Congressional Record

proceedings and debates of the 106^{tb} congress, first session

SENATE—Friday, October 13, 2000

(Legislative day of Friday, September 22, 2000)

The Senate met at 10 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. Thurmond].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Almighty God, Sovereign of our beloved Nation, we thank You for the women and men who serve in the United States Navy. Today, we celebrate the 225th birthday of the Navy with them, veterans of naval service, and the Members of this Senate who hold cherished memories of their own service in the Navy. We remember the words of John Paul Jones, the father of the Navy, "Sir, I have not yet begun to fight." He defied defeat and surrender on that day in 1779 and gave the Navy not only a motto for heroism but an example of courage that has remained strong during war as well as in peacetime service to our Nation.

Yet, Lord, our celebration of this birthday of the Navy is mingled with grief for the sailors of the U.S.S Cole who were killed, injured, or are missing as a result of an explosion in the destroyer as it was pulling into Aden, Yemen. Dear Father, be with the sailors' families and friends at this time of loss.

Lord, our minds drift back to the gallantry of the Navy in American history. May the men and women of the Navy know of the profound gratitude and esteem this Senate has for them.

And Lord, we could not celebrate the Navy's birthday without a special expression of thanks to You for our own friend and doctor, Admiral John Eisold, the physician for the Members and officers of the Congress. Bless him and all of the Navy personnel on this special day. Amen.

PLEDGE OF ALLEGIANCE

The Honorable TED STEVENS, a Senator from the State of Alaska, led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God. indivisible, with liberty and justice for all.

The PRESIDENT pro tempore. The able Senator from Mississippi.

SCHEDULE

Mr. COCHRAN. Mr. President, in behalf of the majority leader, I am pleased to announce that today the Senate will begin debate on the conference report to accompany the Agriculture appropriations bill.

Under a previous order, debate on the conference report is limited to today's session, the session on Tuesday, and a brief period on Wednesday morning.

The vote on the Agriculture appropriations conference report is scheduled to occur at 11:30 a.m. on Wednes-

Although no votes are scheduled for Tuesday at this time, votes could occur on Tuesday, if necessary.

The Senate may also consider any legislative or Executive Calendar items available for action during today's ses-

RESERVATION OF LEADER TIME

The PRESIDING OFFICER SPECTER). Under the previous order, the leadership time is reserved.

AGRICULTURE, RURAL DEVELOP-MENT, FOOD AND DRUG ADMIN-ISTRATION, AND RELATED AGENCY PROGRAMS APPROPRIA-2001—CONFERENCE TIONS ACT,

The PRESIDING OFFICER. Under the previous order, the Senate will now proceed to the consideration of the conference report to accompany H.R. 4461, which the clerk will report.

The legislative clerk read as follows: The committee on conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill, H.R. 4461, making appropriations for Agriculture, Rural Development, the Food and Drug Administration, and related agency programs for the fiscal year ending September 30, 2001, and for other purposes, having met, have agreed that the House recede from its disagreement of the Senate amendment, and the Senate agree to the same, signed by a majority of the conferees on the part of the House.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the RECORD of Friday, October 6, 2000.) Mr. COCHRAN. Mr. President, I ask

unanimous consent that my prepared remarks describing the provisions of this conference report be printed at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COCHRAN. Mr. President, I am very pleased to announce to the Senate that we successfully completed action in our conference committee and brought back to the Senate a bill that has already been approved by the other body by a substantial vote of support. and indications are that the President is prepared to sign this conference re-

I am pleased to make that announcement because during the development of this legislation and the markup sessions that we held here in the Senate, and discussions of the bill on the floor of the Senate, there were some very contentious and controversial issues that were debated and considered. We didn't achieve all of the successes that Senators wanted to achieve, as is usually the case in the situation where you are negotiating compromise with the other body and dealing with views and opinions reflected in the policies of the administration. But, taken together, given the expressions of support and interest in the Senate for the provisions that are in the bill, I am confident that most Senators will be very pleased with this result.

This is a good bill. It deserves the support of the Senate.

It provides a restrained approach to funding the activities of the Agencies and Departments of Government that are funded in this bill.

• This "bullet" symbol identifies statements or insertions which are not spoken by a member of the Senate on the floor.

The total dollar amount for new budget authority, for example, is less than the fiscal year 2000 enacted level. It is less than the level requested by the President. It is less than the House-passed bill level, and it is less than the Senate-passed bill level.

The fact is, every effort was made during consideration of this bill to be restrained and responsible in the allocation of funds that are available to this subcommittee under the budget resolution.

The conference agreement provides total new budget authority of \$74.5 billion for programs and activities of the United States Department of Agriculture (except for the Forest Service which is funded by the Interior Appropriations bill), the Food and Drug Administration, and the Commodity Futures Trading Commission. This is approximately \$1.1 billion less than the fiscal year 2000 enacted level and \$2.3 billion less than the level requested by the President. It is \$651 million less than the House-passed bill level, and \$859 million less than the Senatepassed bill level.

This conference report also includes an additional \$3.6 billion in emergency appropriations to compensate agricultural producers for losses suffered due to drought, fires, and other natural disasters; to meet conservation needs; and to provide relief to rural communities.

Including Congressional budget scorekeeping adjustments and prioryear spending actions, this conference agreement provides total non-emergency discretionary spending for fiscal year 2001 of just over \$15 billion in budget authority and outlays.

I am pleased to report that this conference report provides funding at the President's request level, an increase of nearly \$58 million from the fiscal year 2000 level, for activities and programs in this bill which are part of the Administration's "Food Safety Initiative."

The conference report provides adequate funding in our view for the Food Safety and Inspection Service, which has the responsibility of conducting inspections and monitoring the safety of our Nation's food supply to ensure that the food that is consumed by Americans and produced and processed here is fit for human consumption, and free from contamination.

This is a big challenge. It is a big worry all over the country because there have been instances where there have been problems in this area. We think this conference report responds to those concerns and that will have a very positive influence in helping to solve problems in this area of food safety.

Let me also point out the emphasis in this conference report on agricultural research and education programs. We have to maintain a high level of technological sophistication in order to continue to produce an adequate amount of food and fiber for our country at reasonable prices, and to do so in a way that permits a level of profit for those engaged in farming operations to stay in business. It is very difficult in many areas of the country now for farmers and ranchers to make ends meet. They are confronted with a wide range of difficulties.

We have to invest in research to try to find new ways of improving yields for the crops that are produced in our country, and to do so in a way that is not threatening to the environment or to the citizens of our country. We have a heightened awareness of problems that can occur in this area.

There is almost a near hysteria in Europe over this issue. We are confronting difficulties in trade because we are having problems getting licenses for commodities and foods that are produced in the United States because they have genetically modified organisms-GMOs-which is a big issue in the U.K. particularly. The tabloids have been fanning the flames of the hysteria that has taken hold there. The European Union has been very hesitant and difficult to deal with in approving licenses from exporters who would like to sell what they are producing in the European market. In my view, many of these practices are unfair and not based on sound science.

But we need to have a regiment of research and development that is beyond question in terms of its impact on human health and our environment. That is why it is as important this year, more important than ever before, to have a robust research and education program that is supported by the Department of Agriculture. In colleges and universities and in Agricultural Research Service laboratories all around the country, there are funds that will be made available to help achieve the goals in this area.

This conference agreement provides increased appropriations for agriculture research and education programs. Total appropriations of nearly \$2 billion are provided for the Agriculture Research Service and the Cooperative State Research, Education, and Extension Service, \$126 million more than the fiscal year 2000 level and \$62 million more than the Senate-passed bill level. In addition, as requested by the President and provided in the Senate bill, \$120 million in fiscal year 2000 funding will be available in fiscal year 2001 to fund the Initiative for Future Agriculture and Food Systems.

Approximately \$34 billion, close to 46 percent of the total new budget authority provided by this conference report, is for domestic food programs administered by the U.S. Department of Agriculture. These include food stamps; commodity assistance; the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC);

the school lunch and breakfast programs; and the school breakfast pilot program, which is funded at \$6 million. Included in this amount is the Senatepassed bill level of \$4.052 billion for the WIC program, including \$20 million for the WIC farmers' market nutrition program.

The WIC program is a very important nutrition program and health program for women, infants, and children. Everybody is aware of the importance of school lunch and breakfast programs to help equip our children with the nutrition they need as they are at school so they can learn and do a good job at school.

We also have a Food Stamp Program that is funded in this bill. In my view, these are funded at adequate levels to meet the demands and needs we have in our country. We have been very fortunate in this time of economic expansion and growth for jobs to be created so those who want to work can find work. We have people coming into the country now under special visa requirements because we have an inadequate labor supply, or at least an inadequately trained supply of labor to do many of the jobs that have to be done in this country. Many entry level positions are now being filled by those who are newly coming into the country, many just for the purpose of working on farms because people who live here and who have been here for a while either don't want to do the work or for some reason are unavailable to those who need help on their farms.

This is a challenge. The point I am making in connection with the food and nutrition programs is we have been able to reduce the costs of some of these programs, particularly the Food Stamp Program, because of the expansion in the economy and the availability of jobs. We need to make sure through our budget policies that we continue to have an environment economically for job growth and expansion.

For farm assistance programs, the conference report provides \$1.3 billion in appropriations. Included in this amount is the full increase of \$89 million above the fiscal year 2000 level requested by the Administration for Farm Service Agency salaries and expenses, as well as appropriations which, together with available carry-over balances, will fund the fiscal year 2001 farm operating and farm ownership loan levels included in the President's budget request.

Appropriations for conservation programs administered by the Natural Resources Conservation Service total \$873 million, \$69 million more than the fiscal year 2000 level, and approximately \$6 million more than the level recommended by the Senate.

Conservation programs, in my view, are some of the less well advertised programs of the Department of Agriculture. We have increased the amount

of acreage available for the Wetlands Reserve Program by 100,000 acres.

We have also worked hard on these programs to ensure they help improve wildlife habitat on farms and on the lands that are owned by American citizens. We have incentive programs, not just mandatory programs, but programs that encourage the management of land so that conservation is enhanced, and the protection of soil and water resources is enhanced by the way landowners use and care for their lands.

We found that to be a very popular way of helping to encourage and obtain the best possible land management practices, rather than having a Federal Government come in with threats and other sanctions that can be imposed on landowners. It is better to do it in a way that is educational and nonthreatening and based on incentives rather than sanctions, fines, and penalties from the Federal Government.

We also see in this bill something that is important to every rural community: development programs, housing programs, water and sewer system programs. They are all important in rural America. Many of these communities have some of the lowest income families in America and therefore they don't have the economic base to pay the costs that would be required for utilities and other lifestyle enhancements that are available in the larger towns or the cities of our country. These programs are very important in States, such as mine and others, which have to depend upon Federal assistance to make sure they have safe drinking water, they have sewer systems, they have electric lights, they have telephone service access. These programs are funded in this bill this year.

For rural economic and community development programs, the conference report provides appropriations of \$2.5 billion to support a total loan level of \$8.8 billion. Included in this amount is \$763 million for the Rural Community Advancement Program, \$680 million for the rental assistance program, and a total rural housing loan program level of \$5.1 billion.

A total of \$1.1 billion is provided for foreign assistance and related programs of the Department of Agriculture, including \$115 million in new budget authority for the Foreign Agricultural Service and total appropriations of \$973 million for the P.L. 480 Food for Peace Program, \$31 million above the fiscal year 2000 level, and the same as the President's request and Senate bill levels.

Total new budget authority for the Food and Drug Administration is \$1.1 billion, \$74 million more than the fiscal year 2000 level and \$24 million more than the Senate-passed bill level. The conference report also makes available an additional \$149 million in Prescription Drug User Fee Act collections.

The increase in new budget authority, together with the redirection of base funds, provides FDA with an additional \$130 million from the fiscal year 2000 level for funding requirements identified in the President's fiscal year 2001 budget request. These include the full increases requested in the budget of \$30 million for food safety, \$20 million for construction of the Los Angeles laboratory, and \$22.9 million for premarket review. Also included is a portion of the increased funding requested for FDA to enforce Internet drug sales, enhance inspections, improve existing adverse events reporting systems, and continue counter-bioterrorism activi-

In addition, the conference report appropriates, contingent on a budget request, the \$23 million FDA has identified it needs for fiscal year 2001 to carry out the Medicine Equity and Drug Safety Act of 2000. The FDA said it needed this amount for this next fiscal year to carry out the provisions of this conference report that provides these new responsibilities, to guarantee safety and efficacy of drugs in this new era, so that is included in this report.

For the Commodity Futures Trading Commission, \$68 million is provided; and a limitation of \$35.8 million is established on administrative expenses of the Farm Credit Administration.

As my colleagues recall, as passed by the Senate, this bill included not only the regular fiscal year 2001 appropriations bill, but a "Division B" providing supplemental appropriations, rescissions, and other emergency provisions relating not only to programs and activities under this Subcommittee's jurisdiction but to various other Departments and agencies of government. Provisions outside this Subcommittee's jurisdiction have been deleted by the conference committee and will be addressed, as appropriate, on other bills.

Funding for emergency assistance for farmers and landowners who have been affected by drought, fires, and other natural disasters that have occurred this year is now included as Title VIII of this conference report. The total assistance package has been scored by the Congressional Budget Office at \$3.6 billion.

The Secretary of Agriculture is authorized to use such sums as necessary of the Commodity Credit Corporation to compensate farmers for crop and quality losses at the same rates as have been used in previous years. However, unlike years past, there is no limit on the amount of funds available for this assistance, thus eliminating proration of producers' payments and hopefully expediting payments.

Other assistance provided by the bill includes \$490 million for the livestock assistance program, \$473 million for dairy producers, and \$328 million for producers of certain specialty crops.

The agreement provides needed conservation funding by making \$35 million in technical assistance available for the Conservation Reserve Program and the Wetlands Reserve Program, and providing an additional \$110 million for the Emergency Watershed Program of the Natural Resources Conservation Service.

Senators worked very hard in the conference on this issue, and other issues as well. We have expanded the opportunities to sell what we produce in the international marketplace in this conference report as a result of changes in sanctions policy. There have been many initiatives introduced on this subject. I know the Senator from Indiana, Mr. LUGAR, has a wide, sweeping, and very thoughtful approach to this sanctions issue reflected in a bill he has introduced. I hope we can pass legislation in this area that sets new policies and establishes a new way of going about deciding when and where to impose sanctions that tie the hands of our exporters and have an adverse impact on our ability to sell what we produce on the international marketplace.

I am not saying sanctions are bad. We have to use them in certain cases. They have proven to be very effective in certain cases. Normally, this is when we have the cooperation of other countries. But when we just unilaterally impose sanctions, in many cases that ends up being more hurtful and harmful to our farmers and ranchers and businesses than to anybody else. We have to be careful how we approach this whole issue.

I think the conference committee exercised good judgment and an awareness of concerns throughout our country on this issue when it made the changes that are reflected here. I am hopeful with the emergency assistance provisions that are in the bill, the other programs that have been funded, the Senate will be able to enthusiastically support and approve the work that this conference committee has done.

This conference report carries a number of other legislative provisions adopted by the conference committee, including the Continued Dumping and Sudsidy Offset Act; the Conservation of Farmable Wetland Act; and the Hass Avocado Promotion, Research, and Information Act.

Mr. President, we are already well beyond the October 1 start of the new fiscal year. This conference agreement is the product of two lengthy sessions of the conference committee. The conference report was filed last Friday night, October 6, and was adopted by the House of Representatives on October 11 by a vote of 340 to 75. Senate pasage of this conference report today is the final step necessary to send this fiscal year 2001 appropriations bill to the President for signature into law.

Senator Kohl is the ranking Democrat on the subcommittee. It has been a pleasure to work with him throughout the hearing phase of the development of our factual basis for writing this bill. In all the discussions we have had in working on challenges before the subcommittee, I could not have asked for more cooperation or careful and thoughtful assistance than Senator Kohl provided to me and to the committee as a whole.

The full committee, of course, had a role to play in this, all members of our subcommittee and full committee, too. I want to express my appreciation to all of them. It was a pleasure working in conference with Chairman Joe SKEEN, from New Mexico, who is serving in his last year as chairman of the subcommittee. This is his sixth year in that capacity. The House has term limits on subcommittee chairmen. It effectively prohibits his service beyond this year as chairman of the subcommittee. But he has really been a hard-working leader in the House on the development of this legislation and this appropriations bill. We will miss working with him as chairman. We hope to be able to continue working with him closely in the years ahead, though, as a fellow member of the Appropriations Committee in the House.

MARCY KAPTUR, from Ohio, is the distinguished ranking Democrat on the House committee. It is always a pleasure working with her. She was very helpful in the development of this bill during our consideration of it in conference with the House.

I know none of this excellent work product would have been possible without the outstanding assistance and hard work that has been turned in by our able staff members: Rebecca Davies, who is the chief clerk on this committee, Hunt Shipman, Martha Scott Poindexter, Les Spivey, and with the wise counsel and influence of my chief of staff. Mark Keenum, and with others who participated in the development of this bill. I say thank you. It would not have been possible without their help. This is an outstanding work product. We appreciate your excellent effort. I do not want to leave out Galen Fountain either. He is the chief clerk on the Democratic side of our subcommittee. He has been a very helpful person to work with, and we appreciate very much his outstanding assistance, too.

I know of no Senators who have asked to be recognized at this point, but I repeat what the majority leader provided by way of information to the Senate in the opening announcements this morning. We have time reserved today, we have time reserved on Tuesday, and a short period of time on Wednesday for discussion of this bill, and then a vote will occur at 11:30 on Wednesday morning. I hope Senators will take advantage of these opportuni-

ties if they have questions or if they have statements they want to make in connection with the bill.

I yield the floor.

The PRESIDING OFFICER (Mr. JEFFORDS). The Senator from Pennsylvania.

Mr. SPECTER. Mr. President, I have sought recognition to commend the distinguished Senator from Mississippi for his leadership in producing a very sound Agriculture Appropriations bill. I have served with the Senator from Mississippi on that subcommittee for almost 20 years now and have participated in the conference just concluded which has produced this bill. I can personally attest to the professionalism, courtesy, and, perhaps most of all, the patience displayed by the Senator from Mississippi in presiding over those proceedings.

The public has little opportunity to know what goes on in the legislative process generally, but they do hear about the introduction of bills and they do see, on C-SPAN and otherwise, the committee meetings and the questioning of witnesses, and to some extent they see on C-SPAN II, to the extent anybody watches, what happens on the Senate floor. But the conferences are largely unseen by the public. That is crunch time, when the work is concluded. Everything else which is done is really of much less significance than the conferences, where the final touches are put on legislation which constitutes the laws of the coun-

There are very long sessions. A week ago last night was illustrative of the point. The speeches tend to go very long. The presiding chairman has to have great patience, to have the proper balance between allowing every member to speak and getting the work completed. That conference had some very difficult issues, issues which related to relieving sanctions on Cuba, to allow more importations of food, and it went into an issue which is highly sensitive, where there really ought to be an evaluation as to our relations with Cuba. We did take a step in the right direction on releasing the sanctions as to food—really, largely as an economic matter for America's farmers.

In the foreign operations bill there is a provision, which this Senator introduced, to try to get more cooperation on drug interdiction, which the Cuban Government is willing to do. Then we had important provisions on reimportation of drugs, on which the distinguished Senator from Vermont, Mr. JEFFORDS, who is now presiding, was the leader.

It has come to pass that the appropriations bills, now, are the principal legislative vehicles, so to speak, for getting substantive legislation because it is only the appropriations bills, ultimately, which pass. So much of that is done in conference as opposed to

amendments on the floor, which is the prescribed way.

The senior Senator from Mississippi presided at that conference, and we produced a very important bill. As I have heard him report on it today, I am struck by its promise and its importance for the American people under his leadership.

In the absence of any other Senator seeking recognition, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. JEFFORDS). Without objection, it is so ordered.

Mr. COCHRAN. Mr. President, I first express my appreciation to the distinguished Senator from Pennsylvania, Mr. Specter, for his generous comments about my efforts in behalf of this legislation as chairman of the subcommittee. He also put in a lot of time and effort during the conference with the House and also during the development of this legislation in our subcommittee. He has been an outstanding member of the Appropriations Committee and, of course, chairs the Labor-HHS Subcommittee of the Appropriations Committee in the Senate and does an excellent job in that capacity. I thank him for his very generous statements.

I also commend, as he did, the Senator from Vermont, who is chairing the Senate this morning, for his leadership on the drug importation issue. I don't think this would have been included in this legislation—I know it would not—were it not for the leadership of Senator JEFFORDS. It was this amendment that was included in the bill when the bill was on the floor of the Senate.

As the occupant of the chair remembers, we had a very heated debate. It was contentious. It was a matter of a lot of controversy surrounding it. I offered an amendment to the Jeffords amendment, which was adopted as it turned out, helping protect the safety and efficacy of drugs that would be imported under the provision of the Jeffords amendment. Then in conference with the House, everybody got involved, not just the conferees but the leadership of the House and the leadership of the Senate. Everybody, it seemed, had an opinion or a viewpoint on how that language should be changed or modified or improved.

As it turned out, the end result is something in which the Senator from Vermont can take a great deal of pride. His influence will always be remembered on this issue. I thank him for his courtesies during the handling of the issue and his good advice and counsel all along the way.

Mr. President, the crop disaster provisions in this bill take a somewhat different approach to compensating producers who may have suffered significant quality losses during 2000 caused by bad weather, insects, or other natural occurrences. The bill authorizes the Secretary of Agriculture to compensate producers for quantity, quality, and severe economic losses. Loss thresholds for quantity and quality losses are separated in this bill, whereas they have been combined in previous disaster bills. Different crops have different values associated with declines in quality. The report language accompanying the conference report takes care to discuss special rules that should be considered for cotton, for example.

The conferees were concerned that this new calculation might have some unintended consequences and provided the Secretary of Agriculture with additional flexibility in devising an appropriate loss compensation program. Because there are crops, like cotton, that rarely have quality losses that are not accompanied by quantity losses, this bifurcated approach could have unintended detrimental consequences. The Secretary could use his authority to compensate for severe economic losses and calculate losses for cotton and other similar commodities in the manner done in 1999, when quality and quantity losses were combined to determine whether a producer had met the loss thresholds.

The Secretary could also use the authority provided him to provide assistance for severe economic losses to provide appropriate compensation to producers that incur the necessary expense to bring their 2000 crop all the way to harvest.

Mr. President, the distinguished Senator from Montana is on the floor.

The PRESIDING OFFICER. The Senator from Montana is recognized.

Mr. BAUCUS, Mr. President, when we finally vote on the Agriculture appropriations conference report, I intend to vote for it essentially because the bill provides so much that helps so many people, many of whom are in dire straits. I am referring specifically to a lot of the people living and working in farm communities in my State of Montana and throughout the Nation.

I am especially pleased the bill provides \$3.6 billion for weather-related disasters. The droughts and fires in my State, as well as other parts of the Nation, have been quite severe and, in many areas, devastating. This bill will help our citizens get through the most difficult times. I commend the Senator from Mississippi and others who have worked to help pass this bill.

I want to mention a couple of points of this bill which I think are erroneous. I object strenuously to the provisions in the bill with respect to restrictions on food and medicine sales to Cuba and citizens to travel to Cuba.

Last July, I flew to Havana, along with my colleagues, Senator ROBERTS and Senator AKAKA. It was a brief trip, but I returned from Havana more convinced than ever that it was time to end our outdated cold war policy toward Cuba. For example, I believe we should have normal trade relations with Cuba. We do not. The President just a day ago signed permanent normal trade relations with China, a Communist country which certainly presents more of a national security threat to the United States than Cuba, but yet we do not have normal trade relations with Cuba. It makes no sense.

As a consequence, we Americans, the Congress, and the Federal Government, prevent our farmers and ranchers from exporting their products to Cuba. But our Japanese, European, and Canadian competitors have no constraints. They fill the gap. The result, obviously, is it helps those countries, it helps the Cubans, but it hurts Americans. Also, our policy has no impact on those Cuban policies that we would like to see changed—none whatsoever.

Most Members in the Senate and House have also recognized the absurdity of this policy. Earlier this year, the Senate and the House agreed to end the ban on food and medicine sales to Cuba. We had overwhelming majorities in the Senate and the House. Those votes expressed the will of the Congress. The votes clearly reflected the will of the American people.

Yet the Republican conferees simply overturned those House and Senate votes. The Republican conferees thwarted the will of the American people. The result is that there will be restrictions on the sale of food and medicine to Cuba. These restrictions guarantee that there will be few such sales, and those few that do occur will be done only by major companies, shutting out the small farmer. That is not the way law is supposed to be made in a democracy.

To rub salt in the wounds, the Republican conferees agreed to codify in law the current administrative restrictions on travel to Cuba. That action removed the flexibility of this President and future Presidents to liberalize or not to liberalize, depending upon what seems to make the most sense. The result is a further infringement on the right of Americans to travel freely. It also diminishes the right of Cuban Americans to visit family members in Cuba.

An overwhelming majority of Congress recognizes we must end the anachronistic cold war policy toward Cuba. That policy harms the average Cuban. Clearly, it harms the average American. The current policy against Castro is a foil. It helps prop him up. Were we to lift the bans that would take away that foil, it would make it more difficult for him to stay in power.

restrictions on the right of American It is amazing how foolhardy our policy is. It is also a policy that hurts the American public. It is a great danger.

> Once the resistance of the Castro regime begins—think of that for a minute. We have to think very carefully about how to help manage the transition that occurs in Cuba from the current-Castro regime to the post-Castro regime. Of course, the Cubans must make that decision. The nature of that transition has a very direct bearing upon this country. We have to be very careful.

> Clearly, if we were to open up now, we could help influence a transition that is more in America's national interest. Current policy also clearly abridges the freedoms of Americans to travel. If we had to vote separately on these Cuban provisions, I would work hard to defeat them, but the other provisions in the bill are so overwhelming important for the health and prosperity of Americans that I will vote in favor of the Agriculture appropriations bill. But I repeat, the Cuba provisions are a serious step backward.

> I yield the floor and suggest the absence of a quorum.

> The PRESIDING OFFICER. The clerk will call the roll.

> The assistant legislative clerk proceeded to call the roll.

> Mr. CONRAD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

> The PRESIDING OFFICER. Without objection, it is so ordered.

> Mr. CONRAD. Mr. President, we are now considering the Agriculture appropriations conference report. It is critically important to a number of our States. It certainly is critically important to mine.

> We are faced with one of the toughest downturns in the agricultural markets in the history of our country. We currently have the lowest real prices for farm commodities in 50 years, and we are in a very serious situation as a result. Literally, thousands of farm families will be forced off the land if there is not an adequate Federal response to this crisis.

> A number of years ago we passed a new farm bill. That farm bill is not working. I think the proof is abundantly clear. The fact is, we have had to write disaster bills every year for the last 3 years to try to deal with this collapse in farm prices.

> The situation now is even more grave as we have dealt not only with collapsed prices but also with what I call the triple whammy of bad prices, bad policy, and bad weather.

> In my State, as in many others, farmers have not only had to cope with very low prices but, in addition to that, weather conditions that have dramatically reduced the value of the crop even from these very low prices.

> I just had a farmer stop me when I was home and tell me he was offered 75

cents a bushel for his grain—75 cents a bushel.

A lot of people wonder, what is a bushel? We talk about these things in farm terms. I think many people in the country have no idea what a bushel represents. A bushel is almost 60 pounds. Can you imagine getting 75 cents for that product? That is ruinous. That is confiscatory. And it will drive thousands of farm families into bankruptcy if there is not a response.

Thankfully, each of the last 3 years, there has been a Federal response. Three years ago, I am proud to say, the first amendment was mine, offered with Senator DORGAN, to begin to respond to this crisis of collapsed prices. That developed into a \$6 billion assistance package.

Last year, we had another package. Senator Grassley of Iowa and I offered the only bipartisan package of assistance, and it formed the basis for what was agreed to, an \$8.7 billion package. This year, for the third year in a row, we have already passed, and the President has signed into law, a package of \$7.2 billion of assistance, again to offset these collapsed prices. But since that package was passed and signed into law, we also have these weather disasters across the country. In my State, overly wet conditions have led to an outbreak of a disease called scab that has dramatically lowered the value of the crop. In other parts of the country, there has been devastating drought, a situation where farmers have not received any rain throughout the growing season. As a result, they have almost total losses.

In this bill we will vote on next week, there is an additional \$3.5 billion of assistance, including provisions to address the quality loss affecting my State's farmers; \$500 million to address the quality loss circumstance in which farmers go to the elevator and in some cases the people at the elevator say, we won't buy your grain at any price because it is so loaded with this fungus called scab. That is the nature of the crisis.

It is so important that next week we pass that bill. It is so important that this aid start to flow. It is so important that we say to farm families across America, we are not going to let you fail because of a failed farm policy written in Washington. We are not going to let you face a circumstance just because our major competitors, the Europeans, are outspending us 10 to 1 in their support for their producers, that we let our people fall by the wayside. We are not going to say to our producers, just because the Europeans account for 84 percent of all the world's agriculture export subsidy—we only account for 1.4 percent—just because they are outgunning us 60 to 1 on that measure of support, we are not going to let you go under because of a failed policy out of Washington.

These are critical times. Our major competitors, the Europeans, have done everything they can to support their producers. I am not being critical. I admire them. They have stood up for their people. They understand that if you just abandon them to this world market, where we see catastrophic prices, what that will mean is an exodus from the rural parts of Europe, just as we are seeing that kind of circumstance in America. We are seeing thousands of farm families leave the land because the economics just don't work.

We obviously need this rescue package. We need this assistance. More than that, we need a new farm policy. one for the longer term, one that recognizes what is happening in world agriculture, one that understands the Europeans are supporting their producers at a rate of \$300 an acre on average while we support our producers at a rate of \$30 an acre on average. It is no wonder that Europe is moving up in world market share and we are moving down because our friends in Europe are doing it the old-fashioned way-they are going out and buying markets that have traditionally been ours. They have a strategy; they have a plan. Their plan is to dominate world agricultural trade. They are putting the money up to do it.

The harsh reality is that USDA now tells us for the first time in as long as anyone can remember. Europe is poised to surpass us in world market share. Let me repeat that: This year USDA tells us for the first time in memory Europe is poised to pass us in world market share for agricultural products. That ought to be a warning to all of us of what is happening. It is happening because the Europeans have spent tens of billions of dollars a year, nearly \$50 billion a year, supporting their producers, paying for export subsidies so they can buy markets that have traditionally been ours. Shame on us if we allow them to take us out of world markets that have been ours for decades. That would be a serious mistake.

When I ask the Europeans, how is it you are able to convince your people to step up and support your producers in the way that you do, they say, it is very simple: we have been hungry twice in Europe. We never intend to be hungry again. We are not going to rely on outside food sources to feed our people. We just are not going to do it.

I hope next year we will begin the debate on a new farm policy, and we will recognize that unilateral disarmament does not work. It doesn't work in military affairs; it doesn't work in an agricultural trade confrontation. It hasn't worked with this new Federal farm policy. It has been a disaster. I don't know of any better proof for that than the simple fact we have had to write disaster bills the last 3 years to try to cope with the wreckage that is rep-

resented by this Federal farm policy: the lowest prices in 50 years; thousands of farmers being pushed off the land; an agricultural economy that is in deep trouble.

I hope next week, when we take a vote on the Agriculture appropriations bill, there will be strong bipartisan support for that package, and then when we convene next year we will begin the debate on a new Federal farm policy, one that recognizes that our major competitors are on the move. They are on the march. They have a strategy. They have a plan. They have an intention to dominate world agricultural trade, and we have an obligation to fight back, to give our producers, our farmers a fair fighting chance.

So far we have said to our farmers, you go out there and compete against the French farmer or the German farmer. And while you are at it, you take on the French Government and the German Government, too. That is not a fair fight. Our producers can compete against any producers anywhere in the world, but only if they have a level playing field, only if it is a fair fight. They can't win if the deck is stacked against them. That is precisely what is happening now. The deck is stacked against our producers in a way that is devastating.

It reminds me of the cold war, where we built up to build down. I believe we have to follow that same principle in this trade confrontation with Europe. We have to add resources to force them to the table to negotiate to level the playing field so our producers are not at this extraordinary disadvantage where Europe spends \$300 an acre on average to support their producers while we spend \$30, where the Europeans account for 84 percent of all the world's agricultural export subsidy while we account for only 1.4 percent, outgunned 60 to 1. It is pretty hard to win a fight when you are outgunned 60 to 1 or 10 to 1. It makes it virtually impossible for our very efficient producers, very hard-working people, to have any kind of a chance.

These are the harsh realities of what is occurring in world agriculture. I hope next week, when that bill comes before the Chamber, we will stand up and vote aye. I hope when we start next year the debate and discussion about a new farm bill, we will recognize the harsh realities of what is happening in these world agricultural markets.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. JEFFORDS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BENNETT). Without objection, it is so ordered.

Mr. JEFFORDS. Mr. President, I come to the floor today to urge my colleagues to support the Agriculture appropriations conference report that will be considered by this body in the next few days. I think it is a good bill with a number of desperately needed aid provisions for our Nation's farmers. The provisions included in the bill for prescriptions are also desirable.

First, though, I want to talk a little about my own family history and why I am so proud and honored to be the author of the legislation with respect to prescription drugs and pharmacies. My family, on the Jeffords side, came to Vermont back in 1794. At least, that is the first time they bought a piece of land. They settled in the northern part of Vermont up on the Canadian border. Gradually, they moved down to a community a little further south, about 20, 30 miles from the Canadian border. The family ran a drugstore in Enosberg Falls called Jeffords Drug Store for over a hundred years.

I remember the summers so vividly. We always spent 2 weeks in Enosberg Falls, spent a week on the family farm, and then spent a week down in town with Roger Pratt and Cora Pratt, my uncle and aunt who ran the drugstore. I remember some wonderful times there. I could go up to the soda fountain, without having to do anything, and I could get a soda. Sometimes, I would be given the job of trying to swat the flies and keep the flies away. That was before we had insecticides. I know sometimes I would probably get a little annoying when I was 8 or 9 years old while swatting them too close to the patrons sitting at the little tables where they got sodas. Later, I had the great thrill of being able to stand behind the pharmacy's soda fountain and make sundaes and all sorts of things. It was a wonderful experience.

But what I learned more than anything else was the importance of a pharmacy to a small town. In those days, it was probably as much of the health care plan as you could get, along with the local doctor. The pharmacy was your health care, unless you got really sick and you would go to the hospital. But more people came in to get advice from the pharmacist as to what they should take for this or for that. Things went along very fine for many years.

As time went on, my uncle died. My aunt, who was not a pharmacist, was working the drugstore and she had to hire a pharmacist to do that work. Unfortunately, she died. When she died, the question was, Who is going to get the drugstore and the property? I took the position that I would be willing to sell it to the pharmacist. I got it appraised, and a price was set. He said, "I'm sorry, but I'm going to go down the street and open a pharmacy and I will run you out of business." I said, "Okay, go right ahead"—because I am

a stubborn Vermonter—"I will run you out of business." So I had to go around the State and find a pharmacist. So we kept the competition going.

I finally sold the drugstore for twice what he wanted to pay, and I learned important things such as if you want a generic aspirin, you can look right next to the Bayer aspirin, and you will find an aspirin that is identical but in a different bottle, and it is cheaper. I have used that knowledge all through the years to save a buck on aspirin and other things. Many useful lessons have come from that experience.

What I also understood by being near the Canadian border was what it meant to that pharmacist in recent years. The drugs his pharmacy purchased cost twice as much as the pharmacist paid across the border in Canada.

It is more than just a casual knowledge that led me to become deeply involved in the bill which we now have as part of the appropriations bill.

I thank Senator SPECTER and Chairman COCHRAN for their very kind words about me and my work in this area. I deeply appreciate that.

Mr. Jeffords. Mr. President, I come to the floor today to urge my colleagues to support the Agriculture Appropriations Conference Report that will be considered by this body within the next few days. I think it is a good bill, with a number of desperately needed aid provisions for our nation's farmers. But today I would like to address the Prescription Drug Importation provision included in the bill.

We are all familiar with the problem. The cost of drugs, as a percentage of our health care dollar, is skyrocketing to the point of unaffordability for average Americans. During a time when we are experiencing unprecedented economic growth, it is not uncommon to hear of patients who cut pills in half, or skip dosages in order to make prescriptions last longer, because they can't afford the refill. Prescription medicines have revolutionized the treatment of certain diseases, but they are only effective if patients have access to the medicines that their doctors prescribe. The fact is, failure to take certain medicine can be just as deadly as taking the wrong pill.

Today we are confounded by the question: Why do drugs cost so much more in the U.S. than in Canada or abroad? It's a good question—one for which the drug companies don't have any good answers.

It's true that these companies are making some miraculous break-throughs. But why must Americans have to shoulder seemingly the entire burden of paying for research, development and a healthy return to share-holders?

I believe it is time we put an end to this unfair burden. I don't think it is fair to expect Americans, especially your senior citizens living on fixed incomes, to pay the highest costs in the world for prescription medicines, many of which are manufactured within our borders.

That's why more than a year ago I started working with the Food and Drug Administration (FDA), the agency responsible for overseeing the safety of the drug supply in this country, to see if there were a way we could safely reimport prescription medicines into our country.

In July, on an overwhelming vote of 74-21, the United States Senate agreed to an amendment I offered, based on S. 2520, cosponsored by Senators WELLSTONE, DORGAN, SNOWE, COLLINS, and others, to do just that. Importantly, for the first time, we had developed and passed a proposal that did not, in the eyes of FDA, present public health and safety concerns. This was critical to me, because we have the gold standard in the U.S. when it comes to drug safety, and I don't want to do anything to undermine it.

Over the past few months, the drug companies have waged a furious campaign against my amendment, taking out advertisements and sending legions of lobbyists to Capitol Hill to argue that it would undermine safety. I don't think my amendment will undermine safety, but I do think it will undermine the price Americans pay for prescription drugs.

I was heartened by the positive movement in the Clinton administration over the past few weeks, from neutrality in July to outright support for my amendment, provided Congress gave enough money—\$23 million this year—to FDA to carry out its responsibilities. Congress has agreed to do so, and if my proposal works out as I hope, it will be a small price to pay on the potential billions of dollars that Americans will save on prescription drug costs.

The negotiators for the House and Senate on the agriculture appropriations bill have completed their work. Unfortunately, the process used in reaching this agreement was marred by partisanship. But the product is as strong as the one endorsed by the Clinton administration, and even stronger in some respects.

The proposal before Congress, while slightly different from my plan, is a strong and workable proposal. Critics have argued that the proposal has been weakened because it allows drug companies to frustrate the intent through manipulations of sales contracts. The fact is, this bill is stronger than either the House-passed or Senate-passed versions because it includes a clear prohibition of such agreements—something that was missing in the House and Senate bills.

Critics have claimed that the latest version of the bill contains a loophole regarding the labeling requirements. The fact is, the bill requires manufacturers to provide all necessary labeling information, and gives the FDA very broad power to write any other rules necessary to accomplish the intent of the provision. How much stronger can we get than that.

Critics have claimed that the bill unfairly restricts the countries from which these products may come. The fact is that the bill lists 23 countries to start the process, and lets the FDA expand the list at any time.

Critics have complained that this bill will expire after about 7 years.

The fact is that this is a vast improvement over the House-passed version which would have expired after only one year. As we all know, major legislation is frequently required to be reauthorized on 5 year cycles in order to force Congress to make improvements, and popular laws always survive this process.

This bill, like any other, is not perfect. But critics are wrong to suggest that it is weaker than the original Jeffords amendment. I ought to know. And so should John Rector, senior vice president for the National Community Pharmacists Association who has been a leader in the effort to reimport lower cost drugs and whose members would be responsible for making this proposal work.

Mr. Rector recently took the position that the bill, "will result in the importation of far less expensive drugs."

Might the drug companies try to evade the spirit of this legislation? some probably will. Have we anticipated every action they might take? Of course not.

But I am confident that our proposal will work, and that the process has improved it. That is why the pharmaceutical industry is fighting this tooth and nail—they know it will work. They would like nothing more than to see us defeat this bill. That should tell you something about what they think the effect will be of this provision.

Mr. President, I must say—I am disappointed with how partisan this issue has become, and I am disappointed that the White House has moved the goal posts on this issue. In fact, I'd like to quote from the letter that President Clinton sent to Speaker HASTERT and Majority Leader Lott less than 3 weeks ago. In that letter, he said "I support the Medicine Equity and Drug Safety Act of 2000 which the Senate passed" and "I urge you to send me the Senate legislation—with full funding." Mr. President, that is exactly what we are doing, except that the bill we are sending the President is even stronger than the original language.

But I am glad that the President has said he will sign the bill. I think this is because he knows that, at the end of the day, this provision will work, despite all of the political rhetoric.

I urge my colleagues to support this provision and support this Agriculture appropriations conference report.

I also would like to discuss the chart that is behind me that very succinctly asks and answers questions about the differences between the House amendment, the Senate amendment, and the conference agreement.

I think you will find by just looking at the complete list on the conference agreement, the important improvements that were made as it wondered through the normal legislative process which we all have to follow.

I ask unanimous consent a letter from the White House of September 25 be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

THE WHITE HOUSE, Santa Fe, September 25, 2000.

DEAR MR. SPEAKER: (DEAR MR. LEADER:) In your letter, you outlined a number of health care issues that you indicated could be resolved before Congress adjourns. I want to be equally clear about my priorities and hopes

for progress this fall. As the days dwindle in this session of Congress, I am seriously concerned about the lack of movement on some of our most important issues. I am, however, encouraged to learn from your letter that the Republican leadership is now committed to providing Americans with access to prescription drugs available at lower cost from

other countries.

As you know, our people are growing more and more concerned that the pharmaceutical industry often sells the same drugs for a much higher price in the United States than it does in other countries, even when those drugs are manufactured here at home. This forces some of our most vulnerable citizens, including seniors and people with disabilities, to pay the highest prices for prescription drugs in the world. This is simply unacceptable.

That is why I support the "Medicine Equity and Drug Safety Act of 2000," which the Senate passed by an overwhelming vote of 74 to 21. This important legislation would give Americans access to quality medications at the lower prices paid by citizens in other nations. The Senate bill, sponsored by Senators JEFFORDS, WELLSTONE, DORGAN and others. would allow wholesalers and pharmacists to import FDA-approved prescription drugs and would establish a new safety system intended to track these imports and test them for authenticity and degradation. Before this provision could take effect, the Secretary of Health and Human Services would be required to certify that the regulations would. first, pose no risk to the public health; and, second, significantly decrease prices paid by consumers. With these protections in place and the \$23 million necessary to implement them, this legislation would meet the test that we both believe is crucial—preserving the safety of America's drug supply.

Although your letter implies support for legislation similar to the Senate-passed bill, I am concerned by its statement that seniors would "buy lower-priced drugs in countries like Canada" [emphasis added]. Of course, few seniors live near the Canadian or Mexican borders and even fewer can afford to cross the border in search of lower-price drugs. Moreover, policies like the House's Coburn amendment would strip the FDA of all of its ability to monitor safety and prevent seniors from buying counterfeit drugs, putting their health in danger and their finances at risk.

I urge you to send me the Senate legislation—with full funding—to let wholesalers and pharmacists bring affordable prescription drugs to the neighborhoods where our seniors live. Though this initiative does not address seniors' most important need—meaningful insurance to cover the costs of expensive medications—it still has real potential to allow consumers to access prescription drug discounts.

I remain concerned that with less than one week left in this fiscal year, Congress has not passed eleven of thirteen appropriations bills; Congress has not raised the minimum wage; and Congress has not passed a strong, enforceable patients' bill of rights. And, according to your letter, the congressional leadership has given up on passing a meaningful, affordable and optional Medicare prescription-drug benefit.

I am extremely disappointed by your determination that it is impossible to pass a voluntary Medicare prescription-drug benefit this year. I simply disagree. There is indeed time to act, and I urge you to use the final weeks of this Congress to get this important work done. It is the only way we can ensure rapid, substantial and much-needed relief from prescription drug costs for all seniors and people with disabilities, including low-income beneficiaries.

On the issue of the Medicare lock-box, I have endorsed the Vice President's initiative, which has been effectively embodied in Senator Conrad's amendment that passed on the Labor-Health and Human Services appropriations bill. I am therefore encouraged by your commitment to passing this legislation; but we must still make all efforts to ensure that the Medicare payroll taxes in the lockbox are used solely for Medicare.

Similarly, I am pleased to learn of your commitment to pass a greatly-needed package of Medicare and Medicaid health care provider payment and beneficiary refinements. As you know, I proposed such refinements in my budget and in my June Mid-Session Review. This includes payment increases for hospitals, home health agencies, nursing homes and other providers as well as access to Medicaid for legal immigrants, certain uninsured women with breast cancer, and children with disabilities; extended Medicare coverage for people with disabilities; an extension of the Balanced Budget Act's diabetes provisions; and full funding for the Ricky Ray Trust Fund.

Again, I am pleased to learn of your commitment to providing Americans with access to high-quality, lower cost prescription drugs from other nations. There is no reason why we cannot work together to pass and enact such legislation immediately. As we do, we should not give up on passing both a workable, affordable and voluntary Medicare prescription-drug benefit for our nation's seniors and a meaningful patients' bill of rights for all Americans. I will do everything in my power to achieve that end, and I look forward to meeting with you on these issues as soon as possible.

Sincerely.

WILLIAM J. CLINTON.

Mr. JEFFORDS. I ask unanimous consent to have printed a side-by-side comparison, which is the chart I have behind me.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SIDE-BY-SIDE COMPARISON OF PRESCRIPTION DRUG IMPORT PROVISIONS IN AGRICULTURE APPROPRIATIONS BILL

	Coburn and Crowley Amend't (passed 370–12, 363–12 on 1/10/00)	Jeffords Amendment (Supported by President Clinton and passed 74–21 on 7/19/00)	Conference Agreement
Duration	1 year No provision	Permanent	Approx. 7 yrs (5 yrs from implementation). Same as Jeffords Amendment, plus FDA can stop imports of counterfeit products.
drugs to U.S.	Coburn bill: Can. & Mex. and Crowley bill: any country.	FDA's discretion	7 major developed countries, plus European Union & European economic area, plus list is expanded at any time by FDA.
Limit on Contracts that Frustrate Intent	No provision	No provision	Bars contracts or agreements preventing sales or distribution to importers.
Labeling Requirements	No provision	Manufacturer must give information needed to "confirm that the labeling meets the requirements of this Act".	Same as Jeffords amendment, plus FDA has broad power to do whatever is necessary to facilitate imports.
Funding	No provision	No provision	\$23 Million.
Restrict imports of controlled substances	No provision	No provision	Prohibits importation of controlled substances listed on Schedules I, II, III.
Charitable contributions	No provision	No provision	Excludes charitable contributions from importation, eg. AIDS drugs to Africa.
Sanctions	No provision	Withdrawal of product for manufacturer noncompliance Extensive requirements that assure FDA tracking of bad	10 years in jail for CEO, and \$25,000 fine if manufacturer is noncompliant. Same as Jeffords Amendment.

Mr. JEFFORDS. Mr. President, I yield the floor.

Mr. GORTON. Mr. President, as expected, Chairman Cochran and Senator Kohl have once again crafted an excellent Agriculture Appropriations bill that benefits not only the State of Washington, but natural resource dependent communities and rural economies all across the nation.

For my own State of Washington, this equates to more than \$5 million in essential research programs for wheat, apples, asparagus, animal diseases, small fruits, barley and potatoes to name a few. I have long advocated for increased emphasis on agriculture research, noting that projects such as these advance the development of new technology, generate healthy food systems, promote environmentally sound growing practices, and maintain the U.S. dominance in agriculture production.

Also included in the legislation are the indispensable relief funds necessary to ensure the longevity of the once highly profitable and prosperous tree fruit industry in Washington. The \$138 million in direct payments to apple producers will provide necessary short-term relief favored by Washington's orchardists.

The cranberry industry, lesser known to most but still one of the hardest hit in the agriculture economy, will also benefit from \$50 million in relief.

In response to the other natural disasters that have plagued our nation, \$3.4 billion in emergency spending is

included for farmers and rural areas that have already experienced continued low farm commodity prices.

While the core issues in the bill are of great significance, there are two other issues in the conference report I wish to highlight. Both the sanctions relief and drug re-importation provisions deserve the Senate's support.

With respect to sanctions relief, I believe few members of Congress would argue that food and medicine sanctions fail to cripple regimes or handicap the ability of dictators to simply find these goods elsewhere. What sanctions on food and medicine do promote are uncompensated losses to America's farmers and poor health in sanctioned countries.

For more than a year-and-a-half, many members of this body have fought to right this situation and remove these onerous barriers. Obviously our efforts to provide a comprehensive package of sanctions reform has been met with determined resistance.

With that said, however, the compromise my friend and colleague from Washington, Mr. NETHERCUTT, brokered to the best of his ability, without ever losing sight of the common goal of sanctions relief, and to the severe chagrin of several influential members, was agreed to by the Agriculture Appropriations conference committee, of which I was a member.

While some will argue that this compromise is not comprehensive enough and does not perfectly mirror the language of the original Senate bill, this language is unquestionably significant. What the language does include is sanctions relief for exports to Cuba, Iran, Sudan, North Korea, and Libya. If my colleagues believe this major shift in policy does not make a positive statement regarding Congress' intent to provide sanctions reform, I think they are sadly mistaken.

Perhaps even more pivotal, this language prohibits the Administration from imposing any new unilateral food or medicine sanctions without the consent of Congress. What with the Administration considering wheat sanctions on Japan for that country's whaling practices, I hope this change in pol-

icy will be supported by agriculture advocates. This is another significant goal the sanctions coalition has sought to attain.

I choose not to argue with my colleagues over the merits of the Cuba travel or financing restrictions contained in the bill, but instead choose to remind my colleagues that we have accomplished something great here.

While this compromise does not reflect everything we intended when we sought to achieve our goals, it does contain the core principles necessary in order to ensure unilateral sanctions reform. And I remind my colleagues that it is a compromise.

It's not perfect. It's a starting point, a means by which we test the system. If the changes we have incorporated into this bill aren't workable, then we will work to change them.

No one in this body believes agriculture trade will resurrect with each of these countries overnight. Will Iran announce a wheat tender in the next few months? Few years? We cannot tell. Sanctions reform will take work, and it will take time. But we must begin somewhere and we must begin now rather than later.

I fear some of my colleagues have lost sight of the ultimate goal, and I hope they and the Administration would not seek to undermine the language our agriculture community supports and desires.

As a representative for a Northern border state, I have been privy to issues surrounding drug prices. Everyday Americans pay 50 percent, 60 percent, 70 percent or more for prescription drugs than our neighbors in Canada, in Mexico and for that matter most of the rest of the world. Who does this affect most? Those who take the most prescription drugs—typically seniors, and those without any kind of prescription drug coverage from their insurance. But all Americans pay more whether through higher prices at the drugstore counter or higher insurance premiums.

Why does this problem exist? American pharmaceutical companies sell the exact same prescription drugs overseas, drugs developed and manufactured here

in the U.S., for a fraction of the price they demand from American citizens. Other countries have implemented price control policies that successfully tempt manufacturers to discriminate against American consumers with higher drug prices. Our drug companies agree because the costs of manufacturing are nominal, and they can make some profit overseas by simply charging Americans all of the high costs of research and development.

This bill takes a first step towards solving this problem. It allows whole-salers and pharmacists to go to Canada and other countries where prescription drugs are sold at deep discounts and bring the same FDA-approved, FDA-manufactured products back to the U.S. in order to pass the discounts on to American consumers.

It is important to note that safety is a priority in this bill. Only products that have been determined to be safe and effective can be brought into the United Sates. The importer is required to test for authenticity and degradation. And importers can only bring in these products from countries that the Secretary of HHS has determined have an appropriate regulatory infrastructure to ensure the safety of prescription drugs.

This provision should give our American families access to lower cost prescription drugs that are safe and effective.

Is it perfect? Probably not. But, I hope it will work and I hope it results in lower prices for consumers in the U.S. and eventually puts pressure on drug companies to end price discrimination in the U.S. Critics say the bill has loopholes and drug companies will find a way around it. Let me be clear—if they do I will be back to make sure this provision is even stronger. I hope that is not necessary, that drug companies will simply end the current discrimination against Americans by charging fair prices here in the United States.

This is not my favorite idea for dealing with price discrimination. It is a much more complicated solution than I would prefer.

My idea is straightforward and based on a law that has applied to every product sale in the U.S. since 1935—the Robinson-Patman Act. This law simply says that manufacturers can't use price to discriminate among buyers. If that principle is applied to prescription drug sales overseas—drug companies would no longer be allowed to discriminate against their best customers—American families.

But this bill is something that can be done this year to lower prices for American consumers. I believe it represents a genuine step forward to lower prescription drug costs for all Americans.

With all that said, the bill before the Senate not only represents a response to the core needs of agriculture, but signifies a profound shift in sanctions reform, and puts the drug companies on notice. While I have indicated that neither proposal represents perfection, what each does signify is the goal of Congress to address issues vital to those we represent. I sincerely hope my colleagues will work to pass this bill without hesitation.

Mr. JEFFORDS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LOTT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LOTT. Mr. President, we do have a number of items that have been cleared for consideration, including in this package a series of energy bills that Senator DASCHLE and I talked about yesterday on the floor. There are a number of Senators who have been involved in this effort. I thank them all. This is important legislation.

We do have a number of other unanimous consent requests we will need to go through. It will take a few minutes. There are a lot of very important issues here. Most of them have been cleared on both sides. There may be a couple here that there will be objections to, but there is a necessity to make that request.

UNANIMOUS CONSENT REQUEST— H.R. 4292

Mr. LOTT. I ask unanimous consent that the Senate now proceed to the consideration of H.R. 4292, the Born Alive Infant Protection Act of 2000.

Mr. LOTT. I further ask consent that the bill be read a third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD

The PRESIDING OFFICER. Is there objection?

Mr. CONRAD. There are Members on our side who would like to offer amendments, and on their behalf I am constrained to object at this point.

The PRESIDING OFFICER. The objection is heard.

UNANIMOUS CONSENT REQUEST— H.R. 4201

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 779, H.R. 4201, the Noncommercial Broadcasting Freedom of Expression bill, and I further ask consent that the bill be read a third time and passed, the motion to reconsider be laid upon the table, and any statements related to the bill be printed in the RECORD

The PRESIDING OFFICER. Is there objection?

Mr. CONRAD. Again, there are Members on this side who would like to offer amendments to that legislation, and on their behalf I am constrained to object.

The PRESIDING OFFICER. The objection is heard.

Mr. LOTT. On this bill, Mr. President, we will continue working to see if we can come to some sort of agreement on how it might be considered. I have a special interest in this one because a former staff member of mine—now an outstanding Member of the House of Representatives—Congressman CHARLES "CHIP" PICKERING of Laurel, has been working on this and got it passed through the House. I will continue to see if we can find some way to get it passed before we leave.

CALENDAR

Mr. LOTT. Mr. President, with regard to the energy bills and water-related package, I ask unanimous consent that the Senate proceed en bloc to the following bills reported by the Energy Committee: Calendar No. 710, S. 2425; Calendar No. 774, H.R. 2348; Calendar No. 776, H.R. 3468; Calendar No. 849, S. 2594; Calendar No. 853, S. 2951; Calendar No. 856, H.R. 3236; Calendar No. 857, H.R. 3577; Calendar No. 882, S. 1848; Calendar No. 883, S. 2195; Calendar No. 884, S. 2301; Calendar No. 900, S. 2877; Calendar No. 929, S. 3022; Calendar No. 935, S. 1697; and Calendar No. 938, S. 2882

I further ask unanimous consent that the committee amendments be agreed to, the bills be read the third time and passed, any amendments to the title be agreed to as necessary, the motion to reconsider be laid upon the table, and statements relating to any of these measures be printed in the RECORD, and all proceedings occur en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

BEND FEED CANAL PIPELINE PROJECT ACT OF 2000

The Senate proceeded to consider the bill (S. 2425) to authorize the Bureau of Reclamation to participate in the planning, design, and construction of the Bend Feed Canal Pipeline Project, Oregon, and for other purposes, which had been reported from the Committee on Energy and Natural Resources, with an amendment; as follows:

(Omit the part in boldface brackets.) S. 2425

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Bend Feed Canal Pipeline Project Act of 2000".

SEC. 2. FEDERAL PARTICIPATION.

- (a) The Secretary of the Interior, in cooperation with the Tumalo Irrigation District (referred to in this section as the "District"), is authorized to participate in the planning, design, and construction of the Bend Feed Canal Pipeline Project, Oregon.
- (b) The Federal share of the costs of the project shall not exceed 50 per centum of the total, and shall be non-reimbursable. The District shall receive credit from the Secretary toward the District's share of the project for any funds the District has provided toward the design, planning or construction prior to the enactment of this Act.
- (c) Funds received under this Act shall not be considered a supplemental or additional benefit under the Act of June 17, 1902 (82 Stat. 388) and all Acts amendatory thereof or supplementary thereto.
- (d) Title to facilities constructed under this Act will be held by the District.
- (e) Operations and maintenance of the facilities will be the responsibility of the District.
- (f) There are authorized to be appropriated \$2.5 million for the Federal share of the activities authorized under this Act.
- [(g) The Bureau of Reclamation shall not charge the District more than one percent of the project cost for carrying out administrative or oversight activities under this Act.]

The committee amendment was agreed to.

The bill (S. 2425), as amended, was read the third time, and passed, as follows:

S. 2425

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Bend Feed Canal Pipeline Project Act of 2000".

SEC. 2. FEDERAL PARTICIPATION.

- (a) The Secretary of the Interior, in cooperation with the Tumalo Irrigation District (referred to in this section as the "District"), is authorized to participate in the planning, design, and construction of the Bend Feed Canal Pipeline Project, Oregon.
- (b) The Federal share of the costs of the project shall not exceed 50 per centum of the total, and shall be non-reimbursable. The District shall receive credit from the Secretary toward the District's share of the project for any funds the District has provided toward the design, planning or construction prior to the enactment of this Act.
- (c) Funds received under this Act shall not be considered a supplemental or additional benefit under the Act of June 17, 1902 (82 Stat. 388) and all Acts amendatory thereof or supplementary thereto.
- (d) Title to facilities constructed under this Act will be held by the District.
- (e) Operations and maintenance of the facilities will be the responsibility of the District.
- (f) There are authorized to be appropriated \$2,500,000 for the Federal share of the activities authorized under this Act.

COST SHARING FOR THE ENDANGERED FISH RECOVERY IMPLE-MENTATION PROGRAMS FOR THE UPPER COLORADO AND SAN JUAN RIVER BASINS

The bill (H.R. 2348) to authorize the Bureau of Reclamation to provide cost

sharing for endangered fish recovery implementation programs for the Upper Colorado and San Juan River Basins, was considered, ordered to a third reading, read the third time, and passed.

DUSCHENE CITY WATER RIGHTS CONVEYANCE ACT

The bill (H.R. 3468) to direct the Secretary of the Interior to convey certain water rights to Duschene City, Utah, was considered, ordered to a third reading, read the third time, and passed.

MANCOS WATER CONSERVANCY DISTRICT

The Senate proceeded to consider a bill (S. 2594) to authorize the Secretary of the Interior to contract with the Mancos Water Conservancy District to use the Mancos Project facilities for impounding, storage, diverting, and carriage of nonproject water for the purpose of irrigation, domestic, municipal, industrial, and any other beneficial purposes, which had been reported from the Committee on Energy and Natural Resources, with an amendment; as follows:

[Omit the part in bold face brackets.] S. 2594

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. CARRIAGE OF NONPROJECT WATER BY THE MANCOS PROJECT, COLORADO.

(a) SALE OF EXCESS WATER.—

- (1) IN GENERAL.—In carrying out the Act of August 11, 1939 (commonly known as the "Water Conservation and Utilization Act") (16 U.S.C. 590y et seq.), if storage or carrying capacity has been or may be provided in excess of the requirements of the land to be irrigated under the Mancos Project, Colorado (referred to in this Act as the "project"), the Secretary of the Interior may, on such terms as the Secretary determines to be just and equitable, contract with the Mancos Water Conservancy District and any of its member unit contractors for impounding, storage, diverting, or carriage of nonproject water for irrigation, domestic, municipal, industrial, and any other beneficial purposes, to an extent not exceeding the excess capacity.
- (2) INTERFERENCE.—A contract under paragraph (1) shall not impair or otherwise interfere with any authorized purpose of the project.
- (3) Cost considerations.—In fixing the charges under a contract under paragraph (1), the Secretary shall take into consideration—
- (A) the cost of construction and maintenance of the project, by which the nonproject water is to be diverted, impounded, stored, or carried; and
- (B) the canal by which the water is to be carried.
- (4) No ADDITIONAL CHARGES.—The Mancos Water Conservancy District shall not impose a charge for the storage, carriage, or delivery of the nonproject water in excess of the charge paid to the United States, except to such extent as may be reasonably necessary to cover—

- (A) a proportionate share of the project cost: and
- (B) the cost of carriage and delivery of the nonproject water through the facilities of the Mancos Water Conservancy District.
- (b) WATER RIGHTS OF UNITED STATES NOT ENLARGED.—Nothing in this Act enlarges or attempts to enlarge the right of the United States, under existing law, to control any water in any State.
- [(c) FUNDS RECEIVED AVAILABLE FOR OPERATION AND MAINTENANCE.—
- [(1) IN GENERAL.—Any funds received by the United States under a contract under subsection (a) shall be available for expenditure for operation and maintenance of the project without further Act of appropriation.
- [(2) REVENUE.—Any amount of funds received by the United States under a contract under subsection (a) that is in excess of the amount of funds needed for operation and maintenance of the project shall be applied against the repayment contract of the project.]
- The committee amendment was agreed to.

The bill (S. 2594), as amended, was read the third time, and passed, as follows:

S. 2594

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CARRIAGE OF NONPROJECT WATER BY THE MANCOS PROJECT, COLORADO.

- (a) SALE OF EXCESS WATER.—
- (1) IN GENERAL.—In carrying out the Act of August 11, 1939 (commonly known as the "Water Conservation and Utilization Act") (16 U.S.C. 590y et seq.), if storage or carrying capacity has been or may be provided in excess of the requirements of the land to be irrigated under the Mancos Project, Colorado (referred to in this Act as the "project"), the Secretary of the Interior may, on such terms as the Secretary determines to be just and equitable, contract with the Mancos Water Conservancy District and any of its member unit contractors for impounding, storage, diverting, or carriage of nonproject water for irrigation, domestic, municipal, industrial, and any other beneficial purposes, to an extent not exceeding the excess capacity.
- (2) INTERFERENCE.—A contract under paragraph (1) shall not impair or otherwise interfere with any authorized purpose of the project.
- (3) COST CONSIDERATIONS.—In fixing the charges under a contract under paragraph (1), the Secretary shall take into consideration—
- (A) the cost of construction and maintenance of the project, by which the non-project water is to be diverted, impounded, stored, or carried; and
- (B) the canal by which the water is to be carried.
- (4) No additional charges.—The Mancos Water Conservancy District shall not impose a charge for the storage, carriage, or delivery of the nonproject water in excess of the charge paid to the United States, except to such extent as may be reasonably necessary to cover—
- (A) a proportionate share of the project cost; and
- (B) the cost of carriage and delivery of the nonproject water through the facilities of the Mancos Water Conservancy District.
- (b) WATER RIGHTS OF UNITED STATES NOT ENLARGED.—Nothing in this Act enlarges or attempts to enlarge the right of the United

States, under existing law, to control any water in any State.

SALMON CREEK WATERSHED OF THE UPPER COLUMBIA RIVER STUDY

The Senate proceeded to consider the bill (S. 2951) to authorize the Secretary of the Interior to conduct a study to investigate opportunities to better manage the water resources in the Salmon Creek watershed of the upper Columbia River, which had been reported from the Committee on Energy and Natural Resources, with an amendment as follows:

(Omit the part in boldface brackets and insert the part printed in italic.)

S. 2951

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SALMON CREEK WATERSHED, WASH-INGTON, WATER MANAGEMENT STUDY.

- (a) IN GENERAL.—[The Commissioner of Reclamation] The Secretary of the Interior may conduct a study to investigate the opportunities to better manage the water resources in the Salmon Creek Watershed, a tributary to the Upper Columbia River system, Okanagoan County, Washington, so as to restore and enhance fishery resources (especially the endangered Upper Columbia Spring Chinook and Steelhead), while maintaining or improving the availability of water supplies for irrigation practices vital to the economic well-being of the county.
- (b) PURPOSE.—The purpose of the study under subsection (a) shall be to derive the benefits of and further the objectives of the comprehensive, independent study commissioned by the Confederated Tribes of the Colville Reservation and the Okanagoan Irrigation District, which provides a credible basis for pursuing a course of action to simultaneously achieve fish restoration and improved irrigation conservation and efficiency.
- (c) COST SHARE.—The Federal government's cost share for the feasibility study shall not exceed 50 percent.

Amend the title to read as follows: "To authorize the Secretary of the Interior to conduct a study to investigate opportunities to better manage the water resources in the Salmon Creek watershed of the upper Columbia River."

The committee amendment was agreed to.

The bill (S. 2951), as amended, was read the third time, and passed, as follows:

S. 2951

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SALMON CREEK WATERSHED, WASH-INGTON, WATER MANAGEMENT STUDY.

(a) IN GENERAL.—The Secretary of the Interior may conduct a study to investigate the opportunities to better manage the water resources in the Salmon Creek Watershed, a tributary to the Upper Columbia River system, Okanagoan County, Washington, so as to restore and enhance fishery resources (especially the endangered Upper Columbia Spring Chinook and Steelhead),

while maintaining or improving the availability of water supplies for irrigation practices vital to the economic well-being of the county.

(b) PURPOSE.—The purpose of the study under subsection (a) shall be to derive the benefits of and further the objectives of the comprehensive, independent study commissioned by the Confederated Tribes of the Colville Reservation and the Okanagoan Irrigation District, which provides a credible basis for pursuing a course of action to simultaneously achieve fish restoration and improved irrigation conservation and efficiency.

(c) COST SHARE.—The Federal Government's cost share for the feasibility study shall not exceed 50 percent.

WEBER BASIN WATER CONSERVANCY DISTRICT, UTAH CONTRACTS

The bill (H.R. 3236) to authorize the Secretary of the Interior to enter into contracts with the Weber Basin water Conservancy District, Utah, to use Weber Basin Project facilities for impounding, storage, and carriage of nonproject water for domestic, municipal, industrial, and other beneficial purposes, was considered, ordered to a third reading, read the third time, and passed.

INCREASED AUTHORIZATION FOR MINIDOKA PROJECT, IDAHO

The bill (H.R. 3577) to increase the amount authorized to be appropriated for the north side pumping division of the Minidoka reclamation project, Idaho, was considered, ordered to a third reading, read the third time, and passed.

RECLAMATION WASTEWATER AND GROUND WATER STUDY AND FACILITIES AMENDMENTS ACT

The Senate proceeded to consider a bill (S. 1848) to amend the Reclamation Wastewater and Ground water study and Facilities Act to authorize the Secretary of the Interior to participate in the design, planning, and construction of the Denver Water Reuse project, which had been reported from the Committee on Energy and Natural Resources, with an amendment, as follows:

[Strike out all after the enacting clause and insert the part printed in italic.]

SECTION 1. DENVER WATER REUSE PROJECT.

- (a) AUTHORIZATION.—The Secretary of the Interior, in cooperation with the appropriate State and local authorities, may participate in the design, planning, and construction of the Denver Water Reuse Project ("Project") to reclaim and reuse water in the service area of the Denver Water Department of the city and county of Denver. Colorado.
- (b) Cost Share.—The Federal share of the cost of the Project shall not exceed 25 percent of the total cost.
- (c) LIMITATION.—Funds provided by the Secretary shall not be used for the operation and maintenance of the Project.

(d) FUNDING.—Funds appropriated pursuant to section 1615 of the Reclamation Wastewater and Groundwater Study and Facilities Act may be used for the Project.

SEC. 2. RECLAMATION WASTEWATER AND GROUNDWATER STUDY AND FACILITIES ACT.

Design, planning, and construction of the Project authorized by the Act shall be in accordance with, and subject to the limitations contained in, the Reclamation Wastewater and Groundwater Study and Facilities Act (106 Stat. 4663–4669, 43 U.S.C. 390h et seq.), as amended.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 1848), as amended, was read the third time, and passed.

The title was amended so as to read: "A bill to authorize the Secretary of the Interior, pursuant to the provisions of the Reclamation Wastewater and Ground Water Study and Facilities Act to participate in the design, planning, and construction of the Denver Water Reuse project."

TRUCKEE WATERSHED RECLAMATION PROJECT

The Senate proceeded to consider a bill (S. 2195) to authorize the Secretary of the Interior, pursuant to the provisions of the Reclamation Wastewater and Groundwater Study and Facilities Act to participate in the design, planning, and construction of the Truckee watershed reclamation project for the reclamation and reuse of water, which had been reported from the Committee on Energy and Natural Resources, with an amendment, as follows:

[Strike out all after the enacting clause and insert the part printed in italic.]

SECTION 1. TRUCKEE WATERSHED RECLAMATION PROJECT.

- (a) AUTHORIZATION.—The Secretary of the Interior, in cooperation with Washoe County, Nevada, may participate in the design, planning, and construction of, the Truckee watershed reclamation project, consisting of the North Valley Reuse Project and the Spanish Springs Valley Septic Conversion Project ("Project"), to reclaim and reuse wastewater (including degraded ground water) within and without the service area of Washoe County, Nevada.
- (b) Cost Share.—The Federal share of the cost of the Project shall not exceed 25 percent of the total cost.
- (c) LIMITATION.—Funds provided by the Secretary shall not be used for the operation or maintenance of the Project.
- (d) FUNDING.—Funds appropriated pursuant to section 1615 of the Reclamation Wastewater and Groundwater Study and Facilities Act may be used for the Project (106 Stat. 4663–4669, 43 U.S.C. 390h et seq.), as amended.

SEC. 2. RECLAMATION WASTEWATER AND GROUNDWATER STUDY AND FACILITIES ACT

Design, planning, and construction of the Project shall be in accordance with, and subject to the limitations contained in, the Reclamation Wastewater and Groundwater Study and Facilities Act (106 Stat. 4663–4669, 43 U.S.C. 390h et seq.), as amended.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 2195), as amended, was read the third time, and passed.

The title was amended so as to read: "A bill to authorize the Secretary of the Interior, pursuant to the provisions of the Reclamation Wastewater and Ground Water Study and Facilities Act to participate in the design, planning, and construction of the Truckee watershed reclamation project for the reclamation and reuse of water."

RECLAMATION WASTEWATER AND GROUNDWATER STUDY AND FACILITIES ACT AMENDMENTS

The Senate proceeded to consider a bill (S. 2301) to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to participate in the design, planning, and construction of the Lakehaven water reclamation project for the reclamation and reuse of water, which had been reported from the Committee on Energy and Natural Resources, with an amendment, as follows:

[Strike out all after the enacting clause and insert the part printed in italic.]

SECTION 1. LAKEHAVEN WATER RECLAMATION PROJECT.

- (a) AUTHORIZATION.—The Secretary of the Interior, in cooperation with the Lakehaven Utility District, Washington, may participate in the design, planning, and construction of, and land acquisition for, the Lakehaven water reclamation project (''Project''), Washington, to reclaim and reuse wastewater (including degraded groundwater) within and outside the service area of the Lakehaven Utility District.
- (b) COST SHARE.—The Federal share of the cost of the Project shall not exceed 25 percent of the total cost.
- (c) LIMITATION.—Funds provided by the Secretary shall not be used for the operation and maintenance of the Project.
- (d) FUNDING.—Funds appropriated pursuant to section 1615 of the Reclamation Wastewater and Groundwater Study and Facilities Act may be used for the Project (106 Stat. 4663–4669, 43 U.S.C. 380h et seq.), as amended.

SEC. 2. RECLAMATION WASTEWATER AND GROUNDWATER STUDY AND FACILITIES ACT

Design, planning, and construction of the Project shall be in accordance with, and subject to the limitations contained in, the Reclamation Wastewater and Groundwater Study and Facilities Act (106 Stat. 4663–4669, 43 U.S.C. 390h et seq.), as amended.

The committee amendment in the nature of a substitute was agreed to. The bill (S. 2301), as amended, was read the third time, and passed.

The title was amended so as to read: "A bill to authorize the Secretary of the Interior, pursuant to the provisions of the Reclamation Wastewater and Ground Water Study and Facilities Act to participate in the design, planning, and construction of the Lakehaven water reclamation project for the reclamation and reuse of water."

BURNT, MALHEUR, OWYHEE, AND POWDER RIVER BASIN WATER OPTIMIZATION FEASIBILITY STUDY ACT OF 2000

The Senate proceeded to consider a bill (S. 2877) to authorize the Secretary of the Interior to conduct a feasibility study on water optimization in the Burnt River basin, Malheur River basin, Owyhee River basin, and Powder River basin, Oregon, which had been reported from the Committee on Energy and Natural Resources, with an amendment, as follows:

[Omit the part in boldface brackets and insert the part printed in italic.]

S. 2877

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Burnt, Malheur, Owyhee, and Powder River Basin Water Optimization Feasibility Study Act of 2000"

SEC. 2. STUDY.

The Secretary of the Interior may conduct [a feasibility study] feasibility studies on water optimization in the Burnt River basin, Malheur River basin, Owyhee River basin, and Powder River basin, Oregon.

SEC. 3. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this Act.

The committee amendment was agreed to.

The bill (S. 2877), as amended, was read the third time and passed, as follows:

$S.\ 2877$

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Burnt, Malheur, Owyhee, and Powder River Basin Water Optimization Feasibility Study Act of 2000".

SEC. 2. STUDY.

The Secretary of the Interior may conduct feasibility studies on water optimization in the Burnt River basin, Malheur River basin, Owyhee River basin, and Powder River basin, Oregon.

SEC. 3. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this Act.

The title was amended so as to read: "A bill to authorize the Secretary of the Interior to conduct feasibility studies on water optimization in the Burnt River basin, Malheur River basin, Owyhee River basin, and Powder River basin, Oregon."

NAMPA AND MERIDIAN CONVEYANCE ACT

The Senate proceeded to consider a bill (S. 3022) to direct the Secretary of the Interior to convey certain irrigation facilities to the Nampa and Meridian Irrigation District, which had been reported from the Committee on En-

ergy and Natural Resources, with an amendment, as follows:

[Strike out all after the enacting clause and insert the part printed in italic.]

SECTION 1. SHORT TITLE.

This Act may be cited as the "Nampa and Meridian Conveyance Act".

SEC. 2. CONVEYANCE OF FACILITIES.

The Secretary of the Interior (in this Act referred to as the "Secretary") shall, as soon as practicable after the date of enactment of this Act, convey facilities to the Nampa and Meridian Irrigation District (in this Act referred to as the "District") in accordance with all applicable laws and pursuant to the terms of the Memorandum of Agreement (contract No. 1425-99MA102500, dated 7 July 1999) between the Secretary and the District. The conveyance of facilities shall include all right, title, and interest of the United States in and to any portion of the canals, laterals, drains, and any other portion of the water distribution and drainage system that is operated or maintained by the District for delivery of water to and drainage of water from lands within the boundaries of the District. SEC. 3. LIABILITY.

Except as otherwise provided by law, effective on the date of conveyance of facilities under this Act, the United States shall not be liable for damages of any kind arising out of any act, omission, or occurrence based on its prior ownership or operation of the conveyed property.

SEC. 4. EXISTING RIGHTS NOT AFFECTED.

Nothing in this Act affects the rights of any person except as provided in this Act. No water rights shall be transferred, modified, or otherwise affected by the conveyance of facilities and interests to the Nampa and Meridian Irrigation District under this Act. Such conveyance shall not affect or abrogate any provision of any contract executed by the United States or State law regarding any irrigation district's right to use water developed in the facilities conveyed.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 3022), as amended, was read the third time and passed.

RECLAMATION REFORM ACT OF 2000

The Senate proceeded to consider a bill (S. 1697) to authorize the Secretary of the Interior to refund certain collections received pursuant to the Reclamation Reform Act of 1982, which had been reported from the Committee on Energy and Natural Resources, with an amendment, as follows:

[Strike all after the enacting clause and insert the part printed in italic.] **SECTION 1. SHORT TITLE.**

This title may be cited as the "Reclamation Reform Refund Act of 2000".

SEC. 2. REFUND OF CERTAIN AMOUNTS RE-CEIVED UNDER RECLAMATION RE-FORM ACT OF 1982.

(a) REFUND REQUIRED.—Subject to the availability of appropriations, the Secretary of the Interior is authorized and directed to refund fully amounts received by the United States as payments for charges assessed by the Secretary before January 1, 1994, for failure to file or properly file certain certification or reporting forms pursuant to sections 206 and 224(c) of the Reclamation Reform Act of 1982 (43 U.S.C. 390ff, 390ww(c)) prior to the receipt of irrigation water. Such refunds shall be made regardless of whether such payments were required by the

United States, were made pursuant to a compromise or settlement (whether court approved or otherwise), or were otherwise received by the United States. Any refund issued pursuant to this subsection shall include the amount of associated interest assessed by the Secretary and paid to the United States pursuant to section 224(i) of that Act (43 U.S.C. 390ww(i)).

(b) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to carry out this section such sums as necessary.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 1697), as amended, was read the third time and passed.

KLAMATH BASIN WATER SUPPLY ENHANCEMENT ACT OF 2000

Mr. LOTT. I ask unanimous consent the Senate proceed to the immediate consideration of Calendar No. 938, S. 2882

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2882) to authorize the Bureau of Reclamation to conduct certain feasibility studies to augment water supplies for the Klamath Project, Oregon and California, and for other purposes.

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Energy and Natural Resources, with an amendment, as follows:

[Strike out all after the enacting clause and insert the part printed in italic.]

SECTION 1. SHORT TITLE.

This Act may be cited as the "Klamath Basin Water Supply Enhancement Act of 2000".

SEC. 2. AUTHORIZATION TO CONDUCT FEASI-BILITY STUDIES.

In order to help meet the growing water needs in the Klamath River basin, to improve water quality, to facilitate the efforts of the State of Oregon to resolve water rights claims in the Upper Klamath River Basin including facilitation of Klamath tribal water rights claims, and to reduce conflicts over water between the Upper and Lower Klamath Basins, the Secretary of the Interior (hereafter referred to as the "Secretary") is authorized and directed in consultation with affected state, local and tribal interests, stakeholder groups and the interested public, to engage in feasibility studies of the following proposals related to the Upper Klamath Basin and the Klamath Project, a federal reclamation project in Oregon and California:

- (1) Increasing the storage capacity, and/or the yield of the Klamath Project facilities while improving water quality, consistent with the protection of fish and wildlife.
- (2) The potential for development of additional Klamath Basin groundwater supplies to improve water quantity and quality, including the effect of such groundwater development on non-project lands, groundwater and surface water supplies, and fish and wildlife.
- (3) The potential for further innovations in the use of existing water resources, or marketbased approaches, in order to meet growing water needs consistent with state water law.

$SEC.\ 3.\ ADDITIONAL\ STUDIES.$

(a) NON-PROJECT LANDS.—The Secretary may enter into an agreement with the Oregon Department of Water Resources to fund studies relating to the water supply needs of non-project lands in the Upper Klamath Basin.

(b) SURVEYS.—To further the purposes of this Act, the Secretary is authorized to compile information on native fish species in the Upper Klamath River Basin, upstream of Upper Klamath Lake. Wherever possible, the Secretary should use data already developed by Federal agencies and other stakeholders in the Basin.

(c) HYDROLOGIC STUDIES.—The Secretary is directed to complete ongoing hydrologic surveys in the Klamath River Basin currently being conducted by the U.S. Geological Survey.

(d) REPORTING REQUIREMENTS.—The Secretary shall submit the findings of the studies conducted under section 2 and Section 3(a) of this Act to the Congress within 90 days of each study's completion, together with any recommendations for projects.

SEC. 4. LIMITATION.

Activities funded under this Act shall not be considered a supplemental or additional benefit under the Act of June 17, 1902 (82 Stat. 388) and all Acts amendatory thereof or supplementary thereto.

SEC. 5. WATER RIGHTS.

Nothing in this Act shall be construed to—

- (1) create, by implication or otherwise, any reserved water right or other right to the use of water:
- (2) invalidate, preempt, or create any exception to State water law or an interstate compact aoverning water:
- (3) alter the rights of any State to any appropriated share of the waters of any body or surface or groundwater, whether determined by past or future interstate compacts or by past or future legislative or final judicial allocations;
- (4) preempt or modify any State or Federal law or interstate compact dealing with water quality or disposal; or
- (5) confer upon any non-Federal entity the ability to exercise any Federal right to the waters of any stream or to any groundwater resources.

SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There are authorized such sums as necessary to carry out the purposes of this Act. Activities conducted under this Act shall be non-reimbursable and nonreturnable.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 2882), as amended, was read the third time and passed.

UNANIMOUS CONSENT AGREEMENT—S. 623 AND S. 1474

Mr. LOTT. I ask unanimous consent the Senate proceed to the consideration en bloc of Calendar No. 359, S. 623, and Calendar No. 709, S. 1474. I further ask unanimous consent amendment No. 4317 to S. 623 and amendment No. 4318 to S. 1474 be agreed to, the committee amendments be agreed to, the bills be read the third time and passed, with the motion to reconsider laid upon the table, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

DAKOTA WATER RESOURCES ACT OF 1999

The Senate proceeded to consider the bill (S. 623) to amend Public Law 89–108 to increase authorization levels for State and Indian tribal, municipal, rural, and industrial water supplies, to

meet current and future water quantity and quality needs of the Red River Valley, to deauthorize certain project features and irrigation service areas, to enhance natural resources and fish and wildlife habitat, and for other purposes, which had been reported from the Committee on Energy and Natural Resources, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets and the parts of the bill intended to be inserted are shown in italic.)

S. 623

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Dakota Water Resources Act of 1999".

SEC. 2. PURPOSES AND AUTHORIZATION.

- Section 1 of Public Law 89–108 (79 Stat. 433; 100 Stat. 418) is amended—
 - (1) in subsection (a)—
- (A) in paragraph (2), by striking "of" and inserting "within";
- (B) in paragraph (5), by striking "more timely" and inserting "appropriate"; and
- (C) in paragraph (7), by striking "federally-assisted water resource development project providing irrigation for 130,940 acres of land" and inserting "multipurpose federally assisted water resource project providing irrigation, municipal, rural, and industrial water systems, fish, wildlife, and other natural resource conservation and development, recreation, flood control, ground water recharge, and augmented stream flows";
 - (2) in subsection (b)-
- (A) by inserting ", jointly with the State of North Dakota," after "construct";
- (B) by striking "the irrigation of 130,940 acres" and inserting "irrigation";
- (C) by striking "fish and wildlife conservation" and inserting "fish, wildlife, and other natural resource conservation";
- (D) by inserting "augmented stream flows, ground water recharge," after "flood control,"; and
- (E) by inserting "(as modified by the Dakota Water Resources Act of 1999)" before the period at the end:
- (3) in subsection (e), by striking "terminated" and all that follows and inserting "terminated."; and
- (4) by striking subsections (f) and (g) and inserting the following:
 - "(f) Costs.—
- ``(1) ESTIMATE.—The Secretary shall estimate—
- "(A) the actual construction costs of the facilities (including mitigation facilities) in existence as of the date of enactment of the Dakota Water Resources Act of 1999; and
- "(B) the annual operation, maintenance, and replacement costs associated with the used and unused capacity of the features in existence as of that date.
- "(2) REPAYMENT CONTRACT.—An appropriate repayment contract shall be negotiated that provides for the making of a payment for each payment period in an amount that is commensurate with the percentage of the total capacity of the project that is in actual use during the payment period.
- ["(3) OPERATION AND MAINTENANCE COSTS.— The Secretary shall be responsible for the costs of operation and maintenance of the proportionate share attributable to the capacity of the facilities (including mitigation facilities) that remain unused.

- "(3) OPERATION AND MAINTENANCE COSTS.— Except as otherwise provided in this Act or Reclamation, Law—
- "(A) The Secretary shall be responsible for the costs of operation and maintenance of the proportionate share of unit facilities in existence on the date of enactment of the Dakota Water Resources Act of 1999 attributable to the capacity of the facilities (including mitigation facilities) that remain unused;
- "(B) The State of North Dakota shall be responsible for costs of operation and maintenance of the proportionate share of existing unit facilities that are used and shall be responsible for the full costs of operation and maintenance of any facility constructed after the date of enactment of the Dakota Water Resources Act of 1999; and
- "(C) The State of North Dakota shall be responsible for the costs of providing energy to authorized unit facilities.
- "(g) AGREEMENT BETWEEN THE SECRETARY AND THE STATE.—The Secretary shall enter into 1 or more agreements with the State of North Dakota to carry out this Act, including operation and maintenance of the completed unit facilities and the design and construction of authorized new unit facilities by the State.
- "(h) BOUNDARY WATERS TREATY OF 1909.-
- [''(1) DELIVERY OF WATER INTO THE HUDSON BAY BASIN.—Water systems constructed under this Act may deliver Missouri River water into the Hudson Bay basin only after the Secretary, in consultation with the Secretary of State and the Administrator of the Environmental Protection Agency, determines that adequate treatment has been provided to meet the requirements of the Treaty Between the United States and Great Britain relating to Boundary Waters Between the United States and Canada, signed at Washington January 11, 1909 (36 Stat. 2448; TS 548) (commonly known as the 'Boundary Waters Treaty of 1909').]
- "(1) Delivery of Water into the Hudson Bay Basin.—Prior to construction of any water systems authorized under this Act to deliver Missouri River water into the Hudson Bay basin, the Secretary, in consultation with the Secretary of State and the Administrator of the Environmental Protection Agency, must determine that adequate treatment can be provided to meet the requirements of the Treaty between the United States and Great Britain relating to Boundary Waters Between the United States and Canada, signed at Washington, January 11, 1909 (26 Stat. 2448; TS 548) (commonly known as the Boundary Waters Treaty of 1909).
- "(2) Costs.—All costs of construction, operation, maintenance, and replacement of water treatment and related facilities authorized by this Act and attributable to meeting the requirements of the treaty referred to in paragraph (1) shall be non-reimbursable."

SEC. 3. FISH AND WILDLIFE.

- Section 2 of Public Law 89–108 (79 Stat. 433; 100 Stat. 419) is amended—
- (1) by striking subsections (b), (c), and (d) and inserting the following:
- "(b) FISH AND WILDLIFE COSTS.—All fish and wildlife enhancement costs incurred in connection with waterfowl refuges, waterfowl production areas, and wildlife conservation areas proposed for Federal or State administration shall be nonreimbursable.
 - "(c) RECREATION AREAS.—
- "(1) Costs.—If non-Federal public bodies continue to agree to administer land and water areas approved for recreation and agree to bear not less than 50 percent of the separable costs of the unit allocated to recreation and attributable to those areas and all

- the costs of operation, maintenance, and replacement incurred in connection therewith, the remainder of the separable capital costs so allocated and attributed shall be non-reimbursable.
- "(2) APPROVAL.—The recreation areas shall be approved by the Secretary in consultation and coordination with the State of North Dakota.
- "(d) Non-Federal Share.—The non-Federal share of the separable capital costs of the unit allocated to recreation shall be borne by non-Federal interests, using the following methods, as the Secretary may determine to be appropriate:
 - "(1) Services in kind.
- "(2) Payment, or provision of lands, interests therein, or facilities for the unit.
- "(3) Repayment, with interest, within 50 years of first use of unit recreation facilities.";
 - (2) in subsection (e)-
- (A) by redesignating paragraphs (1) and (2) as paragraphs (2) and (3), respectively;
- (B) by inserting "(1)" after "(e)";
- (C) in paragraph (2) (as redesignated by subparagraph (A))—
 - (i) in the first sentence-
- (I) by striking "within ten years after initial unit operation to administer for recreation and fish and wildlife enhancement" and inserting "to administer for recreation"; and
- (II) by striking "which are not included within Federal waterfowl refuges and waterfowl production areas": and
- (ii) in the second sentence, by striking "or fish and wildlife enhancement"; and
- (D) in the first sentence of paragraph (3) (as redesignated by subparagraph (A))—
- (i) by striking ", within ten years after initial operation of the unit,"; and
- (ii) by striking "paragraph (1) of this subsection" and inserting "paragraph (2)";
- (3) in subsection (f), by striking "and fish and wildlife enhancement"; and
- (4) in subsection (j)—
- (A) in paragraph (1), by striking "prior to the completion of construction of Lonetree Dam and Reservoir"; and
- (B) by adding at the end the following:
- '(4) TAAYER RESERVOIR.—Taayer Reservoir is deauthorized as a project feature. The Secretary, acting through the Commissioner of Reclamation, shall acquire (including acquisition through donation or exchange) up to 5,000 acres in the Kraft and Pickell Slough areas and to manage the area as a component of the National Wildlife Refuge System giving consideration to the unique wildlife values of the area. In acquiring the lands which comprise the Kraft and Pickell Slough complex, the Secretary shall acquire wetlands in the immediate vicinity which may be hydrologically related and nearby uplands as may be necessary to provide for proper management of the complex. The Secretary shall provide for appropriate visitor access and control at the refuge.
- "(5) DEAUTHORIZATION OF LONETREE DAM AND RESERVOIR.—The Lonetree Dam and Reservoir is deauthorized, and the Secretary shall designate the lands acquired for the former reservoir site as a wildlife conservation area. The Secretary shall enter into an agreement with the State of North Dakota providing for the operation and maintenance of the wildlife conservation area as an enhancement feature, the costs of which shall be paid by the Secretary. If the features selected under section 8 include a buried pipeline and appurtenances between the McClusky Canal and New Rockford Canal, the use of the wildlife conservation area and

Sheyenne Lake National Wildlife Refuge for such route is hereby authorized.".

SEC. 4. INTEREST CALCULATION.

Section 4 of Public Law 89-108 (100 Stat. 435) is amended by adding at the end the following: "Interest during construction shall be calculated only until such date as the Secretary declares any particular feature to be substantially complete, regardless of whether the feature is placed into service.". SEC. 5. IRRIGATION FACILITIES.

Section 5 of Public Law 89–108 (100 Stat. 419) is amended—

(1) by striking "SEC. 5. (a)(1)" and all that follows through subsection (c) and inserting the following:

"SEC. 5. IRRIGATION FACILITIES.

- "(a) IN GENERAL.—
- "(1) AUTHORIZED DEVELOPMENT.—In addition to the 5,000-acre Oakes Test Area in existence on the date of enactment of the Dakota Water Resources Act of 1999, the Secretary may develop irrigation in—
- "(A) the Turtle Lake service area (13,700 acres):
- "(B) the McClusky Canal service area (10.000 acres); and
- "(C) if the investment costs are fully reimbursed without aid to irrigation from the Pick-Sloan Missouri Basin Program, the New Rockford Canal service area (1,200 acres).
- "(2) DEVELOPMENT NOT AUTHORIZED.—None of the irrigation authorized by this section may be developed in the Hudson Bay/Devils Lake Basin.
- "(3) NO EXCESS DEVELOPMENT.—The Secretary shall not develop irrigation in the service areas described in paragraph (1) in excess of the acreage specified in that paragraph, except that the Secretary shall develop up to 28,000 acres of irrigation in other areas of North Dakota (such as the Elk/Charbonneau, Mon-Dak, Nesson Valley, Horsehead Flats, and Oliver-Mercer areas) that are not located in the Hudson Bay/Devils Lake drainage basin or James River drainage basin.
- "(4) PUMPING POWER.—Irrigation development authorized by this section shall be considered authorized units of the Pick-Sloan Missouri Basin Program and eligible to receive project pumping power.
- [''(5) PRINCIPLE SUPPLY WORKS.—The Secretary shall complete and maintain the principle supply works as identified in the 1984 Garrison Diversion Unit Commission Final Report dated December 20, 1984 as modified by the Dakota Water Resources Act of 1999.":
- "(5) PRINCIPAL SUPPLY WORKS.—The Secretary shall maintain the Snake Creek Pumping Plant, New Rockford Canal, and McClusky Canal features of the principal supply works. As appropriate, the Secretary shall rehabilitate or complete such features consistent with the purposes of this Act. Subject to the provisions of sections (8)(c) and (8)(d)(1) of this Act, the Secretary shall select a preferred alternative to implement the Dakota Water Resources Act of 1999. In making this section, one of the alternatives the Secretary shall consider is whether to connect the principal supply works in existence on the date of enactment.":
- (2) by redesignating subsections (d), (e), and (f) as subsections (b), (c), and (d), respectively;
- (3) in the first sentence of subsection (b) (as redesignated by paragraph (2)), by striking "(a)(1)" and inserting "(a)";
- (4) in the first sentence of subsection (c) (as redesignated by paragraph (2)), by striking "Lucky Mound (7,700 acres), Upper Six Mile Creek (7,500 acres)" and inserting "Lucky Mound (7,700 acres) and Upper Six

Mile Creek (7,500 acres), or such other lands at Fort Berthold of equal acreage as may be selected by the tribe and approved by the Secretary,"; and

(5) by adding at the end the following:

"(e) IRRIGATION REPORT TO CONGRESS.—

- "(1) IN GENERAL.—The Secretary shall investigate and prepare a detailed report on the undesignated 28,000 acres in subsection (a)(3) as to costs and benefits for any irrigation units to be developed under Reclamation law.
- "(2) FINDING.—The report shall include a finding on the *economic*, financial and engineering feasibility of the proposed irrigation unit, but shall be limited to the undesignated 28,000 acres.
- "(3) AUTHORIZATION.—If the Secretary finds that the proposed construction is feasible, such irrigation units are authorized without further Act of Congress.
- "(4) DOCUMENTATION.—No expenditure for the construction of facilities authorized under this section shall be made until after the Secretary, in cooperation with the State of North Dakota, has prepared the appropriate documentation in accordance with section 1 and pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) analyzing the direct and indirect impacts of implementing the report."

SEC. 6. POWER.

Section 6 of Public Law 89–108 (79 Stat. 435; 100 Stat. 421) is amended—

(1) in subsection (b)-

- (A) by striking "Notwithstanding the provisions of" and inserting "Pursuant to the provisions of"; and
- (B) by striking "revenues," and all that follows and inserting "revenues."; and
- (2) by striking subsection (c) and inserting the following:
- "(c) NO INCREASE IN RATES OR AFFECT ON REPAYMENT METHODOLOGY.—In accordance with the last sentence of section 302(a)(3) of the Department of Energy Organization Act (42 U.S.C. 7152(a)(3)), section 1(e) shall not result in any reallocation of project costs and shall not result in increased rates to Pick-Sloan Missouri Basin Program customers. Nothing in the Dakota Water Resources Act of 1999 alters or affects in any way the repayment methodology in effect as of the date of enactment of that Act for other features of the Pick-Sloan Missouri Basin Program."

SEC. 7. MUNICIPAL, RURAL, AND INDUSTRIAL WATER SERVICE.

Section 7 of Public Law 89–108 (100 Stat. 422) is amended—

- (1) in subsection (a)(3)—
- (A) in the second sentence—
- (i) by striking "The non-Federal share" and inserting "Unless otherwise provided in this Act, the non-Federal share";
- (ii) by striking "each water system" and inserting "water systems";
- (iii) by inserting after the second sentence the following: "The State may use the Federal and non-Federal funds to provide grants or loans for municipal, rural, and industrial water systems. The State shall use the proceeds of repaid loans for municipal, rural, and industrial water systems. Proceeds from loan repayments and any interest thereon shall be treated as Federal funds."; and
- (iv) by striking the last sentence and inserting the following: "The Southwest Pipeline Project, the Northwest Area Water Supply Project, the Red River Valley Water Supply Project, and other municipal, industrial, and rural water systems in the State of North Dakota shall be eligible for funding under the terms of this section. Funding pro-

vided under this section for the Red River Valley Water Supply Project shall be in addition to funding for that project under section 10(a)(1)(B). The amount of non-Federal contributions made after May 12, 1986, that exceeds the 25 percent requirement shall be credited to the State for future use in municipal, rural, and industrial projects under this section."; and

(2) by striking subsections (b), (c), and (d) and inserting the following:

"(b) WATER CONSERVATION PROGRAM.—The State of North Dakota may use funds provided under subsections (a) and (b)(1)(A) of section 10 to develop and implement a water conservation program. The Secretary and the State shall jointly establish water conservation goals to meet the purposes of the State program and to improve the availability of water supplies to meet the purposes of this Act. If the State achieves the established water conservation goals, the non-Federal cost share for future projects under subsection (a)(3) shall be reduced to 24.5 percent.

"(c) Nonreimbursability of Costs.—With respect to the Southwest Pipeline Project, the Northwest Area Water Supply Project, the Red River Valley Water Supply Project, and other municipal, industrial, and rural water systems in North Dakota, the costs of the features constructed on the Missouri River by the Secretary of the Army before the date of enactment of the Dakota Water Resources Act of 1999 shall be nonreimbursable.

"(d) INDIAN MUNICIPAL RURAL AND INDUSTRIAL WATER SUPPLY.—The Secretary shall construct, operate, and maintain such municipal, rural, and industrial water systems as the Secretary determines to be necessary to meet the economic, public health, and environmental needs of the Fort Berthold, Standing Rock, Turtle Mountain (including the Trenton Indian Service Area), and Fort Totten Indian Reservations and adjacent areas."

SEC. 8. SPECIFIC FEATURES.

(a) IN GENERAL.—Public Law 89–108 (100 Stat. 423) is amended by striking section 8 and inserting the following:

"SEC. 8. SPECIFIC FEATURES.

- ''(a) Red River Valley Water Supply Project.—
- "(1) IN GENERAL.—The Secretary shall construct a feature or features to deliver Missouri River water to the Sheyenne River water supply and release facility or such other feature or features as are selected under subsection (d).
- "(2) DESIGN AND CONSTRUCTION.—The feature shall be designed and constructed to meet only the water delivery requirements of the irrigation areas, municipal, rural, and industrial water supply needs, ground water recharge, and streamflow augmentation (as described in subsection (b)(2)) authorized by this Act.
- "(3) COMMENCEMENT OF CONSTRUCTION.—The Secretary may not commence construction on the feature until a master repayment contract or water service agreement consistent with this Act between the Secretary and the appropriate non-Federal entity has been executed.
- ''(b) REPORT ON RED RIVER VALLEY WATER NEEDS AND DELIVERY OPTIONS.—
- "(1) IN GENERAL.—Pursuant to section 1(g), not later than 90 days after the date of enactment of the Dakota Water Resources Act of 1999, the Secretary and the State of North Dakota shall jointly submit to Congress a report on the comprehensive water quality and quantity needs of the Red River Valley and

the options for meeting those needs, including the delivery of Missouri River water to the Red River Valley.

- "(2) NEEDS.—The needs addressed in the report shall include such needs as—
- "(A) augmenting streamflows;
- "(B) ground water recharge; and
- "(C) enhancing-
- "(i) municipal, rural, and industrial water supplies;
 - "(ii) water quality;
 - "(iii) aquatic environment; and
 - "(iv) recreation.
- "(3) STUDIES.—Existing and ongoing studies by the Bureau of Reclamation on Red River Water Supply needs and options shall be deemed to meet the requirements of this section.
- "(c) Environmental Impact Statements.—
- "(1) Draft.—
- "(A) DEADLINE.—Pursuant to an agreement between the Secretary and the State of North Dakota as authorized under section 1(g), not later than 1 year after the date of enactment of the Dakota Water Resources Act of 1999, the Secretary and the State of North Dakota shall jointly prepare and complete a draft environmental impact statement concerning all feasible options to meet the comprehensive water quality and quantity needs of the Red River Valley and the options for meeting those needs, including possible alternatives for delivering Missouri River water to the Red River Valley.
- "(B) REPORT ON STATUS.—If the Secretary and State of North Dakota cannot prepare and complete the draft environmental impact statement within 1 year after the date of enactment of the Dakota Water Resources Act of 1999, the Secretary, in consultation and coordination with the State of North Dakota, shall report to Congress on the status of this activity, including an estimate of the date of completion.
 - "(2) FINAL.—
- "(A) DEADLINE.—Not later than 1 year after filing the draft environmental impact statement, a final environmental impact statement shall be prepared and published.
- "(B) REPORT ON STATUS.—If the Secretary and State of North Dakota cannot prepare and complete a final environmental impact statement within 1 year of the completion of the draft environmental impact statement, the Secretary, in consultation and coordination with the State of North Dakota, shall report to Congress on the status of this activity, including an estimate of the date of completion.
 - "(d) Process for Selection.—
- "(1) IN GENERAL.—After reviewing the final report required by subsection (b)(1) and complying with subsection (c), the Secretary, in consultation and coordination with the State of North Dakota in coordination with affected local communities, shall select 1 or more project features described in subsection (a) that will meet the comprehensive water quality and quantity needs of the Red River Valley.
- "(2) AGREEMENTS.—Not later than 180 days after the record of decision has been executed, the Secretary shall enter into a cooperative agreement with the State of North Dakota to construct the feature or features selected.
- "(e) SHEYENNE RIVER WATER SUPPLY AND RELEASE OR ALTERNATE FEATURES.—The Secretary shall construct, operate, and maintain a Sheyenne River water supply and release feature (including a water treatment plant) capable of delivering 100 cubic feet per second of water or any other amount determined in the reports under this section, for

the cities of Fargo and Grand Forks and surrounding communities, or such other feature or features as may be selected under subsection (d).

SEC. 9. OAKES TEST AREA TITLE TRANSFER.

Public Law 89-108 (100 Stat. 423) is amended by striking section 9 and inserting the following:

"SEC. 9. OAKES TEST AREA TITLE TRANSFER.

"(a) IN GENERAL.—Not later than 2 years after execution of a record of decision under section 8(d) on whether to use the New Rockford Canal as a means of delivering water to the Red River Basin as described in section 8. the Secretary shall enter into an agreement with the State of North Dakota, or its designee, to convey title and all or any rights, interests, and obligations of the United States in and to the Oakes Test Area as constructed and operated under Public Law 99-294 (100 Stat. 418) under such terms and conditions as the Secretary believes would fully protect the public interest.

"(b) TERMS AND CONDITIONS.—The agreement shall define the terms and conditions of the transfer of the facilities, lands, mineral estate, easements, rights-of-way and water rights including the avoidance of costs that the Federal Government would otherwise incur in the case of a failure to agree under subsection (d).

"(c) COMPLIANCE.—The action of the Secretary under this section shall comply with all applicable requirements of Federal, State, and local law.

"(d) FAILURE TO AGREE —If an agreement is not reached within the time limit specified in subsection (a), the Secretary shall dispose of the Oakes Test Area facilities under the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 et seq.)."

SEC. 10. AUTHORIZATION OF APPROPRIATIONS.

Section 10 of Public Law 89-108 (100 Stat. 424; 106 Stat. 4669, [4739)] 4739) is amended-

- (1) in subsection (a)-
- (A) by striking "(a)(1) There are authorized" and inserting the following:
 - "(a) WATER DISTRIBUTION FEATURES.-
 - "(1) IN GENERAL.-
- "(A) MAIN STEM SUPPLY WORKS.—There is authorized";
- (B) in paragraph (1)—
- (i) in the first sentence, by striking \$270,395,000 for carrying out the provisions of section 5(a) through 5(c) and section 8(a)(1) of this Act" and inserting "\$164,000,000 to carry out section 5(a)":
- (ii) by inserting after subparagraph (A) (as designated by clause (i)) the following:
- "(B) RED RIVER VALLEY WATER SUPPLY PROJECT.—There is authorized to be appropriated to carry out section 8(a)(1)\$200,000,000."; and
- (iii) by striking "Such sums" and inserting the following:
 - "(C) AVAILABILITY.—Such sums"; and
- (C) in paragraph (2)—
- (i) by striking "(2) There is" and inserting the following:
 - "(2) Indian irrigation.—
 - "(A) IN GENERAL.—There is";
- (ii) by striking "for carrying out section 5(e) of this Act" and inserting "to carry out section 5(c)"; and
- (iii) by striking "Such sums" and inserting the following:
 - "(B) AVAILABILITY.—Such sums";
- (2) in subsection (b)-
- (A) by striking "(b)(1) There is" and inserting the following:
- "(b) MUNICIPAL, RURAL, AND INDUSTRIAL WATER SUPPLY.
 - "(1) Statewide.—

- "(A) INITIAL AMOUNT.—There is";
- (B) in paragraph (1)—
- (i) by inserting before "Such sums" the following:
- "(B) Additional amount.—In addition to the amount under subparagraph (A), there is authorized to be appropriated to carry out section 7(a) [\$300,000,000."] \$200,000,000."; and
- (ii) by striking "Such sums" and inserting the following:
 - "(C) AVAILABILITY .- Such sums"; and
 - (C) in paragraph (2)-
- (i) by striking "(2) There are authorized to be appropriated \$61,000,000" and all that follows through "Act." and inserting the fol-
- "(2) Indian municipal, rural, and indus-TRIAL AND OTHER DELIVERY FEATURES.
- "(A) INITIAL AMOUNT.—There is authorized to be appropriated-
- "(i) to carry out section 8(a)(1), \$40,500,000;
- '(ii) to carry out section 7(d), \$20,500,000."; (ii) by inserting before "Such sums" the following:
 - "(B) Additional amount.—
- "(i) IN GENERAL.—In addition to the amount under subparagraph (A), there is authorized to be appropriated to carry out section 7(d) \$200,000,000.
- (ii) ALLOCATION.—The amount clause (i) shall be allocated as follows:
- "(I) \$30,000,000 to the Fort Totten Indian Reservation.
- "(II) \$70,000,000 to the Fort Berthold Indian Reservation
- "(IV) \$80,000,000 to the Standing Rock Indian Reservation.
- "(V) \$20,000,000 to the Turtle Mountain Indian Reservation."; and
- (ii) by striking "Such sums" and inserting the following:
- "(C) AVAILABILITY.—Such sums";
- (3) in subsection (c)-
- (A) by striking "(c) There is" and inserting the following:
- "(c) RESOURCES TRUST AND OTHER PROVI-SIONS.
- "(1) INITIAL AMOUNT.—There is"; and
- (B) by striking the second and third sentences and inserting the following:
- "(2) Additional amount.—In addition to amount under paragraph (1), there are authorized to be appropriated-
- "(A) \$6,500,000 to carry out recreational projects; and
- "(B) an additional \$25,000,000 to carry out section 11;
- to remain available until expended.
- '(3) RECREATIONAL PROJECTS.—Of the funds authorized under paragraph (2) for recreational projects, up to \$1,500,000 may be used to fund a wetland interpretive center in the State of North Dakota.
 - (4) Operation and maintenance.
- "(A) IN GENERAL.— There are authorized to be appropriated such sums as are necessary for operation and maintenance of the unit (including the mitigation and enhancement features).
- "(B) AUTHORIZATION LIMITS.—Expenditures for operation and maintenance of features substantially completed and features constructed before the date of enactment of the Dakota Water Resources Act of 1999, including funds expended for such purposes since the date of enactment of Public Law 99-294, shall not be counted against the authorization limits in this section.
- "(5) MITIGATION AND ENHANCEMENT LAND.-On or about the date on which the features authorized by section 8(a) are operational, a separate account in the Natural Resources Trust authorized by section 11 shall be estab-

lished for operation and maintenance of the mitigation and enhancement land associated with the unit.": and

(4) by striking subsection (e) and inserting

the following:

INDEXING.—The [\$300,000,000] "(e) \$200,000,000 amount under subsection (b)(1)(B), the \$200,000,000 amount under subsection (a)(1)(B), and the funds authorized under subsection (b)(2) shall be indexed as necessary to allow for ordinary fluctuations of construction costs incurred after the date of enactment of the Dakota Water Resources Act of 1999 as indicated by engineering cost indices applicable for the type of construction involved. All other authorized cost ceilings shall remain unchanged.

I"(f) FOUR BEARS BRIDGE—There is authorized to be appropriated, for demolition of the existing structure and construction of Four Bears Bridge Lake the across Sakakawea within the Fort Berthold Indian Reservation, \$40,000,000.".]

SEC. 11. NATURAL RESOURCES TRUST.

Section 11 of Public Law 89-108 (100 Stat. 424) is amended-

- (1) by striking subsection (a) and inserting the following:
 - '(a) CONTRIBUTION.
 - "(1) INITIAL AUTHORIZATION.—
- "(A) IN GENERAL.—From the sums appropriated under section 10 for the Garrison Diversion Unit, the Secretary shall make an annual Federal contribution to a Natural Resources Trust established by non-Federal interests in accordance with subsection (b) and operated in accordance with subsection (c).
- "(B) AMOUNT.—The total amount of Federal contributions under subparagraph (A) shall not exceed \$12,000,000.
- "(2) Additional authorization.-
- "(A) IN GENERAL.—In addition to the amount authorized in paragraph (1), the Secretary shall make annual Federal contributions to the Natural Resources Trust until the amount authorized by section 10(c)(2)(B) is reached, in the manner stated in subparagraph (B).
- "(B) ANNUAL AMOUNT.-The amount of the contribution under subparagraph (A) for each fiscal year shall be the amount that is equal to 5 percent of the total amount that is appropriated for the fiscal year under subsections (a)(1)(B) and (b)(1)(B) of section 10.
- ["(C) LIMITATION ON AVAILABILITY OF FUNDS.—Of the amount authorized by section 10(c)(2)(B), not more than \$10,000,000 shall be made available until the date on which the features authorized by section 8(a) are operational and meet the objectives of section 8(a), as determined by the Secretary and the State of North Dakota.":1
- (2) in subsection (b), by striking "Wetlands rust" and inserting "Natural Resources Trust" Trust"; and
 - (3) in subsection (c)-
- (A) by striking "Wetland Trust" and in-
- serting "Natural Resources Trust";
 (B) by striking "are met" and inserting "is met":
- (C) in paragraph (1), by inserting ", grassland conservation and riparian areas" after "habitat": and
- (D) in paragraph (2), by adding at the end the following:
- "(C) The power to fund incentives for conservation practices by landowners."

The committee amendments were agreed to.

The amendment (No. 4317) was agreed to, as follows:

On page 10, beginning on line 14, strike the sentence that begins "If the features selected under section 8".

On page 13, line 2, strike the sentence that begins "As appropriate, the Secretary shall rehabilitate or complete".

On page 13, line 5, strike "Sections 8(c) and 8(d)(1)" and insert "section 8".

Beginning on Page 18, strike line 17 and all that follows through Page 23, line 4, and insert the following:

SEC. 8. SPECIFIC FEATURES.

- (a) SYKESTON CANAL.—Sykeston Canal is hereby deauthorized.
- (b) IN GENERAL.—Public Law 89-108 (100 Stat. 423) is amended by striking section 8 and inserting the following:

"SEC. 8. SPECIFIC FEATURES.

- "(a) Red River Valley Water Supply Protect.—
- "(1) IN GENERAL.—Subject to the requirements of this section, the Secretary shall construct a feature or features to provide water to the Sheyenne River water supply and release facility or such other feature or features as are selected under subsection (d).
- "(2) DESIGN AND CONSTRUCTION.—The feature or features shall be designed and constructed to meet only the following water supply requirements as identified in the report prepared pursuant to subsection (b) of this section: municipal, rural, and industrial water supply needs; ground water recharge; and streamflow augmentation.
 - "(3) COMMENCEMENT OF CONSTRUCTION.—
- "(A) If the Secretary selects a project feature under this section that would provide water from the Missouri River or its tributaries to the Sheyenne River water supply and release facility or from the Missouri River or its tributaries to such other conveyance facility as the Secretary selects under this section, no later than 90 days after the completion of the final environmental impact statement, the Secretary shall transmit to Congress a comprehensive report which provides—
- "(i) a detailed description of the proposed project feature;
- "(ii) a summary of major issues addressed in the environmental impact statement;
- "(iii) likely effects, if any, on other States bordering the Missouri River and on the State of Minnesota; and
- "(iv) a description of how the project feature complies with the requirements of section 1(h)(1) of this Act (relating to the Boundary Waters Treaty of 1909).
- '(B) No project feature or features that would provide water from the Missouri River or its tributaries to the Shevenne River water supply and release facility or from the Missouri River or its tributaries to such other conveyance facility as the Secretary selects under this section shall be constructed unless such feature is specifically authorized by an Act of Congress approved subsequent to the Secretary's transmittal of the report required in paragraph (A). If, after complying with subsections (b) through (d) of this section, the Secretary selects a feature or features using only in-basin sources of water to meet the water needs of the Red River Valley identified in subsection (b), such features are authorized without further Act of Congress. The Act of Congress referred to in this subparagraph must be an authorization bill, and shall not be a bill making appropriations.
- "(C) The Secretary may not commence construction on the feature until a master repayment contract or water service agreement consistent with this Act between the Secretary and the appropriate non-Federal entity has been executed."
- (b) REPORT ON RED RIVER VALLEY WATER NEEDS AND OPTIONS.—

- (1) IN GENERAL.—The Secretary of the Interior shall conduct a comprehensive study of the water quality and quantity needs of the Red River Valley in North Dakota and possible options for meeting those needs.
- (2) NEEDS.—The needs addressed in the report shall include such needs as—
- (A) municipal, rural, and industrial water supplies;
 - (B) water quality;
 - (C) aquatic environment;
- (D) recreation; and
- (E) water conservation measures.
- (3) Process.—In conducting the study, the Secretary through an open and public process shall solicit input from gubernatorial designees from states that may be affected by possible options to meet such needs as well as designees from other federal agencies with relevant expertise. For any option that includes an out-of-basin solution, the Secretary shall consider the effect of the option on other states that may be affected by such option, as well as other appropriate considerations. Upon completion, a draft of the study shall be provided by the Secretary to such states and federal agencies. Such states and agencies shall be given not less than 120 days to review and comment on the study method, findings and conclusions leading to any alternative that may have an impact on such states or on resources subject to such federal agencies' jurisdiction. The Secretary shall receive and take into consideration any such comments and produce a final report and transmit the final report to Congress.
- (4) LIMITATION.—No design or construction of any feature or features that facilitate an out-of-basin transfer from the Missouri River drainage basin shall be authorized under the provisions of this subsection.
- (c) ENVIRONMENTAL IMPACT STATEMENT—
- (1) IN GENERAL.—Nothing in this section shall be construed to supersede any requirements under the National Environmental Policy Act or the Administrative Procedures Act.
 - (2) Draft.—
- (A) DEADLINE.—Pursuant to an agreement between the Secretary and State of North Dakota as authorized under section 1(g), not later than 1 year after the date of enactment of the Dakota Water Resources Act of 2000, the Secretary and the State of North Dakota shall jointly prepare and complete a draft environmental impact statement concerning all feasible options to meet the comprehensive water quality and quantity needs of the Red River Valley and the options for meeting those needs, including the delivery of Missouri River water to the Red River Valley.
- (B) REPORT ON STATUS.—If the Secretary and State of North Dakota cannot prepare and complete the draft environmental impact statement within 1 year after the date of enactment of the Dakota Water Resources Act of 2000, the Secretary, in consultation and coordination with the State of North Dakota, shall report to Congress on the status of this activity, including an estimate of the date of completion.
- (3) FINAL.—
- (A) DEADLINE.—Not later than 1 year after filing the draft environmental impact statement, a final environmental impact statement shall be prepared and published.
- (B) REPORT ON STATUS.—If the Secretary and State of North Dakota cannot prepare and complete a final environmental impact statement within 1 year of the completion of the draft environmental impact statement, the Secretary, in consultation and coordination with the State of North Dakota, shall

report to Congress on the status of this activity, including an estimate of the date of completion

- (d) PROCESS FOR SELECTION.—
- (1) IN GENERAL.—After reviewing the final report required by subsection (b)(1) and complying with subsection (c), the Secretary, in consultation and coordination with the State of North Dakota in coordination with affected local communities, shall select 1 or more project features described in subsection (a) that will meet the comprehensive water quality and quantity needs of the Red River Valley. The Secretary's selection of an alternative shall be subject to judicial review.

(2) AGREEMENTS —If the Secretary selects an option under subparagraph (1) that uses only in-basin sources of water, not later than 180 days after the record of decision has been executed, the Secretary shall enter into a cooperative agreement with the State of North Dakota to construct the feature or features selected. If the Secretary selects an option under subparagraph (1) that would require a further act of Congress under the provisions of subsection (a), not later than 180 days after the date of enactment of legislation required under subsection (a) the Secretary shall enter into a cooperative agreement with the State of North Dakota to construct the feature or features authorized by that legislation.

- (e) SHEYENNE RIVER WATER SUPPLY AND RELEASE OR ALTERNATE FEATURES.—The Secretary shall construct, operate, and maintain a Sheyenne River water supply and release feature (including a water treatment plant) capable of delivering 100 cubic feet per second of water or any other amount determined in the reports under this section, for the cities of Fargo and Grand Forks and surrounding communities, or such other feature or features as may be selected under subsection (d).
- (f) DEVILS LAKE.—No funds authorized under this Act may be used to carry out the portion of the feasibility study of the Devils Lake basin, North Dakota, authorized under the Energy and Water Development Appropriations Act of 1993 (Public Law 102–377), that addresses the needs of the area for stabilized lake levels through inlet controls, or to otherwise study any facility or carry out any activity that would permit the transfer of water from the Missouri River drainage basin into Devils Lake, North Dakota.

- Page 29, line 25, strike "1999" and insert "2000".
- Mr. DORGAN. Mr. President, I am pleased that today the Senate has passed S. 623, the Dakota Water Resources Act. My colleague from North Dakota, Senator Kent Conrad, and I

have worked on this legislation for quite some time. We have worked closely with others who have an interest in this bill and passage of S. 623 today is a result of tireless negotiation between our delegation and the downstream states, especially Missouri and Minnesota. The compromise that the Senate adopted today strikes an important balance between meeting the water needs of North Dakota and protecting the needs of other states.

This bill is essential to meeting the water needs of North Dakota. The bill, as amended, will provide authorization for the development of municipal, rural, and industrial water projects across the State of North Dakota. The bill would also help to meet the water needs of the four Indian Reservations in the state.

The Dakota Water Resources Act authorizes \$631.5 million. This includes a \$200 million authorization for municipal, rural and industrial water development and another \$200 million authorization to meet the critical water needs of the four Indian reservations in the state. The Red River Valley water supply needs will also receive a \$200 millions authorization. The bill includes \$25 million for a natural resources trust and \$6.5 million for recreation projects in North Dakota. Mr. President, the Dakota Water Resources Act represents a responsible way for the federal government to fulfill their role in the state. It also represents a serious compromise on the part of North Dakota, while still meeting our highest priority water supply needs.

The bill clearly lays out the process for meeting the water needs for the Red River Valley in eastern North Dakota. First, the Secretary of the Interior will identify these water needs and evaluate options for meeting them. The Department must submit a report on the needs and suggest possible solutions to the Congress. The Secretary is also required to complete an environmental impact statement, EIS, on the Red River Valley project and select the best option.

In the event that the Secretary of the Interior determines that the best option includes a transfer of Missouri River water to meet the Red River Valley needs, then a further act of Congress authorizing that option must occur before construction of that feature or features could begin. This is a key provision that will allow all of our colleagues downstream to have input on such a proposal. However, if an inbasin source of water is chosen, then no further action is needed from Congress.

This is a good bill that reflects hard work and compromise of many stake-holders all along the Missouri River. I am pleased that we were able to develop a win-win solution, that allows us to move forward in meeting the needs of North Dakotans while pro-

tecting the interests of those who are downstream. I am confident that this bill can be signed into law this year, and look forward to working with our friends in the other body to pass this bill and send it to the President for his signature.

• Mr. WELLSTONE. Mr. President, I rise to speak about S. 623, the Dakota Water Resources Act of 2000, as amended by this critical amendment currently pending before the Senate.

Over the last two years, I have worked to preserve and protect Minnesota's precious water rights and resources, in consultation with a number of my Republican and Democratic colleagues, and to ensure that the concerns expressed about the original bill by those in my state were taken into account as this legislation was developed. While it does not resolve the roughest underlying issues—indeed it does not even attempt to resolve them-I believe this amendment takes into account those concerns, and I appreciate the willingness of my distinguished colleagues from North Dakota to accommodate their neighbors to the east.

It is clear this legislation, as amended by Senators BOND, CONRAD, and DOR-GAN, is a very different bill than the one which was originally introduced. While I, along with the State of Minnesota, had serious reservations about the original version, in the past year my office has conducted extensive consultations and discussions with Minnesota Department of Natural Resources water officials, who have indicated that the amended version of this legislation—at least the sections which apply to Minnesota interests—is a reasonable measure which meets their concerns. I agree that the key elements of this legislation, in which I have been most interested, will now simply provide for a comprehensive and unbiased review of the water quality and quantity needs of the Red River Valley, and of the environmental implications of any proposed water transfers-either within the basin or on an inter-basin basis—and thus I have not objected, as I did to earlier requests, to bringing it to the Senate floor for consideration. There are other parts of the bill, as amended, which primarily affect existing or planned facilities in North Dakota, which have not raised concerns in my state.

The amended bill does not pose the same concerns about biota transfer, inter-basin transfer, and water quality that I, and the State of Minnesota, had raised in forceful objection to the original legislation. In fact, it explicitly requires prior Congressional action and approval before any inter-basin transfer can be made. Under the bill, only after careful, reasoned study by the Secretary of the Interior—including extensive consultation with all of the interested stakeholders on the

water quality and quantity needs of the Red River Valley, the various portions for meeting those needs, and the environmental implications of any further steps to address them—would Congress even consider an inter-basin transfer of water, which I and others would continue to oppose. Let me restate that, because it's important: this legislation would preclude any transfer of water from the Missouri River or its tributaries to the Red River Valley, unless specifically authorized by a future Act of Congress, thus allowing concerns of biota transfer, inter-basin transfers and water quality to be discussed and fairly resolved by all the parties involved beforehand.

As many of my colleagues know, I have long opposed the original version of this legislation. I would continue to oppose any attempts to transfer water into the basin without adequate safeguards-if such safeguards can be devised, which is not at all clear. Many of my original concerns, and those of the state of Minnesota, including especially the Department of Natural Resources, remain about the detrimental environmental effects and potential adverse precedents of an inter-basin transfer. Even so, I recognize the real needs of our neighbors in North Dakota to resolve their continuing water problems, and I believe that the study provided for in this bill may help to further that effort. I believe this legislation represents a reasonable effort to move the process forward, while protecting the rights and resources of those in my state and elsewhere in the Upper Midwest. I commend my colleagues for their hard work and determination over these many years.

The bill (S. 623), as amended, was read the third time and passed, as follows:

S. 623

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Dakota Water Resources Act of 2000".

SEC. 2. PURPOSES AND AUTHORIZATION.

Section 1 of Public Law 89–108 (79 Stat. 433; 100 Stat. 418) is amended—

- 00 Stat. 418) is amended— (1) in subsection (a)—
- (A) in paragraph (2), by striking "of" and inserting "within";
- (B) in paragraph (5), by striking "more timely" and inserting "appropriate"; and
- (C) in paragraph (7), by striking "federally-assisted water resource development project providing irrigation for 130,940 acres of land" and inserting "multipurpose federally assisted water resource project providing irrigation, municipal, rural, and industrial water systems, fish, wildlife, and other natural resource conservation and development, recreation, flood control, ground water recharge, and augmented stream flows";
- (2) in subsection (b)—
- (A) by inserting ", jointly with the State of North Dakota," after "construct";
- (B) by striking "the irrigation of 130,940 acres" and inserting "irrigation":

- (C) by striking "fish and wildlife conservation" and inserting "fish, wildlife, and other natural resource conservation":
- (D) by inserting "augmented stream flows, ground water recharge," after "flood control,"; and
- (E) by inserting "(as modified by the Dakota Water Resources Act of 2000)" before the period at the end:
- (3) in subsection (e), by striking "terminated" and all that follows and inserting "terminated.": and
- (4) by striking subsections (f) and (g) and inserting the following:
 - "(f) Costs.-
- "(1) ESTIMATE.—The Secretary shall estimate—
- "(A) the actual construction costs of the facilities (including mitigation facilities) in existence as of the date of enactment of the Dakota Water Resources Act of 2000; and
- "(B) the annual operation, maintenance, and replacement costs associated with the used and unused capacity of the features in existence as of that date.
- "(2) REPAYMENT CONTRACT.—An appropriate repayment contract shall be negotiated that provides for the making of a payment for each payment period in an amount that is commensurate with the percentage of the total capacity of the project that is in actual use during the payment period.
- "(3) OPERATION AND MAINTENANCE COSTS.— Except as otherwise provided in this Act or Reclamation Law—
- "(A) The Secretary shall be responsible for the costs of operation and maintenance of the proportionate share of unit facilities in existence on the date of enactment of the Dakota Water Resources Act of 2000 attributable to the capacity of the facilities (including mitigation facilities) that remain number of the control of the facilities of the control of th
- "(B) The State of North Dakota shall be responsible for costs of operation and maintenance of the proportionate share of existing unit facilities that are used and shall be responsible for the full costs of operation and maintenance of any facility constructed after the date of enactment of the Dakota Water Resources Act of 2000; and
- "(C) The State of North Dakota shall be responsible for the costs of providing energy to authorized unit facilities.
- "(g) AGREEMENT BETWEEN THE SECRETARY AND THE STATE.—The Secretary shall enter into 1 or more agreements with the State of North Dakota to carry out this Act, including operation and maintenance of the completed unit facilities and the design and construction of authorized new unit facilities by the State.
 - "(h) Boundary Waters Treaty of 1909.—
- "(1) Delivery of Water into the Hudson Bay Basin.—Prior to construction of any water systems authorized under this Act to deliver Missouri River water into the Hudson Bay basin, the Secretary, in consultation with the Secretary of State and the Administrator of the Environmental Protection Agency, must determine that adequate treatment can be provided to meet the requirements of the Treaty between the United States and Great Britain relating to Boundary Waters Between the United States and Canada, signed at Washington, January 11, 1909 (26 Stat. 2448; TS 548) (commonly known as the Boundary Waters Treaty of 1909).
- "(2) Costs.—All costs of construction, operation, maintenance, and replacement of water treatment and related facilities authorized by this Act and attributable to meeting the requirements of the treaty referred to in paragraph (1) shall be non-reimbursable."

SEC. 3. FISH AND WILDLIFE.

Section 2 of Public Law 89–108 (79 Stat. 433; 100 Stat. 419) is amended—

- (1) by striking subsections (b), (c), and (d) and inserting the following:
- "(b) FISH AND WILDLIFE COSTS.—All fish and wildlife enhancement costs incurred in connection with waterfowl refuges, waterfowl production areas, and wildlife conservation areas proposed for Federal or State administration shall be nonreimbursable.
 - "(c) RECREATION AREAS.—
- "(1) Costs.—If non-Federal public bodies continue to agree to administer land and water areas approved for recreation and agree to bear not less than 50 percent of the separable costs of the unit allocated to recreation and attributable to those areas and all the costs of operation, maintenance, and replacement incurred in connection therewith, the remainder of the separable capital costs so allocated and attributed shall be non-reimbursable.
- "(2) APPROVAL.—The recreation areas shall be approved by the Secretary in consultation and coordination with the State of North Dakota.
- "(d) Non-Federal Share.—The non-Federal share of the separable capital costs of the unit allocated to recreation shall be borne by non-Federal interests, using the following methods, as the Secretary may determine to be appropriate:
- "(1) Services in kind.
- "(2) Payment, or provision of lands, interests therein, or facilities for the unit.
- "(3) Repayment, with interest, within 50 years of first use of unit recreation facilities.":
- (2) in subsection (e)—
- (A) by redesignating paragraphs (1) and (2) as paragraphs (2) and (3), respectively;
- (B) by inserting "(1)" after "(e)";
- (C) in paragraph (2) (as redesignated by subparagraph (A))—
 - (i) in the first sentence—
- (I) by striking "within ten years after initial unit operation to administer for recreation and fish and wildlife enhancement" and inserting "to administer for recreation"; and
- (II) by striking "which are not included within Federal waterfowl refuges and waterfowl production areas"; and
- (ii) in the second sentence, by striking "or fish and wildlife enhancement"; and
- (D) in the first sentence of paragraph (3) (as redesignated by subparagraph (A))—
- (i) by striking ", within ten years after initial operation of the unit,"; and
 (ii) by striking "paragraph (1) of this sub-
- section" and inserting "paragraph (2)";
 (3) in subsection (f), by striking "and fish
- (3) in subsection (f), by striking "and fish and wildlife enhancement"; and
- (4) in subsection (j)—
- (A) in paragraph (1), by striking "prior to the completion of construction of Lonetree Dam and Reservoir"; and
 - (B) by adding at the end the following:
- "(4) Taayer Reservoir.—Taayer Reservoir is deauthorized as a project feature. The Secretary, acting through the Commissioner of Reclamation, shall acquire (including acquisition through donation or exchange) up to 5,000 acres in the Kraft and Pickell Slough areas and to manage the area as a component of the National Wildlife Refuge System giving consideration to the unique wildlife values of the area. In acquiring the lands which comprise the Kraft and Pickell Slough complex, the Secretary shall acquire wetlands in the immediate vicinity which may be hydrologically related and nearby uplands as may be necessary to provide for proper

- management of the complex. The Secretary shall provide for appropriate visitor access and control at the refuge.
- "(5) DEAUTHORIZATION OF LONETREE DAM AND RESERVOIR.—The Lonetree Dam and Reservoir is deauthorized, and the Secretary shall designate the lands acquired for the former reservoir site as a wildlife conservation area. The Secretary shall enter into an agreement with the State of North Dakota providing for the operation and maintenance of the wildlife conservation area as an enhancement feature, the costs of which shall be paid by the Secretary."

SEC. 4. INTEREST CALCULATION.

Section 4 of Public Law 89-108 (100 Stat. 435) is amended by adding at the end the following: "Interest during construction shall be calculated only until such date as the Secretary declares any particular feature to be substantially complete, regardless of whether the feature is placed into service.".

SEC. 5. IRRIGATION FACILITIES.

Section 5 of Public Law 89–108 (100 Stat. 419) is amended—

(1) by striking "Sec. 5. (a)(1)" and all that follows through subsection (c) and inserting the following:

"SEC. 5. IRRIGATION FACILITIES.

- "(a) IN GENERAL.—
- "(1) AUTHORIZED DEVELOPMENT.—In addition to the 5,000-acre Oakes Test Area in existence on the date of enactment of the Dakota Water Resources Act of 2000, the Secretary may develop irrigation in—
- "(A) the Turtle Lake service area (13,700 acres);
- "(B) the McClusky Canal service area (10,000 acres); and
- "(C) if the investment costs are fully reimbursed without aid to irrigation from the Pick-Sloan Missouri Basin Program, the New Rockford Canal service area (1,200 acres).
- "(2) DEVELOPMENT NOT AUTHORIZED.—None of the irrigation authorized by this section may be developed in the Hudson Bay/Devils Lake Basin.
- "(3) NO EXCESS DEVELOPMENT.—The Secretary shall not develop irrigation in the service areas described in paragraph (1) in excess of the acreage specified in that paragraph, except that the Secretary shall develop up to 28,000 acres of irrigation in other areas of North Dakota (such as the Elk/Charbonneau, Mon-Dak, Nesson Valley, Horsehead Flats, and Oliver-Mercer areas) that are not located in the Hudson Bay/Devils Lake drainage basin or James River drainage basin.
- "(4) PUMPING POWER.—Irrigation development authorized by this section shall be considered authorized units of the Pick-Sloan Missouri Basin Program and eligible to receive project pumping power.
- "(5) PRINCIPAL SUPPLY WORKS.—The Secretary shall maintain the Snake Creek Pumping Plant, New Rockford Canal, and McClusky Canal features of the principal supply works. Subject to the provisions of section (8) of this Act, the Secretary shall select a preferred alternative to implement the Dakota Water Resources Act of 2000. In making this section, one of the alternatives the Secretary shall consider is whether to connect the principal supply works in existence on the date of enactment.";
- (2) by redesignating subsections (d), (e), and (f) as subsections (b), (c), and (d), respectively:
- (3) in the first sentence of subsection (b) (as redesignated by paragraph (2)), by striking "(a)(1)" and inserting "(a)";

- (4) in the first sentence of subsection (c) (as redesignated by paragraph (2)), by striking "Lucky Mound (7,700 acres), Upper Six Mile Creek (7,500 acres)" and inserting "Lucky Mound (7,700 acres) and Upper Six Mile Creek (7,500 acres), or such other lands at Fort Berthold of equal acreage as may be selected by the tribe and approved by the Secretary,"; and
- (5) by adding at the end the following:
- "(e) IRRIGATION REPORT TO CONGRESS .-
- "(1) IN GENERAL.—The Secretary shall investigate and prepare a detailed report on the undesignated 28,000 acres in subsection (a)(3) as to costs and benefits for any irrigation units to be developed under Reclamation law.
- "(2) FINDING.—The report shall include a finding on the economic, financial and engineering feasibility of the proposed irrigation unit, but shall be limited to the undesignated 28,000 acres.
- "(3) AUTHORIZATION.—If the Secretary finds that the proposed construction is feasible, such irrigation units are authorized without further Act of Congress.
- "(4) DOCUMENTATION.—No expenditure for the construction of facilities authorized under this section shall be made until after the Secretary, in cooperation with the State of North Dakota, has prepared the appropriate documentation in accordance with section 1 and pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) analyzing the direct and indirect impacts of implementing the report."

SEC. 6. POWER.

- Section 6 of Public Law 89–108 (79 Stat. 435; 100 Stat. 421) is amended—
 - (1) in subsection (b)-
- (A) by striking "Notwithstanding the provisions of" and inserting "Pursuant to the provisions of"; and
- (B) by striking "revenues," and all that follows and inserting "revenues."; and
- (2) by striking subsection (c) and inserting the following:
- "(c) NO INCREASE IN RATES OR AFFECT ON REPAYMENT METHODOLOGY.—In accordance with the last sentence of section 302(a)(3) of the Department of Energy Organization Act (42 U.S.C. 7152(a)(3)), section 1(e) shall not result in any reallocation of project costs and shall not result in increased rates to Pick-Sloan Missouri Basin Program customers. Nothing in the Dakota Water Resources Act of 2000 alters or affects in any way the repayment methodology in effect as of the date of the Pick-Sloan Missouri Basin Program.".

SEC. 7. MUNICIPAL, RURAL, AND INDUSTRIAL WATER SERVICE.

- Section 7 of Public Law 89-108 (100 Stat. 422) is amended—
 - (1) in subsection (a)(3)—
 - (A) in the second sentence-
- (i) by striking "The non-Federal share" and inserting "Unless otherwise provided in this Act, the non-Federal share":
- (ii) by striking "each water system" and inserting "water systems";
- (iii) by inserting after the second sentence the following: "The State may use the Federal and non-Federal funds to provide grants or loans for municipal, rural, and industrial water systems. The State shall use the proceeds of repaid loans for municipal, rural, and industrial water systems. Proceeds from loan repayments and any interest thereon shall be treated as Federal funds."; and
- (iv) by striking the last sentence and inserting the following: "The Southwest Pipeline Project, the Northwest Area Water Supply Project, the Red River Valley Water Sup-

ply Project, and other municipal, industrial, and rural water systems in the State of North Dakota shall be eligible for funding under the terms of this section. Funding provided under this section for the Red River Valley Water Supply Project shall be in addition to funding for that project under section 10(a)(1)(B). The amount of non-Federal contributions made after May 12, 1986, that exceeds the 25 percent requirement shall be credited to the State for future use in municipal, rural, and industrial projects under this section."; and

- (2) by striking subsections (b), (c), and (d) and inserting the following:
- "(b) WATER CONSERVATION PROGRAM.—The State of North Dakota may use funds provided under subsections (a) and (b)(1)(A) of section 10 to develop and implement a water conservation program. The Secretary and the State shall jointly establish water conservation goals to meet the purposes of the State program and to improve the availability of water supplies to meet the purposes of this Act. If the State achieves the established water conservation goals, the non-Federal cost share for future projects under subsection (a)(3) shall be reduced to 24.5 percent.
- "(c) Nonreimbursability of Costs.—With respect to the Southwest Pipeline Project, the Northwest Area Water Supply Project, the Red River Valley Water Supply Project, and other municipal, industrial, and rural water systems in North Dakota, the costs of the features constructed on the Missouri River by the Secretary of the Army before the date of enactment of the Dakota Water Resources Act of 2000 shall be nonreimbursable.
- "(d) Indian Municipal Rural and Industrial Water Supply.—The Secretary shall construct, operate, and maintain such municipal, rural, and industrial water systems as the Secretary determines to be necessary to meet the economic, public health, and environmental needs of the Fort Berthold, Standing Rock, Turtle Mountain (including the Trenton Indian Service Area), and Fort Totten Indian Reservations and adjacent areas."

SEC. 8. SPECIFIC FEATURES.

- (a) SYKESTON CANAL.—Sykeston Canal is hereby deauthorized.
- (b) In General.—Public Law 89-108 (100 Stat. 423) is amended by striking section 8 and inserting the following:

"SEC. 8. SPECIFIC FEATURES.

- "(a) RED RIVER VALLEY WATER SUPPLY PROJECT.—
- "(1) IN GENERAL.—Subject to the requirements of this section, the Secretary shall construct a feature or features to provide water to the Sheyenne River water supply and release facility or such other feature or features as are selected under subsection (d).
- "(2) DESIGN AND CONSTRUCTION.—The feature or features shall be designed and constructed to meet only the following water supply requirements as identified in the report prepared pursuant to subsection (b) of this section: Municipal, rural, and industrial water supply needs; ground water recharge; and streamflow augmentation.
- "(3) COMMENCEMENT OF CONSTRUCTION.—(A) If the Secretary selects a project feature under this section that would provide water from the Missouri River or its tributaries to the Sheyenne River water supply and release facility or from the Missouri River or its tributaries to such other conveyance facility as the Secretary selects under this section, no later than 90 days after the completion of the final environmental impact statement.

- the Secretary shall transmit to Congress a comprehensive report which provides—
- "(i) a detailed description of the proposed project feature;
- "(ii) a summary of major issues addressed in the environmental impact statement;
- "(iii) likely effects, if any, on other States bordering the Missouri River and on the State of Minnesota; and
- "(iv) a description of how the project feature complies with the requirements of section 1(h)(1) of this Act (relating to the Boundary Waters Treaty of 1909).
- "(B) No project feature or features that would provide water from the Missouri River or its tributaries to the Sheyenne River water supply and release facility or from the Missouri River or its tributaries to such other conveyance facility as the Secretary selects under this section shall be constructed unless such feature is specifically authorized by an Act of Congress approved subsequent to the Secretary's transmittal of the report required in subparagraph (A). If, after complying with subsections (b) through (d) of this section, the Secretary selects a feature or features using only in-basin sources of water to meet the water needs of the Red River Valley identified in subsection (b), such features are authorized without further Act of Congress. The Act of Congress referred to in this subparagraph must be an authorization bill, and shall not be a bill making appropriations.
- "(C) The Secretary may not commence construction on the feature until a master repayment contract or water service agreement consistent with this Act between the Secretary and the appropriate non-Federal entity has been executed.
- ''(b) REPORT ON RED RIVER VALLEY WATER NEEDS AND OPTIONS.—
- "(1) IN GENERAL.—The Secretary of the Interior shall conduct a comprehensive study of the water quality and quantity needs of the Red River Valley in North Dakota and possible options for meeting those needs.
- $\lq\lq(2)$ NEEDS.—The needs addressed in the report shall include such needs as—
- "(A) municipal, rural, and industrial water supplies;
 - "(B) water quality;
 - ``(C) aquatic environment;
 - "(D) recreation; and
 - ``(E) water conservation measures.
- "(3) PROCESS.—In conducting the study, the Secretary through an open and public process shall solicit input from gubernatorial designees from states that may be affected by possible options to meet such needs as well as designees from other federal agencies with relevant expertise. For any option that includes an out-of-basin solution. the Secretary shall consider the effect of the option on other states that may be affected by such option, as well as other appropriate considerations. Upon completion, a draft of the study shall be provided by the Secretary to such states and federal agencies. Such states and agencies shall be given not less than 120 days to review and comment on the study method, findings and conclusions leading to any alternative that may have an impact on such states or on resources subject to such federal agencies' jurisdiction. The Secretary shall receive and take into consideration any such comments and produce a final report and transmit the final report to Congress.
- "(4) LIMITATION.—No design or construction of any feature or features that facilitate an out-of-basin transfer from the Missouri River drainage basin shall be authorized under the provisions of this subsection.

"(c) Environmental Impact Statement.—
"(1) In General.—Nothing in this section shall be construed to supersede any requirements under the National Environmental Policy Act or the Administrative Procedures Act.

"(2) Draft.-

"(A) DEADLINE.—Pursuant to an agreement between the Secretary and State of North Dakota as authorized under section 1(g), not later than 1 year after the date of enactment of the Dakota Water Resources Act of 2000, the Secretary and the State of North Dakota shall jointly prepare and complete a draft environmental impact statement concerning all feasible options to meet the comprehensive water quality and quantity needs of the Red River Valley and the options for meeting those needs, including the delivery of Missouri River water to the Red River Valley.

"(B) REPORT ON STATUS.—If the Secretary and State of North Dakota cannot prepare and complete the draft environmental impact statement within 1 year after the date of enactment of the Dakota Water Resources Act of 2000, the Secretary, in consultation and coordination with the State of North Dakota, shall report to Congress on the status of this activity, including an estimate of the date of completion.

"(3) FINAL.—

"(A) DEADLINE.—Not later than 1 year after filing the draft environmental impact statement, a final environmental impact statement shall be prepared and published.

"(B) REPORT ON STATUS.—If the Secretary and State of North Dakota cannot prepare and complete a final environmental impact statement within 1 year of the completion of the draft environmental impact statement, the Secretary, in consultation and coordination with the State of North Dakota, shall report to Congress on the status of this activity, including an estimate of the date of completion.

"(d) PROCESS FOR SELECTION.—

"(1) IN GENERAL.—After reviewing the final report required by subsection (b)(1) and complying with subsection (c), the Secretary, in consultation and coordination with the State of North Dakota in coordination with affected local communities, shall select 1 or more project features described in subsection (a) that will meet the comprehensive water quality and quantity needs of the Red River Valley. The Secretary's selection of an alternative shall be subject to judicial review.

"(2) AGREEMENTS.—If the Secretary selects an option under paragraph (1) that uses only in-basin sources of water, not later than 180 days after the record of decision has been executed, the Secretary shall enter into a cooperative agreement with the State of North Dakota to construct the feature or features selected. If the Secretary selects an option under paragraph (1) that would require a further act of Congress under the provisions of subsection (a), not later than 180 days after the date of enactment of legislation required under subsection (a) the Secretary shall enter into a cooperative agreement with the State of North Dakota to construct the feature or features authorized by that legislation.

"(e) SHEYENNE RIVER WATER SUPPLY AND RELEASE OR ALTERNATE FEATURES.—The Secretary shall construct, operate, and maintain a Sheyenne River water supply and release feature (including a water treatment plant) capable of delivering 100 cubic feet per second of water or any other amount determined in the reports under this section, for the cities of Fargo and Grand Forks and sur-

rounding communities, or such other feature or features as may be selected under subsection (d).

"(f) DEVILS LAKE.—No funds authorized under this Act may be used to carry out the portion of the feasibility study of the Devils Lake basin, North Dakota, authorized under the Energy and Water Development Appropriations Act of 1993 (Public Law 102–377), that addresses the needs of the area for stabilized lake levels through inlet controls, or to otherwise study any facility or carry out any activity that would permit the transfer of water from the Missouri River drainage basin into Devils Lake, North Dakota."

SEC. 9. OAKES TEST AREA TITLE TRANSFER.

Public Law 89-108 (100 Stat. 423) is amended by striking section 9 and inserting the following:

"SEC. 9. OAKES TEST AREA TITLE TRANSFER.

"(a) In General.—Not later than 2 years after execution of a record of decision under section 8(d) on whether to use the New Rockford Canal as a means of delivering water to the Red River Basin as described in section 8, the Secretary shall enter into an agreement with the State of North Dakota, or its designee, to convey title and all or any rights, interests, and obligations of the United States in and to the Oakes Test Area as constructed and operated under Public Law 99–294 (100 Stat. 418) under such terms and conditions as the Secretary believes would fully protect the public interest.

"(b) TERMS AND CONDITIONS.—The agreement shall define the terms and conditions of the transfer of the facilities, lands, mineral estate, easements, rights-of-way and water rights including the avoidance of costs that the Federal Government would otherwise incur in the case of a failure to agree under subsection (d).

"(c) COMPLIANCE.—The action of the Secretary under this section shall comply with all applicable requirements of Federal, State, and local law.

"(d) FAILURE TO AGREE.—If an agreement is not reached within the time limit specified in subsection (a), the Secretary shall dispose of the Oakes Test Area facilities under the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 et seq.)."

SEC. 10. AUTHORIZATION OF APPROPRIATIONS.

Section 10 of Public Law 89–108 (100 Stat. 424; 106 Stat. 4669, 4739) is amended—

(1) in subsection (a)—

(A) by striking ''(a)(1) There are authorized' and inserting the following:

"(a) WATER DISTRIBUTION FEATURES.—

"(1) IN GENERAL.—

"(A) MAIN STEM SUPPLY WORKS.—There is authorized";

(B) in paragraph (1)—

(i) in the first sentence, by striking "\$270,395,000 for carrying out the provisions of section 5(a) through 5(c) and section 8(a)(1) of this Act" and inserting "\$164,000,000 to carry out section 5(a)":

(ii) by inserting after subparagraph (A) (as designated by clause (i)) the following:

"(B) RED RIVER VALLEY WATER SUPPLY PROJECT.—There is authorized to be appropriated to carry out section 8(a)(1) \$200,000,000."; and

(iii) by striking "Such sums" and inserting the following:

(C) in paragraph (2)—

(i) by striking "(2) There is" and inserting the following:

"(2) Indian irrigation.—

"(A) IN GENERAL.—There is":

(ii) by striking "for carrying out section 5(e) of this Act" and inserting "to carry out section 5(e)"; and

(iii) by striking "Such sums" and inserting the following:

"(B) AVAILABILITY.—Such sums";

(2) in subsection (b)—

(A) by striking "(b)(1) There is" and inserting the following:

"(b) Municipal, Rural, and Industrial Water Supply.—

"(1) STATEWIDE.—

"(A) INITIAL AMOUNT.—There is";

(B) in paragraph (1)—

(i) by inserting before "Such sums" the following:

"(B) ADDITIONAL AMOUNT.—In addition to the amount under subparagraph (A), there is authorized to be appropriated to carry out section 7(a) \$200,000,000."; and

(ii) by striking "Such sums" and inserting the following:

"(C) AVAILABILITY.-Such sums"; and

(C) in paragraph (2)—

(i) by striking "(2) There are authorized to be appropriated \$61,000,000" and all that follows through "Act." and inserting the following:

"(2) INDIAN MUNICIPAL, RURAL, AND INDUSTRIAL AND OTHER DELIVERY FEATURES.—

"(A) INITIAL AMOUNT.—There is authorized to be appropriated—

"(i) to carry out section 8(a)(1), \$40,500,000; and

"(ii) to carry out section 7(d), \$20,500,000."; (ii) by inserting before "Such sums" the following:

"(B) ADDITIONAL AMOUNT.—

"(i) IN GENERAL.—In addition to the amount under subparagraph (A), there is authorized to be appropriated to carry out section 7(d) \$200,000,000.

"(ii) ALLOCATION.—The amount under clause (i) shall be allocated as follows:

 $\lq\lq(I)$ \$30,000,000 to the Fort Totten Indian Reservation.

''(II) \$70,000,000 to the Fort Berthold Indian Reservation. ''(IV) \$80,000,000 to the Standing Rock In-

dian Reservation.
"(V) \$20,000,000 to the Turtle Mountain In-

dian Reservation."; and
(ii) by striking "Such sums" and inserting

the following:

"(C) AVAILABILITY.—Such sums";

(3) in subsection (c)—

(A) by striking "(c) There is" and inserting the following:

"(c) RESOURCES TRUST AND OTHER PROVISIONS.—

"(1) INITIAL AMOUNT.—There is"; and

(B) by striking the second and third sentences and inserting the following:

"(2) ADDITIONAL AMOUNT.—In addition to amount under paragraph (1), there are authorized to be appropriated—

((A) \$6,500,000 to carry out recreational projects; and

"(B) an additional \$25,000,000 to carry out section 11;

to remain available until expended

"(3) RECREATIONAL PROJECTS.—Of the funds authorized under paragraph (2) for recreational projects, up to \$1,500,000 may be used to fund a wetland interpretive center in the State of North Dakota.

"(4) OPERATION AND MAINTENANCE.—

"(A) IN GENERAL.— There are authorized to be appropriated such sums as are necessary for operation and maintenance of the unit (including the mitigation and enhancement features).

"(B) AUTHORIZATION LIMITS.—Expenditures for operation and maintenance of features

substantially completed and features constructed before the date of enactment of the Dakota Water Resources Act of 2000, including funds expended for such purposes since the date of enactment of Public Law 99-294, shall not be counted against the authorization limits in this section.

- "(5) MITIGATION AND ENHANCEMENT LAND.— On or about the date on which the features authorized by section 8(a) are operational, a separate account in the Natural Resources Trust authorized by section 11 shall be established for operation and maintenance of the mitigation and enhancement land associated with the unit."; and
- (4) by striking subsection (e) and inserting the following:
- "(e) INDEXING.—The \$200,000,000 amount under subsection (b)(1)(B), the \$200,000,000 amount under subsection (a)(1)(B), and the funds authorized under subsection (b)(2) shall be indexed as necessary to allow for ordinary fluctuations of construction costs incurred after the date of enactment of the Dakota Water Resources Act of 2000 as indicated by engineering cost indices applicable for the type of construction involved. All other authorized cost ceilings shall remain unchanged.".

SEC. 11. NATURAL RESOURCES TRUST.

Section 11 of Public Law 89-108 (100 Stat. 424) is amended-

- (1) by striking subsection (a) and inserting the following:
 - "(a) CONTRIBUTION.—
 - "(1) INITIAL AUTHORIZATION.-
- "(A) IN GENERAL.-From the sums appropriated under section 10 for the Garrison Diversion Unit, the Secretary shall make an annual Federal contribution to a Natural Resources Trust established by non-Federal interests in accordance with subsection (b) and operated in accordance with subsection (c).
- "(B) AMOUNT.—The total amount of Federal contributions under subparagraph (A) shall not exceed \$12,000,000.
 - (2) Additional authorization.
- "(A) IN GENERAL.—In addition to the amount authorized in paragraph (1), the Secretary shall make annual Federal contributions to the Natural Resources Trust until the amount authorized by section 10(c)(2)(B)is reached, in the manner stated in subparagraph (B).
- "(B) ANNUAL AMOUNT.—The amount of the contribution under subparagraph (A) for each fiscal year shall be the amount that is equal to 5 percent of the total amount that is appropriated for the fiscal year under subsections (a)(1)(B) and (b)(1)(B) of section 10.".
- (2) in subsection (b), by striking "Wetlands Trust" and inserting "Natural Resources Trust"; and
- (3) in subsection (c)—
 (A) by striking "Wetland Trust" and inserting "Natural Resources Trust";
- (B) by striking "are met" and inserting "is
- (C) in paragraph (1), by inserting ", grassland conservation and riparian areas" after 'habitat'': and
- (D) in paragraph (2), by adding at the end the following:
- "(C) The power to fund incentives for conservation practices by landowners."

PALMETTO BEND CONVEYANCE

The Senate proceeded to consider the bill (S. 1474) providing for conveyance of the Palmetto Bend project to the State of Texas, which had been re-

ported from the Committee on Energy and Natural Resources, with an amendment. as follows:

(Strike out all after the enacting clause and insert the part printed in italic.)

SECTION 1. SHORT TITLE.

This Act may be cited as the "Palmetto Bend Conveyance Act"

SEC. 2. DEFINITIONS.

- In this Act:
- (1) PROJECT.—the term "Project" means the Palmetto Bend Reclamation Project in the State of Texas authorized under Public Law 90-562 (82 Stat. 999).
- (2) SECRETARY.—The term "Secretary" means the Secretary of the Interior.
- (3) STATE.—The term "State" means the State of Texas, acting through the Texas Water Development Board or the Lavaca-Navidad River Authority or both.

SEC. 3. CONVEYANCE.

- (a) IN GENERAL.—The Secretary shall, as soon as practicable after the date of enactment of this Act and in accordance with all applicable law, and subject to the conditions set forth in sections 4 and 5, convey to the State all right, title and interest (excluding the mineral estate) in and to the Project held by the United States.
- (b) REPORT.—If the conveyance under Section 3 has not been completed within 1 year and 180 days after the date of enactment of this Act, the Secretary shall submit to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report that describes-
 - (1) the status of the conveyance;
- (2) any obstacles to completion of the conveyance; and
- (3) the anticipated date for completion of the conveyance.

SEC. 4. PAYMENT.

- (a) IN GENERAL.—As a condition of the conveyance, the State shall pay the Secretary the adjusted net present value of current repayment obligations on the Project, calculated 30 days prior to closing using a discount rate equal to the average interest rate on 30-year U.S. Treasury notes during the proceeding calendar month, which following application of the State's August 1, 1999 payment, is currently calculated to be \$45,082,675 using a discount rate of 6.070%. The State shall also pay interest on the adjusted net present value of current repayment obligations from the date of State's most recent annual payment until closing at the interest rate for constant maturity U.S. Treasury notes of an equivalent term.
- (b) OBLIGATION EXTINGUISHED.—Upon payment by the State under subsection (a), the obligation of the State and the Bureau of Reclamation under the Bureau of Reclamation Contract No. 14-06-500-1880, as amended shall be extinguished. After completion of conveyance provided for in Section 3, the State shall assume full responsibility for all aspects of operation, maintenance and replacement of the Project.
- (c) ADDITIONAL COSTS.—The State shall bear the cost of all boundary surveys, title searches, appraisals, and other transaction costs for the
- (d) RECLAMATION FUND.—All funds paid by the State to the Secretary under this section shall be credited to the Reclamation Fund in the Treasury of the United States.

SEC. 5. FUTURE MANAGEMENT.

(a) IN GENERAL.—As a condition of the conveyance under section 3, the State shall agree that the lands, water, and facilities of the Project shall continue to be managed and operated for the purposes for which the Project was originally authorized; that is, to provide a dependable municipal and industrial water supply, to conserve and develop fish and wildlife resources, and to enhance recreational opportunities. In future management of the Project, the State shall, consistent with other project purposes and the provision of dependable municipal and industrial water supply:

(1) provide full public access to the Project's lands subject to reasonable restrictions for purposes of Project security, public safety, and nat-

ural resource protection;

(2) not sell or otherwise dispose of the lands conveyed under Section 3:

(3) prohibit private or exclusive uses of lands conveyed under Section 3;

(4) maintain and manage the Project's fish and wildlife resource and habitat for the benefit and enhancement of those resources;

(5) maintain and manage the Project's existing recreational facilities and assets, including open space, for the benefit of the general public;

(6) not charge the public recreational use fees

- that are more than is customary and reasonable. (b) Fish, Wildlife, and Recreation Man-AGEMENT.—As a condition of conveyance under Section 3, management decisions and actions affecting the public aspects of the Project (namely, fish, wildlife, and recreation resources) shall be conducted according to a management agreement between all recipients of title to the Project and the Texas Parks and Wildlife Department and shall extend for the useful life of the Project that has been approved by the Sec-
- (c) EXISTING OBLIGATIONS.—The United States shall assign to the State and the State shall accept all surface use obligations of the United States associated with the Project existing on the date of the conveyance including contracts, easements, and any permits or license agreements.

SEC. 6. MANAGEMENT OF MINERAL ESTATE.

All mineral interests in the Project retained by the United States shall be managed consistent with Federal Law and in a manner that will not interfere with the purposes for which the Project was authorized.

SEC. 7. LIABILITY.

- (a) IN GENERAL.-Effective on the date of conveyance of the Project, the United States shall be liable for damages of any kind arising out of any act, omission, or occurrence relating to the Project, except for damages caused by acts of negligence committed prior to the date of conveyance by
 - (1) the United States; or
- (2) an employee, agent, or contractor of the United States.
- (b) NO INCREASE IN LIABILITY.—Nothing in this Act increases the liability of the United States beyond that provided for in the Federal Tort Claims Act, (28 U.S.C. 2671 et seq.).

SEC. 8. FUTURE BENEFITS.

- (a) DEAUTHORIZATION.—Effective on the date of conveyance of the Project, the Project conveyed under this Act shall be deauthorized.
- (b) NO RECLAMATION BENEFITS.—After authorization of the Project under subsection (a), the State shall not be entitled to receive any benefits for the Project under Federal reclamation law (the Act of June 17, 1902 (32 Stat. 388, chapter 1093), and Acts supplemental to and amendatory of that Act (43 U.S.C. 371 et seq.).

The amendment (No. 4318) was agreed to, as follows:

In the Committee amendment:

In section 4(a), after "August 1, 1999 payment," strike "is currently" and insert was, as of October, 1999,"

In section 5(b), strike "and shall extend for the useful life of the Project that has been approved by the Secretary." and insert "that has been approved by the Secretary and shall extend for the useful life of the Project.".

The committee amendment in the nature of a substitute, as amended, was agreed to.

The bill (S. 1474), as amended, was read the third time, and passed, as follows:

S. 1474

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Palmetto Bend Conveyance Act".

SEC. 2. DEFINITIONS.

In this Act:

- (1) PROJECT.—the term "Project" means the Palmetto Bend Reclamation Project in the State of Texas authorized under Public Law 90-562 (82 Stat. 999).
- (2) SECRETARY.—The term "Secretary" means the Secretary of the Interior.
- (3) STATE.—The term "State" means the State of Texas, acting through the Texas Water Development Board or the Lavaca-Navidad River Authority or both.

SEC. 3. CONVEYANCE.

- (a) IN GENERAL.—The Secretary shall, as soon as practicable after the date of enactment of this Act and in accordance with all applicable law, and subject to the conditions set forth in sections 4 and 5, convey to the State all right, title and interest (excluding the mineral estate) in and to the Project held by the United States.
- (b) REPORT.—If the conveyance under Section 3 has not been completed within 1 year and 180 days after the date of enactment of this Act, the Secretary shall submit to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report that describes-
 - (1) the status of the conveyance;
- (2) any obstacles to completion of the convevance: and
- (3) the anticipated date for completion of the conveyance.

SEC. 4. PAYMENT.

- (a) IN GENERAL.—As a condition of the conveyance, the State shall pay the Secretary the adjusted net present value of current repayment obligations on the Project, calculated 30 days prior to closing using a discount rate equal to the average interest rate on 30-year United States Treasury notes during the proceeding calendar month, which following application of the State's August 1, 1999 payment, was, as of October 1999, calculated to be \$45,082,675 using a discount rate of 6.070 percent. The State shall also pay interest on the adjusted net present value of current repayment obligations from the date of the State's most recent annual payment until closing at the interest rate for constant maturity United States Treasury notes of an equivalent term.
- (b) OBLIGATION EXTINGUISHED.—Upon payment by the State under subsection (a), the obligation of the State and the Bureau of Reclamation under the Bureau of Reclamation Contract No. 14-06-500-1880, as amended shall be extinguished. After completion of conveyance provided for in Section 3, the State shall assume full responsibility for all aspects of operation, maintenance and replacement of the Project.
- (c) ADDITIONAL COSTS.—The State shall bear the cost of all boundary surveys, title searches, appraisals, and other transaction costs for the conveyance.
- (d) RECLAMATION FUND.—All funds paid by the State to the Secretary under this section

the Treasury of the United States.

SEC. 5. FUTURE MANAGEMENT.

- (a) IN GENERAL.—As a condition of the conveyance under section 3, the State shall agree that the lands, water, and facilities of the Project shall continue to be managed and operated for the purposes for which the Project was originally authorized; that is, to provide a dependable municipal and industrial water supply, to conserve and develop fish and wildlife resources, and to enhance recreational opportunities. In future management of the Project, the State shall, consistent with other project purposes and the provision of dependable municipal and industrial water supply:
- (1) provide full public access to the Project's lands, subject to reasonable restrictions for purposes of Project security, public safety, and natural resource protection;
- (2) not sell or otherwise dispose of the lands conveyed under Section 3;
- (3) prohibit private or exclusive uses of lands conveyed under Section 3;
- (4) maintain and manage the Project's fish and wildlife resource and habitat for the benefit and enhancement of those resources;
- (5) maintain and manage the Project's existing recreational facilities and assets, including open space, for the benefit of the general public;
- (6) not charge the public recreational use fees that are more than is customary and reasonable.
- (b) FISH, WILDLIFE, AND RECREATION MAN-AGEMENT.—As a condition of conveyance under Section 3, management decisions and actions affecting the public aspects of the Project (namely, fish, wildlife, and recreation resources) shall be conducted according to a management agreement between all recipients of title to the Project and the Texas Parks and Wildlife Department that has been approved by the Secretary and shall extend for the useful life of the Project.
- (c) Existing Obligations.—The United States shall assign to the State and the State shall accept all surface use obligations of the United States associated with the Project existing on the date of the conveyance including contracts, easements, and any permits or license agreements.

SEC. 6. MANAGEMENT OF MINERAL ESTATE.

All mineral interests in the Project retained by the United States shall be managed consistent with Federal Law and in a manner that will not interfere with the purposes for which the Project was authorized.

SEC. 7. LIABILITY.

- (a) IN GENERAL.—Effective on the date of conveyance of the Project, the United States shall be liable for damages of any kind arising out of any act, omission, or occurrence relating to the Project, except for damages caused by acts of negligence committed prior to the date of conveyance by-
 - (1) the United States; or
- (2) an employee, agent, or contractor of the United States.
- (b) NO INCREASE IN LIABILITY.—Nothing in this Act increases the liability of the United States beyond that provided for in the Federal Tort Claims Act, (28 U.S.C. 2671 et seq.).

SEC. 8. FUTURE BENEFITS.

- (a) DEAUTHORIZATION.—Effective on the date of conveyance of the Project, the Project conveyed under this Act shall be deauthorized.
- (b) NO RECLAMATION BENEFITS.—After deauthorization of the Project under subsection (a), the State shall not be entitled to receive any benefits for the Project under

shall be credited to the Reclamation Fund in Federal reclamation law (the Act of June 17, 1902 (32 Stat. 388, chapter 1093), and Acts supplemental to and amendatory of that Act (43 U.S.C. 371 et seq.).

EDUCATION LAND GRANT ACT

Mr. LOTT. Mr. President. I ask that the Chair lay before the Senate a message from the House of Representatives on the bill (S. 624).

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 624) entitled "An Act to authorize construction of the Fort Peck Reservation Rural Water System in the State of Montana, and for other purposes", do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Fort Peck Reservation Rural Water System Act of 2000".

SEC. 2. PURPOSES.

The purposes of this Act are—

- (1) to ensure a safe and adequate municipal. rural, and industrial water supply for the residents of the Fort Peck Indian Reservation in the State of Montana; and
- (2) to assist the citizens of Roosevelt. Sheridan, Daniels, and Valley Counties in the State, outside the Fort Peck Indian Reservation, in developing safe and adequate municipal, rural, and industrial water supplies.

SEC. 3. DEFINITIONS.

In this Act:

- (1) Assiniboine and Sioux Rural Water Sys-TEM.—The term "Assiniboine and Sioux Rural Water System" means the rural water system within the Fort Peck Indian Reservation authorized by section 4.
- (2) Dry prairie rural water system.—The term "Dry Prairie Rural Water System" means the rural water system authorized by section 5 in the Roosevelt, Sheridan, Daniels, and Valley Counties of the State.
- (3) FORT PECK RESERVATION RURAL WATER SYSTEM.—The term "Fort Peck Reservation Rural Water System" means the Assiniboine and Sioux Rural Water System and the Dry Prairie Rural Water System.
- (4) FORT PECK TRIBES.—The term "Fort Peck Tribes" means the Assiniboine and Sioux Indian Tribes within the Fort Peck Indian Reservation.
- (5) PICK-SLOAN.—The term "Pick-Sloan" means the Pick-Sloan Missouri River Basin Program (authorized by section 9 of the Act entitled "An Act authorizing the construction of certain public works on rivers and harbors for flood control, and for other purposes", approved December 22, 1944 (commonly known as the "Flood Control Act of 1944") (58 Stat. 891)).
- (6) SECRETARY.—The term "Secretary" means the Secretary of the Interior.
- (7) STATE.—The term "State" means the State of Montana.

SEC. 4. ASSINIBOINE AND SIOUX RURAL WATER SYSTEM.

- AUTHORIZATION.—The Secretary shall plan, design, construct, operate, maintain, and replace a municipal, rural, and industrial water system, to be known as the "Assiniboine and Sioux Rural Water System", as generally described in the report required by subsection (g)(2).
- (b) COMPONENTS.—The Assiniboine and Sioux Rural Water System shall consist of-
- (1) pumping and treatment facilities located along the Missouri River within the boundaries of the Fort Peck Indian Reservation;

- (2) pipelines extending from the water treatment plant throughout the Fort Peck Indian Reservation:
- (3) distribution and treatment facilities to serve the needs of the Fort Peck Indian Reservation, including—
- (A) public water systems in existence on the date of the enactment of this Act that may be purchased, improved, and repaired in accordance with the cooperative agreement entered into under subsection (c); and
- (B) water systems owned by individual tribal members and other residents of the Fort Peck Indian Reservation;
 - (4) appurtenant buildings and access roads;
- (5) all property and property rights necessary for the facilities described in this subsection;
- (6) electrical power transmission and distribution facilities necessary for services to Fort Peck Reservation Rural Water System facilities; and
- (7) such other pipelines, pumping plants, and facilities as the Secretary determines to be appropriate to meet the water supply, economic, public health, and environmental needs of the Fort Peck Indian Reservation, including water storage tanks, water lines, and other facilities for the Fort Peck Tribes and the villages, towns, and municipalities in the Fort Peck Indian Reservation.
 - (c) Cooperative Agreement.—
- (1) In GENERAL.—The Secretary shall enter into a cooperative agreement with the Fort Peck Tribal Executive Board for planning, designing, constructing, operating, maintaining, and replacing the Assiniboine and Sioux Rural Water System.
- (2) MANDATORY PROVISIONS.—The cooperative agreement under paragraph (1) shall specify, in a manner that is acceptable to the Secretary and the Fort Peck Tribal Executive Board—
- (A) the responsibilities of each party to the agreement for—
- (i) needs assessment, feasibility, and environmental studies;
 - (ii) engineering and design;
 - (iii) construction;
- (iv) water conservation measures; and
- (v) administration of contracts relating to performance of the activities described in clauses (i) through (iv);
- (B) the procedures and requirements for approval and acceptance of the design and construction and for carrying out other activities described in subparagraph (A); and
- (C) the rights, responsibilities, and liabilities of each party to the agreement.
- (3) OPTIONAL PROVISIONS.—The cooperative agreement under paragraph (1) may include provisions relating to the purchase, improvement, and repair of water systems in existence on the date of the enactment of this Act, including systems owned by individual tribal members and other residents of the Fort Peck Indian Reservation.
- (4) TERMINATION.—The Secretary may terminate a cooperative agreement under paragraph (1) if the Secretary determines that—
- (A) the quality of construction does not meet all standards established for similar facilities constructed by the Secretary; or
- (B) the operation and maintenance of the Assiniboine and Sioux Rural Water System does not meet conditions acceptable to the Secretary that are adequate to fulfill the obligations of the United States to the Fort Peck Tribes.
- (5) TRANSFER.—On execution of a cooperative agreement under paragraph (1), in accordance with the cooperative agreement, the Secretary may transfer to the Fort Peck Tribes, on a non-reimbursable basis, funds made available for the Assiniboine and Sioux Rural Water System under section 9.
- (d) SERVICE AREA.—The service area of the Assiniboine and Sioux Rural Water System shall

- be the area within the boundaries of the Fort Peck Indian Reservation.
- (e) CONSTRUCTION REQUIREMENTS.—The components of the Assiniboine and Sioux Rural Water System shall be planned and constructed to a size that is sufficient to meet the municipal, rural, and industrial water supply requirements of the service area of the Fort Peck Reservation Rural Water Sustem.
- (f) TITLE TO ASSINIBOINE AND SIOUX RURAL WATER SYSTEM.—Title to the Assiniboine and Sioux Rural Water System shall be held in trust by the United States for the Fort Peck Tribes and shall not be transferred unless a transfer is authorized by an Act of Congress enacted after the date of the enactment of this Act
- (g) LIMITATION ON AVAILABILITY OF CONSTRUCTION FUNDS.—The Secretary shall not obligate funds for construction of the Assiniboine and Sioux Rural Water System until—
- (1) the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) are met with respect to the Assiniboine and Sioux Rural Water System;
- (2) on or after the date that is 90 days after the date of submission to Congress of a final engineering report approved by the Secretary; and
- (3) the Secretary publishes a written finding that the water conservation plan developed under section 7 includes prudent and reasonable water conservation measures for the operation of the Assiniboine and Sioux Rural Water System that have been shown to be economically and financially feasible.
- (h) TECHNICAL ASSISTANCE.—The Secretary shall provide such technical assistance as is necessary to enable the Fort Peck Tribes to plan, design, construct, operate, maintain, and replace the Assiniboine and Sioux Rural Water System, including operation and management training
- (i) APPLICATION OF INDIAN SELF-DETERMINA-TION ACT.—Planning, design, construction, operation, maintenance, and replacement of the Assiniboine and Sioux Rural Water System within the Fort Peck Indian Reservation shall be subject to the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).
- (j) Cost Sharing.—
- (1) CONSTRUCTION.—The Federal share of the cost of construction of the Assiniboine and Sioux Rural Water System shall be 100 percent, and shall be funded through annual appropriations to the Bureau of Reclamation.
- (2) OPERATION AND MAINTENANCE.—The Federal share of the cost of operation and maintenance of the Assiniboine and Sioux Rural Water System shall be 100 percent, and shall be funded through annual appropriations to the Bureau of Indian Affairs.

SEC. 5. DRY PRAIRIE RURAL WATER SYSTEM.

- (a) PLANNING AND CONSTRUCTION.—
- (1) AUTHORIZATION.—The Secretary shall enter into a cooperative agreement with Dry Prairie Rural Water Association Incorporated (or any successor non-Federal entity) to provide Federal funds for the planning, design, and construction of the Dry Prairie Rural Water System in Roosevelt, Sheridan, Daniels, and Valley Counties, Montana, outside the Fort Peck Indian Reservation.
 - (2) USE OF FEDERAL FUNDS.—
- (A) FEDERAL SHARE.—The Federal share of the cost of planning, design, and construction of the Dry Prairie Rural Water System shall be not more than 76 percent, and shall be funded with amounts appropriated from the reclamation fund. Such amounts shall not be returnable or reimbursable under the Federal reclamation laws.
- (B) COOPERATIVE AGREEMENTS.—Federal funds made available to carry out this section may be obligated and expended only through a cooperative agreement entered into under subsection (c).

- (b) COMPONENTS.—The components of the Dry Prairie Rural Water System facilities on which Federal funds may be obligated and expended under this section shall include—
- (1) storage, pumping, interconnection, and pipeline facilities;
 - (2) appurtenant buildings and access roads;
- (3) all property and property rights necessary for the facilities described in this subsection;
- (4) electrical power transmission and distribution facilities necessary for service to Dry Prairie Rural Water System facilities; and
- (5) other facilities customary to the development of rural water distribution systems in the State, including supplemental water intake, pumping, and treatment facilities.
- (c) COOPERATIVE AGREEMENT.—
- (1) In GENERAL.—The Secretary, with the concurrence of the Assiniboine and Sioux Rural Water System Board, shall enter into a cooperative agreement with Dry Prairie Rural Water Association Incorporated to provide Federal assistance for the planning, design, and construction of the Dry Prairie Rural Water System.
- (2) MANDATORY PROVISIONS.—The cooperative agreement under paragraph (1) shall specify, in a manner that is acceptable to the Secretary and Dry Prairie Rural Water Association Incorporated—
- (A) the responsibilities of each party to the agreement for—
- (i) needs assessment, feasibility, and environmental studies;
 - (ii) engineering and design;
 - (iii) construction;
 - (iv) water conservation measures; and
- (v) administration of contracts relating to performance of the activities described in clauses (i) through (iv);
- (B) the procedures and requirements for approval and acceptance of the design and construction and for carrying out other activities described in subparagraph (A); and
- (C) the rights, responsibilities, and liabilities of each party to the agreement.
 - (d) Service Area.
- (1) In General.—Except as provided in paragraph (2), the service area of the Dry Prairie Rural Water System shall be the area in the State—
 - (A) north of the Missouri River;
- (B) south of the border between the United States and Canada;
- (C) west of the border between the States of North Dakota and Montana; and
- (D) east of the western line of range 39 east.(2) FORT PECK INDIAN RESERVATION.—The
- (2) FORT PECK INDIAN RESERVATION.—The service area shall not include the area inside the Fort Peck Indian Reservation.
- (e) LIMITATION ON AVAILABILITY OF CONSTRUCTION FUNDS.—The Secretary shall not obligate funds for construction of the Dry Prairie Rural Water System until—
- (1) the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) are met with respect to the Dry Prairie Rural Water System;
- (2) on or after the date that is 90 days after the date of submission to Congress of a final engineering report approved by the Secretary; and
- (3) the Secretary publishes a written finding that the water conservation plan developed under section 7 includes prudent and reasonable water conservation measures for the operation of the Dry Prairie Rural Water System that have been shown to be economically and financially feasible.
- (f) Interconnection of Facilities.—The Secretary shall—
- (1) interconnect the Dry Prairie Rural Water System with the Assiniboine and Sioux Rural Water System; and
- (2) provide for the delivery of water to the Dry Prairie Rural Water System from the Missouri

River through the Assiniboine and Sioux Rural Water System.

- (g) LIMITATION ON USE OF FEDERAL FUNDS.—
- (1) IN GENERAL.—The operation, maintenance, and replacement expenses associated with water deliveries from the Assiniboine and Sioux Rural Water System to the Dry Prairie Rural Water System shall not be a Federal responsibility and shall be borne by the Dry Prairie Rural Water System.
- (2) FEDERAL FUNDS.—The Secretary may not obligate or expend any Federal funds for the operation, maintenance, or replacement of the Dry Prairie Rural Water Sustem.
- (h) TITLE TO DRY PRAIRIE RURAL WATER SYSTEM.—Title to the Dry Prairie Rural Water System shall be held by Dry Prairie Rural Water Association, Incorporated.

SEC. 6. USE OF PICK-SLOAN POWER.

- (a) In General.—From power designated for future irrigation and drainage pumping for the Pick-Sloan Missouri Basin program, the Western Area Power Administration shall make available, at the firm power rate, the capacity and energy required to meet the pumping and incidental operational requirements of the Fort Peck Reservation Rural Water System.
- (b) QUALIFICATION TO USE PICK-SLOAN POWER.—For as long as the Fort Peck Reservation rural water supply system operates on a not-for-profit basis, the portions of the water supply project constructed with assistance under this Act shall be eligible to receive firm power from the Pick-Sloan Missouri Basin program established by section 9 of the Act of December 22, 1944 (chapter 665; 58 Stat. 887), popularly known as the Flood Control Act of 1944.
 - (c) RECOVERY OF EXPENSES.—
- (1) ASSINIBOINE AND SIOUX RURAL WATER SYSTEM.—In the case of the Assiniboine and Sioux Rural Water System, the Western Area Power Administration shall recover expenses associated with power purchases under subsection (a) through a separate power charge sufficient to cover such expenses. Such charge shall be paid fully through the annual appropriations to the Bureau of Indian Affairs.
- (2) DRY PRAIRIE RURAL WATER SYSTEM.—In the case of the Dry Prairie Rural Water System, the Western Area Power Administration shall recover expenses associated with power purchases under subsection (a) through a separate power charge sufficient to cover expenses. Such charge shall be paid fully by the Dry Prairie Rural Water System.
- (d) ADDITIONAL POWER.—If power in addition to that made available under subsection (a) is required to meet the pumping requirements of the Fort Peck Reservation Rural Water System, the Administrator of the Western Area Power Administration may purchase the necessary additional power at the best available rate. The costs of such purchases shall be reimbursed to the Administrator according to the terms identified in subsection (c).

SEC. 7. WATER CONSERVATION PLAN.

- (a) In General.—The Fort Peck Tribes and Dry Prairie Rural Water Association Incorporated shall develop a water conservation plan containing—
- (1) a description of water conservation objectines:
- (2) a description of appropriate water conservation measures; and
- (3) a time schedule for implementing the measures and this Act to meet the water conservation objectives.
- (b) PURPOSE.—The water conservation plan under subsection (a) shall be designed to ensure that users of water from the Assiniboine and Sioux Rural Water System and the Dry Prairie Rural Water System will use the best practicable technology and management techniques to conserve water.

(c) PUBLIC PARTICIPATION.—Section 210(c) of the Reclamation Reform Act of 1982 (43 U.S.C. 390jj(c)) shall apply to an activity authorized under this Act.

SEC. 8. WATER RIGHTS.

(a) IN GENERAL.—This Act does not—

(1) impair the validity of or preempt any provision of State water law or any interstate compact governing water;

- (2) alter the right of any State to any appropriated share of the water of any body of surface or ground water, whether determined by any past or future interstate compact or by any past or future legislative or final judicial allocation:
- (3) preempt or modify any Federal or State law or interstate compact concerning water quality or disposal;
- (4) confer on any non-Federal entity the authority to exercise any Federal right to the water of any stream or to any ground water resource:
- (5) affect any right of the Fort Peck Tribes to water, located within or outside the external boundaries of the Fort Peck Indian Reservation, based on a treaty, compact, executive order, agreement, Act of Congress, aboriginal title, the decision in Winters v. United States, 207 U.S. 564 (1908) (commonly known as the "Winters Doctrine"). or other law: or
- (6) validate or invalidate any assertion of the existence, nonexistence, or extinguishment of any water right held or Indian water compact entered into by the Fort Peck Tribes or by any other Indian tribe or individual Indian under Federal or State law.
- (b) OFFSET AGAINST CLAIMS.—Any funds received by the Fort Peck Tribes pursuant to this Act shall be used to offset any claims for money damages against the United States by the Fort Peck Tribes, existing on the date of the enactment of this Act, for water rights based on a treaty, compact, executive order, agreement, Act of Congress, aboriginal title, the decision in Winters v. United States, 207 U.S. 564 (1908), or other law.

SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

- (a) Assiniboine and Sioux Rural Water System.—There are authorized to be appropriated—
- (1) to the Bureau of Reclamation over a period of 10 fiscal years, \$124,000,000 for the planning, design, and construction of the Assiniboine and Sioux Rural Water System; and
- (2) to the Bureau of Indian Affairs such sums as are necessary for the operation and maintenance of the Assiniboine and Sioux Rural Water System.
- (b) DRY PRAIRIE RURAL WATER SYSTEM.— There is authorized to be appropriated, over a period of 10 fiscal years, \$51,000,000 for the planning, design, and construction of the Dry Prairie Rural Water System.
- rie Rural Water System.

 (c) COST INDEXING.—The funds authorized to be appropriated may be increased or decreased by such amounts as are justified by reason of ordinary fluctuations in development costs incurred after October 1, 1998, as indicated by engineering cost indices applicable for the type of construction involved.

Mr. LOTT. I ask unanimous consent the Senate agree to the amendment of the house.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONVEYING WATER FACILITIES TO THE NORTHERN COLORADO WATER CONSERVANCY DISTRICT

Mr. LOTT. I ask unanimous consent the Senate proceed to H.R. 4389, which was received from the House. The PRESIDING OFFICER. The clerk will report by title.

The assistant legislative clerk read as follows:

A bill (H.R. 4389) to direct the Secretary of the Interior to convey certain water distribution facilities to the Northern Colorado Water Conservancy District.

There being no objection, the Senate proceeded to consider the bill.

Mr. LOTT. I ask unanimous consent the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 4389) was read the third time and passed.

MISSOURI RIVER BASIN PROJECT

PROSSER DIVERSION DAM

Mr. LOTT. I ask unanimous consent the Energy Committee be discharged from further consideration of H.R. 2984 and H.R. 3986. I further ask consent the Senate proceed en bloc to their consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bills by title.

The legislative clerk read as follows:

A bill (H.R. 2984) to direct the Secretary of the Interior, through the Bureau of Reclamation, to convey to the Loup Basin Reclamation District, the Sargent River Irrigation District, and the Farwell Irrigation District, Nebraska, property comprising the assets of the Middle Loup Division of the Missouri River Basin Project, Nebraska;

A bill (H.R. 3986) to provide for a study of the engineering feasibility of a water exchange in lieu of electrification of the Chandler Pumping Plant at Prosser Diversion Dam, Washington.

There being no objection, the Senate proceeded to consider the bills.

Mr. GORTON. Mr. President, today, the Senate will pass H.R. 3986, a bill introduced bv Representative HASTINGS, R-Washington, that will authorize the Bureau of Reclamation to study the feasibility of moving the intake system for the Kennewick Irrigation District from the Yakima River to the Columbia River. I introduced a similar bill earlier this year. S. 2163. which was passed by the Senate Energy and Natural Resources Committee earlier this month. The Senate's action today sends this bill, critical to Central Washington's efforts to recover threatened and endangered salmon, to the President's desk-an achievement long sought by the Yakama Indian Nation and the irrigators of the Yakima River Basin.

Disputes over how to allocate and use water have always been contentious in the Pacific Northwest, and the disputes have only become more difficult as the region has been forced to deal with the recovery of threatened and endangered

salmon and steelhead species. Over the past year, however, I have been pleased to support a new era of cooperation among tribes and various irrigation districts in Eastern Washington. An area of consensus has developed around the concept of "pump exchanges," which move the intake systems of irrigation districts from over appropriated streams and rivers to rivers downstream with more water. In July, I introduced legislation that authorizes the study of a pump exchange for the Okanogan Irrigation District and the Confederated Tribes of the Colville Reservation. I hope this legislation will receive quick approval during the 107th Congress.

H.R. 3986 will amend the Yakima River Basin Water Enhancement Program, YRBWEP, first approved by Congress in 1994 (P.L. 103-434). That legislation established a comprehensive framework for increasing critical flows in the Yakima River in order to reverse a longstanding trend of declining salmon and steelhead runs. One portion of that legislation, Section 1208, authorized a specific project to electrify hydraulic turbines at the Chandler Pumping Plant near Prosser, Washington. By converting these pumps from hydraulic to electrical power, an additional 400 second feet of water would be added to a 12-mile stretch of the Yakima River below Prosser Dam called Chandler Reach. This project would increase survival rates and provide important new habitat for both the anadramous and resident fisheries in this critical section of the Yakima River. This electrification project is still a good approach to augmenting Yakima River flows, but early in its implementation an even better idea was developed that can nearly double the benefits projected from electrification.

The pump exchange approach proposed in H.R. 3986 could result in completely eliminating the need to divert water at Prosser Dam and Wanawish Dam for use by the Kennewick Irrigation District, K.I.D., and the Columbia River Irrigation District, C.I.D. This plan will require building a new pumping plant on the Columbia River and a pipeline to connect this new facility to K.I.D. This approach could add back to the Yakima River during critical flow periods the entire 749 second feet of water now diverted at Prosser Dam. This project might well be the key to the success of the rest of the YRBWEP program. For the extensive efforts being made farther upstream to be entirely successful, the lower sections of the Yakima River must provide the conditions necessary for salmon and steelhead to survive their journey to and from the upper river and its tributaries. The Chandler Reach and the lower Yakima must have sufficient water at the right time for anadromous fish to be able to transit this area. Without it, the programs upstream will be less effective.

The legislation passed today authorizes the Bureau of Reclamation to spend some of the funds previously authorized for the electrification project to develop this new approach. There are several studies and undertakings necessary to determine with certainty the efficacy and cost of this pump exchange project. These include carrying out a feasibility study, including an estimate of project benefits, an environmental impact analysis, and preparing a feasibility level design and cost estimates as well as securing critical right-of-way areas.

