

May 30th 2005

To whom it may concern;

Only recently have I heard about the prospect of Cannon AFB, NM being closed down. I just wanted to say in just a few words, that I suggest that this does not happen.

Stability in our community is very important. The airspace for training our pilots. For example that even at Luke AFB, AZ. I say, and I speak for many people, that Cannon AFB NM, should remain open.
