR-TV with its annual presentation of the Jerry Lewis Telethon and purchased and maintained concession trailers to help generate donations for many charitable organizations. Furthermore, they have sponsored an annual folk music night for Birthright, a group dedicated to protecting the unborn.

The K of C 6725 has shown dedication not only to its community and those in need but to the Catholic Church as well. They are a constant presence, holding an annual Palm Sunday Breakfast, an Easter celebration known as "Birthday Party for Jesus," and setting up an Memorial Mass at Last Rest Cemetery in Merrimack.

In a world where far too few people take the time and opportunity to get involved in their churches and communities, the K of C No. 6725 is an example of the good things we can accomplish when we work together to help others. I congratulate them on this wonderful anniversary, and I wish them all the best as they continue their fantastic work. It is an honor to represent all of K of C 6725's members in the U.S. Senate.•

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Evans, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

REPORT ON THE CONTINUATION OF EMERGENCY WITH RESPECT TO SIGNIFICANT NARCOTICS TRAFFICKERS CENTERED IN CO-LOMBIA—MESSAGE FROM THE PRESIDENT—PM 134

The Presiding Officer laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs.

To the Congress of the United States:

Section 202(d) of the National Emergencies Act, 50 U.S.C., 1622(d) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision. I have sent the enclosed notice to the Federal Register for publication, stating that the emergency declared with respect to significant narcotics traffickers centered in Colombia is to continue in effect for 1 year beyond October 21, 2000.

The circumstances that led to the declaration on October 21, 1995, of a national emergency have not been resolved. The actions of significant narcotics traffickers centered in Colombia continue to pose an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States and to cause unparalleled violence, corruption, and harm in the United States and abroad. For these reasons, I have determined that it is necessary to maintain economic pressures on significant narcotics traffickers centered in Colombia by blocking their property subject to the jurisdiction of the United States and by depriving them of access to the United States market and financial system.

WILLIAM J. CLINTON.
THE WHITE HOUSE, October 19, 2000.
CONTINUATION OF EMERGENCY WITH RESPECT TO SIGNIFICANT NARCOTICS
TRAFFICKERS CENTERED IN COLOMBIA

On October 21, 1995, by Executive Order 12978, I declared a national emergency to deal with the unusual and extraordinary threat to the national security, foreign policy, and economy of the United States constituted by the actions of significant narcotics traffickers centered in Colombia, and the unparalleled violence, corruption, and harm they cause in the United States and abroad. The order blocks all property and interests in property of foreign persons listed in an Annex to the order, as well as persons determined to play a significant role in international narcotics trafficking centered in Colombia, to materially assist in, or provide financial or technological support for or goods or services in support of,

narcotics trafficking activities of persons designated in or pursuant to the order, or to be owned or controlled by, or to act for or on behalf of, persons designated in or pursuant to the order. The order also prohibits any transaction or dealing by United States persons or within the United States in such property or interests in property. Because the activities of significant narcotics traffickers centered in Colombia continue to threaten the national security, foreign policy, and economy of the United States and to cause unparalleled violence, corruption, and harm in the United States and abroad, the national emergency declared on October 21, 1995, and the measures adopted pursuant thereto to deal with that emergency, must continue in effect beyond October 21, 2000. Therefore, in accordance with section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)), I am continuing the national emergency for 1 year with respect to significant narcotics traffickers centered in Colombia. This notice shall be published in the Federal Register and transmitted to the Congress.

WILLIAM J. CLINTON. THE WHITE HOUSE, October 19, 2000.

REPORT ON HIGHWAY SAFETY FOR CALENDAR YEAR 1998—MES-SAGE FROM THE PRESIDENT— PM 135

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Commerce, Science, and Transportation.

To the Congress of the United States:

I transmit herewith the Department of Transportation's Calendar Year 1998 reports on Activities Under the National Traffic and Motor Vehicle Safety Act of 1966, the Highway Safety Act of 1966, and the Motor Vehicle Information and Cost Savings Act of 1972, as amended.

WILLIAM J. CLINTON. THE WHITE HOUSE, October 18, 2000.

MESSAGE FROM THE HOUSE

At 10:47 a.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 3218. An act to amend title 31, United States Code, to prohibit the appearance of Social Security account numbers on or through unopened mailings of checks or other drafts issued on public money in the Treasury.

H.R. 4148. An act to make technical amendments to the provisions of the Indian Self-Determination and Education Assistance Act relating to contract support costs, and for other purposes.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence from the Senate:

H. Con. Res. 415. Concurrent resolution expressing the sense of the Congress that there should be established a National Children's Memorial Day.

The message further announced that the House has agreed to the following concurrent resolution:

S. Con. Res. 151. Concurrent resolution to make a correction in the enrollment of the bill H.R. 2348.

The message also announced that the House has passed the following bill, with an amendment:

S. 964. An act to provide for equitable compensation for the Cheyenne River Sioux Tribe, and for other purposes.

The message further announced that the House has agreed to the amendments of the Senate to the bill (H.R. 3671) to amend the Acts popularly known as the Pittman-Robertson Wildlife Restoration Act and the Dingell-Johnson Sport Fish Restoration Act to enhance the funds available for grants to States for fish and wildlife conservation projects and increase opportunities for recreational hunting, bow hunting, trapping, archery, and fishing, by eliminating opportunities for waste, fraud, abuse, maladministration, and unauthorized expenditures for administration and execution of those Acts. and for other purposes.

The message also announced that pursuant to section 491 of the Higher Education Act (20 U.S.C. 1098(c)), the Speaker reappoints the following member on the part of the House to the Advisory Committee on Student Financial Assistance for a 3 year term: Mr. Henry Givens of St. Louis, Missouri.

ENROLLED BILL SIGNED

Under the authority of the order of the Senate of January 6, 1999, the Secretary of the Senate, on October 19, 2000, during the recess of the Senate, received a message from the House of Representatives announcing that the Speaker has signed the following enrolled bill:

H.R. 4205. An act to authorize appropriations for fiscal year 2001 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

Under the authority of the order of the Senate of January 6, 1999, the enrolled bill was signed subsequently by the President pro tempore (Mr. Thur-MOND) on October 19, 2000.

At 2:30 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4635) making

appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2001, and for other purposes.

The message also announced that the House insists upon its amendment to the bill (S. 2796) to provide for the conservation and development of water and related resources, to authorize the Secretary of the Army to construct various projects for improvements to rivers and harbors of the United States, and for other purposes, and asks a conference with the Senate on the disagreeing votes of the two Houses thereon.

That Mr. Shuster, Mr. Young of Alaska, Mr. Boehlert, Mr. Shaw, Mr. Oberstar, Mr. Borski, and Mr. Menendez, be the managers of the conference on the part of the House.

At 5:27 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the following joint resolution, in which it requests the concurrence of the Senate:

H.J. Res. 114. Joint resolution making further continuing appropriations for the fiscal year 2001, and for other purposes.

At 7:09 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 4541. An act to reauthorize and amend the Commodity Exchange Act to promote legal certainty, enhance competition, and reduce systemic risk in markets for futures and over-the-counter derivatives, and for other purposes.

ENROLLED BILLS PRESENTED

The Secretary of the Senate reported that on today, October 19, 2000, he has presented to the President of the United States the following enrolled bills:

S. 624. An act to authorize construction of the Fort Peck Reservation Rural Water System in the State of Montana, and for other purposes.

S. 1809. An act to improve service systems for individuals with developmental disabilities, and for other purposes.

S. 2686. An act to amend chapter 36 of title 39, United States Code, to modify rates relating to reduced rate mail matter, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-11210. A communication from the Assistant General Counsel for Regulatory Law,

Office of Energy Efficiency and Renewable Energy, Department of Energy, transmitting, pursuant to law, the report of a rule entitled "Energy Code for New Federal Commercial and Multi-Family High Rise Residential Buildings" (RIN1904-AA69) received on October 18, 2000; to the Committee on Energy and Natural Resources.

EC-11211. A communication from the Assistant Secretary for Congressional and Intergovernmental Affairs, Department of Energy, transmitting, pursuant to law, a report relative to the strategic plan; to the Committee on Energy and Natural Resources.

EC-11212. A communication from the Acting Assistant General Counsel for Regulatory Law, Office of Procurement and Assistance Policy, Department of Energy, transmitting, pursuant to law, the report of a rule entitled "Multiple Award Contracts (MAC); Government Agency Contracts (GWAC); and, Federal Supply Schedules (FSS)" (RIN AL-2000-07) received on October 18, 2000; to the Committee on Energy and Natural Resources.

EC-11213. A communication from the Assistant General Counsel for Regulatory Law, Office of Energy Efficiency and Renewable Energy, Department of Energy, transmitting, pursuant to law, the report of a rule entitled "Energy Conservation Program for Consumer Products: Fluorescent Lamp Ballasts Energy Conservation Standards" (RIN1904-AA75) received on October 18, 2000; to the Committee on Energy and Natural Resources.

EC-11214. A communication from the Acting Assistant General Counsel for Regulatory Law, Office of Management and Administration, Department of Energy, transmitting, pursuant to law, the report of a rule entitled "Mail Services User's Manual" (D.O.E. M 573.1-1) received on October 18, 2000; to the Committee on Energy and Natural Resources.

EC-11215. A communication from the Acting Assistant General Counsel for Regulatory Law, Office of Chief Financial Officer, Department of Energy, transmitting, pursuant to law, the report of a rule entitled "Oficial Foreign Travel" (DOE O 551.1A) received on October 18, 2000; to the Committee on Energy and Natural Resources.

EC-11216. A communication from the Assistant Secretary, Policy, Management and Budget, Department of the Interior, transmitting, pursuant to law, a report relative to royalty management and delinquent account collection activities; to the Committee on Energy and Natural Resources.

EC-11217. A communication from the Acting Director of Communications and Legislative Affairs, Equal Employment Opportunity Commission, transmitting, pursuant to law, a report relative to current inventory; to the Committee on Governmental Affairs.

EC-11218. A communication from the Chief Counsel for Regulation, Office of the Secretary, Department of Commerce, transmiting, pursuant to law, the report of a rule entitled "Report of Tabulations of Population to States and Localities Pursuant to 13 U.S.C. 141(c) and Availability of Other Population Information" (RIN0607-AA33) received on October 18, 2000; to the Committee on Governmental Affairs.

EC-11219. A communication from the Director of the Employment Service, Office of Personnel Management, transmitting, pursuant to law, the report of a rule entitled "Reduction in Force Retreat Rights" (RIN3206-AJ14) received on October 18, 2000; to the Committee on Governmental Affairs.

EC-11220. A communication from the Director, Office of Executive Resources Management, Office of Personnel Management, transmitting, pursuant to law, the report of a rule entitled "Managing Senior Executive Performance" (RIN3206-A157) received on October 18, 2000; to the Committee on Governmental Affairs.

EC-11221. A communication from the Interim Director of the Court Services and Offender Supervision Agency for the District of Columbia, transmitting, pursuant to law, a report relative to the strategic plan for calendar year 2000 through 2005; to the Committee on Governmental Affairs.

EC-11222. A communication from the Executive Director of the Committee for Purchase From People Who Are Blind or Severely Disabled, transmitting, pursuant to law, the report of additions to the procurement list received on October 18, 2000; to the Committee on Governmental Affairs.

EC-11223. A communication from the Comptroller General, General Accounting Office, transmitting, pursuant to law, the August 2000 Report; to the Committee on Governmental Affairs.

EC-11224. A communication from the Associate Administrator, Agricultural Marketing Service, Fruit and Vegetable Programs, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Sweet Onions Grown in the Walla Walla Valley of Southeast Washington and Northeast Oregon; Revision of Administrative Rules and Regulations" (Docket Number: FV00-956-1-IFR) received on October 18, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. STEVENS, from the Committee on Appropriations: Special Report entitled "Further Revised Allocation To Subcommittees Of Budget Totals for Fiscal Year 2001" (Rept. No. 106–507).

EXECUTIVE REPORTS OF COMMITTEE

The following executive reports of committee were submitted:

 $\mbox{Mr. WARNER, from the Committee on Armed Services.}$

The following Army National Guard of the United States officer for appointment in the Reserve of the Army to the grade indicated under title 10, U.S.C., Section 12203:

To be major general

Brig. Gen. Alexander H. Burgin, 0000

The following named officer for appointment in the United States Army to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

 $To\ be\ lieutenant\ general$

Maj. Gen. Joseph K. Kellogg Jr., 0000

The following named officer for appointment in the United States Army to the grade indicated under title 10, U.S.C., section 624:

To be brigadier general

Col. Jeffrey J. Schloesser, 0000

(The above nominations were reported with the recommendation that they be confirmed.)

Mr. WARNER. Mr. President, for the Committee on Armed Services, I report

favorably nomination lists which were printed in the RECORD of the dates indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that these nominations lie at the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

Army nominations beginning Kirk M. Krist and ending Robert H. Williams, which nominations were received by the Senate and appeared in the Congressional Record on October 12, 2000.

Army nominations beginning James W. Lenoir and ending Charles L. Yriarte, which nominations were received by the Senate and appeared in the Congressional Record on October 12, 2000.

Army nominations beginning Timothy L. Bartholomew and ending Robert E. Welch Jr., which nominations were received by the Senate and appeared in the Congressional Record on October 12, 2000.