This change in approach to enhancing flows in the lower Yakima is enthusiastically supported by the resource agencies of the State of Washington, including the Washington State Department of Ecology, as well as by the Northwest Power Planning Council, the Bonneville Power Administration. National Marine Fisheries Service, and the United States Fish and Wildlife Service.

It is important to note that a change in the diversion for K.I.D. from the Yakima River to the Columbia River will completely change the current operational philosophy of the district. It will evolve from a relatively simple system relying on gravity to supply its customers to one of significant additional complexity involving a major pump station and pressure pipeline to the main feeder canals. This remodeling of K.I.D. will have significant impact on the existing system and its users during construction, startup, and transition. That is why it is essential for K.I.D. to be in a position to develop these facilities in a way that best fits their current and future operational goals and causes the least impact to the district water users. This legislation requires the Bureau of Reclamation to give K.I.D. substantial control over the planning and design work in this study with the Bureau, of course, having final approval. It is an approach that will continue local improvement and support, which is vital to the success of this project and other projects.

I thank Representative Doc Hastings for his leadership on this bill in the House of Representatives and appreciate the support of my colleagues in passing this bill that will provide a crucial component to the salmon recovery efforts in the Yakima Basin.

Mr. LOTT. I ask unanimous consent the bills be read the third time and passed, the motions to reconsider be laid upon the table, any statements be printed in the RECORD with the above occurring en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 2984) was read the third time and passed.

The bill (H.R. 3986) was read the third time and passed.

CORRECTING THE ENROLLMENT OF H.R. 2348

Mr. LOTT. I ask unanimous consent the Senate proceed to the consideration of S. Con. Res. 151, which is at the desk.

The PRESIDING OFFICER. The clerk will report the concurrent resolution by title.

The assistant legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 151) to make corrections in enrollment of the bill H.R. 2348 to authorize the Bureau of Reclamation to provide cost sharing for the endangered fish recovery implementation programs for the Upper Colorado and San Juan River Basins.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. LOTT. I ask unanimous consent the concurrent resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (S. Con. Res. 151) was agreed to, as follows:

S. CON. RES. 151

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill (H.R. 2348) to authorize the Bureau of Reclamation to provide cost sharing for the endangered fish recovery implementation programs for the Upper Colorado and San Juan River Basins, the Clerk of the House shall make the following correction: Strike section 4 and insert:

SEC. 4. EFFECT OF RECLAMATION LAW

Specifically with regard to the acreage limitation provisions of Federal reclamation law, any action taken pursuant to or in furtherance of this title will not:

(1) be considered in determining whether a district as defined in section 202(2) of the Reclamation Reform Act of 1982 (43 U.S.C. 390bb) has discharged its obligation to repay the construction cost of project facilities used to make irrigation water available for delivery to land in the district:

(2) serve as the basis for reinstating acreage limitation provisions in a district that has completed payment of its construction obligation; or

(3) serve as the basis for increasing the construction repayment obligation of the district and thereby extending the period during which the acreage limitation provisions will apply.

AUTHORIZING USE OF THE CAP-ITOL GROUNDS FOR THE MIL-LION FAMILY MARCH

Mr. LOTT. I ask unanimous consent the Senate proceed to the immediate consideration of H. Con. Res. 423, which is at the desk.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 423) authorizing the use of the Capitol Grounds for the Million Family March.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. LOTT. I ask unanimous consent decrease the impact of rail service on the envithe resolution be agreed to and the motion to reconsider be laid upon the

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (H. Con. Res. 423) was agreed to.

RAILS TO RESOURCES ACT OF 2000

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 718, S. 2253.

The PRESIDING OFFICER. clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (S. 2253) to authorize the establishment of a joint United States-Canada commission to study the feasibility of connecting the rail system to Alaska to the North American continental rail system, and for other purposes.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Foreign Relations with an amendment, as follows:

(Strike out all after the enacting clause and insert the part printed in italic.)

SECTION 1. SHORT TITLE.

This Act may be cited as the "Rails to Resources Act of 2000".

SEC. 2. FINDINGS.

Congress finds that—

- (1) rail transportation is an essential component of the North American intermodal transportation system;
- (2) the development of economically strong and socially stable communities in the western United States and Canada was encouraged significantly by government policies promoting the development of integrated transcontinental, interstate and interprovincial rail systems in the states, territories and provinces of the two coun-
- (3) United States and Canadian federal support for the completion of new elements of the transcontinental, interstate and interprovincial rail systems was halted before rail connections were established to the state of Alaska and the Yukon Territory;
- (4) both public and private lands in Alaska. the Yukon Territory and northern British Columbia, including lands held by aboriginal peoples, contain extensive deposits of oil, gas, coal and other minerals as well as valuable forest products which presently are inaccessible, but which could provide significant economic benefit to local communities and to both nations if an economically efficient transportation system was available;
- (5) rail transportation in otherwise isolated areas facilitates controlled access and reduced overall impact to environmentally sensitive
- (6) the extension of the continental rail system through northern British Columbia and the Yukon Territory to the current terminus of the Alaska Railroad would significantly benefit the U.S. and Canadian visitor industries by facilitating the comfortable movement of passengers over long distances while minimizing effects on the surrounding areas; and
- (7) ongoing research and development efforts in the rail industry continue to increase the efficiency of rail transportation, ensure safety, and

ronment.

SEC. 3. AGREEMENT FOR A UNITED STATES-CAN-ADA BILATERAL COMMISSION.

The President is authorized and urged to enter into an agreement with the Government of Canada to establish a joint commission to study the feasibility and advisability of linking the rail system in Alaska to the nearest appropriate point on the North American continental rail sustem.

SEC. 4. COMPOSITION OF COMMISSION.

- (a) MEMBERSHIP.-
- TOTAL MEMBERSHIP.—The Agreementshould provide for the Commission to be composed of 20 members, of which 10 members are appointed by the President and 10 members are appointed by the Government of Canada.
- (2) GENERAL QUALIFICATIONS.—The Agreement should provide for the membership of the Commission, to the maximum extent practicable, to be representative of—
- (A) the interests of the local communities (including the governments of the communities), aboriginal peoples, and businesses that would be affected by the connection of the rail system in Alaska to the North American continental rail system; and
- (B) a broad range of expertise in areas of knowledge that are relevant to the significant issues to be considered by the Commission, including economics, engineering, management of resources (such as minerals and timber), social sciences, fish and game management, environmental sciences, and transportation.
- (b) United States Membership.—If the United States and Canada enter into an agreement providing for the establishment of the Commission, the President shall appoint the United States members of the Commission as fol-
- (1) Two members from among persons who are qualified to represent the interests of communities and local governments of Alaska.
- (2) One member representing the State of Alaska, to be nominated by the Governor of Alaska.
- (3) One member from among persons who are qualified to represent the interests of Native Alaskans residing in the area of Alaska that would be affected by the extension of rail serv-
- (4) Three members from among persons involved in commercial activities in Alaska who are qualified to represent commercial interests in Alaska, of which one shall be a representative of the Alaska Railroad Corporation.
- (5) Three members with relevant expertise, at least one of whom shall be an engineer with expertise in subarctic transportation.
- (c) Canadian Membership.—The Agreement should provide for the Canadian membership of the Commission to be representative of broad categories of interests of Canada as the Government of Canada determines appropriate, consistent with subsection (a)(2).

SEC. 5. GOVERNANCE AND STAFFING OF COMMIS-SION.

- (a) CHAIRMAN.—The Agreement should provide for the Chairman of the Commission to be elected from among the members of the Commission by a majority vote of the members.
- (b) Compensation and Expenses of United STATES MEMBERS.—
- (1) Compensation.—Each member of the Commission appointed by the President who is not an officer or employee of the Federal Government shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code, for each day (including travel time) during which such member is engaged in the performance of the duties of the Commission. Each such member who is an officer or employee of the

United States shall serve without compensation in addition to that received for services as an officer or employee of the United States.

- (2) Travel expenses.—The members of the Commission appointed by the President shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5. United States Code, while away from their homes or regular places of business in the performance of services for the Commission.
 - (c) STAFF.-
- (1) IN GENERAL.—The Agreement should provide for the appointment of a staff and an executive director to be the head of the staff.
- (2) COMPENSATION.—Funds made available for the Commission by the United States may be used to pay the compensation of the executive director and other personnel at rates fixed by the Commission that are not in excess of the rate payable for level V of the Executive Schedule under section 5316 of title 5, United States Code.
- (d) Office.—The Agreement should provide for the office of the Commission to be located in a mutually agreed location within the impacted areas of Alaska, the Yukon Territory, and northern British Columbia.
- (e) MEETINGS.—The Agreement should provide for the Commission to meet at least biannually to review progress and to provide guidance to staff and others, and to hold, in locations within the affected areas of Alaska, the Yukon Territory and northern British Columbia, such additional informational or public meetings as the Commission deems necessary to the conduct of its business.
- (f) PROCUREMENT OF SERVICES.—The Agreement should authorize and encourage the Commission to procure by contract, to the maximum extent practicable, the services (including any temporary and intermittent services) that the Commission determines necessary for carrying out the duties of the Commission. In the case of any contract for the services of an individual. funds made available for the Commission by the United States may not be used to pay for the services of the individual at a rate that exceeds the daily equivalent of the annual rate of basic pay prescribed for level V of the Executive Schedule under section 5316 of title 5, United States Code.

SEC. 6. DUTIES.

- (a) STUDY.-
- (1) IN GENERAL.—The Agreement should provide for the Commission to study and assess, on the basis of all available relevant information. the feasibility and advisability of linking the rail sustem in Alaska to the North American continental rail system through the continuation of the rail system in Alaska from its northeastern terminus to a connection with the continental rail system in Canada.
- (2) Specific issues.—The Agreement should provide for the study and assessment to include the consideration of the following issues:
 - (A) Railroad engineering.
 - (B) Land ownership.
 - (C) Geology.
- (D) Proximity to mineral, timber, tourist, and other resources.
 - (E) Market outlook.
 - (F) Environmental considerations.
- (G) Social effects, including changes in the use or availability of natural resources.
- (H) Potential financing mechanisms.
- (3) Route.—The Agreement should provide for the Commission, upon finding that it is feasible and advisable to link the rail system in Alaska as described in paragraph (1), to determine one or more recommended routes for the rail segment that establishes the linkage, taking into consideration cost, distance, access to potential freight markets, environmental matters, and such other factors as the Commission determines relevant.

(4) COMBINED CORRIDOR EVALUATION.—The Agreement should also provide for the Commission to consider whether it would be feasible and advisable to combine the power transmission infrastructure and petroleum product pipelines of other utilities into one corridor with a rail extension of the rail system of Alaska.

(b) REPORT.—The Agreement should require the Commission to submit to Congress and the Secretary of Transportation and to the Minister of Transport of the Government of Canada, not later than 3 years after the Commission commencement date, a report on the results of the study, including the Commission's findings regarding the feasibility and advisability of linking the rail system in Alaska as described in subsection (a)(1) and the Commission's recommendations regarding the preferred route and any alternative routes for the rail segment establishing the linkage.

SEC. 7. COMMENCEMENT AND TERMINATION OF COMMISSION.

- (a) COMMENCEMENT.—The Agreement should provide for the Commission to begin to function on the date on which all members are appointed to the Commission as provided for in the Agree-
- (b) TERMINATION.—The Commission should be terminated 90 days after the date on which the Commission submits its report under section 6.

SEC. 8. FUNDING.

- (a) RAILS TO RESOURCES FUND.—The Agreement should provide for the following:
- (1) ESTABLISHMENT.—The establishment of an interest-bearing account to be known as the "Rails to Resources Fund".
- (2) CONTRIBUTIONS.—The contribution by the United States and the Government of Canada to the Fund of amounts that are sufficient for the Commission to carry out its duties.
- AVAILABILITY.—The availability amounts in the Fund to pay the costs of Commission activities.
- (4) DISSOLUTION.—Dissolution of the Fund upon the termination of the Commission and distribution of the amounts remaining in the Fund between the United States and the Government of Canada.
- (b) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to any fund established as described in subsection (a)(1) \$6,000,000, to remain available until expended.

SEC. 9. DEFINITIONS.

In this Act:

- (1) AGREEMENT.—The term "Agreement" means an agreement described in section 2.
- (2) COMMISSION.—The term "Commission" means a commission established pursuant to any

Mr. LOTT. Mr. President, I ask unanimous consent that the committee substitute be agreed to, the bill, as amended, be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 2253), as amended, was read the third time and passed.

ADJUSTMENT OF STATUS OF CERTAIN SYRIAN NATIONALS

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to consideration of H.R. 4681.

The PRESIDING OFFICER. clerk will report the bill by title.

as follows:

A bill (H.R. 4681) to provide for the adjustment of status of certain Syrian nationals.

There being no objection, the Senate proceeded to consider the bill.

Mr. SCHUMER. Mr. President, I rise today to applaud the passage of a bill that will grant permanent residency status to a small group of Syrian Jews who fled the brutal dictatorship of Hafez Assad almost a decade ago.

In 1992, through negotiations between our State Department and the Syrian regime, President Assad allowed the last remnants of Syria's Jewish community to leave Syria. For years, this community faced religious persecution, restrictions on the right to travel and emigrate, and other forms of harassment. When Assad finally agreed to let them go, he insisted that they come to this country as tourists, rather than as refugees fleeing religious tyranny, in order to avoid the appearance that his repression had driven out a considerable number of his own citizens. We permitted this fiction in order to rescue people desperate for freedom, but obviously, the 2000 Syrian Jews who came here in 1992 were never tourists they were seeking a permanent home and a life free of religious and political oppression.

Once safely in the United States, the Syrian Jews had no choice but to request asylum, and asylum was granted. But because of the long delays that asylees face in obtaining permanent resident status, the Syrian Jews still have not become permanent residents and gotten green cards. If they had come to the United States as the refugees they truly were, instead of as tourists, they would have become permanent residents years ago because there is no annual cap on the number of refugees permitted to move to permanent residency.

The Syrian Jews have suffered for years because of this situation, imposed on them by the terms of the secret 1992 deal with Assad. Without green cards, those among them who are doctors and dentists, as many are, are unable to practice their professions under the New York State licensing system. As asylees, the Syrian Jews face restrictions on their right to travel abroad. Finally and most important, the Syrian Jews have been stalled for years in the efforts to become full citizens of our country, something all of them ardently want.

This legislation corrects this anomaly and directs the Attorney General to grant permanent resident status to the Syrian Jews who came here in 1992. This will give this small group of people the immigration status they should have had years ago, but for the fiction that they were coming to the United States as tourists. It will permit them to begin practicing their chosen professions and moving toward full citizen-

The assistant legislative clerk read ship. It will finally effectuate the agreement by which they emigrated from Syria in the first place. Most of all, it will guarantee the full blessings of liberty to people who want nothing more than to live in peace in a land where the government doesn't mistreat you simply because of your religion.

Mr. LOTT. Mr. President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 4681) was read the third time and passed.

STEWART B. McKINNEY HOMELESS ASSISTANCE ACT

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of H.R. 5417, which is at the desk.

The PRESIDING OFFICER. clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 5417) to rename the Stewart B. McKinney Homeless Assistance Act as the "McKinney-Vento Homeless Assistance

There being no objection, the Senate proceeded to consider the bill.

Mr. SARBANES. Mr. President, I rise today to ask the Senate to pass legislation that has been sent to us by the House of Representatives that would change the name of the Stewart B. McKinney Homeless Assistance Act to the McKinney-Vento Homeless Assistance Act. This is one, small step we can take to honor a colleague who devoted his life to public service, particularly service on behalf of the most disadvantaged Americans.

Bruce F. Vento has been one of the most effective advocates on behalf of homeless people throughout his career. Mr. Vento was one of the first Members of Congress to bring the plight of the nation's homeless to the public's attention. In 1982, Bruce introduced legislation in the House of Representatives to create the Emergency Shelter Grant Program. He attached an amendment to a housing bill to provide matching grants to repair vacant buildings to be used as temporary shelters. This became the first national legislation to provide federal assistance for emergency homeless shelters.

Throughout the 1980s, Mr. Vento worked repeatedly, with his colleagues on the House Banking Committee, to raise the profile of this issue and to build the coalitions necessary to enact comprehensive legislation to help the homeless across this nation. In early 1987, Representative Vento worked to pass an aid package that included \$100 million for a program of emergency shelter grants to help charitable organizations and state and local governments renovate buildings for the homeless and succeeded in enacting the legislation into law.

In that same year, Congressman Vento was an original author of a larger, more comprehensive measure that became known as the Stewart B. McKinney Homeless Assistance Act, the first and only coordinated federal initiative directed toward the problem of homelessness and the only social program that was passed during the Reagan era. The McKinney Act seeks to meet some of the immediate needs of the homeless: shelter, food, health care, education, job training services, and transitional housing through programs at HUD, FEMA, HHS, and the Education and Labor Departments. This legislation continues to be at the heart of the federal government's response to the ongoing problem of homelessness in America.

It is indeed fitting to honor Bruce Vento by joining his name with that of his friend and colleague. Stewart B. McKinney, on this legislation. In 1987, after Representative McKinney's passing, Bruce took a leading role in seeking to name the programs that would serve persons who are homeless as the McKinney Act because of Stewart McKinney's "close association and concern and compassion that he espoused and reflected throughout his service" in Congress. We all recognize how well these very same words, which Mr. Vento used to describe Stewart McKinney, embody the work and career of Bruce F. Vento himself.

Shortly after taking office, President Clinton asked then-speaker of the House Tom Foley to organize a Task Force to look into the problem of homelessness. In February of that year, Mr. Vento was appointed as the Chairman of that Task Force, which issued a comprehensive, nationally recognized report to the Speaker one year later.

During the past few years, Mr. Vento continued to work hard on the McKinney Act. He added language that improved prevention planning and activities so that people do not become homeless due to lack of foresight or planning. The Vento prevention language added discharge planning requirements for persons who are discharged from publicly funded institutions, that is, mental health facilities, youth facilities and correctional facilities, so that people are not merely discharged to the streets.

Mr. Vento also introduced the "Stand Down Authorization Act." Created by several Vietnam veterans, Stand Downs are designed to give homeless veterans a brief respite from life on the streets. The Stand Down bill would, in conjunction with the grassroots community, expand the VA's role in providing outreach assistance to

homeless veterans. In this Congress, H.R. 566 gained the strong support of over 100 bipartisan cosponsors, the VA, the American Legion, the Veterans of Foreign Wars (VFW) and the Disabled American Vets (DAV).

Bruce Vento worked throughout his entire career to improve and save the lives of homeless men, women and children around this nation. In the tradition of Minnesota's great leader, Hubert H. Humphrey, Bruce has always believed that we are elected to formulate and enact policies which improve the quality of life of our citizens. I have had the pleasure of working with him these many years to do just that. That is why I urge you to join me in enacting into law this legislation to rename our nation's fundamental homeless statute the McKinney-Vento Act. This act will duly honor a colleague who has worked long and hard for the most vulnerable Americans, people who are without a home to call their own.

Mr. President, while this legislation deals with homelessness, I want to make it clear that Mr. Vento's interests and accomplishments go far beyond this important area. He was one of the strongest proponents of FHA in the Congress. He understood how FHA has been a crucial tool in helping millions of families attain the dream of homeownership in America.

Mr. Vento played an active role in helping craft the bipartisan public housing reform legislation that passed in 1998. He was a leader in the effort to preserve affordable housing that has been threatened by expiring use restrictions or rental assistance contracts. Important progress as made on this front last year. He was a strong supporter of the effort to increase and strengthen community-based non-profits in their efforts to develop affordable housing and revitalize our communities.

Mr. Vento has been a longstanding supporter of the Community Reinvestment Act, CRA, because he understood how access to capital for homeownership and small businesses is the key to ensuring equal opportunity for all Americans, regardless of the neighborhoods they live in or their economic status. I was privileged to work closely with him to preserve CRA during the debate on financial services modernization legislation.

Finally, Mr. Vento was a strong supporter of consumer protection laws, from the Fair Credit Reporting Act, to the Equal Credit Opportunity Act, to the Home Ownership Equity Protection Act.

Renaming the McKinney Act is one small way that all of us can honor Mr. Vento's memory. Mr. President, Bruce Vento will be sorely missed in the Congress of the United States. I want to join President Clinton, my colleagues, and many others in expressing my deepest sympathies to Mr. Vento's family and friends.

Mr. LOTT. Mr. President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 5417) was read the third time and passed.

NATIONAL POLICE ATHLETIC LEAGUE YOUTH ENVIRONMENT ACT OF 2000

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of H.R. 3235, which is at the desk.

The PRESIDING OFFICER. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3235) to improve academic and social outcomes for youth and reduce both juvenile crime and the risk that youth will become victims of crime by providing productive activities conducted by law enforcement personnel during non-school hours.

There being no objection, the Senate proceeded to consider the bill.

(At the request of Mr. DASCHLE, the following statement was ordered to be printed in the RECORD.)

• Mrs. FEINSTEIN. Mr. President, I am pleased that the Senate today, by unanimous consent, passed H.R. 3235, the National Police Athletic League Youth Enrichment Act of 2000, a bill that will authorize the Department of Justice to provide grant money to police after-school programs to reduce crime and drug use. This bill is companion legislation to S. 1874, a bill introduced by Senator Graham, Senator BINGAMAN, and myself. The Senate bill has a total of 22 cosponsors.

I want to thank my colleagues in this body, particularly my friend Senator HATCH, for their support of this legislation. I also want to thank Representative TOM BARRETT for his work on the bill, and Representatives CANADY and SCOTT for helping shepherd the legislation through the House.

I also want to acknowledge the tremendous efforts of the Police Athletic League in spreading the word about the bill. In particular, Ron Exley of the California Police Activities League labored tirelessly to build support for the legislation.

H.R. 3235 would create a program directing the Department of Justice's Office of Justice Programs to award grants to the Police Athletic League, PAL, to establish new PAL chapters to serve public housing projects and other distressed areas and to expand existing chapters to assist additional youth.

To do this, the bill would authorize \$16 million a year for 5 years beginning with fiscal year 2001. The money would be used to enhance the services provided by the existing 320 established

PAL chapters and provide seed money for the establishment of an additional 250 chapters over 5 years.

The Police Athletic League was founded by police officers in New York City in 1914. Its mission is to offer an alternative to crime, drugs, and violence for our nation's most at-risk youth. In the last 75 years, PAL has become one of the largest youth-crime prevention programs in the nation, with a network of 1700 facilities serving more than 3000 communities and 1.5 million young people. Over one-third of existing PALs are in California, and these chapters serve more than 300,000 at-risk youth. Off-duty police officers staff local chapters, and PALs receive most of their funding from private

PALs currently provide kids with after-school recreational, educational, mentoring, and crime prevention programs. By keeping kids busy and out of trouble, PALs have significantly reduced juvenile crime and victimization in hundreds of communities across the country. One study found, for example, that PALs have cut crime in Baltimore by 30 percent and decreased juvenile victimization there by 40 percent. Another study concluded that PAL reduced crime and gang activity in a HUD housing development in El Centro, California by 64 percent.

PAL programs involve close, positive interaction between kids and cops, encouraging youngsters to view the police in a favorable light and obey the law. The programs are generally held after school, during the prime hours that some youth turn to crime and other anti-social activities.

PAL programs more than pay for themselves, saving taxpayers millions of dollars in crime, drug, and dropout costs. The Department of Justice has found, for example, that each youngster who drops out of high school and turns to crime and drugs costs taxpayers a staggering \$2–3 million. Even so, the legislation requires any new chapter seeking a grant to explain the manner in which it will operate without additional direct federal assistance when the act is discontinued.

In short, this valuable legislation will help fight crime and benefit kids in California and across the country. It will now go to President Clinton's desk for signature.●

Mr. LOTT. Mr. President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3235) was read the third time and passed.

PRESIDENTIAL THREAT PROTECTION ACT OF 2000

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to Calendar No. 775, H.R. 3048.

The PRESIDING OFFICER. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3048) to amend section 879 of title 18, United States Code, to provide clearer coverage over threats against former Presidents and members of their families, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 4319

Mr. LOTT. Mr. President, Senator HATCH has an amendment at the desk, and I ask for its consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Mississippi [Mr. LOTT], for Mr. HATCH, for himself, Mr. LEAHY, and Mr. THURMOND, proposes an amendment numbered 4319.

The amendment is as follows:

On page 3, strike lines 19 through 24 and insert the following:

"(e)(1) When directed by the President, the United States Secret Service is authorized to participate, under the direction of the Secretary of the Treasury, in the planning, coordination, and implementation of security operations at special events of national significance, as determined by the President.

"(2) At the end of each fiscal year, the President through such agency or office as the President may designate, shall report to the Congress—

"(A) what events, if any, were designated special events of national significance for security purposes under paragraph (1); and

"(B) the criteria and information used in making each designation.".

On page 7, line 6, after "offense" insert "or apprehension of a fugitive".

On page 8, strike lines 17 through 19.

On page 9, strike line 14 and insert the following: issuance.

"(11) With respect to subpoenas issued under paragraph (1)(A)(i)(III), the Attorney General shall issue guidelines governing the issuance of administrative subpoenas pursuant to that paragraph. The guidelines required by this paragraph shall mandate that administrative subpoenas may be issued only after review and approval of senior supervisory personnel within the respective investigative agency or component of the Department of Justice and of the United States Attorney for the judicial district in which the administrative subpoena shall be served."

At the end of the bill, insert the following: SEC. 6. ADMINISTRATIVE SUBPOENAS TO APPREHEND FUGITIVES.

- (a) AUTHORITY OF ATTORNEY GENERAL.—Section 3486(a)(1) of title 18, United States Code, as amended by section 5 of this Act is further amended in subparagraph (A)(i)—
- (1) by striking "offense or" and inserting "offense,"; and
- (2) by inserting "or (III) with respect to the apprehension of a fugitive," after "children,".
- (b) ADDITIONAL BASIS FOR NONDISCLOSURE ORDER.—Section 3486(a)(6) of title 18, United

States Code, as amended by section 5 of this Act, is further amended in subparagraph (B)—

- (1) by striking "or" and the end of clause (iii);
- (2) by striking the period at the end of clause (iv) and inserting "; or"; and
- (3) by adding at the end the following:
- "(v) otherwise seriously jeopardizing an investigation or undue delay of a trial.".
- (c) DEFINITIONS.—Section 3486 of title 18, as amended by section 5 of this Act, is further amended by adding at the end the following:
- "(g) DEFINITIONS.—In this section—
- "(1) the term 'fugitive' means a person who— $\,$
- "(A) having been accused by complaint, information, or indictment under Federal law of a serious violent felony or serious drug offense, or having been convicted under Federal law of committing a serious violent felony or serious drug offense, flees or attempts to flee from, or evades or attempts to evade the jurisdiction of the court with jurisdiction over the felony;
- "(B) having been accused by complaint, information, or indictment under State law of a serious violent felony or serious drug offense, or having been convicted under State law of committing a serious violent felony or serious drug offense, flees or attempts to flee from, or evades or attempts to evade, the jurisdiction of the court with jurisdiction over the felony;
- "(C) escapes from lawful Federal or State custody after having been accused by complaint, information, or indictment of a serious violent felony or serious drug offense or having been convicted of committing a serious violent felony or serious drug offense; or
- "(D) is in violation of subparagraph (2) or (3) of the first undesignated paragraph of section 1073:
- "(2) the terms 'serious violent felony' and 'serious drug offense' shall have the meanings given those terms in section 3559(c)(2) of this title; and
- "(3) the term 'investigation' means, with respect to a State fugitive described in subparagraph (B) or (C) of paragraph (1), an investigation in which there is reason to believe that the fugitive fled from or evaded, or attempted to flee from or evade, the jurisdiction of the court, or escaped from custody, in or affecting, or using any facility of, interstate or foreign commerce, or as to whom an appropriate law enforcement officer or official of a State or political subdivision has requested the Attorney General to assist in the investigation, and the Attorney General finds that the particular circumstances of the request give rise to a Federal interest sufficient for the exercise of Federal jurisdiction pursuant to section 1075."

SEC. 7. FUGITIVE APPREHENSION TASK FORCES.

- (a) IN GENERAL.—The Attorney General shall, upon consultation with appropriate Department of Justice and Department of the Treasury law enforcement components, establish permanent Fugitive Apprehension Task Forces consisting of Federal, State, and local law enforcement authorities in designated regions of the United States, to be directed and coordinated by the United States Marshals Service, for the purpose of locating and apprehending fugitives.
- (b) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to the Attorney General for the United States Marshals Service to carry out the provisions of this section \$30,000,000 for the fiscal year 2001, \$5,000,000 for fiscal year 2002, and \$5,000,000 for fiscal year 2003.
- (c) OTHER EXISTING APPLICABLE LAW.— Nothing in this section shall be construed to

limit any existing authority under any other provision of Federal or State law for law enforcement agencies to locate or apprehend fugitives through task forces or any other means.

SEC. 8. STUDY AND REPORTS ON ADMINISTRATIVE SUBPOENAS.

(a) STUDY ON USE OF ADMINISTRATIVE SUB-POENAS.—Not later than December 31, 2001, the Attorney General, in consultation with the Secretary of the Treasury, shall complete a study on the use of administrative subpoena power by executive branch agencies or entities and shall report the findings to the Committees on the Judiciary of the Senate and the House of Representatives. Such report shall include—

(1) a description of the sources of administrative subpoena power and the scope of such subpoena power within executive branch agencies;

(2) a description of applicable subpoena enforcement mechanisms:

(3) a description of any notification provisions and any other provisions relating to safeguarding privacy interests;

(4) a description of the standards governing the issuance of administrative subpoenas; and

(5) recommendations from the Attorney General regarding necessary steps to ensure that administrative subpoena power is used and enforced consistently and fairly by executive branch agencies.

(b) REPORT ON FREQUENCY OF USE OF ADMINISTRATIVE SUBPOENAS.—

(1) IN GENERAL.—The Attorney General and the Secretary of the Treasury shall report in January of each year to the Committees on the Judiciary of the Senate and the House of Representatives on the number of administrative subpoenas issued by them under this section, whether each matter involved a fugitive from Federal or State charges, and the identity of the agency or component of the Department of Justice or the Department of the Treasury issuing the subpoena and imposing the charges.

(2) EXPIRATION.—The reporting requirement of this subsection shall terminate in 3 years after the date of enactment of this section

Mr. LEAHY. Mr. President, the Presidential Threat Protection Act, H.R. 3048, is a high priority for the Secret Service and the Service's respected Director, Brian Stafford, and I am pleased that this legislation is passing the Senate today, along with legislation that Senators Thurmond, Hatch and I have crafted to assist the U.S. Marshals Service in apprehending fugitives.

The Presidential Threat Protection Act, H.R. 3048, would expand or clarify the Secret Service's authority in four ways. First, the bill would amend current law to make clear it is a federal crime, which the Secret Service is authorized to investigate, to threaten any current or former President or their immediate family, even if the person is not currently receiving Secret Service protection and including those people who have declined continued protection, such as former Presidents, or have not yet received protection, such as major Presidential and Vice-Presidential candidates and their families.

Second, the bill would incorporate in statute certain authority, which is currently embodied in a classified Executive Order, PDD 62, clarifying that the Secret Service is authorized to coordinate, design, and implement security operations for events deemed of national importance by the President "or the President's designee."

Third, the bill would establish a "National Threat Assessment Center" within the Secret Service to provide training to State, local and other Federal law enforcement agencies on threat assessments and public safety responsibilities.

Finally, the bill authorizes the Secretary of the Treasury to issue administrative subpoenas for investigations of "imminent" threats made against an individual whom the service is authorized to protect. The Secret Service has requested that the Congress grant this administrative subpoena authority to expedite investigation procedures particularly in situations where an individual has made threats against the President and is en route to exercise those threats.

"Administrative subpoena" is the term generally used to refer to a demand for documents or testimony by an investigative entity or regulatory agency that is empowered to issue the subpoena independently and without the approval of any grand jury, court or other judicial entity. I am generally skeptical of administrative subpoena power. Administrative subpoenas avoid the strict grant jury secrecy rules and the documents provided in response to such subpoenas are, therefore, subject to broader dissemination. Moreover, since investigative agents issue such subpoenas directly, without review by a judicial officer or even a prosecutor, fewer "checks" are in place to ensure the subpoena is issued with good cause and not merely as a fishing expedition.

H.R. 3048 addresses these general concerns with the following procedural safeguards, some of which would apply not only to the new administrative subpoena authority of the Secret Service but also to current administrative subpoena authority granted to the FBI to issue administrative subpoenas in cases involving child abuse, child sexual exploitation, and Federal health care offenses.

The new administrative subpoena authority in threat cases may only be exercised by the Secretary of the Treasury upon determination of the Director of the Secret Service that the threat is imminent, and the Secret Service must notify the Attorney General of the issuance of each subpoena. I should note that this requirement will help ensure that administrative subpoenas will be used in only the most significant investigations since obtaining the authorization for such a subpoena from senior Treasury and Secret Service per-

sonnel may take longer than simply

going to the local U.S. Attorney's office to get a grand jury subpoena.

The bill would limit the scope of both current and new administrative subpoena authority of the FBI for obtaining records in child sex abuse and exploitation cases from Internet Service Providers to the name, address, local and long distance telephone billing records, telephone number or services used by a subscriber.

The bill would also expressly allow a person whose records are demanded pursuant to an administrative subpoena to contest the administrative subpoena by petitioning a federal judge to modify or set aside the subpoena.

The bill would authorize a court to order non-disclosure of the administrative subpoena for up to 90 days (and up to a 90 day extension) upon a showing that disclosure would adversely affect the investigation in an enumerated way.

Upon written demand, the agency must return the subpoenaed records or things if no case or proceedings arise from the production of records "within a reasonable time."

The administrative subpoena may not require production in less than 24 hours after service so agencies may have to wait for at least a day before demanding production.

The Senate amendment to H.R. 3048 would modify the House-passed version, which provides that violation of the administrative subpoena is punishable by fine or up to five years' imprisonment. This penalty provision in the House version of the bill is both unnecessary and excessive since current law already provides that failure to comply with the subpoena may be punished as a contempt of court—which is either civil or criminal. See 18 U.S.C. §3486(c). Under current law, the general term of imprisonment for some forms of criminal contempt is up to six months. See, e.g., 18 U.S.C. §402. The Senate amendment would strike that provision in the House bill.

Secret Service protective function Privilege. While passage of this legislation will assist the Secret Service in fulfilling its critical mission, this Congress is unfortunately coming to a close without addressing another significant challenge to the Secret Service's ability to fulfill its vital mission of protecting the life and safety of the President and other important persons. I refer to the misguided and unfortunately successful litigation of Special Counsel Kenneth Starr to compel Secret Service agents to answer questions about what they may have observed or overheard while protecting the life of the President.

As a result of Mr. Starr's zealous efforts, the courts refused to recognize a protective function privilege and required that at least seven Secret Service officers appear before a federal grand jury to respond to questions regarding President Clinton, and others.

In re Grand Jury Proceedings, 1998 W.L. 272884 (May 22, 1998 D.C.), affirmed 1998 WL 370584 (July 7, 1998 D.C. Cir) (per curiam). These recent court decisions, which refused to recognize a protective function privilege, could have a devastating impact upon the Secret Service's ability to provide effective protection. The Special Counsel and the courts ignored the voices of experience-former Presidents, Secret Service Directors, and others—who warned of the potentially deadly consequences. The courts disregarded the lessons of history. We cannot afford to be so cayalier; the stakes are just too high.

In order to address this problem, I introduced the Secret Service Protective Privilege Act, S. 1360, on July 13, 1999, to establish a Secret Service protective function privilege so Secret Service agents will not be put in the position of revealing private information about protected officials as Special Prosecutor Kenneth Starr compelled the Secret Service to do with respect to President Clinton. Unfortunately, the Senate Judiciary Committee took no action on this legislation in this Congress.

Few national interests are more compelling than protecting the life of the President of the United States. The Supreme Court has said that the nation has "an overwhelming interest in protecting the safety of its Chief Executive and in allowing him to perform his duties without interference from threats of physical violence." Watts v. United States, 394 U.S. 705, 707 (1969). What is at stake is not merely the safety of one person: it is the ability of the Executive Branch to function in an effective and orderly fashion, and the capacity of the United States to respond to threats and crises. Think of the shock waves that rocked the world in November 1963 when President Kennedy was assassinated. The assassination of a President has international repercussions and threatens the security and future of the entire nation.

The threat to our national security and to our democracy extends beyond the life of the President to those in direct line of the Office of the President—the Vice President, the President-elect, and the Vice President elect. By Act of Congress, these officials are required to accept the protection of the Secret Service—they may not turn it down. This statutory mandate reflects the critical importance that Congress has attached to the physical safety of these officials.

Congress has also charged the Secret Service with responsibility for protecting visiting heads of foreign states and foreign governments. The assassination of a foreign head of state on American soil could be catastrophic from a foreign relations standpoint and could seriously threaten national security.

The bill I introduced, S. 1360, would enhance the Secret Service's ability to

protect these officials, and the nation, from the risk of assassination. It would do this by facilitating the relationship of trust between these officials and their Secret Service protectors that is essential to the Secret Service's protective strategy. Agents and officers surround the protectee with an all-encompassing zone of protection on a 24-hour-a-day basis. In the face of danger, they will shield the protectee's body with their own bodies and move him to a secure location.

That is how the Secret Service averted a national tragedy on March 30, 1981, when John Hinckley attempted to assassinate President Reagan. Within seconds of the first shot being fired, Secret Service personnel had shielded the President's body and maneuvered him into the waiting limousine. One agent in particular, Agent Tim McCarthy, positioned his body to intercept a bullet intended for the President. If Agent McCarthy had been even a few feet farther from the President, history might have gone very differently.

For the Secret Service to maintain this sort of close, unremitting proximity to the President and other protectees, it must have their complete, unhesitating trust and confidence. Secret Service personnel must be able to remain at the President's side even during confidential and sensitive conversations, when they may overhear military secrets, diplomatic exchanges, and family and private matters. If our Presidents do not have complete trust in the Secret Service personnel who protect them, they could try to push away the Secret Service's "protective envelope" or undermine it to the point where it could no longer be fully effective.

This is more than a theoretical possibility. Consider what former President Bush wrote in April, 1998, after hearing of the independent counsel's efforts to compel Secret Service testimony:

The bottom line is I hope that [Secret Service] agents will be exempted from testifying before the Grand Jury. What's at stake here is the protection of the life of the President and his family and the confidence and trust that a President must have in the [Secret Servicel. If a President feels that Secret Service agents can be called to testify about what they might have seen or heard then it is likely that the President will be uncomfortable having the agents nearby. I allowed the agents to have proximity first because they had my full confidence and secondly because I knew them to be totally discreet and honorable. . . . I can assure you that had I felt they would be compelled to testify as to what they had seen or heard, no matter what the subject, I would not have felt comfortable having them close in. . . . I feel very strongly that the [Secret Service] agents should not be made to appear in court to discuss that which they might or might not have seen or heard. What's at stake here is the confidence of the President in the discretion of the [Secret Service]. If that confidence evaporates the agents, denied proximity, cannot properly protect the PresiAs President Bush's letter makes plain, requiring Secret Service agents to betray the confidence of the people whose lives they protect could seriously jeopardize the ability of the Service to perform its crucial national security function.

The possibility that Secret Service personnel might be compelled to testify about their protectees could have a particularly devastating affect on the Service's ability to protect foreign dignitaries. The mere fact that this issue has surfaced is likely to make foreign governments less willing to accommodate Secret Service both with respect to the protection of the President and Vice President on foreign trips, and the protection of foreign heads of state traveling in the United States.

The security of our chief executive officers and visiting foreign heads of state should be a matter that transcends all partisan politics and I regret that this legislation does not do more to help the Secret Service by providing a protective function privilege.

The Fugitive Apprehension Act. The Senate amendment to H.R. 3048 incorporates into the bill the substance of the Thurmond-Biden-Leahy substitute amendment to S. 2516, the Fugitive Apprehension Act, which passed the Senate unanimously on July 26, 2000. That substitute amendment reconciled the significant differences between S. 2516, as introduced, and S. 2761, "The Capturing Criminals Act," which I introduced with Senator KOHL on June 21, 2000. The Senate amendment to H.R. 3048 makes certain changes to S. 2516 to ensure that the authority granted is consistent with privacy and other appropriate safeguards.

As a former prosecutor, I am well aware that fugitives from justice are an important problem and that their capture is an essential function of law enforcement. According to the FBI, nearly 550,000 people are currently fugitives from justice on federal, state, and local felony charges combined. This means that there are almost as many fugitive felons as there are citizens residing in my home state of Vermont.

The fact that we have more than one half million fugitives from justice, a significant portion of whom are convicted felons in violation of probation or parole, who have been able to flaunt court order and avoid arrest, breeds disrespect for our laws and poses undeniable risks to the safety of our citizens.

Our Federal law enforcement agencies should be commended for the job they have been doing to date on capturing federal fugitives and helping the states and local communities bring their fugitives to justice. The U.S. Marshals Service, our oldest law enforcement agency, has arrested over 120,000 federal, state and local fugitives in the past four years, including more federal fugitives than all the other federal agencies combined. In prior years,

the Marshals Service spearheaded special fugitive apprehension task forces, called FIST Operations, that targeted fugitives in particular areas and was singularly successful in arresting over 34,000 fugitive felons.

Similarly, the FBI has established twenty-four Safe Streets Task Forces exclusively focused on apprehending fugitives in cities around the country. Over the period of 1995 to 1999, the FBI's efforts have resulted in the arrest of a total of 65.359 state fugitives.

Nevertheless, the number of outstanding fugitives is too large. The Senate amendment to H.R. 3028 will help make a difference by providing new but limited administrative subpoena authority to the Department of Justice to obtain documentary evidence helpful in tracking down fugitives and by authorizing the Attorney General to establish fugitive task forces.

Unlike initial criminal inquiries, fugitive investigations present unique difficulties. Law enforcement may not use grand jury subpoenas since, by the time a person is a fugitive, the grand jury phase of an investigation is usually over. Use of grand jury subpoenas to obtain phone or bank records to track down a fugitive would be an abuse of the grand jury. Trial subpoenas may also not be used, either because the fugitive is already convicted or no trial may take place without the fugitive.

This inability to use trial and grand jury subpoenas for fugitive investigations creates a gap in law enforcement procedures. Law enforcement partially fills this gap by using the All Writs Act, 28 U.S.C. §1651(a), which authorizes federal courts to "issue all writs necessary or appropriate in aid of their respective jurisdictions and agreeable to the usages and principles of law." The procedures, however, for obtaining orders under the Act, and the scope and non-disclosure terms of such orders. vary between jurisdictions. Authorizing administrative subpoena power will help bridge the gap in fugitive investigations by providing a uniform mechanism for federal law enforcement agencies to obtain records useful for tracking a fugitive's whereabouts.

The Thurmond-Biden-Leahy stitute amendment, which previously passed the Senate, incorporated a number of provisions from the Leahy-Kohl "Capturing Criminals Act" and made significant and positive modifications to the original version of S. 2516. These improvements are largely incorporated into the current Hatch-Leahy-Thurmond amendments to H.R. 3048, which the Senate considers today. First, as introduced, S. 2516 would have limited use of an administrative subpoena to those fugitives who have been "indicted," and failed to address the fact that fugitives flee after arrest on the basis of a "complaint" and may flee

after the prosecutor has filed an "information" in lieu of an amendment. The prior substitute amendment and the current Hatch-Leahy-Thurmond amendment to H.R. 3048, by contrast, would allow use of such subpoenas to track fugitives who have been accused in a "complaint, information or indictment."

Second, S. 2516, as introduced, would have required the U.S. Marshals Service to report quarterly to the Attorney General (who must transmit the report to Congress) on use of the administrative subpoenas. While a reporting requirement is useful, the requirement as described in the original S. 2516 was overly burdensome and insufficiently specific. The prior substitute amendment and the current Hatch-Leahy-Thurmond amendment to H.R. 3048 would require, as set forth in the Capturing Criminals Act, that the Attorney General report for the next three years to the Judiciary Committees of both the House and Senate on the following information about the use of administrative subpoenas in fugitive investigations: the number issued, by which agency, identification of the charges on which the fugitive was wanted and whether the fugitive was wanted on federal or state charges.

Third, although the original S. 2516 outlined the procedures for enforcement of an administrative subpoena, it was silent on the mechanisms for contesting the subpoena by the recipient. The procedures outlined in H.R. 3048 address this issue in a manner fully consistent with those I originally outlined in the Capturing Criminals Act by allowing a person, who is served with an administrative subpoena, to petition a court to modify or set aside the subpoena.

Fourth, the original S. 2516 set forth no procedure for the government to command a custodian of records to avoid disclosure or delay notice to a customer about the existence of the subpoena. This is particularly critical in fugitive investigations when law enforcement does not want to alert a fugitive that the police are on the person's trail. Both the prior substitute amendment to S. 2516, which passed the Senate last July, and H.R. 3048, which the Senate considers today, provide express authority for law enforcement to apply for a court order directing the custodian of records to delay notice to subscribers of the existence of the subpoena on the same terms applicable in current law to other subpoenas issued, for example, to telephone companies and financial institutions. This procedure is consistent with provisions I originally proposed in the Capturing Criminals Act.

Fifth, S. 2516, as introduced, would have authorized use of an administrative subpoena in fugitive investigations upon a finding by the Attorney General that the documents are "rel-

evant and material," which is further defined to mean that "there are articulable facts that show the fugitive's whereabouts may be discerned from the records sought." In my view. changing the standard for issuance of a subpoena from "relevancy" to a hybrid of "relevant and material" would set a confusing precedent. Accordingly, the Hatch-Leahy-Thurmond current amendment to H.R. 3048 amendment would authorize issuance of an administrative subpoena in fugitive investigations based on the same standard as for other administrative subpoenas. i.e., that the documents may be relevant to an authorized law enforcement inquiry.

Sixth, the original S. 2516 authorized the Attorney General to issue guidelines delegating authority for issuance of administrative subpoenas in fugitive investigations only to the Director of the U.S. Marshals Service, despite the fact that the FBI, and the Drug Enforcement Administration also want this authority to find fugitives on charges over which they have investigative authority. The substitute amendment to S. 2516, which previously passed the Senate, and the current Hatch-Leahy-Thurmond amendment to H.R. 3048, which we consider today, would authorize the Attorney General to issue guidelines delegating authority for issuance of administrative subpoenas to supervisory personnel within components of the Department. In addition, the current Hatch-Leahy-Thurmond amendment to H.R. 3048 would require that the Attorney General's guidelines require that administrative subpoenas in fugitive investigations be issued only upon the review and approval of senior supervisory personnel within the respective investigating agency and of the U.S. Attorney in the judicial district in which the subpoena would be served.

Seventh, the original S. 2516 did not address the issue that a variety of administrative subpoena authorities exist in multiple forms in every agency. The substitute amendment to S. 2516, which previously passed the Senate, and the Hatch-Leahy-Thurmond amendment to H.R. 3048, which we consider today, incorporates from the Capturing Criminals Act a requirement that the Attorney General provide a report on this issue.

Eighth, the current Hatch-Leahy-Thurmond amendment to H.R. 3048 would limit the use of administrative subpoenas in fugitive investigations to those fugitives who have been accused or convicted of serious violent felony or serious drug offenses.

Finally, as introduced, S. 2516 authorized the U.S. Marshal Service to establish permanent Fugitive Apprehension Task Forces. By contrast, the substitute amendment to S. 2516, which previously passed the Senate, and the Hatch-Leahy-Thurmond amendment to

H.R. 3048, which we consider today, would authorize \$40,000,000 over three years for the Attorney General to establish multi-agency task forces (which will be coordinated by the Director of the Marshals Service) in consultation with the Secretary of the Treasury and the States, so that the Secret Service, BATF, the FBI and the States are able to participate in the Task Forces to find their fugitives.

The Hatch-Leahy-Thurmond amendment to H.R. 3048 will help law enforcement—with increased resources for regional fugitive apprehension task forces and administrative subpoena authority—to bring to justice both federal and state fugitives who, by their conduct, have demonstrated a lack of respect for our nation's criminal justice system.

I urge that the Senate pass H.R. 3048 with the Hatch-Leahy-Thurmond amendment without delay.

Mr. LOTT. Mr. President, I ask unanimous consent that the amendment be agreed to, the bill, as amended, be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4319) was agreed to.

The bill (H.R. 3048), as amended, was read the third time and passed.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION AUTHORIZATION ACT OF 2000—CONFERENCE REPORT

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to the conference report to accompany H.R. 1654, which is the NASA authorization conference report.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1654) to authorize appropriations for the National Aeronautics and Space Administration for fiscal years 2000, 2001, and 2002, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by all of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.)

(The conference report is printed in the House proceedings of the RECORD of September 12, 2000.)

Mr. HOLLINGS. Mr. President, I rise in support of H.R. 1654 which authorizes appropriations for the National Aeronautics and Space Administration for fiscal years 2000 to 2002.

We have taken a long road to reach this point. I particularly want to thank my fellow conferees, Senators McCain, Frist, Stevens, and Breaux. You and your staffs have worked in a professional, bipartisan manner to get this bill done. Congratulations.

In the past year alone, we have heard of great successes at NASA-launch of the first element of the International Space Station, discoveries about the nature of our universe by our new Chandra X-Ray Observatory, the discovery of evidence to show liquid water on Mars. However, NASA has also seen some chinks in its armor with the failure of the Mars Climate Orbiter and the Mars Polar Lander and subsequent questions about the "faster, better, cheaper" mission concept. I note that Section 301 of the bill requires an independent cost analysis of missions that are projected to cost more than \$150 million so that we do not operate under unrealistic budget constraints that have been blamed, in part, for these losses.

It seems that NASA is at a bit of a crossroads both in trying to operate more efficiently without losing its effectiveness and in looking forward to the day when the International Space Station will be complete. So you see, this is the perfect time for an authorization bill like this one to help lay down a road map for the agency.

Specifically, H.R. 1654 authorizes \$13.6 billion for NASA in FY 2000, \$14.2 billion in FY 2001, and \$14.6 billion in FY 2002. These are at or above the requested level. The conference report highlights some priorities within NASA's accounts. I want to make it very clear for the record, though—this is an authorization bill. None of this money in any of these accounts can be spent until appropriated. The VA—HUD appropriations law will have the final say on spending, and that is as it should be.

Senator McCain and Senator Breaux, I am sure, will summarize the major provisions of this legislation. I would like to discuss, briefly, why the conferees did what we did in a few places.

The bill imposes a cap on the total development cost of the International Space Station and related Space Shuttle launch costs. While I am no supporter of the International Space Station, I support the cap as a way of imposing a program that until recently was bleeding more and more red ink every day.

Nonetheless, I am concerned about the safety of the Shuttle, the Station, and our astronauts. As soon as NASA expressed concerns about safety, we immediately listened to their concerns and accommodated them without putting a hole in the cap that you could fly the Shuttle through.

Section 324 of the bill alters the provisions of the Space Act relating to insurance, indemnification, and cross waivers for experimental launch vehi-

cles. Current law provides broad authority for the Administrator of NASA to indemnify the developers of experimental launch vehicles. As you may know, the parallel authority under FAA's licensing authority for operational vehicles sunsets periodically. H.R. 1654 places a sunset on the authority for experimental vehicles to allow us to review its use. The bill also does not allow reciprocal waivers of liability in a case where a loss results from the willful misconduct of a party to such waiver.

I am pleased we could include section 322 which would prohibit the licensing of the U.S. launch of a payload containing advertising which would be visible to the naked eye from space. It also encourages the President to seek agreements with other nations to do the same. I, for one, do not believe that advertisements should compete for space in the sky with constellations, meteor showers, and planets.

The conferees have authorized \$25 million in FY 2001 and 2002 for the Commercial Remote Sensing Program's data purchases. I hope that such funding would be used to assist local and state government users acquire and use remote sensing data in their operations.

The conferees have worked with the Administration to resolve several complicated policy issues. We did not come to the exact place the Administration wanted us to be. Nonetheless, I think we have come to provisions which satisfy the Administration's bottom line. Does the Administration love the bill? Of course not—what agency likes oversight, likes an authorization bill, especially if that agency has been operating in the absence of authorization since FY 1993. Nonetheless, I think we have done a good job. This is a bill the President can and should sign.

We resolve the Administration's concerns regarding onerous provisions relating to Russian involvement in the Space Station program by making them country-neutral and forward-looking. The bill keeps the Space Station Commercial Demonstration Program in law, albeit for a shorter authorization period. H.R. 1654 will allow NASA to lease an inflatable habitation module or "Trans-HAB." The bill does not terminate the Triana satellite program. And, as I mentioned before, the bill accounts for safety-related concerns about the cap provision.

Unfortunately, we could not include some meritorious provisions which were transmitted to the Hill with NASA's FY 2001 budget submission. I would be happy to work in the next Congress with NASA on a policy bill which meets these needs.

Finally, I thank the chairman of the Commerce Committee once again. When our negotiations with the House threatened to dissolve, he stood firm on the need for a bipartisan NASA bill

this year. I speak for all of the conferees when I congratulate him for putting together this bill. While it is not perfect, I support H.R. 1654 and hope that the Senate will adopt the conference report.

Mr. BRÉAUX. Mr. President, I rise in support of the conference report on H.R. 1654, the NASA Authorization bill. First, I thank Chairman McCain and the other Senate conferees. We have come to a bi-partisan agreement after many months of conference and now we have the opportunity to pass a NASA Authorization bill for the first time since fiscal year 1993.

As you know, NASA is one of the agencies of government that captures the spirit of the American people. Who can fail to be awed by the liftoff of a Space Shuttle, a walk in space, or the discovery of water on Mars? Because NASA is such a treasure, it is important that we in Congress exercise our duty to oversee and authorize its programs.

And that is just what this conference report does. H.R. 1654 would authorize funding for the National Aeronautics and Space Administration at the appropriated level of \$13.6 billion in FY 2000. It provides \$14.2 billion in FY 2011 and \$14.6 billion in FY 2002, slightly more than the President's requested level.

The bill fully funds the Space Shuttle program, the International Space Station, and the Space Launch Initiative. It provides authorizations above the requested levels for the Space Grant College program, the Experimental Program to Stimulate Competitive Research, EPSCOR, and NASA's research into aircraft noise reduction and cleaner, more energy-efficient aircraft engine technology—research that can improve the quality of life of Americans who live near airports.

When we were nearing the finish line with this bill, the Administration contacted us about several key concerns they had with the bill. We have resolved their concerns, and now I would like to run through these issues: our interaction with International Space Station partners, commercialization of the Space Station, Trans-Hab, Shuttle Safety, and Triana.

International partners and the space station: We successfully altered House-proposed lauguage which was overly punitive. The provision contained in H.R. 1654 encourages NASA to provide for equitable use of the Space Station by seeking reduction in utilization rights (like crew allocation) for International Partners that willfully violate any of their commitments to the program

Space station commercialization: The conferees agreed to leave in place the Space Station Commercial Development program and did not agree to the House's proposal to eliminate the program. We did, however, shorten the period of time for which the program is authorized from 2004 to 2002. The program will be up for reauthorization at the same time that NASA itself is due for reauthorization.

Trans-hab: NASA has considered replacing the "hard" habitation module for the Space Station with an inflatable "Trans-Hab." The House had sought to prohibit NASA from using its funds to develop an inflatable habitation module. The conference agreement clarifies that NASA is permitted to lease or use a commercially-developed Trans-Hab. It is my understanding that NASA is currently evaluating a very serious commercial proposal for an inflatable space structure capable of accommodating humans in space, and this language should allow them to participate in such an agree-

Shuttle safety: The Administration was concerned that the Senate-passed cost cap on the International Space Station and Shuttle flights to assemble the Station might send the wrong message about Shuttle and Station crew safety. That concern sent up a red flag to the conferees—no cost limitation proposed in this legislation should make NASA hesitate for one moment in launching the Shuttle if a life was at stake. No one wants to jeopardize the life and safety of the crew of the Space Station. We inserted language to ensure that the cap would not apply to costs incurred to ensure or enhance the safety or reliability of the Space Shuttle and another provision to allow the Administrator to use monies provided beyond the cap to improve safety or to launch a shuttle to protect the Station and its crew.

Triana: Finally, the House agreed to take out its provision to terminate the Triana program. Triana will be the world's first Earth-observing mission to L1, the gravitational mid-point between the sun and the Earth. From this vantage point, the satellite has a continuous view of the Sun-lit portion of the Earth. Over 90 percent of the instrument development has already taken place, and we've already spent about \$40 million.

NASA highlighted several legislative provisions which they feel would be beneficial, yet are not included in the bill. While I would not support all of those provisions, I am disappointed we could not include some of the provisions that represent their greatest needs in this Conference Report.

I would also like to highlight a few of H.R. 1654's other major provisions. The Conference Report imposes a \$25.0 billion cost cap for International Space Station development and a \$17.7 billion cost cap for Space Shuttle launch costs in connection with Station assembly. The cap would not apply to operations, research, or crew return activities after the Station is complete. An additional contingency fund of \$5 billion for

Station development and \$3.5 billion for Space Shuttle is authorized to provide flexibility in case of an emergency or other unusual circumstance.

As you know, I am a strong supporter of the International Space Station Program. The Space Shuttle *Discovery* is currently on the 100th Space Shuttle mission, putting cargo and other items in place so that the Station is ready to be occupied by its permanent crew next month.

The cap on Station development in the bill does not seek to alter or impede that program in any way. It merely seeks to limit the development costs so we stick to the plan and put a fullyoperational Space Station on orbit in a timely manner.

The bill also directs NASA, after Congressional review of their plan, to establish a non-governmental organization (NGO) to manage Space Station research and commercial activities upon completion of the Station. I understand that some members are concerned about this provision. I will simply note: (1) NASA is already in the process of evaluating and establishing an NGO to manage station research; and (2) our bill allows Congress nearly 4 months to react to NASA's proposal before it can be implemented. If we don't like what they come back with, we can tell them not to do it.

H.R. 1654 represents the culmination of several years of hard work, and it is a good piece of legislation. I don't like every provision in the bill, but it represents a fine compromise—and one it looked like we might never reach. Again, I would like to thank Chairman McCAIN and Senator FRIST for their hard work and to thank our staffs, in particular Floyd DesChamps, Elizabeth Prostic, and Jean Toal Eisen.

I urge the swift adoption of the conference report.

Mr. LOTT. Mr. President, I ask unanimous consent that the conference report be agreed to, the motion to reconsider be laid upon the table, and any statements relating to the report be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

CORRECTING THE ENROLLMENT OF H.R. 1654

Mr. LOTT. Mr. President, I ask unanimous consent that H. Con. Res. 409, a concurrent resolution, which corrects the enrollment of H.R. 1654 be agreed to and the motion to reconsider with laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (H. Con. Res. 409) was agreed to.

FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM AMENDMENT

Mr. LOTT. Mr. President, I ask unanimous consent that the Governmental

Affairs Committee be discharged from further consideration of H.R. 2842, and the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2842) to amend chapter 89 of title 5, United States Code, concerning the Federal Employees Health Benefits (FEHB) Program, to enable the Federal Government to enroll an employee and his or her family in the FEHB Program when a State court orders the employee to provide health insurance coverage for a child of the employee but the employee fails to provide the coverage.

There being no objection, the Senate proceeded to consider the bill.

Mr. LOTT. I ask unanimous consent that the bill be read a third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 2842) was read the third time and passed.

TO COMPLETE THE ORDERLY WITHDRAWAL OF THE NATIONAL OCEANIC AND ATMOSPHERIC AD-MINISTRATION FROM THE CIVIL ADMINISTRATION OF THEPRIBILOF ISLANDS, ALASKA

Mr. LOTT. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of H.R. 3417 and the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3417) to complete the orderly withdrawal of the National Oceanic and Atmospheric Administration from the civil administration of the Pribilof Islands, Alaska.

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 4320

(Purpose: To reauthorize the Coastal Zone Management Act and the Atlantic Striped Bass Conservation Act, and for other pur-

Mr. LOTT. Mr. President, Senators SNOWE and KERRY have an amendment at the desk, and I ask for its consideration

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Mississippi [Mr. LOTT] for Ms. SNOWE, for herself and Mr. KERRY, proposes an amendment numbered 4320.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

Mr. LOTT. Mr. President, I ask unanimous consent that the amendment be agreed to.

objection, it is so ordered.

The amendment (No. 4320) was agreed

Ms. SNOWE. Mr. President, I rise to support H.R. 3417, the Pribilof Islands Transition Act with the amendment I have offered. This bill, as amended, contains a number of ocean, coastal, and fisheries related titles that will result in major conservation gains for our nation's marine resources at a time when we are placing enormous demands on them. The bill not only attempts to provide additional environmental protections through a number of state and local programs, but also tools for better management.

Title I of this bill is the Pribilof Islands Transition Act. The Alaskan Pribilof Islands in the Bering Sea were a former reserve for harvesting fur seals. The Commerce Department, acting through the National Oceanic and Atmospheric Administration (NOAA), has been involved in municipal and social services on the islands since 1910. In 1983, NOAA tried to remove themselves from administering these programs. However, despite the \$20 million in funds the Pribilof Islands received to replace future annual Federal appropriations, the Pribilof Islanders claim that the terms of the transition process were not met and the withdrawal failed.

This title authorizes \$28 million over five years to again attempt to achieve the orderly withdrawal of NOAA from the civil administration of the Pribilof Islands. Additionally, it authorizes \$10 million a year for five years for NOAA to complete its environmental cleanup and landfill closure obligations prior to the final transfer of federal property to the six local entities. The Pribilof Islands have historically been a very expensive program to the American taxpayers. Congress expects that this title will provide a final termination of NOAA's municipal and social service responsibilities on the islands and a distinct end to federal taxpayer funding of those services.

Title II of this bill is the Coastal Zone Management Act of 2000, which refines and reauthorizes funding for the nation's coastal zone management program. This is the same language that was passed by unanimous consent in the Senate on September 28, 2000. Not only is this federal-state partnership important to my home state of Maine. but it is also a significant management tool for coastal states throughout the country. Despite the fact that the coastal zone only comprises 10 percent of the contiguous U.S. land area, it is home to more than 53 percent of the U.S. population, and more than 3,600 people relocate there annually. Not only is it an important economic region, but the coastal zone is also critical ecologically.

We are currently facing a very serious problem in the coastal zone in the

The PRESIDING OFFICER. Without form of non-point source pollution. This type of runoff pollution is degrading the condition of our coastal rivers. wetlands, and marine environments. Compromising the environmental integrity of the coastal zone can in turn have a large impact on the regions' economic viability in a number of sectors, including tourism and fishing. The Coastal Zone Management Act of 2000 addresses this issue by encouraging and funding states to implement local solutions to their non-point source pollution problems. We have not created any new mandates or programs addressing non-point source pollution. Rather, the Coastal Community program can be used at the states' discretion if they want to create and implement local community-based solutions to problems, which would include nonpoint source pollution control strategies and measures.

This title greatly increases authorization levels for the coastal zone management program, allowing states to better address their coastal management plan goals. While we have achieved many successes through the CZMA, the states have made it clear that they can do more and that they can raise additional funds to match the increased federal funding. Therefore, we have authorized a total of \$136.5 million for fiscal year 2001 and increased authorization levels by \$5.5 million a year through fiscal year 2004. This total authorization includes an increase for the National Estuarine Research and Reserve System (NERRS) to \$12 million in fiscal year 2001, with an additional \$1 million increase each year through fiscal year 2004.

Mr. President, Title III of the bill deals with the management of several Atlantic coast fisheries. Subtitle A reauthorizes the Atlantic Striped Bass Conservation Act (ASBCA). ASBCA was originally passed to help coordinate and improve interstate management of Atlantic striped bass. an important commercial and recreational fish. Because striped bass migrate along the eastern seaboard, it is imperative that management measures be coordinated among the various states. The rebuilding of striped bass populations is considered one of our fisheries management success stories and it is critical that we continue these efforts. This subtitle authorizes \$1.25 million a year for fiscal years 2001 through 2003 to carry out the provisions of the act and another \$250,000 to conduct a population study on the Atlantic striped bass.

Subtitle B, the Atlantic Costal Fisheries Act of 2000, will reauthorize the highly successful interstate program that manages coastal fisheries that cross jurisdictional boundaries along the east coast. The states have proven that joint management of these resources is far more effective than a piecemeal approach by individual

states. In an effort to further increase the effectiveness of interstate management, the states have initiated the Atlantic Coastal Cooperative Statistics Program. This joint data collection and analysis program is intended to meet the need for improved fishery statistics for management purposes. It is a comprehensive effort to address all areas and fisheries and could serve as a model for a national cooperative statistics program. This subtitle authorizes \$10 million in fiscal year 2001, increasing the authorization by \$2 million a year until fiscal year 2005.

Subtitle C of this title deals with a significant problem facing the Atlantic bluefin tuna, ABT, fishery. In 1998, the Highly Migratory Species Advisory Panel unanimously requested and advised the Secretary of Commerce to ban the use of spotter aircraft in the General and Harpoon categories of the ABT fishery. Spotter aircraft tend to accelerate the catch of the ABT, and thus can create significant impacts on both the communities that depend on the fishery and the conservation intentions of the ABT management plans. Because NMFS has been unable to successfully implement a rule to ban the use of spotter aircraft in the ABT fishery over the past two years, it has become necessary for Congress to take legislative action. Subtitle C prohibits the unfair use of spotter aircraft to locate or assist in fishing for ABT in the General and Harpoon categories of the ABT fishery. This action follows numerous public hearings held by NMFS and the discussion of this issue at several Senate hearings. This provision passed by unanimous consent in the Senate as part of an amendment to H.R. 1651, the Fishermen's Protective Act, on June 26, 2000.

Mr. President, to many Americans, as well as myself, the practice of shark finning is both wasteful and disturbing. Shark finning is a method by which the dorsal fin and tail of a shark are cut off and retained, while the rest of the shark carcass is discarded as waste. Much of the fin product is then exported for sale to Asian countries. Title IV, the Shark Conservation Act. attempts to address this problem by prohibiting the domestic landing and at-sea transhipment of shark fins. It also directs the Administration to begin international negotiations to reduce foreign shark finning.

Title V of the bill is the Fishermen's Protective Act Amendments of 2000. It amends the Fishermen's Protective Act of 1967 to lengthen the period during which reimbursement can be provided to owners of U.S. fishing vessels for costs incurred when a vessel is illegally seized, detained, or charged certain fees by a foreign country. Under the title, the reimbursement period is extended until fiscal year 2003. This provision passed by unanimous consent in the Senate on June 26, 2000.

Mr. President, title VI of the bill is the Yukon River Salmon Act of 2000. It creates a Yukon River Salmon Panel to advise both the Secretary of State regarding negotiation of any international agreements with Canada relating to management of Yukon River salmon stocks and Secretary of the Interior regarding management of those stocks. An Advisory Committee is created to make advisory recommendations to a number of entities, including the Panel. A total of four million dollars a year for fiscal years 2000 through 2003 is authorized. Of these funds, up to \$3 million a year can be used for a Yukon River salmon survey, restoration, enhancement activities; \$600,000 of the total is to be available for cooperative Yukon River salmon research and management projects. This provision passed by unanimous consent in the Senate on June 26, 2000.

This bill also address the very serious problem of an aging fishery research vessel, FRV, fleet. Because these vessels are used to conduct the majority of fishery stock assessments, they are a critical tool for improving management and regulation of our commercial fish species. Over the past year, I have conducted a series of six hearings across the country on fisheries management. At every hearing, the need for more and better data was raised repeatedly by the witnesses. The seventh title of the bill directs the Secretary of Commerce to acquire vessels, authorizing \$60 million a year for fiscal years 2002 through 2004. They will be outfitted with the latest technology and enable innovative research. New England is in particular need of a replacement FRV, since the current NOAA vessel, the Albatross IV, is 38 years old and at the end of its useful life. Without a new vessel, the ability for NOAA to collect long term fisheries, oceanographic, and biological data in New England will be seriously compromised. I had offered this provision as an amendment to the Fishermen's Protective Act which passed by unanimous consent in the Senate on June 26.

Mr. President, the bill also makes significant conservation and management improvements for our nation's coral reefs. Title VIII. the Coral Reef Conservation Act of 2000, requires the creation of a national coral reef action strategy. Of particular note is the use of marine protected areas to serve as replenishment zones. The U.S. Coral Reef Task Force has called for setting aside 20 percent of coral reefs in each region of the United States that contains reefs as no-take areas. However, many of the U.S. islands that have coral reefs have significant cultural ties to these reefs. It is imperative that any new marine protected areas are developed in close cooperation with the people of these islands and account for traditional and cultural uses of these

resources. Without such cooperation, there will not be public support. The national strategy will address how such traditional uses will be incorporated into these replenishment zones.

The national program will also incorporate such important topics as mapping; research, monitoring, and assessment; international and regional management; outreach and education; and restoration. According to NOAA, the majority of our nation's coral reefs are within federal waters, therefore it is expected that NOAA will continue to work cooperatively with the states, territories, and commonwealths in the development and implementation of coral reef management plans and shift the burden of responsibility onto these states, territories, and commonwealths.

The title also creates a new coral reef conservation program, which will provide grants to states, governmental authorities, educational institutions, and non-governmental organizations. This is intended to foster locally based coral reef conservation and management. Creation of a coral reef conservation fund is also authorized. This fund would allow the Administration to enter into agreements with nonprofit organizations to support partnerships between the public and private sectors to further the conservation of coral reefs and help raise the matching funds required as part of the new grants pro-

The title authorizes a total of \$16 million a year for fiscal years 2001 through 2004 to be spilt equally between the local coral reef conservation program and national coral reef activities.

Title IX of the bill amends the American Fisheries Act to allow for the participation of two additional catcher vessels in the Alaskan pollock fishery. These vessels were able to demonstrate that they should have been included in the Act when it passed in 1998. This title also makes a number of minor technical changes to other fisheries laws.

Title X creates a new marine mammal rescue assistance grant program. This new program will assist eligible marine mammal stranding network participants by providing funding for recovery and treatment of marine mammals. Grants can also be used for data collection and the continued operation of these stranding centers. Efforts of these centers are critical for the continued conservation and management of marine mammals in our nation's waters. This program is authorized at \$5 million for each of fiscal years 2001, 2002, and 2003.

I would like to thank Senator KERRY, the ranking member of the Oceans and Fisheries Subcommittee for his hard work and support of this bill. I would also like to thank Senator INOUYE for his support, particularly for his contributions to the coral reef conservation section of the bill. In addition, I would like to thank Senator McCAIN, the chairman of the Commerce Committee, and Senator Hollings, the ranking member of the Committee, for their bipartisan support of this measure. We have before us an opportunity to significantly improve our Nation's ability to conserve and manage our marine resources and I urge the Senate to pass H.R. 3417, as amended.

Mr. KERRY. Mr. President, I rise to make a few remarks on H.R. 3417 and amendments to it that will pass the Senate today. It is a package of several bills all designed to benefit our coastal and marine environment. It is my hope, Mr. President, that the House of Representatives will consider and pass the bill immediately. They are sound proposals with broad support.

Since the day I first arrived in the Senate more than 15 years ago, I have worked hard to address the many challenges confronting our common ocean and coastal resources. After all, few states draw as much of their national and regional identity from their coasts as does Massachusetts. And I have been fortunate that the Commerce Committee includes members of both parties who are ready and willing to work together, to find compromise and pass sound legislation. In that regard, I to thank Senators SNOWE, want McCain and Hollings for their work on this bill.

The major provisions of H.R. 3417, as amended, are the Pribilof Islands Transition Act, the Shark Finning Prohibition Act, the Atlantic Striped Bass Conservation Act, the Atlantic Coastal Fisheries Cooperative Management Act, the Coastal Zone Management Act, the Fishermen's Protective Act Amendments, the Coral Reef Conservation Act and the Marine Mammal Rescue Assistance Act. Each of these major proposals in the bill, except the corals bill, has already passed the House, the Senate or both. The bill also includes a ban on the use of spotter aircraft in certain bluefin tuna fishery categories. This proposal has passed the Senate.

I would like to make a few short comments on the Coastal Zone Management Act. To begin, I want to thank Senator SNOWE, our chairman on Oceans and Fisheries Subcommittee on the Commerce Committee, for putting this legislation on the Committee agenda this Congress and working for its enactment.

Mr. President, when Congress enacted the Coastal Zone Management Act in 1972, it made the critical finding that, "Important ecological, cultural, historic, and esthetic values in the coastal zone are being irretrievably damaged or lost." As we deliberated CZMA's reauthorization this session. I measured our progress against that almost 30-year-old congressional finding. runoff provision in the bill. It's an im-And, I concluded that while we have made tremendous gains in coastal environmental protection, the increasing challenges have made this congressional finding is as true today as it was

It is clear from the evidence presented to the Committee in our oversight process and from other input that I have received, that a great need exists for the federal government to increase its support for states and local communities that are working to protect and preserve our coastal zone. To accomplish that goal, the Committee has reported a bill that substantially increases annual authorizations for the CZMA program and targets funding at controlling coastal polluted runoff, one the more difficult challenges we face in the coastal environment.

This reauthorization tackles the problem of polluted coastal runoff. This is one of the great environmental and economic challenges we face in the coastal zone. At the same time that pollution from industrial, commercial and residential sources has increased in the coastal zone, the destruction of wetlands, marshes, mangroves and other natural systems has reduced the capacity of these systems to filter pollution. Together, these two trends have resulted in environmental and economic damage to our coastal areas. These effects include beach closures around the nation, the discovery of a recurring "Dead Zone" covering more than 6,000 square miles in the Gulf of Mexico, the outbreak of Pfiesteria on the Mid-Atlantic, the clogging of shipping channels in the Great Lakes, and harm to the Florida Bay and Keys ecosystems. In Massachusetts, we've faced a dramatic rise in shell fish beds closures, which have put many of our fishermen out of work.

To tackle this problem, the Coastal Zone Management Act of 2000 targets up \$10 million annually to, "assist coastal communities to coordinate and implement approved coastal nonpoint pollution control strategies and measures that reduce the causes and impacts of polluted runoff on coastal waters and habitats." This is an important amendment. For the first time, we have elevated the local management of runoff as national priority within the context of the CZMA program. Runoff is not a state-by-state problem; the marine environment is far too dynamic. States share the same coastlines and border large bodies of waters, such as the Gulf of Mexico, the Chesapeake Bay or the Long Island Sound, so that pollutants from one state can detrimentally affect the quality of the marine environment in other states. We are seeing the effects of polluted runoff both in our coastal communities and on our nation's living marine resources and habitats. Mr. President. I'm pleased that we've included the

portant step forward and I believe we will see the benefits in our coastal environment and economy.

The Coastal Zone Management Act of 2000, Mr. President, has been endorsed by the 35 coastal states and territories through the Coastal States Organization. It also has the endorsement of the Great Lakes Commission, American Oceans Campaign, Coast Alliance, Center for Marine Conservation, Sierra Club, Environmental Defense, California CoastKeeper and many other groups. It's a long list that makes clear that this is a consensus proposal. We heard from all sides and did our best to fine compromise, and I believe that we succeeded.

I also want to make a short statement on shark finning. H.R. 3417 would prohibit the practice of shark finning. Sharks are among the most biologically vulnerable species in the ocean. Their slow growth, late maturity and small number of offspring leave them exceptionally vulnerable to overfishing and slow to recover from depletion. At the same time, sharks, as top predators, are essential to maintaining the balance of life in the sea. While many of our other highly migratory species such as tunas and swordfish are subject to rigorous management regimes, sharks have largely been overlooked until recently.

The bill bans the wasteful practice of removing a shark's fins and returning the remainder of the shark to sea. National Marine Fisheries Service regulations in the Atlantic Ocean prohibit the practice of shark finning, but a nationwide prohibition does not currently exist. Shark fins comprise only a small percentage of the weight of the shark, and yet this is often the only portion of the shark retained. The Magnuson-Stevens Act and international commitments discourage unnecessary waste of fish, and thus I believe this bill ensures our domestic regulations are consistent on this point. Another goal of the Magnuson-Stevens Act-the minimization of bycatch and bycatch mortality—is an issue that I have been particularly committed to over the years. Because most of the sharks caught and finned are incidentally captured in fisheries targeting other species, I believe establishing a domestic ban will help us further reduce this type of shark mortality.

The next step in this process is to act internationally. At present, foreign fleets transship or land approximately 180 metric tons of shark fins annually through ports in the Pacific alone. The global shark fin trade involves at least 125 countries, and the demand for shark fins and other shark products has driven dramatic increases in shark fishing and shark mortality around the world. International measures are an absolutely critical component of achieving effective shark conservation.

Finally, the bill authorizes a Western Pacific longline fisheries cooperative research program to provide information for shark stock assessments, identify fishing gear and practices that prevent or minimize incidental catch of sharks and ensure maximum survivorship of released sharks, and provide data on the international shark fin trade.

The United States is a global leader in fisheries conservation and management. I believe this legislation provides us the opportunity to further this role, and take the first step in addressing an international fisheries management issue. In addition, I believe the U.S. should continue to lead efforts at the United Nations and international conventions to achieve coordinated international management of sharks, including an international ban on shark-finning.

Mr. President, this package also includes a provision to ban the use of spotter aircraft in both the harpoon and general categories of the Atlantic bluefin tuna fishery. This has been an ongoing issue in New England since 1996. Several of my Senate colleagues, including Senators SNOWE, KENNEDY, GREGG, and COLLINS, have asked the agency to ban aircraft in the past. Unfortunately Mr. President, because aircraft do not catch fish, our legal system has determined that the agency cannot regulate these aircraft. Let me point out that the fisheries service has gone through two rounds of public rulemaking on this issue and in both instances an overwhelming number of public comments were in support of this ban. The Atlantic bluefin tuna fishery is one of the last open fisheries in New England, and spotter aircraft provide an unfair competitive advantage to those fishermen who use them. Banning spotter aircraft will level the playing field and provide the opporthousands οf New tunity for Englanders to experience the thrill of landing a 400 pound bluefin tuna that, depending on the quality of the fish, can easily be worth \$10,000.

Mr. President, H.R. 3417 also includes an authorization for the Secretary of Commerce to acquire fishery research vessels in 2002, 2003, and 2004 at a cost of \$60 million. These state-of-the-art fishery research vessels will replace a fleet of vessels that are becoming technologically obsolete and reaching the end of their useful lives. In New England, the primary vessel used for our stock assessments is the 38-year old Albatross IV. Over the years NOAA has assumed increased responsibilities for managing our marine resources under the Magnuson-Stevens Fisheries Conservation and Management Act, the Marine Mammal Protection Act, and the Endangered Species Act. It is absolutely imperative that we give NOAA scientists the tools necessary to carry out the mandates Congress has given them.

Mr. President, I sincerely hope that and will not request sequential referthe House will move to pass this legislation. This is a very reasonable proposal. Indeed, it includes several proposals the House has initiated and passed. We have made every effort to act on their priorities and we ask that they do the same with our priorities.

ATLANTIC STRIPED BASS CONSERVATION ACT

Mr. SMITH of New Hampshire. Mr. President, I rise today to applaud my colleague from Arizona, Senator McCain, on his efforts to reauthorize the Atlantic Striped Bass Conservation Act in a package of oceans and fisheries legislation. I would also like to reaffirm the continued interest of the Committee on Environment and Public Works in this important legislation, over which our two committees have traditionally shared jurisdiction. As my colleague knows, this legislation is critically important to the northeast.

The populations of striped bass, which can be found all along the east coast, began to decline dramatically during the 1970s. In 1979, Congress responded by authorizing the Emergency Striped Bass Study as part of the Anadromous Fish Conservation Act. And in 1984, Congress enacted the Atlantic Striped Bass Conservation Act. This Act promotes a coordinated Federal-State partnership for striped bass management. The National Marine Fisheries Service and the U.S. Fish and Wildlife Service have been jointly responsible for working with State agencies to recover the fishery. Their efforts have been very successful. The commercial catch of striped bass peaked in 1998 at 19 million pounds, which is a dramatic increase from 1983 when the catch was 2.9 million pounds.

Historically, both the Environment and Public Works Committee, which I chair, and the Commerce, Science, and Transportation Committee, which is chaired by Senator McCain, have shared jurisdiction over the conservation of striped bass. Because both the Department of Commerce and the Department of the Interior are involved in the conservation of the fishery, legislation to reauthorize the 1984 Atlantic Striped Bass Conservation Act has always been of interest to both the Commerce Committee and the Environment and Public Works Committee. The most recent reauthorizing legislation, the Atlantic Striped Bass Conservation Act Amendments of 1997, was sequentially referred, by unanimous consent, to the Environment and Public Works Committee after the Commerce Committee ordered the bill to be reported. The Environment Committee then amended and reported the bill. It was signed into law on December 16. 1997.

In order to facilitate passage of reauthorizing legislation this year, I have agreed to the language being offered by Senator McCain in H.R. 3417, as amended, the Pribilof Islands Transition Act, ral. However, I want to reaffirm, with the agreement of my colleague, that this in no way affects the future jurisdiction of the Environment and Public Works Committee over the Atlantic Striped Bass Conservation Act.

Mr. McCAIN. As the Senator from New Hampshire stated, the Commerce Committee and the Environment and Public Works Committee have historically shared jurisdiction over the Atlantic Striped Bass Conservation Act. Our two committees have in the past always worked together to reauthorize and amend the Atlantic Striped Bass Conservation Act. I expect that relationship to continue.

In order to facilitate the passage of this year's Atlantic Striped Bass reauthorization, Subtitle A of Title III of H.R. 3417, as amended, reauthorizes the Atlantic Striped Bass Conservation Act. Although the Pribilof Islands Transition Act and the other provisions in this legislation are under the sole jurisdiction of the Commerce Committee, I understand that my colleague from New Hampshire has reviewed and approved the language contained in Title III; therefore, the shared jurisdiction of the Commerce Committee and the Environment and Public Works Committee over the conservation of Atlantic Striped bass should not be altered.

Mr. LOTT. I ask unanimous consent the bill be read a third time and passed, as amended, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3417), as amended, was read the third time and passed.

PROMOTING THE DEVELOPMENT OF THE COMMERCIAL SPACE TRANSPORTATION INDUSTRY

Mr. LOTT. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of H.R. 2607, and the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2607) to promote the development of the commercial space transportation industry, to authorize appropriations for the Office of the Associate Administrator for Commercial Space Transportation, to authorize appropriations for the Office of Space Commercialization, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 4321

Mr. LOTT. Mr. President, Senators McCain and Frist have an amendment at the desk, and I ask for its consideration.

22751

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Mississippi [Mr. LOTT] for Mr. McCain, for himself and Mr. Frist, proposes an amendment numbered 4321.

The amendment is as follows:

(Purpose: To promote the development of the commercial space transportation industry, and for other purposes)

Strike out all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Commercial Space Transportation Competitiveness Act of 2000".

SEC. 2. FINDINGS.

The Congress finds that-

(1) a robust United States space transportation industry is vital to the Nation's economic well-being and national security;

(2) enactment of a 5-year extension of the excess third party claims payment provision of chapter 701 of title 49, United States Code, (Commercial Space Launch Activities) will have a beneficial impact on the international competitiveness of the United States space transportation industry;

(3) space transportation may evolve into airplane-style operations;

- (4) during the next 3 years the Federal Government and the private sector should analyze the liability risk-sharing regime to determine its appropriateness and effectiveness, and, if needed, develop and propose a new regime to Congress at least 2 years prior to the expiration of the extension contained in this Act;
- (5) the areas of responsibility of the Office of the Associate Administrator for Commercial Space Transportation have significantly increased as a result of—
- (A) the rapidly expanding commercial space transportation industry and associated government licensing requirements;
- (B) regulatory activity as a result of the emerging commercial reusable launch vehicle industry; and
- (C) the increased regulatory activity associated with commercial operation of launch and reentry sites; and
- (6) the Office of the Associate Administrator for Commercial Space Transportation should continue to limit its promotional activities to those which support its regulatory mission.

SEC. 3. OFFICE OF COMMERCIAL SPACE TRANSPORTATION.

(a) AMENDMENT.—Section 70119 of title 49, United States Code, is amended to read as follows:

"\$ 70119. Office of Commercial Space Transportation.

"There are authorized to be appropriated to the Secretary of Transportation for the activities of the Office of the Associate Administrator for Commercial Space Transportation—

- "(1) \$12,607,000 for fiscal year 2001; and
- "(3) \$16,478,000 for fiscal year 2002.".
- (b) Table of Sections Amendment.—The item relating to section 70119 of the table of sections of chapter 701 of title 49, United States Code, is amended to read as follows:
- "70119. Office of Commercial Space Transportation.".

SEC. 4. OFFICE OF SPACE COMMERCIALIZATION.

(a) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to the Secretary of Commerce for the activities of the Office of Space Comercialization—

- (1) \$590,000 for fiscal year 2001;
- (2) \$608,000 for fiscal year 2002; and (3) \$626,000 for fiscal year 2003.
- (b) REPORT TO CONGRESS.—Not later than 90 days after the date of the enactment of this Act, the Secretary of Commerce shall transmit to the Congress a report on the Office of Space Commercialization detailing the activities of the Office, the materials produced by the Office, the extent to which the Office has fulfilled the functions established for it by the Congress, and the extent to which the Office has participated in interagency efforts.

SEC. 5. COMMERCIAL SPACE TRANSPORTATION INDEMNIFICATION EXTENSION.

- (a) IN GENERAL.—If, on the date of enactment of this Act, section 70113(f) of title 49, United States Code, has not been amended by the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001, then that section is amended by striking "December 31, 2000" and inserting "December 31, 2004"
- (b) AMENDMENT OF MODIFIED SECTION.—If, on the date of enactment of this Act, section 70113(f) of title 49, United States Code, has been amended by the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001, then that section is amended by striking "December 31, 2001" and inserting "December 31, 2004".

SEC. 6. TECHNICAL AMENDMENT TO SECTION 70113 OF TITLE 49.

- (a) Section 70113 of title 49, Untied States Code, is amended by striking "____, 19____.'," in subsection (e)(1)(A) and inserting "___, 20__.',".
- (b) The amendment made by subsection (a) takes effect on January 1, 2000.

SEC. 7. LIABILITY REGIME FOR COMMERCIAL SPACE TRANSPORTATION.

- (a) REPORT REQUIREMENT.—Not later than 18 months after the date of the enactment of this Act, the Secretary of Transportation shall transmit to the Congress a report on the liability risk-sharing regime in the United States for commercial space transportation.
- (b) CONTENTS.—The report required by this section shall—
- (1) analyze the adequacy, propriety, and effectiveness of, and the need for, the current liability risk-sharing regime in the United States for commercial space transportation:
- (2) examine the current liability and liability risk-sharing regimes in other countries with space transportation capabilities;
- (3) examine the appropriateness of deeming all space transportation activities to be "ultrahazardous activities" for which a strict liability standard may be applied and which liability regime should attach to space transportation activities, whether ultrahazardous activities or not;
- (4) examine the effect of relevant international treaties on the Federal Government's liability for commercial space launches and how the current domestic liability risk-sharing regime meets or exceeds the requirements of those treaties;
- (5) examine the appropriateness, as commercial reusable launch vehicles enter service and demonstrate improved safety and reliability, of evolving the commercial space transportation liability regime towards the approach of the airline liability regime;
- (6) examine the need for changes to the Federal government's indemnification policy to accommodate the risks associated with commercial spaceport operations; and

(7) recommend appropriate modifications to the commercial space transportation liability regime and the actions required to accomplish those modifications.

(c) Sections.—The report required by this section shall contain sections expressing the views and recommendations of—

(1) interested Federal agencies, including— (A) the Office of the Associate Administrator for Commercial Space Transportation;

(B) the National Aeronautics and Space Administration;

(C) the Department of Defense; and

(D) the Office of Space Commercialization; and

(2) the public, received as a result of notice in Commerce Business Daily, the Federal Register, and appropriate Federal agency Internet websites.

SEC. 8. AUTHORIZATION OF INTERAGENCY SUP-PORT FOR GLOBAL POSITIONING SYSTEM.

The use of interagency funding and other forms of support is hereby authorized by Congress for the functions and activities of the Interagency Global Positioning System Executive Board, including an Executive Secretariat to be housed at the Department of Commerce.

Mr. LOTT. Mr. President, I ask unanimous consent that the amendment be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4321) was agreed to

Mr. LOTT. I ask unanimous consent the bill be read a third time and passed, as amended, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 2607), as amended, was read the third time and passed.

MISCELLANEOUS TRADE AND TECHNICAL CORRECTIONS ACT OF 2000

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 841, H.R. 4868.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows: A bill (H.R. 4868) to amend the Harmonized Tariff Schedule of the United States to modify temporarily certain rates of duty, to make other technical amendments to the trade laws, and for other purposes.

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Finance, with an amendment to strike out all after the enacting clause and insert the part printed in italic.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Tariff Suspension and Trade Act of 2000".

SEC. 2. TABLE OF CONTENTS.

The table of contents of this Act is as follows: Sec. 1. Short title.

Sec. 2. Table of contents.

 $TITLE\ I-TARIFF\ PROVISIONS$

## SEC. 1403. COPPER AND BRASS SHEET AND STRIP.

- (a) IN GENERAL.—Notwithstanding sections 514 and 520 of the Tariff Act of 1930 (19 U.S.C. 1514 and 1520), or any other provision of law, the United States Customs Service shall, not later than 90 days after the date of the enactment of this Act, liquidate or reliquidate those entries listed in subsection (c).
- (b) PAYMENT OF AMOUNTS OWED.—Any amounts owed by the United States pursuant to the liquidation or reliquidation of an entry under subsection (a), with interest accrued from the date of entry, shall be paid by the Customs Service within 90 days after such liquidation or reliquidation.
- (c) ENTRY LIST.—The entries referred to in subsection (a) are the following:

Entry number	Date of entry	liquida- tion
110-1197671-6	10/18/86	7/6/92
110-1198090-8	12/19/86	1/23/87

	(4601)710-0225218-8	 August 24, 1990
	(4601)710-0225239-4	 September 5, 1990
	(4601)710-0226079-3	 May 21, 1991
	(1704)J50-0016544-7	 January 31, 1991
	(4601)016-0112237-5	 April 19, 1990
	(4601)710-0226033-0	 May 7, 1991
	(4601)710-0226078-5	 May 15, 1991
	(4601)710-0225181-8	 August 24, 1990
	(4601)710-0225381-4	 October 3, 1990.

#### SEC. 1406. PRINTING CARTRIDGES.

- (a) In General.—Notwithstanding section 514 of the Tariff Act of 1930 (19 U.S.C. 1514) or any other provision of law and subject to the provisions of subsection (b), the United States Customs Service shall, not later than 180 days after the receipt of the request described in subsection (b), liquidate or reliquidate each entry described in subsection (d) containing any merchandise which, at the time of the original liquidation, was classified under subheading 8517.90.08 of the Harmonized Tariff Schedule of the United States (relating to parts of facsimile machines) at the rate of duty that would have been applicable to such merchandise if the merchandise had been liquidated or reliquidated under subheading 8473.30.50 of the Harmonized Tariff Schedule of the United States (relating to parts and accessories of machines classified under heading 8471 of such Schedule).
- (b) REQUESTS.—Reliquidation may be made under subsection (a) with respect to an entry described in subsection (d) only if a request therefor is filed with the Customs Service within 90 days after the date of enactment of this Act and the request contains sufficient information to enable the Customs Service to locate the entry or reconstruct the entry if it cannot be located.
- (c) PAYMENT OF AMOUNTS OWED.—Any amounts owed by the United States pursuant to the liquidation or reliquidation of an entry under subsection (a) shall be paid not later than 180 days after the date of such liquidation or reliquidation.
- (d) AFFECTED ENTRIES.—The entries referred to in subsection (a), filed at the port of Los Angeles, are as follows:

# SEC. 1408. CERTAIN ENTRIES OF TOMATO SAUCE PREPARATION.

- (a) IN GENERAL.—Notwithstanding section 514 of the Tariff Act of 1930 (19 U.S.C. 1514) or any other provision of law and subject to the provisions of subsection (b), the United States Customs Service shall, not later than 180 days after the receipt of the request described in subsection (b), liquidate or reliquidate each entry described in subsection (d) containing any merchandise which, at the time of the original liquidation, was classified under subheading 2002.10.00 of the Harmonized Tariff Schedule of the United States (relating to tomatoes, prepared or preserved) at the rate of duty that would have been applicable to such merchandise if the merchandise had been liquidated or reliquidated under subheading 2103.90.60 of the Harmonized Tariff Schedule of the United States (relating to tomato sauce preparation) on the date of entry.
- (b) REQUESTS.—Reliquidation may be made under subsection (a) with respect to an entry described in subsection (d) only if a request therefor is filed with the Customs Service within 90 days after the date of the enactment of this Act and the request contains sufficient information to enable the Customs Service to locate the entry or reconstruct the entry if it cannot be located.
- (c) PAYMENT OF AMOUNTS OWED.—Any amounts owed by the United States pursuant to the liquidation or reliquidation of an entry under subsection (a) shall be paid not later than 180 days after the date of such liquidation or reliquidation.
- (d) AFFECTED ENTRIES.—The entries referred to in subsection (a) are as follows:

#### SEC. 1409. CERTAIN TOMATO SAUCE PREPARA-TION ENTERED IN 1990 THROUGH 1992.

(a) IN GENERAL.—Notwithstanding section 514 of the Tariff Act of 1930 (19 U.S.C. 1514) or any other provision of law and subject to the provisions of subsection (b), the United States Customs Service shall, not later than 180 days after the receipt of the request described in subsection (b), liquidate or reliquidate each entry described in subsection (d) containing any merchandise which, at the time of the original liquidation, was classified under subheading 2002.10.00 of the Harmonized Tariff Schedule of the United States (relating to tomatoes, prepared or preserved) at the rate of duty that would have been applicable to such merchandise if the merchandise had been liquidated or reliquidated under subheading 2103.90.60 of the Harmonized Tariff Schedule of the United States (relating to tomato sauce preparation) on the date of entry.

- (b) REQUESTS.—Reliquidation may be made under subsection (a) with respect to an entry described in subsection (d) only if a request therefor is filed with the Customs Service within 90 days after the date of the enactment of this Act and the request contains sufficient information to enable the Customs Service to locate the entry or reconstruct the entry if it cannot be located
- (c) PAYMENT OF AMOUNTS OWED.—Any amounts owed by the United States pursuant to the liquidation or reliquidation of an entry under subsection (a) shall be paid not later than 180 days after the date of such liquidation or reliquidation.
- (d) Affected Entries.—The entries referred to in subsection (a) are as follows:

Entry Number	Entry Date
<i>521–0010813–4</i>	11/28/90
<i>521–0011263–1</i>	3/15/91

#### SEC. 1421. DESIGNATION OF MOTOR FUELS AND JET FUELS AS COMMERCIALLY INTERCHANGEABLE.

Section 313(p)(3)(B) of the Tariff Act of 1930 (19 U.S.C. 1313(p)(3)(B)) is amended by adding at the end the following: "Notwithstanding any change or modification to the Harmonized Tariff Schedule of the United States, motor fuel and jet fuel classifiable under subheading 2710.00.15 of the Harmonized Tariff Schedule of the United States, as in effect on January 1, 2000, shall be considered commercially interchangeable for purposes of drawback under this subsection.".

#### CHAPTER 2—SPECIAL CLASSIFICATION RELATING TO PRODUCT DEVELOPMENT AND TESTING

# SEC. 1431. SHORT TITLE.

This chapter may be cited as the "Product Development and Testing Act of 2000".

#### SEC. 1432. FINDINGS; PURPOSE.

- (a) FINDINGS.—The Congress finds the following:
- (1)(A) A substantial amount of development and testing occurs in the United States incident to the introduction and manufacture of new products for both domestic consumption and export overseas.
- (B) Testing also occurs with respect to merchandise that has already been introduced into commerce to insure that it continues to meet specifications and performs as designed.
- (2) The development and testing that occurs in the United States incident to the introduction and manufacture of new products, and with respect to products which have already been introduced into commerce, represents a significant industrial activity employing highly-skilled workers in the United States.
- (3)(A) Under the current laws affecting the importation of merchandise, such as the provisions of part I of title IV of the Tariff Act of 1930 (19 U.S.C. 1401 et seq.), goods commonly referred to as "prototypes", used for product development testing and product evaluation purposes, are subject to customs duty upon their importation into the United States unless the prototypes qualify for duty-free treatment under special trade programs or unless the prototypes are entered under a temporary importation bond.
- (B) In addition, the United States Customs Service has determined that the value of prototypes is to be included in the value of production articles if the prototypes are the result of the same design and development effort as the articles.
- (4)(A) Assessing duty on prototypes twice, once when the prototypes are imported and a second time thereafter as part of the cost of imported production merchandise, discourages development and testing in the United States, and thus encourages development and testing to occur overseas, since, in that case, duty will only be assessed once, upon the importation of production merchandise.
- (B) Assessing duty on these prototypes twice unnecessarily inflates the cost to businesses, thus reducing their competitiveness.
- (5) Current methods for avoiding the excessive assessment of customs duties on the importation of prototypes, including the use of temporary importation entries and obtaining drawback, are unwieldy, ineffective, and difficult for both importers and the United States Customs Service to administer.
- (b) PURPOSE.—The purpose of this chapter is to promote product development and testing in the United States by permitting the importation of prototypes on a duty-free basis.

#### SEC. 1433. AMENDMENTS TO HARMONIZED TAR-IFF SCHEDULE OF THE UNITED STATES.

(a) HEADING.—Subchapter XVII of Chapter 98 is amended by inserting in numerical sequence the following new heading:

 9817.85.01	Prototypes to be used exclusively for development, testing, product evaluation, or quality control purposes		The rate applicable in the absence of this heading	
				".

(b) U.S. NOTE.—The U.S. Notes to subchapter XVII of chapter 98 are amended by adding at the end the following:

"6. The following provisions apply to heading 9817.85.01:

"(a) For purposes of this subchapter, including heading 9817.85.01, the term "prototypes" means originals or models of articles that—

"(i) are either in the preproduction, production, or postproduction stage and are to be used exclusively for development, testing, product evaluation, or quality control purposes; and

"(ii) in the case of originals or models of articles that are either in the production or postproduction stage, are associated with a design change from current production (including a refinement, advancement, improvement, development, or quality control in either the product itself or the means for producing the product).

For purposes of clause (i), automobile racing for purse, prize, or commercial competition shall not be considered to be "development, testing, product evaluation, or quality control."

"(b)(i) Prototypes may only be imported in limited noncommercial quantities in accordance with industry practice.

"(ii) Except as provided for by the Secretary of the Treasury, prototypes or parts of prototypes, may not be sold after importation into the United States or be incorporated into other products that are sold.

"(c) Articles subject to quantitative restrictions, antidumping orders, or countervailing duty orders, may not be classified as prototypes under this note. Articles subject to licensing requirements, or which must comply with laws, rules, or regulations administered by agencies other than the United States Customs Service before being imported, may be classified as prototypes, provided that they comply with all applicable provisions of law and otherwise meet the definition of 'prototypes' under paragraph (a)."

#### SEC. 1434. REGULATIONS RELATING TO ENTRY PROCEDURES AND SALES OF PROTO-TYPES.

(a) IDENTIFICATION OF PROTOTYPES.—The Secretary of the Treasury shall promulgate regulations regarding the identification of prototypes at the time of importation into the United States in accordance with the provisions of this chapter and the amendments made by this chapter.

(b) SALES OF PROTOTYPES.—Within 10 months of the date of enactment of this Act, the Secretary of the Treasury shall promulgate final regulations regarding the sale of prototypes entered under heading 9817.85.01 of the Harmonized Tariff Schedule of the United States as scrap, or waste, or for recycling, provided that all duties are tendered for sales of the prototypes including prototypes and parts of prototypes incorporated into other products, as scrap, waste, or recycled materials, at the rate of duty in effect for such scrap, waste, or recycled materials at the time of importation of the prototypes.

#### SEC. 1435. EFFECTIVE DATE.

This chapter, and the amendments made by this chapter, shall apply with respect to—

(1) an entry of a prototype under heading 9817.85.01, as added by section 1433(a), on or after the date of enactment of this Act; and

(2) an entry of a prototype (as defined in U.S. Note 6(a) to subchapter XVII of chapter 98, as added by section 1433(b)) under heading 9813.00.30 for which liquidation has not become final as of the date of enactment of this Act.

#### CHAPTER 3—PROHIBITION ON IMPORTA-TION OF PRODUCTS MADE WITH DOG OR CAT FUR

#### SEC. 1441. SHORT TITLE.

This chapter may be cited as the "Dog and Cat Protection Act of 2000".

#### SEC. 1442. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress makes the following findings:

(1) An estimated 2,000,000 dogs and cats are slaughtered and sold annually as part of the international fur trade. Internationally, dog and cat fur is used in a wide variety of products, including fur coats and jackets, fur trimmed garments, hats, gloves, decorative accessories, stuffed animals, and other toys.

(2) The United States represents one of the largest markets for the sale of fur and fur products in the world. Market demand for fur products in the United States has led to the introduction of dog and cat fur products into United States commerce, frequently based on deceptive or fraudulent labeling of the products to disguise the true nature of the fur and mislead United States wholesalers, retailers, and consumers.

(3) Dog and cat fur, when dyed, is not easily distinguishable to persons who are not experts from other furs such as fox, rabbit, coyote, wolf, and mink, and synthetic materials made to resemble real fur. Dog and cat fur is generally less expensive than other types of fur and may be used as a substitute for more expensive types of furs, which provides an incentive to engage in unfair or fraudulent trade practices in the importation, exportation, distribution, or sale of fur products, including deceptive labeling and other practices designed to disguise the true contents or origin of the product.

(4) Forensic texts have documented that dog and cat fur products are being imported into the United States subject to deceptive labels or other practices designed to conceal the use of dog or cat fur in the production of wearing apparel, toys, and other products.

(5) Publicly available evidence reflects ongoing significant use of dogs and cats bred expressly for their fur by foreign fur producers for manufacture into wearing apparel, toys, and other products that have been introduced into United States commerce. The evidence indicates that foreign fur producers also rely on the use of stray dogs and cats and stolen pets for the manufacture of fur products destined for the world and United States markets.

(6) The methods of housing, transporting, and slaughtering dogs and cats for fur production are generally unregulated and inhumane.

(7) The trade of dog and cat fur products is ethically and aesthetically abhorrent to United States citizens. Consumers in the United States have a right to know if products offered for sale contain dog or cat fur and to ensure that they are not unwitting participants in this gruesome trade.

(8) Persons who engage in the sale of dog or cat fur products, including the fraudulent trade practices identified above, gain an unfair competitive advantage over persons who engage in legitimate trade in apparel, toys, and other products, and derive an unfair benefit from consumers who buy their products.

(9) The imposition of a ban on the sale, manufacture, offer for sale, transportation, and distribution of dog and cat fur products, regardless of their source, is consistent with the international obligations of the United States because it applies equally to domestic and foreign producers and avoids any discrimination among foreign sources of competing products. Such a ban is also consistent with provisions of international agreements to which the United States is a party that expressly allow for measures designed to protect the health and welfare of animals and to enjoin the use of deceptive trade practices in international or domestic commerce.

(b) PURPOSES.—The purposes of this chapter are to—

(1) prohibit imports, exports, sale, manufacture, offer for sale, transportation, and distribu-

tion in the United States of dog and cat fur products, in order to ensure that United States market demand does not provide an incentive to slaughter dogs or cats for their fur;

(2) require accurate labeling of fur species so that consumers in the United States can make informed choices and ensure that they are not unwitting contributors to this gruesome trade; and

(3) ensure that the customs laws of the United States are not undermined by illicit international traffic in dog and cat fur products.

# SEC. 1443. PROHIBITION ON IMPORTATION OF PRODUCTS MADE WITH DOG OR CAT FUR.

(a) IN GENERAL.—Title III of the Tariff Act of 1930 is amended by inserting after section 307 the following new section:

# "SEC. 308. PROHIBITION ON IMPORTATION OF DOG AND CAT FUR PRODUCTS.

"(a) DEFINITIONS.—In this section:

"(1) CAT FUR.—The term 'cat fur' means the pelt or skin of any animal of the species Felis catus.

"(2) COMMERCE.—The term 'commerce' means the transportation for sale, trade, or use between any State, territory, or possession of the United States, or the District of Columbia, and any place outside thereof.

"(3) CUSTOMS LAWS.—The term 'customs laws of the United States' means any other law or regulation enforced or administered by the United States Customs Service.

"(4) DOG FUR.—The term 'dog fur' means the pelt or skin of any animal of the species Canis familiaris.

"(5) DOG OR CAT FUR PRODUCT.—The term 'dog or cat fur product' means any item of merchandise which consists, or is composed in whole or in part, of any dog fur, cat fur, or both

"(6) PERSON.—The term 'person' includes any individual, partnership, corporation, association, organization, business trust, government entity, or other entity subject to the jurisdiction of the United States.

"(7) Secretary.—The term 'Secretary' means the Secretary of the Treasury.

"(8) UNITED STATES.—The term 'United States' means the customs territory of the United States, as defined in general note 2 of the Harmonized Tariff Schedule of the United States.

"(b) PROHIBITIONS.—

"(1) IN GENERAL.—It shall be unlawful for any person to—

"(A) import into, or export from, the United States any dog or cat fur product; or

"(B) introduce into interstate commerce, manufacture for introduction into interstate commerce, sell, trade, or advertise in interstate commerce, offer to sell, or transport or distribute in interstate commerce in the United States, any dog or cat fur product.

(2) EXCEPTION.—This subsection shall not apply to the importation, exportation, or transportation by an individual, for noncommercial purposes, of his or her personal pet that is deceased, including a pet preserved through taxidermu

"(c) Penalties and Enforcement.—

"(1) CIVIL PENALTIES.—

"(A) IN GENERAL.—Any person who violates any provision of this section or any regulation issued under this section may, in addition to any other civil or criminal penalty that may be imposed under title 18 of the United States Code or any other provision of law, be assessed a civil penalty by the Secretary of not more than—

"(i) \$10,000 for each separate knowing and intentional violation;

"(ii) \$5,000 for each separate grossly negligent violation; or

"(iii) \$3,000 for each separate negligent violation.

- "(B) DEBARMENT.—The Secretary may debar a person from importing, exporting, transporting, distributing, manufacturing, or selling any fur product in the United States, if—
- "(i) the Secretary finds that the person has been convicted of a criminal violation of any provision of this section or any regulation issued under this section; or
- "(ii) the Secretary finds that the person has engaged in a pattern or practice of actions that has resulted in a final administrative determination with respect to the assessment of civil penalties for knowing and intentional or grossly negligent violations of any provision of this section or any regulation issued under this section.
- "(C) NOTICE.—No penalty may be assessed under this paragraph unless such person is given notice and opportunity for a hearing with respect to such violation in accordance with section 554 of title 5, United States Code.
- "(2) CRIMINAL PENALTIES.—Any person who knowingly violates any provision of this section or any regulation issued under this section shall, upon conviction for each violation, be imprisoned for not more than 1 year, fined in accordance with title 18, United States Code, or both.
- "(3) FORFEITURE.—Any dog or cat fur product manufactured, taken, possessed, sold, purchased, offered for sale or purchase, transported, delivered, received, carried, shipped, imported, or exported contrary to the provisions of this section or any regulation issued under this section shall be subject to forfeiture to the United States.
- "(4) ENFORCEMENT.—The provisions of this section and any regulations issued under this section shall be enforced by the Secretary.
- "(5) REGULATIONS.—Not later than 270 days after the date of enactment of this section, the Secretary shall, after notice and opportunity for comment, issue regulations to carry out the provisions of this section. The regulations shall provide for a process by which testing laboratories, whether domestic or foreign, can qualify for certification by the United States Customs Service by demonstrating the reliability of the procedures used for determining the type of fur contained in articles intended for sale or consumption in the interstate commerce of the United States.
- "(6) REWARD.—The Secretary shall pay a reward of not less than \$500 to any person who furnishes information that establishes probable cause or leads to an arrest, criminal conviction, civil penalty assessment, debarment, or forfeiture of property for any violation of this section or any regulation issued under this section.
- "(7) AFFIRMATIVE DEFENSE.—It shall be a defense against any civil or criminal action brought under this section or any regulations issued under this section if the person accused of a violation under this section can establish by a preponderance of the evidence that the person exercised reasonable care—
- "(A) in determining the nature of the products alleged to have resulted in such violation; and
- "(B) in ensuring that the products were accompanied by documentation, packaging, and labeling that were accurate as to the nature of the products.
- "(8) COORDINATION WITH OTHER LAWS.—Nothing in this section shall be construed as superseding or limiting in any manner the functions and responsibilities of the Secretary of the Treasury under the customs laws of the United States.
- "(d) Publication of Names of Certain Vio-Lators.—The Secretary of the Treasury shall publish periodically in the Federal Register a list of the names of any producer, manufacturer, supplier, seller, importer, or exporter, whether or not located within the customs terri-

- tory of the United States, against whom a criminal conviction has been rendered or against whom a final administrative determination with respect to the assessment of a civil penalty for a knowing and intentional or a grossly negligent violation has been made under this section.
- "(e) REPORTS.—In order to enable Congress to engage in active, continuing oversight of this section, the Secretary shall provide the following:
- "(1) PLAN FOR ENFORCEMENT.—Within 3 months after the date of enactment of this section, the Secretary shall submit to Congress aplan for the enforcement of the provisions of this section, including training and procedures to ensure that Customs Service personnel are equipped with state-of-the-art technologies to determine the true content of such products and to determine the true content of such products.
- "(2) REPORT ON ENFORCEMENT EFFORTS.—Not later than 1 year after the date of enactment of this section, and on an annual basis thereafter, the Secretary shall submit a report to Congress on the efforts of the Department of the Treasury to enforce the provisions of this section and the adequacy of the resources to do so. The report shall include an analysis of the training of Customs Service personnel to identify dog and cat fur products effectively and to take appropriate action to enforce this section. The report shall include the findings of the Secretary as to whether any government has engaged in a pattern or practice of support for trade in products the importation of which are prohibited under this section.'
- (b) CONFORMING AMENDMENT.—Section 2(d) of the Fur Products Labeling Act (15 U.S.C. 69(d)) is amended by striking "; except that such term shall not include such articles as the Commission shall exempt by reason of the relatively small quantity or value of the fur or used fur contained therein".
- (c) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of enactment of this Act.

# CHAPTER 4—MISCELLANEOUS PROVISIONS

#### SEC. 1451. ALTERNATIVE MID-POINT INTEREST ACCOUNTING METHODOLOGY FOR UNDERPAYMENT OF DUTIES AND FEES.

Section 505(c) of the Tariff Act of 1930 (19 U.S.C. 1505(c)) is amended by striking "For the period beginning on" and all that follows through "the Secretary may prescribe" and inserting "The Secretary may prescribe".

#### SEC. 1452. EXCEPTION FROM MAKING REPORT OF ARRIVAL AND FORMAL ENTRY FOR CERTAIN VESSELS.

- (a) REPORT OF ARRIVAL AND FORMAL ENTRY OF VESSELS.—(1) Section 433(a)(1)(C) of the Tariff Act of 1930 (19 U.S.C. 1433(a)(1)(C)) is amended by striking "bonded merchandise, or".
- (2) Section 434(a)(3) of the Tariff Act of 1930 (19 U.S.C. 1434(a)(3)) is amended by striking "bonded merchandise or".
- (3) Section 91(a)(2) of the Appendix to title 46, United States Code, is amended by striking "bonded merchandise or".
- (b) ADDITIONAL AMENDMENT.—Section 441 of the Tariff Act of 1930 (19 U.S.C. 1441) is amended by adding at the end the following new paragraph:
- "(7) Any vessel required to anchor at the Belle Isle Anchorage in the waters of the Detroit River in the State of Michigan, for the purposes of awaiting the availability of cargo or berthing space or for the purpose of taking on a pilot or awaiting pilot services, or at the direction of the Coast Guard, prior to proceeding to the Port of Toledo, Ohio, where the vessel makes entry under section 434 or obtains clearance under section 4197 of the Revised Statutes of the United States."

- SEC. 1453. DESIGNATION OF SAN ANTONIO INTER-NATIONAL AIRPORT FOR CUSTOMS PROCESSING OF CERTAIN PRIVATE AIRCRAFT ARRIVING IN THE UNITED STATES.
- (a) DESIGNATION.—For the 2-year period beginning on the date of the enactment of this Act, the Commissioner of the Customs Service shall designate the San Antonio International Airport in San Antonio, Texas, as an airport at which private aircraft described in subsection (b) may land for processing by the Customs Service in accordance with section 122.24(b) of title 19, Code of Federal Regulations.
- (b) PRIVATE AIRCRAFT.—Private aircraft described in this subsection are private aircraft that—
- (1) arrive in the United States from a foreign area and have a final destination in the United States of San Antonio International Airport in San Antonio, Texas; and
- (2) would otherwise be required to land for processing by the Customs Service at an airport listed in section 122.24(b) of title 19, Code of Federal Regulations, in accordance with such section.
- (c) DEFINITION.—In this section, the term "private aircraft" has the meaning given such term in section 122.23(a)(1) of title 19, Code of Federal Regulations.
- (d) REPORT.—The Commissioner of the Customs Service shall prepare and submit to Congress a report on the implementation of this section for 2001 and 2002.

# SEC. 1454. INTERNATIONAL TRAVEL MERCHANDISE.

Section 555 of the Tariff Act of 1930 (19 U.S.C. 1555) is amended by adding at the end the following:

- "(c) International Travel Merchandise.—
  "(1) Definitions.—For purposes of this sec-
- tion—
  "(A) the term 'international travel merchandise' means duty-free or domestic merchandise which is placed on board aircraft on international flights for sale to passengers, but which is not merchandise incidental to the operation of a duty-free sales enterprise;
- "(B) the term 'staging area' is an area controlled by the proprietor of a bonded warehouse outside of the physical parameters of the bonded warehouse in which manipulation of international travel merchandise in carts occurs:
- "(C) the term 'duty-free merchandise' means merchandise on which the liability for payment of duty or tax imposed by reason of importation has been deferred pending exportation from the customs territory;
- "(D) the term 'manipulation' means the repackaging, cleaning, sorting, or removal from or placement on carts of international travel merchandise; and
- "(E) the term 'cart' means a portable container holding international travel merchandise on an aircraft for exportation.
- "(2) BONDED WAREHOUSE FOR INTERNATIONAL TRAVEL MERCHANDISE.—The Secretary shall by regulation establish a separate class of bonded warehouse for the storage and manipulation of international travel merchandise pending its placement on board aircraft departing for foreign destinations.
- "(3) RULES FOR TREATMENT OF INTERNATIONAL TRAVEL MERCHANDISE AND BONDED WAREHOUSES AND STAGING AREAS.—(A) The proprietor of a bonded warehouse established for the storage and manipulation of international travel merchandise shall give a bond in such sum and with such sureties as may be approved by the Secretary of the Treasury to secure the Government against any loss or expense connected with or arising from the deposit, storage, or manipulation of merchandise in such warehouse. The warehouse proprietor's bond shall also secure the manipulation of international travel merchandise in a staging area.

9817.60.00

- "(B) A transfer of liability from the international carrier to the warehouse proprietor occurs when the carrier assigns custody of international travel merchandise to the warehouse proprietor for purposes of entry into warehouse or for manipulation in the staging area.
- "(C) A transfer of liability from the warehouse proprietor to the international carrier occurs when the bonded warehouse proprietor assigns custody of international travel merchandise to the carrier.
- "(D) The Secretary is authorized to promulgate regulations to require the proprietor and the international carrier to keep records of the disposition of any cart brought into the United States and all merchandise on such cart."

#### SEC. 1455. CHANGE IN RATE OF DUTY OF GOODS RETURNED TO THE UNITED STATES BY TRAVELERS.

Subchapter XVI of chapter 98 is amended as follows:

- (1) Subheading 9816.00.20 is amended—
- (A) effective January 1, 2000, by striking "10 percent" each place it appears and inserting "5 percent";
- (B) effective January 1, 2001, by striking "5 percent" each place it appears and inserting "4 percent"; and
- (C) effective January 1, 2002, by striking "4 percent" each place it appears and inserting "3 percent".
  - (2) Subheading 9816.00.40 is amended—

Any of the following articles not intended for sale or distribution to the public: personal effects of aliens who are participants in, officials of, or accredited members of delegations to, an international athletic event held in the United States, such as the Olympics and Paralympics, the Goodwill Games, the Special Olympics World Games, the World Cup Soccer Games, or any similar international athletic event as the Secretary of the Treasury may determine, and of persons who are imported in connection with any such foregoing event by or on behalf of the foregoing persons or the organizing committee of such an event, articles to be used in exhibitions depicting the culture of a country participating in such an event; and, if consistent with the foregoing, such other articles as the Secretary of the Treasury may allow

- (A) effective January 1, 2000, by striking "5 percent" each place it appears and inserting "3 percent";
- (B) effective January 1, 2001, by striking "3 percent" each place it appears and inserting "2 percent"; and
- (C) effective January 1, 2002, by striking "2 percent" each place it appears and inserting "1.5 percent".

#### SEC. 1456. TREATMENT OF PERSONAL EFFECTS OF PARTICIPANTS IN INTER-NATIONAL ATHLETIC EVENTS.

(a) IN GENERAL.—Subchapter XVII of chapter 98 is amended by inserting in numerical sequence the following new heading:

..... Free Free

(b) TAXES, FEES, INSPECTION.—The U.S. Notes to chapter XVII of chapter 98 are amended by

"6. Any article exempt from duty under heading 9817.60.00 shall be free of taxes and fees that may otherwise be applicable, but shall not be free or otherwise exempt or excluded from routine or other inspections as may be required by the Customs Service."

adding at the end the following new note.

- (b) EFFECTIVE DATE.—The amendments made by this section apply to goods entered, or withdrawn from warehouse, for consumption, on or after the date of the enactment of this Act.
- (c) TERMINATION OF TEMPORARY PROVISIONS.—Heading 9902.98.08 shall, notwithstanding any provision of such heading, cease to be effective on the date of the enactment of this Act.

#### SEC. 1457. COLLECTION OF FEES FOR CUSTOMS SERVICES FOR ARRIVAL OF CERTAIN FERRIES.

Section 13031(b)(1)(A)(iii) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(b)(1)(A)(iii)) is amended to read as follows:

"(iii) the arrival of a ferry, except for a ferry whose operations begin on or after August 1, 1999, and that operates south of 27 degrees latitude and east of 89 degrees longitude; or".

#### SEC. 1458. ESTABLISHMENT OF DRAWBACK BASED ON COMMERCIAL INTERCHANGE-ABILITY FOR CERTAIN RUBBER VUL-CANIZATION ACCELERATORS.

- (a) IN GENERAL.—The United States Customs Service shall treat the chemical N-cyclohexyl-2-benzothiazolesulfenamide and the chemical N-tert-Butyl-2-benzothiazolesulfenamide as "commercially interchangeable" within the meaning of section 313(j)(2) of the Tariff Act of 1930 (19 U.S.C. 1313(j)(2)) for purposes of permitting drawback under section 313 of the Tariff Act of 1930 (19 U.S.C. 1313.).
- (b) APPLICABILITY.—Subsection (a) shall apply with respect to any entry, or withdrawal from warehouse for consumption, of the chemical N-cyclohexyl-2-benzothiazolesulfenamide before, on, or after the date of the enactment of this Act, that is eligible for drawback within the time period provided in section 313(j)(2)(B) of the Tariff Act of 1930 (19 U.S.C. 1313(j)(2)(B)).

### SEC. 1459. CARGO INSPECTION.

The Commissioner of Customs is authorized to establish a fee-for-service agreement for a period of not less than 2 years, renewable thereafter on an annual basis, at Fort Lauderdale-Hollywood International Airport. The agreement shall provide personnel and infrastructure necessary to

conduct cargo clearance, inspection, or other customs services as needed to accommodate carriers using this airport. When such services have been provided on a fee-for-service basis for at least 2 years and the commercial consumption entry level reaches 29,000 entries per year, the Commissioner of Customs shall continue to provide cargo clearance, inspection or other customs services, and no charges, other than those fees authorized by section 13031(a) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(a)), may be collected for those services.

#### SEC. 1460. TREATMENT OF CERTAIN MULTIPLE ENTRIES OF MERCHANDISE AS SIN-GLE ENTRY.

- (a) IN GENERAL.—Section 484 of the Tariff Act of 1930 (19 U.S.C. 1484) is amended by adding at the end the following:

  "(j) TREATMENT OF MULTIPLE ENTRIES OF
- "(j) TREATMENT OF MULTIPLE ENTRIES OF MERCHANDISE AS SINGLE TRANSACTION.—In the case of merchandise that is purchased and invoiced as a single entity but—
- "(1) is shipped in an unassembled or disassembled condition in separate shipments due to the size or nature of the merchandise, or
- "(2) is shipped in separate shipments due to the inability of the carrier to include all of the merchandise in a single shipment (at the instruction of the carrier).
- the Customs Service may, upon application by an importer in advance, treat such separate shipments for entry purposes as a single transaction.".
- (b) REGULATIONS.—Not later than 6 months after the date of the enactment of this Act, the Secretary of the Treasury shall issue regulations to carry out section 484(j) of the Tariff Act of 1930, as added by subsection (a).

#### SEC. 1461. REPORT ON CUSTOMS PROCEDURES.

- (a) REVIEW AND REPORT.—The Secretary of the Treasury shall—
- (1) review, in consultation with United States importers and other interested parties, including independent third parties selected by the Secretary for the purpose of conducting such review, customs procedures and related laws and regulations applicable to goods and commercial conveyances entering the United States; and
- (2) report to the Congress, not later than 180 days after the date of enactment of this Act, on changes that should be made to reduce reporting and record retention requirements for commercial parties, specifically addressing changes needed to—
- (A) separate fully and remove the linkage between data reporting required to determine the

admissibility and release of goods and data reporting for other purposes such as collection of revenue and statistics;

- (B) reduce to a minimum data required for determining the admissibility of goods and release of goods, consistent with the protection of public health, safety, or welfare, or achievement of other policy goals of the United States;
- (C) eliminate or find more efficient means of collecting data for other purposes that are unnecessary, overly burdensome, or redundant; and
- (D) enable the implementation, as soon as possible, of the import activity summary statement authorized by section 411 of the Tariff Act of 1930 (19 U.S.C. 1411) as a means of—
- (i) fully separating and removing the linkage between the functions of collecting revenue and statistics and the function of determining the admissibility of goods that must be performed for each shipment of goods entering the United States; and
- (ii) allowing for periodic, consolidated filing of data not required for determinations of admissibility.
- (b) Specific Matters.—In preparing the report required by subsection (a), the Secretary of the Treasury shall specifically report on the following:
- (1) Import procedures, including specific data items collected, that are required prior and subsequent to the release of goods or conveyances, identifying the rationale and legal basis for each procedure and data requirement, uses of data collected, and procedures or data requirements that could be eliminated, or deferred and consolidated into periodic reports such as the import activity summary statement.
- (2) The identity of data and factors necessary to determine whether physical inspections should be conducted.
  - (3) The cost of data collection.
- (4) Potential alternative sources and methodologies for collecting data, taking into account the costs and other consequences to importers, exporters, carriers, and the Government of choosing alternative sources.
- (5) Recommended changes to the law, regulations of any agency, or other measures that would improve the efficiency of procedures and systems of the United States Government for regulating international trade, without compromising the effectiveness of procedures and systems required by law.

# SEC. 1462. DRAWBACKS FOR RECYCLED MATERIALS.

(a) In General.—Section 313 of the Tariff Act of 1930 (19 U.S.C. 1313) is amended by adding at the end the following new subsection:

"(x) DRAWBACKS FOR RECOVERED MATE-RIALS.—For purposes of subsections (a), (b), and (c), the term 'destruction' includes a process by which materials are recovered from imported merchandise or from an article manufactured from imported merchandise. In determining the amount of duties to be refunded as drawback to a claimant under this subsection, the value of recovered materials (including the value of any tax benefit or royalty payment) that accrues to the drawback claimant shall be deducted from the value of the imported merchandise that is destroyed, or from the value of the merchandise used, or designated as used, in the manufacture of the article."

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to drawback claims filed on or after the date of enactment of this Act.

#### SEC. 1463. PRESERVATION OF CERTAIN REPORT-ING REQUIREMENTS.

Section 3003(a)(1) of the Federal Reports Elimination and Sunset Act of 1995 (31 U.S.C. 1113 note) does not apply to any report required to be submitted under any of the following provisions of law:

(1) Section 163 of the Trade Act of 1974 (19 U.S.C. 2213).

(2) Section 181 of the Trade Act of 1974 (19 U.S.C. 2241).

# Subtitle C—Effective Date

## SEC. 1471. EFFECTIVE DATE.

Except as otherwise provided in this title, the amendments made by this title shall apply with respect to goods entered, or withdrawn from warehouse, for consumption, on or after the 15th day after the date of enactment of this Act.

#### TITLE II—OTHER TRADE PROVISIONS

#### SEC. 2001. TRADE ADJUSTMENT ASSISTANCE FOR CERTAIN WORKERS AFFECTED BY ENVIRONMENTAL REMEDIATION OR CLOSURE OF A COPPER MINING FA-CILITY.

(a) CERTIFICATION OF ELIGIBILITY FOR WORK-ERS REQUIRED FOR CLOSURE OF FACILITY.—

- (1) IN GENERAL.—Notwithstanding any other provision of law or any decision by the Secretary of Labor denying certification or eligibility for certification for adjustment assistance under title II of the Trade Act of 1974, a qualified worker described in paragraph (2) shall be certified by the Secretary as eligible to apply for adjustment assistance under such title II.
- (2) QUALIFIED WORKER.—For purposes of this subsection, a "qualified worker" means a worker who—
- (A) was employed at the copper mining facility referenced in Trade Adjustment Assistance Certification TAW-31,402 during any part of the period covered by that certification and was separated from employment after the expiration of that certification; and

(B) was necessary for the environmental remediation or closure of such mining facility.
(b) EFFECTIVE DATE.—The amendment made

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect on the date of enactment of this Act.

#### TITLE III—EXTENSION OF NONDISCRIM-INATORY TREATMENT TO GEORGIA

### SEC. 3001. FINDINGS.

Congress finds that Georgia has-

- (1) made considerable progress toward respecting fundamental human rights consistent with the objectives of title IV of the Trade Act of 1974.
- (2) adopted administrative procedures that accord its citizens the right to emigrate, travel freely, and to return to their country without restriction;

- (3) been found to be in full compliance with the freedom of emigration provisions in title IV of the Trade Act of 1974;
- (4) made progress toward democratic rule and creating a free market economic system since its independence from the Soviet Union:
- (5) committed to developing a system of governance in accord with the provisions of the Final Act of the Conference on Security and Cooperation in Europe (also known as the "Helsinki Final Act") regarding human rights and humanitarian affairs:
- (6) endeavored to address issues related to its national and religious minorities and, as a member state of the Organization for Security and Cooperation in Europe (OSCE), committed to adopting special measures for ensuring that persons belonging to national minorities have full equality individually as well as in community with other members of their group;
- (7) also committed to enacting legislation to provide protection against incitement to violence against persons or groups based on national, racial, ethnic or religious discrimination, hostility, or hatred, including anti-Semitism;
- (8) continued to return communal properties confiscated from national and religious minorities during the Soviet period, facilitating the remergence of these communities in the national life of Georgia and establishing the legal framework for completion of this process in the future.
- (9) concluded a bilateral trade agreement with the United States in 1993 and a bilateral investment agreement in 1994;
- (10) demonstrated a strong desire to build a friendly and cooperative relationship with the United States; and
- (11) acceeded to the World Trade Organization on June 14, 2000, and the extension of unconditional normal trade relations treatment to the products of Georgia will enable the United States to avail itself of all rights under the World Trade Organization with respect to Georgia

#### SEC. 3002. TERMINATION OF APPLICATION OF TITLE IV OF THE TRADE ACT OF 1974 TO GEORGIA.

- (a) PRESIDENTIAL DETERMINATIONS AND EXTENSIONS OF NONDISCRIMINATORY TREATMENT.—Notwithstanding any provision of title IV of the Trade Act of 1974 (19 U.S.C. 2431 et seq.), the President may—
- (1) determine that such title should no longer apply to Georgia; and
- (2) after making a determination under paragraph (1) with respect to Georgia, proclaim the extension of nondiscriminatory treatment (normal trade relations treatment) to the products of that country.
- (b) TERMINATION OF APPLICATION OF TITLE IV.—On and after the effective date of the extension under subsection (a)(2) of nondiscriminatory treatment to the products of Georgia, title IV of the Trade Act of 1974 shall cease to apply to that country.

# TITLE IV—GRAY MARKET CIGARETTE COMPLIANCE

### SEC. 4001. SHORT TITLE.

This title may be cited as the "Gray Market Cigarette Compliance Act of 2000".

#### SEC. 4002. MODIFICATIONS TO RULES GOV-ERNING REIMPORTATION OF TO-BACCO PRODUCTS.

(a) RESTRICTIONS ON TOBACCO PRODUCTS IN-TENDED FOR EXPORT.—Section 5754 of the Internal Revenue Code of 1986 is amended to read as follows:

#### "SEC. 5754. RESTRICTION ON IMPORTATION OF PREVIOUSLY EXPORTED TOBACCO PRODUCTS.

"(a) EXPORT-LABELED TOBACCO PRODUCTS.—
"(1) IN GENERAL.—Tobacco products and cigarette papers and tubes manufactured in the

United States and labeled for exportation under this chapter—

"(A) may be transferred to or removed from the premises of a manufacturer or an export warehouse proprietor only if such articles are being transferred or removed without tax in accordance with section 5704;

"(B) may be imported or brought into the United States, after their exportation, only if such articles either are eligible to be released from customs custody with the partial duty exemption provided in section 5704(d) or are returned to the original manufacturer of such article as provided in section 5704(c); and

"(C) may not be sold or held for sale for domestic consumption in the United States unless such articles are removed from their export packaging and repackaged by the original manufacturer into new packaging that does not contain an export label.

"(2) ALTERATIONS BY PERSONS OTHER THAN ORIGINAL MANUFACTURER.—This section shall apply to articles labeled for export even if the packaging or the appearance of such packaging to the consumer of such articles has been modified or altered by a person other than the original manufacturer so as to remove or conceal or attempt to remove or conceal (including by the placement of a sticker over) any export label.

"(3) EXPORTS INCLUDE SHIPMENTS TO PUERTO RICO.—For purposes of this section, section 5704(d), section 5761, and such other provisions as the Secretary may specify by regulations, references to exportation shall be treated as including a reference to shipment to the Commonwealth of Puerto Rico.

"(b) EXPORT LABEL.—For purposes of this section, an article is labeled for export or contains an export label if it bears the mark, label, or notice required under section 5704(b).

"(c) CROSS REFERENCES.-

"(1) For exception to this section for personal use, see section 5761(c).

"(2) For civil penalties related to violations of this section, see section 5761(c).

"(3) For a criminal penalty applicable to any violation of this section, see section 5762(b).

"(4) For forfeiture provisions related to violations of this section, see section 5761(c).".

- (b) CLARIFICATION OF REIMPORTATION RULES.—Section 5704(d) of such Code (relating to tobacco products and cigarette papers and tubes exported and returned) is amended—
- (1) by striking "a manufacturer of" and inserting "the original manufacturer of such", and
- (2) by inserting "authorized by such manufacturer to receive such articles" after "proprietor of an export warehouse".
- (c) Requirement to Destroy Forfetted To-Bacco Products.—The last sentence of subsection (c) of section 5761 of such Code is amended by striking "the jurisdiction of the United States" and all that follows through the end period and inserting "the jurisdiction of the United States shall be forfeited to the United States and destroyed. All vessels, vehicles, and aircraft used in such relanding or in removing such products, papers, and tubes from the place where relanded, shall be forfeited to the United States."
- (d) EFFECTIVE DATE.—The amendments made by this section shall take effect 90 days after the date of the enactment of this Act.
- (e) STUDY.—The Secretary of the Treasury shall report to Congress on the impact of requiring export warehouses to be authorized by the original manufacturer to receive relanded export-labeled cigarettes.

#### SEC. 4003. TECHNICAL AMENDMENT TO THE BAL-ANCED BUDGET ACT OF 1997.

(a) IN GENERAL.—Subsection (c) of section 5761 of the Internal Revenue Code of 1986 is amended by adding at the end the following:

"This subsection and section 5754 shall not apply to any person who relands or receives to-bacco products in the quantity allowed entry free of tax and duty under subchapter IV of chapter 98 of the Harmonized Tariff Schedule of the United States. No quantity of tobacco products other than the quantity referred to in the preceding sentence may be relanded or received as a personal use quantity."

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect as if included in section 9302 of the Balanced Budget Act of 1997. SEC. 4004. REQUIREMENTS APPLICABLE TO IM-

PORTS OF CERTAIN CIGARETTES.
The Tariff Act of 1930 (19 U.S.C. 1202 et seq.) is amended by adding at the end the following:

# "TITLE VIII—REQUIREMENTS APPLICABLE TO IMPORTS OF CERTAIN CIGARETTES

#### "SEC. 801. DEFINITIONS.

"In this title:

"(1) SECRETARY.—Except as otherwise indicated, the term 'Secretary' means the Secretary of the Treasury.

"(2) PRIMARY PACKAGING.—The term 'primary packaging' refers to the permanent packaging inside of the innermost cellophane or other transparent wrapping and labels, if any. Warnings or other statements shall be deemed 'permanently imprinted' only if printed directly on such primary packaging and not by way of stickers or other similar devices.

# "SEC. 802. REQUIREMENTS FOR ENTRY OF CERTAIN CIGARETTES.

"(a) GENERAL RULE.—Except as provided in subsection (b), cigarettes may be imported into the United States only if—

"(1) the original manufacturer of those cigarettes has timely submitted, or has certified that it will timely submit, to the Secretary of Health and Human Services the lists of the ingredients added to the tobacco in the manufacture of such cigarettes as described in section 7 of the Federal Cigarette Labeling and Advertising Act (15 U.S.C. 1335a);

"(2) the precise warning statements in the precise format specified in section 4 of the Federal Cigarette Labeling and Advertising Act (15 U.S.C. 1333) are permanently imprinted on both—

"(A) the primary packaging of all those cigarettes; and

"(B) any other pack, box, carton, or container of any kind in which those cigarettes are to be offered for sale or otherwise distributed to consumers:

"(3) the manufacturer or importer of those cigarettes is in compliance with respect to those cigarettes being imported into the United States with a rotation plan approved by the Federal Trade Commission pursuant to section 4(c) of the Federal Cigarette Labeling and Advertising Act (15 U.S.C. 1333(c));

"(4) if such cigarettes bear a United States trademark registered for such cigarettes, the owner of such United States trademark registration for cigarettes (or a person authorized to act on behalf of such owner) has consented to the importation of such cigarettes into the United States; and

"(5) the importer has submitted at the time of entry all of the certificates described in subsection (c).

"(b) EXEMPTIONS.—Cigarettes satisfying the conditions of any of the following paragraphs shall not be subject to the requirements of subsection (a):

"(1) PERSONAL-USE CIGARETTES.—Cigarettes that are imported into the United States in personal use quantities that are allowed entry free of tax and duty under subchapter IV of chapter 98 of the Harmonized Tariff Schedule of the United States.

"(2) CIGARETTES IMPORTED INTO THE UNITED STATES FOR ANALYSIS.—Cigarettes that are im-

ported into the United States solely for the purpose of analysis in quantities suitable for such purpose, but only if the importer submits at the time of entry a certificate signed, under penalties of perjury, by the consignee (or a person authorized by such consignee) providing such facts as may be required by the Secretary to establish that such consignee is a manufacturer of cigarettes, a Federal or State government agency, a university, or is otherwise engaged in bona fide research and stating that such cigarettes will be used solely for analysis and will not be sold in domestic commerce in the United States.

"(3) CIGARETTES INTENDED FOR NONCOMMERCIAL USE, REEXPORT, OR REPACKAGING.—Cigarettes—

"(A) for which the owner of such United States trademark registration for cigarettes (or a person authorized to act on behalf of such owner) has consented to the importation of such cigarettes into the United States; and

"(B) for which the importer submits a certificate signed by the manufacturer or export warehouse (or a person authorized by such manufacturer or export warehouse) to which such cigarettes are to be delivered (as provided in subparagraph (A)) stating, under penalties of perjury, with respect to those cigarettes, that it will not distribute those cigarettes into domestic commerce unless prior to such distribution all steps have been taken to comply with paragraphs (1), (2), and (3) of subsection (a), and, to the extent applicable, section 5754(a)(1) (B) and (C) of the Internal Revenue Code of 1986.

For purposes of this section, a trademark is registered in the United States if it is registered in the Patent and Trademark Office under the provisions of title I of the Act of July 5, 1946 (popularly known as the 'Trademark Act of 1946'), and a copy of the certificate of registration of such mark has been filed with the Secretary. The Secretary shall make available to interested parties a current list of the marks so filed.

"(c) CUSTOMS CERTIFICATIONS REQUIRED FOR CIGARETTE IMPORTS.—The certificates that must be submitted by the importer of cigarettes at the time of entry in order to comply with subsection (a)(5) are—

"(1) a certificate signed by the manufacturer of such cigarettes or an authorized official of such manufacturer stating under penalties of perjury, with respect to those cigarettes, that such manufacturer has timely submitted, and will continue to submit timely, to the Secretary of Health and Human Services the ingredient reporting information required by section 7 of the Federal Cigarette Labeling and Advertising Act (15 U.S.C. 1335a);

"(2) a certificate signed by such importer or an authorized official of such importer stating under penalties of perjury that—

"(A) the precise warning statements in the precise format required by section 4 of the Federal Cigarette Labeling and Advertising Act (15 U.S.C. 1333) are permanently imprinted on both—

"(i) the primary packaging of all those cigarettes; and

"(ii) any other pack, box, carton, or container of any kind in which those cigarettes are to be offered for sale or otherwise distributed to consumers; and

"(B) with respect to those cigarettes being imported into the United States, such importer has complied, and will continue to comply, with a rotation plan approved by the Federal Trade Commission pursuant to section 4(c) of the Federal Cigarette Labeling and Advertising Act (15 U.S.C. 1333(c)); and

"(3)(A) if such cigarettes bear a United States trademark registered for cigarettes, a certificate signed by the owner of such United States trademark registration for cigarettes (or a person authorized to act on behalf of such owner) stating under penalties of perjury that such owner (or authorized person) consents to the importation of such cigarettes into the United States; and

"(B) a certificate signed by the importer or an authorized official of such importer stating under penalties of perjury that the consent referred to in subparagraph (A) is accurate, remains in effect, and has not been withdrawn.

The Secretary may provide by regulation for the submission of certifications under this section in electronic form if, prior to the entry of any cigarettes into the United States, the person required to provide such certifications submits to the Secretary a written statement, signed under penalties of perjury, verifying the accuracy and completeness of all information contained in such electronic submissions.

#### "SEC. 803. ENFORCEMENT.

"(a) CIVIL PENALTY.—Any person who violates a provision of section 802 shall, in addition to the tax and any other penalty provided by law, be liable for a civil penalty for each violation equal to the greater of \$1,000 or 5 times the amount of the tax imposed by chapter 52 of the Internal Revenue Code of 1986 on all cigarettes that are the subject of such violation.

"(b) FORFEITURES.—Any tobacco product, cigarette papers, or tube that was imported into the United States or is sought to be imported into the United States in violation of, or without meeting the requirements of, section 802 shall be forfeited to the United States. Notwithstanding any other provision of law, any product forfeited to the United States pursuant to this title shall be destroyed."

Mr. MOYNIHAN. Mr. President, my great thanks to the chairman of the Finance Committee for his efforts in bringing this legislation, the Tariff Suspension and Trade Act of 2000, to a successful conclusion. Last November, the World Trade Organization Seattle Ministerial ended in what The Economist magazine labeled a "global disaster." Mr. President, our trade policy of 60 years—first established by Cordell Hull's Reciprocal Trade Agreements Act of 1934—was in a crisis. Since then, the Senate has worked hard to put our trade policy back on track. On May 11, 2000, Congress passed the Trade and Development Act of 2000, extending preferential tariff treatment to our friends in Africa and expanding benefits to our neighbors in the Caribbean Basin. Just this week, the President signed into law H.R. 4444, authorizing permanent normal trade relations for China. And today, the Senate has passed—by unanimous consent—our third piece of trade legislation this year, the Tariff Suspension and Trade Act of 2000. There has not been a year in Congress so productive on trade issues since 1988, when we considered the Omnibus Trade and Competitiveness Act and the legislation implementing the U.S.-Canada Free Trade Agreement.

H.R. 4868 contains over 150 tariff suspensions and reductions on a wide range of products, 19 reliquidations of prior entries, and 11 technical Customs provisions, including one which provides economic incentives for importers to recycle. Notably, the bill also authorizes the President to grant Georgia permanent normal trade relations,

bringing the total number of nations we have normalized trade relations with this year to four.

Finally, Mr. President, I would like to take this opportunity to thank the staff which have worked late nights and long weekends to ensure that the Tariff Suspension and Trade Act of 2000 was a success. On the Finance Committee Minority staff, Linda Menghetti, Timothy Hogan, Holly Vineyard, and Pat Heck, and on the Majority staff, Grant Aldonas, Faryar Shirzad, Tim Keeler, and Carrie Clark worked tirelessly to ensure the passage of this important bill. Polly Craighill, of the Legislative Counsel's Office, spent countless hours drafting and redrafting this extensive piece of legislation. Anita Horn and Gary Myrick of the Minority leadership were also crucial to its final passage. Mr. President, we have taken three major steps forward since Seattle, and I hope the momentum will continue.

#### THE REPUBLIC OF GEORGIA

Mr. LEVIN. Mr. President, before the Senate passes the miscellaneous tariff bill, I would like to bring attention to a provision in the bill that would grant permanent normal trade relations, PNTR to the Republic of Georgia. In general, I support the proposition that the time is ripe for Georgia to receive PNTR. However, I also think we should recognize that the Republic of Georgia has demonstrated enforcement of internationally recognized core labor standards.

Georgia grants its citizens the right to emigrate. It is a leader in democratic reform in the Caucuses. It has a relatively strong human rights record. It has been shedding its status as a non-market economy, and this year became a member of the WTO. And it has been an important strategic partner of the United States.

To a certain extent, these accomplishments are acknowledged in the preambulatory clauses to the PNTR grant. But there is something missing. There is no recognition of Georgia's effective record of enforcing internationally recognized core labor labor standards and its demonstrated commitment to continue its protection of worker rights in the future. I hope that this gap can be filled in when the bill goes to conference.

Why should a grant of PNTR to Georgia acknowledge that country's protection of worker rights and its commitment to continue protecting worker rights? Because, increasingly, U.S. trade policy is reflecting the link between trade and labor. Different countries' different levels of protection of core labor standards have an impact on trade. We cannot ignore that. Indeed, we affirmatively recognized that fact in both the China/PNTR bill and in the Africa/CBI bill.

It stands to reason that when we make a significant change in our trade

relationship with another country—as when we grant PNTR—we ought to take account of that country's enforcement (or lack of enforcement) of core labor standards. Here, the country in issue has a strong record in this area. We ought to recognize that fact, since it reinforces the case for granting PNTR. This sends an important signal to future PNTR candidates.

Therefore, I hope that, in conference, we will be able to include a simple recognition of Georgia's record and its commitment going forward.

Mr. MOYNIHAN. The Senator's point is a good one and I will press it in conference.

Mr. LOTT. Mr. President, I ask unanimous consent that the substitute amendment be agreed to, the bill be read a third time and passed, as amended, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendment in the nature of a substitute was agreed to.

The bill (H.R. 4868), as amended, was read the third time and passed.

MAKING A TECHNICAL CORRECTION IN THE ENROLLMENT OF H.R. 4868

Mr. LOTT. Mr. President, I also ask unanimous consent that the Senate proceed to the consideration of S. Con. Res. 152, which makes a technical correction in the enrollment of H.R. 4868 and, further, the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (S. Con. Res. 152) was agreed to, as follows:

#### S CON RES 152

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill (H.R. 4868) to amend the Harmonized Tariff Schedule of the United States to modify temporarily certain rates of duty, to make other technical amendments to the trade laws, and for other purposes, the Clerk of the House of Representatives shall make the following correction:

On page 160, line 8, strike ": and" and all that follows through line 10, and insert a period.

## SITUATION IN THE MIDDLE EAST

Mr. DASCHLE. Mr. President, I come to the floor today to discuss the troubling developments in the Middle East. Given what has happened in the past several days, it is increasingly apparent that we are at a dangerous juncture in a critically important region of the world. The United States can and must stay engaged in the Middle East.

First and foremost, Mr. President, my heart goes out to the families of the seventeen sailors reported killed and the 36 injured in the explosion yesterday on the U.S.S. *Cole* off the coast of Yemen. These brave individuals lost their lives or suffered injury in defense of our country, our values, and our future. This explosion underscores the danger that the men and women of our Armed Forces face every day, and our debt of gratitude for the duty they undertake.

All evidence strongly suggests that yesterday's explosion was a terrorist attack. Such an attack is senseless and cowardly, and those responsible will be found and brought to justice. The world should know that the President and the Congress stand united on this score

We will not grant the perpetrators an ounce of satisfaction that they have succeeded in altering the way the United States conducts business. We will remain a force for stability. We will continue to press for a negotiated peace in the Middle East. We will stand against insecurity and senseless violence in the Middle East and throughout the world. We owe that much to the brave sailors who were killed yesterday.

Recent days have also confronted us with a stream of horribly violent incidents in Israel and the territories. Unfortunately, efforts to end unrest have yet to succeed. Yesterday two Israeli soldiers were killed in a distressing scene of mob violence as protests gave way to deadly confrontation. I deplore that violence, Mr. President, and I call on Chairman Arafat to raise his voice in favor of peace.

I have followed with grave concern the violence that has gripped Israel and the territories for more than two weeks. After years of instability and violence, this region of the world—so riven with religious and strategic interests—was experiencing relative calm. This state of affairs was born out of an emerging consensus among all parties in the region that the future peace and security of Israel and the territories could be decided only through negotiation. The outlines of and expectations for a lasting peace were beginning to take shape. A successful conclusion to these negotiations seemed tantalizingly close just two short months ago when Israel made unprecedented compromises in the name of peace.

In addition to the human toll exacted by the recent string of violent incidents, there has been another equally tragic casualty—at least in the short term. The events of the past week or so have apparently punctured the hope for a quick peace settlement, putting at risk the great progress that had been made toward settling long-standing Israeli-Palestinian differences. Moreover, the latest crisis in Israel and the territories also threatens wider regional conflict, as evidenced by the abduction of three Israeli soldiers by

Lebanon as well as Iraqi troop movements. The stakes, Mr. President, are high and the time is short.

If we are to return to the path of a peaceful settlement after the events of the last two weeks, we must first end the violence. A cessation of hostilities can only be accomplished if all sides demonstrate leadership by condemning the violence. I am sorely disappointed in Arafat and the Palestinian Authority and in the fact that they have allowed violence to be carried out without restraint or comment.

Preferring instead to blame the violence on what he terms Israeli provocations, Arafat has refused to publicly and unequivocally call for an end to violent protests and confrontations. Palestinian police have failed to control mob violence. And efforts at re-establishing negotiations have been rebuffed. The result is despicable violence that has cost far too many inno-

Rather than being unable to control the violence—as Chairman Arafat claims—his silence leaves the impression that he condones it. The on-again off-again cooperation with Israeli security forces suggests that Arafat prefers using violence and the threat of wider war as a negotiating tool. Such tactics are cynical, dangerous and stand in stark contrast to the Oslo process that brought the region to brink of a comprehensive peace just two short months ago.

Meanwhile Prime Minister Barak has remained committed to negotiations and the Oslo Process. He took great risks at Camp David in July. He offered remarkable concessions on issues that go to the very core of his country's history and identity—compromises that no one had considered possible before President Clinton convened the Camp David talks

Despite subsequent violence provocations, Barak has repeated his interest in restoring calm, ending the violence and returning to the negotiating table. When he was approached by President Clinton to join an emergency summit, he readily stated his interest and willingness in participating.

And unlike Arafat, Barak has clearly denounced violence. He implored Israelis not to participate in the violence when he said, "I urge our Jewish citizens to refrain from attacking Arabs and their property under any circumstances."

Time is short in the Middle East, Mr. President. The risk of a wider regional conflict is very real. The first step toward assuring that the situation improves is a strong public statement from Chairman Arafat calling for an end to the violence.

MACK

Ms. SNOWE. Mr. President. I rise today to pay tribute to a friend and an outstanding public servant who is retiring from the United States Senate this year after 18 years in public service. Senator CONNIE MACK of Florida.

I have had the privilege of serving with Senator MACK in both houses of Congress. And I know him as a man deeply committed to the finest ideals of public service, as well as the beliefs he so passionately holds.

Perhaps no one believes more fervently in the inherent potential of each and every individual than Senator MACK. For him, it is not government that creates wealth or success or personal fulfillment. It is the American people. To give people opportunity—to give them the skills they need to compete and reach their greatest potential—is for Senator MACK perhaps the greatest end that government can serve.

I have also known Senator Mack as a staunch proponent of fiscal responsibility, back to the days when it often seemed that talk of balanced budgets was only slightly more fashionable than actually balancing the budget. I have to believe he must share my sense of wonder as to how far we've come, and it is thanks in no small part to the efforts of Senator MACK and those like him who have fought for years to make the current surpluses a reality.

Senator Mack has been a strong voice for the Sunshine State in the United States Senate. Most recently, his tireless efforts in helping to shepherd through the Senate the historic Everglades restoration plan, the Restoring the Everglades, an American Legacy Act, leaves a positive and lasting mark on Florida and one of our nation's true natural treasures that will be appreciated for generations to come.

One could argue, however, that Senator MACK has pursued no other goal with a higher degree of dogged determination than increasing our federal investment in medical research. He rightly sees this issue as a matter of national importance, knowing no political, social, financial, or racial boundaries.

He recognizes that disease touches every American family. Certainly, it has had a profound impact on his own family, including his wife, daughter, brother, and both parents—as well as affecting his own life.

Characteristically, Senator MACK and his wife, Priscilla, who is a courageous breast cancer survivor, met these challenges first with courage and dignity, and then with an unyielding determination to do something about them.

Both have been extremely active in spreading the word on the importance of early detection. As co-Chair of the bipartisan Senate Cancer Coalition,

Hezbollah guerrillas operating out of RETIREMENT OF SENATOR CONNIE Senator MACK has provided outstanding leadership on matters relating to our fight against cancer, and in particular I have been honored to work with Senator MACK on providing greater funding for breast cancer research.

The depth of Senator MACK's concern when it comes to this dread disease cannot truly be measured. Certainly, having worked on this issue throughout my tenure in Congress, I was honored and thankful for Senator MACK's participation in a breast cancer hearing, or "breast cancer summit", we convened in 1996, but I was not surprised that he would be there to contribute his wisdom and his support.

From that summit came legislation to establish a national data bank of information on clinical trials involving experimental treatments for serious or life-threatening diseases. It also mandated that a toll-free number be instituted for patients, doctors and others to access this information.

Senator Mack has literally been instrumental in securing increased funding for medical research in general. and indeed for the fiscal year 2000 fought for the inclusion of a \$2.3 billion increase for the National Institutes of Health. And he has rightfully called for funding to NIH to be doubled from \$12.75 billion to over \$25 billion over the next five years.

Finally, Mr. President, to quote a piece from the St. Petersburg Times from last year, "the Senate will lose one of its nicest members." And that is absolutely true. Senator MACK has strongly held beliefs on the issues, let there be no doubt.

But he has always understood the fine but certain distinction between disagreeing and being disagreeable. He has been a credit to the Senate, to Florida, to the nation, and to his familv. I wish him well as he returns to his beloved state and embarks on a new chapter in his life—one that I hope will be filled with happiness and good health for him and his wife, Priscilla. He will be missed by all those fortunate enough to have worked with him.

### CONSIDERATION OF IMMIGRATION MATTERS

Mr. LEAHY. I would like to commend Senator REED for allowing us to proceed on several important immigration matters even though the Republican majority has refused to act on his compelling legislation to do justice for Liberians. Senator REED has been a persistent advocate for the Liberian nationals who have fled the strife in their nation for the United States. He has recognized that the U.S. has a special relationship with Liberia's citizens and has sought to respect and enhance that relationship. But his efforts have been resisted by the majority, which has consistently denied his requests to take up his bipartisan bill, which

would allow Liberians who fled here and meet certain criteria to become legal permanent residents of the United States. I hope that we will change course and address this issue before we adjourn. I commend the Administration for its commitment to insist on action.

Meanwhile, I am pleased that we were able to pass H.R. 2883, a bill that will confer automatic citizenship upon foreign-born children who are adopted by the American parents. Given the severe curtailment of noncitizens' rights under the immigration laws we passed in 1996, it is all the more important to extend this right to American parents and their adopted children. Everyone in the Senate supports adoption, and we should make sure the law expresses that support.

Many Senators on both sides of the aisle worked hard to see this bill become law, and I would like in particular to commend Senator LANDRIEU for her efforts. She and her staff were dedicated to this bill and were instrumental in its passage.

I hope that we are able today to move forward on a number of pieces of legislation. First, I hope we can pass the bill that extends the program under which religious workers can obtain visas to enter the U.S. Senator KENNEDY has championed this legislation, it has significant bipartisan support, and there is no reason not to act quickly to pass it. We should also pass the bill benefiting Syrian Jews that Senator SCHUMER has advocated, as well as legislation benefiting Hmong people, which the late Congressman Bruce Vento did so much to promote. Although many of the larger immigration issues that should have been addressed in this Congress—from reforming expedited removal to restoring due process rights for legal permanent residents—may regrettably remain unresolved, we can at least take these more limited steps and demonstrate some commitment to immigrants and a sound immigration policy.

### VOTE EXPLANATION

Mr. ABRAHAM. Mr. President, I rise today to explain my vote against the Boxer amendment No. 4308 to the FY01 VA/HUD Appropriations bill.

This amendment addressed two issues which are very important to Michiganians: clean air and clean water. Unfortunately, whatever the intentions of the author, the amendment would have done more harm than good. I particular, I was troubled by the attempt to strike language which will prevent the EPA from designating Michigan counties as being in nonattainment, or not meeting clear air requirements.

On May 14, 1999, the United States Court of Appeals for the District of Columbia Circuit, in American Trucking Association v USEPA, ruled that the 8-hour ozone standard as proposed by EPA be remanded to EPA for further consideration. The 8-hour standard was therefore suspended. The court specifically noted that USEPA retains the power to designate areas as nonattainment under a revised national Ambient Air Quality Standard (NAAQS), however, there must be a legal standard in place before USEPA makes such designations. Since the 8-hour standard was remanded, it is not legal NAAQS.

In response, EPA announced its intention to reinstate applicability of the one-hour ozone standard. However, in determining which communities were in nonattainment under the one-hour standard, EPA intended to make air quality designations based on the designations of these areas at the time the 1-hour standard was originally revoked, rather than rely on the most recent air quality data.

Under this proposed action, six Michigan counties would have been in nonattainment even though all six have monitoring data measuring attainment-Midland, Bay, Saginaw, Genesee, Muskegon, and Allegan. These are counties that were previously designated as nonattainment of the 1-hour standard. Although they were previously designated as nonattainment, only Muskegon was "classified" under the classification scheme of the Clean Air Act. Thus, only Muskegon County was subject to the major ozone control programs, but all nonattainment counties are subject to tougher permit and offset requirements.

Even though these counties are now in attainment, tougher permit standards would have been required for new major stationary sources just because these counties were previously designated as nonattainment for the 1hour standard. Additionally, offset requirements for major stationary sources would have applied. In addition, these six counties would have had to resume doing transportation and general conformity for projects receiving federal funds. Under the revocation, conformity was not a requirement. Conformity was a continuing requirement for redesignated areas.

Shortly after the announcement, I made clear to USEPA that in my opinion there was no rational basis for intentionally jeopardizing economic development and the construction of much-needed road projects in areas that are meeting attainment levels for the 1-hour ozone standard. Further, I noted that EPA should not disregard air quality improvements made in several areas of the state and should base any non-attainment designations under this rulemaking on the most current air quality monitoring data available.

To date, I have not been satisfied with the response from USEPA and for that reason, I supported the language included in the FY01 VA/HUD Appropriations bill. This language will prevent EPA from designating any Michigan county as nonattainment for the next 12 months or until the courts have settled the pending matter, whichever happens first. In fact, I understand that EPA actually agreed to this language in a compromise with the house.

It was unfortunate that the Boxer amendment also sought to permit EPA to move forward on a new arsenic standard. This is an issue which I believe merits independent consideration. I understand the arsenic standard has not been updated in almost 60 years. However, I am concerned that the push to lower the standard to 5ppb from the current 50ppb may be too extreme. While large water systems may be able to comply with such a strict requirement, I am not at all certain that smaller systems which serve a great percentage of the Michigan population would be able to comply with that standard. They would therefore be subject to penalties for their inability to comply with yet another unfunded mandate. In any event, I look forward to the opportunity to consider this issue on its own merit, and urge the EPA to base whatever standard it eventually proposes on sound science and even then only after extensive peer re-

### NATIONAL HISPANIC MONTH

Mr. LEVIN. Mr. President, it is with great pleasure that I join many of my colleagues in commemorating National Hispanic Heritage Month. The nation wide celebration of Hispanic heritage was initiated by the 90th Congress in 1968, which designated National Hispanic Heritage Week. Twenty years later, the 100th Congress transformed this week into a month, designating the period of September 15 to October 15 as a time to recognize the Hispanic influence in and contributions to our culture and society.

For over 400 years, Hispanic Americans have played a fundamental role in the history of the United States. The first European expedition in recorded history to land in what is today the continental United States was led by the former Spanish Governor of the Island of Puerto Rico, Juan Ponce de Leon.

America's diverse and vibrant Hispanic population has made an enormous contributions to the building and strengthening of our nation, its culture, and its economic prowess. As we cross the threshold of a new century, we look to the outstanding contributions of Hispanic Americans for inspiration and leadership. My hometown, Detroit, was made great in the twentieth century in part by immigrants who went there to find work and provide for their families. This great dream lives on today as thousands of immigrants come to Detroit every year

from countries like Mexico, El Salvador, Guatemala and Cuba. In fact, Southwest Detroit, known as Mexicantown by its residents, is the fastest growing part of Detroit. Hispanics who have come to Detroit have opened businesses, bought homes and turned a once neglected urban neighborhood into a thriving community that has become one of the centers of the city.

One woman, Maria Elena Rodriguez, has had a lot to do with this turnaround. Her hard work as president of the Mexicantown Community Development Corporation has helped to provide the spark needed to reinvigorate a community. Ms. Rodriguez is currently in the process of helping to build a welcome center for people coming into Detroit across the Ambassador Bridge, an effort she hopes will fulfil her mission to bring more business and visitors to her neighborhood.

Hispanic contributions to Michigan businesses abound. The Kellogg Company, founded and headquartered in Battle Creek, Michigan, has millions of customers in over 160 countries, and is the world's leading producer of cereal. Its CEO is Carlos Gutierrez, who started with Kellogg's as a sales representative in Mexico City, and after 25 years with the company is now in charge of this global giant.

Education has long played a prominent role in Hispanic culture. The first free integrated public school was established in St. Augustine, Florida in September of 1787. On March 31, 2000 Rebecca Arenas was awarded the "Caesar Chavez Civil Rights Achievement Award" for her work to better the lives of Hispanics in general, and migrant workers in particular. Rebecca's parents brought her to Michigan at the age of 5 from Crystal City, Texas. Her parents were migrant workers who chose to stay in Michigan because they believed it would allow Rebecca to have a better education. Because of the actions of her parents, Rebecca developed a commitment to education that would last a lifetime. Rebecca passed this commitment to education onto her children, all seven of whom have received a post-secondary education. In addition to the "Caesar Chavez" award, Rebecca has received recognition on numerous other occasions because of her work in education, health care, and voter registration.

For these and countless others reasons, it is a pleasure for me to stand today with my Senate colleagues in commemorating National Hispanic Heritage Month.

### OUR PART FOR SCHOOL SAFETY

Mr. LEVIN. Mr. President, over the last few years, high profile school shootings across this country have left teachers, parents, and students scared and confused. In response, the FBI has

conducted an exhaustive study on school shootings in an effort to assess, intervene and prevent such tragedies from occurring in the future. The report, entitled, "School Shooter: A Threat Assessment Perspective," recommends specific steps for school officials to take to prevent youth violence. The report notes that in the vast majority of cases, kids do not turn violent overnight. Instead, those who become violent tend to exhibit increasingly disturbing patterns of behavior as their fascination with violence builds. By learning to recognize these behavioral signs, teachers and students can be prepared to investigate and intervene before potentially violent situations get out of control.

The FBI report goes on to suggest specific measures schools can take to head off potential shootings. The report recommends that students and faculty should be trained to recognize certain warning signs that students may be considering committing violent acts; groups of faculty and students should be established to encourage students not to keep silent when they recognize potential threats; programs should be developed to teach parents to recognize behavior that may indicate that their children are prone to acts of violence. In addition to these preventive measures, the FBI recommends that schools establish specially trained Threat Assessment Teams to handle evaluating and responding to threats if and when they arise.

The FBI warns teachers, parents, and students that they should not ignore any threat of violence. We in Congress should follow the same advice. Yet, while parents and school officials are pursuing more vigorous responses to potential violence, we in Congress seem to be less responsive to such danger. Over the last few years, many of us in Congress have continually tried to close the loopholes in our laws that permit school children to gain access to firearms. Unfortunately, our efforts have been stymied by the leadership in the House of Representatives. In a few weeks, this session of Congress will come to an end. Before we adjourn, let's do our part and reduce the threat of gun violence in our schools and communities.

(At the request of Mr. DASCHLE, the following statement was ordered to be printed in the RECORD.)

# THE COUNTERTERRORISM ACT OF 2000

• Mrs. FEINSTEIN. Mr. President, I am delighted to join my good friend Senator Jon Kyl in sponsoring S. 3205, the Counterterrorism Act of 2000. This bill, introduced last night, seeks to improve our ability to prevent and respond to terrorist attacks.

In light of the events yesterday in the Middle East, there can be no doubt

of the need for this legislation, and I urge my colleagues to act quickly to pass this important bill.

All the evidence now indicates that the cowardly and reprehensible attack on the U.S. Navy destroyer U.S.S. *Cole* yesterday in Aden was a terrorist suicide attack. It appears that the bombers had infiltrated the port's harbor operations and carefully planned the operation. It is fortunate that the explosion did not set off Tomahawk cruise missiles or other ordnance on board, causing even more devastation.

If found to be a terrorist incident, the attack on the U.S.S. *Cole* would be the worst against the U.S. military since the bombing of an Air Force barracks in Saudi Arabia killed 19 airmen in 1996. It would also be the worst attack on a Navy ship since an Iraqi missile struck an American guided-missile frigate in 1987, killing 37 sailors.

My heart goes out to the families of the American sailors who were killed or injured or who are still missing. Their tragedy underlines the constant danger faced by our armed forces around the world and the need for this country to remain vigilant in protecting them from terrorist and other attacks

The attack on the U.S.S. *Cole* was no isolated incident. In fact, just today, a bomb was hurled at the British embassy in Yemen, causing a massive explosion.

I believe that we need to take strong action to combat terrorism. There is no question that terrorist attacks will continue and that they will become more deadly. Terrorists today often act out of a visceral hatred of the U.S. or the West and seek to wreak maximum destruction and kill as many people as possible.

At the same time, I believe that our counterterrorism policy must be conducted in a way that remains consistent with our democratic values and our commitment to an open, free society.

To help avert attacks such as those on the U.S.S. *Cole*, Senator KYL and I have introduced S. 3205. This legislation implements major recommendations from a bipartisan, blue-ribbon commission on terrorism.

Specifically, the bill aims to review legal authority for responding to catastrophic terrorist attacks and increase long-term research and development to counter such attacks, improve controls on biological pathogens and equipment that could be used in a terrorist assault, discourage terrorist fundraising, improve the sharing of information about terrorists, keep Syria and Iran on the list of countries that sponsor terrorism, and fully reimburse counterintelligence personnel for insurance they purchase to protect themselves from professional liability.

In many ways, the Kyl-Feinstein Counterterrorism Act of 2000 is a counterpart bill to the Justice for Victims

of Terrorism Act that just passed the Senate 95 to 0. That legislation, of which I was a chief cosponsor, will make it easier for American victims of terrorism abroad to collect courtawarded compensation and to ensure that the responsible state sponsors of terrorism pay a price for their crimes. The act also contained an amendment I authored with Senator PATRICK LEAHY that will provide faster and better assistance to victims of terrorism abroad. This legislation, which has passed the House as well, will now go the desk of President Clinton, who will sign it.

While I strongly support assisting terrorist victims, I also believe that we need to do more to prevent Americans from becoming victims of terrorism in the first place. And I believe that we should act now—before terrorists strike again, killing and injuring more Americans and leaving more families grieving. I urge Congress to act pass S. 3205 before we adjourn. ●

### CONGRESS MUST ADDRESS IN-EQUITIES SUFFERED BY FED-ERAL RETIREES

Mr. JOHNSON. Mr. President, I rise today to commend the Congress and the President on the recent enactment. of S. 2420, the bill to provide long-term healthcare insurance for federal employees. As the nation's largest employer, we have set an example for the private sector in establishing a longterm care insurance program for federal workers and retirees. At least thirteen million people are expected to benefit from this far-sighted effort, but there is more work to be done on those issues affecting current and former Federal employees. Today, I wish to highlight three proposals on which I have received much correspondence from my constituents: repeal of the Government Pension Offset, GPO, elimination of the Social Security Windfall Elimination Provision, WEP; and, health insurance premium conversion availability.

I am a cosponsor of S. 717, Senator MIKULSKI's proposal to reform the GPO. Additionally, I am a supporter of initiatives in the House of Representatives to eliminate the WEP. Both pieces of legislation alleviate current laws that block Federal annuitants and their spouses from collecting full Social Security benefits. Because of the current budget rules requiring the offsetting of spending cuts or tax increases, passage of these reforms have been complicated.

We should not penalize people who have worked hard and contributed to the country simply because they worked for the Federal government and receive a Federal pension. This Senate must consider these bills a priority, and seriously review the offsets necessary to achieve these essential and

fair changes. I believe that we need to enforce a budget discipline which will balance the budget without borrowing payroll tax dollars from the Social Security trust fund and any other federal trust funds. However, now that the budget is balanced, we should first restore the change that helped bring us toward fiscal soundness.

Finally, I wish to address the availability of health insurance premium conversion arrangements. As my colleagues may be aware, no Senate legislation has been introduced, but H.R. 4277 has been introduced in the House. Under the provisions of this bill, the Office of Personnel Management, OPM, would be directed to take necessary measures to ensure that enrollees have the option to paying charges out of pre-tax earnings. This would ensure equal premium tax treatment for federal workers and retirees. I urge my House and Senate colleagues to provide full consideration to this legislation. and bring Federal employees and retirees pay and benefit equity and fairness.

Mr. President, these are just three issues of concern to me and my constituents. While enactment of the long-term care bill was a great step forward, I must reiterate my call for more work to be done. I am hopeful that we may make a serious effort on this legislation on the few remaining days of the 106th Congress. These concerns will not go away, and I know we will surely be hearing about the GPO, WEP, and premium conversion in the next Congress is we do not take action this year.

# 225TH BIRTHDAY OF THE UNITED STATES NAVY

Mr. LUGAR. Mr. President, I ask my colleagues to join me in commemorating the 225th birthday to the United States Navy, by passing Senate Resolution 373. Several of the Senate's other veterans of naval service have joined me in sponsoring this resolution and I thank Senator McCain, Senator Moy-Nihan, Senator Warner, Senator Coch-Ran, Senator Robb, Senator Bob Smith, Senator Miller, Senator Bob Kerrey and Senator John Kerry.

While we like to celebrate on a birth-day, we must pause in solemn reflection, for yesterday, the Navy family suffered a tragic loss. I send my heart-felt condolences to the U.S.S. Cole and her extended family. Like thousands of Sailors before them, these brave men and women have made the ultimate sacrifice in service to their country. The loss is felt by the entire nation, and the entire nation grieves with you and expresses gratitude for your sacrifice.

October 13, 1775, was the day that the Continental Congress established a "Naval Committee" to acquire and fit out vessels for sea and draw up regulations. By the following month the committee procured two ships, two brigs

and later two sloops and two schooners. From these modest beginnings, the greatest Navy in the world has grown. Down through the years, the Navy has been central to the history of this nation, and ever-integral to her longevity and prosperity.

Mr. President. I had the honor of serving in the Navy. Perhaps my greatest honor during my service as a young naval intelligence officer was working for Admiral Arleigh "31-Knot" Burke, when he was Chief of Naval Operations. A heroic WWII destroyer squadron commander, Admiral Burke was truly a man of vision. Under his tutelage I learned valuable lessons about the Navy's place in our history, but also about the key role it plays today in economics, science, politics, and international relations. Then as now, the world was an uncertain place, and the Navy played a vital role in calming the waters.

Admiral Burke is the namesake for the class of destroyers to which the U.S.S. Cole belongs. The Cole tragedy brings the spotlight on the Navy and the day-in, day-out honor, courage and commitment of her sailors. At the commissioning of the lead ship in the class, Admiral Burke stated fittingly "This ship is built to fight, you had better know how." A quote reminiscent of Captain John Paul Jones legendary declaration: "I wish to have no connection with any ship that does not sail fast, for I intend to go in harm's way." These are the best ships in the world, manned by the world's best Sailors, but they are not impregnable fortresses, they do sail in harm's way.

Many have expressed incredulity at the attack on the warship Cole. But, she was in a vulnerable situationcoming pierside to replenish fuel in a presumed-benign environment. The task that was to occupy Cole and her crew over the next several monthsmaritime interdiction duty in the Persian Gulf—was more precarious. Ships refuel in foreign ports daily as they have for many years. But this tragedy is a reminder that the peace and prosperity we enjoy is not without cost, nor are the commitments we make to our allies.

The U.S.S. Cole is one of the Navy's finest warships—one of 318 operational ships. 4108 Navy aircraft are also operational today. 42 percent of those ships are away from homeport and 32 percent, like the Cole and the U.S.S. George Washington Battlegroup, of which she was a member, are deployed. These numbers provide a snapshot of the Navy's diligence around the globe. Their involvement in contingency operations over the last 10 years is also very telling. From 1946 to 1989 (44 years) the U.S. Navy responded to 195 crises, while from 1990 to 1999 (10 years) the Navy responded to 122 crises. Such optempos demand much of the men and women in uniform, and their loved ones back home. It also places tremendous stress on our ships and aircraft. While deployed battlegroups have maintained their readiness, they often do so at the expense of non-deployed units. In my view, we must maintain our commitment to support the fleet and ensure they continue to be the best equipped in the world. We have a distinct responsibility to our Navy, not to blindly increase ship production in response to rampant deployment rates, but to ensure we are ready to face clearly defined missions and threats.

Today, as in the future, America relies on its Navy. For 225 years, the Navy has responded to each new demand and comes through in the clutch. Ever-present, around the globe, minutes away from crises as they occur, today's Navy is deterring would-be aggressors: and providing fledgling democracies with visible reassurance of U.S. support. Daily, Navy men and women are our ambassadors in ports of call and as participants in multi-national operations and exercises. As one of the eleven members of this Senate to have worn the Navy uniform, I am pleased to share my pride in our sea service with all who have worn Navy blue down through the years. I also send greetings to the 373,910 men and women on active duty today, the 182,970 ready reservists, and the extended Navy family of civilian personnel, families and loved ones.

As we celebrate this 225th birthday, I close solemnly, and offer the first verse of the Navy Hymn in memory of those who have most recently perished in service to their Navy and their country:

Eternal Father, Strong to save, Whose arm hath bound the restless wave, Who bid'st the mighty Ocean deep Its own appointed limits keep; O hear us when we cry to thee, for those in peril on the sea.

### ADDITIONAL STATEMENTS

### TRIBUTE TO MONSIGNOR BOLDUC

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Reverend Monsignor Norman P. Bolduc, 48, Chancellor of the Diocese of Manchester, as New Hampshire mourns his tragic loss.

Monsignor Bolduc was ordained a priest in April 1979 after entering his religious training at Saint Thomas Seminary in Connecticut at the tender age of 13. As a Lieutenant Colonel, Monsignor Bolduc served as a Chaplain of the United States Air Force Reserves. He earned a master's in philosophy at the Catholic University of America in Washington, D.C., where he also earned his licentiate in Canon law.

Upon the recommendation of Bishop Odore Gendron, the seventh Bishop of Manchester, Pope John Paul II appointed Reverend Norman Bolduc as a Chaplain to His Holiness with the title of Monsignor in 1991. As Chancellor, Monsignor Bolduc was the third-ranking official in the diocese. He served as the bishop's Secretary for Pastoral Services and represented the bishop in Concord, New Hampshire, speaking on legislative matters. Reverend Edward Arsenault, Secretary for Administration of the diocese, noted Monsignor Bolduc's keen intellect and his "great ability to explain and teach the church's teaching. He was a noted and gifted homilist."

Monsignor Bolduc was a talented baseball player, an avid golfer and had a passion for travel, often traveling to foreign lands. Many New Hampshire residents were fortunate to share his love of travel and accompanied him on pilgrimages to the Holy Land. Monsignor Bolduc was the eldest of seven children. He was the loving son of Norman Sr. and Cecile Bolduc of Laconia, New Hampshire. Monsignor Bolduc was a caring brother and devoted uncle to his eleven nieces and nephews. He enjoyed his family life and cherished the time he spent with all of them.

As Bishop John B. McCormack remembered his faithful and devoted colleague during the Funeral Mass celebrated at Saint Joseph's Cathedral he reminded us all that, "It is clear that God does give, but God also takes away. It is clear whether we live or die, we are all the Lord's." Monsignor Bolduc honorably served our nation and the Roman Catholic Church and will be greatly missed by all those who were blessed by his presence and ministry. As Holy Scripture says in Psalm 116, "Precious in the eyes of the Lord is the death of the faithful ones." May God bless Norman Sr., Cecile and Monsignor Boduc's siblings, nieces and nephews as they mourn the loss of their loved one.

I am honored to have served the Reverend Monsignor Norman Bolduc in the United States Senate. May God bless him and grant him eternal peace. ●

DONALD L. BEMIS JUNIOR HIGH SCHOOL NAMED BLUE RIBBON SCHOOL FOR 1999–2000

• Mr. ABRAHAM. Mr. President. in 1982, the United States Department of Education initiated its Blue Ribbon Schools Program. In each year since, the Department has recognized schools throughout the country which excel in all areas of academic leadership, teaching and teacher development, and school curriculum. In other words. Blue Ribbon Schools are the finest public and private secondary schools our Nation has to offer. They are the schools that set the standard for which others strive. I am very proud to report that nine of the 198 Blue Ribbon Schools named by Secretary Richard W. Riley for 1999–2000 are located in the

State of Michigan, and I rise today to recognize Donald L. Bemis Junior High School in Sterling Heights, Michigan, one of these nine schools.

The mission of Donald L. Bemis Junior High is to educate its students in the development of knowledge, problem solving, and acceptance of others. Curriculum places primary emphasis on basic skills to promote essential knowledge and challenge students to achieve at the highest levels they are capable of attaining. Students are taught tolerance as conflict resolution strategies have been integrated into this curriculum. In addition, character building is taught and modeled within the school climate. The whole of this curriculum is designed to provide students with the building blocks they need to construct positive ideals which they can carry with them for the rest of their lives.

Technology has recently begun to play a large role in the program as well. Each classroom at Bemis is equipped with a television and VCR, allowing students to be a part of a worldwide telecommunications system and providing teachers with audio-visual communication throughout the entire school. There are at least two computers in each classroom, which are hooked up to two building servers as well as the Internet. Bemis also has three computer laboratories, from which teachers and students can easily access personal files which have been set up for them. There is no doubt that technology is revolutionizing the way that students are taught throughout our Nation. There is also no doubt that Bemis Junior High has been on the forefront of employing it for positive purposes.

Perhaps the greatest key to the success of Bemis Junior High though has been the collaborative decision making process which has been developed by parents, teachers and students. This process involved an overall dedication to the Bemis Junior High community, and relies upon keeping lines of communication open through parental contacts, open houses, parent-teacher conferences, the Parent Sounding Board, and the Student Council. Also present and a part of this process is the School Improvement Team, made up of staff and students focusing upon issues to enhance student achievement. All of these efforts lead to a well informed school community, which has been the most important aspect in the development of Bemis Junior High.

Mr. President, I applaud the students, parents, faculty and administration of Bemis Junior High, for I believe this is an award which speaks more to the effort of a united community than it does to the work of a few individuals. With that having been said, I would like to recognize Mrs. Joyce A. Spade, Principal of Bemis Junior High, whose dedication to making her school one of

the finest in our Nation has been instrumental in creating this community. On behalf of the entire United States Senate, I congratulate Donald L. Bemis Junior High School on being named a Blue Ribbon School for 1999–2000, and wish the school continued success in the future.

#### ADLAI E. STEVENSON HIGH SCHOOL NAMED 1999–2000 BLUE RIBBON SCHOOL

• Mr. ABRAHAM. Mr. President, in 1982, the United States Department of Education initiated its Blue Ribbon Schools Program. In each year since, the Department has recognized schools throughout the country which excel in all areas of academic leadership, teaching and teacher development, and school curriculum. In other words. Blue Ribbon Schools are recognized because they are the finest public and private secondary schools our Nation has to offer. They are the schools that set the standard for which others strive. I am very proud to report that nine of the 198 blue Ribbon Schools names by Secretary Richard W. Riley for 1999-2000 are located in the State of Michigan, and I rise today to recognize Adlai E. Stevenson High School in Sterling Heights, Michigan, one of these nine schools.

The mission of Stevenson High School is to provide every student with a positive learning environment, which will allow them to feel a part of a school community while at the same time achieving their greatest potential as responsible and contributing members of society. This mission is reflected in Stevenson's motto, "School of Champions," symbolizing the importance that the faculty and administration place on developing champions in all aspects of life. Students are treated with dignity and with respect, as faculty view this as the most effective method to help them achieve excellence in school and in life of which they are capable.

Indeed, the commitment of the faculty and administration towards making their school achieve to the highest level has been the most important key in it actually achieving at this level. 85 percent of the 94 professional staff members hold masters, specialist or doctorate degrees. All staff serve on one of four target-goal committees, which is only one example among many of how the faculty and administration work cooperatively to facilitate both teaching and learning. They also take an active role in curriculum development, from researching new textbooks and other classroom materials to serving on curriculum committees at the district level. The faculty and administration recently witnessed the success of their efforts, as Stevenson High School recently completed its five-year journey to achieve North Central Outcome-Based Accreditation.

The administration at Stevenson High School has also made a concerted effort to ensure that their school is as safe as possible. There is zero tolerance regarding weapons, violence, threats of violence and the use of alcohol or other drugs. A building security plan is in place and practiced on a regular basis, and an evacuation plan is in place to safeguard students and staff in an emergency or crisis. In addition, a support network has been established at Stevenson High School so effective that students trust the administration and faculty enough to forewarn them of potential problems. This is due to the success of student organizations such as the Students Offering Services Club, the Renaissance Club, the Cultural Diversity Council and the Peer Mediation Program. Because of these support groups, students feel connected to the school and to each other, and know that they are valued as individuals.

Mr. President, I applaud the students, parents, faculty and administration of Stevenson High School, for I believe this is an award which speaks more to the effort of a united community that it does to the work of a few individuals. With that having been said, I would like to recognize Mr. Donald R. Nawrocki, the Principal of Stevenson High School, whose dedication to making his school one of the finest in our Nation has been instrumental in creating this community. On behalf of the entire United States Senate, I congratulate Adlai E. Stevenson High School on being named a Blue Ribbon School for 1999-2000, and wish the school continued success in the fu-

### MESSAGES FROM THE HOUSE

At 10:00 a.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4392) to authorize appropriations for fiscal year 2001 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The message also announced that the House has agreed to the amendments of the Senate to the bill (H.R. 3292) to provide for the establishment of the Cat Island National Wildlife Refuge in West Feliciana Parish, Louisiana.

### ENROLLED BILLS SIGNED

The message further announced that the Speaker has signed the following enrolled bill:

H.J. Res. 111. Joint resolution making further continuing appropriations for the fiscal year 2001, and for other purposes.

The enrolled bill was signed subsequently by the President pro tempore (Mr. Thurmond).

At 10:54 a.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 4345. An act to amend the Alaska Native Claims Settlement Act to clarify the process of allotments to Alaskan Natives who are veterans, and for other purposes.

H.R. 4853. An act to redesignate the facility of the United States Postal Service located at 1568 South Glen Road in South Euclid, Ohio, as the "Arnold C. D'Amico Station."

H.R. 5083. An act to extend the authority of the Los Angeles Unified School District to use certain park lands in the city of South Gate, California, which were acquired with amounts provided from the land and water conservation fund, for elementary school purposes.

H.R. 5174. An act to amend titles 10 and 18, United States Code, and the Revised Statutes to remove the uncertainty regarding the authority of the Department of Defense to permit buildings located on military installations and reserve component facilities to be used as polling places in Federal, State, and local elections for public office.

H.R. 5417. An act to rename the Stewart B. McKinney Homeless Assistance Act as the "McKinney-Vento Homeless Assistance Act."

The message also announced that the House has agreed to the following concurrent resolutions, in which it requests the concurrence of the Senate:

H. Con. Res. 423. Concurrent resolution authorizing the use of the Capitol Grounds for the Million Family March.

H. Con. Res. 427. Concurrent resolution directing the Clerk of the House to correct the enrollment of H.R. 2415.

H. Con. Res. 428. Concurrent resolution providing for corrections in the enrollment of the bill (H.R. 5164) amending title 49, United States Code, to require reports concerning defects in motor vehicles or tires or other motor vehicle equipment in foreign countries, and for other purposes.

The message further announced that the House has agreed to the amendments of the Senate to the bill (H.R. 34) to direct the Secretary of the Interior to make technical corrections to a map relating to the Coastal Barrier Resources System.

The message also announced that the House has agreed to the amendment of the Senate to the bill (H.R. 4002) to amend the Foreign Assistance Act of 1961 to revise and improve provisions relating to famine prevention and freedom from hunger.

The message further announced that the House has agreed to the amendment of the Senate to the bill (H.R. 4386) to amend title XIX of the Social Security Act to provide medical assistance for certain women screened and found to have breast or cervical cancer under a federally funded screening program, to amend the Public Health Service Act and the Federal Food,

Drug, and Cosmetic Act with respect to surveillance and information concerning the relationship between cervical cancer and the human papillomavirus (HPV), and for other purposes.

The message also announced that the House has passed the following concurrent resolution, without amendment:

S. Con. Res. 149. Concurrent resolution to correct the enrollment of H.R. 3244.

# EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC 11152. A communication from the Assistant Bureau Chief, Management, International Bureau, Satellite and Radiocommunications Division, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Report and Order in the Matter of the Establishment of Policies and Service Rules for the Mobile Satellite Service in the 2 GHz band" (IB Docket No. 99-81, FCC 00-302) received on October 12, 2000; to the Committee on Commerce, Science, and Transportation.

EC 11153. A communication from the Director of the Office of Management and Budget, Executive Office of the President, transmitting, pursuant to law, an appropriations report for the Department of Defense Appropriations Act for fiscal year 2001; to the Committee on the Budget.

EC 11154. A communication from the Director of the Office of Management and Budget, Executive Office of the President, transmitting, pursuant to law, a pay-as-you-go report (No. 513) dated September 29, 2000; to the Committee on the Budget.

EC 11155. A communication from the Deputy Associate Administrator, Office of Acquisition Policy, General Services Administration, transmitting, pursuant to law, the report of a rule entitled "Federal Acquisition Regulation Federal Acquisition Circular 97–20" (FAC97–20) received on October 12, 2000; to the Committee on Governmental Affairs.

# INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

### By Mr. ABRAHAM:

S. 3206. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide additional protections to victims of rape; to the Committee on the Judiciary.

