I am very concerned with the BAC
commission's decision to close Cannon,

I am not sure the commission is aware
of the attributes of the area. We have
abundant air space (with no encroachment
issues), a bombing range only seconds
away, and ideal flying weather
year round. I do not understand
how we save money when so much
has already been spent upgrading Cannon.
The people of Cannon are our family
& friends.

Please reconsider all the facts before
making your final decision.

Respectfully Yours