Army nomination of Angelo Riddick, which was received by the Senate and appeared in the Congressional Record on October 12, 2000.

Army nomination of James White, which was received by the Senate and appeared in the Congressional Record on October 12, 2000.

Army nominations beginning Joseph C. Carter and ending Raymond M. Murphy, which nominations were received by the Senate and appeared in the Congressional Record on October 17, 2000.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. DASCHLE (for Mrs. Feinstein): S. 3219. A bill to amend title 31, United States Code, to prohibit the appearance of Social Security account numbers on or through unopened mailings of checks or other drafts issued on public money in the Treasury; to the Committee on Finance.

By Mr. DEWINE:

S. 3220. A bill to amend sections 3 and 5 of the National Child Protection Act of 1993, relating to national criminal history background checks of providers of care to children, elderly persons, and persons with disabilities; to the Committee on the Judiciary.

By Mr. EDWARDS:

- S. 3221. A bill to provide grants to law enforcement agencies that ensure that law enforcement officers employed by such agencies are afforded due process when involved in a case that may lead to dismissal, demotion, suspension, or transfer; to the Committee on the Judiciary.
 - By Mr. CRAIG (for himself, Mr. DASCHLE, Mr. BAUCUS, Mr. BURNS, Mr. CRAPO, Mr. JOHNSON, and Mr. SMITH of Oregon):
- S. 3222. A bill to require the Secretary of the Interior to establish a program to provide assistance through States to eligible weed management entities to control or eradicate harmful, nonnative weeds on public and private land; to the Committee on Energy and Natural Resources.

By Mr. HARKIN:

S. 3223. A bill to amend the Food Security Act of 1985 to establish the conservation security program; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. BINGAMAN (by request):

S. 3224. A bill to authorize the Secretary of the Interior to conduct studies of specific areas for potential inclusion in the National Park System, and for other purposes; to the Committee on Energy and Natural Resources

By Mr. SANTORUM:

S. 3225. A bill to amend the Internal Revenue Code of 1986 to expand the tip tax credit to employers of cosmetologists and to promote tax compliance in the cosmetology sector; to the Committee on Finance.

By Mr. HATCH:

S. 3226. A bill to amend the Immigration and Nationality Act to extend for an additional 3 years the special immigrant religious worker program; to the Committee on the Judiciary.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. LOTT (for himself and Mr. DASCHLE):

S. Res. 380. A resolution approving the placement of 2 paintings in the Senate reception room; considered and agreed to.

By Mr. DURBIN (for himself, Mr. CAMPBELL, and Mr. HELMS):

S. Con. Res. 153. A concurrent resolution expressing the sense of Congress with respect to the parliamentary elections held in Belarus on October 15, 2000, and for other purposes; to the Committee on Foreign Relations

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

Mr. DEWINE:

S. 3220. A bill to amend sections 3 and 5 of the National Child Protection Act of 1993, relating to national criminal history background checks of providers of care to children, elderly persons, and persons with disabilities; to the Committee on the Judiciary.

NATIONAL CHILD PROTECTION IMPROVEMENT ACT OF 2000

Mr. DEWINE. Mr. President, today I am introducing the National Child Protection Act Improvement Act of 2000. This bill would amend the National Child Protection act, as amended by the Volunteers for Children Act. It is designed to facilitate the gathering of criminal history record information from both state and federal repositories for background checks of employees and volunteers for organizations providing services to children, the elderly, and the disabled.

Despite the best efforts of the law enforcement community and the volunteer and child services community, many of the individuals who volunteer and are employed in these critical positions still are not subject to criminal history background checks. The bill that I am introducing today modified the National Child Protection Act to facilitate these background checks. Under my bill, with the consent of the individual, the organization with which

the individual is applying would receive a copy of the full criminal history record, including relevant arrest information. Further, the bill includes an authorization to provide assistance to these volunteer and service organizations in offsetting the cost of these background checks. To help protect the privacy of individuals who volunteer and are employed in these positions, the bill also would provide a number of important privacy protections.

we need to be sure that we do everything possible to facilitate these important background checks, while assuring that these background checks are not so costly that volunteer organizations and their volunteers are deterred from initiating these vital safety checks.

In shaping this bill, I have worked closely with law enforcement, state officials, and other interested parties. Because of that, the legislation that I am introducing today would help accomplish the laudable goals of the national Child Protection Act and the Volunteers for Children Act—which are to facilitate national background checks initiated in states which have not adopted authorizing language, and, at the same time, assure that those checks are processed effectively and quickly. We need to give states the flexibility they need to accomplish

Mr. EDWARDS:

those goals.

S. 3221. A bill to provide grants to law enforcement agencies that ensure that law enforcement officers employed by such agencies are afforded due process when involved in a case that may lead to dismissal, demotion, suspension, or transfer; to the Committee on the Judiciary.

THE LAW ENFORCEMENT OFFICERS DUE PROCESS ACT OF 2000

Mr. EDWARDS. Mr. President, I rise today to introduce the Law Enforcement Officers Due Process Act of 2000. Every day our Nation's police officers put their lives on the line in the fight against crime. Every time they patrol a beat they put their own safety at risk to protect our children and make our country a better place to live and work. We all owe a great deal to these brave men and women.

Working police officers spend their lives among the public safeguarding the innocent and apprehending those who have committed crimes. Much of this contact can be stressful for everyone involved. Perhaps an individual has been stopped by an officer for the suspected violation of a law. Or maybe the officer is assisting someone who is the victim of a crime. Due to the circumstances, these are often unpleasant situations. And unfortunately, in some instances, contact with the police officer may become adversarial and generate complaints about the officer's actions.

These complaints range from accusations that an officer took too long to arrive at a crime scene, used too much force, or was not forceful enough, to claims that the officer was rude or didn't show proper respect. Some complaints against officers are legitimate. However, some complaints are generated to intimidate an officer who is simply doing his or her job, into dropping charges. Any one of these complaints can get an officer fired, suspended, or otherwise punished without the benefit of due process.

A patchwork of state and local laws currently governs the rights of officers when they are involved in a case that may lead to dismissal, demotion, suspension or transfer. Thirty-five states have state and/or local laws in place that govern the administrative due process rights of law enforcement officers. However, 15 states do not have any of these much-deserved due process protections for their law enforcement officers.

The Law Enforcement Officers Due Process Act is a common-sense measure designed to replace arbitrary and ad hoc investigatory procedures with consistent standards. The legislation will provide additional funding to law enforcement agencies that either have in place, or currently do not have but certify they will implement, administrative due process for their law enforcement officers. An agency will be eligible for grant money if its administrative procedures include the right of a law enforcement officer under investigation to: (1) a hearing before a fair and impartial board or hearing officer; (2) be represented by an attorney or other officer at the expense of the officer under investigation; (3) confront any witness testifying against him or her; and (4) record all meetings he or she attends. In many instances, an employer with direct control over an officer is also the investigator. That is why providing basic, explicitly stated rights to officers under investigation is crucial to maintaining impartial investigations. These rights will not interfere with the management of state and local internal investigations. They will merely ensure that officers receive the benefit of fair and objective investigations, whether a complaint against them is legitimate or not.

Some individuals may be concerned that providing these rights would delay removal of an officer who is ultimately found to have deserved disciplinary action taken against them. However, I'd like to emphasize that my legislation would not prevent the immediate suspension of an officer whose continued presence on the job is considered to be a substantial and immediate threat to the welfare of the law enforcement agency or the public; who refuses to obey a direct order issued in conformance with the agency's rules and regulations: or who is accused of committing an illegal act.

The Law Enforcement Officers Due Process Act does not force a law enforcement agency to implement due process rights for its officers. Rather, it encourages agencies to do the right thing by offering them additional funds if they establish written procedures for determining if a complaint is valid or merely designed to cause trouble for the officer.

I urge my colleagues who represent states that do not have law enforcement officers' due process rights laws to cosponsor my bill and give their police officers the protections they deserve. I also urge my colleagues who represent states that have various local laws in place to cosponsor my bill. By doing so they will help eliminate the disparity that exists among local jurisdictions, and guarantee that every single officer in their state will have a minimum baseline of rights to help guarantee fair and impartial investigations.

Crime rates are down across the Nation. We owe a tremendous debt of gratitude to our Nation's police officers for helping make this happen. Our communities, our schools, and our places of business would not enjoy the level of security they have today without the efforts of law enforcement. Enacting the Law Enforcement Officers Due Process Act is the least we can do to show officers that we will fight for all of them just like they fight for all of us every day.

I ask unanimous consent that the Law Enforcement Officers Due Process Act be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3221

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Law Enforcement Officers Due Process Act of 2000".

SEC. 2. PROTECTION FOR LAW ENFORCEMENT OFFICERS.

- (a) PROGRAM AUTHORIZED.—The Attorney General is authorized to provide grants to law enforcement agencies that are eligible under subsection (b).
- (b) ELIGIBILITY.—To be eligible to receive a grant under this section, a law enforcement agency shall—
- (1) have in effect an administrative process that complies with the requirements of subsection (c) or an existing procedure described in subsection (e): or
- (2) certify that it will establish, not later than 2 years after the date of enactment of this Act, an administrative process that complies with the requirements of subsection (c).
- (c) Officer Rights.—The administrative process referred to in subsection (b) shall require that a law enforcement agency that investigates a law enforcement officer for matters which could reasonably lead to disciplinary action against such officer, including dismissal, demotion, suspension, or transfer provide recourse for the officer that, at a minimum, includes the following:

- (1) Access to administrative process.— The agency has written procedures to ensure that any law enforcement officer is afforded access to any existing administrative process established by the employing agency prior to the imposition of any such disciplinary action against the officer.
- (2) SPECIFIC PROCEDURES.—The procedures used under paragraph (1) include, the right of a law enforcement officer under investigation—
- (A) to a hearing before a fair and impartial board or hearing officer;
- (B) to be represented by an attorney or other officer at the expense of such officer;
- (C) to confront any witness testifying against such officer; and
- (D) to record all meetings in which such officer attends.
- (d) IMMEDIATE SUSPENSION.—Nothing in this section shall prevent the immediate suspension with pay of a law enforcement officer—
- (1) whose continued presence on the job is considered to be a substantial and immediate threat to the welfare of the law enforcement agency or the public;
- (2) who refuses to obey a direct order issued in conformance with the agency's written and disseminated rules and regulations; or
- (3) who is accused of committing an illegal act.
- (e) EXISTING PROCEDURES.—The provisions of this section shall not apply to a law enforcement agency if the Attorney General determines that such agency has in effect an established civil service system, agency review board, grievance procedure or personnel board, which meets or exceeds the minimum standards of subsection (c).
- (f) DISTRIBUTION OF FUNDS.—From the amount made available to carry out this section, the Attorney General shall allocate—
- (1) 50 percent for law enforcement agencies that are eligible under paragraph (1) of subsection (b); and
- (2) 50 percent for law enforcement agencies that are eligible under paragraph (2) of subsection (b).
- (g) REGULATIONS.—The Attorney General may prescribe such regulations as may be necessary to carry out this section.
- (h) DEFINITIONS.—For purposes of this section— $\,$
- (1) the term "law enforcement agency" means any State or unit of local government within the State that employs law enforcement officers; and
- (2) the term "law enforcement officer" means an officer with the powers of arrest as defined by the laws of each State and required to be certified under the laws of such State.
- (i) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to carry out this section \$10,000,000 for fiscal year 2001 and such sums as may be necessary for each of the 4 succeeding fiscal years.
 - Mr. CRAIG (for himself, Mr. DASCHLE, Mr. BAUCUS, Mr. BURNS, Mr. CRAPO, Mr. JOHNSON, and Mr. SMITH of Oregon):
- S. 3222. A bill to require the Secretary of the Interior to establish a program to provide assistance through States to eligible weed management entities to control or eradicate harmful, nonnative weeds on public and private land; to the Committee on Energy and Natural Resources.

HARMFUL NON-NATIVE WEED CONTROL ACT OF $$2000\,$

Mr. CRAIG. Mr. President, I rise today with Senator DASCHLE to introduce the Harmful Non-native Weed Control Act of 2000—to provide assistance to eligible weed management entities to control or eradicate harmful, non-native weeds on public and private land. I am pleased that Senators BAUCUS, BURNS, CRAPO, JOHNSON, and GORDON SMITH, are joining us as original cosponsors.

Currently, noxious weeds are a dangerous threat to the viability of both public and private lands across the country. Over a century ago, a wave of noxious weeds entered North America from Europe and Asia. Unlike native species, which have natural predators and control mechanisms, these weeds lack native insects, fungi, or diseases to control their growth and takeover of native plants.

Noxious weeds are estimated to spread at the rate of 4,600 acres per day on federal lands alone in the Western United States. Idaho's own rush skeltonweed has increased from a few plants in 1954 to roughly 4 million acres today. Hundreds of millions of dollars are spent each year by Western states to prevent and stop the growth of noxious weeds.

These nonnative weeds threaten fully two-thirds of all endangered species and are now considered by some experts to be the second most important threat to biodiversity. In some areas, spotted knapweed grows so thick that big game like deer will move out of the area to find edible plants. Noxious weeds also increase soil erosion, and prevent recreationists from accessing land that is infested with poisonous plants. Bikers are often met with a formidable foe when 2-inch-long thorns pop their tires on bike paths overrun with puncture vine that can pierce all but the most rugged materials.