By Mr. SANTORUM:

S. 3207. A bill to amend the Consolidated Farm and Rural Development Act to authorize the Secretary of Agriculture to make grants to nonprofit organizations to finance the construction, refurbishing, and servicing of individually-owned household water well systems in rural areas for individuals with low or moderate incomes; to the Committee on Agriculture, Nutrition, and Forestry.

# SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. MURKOWSKI (for himself and Mr. BINGAMAN):

S. Con. Res. 151. A concurrent resolution to make a correction in the enrollment of the bill H.R. 2348; considered and agreed to.

By Mr. ROTH:

S. Con. Res. 152. A concurrent resolution to make a technical correction in the enrollment of the bill H.R. 4868; considered and agreed to.

# STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. ABRAHAM:

S. 3206. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide additional protections to victims of rape; to the Committee on the Judiciary.

THE VICTIMS OF RAPE HEALTH PROTECTION ACT

Mr. ABRAHAM. Mr. President, I rise today to introduce the Victims of Rape Health Protection Act. This legislation would facilitate health treatment of rape victims by empowering victims with the ability to determine at an early date whether or not their attacker carried the Human Immunodeficiency Virus (HIV), the virus that causes AIDS.

Mr. President, in addition to a rape survivor being forced to live with the horrific elements commonly associated with the act of rape, rape victims simultaneously are threatened by yet another cruel aggressor, the HIV disease. Current medical technology is limited in its ability to detect HIV in the body during the initial stages of infection; as such, if the victim must rely on self-testing alone, the presence of HIV may not be evident for months.

Reports from both the American Medical Association and a study published in the April, 1997, New England Journal of Medicine outline the merits of early action in the fight against HIV. As immediate and intensive administration of anti-HIV drugs has been shown to greatly reduce the risk of HIV infection, early knowledge of whether or not a victim has been exposed to the virus is imperative to embarking on critical, potentially lifesaving courses of medication.

Mr. President, ten years ago Congress passed a law that allowed rape victims to compel testing of their attacker upon conviction. Over the years medical science has made important advancements in the fight against AIDS, and it is time for the law to follow suit. Today, I wish to challenge the current inadequate policies which exist in some states, and allow victims of rape early access to their assailants' HIV screen results.

Where there is any risk of transmission of the virus, this legislation

would require states to actively screen rape defendants for HIV and disclose the results to the victim within fortyeight hours of an indictment or information. Beyond notification of the victim, test result confidentiality would be determined by the individual states as they see necessary to protect the privacy of their citizens. Federal Byrne Grant funding would be made available to the states in order to help pay for the testing; states which refuse to operate in compliance with these testing requirements would be subject to a tenpercent reduction of their Byrne Grant funds.

Mr. President, I have read far too many stomach-churning accounts of both female and male rape victims, at every age, where early knowledge of a sex offender's HIV status—positive or negative—may have spared the victim unnecessary mental anguish, or possibly, may have spared the victim's life. At this time, I would like to share a few of these sad stories with my colleagues.

In the summer of 1996, a seven year old girl was brutally raped by a 57 year old man. The little girl and her five year old brother had been lured to a secluded, abandoned building in the East New York section of Brooklyn. The man raped and sodomized the girl. Her brother, meanwhile, was beaten, tied up and forced to witness his sister's rape. After the man's arrest, the defendant refused to be tested for HIV. His refusal was permitted by the state's laws. The man later told the police he was infected with HIV.

In New Jersey, three boys gang-raped a 10-year-old mentally-retarded girl. The girl's family demanded that the boys be tested for HIV; these requests were denied. Three years after the girl was raped and the boys were convicted, the family was still fighting to learn the HIV status of the rapists.

A Maryland man with HIV sexually assaulted an 11-year-old boy for over a year. It was not until the man's trial that it was learned he was infected.

Mr. President, I do not believe I need to elaborate further on this subject. I believe we have a unique opportunity to help ease the stress and suffering of women and children mercilessly raped and wounded by sexual predators, and in the process, we will change a system which currently favors the so-called privacy of sex offenders over the health of their victims. I implore my colleagues to support the Victims of Rape Health Protection Act. May we finally deliver a higher degree of security and safety to rape victims, regardless of age or gender. Mr. President, I ask for unanimous consent that the text of this legislation and a letter from Ms. Deidre Raver, a rape survivor who has championed this cause for years, be inserted in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 3206

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Victims of Rape Health Protection Act".

# SEC. 2. BYRNE GRANT REDUCTION FOR NON-COMPLIANCE.

- (a) Grant Reduction for Noncompliance.—Section 506 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3756) is amended by adding at the end the following:
- "(g) SEX OFFENDER HIV TESTING.—
- "(1) IN GENERAL.—The funds available under this subpart for a State shall be reduced by 10 percent and redistributed under paragraph (2) unless the State demonstrates to the satisfaction of the Director that the laws or regulations of the State with respect to a defendant against whom an information or indictment is presented for a crime in which by force or threat of force the perpetrator compels the victim to engage in a sexual act (as defined in subsection (f)(3)(B)), the State requires as follows:
- "(A) That the defendant be tested for HIV disease if—
- "(i) the nature of the alleged crime is such that the sexual act would have placed the victim at risk of becoming infected with HIV: and
  - "(ii) the victim requests the test.
- "(B) That if the conditions specified in subparagraph (A) are met—
- "(i) the defendant undergo the test not later than—
- "(I) 48 hours after the date on which the information or indictment is presented; or
- "(II) 48 hours after the request of the victim if that request is made after the date on which the information or indictment is presented:
- "(ii) the results of the test shall be confidential except as provided in clause (iii) and except as otherwise provided under State law; and
- "(iii) that as soon as is practicable the results of the test be made available to—
  - "(I) the victim; and
- "(II) the defendant (or if the defendant is a minor, to the legal guardian of the defendant).

Nothing in this subparagraph shall be construed to bar a State from restricting the victim's disclosure of the defendant's test results to third parties as a condition of making such results available to the victim.

- "(C) That if the defendant has been tested pursuant to subparagraph (B), the defendant, upon request of the victim, undergo such follow-up tests for HIV as may be medically appropriate, and that as soon as is practicable after each such test the results of the test be made available in accordance with subparagraph (B) (except that this subparagraph applies only to the extent that the individual involved continues to be a defendant in the judicial proceedings involved, or is convicted in the proceedings).
- "(2) REDISTRIBUTION.—Any funds available for redistribution shall be redistributed to participating States that comply with the requirements of paragraph (1).
- "(3) COMPLIANCE.—The Attorney General shall issue regulations to ensure compliance with the requirements of paragraph (1).".
- (b) CONFORMING AMENDMENT.—Section 506(a) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended by striking "subsection (f)," and inserting "subsections (f) and (g),".

- (c) FUNDING.—Section 501(b) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended—
- (1) in paragraph (25), by striking "and" after the semicolon:
- (2) in paragraph (26), by striking the period and inserting "; and"; and
- (3) by inserting at the end the following:
- "(27) programs to test defendants for HIV disease in accordance with the terms of subsection (g),".
- (d) Effective Date.—
- (1) PROGRAM.—The amendments made by subsections (a) and (b) shall take effect on the first day of the fiscal year succeeding the first fiscal year beginning 2 years after the date of the enactment of this Act.
- (2) FUNDING.—The amendment made by subsection (c) shall take effect on the date of enactment of this Act.

DEAR SENATOR ABRAHAM: I understand that you are interested in sponsoring legislation that would provide rape victims the opportunity to quickly learn if they have been exposed to the HIV virus. I have been associated with this compelling issue for many years as an advocate for crime victims and thank you for considering the health issues that a rape victim is forced to deal with following a horrific experience. As a survivor of rape myself. I personally know how traumatic it is to wait for medical information regarding exposure to the many frightening venereal diseases that exist, not to mention the possibility of pregnancy occurring.

A rape victim needs to learn the HIV status of their assailants when making decisions with her doctor about taking risky drug medications. The only way for a victim to know if she has been exposed to the HIV virus is to test the assailant because of the 16-week infection time window period. It is inhumane and cruel to deny rape victims the right to learn of their assailants' H.I.V. status early enough to eradicate the virus, if exposed

Currently, in states like mine, a person accused of rape cannot be involuntarily tested for the AIDS virus until he is convicted of the crime, which can be years later. The H.I.V. test becomes a plea bargaining tool for defense attorneys to use, reducing the sentencing of violent sex offenders to nonfelony convictions. Our current laws force prosecuting attorneys to choose between prosecuting violent criminals or protecting the health of the victims.

New York has had its share of horrific cases where an arrested rapist will have boasted to the victim of a positive H.I.V. status and then refuse to take the test on the advice of a defense attorney. I was personally outraged by a case in Brooklyn where a fifty-seven-year old man raped a little girl next to her five-year-old brother and then declared to police that he had AIDS upon arrest. The Brooklyn District Attorney's Office could not force the arrested man to take an HIV test.

In order for states to qualify for AIDS funding, they should have legal provisions in place to allow rape victims to test arrested assailants for HIV, no exceptions. Our laws should not aggravate the terror that rape victims face when coping with their fear of the attacker and the numerous frightening health risks.

I thank you for considering the rights of rape victims before the privacy concerns of rape assailants, as rape victims deserve compassionate help that includes determining whether or not exposure to HIV has occurred.

Sincerely,

DEIDRE RAVER.

By Mr. SANTORUM:

S. 3207. A bill to amend the Consolidated Farm and Rural Development Act to authorize the Secretary of Agriculture to make grants to nonprofit organizations to finance the construction, refurbishing, and servicing of individually-owned household water well systems in rural areas for individuals with low or moderate incomes; to the Committee on Agriculture, Nutrition, and Forestry.

AFFORDABLE DRINKING WATER ACT OF 2000  $\,$ 

Mr. SANTORUM. Mr. President, I rise today to introduce the "Affordable Drinking Water Act of 2000." This bill sets out an innovative approach to meet the safe drinking water needs of rural Americans nationwide.

The Affordable Drinking Water Act of 2000 provides a targeted alternative to water delivery in rural areas. Through a partnership established between the federal government and nonprofit entities, low to moderate income households who would prefer to have their own well or are experiencing drinking water problems could secure financing to install or refurbish an individually owned household well. In my home state of Pennsylvania, 2.5 million citizens currently choose to have their drinking water supplied by privately-owned individual water wells.

The government assistance envisioned under this bill would also allow homeowners of modest means in Pennsylvania, and the rest of the country, to bring old household water wells up to current standards; replace systems that have met their expected life; or provide homeowners without a drinking water source with a new individual household water well system.

Another important component of this legislation will afford rural consumers with individually owned water wells the same payment flexibility as other utility customers. Centralized water systems currently are eligible to receive federal grants and loans with repayment spread out over 40 years. The Affordable Drinking Water Act of 2000 would provide loans to low to moderate income homeowners to upgrade or install a household drinking water well now, and then repay the cost through convenient monthly charges. This ability to stretch out payments over the life of the loan gives rural well owners an affordable option that they otherwise do not have.

Mr. President, I am pleased to introduce this legislation today, and believe that it is appropriately balanced to meet the safe-drinking water needs of rural households.

### ADDITIONAL COSPONSORS

S. 3005

At the request of Mr. FEINGOLD, the name of the Senator from Wisconsin (Mr. KOHL) was added as a cosponsor of S. 3005, a bill to require country of origin labeling of all forms of ginseng.

S. CON. RES. 146

At the request of Mr. Wellstone, the name of the Senator from Wisconsin (Mr. Feingold) was added as a cosponsor of S. Con. Res. 146, a concurrent resolution condemning the assassination of Father John Kaiser and others in Kenya, and calling for a thorough investigation to be conducted in those cases, a report on the progress made in such an investigation to be submitted to Congress by December 15, 2000, and a final report on such an investigation to be made public, and for other purposes.

SENATE CONCURRENT RESOLUTION 151—TO MAKE A CORRECTION IN THE ENROLLMENT OF THE BILL H.R. 2348

Mr. MURKOWSKI (for himself and Mr. BINGAMAN) submitted the following concurrent resolution; which was considered and agreed to:

#### S. CON. RES. 151

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill (H.R. 2348) to authorize the Bureau of Reclamation to provide cost sharing for the endangered fish recovery implementation programs for the Upper Colorado and San Juan River Basins, the Clerk of the House shall make the following correction: Strike section 4 and insert:

### SEC. 4. EFFECT ON RECLAMATION LAW.

Specifically with regard to the acreage limitation provisions of Federal reclamation law, any action taken pursuant to or in furtherance of this title will not:

- (1) be considered in determining whether a district as defined in section 202(2) of the Reclamation Reform Act of 1982 (43 U.S.C. 390bb) has discharged its obligation to repay the construction cost of project facilities used to make irrigation water available for delivery to land in the district;
- (2) serve as the basis for reinstating acreage limitation provisions in a district that has completed payment of its construction obligation; or
- (3) service as the basis for increasing the construction repayment obligation of the district and thereby extending the period during which the acreage limitation provisions will apply.

# SENATE CONCURRENT RESOLUTION 152—TO MAKE A TECHNICAL CORRECTION IN THE ENROLLMENT OF THE BILL H.R. 4868

Mr. ROTH submitted the following concurrent resolution; which was considered and agreed to:

### S. CON. RES. 152

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill (H.R. 4868) to amend the Harmonized Tariff Schedule of the United States to modify temporarily certain rates of duty, to make other technical amendments to the trade laws, and for other purposes, the Clerk of the House of Representatives shall make the following correction:

On page 160, line 8, strike ": and" and all that follows through line 10, and insert a period.

#### AMENDMENTS SUBMITTED

DAKOTA WATER RESOURCES ACT OF 1999

### CONRAD (AND OTHERS) AMENDMENT NO. 4317

Mr. LOTT (for Mr. CONRAD (for himself, Mr. DORGAN, and Mr. BOND)) proposed an amendment to the bill (S. 623) to amend Public Law 89–108 to increase authorization levels for State and Indian tribal, municipal, rural, and industrial water supplies, to meet current and future water quantity and quality needs of the Red River Valley, to deauthorize certain project features and irrigation service areas, to enhance natural resources and fish and wildlife habitat, and for other purposes; as follows:

On page 10, beginning on line 14, strike the sentence that begins "If the features selected under section 8".

On page 13, line 2, strike the sentence that begins "As appropriate, the Secretary shall rehabilitate or complete".

On page 13, line 5, strike "Sections 8(c) and 8(d)(1)" and insert "section 8".

Beginning on page 18, strike line 17 and all that follows through page 23, line 4, and insert the following:

### SEC. 8. SPECIFIC FEATURES.

- (a) SYKESTON CANAL.—Sykeston Canal is hereby deauthorized.
- (b) IN GENERAL.—Public Law 89-108 (100 Stat. 423) is amended by striking section 8 and inserting the following:

### "SEC. 8. SPECIFIC FEATURES.

"(a) RED RIVER VALLEY WATER SUPPLY PROTECT.—

"(1) IN GENERAL.—Subject to the requirements of this section, the Secretary shall construct a feature or features to provide water to the Sheyenne River water supply and release facility or such other feature or features as are selected under subsection (d).

"(2) DESIGN AND CONSTRUCTION.—The feature or features shall be designed and constructed to meet only the following water supply requirements as identified in the report prepared pursuant to subsection (b) of this section: municipal, rural, and industrial water supply needs; ground water recharge; and streamflow augmentation.

"(3) COMMENCEMENT OF CONSTRUCTION.—

- "(A) If the Secretary selects a project feature under this section that would provide water from the Missouri River or its tributaries to the Sheyenne River water supply and release facility or from the Missouri River or its tributaries to such other conveyance facility as the Secretary selects under this section, no later than 90 days after the completion of the final environmental impact statement, the Secretary shall transmit to Congress a comprehensive report which provides—
- "(i) a detailed description of the proposed project feature;
- $\lq\lq$ (ii) a summary of major issues addressed in the environmental impact statement;
- "(iii) likely effects, if any, on other States bordering the Missouri River and on the State of Minnesota; and
- "(iv) a description of how the project feature complies with the requirements of section 1(h)(1) of this Act (relating to the Boundary Waters Treaty of 1909).

"(B) No project feature or features that would provide water from the Missouri River or its tributaries to the Shevenne River water supply and release facility or from the Missouri River or its tributaries to such other conveyance facility as the Secretary selects under this section shall be constructed unless such feature is specifically authorized by an Act of Congress approved subsequent to the Secretary's transmittal of the report required in paragraph (A). If, after complying with subsections (b) through (d) of this section, the Secretary selects a feature or features using only in-basin sources of water to meet the water needs of the Red River Valley identified in subsection (b), such features are authorized without further Act of Congress. The Act of Congress referred to in this subparagraph must be an authorization bill, and shall not be a bill making appropriations.

"(C) The Secretary may not commence construction on the feature until a master repayment contract or water service agreement consistent with this Act between the Secretary and the appropriate non-Federal entity has been executed."

- (b) REPORT ON RED RIVER VALLEY WATER NEEDS AND OPTIONS.—
- (1) IN GENERAL.—The Secretary of the Interior shall conduct a comprehensive study of the water quality and quantity needs of the Red River Valley in North Dakota and possible options for meeting those needs.
- (2) NEEDS.—The needs addressed in the report shall include such needs as—
- (A) municipal, rural, and industrial water supplies;
  - (B) water quality;
  - (C) aquatic environment;
  - (D) recreation; and
  - (E) water conservation measures.
- (3) PROCESS.—In conducting the study, the Secretary through an open and public process shall solicit input from gubernatorial designees from states that may be affected by possible options to meet such needs as well as designees from other federal agencies with relevant expertise. For any option that includes an out-of-basin solution, the Secretary shall consider the effect of the option on other states that may be affected by such option, as well as other appropriate considerations. Upon completion, a draft of the study shall be provided by the Secretary to such states and federal agencies. Such states and agencies shall be given not less than 120 days to review and comment on the study method, findings and conclusions leading to any alternative that may have an impact on such states or on resources subject to such federal agencies' jurisdiction. The Secretary shall receive and take into consideration any such comments and produce a final report and transmit the final report to Congress.
- (4) LIMITATION.—No design or construction of any feature or features that facilitate an out-of-basin transfer from the Missouri River drainage basin shall be authorized under the provisions of this subsection.
  - (c) ENVIRONMENTAL IMPACT STATEMENT—
- (1) IN GENERAL.—Nothing in this section shall be construed to supersede any requirements under the National Environmental Policy Act or the Administrative Procedures Act.
  - (2) Draft.—
- (A) DEADLINE.—Pursuant to an agreement between the Secretary and State of North Dakota as authorized under section 1(g), not later than 1 year after the date of enactment of the Dakota Water Resources Act of 2000, the Secretary and the State of North Dakota shall jointly prepare and complete a draft

environmental impact statement concerning all feasible options to meet the comprehensive water quality and quantity needs of the Red River Valley and the options for meeting those needs, including the delivery of Missouri River water to the Red River Valley

(B) REPORT ON STATUS.—If the Secretary and State of North Dakota cannot prepare and complete the draft environmental impact statement within 1 year after the date of enactment of the Dakota Water Resources Act of 2000, the Secretary, in consultation and coordination with the State of North Dakota, shall report to Congress on the status of this activity, including an estimate of the date of completion.

(3) Final.—

(A) DEADLINE.—Not later than 1 year after filing the draft environmental impact statement, a final environmental impact statement shall be prepared and published.

(B) REPORT ON STATUS.—If the Secretary and State of North Dakota cannot prepare and complete a final environmental impact statement within 1 year of the completion of the draft environmental impact statement, the Secretary, in consultation and coordination with the State of North Dakota, shall report to Congress on the status of this activity, including an estimate of the date of completion.

(d) Process for Selection.—

- (1) IN GENERAL.—After reviewing the final report required by subsection (b)(1) and complying with subsection (c), the Secretary, in consultation and coordination with the State of North Dakota in coordination with affected local communities, shall select 1 or more project features described in subsection (a) that will meet the comprehensive water quality and quantity needs of the Red River Valley. The Secretary's selection of an alternative shall be subject to judicial review.
- (2) AGREEMENTS.—If the Secretary selects an option under subparagraph (1) that uses only in-basin sources of water, not later than 180 days after the record of decision has been executed, the Secretary shall enter into a cooperative agreement with the State of North Dakota to construct the feature or features selected. If the Secretary selects an option under subparagraph (1) that would require a further act of Congress under the provisions of subsection (a), not later than 180 days after the date of enactment of legislation required under subsection (a) the Secretary shall enter into a cooperative agreement with the State of North Dakota to construct the feature or features authorized by that legislation.
- (e) SHEYENNE RIVER WATER SUPPLY AND RELEASE OR ALTERNATE FEATURES.—The Secretary shall construct, operate, and maintain a Sheyenne River water supply and release feature (including a water treatment plant) capable of delivering 100 cubic feet per second of water or any other amount determined in the reports under this section, for the cities of Fargo and Grand Forks and surrounding communities, or such other feature or features as may be selected under subsection (d).
- (f) DEVILS LAKE.—No funds authorized under this Act may be used to carry out the portion of the feasibility study of the Devils Lake basin, North Dakota, authorized under the Energy and Water Development Appropriations Act of 1993 (Public Law 102–377), that addresses the needs of the area for stabilized lake levels through inlet controls, or to otherwise study any facility or carry out any activity that would permit the transfer of water from the Missouri River drainage basin into Devils Lake, North Dakota.

Make the following technical amendments: Page 2, line 5, strike "1999" and insert

Page 3, line 13, strike "1999" and insert "2000".

Page 3, line 25, strike "1999" and insert "2000"

Page 4, line 23, strike "1999" and insert "2000".

Page 5, line 7, strike "1999" and insert "2000".

Page 11, line 14, strike "1999" and insert "2000".

Page 13, line 7, strike "1999" and insert

"2000". Page 15, line 19, strike "1999" and insert

"2000".
Page 18, line 8, strike "1999" and insert "2000".

Page 29, line 5, strike "1999" and insert "2000".

Page 29, line 25, strike "1999" and insert "2000".

### 

### MURKOWSKI AMENDMENT NO. 4318

Mr. LOTT (for Mr. Murkowski) proposed an amendment to the bill (S. 1474) providing conveyance of the Palmetto Bend project to the State of Texas; as follows:

In the Committee amendment:

In section 4(a), after "August 1, 1999 payment," strike "is currently" and insert "was, as of October, 1999".

In section 5(b), strike "and shall extend for the useful life of the Project that has been approved by the Secretary." and insert "that has been approved by the Secretary and shall extend for the useful life of the Project."

# PRESIDENTIAL THREAT PROTECTION ACT OF 2000

### HATCH (AND OTHERS) AMENDMENT NO. 4319

Mr. LOTT (for Mr. HATCH (for himself, Mr. LEAHY, and Mr. THURMOND)) proposed an amendment to the bill (H.R. 3048) to amend section 879 of title 18, United States Code, to provide clearer coverage over threats against former Presidents and members of their families, and for other purposes; as follows:

On page 3, strike lines 19 through 24 and insert the following:

"(e)(1) When directed by the President, the United States Secret Service is authorized to participate, under the direction of the Secretary of the Treasury, in the planning, coordination, and implementation of security operations at special events of national significance, as determined by the President.

"(2) At the end of each fiscal year, the President through such agency or office as the President may designate, shall report to the Congress—

"(A) what events, if any, were designated special events of national significance for security purposes under paragraph (1); and

"(B) the criteria and information used in making each designation.".

On page 7, line 6, after "offense" insert "or apprehension of a fugitive".

On page 8, strike lines 17 through 19.

On page 9, strike line 14 and insert the following:

"(11) With respect to subpoenas issued under paragraph (1)(A)(i)(III), the Attorney General shall issue guidelines governing the issuance of administrative subpoenas pursuant to that paragraph. The guidelines required by this paragraph shall mandate that administrative subpoenas may be issued only after review and approval of senior supervisory personnel within the respective investigative agency or component of the Department of Justice and of the United States Attorney for the judicial district in which the administrative subpoena shall be served."

#### At the end of the bill, insert the following: SEC. 6. ADMINISTRATIVE SUBPOENAS TO APPRE-HEND FUGITIVES.

- (a) AUTHORITY OF ATTORNEY GENERAL.—Section 3486(a)(1) of title 18, United States Code, as amended by section 5 of this Act is further amended in subparagraph (A)(i)—
- (1) by striking "offense or" and inserting "offense"; and
- (2) by inserting "or (III) with respect to the apprehension of a fugitive," after "children,".
- (b) ADDITIONAL BASIS FOR NONDISCLOSURE ORDER.—Section 3486(a)(6) of title 18, United States Code, as amended by section 5 of this Act, is further amended in subparagraph (B)—
- (1) by striking "or" and the end of clause (iii);
- (2) by striking the period at the end of clause (iv) and inserting "; or"; and

(3) by adding at the end the following:

``(v) otherwise seriously jeopardizing an investigation or undue delay of a trial.".

- (c) DEFINITIONS.—Section 3486 of title 18, as amended by section 5 of this Act, is further amended by adding at the end the following: "(g) DEFINITIONS.—In this section—
- ''(1) the term 'fugitive' means a person who—  $\,$
- "(A) having been accused by complaint, information, or indictment under Federal law of a serious violent felony or serious drug offense, or having been convicted under Federal law of committing a serious violent felony or serious drug offense, flees or attempts to flee from, or evades or attempts to evade the jurisdiction of the court with jurisdiction over the felony;
- "(B) having been accused by complaint, information, or indictment under State law of a serious violent felony or serious drug offense, or having been convicted under State law of committing a serious violent felony or serious drug offense, flees or attempts to flee from, or evades or attempts to evade, the jurisdiction of the court with jurisdiction over the felony;
- "(C) escapes from lawful Federal or State custody after having been accused by complaint, information, or indictment of a serious violent felony or serious drug offense or having been convicted of committing a serious violent felony or serious drug offense; or
- "(D) is in violation of subparagraph (2) or (3) of the first undesignated paragraph of section 1073;
- ''(2) the terms 'serious violent felony' and 'serious drug offense' shall have the meanings given those terms in section 3559(c)(2) of this title; and
- "(3) the term 'investigation' means, with respect to a State fugitive described in subparagraph (B) or (C) of paragraph (I), an investigation in which there is reason to be lieve that the fugitive fled from or evaded, or attempted to flee from or evade, the jurisdiction of the court, or escaped from custody, in

or affecting, or using any facility of, interstate or foreign commerce, or as to whom an appropriate law enforcement officer or official of a State or political subdivision has requested the Attorney General to assist in the investigation, and the Attorney General finds that the particular circumstances of the request give rise to a Federal interest sufficient for the exercise of Federal jurisdiction pursuant to section 1075."

#### SEC. 7. FUGITIVE APPREHENSION TASK FORCES.

- (a) IN GENERAL.—The Attorney General shall, upon consultation with appropriate Department of Justice and Department of the Treasury law enforcement components, establish permanent Fugitive Apprehension Task Forces consisting of Federal, State, and local law enforcement authorities in designated regions of the United States, to be directed and coordinated by the United States Marshals Service, for the purpose of locating and apprehending fugitives.
- (b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Attorney General for the United States Marshals Service to carry out the provisions of this section \$30,000,000 for the fiscal year 2001, \$5,000,000 for fiscal year 2002, and \$5,000,000 for fiscal year 2003.
- (c) OTHER EXISTING APPLICABLE LAW.—Nothing in this section shall be construed to limit any existing authority under any other provision of Federal or State law for law enforcement agencies to locate or apprehend fugitives through task forces or any other means.

# SEC. 8. STUDY AND REPORTS ON ADMINISTRATIVE SUBPOENAS.

- (a) STUDY ON USE OF ADMINISTRATIVE SUB-POENAS.—Not later than December 31, 2001, the Attorney General, in consultation with the Secretary of the Treasury, shall complete a study on the use of administrative subpoena power by executive branch agencies or entities and shall report the findings to the Committees on the Judiciary of the Senate and the House of Representatives. Such report shall include—
- (1) a description of the sources of administrative subpoena power and the scope of such subpoena power within executive branch agencies;
- (2) a description of applicable subpoena enforcement mechanisms;
- (3) a description of any notification provisions and any other provisions relating to safeguarding privacy interests;
- (4) a description of the standards governing the issuance of administrative subpoenas; and
- (5) recommendations from the Attorney General regarding necessary steps to ensure that administrative subpoena power is used and enforced consistently and fairly by executive branch agencies.
- (b) REPORT ON FREQUENCY OF USE OF ADMINISTRATIVE SUBPOENAS.—
- (1) IN GENERAL.—The Attorney General and the Secretary of the Treasury shall report in January of each year to the Committees on the Judiciary of the Senate and the House of Representatives on the number of administrative subpoenas issued by them under this section, whether each matter involved a fugitive from Federal or State charges, and the identity of the agency or component of the Department of Justice or the Department of the Treasury issuing the subpoena and imposing the charges.
- (2) EXPIRATION.—The reporting requirement of this subsection shall terminate in 3 years after the date of enactment of this section.

# PRIBILOF ISLANDS TRANSITION ACT

### SNOWE (AND OTHERS) AMENDMENT NO. 4320

Mr. LOTT (for Ms. SNOWE (for herself and Mr. KERRY)) proposed an amendment to the bill (H.R. 3417) to complete the orderly withdrawal of the National Oceanic and Atmospheric Administration from the civil administration of the Pribilof Islands, Alaska; as follows:

Strike out all after the enacting clause and insert the following:

# TITLE I—PRIBILOF ISLANDS TRANSITION SEC. 101. SHORT TITLE.

This title may be referred to as the "Pribilof Islands Transition Act".

#### SEC. 102. PURPOSE.

The purpose of this title is to complete the orderly withdrawal of the National Oceanic and Atmospheric Administration from the civil administration of the Pribilof Islands, Alaska.

#### SEC. 103. FINANCIAL ASSISTANCE FOR PRIBILOF ISLANDS UNDER FUR SEAL ACT OF 1966.

Public Law 89–702, popularly known and referred to in this title as the Fur Seal Act of 1966, is amended by amending section 206 (16 U.S.C. 1166) to read as follows:

#### "SEC. 206. FINANCIAL ASSISTANCE.

- "(a) GRANT AUTHORITY.—
- "(1) In general.—Subject to the availability of appropriations, the Secretary shall provide financial assistance to any city government, village corporation, or tribal council of St. George, Alaska, or St. Paul, Alaska.
- "(2) USE FOR MATCHING.—Notwithstanding any other provision of law relating to matching funds, funds provided by the Secretary as assistance under this subsection may be used by the entity as non-Federal matching funds under any Federal program that requires such matching funds.
- "(3) RESTRICTION ON USE.—The Secretary may not use financial assistance authorized by this Act.
- "(A) to settle any debt owed to the United States;
- $\lq\lq(B)$  for administrative or overhead expenses; or
- "(C) for contributions authorized under section 105(b)(3)(B) of the Pribilof Islands Transition Act.
- "(4) FUNDING INSTRUMENTS AND PROCE-DURES.—In providing assistance under this subsection the Secretary shall transfer any funds appropriated to carry out this section to the Secretary of the Interior, who shall obligate such funds through instruments and procedures required to be used by the Bureau of Indian Affairs pursuant to title IV of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).
- "(5) PRO RATA DISTRIBUTION OF ASSIST-ANCE.—In any fiscal year for which less than all of the funds authorized under subsection (c)(1) are appropriated, such funds shall be distributed under this subsection on a pro rata basis among the entities referred to in subsection (c)(1) in the same proportions in which amounts are authorized by that subsection for grants to those entities.
- "(b) SOLID WASTE ASSISTANCE.—
- "(1) IN GENERAL.—Subject to the availability of appropriations, the Secretary shall provide assistance to the State of Alaska for designing, locating, constructing, redevel-

oping, permitting, or certifying solid waste management facilities on the Pribilof Islands to be operated under permits issued to the City of St. George and the City of St. Paul, Alaska, by the State of Alaska under section 46.03.100 of the Alaska Statutes.

"(2) TRANSFER.—The Secretary shall transfer any appropriations received under paragraph (1) to the State of Alaska for the benefit of rural and Native villages in Alaska for obligation under section 303 of Public Law 104–182, except that subsection (b) of that section shall not apply to those funds.

"(c) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to the Secretary for fiscal years 2001, 2002, 2003, 2004. and 2005—

- ``(1) for assistance under subsection (a) a total not to exceed—
- $\mbox{``(A) \$9,000,000,}$  for grants to the City of St. Paul:
- "(B) \$6,300,000, for grants to the Tanadgusix Corporation;
- "(C) \$1,500,000, for grants to the St. Paul Tribal Council;
- "(D) \$6,000,000, for grants to the City of St. George:
- "(E) \$4,200,000, for grants to the St. George Tanaq Corporation; and
- "(F) \$1,000,000, for grants to the St. George Tribal Council; and
- "(2) for assistance under subsection (b), such sums as may be necessary.
- "'(d) LIMITATION ON USE OF ASSISTANCE FOR LOBBYING ACTIVITIES.—None of the funds authorized by this section may be available for any activity a purpose of which is to influence legislation pending before the Congress, except that this subsection shall not prevent officers or employees of the United States or of its departments, agencies, or commissions from communicating to Members of Congress, through proper channels, requests for legislation or appropriations that they consider it necessary for the efficient conduct of public business.
- "(e) IMMUNITY FROM LIABILITY.—Neither the United States nor any of its agencies, officers, or employees shall have any liability under this Act or any other law associated with or resulting from the designing, locating, contracting for, redeveloping, permitting, certifying, operating, or maintaining any solid waste management facility on the Pribilof Islands as a consequence of having provided assistance to the State of Alaska under subsection (b).
- "(f) REPORT ON EXPENDITURES.—Each entity which receives assistance authorized under subsection (c) shall submit an audited statement listing the expenditure of that assistance to the Committee on Appropriations and the Committee on Resources of the House of Representatives and the Committee on Appropriations and the Committee on Commerce, Science, and Transportation of the Senate, on the last day of fiscal years 2002, 2004, and 2006.
- "(g) CONGRESSIONAL INTENT.—Amounts authorized under subsection (c) are intended by Congress to be provided in addition to the base funding appropriated to the National Oceanic and Atmospheric Administration in fiscal year 2000."

### SEC. 104. DISPOSAL OF PROPERTY.

- Section 205 of the Fur Seal Act of 1966 (16 U.S.C. 1165) is amended—
- (1) by amending subsection (c) to read as follows:
- "(c) Not later than 3 months after the date of the enactment of the Pribilof Islands Transition Act, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the

Committee on Resources of the House of Representatives a report that includes—

- "(1) a description of all property specified in the document referred to in subsection (a) that has been conveyed under that subsection:
- "(2) a description of all Federal property specified in the document referred to in subsection (a) that is going to be conveyed under that subsection; and
- "(3) an identification of all Federal property on the Pribilof Islands that will be retained by the Federal Government to meet its responsibilities under this Act, the Convention, and any other applicable law."; and
- (2) by striking subsection (g).

### SEC. 105. TERMINATION OF RESPONSIBILITIES.

- (a) FUTURE OBLIGATION —
- (1) IN GENERAL.—The Secretary of Commerce shall not be considered to have any obligation to promote or otherwise provide for the development of any form of an economy not dependent on sealing on the Pribilof Islands, Alaska, including any obligation under section 206 of the Fur Seal Act of 1966 (16 U.S.C. 1166) or section 3(c)(1)(A) of Public Law 104-91 (16 U.S.C. 1165 note).
- (2) SAVINGS.—This subsection shall not affect any cause of action under section 206 of the Fur Seal Act of 1966 (16 U.S.C. 1166) or section 3(c)(1)(A) of Public Law 104-91 (16 U.S.C. 1165 note)—
- (A) that arose before the date of the enactment of this Act; and
- (B) for which a judicial action is filed before the expiration of the 5-year period beginning on the date of the enactment of this Act.
- (3) RULE OF CONSTRUCTION.—Nothing in this title shall be construed to imply that—  $\,$
- (A) any obligation to promote or otherwise provide for the development in the Pribilof Islands of any form of an economy not dependent on sealing was or was not established by section 206 of the Fur Seal Act of 1966 (16 U.S.C. 1166), section 3(c)(1)(A) of Public Law 104-91 (16 U.S.C. 1165 note), or any other provision of law; or
- (B) any cause of action could or could not arise with respect to such an obligation.
- (4) CONFORMING AMENDMENT.—Section 3(c)(1) of Public Law 104–91 (16 U.S.C. 1165 note) is amended by striking subparagraph (A) and redesignating subparagraphs (B) through (D) in order as subparagraphs (A) through (C).
- (b) PROPERTY CONVEYANCE AND CLEANUP.—
  (1) IN GENERAL.—Subject to paragraph (2), there are terminated all obligations of the Secretary of Commerce and the United States to—
- (A) convey property under section 205 of the Fur Seal Act of 1966 (16 U.S.C. 1165); and
- (B) carry out cleanup activities, including assessment, response, remediation, and monitoring, except for postremedial measures such as monitoring and operation and maintenance activities, related to National Oceanic and Atmospheric Administration administration of the Pribilof Islands, Alaska, under section 3 of Public Law 109-91 (16 U.S.C. 1165 note) and the Pribilof Islands Environmental Restoration Agreement between the National Oceanic and Atmospheric Administration and the State of Alaska, signed January 26, 1996.
- (2) APPLICATION.—Paragraph (1) shall apply on and after the date on which the Secretary certifies that—
- (A) the State of Alaska has provided written confirmation that no further corrective action is required at the sites and operable units covered by the Pribilof Islands Environmental Restoration Agreement between

- the National Oceanic and Atmospheric Administration and the State of Alaska, signed January 26, 1996, with the exception of postremedial measures, such as monitoring and operation and maintenance activities:
- (B) the cleanup required under section 3(a) of Public Law 104-91 (16 U.S.C. 1165 note) is complete;
- (C) the properties specified in the document referred to in subsection (a) of section 205 of the Fur Seal Act of 1966 (16 U.S.C. 1165(a)) can be unconditionally offered for conveyance under that section; and
- (D) all amounts appropriated under section 206(c)(1) of the Fur Seal Act of 1966, as amended by this title, have been obligated.
- (3) FINANCIAL CONTRIBUTIONS FOR CLEANUP COSTS.—(A) On and after the date on which section 3(b)(5) of Public Law 104–91 (16 U.S.C. 1165 note) is repealed by this title, the Secretary may not seek or require financial contribution by or from any local governmental entity of the Pribilof Islands, any official of such an entity, or the owner of land on the Pribilof Islands, for cleanup cost incurred pursuant to section 3(a) of Public Law 104–91 (as in effect before such repeal), except as provided in subparagraph (B).
- (B) Subparagraph (A) shall not limit the authority of the Secretary to seek or require financial contribution from any person for costs or fees to clean up any matter that was caused or contributed to by such person on or after March 15, 2000.
- (4) CERTAIN RESERVED RIGHTS NOT CONDITIONS.—For purposes of paragraph (2)(C), the following requirements shall not be considered to be conditions on conveyance of property:
- (Å) Any requirement that a potential transferee must allow the National Oceanic and Atmospheric Administration continued access to the property to conduct environmental monitoring following remediation activities.
- (B) Any requirement that a potential transferee must allow the National Oceanic and Atmospheric Administration access to the property to continue the operation, and eventual closure, of treatment facilities.
- (C) Any requirement that a potential transferee must comply with institutional controls to ensure that an environmental cleanup remains protections of human health or the environment that do not unreasonably affect the use of the property.
- (D) Valid existing rights in the property, including rights granted by contract, permit, right-of-way, or easement.
- (E) The terms of the documents described in subsection (d)(2).
- (c) REPEALS.—Effective on the date described in subsection (b)(2), the following provisions are repealed:
- (1) Section 205 of the Fur Seal Act of 1966 (16 U.S.C. 1165).
- (2) Section 3 of the Public Law 104-91 (16 U.S.C. 1165 note).
- (d) SAVINGS.-
- (1) IN GENERAL.—Nothing in this title shall affect any obligation of the Secretary of Commerce, or of any Federal department or agency, under or with respect to any document described in paragraph (2) or with respect to any lands subject to such a document.
- (2) DOCUMENTS DESCRIBED.—The documents referred to in paragraph (1) are the following:
- (A) The Transfer of Property on the Pribilof Islands: Description, Terms, and Conditions, dated February 10, 1984, between the Secretary of Commerce and various Pribilof Island entities.
- (B) The Settlement Agreement between Tanadgusix Corporation and the City of St.

- Paul, dated January 11, 1988, and approved by the Secretary of Commerce on February 23, 1988
- (C) The Memorandum of Understanding between Tanadgusix Corporation, Tanaq Corporation, and the Secretary of Commerce, dated December 22, 1976.
  - (e) Definitions.—
- (1) IN GENERAL.—Except as provided in paragraph (2), the definitions set forth in section 101 of the Fur Seal Act of 1966 (16 U.S.C. 1151) shall apply to this section.
- (2) NATIVES OF THE PRIBILOF ISLANDS.—For purposes of this section, the term "Natives of the Pribilof Islands" includes the Tanadgusix Corporation, the St. George Tanaq Corporation, and the city governments and tribal councils of St. Paul and St. George, Alaska.

# SEC. 106. TECHNICAL AND CLARIFYING AMENDMENTS.

- (a) Public Law 104–91 and the Fur Seal Act of 1966 are amended by—
  (1) striking "(d)" and all that follows
- (1) striking "(d)" and all that follows through the heading for subsection (d) of section 3 of Public Law 104-91 and inserting "SEC. 212."; and
- (2) moving and redesignating such subsection so as to appear as section 212 of the Fur Seal Act of 1966.
- (b) Section 201 of the Fur Seal Act of 1966 (16 U.S.C. 1161) is amended by striking "on such Islands" and insert "on such property".
- (c) The Fur Seal Act of 1966 is amended by inserting before title I the following:

#### "SECTION 1. SHORT TITLE.

"This Act may be cited as the 'Fur Seal Act of 1966'.".

# Section 3 of Public Law 104-91 (16 II S.C.

Section 3 of Public Law 104–91 (16 U.S.C. 1165 note) is amended—

- (1) in subsection (f) by striking "1996, 1997, and 1998" and inserting "2001, 2002, 2003, 2004, and 2005"; and
  - (2) by adding at the end the following:
  - "(g) Low-Interest Loan Program.—
- "(1) Capitalization of Revolving fund.—
  Of amounts authorized under subsection (f) for each of fiscal years 2001, 2002, 2003, 2004, and 2005, the Secretary may provide to the State of Alaska up to \$2,000,000 per fiscal year to capitalize a revolving fund to be used by the State for loans under this subsection.
- "(2) Low-interest loans.—The Secretary shall require that any revolving fund established with amounts provided under this subsection shall be used only to provide low-interest loans to Natives of the Pribilof Islands to assess, respond to, remediate, and monitor contamination from lead paint, asbestos, and petroleum from underground storage tanks.
- "(3) NATIVES OF THE PRIBILOF ISLANDS DE-FINED.—The definitions set forth in section 101 of the Fur Seal Act of 1966 (16 U.S.C. 1151) shall apply to this section, except that the term 'Natives of the Pribilof Islands' shall include the Tanadgusix and Tanaq Corporations."

# TITLE II—COASTAL ZONE MANAGEMENT SEC. 201. SHORT TITLE.

This title may be cited as the "Coastal Zone Management Act of 2000".

# SEC. 202. AMENDMENT OF COASTAL ZONE MANAGEMENT ACT.

Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.).

### SEC. 203. FINDINGS.

Section 302 (16 U.S.C. 1451) is amended—

- (1) by redesignating paragraphs (a) through (m) as paragraphs (1) through (13);
- (m) as paragraphs (1) through (13);(2) by inserting "ports," in paragraph (3)(as so redesignated) after "fossil fuels,";
- (3) by inserting "including coastal waters and wetlands," in paragraph (4) (as so redesignated) after "zone,";
- (4) by striking "therein" in paragraph (4) (as so redesignated) and inserting "dependent on that habitat";
- (5) by striking "well-being" in paragraph (5) (as so redesignated) and inserting "quality of life":
- (6) by striking paragraph (11) (as so redesignated) and inserting the following:
- "(11) Land and water uses in the coastal zone and coastal watersheds may significantly affect the quality of coastal waters and habitats, and efforts to control coastal water pollution from activities in these areas must be improved."; and
- (7) by adding at the end thereof the following:
- "(14) There is a need to enhance cooperation and coordination among states and local communities, to encourage local community-based solutions that address the impacts and pressures on coastal resources and on public facilities and public service caused by continued coastal demands, and to increase state and local capacity to identify public infrastructure and open space needs and develop and implement plans which provide for sustainable growth, resource protection and community revitalization.".

#### SEC. 204. POLICY.

Section 303 (16 U.S.C. 1452) is amended—

- (1) by striking "the states" in paragraph (2) and inserting "state and local governments";
- (2) by striking "waters," each place it appears in paragraph (2)(C) and inserting "waters and habitats,";
  (3) by striking "agencies and state and
- (3) by striking "agencies and state and wildlife agencies; and" in paragraph (2)(J) and inserting "and wildlife management; and";
- (4) by inserting "other countries" after "agencies," in paragraph (5);
  (5) by striking "and" at the end of para-
- (5) by striking "and" at the end of paragraph (5);
- (6) by striking "zone" in paragraph (6) and inserting "zone;"; and
- (7) by adding at the end thereof the following:
- "(7) to create and use a National Estuarine Research Reserve System as a Federal, state, and community partnership to support and enhance coastal management and stewardship; and
- "(8) to encourage the development, application, and transfer of innovative coastal and estuarine environmental technologies and techniques for the long-term conservation of coastal ecosystems."

### SEC. 205. CHANGES IN DEFINITIONS.

Section 304 (16 U.S.C. 1453) is amended—

- (1) by striking "and the Trust Territories of the Pacific Islands," in paragraph (4);
- (2) by striking paragraph (8) and inserting the following:
- "(8) The term 'estuarine reserve' means a coastal protected area which may include any part or all of an estuary and any island, transitional area, and upland in, adjoining, or adjacent to the estuary, and which constitutes to the extent feasible a natural unit, established to provide long-term opportunities for conducting scientific studies and educational and training programs that improve the understanding, stewardship, and management of estuaries."; and
- (3) by adding at the end thereof the following:

- "(19) The term 'coastal nonpoint pollution control strategies and measures' means strategies and measures included as part of the coastal nonpoint pollution control program under section 6217 of the Coastal Zone Act Reauthorization Amendments of 1990 (16 U.S.C. 1455b).
- "(20) The term 'qualified local entity means—
  - "(A) any local government;
- "(B) any areawide agency referred to in section 204(a)(1) of the Demonstration Cities and Metropolitan Development Act of 1966 (42 U.S.C. 3334(a)(1));
  - "(C) any regional agency;
- "(D) any interstate agency;
- "(E) any nonprofit organization; or
- "(F) any reserve established under section 315.".

# SEC. 206. REAUTHORIZATION OF MANAGEMENT PROGRAM DEVELOPMENT GRANTS.

Section 305 (16 U.S.C. 1454) is amended to read as follows:

#### "SEC. 305. MANAGEMENT PROGRAM DEVELOP-MENT GRANTS.

- "(a) STATES WITHOUT PROGRAMS.—In fiscal years 2001, 2002, 2003, and 2004, the Secretary may make a grant annually to any coastal state without an approved program if the coastal state demonstrates to the satisfaction of the Secretary that the grant will be used to develop a management program consistent with the requirements set forth in section 306. The amount of any such grant shall not exceed \$200,000 in any fiscal year, and shall require State matching funds according to a 4-to-1 ratio of Federal-to-State contributions. After an initial grant is made to a coastal state under this subsection, no subsequent grant may be made to that coastal state under this subsection unless the Secretary finds that the coastal state is satisfactorily developing its management program. No coastal state is eligible to receive more than 4 grants under this subsection.
- "(b) SUBMITTAL OF PROGRAM FOR AP-PROVAL.—A coastal state that has completed the development of its management program shall submit the program to the Secretary for review and approval under section 306.". SEC. 207. ADMINISTRATIVE GRANTS.
- (a) PURPOSES.—Section 306(a) (16 U.S.C. 1455(a)) is amended by inserting "including developing and implementing coastal nonpoint pollution control program components," after "program,".
- (b) EQUITABLE ALLOCATION OF FUNDING.—Section 306(c) (16 U.S.C. 1455(c)) is amended by adding at the end thereof "In promoting equity, the Secretary shall consider the overall change in grant funding under this section from the preceding fiscal year and minimize the relative increases or decreases among all the eligible States. The Secretary shall ensure that each eligible State receives increased funding under this section in any fiscal year for which the total amount appropriated to carry out this section is greater than the total amount appropriated to carry out this section for the preceding fiscal year.
- (c) Acquisition Criteria.—Section 306(d)(10)(B) (16 U.S.C. 1455(d)(10)(B)) is amended by striking "less than fee simple" and inserting "other".

# SEC. 208. COASTAL RESOURCE IMPROVEMENT PROGRAM.

- Section 306A (16 U.S.C. 1455a) is amended— (1) by inserting "or other important coastal habitats" in subsection (b)(1)(A) after "306(d)(9)":
- (2) by inserting "or historic" in subsection (b)(2) after "urban":
- (3) by adding at the end of subsection (b) the following:

- "(5) The coordination and implementation of approved coastal nonpoint pollution control plans.
- "(6) The preservation, restoration, enhancement or creation of coastal habitats."; (4) by striking "and" after the semicolon in subsection (c)(2)(D):
- (5) by striking "section." in subsection (c)(2)(E) and inserting "section;";
- (6) by adding at the end of subsection (c)(2) the following:
- "(F) work, resources, or technical support necessary to preserve, restore, enhance, or create coastal habitats; and
- "(G) the coordination and implementation of approved coastal nonpoint pollution control plans."; and
- (7) by striking subsections (d), (e), and (f) and inserting after subsection (c) the following:
- "(d) SOURCE OF FEDERAL GRANTS; STATE MATCHING CONTRIBUTIONS.—
- "(1) IN GENERAL.—If a coastal state chooses to fund a project under this section, then—
- "(A) it shall submit to the Secretary a combined application for grants under this section and section 306:
- "(B) it shall match the combined amount of such grants in the ratio required by section 306(a) for grants under that section; and
- "(C) the Federal funding for the project shall be a portion of that state's annual allocation under section 306(a)
- "(2) USE OF FUNDS.—Grants provided under this section may be used to pay a coastal state's share of costs required under any other Federal program that is consistent with the purposes of this section.
- "(e) ALLOCATION OF GRANTS TO QUALIFIED LOCAL ENTITY.—With the approval of the Secretary, the eligible coastal state may allocate to a qualified local entity a portion of any grant made under this section for the purpose of carrying out this section; except that such an allocation shall not relieve that state of the responsibility for ensuring that any funds so allocated are applied in furtherance of the state's approved management program.
- "(f) ASSISTANCE.—The Secretary shall assist eligible coastal states in identifying and obtaining from other Federal agencies technical and financial assistance in achieving the objectives set forth in subsection (b).".

### SEC. 209. COASTAL ZONE MANAGEMENT FUND.

- (a) Treatment of Loan Repayments.—Section 308(a)(2) (16 U.S.C. 1456(a)(2)) is amended to read as follows:
- "(2) Loan repayments made under this subsection—
- "(A) shall be retained by the Secretary and deposited into the Coastal Zone Management Fund established under subsection (b); and
- "(B) subject to amounts provided in Appropriations Acts, shall be available to the Secretary for purposes of this title and transferred to the Operations, Research, and Facilities account of the National Oceanic and Atmospheric Administration to offset the costs of implementing this title."
- (b) USE OF AMOUNTS IN FUND.—Section 308(b) (16 U.S.C. 1456a(b)) is amended by striking paragraphs (2) and (3) and inserting the following:
- "(2) Subject to Appropriation Acts, amounts in the Fund shall be available to the Secretary to carry out the provisions of this Act."

# SEC. 210. COASTAL ZONE ENHANCEMENT GRANTS.

Section 309 (16 U.S.C. 1456b) is amended— (1) by striking subsection (a)(1) and inserting the following:

"(1) Protection, restoration, enhancement, or creation of coastal habitats, including

wetlands, coral reefs, marshes, and barrier islands.":

- (2) by inserting "and removal" after "entry" in subsection (a)(4);
- (3) by striking "on various individual uses or activities on resources, such as coastal wetlands and fishery resources." in subsection (a)(5) and inserting "of various individual uses or activities on coastal waters, habitats, and resources, including sources of polluted runoff.";
- (4) by adding at the end of subsection (a) the following:
- "(10) Development and enhancement of coastal nonpoint pollution control program components, including the satisfaction of conditions placed on such programs as part of the Secretary's approval of the programs.
- "(11) Significant emerging coastal issues as identified by coastal states, in consultation with the Secretary and qualified local entities.":
- (5) by striking "proposals, taking into account the criteria established by the Secretary under subsection (d)." in subsection (c) and inserting "proposals.";
- (6) by striking subsection (d) and redesignating subsection (e) as subsection (d);
- (7) by striking "section, up to a maximum of \$10,000,000 annually" in subsection (f) and inserting "section."; and
- (8) by redesignating subsections (f) and (g) as subsections (e) and (f), respectively.

#### SEC. 211. COASTAL COMMUNITY PROGRAM.

The Act is amended by inserting after section 309 the following:

### "SEC. 309A. COASTAL COMMUNITY PROGRAM.

- "(a) COASTAL COMMUNITY GRANTS.—The Secretary may make grants to any coastal state that is eligible under subsection (b)—
- "(1) to assist coastal communities in assessing and managing growth, public infrastructure, and open space needs in order to provide for sustainable growth, resource protection and community revitalization;
- "(2) to provide management-oriented research and technical assistance in developing and implementing community-based growth management and resource protection strategies in qualified local entities:
- "(3) to fund demonstration projects which have high potential for improving coastal zone management at the local level:
- "(4) to assist in the adoption of plans, strategies, policies, or procedures to support local community-based environmentally-protective solutions to the impacts and pressures on coastal uses and resources caused by development and sprawl that will—
- "(A) revitalize previously developed areas; "(B) undertake conservation activities and projects in undeveloped and environmentally sensitive areas:
- "(C) emphasize water-dependent uses; and "(D) protect coastal waters and habitats;

and

- "(5) to assist coastal communities to coordinate and implement approved coastal approved nonpoint pollution control strategies and measures that reduce the causes and impacts of polluted runoff on coastal waters and habitats."
- "(b) ELIGIBILITY.—To be eligible for a grant under this section for a fiscal year, a coastal state shall—
- "(1) have a management program approved under section 306; and
- "(2) in the judgment of the Secretary, be making satisfactory progress in activities designed to result in significant improvement in achieving the coastal management objectives specified in section 303(2)(A) through (K).
- "(c) ALLOCATIONS; SOURCE OF FEDERAL GRANTS; STATE MATCHING CONTRIBUTIONS.—

- "(1) ALLOCATION.—Grants under this section shall be allocated to coastal states as provided in section 306(c).
- "(2) APPLICATION; MATCHING.—If a coastal state chooses to fund a project under this section, then—
- "(A) it shall submit to the Secretary a combined application for grants under this section and section 306; and
- "(B) it shall match the amount of the grant under this section on the basis of a total contribution of section 306, 306A, and this section so that, in aggregate, the match is 1:1.
- ''(d) Allocation of Grants to Qualified Local Entity.—
- "(1) IN GENERAL.—With the approval of the Secretary, the eligible coastal state may allocate to a qualified local entity amounts received by the state under this section.
- "(2) ASSURANCES.—A coastal state shall ensure that amounts allocated by the state under paragraph (1) are used by the qualified local entity in furtherance of the state's approved management program, specifically furtherance of the coastal management objectives specified in section 303(2).
- "(e) ASSISTANCE.—The Secretary shall assist eligible coastal states and qualified local entities in identifying and obtaining from other Federal agencies technical and financial assistance in achieving the objectives set forth in subsection (a)."

#### SEC. 212. TECHNICAL ASSISTANCE.

Section 310(b) (16 U.S.C. 1456c(b)) is amended by adding at the end thereof the following:

"(4) The Secretary may conduct a program to develop and apply innovative coastal and estuarine environmental technology and methodology through a cooperative program. The Secretary may make extramural grants in carrying out the purpose of this subsection."

### SEC. 213. PERFORMANCE REVIEW.

Section 312(a) (16 U.S.C. 1458(a)) is amended by inserting "coordinated with National Estuarine Research Reserves in the state" after "303(2)(A) through (K),".

### SEC. 214. WALTER B. JONES AWARDS.

- Section 314 (16 U.S.C. 1460) is amended—
- (1) by striking "shall, using sums in the Coastal Zone Management Fund established under section 308" in subsection (a) and inserting "may, using sums available under this Act";
- (2) by striking "field." in subsection (a) and inserting the following: "field of coastal zone management. These awards, to be known as the 'Walter B. Jones Awards', may include—
- "(1) cash awards in an amount not to exceed \$5,000 each;
  - "(2) research grants; and
- "(3) public ceremonies to acknowledge such awards.";
- (3) by striking "shall elect annually—" in subsection (b) and inserting "may select annually if funds are available under subsection (a)—"; and
- (4) by striking subsection (e).

#### SEC. 215. NATIONAL ESTUARINE RESEARCH RE-SERVE SYSTEM.

- (a) Section 315(a) (16 U.S.C. 1461(a)) is amended by striking "consists of—" and inserting "is a network of areas protected by Federal, state, and community partnerships which promotes informed management of the Nation's estuarine and coastal areas through interconnected programs in resource stewardship, education and training, and scientific understanding consisting of—".
- (b) Section 315(b)(2)(C) (16 U.S.C. 1461(b)(2)(C)) is amended by striking "public

- education and interpretation; and"; and inserting "education, interpretation, training, and demonstration projects; and".
- (c) Section 315(c) (16 U.S.C. 1461(c)) is amended)
- (1) by striking "Research" in the subsection caption and inserting "Research, Education, and Resource Stewardship";
- (2) by striking "conduct of research" and inserting "conduct of research, education, and resource stewardship";
- (3) by striking "coordinated research" in paragraph (1)) and inserting "coordinated research, education, and resource stewardship":
- (4) by striking "research" before "principles" in paragraph (2);
- (5) by striking "research programs" in paragraph (2) and inserting "research, education, and resource stewardship programs";
- (6) by striking "research" before "methodologies" in paragraph (3);
- (7) by striking "data," in paragraph (3) and inserting "information,";
- (8) by striking "research" before "results" in paragraph (3);
- (9) by striking "research purposes;" in paragraph (3) and inserting "research, education, and resource stewardship purposes:";
- (10) by striking "research efforts" in paragraph (4) and inserting "research, education, and resource stewardship efforts":
- (11) by striking "research" in paragraph (5) and inserting "research, education, and resource stewardship"; and
- (12) by striking "research" in the last sentence.
- (d) Section 315(d) (16 U.S.C. 1461(d)) is amended—  $\,$
- (1) by striking "ESTUARINE RESEARCH.—" in the subsection caption and inserting "ESTUARINE RESEARCH, EDUCATION, AND RESOURCE STEWARDSHIP.—":
- (2) by striking "research purposes" and inserting "research, education, and resource stewardship purposes";
- (3) by striking paragraph (1) and inserting the following:
- "(1) giving reasonable priority to research, education, and stewardship activities that use the System in conducting or supporting activities relating to estuaries; and";
- (4) by striking "research." in paragraph (2) and inserting "research, education, and resource stewardship activities."; and
- (5) by adding at the end thereof the following:
- "(3) establishing partnerships with other Federal and state estuarine management programs to coordinate and collaborate on estuarine research.".
- (e) Section 315(e) (16 U.S.C. 1461(e)) is amended—
- (1) by striking "reserve," in paragraph (1)(A)(i) and inserting "reserve; and";
- (2) by striking "and constructing appropriate reserve facilities, or" in paragraph (a)(A)(ii) and inserting "including resource stewardship activities and constructing reserve facilities; and":
  - (3) by striking paragraph (1)(A)(iii);
- (4) by striking paragraph (1)(B) and inserting the following:
- "(B) to any coastal state or public or private person for purposes of—
- "(i) supporting research and monitoring associated with a national estuarine reserve that are consistent with the research guidelines developed under subsection (c); or
- "(ii) conducting educational, interpretive, or training activities for a national estuarine reserve that are consistent with the education guidelines developed under subsection (c)".

- (5) by striking "therein or \$5,000,000, whichever amount is less." in paragraph (3)(A) and inserting "therein. Non-Federal costs associated with the purchase of any lands and waters, or interests therein, which are incorporated into the boundaries of a reserve up to 5 years after the costs are incurred, may be used to match the Federal share.";
- (6) by striking "and (iii)" in paragraph (3)(B);
- (7) by striking "paragraph (1)(A)(iii)" in paragraph (3)(B) and inserting "paragraph (1)(B)":
- (8) by striking "entire System." in paragraph (3)(B) and inserting "System as a whole."; and
- (9) by adding at the end thereof the following:
- "(4) The Secretary may—
- "(A) enter into cooperative agreements, financial agreements, grants, contracts, or other agreements with any nonprofit organization, authorizing the organization to solicit donations to carry out the purposes and policies of this section, other than general administration of reserves or the System and which are consistent with the purposes and policies of this section; and
- "(B) accept donations of funds and services for use in carrying out the purposes and policies of this section, other than general administration of reserves or the System and which are consistent with the purposes and policies of this section.

Donations accepted under this section shall be considered as a gift or bequest to or for the use of the United States for the purpose of carrying out this section.".

(f) Section 315(f)(1) (16 U.S.C. 1461(f)(1)) is amended by inserting "coordination with other state programs established under sections 306 and 309A," after "including".

# SEC. 216. COASTAL ZONE MANAGEMENT REPORTS.

Section 316 (16 U.S.C. 1462) is amended—

- (1) by striking "to the President for transmittal" in subsection (a);
- (2) by striking "zone and an evaluation of the effectiveness of financial assistance under section 308 in dealing with such consequences;" and inserting "zone;" in the provision designated as (10) in subsection (a);
- (3) by inserting "education," after the "studies," in the provision designated as (12) in subsection (a);
- (4) by striking "Secretary" in the first sentence of subsection (c)(1) and inserting "Secretary, in consultation with coastal states, and with the participation of affected Federal agencies.":
- (5) by striking the second sentence of subsection (c)(1) and inserting the following: "The Secretary, in conducting such a review, shall coordinate with, and obtain the views of, appropriate Federal agencies.";
- (6) by striking "shall promptly" in subsection (c)(2) and inserting "shall, within 4 years after the date of enactment of the Coastal Zone Management Act of 2000,"; and
- (7) by adding at the end of subsection (c)(2) the following: "If sufficient funds and resources are not available to conduct such a review, the Secretary shall so notify the Congress.".

# SEC. 217. AUTHORIZATION OF APPROPRIATIONS.

- Section 318 (16 U.S.C. 1464) is amended—
- (1) by striking paragraphs (1) and (2) of subsection (a) and inserting the following: "(1) for grants under sections 306, 306A, and
- $^{\prime\prime}(1)$  for grants under sections 306, 306A, and 309—
  - "(A) \$70,000,000 for fiscal year 2000;
- "(B) \$80,000,000 for fiscal year 2001;
- "(C) \$83,500,000 for fiscal year 2002;
- (C) \$87,000,000 for fiscal year 2003; and

- "(E) \$90,500,000 for fiscal year 2004;
- "(2) for grants under section 309A—"(A) \$25,000,000 for fiscal year 2000;
- "(B) \$26,000,000 for fiscal year 2001:
- "(C) \$27,000,000 for fiscal year 2002;
- "(D) \$28,000,000 for fiscal year 2003; and
- "(E) \$29,000,000 for fiscal year 2004; of which \$10,000,000, or 35 percent, whichever is less, shall be for purposes set forth in section 309A(a)(5):
  - "(3) for grants under section 315-
  - "(A) \$7,000,000 for fiscal year 2000;
  - "(B) \$12,000,000 for fiscal year 2001;
  - "(C) \$13,000,000 for fiscal year 2002:
  - "(D) \$14,000,000 for fiscal year 2003; and
- "(E) \$15,000,000 for fiscal year 2004;
- "(4) for grants to fund construction projects at estuarine reserves designated under section 315, \$12,000,000 for each of fiscal years 2000, 2001, 2002, 2003, and 2004; and
- "(5) for costs associated with administering this title, \$6,500,000 for fiscal year 2000 and such sums as are necessary for fiscal years 2001–2004.";
- (2) by striking "306 or 309." in subsection (b) and inserting "306.";
- (3) by striking "during the fiscal year, or during the second fiscal year after the fiscal year, for which" in subsection (c) and inserting "within 3 years from when";
- (4) by striking "under the section for such reverted amount was originally made available." in subsection (c) and inserting "to states under this Act."; and
- (5) by adding at the end thereof the following:
- "(d) PURCHASE OF OTHERWISE UNAVAILABLE FEDERAL PRODUCTS AND SERVICES.—Federal funds allocated under this title may be used by grantees to purchase Federal products and services not otherwise available.
- "(e) RESTRICTION ON USE OF AMOUNTS FOR PROGRAM, ADMINISTRATIVE, OR OVERHEAD COSTS.—Except for funds appropriated under subsection (a)(5), amounts appropriated under this section shall be available only for grants to states and shall not be available for other program, administrative, or overhead costs of the National Oceanic and Atmospheric Administration or the Department of Commerce."

### SEC. 218. SENSE OF CONGRESS.

It is the sense of Congress that the Undersecretary for Oceans and Atmosphere should re-evaluate the calculation of shoreline mileage used in the distribution of funding under the Coastal Zone Management Program to ensure equitable treatment of all regions of the coastal zone, including the Southeastern States and the Great Lakes States.

# TITLE III—ATLANTIC FISHERIES Subtitle A—Reauthorization of Atlantic

# Striped Bass Conservation Act SEC. 301. REAUTHORIZATION OF ATLANTIC

# STRIPED BASS CONSERVATION ACT. Section 7(a) of the Atlantic Striped Bass

Section 7(a) of the Atlantic Striped Bass Conservation Act (16 U.S.C. 1851 note) is amended to read as follows:

- "(a) AUTHORIZATION.—For each of fiscal years 2001, 2002, and 2003, there are authorized to be appropriated to carry out this Act—
- ``(1) \$1,000,000 to the Secretary of Commerce; and
- (2) \$250,000 to the Secretary of the Interior.

### SEC. 302. POPULATION STUDY OF STRIPED BASS.

(a) STUDY.—The Secretaries (as that term is defined in the Atlantic Striped Bass Conservation Act), in consultation with the Atlantic States Marine Fisheries Commission, shall conduct a study to determine if the distribution of year classes in the Atlantic

- striped bass population is appropriate for maintaining adequate recruitment and sustainable fishing opportunities. In conducting the study, the Secretaries shall consider—
- (1) long-term stock assessment data and other fishery-dependent and independent data for Atlantic striped bass; and
- (2) the results of peer-reviewed research funded under the Atlantic Striped Bass Conservation Act.
- (b) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretaries, in consultation with the Atlantic States Marine Fisheries Commission, shall submit to the Committee on Resources of the House of Representatives and the Committee on Commerce, Science, and Transportation and the Committee on Environment and Public Works of the Senate the results of the study and a long-term plan to ensure a balanced and healthy population structure of Atlantic striped bass, including older fish. The report shall include information regarding—
- (1) the structure of the Atlantic striped bass population required to maintain adequate recruitment and sustainable fishing opportunities; and
- (2) recommendations for measures necessary to achieve and maintain the population structure described in paragraph (1).
- (c) AUTHORIZATION.—There are authorized to be appropriated to the Secretary of Commerce \$250,000 to carry out this section.

#### Subtitle B—Atlantic Coastal Fisheries Cooperative Management

SEC. 331. SHORT TITLE.

This subtitle may be cited as the "Atlantic Coastal Fisheries Act of 2000".

# SEC. 332. REAUTHORIZATION OF ATLANTIC COASTAL FISHERIES COOPERATIVE MANAGEMENT ACT.

(a) AUTHORIZATION OF APPROPRIATIONS.— Section 811 of the Atlantic Coastal Fisheries Cooperative Management Act (16 U.S.C. 5108) is amended to read as follows:

### "SEC. 811. AUTHORIZATION OF APPROPRIATIONS.

- "(a) IN GENERAL.—To carry out this title, there are authorized to be appropriated—
- "(1) \$10,000,000 for each of fiscal year 2001; "(2) \$12,000,000 for each of fiscal year 2002;
- (2) \$12,000,000 for each of fiscal year 2002, (3) \$14,000,000 for each of fiscal year 2003;
- "(4) \$16,000,000 for each of fiscal year 2004; and
- "(5) \$18,000,000 for each of fiscal year 2005; "(b) COOPERATIVE STATISTICS PROGRAM.—Amounts authorized under subsection (a) may be used by the Secretary to support the Commission's cooperative statistics program."
- (b) Technical Corrections.—
- (1) IN GENERAL.—Such Act is amended—
- (A) in section 802(3) (16 U.S.C. 5101(3)) by striking "such resources in" and inserting "such resources is"; and
- $\left( B\right)$  by striking section 812 and the second section 811.
- (2) AMENDMENTS TO REPEAL NOT AFFECTED.—The amendments made by paragraph (1)(B) shall not affect any amendment or repeal made by the sections struck by that paragraph.
- (3) SHORT TITLE REFERENCES.—Such Act is further amended by striking "Magnuson Fishery" each place it appears and inserting "Magnuson-Stevens Fishery".
  - (c) Reports.—
- (1) ANNUAL REPORT TO THE SECRETARY.— The Secretary shall require, as a condition of providing financial assistance under this title, that the Commission and each State receiving such assistance submit to the Secretary an annual report that provides a detailed accounting of the use the assistance.

(2) BIENNIAL REPORTS TO THE CONGRESS.— The Secretary shall submit biennial reports to the Committee on Resources of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate on the use of Federal assistance provided to the Commission and the States under this title. Each biennial report shall evaluate the success of such assistance in implementing this title.

# Subtitle C—Atlantic Tunas Management SEC. 361. USE OF AIRCRAFT PROHIBITED.

Section 7(a) of the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971e(a)) is amended—

- (1) by striking "or" after the semicolon in paragraph (1);
- (2) by striking "fish." in paragraph (2) and inserting "fish; or"; and
  - (3) by adding at the end the following:
- "(3) for any person, other than a person holding a valid Federal permit in the purse seine category—
- "(A) to sue an aircraft to locate or otherwise assist in fishing for, catching, or retaining Atlantic bluefin tuna; or
- "(B) to catch, possess, or retain Atlantic bluefin tuna located by use of an aircraft.".

### TITLE IV—SHARK FINNING

#### SEC. 401. SHORT TITLE.

This title may be cited as the "Shark Conservation Act".

#### SEC. 402. PURPOSE.

The purpose of this title is to eliminate shark-finning by addressing the problem comprehensively at both the national and international levels.

#### SEC. 403. PROHIBITION ON REMOVING SHARK FIN AND DISCARDING SHARK CAR-CASS AT SEA.

Section 307(1) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1857(1)) is amended-

- (1) by striking "or" after the semicolon in subparagraph (N);
- (2) by striking "section 302(j)(7)(A)." in subparagraph (O) and inserting "section 302(j)(7)(A); or"; and
  - (3) by adding at the end the following:
- "(P)(i) to remove any of the fins of a shark (including the tail) and discard the carcass of the shark at sea;
- "(ii) to have custody, control, or possession of any such fin aboard a fishing vessel without the corresponding carcass; or
- "(iii) to land any such fin without the corresponding carcass.
- "For purposes of subparagraph (P) there is a rebuttable presumption that any shark fins landed from a fishing vessel or found on board a fishing vessel were taken, held, or landed in violation of subparagraph (P) if the total weight of shark fins landed or found on board exceeds 5 percent of the total weight of shark carcasses landed or found on board."

### SEC. 404. REGULATIONS.

No later than 180 days after the date of enactment of this Act, the Secretary of Commerce shall promulgate regulations implementing the provisions of section 307(1)(P) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1857(1)(P)), as added by section 403 of this title.

### SEC. 405. INTERNATIONAL NEGOTIATIONS.

The Secretary of Commerce, acting through the Secretary of State, shall—

- (1) initiate discussions as soon as possible for the purpose of developing bilateral or multilateral agreements with other nations for the prohibition on shark-finning;
- (2) initiate discussions as soon as possible with all foreign governments which are en-

gaged in, or which have persons or companies engaged in shark-finning, for the purposes of—

- (A) collecting information on the nature and extent of shark-finning by such persons and the landing or transshipment of shark fins through foreign ports; and
- (B) entering into bilateral and multilateral treaties with such countries to protect such species;
- (3) seek agreements calling for an international ban on shark-finning and other fishing practices adversely affecting these species through the United Nations, the Food and Agriculture Organization's Committee on Fisheries, and appropriate regional fishery management bodies:
- (4) initiate the amendment of any existing international treaty for the protection and conservation of species of sharks to which the United States is a party in order to make such treaty consistent with the purposes and policies of this section;
- (5) urge other governments involved in fishing for or importation of shark or shark products to fulfill their obligations to collect biological data, such as stock abundance and by-catch levels, as well as trade data, on shark species as called for in the 1995 Resolution on Cooperation with FAO with Regard to study on the Status of Sharks and By-Catch of Shark Species; and
- (6) urge other governments to prepare and submit their respective National Plan of Action for the Conservation and Management of Sharks of the 2001 session of the FAO Committee on Fisheries, as set forth in the International Plan for Action for the Conservation and Management of Sharks.

#### SEC. 406. REPORT TO CONGRESS

The Secretary of Commerce, in consultation with the Secretary of State, shall provide to Congress, by not later than 1 year after the date of enactment of this Act, and every year thereafter, a report which—

- (1) includes a list that identifies nations whose vessels conduct shark-finning and details the extent of the international trade in shark fins, including estimates of value and information on harvesting of shark fins, and landings or transshipment of shark fins through foreign ports:
- (2) describes the efforts taken to carry out this title, and evaluates the progress of those efforts:
- (3) sets forth a plan for action to adopt international measures for the conservation of sharks; and
- (4) includes recommendations for measures to ensure that United States actions are consistent with national, international, and regional obligations relating to shark populations, including those listed under the Conservation on International Trade in Endangered Species of Wild Flora and Fauna.

### SEC. 407. RESEARCH.

- The Secretary of Commerce, subject to the availability of appropriations authorized by section 410, shall establish a research program for Pacific and Atlantic sharks to engage in the following data collection and research:
- (1) The collection of data to support stock assessments of shark populations subject to incidental or directed harvesting by commercial vessels, giving priority to species according to vulnerability of the species to fishing gear and fishing mortality, and its population status.
- (2) Research to identify fishing gear and practices that prevent or minimize incidental catch of sharks in commercial and recreational fishing.
- (3) Research on fishing methods that will ensure maximum likelihood of survival or captured sharks after release.

- (4) Research on methods for releasing sharks from fishing gear that minimize risk of injury to fishing vessels operators and crews
- (5) Research on methods of maximize the utilization of, and funding to develop the market for, sharks not taken in violation of a fishing management plan approved under section 303 or of section 307(1)(P) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1853, 1857(1)(P).
- (6) Research on the nature and extent of the harvest of sharks and shark fins by foreign fleets and the international trade in shark fins and other shark products.

#### SEC. 408. WESTERN PACIFIC LONGLINE FISH-ERIES COOPERATIVE RESEARCH PROGRAM.

The National Marine Fisheries Service, in consultation with the Western Pacific Fisheries Management Council, shall initiate a cooperative research program with the commercial longlining industry to carry out activities consistent with this title, including research described in section 407 of this title. The service may initiate such shark cooperative research programs upon the request of any other fishery management council.

#### SEC. 409. SHARK-FINNING DEFINED.

In this Act, the term "shark-finning" means the taking of a shark, removing the fin or fins (whether or not including the tail) of a shark, and returning the remainder of the shark to the sea.

#### SEC. 410. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary of Commerce for fiscal years 2001 through 2005 such sums as are necessary to carry out this title.

#### TITLE V—EXTENSION OF PERIOD FOR RE-IMBURSEMENT UNDER FISHERMEN'S PROTECTIVE ACT OF 1967

### SEC. 501. SHORT TITLE.

This title may be cited as the "Fishermen's Protective Act Amendments of 2000".

#### SEC. 502. EXTENSION OF PERIOD FOR REIM-BURSEMENT UNDER FISHERMEN'S PROTECTIVE ACT OF 1967.

- (a) IN GENERAL.—Section 7(e) of the Fishermen's Protective Act of 1967 (22 U.S.C. 1977(e)) is amended by striking "2000" and inserting "2003".
- (b) CLERICAL AMENDMENT.—Section 7(a)(3) of the Fishermen's Protective Act of 1967 (22 U.S.C. 1977(a)(3)) is amended by striking "Secretary of the Interior" and inserting "Secretary of Commerce".

# TITLE VI—YUKON RIVER SALMON SEC. 601. SHORT TITLE.

This title may be cited as the "Yukon River Salmon Act of 2000".

### SEC. 602. YUKON RIVER SALMON PANEL.

- (a) ESTABLISHMENT.—
- (1) IN GENERAL.—There shall be a Yukon River Salmon Panel (in this title referred to as the "Panel").
  - (2) FUNCTIONS.—The Panel shall—
- (A) advise the Secretary of State regarding the negotiation of any international agreement with Canada relating to the management of salmon stocks originating from the Yukon River in Canada;
- (B) advise the Secretary of the Interior regarding restoration and enhancement of such salmon stocks; and
- (C) perform other functions relating to conservation and management of such salmon stocks as authorized by this title or any other law.
- (3) DESIGNATION AS UNITED STATES REPRESENTATIVES ON BILATERAL BODY.—The Secretary of State may designate the members

of the Panel to be the United States representatives on any successor to the panel established by the interim agreement for the conservation of salmon stocks originating from the Yukon River in Canada agreed to through an exchange of notes between the Government of the United States and the Government of Canada on February 3, 1995, if authorized by any agreement establishing such successor.

- (b) Membership -
- (1) IN GENERAL.—The Panel shall be comprised of six members, as follows:
- (A) One member who is an official of the United States Government with expertise in salmon conservation and management, who shall be appointed by the Secretary of State.
- (B) One member who is an official of the State of Alaska with expertise in salmon conservation and management, who shall be appointed by the Governor of Alaska.
- (C) Four members who are knowledgeable and experienced with regard to the salmon fisheries on the Yukon River, who shall be appointed by the Secretary of State.
  - (2) APPOINTEES FROM ALASKA.—
- (A) The Secretary of State shall appoint the members under paragraph (1)(C) from a list of at least three individuals nominated for each position by the Governor of Alaska.
- (B) In making the nominations, the Governor of Alaska may consider suggestions for nominations provided by organizations with expertise in Yukon River salmon fisheries.
- (C) The Governor of Alaska may make appropriate nominations to allow for appointment of, and the Secretary of State shall appoint, under paragraph (1)(C)—
- (i) at least one member who is qualified to represent the interests of Lower Yukon River fishing districts; and
- (ii) at least one member who is qualified to represent the interests of Upper Yukon River fishing districts.
- (D) At least one of the members appointed under paragraph (1)(C) shall be an Alaska Native.
- (3) Alternates.—
- (A) The Secretary of State may designate an alternate Panel member for each Panel member the Secretary appoints under paragraphs (1)(A) and (C), who meets the same qualifications, to serve in the absence of the Panel member.
- (B) The Governor of the State of Alaska may designate an alternative Panel member for the Panel member appointed under paragraph (1)(B), who meets the same qualifications, to serve in the absence of that Panel member.
- (c) TERM LENGTH.—Panel members and alternate Panel members shall serve four-year terms. Any individual appointed to fill a vacancy occurring before the expiration of any term shall be appointed for the remainder of that term.
- (d) REAPPOINTMENT.—Panel members and alternate Panel members shall be eligible for reappointment.
- (e) DECISIONS.—Decisions of the Panel shall be made by the consensus of the Panel members appointed under subparagraphs (B) and (C) of subsection (b)(1).
- (f) CONSULTATION.—In carrying out their functions, Panel members may consult with such other interested parties as they consider appropriate.

### SEC. 603. ADVISORY COMMITTEE.

(a) APPOINTMENTS.—The Governor of Alaska may establish and appoint an advisory committee (in this title referred to as the "advisory committee") of not less than eight, but not more than 12, individuals who are knowledgeable and experienced with re-

- gard to the salmon fisheries on the Yukon River. At least two of the advisory committee members shall be Alaska Natives. Members of the advisory committee may attend all meetings of the Panel, and shall be given the opportunity to examine and be heard on any matter under consideration by the Panel.
- (b) COMPENSATION.—The members of such advisory committee shall receive no compensation for their services.
- (c) TERM LENGTH.—Members of such advisory committee shall serve two-year terms. Any individual appointed to fill a vacancy occurring before the expiration of any term shall be appointed for the remainder of that term.
- (d) REAPPOINTMENT.—Members of such advisory committee shall be eligible for reappointment.

#### SEC. 604. EXEMPTION.

The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Panel or to the advisory committee.

#### SEC. 605. AUTHORITY AND RESPONSIBILITY.

- (a) RESPONSIBLE MANAGEMENT ENTITY.— The State of Alaska Department of Fish and Game shall be the responsible management entity for the United States for the purposes of any agreement with Canada regarding management of salmon stocks originating from the Yukon River in Canada.
- (b) EFFECT OF DESIGNATION.—The designation under subsection (a) shall not be considered to expand, diminish, or otherwise change the management authority of the State of Alaska or the Federal Government with respect to fishery resources.
- (c) RECOMMENDATIONS OF PANEL.—In addition to recommendations made by the Panel to the responsible management entities in accordance with any agreement with Canada regarding management of salmon stocks originating from the Yukon River in Canada, the Panel may make recommendations concerning the conservation and management of salmon originating in the Yukon River to the Department of the Interior, the Department of Commerce, the Department of State, the North Pacific Fishery Management Council, and other Federal or State entities as appropriate. Recommendations by the Panel shall be advisory in nature.

### SEC. 606. ADMINISTRATIVE MATTERS.

- (a) COMPENSATION.—Panel members and alternate Panel members who are not State or Federal employees shall receive compensation at the daily rate of GS-15 of the General Schedule when engaged in the actual performance of duties.
- (b) TRAVEL AND OTHER NECESSARY EXPENSES.—Travel and other necessary expenses shall be paid by the Secretary of the Interior for all Panel members, alternate Panel members, and members of the advisory committee when such members are engaged in the actual performance of duties for the Panel or advisory committee.
- (c) TREATMENT AS FEDERAL EMPLOYEES.—Except for officials of the United States Government, all Panel members, alternate Panel members, and members of the advisory committee shall not be considered to be Federal employees while engaged in the actual performance of duties, except for the purposes of injury compensation or tort claims liability as provided in chapter 81 of title 5, United States Code, and chapter 71 of title 28, United States Code.

# SEC. 607. YUKON RIVER SALMON STOCK RESTORATION AND ENHANCEMENT PROJECTS.

(a) IN GENERAL.—The Secretary of the Interior, in consultation with the Secretary of

Commerce, may carry out projects to restore or enhance salmon stocks originating from the Yukon River in Canada and the United States.

- (b) COOPERATION WITH CANADA.—If there is in effect an agreement between the Government of the United States and the Government of Canada for the conservation of salmon stocks originating from the Yukon River in Canada that includes provisions governing projects authorized under this section, then—
- (1) projects under this section shall be carried out in accordance with that agreement; and
- (2) amounts available for projects under this section—
- (A) shall be expended in accordance with the agreement; and
- (B) may be deposited in any joint account established by the agreement to fund such projects.

### SEC. 608. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary of the Interior to carry out this title \$4,000,000 for each of fiscal years 2000, 2001, 2002, and 2003, of which—

- (1) such sums as are necessary shall be available each fiscal year for travel expenses of Panel members, alternate Panel members, United States members of the Joint Technical Committee established by paragraph C.2 of the memorandum of understanding concerning the Pacific Salmon Treaty between the Government of the United States and the Government of Canada (recorded January 28, 1985), and members of the advisory committee, in accordance with Federal Travel Regulations and sections 5701, 5702, 5704 through 5708, and 5731 of title 5, United States Code:
- (2) such sums as are necessary shall be available for the United States share of expenses incurred by the Joint Technical Committee and any panel established by any agreement between the Government of the United States and the Government of Canada for restoration and enhancement of salmon originating in Canada;
- (3) up to \$3,000,000 shall be available each fiscal year for activities by the Department of the Interior and the Department of Commerce for survey, restoration, and enhancement activities related to salmon stocks originating from the Yukon River in Canada, of which up to \$1,200,000 shall be available each fiscal year for Yukon River salmon stock restoration and enhancement projects under section 507(b): and
- (4) \$600,000 shall be available each fiscal year for cooperative salmon research and management projects in the portion of the Yukon River drainage located in the United States that are recommended by the Panel.

# TITLE VII—FISHERY INFORMATION ACQUISITION

SEC. 701. SHORT TITLE.

This title may be cited as the "Fisheries Survey Vessel Authorization  ${\tt Act}$  of 2000".

# SEC. 702. ACQUISITION OF FISHERY SURVEY VESSELS.

- (a) IN GENERAL.—The Secretary of Commerce, subject to the availability of appropriations, may in accordance with this section acquire, by purchase, lease, lease-purchase, or charter, and equip up to six fishery survey vessels in accordance with this section.
- (b) VESSEL REQUIREMENTS.—Any vessel acquired and equipped under this section must—
  - (1) be capable of—
- (A) staying at sea continuously for at least 30 days:

- (B) conducting fishery population surveys using hydroacoustic, longlining, deep water, and pelagic trawls, and other necessary survey techniques; and
- (C) conducting other work necessary to provide fishery managers with the accurate and timely data needed to prepare and implement fishery management plans; and
- (2) have a hull that meets the International Council for Exploration of the Sea standard regarding acoustic quietness.
- (c) FISHERIES RESEARCH VESSEL PROCURE-MENT.—Notwithstanding section 644 of title 15, United States Code, and section 19.502–2 of title 48, Code of Federal Regulations, the Secretary of Commerce shall seek to procure Fisheries Research Vessels through full and open competition from responsible United States shipbuilding companies irrespective of size.
- (d) AUTHORIZATION.—To carry out this section there are authorized to be appropriated to the Secretary of Commerce \$60,000,000 for each of fiscal years 2002, 2003, and 2004.

# TITLE VIII—CORAL REEF CONSERVATION SEC. 801. SHORT TITLE.

This Act may be cited as the "Coral Reef Conservation Act of 2000".

#### SEC. 802. PURPOSES.

The purposes of this Act are:

- (1) to preserve, sustain, and restore the condition of coral reef ecosystems;
- (2) to promote the wise management and sustainable use of coral reef ecosystems to benefit local communities and the Nation;
- (3) to develop sound scientific information on the condition of coral reef ecosystems and the threats to such ecosystems;
- (4) to assist in the preservation of coral reefs by supporting conservation programs, including projects that involve affected local communities and nongovernmental organizations:
- (5) to provide financial resources for those programs and projects; and
- (6) to establish a formal mechanism for collecting and allocating monetary donations from the private sector to be used for coral reef conservation projects.

# SEC. 803. NATIONAL CORAL REEF ACTION STRATEGY.

- (a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Administrator shall submit to the Committee on Commerce, Science, and Transportation of the Senate and to the Committee on Resources of the House of Representatives and publish in the Federal Register a national coral reef action strategy, consistent with the purposes of this Act. The Administrator shall periodically review and revise the strategy as necessary. In developing this national strategy, the Secretary may consult with the Coral Reef Task Force established under Executive Order 13089 (June 11, 1998).
- (b) GOALS AND OBJECTIVES.—The action strategy shall include a statement of goals and objectives as well as an implementation plan, including a description of the funds obligated each fiscal year to advance coral red conservation. The action strategy and implementation plan shall include discussion of—
  - (1) coastal uses and management:
  - (2) water and air quality;
  - (3) mapping and information management;
  - (4) research, monitoring, and assessment;
  - (5) international and regional issues;
  - (6) outreach and education;
- (7) local strategies developed by the States or Federal agencies, including regional fishery management councils; and
- (8) conservation, including how the use of marine protected areas to serve as replenish-

ment zones will be developed consistent with local practices and traditions.

# SEC. 804. CORAL REEF CONSERVATION PROGRAM.

- (a) GRANTS.—The Secretary, through the Administrator and subject to the availability of funds, shall provide grants of financial assistance for projects for the conservation of coral reefs, hereafter called coral conservation projects, for proposals approved by the Administrator in accordance with this section.
  - (b) MATCHING REQUIREMENTS.—
- (1) 50 PERCENT.—Except as provided in paragraph (2), Federal funds for any coral conservation project under this section may not exceed 50 percent of the total cost of such project. For purposes of this paragraph, the non-Federal share of project costs may be provided by in-kind contributions and other noncash support.
- (2) WAIVER.—The Administrator may waive all or part of the matching requirement under paragraph (1) if the Administrator determines that no reasonable means are available through which applicant can meet the matching requirement and the probable benefit of such project outweighs the public interest in such matching requirement.
- (c) ELIGIBILITY.—Any natural resource management authority of a State or other government authority with jurisdiction over coral reefs or whose activities directly or indirectly affect coral reefs, or coral reef ecosystems, or educational or non-governmental institutions with demonstrated expertise in the conservation of coral reefs, may submit to the Administrator a coral conservation proposal under subsection (e) of this section.
- (d) GEOGRAPHIC AND BIOLOGICAL DIVERSITY.—The Administrator shall ensure that funding for grants awarded under subsection (b) of this section during a fiscal year are distributed in the following manner—
- (1) no less than 40 percent of funds available shall be awarded for coral conservation projects in the Pacific Ocean within the maritime areas and zones subject to the jurisdiction or control of the United States;
- (2) no less than 40 percent of the funds available shall be awarded for coral conservation projects in the Atlantic Ocean, the Gulf of Mexico, and the Caribbean Sea within the maritime areas and zones subject to the jurisdiction or control of the United States; and
- (3) remaining funds shall be awarded for projects that address emerging priorities or threats, including international priorities or threats, identified by the Administrator. When identifying emerging threats or priorities, the Administrator may consult with the Coral Reef Task Force.
- (e) PROJECT PROPOSALS.—Each proposal for a grant under this section shall include the following:
- (1) The name of the individual or entity responsible for conducting the project.
- (2) A description of the qualifications of the individuals who will conduct the project.
- (3) A succinct statement of the purposes of the project.
- (4) An estimate of the funds and time required to complete the project.
- (5) Evidence of support for the project by project by appropriate representatives of States or other government jurisdictions in which the project will be conducted.
- (6) Information regarding the source and amount of matching funding available to the applicant.
- (7) A description of how the project meets one or more of the criteria in subsection (g) of this section.

- (8) Any other information the Administrator considers to be necessary for evaluating the eligibility of the project for funding under this Act.
- (f) Project Review and Approval.—
- (1) IN GENERAL.—The Administrator shall review each coral conservation project proposed to determine if it meets the criteria set forth in subsection (g).
- (2) REVIEW; APPROVAL OR DISAPPROVAL.—Not later than 6 months after receiving a project proposal under this section, the Administrator shall—
- (A) request and consider written comments on the proposal from each Federal agency, State government, or other government jurisdiction, including the relevant regional fishery management councils established under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), or any National Marine Sanctuary, with jurisdiction or management authority over coral reef ecosystems in the area where the project is to be conducted, including the extent to which the project is consistent with locally-established priorities:
- (B) provide for the merit-based peer review of the proposal and require standardized documentation of that peer review:
- (C) after considering any written comments and recommendations based on the reviews under subparagraphs (A) and (B), approve or disapprove the proposal; and
- (D) provide written notification of that approval or disapproval to the person who submitted the proposal, and each of those States and other government jurisdictions that provided comments under subparagraph (A).
- (g) CRITERIA FOR APPROVAL.—The Administrator may not approve a project proposal under this section unless the project is consistent with the coral reef action strategy under section 3 and will enhance the conservation of coral reefs by—
- implementing coral conservation programs which promote sustainable development and ensure effective, long-term conservation of coral reefs;
- (2) addressing the conflicts arising from the use of environments near coral reefs or from the use of corals, species associated with coral reefs, and coral products;
- (3) enhancing compliance with laws that prohibit or regulate the taking of coral products or species associated with coral reefs or regulate the use and management or coral reef ecosystems;
- (4) developing sound scientific information on the condition of coral reef ecosystems or the threats to such ecosystems, including factors that cause coral disease:
- (5) promoting and assisting to implement cooperative coral reef conservation projects that involve affected local communities, non-governmental organizations, or others in the private sector;
- (6) increasing public knowledge and awareness of coral reef ecosystems and issues regarding their long term conservation;
- (7) mapping the location and distribution of coral reefs:
- (8) developing and implementing techniques to monitor and assess the status and condition of coral reefs;
- (9) developing and implementing cost-effective methods to restore degraded coral reef ecosystems; or
- (10) promoting ecologically sound navigation and anchorages near coral reefs.
- (h) PROJECT REPORTING.—Each grantee under this section shall provide periodic reports as required by the Administrator. Each report shall include all information required

by the Administrator for evaluating the progress and success of the project.

- (i) CORAL REEF TASK FORCE.—The Administrator may consult with the Coral Reef Task Force to obtain guidance in establishing coral conservation project priorities under this section
- (j) IMPLEMENTATION GUIDELINES.—Within 180 days after the date of enactment of this Act, the Administrator shall promulgate necessary guidelines for implementing this section. In developing those guidelines, the Administrator shall consult with State, regional, and local entities involved in setting priorities for conservation of coral reefs and provide for appropriate public notice and opportunity for comment.

### SEC. 805. CORAL REEF CONSERVATION FUND.

- (a) FUND.—The Administrator may enter into an agreement with a non-profit organization that promotes coral reef conservation authorizing such organization to receive, hold, and administer funds received pursuant to this section. The organization shall invest, reinvest, and otherwise administer the funds and maintain such funds and any interest or revenues earned in a separate interest bearing account, hereafter referred to as the Fund, established by such organization solely to support partnerships between the public and private sectors that further the purposes of this Act and are consistent with the national coral reef action strategy under section 3.
- (b) AUTHORIZATION TO SOLICIT DONATIONS.—Pursuant to an agreement entered into under subsection (a) of this section, an organization may accept, receive, solicit, hold, administer, and use any gift to further the purposes of this Act. Any monies received as a gift shall be deposited and maintained in the Fund established by the organization under subsection (a).
- (c) REVIEW OF PERFORMANCE.—The Administrator shall conduct a continuing review of the grant program administered by an organization under this section. Each review shall include a written assessment concerning the extent to which that organization has implemented the goals and requirements of this section and the national coral reef action strategy under section 3.
- (d) ADMINISTRATION.—Under an agreement entered into pursuant to subsection (a) of this section, the Administrator may transfer funds appropriated to carry out this Act to an organization. Amounts received by an organization under this subsection may be used for matching, in whole or in part, contributions (whether in money, services, or property) made to the organization by private persons and State and local government agencies.

### SEC. 806. EMERGENCY ASSISTANCE.

The Administrator may make grants to any State, local, or territorial government agency with jurisdiction over coral reefs for emergencies to address unforeseen or disaster-related circumstance pertaining to coral reefs or coral reef ecosystems.

### SEC. 807. NATIONAL PROGRAM.

- (a) IN GENERAL.—Subject to the availability of appropriations, the Secretary may conduct activities to conserve coral reefs and coral reef ecosystems, that are consistent with this Act, the National Marine Sanctuaries Act, the Coastal Zone Management Act of 1972, the Magnuson-Stevens Fishery Conservation and Management Act, the Endangered Species Act, and the Marine Mammal Act.
- (b) AUTHORIZED ACTIVITIES.—Activities authorized under subsection (a) include—  $\,$
- (1) mapping, monitoring, assessment, restoration, and scientific research that benefit

the understanding, sustainable use, and longterm conservation of coral reefs and coral reef ecosystems:

- (2) enhancing public awareness, education, understanding, and appreciation of coral reefs and coral reef ecosystems:
- (3) providing assistance to States in removing abandoned fishing gear, marine debris, and abandoned vessels from coral reefs to conserve living marine resources: and
- (4) cooperative conservation and management of coral reefs and coral reef ecosystems with local, regional, or international programs and partners.

#### SEC. 808. EFFECTIVENESS REPORTS.

- (a) GRANT PROGRAM.—Not later than 3 years after the date of enactment of this Act, the Administrator shall submit to the Committee on Commerce, Science, and Transportation of the Senate and Committee on Resources of the House of Representatives a report that documents the effectiveness of the grant program under section 4 in meeting the purposes of this Act. The report shall include a State-by-State summary of Federal and non-Federal contributions toward the costs of each project.
- (b) NATIONAL PROGRAM.—Not later than 2 years after the date on which the Administrator publishes the national coral reef strategy under section 3 and every 2 years thereafter, the Administrator shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives a report describing all activities undertaken to implement that strategy, under section 3, including a description of the funds obligated each fiscal year to advance coral reef conservation.

### SEC. 809. AUTHORIZATION OF APPROPRIATIONS.

- (a) IN GENERAL.—There are authorized to be appropriated to the Secretary to carry out this Act \$16,000,000 for each of fiscal years 2001, 2002, 2003, and 2004, which may remain available until expended.
- (b) ADMINISTRATION.—Of the amounts appropriated under subsection (a), not more than the lesser of \$1,000,000 or 10 percent of the amounts appropriated, may be used for program administration or for overhead costs incurred by the National Oceanic and Atmospheric Administration or the Department of Commerce and assessed as an administrative charge.
- (c) CORAL REEF CONSERVATION PROGRAM.—From the amounts appropriated under subsection (a), there shall be made available to the Secretary \$8,000,000 for each of fiscal years 2001, 2002, 2003, and 2004 for coral reef conservation activities under section 4.
- (d) NATIONAL CORAL REEF ACTIVITIES.—From the amounts appropriated under section (a), there shall be made available to the Secretary \$8,000,000 for each of fiscal years 2001, 2002, 2003, and 2004 for activities under section 7.

### SEC. 810. DEFINITIONS.

In this title:

- (1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the National Oceanic and Atmospheric Administration.
- (2) CONSERVATION.—The term "conservation" means the use of methods and procedures necessary to preserve or sustain corals and associated species as diverse, viable, and self-perpetuating coral reef ecosystems, including all activities associated with resource management, such as assessment, conservation, protection, restoration, sustainable use, and management of habitat; mapping; habitat monitoring; assistance in the development of management strategies

for marine protected areas and marine resources consistent with the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.) and the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.); law enforcement; conflict resolution initiatives; community outreach and education; and that promote safe and ecologically sound navigation.

- (3) CORAL.—The term "coral" means species of the phylum Cnidaria, including—
- (A) all species of the orders Antipatharia (black corals), Scleractina (stony corals), Gorgonacea (horny corals), Stolonifera (organpipe corals and others), Alcyanacea (soft corals), and Coenothecalia (blue coral), of the class Anthozoa; and
- (B) all species of the order Hydrocorallina (fire corals and hydrocorals) of the class Hydrozoa.
- (4) CORAL REEF.—The term "coral reef" means any reefs or shoals composed primarily of corals.
- (5) CORAL REEF ECOSYSTEM.—The term "coral reef ecosystem" means coral and other species of reef organisms (including reef plants) associated with coral reefs, and the non-living environmental factors that directly affect coral reefs, that together function as an ecological unit in nature.
- (6) CORAL PRODUCTS.—The term "coral products" means any living or dead specimens, parts, or derivatives, or any product containing specimens, parts, or derivatives, of any species referred to in paragraph (3).
- (7) SECRETARY.—The term "Secretary" means the Secretary of Commerce.
- (8) STATE.—The term "State" means any State of the United States that contains a coral reef ecosystem within its seaward boundaries, American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands, and any other territory or possession of the United States, or separate sovereign in free association with the United States, that contains a coral reef ecosystem within its seaward boundaries.

### TITLE IX—MISCELLANEOUS

# SEC. 901. TREATMENT OF VESSEL AS AN ELIGIBLE VESSEL.

Notwithstanding paragraphs (1) through (3) of section 208(a) of the American Fisheries Act (title II of division C of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999 (Public Law 105-277; Stat. 2681-624)), the catcher (HAZEL LORRAINE (United States Official Number 592211) and the catcher vessel PROVIDIAN (United States Official Number 1062183) shall be considered to be vessels that are eligible to harvest the directed fishing allowance under section 206(b)(1) of that Act pursuant to a Federal fishing permit in the same manner as, and subject to the same requirements and limitations on that harvesting as apply to harvest that directed fishing allowance under section 208(a) of that Act.

# SEC. 902. STATUS OF CERTAIN COMMISSIONERS AS FEDERAL EMPLOYEES.

- (a) GREAT LAKES FISHERY COMMISSION.—Section 3(a)(1) of the Great Lakes Fishery Act of 1956 (16 U.S.C. 932(a)(1)) is amended by inserting after the first sentence the following: "An individual serving as a Commissioner shall not be considered to be a Federal employee while performing service as a Commissioner, except for purposes of injury compensation or tort claims liabillity as provided in chapter 81, of title 5, United States Code, and chapter 171 of title 28, United States Code."
- (b) INTERNATIONAL COMMISSION FOR THE SCIENTIFIC INVESTIGATION OF TUNAS; INTER-

AMERICAN TROPICAL TUNA COMMISSON.—Section 3 of the Tuna Conventions Act of 1950 (16 U.S.C. 952) is amended by inserting after the first sentence the following: "An individual serving as a Commissioner shall not be considered to be a Federal employee while performing service as a Commissioner, except for purpose of injury compensation or tort claims liability as provided in chapter 81, of title 5, United States Code, and chapter 171 of title 28, United States Code.".

- (c) INTERNATIONAL COMMISSION FOR THE CONSERVATION OF ATLANTIC TUNAS.—Section 3(a)(1) of the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971a(a)(1) is amended by inserting after "Government." the following: "An individual serving as a Commissioner shall not be considered to be a Federal employee while performing service as a Commissioner, except for purposes of injury compensation or tort claims liability as provided in chapter 81, of title 5, United States Code, and chapter 171 of title 28, United States Code."
- (d) NORTH PACIFIC ANADROMOUS FISH COMMISSION.—Section 804(a) of the North Pacific Anadromous Stocks Act of 1992 (16 U.S.C. 5003(a)) is amended by inserting after the first sentence the following: "An individual serving as a Commissioner shall not be considered to be a Federal employee while performing service as a Commissioner, except for purposes of injury compensation or tort claims liability as provided in chapter 81, of title 5, United States Code, and chapter 171 of title 28, United States Code."

### SEC. 903. WESTERN PACIFIC PROJECT GRANTS.

Section 111(b)(1) of the Sustainable Fisheries Act (16 U.S.C. 1855 nt) is amended by striking the last sentence and inserting "There are authorized to be appropriated to carry out this subsection \$500,000 for each fiscal year.".

#### SEC. 904. EXTENSION OF DUNGENESS CRAB FISH-ERY MANAGEMENT AUTHORITY.

Section 203(i) of the Act entitled "An Act To approve a governing international fishery agreement between the United States and the Republic of Poland, and for other purposes" (112 Stat. 3453; 16 U.S.C. 1856 nt.) is amended by striking "2001." and inserting "2004."

# TITLE X—MARINE MAMMAL RESCUE ASSISTANCE

#### SEC. 1001. JOHN H. PRESCOTT MARINE MAMMAL RESCUE ASSISTANCE GRANT PRO-GRAM.

- (a) IN GENERAL.—Title IV of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1371 et seq.) is amended—
- (1) by redesignating sections 408 and 409 as sections 409 and 410, respectively; and
- (2) by inserting after section 407 the following:

#### "SEC. 408. JOHN H. PRESCOTT MARINE MAMMAL RESCUE ASSISTANCE GRANT PRO-GRAM.

"(a) IN GENERAL.—

- "(1) Grants.—Subject to the availability of appropriations, the Secretary shall conduct a grant program to be known as the John H. Prescott Marine Mammal Rescue Assistance Grant Program, to provide grants to eligible stranded network participants for the recovery or treatment of marine mammals, the collection of data from living or dead stranded marine mammals for scientific research regarding marine mammal health, and facility operation costs that are directly related to those purposes.
- "(2) DISTRIBUTION AMONG STRANDING REGIONS.—
- "(A) EQUITABLE DISTRIBUTION.—The Secretary shall ensure that, to the greatest ex-

- tent practicable, funds provided as grants under this subsection are distributed equitably among the designated stranding regions.
- "(B) PRIORITIES.—In determining priorities among such regions, the Secretary may consider—
- "(i) any episodic stranding or any mortality event other than an event described in section 410(6), that occurred in any region in the preceding year; and
- "(ii) data regarding average annual strandings and mortality events per region.
- "(b) APPLICATION.—To receive a grant under this section, a stranding network participant shall submit an application in such form and manner as the Secretary may prescribe.
- "(c) ADVISORY GROUP.-
- "(1) IN GENERAL.—The Secretary, in consultation with the Marine Mammal Commission, shall establish an advisory group in accordance with this subsection to advise the Secretary regarding the implementation of this section, including the award of grants under this section.
- "(2) Membership.—The advisory group shall consist of a representative from each of the designated stranding regions and other individuals who represent public and private organizations that are actively involved in rescue, rehabilitation, release, scientific research, marine conservation, and forensic science regarding stranded marine mammals.
  - "(3) PUBLIC PARTICIPATION.-
- ``(A) Meetings.—The advisory group shall—
- "(i) ensure that each meeting of the advisory group is open to the public; and
- "(ii) provide, at each meeting of the advisory group, an opportunity for interested persons to present oral or written statements concerning items on the agenda for the meeting.
- "(B) NOTICE.—The Secretary shall provide to the public timely notice of each meeting of the advisory group.
- "(C) MINUTES.—The Secretary shall keep and make available to the public minutes of each meeting of the advisory group.
- "(4) EXEMPTION.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the establishment and activities of an advisory group in accordance with this subsection.
- "(d) LIMITATION.—The amount of a grant under this section shall not exceed \$100,000.
- "(e) MATCHING REQUIREMENT.—
- "(1) IN GENERAL.—The non-Federal share of the costs of an activity conducted with a grant under this section shall be 25 percent of such costs.
- "(2) IN-KIND CONTRIBUTIONS.—The Secretary may apply to the non-Federal share of an activity conducted with a grant under this section the amount of funds, and the fair market value of property and services, provided by non-Federal sources and used for the activity.
- "(f) ADMINISTRATIVE EXPENSES.—Of amounts available each fiscal year to carry out this section, the Secretary may expend not more than 6 percent to pay the administrative expenses necessary to carry out this section.
- "(g) DEFINITIONS.—In this section:
- "(1) DESIGNATED STRANDING REGION.—the term 'designated stranding region' means a geographic region designated by the Secretary for purposes of administration of this title.
- "(2) SECRETARY.—The term 'Secretary' has the meaning given that term in section 3(12)(A).

- "(h) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to the Secretary to carry out this section \$5,000,000 for each of fiscal years 2001 through 2003, to remain available until expended.".
- (b) CONFORMING AMENDMENT.—Section 3(12)(B) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1362(12)(B)) is amended by inserting "(other than section 408)" after "title IV".
- (e) CLERICAL AMENDMENT.—The table of contents in the first section of the Marine Mammal Protection Act of 1972 (86 Stat. 1027) is amended by striking the items relating to sections 408 and 409 and inserting the following:
- "Sec. 408. John H. Prescott Marine Mammal Rescue assistance Grant Program.
- "Sec. 409. Authorization of appropriations.
- "Sec. 410. Definitions.".

#### NOTICES OF HEARING

 $\begin{array}{c} \text{COMMITTEE ON ENERGY AND NATURAL} \\ \text{RESOURCES} \end{array}$ 

Mr. MURKOWSKI. Mr. President, I would like to announce for the public that a hearing has been scheduled before the Committee on Energy and Natural Resources.

The hearing will take place on Thursday, October 19, 2000, at 3:00 p.m. in room SD-366 of the Dirksen Senate Office Building in Washington, DC.

The purpose of this oversight hearing is to receive testimony on potential timber sale contract liability incurred by the government as a result of timber sale contract cancellations.

Those who wish to submit written statements should write to the Committee on Energy and Natural Resources, U.S. Senate, Washington, DC. 20510. For further information, please call Mark Rey at (202) 224-6170.

# $\begin{array}{c} \text{COMMITTEE ON ENERGY AND NATURAL} \\ \text{RESOURCES} \end{array}$

Mr. MURKOWSKI. Mr. President, I would like to announce for the information of the Senate and the public that an oversight hearing has been scheduled before the Committee on Energy and Natural Resources.

The hearing will take place on Thursday, October 19, 2000, at 9:30 a.m. in room SH-216 of the Hart Senate Office Building.

The purpose of this hearing is to conduct oversight on the Department of Energy's recent decision to release 30 million barrels of crude oil from the strategic petroleum reserve and the bid process used to award contracts regarding same.

For further information, please call Brian Malnak, Deputy Staff Director at (202) 224-8119 or Betty Nevitt, Staff Assistant at (202) 224-0765.

# PRIVILEGE OF THE FLOOR

Mr. COCHRAN. Mr. President, I ask unanimous consent that the following Appropriations Committee staff members and intern be granted floor privileges during the consideration of the

conference report to accompany H.R. 4461 for the fiscal year 2001 Agriculture Appropriations Act, and any votes that may occur in relation thereto: Rebecca Davies, Martha Scott Poindexter, Hunt Shipman, Les Spivey, Marc Dulaney, and Galen Fountain.

The PRESIDING OFFICER. Without objection, it is so ordered.

# ORDERS FOR TUESDAY, OCTOBER 17, 2000

Mr. LOTT. Mr. President, I ask unanimous consent that when the Senate completes its business today, it recess until the hour of 9:30 a.m. on Tuesday, October 17. I further ask unanimous consent that on Tuesday, immediately following the prayer, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate then proceed to the conference report to accompany H.R. 4461, the Agriculture appropriations bill, as under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

### PROGRAM

Mr. LOTT. Mr. President, for the information of all Senators, the Senate will not be in session on Monday. On Tuesday, the Senate will resume consideration of the conference report on this Agriculture appropriations bill—very important legislation. The debate will be limited to Tuesday's session and approximately 2 hours on Wednesday morning, with the vote scheduled to occur at 11:30 a.m. on Wednesday on the Agriculture appropriations bill.

For the remainder of the week, the Senate is expected to complete all action necessary for sine die adjournment. I pause for applause. That is certainly what we should do. It is possible we can do it. We were able to get a good deal accomplished this week. It took a lot of work on both sides of the aisle. We were able to get a package of five bills done, which included, of course, the sex trafficking issue as well as Aimee's law and the Violence Against Women Act. We were able to pass four appropriations bills and complete action on the Defense authorization bill and begin debate on the Agriculture appropriations bill.

Next week we will have to deal with the foreign operations conference report final passage in some form; the Commerce-State-Justice appropriations bill; the Labor-HHS and Education appropriations conference report, and there are several tax provisions that need to be considered, including the FSC issue that we have been trying to get cleared, a bill that came out of the Finance Committee to make sure the United States complies with WTO requirements. We need to get that completed as well as several

other items that have broad support in the House and in the Senate and the administration.

So there are four categories that we will need to act on next week. I have been having conversations and meetings this morning with Members of both sides of the aisle and with the administration to try to help facilitate that.

I notice Senator CONRAD reacted positively to "both sides of the aisle."

I think it is clearly possible to complete our work by next Friday. I had hoped we could do it by Saturday, the 14th, but the unfortunate death of our friend and colleague, Congressman Vento from Minnesota, occurred and, therefore, Members are in Minnesota this morning for the funeral service. Clearly, we can get our work done next week, and we certainly will try to. Senators should expect votes throughout the day Wednesday and Thursday and into Friday, if it is necessary.

I yield to the Senator from North Dakota for a question or comment.

### KEVIN SHAWN RUX

Mr. CONRAD. Mr. President, we have just learned very tragic news that a young man from my home State of North Dakota is among those now listed as missing and presumed dead on board the U.S.S. *Cole*.

He is Petty Officer 2nd Class Kevin Shawn Rux. I want to express my deepest sympathies to the family. Our Nation honors this young man for his service and sacrifice. Our prayers are with his family in their grief today, and with all the fathers, mothers, spouses, sons, and daughters of those who lost their loved ones in this terrible attack.

I want to reassure the family this Nation will not rest until we find the criminals responsible for the death of Kevin Shawn Rux and his shipmates. This country will hold them accountable for these murders. Again, we share the grief of the family of this young man. He was doing his duty. He was serving his country. We admire very much his service, and we deeply respect his sacrifice.

My colleague from North Dakota would also like to comment. We would appreciate that.

Mr. LOTT. Mr. President, let me just say, Mr. President, I appreciate the fact that the Senator has raised this issue. It is appropriate that we acknowledge the service of our military men and women who are serving all over the world, more often than we realize, in very dangerous situations, and that we recognize those who lost their lives—in this instance, sailors on the U.S.S. *Cole*.

I, too, have a personal feeling about this. I would like to make some comments on it myself. Before I do that, I yield to Senator DORGAN from North Dakota for his remarks. Mr. DORGAN. Mr. President, I thank the majority leader. This was obviously a senseless act of terrorism. Acts of terrorism are, in most cases, perpetrated by cowards who want to inflict terrible mayhem on especially those from our country, but others around the world as well. Yesterday, when we learned the news that the U.S.S. *Cole* had been attacked, all of us were deeply saddened. Our thoughts and prayers go out to all of the families of those who are now known dead and those who are presumed dead or missing.

As Senator CONRAD indicated, we have just learned from the U.S. Navy this morning that a young man named Kevin Rux from Portland, ND, is among those missing and presumed dead, according to the U.S. Navy. I want to add my voice to my colleagues' comments that my thoughts and prayers go out to his family. We are thinking of them and praying for them today. We feel the same about all of those who have been the victims of this attack. It tells us, once again, that this is a difficult and in some cases troubled world, and those who wear the uniform of this country in all parts of this globe, who stand for peace, do so at some risk to themselves and on behalf of a grateful Nation.

Again, I want to simply say we are thinking of the Rux family and all of the other families whose loved ones have become victims of this cowardly terrorist attack. I say, as well, that this country has said to its President and Members of Congress that those responsible for this attack must be found and brought to justice for it.

I yield the floor.

# ORDER FOR RECORD TO REMAIN OPEN

Mr. LOTT. Mr. President, I ask unanimous consent that the RECORD remain open today until 1 p.m. for the introduction of statements by Members.

The PRESIDING OFFICER. Without

The PRESIDING OFFICER. Without objection, it is so ordered.

# OUTSTANDING MILITARY PERSONNEL AND THEIR SOPHISTICATED SHIPS

Mr. LOTT. Mr. President, the U.S.S. Cole was built in my hometown of Pascagoula, MS. I have been on it. I have visited with the sailors, the crew, and officers on many of these ships—destroyers, cruisers, and LHDs—that are built there. It is always a thrilling experience to see the enthusiasm of these young men and women and the caliber of the young men and women who serve our country, and also the tremendous sophistication of these ships. These ships are the most sophisticated in the history of the world, with an incredible array of radar and weapons systems.

These ships can fire at 120 different targets simultaneously, using missiles

and Gatling guns. They are incredible vessels. They are referred to as "aegis class" destroyers. They have a tremendous shield where they can track and identify targets or enemy activities. But we see, once again, no matter how big, how sophisticated, or how capable they are in destroying enemy ships or aircraft, they are still vulnerable to a suicide attack by two men on a small rubber vessel.

I think it is a very sobering thing that we are learning from this experience. You can be in a marine barracks somewhere, in a hotel, in a public building, or on a sophisticated ship, and you are still vulnerable to this kind of attack. This is clearly an unjustified, heinous, indescribable act that has taken place, and I know that our Government will act very aggressively to protect and provide aid to those who are injured and work with

the families who are certainly going through a period of grieving now. It will also try to identify exactly who did this, who gave the order, and be prepared to take swift and very strong action against those who did it.

I have no doubt that our Government will work in unity to accomplish that.

In addition to that, I have a list before me which is not yet ready for release, and I would not want to do it before it has been properly released. But there are at least 7 identified as dead now and another 10, at least, missing potentially, and likely now 17 sailors on that ship who lost their lives.

One of those was Ens. Andrew Triplett of Macon, MS. I have before me his record of service, and I take note that this is a young man who was very forward leaning and had advanced very quickly through the ranks to reach the position of ensign.

To his entire family, and particularly his mother, Savanna Triplett of Shuqualak, MS, I extend my sympathy and prayers and also the grateful appreciation of our Nation.

I know that Americans all over the world will be touched by what we have seen happen and will be thinking of the family and praying for them in this difficult time.

### RECESS UNTIL 9:30 A.M. TUESDAY, OCTOBER 17, 2000

Mr. LOTT. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in recess under the previous order.

There being no objection, the Senate, at 12:07 p.m., recessed until Tuesday, October 17, 2000, at 9:30 a.m.

# EXTENSIONS OF REMARKS

HONORING THERESA McCAIN

### HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, it gives me great pleasure to congratulate Theresa McCain of Gardner, Colorado on her recent award. Theresa has earned the coveted National Educator Award from the Milken Family Foundation. She is one of only four Colorado teachers to receive this high honor. Winners of the Milken Award are nominated by fellow teachers and winners are selected by a panel. They not only receive a cash prize but also a trip to Los Angeles where they participate in the Milken Foundation National Educational Conference.

Theresa began her career in education after earning a psychology degree from the University of Wyoming and then a teaching certificate from Adams State College in Alamosa, Colorado. Shortly thereafter, Theresa began her distinguished career at Gardner. The Gardner school has 89 students, ranging from preschool through eighth grade, and teachers are often required to use many different teaching methods to manage students with wide ranging differences in age. It is educators like Theresa that have helped this school become the wonderful learning institution that it is today.

Throughout her time in Gardner, Theresa has always considered the school to be a group of teachers working together and she had this to say about her individual award in a recent article by Margie Wood, in The Pueblo Chieftain: "I feel honored to be here in this school. There are such wonderful teachers that I've learned from. I go to all these other teachers for help, so it's not my award—it's their award."

Theresa has served her community, State, and Nation proudly. During her tenure in Gardner she has helped ensure that hundreds of Colorado's youth are receiving the best education possible.

Mr. Speaker, on behalf of the State of Colorado and the U.S. Congress I congratulate Theresa on this distinguished and well deserved award.

Congratulations!

 $\begin{array}{c} {\tt CONGRATULATIONS~ST.~BRUNO} \\ {\tt CHURCH} \end{array}$ 

### HON. WILLIAM O. LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES  $Thursday,\ October\ 12,\ 2000$ 

Mr. LIPINSKI. Mr. Speaker, today I offer my congratulations to St. Bruno Church located at 4751 South Harding in Chicago, Illinois. This

past September, St. Bruno's Church celebrated their 75th Anniversary serving the Catholic community on the south side of Chicago.

In September 1925, Father Alexis Gorski was appointed as the founding Pastor of St. Bruno Church. This place of worship has been the center for its Catholic patron's hopes and direction through many years of economic disparities and wealth throughout the 20th century. A young church helped bring support to the community during times of depression, war, peace, and advancement.

As time progressed there was a need for structural improvements with the church, too, as its congregation was increasing in size. In August 1955, under the direction of Father Francis Modrzenski, St. Bruno dedicated a new church and four years later added a rectory.

Ås the need for improvements in the school arose, Father Szlanga proudly inaugurated the School Hall and gym expansion in 1978. To further improve the quality of education for its students, the current Pastor Father Joseph Grembala oversaw a multi-million dollar noise-abatement project for the school in 1995. And the church was once again renovated in 1998.

I wish to extend my heartiest wishes to the pastor, personnel, and patrons of St. Bruno Church as they continue to celebrate the past, present and future of their church community. My best wishes to St. Bruno Church on this wonderful milestone.

IN RECOGNITION OF GERALD YOUNG

# HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. HALL of Texas. Mr. Speaker, Iwo Jima brings to mind for most Americans the famous picture of the flag raising on Mount Suribachi and the impressive bronze statue that memorializes this historic event. The Marines fought one of the most brutal battles of American history on that porkchop-shaped eight-squaremile island—and brought honor to themselves and victory for our country.

One of the heroes of that conflict was a young, skinny, red-headed teenager from Texas—Gerald Edwin Young, otherwise known as "Red" to his Marine buddies. He served with the 5th Marine Division, 5th Engineer Battalion, "A" Company, 1st platoon. Gerald landed on Iwo Jima on February 19, 1945, day one of the battle. He had just turned 19 a few days before. Gerald had several duties—one of which was being a runner. Under constant fire, he would bring replacements to the battle front as needed, carrying out his mission time and again. He considers himself very fortunate to have survived the full

36 days of the battle—and did sustain a temporary loss of hearing after a grenade exploded near him. However, he refused the opportunity to be shipped off the island.

At the time of the historic flag raising, he tells the story that the first flag flown was too small and could not be seen so well from a distance. As a part of the Company "A" team of runners, Gerald participated in relaying that message and the need for the larger flag, which is the flag we see in the photographs of that historic day.

Today, Gerald loves to talk and tell stories, but he has little to say about his war experiences, which are still painful to talk about. He does make it clear, however, that he is proud to have served his country as an enlisted Marine—and even at 75 years of age says he would do it again if needed. His grandson, David Riddle, is a Congressional Intern in my office and a student at Texas A&M University. He shares this story about his grandfather with much pride and admiration, and it is a privilege for me to have the opportunity to share this with my colleagues. So as we adjourn today, let us do so by paying tribute to this outstanding American and World War II Veteran-Gerald Edwin Young.

TRIBUTE TO ROBERT J. STANZE

# HON. RICHARD A. GEPHARDT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. GEPHARDT. Mr. Speaker, August 8, 2000 was a sad day for the City of St. Louis and our community. On that day, St. Louis Police Officer Robert J. Stanze was killed in the performance of his duty to protect and serve the citizens of St. Louis.

Officer Stanze was tragically shot and killed by a suspect in police custody. Bob Stanze was 29 years old, and leaves behind a young son and a wife, who is expecting twins. He was the 151st St. Louis Police Officer killed in the line of duty in the history of the Department.

No one becomes a police officer to make money, or to work easy hours. We all know that our officers work long hours, in dangerous situations, for a very modest salary. Nor is it fame that drives citizens to join the force. Rather, they join out of a sense of duty to their community and their unending belief that they can make a difference. Bob Stanze was one who was making a difference. His belief in duty and honor and justice formed his life, and was reflected in the way he conducted himself on and off the job.

Mr. Speaker, the loss of this fine young man is a great tragedy. His wife has lost his companionship—his son and unborn children have lost the love, guidance and example of a very special man. The entire St. Louis Community

grieves with his family for their loss. Police Officer Robert J. Stanze has left a legacy of decency and bravery that won't be soon forgotten, and we are grateful to have had him among us.

# HONORING BILL O'DWYER

### HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, it is with great sadness that I take this moment to recognize the extraordinary, Bill O'Dwyer of Grand Junction, Colorado. Bill recently passed away at the age of 74. While family, friends, and neighbors mourn this immense loss, I would like to pay tribute to a wonderful human being.

Bill was a valued member of the Grand Junction community and he will be greatly missed. Bill served his country admirably during World War II, fighting with distinction in the Battle of Iwo Jima. After returning a proud veteran he began O'Dwyer Electric in Grand Junction. While building a successful business, Bill began to realize the importance of civic duty and he turned to local government. For a number of years Bill served in the Grand Junction City Council where his accomplishments were great in number. On the top of the list was his work to build the current terminal at Walker Field Airport.

Bill's leadership abilities brought a number of wonderful things to the community of Grand Junction. When not serving the community in City Council, Bill could be found serving in a religious capacity, where he was Bishop for the Church of Jesus Christ and Latter-day Saints. Whether in church or in a council meeting, Bill always exemplified the qualities of a great leader and caring and generous human being.

Bill served his community, State, and Nation proudly. Though he is gone his memory will live on within all that knew him. Mr. Speaker, on behalf of the State of Colorado and the U.S. Congress, I would like to pay tribute to this great Coloradan.

TRIBUTE TO LIEUTENANT GENERAL RANDOLPH W. HOUSE, USA

### HON. IKE SKELTON

 $\quad \text{OF MISSOURI} \quad$ 

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. SKELTON. Mr. Speaker, let me take this means to pay tribute to Lieutenant General Randolph W. House upon his retirement from the United States Army.

General House has served our nation with honor and distinction for over 32 years, and his performance throughout his career has been characterized by the highest standards of professional ethics and commitment to soldiers. General House was commissioned a second lieutenant in 1968 upon completion of the Reserve Officers' Training Corps and graduation from Texas A&M University. During his military career, he completed the Infantry

Officer Basic and Advanced Courses, the United States Army Command and General Staff College, and the National War College.

General House's record of service is outstanding. Throughout his long and distinguished career, he has held numerous key command and staff positions, including the following: Helicopter Platoon Leader and Infantry Company Commander in South Vietnam; Armor Brigade Commander during Operation DESERT SHIELD/DESERT STORM: Division Commander of 1st Infantry Division; Senior Military Assistant to Secretary of Defense, Dr. William Perry; Commanding General, Eighth U.S. Army and Chief of Staff, United Nations Command/Combined Forces Command/U.S. Forces, South Korea; and Deputy Commander in Chief and Chief of Staff, U.S. Pacific Command.

His assignments include Deputy Chief of Staff, 5th Infantry Division (Mechanized), Fort Polk, Louisiana; Commander, 1st Battalion, 61st Infantry, 5th Infantry Division (Mechanized), Fort Polk, Louisiana; Chief, Force Planning Integration Team, War Plans Division, Office of the Deputy Chief of Staff for Operations and Plans, United States Army, Washington, DC. He has also held a variety of important command and staff positions to include Executive Assistant to the Vice Director and Director of the Joint Staff. The Joint Staff. Washington, DC; Commander, 2d Brigade, 1st Cavalry Division, Fort Hood, Texas and Saudi Arabia; Assistant Division Commander, 4th Infantry Division (Mechanized), Fort Carson, Colorado; Deputy Commandant, United States Army Command and General Staff College, Fort Leavenworth, Kansas: Commanding General, 1st Infantry Division (Mechanized), Fort Riley, Kansas; Senior Military Assistant to the Secretary of Defense. Office of the Secretary of Defense, Washington, DC; Assistant Chief of Staff for Installation Management, United States Army, Washington, DC; Commanding General, Eighth United States Army/Chief of Staff, United Nations Command/Combined Forces Command/United States Forces Korea. He culminated his career with his most recent duty as Deputy Commander in Chief/Chief of Staff, United States Pacific Command, Camp H.M. Smith. Hawaii.

General House was awarded the Silver Star during actions by his brigade of the 1st Cavalry against elements of the Iraqi Republican Guards during DESERT STORM and received twenty-two Air Medals as a young helicopter pilot in the Republic of Vietnam. His other military awards and decorations include the Defense Distinguished Service Medal (with 2 Oak Leaf Clusters), Distinguished Service Medal, the Defense Superior Service Medal, the Legion of Merit (with 2 Oak Leaf Clusters), the Distinguished Flying Cross (with 3 Oak Leaf Clusters), the Soldier's Medal, the Bronze Star Medal (with Oak Leaf Cluster), the Army Commendation Medal (with Oak Leaf Cluster), the Combat Infantryman Badge, and the Ranger

General House has positively impacted our Army and our Nation. His leadership, innovative ideas and operational knowledge left an indelible, mark on soldiers, family members, the units he commanded, the Department of the Army, the Department of Defense, and the American people. Through superb leadership

and the care and concern he demonstrated to soldiers and their families, he developed warfighters that accomplished every mission. During war, he led from the front, always by example, earning the respect and admiration of every soldier. During peacetime, he promoted sound political and military relationships among unified and combined forces and enhanced the quality of life of United States personnel and their families. General House also worked to produce improved relations with a large number of countries within the Asia-Pacific region and to improve crisis and contingency planning.

I would ask my colleagues to join me in wishing General House and his wife, Jeanie, all the best. We thank them for over 32 years of dedicated and unselfish service to the United States of America.

HONORING CHAIRMAN TOM BLILEY

### HON. JIM DeMINT

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. DEMINT. Mr. Speaker, I would like to take this opportunity to honor my colleague, Chairman BLILEY, for his faithful service in the U.S. House of Representatives. As his many years as a dedicated public servant in the House come to a close, I am sure he is looking back at the many accomplishments of his time here. I would like to highlight his activity in one specific area—adoption.

Chairman BLILEY, as the adoptive father of two and co-chairman of the Congressional Co-alition on Adoption, has championed adoption issues in Congress. Most recently he has worked to make sure pregnancy counselors are trained to provide complete and accurate information on adoption to women with unplanned pregnancies. He has also worked to increase the adoption tax credit to \$10,000 in relief for families dealing with the high cost of adopting children.

Adoption is a wonderful thing because it brings a positive, life-giving end to what could be difficult circumstances. The mother can place her child in a loving family, the child receives a warm and welcoming home, and an adoptive couple gets to wear one of the greatest titles in America—parent.

I applaud the chairman for his tireless efforts to help the birthparents, adopted children, and adoptive parents around this country. There are many children who have been blessed with parents and a loving home because of the work of Chairman BLILEY. I thank and salute him for all of his work and wish him well in retirement.

CONGRATULATIONS MAYOR EUGENE SIEGEL, VILLAGE OF CHICAGO RIDGE, 25 YEARS OF PUBLIC SERVICE

### HON. WILLIAM O. LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. LIPINSKI. Mr. Speaker, today I offer my congratulations to Mr. Eugene L. Siegel, a

### EXTENSIONS OF REMARKS

friend and colleague from the Third Congressional District of Illinois, whom recently celebrated 25 years in public service as the Mayor of Chicago Ridge, Illinois.

Mayor Siegel is a hardworking, devoted man. He is a long-time resident of Chicago. Gene and his late wife, Virginia, have four children, Gary, Janet, Andrew and Matthew, and four grandchildren, Steven, Bradley, Victoria and Alexandria. Gene became involved in politics in 1963, and since then, has been involved in public service on both the local and state levels.

Mayor Siegel has always maintained an open door for all of his family, friends, constituents, and employees. He began working in public service as the Deputy Coroner for Cook County Coroner's Office; a post he held for eight years. Throughout the 70's and 80's he served as the mayor of the Village of Chicago Ridge on a part-time basis. Then, in 1993, Gene was elected as the full-time mayor and has served in this capacity for the last seven years.

Mayor Siegel is a man for the people. As mayor, he has been actively involved with people of all ages throughout the community that he serves. For example, he was instrumental in the development of a Senior Citizen Center and the establishment of the Youth Service Bureau with a Youth Director to counsel families and their children.

As mayor, Gene has made remarkable economic, environmental and infrastructure improvements to the Village of Chicago Ridge. For example, he created a solvent tax base by implementing the development of both the Chicago Ridge Mall and the Commons of Chicago Ridge. He also was involved with the improvement of Ridgeland Avenue to establish commercial land use, the installation of an adequate water system with a two million gallon reservoir, and a plumbing station.

Mayor Siegel has been instrumental in bringing economic prosperity to the community. He has proven to be a true asset to his family, friends and community. I am proud to have Mayor Siegel as a colleague of mine in the district.

I wish to extend my heartiest congratulations to Mayor Siegel and his family as he celebrates 25 years in public service. This is a remarkable accomplishment and Mayor Siegel deserves great credit for the vast improvements and economic development that he has brought to the Village of Chicago Ridge. My best wishes to the Mayor and his family on this wonderful milestone.

IN MEMORY OF JUDGE BILL COATS

# HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. HALL of Texas. Mr. Speaker, it is an honor to pay tribute today to the late District Court Judge, W. E. "Bill" Coats, of Tyler, TX, who died in April of this year at the age of 76. Judge Coats served Smith County for 30 years as judge and district attorney. He had practiced law in Smith County since 1954.

He was elected the first Republican district attorney in Texas, serving from 1963 until 1967. He also served as judge of County Court at Law No. 2, from 1975–79, and served as 7th District Court Judge to complete his 30 years of service in Smith County. He also was appointed by the Tyler City Commission in 1968 to serve as Municipal Court Judge. Judge Coats was a Mason and Shriner and served in the Army Air Corps during World War II.

Survivors include a son, William Fred Coats of Tyler; daughters, Fonda Reeves of Tyler, Ardis Maxwell of Luling, and LeAnn Craven of Wills Point; a brother, James Coats of Whitehouse; 10 grandchildren and two greatgrandchildren.

Judge Coats brought dignity and honor to the courtroom—and in all that he accomplished. His distinguished career and contributions to the practice of law and the judiciary in Smith County will be long remembered, and I would like to take this opportunity to join his family, his friends, and his peers in paying our last respects to this respected District Court Judge, Bill Coats. As we adjourn today let us do so in his memory.

HONORING TILLIE BURGIN, EXECUTIVE DIRECTOR OF MISSION ARLINGTON/MISSION METROPLEX

# HON. MARTIN FROST

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. FROST. Mr. Speaker, today I wish to honor Tillie Burgin, executive director of Mission Arlington/Mission Metroplex. Mrs. Burgin was recently inducted into the Texas Women's Hall of Fame. Called the Mother Teresa of Arlington, Tillie Burgin works through Mission Arlington to provide the community's poor and underprivileged families food, clothing, shelter, counseling, childcare, healthcare, and a myriad of additional services.

Tillie Burgin originally founded Mission Arlington in August 1986 to fulfill her vision of "taking church to the community." Mrs. Burgin began with just two Bible study meetings in an apartment community. As Mission Arlington grew, however, so did Tillie's vision. The importance of meeting people's physical and emotional, as well as spiritual needs, became immediately apparent. The organization has since expanded to provide a number of social services to Arlington, bringing hope and opportunity to every person in the community.

I am proud of the work that Tillie Burgin and Mission Arlington do to strengthen the city of Arlington and its families. She has changed innumerable lives with her great energy and dedication. Texas is honored to be home to Tillie and her Mission. I cannot think of a more passionate, humble, or deserving woman to receive this honor. I salute her today.

TRIBUTE TO ST. CLEMENT CATHOLIC CHURCH

### HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. LEVIN. Mr. Speaker, I rise today to honor St. Clement Catholic Church in Center Line, Michigan as they celebrate 150 years of service to the Warren and Center Line communities with an anniversary mass on October 15, 2000.

Generation after generation has been blessed and served by St. Clement Catholic Church which has held a prominent place in their lives. Beginning in 1857, the Church has engaged in a series of reconstruction and expansion programs in order to accommodate the growing number of students.

Today, their present church is an outstanding edifice—adorned with stainglassed panes, a marble altar, and has a seating capacity, of 1600 parishioners.

St. Clement Catholic Church has benefitted from outstanding leadership, and the communities are most grateful to the service and dedication of members of the clergy, past and present. Education has been a priority and though there were periods of financial hardship, the students were always a priority.

Today, Father Ron Victor continues the tradition of caring and devotion to the communities of Center Line and Warren. I have thoroughly enjoyed attending many events at St. Clement including its traditional festivals and fish-fries. Over the years, it always has been a pleasure to meet and spend time with many parishioners of the church.

Mr. Speaker, I ask my colleagues to join me in congratulating St. Clement Catholic Church as they continue their mission of faith and service to the parish and broader community, and wish them continued success.

# HONORING SHERI ROCHFORD

### HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, I would like to take this moment to commend Sheri Rochford on her outstanding commitment to education at Fort Lewis College in Durango, Colorado. Sheri's contributions as Dean of Development have helped to foster the educational environment that Fort Lewis takes such great pride in. Her efforts deserve the praise of this body.

Sheri was born in Denver, Colorado, but her family soon made Durango her home. She attended school in Southern Colorado, graduating from Durango High School and then moving on to Fort Lewis College where she graduated in 1977 with a degree in business and history. Her graduate work was done at Lesley College in Cambridge, Massachusetts. After completing a master's degree in counseling, Sheri went on to do her doctorate with Harvard by attending classes on weekends and during summers in Farmington, New Mexico.

For the past five years, Sheri has been the Dean of Development at Fort Lewis College. After receiving her education, she joined the Fort Lewis College staff as a secretary for the sciences faculty. Her natural ability to lead and desire to succeed soon moved her up the ladder of advancement. Before becoming Dean, she served Fort Lewis College in the capacity of Director of Admissions.

Along with her duties at Fort Lewis, Sheri is also quite active in the community of Durango. She has served as president of the Durango Foundation for Educational Excellence and has been a long time supporter and member of the La Plata County Historical Society and the Animas Museum. Sheri has worked diligently for the community of Durango and Fort Lewis College. Her contributions have been great in number. As she continues to serve as Dean of Development, I wish her the very best. Sheri is one of our own in western Colorado and she has made us all very proud.

TRIBUTE TO FIREFIGHTER, ROBERT C. BRANNON, JR.

# HON. ROBERT E. WISE, JR.

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. WISE. Mr. Speaker, I rise today to honor the life of Robert C. Brannon, Jr., a fallen firefighter from Bluefield, West Virginia, who passed away at the age of 43 after suffering a heart attack while battling a house fire.

Robert C. Brannon, Jr. lived his life with integrity, dignity and honor. He was a man known for his service to his family, his church, and his community. As an alumnus of West Virginia University and Bluefield State University, he was well-educated and well-rounded and used his education in business and engineering to help people in need. Mr. Brannon served as lieutenant and fire inspector for the Bluefield Fire Department.

Although Mr. Brannon's life was cut short, he lived it to the fullest. Before serving over 20 years with the Bluefield Fire Department he enjoyed growing up in Bluefield, West Virginia. As a boy, he played little league, wrote for his high school newspaper and was on his high school basketball team. As an adult, Robert C. Brannon, Jr. not only gained the technical knowledge to create and design web pages but also was skilled as an electrician, carpenter, stoneworker and painter.

Known by his friends and family as Bob, he was a loyal friend, husband and father. Bob, along with his wife Cindy, showed love and guidance to their two sons Jonathan and Jeffrey. He and his family were also active in Christ Episcopal Church in Bluefield.

Mr. Speaker, I ask that this House please join me in recognizing and honoring the life of service and dedication of Robert C. Brannon, Jr., and commemorate his sacrifice of service as a Bluefield firefighter.

EIGHTIETH BIRTHDAY OF MARY LOUISE QUIGG CALDWELL PLUMER

### HON. ILEANA ROS-LEHTINEN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Ms. ROS-LEHTINEN. Mr. Speaker, I am proud to recognize one of my constituents and very dear friends, Mary Louise Quigg Caldwell Plumer, of Miami, Florida, who will be celebrating her 80th birthday on October 21, 2000.

Mary was born October 21, 1920 in Live Oak, Florida. Her parents moved to Miami when she was 6 years of age, where she was educated and graduated from Ponce de Leon High School in 1938. She served as editor of the school newspaper and was awarded the Woman's Club Cup as the "Most Outstanding Girl." Mary continued her education at the Florida State College for Women (FSCW), becoming a member of the Sophomore Council, the Cotillion Club and the Pi Beta Phi Sorority. She graduated from FSCW in 1940 and transferred to the University of North Carolina in Chapel Hill, where she was awarded the Valkyrie Cup as the Most Outstanding Coed of the University, graduating in 1942.

Moving to Atlanta, Georgia in 1942, she worked as the publicity director for radio station WSB. She returned to Miami and contributed to the War effort by working for the Red Cross as staff assistant to the Army Air Corps Redistribution Unit in Miami Beach, where she met her husband to be, Naval Lt. Commander Richard B. Plumer. He was graduated from Miami High School, Philips Exeter Academy and Princeton University (summa cum laude).

Mary raised four children (Richard, Penny, Christopher and Patience) and became actively involved in many worthwhile community projects. Among her accomplishments, she brilliantly led a committee to build the All Faith Chapel at Jackson Memorial Hospital in 1973, five years after her daughter, Penny, died there. She has had articles published in The Miami Herald and Reader's Digest. She was awarded the M.O.M. Cup in 2000 as the Most Outstanding Mother. She also earned a prestigious reference in Who's Who of American Women.

Mary's gracious manner and warm spirit has won the hearts of the people of Miami. She is admired and respected for her compassion and generosity to anyone who is fortunate to meet her. It is my sincere pleasure and great honor to join Mary's family and friends in wishing her a wonderful celebration and many more happy and healthy birthdays.

IN TRIBUTE TO THE HONORABLE WILLIAM H. AVERY

### HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. WOLF. Mr. Speaker, I want to add my congratulations to the many tributes recently given to the Honorable William H. Avery, a former member of this House and a former governor of the state of Kansas.

On September 29, the post office in Wakefield, Kansas, the hometown of Bill Avery, was renamed in his honor, and the town honored their native son by proclaiming the event the "William H. Avery Day."

I had the pleasure of working with Bill Avery at the Department of the Interior in the early 1970's after his distinguished 10-year career in Congress and as the 37th governor of Kansas. After receiving a degree from the University of Kansas in 1934, he went back to his hometown to work the family farm. He started his public service career on the local school board in his hometown, and from there was elected to the Kansas State House of Representatives before moving on to Congress and the Kansas statehouse.

Bill Avery is a man of honor and integrity who has devoted his life to serving the public. He continues to reside in Wakefield today, and it's a fitting tribute to this fine gentleman that the people of his hometown have recognized his service to their community by renaming their post office in his honor. I join in saluting The Honorable William H. Avery.

#### HONORING MILES KARA

### HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, it is with immense sadness that I take this moment to celebrate the life of Miles Kara of Grand Junction, Colorado. Miles recently passed away in his home at the age of 84. Miles lived a life full of love and happiness and his legacy will long endure. As family, friends, and colleagues mourn this immense loss, I would like to take this time to pay tribute to a truly compassionate and wonderful human being.

Miles was born and raised on the western slope of Colorado, and would eventually raise his children there as well. Graduating from Fruitvale High School and Grand Junction Junior College, he went on to earn a Bachelor's Degree from the University of Colorado in 1937. Upon graduation, he taught at Appleton High School for a few years and then met his patriotic duty by serving his country in the United States Air Force during WWII. After returning a proud veteran, he enrolled in Westminster Law School, graduating with a law degree in 1948.

His educational background easily prepared Miles for the many career choices he would make during his service to the people of the Grand Valley. After moving back to his childhood home, Miles practiced law for a number of years before working with a number of different organizations, all serving the Grand Junction community admirably. He began his service to his community as Mesa County Judge and moved on to work for US Bank as Senior Vice President and a Trust Officer. But Miles is best known for his work in education, where he served as President of the District 51 Board of Education and as Executive Director the Mesa State College Foundation.

Miles worked hard to ensure that Grand Valley's youth were receiving the best education possible. His devotion to his community was not only demonstrated by his work in education but also as a dedicated 33rd Degree Scottish Rite Mason. For Miles helping others was second nature. In a recent article in The Grand Junction Daily Sentinel by Rachel Sauer, his daughter Nancy best summed up her father in her own words: "you always love your family and take care of them first thing. And that people in trouble who need a hand should have one. If you could help someone you should help them. It's your responsibility as a human being."

Miles lived his entire life devoted to his family but always made time for others. It didn't matter the time of day; he was always there to lend a helping hand. Miles showed his love for his family and his fellow humans in his every action. His commitment to public service has changed the lives of many. Miles was a loving and cherished member of our community and he will be greatly missed.

Although he may be gone his memory will live on within the hearts of all that knew him. Clearly, America is better off for having known Miles Kara.

HONORING THE NASHVILLE SYMPHONY ORCHESTRA ON THE OCCASION OF ITS HISTORIC PERFORMANCE AT CARNEGIE HALL IN NEW YORK CITY

## HON. BOB CLEMENT

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. CLEMENT. Mr. Speaker, I rise today to honor the Nashville Symphony on the occasion of its historic first performance at Carnegie Hall in New York City. In particular, I would like to recognize the outstanding efforts of Executive Director Alan D. Valentine and his staff, conductor Kenneth Schermerhorn, Associate Conductor Karen Lynne Deal, and the Board of Directors including Symphony Campaign 2000 Chairman Martha Ingram. Although every person involved played a role in this effort, these individuals in particular gave of their time and energy to ensure the symphony would have the opportunity to shine in the national spotlight.

On September 25th the Nashville Symphony culminated an East Coast tour by performing for the first time at Carnegie Hall in New York City. Well over a thousand Middle Tennesseans attended the sold-out show including Mayor Bill Purcell, my wife Mary, and me. The stunning performance garnered rave reviews from the New York Times and the Tennessean proving to the nation what Nashville has known for years about the symphony's excellence in artistry and skill.

Now in its 55th season, the Nashville Symphony has entertained and educated thousands of individuals at performances across the nation. At home, the symphony has earned the respect of our community through years of perseverance through its varied history. With the assistance and commitment of individuals like Martha Ingram, the Nashville Symphony has graciously survived, and today boasts a roster of eighty-seven contracted musicians. In fact the group just released the new

compact discs, "Howard Hanson: Orchestral Works Volume I," and "Charles Ives: Symphony No. 2," on the Naxos label to coincide with their Carnegie Hall debut.

The symphony is the largest performing arts organization in Tennessee, and regularly partners with the community and area schools to educate the public about symphonic music and classical music. Studies have shown that exposing children to music at a young age increases their ability to learn and retain information. In fact, my two daughters, Elizabeth and Rachel began playing the violin at the age of five. Both have benefited tremendously from their exposure to symphonic and classical music.

In the same way, each young person should have the opportunity to enjoy and participate in the arts. The symphony plays a vital role in educating young people in our area by offering a number of educational opportunities such as Ensembles in the Schools; Martin Luther King Jr. Essay Contest; String and Band Bash; AmSouth Classroom Classics; and Young People's Concerts at War Memorial Auditorium. The symphony reaches 80,000 children in Middle Tennessee each year. This commitment to exposing future generations to the arts is to be commended.

The history of the symphony dates back to 1920 when a group of Nashville musicians formed the "Symphony Society" with its own orchestra and roster. Unfortunately that group fell to the wayside during the Great Depression. However, the cause was taken up again after World War II, when Nashville native and war veteran Walter Sharp returned home from the war on a mission to form a symphony orchestra in his hometown. Sharp succeeded and gained the support of the community when he founded the Nashville Symphony Orchestra.

Today the Nashville Symphony performs more than 200 shows per year. Many of these performances are in conjunction with other area arts organizations such as Nashville Ballet, Nashville Opera, Nashville Institute for the Arts, and Tennessee Performing Arts Center. In addition the symphony has performed with Luciano Pavarotti, Charlotte Church, Amy Grant, Vince Gill, and many other internationally renowned artists.

With an exceptional donor base and strong community support, the Nashville Symphony stands on a strong foundation to entertain and enlighten new generations in the 21st Century and beyond.

"A TRIBUTE TO ERNIE ARMSTEAD, TOP SENIOR VOLUNTEER"

# HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

 $Thursday,\ October\ 12,\ 2000$ 

Mr. LEWIS of California. Mr. Speaker, senior citizens across the country are setting an example for all of us of the value and virtue of volunteerism, but Ernie Armstead of San Bernardino is a standout even among these hard-working civic champions. The senior volunteers and those who work with them in San Bernardino County, who know the hard work

of Ernie Armstead, were delighted this year when he was one of five recipients of the prestigious National Community Spirit Award from the American Association of Retired Persons.

Mr. Armstead, who is retired from the Air Force and the U.S. Postal Service, has for the past six years been organizing programs to educate the senior population about everything from Medicare to legislative issues to how to get help with tax preparation. He now serves as community relations coordinator for 36 area AARP chapters, and has been a member of the County Senior Citizens Affairs Commission since 1995. He is chairman of the commission's Senior Housing Subcommittee, and as liaison between the commission and AARP.

Among his accomplishments, Mr. Armstead created an innovative program in my hometown of Redlands known as Dinner and Dialogue, which brings together people in their 50s and 60s for a meal and discussion of issues that concern them. The popular dinners have brought in speakers from around the county to discuss senior programs and answer questions. It is one of many examples of opportunities Mr. Armstead seeks for seniors to create and expand networks across political, ethnic and age groups.

Mr. Speaker, all of the people of San Bernardino County benefit from the hard work by exemplary senior volunteers like Ernie Annstead. I ask you and my colleagues to join me in congratulating him on being honored with the National Community Spirit Award, and wish him well in his continuing volunteer work in our county.

A TRIBUTE TO SAINT JOSEPH PARISH ON THEIR 150TH ANNI-VERSARY

## HON. JAMES A. BARCIA

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. BARCIA. Mr. Speaker, I rise today to sing praise for Saint Joseph's Parish in my hometown of Bay City, Michigan as they celebrate their 150th anniversary. The church has been the spiritual beacon of a fine neighborhood and, indeed, of the entire community.

Since the middle of the 19th Century, the church has stood as the centerpiece of the city's Northeast Side, drawing family and friends into the light of Christian love and charity.

The congregation's commitment to the community remains as strong today as it was when Father Kindekens first suggested in the late 1840s that Catholic settlers build a church in which he and visiting priests could minister to the needs of parishioners. By 1850, work began on the first Catholic church in the Saginaw Valley—Saint Joseph's.

In the beginning, just 20 families formed the foundation of the church. Six years later, the burgeoning parish counted about 2,000 members on its rolls and by 1868 that number had more than tripled. As the years went by, the church expanded to include additional buildings and educational facilities.

The church's mission remains unchanged today as leaders continue to offer strong spiritual and academic training to the neighborhood's families and many beyond its environs. In fact, the church holds a special place in my heart because it is the home parish of my wife, Vicki, who received her religious and early educational guidance under the tutelage of St. Joseph's clergy, nuns, teachers and parishioners.

Those who live in the shadow of St. Joseph's and those who have been touched by its influence cannot help but smell the sweetness of an angel's breath at their side and feel the hand of God on their shoulder.

### HONORING RUTH BEASLEY

# HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, it is with great sadness that I take this moment to celebrate the life of Ruth Beasley of Gypsum, Colorado. Ruth spent nearly a third of her life giving back to the community in which she was raised and her contributions are immeasurable. As family and friends mourn her passing, I would like to pay tribute to this fine woman.

Ruth was born and raised in Gypsum and spent her entire life in the Eagle Valley. Her fondest memories of her younger years include her first trip to Denver to compete in a spelling contest as well as competing on her high school debate team. Her studies were always very important to her and this earned her the honor of valedictorian at her high school graduation.

It was not her achievements in her younger years that Ruth will be remembered for, rather it was her work for the communities of Gypsum and Eagle that will forever keep her name alive. For over three decades Ruth worked with the Eagle County Social Services helping citizens of her community overcome great challenges in their lives. She is also known for her dedication to the American Legion Auxiliary and her work with the Eagle County Historical Society Museum.

Ruth Beasley was very committed to her community. Her dedication and compassion for her fellow human beings will not soon be forgotten and will live on in the hearts of all that knew her. She was a loving person and she touched the hearts of all that she came in contact with. She will be greatly missed.

IN HONOR OF PEACE WEEK IN SANTA MARIA, CALIFORNIA

# HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mrs. CAPPS. Mr. Speaker, as this session of Congress races to a close, we often lose sight of some of the wonderful things happening at home in our communities, and this is especially true when Washington, D.C. is

consumed by political battles. That is why I rise today to commend the remarkable city of Santa Maria, California, which I am very proud to represent, for its fourth annual Peace Week.

Mr. Speaker, two years ago, I stood on the House floor to congratulate Santa Maria on being named one of 10 All-America Cities. This high honor was justly granted to a city that has distinguished itself by its diversity and the fact that all the residents of Santa Maria work together to find innovative ways to solve their problems.

One glowing example of this community cohesiveness is Peace Week, which will begin tomorrow, October 13. The goal of Peace Week is to stress nonviolence and conflict mediation. Each day brings a focus on a new topic and allows community members of all ages and cultures to discover ways they can make a difference in their own lives and in the lives of their neighbors.

Examples of daily Peace Week activities include a candlelight march, nonviolence education, and children's friendship games. Participants will enjoy a free community breakfast on "Community Peacemaker Day" and a keynote address given by Clayton Barbeau. There will also be stress relief through massage and Reiki therapists, a workshop on healing racism, and an Ecumenical Musical Reflective Peace Service.

Mr. Speaker, Peace Week is the product of an entire city and its enlightened leadership. I want to pay special tribute to my friend, Sister Janet Corcoran of Marian Medical Center Mission Services, for her remarkable dedication and tireless work on behalf of her community and the precious cause of peace. She is a role model for me and a role model for us all.

THE ANNIVERSARY OF THE ENACTMENT OF THE STAGGERS ACT

# HON. BUD SHUSTER

Thursday, October 12, 2000

Mr. SHUSTER. Mr. Speaker, twenty years ago, on October 14, 1980, President Jimmy Carter signed the Staggers Rail Act of 1980 into law. This landmark legislation transformed the nation's freight railroad industry from a state of physical deterioration and widespread bankruptcy to the modern system we have today that is the envy of the world.

In the 1970s, after years of federal regulation that did not allow the railroad industry to compete effectively with other modes of transportation, the railroads were in severe decline. Twenty percent of railroad mileage was being operated in bankruptcy. Capital investment was not being made. Infrastructure suffered from deferred maintenance, and accidents were on the rise.

The Staggers Act partially deregulated the railroads and freed them to operate in the free market system like other industries. It allowed the railroads to make their own business decisions, to establish their own routes, to set rates based on market demand and to invest in new technologies and infrastructure.

Our nation's economy has benefited enormously from the Staggers Act. Lower railroad rates mean consumers pay less for the goods they buy. Railroad customers have more money to invest in their own businesses. Fewer accidents mean a safer working environment for railroad employees.

Mr. Speaker, twenty years ago the enactment of the Staggers Act set the stage for the renewal of the railroad industry and today our nation's economy continues to benefit from this important law.

IN RECOGNITION OF FRANK DAVIS' PARTICIPATION IN THE ESTABLISHMENT OF THE OVER 60 HEALTH CENTER, BERKELEY, CALIFORNIA

### HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Ms. LEE. Mr. Speaker, I recognize the participation of Berkeley activist and realtor Frank Davis in the establishment of the Over 60 Health Center in Berkeley, California.

Mr. Davis has been a resident of Berkeley for over 50 years and owned the property where the Over 60 Clinic now calls home. While Mr. Davis had many offers to sell his property at a larger profit, he rejected those offers to sell until he was moved by the idea and challenge of a combination senior housing and health care project. Mr. Davis sold his property to the Over 60 Building Project, which ultimately helped create this unique facility that combines a health clinic downstairs with affordable housing for seniors upstairs.

The Over 60 Building is a unique collaboration of three local non-profit organizations. Over 60, a division of LifeLong Medical Care, is the oldest community health center serving seniors in the United States; the Center for Elders Independence is one of 13 nationally-aclaimed "Programs of All-Inclusive Care for the Elderly" (PACE); and Resources for Community Development is a developer of low-income housing in Alameda County. This partnership offers medical and community-based long term care services for low-income elders while allowing them to remain independent, socially active and live in the same community throughout their life span.

Mr. Davis is a native of Mississippi who came to California to "seek a better quality of life and to get away from discrimination." He is the current Chair of the Black Property Owners Association, President of the Tyler King Neighborhood Association, and remains active in helping to improve the quality of life for South Berkeley.

The Over 60 Building is truly an innovative model of care for seniors, quickly becoming a source of civic pride and a valuable resource for the citizens of Berkeley. I applaud the vision that Mr. Davis had to sell his property to this important project despite personal financial gains had he sold to for-profit developers.

HONORING SUSAN LOHR-

### HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, I would like to take this moment to congratulate Susan Lohr, on her recent award. Susan is one of two recipients of the Cranmer Award, sponsored by Colorado Open Lands. Susan is the co-founder of Gunnison Ranchland Conservation Legacy, an organization that works to preserve family-owned ranchland in southern Colorado. Together with ranchers and community leaders the organization is attempting to preserve and protect over 20,000 acres of land.

Susan is no stranger when it comes to conserving farm and ranchland. She is currently president of a private land conservation consulting firm, Lohr Associates. She also recently retired as Director of the Rocky Mountain Biological Laboratory, where she worked for over a decade. Susan serves the Legacy in the capacity of Founding Director and Board Member Secretary/Treasurer.

Susan has worked very hard to ensure that family ranchlands are protected throughout southern Colorado. This dedication has helped a great number of people preserve thousands of acres of land and for that she deserves the recognition of this body. Mr. Speaker, on behalf of the State of Colorado and the US Congress I congratulate Susan on this prestigious and well-deserved award.

Congratulations!

FLAWED ELECTIONS IN BELARUS

# HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. SMITH of New Jersey. Mr. Speaker, this Sunday, October 15th, Belarus will hold parliamentary elections. Based on the run-up to the elections, the possibility of free and fair elections simply does not exist. Belarusian strongman Alyaksandr Lukashenka—who illegally extended his own term in office—is once again attempting to dupe the international community into believing that there are viable electoral processes in today's Belarus. The reality is different.

The Lukashenka regime has not met any of the four conditions that the Organization for Security and Cooperation in Europe set back last spring-namely, a democratic election law, an end to human rights abuses, access by the opposition to the state media, and genuine powers granted to the parliament. As a result, on August 30, the OSCE and other institutions decided not to send a full-fledged international observation team to Belarus. This decision could have been revisited if the situation in Belarus had improved. However, since August 30, the Lukashenka regime has denied registration to many opposition candidates on highly questionable grounds; detained, fined, or beaten over 100 individuals advocating a boycott of the elections; burglarized the headquarters of an opposition party; and confiscated 100,000 copies of an independent newspaper. My friend, opposition leader Anatoly Lebedka was physically assaulted during a commemoration of the one-year anniversary of the disappearance of opposition leader Viktor Gonchar and his associate Anatoly Krasovsky. I might add that another leader of the opposition, former Interior Minister Yuri Zakharenka, remains missing after having disappeared 17 months ago, and two leading opposition members, Andrei Klimov and Vladimir Koudinov, remain imprisoned on politically motivated charges.

Mr. Speaker, governmental interference in the election process appears to be rampant. There are reports that regional and local government executive committees have been threatened to ensure that government supported candidates will be elected. The reqistration process also showed strong signs of arbitrariness, with the rejection of a large percentage of candidates, especially opposition candidates. According to today's Radio Free Europe-Radio Liberty East-Central Europe Report, Belarusian authorities-in an attempt to counter the opposition's call for an election boycott-have begun urging early voting and even threatening reprisals if voters fail to go to the polls. Furthermore, in Brest, the government-controlled local press is publishing election materials devoted solely to one candidate. All of these and other incidents, Mr. Speaker, have contributed to an atmosphere highly obtrusive to free and fair elections.

Given the pre-election atmosphere, the international community will be hard-pressed to recognize the new parliament, which succeeds the old, Lukashenka hand-picked parliament that was not recognized by the OSCE Parliamentary Assembly and much of the international community. Moreover, the current election environment does not in any way inspire confidence that the presidential elections scheduled for next year will be democratic. Mr. Lukashenka would do well to keep in mind that, with the fall of Slobodan Milosevic, he becomes increasingly isolated as Europe's sole remaining dictator.

HONORING MR. JOHN HERNANDEZ

# HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Ms. GRANGER. Mr. Speaker, I rise today to pay tribute to John Hernandez, one of Fort Worth, Texas' finest sons, in honor of his receiving the Ohtli Award from the Mexican Ministry of Foreign Affairs for his lifetime service to the Hispanic community. There is no person more deserving than John Hernandez.

The Ohtli Award recognizes individuals of Mexican descent who live outside of Mexico who have dedicated the better part of their lives to "opening up new paths" to make it easier for future generations to follow in their footsteps. Mr. Hernandez has done this and much more for the Hispanic community of Fort Worth

Born in Fort Worth in 1931, Mr. Hernandez graduated from Laneri Catholic High School in 1951. Six years later, in 1957, he married his wonderful wife, Jeanette. Together, they have dedicated their lives to faith, family, and community.

Mr. Hernandez has tirelessly served Fort Worth's Hispanic community. He is a Board member of the Fort Worth Hispanic Chamber of Commerce and served as its Chair from 1991-1992. Mr. Hernandez currently serves as the Chair of the North Texas Unity Council of La Raza and as a Board member and Second Vice Chair of the Red Cross. He is a member of the University of North Texas School of Community Service's Board. Mr. Hernandez also serves as a member of the Board of Trustees for the Catholic Diocese of Fort Worth and a Council Member at All Saints Catholic Church. As a Scout Master and Executive Board member of the Longhorn Council, he has been actively involved with the Boy Scouts of America for almost two decades. These are just several examples of his invaluable contributions to our community.

Paving the way for others to follow, Mr. Hernandez has helped tear down the walls of discrimination. He has always been a crusader for the betterment of the Hispanic community, never seeking the glory for himself, but instead for those around him. Our community is stronger for his presence and forever blessed for his dedication and devotion.

I would like to congratulate Mr. Hernandez, his wife of 42 years, Jeanette, his eight children, and fifteen grandchildren and wish them all continued happiness and success in their endeavors.

Mr. Speaker, Mr. Hernandez embodies the spirit of community responsibility we all strive towards. His life's work makes America a better place to live in every day.

CONGRATULATING JUDGE ROMAN S. GRIBBS UPON RETIREMENT

### HON. FRED UPTON

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. UPTON. Mr. Speaker, I rise today to mark the end of an era in the government of my home state of Michigan. With the retirement of Judge Roman S. Gribbs, the people of Michigan are losing more that just a Judge, they are losing a man who has dedicated his life to serving the people. His dedication and work over the years for the people of Michigan has been truly admirable and aspiring to many.

With over 45 years of service to his community, Judge Gribbs has left his mark on a countless number of lives. This loving husband and father of five children, began his career as professor at the University of Detroit in 1954. His distinguished career included many different positions within the legal profession. His jobs ranged from Assistant Prosecutor to Sheriff of Wayne County by 1969. He was elected Mayor of the city of Detroit serving from 1970–1974, during which he was elected as the President of the National League of Cities

In the 25 years since he left the Mayor's office, Judge Gribbs has dutifully served the citizens of Michigan, first on the Third Judicial Court and then on the Court of Appeals. His service throughout his life is a testament to the man that he is, a compassionate, committed worker for the people. Such a public servant is one that the people should treasure and feel fortunate to have in our democracy.

The state of Michigan and our country have been beneficiaries of the generous and outstanding service provided by Judge Roman S. Gribbs. It is my great pleasure to honor him today, and to wish him a happy, healthy and productive retirement.

#### HONORING BILL TRAMPE

### HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, I would like to take this moment to recognize Bill Trampe on his recent award. Bill is one of two recipients of the Cranmer Award, presented by Colorado Open Lands. He was selected by the Board of Directors for his work with an organization he helped to co-found, which works to preserve family owned ranchlands throughout the Gunnison Basin.

Bill co-founded the Gunnison Ranchland Conservation Legacy in order to help maintain a tradition that has long inhabited Colorado. This organization is made up of ranchers and community leaders aiming to protect and preserve over 20,000 acres of ranchland that is family-owned in southern Colorado. Bill is a third generation rancher and this organization holds a place dear to his heart.

Bill's dedication to preserving land for ranchers is quite evident in his past work with a number of different organizations. Bill is an advisor to the Colorado State University Mountain Meadows Research Station, a member of the Board of Directors of the Colorado River District and has served as member and President of the Board of Directors of the Upper Gunnison Water Conservancy District for nearly two decades. While his civic duties were great in number, he also found time to manage his family ranch, Trampe Ranches.

Bill has worked very hard to assist the ranchers and farmers of southern Colorado and ensure that their ranchland will be protected. Bill's dedication and hard work for his community has earned him the admiration of this body. On behalf of the State of Colorado and the US Congress I congratulate Bill on this prestigious and well-deserved award. Congratulations!

HONORING MIKE QUERING FROM THE SIXTH DISTRICT OF COLORADO

### HON. THOMAS G. TANCREDO

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. TANCREDO. Mr. Speaker, today I honor a constituent of mine from the Sixth Congressional District of Colorado, Mike Quering, and join others throughout the state

of Colorado in recognizing the efforts of the Eighth Air Force and proclaim every October 8–14 as Mighty Eighth Air Force Week.

Mike is a member of the Eighth Air Force, which was formed and dispatched to England in 1942 to become the largest military unit in World War II, and the largest bomber force of all time. Over 350,000 airmen served in Europe and the Eighth Air Force has continued as an operational combat unit to this day with over one million serving our country in war and in peace.

In the one week period between October 8–14, 1943, the Eighth Air Force lost over 100 Heavy Bombers to enemy action over the skies of Europe, and despite heavy losses, many feel that this was the turning point for daylight strategic bombing. Targets during the week were as follows: on October 8th, over Bremen, Germany, the force lost 14 bombers and 3 fighters; on October 9th, over Anklam, Germany, they lost 6 bombers; on October 10th, over Munster, Germany, the Eighth Air Force lost 30 bombers and 1 fighter; and on October 14th, over Schweinfurt, Germany, the force lost 60 bombers and 1 fighter.

I think it is important, at this time, to point out that no Mighty Eighth mission was ever turned back due to enemy action—at a cost of 26,000 killed in action and over 28,000 taken as prisoners of war. The number of missing in action and wounded have even today not been counted.

The Eighth Air Force Historical Society, the largest single military unit veterans group in history, holds its annual reunions in the month of October and today 20,000 Eighth Air Force Historical Society members are seeking to inform future generations of the contribution and sacrifice made by their generation to perpetuate America's freedom and way of life.

The Mighty Eighth stands as proof to America and the rest of the world of the sacrifices that our World War II veterans made to ensure that freedom and democracy survive and flourish around the world.

And so, as many proud veterans do every year during the week of October 8–14, I rise to proclaim this week of October 8–14 as Mighty Eighth Air Force Week. I would also ask every Eighth Air Force veteran and friend of the Eighth to wear and display items identifying them with The Mighty Eighth to honor and remember their comrades and especially those who made the supreme sacrifice.

HONORING NATIONAL DAY FOR THE REPUBLIC OF CHINA ON TAIWAN

# HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. HUNTER. Mr. Speaker, Tuesday, October 10th, marked the National Day in the Republic of China on Taiwan. The so-called "Double 10"—the tenth day of the tenth month—commemorates the founding of the Republic of China on October 10. 1911.

This "Double 10" observance in Taiwan this year is cause for both celebration and sobriety. The reason for celebration is obvious. As

every Member knows, Taiwan once again conducted a national election, this past March. Chen Shui-bian, the former mayor of Taipei and a veteran of the pro-democracy campaign in the 1980's, was elected president.

As the reins of government were transferred from one party to another, the final phase of Taiwan's democratic transformation was completed. And a remarkable transformation it has been over the past decade—a renegotiation of the "social contract" that was conducted without the kinds of chaos and confrontation that have attended such sweeping political changes in some other countries.

There are many heroes in the democratization of Taiwan. President Chen, for one; and, his predecessor in the presidential office, Lee Teng-hui, for another. The 22 million people of Taiwan, who have taken so readily to democracy and have participated so enthusiastically in the whole electoral process, are also heroes

So on the occasion of this year's "Double 10," all of Taiwan and its many American friends can join in a celebration of democracy and in a renewed commitment to the principles of a free society and a free market economy that have proved so successful in Taiwan, the United States, and many other countries.

But, Mr. Speaker, this is also a time for sobriety. The past seven-and-a-half years have witnessed a fundamental shift in U.S. policy toward Asia. Without the benefit of a thorough strategic analysis or an informed national debate, there has been a concerted attempt to redirect U.S. policy into a China-centric focus at the expense of our other traditional allies.

The perception in international circles that Taiwan has been stigmatized as the "problem" in U.S./China relations was most dramatically reinforced during President Clinton's trip in July 1998 to the People's Republic of China, during which he implicitly endorsed the P.R.C.'s interpretation of the "One China" doctrine.

Concurrent with the ill wind from Washington has been the rapid and provocative buildup of forces in the P.R.C.'s People's Liberation Army. A member of Representative ROHRABACHER's staff, Al Santoli, traveled to the region during August and filed a report that was published by the American Foreign Policy Council. Among Mr. Santoli's key findings:

The PLA's modernization and joint war fighting capabilities are developing at a rate far more rapidly than the Pentagon's previous predictions. The Nanjing Region exercises have showcased the PLA's new high-tech capabilities, based on U.S. military tactics with information technology and weapons systems purchased or stolen from the U.S., Russia, and Israel.

During ongoing large-scale military exercises, China has demonstrated significant new joint-service war fighting skills "under high-tech conditions" that are steadily altering the balance of power in the Taiwan Strait... The PLA's doctrine of "asymmetrical" warfare emphasizes paralyzing the high-tech strength of the U.S. and our allies, through attacks on military, economic, and governmental computerized information systems

Mr. Speaker, there is much more that could be said. I will leave it simply at this: No one can predict with certainty when the hour of maximum danger will come, but it is entirely possible—if present trends are permitted to continue much longer—that the candidate we elect as President next month will be the man who will eventually be confronted with a choice between defending Taiwan and its democracy or appeasing Beijing and thereby sacrificing U.S. strategic interests in Asia for generations to come.

So during this year's observance of "Double 10," let us celebrate what has been achieved in Taiwan—the victory of democracy and the blessings of a free society. Let us also be resolved to do whatever is necessary to protect Taiwan and to preserve its way of life. In standing by Taiwan, we are also standing up for ourselves.

HONORING DR. MURRAY PRITCHARD OF WEST PLAINS, MISSOURI

### HON. JO ANN EMERSON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mrs. EMERSON. Mr. Speaker, today I congratulate a very special man, Dr. Murray Pritchard of West Plains, Missouri. Dr. Pritchard was recently named Outstanding VA Health Care Provider of the Year at the Veterans of Foreign Wars National Convention held in Las Vegas, Nevada. I am very pleased to honor the distinguished career of Dr. Pritchard and all the contributions he has made to veterans in Southeast Missouri.

Dr. Pritchard served this country in the Army during World War II. He was captured in North Africa in February 1943, and spent two years in a prisoner of war camp in Germany. When Dr. Pritchard returned from the war, he went to medical school and became a doctor of osteopathy while also completing a masters degree in public health administration. After several years in private practice, our community was lucky to have him join the staff of the John J. Pershing VA Medical Center in Poplar Bluff in 1973. Dr. Pritchard worked in the outpatient department until he retired in 1985.

But retirement didn't last very long. Soon Dr. Pritchard helped lead the innovative process of starting the VA Mobile Clinic program. Many veterans in rural America live 100 miles or more from the closest VA medical center. Traveling to see a doctor, to get a check up, or even to get necessary prescription drugs is a hardship to these men and women. But Dr. Pritchard and the folks at the Poplar Bluff VA wouldn't let distance stop them from giving top-notch care to veterans. If the vets couldn't go to the clinic, Dr. Pritchard made sure the hospital would come to them. On the road about 4 days a week, Dr. Pritchard and his wife make sure that no veteran is left without the necessary, quality health care they deserve and were promised.

Dr. Pritchard not only serves the veterans of Southeast Missouri, but he also is concerned with the well being and health of all Americans. When Hurricane Andrew hit southern Florida, Dr. Pritchard headed up a team of health care professionals who took their mobile clinic to help treat the victims of the hurri-

cane. His team helped ease the suffering of about 150 hurricane victims a day in Florida. And if that isn't enough, Dr. Pritchard has

many other notable accomplishments such as: holding the post of past commander of the Missouri Association of Former POW's, serving as president of the Missouri Society of American College of General Practitioners in Osteopathic Medicine and Surgery, and as past president of the Association of Military

Dr. Pritchard is a dedicated doctor, and a kind and generous human being who answers the call of service to his fellow man.

Osteopathic Surgeons.

Mr. Speaker, Dr. Murray Pritchard is more than worthy of receiving the honor of Outstanding VA Health Care Provider, and I hope that all of my colleagues will join me today in recognizing this truly remarkable man.

## HONORING ORLYN BELL

### HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, I would like to take this moment to honor a remarkable human being, Orlyn Bell. For over three decades Orlyn has fought hard to ensure that the water of western Colorado is being distributed correctly and fairly. Orlyn is retiring as the Division 5 water engineer, a position he has held in Glenwood Springs for just over 17 years. As Orlyn moves on to bigger and better things, I would like to take this opportunity to commend him on his service to the western slope of Colorado.

Orlyn began his career in engineering as far back as 1965 where his summer job had him measuring the flow of a major flood of the South Platte River after it hit Denver. His work during this traumatic time earned him not only a citation from the Governor, but also sparked an interest that would soon become the focus of his professional career. In 1968 he graduated from the University of Denver, with a degree in civil engineering. After spending a few years working for the Washington Highway Department he moved back to Colorado where he began his legendary career in the state engineer's office.

For almost two decades now, Orlyn has been one of seven engineers in charge of the seven different major river basins. The area in which he has represented is vast in size and the demand for water is much larger than the actual supply. This large area spans from the Continental Divide in central Colorado all the way through the Grand Valley on to the Utah border.

The battle for water in Colorado is one that has sparked a great deal of controversy over the years, but Orlyn was able to manage these issues fairly and earn the respect of both eastern and western Colorado. Orlyn's contribution to the citizens and farmers of western Colorado is immeasurable. Orlyn you have served your community, State and Nation proudly and I wish you the best in your future endeavors.

TEACHERS' APPRECIATION DAY

### HON. ROBERT A. UNDERWOOD

OF GUAM

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. UNDERWOOD. Mr. Speaker, a proclamation signed by Acting-Governor Madeleine Bordallo on September 1, 2000, designated the month of September as "Teacher's Recognition Month." Three years ago, the Guam Legislature designated September 28th as "Teachers' Appreciation Day" in order to pay tribute and acknowledge the important role played by teachers on the island of Guam.

Intended to coincide with the birthday of the Chinese philosopher, Confucius, the monthlong celebration was set aside to honor those who have dedicated themselves to the teaching profession. Regarded as one of the world's greatest philosophers and teachers, Confucius has been given credit for the development of public education. Hence, for the past three years, the Confucius Society of Guam, under the leadership of its president, Robert Kao, has worked towards raising the community's awareness regarding the importance of teachers to every community.

In this year's events, the island of Guam chose to celebrate the legacy of its teachers by honoring current teachers whose families include generations of classroom teachers among its members. Among those honored are Phyliss L. Leon Guerrero, Debra R. Mariano, and my very own daughter, Sophia R. Underwood.

Phyliss, who is from George Washington High School in Mangilao, has been a teacher for eight years who has four generations of teachers in her family. Her great-grandmother, Asuncion Martinez Cruz, taught at a school run by the Spaniards in the 1890's. Her grandmother, Vicenta S.A. Leon Guerrero, taught in schools established by the Americans from 1922 until 1962. She is the daughter of Virginia Artero Leon Guerrero, an elementary school teacher who taught for 14 years, and Wilfred Leon Guerrero, the former president of the University of Guam.

Debra, a four-year veteran, teaches at Agueda Johnston Middle School. Her grandfather, Cayetano A. Quinata, served as a teacher and principal at several elementary schools for a period of 39 years. Her grandfather, Alejo L.G. Quinata, taught under the Japanese during the occupation of Guam during World War II. Her mother, Mary Q. Mariano, taught at P.C. Lujan Elementary, Price Elementary and the Guam Community College.

My daughter, Sophia, has been teaching for more than five years. She also comes from a long and solid line of teachers. My grandfather, James H. Underwood, taught English at night school soon after the Americans took possession of Guam in 1898. He taught until 1905. My parents, John and Esther, as well as my wife, Lorraine, and I have been teachers.

Mr. Speaker, public officials, such as ourselves, do not officially gain the title "Honorable" until the constituents we serve grant us their mandate through our election. It was not until 1992 that the title was granted to me. However, I firmly believe that I, together with

my colleagues in the field of education, have earned the title long before-by having been a teacher, a member of a most honorable pro-

Over the years, teachers have insured a bright future through the education of our vouth. Teachers have been willing to share their knowledge and adjust to meet the needs of students. In our present society where the family unit is under constant exposure to external and internal conflicts and pressures, we look toward our teachers to be role models who play a vital role in the development of every child placed under their supervision. On Teachers' Recognition Month and, especially, on Teachers' Appreciation Day, I commend and congratulate my esteemed colleagues in the field of education, the teachers of Guam.

### PIPELINE SAFETY IMPROVEMENT ACT OF 2000

SPEECH OF

# HON. JOE SKEEN

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 10, 2000

Mr. SKEEN. Mr. Speaker, today I rise to support S. 2438, the Pipeline Safety legislation, and also to implore the House of Representatives to pass it quickly and send it to the President for his signature.

In August, in my Congressional District in New Mexico, a pipeline explosion took the lives of eleven family members who were camping in an area located south of Carlsbad along the Pecos River. This terrible tragedy shook our state to the core. I visited the site of this disaster and I cannot begin to describe what I saw and the impact it has had on the lives of countless citizens in New Mexico.

This legislation is bipartisan and it passed the U.S. Senate with no opposition. This bill will help us avoid these terrible accidents in the future. Congress does not have time to play politics with this legislation. We don't have time for extended conferences on this legislation. Those who feel more is needed in this bill can introduce those changes next year. If we don't pass this bill we will have no legislation for at least another two years. It is unconscionable for this Congress not to pass legislation this year. To those who would vote against this legislation I say shame on you. This bill imposes new pipeline testing requirements on pipeline operators. It imposes higher penalties for safety violations and invests in new technology to improve pipeline safety. This bill increases the funding for pipeline safety as well as increasing state oversight and local government input. President Clinton supports this bill, Senate Democratic Senators support this bill.

I want to thank Chairman SHUSTER and the leadership of the Transportation and Infrastructure Committee for all of the hard work they have done in bringing this important legislation before us. We need to pass S. 2438.

#### EXTENSIONS OF REMARKS

CONGRATULATING CLAIRE HOWARD

### HON. PATRICK J. TOOMEY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. TOOMEY. Mr. Speaker, today I rise to congratulate Claire Howard, one of my constituents, on her appointment as the President-Elect of the United States Serra Club. In 2001, Mrs. Howard will become the first woman President of the USA Council and also the first in the history of Serra International.

Mrs. Howard is a charter member of the Bethlehem Serra Club and over the years has served as an active member on almost all of the standing committees. Of particular note is Mrs. Howard's service as the Coordinator of the Serra Clubs of Allentown Diocese's "Life/ Vocation Awareness Weekend." The weekend offers any adult who would like to explore the possibilities of entering the priesthood or a religious order a time to reflect, pray and interact with priests. In addition to her work with the Serra Club, Mrs. Howard is an active member of the Morning Star Rotary Club, Junior League of the Lehigh Valley, Bethlehem Palette Club, and the Bethlehem Quota Club.

I applaud Mrs. Claire Howard on her new appointment and wish her the best of luck in this new assignment.

### HONORING CECIL WALT

### HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, it is with great sadness that I take this moment to honor the life of Cecil Walt. Cecil recently passed away at age 98. Cecil spent nearly half of his life serving the Grand Valley in a number of different capacities. As family and friends mourn this great loss, I would like to pay tribute to this remarkable human being. Cecil moved to the Grand Valley in 1944,

settling in Grand Junction, Colorado. During his time on the western slope he owned and operated five different automotive stores, but was best known for his work for the community. It was not long after residing in Grand Junction that he decided to run for mayor and was elected. His work for the city will forever be enshrined along the Main Street Shopping Park, which he was instrumental in con-

Cecil's work to improve the city of Grand Junction earned national attention in 1963 when Look Magazine named it an "All-American City." Cecil was also very active in crusades to protect western slope water rights and to ensure that the Eisenhower Tunnel was built where it stands today, to ensure motorists safe passage from the western slope on into Denver

Former Colorado State Senator Tilman Bishop, in recent article by Zack Barnett in The Grand Junction Daily Sentinel, had this to say about former Mayor Cecil Walt, "He was a visionary, he was always putting things together for the future."

Cecil worked very hard to ensure that the Grand Junction community was a better place for all to live. He served his community, State, and Nation admirably and he will be greatly

missed.

TRANSPORTATION RECALL HANCEMENT, ACCOUNTABILITY. AND DOCUMENTATION (TREAD)

SPEECH OF

### HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 10, 2000

Mr. MARKEY. Mr. Speaker, I rise in support of the so-called "TREAD Act" and I want to commend Chairman BLILEY, Chairman TAUZIN, Chairman UPTON, Ranking Member Mr. DIN-GELL, Mr. LUTHER, and the many Commerce Committee colleagues who have worked very hard on this bill for bringing this legislation to the floor at this time. Hopefully, with time running out we can convince the Senate to similarly take up legislation on this issue and we can get a bill to the President's desk before Congress adjourns.

This legislation was initially prompted by the Firestone recall of some of the over 6 million tires used primarily on the Ford Explorer. As has become readily apparent during the course of our congressional investigation, both Firestone and Ford knew that there were problems years before they told the National Highway Traffic Safety Administration (NHTSA) or

the American public.

This legislation has many provisions designed to enable NHTSA to perform its job better and new measures to increase the safety of American motorists and give consumers needed information. The bill includes an increase in civil penalties, consumer protections against the resale of defective or recalled tires, and a mandate to NHTSA to update the tire safety standards, which haven't been updated since 1968.

In addition, I successfully amended the bill in Committee to require NHTSA to conduct dynamic testing for rollovers. The fact is that these SUVs, minivans, light trucks represented in 1997 some 46 percent of all new vehicle sales in the United States and they are obviously very popular vehicles.

Mr. Speaker, according to NHTSA, rollovers are the second most common type of fatal crash after head-on crashes for all cars-but it is the most common type of fatal crash for light trucks, which includes SUVs, pickup trucks and minivans.

And we know today that sport utility vehicles have a 3 times higher probability of rolling over than passenger cars due to their higher center of gravity. And we also know that although traffic deaths reached an all time record low last year, rollover deaths continued to climb-to over 10,000 fatalities last year. In addition to fatalities, rollovers cause 55,000-60,000 serious injuries each year.

In my view, given the nature of the types of vehicles on our roadways and auto showrooms today, this dynamic rollover testing is overdue and I believe it will enhance information available to consumers purchasing vehicles for the families.

The rollover amendment I successfully added to the bill in Committee tasks NHTSA with the duty to develop, as part of a rulemaking, a consumer information program that best disseminates the dynamic rollover test results to the public. Obviously it will do little good to the consuming public if the rollover test results are not publicized and disseminated widely. Information is the consumer's best friend-and I believe that consumers would be well-served when contemplating SUV purchases, for instance, at the showroom, to have such test results readily available to them. In addition, informational brochures and Internet websites can also be a valuable resource for consumer information.

As the rollover provision makes clear, the rollover test requirement does not apply to recreational vehicles designed to provide temporary residential accommodations. My intent in offering this provision was to deal primarily with SUVs, minivans, light trucks-those vehicles that many consumers are purchasing today that have a elevated center of gravity, giving these vehicles a proclivity to rollover in certain circumstances. Nor is this provision intended to apply to multiple stage vehicles such as specialized delivery trucks or custom van conversions produced in extremely limited quantities. These multistage production vehicles are produced by small volume customizer operations. This production "niche" is filled by small producers who buy incomplete vehicles (chassis) from the large vehicle manufacturers and mount a specialized body and related equipment on these limited volume vehicles. Specialized delivery vehicles below the 10,000 lbs. gross vehicle weight rating such as ambulances, bread trucks and other custom made, work-related vehicles do not have a mass market and are not the focus of this provision.

In addition, I also amended the legislation during Commerce Committee consideration to add a requirement that tire pressure warning systems become standard in vehicles. Such a standard could help save lives, help conserve fuel, and prolong the integrity of tires.

When NHTSA looked at this issue in 1979 and 1980, it decided at that time that the technology was too expensive. In the last 20 years, there has been significant development in this technology and the cost is much less. In 1981, NHTSA thought that it would cost around \$15 per vehicle and today our information is that it may cost merely \$2.50 per carfor all 4 tires. So this technology is but a fraction of the cost that it was when this was last formally considered by NHTSA.

For example, new technology allows modifications to the antilock brake system to measure the spin rate of the wheel and this is the technology that has now become a standard feature on the 2000 Sienna van.

As I understand it, the way the technology works is that the device monitors each tire and relays information to a warning mechanism inside the car. When the monitor finds a tire that is under-inflated the warning light or sound comes on to indicate a tire pressure problem—just as a warning light flashes when a motorist's brake fluid runs low today.