In response to this environmental crisis, I have worked with the National Cattlemen's Beef Association, Public Lands Council, and the Nature Conservancy to develop the Harmful Non-Native Weed Control Act of 2000. This legislature will provide a mechanism to get funding to the local level where weeds can be fought in a collaborative way. Working together is what this entire initiative is about.

Specifically, this bill establishes, in the Office of the Secretary of the Interior, a program to provide assistance through States to eligible weed management entities. The Secretary of the Interior appoints an Advisory Committee of ten individuals to make recommendations to the Secretary regarding the annual allocation of funds. The Secretary, in consultation with the Advisory Committee, will allocate funds to States to provide funding to eligible weed management entities to carry out projects approved by States to control

or eradicate harmful, non-native weeds on public and private lands. Funds will be allocated based on several factors, including but not limited to: the seriousness of the problem in the State; the extent to which the Federal funds will be used to leverage non-Federal funds to address the problem; and the extent to which the State has already made progress in addressing the problems.

The bill directs that the States use 25 percent of their allocation to make base payments and 75 percent for financial awards to eligible weed management entities for carrying out projects relating to the control or eradication of harmful, non-native weeds on public or private lands. To be eligible to obtain a base payment a weed management entity must be established by local stakeholders for weed management or public education purposes, provide the State a description of their purpose and proposed projects, and fulfill any other requirements set by the State. Weed management entities are also eligible for financial awards which are funds awarded by the State on a competitive basis to carry out projects which cannot be funded within the base payment. Projects will be evaluated, giving equal consideration to economic and natural values, and selected for funding based on factors such as the seriousness of the problem, the likelihood that the project will address the problem, and how comprehensive the project's approach is to the harmful, non-native weed problem within the State. A 50 percent non-Federal match is required to receive the funds.

The Department of Agriculture in Idaho (ISDA) has developed a Strategic Plan for Managing Noxious Weeds through a collaborative effort involving private landowners, State and Federal land managers, State and local governmental entities, and other interested parties. Cooperative Weed Management Areas (CWMAs) are the centerpiece of the strategic plan. CWMAs cross jurisdictional boundaries to bring together all landowners, land managers, and interested parties to identify and prioritize noxious weed strategies within the CWMA in a collaborative manner. The primary responsibilities of the ISDA are to provide coordination, administrative support, facilitation, and project cost-share funding for this collaborative effort. Idaho already has a record of working in a collaborative way on this issue-my legislation will heighten the progress we've had, and establish the same formula for success in other States.

We are introducing this legislation today to get the discussion started. We hope to refine the bill over the winter and introduce an improved bill next year. Constructive suggestions are welcome and we look forward to working with other Members of Congress to get this bill passed next year. Noxious

weeds are not only a problem for farmers and ranchers, but a hazard to our environment, economy, and communities in Idaho and the West. The Harmful Nonnative Weeds Act of 2000 is an important step to ensure we are diligent in stopping the spread of these weeds. I am confident that if we work together at all levels of government and throughout our communities, we can protect our land, livelihood, and environment.

Mr. President, I ask unanimous consent that a copy of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3222

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Harmful Nonnative Weed Control Act of 2000".

SEC. 2. FINDINGS AND PURPOSES.

- (a) FINDINGS.—Congress finds that—
- (1) public and private land in the United States faces unprecedented and severe stress from harmful, nonnative weeds;
- (2) the economic and resource value of the land is being destroyed as harmful nonnative weeds overtake native vegetation, making the land unusable for forage and for diverse plant and animal communities;
- (3) damage caused by harmful nonnative weeds has been estimated to run in the hundreds of millions of dollars annually;
- (4) successfully fighting this scourge will require coordinated action by all affected stakeholders, including Federal, State, and local governments, private landowners, and nongovernmental organizations;
- (5) the fight must begin at the local level, since it is at the local level that persons feel the loss caused by harmful nonnative weeds and will therefore have the greatest motivation to take effective action; and
- (6) to date, effective action has been hampered by inadequate funding at all levels of government and by inadequate coordination.
 (b) PURPOSES.—The purposes of this Act
- (1) to provide assistance to eligible weed management entities in carrying out projects to control or eradicate harmful, nonnative weeds on public and private land;
- (2) to coordinate the projects with existing weed management areas and districts;
- (3) in locations in which no weed management entity, area, or district exists, to stimulate the formation of additional local or regional cooperative weed management entities, such as entities for weed management areas or districts, that organize locally affected stakeholders to control or eradicate weeds:
- (4) to leverage additional funds from a variety of public and private sources to control or eradicate weeds through local stakeholders; and
- (5) to promote healthy, diverse, and desirable plant communities by abating through a variety of measures the threat posed by harmful, nonnative weeds.

SEC. 3. DEFINITIONS.

In this Act:

- (1) ADVISORY COMMITTEE.—The term "Advisory Committee" means the advisory committee established under section 5.
- (2) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

(3) STATE.—The term "State" means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and any other territory or possession of the United States.

SEC. 4. ESTABLISHMENT OF PROGRAM.

The Secretary shall establish in the Office of the Secretary a program to provide financial assistance through States to eligible weed management entities to control or eradicate harmful, nonnative weeds on public and private land.

SEC. 5. ADVISORY COMMITTEE.

- (a) IN GENERAL.—The Secretary shall establish in the Department of the Interior an advisory committee to make recommendations to the Secretary regarding the annual allocation of funds to States under section 6 and other issues related to funding under this Act.
- (b) COMPOSITION.—The Advisory Committee shall be composed of not more than 10 individuals appointed by the Secretary who—
- (1) have knowledge and experience in harmful, nonnative weed management; and
- (2) represent the range of economic, conservation, geographic, and social interests affected by harmful, nonnative weeds.
- (c) TERM.—The term of a member of the Advisory Committee shall be 4 years.
 - (d) COMPENSATION.-
- (1) IN GENERAL.—A member of the Advisory Committee shall receive no compensation for the service of the member on the Advisory Committee.
- (2) TRAVEL EXPENSES.—A member of the Advisory Committee shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the Advisory Committee.
- (e) FEDERAL ADVISORY COMMITTEE ACT.— The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Advisory Committee

SEC. 6. ALLOCATION OF FUNDS TO STATES.

- (a) IN GENERAL.—In consultation with the Advisory Committee, the Secretary shall allocate funds made available for each fiscal year under section 8 to States to provide funding in accordance with section 7 to eligible weed management entities to carry out projects approved by States to control or eradicate harmful, nonnative weeds on public and private land.
- (b) AMOUNT.—The Secretary shall determine the amount of funds allocated to a State for a fiscal year under this section on the basis of—
- (1) the seriousness of the harmful, nonnative weed problem or potential problem in the State, or a portion of the State;
- (2) the extent to which the Federal funds will be used to leverage non-Federal funds to address the harmful, nonnative weed problems in the State:
- (3) the extent to which the State has made progress in addressing harmful, nonnative weed problems in the State;
- (4) the extent to which weed management entities in a State are eligible for base payments under section 7; and
- (5) other factors recommended by the Advisory Committee and approved by the Secretary.

SEC. 7. USE OF FUNDS ALLOCATED TO STATES.

(a) IN GENERAL.—A State that receives an allocation of funds under section 6 for a fiscal year shall use—

- (1) not more than 25 percent of the allocation to make a base payment to each weed management entity in accordance with subsection (b); and
- (2) not less than 75 percent of the allocation to make financial awards to weed management entities in accordance with subsection (c).
 - (b) Base Payments.—
 - (1) USE BY WEED MANAGEMENT ENTITIES.—
- (A) IN GENERAL.—Base payments under subsection (a)(1) shall be used by weed management entities—
- (i) to pay the Federal share of the cost of carrying out projects described in subsection (d) that are selected by the State in accordance with subsection (d); or
- (ii) for any other purpose relating to the activities of the weed management entities, subject to guidelines established by the State.
- (B) FEDERAL SHARE.—Under subparagraph (A), the Federal share of the cost of carrying out a project described in subsection (d) shall not exceed 50 percent.
- (2) ELIGIBILITY OF WEED MANAGEMENT ENTITIES.—To be eligible to obtain a base payment under paragraph (1) for a fiscal year, a weed management entity in a State shall—
- (A) be established by local stakeholders—
- (i) to control or eradicate harmful, nonnative weeds on public or private land; or
- (ii) to increase public knowledge and education concerning the need to control or eradicate harmful, nonnative weeds on public or private land:
- (B)(i) for the first fiscal year for which the entity receives a base payment, provide to the State a description of—
- (I) the purposes for which the entity was established; and
- (II) any projects carried out to accomplish those purposes; and
- (ii) for any subsequent fiscal year for which the entity receives a base payment, provide to the State—
- $\ensuremath{(\mathrm{I})}$ a description of the activities carried out by the entity in the previous fiscal year—
- (aa) to control or eradicate harmful, nonnative weeds on public or private land; or
- (bb) to increase public knowledge and education concerning the need to control or eradicate harmful, nonnative weeds on public or private land; and
- (II) the results of each such activity; and
- (C) meet such additional eligibility requirements, and conform to such process for determining eligibility, as the State may establish.
 - (c) FINANCIAL AWARDS.—
- (1) USE BY WEED MANAGEMENT ENTITIES.—
- (A) IN GENERAL.—Financial awards under subsection (a)(2) shall be used by weed management entities to pay the Federal share of the cost of carrying out projects described in subsection (d) that are selected by the State in accordance with subsection (d).
- (B) FEDERAL SHARE.—Under subparagraph (A), the Federal share of the cost of carrying out a project described in subsection (d) shall not exceed 50 percent.
- (2) ELIGIBILITY OF WEED MANAGEMENT ENTITIES.—To be eligible to obtain a financial award under paragraph (1) for a fiscal year, a weed management entity in a State shall—
- (A) meet the requirements for eligibility for a base payment under subsection (b)(2); and
- (B) submit to the State a description of the project for which the financial award is sought.
- (d) Projects.—
- (1) IN GENERAL.—An eligible weed management entity may use a base payment or fi-

nancial award received under this section to carry out a project relating to the control or eradication of harmful, nonnative weeds on public or private land, including—

- (A) education, inventories and mapping, management, monitoring, and similar activities, including the payment of the cost of personnel and equipment; and
- (B) innovative projects, with results that are disseminated to the public.
- (2) SELECTION OF PROJECTS.—A State shall select projects for funding under this section on a competitive basis, taking into consideration (with equal consideration given to economic and natural values)—
- (A) the seriousness of the harmful, nonnative weed problem or potential problem addressed by the project:
- (B) the likelihood that the project will prevent or resolve the problem, or increase knowledge about resolving similar problems in the future;
- (C) the extent to which the payment will leverage non-Federal funds to address the harmful, nonnative weed problem addressed by the project:
- (D) the extent to which the entity has made progress in addressing harmful, non-native weed problems:
- (E) the extent to which the project will provide a comprehensive approach to the control or eradication of harmful, nonnative weeds:
- (F) the extent to which the project will reduce the total population of a harmful, non-native weed within the State: and
- (G) other factors that the State determines to be relevant.
 - (3) Scope of Projects.—
- (A) IN GENERAL.—A weed management entity shall determine the geographic scope of the harmful, nonnative weed problem to be addressed through a project using a base payment or financial award received under this section.
- (B) MULTIPLE STATES.—A weed management entity may use the base payment or financial award to carry out a project to address the harmful, nonnative weed problem of more than 1 State if the entity meets the requirements of applicable State laws.
- (4) LAND.—A weed management entity may use a base payment or financial award received under this section to carry out a project to control or eradicate weeds on any public or private land with the approval of the owner or operator of the land, other than land that is devoted to the cultivation of row crops, fruits, or vegetables.
- (5) PROHIBITION ON PROJECTS TO CONTROL AQUATIC NOXIOUS WEEDS OR ANIMAL PESTS.—A base payment or financial award under this section may not be used to carry out a project to control or eradicate aquatic noxious weeds or animal pests.
- (e) ADMINISTRATIVE COSTS.—Not more than 5 percent of the funds made available under section 8 for a fiscal year may be used by the States or the Federal Government to pay the administrative costs of the program established by this Act, including the costs of complying with Federal environmental laws. SEC. 8 AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this Act.

Mr. DASCHLE. Mr. President, today I am introducing with Senator LARRY CRAIG the Harmful Non-native Weed Control Act of 2000. This legislation will provide critically needed resources to local agencies to reduce the spread of harmful weeds that are destroying

the productivity of farmland and reducing ecological diversity.

In the last few years, public and private lands in the west have seen a startling increase in the spread of harmful, non-native weeds. In South Dakota, these weeds choke out native species, destroy good grazing land, and cost farmers and ranchers thousands of dollars a year to control. On public lands in South Dakota and throughout the West, the spread of the weeds has outpaced the ability of land managers to control them, threatening species diversity and, at times, spreading on to private land.

This problem has become so severe that the White House has created an Invasive Species Council to address it. As Secretary Bruce Babbitt noted, "The blending of the natural world into one great monoculture of the most aggressive species is, I think, a blow to the spirit and beauty of the natural world."

Despite these efforts, the scale of this problem is vast. Some estimate that it could cost well into the hundreds of millions of dollars to control effectively the spread of these weeds. This legislation will help to meet that need by putting funding directly into the hands of the local weed boards and managers who already are working to control this problem and whose lands are directly affected.