I believe this modest safety addition will save many lives. It is a provision that responds to the testimony we received from the industry that they expect American motorists to be cognizant of the tire pressure of their vehicles, adjusting it from time to time to insure proper inflation.

This is life-saving technology and I am heartened to see that this mandate for in-vehicle, tire pressure monitoring devices is now part of this legislation as it is considered today on the Floor.

In addition, the bill contains a third amendment which I authored, the "early warning" provision. For the first time, companies dealing with NHTSA will be on notice that they must report information bearing on public safety much earlier than they have in the past. In particular, manufacturers will have to report incidents involving fatalities or serious injuries alleged, or proven, to have been caused by a possible defect. This provision applies both within the United States and in foreign countries where the product sold in that country is also sold in the United States.

Everything we have heard in the last four weeks indicates we desperately need this type of provision. I have worked hard with the Republican majority to arrive at a workable and effective provision and the legislation we bring to the Floor now incorporates this important safety improvement.

Finally, I believe we need to look at other provisions and other issues more closely as we proceed on this bill as well as other NHTSA-related bills in the future. For instance, I believe Congress must ensure that NHTSA has sufficient financial and personnel resources to fully gauge important safety issues as they materialize. In the case of the Firestone/Ford fiasco the agency maintains it did not have sufficient information to trigger an investigation sooner. Additional staffing and funding for NHTSA earlier may have helped NHTSA notice a problem sooner and thus have saved lives.

After all, protecting the public and making sure that the agency charged with automotive safety issues has the resources to do its job is really where the "rubber meets the road" on this policy issue and I hope that we can rectify any deficiencies in such funding before Congress adjourns this year.

I again want to commend Chairman BLILEY, Chairman TAUZIN, Chairman UPTON, Ranking Member JOHN DINGELL, Representatives LUTHER, GREEN, and other colleagues who have worked very hard on this bill and yield back the balance of my time.

LIGHTS ON AFTERSCHOOL—PROJECT OF AFTERSCHOOL AL-LIANCE

# HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. LANTOS. Mr. Speaker, many times we hear, "Our children get into trouble because their time is not occupied with worthwhile pursuits." Today, I want to recognize a project that has shown great success in dealing with that very problem.

Mr. Speaker, I would like to inform to my colleagues about a project that helps bridge the gap between childhood and the adult

world. "Lights on Afterschool" is a project of the Afterschool Alliance. It is a nationwide event, taking place today, October 12, 2000, to recognize the critical importance of quality after school programs in the lives of children, their families, and their communities. The project is sponsored by J.C. Penney Inc. and the National Community Education Association. Lights on Afterschool will spotlight innovative and effective after school programs. Parents, community and business leaders, elected officials, and the media will have an opportunity to see firsthand how after school programs help our children discover the heroes within themselves!

Mr. Speaker, the Afterschool Alliance was launched September 1999 by U.S. Secretary of Education, Richard Riley. It is a coalition of public, private, and nonprofit organizations dedicated to raising awareness of the importance of after school programs. The goals of the project are to increase funding for after school programs and to ensure top quality resources for all participants in after school programs. The alliance was created to facilitate public awareness and advocacy work. Its primary purpose is to offer positive choices to the children of our nation.

After school programs provide safe, structured, and supervised activities, utilizing the physical resources provided by our schools, without taxing or overburdening the existing educational system. Statistics indicate that 15 million children are left unsupervised during non-school hours, and juvenile crime is three times higher in the period after the school day ends. The time spent in these after school programs means less time spent unsupervised, and more time spent challenging and developing a child's mind. Students who participate in after school programs are only half as less likely to use drugs, and a third as likely to become teen parents. The after school programs teach respect for others, and integrate valuable social skills into lessons. After school programs now exist in thirty percent of K-8 schools. This is a tremendous beginning, yet it leaves over two-thirds of potential sites not used during this critical period of time. The Afterschool Alliance wants to ensure all children will have access to these programs by the year 2010

Mr. Speaker, I urge my colleagues to join me in commending the efforts of the Afterschool Alliance and wish them success on their project, Lights on Afterschool.

IN SUPPORT OF THE DEMOCRATIC PRESCRIPTION DRUG RE-IMPORTATION PROPOSAL

# HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Ms. PELOSI. Mr. Speaker, prescription medicines have become a vital part of our health care system, and it is our responsibility to pass a meaningful prescription drug benefits through Medicare so that seniors will have access to the treatments that their doctors prescribe. Unfortunately, the drug reimportation language that the Republican leadership

included in this bill falls far short of this important goal.

Prices for the 50 most prescribed drugs for senior citizens have been going up, on average, at twice the rate of inflation over the past six years. As the price of prescription medicines has soared, our nation's elderly and disabled populations have found it harder and harder to afford the treatments that their doctors prescribe.

Although it cannot replace a real prescription drug benefit through Medicare, drug reimportation holds great promise for reducing prescription drug costs. However, the Republican reimportation provision is filled with loopholes that will prevent seniors from seeing any real savings.

The Republican proposal contains several provisions that unnecessarily restrict the supply of reimported prescription drugs and increase their cost. First, they limit the medicines eligible for reimportation and the number of countries from which they can be imported. Second, drug companies have the option of refusing to allow reimporters to use FDA-approved labeling for their products. This allows these companies to increase the price of reimported drugs by charging outrageously high prices for the use of the label. Third, this language does nothing to prevent pharmaceutical companies from discriminating against US consumers by forcing restrictive contract terms on foreign distributors.

Finally, the Republican proposal is not permanent. By allowing this legislation to sunset after five years, the Republicans are giving pharmaceutical companies yet another opportunity to kill prescription drug legislation that they do not like.

The Democratic proposal provides seniors with access to lower price drugs, subject to strict safety testing, without any of these harmful loopholes. Seniors deserve real prescription drug savings, not another empty promise from Republicans.

# TRIBUTE TO JACK KILBY

# HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I would like to congratulate Mr. Jack Kilby for winning the Nobel Prize for physics this Tuesday.

Jack Kilby, at age 76, is a modest man who has not found himself wrapped up in today's technological world. This modest man, who began his journey in physics 42 years ago, probably had no reason to believe he would be in this position today. Under Mr. Kilby's belt, he has 60 patents. He is also the co-inventor of the pocket calculator.

His discovery—the integrated circuit—in September of 1958 at the headquarters of Texas Instruments Inc. in Dallas, Texas has been placed into cell phones, digital music players, computer hard drives, and other various electronic devices, thus decreasing the cost of electronics.

Mr. Kilby still resides in Dallas, Texas, a technology powerhouse that will forever be

linked to his success. This one man and his chip are the spark that made Texas Instruments the giant company it is today. So, I thank him and congratulate him for his achievements.

MRS. DOROTHY M. MOODY SE-LECTED AS WOMAN OF THE YEAR FOR THE BOWDEN CHAP-TER OF BUSINESS AND PROFES-SIONAL WOMEN

# HON. CIRO D. RODRIGUEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. RODRIGUEZ. Mr. Speaker, today I recognize Ms. Dorothy M. Moody, who recently received the Woman of the Year award from the Bowden Chapter of Business and Professional Women. Her service to the community and dedication makes this award appropriate. Ms. Moody attended St. Phillips College, a Historically Black College, where she studied business and secretarial applications. These skills led to a diverse range of jobs, from secretary for the Afro-American Insurance Company to secretary for the San Antonio Independent School District, and today she is currently employed at the Emmanuel Baptist Church. Ms. Moody has exhibited leadership and faithfulness in personal development through the college Bible courses she teaches at the church.

In her position as chair of the Annual Woman's Day Observance, Ms. Moody exceeded her financial goals and suggested that the surplus be donated to the BBJ Memorial Foundation Inc. Compassion, goal-oriented and generous are standards that Ms. Moody sets for anyone to follow. With the gifts that she has received, she continues to dedicate a part of her life to education by helping a student attend St. Phillips College. Through hard work and dedication she strives to help others reach their dreams of a college education.

I join the members of the Bowden Chapter of Business and Professional Women in recognizing Ms. Moody as Woman of the Year.

ERIC KARLAN PAYS TRIBUTE TO DANISH HOLOCAUST RESCUERS FOR HIS BAR MITZVAH

# HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. LANTOS. Mr. Speaker, I would like to bring to the attention of our colleagues an outstanding young man—14 year old Eric Karlan, who in his short life has already made important decisions that can serve as a model for others to follow. His outstanding academic record, his musical gifts, his athletic prowess, his social activism, and the leadership roles he fulfills are by themselves exceptional achievements for a 14 year old.

But what impresses me most about Eric, Mr. Speaker, is his willingness to acknowledge and honor what is best in the history of hu-

manity and to demonstrate his appreciation for what is a truly heroic legacy. I am referring to Eric's decision to celebrate his coming to manhood through the Bar Mitzvah ritual by going to Denmark to visit important historic sites as an expression of his gratitude to the Danish people for rescuing almost the entire Jewish community of Denmark from extermination by the Nazis during World War Two.

Mr. Speaker, Bar Mitzvah celebrations have too often become showpieces of affluence, more extravagant than meaningful. Eric's decision to honor this occasion with simple dignity, remembering the suffering and hardships of his own people and paying respect to those Danes who came to their rescue in a time of greatest need, was indeed a wise and noble choice, and it demonstrates extraordinary character and maturity in one so young.

Mr. Speaker, I commend Eric for the intelligent choices he has already made in his life, for his dedication to genuine values, for his wisdom in following in the footsteps of those who light a candle in the darkness of the world, and for his understanding and appreciation of true heroism. Mr. Speaker, I ask that excerpts of Eric's moving description of his journey of discovery in the footsteps of Danish heroes be placed in the RECORD.

# MY BAR MITZVAH IN DENMARK (By Eric Karlan)

My family has always had a reputation for doing unconventional things. When I received my Bar Mitzvah date at the age of 11 I was told that I wouldn't be getting a big party or presents like everyone else. My parents said I would be able to pick a meaningful place to visit, and select a charity for any Bar Mitzvah money I might receive. I wanted to choose a place that would give me a unique Bar Mitzvah experience.

I read a book called Number the Stars, by Lois Lowry. I learned that the Danish people saved all but 116 of the approximately 8,000 Jews in Denmark by helping them escape to neutral Sweden during the Holocaust. This book was instantly a favorite of mine. It was then that I decided for my Bar Mitzvah I was going to research this story, and Denmark would be the destination for my trip.

would be the destination for my trip.

My parents gave me the opportunity to work with a modern orthodox Rabbi, David Kalb. Instead of studying the Torah portion that was near my birthday date, Rabbi Kalb helped me select a portion that was related to my trip. For our explanatory style service, I chose Beshallach, the story of the Parting of the Red Sea. We picked this story because it was uplifting, involved hope, and most importantly dealt with the liberation and freedom of the Jewish people. I connected this to the story of the Danish Resistance and how they brought the Jews from the clutches of the Nazis into freedom. Both of those stories shared positive and miraculous attributes. And both stories shared the water as the avenue to freedom. In the Midrash, Shemot Rabah, there is a story about how the Red Sea did not part until Nachshon Ben Aminadav, walked neck deep into the water. This makes a major statement that no one can expect miracles to happen unless someone takes the first step. The Danish people took the first step and a miracle occurred; all the Danish Jews were transported to Sweden secretly within a matter of days. In fact, there is a Disney movie called "Miracle at Midnight" tells the story

Together, the Rabbi and I retraced the Rescue Route and learned more and more about the Exodus of the Danish Jews going to Sweden and what risks were taken. We also learned how leadership can have such a huge impact on the people. King Christian X and the Danish Bishop played an important role, setting a superb example for the Danes and leading them to do the right thing when they were surrounded by evil.

We arrived early on a Wednesday morning in Denmark and immediately started to learn new things about the Danish experience during the Holocaust. As we were telling the driver on our way to the hotel about what we were doing in Denmark, he told us another very powerful story about Denmark's leadership. One day, a Nazi officer came to King Christian X and told him that if any soldier were to put up the Danish flag the next morning, he would be shot on the spot. The King replied that he would be that soldier, and from that day on, the flag of Denmark flew every day for the rest of the war.

We visited the Bispebjerg Hospital, where over 2,000 Jews passed en route to Sweden. The head nurse told us that to hold the Jews in the hospital secretly was tough. To start, they had to register the Jews under Christian names. Next, they would make them look pale by putting powder on their faces and make them sick by drugging them. She told us that doctors found out that there was an informer, so they locked him up in the psychiatric ward. After the meeting we toured the hospital and the meaningful places there.

As we reached one of the doors, the nurse told us a fascinating, scary story. Every door with a lock had 16 square panes of glass on it. On each of the doors, one of the panes of glass was different because when the Nazis broke into the hospital, they punched through the glass so they could stick their hand through and unlock the door.

Finally, we reached an office where the chief surgeon used to work. The office was on the third floor of the building where we were told that when one of the doctors tried to escape out the window, he was shot and fell to his death. After thanking the nurse, we asked where we could find out even more information and we were directed straight to the hospital chapel.

At the chapel, we met with one of the people who worked there. He told us how Jews escaped out of the hospital and on to the next part of the Rescue Route. He said they would have fake funeral processions and Jews were transported out of the chapel right under the Nazis' noses. Before leaving the hospital's premises, we learned about some underground tunnels that the doctors now use for work. During the war though they made great hiding places.

After this, we went to the Grundtvig Church of the Lutheran Church of Denmark. When the Jews were in need, Grundtvig Church played a key role in helping them. When the Nazis declared martial law, the bishop of the church explained the situation, almost all Christians agreed to help the Jews. They helped hide the Jews in their homes and the church, and during the twoyear period in which the Jews were in Sweden, Grundtvig Church hid Torah scrolls and other Jewish family valuables. After leaving the Grundtvig Church, we made our way to the beautiful Church of Denmark. This church also played a key role in helping the Jewish people. During the occupation, this church's bishop played Hatikvah, now known as Israel's national anthem, on the church bells. Like Grundtvig, the Church of Denmark hid Jews, Torah scrolls and other Jewish valuables.

We had to start early Thursday morning for the long 30-mile car ride up the coast to visit all the fishing ports where the Jews escaped. The first fishing port we came to was Niva, a port where a large number of Jews were sent. To get to Niva, the Jews had to take trains where they had to sit in the same cars as Nazis without them knowing. When they reached the port, they were held in a large tile factory where they were hidden or acted as workers. At night, there was, and still is, a tile path that leads from the factory to the port itself that the Jews followed to get to the boats safely.

Next up the coast was Sletten, where Sweden is never farther than two to four miles away. After that was Snekkersten, a port that had the second most Jews depart from. Here we had a quick memorial service in honor of H.C. Thomsen, an owner of an inn who hid Jews. He was caught and executed at a concentration camp, so in his memory and in memory of those like him, we held the memorial service in front of a rock, which was marked with a plaque honoring him and surrounded by flowers.

We continued up the coast to pass or stop at more small fishing ports like Elsinore and Hornbaeck. As we drove up the coastline, Sweden was never out of sight. You can only imagine how frustrating that was for the Danish Jews to have freedom less than five miles away, yet you could die from hypothermia just by trying to swim across the water. Finally, at the tip of the coast, we reached Gilleleje, the site where the most Jews left and where the most Jews were caught. We visited a small church where more than half the captured Jews in all of Denmark were caught. The church hid 80 Jews in the attic, when an informer tipped off the Nazis and 79 were caught and sent to the concentration camp at Theresienstadt.

From Gilleleje we returned to Copenhagen where a recently completed ten-mile bridge goes across the water to Sweden. We decided that touching Swedish soil would be a symbolic end to the morning since that is where the Jews escaped to from the fishing ports. We crossed the bridge by car, got our passports stamped, and returned to the hotel.

We awoke to a gorgeous Friday morning, the day of my Bar Mitzvah. I was very excited and eager to start the service. The decision for where my Bar Mitzvah would be held was made a few days before. It would be in Mindelunden, a memorial park right outside the city where 106 Resistance members were killed. It was hard to believe that brutal executions had ever happened at such a beautiful place. As we walked in, there was a long wall of plaques with all the people's names that had been killed, with a little information about them.

Farther on, we found the graveyard. It was an unbelievable site. There was a magnificent statue near the back with a Resistor holding up one of his fallen comrades. In front of the statue were 106 graves, each with a marble plaque on top identifying the person and their life span. One of the graves is now covered in heather because later that man was identified as a traitor. We had a memorial service for all the fallen resistors at the site.

Past the graveyard we found the execution pit. In the pit were three stakes and a plaque. This was a very scary sight and only my mom and my brother went past the plaque to touch the stakes. We still hadn't done the Bar Mitzvah service and the decision of where it should be held was still undecided.

While walking back from the execution pit, we passed an open field with a tree near

the side. Since the tree was approximately halfway between the pit and the graveyard, the choice was made that the Bar Mitzvah would be under the tree. The service lasted about fifteen minutes and included my Torah portion, some prayers, texts that Rabbi Kalb (who had a Notre Dame hat on) personally selected, and the Israeli national anthem "Hatikvah." It was a wonderful service and ended with the Rabbi picking me up on his shoulders and dancing around.

Our congressman, Jim Maloney, had arranged a meeting for us with the United States Ambassador to Denmark to discuss my Bar Mitzvah experience. After passing through the gates of the embassy and getting our passports checked, we were finally greeted and led up to the Ambassador's office. The Ambassador's name is Richard Swett. We found out later that his in-laws were survivors of the Holocaust.

Another man from New York named Gabriel Erem, owner of the magazine Lifestyles, was already there and wanted to stay to hear about my experience. Gabriel had heard about my story and seemed very interested. We sat down in the office and I started to explain everything that had led up to the trip and how it had been going so far. We retraced the Rescue Route on the maps the Ambassador had up in his office and told almost all the stories we learned. Questions were exchanged from both sides about the Bar Mitzyah. A while later it was time to go. but not before we got one more surprise. The Ambassador had extra tickets to the Danish premiere of "The Last Days," a documentary film made by Steven Spielberg about five survivors of the Holocaust.

The Grand Theater was busy with people coming to see the premiere. We started to talk to the people in front of us and soon found out that when they were three and four, they were two of the Jews who were taken by boat to Sweden. A few minutes later, the Ambassador entered and went up to the podium to make his opening speech. He mentioned lots of important people, the survivors that were present that night, his co-workers, his wife and in-laws, etc. And then near the end of the speech, he spoke about my story and me. As soon as he finished my story, he introduced me and had me stand up in front of all the people. That made my night! Soon after the moment of glory, the documentary began.

The documentary was very impressive and moving. After it ended, the survivors all went up to the podium and made a little speech. As we stood up to leave, Renee Firestone, one of the four survivors present that night came up to wish me "Mazel Tav." After meeting her, a man came up to introduce himself to me. He was not one of the survivors, but a student in Copenhagen at the time of the war who rowed Jews to Sweden in October of 1943. His name was Munch Nielsen, and I didn't realize I already knew about him till my Rabbi told me so. In some of our notes, we had quotes from him. This was very cool. Following that, we met up with Gabriel Erem, who introduced us to Congressman Tom Lantos, the Ambassador's father-in-law, and another one of the survivors in the movie. After a quick chat, we all went to the reception.

The first thing I wanted to do was go over and thank the Ambassador for making my Bar Mitzvah day the best. I went over to him and his whole expression changed. A nice smile came over his face and he told me to follow him because there were some people he wanted me to meet. First he introduced me to the Israeli Ambassador in Copenhagen.

The next person I met was his mother-in-law Mrs. Annette Lantos. She was also a survivor of the Holocaust, but she was not in the documentary. She was very sweet and made a big fuss over what I was doing.

Then the Ambassador introduced me to Irene Weisberg-Zisblatt. As soon as she saw me, she smiled and said, "It is such an honor to meet you." I responded the same way and we both laughed. Out of everyone, she was the coolest and the most interested in my story. Around her neck were diamonds in the shape of a teardrop. In the movie, she said that those diamonds were from her mother and anytime the Nazis went to check if any of the prisoners had anything, she would swallow them, and then when she went to the bathroom, she would fish them back out, clean them off in the mud and swallow them again. And now, they were around her neck in real life, which was very hard to believe. Irene, the Rabbi and his wife, my family and myself all talked for the longest time.

People started to leave and my exciting day started to come to a close. We wrapped up our conversation with Irene, said good night to the Rabbi and his wife, and headed back to the hotel after a perfect ending to a great Bar Mitzvah day. Imagine celebrating your Bar Mitzvah one morning in a World War II Resistance memorial park and ending the day with actual survivors that eluded Nazi death.

I can't speak for other countries, but I know in America the schools only teach the negative and scary things about the Holocaust. Even though that was really what most of the Holocaust was, the Denmark story should be taught everywhere as well. It is positive and uplifting, gives hope and sets the example for remarkable leadership, brotherhood, and respect for humanity. The Danes should be admired for their gallantry and I am glad I did what I did for my Bar Mitzvah.

### HONORING AHMAD ALAADEEN

# HON. KAREN McCARTHY

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Ms. McCARTHY of Missouri. Mr. Speaker, I rise today to recognize the Missouri Humanities Council's selection of the recipients for the 2000 Governor's Humanities Awards. Mr. Ahmad Alaadeen, a prominent recording artist in my district, is the recipient of the Community Heritage Award for his dedication to his Kansas City Jazz heritage.

Since 1917, Kansas City musicians have fostered and developed the well known sounds of blues, bebop and swing. Ahmad Alaadeen was born in 1934 and raised in the historic 18th and Vine Music District. In his youth he cultivated a love for the music that resinated from the Mutual Musicians Foundation. The distinctive sounds of Jazz Masters like Charlie Parker, Count Basie and Jay McShann became part of the persona of Alaadeen's saxophone playing.

The music industry has recognized Mr. Alaadeen for his award winning compositions and fellow musicians have christened him "Professor." Many refer to him as the reigning master of Kansas City music. In the 1970's he became aware that Kansas City Jazz was becoming stagnant. In an effort to revitalize and

perpetuate the sound of Kansas City jazz he developed a mentor program. The program provides apprentice musicians the opportunity to perform with his band as paid professionals while developing their own unique style. He encourages local and visiting jazz masters to do the same. One of his goals is to develop an individual into a musician as opposed to a programmed performer. Young musicians who are exposed to his talents gain an intense understanding of jazz. His work is paying dividends in the development of talented musicians like Logan Richardson, Tim Whitmer,

Gerald Dunn and Charles Perkins.

Mr. Alaadeen developed an historical documentary of video and audio recordings to share the story of the originators and continuing evolution of Kansas City Jazz. The first audio release, "Tradn' 4's," featured the originators of the Kansas City style with music from many of the pioneers of jazz including Henry Hoard, Wallace Jones, Pearl Thuston. "On the Cusp," was the first video produced by Alaadeen Enterprises Inc. and focused on his generation, known as the transition generation. The video showcases the generation who mastered the jazz sound by learning the trade orally. The video features the music and style of Luqman Hamza, the late Frank Smith, Sonny Kenner, Russ Long and Ahmad Alaadeen.

Mr. Alaadeen is the present Chairman of the Mutual Musicians Foundation. The Foundation is known for its commitment to the promotion and development of Kansas City Jazz. Music enthusiast love the late night jam sessions that swing with today's jazz masters. Musicians like Jay McShann, Claude "Fiddler" Williams and Pat Metheny are favorite sons in Kansas City. Mr. Alaadeen's concerts provide an educational musical experience that fosters appreciation and enlightens the listener.

Inscribed on the wall of the Kansas City High School for the Arts is a quotation from Mr. Alaadeen. It reads, "Jazz does not belong to one race or culture, but is a gift America has given the world."

Mr. Speaker, please join me in recognizing the man who has revitalized our music community and introduced a new generation to the sweet sounds of Kansas City Jazz. The great state of Missouri understands the importance of his humanitarian efforts and distinguishes his effort by presenting him with the Governor's 2000 Community Heritage Award.

SUPPORTING INTERNET SAFETY AWARENESS

SPEECH OF

### HON. JUANITA MILLENDER-McDONALD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 10, 2000

Ms. MILLENDER-McDONALD. Mr. Speaker, I rise today in support of H. Res. 575. This resolution urges Americans to recognize and support educational programs that make surfing the Internet safe and fun for children. It supports initiatives to educate parents, children, educators and community leaders about the enormous possibilities and potential dangers of the Internet, applauds the work of law

enforcement officers to make the Internet safe for children, and urges all Americans to become informed about the Internet and support efforts that will provide Internet safety for children and for future generations.

The Internet is a wonderful tool for educating our children and has been instrumental in driving the growth of our economy. But unfortunately tools can be misused. Today an estimated 10 million American children have unfettered access to the Internet—a 444 percent increase from 1995. What is alarming is that as the new millennium has begun more and more children will have access to the Internet and in turn, easy access to alcohol.

Just before Memorial Day, I participated in a news report concerning ease with which our youngest constituents can obtain alcohol through the Internet. On the videotape I witnessed two fifteen-year-old children using their home computers to access the world-wide web and order alcohol on the net. And in a few short days this alcohol was delivered to their front door by a national mail carrier who did not ask for identification when the two fifteen-year-old children signed for the boxes containing wine and a bottle of Absolut. Last year, I testified before the Senate Judiciary Committee on my concern for this issue because similar stories had surfaced in the news December 1997.

Although there is a no single solution to the national epidemic of underage drinking, the bill that I introduced in the first session of the 106th Congress, H.R. 2161 would close some of the gaping loopholes I call "cyberbooze for minors" that now make it possible for teens and young adults to easily obtain alcohol over the Internet. H.R. 2161, the Prohibition Against Alcohol Traffic to Minors will curb underage drinking by prohibiting "direct shipment" of alcohol to persons under a State's legal drinking age.

I want to urge my colleagues to support H. Res. 575 because it recognizes the powerful potential and inherent danger that the Internet offers our children. I hope that my colleagues will also join me in putting an end to easy alcohol access on the Internet by supporting H.R. 2161.

# SAFER GUNS FOR SAFER COMMUNITIES ACT

### HON. ELLEN O. TAUSCHER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mrs. TAUSCHER. Mr. Speaker, today I have introduced the Safer Guns for Safer Communities Act along with my colleague CAROLYN MCCARTHY.

This bill takes a commonsense approach to gun safety by encouraging gun manufacturers to engage in better and safer business practices. The Safer Guns for Safer Communities Act is modeled after the historic Smith & Wesson Agreement.

Earlier this year, the U.S. Department of Housing and Urban Development and several local government entities entered into an agreement with Smith & Wesson to manufacture and distribute safer guns. The agreement

was revolutionary in nature, but commonsense in approach. It includes many items that Congress has debated at one point or another: child safety locks, high capacity ammunition clips, and "smart" gun technology. The Agreement also requires that firearms include additional safety features such as chamber load indicators and a hidden serial number which will help convict criminals using them. Since the Smith & Wesson Agreement was announced in March, nearly 600 police departments and community leaders have pledged to only buy firearms that meet minimal safety standards.

We must remember that gun safety reform is not taking guns away from law abiding citizens who are legitimate gun owners. Instead, it is about the little girl in Michigan who was shot by her 6-year-old classmate. It is about the 13 children killed by their peers at Columbine High School over a year ago. And it is about Antioch's Larry Kiepert who was shot by his neighbor.

To create an incentive for more manufacturers to adopt these safety measures. The Safer Guns for Safer Communities Act provides grants to law enforcement agencies who purchase their weapons from manufacturers who agree to adhere to the better business practices similar to the ones in the Agreement. In addition, law enforcement officers who must purchase their own weapons would be able to come together through a qualified association of officers to apply for these grants. This provision benefits officers who are required to purchase their own weapons. The program would last 3 years and provides \$50 million each year to 50 grantees. A study would then assess the impact of purchasing weapons from responsible manufacturers on gun-related crime and accidents.

This Congress has refused to take action on any meaningful gun safety proposal. Perhaps the reason for their inaction can be best explained by the overpowering influence of the gun lobby. Our job in Congress is to promote responsibility, ensure safety, and educate the American people when it comes to owning, selling, and manufacturing firearms. It is time for children and families to once again feel safe in our schools, our homes, and our neighborhoods. It is time for our workforce to once again feel safe at work or during their commute home.

JOHN WILLIAM AND ASHLEY DANIELLE CARPENTER

# HON. GEORGE RADANOVICH

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES  $Thursday,\ October\ 12,\ 2000$ 

Mr. RADANOVICH. Mr. Speaker, I rise today to submit into the RECORD the words of the father of John William and Ashley Danielle Carpenter, two innocent children murdered in their home in Merced, California. These words were composed and read at the funeral of the children.

Mr. Speaker, I submit this statement to share with my colleagues the grief of a father and his plea for a change in the hearts of a humanity that can allow such an atrocity.

While I can not know the impact on the family and friends of the Carpenters, I surely can sympathize with their pain and share their grief, with the hope and prayer of preventing just one act of violence, one time somewhere in this world.

Today we stand here grieving the loss of John William and Ashley Danielle Carpenter and somewhere a mother grieves the loss of her son, who has done these hideous crimes. But what saddens me is that the law says we know what took place so it's time to close the book. But I challenge you, as the father of the deceased children that this case is far from over. Because while we sit here mourning the loss of our loved ones, the real killer is still loose. I believe the real killer is the dealer who supplied the drugs to the murderer of my children. I trust and believe that. I sure hope that I can't take this a step further and say it's "big business" that did this to my children, with mine and your tax dollars. When I say big business, I mean the White House, excuse my lack of a better word, to the Outhouse. We need to wake and wonder, why are they trying to take our only protection, our handgun, instead of going after the dealers that supply these drugs. It makes me wonder about their motives. There was a gun in my home, but because of the law and what could happen to me, I had it put away in supposedly a safe place. I guess I did, because my 14-year-old daughter and 13-year-old daughter couldn't get to it and neither did the murderer. The only thing I forgot to put a lock on was my pitchfork. How long are we, the people going to believe the lies of the politicians and get back to the root of the problems? We need to change the hearts of men, to start loving their neighbors and the neighbor's children as themselves. What's sad is, it doesn't cost one red cent. In fact it will save us money. My plea to you people today, is put all politics and religions aside and start living life like my little daughter Ashley did, by laying down her life for her sisters. It might cost you your life, but that should be easy to do, you already have an example in my daughter. Do whatever it takes to protect your family and friends. I know the only way she knew to do that was by example, starting with her love for Jesus, she learned at Sunday school. The next example was her mom and dad, who led her and were there for her, instead of chasing their desires. Because with me and my wife. we were raised and taught the same way, I wouldn't trade it for anything, because if I did, I wouldn't be here feeling like the proud father that I am, of all my children. I know without a shadow of doubt where my children are today, and only God knows where the murderer is. Please remember if you don't do as Ashley lived and did in her actions you might never see them again, and it hurts me to know that for you, their little lives might be in vain. I just want to say that for me, John William and Ashley Danielle Carpenter's lives weren't in vain. I will always keep you close to my heart John and Ashley in this life, but I guarantee you, I'll see you in heaven. Love you always and forever. Your Daddy & Buddy.

CELEBRATING HENRY BERMAN'S 90TH BIRTHDAY

# HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Ms. PELOSI. Mr. Speaker, ten years ago, I had the privilege of standing on this floor to wish my dear friend, Henry Berman, a happy birthday. It is with great pleasure that I rise today, on the occasion of his 90th birthday, to pay tribute again to this wonderful San Franciscan.

Henry Berman continues to be a leader in San Francisco. He serves with distinction on the San Francisco Airport Commission and is the former chair of the San Francisco Fire Commission. He serves on the Executive Committee of the Anti-Defamation League and on the Board of Directors of the Northern California American Israel Political Affairs Committee. Henry continues his work with Glide Methodist Church on the annual fundraising event he helped to create, and he sits on the Board of Directors of the Fromm Institute for Lifelong Learning.

Henry Berman, however, is more than the sum of his affiliations. He is an extraordinary man whose energy and enthusiasm for life are contagious. His commitment to the poor, the marginalized, and those in great need is an inspiration to us all, and I am honored to count him among my firiends.

I join his wife, Sally, his sons, Ronald and Robert, and all of his family and friends in wishing Henry a happy 90th birthday. Congratulations, Henry.

HONORING THE LATE OSCAR MAUZY

# HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, today I pay tribute to former Texas State Senator and Supreme Court Justice Oscar Mauzy. He passed away on Tuesday, October 10, at the age of 73.

Justice Mauzy was my immediate predecessor in the Texas Senate from Senate District 23. He represented this District from 1967 until his election to the State Supreme Court in 1986. During his service in the legislature, Senator Mauzy served as the chairman of the Senate Education Committee, where he led efforts to improve education and to secure greater funding for education in poorer school districts. A labor lawyer by training, Senator Mauzy was also active in the areas of judicial reform, consumer protection, and workers' compensation. Later in his legislative career. Senator Mauzy served as Chairman of the Jurisprudence Committee, where he authored legislation to make jury selection uniform throughout the state and finally allow women to serve as jurors.

Justice Mauzy's dedication to education for our children continued during his six-year term in the Texas Supreme Court. He was the driving force behind a 9–0 decision that declared

the state's school funding system inequitable. That decision led to enactment of a law to require wealthier school districts to share funds with lower-income districts.

I am deeply saddened that Texas has lost a public servant who dedicated more than a quarter century in service to his fellow Texans. I ask the House to join me in remembrance of Justice Mauzy, a true champion for working men and women and schoolchildren in my state.

SANTIAGO JIMENEZ RECEIVES PRESTIGIOUS MUSICIAN AWARD

# HON. CIRO D. RODRIGUEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. RODRIGUEZ. Mr. Speaker, today I recognize Santiago Jimenez of San Antonio, Texas, who is being recognized for his accomplishments as a singer and accordion player by the National Endowment for the Arts. The National Heritage Fellowship is an award given to a select group of people, reflecting the diverse heritage and cultural tradition that have become a part of our society.

Local artists are nominated by a member of the community, in recognition of the artist's excellence in a particular area. Each year only a select group of these artists are honored. The National Endowment for the Arts has awarded only slightly more than 222 National Heritage Awards.

Mr. Jimenez plays a style of music known as conjunto, which has both German and Mexican roots. His music interest began when his father would take him to hear German polka bands in New Braunfels, Texas. At the age of 15, he began performing professionally at weddings, clubs and traditional community settings. Following his father's example he developed creatively and incorporated a wider audience. In 1958, at the age of 17, with his brother he recorded El Principe y el Rey del Acordeon. Since then, he has made 60 recordings of more than 700 pieces of music on several different labels

He started Chief Records, his own label, in order to give younger musicians the opportunity to have their music heard. He works to help others in an industry that he has experienced barriers to entry. Mr. Jimenez has toured throughout the US, Europe and South America to bring the world of conjunto music to millions.

I join the City of San Antonio and the National Endowment for the Arts in recognizing Santiago Jimenez on his accomplishment as a recipient of the National Heritage Fellowship award.

TRIBUTE TO MARGARET TOWSON

### HON. KAREN McCARTHY

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mrs. McCARTHY of Missouri. Mr. Speaker, I rise today to honor an exceptional individual

and friend to the State of Missouri. This year, after 56 years of service to the citizens of Missouri, Margaret Towson will celebrate her retirement from her historic post at the Missouri State Senate in Jefferson City, Missouri.

Margaret Towson started in the Secretary of the Senate Office in 1949. During her tenure she witnessed twenty-six General Assemblies for the equivalent of almost fifty-two years. She then served as the distinguished Assistant Secretary of the Senate, whose duties, in addition to functioning as secretary and receptionist, included tallying and filing roll calls, maintaining good public relations with legislators and lobbyists, remaining in the office each day until adjournment, and addressing any challenge or task which required her assistance.

As a lifelong member of the Cole County Democrats and the Cole County Democratic Women's Club, Margaret Towson is widely recognized as an outstanding civic minded individual who has consistently committed her time and energy to promote civic involvement. One of Margaret's greatest moments came when her efforts were recognized by President Harry S Truman, a man she greatly admired and affectionately referred to as "Cousin Harry."

Margaret Towson's kind, dedicated spirit is celebrated, admired, and respected in Jefferson City and throughout the State of Missouri. She will be missed not only for her professional excellence, but also for her personally endearing qualities and delectable apple pies that were savored by the many people she met and worked with. Margaret's retirement marks the end of a historic era in the Missouri State Senate. She is looking forward to spending more quality time with her children, grandchildren, and great-grandson. Margaret Towson has left a lasting impression upon her peers and friends that will not be forgotten.

It is with deep gratitude and honor that I recognize Margaret Towson for over a half a century of friendship and service to the State of Missouri. Her devotion is an example to us

Mr. Speaker, please join me and the Missouri Ninetieth General Assembly in congratulating Margaret Towson on her outstanding service to the people of Missouri.

LUPUS RESEARCH AND CARE AMENDMENTS OF 2000

SPEECH OF

### HON. JUANITA MILLENDER-McDONALD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 10, 2000

Ms. MILLENDER-McDONALD. Mr. Speaker, I rise today to offer my strong and heartfelt support for the Lupus Research and Care Amendments Act, which was introduced by our hardworking and dedicated colleague, Congresswoman CARRIE MEEK. She has been a tireless advocate for this issue for years. As the Co-Vice Chair of the Women's Caucus, I am a proud co-sponsor of this legislation, as are 45 Women Caucus members. This legislation is the perfect illustration of a bipartisan effort to address a painful, debilitating disease

that affects women nine times more often than men, and African American women three times more often than white women.

It is estimated that between 1.4 million and 2 million Americans have been diagnosed with this disease and that many more have undiagnosed cases. This serious, complex, inflammatory autoimmune disease can simultaneously affect various parts of the body, including the skin, joints, kidneys and brain. It can be difficult to diagnose this disease because its symptoms are similar to those of many other diseases and many people suffering the signs of its onset have never heard of lupus, nor understand how to respond to these symptoms.

The Lupus Research and Care Amendments Act authorizes funding to expand and intensify research on lupus at the National Institutes of Health, including basic research on the causes of lupus; research to determine why the disease is more prevalent in women and particularly African-American women: research on improving diagnostic techniques; and research to develop and evaluate new treatments. This bill also requires the Health and Human Services department to establish a grant program to deliver services to those afflicted with lupus and their families. The program would provide grants to state and local governments, nonprofit hospitals, community based organizations and community or migrant health centers to provide services for diagnosing and managing lupus.

I urge my colleagues to follow the women of the House, and pass this legislation to help countless women and families. This legislation will spur unprecedented yet direly needed research on how this disease affects women and on what the best treatments are to cure this disease. Lupus can be fatal if not detected and treated early, but with this research and proper delivery of services, we can not only enhance people's lives, but save them as well.

WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R.4461. AGRICULTURE, RURAL DEVELOPMENT, FOOD ANDDRUG ADMINISTRATION, AND RELATED AGENCIES APPRO-PRIATIONS ACT, 2001

SPEECH OF

### HON. TOM DeLAY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 11, 2000

Mr. DELAY. Mr. Speaker, I rise to address a provision in the FY01 Agriculture Appropriations Conference Report that is not only disturbing, but highly objectionable on legal grounds. This provision was subject to absolutely no deliberative thought. In fact, the Chairmen of the House and Senate Judiciary Committee raised serious constitutional and legal concerns about it. The Chamber of Commerce and the National Association of Manufacturers decried it. I am referring to section 745 of the bill. It states, "No manufacturer of a covered product may enter into a contract or agreement that includes a provision to prevent the sale or distribution of covered products imported pursuant to subsection (a).'

Besides the fact that this provision baldly impedes the right of businesses to conduct affairs in the manner they so choose, what is perhaps most troubling about this provision, which restricts freedom of contract and clearly infringes on intellectual property and other constitutional rights, is that it was added to the Conference Report in the dark of night. This provision was not contained in either of the underlying House or Senate Agriculture Appropriations bills—or any other bill for that matter. Moreover, the provision was never the subject of any committee hearings or other public deliberation by the Congress.

While it will slip past Members today because it is buried deep in an important appropriations bill that, among other things, provides billions of dollars in drought relief to American farmers, I take small comfort in knowing that this provision will not slip past the Courts and will not survive judicial review.

Until that time, let us at least realize that this ill-advised provision requires narrow interpretation, not only because of the stealth with which it was included, but because an inappropriately broad reading would raise very serious questions with respect to conflicts with US patent and trade laws. To avoid—or at least minimize—such conflicts, the only interpretation of this provision (which replaced a broader proposed provision that the Conference Committee rejected) is that it is strictly limited to contacts or agreement involving drug reimports, and also containing explicit contractual provisions to this purpose and effect.

Make no mistake—this provision is horrid. That's what you get when you have a flawed process—you get flawed policy. It profoundly affects both intellectual property rights and constitutional rights. It has no place in this bill and I am deeply disappointed the Conference Committee allowed such a provision to be included in this bill.

CONFERENCE REPORT ON H.R. 4205, FLOYD D. SPENCE NATIONAL DE-FENSE AUTHORIZATION ACT FOR FISCAL YEAR 2001

SPEECH OF

# HON. BOB STUMP

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 11, 2000

Mr. STUMP. Mr. Speaker, I rise in strong support of the conference report for the FY01 National Defense Authorization Act named for my distinguished colleague and Chairman of the Armed Services Committee, FLOYD D. SPENCE. Chairman SPENCE has been a great advocate of our nation's military and has worked tirelessly to rebuild a military weakened by years of cuts in the defense budget. Under his leadership we have increased the Department of Defense's budget \$60 billion over the past five years of Clinton-Gore administration cuts.

This bill makes significant progress in keeping faith with the greatest generation by restoring the promise of lifetime health care to America's military retirees and their families. Congressman BUYER's efforts to address a financial challenge resulted in taking retiree

health care out of the defense budget and setting up a long-term funding plan to ensure that our nation's military retirees will have access to the medical care that they have deservedly earned.

The defense authorization act also provides active duty service members a new opportunity to convert their Post-Vietnam Era Vet-Program Educational Assistance erans (VEAP) benefits to the Montgomery GI Bill if they declined to do so before or withdraw all funds from their VEAP accounts. The bill also builds upon the concurrent receipt initiative provided in last year's defense bill. Beginning in fiscal year 2002, those service-members who are medically retired and rated at least 70% disabled by VA will be eligible for additional special monthly compensation of up to \$300.

Mr. Speaker, I regret that my colleague from Virginia, Readiness Subcommittee Chairman Herb Bateman passed away before seeing this bill signed into law. Throughout the measure are marks of his efforts to ensure that our defenders of freedom are battle ready and have the tools and resources they need. I also wish to thank the retiring Members of the panel who have worked tirelessly to rebuild our nation's military. Your support for our men and women in uniform has not gone unnoticed.

While we have successfully increased funding in critical modernization programs, we have a long way to go. Following the "lost decade" of defense in the 1990s, America's military must be reshaped to meet the challenges of the post-Cold War world. Starting immediately, the United States must commit the resources necessary to improve current military capabilities and prepare our forces to face the threats of the coming decades. Anything less jeopardizes the military's readiness and America's place in the world.

HONORING NEW HOPE BAPTIST CHURCH

### HON. NICK LAMPSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. LAMPSON. Mr. Speaker, I rise today to honor the New Hope Baptist Church in Port Arthur, Texas, which will be receiving a State Historical Marker from the Texas Historical Commission on October 15, 2000. New Hope Baptist Church was the first African-American Baptist Church and was officially founded on August 12, 1906, but existed quite some time before that date. The church was first organized by the Rev. Stevenson, Sis. Copeland, Sis. Laura Hebert, and Sis. Sharlit Bill. New Hope was originally located on Titsingh Street (now known as Marian Anderson Avenue).

As the African-American population grew, a larger place of worship was needed and a one-room building was rented on West 10th Street. The Rev. A.D. Hendon was the first official pastor and served one year and 11 months. Professor A.J. Criner was the first Chairman of the Deacon Board, as well as the Principal of the African-American public school. The New Hope Baptist Church had 14

charter members, and some of the early members included: Rev. Stevenson, Sis. Copeland, Sis. Sharlit Bill, Sis. Laura Hebert, Nora Wade (King), Will King, M.G. Glass, A.J. Criner, Nellie Jones, Rev. A.D. Hendon, W.M. Richardson, Vallie Brown, J.W. Willis, W.P. Powell, A.W. Edwards, and Willie Braxton.

The one-room building was used as a stable during the week. On Saturdays, the members would start clearing out the stable and assembling makeshift benches with boxes and planks for members to sit on. There was no pulpit. The minister would stand in front of the congregation with his Bible in hand and preach. The building would often flood and leak when it rained. Rev. J.E. Nelson was the second pastor and served one year, through 1909. During his administration, the first church was built at the same spot where the old structure stood. Hurricanes reportedly blew down two church buildings and early records were lost in floods and storms.

New Hope developed a close relationship with the first Methodist Church of Port Arthur and Israel Chapel A.M.E. Church on Texas Avenue. Each alternated its services to allow the other to hold worship services in its sanctuary during a building program. Rev. J.W. Williams came in 1910 and rebuilt the church that was destroyed by a hurricane. However, this building was soon destroyed. Mr. Speaker, throughout the 20th Century New Hope Baptist Church should serve as an example to us all—always keep the faith and hope to rebuild.

TRIBUTE TO BETSY CROWDER

### HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Ms. ESHOO. Mr. Speaker, I rise today with a heavy heart to honor Betsy Crowder, a well-known and loved constituent who distinguished herself in so many ways and whose life was cut short on September 29, 2000.

Born in Boston, Betsy Crowder's love and appreciation for the environment developed early on when her parents would take their four daughters on camping trips in Canada during the summer. She met her late husband Dwight in 1949, when they were both members of the Stanford University Alpine Club and they were married a year later. In 1960, the Crowders built a home in Portola Valley and became very active in local conservation issues.

Betsy Crowder served on numerous County and local advisory committees for land use and trails including the Portola Valley Conservation Committee, the San Mateo County Trails Advisory Committee, the Bay Area Ridge Trail Council, the San Mateo County Bikeways Advisory Committee, the Committee for Green Foothills and the Planning and Conservation League.

Betsy Crowder also served as a Planning Commissioner for Portola Valley from 1972 to 1977 and as an environmental planner for the City of Palo Alto from 1972 to 1980.

Śince 1989, she was a member of the elected Board of Directors of the Midpeninsula Regional Open Space District (MROSD), including two years as President of the Board in

1993 and 1998. During her tenure on the Board, MROSD's lands grew from 32,000 acres to 43,000 acres and she was a very active member on MROSD's Coastal Advisory Commission for the District's plan to annex the San Mateo County Coast.

Mr. Speaker, Betsy Crowder was an exceptionally kind and selfless woman dedicated to her family, her community and her country. Her tireless commitment and stewardship of the environment inspired everyone. She lives on through her two children, two grandchildren, three sisters, 15 nieces and nephews, and through all of us who were blessed to be part of her life.

Mr. Speaker, it is with great sadness that I ask my colleagues to join me in paying tribute to a uniquely wonderful woman who lived a life of purpose and to extend our deepest sympathy to her daughters, Wendy and Anne, and the entire Crowder family.

POLISH OFFICERS MONUMENT

#### HON. BENJAMIN L. CARDIN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. CARDIN. Mr. Speaker, on Nov. 19, 2000 the National Katyn Memorial Committee will dedicate a monument in Baltimore, Maryland to the memory of more than 15,000 Polish Army officers who were massacred by Soviet soldiers in the spring of 1940.

In September, I was honored to accept an award on behalf of Congress presented by Father Zdislaw J. Peszkowski, a survivor of the massacre. The medal was presented on behalf of the Katyn families in recognition of U.S. congressional hearings conducted in 1951 and 1952 that focused world attention on this World War II massacre that occurred in the Katvn Forest.

While this massacre occurred more than 50 years ago, it is important that we remember what happened. In 1939, Nazi Germany invaded Poland from the west and the Soviet Union invaded from the east. In 1940, more than 15,000 Polish Army officers were placed in detention, then taken in small groups, told they would be freed and then were gunned down in the Soviet Union's Katvn Forest. In 1943, the German Army discovered the mass graves, which the Russians tried to blame on the Germans. It was long suspected that the massacre was the work of the Soviets. Final proof came in 1989, after the fall of the Soviet Union, when President Gorbachev released documents that clearly proved the Soviets, with the full knowledge of Stalin, had carried out the massacre.

For more than a decade, the Polish-American community has raised funds to construct a fitting memorial to honor the victims of the massacre. The 44-foot statue has been permanently installed near Baltimore's Inner Harbor at President and Aliceanna Streets. I want to commend the Polish-American community and Alfred Wisniewski, Chairman of the National Katyn Memorial Committee, and the entire committee, for their tireless efforts in making this memorial to the victims of this atrocity a reality.

#### EXTENSIONS OF REMARKS

I urge my colleagues to join me in paying tribute to the memory of these murdered Polish Army officers. The Katyn Memorial in Baltimore will be a lasting reminder to all of us that we must never tolerate evil and tyranny and that we must continue to speak out for justice and tolerance.

> ELECTION COMMISSION OF PUERTO RICO

## HON. PATRICK J. KENNEDY

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. KENNEDY of Rhode Island. Mr. Speaker, both the House and Senate have approved an appropriation of \$2.5 million to the Office of the President as requested by the President for a grant to the Elections Commission of Puerto Rico to be used for voter education on and a choice among the options available for the island's future political status. This marks an historic step forward in two key respects in the process of self-determination for the almost four million American citizens of Puerto Rico.

First, it represents the first authorization from Congress for the United States citizens of Puerto Rico to choose the ultimate political status for their island. Presidents since Truman have been seeking such an authorization and each House has passed similar language in the past, but the same language has never passed both Houses and been enacted into law. Our approval of this appropriation should be read as Congress' determination to resolve the century-long question of the island's ultimate status and let Puerto Rican Americans choose a fully democratic governing arrangement if they wish to replace the current territorial status.

Second, by adopting this provision as part of the unanticipated needs account of the Office of the President, it is Congress' intention that its support for a future vote in Puerto Rico be coordinated with the Administration's efforts to provide realistic options to be included on the ballot in the island's next referendum. In recent months the President has brought Puerto Rico's major political parties together in an unprecedented effort to define the available political status options. Our approval of the \$2.5 Million request evidences our expectation that the White House will provide realistic options upon which to base a future status referendum. It can only responsibly allocate the funds for the consideration of options that are realistic.

Puerto Rican Americans have contributed to this Nation for over 102 years, both in peace and in wartime, and deserve the opportunity to resolve the uncertainty regarding their political status based on clearly defined status options consistent with the Constitution and U.S. law and with the support of Congress. This legislation along with realistic status options to be provided by the Administration will help us honor their contributions by moving the process of self-determination forward towards the establishment of a permanent and final political status for Puerto Rico.

TRIBUTE TO MRS. THELMA F. RIVERS

#### HON. JAMES E. CLYBURN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. CLYBURN. Mr. Speaker, I rise today to pay tribute to Mrs. Thelma F. Rivers of Timmonsville, South Carolina, prior to the celebration of her 115th birthday.

Mrs. Rivers was born on November 3, 1885. in Darlington, South Carolina, to a mother and father who were born into slavery. This makes her one of the few people to have ever lived to experience three centuries of American history. Her sharp memory is treasured by all. When Mrs. Rivers reminisces about her youth, she remembers picking two bales of cotton everyday and sewing quilts with tobacco thread.

Remarkably, Mrs. Rivers remains independent and capable despite her years. She is on no medication, and has no use for eyeglasses, hearing aids, or canes. Living alone until last year, she even chopped her own wood, being that she chose to remain living in a home still furnished with a wood burning stove. Many of her younger counterparts can't even boast of this type of health and auton-

Mrs. Rivers has been blessed with several children, nearly 100 grandchildren, numerous great grandchildren, and the list continues. She attributes her long life to her faith in God and allowing Him to "hold her hand while she runs this race.'

Mrs. Rivers has won no gold medals or Nobel prizes, but today, having lived through 115 years is a tremendous and commendable achievement. It is a testament to faith, strength, love, and wisdom.

Mr. Speaker, please join me in paying tribute to this miraculous South Carolinian upon the celebration of her birthday.

TRIBUTE IN HONOR OF THE CEN-TENNIAL OF SYMPHONY HALL IN BOSTON, MASSACHUSETTS

## HON. MICHAEL E. CAPUANO

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. CAPUANO. Mr. Speaker, it is with great pleasure that I rise today to pay tribute to one of America's most historic crown jewels, Symphony Hall, as it celebrates its centennial and its many contributions to Boston, the Nation and the world.

The Hall was the brainchild of "Major" Henry Lee Higginson, founder of the Boston Symphony Orchestra (BSO). In the early 1890s, Higginson made the decision to build Symphony Hall due to the fact that the Boston Music Hall was no longer meeting the needs of the BSO and its patrons.

Major Higginson chose Charles Follen McKim of the New York firm of McKim, Mead and White as the architect of the Hall. At that time, McKim was the most prominent architect in the United States. However, one of the most influential persons involved in the project

was a Harvard physicist by the name of Wallace Clement Sabine. Mr. Sabine, the founder of the science of architectural acoustics, served as acoustical consultant during the construction of the Hall. As a result of Sabine's input, Symphony Hall became the first concert hall designed with the aid of modern acoustical science, and today is ranked among the three best acoustical concert halls in the world.

Ground breaking on the Hall took place on June 12, 1899 and it opened its doors on October 15, 1900. Ever since its opening, Symphony Hall has played a major role in new music activity. It has been the scene of more than 250 musical world premiers, including major works by Samuel Barber, Aaron Copeland, George Gershwin, and John Williams.

Though it is principal home of the Boston Symphony and the Boston Pops orchestras, other performing artists use it 60–70 times a year. It is also interesting to note that for many years Symphony Hall was the largest public building in Boston and served as the city's major civic gathering place. Among such civic events were: the First Annual Automobile Show of the Boston Automobile Dealers' Association (1901); a debate on American participation in the League of Nations, advocated by Harvard President A. Lawrence Lowell and opposed by Senator Henry Cabot Lodge (1919); and all the inaugurations of Boston's Mayor James Michael Curley.

The Hall has regular radio and television broadcasts of the Boston Symphony Orchestra and the Boston Pops. The first radio broadcast took place on January 23, 1926, with the first national radio broadcast took place on October 4, 1930 in honor of the BSO's 50th anniversary. Television broadcasts from Symphony Hall began in 1963 and in 1969 the program Evening at Pops was launched in co-operation with WGBH. This program has gone on to become the second longest-running series on public television, after Sesame Street.

Today, Symphony Hall continues to have a profound impact on the world of music and maintains its distinction as one of the world's finest concert halls. The Department of the Interior recently paid fitting tribute to Symphony Hall's national and historic significance by designating it a National Historic Landmark. I have no doubt that Symphony Hall will continue to be a strong influence in the world of music for the next century and I want to extend my heart-felt congratulations to all those persons that have been entrusted with maintaining the legacy of Symphony Hall. So I close with wishing Symphony Hall a happy birthday and the good fortune of celebrating at least another one hundred.

RECENT VIOLENCE IN THE MIDDLE EAST

#### HON, BENJAMIN L. CARDIN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. CARDIN. Mr. Speaker, I rise today with a heavy heart, after learning this morning about the latest violence in Israel. News reports indicate that two Israeli reserve soldiers were killed in the West Bank town of Ramallah. The Israeli soldiers were detained by the Palestinian police after they inadvertently made a wrong turn down a street, and were taken to a police station. Apparently a mob of Palestinians broke into the police station, slaughtered the Israeli soldiers, and paraded their bodies through the streets.

I call on Mr. Arafat to live up to his obligations under the Oslo Accords, and to maintain public order and calm in the West Bank through a vigorous use of the Palestinian police force. Let us remember that the Palestinians now fully control over 40% of the West Bank and Gaza, with over 95% of the Palestinian population under the civil administration of the Palestinian Authority. As the Palestinians gain greater authority and control over their domestic affairs, they also must shoulder the additional security responsibilities that come hand-in-hand with territorial control. The Palestinians must ensure the safety of both Israelis and Palestinians within their areas of control

Mr. Arafat has personally assumed responsibility over all PLO elements and personnel in order to assure the maintenance of peace, law, and order in the West Bank. Just a few days ago Mr. Arafat allowed a Palestinian mob to destroy Joseph's Tomb, a Jewish holy site in the West Bank, just hours after Israeli troops withdrew and allowed the Palestinian police to take control.

Mr. Speaker, each of us prays for peace in the Middle East. The only way to achieve peace is for the Palestinian leaders to not only condemn but to take steps to stop terrorism and violence.

INTRODUCTION OF THE UNITED STATES COMMISSION ON SECURITY IN AN OPEN SOCIETY ACT

#### HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, October 12, 2000

Ms. NORTON. Mr. Speaker, today I introduce the United States Commission on Security in an Open Society Act, expressing an idea I have been working on for two years. Before our eyes, parts of our open society are gradually being closed down because of fear of terrorism. This act would begin a systematic response that takes full account of the importance of maintaining our democratic traditions while responding adequately to the real and substantial threat terrorism poses.

The bill I introduce today is being simultaneously introduced by the gentleman from New York, Senator Daniel Patrick Moynihan, who is retiring this year. His unique career, as the Senate's intellectual leader, and as architect of the revival of Pennsylvania Avenue and a good deal of the rest of the renaissance of the Nation's Capital makes him the perfect partner for this bill. Because the bill embodies much of the breadth of concerns of the man and his career, I believe that the passage of the United States Commission on Security in an Open Society Act during this Congress would be another fitting tribute to Senator MOYNIHAN's service.

Recent history has been marked by the rise of terrorism in the world and in this country. As a result, American society faces new and unprecedented challenges. We must provide higher levels of security for our people and public spaces while maintaining a free and open democratic society. As yet, our country has no systematic process or strategy for meeting these challenges.

When we have been faced with unprecedented and perplexing issues in the past, we have had the good sense to investigate them deeply and to move to resolve them. Examples include the Warren Commission following the assassination of President John F. Kennedy and the Kerner Commission following riotous uprisings that swept American cities in the 1960's and 1970's.

The problems associated with worldwide terrorism are of similar importance and dimension. The Act requires that a commission be presidentially appointed because to be useful in meeting the multiple problems raised, a careful balance of members representative of a cross section of disciplines will be necessary. To date, questions of security most often have been left to security and military experts. They are indispensable participants, but they cannot alone resolve all the issues raised by terrorism in an open society. In order to strike the balance required by our traditions, constitution and laws, a cross cutting group representing our best and wisest minds needs to be working at the same table.

With only existing tools and thinking, we have been left to muddle through, using blunt 19th century approaches, such as crude blockades and other denials of access. The threat of terrorism to our democratic society is too serious to be left to ad hoc problem-solving. Such approaches are often as inadequate as they are menacing.

We can do better, but only if we recognize and then come to grips with the complexities associated with maintaining a society with free and open access in a world characterized by unprecedented terrorism. The place to begin is with a high-level presidential commission of wise experts from an array of disciplines who can help chart the new course that will be required to protect both our people and our precious democratic institutions.

2000 ORGAN COORDINATOR IM-PROVEMENT ACT AND ORGAN DONOR ENHANCEMENT ACT

#### HON. JAY INSLEE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. INSLEE. Mr. Speaker, today I rise to introduce two bills to address organ scarcity, The Organ Coordinator Improvement Act and The Organ Donor Enhancement Act. These bills complement each other in their purpose to increase the number of recoverable organs and make the best use of available organs for transplant.

Every 14 minutes, a new person is added to the list of patients in need of an organ transplant. This list is 72,000 patients long today. Last year, we recovered over 21,000 organs for transplant from just over 10,000 individuals. In the same amount of time, we added 38,850 people to the list. These numbers illustrate the urgency behind this issue. Ten people die every day because there was no organ available for transplant. The single greatest barrier to saving lives with organ transplants is the scarcity of available organs.

I realize that we are at the end of session and the likelihood of these bills being enacted is minimal. But it is a crucial time to introduce these concepts and ask for support on this vitally important legislation. I am hopeful we can use this time between now and the start of the new Congress to build consensus on these initiatives. I want to gather opinions and expertise from my fellow members and the patients, organizations, and experts in their districts. The sooner we can get the ball rolling on this issue, the faster we will be able to save lives. We must act now to make progress on this heartbreaking inadequacy.

The problem is easy to define. There are simply not enough organs to meet the needs of the patients waiting for them on the transplant lists. The challenge before us is to maximize the number of available organs and to maximize the recovery of organs available for donation. When an organ becomes available for transplant, we must spare no resource to ensure that it is delivered to a patient in need. We can do this in three ways. We must first educate more people about organ donation and encourage them to become organ donors. HHS should be congratulated for their efforts in this regard. Next we must invest in research and resources for hospitals and medical schools to improve the success rates of organ donation and options available to those who are in need of organ transplants. Finally, we must make absolutely sure that no organ goes to waste. Currently only a fraction of organs available for donation are actually recovered and made available for transplant. That's where this legislation comes into effect.

Today I rise to introduce the Organ Coordination Improvement Act, which would dramatically improve the organ recovery rate. I asked the experts in hospitals and in organ procurement organizations what the single best thing Congress could do to assist with organ recovery efforts. The answer was simple: provide more staff in the hospital dedicated to this effort. This deceptively simple answer points to a greater truth. Only a very few hospitals and Organ Procurement Organizations actually have specifically trained and dedicated staff in the very setting that they are needed mostthe front lines of our health care system, When those staff do exist, they make a dramatic difference. A pilot program through HHS to put specifically trained Organ Coordinators in hospitals in Maryland and Texas had a dramatic effect. In one year, Organ Coordinators more than doubled the recovery rate for organs. By placing Organ Coordinators in the hospitals, hospital consortiums or OPOs with the greatest potential for organ coordination. there is a tremendous opportunity to double the number of lives saved through organ transplants.

This legislation does just that. The bill provides grants to fund staff positions for Organ Coordinators. A person in this position would be charged with coordinating the organ dona-

tion and recovery efforts within a hospital, or in some cases, a group of hospitals.

Half of Organ Coordinators would be employed by hospitals and the other would be employed by Organ Procurement Organizations (OPOs). Both hospitals and OPOs are leaders in organ recovery efforts and both should be involved in this process. To build on this positive partnership, a control board would be established to coordinate the activities of the Organ Coordinators. The control board would have representation from both the hospital and the OPO, irrespective of which entity received the grant.

By placing Organ Coordinators in the hospitals, hospital consortiums or OPOs with the greatest potential for organ coordination, there is a tremendous opportunity to double the number of lives saved through organ transplants. Hospitals and OPOs share an important goal and this bill will serve to augment local success stories and local partnerships that already exist in our communities.

The second bill that I am proposing is the Organ Donor Enhancement Act, which would establish a national living donor registry based on the National Bone Marrow Registry. Last year, 10,538 people made their organs available for transplants. Of these, 4,640 people were living donors. Last year there were 9,237 kidney transplants performed, 4,441 transplants from living donors. Clearly, organ transplants have progressed to the point where nearly 45 percent of all kidney transplants done in 1999 were from living donors.

Mr. Speaker, no longer must a patient on the transplant list wish for an organ to become available from a horrible accident. Now kidneys and livers may be transplanted from one person to another and we have an obligation to help save the lives of the more than 62,000 people waiting for them.

The National Bone Marrow Registry has operated successfully since 1986 by registering people who are willing to donate their bone marrow to save somebody's life. Sometimes these are family members, friends or even strangers who possess the courage and compassion to be a living organ donor. While maintaining the highest privacy protections for registered volunteers, doctors are able to search and locate potential organ matches. The sheer scale of a national organ registry will enhance the practice of organ transplantation with increased speed and efficiency that no other resource could offer.

The National Living Donor Registry aims to break down the largest barrier to organ transplantation. It increases the number of potential donors and establishes a mechanism for doctors to match organs to patients. Here in the shadow of the Capitol Dome, the Executive Director of the Washington Regional Transplant Consortium reports that more than 2 people a week contact her and inquire about becoming a living organ donor. Currently, living donors comprise 45 percent of all kidney transplants that are performed. The availability of living donors means particularly strong hope for liver and kidney transplants, especially because kidney patients make up two-thirds of the transplant wait list. The time is now for a voluntary, national list to enable these everyday heroes to become life-savers.

In the midst of a tragedy, an organ transplant can create something awesome. A trag-

edy can save a life. For grieving families, it can be consolation that death has not struck in vain, and that indeed, their loved one continues to give energy and life. For thank everyday heroes who seek to become living donors, their gifts are the greatest gift of all. It is wondrous that medical technology has brought us so close to the miracle of life through organ transplant. Transplants have been performed since the 1960's and are now performed for 11 organs. Just last year, new types of liver transplants were being performed.

We must work to maximize our resources and make the most efficient use of them. There is no doubt about the need for organs. The potential lives that could be saved should encourage us to work on these two pieces of legislation to increase the number of recoverable organs and maximize the potential of available organs.

Lastly, I must offer my gratitude to the numerous patients, doctors, hospitals, organ procurement organizations and other individuals who offered valuable feedback on these bills. Many people have already put much time and effort in assisting me with the best ways to address organ scarcity. They have provided invaluable assistance and counsel, advice and criticism, and I thank them for their help. I ask my colleagues and others interested in organ recovery, organ donation and organ transplantation to examine these bills and provide me with their comments.

It is my hope that by introducing these bills, more patients and professionals in the field will be inspired by these efforts to work with me. It is essential that they continue to be generous in their comments, opinions, questions, criticism, and ultimately, support. I welcome the response of my colleagues on these two bills and look forward to further discussion next session.

IN HONOR OF LIEUTENANT EUGENE CANFIELD, DETECTIVE JOSEPH LOPEZ, AND POLICE OFFICER ANGEL MALDONADO, RECENT RETIREES FROM THE JERSEY CITY POLICE DEPARTMENT

#### HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. MENENDEZ. Mr. Speaker, today I honor three recently retired police officers, who have dedicated their lives to serving and protecting Jersey City, New Jersey.

Lieutenant Eugené Canfield, Detective Joseph Lopez, and Police Officer Angel Maldonado retired on September 1, 2000, after exceptional careers as law enforcement officers. During their careers, these fine officers held one principle foremost in their minds: namely, that residents of Jersey City need and deserve a safe community.

Lieutenant Eugene Canfield began his career as an officer with the Jersey City Police Department on September 11, 1976. He is the recipient of two excellent police service awards and one police commendation. Lieutenant Canfield served in Operations (Patrol Division); Special Patrol Bureau; Central Communications Bureau; and the Field Leadership

and Training Unit. Lieutenant "Gene" Canfield was not only an exceptional police officer, but also a talented actor, playing Al Pacino's chauffeur in "Scent of a Woman."

Detective Joseph Lopez began his career as an officer with the Jersey City Police Department on September 11, 1976. He is the recipient of eight excellent police service awards, two commendations, the class "E" award, and a unit citation. Detective Lopez served in the East District Patrol; the Car Pound Administration; the Special Investigations Unit, the Auto Theft Squad, and the North District Detective Division.

Police Officer Angel Maldonado began his career with the Jersey City Police Department on February 23, 1981. He is the recipient of four excellent police service awards and two commendations. Officer Maldonado served in the Detective Squad; the Juvenile Bureau; the West District Patrol; and the East District Patrol

I commend these officers for their courage and commitment, and I ask that my colleagues join me in honoring them today.

JERSEY SHORE HUMANITARIANS HONORED

## HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. PALLONE. Mr. Speaker, on September 21, the Jersey Shore Chapter of The National Conference for Community and Justice (NCCJ) held its 32nd Anniversary Humanitarian Awards ceremony. NCCJ is a national human relations organization with local chapters dedicated to fighting bias, bigotry, and racism. It promotes understanding and respect among all races, religions and cultures through advocacy, conflict resolution and education.

So it is with great pride that I congratulate the recipients of this year's awards for their outstanding community service to the Jersey Shore, much of which I represent in Congress. They include:

Dr. Frank Arlinghaus, founder of our Congressional Award, chairman and president of the N.J. Congressional Award Council, Naval Reserve captain and Special Assistant for Reserve Affairs to the Medical Officer of the Marine Corps, and a pulmonary and critical care physician in Red Bank, N.J.;

Bahiyyah Abdullah, director of Marketing and Membership for the Ocean County Girl Scout Council for the last 12 years and active in numerous civic organizations, including the NAACP, Ocean County Human Relations Commission and Jack and Jill of America:

Solomon S. Greenspan, managing partner of Rudolf, Cinnamon & Calafato, LLC. He is on the board of the Monmouth County Jewish Federation, and the Urban League and is a Councilman for the Township of Ocean. He is past president of the Monmouth County Jewish Community Center and United Way.

The following two physicians helped develop the Parker Family Health Clinic, a free health center on Red Bank's west side:

Dr. Eugene F. Cheslock, an internist, is executive vice president of Meridian Health Sys-

tem, Riverview Medical Center's Riverview Foundation. He is past president of the Monmouth County Cancer Society and has received prestigious awards from the Urban League and the Salvation Army, among others.

Dr. Timothy Sullivan, an otolaryngologist, is senior vice president for medical affairs at Meridian Health System, Riverview Medical Center. He is a member of the Boards of Trustees of Volunteers in Medicine and Rio Vista Equipo Medico. He also serves as co-leader of medical missions to Guatemala to provide medical care, including cleft palate surgery.

The Women's Center of Monmouth County has, for 24 years, provided invaluable services to families affected by domestic violence and sexual assault and has received five major awards for its outstanding work. Anna M. Diaz-White, executive director and a staff member for 16 years, accepted the award on behalf of the Center. I congratulate Ms. Diaz White and all the staffers and volunteers who make the Center the valuable community asset that it is.

The Jersey Shore Chapter of NCCJ also applauded Anytown, NJ, a week-long program for high school students in which they break barriers, deal with biased behavior and develop an action plan to reduce prejudice in their hometowns.

I have worked with Dr. Arlinghaus for many years on the Congressional Award which seeks to encourage strong values and community service. Before that, he worked with the late Rep. James J. Howard, the original sponsor of the law enacting the Congressional Award program. Because of his association with an important Congressional initiative, I wanted to share with my colleagues a excerpts from his acceptance speech:

I submit the following excerpts from Dr. Arlinghaus's September 21 speech into the RECORD.

"It was many years ago this month that Joe Gouthro and I met the then Congressman Howard to describe to him a dream called the Congressional Award and ten years later it became a Public Law. Since that very humble beginning much has passed into our history. And from that very unique experience of working with Congress, I have observed many unique events and personalities and beg your indulgence to share a thought and a theme with you this evening.

"A new millennium has begun and our republic stands as what has been described as the world's indispensable nation. Two thousand years ago the Roman Empire in the western world occupied very much the same position economically, militarily and in the minds of those who lived then. The mythic story of the founding of the Roman Republic by the poet Virgil in the Aeneid emphasized one essential point, one essential virtue, one essential value. Aeneas was pious. He was humble before his 'gods' and from that piety flowed his strength and the future moral vibrancy of Rome. When Aeneas lost his piety, when Rome forsake that piety, when individual citizens abandoned that value, Rome

was lost."

"... Like pious Aeneas we are warned by history how important these values are. Can we be successful in keeping our sense of Community or our sense of Justice without such values? Whether it be through the NCCJ or the Congressional Award or through the works of our fellow citizens: Bahiyyah

and Sol, Eugene and Tim, and the Women's Center, these values are self-evident and command our allegiance. Such values are at the heart of the wonderful acts of service of my more-than-distinguished co-recipients this evening. As Hans Kung the noted philosopher and moralist wrote "the will of the almighty is carried out through service to human beings." And as our Founding Fathers prayed: "We have given you a Republic. It is up to you to keep it."

CONFERENCE REPORT ON H.R. 4205, FLOYD D. SPENCE NATIONAL DE-FENSE AUTHORIZATION ACT FOR FISCAL YEAR 2001

SPEECH OF

## HON. LORETTA SANCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 11, 2000

Ms. SANCHEZ. Mr. Speaker, as a member of the House Armed Services Committee, I rise in strong support of the National Defense Authorization Conference Report H.R. 4205.

I would like to thank Mr. Spence, Mr. Skelton, Subcommittee Chairs, Ranking Members, and of course Committee Staff for all the hard work that they put into reconciling the Defense Authorization Bill.

This year's Authorization Bill makes great strides toward improving Modernization, Quality of Life, and Military Readiness.

First, Military Health Care is getting on the right track, but we still have a lot of work to do to improve service to active duty and retired service members.

Second, Recruiting and Retention are showing signs of improvement, but will be a constant challenge during strong economies and changing demographics.

Although this committee has made significant improvements in quality of life benefits, I'm concerned that the junior ranks do not understand what these improvements mean to them

According to a DoD survey of service members, basic pay is the number one reason to stay or leave the military.

But do they understand the value of their benefits, beyond take home pay, when they make their decision to leave?

I have introduced legislation, H.R. 4388, which provides service members information on their benefits, to including VA benefits, the value of those benefits, and how their benefits compare to civilian counterparts.

Given this information, I hope more may understand the grass is not necessarily greener on the other side and opt to make a career out of military service.

I thank the Committee for acknowledging the merits of this legislation by including reporting language in this bill requiring the Department of Defense to report on what the Department is doing in educating service members on the value of their benefits.

Third, I would like to commend the Committee on their work in improving R&D accounts, specifically Science and Technology.

R&D is the future of this Nation's defense. We should not shortchange our future to fund present day shortfalls. R&D is critical in maintaining the technological edge to combat the

growing and changing threats to our Nation's security.

Finally, I would like to commend the Committee for incorporating H.R. 3396 in the Defense Authorization Bill and look at California as a potential production site for the Joint Strike Fighter.

An independent study found that building the JSF at the Air Force Plant 42 in Palmdale, California could save upwards of \$2 billion over the life of the project.

These savings are based on state and local economic incentives, such as tax credits, and inherent capabilities, such as the existing 1.2 million square foot B–2 production facility, highly trained aerospace work force, and close proximity to test facilities.

If we are asking taxpayers to support the best manned, equipped, and trained fighting force in the world, we must ensure it's the most cost effective fighting force in the world.

In closing, I commend all the Committee Chairs, Ranking Members and Staff for working with their Senate counterparts to produce a bipartisan bill that looks out for those who serve and preserve's our role as the World's premier fighting force.

I urge my colleagues to support this bill.

# TRIBUTE TO MIRIAM GOBSTOOB CANTER

## HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. DAVIS of Illinois. Mr. Speaker, on Thursday, October 12, 2000 the name of the Louis Wirth Experimental School in Chicago's Hyde Park neighborhood will be changed to honor one of its founders: Miriam Gobstoob Canter.

Almost one year after Miriam died, it will be a fitting tribute to the life of a most remarkable woman who devoted much of her life to public education

Miriam Gobstoob was born in 1923 in Boston, Massachusetts. She attended Boston University and joined the Women's Air Corps in 1944. She devoted herself to the war effort and was a part of the successful effort to integrate her company.

After the war, and her honorable discharge, she joined the first all-women's Jewish War Veteran's Post. She became a commander of that post and later in life commander of the Chicago Jewish War Veteran's Post, the only woman to command two such posts.

In 1956 she married David S. Canter and moved to Chicago where she dived into work, family and community activism.

Their children, Marc, Evan and Anna drew Miriam into a lifetime commitment to education including President of the Kenwood-Ellis Cooperative Nursery School, President of the Shoesmith School PTA, President of Wirth School PTA, President of Kenwood High School PTA, President of Mero High School PTA, Community Representative of Wirth Local School Council.

She was recognized with awards including the Distinguished Service Award for 25 years of service to public education at Wirth School and the Achievement Award for 10 years Service for Local School Council participation.

There were many other facets to Miriam's love of community and country.

She worked for over 20 years at Michael Reese Hospital, was a founding board member of the Michael Reese Health Plan and the Women's Health Initiative. She was active in protecting the rights and interests of hospital workers.

Miriam made her home a center for activism and was fiercely active in the struggle for civil rights, banning nuclear weapons and in opposition to the war in Vietnam. From freedom marches and peace meetings to fund-raising events and making sandwiches no job was too big or too small for Miriam.

She was awarded (posthumously) the Unsung Heroine Award by the Cook County Women's Commission.

Miriam's home was a joyous place to visit. She was a hostess par excellence, and, according to at least one eye witness was a key player in the greatest little floating mah jongg game in Chicago.

Miriam is survived by her husband, three children, six grandchildren and uncounted friends, neighbors and coworkers. She will be remembered not only because her name is affixed to a public middle school, but because her name in indelibly engraved in the hearts of all those who knew her.

#### PERSONAL EXPLANATION

## HON. JIM KOLBE

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. KOLBE. Mr. Speaker, on October 10, 2000, I was on an airplane returning from my district and missed the following votes: H.R. 208, to amend Title 5, U.S. Code, to allow for the contribution of certain rollover distributions to accounts in the Thrift Savings Plan; H.R. 762, the Lupus Research and Care Amendments; and S. 2438, the Pipeline Safety Improvement Act.

Had I been present, I would have voted "yea" on all three of these votes (#519, #520 and #521).

A TRIBUTE TO MRS. DALE STRAYHORN, PRINCIPAL OF ROCHELLE MIDDLE SCHOOL, LENOIR COUNTY, NORTH CAROLINA

## HON. EVA M. CLAYTON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mrs. CLAYTON. Mr. Speaker, for almost two decades, Mrs. Dale Strayhorn has quietly and effectively touched the lives of hundreds of young people. As a teacher, school administrator and principal, she has helped our communities meet the challenge of child-raising.

She has now brought her considerable energy and expertise to Rochelle Middle School in Lenoir County, North Carolina, where she

currently serves as principal. Since arriving at Rochelle, she has made every student feel important and has made every parent feel that the education of their child is being taken very seriously.

Dale Strayhorn is an educator, a mentor, an advisor, an advocate, a counselor, a visionary. She cares. She dares to be different, and she has made a difference. But, her path to excellence has not been easy. Like all who teach well, she first had to learn. One of eight children, she was instructed by her father to "get a job or go to college." She did both. She attended North Carolina Central University in Durham, and she took on the tough task of raising her daughter Gwen, beginning in her Sophomore year.

Over the years, Mrs. Strayhorn has taught elementary school, taught military-dependent children and taught alternative school children, among many other experiences. In all instances, she has emphasized character building, skill development and preparation for the future.

Despite her many accomplishments and her tireless agenda, she has always found time to be a devoted wife, a loving mother, a dedicated daughter and a dutiful member of her church. While balancing many responsibilities, she has never neglected to balance her priorities—those things most important in life—family, friends, neighbors, community and church.

Those who are charged with the education, growth and development of our young people must be among the best, the brightest, the most honorable. They must love what they do and conduct themselves with the highest standards and with impeccable integrity. Mrs. Dale Strayhorn meets and exceeds all of those qualities.

While she has assumed the role of Principal at Rochelle, above all, she is a teacher, one who guides, instructs and paints a path for others to follow. She deserves our praise and adulation.

RECOGNIZING THE 75TH ANNIVER-SARY OF THE UNIVERSITY OF ROCHESTER MEDICAL CENTER

## HON. THOMAS M. REYNOLDS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. REYNOLDS. Mr. Speaker, I rise today to recognize the 75th Anniversary of the University of Rochester Medical Center.

From quality, compassionate patient care to cutting-edge research to individualized student education, the University of Rochester Medical Center has earned a nationwide reputation for excellence. Since its founding by Dean George Hoyt Whipple, the School of Dentistry and Medicine has produced some of our country's most skilled doctors and researchers, whose commitment to the art of healing has made a real difference in the lives of countless people and families.

To continue their tradition of excellence and prominence, the University of Rochester Medical Center will today mark the investiture of three deans, who will build on the center's successes heading into its second 75 years of

#### **EXTENSIONS OF REMARKS**

service. They are Patricia Chiverton, Ed.D., R.N., EN.A.P., third dean of the School of Nursing; Deborah Cory-Slechta, Ph.D., first dean of Research of the School of Medicine and Dentistry and Director of the Aab Institute of Biomedical Sciences; and Edward Hundert, M.D., as the eighth dean of the School of Medicine and Dentistry.

Mr. Speaker, I ask that this House of Representatives join me in saluting the achievements of the University of Rochester Medical Center on the occasion of their 75 Anniversary, and that this Congress join with me in wishing continued success upon the celebration of the investiture of Deans Hundert, Cory-Slechta and Chiverton.

CONFERENCE REPORT ON H.R. 3044, VICTIMS OF TRAFFICKING AND VIOLENCE PROTECTION ACT OF 2000

SPEECH OF

## HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mrs. MORELLA. Mr. Speaker, there have been many members who have supported my efforts to reauthorize the Violence Against Women Act. One such member, Representative LLOYD DOGGETT, spoke in support of this legislation and also sought to become a cosponsor of this act. Unfortunately, a communication error in the clerk's office precluded him from being added as an official co-sponsor. I would like to thank Mr. DOGGETT for his efforts in support and cosponsorship of this legislation

PERSONAL EXPLANATION

#### HON. SUE WILKINS MYRICK

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mrs. MYRICK. Mr. Speaker, due to my duties at the presidential debate last night, I was unable to participate in the following votes. If I had been present, I would have voted as follows:

Rollcall vote 526, on the Motion to Instruct Conferees on H.R. 2415 to enhance Security of United States missions and personnel overseas, I would have voted "yea;" Rollcall vote 525, on agreeing to the Conference Report for the Agriculture and Rural Development Appropriations, I would have voted "nay;" and Rollcall vote 524, on ordering the Previous Question to waive points of order against the Motion to Instruct Conferees on H.R. 2415 to enhance Security of United States missions and personnel overseas, I would have voted "yea."

IN HONOR OF MRS. FARAH M. WALTERS

## HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. KUCINICH. Mr. Speaker, today I honor Mrs. Farah M. Walters who has been awarded the title of "Woman of Achievement" for her outstanding work in the field of health services.

Farah M. Walters has led a remarkable 32 vear career in the health care industry. Her commitment to the well-being of the community is an example to us all. She has received due recognition for her remarkable public service. In June 2000, Mrs. Walters was awarded the March of Dimes Golden Mile Award for her leadership and dedication to saving babies. In addition to local community service, she was appointed to Mrs. Hillary Rodham Clinton's National Health Care Reform Task Force. Later that year, "Modern Healthcare" selected her as one of 50 individuals to shape future development of American health care. She has demonstrated commendable dedication to all aspects of the heath care field.

In her career, Mrs. Walters has undertaken positions of great responsibility. As president and chief executive officer of University Hospitals Health System and University Hospitals of Cleveland, she presides over a system that includes more than 15, 000 employees, working in over 100 health service locations in 55 Northeast Ohio communities. While under Farah Walters' leadership, University Hospitals of Cleveland received the Exemplary Voluntary Effort (EVE) Award from the U.S. Department of Labor. This continuing commitment to one of the most important areas of public service deserves to be rewarded with due recognition and respect.

I ask my colleagues in the House of Representatives to join me today in honoring Mrs. Farah M. Walters whose outstanding community-based work has earned her the distinguished accolade, "Woman of Achievement."

#### THE ENVIRONMENT

#### HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Ms. LEE. Mr. Speaker, for me, three key issues that we must as a community and a nation address are environmental justice, sprawl and livability, and the need to protect California's and the country's ecosystems.

All three of these issues are linked to a crucial concern that is very much on Americans' minds right now: energy.

Rising oil prices and falling home fuel oil supplies both point out one clear, absolute fact: fossil fuels represent a limited and gradually disappearing resource.

We need to address this problem today.

The answer to our oil problem does not lie in pillaging the Arctic National Wildlife Refuge, a precious, fragile, and unique ecosystem.

It does not lie in keeping current lax standards for gas mileage.

It does not lie in denying the basic fact that our planet is growing warmer and that the burning of fossil fuels is a significant factor in global warming.

It does not lie in polluting our soil, our water, our air, and our children with toxins.

The answers have to lie in conservation and innovation

One answer is to raise the corporate average fuel economy standards across the board: Detroit can build more efficient cars; we need to increase the incentives to buy them and increase the disincentives to use gasoline wastefully.

California is leading the way in promoting greater fuel efficiency and searching for alternative energy technologies.

We need to work toward fuel cells, hybrid cars, and other alternative technologies.

We need to invest in mass transit. It will cost money but the dividends in reduced pollution, increased conservation, and reduced sprawl will be far greater than the initial price tags.

And we need to undertake these efforts today.

Our environment depends on it and in the long run so does our economy.

CONGRESSIONAL BUDGET OFFICE COST ESTIMATE FOR H.R. 4721

## HON. DON YOUNG

OF ALASKA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. YOUNG of Alaska. Mr. Speaker, I submit for the benefit of the Members a copy of the cost estimate prepared by the Congressional Budget Office for H.R. 4721, a bill to provide for all right, title, and interest in and to certain property in Washington County, Utah, to be vested in the United States.

U.S. Congress,
Congressional Budget Office,
Washington, DC, October 10, 2000.
Hon. Don Young,

 $\label{lem:committee} Chairman, Committee \ on \ Resources, \\ House \ of \ Representatives, \ Washington, \ DC.$ 

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 4721, an act to provide for all right, title, and interest in and to certain property in Washington County, Utah, to be vested in the United States.

If you wish further details on this estimate, we will be pleased to provide them, The CBO staff contacts are John R. Righter (for federal costs), and Lauren Marks (for the private-sector impact).

Sincerely,

BARRY B. ANDERSON (For Dan L. Crippen, Director).

Enclosure.

H.R. 4721—An act to provide for all right, title, and interest in and to certain property in Washington County, Utah, to be vested in the United States

H.R. 4721 would transfer about 1,550 acres in real property in Washington County, Utah, to the federal government. As compensation for the government's taking of private property, the legislation would provide an immediate payment of \$15 million, with a subsequent amount to be paid to Environmental Land Technology, Ltd., the property

owner, at a later date. The amount of the second payment would depend, in part, on whether the federal government could negotiate a settlement with the property owner.

Under a negotiated settlement, the second payment would include the difference between the property's appraised value and the initial payment of \$15 million, plus interest accrued from the date of the legislation's enactment. Alternatively, if the amount of the second payment is decided in a court of law, it would include the remaining property value as determined by the court, accrued interest, reasonable expenses of holding The property from February 1990 to the date of the final payment, and reasonable court costs and attorneys' fees. The legislation would provide the full faith and credit of the United States to make such payments without farther appropriation.

CBO estimates that enacting H.R. 4721 would increase direct spending by \$15 million in fiscal year 2001. The amount of the second payment is uncertain and will probably be determined in court. Based on information from the Bureau of Land Management (BLM), CBO estimates that a second payment of \$43 million would be made in 2002. The estimated total of \$58 million is the midpoint between the government's and the property owner's estimates of the property's value (between \$30 million and \$70 million), plus accrued interest and reasonable property and court-related expenses. This estimate assumes that, based on the wide difference in their estimates of the property's value, the two sides would be unable to negotiate an out-of-court settlement. Because H.R. 4721 would affect direct spending, payas-you-go procedures would apply. changes in direct spending are shown in the following table.

	By fiscal year, in millions of dollars										
	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	
Changes in outlays Changes in receipts	15 (¹)	43 (¹)	0 (¹)	0 (¹)	0 (¹)	0 (¹)	0 (1)	0 (¹)	0 (¹)	0 (1)	

Not applicable.

In addition, because it is possible that BLM would have purchased the property under current law using funds appropriated from the Land and Water Conservation Fund, implementing the legislation could reduce the need for future appropriations.

H.R. 4721 contains no intergovernmental mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would impose no costs on state, local, or tribal governments, H.R. 4721 would impose a private-sector mandate, as defined in UMRA, on the property owner who would be required to confer his property to the, federal government, CBO estimates that the cost of complying with the mandate would fall below the annual threshold established by UMRA (\$109 million in 2000, adjusted annually for inflation).

The legislation would require, 30 days after enactment, the landowner to confer to the United States all right, title, and interest in and to, his property located within and adiacent to the Red Cliffs Reserve. That requirement would be a mandate as defined in UMRA. The cost of complying with the mandate would be the fair market value of the land, expenses incurred and lost interest in transferring the property to the federal government, and the costs of relocating. Estimates of the value of the property range between \$30 million and \$70 million. Thus, CBO expects that the direct costs of complying with the mandate would fall below the threshold established by UMRA (\$109 million for private-sector mandates in 2000, adjusted annually for inflation). The legislation provides that, in exchange for his land, the landowner would receive an initial payment \$15 million, as well as a subsequent payment to be determined either through a negotiated settlement or through litigation.

On October 10, 2000, CBO transmitted a cost estimate for S. 2873, a similar bill reported by the Senate Committee on Energy and Natural Resources on October 2, 2000. CBO's two cost estimates are identical.

The CBO staff contacts for this estimate are John R. Righter (for federal costs) and Lauren Marks (for the private-sector impact). This estimate was approved by Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.

INTRODUCTION OF H. CON. RES. 426 CONCERNING THE VIOLENCE IN THE MIDDLE EAST

## HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. GILMAN. Mr. Speaker, the past two weeks have seen tension in the Middle East spiral out of control as PLO Chairman Yassir Arafat attempts to dictate Israeli concessions at the negotiating table through the unbridled use of violence, and, most appallingly, through the manipulation of young children as "martyrs in training".

This massive and fundamental violation of the Oslo Accords is intentional, as underscored when the leader of the Tanzim paramilitary forces in the West Bank said yesterday that his organization would escalate the confrontations with Israel and not try to calm the situation. Marwan Barghuti said, blessed Intifada is looking ahead and the mass activity is moving forward".

Mr. Speaker, in today's latest outrage, a Palestinian mob killed two Israeli soldiers and dumped their bloodied bodies in the street after the pair were captured with two other servicemen earlier today in the Palestinian city of Ramallah.

That is why I felt compelled to introduce a resolution, H. Con. Res. 426 on behalf of myself and Mr. GEJDENSON, our ranking Minority Member on the House International Relations Committee, condemning the Palestinian violence, and expressing congressional support for the people of Israel at this time of crisis.

The Palestinians must understand that you can't have it both ways. The Government of Israel has made clear to the world its commitment to peace time and time again. We see that the Palestinian response is violence.

Accordingly, I submit the text H. Con. Res. 426 to be printed at this point in the CONGRES-SIONAL RECORD, and urge our colleagues to strongly support this.

### H. CON. RES. 426

Whereas the Arab-Israeli Conflict must be resolved by peaceful negotiation;

Whereas since 1993 Israel and the Palestinians have been engaged in intensive negotiations over the future of the West Bank and

Whereas the United States, through its consistent support of Israel and the cause of peace, made the current peace process possible:

Whereas the underlying basis of those negotiations was recognition of the Palestine Liberation Organization (PLO) by Israel in exchange for the renunciation of violence by the PLO and its Chairman Yasser Arafat, first expressed in a letter to then-Israeli Prime Minister Yitzhak Rabin dated September 9, 1993, in which Mr. Arafat stated: "[T]he PLO renounces the use of terrorism and other acts of violence, and will assume responsibility over all PLO elements and personnel in order to assure their compliance, prevent violations and discipline viola-

Whereas as a result of those negotiations, the Palestinians now fully control over 40 percent of the West Bank and Gaza, with over 95 percent of the Palestinian population under the civil administration of the Palestinian Authority;
Whereas as a result of peace negotiations,

Israel turned over control of these areas to the Palestinian Authority with the clear understanding and expectation that the Palestinians would maintain order and security there:

Whereas the Palestinian Authority, with the assistance of Israel and the international community, created a strong police force, almost twice the number allowed under the Oslo Accords, specifically to maintain public order:

Whereas the Government of Israel made clear to the world its commitment to peace at Camp David, where it expressed its readiness to take wide-ranging and painful steps in order to bring an end to the conflict, but these proposals were rejected by Chairman Arafat:

Whereas perceived provocations must only be addressed at the negotiating table;

Whereas it is only through negotiations, and not through violence, that the Palestinians can hope to achieve their political aspirations;

Whereas even in the face of the desecration of Joseph's Tomb, a Jewish holy site in the West Bank, the Government of Israel has made it clear that it will withdraw forces from Palestinian areas if the Palestinian Authority maintains order in those areas; and

Whereas the Palestinian leadership not only did too little for far too long to control the violence, but in fact encouraged it: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) expresses its solidarity with the state and people of Israel at this time of crisis;

(2) condemns the Palestinian leadership for encouraging the violence and doing so little for so long to stop it, resulting in the senseless loss of life:

(3) calls upon the Palestinian leadership to refrain from any exhortations to public incitement, urges the Palestinian leadership to vigorously use its security forces to act immediately to stop all violence, to show respect for all holy sites, and to settle all grievances through negotiations;

(4) commends successive Administrations on their continuing efforts to achieve peace in the Middle East;

(5) urges the current Administration to use its veto power at the United Nations Security Council to ensure that the Security Council does not again adopt unbalanced resolutions addressing the uncontrolled violence in the areas controlled by the Palestinian Authority; and

(6) calls on all parties involved in the Middle East conflict to make all possible efforts to reinvigorate the peace process in order to prevent further senseless loss of life by all sides.

CALLING FOR AN FDA INVESTIGA-TION INTO ABUSE OF AVERAGE WHOLESALE PRICE SYSTEM

## HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. STARK. Mr. Speaker, last week, I sent the following letter to the FDA, in support of an investigation concerning how some of the nation's leading drug manufacturers are using false pricing data to distort the practice of medicine in America.

The letter details what I believe to be the bilking of the Medicare system by a number of large, powerful drug companies. The evidence I have been provided shows that certain drug companies are making enormous profits available to many doctors on the "spread" between what Medicare and other payers reimburse for a drug (the average wholesale price), and what that drug is really available for.

These companies have increased their sales by abusing the public trust and exploiting America's seniors and disabled. It is my firm belief that these practices must stop and that these companies must return the money to the public that is owed because of their abusive practices.

The data in the letter is an indictment of the companies' abuse of the taxpayer and of the patient.

The letter follows:

CONGRESS OF THE UNITED STATES,

House of Representatives, Washington, DC, October 3, 2000.

Dr. Jane E. Henney,

Commissioner, Food and Drug Administration, Rockville, MD.

DEAR DR. HENNEY: I would like to share with you concerns I have regarding the conduct of certain drug companies that are regulated by your agency. Internal drug company documents and other evidence from an industry insider, obtained through a Congressional investigation, have exposed deliberate price manipulation by some drug companies. I believe drug companies' misleading acts are exploiting the health care needs of

our most seriously ill, poor, disabled and elderly citizens and taking money from the pockets of innocent Medicare beneficiaries who are required to pay 20% of Medicare's current limited drug benefit. These wrongful actions cost federal and state governments, private insurers, and others billions of dollars per year in excessive drug payments and corrupt the professional independence of medical decision makers.

The compelling evidence recently amassed by Congressional investigators reveals that certain drug companies have been reporting and publishing inflated and misleading price data and have engaged in other deceptive business practices in order to manipulate and inflate the prices of certain drugs. The drug manufacturers have perpetrated this fraudulent price manipulation scheme for the express purpose of causing the Medicare and Medicaid Programs to expend excessive amounts in paying claims for certain drugs. The inflated reimbursement arranged by certain drug companies is used to aggressively market the drugs in question, to influence physician prescribing practices, and to increase sales and market share.

The evidence I have seen indicates that the drug companies involved have knowingly, deliberately, and falsely inflated their representations of the average wholesale price ("AWP"), wholesaler acquisition ("WAC") and direct price ("DP") which are utilized by the Medicare and Medicaid programs in establishing drug reimbursements to providers. The evidence also clearly establishes that, contrary to previous drug company representations, the initial source of the price data is the drug companies themselves and those acting in concert with them. I have learned that the difference between the inflated AWP and WAC versus the true prices paid by providers is regularly referred to by industry insiders as spread.'

The Congressional investigation establishes that this "spread" has not occurred accidentally but is the product of conscious and fully-informed business decisions. Bristol-Myers Squibb (BMS) documents, for example, demonstrate drug company control over the spread and knowledge that the spread acts as a financial inducement that affects medical judgments. I am told that BMS, as the innovator of the cancer drug Etoposide, repeatedly published inflated prices of approximately \$138 while the true market price fell to less than \$10. BMS then developed Etopophos, a newer, therapeutically superior substitute for Etoposide. As the following excerpts from EMS' own documents reveal, BMS' earlier participation in the false price manipplation scheme with Etoposide interfered with physician medical decisions to use Etopophos:

"The Etopophos product profile is significantly superior to that of etoposide injection . . ." (Exhibit #1).

..." (Exhibit #1).

"Currently, physician practices can take advantage of the growing disparity between VePesid's [name brand for Etoposide] list price (and, subsequently, the Average Wholesale Price [AWP]) and the actual acquisition cost when obtaining reimbursement for etoposide purchases. If the acquisition price of Etopophos is close to the list price, the physician's financial incentive for selecting the brand is largely diminished" (Exhibit #2).

"BMS' control over the AWPs published for its drugs is revealed in the following excerpt from a letter to the national publisher of drug prices relied on by the Medicaid Program: "Bristol-Myers Squibb Company:

"Edward Edelstein, First Data Bank . . . "DEAR MR. EDELSTEIN: Effective immediately, Bristol-Myers Oncology Division products factor used in determining the AWP should be changed from 20.5% to 25%. This change should not affect any other business of Bristol-Myers Squibb Company" (Exhibit #3).

As a result of BMS' instructions, I am told First Data Bank recalculated BMS' AWPs and reported them to the State Medicaid agencies and Medicare Carriers as a BMS price increase when in truth it was nothing more than a means of creating a greater "spread" for BMS drugs.

Additionally, the drug companies in question often falsely state that they have no control over the AWPs and other prices published for their drugs. Comparing the following excerpts from a 1996 Barron's article entitled, "Hooked On Drugs," and Immunex's own internal documents reveals that drug companies do indeed have control over their prices:

"But Immunex, with a thriving generic cancer-drug business, says its average wholesale prices aren't its own. 'The drug manufacturers have no control over the AWPs published . . .,' says spokeswoman Valerie Dowell' (Exhibit #5).

"Kathleen Stamm, Immunex Corporation

"DEAR KATHLEEN: This letter is a confirmation letter that we have received and entered your latest AWP price changes in our system. The price changes that were effective January 3, 1996 were posted in our system on January 5, 1996. I have enclosed an updated.

"Sincerely, Lisa Brandt, Red Book Data Analyst" (Exhibit #6)

The drug companies involved are well aware of the destructive impact their price manipulation has on prescription drug costs, as stated in the following excerpt from a Glaxo internal document:

"Is the [pharmaceutical] industry helping to moderate health care costs when it implements policies that increase the cost of pharmaceuticals to government?" (Exhibit #4).

These examples of clear deception appear to be "only the tip of the iceberg" as demonstrated by the evidence reflected in composite Exhibit #5. This evidence indicates that an official of the state of Florida Medicaid pharmacy program contacted Hoechst Marion Roussel directly requesting pricing for Hoechst's information new drug Anzemet. Exhibit #5 is a copy of the fax sent to the Florida Official by Hoechst containing Hoechst representations of its prices.

The following chart represents a comparison of Hoescht's fraudulent price representations for its injectable form of the drug versus the actual prices paid by the industry insider. The industry insider was aware that a 100 mg vial of Anzemet could be purchased from a wholesaler/distributer for \$70.00. The chart compares Hoescht's price representations for the tablet form of Anzemet and the insider's true prices. It is extremely interesting that Hoescht did not create a spread for its tablet form of Anzemet but only the injectable form. This is because Medicare reimburses doctors for the injectable form of this drug and not the tablet form. And by providing doctors a profit, Hoescht can influence prescribing. The tablet form is usually dispensed by pharmacists who accept the doctor's order. This example reflects the frustration that federal and state regulators have experienced in their attempts to estimate the truthful prices being paid by providers in the marketplace for prescription drugs. Likewise, it underscores that we cannot rely upon the drug companies to make honest and truthful representations of their prices, and that Congress may be left with no alternative other than to legislate price controls.

Some drug companies have also utilized a large array of other impermissible inducements to mask true prices and stimulate sales of their drugs. These inducements, including bogus "educational grants," volume discounts, and rebates or free goods are designed to result in a lower net cost to the purchaser, while concealing the actual cost beneath a high invoice price. A product invoiced at \$100 for ten units of a drug item might really only cost the purchaser half that amount. Given, for instance, a subsequent shipment of an additional ten units at no charge, or a "grant," "rebate" or "credit memo" in the amount of \$50, the transaction would truly cost a net of only \$5.00 per unit. Through all of these "off-invoice" means, drug purchasers are provided substantial discounts in exchange for their patronage, while maintaining the fiction of a higher invoice price—the price that corresponds to reported AWPs and inflated reimbursement from the government (Composite Exhibit #6):

The above document is particularly disturbing as it indicates that at least one purpose of "masking" the final price with free goods is so that the Federal Supply Schedule ("FSS") falsely appears to be less than that of the hospital price.

Such misleading statements about pharmaceutical products by drug companies clearly entails deliberate price manipulation and in my opinion appears to be directly contrary to the letter and spirit of FDA law. For example, in 1997 Pharmacia & Upjohn reported an AWP of \$946.94 for 200 mg. of Adriamycin PFS while it was offering to sell it to doctor groups such as American Oncology Resources for \$168.00 and to Comprehensive Cancer Center for \$152.00 (Composite Exhibit #7). Pharmacia & Upjohn then aggressively marketed its cancer drugs to health care providers by touting the financial inducements created by the false price representations and other types of monetary payments. It is apparent that Pharmacia & Upjohn created and marketed the financial inducements for the express purpose of influencing the professional judgment of doctors and other health care providers.

Moreover, Pharmacia & Upjohn's strategy of increasing the sales of its drugs by enriching, with taxpayer dollars, the doctors and others who administer them is reprehensible and a blatant abuse of the privileges that Pharmacia & Upjohn enjoys as a major pharmaceutical manufacturer in the United States. This is perhaps best illustrated by Pharmacia & Upjohn's own internal documents which reveal that it actually abused its position as a drug innovator in an initial Phase III FDA clinical trial for a cancer drug used to treat lymphoma, as detailed in Composite Exhibit #8:

The linking of doctor participation in FDA clinical drug trials to the purchase and administration of profit-generating oncology drugs is entirely inconsistent with the objective scientific testing that is vital to the integrity of the trial. I am hopeful that the FDA will take immediate action to stop such behavior. Such quid pro quo in connection with new drug trials cannot be tolerated.

Doctors must be free to choose drugs based on what is medically best for their patients. It is highly unethical for drug companies to provide physicians with payments for FDA clinical trials and inflated price reports that financially induce doctors to administer their drugs to patients. In particular, Pharmacia & Upjohn's conduct, along with the conduct of other drug companies, is estimated to have cost taxpayers over a billion dollars. It also has a corrupting influence on the exercise of independent medical judgment both in the treatment of severely ill cancer patients and in the medical evaluation of new oncological drugs.

My reading of the Federal Food, Drug, and Cosmetic Act and the corresponding regulations suggests that the FDA should pay particular attention to these misleading drug company actions. Accordingly, I am requesting that the FDA conduct a comprehensive investigation into drug company business practices.

Notwithstanding potential prohibitions under the Food Drug and Cosmetic Act, it appears drug manufacturers purposely create confusion and make false and misleading statements about drug pricing in order to deceive the United States Government and the States' Medicaid Programs. Recently there has been much media coverage of this issue—an article entitled "Drugmakers Accused of Price Scheme" in the USA Today and one entitled "How Drug Makers Influence Medicare Reimbursements to Doctors" in the Wall Street Journal.

In the larger sense, this letter and its accompanying exhibits raise questions of drug companies' wrongful influence on physician prescribing behavior, which leads to unsafe medical practice in the U.S. In light of these findings, I urge you to undertake a comprehensive review to ensure Americans are prescribed pharmaceuticals that are safe and effective. Physician prescribing should be based on need, not greed. I am extremely concerned that profit may be causing the public to be prescribed drugs that are not safe and effective for patients.

I have referred this evidence to you so that you may take action against these fraudulent schemes and, if appropriate, enforce relevant law and FDA regulations. I hope that you will take any and all administrative actions to ensure the integrity of drug pricing on behalf of the safety of the American public. And I look forward to discussing with you any necessary legislative solutions.

Sincerely,

PETE STARK, Member of Congress.

TRIBUTE TO ARTHUR MALAN TINKER ST. CLAIR, AN OUTSTANDING WEST VIRGINIAN, ON HIS RETIREMENT AS U.S. SENATE DOORKEEPER

#### HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. RAHALL. Mr. Speaker, two days ago our distinguished senior Senator from West Virginia, ROBERT C. BYRD, rose on the floor to pay tribute to "Tinker" St. Clair of McDowell County, West Virginia. At the end of this year, Tinker St. Clair will retire from his post as senior Doorkeeper in the U.S. Senate after 21

years of distinguished service to that body. Mr. Speaker, that is but a small part of this man's remarkable contribution to his family, his community, his State and his Nation. When Arthur St. Clair was a toddler, he was an active little boy which led his grandmother to call him a "little stinker." His envious brother, who couldn't yet pronounce all his words, called him "a little tinker," and the nickname "Tinker" has remained with Arthur to this day.

Arthur "Tinker" St. Clair, born on January 6, 1916, is today 84 years old, having lived a busy, varied life with his late wife of 56 years, Elnora Hall St. Clair, raising their children Patty Lee and Linda, now Linda St. Clair Pence, wife of Ed Pence. Tinker is looking forward to his retirement, so that he can spend some quality time with his three grandchildren, Kimberly George, and Edwin Bryan and Mack Malan Pence. Tinker also looks forward to his greatest love, spending time with his two great-grandchildren, Nicholas Paul George and Jonathan Malan George.

Being a West Virginian, Tinker is the descendant from his father William Woods St. Clair, coal miner, school board member, and small businessman, and his homemaker mother Etta Mae Cochran St. Clair. Tinker was brought up with a strong work ethic, family values, and more than a gentle nudge toward community service handed down by his parents and grandparents, in what has been called "the free state of McDowell."

Mr. Speaker, I have the honor to represent McDowell County, West Virginia, Tinker's homeplace. I just as importantly have the honor of calling Tinker a dear and true friend from day one. Over the years, this southernmost county has seen a decline in population from 100,000 coal miners and their families, to today's count of approximately 30,000 men, women and children. The population drop was brought about when coal mines began to mechanize, and during those years of decline, unemployment has remained higher than the national average for the people who remained in McDowell County. It was the good, strong, determined people like Tinker St. Clair who stayed in the county and who never stopped helping his people in good times and in bad, until his retirement there in 1979.

Upon graduating from Gary High School in 1937, his first job was driving a school bus for McDowell County Public Schools. That is when he first met his future wife, Elnora. Once he was married and raising his children, Tinker went to work in 1941 for the Consolidated Bus Lines (which later became Continental Trailways), where he worked until 1947. Realizing how important transportation was and is for his community of deep valleys and winding roads, it wasn't long before Tinker started his own taxi service company in 1947, serving Welch, Pineville and Oceana, West Virginia.

But Tinker was born of parents who were also deeply involved in community affairs, and he and his wife Elnora were always ready, willing and able when it came to serving on local political committees, and both were active in the Democratic party of McDowell County West Virginia. As Tinker will tell you, McDowell County went Democratic in 1934 when the first-ever Democrat was elected, and the county has remained a democratic stronghold, with Tinker's help, ever since.

Tinker was proud to be politically active, and he traveled around the county campaigning for Harry Truman, John F. Kennedy, and Lyndon Baines Johnson. He also traveled the county

with the late Senator Jennings Randolph, with our senior Senator ROBERT C. BYRD, JAY ROCKEFELLER, and NICK J. RAHALL—and I can tell you that it was a great pleasure whenever I found myself at Elnora's table many, many times during my own campaigns for the House. Tinker recalls that when traveling the county with Ben Cartwright of Bonanza fame. he invited him and his associates back to his home for a home cooked meal-requiring his wife Elnora to have to scramble to fix the meal on a moment's notice-but she did it with great pleasure, for she was as committed as Tinker to helping out the folks running for the Presidency, including Hubert H. Humphrey during his West Virginia campaign.

Tinker gave up the taxi business to become the Deputy Sheriff and Court Bailiff in McDowell County, during which time he became a Member of the McDowell County Democratic Executive Committee, and was a delegate to the National Convention in the years 1952 to 1965. He then became a criminal investigator for the county's prosecuting attorney, and a justice of the peace. Finally, Arthur "Tinker" St. Clair was appointed to the position of County Clerk, and afterwards was reelected to a six year term with a majority vote of 89 percent. That wasn't machine politics folks, that was pure Tinker.

Actually, Tinker hadn't thought of retiring at the age of 63 as County Clerk in 1979, but his children had all moved up to the Washington, D.C. area, and his wife Elnora tired of traveling back and forth to see her grandchildren. So one day, Elnora told Tinker she was once again visiting her children, and he asked her when she would get back. She said she wasn't coming back. That's when Tinker retired from the County Clerk's position and followed his beloved wife of 56 years to Washington.

Now Elnora had her say in June of 1979, and so Tinker retired. But he wasn't happy not working. He just couldn't see himself retiring at age 63. So, Tinker called his old friend, U.S. Senator ROBERT C. BYRD, and asked him if there was anything he could do for him. Senator BYRD took him in hand, and within a month of his arrival in Washington, he began serving as Doorkeeper for the U.S. Senate, where he worked for another, memorable 21 years.

As noted above, Mr. Speaker, Arthur "Tinker" St. Clair was born to the work ethic, to family values, and to community service. He has worked ever since he graduated from high school in 1937. Without a college degree, Tinker rose from bus driver to County Clerk in his native McDowell County, helping it to grow and to prosper in good times and bad; in a county who knew Tinker St. Clair for his ability to reach out to every person he met-and who always found a way to help whoever askedwhether it was a local resident and friend, a local official, or candidates for President-it didn't matter to Tinker. He was always sure he could make a difference—at home in McDowell County-and on the national leveland he and his late wife Elnora made that difference.

Since coming to Washington 21 years ago to serve as Doorkeeper, Tinker has maintained his cheerful countenance, shared the wisdom of his years, and found words of encouragement for everyone he met. Just like he did all those years of growing up and working to serve the free state of McDowell County, West Virginia.

I hope that when I reach the age of 63, that rather than retire, I will look for another way to serve my country for another 21 years—until I too have reached the age of 84, just like Tinker St. Clair. I will miss seeing Tinker when I have the chance to go over to the Senate side, where I always knew I would get a smile, a firm handshake, and news from down home.

IN HONOR OF THE FEDKIDS CHILD CARE CENTER AND ITS FOUND-ER, SUSAN KOSSIN

## HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mrs. MALONEY of New York. Mr. Speaker, I rise today to honor the Fedkids Child Care Center of New York City and its founder, the late Susan Kossin. This is a special time for the Fedkids Center, which is one of the first childcare centers established for the children of federal employees, because it has recently added more than 1,500 square feet of additional space. This expansion more than doubles the capacity of the center and creates additional space that will be able to comfortably care for 83 chidren-twice the number of children the center could serve when it opened in 1988. This expansion was made possible by the generosity and vision of the founder of Fedkids, Susan Kossin, who unfortunately passed away earlier this year.

Ms. Kossin, who founded the Fedkids Center while employed by the federal government, created the Center, based in Lower Manhattan, because she recognized the lack of adequate childcare facilities in the mid-1980s. Ms. Kossin took on the arduous task of guiding the decisions on site selection, facilities, renovation, equipment, curriculum, licensing, finances, legal issues, contractual issues, affordability plans, and many other aspects of undertaking such an extraordinary challenge.

Ms. Kossin, a working mother herself, ardently supported the Fedkids Center from its conception up until the time of her death. The recent expansion was made possible through a grant that Ms. Kossin left to the Fedkids Center. Aside from the money that financed the expansion, Ms. Kossin's estate has also financed the establishment of a scholarship fund to assist in financing the tuition for children in the Fedkids program. The enthusiastic and nurturing spirit of Ms. Kossin will live on through the Fedkids expansion as well as through her scholarship.

The organized leadership and guiding spirit of Ms. Kossin made it possible for many mothers and fathers employed by the federal government to feel confident that while they are at work, their children are safe, supervised, and cared for. For providing such an invaluable service, the work Ms. Kossin put toward the Fedkids Center will continually be appreciated in the Lower Manhattan area.

This month, the Fedkids Center will be opening its newly expanded facilities and nam-

ing the new center that Ms. Kossin's generosity and guidance created "Fedkids at the Susan Kossin Child Care Center." This new center will continue the mission that the Fedkids Child Care Center set out to accomplish—to provide loving and attentive care for the children of fedeal and non-federal workers in Lower Manhattan.

Mr. Speaker, I am confident that this mission, based on the unique and foresighted vision of Susan Kossin, will continue for many years to come. Today, I am proud to salute the Fedkids Child Care Center and the admirable generosity of a woman far ahead of her time, Susan Kossin.

## PERSONAL EXPLANATION

## HON. ASA HUTCHINSON

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. HUTCHINSON. Mr. Speaker, on rollcall vote No. 522 of Wednesday, October 11, I was inadvertently detained. Had I been present I would have voted "aye."

#### PERSONAL EXPLANATION

## HON. ED PASTOR

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. PASTOR. Mr. Speaker, on rollcall votes numbered 525 and 526, I was unable to vote. Had I been present, I would have voted "yea" on both.

#### PERSONAL EXPLANATION

#### HON. FLOYD SPENCE

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mr. SPENCE. Mr. Speaker, on rollcall votes numbered 517, 514, 515, 516, and 518, I was unavoidably detained. Had I been present, I would have voted "yea" on all of the above.

IN HONOR OF THE 50TH ANNIVER-SARY OF THE QUEENSVIEW INC. OF QUEENS, NEW YORK

## HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES Thursday, October 12, 2000

Mrs. MALONEY of New York. Mr. Speaker, I rise today to pay tribute to the Queensview Inc. cooperative housing complex of Queens, New York, on its 50th anniversary. The Queensview Inc. opened on June 3, 1950 in Long Island City, Queens, as a result of the lack of affordable housing for middle class residents in the New York City area. Although the concept of living in a cooperative housing complex was a new one, the effort made by

the Queensview Inc.'s founders kept middle class families from having to leave New York City.

Queensview, which consists of 14 buildings on 14 acres of park-like land, was conceived through the efforts of shareholders who agreed to pay \$2,500 for unseen apartments and the city of New York, which provided both reclaimed land as well as a partial tax exemption for 25 years. For the past 50 years, Queensview residents have lived in cooperation with each other in a wonderful environment in which to raise a family. The fact that 627 of the first Queensview families continue to reside in the complex attests to the success of the Queensview complex.

This extraordinary housing complex, constructed at the conclusion of World War II as families began settling New York City's outer boroughs, has devoted itself to improving the quality of life for its residents, enabling them to build lives of dignity and self worth. Queensview's conception resulted from the tireless efforts of many prominent citizens who were greatly concerned with improving the standard of living of the burgeoning American middle class. Their efforts not only greatly improved the quality of life for the residents of Queensview, but they also prevented the residents from being forced to relocate out of New York City due to financial hardship. Had it not been for the founders of Queensview, many of the most prominent residents of Queens would not remain in the area today.

Mr. Speaker, I am proud today to honor and commend those original founders of the Queensview Inc. If not for their foresighted interest in the well-being of many World War II veterans and their families, many residents of my district would not have realized the American Dream.

The Queensview community deserves a moment of recognition because so many people's lives have changed as a result of this exceptional cooperative living complex. I sincerely hope that the families of those original Queensview founders can enjoy the cooperative living experience at Queensview for another 50 years.

PERSONAL EXPLANATION

## HON. ASA HUTCHINSON

Mr. HUTCHINSON. Mr. Speaker, on rollcall vote No. 514, rollcall vote No. 516, rollcall vote No. 517, and rollcall vote No. 518 on Friday, October 6, I was inadvertently detained. Had I been present I would have voted "aye."

 $\begin{array}{c} 109\text{TH FIELD ARTILLERY HONORED} \\ \text{ON } 225\text{TH ANNIVERSARY} \end{array}$ 

## HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. KANJORSKI. Mr. Speaker, I rise today to pay tribute to the 109th Field Artillery of the

Pennsylvania National Guard on the occasion of its 225th anniversary.

The 109th is one of the oldest organizations in continuous existence in the entire Armed Force. It was organized under Colonel Zebulon Butler on Oct. 17, 1775, just six months after the "shot heard 'round the world" at Concord and Lexington sparked the American Revolution.

Since then, the 109th has served the local community, the Commonwealth of Pennsylvania and the nation through many conflicts and emergencies.

Although founded as an infantry unit, the regiment alternated between infantry and artillery throughout the 18th and 19th centuries. Under various designations, the unit fought not only in the war for America's independence, but also in most of the nation's major wars.

Mr. Speaker, the history of the 109th in battle is a long, brave and distinguished one. To give just one example, the unit fought in the Battle of the Bulge in World War II, striving valiantly to halt the German offensive in the Ardenesse. Once its guns were destroyed, the 109th fought as infantry, often in vicious handto-hand combat. For its valor, the battalion was awarded a Presidential Unit Citation, the highest decoration a unit can receive. It is authorized for wear by all current members of the battalion.

The sacrifice of the members of the 109th extended to the Korean War era as well. On Sept. 11, 1950, at Coshocton, Ohio, 33 members of the 109th Pennsylvania National Guard, who had been called into service in the Korean War, were killed in a train wreck and scores were wounded. During the remainder of the war, the battalion, along with the 28th Infantry Division, served in Europe as part of the defenses against the Soviet army.

In 1977, the unit assumed its current designation as the 1st Battalion, 109th Field Artillery. It is a component of the 28th Infantry Division (Mechanized), Pennsylvania National Guard. With an authorized strength of more than 600 members and more than \$50 million worth of equipment, the battalion is a crucial community asset for dealing with emergencies and natural disasters. It is also a key wartime resource, since the National Guard comprises more than half of the entire Army's field artillery force. The 109th also pumps more than \$3 million into the local economy each year.

Mr. Speaker, I am pleased and honored to have been asked to serve as honorary chairman of the community dinner that is being held Oct. 13 to honor the unit for its long and distinguished service to the Wyoming Valley and the nation. The chairperson for the dinner is Colonel Keith Martin, and the scheduled speakers are Medal of Honor winner Peter Lemon and reigning Miss America Heather French.

As befits such a milestone anniversary, the dinner is just one of a series of events scheduled for the weekend, including an open house at the armory.

Today, America stands tall as the lone remaining superpower, and freedom and democracy superpower, and freedom and democracy are thriving around the globe. To be sure, many people still do not breathe free, but the progress we have made is truly remarkable, and those National Guard citizen soldiers who

have served in the defense of our nation and the cause of freedom helped to make this possible. In addition to honoring their service in wartime, it is especially important to honor their service in peacetime emergencies and disasters.

Mr. Speaker, I join a grateful Wyoming Valley in honoring all those who have served in the 109th Field Artillery in its 225 years of existence, and I am pleased to call their service to the attention of the House of Representatives

SOUTH AMERICA HAS SUFFERED FROM WHITE HOUSE NEGLECT

## HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. CRANE. Mr. Speaker, I wish to call to the urgent attention of my colleagues an important article in the October 6, 2000, Wall Street Journal, entitled, "South America Has Suffered From White House Neglect," by David Malpass, who is the Chief Economist at Bear Stearns.

This must-read article spells out this administration's culpability in the disastrous role which U.S. policy gurus, the International Monetary Fund and the World Bank have played in the rapid decline in the economies of our Latin American neighbors.

Malpass points out that the 1990s "began with a vision of free trade across the Western Hemisphere launched with the completion of the North American Free Trade Agreement. . . ." After NAFTA's implementation, he writes, there was "reason to believe that the U.S. would lead the region toward trade liberalization."

Unfortunately, as the decade progressed the U.S. role in the region "turned destructive." Washington promoted weak currencies, high tax rates, IMF-style austerity, and big government, Malpass observes, "ignoring the resulting poverty and political stress." Further, U.S. opposition to regional currency stability and its insistence on special labor and environmental standards resulted in inflation in Latin America and a sharp rise in poverty.

The writer observes that the Clinton-Gore administration has "wasted a decade of U.S. prosperity, making no real effort to share the U.S. techniques of prosperity with our neighbors." He concludes that "the coming U.S. election offers Latin America the chance for an end to the eight-year vacuum in U.S. policy."

I urge my colleagues to read this important article carefully.

[From the Wall Street Journal, Oct. 6, 2000] SOUTH AMERICA HAS SUFFERED FROM WHITE HOUSE NEGLECT

(By David Malpass)

As Latin America prepares for a new president of the United States, it is right to hope for an improvement in U.S. policies toward the region. Chief among these would be a serious free trade agenda and an end to forcefeeding the region International Monetary Fund austerity programs.

The 1990s began with a vision of free trade across the Western Hemisphere, launched

with the completion of the North American Free Trade Agreement at the end of the Bush administration and President Clinton's signature on the 1993 enabling legislation. Hemispheric free trade offered a chance to expand the economic pie dramatically during the decade. With U.S. unemployment falling toward 4% and Nafta a notable success, there was reason to believe that the U.S. would lead the region toward trade liberalization. International trade was at the core of the U.S. economic breakout of the 1980s, and Latin America hoped to become a partner.

But beyond rhetoric and a summit full of promises, the U.S. basically lost its interest in Latin America. The Clinton administration offered no follow-though on the free trade vision, no substitute vision, and barely an apology. The free-trade vision morphed into fair trade, code language for maintaining the status quo. U.S. demands for special labor and environmental standards as conditions for an agreement effectively ruled out U.S.-led trade liberalization. Latin America's disappointment at U.S. indifference deepened, as U.S. promises of trade and engagement proved hollow.

As the decade progressed, the U.S. role in the region turned destructive. Washington's policy gurus promoted weak currencies, high tax rates and big government, ignoring the resulting poverty and political stress. A cycle of damage, financial crises and flat-footed U.S. responses ensued. The U.S. dragged its feet on IMF/World Bank reform and proposed no pro-growth model for international development. Colombia's civil war worsened, fed by bad economic policies, high inflation and U.S. disinterest.

Through its own efforts, Latin America

Through its own efforts, Latin America has had some important successes in the last decade, including Mexico's 2000 election and Brazil's quick return to a stable currency after its 1999 devaluation. But the 1990s should have been much better for the region given the strength of the U.S. economy and the high hopes of 1992 and 1993.

Latin America's growth is now well short of its potential, leaving millions unemployed and impoverished. Worse yet, because many of these countries defended their anti-market policies in IMF-speak and Washington's "no-pain, no-gain" view that capitalism should hurt, disillusioned populations are now blaming free-markets for their declining circumstances.

Rather than free trade, the administration championed IMF-style austerity for Latins. No tax rate was too high, as witnessed by President Clinton's outspoken support of Argentina's failing experiment with tax hikes and a broad-based 21% value-added tax. In places like Brazil, Ecuador and Colombia, the U.S. and IMF have encouraged financial

transaction taxes, one of the most harmful types of taxes for the development of sound financial markets. While Europe is turning to tax cuts to bolster its competitiveness, the Washington elite has pushed Latin America forcefully into higher tax rates and militant revenue extraction

The U.S. policy failure toward Latin

The vacuum in U.S. international policy is equally apparent in energy issues. By 2000, Mr. Chavez became OPEC's cheerleader for expensive oil, joining Saddam Hussein in Bagdad to discuss strategy. It is inexplicable that Mexico, a Nafta partner, participated actively in OPEC quotas in 1999. The U.S. and Mexico should work closely together to develop new North American energy resources, an undertaking that would be hugely profitable for Mexico and would lessen U.S. dependence on OPEC.

The 1990s began auspiciously for Latin American currencies with the establishment of Argentina's currency board. Inflation fell, and both the economy and financial markets surged. The brain drain that had plagued Argentina for years reversed as business school graduates headed back home to build companies

Soon, however, the U.S. administration's opposition to regional currency stability asserted itself, leaving Argentina the odd country out. The Clinton administration and the IMF, working closely together, declined to work for currency stability in Russia, Venezeula, Mexico, Brazil, South Africa, or Southeast Asia. This culminated in their outright rejection of a currency board in Indonesia in early 1998 and the Russian default later that year. The U.S. intoned that "a strong dollar is in our national interest," but did nothing to share this approach abroad. Ecuador has recently dollarized, embracing a foreign currency in the hope that its grinding fall into poverty will stop. But in Ecuador's words, the IMF's only role in this progress was to do no further harm.

The result of the weak-currency policies of the 1990s was predictable. The poor could not protect themselves from the ensuing inflation and the middle class fell backward, undoing years of hard work. Latin American poverty grew sharply. The World Bank found "no clear evidence of progress in reducing poverty" in the 1990s, counting 183 million people living on less than \$2 per day in 1998, up from 162 million in 1993. A United Nations study found that 51% of rural Latin households lived in poverty in 1997. In Colombia, where civil war threatened, the currency sank and rural poverty rose to 54% in 1997 from 45% in 1980.

The coming U.S. election offers Latin America the chance for an end to the eight-year vacuum in U.S. policy. The Clinton-

Gore administration has wasted a decade of U.S. prosperity, making no real effort to share the U.S. techniques of prosperity with our neighbors. The policy vacuum has hurt both the U.S. and Latin America and deserves to be corrected. A U.S. policy built on free trade, stable currencies, lower tax rates, smaller government, more economic freedom and a genuine interest in Latin America's success would begin to undo the damage.

#### HONORING RICK SHEETS

## HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 12, 2000

Mr. McINNIS. Mr. Speaker, it is with great sadness that I take this moment to celebrate the life of Rick Sheets. Rick, a popular radio personality, recently passed away at age 45. For many years Rick has entertained the people of western Colorado, whether it be joking around during his radio spots or rooting for the Denver Broncos. As family, friends, and colleagues mourn this incredible loss, I would like to pay tribute to this remarkable human being.

Rick was known to his listeners as Rick Lawrence. For over two decades he entertained listeners of the Grand Valley. He has worked in a number of different capacities for many different radio stations throughout western Colorado. He began with KEXO-AM then on to KSTR-AM and FM and most recently with Mustang Country 95.1 and KOOL 107.9. Throughout his tenure in radio, he was best known for his dedication to Broncos' football where he earned the nickname Doc Bronco.

Rick's reputation on the air was exceptional but it was his work in the community that will be long remembered. He served as a Partners volunteer and used his on-air experience to work as a television auctioneer for over ten years. He was a well-known supporter of the March of Dimes, giving a number of on-air interviews and also worked with the Bronco Youth Foundation.

Rick entertained and served the community of Grand Junction in immeasurable ways. His work with Colorado's youth will not soon be forgotten. Rick served his community well and his loving memory will live on in the hearts of all that had the pleasure of knowing him, both on the air and off. He will be greatly missed.

## HOUSE OF REPRESENTATIVES—Monday, October 16, 2000

The House met at 2 p.m. and was called to order by the Speaker pro tempore (Mr. PEASE).

# DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

> Washington, DC, October 16, 2000.

I hereby appoint the Honorable EDWARD A. PEASE to act as Speaker pro tempore on this day.

 $\label{eq:J.Dennis} \textbf{J. Dennis Hastert}, \\ \textit{Speaker of the House of Representatives}.$ 

#### PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

In You, O Lord, is the fullness of life. Help this Nation realize its full potential. Each American has been endowed with unique and personal gifts. Allow each of us the time and opportunity to bring forth our gifts in the service of others.

Reward with Your choicest blessings all who serve this Nation in the Armed Forces. Today we especially pray for those who have served and are still serving aboard the U.S.S. *Cole*. God of all consolation, be with their anxious and grieving families.

Bless the gifted Members of this House. Guide them to use their gifts to accomplish Your Holy will in such a way that Your goodness and justice may be recognized in all their accomplishments.

Lord, You are with us at every moment and in every hour of need. You live and reign now and forever. Amen.

#### THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

## PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. The Chair will lead the House in the Pledge of Allegiance.

The SPEAKER pro tempore (Mr. PEASE) led the House in the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate has passed with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 2607. An act to promote the development of the commercial space transportation industry, to authorize appropriations for the Office of the Associate Administrator for Commercial Space Transportation, to authorize appropriations for the Office of Space Communications, and for other purposes.

H.R. 3048. An act to amend section 879 of title 18, United States Code, to provide clearer coverage over threats against former Presidents and members of their families, and for other purposes.

H.R. 3417. An act to complete the orderly withdrawal of the National Oceanic and Atmospheric Administration from the civil administration of the Pribilof Islands, Alaska.

H.R. 3671. An act to amend the Acts popularly known as the Pittman-Robertson Wildife Restoration Act and the Dingell-Johnson Sport Fish Restoration Act to enhance the funds available for grants to States for fish and wildlife conservation projects and increase opportunities for recreational hunting, bow hunting, trapping, archery, and fishing, by eliminating opportunities for waste, fraud, abuse, maladministration, and unauthorized expenditures for administration and execution of those Acts, and for other purposes.

H.R. 4788. An act to amend the United States Grain Standards Act to extend the authority of the Secretary of Agriculture to collect fees to cover the cost of services performed under that Act, extend the authorization of appropriations for that Act, and improve the administration of that Act, to reenact the United States Warehouse Act to require the licensing and inspection of warehouses used to store agricultural products and provide for the issuance of receipts, including electronic receipts, for agricultural products stored or handled in licensed warehouses, and for other purposes.

H.R. 4850. An act to provide a cost-of-living adjustment in rates of compensation paid to veterans and service-connected disabilities, to enhance programs providing compensation and life insurance benefits for veterans, and for other purposes.

H.R. 4868. An act to amend the Harmonized Tariff Schedule of the United States to modify temporarily certain rates of duty, to make other technical amendments to the trade laws, and for other purposes.

The message also announced that the Senate has passed bills and concurrent resolutions of the following titles in which the concurrence of the House is requested:

S. 623. An act to amend Public Law 89–108 to increase authorization levels for State and Indian tribal, municipal, rural, and industrial water supplies, to meet current and future water quantity and quality needs of the Red River Valley, to deauthorize certain

project features and irrigation service areas, to enhance natural resources and fish and wildlife habitat, and for other purposes.

# ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 4 of rule I, the Speaker signed the following enrolled joint resolution on Thursday, October 12, 2000:

House Joint Resolution 111, making further continuing appropriations for the fiscal year 2001, and for other purposes.

The SPEAKER pro tempore. Pursuant to House Resolution 618, the Chair announces the Speaker's additional appointment of the following Member of the House to the committee to attend the funeral of the late Bruce F. Vento:

Mr. George Miller of California.

COMMUNICATION FROM STAFF ASSISTANT OF HON. JAMES A. TRAFICANT, JR., MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following communication from Robert Barlow, Staff Assistant of the Honorable JAMES A. TRAFICANT, Jr., Member of Congress:

House of Representatives, Washington, DC, October 9, 2000.

Hon. J. DENNIS HASTERT,

Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: This is to notify you

DEAR MR. SPEAKER: This is to notify you formally, pursuant to Rule VIII of the Rules of the House of Representatives, that I have been served with a subpoena for testimony issued by the United States District Court for the Northern District of Ohio.

After consultation with counsel, I will make the determinations required by Rule VIII

Sincerely,

ROBERT BARLOW, Staff Assistant.

#### COMMUNICATION FROM HON. BRIAN P. BILBRAY, MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following communication from the Honorable BRIAN P. BILBRAY, Member of Congress:

HOUSE OF REPRESENTATIVES, Washington, DC, October 13, 2000. Hon. J. DENNIS HASTERT,

Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: This is to formally notify you, pursuant to Rule VIII of the Rules of the House of Representatives, that I have been served with a civil subpoena for documents issued by the Superior Court for San Diego County, California.

After consultation with the Office of General Counsel, I have determined that it is consistent with the precedents and privileges of the House to notify the party that issued the subpoena that I do not have any responsive documents.

Sincerely.

BRIAN BILBRAY, Member of Congress.

## LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. MEEHAN (at the request of Mr. GEPHARDT) for October 11 through October 17 on account of the death of his father.

## ENROLLED JOINT RESOLUTION SIGNED

Mr. THOMAS, from the Committee on House Administration, reported that that committee had examined and found truly enrolled a joint resolution of the House of the following title, which was thereupon signed by the Speaker:

H.J. Res. 111. Joint resolution making further continuing appropriations for the fiscal year 2001, and for other purposes.

# BILLS PRESENTED TO THE PRESIDENT

Mr. THOMAS, from the Committee on House Administration, reported that that committee did on the following dates present to the President, for his approval, bills of the House of the following titles:

On October 11, 2000:

H.R. 4475. Making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 2001, and for other purposes.

On October 12, 2000:

H.R. 2938. To designate the facility of the United States Postal Service located at 424 South Michigan Street in South Bend, Indiana, as the "John Brademas Post Office".

H.R. 2778. To amend the Wild and Scenic Rivers Act to designate segments of the Taunton River in the Commonwealth of Massachusetts for study for potential addition to the National Wild and Scenic Rivers System, and for other purposes.

H.R. 2641. To make technical corrections to title X of the Energy Policy Act of 1992.

H.R. 2496. To reauthorize the Junior Duck Stamp Conservation and Design Program Act of 1994.

H.R. 2302. To designate the building of the United States Postal Service located at 307 Main Street in Johnson City, New York, as the "James W. McCabe, Sr. Post Office Building".

H.R. 1509. To authorize the Disabled Veterans' LIFE Memorial Foundation to establish a memorial in the District of Columbia or its environs to honor veterans who became disabled while serving in the Armed Forces of the United States.

H.R. 3632. To revise the boundaries of the Golden Gate National Recreation Area, and for other purposes.

H.R. 3454. To designate the United States post office located at 451 College Street in Macon, Georgia, as the "Henry McNeal Turner Post Office".

H.R. 3201. To authorize the Secretary of the Interior to study the suitability and feasibility of designating the Carter G. Woodson Home in the District of Columbia as a National Historic Site, and for other purposes.

H.R. 3030. To designate the facility of the United States Postal Service located at 757 Warren Road in Ithaca, New York, as the "Matthew F. McHugh Post Office".

H.R. 3985. To redesignate the facility of the United States Postal Service located at 14900 Southwest 30th Street in Miramar, Florida, as the "Vicki Coceano Post Office Building".

H.R. 3909. To designate the facility of the United States Postal Service located at 4601 South Cottage Grove Avenue in Chicago, Illinois, as the "Henry W. McGee Post Office Ruilding"

H.R. 3817. To dedicate the Big South Trail in the Comanche Peak Wilderness Area of Roosevelt National Forest in Colorado to the legacy of Jaryd Atadero.

H.R. 3745. To authorize the addition of certain parcels to the Effigy Mounds National Monument, Iowa.

H.R. 4435. To clarify certain boundaries on the map relating to Unit NC-01 of the Coastal Barrier Resources System.

H.R. 4286. To provide for the establishment of the Cahaba River National Wildlife Refuge in Bibb County, Alabama.

H.R. 4169. To designate the facility of the United States Postal Service located at 2000 Vassar Street in Reno, Nevada, as the "Barbara F. Vucanovich Post Office Building".

H.R. 4157. To designate the facility of the United States Postal Service located at 600 Lincoln Avenue in Pasadena, California, as the "Matthew 'Mack' Robinson Post Office Building".

H.R. 4449. To designate the facility of the United States Postal Service located at 1908 North Ellamont Street in Baltimore, Maryland, as the "Dr. Flossie McClain Dedmond Post Office Building".

H.R. 4448. To designate the facility of the United States Postal Service located at 3500 Dolfield Avenue in Baltimore, Maryland, as the "Judge Robert Bernard Watts, Sr. Post Office Building".

H.R. 4447. To designate the facility of the United States Postal Service located at 919 West 34th Street in Baltimore, Maryland, as the "Samuel H. Lacy, Sr. Post Office Building".

H.R. 4554. To redesignate the facility of the United States Postal Service located at 1602 Frankford Avenue in Philadelphia, Pennsylvania, as the "Joseph F. Smith Post Office Building".

H.R. 4534. To redesignate the facility of the United States Postal Service located at 114 Ridge Street, N.W. in Lenoir, North Carolina, as the "James T. Broyhill Post Office Building".

H.R. 4226. To authorize the Secretary of Agriculture to sell or exchange all or part of certain administrative sites and other land in the Black Hills National Forest and to use funds derived from the sale or exchange to acquire replacement sites and to acquire or construct administrative improvements in connection with the Black Hills National Forest.

H.R. 4063. To establish the Rosie the Riveter/World War II Home Front National Historical Park in the State of California, and for other purposes.

H.R. 3676. To establish the Santa Rosa and San Jacinto Mountains National Monument in the State of California.

104—107, section 540(c) (110 Stat. 736); jointly to the Committees on International Relations and Appropriations.

# REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. SMITH of Texas: Committee on Standards of Official Conduct. In the Matter of Representative E.G. "Bud" Shuster (Rept. 106-979). Referred to the House Calendar.

Mr. BLILEY: Committee on Commerce. H.R. 4281. A bill to establish, wherever feasible, guidelines, recommendations, and regulations that promote the regulatory acceptance of new and revised toxicological tests that protect human and animal health and the environment while reducing, refining, or replacing animal tests and ensuring human safety and product effectiveness; with amendments (Rept. 106–908). Referred to the Committee of the Whole House on the State of the Union.

#### DISCHARGE OF COMMITTEE

[The following action occurred on Oct. 13, 2000]

Pursuant to clause 5 of rule X, the Committee on Agriculture discharged from further consideration S. 1288 referred to the Committee of the Whole House on the State of the Union.

## TIME LIMITATION OF REFERRED

[The following action occurred on Oct. 13, 2000] Pursuant to clause 5 of rule X the following action was taken by the Speaker:

H.R. 1882. Referral to the Committee on Ways and Means extended for a period ending not later than October 20, 2000.

H.R. 2580. Referral to the Committee on Transportation and Infrastructure extended for a period ending not later than October 20, 2000

H.R. 4585. Referral to the Committee on Commerce extended for a period ending not later than October 20, 2000.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

## By Mr. LARSON:

H.R. 5473. A bill to assist workers who are displaced by trade or technology through no fault of their own by providing medical benefits, increasing government job search assistance, eliminating taxes on certain severance packages, planning for a pilot program to provide public employment for dislocated workers, increasing funding for the International Program of Child Labor of the International Labor Organization, establishing the Office of Community Economic Adjustment in the Economic Development Administration of the Department of Commerce to coordinate the Federal response in regions and communities experiencing severe and sudden economic distress, helping these regions and communities in restructuring their economies, and for other purposes; to the Committee on Ways and Means, and in

addition to the Committees on Education and the Workforce, Commerce, Transportation and Infrastructure, Banking and Financial Services, and International Relations, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

#### MEMORIALS

Under clause 3 of rule XII, memorials were presented and referred as follows:

477. The SPEAKER presented a memorial of the House of Representatives of the State of Texas, relative to a resolution petitioning the United States House of Representatives to support S. 2912 "To Amend the Immigration and Nationality Act to remove certain limitations on the eligibility of aliens residing in the United States to obtain lawful per-

manent resident status"; to the Committee on the Judiciary.

478. Also, a memorial of the House of Representatives of the State of South Carolina, relative to Concurrent Resolution H. 4434 memorializing the United States Congress to amend the Constitution of the United States and submit to the states for ratification an amendment which adds a new article providing as follows: "Neither the Supreme Court nor any inferior court of the United States shall have the power to instruct or order a state or political subdivision thereof, or an official of such a state or political subdivision, to levy or increase taxes"; to the Committee on the Judiciary.

#### ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 369: Ms. Berkley.

## **EXTENSIONS OF REMARKS**

HONORING DR. RALPH D. FEIGIN FOR BEING APPOINTED TO THE BOARD OF GOVERNORS

## HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, October 16, 2000

Mr. BENTSEN. Mr. Speaker, today I honor Dr. Ralph D. Feigin, for being appointed to the Board of Governors at the National Institutes of Health and Warren Grant Magnuson Clinical Center. This appointment acknowledges Dr. Feigin's outstanding contributions in pediatric medicine for more than three decades.

Indeed this is an honor for the internationally renowned expert in pediatric infectious disease, who has published over 400 articles in chapters and books. The function of the board is a very important one, to advise, consult, and make recommendations to the Director of the NIH and the Director of the Clinical Center on matters of policy including the approval and development of a strategic plan and the annual budget. Members of the Board of Governors are chosen for their knowledge and expertise in heath care governance and management, operational aspects of academic health care centers, and clinical research. Dr. Feigin has served since 1977, as the J.S. Abercrombie Professor of Pediatrics and Chairman of the Department of Pediatrics at the Baylor College of Medicine. While sharing knowledge with residents and cultivating their performances, he is still dedicated to his patients and to his daily work at Texas Children's

A native of New York City, Dr. Feigin graduated from Columbia College with a B.A. in 1958. He received his Medical Degree from Boston University School of Medicine in 1962. Dr. Feigin completed his Pediatric Internship at the Boston City Hospital in 1963.

Dr. Feigin is known throughout the Texas Medical Center Community as a remarkable doctor and dedicated leader, who views his students as extended family. Each month he invites students celebrating birthdays' to his home for a seated dinner and birthday cake baked by his wife Judith. Although is administrative duties consume much of his time, he starts each morning making rounds with residents, reviewing material, and sharing his knowledge of pediatric medicine that has earned him a distinguished reputation. From 1987 to 1989 he served as Executive Vice President of Texas Children's Hospital. In addition, he is Physician-in-Chief Pediatric Services, Ben Taub General Hospital and Chief of the Pediatric Service, The Methodist Hospital, also of my district.

Mr. Speaker, I wish to congratulate Dr. Feigin on this appointment and his many years of dedication to pediatric medicine. His achievements are an inspiration to us all.

CONFERENCE REPORT ON H.R. 4205, FLOYD D. SPENCE NATIONAL DE-FENSE AUTHORIZATION ACT FOR FISCAL YEAR 2001

SPEECH OF

### HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 11, 2000

Mr. THOMPSON of California. Mr. Speaker, I rise in support of the conference report to accompany H.R. 4205, the National Defense Authorization Act

As a conferee, I first would like to thank the Speaker for appointing me and to thank both Chairman SPENCE, and Ranking Member SKELTON, for affording me many opportunities to influence the conference deliberations and shape a number of provisions. It was an enlightening experience and I look forward to future opportunities to work with them and my other colleagues to provide for a strong national defense.

Mr. Speaker, of particular note are the quality of life improvements the conference report makes for both active duty and military retirees. Representing a large community on and around Travis Air Force Base, I know that many of these improvements are long overdue. The improvements in health care, especially access for retirees, will provide needed reassurance to those who serve our Nation in uniform

Mr. Skelton dubbed this year as the "year of military health care." I ask my colleagues to note the significant improvements to the TRICARE health care system for our active duty, retirees and their families. The conference report eliminates co-payments for active duty family members in TRICARE PRIME, so those active duty family members are treated fairly and equitably. It allows family members to participate in TRICARE Prime Remote, so that those who live far from a military base, including significant numbers in northern California, have the same access to health care. It authorizes reimbursement for travel expenses when families must travel long distances to see a specialist. It reduces unnecessary referral requirements to improve access to care. And, it establishes a permanent chiropractic benefit for our active duty personnel.

As I mentioned, the conference report honors the commitment to our military retirees and their families and restores access to lifetime military health care. It establishes a pharmacy benefit that allows retirees and their dependents to obtain drugs through the National Mail Order Pharmacy, a network pharmacy or a non-network pharmacy. No matter where you live access to pharmaceuticals will no longer be an issue.

The conference report also reduces the catastrophic cap for out-of-pocket expenses from \$7,500 to \$3,000. It adopts the House-passed provision extending the TRICARE Senior Prime Program, more commonly known as Medicare Subvention. As a result, military retirees will have one of the best health care programs in the country.

The conference report includes a number of initiatives to improve the quality of life for our service members and help the Services in their recruitment and retention efforts. It provides a 3.7 percent pay raise for all military personnel and includes a targeted pay raise for mid-grade enlisted personnel.

Most important for many of the active duty service men and women who life off-base, the conference report eliminates the cap and reduces the out-of-pocket housing costs for our members to 14.5 percent. To improve the quality of life for our junior enlisted families the conference report increases housing standards and authorizes \$157 million more than requested for family housing, including the construction of 64 family housing units at Travis Air Force Base.

These are several of the initiatives I am pleased to have played a role in fashioning and I would like to thank my subcommittee chairmen, STEVE BUYER and JOEL HEFLEY, for the opportunity to work with them and the other conferees on these personnel and military construction issues.

In fashioning this House-Senate compromise, there are, of course, disappointments. I regret conferees did not accept the provision I authored to require the Department of Defense to collect and analyze the DNA of violent offenders and to provide those analyses to the Department of Justice CODIS database. While I don't disagree with their view that such a requirement should be government-wide, the bill the House passed imposing this requirement is likely to stall in the Senate. As a result, we will have lost as much as a year of using this DNA in criminal investigations.

I also regret that the Senate-passed hate crimes measure was dropped from the conference report.

I am also disappointed with a Senatepassed provision directing the Departments of Defense and Energy to study ways to "defeat hardened and deeply buried targets." Though slightly modified from the original, the language still permits limited research and development, which could lead to a new low-yield nuclear weapon with earth-penetrating capabilities.

As I expressed to other conferees, my concern with developing such a weapon is that it is likely to encourage military and political leaders to think more readily about using nuclear weapons. In my view, we should not lower this threshold or make nuclear weapons a more acceptable choice in war. In addition, development of such a weapon is contrary to our Nation's goals of reducing and eventually eliminating nuclear weapons. To begin development and stockpiling of a new nuclear

weapon would reverse the difficult achievements the United States has made to slow the proliferation of nuclear material and weapons.

Undoubtedly, reconsideration of this issue will occur next year and I look forward to debating it with a new Administration.

Lastly, Mr. Speaker, I believe the increased authorizations for national missile defense are unnecessary and unwarranted. Rather than accelerating program elements, I believe we should have a renewed debate, not only about the technological components of NMD, but also about the strategic and foreign policy questions it raises. Until those questions are fully debated before the American people, it is, in my view, unwise to increase NMD authorization levels.

Mr. Speaker, the conference report before us makes significant improvements to our Nation's defense. It takes significant steps to address issues associated with operations tempo and aging equipment. And, as important, it gives the members of our uniformed services not only the weapons, training, and equipment they need to prepare for the next war, but also the peace of mind that comes from a home and work environment reflective of the important role they perform for America and all Americans.

I urge adoption of the conference report.

MODIFYING RATES RELATING TO REDUCED RATE MAIL MATTER

SPEECH OF

## HON. CHAKA FATTAH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 11, 2000

Mr. FATTAH. Mr. Speaker, as the Ranking member of the Subcommittee on the Postal Service, I am pleased to join Chairman McHuGH in the consideration of S. 2686, legislation introduced in the Senate, S. 2686, or June 7, 2000, by Senator Thad Cochran, the Chairman, and Senator Daniel K. Akaka, the Ranking Minority Member of the Senate Subcommittee on International Security Proliferation and Federal Services. This measure will provide much needed postage rate relief for nonprofit mailers and address serious shortcomings in the current United States Postal Service (USPS) rate case proposal that is now before the Postal Rate Commission (PRC).

On Friday, October 6, the United States Senate approved passage of S. 2686, legislation drafted by the Alliance of Nonprofit Mailers, the Postal Service, and others that is designed to protect preferred postal rates for nonprofit mailers.

S. 2686, which will protect nonprofit or preferred mailers from double-digit rate increases, is identical to H.R. 4636, legislation I introduced on June 12, 2000. I was joined in the introduction of this bill by Congressman STENY H. HOYER, Ranking Minority Member of the House Appropriations Subcommittee on Treasury, Postal Service and General Government, and Congressman DANNY K. DAVIS and Congressman MAJOR R. OWENS, both members of the Subcommittee on the Postal Service. To date a number of members have cosponsored my bill.

The practice of designating certain types of mail for preferred rates was initiated by the Congress more than 50 years ago. In 1993, deficit reduction legislation eliminated federal financial support for nonprofit mailers, but mandated that nonprofit rates be lower than rates for commercial mailers.

In January of this year, the Postal Service Board of Governors proposed postage rate increases for all classes of mail. The USPS formally filed the rate request which is pending before the PRC. The proposed postal rate increased for all classes of mail is designed to raise \$3.7 billion in new revenues—beginning in 2001. Under the current rate request, rates for nonprofits will surpass rates for corresponding commercial mail. The USPS attributed the increase to inaccurate cost data and have suggested that the "average" increase for mailers is approximately 6.4% Unfortunately, for nonprofits and magazine industry, the hit is double-plus the average increase.

To its credit, the Postal Service requested and proposed legislation to fix the nonprofit rate anomaly. The legislative fix was drafted by the Alliance of Nonprofit Mailers with the assistance of the Magazine Publishers of America, National Federation of Nonprofits, Direct Marketing Association, and others. These organizations worked with the postal service to craft an acceptable legislative solution to the nonprofit rate problem in the current rate case before the PRC. You are all to be commended. Without the legislation, the nonprofit periodical preferred rate will disappear.

How does S. 2686 correct the rate anomaly? The bill would "lock-in" the rate relationship between nonprofit and commercial Standard A and Periodical rates, which would prevent nonprofit mail from current and future "rate shock" by doing the following:

Set nonprofit Periodical rates at 95% of the commercial counterpart rate. Excluding the advertising portion, nonprofit mailers would receive a 5% discount off the commercial rate.

Set the revenue per piece for nonprofit Standard A mail to reflect a 40% discount over the revenue per piece received by commercial Standard A mail.

Set Library rates at 95% of the rates for the Special subclass of Standard B mail.

Passage of the bill is necessary before the Postal Rate Commission completes deliberations on the current rate case.

Mr. Speaker, before I close I would like to thank Chairman McHugh and his staff, Robert Taub and Heea Vazirani-Fales, for their hard work in ensuring a compromise on this matter, PRC Chairman Ed Gleiman for his efforts to keep Congress focused on fixing the problem, Neal Denton of the Alliance for keeping the coalition together and on track even in the face of last minute challenges, the Postal Service for being proactive and Nanci Langley, Deputy Minority Staff Director for the Senate Subcommittee on International Security Proliferation and Federal Services and Dan Blair Senior Counsel, Senate Governmental Affairs Committee for all of their help and support. I must also commend and thank the Government Reform Committee Chairman, Congressman DAN BURTON for keeping all the parties together for the good of the nonprofit community. I close by thanking the Ranking Government Reform member, Congressman HENRY A. WAXMAN for his support, hard work, and cosponsorship of H.R. 4636, and for bringing the bill to the attention of the Corrections Day Group.

And so, on behalf of local charities, hospitals, churches, educators, arts organizations, nonprofit publications, and a host of others including Girard College, the Center for Science in the Public Interest, the National Association of Independent Schools, and Chicago WILDERNESS Magazine, and the cosponsors of H.R. 4636, I ask that my colleagues support S. 2686 and urge its swift adoption.

RECOGNIZING CELANESE CHEMICALS, CLEAR LAKE PLANT AS A LA PORTE-BAYSHORE CHAMBER OF COMMERCE HONOREE

## HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES Monday, October 16, 2000

Mr. BENTSEN. Mr. Speaker, today I congratulate Celanese Chemicals Clear Lake Plant Site for being honored as the La Porte-Bayshore 2000 Industry of the Year. Celanese's commitment to building a better fure for the LaPorte/Bayshore community has made it an example that all industry can follow.

Since 1967, Celanese Chemicals and its employees have been responsible members of the Clear Lake, Deer Park, La Porte-Bayshore, and Pasadena areas, all in my district. Celanese Chemicals, Clear Lake Plant Site, is a world leader in the production of organic materials and production of bulk commodity chemicals. Located on 1,000 acres, the plant's continuous program of innovation and improvement has increased the original plant's capacity to more than five billion pounds annually.

The Clear Lake Plant is specifically engineered for synergistic production. The synergy increases efficiency, minimizes waste and helps ensure quality. Products are shipped worldwide via pipeline, oceangoing tankers, barges, rail, and highway tank trucks. Celanese provides products to other petrochemical companies, specialty chemical companies, and consumer products companies around the world.

Dedication to worker safety and environmental performance has also been a hallmark of this company. Its proactive environmental and safety programs have received recognition from many organizations, including the Texas Natural Resource Conservation Commission, the Chemical Manufacturers Association, and the Texas Chemical Council. In addition to being an integral part of the area economy, the company contributes greatly to the community. As a participant in Chemical Manufacturers Association's Responsible Care program, the plant takes part in community advisory panels, which creates dialogue with plant leadership and the local community. The plant is also a member of several community chambers of commerce and community service organizations.

Mr. Speaker, I congratulate Celanese Chemicals, on being named the La Porte-

Bayshore Chamber of Commerce 2000 Industry of the Year. This is well deserved for their hard work in expanding business, producing products vital to our lives, their commitment to environmental protection and worker safety, and their many contributions to the community.

CONGRATULATING PAINT BRANCH HIGH SCHOOL ON BEING DES-IGNATED A NATIONALLY RECOG-NIZED SCHOOL OF EXCELLENCE AND A NEW AMERICAN HIGH SCHOOL

#### HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Monday, October 16, 2000

Mrs. MORELLA. Mr. Speaker, today I honor and congratulate the students, parents, and faculty of Paint Branch High School on receiving a Blue Ribbon School Award from the United States Department of Education. Achieving this honor demonstrates the commitment that both the faculty and administrators of Paint Branch have made to their students.

Paint Branch High School is continuously dedicated to excellence and committed to success. As Chair of the House Technology Subcommittee, I am especially proud of the science and media signature program. This program combines educational opportunities with three area high schools. Each school has its own signature program based on staff strengths and student interest. Additionally, Paint Branch High School is one of few in the county to offer three special education programs to help our students with special needs.

This weekend, Paint Branch High School will celebrate their great achievements. On October 13th Paint Branch students will hold a pep rally to share enthusiasm of this award and for the school's homecoming. In addition, the community celebration will bring together faculty, students, local business and community leaders. The National Blue Ribbon flag will be unveiled on Homecoming day, which will conclude the celebration. I congratulate the faculty, students and their supporters in organizing these events.

As a former educator in the Montgomery County's public school system, I am proud to recognize Paint Branch High School for its outstanding educational and extracurricular programs. I congratulate the school's students, faculty, supportive parents, and dedicated administrators. In addition, I thank Principal Fred Lowenbach whose leadership brought Paint Branch to its current reward. I wish Paint Branch High School continued success in achieving excellence in education.

IN SPECIAL RECOGNITION OF JOHN C. McMEEKIN ON THE OC-CASION OF HIS UPCOMING RE-TIREMENT FROM THE CROZER-KEYSTONE HEALTH SYSTEM

## HON. CURT WELDON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, October 16, 2000

Mr. WELDON of Pennsylvania. Mr. Speaker, it is a privilege and an honor to have this opportunity to pay tribute to one of the truly outstanding individuals from the Commonwealth of Pennsylvania, Mr. John C. McMeekin. Early next year John McMeekin will retire from his position as President and Chief Executive Officer of Crozer-Keystone Health System where he has served since 1990. The health care industry will lose a trailblazing leader when Jack steps down.

John McMeekin has been a leader in the health care field for over thirty-five years and his service is truly commendable. The Crozer-Keystone Health System consists of five hospitals with a licensed capacity of over 1200 beds, four long term care facilities totaling 800 licensed beds, a licensed HMO managed care organization and a network of salaried primary care and specialty physicians. System revenues totaled more than \$500 million in fiscal year 2000. Before joining Crozer-Chester Medical Center in 1983, Mr. McMeekin was a senior officer of Philadelphia Blue Cross and began his health career at Pennsylvania Hospital in 1965. He and his family reside in Philadelphia.

Mr. McMeekin is past Chairman of the Hospital & Health System Association of Pennsylvania and Chairman of their holding company, Health Alliance of Pennsylvania. In addition, he serves on the Board of VHA, the Board of Executive Committee of the American Hospital Association and chairs the AHA Regional Policv Group II. He also served on the Executive Committee and Board of the Greater Philadelphia Chamber of Commerce and was a trustee of Elwyn Institute. For twelve years Mr. McMeekin served as Public Governor on the Board of the Philadelphia Stock Exchange, He is a graduate of Penn State University and holds a Masters degree from the Wharton School of the University of Pennsylvania.

In September 1996 Crozer-Keystone opened their 200,000 square-foot, \$40 million Healthplex, a combination of a 40-bed acute care hospital and emergency service which includes 35,000 square feet of physician offices, four ambulatory surgical suites, a comprehensive rehabilitation facility and a large Sports and Fitness Club. Membership at the end of fiscal year 2000 was approximately 7,000.

Under Mr. McMeekin's able leadership, Crozer-Keystone served as an Action Learning Lab for AHA in November 1996 and has been cited for his work in measuring and monitoring the health status of its county of 550,000 people and for its investment in Information Systems. In February 1997 they began marketing their MedCarePlus directly to Medicare beneficiaries as one of the eight provider-sponsored HCFA Medicare Choices demonstration sites. Crozer-Keystone is a major teaching affiliate of Temple University in Philadelphia and

a member of the Council of Teaching Hospital and the National Chronic Care Consortium.

Mr. McMeekin's distinguished career includes service on numerous boards and associations including American College of Healthcare Executives, American Hospital Association, Hospital and Healthsystem Association of Pennsylvania, and the Union League of Philadelphia. His efforts have not gone unrecognized. Included among the awards he has received are: Distinguished Performance in Management Award (Widener University, 1995); Health Care Hero's Award (Philadelphia Business Journal, 1996); First Carl E. Moore Award for Health Care Leadership (Philadelphia Health Management Corporation, 1998) and First Health System Innovations and Development Award (National Health Strategies, 1998).

Mr. Speaker, the distinguished career of John C. McMeekin places him in the first rank of outstanding health care leaders of our time. His service to his profession and his fellow man serves as benchmark for us all. I know Jack personally. He is a good friend, a dedicated family man, and a patriotic citizen. It has been a pleasure to work closely with him, and an honor to be his friend.

At this time, I would ask my colleagues to join me in paying special tribute to John C. McMeekin. On the occasion of his retirement as President and Chief Executive Officer of Crozer-Keystone Health System, we thank him for his dedicated service and we wish him all the best for the future.

IN MEMORY OF ZOE ANN ORR MARCUS

## HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, October 16, 2000

Mr. FARR of California. Mr. Speaker, today I honor the life of Zoe Ann Orr Marcus of Watsonville, California. Ms. Marcus, an integral part of the Pajaro Valley communities, died on Thursday, September 28, 2000.

Zoe was born in 1913 in Berkeley, California, but soon moved south to San Jose with her parents. She graduated from Stanford University with a degree in biological sciences. and received her master's degree in marine biology from Hopkins Marine Station in Pacific Grove. She later returned to Stanford to earn her teaching credentials. It was at Stanford that she met her future husband. Frank Fletcher Orr, and they were married in 1941. At that time, Mr. Orr was the managing editor of the Watsonville Register Pajaronian, but he was to later serve with the U.S. Army in the European Theater during World War II. While he served as chief of still-picture operations, Ms. Marcus taught at Woods Hole Marine Institute in Massachusetts

After the war, the couple returned to Watsonville, and in 1949 Mr. Orr was named editor of the Pajaronian. It was at this time that Mr. Orr purchased his family homestead on what is now East Beach Street in Watsonville. This Victorian farmhouse was built in 1868 by Mr. Orr's great-grandfather, Godfrey Bockius. Bockius was one of the

original organizers of the town of Watsonville, and was eventually elected as a county judge and a state assemblyman. Zoe and Frank restored this house together, adding a wing and modernizing many features of the original building. It was in this house that the Orr's entertained members of the Pajaronian staff, local community members, and the heads of local arts groups. Zoe's reputation as the preeminent hostess was well known throughout Santa Cruz County and the Pajaro Valley.

Frank Orr passed away in 1985, and in 1989 Zoe and long-time family friend Gerald Marcus were married. It was in these years that Ms. Marcus was most active in her community. Perhaps one of her most enduring legacies was her donation of the Bockius-Orr house and its lands to the Pajaro Valley Historical Association in 1991. The Association uses this house as an office and a museum open to the public. Zoe was also active in the Girl Scouts, the Santa Cruz Symphony, the Cabrillo Music Festival, Shakespeare Santa Cruz, the Cabrillo Foundation, the Greater Santa Cruz County Community Foundation and the American Association of University Women. She was honored for her volunteer work by both the Santa Cruz County Board of Supervisors and the University of California, Santa Cruz.

Mr. Speaker, as you can see, Zoe Ann Orr Marcus was an important part of many different aspects of life in Santa Cruz County and beyond, and will be sorely missed by her stepdaughter Mary Marcus of Capitola; stepson John Marcus of Watsonville; and cousin Betty Ann Chandler of San Jose. Her familiar presence will also be missed by the many people who have been touched by her energy and passion for life.

HONORING DR. JAMES T. WILLERSON BEING NAMED INTERIM PRESIDENT OF THE UNIVERSITY OF TEXAS HEALTH SCIENCE CENTER AT HOUSTON

## HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES Monday, October 16, 2000

Mr. BENTSEN. Mr. Speaker, today I honor Dr. James T. Willerson for being named Interim President of the University of Texas Health Science Center at Houston, one of the two world class medical schools in my district.

An internationally distinguished cardiologist and medical educator, Dr. Willerson has served since 1989 as the Edward Randall III Professor and Chairman of the Department of Internal Medicine at the University of Texas Medical School at Houston. Dr. Willerson's dedication to research in cardiology has made him highly respected by his peers, students, and community.

A native of Texas, Willerson grew up in San Antonio, where both of his parents were physicians. He graduated from the University of Texas at Austin with a B.A. in 1961. He received his Medical Degree from Baylor College of Medicine in 1965. Dr. Willerson completed his internship and residency at the Massachusetts General Hospital in Boston.

Dr. Willerson is known throughout the Texas Medical Center community as a fine physician, scientist, teacher, and administrator. Before joining the University of Texas Medical School at Houston, Dr. Willerson was a Professor of Medicine and Director of the Cardiology Division at the University of Texas Southwestern Medical School in Dallas and Director and Principal Investigator of the National Heart, Lung, and Blood Institute's Specialized Center of Research under a major grant from the NIH.

He has received numerous national and international awards, including the "James B. Herrick Award" from the American Heart Association in 1993 and named the American College of Cardiology's Distinguished Scientist for 2000. He was also elected a Fellow in the Royal Society of Medicine of the United Kingdom and made Honorary Member of the Society of Cardiology in Peru in 1994, and in Spain in 1996. Also, Dr. Willerson is a past President of the Paul Dudley White Cardiology Society at Harvard Medical School and Massachusetts General Hospital.

Throughout his career, Dr. Willerson has distinguished himself as a caring doctor and gifted teacher who demands the best. I congratulate Dr. James T. Willerson on being named Interim President of the University of Texas Health Science Center.

TRIBUTE TO LA RESURRECCIÓN UNITED METHODIST CHURCH

## HON. JOSE E. SERRANO

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, October 16, 2000

Mr. SERRANO. Mr. Speaker, it is with joy and pride that I pay tribute to La Resurrección United Methodist Church which, this past Sunday, moved to a new home in the Melrose Community of the Bronx at the historic Methodist building, which was built in 1878 by German Methodists.

La Resurrección has initiated effective ministries to address the needs of the community, such as creating one of the only church-sponsored Harm Reduction/Needle Exchange programs. This program targets single room occupancy hotels in New York City, serving over twenty five hundred participants and employing fifteen to twenty people. La Resurrección has created an Immigration Clinic with the assistance of lawyers who provide their services free of charge to assist undocumented Immigrants with legal advice. La Resurrección has also opened an after-school tutoring program called Creando Horizontes, designed and directed by educational professionals to target and enhance the reading and math skills children from the first to the eight grades.

Mr. Speaker, in collaboration with various community agencies, public officials and community leaders, La Resurrección works to address the needs of our community. Among their prophetic ministries are: Educating and Empowering the Community, Advocating for Gay and Lesbian Rights, Advocating for the release of the Puerto Rican Political Prisoners, Advocating for Peace in Vieques, and Denouncing both Police Brutality and Anti-Immi-

gration Laws. Presently, they are working with various agencies to create entrepreneurial opportunities for our young people.

It is a privilege for me to represent the 16th district of New York, where the new home of La Resurrección United Methodist Church is located. I am delighted by the church's success. I have witnessed first-hand the exemplary work they are doing for our community and I am deeply impressed. I applaud the commitment and the efforts of La Resurrección United Methodist Church's staff, under the leadership of Reverend Eddie Lopez, Jr., in the assistance they provide to our community, as well as in facilitating educational opportunities for our youth.

Mr. Speaker, I ask my colleagues to join me in recognizing La Resurrección United Methodist Church and its staff and in wishing them continued success in their new building.

SECURE RURAL SCHOOLS AND COMMUNITY SELF-DETERMINATION ACT OF 2000

SPEECH OF

## HON. PETER A. DeFAZIO

OF OREGON

IN THE HOUSE OF REPRESENTATIVES Tuesday, October 10, 2000

Mr. DEFAZIO. Mr. Speaker, I rise today in strong support of H.R. 2389. Stabilizing county payments has been my top legislative priority for the past several years. Enactment of this legislation has been a long time coming. Almost exactly a year ago, I argued for the passage of H.R. 2389 on the floor of the House. Today, I am asking my colleagues in Congress to again support H.R. 2389. This bill is a significant improvement over what the House approved last November and is a product of long and difficult negotiations with the Senate and Administration.

Counties in my district are suffering from declining federal timber payments. As a result, county governments are being forced to cut critical county services; work camps, juvenile justice programs, rural deputies and other essential county funded programs. The reduction in Forest Service receipts has also impacted rural road and school funding.

Throughout most of the 20th Century, West-

Throughout most of the 20th Century, Western Oregon served as the timber basket for the United States. Oregon's fourth congressional district, for many years, had the highest public timber harvest of any congressional district. Its lumber and wood products industry was also the most public timber dependent in the nation. Many rural community economies revolved totally around forestry, lumber, and wood products.

Today, timber output on public lands is at an all-time low. The costs to my district from changing public land management include lost high wage jobs, loss of economic infrastructure, and substantially reduced county budgets. I appreciate, and have worked with Members concerned with public land management. I believe a vote in favor of this legislation is a vote of support for better management of Federal forests because you are taking care of the communities which are most impacted.

Last year many Democrats had concerns with the environmental impacts of H.R. 2389.

I want to directly address those concerns. This revised bill has absolutely no incentive for increased logging. The difficult negotiations over this bill resulted in compromise legislation affording counties increased flexibility for expending guaranteed payments. What was once a potentially controversial set-aside for forest management projects is now expanded to fund salmon restoration work, road decommissioning, forest-related educational training, after-school programs, and critical emergency response activities, search and rescue, and forest work camps.

Secondly, the revised legislation has been modified so that any proceeds from a county-funded timber sale are returned to the United States Treasury instead of back to the Forest Service region. While I supported the original House-passed version of H.R. 2389, the revisions address some outstanding concerns expressed by the environmental community and the Administration. Counties in my district have produced a list of non-controversial projects which will fund important activities such as salmon restoration.

Finally, I want to thank the staff on both sides of the aisle and in both chambers who have put such long hours and hard work into this legislation. Penny Dodge, Kathie Eastman, my former staffer Jeff Stier, Amelia Jenkins, Chris Schloesser, Erica Rosenberg, Tom Pyle, Doug Crandall, Bill O'Conner, Troy Tidwell, Lindsay Slater, Dave Tenny, Sarah Bittleman, Mark Rev. Sara Barth, Kira Finkler, Brian Kuehl, and Eric Washburn. In addition, I want to thank staff from the Administration who worked in ensuring we could craft a bill President Clinton would feel proud of signing. Thanks to Anne Keys, Chris Wood, and Tom Tidwell. In closing, I want to commend my colleagues in the House and Senate-Representatives BOYD, WALDEN, HOOLEY and GOOD-LATTE and Senators WYDEN and CRAIG-who worked extremely hard. I truly appreciate their efforts

HONORING 20 YEARS OF DEDI-CATED SERVICE PROVIDED BY TOBY MYERS

## HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES  $Monday,\ October\ 16,\ 2000$ 

Mr. BENTSEN. Mr. Speaker, I am pleased to honor Toby Myers for her twenty years of dedicated service to battered women and their families in the Houston area. I understand that Ms. Myers has worked tirelessly to ensure the women in domestic violence situations get the services and help they need to leave dangerous situations which may threaten both their personal and their children's lives.

The statistics about domestic abuse are alarming. As we all know, women are more likely than men to be victims of domestic abuse. A 1996 Lieberman Advertising research project found that more than one quarter of all American women or 26 percent of women have been physically abused by a husband or a boyfriend during their lives. An even higher percentage of Americans, some 30 percent, know of someone who has been physically abused during the past year. Regrettably, domestic violence is one of the leading causes of injury among American women. In 1994, 37% of women who sought treatment in emergency rooms were violence-related injuries according to the U.S. Department of Justice report. In 1998, 106 women in Texas were killed by their intimate partner. Clearly we need to do more to combat this domestic abuse.

Toby Myers is a long-time advocate on behalf of these women. Beginning in 1980, she helped to found the Aid to Victims of Domestic Abuse (AVDA) in conjunction with the National Council of Jewish Women and Greater Houston Section. As a trained educator, Ms. Myers volunteered her time and talent by providing counseling for those abusive men who sought help through her private practice called the

PIVOT Group. Through her volunteer work at the AVDA, Ms. Myers helped to establish the innovative intervention program called the PIVOT Project. This Project creates a psychoeducational counseling group for men who are abusive in their intimate relationships. After the initial success with one group of abusive men. Ms. Myers helped to expand the scope of the PIVOT Project to serve more families. Since 1991, the PIVOT Project has served families in Pasadena, Katy, Rosenberg, Texas City, Baytown, Webster, Northwest Houston, Conroe and Bay City. In 1995, the PIVOT Project was selected as one of four sites for participation in a national research project funded by the Centers for Disease Control and Prevention (CDC). This longitudinal study continued to track those men who participated in the program in 1995.

During her twenty year career, Ms. Myers has worked on both a local and national level to share her expertise on domestic violence. She has served on the Board of the National Coalition Against Domestic Violence and has chaired the Family Advisory Committee for the Texas Department of Human Services. She was also selected as one of the 150 appointees by Surgeon General C. Everett Koop to help develop a national policy group on Violence and Public Health.

She also shared her knowledge as a teacher and mentor. She is currently serving as an adjunct professor at the University of Texas Health Science Center in Houston. She has also held faculty positions at both the University of Houston—Clear Lake and Texas Women's University. Her graduate level courses in family violence are renowned for being well attended and sought after by students interested in combating domestic violence.

I want to congratulate Ms. Myers on her twenty years of services and wish her well in her retirement. I know that many women in Houston and the surrounding area will thank her for her personal involvement in their lives to make this world a more livable place.

## SENATE—Tuesday, October 17, 2000

(Legislative day of Friday, September 22, 2000)

The Senate met at 9:30 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. Thurmond].

#### PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Gracious Father, this morning the Senate was jarred awake by the news of the tragic airplane accident that claimed the lives of Missouri Governor Mel Carnahan, his son, Randy, and Governor Carnahan's aide, Sifford.

In this difficult hour we ask You to give Your strength and peace to the Carnahan and Sifford families. Bless the citizens of Missouri. Grant Roger Wilson, who at this hour is serving as Acting Governor of Missouri, Your power and fortitude.

We begin the day conscious of the frailty and brevity of our physical life. Our time here is but a small part of the whole of eternity. May we live and work to Your glory in all that we say and do in this busy day in the life of our Senate. In Your all powerful name. Amen.

#### PLEDGE OF ALLEGIANCE

The Honorable George V. Voinovich, a Senator from the State of Ohio, led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The able acting majority leader is recognized.

#### SCHEDULE

Mr. VOINOVICH. Mr. President. today the Senate will resume debate on the conference report to accompany the Agriculture appropriations bill. Debate on the conference report will be limited in today's session and a short period on Wednesday morning. Therefore, those Senators with statements are encouraged to come to the floor during today's session, if possible. The vote on the Agriculture appropriations conference report is scheduled to occur at 11:30 a.m. on Wednesday. However, that vote time may be changed to accommodate those Senators who will be

sailors who died on the U.S.S. Cole. Senators will be notified as soon as possible if that change is made.

I thank my colleagues for their at-

#### RESERVATION OF LEADER TIME

The PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

#### LOSS OF GOVERNOR MEL CARNAHAN AND OTHERS

Mr. VOINOVICH. Mr. President, I appreciate the Chaplain of the Senate opening today's session in prayer for Missouri Governor Mel Carnahan and for his son, Randy Carnahan, and for Chris Sifford, all of whom were tragically killed last night in a plane crash in Missouri

Mel Carnahan and his wife Jean were good friends of mine and my wife Janet. We got to know them through the Governors' Association—a wonderful man, wonderful family man, one of the finest human beings I have ever met. From a personal point of view, my sympathy goes out to Jean, his wife, and to the rest of his family and to the citizens of Missouri. This country lost a great leader.

On behalf of the entire Senate, I express our deepest sympathies to Governor Carnahan's wife Jean and to their sons, Russ, Robin, and Tom, and to their grandchildren, Andrew and Austin. They have lost a father, husband, grandfather, son, a brother, and an uncle. This is a terrible burden to carry, and we wish them God's strength and courage in so doing.

The entire Senate joins me in expressing condolences to the citizens of Missouri who have lost the Governor they elected to serve them at State government. We also extend our sympathies to the family of Chris Sifford.

All of us involved in statewide public office know the dangers of flying across our States for different events. So when a tragedy such as this occurs, it hits especially hard. When I woke up at 6 o'clock this morning to the public radio saying Mel Carnahan and his son were killed, it reminded me how fragile life is and how so often we take life for granted. It also reminded me that each day we live, we should thank God for it and let the people with whom we come in contact know that we love them.

This is a sad day for our country. As I said, Mel Carnahan was truly a great

attending the memorial service for the leader and made a great contribution also to the National Governors' Association.

Many Senators knew Carnahan and will be making remarks today and in the next few days.

The PRESIDENT pro tempore. The Senator from Nevada.

Mr. REID. Mr. President, I received a phone call early this morning from my personal assistant, Janice Shelton, who indicated to me that Governor Carnahan was dead, having been killed in a tragic plane crash with his son,

I have watched very closely Governor Carnahan for the last 18 months, as we have watched the most noted Senate race in America this year between two very fine men, Senator ASHCROFT, formerly the Governor of Missouri, and Governor Carnahan. It was a great race to watch because they were so devoted to their different causes. There was distinction between the campaign philosophies. It was a race where the numbers never changed more than a point or two: For 18 months, back and forth, one ahead by a point, the other ahead by a point.

At this time, we realize that those numbers don't mean a great deal, that races in which we are engaged involve good people. Governor Carnahan, what a wonderful man. I got to know him very well, and his wife attended many functions in which I was in attendance. He dedicated his life to public service. The State of Missouri and the country will be less as a result of losing this fine man.

As has been indicated by Governor Voinovich, Senator Voinovich, our hearts go out to the entire family and the people of Missouri. Also, as Senator Voinovich and I were talking before the Senate convened, we have a great amount of sadness for Senator ASHCROFT, who is going through a difficult time now as a result of this, always wondering, having flown around the State himself, as we all have, trying to understand this life that we lead. So not only do I extend my sympathy to the Carnahan family, but also to Governor ASHCROFT, and the fact that in this country we can have people who have strong beliefs, differing beliefs, yet people of great moral certitude who believe very strongly in their causes. That is what makes this country as great as it is.

It is with a great deal of sadness that I came to work today. It is with a great deal of sadness I am with the Dean of the Senate and Senator Voinovich who

is opening the Senate today. This will have an impact on my life, always, having known him and suddenly his life is snuffed out. I am a better person for having known Governor Carnahan. The people of Missouri are better off as a result of his service. I wish Godspeed to the people of Missouri and the Carnahan family.

Mr. VOINOVICH. Mr. President, I would be remiss if I did not also mention that I was asked by Senator Kit Bond and Senator Ashcroft to also publicly express their sympathies to the people of Missouri on the death of Mel Carnahan. Both Senator Ashcroft and Senator Bond served as Governors of the State of Missouri and knew Mel Carnahan quite well. We know there was a campaign going on, and I am sure this is also very heavy on John Ashcroft.

Mr. DORGAN. Mr. President, I wish to make a comment about the tragic death last evening of Governor of Missouri. Carnahan Governor Carnahan, of course, was also a candidate for the Senate, a Governor of Missouri, Lieutenant Governor, and a distinguished officeholder for many years in the State of Missouri. His tragic death last evening is something that obviously allows all to say to his family, his widow, and the folks who were his friends and relatives, that our thoughts and prayers are with them. It is a difficult time. I know. This is a man who gave so much service to his country and such distinguished service to our country.

My thoughts are with him and his family this morning.

Mr. BAUCUS. Mr. President, I extend my deepest personal sympathies to Mel Carnahan's family. He was tragically killed in a plane crash last night. All Members want to serve our country as well as we possibly can. We go the extra mile to serve our people. We all know the dangers inherent with flying in small aircraft to try to attend political events and try to make meetings on schedules that are very uncertain.

All in the Senate are particularly grieved in this tragedy. We extend our most heartfelt sympathies to the Governor's wife, his family, to his campaign team, and all who were involved. It is difficult to explain how deeply we feel about this.

Mr. President, I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

The PRESIDING OFFICER (Mr. VOINOVICH). In my capacity as a Senator from the State of Ohio, I ask unanimous consent that the order for the quorum call be rescinded.

Without objection, it is so ordered.

#### RECESS

The PRESIDING OFFICER. I ask unanimous consent that the Senate

now recess until the hour of 11 a.m., and further that Senator DORGAN be recognized at 11 for up to 30 minutes.

Without objection, it is so ordered.

There being no objection, the Senate, at 10:22 a.m., recessed until 11:03 a.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer (Mr. ROBERTS).

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, the Senator from Montana, Mr. BAUCUS, wishes to make a presentation on the Agriculture appropriations bill. I intend to make a longer presentation. I ask he be recognized; that following his presentation, I be recognized in the regular order.

The PRESIDING OFFICER. Without objection, it is so ordered.

The distinguished Senator from Montana is recognized.

#### RETIREMENT SECURITY

Mr. BAUCUS. Mr. President, I rise to urge that Congress enact the Retirement Security and Savings Act, which has passed the House and been reported unanimously by the Senate Finance Committee. This is a balanced, bipartisan bill. It will encourage people to set their own money aside for retirement, by reforming the private pension rules and increasing the amount that people can put in an individual retirement account. It also will create two important new savings incentives. One is a tax credit for small businesses that set up pension programs for their employees. The other is a tax credit for low and middle income people who save for their own retirement. If, before adjourning, we can find a way to enact this bill, it will be a significant addition to the record of the 106th Congress. Let me explain why.

The American people have many wonderful qualities. But, these days, unfortunately, thrift is not one of them. During the last 20 years, personal savings rates have consistently declined, from 9 percent of GDP in the 1970s to less than 1 percent now. In fact, the preliminary net personal savings rate for August is the lowest rate since the Commerce Department began keeping records in 1959. So what? Why does this matter?

In the first place, a low savings rate means that less capital is available for new investments. Perhaps that is not a pressing issue right now, with a booming economy. But it should be. Over the long run, a low cost of capital is es-

sential to our international competitiveness. On top of that, a low savings rate means that people aren't putting their own money away for retirement. That makes them more dependent on Social Security. In fact, 16 percent of today's retirees depend exclusively on Social Security for their retirement income, and two-thirds depend on it as their primary source of retirement income.

We need to protect Social Security. But that is not enough. After all, Social Security only replaces about 40 percent of the income earned during our working years. If retirees continue to rely so heavily on Social Security, there will still be far too many Americans spending their retirement years one step away from poverty. We need to supplement Social Security, by encouraging more Americans to save for their retirement. And we can start by passing the Retirement Security and Savings Act, as reported by the Senate Finance Committee.

As a threshold matter, the bill does two important things. First, it reforms the tax rules for pension plans. It makes pensions more portable. It strengthens pension security and enforcement. It expands coverage for small businesses. It enhances pension fairness for women. And it encourages retirement education. Second, the bill increases the contribution limits for individual retirement accounts. IRAs have proven to be a very popular way for millions of workers to save for retirement, particularly for those who do not have pension plans available through their employers. The IRA limits have not been increased since they were created almost two decades ago. An increase is long overdue. These are positive changes. However, by and large, they reinforce the conventional approach to retirement incentives. That approach can best be described as a "top down" approach. We create incentives for people with higher incomes, hoping that the so-called nondiscrimination rules will give the higher paid folks an incentive to encourage more participation by others, such as through employer matching programs. I do not have a problem with this approach, as far as it goes. But it does not do enough to reach out to middle and lower income workers.

That is why I am particularly pleased that the bill goes further, by creating two new savings incentives. One creates a new incentive to encourage small businesses to establish pension plans for their employees. The other creates a new matching program to help workers save their own money for retirement. Let me discuss each in turn.

First, the incentives for small businesses. Unlike larger companies, most small business owners do not offer pension plans. While three out of every four workers at large companies are

participating in some form of pension plan, only one out of every three employees of small businesses have pensions. This leaves over 30 million workers without a pension plan. It is not that small businesses do not want to provide pension plans. They simply cannot afford to. Record-keeping requirements are too complex and expensive. The bill addresses this, by creating two new tax credits.

The first is a tax credit of up to \$500 to help defray the administrative costs of starting a new plan. The second is a tax credit to help employers contribute to a new plan on behalf of their lower paid employees. In effect, it is a match of amounts employers in small firms put into new retirement plans for their employees—up to a limit of 3 percent of the salaries of these workers. Taken together, these new incentives will make it easier for small businesses to reach out to their employees and provide them with a pension. In addition, the bill creates a new tax credit that is aimed primarily at workers who do not have a pension plan available to them. to encourage them to save for themselves.

Only one-third of families with incomes under \$25,000 are saving for retirement either through a pension plan or in an IRA. This compares with 85 percent of families with incomes over \$50,000 who are saving for retirement. We clearly need to provide an incentive for those families who are not saving right now, and the individual savings credit included in the Finance Committee bill will provide that incentive.

Here is how it works. A couple with a joint income of \$20,000 is eligible for a 50 percent tax credit for the amount that they save each year, for savings of up to \$2,000. People with higher incomes get a smaller match, up to a joint income of \$50,000. According to the Joint Tax Committee, almost 10 million families will be eligible for the individual savings credit. This will provide a strong incentive for these families to begin setting aside money for their retirement. That, in a nutshell, is how the credits work. Let me respond to the common criticisms of the proposal.

One is that the tax credit for low and moderate income workers is not refundable and therefore will not benefit lower income families that have no tax liability. All that I can say, in response, is that I am a realist. I agree that the credit should be refundable. But, this year, a refundable credit is not in the cards, because it generates strong opposition from the majority. Another criticism, from a different direction, is that the credit is targeted to a specific income class, and provides taxpayers in that income class with too much of a benefit. I disagree. This is not a novel approach. Many provisions of the tax code are phased out at higher income levels, as a way of targeting benefits and reducing the revenue loss.

Another thing. By targeting lower and moderate income workers, the credit provides balance. The benefits of the other provisions of the bill go primarily to higher-paid workers. After all, if we increase the amount that can be deferred in a 401(k) plan more from \$10,000 to \$15,000 a year, we are only benefiting folks who can afford to make that much of a contribution. So a credit targeted to low and moderate income workers provides the overall bill with balance.

In conclusion, I urge the leadership, on the tax-writing committees, in the Senate, in the House, and in the administration, to work together to secure passage of this important legislation. We continue to have a rip-roaring national economy. But many people have been left behind, good people, who are working hard to make ends meet. Let us reach out to them. Let us make an effort to give every working person in this country a real stake in the American dream. Maybe some young worker will see this tax credit and start to put away a little money that he or she otherwise would have spent. That money will compound, and so will the virtue of thrift. And that, Mr. President, will be good for all of us.

The PRESIDING OFFICER. The distinguished Democratic leader is recognized

#### MEL CARNAHAN

Mr. DASCHLE. Mr. President, it is with a sad heart that I speak this morning. We now all know that we have lost the Governor of the State of Missouri. Gov. Mel Carnahan was killed in a plane crash last night. Like another man from Missouri, Harry Truman, Mel Carnahan was a man of plain speech and enormous political courage. I believe he would have been a great United States Senator, just as he was a great Governor. His death is a loss to the people of Missouri and to all Americans.