Specifically, this legislation authorizes new weed control funding and establishes an Advisory Board in the Department of Interior to identify the areas of greatest need for the distribution of those funds. States, in turn, will transfer up to 25 percent of it directly to local weed control boards in order to support ongoing activities and spur the creation of new weed control boards, where necessary. The remaining 75 percent of funds will be made available to weed control boards on a competitive basis to fund weed control projects.

I would like to thank Senator CRAIG for his work on this issue, and to thank the National Cattlemen's Association and the Nature Conservancy, who have been instrumental to the development of this bill. Now that this legislation has been introduced, it is my hope that we can work with all interested stakeholders to enact it as soon as possible. I look forward to working with my colleagues during this process.

By Mr. HARKIN:

S. 3223. A bill to amend the Food Security Act of 1985 to establish the conservation security program; to the Committee on Agriculture, Nutrition, and Forestry.

THE CONSERVATION SECURITY ACT OF 2000

Mr. HARKIN. Mr. President, today, I am reintroducing the Conservation Security Act of 2000, a bill which represents a fresh new approach to the future of farm policy.

America's farmers and ranchers hold the key for production of a bountiful, safe, and nourishing food supply for Americans and for the population around the globe, as well as for the future for our environment. Farmers and ranchers have a long history to build on.

Specifically on the issue of conservation, it became a national priority in the days of the Dust Bowl, leading to the creation in the 1930s of the Soil Conservation Service at the Department of Agriculture, which is now the Natural Resources Conservation Service. With the very foundation of our food supply at risk, the Government stepped forward with billions of dollars in assistance to help farmers preserve their precious soils.

Since that time, Federal spending on conservation has steadily declined in inflation adjusted dollars. Yet today agriculture faces a wide range of environmental challenges, from overgrazing and manure management to cropland runoff and water quality impairment. Urban and rural citizens alike are increasingly concerned about the environmental impacts of agriculture.

Farmers and ranchers pride themselves on being good stewards of the land, and there are farm-based solutions to these problems being implemented all over the country. But every dollar spent on constructing a filter strip or developing a nutrient management plan is a dollar that farmers don't have for other purposes in hard times like these. And even in better times, there is a lot of competition for that dollar.

So who benefits from conservation on farm lands? As much or more than the farmer, it is all of us, who depend on the careful stewardship of our air, water, soil and our other natural resources. Farmers and ranchers tend not only to their crops and animals, but also to our nation's natural resources. They are the real stewards for future generations.

Since we all share in these benefits, it is only right that we share in conserving them. It is time to enter into a true conservation partnership with our farmers and ranchers to help ensure that conservation is an integral and permanent part of agricultural production nationwide.

In the 1985 farm bill, we required that farmers who wanted to participate in USDA farm programs develop soil conservation plans for their highly erodible land. This provision helped put new conservation plans in place for our most fragile farmlands. In the most recent farm bill, we streamlined conservation programs and established new cost-share and incentive payments for certain practices.

The Conservation Security Act of 2000, which establishes the Conservation Security Program, builds on our

past successes and takes a bold step forward in farm and conservation policy.

My bill would establish a universal and voluntary incentive payment program to support and encourage conservation activities by farmers and ranchers. Under this program, farmers and ranchers could receive up to \$50,000 per year in conservation payments through entering into 5 to 10-year contracts with USDA and choose from one of three tiers of conservation practices. Payments are based on the number and types of practices they maintain or adopt on their working lands. It is not a set-aside or easement program.

For implementing a basic set of practices, farmers would receive an annual payment of up to \$20,000, as well as an advance payment of the greater of \$1,000 or 20% of the annual payment. This basic category, Tier I, would include such practices as nutrient management, soil conservation, and wild-life habitat management.

To receive up to \$35,000 and an advance payment of the greater of \$2,000 or 20% of the annual payment, farmers would add to their Class I practices by choosing a minimum number of Class II practices—including such practices as controlled rotational grazing, partial field practices like buffers strips and windbreaks, wetland restoration and wildlife habitat enhancement.

Farmers who adopt comprehensive Tier III conservation practices on their whole farm—under a plan that addresses all aspects of air, land, water and wildlife—would receive up to \$50,000 plus an advance payment of the greater of \$3,000 or 20% of the annual payment.

Again, I emphasize, the Conservation Security Program would be totally voluntary. It would be up to the farmer or rancher to decide if they want to do it. If they do, then they would get additional payments. A lot of these practices farmers are already doing now, for which they receive little or no support. My legislation changes that by rewarding those farmers and ranchers who have already implemented these practices through payments to maintain them.

Again, these practices don't just benefit the farmer or rancher. The beneficiaries are all of us. We all will benefit from cleaner air, cleaner streams and rivers, saving soil, protecting our groundwater, and wildlife habitats.

Our private lands are a national resource, and conservation on farm and ranchlands provides environmental benefits that are just as important as the production of abundant and safe food. I am introducing the Conservation Security Act because I believe it will help secure both the economic future of our farmers by helping them obtain better income and as a cornerstone of our national farm policy and the environmental future of agriculture.

Mr. BINGAMAN (by request):

S. 3224. A bill to authorize the Secretary of the Interior to conduct studies of specific areas for potential inclusion in the National Park System, and for other purposes; to the Committee on Energy and Natural Resources.

NATIONAL PARK AREA STUDIES

Mr. BINGAMAN. Mr. President, I am introducing legislation today to authorize the Secretary of the Interior to undertake studies of several areas to determine whether these areas merit potential designation as units of the National Park System. I am introducing this legislation at the request of the Administration. I ask unanimous consent that a letter from Donald J. Barry, Assistant Secretary of the Interior for Fish and Wildlife and Parks, transmitting the proposed legislation, be printed in the RECORD. I also ask unanimous consent that the text of the bill be printed in the RECORD.

S. 3224

Be it enacted in the Senate and the House of Representatives in the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Park Service Studies Act of 2000".

SEC. 2. AUTHORIZATION OF STUDIES.

- (a) IN GENERAL.—The Secretary of the Interior (hereinafter referred to as the "Secretary") shall conduct studies of the geographical areas and historic and cultural themes listed in subsection (c) to determine the appropriateness of including such areas or themes in the National Park System.
- (b) CRITERIA.—In conducting the studies authorized by this Act, the Secretary shall use the criteria for the study of areas for potential inclusion in the National Park System in accordance with section 8 of Public Law 91–383, as amended by section 303 of the National Park System New Areas Study Act (Public Law 105–391; 112 Stat. 3501).
- (c) STUDY AREAS.—The Secretary shall conduct studies of the following:
- (1) Erskine House/Russian American Storehouse, Alaska:
- (2) Blackwater Canyon, West Virginia;
- (3) Farm Labor Movement Sites, California and other States;
- (4) Carter G. Woodson Home, District of Columbia;
- (5) Governors Island, New York; and
- (6) World War II Homefront Sites, Multi-State.

SEC. 3. REPORTS.

The Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives a report on the findings, conclusions, and recommendations of each study under section 2 within three fiscal years following the date on which funds are first made available for each study.

DEPARTMENT OF THE INTERIOR, OFFICE OF THE SECRETARY, Washington, DC, March 22, 2000.

Hon. AL GORE Jr.,

President of the Senate, Washington, DC.

DEAR MR. PRESIDENT: Enclosed is a draft of a bill, "To authorize the Secretary of the Interior to conduct studies of specific areas for potential inclusion in the National Park System, and for other purposes." We recommend that the bill be introduced, referred to the appropriate committee, and enacted.

The bill authorizes studies of six specific areas and cultural themes for potential inclusion in the National Park System. The legislation provides for the Secretary to follow criteria for such studies in existing law, and to submit reports on each study to the appropriate congressional committees within three years after funds for the study are made available. The areas and themes that are the subject of these special resource studies (also called new area studies) are described on the attached page.

A letter listing these six studies has been transmitted to the Senate Energy and Natural Resources Committee and the House Resources Committee, pursuant to the requirement of the National Parks Omnibus Management Act of 1998 (P.L. 105–391) that the Secretary submit a list of areas recommended for study for potential inclusion in the National Park System to those committees at the beginning of each calendar year with the President's budget.

The Office of Management and Budget has advised that, from the standpoint of the Administration's program, there is no objection to the submission of the enclosed draft legislation to the Congress.

Sincerely,

DONALD J. BARRY,
Assistant Secretary for Fish
and Wildlife and Parks.

By Mr. SANTORUM:

S. 3225. A bill to amend the Internal Revenue Code of 1986 to expand the tip tax credit to employers of cosmetologists and to promote tax compliance in the cosmetology sector; to the Committee on Finance.

COSMETOLOGY TAX FAIRNESS AND COMPLIANCE ACT OF 2000

Mr. SANTORUM. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3225

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Cosmetology Tax Fairness and Compliance Act of 2000".

SEC. 2. EXPANSION OF CREDIT FOR PORTION OF SOCIAL SECURITY TAXES PAID WITH RESPECT TO EMPLOYEE TIPS.

- (a) EXPANSION OF CREDIT TO OTHER LINES OF BUSINESS.—Paragraph (2) of section 45B(b) of the Internal Revenue Code of 1986 is amended to read as follows:
- "(2) APPLICATION ONLY TO CERTAIN LINES OF BUSINESS.—In applying paragraph (1), there shall be taken into account only tips received from customers or clients in connection with—
- "(A) the providing, delivering, or serving of food or beverages for consumption if the tipping of employees delivering or serving food or beverages by customers is customary, or
- "(B) the providing of any cosmetology service for customers or clients at a facility licensed to provide such service if the tipping of employees providing such service is customary."
- (b) DEFINITION OF COSMETOLOGY SERV-ICES.—Section 45B of such Code is amended by redesignating subsections (c) and (d) as

subsections (d) and (e), respectively, and by inserting after subsection (b) the following new subsection:

- "(c) Cosmetology Service.—For purposes of this section, the term 'cosmetology service' means—
 - "(1) hairdressing,
 - "(2) haircutting,
 - "(3) manicures and pedicures,
- "(4) body waxing, facials, mud packs, wraps and other similar skin treatments, and
- "(5) any other beauty related service provided at a facility at which a majority of the services provided (as determined on the basis of gross revenue) are described in paragraphs (1) through (4)."
- (c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to taxes paid after December 31, 2000.

SEC. 3. INFORMATION REPORTING BY PRO-VIDERS OF COSMETOLOGY SERV-

(a) IN GENERAL.—Chapter 61 of the Internal Revenue Code of 1986 is amended by inserting after section 6050S the following new section:

"SEC. 6050T. RETURNS RELATING TO COSME-TOLOGY SERVICES AND INFORMA-TION TO BE PROVIDED TO COS-METOLOGISTS.

"(a) IN GENERAL.—Every person who leases space to any individual for use by the individual in providing cosmetology services (as defined in section 45B(c)) on more than 5 calendar days during a calendar year shall make a return, according to the forms or regulations prescribed by the Secretary, setting forth the name, address, and TIN of each such lessee.

"(b) STATEMENT TO BE FURNISHED TO INDI-VIDUALS WITH RESPECT TO WHOM INFORMA-TION IS FURNISHED.—Every person required to make a return under subsection (a) shall furnish to each individual whose name is required to be set forth on such return a written statement showing—

"(1) the name, address, and phone number of the information contact of the person required to make such return, and

"(2) a statement informing the recipient that (as required by this section), the provider of the notice has advised the Internal Revenue Service that the recipient provided cosmetology services during the calendar year to which the statement relates.

"(c) ADDITIONAL INFORMATION TO BE PROVIDED TO SERVICE PROVIDER.—A person who provides a statement pursuant to subsection (b) to an individual who provides cosmetology services shall include with the statement a publication of the Secretary, as designated by the Secretary, describing the tax obligations of independent contractors unless the publication was previously provided to the individual by the statement provider.

"'(d) METHOD AND TIME FOR PROVIDING STATEMENT AND ADDITIONAL INFORMATION.— The written statement required by subsection (b) and the additional information, if any, required to be furnished under subsection (c) shall be furnished (either in person or in a statement mailed by first-class mail which includes adequate notice that the statement is enclosed) to the person on or before January 31 of the year following the calendar year for which the return under subsection (a) is to be made. Such statement shall be in such form as the Secretary may prescribe by regulations.

"(e) LEASE.—For purposes of this section, the term 'lease' include booth rentals and any other arrangements pursuant to which an individual provides cosmetology services, other than as an employee, on premises not owned by the service provider.

- "(f) EXCEPTION FOR SERVICES PROVIDED BY PROPRIETORSHIPS WITH EMPLOYEES.—This section shall not apply to leases of premises with at least 3 work stations for providing cosmetology services.".
 - (b) Conforming Amendments.—
- (1) Section 6724(d)(1)(B) of such Code (relating to the definition of information returns) is amended—
- (A) by striking "or" at the end of clause (xiv)
- (B) by adding a comma at the end of clause (xv),
- (C) by striking "; or" at the end of clause (xvi) and inserting a comma,
- (D) by striking the period at the end of clause (xvii) and inserting ", or", and
- (E) by inserting after clause (xvii) the following new clause:
- "(xviii) section 6050T (relating to returns by cosmetology service providers).".
- (2) Section 6724(d)(2) of the Internal Revenue Code of 1986 is amended—
- (A) by striking "or" at the end of subparagraph (Z) and inserting a comma,
- (B) by striking the period at the end of subparagraph (AA) and inserting ", or", and (C) by inserting after subparagraph (AA) the following new subparagraph:
- "(BB) section 6050T(c) (relating to statements from cosmetology service providers) even if the recipient is not a payee.".
- (c) EFFECTIVE DATE.—The amendments made by this section shall apply to calendar years after 2000.