Mel Carnahan spent his life in public service. In this time of skepticism and cynicism about politics and politicians, it is worth noting that Mel Carnahan could have done anything with his life and been a success. His intelligence, his drive, his dedication, his hard work, would have landed him at the top of just about anything he chose to pursue. But Mel Carnahan made a choice early in his life that he would enter public service and that he would use his enormous talents to help people, and that is what he did.

In the State legislature, as State treasurer, as Lieutenant Governor, and during his two terms as Governor, he worked to help people, to make government efficient, and to use the tools at his disposal to make a difference to people's lives.

Whether it was improving public schools, expanding health insurance for children, stricter safety standards for nursing homes to protect seniors, or passing some of the toughest anticrime measures in the nation to make communities safer, he made a difference.

When Governor Carnahan raised taxes in 1993 to improve Missouri schools, it was an act of political courage that he said was part of his job. "It was the right thing to do," he said later. It was the right thing to do. If one principle could sum up Mel Carnahan's entire political career of public service, it would be just that—he saw what needed to be done, and he did the right thing, regardless of political consequences.

He saw what needed to be done, and using that strong inner compass of right and wrong that steered him through his entire life, he made his decisions—not based on polls or focus groups or other political considerations, but on what was the right thing to do.

Last night, we lost a true public servant—the kind whose service on behalf of people brings honor to all of us who have chosen a similar path for our lives. The fact that his son Randy was with him makes the personal tragedy suffered by the Carnahan family all the more crushing. Our thoughts and prayers are with Jean Carnahan, and the Carnahan and Sifford families in this time of sadness.

I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota is recognized.

# AGRICULTURE APPROPRIATIONS AND FAMILY FARMERS

Mr. DORGAN. Mr. President, I indicated I wanted to talk today about the appropriations bill conference report that is going to be considered by the Senate. The vote at this point is ordered for tomorrow. It is a vote on the Agriculture appropriations bill conference report.

I am a member of the subcommittee dealing with Agriculture appropriations in the Senate. We have had a lengthy conference with the House of Representatives and have reported out a piece of legislation. While I am critical of the farm bill we have in this country because I believe it does not work, I do not want to start with criticism of anything or anybody. Rather, I want to start with compliments.

I compliment Senator THAD COCHRAN who is the chairman of the Senate Agriculture Appropriations Subcommittee. He does just an excellent job. I appreciate very much the work he does

I compliment Senator HERB KOHL who is the ranking member on that subcommittee.

I thank Galen Fountain, our minority clerk on the subcommittee, who

does a lot of work with us, and good work; Rebecca Davies, Martha Scott-Poindexter, Les Spivey, Hunt Shipman—staff people who have done a great deal of work to put this legislation together.

On my staff, Dale Thorenson and Nicole Kroetsch, Brian Moran, and Stephanie Mohl, who worked on parts of this. Thanks to all those people.

When we bring a piece of legislation to the floor of the Senate after it has gone through conference, it has gone through a long, tortured process. It is not an easy thing to put together. It represents a lot of work and compromise. Thanks to all the people I have mentioned

I will try to, for a moment, describe why all of this is important to me. There are a lot of things in this legislation dealing with research, agricultural research, food research, Food for Peace—you name it, there is a whole range of programs that deal with very important and serious issues. But I want to focus on one thing, and that is family farming.

I come from a State that is largely an agricultural State. The fact is, our family farmers in this country are in deep trouble. Some people probably couldn't care less. They get their butter from a carton, they get their eggs from a carton, they buy their milk in a bottle, they get their pasta in a package, and they couldn't care less what is happening to family farmers.

Those who think a lot about it understand the importance of farmers who are out there with their families living on the farm, with the yard light that illuminates their place at night. They understand its culture, and understand its contribution to our country. Those who think about it understand the importance of broad-based economic ownership in our country's food production

I want to read a couple of letters because we are in a situation where commodity prices have collapsed, the grain prices are rock bottom, and our farmers are in desperate trouble. They are losing their livelihood, losing their farms, having to quit. This is a letter I received a couple of days ago from a woman named Lois. I will not read her last name. I do not know if she has indicated she would want me to read this on the floor of the Senate. This is a family farm in North Dakota. Lois and her husband run a family farm. The letter says:

Dear Byron, it's 6 a.m. I woke up [this morning] and feel compelled to write, as I feel farmers here are now at rock bottom.

Right now as we harvest a worthless crop, pay huge prices for our oil products, face winter and bills to pay, we find the [crops sprout damaged and injured] by rain. Harvest brings more stress and fears to all of us. I'm afraid for us. I'm afraid for my neighbors and others like us who can't make a profit thru no fault of our own. We . . . have other jobs, but we can't keep farming. . . . I am

taking time off these days (from my work) to drive a grain truck. I'm hauling grain that is below \$1 a bushel. . . . We need a price that is more than cost. It's called profit. I don't have a lot of answers. We've attended many meetings. . . . We can feed the world . . . we should feel pride in that.

But what's wrong? There's something not connecting here.

She, like so many others, is trying to make a living on a family farm, and they are going broke.

A farm family—a man and his wife—wrote to me about a week ago and said:

It is with tears in my eyes that I find myself writing to you today. After I have been assisting in what should be a joyous time, it just couldn't be further from that. So for the first time, I am taking steps to try and find help, for not only ourselves, but all of those who are worse off around us. Somebody has to help us now. . . . My husband and I farm—near a small community in the northwest corner of North Dakota.

We are blessed with some of the greatest soil and we felt very fortunate until now that it has helped to provide us with thousands of bushels of grain, plus cattle. In fact, up until recently, we had thought we were very fortunate. We couldn't have been more wrong, however.

We are facing the worst times our 3rd generation farm has ever seen since its existence began in 1914. As combines are cutting our fields, the last thing I would normally be doing right now is writing a letter, but we have no choice. Something has to be done and people need to know what kind of devastation is [occurring] in our economy.

It was just this morning that we were told that our very rare and beautifully colored, disease free durum wheat is now only worth 80 cents a bushel. Our neighbors were not so "lucky." There is no market for theirs as it was not close to perfect.

Our banks will not collect on their loans, young people like ourselves are going to just pack up and leave. . . . There is just no reason for us to continually be abused. . . .

She raises the questions, as other farmers do, about everyone else making record profits that handle their grain. The grain elevators, railroads, and the grain trade all make record profits.

She says:

We are one of the very few young farmers left in our community and after this harvest there will be many more forced to leave. There just will be no alternative.

Another letter from another family farm in North Dakota. A farmer writes:

So why do I write? Simply to encourage you to continue the battle, to be a voice alerting the nation to the financial, cultural and social devastation that is taking place in rural America. As a seventy two year old lifetime farmer, now retired, I am a witness to farm after farm being discontinued. The immediate community in which I live vastly changed and changing. Good young family farmers are quitting one after the other, some forced out financially, others giving up before complete financial ruin. There is no profit incentive, the gamble is too great, the fight against weather, disease, regulations and prices too heavy a burden to bear.

This farmer writes:

Personally, I have a son now forty five, who has farmed since graduating from the

University of North Dakota. His hope is fading. He talks of farming one more year and [then giving up]. He is a fourth generation farmer ready to give up. His son now seven never to continue into the fifth generation [on the family farm].

He says:

My concern is for my family, my community, the nation.

I will not read any more. I have so many letters from farmers. They are out there wondering what is wrong with an economic system which rewards everyone except those who produce the crops.

Some say: The "family farm," that is kind of like the little old diner that gets left behind when the interstate comes through. It was a great old place once, but it is irrelevant now because the interstate moves people past that diner. They say that is what the family farm is like. They couldn't be more wrong.

I have indicated before, go to Europe, if you wonder what an economy ought to be with respect to rural values. Europe was hungry at one point so it decided never to be hungry again. One part of national security is to make sure you have a network of producers, a network of family farms producing your food. That way you will not have concentration; you will have broadbased economic ownership, and you will provide national security with respect to food. Europe has a healthy agricultural base. Europe has family farmers who are making money and small towns that have life on their main streets. Why? Because Europe has chosen an economic model that says they intend to keep their family farmers on the farm.

Our country ought to do the same, for a whole series of reasons, some economic, some cultural, some social. But family farms contribute more than just grain. They contribute families, yes; they contribute a culture that is very important to this country.

A wonderful author named Critchfield used to write about the nurturing of family values in this country. He said family values have always started, in the two centuries of America, on its family farms, and rolled to its small towns and to its cities. The refreshment and nurturing of family values has always come from the seedbed of family values; and that is our family farms.

If one wonders what kind of cultural devastation occurs or what kind of cultural changes will occur in this country if we lose our family farms, our rural economy, and turn into a country in which corporations farm all of America from coast to coast—one can see that model in a number of other areas. It is not something that advances our country's interests. Rather, it retards our country's interests.

So I do not come here making excuses in support of family farms. I

come saying that the support of family farms is essential for the long term well-being of this country.

How do we support family farms? Well, we have a farm bill that is a disaster called Freedom to Farm. We gave farmers so-called freedom to farm, but not freedom to sell. So farmers are prevented from selling into certain markets. The freedom to farm is a presumption that individual family farmers have the economic clout in which to deal with everyone else with whom they have to deal.

Does a family farmer have a chance when complaining about railroad rates? I do not think so. Ask the folks in Montana who filed a complaint against the railroad rates. Ask them if they got a fair shake when it took 16 years to get the complaint processed down through the ICC.

Who wins when the family farmer is overcharged by a railroad for hauling grain? The railroad wins.

Who wins when the food manufacturers or the grain trade takes a kernel of wheat, moves it somewhere down the line on the railroad and into a plant, puffs it up, puts it on a grocery store, and calls it puffed wheat? Who wins when they take produce from farmers and give them a pittance for it, and then charge a fortune for it on the grocery store shelf? It is the same kernel of wheat, only it has had a puff added to it. The puff is worth more than the wheat. The people selling the puffed wheat are making a fortune, and the family farmers are going broke.

Is that an economic model that has any justice in it at all? The answer is no. So we ought to have a farm program that works. And we do not, Next year we ought to commit ourselves to repealing Freedom to Farm, and rewriting a bill that works for family farmers, that provides a safety net for family farms in the country. This is not rocket science. They do it in Europe. We ought to be able to do it in our country.

Let me describe, just for a moment, what we have in this appropriations bill. We have disaster assistance in this appropriations bill.

I want to show a couple of charts that talk about what happened in North Dakota in the spring of this year after the crops were planted. This chart happens to show a grain field. It does not look like it, but it is a grain field. From the evening of June 12 until the morning of June 14—a day and a half—a stalled thunderstorm system actually several thunderstorms converging together—dumped as much as 18 inches of rain in the Red River Vallev. near Grand Forks, ND.

North Dakota is a state that usually gets 15 to 17 inches of rain a year. We are a semiarid state which averages 15 to 17 inches of rainfall a year. From June 12 through June 14, in some of these areas, we had 18 inches in 36 hours.

A few days later on the evening of elevator. They took a durum crop from June 19, around 7 o'clock in the evening, flash flooding and severe thunderstorms hit the Fargo-Morehead area about 80 miles south of the first set of storms in the Red River Valley. By 11 p.m. that evening, more than 4 inches of rain had fallen, and it looked as if maybe the worst had passed. But thundershower after thundershower pummeled the area after midnight, dropping an additional 2 inches of rain in 90 minutes. So, this area ended up with a total of 6 inches of rain in a very short period. This is a totally flat terrain. It caused massive sheet flooding. Throughout the area around Fargo, seven to 9 inches of rain in total fell in the timespan of 6 hours.

This chart shows what a grain field looked like the day after. Here is another picture of grain fields. As you can see, there is no grain there. This is a lake. In fact, this area used to be Lake Agassiz long before any of us were around. But you can see what this does if you are a family farmer and you have been out in the spring planting grain. We now have a flood.

The floods in North Dakota, the drought in Texas, the drought in Georgia, the drought in Mississippi, and other parts of our country, the disasters in Montana, all persuaded this Agriculture appropriations subcommittee to add more funding for disaster aid. We originally added \$450 million for Crop Loss Assistance due to weather disasters when the bill was in the Senate-an amendment I offered on the floor of the Senate.

When it went to conference, the need was obvious, so we added more. It went to \$1.1 billion for disaster aid because we had had continued disasters in Texas and in the Deep South. In fact, look at Georgia here. The weekend before we lost our late colleague. Senator Coverdell—who was a distinguished Senator and one I deeply admired—the weekend before we tragically lost our colleague, I had spoken to him about what was happening in Georgia. He said that he was going to cosponsor with me a disaster piece that would provide assistance for farmers in that area of the country. We had need-because of the floods—in our area as well.

We have had drought in the Deep South. As shown on this chart, we can see these red areas. We have had flooding in other areas. We have had a pretty difficult time this year in many areas of the country.

So this piece of legislation adds \$1.1 billion for disaster assistance. This help allows farmers who have been struck by natural disasters to be able to claim some help for crops that they were not able to harvest.

In addition to that, we had folks up in this part of North Dakota that harvested a crop—a crop that looked great—but they had a disaster when they delivered that crop to the grain

the field—a 45-bushel-to-the-acre crop, which is a pretty good crop—only to discover that when they got it to the grain elevator it was full of disease and sprout damage. They found out that grain they thought was going to be worth a decent price was now valued by the grain trade at only 80 cents a bush-

The cost of producing this grain is probably \$4 to \$4.50 a bushel. So, they had a field waving in the wind, getting ripe and ready to be harvested. They got the combine out, took the grain off, and then discovered what cost them \$4.50 a bushel to produce was now worth 80 cents. To make matters worse, they also found out that the crop insurance they had taken out to insure their crop does not provide help for them to cover the quality loss.

That is called a quality loss adjustment. Actually a better word for it is a catastrophe. If you have a product that you have produced, and it turns out to be worth almost nothing, that is a catastrophe.

Here is what has happened to our farmers. You can see, going back to 1996, wheat prices were very high. That is when Congress passed Freedom to Farm. Many of us stood on the floor of the Senate warning, at that point, this isn't going to continue. But Freedom to Farm provided specific payments over a period of time after which there would be a phaseout of the program altogether. You can see what has happened to prices. You can see with prices at rock bottom, having collapsed and stayed down for some while, that the quality loss adjustments mean that farmers are getting pennies for their

This disaster is not a natural disaster, but rather it has resulted in quality loss adjustments by the grain trade that had to be addressed in this bill. For the first time, this legislation will provide \$500 million for quality loss adjustments. I will talk through that for a moment so people understand why this is in the bill and why it was necessary.

These farmers haven't caused the problem. These are good family farmers who have discovered that their crop, especially in our part of the country up in North Dakota, with the worst crop disease in a century, these are farmers who have discovered that they have produced a rather bountiful crop that is worth nothing when they take it to the grain elevator. Without the quality loss assistance, we would have had a wholesale migration from our family farms. We are going to have a lot of migration anyway by family farmers who simply can't make it. But the disaster aid and the quality loss adjustment is going to be a step in the right direction by at least extending a hand to say until we change this farm bill, here is some help.

I pushed very hard on quality loss assistance. I know I might have bruised some feelings here and there, but I just didn't think we had any choice. We can't say to family farmers, when their prices are collapsed, that it doesn't matter. We can't say to family farmers who are out there struggling: When your crop is hit by disease, it doesn't matter; when your crop insurance doesn't pay off, it doesn't matter; if you are hit 6 or 7 years in a row by natural disaster, as has been the case with many counties in North Dakota, it doesn't matter.

We have a responsibility to define the kind of economy we want in this country. The kind of economy I want is an economy that values that which is produced on our family farms. Our farm program needs changing desperately. We have not been able to get that done this year. In the meantime, this piece of legislation, this Agriculture appropriations bill, does provide some fill so that with respect to disaster and quality loss adjustments, we are able to provide some short-term, interim help to family farmers.

I say to Senator Cochran, Senator KOHL, and others who were willing to allow me to press as hard as I did to put this in the bill, I appreciate—and the family farmers in my State will appreciate—the opportunity to continue to try to make that family farm work and to make a living.

I say, again, that we have a responsibility to decide as a Congress whether we want family farms in our future. For those who don't, let's just keep doing what we are doing and that is where we will end up. We will eventually not have any family farmers left in this country. But for those who, like me, believe that a network of family farms is essential to this country, to its culture and its economy, then we better wake up and work together and write a farm bill that works and gives farmers some hope. We better do that. not 2 years from now, not 3 years from now. We better do that now.

We are about ready to adjourn. I suppose, at the end of this week or the end of next week, and we will reconvene as a Congress, the 107th Congress, in January. My hope is one of the first items of business is for us to understand that rural America has not shared in this bountiful prosperity of our country. It is not just that food has no value. You look around the world at night on your television screen, vou will discover that there are people who are hungry, there are children who are going to bed with an ache in their belly in every corner of the globe. Food does have value. But the food that is produced in this country, regrettably, has value only for established monopolistic interests, those who have become big enough to flex their economic muscle at the expense of those who produce the food.

grain produced by a family farmer seems to be making record profits. Every enterprise that touches it seems to be doing well. The railroads, the grain trade, the grocery manufacturers, they are all doing well. In fact, they are doing so well, they are marrying each other. Every day you read about another merger. They want to get hitched. They have so much money, they are all rolling in cash. It is the folks out here who took all the risks and plowed the ground and seeded the ground and harvested the crop. They are the ones who can't make a living. There is something disconnected about that kind of economic circumstance.

We can have the kind of economy we choose to have. It is within our ability to define the kind of economy we want for this country. I hope, beginning next year, we will decide that there is a different way, a better way to extend the help for family farmers with a farm program that really works during tough times and a farm program that we would not need during better economic times when grain prices reflected the real value of the grain produced by family farms.

We have made some progress in the Agriculture appropriations bill dealing with sanctions. It is not the best, but we have made some progress. Many of us in the Senate, many in the Congress, have believed that it is relatively foolish for our farmers to bear the brunt of national security interests by having sanctions against other countries that say you can't ship food or medicine to certain countries because we are angry with their leaders. That has never made any sense to me.

We can be as angry as we like with the country of Iran or Libya or Cuba or Iraq, but refusing to ship food to those countries doesn't hurt Saddam Hussein or Fidel Castro. All that does is hurt hungry, sick, and poor children. It hurts hungry people, sick people, and poor people in countries to which we are not allowed to ship food and medicine. Talk about shooting yourself in the foot, our public policy has been to say ready, aim, fire, and we shoot ourselves right smack in the foot on the issue of sanctions.

I don't have a quarrel with those who want to strap economic sanctions on the country of Iraq. That is fine with me. But sanctions should not include food. We have tried mightily to get rid of the sanctions with respect to a range of countries with whom we now prevent the shipment of food and medi-This legislation marginally moves in that direction. It includes some elements of the amendment I put in the appropriations bill as it went through the Senate. But, once again, it is reactionary with respect to Cuba. There is going to be no grain sold to Cuba because of restrictions put in

Everyone who touches a bushel of here by a few people who were trying to hijack this debate in the conference. The result is it tightens up on travel restrictions to Cuba, and virtually means there will be no food sold in Cuba. In my judgment, that is very foolish, but we will live to fight another day on that issue. At least part of what is done in this legislation dealing with sanctions on agricultural shipments is a step in the right direc-

> There is much more to talk about in this legislation. Let me end by mentioning my thanks to the people who helped put this legislation together. It is not easy to do. On balance, while there are some things I don't agree with—I have not described what those are—I think it is a good piece of legislation and a pretty good appropriations bill. It ought to be a precursor for all of us who support family farmers to understand that year after year, when you have to add a disaster piece and emergency pieces to deal with the failure of a farm program, it is time to rewrite the farm program from the start.

> I yield the floor and suggest the absence of a quorum.

> PRESIDING OFFICER (Mr. The VOINOVICH). The clerk will call the roll. The legislative clerk proceeded to call the roll.

> Mr. DASCHLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

> The PRESIDING OFFICER. Without objection, it is so ordered.

#### COMPLETING THE WORK OF THE SENATE

Mr. DASCHLE, Mr. President, I understand we are about to recess for the day. I want to discuss for just a moment, if I may, my observations about the week and the lack of any activity or communication with the Democratic caucus. I am told that the majority leader has indicated to his caucus members that there won't be a vote tomorrow and that the vote will be postponed on the Agriculture appropriations bill until Thursday.

I am surprised by that announcement, first, because I had not been forewarned or informed in any way that this would be the schedule for the week. I also am disappointed because I have indicated to a lot of people that they needed to ensure they would be here tomorrow at 11:30. They have all made plans accordingly. A lot of people have arranged their entire week around the fact that tomorrow at 11:30 there would be a vote. I am told that our Republican colleagues may simply go into a quorum call at some point and force the Senate into a vote on Thursday, which is, of course, their right. We will insist on a vote on adjournment tomorrow. There will be a vote tomorrow.

We think we ought to be here, working, resolving the outstanding differences. The longer we are gone, the less likely it is we will finish our work. It is that simple. How many days do we have to go with absolutely no business on the Senate floor? We could be taking up an array of issues. We could be taking up unfinished business that begs our consideration. Yet we sit day after day holding hands and wondering when, if ever, we will adjourn sine die. This isn't the way to run the Senate.

At the very least, there ought to be a minimum amount of communication between Republicans and Democrats with regard to the schedule. To read an announcement that there will be a vote postponement and not to give forewarning to all of our colleagues who are making travel plans is, again, just another departure from what I consider to be good will and common sense.

We will delay the vote at least until 4 o'clock tomorrow afternoon because of the Cole funeral. We understand there will be Members who need to travel to Virginia for that very important matter. We will delay the vote until at least after 4 o'clock. I want colleagues to know there will be a vote tomorrow and we will force that vote. We will continue to force votes to keep people here to do what they are supposed to do.

I have also just been in consultation with a number of our colleagues from the White House, and they have indicated they will begin insisting on much shorter continuing resolutions, 2 or 3 days at the maximum. I hope the President will veto anything longer than a 3-day CR. Why? Because it is ridiculous to be taking 7-day CRs, leaving 5 days for campaigning and 2 days for workif that. We should be working 7 days with a 7-day CR. We should be finishing the Nation's business with the CR. To give every single candidate, whoever it is, the opportunity to campaign while leaving the people's business for whenever they can get around to it and delay it to another occasion when it is more convenient for them to come back is unacceptable, inexcusable, and will not be tolerated.

I put our colleagues on notice that in whatever limited way we can influence the schedule, we intend to do so. That will at least require perhaps a little more consultation but, at the very least, a little more forewarning to all colleagues with regard to the schedule and what it is we are supposed to be doing here.

Mr. REID. Will the Senator yield?

Mr. DASCHLE. I am happy to yield to the Senator.

Mr. REID. I ask the Democratic leader if he has ever seen in his many years in the Congress, both the House and the Senate, the casual attitude, with so few appropriations bills having been passed? We have less than 3 weeks left until the elections of this cycle, and we are here doing nothing. Has the Senator ever experienced anything such as this?

Mr. DASCHLE. I have seen recesses that are more productive than what we have experienced since we started passing CRs. These recesses, as I like to call them—7 days of continuation of a resolution, and then 2 days, if that, of work, maybe 1 day of work—are mind boggling.

There ought to be some urgency here. We ought to express the same level of urgency that a continuing resolution implies. But I don't see any urgency. I see no sense of determination to try to finish our work. If we take a poll of where our colleagues are today, they are cast out over all 50 States, with very little appreciation of the need to finish our work, to come back and do what we are supposed to do.

(Mr. ROBERTS assumed the Chair.)

Mr. DASCHLE. I know the Presiding Officer is required to move on and is being replaced again by a very distinguished Presiding Officer from Kansas, our colleague, PAT ROBERTS, but I appreciate very much the question posed by the distinguished assistant Democratic leader.

Mr. REID. If I could ask the Senator one more question; that is, I don't know what will happen this weekend, but I can only speak for myself and a number of other Senators with whom I have had the opportunity to speak on the phone and in person today. We should be working this weekend. For us now to not have votes until late Wednesday or maybe even Thursday, and to take Friday, Saturday, Sunday, and maybe Monday off? I want the leader to know that there are a number of us on this side who feel the urgency is here; we should press forward and work through the weekend.

Mr. DASCHLE. Let me respond to the distinguished Senator from Nevada. First, I would like to see if we could work on Tuesday. I would like to see us work on Wednesday. But as he has noted, given the urgency of completing our work, Saturday and perhaps even Sunday would be a real departure from current practice. But just working on the weekdays of the week would be a startling revelation for some of our colleagues.

I think it is time we get the job done. It is time we recognize how important it is we finish our work. It is time we bring people back. Let's keep people here. Let's require they negotiate. Let's work and get our business done before we have to continue this charade that seems to be a common practice of being in session but doing no work.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BYRD. I ask unanimous consent that further actions under the quorum call be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator is recognized.

## MARKETING VIOLENCE TO CHILDREN

Mr. BYRD. Mr. President, Americans are rightfully horrified and alarmed at the news reports and stories about socalled "child soldiers" pressed into service in paramilitary armies around the world. In Cambodia, the Sudan, Lebanon, and elsewhere, we gaze into the hard-eyed stares of barefoot tenyear-olds cradling well-worn rifles and machine guns. These children have known nothing but violence. It is hard to imagine how they will ever be able to move beyond such violence, should peace ever be established in their homelands. They do not know how to live under the rule of law, only under the rule of might makes right. They have a very casual attitude about killing other human beings.

We certainly would not want our own children to experience such a life, and we would not want such a generation of casual killers to grow up amongst us. Yet, in the midst of all of our affluence, we are rearing a generation that is appallingly casual about violence, a generation that is appallingly self-centered about getting—or taking—what they want. Too many of our children live lives heavily influenced by a completely unrealistic set of expectations and examples. In the movies, when something bad happens to someone, does he or she turn to the police for help and then retire to the background while the police deal with the problem? No. of course not. Our hero grabs a gun and gives chase. Bullets fly, explosions and car crashes ensue, and the audience is treated to every gory detail. There is no fading to black anymore to let our imaginations fill in the details. No, our hero leaves a bloody trail of death and destruction in his wake and goes home with the girl-and none of those details are left to our imagination, either.

Now, instead of the aforementioned action-adventure, one could opt instead for some other movie genre but many are worse. Horror movies have taken violence against the innocent to new. ever-more-squeamish lows. The realistic and grisly visuals are, no doubt, a tribute to the talents of makeup and special-effects artists, but, nevertheless. I remain unconvinced that putting these nightmares on the silver screen does anything but tarnish the screen and the imaginations of the viewers. Some of the subject matter in these films is so misogynistic, so filled with contempt for societal order, and so filled with invective and hate, that it should set the alarm bells ringing in peaceable folks and incite them to demand greater responsibility from the entertainment industry.

I have always instinctively, intuitively felt that people who can look with equanimity on this kind of violence, even on screen or on the radio, might themselves be open to such action. In fact, this does seem to be the case in practice. We surround our children with these so-called "role models," and then, for amusement—and I use that term lightly—we let our children play games in which they get to act out this lifestyle.

What are we doing? We send our children the message that real life is dull, and that this is what we do for fun. We allow them to watch so-called movie stars create mayhem without ever facing the consequences. Then we allow our children to listen to music that may also be filled with violent lyrics. Then we let our children amuse themselves by play-acting that they are the killers. We allow them to have hours. sometimes, of simulated target practice—and we pay for the privilege. Should we then be surprised when our children come to believe that violence against others is just one stop along the continuum of acceptable behavior?

Our children may go to school every day. They may have a roof over their heads at night. Perhaps they have nice clothes to wear. They may have parents who love them. They may have, in short, everything, but they have, in too many cases, developed the same hardeyed stare that those Cambodian child soldiers have. They have developed the same casual attitude about violence and in far too many cases, they act out these violent impulses, with tragic results.

I have long shared the concerns of many parents and grandparents that young people are being exposed to far too much violence through the mediathrough the movies, through television, rock music-if you can call it music-and video games. The entertainment industry, however, has generally rebuffed criticism about the content of its programs and products, and about concerns that too much exposure to violence is harmful to our young people. The industry, in fact, has repeatedly claimed to be making efforts to reduce the exposure of young people to violence, including instituting a system of labeling program content so that parents are supposedly better able to evaluate the programs, and video games and what goes for music that their children watch and play.

Now it seems as though the entertainment industry has been caught with its hand in the cookie jar.

Just a few days ago, the Federal Trade Commission—the agency responsible for enforcing consumer protection laws—released a report finding that the entertainment industry aggressively markets violence-ridden materials directly to young people. This report details how companies, on the one hand, stamp "mature audience" ratings on

their products that contain violent material, while on the other hand, these same companies peddle these "mature"-rated products to young people.

Let me just read a passage of the FTC report: "Two plans for games developed in 1998 described its target audience as 'Males 17-34 due to M rating. The true target is males 12-34." In other words, not 17 to 34, but 12 to 34. There it is-in black and white! Video game marketers acknowledge that they are giving a quick wink to their own standards and then they state their true target. This is especially significant since only the electronic game industry has adopted a rule prohibiting its marketers from targeting advertising for games to children below the age designations indicated by their rating. So the FTC has knocked a huge hole in the industry's pious statements of concern by highlighting its hypocritical marketing practices.

You may recall to memory the story of Hansel and Gretel-a story that is not without its own share of violence. Just as Hansel and Gretel were enchanted by the evil witch's gingerbread house, our children are dazzled by the entertainment industry's lurid images. The industry beckons our children with advertising and once they are in the industry's clutches, the children are fattened up with more violent material. Of course, in the story of Hansel and Gretel, the children realize they are about to be cooked and eaten, and they trick the witch and shove her into the oven. Would we could do that with the entertainment industry. But I am not suggesting that we shove the entertainment industry into the oven—but perhaps we do need to turn up the heat!

The impact of media violence on our children is of great concern. Numerous studies conducted by the nation's top universities in the past three decades have come to the same conclusion: namely, there is at least some demonstrable link between watching violent acts in movies, television shows, or video games and acting aggressively in life.

As parents, policymakers, and citizens and legislators, we should all be worried about this. The amount of entertainment violence witnessed by American children is alarming.

Film makers, striving to turn profits in the competitive film industry, display more and more explicit violence, and programmers devise increasingly violent computer and video games that have children take on roles in which they are rewarded for the number of enemies they kill. Is it any wonder, then, that children become numb to the horrors they witness daily in their entertainment? Is it a surprise that these same children have a world view that incorporates violence as an acceptable means for settling conflict? Of course not.

If the industry is unwilling to address the concerns of parents by con-

tinuing to market inappropriate material to children, and then to broadcast that material at times when children are most likely to be watching, then I think it is incumbent upon Congress to act. We cannot be passive about this issue. We cannot say how awful it is-"How awful"—but then fail to take action. If the entertainment industry will not act responsibly, if the industry will not work with parents to craft commonsense approaches to curbing inappropriate programming, then it will fall to Congress to address the situation. Will it? Reducing the violence placed before America's children in the guise of entertainment is an important task. Images seen in childhood help to shape attitudes for a lifetime.

I know that I am not alone in recognizing the threat to our society created by producing our own generation of child soldiers, of young people indifferent to the suffering they cause by their violent acts. This FTC report merely provides evidence that, like the tobacco companies, the violent entertainment industry is targeting our children to build a nation, not of addicts, but of indifference to excessive violence. We cannot let this continue. But will we?

If the entertainment industry cannot abide by, and will not enforce, voluntary guidelines to regulate media violence, then it is time for the rest of us to insist that those guidelines be enforced.

That might be a good question for tonight's debate. I wonder if all the questions have already been determined. Why not some questions of this nature?

I realize that legislation to address this issue is unlikely to see action in the very few days remaining in this Congress. In fact, I would not like to rush such legislation and risk doing it poorly. Of course, it will not be done and cannot be done in the few days that remain. I would rather finish the critical appropriations work that still remains. But I do hope that this report will not be lost in Olympic and election hoopla. I intend to revisit this issue next year, and I hope that other Members will join me in a sincere and bipartisan effort to find a way to protect our children and our society.

It is the same old story, Mr. President, the same old story. We talk about it. We wring our hands. We wail and gnash our teeth and moan and groan about the entertainment industry. But we welcome those contributions from the entertainment industry. They are great. They are great. But we are paying for it with the denigration of our children.

When will America awaken? When will the candidates be asked piercing questions about their stands on matters such as this? I would like to hear their answers. Tonight, in that townhall meeting, would be a good place for those, wouldn't it?

What are you going to do, Mr. Candidate, about the entertainment industry? How much money have you already accepted? Are you going to accept money from the entertainment industry? If you do, then how can you turn around and do something in the interests of our children? A good question

Mr. President, I yield the floor.
The PRESIDING OFFICER (Mr. GREGG). The distinguished Senator from Pennsylvania is recognized.

# A CONSTITUTIONAL CRISIS IN THE APPROPRIATIONS PROCESS

Mr. SPECTER. Mr. President, I have sought recognition to comment on the pending legislation, which will fund three major Departments in the United States: The Department of Labor, the Department of Health and Human Services, and the Department of Education.

I chair the subcommittee in the Senate Appropriations Committee which has the responsibility for this legislation. I am very concerned about what is happening to our constitutional process. I think it not an overstatement to say that we have a constitutional crisis in what is happening with the appropriations process in the relationship between the Congress and the President of the United States.

Since the Government was closed in late 1995 and early 1996, there has been created a very significant imbalance between the Congress and the President with what is realistically viewed as practically a dictatorial system of the President saying what is acceptable and the Congress being held hostage, in effect, concerned about being blamed for shutting down the Government. That is not the way the Constitution was written.

The Congress is supposed to present the bills to the President. If the President vetoes, then there are negotiations and discussions as to what will happen. But the status of events today is that the President calls the tune and the Congress simply complies.

There is also a significant deviation because, contrary to constitutional provision, the President and the President's men and women participate in the legislative process. The Constitution says that each House shall pass a bill; there will be a conference committee; they will agree; and each House will then vote on the conference report; and, if approved, the bill is submitted to the President.

The constitutional process does not call for the executive branch to participate in deciding what will be in the bills. But for many years now, representatives from the Office of Management and Budget, OMB, sit in on the conferences, are a party to the process, and seek to determine in advance what will be acceptable to the executive

branch, contrary to the constitutional setup where Congress is supposed to pass the bills and submit them to the President.

We have had a very difficult time in the last 3 years with what has happened with the appropriations bill covering Labor. Health and Human Services, and Education. I spoke at some length about this problem on October 14, 1998, as we worked for the appropriations bill which turned out to be an omnibus bill. I was so concerned about the process that I voted against that bill. That was a tough vote to make since there were so many items on financing education which were very important and with which I agreed, and on financing Health and Human Services, again, which were important and with which I agreed, and on financing the Department of Labor, again, which were important and with which I agreed; but I felt so strongly that I voted against the bill and spoke at some length, as the Congressional RECORD will reflect on page S12536, on October 14th of 1998.

Then on November 9, 1999, I again expressed my concerns about what the appropriations process comprehended as set forth in some detail on S14340 of the CONGRESSIONAL RECORD.

This year, again, I am very concerned about where we are headed. The President submitted requests for these Departments for \$106.2 billion. The Senate bill has provided the total amount which the President requested, but we have established some different priorities. That, under the Constitution, is the congressional prerogative. The Constitution calls for the Congress to control the purse strings and to establish the priorities. Of course, the President has to approve. But here again. the Constitution does not make the President the dominant player in this process; the Congress is supposed to traditionally control the purse strings.

Working collaboratively with my distinguished colleague from Iowa, Senator Tom Harkin, we produced a bipartisan bill. I learned a long time ago that if you want to get something done in Washington, you have to be willing to cross party lines. Senator HARKIN and I have done that. When the Democrats controlled the Senate, he chaired and I was ranking member; and with Republican control, I have the privilege, honor, to chair, and he is the ranking member. We have taken a very strong stand on appropriations for the National Institutes of Health, which I believe are the crown jewel of the Federal Government, maybe the only jewel of the Federal Government. This year we have increased funding for NIH by \$2.7 billion, which is \$1.7 billion more than the President's priority. Last year we appropriated \$2.3 billion on an increase which, with an across-theboard cut, was reduced to \$2.2 billion. The year before, it was a billion, and the year before that, almost a billion. So that we have added some—it is \$2.7 billion this year, 2.2 last year, 2.0 the year before, a billion the year before that, and almost a billion the year before that. So that we have added \$8 billion. I think it adds up to \$8 billion; when you deal with all these zeros, sometimes they are not too easy to add up in your head.

The Senate approved that, and the House approved that. We think with the enormous progress made on Alzheimer's and Parkinson's and cancer and heart disease, and so many others, that is where the priorities should be. We also put in \$1 billion more on special education than the President had in his budget, a matter of some concern to many in the Senate. With the leadership of the distinguished Senator from New Hampshire, who is now presiding, we put extra funding there because we think that is where the priorities ought to be. Then the President made a request for \$2.7 billion for school construction and new teachers. There is a lot of controversy in the Republican-controlled Senate whether these are appropriate Federal functions, but we ended up, in a carefully crafted bill, giving the President his priorities, with an addendum that if the local school district decided they did not need the money for construction, that the local school districts could allocate it to local needs. And if the local school districts decided they did not need the money for teachers, they would give it to local needs.

The President has resisted this. This is a very fundamental difference in governmental philosophy, a Washington, DC, bureaucratic straitjacket versus local control—according to the President, the first call for his own programs on construction of schools and on more teachers.

We worked very hard this year and the Senate returned a bill which was passed on June 30, which tied a record going back to June 30, 1976, when the fiscal year 1977 appropriations bill was passed. Then we completed the conference with the House, where we had it all set on July 27, which I think may have established a new record. I am not sure about that. And we did not add the final signature to the conference report because we didn't want to be in a position where the bill was sent to the President in August and held up there, but we finished all of our work.

Regrettably, this bill has not been presented to the President because of the efforts on negotiations with the White House to try to get a bill which the President could sign. I repeat, I think it is a mistake, constitutionally and procedurally, to do that. We ought to send the President the bill.

There have been, candidly, concerns within the Republican leadership where we have had bicameral meetings between the House and the Senate, the leadership, on precisely what should be done. It is my urging to my colleagues in the Senate and the House that we should stand by our bill of \$106.2 billion, which is as much as the President asked for, and we should stand by our priorities, which give \$600 million more to education. There is no higher priority in America than education. And we should stand by our priority of according \$1.7 billion more to the National Institutes of Health. We should stand by our approach of giving the President what he asked for on teachers and school construction, subject to local determination if the local boards decide they do not want it for those purposes. But we ought not to buy our way out of town and to knuckle to the President and cave to the President. We ought to assert our legislative institutional standing.

This bill could have been presented to the White House in early September. This Senator has pressed consistently in leadership meetings to present the bill to the President. It is my hope we will do that.

I am not unaware of the fact that this is October 17 and that the Presidential election will be held 3 weeks from today. But I think we are dealing with values and principles here, constitutional principles which are paramount, and we ought to assert our legislative prerogatives and submit the bill to the President. There might be an opportunity for a national debate on this subject. Certainly it is worth an effort.

There is no doubt that the President has the so-called bully pulpit, but there is a lot of concern in America on what the funding is going to be for the Departments involved here, not only the Department of Labor but certainly the Department of Education and certainly the Department of Health and Human Services. We ought to lay down a marker. We ought to lay down the gauntlet, and we ought to ask America to join in a debate to see where America's priorities lie.

My own instinct is that we have the high ground here and we have the better case. So I hope the Congress will submit this bill to the President, will engage in that debate, and will assert our constitutional prerogatives to legislate. I think we have a good chance to have this bill finally enacted into law, or if it is vetoed, with some national debate, something very close to it.

In the absence of any other Senator seeking recognition, I suggest the absence of a quorum.

The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### UNANIMOUS CONSENT AGREEMENT—H.R. 4461

Mr. COCHRAN. Mr. President, I am pleased to announce to the Senate that agreement has been reached and I am able at the request of the majority leader to make an announcement on the scheduling of votes and other business before the Senate.

I ask unanimous consent the vote on the Agriculture appropriations conference report now occur at 5:30 on Wednesday, October 18, and further, the allotted debate times prior to the vote now occur beginning at 3:30 on Wednesday.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### MORNING BUSINESS

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Senate now be in a period of morning business with Senators speaking for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### THE TREAD ACT

Mr. FITZGERALD. Mr. President, I rise today to clarify the history and intent of section 14 of the Transportation Recall Enhancement, Accountability, and Documentation Act, which passed the Senate on Wednesday. This section of the legislation is based on the Child Passenger Protection Act of 2000, which I introduced on February 10, 2000 with my colleague from Arkansas, BLANCHE LINCOLN, and my colleague from Pennsylvania, RICK SANTORUM.

The purpose of the Child Passenger Protection Act of 2000 is to enhance children's safety in motor vehicles. It calls for the adoption of improved child restraint safety performance standards and testing requirements, and it requires the Secretary of Transportation to provide parents with better consumer information about child restraints.

Child deaths in motor vehicle crashes in the United States have declined some since 1975, but significant work remains to be done in the area of child passenger safety. Motor vehicle crashes are the single leading cause of death and serious injury for young children in the United States.

Each year, up to 600 children under the age of five die in car crashes, and up to 70,000 are injured as occupants in motor vehicle crashes. Motor vehicle crashes cause about one of every three injury deaths among children 12 and younger in this country.

A child restraint that is installed and used correctly can prevent many injuries and deaths. The failure of some consumers to use age- and weight-appropriate child restraints has been well documented. Many consumers who pur-

chase and use child restraints have little guidance or information with which to distinguish among the broad array of models, sizes, shapes and features of child restraints that are being sold in retail stores.

A child restraint that is well designed can prevent still more child injuries and deaths. The former top safety official at the National Highway Transportation Safety Administration (NHTSA), Dr. Ricardo Martinez, stated, in a letter dated September 14, 1999 to all manufacturers of child restraints sold in the United States: "[m]any restraints have been engineered to barely comply with some of the most safetycritical requirements of the [Federal] standard." NHTSA also has questioned the efforts of some child restraint manufacturers to have child restraint defects characterized as "inconsequential" to avoid recall campaigns, and the agency recently suggested that child restraints be assigned safety ratings.

NHTSA is the agency within the United States Department of Transportation that monitors the safety of child restraints. NHTSA's primary method for verifying that a child restraint is designed to meet Federal safety standards is its compliance testing program. In compliance tests, Federal regulators subject the child restraint to a sled test that simulates a frontal collision with a stationary object.

The sled test used by NHTSA to verify a child restraint's performance does not consider how that restraint will perform in rear-impact, rollover, or side-impact crashes; and the sleds used in government compliance tests bear limited resemblance to the interiors of today's passenger vehicles. These sleds feature flat bench seats with lap belts that were common in automobiles of the mid-1970s, but which do not apply to many of the passenger vehicles that are on our roads these days.

Child restraints are too often marketed for children who are heavier than the anthropomorphic test dummies used by NHTSA in these sled tests. One private group's testing has shown that child restraints tested with a child at the highest weight recommended by the manufacturer have failed. NHTSA should allow child restraints to be marketed for children at specific weights only if the restraint has been tested at those weights.

The current Federal standard for child restraints, known as Federal Motor Vehicle Safety Standard 213, is overdue to be upgraded to better reflect new developments in technology. While the current safety standard for child restraints specifies that child restraints be tested at an impact of 30 mph, tests are regularly conducted at speeds as low as 27.6 mph. The Government does not crash test any child restraints in actual motor vehicles; and

it has not required that child restraint manufacturers simplify and standardize instructions for installing and using child restraints.

Finally, although head injuries from motor vehicle collisions frequently are the cause of serious injuries or fatalities, many makes and models of child restraints do not offer side-impact padding or other protection from head injuries in side-impact crashes. The Child Passenger Protection Act requires the Secretary of the U.S. Department of Transportation (DOT) to initiate a rulemaking that would address these and other deficiencies in our current child restraint system.

Under this legislation, DOT will also begin a comprehensive program to provide information to consumers for use in making informed decisions in the purchase of child restraints. The Secretary must issue a notice of proposed rulemaking to establish such a program within 12 months of the bill's enactment, and it must issue a final rule within 24 months of the bill's enactment.

The Subcommittee on Consumer Affairs, Foreign Commerce and Tourism held a field meeting on June 19, 2000 in St. Louis, MO, to discuss the Child Passenger Protection Act. My colleague Missouri, from Senator ASHCROFT, chaired this field meeting, at which the subcommittee heard testimony from NHTSA, highway safety advocates, and a pediatric surgeon concerning the current state of child passenger safety and additional ways to improve safety. S. 2070 passed the full Committee on Commerce, with a substitute amendment, by voice vote on September 20, 2000.

This committee amendment to S. 2070, which has been incorporated into section 14 of the TREAD Act, also requires a study, within 12 months of the bill's enactment, of automobile booster seat use and effectiveness. In addition, this committee amendment requires DOT to develop a 5-year strategic plan to reduce deaths and injuries caused by the failure to use an appropriate booster seat for children between the ages of 4 and 8 years. The bill thus focuses more attention on an issue that automobile safety advocates have dubbed the "forgotten child problem." This problem exists for children, usually between the ages of four and eight years, who have outgrown their infant child restraints but who do not fit properly in adult seat belts.

I want to close by extending my thanks to all who have so strongly supported this legislation, including the American College of Emergency Physicians, Advocates for Highway and Auto Safety, the Easter Seals KARS program, State Farm Insurance, SafetyBeltSafe U.S.A., the National SAFE KIDS Campaign, the co-authors of the book Baby Bargains, Consumers Union, and the American Automobile

Association. I congratulate my colleague from Illinois, Congressman John Shimkus, who introduced companion legislation in the House of Representatives, for his fine work on getting this legislation included in the TREAD Act and through the House of Representatives on Tuesday. I am pleased that this important piece of legislation passed the Senate unanimously last week.

#### VICTIMS OF GUN VIOLENCE

Mr. DORGAN. Mr. President, it has been more than a year since the Columbine tragedy, but still this Republican Congress refuses to act on sensible gun legislation.

Since Columbine, thousands of Americans have been killed by gunfire. Until we act, Democrats in the Senate will read the names of some of those who have lost their lives to gun violence in the past year, and we will continue to do so every day that the Senate is in session.

In the name of those who died, we will continue this fight. Following are the names of some of the people who were killed by gunfire one year ago today.

October 17, 1999:

Ariosto Bautista, 20, Rochester, NY;
Tavaris Covington, 20, Charlotte, NC;
Jilad Edwards, 16, Detroit, MI;
Jason Jones, 16, Baltimore, MD;
Edward Mason, 76, Dallas, TX;
Luis Hernandez, 30, Oakland, CA;
Hiram J. Rumlin, 25, Rochester, NY;
Herbert Sanford, 21, Detroit, MI;
John Williams, 36, Baltimore, MD;
Ladrandria Williams, 18, Detroit, MI;
and

Unidentified Male, 82, Portland, OR. Following are the names of some of the people who were killed by gunfire one year ago Friday, Saturday, Sunday and Monday.

October 13, 1999:

Adnan Ahmed Ali, 21, Memphis, TN; Richard Baker, 27, Philadelphia, PA; Ivan Cook, Sr., 68, Knoxville, TN; Granville Deshields, 23, Philadelphia, PA:

Kevin Hooker, 20, Atlanta, GA; Robert Liggins, 35, Dallas, TX; Christopher Scott, 25, Baltimore, MD:

Theresa Scott, 38, Detroit, MI;
Zzeene Stukes, 23, Baltimore, MD;
Davey Taylor, 22, Detroit, MI;
Unidentified Male, Long Beach, CA;
Unidentified Male, Portland, OR; and
Unidentified Male, Washington, DC.
October 14, 1999:

Andre Chamberlin, 23, Washington, DC;

Nathen Davis, 23, Washington, DC; Luis Fernandez, 38, Miami-Dade County, FL;

Ronnell Johnson, 22, Baltimore, MD; Shaun Lynch, 20, Houston, TX; Jennifer Monte, 23, Philadelphia, PA; David Naysmith, 29, Detroit, MI; Eliezer Nieves, 30, Miami-Dade County, FL; and

Unidentified Male, 19, Portland, OR. October 15, 1999:

Justin Alban, 23, Baltimore, MD; Albert Carballo, 48, Miami-Dade County, FL;

Carl Creary, 48, Miami-Dade County, FL:

Devadiipa Creary, Miami-Dade County, FL:

Sylvester Exum, 45, Memphis, TN; Juan Godin, 42, Houston, TX; Brian Harrington, 3, Detroit, MI; Wanda Harrington, 47, Detroit, MI; Guillermo Marquez, 32, Houston, TX; Anton Parker, 19, Washington, DC; Mario Pujol, 53, Miami-Dade County, FL:

Magdeil Rivera, 25, Bridgeport, CT; Luis Velez, 20, Bridgeport, CT Clifton Walker, 31, Philadelphia, PA; Unidentified Male, 16, Chicago, IL; Unidentified Male, 96, Long Beach, CA; and

Unidentified Male, 17, Norfolk, VA. October 16, 1999:

Hector Aviles, 21, Philadelphia, PA; Norris Bradley, 19, Washington, DC; Elenora Fisher, 35, New Orleans, LA; Anthony Harth, 25, Kansas City, MO; Pretlow Howell, 22, Chicago, IL; Bruce Kelly, 35, Akron, OH; Jose Martines, 22, Houston, TX; Jose Ramos, 24, Philadelphia, PA; David Stopka, 25, Chicago, IL; Carey Thompkins, 28, Cincinnati, OH; George Zafereo, 52, Victoria, TX; and Unidentified Male, 82, Portland, OR.

We cannot sit back and allow such senseless gun violence to continue. The deaths of these people are a reminder to all of us that we need to enact sensible gun legislation now.

#### CASSIE'S LAW

Mr. CRAPO. Mr. President, I rise today to congratulate the Senate on its unanimous passage of the Violence Against Women Act. In particular, I would like to commend the members of the conference committee for including language that establishes a legal definition of dating violence.

In domestic violence situations, victims are victims regardless of their age or legal relationship to the abuser. The seriousness of this issue was brought home by a tragic case in Idaho. In December 1999, a 17-year-old Soda Springs, Idaho, girl, Cassie Dehl, was killed in an accident involving her abusive boyfriend. Prior to her death, the numerous attempts by her mother to obtain legal protection for her daughter failed because Idaho's domestic violence laws did not apply to teenage dating relationships. Earlier this year, Idaho Governor Dirk Kempthorne and the Idaho State Legislature enacted legislation, named in Cassie's memory, which extended Idaho domestic violence laws to dating relationships. I am pleased that Federal law will now also

protect teenagers involved in abusive dating relationships.

While the reauthorization of VAWA is an important step in protecting all victims of domestic violence, our work is not yet done. Under VAWA, dating violence has been included in four of the five major domestic violence grant programs. However, one major grant program was left behind. I am committed to working with my colleagues in the next Congress to expand dating violence to all domestic violence programs under VAWA.

I ask unanimous consent that the vote total be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE ROLLCALL VOTE (106th Congress, 2d Session)

Vote Number: 269. Vote Date: October 11, 2000. Title: H.R. 3244 Conference Report. Req. for Majority: ½. Bill Number: H.R. 3244. Result: Conference Report Agreed to.

Yea: 95. Nay: 0. Present: 0. No Vote: 5.

#### ADDITIONAL STATEMENTS

# IN RECOGNITION OF AMBASSADOR DAVID B. HERMELIN

• Mr. LEVIN. Mr. President, I rise today to acknowledge the achievements of an accomplished businessman, distinguished public servant and committed philanthropist from my home state of Michigan, Ambassador David B. Hermelin. On October 22 of this year, the ORT Hermelin College of Engineering will be dedicated in Netanya, Israel. This dedication is a fitting tribute for a man, who along with his wife Doreen, has committed himself to his family, nation and charitable endeavors throughout the world.

Through hard work and an unwavering commitment to the public good, David's work has made an indelible mark upon countless individuals. His keen intellect, business acumen and heart for others has led him to pursue a wide array of business and charitable efforts in the United States and abroad.

David has been deeply involved with the World ORT, having served as the President of American ORT. Founded in response to a famine in Russia in the late 1860s, ORT is a private, non-profit organization that addresses the educational and technical training needs of workers, providing them with the training and self-sufficiency needed to build a meaningful existence. To achieve this goal, ORT builds schools and develops a curriculum that provides students with vital technical

skills. ORT has facilities in nearly 60 nations. This year, over 200,000 students are enrolled in ORT programs.

The mission of American ORT is to raise funding necessary to support the efforts of World ORT and administer domestic ORT programs. During David's tenure as President of this organization. American ORT increased its involvement in the mission of World ORT, and strengthened its ties with the Jewish community. larger strengthened ties were evidenced by the fact that the 1999 General Assembly of the United Jewish Communities of North America was the second consecutive General Assembly sponsored by ORT.

American ORT administers two postsecondary training institutes and one college in the United States. These three institutions serve 5,000 individuals annually, many from the former Soviet Union and Newly Independent States (NIS), by providing them with technical training, English language assistance and career development skills.

David has been involved in many other charitable endeavors as an administrator, contributor and fundraiser. He has served on the Board of Directors for many community and national organizations including the Meyer L. Prentis Comprehensive Cancer Center.

As a businessman, David has worked as a real estate developer, venture capitalist and manager of many interests. Currently, he is the co-owner of two of the largest entertainment facilities in the state of Michigan—the Palace of Auburn Hills, home of the NBA's Detroit Pistons, and the Pine Knob Entertainment Centers. In addition, he sits on the board of several companies including Arbor Drugs Inc., Arena Associates, Village Green Management Company and First America Bank Corporation—Detroit.

In December 1997, President Clinton recognized David's commitment to public service, and appointed him to serve as the U.S. Ambassador to Norway. So extraordinary was his service in this capacity that the Norweigian people awarded him the Royal Norwegian Order of Merit, which is equivalent to being knighted.

David Hermelin has been a community leader for over forty years. As a fellow native of Detroit, Michigan, I have known David for over half of a century. I am pleased to call him an inspiration, a peer and a friend. I am sure that my Senate colleagues will join me in offering my congratulations to David Hermelin for the dedication of the ORT Hermelin College of Engineering, and in wishing him well in the years ahead.

## TRIBUTE TO JOHN ROUSH

• Mr. McCONNELL. Mr. President, I rise today to honor my good friend, the

twentieth President of Centre College in Danville, Kentucky, John Roush.

I want to offer my heartfelt congratulations to John Roush, the students and faculty at Centre College, and the City of Danville, Kentucky for their successful bid to host the only vice presidential debate of the 2000 election. Under the leadership of John Roush, the college and the community worked together to make the debate at Centre College a reality.

By all accounts, the debate in Danville was a success. Even though Centre College is the smallest highereducation institution to have ever hosted a presidential or vice presidential debate, they exceeded expectations and pulled-off a top-rate event. The town and college coordinated events throughout the day of the debate to build anticipation and provide opportunities for those who did not have tickets to participate in the occasion. An outdoor concert, open to the public, was held on Centre's campus and featured Maysville native and celebrity Nick Clooney, gospel singer Larnelle Harris, and the Owensboro Symphony Orchestra. Then, attendees were treated to a live, big-screen viewing of the vice presidential debate.

President John Roush's fingerprints were all over the events of the day; his creativity and ingenuity a benefit to everyone who participated. Whether you watched the debate from the screen on Centre's lawn, the seats of Centre's Norton Center for Fine Arts or on television in your home, the professionalism with which John led the extensive preparations for the debate were apparent.

Just talk to anyone at Centre College, in Danville, or in all of Kentucky for that matter—they will tell you that in the two years John has served as president at Centre, he has rallied students, faculty, and city residents with his passion for excellence. He has been described by his peers and co-workers as having an "infectious enthusiasm" and being "full of integrity." He has been characterized as "energetic" and "impressive." I know from my own personal experience with and observation of John that all of these descriptions are true. I am proud to call him a fellow Kentuckian and friend.

At this point, Mr. President, I would like to read into the RECORD an excerpt from an October 7, 2000, editorial by Washington Post writer David Von Drehle that ran in the Louisville Courier-Journal, which perfectly sums up the atmosphere in Danville, KY, on the day of the debate.

Centre College hosted the debate. This unlikely setting—far from the nearest airport, in a place without many four-lane roads, in fact—turned out to be one of the best ever. The whole day was a happy pageant of Norman Rockwell meets Alexis de Tocqueville.

Tired and jaded political junkies stepped from their cars and buses into an afternoon that was either the very end of summer or the very beginning of fall. Clear sky, warm sun, fresh breeze. Though the trees all appeared to be green, a few golden leaves began to drift toward the grass of the college common as evening approached.

On the common, bands played marches and choirs sang gospel hymns. Hours before the debate began, the gently sloping ground filled with grandparents on lawn chairs and moms and dads on blankets and children who twirled and ran and tumbled and plucked leaves from their hair. There were young men in shorts and their sweethearts in sun dresses enjoying the day and preparing to watch the clash on giant screens.

Speakers read passages from great documents of American history—the Declaration of Independence, the Gettysburn Address—and an orchestra played the national anthem and "My Old Kentucky Home." Kids waved flags.

There are no words I can add to more accurately describe the picture-perfect day John Roush orchestrated at Centre College on October 5, 2000.

On behalf of myself and my colleagues in the United States Senate, I applaud you, John Roush, for what you have accomplished at Centre College and thank you for your commitment to higher education.

#### INTELLIGENT CITY OF THE YEAR

• Mr. CLELAND. Mr. President, I rise today to congratulate and acknowledge LaGrange, Georgia, which was recently named the "Intelligent City of the Year for 2000" by the World Teleport Association. LaGrange is only the second city to win this award which can be awarded to any city worldwide.

LaGrange is deserving of this award, which is in recognition of its "Internet For Everyone" program to provide Internet access to every home in the city with cable access at no additional cost to the resident. In the 1990's, La-Grange officials deployed a fiber optic network because they recognized this infrastructure need to ensure their community is adequately prepared for the coming information age, and they saw the advantages of such an investment. This foundation led to the development of a two-way hybrid fiber coaxial cable network that supports cable modems and Internet access for the 21st Century. All the customer needs is a television, and the Internet is accessed through a set top box and wireless keyboard.

This investment in the workforce of tomorrow is one of a kind, and anyone who can access the world wide web will now be a recipient of the knowledge and information of the citizens of La-Grange. I have pledged to work with them to encourage the further development of the Internet for the benefit of users worldwide. In fact, last month, I was in LaGrange to celebrate the wiring of the city's government housing community. At this event, I was pleased with the amount of knowledge the children already have about the web, its uses, and the potential it

brings. They are our future, and they are the people who will benefit the most from LaGrange's farsightedness.

As Congress looks for ways to bridge the digital divide, I would like to make an example of LaGrange, Georgia, the Intelligent City of the Year for 2000. There are many options available for communities around the country. Once we are connected we will truly be able to learn more from one another about ourselves, our communities, our country, and our world.

Again, I congratulate the city of La-Grange, Georgia and Mayor Jeff Lukken, and I hope that the children and families of LaGrange will take full advantage of this great opportunity.

#### SALUTE TO CRAIG GLAZER

• Mr. VOINOVICH. Mr. President, one of Ohio's illustrious public servants, Commissioner Craig Glazer, is retiring as a member of the Public Utilities Commission of Ohio after serving successfully under three Ohio governors. I extend to him my sincere congratulations and best wishes.

Craig is a man with a love for Ohio. After graduating from Vanderbilt University Law School, he went directly to work for Ohio businesses as an advocate for industry at the law firm of Hahn Loeser & Parks. He worked extensively for utility and consumer interests helping them to expand their operations throughout Ohio.

I personally had the opportunity to witness Craig's leadership while I was Mayor of Cleveland. Between 1979 and 1985, Craig represented the people of Cleveland before the Public Utilities Commission of Ohio (PUCO) as the utility rate counsel.

During my time as Mayor, I worked with Craig on legislation that was ultimately passed in the Ohio Legislature as Senate Bill 378. Upon passage it reformed the structure of PUCO to ensure its accountability to its many constituencies. During this time, he additionally served as house counsel to the city of Cleveland's utility system and served over 300,000 customers through their water, sewer and electric utilities.

He presently serves on the Board of Directors of the national Association of Regulatory Utility Commissioners, serves as vice-chair of its International Relations Committee and is a member of their electricity committee. He also chairs the National Council on Competition in the Electric Industry, an interagency policy group, and is President of Board of Directors of the Ohio Energy Project. He is chair of the Ameritech region Regulatory Coordinating Committee and serves as a member of the North American Electricity Reliability Council's Generation Adequacy Committee and Electric Power research Institute's Advisory Council.

It is clear from his leadership and many efforts that Craig Glazer consistently works hard for the people of Ohio.

I have immense respect for Craig. He is and always has been a true professional. And although I am sorry to see him retire, I am confident that the citizens of Ohio have not heard the last from him.●

CELEBRATING THE SUCCESS OF WEST VIRGINIA HEALTH RIGHT, INC.

• Mr. ROCKEFELLER. Mr. President, I rise today to celebrate the success of one of West Virginia's most successful non-profit health organizations. It gives me great honor to come to the floor today to be able to share with you the remarkable story of West Virginia Health Right, Inc.

West Virginia Heath Right was the brainchild of a group of dedicated volunteers who recognized a desperate need to provide free, quality health care to the homeless, the working poor, the un- and underinsured, de-institutionalized mental health patients, and countless others. Their vision was realized when they opened a small, mission-driven health clinic in Charleston, West Virginia in 1982. From these modest beginnings, West Virginia Health Right, Inc. grew tremendously fast. They soon found that the need in the community was far greater than they had expected and moved from their original location in a soup kitchen in Kanawha County, to a homeless shelter, and finally settled into the third floor of the Charleston Area Medical Center. In 1989, West Virginia Health Right moved to their own clinic building supported by funds from the community. In 1999, West Virginia Health Right again appealed to the community for support and found an overwhelming reception to their needs. They are now housed in a state of the art clinic in Charleston.

Modeling the success of the Charleston clinic, other free clinics began to sprout up in communities throughout the state at the rate of about one every two years. Today, Health Right has eight separate sites across West Virginia, including Charleston, Wheeling, Morgantown, Clarksburg, Huntington, Parkersburg, Bluefield, and Logan, which serve our State's poor and uninsured. Just recently, Health Right announced the opening of a new clinic in Beckley, West Virginia for which I am proud to serve as a board member. They will also be opening new locations in Summersville and Weirton. Remarkably, each of these facilities operates with just a small staff of employees, and relies entirely on the volunteer services of dedicated physicians and nurse practitioners from the area.

West Virginia Health Right, Inc. is a living example that just a few people

can make a difference. Eighteen years ago, four doctors and a dozen volunteers set out with a vision to provide health care to those who needed it most. Today, Health Right is a network of more than 500 physicians and 15,000 volunteers serving 45,000 West Virginians each year. With the uninsured in this nation still at staggering levels, it gives me great pleasure to recognize the invaluable work of West Virginia Health Right, Inc., a group that rather than simply talking about a problem, is actually working to fill a vital need in our state.

Congratulations, West Virginia Health Right, for your success. And thank you for your tireless contributions to the state of West Virginia.●

#### TRIBUTE TO DR. SAM ROBINSON

• Mr. McCONNELL. Mr. President, I rise today to pay tribute to my friend Dr. Sam Robinson on the occasion of his retirement as president of the Lincoln Foundation in Louisville, Kentucky.

Sam has been a tireless advocate for the Lincoln Foundation in his 26 years as president, making a difference in the lives of countless young Kentuckians. Sam has worked toward a worthy mission at the Foundation: to help underprivileged children get an education so that they can have a better chance at succeeding in professional life. I applaud your commitment to this cause, Sam, and offer sincere thanks for the good work you have done.

One of the projects Sam has been most passionate about during his time at the Lincoln Foundation is the Whitney M. Young Scholars Program. Sam's ingenuity got the ball rolling for this project, which is a four-year college scholarship program. Since the program's inception, Whitney M. Young scholarships have enabled hundreds of bright young people to attend college who could not have otherwise afforded the expense of an education.

Sam's legacy of service extends far beyond the Lincoln Foundation. His philanthropic and civic actions have resulted in his being honored with the Humanitarian Award from the Louisville Chapter of the National Conference of Christians and Jews, and being named "Man of the Year" by Sigma Pi Phi fraternity. Sam also has served on the boards of Bellarmine University, PNC Bank and the Kentucky State Board of Elementary and Secondary Education.

Dr. Sam Robinson's service to the Lincoln Foundation and the thousands of young people he has helped over the years will long be remembered and admired. His genuine compassion for underprivileged students will encourage and inspire Kentuckians for generations to come. Today, I say to Sam: best wishes for many more years of service, and know that your efforts to

better the lives of others in Louisville and throughout Kentucky are recognized and appreciated. On behalf of myself and my colleagues in the United States Senate, thank you for giving so much of yourself for so many others.

#### TRIBUTE TO ABE SCHRADER

• Mr. LAUTENBERG. Mr. President, I want to call attention to the life of a man who so perfectly portrays the success and opportunity this country can provide if one puts in the effort.

Abe Schrader will celebrate his 100th birthday on October 15, 2000 with multitudes of friends and family. I am privileged to be included as one of those admirers and friends who will join with him that night.

Abe's life story is an example of how a belief in self and hard work can lead to success. He started his life in America at the age of 20 when he immigrated here from Poland. He arrived penniless but with a determination to succeed in his new homeland. Succeed he did as we can see from the story recently printed in the New York Times. Mr. President, I ask that the full text of that article be included in the RECORD.

I know Abe Schrader well and spend time with him on occasions. He is alert, bright and engaging. He manages his investments personally and has done a superb job with them.

I wish all America could meet this congenial, intelligent, caring individual. He is an inspiration for me and I believe could provide spirit and encouragement to all who face aging as to what can be with the right kind of effort and determination.

The article follows:

[From the New York Times, Sept. 28, 2000] PUBLIC LIVES; AT 99, MAN OF FASHION FINDS LIFE A GOOD FIT

(By Susan Sachs)

Clothes make the man, goes the old saw. You would not get an argument from Abe Schrader.

The garment business—in his case, manufacturing women's coats and better dresses for more than half a century—made him one of the kings of Seventh Avenue. Even now, gliding gracefully toward his 100th birthday next month, Mr. Schrader still appreciates the value of a well-cut suit of clothes.

Sitting yesterday in his apartment overlooking Central Park, reminiscing about the rag trade before it became the more high-hat fashion business, he was impeccably turned out in a blue cashmere jacket, gray slacks, crisp baby-blue shirt and gleaming black shoes. A red silk handkerchief that matched the shade of his tie peeked from his breast pocket.

"All my clothes are made to order," Mr. Schrader said, as he flipped open his jacket to show his Italian tailor's label. "Even when I made \$10 a week, I saved up my money all year and bought a custom suit."

This might sound strange coming from a man whose manufacturing company, the Abe Schrader Corporation, once dominated the city's ready-to-wear industry. But Mr. Schrader, a smallish man who once could

burn up the dance floor at nightclubs like El Morocco, never found a good fit off the rack. "I have a lust for life," he said, his Polish

"I have a lust for life," he said, his Polish accent making the words especially rakish. "And especially on a dance floor, you've got to look good."

Last week, the city celebrated clothes with Fashion Week, an extravaganza of designer fashion shows meant to highlight New York as a fashion center. Mr. Schrader, who persuaded City Hall 35 years ago to name a stretch of Seventh Avenue "Fashion Avenue," followed it from afar.

"Some good, some bad," he said, diplomatically, on the spring 2001 styles on display.

Mr. Schrader retired from the clothing business 12 years ago, after watching it change from top to bottom.

When he started out, in the early 1920's, the industry was big enough to absorb waves of immigrants—Germans and Irish, followed by Eastern European Jews, then Italians. Seventh Avenue was the center of factories where garments were cut and sewn.

Now most factories have moved offshore in pursuit of cheap foreign labor. And many of the original independent apparel makers of Seventh Avenue were long ago gobbled up by conglomerates.

Mr. Schrader was one of the immigrants who built the business. He arrived in the United States at the age of 20 from Poland. His mother hoped he would continue his religious studies and become a rabbi. But Mr. Schrader had his father's business instincts. He started out as a contractor, hiring people to sew garments for a middleman who got the orders from a retailer.

Within a few years, the ambitious Mr. Schrader began his own manufacturing business, complete with a stable of designers, and dealt directly with retail stores. One of his first contracts was with the government for uniforms for the Women's Auxiliary Army Corps.

"I was," he recalled with a deadpan look, "an instant success."

Mr. Schrader's life might appear to mirror the archetypal turn-of-the-century immigrant tale. Think, for example, of the immigrant protagonist in the classic 1917 novel "The Rise of David Levinsky," torn between his rabbinical studies and the lucrative garment business.

But Mr. Schrader shrugged off the comparison. Although he can still toss of a Talmudic reference when pressed, he said godliness was not found in ritual or retreat from the world, but in doing good deeds. Besides, he explained: "Competition is a godsend. If you didn't have it, you'd pay double for your clothes."

For years, Mr. Schrader was also a fixture in the city's high society nightclubs, where he put his love of ballroom dancing on display.

That is how Pauline Trigere, the fashion designer whose coats were produced by the Schrader company for several years, first met Mr. Schrader. "It was on the dance floor at El Morocco." she said.

Ms. Trigere, who has been in the business almost as long as Mr. Schrader, gave him the supreme compliment from a designer: "When I made a collection, it was shown the way I made it. He never did something that hurt the garment."

Mr. Schrader retired in 1988, four years after he sold his business to Interco Inc. With time on his hands, he started, for the first time, to feel his age. "The first year I went from one museum to the other, one library to the other," he said. "Finally my son

said to me, 'Here, Dad, take my car and chauffeur. Tell me, where would you like to go?' And I said, 'Wall Street.'

Now, snappily dressed and eager as any 24vear-old dot-com millionaire, he goes each day at 1 p.m. to his own private office in the brokerage firm of Bishop, Rosen, where he trades stocks for his own account.

It is his joy, like dancing the waltz, although he admitted that "at 100, I'd be lying to tell you my feet are as good as they used to be.'

He stays at his office until about 4:30 p.m., relishing that everyone calls him Abe, like a pal, instead of the stuffier Mr. Schrader. "They treat me royally over there," Mr.

Schrader said happily, settling into his car for the daily ride downtown. "It keeps me young."●

## TRIBUTE TO ROBERT L. McCurley, Jr.

• Mr. SHELBY. Mr. President, I rise today to recognize Mr. Robert L. McCurley Jr., of Tuscaloosa, AL for his dedicated work on behalf of the Kiwanis International Foundation. Mr. McCurley retired on September 30, 2000 after two terms as the president of Kiwanis International's charitable arm. I commend him for his commitment to helping the less fortunate throughout the world.

Bob McCurley's duties as Kiwanis International Foundation president have taken him around the world in his efforts to improve the lives of the underprivileged. Under his leadership, the foundation has provided grants to meet the needs of children from Bulgaria and Haiti to India and Cambodia. In particular, the Kiwanis International Foundation has raised millions of dollars to combat iodine deficiency disorders, the leading preventable cause of mental retardation in the world today.

Mr. McCurley earned degrees in both engineering and law from the University of Alabama. He is director of the Alabama Law Institute and an adjunct professor at the Alabama School of Law. He has also served as a municipal judge and has authored 12 books on law and government.

Mr. McCurley has been a member of Kiwanis in Gadsden and Tuscaloosa for more than 30 years. He led the Kiwanis organization in Alabama in 1983–1984. served as Trustee and then Vice President of Kiwanis International from 1987-1992, and since 1994 has served the Kiwanis International Foundation as a Trustee, Treasurer, and President. In addition to Kiwanis, he has served his community as a volunteer in leadership positions with the March of Dimes, Boys Club, Focus on Senior Citizens, and Association for Retarded Children.

Robert L. McCurley Jr.'s charitable work has made a difference in countless lives in Alabama and throughout the world. UNICEF estimates that Kiwanis support of iodine deficiency disorder programs is saving more than 8 million children each year from mental and physical disabilities. I would REPORT OF THE U.S. RAILROAD like to congratulate Mr. McCurley on a stellar term as President of the Kiwanis International Foundation, and wish him and his family the best in the future.

## TRIBUTE TO LAWRENCE AND KIM BUTTERFIELD

• Mr. McCONNELL. Mr. President, I rise today to pay tribute to Lawrence and Kim Butterfield for their commitment to higher education, and their generosity to the many students who will be able to attend Spalding University because of their gift.

Spalding University has 2.5 million reasons to be grateful to Lawrence and Kim Butterfield of Louisville, Kentucky. Their recent \$2.5 million contribution to Spalding University will allow the school to expand their current overseas travel and study programs, and provide additional student scholarships. The Butterfield's kindness and generosity will ensure that countless students from all backgrounds will receive a quality education and the opportunity to succeed in whatever field of study they choose. Their contribution also will enable students to have the incredible experience of traveling and studying abroad. Students who could not otherwise have afforded this opportunity will now be able to participate because of Lawrence and Kim.

Spalding University will benefit from the many students who will be able to classes because of Butterfield's gift of scholarship funds. The gift of an education is truly the gift that keeps on giving. When Lawrence and Kim provide a scholarship for a student at Spalding, they give the student a quality education and lifelong career opportunities. But the gift goes further than the individual recipient-it also is a gift to the University and to the Louisville community.

On behalf of myself and my colleagues in the United States Senate, I sincere thanks to the Butterfield's for their gift to the students and faculty at Spalding University, to the Louisville community, and to the education of today's youth.

## MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting a withdrawal and sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

RETIREMENT BOARD FOR FIS-CAL YEAR 1999—MESSAGE FROM THE PRESIDENT RECEIVED DUR-ING THE RECESS—PM 133

Under the authority of the order of the Senate of January 6, 1999, the Secretary of the Senate, on October 17, 2000, during the recess of the Senate, received the following message from the President of the United States, together with accompanying report: which was referred to the Committee on Health, Education, Labor, and Pensions.

To the Congress of the United States:

I transmit herewith the Annual Report of the Railroad Retirement Board for Fiscal year 1999, pursuant to the provisions of section 7(b)(6) of the Railroad Retirement Act and section 12(1) of the Railroad Unemployment Insurance Act.

> WILLIAM J. CLINTON. THE WHITE HOUSE, October 17, 2000.

## MESSAGE FROM THE HOUSE

ENROLLED BILL SIGNED

Under the authority of the order of the Senate of January 6, 1999, the Secretary of the Senate, on October 13, 2000, during the recess of the Senate, received a message from the House of Representatives announcing that the Speaker has signed the following enrolled bill:

H.R. 4516. An act making appropriations for the Legislative Branch for the fiscal year ending September 30, 2001, and for other purposes.

Under the authority of the order of the Senate of January 6, 1999, the enrolled bill was signed by the President pro tempore (Mr. Thurmond) on October 13, 2000.

## REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. LUGAR, from the Committee on Agriculture, Nutrition, and Forestry, with an amendment in the nature of a substitute:

S. 1155: A bill to amend the Federal Food, Drug, and Cosmetic Act to provide for uniform food safety warning notification requirements, and for other purposes (Rept. No. 106-504)

## INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

> By Mr. JEFFORDS (for himself, Mr. KENNEDY, and Mr. DODD):

S. 3208. A bill to amend the Federal Food, Drug, and Cosmetic Act to enhance consumer protection in the purchase of prescription drugs from interstate Internet sellers; to the Committee on Health, Education, Labor, and Pensions.

By Mr. DASCHLE (for Mr. LIEBERMAN (for himself, Mr. DODD, Mr. KERRY, Mr. SARBANES, Mr. SCHUMER, Mr. BIDEN, Mr. MOYNIHAN, Mr. ROTH, and Mr. L. CHAFEE)):

S. 3209. A bill to direct the Secretary of the Interior to carry out a resource study of the approximately 600-mile route through the States of Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and Virginia, used by George Washington and General Rochambeau during the Revolutionary War; to the Committee on Energy and Natural Resources.

#### By Mr. SESSIONS:

S. 3210. A bill to amend chapter 1 of title 9, United States Code, to provide for greater fairness in the arbitration process for consumers and employees; to the Committee on the Judiciary.

#### By Mr. HARKIN:

S. 3211. A bill to authorize the Secretary of Education to provide grants to develop technologies to eliminate functional barriers to full independence for individuals with disabilities, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

## SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. McCONNELL:

S. Res. 377. A resolution authorizing the taking of photographs in the Chamber of the United States Senate; considered and agreed to.

## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. JEFFORDS (for himself, Mr. Kennedy, and Mr. Dodd):

S. 3208. A bill to amend the Federal Food, Drug, and Cosmetic Act to enhance consumer protection in the purchase of prescription drugs from interstate Internet sellers; to the Committee on Health, Education, Labor, and Pensions.

## INTERNET PRESCRIPTION DRUG CONSUMER PROTECTION ACT OF 2000

• Mr. JEFFORDS. Mr. President. I am here today to join with my colleagues in the Senate and House in a bipartisan effort to address the relatively new development of Internet pharmacies. The ever-increasing cost of prescription drugs has led a growing number of Americans to turn to Internet pharmacies to try to find savings. Our goal with the Internet Prescription Drug Consumer Protection Act is to allow American consumers to place the same confidence and trust in Internet pharmacies as they do in traditional brickand-mortar pharmacies. The bill we are introducing today is a starting point in addressing this issue. If there is not enough time to pass this bill in the remaining days of the session, then I hope to return to this issue early in the next Congress and finish what we have started.

We are well aware that the explosion of Internet commerce has put all manner of goods and services literally at our fingertips. In this respect, health care products and prescription drugs are no different from books, compact disks, or the many other products sold online. But there is a potential for very serious dangers when purchasing prescription drugs online. On March 21 of this year, I chaired a hearing of the Health, Education, Labor, and Pensions Committee to examine this issue.

In the search for lower-priced prescription drugs, American consumers can, unwittingly, order prescription drugs from rogue web sites that appear to be American-based companies, but are actually overseas sites offering low-priced prescription drugs that are unapproved, counterfeit, contaminated, expired, mislabeled, manufactured in unapproved facilities, or not stored or handled in a proper manner.

I believe legitimate Internet pharmacies that operate legally and ethically can offer valuable services to many Americans and have an important role in E-commerce. But there must be an appropriate regulatory system that protects American consumers from illegal and unethical behavior which can endanger lives, and which combats any rogue Internet operators.

Our legislation contains several provisions to protect consumers. But the most important is clearly the one that allows states to obtain nationwide injunctive relief against unlawful Internet sellers, as requested by the National Association of Attorneys General. Currently, in their efforts to combat illegal actions by a few Internet pharmacies, several states' Attorneys General have filed suit against the same companies and the same doctors. To simply prevent those bad actors from doing business in their state, each Attorney General has to file an action in his or her state court. This duplication of effort drains resources that could be utilized against other offenders. Since the states' primary goal is to prevent rogue sites from harming citizens, nationwide injunctive relief would allow each state to help protect all the citizens of this nation. This power would be directly analogous to the national injunctive relief contained in the federal telemarketing statute.

A number of witnesses at our hearing testified that the most prominent danger presented to consumers is the rogue pharmacies operating in countries other than the United States. In this case, the federal government is clearly the most appropriate entity to deal with international rogue pharmacists, and this legislation provides remedies. Our bill also provides for better coordination between federal and state authorities.

Mr. President, this legislation represents a great deal of work by Senator Kennedy and myself. Representatives

BLILEY, KLINK, and UPTON have worked on this issue as well, and I understand that they are introducing companion legislation in the House. I am pleased that we have been able to work in a bipartisan and bicameral fashion on such a complicated issue. Any time Congress attempts to respond to emerging technologies, similar challenges are faced.

I recognize that we are introducing this bill late in the session and that several members have expressed concern with certain aspects of our proposal. I want to assure my colleagues that this legislation is a starting point. This will provide my colleagues with the opportunity to make comments and suggestions on the different policy areas. We have written this bill with bipartisan cooperation, and I look forward to continuing in that spirit as we work to ensure the safety of Internet pharmacies. •

Mr. KENNEDY. Mr. President, the Internet is transforming all aspects of our society, including health care. Web-based businesses, such as Internet pharmacies, can offer convenience and an opportunity for privacy for large numbers of consumers buying online. The Internet also creates opportunities, however, for scam artists and unprincipled suppliers to market contaminated, expired, ineffective, orcounterfeit medications to unsuspecting patients. Today, these bad actors can easily prey on patients who turn to the Internet for easy access or low-priced medications.

Clearly, effective oversight is needed to protect consumers using the Internet and root out illegal operators without interfering with legitimate Internet commerce. Americans are entitled to the same protections on the Internet that they enjoy in other commercial settings.

So far, existing Federal and State laws have had only limited success in protecting consumers from unlawful Internet sellers of prescription medications.

Today, some physicians issue prescriptions for patients they have never seen, let alone seriously examined. Patients can purchase prescription drugs on the Internet without adequate safeguards that the drugs are appropriate and of high quality. Because web sites can be easily created and designed, patients may think they have purchased their medications from a U.S.-licensed pharmacy when, in fact, they have not. The prescription drugs they receive may be sold out of someone's garage or from a country with few, if any, standards for manufacturing, storing or shipping these products.

Several states and Federal agencies have taken enforcement actions against unlawful Internet sellers, but with limited results. While the number of legitimate Internet pharmacies remains small, the number of illegal sellers continues to grow. We must do

more to protect patients when they buy prescription drugs online. Patients should have the same protections when purchasing their medications over the Internet as when buying from a "bricks-and-mortar" pharmacy.

At a hearing on Internet pharmacies by the Senate Health, Education, Labor and Pensions Committee in March, state and Federal regulators asked the Committee for additional enforcement tools to combat illegal sales of prescription drugs over the Internet. The National Association of Attorneys General called for Federal legislation to require Internet entities that sell prescription medications to disclose information about their businesses, and to give the states the authority to stop illegal sales nationwide, rather than only within their own borders. At a hearing by the House Commerce Committee in May, the Department of Justice asked for authority to freeze domestic assets of illegal foreign web sites.

The Internet Prescription Drug Consumer Protection Act of 2000, which Senators Jeffords, Dodd, and I are introducing today, gives these needed tools to federal and state law enforcement officials to protect the public from those who sell prescription drugs illegally on the Internet. A companion bill is being introduced by Congressmen BLILEY, KLINK, and UPTON in the House, and I commend Congressman KLINK in particular for his leadership and guidance on this issue.

Today's consumer protection laws were enacted before the development of the Internet. This legislation will fill the gaps in current law that permit these illegal sellers to evade prosecution. The bill is supported by the National Association of Attorneys General, the American Pharmaceutical Association, the American Society of Health-System Pharmacists, drugstore.com, and the National Consumers League.

Our legislation recognizes that states need additional enforcement tools to take effective action against unlawful domestic Internet sellers, and Federal agencies need additional enforcement tools to take effective action against illegal foreign sellers.

First, the Act requires Internet sellers of prescription drugs to disclose on their web sites and to the appropriate state licensing board their street address, telephone number, and states where they are licensed to sell their products. Consumers have a right to know with whom they are dealing on the Internet, just as they do when they walk into their local pharmacy.

Second, the bill authorizes a state to go to federal court to obtain a nation-wide injunction against an unlawful Internet seller. Currently, a state can stop an illegal web site operator from selling drugs to citizens in its state, but the illegal operator is free to sell in

the other 49 states. For many illegal sellers, the risk of a state injunction is merely a cost of doing business. Under this legislation, illegal sellers will be out of business altogether.

The Federal Government has little authority to bring criminals in other countries to justice. However, it can freeze the U.S. assets of foreign sellers if given the proper authority. This legislation gives the Department of Justice the ability to stop illegal foreign operators from collecting payments from U.S. customers. If they can't turn a profit, they'll stop selling.

As electronic commerce evolves, cooperative multinational efforts will be needed to assure adequate protections for consumers. Our proposal lays the foundation to achieve this goal. It requires the Secretary of Health and Human Services to make recommendations to Congress for coordinating activities of the federal government with those of other countries to curb illegal Internet sales from abroad.

Consumers also have an important role to play. Informed purchasers are well prepared to avoid illegal web sites. This legislation requires the Secretary of Health and Human Services to educate the public about the potential dangers of buying medications online and about effective public and private sector consumer protections.

This legislation is an important step toward making medications online a safe purchase for consumers. I look forward to working with my colleagues to expedite its passage.

I ask that a summary of the bill and letters of support for it be printed in the RECORD.

The materials follow.

INTERNET PRESCRIPTION DRUG CONSUMER PROTECTION ACT OF 2000: SUMMARY

Use of the Internet to buy prescription medications is growing rapidly, and many consumers can benefit from the convenience and potential privacy of this new option. Unfortunately, illegitimate sellers threaten patient safety in this quickly evolving environment. Many of these operations are fly-bynight or foreign businesses that easily evade prosecution. Consumers who buy prescription drugs from such web sites can be harmed from inappropriately prescribed medications, dangerous drug interactions, and contaminated drugs. Consumers may also be defrauded by paying money but never receiving the medications they ordered or receiving ineffective or counterfeit drugs. Because today's laws were enacted before the development of the Internet, there are gaps in current law that leave consumers vulnerable to unscrupulous business practices. This bill addresses these deficiencies by providing federal and state law enforcement authorities with the tools they need to adequately protect the public when buying medications online.

## DISCLOSURE REQUIREMENT

Requires interstate Internet sellers of prescription drugs to disclose on their web sites and to the appropriate state licensing board the street address of their place of business, telephone number, and states where they are licensed to sell prescription medications. FEDERAL CAUSE OF ACTION FOR STATES

Authorizes states to go into federal court to obtain a nationwide injunction against an unlawful interstate Internet seller.

## FREEZING FOREIGN ASSETS

Grants the Department of Justice the authority to stop illegal foreign operators from collecting payments from U.S. customers. The bill also requires the Secretary of Health and Human Services to provide recommendations to Congress for coordinating activities of the federal government with those of other countries to curb illegal Internet sales from abroad.

#### PUBLIC EDUCATION

Requires the Secretary of Health and Human Services to educate the public about the dangers of buying medications online and about effective public and private sector consumer protections.

NATIONAL ASSOCIATION OF

ATTORNEYS GENERAL Washington, DC, October 16, 2000.

Hon. Jim M. Jeffords, U.S. Senate, Washington, DC. Hon. Thomas J. Blilley, Jr., House of Representatives, Washington, DC. Hon. Edward M. Kennedy, U.S. Senate, Washington, DC. Hon. Ron Klink.

House of Representatives, Washington, DC.
Re The Internet Prescription Drug Consumer
Protection Act of 2000

DEAR SENATOR JEFFORDS, SENATOR KENNEDY, REPRESENTATIVE BLILEY AND REPRESENTATIVE KLINK: As the chair of the Online Pharmacy Working Group for the National Association of Attorneys General, I wish to express the support of my colleagues for legislation you are introducing to address the proliferation of illegal prescription drug sales over the Internet and for your commitment to this issue as the chairs and ranking members of the Senate Health, Education, Labor, and Pensions Committee, the House Commerce Committee and its Subcommittee on Oversight and Investigations, respectively.

As you know, the states have traditionally regulated the practice of prescribing and dispensing medications through state law and licensure requirements. This statutory and regulatory structure ensures the existence of a valid physician-patient or prescriber-patient relationship, the accuracy of prescriptions, and the quality of pharmaceuticals.

The Internet has changed many traditional business practices—including providing new opportunities for consumers to purchase medications from online pharmacies. While the Internet can provide a legitimate, convenient, and effective means for pharmacies to transact business with consumers if operated in full compliance with state laws, it also provides an opportunity for businesses that are not operating in compliance with state laws to reach consumers. Many of these prescribe and sell drugs without a valid examination by a physician, without a review of a patient's medical records for adverse reactions, without valid prescriptions, without compliance with state laws and licensure requirements, without parental consent, etc. These illegal sites can jeopardize the health and safety of consumers.

The state Attorneys General believe that online pharmacies should not be treated differently than traditional "brick and mortar" pharmacies when it comes to compliance with state laws: if a pharmacy wants to transact business in a certain state, then it should submit to the laws of that state. If the law is broken, the offender should be

prosecuted. To date, my state of Kansas and several other states have taken enforcement actions against illegal Internet sites prescribing and/or dispensing prescription drugs to consumers in violation of state law.

These cases are not easy ones for the state to bring. Because of the low start-up costs and anonymity associated with the Internet, it is often difficult for the states to locate those responsible for operating an illegal online pharmacy and those who prescribe and dispense the drugs to consumers, hindering effective investigation and prosecution. Likewise the current lack of nationwide injunctive relief requires each state to separately sue a site to obtain an injunction to protect its consumers, wasting valuable resources

The bi-partisan and bi-cameral legislation you have introduced will increase the effectiveness of the states' ability to protect consumers. The Internet Prescription Drug Consumer Protection Act of 2000 clearly provides the states with the authority to obtain nationwide injunctive relief, providing an opportunity for a state to obtain an injunction effective in every state, while preserving the ability of other states to seek restitution for their own consumers and penalties and fees in their own state courts. It also addresses the need to ensure we can locate the companies selling prescription drugs by incorporating disclosure and notification requirements that will require companies to maintain accurate, accessible information about their principals and location.

Thank you, again, for your leadership on this issue.

Sincerely

 $\begin{array}{c} \text{Carla, J. Stovall,} \\ \textit{Attorney General of Kansas.} \end{array}$ 

AMERICAN PHARMACEUTICAL

ASSOCIATION,

Washington, DC, October 10, 2000. Hon. EDWARD M. KENNEDY,

U.S. Senate, Russell Senate Office Building, Washington, DC.

DEAR SENATOR KENNEDY: The American Pharmaceutical Association (APhA), the national professional society of pharmacists, is pleased to support the Internet Prescription Drug Consumer Protection Act of 2000. This proposal is commendable for building on existing State regulation of pharmacy practice and prescription dispensing by other providers, rather than creating a redundant Federal regulation system.

This bill is important to pharmacists as it provides our patients better protection against fraudulent Internet sellers. This bill also complements APhA's work to help consumers know what to look for in an Internet pharmacy. I have enclosed a sample of the information APhA has disseminated broadly to assist consumers in choosing an Internet pharmacy. We look forward to working with the Secretary of Health and Human Services and the Food and Drug Administration to educate the public about the dangers of purchasing prescription drugs from unlawful Internet sources.

APhA especially supports the provision authorizing injunctions against alienation of property as a preliminary step to address the significant problem of international prescription drug sellers—sellers not bound to the important requirements regulating domestic pharmacies and pharmacists. We strongly support efforts to coordinate Federal agency activity addressing interstate Internet sellers operating from foreign countries. The Association and its members look forward to working with you to refine this

approach in certain areas, such as the 75-mile exemption, and to help this proposal become law.

The American Pharmaceutical Association is the first established and largest professional association of pharmacists in the United States. APhA's more than 50,000 members include practicing pharmacists (including pharmacists in legitimate Internet pharmacy practices), pharmaceutical scientists, pharmacy students, and others interested in advancing the profession. The Association is a leader in providing professional information and education for pharmacists and an advocate for improved health through the provision of comprehensive pharmaceutical care.

Please contact Susan C. Winckler, RPh., APhA's Group Director of Policy and Advocacy or Lisa M. Geiger, APhA's Director of State and Federal Policy, should you or your staff require any assistance from APhA. Thank you for your leadership in addressing this important issue.

Sincerely,

JOHN A. GANS, PharmD, Executive Vice President.

AMERICAN SOCIETY OF HEALTH-SYSTEM PHARMACISTS,

Bethesda, MD, October 6, 2000.

Hon. EDWARD M. KENNEDY, Senate Russell Office Building, Washington, DC.

DEAR SENATOR KENNEDY: On behalf of the American Society of Health-System Pharmacists (ASHP), the 30,000-member national professional association that represents who practice in hospitals, pharmacists health maintenance organizations. longterm care facilities, home care, and other components of health care systems. I am writing to support continued efforts to improve patient safety. Your legislation, the 'Internet Prescription Consumer Protection Act of 2000," provides a significant step towards ensuring that medications obtained via the Internet met the same quality and assurance standards as those products obtained through more traditional means.

ASHP recognizes that the majority of pharmacies selling prescription drugs over the Internet are legitimate entities that offer important health benefits to the patient, including greater accessibility, convenience and access to information. However, legislation is needed to ensure that rogue sites do not exploit and endanger consumers. Current state and federal regulation of Internet pharmacies, as well as voluntary industry initiatives, are not sufficient to ensure patient safety.

The Internet Prescription Drug Consumer Protection Act meets ASHP's policy position on regulating online pharmacy. The bill mandates the disclosure of important provider information, works to ensure that a legitimate patient-prescription relationship exists, and enhances state and federal enforcement authority. These important safety measures will foster greater confidence in the quality of the pharmaceutical products reaching the American public.

Again, we applaud the introduction of your legislation and hope the Congress will come together in a bipartisan manner to address this important patient safety issue in the remaining days of the 106th Congress. We also look forward to working with you further to address the foreign source aspect of the public health problem. Please feel free to have your staff contact Kathleen M. Cantwell, ASHP's Assistant Director and Counsel for

Federal Legislative Affairs (301–657–3000 ext. 1326) if we can be of assistance.

Sincerely,

Henri R. Manasse, Jr., Ph.D., Sc.D., Executive Vice President and Chief Executive Officer.

DRUGSTORE.COM,

Bellevue, WA, October 12, 2000.

Hon. Patty Murray,

U.S. Senate, Russell Senate Office Building, Washington, DC.

Re: Internet Prescription Drug Consumer Protection Act of 2000

DEAR SENATOR MURRAY: We understand that legislation will be introduced in the Senate to impose certain requirements on interstate Internet sellers which sell prescription drugs to consumers, and to facilitate legal action against those sellers making illegal sales of prescription drugs over the Internet. We have reviewed a copy of the legislation provided by Senate staff last week. It is our opinion that the legislation does not impose undue burdens on legitimate Internet pharmacies, such as drugstore.com, and that it represents a step forward in providing consumers with information enabling them to distinguish between legitimate pharmacies and rogue operators. The legislation also authorizes additional law enforcement tools to facilitate the prosecution of those rogues.

We were pleased to see the legislation's acknowledgement that "legitimate Internet sellers of prescription drugs can offer substantial benefits to consumers. These potential benefits include convenience, privacy, valuable information, lower prices, and personalized services." drugstore.com is proud to be the leading online drugstore. We believe that our success in attracting more than 1.2 million customers is the direct result of our commitment to provide safe, secure, legitimate and innovative pharmacy services. We are using the Internet to help our customers make clear, informed decisions about their health and well-being.

As this legislation was being developed, we were concerned that it would impose unreasonable burdens on legitimate online pharmacies, such as drugstore.com, that are already complying with all existing state and federal laws. However, we believe that the Web site disclosure requirements contained in the bill are reasonably circumscribed to avoid such burdens. Such requirements mandate that an interstate Internet seller disclose to consumers such fundamental information as its address and the states in which it is licensed, drugstore.com already discloses that and more on its Web site. and. therefore, does not find such requirements objectionable. We hope that the regulations promulgated by the Department of health and Human Services under the authority of Sec. 3(a)(6) will acknowledge the apparent intent of the bill not to impose unreasonable burdens on legitimate Internet pharmacies. In that regard, drugstore.com enthusiastically supports the National Association of Boards of Pharmacy's VIPPS (Verified Internet Pharmacy Practices Sites) certification program. That's because we believe the VIPPS certification helps consumers distinguish between legitimate Internet pharmacies and illegitimate rogue sites. We, therefore, recommend VIPPS as a model for the purpose of promulgating regulations to implement the disclosure requirements of this bill.

We leave to law enforcement authorities the question as to whether the additional enforcement powers authorized by the bill provide sufficient effective mechanisms to investigate and prosecute questionable Internet sites. We take note of the fact that other proposals would have imposed monetary penalties against Internet operators who knowingly dispense a prescription drug without a valid description—a provision missing from this bill. Consistent with drugstore.com's position that rogue sites should be held accountable for their noncompliance with the law, we would have preferred that such penalties be retained as a disincentive to those inclined to violate the law. However, we hope that the enforcement powers included in the bill will be used effectively against illegal operators.

One of the greatest dangers posed to Internet consumers and to legitimate Internet pharmacies across the country is the problem of rogue operators domiciled overseas. Again, we reiterate that the Federal government must exert a much greater effort to address this problem, including working with foreign governments and increasing import surveillance, to deny these rogue sites a safe harbor in the United States.

Finally, we support and encourage consumer education initiatives regarding the dangers and pitfalls of buying from rogue sites, and are pleased to see that the bill mandates such public education. Recently, we participated with the Food and Drug Administration in the CybeRxSmart coalition that is designed to educate and increase consumer awareness on how to purchase prescription drugs safely and legitimately via the Internet. Given the importance of Internet commerce, both to consumers and the economy, we would have preferred that the bill made mandatory the involvement of private sector Internet health care providers in the development of consumer education programs in order to draw on their extensive expertise and enhance the support of such activities.

In summary, we believe that, if sufficient resources are made available to back up the will of Congress as stated in this bill, the Internet Prescription Drug Consumer Protection Act of 2000 can increase consumer awareness of those unsafe Internet sites and enforce federal and state laws against interstate Internet sellers which mislead, and jeopardize the health and safety of, consumers.

We appreciate your attention to this important issue.

Sincerely,

Peter M. Neupert,  $CEO\ and\ President.$ 

NATIONAL CONSUMERS LEAGUE,
Washington, DC, October 10, 2000.
Hon, EDWARD KENNEDY.

Russell Senate Office Building, Washington,

DEAR SENATOR KENNEDY: The National Consumers League, America's oldest nonprofit consumer advocacy organization, is pleased to support the Internet Prescription Drug Consumer Protection Act of 2000. With the increasing use of the Internet to purchase prescription drugs, consumers need adequate protection and information when purchasing medications online. Unfortunately, there are numerous websites that are willing to sell consumers prescription medications without a valid prescription from a licensed provider. These sellers threaten consumer and patient safety and stigmatize the universe of Internet pharmacies, many of

which comply with state and federal regulations governing the prescribing and dispensing of medications.

This legislation will provide valuable protections for consumers by addressing the deficiencies that currently exist for state and federal law enforcement agencies to take action against illegitimate sellers. By requiring all Internet pharmacy websites to be licensed in any state that they sell or ship prescription drugs, consumers will have the confidence that their health and safety are being protected and the purchases they make will be legitimate.

Further, we commend the requirement of a consumer education component in this legislation. Without adequate public education consumers would still remain vulnerable to unscrupulous Internet sites despite the enhanced enforcement tools provided in the legislation.

The National Consumers League supports this important piece of legislation and commends you and the other Members of Congress for helping to improve patient safety and enhance consumer protections online. We look forward to working with you on this bill.

Sincerely.

LINDA F. GOLODNER,

DAF. GOLODNER,  $President. \bullet$ 

Mr. DODD. Mr. President, I rise today to join Senators Kennedy and JEFFORDS in introducing the "Internet Prescription Drug Consumer Protection Act of 2000," legislation that offers much-needed safeguards for consumers who purchase prescription drugs over the Internet. This legislation will, for the first time, require online sellers of pharmaceuticals to comply with the same basic standards as traditional brick-and-mortar pharmacies and will create additional enforcement tools so that states and federal agencies can take effective action against online pharmacies that endanger the public safety.

As with most of the recent advances in technology over the past decade, the ability to shop over the Internet has brought with it new benefits, as well as new worries. While many of us applaud the advantages that e-commerce has provided, when it comes to the purchase of products with a direct and immediate impact on health and safety—such as prescription drugs—we must seriously consider the risks that come with convenience.

While some online pharmacies have adopted all the safeguards of traditional pharmacies, such as hiring licensed pharmacists and requiring valid prescriptions before dispensing drugs, increasingly, unscrupulous companies have used the anonymity of cyberspace to hide from federal and state safety regulations, placing the health of their customers at serious risk. These unethical companies can easily take advantage of the fact that, as consumers, we may leave our common sense behind when we turn on our computers. Too often, we assume that simply because a business has a website, it must be legitimate.

Consequently, we've received hundreds of reports of Internet pharmacies

selling powerful prescription drugs to consumers simply on the basis of answers to a health questionnaire—without the patient ever setting foot in a doctor's office. This practice, which has been condemned as unethical by the American Medical Association, places patients at serious risk for misdiagnoses and dangerous drug interactions. Perhaps even more frightening is that some Internet sellers are dispensing contaminated or counterfeit drugs to their unsuspecting customers. And, unfortunately, the ease with which websites can be created and removed and the difficulty regulators have in determining the identity of the corporations behind the websites create obstacles to states and federal agencies trying to shut down unlawful sellers.

This legislation would require online sellers of prescription drugs to dispense medications only with valid prescriptions, to notify state boards of pharmacy in each state in which they operate of the establishment of their service, and to provide full disclosure of the address and telephone number of the business's headquarters on their website. Under this bill, Internet sellers who do not adhere to these basic standards will risk serious legal sanctions, including permanent prohibition from conducting further business and the freezing of assets.

While we should ensure that legitimate pharmacies can continue to serve their customers on the information superhighway, we need to act immediately to derail those who would use the Internet in unsafe or illicit ways. The legislation we introduce today will give state and federal agencies the appropriate authority to protect American consumers from unscrupulous Internet sellers. I urge all of my colleagues to join us as cosponsors of this important legislation.

By Mr. DASCHLE (for Mr. LIEBERMAN (for himself, Mr. DODD, Mr. KERRY, Mr. SARBANES, Mr. SCHUMER, Mr. BIDEN, Mr. MOYNIHAN, Mr. ROTH, and Mr. L. CHAFEE)):

S. 3209. A bill to direct the Secretary of the Interior to carry out a resource study of the approximately 600-mile route through the States of Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and Virginia, used by George Washington and General Rochambeau during the Revolutionary War; to the Committee on Energy and Natural Resources.

(At the request of Mr. DASCHLE, the following statement was ordered to be printed in the RECORD.)

WASHINGTON-ROCHAMBEAU REVOLUTIONARY ROUTE NATIONAL HERITAGE ACT OF 2000

• Mr. LIEBERMAN. Mr. President, 219 years ago this month, a small army camped at the gates of a small port in

Virginia. And turned the world upside down. This collection of often poorly fed, poorly paid, and poorly armed men made a sacrifice from which we all benefit today. In October 1781, a few thousand American and French soldiers laid siege to Yorktown, forced the surrender of Cornwallis and his British regulars, and won American independence.

Although we often remember the victory at Yorktown, too often we lose sight of the heroic efforts that made it possible. Too often we forget that this victory was the culmination of a miraculous campaign—when two nations, two armies, and two great men put aside their differences and worked together for a common purpose.

It is my opinion that no single monument or battlefield would do justice to the scope of this event. That is why I. along with my colleagues, Senators DODD, KERRY, BIDEN, ROTH, SCHUMER, MOYNIHAN, SARBANES, and CHAFEE, am privileged to call for a national commemoration of the events leading to our victory at Yorktown and the end of the American Revolution. We have been strongly supported in this effort by the work of dedicated volunteers across the country-members of the Sons of the American Revolution in all of our states. I would especially like to acknowledge the help of Albert McJoynt and Win Carroll, for their work with my staff on this important project.

The Washington-Rochambeau Revolutionary Road is 600 miles of history, winding from Providence, Rhode Island to Yorktown, Virginia. In the opinion of my colleagues and I, it is well worthy of designation as a National Historic Trail. Let us document the events in the cities and towns all along the road to Yorktown and the birth of this great nation of ours. Let us celebrate the unprecedented Franco-American alliance and the superhuman efforts of Generals George Washington and Jean Baptiste Donatien de Vimeur, Comte de Rochambeau to preserve that alliance in the face of seemingly unsurmountable odds. Let us create a National Historic Trail along whose course we can pause and remember these men and women, their travels, and sacrifices—from the journey's beginning when Rochambeau led the French army out of Newport and Providence, Rhode Island, into New York where he joined Washington's troops, and through a cross section of colonial America to its culmination at the gates of Yorktown.

The story of the alliance and the march is like many in our history—full of heroic characters, brave deeds, and political intrigue. Hollywood should take note: it would make for a block-buster—and uplifting—adventure. The story unfolds through seven states and countless towns and stars the men and women of the march who left their mark wherever they went.

Each of the towns on the trail makes its own unique contribution to the tale οf the journey. Hartford and Wethersfield, in my own state of Connecticut—where the two generals met and through a translator planned their strategy. In Phillipsburg, New York, the French and American armies first joined together and faced off against the British in New York City. Here, Washington and Rochambeau planned their high risk strategy—abandoning established positions in the north and racing hundreds of miles south to surprise and trap an unsuspecting British army. In Chatham, New Jersey, the French made a show of storing supplies and building bread ovens in order to disguise their march towards Cornwallis in Virginia, to confuse the British. They moved on through Princeton and Trenton. New Jersev—sites of previous colonial victories against great odds.

But the march itself is only part of the story. The unprecedented alliance between France and America was cemented during this journey. Elite troops from one of the great European powers stood with the ragtag but spirited Continental Army to face and defeat the British Empire. Men who shared no common language and had in many cases been enemies in previous wars, shared clothing and food and cultures in order to achieve their goal. And as a proud member of the Armed Services Committee I am pleased to say this was a successful Joint and Coalition operation.

The trail goes through Philadelphia, Pennsylvania—then capital of the colonies. Here Washington and Rochambeau stopped their men outside town, had them clean off the dirt of the trail and marched them through town with drums beating and flags unfurled before the Continental Congress and the people of Philadelphia. The grandeur of their new European ally helped restore the spirit of America during this very uncertain time.

A few days later in Chester, Pennsylvania, Washington, the normally reserved commander-in-chief, literally danced on the dock when he learned the French fleet had arrived in the Chesapeake and trapped the British at Yorktown. For the first time, it seemed that victory for the colonies was possible. The armies marched on to Wilmington, Delaware and Elkton, Maryland, where American troops were finally paid for some of their efforts, using money borrowed by the bankrupt Continental Army from General Rochambeau.

There are two central characters to this drama, without whom the march, siege, and victory would have never happened—Rochambeau and Washington. French ministers hand-selected the celebrated and experienced Rochambeau for the unique "Expédition Particulière" because of his patience

and professionalism. Lieutenant General Rochambeau had a distinguished military career. More importantly, he understood the need for America to play the leading role in the war. With dignity and respect, he subordinated himself and his men to Washington and his patchwork forces. While avoiding intrigue and scandal, he overlooked improprieties and affronts, and provided needed counsel, supplies, and money to Washington and his men. He is undoubtedly one of the key forces helping Washington to victory at Yorktown, and has rightly been called "America's Neglected Founding Father."

Our nation's capital region also played its part in this story. Troops camped in Baltimore near the site of today's Camden Yards. Some crossed the Potomac near Georgetown, while others camped in Alexandria, Virginia. Along the way, General Washington made a triumphal return to Mount Vernon, and hosted a celebration for his French allies. All along the route, towns were touched and thrilled by the passage of the army and events swirling around them. Within this national commemoration, we should let each tell its own story in its own way.

The force that held it all together throughout the march and on to victory was General Washington. This was not a new role for him. Before the war, Washington was one of the wealthiest men in the colonies and one of its few military heroes. Only he, with his public standing and incredible resolve, could have held together the fledgling Continental Army, the divided loyalties of the American people, a meddling Congress, disloyal generals, and an international alliance, for the six years leading up to the Yorktown Campaign. He overcame his own distrust and doubt and invited his old enemies, the French—who had held him prisoner in an earlier war—to field a European army in the colonies while he was working with all his energy to evict another one. Over the years, he had used his own money and credit to pay and feed his men. And he carefully balanced the need to combine his new nation's independence with delicate European sensibilities to forge a winning alliance. In these months in 1781, he took a grand risk and won the war. Although the march is not his most famous hour, in many ways it is his finest.

The armies marched on through Williamsburg, Virginia until they reached positions outside Yorktown in late September. Washington and Rochambeau and their troops went on to win this battle and the war. The rest is history. We should work today to ensure that this history, in all its rich detail, is not forgotten. We have the support of many state and local and private and public historic preservation groups in our efforts to establish this trail. We

should use their momentum and enthusiasm to make it a reality. This bill begins that process, by directing the Secretary of the Interior to perform a resource study on the establishment of this trail, in coordination with their activities and other Congressionally mandated programs. In a time when it seems we have few heroes, let us take the time to better remember the heroes of our past. Those who sacificed so much for our freedom today deserve no less.

## Mr. SESSIONS:

S. 3210. A bill to amend chapter 1 of title 9, United States Code, to provide for greater fairness in the arbitration process for consumers and employees; to the Committee on the Judiciary.

THE CONSUMER AND EMPLOYEE ARBITRATION BILL OF RIGHTS

Mr. SESSIONS. Mr. President, I rise to sent to the desk a bill entitled, "The Consumer and Employee Arbitration Bill of Rights." This bill begins the multi-year legislative process necessary to improve the Federal Arbitration Act so that it will be a cost-effective means of resolving disputes. This bill of rights will provide procedural protections to consumers and employees to ensure that their claims will be resolved under due process of law, in a speedy and cost effective manner.

Congress enacted the Federal Arbitration Act in 1925. It has served us as well for three-quarters of a century. Under the Act, if the parties agree to a contract affecting interstate commerce that contains a clause requiring arbitration, the clause will be enforceable in court. In short, the Federal Arbitration Act allows parties to a contract to agree not to take their disputes to court, but to resolve any dispute arising from that contract before a neutral decision-maker, generally selected by a non-profit arbitration organization. The parties can generally present evidence and be represented by counsel. And the decision-makers will apply the relevant state law in resolving the dispute. Arbitration is generally quicker and less expensive than going to court.

In recent years, there have been some cases where the arbitration process has not worked well, but thousands of disputes have been fairly and effectively settled by arbitrators. Such a system is even more important because of skyrocketing legal costs where attorneys require large contingent fees. Accordingly, I have opposed piecemeal legislative changes to the act. Instead, I believe the time has come for a comprehensive review of how arbitration works and what we can do to enhance its effectiveness.

The approach of reforming arbitration, rather than abandoning the arbitration process provides several benefits. Arbitration is one of the best means of dispute resolution and one that most consumers and employees can afford. Consumers and employees generally cannot afford a team of lawyers to represent them. And their claims are often not big enough so that a lawyer would take the case on a 25 percent or even a 50 percent contingent fee. Thus, the consumer or employee is faced with having to pay a lawyer's hourly rate for his claim. If he can afford to pay the hourly rate, he must decide whether it makes financial sense to pay a lawyer several thousand dollars to litigate a claim in court for a broken television that cost \$700 new. If this is what consumers and employees are left with, many will have no choice but to drop their claim. This is not right. It is not fair.

This is where arbitration can give the consumer or employee a cost effective forum to assert their claim. Thus, before we make exceptions to the Federal Arbitration Act for some of the most well to do corporations in our society, I think it is our duty to consider how we can improve the system for those less financially able.

A letter I recently received from the National Arbitration Forum contained some interesting comments about the importance of arbitration: the ABA has calculated that 100 million Americans are locked out of court by high legal costs, and that most lawyers will not begin a lawsuit worth less than \$20,000, while arbitration serves as an accessible forum for dispute resolution; consumer class actions increasingly generate little more than coupons for consumers, while contractual arbitration gives a consumer the ability to get his or her case before a neutral party at a reasonable price and in a reasonable amount of time; a recent Roper Study indicates that 59 percent of Americans would choose arbitration over a lawsuit to resolve a claim for money.

Thus, the benefits for customers and employees are readily apparent. Can we improve this system? Yes, but we must take a balanced approach.

Further, arbitration promotes the freedom of parties to make contracts. I was recently contacted by Professor Stephen Ware of the Cumberland School of Law, who reminded us that the promotion of contractual freedom regarding arbitration has long been a primary goal of the Federal Arbitration Act. In any contract, the parties agree to all the terms and clauses included in the contract document. This includes the arbitration clause. This is basic contract law, and the basic principle upon which the Federal Arbitration Act has been supported for 75 vears.

But this is not always the case. In certain situations, consumers or employees are not treated fairly. That is what the Consumer and Employee Arbitration Bill of Rights is designed to correct.

The bill will maintain the cost benefits of binding arbitration, but would

grant several specific "due process" rights to consumers and employees. The bill is based on the consumer and employee due process protocols of the American Arbitration Association and have broad support. The bill provides the following rights:

No. 1, notice—Under the bill an arbitration clause, to be enforceable, would have to have a heading in large, bold print, would have to state whether arbitration is binding or optional, identify a source that the consumer or employee could contact for more information, and state that a consumer could opt out to small claims court.

This will ensure that consumers who receive credit card notices in the mail will not miss an arbitration clause because it is printed in fine print. Further, it will give consumers and employees a means to obtain more information on how to resolve any disputes. Finally, the clause would explain that if a consumer's claims could otherwise be brought in small claims court, he is free to do so. Small claims court, unlike regular trial court, provides another inexpensive and quick means of dispute resolution.

No. 2, independent selection of arbitrators—The bill will grant consumers and employees the right to have potential arbitrators disclose relevant information concerning their business ties and employment. All parties to the arbitration will have an equal voice in selecting a neutral arbitrator. This ensures that the large company who sold a consumer a product will not select the arbitrator itself, because the consumer or the employee with a grievance will have the right to nominate potential arbitrators too. As a result, the final arbitrator selected will have to have the explicit approval of both parties to the dispute. This means the arbitrator will be a neutral party with no allegiance to either the seller or the consumer.

No. 3, choice of law—The bill grants consumers and employees the right to have the arbitrator governed by the substantive law that would apply under conflicts of laws principles applicable in the forum in which the consumer resided at the time the contract was entered into. This means that the substantive contract law that would apply in a court where the consumer or employee resides at the time of making the contract will apply in the arbitration. Thus, in a dispute arising from the purchase of a product by an Alabama consumer from an Illinois company, a court would have to determine whether Alabama or Illinois law applied by looking to the language of the contract and to the place the contract was entered into. The bill ensures that an arbitrator will use the same conflict of laws principles that a court would in determining whether Alabama or Illinois law will govern the arbitration proceedings.

No. 4, representation—The bill grants consumers and employees the right to be represented by counsel at his own expense. Thus, if the claim involves complicated legal issues, the consumer or employee is free to have his lawyer represent him in the arbitration. Such representation should be substantially less expensive than a trial in court because of the more abbreviated and expedited process of arbitration.

No. 5, hearing—The bill grants consumers and employees the right to a fair hearing in a forum that is reasonably convenient to the consumer or employee. This would prevent a large company from requiring a consumer or employee to travel across the country to arbitrate his claim and to expend more in travel costs than his claim may be worth.

No. 6, evidence—The bill grants consumers and employees the right to conduct discovery and to present evidence. This ensures that the arbitrator will have all the facts before him prior to making a decision.

No. 7, cross examination—The bill grants consumers and employees the right to cross-examine witnesses presented by the other party at the hearing. This allows a party to test the statements of the other party's witnesses and be sure that the evidence before the arbitrator is correct.

No. 8, record—The bill grants consumers and employees the right to hire a stenographer or tape record the hearing to produce a record. This right is key to proving later that the arbitration proceeding was fair.

No. 9, timely resolution—The bill grants consumers and employees the right to have an arbitration proceeding to be completed promptly so that they do not have to wait for a year or more to have their claim resolved. Under the bill a defendant must file an answer within 30 days of the filing of the complaint. The arbitrator has 90 days after the answer to hold a hearing. The arbitrator must render a final decision within 30 days after the hearing. Extensions are available in extraordinary circumstances.

No. 10, written decision—The bill grants consumers and employees the right to a written decision by the arbitrator explaining the resolution of the case and his reasons therefor. If the consumer or employee takes a claim to arbitration, he deserves to have an explanation of why he won or lost.

No. 11, expenses—The bill grants consumers and employees the right to have an arbitrator provide for reimbursement of arbitration fees in the interests of justice and the reduction, deferral, or waiver of arbitration fees in cases of extreme hardship. It does little good to take a claim to arbitration if the consumer or employee cannot even afford the arbitration fee. This provision ensures that the arbitrator can waive or reduce the fee or make the

company reimburse the consumer or employee for a fee if the interests of justice so require.

No. 12, small claims opt out—The bill grants consumers and employees the right to opt out of arbitration into small claims court if that court has jurisdiction over the claim and the claim does not exceed \$50,000.

The bill also provides an effective mechanism for consumers and employees to enforce these rights. At any time, if a consumer or employee believes that the other party violated his rights, he may ask and the arbitrator may award a penalty up to the amount of the claim plus attorneys fees. For example, if the company fails to provide discovery to the employee, the employee can make a motion for fees. The amount of fee award is limited, as it is in court, to the amount of cost incurred by the employee in trying to obtain the information from the company. This principle is taken from Federal Rule of Civil Procedure 37.

After the decision, if the losing party believes that the rights granted to him by the Act have been violated, he may file a petition with the Federal district court. If the court finds by clear and convincing evidence that his rights were violated, it may order a new arbitrator appointed. Thus, if a consumer or employee has an arbitrator that is unfair and this causes him to lose the case, the consumer or employee can obtain another arbitrator.

Mr. President, this bill is the first step to creating a constructive dialog on arbitration reform. This bill of rights will ensure that those who can least afford to go to court can go to a less expensive arbitrator and be treated fairly. It will ensure that every arbitration carried out under the Federal Arbitration Act is completed fairly, promptly, and economically. I look forward to working with my colleagues in the Senate to ensure that consumers and employees who agree in a contract to arbitrate their claims will be afforded due process of law.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

## S. 3210

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

## SECTION 1. SHORT TITLE.

This Act may be cited as the "Consumer and Employee Arbitration Bill of Rights".

SEC. 2. ELECTION OF ARBITRATION.

(a) CONSUMER AND EMPLOYMENT CONTRACTS.—Chapter 1 of title 9, United States Code, is amended by adding at the end the following:

## "§ 17. Consumer and employment contracts

"(a) DEFINITIONS.—In this section—

"(1) the term 'consumer contract' means any written, standardized form contract between the parties to a consumer transaction;

- "(2) the term 'consumer transaction' means the sale or rental of goods, services, or real property, including an extension of credit or the provision of any other financial product or service, to an individual in a transaction entered into primarily for personal, family, or household purposes; and
- "(3) the term 'employment contract'—
- "(A) means a uniform, employer promulgated plan that covers all employees in a company, facility, or work grade, and that may cover legally protected rights or statutory rights; and
- "(B) does not include any individually negotiated executive employment agreements.
- "(b) FAIR DISCLOSURE.—In order to be binding on the parties to a consumer contract or an employment contract, an arbitration clause in such contract shall—
- "(1) have a printed heading in bold, capital letters entitled 'ARBITRATION CLAUSE', which heading shall be printed in letters not smaller than ½ inch in height;
- "(2) explicitly state whether participation within the arbitration program is mandatory or optional;
- "(3) identify a source that a consumer can contact for additional information on costs and fees and on all forms and procedures necessary for effective participation in the arbitration program; and
- "(4) provide notice that all parties retain the right to resolve a dispute in a small claims court, if such dispute falls within the jurisdiction of that court and the claim is for less than \$50,000 in total damages.
- "(c) PROCEDURAL RIGHTS.—If a consumer contract or employment contract provides for the use of arbitration to resolve a dispute arising out of or relating to the contract, each party to the contract shall be afforded the following rights, in addition to any rights provided by the contract:
- "(1) COMPETENCE AND NEUTRALITY OF ARBITRATOR AND ADMINISTRATIVE PROCESS.—
- "(A) IN GENERAL.—Each party to the dispute (referred to in this section as a 'party') shall be entitled to a competent, neutral arbitrator and an independent, neutral administration of the dispute.
- "(B) Arbitrator.—Each party shall have an equal voice in the selection of the arbitrator, who—
- "(i) shall comply with the Code of Ethics for Arbitrators in Commercial Disputes of the American Arbitration Association and the State bar association of which the arbitrator is a member;
- "(ii) shall have no personal or financial interest in the results of the proceedings in which the arbitrator is appointed and shall have no relation to the underlying dispute or to the parties or their counsel that may create an appearance of bias; and
- "(iii) prior to accepting appointment, shall disclose all information that might be relevant to neutrality, including service as an arbitrator or mediator in any past or pending case involving any of the parties or their representatives, or that may prevent a prompt hearing.
- "(C) ADMINISTRATION.—The arbitration shall be administered by an independent, neutral alternative dispute resolution organization to ensure fairness and neutrality and prevent ex parte communication between parties and the arbitrator.
- "(2) APPLICABLE LAW.—In resolving a dispute, the arbitrator—
- "(A) shall be governed by the same substantive law that would apply under conflict of laws principles applicable in a court of the forum in which the consumer or employee resided at the time the contract was entered into; and

"(B) shall be empowered to grant whatever relief would be available in court under law or equity.

"(3) REPRESENTATION.—Each party shall have the right to be represented by an attorney, or other representative as permitted by State law, at the expense of that party.

"(4) HEARING .-

"(A) IN GENERAL.—Each party shall be entitled to a fair arbitration hearing (referred to in this section as a 'hearing') with adequate notice and an opportunity to be heard.

"(B) ELECTRONIC OR TELEPHONIC MEANS.— Subject to subparagraph (C), in order to reduce cost, the arbitrator may hold a hearing by electronic or telephonic means or by a submission of documents.

"(C) FACE-TO-FACE MEETING.—Each party shall have the right to require a face-to-face hearing, which hearing shall be held at a location that is reasonably convenient for the party who is the consumer or employee, unless in the interest of fairness the arbitrator determines otherwise, in which case the arbitrator shall use the process described in section 1391 of title 28 to determine the venue for the hearing.

"(5) EVIDENCE.—With respect to any hear-

ing—
"(A) each party shall have the right to purpose, each party shall grant access to all information reasonably relevant to the dispute to the other parties, subject to any applicable privilege or other limitation on discovery under applicable State law:

"(B) consistent with the expedited nature of arbitration, relevant and necessary prehearing depositions shall be available to each party at the direction of the arbitrator;

"(C) the arbitrator shall—

"(i) make reasonable efforts to maintain the privacy of the hearing to the extent permitted by applicable State law; and

"(ii) consider appropriate claims of privilege and confidentiality in addressing evidentiary issues.

"(6) CROSS EXAMINATION.—Each party shall have the right to cross examine witnesses presented by the other parties at a hearing.

"(7) RECORD OF PROCEEDING.—Any party seeking a stenographic record of a hearing shall make arrangements directly with a stenographer and shall notify the other parties of these arrangements not less than 3 days in advance of the hearing. The requesting party or parties shall pay the costs of obtaining the record. If the transcript is agreed by the parties, or determined by the arbitrator to be the official record of the proceeding, it shall be provided to the arbitrator and made available to the other parties for inspection. at a date, time, and place determined by the arbitrator.

"(8) Timely resolution—Upon submission of a complaint by the claimant, the respondent shall have 30 days to file an answer. Thereafter, the arbitrator shall direct each party to file documents and to provide evidence in a timely manner so that the hearing may be held not later than 90 days after the filing of the answer. In extraordinary circumstances, the arbitrator may grant a limited extension of these time limits to a party, or the parties may agree to an extension. The arbitrator shall file a decision with each party not later than 30 days after the hearing.

"(9) WRITTEN DECISION.—The arbitrator shall provide each party with a written explanation of the factual and legal basis for the decision. This written decision shall describe the application of an identified contract term, statute, or legal precedent. The strued to be the basis for any claim in law or decision of the arbitrator shall be final and binding, subject only to the review provisions in subsection (d).

"(10) EXPENSES.—The arbitrator or independent arbitration administration organization, as applicable, shall have the authority

"(A) provide for reimbursement of arbitration fees to the claimant, in whole or in part, as part of the remedy in accordance with applicable law or in the interests of justice;

"(B) waive, defer, or reduce any fee or charge due from the claimant in the event of extreme hardship.

"(11) SMALL CLAIMS OPT OUT.—Each party shall have the right to opt out of binding arbitration and into the small claims court for the forum, if such court has jurisdiction over the claim. For purposes of this paragraph, no court with jurisdiction to hear claims in excess of \$50,000 shall be considered to be a small claims court.

"(d) DENIAL OF RIGHTS.—

"(1) DENIAL OF RIGHTS BY PARTY MIS-CONDUCT.

"(A) IN GENERAL.—At any time during an arbitration involving a consumer contract or employment contract, any party may file a motion with the arbitrator asserting that the other party has deprived the movant of 1 or more rights granted by this section and seeking relief.

"(B) AWARD BY ARBITRATOR.—If the arbitrator determines that the movant has been deprived of a right granted by this section by the other party, the arbitrator shall award the movant a monetary amount, which shall not exceed the reasonable expenses incurred by the movant in filing the motion, including attorneys' fees, unless the arbitrator finds that-

"(i) the motion was filed without the movant's first making a good faith effort to obtain discovery or the realization of another right granted by this section;

"(ii) the opposing party's nondisclosure, failure to respond, response, or objection was substantially justified; or

"(iii) the circumstances otherwise make an award of expenses unjust.

"(2) DENIAL OF RIGHTS BY ARBITRATOR.—A losing party in an arbitration may file a petition in the district court of the United States in the forum in which the consumer or employee resided at the time the contract was entered into to assert that the arbitrator violated 1 or more of the rights granted to the party by this section and to seek relief. In order to grant the petition, the court must find clear and convincing evidence that 1 or more actions or omissions of the arbitrator resulted in a deprivation of a right of the petitioner under this section that was not harmless. If such a finding is made, the court shall order a rehearing before a new arbitrator selected in the same manner as the original arbitrator as the exclusive judicial remedy provided by this section.

(b) TECHNICAL AND CONFORMING AMEND-MENT.—The table of sections for chapter 1 of title 9, United States Code, is amended by adding at the end the following:

"17. Consumer and employment contracts.". (c) EFFECTIVE DATE.—The amendments made by this section shall apply to any consumer contract or employment contract entered into after the date that is 6 months after the date of enactment of this Act.

## SEC. 3. LIMITATION ON CLAIMS.

Except as otherwise expressly provided in this Act, nothing in this Act may be conequity.

## Mr. HARKIN:

S. 3211. A bill to authorize the Secretary of Education to provide grants to develop technologies to eliminate functional barriers to full independence for individuals with disabilities, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

THE TECHNOLOGY FOR ALL AMERICANS ACT

• Mr. HARKIN. Mr. President, I rise to introduce the Technology for All Americans Act. This Act will maximize our country's potential by helping to close the Digital Divide for people with disabilities. In doing so, it will increase their independence and self-sufficiency and further strengthen our economy and society by enabling the greatest possible number of us to contribute our abilities.

As we celebrate the Americans with Disabilities Act's 10th Anniversary, we are entering a new millennium; one that will be defined by technology. But technology can be a double-edged sword for people with disabilities, who continue to fight for the freedom to live independently.

If the Internet and other technologies are accessible, they will offer people with disabilities unprecedented opportunities for independence and self-sufficiency. But if they are not accessible, they simply will create new barriers to full participation of people with disabilities in our society and our economy.

Although new technologies have improved the lives of many Americans with disabilities, there remains a significant "Digital Divide" between Americans with and without disabilities. Although people with disabilities are nearly twice as likely as people without disabilities to say that the Internet has improved their lives significantly, they are barely one-quarter as likely to use the Internet and less than half as likely to have access to a computer at home.

The Technology for All Americans Act will begin to bridge this gap. The Act provides incentives for public and private researchers to use universal design and accessibility principles in new technologies, and to develop technologies to eliminate functional barriers to full independence for people with disabilities. It will increase public access to technology by providing grants to States to make public libraries, including those in elementary and secondary schools, technology accessible. It will increase the development and use of accessible technology by providing grants to colleges and universities to establish model curricula incorporating the design and use of accessible technology into academic and professional programs. And it will help children with disabilities maximize

their potential in school and after graduation by ensuring their access to technology. In a nutshell, this Act will help ensure that people with disabilities have an equal opportunity to participate in society.

But, this act is not just for people with disabilities. It is, as it's name says, for all Americans. When people with disabilities succeed in school, join the workforce, and participate in day-to-day life, we all benefit from their abilities.

History also demonstrates that research on accessible technology benefits everyone. How many people know that the typewriter was invented for an Italian countess who was blind? In 1990, the Television Decoder Circuitry Act, which I introduced, required closed captioning for most television sets so that people who are deaf could watch TV. But today millions of people who are not deaf use closed captioning at home, at work, at gyms, and at sports bars, to name a few. And, millions of people use voice-activated technology at work or in car phones and cell phones. That technology also was intended primarily for people with disabilities.

This trend will accelerate as the Technology Revolution moves forward. The technologies that make things accessible for people with disabilities have applications for all of us.

More and more each day, every American's ability to participate in society is determined by how well they are able to use technology. This Act will help us take the greatest advantage of technology for the benefit of the greatest number of Americans. This must be one of our priorities as we move into the new millennium.

So I ask my colleagues, people with disabilities, educators, technology experts, and others who are interested to share their ideas with me about this bill and about the issue of making technology accessible to every American, so that next Congress we can ensure that every American has access to the tools that will shape our future.

## ADDITIONAL COSPONSORS

S 61

At the request of Mr. DEWINE, the name of the Senator from Minnesota (Mr. Wellstone) was added as a cosponsor of S. 61, a bill to amend the Tariff Act of 1930 to eliminate disincentives to fair trade conditions.

S. 1536

At the request of Mr. DEWINE, the names of the Senator from Missouri (Mr. BOND) and the Senator from Idaho (Mr. CRAPO) were added as cosponsors of S. 1536, a bill to amend the Older Americans Act of 1965 to extend authorizations of appropriations for programs under the Act, to modernize programs and services for older individuals, and for other purposes.

S. 2293

At the request of Mr. Santorum, the name of the Senator from Missouri (Mr. Ashcroft) was added as a cosponsor of S. 2293, a bill to amend the Federal Deposit Insurance Act and the Federal Home Loan Bank Act to provide for the payment of Financing Corporation interest obligations from balances in the deposit insurance funds in excess of an established ratio and, after such obligations are satisfied, to provide for rebates to insured depository institutions of such excess reserves.

S. 2412

At the request of Mr. Hollings, his name was added as a cosponsor of S. 2412, a bill to amend title 49, United States Code, to authorize appropriations for the National Transportation Safety Board for fiscal years 2000, 2001, 2002, and 2003, and for other purposes.

S. 2440

At the request of Mr. Hollings, his name was added as a cosponsor of S. 2440, a bill to amend title 49, United States Code, to improve airport security.

S. 2675

At the request of Ms. SNOWE, the names of the Senator from Texas (Mrs. HUTCHISON) and the Senator from Iowa (Mr. HARKIN) were added as cosponsors of S. 2675, a bill to establish an Office on Women's Health within the Department of Health and Human Services.

S. 2698

At the request of Mr. MOYNIHAN, the names of the Senator from Utah (Mr. Bennett), the Senator from Utah (Mr. Hatch), the Senator from New Jersey (Mr. Lautenberg), and the Senator from Vermont (Mr. Leahy) were added as cosponsors of S. 2698, a bill to amend the Internal Revenue Code of 1986 to provide an incentive to ensure that all Americans gain timely and equitable access to the Internet over current and future generations of broadband capability.

S. 2725

At the request of Mr. SMITH of New Hampshire, the name of the Senator from Louisiana (Mr. BREAUX) was added as a cosponsor of S. 2725, a bill to provide for a system of sanctuaries for chimpanzees that have been designated as being no longer needed in research conducted or supported by the Public Health Service, and for other purposes.

S. 3016

At the request of Mr. Roth, the name of the Senator from Idaho (Mr. Crapo) was added as a cosponsor of S. 3016, to amend the Social Security Act to establish an outpatient prescription drug assistance program for low-income medicare beneficiaries and medicare beneficiaries with high drug costs.

S. 3020

At the request of Mr. GRAMS, the name of the Senator from Kansas (Mr. BROWNBACK) was added as a cosponsor of S. 3020, a bill to require the Federal

Communications Commission to revise its regulations authorizing the operation of new, low-power FM radio stations

S. 3060

At the request of Mr. Wellstone, the name of the Senator from Rhode Island (Mr. Reed) was added as a cosponsor of S. 3060, a bill to amend the Hmong Veterans' Naturalization Act of 2000 to extend the applicability of that Act to certain former spouses of deceased Hmong veterans.

S. 3152

At the request of Mr. ROTH, the names of the Senator from Louisiana (Ms. Landrieu), the Senator from New Jersey (Mr. Lautenberg), and the Senator from Arkansas (Mr. Hutchinson) were added as cosponsors of S. 3152, a bill to amend the Internal Revenue Code of 1986 to provide tax incentives for distressed areas, and for other purposes.

S. 3183

At the request of Ms. Landrieu, the names of the Senator from Missouri (Mr. Ashcroft), the Senator from Iowa (Mr. Harkin), the Senator from Florida (Mr. Graham), the Senator from Virginia (Mr. Robb), the Senator from Arkansas (Mrs. Lincoln), and the Senator from Massachusetts (Mr. Kerry) were added as cosponsors of S. 3183, a bill to require the Secretary of the Treasury to mint coins in commemoration of the contributions of Dr. Martin Luther King, Jr., to the United States.

S. 3187

At the request of Mr. ROTH, the names of the Senator from Idaho (Mr. CRAIG) and the Senator from Texas (Mr. GRAMM) were added as cosponsors of S. 3187, a bill to require the Secretary of Health and Human Services to apply aggregate upper payment limits to non-State publicly owned or operated facilities under the medicaid program.

S. 3189

At the request of Ms. SNOWE, the name of the Senator from West Virginia (Mr. Rockefeller) was added as a cosponsor of S. 3189, a bill to provide more child support money to families leaving welfare, to simplify the rules governing the assignment and distribution of child support collected by States on behalf of children, to improve the collection of child support, to promote marriage, and for other purposes.

S. RES. 373

At the request of Mr. Lugar, the name of the Senator from Massachusetts (Mr. Kerry) was added as a cosponsor of S. Res. 373, a resolution recognizing the 225th birthday of the United States Navy.

At the request of Mr. LOTT, his name was added as a cosponsor of S. Res. 373, supra

SENATE RESOLUTION 377—AU-THORIZING THE TAKING OF PHO-TOGRAPHS IN THE CHAMBER OF THE UNITED STATES SENATE

Mr. McCONNELL submitted the following resolution; which was considered and agreed to:

#### S. RES. 377

Resolved, That (a) paragraph 1 of rule IV of the Rules for the Regulation of the Senate Wing of the United States Capitol (prohibiting the taking of pictures in the Senate Chamber) is temporarily suspended for the purpose of permitting photographs as provided in subsection (b).

- (b) The photographs shall be-
- (1) taken during the period that the Senate of the 106th Congress stands in recess or adjournment and prior to the convening of the 107th Congress:
- (2) taken for the purpose of allowing the Senate Commission on Art to carry out its responsibilities to preserve works of art and historical objects within the Senate Chamber and to document those works and objects; and
- (3) subject to the approval of the Committee on Rules and Administration.

SEC. 2. The Sergeant at Arms of the Senate shall make the necessary arrangements to carry out this resolution.

#### AMENDMENTS SUBMITTED

### NATIONAL MARINE SANCTUARIES AMENDMENTS ACT OF 2000

### SNOWE (AND KERRY) AMENDMENT NO. 4322

Mr. COCHRAN (for Ms. SNOWE (for herself and Mr. KERRY)) proposed an amendment to the bill (S. 1482) to amend the National Marine Sanctuaries Act, and for other purposes; as follows:

Strike out all after the enacting clause and insert the following:

## SECTION 1. SHORT TITLE.

This Act may be cited as the "National Marine Sanctuaries Amendments Act of 2000".

## SEC. 2. AMENDMENT OF NATIONAL MARINE SANCTUARIES ACT.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment or repeal to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.).

# SEC. 3. CHANGES IN FINDINGS, PURPOSES, AND POLICIES; ESTABLISHMENT OF SYSTEM.

(a) CLERICAL AMENDMENT.—The heading for section 301 (16 U.S.C. 1431) is amended to read as follows:

## "SEC. 301. FINDINGS, PURPOSES, AND POLICIES; ESTABLISHMENT OF SYSTEM.".

- (b) Findings.—Section 301(a) (16 U.S.C. 1431(a)) is amended—
- (1) in paragraph (2) by striking "research, educational, or esthetic" and inserting "scientific, educational, cultural, archeological, or esthetic";
- (2) in paragraph (3) by adding "and" after the semicolon; and

- (3) by striking paragraphs (4), (5), and (6) and inserting the following:
- "(4) a Federal program which establishes areas of the marine environment which have special conservation, recreational, ecological, historical, cultural, archeological, scientific, educational, or esthetic qualities as national marine sanctuary managed as the National Marine Sanctuary System will—
- "(A) improve the conservation, understanding, management, and wise and sustainable use of marine resources;
- "(B) enhance public awareness, understanding, and appreciation of the marine environment: and
- "(C) maintain for future generations the habitat, and ecological services, of the natural assemblage of living resources that inhabit these areas.".
- (c) Purpose and Policies.—Section 301(b) (16 U.S.C. 1431(b)) is amended—
- (1) by striking "significance;" in paragraph (1) and inserting "significance and to manage these areas as the National Marine Sanctuary System;";
- (2) by striking paragraphs (3), (4), and (9);
- (3) by redesignating paragraphs (5) through (8) as paragraphs (6) through (9), respectively;
- (4) by inserting after paragraph (2) the following:
- "(3) to maintain the natural biological communities in the national marine sanctuaries, and to protect, and, where appropriate, restore and enhance natural habitats, populations, and ecological processes;
- "(4) to enhance public awareness, understanding, appreciation, and wise and sustainable use of the marine environment, and the natural, historical, cultural, and archeological resources of the National Marine Sanctuary System;
- "(5) to support, promote, and coordinate scientific research on, and long-term monitoring of, the resources of these marine areas;";
- (5) in paragraph (8), as redesignated, by striking "areas;" and inserting "areas, including the application of innovative management techniques; and"; and
- (6) in paragraph (9), as redesignated, by striking "; and" and inserting a period.
- (d) ESTABLISHMENT OF SYSTEM.—Section 301 is amended by adding at the end the following:
- "(c) ESTABLISHMENT OF SYSTEM.—There is established the National Marine Sanctuary System, which shall consist of national marine sanctuaries designated by the Secretary in accordance with this title."

## SEC. 4. CHANGES IN DEFINITIONS.

- (a) Damages.—Paragraph (6) of section 302 (16 U.S.C. 1432) is amended—
- (1) by striking "and" after the semicolon at the end of subparagraph (B); and
- (2) by adding after subparagraph (C) the following:
- "(D) the cost of curation and conservation of archeological, historical, and cultural sanctuary resources; and
- "(E) the cost of enforcement actions undertaken by the Secretary in response to the destruction or loss of, or injury to, a sanctuary resource:".
- (b) RESPONSE COSTS.—Paragraph (7) of such section is amended by inserting ", including costs related to seizure, forfeiture, storage, or disposal arising from liability under section 312" after "injury" the second place it appears.
- (c) SANCTUARY RESOURCE.—Paragraph (8) of such section is amended by striking "research, educational," and inserting "educational, cultural, archeological, scientific,".

- (d) SYSTEM.—Such section is further amended—
- (1) by striking "and" after the semicolon at the end of paragraph (8);
- (2) by striking the period at the end of paragraph (9) and inserting "; and"; and
- (3) by adding at the end the following: "(10) 'System' means the National Marine Sanctuary System established by section 301."

## SEC. 5. CHANGES RELATING TO SANCTUARY DESIGNATION STANDARDS.

- (a) STANDARDS.—Section 303(a)(1) (16 U.S.C. 1433(a)(1)) is amended to read as follows:
  - '(1) determines that-
- "(A) the designation will fulfill the purposes and policies of this title;
- "(B) the area is of special national significance due to—
- "(i) its conservation, recreational, ecological, historical, scientific, cultural, archeological, educational, or esthetic qualities;
- "(ii) the communities of living marine resources it harbors; or
- "(iii) its resources or human-use values;
- "(C) existing State and Federal authorities are inadequate or should be supplemented to ensure coordinated and comprehensive conservation and management of the area, including resource protection, scientific research, and public education;
- "(D) designation of the area as a national marine sanctuary will facilitate the objectives in subparagraph (C); and
- "(E) the area is of a size and nature that will permit comprehensive and coordinated conservation and management; and".
- (b) Factors; Repeal of Report Requirement.—Section 303(b) (16 U.S.C. 1433(b)) is amended—
- (1) in paragraph (1) by striking "and" at the end of subparagraph (H), by striking the period at the end of subparagraph (I) and inserting a semicolon, and by adding at the end the following:
- "(J) the areas's scientific value and value for monitoring the resources and natural processes that occur there;
- "(K) the feasibility, where appropriate, of employing innovative management approaches to protect sanctuary resources or to manage compatible uses; and
- "(L) the value of the area as an addition to the System."; and
  - (2) by striking paragraph (3).

# SEC. 6. CHANGES IN PROCEDURES FOR SANCTUARY DESIGNATION AND IMPLEMENTATION.

- (a) Submission of Notice of Proposed Designation to Congress.—Section 304(a)(1)(C) (16 U.S.C. 1434(a)(1)(C)) is amended to read as follows:
- "(C) no later than the day on which the notice required under subparagraph (A) is submitted to Office of the Federal Register, the Secretary shall submit a copy of that notice and the draft sanctuary designation documents prepared pursuant to section 304(a)(2), including an executive summary, to the Committee on Resources of the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, and the Governor of each State in which any part of the proposed sanctuary would be located."
- (b) Sanctuary Designation.—Section 304(a)(2) (16 U.S.C. 1434(a)(2)) is amended to read as follows:
- "(2) SANCTUARY DESIGNATION DOCUMENTS.— The Secretary shall prepare and make available to the public sanctuary designation documents on the proposal that include the following:
- "(A) A draft environmental impact statement pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

- $\mbox{``(B)}$  A resource assessment that documents—
- "(i) present and potential uses of the area, including commercial and recreational fishing, research and education, minerals and energy development, subsistence uses, and other commercial, governmental, or recreational uses;
- "(ii) after consultation with the Secretary of the Interior, any commercial, governmental, or recreational resource uses in the areas that are subject to the primary jurisdiction of the Department of the Interior; and
- "(iii) information prepared in consultation with the Secretary of Defense, the Secretary of Energy, and the Administrator of the Environmental Protection Agency on any past, present, or proposed future disposal or discharge of materials in the vicinity of the proposed sanctuary.

Public disclosure by the Secretary of such information shall be consistent with national security regulations.

- "(C) A draft management plan for the proposed national marine sanctuary that includes the following:
- "(i) The terms of the proposed designation.
  "(ii) Proposed mechanisms to coordinate existing regulatory and management authorities within the area.
- "(iii) The proposed goals and objectives, management responsibilities, resource studies, and appropriate strategies for managing sanctuary resources of the proposed sanctuary, including interpretation and education, innovative management strategies, research, monitoring and assessment, resource protection, restoration, enforcement, and surveillance activities.
- "(iv) An evaluation of the advantages of cooperative State and Federal management if all or part of the proposed sanctuary is within the territorial limits of any State or is superjacent to the subsoil and seabed within the seaward boundary of a State, as that boundary is established under the Submerged Lands Act (43 U.S.C. 1301 et seq.).
- "(v) An estimate of the annual cost to the Federal Government of the proposed designation, including costs of personnel, equipment and facilities, enforcement, research, and public education.
- "(vi) The proposed regulations referred to in paragraph (1)(A).
- "(D) Maps depicting the boundaries of the proposed sanctuary.
- "(E) The basis for the findings made under section 303(a) with respect to the area.
- "(F) An assessment of the considerations under section 303(b)(1).".
- (c) WITHDRAWAL OF DESIGNATION.—Section 304(b)(2) (16 U.S.C. 1434(b)(2)) is amended by inserting "or System" after "sanctuary" the second place it appears.
- (d) FEDERAL AGENCY ACTIONS AFFECTING SANCTUARY RESOURCES.—Section 304(d) (16 U.S.C. 1434(d)) is amended by adding at the end the following:
- "(4) Failure to follow alternative.—If the head of a Federal agency takes an action other than an alternative recommended by the Secretary and such action results in the destruction of, loss of, or injury to a sanctuary resource, the head of the agency shall promptly prevent and mitigate further damage and restore or replace the sanctuary resource in a manner approved by the Secretary.".
- (e) EVALUATION OF PROGRESS IN IMPLE-MENTING MANAGEMENT STRATEGIES.—Section 304(e) (16 U.S.C. 1434(e)) is amended—
- (1) by striking "management techniques," and inserting "management techniques and strategies,"; and

- (2) by adding at the end the following: "This review shall include a prioritization of management objectives.".
- (f) Limitation on Designation of New Sanctuaries.—Section 304 (16 U.S.C. 1434) is amended by adding at the end the following:
- "(f) LIMITATION ON DESIGNATION OF NEW SANCTUARIES.—
- "(1) FINDING REQUIRED.—The Secretary may not publish in the Federal Register any sanctuary designation notice or regulations proposing to designate a new sanctuary, unless the Secretary has published a finding that—
- "(A) the addition of a new sanctuary will not have a negative impact on the System;
- ``(B) sufficient resources were available in the fiscal year in which the finding is made
- "(i) effectively implement sanctuary management plans for each sanctuary in the System; and
- "(ii) complete site characterization studies and inventory known sanctuary resources, including cultural resources, for each sanctuary in the System within 10 years after the date that the finding is made if the resources available for those activities are maintained at the same level for each fiscal year in that 10 year period.
- "(2) DEADLINE.—If the Secretary does not submit the findings required by paragraph (1) before February 1, 2004, the Secretary shall submit to the Congress before October 1, 2004, a finding with respect to whether the requirements of paragraph (2) have been met by all existing sanctuaries.
- "(3) LIMITATION ON APPLICATION.—Paragraph (1) does not apply to any sanctuary designation documents for—
- "(A) a Thunder Bay National Marine Sanctuary; or
- (B) a Northwestern Hawaiian Islands National Marine Sanctuary.
- (g) Northwestern Hawaiian Islands Coral Reef Reserve.—
- (1) PRESIDENTIAL DESIGNATION.—The President, after consultation with the Governor of the State of Hawaii, may designate any Northwestern Hawaiian Islands coral reef or coral reef ecosystem as a coral reef reserve to be managed by the Secretary of Commerce
- (2) SECRETARIAL ACTION.—Upon the designation of a reserve under paragraph (1) by the President, the Secretary shall—
- (A) take action to initiate the designation of the reserve as a National Marine Sanctuary under sections 303 and 304 of the National Marine Sanctuaries Act (16 U.S.C. 1433);
- (B) establish a Northwestern Hawaiian Islands Reserve Advisory Council under section 315 of that Act (16 U.S.C. 1445a), the membership of which shall include at least 1 representative from Native Hawaiian groups; and
- (C) until the reserve is designated as a National Marine Sanctuary, manage the reserve in a manner consistent with the purposes and policies of that Act; and
- (3) PUBLIC COMMENT.—Notwithstanding any other provision of law no closure areas around the Northwestern Hawaiian Islands shall become permanent without adequate review and comment.
- (4) COORDINATION.—The Secretary shall work with other Federal agencies and the Director of the National Science Foundation, to develop a coordinated plan to make vessels and other resources available for conservation or research activities for the re-

- (5) REVIEW.—If the Secretary has not designated a national marine sanctuary in the Northwestern Hawaiian Islands under sections 303 and 304 of the National Marine Sanctuaries Act (16 U.S.C. 1433, 1434) before October 1, 2005, the Secretary shall conduct a review of the management of the reserve under section 304(e) of that Act (16 U.S.C. 1434(e)).
- (6) REPORT.—No later than 6 months after the date of enactment of this Act, the Secretary shall submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Resources, describing actions taken to implement this subsection, including costs of monitoring, enforcing, and addressing marine debris, and the extent to which the fiscal or other resources necessary to carry out this subsection are reflected in the Budget of the United States Government submitted by the President under section 1104 of title 31, United States Code.
- (7) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Commerce to carry out the provisions of this subsection such sums, not exceeding \$4,000,000 for each of fiscal years 2001, 2002, 2003, 2004, and 2005, as are reported under paragraph (5) to be reflected in the Budget of the United States Government.

#### SEC. 7. CHANGES IN ACTIVITIES PROHIBITED.

- Section 306 (16 U.S.C. 1436) is amended—
  (1) in the matter preceding paragraph (1) by inserting "for any person" after "unlawful":
- (2) in paragraph (2) by inserting "offer for sale, purchase, import, export," after "sell,"; and
- (3) by amending paragraph (3) to read as follows:
- "(3) interfere with the enforcement of this title by—
- "(A) refusing to permit any officer authorized to enforce this title to board a vessel, other than a vessel operated by the Department of Defense or United States Coast Guard, subject to such person's control for the purposes of conducting any search or inspection in connection with the enforcement of this title:
- "(B) resisting, opposing, impeding, intimidating, harassing, bribing, interfering with, or forcibly assaulting any person authorized by the Secretary to implement this title or any such authorized officer in the conduct of any search or inspection performed under this title: or
- "(C) knowingly and willfully submitting false information to the Secretary or any officer authorized to enforce this title in connection with any search or inspection conducted under this title; or".

## SEC. 8. CHANGES IN ENFORCEMENT PROVISIONS.

- (a) POWERS OF AUTHORIZED OFFICERS TO ARREST.—Section 307(b) (16 U.S.C. 1437(b)) is amended by striking "and" after the semicolon at the end of paragraph (4), by striking the period at the end of paragraph (5) and inserting "; and", and by adding at the end the following:
- "(6) arrest any person, if there is reasonable cause to believe that such person has committed an act prohibited by section 306(3)."
- (b) CRIMINAL OFFENSES.—Section 307 (16 U.S.C. 1437) is amended by redesignating subsections (c) through (j) in order as subsections (d) through (k), and by inserting after subsection (b) the following:
  - "(c) CRIMINAL OFFENSES.—
- "(1) OFFENSES.—A person is guilty of an offense under this subsection if the person commits any act prohibited by section 306(3).

"(2) PUNISHMENT.—Any person that is guilty of an offense under this subsection—

"(A) except as provided in subparagraph (B), shall be fined under title 18, United States Code, imprisoned for not more than 6 months, or both; or

"(B) in the case of a person who in the commission of such an offense uses a dangerous weapon, engages in conduct that causes bodily injury to any person authorized to enforce this title or any person authorized to implement the provisions of this title, or places any such person in fear of imminent bodily injury, shall be fined under title 18, United States Code, imprisoned for not more than 10 years, or both.

(c) Subpoenas of Electronic Files.—Subsection (g) of section 307 (16 U.S.C. 1437), as redesignated by this section, is amended by inserting "electronic files," after "books,".

(d) NATIONWIDE SERVICE OF PROCESS.—Section 307 (16 U.S.C. 1437) is amended by adding at the end the following:

"(1) NATIONWIDE SERVICE OF PROCESS.—In any action by the United States under this title, process may be served in any district where the defendant is found, resides, transacts business, or has appointed an agent for the service of process.

## SEC. 9. ADDITIONAL REGULATIONS AUTHORITY.

Section 308 (16 U.S.C. 1439) is amended to read as follows:

#### "SEC. 308. REGULATIONS.

"The Secretary may issue such regulations as may be necessary to carry out this title. SEC. 10. CHANGES IN RESEARCH, MONITORING,

AND EDUCATION PROVISIONS. Section 309 (16 U.S.C. 1440) is amended to

#### read as follows: "SEC. 309. RESEARCH, MONITORING, AND EDU-CATION.

"(a) IN GENERAL.—The Secretary shall conduct, support, or coordinate research, monitoring, evaluation, and education programs consistent with subsections (b) and (c) and the purposes and policies of this title.

b) RESEARCH AND MONITORING.

"(1) IN GENERAL.—The Secretary may-

"(A) support, promote, and coordinate research on, and long-term monitoring of, sanctuary resources and natural processes that occur in national marine sanctuaries. including exploration, mapping, and environmental and socioeconomic assessment:

"(B) develop and test methods to enhance degraded habitats or restore damaged, injured, or lost sanctuary resources; and

"(C) support, promote, and coordinate research on, and the conservation, curation, and public display of, the cultural, archeological, and historical resources of national marine sanctuaries.

"(2) AVAILABILITY OF RESULTS.—The results of research and monitoring conducted, supported, or permitted by the Secretary under this subsection shall be made available to the public.

"(c) EDUCATION.

"(1) IN GENERAL.—The Secretary may support, promote, and coordinate efforts to enhance public awareness, understanding, and appreciation of national marine sanctuaries and the System. Efforts supported, promoted, or coordinated under this subsection must emphasize the conservation goals and sustainable public uses of national marine sanctuaries and the System.

(2) EDUCATIONAL ACTIVITIES.—Activities under this subsection may include education of the general public, teachers, students, national marine sanctuary users, and ocean and coastal resource managers.

(d) INTERPRETIVE FACILITIES.

"(1) IN GENERAL.—The Secretary may develop interpretive facilities near any national marine sanctuary.

"(2) FACILITY REQUIREMENT.—Any facility developed under this subsection must emphasize the conservation goals and sustainable public uses of national marine sanctuaries by providing the public with information about the conservation, recreational, archaeecological, historical, cultural, ological, scientific, educational, or esthetic qualities of the national marine sanctuary. "(e) Consultation and Coordination.—In

conducting, supporting, and coordinating research, monitoring, evaluation, and education programs under subsection (a) and developing interpretive facilities under subsection (d), the Secretary may consult or coordinate with Federal, interstate, or regional agencies, States or local governments.'

#### SEC. 11. CHANGES IN SPECIAL USE PERMIT PRO-VISIONS.

Section 310 (16 U.S.C. 1441) is amended—

(b) (1) by redesignating subsections through (f) as subsections (c) through (g), and by inserting after subsection (a) the following:

"(b) Public Notice Required.—The Secretary shall provide appropriate public notice before identifying any category of activity subject to a special use permit under subsection (a).'

(2) by striking "insurance" in paragraph (4) of subsection (c), as redesignated, and in-"insurance, or post an equivalent serting bond,

(3) by striking "resource and a reasonable return to the United States Government." in paragraph (2)(C) of subsection (d), as redesig-

nated, and inserting "resource." (4) in subsection (d)(3)(B), as redesignated,

by striking "designating and"; and (5) in subsection (d), as redesignated, by in-

serting after paragraph (3) the following: "(4) WAIVER OR REDUCTION OF FEES.—The Secretary may accept in-kind contributions in lieu of a fee under paragraph (2)(C), or waive or reduce any fee assessed under this subsection for any activity that does not derive profit from the access to or use of sanctuary resources."

## SEC. 12. CHANGES IN COOPERATIVE AGREE-MENTS PROVISIONS.

AGREEMENTS AND GRANTS.—Section 311(a) (16 U.S.C. 1442(a)) is amended to read as follows:

"(a) AGREEMENTS AND GRANTS.—The Secretary may enter into cooperative agreements, contracts, or other agreements with, or make grants to, States, local governments, regional agencies, interstate agencies, or other persons to carry out the purposes and policies of this title.

(b) Use of Resources From Other Gov-ERNMENT AGENCIES.—Section 311 (16 U.S.C. 1442) is amended by adding at the end the following

"(e) USE OF RESOURCES OF OTHER GOVERN-MENT AGENCIES.—The Secretary may, whenever appropriate, enter into an agreement with a State or other Federal agency to use the personnel, services, or facilities of such agency on a reimbursable or nonreimbursable basis, to assist in carrying out the purposes and policies of this title.

"(f) AUTHORITY TO OBTAIN GRANTS.-Notwithstanding any other provision of law that prohibits a Federal agency from receiving assistance, the Secretary may apply for, accept, and use grants from other Federal agencies, States, local governments, regional agencies, interstate agencies, foundations, or other persons, to carry out the purposes and policies of this title.".

#### SEC. 13. CHANGES IN PROVISIONS CONCERNING DESTRUCTION, LOSS, OR INJURY.

(a) VENUE FOR CIVIL ACTIONS.—Section 312(c) (16 U.S.C. 1443(c)) is amended-

(1) by inserting "(1)" before the first sentence:

(2) in paragraph (1) (as so designated) in the first sentence by striking "in the United States district court for the appropriate district": and

(3) by adding at the end the following:

(2) An action under this subsection may be brought in the United States district court for any district in which-

"(A) the defendant is located, resides, or is doing business, in the case of an action against a person;

"(B) the vessel is located, in the case of an action against a vessel; or

"(C) the destruction of, loss of, or injury to

a sanctuary resource occurred." (b) Use of Recovered Amounts.—Section

312(d) (16 U.S.C. 1443(d)) is amended by striking paragraphs (1) and (2) and inserting the following:

"(1) RESPONSE COSTS.—Amounts recovered by the United States for costs of response actions and damage assessments under this section shall be used, as the Secretary considers appropriate-

"(A) to reimburse the Secretary or any other Federal or State agency that conducted those activities; and

'(B) after reimbursement of such costs, to restore, replace, or acquire the equivalent of any sanctuary resource.

'(2) OTHER AMOUNTS.—All other amounts recovered shall be used, in order of priority-

"(A) to restore, replace, or acquire the equivalent of the sanctuary resources that were the subject of the action, including for costs of monitoring and the costs of curation and conservation of archeological, historical. and cultural sanctuary resources;

'(B) to restore degraded sanctuary resources of the national marine sanctuary that was the subject of the action, giving priority to sanctuary resources and habitats that are comparable to the sanctuary resources that were the subject of the action; and

"(C) to restore degraded sanctuary resources of other national marine sanctuaries.

(c) STATUTE OF LIMITATIONS.—Section 312 (16 U.S.C. 1443) is amended by adding at the end the following:

"(e) STATUTE OF LIMITATIONS.—An action for response costs or damages under subsection (c) shall be barred unless the complaint is filed within 3 years after the date on which the Secretary completes a damage assessment and restoration plan for the sanctuary resources to which the action relates."

## SEC. 14. AUTHORIZATION OF APPROPRIATIONS.

Section 313 (16 U.S.C. 1444) is amended to read as follows:

## "SEC. 313. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to the Secretary-

"(1) to carry out this title—

"(A) \$32,000,000 for fiscal year 2001;

"(B) \$34,000,000 for fiscal year 2002;

"(C) \$36,000,000 for fiscal year 2003; "(D) \$38,000,000 for fiscal year 2004;

``(E) \$40,000,000 for fiscal year 2005; and

"(2) for construction projects at national marine sanctuaries, \$6,000,000 for each of fiscal years 2001, 2002, 2003, 2004, and 2005.

## SEC. 15. CHANGES IN U.S.S. MONITOR PROVI-SIONS.

Section 314 (16 U.S.C. 1445) is amended by striking subsection (b) and redesignating subsection (c) as subsection (b).

#### SEC. 16. CHANGES IN ADVISORY COUNCIL PROVI-SIONS

Section 315 (16 U.S.C. 1445a) is amended by striking "provide assistance" in subsection (a) and inserting "advise and make recommendations".

#### SEC. 17. CHANGES IN THE SUPPORT ENHANCE-MENT PROVISIONS.

Section 316 (16 U.S.C. 1445b) is amended—
(1) in subsection (a)(1), by inserting "or the

System" after "sanctuaries";

- (2) in subsection (a)(4) by striking "use of any symbol published under paragraph (1)" and inserting "manufacture, reproduction, or other use of any symbol published under paragraph (1), including the sale of items bearing such a symbol,";
- (3) by amending subsection (e)(3) to read as follows:
- "(3) to manufacture, reproduce, or otherwise use any symbol adopted by the Secretary under subsection (a)(1), including to sell any item bearing such a symbol, unless authorized by the Secretary under subsection (a)(4) or subsection (f); or"; and

(4) by adding at the end the following:

- "(f) COLLABORATIONS.—The Secretary may authorize the use of a symbol adopted by the Secretary under subsection (a)(1) by any person engaged in a collaborative effort with the Secretary to carry out the purposes and policies of this title and to benefit a national marine sanctuary or the System.
- "(g) AUTHORIZATION FOR NON-PROFIT PART-NER ORGANIZATION TO SOLICIT SPONSORS.—
- "(1) IN GENERAL.—The Secretary may enter into an agreement with a non-profit partner organization authorizing it to assist in the administration of the sponsorship program established under this section. Under an agreement entered into under this paragraph, the Secretary may authorize the nonprofit partner organization to solicit persons to be official sponsors of the national marine sanctuary system or of individual national marine sanctuaries, upon such terms as the Secretary deems reasonable and will contribute to the successful administration of the sanctuary system. The Secretary may also authorize the non-profit partner organization to collect the statutory contribution from the sponsor, and, subject to paragraph (2), transfer the contribution to the Secretary.
- "(2) REIMBURSEMENT FOR ADMINISTRATIVE COSTS.—Under the agreement entered into under paragraph (1), the Secretary may authorize the non-profit partner organization to retain not more than 5 percent of the amount of monetary contributions it receives from official sponsors under the agreement to offset the administrative costs of the organization in soliciting sponsors.
- "(3) PARTNER ORGANIZATION DEFINED.—In this subsection, the term 'partner organization' means an organization that—
- "(A) draws its membership from individuals, private organizations, corporation, academic institutions, or State and local governments; and
- "(B) is established to promote the understanding of, education relating to, and the conservation of the resources of a particular sanctuary or 2 or more related sanctuaries."

## SEC. 18. ESTABLISHMENT OF DR. NANCY FOSTER SCHOLARSHIP PROGRAM.

The National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.) is amended by inserting after section 317 the following:

## "SEC. 318. DR. NANCY FOSTER SCHOLARSHIP PROGRAM.

"(a) ESTABLISHMENT.—The Secretary shall establish and administer through the National Ocean Service the Dr. Nancy Foster Scholarship Program. Under the program, the Secretary shall award graduate education scholarships in oceanography, marine biology or maritime archeology, to be known as Dr. Nancy Foster Scholarships.

- "(b) PURPOSES.—The purposes of the Dr. Nancy Foster Scholarship Program are—
- "(1) to recognize outstanding scholarship in oceanography, marine biology, or maritime archeology, particularly by women and members of minority groups; and
- "(2) to encourage independent graduate level research in oceanography, marine biology, or maritime archeology.
- "(c) AWARD.—Each Dr. Nancy Foster Scholarship—
- "(1) shall be used to support graduate studies in oceanography, marine biology, or maritime archeology at a graduate level institution of higher education; and

"(2) shall be awarded in accordance with guidelines issued by the Secretary.

- "(d) DISTRIBUTION OF FUNDS.—The amount of each Dr. Nancy Foster Scholarship shall be provided directly to a recipient selected by the Secretary upon receipt of certification that the recipient will adhere to a specific and detailed plan of study and research approved by a graduate level institution of higher education.
- "(e) FUNDING.—Of the amount available each fiscal year to carry out this title, the Secretary shall award 1 percent as Dr. Nancy Foster Scholarships.
- "(f) SCHOLARSHIP REPAYMENT REQUIRE-MENT.—The Secretary shall require an individual receiving a scholarship under this section to repay the full amount of the scholarship to the Secretary if the Secretary determines that the individual, in obtaining or using the scholarship, engaged in fradulent conduct or failed to comply with any term or condition of the scholarship.
- "(g) MARITIME ARCHEOLOGY DEFINED.—In this section the term 'maritime archeology' includes the curation, preservation, and display of maritime artifacts.".

## SEC. 19. CLERICAL AMENDMENTS.

- (a) CORRECTION OF REFERENCES TO FORMER COMMITTEE.—The following provisions are amended by striking "Merchant Marine and Fisheries" and inserting "Resources":
- (1) Section 303(b)(2)(A) (16 U.S.C 1433(b)(2)(A)).
- (2) Section 304(a)(6) (16 U.S.C. 1434(a)(6)).
- (b) CORRECTION OF REFERENCE TO RENAMED ACT.—(1) Section 302(2) is amended to read as follows:
- ''(2) 'Magnuson-Stevens Act' means the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.);''.
- (2) Section 302(9) is amended by striking "Magnuson Fishery Conservation and Management Act" and inserting "Magnuson-Stevens Act".
- (3) Section 303(b)(2)(D) is amended by striking "Magnuson Act" and inserting "Magnuson-Stevens Act".
- (4) Section 304(a)(5) is amended by striking "Magnuson Act" and inserting "Magnuson-Stevens Act".
- (5) Section 315(b)(2) (16 U.S.C. 1445a(b)(2)) is amended by striking "Magnuson Fishery Conservation and Management Act" and inserting "Magnuson-Stevens Act".
- (c) MISCELLANEOUS.—Section 312(a)(1) (16 U.S.C. 1443(a)(1)) is amended by striking "UNITED STATES" and inserting "UNITED STATES".

## APPOINTMENT

The PRESIDING OFFICER. The Chair, on behalf of the majority leader, and in consultation with the chairman of the Senate Committee on Armed Services, pursuant to Public Law 106-65, announces the appointment of the

following individuals to serve as members of the Commission of the National Military Museum: John G. Campbell, or Virginia, and Henriette V. Warfield, of Virginia.

## VETERANS' ORAL HISTORY PROJECT ACT

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of H.R. 5212 which is at the desk.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 5212) to direct the American Folklife Center at the Library of Congress to establish a program to collect video and audio recordings of personal histories and testimonials of American war veterans, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. COCHRAN. Mr. President, I ask unanimous consent the bill be considered read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 5212) was read the third time and passed.

### AUTHORIZING PHOTOGRAPHS IN THE SENATE CHAMBER

Mr. COCHRAN. Mr. President, I ask unanimous consent the Senate now proceed to the immediate consideration of S. Res. 377, submitted earlier by Senator McConnell.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows: A resolution (S. Res. 377) authorizing the taking of photographs in the Chamber of the United States Senate.

There being no objection, the Senate proceeded to consider the resolution.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 377) was agreed to, as follows:

## S. RES. 377

Resolved, That (a) paragraph 1 of rule IV of the Rules for the Regulation of the Senate Wing of the United States Capitol (prohibiting the taking of pictures in the Senate Chamber) is temporarily suspended for the purpose of permitting photographs as provided in subsection (b).

- (b) The photographs shall be—
- (1) taken during the period that the Senate of the 106th Congress stands in recess or adjournment and prior to the convening of the 107th Congress;
- (2) taken for the purpose of allowing the Senate Commission on Art to carry out its responsibilities to preserve works of art and

historical objects within the Senate Chamber and to document those works and objects; and

(3) subject to the approval of the Committee on Rules and Administration.

SEC. 2. The Sergeant at Arms of the Senate shall make the necessary arrangements to carry out this resolution.

## PROVIDING FOR CORRECTIONS IN THE ENROLLMENT OF H.R. 5164

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H. Con. Res. 428, which is at the desk.

The PRESIDING OFFICER. The clerk will report the concurrent resolution by title.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 428) providing for corrections in the enrollment of the bill (H.R. 5164) amending title 49, United States Code, to require reports concerning defects in motor vehicles or tires or other motor vehicle equipment in foreign countries, and for other purposes.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (H. Con. Res. 428) was agreed to.

## BEAR PROTECTION ACT OF 1999

Mr. COCHRAN. Mr. President, I ask unanimous consent the Senate now proceed to the consideration of Calendar No. 933, S. 1109.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1109) to conserve global bear populations by prohibiting the importation, exportation, and interstate trade of bear viscera and items, products, or substances containing, or labeled or advertised as containing, bear viscera, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. COCHRAN. Mr. President, I ask unanimous consent the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1109) was read the third time and passed, as follows:

## S. 1109

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

## SECTION 1. SHORT TITLE.

This Act may be cited as the "Bear Protection Act of 1999".

## SEC. 2. FINDINGS.

Congress finds that—

- (1) all 8 extant species of bear—Asian black bear, brown bear, polar bear, American black bear, spectacled bear, giant panda, sun bear, and sloth bear—are listed on Appendix I or II of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (27 UST 1087; TIAS 8249) (referred to in this section as "CITES");
- (2) Article XIV of CITES provides that Parties to CITES may adopt stricter domestic measures regarding the conditions for trade, taking, possession, or transport of species on Appendix I or II, and the Parties to CITES adopted a resolution (Conf. 10.8) urging Parties to take immediate action to demonstrably reduce the illegal trade in bear parts and derivatives:
- (3) the Asian bear populations have declined significantly in recent years, as a result of habitat loss and poaching due to a strong demand for bear viscera used in traditional medicines and cosmetics;
- (4) Federal and State undercover operations have revealed that American bears have been poached for their viscera;
- (5) while most American black bear populations are generally stable or increasing, commercial trade could stimulate poaching and threaten certain populations if the demand for bear viscera increases; and
- (6) prohibitions against the importation into the United States and exportation from the United States, as well as prohibitions against the interstate trade, of bear viscera and products containing, or labeled or advertised as containing, bear viscera will assist in ensuring that the United States does not contribute to the decline of any bear population as a result of the commercial trade in bear viscera.

## SEC. 3. PURPOSES.

The purpose of this Act is to ensure the long-term viability of the world's 8 bear species by—  $\,$ 

- (1) prohibiting international trade in bear viscera and products containing, or labeled or advertised as containing, bear viscera;
- (2) encouraging bilateral and multilateral efforts to eliminate such trade; and
- (3) ensuring that adequate Federal legislation exists with respect to domestic trade in bear viscera and products containing, or labeled or advertised as containing, bear viscera.

## SEC. 4. DEFINITIONS.

In this Act:

- (1) BEAR VISCERA.—The term "bear viscera" means the body fluids or internal organs, including the gallbladder and its contents but not including blood or brains, of a species of bear.
- (2) IMPORT.—The term "import" means to land on, bring into, or introduce into any place subject to the jurisdiction of the United States, whether or not the landing, bringing, or introduction constitutes an importation within the meaning of the customs laws of the United States.
- (3) PERSON.—The term "person" means—
- (A) an individual, corporation, partnership, trust, association, or other private entity;
- (B) an officer, employee, agent, department, or instrumentality of—
  - (i) the Federal Government;
- (ii) any State, municipality, or political subdivision of a State; or
- (iii) any foreign government;
- (C) a State, municipality, or political subdivision of a State; and
- (D) any other entity subject to the jurisdiction of the United States.
- (4) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

- (5) STATE.—The term "State" means a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, American Samoa, and any other territory, commonwealth, or possession of the United States.
- (6) TRANSPORT.—The term "transport" means to move, convey, carry, or ship by any means, or to deliver or receive for the purpose of movement, conveyance, carriage, or shipment.

#### SEC. 5. PROHIBITED ACTS.

(a) IN GENERAL.—Except as provided in subsection (b), a person shall not—

(1) import into, or export from, the United States bear viscera or any product, item, or substance containing, or labeled or advertised as containing, bear viscera; or

- (2) sell or barter, offer to sell or barter, purchase, possess, transport, deliver, or receive, in interstate or foreign commerce, bear viscera or any product, item, or substance containing, or labeled or advertised as containing, bear viscera.
- (b) EXCEPTION FOR WILDLIFE LAW ENFORCE-MENT PURPOSES.—A person described in subparagraph (B) or (C) of section 4(3) may import into, or export from, the United States, or transport between States, bear viscera or any product, item, or substance containing, or labeled or advertised as containing, bear viscera if the importation, exportation, or transportation—
- (1) is solely for wildlife law enforcement purposes; and
- (2) is authorized by a valid permit issued under Appendix I or II of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (27 UST 1087; TIAS 8249), in any case in which such a permit is required under the Convention.

## SEC. 6. PENALTIES AND ENFORCEMENT.

- (a) CRIMINAL PENALTIES.—A person that knowingly violates section 5 shall be fined under title 18, United States Code, imprisoned not more than 1 year, or both.
  - (b) CIVIL PENALTIES.—
- (1) AMOUNT.—A person that knowingly violates section 5 may be assessed a civil penalty by the Secretary of not more than \$25,000 for each violation.
- (2) MANNER OF ASSESSMENT AND COLLECTION.—A civil penalty under this subsection shall be assessed, and may be collected, in the manner in which a civil penalty under the Endangered Species Act of 1973 may be assessed and collected under section 11(a) of that Act (16 U.S.C. 1540(a)).
- (c) PRODUCTS, ITEMS, AND SUBSTANCES.—Any bear viscera, or any product, item, or substance sold, imported, or exported, or attempted to be sold, imported, or exported inviolation of this section (including any regulation issued under this section) shall be seized and forfeited to the United States.
- (d) REGULATIONS.—After consultation with the Secretary of the Treasury, the Secretary of Health and Human Services, and the United States Trade Representative, the Secretary shall issue such regulations as are necessary to carry out this section.

  (e) ENFORCEMENT.—The Secretary, the Sec-
- (e) ENFORCEMENT.—The Secretary, the Secretary of the Treasury, and the Secretary of the department in which the Coast Guard is operating shall enforce this section in the manner in which the Secretaries carry out enforcement activities under section 11(e) of the Endangered Species Act of 1973 (16 U.S.C. 1540(e)).
- (f) USE OF PENALTY AMOUNTS.—Amounts received as penalties, fines, or forfeiture of property under this section shall be used in accordance with section 6(d) of the Lacey Act Amendments of 1981 (16 U.S.C. 3375(d)).

## SEC. 7. DISCUSSIONS CONCERNING TRADE PRACTICES.

The Secretary and the Secretary of State shall discuss issues involving trade in bear viscera with the appropriate representatives of countries trading with the United States that are determined by the Secretary and the United States Trade Representative to be the leading importers, exporters, or consumers of bear viscera, and attempt to establish coordinated efforts with the countries to protect bears.

#### SEC. 8. REPORT.

Not later than 1 year after the date of enactment of this Act, the Secretary, in cooperation with appropriate State agencies, shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Resources of the House of Representatives a report detailing the progress of efforts to end the illegal trade in bear viscera.

## NATIONAL MARINE SANCTUARIES AMENDMENTS ACT OF 2000

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of Calendar No. 702, S. 1482.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1482) to amend the National Marine Sanctuaries Act, and for other purposes.  $\,$ 

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Commerce, Science, and Transportation, with amendments, as follows:

(Omit the parts in boldface brackets and insert the parts printed in italic:)

## S. 1482

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

## SECTION 1. SHORT TITLE.

This Act may be cited as the "National Marine Sanctuaries Amendments Act of [1999".] 2000".

## SEC. 2. AMENDMENT OF NATIONAL MARINE SANCTUARIES ACT.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment or repeal to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.).

## SEC. 3. CHANGES IN FINDINGS, PURPOSES, AND POLICIES.

- (a) AMENDMENT OF FINDINGS.—Section 301(a) (16 U.S.C. 1431(a)) is amended—
- (1) by striking "research, educational, or aesthetic" in paragraph (2) and inserting "scientific, educational, cultural, archaeological, or aesthetic";
- (2) by inserting "ecosystem" after "comprehensive" in paragraph (3);
- (3) by striking "wise use" in paragraph (5) and inserting "sustainable use"; and
- [(4) by striking "and" after the semicolon in paragraph (5);
- [(5)] (4) by striking "protection of these" in paragraph (6) and inserting "protecting the biodiversity, habitats, and qualities of such"; and
- [(6)] (5) by inserting "and the values and ecological services they provide" in paragraph (6) after "living resources".

- (b) Amendment of Purposes and Policies.—Section 301(b) (16 U.S.C. 1431(b)) is amended—
- (1) by striking "significance;" in paragraph (1) and inserting "significance and to manage these areas as the National Marine Sanctuary System:":
- (2) by striking paragraph (3) and inserting the following:
- "(3) to maintain natural biodiversity and biological communities, and to protect, and where appropriate, Irestore, Irestore and enhance natural habitats, populations, and ecological processes;";

  (3) by striking "understanding, apprecia-
- (3) by striking "understanding, appreciation, and wise use of the marine environment;" in paragraph (4) and inserting "understanding, and appreciation of the natural, historical, cultural, and archaeological resources of national marine sanctuaries;";
- (4) by redesignating paragraphs (5) through (9) as paragraphs (6) through (10), and inserting after paragraph (4) the following:
- "(5) to support, promote, and coordinate scientific research on, and long-term monitoring of, the resources of these marine areas;";
- (5) by striking "areas;" in paragraph (8), as redesignated, and inserting "areas, including the application of innovative management techniques; and";
- (6) by striking "marine resources; and" in paragraph (9), as redesignated, and inserting "marine and coastal resources."; and
- (7) by striking paragraph (10), as redesignated.

### SEC. 4. CHANGES IN DEFINITIONS.

Section 302 (16 U.S.C. 1432) is amended—

- (1) by striking "304(a)(1)(C)(v)" in paragraph (1) and inserting "304(a)(2)(A)";
- (2) by striking "'Magnuson' in paragraph (2) and inserting "'Magnuson-Stevens';
- (3) by striking "and" after the semicolon in subparagraph (B) of paragraph (6);
- (4) by striking "resources;" in subparagraph (C) of paragraph (6) and inserting "resources; and";
- (5) by inserting after paragraph (6)(C) the following:
- "(D) the cost of curation and conservation of archaeological, historical, and cultural sanctuary resources;";
- (6) by striking "injury;" in paragraph (7) and inserting "injury, including enforcement activities related to any incident;"
- (7) by striking "educational, or " in paragraph (8) and inserting "educational, cultural, archaeological,";
- (8) by striking "and" after the semicolon in paragraph (8);
- (9) by striking "Magnuson Fishery Conservation and Management Act." in paragraph (9) and inserting "Magnuson-Stevens Act;"; and
- (10) by adding at the end thereof the following:
- "(10)" 'system' means the National Marine Sanctuary System established by section 303; and
- "(11) 'person' has the meaning given that term by section 1 of title 1, United States Code, but includes a department, agency, and instrumentality of the government of the United States, a State, or a foreign Nation.".

  SEC. 5. CHANGES IN SANCTUARY DESIGNATION

## SEC. 5. CHANGES IN SANCTUARY DESIGNATION STANDARDS.

Section 303 (16 U.S.C. 1433) is amended—

(1) by striking the section caption and inserting the following:

## "SEC. 303. NATIONAL MARINE SANCTUARY SYSTEM.";

- (2) by striking subsection (a) and inserting the following:
- "(a) ESTABLISHMENT OF SYSTEM.—There is established the National Marine Sanctuary

- System, which shall consist of national marine sanctuaries designated by the Secretary in accordance with this title.";
- (3) by striking paragraph (3) of subsection (b), and redesignating paragraphs (1) and (2) as paragraphs (2) and (3);
- (4) by striking so much of subsection (b) as precedes paragraph (2), as redesignated, and inserting the following:
- "(b) SANCTUARY DESIGNATION STANDARDS.-
- "(1) IN GENERAL.—Before designating an area of the marine environment as a national marine sanctuary, the Secretary shall find that—
- ``(A) the area is of special national significance due to its—
  - "(i) biodiversity;
- "(ii) ecological importance;
- "(iii) archaeological, cultural, or historical importance; or
  - "(iv) human-use values:
- "(B) existing State and Federal authorities should be supplemented to ensure coordinated and comprehensive conservation and management of the area, including resource protection, scientific research, and public education."
- "(C) designation of the area as a national marine sanctuary will facilitate the objectives in subparagraph (B); and
- "(D) the area is of a size and nature that will permit comprehensive and coordinated conservation and management.":
- (5) by striking "subsection (a)" in paragraph (2), as redesignated, and inserting "paragraph (1)":
- (6) by redesignating subparagraphs (E) through (I) of paragraph (2), as redesignated, as paragraphs (F) through (J), and inserting after paragraph (D) the following:
- "(E) the areas's scientific value and value for monitoring as a special area of the marine environment;";
- (7) by redesignating subparagraphs (H), (I), and (J), as redesignated, as subparagraphs (I), (J), and (K) and by inserting after subparagraph (G), as redesignated, the following:
- "(H) the feasibility, where appropriate, of employing innovative management approaches to protect sanctuary resources or to manage compatible uses;";
- (8) by striking "vital habitats, and resources which generate tourism;" in subparagraph (I), as redesignated, and inserting "and vital habitats;";
- (9) by redesignating subparagraphs (J) and (K) as subparagraphs (K) and (L), and inserting after subparagraph (I) the following:
- "(J) the value of the area as an addition to the System;"; and
- (10) by striking "Merchant Marine and Fisheries" in subparagraph (A) of paragraph (3), as redesignated, and inserting "Resources":
- (11) by inserting after "Administrator" in subparagraph (B) of paragraph (3), as redesignated the following: "of the Environmental Protection Agency,"; and
- (12) by adding at the end of subsection (b) the following:
  - "(4) REQUIRED FINDINGS.—
- ["(A) NEW DESIGNATIONS.—Before beginning the designation process for any sanctuary that is not a designated sanctuary before January 1, 2000, the Secretary shall make, and submit to the Congress, a finding that each designated sanctuary has—
- $\Gamma$ "(i) an operational level of facilities, equipment, and employees;
- I"(ii) a list of priorities it considers most urgent and a strategy to address those priorities;

["(iii) a plan and schedule to complete site characterization studies to inventory existing sanctuary resources, including cultural resources; and

["(iv) a plan for enforcement of the Act within its boundaries, including partnerships with adjacent States or other authorities.

["(B) EXCEPTION.—Subparagraph (A) does not apply to any draft management plan, draft environmental impact statement, or proposed regulation for a Thunder Bay National Marine Sanctuary.".]

"(A) NEW DESIGNATIONS.—The Secretary shall not publish in the Federal Register any sanctuary designation notice or regulations proposing to designate a new sanctuary unless the Secretary has published in the Federal Register and submitted to Congress a finding that the addition of a new sanctuary will not have a negative impact on the National Marine Sanctuary System and each designated sanctuary has-

"(i) an operational level of facilities, equipment, and employees;

"(ii) a plan for enforcement of the Act within its boundaries, including partnerships with adjacent States or other authorities;

"(iii) sufficient resources available in the fiscal year in which the finding is made to implement the sanctuary management plan effectivelu:

"(iv) completed site characterizations studies, inventories of known sanctuary resources, and management plan review; and

"(v) a list of priorities and a strategy to address such priorities.

"(B) FAILURE TO COMPLETE CERTAIN REQUIRE-MENTS.—If the requirements of subparagraph (A)(iv) have not been completed at the time of designation of a sanctuary, then the Secretary shall submit a plan and schedule for the completion of these activities for the sanctuary based on the assumption that the amounts appropriated for the sanctuaries will be maintained at the same level for each fiscal year for the next 10 years.

"(C) EXCEPTION.—Subparagraph (A) does not apply to any draft management plan, draft environmental impact statement, or proposed regulation for the Thunder Bay National Marine Sanctuaru.

"(D) DEADLINE.—If a finding under subparagraph (A) has not been published by February 1, 2004, the Secretary shall submit to Congress by September 30, 2004, a finding stating whether the requirements in subparagraph (A) have been

"(E) SUNSET .- The requirements of this paragraph shall be in effect until September 30, 2004.

#### SEC. 6. CHANGES IN PROCEDURES FOR DESIGNA-TION AND IMPLEMENTATION.

(a) CHANGES IN NOTICE REQUIREMENTS.— Section 304(a) (16 U.S.C. 1434(a)) is amended— (1) by striking paragraph (1)(C) and insert-

- ing the following: ``(C) on the same day the notice requiredby subparagraph (A) is submitted to the Office of the Federal Register, the Secretary shall submit a copy of the notice and the draft sanctuary designation documents prepared under paragraph (2) to the Committee on Resources of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.'
- (2) by redesignating paragraphs (2) through (6) as paragraphs (3) through (7), and inserting the following after paragraph (1):
- "(2) SANCTUARY DESIGNATION DOCUMENTS.— The Secretary shall prepare sanctuary designation documents on the proposal that include the following:
- "(A) A draft environmental impact statement under paragraph (3).

- "(B) A management plan document, which the Secretary shall make available to the public, containing-
- "(i) the terms of the proposed designation;

"(ii) proposed mechanisms to coordinate existing regulatory and management authorities within the area;

"(iii) the proposed goals and objectives, management responsibilities, resource studies, and appropriate strategies for managing sanctuary resources, including innovative approaches such as marine zoning, interpretation and education, research, monitoring and assessment, resource protection, restoration, and enforcement (including surveillance activities for the area);

"(iv) an evaluation of the advantages of cooperative State and Federal management if all or part of a proposed marine sanctuary is within the territorial limits of a State, or is superjacent to the subsoil and seabed within the seaward boundary of a State (as established under the Submerged Lands Act (43 U.S.C. 1301 et seq.);

"(v) an estimate of the annual cost to the Federal government of the proposed designation, including costs of personnel, equipment and facilities, enforcement, research, and public education; and

"(vi) the regulations proposed under paragraph (1)(A).