ADDITIONAL COSPONSORS

S. 341

At the request of Mr. Craig, the name of the Senator from Kentucky (Mr. Bunning) was added as a cosponsor of S. 341, a bill to amend the Internal Revenue Code of 1986 to increase the amount allowable for qualified adoption expenses, to permanently extend the credit for adoption expenses, and to adjust the limitations on such credit for inflation, and for other purposes.

S. 835

At the request of Mr. SMITH of New Hampshire, the name of the Senator from New Jersey (Mr. TORRICELLI) was added as a cosponsor of S . 835, a bill to encourage the restoration of estuary habitat through more efficient project financing and enhanced coordination of Federal and non-Federal restoration programs, and for other purposes.

S. 1915

At the request of Mr. Jeffords, the name of the Senator from Maine (Ms. Collins) was added as a cosponsor of S. 1915, a bill to enhance the services provided by the Environmental Protection Agency to small communities that are attempting to comply with national, State, and local environmental regulations.

S. 2887

At the request of Mr. GRASSLEY, the names of the Senator from Connecticut (Mr. DODD) and the Senator from Maryland (Ms. Mikulski) were added as cosponsors of S. 2887, a bill to amend the Internal Revenue Code of 1986 to exclude from gross income amounts received on account of claims based on

certain unlawful discrimination and to allow income averaging for backpay and frontpay awards received on account of such claims, and for other purposes.

S. 2938

At the request of Mr. Brownback, the names of the Senator from Colorado (Mr. Allard), the Senator from Arizona (Mr. Kyl), and the Senator from Georgia (Mr. Cleland) were added as cosponsors of S. 2938, a bill to prohibit United States assistance to the Palestinian Authority if a Palestinian state is declared unilaterally, and for other purposes.

S. 2940

At the request of Mr. BIDEN, his name was added as a cosponsor of S. 2940, a bill to authorize additional assistance for international malaria control, and to provide for coordination and consultation in providing assistance under the Foreign Assistance act of 1961 with respect to malaria, HIV, and tuberculosis.

S 3007

At the request of Mr. L. CHAFEE, his name was added as a cosponsor of S. 3007, a bill to provide for measures in response to a unilateral declaration of the existence of a Palestinian state.

S. 3078

At the request of Mr. Domenici, the name of the Senator from New Mexico (Mr. Bingaman) was added as a cosponsor of S. 3078, a bill to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to participate in the Santa Fe Regional Water Management and River Restoration Project.

S. 3089

At the request of Mr. HAGEL, the names of the Senator from South Carolina (Mr. Thurmond), the Senator from Alaska (Mr. Murkowski), and the Senator from South Dakota (Mr. Daschle) were added as cosponsors of S. 3089, a bill to authorize the design and construction of a temporary education center at the Vietnam Veterans Memorial

S. 3106

At the request of Mr. Jeffords, the name of the Senator from Maine (Ms. Collins) was added as a cosponsor of S. 3106, a bill to amend title XVIII of the Social Security Act to clarify the definition of homebound under the medicare home health benefit.

S. 3116

At the request of Mr. Breaux, the name of the Senator from California (Mrs. Boxer) was added as a cosponsor of S. 3116, a bill to amend the Harmonized Tariff Schedule of the United States to prevent circumvention of the sugar tariff-rate quotas.

S. 3127

At the request of Mr. Santorum, the name of the Senator from Alabama

(Mr. Sessions) was added as a cosponsor of S. 3127, a bill to protect infants who are born alive

S. 3157

At the request of Mr. HUTCHINSON, the name of the Senator from Nebraska (Mr. HAGEL) was added as a cosponsor of S. 3157, a bill to require the Food and Drug Administration to establish restrictions regarding the qualifications of physicians to prescribe the abortion drug commonly known as RU-486.

S. 3181

At the request of Mr. Hagel, the names of the Senator from Nebraska (Mr. Kerrey), the Senator from Illinois (Mr. Durbin), the Senator from Virginia (Mr. Robb), and the Senator from Louisiana (Ms. Landrieu) were added as cosponsors of S. 3181, a bill to establish the White House Commission on the National Moment of Remembrance, and for other purposes.

S. 3211

At the request of Mr. Harkin, the name of the Senator from Massachusetts (Mr. Kennedy) was added as a cosponsor of S. 3211, a bill to authorize the Secretary of Education to provide grants to develop technologies to eliminate functional barriers to full independence for individuals with disabilities, and for other purposes.

S.RES. 292

At the request of Mr. GORTON, his name was added as a cosponsor of S.Res. 292, a resolution recognizing the 20th century as the "Century of Women in the United States".

AMENDMENT NO. 4301

At the request of Mr. Jeffords, the names of the Senator from Ohio (Mr. DeWine), the Senator from Connecticut (Mr. Dodd), the Senator from Wyoming (Mr. Enzi), the Senator from Iowa (Mr. Harkin), the Senator from Arkansas (Mr. Hutchinson), the Senator from New Mexico (Mr. Bingaman), the Senator from Nebraska (Mr. Hagel), and the Senator from Minnesota (Mr. Wellstone) were added as cosponsors of Amendment No. 4301 intended to be proposed to H.R. 1102, a bill to provide for pension reform, and for other purposes.

AMENDMENT NO. 4303

At the request of Mr. ALLARD, his name was added as a cosponsor of amendment No. 4303 proposed to S. 2508, a bill to amend the Colorado Ute Indian Water Rights Settlement Act of 1988 to provide for a final settlement of the claims of the Colorado Ute Indian Tribes, and for other purposes.

SENATE CONCURRENT RESOLUTION 153—EXPRESSING THE SENSE OF CONGRESS WITH RESPECT TO THE PARLIAMENTARY ELECTIONS HELD IN BELARUS ON OCTOBER 15, 2000, AND FOR OTHER PURPOSES

Mr. DURBIN (for himself, Mr. CAMPBELL, and Mr. HELMS) submitted the

following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 153

Whereas on October 15, 2000, Aleksandr Lukashenko and his authoritarian regime conducted an illegitimate and undemocratic parliamentary election in an effort to further strengthen the power and control his authoritarian regime exercises over the people of the Republic of Belarus;

Whereas during the time preceding this election the regime of Aleksandr Lukashenko attempted to intimidate the democratic opposition by beating, harassing, arresting, and sentencing its members for supporting a boycott of the October 15 election even though Belarus does not contain a legal ban on efforts to boycott elections;

Whereas the democratic opposition in Belarus was denied fair and equal access to state-controlled television and radio and was instead slandered by the state-controlled media:

Whereas on September 13, 2000, Belarusian police seized 100,000 copies of a special edition of the Belarusian Free Trade Union newspaper, Rabochy, dedicated to the democratic opposition's efforts to promote a boycott of the October 15 election;

Whereas Aleksandr Lukashenko and his regime denied the democratic opposition in Belarus seats on the Central Election Commission, thereby violating his own pledge to provide the democratic opposition a role in this Commission:

Whereas Aleksandr Lukashenko and his regime denied the vast majority of independent candidates opposed to his regime the right to register as candidates in this election:

Whereas Aleksandr Lukashenko and his regime dismissed recommendations presented by the Organization for Security and Cooperation in Europe (OSCE) for making the election law in Belarus consistent with OSCE standards;

Whereas in Grodno, police loyal to Aleksandr Lukashenko summoned voters to participate in this illegitimate election for parliament:

Whereas the last genuinely free and fair parliamentary election in Belarus took place in 1995 and from it emerged the 13th Supreme Soviet whose democratically and constitutionally derived authorities and powers have been undercut by the authoritarian regime of Aleksandr Lukashenko; and

Whereas on October 11, the Lukashenko regime froze the bank accounts and seized the equipment of the independent publishing company, Magic, where most of the independent newspapers in Minsk are published: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring),

SECTION 1. SENSE OF CONGRESS ON BELARUS PARLIAMENTARY ELECTIONS.

Congress hereby—

(1) declares that—

(A) the period preceding the elections held in Belarus held on October 15, 2000, was plagued by continued human rights abuses and a climate of fear for which the regime of Aleksandr Lukashenko is responsible;

(B) these elections were conducted in the absence of a democratic electoral law;

- (C) the Lukashenko regime purposely denied the democratic opposition access to state-controlled media; and
- (D) these elections were for seats in a parliament that lacks real constitutional power and democratic legitimacy;
- (2) declares its support for the Belarus' democratic opposition, commends the efforts of the opposition to boycott these illegitimate parliamentary elections, and expresses the hopes of Congress that the citizens of Belarus will soon benefit from true freedom and democracy:
- (3) reaffirms its recognition of the 13th Supreme Soviet as the sole and democratically and constitutionally legitimate legislative body of Belarus; and
- (4) notes that, as the legitimate parliament of Belarus, the 13th Supreme Soviet should continue to represent Belarus in the Parliamentary Assembly of the Organization for Security and Cooperation in Europe.

SEC. 2. SENSE OF CONGRESS ON DISAPPEARANCES OF INDIVIDUALS AND POLITICAL DETENTIONS IN BELARUS.

It is the sense of Congress that the President should call upon Aleksandr Lukashenko and his regime to—

- (1) provide a full accounting of the disappearances of individuals in that country, including the disappearance of Viktor Gonchar, Anatoly Krasovsky, Yuri Zakharenka, and Dmitry Zavadsky; and
- (2) release Vladimir Kudinov, Andrei Klimov, and all others imprisoned in Belarus for their political views.

SEC. 3. TRANSMITTAL OF RESOLUTION.

The Secretary of the Senate shall transmit a copy of this resolution to the President.

SENATE RESOLUTION 380—AP-PROVING THE PLACEMENT OF TWO PAINTINGS IN THE SENATE RECEPTION ROOM

Mr. LOTT (for himself, and Mr. DASCHLE) submitted the following resolution; which was considered and agreed to:

S. RES. 380

Whereas Senate Resolution 241, 106th Congress, directed the Senate Commission on Art to select 2 outstanding individuals whose paintings shall be placed in 2 of the remaining unfilled spaces in the Senate reception room, upon approval by the Senate; and

Whereas, in accordance with the provisions of Senate Resolution 241, the Commission has selected Senator Arthur H. Vandenberg and Senator Robert F. Wagner, and recommends such names to the Senate: Now, therefore, be it

Resolved, That the Senate Commission on Art (referred to in this resolution as the "Commission") shall procure appropriate paintings of Senator Arthur H. Vandenberg and Senator Robert F. Wagner and place such paintings in the 2 unfilled spaces on the south wall of the Senate reception room.

SEC. 2. (a) The paintings shall be rendered in oil on canvas and shall be consistent in style and manner with the paintings of Senators Clay, Calhoun, Webster, LaFollette, and Taft now displayed in the Senate reception room.

(b) The paintings may be procured through purchase, acceptance as a gift of appropriate

existing paintings, or through the execution of appropriate paintings by a qualified artist or artists to be selected and contracted by the Commission.

SEC. 3. The expenses of the Commission in carrying out this resolution shall be paid out of the contingent fund of the Senate on vouchers signed by the Secretary of the Senate and approved by the Committee on Rules and Administration.

AMENDMENTS SUBMITTED

SUGAR TARIFF LEGISLATION

BREAUX AMENDMENT NO. 4325

(Ordered referred to the Committee on Finance.)

Mr. BREAUX submitted an amendment intended to be proposed by him to the bill (S. 3116) to amend the Harmonized Tariff Schedule of the United States to prevent circumvention of the sugar tariff-rate quotas; as follows:

At the appropriate place, insert the following:

SEC. ___. PREVENTION OF CIRCUMVENTION OF SUGAR TARIFF-RATE QUOTAS.