"(C) Maps depicting the boundaries of the proposed sanctuary.

"(D) A statement of the basis for the findings made under section 303(b)(2).

"(E) An assessment of the considerations under section 303(b)(1).

"(F) A resource assessment that includes—

"(i) present and potential uses of the area, including commercial and recreational fishing, research and education, minerals and energy development, subsistence uses, and other commercial, governmental, or recreational uses;

"(ii) a discussion, prepared after consultation with the Secretary of the Interior, of commercial, governmental, or recreational resource uses in the areas that are subject to the primary jurisidiction of the Department of the Interior; and

"(iii) information prepared in consultation with the Secretary of Defense, the Secretary of Energy, and the Administrator of the Environmental Protection Agency, on any past, present, or proposed future disposal or discharge of materials in the vicinity of the proposed sanctuary.

(b) OTHER NOTICE-RELATED CHANGES.—Section 304(a) (16 U.S.C. 1434(a)) is further amended-

(1) by striking "as provided by" in subparagraph (A) of paragraph (3), as redesignated, and inserting "under"

(2) by inserting "cultural, archaeological," after "educational," in paragraph (4), (5) as redesignated:

(3) by striking "only by the same procedures by which the original designation is made." in paragraph [(4),] (5) as redesignated, and inserting "by following the appli-cable procedures of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and chapter 5 of title 5, United States Code.":

(4) by inserting "this Act and" after "objectives of" in the second sentence of paragraph (6), as redesignated; and

(5) by striking "Merchant Marine and Fisheries Resources" in paragraph (7), as redesignated, and inserting "Resources"

(c) OTHER CHANGES.—Section 304 (16 U.S.C. 1434) is amended-

(1) by striking "(a)(6)" in subsection (b)(1)and inserting "(a)(7)";

[(1)] (2) by inserting "or the national system" in subsection (b)(2) after "sanctuary" each place it appears;

[(2)] (3) by striking "management techin subsection (e) and inserting niques. "management techniques and strategies,"; and

[(3)] (4) by striking "title." in subsection (e) and inserting "title. This review shall include a prioritization of management objectives.

## SEC. 7. CHANGES IN ACTIVITIES PROHIBITED.

Section 306 (16 U.S.C. 1436) is amended— (1) by striking "sell," in paragraph (2) and inserting "offer for sale, sell, purchase, import, export,"; and

(2) by striking paragraph (3) and inserting the following:

"(3) interfere with the enforcement of this title by-

"(A) refusing to permit any authorized officer to board a vessel, other than a vessel operated by the Department of Defense or United States Coast Guard, subject to such person's control for the purpose of conducting a search or inspection in connection with the enforcement of this title:

"(B) assaulting, resisting, opposing, impeding, intimidating, or interfering with any authorized officer in the conduct of any search or inspection under this title;

"(C) submitting false information to the Secretary or any officer authorized by the Secretary in connection with any search or inspection under this title; or

'(D) assaulting, resisting, opposing, impeding, intimidating, harassing, bribing, or interfering with any person authorized by the Secretary to implement the provisions of this title: or"

## SEC. 8. CHANGES IN ENFORCEMENT PROVISIONS.

Section 307 (16 U.S.C. 1437) is amended-(1) by redesignating paragraphs (1) through (5) of subsection (b) as paragraphs (2) through (6), and inserting before paragraph (2) the following:

"(1) arrest any person, if there is reasonable cause to believe that the person has committed an act prohibited by section 306(3);";

(2)by redesignating subsections through (j) as subsections (d) through (k), and inserting after subsection (b) the following:

'(c) CRIMINAL OFFENSES.-

"(1) IN GENERAL.—Violation of section 306(3) is punishable by a fine under title 18, United States Code, imprisonment for not more than 6 months, or both.

(2) AGGREVATED VIOLATIONS.—If a person in the course of violating section 306(3)-

'(A) uses a dangerous weapon.

"(B) causes bodily injury to any person authorized to enforce this title or to implement its provisions, or

"(C) causes such a person to fear imminent bodily injury,

then the violation is punishable by a fine under title 18. United States Code, imprisonment for not more than 10 years, or both.";

by redesignating subsections through (k), as redesignated, as subsections (f) through (l), respectively, and by inserting after subsection (d), as redesignated, the following:

"(e) JUDICIAL CIVIL PENALTIES.—The Secretary may bring an action to access and collect any civil penalty for which a person is liable under paragraph (d)(1) in the United States district court for the district in which the person from whom the penalty is sought resides, in which such person's principal place of business is located, or where the incident giving rise to civil penalties under this section occurred.";

- (4) by inserting "electronic files," after "books," in subsection (h), as redesignated; and
- (5) by redesignating subsections (i) through (1), as designated, as subsections (j) through (m), and by inserting after subsection (h), as redesignated, the following:
- "(i) NATIONWIDE SERVICE OF PROCESS.—In any action by the United States under this chapter, process may be served in any district where the defendant is found, resides. transacts business, or has appointed an agent for the service of process."

## SEC. 9. ADDITIONAL REGULATIONS AUTHORITY

Section 308 (16 U.S.C. 1439) is amended to read as follows:

#### "SEC. 308. REGULATIONS AND SEVERABILITY.

- "(a) REGULATIONS.—The Secretary may issue such regulations as may be necessary to carry out this title.
- (b) SEVERABILITY.—If any provision of this title, or the application thereof to any person or circumstance, is held invalid, the validity of the remainder of this title and of the application of that provision to other persons and circumstances shall not be affected.'

#### SEC. 10. CHANGES IN RESEARCH, MONITORING, AND EDUCATION PROVISIONS.

Section 309 (16 U.S.C. 1440) is amended to read as follows:

#### "SEC. 309. RESEARCH, MONITORING, AND EDU-CATION PROGRAMS AND INTERPRE-TIVE FACILITIES.

- "(a) IN GENERAL.—The Secretary shall conduct, support, or coordinate research, monitoring, evaluation, and education programs necessary and reasonable to carry out the purposes and policies of this title.
- (b) Research and Monitoring.—The Secretary may support, promote, and coordinate appropriate research on, and long-term monitoring of, the resources and human uses of marine sanctuaries, as is consistent with the purposes and policies of this title. In carrying out this subsection the Secretary may consult with Federal agencies, States, local governments, regional agencies, interstate agencies, or other persons, and coordinate with the National Estuarine Research Reserve System.
- "(c) EDUCATION AND INTERPRETIVE FACILI-TIES.—The Secretary may establish facilities or displays-
- "(1) to promote national marine sanctuaries and the purposes and policies of this title: and
- "(2) either solely or in partnership with other persons, under an agreement under section 311.".

### SEC. 11. CHANGES IN SPECIAL USE PERMIT PRO-VISIONS.

Section 310 (16 U.S.C. 1441) is amended—

- redesignating subsections (b) (1) by through [(e)] (f) as subsections (c) through [(f)](g), and by inserting after subsection (a) the following:
- "(b) PUBLIC NOTICE REQUIRED.—The Secretary shall provide appropriate public notice before identifying any activity subject to a special use permit under subsection (a).'':
- (2) by striking "insurance" in paragraph (4) of subsection (c), as redesignated, and inserting "insurance, or post an equivalent bond,":
- (3) by striking "resource and a reasonable return to the United States Government." in paragraph (2)(C) of subsection (d), as redesignated, and inserting "resource.";
- (4) by redesignating paragraph (3) of subsection (d), as redesignated, as paragraph (4), and by inserting after paragraph (2) thereof the following:

- "(3) WAIVER OR REDUCTION OF FEES.—The Secretary may waive or reduce fees under this subsection, or accept in-kind contributions in lieu of fees under this subsection, for activities that do not derive profit from the access to and use of sanctuary resources or that the Secretary considers to be beneficial to the system."; and
- (5) by striking "designating and" in paragraph (4)(B) of subsection (d), as redesignated.

### SEC. 12. CHANGES IN COOPERATIVE AGREE-MENTS PROVISIONS.

Section 311 (16 U.S.C. 1442) is amended-

- (1) by adding at the end of subsection (a) the following: "Notwithstanding any other provision of law to the contrary, the Secretary may apply for, accept, and use grants from Federal agencies, States, local governments, regional agencies, interstate agencies, foundations, or other persons, to carry out the purposes and policies of this title."; and
- (2) by redesignating subsections (b), (c), and (d) as subsections (c), (d), and (e), and inserting after subsection (a) the following:
- "(b) USE OF STATE AND FEDERAL AGENCY RESOURCES.—The Secretary may, whenever appropriate, use by agreement the personnel, services, or facilities of departments, agencies, and instrumentalities of the government of the United States or of any State or political subdivision thereof on a reimbursable or non-reimbursable basis to assist in carrying out the purposes and policies of this title."

## SEC. 13. CHANGES IN PROVISIONS CONCERNING DESTRUCTION, LOSS, OR INJURY.

- (a) Liability.—Section 312 (16 U.S.C. 1443(a)) is amended—
- (1) by striking "used to destroy, cause the loss of, or injure" in subsection (a)(2) and inserting "that destroys, causes the loss of, or injures'
- (2) by inserting "or vessel" after "person" in subsection (a)(4);
  (3) by inserting "(as defined in section
- 302(11)) after "damages" in subsection (b)(2):
- (4) by striking "vessel who" in subsection (c) and inserting "vessel that";
  (5) by striking "person may" in subsection
- (c) and inserting "person or vessel may";
- (6) by inserting "by the Secretary" after "used" in subsection (d); and
- (7) by adding at the end of subsection (d) the following:
- "(4) STATUTE OF LIMITATIONS.—An action for response costs and damages under subsection (c) may not be brought more than 2 years after the date of completion of the relevant damage assessment and restoration plan prepared by the Secretary.

## SEC. 14. AUTHORIZATION OF APPROPRIATIONS.

Section 313 (16 U.S.C. 1444) is amended by striking paragraphs (1), (2), and (3) and inserting the following:

- '(1) \$30,000,000 for fiscal year 2000;
- "(2) \$32,000,000 for fiscal year 2001;
- "(3) \$34,000,000 for fiscal year 2002;
- "(4) \$36,000,000 for fiscal year 2003; [and]
- "(5) \$38,000,000 for fiscal year [2004.".] 2004;
- "(6) \$40,000,000 for fiscal year 2005."

### SEC. 15. CHANGES IN U.S.S. MONITOR PROVI-SIONS.

Section 314 (16 U.S.C. 1445) is amended by striking subsection (b) and redesignating subsection (c) as subsection (b).

## SEC. 16. CHANGES IN ADVISORY COUNCIL PROVI-

Section 315 (16 U.S.C. [1446)] 1445a) is amended by striking "provide assistance" in subsection (a) and inserting "advise and make recommendations".

#### SEC. 17. CHANGES IN THE SUPPORT ENHANCE-MENT PROVISIONS.

Section 316 (16 U.S.C. [1447)] 1445b) is amended-

- (1) by striking "use" in subsection (a)(4) and inserting "manufacture, reproduction, or other use":
- (2) by striking "sanctuaries;" in subsection (a)(4) and inserting "sanctuaries or by persons that enter [cooperative agreements] collaborative efforts with the Secretary under subsection (f):":
- (3) by striking "symbols" in subsection (a)(6) and inserting "symbols, including sale of items bearing the symbols,";
- (4) by redesignating subsections (c), (d), and (e) as (d), (e), and (f), respectively, and by inserting after subsection (b) the following:
- "(c) COLLABORATIONS.— The Secretary may authorize the use of the symbol described in subsection (a) by any person with which the Secretary is engaged in a collaborative effort to carry out the purposes and policies of this title.
- [(4) striking] (5) by striking "Secretary; and" in paragraph (3) of subsection (f), as redesignated, and inserting "Secretary, or without prior authorization under subsection (a)(4); or"; and
- [(5)] (6) by adding at the end thereof the following:
- ["(f)] "(g) AUTHORIZATION FOR NON-PROFIT ORGANIZATION TO SOLICIT SPONSORS.-
- "(1) IN GENERAL.—The Secretary may enter into an agreement with a non-profit organization authorizing it to assist in the administration of the sponsorship program established under this section. Under an agreement entered into under this paragraph, the Secretary may authorize the non-profit organization to solicit persons to be official sponsors of the national marine sanctuary program or of individual national marine sanctuaries, upon such terms as the Secretary deems reasonable and will contribute to the successful administration of the sanctuary system. The Secretary may also authorize the non-profit organization to collect the statutory contribution from the sponsor, and, subject to paragraph (2), transfer the contribution to the Secretary.
- "(2) REIMBURSEMENT FOR ADMINISTRATIVE COSTS.—Under the agreement entered into under paragraph (1), the Secretary may authorize the non-profit organization to retain not more than 5 percent of the amount of monetary contributions it receives from official sponsors under the agreement to offset the administrative costs of the organization in soliciting sponsors.".
- Mr. COCHRAN. I ask consent the committee amendments be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendments were agreed to.

## AMENDMENT NO. 4322

Mr. COCHRAN. Senators Snowe and KERRY have an amendment at the desk. Lask for its consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Mississippi [Mr. Coch-RAN], for Ms. SNOWE, for herself and Mr. Kerry, proposes an amendment numbered

Mr. COCHRAN. I ask unanimous consent the amendment be agreed to.

The amendment (No. 4322) was agreed to, as follows:

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

• Mr. McCAIN. Mr. President, I rise in support of S. 1482, the National Marine Sanctuaries Amendments Act of 2000. The National Marine Sanctuary System recognizes the ecological and cultural importance of our nation's marine resources. By setting aside these areas for protection above and beyond what is already encompassed in other state and federal programs, we are ensuring that the public will benefit from them well into the future.

The existing 13 sanctuaries provide more then just protection for the marine resources they encompass. They also provide recreational and educational opportunities that might not otherwise exist. For example, in the USS Monitor Sanctuary, a sunken Civil War vessel lies off the coast of North Carolina and preserves a piece of our collective history. And, in the 5,300 square miles of the Monterey Bay Sanctuary, the program protects important kelp forests and one of the deepest underwater canyons on the west coast. This emphasis on complementary uses and management is the strength of the sanctuary program.

There is much we can do to build upon the successes the sanctuaries have already achieved. By prioritizing our actions over the next few years on making the existing sanctuaries fully operational with education and research programs, a full complement of staff, active public outreach programs, and enforcement we will strengthen the system and help it to reach its full potential. At the same time, we are increasing the funding to the system to ensure that these goals can be reached. Authorization levels begin at \$32 million for fiscal year 2001 with levels increasing by \$2 million a year until fiscal year 2005. Additionally, \$6 million per year is authorized for construction projects at the sanctuaries.

This bill also includes a new initiative to help secure the future of marine resource conservation through the creation of the Dr. Nancy Foster Scholarship Program. These graduate scholarships will be funded by setting aside 1 percent of the National Marine Sanctuary Program's annual appropriated funds in memory of Dr. Nancy Foster, a 23-year NOAA employee who was serving as the Assistant Administrator for Ocean Services and Coastal Zone Management at the time of her death in June.

I would like to thank Senator SNOWE, the sponsor of the legislation, and Senators Kerry, Induye, and Hollings for their bipartisan support of and hard work on this bill. I would also like to express my gratitude and that of the Commerce Committee to the staff who worked on this bill, including Sloan Rappoport, Stephanie Bailenson, Brooke Sikora, Rick Kenin and Mar-

garet Spring. In particular I would like to thank Emily Lindow, a Sea Grant fellow, whose background and experience in coastal management issues helped produce a strong and balanced marine sanctuaries bill.

Mr. President, again I urge the Senate to pass S. 1482, the National Marine Sanctuaries Amendments Act of 2000.

Mr. HOLLINGS. Mr. President, I rise to make a few remarks on S. 1482, the National Marine Sanctuaries Amendments Act of 2000, legislation to reauthorize the National Marine Sanctuaries Act.

To begin, I want to thank Senator SNOWE, our chairman on the Oceans and Fisheries Subcommittee on the Commerce Committee, for putting this legislation on the committee agenda this Congress and working diligently for its passage. In addition, passage of this bill would not have been possible without the tireless efforts of the ranking member of the subcommittee. Mr. KERRY. I would also like to thank them for their support and inclusion of the Dr. Nancy Foster Scholarship Program in this bill. We were all deeply saddened by Dr. Foster's passing this year, at the height of her career as the head of the National Ocean Service, I know I speak for all of my colleagues when I say we are only too pleased to have this opportunity to recognize Dr. Foster's efforts to protect, understand, and make the public care about our marine environment. Dr. Foster was particularly proud of NOAA's Sanctuaries Program and I know she would have appreciated creating this opportunity to encourage more women and minorities to become involved in the study of the marine environment and conservation of our underwater treasures.

When Congress enacted the National Marine Sanctuaries Act in 1972 we recognized that while the Nation had already provided our "special areas" on land with protections, we had no mechanism to protect those areas of the marine environment with unique qualities that are of special national, and even international, significance. Congress acted on the need for certain marine areas to be protected from human threats and recognized that management of undersea areas posed different challenges than land-based preserves. requiring different expertise and approaches. In fact, at the time, the unique character of the marine environment was the predominant reason for bringing together the Stratton Commission and the subsequent creation of the National Oceanic and Atmospheric Administration (NOAA) at the Commission's recommendation. Before the creation of NOAA in 1970, the late Senator from Washington state, Warren Magnuson, noted that twentyeight different departments and agencies dealt with the field of oceanography. Senator Magnuson concluded, in part because of the lack of coordination that we "know more about the back side of the Moon that we know of three-quarters of the Earth's surface." The creation of NOAA was the way to go about changing this fact. Since then, Congress has consistently endorsed the creation of NOAA 30 years ago as the premier federal agency to manage, study, and protect the marine environment in a coordinated and comprehensive manner.

In much the same way, Congress created the sanctuaries system to "provide a coordinated and comprehensive approach to the conservation and management of special areas of the marine environment." It was the clear intent of Congress that a tool was needed to create and protect marine sanctuaries. If the Congress believed that existing laws could have done the job, we would not have created the Sanctuary program. In fact, in 1971 we recognized there was a need to create a marine sanctuaries program because "a mechanism for protecting certain important areas of the coastal zone from intrusive activities by man . . . is not met by any legislation now on the books."

Furthermore, the Senate Commerce Committee found that "the establishment of marine sanctuaries is appropriate where it is desirable to set aside areas of the seabed and the waters above for scientific study, to preserve, unique, rare, or characteristic features of the oceans, coastal, and other waters, and their total ecosystems." As I have said before, it is as clear now as it was then that NOAA is the appropriate agency to study and preserve marine ecosystems; the line offices of NOAA have expertise in all of the major areas that impact marine sanctuaries and the ecosystems on which they depend.

Today, nothing has occurred that would change the intent of Congress when they created the sanctuaries program in 1972—certain areas of the marine environment need special protection and recognition. While that protection has not been as comprehensive as many would like. I know that the program is growing in both energy and focus thanks to a concerted effort from all those who care about our coastal environment. This year marks a great turning point for the program, as a result of the improvements in this legislation, the current five-year review process, the increased financial commitment by both the Congress and the administration, and the flood of public support for ocean conservation. In fact, the exploration and publicity generated by NOAA's Sustainable Seas program, in conjunction with the National Geographic Society, will help bring a fuller understanding and focus to each of our sanctuaries.

Now, one of the hallmarks of the Sanctuaries Act is the process that Congress established to ensure significant "up-front" involvement of all constituent groups affected by the designation of a sanctuary. Although to

some this may seem unduly cumbersome, I believe that the history has shown that this inclusive, open-door process has worked and that the "behind-closed doors, top-down" approach creates nothing but havoc and leads to ineffective solutions that lack public support. However, I am heartened by the fact that President Clinton appears to agree with the process Congress created with the sanctuaries program. In Executive Order 13158 on Marine Protected Areas, signed on May 26, 2000. President Clinton states, "In carrying out the requirements of . . . of this order, [agencies] shall consult with those States that contain portions of the marine environment, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands, tribes, Regional Fishery Management Councils, and other entities, as appropriate, to promote coordination of Federal, State, territorial, and tribal actions to establish and manage MPAs.'

I would urge the administration to continue meeting the commitment to involve the public, the states, and tribes as much as possible up front, particularly with respect to efforts currently underway within the administration to identify and protect the corals and other living marine resources of the Northwestern Hawaiian Islands. Use the authorities and direction contained in the Sanctuaries Act: it is flexible, works well with our nearshore analogs, the National Estuarine Research Reserves, and other coastal reserves and parks, and has the added benefit of a well-known process that has worked to ensure lasting public support for protecting the marine environment. In this regard, I commend the cooperative efforts of NOAA, and other federal and state agencies, and all the constituent groups in putting together the Tortugas Ecological Reserve under able leadership of the Florida Kevs National Marine Sanctuary.

NOAA was established 30 years ago to research, protect, and manage our nations oceans and atmosphere. That statement may seem fairly obvious, but there are some who may have lost sight of where we've come from and where we are going. So I thought I would re-state congressional intent for the record: Congress clearly intended that NOAA be the lead agency in development of a comprehensive and coordinated ocean and coastal management system, including marine protected areas, under the National Marine Sanctuaries Act and many of the other statutes it implements such as the Coastal Zone Management Act and the Magnuson-Stevens Fishery Conservation and Management Act.

In closing, I would like again state my support for the National Marine Sanctuaries Amendments Act and to urge its adoption by the Senate. This bill takes an important step to further the wise stewardship of our marine resources and the protection of areas of significant ecological, aesthetic, historical and recreational value. It will improve our 13 existing sanctuaries, provide a rational framework for the designation of any future marine sanctuaries, and offers a sound mechanism for a coordinating a national system of marine protected areas.

• Ms. SNOWE. Mr. President, I rise in support of S. 1482, the National Marine Sanctuaries Amendments Act of 2000. This bill represents a major breakthrough for the protection of our coastal and marine resources by reauthorizing the marine sanctuary program. It is highly appropriate that we are considering this bill because just last week, on October 7, 2000, we designated our 13th national marine sanctuary in Thunder Bay. This is the first sanctuary in the system to be designated in the Great Lakes and serves as a perfect example of the type of federal and state partnerships that have contributed to the success of our other sanctuaries.

One hundred years after the first national park was created, the United States made a similar commitment to preserving its valuable marine resources by establishing the National Marine Sanctuary Program in 1972. Since then, 13 areas covering a wide range of marine habitats have been designated as national marine sanctuaries in the Atlantic, Pacific, Great Lakes and Gulf of Mexico. Today, the sanctuaries program protects over 18,000 square miles of our seas. Not only do the sanctuaries help protect unique ecosystems, but they also serve as models for multiple use management in the marine environment. Additionally, the sanctuaries can also function as platforms for better ocean stewardship, allowing opportunities for research, education, and outreach activities.

One of the most serious impediments to achieving the original goals of the program is the lack of funding. This bill authorizes funds at a level that we hope will allow full implementation of the sanctuary program. The bill authorizes \$32 million in fiscal year 2001, with levels increasing by \$2 million a year until fiscal year 2005. It also authorizes \$6 million a year in fiscal years 2001 through 2005 for construction projects at the sanctuaries.

Additionally, we have set the priority for the next few years on making the existing sanctuaries fully operational before expanding the sanctuary system. These marine sanctuaries have tremendous potential for protecting our marine resources and increasing the public's awareness of the marine environment. However, lack of funding has prevented the sanctuary program from reaching its full potential. By increasing authorization levels and focusing our attention on the existing

sanctuaries we can drastically increase the public benefits from these sanctuaries.

There are two exceptions to this limitation. The first is to allow for the completion of the Thunder Bay National Marine Sanctuary designation. The second is to allow for the development of a sanctuary in the Northwestern Hawaiian Islands. These unpopulated islands provide a refuge for marine resources without the typical coastal development pressures. They are also home to the majority of the United States' coral reefs. The people of Hawaii have strong ties to these islands and, in recent years, have been working on a variety of conservation strategies to better manage these valuable resources. One of the options being discussed is a national marine sanctuary. Members of the Subcommittee on Oceans and Fisheries want to ensure that this remains an option. The full complement of marine conservation and management programs administered by the Department of Commerce will provide for meaningful and lasting protections of these resources

This bill also creates the Dr. Nancy Foster Scholarship Program to recognize outstanding scholarship, particularly by women and minorities, in the fields of oceanography, marine biology, or maritime archeology. The scholarships will be used to support the graduate studies and research of its recipients. It is being established in honor of Dr. Nancy Foster, a 23-year NOAA employee who was serving as the Assistant Administrator for Ocean Services and Coastal Zone Management at the time of her death in June. The scholarship will be funded by setting aside 1 percent of the National Marine Sanctuary Program's annual appropriated funds. I can think of no better tribute to Dr. Foster's long commitment to marine resource conservation and management then helping the next generation of scientists and managers launch their careers.

I would like to thank Senator KERRY, the ranking member of the Oceans and Fisheries Subcommittee for his hard work and support of this bill. I would also like to thank Senator INOUYE for his support, particularly for his contributions to the Northwestern Hawaiian Islands Coral Reef Reserve provision. In addition, I would like to thank Senator McCain, the chairman of the Commerce Committee, and Senator HOLLINGS, the ranking member of the Committee, for their bipartisan support of this measure. We have before us an opportunity to significantly improve our nation's ability to conserve and manage our marine resources and I urge the Senate to pass S. 1482, as amended.

## MARINE SANCTUARY PROGRAM

• Mr. INOUYE. Mr. President, I take this opportunity to thank Senators SNOWE, KERRY and HOLLINGS for their dedicated efforts in support of this important measure and engage in a discussion of certain provisions of S. 1482, National Marine Sanctuaries Amendments Act of 2000.

Since its creation in 1972, the National Marine Sanctuary Program has successfully protected our nation's unique marine resources through a deliberative process that has allowed affected citizens to help shape the future of the protected resources. The Hawaiian Islands Humpback Whale National Marine Sanctuary is an excellent example of how divergent interests came together to develop a plan for the protection of the unique marine resources of this area.

We now have a new opportunity to enhance the protection of another unique Hawaiian resource—the coral reef ecosystem surrounding the Northwestern Hawaiian Island (NWHI). In May of this year, President Clinton expressed his desire to provide strong and lasting protection for the coral reef ecosystem of the NWHI, and directed the Secretaries of the Interior and Commerce, in cooperation with the State of Hawaii and in consultation with the Western Pacific Regional Fisherv Management (WESPAC), to develop recommendations for "a new, coordinated management regime to increase protection for the coral reef ecosystem" of the NWHI.

I agree with the President that there should be strong and lasting protection for the coral reef ecosystem of the NWHI. I also believe that it is critical to ensure meaningful public input on the nature of actions to be taken and to foster public support for these lasting protections.

Prior to the President's announcement, the Commerce Department already had a solid head start in efforts to identify and evaluate actions to protect the resources of the NWHI in developing the first ever ecosystem level fishery management plan. This Coral Reef Ecosystem Fisheries Management Plan, which identifies a series of actions such as "no-take" closures for coral and monk seal protection, was subject to extensive public comment and is now undergoing departmental internal review.

To complement this ongoing effort. the sanctuary program is well equipped to achieve the President's goals while ensuring meaningful public participation. Accordingly, S. 1482 would trigger an immediate process for designating a sanctuary in the NWHI. In the interim, to accommodate President Clinton's desire to implement protections without delay, S. 1482 would authorize the President, after consulting with the Governor of the State of Hawaii, to designate any coral reef ecosystem area in the NWHI as a coral reef reserve, and establish a Coral Reef Reserve Advisory Council to work with the Secretary of Commerce in developing a long-range and lasting plan to National Marine Sanctuaries Act, in protect the living marine resources of the NWHI. The Coral Reef Reserve area would ultimately become part of any sanctuary established in the NWHI.

The Dry Tortugas Ecological Reserve and Natural Resource area off the Florida Kevs is in many ways similar to what is being proposed for the Northwestern Hawaiians Islands. However, the Dry Tortugas process benefited from an extensive public process which ensured community concerns were heard and addressed. As a result of this process, there is now widespread support for this ecological reserve.

I am concerned about the administration's interest in immediately establishing, without any public input, areas around the NWHI within which all activities are permanently prohibited except for Native Hawaiian access and subsistence. This could mean that all other activities, including commercial and recreational access and possibly certain defense activities, would be prohibited within these areas forever. Whatever protections the administration feels are necessary should be subject to review during the course of the sanctuary designation process. Even the Administration's U.S. Coral Reef Task Force contemplated a deliberative process when it recommended the goal of achieving at least 20 percent protection by the year 2010.

Mr. HOLLINGS. I agree with my colleague from the great State of Hawaii. The National Sanctuary Program is an ideal tool for coordinated and comprehensive management of the coral reef ecosystem of the NWHI. I further agree that any closure areas imposed by the President prior to the completion of the sanctuary designation process should be subject to public comment and review before it becomes permanently carved in stone. Does the Senator envision that the Reserve area would be subject to the same 5-year program review that the Sanctuary process provides? In addition to Congressional oversight, such periodic and rigorous review will help ensure the Sanctuary and Reserve are meeting the expectations set by the people of Hawaii, the Sanctuary Advisory Council, the Secretary of Commerce, and the President

Mr. INOUYE. Yes, in addition to the evaluation process provided for in the designation, the legislation ensures that such a 5-year review would take place. While we know enough about the area to understand the need to protect it, we will know far more about it in 5 years. In conjunction with the development of a Sanctuary the National Oceanic and Atmospheric Administration is already mapping and assessing the coral ecosystem of this area, and evaluating the status of its living marine resources. It will be important to use this information to evaluate whether the management of the area under the conjunction with other marine conservation laws, is adequate.

Ms. SNOWE. I fully concur with my colleagues that robust public participation, oversight and review is necessary to ensure long-term meaningful protection of our living marine resources whether in Hawaii or in my home state of Maine. While I agree that it is appropriate to take action to protect our precious coral resources, I, to, am greatly concerned about the administration's plans to impose immediate and permanent prohibitions in marine areas without providing a meaningful opportunity for public comment on the proposal. Both the National Marine Sanctuaries Act and the Magnuson-Stevens Fishery Conservation and Management Act provide models for such a process. As my esteemed colleague from Hawaii pointed out, WESPAC has gone through an elaborate public process in developing the Coral Reef Ecosystem Fishery Management Plan which identified several potential closed areas. Does the Senator believe the development of this plan provided sufficient public review to support immediate closures under the Magnuson-Stevens Act or other marine conservation status implemented by the Secretary?

Mr. INOUYE. Yes I do, and I would support such closures, as well as taking aggressive action to address the terrible problem of marine debris in the NWHI, which is harming both the corals and our endangered monk seals. Furthermore, I believe it may be appropriate to identify further precautionary actions that our scientists tell us may be necessary to prevent future harm to these resources. However, no action should be taken on these proposals until they can be evaluated publicly by the people of Hawaii.

Mr. HOLLINGS. I believe that is a sound plan and I look forward to working with you as we ensure that the NWHI and other important marine areas are accorded strong and lasting protections developed through the consensus process. Thank you.

Mr. INOUYE. I thank Senators SNOWE and HOLLINGS.

Mr. COCHRAN. I ask unanimous consent the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1482), as amended, was engrossed for a third reading, read the third time, and passed, as follows:

S. 1482

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

## SECTION. 1. SHORT TITLE.

This Act may be cited as the "National Marine Sanctuaries Amendments Act of

#### SEC. 2. AMENDMENT OF NATIONAL MARINE SANCTUARIES ACT.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment or repeal to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.).

## SEC. 3. CHANGES IN FINDINGS, PURPOSES, AND POLICIES; ESTABLISHMENT OF SYS-

(a) CLERICAL AMENDMENT —The heading for section 301 (16 U.S.C. 1431) is amended to read as follows:

#### "SEC. 301. FINDINGS, PURPOSES, AND POLICIES; ESTABLISHMENT OF SYSTEM.

- (b) FINDINGS.—Section 301(a) (16 U.S.C. 1431(a)) is amended-
- (1) in paragraph (2) by striking "research, educational, or esthetic" and inserting "scientific, educational, cultural, archeological, or esthetic";
- (2) in paragraph (3) by adding "and" after the semicolon; and
- (3) by striking paragraphs (4), (5), and (6) and inserting the following:
- '(4) a Federal program which establishes areas of the marine environment which have special conservation, recreational, ecological, historical, cultural, archeological, scientific educational or esthetic qualities as national marine sanctuaries managed as the National Marine Sanctuary System will-
- (A) improve the conservation, understanding, management, and wise and sustainable use of marine resources;
- "(B) enhance public awareness, understanding, and appreciation of the marine environment; and
- "(C) maintain for future generations the habitat, and ecological services, of the natural assemblage of living resources that inhabit these areas."
- (c) Purposes and Policies.—Section 301(b) (16 U.S.C. 1431(b)) is amended-
- (1) by striking "significance;" in paragraph (1) and inserting "significance and to manage these areas as the National Marine Sanctuary System:":
  - (2) by striking paragraphs (3), (4), and (9);
- (3) by redesignating paragraphs (5) through (8) as paragraphs (6) through (9), respectively;
- (4) by inserting after paragraph (2) the following:
- "(3) to maintain the natural biological communities in the national marine sanctuaries, and to protect, and, where appropriate, restore and enhance natural habitats, populations, and ecological processes;
- (4) to enhance public awareness, understanding, appreciation, and wise and sustainable use of the marine environment, and the natural, historical, cultural, and archeological resources of the National Marine Sanctuary System;
- "(5) to support, promote, and coordinate scientific research on, and long-term monitoring of, the resources of these marine areas;
- (5) in paragraph (8), as redesignated, by striking "areas;" and inserting "areas, including the application of innovative management techniques; and"; and
- (6) in paragraph (9), as redesignated, by striking "; and" and inserting a period.
- (d) ESTABLISHMENT OF SYSTEM.—Section 301 is amended by adding at the end the following:
- "(c) ESTABLISHMENT OF SYSTEM.—There is established the National Marine Sanctuary System, which shall consist of national ma-

#### SEC. 4. CHANGES IN DEFINITIONS.

- (a) DAMAGES.—Paragraph (6) of section 302 (16 U.S.C. 1432) is amended-
- (1) by striking "and" after the semicolon at the end of subparagraph (B); and
- (2) by adding after subparagraph (C) the following:
- "(D) the cost of curation and conservation of archeological, historical, and cultural sanctuary resources; and
- "(E) the cost of enforcement actions undertaken by the Secretary in response to the destruction or loss of, or injury to, a sanctuary
- (b) RESPONSE COSTS.—Paragraph (7) of such section is amended by inserting ", including costs related to seizure, forfeiture, storage, or disposal arising from liability under section 312" after "injury" the second place it appears.
- (c) SANCTHARY RESOURCE —Paragraph (8) of cational. cultural. archeological. scientific,".
- (d) System.—Such section is further amended-
- (1) by striking "and" after the semicolon at the end of paragraph (8);
- (2) by striking the period at the end of paragraph (9) and inserting "; and"; and
- (3) by adding at the end the following:
- '(10) 'System' means the National Marine Sanctuary System established by section 301.".

#### SEC. 5. CHANGES RELATING TO SANCTUARY DES-IGNATION STANDARDS.

- (a) STANDARDS.—Section 303(a)(1) (16 U.S.C. 1433(a)(1)) is amended to read as follows:
  - "(1) determines that-
- "(A) the designation will fulfill the purposes and policies of this title;
- "(B) the area is of special national significance due to-
- "(i) its conservation, recreational, ecological, historical, scientific, cultural, archeological, educational, or esthetic qualities:
- "(ii) the communities of living marine resources it harbors: or
- "(iii) its resource or human-use values: "(C) existing State and Federal authorities
- are inadequate or should be supplemented to ensure coordinated and comprehensive conservation and management of the area, including resource protection, scientific research, and public education:
- "(D) designation of the area as a national marine sanctuary will facilitate the objectives in subparagraph (C); and
- "(E) the area is of a size and nature that will permit comprehensive and coordinated conservation and management; and".
- (b) FACTORS: REPEAL OF REPORT REQUIRE-MENT.—Section 303(b) (16 U.S.C. 1433(b)) is amended-
- (1) in paragraph (1) by striking "and" at the end of subparagraph (H), by striking the period at the end of subparagraph (I) and inserting a semicolon, and by adding at the end the following:
- "(J) the area's scientific value and value for monitoring the resources and natural processes that occur there;
- "(K) the feasibility, where appropriate, of employing innovative management approaches to protect sanctuary resources or to manage compatible uses; and
- "(L) the value of the area as an addition to the System."; and
  - (2) by striking paragraph (3).

## rine sanctuaries designated by the Secretary in accordance with this title.". SEC. 6. CHANGES IN PROCEDURES FOR SANCTUARY DESIGNATION AND IMPLE-MENTATION.

- (a) SUBMISSION OF NOTICE OF PROPOSED CONGRESS.—Section DESIGNATION то 304(a)(1)(C) (16 U.S.C. 1434(a)(1)(C)) is amended to read as follows:
- '(C) no later than the day on which the notice required under subparagraph (A) is submitted to Office of the Federal Register, the Secretary shall submit a copy of that notice and the draft sanctuary designation documents prepared pursuant to section 304(a)(2), including an executive summary, to the Committee on Resources of the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, and the Governor of each State in which any part of the proposed sanctuary would be located."
- SANCTUARY DESIGNATION.—Section 304(a)(2) (16 U.S.C. 1434(a)(2)) is amended to read as follows:
- "(2) SANCTUARY DESIGNATION DOCUMENTS.-The Secretary shall prepare and make available to the public sanctuary designation documents on the proposal that include the following:
- "(A) A draft environmental impact statement pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et
- "(B) A resource assessment that documents-
- "(i) present and potential uses of the area, including commercial and recreational fishing, research and education, minerals and energy development, subsistence uses, and other commercial, governmental, or recreational uses;
- "(ii) after consultation with the Secretary of the Interior, any commercial, governmental, or recreational resource uses in the areas that are subject to the primary jurisdiction of the Department of the Interior;
- "(iii) information prepared in consultation with the Secretary of Defense, the Secretary of Energy, and the Administrator of the Environmental Protection Agency, on any past, present, or proposed future disposal or discharge of materials in the vicinity of the proposed sanctuary.
- Public disclosure by the Secretary of such information shall be consistent with national security regulations.
- "(C) A draft management plan for the proposed national marine sanctuary that includes the following:
- "(i) The terms of the proposed designation. "(ii) Proposed mechanisms to coordinate existing regulatory and management authorities within the area.
- '(iii) The proposed goals and objectives, management responsibilities, resource studies, and appropriate strategies for managing sanctuary resources of the proposed sanctuary, including interpretation and education, innovative management strategies. research, monitoring and assessment, resource protection, restoration, enforcement, and surveillance activities.
- "(iv) An evaluation of the advantages of cooperative State and Federal management if all or part of the proposed sanctuary is within the territorial limits of any State or is superjacent to the subsoil and seabed within the seaward boundary of a State, as that boundary is established under the Submerged Lands Act (43 U.S.C. 1301 et seq.).
- "(v) An estimate of the annual cost to the Federal Government of the proposed designation, including costs of personnel, equipment and facilities, enforcement, research, and public education.

- ''(vi) The proposed regulations referred to in paragraph (1)(A).
- "(D) Maps depicting the boundaries of the proposed sanctuary.
- ``(E) The basis for the findings made under section 303(a) with respect to the area.
- "(F) An assessment of the considerations under section 303(b)(1).".
- (c) WITHDRAWAL OF DESIGNATION.—Section 304(b)(2) (16 U.S.C. 1434(b)(2)) is amended by inserting "or System" after "sanctuary" the second place it appears.
- (d) FEDERAL AGENCY ACTIONS AFFECTING SANCTUARY RESOURCES.—Section 304(d) (16 U.S.C.1434(d)) is amended by adding at the end the following:
- "(4) FAILURE TO FOLLOW ALTERNATIVE.—If the head of a Federal agency takes an action other than an alternative recommended by the Secretary and such action results in the destruction of, loss of, or injury to a sanctuary resource, the head of the agency shall promptly prevent and mitigate further damage and restore or replace the sanctuary resource in a manner approved by the Secretary."
- (e) EVALUATION OF PROGRESS IN IMPLE-MENTING MANAGEMENT STRATEGIES.—Section 304(e) (16 U.S.C. 1434(e)) is amended—
- (1) by striking "management techniques," and inserting "management techniques and strategies,"; and
- (2) by adding at the end the following: "This review shall include a prioritization of management objectives."
- (f) LIMITATION ON DESIGNATION OF NEW SANCTUARIES.—Section 304 (16 U.S.C. 1434) is amended by adding at the end the following:
- "(f) LIMITATION ON DESIGNATION OF NEW SANCTUARIES.—
- "(1) FINDING REQUIRED.—The Secretary may not publish in the Federal Register any sanctuary designation notice or regulations proposing to designate a new sanctuary, unless the Secretary has published a finding that—
- "(A) the addition of a new sanctuary will not have a negative impact on the System;
- "(B) sufficient resources were available in the fiscal year in which the finding is made to—
- "(i) effectively implement sanctuary management plans for each sanctuary in the System; and
- "(ii) complete site characterization studies and inventory known sanctuary resources, including cultural resources, for each sanctuary in the System within 10 years after the date that the finding is made if the resources available for those activities are maintained at the same level for each fiscal year in that 10 year period.
- "(2) DEADLINE.—If the Secretary does not submit the findings required by paragraph (1) before February 1, 2004, the Secretary shall submit to the Congress before October 1, 2004, a finding with respect to whether the requirements of paragraph (2) have been met by all existing sanctuaries.
- "(3) LIMITATION ON APPLICATION.—Paragraph (1) does not apply to any sanctuary designation documents for—
- ''(A) a Thunder Bay National Marine Sanctuary; or
- $\mbox{``(B)}$ a Northwestern Hawaiian Islands National Marine Sanctuary.''.
- (g) NORTHWESTERN HAWAIIAN ISLANDS CORAL REEF RESERVE.—
- (1) PRESIDENTIAL DESIGNATION.—The President, after consultation with the Governor of the State of Hawaii, may designate any Northwestern Hawaiian Islands coral reef or coral reef ecosystem as a coral reef reserve

- to be managed by the Secretary of Commerce.
- (2) SECRETARIAL ACTION.—Upon the designation of a reserve under paragraph (1) by the President, the Secretary shall—
- (A) take action to initiate the designation of the reserve as a National Marine Sanctuary under sections 303 and 304 of the National Marine Sanctuaries Act (16 U.S.C. 1433):
- (B) establish a Northwestern Hawaiian Islands Reserve Advisory Council under section 315 of that Act (16 U.S.C. 1445a), the membership of which shall include at least 1 representative from Native Hawaiian groups; and
- (C) until the reserve is designated as a National Marine Sanctuary, manage the reserve in a manner consistent with the purposes and policies of that Act.
- (3) PUBLIC COMMENT.—Notwithstanding any other provision of law, no closure areas around the Northwestern Hawaiian Islands shall become permanent without adequate review and comment.
- (4) COORDINATION.—The Secretary shall work with other Federal agencies and the Director of the National Science Foundation, to develop a coordinated plan to make vessels and other resources available for conservation or research activities for the reserve.
- (5) REVIEW.—If the Secretary has not designated a national marine sanctuary in the Northwestern Hawaiian Islands under sections 303 and 304 of the National Marine Sanctuaries Act (16 U.S.C. 1433, 1434) before October 1, 2005, the Secretary shall conduct a review of the management of the reserve under section 304(e) of that Act (16 U.S.C. 1434(e)).
- (6) REPORT.—No later than 6 months after the date of enactment of this Act, the Secretary shall submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Resources, describing actions taken to implement this subsection, including costs of monitoring, enforcing, and addressing marine debris, and the extent to which the fiscal or other resources necessary to carry out this subsection are reflected in the Budget of the United States Government submitted by the President under section 1104 of title 31, United States Code.
- (7) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to the Secretary of Commerce to carry out the provisions of this subsection such sums, not exceeding \$4,000,000 for each of fiscal years 2001, 2002, 2003, 2004, and 2005, as are reported under paragraph (6) to be reflected in the Budget of the United States Government.

## SEC. 7. CHANGES IN ACTIVITIES PROHIBITED.

Section 306 (16 U.S.C. 1436) is amended—

- (1) in the matter preceding paragraph (1) by inserting "for any person" after "unlawful":
- (2) in paragraph (2) by inserting "offer for sale, purchase, import, export," after "sell,"; and
- (3) by amending paragraph (3) to read as follows:
- "(3) interfere with the enforcement of this title by—
- "(A) refusing to permit any officer authorized to enforce this title to board a vessel, other than a vessel operated by the Department of Defense or United States Coast Guard, subject to such person's control for the purposes of conducting any search or inspection in connection with the enforcement of this title."

- "(B) resisting, opposing, impeding, intimidating, harassing, bribing, interfering with, or forcibly assaulting any person authorized by the Secretary to implement this title or any such authorized officer in the conduct of any search or inspection performed under this title; or
- "(C) knowingly and willfully submitting false information to the Secretary or any officer authorized to enforce this title in connection with any search or inspection conducted under this title; or".

### SEC. 8. CHANGES IN ENFORCEMENT PROVISIONS.

- (a) POWERS OF AUTHORIZED OFFICERS TO ARREST.—Section 307(b) (16 U.S.C. 1437(b)) is amended by striking "and" after the semicolon at the end of paragraph (4), by striking the period at the end of paragraph (5) and inserting "; and", and by adding at the end the following:
- "(6) arrest any person, if there is reasonable cause to believe that such person has committed an act prohibited by section 306(3)."
- (b) CRIMINAL OFFENSES.—Section 307 (16 U.S.C. 1437) is amended by redesignating subsections (c) through (j) in order as subsections (d) through (k), and by inserting after subsection (b) the following:
  - "(c) CRIMINAL OFFENSES.—
- "(1) OFFENSES.—A person is guilty of an offense under this subsection if the person commits any act prohibited by section 306(3).
- "(2) PUNISHMENT.—Any person that is guilty of an offense under this subsection—
- "(A) except as provided in subparagraph (B), shall be fined under title 18, United States Code, imprisoned for not more than 6 months, or both; or
- "(B) in the case of a person who in the commission of such an offense uses a dangerous weapon, engages in conduct that causes bodily injury to any person authorized to enforce this title or any person authorized to implement the provisions of this title, or places any such person in fear of imminent bodily injury, shall be fined under title 18, United States Code, imprisoned for not more than 10 years, or both."
- (c) Subpoenas of Electronic Files.—Subsection (g) of section 307 (16 U.S.C. 1437), as redesignated by this section, is amended by inserting "electronic files," after "books,".
- (d) NATIONWIDE SERVICE OF PROCESS.—Section 307 (16 U.S.C. 1437) is amended by adding at the end the following:
- "(1) NATIONWIDE SERVICE OF PROCESS.—In any action by the United States under this title, process may be served in any district where the defendant is found, resides, transacts business, or has appointed an agent for the service of process."

## SEC. 9. ADDITIONAL REGULATIONS AUTHORITY.

Section 308 (16 U.S.C. 1439) is amended to read as follows:

## "SEC. 308. REGULATIONS.

"The Secretary may issue such regulations as may be necessary to carry out this title.".

SEC. 10. CHANGES IN RESEARCH, MONITORING,

AND EDUCATION PROVISIONS.

Section 309 (16 U.S.C. 1440) is amended to read as follows:

#### "SEC. 309. RESEARCH, MONITORING, AND EDU-CATION.

- "(a) IN GENERAL.—The Secretary shall conduct, support, or coordinate research, monitoring, evaluation, and education programs consistent with subsections (b) and (c) and the purposes and policies of this title.
  - "(b) RESEARCH AND MONITORING.—
  - "(1) IN GENERAL.—The Secretary may—
- "(A) support, promote, and coordinate research on, and long-term monitoring of,

sanctuary resources and natural processes that occur in national marine sanctuaries, including exploration, mapping, and environmental and socioeconomic assessment:

- "(B) develop and test methods to enhance degraded habitats or restore damaged, injured, or lost sanctuary resources; and
- "(C) support, promote, and coordinate research on, and the conservation, curation, and public display of, the cultural, archeological, and historical resources of national marine sanctuaries.
- "(2) AVAILABILITY OF RESULTS.—The results of research and monitoring conducted, supported, or permitted by the Secretary under this subsection shall be made available to the public.
  - "(c) EDUCATION.—
- "(1) IN GENERAL.—The Secretary may support, promote, and coordinate efforts to enhance public awareness, understanding, and appreciation of national marine sanctuaries and the System. Efforts supported, promoted, or coordinated under this subsection must emphasize the conservation goals and sustainable public uses of national marine sanctuaries and the System.
- "(2) EDUCATIONAL ACTIVITIES.—Activities under this subsection may include education of the general public, teachers, students, national marine sanctuary users, and ocean and coastal resource managers.
  - "(d) Interpretive Facilities.
- "(1) IN GENERAL.—The Secretary may develop interpretive facilities near any national marine sanctuary.
- "(2) FACILITY REQUIREMENT.—Any facility developed under this subsection must emphasize the conservation goals and sustainable public uses of national marine sanctuaries by providing the public with information about the conservation, recreational, ecological, historical, cultural, archeological, scientific, educational, or esthetic qualities of the national marine sanctuary.
- "(e) Consultation and Coordination.—In conducting, supporting, and coordinating research, monitoring, evaluation, and education programs under subsection (a) and developing interpretive facilities under subsection (d), the Secretary may consult or coordinate with Federal, interstate, or regional agencies, States or local governments.".

## SEC. 11. CHANGES IN SPECIAL USE PERMIT PROVISIONS.

Section 310 (16 U.S.C. 1441) is amended—

- (1) by redesignating subsections (b) through (f) as subsections (c) through (g), and by inserting after subsection (a) the following:
- "(b) PUBLIC NOTICE REQUIRED.—The Secretary shall provide appropriate public notice before identifying any category of activity subject to a special use permit under subsection (a).":
- (2) by striking "insurance" in paragraph (4) of subsection (c), as redesignated, and inserting "insurance, or post an equivalent bond,";
- (3) by striking "resource and a reasonable return to the United States Government." in paragraph (2)(C) of subsection (d), as redesignated, and inserting "resource.":
- (4) in subsection (d)(3)(B), as redesignated, by striking "designating and"; and
- (5) in subsection (d), as redesignated, by inserting after paragraph (3) the following:
- "(4) WAIVER OR REDUCTION OF FEES.—The Secretary may accept in-kind contributions in lieu of a fee under paragraph (2)(C), or waive or reduce any fee assessed under this subsection for any activity that does not derive profit from the access to or use of sanctuary resources."

## SEC. 12. CHANGES IN COOPERATIVE AGREEMENTS PROVISIONS.

- (a) AGREEMENTS AND GRANTS.—Section 311(a) (16 U.S.C. 1442(a)) is amended to read as follows:
- "(a) AGREEMENTS AND GRANTS.—The Secretary may enter into cooperative agreements, contracts, or other agreements with, or make grants to, States, local governments, regional agencies, interstate agencies, or other persons to carry out the purposes and policies of this title."
- (b) USE OF RESOURCES FROM OTHER GOVERNMENT AGENCIES.—Section 311 (16 U.S.C. 1442) is amended by adding at the end the following:
- "(e) USE OF RESOURCES OF OTHER GOVERN-MENT AGENCIES.—The Secretary may, whenever appropriate, enter into an agreement with a State or other Federal agency to use the personnel, services, or facilities of such agency on a reimbursable or nonreimbursable basis, to assist in carrying out the purposes and policies of this title.
- "(f) AUTHORITY TO OBTAIN GRANTS.—Notwithstanding any other provision of law that prohibits a Federal agency from receiving assistance, the Secretary may apply for, accept, and use grants from other Federal agencies, States, local governments, regional agencies, interstate agencies, foundations, or other persons, to carry out the purposes and policies of this title."

## SEC. 13. CHANGES IN PROVISIONS CONCERNING DESTRUCTION, LOSS, OR INJURY.

- (a) VENUE FOR CIVIL ACTIONS.—Section 312(c) (16 U.S.C. 1443(c)) is amended—
- (1) by inserting "(1)" before the first sentence;
- (2) in paragraph (1) (as so designated) in the first sentence by striking "in the United States district court for the appropriate district"; and
  - (3) by adding at the end the following:
- "(2) An action under this subsection may be brought in the United States district court for any district in which—
- "(A) the defendant is located, resides, or is doing business, in the case of an action against a person:
- "(B) the vessel is located, in the case of an action against a vessel; or
- "(C) the destruction of, loss of, or injury to a sanctuary resource occurred.".
- (b) USE OF RECOVERED AMOUNTS.—Section 312(d) (16 U.S.C. 1443(d)) is amended by striking paragraphs (1) and (2) and inserting the following:
- "(1) RESPONSE COSTS.—Amounts recovered by the United States for costs of response actions and damage assessments under this section shall be used, as the Secretary considers appropriate—
- "(A) to reimburse the Secretary or any other Federal or State agency that conducted those activities; and
- "(B) after reimbursement of such costs, to restore, replace, or acquire the equivalent of any sanctuary resource.
- "(2) OTHER AMOUNTS.—All other amounts recovered shall be used, in order of priority—
- "(A) to restore, replace, or acquire the equivalent of the sanctuary resources that were the subject of the action, including for costs of monitoring and the costs of curation and conservation of archeological, historical, and cultural sanctuary resources;
- "(B) to restore degraded sanctuary resources of the national marine sanctuary that was the subject of the action, giving priority to sanctuary resources and habitats that are comparable to the sanctuary resources that were the subject of the action; and

- "(C) to restore degraded sanctuary resources of other national marine sanctuaries"
- (c) STATUTE OF LIMITATIONS.—Section 312 (16 U.S.C. 1443) is amended by adding at the end the following:
- "(e) STATUTE OF LIMITATIONS.—An action for response costs or damages under subsection (c) shall be barred unless the complaint is filed within 3 years after the date on which the Secretary completes a damage assessment and restoration plan for the sanctuary resources to which the action relates."

### SEC. 14. AUTHORIZATION OF APPROPRIATIONS.

Section 313 (16 U.S.C. 1444) is amended to read as follows:

### "SEC. 313. AUTHORIZATION OF APPROPRIATIONS.

- "There are authorized to be appropriated to the Secretary—  $\,$ 
  - "(1) to carry out this title—
  - "(A) \$32,000,000 for fiscal year 2001;
  - "(B) \$34,000,000 for fiscal year 2002;
  - "(C) \$36,000,000 for fiscal year 2003;
- "(D) \$38,000,000 for fiscal year 2004;
- $\lq\lq(E)$  40,000,000 for fiscal year 2005; and
- "(2) for construction projects at national marine sanctuaries, \$6,000,000 for each of fiscal years 2001, 2002, 2003, 2004, and 2005.".

## SEC. 15. CHANGES IN U.S.S. MONITOR PROVI-

Section 314 (16 U.S.C. 1445) is amended by striking subsection (b) and redesignating subsection (c) as subsection (b).

## SEC. 16. CHANGES IN ADVISORY COUNCIL PROVISIONS.

Section 315 (16 U.S.C. 1445a) is amended by striking "provide assistance" in subsection (a) and inserting "advise and make recommendations".

#### SEC. 17. CHANGES IN THE SUPPORT ENHANCE-MENT PROVISIONS.

Section 316 (16 U.S.C. 1445b) is amended—

- (1) in subsection (a)(1), by inserting "or the System" after "sanctuaries":
- (2) in subsection (a)(4) by striking "use of any symbol published under paragraph (1)" and inserting "manufacture, reproduction, or other use of any symbol published under paragraph (1), including the sale of items bearing such a symbol,";
- (3) by amending subsection (e)(3) to read as follows:
- "(3) to manufacture, reproduce, or otherwise use any symbol adopted by the Secretary under subsection (a)(1), including to sell any item bearing such a symbol, unless authorized by the Secretary under subsection (a)(4) or subsection (f); or"; and
  - (4) by adding at the end the following:
- "(f) COLLABORATIONS.—The Secretary may authorize the use of a symbol adopted by the Secretary under subsection (a)(1) by any person engaged in a collaborative effort with the Secretary to carry out the purposes and policies of this title and to benefit a national marine sanctuary or the System.
- "(g) AUTHORIZATION FOR NON-PROFIT PART-NER ORGANIZATION TO SOLICIT SPONSORS.— "(1) IN GENERAL.—The Secretary may enter
- into an agreement with a non-profit partner organization authorizing it to assist in the administration of the sponsorship program established under this section. Under an agreement entered into under this paragraph, the Secretary may authorize the non-profit partner organization to solicit persons to be official sponsors of the national marine sanctuary system or of individual national marine sanctuaries, upon such terms as the Secretary deems reasonable and will contribute to the successful administration of the sanctuary system. The Secretary may also authorize the non-profit partner organization to collect the statutory contribution

from the sponsor, and, subject to paragraph (2), transfer the contribution to the Secretary.

"(2) Reimbursement for administrative COSTS.—Under the agreement entered into under paragraph (1), the Secretary may authorize the non-profit partner organization to retain not more than 5 percent of the amount of monetary contributions it receives from official sponsors under the agreement to offset the administrative costs of the organization in soliciting sponsors.

"(3) PARTNER ORGANIZATION DEFINED.—In this subsection, the term 'partner organization' means an organization that-

"(A) draws its membership from individuals, private organizations, corporation, academic institutions, or State and local governments; and

"(B) is established to promote the understanding of, education relating to, and the conservation of the resources of a particular sanctuary or 2 or more related sanctuaries. SEC. 18. ESTABLISHMENT OF DR. NANCY FOSTER

SCHOLARSHIP PROGRAM. The National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.) is amended by inserting after section 317 the following:

#### "SEC. 318. DR. NANCY FOSTER SCHOLARSHIP PROGRAM.

- "(a) ESTABLISHMENT.—The Secretary shall establish and administer through the National Ocean Service the Dr. Nancy Foster Scholarship Program. Under the program, the Secretary shall award graduate education scholarships in oceanography, marine biology or maritime archeology, to be known
- as Dr. Nancy Foster Scholarships.
  "(b) Purposes.—The purposes of the Dr. Nancy Foster Scholarship Program are-
- "(1) to recognize outstanding scholarship in oceanography, marine biology, or maritime archeology, particularly by women and members of minority groups; and
- "(2) to encourage independent graduate level research in oceanography, marine biol-
- Scholarship-
- "(1) shall be used to support graduate studies in oceanography, marine biology, or maritime archeology at a graduate level institution of higher education; and

"(2) shall be awarded in accordance with

guidelines issued by the Secretary.
"(d) DISTRIBUTION OF FUNDS.—The amount of each Dr. Nancy Foster Scholarship shall be provided directly to a recipient selected by the Secretary upon receipt of certification that the recipient will adhere to a specific and detailed plan of study and research approved by a graduate level institution of higher education.

(e) FUNDING.—Of the amount available each fiscal year to carry out this title, the Secretary shall award 1 percent as Dr. Nancy Foster Scholarships.

"(f) SCHOLARSHIP REPAYMENT REQUIRE-MENT.—The Secretary shall require an individual receiving a scholarship under this section to repay the full amount of the scholarship to the Secretary if the Secretary determines that the individual, in obtaining or using the scholarship, engaged in fraudulent conduct or failed to comply with any term or condition of the scholarship.

"(g) MARITIME ARCHEOLOGY DEFINED.—In this section the term 'maritime archeology' includes the curation, preservation, and display of maritime artifacts."

## SEC. 19. CLERICAL AMENDMENTS.

(a) Correction of References to Former COMMITTEE.—The following provisions are amended by striking "Merchant Marine and Fisheries" and inserting "Resources":

- Section 1433(b)(2)(A)).
- (2) Section 304(a)(6) (16 U.S.C. 1434(a)(6)).
- (b) Correction of Reference to Renamed ACT.—(1) Section 302(2) is amended to read as follows:
- "(2) 'Magnuson-Stevens Act' means the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.):
- (2) Section 302(9) is amended by striking "Magnuson Fishery Conservation and Management Act" and inserting "Magnuson-Stevens Act'
- (3) Section 303(b)(2)(D) is amended by striking "Magnuson Act" and inserting "Magnuson-Stevens Act".
- (4) Section 304(a)(5) is amended by striking "Magnuson Act" and inserting "Magnuson-Stevens Act'
- (5) Section 315(b)(2) (16 U.S.C. 1445a(b)(2)) is amended by striking "Magnuson Fishery Conservation and Management Act" and inserting "Magnuson-Stevens Act"
- (c) Miscellaneous.—Section 312(a)(1) (16 U.S.C. 1443(a)(1)) is amended by striking "UNITED STATES" and inserting "UNITED STATES".

#### CARBON CYCLE AND AGRICUL-PRACTICES RE-TURAL BESTSEARCH ACT

Mr. COCHRAN. Mr. President, I ask unanimous consent the Senate now proceed to the consideration of Calendar No. 797, S. 1066.

The PRESIDING OFFICER. clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1066) to amend the National Agricultural Research, Extension, and Teaching Policy Act of 1977 to encourage the use of and research into agricultural best practices to improve the environment, and for other purposes.

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Agriculture, Nutrition, and Forestry, with an amendment; as follows:

[Strike out all after the enacting clause and insert the part printed in italic.l

## SECTION 1. SHORT TITLE.

This Act may be cited as the "Carbon Cycle and Agricultural Best Practices Research Act". SEC. 2. FINDINGS.

Congress finds that—

- (1) agricultural producers in the United States-
- (A) have, in good faith, participated in mandatory and voluntary conservation programs, the successes of which are unseen by the general public, to preserve natural resources; and
- (B) have a personal stake in ensuring that the air, water, and soil of the United States are productive since agricultural productivity directly affects-
- (i) the economic success of agricultural producers; and
- (ii) the production of food and fiber for developing and developed nations;
- (2) in addition to providing food and fiber, agriculture serves an environmental role by providing benefits to air, soil, and water through agricultural best practices;
- (3) agricultural best practices include the more efficient use of agriculture inputs and equip-

(4)(A) agricultural best practices accentuate the carbon cycle by increasing the conversion of

303(b)(2)(A) (16 U.S.C. carbon dioxide from the air into plants that produce grain and forage:

(B) at the end of the growing season, plant material decomposes, adding carbon to soil;

(C) carbon can persist in soil for hundreds and even thousands of years; and

(D) through conservation practices, the additional carbon in soil results in multiple environmental benefits, erosion reduction, moisture retention, water quality improvements, and in-

creased crop yields;
(5) according to the Climate Monitoring and Diagnostics Laboratory of the National Oceanic and Atmospheric Administration, North American soils, crops, rangelands, and forests absorbed an equivalent quantity of carbon dioxide emitted from fossil fuel combustion as part of the natural carbon cycle from 1988 through 1992;

(6) the estimated quantity of carbon stored in world soils is more than twice the carbon in living vegetation or in the atmosphere;

(7) agricultural best practices can increase the quantity of carbon stored in farm soils, crops, and rangeland;

(8) by increasing use of voluntary agricultural best practices, it is possible to offset carbon dioxide emissions, thereby benefiting the environment, without implementing a United Nationssponsored climate change protocol or treaty;

(9) Federal research is needed to identify-(A) the agricultural best practices that supplement the natural carbon cycle; and

(B) Federal conservation programs that can be altered to increase the environmental benefits provided by the natural carbon cycle: and

(10) increasing soil organic carbon is widely recognized as a means of increasing agricultural production and meeting the growing domestic and international food consumption needs with a positive environmental benefit.

## SEC. 3. AGRICULTURAL BEST PRACTICES.

Title XIV of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3101 et seq.) is amended by adding at the end the following:

## "Subtitle N-Carbon Cycle and Agricultural **Best Practices**

## "SEC. 1490. DEFINITIONS.

"In this subtitle:

- "(1) AGRICULTURAL BEST PRACTICE.—The term 'agricultural best practice' means a voluntary practice used by 1 or more agricultural producers to manage a farm or ranch that has a beneficial or minimal impact on the environment, including-
  - "(A) crop residue management; "(B) soil erosion management;

  - "(C) nutrient management;
  - "(D) remote sensing;
  - "(E) precision agriculture;
  - "(F) integrated pest management;
- "(G) animal waste management;
- "(H) cover crop management; "(I) water quality and utilization manage-
- ment;
  - "(J) grazing and range management;
  - (K) wetland management; "(L) buffer strip use; and
  - "(M) tree planting.
  - "(2) CONSERVATION PROGRAM.—The term 'con-
- servation program' means a program established "(A) subtitle D of title XII of the Food Secu-
- rity Act of 1985 (16 U.S.C. 3830 et seq.);
  "(B) section 401 or 402 of the Agricultural Credit Act of 1978 (16 U.S.C. 2201, 2202);
- "(C) section 3 or 8 of the Watershed Protection and Flood Prevention Act (16 U.S.C. 1003, 1006a); or
- "(D) any other provision of law that authorizes the Secretary to make payments or provide other assistance to agricultural producers to promote conservation.

## SEC. 1491. CARBON CYCLE AND AGRICULTURAL BEST PRACTICES RESEARCH.

"(a) IN GENERAL.—The Department of Agriculture shall be the lead agency with respect to

any agricultural soil carbon research conducted by the Federal Government.

"(h) Research Services —

"(1) AGRICULTURAL RESEARCH SERVICE.—The Secretary, acting through the Agricultural Research Service, shall collaborate with other Federal agencies to develop data and conduct research addressing soil carbon balance and storage, making special efforts to—

"(A) determine the effects of management and conservation on soil organic carbon storage in

cropland and grazing land;

- "(B) evaluate the long-term impact of tillage and residue management systems on the accumulation of organic carbon;
- "(C) study the transfer of organic carbon to soil: and
- "(D) study carbon storage of commodities.
- "(2) NATURAL RESOURCES CONSERVATION SERV-ICE.—
- "(A) RESEARCH MISSIONS.—The research missions of the Secretary, acting through the Natural Resources Conservation Service, include—
- "(i) the development of a soil carbon database to—
- "(I) provide online access to information about soil carbon potential in a format that facilitates the use of the database in making land management decisions; and

"(II) allow additional and more refined data to be linked to similar databases containing information on forests and rangeland;

- "(ii) the conversion to an electronic format and linkage to the national soil database described in clause (i) of county-level soil surveys and State-level soil maps;
  - "(iii) updating of State-level soil maps;
- "(iv) the linkage, for information purposes only, of soil information to other soil and land use databases; and
- "(v) the completion of evaluations, such as field validation and calibration, of modeling, remote sensing, and statistical inventory approaches to carbon stock assessments related to land management practices and agronomic systems at the field, regional, and national levels.
- "(B) UNIT OF INFORMATION.—The Secretary, acting through the Natural Resources Conservation Service, shall disseminate a national basic unit of information for an assessment of the carbon storage potential of soils in the United States.
- "(3) ECONOMIC RESEARCH SERVICE REPORT.— Not later than 1 year after the date of enactment of this section, the Secretary, acting through the Economic Research Service, shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report that analyzes the impact of the financial health of the farm economy of the United States under the Kyoto Protocol and other international agreements under the Framework Convention on Climate Change—
- "(A) with and without market mechanisms (including whether the mechanisms are permits for emissions and whether the permits are issued by allocation, auction, or otherwise);
- "(B) with and without the participation of developing countries;
- "(C) with and without carbon sinks; and
- ``(D) with respect to the imposition of traditional command and control measures.
- "(4) COOPERATIVE STATE RESEARCH, EDU-CATION, AND EXTENSION SERVICE.—
- "(A) IN GENERAL.—The Cooperative State Research, Education, and Extension Service shall, through land-grant colleges and universities, develop a comprehensive national carbon cycle and agricultural best practices research agenda.
- "(B) RESEARCH MISSIONS.—The research missions of the Secretary, acting through the Cooperative State Research, Education, and Extension Service, include the provision, through

land-grant colleges and universities, of research opportunities to improve the scientific basis for using land management practices to increase soil carbon sequestration needed for producers, including research concerning innovative methods of using biotechnology and nanotechnology.

"(C) ACTIVITIES.—The Secretary, acting through the Cooperative State Research, Education, and Extension Service, shall—

- "(i) identify, develop, and evaluate agricultural best practices using partnerships comprised of Federal, State, or private entities and the Department of Agriculture, including the Agricultural Research Service;
- "(ii) develop necessary computer models to predict and assess the carbon cycle, as well as other priorities requested by the Secretary and the heads of other Federal agencies;
- "(iii) estimate and develop mechanisms to measure changes in carbon levels resulting from voluntary Federal conservation programs, private and Federal forests, and other land uses;
- "(iv) develop outreach programs, in coordination with cooperative extension services, to share information on carbon cycles and agricultural best practices that is useful to agricultural producers; and
- "(v) research new technologies that may increase carbon cycle effectiveness, such as biotechnology and nanotechnology.

"(c) Consortia.

- "(1) IN GENERAL.—The Secretary may designate not more than 2 carbon cycle and agricultural best practices research consortia to carry out this section.
- "(2) SELECTION.—The consortia designated by the Secretary shall be selected in a competitive manner by the Cooperative State Research, Education, and Extension Service.
- "(3) CONSORTIA PARTICIPANTS.—The participants in the consortia may include—
  - "(A) land-grant colleges and universities;

"(B) State geological surveys:

- "(C) research centers of the National Aeronautics and Space Administration;
  - "(D) other Federal agencies;
- "(E) representatives of agricultural businesses and organizations; and
  - "(F) representatives of the private sector.
- "(4) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to carry out this subsection \$5,000,000 for each of fiscal years 2001 through 2005.
- "(d) PROMOTION OF AGRICULTURAL BEST PRACTICES.—The Secretary shall promote voluntary agricultural best practices that take into account soil organic matter dynamics, carbon cycle, ecology, and soil organisms that will lead to the more effective use of soil resources to—
  - '(1) enhance the carbon cycle;
  - "(2) improve soil quality;
- "(3) increase the use of renewable resources; and
- "(4) overcome unfavorable physical soil properties.
- "(e) ANNUAL REPORT.—The Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate an annual report that describes programs that are or will be conducted by the Secretary, through land-grant colleges and universities, to provide to agricultural producers the results of research conducted on agricultural best practices, including the results of—
  - "(1) research;
  - "(2) future research plans;
- "(3) consultations with appropriate scientific organizations;
- "(4) proposed extension outreach activities; and
- "(5) findings of scientific peer review under section 103(d)(1) of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7613(d)(1)).

## "SEC. 1492. CARBON CYCLE REMOTE SENSING TECHNOLOGY.

- "(a) In GENERAL.—The Secretary, in cooperation with the Administrator of the National Aeronautics and Space Administration, shall develop a carbon cycle remote sensing technology program—
- "(1) to provide, on a near-continual basis, a real-time and comprehensive view of vegetation conditions: and
- "(2) to assess and model agricultural carbon sequestration.
- "(b) USE OF CENTERS.—The Administrator of the National Aeronautics and Space Administration shall use regional earth science application centers to conduct research under this section.
- "(c) RESEARCHED AREAS.—The areas that shall be the subjects of research conducted under this section include—
- "(1) the mapping of carbon-sequestering land use and land cover;
- "(2) the monitoring of changes in land cover and management;
- "(3) new systems for the remote sensing of soil carbon; and
- "(4) regional-scale carbon sequestration esti-
- "(d) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2001 through 2005.

#### "SEC. 1493. RESEARCH INCENTIVE PAYMENTS.

- "(a) IN GENERAL.—In addition to payments that are made by the Secretary to producers under conservation programs, the Secretary may, subject to appropriations authorized in subsection (c), offer research incentive payments to producers that are participating in the conservation programs to compensate the producers for allowing researchers to scientifically analyze, and collect information with respect to, agricultural best practices that are carried out by the producers as part of conservation projects and activities that are funded, in whole or in part, by the Federal Government.
  - "(b) CONFIDENTIALITY.—
- "(1) IN GENERAL.—Except as provided in paragraph (2), any information submitted to the Secretary under subsection (a) shall be confidential and may be disclosed only if required under court order.
- "(2) RELEASE OF INFORMATION IN AGGREGATE FORM.—The Secretary may release or make public information described in paragraph (1) in an aggregate or summary form that does not directly disclose the identity, business transactions, or trade secrets of any person that submits the information.
- "(c) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2001 through 2005.

#### "SEC. 1494. ASSISTANCE FOR AGRICULTURAL BEST PRACTICES AND NATURAL RE-SOURCE MANAGEMENT PLANS UNDER CONSERVATION PROGRAMS.

- "(a) IN GENERAL.—In addition to assistance that is provided by the Secretary to producers under conservation programs, the Secretary, on request of the producers, shall provide, subject to appropriations authorized in subsection (c), education through extension activities and technical assistance to producers that are participating in the conservation programs to assist the producers in planning, designing, and installing agricultural best practices and natural resource management plans established under the conservation programs.
- "(b) Information to Developing Nations.— The Secretary shall disseminate to developing nations information on agricultural best practices and natural resource management plans that.—

"(1) provide crucial agricultural benefits for soil and water quality; and

"(2) increase production.

"(c) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2001 through 2005.

### "SEC. 1495. TRACE GAS NETWORK SYSTEM.

"(a) ESTABLISHMENT.—The Secretary, in conjunction with the Administrator of the National Oceanic and Atmospheric Administration, may establish a nationwide trace gas network system to research the flux of carbon between soil, air, and water.

"(b) PURPOSE OF SYSTEM.—The trace gas network system shall focus on locating appropriate research equipment on or near agricultural best practices that are—

"(1) undertaken voluntarily;

"(2) undertaken through a conservation program of the Department of Agriculture;

"(3) implemented as part of a program or activity of the Department of Agriculture; or

"(4) identified by the Administrator of the National Oceanic and Atmospheric Administration.

"(c) MEMORANDUM OF UNDERSTANDING.—The Secretary may enter into a memorandum of understanding with the Administrator of the National Oceanic and Atmospheric Administration to ensure that research goals of programs established by the Federal Government relating to trace gas research are met through the trace gas network system.

"(d) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to carry out this section \$10,000,000.".

Mr. COCHRAN. I ask unanimous consent the committee substitute be agreed to, the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 1066), as amended, was engrossed for a third reading, read the third time, and passed.

## REVISED ORGANIC ACT OF THE VIRGIN ISLANDS

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Energy Committee be discharged from further consideration of H.R. 2296, and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The legislative clerk read as follows: A bill (H.R. 2296) to amend the Revised Organic Act of the Virgin Islands to provide that the number of members on the legislature of the Virgin Islands and the number of such members constituting a quorum shall be determined by the laws of the Virgin Islands, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 2296) was read the third time and passed.

## ORDERS FOR WEDNESDAY, OCTOBER 18, 2000

Mr. COCHRAN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it recess until the hour of 10 a.m. on Wednesday, October 18. I further ask unanimous consent that on Wednesday, immediately following the prayer, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate then proceed to the conference report to accompany H.R. 4461, the Agriculture appropriations bill, as under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

### PROGRAM

Mr. COCHRAN. Mr. President, for the information of all Senators, the majority leader has asked that it be announced that the Senate will resume consideration of the conference report to accompany the Agriculture appropriations bill at 10 a.m. tomorrow. The vote has been changed to occur at 5:30 p.m. on Wednesday, with the final 2 hours of debate to take place on Wednesday 2 hours prior to the vote. Senators on both sides of the aisle have requested the vote be changed for various reasons, the most important being the request by the congressional delegation that will be attending the memorial service for the U.S. sailors killed aboard the U.S.S. Cole. That memorial service is to be held at 11 a.m. in Norfolk, VA, thereby making the previously scheduled vote not feasible.

As for the remainder of the week, it is hoped that the Senate can complete most, if not all, business necessary for sine die adjournment. Senators should expect votes throughout each day and into the evenings at the end of the week.

## ORDER FOR RECORD TO REMAIN OPEN

Mr. COCHRAN. Mr. President, I ask unanimous consent that Senators have

until 3 p.m. today to submit statements for the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

### RECESS UNTIL 10 A.M. TOMORROW

Mr. COCHRAN. Mr. President, if there is no further business to come before the Senate, I now ask unanimous consent that the Senate stand in recess under the previous order.

There being no objection, the Senate, at 1:49 p.m., recessed until Wednesday, October 18, 2000, at 10 a.m.

### NOMINATIONS

Executive nominations received by the Senate October 17, 2000:

### BROADCASTING BOARD OF GOVERNORS

TOM C. KOROLOGOS, OF VIRGINIA, TO BE A MEMBER OF THE BROADCASTING BOARD OF GOVERNORS FOR A TERM EXPIRING AUGUST 13, 2001. (REAPPOINTMENT)

ROBERT M. LEDBETTER, JR., OF MISSISSIPPI, TO BE A MEMBER OF THE BROADCASTING BOARD OF GOVERNORS FOR A TERM EXPIRING AUGUST 13, 2003, VICE BETTE BAO LORD, TERM EXPIRED.

#### NATIONAL LABOR RELATIONS BOARD

DENNIS P. WALSH, OF MARYLAND, TO BE A MEMBER OF THE NATIONAL LABOR RELATIONS BOARD FOR THE TERM OF FIVE YEARS EXPIRING DECEMBER 16, 2004, VICE SARAH MCCRACKEN FOX.

#### NATIONAL COUNCIL ON DISABILITY

EDWARD CORREIA, OF MARYLAND, TO BE A MEMBER OF THE NATIONAL COUNCIL ON DISABILITY FOR A TERM EXPIRING SEPTEMBER 17, 2002, VICE MICHAEL B. UNHJEM, TERM EXPIRED.

## DEPARTMENT OF ENERGY

MARK J. MAZUR, OF MARYLAND, TO BE ADMINISTRATOR OF THE ENERGY INFORMATION ADMINISTRATION, DEPARTMENT OF ENERGY, VICE JAY E. HAKES, RESIGNED

## DEPARTMENT OF JUSTICE

JAMES LYNWOOD YOUNGER, JR., OF VIRGINIA, TO BE UNITED STATES MARSHAL FOR THE EASTERN DISTRICT OF VIRGINIA FOR THE TERM OF FOUR YEARS, VICE JOHN WILLIAM MARSHALL, RESIGNED.

## IN THE ARMY

THE FOLLOWING NAMED ARMY NATIONAL GUARD OF THE UNITED STATES OFFICERS FOR APPOINTMENT TO THE GRADE INDICATED IN THE RESERVE OF THE ARMY UNDER TITLE 10, U.S.C., SECTIONS 12203 AND 12211:

To be colonel

JOSEPH C. CARTER, 0000 RAYMOND M. MURPHY, 0000

## WITHDRAWAL

Executive message transmitted by the President to the Senate on October 17, 2000, withdrawing from further Senate consideration the following nomination:

## DEPARTMENT OF JUSTICE

SARAH MCCRACKEN FOX, OF NEW YORK, TO BE A MEM-BER OF THE NATIONAL LABOR RELATIONS BOARD FOR A TERM OF FIVE YEARS EXPIRING DECEMBER 16, 2004, TO WHICH POSITION SHE WAS APPOINTED DURING THE RE-CESS OF THE SENATE FROM NOVEMBER 19, 1999, TO JANU-ARY 24, 2000, WHICH WAS SENT TO THE SENATE ON MARCH 2, 2000.

## HOUSE OF REPRESENTATIVES—Tuesday, October 17, 2000

The House met at 10:30 a.m. and was called to order by the Speaker pro tempore (Mrs. BIGGERT).

## $\begin{array}{c} {\tt DESIGNATION~OF~SPEAKER~PRO} \\ {\tt TEMPORE} \end{array}$

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

Washington, DC, October 17, 2000.

I hereby appoint the Honorable JUDY BIGGERT to act as Speaker pro tempore on this day.

 $\mbox{ J. Dennis Hastert,} \\ \mbox{ Speaker of the House of Representatives.} \\$ 

## MORNING HOUR DEBATES

The SPEAKER pro tempore. Pursuant to the order of the House of January 19, 1999, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning hour debates. The Chair will alternate recognition between the parties, with each party limited to not to exceed 30 minutes, and each Member, except the majority leader, the minority leader, or the minority whip, limited to not to exceed 5 minutes.

The Chair recognizes the gentleman from Missouri (Mr. SKELTON) for 5 minutes.

## THE TRAGIC DEATH OF MISSOURI GOVERNOR MEL CARNAHAN

Mr. SKELTON. Madam Speaker, it is my sad duty to announce to this body the tragic death of Missouri's Governor, Mel Carnahan, who died along with his son Randy and an advisor, Chris Sifford, yesterday evening.

Needless to say, I am heartbroken today. The sudden loss of a friend and Missouri's Governor, Mel Carnahan, pales in comparison to the loss being felt by his wife, Jean, and the rest of the family. Our sympathy and prayers go out to the families of both the Carnahans and the Siffords.

Mel Carnahan was a public servant of the best sort. He was devoted to his family and he unselfishly gave his same devotion to the people of Missouri. All Missourians are fortunate that someone of Mel Carnahan's caliber and stature dedicated his life and career to making our State and our Nation a better place.

Madam Speaker, Mel Carnahan was my friend for many, many years, and I can hardly measure right now how much I will miss him. As a model of friendship and service, however, he will always be with us.

In an interview that was relayed on the radio earlier today, I heard Governor Carnahan say how proud he was of all he had accomplished as an elected official, but that he felt he had more to contribute. This kind of sentiment is an inspiration to those of us in public life today and those who will serve in the future.

My wife, Suzie, joins me and I know all Members of this body join me in expressing deep sympathy to Jean Carnahan, to the Carnahan family, as well as to the Sifford family.

# CONGRESS SHOULD ACT TO REDUCE GUN VIOLENCE IN AMERICA

The SPEAKER pro tempore. Under the Speaker's announced policy of January 19, 1999, the gentleman from Oregon (Mr. BLUMENAUER) is recognized during morning hour debates for 5 minutes.

Mr. BLUMENAUER. Madam Speaker, my goal in coming to Congress was to help make the Federal Government a better partner in making communities more livable, our families safer, healthier, and more economically secure.

Clearly, safety from the threat of gun violence is one critical element in a livable community. Since I started my public service career, over 1 million Americans have lost their lives to gun violence. That is more than all the United States citizens who have lost their lives in battle from the Civil War through last week to the 17 who were tragically killed in Yemen.

Part of the solution to this epidemic of gun violence is to put a name to those faces, to make them real. One of those faces belongs to a woman named Candice DuBoff Jones, who was a bright, caring 26-year-old attorney who happened to be a law school classmate of mine in Portland, Oregon.

One morning at 10:30, she was having a hearing on a domestic relations matter two floors below where I was working as a county commissioner. Shots rang out. Candice was dead, along with her assailant who was the husband of the woman she was representing.

This impact had a dramatic ripple effect. It was not just the loss of Ms. Jones' life, but it was a loss for her husband, it was a loss for her brother, friends, and colleagues. Certainly, everybody in that courtroom was scarred by that event.

Madam Speaker, it is hard for me to share even today, not because we were that close particularly. In fact, I knew her brother much better, who was a distinguished and respected faculty member at our college, Professor Leonard DuBoff. But what is hard for me, besides the tragic loss of this woman, was that we as a society, we as a government know we can take steps to reduce gun violence, and we do not.

Over the same period of time that we lost those million gun deaths, we as a society cut the rate of auto death in this country in half. There was not any single magic solution, but there was a determination on the part of citizens and government alike to take simple, common sense steps to improve traffic safety, auto design, and law enforcement.

We can do the same thing to reduce gun violence. Luckily, there are now some States where citizens have taken the matters in their own hands, like my own State of Oregon where there is a measure on the ballot in November that will allow people to close the gun show loophole. I am confident that voters will overwhelmingly, when given this chance, vote affirmatively, as they will in Colorado.

It is strange that at a time when leaders in the Mideast are once again taking risks for peace, in fact, putting their own lives at risk by stepping forward, I am sad that the Republican House leadership will not stand up to the gun lobby and take a small but important step for peace in this country to reduce gun violence.

We have not had a meeting of the conference committee on the juvenile crime bill for the last 15 months. It was last August that it met. It has a provision that would enable us to close the gun show loophole that has already passed the Senate.

This is just but one small step, but it would send a signal that we in the House of Representatives care enough about saving lives of families in this country to take modest political risks to do the right thing.

There is still time yet in this session of Congress to do that, to convene the conference committee, to allow the House of Representatives to vote on closing the gun show loophole, to take a small step to make our communities more livable, our families safer, healthier, and more economically secure.

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 10 o'clock and 39 minutes a.m.). the House stood in recess until noon.

#### □ 1200

### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mrs. Morella) at noon.

### PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

All praise and honor to You, Lord God. Each day You shower the United States of America with blessings. Enable us to receive Your gifts graciously.

With gratitude for all we have received, may each of us use our gifts in service to one another. Like good stewards dispensing the grace of God in various ways, may our very diversity give You greater glory.

If any of us is to speak out, let us speak with Your Word. If any of us desires to serve, let it be in the strength You supply.

The speaker needs another to listen. The dispenser of good gifts needs another to receive graciously. May true dialogue and the exchange of gifts be the unfolding of Your power in our midst.

In all things, let us so act that the glory and the power be Yours forever and ever. Amen.

## THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

## PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Ohio (Mr. TRAFICANT) come forward and lead the House in the Pledge of Allegiance.

Mr. TRAFICANT led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

## DISPENSING WITH CALL OF PRIVATE CALENDAR ON TODAY

SENSENBRENNER. Speaker, I ask unanimous consent that the call of the Private Calendar be dispensed with today.

objection to the request of the gentleman from Wisconsin?

There was no objection.

## UNITED STATES SENATOR JOE LIEBERMAN MISSES GOLDEN OP-PORTUNITY

(Mr. COMBEST asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COMBEST. Madam Speaker, last week, the Democratic candidate for Vice President made a brief stop in Odessa, Texas, in my district. He arrived with an agenda to embarrass our hometown son, Governor George Bush. He tried to cast Odessa in a bad light by making false claims against one of our most ardent businesses, the Huntsman Corporation.

The Huntsman plant is a business anchor to the Permian Basin, employing over 700 hard-working men and women. It is a good corporate citizen and an asset to our community. I am sorely disappointed that their campaign would exploit our town for political gain.

The folks of Odessa and Midland were ready to accommodate their guests. However, the candidate snubbed officials from both cities, including the chambers of commerce, mayors, and even the chairman of the Democratic Party. Our local media was also kept at arms' length. Only the candidate's handpicked media could cover the story, with only biased facts.

We in politics fully understand the staged media events and photo-ops, but the Senator's treatment of these kind folks, whom I am honored to represent, was truly uncalled for and out of line. His visit was a missed opportunity for him to meet the real success story in the Permian Basin, the people.

## DRUG CZAR DID NOTHING FOR UNITED STATES BORDERS

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Madam Speaker, the Drug Czar is retiring to teach national security issues at two colleges. Now, do not get me wrong. I like General McCaffrey. But for years, while truckloads and boatloads of heroin and cocaine were coming across our border, General McCaffrey asked for more money, more cops, more halfway houses, more counselors, and more TV commercials. He did nothing about our borders.

This drug czar lecturing on national security is like Janet Reno teaching a class on treason. Beam me up.

I yield back the fact that, while our soldiers are vaccinating dogs in Haiti, American police departments

The SPEAKER pro tempore. Is there training police dogs to sniff out heroin and cocaine in our schools. Think about it.

### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair announces that she will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Any record votes on postponed questions will be taken tomorrow.

## VETERANS' COMPENSATION COST-OF-LIVING ADJUSTMENT ACT OF

Mr. STUMP. Madam Speaker, I move to suspend the rules and concur in the Senate amendments to the bill (H.R. 4850) to provide a cost-of-living adjustment in rates of compensation paid to veterans with service-connected disabilities, to enhance programs providing compensation and life insurance benefits for veterans, and for other purposes.

The Clerk read as follows:

Senate amendments:

Strike out all after the enacting clause and

## SECTION 1. SHORT TITLE.

This Act may be cited as the "Veterans' Compensation Cost-of-Living Adjustment Act of 2000".

#### SEC. 2. INCREASE IN RATES OF DISABILITY COM-PENSATION AND DEPENDENCY AND INDEMNITY COMPENSATION.

- (a) RATE ADJUSTMENT.—The Secretary of Veterans Affairs shall, effective on December 1, 2000, increase the dollar amounts in effect for the payment of disability compensation and dependency and indemnity compensation by the Secretary, as specified in subsection (b).
- (b) AMOUNTS TO BE INCREASED.—The dollar amounts to be increased pursuant to subsection (a) are the following:
- (1) COMPENSATION.—Each of the dollar amounts in effect under section 1114 of title 38, United States Code.
- (2) ADDITIONAL COMPENSATION FOR DEPEND-ENTS.—Each of the dollar amounts in effect under sections 1115(1) of such title.
- (3) CLOTHING ALLOWANCE.—The dollar amount in effect under section 1162 of such title.
- (4) NEW DIC RATES The dollar amounts in effect under paragraphs (1) and (2) of section 1311(a) of such title.
- (5) OLD DIC RATES.—Each of the dollar amounts in effect under section 1311(a)(3) of such title.
- (6) Additional dic for surviving spouses WITH MINOR CHILDREN.—The dollar amount in effect under section 1311(b) of such title.
- (7) ADDITIONAL DIC FOR DISABILITY.—The dollar amounts in effect under sections 1311(c) and 1311(d) of such title.
- (8) DIC FOR DEPENDENT CHILDREN.—The dollar amounts in effect under sections 1313(a) and 1314 of such title.
- (c) DETERMINATION OF INCREASE.—(1) The increase under subsection (a) shall be made in the dollar amounts specified in subsection (b) as in effect on November 30, 2000.

(2) Except as provided in paragraph (3), each such amount shall be increased by the same percentage as the percentage by which benefit amounts payable under title II of the Social Security Act (42 U.S.C. 401 et seq.) are increased effective December 1, 2000, as a result of a determination under section 215(i) of such Act (42  $U.S.C.\ 415(i)$ ).

(3) Each dollar amount increased pursuant to paragraph (2) shall, if not a whole dollar amount, be rounded down to the next lower whole dollar amount.

(d) Special Rule.—The Secretary may adjust administratively, consistent with the increases made under subsection (a), the rates of disability compensation payable to persons within the purview of section 10 of Public Law 85-857 (72 Stat. 1263) who are not in receipt of compensation payable pursuant to chapter 11 of title 38 United States Code.

### SEC. 3. PUBLICATION OF ADJUSTED RATES.

At the same time as the matters specified in section 215(i)(2)(D) of the Social Security Act (42  $U.S.C.\ 415(i)(2)(D))$  are required to be published by reason of a determination made under section 215(i) of such Act during fiscal year 2001, the Secretary of Veterans Affairs shall publish in the Federal Register the amounts specified in subsection (b) of section 2, as increased pursuant to that section.

Amend the title so as to read: "An Act to increase, effective as of December 1, 2000, the rates of compensation for veterans with service-connected disabilities and the rates of dependency and indemnity compensation for the survivors of certain disabled veterans.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Arizona (Mr. STUMP) and the gentleman from Illinois (Mr. EVANS) each will control 20 minutes.

The Chair recognizes the gentleman from Arizona (Mr. STUMP).

## GENERAL LEAVE

Mr. STUMP. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 4850.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

There was no objection.

Mr. STUMP. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 4850 is the Veterans' Compensation Cost-of-Living Adjustment Act of 2000.

This is a clean bill providing a costof-living adjustment to disabled veterans and their surviving spouses. Current estimates indicate that the increase will be about 3 percent, and veterans will see this increase in their January check.

I urge my colleagues to support the passage of H.R. 4850.

Madam Speaker, I reserve the balance of my time.

Mr. EVANS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in strong support of H.R. 4850, as amended. I thank the gentleman from Arizona (Mr. STUMP) once again for his leadership on this important legislation and for his continued efforts on behalf of this Nation's veterans.

I also want to thank the gentleman from New York (Mr. QUINN), the chairman of the Subcommittee on Benefits. and the gentleman from California (Mr. FILNER), the ranking Democratic member of the subcommittee for their hard work on this measure.

The importance of this legislation cannot be overstated. It protects the purchasing power of service-connected disability benefits which our Nation's veterans have earned by virtue of their military service, and it affords similar protection for the recipients of dependency and indemnity compensation (DIC).

Under the Veterans' Compensation Cost-of-Living Adjustment Act of 2000. effective December 1, a cost-of-living adjustment will be provided for service-connected disability compensation and DIC benefits. This adjustment will be the same as that provided to Social Security recipients.

I call on every Member of this body to support this important legislation.

Madam Speaker, I reserve the balance of my time.

Mr. NEY. Madam Speaker, I commend the following article to my colleagues:

On behalf of all the Veterans, I stand in support of H.R. 4850, the Veterans Cost of Living Adjustments Act of 2000 and urge all my colleagues to do the same. I thank Chairman STUMP for introducing this piece of legislation and giving the House and Senate the opportunity to vote on such a bill.

H.R. 4850 directs the Secretary of Veterans Affairs to increase the rates of veterans disability compensation, dependency and indemnity compensation, additional compensation for dependents, and the clothing allowance for certain disabled veterans, effective December 1. 2000.

Not only does the bill give veterans a cost of living adjustment, but this legislation includes a provision that will directly benefit veterans in Ohio attending Ohio University in Athens. The Department of Veterans Affairs (VA) decided to reverse itself on a long-standing policy issue and eliminate a December veterans educational benefit payment to approximately 360 eligible veterans who are students at Ohio University (OU).

This problem now exists for veterans because of OU's extended break between the fall and winter guarter which runs from the day prior to Thanksgiving until the day after New Years, which averages about 40 days or six weeks of down time. OU is one of only a few public universities that takes such a lengthy break from classes within its academic year. The VA has a policy which suspends benefits under the Montgomery GI Bill to veterans if they experience a break of more than 30 days between enrollment periods.

In years past, the VA approved an exemption from the policy for OU because the university uses the extended break to conserve energy by closing residence halls and academic buildings. Unfortunately, the VA recently ruled that OU will no longer qualify for an exemption. This means that if veterans are going to be paid for the month of December, they must be enrolled.

In order to remedy this situation, H.R. 4850 includes a provision that will authorize the continued payment of monthly educational assistance benefits to veterans enrolled at educational institutions during periods between semesters or quarters if the interval does not exceed eight weeks. This legislation will also correct this problem for veterans around the country who attend other educational institutions that also have a break between classes of over 30 days.

It is not reasonable to punish veterans by withholding their December benefits when they do not have the option of enrolling in course work between the fall and winter quarters that is appropriate to their academic programs. The Veterans Cost of Living Adjustments Act of 2000 will right this wrong and help veterans who are trying to better their lives by completing college.

I again thank the Chairman and urge my

colleagues to support this legislation.

Mr. FILNER. Madam Speaker, I would like to thank Chairman STUMP, Ranking Member EVANS and Mr. QUINN, Chairman of the Subcommittee on Benefits for once again assuring our country's veterans and their survivors that the value of their VA benefits will not be eroded by increases in the cost of living.

This measure is important to the continued financial well-being of our disabled veterans and their survivors. H.R. 4850 will provide a cost-of-living increase comparable to the increase received by Social Security beneficiaries. Our veterans and their families deserve no less

I urge all members to support this bill.

Mr. GILMAN. Madam Speaker, I rise today in strong support of H.R. 4850, The Veterans' Cost of Living Adjustments Act of 2000.

H.R. 4850 authorizes a cost-of-living adjustment to veterans who receive disability compensation and dependency and indemnity compensation to surviving spouses of prisoners of war who received complete disability at time of death, due to service-related injuries. This will be effective December 1, 2000.

Congress has approved an annual cost-ofliving adjustment to these veterans and survivors since 1976.

The bill also directs that strokes and heart attacks suffered by reserve component members in the performing of inactive duty training are to be considered service-connected.

Additionally, the legislation requires that compensation be paid at the "K" rate for the service-connected loss of one or both breasts due to a radical mastectomy, and expands eligibility for service-members group life insurance policies for certain members of the individual ready reserve.

Madam Speaker, I believe this is a worthy piece of legislation and an appropriate response of this legislative body to the sacrifices made by our Nation's veterans and their families.

Mr. STUMP. Madam Speaker, I want to thank the gentleman from Illinois (Mr. EVANS) for his hard work and contribution to this bill.

Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. EVANS. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Arizona (Mr. STUMP) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 4850.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate amendments were concurred in.

A motion to reconsider was laid on the table.

## VETERANS CLAIMS ASSISTANCE ACT OF 2000

Mr. STUMP. Madam Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 4864) to amend title 38, United States Code, to reaffirm and clarify the duty of the Secretary of Veterans Affairs to assist claimants for benefits under laws administered by the Secretary, and for other purposes.

The Clerk read as follows:

Senate amendment:

Strike out all after the enacting clause and insert:

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Veterans Claims Assistance Act of 2000".

#### SEC. 2. CLARIFICATION OF DEFINITION OF "CLAIMANT" FOR PURPOSES OF VET-ERANS CLAIMS.

Chapter 51 of title 38, United States Code, is amended by inserting before section 5101 the following new section:

## "§ 5100. Definition of 'claimant'

"For purposes of this chapter, the term 'claimant' means any individual applying for, or submitting a claim for, any benefit under the laws administered by the Secretary."

## SEC. 3. ASSISTANCE TO CLAIMANTS.

(a) REAFFIRMATION AND CLARIFICATION OF DUTY TO ASSIST.—Chapter 51 of title 38, United States Code, is further amended by striking sections 5102 and 5103 and inserting the following:

# "\$5102. Application forms furnished upon request; notice to claimants of incomplete applications

"(a) FURNISHING FORMS.—Upon request made by any person claiming or applying for, or expressing an intent to claim or apply for, a benefit under the laws administered by the Secretary, the Secretary shall furnish such person, free of all expense, all instructions and forms necessary to apply for that benefit.

"(b) INCOMPLETE APPLICATIONS.—If a claimant's application for a benefit under the laws administered by the Secretary is incomplete, the Secretary shall notify the claimant and the claimant's representative, if any, of the information necessary to complete the application.

### "§ 5103. Notice to claimants of required information and evidence

"(a) REQUIRED INFORMATION AND EVIDENCE.— Upon receipt of a complete or substantially complete application, the Secretary shall notify the claimant and the claimant's representative, if any, of any information, and any medical or lay evidence, not previously provided to the Secretary that is necessary to substantiate the claim. As part of that notice, the Secretary shall indicate which portion of that information and evidence, if any, is to be provided by the claimant and which portion, if any, the Secretary, in accordance with section 5103A of this title and any other applicable provisions of law, will attempt to obtain on behalf of the claimant. "(b) TIME LIMITATION.—(1) In the case of information or evidence that the claimant is notified under subsection (a) is to be provided by the claimant, if such information or evidence is not received by the Secretary within one year from the date of such notification, no benefit may be paid or furnished by reason of the claimant's application.

"(2) This subsection shall not apply to any application or claim for Government life insurance benefits.

#### "§ 5103A. Duty to assist claimants

"(a) DUTY TO ASSIST.—(1) The Secretary shall make reasonable efforts to assist a claimant in obtaining evidence necessary to substantiate the claimant's claim for a benefit under a law administered by the Secretary.

"(2) The Secretary is not required to provide assistance to a claimant under this section if no reasonable possibility exists that such assistance would aid in substantiating the claim.

"(3) The Secretary may defer providing assistance under this section pending the submission by the claimant of essential information missing from the claimant's application.

"(b) ASSISTANCE IN OBTAINING RECORDS.—(1) As part of the assistance provided under subsection (a), the Secretary shall make reasonable efforts to obtain relevant records (including private records) that the claimant adequately identifies to the Secretary and authorizes the Secretary to obtain.

"(2) Whenever the Secretary, after making such reasonable efforts, is unable to obtain all of the relevant records sought, the Secretary shall notify the claimant that the Secretary is unable to obtain records with respect to the claim. Such a notification shall—

"(A) identify the records the Secretary is unable to obtain:

"(B) briefly explain the efforts that the Secretary made to obtain those records; and

"(C) describe any further action to be taken by the Secretary with respect to the claim.

"(3) Whenever the Secretary attempts to obtain records from a Federal department or agency under this subsection or subsection (c), the efforts to obtain those records shall continue until the records are obtained unless it is reasonably certain that such records do not exist or that further efforts to obtain those records would be futile.

"(c) Obtaining Records for Compensation Claims.—In the case of a claim for disability compensation, the assistance provided by the Secretary under subsection (b) shall include obtaining the following records if relevant to the claim:

"(1) The claimant's service medical records and, if the claimant has furnished the Secretary information sufficient to locate such records, other relevant records pertaining to the claimant's active military, naval, or air service that are held or maintained by a governmental entity.

ty.

"(2) Records of relevant medical treatment or examination of the claimant at Department health-care facilities or at the expense of the Department, if the claimant furnishes information sufficient to locate those records.

"(3) Any other relevant records held by any Federal department or agency that the claimant adequately identifies and authorizes the Secretary to obtain.

"(d) MEDICAL EXAMINATIONS FOR COMPENSA-TION CLAIMS.—(1) In the case of a claim for disability compensation, the assistance provided by the Secretary under subsection (a) shall include providing a medical examination or obtaining a medical opinion when such an examination or opinion is necessary to make a decision on the claim

"(2) The Secretary shall treat an examination or opinion as being necessary to make a decision

on a claim for purposes of paragraph (1) if the evidence of record before the Secretary, taking into consideration all information and lay or medical evidence (including statements of the claimant)—

"(A) contains competent evidence that the claimant has a current disability, or persistent or recurrent symptoms of disability; and

"(B) indicates that the disability or symptoms may be associated with the claimant's active military, naval, or air service; but

"(C) does not contain sufficient medical evidence for the Secretary to make a decision on the claim.

"(e) REGULATIONS.—The Secretary shall prescribe regulations to carry out this section.

"(f) RULE WITH RESPECT TO DISALLOWED CLAIMS.—Nothing in this section shall be construed to require the Secretary to reopen a claim that has been disallowed except when new and material evidence is presented or secured, as described in section 5108 of this title.

"(g) OTHER ASSISTANCE NOT PRECLUDED.— Nothing in this section shall be construed as precluding the Secretary from providing such other assistance under subsection (a) to a claimant in substantiating a claim as the Secretary considers appropriate."

(b) REENACTMENT OF RULE FOR CLAIMANT'S LACKING A MAILING ADDRESS.—Chapter 51 of such title is further amended by adding at the end the following new section:

## "§5126. Benefits not to be denied based on lack of mailing address

"Benefits under laws administered by the Secretary may not be denied a claimant on the basis that the claimant does not have a mailing address."

#### SEC. 4. DECISION ON CLAIM.

Section 5107 of title 38, United States Code, is amended to read as follows:

## "\$5107. Claimant responsibility; benefit of the doubt

"(a) CLAIMANT RESPONSIBILITY.—Except as otherwise provided by law, a claimant has the responsibility to present and support a claim for benefits under laws administered by the Secretary.

"(b) BENEFIT OF THE DOUBT.—The Secretary shall consider all information and lay and medical evidence of record in a case before the Secretary with respect to benefits under laws administered by the Secretary. When there is an approximate balance of positive and negative evidence regarding any issue material to the determination of a matter, the Secretary shall give the benefit of the doubt to the claimant."

#### SEC. 5. PROHIBITION OF CHARGES FOR RECORDS FURNISHED BY OTHER FEDERAL DE-PARTMENTS AND AGENCIES.

Section 5106 of title 38, United States Code, is amended by adding at the end the following new sentence: "The cost of providing information to the Secretary under this section shall be borne by the department or agency providing the information.".

## $SEC.\ 6.\ CLERICAL\ AMENDMENTS.$

The table of sections at the beginning of chapter 51 of title 38, United States Code, is amended—

(1) by inserting before the item relating to section 5101 the following new item:

"5100. Definition of 'claimant'.";

(2) by striking the items relating to sections 5102 and 5103 and inserting the following:

"5102. Application forms furnished upon request; notice to claimants of incomplete applications.

"5103. Notice to claimants of required information and evidence.

"5103A. Duty to assist claimants.";

(3) by striking the item relating to section 5107 and inserting the following:

"5107. Claimant responsibility; benefit of the doubt.":

and

(4) by adding at the end the following new item:

"5126. Benefits not to be denied based on lack of mailing address.".

### SEC. 7. EFFECTIVE DATE.

(a) IN GENERAL.—Except as specifically provided otherwise, the provisions of section 5107 of title 38, United States Code, as amended by section 4 of this Act. apply to any claim—

(1) filed on or after the date of the enactment of this Act: or

(2) filed before the date of the enactment of this Act and not final as of that date.

(b) RULE FOR CLAIMS THE DENIAL OF WHICH BECAME FINAL AFTER THE COURT OF APPEALS FOR VETERANS CLAIMS DECISION IN THE MORTON CASE.—(1) In the case of a claim for benefits denied or dismissed as described in paragraph (2), the Secretary of Veterans Affairs shall, upon the request of the claimant or on the Secretary's own motion, order the claim readjudicated under chapter 51 of such title, as amended by this Act, as if the denial or dismissal had not been made.

(2) A denial or dismissal described in this paragraph is a denial or dismissal of a claim for a benefit under the laws administered by the Secretary of Veterans Affairs that—

(A) became final during the period beginning on July 14, 1999, and ending on the date of the enactment of this Act; and

(B) was issued by the Secretary of Veterans Affairs or a court because the claim was not well grounded (as that term was used in section 5107(a) of title 38, United States Code, as in effect during that period).

(3) A claim may not be readjudicated under this subsection unless a request for readjudication is filed by the claimant, or a motion is made by the Secretary, not later than two years after the date of the enactment of this Act.

(4) In the absence of a timely request of a claimant under paragraph (3), nothing in this Act shall be construed as establishing a duty on the part of the Secretary of Veterans Affairs to locate and readjudicate a claim described in this subsection.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Arizona (Mr. STUMP) and the gentleman from Illinois (Mr. EVANS) each will control 20 minutes.

The Chair recognizes the gentleman from Arizona (Mr. STUMP).

## GENERAL LEAVE

Mr. STUMP. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 4864.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

There was no objection.

Mr. STUMP. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 4864 is the Veterans Claims Assistance Act of 2000. The bill addresses the Morton versus West court decision and corrects difficulties veterans have experienced with VA's claims processing. This bill clarifies VA's duty to assist veterans with their claims.

Over the last few months, the Committee on Veterans' Affairs has worked

closely with the Veterans Administration, the Senate Committee on Veterans' Affairs, and the veterans service organizations on this bill.

Passage of this bill today will restore the balance in the VA claims system. Although this legislation will require some claims to be redone, it is the right thing to do.

I urge my colleagues to support H.R.

Madam Speaker, I include an explanatory statement on H.R. 4864, as amended, as follows:

EXPLANATORY STATEMENT ON H.R. 4864, AS AMENDED

H.R. 4864, as amended, reflects a compromise agreement that the House and Senate Committees on Veterans Affairs have reached on H.R. 4864 and section 101 of S. 1810. H.R. 4864, the Veterans Claims Assistance Act of 2000, passed the House on July 25, 2000 (hereinafter referred to in context as the "House Bill"). On September 21, 2000, the Senate passed S. 1810, the Veterans Programs Enhancement Act of 2000 (hereinafter referred to in context as the "Senate Bill").

The House and Senate Committees on Veterans Affairs have prepared the following explanation of H.R. 4864, as amended (hereinafter referred to as the "Compromise Agreement"). Differences between the provisions contained in the Compromise Agreement and the related provisions of H.R. 4864 and section 101 of S. 1810 are noted in this document, except for clerical corrections, conforming changes made necessary by the Compromise Agreement and minor drafting, technical and clarifying changes.

## BACKGROUND

The Department of Veterans Affairs' (VA) system for deciding benefits claims "is unlike any other adjudicative process. It is specifically designed to be claimant friendly. It is non-adversarial; therefore, the VA must provide a substantial amount of assistance to a veteran seeking benefits." H. Rept. No. 105-52, at 2 (1997). Chapter 51 of title 38, United States Code, provides the general administrative provisions relating to processing of claims for veterans benefits. In particular, section 5107 of title 38, United States Code, states that it is a veteran's responsibility to submit evidence of a "well-groundclaim, and the Secretary shall assist a veteran in developing the facts pertinent to the claim. Such assistance historically has included requesting service records, medical records and other documents identified by the veterans.

On July 14, 1999, the U.S. Court of Appeals for Veterans Claims ruled in Morton v. West, 12 Vet. App. 477, remanded on other grounds F.3d_, 2000 U.S. App. LEXIS 22464 (Fed. Cir., August 17, 2000), that VA has no authority to develop claims that are not "well-grounded," and invalidated VA manual provisions which directed regional offices to undertake full development of all claims. This and previous court decisions construing the meaning of section 5107 of title 38, United States Code, have constructed a significant barrier to veterans who need assistance in obtaining information and evidence in order to receive benefits from the VA.

Definition of ''Claimant'' for Purposes of Veterans Claims

Current Law

Chapter 51 of title 38, United States Code, refers to an applicant for veterans benefits as a "claimant," but does not provide a definition of the term.

House Bill

Section 2 of H.R. 4864 would amend chapter 51 of title 38, United States Code, by adding a new section at the beginning of the chapter. The new section would define the term "claimant" to mean "any individual applying for, or submitting a claim for, any benefit under the laws administered by the Secretary."

Senate Bill

Section 101(a) of S. 1810 would add a new section 5101 to title 38, United States Code, to define the term "claimant" as "any individual who submits a claim for benefits under the laws administered by the Secretary."

Compromise Agreement

Section 2 of the compromise agreement follows the House language.

ASSISTANCE TO CLAIMANTS

APPLICATION FORMS; NOTICES TO CLAIMANTS OF INCOMPLETE APPLICATIONS

Current law

House Bill

Section 5102 of title 38, United States Code, provides that the Secretary shall furnish, upon request made in person or in writing by any person claiming or applying for benefits, all printed instructions and forms necessary to establish a claim for veterans benefits at no cost to the claimant.

Section 5103 of title 38, United States Code, provides that if a claimant's application for benefits is incomplete, the Secretary shall notify the claimant of the evidence necessary to complete the application. It further provides that in the event that the additional evidence is not received within one year from the date of notification, no benefits may be paid by reason of the incomplete application. Section 5103 does not apply to any application or claim for Government life insurance benefits. Section 5103 also provides that benefits may be not be denied on the basis that the claimant does not have a mailing address.

The Secretary of Veterans Affairs' duty to assist claimants is codified at section 5107(a) of title 38, United States Code. The courts have held that the Secretary's duty to assist claimants does not arise until a claimant has first submitted a "well-grounded" claim.

Section 3 of H.R. 4864 substantially revises current sections 5102, 5103, and 5107 of title 38, United States Code. The "duty to assist" provision would be transferred from section 5107 of title 38 to section 5103. As revised, section 5102 would contain almost all of existing sections 5102 and 5103. Subsection (a) of the proposed section 5102 is identical to existing section 5102. Subsections (c) and (d) of proposed section 5102 are identical to subsections (a) and (b) of existing subsection 5103. Proposed section 5102(b) contains the provisions of subsection (a) of existing section 5103. Proposed subsection 5102(b) clarifies the Secretary's obligation to send notices to the claimant and the claimant's representative, and to advise the claimant and the claimant's representative as to information the claimant must submit to complete the application. It also would require the Secretary to notify the claimant (and the claimant's representative) of any additional information and medical and lay evidence necessary to substantiate the claim, and which portion of such evidence is to be provided by the claimant and which portion, if any, the Secretary will attempt to obtain. Senate Bill

Section 101(b) of S. 1810 would amend existing section 5103(a) by striking "evidence"

both places it appears and inserting "information," in order to clarify that claimants will not be obligated to present any evidence upon initial application for benefits.

Subsection (c) of proposed section 5103A (as added by section 101(c)) would require VA to notify the claimant and the claimant's representative of the information and medical or lay evidence needed in order to aid in the establishment of eligibility for benefits, and inform the claimant and his or her representative what information under subsection (c)(1) the Secretary was unable to obtain.

## $Compromise\ Agreement$

Proposed section 5102(a) would require the Secretary to furnish all instructions and forms necessary when a request is made, or an intent is expressed, by any person applying for veterans benefits. It is the Committees' intent that such a request might be made by using various modes of communication—electronic, telephonic, written, or personal

The removal of the "in person or in writing" requirement from current section 5102 of title 38, United States Code, is not intended to change current VA regulations with respect to the definition of a claim or the requirements concerning what communication is sufficient to treat the communication as an informal claim. By removing the restriction on requests "in person or in writing," the Committees intend to permit veterans and VA to use current and future modes of communication. The Committees expect VA to appropriately document its communications with veterans regardless of the form of communication used.

The compromise version of revised section 5103 of title 38, United States Code, substantially maintains the current provisions of section 5103. However, it renames the title of the section as "Notice to claimants of required information and evidence" to more accurately reflect the section's purpose. The compromise agreement enhances the notice that the Secretary is now required to provide to a claimant and the claimant's representative regarding information that is necessary to complete the application. The notice would inform the claimant what information (e.g., Social Security number, address, etc.). and what medical evidence, (e.g., medical diagnoses and opinions on causes or onset of the condition, etc.) and lay evidence (e.g., statements by the veteran, witnesses, family members, etc.) is necessary to substantiate the claim. The notice would also specify which portion of this information and evidence is to be provided by the Secretary or by the claimant.

The compromise agreement also maintains the language in current section 5103 relating to time limits, but expands that language to include "information or evidence." It is not the Committees' purpose to modify the historical application of this provision, nor do the Committees intend that this section be interpreted as a hypertechnical bar to benefits. For example, if the Secretary notices a claimant to submit three pieces of information or evidence, and the claimant submits only two of the specified items, which are sufficient evidence for VA to grant the claim, then VA must act at that point. The failure to submit the additional information would not be grounds for barring payment of benefits of an otherwise established claim.

The Committees have agreed to use the phrase "information . . . and evidence . . . that is necessary to substantial the claim" [emphasis added] in appropriate places in revised sections 5103 and 5103A. This wording is

used in lieu of phrases such as "establishment of the eligibility of the claimant" (S. 1810) or "establishment of eligibility for the benefits sought" (H.R. 4864). Although all three phrases convey a similar if not identical purpose, the Committees believe that they have chosen a less ambigioius and more objective test for the types of evidence that could be useful to the Secretary in deciding the claim. If information or evidence has some probative value, there must be an effort made to obtain it or to explain to the claimant how he or she might obtain it.

It is the Committees' intent that the verb "to substantiate," as used in this subsection and throughout the compromise bill (cf., proposed 5103A(a), 5103A(2), 5103A(g)) be construed to mean "tending to prove" or "to support." Information or evidence necessary to substantiate a claim need not necessarily prove a claim—although it eventually may do so when a decision on a claim is made—but it needs to support a claim or give form and substance to a claim.

SECRETARY'S DUTY TO ASSIST CLAIMANTS:
GENERAL DUTY TO ASSIST

House Bill

Proposed subsection (a) of new section 5103 is a revision of language currently found in section 5107(a), which requires the Secretary to assist claimants who have filed a "well-grounded" claim. As revised, the Secretary would be obligated to assist a claimant in obtaining evidence that is necessary to establish eligibility for the benefit sought. The well-grounded claim requirement would be eliminated. However, the Secretary would be able to decide a claim without providing assistance under this subsection when no reasonable possibility exists that such assistance would aid in the establishment of eligibility for the benefit sought.

Senate Bill

Subsection (a) of proposed section 5103A would require the Secretary to make reasonable efforts to assist in the development of information and medical and lay evidence necessary to establish the eligibility of a claimant for benefits. It eliminates the well-grounded claim requirement.

Subsection (b) provides that the Secretary is not required to provide assistance to a claimant under subsection (a) if no reasonable possibility exists that such assistance would aid in the establishment of the eligibility of the claimant for benefits.

 $Compromise\ Agreement$ 

Section 3 of the compromise agreement would require the Secretary to make reasonable efforts to assist a claimant in obtaining evidence necessary to substantiate the claimant's claim for the benefit sought. The exact type of assistance, such as obtaining documentary evidence or medical examinations or opinions, is not specified in this section since the type of assistance needed for each claim will vary depending upon the benefit sought. This lack of specificity is not intended to limit the type of assistance required or rendered. However, the Secretary is not required to assist a claimant if no reasonable possibility exists that such assistance would aid in substantiating the claim. Under this section, the Secretary may defer providing assistance pending the submission by the claimant of essential information missing from the claimant's application.

ASSISTANCE IN OBTAINING RECORDS

House Bill

Proposed subsection (b) of the new section 5103 clarifies the Secretary's obligation to assist a claimant in obtaining evidence that

is relevant to a particular claim. Under the House bill, the Secretary would be required to make reasonable efforts to obtain relevant records that the claimant adequately identifies and authorizes the Secretary to obtain. Subsection (b) would also require that the Secretary provide notice to the claimant if the effort to obtain records is unsuccessful and briefly explain the Secretary's efforts to obtain such records, describe any further actions to be taken by the Secretary, and allow the claimant a reasonable opportunity to obtain the records before the claim is decided and notify the Secretary of such actions.

Senate Bill

The Senate bill does not specifically provide for general assistance to secure records, but considers that obligation as part of VA's duty to assist claimants in the development of information and evidence necessary to establish entitlement to benefits.

Compromise Agreement

Under section 3, the Secretary would be required to make reasonable efforts to obtain relevant records, including private records, that the claimant adequately identifies and authorizes the Secretary to obtain. In an effort to keep the claimant informed about the status of the development of his or her claim, the Secretary would be required to notify the claimant when the Department is unable to obtain records. The notice would identify the records the Secretary is unable to obtain, provide a brief explanation of the efforts that the Secretary has made to obtain those records, and describe any further action to be taken by the Secretary with respect to the claim. The Secretary would be required to continue attempts to obtain the records from a Federal department or agency until it is reasonably certain that the records do not exist or that further efforts to obtain them would be futile.

OBTAINING RECORDS FOR COMPENSATION CLAIMS  $House\ Bill$ 

Proposed subsection (c) of section 5103 would provide for special rules for obtaining evidence in disability compensation claims. For this type of claim, the Secretary would always be obligated to obtain (1) existing service medical records, and other relevant service records if the claimant has provided sufficient locator information, (2) records of treatment or examination at Department health care facilities, if the claimant has provided information sufficient to locate such records, and (3) records in the possession of other Federal agencies if such records are relevant to the veteran's claim.

 $Senate\ Bill$ 

Subsection (d) of the proposed 5103A would specify the assistance to be provided by the Secretary to a claimant applying for disability compensation. The Secretary would be obligated to obtain (1) relevant service and medical records maintained by applicable governmental entities that pertain to the veteran for the period or periods of the veteran's service in the active military, naval, or air service, (2) existing records of relevant medical treatment or examinations provided at Department health care facilities or at the expense of the Department but only if the claimant has furnished information sufficient to locate such records, (3) relevant records from adequately identified governmental entities authorized by the claimant to be released, and (4) relevant records from adequately identified private person or entities authorized by the claimant to be released. Efforts to obtain governmental

records would be required to continue until it is reasonably certain, as determined in accordance with the regulations prescribed under subsection (f) that such records do not exist.

Compromise Agreement

Recognizing that VA has a higher burden in securing records maintained by VA and other governmental agencies, section 3 of the compromise agreement requires the Secretary to obtain the claimant's service medical records and other relevant records pertaining to the claimant's active military, naval, or air service that are maintained by a governmental entity if the claimant provides sufficient information to locate them. By use of the term "governmental entity," it is the Committees' intention that VA also secure relevant records maintained by state national guard and reserve units, as they may provide important information relating to the veteran's service history.

## MEDICAL EXAMINATIONS FOR COMPENSATION CLAIMS

 $House\ Bill$ 

In the case of a claim for disability compensation, subsection (d) of proposed section 5103 would require the Secretary to provide a medical examination or obtain a medical opinion when the Secretary has established that (1) the claimant has (a) a current disability, (b) current symptoms of a disease that may not be characterized by symptoms for extended periods of time, or (c) persistent or recurrent symptoms of disability following discharge from service, and (2) there was an in-service event, injury, or disease (or combination of events, injuries, or diseases) during the claimant's active military, naval, or air service which could have caused or aggravated the current disability or symptoms, but (3) the evidence "on hand" is insufficient to establish service connection.

## SENATE BILL

Proposed section 5103A(d) would require VA to provide a medical examination needed for the purpose of determining the existence of a current disability if the claimant submits verifiable evidence, as determined in accordance with the regulations prescribed under subsection (f), establishing that the claimant is unable to afford medical treatment. Proposed subsection (e) provides that, while obtaining or after obtaining information or lay or medical evidence under subsection (d) of proposed 5103A, the Secretary determines that a medical examination or a medical opinion is necessary to substantiate entitlement to a benefit, the Secretary would then provide such medical examination or obtain such medical opinion.

## Compromise Agreement

Under section 3 of the compromise agreement, proposed section 5103A(d) provides that in the case of a claim for disability compensation, the Secretary shall provide a medical examination or obtain a medical opinion when such an examination or opinion is necessary to make a decision on the claim. Taking into consideration all information and lay or medical evidence (including statements of the claimant), an examination would be necessary if the evidence of record (a) contains competent evidence that the claimant has a current disability, or persistent or recurrent symptoms of a disability and, (b) indicates that the disability or symptoms may be associated with the claimant's active military, naval, or air service but, (c) does not contain sufficient medical evidence for the Secretary to make a decision on the claim. It is the Committees' intent that the term "disability" cover both injuries and diseases, including symptoms of undiagnosed illnesses.

In the revised section 5103A, the Committees have agreed to use the phrase "if the evidence of record . . . taking into consideration all information and lay or medical evidence (including statements of the claimant) . . contains competent evidence . . . that the claimant has a current disability, or persistent or recurrent symptoms of disability" [emphasis added] as the threshold for when VA must obtain a medical examination or opinion for compensation claimants. This wording is used to describe evidence that is "fit for the purpose for which it is offered." U.S. v. DeLucia, 256 F.2d 487, 491 (7th Cir. 1958). Competent evidence would be evidence that is offered by someone capable of attesting to it; it need not be evidence that is credible or sufficient to establish the claim. A veteran (or layperson) can provide competent evidence that he or she has a pain in the knee since that evidence is fit for the purpose for which it is offered. However, VA would not be bound to accept a veteran's assertion that he has a torn ligament, for that would require more sophisticated information, such as the results of a medical examination or special medical testing. The Committees emphasize that medical examinations or medical opinions may be needed in order for the Secretary to fulfill the duty to assist in other situations not mandated by this section under the general duty to assist required in section 3.

#### REGULATIONS

House Bill

Proposed subsection 5103(e) would require the Secretary to prescribe regulations (1) specifying the evidence needed to establish a claimant's eligibility for a benefit and (2) defining the records that are relevant to a claim.

Senate Bill

Proposed subsection 5103A(f) of S. 1810 would require the Secretary to prescribe regulations for purposes of the administration of new section 5103A.

 $Compromise\ Agreement$ 

Section 3 of the compromise agreement would require the Secretary to prescribe regulations in order to carry out this section. It is the Committees' intent that these regulations address the provisions of the language described above under "House Bill."

RULE WITH RESPECT TO DISALLOWED CLAIMS  $House\ Bill$ 

Proposed subsection (f) of section 5103 would specify that nothing in section 5103 would be construed to require the Secretary to reopen a claim that had been disallowed except when new and material evidence is presented or secured, as described in section 5108 of title 38, United States Code.

Senate Bill

S. 1810 does not contain a similar provision.

 $Compromise\ Agreement$ 

Section 3 of the compromise agreement follows the House language.

OTHER ASSISTANCE NOT PRECLUDED  $House\ Bill$ 

Proposed subsection (g) of section 5103 would clarify that nothing in section 5103 would be construed as precluding the Secretary from providing such other assistance to a claimant as the Secretary considers appropriate.

Senate Bill

Proposed subsection 5103A(d)(1)(F) would provide that the Secretary would provide

any other appropriate assistance not specifically listed in section 5103(d).

Compromise Agreement

Section 3 of the compromise agreement follows the House language.

REENACTMENT OF RULE FOR CLAIMANTS LACKING A MAILING ADDRESS

House Bill

Proposed section 3(b) of H.R. 4864 would recodify the language found at section 5103(c) as a new section 5126 of title 38, United States Code.

Senate Bill

S. 1810 does not contain a similar provision.

Compromise Agreement

Section 3 of the compromise agreement follows the House language.

#### DECISION ON CLAIM

Current Law

Under section 5107(a) of title 38, United States Code, a person who submits a claim for benefits has the burden of submitting evidence sufficient to justify a belief by a fair and impartial individual that the claim is 'well-grounded.' In order to file a "welldisability compensation claim, grounded" the court has ruled that the claimant must present evidence of 1) a current disability, 2) an in-service incidence or aggravation of a disease or injury, and 3) a nexus between the in-service disease or injury and the current disability, Caluza v. Brown, 7 Vet. App. 498 (1995) aff'd 78 F.3d 604 (Fed. Cir. 1996 table). Once that burden had been met, the Secretary must assist the claimant in developing the facts pertinent to the claim.

Under section 5107(b) of title 38, United States Code, the Secretary is required to give claimant the benefit of the doubt in resolving each material issue where there is an approximate balance of positive and negative evidence regarding the merits of the issue. Subsection (b) also provides that nothing in that subsection shall be construed as shifting the burden of establishing a well-grounded claim from the claimant to the Secretary. House Bill

Section 4 of the House bill would revise section 5107 of title 38, United States Code, to eliminate the requirement that a veteran submit a "well-grounded" claim. The proposed revision of section 5103 discussed above sets out the authority for the Secretary to provide assistance to a claimant. Thus, the extent to which the Secretary conducted a separate threshold examination of the evidence provided in support of a claim are addressed in that section. The revised section 5107 would restate, without any substantive change, the requirements in existing law that the claimant has the burden of proving entitlement to benefits and that the Secretary must provide the benefit of the doubt to the claimant when there is an approximate balance of positive and negative evidence regarding a material issue.

Senate Bill

Section 101(e) of S. 1810 would amend section 5107 of title 38, United States Code, to eliminate the requirement that claimants submit evidence sufficient to justify the belief that the claim is "well-grounded" before VA will execute its duty to assist. Section 5107(a), as amended, would specify that the burden of proof to establish entitlement to VA benefits remains with the claimant. Section 5107(b), as amended, retains the language in current section 5107(b) requiring that claimants be given the "benefit of the

doubt" when there exists an approximate balance of positive and negative evidence.

Compromise Agreement

Proposed section 5107(a) of the compromise agreement provides that a claimant has the responsibility to present and support a claim for the benefit sought. As under current law, the Secretary would be required to consider all information and lay and medical evidence of record, and when there is an approximate balance of positive and negative evidence regarding an issue material to the determination of a matter, the Secretary would be required to give the benefit of the doubt to the claimant.

PROHIBITION OF CHARGES FOR RECORDS FURNISHED BY OTHER FEDERAL DEPARTMENTS AND AGENCIES

Current Law

Section 5106 of title 38, United States Code, provides that in obtaining evidence for the development of a claim for veterans benefits, Federal departments or agencies shall provide information that the Secretary requests to determine eligibility for, or the amount of benefits, or to verify other information necessary to adjudicate a claim.

House Bill

Section 5 of the House bill adds a new sentence to section 5106 to provide that Federal departments or agencies shall furnish the Department of Veterans Affairs with records pertaining to a benefits application without charge.

Senate Bill

Proposed section 5103A(d) provides that the costs of providing VA with information are to be borne by the department or agency supplying the information.

Compromise Agreement

Section 5 of the compromise agreement follows the Senate language.

## EFFECTIVE DATE

House Bill

Section 6 of the House bill provides that, in general, the provisions in the bill would apply to claims filed on or after the date of enactment and to claims which are not final as of that date. Subsection (b) of section 6 would establish a special rule providing retroactive relief on claims which were not final or which were dismissed was not "wellgrounded" beginning on July 14, 1999 (the effective date of the Morton decision). In such cases, the Secretary would order the claim to be readjudicated at the request of the claimant or on the Secretary's own motion. Subsection (b)(2) would provide that a motion to readjudicate the claim would have to be made within two years from the date of enactment, while subsection (b)(3) would relieve the Secretary, in the absence of a motion to readjudicate, of any obligation to locate and readjudicate claims which might be affected by the change in law described in this subsection.

Senate Bill

The Senate provision is virtually identical to the House bill.

Compromise Agreement

Section 7 of the compromise agreement contains this provision.  $\,$ 

Madam Speaker, I reserve the balance of my time.

Mr. EVANS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in strong support of the Veterans Claims Assistance Act of 2000, H.R. 4864, and I thank every

individual who helped perfect this measure, particularly the gentleman from Arizona (Chairman STUMP). This has broad-based bipartisan, bicameral support; and it is worthy of the support of every Member of this House.

Last fall, after the Department of Veterans Affairs implemented the Morton versus West decision of the United States Court of Appeals for veterans claims, I introduced H.R. 3193, the Duty to Assist Act. This legislation was introduced to correct erroneous interpretations of the law. Judicial review was intended to continue VA's long-standing obligation to assist all veterans develop their claims. Under this decision, the exact opposite has occurred.

On March 23, 2000, the Subcommittee on Benefits held a hearing on my bill. Following that, a bipartisan compromise, H.R. 4864, was introduced.

I am especially pleased all critical providings of H.R. 3193 have been perfected and incorporated into H.R. 4864's amendment. These include the removal of the well-grounded claim requirement, specific notice requirements, duty to assist all claimants, additional specific requirements for service-connected disability claims.

I strongly believe in judicial review. However, the courts can, and do, make erroneous decisions. When those decisions affect the fundamental rights of veterans, it is Congress' responsibility to correct the problem. I believe this measure will do this.

Madam Speaker, I urge my colleagues to support the Veterans Claims Assistance Act of 2000, H.R. 4864.

Madam Speaker, the Veterans Claims Assistance Act of 2000, H.R. 4864, is the product of hard work of many people. Members of the Veterans' Affairs Committees of both bodies, Democratic and Republican committee staff from both bodies, representatives of veterans service organizations and the administration have all contributed to this measure. I thank each individual who has helped perfect this measure and I particularly thank Chairman STUMP for his leadership in crafting H.R. 4864, which has broad bipartisan, bicameral support.

Last fall, after the Department of Veterans Affairs (VA) implemented the Morton v. West decision of the United States Court of Appeals for Veterans Claims, I introduced H.R. 3193, the Duty to Assist Act. This legislation was introduced to correct erroneous interpretations of law. Judicial review was intended to continue VA's long standing obligation to assist all veterans with the development of their claims. Under the Morton decision, the exact opposite occurred.

On March 23, 2000, the Subcommittee on Benefits held a hearing on my bill and the problems experienced by veterans under the well-grounded claim requirement. A number of suggestions were made during this hearing and in subsequent meetings with representatives of the VA and veterans service organizations. As a result, a bipartisan compromise bill H.R. 4864, was introduced. The other body also addressed this problem in a provision included in S. 1810. The compromise bill we are

considering today, H.R. 4864, as amended by the other body, includes elements of bills passed by both houses of Congress.

I am especially pleased that all of the critical provisions from H.R. 3193 have been perfected and incorporated into H.R. 4864. These include:

REMOVAL OF THE WELL-GROUNDED CLAIM REQUIREMENT

First and most importantly, the bill eliminates the requirement that a veteran submit a well-grounded claim before VA is required to offer any help to a veteran in the development of his or her claim.

Unfortunately for veterans and their survivors, the requirement to submit a wellgrounded claim gradually increased from the concept of a uniquely low threshold, to a significant barrier, requiring veterans to purchase medical evaluations and opinion before their claims could be considered on their merits. Claims of combat-injured veterans were denied before VA adjudicators even obtained copies of the veterans' service medical records. Veterans who were being discharged from military service because of a disability had their claim for service-connected disability benefits for that disability denied as not wellgrounded. In some of these cases, the veteran later supplied copies of their military and other medical records and had benefits awarded after multiple decision concerning the "wellgroundedness" of various parts of the claim. In other cases, I fear that deserving veterans have just gone away, feeling betrayed by the government they have served so honorably.

By removing the well-grounded claim requirement, I expect that the VA will proceed in a fair and reasonable fair manner to identify and obtain all of the relevant evidence necessary to make an accurate decision on the claim when it is first presented. While some claims may ultimately be denied, by obtaining and reviewing all of the relevant evidence first, veterans will be assured that their claims have been fairly and fully considered.

## SPECIFIC NOTICE REQUIREMENTS

I am particularly concerned that the notices sent to veterans often do not contain clear information that enables the veteran to understand what actions VA has taken or will take and what information or evidence the veteran should provide. If VA is requesting the veteran to supply information such as employment information or school records of children, the notice should provide enough information in clearly understandable language for the veteran to understand what is being requested. Following the Morton decision many veterans received virtually indecipherable notices advising them that their claim was "not well-grounded". I encourage the VA to continue developing communications using plain English which the majority of beneficiaries can be expected to understand. The compromise bill expands upon the notice requirements specified in H.R. 3193.

## DUTY TO ASSIST ALL CLAIMANTS

The compromise bill makes it clear that VA has a duty to make reasonable efforts to assist all claimants in obtaining evidence needed to substantiate their claim. What is reasonable will depend upon the nature of the claim being pursued and the evidence which is needed to establish that claim. If a medical examination

or opinion is needed VA is required to provide it. If private medical records are needed, VA should request the records from the treating source with the consent of the veteran claimant.

ADDITIONAL SPECIFIC REQUIREMENTS FOR SERVICE-CONNECTED DISABILITY CLAIMS

The compromise bill contains specific special requirements for the adjudication of service-connected disability claims. These requirements recognize that certain actions are always necessary to the proper development of claims for service-connected compensation benefits and are therefore mandated.

The Committees have determined that because of special responsibility of the government for claims for service-connected compensation benefits that there are certain circumstances when VA may not proceed to decide a claim without first obtaining a medical examination or opinion. If the record contains competent evidence that the claimant has a current disability or symptoms and indicates that the disability or symptoms may be associated with the claimant's military service, but the medical evidence is insufficient to make a determination on the claim, VA must obtain a medical evaluation or opinion. If the evidence is sufficient to decide the claim, VA may proceed to decide it.

I am particularly concerned with the number of cases reviewed by Committee staff in which VA has evidence of a current disability and an indication of a potential in-service incident or series of events which may have caused or aggravated the disability, but VA has failed to obtain a medical opinion concerning the relationship between the two. For example, under this provision, I expect that if a veteran's military records indicate he served as a paratrooper, making multiple jumps during service in Vietnam and the veteran now has evidence of arthritis of the knees he indicates was due to these jumps, VA will be required to obtain a medical opinion as to whether it is as likely as not that his current arthritis is related to his military service.

I recognize that some concerns have been raised that because the bill mandates certain procedures in some circumstances and not in others, VA will refuse to comply with its general duty to assist contained in the amended section 5103A(a)(1) of title 38. I do not believe that in implementing this law, VA will refuse to comply with its general duty to assist.

The general duty to assist section is intended to provide VA with the flexibility to make whatever reasonable efforts are needed in order to properly adjudicate the particular claim. If a pension applicant needs a medical examination to determine disability, I fully expect VA to provide a medical examination. If a medical evaluation or opinion is needed to resolve conflicts in the medical evidence related to a service-connected claim, I fully expect VA to obtain the requisite examination or opinion. the special provisions mandated for service-connected claims in some circumstances is not, and should not be interpreted by VA, as a license to ignore the general duty to assist provided in the same bill.

I strongly believe in judicial review. However, courts can—and do—make erroneous decisions. When those decisions affect the fundamental rights of veterans, it is Congress'

responsibility to correct the problem. H.R. 4864, as amended, will do this.

Veterans seeking to establish their entitlement to benefits they have earned as a result of their service to our country deserve to have their claims decided fairly and fully based upon all relevant and available evidence. Where it is as likely as not that a disability was incurred or aggravated during military service, the benefit of the doubt rule dictates that the disability will be service-connected. Passage of H.R. 4864 will help to assure that their claims are properly considered and fairly decided.

Madam Speaker, I reserve the balance of my time.

Mr. STUMP. Madam Speaker, I yield such time as he may consume to the gentleman from Nevada (Mr. GIBBONS), a member of the committee.

Mr. GIBBONS. Madam Speaker, to the gentleman from Arizona (Mr. STUMP), my friend and colleague, the distinguished chairman of the Committee on Veterans' Affairs, I want to thank him for his leadership, as well as the gentleman from Illinois (Mr. EVANS), the ranking member, for his contributions and leadership to this very important issue.

Madam Speaker, I am pleased to rise today in support of H.R. 4864, as amended, the Veterans Claims Assistance Act of 2000. The members of the Subcommittee on Benefits have worked for the past 7 months on crafting legislation to address the Morton versus West decision by the Court of Appeals for veterans claims. H.R. 4864, as amended, meets that challenge.

This and previous court decisions have construed VA's authority to develop claims that are not what is legally referred to as well grounded, and the results have created a significant barrier to veterans who need assistance in obtaining information and evidence in order to receive benefits from the VA.

Among other things, H.R. 4864, as amended, requires the Secretary to furnish all necessary forms and instructions to file a claim when a request is made and requires the Secretary to make reasonable efforts to assist in the development of information and medical and lay evidence necessary to establish eligibility of a claimant for benefits.

## $\square$ 1215

This bill eliminates the "well grounded" requirements.

With regard to compensation claims, this bill requires the Secretary to obtain the claimant's service medical records and other relevant records pertaining to the claimant's active military service, if the claimant provides sufficient information to locate them, and requires the Secretary to provide a medical examination or obtain a medical opinion when such an exam or opinion is necessary to make a decision on that claim.

As the chairman has indicated, we have been working with the VA officials and members of veterans service organizations to develop a bill that addresses the concerns of all interested parties, and I believe we have succeeded in this bill. I want to thank the chairman and the ranking member once again for their leadership, and I urge my colleagues to support H.R. 4864 as amended.

Mr. EVANS. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. STUMP. Madam Speaker, I yield myself such time as I may consume to thank the ranking member of the committee, the gentleman from Illinois (Mr. EVANS), and express my appreciation for his efforts on behalf of this legislation.

I also want to thank the members of the Subcommittee on Benefits, and the chairman in particular, for all their hard work on H.R. 4864.

I would also like to tell my colleagues about the hard work performed by the chairman of the Subcommittee on Benefits, the gentleman from New York (Mr. QUINN), during the 106th Congress. This Congress has been a very good one for veterans, due in no small part to the extraordinary energy of the gentleman from New York. He has done a commendable job leading a subcommittee that deals with very difficult and sometimes emotional issues, and I thank him very much for all his hard work.

I would also like to thank the gentleman from Nevada (Mr. GIBBONS), a member of the committee, for his contributions to this bill.

Mr. FILNER. Madam Speaker, I thank the Chairman, Mr. STUMP and the Ranking Member of the Full Committee, Mr. EVANS for their hard work in bringing the Veterans Claims Assistance Act of 2000, H.R. 4864 as amended, before us today.

Following the U.S. Court of Appeals for Veterans Claims decision in *Morton v. West* thousands of veterans throughout this country received letters from VA telling them that their claims for disability benefits were "not well-grounded." In many cases, the notices were incomprehensible to veterans.

Veterans were told that they had to submit evidence of a "nexus" between their military service and current disability before VA would provide them any help at all. Claims of combat injured veterans were denied before records of military service were obtained.

In our subcommittee hearing on Mr. EVAN's bill we heard eloquent testimony about the seriousness of the problem.

Veterans with claims for service-connected disabilities which were noted in their service medical records had those claims rejected as "not well-grounded."

Veterans being treated by VA physicians were denied VA medical opinions concerning the relationship between their disability and their military service and were thus unable to provide "nexus" statements VA required without purchasing medical opinions at their own expense.

Vietnam veterans with conditions presumed under law to be service-connected as a result of Agent Orange exposure had claims rejected as not well-grounded.

Medal of Honor winners and former Prisoners of War had their claims rejected.

This bill will rectify those errors. In addition, the bill contains very specific notice requirements. Even as a former college professor, I have found notices sent to veterans who contact my office, both here and in San Diego, to be virtually incomprehensible. The compromise bill passed by the Senate requires VA to inform veterans when additional information is needed. If VA is unable to obtain records identified by the claimant, VA is required to notify the claimant that the records were not obtained, describe the efforts made to obtain the records and describe the action to be taken by the Secretary. These provisions were inserted to assure that veterans are able to make informed decisions concerning their claims. I expect VA to provide this information in simple, plain, understandable English.

By passing H.R. 4864, this House agreed that veterans and other claimants have a right to have their claims fully developed and properly evaluated. The Senate has now agreed.

By passing this bill Congress will send a strong message to the VA and our Nation's veterans concerning our government's obligation to care for him who has borne the battle. I urge my colleagues to support this bill.

Mr. GÍLMAN. Madam Speaker, I rise today in strong support of H.R. 4864, the Veterans' Claims Assistance Act of 2000. I urge my colleagues to join in supporting this worthy legislation.

H.R. 4864, authorizes the Secretary of Veterans Affairs to assist a veteran claimant in obtaining evidence to establish an entitlement to a benefit. The bill achieves this by requiring the Secretary of Veterans Affairs to make reasonable efforts to obtain relevant records that the claimant identifies, unless there is no reasonable possibility that assistance would aid in substantiating the claim. Also, the measure eliminates the requirement that a claimant submit a "well-grounded" claim before the Secretary can assist in obtaining evidence.

For service-connected disability compensation claims, H.R. 4864 requires the Secretary to obtain existing service medical records and other relevant records pertaining to the claimant's active military, naval, or air service that are maintained by the Government if the claimant provides sufficient information to locate them, and provide a medical examination or obtain a medical opinion when such an examination (or opinion) is necessary to make a decision on the claim. The bill further requires other Federal agencies to furnish relevant records to the Department at no cost to the claimant.

Under the bill a "claimant" is a person who would be eligible to receive assistance from the Veterans Secretary as any person seeking veterans benefits. The Secretary would be required to give the benefit of the doubt to the claimant when there is an approximate balance of positive and negative evidence regarding an issue material to the determination of a matter.

Finally, H.R. 4864 permits veterans who had claims denied or dismissed after the court of

appeals for veterans claims decision in Morton v. West to request review of those claims within a 2-year period following enactment.

Madam Speaker, the VA claims process was initially intended to be friendly to the veterans. In recent years, however, the system has been plagued by unacceptably long delays and far too many bureaucratic hurdles. Earlier this year, the House addressed the issue of timeliness. This bill seeks to remove one of the barriers that has recently arisen to block the successful resolution of many claims.

In July 1999, the court of appeals for veterans claims stated in the case of Morton v. West that the Veterans Administration (VA) could help a veteran obtain records relevant to a claim only after the veteran provided enough evidence to prove that the claim is "well-grounded."

This decision, not only prevents the VA from providing assistance to veterans, it has also led to confusion concerning the meaning and application of the "well grounded" claim requirement. H.R. 4864 clarifies the "well grounded" claim requirement and enables the VA to once again provide as much assistance as possible to veterans.

Accordingly, I urge my colleagues to support this important legislation.

Mr. STUMP. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. Morella). The question is on the motion offered by the gentleman from Arizona (Mr. STUMP) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 4864.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

VETERANS BENEFITS AND HEALTH CARE IMPROVEMENT ACT OF 2000

Mr. STUMP. Madam Speaker, I move to suspend the rules and concur in the Senate amendments to the House amendments to the Senate bill (S. 1402) to amend title 38, United States Code, to enhance programs providing education benefits for veterans, and for other purposes.

The Clerk read as follows:

Senate amendments to house amendments: In lieu of the matter proposed to be inserted by the House amendment to the text of the bill, insert:

#### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

- (a) SHORT TITLE.—This Act may be cited as the "Veterans Benefits and Health Care Improvement Act of 2000".
- (b) Table of Contents.—The table of contents for this Act is as follows:
- Sec. 1. Short title; table of contents.
- Sec. 2. References to title 38, United States Code.

Subtitle A—Montgomery GI Bill Educational Assistance

- Sec. 101. Increase in rates of basic educational assistance under Montgomery GI Bill.
- Sec. 102. Uniform requirement for high school diploma or equivalency before application for Montgomery GI Bill benefits.
- Sec. 103. Repeal of requirement for initial obligated period of active duty as condition of eligibility for Montgomery GI Bill benefits.
- Sec. 104. Additional opportunity for certain VEAP participants to enroll in basic educational assistance under Montgomery GI Bill.
- Sec. 105. Increased active duty educational assistance benefit for contributing members.

Subtitle B—Survivors' and Dependents' Educational Assistance

- Sec. 111. Increase in rates of survivors' and dependents' educational assistance.
- Sec. 112. Election of certain recipients of commencement of period of eligibility for survivors' and dependents' educational assistance.
- Sec. 113. Adjusted effective date for award of survivors' and dependents' educational assistance.
- Sec. 114. Availability under survivors' and dependents' educational assistance of preparatory courses for college and graduate school entrance erams

Subtitle C—General Educational Assistance

- Sec. 121. Revision of educational assistance interval payment requirements.
- Sec. 122. Availability of education benefits for payment for licensing or certification tests.
- Sec. 123. Increase for fiscal years 2001 and 2002 in aggregate annual amount available for State approving agencies for administrative expenses.

#### TITLE II—HEALTH PROVISIONS

Subtitle A—Personnel Matters

- Sec. 201. Annual national pay comparability adjustment for nurses employed by Department of Veterans Affairs.
- Sec. 202. Special pay for dentists.
- Sec. 203. Exemption for pharmacists from ceiling on special salary rates.
- Sec. 204. Temporary full-time appointments of certain medical personnel.
- Sec. 205. Qualifications of social workers.
- Sec. 206. Physician assistant adviser to Under Secretary for Health.
- Sec. 207. Extension of voluntary separation incentive payments.

Subtitle B—Military Service Issues

- Sec. 211. Findings and sense of Congress concerning use of military histories of veterans in Department of Veterans Affairs health care.
- Sec. 212. Study of post-traumatic stress disorder in Vietnam veterans.

Subtitle C—Medical Administration

- Sec. 221. Department of Veterans Affairs Fisher Houses.
- Sec. 222. Exception to recapture rule.
- Sec. 223. Sense of Congress concerning cooperation between the Department of Veterans Affairs and the Department of Defense in the procurement of medical items.
- Sec. 224. Technical and conforming changes.

- Subtitle D—Construction Authorization
- Sec. 231. Authorization of major medical facility projects.
- Sec. 232. Authorization of appropriations.

Subtitle E-Real Property Matters

- Sec. 241. Change to enhanced use lease congressional notification period.
- Sec. 242. Release of reversionary interest of the United States in certain real property previously conveyed to the State of Tennessee.
- Sec. 243. Demolition, environmental cleanup, and reversion of Department of Veterans Affairs Medical Center, Allen Park, Michigan.
- Sec. 244. Conveyance of certain property at the Carl Vinson Department of Veterans Affairs Medical Center, Dublin. Georgia.
- Sec. 245. Land conveyance, Miles City Department of Veterans Affairs Medical Center complex, Miles City, Montana.
- Sec. 246. Conveyance of Fort Lyon Department of Veterans Affairs Medical Center, Colorado, to the State of Colorado.
- Sec. 247. Effect of closure of Fort Lyon Department of Veterans Affairs Medical Center on administration of health care for veterans.
- TITLE III—COMPENSATION, INSURANCE, HOUSING, EMPLOYMENT, AND MEMO-RIAL AFFAIRS PROVISIONS
- Subtitle A—Compensation Program Changes
- Sec. 301. Strokes and heart attacks incurred or aggravated by members of reserve components in the performance of duty while performing inactive duty training to be considered to be service-connected.
- Sec. 302. Special monthly compensation for women veterans who lose a breast as a result of a service-connected disability.
- Sec. 303. Benefits for persons disabled by participation in compensated work therapy program.
- Sec. 304. Revision to limitation on payments of benefits to incompetent institutionalized veterans.
- Sec. 305. Review of dose reconstruction program of the Defense Threat Reduction Agency.

#### Subtitle B—Life Insurance Matters

- Sec. 311. Premiums for term Service Disabled Veterans' Insurance for veterans older than age 70.
- Sec. 312. Increase in automatic maximum coverage under Servicemembers' Group Life Insurance and Veterans' Group Life Insurance.
- Sec. 313. Eligibility of certain members of the Individual Ready Reserve for Servicemembers' Group Life Insurance.
- Subtitle C—Housing and Employment Programs Sec. 321. Elimination of reduction in assistance for specially adapted housing for disabled veterans for veterans having joint ownership of housing units.
- Sec. 322. Veterans employment emphasis under Federal contracts for recently separated veterans.
- Sec. 323. Employers required to grant leave of absence for employees to participate in honor guards for funerals of veterans.
- Subtitle D—Cemeteries and Memorial Affairs Sec. 331. Eligibility for interment of certain Filipino veterans of World War II in national cemeteries.

- Sec. 332. Payment rate of certain burial benefits for certain Filipino veterans of World War II
- Sec. 333. Plot allowance for burial in State veterans cemeteries.

#### TITLE IV—OTHER MATTERS

- Sec. 401. Benefits for the children of women Vietnam veterans who suffer from certain birth defects.
- Sec. 402. Extension of certain expiring authorities.
- Sec. 403. Preservation of certain reporting requirements.
- Sec. 404. Technical amendments.

## SEC. 2. REFERENCES TO TITLE 38, UNITED STATES CODE.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

## TITLE I—EDUCATIONAL ASSISTANCE PROVISIONS

#### Subtitle A—Montgomery GI Bill Educational Assistance

#### SEC. 101. INCREASE IN RATES OF BASIC EDU-CATIONAL ASSISTANCE UNDER MONTGOMERY GI BILL.

- (a) ACTIVE DUTY EDUCATIONAL ASSISTANCE.— Section 3015 is amended—
- (1) in subsection (a)(1), by striking "\$528" and inserting "\$650"; and
- (2) in subsection (b)(1), by striking "\$429" and inserting "\$528".
- (b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on November 1, 2000, and shall apply with respect to educational assistance allowances paid under chapter 30 of title 38, United States Code, for months after October 2000.

#### SEC. 102. UNIFORM REQUIREMENT FOR HIGH SCHOOL DIPLOMA OR EQUIVALENCY BEFORE APPLICATION FOR MONT-GOMERY GI BILL BENEFITS.

- (a) ACTIVE DUTY PROGRAM.—(1) Section 3011 is amended—
- (A) in subsection (a), by striking paragraph (2) and inserting the following new paragraph
- "(2) who completes the requirements of a secondary school diploma (or equivalency certificate), or successfully completes (or otherwise receives academic credit for) the equivalent of 12 semester hours in a program of education leading to a standard college degree, before applying for benefits under this section; and"; and
  - (B) by striking subsection (e).
- (2) Section 3017(a)(1)(A)(ii) is amended by striking "clause (2)(A)" and inserting "clause (2)".
- (b) SELECTED RESERVE PROGRAM.—Section 3012 is amended—
- (1) in subsection (a), by striking paragraph (2) and inserting the following new paragraph (2):
- "(2) who completes the requirements of a secondary school diploma (or equivalency certificate), or successfully completes (or otherwise receives academic credit for) the equivalent of 12 semester hours in a program of education leading to a standard college degree, before applying for benefits under this section; and"; and
  - (2) by striking subsection (f).
- (c) WITHDRAWAL OF ELECTION NOT TO EN-ROLL.—Paragraph (4) of section 3018(b) is amended to read as follows:
- "(4) before applying for benefits under this section—
- "(A) completes the requirements of a secondary school diploma (or equivalency certificate); or
- "(B) successfully completes (or otherwise receives academic credit for) the equivalent of 12

semester hours in a program of education leading to a standard college degree; and".

(d) EDUCATIONAL ASSISTANCE PROGRAM FOR MEMBERS OF SELECTED RESERVE.—Paragraph (2) of section 16132(a) of title 10, United States Code, is amended to read as follows:

- "(2) before applying for benefits under this section, has completed the requirements of a secondary school diploma (or an equivalency certificate):".
- (e) DELIMITING PERIOD.—(1) In the case of an individual described in paragraph (2), with respect to the time limitation under section 3031 of title 38, United States Code, for use of eligibility and entitlement of basic educational assistance under chapter 30 of such title, the 10-year period applicable under such section shall begin on the later of—
- (A) the date of the enactment of this Act; or (B) the date of the individual's last discharge or release from active duty.
- (2) An individual referred to in paragraph (1) is an individual who—
- (A) before the date of the enactment of this Act, was not eligible for such basic educational assistance by reason of the requirement of a secondary school diploma (or equivalency certificate) as a condition of eligibility for such assistance as in effect on the date preceding the date of the enactment of this Act; and
- (B) becomes entitled to basic educational assistance under section 3011(a)(2), 3012(a)(2), or 3018(b)(4) of title 38, United States Code, by reason of the amendments made by this section.

## SEC. 103. REPEAL OF REQUIREMENT FOR INITIAL OBLIGATED PERIOD OF ACTIVE DUTY AS CONDITION OF ELIGIBILITY FOR MONTGOMERY GI BILL BENEFITS.

- (a) ACTIVE DUTY PROGRAM.—Section 3011 is amended—
- (1) in subsection (a)(1)(A)—
- (A) by striking clause (i) and inserting the following new clause (i):
- "(i) who serves an obligated period of active duty of at least two years of continuous active duty in the Armed Forces; or"; and
- (B) in clause (ii)(II), by striking "in the case of an individual who completed not less than 20 months" and all that follows through "was at least three years" and inserting "if, in the case of an individual with an obligated period of service of two years, the individual completes not less than 20 months of continuous active duty under that period of obligated service, or, in the case of an individual with an obligated period of service of at least three years, the individual completes not less than 30 months of continuous active duty under that period of obligated service":
- (2) in subsection (d)(1), by striking "individual's initial obligated period of active duty" and inserting "obligated period of active duty on which an individual's entitlement to assistance under this section is based";
- (3) in subsection (h)(2)(A), by striking "during an initial period of active duty," and inserting "during the obligated period of active duty on which entitlement to assistance under this section is based.": and
- (4) in subsection (i), by striking "initial".
- (b) SELECTED RESERVE PROGRAM.—Section 3012 is amended—
- (1) in subsection (a)(1)(A)(i), by striking ", as the individual's" and all that follows through "Armed Forces" and inserting "an obligated period of active duty of at least two years of continuous active duty in the Armed Forces"; and
- (2) in subsection (e)(1), by striking "initial".
- (c) Duration of Assistance.—Section 3013 is amended—
- (1) in subsection (a)(2), by striking "individual's initial obligated period of active duty" and inserting "obligated period of active duty on which such entitlement is based"; and

- (2) in subsection (b)(1), by striking "individual's initial obligated period of active duty" and inserting "obligated period of active duty on which such entitlement is based".
- (d) Amount of Assistance.—Section 3015 is amended—
- (1) in the second sentence of subsection (a), by inserting before "a basic educational assistance allowance" the following: "in the case of an individual entitled to an educational assistance allowance under this chapter whose obligated period of active duty on which such entitlement is based is three years.":
- (2) in subsection (b), by striking "and whose initial obligated period of active duty is two years," and inserting "whose obligated period of active duty on which such entitlement is based is two years,"; and
- (3) in subsection (c)(2), by striking subparagraphs (A) and (B) and inserting the following new subparagraphs (A) and (B):
- "(A) whose obligated period of active duty on which such entitlement is based is less than three years:
- "(B) who, beginning on the date of the commencement of such obligated period of active duty, serves a continuous period of active duty of not less than three years; and".
- (e) DELIMITING PERIOD.—(1) In the case of an individual described in paragraph (2), with respect to the time limitation under section 3031 of title 38, United States Code, for use of eligibility and entitlement of basic educational assistance under chapter 30 of such title, the 10-year period applicable under such section shall begin on the later of—
- (A) the date of the enactment of this Act; or (B) the date of the individual's last discharge or release from active duty.
- (2) An individual referred to in paragraph (1) is an individual who—
- (A) before the date of the enactment of this Act, was not eligible for basic educational assistance under chapter 30 of such title by reason of the requirement of an initial obligated period of active duty as condition of eligibility for such assistance as in effect on the date preceding the date of the enactment of this Act; and
- (B) on or after such date becomes eligible for such assistance by reason of the amendments made by this section.

## SEC. 104. ADDITIONAL OPPORTUNITY FOR CERTAIN VEAP PARTICIPANTS TO ENROLL IN BASIC EDUCATIONAL ASSISTANCE UNDER MONTGOMERY GIRILI.

- (a) SPECIAL ENROLLMENT PERIOD.—Section 3018C is amended by adding at the end the following new subsection:
- "(e)(1) A qualified individual (described in paragraph (2)) may make an irrevocable election under this subsection, during the one-year period beginning on the date of the enactment of this subsection, to become entitled to basic educational assistance under this chapter. Such an election shall be made in the same manner as elections made under subsection (a)(5).
- "(2) A qualified individual referred to in paragraph (1) is an individual who meets each of the following requirements:
- "(A) The individual was a participant in the educational benefits program under chapter 32 of this title on or before October 9, 1996.
- "(B) The individual has continuously served on active duty since October 9, 1996 (excluding the periods referred to in section 3202(1)(C) of this title), through at least April, 1, 2000.
- "(C) The individual meets the requirements of subsection (a)(3).
- "(D) The individual, when discharged or released from active duty, is discharged or released therefrom with an honorable discharge.
- "(3)(A) Subject to the succeeding provisions of this paragraph, with respect to a qualified individual who makes an election under paragraph

- (1) to become entitled to basic education assistance under this chapter—
- "(i) the basic pay of the qualified individual shall be reduced (in a manner determined by the Secretary concerned) until the total amount by which such basic pay is reduced is \$2,700; and
- "(ii) to the extent that basic pay is not so reduced before the qualified individual's discharge or release from active duty as specified in subsection (a)(4), at the election of the qualified individual—
- "(I) the Secretary concerned shall collect from the qualified individual; or
- "(II) the Secretary concerned shall reduce the retired or retainer pay of the qualified individual by,
- an amount equal to the difference between \$2,700 and the total amount of reductions under clause (i), which shall be paid into the Treasury of the United States as miscellaneous receipts.
- "(B)(i) The Secretary concerned shall provide for an 18-month period, beginning on the date the qualified individual makes an election under paragraph (1), for the qualified individual to pay that Secretary the amount due under subparagraph (4).
- "(ii) Nothing in clause (i) shall be construed as modifying the period of eligibility for and entitlement to basic education assistance under this chapter applicable under section 3031 of this title.
- "(C) The provisions of subsection (c) shall apply to qualified individuals making elections under this subsection in the same manner as they applied to individuals making elections under subsection (a)(5).
- "(4) With respect to qualified individuals referred to in paragraph (3)(A)(ii), no amount of educational assistance allowance under this chapter shall be paid to the qualified individual until the earlier of the date on which—
- "(A) the Secretary concerned collects the applicable amount under subclause (I) of such paragraph; or
- "(B) the retired or retainer pay of the qualified individual is first reduced under subclause (II) of such paragraph.
- "(5) The Secretary, in conjunction with the Secretary of Defense, shall provide for notice to participants in the educational benefits program under chapter 32 of this title of the opportunity under this subsection to elect to become entitled to basic educational assistance under this chapter."
- (b) CONFORMING AMENDMENT.—Section 3018C(b) is amended by striking "subsection (a)" and inserting "subsection (a) or (e)".
- (c) COORDINATION PROVISIONS.—(1) If this Act is enacted before the provisions of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 are enacted into law, section 1601 of that Act, including the amendments made by that section, shall not take effect. If this Act is enacted after the provisions of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 are enacted into law, then as of the enactment of this Act, the amendments made by section 1601 of that Act shall be deemed for all purposes not to have taken effect and that section shall cease to be in effect.
- (2) If the Veterans Claims Assistance Act of 2000 is enacted before the provisions of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 are enacted into law, section 1611 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, including the amendments made by that section, shall not take effect. If the Veterans Claims Assistance Act of 2000 is enacted after the provisions of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 are enacted into law, then as of the enactment of the Veterans Claims Assistance

Act of 2000, the amendments made by section 1611 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 shall be deemed for all purposes not to have taken effect and that section shall cease to be in effect.

#### SEC. 105. INCREASED ACTIVE DUTY EDU-CATIONAL ASSISTANCE BENEFIT FOR CONTRIBUTING MEMBERS.

- (a) AUTHORITY TO MAKE CONTRIBUTIONS FOR INCREASED ASSISTANCE AMOUNT.—(1) Section 3011, as amended by section 102(a)(1)(B), is amended by inserting after subsection (d) the following new subsection (e):
- "(e)(1) Any individual eligible for educational assistance under this section who does not make an election under subsection (c)(1) may contribute amounts for purposes of receiving an increased amount of basic educational assistance as provided for under section 3015(g) of this title. Such contributions shall be in addition to any reductions in the basic pay of such individual under subsection (b).
- "(2) An individual covered by paragraph (1) may make the contributions authorized by that paragraph at any time while on active duty.
- "(3) The total amount of the contributions made by an individual under paragraph (1) may not exceed \$600. Such contributions shall be made in multiples of \$4.
- "(4) Contributions under this subsection shall be made to the Secretary. The Secretary shall deposit any amounts received by the Secretary as contributions under this subsection into the Treasury as miscellaneous receipts."
- (2) Section 3012, as amended by section 102(b)(2), is amended by inserting after subsection (e) the following new subsection (f):
- "(f)(1) Any individual eligible for educational assistance under this section who does not make an election under subsection (d)(1) may contribute amounts for purposes of receiving an increased amount of basic educational assistance as provided for under section 3015(g) of this title. Such contributions shall be in addition to any reductions in the basic pay of such individual under subsection (c).
- "(2) An individual covered by paragraph (1) may make the contributions authorized by that paragraph at any time while on active duty.
- "(3) The total amount of the contributions made by an individual under paragraph (1) may not exceed \$600. Such contributions shall be made in multiples of \$4.
- "(4) Contributions under this subsection shall be made to the Secretary. The Secretary shall deposit any amounts received by the Secretary as contributions under this subsection into the Treasury as miscellaneous receipts."
- (b) INCREASED ASSISTANCE AMOUNT.—Section 3015 is amended—
- (1) by striking "subsection (g)" each place it appears in subsections (a)(1) and (b)(1) and inserting "subsection (h)";
- (2) by redesignating subsection (g) as subsection (h); and
- (3) by inserting after subsection (f) the following new subsection (g):
- "(g) In the case of an individual who has made contributions authorized by section 3011(e) or 3012(f) of this title, the monthly amount of basic educational assistance allowance applicable to such individual under subsection (a), (b) or (c) shall be the monthly rate otherwise provided for under the applicable subsection increased by—
- "(1) an amount equal to \$1 for each \$4 contributed by such individual under section 3011(e) or 3012(f), as the case may be, for an approved program of education pursued on a full-time basis: or
- "(2) an appropriately reduced amount based on the amount so contributed, as determined under regulations which the Secretary shall prescribe, for an approved program of education pursued on less than a full-time basis."

- (c) Effective Date.—The amendments made by this section shall take effect on May 1, 2001.
- (d) Transitional Provision for Individuals DISCHARGED BETWEEN ENACTMENT AND EFFEC-TIVE DATE.—(1) During the period beginning on May 1, 2001, and ending on July 31, 2001, an individual described in paragraph (2) may make contributions under section 3011(e) or 3012(f) of title 38. United States Code (as added by subsection (a)), whichever is applicable to that individual, without regard to paragraph (2) of that section and otherwise in the same manner as an individual eligible for educational assistance under chapter 30 of such title who is on active dutu.
- (2) Paragraph (1) applies in the case of an individual who-
- (A) is discharged or released from active duty during the period beginning on the date of the enactment of this Act and ending on April 30,
- (B) is eligible for educational assistance under chapter 30 of title 38, United States Code.

#### Subtitle B—Survivors' and Dependents' Educational Assistance

#### SEC. 111. INCREASE IN RATES OF SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE.

- SURVIVORS' AND DEPENDENTS' (a) CATIONAL ASSISTANCE.—Section 3532 is amended-
  - (1) in subsection (a)(1)—
- (A) by striking "\$485" and inserting "\$588"; (B) by striking "\$365" and inserting "\$441";
- (C) by striking "\$242" and inserting "\$294"
- (2) in subsection (a)(2), by striking "\$485" and insertina "\$588"
- (3) in subsection (b), by striking "\$485" and inserting "\$588"; and
  - (4) in subsection (c)(2)
  - (A) by striking "\$392" and inserting "\$475"
- (B) by striking "\$294" and inserting "\$356"; and
- (C) by striking "\$196" and inserting "\$238"
- (b) CORRESPONDENCE COURSE.—Section 3534(b) is amended by striking "\$485" and inserting "\$588°
- (c) Special Restorative Training.—Section 3542(a) is amended-
- (1) by striking "\$485" and inserting "\$588";
- (2) by striking "\$152" each place it appears and inserting "\$184"; and
- (3) by striking "\$16.16" and all that follows and inserting "such increased amount of allowance that is equal to one-thirtieth of the fulltime basic monthly rate of special training allowance."
- APPRENTICESHIP TRAINING.—Section 3687(b)(2) is amended-
- (1) by striking "\$353" and inserting "\$428", (2) by striking "\$264" and inserting "\$320",
- (3) by striking "\$175" and inserting "\$212"; and
  - (4) by striking "\$88" and inserting "\$107"
- (e) EFFECTIVE DATE.—The amendments made by subsections (a) through (d) shall take effect on November 1, 2000, and shall apply with respect to educational assistance allowances paid under chapter 35 of title 38. United States Code. for months after October 2000.
- (f) Annual Adjustments to Amounts of As-SISTANCE .-
- (1) CHAPTER 35.—(A) Subchapter VI of chapter 35 is amended by adding at the end the following new section:

#### "§ 3564. Annual adjustment of amounts of educational assistance

"With respect to any fiscal year, the Secretary shall provide a percentage increase (rounded to the nearest dollar) in the rates payable under sections 3532, 3534(b), and 3542(a) of this title equal to the percentage by which-

- '(1) the Consumer Price Index (all items. United States city average) for the 12-month period ending on the June 30 preceding the beginning of the fiscal year for which the increase is made, exceeds
- "(2) such Consumer Price Index for the 12month period preceding the 12-month period described in paragraph (1)."
- (B) The table of sections at the beginning of chapter 35 is amended by inserting after the item relating to section 3563 the following new item: "3564. Annual adjustment of amounts of educational assistance.'
- (2) CHAPTER 36.—Section 3687 is amended by adding at the end the following new subsection:
- "(d) With respect to any fiscal year, the Secretary shall provide a percentage increase (rounded to the nearest dollar) in the rates payable under subsection (b)(2) equal to the percentage by which-
- '(1) the Consumer Price Index (all items United States city average) for the 12-month period ending on the June 30 preceding the beginning of the fiscal year for which the increase is made, exceeds
- "(2) such Consumer Price Index for the 12month period preceding the 12-month period described in paragraph (1)."
- (3) EFFECTIVE DATE.—Sections 3654 and 3687(d) of title 38, United States Code, as added by this subsection, shall take effect on October 1. 2001.

#### SEC. 112. ELECTION OF CERTAIN RECIPIENTS OF COMMENCEMENT OF PERIOD OF ELI-GIBILITY FOR SURVIVORS' AND DE-PENDENTS' EDUCATIONAL ASSIST-ANCE.

Section 3512(a)(3) is amended by striking years after," and all that follows through the end and inserting "8 years after the date that is elected by that person to be the beginning date of entitlement under section 3511 of this title or subchapter V of this chapter if-

"(A) the Secretary approves that beginning date:

"(B) the eligible person makes that election after the person's eighteenth birthday but before the person's twenty-sixth birthday; and

(C) that beginning date-

"(i) in the case of a person whose eligibility is based on a parent who has a service-connected total disability permanent in nature, is between the dates described in subsection (d); and

"(ii) in the case of a person whose eligibility is based on the death of a parent, is between '(I) the date of the parent's death; and

"(II) the date of the Secretary's decision that the death was service-connected:

## SEC. 113. ADJUSTED EFFECTIVE DATE FOR AWARD OF SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSIST-ANCE.

- (a) IN GENERAL.—Section 5113 is amended—
- (1) by redesignating subsection (b) as subsection (c):
- (2) in subsection (a), by striking "subsection (b) of this section" and inserting "subsections (b) and (c)"; and
- (3) by inserting after subsection (a) the following new subsection:
- '(b)(1) When determining the effective date of an award under chapter 35 of this title for an individual described in paragraph (2) based on an original claim, the Secretary may consider the individual's application as having been filed on the eligibility date of the individual if that eligibility date is more than one year before the date of the initial rating decision.
- '(2) An individual referred to in paragraph (1) is an eligible person who-
- '(A) submits to the Secretary an original application for educational assistance under chapter 35 of this title within one year of the date that the Secretary makes the rating decision;
- '(B) claims such educational assistance for pursuit of an approved program of education

during a period preceding the one-year period ending on the date on which the application was received by the Secretary; and

'(C) would have been entitled to such educational assistance for such course pursuit if the individual had submitted such an application on the individual's eligibility date.

(3) In this subsection:

"(A) The term 'eligibility date' means the date on which an individual becomes an eligible per-

son.

"(B) The term 'eligible person' has the meaning given that term under section 3501(a)(1) of this title under subparagraph (A)(i), (A)(ii), (B), or (D) of such section by reason of either (i) the service-connected death or (ii) service-connected total disability permanent in nature of the veteran from whom such eligibility is derived.

'(C) The term 'initial rating decision' means with respect to an eligible person a decision made by the Secretary that establishes (i) service connection for such veteran's death or (ii) the existence of such veteran's service-connected total disability permanent in nature, as the case may be."

(b) Effective Date—The amendments made by subsection (a) shall apply to applications first made under section 3513 of title 38, United States Code, that-

(1) are received on or after the date of the enactment of this Act; or

(2) on the date of the enactment of this Act, are pending (A) with the Secretary of Veterans Affairs, or (B) exhaustion of available administrative and judicial remedies.

#### SEC. 114. AVAILABILITY UNDER SURVIVORS' AND " EDUCATIONAL OF PREPARAT DEPENDENTS' CATIONAL AS-PREPARATORY SISTANCE COURSES FOR COLLEGE AND GRAD-UATE SCHOOL ENTRANCE EXAMS.

- (a) IN GENERAL.—Section 3501(a)(5) is amended by adding at the end the following new sentence: "Such term also includes any preparatory course described in section 3002(3)(B) of this
- (b) Scope of Availability.—Section 3512(a) is amended-
- (1) by striking "and" at the end of clause (5); (2) by striking the period at the end of clause (6) and inserting "; and"; and

(3) by adding at the end the following:
"(7) if the person is pursuing a preparatory course described in section 3002(3)(B) of this title, such period may begin on the date that is the first day of such course pursuit, notwithstanding that such date may be before the person's eighteenth birthday, except that in no case may such person be afforded educational assistance under this chapter for pursuit of secondary schooling unless such course pursuit would otherwise be authorized under this subsection.'

#### Subtitle C—General Educational Assistance SEC. 121. REVISION OF EDUCATIONAL ASSIST-ANCE INTERVAL PAYMENT REQUIRE-MENTS.

- (a) IN GENERAL.—Subclause (C) of the third sentence of section 3680(a) is amended to read as follows:
- (C) during periods between school terms where the educational institution certifies the enrollment of the eligible veteran or eligible person on an individual term basis if (i) the period between those terms does not exceed eight weeks and (ii) both the terms preceding and following the period are not shorter in length than the period.
- (b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to payments of educational assistance under title 38, United States Code, for months beginning on or after the date of the enactment of this Act.

#### SEC. 122. AVAILABILITY OF EDUCATION BENEFITS FOR PAYMENT FOR LICENSING OR CERTIFICATION TESTS.

General.—Sections 3452(b)3501(a)(5) (as amended by section 114(a)) are each amended by adding at the end the following new sentence: "Such term also includes licensing or certification tests, the successful completion of which demonstrates an individual's possession of the knowledge or skill required to enter into, maintain, or advance in employment in a predetermined and identified vocation or profession, provided such tests and the licensing or credentialing organizations or entities that offer such tests are approved by the Secretary in accordance with section 3689 of this title."

(b) Amount of Payment.—

(1) CHAPTER 30.—Section 3032 is amended by adding at the end the following new subsection:

"(f)(1) Subject to paragraph (3), the amount of educational assistance payable under this chapter for a licensing or certification test described in section 3452(b) of this title is the lesser of \$2,000 or the fee charged for the test.

"(2) The number of months of entitlement charged in the case of any individual for such licensing or certification test is equal to the number (including any fraction) determined by dividing the total amount of educational assistance paid such individual for such test by the full-time monthly institutional rate of educational assistance which, except for paragraph (1), such individual would otherwise be paid under subsection (a)(1), (b)(1), (d), or (e)(1) of section 3015 of this title, as the case may be.

"(3) In no event shall payment of educational assistance under this subsection for such a test exceed the amount of the individual's available entitlement under this chapter."

(2) CHAPTER 32.—Section 3232 is amended by adding at the end the following new subsection:

"(c)(1) Subject to paragraph (3), the amount of educational assistance payable under this chapter for a licensing or certification test described in section 3452(b) of this title is the lesser of \$2,000 or the fee charged for the test.

"(2) The number of months of entitlement charged in the case of any individual for such licensing or certification test is equal to the number (including any fraction) determined by dividing the total amount paid to such individual for such test by the full-time monthly institutional rate of the educational assistance allowance which, except for paragraph (1), such individual would otherwise be paid under this chapter.

"(3) In no event shall payment of educational assistance under this subsection for such a test exceed the amount of the individual's available entitlement under this chapter.".

(3) CHAPTER 34.—Section 3482 is amended by adding at the end the following new subsection:

"(h)(1) Subject to paragraph (3), the amount of educational assistance payable under this chapter for a licensing or certification test described in section 3452(b) of this title is the lesser of \$2,000 or the fee charged for the test.

"(2) The number of months of entitlement charged in the case of any individual for such licensing or certification test is equal to the number (including any fraction) determined by dividing the total amount paid to such individual for such test by the full-time monthly institutional rate of the educational assistance allowance which, except for paragraph (1), such individual would otherwise be paid under this chapter.

"(3) In no event shall payment of educational assistance under this subsection for such a test exceed the amount of the individual's available entitlement under this chapter.".

(4) CHAPTER 35.—Section 3532 is amended by adding at the end the following new subsection:

"(f)(1) Subject to paragraph (3), the amount of educational assistance payable under this chapter for a licensing or certification test described in section 3501(a)(5) of this title is the lesser of \$2,000 or the fee charged for the test.

"(2) The number of months of entitlement charged in the case of any individual for such licensing or certification test is equal to the number (including any fraction) determined by dividing the total amount paid to such individual for such test by the full-time monthly institutional rate of the educational assistance allowance which, except for paragraph (1), such individual would otherwise be paid under this chapter.

"(3) In no event shall payment of educational assistance under this subsection for such a test exceed the amount of the individual's available

entitlement under this chapter.".

(c) REQUIREMENTS FOR LICENSING AND CREDENTIALING TESTING.—(1) Chapter 36 is amended by inserting after section 3688 the following new section:

## "\$3689. Approval requirements for licensing and certification testing

"(a) IN GENERAL.—(1) No payment may be made for a licensing or certification test described in section 3452(b) or 3501(a)(5) of this title unless the Secretary determines that the requirements of this section have been met with respect to such test and the organization or entity offering the test. The requirements of approval for tests and organizations or entities offering tests shall be in accordance with the provisions of this chapter and chapters 30, 32, 34, and 35 of this title and with regulations prescribed by the Secretary to carry out this section

"(2) To the extent that the Secretary determines practicable, State approving agencies may, in lieu of the Secretary, approve licensing and certification tests, and organizations and entities offering such tests, under this section.

"(b) REQUIREMENTS FOR TESTS.—(1) Subject to paragraph (2), a licensing or certification test is approved for purposes of this section only if—

"(A) the test is required under Federal, State, or local law or regulation for an individual to enter into, maintain, or advance in employment in a predetermined and identified vocation or profession or

profession; or "(B) the Secretary determines that the test is generally accepted, in accordance with relevant government, business, or industry standards, employment policies, or hiring practices, as attesting to a level of knowledge or skill required to qualify to enter into, maintain, or advance in employment in a predetermined and identified vocation or profession.

"(2) A licensing or certification test offered by a State, or a political subdivision of a State, is deemed approved by the Secretary for purposes of this section.

"(c) REQUIREMENTS FOR ORGANIZATIONS OR ENTITIES OFFERING TESTS.—(1) Each organization or entity that is not an entity of the United States, a State, or political subdivision of a State, that offers a licensing or certification test for which payment may be made under chapter 30, 32, 34, or 35 of this title and that meets the following requirements, shall be approved by the Secretary to offer such test:

"(A) The organization or entity certifies to the Secretary that the licensing or certification test offered by the organization or entity is generally accepted, in accordance with relevant government, business, or industry standards, employment policies, or hiring practices, as attesting to a level of knowledge or skill required to qualify to enter into, maintain, or advance in employment in a predetermined and identified vocation or profession.

"(B) The organization or entity is licensed, chartered, or incorporated in a State and has offered the test for a minimum of two years before the date on which the organization or entity first submits to the Secretary an application for approval under this section.

"(C) The organization or entity employs, or consults with, individuals with expertise or sub-

stantial experience with respect to all areas of knowledge or skill that are measured by the test and that are required for the license or certificate issued.

"(D) The organization or entity has no direct financial interest in—

"(i) the outcome of the test; or

"(ii) organizations that provide the education or training of candidates for licenses or certificates required for vocations or professions.

"(E) The organization or entity maintains appropriate records with respect to all candidates who take the test for a period prescribed by the Secretary, but in no case for a period of less than three years.

"(F)(i) The organization or entity promptly issues notice of the results of the test to the candidate for the license or certificate.

"(ii) The organization or entity has in place a process to review complaints submitted against the organization or entity with respect to the test or the process for obtaining a license or certificate required for vocations or professions.

"(G) The organization or entity furnishes to the Secretary such information with respect to the test as the Secretary requires to determine whether payment may be made for the test under chapter 30, 32, 34, or 35 of this title, including personal identifying information, fee payment, and test results. Such information shall be furnished in the form prescribed by the Secretary.

"(H) The organization or entity furnishes to the Secretary the following information:

"(i) A description of the licensing or certification test offered by the organization or entity, including the purpose of the test, the vocational, professional, governmental, and other entities that recognize the test, and the license of certificate issued upon successful completion of the test.

"(ii) The requirements to take the test, including the amount of the fee charged for the test and any prerequisite education, training, skills, or other certification.

"(iii) The period for which the license or certificate awarded upon successful completion of the test is valid, and the requirements for maintaining or renewing the license or certificate.

"(I) Upon request of the Secretary, the organization or entity furnishes such information to the Secretary that the Secretary determines necessary to perform an assessment of—

"(i) the test conducted by the organization or entity as compared to the level of knowledge or skills that a license or certificate attests: and

"(ii) the applicability of the test over such periods of time as the Secretary determines appropriate

"(2) With respect to each organization or entity that is an entity of the United States, a State, or political subdivision of a State, that offers a licensing or certification test for which payment may be made under 30, 32, 34, or 35 of this title, the following provisions of paragraph (1) shall apply to the entity: subparagraphs (E), (F), (G), and (H).

"(d) ADMINISTRATION.—Except as otherwise specifically provided in this section or chapter 30, 32, 34, or 35 of this title, in implementing this section and making payment under any such chapter for a licensing or certification test, the test is deemed to be a 'course' and the organization or entity that offers such test is deemed to be an 'institution' or 'educational institution', respectively, as those terms are applied under and for purposes of sections 3671, 3673, 3674, 3678, 3679, 3681, 3682, 3683, 3685, 3690, and 3696 of this title.

"(e) PROFESSIONAL CERTIFICATION AND LICEN-SURE ADVISORY COMMITTEE.—(1) There is established within the Department a committee to be known as the Professional Certification and Licensure Advisory Committee (hereinafter in this section referred to as the 'Committee').

- "(2) The Committee shall advise the Secretary with respect to the requirements of organizations or entities offering licensing and certification tests to individuals for which payment for such tests may be made under chapter 30, 32, 34, or 35 of this title, and such other related issues as the Committee determines to be appropriate.
- "(3)(A) The Secretary shall appoint seven individuals with expertise in matters relating to licensing and certification tests to serve as members of the Committee.
- "(B) The Secretary of Labor and the Secretary of Defense shall serve as ex officio members of the Committee.
- "(C) A vacancy in the Committee shall be filled in the manner in which the original appointment was made.
- "(4)(A) The Secretary shall appoint the chairman of the Committee.
- "(B) The Committee shall meet at the call of the chairman.
- "(5) The Committee shall terminate December 31, 2006.".
- (2) The table of sections at the beginning of chapter 36 is amended by inserting after the item relating to section 3688 the following new item: "3689. Approval requirements for licensing and certification testing."
- (d) EFFECTIVE DATE.—The amendments made by this section shall take effect on March 1, 2001, and shall apply with respect to licensing and certification tests approved by the Secretary on Veterans Affairs on or after such date.
- (e) STARTUP FUNDING.—From amounts appropriated to the Department of Veterans Affairs for fiscal year 2001 for readjustment benefits, the Secretary of Veterans Affairs shall use an amount not to exceed \$3,000,000 to develop the systems and procedures required to make payments under chapters 30, 32, 34, and 35 of title 38, United States Code, for licensing and certification tests.

# SEC. 123. INCREASE FOR FISCAL YEARS 2001 AND 2002 IN AGGREGATE ANNUAL AMOUNT AVAILABLE FOR STATE APPROVING AGENCIES FOR ADMINISTRATIVE EXPENSES.

Section 3674(a)(4) is amended—

- (1) in the first sentence, by inserting "or, for each of fiscal years 2001 and 2002, \$14,000,000" after "\$13,000,000"; and
- (2) in the second sentence, by striking "\$13,000,000" both places it appears and inserting "the amount applicable to that fiscal year under the preceding sentence".

#### TITLE II—HEALTH PROVISIONS Subtitle A—Personnel Matters

#### SEC. 201. ANNUAL NATIONAL PAY COM-PARABILITY ADJUSTMENT FOR NURSES EMPLOYED BY DEPART-MENT OF VETERANS AFFAIRS.

- (a) REVISED PAY ADJUSTMENT PROCEDURES.— (1) Subsection (d) of section 7451 is amended— (A) in paragraph (1)—
- (i) by striking "The rates" and inserting "Subject to subsection (e), the rates"; and
- (ii) in subparagraph (A)—
- (I) by striking "section 5305" and inserting "section 5303"; and
- (II) by inserting "and to be by the same percentage" after "to have the same effective date":
- (B) in paragraph (2), by striking "Such" in the second sentence and inserting "Except as provided in paragraph (1)(A), such";
  - (C) in paragraph (3)(B)—
- (i) by inserting after the first sentence the following new sentence: "To the extent practicable, the director shall use third-party industry wage surveys to meet the requirements of the preceding sentence.";
- (ii) by inserting before the penultimate sentence the following new sentence: "To the ex-

- tent practicable, all surveys conducted pursuant to this subparagraph or subparagraph (A) shall include the collection of salary midpoints, actual salaries, lowest and highest salaries, average salaries, bonuses, incentive pays, differential pays, actual beginning rates of pay, and such other information needed to meet the purpose of this section."; and
- (iii) in the penultimate sentence, by inserting "or published" after "completed"; and
- (D) by striking clause (iii) of paragraph (3)(C).
- (2) Subsection (e) of such section is amended to read as follows:
- "(e)(1) An adjustment in a rate of basic pay under subsection (d) may not reduce the rate of basic pay applicable to any grade of a covered position.
- "(2) The director of a Department health-care facility, in determining whether to carry out a wage survey under subsection (d)(3) with respect to rates of basic pay for a grade of a covered position, may not consider as a factor in such determination the absence of a current recruitment or retention problem for personnel in that grade of that position. The director shall make such a determination based upon whether, in accordance with criteria established by the Secretary, there is a significant pay-related staffing problem at that facility in any grade for a position. If the director determines that there is such a problem, or that such a problem is likely to exist in the near future, the Director shall provide for a wage survey in accordance with subsection (d)(3).
- "(3) The Under Secretary for Health may, to the extent necessary to carry out the purposes of subsection (d), modify any determination made by the director of a Department health-care facility with respect to adjusting the rates of basic pay applicable to covered positions. If the determination of the director would result in an adjustment in rates of basic pay applicable to covered positions, any action by the Under Secretary under the preceding sentence shall be made before the effective date of such pay adjustment. Upon such action by the Under Secretary, any adjustment shall take effect on the first day of the first pay period beginning after such action. The Secretary shall ensure that the Under Secretary establishes a mechanism for the timely exercise of the authority in this paragraph.
- "(4) Each director of a Department healthcare facility shall provide to the Secretary, not later than July 31 each year, a report on staffing for covered positions at that facility. The report shall include the following:
- "(A) Information on turnover rates and vacancy rates for each grade in a covered position, including a comparison of those rates with the rates for the preceding three years.
- "(B) The director's findings concerning the review and evaluation of the facility's staffing situation, including whether there is, or is likely to be, in accordance with criteria established by the Secretary, a significant pay-related staffing problem at that facility for any grade of a covered position and, if so, whether a wage survey was conducted, or will be conducted with respect to that grade.
- "(C) In any case in which the director conducts such a wage survey during the period covered by the report, information describing the survey and any actions taken or not taken based on the survey, and the reasons for taking (or not taking) such actions.
- "(D) In any case in which the director, after finding that there is, or is likely to be, in accordance with criteria established by the Secretary, a significant pay-related staffing problem at that facility for any grade of a covered position, determines not to conduct a wage survey with respect to that position, a statement of

the reasons why the director did not conduct such a survey.