- (a) ANTICIRCUMVENTION.—
- (1) AMENDMENT TO ADDITIONAL UNITED STATES NOTES.—Additional United States Note 5(a)(i) of chapter 17 of the Harmonized Tariff Schedule of the United States is amended—
- (A) in the first sentence, by striking "and 2106.90.44," and inserting "1702.90.40, and 2106.90.44, and any other article (other than an article classified under subheading 1701.11 or 1701.12) that is entered, or withdrawn from warehouse for consumption, if the article is subsequently used for the commercial extraction or production of sugar for human consumption, or the article is otherwise used in any manner that circumvents any quota imposed pursuant to the notes to this chapter,"; and
- (B) in the second sentence, by striking "and molasses" and inserting ", molasses, and other articles.".
- (2) RATE OF DUTY.—The rate of duty in effect under subheading 1701.99.10 or 1701.99.50 of the Harmonized Tariff Schedule of the United States, on the date of entry of articles described in the applicable subheading shall apply to any article which the Secretary of the Treasury determines is circumventing the tariff-rate quota relating to articles described in the applicable subheading.
- (3) ANIMAL FEED.—Notwithstanding any other provision of law, no tariff-rate quota may be imposed under Additional United States Note 5(a)(i) of chapter 17 of the Harmonized Tariff Schedule, on molasses that is used for animal consumption in the United States.
- (b) CONFORMING AMENDMENT.—Chapter 17 of the Harmonized Tariff Schedule of the United States is amended by striking subheading 1702.90.40 and inserting in numerical sequence the following new subheadings:

1702.90.40	Described in additional United States note 5 to this chapter and entered pursuant to its provisions		Free (A*, CA, E*, IL, J, MX)	6.58170¢/kg less 0.0622005¢/kg for each de- gree under 100 degrees (and fractions of a degree in proportion) but not less than 5.031562¢/kg
1702.90.45	Other	35.74¢/kg	28.247¢/kg less 0.4¢/kg for each degree under 100 de- grees (and fractions of a degree in proportion) but not less than 18.256¢/kg (MX)	42.05¢/kg

(c) Effective Date.—The amendments made by this section apply to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

COLORADO UTE SETTLEMENT ACT AMENDMENTS OF 2000

FEINGOLD AMENDMENT NO. 4326

Mr. FEINGOLD proposed an amendment to amendment No. 4303 proposed by Mr. Campbell the bill (S. 2508) to amend the Colorado Ute Indian Water Rights Settlement Act of 1988 to provide for a final settlement of the claims of the Colorado Ute Indian Tribes, and for other purposes; as fol-

On page 10 of the amendment, line 11, in-, to restrict the availability or scope of judicial review, or to in any way affect the outcome of judicial review of any decision based on such analysis" before the period.

On page 10 of the amendment, strike lines 12 through 23 and insert the following:

"(C) LIMITATION.—No facilities of the Animas-La Plata Project, as authorized under the Act of April 11, 1956 (43 U.S.C. 620) (commonly referred to as the 'Colorado River Storage Act'), other than those specifically authorized in subparagraph (A), are authorized after the date of enactment of this Act."

On page 11 of the amendment, beginning on line 21, strike "Such repayment" and all that follows through ".)," on line 24.

On page 12 of the amendment, line 9, insert after the period the following: "Fish and wildlife mitigation costs associated with the facilities described in paragraph (1)(A)(i)shall be reimbursable joint costs of the Animas-La Plata Project. Recreation costs shall be 100 percent reimbursable by nontribal users.'

On page 13 of the amendment, beginning on line 2, strike "Additional" and all that follows through line 6.

STRATEGIC PETROLEUM RESERVE REAUTHORIZATION

MURKOWSKI (AND BINGAMAN) AMENDMENT NO. 4327

Mr. SESSIONS (for Mr. Murkowski (for himself and Mr. BINGAMAN)) proposed an amendment to the bill (H.R. 2884) to extend energy conservation programs under the Energy Policy and Conservation Act through fiscal year 2003; as follows:

Strike all after the enacting clause and insert in lieu thereof the following:

SEC. 1. SHORT TITLE.

This Act may be cited as the Energy Act of

TITLE I

STRATEGIC PETROLEUM RESERVE

SEC. 101. SHORT TITLE.

This title may be cited as the "Energy Policy and Conservation Act Amendments of 2000"

SECTION. 102.

Section 2 of the Energy Policy and Conservation Act (42 U.S.C. 6201) is amended-

(a) in paragraph (1) by striking "standby" and ", subject to congressional review, to impose rationing, to reduce demand for energy through the implementation of energy conservation plans, and"; and

(b) by striking paragraphs (3) and (6).

SECTION. 103.

Title I of the Energy Policy and Conservation Act (42 U.S.C. 6211-6251) is amended-

- (a) by striking section 102 (42 U.S.C. 6211) and its heading;
 - (b) by striking section 104(b)(1);
- (c) by striking section 106 (42 U.S.C. 6214) and its heading;
- (d) by amending section 151(b) (42 U.S.C. 6231) to read as follows:
- "(b) It is the policy of the United States to provide for the creation of a Strategic Petroleum Reserve for the storage of up to 1 billion barrels of petroleum products to reduce the impact of disruptions in supplies of petroleum products, to carry out obligations of the United States under the international energy program, and for other purposes as provided for in this Act."
 - (e) in section 152 (42 U.S.C. 6232)-
- (1) by striking paragraphs (1), (3) and (7), and
- (2) in paragraph (11) by striking "; such term includes the Industrial Petroleum Reserve, the Early Storage Reserve, and the Regional Petroleum Reserve"
- (f) by striking section 153 (42 U.S.C. 623) and its heading;
- (g) in section 154 (42 U.S.C. 6234)—
- (1) by amending subsection (a) to read as follows:
- "(a) A Strategic Petroleum Reserve for the storage of up to 1 billion barrels of petroleum products shall be created pursuant to
- (2) by amending subsection (b) to read as

- "(b) The Secretary, in accordance with this part, shall exercise authority over the development, operation, and maintenance of the Reserve."; and
 (3) by striking subsections (c), (d), and (e);
 (h) by striking section 155 (42 U.S.C. 6235)
- and its heading:
- (i) by striking section 156 (42 U.S.C. 6236) and its heading;
- (j) by striking section 157 (42 U.S.C. 6237)
- and its heading;
 (k) by striking section 158 (42 U.S.C. 6238) and its heading:
- (1) by amending the heading for section 159 (42 U.S.C. 6239) to read, "Development, Operation, and Maintenance of the Reserve";
 - (m) in section 159 (42 U.S.C. 6239)
- (1) by striking subsections (a), (b), (c), (d), and (e):
- (2) by amending subsection (f) to read as follows:
- "(f) In order to develop, operate, or maintain the Strategic Petroleum Reserve, the Secretary may:
 - "(1) issue rules, regulations, or orders:
- "(2) acquire by purchase, condemnation, or otherwise, land or interests in land for the location of storage and related facilities;
- "(3) construct, purchase, lease, or otherwise acquire storage and related facilities;
- "(4) use, lease, maintain, sell or otherwise dispose of land or interests in land, or of storage and related facilities acquired under this part, under such terms and conditions as the Secretary considers necessary or appropriate;
- "(5) acquire, subject to the provisions of section 160, by purchase, exchange, or otherwise, petroleum products for storage in the Strategic Petroleum Reserve:
- '(6) store petroleum products in storage facilities owned and controlled by the United States or in storage facilities owned by others if those facilities are subject to audit by the United States;
- "(7) execute any contracts necessary to develop, operate, or maintain the Strategic Petroleum Reserve;
- "(8) bring an action, when the Secretary considers it necessary, in any court having jurisdiction over the proceedings, to acquired by condemnation any real or personal property, including facilities, temporary use of facilities, or other interests in land, together with any personal property located on or used with the land."; and
- (3) in subsection (g)—
 (A) by striking "implementation" and inserting "development"; and
- (B) by striking "Plan";
- (4) by striking subsections (h) and (i):
- (5) by amending subsection (j) to read as follows:
- "(j) If the Secretary determines expansion beyond 700,000,000 barrels of petroleum product inventory is appropriate, the Secretary

shall submit a plan for expansion to the Congress."; and

(6) by amending subsection (I) to read as follows:

"(I) During a drawdown and sale of Strategic Petroleum Reserve petroleum products, the Secretary may issue implementing rules, regulations, or orders in accordance with section 553 of title 5, United States Code, without regard to rulemaking requirements in section 523 of this Act, and section 501 of the Department of Energy Organizations Act (42 U.S.C. 7191).";

(n) in section 160 (420 U.S.C. 6240)—

(1) in subsection (a), by striking all before the dash and inserting the following—

"(a) The Secretary may acquire, place in storage, transport, or exchange":

(2) in subsection (a)(1) by striking all after "Federal lands";

(3) in subsection (b), by striking ", including the Early Storage Reserve and the Regional Petroleum Reserve" and by striking paragraph (2); and

(4) by striking subsections (c), (d), (e), and

(o) in section 161 (42 U.S.C. 6241)—

(1) by striking "Distribution of the Reserve" in the title of this section and inserting "Sale of Petroleum Products";

(2) in subsection (a), by striking "draw-down and distribute" and inserting "draw down and sell petroleum products in";

(3) by striking subsection (b), (c), and (f);(4) by amending subsection (d)(1) to read as

(4) by amending subsection (d)(1) to read as follows:

"(d)(1) Drawdown and sale of petroleum products from the Strategic Petroleum Reserve may not be made unless the President has found drawdown and sale are required by a severe energy supply interruption or by obligations of the United States under the international energy program.";

(5) by amending subsection (e) to read as follows:

"(e)(1) The Secretary shall sell petroleum products withdrawn from the Strategic Petroleum Reserve at public sale to the highest qualified bidder in the amounts, for the period, and after a notice of sale considered appropriate by the Secretary, and without regard to Federal, State, or local regulations controlling sales of petroleum products.

"(2) The Secretary may cancel in whole or in part any offer to sell petroleum products as part of any drawdown and sale under this Section."; and

(6) in subsection (g)—

(A) by amending paragraph (1) to read as follows:

"(g)(1) The Secretary shall conduct a continuing evaluation of the drawdown and sales procedures. In the conduct of an evaluation, the Secretary is authorized to carry out a test drawdown and sale or exchange of petroleum products from the Reserve. Such a test drawdown and sale or exchange may not exceed 5,000,000 barrels of petroleum products.";

(B) by striking paragraphs (2);

(C) in paragraph (4), by striking "90" and inserting "95";

(D) in paragraph (5), by striking "drawdown and distribution" and inserting "test";

(E) by amending paragraph (6) to read as follows:

"(6) In the case of a sale of any petroleum products under this subsection, the Secretary shall, to the extent funds are available in the SPR Petroleum Account as a result of such sale, acquire petroleum products for the Reserve within the 12-month period beginning after completion of the sale."; and

(F) in paragraph (8), by striking "drawdown and distribution" and inserting "test";

(7) in subsection (h)—

(A) in paragraph (1) by striking "distribute" and inserting "sell petroleum products from";

(B) by deleting "and" at the end of paragraph (1)(A) and by deleting "shortage," at the end of paragraph (1)(B) and inserting "shortage; and

"(C) the Secretary of Defense has found that action taken under this subsection will not impair national security.":

(C) in paragraph (2) by striking "In no case may the Reserve" and inserting "Petroleum products from the Reserve may not"; and

(D) in paragraph (3) by striking "distribution" each time it appears and inserting "sale";

(p) by striking section 164 (42 U.S.C. 6244) and its heading:

(q) by amending section 165 (42 U.S.C. 6245) and its heading to read as follows—

"ANNUAL REPORT

"Sec. 165. The Secretary shall report annually to the President and the Congress on actions taken to implement this part. This report shall include—

"(1) the status of the physical capacity of the Reserve and the type and quantity of petroleum products in the Reserve;

"(2) an estimate of the schedule and cost to complete planned equipment upgrade or capital investment in the Reserve, including upgrades and investments carried out as part of operational maintenance or extension of life activities:

"(3) an identification of any life-limiting conditions or operational problems at any Reserve facility, and proposed remedial actions including an estimate of the schedule and cost of implementing those remedial actions:

"(4) a description of current withdrawal and distribution rates and capabilities, and an identification of any operational or other limitations on those rates and capabilities:

"(5) a listing of petroleum product acquisitions made in the preceding year and planned in the following year, including quantity, price, and type of petroleum;

"(6) a summary of the actions taken to develop, operate, and maintain the Reserve;

"(7) a summary of the financial status and financial transactions of the Strategic Petroleum Reserve and Strategic Petroleum Reserve Petroleum Accounts for the year.

"(8) a summary of expenses for the year, and the number of Federal and contractor employees;

"(9) the status of contracts for development, operation, maintenance, distribution, and other activities related to the implementation of this part;

"(10) a summary of foreign oil storage agreements and their implementation status;

"(11) any recommendations for supplemental legislation or policy or operational changes the Secretary considers necessary or appropriate to implement this part.";

(r) in section 166 (42 U.S.C. 6246) by striking "for fiscal year 1997.";

(s) in section 167 (42 U.S.C. 6247)—

(1) in subsection (b)—

(A) by striking "and the drawdown" and inserting "for test sales of petroleum products from the Reserve, and for the drawdown, sale.":

(B) by striking paragraph (1); and

(C) in paragraph (2), by striking "after fiscal year 1982"; and

(2) by striking subsection (e);

(t) in section 171 (42 U.S.C. 6249)—

(1) by amending subsection (b)(2)(B) to read as follows:

"(B) the Secretary notifies each House of the Congress of the determination and identifies in the notification the location, type, and ownership of storage and related facilities proposed to be included, or the volume, type, and ownership of petroleum products proposed to be stored, in the Reserve, and an estimate of the proposed benefits.";

(2) in subsection (b)(3), by striking "distribution of" and inserting "sale of petroleum products from":

(u) in section 172 (42 U.S.C. 6249a), by striking subsections (a) and (b):

(v) by striking section 173 (42 U.S.C. 6249b) and its heading; and

(w) in section 181 (42 U.S.C. 6251), by striking "March 31, 2000" each time it appears and inserting "September 30, 2003".

SECTION. 104.

Title II of the Energy Policy and Conservation Act (42 U.S.C. 6211–6251) is amended—

(a) by striking Part A (42 U.S.C. 6261 through 6264) and its heading;

(b) by adding at the end of section 256(h), "There are authorized to be appropriated for fiscal years 2000 through 2003, such sums as may be necessary."