- "(5) Not later than September 30 of each year, the Secretary shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on staffing for covered positions at Department health care facilities. Each such report shall include the following:
- "(A) A summary and analysis of the information contained in the most recent reports submitted by facility directors under paragraph (4).
- "(B) The information for each such facility specified in paragraph (4).".
- (3) Subsection (f) of such section is amended— (A) by striking "February 1 of 1991, 1992, and 1993" and inserting "March 1 of each year";
- (B) by striking "subsection (d)(1)(A)" and inserting "subsection (d)".
- (4) Such section is further amended by striking subsection (g) and redesignating subsection (h) as subsection (g).
- (b) REQUIRED CONSULTATIONS WITH NURSES.— (1) Subchapter II of chapter 73 is further amended by adding at the end the following new section:

#### "§ 7323. Required consultations with nurses

"The Under Secretary for Health shall ensure that—

- "(1) the director of a geographic service area, in formulating policy relating to the provision of patient care, shall consult regularly with a senior nurse executive or senior nurse executives; and
- "(2) the director of a medical center shall include a registered nurse as a member of any committee used at that medical center to provide recommendations or decisions on medical center operations or policy affecting clinical services, clinical outcomes, budget, or resources.".
- (2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 7322 the following new item:
- "7323. Required consultations with nurses.".

#### SEC. 202. SPECIAL PAY FOR DENTISTS.

- (a) FULL-TIME STATUS PAY.—Paragraph (1) of section 7435(b) is amended by striking "\$3,500" and inserting "\$9,000".
- (b) TENURE PAY.—The table in paragraph (2)(A) of that section is amended to read as follows:

"7	Rate			
"Length of Service	Minimum	Maximum		
1 year but less than 2 years	\$1,000	\$2,000		
2 years but less than 4 years	4,000	5,000		
4 years but less than 8 years 8 years but less than 12 years	5,000 8.000	$^{8,000}_{12,000}$		
12 years but less than 20 years	12,000	15,000		
20 years or more	15,000	18,000."		

- (c) SCARCE SPECIALTY PAY.—Paragraph (3)(A) of that section is amended by striking "\$20,000" and inserting "\$30,000".
- (d) RESPONSIBILITY PAY.—(1) The table in paragraph (4)(A) of that section is amended to read as follows:

"Desition	Rate		
"Position	Minimum	Maximum	
Chief of Staff or in an Executive Grade	\$14,500 0	\$25,000 25,000	
parable position as deter- mined by the Secretary)	4,500	15,000.''.	

(2) The table in paragraph (4)(B) of that section is amended to read as follows:

"Position	Rate
Deputy Service Director	\$20,000

``Position	Rate
Service Director	25,000
Deputy Assistant Under Secretary for Health	27,500
a comparable position as determined by the Secretary)	30,000.''.

- (e) GEOGRAPHIC PAY.—Paragraph (6) of that section is amended by striking "\$5,000" and inserting "\$12,000".
- (f) Special Pay For Post-Graduate Train-ING.—Such section is further amended by adding at the end the following new paragraph:
- "(8) For a dentist who has successfully completed a post-graduate year of hospital-based training in a program accredited by the American Dental Association, an annual rate of \$2,000 for each of the first two years of service after successful completion of that training.".
- (g) Crediting of Increased Tenure Pay for Civil Service Retirement.—Section 7438(b) is amended—
- (1) by redesignating paragraph (5) as paragraph (6); and
- (2) by inserting after paragraph (4) the following new paragraph (5):
- "(5) Notwithstanding paragraphs (1) and (2), a dentist employed as a dentist in the Veterans Health Administration on the date of the enactment of the Veterans Benefits and Health Care Improvement Act of 2000 shall be entitled to have special pay paid to the dentist under section 7435(b)(2)(A) of this title (referred to as 'tenure pay') considered basic pay for the purposes of chapter 83 or 84, as appropriate, of title 5 only as follows:
- "(A) In an amount equal to the amount that would have been so considered under such section on the day before such date based on the rates of special pay the dentist was entitled to receive under that section on the day before such date.
- "(B) With respect to any amount of special pay received under that section in excess of the amount such dentist was entitled to receive under such section on the day before such date, in an amount equal to 25 percent of such excess amount for each two years that the physician or dentist has completed as a physician or dentist in the Veterans Health Administration after such date."
- (h) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to agreements entered into by dentists under subchapter III of chapter 74 of title 38, United States Code, on or after the date of the enactment of this Act.
- (i) TRANSITION.—In the case of an agreement entered into by a dentist under subchapter III of chapter 74 of title 38, United States Code, before the date of the enactment of this Act that expires after that date, the Secretary of Veterans Affairs and the dentist concerned may agree to terminate that agreement as of the date of the enactment of this Act in order to permit a new agreement in accordance with section 7435 of such title, as amended by this section, to take effect as of that date.

## SEC. 203. EXEMPTION FOR PHARMACISTS FROM CEILING ON SPECIAL SALARY RATES.

Section 7455(c)(1) is amended by inserting ", pharmacists," after "anesthetists".

## SEC. 204. TEMPORARY FULL-TIME APPOINTMENTS OF CERTAIN MEDICAL PERSONNEL.

- (a) PHYSICIAN ASSISTANTS AWAITING CERTIFICATION OR LICENSURE.—Paragraph (2) of section 7405(c) is amended to read as follows:
- "(2) A temporary full-time appointment may not be made for a period in excess of two years in the case of a person who—
  - "(A) has successfully completed—
- "(i) a full course of nursing in a recognized school of nursing, approved by the Secretary; or
- "(ii) a full course of training for any category of personnel described in paragraph (3) of sec-

- tion 7401 of this title, or as a physician assistant, in a recognized education or training institution approved by the Secretary; and
- "(B) is pending registration or licensure in a State or certification by a national board recognized by the Secretary.".
- (b) MEDICAL SUPPORT PERSONNEL.—That section is further amended—
- (1) by redesignating paragraph (3) as paragraph (4); and
- (2) by inserting after paragraph (2) the following new paragraph (3):
- "(3)(A) Temporary full-time appointments of persons in positions referred to in subsection (a)(1)(D) shall not exceed three years.
- "(B) Temporary full-time appointments under this paragraph may be renewed for one or more additional periods not in excess of three years each.".

#### SEC. 205. QUALIFICATIONS OF SOCIAL WORKERS.

- Section 7402(b)(9) is amended by striking "a person must" and all that follows and inserting "a person must—
- "(A) hold a master's degree in social work from a college or university approved by the Secretary; and
- "(B) be licensed or certified to independently practice social work in a State, except that the Secretary may waive the requirement of licensure or certification for an individual social worker for a reasonable period of time recommended by the Under Secretary for Health."

## SEC. 206. PHYSICIAN ASSISTANT ADVISER TO UNDER SECRETARY FOR HEALTH.

Section 7306(a) is amended—

- (1) by redesignating paragraph (9) as paragraph (10); and
- (2) by inserting after paragraph (8) the following new paragraph (9):
- "(9) The Advisor on Physician Assistants, who shall be a physician assistant with appropriate experience and who shall advise the Under Secretary for Health on all matters relating to the utilization and employment of physician assistants in the Administration.".

#### SEC. 207. EXTENSION OF VOLUNTARY SEPARA-TION INCENTIVE PAYMENTS.

The Department of Veterans Affairs Employment Reduction Assistance Act of 1999 (title XI of Public Law 106–117; 5 U.S.C. 5597 note) is amended as follows:

- (1) Section 1102(c) is amended to read as follows:
- "(c) LIMITATION.—The plan under subsection (a) shall be limited to a total of 7,734 positions within the Department, allocated among the elements of the Department as follows:
- "(1) The Veterans Health Administration, 6,800 positions.
- "(2) The Veterans Benefits Administration, 740 positions. "(3) Department of Veterans Affairs Staff Of-
- fices, 156 positions.

  "(4) The National Cemetery Administration.
- "(4) The National Cemetery Administration, 38 positions.".
  (2) Section 1105(a) is amended by striking "26
- percent" and inserting "15 percent".
  (3) Section 1109(a) is amended by striking "December 31, 2000" and inserting "December

#### Subtitle B-Military Service Issues

31, 2002"

# SEC. 211. FINDINGS AND SENSE OF CONGRESS CONCERNING USE OF MILITARY HISTORIES OF VETERANS IN DEPARTMENT OF VETERANS AFFAIRS HEALTH CARE.

- (a) FINDINGS.—Congress makes the following findings:
- (1) Pertinent military experiences and exposures may affect the health status of Department of Veterans Affairs patients who are veterans.
- (2) The Department of Veterans Affairs has begun to implement a Veterans Health Initiative

- to develop systems to ensure that both patient care and medical education in the Veterans Health Administration are specific to the special needs of veterans and should be encouraged to continue these efforts.
- (3) Protocols eliciting pertinent information relating to the military history of veterans may be beneficial to understanding certain conditions for which veterans may be at risk and thereby facilitate the treatment of veterans for those conditions.
- (4) The Department of Veterans Affairs is in the process of developing a Computerized Patient Record System that offers the potential to aid in the care and monitoring of such condi-
  - (b) Sense of Congress.—Congress—
- (1) urges the Secretary of Veterans Affairs to assess the feasibility and desirability of using a computer-based system to conduct clinical evaluations relevant to military experiences and exposures; and
- (2) recommends that the Secretary accelerate efforts within the Department of Veterans Affairs to ensure that relevant military histories of veterans are included in Department medical records.

## SEC. 212. STUDY OF POST-TRAUMATIC STRESS DISORDER IN VIETNAM VETERANS.

- (a) STUDY ON POST-TRAUMATIC STRESS DIS-ORDER.—Not later than 10 months after the date of the enactment of this Act, the Secretary of Veterans Affairs shall enter into a contract with an appropriate entity to carry out a study on post-traumatic stress disorder.
- (b) FOLLOW-UP STUDY.—The contract under subsection (a) shall provide for a follow-up study to the study conducted in accordance with section 102 of the Veterans Health Care Amendments of 1983 (Public Law 98–160). Such follow-up study shall use the data base and sample of the previous study.
- (c) INFORMATION TO BE INCLUDED.—The study conducted pursuant to this section shall be designed to yield information on—
- (1) the long-term course of post-traumatic stress disorder;
- (2) any long-term medical consequences of post-traumatic stress disorder;
- (3) whether particular subgroups of veterans are at greater risk of chronic or more severe problems with such disorder; and
- (4) the services used by veterans who have post-traumatic stress disorder and the effect of those services on the course of the disorder.
- (d) REPORT.—The Secretary shall submit to the Committees of Veterans' Affairs of the Senate and House of Representatives a report on the results of the study under this section. The report shall be submitted no later than October 1, 2004.

#### Subtitle C—Medical Administration

## SEC. 221. DEPARTMENT OF VETERANS AFFAIRS FISHER HOUSES.

(a) AUTHORITY.—Subchapter I of chapter 17 is amended by adding at the end the following new section:

#### "§ 1708. Temporary lodging

- "(a) The Secretary may furnish persons described in subsection (b) with temporary lodging in a Fisher house or other appropriate facility in connection with the examination, treatment, or care of a veteran under this chapter or, as provided for under subsection (e)(5), in connection with benefits administered under this title.
- "(b) Persons to whom the Secretary may provide lodging under subsection (a) are the following:
- "(1) A veteran who must travel a significant distance to receive care or services under this title.
- "(2) A member of the family of a veteran and others who accompany a veteran and provide

the equivalent of familial support for such veteran.

"(c) In this section, the term 'Fisher house'

- "(c) In this section, the term 'Fisher house' means a housing facility that—
- "(1) is located at, or in proximity to, a Department medical facility;
- "(2) is available for residential use on a temporary basis by patients of that facility and others described in subsection (b)(2); and
- "(3) is constructed by, and donated to the Secretary by, the Zachary and Elizabeth M. Fisher Armed Services Foundation.
- "(d) The Secretary may establish charges for providing lodging under this section. The proceeds from such charges shall be credited to the medical care account and shall be available until expended for the purposes of providing such lodging.
- "(e) The Secretary shall prescribe regulations to carry out this section. Such regulations shall include provisions—
- "(1) limiting the duration of lodging provided under this section;
- "(2) establishing standards and criteria under which charges are established for such lodging under subsection (d):
- "(3) establishing criteria for persons considered to be accompanying a veteran under subsection (b)(2):
- "(4) establishing criteria for the use of the premises of temporary lodging facilities under this section; and
- "(5) establishing any other limitations, conditions, and priorities that the Secretary considers appropriate with respect to lodging under this section."
- (b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1707 the following new item:

"1708. Temporary lodging.".

#### SEC. 222. EXCEPTION TO RECAPTURE RULE.

Section 8136 is amended—

- (1) by inserting "(a)" at the beginning of the text of the section; and
- (2) by adding at the end the following new subsection:
- "(b) The establishment and operation by the Secretary of an outpatient clinic in facilities described in subsection (a) shall not constitute grounds entitling the United States to any recovery under that subsection.".

#### SEC. 223. SENSE OF CONGRESS CONCERNING CO-OPERATION BETWEEN THE DEPART-MENT OF VETERANS AFFAIRS AND THE DEPARTMENT OF DEFENSE IN THE PROCUREMENT OF MEDICAL ITEMS.

- (a) FINDINGS.—Congress makes the following findings:
- (1) The procurement and distribution of medical items, including prescription drugs, is a multibillion-dollar annual business for both the Department of Defense and the Department of Veterans Affairs.
- (2) Those departments prescribe common highuse drugs to many of their 12,000,000 patients who have similar medical profiles.
- (3) The health care systems of those departments should have management systems that can share and communicate clinical and management information useful for both systems.
- (4) The institutional barriers separating the two departments have begun to be overcome in the area of medical supplies, in part as a response to recommendations by the General Accounting Office and the Commission on Servicemembers and Veterans Transition Assistance
- (5) There is significant potential for improved savings and services by improving cooperation between the two departments in the procurement and management of prescription drugs, while remaining mindful that the two departments have different missions.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Department of Defense and the Department of Veterans Affairs should increase, to the maximum extent consistent with their respective missions, their level of cooperation in the procurement and management of prescription drugs.

#### 

- (a) REQUIREMENT TO PROVIDE CARE.—Section 1710A(a) is amended by inserting "(subject to section 1710(a)(4) of this title)" after "Secretary" the first place it appears.
- (b) CONFORMING AMENDMENTS.—Section 1710(a)(4) is amended—
- (1) by inserting "the requirement in section 1710A(a) of this title that the Secretary provide nursing home care," after "medical services,"; and
- (2) by striking the comma after ''extended care services''.
- (c) OUTPATIENT TREATMENT.—Section 201 of the Veterans Millennium Health Care and Benefits Act (Public Law 106–117; 113 Stat. 1561) is amended by adding at the end the following new subsection:
- "(c) EFFECTIVE DATE.—The amendments made by subsection (b) shall apply with respect to medical services furnished under section 1710(a) of title 38, United States Code, on or after the effective date of the regulations prescribed by the Secretary of Veterans Affairs to establish the amounts required to be established under paragraphs (1) and (2) of section 1710(g) of that title, as amended by subsection (b)."
- (d) RATIFICATION.—Any action taken by the Secretary of Veterans Affairs under section 1710(g) of title 38, United States Code, during the period beginning on November 30, 1999, and ending on the date of the enactment of this Act is hereby ratified.

### $Subtitle \ D-\!\!\!-\!\!\!Construction \ Authorization$

## SEC. 231. AUTHORIZATION OF MAJOR MEDICAL FACILITY PROJECTS.

- (a) FISCAL YEAR 2001 PROJECTS.—The Secretary of Veterans Affairs may carry out the following major medical facility projects, with each project to be carried out in an amount not to exceed the amount specified for that project:
- (1) Construction of a 120-bed gero-psychiatric facility at the Department of Veterans Affairs Palo Alto Health Care System, Menlo Park Division, California, \$26,600,000.
- (2) Construction of a nursing home at the Department of Veterans Affairs Medical Center, Beckley, West Virginia, \$9,500,000.
- (3) Seismic corrections, clinical consolidation, and other improvements at the Department of Veterans Affairs Medical Center, Long Beach, California, \$51,700,000.
- (4) Construction of a utility plant and electrical vault at the Department of Veterans Affairs Medical Center, Miami, Florida, \$23,600,000.
- (b) Additional Fiscal Year 2000 Project.— The Secretary is authorized to carry out a project for the renovation of psychiatric nursing units at the Department of Veterans Affairs Medical Center, Murfreesboro, Tennessee, in an amount not to exceed \$14,000,000.

#### SEC. 232. AUTHORIZATION OF APPROPRIATIONS.

- (a) IN GENERAL.—There are authorized to be appropriated to the Secretary of Veterans Affairs for the Construction, Major Projects, account.
- (1) for fiscal years 2001 and 2002, a total of \$87,800,000 for the projects authorized in paragraphs (1), (2), and (3) of section 231(a);
- (2) for fiscal year 2001, an additional amount of \$23,600,000 for the project authorized in paragraph (4) of that section; and
- (3) for fiscal year 2002, an additional amount of \$14,500,000 for the project authorized in section 401(1) of the Veterans Millennium Health

Care and Benefits Act (Public Law 106-117; 113 Stat. 1572).

- (b) LIMITATION.—The projects authorized in section 231(a) may only be carried out using—
- (1) funds appropriated for fiscal year 2001 or fiscal year 2002 (or, in the case of the project authorized in section 231(a)(4), for fiscal year 2001) pursuant to the authorization of appropriations in subsection (a);
- (2) funds appropriated for Construction, Major Projects, for a fiscal year before fiscal year 2001 that remain available for obligation; and
- (3) funds appropriated for Construction, Major Projects, for fiscal year 2001 or fiscal year 2002 (or, in the case of the project authorized in section 231(a)(4), for fiscal year 2001) for a category of activity not specific to a project.
- (c) REVISION TO PRIOR LIMITATION.—Notwithstanding the limitation in section 403(b) of the Veterans Millennium Health Care and Benefits Act (Public Law 106–117; 113 Stat. 1573), the project referred to in subsection (a)(3) may be carried out using—
- (1) funds appropriated for fiscal year 2002 pursuant to the authorization of appropriations in subsection (a)(3);
- (2) funds appropriated for Construction, Major Projects, for fiscal year 2001 that remain available for obligation; and
- (3) funds appropriated for Construction, Major Projects, for fiscal year 2001 or fiscal year 2002 for a category of activity not specific to a project.

#### $Subtitle \ E-Real \ Property \ Matters$

#### SEC. 241. CHANGE TO ENHANCED USE LEASE CONGRESSIONAL NOTIFICATION PE-RIOD.

Paragraph (2) of section 8163(c) is amended to read as follows:

"(2) The Secretary may not enter into an enhanced use lease until the end of the 90-day period beginning on the date of the submission of notice under paragraph (1).".

#### SEC. 242. RELEASE OF REVERSIONARY INTEREST OF THE UNITED STATES IN CERTAIN REAL PROPERTY PREVIOUSLY CON-VEYED TO THE STATE OF TEN-NESSEE.

- (a) RELEASE OF INTEREST.—The Secretary of Veterans Affairs shall execute such legal instruments as necessary to release the reversionary interest of the United States described in subsection (b) in a certain parcel of real property conveyed to the State of Tennessee pursuant to the Act entitled "An Act authorizing the transfer of certain property of the Veterans' Administration (in Johnson City, Tennessee) to the State of Tennessee", approved June 6, 1953 (67 Stat. 54).
- (b) Specified Reversionary Interest.—Subsection (a) applies to the reversionary interest of the United States required under section 2 of the Act referred to in subsection (a), requiring use of the property conveyed pursuant to that Act to be primarily for training of the National Guard and for other military purposes.
- (c) Conforming Amendment.—Section 2 of such Act is repealed.

#### SEC. 243. DEMOLITION, ENVIRONMENTAL CLEAN-UP, AND REVERSION OF DEPART-MENT OF VETERANS AFFAIRS MED-ICAL CENTER, ALLEN PARK, MICHI-GAN.

- (a) AUTHORITY.—(1) The Secretary of Veterans Affairs shall enter into a multiyear contract with the Ford Motor Land Development Corporation (hereinafter in this section referred to as the "Corporation") to undertake project management responsibility to—
- (A) demolish the buildings and auxiliary structures comprising the Department of Veterans Affairs Medical Center, Allen Park, Michigan; and

- (B) remediate the site of all hazardous material and environmental contaminants found on the site
- (2) The contract under paragraph (1) may be entered into notwithstanding sections 303 and 304 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253, 254). The contract shall be for a period specified in the contract not to exceed seven years.
- (b) CONTRACT COST AND SOURCE OF FUND-ING.—(1) The Secretary may expend no more than \$14,000,000 for the contract required by subsection (a). The contract shall provide that all costs for the demolition and site remediation under the contract in excess of \$14,000,000 shall be borne by the Corporation
- (2) Payments by the Secretary under the contract shall be made in annual increments of no more than \$2,000,000, beginning with fiscal year 2001, for the duration of the contract. Such payments shall be made from the nonrecurring maintenance portion of the annual Department of Veterans Affairs medical care appropriation.
- (3) Notwithstanding any other provision of law, the amount obligated upon the award of the contract may not exceed \$2,000,000 and the amount obligated with respect to any succeeding fiscal year may not exceed \$2,000,000. Any funds obligated for the contact shall be subject to the availability of appropriated funds.

(c) REVERSION OF PROPERTY.—Upon completion of the demolition and remediation project under the contract to the satisfaction of the Secretary, the Secretary shall, on behalf of the United States, formally abandon the Allen Park property (title to which will then revert in accordance with the terms of the 1937 deed conveying such property to the United States).

- (d) FLAGPOLE AND MEMORIAL.—The contract under subsection (a) shall require that the Corporation shall erect and maintain on the property abandoned by the United States under subsection (c) a flagpole and suitable memorial identifying the property as the location of the former Allen Park Medical Center. The Secretary and the Corporation shall jointly determine the placement of the memorial and flagpole and the form of, and appropriate inscription on, the memorial.
- (e) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions with regard to the contract with the Corporation under subsection (a) and with the reversion of the property under subsection (c) as the Secretary considers appropriate to protect the interest of the United States.

#### SEC. 244. CONVEYANCE OF CERTAIN PROPERTY AT THE CARL VINSON DEPARTMENT OF VETERANS AFFAIRS MEDICAL CENTER, DUBLIN, GEORGIA.

- (a) CONVEYANCE TO STATE BOARD OF REGENTS.—The Secretary of Veterans Affairs shall convey, without consideration, to the Board of Regents of the State of Georgia all right, title, and interest of the United States in and to two tracts of real property, including any improvements thereon, at the Carl Vinson Department of Veterans Affairs Medical Center, Dublin, Georgia, consisting of 39 acres, more or less, in Laurens County, Georgia.
- (b) CONVEYANCE TO COMMUNITY SERVICE BOARD OF MIDDLE GEORGIA.—The Secretary of Veterans Affairs shall convey, without consideration, to the Community Service Board of Middle Georgia all right, title, and interest of the United States in and to three tracts of real property, including any improvements thereon, at the Carl Vinson Department of Veterans Affairs Medical Center, Dublin, Georgia, consisting of 58 acres, more or less, in Laurens County, Georgia
- (c) CONDITIONS ON CONVEYANCE.—The conveyance under subsection (a) shall be subject to the condition that the real property conveyed under that subsection be used in perpetuity solely for

education purposes. The conveyance under subsection (b) shall be subject to the condition that the real property conveyed under that subsection be used in perpetuity solely for education and health care purposes.

(d) SURVEY.—The exact acreage and legal description of the real property to be conveyed under this section shall be determined by a survey or surveys satisfactory to the Secretary of Veterans Affairs. The cost of any such survey shall not be borne by the Secretary.

(e) ADDITIONAL TERMS AND CONDITIONS.—The Secretary of Veterans Affairs may require such additional terms and conditions in connection with the conveyances under this section as the Secretary considers appropriate to protect the interests of the United States.

#### SEC. 245. LAND CONVEYANCE, MILES CITY DE-PARTMENT OF VETERANS AFFAIRS MEDICAL CENTER COMPLEX, MILES CITY, MONTANA.

- (a) CONVEYANCE REQUIRED.—The Secretary of Veterans Affairs shall convey, without consideration, to Custer County, Montana (in this section referred to as the "County"), all right, title, and interest of the United States in and to the parcels of real property consisting of the Miles City Department of Veterans Affairs Medical Center complex, which has served as a medical and support complex for the Department of Veterans Affairs in Miles City, Montana.
- (b) TIMING OF CONVEYANCE.—The conveyance required by subsection (a) shall be made as soon as practicable after the date of the enactment of this Act.
- (c) CONDITIONS OF CONVEYANCE.—The conveyance required by subsection (a) shall be subject to the condition that the County—
- (1) use the parcels conveyed, whether directly or through an agreement with a public or private entity, for veterans activities, community and economic development, or such other public purposes as the County considers appropriate;
- (2) convey the parcels to an appropriate public or private entity for use for the purposes specified in paragraph (1).
- (d) CONVEYANCE OF IMPROVEMENTS.—(1) As part of the conveyance required by subsection (a), the Secretary may also convey to the County any improvements, equipment, fixtures, and other personal property located on the parcels conveyed under that subsection that are not required by the Secretary.
- (2) Any conveyance under this subsection shall be without consideration.
- (e) USE PENDING CONVEYANCE.—Until such time as the real property to be conveyed under subsection (a) is conveyed by deed under this section, the Secretary may continue to lease the real property, together with any improvements thereon, under the terms and conditions of the current lease of the real property.
- (f) MAINTENANCE PENDING CONVEYANCE.—The Secretary shall be responsible for maintaining the real property to be conveyed under subsection (a), and any improvements, equipment, fixtures, and other personal property to be conveyed under subsection (d), in its condition as of the date of the enactment of this Act until such time as the real property, and such improvements, equipment, fixtures, and other personal property are conveyed by deed under this section.
- (g) LEGAL DESCRIPTION.—The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined by a survey satisfactory to the Secretary.
- (h) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions in connection with the conveyance under this section as the Secretary determines appropriate to protect the interests of the United States.

#### SEC. 246. CONVEYANCE OF FORT LYON DEPART-MENT OF VETERANS AFFAIRS MED-ICAL CENTER, COLORADO, TO THE STATE OF COLORADO.

- (a) CONVEYANCE AUTHORIZED.—The Secretary of Veterans Affairs may convey, without consideration, to the State of Colorado all right, title, and interest of the United States in and to a parcel of real property, including improvements thereon, consisting of approximately 512 acres and comprising the Fort Lyon Department of Veterans Affairs Medical Center. The purpose of the conveyance is to permit the State of Colorado to use the property for purposes of a correctional facility.
- (b) Public Access.—(1) The Secretary may not make the conveyance of real property authorized by subsection (a) unless the State of Colorado agrees to provide appropriate public access to Kit Carson Chapel (located on that real property) and the cemetery located adjacent to that real property.

(2) The State of Colorado may satisfy the condition specified in paragraph (1) with respect to Kit Carson Chapel by relocating the chapel to Fort Lyon National Cemetery, Colorado, or another appropriate location approved by the Secretary.

- (c) PLAN REGARDING CONVEYANCE.—(1) The Secretary may not make the conveyance authorized by subsection (a) before the date on which the Secretary implements a plan providing the following:
- (A) Notwithstanding sections 1720(a)(3) and 1741 of title 38, United States Code, that veterans who are receiving inpatient or institutional long-term care at Fort Lyon Department of Veterans Affairs Medical Center as of the date of the enactment of this Act are provided appropriate inpatient or institutional long-term care under the same terms and conditions as such veterans are receiving inpatient or institutional long-term care as of that date.
- (B) That the conveyance of the Fort Lyon Department of Veterans Affairs Medical Center does not result in a reduction of health care services available to veterans in the catchment area of the Medical Center.
- (C) Improvements in veterans' overall access to health care in the catchment area through, for example, the opening of additional outpatient clinics.
- (2) The Secretary shall prepare the plan referred to in paragraph (1) in consultation with appropriate representatives of veterans service organizations and other appropriate organizations
- (3) The Secretary shall publish a copy of the plan referred to in paragraph (1) before implementation of the plan.
- (d) Environmental Restoration.—The Secretary may not make the conveyance authorized by subsection (a) until the Secretary completes the evaluation and performance of any environmental restoration activities required by the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.), and by any other provision of law.
- (e) PERSONAL PROPERTY.—As part of the conveyance authorized by subsection (a), the Secretary may convey, without consideration, the State of Colorado any furniture, fixtures, equipment, and other personal property associated with the property conveyed under that subsection that the Secretary determines is not required for purposes of the Department of Veterans Affairs health care facilities to be established by the Secretary in southern Colorado or for purposes of Fort Lyon National Cemetery.
- (f) LEGAL DESCRIPTION.—The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined by a survey satisfactory to the Secretary. Any costs associated with the survey shall be borne by the State of Colorado.

(g) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such other terms and conditions in connection with the conveyances authorized by subsections (a) and (e) as the Secretary considers appropriate to protect the interests of the United States.

#### SEC. 247. EFFECT OF CLOSURE OF FORT LYON DE-PARTMENT OF VETERANS AFFAIRS MEDICAL CENTER ON ADMINISTRA-TION OF HEALTH CARE FOR VET-ERANS.

- (a) Payment for Nursing Home Care.—Notwithstanding any limitation under section 1720 or 1741 of title 38, United States Code, the Secretary of Veterans Affairs may pay the State of Colorado, or any private nursing home care facility, for costs incurred in providing nursing home care to any veteran who is relocated from the Fort Lyon Department of Veterans Affairs Medical Center, Colorado, to a facility of the State of Colorado or such private facility, as the case may be, as a result of the closure of the Fort Lyon Department of Veterans Affairs Medical Center.
- (b) OBLIGATION TO PROVIDE EXTENDED CARE Services.—Nothing in section 246 or this section may be construed to alter or otherwise affect the obligation of the Secretary to meet the requirements of section 1710B(b) of title 38, United States Code, relating to staffing and levels of extended care services in fiscal years after fiscal year 1998.
- (c) REPORT ON VETERANS HEALTH CARE IN SOUTHERN COLORADO.—Not later than one year after the conveyance, if any, authorized by section 246, the Under Secretary for Health of the Department of Veterans Affairs, acting through the Director of Veterans Integrated Service Network (VISN) 19, shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives a report on the status of the health care system for veterans under that Network in southern Colorado. The report shall describe any improvements to the system in southern Colorado that have been put into effect in the period beginning on the date of the conveyance and ending on the date of the re-

#### TITLE III—COMPENSATION, INSURANCE, HOUSING. EMPLOYMENT. AND MEMO-RIAL AFFAIRS PROVISIONS

#### Subtitle A—Compensation Program Changes SEC. 301. STROKES AND HEART ATTACKS IN-CURRED OR AGGRAVATED BY MEM-BERS OF RESERVE COMPONENTS IN THE PERFORMANCE OF DUTY WHILE PERFORMING INACTIVE DUTY TRAINING TO BE CONSIDERED TO BE SERVICE-CONNECTED.

- (a) Scope of Term "Active Military. NAVAL, OR AIR SERVICE".—Section 101(24) is amended to read as follows:
- "(24) The term 'active military, naval, or air service' includes—

(A) active duty;

"(B) any period of active duty for training during which the individual concerned was disabled or died from a disease or injury incurred or aggravated in line of duty; and

'(C) any period of inactive duty training during which the individual concerned was dis-

abled or died-

'(i) from an injury incurred or aggravated in line of dutu: or

'(ii) from an acute myocardial infarction, a cardiac arrest, or a cerebrovascular accident occurring during such training."

(b) TRAVEL TO OR FROM TRAINING DUTY .-Section 106(d) is amended—
(1) by inserting "(1)" after "(d)"

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively;

(3) by inserting "or covered disease" after "injury" each place it appears;

(4) by designating the second sentence as paragraph (2);

(5) by designating the third sentence as paragraph (3); and

(6) by adding at the end the following new paragraph:

- (4) For purposes of this subsection, the term 'covered disease' means any of the following:
  - '(A) Acute muocardial infarction.

"(B) A cardiac arrest.

"(C) A cerebrovascular accident."

#### SEC. 302. SPECIAL MONTHLY COMPENSATION FOR WOMEN VETERANS WHO LOSE A BREAST AS A RESULT OF A SERVICE-CONNECTED DISABILITY.

Section 1114(k) is amended-

(1) by striking "or has suffered" and inserting "has suffered"; and

(2) by inserting after "air and bone conduction," the following: "or, in the case of a woman veteran, has suffered the anatomical loss of one or both breasts (including loss by mastectomy),"

#### SEC. 303. BENEFITS FOR PERSONS DISABLED BY PARTICIPATION IN COMPENSATED WORK THERAPY PROGRAM.

Section 1151(a)(2) is amended-

(1) by inserting "(A)" after "proximately caused"; and

(2) by inserting before the period at the end the following: ", or (B) by participation in a program (known as a 'compensated work therapy program') under section 1718 of this title".

#### SEC. 304. REVISION TO LIMITATION ON PAY-MENTS OF BENEFITS TO INCOM-PETENT INSTITUTIONALIZED VET-ERANS.

Section 5503(b)(1) is amended—

- (1) in subparagraph (A)—
  (A) by striking "\$1,500" and inserting "the amount equal to five times the section 1114(j) rate" and
- (B) by striking "\$500" and inserting "one-half that amount"; and

(2) by adding at the end the following new subparagraph:

(D) For purposes of this paragraph, the term 'section 1114(j) rate' means the monthly rate of compensation in effect under section 1114(j) of this title for a veteran with a service-connected disability rated as total."

#### SEC. 305. REVIEW OF DOSE RECONSTRUCTION PROGRAM OF THE DEFENSE THREAT REDUCTION AGENCY.

- (a) REVIEW BY NATIONAL ACADEMY OF Sciences.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall enter into a contract with the National Academy of Sciences to carry out periodic reviews of the program of the Defense Threat Reduction Agency of the Department of Defense known as the "dose reconstruction program"
- (b) REVIEW ACTIVITIES.—The periodic reviews of the dose reconstruction program under the contract under subsection (a) shall consist of the periodic selection of random samples of doses reconstructed by the Defense Threat Reduction Agency in order to determine
- (1) whether or not the reconstruction of the sampled doses is accurate;
- (2) whether or not the reconstructed dosage number is accurately reported;
- (3) whether or not the assumptions made regarding radiation exposure based upon the sampled doses are credible; and
- (4) whether or not the data from nuclear tests used by the Defense Threat Reduction Agency as part of the reconstruction of the sampled doses is accurate.
- (c) DURATION OF REVIEW.—The periodic reviews under the contract under subsection (a) shall occur over a period of 24 months.
- (d) REPORT.—(1) Not later than 60 days after the conclusion of the period referred to in subsection (c), the National Academy of Sciences shall submit to Congress a report on its activities under the contract under this section.

(2) The report shall include the following:

(A) A detailed description of the activities of the National Academy of Sciences under the contract.

(B) Any recommendations that the National Academy of Sciences considers appropriate regarding a permanent system of review of the dose reconstruction program of the Defense Threat Reduction Agency.

#### Subtitle B-Life Insurance Matters

#### SEC. 311. PREMIUMS FOR TERM SERVICE DIS-ABLED VETERANS' INSURANCE FOR VETERANS OLDER THAN AGE 70.

- (a) CAP ON PREMIUMS.—Section 1922 is amended by adding at the end the following new subsection:
- "(c) The premium rate of any term insurance issued under this section shall not exceed the renewal age 70 premium rate.
- (b) REPORT.—Not later than September 30, 2001, the Secretary of Veterans Affairs shall submit to Congress a report setting forth a plan to liquidate the unfunded liability under the life insurance program under section 1922 of title 38, United States Code, not later than October 1, 2011.

#### SEC. 312. INCREASE IN AUTOMATIC MAXIMUM **COVERAGE** UNDER SERVICEMEMBERS' GROUP LIFE IN SURANCE AND VETERANS' GROUP LIFE INSURANCE.

- UNDERServicemembers' MAXIMIIM(a)GROUP LIFE INSURANCE.—Section 1967 is amended in subsections (a), (c), and (d) by striking "\$200,000" each place it appears and inserting ``\$250,000``
- (b) MAXIMUM UNDER VETERANS' GROUP LIFE INSURANCE.—Section 1977(a) is amended by striking "\$200,000" each place it appears and inserting "\$250,000"
- (c) EFFECTIVE DATE—The amendments made by this section shall take effect on the first day of the first month that begins more than 120 days after the date of the enactment of this Act.

## SEC. 313. ELIGIBILITY OF CERTAIN MEMBERS OF THE INDIVIDUAL READY RESERVE FOR SERVICEMEMBERS' GROUP LIFE INSURANCE.

- (a) ELIGIBILITY.—Section 1965(5) is amended— (1) by striking "and" at the end of subparagraph (B);
- (2) by redesignating subparagraph (C) as subparagraph (D); and
- (3) by inserting after subparagraph (B) the following new subparagraph (C):
- "(C) a person who volunteers for assignment to a mobilization category in the Individual Ready Reserve, as defined in section 12304(i)(1) of title 10; and"
- CONFORMING AMENDMENTS.—Sections 1967(a), 1968(a), and 1969(a)(2)(A) are amended by striking "section 1965(5)(B) of this title" each place it appears and inserting "subparagraph (B) or (C) of section 1965(5) of this title"

#### Subtitle C-Housing and Employment **Programs**

#### SEC. 321. ELIMINATION OF REDUCTION IN AS-SISTANCE FOR SPECIALLY ADAPTED HOUSING FOR DISABLED VETERANS FOR VETERANS HAVING JOINT OWN-ERSHIP OF HOUSING UNITS.

Section 2102 is amended by adding at the end the following new subsection:

"(c) The amount of assistance afforded under subsection (a) for a veteran authorized assistance by section 2101(a) of this title shall not be reduced by reason that title to the housing unit, which is vested in the veteran, is also vested in any other person, if the veteran resides in the housing unit."

#### SEC. 322. VETERANS EMPLOYMENT EMPHASIS UNDER FEDERAL CONTRACTS FOR RECENTLY SEPARATED VETERANS.

(a) EMPLOYMENT EMPHASIS.—Subsection (a) of section 4212 is amended in the first sentence by inserting "recently separated veterans," after "veterans of the Vietnam era,".

- (b) CONFORMING AMENDMENTS.—Subsection (d)(1) of that section is amended by inserting "recently separated veterans," after "veterans of the Vietnam era," each place it appears in subparagraphs (A) and (B).
- (c) RECENTLY SEPARATED VETERAN DE-FINED.—Section 4211 is amended by adding at the end the following new paragraph:
- "(6) The term 'recently separated veteran' means any veteran during the one-year period beginning on the date of such veteran's discharge or release from active duty.".

#### SEC. 323. EMPLOYERS REQUIRED TO GRANT LEAVE OF ABSENCE FOR EMPLOYEES TO PARTICIPATE IN HONOR GUARDS FOR FUNERALS OF VETERANS.

- (a) DEFINITION OF SERVICE IN THE UNIFORMED SERVICES.—Section 4303(13) is amended—
- (1) by striking "and" after "National Guard duty"; and
- (2) by inserting before the period at the end ", and a period for which a person is absent from employment for the purpose of performing funeral honors duty as authorized by section 12503 of title 10 or section 115 of title 32.".
- (b) REQUIRED LEAVE OF ABSENCE.—Section 4316 is amended by adding at the end the following new subsection:
- "(e)(1) An employer shall grant an employee who is a member of a reserve component an authorized leave of absence from a position of employment to allow that employee to perform funeral honors duty as authorized by section 12503 of title 10 or section 115 of title 32.
- "(2) For purposes of section 4312(e)(1) of this title, an employee who takes an authorized leave of absence under paragraph (1) is deemed to have notified the employer of the employee's intent to return to such position of employment."
- (c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect 180 days after the date of the enactment of this Act.

#### Subtitle D—Cemeteries and Memorial Affairs SEC. 331. ELIGIBILITY FOR INTERMENT OF CER-TAIN FILIPINO VETERANS OF WORLD WAR II IN NATIONAL CEMETERES.

- (a) Eligibility of Certain Commonwealth Army Veterans.—Section 2402 is amended by
- adding at the end the following new paragraph: "(8) Any individual whose service is described in section 107(a) of this title if such individual at the time of death—
- "(A) was a citizen of the United States or an alien lawfully admitted for permanent residence in the United States; and
- "(B) resided in the United States.".
- (b) CONFORMING AMENDMENT.—Section 107(a)(3) is amended to read as follows:
- "(3) chapters 11, 13 (except section 1312(a)), 23, and 24 (to the extent provided for in section 2402(8)) of this title.".
- (c) APPLICABILITY.—The amendments made by this section shall apply with respect to deaths occurring on or after the date of the enactment of this Act.

#### SEC. 332. PAYMENT RATE OF CERTAIN BURIAL BENEFITS FOR CERTAIN FILIPINO VETERANS OF WORLD WAR II.

- (a) PAYMENT RATE.—Section 107 is amended— (1) in subsection (a), by striking "Payments" and inserting "Subject to subsection (c), payments": and
- (2) by adding at the end the following new section:
- "(c)(1) In the case of an individual described in paragraph (2), the second sentence of subsection (a) shall not apply.
- "(2) Paragraph (1) applies to any individual whose service is described in subsection (a) and who dies after the date of the enactment of this subsection if the individual, on the individual's date of death—

- "(A) is a citizen of, or an alien lawfully admitted for permanent residence in, the United States:
- "(B) is residing in the United States; and
- "(C) either—
- "(i) is receiving compensation under chapter 11 of this title; or
- "(ii) if the individual's service had been deemed to be active military, naval, or air service, would have been paid pension under section 1521 of this title without denial or discontinuance by reason of section 1522 of this title.".
- (b) APPLICABILITY.—No benefits shall accrue to any person for any period before the date of the enactment of this Act by reason of the amendments made by subsection (a).

## SEC. 333. PLOT ALLOWANCE FOR BURIAL IN STATE VETERANS CEMETERIES.

- (a) IN GENERAL.—Section 2303(b)(1)(A) is amended to read as follows: "(A) is used solely for the interment of persons who are (i) eligible for burial in a national cemetery, and (ii) members of a reserve component of the Armed Forces not otherwise eligible for such burial or former members of such a reserve component not otherwise eligible for such burial who are discharged or released from service under conditions other than dishonorable, and".
- (b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to the burial of persons dying on or after the date of the enactment of this Act.

#### TITLE IV—OTHER MATTERS

## SEC. 401. BENEFITS FOR THE CHILDREN OF WOMEN VIETNAM VETERANS WHO SUFFER FROM CERTAIN BIRTH DEFECTS.

(a) In GENERAL.—Chapter 18 is amended by adding at the end the following new subchapter: "SUBCHAPTER II—CHILDREN OF WOMEN VIETNAM VETERANS BORN WITH CERTAIN BIRTH DEFECTS

#### "§ 1811. Definitions

- "In this subchapter:
- "(1) The term 'eligible child' means an individual who—
- "(A) is the child (as defined in section 1821(1) of this title) of a woman Vietnam veteran; and "(B) was born with one or more covered birth
- "(2) The term 'covered birth defect' means a birth defect identified by the Secretary under section 1812 of this title.

#### "§ 1812. Covered birth defects

- ''(a) IDENTIFICATION.—The Secretary shall identify the birth defects of children of women Vietnam veterans that—
- "(1) are associated with the service of those veterans in the Republic of Vietnam during the Vietnam era; and
- ``(2) result in permanent physical or mental disability.
- "(b) LIMITATIONS.—(1) The birth defects identified under subsection (a) may not include birth defects resulting from the following:
  - "(A) A familial disorder.
  - "(B) A birth-related injury.
- $\lq\lq(C)$  A fetal or neonatal infirmity with well-established causes.
- "(2) In any case where affirmative evidence establishes that a covered birth defect of a child of a woman Vietnam veteran results from a cause other than the active military, naval, or air service of that veteran in the Republic of Vietnam during the Vietnam era, no benefits or assistance may be provided the child under this subchanter.

#### "§ 1813. Health care

"(a) NEEDED CARE.—The Secretary shall provide an eligible child such health care as the Secretary determines is needed by the child for that child's covered birth defects or any disability that is associated with those birth defects

- fects.

  "(b) AUTHORITY FOR CARE TO BE PROVIDED DIRECTLY OR BY CONTRACT.—The Secretary may provide health care under this section directly or by contract or other arrangement with a health care provider.
- "(c) DEFINITIONS.—For purposes of this section, the definitions in section 1803(c) of this title shall apply with respect to the provision of health care under this section, except that for such purposes—
- "(1) the reference to 'specialized spina bifida clinic' in paragraph (2) of that section shall be treated as a reference to a specialized clinic treating the birth defect concerned under this section; and
- "(2) the reference to 'vocational training under section 1804 of this title' in paragraph (8) of that section shall be treated as a reference to vocational training under section 1814 of this title.

#### "§ 1814. Vocational training

"(a) AUTHORITY.—The Secretary may provide a program of vocational training to an eligible child if the Secretary determines that the achievement of a vocational goal by the child is reasonably feasible.

"(b) APPLICABLE PROVISIONS.—Subsections (b) through (e) of section 1804 of this title shall apply with respect to any program of vocational training provided under subsection (a).

#### "§ 1815. Monetary allowance

"(a) MONETARY ALLOWANCE.—The Secretary shall pay a monthly allowance to any eligible child for any disability resulting from the covered birth defects of that child.

"(b) SCHEDULE FOR RATING DISABILITIES.—(1) The amount of the monthly allowance paid under this section shall be based on the degree of disability suffered by the child concerned, as determined in accordance with a schedule for rating disabilities resulting from covered birth defects that is prescribed by the Secretary.

"(2) In prescribing a schedule for rating disabilities for the purposes of this section, the Secretary shall establish four levels of disability upon which the amount of the allowance provided by this section shall be based. The levels of disability established may take into account functional limitations, including limitations on cognition, communication, motor abilities, activities of daily living, and employability.

"(c) AMOUNT OF MONTHLY ALLOWANCE.—The amount of the monthly allowance paid under this section shall be as follows:

"(1) In the case of a child suffering from the lowest level of disability prescribed in the schedule for rating disabilities under subsection (b), \$100.

"(2) In the case of a child suffering from the lower intermediate level of disability prescribed in the schedule for rating disabilities under subsection (b), the greater of—

"(A) \$214; or

"(B) the monthly amount payable under section 1805(b)(3) of this title for the lowest level of disability prescribed for purposes of that section.

"(3) In the case of a child suffering from the higher intermediate level of disability prescribed in the schedule for rating disabilities under subsection (b), the greater of—

"(A) \$743; or

- "(B) the monthly amount payable under section 1805(b)(3) of this title for the intermediate level of disability prescribed for purposes of that section.
- "(4) In the case of a child suffering from the highest level of disability prescribed in the schedule for rating disabilities under subsection (b), the greater of—
  - "(A) \$1.272: or
- "(B) the monthly amount payable under section 1805(b)(3) of this title for the highest level

of disability prescribed for purposes of that section.

"(d) INDEXING TO SOCIAL SECURITY BENEFIT INCREASES.—Amounts under paragraphs (1), (2)(A), (3)(A), and (4)(A) of subsection (c) shall be subject to adjustment from time to time under section 5312 of this title.

#### "§ 1816. Regulations

"The Secretary shall prescribe regulations for purposes of the administration of this subchapter.".

(b) CONSOLIDATION OF PROVISIONS APPLICABLE TO BOTH SUBCHAPTERS.—Chapter 18 is further amended by adding after subchapter II, as added by subsection (a), the following new subchapter:

#### "SUBCHAPTER III—GENERAL PROVISIONS

#### "§ 1821. Definitions

"In this chapter:

- "(1) The term 'child' means an individual, regardless of age or marital status, who—
- "(A) is the natural child of a Vietnam veteran: and
- "(B) was conceived after the date on which that veteran first entered the Republic of Vietnam during the Vietnam era.
- "(2) The term 'Vietnam veteran' means an individual who performed active military, naval, or air service in the Republic of Vietnam during the Vietnam era, without regard to the characterization of that individual's service.
- "(3) The term 'Vietnam era' with respect to—
  "(A) subchapter I of this chapter, means the
  period beginning on January 9, 1962, and ending
- on May 7, 1975; and "(B) subchapter II of this chapter, means the period beginning on February 28, 1961, and ending on May 7, 1975.

#### "§ 1822. Applicability of certain administrative provisions

"(a) APPLICABILITY OF CERTAIN PROVISIONS RELATING TO COMPENSATION.—The provisions of this title specified in subsection (b) apply with respect to benefits and assistance under this chapter in the same manner as those provisions apply to compensation paid under chapter 11 of this title.

"(b) Specified Provisions.—The provisions of this title referred to in subsection (a) are the following:

"(1) Section 5101(c).

- "(2) Subsections (a), (b)(2), (g), and (i) of section 5110.
- "(3) Section 5111.
- "(4) Subsection (a) and paragraphs (1), (6), (9), and (10) of subsection (b) of section 5112.

#### "§ 1823. Treatment of receipt of monetary allowance and other benefits

"(a) COORDINATION WITH OTHER BENEFITS PAID TO THE RECIPIENT.—Notwithstanding any other provision of law, receipt by an individual of a monetary allowance under this chapter shall not impair, infringe, or otherwise affect the right of the individual to receive any other benefit to which the individual is otherwise entitled under any law administered by the Secretary.

"(b) COORDINATION WITH BENEFITS BASED ON RELATIONSHIP OF RECIPIENTS.—Notwithstanding any other provision of law, receipt by an individual of a monetary allowance under this chapter shall not impair, infringe, or otherwise affect the right of any other individual to receive any benefit to which such other individual is entitled under any law administered by the Secretary based on the relationship of such other individual to the individual who receives such monetary allowance.

"(c) Monetary Allowance Not To Be Con-SIDERED AS INCOME OR RESOURCES FOR CERTAIN PURPOSES.—Notwithstanding any other provision of law, a monetary allowance paid an individual under this chapter shall not be considered as income or resources in determining eligibility for, or the amount of benefits under, any Federal or federally assisted program.

#### "§ 1824. Nonduplication of benefits

"(a) MONETARY ALLOWANCE.—In the case of an eligible child under subchapter II of this chapter whose only covered birth defect is spina bifida, a monetary allowance shall be paid under subchapter I of this chapter. In the case of an eligible child under subchapter II of this chapter who has spina bifida and one or more additional covered birth defects, a monetary allowance shall be paid under subchapter II of this chapter.

"(b) VOCATIONAL REHABILITATION.—An individual may only be provided one program of vocational training under this chapter.".

- (c) Repeal of Recodified Provisions.—The following provisions are repealed:
  - (1) Section 1801.
  - (2) Subsections (c) and (d) of section 1805.
  - (3) Section 1806.
- (d) DESIGNATION OF SUBCHAPTER I.—Chapter 18 is further amended by inserting before section 1802 the following:
- "SUBCHAPTER I—CHILDREN OF VIETNAM VETERANS BORN WITH SPINA BIFIDA".
- (e) CONFORMING AMENDMENTS.—(1) Section 1802 is amended by striking "this chapter" and inserting "this subchapter".
- (2) Section 1805(a) is amended by striking "this chapter" and inserting "this section".
- (f) CLERICAL AMENDMENTS.—(1) The chapter heading of chapter 18 is amended to read as follows:

#### "CHAPTER 18—BENEFITS FOR CHILDREN OF VIETNAM VETERANS".

(2) The tables of chapters before part I, and at the beginning of part II, are each amended by striking the item relating to chapter 18 and inserting the following new item:

"18. Benefits for Children of Vietnam

Veterans ...... 1802".

(3) The table of sections at the beginning of chapter 18 is amended—

 $(\Bar{A})$  by inserting at the beginning the following:

- "SUBCHAPTER I—CHILDREN OF VIETNAM VETERANS BORN WITH SPINA BIFIDA";
- (B) by striking the items relating to sections 1801 and 1806; and
  - (C) by adding at the end the following:

"SUBCHAPTER II—CHILDREN OF WOMEN VIETNAM VETERANS BORN WITH CER-TAIN BIRTH DEFECTS

"1811. Definitions.

"1812. Covered birth defects.

"1813. Health care.

"1814. Vocational training.

"1815. Monetary allowance.

"1816. Regulations.

"SUBCHAPTER III—GENERAL PROVISIONS

"1821. Definitions.

"1822. Applicability of certain administrative provisions.

"1823. Treatment of receipt of monetary allowance and other benefits.

"1824. Nonduplication of benefits."

(g) EFFECTIVE DATE.—(1) Except as provided in paragraph (2), the amendments made by this section shall take effect on the first day of the first month beginning more than one year after the date of the enactment of this Act.

(2) The Secretary of Veterans Affairs shall identify birth defects under section 1812 of title 38, United States Code (as added by subsection (a) of this section), and shall prescribe the regulations required by subchapter II of chapter 18 of that title (as so added), not later than the effective date specified in paragraph (1).

## SEC. 402. EXTENSION OF CERTAIN EXPIRING AUTHORITIES.

- (a) ENHANCED LOAN ASSET SALE AUTHOR-ITY.—Section 3720(h)(2) is amended by striking "December 31, 2002" and inserting "December 31, 2008".
- (b) HOME LOAN FEES.—Section 3729 is amended by striking everything after the section heading and inserting the following:
- "(a) REQUIREMENT OF FEE.—(1) Except as provided in subsection (c), a fee shall be collected from each person obtaining a housing loan guaranteed, insured, or made under this chapter, and each person assuming a loan to which section 3714 of this title applies. No such loan may be guaranteed, insured, made, or assumed until the fee payable under this section has been remitted to the Secretary.
- "(2) The fee may be included in the loan and paid from the proceeds thereof.
- "(b) DETERMINATION OF FEE.—(1) The amount of the fee shall be determined from the loan fee table in paragraph (2). The fee is expressed as a percentage of the total amount of the loan guaranteed, insured, or made, or, in the case of a loan assumption, the unpaid principal balance of the loan on the date of the transfer of the property.
- "(2) The loan fee table referred to in paragraph (1) is as follows:

#### "LOAN FEE TABLE

Type of loan	Active duty vet- eran	Reservist	Other ob- ligor

- "(3) Any reference to a section in the Tupe of loan' column in the loan fee table in paragraph (2) refers to a section of this title.
- '(4) For the purposes of paragraph (2):
- "(A) The term 'active duty veteran' means any veteran eligible for the benefits of this chapter other than a Reservist.
- '(B) The term 'Reservist' means a veteran described in section 3701(b)(5)(A) of this title.
- '(C) The term 'other obligor' means a person who is not a veteran, as defined in section 101 of this title or other provision of this chapter.
- "(D) The term 'initial loan' means a loan to a veteran guaranteed under section 3710 or made under section 3711 of this title if the veteran has never obtained a loan guaranteed under section 3710 or made under section 3711 of this title.
- "(E) The term 'subsequent loan' means a loan to a veteran, other than an interest rate reduction refinancing loan, guaranteed under section 3710 or made under section 3711 of this title if the veteran has previously obtained a loan guaranteed under section 3710 or made under section 3711 of this title.
- "(F) The term 'interest rate reduction refinancing loan' means a loan described in section 3710(a)(9)(B)(i), 3710(a)(8). 3710(a)(11). 3712(a)(1)(F), or 3762(h) of this title.
- "(G) The term '0-down' means a downpayment, if any, of less than 5 percent of the total purchase price or construction cost of the dwell-
- "(H) The term '5-down' means a downpayment of at least 5 percent or more, but less than 10 percent, of the total purchase price or construction cost of the dwelling.
- "(I) The term '10-down' means a downpayment of 10 percent or more of the total purchase price or construction cost of the dwelling.
- "(c) WAIVER OF FEE.—A fee may not be collected under this section from a veteran who is receiving compensation (or who, but for the receipt of retirement pay, would be entitled to receive compensation) or from a surviving spouse of any veteran (including a person who died in the active military, naval, or air service) who died from a service-connected disability."
- (c) PROCEDURES APPLICABLE TO LIQUIDATION Sales on Defaulted Home Loans Guaranteed BY THE DEPARTMENT OF VETERANS AFFAIRS.—

- Section 3732(c)(11) is amended by striking "October 1, 2002" and inserting "October 1, 2008"
- (d) INCOME VERIFICATION AUTHORITY.—Section 5317(g) is amended by striking "September 30, 2002" and inserting "September 30, 2008"
- (e) LIMITATION ON PENSION FOR CERTAIN RE-CIPIENTS OF MEDICAID-COVERED NURSING HOME CARE.—Section 5503(f)(7) is amended by striking "September 30, 2002" and inserting "September 30. 2008"
- (f) Annual Report of Committee on Men-TALLY ILL VETERANS.—Section 7321(d)(2) is amended by striking "three" and inserting
- (g) AUTHORITY TO ESTABLISH RESEARCH AND EDUCATION CORPORATIONS.—Section 7368 is amended by striking "December 31, 2000" and inserting "December 31, 2003"

#### SEC. 403. PRESERVATION OF CERTAIN REPORT-ING REQUIREMENTS.

- (a) Inapplicability of Prior Reports Ter-MINATION PROVISION TO CERTAIN REPORTS OF THE DEPARTMENT OF VETERANS AFFAIRS.—Section 3003(a)(1) of the Federal Reports Elimination and Sunset Act of 1995 (31 U.S.C. 1113 note) does not apply to any report required to be submitted under any of the following: sections 503(c), 529, 541(c), 542(c), 3036, and 7312(d) of title 38, United States Code.
- (b) Repeal of Reporting Requirements TERMINATED BY PRIOR LAW.—Sections 8111A(f) and 8201(h) are repealed.
- (c) SUNSET OF CERTAIN REPORTING REQUIRE-MENTS .-
- (1) Annual report on equitable relief CASES.—Section 503(c) is amended by adding at the end the following new sentence: "No report shall be required under this subsection after December 31, 2004.'
- (2) Biennial report of advisory committee FORMER PRISONERS OF WAR.—Section 541(c)(1) is amended by inserting "through 2003" after "each odd-numbered year"
- (3) BIENNIAL REPORT OF ADVISORY COMMITTEE WOMEN VETERANS.—Section 542(c)(1) is amended by inserting "through 2004" after "each even-numbered year"
- (4) BIENNIAL REPORTS ON MONTGOMERY GI BILL.—Subsection (d) of section 3036 is amended to read as follows:
- '(d) No report shall be required under this section after January 1, 2005."
- (5) Annual Report of Special Medical Advi-SORY GROUP.—Section 7312(d) is amended by adding at the end the following new sentence: 'No report shall be required under this subsection after December 31, 2004."
- (d) Cost Information To Be Provided With EACH REPORT REQUIRED BY CONGRESS.—(1)(A) Chapter 1 is amended by adding at the end the following new section:

#### "§ 116. Reports to Congress: cost information

- "Whenever the Secretary submits to Congress, or any committee of Congress, a report that is required by law or by a joint explanatory statement of a committee of conference of the Congress, the Secretary shall include with the report-
- "(1) a statement of the cost of preparing the
- report; and "(2) a brief explanation of the methodology used in preparing that cost statement."
- (B) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:
- "116. Reports to Congress: cost information.".
- (2) Section 116 of title 38 United States Code as added by paragraph (1) of this subsection, shall apply with respect to any report submitted by the Secretary of Veterans Affairs after the end of the 90-day period beginning on the date of the enactment of this Act.

#### SEC. 404. TECHNICAL AMENDMENTS.

(a) TITLE 38.—Title 38, United States Code, is amended as follows:

- (1) Section 1116(a)(2)(F) is amended by inserting "of disability" after "to a degree
- (2) Section 1318(b)(3) is amended by striking "not later than" and inserting "not less than"
- (3) Section 1712(a)(4)(A) is amended by striking "subsection (a) of this section (other than paragraphs (3)(B) and (3)(C) of that subsection)" and inserting "this subsection".

  (4) Section 1720A(c)(1) is amended by striking
- "for such disability" and all that follows through "to such member" and inserting "for such disability. Care and services provided to a member so transferred".
- (5) Section 2402(7) is amended by striking "chapter 67 of title 10" and inserting "chapter 1223 of title 10"
- (6) Section 3012(g)(2) is amended by striking "subparagraphs" both places it appears and inserting "subparagraph"
- (7) Section 3684(c) is amended by striking "calender" and inserting "calendar"
- (8) The table of sections at the beginning of chapter 41 is amended by inserting after the item relating to section 4110A the following new item: "4110B. Coordination and nonduplication.".
- (9) The text of section 4213 is amended to read as follows:
- "(a) Amounts and periods of time specified in subsection (b) shall be disregarded in determining eligibility under any of the following:
  - "(1) Any public service employment program.
  - "(2) Any emergency employment program.
- "(3) Any job training program assisted under the Economic Opportunity Act of 1964.
- "(4) Any employment or training program carried out under title I of the Workforce Investment Act of 1998 (29 U.S.C. 2801 et seq.).
- "(5) Any other employment or training (or related) program financed in whole or in part with Federal funds.
- "(b) Subsection (a) applies with respect to the following amounts and periods of time:
- "(1) Any amount received as pay or allowances by any person while serving on active duty.
- "(2) Any period of time during which such person served on active duty.
- "(3) Any amount received under chapters 11, 13, 30, 31, 32, and 36 of this title by an eligible veteran.
- "(4) Any amount received by an eligible person under chapters 13 and 35 of this title.
- "(5) Any amount received by an eligible member under chapter 106 of title 10."
- (10) Section 7603(a)(1) is amended by striking 'subsection'' and inserting "subchapter".
- (b) OTHER LAWS.-
- (1) Effective November 30, 1999, and as if included therein as originally enacted, section 208(c)(2) of the Veterans Millennium Health Care and Benefits Act (Public Law 106-117: 113 Stat. 1568) is amended by striking "subsection (c)(1)" and inserting "subsection (c)(3)"
- (2) Effective November 21, 1977, and as if included therein as originally enacted, section 402(e) of the Veterans' Benefits Act of 1997 (Public Law 105-114; 111 Stat. 2294) is amended by striking "second sentence" and inserting 'third sentence''.

Amend the amendment of the House to the title so as to read: "An Act to amend title 38, United States Code, to increase the rates of educational assistance under the Montgomery GI Bill, to improve procedures for the adjustment of rates of pay for nurses employed by the Department of Veterans Affairs, to make other improvements in veterans educational assistance, health care, and benefits programs, and for other purposes.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Arizona (Mr. STUMP) and the gentleman from Illinois (Mr. EVANS) each will control 20 minutes.

The Chair recognizes the gentleman from Arizona (Mr. STUMP).

#### GENERAL LEAVE

Mr. STUMP. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on S. 1402, the legislation now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

There was no objection.

Mr. STUMP. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, this bill represents an agreement we have reached before the Senate Committee on Veterans' Affairs on issues brought before the House and Senate in this session of the 106th Congress. It improves many of the benefits and health care programs serving veterans today.

Let me touch on just a few of the major provisions. This bill makes a number of improvements to the Montgomery GI Bill, the veterans' education assistance program named for our former colleague, the gentleman from Mississippi, Sonny Montgomery. I saw him here on the floor earlier, and I would like to welcome him back. It raises the monthly benefit rate from \$552 to \$650, and permits GIs to earn an additional \$150 a month by contributing \$600 to their account while they are in service.

Since 1998, we have raised the GI bill monthly allowance by some 48 percent. This bill also increases the educational benefit payable each month to a student who is a child or a spouse of a veteran who is totally disabled or who died of a service-connected cause.

Additionally, the bill authorizes the VA to provide an annual pay increase to some 35,000 VA nurses as well as the VA dentists.

There are a good many provisions in this bill, and at this time I would like to commend the chairman of our Subcommittee on Health, the gentleman from Florida (Mr. STEARNS) for the outstanding job he has done. Overseeing the VA health care system is a very challenging task at times, and the gentleman from Florida has done a magnificent job of doing just that.

Madam Speaker, I submit for the RECORD an explanatory statement on the Senate amendments to the House amendments to S. 1402.

The Senate amendments to the House amendments to S. 1402, as amended, reflect a compromise agreement that the House and Senate Committees on Veterans' Affairs have reached on H.R. 284, H.R. 4268, H.R. 4850, H.R. 5109, H.R. 5139, H.R. 5346, H. Con. Res. 413, S. 1076, S. 1402, and S. 1810. On May 23, 2000, the House passed S. 1402 with an amendment consisting of the text of H.R. 4268 as reported. H.R. 4850 passed the House on July 25, 2000. H.R. 5109 passed the House on September 21, 2000. H.R. 284 passed the House on October 3, 2000. S. 1076 passed the Senate on September 8, 1999, and S. 1810 passed the Senate on September 21, 2000. S. 1402 passed the Senate on July 26, 1999. H. Con. Res. 413 was introduced on September 28, 2000. H.R. 5346 was introduced on September 29, 2000. H.R. 5139 passed the House on October 3, 2000.

The House and Senate Committees on Veterans' Affairs have prepared the following explanation of S. 1402, as amended (hereinafter referred to as the "Compromise Agreement"). Differences between the provisions contained in the Compromise Agreement and the related provisions of H.R. 284, H.R. 4268, H.R. 4850, H.R. 5109, S. 1076, S. 1402, and S. 1810 are noted in this document, except for clerical corrections, conforming changes made necessary by the Compromise Agreement and minor drafting, technical and clarifying changes.

#### TITLE I—EDUCATIONAL ASSISTANCE PROVISIONS

Subtitle A-Montgomery GI Bill Educational Assistance

INCREASE IN RATES ON BASIC EDUCATIONAL ASSISTANCE UNDER THE MONTGOMERY GI BILL Current Law

Section 3011 of title 38, United States Code, establishes basic educational assistance entitlement under the All-Volunteer Force Educational Assistance Program (commonly referred to as the "Montgomery GI Bill" or "MGIB") Active Duty program. Section 3015 establishes the base amount of such educational assistance at the monthly rate of 528 for a 3-year period of service and 429 for a 2-year period of service. These amounts increased to \$552 per month and \$449 per month, respectively, on October 1, 2000.

House Bill

Section 2 of the House amendments to S. 1402 would increase the current monthly rate of basic education benefits to \$600 per month effective October 1, 2000, and to \$720 per month on October 1, 2002, for full-time students. The monthly rate for 2-year enlistees would increase to \$487 per month effective October 1, 2000, and to \$585 per month on October 1, 2002. This section provides parallel increases for part-time students and similar adjustments to the rates paid for correspondence and other types of training. No cost-ofliving increases would be made in fiscal vears 2001 and 2003.

Senate Bill

Section 4 of S. 1402 would increase the monthly rate of basic education benefits to \$600 per month for 3-year enlistees and \$488 per month for 2-year enlistees.

Compromise Agreement

Under section 101 of the compromise agreement, effective November 1, 2000, the basic education benefit would be increased from \$552 per month (effective October 1, 2000) to \$650 per month for a 3-year period of service, and \$528 per month for a 2-year period of service.

UNIFORM REQUIREMENT FOR HIGH SCHOOL DI-PLOMA OR EQUIVALENCY BEFORE APPLICATION FOR MONTGOMERY GI BILL BENEFITS

To be eligible to receive educational assistance, section 3011(a)(2) of title 38, United States Code, requires that a servicemember complete the requirements of a secondary school diploma (or equivalent certificate) before the end of the individual's initial obligation period of active duty. Section 3012(a)(2) contains similar requirement servicemembers who serve 2 years of active duty as part of a 6-year Selected Reserve commitment.

Senate Bill

Section 111 of S. 1810 would create a single, uniform secondary school diploma requirement as a prerequisite for eligibility for education benefits—a requirement that, prior to applying for benefits, the applicant will have received a high school diploma or equivalency certificate, or will have completed the equivalent of 12 semester hours in a program of education leading to a standard college degree.

House Bill

The House bills contain no comparable provisions.

Compromise Agreement

Section 102 of the compromise agreement follows the Senate language, modified to reflect a new 10-year eligibility period for individuals affected by this provision, which would begin tolling on such individual's last discharge (or release from active duty) or the effective date of this Act, whichever is later. REPEAL OF REQUIREMENT FOR INITIAL OBLI-GATED PERIOD OF ACTIVE DUTY AS CONDITION

OF ELIGIBILITY FOR MONTGOMERY GI BILL BENEFITS

Current Law

Sections 3011(a)(1)(A)(i) and 3012(a)(1)(A)(i) of title 38, United States Code, set forth initial-period-of-active-duty requirements to earn basic educational assistance entitlement under the Montgomery GI Bill. The period within which a servicemember's eligibility for educational assistance can be established is currently restricted to the initial period of active duty service.

Senate Bill

Section 112 of S. 1810 would strike the requirement that MGIB benefit entitlement be predicated on serving an "initial" period of obligated service and substitute in its place a requirement that an obligated period of active duty be served.

House Bill

The House bills contain no comparable provision.

Compromise Agreement

Section 103 of the compromise agreement follows the Senate language with a clarifying amendment that for an obligated period of service of at least 3 years, the servicemember would have to complete at least 30 months of continuous active duty under that period of obligated service. In addition, the compromise agreement contains a modification to reflect a new 10-year eligibility period for individuals affected by this provision, which would begin tolling on such individual's last discharge (or release from active duty) or the effective date of this Act, whichever is later.

ADDITIONAL OPPORTUNITY FOR CERTAIN VEAP PARTICIPANTS TO ENROLL IN BASIC EDU-CATIONAL ASSISTANCE UNDER MONTGOMERY GI BILL

Current Law

Section 3018C of title 38, United States Code, furnishes an opportunity for certain post-Vietnam-era Veterans' Educational Assistance Program (VEAP) participants to convert to the Montgomery GI Bill (MGIB) if the individual was a participant in VEAP on October 9, 1996, was serving on active duty on that date, meets high school diploma or equivalency requirements before applying for MGIB benefits, is discharged from active duty after the individual makes the election to convert, and during the 1-year period beginning on October 9, 1996, makes an irrevocable election to receive benefits under the MGIB in lieu of VEAP, and also elects a \$1,200 pay reduction.

House Bill

Section 3 of the House amendments to S. 1402 would furnish individuals who have served continuously on active duty since October 9, 1996, through at least April 1, 2000, and who either turned down a previous opportunity to convert to the MBIB or had a zero balance in their VEAP account, the option to pay \$2,700 to convert to the MGIB program; individuals would have 12 months to elect to convert and 18 months to make payment.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 104 of the compromise agreement contains the House language.

INCREASED ACTIVE DUTY EDUCATIONAL ASSISTANCE BENEFIT FOR CONTRIBUTING MEMBERS

Current Lau

Section 3011(b) of title 38, United States Code, requires servicemembers who elect to participate in the Montgomery GI Bill program to participate in a voluntary pay reduction of \$100 per month for the first 12 months of active service to establish entitlement to basic educational assistance.

Senate Bill

Section 6 of S. 1810 would allow servicemembers who have not opted out of MGIB participation to increase the monthly rate of educational benefits they will receive after service by making contributions, at any time prior to leaving service, over and above the \$1,200 basic pay reduction necessary to establish MGIB eligibility. Under section 6, a servicemember could contribute up to an additional \$600 in multiple of \$4. The monthly rate of basic educational assistance would be increased by \$1 per month for each \$4 so contributed. Thus, MGIB participants who "use their full 36 months of MGIB benefits would receive a 9-to-1 return on their additional contribution investment. A maximum in-service contribution of \$600 would yield an additional \$5,400 of entitlement to the 36month MGIB benefit.

 $House\ Bill$ 

The House bills contain no comparable provision.

Compromise Agreement

Section 105 of the compromise agreement follows the Senate language with amendments to make this provision effective May 1, 2001, and to make eligible any servicemember who was on active duty on the date of enactment and subsequently discharged between date of enactment and May 1, 2001 to have until July 31, 2001. These individuals would have until July 31, 2001, to make an election to "buy up" additional benefits.

Subtitle B—Survivors' and Dependents' Educational Assistance

INCREASE IN RATES OF SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE

Current Law

Section 3532 of title 38, United States Code, provides survivors' and dependents' educational assistance (DEA) allowances of \$436 per month for full-time school attendance, with lesser amounts for part-time training. Generally, eligible survivors and dependents include unremarried spouses of veterans who died or are permanently or totally disabled or servicemembers who are missing in action or captured for more than 90 days by a hos-

tile force or detained or interned for more than 90 days by a foreign government. Under section 3534, such benefits are also available for correspondence courses, special restorative training, and apprenticeship training.

House Bill

Section 4 of the House amendments to S. 1402 would increase DEA benefits for full-time classroom training students to \$600 per month effective October 1, 2000, and \$720 per month effective October 1, 2002, with parallel increases for part-time students and similar adjustments to the rates paid for correspondence and other types of training. Apprentice-ship training would increase from \$353 to \$437 per month effective October 1, 2000, and \$524 per month effective October 1, 2002. This provision also requires annual cost-of-living allowances for DEA benefits.

Senate Bill

Section 5 of S. 1402 would increase the fulltime rate of DEA benefits by 13.6 percent to \$550 per month, and make parallel increases in the benefit rates afforded to three-quarter time and half-time students. Increases of 13.6 percent in the amounts for correspondence courses, special restorative training, and apprenticeship training would also be afforded.

Compromise Agreement

Under section 111 of the compromise agreement, effective November 1, 2000, the basic education benefit for survivors and dependents would increase from \$485 per month to \$588 per month, with future annual cost-of-living increases effective October 1, 2001.

ELECTION OF CERTAIN RECIPIENTS OF COM-MENCEMENT PERIOD OF ELIGIBILITY FOR SUR-VIVORS' AND DEPENDENTS' EDUCATIONAL AS-SISTANCE

 $Current\ Law$ 

Section 3512(a)(3) of title 38, United States Code, provides that if the Secretary first finds that the parent from whom eligibility for DEA benefits is derived has a total and permanent service-connected disability, or if the death of the parent from whom eligibility is derived occurs between an eligible child's 18th and 26th birthdays, then such eligibility period shall end 8 years after whichever date last occurs: 1) the date on which the Secretary first finds that the parent from whom eligibility is derived has a total and permanent service-connected disability, or 2) the date of death of the parent from whom eligibility is derived. "First finds" is defined in this section as either the date the Secretary notifies an eligible parent of total and permanent service-connected disability or the effective date of such disability award. Senate Bill

Section 114 of S. 1810 would allow a child to elect the beginning date of eligibility for DEA benefits that is between 1) in the case of a child whose eligibility is based on a parent who has a total and permanent service-connected disability, the effective date of the rating determination and the date of notification by the Secretary for such disability, 2) in the case of a child whose eligibility is based on the death of a parent, the date of the parent's death and the date of the Secretary's decision that the death was service-connected.

House Bill

The House bills contain no comparable provision.

Compromise Agreement

Section 112 of the compromise agreement contains the Senate language.

ADJUSTED EFFECTIVE DATE FOR AWARD OF SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE

Current Law

Section 5113 of title 38, United States Code, states that except for the effective date of adjusted benefits, dates relating to awards under chapters 30, 31, 32, 34, and 35, or chapter 1606 of title 10 shall, to the extent feasible, correspond to effective dates relating to awards of disability compensation.

House Bill

Section 4 of the House amendments to S. 1402 would permit the award of DEA benefits to be retroactive to the date of the entitling event, that is, service-connected death or award of a total and permanent service-connected disability. This provision would be limited to eligible person who submit an original claim for DEA benefits within 1 year after the date of the rating decision first establishing the person's entitlement.

Senate Bill

Section 115 of S. 1810 would tie the effective date of award for DEA benefits to the date of the entitling event, i.e., the date of a veteran's service-connected death or award of a permanent and total disability rating. This provision would be limited to eligible persons who submit an original claim for DEA benefits within 1 year after the date of the rating decision first establishing the person's entitlement.

Compromise Agreement

Section 113 of the compromise agreement contains the Senate language.

AVAILABILITY UNDER SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE OF PREPARATORY COURSES FOR COLLEGE AND GRADUATE SCHOOL REQUIREMENTS

Current Law

Sections 3002(3) and 3501(a)(5) of title 38, United States Code, define the "program of education" for which veterans and surviving spouses and children, receive educational assistance benefits. Section 701 of Public Law 106–118 modified section 3002(3) of title 38, United States Code, to permit a veteran to use benefits for preparatory courses. Examples of preparatory courses include courses for standardized tests used for admission to college or graduate school.

Senate Bill

House Bill

Section 113 of S. 1810 would allow survivors' and dependents' educational assistance benefits to be provided for use on preparatory courses.

The House bills contain no comparable provision.

 $Compromise\ Agreement$ 

Section 114 of the compromise agreement follows the Senate language with an amendment clarifying that qualifying persons may pursue preparatory courses prior to the person's 18th birthday.

Subtitle C—General Educational Assistance REVISION OF EDUCATIONAL ASSISTANCE INTERVAL PAYMENT REQUIREMENTS

urrent Law

Section 3680(a)(C) of title 38, United States Code, allows VA to pay educational assistance for periods between a term, semester, or quarter if the interval between these periods does not exceed one calendar month.

House Bill

Section 6 of the House amendments to S. 1402 would allow monthly educational assistance benefits to be paid between term, quarter, or semester intervals of up to 8 weeks.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 121 of the compromise agreement contains the House language.

AVAILABILITY OF EDUCATION BENEFITS FOR PAYMENT FOR LICENSING OR CERTIFICATION TESTS

Current Law

Chapters 30, 31, 32, 34, 35, and 36 of title 38, United States Code, do not currently authorize use of VA educational assistance benefits for occupational licensing or certification tests.

House Bill

Section 7 of the House amendments to S. 1402 would allow veterans' and DEA benefits to be used for up to \$2,000 in fees for civilian occupational licensing or certification examinations that are necessary to enter, maintain, or advance into employment in a vocation or profession. This section would establish various requirements regarding the use of such entitlement and requirements for organizations or entities offering licensing or certification tests. This section also establishes minimum approval requirements of a licensing or certification body, requirements for tests, requirements for organizations or entities offering these tests, VA administrative authority (including a requirement to develop the computer systems and procedures to make payments to beneficiaries for these tests), and a seven-member, organization-specific VA Professional Certification and Licensing Advisory Committee.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 122 of the compromise agreement follows the House language with an amendment that the Secretary shall name seven individuals to the VA professional Certification and Licensing Advisory Committee, an amendment that deletes specific names of organizations from which members shall be named, and an amendment that deletes the requirement that members shall service without compensation.

INCREASE FOR FISCAL YEARS 2001 AND 2002 IN AGGREGATE ANNUAL AMOUNT AVAILABLE FOR STATE APPROVING AGENCIES FOR ADMINISTRATIVE EXPENSES

Current Law

Section 3674(a)(4) of title 38, United States Code, makes available amounts not exceeding \$13 million in each fiscal year for duties carried out by State Approving Agencies House Bill

The House bills contain no comparable provision.

Senate Bill

The Senate bills contain no comparable provision.

 $Compromise\ Agreement$ 

Section 123 of the compromise agreement amends the amount available for State Approving Agencies to \$14 million for fiscal year 2001 and fiscal year 2002.

TITLE II—HEALTH PROVISIONS

Subtitle A—Personnel Matters

ANNUAL NATIONAL PAY COMPARABILITY ADJUSTMENT FOR NURSES EMPLOYED BY THE DEPARTMENT OF VETERANS AFFAIRS

Current Law

The rate of pay for VA nurses is determined using a mechanism contained in Sub-

chapter IV of Chapter 74, title 38, United States Code. The law links changes in total pay to nurse compensation trends in local health care labor markets. This locality pay feature has not always produced the results envisioned by Congress. For example, even though many VA nurses received very substantial one-time increases as a consequence of the 1900 restructuring of basic pay, some VA nurses have not received any additional pay raises since that time.

House Bill

Section 101 of H.R. 5109 would reform the local labor market survey process and replace it with a discretionary survey technique. The bill would provide more flexibility to VA medical center directors to obtain the data needed to complete necessary surveys and also restrict their authority to withhold indicated rate increases. Directors would be prohibited from reducing nurse pay. In addition, the House bill would also guarantee VA nurses a national comparability increase equivalent to the amount provided to other federal employees. The bill also would require Veterans Health Administration network directors to consult with nurses on questions of policy affecting the work of VA nurses, and would provide for registered nurses' participation on medical center committees considering clinical care, budget matters, or resource allocation involving the care and treatment of veteran patients.

Senate Bill

The Senate bills contain no comparable provision.

 $Compromise\ Agreement$ 

Section 201 of the compromise agreement contains the House language.

SPECIAL PAY FOR DENTISTS

Current Lau

Subchapter III of Chapter 74, title 38, United States Code, authorizes special pay to physicians and dentists employed in the Veterans Health Administration. This authority is intended to improve recruitment and retention of dentists and physicians.

House Bill

Section 102 of H.R. 5109 would revise and increase the rates of special pay for VA dentists. This is the first proposed change in these rates since 1991.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 202 of the compromise agreement contains the House language. The Committees urge medical center directors to utilize the full range of pay increases authorized, including increases in the higher range, to optimize dentist recruitment and retention efforts.

EXEMPTION FOR PHARMACISTS FROM CEILING ON SPECIAL SALARY RATES

Current Lau

Under section 7455 of title 38, United States Code, VA has authority to increase rates of basic pay for certain health care personnel—either nationally, locally or on another geographic basis—when deemed necessary for successful recruiting and retention. Special rates may be granted in response to salaries in local labor market, but may not enable VA to be a pay leader. With limited exceptions, the law restricts such "special salary rates" to a maximum pay rate, but exempts two categories of health care personnel from that statutory ceiling: nurse anesthetists and physical therapists.

House Bill

Section 103 of H.R. 5109 adds VA pharmacists to the existing categories of VA personnel exempted from such statutory pay ceilings. This amendment would enable VA to improve retention of the most senior members of the current pharmacy workforce and would improve its competitiveness in recruiting new pharmacists.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 203 of the compromise agreement contains the Housing language.

TEMPORARY FULL-TIME APPOINTMENTS OF CERTAIN MEDICAL PERSONNEL

Current Law

Section 7405 of title 38, United States Code, authorizes VA to provide temporary appointments of individuals in certain professions, including nursing, pharmacy, and respiratory, physical, and occupational therapy, who have successfully completed a full course of study but who are pending registration, licensure, or certification. Upon obtaining the required credentials, these professionals may be converted to career appointments. This temporary appointment authority provides VA a means of recruiting new health professionals still in the process of meeting the technical qualification standards pertinent to their fields.

However, VA must now limit physician assistants (PAs) waiting to take the PA certification examination to a general 1 year, nonrenewable appointment. Since the national certification examination is only offered once a year, this 1-year appointment limits VA's efforts to provide a smooth transition from a training appointment to a permanent appointment for such graduates.

House Bill

Section 105 of H.R. 5109 would amend section 7405(c)(2) of title 38, United States Code, to add the position of physician assistant to the existing of professional and technical ocupations for which VA may make temporary graduate technician appointments, provided these individuals have completed training programs acceptable to the Secretary. Under this appointment authority, graduate physician assistants would have up to 2 years to obtain professionals certification or licensure.

Senate Bill

Section 203 of S. 1810 would accomplish the same ends as the above-described language with respect to physician assistant temporary graduate technician appointments.

Compromise Agreement

Section 204(a) of the compromise agreement contains the House language.

MEDICAL SUPPORT PERSONNEL

Current Law

Section 7405 of title 38 United States Code, permits the temporary appointment of certain medical support personnel who work primarily in the laboratories and other facilities of VA principal investigators who have been awarded VA research and development funds through VA's scientific merit review process. These technicians are appointed for a maximum term of 2 years. The normal VA cycle of 3-year research awards conflicts with the 2-year maximum term for appointments of these key personnel in VA's research and development program.

House Bill

Section 105 of H.R. 5109 would amend section 7405(c)(3) of title 38, United States Code,

to authorize the Secretary to make and to renew temporary full time appointments for periods not to exceed 3 years.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 204(b) of the compromise agreement contains the House language.

QUALIFICATIONS OF SOCIAL WORKERS

Current Law

Section 7402(b)(9) of title 38, United States Code, requires that a VA social worker become licensed, certified, or registered in the state in which he or she works within 3 years of initial appointments in this capacity by the VA. Certain states, such as California, impose prerequisites to the licensure examination that routinely require more than 3 years to satisfy. Many states do not provide reciprocity in social work licensure, and thus will not grant a license in the absence of a new state licensing examination. At present. VA social workers are the only VA health care practitioners who cannot use their states licenses to gain credentials in other states' VA medical centers.

House Bill

Section 106 of H.R. 5109 would allow the Secretary, on the recommendation of the Under Secretary for Health, to waive the 3-year requirement in order to provide sufficient time to newly graduated or transferred VA social workers to prepare for their state licensure examinations.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 205 of the compromise agreement contains the House language.

PHYSICIAN ASSISTANT ADVISOR TO THE UNDER SECRETARY FOR HEALTH

Current Law

Section 7306 of title 38, United States Code, establishes the Office of the Under Secretary for Health and requires that the office include representatives of certain health care professions. VA is the nation's largest single employer of physician assistants (PAs), with over 1,100 physician assistants on VA's employment rolls. Nevertheless, PAs are not represented by a number of their field in the office of the Under Secretary for Health.

House Bill

Section 104 of H.R. 5109 would establish a PA consultant position which would be filled by a VHA physician assistant designated by the Under Secretary for Health. This individual could be assigned to the field with occasional official visits as needed to VHA headquarters or elsewhere as required to fulfill assigned duties of the position. The PA consultant would advise the Under Secretary on all matters relating to the utilization and employment of physician assistants in the Veterans Health Administration.

Senate Bill

Section 202 of S. 1810 would add an Advisor on Physician Assistants to the immediate Office of the Under Secretary for Health, would require this individual to serve in an advisory capacity and would require that the PA advisor shall advise the Under Secretary on matters regarding general and expanded utilization, clinical privileges, and employment (including various specific matters associated therewith) of physician assistants in the Veterans health Administration.

Compromise Agreement

Section 206 of the compromise agreement incorporates portions of both the House and Senate language. The Committees call upon VA to provide the individual selected as Advisor on Physician Assistants with necessary support and resources to enable this consultant to fulfill the assigned responsibilities of the position.

EXTENSION OF VOLUNTARY SEPARATION INCENTIVE PAYMENTS

Current Law

Public Law 106-117, the Veterans Millennium Health Care and Benefits Act of 1999, authorized a temporary program of voluntary separation incentive payments to assist VA in restructuring its workforce. This program limited VA to a 15-month authorization period for such "buyouts" of VA employees, limited to 4,700 the number of staff who could participate, and required VA to make a contribution of 26 percent of the average salary of participating employees to the Civil Service Retirement and Disability Fund. This provision also requires a one-forone employee replacement for each such buyout approved under this policy.

House Bill

Section 107 of H.R. 5109 would amend title XI of Public Law 106–117 to increase the number of VA positions subject to buyouts to 8,110. The House measure would also adjust the contribution made by VA to the retirement fund to 15 percent, an amount equivalent to the amount that most other Federal agencies must contribute to the fund for their buyout participants. The measure extends VA's buyout authority from December 31, 2000 to December 31, 2002.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 207 of the compromise agreement follows the House language, but limits the number of VA positions subject to buyouts to 7,734 and allocates the position for activities of the Veterans Health Administration, Veterans Benefits Administration, National Cemetery Administration, and VA staff offices.

Subtitle B—Military Service Issues
MILITARY SERVICE HISTORY

Current Law

No provision.

House Bill

Section 301 of H.R. 5109 would require VA to take and maintain a thorough history of each veteran's health, including a military medical history. Ascertaining that a veteran was a prisoner of war, participated directly in combat, or was exposed to sustained subfreezing conditions, toxic substances, environmental hazards, or nuclear ionizing radiation often facilitates diagnosis and treatment of veterans. The House bill would provide veterans assurance that such a policy becomes a matter of routine clinical practice in VA.

Senate Bill

The Senate bills contain no comparable provision.

 $Compromise\ Agreement$ 

Section 211 of the compromise agreement adopts the intent of the House proposal, but in the form of a Sense of the Congress Resolution to express the sense of Congress that VA proceed to implement a system of record keeping to record veterans' military history.

STUDY OF POST-TRAUMATIC STRESS DISORDER (PTSD) IN VIETNAM VETERANS

Current Law

Public Law 98-160 directed VA to conduct a large-scale survey on the prevalence and incidence of PTSD and other psychological problems in Vietnam veterans. The study found that 15 percent of male and 8.5 percent of female Vietnam veterans suffered from PTSD. Among those exposed to high levels of war zone stress, however, PTSD rates were dramatically higher. Also, the study found that nearly one-third of Vietnam veterans had suffered from PTSD at some point after military service.

House Bill

Section 302 of HR 5109 would direct the VA to enter into a contract with an "appropriate entity" to carry out a follow-up study to the study conducted under Public Law 98–160

Senate Bill

The Senate bills contain no comparable provision.

 $Compromise\ Agreement$ 

Section 212 of the compromise agreement contains the House language. The Committees agree the new study should be kept distinct and independent from VA, as in the original. The compromise agreement is not intended to pre-judge the entity that will win this award.

Subtitle C—Medical Administration
DEPARTMENT OF VETERANS AFFAIRS FISHER
HOUSES

Current Law

Current law does not explicitly provide VA with authority to house veterans overnight to expedite outpatient care or next-day hospital admissions. Nor does current law provide explicit authority for VA to accept, maintain, or operate facilities for housing families or others who accompany veterans to VA facilities. However, most VA medical centers offer veterans who live some distance from a medical facility from which they are receiving care or services help with some form of lodging to facilitate scheduled visits or admissions. Indeed, more than 115 facilities offer lodging of some kind on VA grounds, and services are available in non-VA facilities at a number of other locations. Also, over the years, many VA medical centers have converted unused wards and other available space to establish temporary lodging facilities for use by patients. The Under Secretary for Health has encouraged medical centers to establish such facilities to avert the need for hospitalizing patients when outpatient treatment is more appropriate. This guidance to VA facilities suggested that facilities could provide lodging without charge to outpatients and their family members and others accompanying veterans when "medically necessary." The guidance also sanctioned the use of a revocable license for family members under which an individual could be required to pay VA a fee equal to the fairmarket value of the services being furnished. House Bill

Section 404 of H.R. 5109 would clarify VA's authority to provide temporary overnight accommodations in "Fisher Houses," built with funds donated by the Zachary and Elizabeth M. Fisher Foundation. Four such facilities are now being operated in conjunction with VA medical centers and other similar facilities located at or near a VA facility. These accommodations are available to veterans who have business at a VA medical facility and must travel a significant distance

to receive Department services, and to other individuals accompany veterans. Section 404 would also give VA clear authority to charge veterans (and those accompanying them) for overnight accommodations and apply fees collected to support continuation of these services. The measure would require VA to promulgate regulations to address matters such as the appropriate limitations on the use of the facilities and the length of time individuals may stay in the facilities.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 221 of the compromise agreement contains the House language.

EXCEPTION TO THE RECAPTURE RULE

Current Law

Section 8136 of title 38, United States Code, requires VA to "recapture" the amount of a grant to a state home for purposes of building or renovating a state veterans home, if, within 20 years, the state home ceases to be used for providing domiciliary, nursing home, or hospital care for veterans. This provision could be interpreted to require recapture of the grant if the state home allows VA to establish an outpatient clinic in the home.

House Bill

Section 406 of H.R. 5109 would clarify that establishment of an outpatient clinic in a state home would not constitute grounds entitling the United States to recover its grant.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 222 of the compromise agreement contains the House language.

SENSE OF CONGRESS CONCERNING COOPERATION BETWEEN THE DEPARTMENT OF VETERANS AF-FAIRS AND THE DEPARTMENT OF DEFENSE IN THE PROCUREMENT OF MEDICAL ITEMS

 $Current\ Law$ 

Under the Department of Veterans Affairs (VA) and Department of Defense (DOD) Health Resources Sharing and Emergency Operations Act, Public Law 97–174, VA and DOD have the authority to share medical resources. In 1999, VA and DOD entered into sharing agreements amounting to \$60 million out of combined budgets of approximately \$35 billion. This is resource sharing of less than two-tenths of one percent. On May 25, 2000, the General Accounting Office reported that greater joint pharmaceutical procurements alone could lead to as much as \$345 million in annual recurring savings.

House Bill

H. Con. Res. 413 would encourage expanded joint procurement of medical items, to include prescription drugs.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 223 of the compromise agreement contains the House language.

SUBTITLE D—CONSTRUCTION AUTHORIZATION AUTHORIZATION OF MAJOR MEDICAL FACILITY PROJECTS

Current Law

Section 8104 of title 38, United States Code, provides that no funds may be appropriated for any fiscal year, and VA may not obligate

or expend funds (other than for planning and design) for any medical construction project involving a total expenditure of more than \$4 million unless funds for that project have been specifically authorized by law.

House Bill

Section 201 of H.R. 5109 would authorize the construction of a gero-psychiatric care building at the Department of Veterans Affairs Medical Center, Palo Alto, California (\$26.6 million); the construction of a utility plant and electrical vault at the Department of Veterans Affairs Medical Center, Miami, Florida (\$23.6 million); and, seismic corrections, clinical consolidation and other improvements at the Department of Veterans Affairs Medical Center, Long Beach, California (\$51.7 million). Also, the House bill would authorize the renovation of psychiatric nursing units at the Department of Veterans Affairs Medical Center. Murfreesboro, Tennessee, using funds previously appropriated for this specific purpose (\$14 million).

Senate Bill

Section 301 of S. 1810 would authorize construction of a 120-bed gero-psychiatric facility at the Department of Veterans Affairs Palo Alto Health Care System, Menlo Park Division, California (\$26.6 million); and, construction of a nursing home at the Department of Veterans Affairs Medical Center, Beckley, West Virginia (\$9.5 million). In section 302 of S. 1810, the Senate would amend section 401 of the Veterans Millennium Health Care and Benefits Act of 1999, Public Law 106-117, to add as a seventh project authorized by that act for fiscal year 2000-2001 the Murfreesboro construction project (\$14 million).

Compromise Agreement

Section 231 of the compromise agreement incorporates each of the projects authorized by either body and includes specific authorization for the Murfreesboro project. Also, the compromise agreement provides that the authorizations for Palo Alto, Long Beach, and Beckley will be for 2 years, covering fiscal years 2001 and 2002, while the authorization for the Miami project will be only for fiscal year 2001. The compromise agreement also renews and extends the prior authorization of a project at the Lebanon, Pennsylvania VA Medical Center through the end of fiscal year 2002.

The Miami electrical plant and utility vault project is authorized only for fiscal year 2001. While the compromise agreement authorizes the project to proceed, we note that the current estimate to replace these facilities is \$32 million. Given this level of anticipated expenditure, the Committees urge the Secretary to examine innovative ways to reduce VA's outlay, at least on an initial basis. For example, the Committees note that the Miami facility is located in the midst of a very densely developed community of health and public safety-related institutions, including the Jackson Memorial Hospital and Metro-Dade police headquarters, among others. Given the need for such crucial institutions, including the VA medical center, to have dependable, stable, weather-proof and even fail-safe electrical sources, the Committees urge the Secretary to consider a "performance-based contract" for these services through the local utility (Florida Power and Light), or by consortium with multiple partners in need of similar improvements, assurances and security of utilities. At a minimum, the Secretary must carefully examine the reported cost of this project to ensure that it is being planned to

meet known needs, rather than planned for the "highest possible use."

AUTHORIZATION OF APPROPRIATIONS  $\label{eq:house} House$ 

The House bill (H.R. 5109, section 202) would authorize appropriations for fiscal years 2001 and 2002 of \$101.9 million for construction of the facilities authorized in section 201 thereof.

Senate Bill

S. 1810, section 303, would authorize appropriations for fiscal years 2001 and 2002 of \$36.1 million for construction for the facilities authorized in section 301. Also, section 303 alters the authorization funding level of projects authorized in Public Law 106–117 by including the Murfreesboro project discussed above.

 $Compromise\ Agreement$ 

Section 232 of the compromise agreement authorizes appropriations for the amounts indicated in each measure for these projects, affecting both fiscal year 2001 and fiscal 2002, as follows:

Authorizations	Amount au- thorized (in millions)
Beckley Lebanon*	\$9.5 14.5
Long Beach Miami**	51.7 23.6
Murfreesboro Palo Alto	14.0 26.6

*Indicates authorization of appropriation in fiscal year 2002 only.
**Indicates authorization of appropriation in fiscal year 2001 only.

EXTENSION OF CONSTRUCTION AUTHORIZATION AT THE LEBANON, PENNSYLVANIA VA MEDICAL CENTER

Current Law

Section 401 of Public Law 106–117 (113 Stat. 1572) authorized a major construction project at the Lebanon, Pennsylvania, VA Medical Center. The project was authorized for fiscal year 2002 and fiscal year 2001.

House

The House bills contain no comparable provision.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 232(a)(3) of the compromise agreement extends through fiscal year 2002 the prior authorization for construction of a long-term care facility at the Department of Veterans Affairs Medical Center, Lebanon, Pennsylvania, in an amount not to exceed \$14.5 million.

Subtitle E—Real Property Matters CHANGE TO ENHANCED USE LEASE CONGRESSIONAL NOTIFICATION PERIOD

Current Law
Section 8163(a) of title 38, United States
Code, requires the Secretary to notify Congress of VA's intention to pursue an enhanced-use lease of unused VA property,
then wait a period of "60 legislative days"
prior to proceeding with the specific lease
objective(s). In the Veterans' Millennium
Health care Act, Public Law 106-117, Congress eased limits in law on leasing
underused VA property based on a finding
that long-term leasing could be used more
extensively to enhance health care delivery

House

to veterans.

Section 407 of H.R. 5109 would amend the waiting period for VA notifications to Congress from 60 "legislative" days to 90 "calendar" days. This change would shorten the

length of time VA must wait before entering into an enhanced-use lease.

The Senate bills contain no comparable provision.

Compromise Agreement

Section 241 of the compromise agreement contains the House language.

RELEASE OF REVERSIONARY INTEREST OF THE UNITED STATES IN CERTAIN REAL PROPERTY PREVIOUSLY CONVEYED TO THE STATE OF TENNESSEE

Current Law

In 1953, by Act of congress (67 Stat. 54), the federal government transferred certain property of the Veterans Administration (now Department of Veterans Affairs) in Johnson City (now Mountain Home), Tennessee, to the State of Tennessee, for use by the Army National Guard of the State of Tennessee. The act of transfer retained a reversionary interest in the land on the part of the government in the event that the State of Tennessee ceased to use the land as a training area for the guard and for "other military purposes." The land is no longer being used by the Tennessee National Guard and has no practical use by the government. Local municipal officials desire the land as a site for a public park and recreation area, and the State of Tennessee has made a commitment to transfer the land for these purposes but may not do so absent a recision of the federal government's reversionary interest in the property.

House Bill

Section 407 of H.R. 5109 would rescind the government's reversionary interest in the Tennessee property.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 242 of the compromise agreement contains the House language.

TRANSFER OF THE ALLEN PARK, MICHIGAN, VA MEDICAL CENTER TO FORD MOTOR LAND DE-VELOPMENT CORPORATION

Current Law

In 1937, the Henry Ford family donated a 39-acre plot to VA expressly for the establishment of the Allen Park, Michigan VA Hospital. The conveyance provided that VA must return the land, in the same condition as it was received, if VA ceased to utilize it for veterans' health care. In 1996, VA activated a new VA Medical Center in Detroit.

H.R. 5346 would transfer the land, the site of the former Allen Park, Michigan VA Medical Center, and all improvements thereon. to the Ford Motor Land Development Corporation, a subsidiary of Ford Motor Company. Having been replaced in 1996 by a new VA Medical Center in Detroit, the facility now is in disrepair. The bill would require up to 7 years of cooperation between VA and Ford in demolition, environmental cleanup (including remediation of hazardous material and environmental contaminants found on the site), and restoration of the property to its prior state. VA contributions would be limited to \$2 million per year over the period, and Ford would be responsible for any amount over VA's total contribution (\$14 million) required to complete the restoration. At the conclusion of restorative work, the Secretary would formally abandon the property, which would then revert to Ford Motor Land Development Corporation, in actained in the original 1937 gift.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 243 of the compromise agreement contains the House language.

TRANSFER OF LAND AT THE CARL VINSON VA MEDICAL CENTER, DUBLIN, GEORGIA

Current Law

No provision.

House Bill

H.R. 5139 would convey to the Board of Regents of the State of Georgia two tracts of real property, including improvements, consisting of 39 acres at the Carl Vinson Department of Veterans Affairs Medical Center, Dublin, Georgia. The bill also conveys to the Community Service Board of Middle Georgia three tracts of property consisting of 58 acres, including improvements, at the Carl Vinson facility. The bill requires these properties be used in perpetuity for education or health care.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 244 of the compromise agreement contains the House language.

LAND CONVEYANCE OF MILES CITY, MONTANA VETERANS AFFAIRS MEDICAL CENTER TO CUS-TER COUNTY, MONTANA

Current Law

No provision.

Senate Bill

Section 312 of S. 1810 would transfer VA medical center facilities in Miles City, Montana, to Custer County, Montana, while authorizing VA to lease space in which VA would operate an outpatient clinic. Custer County would devote the transferred land to assisted living apartments for the elderly and to a number of other economic enhancement and community activity uses, including education and training courses through Miles Community College, a technology center, local fire department training, and use by the Montana Area Food Bank. VA, in turn, is relieved of the requirement to spend over \$500,000 per year maintaining a facility that is poorly suited to provide health care to the veterans of eastern Montana. VA would devote the saved funds to expanding Montana veterans' access to care by activating additional community based outpatient clinics in Montana.

House Bill

The House bills contain no comparable pro-

 $Compromise\ Agreement$ 

Section 245 of the compromise agreement follows the Senate language. The compromise agreement anticipates that VA will work with the civic leadership of Custer County, Montana in order to identify potential improvements that may be reasonably necessary to effectuate the transfer of the Miles City property to Custer County. Also, the compromise agreement calls for the Secretary to determine to what extent it may be necessary to stipulate any conditions about the transfer, or conditions for VA's future use of this property, prior to the transfer of ownership of this property to Custer County. The compromise agreement further envisions funds appropriated to VA for non-recurring maintenance may be used, as author-

cordance with the reversionary clause con- ized by law, to facilitate the transfer of VA's interest in the Miles City VA Medical Center to Custer County.

> TRANSFER OF THE FORT LYON, COLORADO, VA MEDICAL CENTER TO THE STATE OF COLORADO Current Law

No provision.

Senate Bill

Sections 313 and 314 of S. 1810 would transfer the VA Medical Center, Ft. Lyon, Colorado to the State of Colorado for use by the State as a corrections facility. Under the terms of the bill, the conveyance would take place only when arrangements are made to protect the interests of affected patients and employees of the facility. With respect to patients, the bill would require VA to make alternate arrangements to ensure that appropriate medical care and nursing home care services continue to be provided, on the same basis that care had been provided at Ft. Lyon, to all veterans receiving such services at the medical center. Under the bill, the VA would be authorized to provide care in community facilities at VA expense, notwithstanding other statutory limitations-e.g., title 38, United States Code, section 1720, which limits to 6 months the duration for which such care might be provided to veterans for nonservice-connected disabilitiesor by state homes where VA would pay full costs and reimburse the veterans' share of copayments. Further, VA would be authorized to offer voluntary separation incentive payments to eligible employees of the Ft. Lyon VA medical center. In addition, the State would be required to allow public access to the Kit Carson Chapel located on the grounds of the VA medical center. And, finally, the VA would report on the status of the VA health care system in southern Colorado, not later than 1 year after the conveyance.

House Bill

The House bills contain no comparabale provision.

Compromise Agreement

Sections 246 and 247 of the compromise agreement follow the Senate language, except for the provision extending VA's authority to offer voluntary separation incentive payments [subsection (c) of section 314 of S. 1810].

The inclusion of this language in this legislation should not be misconstrued as an erosion of, or acquiescence in, the requirement enacted in Public Law 106-117, the Veterans Millennium Health Care and Benefits Act of 1999, for VA to maintain VA-provided longterm care capacity at the 1998 level. VA continues to be obligated by law to ensure that the cumulative effect of its actions does not result in a reduction in VA's ability to provide institutional long-term care.

It should be noted that section 207 of this bill provides a 2-year extension of VA-wide authority to offer voluntary separation incentive payments to VA employees. The Committees find that the provision specifically granting the Fort Lyon facility a 1year authority to offer voluntary separation incentive payments is redundant. Further, the Committees were concerned that retaining the Fort Lyon-specific provision in final legislation could have the unintended effect of limiting the 2-year, VA-wide buyout authority, granted in section 207, to 1 year when applied in the case of Fort Lyon. The Committees expect VA to use the authority granted in section 207, as an important human resources management tool, in its conveyance of the Fort Lyon facility.

TITLE III—COMPENSATION, INSURANCE, HOUSING, EMPLOYMENT, AND MEMORIAL AFFAIRS PROVISIONS

#### Subtitle A—Compensation Programs Changes

PRESUMPTION OF SERVICE CONNECTION FOR HEART ATTACK OR STROKE SUFFERED BY A MEMBER OF A RESERVE COMPONENT IN THE PERFORMANCE OF DUTY WHILE PERFORMING IN ACTIVE DUTY TRAINING

#### Current Law

Under section 101(24) of title 38, United States Code, guardsmen and reservists who sustain an "injury" during inactive duty training are eligible for certain veterans' benefits, but are not eligible to receive disability compensation for a condition characterized as a "disease" that is incurred or aggravated during such training.

#### House Bill

Section 201(a) of H.R. 4850 would amend section 101(24) to include an acute myocardial infarction, a cardiac arrest, or a cerebrovascular accident resulting in disability or death and occurring during any period of inactive duty training for the purposes of service-connected benefits administered by VA.

The Senate bills contain no comparable provision.

#### $Compromise\ Agreement$

Section 301 of the compromise agreement contains the House provision.

SPECIAL MONTHLY COMPENSATION FOR WOMEN VETERANS WHO LOSE A BREAST AS A RESULT OF A SERVICE-CONNECTED DISABILITY

#### Current Law

Section 1114(k) of title 38, United States Code, authorizes a special rate of compensation if a veteran, as the result of a service-connected disability, has suffered the anatomical loss or loss of use of one or more creative organs, or one foot, or one hand, or both buttocks, or blindness of one eye, having only light perception, or has suffered complete loss of the ability to speak, or deafness of both ears. The special monthly compensation is payable in addition to the compensation payable by reason of ratings assigned under the rating schedule.

#### House Bill

Section 202 of H.R. 4850 would amend section 1114(k) by making veterans eligible for special monthly compensation due to the service-connected loss of one or both breasts due to a radical mastectomy or modified radical mastectomy.

#### $Senate\ Bill$

Section 103 of S. 1810 would amend section 1114(k) by making female veterans eligible for special monthly compensation due to the loss of one or both breasts, including loss by mastectomy.

#### $Compromise\ Agreement$

Section 302 of the compromise agreement contains the Senate provision.

BENEFITS FOR PERSONS DISABLED BY PARTICI-PATION IN COMPENSATED WORK THERAPY PRO-GRAM

#### Current Law

Section 1151 of title 38, United States Code, provides compensation, under certain circumstances, to veterans who are injured as a result of VA health care or participation in VA vocational rehabilitation. Section 1718 of title 38, United States Code, authorizes the "Compensated Work Therapy Program (CWT)," which pays veterans to work in a variety of positions on contracts with gov-

ernmental and industrial entities. CWT work is intended to be therapeutic by helping veterans re-enter the work force, enabling them to increase self-confidence and by improving their ability to adjust to the work setting. However, current law provides no mechanism to compensate CWT participants who may be injured as a result of participation.

#### House Bill

Section 402 of H.R. 5109 would allow VA to provide disability benefits under section 1151 to CWT participants injured while participating in this program.

#### Senate Bill

The Senate bills contains no comparable provision.

#### Compromise Agreement

Section 303 of the compromise agreement contains the House language.

REVISION TO LIMITATION ON PAYMENTS OF BEN-EFITS TO INCOMPETENT INSTITUTIONALIZED VETERANS

#### Current Law

Under section 5503 of title 38, United States Code, VA is prohibited from paying compensation and pension benefits to an incompetent veteran who has assets of \$1,500 or more if the veteran is being provided institutional care with or without charge by VA (or another governmental provider) and he or she has no dependents. Such payments are restored if the veteran's assets drop to \$500 in value. If VA later determines that the veteran is competent for at least 6 months, the withheld payments are made in a lump sum. Senate Bill

Section 205 of S. 1076 would repeal the limitation on benefit payments imposed by section 5503 of title 38, United States Code.

#### House Bill

The House bills contain no comparable provision.

#### Compromise Agreement

Under section 304 of the compromise agreement, the amount of resources that an incompetent veteran may retain and still qualify for payments is increased from \$1,500 to five times the benefit amount payable to a service-connected disabled veteran rated at 100 percent. If payments are withheld, they may be restored if the veteran's assets drop to one-half of that amount. The Committees expect that in notifying veterans and fiduciaries of the applicability of this requirement, VA will briefly indicate the assets that are counted or excluded in determining net worth. (See 38 C.F.R. §13.109)

REVIEW OF DOSE RECONSTRUCTION PROGRAM OF THE DEFENSE THREAT REDUCTION AGENCY

#### Current Law

VA provides service-connected compensation benefits to veterans who were exposed to ionizing radiation in service (due to participation in the occupation forces of Hiroshima or Nagasaki immediately after World War II, or in nuclear testing activities during the Cold War era) and who, subsequently, are diagnosed with the presumptive diseases listed in section 1112(c)(2) of title 38, United States Code. VA may also compensate radiation-exposed veterans with diseases not presumed to be service-connected if it determines that it is as likely as not that the disease is the result of exposure, taking into account the amount of exposure and the radiogenic properties of the disease; but VA utilizes dose reconstruction analysis provided by the Department of Defense to determine the estimated exposure.

#### Senate Bill

Section 171 of S. 1810 specifies that the Department of Defense (DOD) shall contract

with the National Academy of Sciences (NAS) to carry out periodic reviews of the dose reconstruction program. NAS would review whether DOD's reconstruction of sampled doses is accurate, whether DOD assumptions regarding exposure based upon sampled doses are credible, and whether data from nuclear testing used by DOD in its reconstructions are accurate. The review would last 24 months and culminate in a report detailing NAS' findings and recommendations, if any, for a permanent review program.

#### House Bill

The House bills contain no comparable provision.

#### $Compromise\ Agreement$

Section 305 of the compromise agreement follows the Senate language.

#### Subtitle B—Life Insurance Matters

PREMIUMS FOR TERM SERVICE DISABLED VETERANS' INSURANCE FOR VETERANS OLDER THAN AGE 70

#### Current Law

VA Administers the Service-Disabled Veterans Insurance (SDVI) program under chapter 19 of title 38, United States Code. SDVI term policy premiums increase every 5 years to reflect the increased risk of death as individuals age.

#### Senate Bill

Section 131 of S. 1810 would cap premiums for SDVI term policies at the age 70 renewal rate.

#### House Bill

The House bills contain no comparable provision.

#### Compromise Agreement

Section 311 of the compromise agreement follows the Senate language with an amendment requiring VA to report to Congress, not later than September 30, 2001, on plans to liquidate the unfunded liability in the SDVI program not later than October 1, 2011.

INCREASE IN AUTOMATIC MAXIMUM COVERAGE UNDER SERVICEMEMBERS' GROUP LIFE INSURANCE AND VETERANS' GROUP LIFE INSURANCE Current Law

The Servicemembers' Group Life Insurance (SGLI) program provides up to \$200,000 in coverage to individuals on active duty in the Armed Forces, members of the Ready Reserves, the Commissioned Corps of the National Oceanic and Atmospheric Administration, the Public Health Service, cadets and midshipmen of the four service academies, and members of the Reserve Officer Training Corps. The maximum coverage of \$200,000 is automatically provided unless the servicemember declines coverage are elects coverage at a reduced amount.

#### Senate Bill

Section 132 of S. 1810 would increase the maximum amount of coverage available through the SGLI program from \$200,000 to \$250,000.

#### House Bill

The House bills contain no comparable provision.

#### $Compromise\ Agreement$

Section 312 of the compromise agreement contains the Senate language.

ELIGIBILITY OF CERTAIN MEMBERS OF THE INDI-VIDUAL READY RESERVE FOR SERVICE-MEMBERS' GROUP LIFE INSURANCE

#### Current Law

Members of the Selected Reserve are eligible for enrollment in the Servicemembers' Group Life Insurance (SGLI) program. Members of the Individual Ready Reserve (IRR)

are eligible for SGLI only when called to active duty. Members of the IRR are currently eligible for Veterans Group Life Insurance, but only a small percentage participates.

House Bill

Section 301 of H.R. 4850 would provide those members of the IRR who are subject to involuntary call-up authority to enroll in the Serivcemembers' Group Life Insurance program.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 313 of the compromise agreement contains the House language.

Subtitle C—Housing and Employment Programs

ELIMINATION OF REDUCTION IN ASSISTANCE FOR SPECIALLY ADAPTED HOUSING FOR DISABLED VETERANS HAVING JOINT OWNERSHIP OF HOUSING UNITS

Current Law

Under chapter 21 of title 38, United States Code, veterans with severe disabilities such as loss of ambulatory function are eligible for specially adapted housing grants of up to \$43,000 to finance the purchase or remodeling of housing units with special adaptions necessary to accommodate their disabilities. No particular form of ownership is specified in current law. Under regulations promulgated by the Secretary of Veterans Affairs, co-ownership of the property by the veteran and another person is not relevant to the amount of the grant if the co-owner is the veteran's spouse. If, however, the co-owner is a person other than the veteran's spouse, the maximum grant amount is reduced by regulation to reflect the veteran's partial ownership of the property interest, e.g., if the veteran jointly owns the property with one other person such as a sibling, the maximum grant is \$21,500. (See 38 CFR § 36.4402)

Senate Bill

Section 121 of S. 1810 would amend section 2102 of chapter 21 of title 38, United States Code, to allow VA to make non-reduced grants for specially adapted housing in cases where title to the housing unit is not vested solely in the veteran, if the veteran resides in the housing unit.

House Bill

The House bills contain no comparable provision.

Compromise Agreement

Section 321 of the compromise agreement contains the Senate language.

VETERAN'S EMPLOYMENT EMPHASIS UNDER FEDERAL CONTRACTS FOR RECENTLY SEPARATED VETERANS

 $Current\ Law$ 

Section 4212 of title 38, United States Code, requires that certain Federal contractors and subcontractors take affirmative action to employ and advance "special disabled veterans" (generally, veterans with serious employment handicaps or disability ratings of 30 percent or higher), Vietnam-era veterans, and other veterans who are "preference eligible" (generally, veterans who have served during wartime or in a campaign or expedition for which a campaign badge has been authorized).

Senate Bill

Section 151 of S. 1810 would add recently separated veterans (veterans who have been discharged or released from active duty within a 1-year period) to the definition of

veterans to whom Federal contractors and subcontractors must extend affirmative action to employ and advance in employment. House Rill

The House bills contain no comparable provision.

Compromise Agreement

Section 322 of the compromise agreement contains the Senate language.

EMPLOYERS REQUIRED TO GRANT LEAVE OF ABSENCE FOR EMPLOYEES TO PARTICIPATE AS HONOR GUARDS FOR FUNERALS OF VETERANS Current Law

Section 4303(13) of title 38, United States Code, defines "service in the uniformed services," as the performance of duty on a voluntary or involuntary basis. Section 4316 defines the rights, benefits, and obligations of persons absent from employment for service in a uniformed service.

House Bill

H.R. 284 would add to the definition of "service in the uniformed services" a period for which a person is absent from employment for the purpose of performing funeral honors authorized duty under section 12503 of title 10, United States Code, or section 115 of title 32, United States Code. An employer would be required to grant an employee who is a member of a reserve component an authorized leave of absence from a position of employment to allow the employee to perform funeral duties. For purposes of intent to return to a position of employment with an employer, H.R. 284 would stipulate that an employee who takes an authorized leave of absence to perform funeral honors duty would be deemed to have notified the employer of the employee's intent to return to such position of employment.

Senate Bill

The Senate bills contain no comparable provision.

 $Compromise\ Agreement$ 

Section 323 of the compromise agreement contains the House language.

Subtitle D—Cemeteries and Memorial Affairs

ELIGIBILITY OF CERTAIN FILIPINO VETERANS OF WORLD WAR II FOR INTERMENT IN NATIONAL CEMETERIES

 $Current\ Law$ 

Section 2402(4) of title 38, United States Code, provides that eligibility for burial in any open VA national cemetery include any citizen of the United States who, during any war in which the United States is or has been engaged, served in the armed forces of any government allied with the United States during that war, and whose last such service terminated honorably.

Senate Bill

Section 141 of S. 1810 would amend section 2402(4) of title 38, United States Code, to provide for the eligibility of a Philippine Commonwealth Army veteran for burial in a national cemetery if, at the time of death, the Commonwealth Army veteran is a naturalized citizen of the United States, and he is a resident of the United States.

House Bill

The House bills contain no comparable provision.

Compromise Agreement

Section 331 of the compromise agreement follows the Senate language with an amendment requiring that the veteran be a citizen of, or lawfully admitted for permanent residence in, the United States, and be receiving

compensation or be determined to have been eligible for pension had the veteran's service been deemed to be active military, naval, or air service.

PAYMENT RATE OF BURIAL BENEFITS FOR CERTAIN FILIPINO VETERANS OF WORLD WAR II  $Current\ Law$ 

Former members of the Philippine Commonwealth Army may qualify for VA disability compensation, burial benefits, and National Service Life Insurance benefits, and their survivors may qualify for dependency and indemnity compensation. These benefits are paid at one-half the rate they are provided to U.S. veterans. (See 38 U.S.C. §107).

Senate Bill

Section 201 of S. 1076 would authorize payment of the full-rate funeral expense and plot allowance to survivors of Philippine Commonwealth Army veterans who, at the time of death, a) are citizens of the United States residing in the U.S. and b) are receiving compensation for a service-connected disability or would have been eligible for VA pension benefits had their service been deemed to have been active military, naval, or air service.

House Bill

The House bills contain no comparable provision.

Compromise Agreement

Section 332 of the compromise agreement follows the Senate language with an amendment that as an alternate requirement to citizenship, permanent resident status would suffice for purposes of establishing eligibility.

PLOT ALLOWANCE FOR BURIAL IN STATE
VETERANS' CEMETERIES

Current Law

Section 2303(b)(1) provides a plot allowance of \$150 for each veteran buried in a Stateowned veterans' cemetery, provided that only persons eligible for burial in a national cemetery are buried in that cemetery.

House Bill

The House bills contain no comparable provision.

Senate Bill

The Senate bills contain no comparable provision.

 $Compromise\ Agreement$ 

Section 333 of the compromise agreement would allow a State to bury in a State veterans' cemetery members of the Armed Forces or former members discharged or released from service under conditions other than dishonorable—who are not otherwise eligible for burial in a national cemetery—without the State losing its eligibility for a plot allowance.

#### TITLE IV—OTHER MATTERS

BENEFITS FOR THE CHILDREN OF WOMEN VIETNAM VETERANS WHO SUFFER FROM CERTAIN BIRTH DEFECTS

Current Law

VA has authority to compensate veterans (including additional amounts of compensation for dependents) for service-connected disease or injury. VA may, pursuant to Public Law 104-204, provides benefits to children of Vietnam veterans born with "all forms and manifestations" of spina bifida except spina bifida occulta. Children with spina bifida born of Vietnam veterans currently are eligible for (1) a monthly allowance, varying by degree of disability of the person with spina bifida, (2) health care for any disability associated with that person's spina

bifida, and 930 vocational training, job placement, and post-job placement services.

Senate Bill

Section 162 of S. 1810 would extend (with a single variation) to the children born with birth defects to women Vietnam veterans the same benefits as those now afforded to Vietnam veterans' children born with spina bifida under chapter 18 of title 38, United States Code.

House Bill

The House bills contains no comparable provision.

Compromise Agreement

Section 401 of the compromise agreement generally follows the Senate language. The former chapter 18 has been redesignated as subchapter I, the compromise agreement from section 401 of S. 1810 has been designated as subchapter II of chapter 18 and certain general definitional and administrative provisions applicable to both subchapters I and II of chapter 18 have been placed in a new subchapter III.

The definition of "child" in the Senate bill

The definition of "child" in the Senate bill has been moved to a general definitions section (new section 1821) contained in subchapter III. A separate definition of "eligible child" (for purposes of subchapter II) has been provided in a new section 1811. The definition of "female Vietnam veteran" contained in S. 1810 has been removed from subchapter II and replaced by general definitions of Vietnam veteran and Vietnam era in new section 1821.

S. 1810 would have excluded spina bifida from the definition of a covered birth defect in subchapter II. Thus, the Senate bill could have been interpreted so as to require a child to choose to receive a monthly monetary allowance and health care based only on spina bifida or based only on non-spina bifida disabilities, but not both. Because the Committees wish to include spina bifida with all other covered disabilities for purposes of rating the disabilities from which an eligible child may suffer, the prohibition in proposed section 1812(b)(2) has been deleted from the compromise bill. The compromise agreement is intended to ensure that children of women Vietnam veterans who suffer both from spina bifida and any other covered birth defect will have all of their disabilities considered in determining the appropriate disability rating and the amount of monetary benefits to be paid under subchapter II of chapter 18. If the only covered birth defect present is spina bifida, the eligible child would be compensated under the spina bifida provisions of subchapter I of chapter 18.

The requirement in S. 1810 that birth defects identified by the Secretary be listed in regulations has been omitted. In drafting this legislation, the Committees considered the report of the Department of Veterans Affairs. Veterans Health Administration. Environmental Epidemiology Service, entitled 'Women Vietnam Veterans Reproductive Outcomes Health Study" (October, 1998). Because this report identifies a wide variety of birth defects identified in the children of women Vietnam veterans, the Committees concluded that it was not necessary to provide a rating for each separate defect. Thus, the Committees intend that, in addition to whatever specific defects the Secretary may identify, the Secretary may also describe defects in generic terms, such as "a congenial muscular impairment resulting in the inability to stand or walk without assistive devices." Language authorizing the Secretary to take into account functional limitations when formulating a schedule for rating disabilities under the new subchapter was added to specifically allow for ratings based upon generic descriptions of functional limitations imposed by the disabilities.

The limitation contained in the Senate bill which barred assistance under the new authority to an individual who qualified for spina bifida benefits has been deleted to assure that children who suffer from spina bifida and any other covered defect may receive a monetary allowance under subchapter II and health care which takes into account the disabilities imposed by spina bifida and any other condition.

EXTENSION OF CERTAIN EXPIRING AUTHORITIES  $Current\ Law$ 

The following authorities expire on September 30, 2002: 1) VA's authority to verify the eligibility of recipients, of, or applicants for, VA needs-based benefits and VA meanstested medical care by gaining access to income records of the Department of Health and Human Services/Social Security Administration and the Internal Revenue Service, 2) the reduction to \$90 per month for VA pension and death pension benefits to veterans or other beneficiaries without dependents who are receiving Medicaid-covered nursing home care, 3) the Secretary's authority to charge borrowers who obtain VA-guaranteed, insured or direct home loans a "home loan" fee, and 4) procedures applicable to liquidation sales of defaulted home loans guaranteed by VA. The Secretary's (enhanced loan asset) authority to issue and guarantee securities representing an interest in home loans expires on December 31, 2002.

House Bill

Section 8 of H.R. 4268 would extend temporary authorities to 2008 that would otherwise expire on September 30, 2002, including: 1) VA income verification authority through which VA verifies the eligibility for VA needs-based benefits and VA means-tested medical care, by gaining access to income records of the Department of Health and Human Services/Social Security Administration and the Internal Revenue Service, 2) limitation on VA pension and death pension payments to beneficiaries without dependents receiving Medicaid-covered nursing home care, 3) VA-enhanced loan asset authority guaranteeing the payment of principal and interest on VA-issued certificates or other securities, VA home loan fees of 3/4 of one percent of the total loan amount, and 4) procedures applicable to liquidation sales on defaulted home loans guaranteed by VA. Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 402 of the compromise agreement contains the House language.

PRESERVATION OF CERTAIN REPORTING REQUIREMENTS

Current Law

The Federal Reports Elimination and Sunset Act of 1995 repealed a number of agency report requirements that Congress had imposed during the 20th century. The effect of that law, which otherwise would have taken effect last year, was temporarily suspended until May 15, 2000, by a provision in last year's omnibus appropriations act, Public Law 106-113

House Bill

Section 10 of H.R. 4268 would reinstate the requirements that the Secretary provide periodic reports concerning equitable relief granted by the Secretary to an individual

beneficiary (expires December 31, 2004); work and activities of the Department; programs and activities examined by the Advisory Committees on a) former prisoners of war (expires December 31, 2003) and b) women veterans (expires after biennial reports submitted in 2004); operation of the Montgomery GI Bill educational assistance program (expires December 31, 2004); and activities of the Secretary's special medical advisory group (expires December 31, 2004). It also requires the Secretary to include with any report that is required by law or by a joint explanatory statement of a Congressional conference committee an estimate of the cost of preparing the report.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

Section 403 of the compromise agreement contains the House language.

LEGISLATIVE PROVISIONS NOT ADOPTED

EXPANSION OF LIST OF DISEASES PRESUMED TO BE SERVICE-CONNECTED FOR RADIATION-EXPOSED VETERANS

Current Law

Section 1112(c)(2) of title 38, United States Code, lists 16 diseases which, if they become manifest in a radiation-exposed veteran at any time in his or her lifetime, would be considered to have been incurred in or aggravated during active service.

Senate Bill

Section 102 of S. 1810 would amend section 1112(c)(2) by adding lung cancer, tumors of the brain and central nervous system, and ovarian cancer to the list of diseases presumed to be service-connected if they are contracted by radiation-exposed veterans.

House Bill

The House bills contain no comparable provision.

INCREASE IN MAXIMUM AMOUNT OF HOUSING LOAN GUARANTEE

Current Law

Under section 3703(a)(1)(A)(IV) of title 38, United States Code, VA guarantees 25 percent of a home loan amount for loans of more than \$144,000, with a maximum guaranty of \$50,750. Under current mortgage loan industry practices, a loan guaranty of \$50,750 is sufficient to allow a veteran to borrow up to \$203,000 toward the purchase of a home with no down payment.

Senate Bill

Section 122 of S. 1810 would amend section 3703(a)(1) to increase the maximum amount of the VA guaranty from \$50,750 to \$63,175.

House Bill

The House bills contain no comparable provision.

TERMINATION OF COLLECTION OF LOAN FEES FROM VETERANS RATED ELIGIBLE FOR COMPENSATION AT PRE-DISCHARGE RATING EXAMINATIONS

Current Law

Section 3729(c) of title 38, United States Code, provides that a loan fee may not be collected from a veteran who is receiving disability compensation (or who, but for the receipt of retirement pay, would be entitled to receive compensation) or from a surviving spouse of any veteran who died from a service-connected disability (including a person who died in the active military, naval, or air service).

Senate Bill

Section 123 of S. 1810 would amend section 3729 to add an additional category of fee-exempt borrower; persons who have been evaluated by VA prior to discharge from military service and who are expected to qualify for a compensable service-connected disability upon discharge, but who are not yet receiving disability compensation because they are still on active duty.

House Bill

The House bills contain no comparable provision.

FAMILY COVERAGE UNDER SERVICEMEMBERS'
GROUP LIFE INSURANCE

Current Law

Spouses and dependent children are not eligible for any VA-administered insurance program.

Senate Bill

Section 133 of S. 1810 would create a new section 1967A within chapter 19 of title 38, United States Code. This section would provide to SGLI-insured servicemembers an opportunity to provide for coverage of their spouses and children. The amount of coverage for a spouse would be equal to the coverage of the insured servicemember, up to a maximum of \$50,000. The lives of an insured servicemembers' dependent children would be insured for \$5,000.

House Bill

The House bills contain no comparable provision.

COMPTROLLER GENERAL AUDIT OF VETERANS' EMPLOYMENT AND TRAINING SERVICE OF THE DEPARTMENT OF LABOR

Current Law

Not applicable.

Senate Bill

Section 152 of S. 1810 would require the Comptroller General of the United States to carry out a comprehensive audit of the Veterans' Employment and Training Service of the Department of Labor. The audit would commence not earlier than January 1, 2001, and would be completed not later than 1 year after enactment of this provision. Its purpose would be to provide a basis for future evaluations of the effectiveness of the Service in meeting its mission. The audit would review the requirements applicable to the Service under law, evaluate the organiza-tional structure of the Service, and any other matters related to the Service that the Comptroller General considers appropriate. House Bill

The House bills contain no comparable provision.

ACCELERATED PAYMENTS OF BASIC EDUCATIONAL ASSISTANCE

Current Law

Current law does not provide for accelerated educational assistance payments tin VA-administered education programs.

Senate Bill

Section 9 of S. 1402 would authorize VA to make accelerated payments under the terms of regulations that VA would promulgate to allow MGIB participants to receive a semester's, a quarter's, or a term's worth of benefits at the beginning of the semester, quarter, or term. For courses not so organized, VA could make an accelerated payment up to a limit established by VA regulation, not to exceed the cost of the course.

House Bill

The House bills contain no comparable provision.

ELIGIBILITY OF MEMBERS OF THE ARMED FORCES TO WITHDRAW ELECTIONS NOT TO RECEIVE MONTGOMERY GI BILL BASIC EDUCATIONAL ASSISTANCE

Current Law

Sections 3011(c)(1) (for active duty service of at least 3 years) and 3012(d)(1) (for active duty service of 2 years and 4 continuous years in the Selected Reserve) of title 38, United States Code, provide that any servicemember may make an election not to receive educational assistance under chapter 30 of title 38, United States Code. Any such election shall be made at the time the individual initially enters active duty. For servicemembers who elect to sign up for the Montgomery GI Bill, section 3011(b) requires a pay reduction of \$100 per month for the first 12 months of active service.

Senate Bill

Section 8 of S. 1402 would authorize servicemembers who had "opted out" of MGIB participation (by electing not to receive MGIB benefits and whose basic pay during the first 12 months of service, therefore, had not been reduced by \$100 per month for 12 months) to regain eligibility for MGIB benefits by making a \$1,500 lump sum payment.

House Bill

The House bills contain no comparable provision.

CODIFICATION OF RECURRING PROVISIONS IN ANNUAL DEPARTMENT OF VETERANS AFFAIRS APPROPRIATIONS ACTS

Current Law

Each year the Congress appropriates funds to the Department of Veterans Affairs as part of the Departments of Veterans Affair and Housing and Urban Development, Independent Agencies Appropriations Act (VA-HUD) appropriations bill). Although the amount of the appropriations varies from year to year, the purposes for which appropriations are made are generally fixed, and change little, if any, from year to year. Because the style of appropriations language discourages normal punctuation or sentence structure, some of the "sentences" making appropriations exceed a page in length. This approach appears to make the appropriations language difficult for the average person to read.

House Bill

Section 9 of H.R. 4268 would codify recurring provisions in annual Department of Veterans Affairs Appropriations Acts.

Senate Bill

The Senate bills contain no comparable provision.

MAJOR CONSTRUCTION PROJECT AT THE BOSTON, MASSACHUSETTS HEALTH CARE SYSTEM: INTE-GRATION OF THE BOSTON, WEST ROXBURY, AND BROCKTON VA MEDICAL CENTERS

Current Law

No provision.

House Bill

The House bills contain no comparable provision.

Senate Bill

The Senate bills contain no comparable provision.

Compromise Agreement

The Committees take note of concerns registered by Members of both Houses over the pace and poor planning associated with an important project in the greater Boston VA environment. The most recent information on the Boston integration indicates that a

new review—by the Capital Assets Restructuring For Enhanced Services (CARES) contractor for New England—will begin soon. The Committees expect VA to complete the Boston integration plan in an expedited manner. Further, the Committees expect the VA to submit a proposal, or a major construction authorization request, to address these infrastructure needs following completion of the CARES validation of bed need in the area. The Committees support this process and look forward to the results of the analysis and any proposal VA consequently may make.

PILOT PROGRAM FOR COORDINATION OF HOSPITAL BENEFITS

Current Law

No provision.

House Bill

Section 401 of H.R. 5109 would authorize a four-site VA pilot program. Under the program, veterans with Medicare or private health coverage (and a number of indigent veterans), who rely on a VA community-based clinic, could voluntarily choose nearby community hospital care for brief episodes of medical-surgical inpatient care. The VA clinic would coordinate care and cover required copayments.

Senate Bill

The Senate bills contain no comparable provision.

UNIFICATION OF MEDICATION COPAYMENTS  $Current\ Law$ 

Under Section 1710(a)(2)(G) of title 38, United States Code, VA provides medical care, without imposing an obligation to make copayments for such care, to veterans who are "unable to defray the expenses of necessary care. . . ." This is determined by comparing the veteran's annual income against an income threshold that is adjusted annually. A separate provision of law, section 1722A of title 38, United States Code, mandates that VA charge a copayment for each 30-day supply of prescription medications provided to a veteran on an outpatient basis if that medication is for the treatment of a nonservice-connected condition.

Two categories of veterans are exempt from the copayment obligation: veterans who have service-connected disability ratings of 50 percent or higher, and veterans whose annual income does not exceed the maximum amount of "means tested" pension that would be payable if such veterans were to qualify for pension. Eligibility for pension is also determined by calculating countable income against an income threshold. This pension level is lower than the health care eligibility income threshold. As a consequence, veterans who are given priority access to VA health care and are exempted from making copayments for that health care under one measurement of their means are required to make copayments for medications under a different measurement of their means.

Senate Bill

Section 201 of S. 1810 would unify the copayment exemption thresholds at the health care eligibility income threshold.

House Bill

The House bills contain no comparable provision

EXTENSION OF MAXIMUM TERM OF VA LEASES
TO PROVIDERS OF HOMELESS VETERANS SERVICES

 $Current\ Law$ 

VA's Home Loan Guaranty Program assists veterans by facilitating their purchase,

construction, and improvement of homes. VA does so by encouraging private lenders to extend favorable credit terms to veterans by guaranteeing repayment of a portion of the lender-provided home loan

In some circumstances, veterans default on mortgage loans guaranteed by VA. In such cases, the lender will foreclose, and VA, as a guarantor, may come into possession of the property. Such properties, typically, are sold to the public by VA. VA, however, has the option of leasing such properties to public and nonprofit private providers of services to homeless veterans so that such service-providers may offer shelter and other services to homeless veterans and their families. However, such leases to the providers of services to homeless veterans may not exceed 3 years in term.

Senate Bill

Section 311 of S. 1810 would extend the maximum term of VA leases to providers of services to homeless veterans from 3 to 20 years.

House Bill

The House bills contain no comparable provision.

Madam Speaker, I reserve the balance of my time.

Mr. EVANS. Madam Speaker, I yield myself such time as I may consume, and I rise in strong support of this bill's amendment. This legislation contains many important provisions, a few of which I will highlight at this time.

Among the most important is an increase in the Montgomery GI Bill basic benefit of \$650 a month. This will provide qualifying veterans more than \$23,000 to pursue their higher education goals. We are very pleased that the former chairman, the gentleman from Mississippi, Sonny Montgomery, is in the Chamber with us today. He deserves the credit for the initiation of this program and its continued support.

This is an increase of \$4200, or more than 23 percent, than the benefit available when this year began. For VA nurses, an annual pay adjustment is provided. At long last, VA nurses will now receive an annual pay adjustment like other VA employees.

I am very pleased that the measure also requires the VA to carry out a new study on Vietnam veterans and post-traumatic stress disorder. Importantly, this provision also recognizes the increased occurrence of birth defects in children born to women veterans who served in Vietnam during that war.

Madam Speaker, I particularly want to thank the chairman of the committee, the gentleman from Arizona (Mr. STUMP) not only for his leadership on this issue and the other veterans' issues being considered here today, but for his stewardship of the House Committee on Veterans' Affairs during the past 6 years. It has been a good run, and we appreciate the gentleman's strong support for the veterans of our country. We know he will be a continued fighter for their benefits and compensation.

Madam Speaker, I rise in strong support of S. 1402, the Veterans Benefits and Health

Care Improvement Act of 2000. This legislation will benefit our nation's veterans, their dependents and survivors, and strongly deserves overwhelming approval by this House.

This legislation contains many noteworthy education provisions which will benefit not only those who serve in uniform, but our nation as a whole. As the author of this legislation, with my good friend, Congressman JOHN DINGELL, to provide a meaningful increase in veterans' education benefits. I strongly believe this measure is an important first step toward revitalizing one of the most successful and important programs in modern history. Under this measure, effective November 1, 2000, the Montgomery GI Bill (MGIB) basic education benefit for veterans will increase to \$650 per month for those who serve three years in the Armed Forces and to \$528 per month for a two-year period of service. For those serving three years, this increase will provide qualifying veterans more than \$23,000 to pursue their higher education goals. This is an increase of \$4200, or 23%, over the benefit available when this year began. It is a needed step in restoring the purchasing power of the Montgomery GI Bill benefit.

In addition, an increase in MGIB education benefits for eligible survivors and dependents is provided. For the first time, an annual cost-of-living increase will also be provided for educational benefits being received by eligible survivors and dependents. Under this legislation survivors' and dependents' education benefits would be increased from \$485 per month to \$588 per month for full-time students, and by lesser amounts for part-time and other types of training.

For the first time, servicemembers on active duty who are particularly determined to achieve their educational goals are provided the option to elect an enhanced MGIB. Under this provision, eligible servicemembers could elect to make voluntary contributions while still on active duty, up to a maximum additional contribution of \$600. This contribution would be in addition to the \$1,200 reduction in pay that is required of every servicemember who elects to participate in the MGIB. In return for a maximum additional contribution of \$600, the servicemember would be eligible for up to \$5,400 in additional education assistance benefits under the MGIB program.

Other important provisions provide for a uniform requirement for a high school diploma or GED before applying for MGIB benefits and the repeal of the requirement for initial obligated period of active duty as a condition of eligibility for MGIB benefits. Further, the legislation provides that up to \$2,000 in MGIB education benefits which may be used for civilian occupational licensing or certification examination fees that are necessary to enter, maintain or advance in employment. In addition, survivors and dependents who are eligible for MGIB benefits are authorized to use those benefits for preparatory courses including standardized college entrance examinations.

Veterans are not using the MGIB benefits they have earned through honorable military service. High-ability, college-bound young Americans are choosing not to serve in the Armed Forces. The significant changes in the MGIB readjustment program embodied in this compromise agreement should help to in-

crease program usage and enable the military service to recruit the higher ability young people they need.

Several important changes regarding burial benefits are also included in this legislation. Eligibility for burial in a VA national cemetery is provided to Filipino veterans of World War II if, at the time of death, the veteran was legally residing in the United States. In addition, full-rate funeral expenses and plot allowances to survivors of eligible Filipino veterans of World War II are authorized.

With the aging of our World War II population, an estimated 1,000 veteran burials occur each day and by the year 2008, it has been estimated that 1,700 veterans' funerals will take place each day. Importantly, this legislation includes a provision that would amend the Uniformed Services Employment and Reemployment Rights Act (USERRA) to expressly require employers to grant reservists an authorized leave of absence for performing funeral honors duty. This provision would ensure that civilian employers support both reserve component servicemembers and America's veterans to whom we all owe our gratitude and final respect.

Another significant provision of this legislation regards veterans' employment. This provision would add recently-separated servicemembers as veterans to whom affirmative action must be extended, for purposes of employment and advancement in employment, by Federal contractors and subcontractors.

For VA nurses, an annual pay adjustment is provided. At long last, a serious pay inequity affecting the largest group of employees in the VA—its nurses—is addressed and VA nurses will now receive a annual pay adjustment like other VA employees. Most experts agree that we have entered or are on the threshold of another critical nurse shortage. The current nurse workforce is aging and many nurses will retire within the next five years. At the same time, the American Nurses Association indicates that enrollment in nursing schools has dropped precipitously just as we will be attempting to address the needs of an increasingly large elderly population. Older people use far more health care services than younger people do.

In addition, nurses have had to shoulder even more responsibility as health care delivery is transformed. Nurses are continually asked to work more independently, work additional shifts, and change the manner in which they have practiced medicine to reflect current health care delivery practices, which often means updating or learning new skills. This very important nurse pay provision will correct a problem that has been demoralizing our VA nurse workforce and I thank my colleagues for supporting this provision.

Over the last five years, VA's dental work-force has literally been decimated while VA has enrolled more veterans who require their services. I want to commend the Ranking Member of our Benefits Subcommittee, BOB FILNER for recognizing this problem and for authoring legislation that served as the framework for a provision contained in this legislation. This measure will allow VA to shore up its dental staff by providing VA with the authority to extend ranges of pay for dentists who work full-time in the VA, who have special

hospital-based training, and who have dedicated their careers to VA. It will help VA recruit and retain its dentists who have unique skills in working with veterans who are often medically indigent or have experienced traumatic service-incurred injuries. These valuable personnel have learned from working with veterans, and VA should take dramatic steps to revise the damage that has been done to this workforce over the last few years.

Further, this legislation also provides VA physicians assistants long-sought representation within VA Headquarters along with better training opportunities. It will also help VA retain social workers, pharmacists and medical support personnel. These measures are crucial to sustaining a highly skilled health care staff.

This year marked the 25th anniversary of the end of the Vietnam war. I am very pleased this measure requires VA to carry out a new study on Vietnam veterans and Post-Traumatic Stress Disorder.

This legislation recognizes the increased occurrence of birth defects in children born to women veterans who served in Vietnam during the Vietnam war. Appropriately this measure provides health care, vocational rehabilitation and monetary benefits for children with birth defects attributable to the service of their mother in Vietnam. Earlier this year I introduced H.R. 4488 to provide these benefits. I am pleased S. 1402, as amended, authorizes these benefits.

Further, this measure also provides eligibility for special monthly compensation for women veterans for service-connected loss of one or both breasts.

This legislation also calls for a new focus on "military service" in assessing factors that may affect veterans' health. This "Veterans Health Initiative" is supported by many of the members of the Vietnam Veterans in Congress Caucus as well as by the Vietnam Veterans of America. Earlier this year we asked Secretary West to promote this orientation within the Department. This initiative will promote this activity by allowing VA to live up to its promise to be a system focused on the specific needs of veterans—a true veterans' health care system.

Veterans are often required to travel some distance to the nearest VA facility and are often accompanied by family or friends. For many years, VA has attempted to accommodate veterans who are not sick enough to stay in the hospital, but who may be unable to meet early appointment times with their physicians unless they stay nearby. If the veteran travels with family, the family member usually must find other accommodations. Fisher Houses are a source of lodging that have been available to servicemembers for some time. There are some Fisher Houses already accommodating veterans and their families. I am pleased this provision will authorize a regularized approach to operating them in concert with veterans' health care.

I am pleased that we are allowing VA to extend its buyout authority for two additional years. This authority will allow VA to restructure its workforce to bring in health care professionals and others with an appropriate mix of skills to contribute to the changing needs of the system. This authority is not without strings. In the health care system, VA has had

to replace each worker with another professional. This has enabled VA to move appropriately skilled workers into areas where they are needed. Buyouts are greatly preferable to employees than the reductions-in-force that VA might otherwise have to employ. They are also tailored to allow VA flexibility in updating the skills within its workforce.

Mr. Speaker, the Veterans Benefits and Health Care Improvement Act of 2000 which deserves the strong support of every member of the house, is the product of the hard work of many people. In particular I want to thank the Chairman and Ranking Democratic member of our three Veterans' Affairs Subcommittees—CLIFF STEARNS and LUIS GUITERREZ, JACK QUINN and BOB FILNER, and TERRY EVERETT and CORRINE BROWN—for their important contributions.

I also applaud the significant contributions by our colleagues BART STUPAK and DAVID MINGE. BART STUPAK authored legislation authorizing service-connected disability for diseases manifest during inactive duty for training. A provision based on his proposal is included in this legislation.

DAVID MINGE proposed legislation to increase the amount of resources an incompetent veteran with no dependents, may retain and still qualify for payment of benefits while being provided institutional care at VA's expense.

Contributions made by members of the other body, by veterans, veteran service organizations, representatives of the Administration, our House Legislative Counsel, particularly Bob Cover, and the members of our Committee staffs are also acknowledged and certainly appreciated.

Mr. Speaker, I particularly thank the Chairman of the Committee, BOB STUMP, not only for his leadership of this measure and the other veterans measures being considered today, but also for his stewardship of the Veterans Affairs Committee during the past six years.

A member of the Committee since 1979, BOB STUMP assumed the Chairmanship of our Committee at the beginning of the 104th Congress. Under current House rules, having served as Chairman during the 104th, 105th and 106th sessions of Congress, BOB is precluded from serving as Chairman of Veterans Affairs during the 107th Congress.

For the last four years I have served as the Ranking Democratic Member of the Committee. I am indebted and grateful to BOB for the courtesy and cooperation that he has extended to me and to other Democratic members of the Committee.

We have not always agreed on public policy, but our disagreements have never prevented us from working together on behalf of veterans. It has been my privilege to work with BOB to develop legislation to address the most important needs of our veterans, their dependents and survivors.

During his six-year tenure as Chairman, our Committee has enacted significant legislation. We have accomplished much and assisted and benefited many. A man of few words, Bob Stump would rather solve problems than talk about them. Thank you, Bob. I salute you for a job well done.

Madam Speaker, I reserve the balance of my time.

Mr. STUMP. Madam Speaker, I yield such time as he may consume to the gentleman from Nevada (Mr. GIBBONS), a member of the committee.

Mr. GIBBONS. Madam Speaker, I thank the gentleman for yielding me this time, and I also want to thank him for allowing me the opportunity to speak on this worthwhile bill. I would like to give great credit to the gentleman from Arizona (Mr. STUMP), the chairman of the committee, for his introduction of HCR-419, which is a bill that mirrors this bill and was introduced on the House side and became a very important part of our consideration in the deliberations of this bill.

Madam Speaker, I am pleased to rise in support of S. 1402, as amended, and I encourage all of my colleagues to support it as well. I wanted to highlight just a few of the benefit provisions of the bill, however, first I would like to also recognize one of our former colleagues, a great friend of America, a great friend of all veterans, the former representative from Mississippi, G. V. Sonny Montgomery, one of the distinguished gentlemen who was responsible for the GI Bill. And, of course, the bill carries his name, and rightfully so. It is a great honor for me to have the privilege to have made friends with Sonny Montgomery, and I treasure his work with veterans over all these years.

Madam Speaker, effective on November 1, this bill increases the Montgomery GI Bill benefit from \$552 per month to \$650 per month, thus helping 309,000 veterans and students immediately. Since October of 1997, Congress has increased the Montgomery GI Bill by 48 percent from \$439 to \$650 per month, and we still have more to go.

With the new buy-up provisions in this bill, current and future service members can contribute up to an additional \$600 and increase their monthly benefit over 4 years of schooling from \$650 per month to \$800 per month.

Second, effective November 1, the bill increases educational benefits for 48,000 survivors and dependents from \$485 to \$588 per month, with guaranteed COLAs in years ahead.

Third, the bill is welcome news for about 137,000 active duty service members who either previously turned down an opportunity to convert from the post-Vietnam era veterans' educational assistance program, known as VEAP, to the Montgomery GI Bill or had a zero balance in their VEAP account. For a \$2700 buy-in, these individuals will receive full Montgomery GI Bill benefits that will be valued at \$23,400 with passage of today's legislation.

Fourth, the bill will help about 25,000 service members who are discharged from military service each year who need a civilian license or certification to practice their vocation or profession. Now they will be able to use their Montgomery GI Bill benefits to pay for

such examinations, which average about \$150 each. The subcommittee has been very active on this issue, and I am pleased we were able to include this provision in our final package.

Fifth, the bill provides special monthly compensation for women veterans who lose a breast as a result of

service-connected disability.

Sixth, the bill makes eligible for burial in VA national cemeteries, and for a burial plot allowance in other cemeteries, certain Philippine commonwealth army veterans of World War II.

Madam Speaker, in closing, I would like to pay tribute to the gentleman from Arizona (Mr. STUMP), chairman of the Committee on Veterans' Affairs. The gentleman from Arizona enlisted in the Navy at the age of 16 in 1943, and as a teenager and Navy corpsman, participated with the Marines in the invasion of Iwo Jima and Okinawa and the liberation of the Philippines.

The gentleman from Arizona has served on this committee for more than 17 years, and in the last 6 years was teamed first with Sonny Montgomery then with the gentleman from Illinois (Mr. EVANS) to provide the bipartisan leadership needed to get things done.

He has now completed his 6-year term as chairman using the simple credo of doing right by America's sons and daughters who have protected our priceless freedoms. We do not see BoB on the talk shows or doing media interviews, nor do we hear him trumpeting his legislative accomplishments. I suspect, Madam Speaker, that is because he would say, "That's our duty."

The gentleman from Arizona is an individual who provided selfless leadership, the kind of leadership that seems so common to his generation, a generation that repeatedly demonstrates that they are ordinary people doing extraordinary things.

I want the gentleman to know that he has my thanks and friendship, my admiration and deep respect, as well as all America's respect, especially our veterans in this country.

Mr. EVANS. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. STUMP. Madam Speaker, I yield such time as he may consume to the gentleman from California (Mr. KUYKENDALL).

Mr. KUYKENDALL. Madam Speaker, I would like to associate myself with the remarks of the gentleman from Nevada (Mr. GIBBONS). Very eloquently done.

Having spent some time in the Marines Corps myself and then having to transition to the civilian world after an injury, I found out what it was like to use the GI Bill to get a new education. I got a master's degree in business with it. I found out what it was like to have a disability associated with the military and how one gets taken care of by the VA.

many cases we promise them a very hard life and after their 3 or 4 years service, we send them back into society. The veterans that came back from World War II and Korea, with the use of the GI Bill that we had in place then, changed the world. That education program allowed hundreds of thousands of men and women to get an education and, in turn, make this Nation's economy grow into what it is today. They laid the foundation for the economic prosperity we have today. They are now retirees in many cases and are moving on, but this was possible due to the education those veterans received.

This bill continues that process. It continues it for veterans that are currently serving and it continues it for those who are on benefits today. Education, I believe, is part of the promise we owe them. Increasing the education benefits is well deserved, and I do not think we can ever do quite enough for these young men and women.

Finally, the health care portion. We have always had veterans, but we do not always take care of them as well as we should. This goes a long way towards improving this situation. It helps us improve some of the specialists pay who are treating veterans; it helps us with our facilities, as in the case of one in my area, by making it seismically safe, so that when we have earthquakes in California, that hospital will still be able to function helping veterans.

The bill also helps veterans by helping their families, when they have passed away, to bury them where they can be with their comrades. We have created several new cemeteries in this legislation.

All of these things, I think, go down the road of continuing our promise to people who are willing to serve our Nation, whether it be for a career or only for a short time, that we will look after them after they have left that service.

#### □ 1230

I commend S. 1402, urge its passage, and hope we implement it with the utmost speed.

Mr. STUMP. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, let me once again thank the gentleman from Florida (Mr. STEARNS), the chairman of our Subcommittee on Health, who could not be here today because of a previous commitment in Florida. He has done a great job in steering this committee for the last 4 years.

I want to thank the gentleman from Nevada (Mr. GIBBONS) for his input on this bill that we are dealing with right now and thank him for his very kind remarks.

This is probably the last bill that we will bring to the floor under suspensions this year, Madam Speaker, and I

We make a promise to veterans. In would like to thank each and every any cases we promise them a very member of the Committee on Veterans' and life and after their 3 or 4 years Affairs on both sides of the aisle.

I especially would like to thank the gentleman from Illinois (Mr. EVANS) and his staff for the great job they have done for veterans, which just shows when we put partisan politics aside and work in the best interest of the veterans that we can accomplish many good things. I thank him very much.

I also would like to thank Senator Specter, the chairman of the VA on the Senate side, as well as the ranking member, Senator Rockefeller, for their work and accomplishments on this measure. This is a good bill. Our veterans deserve it.

Mr. MINGE. Madam Speaker, I rise today to support S. 1402, the Veterans and Dependents Millennium Education Act. Specifically, I would like to commend the conferees for including a modified version of my legislation, H.R. 4935.

Section 304 of the Veterans and Dependents Millennium Education Act will be a great benefit to our nation's most vulnerable veterans. Current law concerning mentally ill veterans actually discourages them from seeking the mental health services they so desperately need. If a single, mentally ill veteran is institutionalized with an estate over \$1,500, his or her estate is essentially reduced to below \$500. Upon discharge, he or she would basically have no money for housing or other needs.

Today's legislation will modernize the estate levels for institutionalized mentally ill veterans. By tying the estate levels to the service connected disability ratings, we will ensure that they will be adequate and continue to adjust with the cost of inflation. I am proud that Congress is acting to ensure that those who served our country are not forgotten in their time of need.

There are many people who worked to make this effort possible. In the tradition of veterans helping veterans, the Minnesota Veterans of Foreign Wars visited my office last Spring to inform me of this discriminatory treatment of mentally ill veterans. Former State Commander of the VFW Dave Adams and Claims Director Tom Hanson are to be especially commended for their work on this initiative. I would also like to thank Representative Lane Evans, the Ranking Democrat on the House Veterans' Affairs Committee, for all his help in securing inclusion of this legislation. He and the Democratic staff have been incredibly helpful throughout the whole process.

I urge my colleagues to join me in supporting S. 1402.

Mr. BUYER. Madam Speaker, I rise in strong support of S. 1402, the Veterans Benefits and Health Care Improvement Act of 2000. This bill is a comprehensive package of education, health, and compensation benefits that passed the House as separate bills earlier this year. Clearly, this is another monumental step in fulfilling America's promise to its veterans and their families.

As agreed to by House and Senate negotiators, the bill will improve Montgomery GI Bill

(MGIB) benefits in order to compete with the rising costs of a college education. Specifically, the bill will increase the monthly education benefit to \$650 for a total of \$23,400 in assistance to a full-time student pursuing a four-year degree. This is a tremendous boon to veterans and their families that will help in their transition back to the civilian work force after honorably and unselfishly serving their country in uniform. Veterans' survivors and dependents will receive an education stipend increase by raising the monthly benefit to \$588 per month.

In addition, the bill will provide active duty service members another chance to convert their Post-Vietnam Educational Assistance Program (VEAP) benefits to the MGIB if they previously declined to do so or withdrew all funds from their VEAP accounts. Other provisions allow payment of education benefits during intervals lasting as long as eight weeks between academic terms and the use of up to \$2,000 of VA education benefits toward the fee for civilian licensing or certification examination.

The measure would also give annual pay raises to VA nurses and increase special pay to dentists and other VA medical personnel. This important provision will help VA to hire and retain the skilled, caring health personnel that it must have in order to serve an aging veterans' population. Last year, the Marion VA chapter, the American Federation of Government Employees Local 1020, contacted my office seeking pay parity for VA nurses. Specifically, Local 1020 asked me to help them better address manning and staffing levels that were creating patient and employee safety issues due to the lack of adequate nursing staff. It was evident that to ensure the highest quality of care for our veterans, an effort to meet these shortfalls would be required. Earlier this year, the VA Committee reported a similar nurse's pay provision to the House floor, and Local 1020 indicated their full support for the measure, and reiterated the need for nurse pay parity. Like the previously passed bill, this measure addresses their concerns.

Another provision would allow VA disability benefits for a heart attack or stroke of a reservist if incurred or aggravated while in a drilling status, as well as make women eligible for special monthly compensation for the loss of one or both breasts. It would also increase the maximum amount of coverage available through the Service Members Group Life Insurance program to \$250,000. Other provisions of the bill will require federal contractors and subcontractors to extend affirmative action regarding employment and promotions to recently discharged veterans, require employers to grant leaves of absence to employees who participate in honor guards for the funerals of veterans and provide benefits to children of women Vietnam veterans who suffer from specified birth defects.

This is great news for the veterans community, to include VA employees, especially VA nurses and VA dentists. As in the past, Congress has worked hard to ensure the United States government remains steadfast in its moral, legal and ethical obligation to provide veterans and their families the benefits and services they so richly deserve. This bill is

good for veterans, it is good for their families, our colleagues in the Senate for their signifiand it is good for America. our colleagues in the Senate for their significant efforts in this area. Senator ARLEN SPEC-

Finally, I would like to thank Chairman STUMP and Ranking Member EVANS for their hard work and diligence in ensuring passage of this bill. Their efforts were truly bipartisan and deserve recognition.

I urge my colleagues to support this bill.

Mr. STUPAK. Madam Speaker, I would like to commend the Chairman and Ranking Member of both the House and the Senate Veterans Affairs committees and the staff for their excellent work on S. 1402, which incorporates several very worthy bills, including mine, H.R. 3816.

My bill closes an exceptionally problematic loophole brought to my attention by the Pearce family of Traverse City, Michigan. Master Sergeant Ron Pearce was a full time employee of the National Guard who suffered a heart attack while performing the required physical fitness test, a part of Inactive Duty Training requirements. Master Sergeant Pearce had a history of heart trouble, and in the past had been exempted from the from the fitness test on recommendation of his doctor. He was ordered to take this test as a condition of his continued employment with the National Guard

He passed away as a direct result of this fitness test, leaving behind a wife and family with no means of support. The VA first approved and then denied his family benefits. My bill would consider heart attacks and strokes suffered by Guard and Reserve personnel while on "inactive duty for training," to be service-connected for the purpose of VA benefits.

Madam Speaker, I strongly support this legislation and I am happy that the loophole will be closed and more families will not have to suffer as the Pearce family has suffered. I strongly urge members to vote yes on this bill. I thank the distinguished gentleman from Arizona, the Chairman of the Veterans Committee, and the distinguished gentleman from Illinois, the Ranking Member, for their inclusion of my legislation in this bill, as well as the distinguished Chair and Ranking Member from the other body.

Mr. FILNEÄ. Madam Speaker, as the Senior Democrat on the Benefits Subcommittee of the House Committee on Veterans Affairs, I want to express my strong support for the legislation before the House today. S. 1402 as amended by the Senate, presents an agreement that every Member of the House can support. It is a strong reaffirmation of our commitment to the men and women who have stood in our defense. Our nation's veterans would benefit greatly from this well-crafted and meaningful legislation. I urge my fellow colleagues to join me in my support for this legislation and to vote in favor of its final passage.

I want to take a moment to thank the Chairman of the Benefits Subcommittee, JACK QUINN; the Chairman of the Veterans Affairs Committee, BOB STUMP, and the Ranking Democratic Member of the Committee, LANE EVANS, for their collective leadership on the many important issues affecting our men and women in uniform. I have enjoyed working with each of them on the bill that is before the House today, and also with the other members of the Committee. I also want to thank

our colleagues in the Senate for their significant efforts in this area. Senator ARLEN SPEC-TER and Senator JAY ROCKEFELLER, Chairman and Ranking Member of the Senate Committee on Veterans Affairs, have put forth the cooperative effort that is essential to reaching a good agreement.

Madam Speaker, I am pleased that the agreement we are considering makes some significant improvements to veterans' education benefits. Education benefits are a prime focus of this legislation. I have always been a strong believer that higher education is a positive agent of change. I came to Congress from the higher education community, and I have witnessed first hand the great things a higher education can do for our veterans. From that experience, and from my years on the Veterans Affairs Committee, I have concluded there is no better way to empower the men and women who have served in America's defense. Educating these brave men and women is undoubtedly the best way for us to ensure they join the ranks of a thriving civilian workforce.

Under the agreement, the basic educational benefit for veterans will increase under the MGIB program from \$552 per month to \$650 per month for a three-year term of enlistment and \$528 per month for a two-year term of enlistment. This represents an 18 percent increase in the basic MGIB education readjustment benefit for veterans. As my colleagues know, I believe the MGIB benefit should be increased more than has been proposed in this agreement. The increase it does provide, however, is a strong and positive step toward achieving the goal of providing a more meaningful education benefit for our nation's veterans than is currently available.

The agreement also provides for an increase to MGIB education benefits for eligible survivors and dependents. These benefits would be increased from \$485 per month to \$588 per month for full-time students. These increases would be effective as of November 1, 2000, with future annual cost-of-living increases effective October 1, 2001. I am very pleased that the agreement provides for a cost-of-living increase for survivors and dependents. Moreover, the election period and effective date for the award of survivors' and dependents' benefits under MGIB have been corrected under this agreement, allowing for retroactive payments for benefits that should have been awarded but were not, due to long waiting times for VA adjudication. Also in the agreement is a provision that would allow those veteran students whose academic calendars include long intervals between terms, semesters or quarters to continue to receive their educational assistance benefits during such periods in order to prevent financial hardship.

Of immediate concern to the Benefits Subcommittee has been the ineffectiveness of the MGIB as a readjustment benefit for servicemembers making the transition from military service to a civilian society and workforce. While costs of higher education have soared, nearly doubling since 1980, GI Bill benefits have not kept pace. One of the most noteworthy provisions in this agreement would allow for an increased MGIB education assistance for particularly determined active duty

servicemembers. Under the agreement, servicemembers who have elected to participate in the MGIB program by contributing their initial \$1,200 pay reduction would be afforded the opportunity to take advantage of enhanced MGIB benefits by making an additional contribution of up to \$600. In return, that servicemember would be eligible for up to \$5,400 in additional MGIB education assistance.

Thanks in large part to the leadership of my friend JACK QUINN, the Chairman of the Benefits Subcommittee, there is a provision in this legislation that would make available MGIB education benefits to be used for up to \$2,000 in fees for civilian occupational licensing or certification examinations. The Subcommittee has held extensive hearings on this complex topic and I am glad to see that the agreement includes this important provision. It will make an immediate, positive impact on thousands of servicemembers who return to the civilian workforce every year. The agreement also allows survivors and dependents to use their MGIB benefits for preparatory courses.

The brave men and women who serve in America's Armed Forces deserve, and have indeed earned, far better than the inadequate educational assistant program now available to them. I am very pleased that the agreement includes such momentum toward getting veterans' education benefits back to the stature and effectiveness they were meant to have all along.

Another significant accomplishment coming out of this agreement would be to finally allow for more equitable burial benefits for our Filipino veterans of World War II. Today, an estimated 17,000 Filipino veterans are citizens of the United States. Most of these are veterans of World War II, over 1,200 of who receive VA compensation for service-connected disabilities.

Under current federal law, certain Filipino veterans of World War II are not eligible for burial in VA national cemeteries. Moreover, survivors of eligible Filipino veterans currently receive funeral expenses and burial plot allowances at one-half the rates paid to survivors of U.S. veterans.

The agreement would provide for the eligibility of certain Filipino veterans of World War II for burial in a VA national cemetery if, at the time of death, that veteran is a naturalized citizen and resident of the United States. In addition, the agreement would authorize payment of full-rate funeral expenses and plot allowances to survivors of eligible Filipino veterans of World War II.

An aging World War II veteran population has caused an unprecedented demand for military funeral honors over recent years, and this demand will continue. As the military seeks to meet these demands through its use of reservists, increasing numbers of civilian employees will be called away from their jobs temporarily to perform funeral honors duty. Importantly, the agreement includes a provision that would amend the Uniformed Services Employment and Reemployment Rights Act (USERRA) to expressly require employers to give reservists an authorized leave of absence for performing funeral honors duty.

Finally, I want to stress the importance of the agreement's provision regarding equity in

pay for VA dentists. I introduced last fall H.R. 2660, which I entitled, "Put Your Money Where Your Mouth Is, the VA Dentist Equity Act," in response to a variety of concerns of VA dentists. Almost 70 percent of VA dentists will be eligible for retirement in the next three years. On top of this troubling fact, VA dentists are paid less than their DOD counterparts, dentists in academia or dentists in private practice. In fact, they make almost one-third less than dentists working in these settings. So I am very glad that the agreement includes a provision to enable VA to recruit and retain new dentists into the system now and in the future.

As amended, S. 1402 represents good public policy for America's veterans. I believe strongly that every one of my colleagues here today would do well by their veterans at home by voting in favor of this bill.

Mr. STEARNS, Madam Speaker, first, to my colleagues, I want to recognize our superb Chairman, Mr. STUMP of Arizona, who leads us today as Chairman of the full Committee on Veterans' Affairs. Mr. STUMP is a senior Member of this House and a man of honor. Madam Speaker. BOB STUMP served his country faithfully-and with distinction-in war, and has served with care and vigor as a Member and Chairman of the Veterans Committee. I am privileged to serve with him: BOB STUMP is one of the secret treasures of this House. I salute him for his leadership on this bill, and for his dedicated service over the past six years as Chairman of our Committee on Veterans' Affairs.

Madam Speaker, the bills before us today, S. 1402, H.R. 4864, and H.R. 4850, are good bills for veterans, and they are good reflections of this House. They contain provisions that are innovative, useful, necessary, and workable—a winning combination for the veterans we serve and for the Department of Veterans Affairs that we are charged to oversee.

Madam Speaker, I want to address specifically one of our measures today, S. 1402, final passage of the Senate amendments to the House amendments to S. 1402, the "Veterans Benefits and Health Care Improvement Act of 200." After a number of hearings, Subcommittee meetings, site visits and other data collection, I introduced, with bipartisan cosponsors, one of the predecessor bills incorporated in this measure, H.R. 5109, the "Department of Veterans Affairs Health Care Personnel Act of 2000." My Subcommittee endorsed this bill on a bipartisan basis, and our full Committee, under my Chairman's leadership, ordered the bill reported to the House on September 13. 2000. The House unanimously passed H.R. 5109 on September 21, 2000.

Let me review some of the key provisions of our health bill, H.R. 5109, that were successfully negotiated with our Senate colleagues, and are incorporated in S. 1402:

#### NURSES

Madam Speaker, about ten years ago, Congress created an innovative pay system for VA nurses, with a locality-based mechanism to produce pay rates that were intended to address labor market needs to keep VA competitive. The idea was that each VA hospital could act in its own self-interest, and remain competitive locally. It was intended to be a good reform, and this system initially gave VA

nurses a big pay raise. VA's recruitment and retention problem for nurses effectively disappeared for awhile. But the old saying, "that was then, and this is now," comes to mind.

My subcommittee gave a special focus during this Congress to the pay situation of VA nurses. What we found was disappointing—we have learned that many VA nurses hadn't received any increases in their pay since the initial ones from our 1990 legislation.

While those first pay increases were in many cases substantial, in the course of time, other Federal employee groups had caught up because of the annual comparability pay raises available to every other Federal employee—except VA nurses. So once again VA finds itself in a competitive disadvantage, and some VA nurses are looking for other employment options. In my judgment, as Chairman of our Health Subcommittee, it is a loss that veterans cannot afford. Therefore, our bill guarantees VA nurses the statutory national comparability pay raise given to all other Federal employees.

My colleagues, these changes do not mean that Congress is declaring reform to be our enemy. We want to make certain that the earlier legislation works as the 101st Congress intended it. Therefore, in addition to the guaranteed national pay raise for nurses, the bill crafts necessary adjustments to the locality survey mechanism to ensure that data are available when needed, and to specify that certain steps be taken, when they are necessary, that lead to appropriate salary rates for VA nurses. This is the right solution for VA nurses; it is a bipartisan compromise, and I compliment my colleague, the gentleman from Illinois, Mr. EVANS, and also another gentleman from Illinois, my good friend, Mr. GUTIERREZ, for their cooperation in getting this important matter resolved for VA nurses and for the veterans they serve.

#### DENTISTS

Madam Speaker, this bill addresses recommendations of VA's Quadrennial Pay Report concerning VA dentists, bringing their pay into better balance with average compensation of hospital-based dentists in the private sector. This is the first change in almost 10 years in VA dentists' special pay. I want to recognize my colleague from the State of California, Dr. BOB FILNER, for bringing his voice to this important issue for VA dentists.

#### CONSTRUCTION

Our bill authorizes major medical facility construction projects in Beckley, West Virginia, Palo Alto and Long Beach, California, and Miami, Florida, with a commensurate authorization of appropriations of \$120.9 million for this necessary construction. Also, we are extending a prior authorization for a long-term care project in Lebanon, Pennsylvania, and approving an authorization for a previously appropriated project for the Murfreesboro, Tenessee VA facility. These are excellent projects that have been carefully reviewed by Members of both Bodies and warrant our approval in this legislation.

#### PTSD

My friend, Mr. EVANS of Illinois, the Ranking Member of the full VA Committee, recently raised the profile of the need for Congress to reauthorize the landmark 1988 study of post traumatic stress disorder in Vietnam veterans. Madam Speaker, our bill reauthorizes this important study.

#### MILITARY SERVICE

The bill also urges, in a Sense of Congress Resolution, that VA record military service history when VA physicians and other caregivers initially take a veteran's general health history. This will aid any veteran who files a VA claim for disability, especially given our new appreciation that military and combat exposure may be associated with onset of disease in later life. I want to commend the Vietnam Veterans of America organization for bringing this proposal to the Subcommittee on Health—it is a valuable contribution to this bill.

#### PROPERTY MATTERS

In addition to these items, Madam Speaker, we are making some important changes in VA properties. We are transferring a number of parcels of land at VA medical centers in Georgia, Michigan, Montana, and Tennessee to state and local governments, and the private sector, for good uses. Also, we are authorizing the Secretary of Veterans Affairs to close the VA Medical Center in Ft. Lyon, Colorado, on the condition that the Secretary ensure that the veterans this facility serves now are properly treated in other facilities in the private and public sectors. Also, I want the Secretary to know that my subcommittee, on a bipartisan basis, will be carefully monitoring VA's actions in the case of Ft. Lyon. We are particularly interested in how VA will meet its statutory requirement to maintain capacity to provide long-term care, and how southern Colorado will contribute to this obligation, following closure of the Ft. Lvon facility. In all likelihood. the Subcommittee on Health will hold hearings on this matter next year. Thus, VA needs to be aware that its actions in respect to Ft. Lyon will be closely scrutinized. Also, VA needs to ensure that employees of the Ft. Lvon facility are offered all the personnel options available to the VA for "early out" and "buy out" benefits. It is through no fault of these employees that this facility is being closed, and all our Members believe that they should be held harmless by the Government's decision to close this facility. These VA employees have served their country honorably and with dedication. This service should be recognized and treated with the respect it deserves by the Secretary as the VA moves closer to closing this longstanding institution.

Madam Speaker, our bill is endorsed by a number of organizations, including the American Legion, Veterans of Foreign Wars of the United States, Vietnam Veterans of America, Disabled American Veterans, AMVETS, PVA, BVA, the Nursing Organization of Veterans Affairs, the American Dental Association, and the largest federal union, the American Federation of Government Employees (AFGE), among others. I hope that each of my colleagues will vote for passage of this measure today, and that we can send it on to the President prior to adjournment sine die of the 106th Congress.

I want to add one personal note today. I have served as Chairman of the Sub-committee on Health for the past 4 years. It has been both an honor and an education for me, and I appreciate having been afforded an opportunity to serve in a leadership position

on this Committee. I thank my Chairman, Mr. STUMP, and the Ranking Members of the full Committee, Mr. EVANS, as well as Mr. GUTIER-REZ, our Ranking Member of the Subcommittee on Health, as well as other Members for supporting me as Chairman. It is important to note that these Members also exhibited the best of our traditions on the Committee on Veterans' Affairs-the traditions of Sonny Montgomery, Tiger Teague and BOB STUMP—of working together in a bipartisan manner, to honor and to help veterans. So, Madam Speaker, my chairmanship of the subcommittee has been a rewarding experience for me, and I look forward to continuing these good bipartisan relations in the new Congress in January 2001.

In conclusion, veterans of our Armed Forces need these bills, Madam Speaker. They are good bills, with effective provisions, that help veterans, and I urge my colleagues to support them so that we can continue to keep our promise to America's veterans.

Mr. EVERETT. Madam Speaker, as Chairman of the Veterans' Affairs Subcommittee on Oversight and Investigations, I rise in strong support of S. 1402 as amended, the Veterans Benefits and Health Care Improvement Act of 2000. Section 223 of this bill is derived from H. Con. Res. 413, which I introduced along with my colleague and Subcommittee Ranking Democratic Member, Ms. Corrive Brown. Section 223 states the Sense of the Congress that the Departments of Veterans Affairs and Defense should increase their cooperation in the procurement of medical items, including pharmaceuticals.

Ms. Brown has taken an active role in working for increased VA/DoD sharing, and I thank her for her cooperation. I want to express my appreciation to our full Committee Chairman, BoB STUMP, and our Ranking Democratic Member, LANE EVANS, for their leadership on this issue as well. I also want to thank Chairman ARLEN SPECTER and Senator JAY ROCKEFELLER of the Senate Veterans' Affairs Committee for agreeing to include this section in the final bill.

Under the Veterans' Administration and Department of Defense Health Resources Sharing and Emergency Operations Act, P.L. 97-174, VA and DoD have had the authority to share medical resources since 1982. In 1999, VA and DoD entered into sharing agreements amounting to \$60 million out of total combined healthcare budgets of approximately \$35 billion. This amounts to less than two-tenths of one percent of sharing. At our May 25, 2000 hearing, GAO stated that greater joint pharmaceutical procurements could lead to annual recurring savings of up to \$345 million. These savings could be reinvested in improved healthcare for veterans, military retirees, service members and their families.

I urge the VA and the Department of Defense to heed this Sense of the Congress and quickly improve their joint procurement practices to obtain the best possible prices in the pharmaceutical market. Otherwise, huge amounts of healthcare dollars will continue to be wasted as VA and DoD pay too much money for pharmaceuticals.

Madam Speaker, I strongly encourage all of my colleagues to join in bipartisan support of this important legislation to improve

healthcare, education and other benefits for our Nation's veterans.

Mr. REYES. Madam Speaker, I rise in strong support of the three veterans bills that we are addressing today. As many of you know, we recently lost several service members as a result of a despicable terrorist act in Yemen. Those sailors, our service members, gave their lives . . . made the ultimate sacrifice for their country. Unfortunately, as we get caught up in our day-to-day lives we often forget that there are men and women in distant lands and dangerous situations doing a lot of heavy lifting for us and this country. Its important that we pause occasionally and remember that our freedom, our wealth and our peace of mind is the direct result of service members such as the sailors on the USS Cole. This year, there has been considerable debate and discussion about keeping promises to our veterans and their families. I think that these bills help to put an end to any doubt about our commitment to our veterans. In my district of El Paso, Texas, I represent almost seventy thousand veterans and family members. I've seen some of the procedural difficulties that veterans and their family members must endure. And, I can talk to you in great detail about how these bills will help to improve the quality of life for our veterans. In my view, this legislation is not about keeping promises or mending fences. I think of it simply as an imperative for the nation. This is legislation that this body must pass because it is the right thing to do for those who have committed so much of themselves to our country. I sincerely appreciate the work that my colleagues on both sides of the aisle put into these bills. Because of their hard work, we have three meaningful veterans bills. The Veterans Benefit Act, the Claims Assistance Act and the Veterans and Health Care Improvement Act each provide important improvements or enhancements to the existing veterans programs. I urge each of you to support passage of each of these veterans bills.

Mr. GILMAN. Madam Speaker, I rise today in strong support of S. 1402, the Veterans and Dependents Millennium Education Act. I urge my colleagues to join in supporting this worthwhile legislation.

S. 1402 incorporates a number of important bills which were addressed and passed by the house earlier this year. These include increasing the monthly benefit in the Montgomery G.I. bill, increasing the monthly amount of the basic education allowance for survivors and dependents, specific improvements in the pay and benefits for nurses and pharmacists at V.A. health care facilities, and a number of extensions of reauthorizations for various programs relating to V.A. loans through 2008.

S. 1402 also contains a provision extending burial benefits to those Filipino World War II veterans, who either reside in the United States, or who have become citizens or applied for permanent residence. As a long-time champion of the Filipino World War II veterans, I was pleased to see that provision included in this measure.

Madam Speaker, I urge my colleagues to support this timely, appropriate legislation.

Mr. WATTS of Oklahoma. Madam Speaker, I rise today in support of The Veterans Benefits and Health Care Improvement Act of 2000.

This legislation increases the rates of educational assistance under the Montgomery GI Bill and improves the pay rates for many health care professionals employed by the Department of Veterans Affairs. Also, it makes other needed improvements in veterans educational assistance, health care, and benefits programs. This act is a major effort by Congress to assist our veterans and to keep faith with those who have served.

Under the provisions of this bill the basic benefit by the Montgomery GI Bill will increase to \$650 per month for a three-year period of military service and \$528 per month for a two-year period of service. It will increase the basic educational allowance for survivors and dependents of eligible veterans to \$588 per month, and will significantly increase the flexibility for survivors and dependents in taking advantage of their educational benefits.

Particularly important in this bill is the effort to address the looming nurse shortage within the Veteran Administration. A number of steps have been taken to insure VA nurses are paid adequately and competitive with their counterparts in the private sector. Also, provisions addressing paid and professional status for dentists, pharmacists, physician assistants and social workers have been included.

Other important items in S. 1402 include the authorization of \$120.9 million in fiscal year 2001 or 2002 for major construction and increasing the maximum amount of coverage available through the Servicemembers' Group Life Insurance program and the Veterans' Group Life Insurance program for \$200,000 to \$250,000. There are improvements in Housing and Employment Programs, Cemeteries and Memorial Affairs Program, and in the VA Compensation Program.

I fully support this important bill because our nation's treatment of it's veterans will impact upon our ability to attract Americans to military service. Our veterans must receive fair treatment in a timely manner. If we do not keep faith with our veterans—we will jeopardize the national security of the nation.

Mr. DINGELL. Madam Speaker, I rise in support of the measure before us, S. 1402, the Veterans Benefits and Health Care Improvement Act. I would like to thank the work of Chairman Bob Stump, Representative Lane Evans, as well as their staffs for bringing this legislation to the floor. I'd also like to thank Chairman Specter and Senator Rockefeller for their assistance.

In addition to many of the beneficial provisions in this bill, such as a badly needed increase in the basic Montgomery G.I. Bill benefit, S. 1402 includes language of considerable importance to the citizens and veterans of Southeast Michigan.

For sixty years, the veterans' hospital in Allen Park, Michigan provided quality health care to those who answered our nation's call to arms. In the 1930's, this 39-acre property was given to the VA as a gift from the Henry Ford family. The deed that turned the property over to the VA, however, included a reversionary clause that spelled out that if the VA no longer used the property, the land would revert back to the Ford family.

The VA operated a fully functional hospital on the Allen Park site until 1996, at which time a new VA hospital was opened in nearly De-

troit. This new state-of-the-art hospital, which I am deeply honored is named the John D. Dingell VA Hospital, provides quality health care for the veterans of Southeast Michigan despite recent budgetary shortfalls which required the hospital to make unspecified efficiency cuts, usually resulting in staff cuts.

At the time the decision was made to build a new hospital in Southeast Michigan in 1986, the VA envisioned converting the old Allen Park facility into a long-term care facility, creating a dual campus arrangement with Detroit. The dual campus plan, however, was abandoned because the Allen Park facility was no longer needed to meet veterans' needs in the area. Just to be certain, at the request of myself and my colleague Representative JOE KNOLLENBERG, the VA conducted a study to determine whether the Allen Park facility, or the campus, was needed to meet area veterans' health care needs today or in the future. The VA found that not only was Allen Park no longer needed, but that two floors at the new hospital were currently vacant. The General Accounting Office verified the accuracy of the VA study.

Currently, the Allen Park campus consists of perhaps 15 buildings, and is closed with the exception of a small corner of the old main hospital building, which is used as a part-time outpatient care clinic. Few veterans use Allen Park except to catch the VA bus to the Detroit facility. The VA operates this clinic only to keep an official VA presence on the campus, because if it failed to have a presence, the land would revert to the Ford family and the VA would immediately be responsible for paying enormous cleanup costs before the reversion could occur. These costs would have to be absorbed by the VA, and no doubt would eat up a significant chunk of the annual VA budget.

Today, it costs the VA between \$500,000 to \$1,000,000, probably more, just to maintain the Allen Park clinic and campus, which fails to offer most health services, is in shabby condition and filled with asbestos. This money comes out of the budget intended specifically for VA health care in VISN 11. It is money poorly spent, which undermines the already cash strapped regional VA health care budget. It makes the veterans' health care system in Southeast Michigan worse.

Given that the VA's Allen Park facility is no longer needed, the Ford Land Management Company would like to develop the Allen Park property. The VA would like to abandon it. Additionally, the City of Allen Park has long sought to see the VA campus developed and have the land placed on city tax rolls.

This summer the VA conducted an environmental impact study and estimated cleanup costs. VA and Ford officials concluded that it would cost at least \$21.3 million to clean up the site. Ford officials have offered to pay for all cleanup costs after \$14 million, saving tax-payers at least \$7.3 million. Ford will also save taxpayers' money because it will store the demolished materials in a nearby storage facility. No appropriation earmark will be required now or in the future. The VA will be spared having to fund a one-time, \$21.3 million major construction project simply to demolish an obsolete building. Additionally, the VA will be able to use the \$500,000 to

\$1,000,000 spent each year at Allen Park to better the veterans' health care system in Southeast Michigan. Finally, I am pleased that the Allen Park agreement also requires a flagpole and a plaque be maintained at the site in honor of the service of our veterans.

Madam Speaker, the Allen Park provision of this bill is a good deal for veterans, a good deal for taxpayers, and a good deal for Allen Park. I urge my colleagues to pass this bill.

Mr. STUMP. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. MORELLA). The question is on the motion offered by the gentleman from Arizona (Mr. STUMP) that the House suspend the rules and concur in the Senate amendments to the House amendments to the Senate bill, S. 1402.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate amendments to the House amendments to the Senate bill were concurred in.

A motion to reconsider was laid on the table.

## TECHNOLOGY TRANSFER COMMERCIALIZATION ACT

Mr. SENSENBRENNER. Madam Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 209) to improve the ability of Federal agencies to license federally owned inventions.

The Clerk read as follows:

Senate amendment:

Page 21, after line 2, insert:

#### SEC. 11. TECHNOLOGY PARTNERSHIPS OMBUDS-MAN.

(a) APPOINTMENT OF OMBUDSMAN.—The Secretary of Energy shall direct the director of each national laboratory of the Department of Energy, and may direct the director of each facility under the jurisdiction of the Department of Energy, to appoint a technology partnership ombudsman to hear and help resolve complaints from outside organizations regarding the policies and actions of each such laboratory or facility with respect to technology partnerships (including cooperative research and development agreements), patents, and technology licensing.

(b) QUALIFICATIONS.—An ombudsman appointed under subsection (a) shall be a senior official of the national laboratory or facility who is not involved in day-to-day technology partnerships, patents, or technology licensing, or, if appointed from outside the laboratory or facility, function as such a senior official.

(c) DUTIES.—Each ombudsman appointed under subsection (a) shall—

(1) serve as the focal point for assisting the public and industry in resolving complaints and disputes with the national laboratory or facility regarding technology partnerships, patents, and technology licensing;

(2) promote the use of collaborative alternative dispute resolution techniques such as mediation to facilitate the speedy and low-cost resolution of complaints and disputes, when appropriate: and

(3) report quarterly on the number and nature of complaints and disputes raised, along with the ombudsman's assessment of their resolution, consistent with the protection of confidential and sensitive information, to—

(A) the Secretary;

(B) the Administrator for Nuclear Security; (C) the Director of the Office of Dispute Resolution of the Department of Energy; and

(D) the employees of the Department responsible for the administration of the contract for the operation of each national laboratory or facility that is a subject of the report, for consid-

eration in the administration and review of that contract.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. Sensenbrenner) and the gentleman from Tennessee (Mr. Gordon) each will control 20 minutes.

The Chair recognizes the gentleman from Wisconsin (Mr. SENSENBRENNER).

GENERAL LEAVE

Mr. SENSENBRENNER. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 209.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. SENSENBRENNER. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 209 continues the Committee on Science's long and rich history of advancing technology transfer to help boost United States international competitiveness.

Through the enactment of the Stevenson-Wydler Technology Innovation Act of 1980, the Federal Technology Transfer Act of 1988, and the National Technology Transfer and Advancement Act of 1995, Congress, by the direction of the Committee on Science, has created the framework to promote the government-to-industry transfer of technology that has enhanced our Nation's ability to compete in the global marketplace.

H.R. 209, which originally passed the House in May of last year, continues this tradition.

Last week, the Senate agreed to H.R. 209 and added a new section to the bill that directs the director of each Department of Energy laboratory to appoint an ombudsman to hear and help resolve industry partner concerns regarding laboratory policies or actions.

The ombudsman's primary duty is to facilitate the speedy and low-cost resolution of complaints and disputes with industry partners.

In its consideration, the Senate made clear that, to ensure fairness and objectivity, the ombudsman should promote the use of collaborative alternative dispute resolution techniques, such as mediation, but that the amendment should not be interpreted to empower the ombudsman to act as a mediator or arbitrator in the process.

After its passage today, H.R. 209 will be sent to the President for his signature into law.

I congratulate the Chair of the Subcommittee on Technology of the Committee on Science, the gentlewoman from Maryland (Mrs. Morella), for introducing this bill and for her tireless efforts to work cooperatively with the gentleman from Tennessee (Mr. Gordon) and other Members of the minority, the administration, and the other body in crafting this important bill.

I urge adoption of the Technology Transfer Commercialization Act, and I look forward to its signature by the President.

Mr. Speaker, I reserve the balance of my time.

Mr. GORDON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 209, the Technology Transfer Commercialization Act of 1999, and urge its passage.

This is a bill but important piece of legislation that will make it much easier to transfer Federal technology to the businesses that can extract economic value from that technology.

It has been about a year and a half since this legislation was last on the floor of the House of Representatives. It was a good bill in March of 1999, and it is a good bill now.

The only changes which the Senate made to the legislation was to add a section that creates mediators or ombudsmen at each of the Department's national laboratories and makes sure that the appropriate people in the Department's headquarters are kept informed quarterly of the mediators' progress in resolving disputes.

This provision is a good idea because some small businesses have been caught up for years in attempting to resolve intellectual property disputes with DOE laboratories. Having mediators in each lab should help small businesses by resolving those disputes much more quickly and inexpensively.

The Senate did not change a word in the provisions we sent to them last year. The bill still makes important changes in the law regarding federally owned patents. It will now be easier for small businesses to license these inventions and more likely that taxpayers will get their money's worth from them.

I urge my colleagues to think about these businesses, many of which are small and with limited resources, who are risking much to commercialize Federal inventions. This bill will make their lives easier, and it is worthy of our vote.

I want to extend my thanks and compliments to my colleagues who worked on this legislation, the gentleman from Wisconsin (Mr. Sensenbrenner), the gentlewoman from Maryland (Mrs. MORELLA), and the gentleman from Michigan (Mr. Barcia). I urge all Members to support this passage.

Mr. Speaker, I reserve the balance of my time.

Mr. SENSENBRENNER. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Maryland (Mrs. MORELLA).

Mrs. MORELLA. Mr. Speaker, I thank the gentleman for yielding me the time, and I thank him for his outstanding leadership as Chair of the Committee on Science. I am pleased to be here.

Each day in our Nation's over 700 government laboratories, Mr. Speaker, new innovations are created by our hard-working Federal scientists to meet the mission of that laboratory.

There are instances, however, when these government-owned innovations have commercial applications beyond just the Federal mission and have been brought into the marketplace, resulting in consumer products that have improved our quality of life while also enhancing our international competitiveness.

Successful technology transfer commercialization from our government laboratories is fighting our deadliest diseases, creating safer and more fuel-efficient methods of transportation, protecting the food that we eat, assisting the disabled, and making our environment cleaner.

I will just list a few of the current examples of technology transfer success stories:

An infrared heat-seeking digital sensor, developed with Department of Defense funding, designed to search for distant galaxies and spot missile launches as part of the Star Wars program that is being used to probe for the first signs of cancer in the human body:

A NASA satellite device used to locate hotspots during fires and monitor volcanoes that has applications in recognizing tumors and abnormalities in women's breasts;

Department of Energy research that developed gas-paneled, energy-efficient superwindows has been transformed to develop an inexpensive, advanced insulating material for use as a thermal packaging to ship perishable cargo such as seafood, meat, fruit, prepared foods and pharmaceuticals; and

Eye-tracking technology; food irradiation research that has an application in the commercial sector.

But it should be clear by now that the importance of technology transfer to our economy and our society cannot be underscored enough; certainly, if we include some of the more storied success stories, such as the Internet, the AIDS home testing kit, and Global Positioning System.

So by permitting effective collaboration between our Federal laboratories and private industry, new technologies are being rapidly commercialized.

Federal technology transfer stimulates the American economy, enhances the competitive position of United States industry internationally, and promotes the development and use of new technologies developed under tax-payer-funded research so those innovations are incorporated quickly, effectively, and efficiently into practice to the benefit of the American public.

One of the most successful legislative frameworks for advancing this has been the Bayh-Dole Act. The Bayh-Dole Act, which was enacted in 1980, permits universities, not-for-profit organizations, and small businesses to obtain title to scientific inventions developed with Federal Government support. It also allows Federal agencies to license government-owned patented scientific inventions even nonexclusively, partially exclusively, or exclusively, depending upon which license is determined, to be the most effective means for achieving commercializa-

Prior to the enactment of the Bayh-Dole Act, many discoveries resulting from federally funded scientific research were not commercialized to help the American public. Since the Federal Government lacked the resources to market new inventions and private industry was reluctant to make high-risk investments without the protection of patent rights, many valuable innovations were left unused on the shelf of Federal laboratories.

With its success licensing Federal inventions, the Bayh-Dole Act is widely used as an effective framework for Federal technology transfer. So the process for licensing of government-owned patents should continue to be refined, we believe, by refining the procedures and by removing the uncertainties associated with the licensing process.

So if we can by reducing that and the uncertainty created by existing procedural barriers and by lowering the transactional costs associated with licensing Federal technologies from the government, we could greatly increase participation by the private sector in its technology transfer programs. This approach would expedite the commercialization of government-owned inventions and through royalties could reduce the cost to the American taxpayer for the production of new technologybased products created in our labs.

That is the intention of this bill before us. The goal of H.R. 209 is to remove the procedural obstacles and, to the greatest extent possible within the public interest, the uncertainty involved in the licensing of Federal-patented inventions created in a government-owned, government-operated laboratory by applying the successful Bayh-Dole Act provision to a GOGO.

Under the bill, its agencies would be provided with two important new tools for effectively commercializing on-theshelf, federally owned technologies, either licensing them as stand-alone inventions under the bill's revised authorities of section 209 of the Bayh-Dole Act, or by including them as part of a larger package under the Cooperative Research and Development Agreement.

In doing so, this will make both mechanisms much more attractive to U.S. companies that are striving to form partnerships with Federal laboratories.

Let me just close by noting that the bill before us represents a bipartisan and bicameral consensus. I am pleased to have worked very closely with Members of the minority, the administration, and the Senate in helping to perfect the bill since it was originally introduced.

I am especially pleased that the administration has issued a Statement of Administration Policy which states that the administration supports passage of H.R. 209, which will significantly facilitate the licensing of government-owned inventions by Federal agencies.

I want to thank the chairman of the full committee, the Committee on Science, the gentleman from Wisconsin (Mr. Sensenbrenner), for his leadership; the ranking member of the Committee on Science, the gentleman from Texas (Mr. Hall), as well as the ranking member of the Subcommittee on Technology of the Committee on Science, the gentleman from Michigan (Mr. Barcia).

I certainly want to commend the ranking member on the committee. I also want to commend some members of the other body, Senators ROCKE-FELLER, FRIST, HATCH, and LEAHY for their input and for their support in helping to refine the legislation.

I look forward to the President's signature of this important bill into law. I want to point out that staff also helped enormously. Barry Berringer, Jim Turner, Jeff Grove, and Ben Wu especially worked very hard on this.

The Federal laboratories are eager to receive the new authorities contained in this bill, and I urge all of my colleagues to support H.R. 209.

#### □ 1245

Mr. GORDON. Mr. Speaker, I yield back the balance of my time.

Mr. SENSENBRENNER. Mr. Speaker, I yield back the balance of my time. The SPEAKER pro tempore (Mr. GIB-

BONS). The question is on the motion offered by the gentleman from Wisconsin (Mr. Sensenbrenner) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 209.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

COMMERCIAL SPACE TRANSPOR-TATION COMPETITIVENESS ACT OF 2000

Mr. SENSENBRENNER. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill, (H.R. 2607) to promote the development of the commercial space transportation industry, to authorize appropriations for the Office of the Associate Administrator for Commercial Space Transportation, to authorize appropriations for the Office of Space Commercialization, and for other purposes.

The Clerk read as follows:

Senate amendment:

Strike out all after the enacting clause and insert:

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Commercial Space Transportation Competitiveness Act of 2000".

#### SEC. 2. FINDINGS.

The Congress finds that—

(1) a robust United States space transportation industry is vital to the Nation's economic well-being and national security:

(2) enactment of a 5-year extension of the excess third party claims payment provision of chapter 701 of title 49. United States Code (Commercial Space Launch Activities) will have a beneficial impact on the international competitiveness of the United States space transportation industru:

(3) space transportation may evolve into airplane-style operations:

(4) during the next 3 years the Federal Government and the private sector should analyze the liability risk-sharing regime to determine its appropriateness and effectiveness, and, if needed, develop and propose a new regime to Congress at least 2 years prior to the expiration of the extension contained in this Act;

(5) the areas of responsibility of the Office of the Associate Administrator for Commercial Space Transportation have significantly increased as a result of-

(A) the rapidly expanding commercial space transportation industry and associated government licensing requirements;

(B) regulatory activity as a result of the emerging commercial reusable launch vehicle industry; and

(C) the increased regulatory activity associated with commercial operation of launch and reentry sites: and

(6) the Office of the Associate Administrator for Commercial Space Transportation should continue to limit its promotional activities to those which support its regulatory mission.

#### SEC. 3. OFFICE OF COMMERCIAL SPACE TRANS-PORTATION.

(a) AMENDMENT.—Section 70119 of title 49, United States Code, is amended to read as follows:

## "§ 70119. Office of Commercial Space Trans-

There are authorized to be appropriated to the Secretary of Transportation for the activities of the Office of the Associate Administrator for Commercial Space Transportation-

"(1) \$12,607,000 for fiscal year 2001; and

"(2) \$16,478,000 for fiscal year 2002.

(b) Table of Sections Amendment.—The item relating to section 70119 in the table of sections of chapter 701 of title 49, United States Code, is amended to read as follows:

"70119. Office of Commercial Space Transportation.".

#### SEC. 4. OFFICE OF SPACE COMMERCIALIZATION.

- (a) AUTHORIZATION OF APPROPRIATIONS.-There are authorized to be appropriated to the Secretary of Commerce for the activities of the Office of Space Commercialization—
  - (1) \$590,000 for fiscal year 2001;
  - (2) \$608,000 for fiscal year 2002; and
  - (3) \$626,000 for fiscal year 2003.
- (b) REPORT TO CONGRESS.—Not later than 90 days after the date of the enactment of this Act,

the Secretary of Commerce shall transmit to the Congress a report on the Office of Space Commercialization detailing the activities of the Office, the materials produced by the Office, the extent to which the Office has fulfilled the functions established for it by the Congress, and the extent to which the Office has participated in interagency efforts.

### SEC. 5. COMMERCIAL SPACE TRANSPORTATION INDEMNIFICATION EXTENSION.

(a) IN GENERAL.—If, on the date of enactment of this Act, section 70113(f) of title 49, United States Code, has not been amended by the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001, then that section is amended by striking "December 31, 2000" and inserting "December 31, 2004".

(b) AMENDMENT OF MODIFIED SECTION.—If, on the date of enactment of this Act, section 70113(f) of title 49, United States Code, has been amended by the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001, then that section is amended by striking "December 31, 2001" and inserting "December 31, 2004".

## SEC. 6. TECHNICAL AMENDMENT TO SECTION 70113 OF TITLE 49.

- (a) Section 70113 of title 49, United States Code, is amended by striking "——, 19——,"," in subsection (e)(1)(A) and inserting "——, 20——,"
- (b) The amendment made by subsection (a) takes effect on January 1, 2000.

## SEC. 7. LIABILITY REGIME FOR COMMERCIAL SPACE TRANSPORTATION.

- (a) REPORT REQUIREMENT.—Not later than 18 months after the date of the enactment of this Act, the Secretary of Transportation shall transmit to the Congress a report on the liability risk-sharing regime in the United States for commercial space transportation.
- (b) CONTENTS.—The report required by this section shall—
- (1) analyze the adequacy, propriety, and effectiveness of, and the need for, the current liability risk-sharing regime in the United States for commercial space transportation;
- (2) examine the current liability and liability risk-sharing regimes in other countries with space transportation capabilities;
- (3) examine the appropriateness of deeming all space transportation activities to be "ultrahazardous activities" for which a strict liability standard may be applied and which liability regime should attach to space transportation activities, whether ultrahazardous activities or not:
- (4) examine the effect of relevant international treaties on the Federal Government's liability for commercial space launches and how the current domestic liability risk-sharing regime meets or exceeds the requirements of those treaties:
- (5) examine the appropriateness, as commercial reusable launch vehicles enter service and demonstrate improved safety and reliability, of evolving the commercial space transportation liability regime towards the approach of the airline liability regime;
- (6) examine the need for changes to the Federal Government's indemnification policy to accommodate the risks associated with commercial spaceport operations; and
- (7) recommend appropriate modifications to the commercial space transportation liability regime and the actions required to accomplish those modifications.
- (c) Sections.—The report required by this section shall contain sections expressing the views and recommendations of—
- (1) interested Federal agencies, including—
- (A) the Office of the Associate Administrator for Commercial Space Transportation;

- (B) the National Aeronautics and Space Administration;
- (C) the Department of Defense; and
- (D) the Office of Space Commercialization;
- (2) the public, received as a result of notice in Commerce Business Daily, the Federal Register, and appropriate Federal agency Internet websites.

#### SEC. 8. AUTHORIZATION OF INTERAGENCY SUP-PORT FOR GLOBAL POSITIONING SYSTEM.

The use of interagency funding and other forms of support is hereby authorized by Congress for the functions and activities of the Interagency Global Positioning System Executive Board, including an Executive Secretariat to be housed at the Department of Commerce.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. Sensenbrenner) and the gentleman from Tennessee (Mr. Gordon) each will control 20 minutes.

The Chair recognizes the gentleman from Wisconsin (Mr. Sensenbrenner).

GENERAL LEAVE

Mr. SENSENBRENNER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 2607.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. SENSENBRENNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill extends launch indemnification to the U.S. commercial launch industry through the end of the year 2004, and authorizes funding for the Offices of Advanced Space Transportation and Space Commerce in the Departments of Transportation and Commerce. This is a bipartisan bill jointly sponsored by the Subcommittee on Space and Aeronautics; the gentleman from California (Mr. ROHRABACHER); the gentleman from Florida (Mr. WELDON); and the ranking minority member, the gentleman from Tennessee (Mr. GORDON).

The Federal Government first decided to indemnify commercial launch companies against catastrophic losses in 1990 as a means of rebuilding a launch industry which was critical for national security. Congress has traditionally reviewed indemnification in 5year increments. At no cost to the government, the act successfully created a stable business environment that encouraged private firms to invest in improving U.S. space launch capabilities and maintaining their competitiveness with launchers from Europe, Russia, the Ukraine and China. By extending indemnification through 2004, we will eliminate the uncertainty created by 1year renewals and restore a business environment that helps U.S. launch firms retain their competitiveness.

The House passed this bill last year by an overwhelming margin on suspension of the rules and should do so again now that the Senate has acted. The Senate has made only minor modifications. I urge all my colleagues to support this important measure.

Mr. Speaker, I reserve the balance of my time.

Mr. GORDON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to make a few brief comments in support of H.R. 2607. H.R. 2607, the Commercial Space Competitiveness Act of 2000, is a bill that does a number of important things to advance the competitiveness of the Nation's commercial space transportation industry. First and foremost, the bill extends the commercial space transportation indemnification provisions through 2004. Those indemnification provisions were first enacted in 1988 as part of the Commercial Space Launch Act amendments. They have provided a sensible and highly cost-effective risk-sharing regime that has helped our launch industry compete in world markets. And since their enactment, these provisions have not cost American taxpayers a single dollar in claims.

H.R. 2607 does a number of important things, including authorizing funding for the Department of Transportation's Office of Commercial Space Transportation and the Department of Commerce's Office of Space Commercialization. The Office of Commercial Space Transportation in particular has been responsible for licensing U.S. commercial launches and launch facilities, and this legislation recognizes the need to provide the resources needed to carry out its duties.

Before I close, I would like to just express my thanks to my colleagues, the gentleman from Wisconsin (Mr. Sensenbrenner), the gentleman from California (Mr. Rohrabacher), the gentleman from Texas (Mr. Hall), Senators McCain, Hollings, Frist and Breaux. Without their collective efforts, we would not be considering this bill today.

Mr. Speaker, the House originally passed H.R. 2607 more than a year ago. The version before us today reflects the incorporation of some minor but constructive changes requested by the Senate. I believe this bill is a useful piece of legislation and I urge my colleagues to vote to suspend the rules and pass this bill.

Mr. Speaker, I yield back the balance of my time.

Mr. SENSENBRENNER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin (Mr. SENSENBRENNER) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 2607.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

## PROTECTING OUR CHILDREN FROM to 3 years in three important areas. DRUGS ACT OF 2000 First, it raises the sentence to 3 years

Mr. CANADY of Florida. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5312) to amend the Controlled Substances Act to protect children from drug traffickers.

The Clerk read as follows:

#### H.B. 5312

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Protecting Our Children From Drugs Act of 2000".

#### SEC. 2. INCREASED MANDATORY MINIMUM PEN-ALTIES FOR USING MINORS TO DIS-TRIBUTE DRUGS.

Section 420 of the Controlled Substances Act (21 U.S.C. 861) is amended—

- (1) in subsection (b), by striking "one year" and inserting "3 years"; and
- (2) in subsection (c), by striking "one year" and inserting "5 years".

#### SEC. 3. INCREASED MANDATORY MINIMUM PEN-ALTIES FOR DISTRIBUTING DRUGS TO MINORS.

Section 418 of the Controlled Substances Act (21 U.S.C. 859) is amended—

- (1) in subsection (a), by striking "one year" and inserting "3 years"; and
- (2) in subsection (b), by striking "one year" and inserting "5 years".

## SEC. 4. INCREASED MANDATORY MINIMUM PENALTIES FOR DRUG TRAFFICKING IN OR NEAR A SCHOOL OR OTHER PROTECTED LOCATION.

Section 419 of the Controlled Substances Act (21 U.S.C. 860) is amended—

- (1) in subsection (a), by striking "one year" and inserting "3 years"; and
- (2) in subsection (b), by striking "three years" each place that term appears and inserting "5 years".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. CANADY) and the gentleman from Tennessee (Mr. GORDON) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. CANADY).

#### GENERAL LEAVE

Mr. CANADY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 5312.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. CANADY of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, there are few responsibilities that we have as Members of Congress that are more important than seeking to leave our children a better future. This legislation seeks to accomplish that goal by protecting children from illegal drugs, drug trafficking and the violence associated with the drug trade through increased prison sentences for Federal drug felonies involving or affecting children.

H.R. 5312 increases the mandatory minimum prison sentences from 1 year

to 3 years in three important areas. First, it raises the sentence to 3 years for those who use children to distribute drugs. Second, it raises the sentence to 3 years for those who traffic drugs to children. And third, it raises the sentence to 3 years for those who traffic drugs in or near a school or other protected location, including colleges, playgrounds, public housing facilities, youth centers, public swimming pools or video arcade facilities.

In each of these circumstances, it raises the mandatory minimum sentence for a second time offender to 5 years.

Mr. Speaker, protecting children should be a top priority for our society. Crime is down in America but we must remain vigilant. This bill sends an important and unmistakable message, do not involve our kids in your drug trade. By passing and enacting this legislation, we are doing more to make sure our children realize the promising future to which they are entitled. I urge my colleagues to support the Protecting Our Children From Drugs Act of 2000. I want to express my gratitude to the chairman of the Subcommittee on Crime, the gentleman from Florida (Mr. McCollum), who is the sponsor of this legislation, for his leadership in moving forward with this proposal.

Mr. Speaker, I reserve the balance of my time.

Mr. SCOTT. Mr. Speaker, I rise in opposition to H.R. 5312, the "Protecting Our Children From Drugs Act of 2000," which would increase mandatory minimums for certain drug offenses involving minors. While I certainly support any legislative action which would keep drugs out of the hands of our kids, this bill will not do that.

Unfortunately, we are here again with Congress' favorite solution to crime—mandatory minimum sentencing. This despite the fact that scientific studies have found no empirical evidence linking mandatory minimum sentences to reductions in crime. Instead, what the studies have shown is that mandatory minimum sentences distort the sentencing process, discriminate against minorities in their application and waste money.

In a study report entitled "Mandatory Minimum Drug Sentences: Throwing Away the Key or the Tax Payers Money?," the Rand Commission concluded that mandatory minimum sentences were significantly less effective than discretionary sentencing, and substantially less effective than drug treatment in reducing drug related crime, and far more costly than either.

Further, both the Judicial Center in its study report entitled "The General Effects of Mandatory Minimum Prison Terms: A longitudinal Study of Federal Sentences Imposed," and the United States Sentencing Commission in its study report entitled "Mandatory Minimum Penalties in the Federal Criminal Justice System," found that minorities were substantially more likely than whites under comparable circumstances to receive mandatory minimum sentences.

Perhaps the problem with mandatory minimums is best stated in a March 17, 2000 letter

from the Judicial Conference of the United States to Chairman HYDE, and which provided as follows:

The reason for our opposition is manifest: Mandatory minimums severely distort and damage the federal sentencing system. Mandatories undermine the Sentencing Guidelines regimen Congress so carefully established under the Sentencing Reform Act of 1984 by preventing the rational development of guidelines that reduce unwarranted disparity and provide proportionality and fairness. Mandatory minimums also destroy honesty in sentencing by encouraging charge and fact plea bargains to avoid mandatory minimums. In fact, the U.S. Sentencing Commission has documented that mandatory minimum sentences have the opposite of their intended effect. Far from fostering certainty in punishment, mandatory minimums result in unwarranted sentencing disparity. Mandatories also treat dissimilar offenders in a similar manner-offenders who can be quite different with respect to the seriousness of their conduct or their danger to society. Mandatories require the sentencing court to impose the same sentence on offenders when sound policy and common sense call for reasonable differences in punish-

The fact is, we know how to reduce drug abuse—its with prevention and drug rehabilitation programs. One study of a program in California has shown drug rehabilitation to be so effective that for every dollar the state spends on its drug abuse program, it saves seven dollars in reduced costs in health care, welfare, and crime.

In addition, late last year several of us worked on the bipartisan task force on juvenile crime. We heard from experts from across the country, and all the testimony we heard pointed to prevention and early intervention as appropriate strategies to deal with juvenile crime. We did not hear a single witness suggest we enact mandatory minimum sentencing schemes.

Mr. Speaker, H.R. 5312 was introduced just two weeks ago by Representative McCollum, and comes to the floor today without the benefit of hearings or the opportunity to amend the bill. Thus, it is no surprise that it reflects an old approach which has been proven to be ineffective and discriminatory in its impact. For those reasons, I must oppose H.R. 5312, and urge my colleagues to vote against the bill.

Mr. GILMAN. Mr. Speaker, I rise today in strong support of H.R. 5312, the Protecting Our Children From Drugs Act of 2000. I urge my colleagues to join in supporting this worthy legislation.

H.R. 5312 amends the Controlled Substances Act to increase penalties for: (1) using persons under the age of 18 to distribute drugs, (2) distributing drugs to minors, (3) drug trafficking near a school or other protected location, such as a youth center, playground, or public housing facility.

In all of these cases, the penalty for a first time offense increases from a minimum of one to three years in prison. The penalty for subsequent offenses is increased to a minimum of five years in prison.

Mr. Speaker, the threat posed by illegal drugs is one of the greatest national security threats facing our nation. This is the cold truth.

While opponents have argued that we spend too much on combating drugs, they are

ignoring the true cost of drug use on our society. In addition to costs associated with supply and demand reduction, drug use costs billions each year in health care expenses and lost productivity. Moreover, it also has intangible costs in terms of broken families and destroyed lives.

Our children are on the front lines of this drug war. They are the primary target of both the drug producers and the sellers. This legislation is a small step designed to make selling drugs to minors, a less attractive option. I urge my colleagues to lend it their full support.

Mr. LAÄSON. Mr. Speaker, I rise today to support legislation sponsored by my colleague from Florida (Mr. McCollum). The Protecting Our Children From Drugs Act will give this country a much needed additional source of ammunition in our war against drugs. This legislation will send a forceful message to drug dealers that our children and our schools are not going to be participants in the drug trade. In addition, by taking increased measures to protect our children from the dangers of illegal drugs, we are ensuring that one day they will be readily equipped to continue the fight for a drug free America.

As statistics show that the rate of teen drug use in this country has doubled since 1992, it is clear that the time for this legislation is now. I, unfortunately, know all too well about the constant challenges of protecting innocent children from being corrupted by the drug trade. In June of 1999, the ONDCP designated my district a High Intensity Drug Trafficking Area. A month before, an arrest in the suburban town of Newington, Connecticut, that netted 60 bags of heroin, took place 1500 feet from a day care center. In November of that same year, a man was arrested in Hartford for using a 15 year old to sell over a hundred bags of heroin. These examples highlight the disturbing reality that our children and our schools are not ignored by drug dealers, but that they are often targeted. As both a legislator and a father of three young children, it is painfully obvious that drug trafficking is everywhere. We must send a message to drug dealers that their crimes will be punished with significantly harsher penalties if they invade our schools, and infiltrate among our children.

In his long and continuing effort to protect our country and our children from illegal drugs, my colleague notes that intervention is the first step necessary to winning the drug war. However, intervention is not always the goal we strive for. Perhaps it is because we often see exposure to drugs as an inevitable part of our children's lives. It doesn't have to be. We must intervene and prevent exposure at the source, and let dealers know that our kids are off limits. Further action, such as this legislation, will protect our children and give them the opportunity to lead this country into the 21st century. I rise in support of this legislation today and I urge our colleagues to join us.

Mr. GORDON. Mr. Speaker, I yield back the balance of my time.

Mr. CANADY of Florida. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 5312.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

PROSECUTION DRUG TREATMENT ALTERNATIVE TO PRISON ACT OF 2000

Mr. CANADY of Florida. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4493) to establish grants for drug treatment alternative to prison programs administered by State or local prosecutors.

The Clerk read as follows:

#### H.R. 4493

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Prosecution Drug Treatment Alternative to Prison Act of 2000".

#### SEC. 2. DRUG TREATMENT ALTERNATIVE TO PRISON PROGRAMS ADMINISTERED BY STATE OR LOCAL PROSECUTORS.

(a) PROSECUTION DRUG TREATMENT ALTERNATIVE TO PRISON PROGRAMS.—Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711 et seq.) is amended by adding at the end the following new part:

#### "PART AA—PROSECUTION DRUG TREAT-MENT ALTERNATIVE TO PRISON PRO-GRAMS

#### "SEC. 2701. PROGRAM AUTHORIZED.

"(a) IN GENERAL.—The Attorney General may make grants to State or local prosecutors for the purpose of developing, implementing, or expanding drug treatment alternative to prison programs that comply with the requirements of this part.

"(b) USE OF FUNDS.—A State or local prosecutor who receives a grant under this part shall use amounts provided under the grant to develop, implement, or expand the drug treatment alternative to prison program for which the grant was made, which may include payment of the following expenses:

"(1) Salaries, personnel costs, equipment costs, and other costs directly related to the operation of the program, including the enforcement unit.

"(2) Payments to licensed substance abuse treatment providers for providing treatment to offenders participating in the program for which the grant was made, including aftercare supervision, vocational training, education, and job placement.

"(3) Payments to public and nonprofit private entities for providing treatment to offenders participating in the program for which the grant was made.

"(c) FEDERAL SHARE.—The Federal share of a grant under this part shall not exceed 75 percent of the cost of the program.

"(d) SUPPLEMENT AND NOT SUPPLANT.— Grant amounts received under this part shall be used to supplement, and not supplant, non-Federal funds that would otherwise be available for activities funded under this part.

#### "SEC. 2702. PROGRAM REQUIREMENTS.

"A drug treatment alternative to prison program with respect to which a grant is made under this part shall comply with the following requirements:

"(1) A State or local prosecutor shall administer the program.

"(2) An eligible offender may participate in the program only with the consent of the State or local prosecutor.

"(3) Each eligible offender who participates in the program shall, as an alternative to incarceration, be sentenced to or placed with a long term, drug free residential substance abuse treatment provider that is licensed under State or local law.

"(4) Each eligible offender who participates in the program shall serve a sentence of imprisonment with respect to the underlying crime if that offender does not successfully complete treatment with the residential substance abuse provider.

"(5) Each residential substance abuse provider treating an offender under the program shall—

"(A) make periodic reports of the progress of treatment of that offender to the State or local prosecutor carrying out the program and to the appropriate court in which the defendant was convicted; and

"(B) notify that prosecutor and that court if that offender absconds from the facility of the treatment provider or otherwise violates the terms and conditions of the program.

"(6) The program shall have an enforcement unit comprised of law enforcement officers under the supervision of the State or local prosecutor carrying out the program, the duties of which shall include verifying an offender's addresses and other contacts, and, if necessary, locating, apprehending, and arresting an offender who has absconded from the facility of a residential substance abuse treatment provider or otherwise violated the terms and conditions of the program, and returning such offender to court for sentence on the underlying crime.

#### "SEC. 2703. APPLICATIONS.

"(a) IN GENERAL.—To request a grant under this part, a State or local prosecutor shall submit an application to the Attorney General in such form and containing such information as the Attorney General may reasonably require.

"(b) CERTIFICATIONS.—Each such application shall contain the certification of the State or local prosecutor that the program for which the grant is requested shall meet each of the requirements of this part.

#### "SEC. 2704. GEOGRAPHIC DISTRIBUTION.

"The Attorney General shall ensure that, to the extent practicable, the distribution of grant awards is equitable and includes State or local prosecutors—

"(1) in each State; and

"(2) in rural, suburban, and urban jurisdictions.

#### "SEC. 2705. REPORTS AND EVALUATIONS.

"For each fiscal year, each recipient of a grant under this part during that fiscal year shall submit to the Attorney General a report regarding the effectiveness of activities carried out using that grant. Each report shall include an evaluation in such form and containing such information as the Attorney General may reasonably require. The Attorney General shall specify the dates on which such reports shall be submitted.

#### "SEC. 2706. DEFINITIONS.

"In this part:

"(1) The term 'State or local prosecutor' means any district attorney, State attorney general, county attorney, or corporation counsel who has authority to prosecute criminal offenses under State or local law.

''(2) The term 'eligible offender' means an individual who—

"(A) has been convicted of, or pled guilty to, or admitted guilt with respect to a crime for which a sentence of imprisonment is required and has not completed such sentence; "(B) has never been convicted of, or pled guilty to, or admitted guilt with respect to, and is not presently charged with, a felony crime of violence or a major drug offense or a crime that is considered a violent felony under State or local law: and

"(C) has been found by a professional substance abuse screener to be in need of substance abuse treatment because that offender has a history of substance abuse that is a significant contributing factor to that offender's criminal conduct.

"(3) The term 'felony crime of violence' has the meaning given such term in section 924(c)(3) of title 18, United States Code.

"(4) The term 'major drug offense' has the meaning given such term in section 36(a) of title 18, United States Code.".

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 1001(a) of title I of the Omnibus Crime Control and Safe Street Act of 1968 (42 U.S.C. 3793(a)) is amended by adding at the end the following new paragraph:

``(24) There are authorized to be appropriated to carry out part AA—

"(A) \$75,000,000 for fiscal year 2000;

"(B) \$85,000,000 for fiscal year 2001;

"(C) \$95,000,000 for fiscal year 2002;

(C) \$55,000,000 for fiscal year 2002; "(D) \$105,000,000 for fiscal year 2003; and

"(E) \$125,000,000 for fiscal year 2004.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. CANADY) and the gentleman from Tennessee (Mr. GORDON) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. CANADY).

### GENERAL LEAVE

Mr. CANADY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 4493.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. CANADY of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4493, the Prosecution Drug Treatment Alternative to Prison Act of 2000 would authorize grants for drug treatment alternative to prison programs administered by State or local prosecutors. This legislation represents a responsible approach to drug treatment because it holds the individual receiving treatment accountable and it allows local prosecutors to exercise discretion regarding those for whom drug treatment is appropriate.

I want to thank the gentleman from Florida (Mr. MICA), the sponsor of this legislation, for his leadership on this innovative legislation.

Mr. Speaker, I yield such time as he may consume to the gentleman from California (Mr. OSE).

Mr. OSE. Mr. Speaker, I thank the gentleman from Florida (Mr. CANADY) for yielding me this time.

Mr. Speaker, in addition to the gentleman from Florida (Mr. MICA), I would like to enter into the record the other original cosponsors of this bill,

those being, the gentleman from North Carolina (Mr. Ballenger); the gentleman from New York (Mr. Gilman); the gentleman from Florida (Mr. Goss); the gentlewoman from Texas (Ms. Granger); the gentleman from Arkansas (Mr. Hutchinson); the gentleman from Georgia (Mr. Kingston); the gentleman from Iowa (Mr. Latham); the gentleman from Florida (Mr. McCollum); the gentleman from Ohio (Mr. Portman); the gentleman from Tennessee (Mr. Wamp); and the gentleman from Virginia (Mr. Wolf).

The reason I do that is I want to evidence the broad geographic interest in providing some means of relief for folks who are suffering from the malaise of drugs. I wish to thank also the dozens of cosponsors of this legislation from both sides of the aisle. It is my expectation that the bill soon will be introduced and receive bipartisan support in the United States Senate as well.

This legislation will provide much needed resources to State and local governments for new prosecutor-managed drug treatment options for eligible nonviolent offenders. The program is designed for offenders who need and seek an opportunity to break the terrible chains of drug addiction and take back control of their lives.

In fact, such a program has been administered successfully for more than a decade in Brooklyn, New York. It has been rigorously evaluated and found to have resulted in higher treatment success, low recidivism rates and substantial tax dollar savings. This legislation will be an important new addition to our Nation's drug demand reduction efforts.

Mr. Speaker, most State and local criminal prosecutions are resolved through guilty pleas and plea bargains. Plea agreements prevent our criminal justice system from coming to a screeching halt and, as such, they are a valuable tool. This particular legislation represents another option for offenders who plead guilty to nonviolent offenses such as personal drug use. Just to be clear, violent drug offenders and serious drug traffickers will not be eligible under this legislation. The legislation also authorizes new Federal funding for programs designed and managed by State and local prosecutors who prosecute nonviolent offenders who are in desperate need of treatment. It allows prosecutors to select only eligible nonviolent offenders for a rigorous program of mandatory drug treatment and strict rules and conditions. Prosecutors have total discretion to select participants. Participants must be identified as being in need of treatment but they must also not have been convicted of a felony crime of violence or a major drug offense as defined under Federal law.

An important benefit of this option is that a prosecutor retains the leverage

those being, the gentleman from North of a substantial prison sentence to be Carolina (Mr. Ballenger); the gentleman from New York (Mr. GILMAN); treatment requirements. That is called the gentleman from Florida (Mr. accountability.

This accountability provides prosecutors with a common sense cost-effective alternative for offenders who really want to reform their lives. A successful model program of this type is the drug treatment alternative to prison program, as I mentioned, established in 1990 by the Office of the District Attorney for Kings County, which is Brooklyn, New York.

Evaluation results of the New York program indicate high treatment retention rates, low recidivism and significant cost savings. The 1-year retention rate in drug treatment is 66 percent. The recidivism rate for participants is less than a half for comparable offenders, 23 percent compared to 47 percent. Nearly all employable program graduates, that is 92 percent, are now working or are in vocational programs compared with only 26 percent who were employed prior to entering the program.

This particular program in Brooklyn, New York, reportedly has saved the city and the State more than \$15 million over the past 10 years. The program holds great promise for communities across America. It is designed to combat drugs and address the treatment needs of eligible nonviolent offenders who desire to forsake crime and drugs and regain control of their lives. Experience has shown that this approach breaks addiction, protects lives, assists families, promotes gainful employment and saves substantial tax dollars. The legislation itself will provide funds up to 75 percent of program costs directly to State and local governments. The total authorized under this bill is almost a half a billion dollars. The program grants will be administered by the United States Department of Justice. State and local government recipients must match by at least 25 percent the Federal grant award amount.

### □ 1300

Evaluations will be required and funded

Each program is required to maintain an enforcement unit of sworn officers to monitor and apprehend any offenders who violate program requirements and attempt to abscond from their responsibilities.

There are requirements for ensuring a fair geographic distribution of funds, so that people in Maine or people in California or people in Washington or Iowa get a fair shot at getting the funding for their treatment. Grant awards are to be made, to the extent practicable, to each State and to rural suburban and urban jurisdictions.

Madam Speaker, I do not have to remind you or other Members of the need for us to do everything possible to help

State and local governments respond to their continuing drug challenges. Even the White House's Office of National Drug Control Policy indicates that overall drug use has increased from 6.4 percent of our population in 1997 to 7 percent in 1999. That is a 10 percent increase in 2 years.

While marijuana and crack use has decreased among youth, Ecstasy, methamphetamine and "designer drug" use has shot through the roof among youth and adults. We are seeing overdoses and deaths as we have never seen them before. Drug-induced deaths number about 17,000 annually and are rising. In total, drug-related deaths, that is, where someone dies as a result of drug use, now exceed 50,000 each year. That is more than the number of murders in this country on an annual basis.

We need to take this important step as outlined in this legislation in a national effort to turn this situation around, to make our communities safer and to improve the quality of life for everybody in America. This initiative will make a substantial contribution to this effort.

Madam Speaker, I want to highlight in particular how this program, on a point-by-point comparison, will help in California because, as always, I go home every weekend, and that is kind of where my heart is.

California has an initiative on the ballot this year called Prop 36, and it is being marketed to the voters as a drug treatment initiative to try and give people assistance. In fact, the initiative itself is around 4,500 words; and interestingly enough, of those 4,500 words, about 3,600 talk about sentencing and incarceration and doing time in prison.

You would think that an initiative that is supposed to address drug treatment would talk about drug treatment instead of about sentencing and the like. In fact, this initiative spends about 390 words out of 4,500 talking about treatment, and then it only talks about funding.

Prop 36 in California is a sham, and I would hope that the other Members of this body would take the time to read it and share it with their people, because, if it is successful in California, it is coming to your State soon. It is kind of like a bad movie.

We need to defeat Prop 36. The legislation that is on the floor today addresses actual treatment opportunities for people, compared to Prop 36, which offers no treatment whatsoever.

In fact, the single most effective means of helping people suffering from drug addiction, which is blood testing and urinalysis, under Prop 36 is forbidden. Think about that. Prop 36 says it is a drug treatment, but it removes the single most effective tool that professionals in the field use to hold folks accountable for getting rid of this scourge.

I want to close, if I can, Madam Speaker. This legislation put forward by the gentleman from Florida (Mr. MICA) is about fighting drugs harder and smarter. It can make a real difference in promoting demand reduction and breaking the link between drugs and crime for many eligible nonviolent offenders who are at great risk of pursuing criminal careers.

Both sides of the aisle support this legislation. So do criminal justice professionals. Treatment experts and providers, such as Phoenix House and the Therapeutic Communities of America, have endorsed this legislation. So have Pennsylvania and New York District Attorney Associations. We have worked very closely with the DA from Brooklyn, New York, to develop this legislation based upon his proven experience.

The chairman of the committee, the gentleman from Florida (Mr. MICA), has personally visited the program and discussed it with the offenders going through it. Respected researchers and evaluators have documented the program's successes. If properly designed and administered as outlined in this legislation, I am convinced that we have the opportunity to save lives and save money in this country.

Madam Speaker, H.R. 4493 is a good bill, and it is much needed. It is important to States, communities, and families across this country. In combatting drug use, we must identify programs that work and support them. We cannot afford any longer to squander tax dollars on unnecessary bureaucracies and ineffective approaches.

Accordingly, I urge all Members to vote for H.R. 4493. I appreciate the opportunity to speak on this very important issue this afternoon.

Mr. GORDON. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, the gentleman from Michigan (Mr. Conyers), the ranking member of the Committee on the Judiciary, could not be here today; but I will submit his statement.

If I could take a brief moment, Madam Speaker, my friend, the gentleman from Florida (Mr. Canady), this is his last or soon to be last presentation, I suspect, before this body; and I just want to say that over the years he has been here, there may be some that have disagreed with him on occasion, but hopefully no one would ever disagree that he is a man of integrity. I appreciate his friendship. I know he is going to enjoy going back and spending more time with his family, and I want to wish him well in his endeavors in Florida.

Madam Speaker, I yield back the balance of my time.

Mr. CANADY of Florida. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I appreciate the kind remarks of the gentleman from Tennessee (Mr. GORDON).

Mr. CONYERS. Madam Speaker, as we passed the threshold of two million incarcerated, It has become apparent that our nation's war on drugs has taken its toll on communities across the nation. With the support of the federal government, many states are implementing innovative programs to address the problems of incarceration and drug addiction. H.R. 4493 does not advance the best efforts to stem this tide.

The best programs currently under consideration return discretion to the judges for an assessment of the best methods for rehabilitation. Programs, like those in H.R. 4493, that vest prosecutors with the discretion to grant alternative sentence are not new and suffer from a clear flaw that has limited their effectiveness.

As a general matter, prosecutors are concerned with conviction rates, not rehabilitation. Consequently, these kinds of programs have been used as bargaining chips to obtain evidence and convictions, rather than tools for reducing recidivism. Moreover, these programs contain no long tern "after care" services which have proven critical to addressing the continuing problems faced by addicts after incarceration.

This session, during a markup of methamphetamine legislation, an amendments that provide a good starting point for reforming our national drug policy was approved by the full Judiciary Committee.

This legislation established federal drug courts that would allow the federal government to vigorously pursue sentencing and treatment alternatives to break the cycle and control the costs of drug-offense incarceration. This would allow us to join alternative sentencing and treatment programs that have been adopted in states such as Arizona, California, and New York that have been credited with significant declines in their prison population.

The stakes could hardly be higher in our efforts for policy reform. It is a sad fact of life that more people were imprisoned during the 1990s than any other period on record, with nearly one-in-four prisoners incarcerated for drug offenses, many carrying mandatory minimum sentences.

In raw numbers, today, there are almost as many inmates imprisoned for drug offense as the entire U.S. prison population in 1980. It will cost counties, states and the federal government over \$9 billion to incarcerate our 458,131 drug offenders this year.

We should continue to look for and support successful strategies like those offered in the Judiciary Committee.

Mr. CANADY of Florida. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. MORELLA). The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 4493.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

AUTHORIZING AN INTERPRETIVE CENTER NEAR DIAMOND VALLEY LAKE, CALIFORNIA

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 4187) to assist in the establishment of an interpretive center and museum in the vicinity of the Diamond Valley Lake in southern California to ensure the protection and interpretation of the paleontology discoveries made at the lake and to develop a trail system for the lake for use by pedestrians and nonmotorized vehicles.

The Clerk read as follows:

### H.R. 4187

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

# SECTION 1. INTERPRETIVE CENTER AND MUSEUM, DIAMOND VALLEY LAKE, HEMET, CALIFORNIA.

(a) ASSISTANCE FOR ESTABLISHMENT OF CEN-TER AND MUSEUM.-The Secretary of the Interior shall enter into an agreement with an appropriate entity for the purpose of sharing costs incurred to design, construct, furnish, and operate an interpretive center and museum, to be located on lands under the jurisdiction of the Metropolitan Water District of Southern California, intended to preserve, display, and interpret the paleontology discoveries made at and in the vicinity of the Diamond Valley Lake, near Hemet, California, and to promote other historical and cultural resources of the area.

- Assistance for NONMOTORIZED (b) TRAILS.—The Secretary shall enter into an agreement with the State of California, a political subdivision of the State, or a combination of State and local public agencies for the purpose of sharing costs incurred to design, construct, and maintain a system of trails around the perimeter of the Diamond Valley Lake for use by pedestrians and nonmotorized vehicles.
- (c) MATCHING REQUIREMENT.—The Secretary shall require the other parties to an agreement under this section to secure an amount of funds from non-Federal sources that is at least equal to the amount provided by the Secretary.
- (d) TIME FOR AGREEMENT.—The Secretary shall enter into the agreements required by this section not later than 180 days after the date on which funds are first made available to carry out this section.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated not more than \$14,000,000 to carry out this sec-

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I am pleased to have introduced H.R. 4187, along with the gentlewoman from California (Mrs. BONO), the gentleman from California (Mr. PACKARD), the gentlewoman from California (Mrs. NAPOLITANO), the gentleman from California (Mr. LEWIS), the gentleman from California (Mr.

California (Mr. HUNTER), and the gentleman from California (Mr. BACA).

Madam Speaker, this legislation will assist in establishing the Western Archeology and Paleontology Center in the vicinity of Diamond Valley Lake in Southern California. This center will preserve, protect and make available the extraordinary discoveries that were uncovered during the construction of Diamond Valley Lake to all citizens of the United States. The University of California, Riverside, has been instrumental in developing this center; and I look forward to their continued leadership in the establishment and operation of the center. House report language calls for the Secretary of Interior to work with UCR, metropolitan water districts, and local shareholders in this effort.

During the past 10 years, the construction of Diamond Valley Lake outside of Hemet, California, has been the largest private earth-moving construction project in the United States. The reservoir is now the largest man-made lake in Southern California. It covers 4,500 acres, is 4½ miles long, 2 miles wide, and 250 feet deep. The cost of this was \$2.1 million for construction, was totally borne by the residents of Southern California. The reservoir will provide a desperately needed emergency supply of water for the City of Los Angeles and the surrounding area.

During the construction and excavation of this massive project, extraordinary paleontology and archeology discoveries were uncovered. Unearthed were 365 prehistoric sites, pictographs, stone tools, bone tools and arrowheads. Also discovered were a preserved mastodon skeleton, a mammoth skeleton, a 7-foot tusk and bones from the extinct animals previously unknown to have resided in the area, including the giant long-horned bison and an enormous North American Lion.

The construction of Diamond Vallev Lake unearthed the largest known accumulation of late Ice Age fossils known in California. The scientific importance of this collection may now rival California's other famed site, the La Brea Tar Pits.

The State of California is an active participant in this endeavor, having already contributed \$6 million to the Western Center, Another \$10.5 million has been included in this year's State budget for construction and maintenance of the center.

As for the Federal Government's role in this endeavor, first, 12,000 acres of land totaling about \$40 million, have been bought and set aside by the Metropolitan Water District to comply with the Endangered Species Act, a Federal requirement.

Moreover, there is legislative precedent for Federal assistance to States for preservation. The National Historic Preservation Act set the stage for Fed-

GARY MILLER), the gentleman from eral, State and local partnerships. This act provides that the Federal government shall contribute to the preservation of non-federally owned prehistoric and historic resources and give maximum encouragement to organizations and individuals undertaking preservation by private means.

> In addition, the Army Corps of Engineers, the Department of Defense, the Department of Interior, and the Department of Agriculture have uncovered prehistoric and historic artifacts and are being forced to store these artifacts and records in storage units, offices, basements or in substandard museums, which is unacceptable. I am pleased that we can use this unique opportunity to work together in a partnership with local, State and Federal interests to protect and preserve these assets for all Americans.

> I would like to thank the gentleman from Alaska (Chairman Young) and the gentleman from Utah (Chairman HAN-SEN) for their work on this bill.

> Madam Speaker, I reserve the balance of my time.

> Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 4187 authorizes the Federal Government to pay up to one-quarter of the cost of a \$40 million visitors facility to be constructed as part of a vast recreational complex being developed around a new locally owned water project in California. The complex is reported to include golf courses, restaurants, and concert areas centered around this new reservoir.

While we of the minority do not intend to oppose this legislation, H.R. 4187 does raise some serious concerns. The bill authorizes this Federal expenditure, despite the fact that there is no substantive Federal connection to this project. None of the facilities, nor any of the land, are federally owned or operated.

We are told that during the construction, important archeological artifacts were discovered and therefore the Federal Government should pay for a visitors center. However, if these artifacts are truly important, funding for them is available through existing grant programs, and earmarked funding for a visitors center is therefore unnecessarv.

I guess I should point out that there is a certain irony that some on the majority side are asking for Federal funding for this. But it has been argued also that because the local water district was required to set aside a nature preserve as a species mitigation measure, the use of Federal funds for this visitors center is justified. However, the set-aside was required by law and does not entitle this project to a taxpayerfunded visitors center.

In the view of the minority members of the Committee on Resources, Congress should allocate Federal resources to address the multibillion dollar

maintenance and construction backlogs on Federal lands, and non-Federal projects such as this one should receive the bulk of their funding from the States and localities who own and operate them.

### □ 1315

While the minority will not oppose H.R. 4187, we would caution against similar authorization in cases with such limited Federal interests.

Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. MORELLA). The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 4187.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

SENSE OF CONGRESS ON NEED FOR WORLD WAR II MEMORIAL ON THE MALL

Mr. CALVERT. Madam Speaker, I move to suspend the rules and concur in the Senate concurrent resolution (S. Con. Res. 145) expressing the sense of Congress on the propriety and need for expeditious construction of the National World War II Memorial at the Rainbow Pool on the National Mall in the Nation's Capitol.

The Clerk read as follows:

S. CON. RES. 145

Whereas World War II is the defining event of the twentieth century for the United States and its wartime allies;

Whereas in World War II, more than 16,000,000 American men and women served in uniform in the Armed Forces, more than 400,000 of them gave their lives, and more than 670,000 of them were wounded;

Whereas many millions more on the home front in the United States organized and sacrificed to give unwavering support to those in uniform;

Whereas fewer than 6,000,000 World War II veterans are surviving at the end of the twentieth century, and the Nation mourns the passing of more than 1,200 veterans each day;

Whereas Congress, in Public Law 103-422 (108 Stat. 4356) enacted in 1994, approved the location of a memorial to this epic era in an area of the National Mall that includes the Rainbow Pool:

Whereas since 1995, the National World War II Memorial site and design have been the subject of 19 public hearings that have resulted in an endorsement from the State Historic Preservation Officer of the District of Columbia, three endorsements from the District of Columbia Historic Preservation Review Board, the endorsement of many Members of Congress, and, most significantly, four approvals from the Commission of Fine Arts and four approvals from the National Capital Planning Commission (includ-

ing the approvals of those Commissions for the final architectural design);

Whereas on Veterans Day 1995, the President dedicated the approved site at the Rainbow Pool on the National Mall as the site for the National World War II Memorial: and

Whereas fundraising for the National World War II Memorial has been enormously successful, garnering enthusiastic support from half a million individual Americans, hundreds of corporations and foundations, dozens of civic, fraternal, and professional organizations, state legislatures, students in 1,100 schools, and more than 450 veterans groups representing 11,000,000 veterans: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that—

(1) it is appropriate for the United States to memorialize in the Nation's Capitol the triumph of democracy over tyranny in World War II, the most important event of the twentieth century;

(2) the will of the American people to memorialize that triumph and all who labored to achieve it, and the decisions made on that memorialization by the appointed bodies charged by law with protecting the public's interests in the design, location, and construction of memorials on the National Mall in the Nation's Capitol, should be fulfilled by the construction of the National World War II Memorial, as designed, at the approved and dedicated Rainbow Pool site on the National Mall; and

(3) it is imperative that expeditious action be taken to commence and complete the construction of the National World War II Memorial so that the completed memorial will be dedicated while Americans of the World War II generation are alive to receive the national tribute embodied in that memorial, which they earned with their sacrifice and achievement during the largest and most devastating war the world has known.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, S. Con. Res. 145 expresses the sense of Congress on the propriety and need for expeditious construction of the National World War II Memorial at the Rainbow Pool on the National Mall on the Nation's capitol. In short, this gives the congressional approval to construct this memorial to the brave men and women who served and gave their lives during World War II at the Rainbow Pool location in the Mall and will, I hope, put this issue to rest.

Madam Speaker, there are two indisputable facts dealing with this memorial. One is the fact that no one can possibly think that memorial does not deserve to be in a place of the utmost prominence in the Mall. World War II was the most important event in this century and over 1 million Americans were either killed or wounded.

The other fact is that all approvals from various commissions have been

granted to proceed with the construction of this memorial at this site. However, it is apparent that construction is still mired down, now with misguided lawsuits by a few people who apparently do not believe that this event and the 16 million brave men and women who proudly wore the American uniform deserve recognition.

Enough is enough, Madam Speaker. The process of constructing this memorial has gone on far and long enough, and it is high time we got down to the business and build this deserved memorial which means so much to so many people. Madam Speaker, I strongly urge my colleagues to support S. Con. Res. 145.

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, no one can argue with the substance of this concurrent resolution. The Second World War is recognized as the most significant event of the 20th Century. Millions of American men and women served with distinction and honor in that conflict and more than 400,000 made the ultimate sacrifice as part of their service to their Nation. The core principles of this legislation, that it is the sense of Congress that a memorial commemorating the World War II activities should be built within area 1 on the Mall and that it should be built as expeditiously as possible, that is incontrovertible. Of course, we are all aware that there is some remaining controversy, but that controversy has moved to the courts, and Congress really has no further role in resolving that issue.

As the process moves towards what we hope will be a rapid resolution, it is appropriate that Congress re-assert its support for this important project, and as a result, the minority side fully supports the passage of this measure.

Madam Speaker, I reserve the balance of my time.

Mr. CALVERT. Madam Speaker, I yield as much time as he may consume to the gentleman from Arizona (Mr. STUMP), the champion for all veterans in our country.

Mr. STUMP. Madam Speaker, I thank the gentleman from California for yielding me this time.

Madam Speaker, the gentlewoman from Ohio (Ms. KAPTUR) first introduced this resolution to create the memorial in 1987 but it was not enacted until 1993.

Since its authorization, this memorial has been through 19 public hearings. It has been completely redesigned in response to concerns raised in this public process. It has been approved by the National Park Service, the Department of Interior and the President, as well as the D.C. Historic Preservation Review Board, the National Capital Planning Commission and the Commission of Fine Arts.

The World War II Memorial is supported by virtually every veterans' organization in this country representing over 10 million veterans. Ground breaking is scheduled for this coming Veterans Day, which is November 11. Unfortunately, Madam Speaker, it has taken three times as long to get from bill introduction to groundbreaking as it did to win the war in the first place.

Yet there are still opponents of this memorial continuing to challenge the design and location on the Mall. They would delay the groundbreaking of this already long overdue tribute to our Nation's triumph over tyranny. Every day that we wait to begin construction, over a thousand more World War II veterans pass on and join their fallen comrades.

Madam Speaker, this World War II memorial will not encroach on other monuments to America's founders and heroes. As Ray Smith, the Commander of the American Legion eloquently stated, and I quote, "This memorial will whisper poignantly of the blood shed and loss that preserved that which the Mall represents, the establishment and endurance of American democracy."

S. Con. Res. 145 was introduced on October 6 by the Chairman of the Senate Committee on Armed Services, Senator WARNER. I introduced the same measure on the same day in the House, along with my colleagues, the gentleman from Illinois (Mr. HYDE), the gentlewoman from Ohio (Ms. KAPTUR), the gentleman from Texas (Mr. HALL), and others.

It simply reaffirms congressional support for expeditious construction of the World War II memorial at the Rainbow Pool on the National Mall of the Nation's Capitol. I strongly urge my colleagues to support this resolution.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, the gentleman from Arizona has given an eloquent and articulate statement of the need for this memorial tribute, and I thank him for

Madam Speaker, I yield 4 minutes to the gentleman from Mississippi (Mr. Shows).

Mr. SHOWS. Madam Speaker, I thank the gentleman from New Jersey (Mr. HOLT) for yielding me the time.

Madam Speaker, today we are considering legislation to expedite the construction of the National World War II Memorial at the Rainbow Pool on the National Mall in the Nation's Capitol. More than 16 million American men and women served in uniform in the Armed Forces in World War II. More than 400,000 of them gave their lives, and more than 670,000 were wounded.

These Americans, like all of our veterans, knew the meaning of sacrifice, honor, duty, courage under fire and, yes, patriotism. They fought because

they were asked to fight. They fought to keep America free and to extend freedom and democracy and liberty outside our Nation's borders so that the future of Americans would not be threatened. They fought because they had the will to stand up to the forces that threaten and destroy freedom and democracy. They fought and they made that ultimate sacrifice.

We have seen the photo of the six American Marines who raised the flags over Iwo Jima. I do not think there is a person alive today who knows about World War II who can look at that photo and not have tears in their eyes. The battle of Iwo Jima was considered vital to the war effort. Following intense air campaign, this ground battle began. It was the largest Marine force ever sent into battle. Casualties were high. It was a very bloody battle, but our Marines did not give up the American spirit.

The bravery shown by the men who fought that battle and who raised that flag at the end is an example of courage under fire. Just as the photo of the brave men at Iwo Jima is in every history book and in the minds of every American during Veterans and Memorial Day, the National World War II Memorial will serve as the same tribute and reminder of the sacrifices made by the members of the greatest generation.

My father, Clifford Shows, was a prisoner of war during World War II. He was captured during the Battle of the Bulge. I grew up hearing stories of those who survived and those who did not. My father is 75 years old and was 69 years old when this was passed in Congress in 1994 and first approved for this location on the National Mall, so that is when we must begin, when these men and women are still alive.

Madam Speaker, I want people like my dad to be able to enjoy the National World War II Memorial and tell their grandchildren and great-grandchildren about it.

Finally, I want to applaud the efforts of another World War II veteran, Senator Bob Dole. Senator Dole is one of the leaders in the effort to raise funding and in bringing the importance of the construction of the National World War II Memorial to legislators and the public alike. He is to be commended for his efforts.

Madam Speaker, I urge my colleagues to join me in supporting the resolution before us today.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I would just add that the gentleman from Mississippi has spoken eloquently on behalf of those who served, those who supported them and those of us who have followed them.

Mr. GILMAN. Madam Speaker, I rise today in strong support of S. Con. Res. 145. I urge my colleagues to join in supporting this timely legislation.

S. Con. Res. 145 expresses the sense of the Congress on the propriety and need for the expeditious construction on the national World War II memorial at the Rainbow Pool on the National Mall here in Washington.

As a World War II veteran, I have been a strong supporter of the memorial since the inception of this project several years ago. Now that final approval for the design and site has been given, we hope to see the memorial constructed in as expeditious a manner as possible.

Along with many of my fellow World War II veterans, we are looking forward to the groundbreaking ceremony of this memorial on November 11th, and I speak for many of my fellow World War II veterans who wish to be able to visit a completed World War II memorial in Washington in their lifetime.

I accordingly urge my colleagues to support this resolution.

Ms. NORTON. Madam Speaker, I regret that when Senate Concurrent Resolution 145. Expressing a Sense of the Congress on the Propriety and Need for Construction of the National World War II Memorial on the National Mall, came to the floor today I was giving the keynote speech to BusinessLINC, a national group that develops mentoring relationships between large and small businesses. Most members are out of town because there are no votes today, and there was apparently no one present who could give the true story of why there has been opposition to the World War II Memorial here in the District an throughout the country. Instead there were some comments that apparently disparaged the opposition and insulted their motives by indicating that they oppose a memorial to World War II veterans or feel less passionately about it than those who support the memorial. There are real differences, but let the record be clear that there are no differences on the belated honor that should have been made to World War II veterans long ago. The "greatest generation" of veterans, alone among our veterans, have not been honored, perhaps reflecting the extraordinary selflessness with which they have approached the entirety of their generous lives, from saving our country during the Great Depression to saving the free world itself during World War II, and thereafter the rebuilding of our economy in the post-war

The controversy surrounding the memorial has nothing to do with the veterans. The controversy has nothing to do with a memorial to the veterans on the Mall. All agree that the memorial to these veterans belongs on the Mall. The controversy arose because of the memorial's placement, obstructing one of the great American vistas. Its placement is largely the work of one man, J. Carter Brown, Chair of the Commission on Fine Arts. The veterans did not choose the particular place on the Mall and had nothing to do with the selection of that site. Another site has been chosen. Brown, however, decided to do what had alwavs been understood to be a violation of virtually sacred national ground, the space between the Washington Monument and the Lincoln Memorial. This space between the memorials to our greatest presidents is the last expansive space left on the Mall and has been left that way for obvious reasons. This breathtaking space calls to mind the sweep of our

extraordinary history and the unique role played by Washington and Lincoln in particular. The view that this pristine space should not be interrupted is not held by a few disgruntled Washingtonians or people who look to bring lawsuits when they do not get their way. Some of the opponents are World War II veterans. Some are historic preservationists and others with a deep appreciation of the McMillan Plan for the Mall and the present Mall legacy of green space created by Charles McKim and Frederick Olmstead, Jr. Many others have voiced opposition, and they are as diverse as editorials from the Wall Street Journal to the Los Angeles Times expressing opposition indicate.

Until the end, I had hoped and worked for a compromise, even one that left a memorial at the Rainbow Pool site between the Lincoln Memorial and the Washington Monument—a compromise would have avoided many issues. The memorial, as proposed, has not only been criticized for its size and artistry. It also threatens to do irreparable damage to traffic and congestion. It will take huge areas out of other sections of the Mall to make way for buses and crowds that will destroy the ambiance of the Mall as it has been known for decades.

World War II veterans deserve a national festival to celebrate a memorial in their honor, not lawsuits that have become inevitable. Perhaps citizens would have been willing to join the celebration and forego their lawsuits had a compromise been reached. However, the memorial was put on a track that avoided the usual safeguards, procedures, and public comment, and the necessary disposition toward compromise never emerged.

Although no resolution is necessary for the memorial to proceed, if Congress wishes to go on record supporting the memorial, it should do so without impugning the motives of those who believed that two noble purposes could be served at once: a long overdue memorial on the Mall to the men and women who served our country during the greatest wartime crisis of the 20th century and the preservation of the historic and irreplaceable space between the memorials to our greatest presidents. The failure to serve worthy purposes is a failure for which our generation will have to pay. It is certainly no failure of the veterans of the "greatest generation."

Mr. HOLT. Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and concur in the Senate concurrent resolution, S. Con. Res. 145.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

ALASKA NATIVE AND AMERICAN INDIAN DIRECT REIMBURSE-MENT ACT OF 1999

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the Senate bill (S. 406) to amend the Indian Health Care Improvement Act to make permanent the demonstration program that allows for direct billing of medicare, medicaid, and other third party payers, and to expand the eligibility under such program to other tribes and tribal organizations.

The Clerk read as follows:

S. 406

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Alaska Native and American Indian Direct Reimbursement Act of 1999".

#### SEC. 2. FINDINGS.

Congress finds the following:

- (1) In 1988, Congress enacted section 405 of the Indian Health Care Improvement Act (25 U.S.C. 1645) that established a demonstration program to authorize 4 tribally-operated Indian Health Service hospitals or clinics to test methods for direct billing and receipt of payment for health services provided to patients eligible for reimbursement under the medicare or medicaid programs under titles XVIII and XIX of the Social Security Act (42 U.S.C. 1395 et seq.; 1396 et seq.), and other third-party payors.
- (2) The 4 participants selected by the Indian Health Service for the demonstration program began the direct billing and collection program in fiscal year 1989 and unanimously expressed success and satisfaction with the program. Benefits of the program include dramatically increased collections for services provided under the medicare and medicaid programs, a significant reduction in the turn-around time between billing and receipt of payments for services provided to eligible patients, and increased efficiency of participants being able to track their own billings and collections.
- (3) The success of the demonstration program confirms that the direct involvement of tribes and tribal organizations in the direct billing of, and collection of payments from, the medicare and medicaid programs, and other third payor reimbursements, is more beneficial to Indian tribes than the current system of Indian Health Servicemanaged collections.
- (4) Allowing tribes and tribal organizations to directly manage their medicare and medicaid billings and collections, rather than channeling all activities through the Indian Health Service, will enable the Indian Health Service to reduce its administrative costs, is consistent with the provisions of the Indian Self-Determination Act, and furthers the commitment of the Secretary to enable tribes and tribal organizations to manage and operate their health care programs.
- (5) The demonstration program was originally to expire on September 30, 1996, but was extended by Congress, so that the current participants would not experience an interruption in the program while Congress awaited a recommendation from the Secretary of Health and Human Services on whether to make the program permanent.
- (6) It would be beneficial to the Indian Health Service and to Indian tribes, tribal organizations, and Alaska Native organiza-

tions to provide permanent status to the demonstration program and to extend participation in the program to other Indian tribes, tribal organizations, and Alaska Native health organizations who operate a facility of the Indian Health Service.

# SEC. 3. DIRECT BILLING OF MEDICARE, MEDICAID, AND OTHER THIRD PARTY PAYORS.

- (a) PERMANENT AUTHORIZATION.—Section 405 of the Indian Health Care Improvement Act (25 U.S.C. 1645) is amended to read as follows:
- ''(a) ESTABLISHMENT OF DIRECT BILLING PROGRAM.—
- "(1) IN GENERAL.—The Secretary shall establish a program under which Indian tribes, tribal organizations, and Alaska Native health organizations that contract or compact for the operation of a hospital or clinic of the Service under the Indian Self-Determination and Education Assistance Act may elect to directly bill for, and receive payment for, health care services provided by such hospital or clinic for which payment is made under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.) (in this section referred to as the 'medicare program'), under a State plan for medical assistance approved under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) (in this section referred to as the 'medicaid program'), or from anv other third party payor.
- "(2) APPLICATION OF 100 PERCENT FMAP.— The third sentence of section 1905(b) of the Social Security Act (42 U.S.C. 1396d(b)) shall apply for purposes of reimbursement under the medicaid program for health care services directly billed under the program established under this section.
  - "(b) DIRECT REIMBURSEMENT.—
- "(1) USE OF FUNDS.—Each hospital or clinic participating in the program described in subsection (a) of this section shall be reimbursed directly under the medicare and medicaid programs for services furnished, without regard to the provisions of section 1880(c)of the Social Security Act (42 U.S.C. 1395qq(c)) and sections 402(a) and 813(b)(2)(A), but all funds so reimbursed shall first be used by the hospital or clinic for the purpose of making any improvements in the hospital or clinic that may be necessary to achieve or maintain compliance with the conditions and requirements applicable generally to facilities of such type under the medicare or medicaid programs. Any funds so reimbursed which are in excess of the amount necessary to achieve or maintain such conditions shall be used-
- "(A) solely for improving the health resources deficiency level of the Indian tribe; and
- "(B) in accordance with the regulations of the Service applicable to funds provided by the Service under any contract entered into under the Indian Self-Determination Act (25 U.S.C. 450f et seq.).
- "(2) AUDITS.—The amounts paid to the hospitals and clinics participating in the program established under this section shall be subject to all auditing requirements applicable to programs administered directly by the Service and to facilities participating in the medicare and medicaid programs.
- "(3) SECRETARIAL OVERSIGHT.—The Secretary shall monitor the performance of hospitals and clinics participating in the program established under this section, and shall require such hospitals and clinics to submit reports on the program to the Secretary on an annual basis.
- "(4) NO PAYMENTS FROM SPECIAL FUNDS.— Notwithstanding section 1880(c) of the Social

Security Act (42 U.S.C. 1395qq(c)) or section 402(a), no payment may be made out of the special funds described in such sections for the benefit of any hospital or clinic during the period that the hospital or clinic participates in the program established under this section.

"(c) REQUIREMENTS FOR PARTICIPATION.—

"(1) APPLICATION.—Except as provided in paragraph (2)(B), in order to be eligible for participation in the program established under this section, an Indian tribe, tribal organization, or Alaska Native health organization shall submit an application to the Secretary that establishes to the satisfaction of the Secretary that—

"(A) the Indian tribe, tribal organization, or Alaska Native health organization contracts or compacts for the operation of a facility of the Service;

"(B) the facility is eligible to participate in the medicare or medicaid programs under section 1880 or 1911 of the Social Security Act (42 U.S.C. 1395qq; 1396j);

"(C) the facility meets the requirements that apply to programs operated directly by the Service; and

"(D) the facility-

"(1) is accredited by an accrediting body as eligible for reimbursement under the medicare or medicaid programs; or

"(ii) has submitted a plan, which has been approved by the Secretary, for achieving such accreditation.

"(2) APPROVAL.—

"(A) IN GENERAL.—The Secretary shall review and approve a qualified application not later than 90 days after the date the application is submitted to the Secretary unless the Secretary determines that any of the criteria set forth in paragraph (1) are not met.

"(B) Grandfather of demonstration program authorized under this section as in effect on the day before the date of enactment of the Alaska Native and American Indian Direct Reimbursement Act of 1999 shall be deemed approved for participation in the program established under this section and shall not be required to submit an application in order to participate in the program.

"(C) DURATION.—An approval by the Secretary of a qualified application under subparagraph (A), or a deemed approval of a demonstration program under subparagraph (B), shall continue in effect as long as the approved applicant or the deemed approved demonstration program meets the requirements of this section.

''(d) Examination and Implementation of Changes.—

"(1) IN GENERAL.—The Secretary, acting through the Service, and with the assistance of the Administrator of the Health Care Financing Administration, shall examine on an ongoing basis and implement.—

"(A) any administrative changes that may be necessary to facilitate direct billing and reimbursement under the program established under this section, including any agreements with States that may be necessary to provide for direct billing under the medicaid program; and

"(B) any changes that may be necessary to enable participants in the program established under this section to provide to the Service medical records information on patients served under the program that is consistent with the medical records information system of the Service.

"(2) ACCOUNTING INFORMATION.—The accounting information that a participant in the program established under this section

shall be required to report shall be the same as the information required to be reported by participants in the demonstration program authorized under this section as in effect on the day before the date of enactment of the Alaska Native and American Indian Direct Reimbursement Act of 1999. The Secretary may from time to time, after consultation with the program participants, change the accounting information submission requirements.

"(e) WITHDRAWAL FROM PROGRAM.—A par-

"(e) WITHDRAWAL FROM PROGRAM.—A participant in the program established under this section may withdraw from participation in the same manner and under the same conditions that a tribe or tribal organization may retrocede a contracted program to the Secretary under authority of the Indian Self-Determination Act (25 U.S.C. 450 et seq.). All cost accounting and billing authority under the program established under this section shall be returned to the Secretary upon the Secretary's acceptance of the withdrawal of participation in this program."

(b) CONFORMING AMENDMENTS.—

(1) Section 1880 of the Social Security Act (42 U.S.C. 1395qq) is amended by adding at the end the following:

"(e) For provisions relating to the authority of certain Indian tribes, tribal organizations, and Alaska Native health organizations to elect to directly bill for, and receive payment for, health care services provided by a hospital or clinic of such tribes or organizations and for which payment may be made under this title, see section 405 of the Indian Health Care Improvement Act (25 IJ S.C. 1645)."

(2) Section 1911 of the Social Security Act (42 U.S.C. 1396j) is amended by adding at the end the following:

"(d) For provisions relating to the authority of certain Indian tribes, tribal organizations, and Alaska Native health organizations to elect to directly bill for, and receive payment for, health care services provided by a hospital or clinic of such tribes or organizations and for which payment may be made under this title, see section 405 of the Indian Health Care Improvement Act (25 U.S.C. 1645)."

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 2000.

### SEC. 4. TECHNICAL AMENDMENT.

(a) IN GENERAL.—Effective November 9, 1998, section 405 of the Indian Health Care Improvement Act (25 U.S.C. 1645(e)) is reenacted as in effect on that date.

(b) REPORTS.—Effective November 10, 1998, section 405 of the Indian Health Care Improvement Act is amended by striking subsection (e).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, S. 406 amends Section 405 of the Indian Health Care Improvement Act to make permanent the demonstration program at four tribally operated Indian Health Service hospitals that allows for direct billing of Medicare, Medicaid and other third-party payers. It will also extend the direct billing option to other tribes and tribal organizations.

This demonstration program dramatically increases collections for Medicare and Medicaid services, and significantly reduces the turnaround time between billings and receipt of payment for Medicaid and Medicare services. Additionally, it increased the administrative efficiency of the participating health care providers. All the participants, two of which are in Alaska, as well as the Department of Health and Human Services and the Indian Health Service, report that the program is a great success.

S. 406 will make permanent the demonstration program and will end much of the bureaucracy for Indian Health Care Service facilities involved with Medicare and Medicaid reimbursement. The bottom line is that it will mean more Medicaid and Medicare dollars to Indian facilities to use for improving health care for their members.

Madam Speaker, I urge an aye vote on this important bill for American Indians and Alaskan Natives.

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, in 1988, a dozen years ago, Congress authorized the Indian Health Service to select up to four tribally controlled IHS hospitals to participate in a demonstration project whereby the hospitals could conduct direct billing and receipt of payment for health services to Medicare and Medicaid eligible patients.

Under the current practice, Medicare and Medicaid billings and collections are first sent through the IHS and then redirected to health care providers. Since 1991, the Bristol Bay Health Corporation, the Southeast Alaska Regional Health Corporation, Mississippi Choctaw Health Center, and the Choctaw Tribe of Oklahoma have taken part in the demonstration project.

The participants established in-house administrative operations to perform Medicare and Medicaid billing and collection and have been extremely satisfied with the results. Reports have shown dramatically increased collections which have been turned into additional health services. The demonstration program has resulted in a much shorter turnaround time between billing and receipt of payment, as well as improved accreditation, ratings and an overall higher level of health care quality for patients.

Madam Speaker, S. 406 would make permanent the demonstration program and would authorize additional tribes and tribal organizations to participate in the direct billing. This legislation is supported by the administration. It is good policy, and I urge my colleagues to support its passage.

Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the Senate bill, S. 406.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

### $\Box$ 1330

AUTHORIZING REPAYMENT OF MEDICAL BILLS FOR U.S. PARK POLICE

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 4404) to permit the payment of medical expenses incurred by the United States Park Police in the performance of duty to be made directly by the National Park Service, to allow for waiver and indemnification in mutual law enforcement agreements between the National Park Service and a State or political subdivision when required by State law, and for other purposes, as amended.

The Clerk read as follows:

#### H.R. 4404

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. MEDICAL PAYMENTS.

- (a) IN GENERAL.—Subsection (e) of the Policemen and Firemen's Retirement and Disability Act (39 Stat. 718, as amended by 71 Stat. 394) is amended by adding at the end the following new sentence: "Notwithstanding the previous sentence, in the case of any member of the United States Park Police, payment shall be made by the National Park Service upon a certificate of the Chief, United States Park Police, setting forth the necessity for such services or treatment and the nature of the injury or disease which rendered the same necessary.".
- (b) NATIONAL PARK SERVICE REIMBURSE-MENT.—Section 6 of the Policemen and Firemen's Retirement and Disability Act Amendments of 1957 (71 Stat. 399) is amended by inserting after the first sentence the following new sentence: "Such sums are authorized to be appropriated to reimburse the National Park Service, on a monthly basis, for medical benefit payments made from funds appropriated to the National Park Service in the case of any member of the United States Park Police."

### SEC. 2. INDEMNIFICATION.

- (a) IN GENERAL.—Section 10(c) of the Act of August 18, 1970 (Public Law 91–383; 16 U.S.C. 1a–6(c)), is amended—
- (1) by striking "and" at the end of paragraph (2);
- (2) by redesignating paragraphs (3) and (4) as paragraphs (4) and (5), respectively; and
- (3) by inserting after paragraph (2) the following:
- "(3) mutually waive, in any agreement pursuant to paragraphs (1) and (2) of this subsection or pursuant to subsection (b)(1) with any State or political subdivision thereof where State law requires such waiver and indemnification, any and all civil claims against all the other parties thereto and, subject to available appropriations, indemnify and save harmless the other parties to such agreement from all claims by third parties for property damage or personal injury,

which may arise out of the parties' activities outside their respective jurisdictions under such agreement: and''.

- (b) Technical Amendment.—Paragraph (5) of section 10(c) the Act of August 18, 1970 (Public Law 91–383; 16 U.S.C. 1a–6(c)) (as redesignated by subsection (a)(2)), is further amended—
- (1) by striking "(5) the" and inserting "The";
- (2) by moving the text flush and 2 ems to the left.

The SPEAKER pro tempore (Mrs. MORELLA). Pursuant to the rule, the gentleman from California (Mr. CAL-VERT) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 4404 is a bill that would allow the payment of medical expenses incurred by the United States Park Police to be paid directly by the National Park Service. This bill would also allow the Park Service to enter into mutual aid agreements with adjacent law enforcement agencies in order that Park Police are indemnified from third party civil claims.

Currently, payments are made through the District of Columbia, a process which is very slow. As a result, reimbursement payments to the Park Police have been a hardship to the officers, staff, and their families. This bill would direct the NPS to make direct payments to the Park Police.

The bill would also allow the Park Service to enter into a mutual aid agreement with adjacent law enforcement agencies in order that the Park Police are indemnified from third party claims.

Madam Speaker, this legislation is ready to move forward. I urge my colleagues to support H.R. 4404, as amended.

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 4404, which was introduced at the request of the administration, addresses the payment of medical expenses for the United States Park Police and the indemnification needed for mutual law enforcement agreements.

Evidently, there have been a number of instances where there have been problems with timely medical payments being made to the Park Police officers injured in the performance of their duties. This has resulted in a hardship to some officers, staff, and their families.

Further, the lack of indemnification is a potential barrier to cooperative law enforcement agreements between the Park Police and other police agencies. Such indemnification is needed to hold the assisting agency harmless from claims by third parties dealing

with property damage or personal injury.

H.R. 4404 provides the U.S. Park Police with the authority to address these two issues. The Committee on Resources did amend the bill to reflect technical changes to the legislation requested by the National Park Service.

We on the minority side support passage of the bill, as amended.

Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 4404, as amended.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

### IVANPAH VALLEY AIRPORT PUBLIC LANDS TRANSFER ACT

Mr. GIBBONS. Madam Speaker, I move to suspend the rules and concur in the Senate amendments to the bill (H.R. 1695) to provide for the conveyance of certain Federal public lands in the Ivanpah Valley, Nevada, to Clark County, Nevada, for the development of an airport facility, and for other purposes.

The Clerk read as follows:

Senate amendments:

Page 2, lines 24 and 25, strike out "assessment" and insert "assessment, using the airspace management plan required by section 4(a)".

Page 3, strike out lines 15 through 22 and insert:

- (2) DEPOSIT IN SPECIAL ACCOUNT.—(A) The Secretary shall deposit the payments received under paragraph (1) into the special account described in section 4(e)(1)(C) of the Southern Nevada Public Land Management Act of 1998 (112 Stat. 2345). Such funds may be expended only for the acquisition of private inholdings in the Mojave National Preserve and for the protection and management of the petroglyph resources in Clark County, Nevada. The second sentence of section 4(f) of such Act (112 Stat. 2346) shall not apply to interest earned on amounts deposited under this paragraph.
- (B) The Secretary may not expend funds pursuant to this section until—
- (i) the provisions of section 5 of this Act have been completed; and
- (ii) a final Record of Decision pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) has been issued which permits development of an airport at the Ivanpah site.

Page 3, strike out all after line 22 over to and including line 2 on page 4 and insert:

(d) REVERSION AND REENTRY.—If, following completion of compliance with section 5 of this Act and in accordance with the findings made by the actions taken in compliance with such section, the Federal Aviation Administration and the County determine that an airport should not be constructed on the conveyed lands—

Page 4, line 23, strike out "Secretary," and insert "Secretary, prior to the conveyance of the land referred to in section 2(a),".
Page 5, line 18, after "agencies." insert Any

actions conducted in accordance with this section shall specifically address any impacts on the purposes for which the Mojave National Preserve was created.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Nevada (Mr. GIBBONS) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from Nevada (Mr. GIBBONS).

GENERAL LEAVE

Mr. GIBBONS. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the legislation under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nevada?

There was no objection.

Mr. GIBBONS. Madam Speaker, I yield myself such time as I may con-

Madam Speaker, first I would like to thank the chairman of the Committee on Resources, the gentleman from Alaska (Mr. Young), and the ranking member, the gentleman from California (Mr. MILLER), as well as the chairman of the subcommittee, the gentleman from Utah (Mr. HANSEN), for their help and guidance on this very important piece of legislation for the State of Nevada.

I would also like to thank the House Members and our colleagues for their previous vote of 420 to 1 in support of H.R. 1695 for Nevada and its future.

The Las Vegas metropolitan area is the fastest growing metropolitan area in the country, growing by over 60,000 people in 1998. McCarran Airport, which currently serves the Las Vegas area, has seen its passenger traffic grow by over 64 percent in the last 10 years.

Because the Bureau of Land Management owns over 90 percent of the land in Clark County, any new airport to serve southern Nevada must be located on land purchased from the Federal government. Realizing that McCarran Airport would reach its full capacity in 2008, the Clark County Aviation Department completed an extensive review of options available for meeting the growing needs of air traffic in southern Nevada.

Because of the restricted airspace of Las Vegas due to military uses, and the existing full precision instrument landing requirements of McCarran Airport, the committee concluded that the Ivanpah Airport site is the only viable option that can accommodate the growing air traffic needs of the region.

H.R. 1695, the Ivanpah Valley Public Land Transfer Act, is of vital importance to the future health of the tourism economy of southern Nevada. Therefore, it authorizes the Secretary of the Interior to convey lands in the Ivanpah Valley to Clark County, Nevada for a second airport.

The legislation also requires that the land be returned to the Department of the Interior should the airport development prove to be infeasible after abiding by all Federal, State, and local environmental rules and regulations.

Passage of H.R. 1695, with the inclusion of Senate amendments, will allow Clark County to proceed with the NEPA analysis and the proposed development of a new airport.

There are those who feared that commercial jets will fly over the Mojave Preserve. To address this very concern. the Federal Aviation Administration will undertake an airspace study to develop an airspace management plan that prohibits flights over the Mohave Preserve in California unless there is a safety reason for doing so.

Clark County will also be required to pay fair market value for the land, and the airport will be publicly owned and operated. The revenues collected by the government for sale will be available for use by the BLM for acquiring inholdings in the Mojave Preserve and to protect archeological sites in Clark County.

H.R. 1695 is supported by the entire bipartisan Nevada congressional delegation, and has been endorsed by business and labor interests from Nevada. The House supports this bill with inclusion of the Senate amendment, and we would be grateful for a concurring vote by this body.

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 1695 directs the conveyance of a substantial tract of public lands located near the Mojave National Preserve for development of a large commercial airport and related facilities for the Las Vegas area.

As the gentleman from Nevada (Mr. GIBBONS) has presented, this is a rapidly growing area, and adjustments do need to be made for air traffic.

The bill originally passed the House on March 9 of this year. The Senate passed the bill on October 5, and has returned the measure to the House with amendments.

Prior to House consideration in March, H.R. 1695 was a very controversial measure. The bill was opposed by the administration, the environmental community, and many Members because the legislation failed to address adequately the potential environmental impacts, land use conflicts, and administrative problems associated with this large-scale land conveyance.

Fortunately, changes were made by the House to address most of these concerns. A significant improvement was made to the bill by providing joint lead agency status for the Department of

the Interior on the environmental impact statement necessary for the planning and construction of the airport facility on the conveyed lands.

The potential environmental impacts of such an airport involve the Mojave National Preserve and other resource responsibilities of the Department of the Interior, so it is only proper that the Department be closely involved.

The Senate amendments are good in that they clarify the requirements of the airspace assessment and the environmental protection analysis, as well as the timing and the use of the proceeds derived from the sale of public

lands for airport purposes.

Of particular note, the Senate amendments specifically require the NEPA analysis to address any impacts on the purposes for which the Mojave National Preserve was established, and allow sale proceeds to be used to acquire inholdings in the Mojave National Preserve.

I also want to take this opportunity especially to commend my colleague, the gentlewoman from Nevada (Ms. BERKLEY), who represents Las Vegas, on this and other issues. The gentlewoman from Nevada (Ms. BERKLEY) has shown herself to be a strong advocate for her community and for the environment. She has been a persistent advocate for this legislation.

Madam Speaker, even with the changes made by the Senate the bill is not perfect, but it certainly is an improvement from where the legislation started, and the minority will support this bill.

Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. GIBBONS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, let me say that I agree with my colleague, the gentleman from New Jersey (Mr. HOLT), on the improvements to this bill. I suggest that this much needed piece of legislation will greatly improve the State of Nevada's economy, and help all of us with that.

Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Nevada (Mr. GIB-BONS) that the House suspend the rules and concur in the Senate amendments to the bill. H.R. 1695.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate amendments were concurred in.

A motion to reconsider was laid on the table.

### LINCOLN HIGHWAY STUDY ACT OF

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 2570) to require the Secretary of the Interior to undertake a study regarding methods to commemorate the national significance of the United States roadways that comprise the Lincoln Highway, and for other purposes.

The Clerk read as follows:

### H.R. 2570

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Lincoln Highway Study Act of 1999".

# SEC. 2. NATIONAL PARK SERVICE STUDY AND REPORT REGARDING THE LINCOLN HIGHWAY.

- (a) FINDINGS.—The Congress finds the following:
- (1) The Lincoln Highway, established in 1913, comprises more than 3,000 miles of roadways from New York, New York, to San Francisco, California, and encompasses United States Routes 1, 20, 30 (including 30N and 30S), 40, 50, and 530 and Interstate Route 80
- (2) The Lincoln Highway played a historically significant role as the first United States transcontinental highway, providing motorists a paved route and allowing vast portions of the country to be accessible by automobile.
- (3) The Lincoln Highway transverses the States of New York, New Jersey, Pennsylvania, West Virginia, Ohio, Indiana, Illinois, Iowa, Nebraska, Wyoming, Utah, Nevada, and California.
- (4) Although some parts of the Lincoln Highway have disappeared or have been realigned, the many historic, cultural, and engineering features and characteristics of the route still remain.
- (5) Given the interest by organized groups and State governments in the preservation of features associated with the Lincoln Highway, the route's history, and its role in American popular culture, a coordinated evaluation of preservation options should be undertaken.
- (b) STUDY REQUIRED.—The Secretary of the Interior, acting through the Director of the National Park Service, shall coordinate a comprehensive study of routes comprising the Lincoln Highway. The study shall include an evaluation of the significance of the Lincoln Highway in American history, options for preservation and use of remaining segments of the Lincoln Highway, and options for the preservation and interpretation of significant features associated with the Lincoln Highway. The study shall also consider private sector preservation alternatives.
- (c) COOPERATIVE EFFORT.—The study under subsection (b) shall provide for the participation of representatives from each State traversed by the Lincoln Highway, State historic preservation offices, representatives of associations interested in the preservation of the Lincoln Highway and its features, and persons knowledgeable in American history, historic preservation, and popular culture.
- (d) REPORT.—Not later than 1 year after the date on which funds are first made available for the study under subsection (b), the Secretary of the Interior shall submit a report to Congress containing the results of the study.
- (e) LIMITATION.—Nothing in this section shall be construed to authorize the Secretary of the Interior or the National Park Service to assume responsibility for the maintenance

of any of the routes comprising the Lincoln Highway.

(f) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated \$500,000 to carry out this section.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield such time as he may consume to the gentleman from Ohio (Mr. REGULA).

Mr. REGULA. Madam Speaker, I thank the gentleman for yielding time to me.

Madam Speaker, I rise in support of H.R. 2570, the Lincoln Highway Study Act. This legislation will provide for an evaluation of the significance of the Lincoln Highway in American history, options for its preservation, and interpretation of its significant features.

Several years ago, Congress passed similar legislation for Route 66, followed by passage in 1999 of the Route 66 Corridor Act. While Route 66 certainly has historic and cultural significance to the development of the United States, I would suggest that the Lincoln Highway merits equal consideration.

The Lincoln Highway was established in 1914 and comprises more than 3,000 miles of roadway, from New York City to San Francisco. Beginning in Times Square, it transverses the States of New York, New Jersey, Pennsylvania, West Virginia, Ohio, Indiana, Illinois, Iowa, Nebraska, Wyoming, Utah, and Nevada before ending in California.

Many people are surprised to learn that it was America's first coast-to-coast roadway, opening the country to bicoastal motoring. As the first transcontinental highway, it played an historically significant role in providing motorists with the first paved route and allowing vast portions of the country to be accessible by automobile.

Although some parts of the Lincoln Highway have disappeared or have been realigned, the many historic cultural and engineering features and characteristics of the route still remain. These features and cultural attractions along its route have become popular tourist attractions in many areas, and contribute to the economic development of the communities along the highway.

The American Automobile Association now provides the route of the Lincoln Highway on their maps and brochures of the States it crosses. In a letter to Members of Congress, the AAA stated "With renewed interest on the part of tourists to explore and experience our rich cultural heritage, we are missing an opportunity by not fully recognizing the role this highway played in our history."

The National Lincoln Highway Association, located in Illinois, works with

the State chapters to sponsor events to commemorate and preserve the highway. Some State governments have already undertaken studies within their States.

Given the interest by organized groups and State governments in the preservation of features associated with the Lincoln Highway, the route's history, and its role in American popular culture, a coordinated evaluation of its historic contributions and preservation options should be undertaken.

### □ 1345

Madam Speaker, I urge my colleagues to support this bill, the Lincoln Highway Study Act.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I would like to begin with a testimonial to the work of the gentleman from Ohio (Mr. Regula). He not only has introduced this bill, but, as chair of the Subcommittee on Interior of the Committee on Appropriations, has made tremendous contributions this year to environmental protection and to our natural resources. Many of us would like to commend him for that.

Madam Speaker, the Lincoln Highway was begun in 1913 and eventually became the first transcontinental highway in the United States. The highway covered 13 States in its more than 3,000-mile route from New York to San Francisco, and it played an important role in allowing people and goods access to the western United States by automobile.

Eventually, many segments of the highway were abandoned or realigned, but major segments of the highway as well as intense public interest in its history remain.

H.R. 2570 would authorize a study of the routes which made up the Lincoln Highway to evaluate various options for interpretation and preservation.

The bill specifies that representatives from each State traversed by the highway as well as private nonprofit groups with an interest in the highway shall participate in the study. The legislation requires the study be presented to Congress 1 year after funds are made available to carry out this act.

As one who has traveled long stretches of this highway starting as a young boy, I offer my strong support for this study. We on the minority side join the administration in supporting H.R. 2570.

Mr. OXLEY. Madam Speaker, I am privileged to speak today in support of the Lincoln Highway Study Act, introduced by my good friend Mr. REGULA, dean of the Ohio delegation. Chairman REGULA's bill, of which I am a cosponsor, would direct the Secretary of the Interior to undertake a coast-to-coast study of the 3,384-mile Lincoln Highway. As a result of this study, the National Park Service can offer options as to how to preserve the historic nature of the road, the nation's first transcontinental highway.

First established in 1913, the Lincoln Highway connects New York City and San Francisco, running through 13 states. The official proclamation detailed the route through Ohio as following the road known as "Market Route Number Three," passing through Canton, Mansfield, Marion, Kenton, Lima, and Van Wert. In the 15 years that followed, significant revisions were made to that original list, adding and eliminating cities and villages from the planned road. Among the cities added was Bucyrus, where the first brick Lincoln Highway pillars were erected to commemorate the project. Four of these original pillars-with their plaques of red, white, and blue-are still standing today.

Throughout Ohio, the Lincoln Highway generally follows U.S. Route 30, which bisects my congressional district. Several segments of Route 30 in my district are still two-lane roads, yet regrettably carry heavy volumes of semi traffic. My constituents are unanimous in declaring these two-lane segments the most dangerous stretches of highway they have ever traveled. I am proud, therefore, to have helped secure funding in 1998's BESTEA Act to construct a modern, four-lane Route 30. The new road, which is slated for completion within the decade, will divert this heavy traffic from the original Lincoln Highway, aiding in its restoration and preservation. I salute Chairman REGULA and the Ohio Department of Transportation for their work in advancing Boute 30 modernization.

Madam Speaker, I would also like to recognize two of my constituents who are actively involved in Lincoln Highway preservation. Mr. Michael Buettner of Lima is the president of the Ohio Lincoln Highway League and author of the History and Road Guide of the Lincoln Highway in Ohio. His work in promoting the highway has made him a sought-after tour guide for Lincoln Highway historians. Also, Mr. Craig Harmon is the founder and director of the Lincoln Highway National Museum and Archives in Galion. Two years ago, Craig traveled the entire Lincoln Highway in a bucket truck, taking some 5,000 photographs along the way as a part of his project "The Lincoln Highway Comes of Age." These two gentlemen have compiled a wealth of information with which to assist in the Park Service's study: I am proud of their hard work.

I thank Mr. REGULA for his leadership on this issue, and urge my colleagues to support the preservation of this important road.

 $\mbox{Mr. HOLT.}$  Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. MORELLA). The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 2570.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

CASTLE ROCK RANCH ACQUISITION ACT OF 2000

Mr. SIMPSON. Madam Speaker, I move to suspend the rules and pass the Senate bill (S. 1705) to direct the Secretary of the Interior to enter into land exchanges to acquire from the private owner and to convey to the State of Idaho approximately 1,240 acres of land near the City of Rocks National Reserve, Idaho, and for other purposes.

The Clerk read as follows:

#### S. 1705

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Castle Rock Ranch Acquisition Act of 2000".

### SEC. 2. DEFINITIONS.

In this Act:

- (1) MONUMENT.—The term "Monument" means the Hagerman Fossil Beds National Monument, Idaho, depicted on the National Park Service map numbered 300/80,000, C.O. No. 161, and dated January 7, 1998.
- (2) RANCH.—The term "Ranch" means the land comprising approximately 1,240 acres situated outside the boundary of the Reserve, known as the "Castle Rock Ranch".
- (3) RESERVE.—The term "Reserve" means the City of Rocks National Reserve, located near Almo, Idaho, depicted on the National Park Service map numbered 003/80,018, C.O. No. 169, and dated March 25, 1999.
- (4) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

### SEC. 3. ACQUISITION OF CASTLE ROCK RANCH.

- (a) IN GENERAL.—Subject to subsection (b), the Secretary shall acquire, by donation or by purchase with donated or appropriated funds, the Ranch.
- (b) CONSENT OF LANDOWNER.—The Secretary shall acquire land under subsection (a) only with the consent of the owner of the land.

### SEC. 4. LAND EXCHANGE.

- (a) IN GENERAL.-
- (1) FEDERAL AND STATE EXCHANGE.—Subject to subsection (b), on completion of the acquisition under section 3(a), the Secretary shall convey the Ranch to the State of Idaho in exchange for approximately 492.87 acres of land near Hagerman, Idaho, located within the boundary of the Monument.
- (2) STATE AND PRIVATE LANDOWNER EXCHANGE.—On completion of the exchange under paragraph (1), the State of Idaho may exchange portions of the Ranch for private land within the boundaries of the Reserve, with the consent of the owners of the private land.
- (b) CONDITION OF EXCHANGE.—As a condition of the land exchange under subsection (a)(1), the State of Idaho shall administer all private land acquired within the Reserve through an exchange under this Act in accordance with title II of the Arizona-Idaho Conservation Act of 1988 (16 U.S.C. 460yy et seq.).
- (c) ADMINISTRATION.—State land acquired by the United States in the land exchange under subsection (a)(1) shall be administered by the Secretary as part of the Monument.
- (d) NO EXPANSION OF RESERVE.—Acquisition of the Ranch by a Federal or State agency shall not constitute any expansion of the Reserve.
- (e) No Effect on Easements.—Nothing in this Act affects any easement in existence on the date of enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Idaho (Mr. SIMPSON) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from Idaho (Mr. SIMPSON).

#### GENERAL LEAVE

Mr. SIMPSON. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on S. 1705.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Idaho?

There was no objection.

Mr. SIMPSON. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, Senate 1705 authorizes the Secretary of the Interior to acquire the Castle Rock Ranch in the State of Idaho. On completion of the acquisition, the Secretary will convey the Castle Rock Ranch to the State of Idaho in exchange for approximately 500 acres of State land located within the Hagerman Fossil Beds National Monument.

The City of Rocks National Reserve is located in south central Idaho. Most of the reserve is owned by the National Park Service with parts of it being owned by the State of Idaho, the Forest Service, the Bureau of Land Management, and private landowners. The reserve contains distinctive and majestic rock formations. These unique geological rock formations provide world-class rock climbing opportunities, in addition to other recreational opportunities.

Additionally, the site has unique historical significance. The California Trail, one of the major trails for westward expansion, passes through the reserve. The State of Idaho manages the reserve under a cooperative agreement with the National Park Service.

The Castle Rock Ranch, an approximately 1,240 acre ranch, is located near the City of Rocks. The property gets its name from historic rock formations found in the area, in particular, the Castle Rock formation that has already been designated a National Historic Site on the National Historic Registry. These extraordinary rock formations are ideal for rock climbing. In addition, the ranch contains irrigated pasture land.

Once the State acquires the ranch, they will create a new State park, opening up rock formations for rock climbing, and providing camping and hiking opportunities.

Furthermore, the State can then trade irrigated land for dry land inholdings within the national reserve. This will allow local ranchers to acquire irrigated land and allow the State to consolidate inholdings within the reserve.

The Hagerman Fossil Beds National Monument contains important fossil deposits from the Pliocene time period, 3.5 million years ago. Additionally, the fossil beds contain the largest concentration of the Hagerman Horse fossils in North America.

While the State of Idaho owns the actual fossil beds, the National Park Service runs and maintains the facility. The State wants to divest its interest in the fossil beds and acquire the Castle Rock Ranch. Additionally, the National Park Service wants to acquire the fossil beds. Transferring the fossil beds to the National Park Service will make it easier for everybody to protect this important area.

In the end, the National Park Service will consolidate the Hagerman Fossil Beds National Monument, the State of Idaho will create a new State park, and inholdings will be consolidated at the City of Rocks National Reserve, and local ranchers will have access to irrigated pasture land.

This legislation has the support of the National Park Service, the State of Idaho, the Conservation Fund, the Access Fund, local legislators and area residents.

I thank my colleagues for their support and urge their support of Senate 1705.

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, S. 1705, the Castle Rock Ranch Acquisition Act, would require the Secretary of the Interior to purchase a ranch located near the City of Rocks National Reserve in southern Idaho. The gentleman from Idaho (Mr. SIMPSON) has given fine expression to the importance and the beauty of the Castle Rock area.

Under the terms of the legislation, the Secretary would then trade this ranch to the State of Idaho for lands the State currently owns within the boundaries of the nearby Hagerman Fossil Beds National Monument. The State would then be authorized to exchange pieces of the ranch for private inholdings within the City of Rocks Reserve.

Such a series of exchanges raises several concerns with the minority members of the Committee on Resources. We have seen no appraisals of any of the properties included in these exchanges; and, as a result, we are unable to be certain that the taxpayers are getting a good deal under this bill.

Furthermore, it is unclear why it is in the taxpayers' interest to have the State of Idaho act as a middleman for the exchanges within the City of Rocks.

However, we fully support the goals of the legislation. The state-owned land within the monument, known as the Horse Quarry, contains perhaps the richest fossil deposits anywhere in the

monument and would be an important acquisition. Similarly, consolidation of public ownership within the City of Rocks Reserve is an important goal.

Given the value of these acquisitions, we are satisfied that the exchanges here are not unreasonable, and thus the minority will not oppose the bill.

Madam Speaker, I yield back the balance of my time.

Mr. SIMPSON. Madam Speaker, I yield myself such time as I may consume

Madam Speaker, if I might just respond. One of the reasons that the State of Idaho must be the middleman in this is because Public Law 100-696. title III, specifically limits the National Park Service acquisition of this State property to only by donation or exchange. Consequently, the purchase of the Castle Rock Ranch being able to exchange that for the land in the Hagerman Falls Fossil Bed is the only way that the Federal Government can then acquire that state-owned endowment land, which is the fossil beds. That is the reason for this Byzantine method of land exchanges which is necessary for this. I appreciate the support of the gentleman from New Jersey (Mr. HOLT).

Mr. HOLT. Madam Speaker, if the gentleman will yield, I thank the gentleman for that clarification.

Mr. SIMPSON. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Idaho (Mr. SIMP-SON) that the House suspend the rules and pass the Senate bill, S. 1705.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

### SANTO DOMINGO PUEBLO CLAIMS SETTLEMENT ACT OF 2000

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the Senate bill (S. 2917) to settle the land claims of the Pueblo of Santo Domingo.

The Clerk read as follows:

S. 2917

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Santo Domingo Pueblo Claims Settlement Act of 2000"

### SEC. 2. FINDINGS AND PURPOSES.

- (1) For many years the Pueblo of Santo Domingo has been asserting claims to lands within its aboriginal use area in north central New Mexico. These claims have been the subject of many lawsuits, and a number of these claims remain unresolved.
- (2) In December 1927, the Pueblo Lands Board, acting pursuant to the Pueblo Lands

Act of 1924 (43 Stat. 636) confirmed a survey of the boundaries of the Pueblo of Santo Domingo Grant. However, at the same time the Board purported to extinguish Indian title to approximately 27,000 acres of lands within those grant boundaries which lay within 3 other overlapping Spanish land grants. The United States Court of Appeals in United States v. Thompson (941 F.2d 1074 (10th Cir. 1991), cert. denied 503 U.S. 984 (1992)), held that the Board "ignored an express congressional directive" in section 14 of the Pueblo Lands Act, which "contemplated that the Pueblo would retain title to and possession of all overlap land".

(3) The Pueblo of Santo Domingo has asserted a claim to another 25,000 acres of land based on the Pueblo's purchase in 1748 of the Diego Gallegos Grant. The Pueblo possesses the original deed reflecting the purchase under Spanish law but, after the United States assumed sovereignty over New Mexico, no action was taken to confirm the Pueblo's title to these lands. Later, many of these lands were treated as public domain, and are held today by Federal agencies, the State Land Commission, other Indian tribes, and private parties. The Pueblo's lawsuit asserting this claim, Pueblo of Santo Domingo v. Rael (Civil No. 83-1888 (D.N.M.)), is still pending.

- (4) The Pueblo of Santo Domingo's claims against the United States in docket No. 355 under the Act of August 13, 1946 (60 Stat. 1049; commonly referred to as the Indian Claims Commission Act) have been pending since 1951. These claims include allegations of the Federal misappropriation and mismanagement of the Pueblo's aboriginal and Spanish grant lands.
- (5) Litigation to resolve the land and trespass claims of the Pueblo of Santo Domingo would take many years, and the outcome of such litigation is unclear. The pendency of these claims has clouded private land titles and has created difficulties in the management of public lands within the claim area.
- (6) The United States and the Pueblo of Santo Domingo have negotiated a settlement to resolve all existing land claims, including the claims described in paragraphs (2) through (4).
- (b) Purpose.—It is the purpose of this  $\operatorname{Act}$ —
- (1) to remove the cloud on titles to land in the State of New Mexico resulting from the claims of the Pueblo of Santo Domingo, and to settle all of the Pueblo's claims against the United States and third parties, and the land, boundary, and trespass claims of the Pueblo in a fair, equitable, and final manner;
- (2) to provide for the restoration of certain lands to the Pueblo of Santo Domingo and to confirm the Pueblo's boundaries:
- (3) to clarify governmental jurisdiction over the lands within the Pueblo's land claim area; and
- (4) to ratify a Settlement Agreement between the United States and the Pueblo which includes—
- (A) the Pueblo's agreement to relinquish and compromise its land and trespass claims;
- (B) the provision of \$8,000,000 to compensate the Pueblo for the claims it has pursued pursuant to the Act of August 13, 1946 (60 Stat. 1049; commonly referred to as the Indian Claims Commission Act);
- (C) the transfer of approximately 4,577 acres of public land to the Pueblo;
- (D) the sale of approximately 7,355 acres of national forest lands to the Pueblo; and
- (E) the authorization of the appropriation of \$15,000,000 over 3 consecutive years which would be deposited in a Santo Domingo

Lands Claims Settlement Fund for expenditure by the Pueblo for land acquisition and other enumerated tribal purposes.

(c) RULE OF CONSTRUCTION.—Nothing in this Act shall be construed to effectuate an extinguishment of, or to otherwise impair, the Pueblo's title to or interest in lands or water rights as described in section 5(a)(2).

#### SEC. 3. DEFINITIONS.

In this Act:

- (1) FEDERALLY ADMINISTERED LANDS.—The term "federally administered lands" means lands, waters, or interests therein, administered by Federal agencies, except for the lands, waters, or interests therein that are owned by, or for the benefit of, Indian tribes or individual Indians.
- (2) FUND.—The term "Fund" means the Pueblo of Santo Domingo Land Claims Settlement Fund established under section 5(b)(1).
- (3) PUEBLO.—The term "Pueblo" means the Pueblo of Santo Domingo.
- (4) SANTO DOMINGO PUEBLO GRANT.—The term "Santo Domingo Pueblo Grant" means all of the lands within the 1907 Hall-Joy Survey, as confirmed by the Pueblo Lands Board in 1927.
- (5) SECRETARY.—The term "Secretary" means the Secretary of the Interior unless expressly stated otherwise.
- (6) SETTLEMENT AGREEMENT.—The term "Settlement Agreement" means the Settlement Agreement dated May 26, 2000, between the Departments of the Interior, Agriculture, and Justice and the Pueblo of Santo Domingo to Resolve All of the Pueblo's Land Title and Trespass Claims.

#### SEC. 4. RATIFICATION OF SETTLEMENT AGREE-MENT.

The Settlement Agreement is hereby approved and ratified

### SEC. 5. RESOLUTION OF DISPUTES AND CLAIMS.

- (a) Relinquishment, Extinguishment, and Compromise of Santo Domingo Claims.—
  - (1) Extinguishment.—
- (A) IN GENERAL.—Subject to paragraph (2), in consideration of the benefits provided under this Act, and in accordance with the Settlement Agreement pursuant to which the Pueblo has agreed to relinquish and compromise certain claims, the Pueblo's land and trespass claims described in subparagraph (B) are hereby extinguished, effective as of the date specified in paragraph (5).
- (B) CLAIMS.—The claims described in this subparagraph are the following:
- (i) With respect to the Pueblo's claims against the United States, its agencies, officers, and instrumentalities, all claims to land, whether based on aboriginal or recognized title, and all claims for damages or other judicial relief or for administrative remedies pertaining in any way to the Pueblo's land, such as boundary, trespass, and mismanagement claims, including any claim related to—
- (I) any federally administered lands, including National Forest System lands designated in the Settlement Agreement for possible sale or exchange to the Pueblo;
- (II) any lands owned or held for the benefit of any Indian tribe other than the Pueblo; and
- (III) all claims which were, or could have been brought against the United States in docket No. 355, pending in the United States Court of Federal Claims.
- (ii) With respect to the Pueblo's claims against persons, the State of New Mexico and its subdivisions, and Indian tribes other than the Pueblo, all claims to land, whether based on aboriginal or recognized title, and all claims for damages or other judicial re-

- lief or for administrative remedies pertaining in any way to the Pueblo's land, such as boundary and trespass claims.
- (iii) All claims listed on pages 13894-13895 of volume 48 of the Federal Register, published on March 31, 1983, except for claims numbered 002 and 004.
- (2) RULE OF CONSTRUCTION.—Nothing in this Act (including paragraph (1)) shall be construed—
- (A) to in any way effectuate an extinguishment of or otherwise impair—
- (i) the Pueblo's title to lands acquired by or for the benefit of the Pueblo since December 28, 1927, or in a tract of land of approximately 150.14 acres known as the "sliver area" and described on a plat which is appendix H to the Settlement Agreement;
- (ii) the Pueblo's title to land within the Santo Domingo Pueblo Grant which the Pueblo Lands Board found not to have been extinguished: or
- (iii) the Pueblo's water rights appurtenant to the lands described in clauses (i) and (ii); and
- (B) to expand, reduce, or otherwise impair any rights which the Pueblo or its members may have under existing Federal statutes concerning religious and cultural access to and uses of the public lands.
- (3) CONFIRMATION OF DETERMINATION.—The Pueblo Lands Board's determination on page 1 of its Report of December 28, 1927, that Santo Domingo Pueblo title, derived from the Santo Domingo Pueblo Grant to the lands overlapped by the La Majada, Sitio de Juana Lopez and Mesita de Juana Lopez Grants has been extinguished is hereby confirmed as of the date of that Report.
  - (4) Transfers prior to enactment.—
- (A) IN GENERAL.—In accordance with the Settlement Agreement, any transfer of land or natural resources, prior to the date of enactment of this Act, located anywhere within the United States from, by, or on behalf of the Pueblo, or any of the Pueblo's members, shall be deemed to have been made in accordance with the Act of June 30, 1834 (4 Stat. 729; commonly referred to as the Trade and Intercourse Act), section 17 of the Act of June 7, 1924 (43 Stat. 641; commonly referred to as the Pueblo Lands Act), and any other provision of Federal law that specifically applies to transfers of land or natural resources from, by, or on behalf of an Indian tribe, and such transfers shall be deemed to be ratified effective as of the date of the transfer.
- (B) RULE OF CONSTRUCTION.—Nothing in subparagraph (A) shall be construed to affect or eliminate the personal claim of any individual Indian which is pursued under any law of general applicability that protects non-Indians as well as Indians.
- (5) EFFECTIVE DATE.—The provisions of paragraphs (1), (3), and (4) shall take effect upon the entry of a compromise final judgment, in a form and manner acceptable to the Attorney General, in the amount of \$8,000,000 in the case of Pueblo of Santo Domingo v. United States (Indian Claims Commission docket No. 355). The judgment so entered shall be paid from funds appropriated pursuant to section 1304 of title 31, United States Code.
- (b) Trust Funds; Authorization of Appropriations.—
- (1) ESTABLISHMENT.—There is hereby established in the Treasury a trust fund to be known as the "Pueblo of Santo Domingo Land Claims Settlement Fund". Funds deposited in the Fund shall be subject to the following conditions:
- (A) The Fund shall be maintained and invested by the Secretary of the Interior pur-

suant to the Act of June 24, 1938 (25 U.S.C. 162a).

- (B) Subject to the provisions of paragraph (3), monies deposited into the Fund may be expended by the Pueblo to acquire lands within the exterior boundaries of the exclusive aboriginal occupancy area of the Pueblo, as described in the Findings of Fact of the Indian Claims Commission, dated May 9, 1973, and for use for education, economic development, youth and elderly programs, or for other tribal purposes in accordance with plans and budgets developed and approved by the Tribal Council of the Pueblo and approved by the Secretary.
- (C) If the Pueblo withdraws monies from the Fund, neither the Secretary nor the Secretary of the Treasury shall retain any oversight over or liability for the accounting, disbursement, or investment of such withdrawn monies.
- (D) No portion of the monies described in subparagraph (C) may be paid to Pueblo members on a per capita basis.
- (E) The acquisition of lands with monies from the Fund shall be on a willing-seller, willing-buyer basis, and no eminent domain authority may be exercised for purposes of acquiring lands for the benefit of the Pueblo pursuant to this Act.
- (F) The provisions of Public Law 93–134, governing the distribution of Indian claims judgment funds, and the plan approval requirements of section 203 of Public Law 103–412 shall not be applicable to the Fund.
- (2) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated \$15,000,000 for deposit into the Fund, in accordance with the following schedule:
- (A) \$5,000,000 to be deposited in the fiscal year which commences on October 1, 2001.
- (B) \$5,000,000 to be deposited in the next fiscal year.
- (C) The balance of the funds to be deposited in the third consecutive fiscal year.
- (3) LIMITATION ON DISBURSAL.—Amounts authorized to be appropriated to the Fund under paragraph (2) shall not be disbursed until the following conditions are met:
- (A) The case of Pueblo of Santo Domingo v. Rael (No. CIV-83-1888) in the United States District Court for the District of New Mexico, has been dismissed with prejudice.
- (B) A compromise final judgment in the amount of \$8,000,000 in the case of Pueblo of Santo Domingo v. United States (Indian Claims Commission docket No. 355) in a form and manner acceptable to the Attorney General, has been entered in the United States Court of Federal Claims in accordance with subsection (a)(5).
- (4) DEPOSITS.—Funds awarded to the Pueblo consistent with subsection (c)(2) in docket No. 355 of the Indian Claims Commission shall be deposited into the Fund.
- (c) ACTIVITIES UPON COMPROMISE.—On the date of the entry of the final compromise judgment in the case of Pueblo of Santo Domingo v. United States (Indian Claims Commission docket No. 355) in the United States Court of Federal Claims, and the dismissal with prejudice of the case of Pueblo of Santo Domingo v. Rael (No. CIV-83-1888) in the United States District Court for the District of New Mexico, whichever occurs later—
- (1) the public lands administered by the Bureau of Land Management and described in section 6 of the Settlement Agreement, and consisting of approximately 4,577.10 acres of land, shall thereafter be held by the United States in trust for the benefit of the Pueblo, subject to valid existing rights and rights of public and private access, as provided for in the Settlement Agreement;

(2) the Secretary of Agriculture is authorized to sell and convey National Forest System lands and the Pueblo shall have the exclusive right to acquire these lands as provided for in section 7 of the Settlement Agreement, and the funds received by the Secretary of Agriculture for such sales shall be deposited in the fund established under the Act of December 4, 1967 (16 U.S.C. 484a) and shall be available to purchase non-Federal lands within or adjacent to the National Forests in the State of New Mexico;

(3) lands conveyed by the Secretary of Agriculture pursuant to this section shall no longer be considered part of the National Forest System and upon any conveyance of National Forest lands, the boundaries of the Santa Fe National Forest shall be deemed modified to exclude such lands;

(4) until the National Forest lands are conveyed to the Pueblo pursuant to this section, or until the Pueblo's right to purchase such lands expires pursuant to section 7 of the Settlement Agreement, such lands are withdrawn, subject to valid existing rights, from any new public use or entry under any Federal land law, except for permits not to exceed 1 year, and shall not be identified for any disposition by or for any agency, and no mineral production or harvest of forest products shall be permitted, except that nothing in this subsection shall preclude forest management practices on such lands, including the harvest of timber in the event of fire, disease, or insect infestation; and

(5) once the Pueblo has acquired title to the former National Forest System lands, these lands may be conveyed by the Pueblo to the Secretary of the Interior who shall accept and hold such lands in the name of the United States in trust for the benefit of the Pueblo

### SEC. 6. AFFIRMATION OF ACCURATE BOUND-ARIES OF SANTO DOMINGO PUEBLO GRANT.

(a) IN GENERAL.—The boundaries of the Santo Domingo Pueblo Grant, as determined by the 1907 Hall-Joy Survey, confirmed in the Report of the Pueblo Lands Board, dated December 28, 1927, are hereby declared to be the current boundaries of the Grant and any lands currently owned by or on behalf of the Pueblo within such boundaries, or any lands hereinafter acquired by the Pueblo within the Grant in fee simple absolute, shall be considered to be Indian country within the meaning of section 1151 of title 18, United States Code.

(b) LIMITATION.—Any lands or interests in lands within the Santo Domingo Pueblo Grant, that are not owned or acquired by the Pueblo, shall not be treated as Indian country within the meaning of section 1151 of title 18, United States Code.

(c) ACQUISITION OF FEDERAL LANDS.—Any Federal lands acquired by the Pueblo pursuant to section 5(c)(1) shall be held in trust by the Secretary for the benefit of the Pueblo. and shall be treated as Indian country within the meaning of section 1151 of title 18, United States Code.
(d) LAND SUBJECT TO PROVISIONS.—Any

- lands acquired by the Pueblo pursuant to section 5(c), or with funds subject to section 5(b), shall be subject to the provisions of section 17 of the Act of June 7, 1924 (43 Stat. 641; commonly referred to as the Pueblo Lands Act).
- (e) RULE OF CONSTRUCTION.—Nothing in this Act or in the Settlement Agreement shall be construed to-
- (1) cloud title to federally administered lands or non-Indian or other Indian lands, with regard to claims of title which are extinguished pursuant to section 5; or

(2) affect actions taken prior to the date of enactment of this Act to manage federally administered lands within the boundaries of the Santo Domingo Pueblo Grant.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of S. 2917, the Santo Domingo Pueblo Claims Settlement Act of 2000.

This important bill is a result of decades of negotiations between the Pueblo, Department of the Interior, the Department of Justice, the Department of Agriculture, and the State of New Mexico. The entire New Mexico congressional delegation strongly supports this bill, as does the administration, the Governor of New Mexico, and, most importantly, the Pueblo.

It is not every day that we can resolve a dispute that has lasted over 150 years. I urge my colleagues to support S. 2917.

Madam Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, S. 2917, the Santo Domingo Pueblo Claims Settlement Act, sponsored by Senators Domenici and Inouye, settles certain outstanding land claims by the Santo Domingo Pueblo, located between Albuquerque and Santa Fe, New Mexico. I am the cosponsor of the House companion, H.R. 5374. As such, I recognize the importance of this legislation for the Pueblo people, the citizens of New Mexico, and the Federal Government.

For years, the Pueblo of Santo Domingo has been asserting claims to lands within its aboriginal use area in north central New Mexico. The claims have been subject to numerous lawsuits, and a certain number of them remain unresolved.

For example, the Pueblo has asserted a claim to 25.000 acres of land based on the Pueblo's purchase in 1748 of the Diego Gallegos Land Grant. The Pueblo possesses the original deed reflecting the purchase under Spanish law; but, after the United States assumed sovereignty over New Mexico, titles to land, including the Pueblo's title to these lands, were never confirmed by the Federal Government. Many of these lands were later treated as public domain with title being claimed by Federal agencies, the New Mexico Land Commission, other Indian tribes, and numerous private parties. Litigation is currently pending over these issues to resolve the land and trespass claims of the Pueblo of Santo Domingo. Such action would be expected to take many

years, with the outcome of such litigation unclear.

The settlement agreement is the result of a little over 4 years of intense negotiations and compromise between all parties involved.

This measure accomplishes three major points. Number one, it removes the cloud on titles to land in the State of New Mexico resulting from the claims of the Pueblo of Santo Domingo; the Pueblo claims against the United States and third parties; the land, boundary and trespass claims of the Pueblo. It does this all in a fair, equitable and final manner.

Number two, it provides for the restoration of certain lands within the Pueblo's land claim.

Number three, it ratifies the settlement agreement between the United States and the Pueblo, to include the Pueblo agreeing to relinquish and compromise its land and trespass claims.

Madam Speaker, the Santo Domingo Pueblo Claims Settlement Act serves as an excellent example of how Federal and State governments can come together with Native American nations and individual citizens to resolve disputes in the best interest of all parties.

This bill represents the negotiated settlement, and passage would ratify the agreement to resolve all existing land claims.

I, therefore, urge my colleagues to pass this measure and ratify an agreement that I believe has taken into proper consideration the many interests involved.

Madam Speaker, I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I vield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the Senate bill. S. 2917.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

### MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Ms. Wanda Evans, one of his secretaries.

DESIGNATING SEGMENTS OF MIS-SOURI RIVER AS WILD AND SCE-NIC

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 5041) to establish the boundaries and classification of a segment of the Missouri River in Montana under the Wild and Scenic Rivers Act.

The Clerk read as follows:

#### H.R. 5041

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

# SECTION 1. ESTABLISHMENT OF BOUNDARIES OF SEGMENT OF UPPER MISSOURI WILD AND SCENIC RIVER, MONTANA.

(a) IN GENERAL.—For purposes of the Wild and Scenic River Act (16 U.S.C. 1271 et seq.)—(1) the boundaries and classification of the Missouri River, Montana, segment designated by section 3(a)(14) of that Act (16 U.S.C. 1274(a)(14)) shall be the boundaries and classification published in the Federal Register on January 22, 1980 (45 Fed. Reg. 4474-4478); and

(2) the management plan for such segment shall be as set forth in—  $\,$ 

(A) the Upper Missouri Wild and Scenic River Management Plan, dated October 1978, as updated in February 1993; and

(B) the West HiLine RMP/EIS Record of Decision covering the Upper Missouri Wild and Scenic River Corridor, dated January 1992.

(b) REVISION OF BOUNDARIES, CLASSIFICATION, AND MANAGEMENT PLAN.—This section shall not be considered to limit the authority of the Secretary of the Interior to revise the boundaries, classification, or management plan for the Missouri River, Montana, segment referred to in subsection (a) after the date of the enactment of this Act and in accordance with the Wild and Scenic Rivers Act.

(c) Effective Date.—Subsection (a) shall be considered to have become effective on April 21, 1980.

### □ 1400

The SPEAKER pro tempore (Mrs. Morella). Pursuant to the rule, the gentleman from California (Mr. Calvert) and the gentleman from New Jersey (Mr. Holt) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

H.R. 5041, introduced by our colleague, the gentleman from Montana (Mr. HILL), establishes the boundaries and classification of a segment of the Missouri River in Montana under the Wild and Scenic Rivers Act. The boundary and classification of this segment will conform to those published and recommended by the Department of the Interior in 1980. The Bureau of Land Management has been managing the river as wild and scenic since 1980.

In essence, Madam Speaker, this a technical correction to the law enacted in 1980. Apparently, this wild and scenic designation lacked the proper documentation and this bill clears up discrepancy.

I urge my colleagues to support H.R. 5041

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker I yield myself such time as I may consume.

Madam Speaker, H.R. 5041 would establish the boundaries and classification for a segment of the Missouri River in Montana that was designated

under the Wild and Scenic Rivers Act in 1976. This is legislation introduced by our colleague, the gentleman from Montana (Mr. HILL).

Madam Speaker, this legislation was introduced in late July, and while the bill was never considered by the Committee on Resources, we at least have the views of the administration on this matter. In a letter dated October 3 of this year, the Department of the Interior indicated their support for H.R. 5041.

Evidently, in the late 1970s, several procedural steps were not followed in establishing the river's boundaries and providing for its classification. By adopting the river's boundaries and classification by statute, H.R. 5041 would remove any doubt that may exist on this matter.

Madam Speaker, we have no objection to this legislation, which we view as a technical housekeeping matter. We urge its passage.

Mr. HILL of Montana. Madam Speaker, I rise today in support of H.R. 5041, a bill to establish the boundaries and classification of a segment of the Missouri River in Montana under the Wild and Scenic Rivers Act. This bill is a technical correction to the 1976 amendment to the Wild and Scenic Rivers Act for the Upper Missouri National Wild and Scenic River. This legislation would ensure that the 149-mile segment, approximately 90,000 acres in size, of the Upper Missouri National Wild and Scenic River remains protected for future generations. This bill has the Administration's support.

On October 12, 1976, Congress amended the Wild and Scenic Rivers Act to include the Upper Missouri National Wild and Scenic River. The amendment required the Department of Interior to establish boundaries and prepare a development plan within one year. This information was to be published in the Federal Register, but would not become effective until 90 days after the documents were forwarded to the President of the Senate and the Speaker of the House of Representatives. When the boundaries of the Wild and Scenic River were challenged some years later, it could not be established whether or not Congress ever received the documents that the Department of Interior prepared on this segment of the Upper Missouri River. It was also discovered that the documents were never published in the Federal Register.

On January 22, 1980, the Department of Interior promulgated regulations at 45 Fed Reg. 4474–4478 that summarized a revised management plan and identified the boundaries and classification for the 149-mile segment of the Upper Missouri National Wild and Scenic River from Fort Benton, Montana, downstream to the Fred Robinson Bridge. H.R. 5041 would adopt these boundaries and classification by statute, removing any doubt over the legitimacy of the boundaries that remains as a result of earlier events.

A similar bill to this one, H.R. 6046 passed the House of Representatives on September 29, 1992, but failed to pass the Senate in the closing days of the 101st Congress.

Mr. HOLT. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. BIGGERT). The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 5041.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

### AUTHORIZING FUNDS TO REHA-BILITATE GOING-TO-THE-SUN ROAD IN GLACIER PARK

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 4521) to direct the Secretary of the Interior to authorize and provide funding for rehabilitation of the Goingto-the-Sun Road in Glacier National Park, to authorize funds for maintenance of utilities related to the Park, and for other purposes, as amended.

The Clerk read as follows:

### H.R. 4521

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. FINDINGS.

Congress makes the following findings:

(1) The historic significance of the 52-mile Going-to-the-Sun Road is recognized by its listing on the National Register of Historic Places in 1983, designation as a National Historic Engineering Landmark by the American Society of Civil Engineers in 1985, and designation as a National Historic Landmark in 1997.

(2) A contracted engineering study and Federal Highway Administration recommendations in 1997 of the Going-to-the-Sun Road verified significant structural damage to the road that has occurred since it opened in 1932.

(3) Infrastructure at most of the developed areas is inadequate for cold-season (fall, winter, and spring) operation, and maintenance backlog needs exist for normal summer operation.

(4) The Many Glacier Hotel and Lake McDonald Lodge are on the National Register of Historic Places and are National Historic Landmarks. Other accommodations operated by the concessioner with possessory interest and listed on the National Register of Historic Places are the Rising Sun Motor Inn and Swiftcurrent Motel.

(5) The historic hotels in Glacier National Park, operated under concession agreements with the National Park Service, are essential for public use and enjoyment of the Park.

(6) Public consumers deserve safe hotels in Glacier National Park that can meet their basic needs and expectations.

(7) The historic hotels in Glacier National Park are significantly deteriorated and need substantial repair.

(8) Repairs of the hotels in Glacier National Park have been deferred for so long that, absent any changes to Federal law and the availability of historic tax credits, the remodeling costs for the hotels may exceed the capacity of an investor to finance them solely out of hotel revenues.

- (9) The current season of operation for hotels is approximately 4 months because the developed areas lack water, sewer, and fire protection systems that can operate in freezing conditions, lack building insulation, and lack heating systems.
- (10) The National Park Service Concessions Management Improvement Act of 1998 is based upon sound principles and is achieving its basic purposes, but there appear to be selected instances where the National Park Service may need additional authority to conduct demonstration projects.
- (11) A demonstration project is needed for the repair of the historic hotels in Glacier National Park.

#### SEC. 2. DEFINITIONS.

In this Act:

- (1) ADVISORY COMMITTEE.—The term "Advisory Committee" means the Going-to-the-Sun Road Citizens Advisory Committee.
- (2) PARK.—The term "Park" means Glacier National Park.
- (3) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

#### SEC. 3. GOING-TO-THE-SUN ROAD STUDY.

- (a) FEASIBILITY STUDY.—Not later than December 31, 2001, the Secretary, in consultation with Advisory Committee, shall complete a feasibility study for rehabilitation of Going-to-the-Sun Road located in the Park. The study shall include—
- (1) alternatives for rehabilitation of Going-tothe-Sun Road and a ranking of the feasibility of each alternative;
- (2) an estimate of the length of time necessary to complete each alternative;
- (3) a description of what mitigation efforts would be used to preserve resources and minimize adverse economic effects of each alternative:
- (4) an analysis of the costs and benefits of each alternative;
- (5) an estimate of the cost of each alternative; (6) an analysis of the economic impact of each alternative:
- (7) an analysis of long-term maintenance needs, standards, and schedules for the road, alternatives to accomplish the rehabilitation, maintenance staff needs, and associated cost estimates:
- (8) a draft of the environmental impact statement required under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)); and
- (9) an analysis of improvements to any transportation system relating to the Park that are needed inside or outside the Park.
- (b) CONTINUATION MAINTENANCE.—Nothing in this section shall affect the duty of the Secretary to continue the program in effect on the day before the date of the enactment of this Act to preserve, maintain, and address safety concerns related to Going-to-the-Sun Road.
- (c) IMPLEMENTATION OF PLAN.—As soon as practicable after completing the study required by subsection (a), the Secretary shall—
- (1) consider the recommendations of the Advisory Committee;
- (2) choose an alternative for rehabilitation of the Going-to-the-Sun Road from the alternatives included in the study based upon the final environmental impact statement required under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)); and
- (3) begin implementation of a plan based on that choice.

Implementation actions that are authorized include rehabilitation of Going-to-the-Sun Road and expenditure of funds inside or outside the Park for transportation system improvements related to the Park and impact mitigation if recommended by the study and the Advisory Committee. The Secretary shall also seek funding for

the long-term maintenance needs that the study identifies.

- (d) REPORT.—Not later than 30 days after completion of the study required under subsection (a), the Secretary shall submit a copy of the study to—
- (1) the Committee on Resources and the Committee on Appropriations of the House of Representatives; and
- (2) the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate.
- (e) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated \$200,000,000 to the Secretary to carry out this section, including—
- (1) implementation of the plan under subsection (c); and
- (2) the cost of any necessary environmental or cultural documentation and monitoring, including the draft environmental impact statement required under subsection (a)(8).

### SEC. 4. MAINTENANCE AND UPGRADE OF UTILITY SYSTEMS.

- (a) In GENERAL.—As soon as practicable after funds are made available under this section, the Secretary shall begin the upgrade and continue the maintenance of utility systems which service the Park and facilities related to the Park.
- (b) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to the Secretary to carry out this section, \$20,000,000.

#### SEC. 5. VISITOR FACILITIES PLAN.

- (a) PLAN FOR VISITOR FACILITIES.—Not later than December 31, 2001, the Secretary shall complete a comprehensive plan for visitor facilities in the Park. The comprehensive plan shall include the following:
- (1) A completed commercial services plan, as called for in the Park General Management Plan.
- (2) A plan for private financing of rehabilitation of lodging facilities and associated property that are listed on the National Register of Historic Places or are part of a district listed on the National Register of Historic Places, which may include historic tax credits, hotel revenue, and other financing alternatives as deemed appropriate by the Secretary, and which may include options such as extending the Park's visitor season, additional visitor facilities, and other options as deemed appropriate by the Secretary in order to recover the rehabilitation costs.
- (3) A financial analysis of the plan under paragraph (2).
- (4) A plan by the Secretary to provide necessary assistance to appropriate interested entities for the restoration or comparable replacement of tour buses for use in the Park.
- (5) A plan for a new visitors center at the west side of the Park, including an appropriate location and design for the center and suitable housing and display facilities for museum objects of the Park as set forth in the Park General Management Plan, including any studies required to be carried out under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et sea.) and other applicable laws.
- (6) A parkwide natural and cultural resources assessment, in accordance with sections 203 and 204 of the National Parks Omnibus Management Act of 1998 (Public Law 105–391; 112 Stat. 3497), including a comprehensive inventory of resources of the Park.
- (7) A description of any additional authority requested by the Secretary to implement the comprehensive plan.
- (b) SUBMISSION OF PLAN.—The Secretary shall submit copies of the comprehensive plan to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.
- (c) IMPLEMENTATION OF PLAN.—As soon as practicable after completion of the comprehen-

sive plan, the Secretary shall implement the comprehensive plan, including construct the visitors center pursuant to the plan required by subsection (a)(5).

(d) AUTHORIZATION OF APPROPRIATIONS.— There is authorized to be appropriated to the Secretary \$1,000,000 to complete the comprehensive plan.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Jersey (Mr. HOLT) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

H.R. 4521, as introduced by our colleague, the gentleman from Montana (Mr. HILL), will ensure the future protection of Glacier National Park by laying out a plan to restore the Goingto-the-Sun Road, upgrading utility systems in the park, and the future of the grand lodges in the park. The gentleman from Montana has worked diligently on this legislation and should be commended for his service to Montana and the Congress.

Madam Speaker, this is good legislation that will ensure that future steps taken by Glacier National Park will enhance the ability of the public to access and to enjoy one of America's great parks. I urge my colleagues to support H.R. 4521, as amended.

Madam Speaker, I reserve the balance of my time.

Mr. HOLT. Madam Speaker, I yield myself such time as I may consume.

Mr. HOLT. Madam Speaker, H.R. 4521, introduced by our colleague, the gentleman from Montana (Mr. HILL), would direct the Secretary of the Interior to develop and implement a plan, at a cost of up to \$200 million, for the rehabilitation of the Going-to-the-Sun Road in Glacier National Park. The bill also authorizes \$20 million for maintenance of utility systems.

The third significant provision of this bill deals with the rehabilitation of the Many Glacier Hotel and other structures in the park. When the Subcommittee on National Parks and Public Lands held a hearing on the bill, the administration and others raised a number of concerns with the bill's language. Following the hearing, meetings were held with the staff of our colleague from Montana and the congressional delegation from Montana, the National Park Service, and the committee staff.

While major progress was made in addressing the issues with the bill, significant issues remained. Instead of seeking closure on these remaining issues, the Committee on Resources adopted a new amendment offered by the gentleman from Montana (Mr. HILL) that discarded the progress that had been made in addressing the park hotel rehabilitation and instead proposed new language that had not been

discussed yet, let alone agreed to by the parties.

As a result, the bill reported by the committee has substantive and procedural problems. It fails to address the concerns raised by the administration and the historic preservation and environmental community, and it does not reflect the unified position within the Montana congressional delegation. The bill reported from the committee fails to authorize the one authority, historic leasing, that the National Park Service says they need for park hotel rehabilitation. It creates a new responsibility for the National Park Service to provide park road reconstruction impact mitigation assistance.

In addition, the amended bill directs preparation of a new visitor facilities plant. Further, the time frame, December 31 of 2001, for completion of the visitor's facility plan, and also the required concession services plan and natural resource assessment, is too short to do the necessary work and environmental analyses.

Finally, the bill's findings represent a particular point of view and are inconsistent with the authorities contained in the bill.

Madam Speaker, the minority is willing to work with the interested parties to address the concerns with this legislation. Unfortunately, what is being presented to the House today fails to correct the bill's shortcomings.

Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume only to comment that the condition of the lodge, which I think we all agree at the park is in horrendous condition, and while we have minor differences on how to go about this, the problem is that we may lose that facility forever if we do not work to pass this legislation immediately.

Madam Speaker, I move to pass this good piece of legislation by our colleague, the gentleman from Montana (Mr. Hill), who is retiring from the United States House of Representatives.

Mr. HILL of Montana. Madam Speaker, H.R. 4521 attempts to deal with the serious infrastructure issues that exist in Glacier National Park in northwest Montana, one of the truly heavenly places on earth.

The Going-to-the-Sun Road, which runs through the park and is consistently rated among the top scenic routes in the nation, has degraded severely since it opened in 1932. The utility infrastructure, particularly the sewer system, is badly in need of repair. Recently about 180,000 gallons of raw sewage leaked onto the south shore of Lake McDonald, and the state of Montana is threatening to take action against the park. And the historic hotels of Glacier Park, many of which are listed on the National Register of Historic Places, are quickly becoming safety issues that threaten the visitor experience. Recently the Park imposed

corrective measures at Many Glacier Hotel to address fire code violations that are a result of deferred maintenance. The rehabilitation costs at Many Glacier alone are estimated at more than \$30 million, with overall costs at around \$100 million.

This bill addresses these issues by authorizing funds to repair the park's infrastructure, with the exception of the hotels, and setting a timetable for a specific plan to privately finance the rehabilitation of the park's historic hotels, in which there is currently significant possessory interest. It authorizes funds for the repair of the Going-to-the-Sun Road. The bill also requires that the Secretary work with a Citizen Advisory Committee that has been gathering local input and determining the best possible option for the repairs. The bill also authorizes funds to repair the park's failing utility systems.

These repairs are already authorized under the Park Service's General Authorities Act. However, the situation in Glacier is critical and is near the top of the Park Service's priority list. This bill will put Congress on record regarding the importance of Glacier National Park, as well as move the Park Service in the direction it has said it intends to go.

Some have discussed the issue of cost relating to the Going-to-the-Sun Road. For those who have been privileged to drive this scenic route, it is like no other, at times clinging to a mountainside and ascending the Continental Divide. It is the only route through the park and provides millions of Americans with views of diverse wildlife and great natural beauty. But it is at risk of catastrophic failure, and it will be costly to replace. Repair costs are compounded by a short construction season in this extreme climate, the topography and access issues, as well as the historic stone retaining walls that are built from local materials. Costs will also be partly determined by the construction alternative selected, and the need for appropriations could be significantly mitigated.

A source of greater controversy, however, was how best to finance the rehabilitation of the historic hotels. Originally, the hotel-financing provision was written with significant input from the Park Service and was intended to provide the Secretary with the greatest degree of latitude in achieving private financing for the project. Key to this goal was providing a way to capture historic restoration tax credits of 20 percent which require investment over a 50-year period, realizing that our current concessions law limits contracts to no more than 20 years.

This Park Service's provision came under fire from environmental organizations. Unfortunately, rather than defend the provision, the Park Service quickly back-pedaled and opposed it. This left us in a precarious position. The Park Service then proposed an alternate version that would use historic leasing authority to rehabilitate the hotels. But members of the minority as well as the administration were never able to get on the same page. And we in the majority and others have had concerns with the various proposals that began emerging

It was disappointing when the support that had been building behind the bill evaporated after interest groups who oppose the idea of private investment in national parks weighed in. The result was proposals that were, at best, financially questionable and, at worst, extinguished the notion of possessory interest in these historic structures altogether. This is a dangerous path to go down, and which represents a serious step backward in the body of law that has been crafted by Congress regarding national parks.

I am disappointed that Democrats and the administration were never able to agree among themselves. I was willing to accommodate these various proposals even though I and others in the business and financial communities had serious questions about them, provided that they be willing to consider other alternatives such as the original financing mechanism. But there was never an inch of latitude given.

The new version of this bill was intended to pull us back from the notion of moving toward a single financing mechanism that ultimately may not work. While the Park Service should be lauded for its creativity in crafting a plan based on historic leasing, there were too many unanswered questions about that proposal that I fear may go unanswered. Specifically, I cannot understand what objections the Park Service would have, if we are going to settle on a single option, to ensuring its option will work financially before we move forward with it. After we have that data, the bill would direct the Secretary to request any additional authority he may require from Congress to complete the plan.

My staff and I numerous times attempted to discuss the committee-approved version of the bill with the minority. Then one legislative day before the full House was originally to consider this bill, a list of new concerns emerged from the minority. One that is particularly intriguing is the contention that the deadline for the visitor facilities plan and other provisions of the bill-December 31, 2000-is too ambitious. It is intriguing because the minority initially argued that the deadline in the bill was a delaying tactic. Which is it, a delaying tactic, or too ambitious? This all leads one to suspect that the goal of some has not been to improve upon this legislation, but rather, to defeat it for the sake of defeat.

This is unacceptable, We must approve this bill and give the Senate a chance to do likewise before we adjourn. Anything less would be dereliction of our duty to protect our public lands, in this case, Glacier National Park.

I'd like to briefly address some of the other criticisms I have heard recently. First, that the bill authorizes economic mitigation for the Going-to-the-Sun reconstruction. I have been willing to compromise on this issue. However, there is significant precedent within the Park Service to mitigate the impacts of its actions on communities around it, most notably the recent redwoods acquisition in California and the compensation of fishermen at Glacier Bay in Alaska. That being said, H.R. 4521 is not prescriptive. It merely authorizes mitigation assistance, it does not mandate it, and it does so within the overall bounds of the authorization of the road itself.

Second, that there were not sufficient efforts to reach agreement in the Montana congressional delegation. My staff and I worked long and hard to find a solution that was pleasing

both to the Montana delegation and to the majority and minority in the House. But it became apparent, at least as far as the hotels were concerned, that this would not be possible. No agreement ever existed, even though staff was circulating legislative language for the approval of members. It is unfortunate for those of us in Montana that some would kill this bill over the hotels provision and jeopardize the road and public access to the park.

Despite the difficulties and frustrations in getting to this point, we have worked hard to make this a bipartisan effort, securing 33 cosponsors from a variety of fiscal and ideological viewpoints. The people of Montana and all those who love Glacier National Park are grateful for these efforts. By some estimates. this park alone generates close to \$200 million for Montana's economy, which needs tourism dollars now more than ever as forces continue to act to close down Montana's traditional industries. But for many of us, this park is about a whole lot more than money, it is about a unique character and a once-in-a-lifetime experience for those who visit. This legislation is needed to help restore those values.

Mr. CALVERT. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 4521, as amended.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

### DESIGNATING CERTAIN LANDS IN VIRGINIA AS WILDERNESS AREAS

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 4646) to designate certain National Forest System lands within the boundaries of the State of Virginia as wilderness areas, and for other purposes, as amended.

The Clerk read as follows:

### H.R. 4646

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. DESIGNATION OF WILDERNESS AREAS.

Section 1 of the Act entitled "An Act to designate certain National Forest System lands in the States of Virginia and West Virginia as wilderness areas", approved June 7, 1988 (102 Stat. 584) is amended—

- (1) in paragraph (5), by striking "and" at the end;
- (2) in paragraph (6), by striking the period and inserting a semicolon; and
- (3) by adding at the end the following new paragraphs:
- "(7) certain lands in the George Washington National Forest, which comprise approximately 5,963 acres, as generally depicted on a map entitled 'The Priest Wilderness Study Area', dated June 6, 2000, and which shall be known as the Priest Wilderness Area; and

"(8) certain lands in the George Washington National Forest, which comprise approximately 4,608 acres, as generally depicted on a map entitled 'The Three Ridges Wilderness Study Area', dated June 6, 2000, and which shall be known as the Three Ridges Wilderness Area."

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume

H.R. 4646 was introduced by the gentleman from Virginia (Mr. GOODE) to designate two areas in the George Washington National Forest in Virginia as wilderness. Both areas were recommended for wilderness studies in the George Washington National Forest plan completed in 1993.

I understand these are steep rugged areas, and that there is some concern that the Forest Service will continue to allow the use of motorized equipment, such as chainsaws or access by vehicles if it is necessary to fight fire or otherwise respond to emergencies. To address this concern, my colleague wisely included language stating the wilderness designation would not prevent firefighting companies or rescue squads from doing what is needed in emergency situations.

While I would prefer to retain this language, at the request of the gentleman from Virginia (Mr. Goode), I am offering a substitute amendment which removes this clause. He has received assurance from the Forest Service that such access is approved quickly when needed.

With this assurance, I ask support for the Virginia Wilderness Act under suspension of the rules.

Madam Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 4646 adds approximately 10,570 acres to the National Wilderness Preservation System in George Washington National Forest in the State of Virginia. The two additions, the Priest and Three Ridges areas, were recommended for wilderness study in the forest management plan in 1993.

The areas, within easy access of the Appalachian Trail, contain rugged terrain and spectacular mountain scenery. We are pleased to see this addition to the wilderness system.

We are also pleased to see the removal of a provision allowing tree cutting and motorized use by county firefighters and rescue squads in and around wilderness areas. The Wilderness Act allows motorized use in wilderness areas only in the event of emergencies and to control fire, insects

and disease. Forest Service policies allow forest supervisors to approve motorized equipment and vegetation cutting in emergencies.

The removal of the provision makes H.R. 4646 consistent with the Wilderness Act. It also makes the bill identical in substance to Senator ROBB's companion measure, S. 2865, which passed the Senate on October 6, 2000. If the House had chosen to take up Senator ROBB's bill, it would have been on its way to the President. By choosing to take up the House version, the House is unnecessarily protracting the process and risking not getting a bill.

While I regret this choice, the bill enjoys administration and widespread public support, and I urge my colleagues to support it.

Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CALVERT. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. CALVERT) that the House suspend the rules and pass the bill, H.R. 4646, as amended

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to designate certain National Forest System lands within the boundaries of the State of Virginia as wilderness areas.".

A motion to reconsider was laid on the table.

### FIVE NATIONS CITIZENS LAND REFORM ACT OF 2000

Mr. CALVERT. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 5308) to amend laws relating to the lands of the citizens of the Muscogee (Creek), Seminole, Cherokee, Chickasaw and Choctaw Nations, historically referred to as the Five Civilized Tribes, and for other purposes, as amended.

The Clerk read as follows:

### H.R. 5308

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Five Nations Citizens Land Reform Act of 2000".

(b) Table of Contents.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

Sec. 2. Findings.

Sec. 3. Purpose.

Sec. 4. Definitions.

### TITLE I—RESTRICTIONS; REMOVAL OF RESTRICTIONS

Sec. 101. Restrictions on real property.

Sec. 102. Restricted funds.

Sec. 103. Period of restrictions.

- Sec. 104. Removal of restrictions.
- Sec. 105. Exemptions from prior claims.

Sec. 106. Fractional interests.

TITLE II—ADMINISTRATIVE APPROVAL OF CONVEYANCES, PARTITIONS, LEASES, AND MORTGAGES; MANAGEMENT OF MINERAL INTERESTS

Sec. 201. Approval authority for conveyances and leases.

Sec. 202. Approval of conveyances.

Sec. 203. Reimposition of restrictions on conveyances of property to Indian housing authorities.

Sec. 204. Administrative partition.

Sec. 205. Surface leases.

Sec. 206. Mineral leases.

Sec. 207. Management of mineral interests.

Sec. 208. Mortgages.

Sec. 209. Validation of prior conveyances.

TITLE III—PROBATE, HEIRSHIP DETERMINATION, AND OTHER JUDICIAL PROCEEDINGS

Sec. 301. Actions affecting restricted property.

Sec. 302. Heirship determinations and probates.

Sec. 303. Actions to cure title defects.

Sec. 304. Involuntary partitions.

Sec. 305. Requirements for actions to cure title defects and involuntary partitions.

Sec. 306. Pending State proceedings.

### TITLE IV-MISCELLANEOUS

Sec. 401. Regulations.

Sec. 402. Repeals.

Sec. 403. Statutory construction.

Sec. 404. Representation by attorneys for the Department of the Interior.

TITLE V—WATER BASIN COMMISSION

Sec. 501. Water basin commission.

### SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Since 1970, Federal Indian policy has focused on Indian self-determination and economic self-sufficiency. The exercise of Federal instrumentality jurisdiction by the Oklahoma State courts over the Indian property that is subject to Federal restrictions against alienation belonging to members of the Five Nations is inconsistent with that policy.

(2) It is a goal of Congress to recognize the Indian land base as an integral part of the culture and heritage of Indian citizens.

(3) The exercise of Federal instrumentality jurisdiction by the courts of the State of Oklahoma over conveyances and inheritance of restricted property belonging to Indian citizens of the Five Nations—

(A) is costly, confusing, and cumbersome, and effectively prevents any meaningful Indian estate planning, and unduly complicates the probating of Indian estates and other legal proceedings relating to Indian citizens and their lands; and

(B) has impeded the self-determination and economic self-sufficiency of Indian citizens within the exterior boundaries of the Five Nations.

### SEC. 3. PURPOSE.

(a) In General.—It is the purpose of this  $\operatorname{Act} \operatorname{to}$ 

(1) correct the disparate Federal treatment of individual allotted lands of Indian citizens of the Five Nations that resulted from prior Federal legislation by equalizing the Federal legislative treatment of restricted and trust lands:

(2) eliminate unnecessary legal and bureaucratic obstacles that impede the highest and best use of restricted property belonging to Indian citizens of the Five Nations;

(3) provide for an efficient process for the administrative review and approval of conveyances, voluntary partitions, and leases, and to provide for Federal administrative proceedings in testate and intestate probate and other cases that involve the restricted property of Indian citizens, which concern the rights of Indian citizens to hold and acquire such property in restricted and trust status; and

(4) transfer to the Secretary the Federal instrumentality jurisdiction of the Oklahoma State courts together with other authority currently exercised by such courts over the conveyance, devise, inheritance, lease, encumbrance, and partition under certain circumstances of restricted property belonging to Indian citizens of the Five Nations.

(b) RULE OF CONSTRUCTION.—Nothing in this Act shall be construed to limit or affect the rights of Indian citizens under other Federal laws relating to the acquisition and status of trust property, including without limitation, the Act of June 18, 1934 (25 U.S.C. 461 et seq.) (commonly known as the Indian Reorganization Act), the Act of June 26, 1936 (25 U.S.C. 501 et seq.) (commonly known as the Oklahoma Indian Welfare Act), the Indian Land Consolidation Act (25 U.S.C. 2201 et seq.), and regulations relating to the Secretary's authority to acquire lands in trust for Indians and Indian tribes.

### SEC. 4. DEFINITIONS.

In this Act:

(1) FIVE NATIONS.—The term "Five Nations" means the Cherokee Nation, the Chickasaw Nation, the Choctaw Nation of Oklahoma, the Seminole Nation of Oklahoma, and the Muscogee (Creek) Nation, collectively, which are historically referred to as the "Five Civilized Tribes".

(2) INDIAN CITIZEN.—The term "Indian citizen" means a member or citizen of one of the individual Five Nations referred to in paragraph (1), or an individual who is determined by the Secretary to be a lineal descendent by blood of an Indian ancestor enrolled on the final Indian rolls of the Five Civilized Tribes closed in 1906.

(3) INDIAN COUNTRY.—The term "Indian country" has the meaning given that term in section 1151 of title 18, United States Code, which includes restricted property and trust property (as such terms are defined in this Act).

(4) Indian Nation.—The term "Indian Nation" means one of the individual Five Nations referred to in paragraph (1).

(5) REGIONAL OFFICE.—The term "Regional Office" means the Eastern Oklahoma Regional Office of the Bureau of Indian Affairs, or any successor office within the Department of Interior.

(6) RESTRICTED PROPERTY.—The term "restricted property" means any right, title or interest in real property owned by an Indian citizen that is subject to a restriction against alienation, lease, mortgage, and other encumbrances imposed by this Act and other laws of the United States expressly applicable to the property of enrollees and lineal descendants of enrollees on the final Indian rolls of the Five Civilized Tribes in 1906, and includes those interests in property that were subject to a restriction against alienation imposed by the United States on the ownership of an Indian citizen who died prior to the effective date of this Act (subject to valid existing rights) but whose interest had not, as of the effective date of this Act, been the subject of a final order determining heirs by a State district court or a United States District Court, or been conveyed by putative heirs by deed approved in State district court, except that such term shall not include Indian trust allotments made pursuant to the General Allotment Act (25 U.S.C. 331 et seq.) or any other trust property.

(7) SECRETARY.—The term "Secretary' means the Secretary of the Interior.

(8) TRUST PROPERTY.—The term "trust property" means Indian property, title to which is held in trust by the United States for the benefit of an Indian citizen or an Indian Nation.

### TITLE I—RESTRICTIONS; REMOVAL OF RESTRICTIONS

#### SEC. 101. RESTRICTIONS ON REAL PROPERTY.

(a) APPLICATION.—Beginning on the effective date of this Act, all restricted property shall be subject to restrictions against alienation, lease, mortgage, and other encumbrances, regardless of the degree of Indian blood of the Indian citizen who owns such property.

(b) CONTINUATION.—The restrictions made applicable under subsection (a) shall continue with respect to restricted property upon the acquisition of such property by an Indian citizen by inheritance, devise, gift, exchange, election to take at partition, or by purchase.

#### SEC. 102. RESTRICTED FUNDS.

(a) IN GENERAL.—All funds and securities held or supervised by the Secretary derived from restricted property or individual Indian trust property on or after the effective date of this Act are declared to be restricted and shall remain subject to the jurisdiction of the Secretary until or unless otherwise provided for by Federal law.

(b) USE OF FUNDS.—Funds, securities, and proceeds described in subsection (a) may be released or expended by the Secretary for the use and benefit of the Indian citizens to whom such funds, securities, and proceeds belong, as provided for by Federal law.

### SEC. 103. PERIOD OF RESTRICTIONS.

Subject to the provisions of this Act that permit restrictions to be removed, the period of restriction against alienation, lease, mortgage, or other encumbrance of restricted property and funds belonging to Indian citizens, is hereby extended until an Act of Congress determines otherwise.

### SEC. 104. REMOVAL OF RESTRICTIONS.

(a) Procedure.—

(1) APPLICATION.—An Indian citizen who owns restricted property, or the legal guardian of a minor Indian citizen or an Indian citizen who has been determined to be legally incompetent by a court of competent jurisdiction (including a tribal court), may apply to the Secretary for an order removing restrictions on any interest in restricted property held by such Indian citizen.

(2) CONSIDERATION OF APPLICATION.—An application under paragraph (1) shall be considered by the Secretary only as to the tract, tracts, or severed mineral or surface interest described in the application. Not later than 90 days after the date on which an application is submitted, the Secretary shall either issue the removal order or disapprove of the application.

(3) DISAPPROVAL.—The Secretary shall disapprove an application under paragraph (1) if—

(A) in the Secretary's judgment, the applicant has been subjected to fraud, undue influence or duress by a third party; or

(B) the Secretary determines it is otherwise not in the Indian citizen owner's best interest.

(b) REMOVAL OF RESTRICTIONS.—When an order to remove restrictions becomes effective under subsection (a), the Secretary shall

issue a certificate describing the property and stating that the Federal restrictions have been removed

- (c) SUBMISSION OF LIST.—Prior to or on April 1 of each year, the Secretary shall cause to be filed with the county treasurer of each county in the State of Oklahoma where restricted property is situated, a list of restricted property that has lost its restricted status during the preceding calendar year through acquisition of ownership by an individual or entity who is not an Indian citizen or by removal of restrictions pursuant to this section.
- (d) Rule of Construction.—Nothing in this section shall be construed to—  $\,$
- (1) abrogate valid existing rights to property that is subject to an order to remove restrictions under this section; and
- (2) remove restrictions on any other restricted property owned by the applicant.

### SEC. 105. EXEMPTIONS FROM PRIOR CLAIMS.

Sections 4 and 5 of the Act of May 27, 1908 (35 Stat. 312, chapter 199) shall apply to all restricted property.

### SEC. 106. FRACTIONAL INTERESTS.

Upon application by an Indian citizen owner of an undivided unrestricted interest in property of which a portion of the interests in such property are restricted as of the effective date of this Act, the Secretary is authorized to convert that unrestricted interest into restricted status if all of the interests in the property are owned by Indian citizens as tenants in common as of the date of the application under this section.

### TITLE II—ADMINISTRATIVE APPROVAL OF CONVEYANCES, PARTITIONS, LEASES, AND MORTGAGES; MANAGEMENT OF MINERAL INTERESTS

### SEC. 201. APPROVAL AUTHORITY FOR CONVEYANCES AND LEASES.

The Secretary shall have exclusive jurisdiction to approve conveyances and leases of restricted property by an Indian citizen or by any guardian or conservator of any Indian citizen who is a ward in any guardianship or conservatorship proceeding pending in any court of competent jurisdiction, except that petitions for such approvals that are filed in Oklahoma district courts prior to the effective date of this Act may be heard and approved by such courts pursuant to the procedures described in section 1 of the Act of August 4, 1947 (61 Stat. 731, chapter 458), as in effect on the day before the effective date of this Act, if the Indian citizen does not revoke in writing his or her consent to the conveyance or lease prior to final court approval.

### SEC. 202. APPROVAL OF CONVEYANCES.

- (a) Procedure.—
- (1) In GENERAL.—Except as provided in subsection (b), restricted property may be conveyed by an Indian citizen pursuant to the procedures described in this subsection.
- (2) REQUIREMENTS.—An Indian citizen may only convey restricted property—
  - (A) after the property is appraised;
- (B) for an amount that is not less than 90 percent of the appraised value of the property;
- (C) to the highest bidder through the submission to the Secretary of closed, silent bids or negotiated bids; and
  - (D) upon the approval of the Secretary
  - (b) EXCEPTION.—
- (1) IN GENERAL.—Notwithstanding subsection (a)(2), an Indian citizen may convey his or her restricted property, or any portion thereof, to any of the individuals or entities described in paragraph (2) without soliciting bids, providing notice, or for consideration

which is less than the appraised value of the property, if the Secretary determines that the conveyance is not contrary to the best interests of the Indian citizen and that the Indian citizen has been duly informed of and understands the fair market appraisal, and is not being coerced into the conveyance.

- (2) INDIVIDUALS AND ENTITIES.—An individual or entity described in this paragraph
- (A) the Indian citizen's spouse (if he or she is and Indian citizen), father, mother, son, daughter, brother or sister, or other lineal descendent, aunt or uncle, cousin, niece or nephew, or Indian co-owner; or
- (B) the Indian Nation whose last treaty boundaries encompassed the restricted property involved so long as the appraisal of the property was conducted by an independent appraiser not subject to the Indian Nation's control.
- (c) STATUS.—Restricted property that is acquired by an Indian Nation whose last treaty boundaries encompassed the restricted property shall continue to be Indian country. Upon application by the Indian Nation, the Secretary shall accept title to such property in trust by the United States for the benefit of the Indian Nation, except that the Secretary may first require elimination of any existing liens or other encumbrances in order to comply with applicable Federal title standards. The Secretary shall accept title to the property in trust for the Indian Nation only if, after conducting a survey for hazardous substances, he determines that there is no evidence of such substances on the property.

## SEC. 203. REIMPOSITION OF RESTRICTIONS ON CONVEYANCES OF PROPERTY TO INDIAN HOUSING AUTHORITIES.

- (a) IN GENERAL.—In any case where the restrictions have been removed from restricted property for the purpose of allowing conveyances of the property to Indian housing authorities to enable such authorities to build homes for individual owners or relatives of owners of restricted property, the Secretary shall issue a Certificate of Restricted Status describing the property and imposing restrictions thereon upon written request by the Indian citizen homebuyer or a successor Indian citizen homebuyer. Such request shall include evidence satisfactory to the Secretary that the homebuyer's contract has been paid in full and be delivered to the Regional Office not later than 3 years after the housing authority conveys such property back to the original Indian citizen homebuyer or a successor Indian citizen homebuyer who is a citizen of the Nation whose last treaty boundaries encompass the property home is located.
- (b) EXISTING LIENS.—Prior to issuing a certificate under subsection (a) with respect to property, the Secretary may require the elimination of any existing liens or other encumbrances which would substantially interfere with the use of the property.
- (c) APPLICATION TO CERTAIN HOMEBUYERS.—Indian citizen homebuyers described in subsection (a) who acquired ownership of property prior to the effective date of this Act shall have 3 years from such effective date to request that the Secretary issue a certificate under such subsection.
- (d) RULE OF CONSTRUCTION.—Nothing in this Act shall be construed to limit or affect the rights of Indian citizens described in this section under other Federal laws and regulations relating to the acquisition and status of trust property.

### SEC. 204. ADMINISTRATIVE PARTITION.

(a) JURISDICTION.—Except as provided in section 304, the Secretary shall have exclu-

sive jurisdiction to approve the partition of property located within the last treaty boundaries of 1 or more of the Five Nations, all of which is held in common, in trust or in restricted status, by more than 1 Indian citizen owner, if the requirements of this section are complied with. The Secretary may approve the voluntary partition of property consisting of both restricted and unrestricted undivided interests if all owners of the unrestricted interests consent to such approval in writing.

- (b) Partition Without Application.—If the Secretary determines that any property described in subsection (a) is capable of partition in kind to the advantage of the owners, the Secretary may initiate partition of the property by—
- (1) notifying the owners of such determina-
- (2) providing the owners with a partition plan for such property; and
- (3) affording the owners a reasonable time to respond, object, or consent to the proposal, in accordance with subsection (d).
  - (c) APPLICATION FOR PARTITION.—
- (1) IN GENERAL.—An owner or owners of an undivided interest in any property described in subsection (a) may make written application, on a form approved by the Secretary, for the partition of their trust or restricted property.
- (2) DETERMINATION.—If, based on an application submitted under paragraph (1), the Secretary determines that the property involved is susceptible to partition in kind, the Secretary shall initiate partition of the property by—
- (A) notifying the owners of such determination:
- (B) providing the owners with a partition plan; and
- (C) affording the owners a reasonable time to respond, object or consent in accordance with subsection (d).
- (d) PARTITION PROCEDURES.—
- (1) Proposed Land division plan.—The Secretary shall give applicants under subsection (c) and nonpetitioning owners of property subject to partition under this section with a reasonable opportunity to negotiate a proposed land division plan for the purpose of securing ownership of a tract on the property equivalent to their respective interests in the undivided estate, prior to taking any action related to partition of the property under this section.
- (2) APPROVAL.—If a plan under paragraph (1) is approved by—
- (A) Indian citizen owners of more than 50 percent of the property which is entirely in trust status (as distinguished from restricted status) and if the Secretary finds the plan to be reasonable, fair and equitable, the Secretary shall issue an order partitioning the trust property in kind; or
- (B) the Indian citizens who own more than 50 percent of the undivided interests which are held in restricted status (as distinguished from trust status) and if the Secretary finds the plan to be reasonable, fair and equitable, the Secretary may attempt to negotiate for partition in kind or for sale of all or a portion of the property, and secure deeds from all interest owners, subject to the Secretary's approval.
- (3) LIMITATION.—No partition under paragraph (2)(B) shall be effected unless all of the owners have consented to the plan in writing.

### SEC. 205. SURFACE LEASES.

The surface of restricted property may be leased by an Indian citizen pursuant to the Act of August 9, 1955 (25 U.S.C. 415 et seq.),

except that the Secretary may approve any agricultural lease or permit with respect to restricted property in accordance with the provisions of section 105 of the American Indian Agricultural Resource Management Act (25 U.S.C. 3715).

### SEC. 206. MINERAL LEASES.

- (a) APPROVAL.—
- (1) GENERAL RULE.—No mineral lease or agreement purporting to convey or create any interest in restricted or trust property that is entered into or reentered into after the effective date of this Act shall be valid unless approved by the Secretary.
- (2) REQUIREMENTS.—The Secretary may approve a mineral lease or agreement described in paragraph (1) only if—
- (A) the owners of a majority of the undivided interest in the restricted or trust mineral estate that is the subject of the mineral lease or agreement (including any interest covered by a lease or agreement executed by the Secretary under subsection (c)) consent to the lease or agreement;
- (B) the Secretary determines that approving the lease or agreement is in the best interest of the Indian citizen owners of the restricted or trust mineral interests; and
- (C) the Secretary has accepted the highest bid for such lease or agreement after a competitive bidding process has been conducted by the Secretary, unless the Secretary has determined that it is in the best interest of the Indian citizen to award a lease made by negotiation, and the Indian citizen so consents.
- (b) EFFECT OF APPROVAL.—Upon the approval of a mineral lease or agreement by the Secretary under subsection (a), the lease or agreement shall be binding upon all owners of the restricted or trust undivided interests subject to the lease or agreement (including any interest owned by an Indian tribe) and all other parties to the lease or agreement, to the same extent as if all of the Indian citizen owners of the restricted or trust mineral interests involved had consented to the lease or agreement.
- (c) EXECUTION OF LEASE OR AGREEMENT BY SECRETARY.—The Secretary may execute a mineral lease or agreement that affects restricted or trust property interests on behalf of an Indian citizen owner if that owner is deceased and the heirs to, or devisees of, the interest of the deceased owner have not been determined, or if the heirs or devisees have been determined but one or more of the heirs or devisees cannot be located.
- (d) DISTRIBUTION OF PROCEEDS.—The proceeds derived from a mineral lease or agreement approved by the Secretary under subsection (a) shall be distributed in accordance with the interest held by each owner pursuant to such rules and regulations as may be promulgated by the Secretary.
- (e) COMMUNITIZATION AGREEMENTS.—No unleased restricted or trust property located within a spacing and drilling unit approved by the Oklahoma Corporation Commission may be drained of any oil or gas by a well within such unit without a communitization agreement prepared and approved by the Secretary, except that in the event of any such drainage without a communitization agreement approved by the Secretary, 100 percent of all revenues derived from the production from any such restricted or trust property shall be paid to the Indian citizen owner free of all lifting and other production costs.

### SEC. 207. MANAGEMENT OF MINERAL INTERESTS.

- (a) OIL AND GAS CONSERVATION LAWS.—
- (1) IN GENERAL.—The oil and gas conservation laws of the State of Oklahoma shall apply to restricted property.

- (2) ENFORCEMENT.—The Oklahoma Corporation Commission shall have the authority to perform ministerial functions related to the enforcement of the laws referred to in paragraph (1), including enforcement actions against well operators, except that no order of the Corporation Commission affecting restricted Indian property shall be valid as to such property until such order is submitted to and approved by the Secretary.
- (3) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to limit the authority of the Indian Nations to protect the environment and natural resources of restricted property.
- (b) IMPLEMENTATION OF FEDERAL OIL AND GAS ROYALTY MANAGEMENT ACT.—Beginning on the effective date of this Act, the Regional Office shall assume all the duties and responsibilities of the Secretary under the Federal Oil and Gas Royalty Management Act of 1982 (30 U.S.C. 1702 et seq.) with respect to an oil and gas lease where—
- (1) the Secretary has approved the oil and gas lease pursuant to section 206(a);
- (2) the Secretary has, prior to the effective date of this Act, approved the oil and gas lease pursuant to the Act of May 27, 1908 (35 Stat. 312, chapter 199); or
- (3) the Secretary has, before the effective date of this Act, approved an oil and gas lease of lands of any of the Five Nations pursuant to the Act of May 11, 1938 (25 U.S.C. 396a et seq.).

### SEC. 208. MORTGAGES.

An Indian citizen may mortgage restricted property only in accordance with and under the authority of the Act of March 29, 1956 (25 U.S.C. 483a), or other Federal laws applicable to the mortgaging of individual Indian trust property or restricted property.

### SEC. 209. VALIDATION OF PRIOR CONVEYANCES.

All conveyances, including oil and gas or mineral leases, of restricted property and trust property made after the effective date of the Act of June 26, 1936 (25 U.S.C. 501 et seq.) (commonly known as the Oklahoma Indian Welfare Act) and prior to the effective date of this Act, that were approved by a county or district court in Oklahoma are hereby validated and confirmed, unless such conveyance is determined by a court of competent jurisdiction to be invalid upon grounds other than authority to approve, sufficiency of approval, or lack of approval thereof.

### TITLE III—PROBATE, HEIRSHIP DETER-MINATION, AND OTHER JUDICIAL PRO-CEEDINGS

### SEC. 301. ACTIONS AFFECTING RESTRICTED PROPERTY.

The courts of the State of Oklahoma shall not have jurisdiction over actions affecting title to, or use or disposition of, trust property or restricted property except as authorized by this Act or by other Federal laws applicable to trust property or restricted property.

### SEC. 302. HEIRSHIP DETERMINATIONS AND PROBATES.

- (a) JURISDICTION.—Except as provided in section 306, the Secretary shall have exclusive jurisdiction, acting through an Administrative Law Judge or other official designated by the Secretary, to probate wills or otherwise determine heirs of deceased Indian citizens and to adjudicate all such estate actions to the extent that they involve individual trust property, restricted property, or restricted or trust funds or securities held or supervised by the Secretary derived from such property.
- (b) GOVERNING LAWS.—Notwithstanding any other provision of law, the Administra-

tive Law Judge or other official designated by the Secretary shall exercise the Secretary's jurisdiction and authority under this section in accordance with the Indian Land Consolidation Act (25 U.S.C. 2201 et seq.) and such rules and regulations which heretofore have been, or will be, prescribed by the Secretary for the probate of wills, determination of heirs, and distribution of property in estates of Indian decedents, subject to the following requirements:

- (1) LAW APPLICABLE TO ESTATES OF INDIAN CITIZEN DECEDENTS WHO DIED PRIOR TO EFFECTIVE DATE.—The Administrative Law Judge or other official designated by the Secretary shall apply the laws of descent and distribution of the State of Oklahoma contained in title 84 of the Oklahoma Statutes, chapter 4, to all restricted property, trust property, and all restricted or trust funds or securities derived from such property in the estates of deceased Indian citizens who died intestate prior to the effective date of this Act.
- (2) Law applicable to wills executed PRIOR TO EFFECTIVE DATE.—The Administrative Law Judge or other official designated by the Secretary shall determine the validity and effect of wills as to estates containing trust property or restricted property when such wills were executed by Indian citizens prior to the effective date of this Act, in accordance with the laws of the State of Oklahoma governing the validity and effect of wills, provided that the will of a full-blood Indian citizen which disinherits the parent. wife, spouse, or children of such citizen shall not be valid with respect to the disposition of restricted property unless the requirements of section 23 of the Act of April 26, 1906 (34 Stat. 137, chapter 1876), as in effect on the day before the effective date of this Act, are met.
- (3) LAW APPLICABLE TO WILLS EXECUTED AFTER EFFECTIVE DATE.—
- (A) IN GENERAL.—Any Indian citizen who has attained age 18 and owns restricted property or trust property shall have the right to dispose of such property by will, executed on or after the effective date of this Act in accordance with regulations which heretofore have been, or will be, prescribed by the Secretary for the probate of wills, provided—
- (i) no will so executed shall be valid or have any force or effect unless and until such will has been approved by the Secretary; and
- (ii) that the Secretary may approve or disapprove such will either before or after the death of the Indian citizen testator.
- (B) FRAUD.—In any case where a will has been approved by the Secretary under subparagraph (A) and it is subsequently discovered that there was fraud in connection with the execution or procurement of the will, the Secretary is authorized, within 1 year after the death of the testator, to cancel approval of the will. If an approval is canceled in accordance with the preceding sentence, the property purported to be disposed of in the will shall descend or be distributed in accordance with the Secretary's rules and regulations applicable to estates of Indian decedents who die intestate.
- (4) FEDERAL LAW CONTROLS.—Notwithstanding any other provision of this section, Federal law governing personal claims against a deceased Indian citizen or against trust property or restricted property, including the restrictions imposed by this Act or other applicable Federal law against the alienation, lease, mortgage, or other encumbrance of trust property or restricted property shall apply to all such property contained in the estate of the deceased Indian citizen.

### SEC. 303. ACTIONS TO CURE TITLE DEFECTS.

- (a) JURISDICTION.—Except as provided in subsections (b) and (c), the United States district courts in the State of Oklahoma and the State courts of Oklahoma shall retain jurisdiction over actions seeking to cure defects affecting the marketability of title to restricted property, except that all such actions shall be subject to the requirements of section 305.
- (b) ADVERSE POSSESSION.—No cause of action may be brought to claim title to or an interest in restricted property by adverse possession or the doctrine of laches on or after the effective date of this Act, except that—
- (1) all such causes that are pending on the effective date of this Act in accordance with the provisions of section 3 of the Act of April 12, 1926 (44 Stat. 239, chapter 115) shall be subject to section 306; and
- (2) an action to quiet title to an interest in restricted property on the basis of adverse possession may be filed in the courts of the State of Oklahoma not later than 2 years after the effective date of this Act if the 15-year period for acquiring title by adverse possession has run in full prior to the effective date of this Act and the procedures set forth in section 305 shall be followed.
- (c) Heirship Determinations and Dispositions.—Nothing in this section shall be construed to authorize a determination of heirs in a quiet title action in Federal or State court in derogation of the Secretary's exclusive jurisdiction to probate wills or otherwise determine heirs of the deceased Indian citizens owning restricted property and to adjudicate all such estate actions involving restricted property pursuant to section 302, or in derogation of the Secretary's exclusive jurisdiction over the disposition of restricted property under this Act.

### SEC. 304. INVOLUNTARY PARTITIONS.

- (a) JURISDICTION.—The United States district courts in the State of Oklahoma and the State courts of Oklahoma shall retain jurisdiction over actions for the involuntary partition of property consisting entirely or partially of undivided restricted interests, subject to the provisions of subsections (b) through (e) and the requirements in section 306.
- (b) APPLICABLE LAW.—The laws of the State of Oklahoma governing the partition of property shall be applicable to all actions for involuntary partition under this section, except to the extent that any such laws are in conflict with any provisions of this Act.
- (c) PETITION: CONSENT OF OWNERS OF MAJORITY OF UNDIVIDED INTERESTS.—Any person who owns an undivided interest in a tract of property described in subsection (a) may file an action in the district court of the State of Oklahoma for the county wherein the tract is located for the involuntary partition of such tract. The court shall not grant the petition unless the owner or owners of more than 50 percent of the tract consent to the partition in the verified petition or verified answer filed in the action.
- (d) PAYMENT TO NONCONSENTING OWNERS OF RESTRICTED INTERESTS.—Nonconsenting owners of undivided restricted interests shall receive for the sale of such interests their proportionate share of the greater of—
- (1) the proceeds paid at the partition sale; or
- (2) an amount equal to 100 percent of the appraised value of the tract.
- (e) COSTS.—The petitioning party in an action under this section shall pay the filing fees and all other costs of the action, including the cost of an appraisal, advertisement, and sale.

#### SEC. 305. REQUIREMENTS FOR ACTIONS TO CURE TITLE DEFECTS AND INVOLUNTARY PARTITIONS.

(a) IN GENERAL.—All actions authorized by sections 303 and 304 shall be conducted in accordance with the requirements and procedures described in this section.

(b) Parties.-

- (1) UNITED STATES.—The United States shall not be a necessary and indispensable party to an action authorized under section 303 or 304. The Secretary may participate as a party in any such action.
- (2) Participation of Secretary.—If the Secretary elects to participate in an action as provided for under paragraph (1), the responsive pleading of the Secretary shall be made not later than 20 days after the Secretary receives the notice required under subsection (c), or within such extended time as the trial court in its discretion may permit.
- (3) JUDGMENT BINDING.—After the appearance of the Secretary in any action described in paragraph (1), or after the expiration of the time in which the Secretary is authorized to respond under paragraph (2), the proceedings and judgment in such action shall be binding on the United States and the parties upon whom service has been made and shall affect the title to the restricted property which is the subject of the action, in the same manner and extent as though nonrestricted property were involved.
- (4) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to waive the requirement of service of summons in accordance with applicable Federal or State law upon the individual Indian citizen landowners, who shall be necessary and indispensable parties to all actions authorized by sections 303 and 304.

(c) Notice.-

- (1) IN GENERAL.—The plaintiff in any action authorized by sections 303 and 304 shall serve written notice of the filing of such action and of a petition or complaint, or any amended petition or complaint which substantially changes the nature of the action or includes a new cause of action, upon the Director of the Regional Office not later than 10 days after the filing of any such petition or complaint or any such amended petition or complaint.
- (2) FILING WITH CLERK.—A duplicate original of any notice served under paragraph (1) shall be filed with the clerk of the court in which the action is pending.
- (3) REQUIREMENTS.—The notice required under paragraph (1) shall—
- (A) be accompanied by a certified copy of all pleadings on file in the action at the time of the filing of the duplicate original notice with the clerk under paragraph (2):
- (B) be signed by the plaintiff to the action or his or her counsel of record; and
- (C) be served by certified mail, return receipt requested, and due return of service made thereon, showing date of receipt and service of notice.
- (4) FAILURE TO SERVE.—If the notice required under paragraph (1) is not served within the time required under such paragraph, or if return of service thereof is not made within the time permitted by law for the return of service of summons, alias notices may be provided until service and return of notice is made, except that in the event that service of the notice required under such paragraph is not made within 60 days following the filing of the petition or complaint or amendments thereof, the action shall be dismissed without prejudice.
- (5) LIMITATION.—In no event shall the United States or the parties named in a no-

tice filed under paragraph (1) be bound, or title to the restricted property be affected, unless written notice is served upon the Director as required under this subsection.

(d) Removal.—

- (1) IN GENERAL.—The United States shall have the right to remove any action to which this section applies that is pending in a State court to the United States district court by filing with the State court, not later than 20 days after the service of any notice with respect to such action under subsection (c), or within such extended period of time as the trial court in its discretion may permit, a notice of the removal of such action to such United States district court, together with the certified copy of the pleadings in such action as served on the Director of the Regional Office under subsection (c).
- (2) DUTY OF STATE COURT.—It shall be the duty of a State court to accept a notice filed under paragraph (1) and cease all proceedings with respect to such action.
- (3) PLEADINGS.—Not later than 20 days after the filing of a notice under paragraph (1), the copy of the pleading involved (as provided under such paragraph) shall be entered in the district court of the United States and the defendants and interveners in such action shall, not later than 20 days after the pleadings are so entered, file a responsive pleading to the complaint in such action.
- (4) PROCEEDINGS.—Upon the submission of the filings required under paragraph (3), the action shall proceed in the same manner as if it had been originally commenced in the district court, and its judgment may be reviewed by certiorari, appeal, or writ of error in like manner as if the action had been originally brought in such district court.

### SEC. 306. PENDING STATE PROCEEDINGS.

The courts of the State of Oklahoma shall continue to exercise authority as a Federal instrumentality over all heirship, probate, partition, and other actions involving restricted property that are pending on the effective date of this Act until the issuance of a final judgment and exhaustion of all appeal rights in any such action, or until the petitioner, personal representative, or the State court dismisses the action in accordance with State law.

### TITLE IV—MISCELLANEOUS

### SEC. 401. REGULATIONS.

The Secretary may promulgate such regulations as may be necessary to carry out this Act, except that failure to promulgate such regulations shall not limit or delay the effect of this Act.

### SEC. 402. REPEALS.

- (1) The Act of August 11, 1955 (69 Stat. 666, chapter 786).
- (2) Section 2 of the Act of August 12, 1953 (67 Stat. 558, chapter 409).
- (3) Sections 1 through 5 and 7 through 13 of the Act of August 4, 1947 (61 Stat. 731, chapter 458).
- (4) The Act of February 11, 1936 (25 U.S.C. 393a).
- (5) The Act of January 27, 1933 (47 Stat. 777, chapter 23).
- (6) Sections 1, 2, 4, and 5 of the Act of May 10, 1928 (45 Stat. 495, chapter 517).
- (7) The Act of April 12, 1926 (44 Stat. 239, chapter 115).
- (8) Sections 1 and 2 of the Act of June 14, 1918 (25 U.S.C. 375 and 355).
- (9) Sections 1 through 3 and 6 through 12 of the Act of May 27, 1908 (35 Stat. 312, chapter
- (10) Section 23 of the Act of April 26, 1906 (34 Stat. 137, chapter 1876).

- (b) OTHER ACTS.—
- (1) IN GENERAL.—Not later than 6 months after the effective date of this Act, the Secretary shall prepare and submit to Congress a list of other provisions of law that-
- (A) expressly reference property of the Five Nations or of Five Nations' citizens and that are in conflict with the provisions of this Act: or
- (B) are of general applicability with respect to the property of Indian tribes and of individual Indians and that are in conflict with this Act.
  - (2) TECHNICAL AMENDMENTS.
- (A) Section 28 of the Act of April 26, 1906 (34 Stat. 137, chapter 1876) is amended-
- (i) by striking the first proviso; and
- (ii) by striking "Provided further" and inserting "Provided".
- (B) Section 6(c) of the Act of August 4, 1947 (61 Stat. 733, chapter 458) is amended in the first sentence by striking "of one-half or more Indian blood"

### SEC. 403. STATUTORY CONSTRUCTION.

- (a) SECRETARIAL TRUST RESPONSIBILITY.— Nothing in this Act shall be construed to waive, modify, or diminish in any way the trust responsibility of the United States over restricted property.
  (b) No Effect on Tribal Relationships.—
- (1) IN GENERAL.—Nothing in titles I through IV of this Act is intended to or shall be construed to in any way affect the authority that any federally recognized Indian tribe may or may not have over-
- (A) any other federally recognized Indian tribe;
- (B) the members of any other federally recognized Indian tribe: or
- (C) any land in which any other federally recognized Indian tribe or any member of any other federally recognized Indian tribe has or is determined by the Secretary or a court of competent jurisdiction to have any interest.

### SEC. 404. REPRESENTATION BY ATTORNEYS FOR THE DEPARTMENT OF THE INTE-

Attorneys of the Department of the Inte-

- (1) represent the Secretary in any actions filed in the State courts of Oklahoma involving restricted property;
- (2) when acting as counsel for the Secretary, provide information to all Indian citizens owning restricted property (and to private counsel for such citizens, if any) regarding their legal rights with respect to the restricted property owned by such citizens;
- (3) at the request of any Indian citizen owning restricted property, take such action as may be necessary to cancel or annul any deed, conveyance, mortgage, lease, contract to sell, power of attorney, or any other encumbrance of any kind or character, made or attempted to be made or executed in violation of this Act or any other Federal law. and take such action as may be necessary to assist such Indian citizen in obtaining clear title, acquiring possession, and retaining possession of restricted property; and
- (4) in carrying out paragraph (3), refer proposed actions to be filed in the name of the United States in a district court of the United States to the United States Attorney for that district, and provide assistance in an of-counsel capacity in those actions that the United States Attorney elects to prosecute.

### TITLE V-WATER BASIN COMMISSION SEC. 501. WATER BASIN COMMISSION.

A compact among the State of Oklahoma, the Choctaw Nation of Oklahoma, and the Chickasaw Nation, shall establish a Statetribal commission composed of an equal

number of representatives from the tribes and nontribal residents of the respective water basin, for the purpose of administering and distributing any benefits and net revenues from the sale of water within the respective basin to the Choctaw Nation of Oklahoma, the Chickasaw Nation, and local public entities. Any sale of water to entities outside the water basin must be consistent with the compact and by the State-tribal commission for the respective water basin within the boundaries of the Choctaw Nation of Oklahoma and the Chickasaw Nation. One of the tribal representatives of the Statetribal commission shall be appointed by the Bureau of Indian Affairs regional office in Muskogee, Oklahoma.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. CALVERT) and the gentleman from New Mexico (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Speaker, I vield myself such time as I may consume, and I rise today in support of a very important bill to the Five Civilized Tribes of Oklahoma.

The Five Nations Citizens Land Reform Act of 2000, would transfer from Oklahoma State courts to the Federal Government, jurisdiction over the conveyance, the devise, inheritance, lease, encumbrance, and partition of restricted property, allotment lands, belonging to the members of the Cherokee Nation, Chickasaw Nation, Choctaw Nation, Seminole Nation of Oklahoma, and Muscogee (Creek) Nation.

Unlike other federally recognized Indian tribes whose jurisdiction over their lands lies with the Secretary of the Interior, jurisdiction over the lands of these five tribes was placed in various Oklahoma district courts many years ago. H.R. 5308 would have probate proceedings and management and disposition of Indian lands proceed through the Department of the Interior rather than through the multiple State courts. Thus, the restricted lands of the five tribes would be treated like the federally protected allotments of land of other federally recognized tribes.

H.R. 5308 would also allow for simplification of the law applicable to allotted Indian lands, would simplify the process for leasing allotted lands, would simplify the Indian land probate and heirship determination process, and would assist in the prevention of the fractionation of Indian lands.

Nothing in H.R. 5308 would diminish the trust responsibility of the United States over restricted lands. The five tribes and the Oklahoma State Bar Association, the governor of Oklahoma, and members of the Oklahoma delegation have spent years working on this legislation.

### □ 1415

Now that everybody has agreed, it is time to pass H.R. 5308.

Madam Speaker, I reserve the balance of my time.

Mr. UDALL of New Mexico. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, first let me thank the gentleman from Michigan (Mr. KIL-DEE) for all his hard work on this bill.

Madam Speaker, the Five Nations Citizens Land Reform Act of 2000 is a significant Indian land bill affecting the restricted allotments of members of the Cherokee, Creek, Seminole, Choctaw, and Chickasaw Nations in eastern Oklahoma.

This legislation would bring equity and fairness to the Indian people who own allotted lands of the Five Great Indian Nations in eastern Oklahoma.

For much of the 20th century, these people have been the subject of special laws applicable only to their lands that are unlike any other Federal laws on Indian lands. Many of these laws have provided much less protection to the Indian lands in Oklahoma than is afforded in the rest of the country.

Under current Federal law, the allotted lands of the Five Civilized Tribes are subject to the State law of adverse possession, the result of which has been loss of land owned by many individual Indians. This legislation would bring law affecting the Oklahoma lands in line with land owned by tribes living in the rest of the States.

State courts of Oklahoma currently have jurisdiction over probating, partitioning, and transferring restricted lands and the leasing of restricted mineral interests owned by members of the five tribes. This often places a great financial burden on Indian families who must hire private attorneys to probate estates or transfer interests in restricted land. For this reason, many estates in eastern Oklahoma that include restricted land are not being probated, and landownership is becoming increasingly fractionated.