(c) by striking Part C (42 U.S.C. 6281 through 6282) and its heading; and

(d) in section 281 (42 U.S.C. 6285), by striking "March 31, 2000" each time it appears and inserting "September 30, 2003".

SEC. 105. CLERICAL AMENDMENTS.

The Table of Contents for the Energy Policy and Conservation Act is amended—

(a) by striking the items relating to sections 102, 106, 153, 155, 156, 157, 158, and 164;

(b) by amending the item relating to section 159 to read as follows: "Development, Operation, and Maintenance of the Reserve.";

(c) by amending the item relating to section 161 to read as follows: "Drawdown and Sale of Petroleum Products"; and

(d) by amending the item relating to section 165 to read as follows: "Annual Report".

TITLE II

HEATING OIL RESERVE

SEC. 201. NORTHEAST HOME HEATING OIL RESERVE.

(a) Title I of the Energy Policy and Conservation Act is amended by—

(1) redesignating part D as part E;

(2) redesignating section 181 as section 191; and

(3) inserting after part C the following new part D:

"PART D—NORTHEAST HOME HEATING OIL RESERVE

"ESTABLISHMENT

"SEC. 181. (a) Notwithstanding any other provision of this Act, the Secretary may establish, maintain, and operate in the Northeast a Northeast Home Heating Oil Reserve. A Reserve established under this part is not a component of the Strategic Petroleum Reserve established under part B of this title. A Reserve established under this part shall contain no more than 2 million barrels of petroleum distillate.

"(b) For the purposes of this part—

"(1) the term 'Northeast' means the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, and New Jersey;

'(2) the term 'petroleum distillate' includes heating oil and diesel fuel; and

"(3) the term 'Reserve' means the Northeast Home Heating Oil Reserve established under this part.

"AUTHORITY

"Sec. 182. To the extent necessary or appropriate to carry out this part, the Secretary may—

"(1) purchase, contract for, lease, or otherwise acquire, in whole or in part, storage and related facilities, and storage services;

"(2) use, lease, maintain, sell, or otherwise dispose of storage and related facilities acquired under this part:

"(3) acquire by purchase, exchange (including exchange of petroleum product from the Strategic Petroleum Reserve or received as royalty from Federal lands), lease, or otherwise, petroleum distillate for storage in the Northeast Home Heating Oil Reserve;

"(4) store petroleum distillate in facilities not owned by the United States; and

"(5) sell, exchange, or otherwise dispose of petroleum distillate from the Reserve established under this part, including to maintain the quality or quantity of the petroleum distillate in the Reserve or to maintain the operational capability of the Reserve.

"CONDITIONS FOR RELEASE; PLAN

"Sec. 183. (a) FINDING.—The Secretary may sell product from the Reserve only upon a finding by the President that there is a severe energy supply interruption. Such a finding may be made only if he determines that—

"(1) a dislocation in the heating oil market has resulted from such interruption; or

"(2) a circumstance, other than that described in paragraph (1), exists that constitutes a regional supply shortage of significant scope and duration and that action taken under this section would assist directly and significantly in reducing the adverse impact of such shortage.

"(b) DEFINITION.—For purposes of this section a 'dislocation in the heating oil market' shall be deemed to occur only when—

"(1) The price differential between crude oil, as reflected in an industry daily publication such as 'Platt's Oilgram Price Report' or 'Oil Daily' and No. 2 heating oil, as reported in the Energy Information Administration's retail price data for the Northeast, increases by more tan 60% over its five year rolling average for the months of mid-October through March, and continues for 7 consecutive days; and

"(2) The price differential continues to increase during the most recent week for which price information is available.

which price information is available. "(c) The Secretary shall conduct a continuing evaluation of the residential price data supplied by the Energy Information Administration for the Northeast and data on crude oil prices from published sources.

"(d) After consultation with the heating oil industry, the Secretary shall determine procedures governing the release of petroleum distillate from the Reserve. The procedures shall provide that:

"(1) The Secretary may-

"(A) sell petroleum distillate from the Reserve through a competitive process, or

"(B) enter into exchange agreements for the petroleum distillate that results in the Secretary receiving a greater volume of petroleum distillate as repayment than the volume provided to the acquirer;

"(2) In such sales or exchanges, the Secretary shall receive revenue or its equivalent in petroleum distillate that provides the Department with fair market value. At no time may the oil be sold or exchanged resulting in a loss of revenue or value to the United States; and

"(3) The Secretary shall only sell or dispose of the oil in the Reserve to entities customarily engaged in the sale and distribution of petroleum distillate.

"(e) Within 45 days of the date of the enactment of this section, the Secretary shall transmit to the President and, if the Presi-

dent approves, to the Congress a plan describing—

"(1) the acquisition of storage and related facilities or storage services for the Reserve, including the potential use of storage facilities not currently in use;

"(2) the acquisition of petroleum distillate for storage in the Reserve;

"(3) the anticipated methods of disposition of petroleum distillate from the Reserve;

"(4) the estimated costs of establishment, maintenance, and operation of the Reserve;

"(5) efforts the Department will take to minimize any potential need for future drawdowns and ensure that distributors and importers are not discouraged from maintaining and increasing supplies to the Northeast: and

"(6) actions to ensure quality of the petroleum distillate in the Reserve.

"NORTHEAST HOME HEATING OIL RESERVE ACCOUNT

"SEC. 184. (a) Upon a decision of the Secretary of Energy to establish a Reserve under this part, the Secretary of the Treasury shall establish in the Treasury of the United States an account known as the 'Northeast Home Heating Oil Reserve Account' (referred to in this section as the 'Account').

"(b) the Secretary of the Treasury shall deposit in the Account any amounts appropriated to the Account and any receipts from the sale, exchange, or other disposition of petroleum distillate from the Reserve.

"(c) The Secretary of Energy may obligate amounts in the Account to carry out activities under this part without the need for further appropriation, and amounts available to the Secretary of Energy for obligation under this section shall remain available without fiscal year limitation.

"EXEMPTIONS

"SEC. 185. An action taken under this part is not subject to the rulemaking requirements of section 523 of this Act, section 501 of the Department of Energy Organization Act, or section 553 of title 5, United States Code.

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 186. There are authorized to be appropriated for fiscal years 2001, 2002, and 2003 such sums as may be necessary to implement this part.".

SEC. 202. USE OF ENERGY FUTURES FOR FUEL PURCHASES.

(a) Heating Oil Study.—The Secretary shall conduct a study on—

(1) the use of energy futures and options contracts to provide cost-effective protection from sudden surges in the price of heating oil (including number two fuel oil, propane, and kerosine) for state and local government agencies, consumer cooperatives, and other organizations that purchase heating oil in bulk to market to end use consumers in the Northeast (as defined in section 201); and

(2) how to most effectively inform organizations identified in paragraph (1) about the benefits and risks of using energy futures and options contracts.

(b) REPORT.—The Secretary shall transmit the study required in this section to the Committee on Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate not later than 180 days after the enactment of this section. The report shall contain a review of prior studies conducted on the subjects described in subsection (a).

MARGINAL WELL PURCHASES

SEC. 301. PURCHASE OF OIL FROM MARGINAL WELLS.

(a) PURCHASE OF OIL FROM MARGINAL WELLS.—Part B of Title I of the Energy Policy and Conservation Act (42 U.S.C. 6232 et seq.) is amended by adding the following new section after section 168:

"PURCHASE OF OIL FROM MARGINAL WELLS

"Sec. 169. (a) IN GENERAL.—From amounts authorized under section 166, in any case in which the price of oil decreases to an amount less than \$15.00 per barrel (an amount equal to the annual average well head price per barrel for all domestic crude oil), adjusted for inflation, the Secretary may purchase oil from a marginal well at \$15.00 per barrel, adjusted for inflation.

"(b) DEFINITION OF MARGINAL WELL.—The term 'marginal well' has the same meaning as the definition of 'stripper well property' in section 613A(c)(6)(E) of the Internal Revenue Code (26 U.S.C. 613A(c)(6)(E))."

(b) CONFORMING AMENDMENT.—The table of contents for the Energy Policy and Conservation Act is amended by inserting after the item relating to section 168 the following:

"Sec. 169. Purchase of oil from marginal wells.".

TITLE IV

FEDERAL ENERGY MANAGEMENT

SEC. 401, FEMP.

Section 801 of the National Energy Conservation Policy Act (42 U.S.C. 8287(a)(2)(D)(iii) is amended by striking "\$750,000" and inserting "\$10,000,000".

TITLE V

ALASKA STATE JURISDICTION OVER SMALL HYDROELECTRIC PROJECTS

SEC. 501. ALASKA STATE JURISDICTION OVER SMALL HYDROELECTRIC PROJECTS.

Part I of the Federal Power Act (16 U.S.C. 792 et seq.) is amended by adding at the end the following:

"SEC. 32. ALASKA STATE JURISDICTION OVER SMALL HYDROELECTRIC PROJECTS.

"(a) DISCONTINUANCE OF REGULATION BY THE COMMISSION.—Notwithstanding sections 4(e) and 23(b), the Commission shall discontinue exercising licensing and regulatory authority under this Part over qualifying project works in the State of Alaska, effective on the date on which the Commission certifies that the State of Alaska has in place a regulatory program for water-power development that—

"(1) protects the public interest, the purposes listed in paragraph (2), and the environment to the same extent provided by licensing and regulation by the Commission under this Part and other applicable Federal laws, including the Endangered Species Act (16 U.S.C. 1531 et seq.) and the Fish and Wildlife Coordination Act (16 U.S.C. 661 et seq.);

"(2) gives equal consideration to the purposes of—

"(A) energy conservation;

"(B) the protection, mitigation of damage to, and enhancement of, fish and wildlife (including related spawning grounds and habitat):

"(C) the protection of recreational opportunities,

"(D) the preservation of other aspects of environmental quality,

"(E) the interests of Alaska Natives, and

"(F) other beneficial public uses, including irrigation, flood control, water supply, and navigation; and

"(3) requires, as a condition of a license for any project works—

- "(A) the construction, maintenance, and operation by a licensee at its own expense of such lights and signals as may be directed by the Secretary of the Department in which the Coast Guard is operating, and such fishways as may be prescribed by the Secretary of the Interior or the Secretary of Commerce, as appropriate;
- "(B) the operation of any navigation facilities which may be constructed as part of any project to be controlled at all times by such reasonable rules and regulations as may be made by the Secretary of the Army; and
- "(C) conditions for the protection, mitigation, and enhancement of fish and wildlife based on recommendations received pursuant to the Fish and Wildlife Coordination Act (16 U.S.C. 661 et seq.) from the National Marine Fisheries Service, the United States Fish and Wildlife Service, and State fish and wildlife agencies.
- "(b) DEFINITION OF 'QUALIFYING PROJECT WORKS' .- For purposes of this section, the 'qualifying project works' term project works-
- "(1) that are not part of a project licensed under this Part or exempted from licensing under this Part or section 405 of the Public Utility Regulatory Policies Act of 1978 prior to the date of enactment of this section:
- "(2) for which a preliminary permit, a license application, or an application for an exemption from licensing has not been accepted for filing by the Commission prior to the date of enactment of subsection (c) unless such application is withdrawn at the election of the applicant);
- "(3) that are part of a project that has a power production capacity of 5,000 kilowatts or less;
- "(4) that are located entirely within the boundaries of the State of Alaska; and
- "(5) that are not located in whole or in part on any Indian reservation, a conservation system unit (as defined in section 102(4) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3102(4))), or segment of a river designated for study for addition to the Wild and Scenic Rivers System.
- "(c) ELECTION OF STATE LICENSING.—In the case of nonqualifying project works that would be a qualifying project works but for the fact that the project has been licensed (or exempted from licensing) by the Commission prior to the enactment of this section, the licensee of such project may in its discretion elect to make the project subject to licensing and regulation by the State of Alaska under this system.
- "(d) Project Works on Federal Lands.-With respect to projects located in whole or in part on a reservation, a conservation system unit, or the public lands, a State licences or exemption from licensing shall be subject to-
- "(1) the approval of the Secretary having jurisdiction over such lands; and
- "(2) such conditions as the Secretary may prescribe.
- "(e) CONSULTATION WITH AFFECTED AGEN-CIES.—The Commission shall consult with the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Commerce before certifying the State of Alaska's regulatory program.
- "(f) APPLICATION OF FEDERAL LAWS.—Nothing in this section shall preempt the application of Federal environmental, natural resources, or cultural resources protection laws according to their terms.
- "(g) OVERSIGHT BY THE COMMISSION.-The State of Alaska shall notify the Commission not later than 30 days after making any significant modification to its regulatory pro-

- gram. The Commission shall periodically review the State's program to ensure compliance with the provisions of this section.
- "(h) RESUMPTION OF COMMISSION AUTHOR-ITY.—Notwithstanding subsection (a), the Commission shall reassert its licensing and regulatory authority under this Part if the Commission finds that the State of Alaska has not complied with one or more of the requirements of this section.
- "(i) DETERMINATION BY THE COMMISSION.-
- "(1) Upon application by the Governor of the State of Alaska, the Commission shall within 30 days commence a review of the State of Alaska's regulatory program for water-power development to determine whether it complies with the requirements of Subsection (a).
- "(2) The Commission's review required by Paragraph (1) shall be completed with one year of initiation, and the Commission shall within 30 days thereafter issue a final order determining whether or not the State of Alaska's regulatory program for waterpower development complies with the requirements of subsection (a).
- "(3) If the Commission fails to issue a final order in accordance with paragraph (2) the State of Alaska's regulatory program for water-powered development shall be deemed to be in compliance with subsection (a)."

TITLE VI

WEATHERIZATION, SUMMER FILL, HYDRO-ELECTRIC LICENSING PROCEDURES, AND INVENTORY OF OIL AND GAS RE-SERVES

SEC. 601. CHANGES IN WEATHERIZATION PRO-GRAM TO PROTECT LOW-INCOME PERSONS.

- (a) The matter under the heading "ENERGY CONSERVATION (INCLUDING TRANSFER OF FUNDS)" in title II of the Department of the Interior and Related Agencies Appropriations Act, 2000 (113 Stat. 1535, 1501A-180), is amended by striking "grants:" and all that follows and inserting "grants."
- (b) Section 415 of the Energy Conservation and Production Act (42 U.S.C. 6865) is amend-
- (1) in subsection (a)(1) by striking the first sentence;
- (2) in subsection (a)(2) by-
- (A) striking "(A)".(B) striking "approve a State's application to waive the 40 percent requirement established in paragraph (1) if the State includes in its plan" and inserting "establish", and
 - (C) striking subparagraph (B);
- (3) in subsection (c)(1) by-
- (A) striking "paragraphs (3) and (4)" and inserting "paragraph (3)"
- (B) striking "\$1600" and inserting "\$2500", (C) striking "and" at the end of subpara-
- graph (C). (D) striking the period and inserting ",
- and" in subparagraph (D), and (E) inserting after subparagraph (D) the following new subparagraph:
- "(E) the cost of making heating and cooling modifications, including replacement";
- (4) in subsection (c)(3) by-
- (A) striking "1991, the \$1600 per dwelling unit limitation' and inserting '2000, the \$2500 per dwelling unit average"
- (B) striking "limitation" and inserting 'average" each time it appears, and
- (C) inserting "the" after "beginning of" in subparagraph (B); and
- (5) by striking subsection (c)(4).

SEC. 602. SUMMER FILL AND FUEL BUDGETING PROGRAMS.

(a) Part C of title II of the Energy Policy and Conservation Act (42 U.S.C., 6211 et seq.) is amended by adding at the end the fol-

"SEC. 273. SUMMER FILL AND FUEL BUDGETING PROGRAMS.

- "(a) Definitions.—In this section:
- "(1) BUDGET CONTRACT.—The term 'budget contract' means a contract between a retailer and a consumer under which the heating expenses of the consumer are spread evenly over a period of months.
- "(2) FIXED-PRICE CONTRACT.—The term 'fixed-price contract' means a contract between a retailer and a consumer under which the retailer charges the consumer a set price for propane, kerosene, or heating oil without regard to market price fluctuations.
- "(3) PRICE CAP CONTRACT.—The term 'price cap contract' means a contract between a retailer and a consumer under which the retailer charges the consumer the market price for propane, kerosene, or heating oil, but the cost of the propane, kerosene, or heating oil may exceed a maximum amount stated in the contract.
- "(b) Assistance.—At the request of the chief executive officer of a State, the Secretary shall provide information, technical assistance, and funding-
- "(1) to develop education and outreach programs to encourage consumers to fill their storage facilities for propane, kerosene, and heating oil during the summer months; and
- (2) to promote the use of budget contracts, price cap contracts, fixed-price contracts, and other advantageous financial arrangements:

to avoid severe seasonal price increases for and supply shortages of those products.

- "(c) PREFERENCE.—In implementing this section, the Secretary shall give preference to States that contribute public funds or leverage private funds to develop State summer fill and fuel budgeting programs.
- "(d) AUTHORIZATION OF APPROPRIATIONS. There are authorized to be appropriated to carry out this section-
- "(1) \$25,000,000 for fiscal year 2001; and
- "(2) such sums as are necessary for each fiscal year thereafter.
- "(3) INAPPLICABILITY OF EXPIRATION PROVI-SION.—Section 281 does not apply to this section.
- (b) The table of contents in the first section of the Energy Policy and Conservation Act (42 U.S.C. prec. 6201) is amended by inserting after the item relating to section 272 the following:
- "Sec. 273. Summer fill and fuel budgeting programs.

SEC. 603. EXPEDITED FERC HYDROELECTRIC LI-CENSING PROCEDURES.

The Federal Energy Regulatory Commission shall, in consultation with other appropriate agencies, immediately undertake a comprehensive review of policies, procedures and regulations for the licensing of hydroelectric projects to determine how to reduce the cost and time of obtaining a license. The Commission shall report its findings within six months of the date of enactment to the Congress, including any recommendations for legislative changes.

SEC. 604. SCIENTIFIC INVENTORY OF OIL AND GAS RESERVES.

- (a) IN GENERAL.—The Secretary of the Interior, in consultation with the Secretaries of Agriculture and Energy, shall conduct an inventory of all onshore federal lands. The inventory shall identify:
- (1) The United States Geological Survey reserve estimates of the oil and gas resources underlying these lands, and;
- (2) The extent and nature of any restrictions or impediments to the development of such resources.
- (b) Once completed, the USGS reserve estimates and the surface availability data as

provided in (a)(2) shall be regularly updated and made publically available.

- (c) The inventory shall be provided to the Committee on Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate within two years after the date of enactment of this section.
- (d) There are authorized to be appropriated such sums as may be necessary to implement this section.

SEC. 605. ANNUAL HOME HEATING READINESS REPORTS.

(a) IN GENERAL.—Part A of title I of the Energy Policy and Conservation Act (42 U.S.C. 6211 et seq.) is amended by adding at the end the following:

"SEC. 108. ANNUAL HOME HEATING READINESS REPORTS.

- "(a) IN GENERAL.—On or before September 1 of each year, Secretary, acting through the Administrator of the Energy Information Agency, shall submit to Congress a Home Heating Readiness Report on the readiness of the natural gas, heating oil and propane industries to supply fuel under various weather conditions, including rapid decreases in temperature.
- "(b) CONTENTS.—The Home Heating Readiness Report shall include—
- "(1) estimates of the consumption, expenditures, and average price per gallon of heating oil and propane and thousand cubic feet of natural gas for the upcoming period of October through March for various weather conditions, with special attention to extreme weather, and various regions of the country;
 - "(2) an evaluation of-
- "(A) global and regional crude oil and refined product supplies;
- "(B) the adequacy and utilization of refinery capacity:
- "(C) the adequacy, utilization, and distribution of regional refined product storage capacity;
 - "(D) weather conditions;
- "(E) the refined product transportation system;
- "(F) market inefficiencies; and
- "(G) any other factor affecting the functional capability of the heating oil industry and propane industry that has the potential to affect national or regional supplies and prices;
- "(3) recommendations on steps that the Federal, State, and local governments can take to prevent or alleviate the impact of sharp and sustained increases in the price of natural gas, heating oil and propane; and
- "(4) recommendations on steps that companies engaged in the production, refining, storage, transportation of heating oil or propane, or any other activity related to the heating oil industry or propane industry, can take to prevent or alleviate the impact of sharp and sustained increases in the price of heating oil and propane.
- "(c) INFORMATION REQUESTS.—The Secretary may request information necessary to prepare the Home Heating Readiness Report from companies described in subsection (b)(4)."
- (b) CONFORMING AND TECHNICAL AMEND-MENTS.—The Energy Policy and Conservation Act is amended—
- (1) in the table of contents in the first section (42 U.S.C. prec. 6201), by inserting after the item relating to section 106 the following:
- "Sec. 107. Major fuel burning stationary source.
- "Sec. 108. Annual home heating readiness reports.":

(2) in section 107 (42 U.S.C. 6215), by striking "SEC. 107. (a) No Governor" and inserting the following:

"SEC. 107. MAJOR FUEL BURNING STATIONARY SOURCE.

"(a) No Governor".

TITLE VII NATIONAL OIL HEAT RESEARCH ALLIANCE ACT OF 1999

SEC. 701. SHORT TITLE.

This title may be cited as the 'National Oilheat Research Alliance Act of 2000'.

SEC. 702. FINDINGS.

Congress finds that—

(1) oilheat is an important commodity relied on by approximately 30,000,000 Americans as an efficient and economical energy source for commercial and residential space and hot water heating;

- (2) oilheat equipment operates at efficiencies among the highest of any space heating energy source, reducing fuel costs and making oilheat an economical means of space heating;
- (3) the production, distribution, and marketing of oilheat and oilheat equipment plays a significant role in the economy of the United States, accounting for approximately \$12,900,000,000 in expenditures annually and employing millions of Americans in all aspects of the oilheat industry;
- (4) only very limited Federal resources have been made available for oilheat research, development, safety, training, and education efforts, to the detriment of both the oilheat industry and its 30,000,000 consumers; and
- (5) the cooperative development, self-financing, and implementation of a coordinated national oilheat industry program of research and development, training, and consumer education is necessary and important for the welfare of the oilheat industry, the general economy of the United States, and the millions of Americans that rely on oilheat for commercial and residential space and hot water heating.

SEC. 703. DEFINITIONS.

- In this title:
- (1) ALLIANCE.—The term "Alliance" means a national oilheat research alliance established under section 704.
- (2) CONSUMER EDUCATION.—The term "consumer education" means the provision of information to assist consumers and other persons in making evaluations and decisions regarding oilheat and other nonindustrial commercial or residential space or hot water heating fuels.
- (3) Exchange.—The term ''exchange'' means an agreement that—
- (A) entitles each party or its customers to receive oilheat from the other party; and
- (B) requires only an insubstantial portion of the volumes involved in the exchange to be settled in cash or property other than the oilheat.
- (4) INDUSTRY TRADE ASSOCIATION.—The term "industry trade association" means an organization described in paragraph (3) or (6) of section 501(c) of the Internal Revenue Code of 1986 that is exempt from taxation under section 501(a) of that Code and is organized for the purpose of representing the oilheat industry.
- (5) No. 1 DISTILLATE.—The term "No. 1 distillate" means fuel oil classified as No. 1 distillate by the American Society for Testing and Materials.
- (6) No. 2 DYED DISTILLATE.—The term "No. 2 dyed distillate" means fuel oil classified as No. 2 distillate by the American Society for Testing and Materials that is indelibly dyed

in accordance with regulations prescribed by the Secretary of the Treasury under section 4082(a)(2) of the Internal Revenue Code of 1986.

- (7) OILHEAT.—The term "oilheat" means—
- (A) No. 1 distillate; and
- (B) No. 2 dyed distillate;

that is used as a fuel for nonindustrial commercial or residential space or hot water heating.

- (8) OILHEAT INDUSTRY.-
- (A) IN GENERAL.—The term "oilheat industry" means—
- (i) persons in the production, transportation, or sale of oilheat; and
- (ii) persons engaged in the manufacture or distribution of oilheat utilization equipment.
- (B) EXCLUSION.—The term "oilheat industry" does not include ultimate consumers of oilheat.
- (9) PUBLIC MEMBER.—The term "public member" means a member of the Alliance described in section 705(c)(1)(F).
- (10) QUALIFIED INDUSTRY ORGANIZATION.— The term "qualified industry organization" means the National Association for Oilheat Research and Education or a successor organization.
- (11) QUALIFIED STATE ASSOCIATION.—The term "qualified State association" means the industry trade association or other organization that the qualified industry organization or the Alliance determines best represents retail marketers in a State.
- (12) RETAIL MARKETER.—The term "retail marketer" means a person engaged primarily in the sale of oilheat to ultimate consumers.
- (13) SECRETARY.—The term "Secretary" means the Secretary of Energy.
- (14) WHOLESALE DISTRIBUTOR.—The term "wholesale distributor" means a person that—
- (A)(i) produces No. 1 distillate or No. 2 dyed distillate;
- (ii) imports No. 1 distillate or No. 2 dyed distillate; or
- (iii) transports No. 1 distillate or No. 2 dyed distillate across State boundaries or among local marketing areas; and
- (B) sells the distillate to another person that does not produce, import, or transport No. 1 distillate or No. 2 dyed distillate across State boundaries or among local marketing areas.
- (15) STATE.—The term "State" means the several States, except the State of Alaska.

SEC. 704. REFERENDA.

- (a) CREATION OF PROGRAM.—
- (1) IN GENERAL.—The oilheat industry, through the qualified industry organization, may conduct, at its own expense, a referendum among retail marketers and wholesale distributors for the establishment of a national oilheat research alliance.
- (2) REIMBURSEMENT OF COST.—The Alliance, if established, shall reimburse the qualified industry organization for the cost of accounting and documentation for the referendum
- (3) CONDUCT.—A referendum under paragraph (1) shall be conducted by an independent auditing firm.
 - (4) Voting rights.-
- (A) RETAIL MARKETERS.—Voting rights of retail marketers in a referendum under paragraph (1) shall be based on the volume of oilheat sold in a State by each retail marketer in the calendar year previous to the year in which the referendum is conducted or in another representative period.
- (B) WHOLESALE DISTRIBUTORS.—Voting rights of wholesale distributors in a referendum under paragraph (1) shall be based

and
