Re: "Operation Defend Niagara Arcs"

To Whom It May Concern:

I support the NIAGARA Falls Air Base to be left open. The service people are needed in this area for our protection and to protect our power for the entire eastern area. If a terrorist attack hits the NIAGARA Power Authority, it would create disaster all over. It would shut down the computers for banking, stocks, businesses, hospitals and area people that need power.

In addition the longest runway is located there. Our military people working here are involved with the Iraq war. Let us not disappoint our heroes.

Sincerely,

Sandra E Jackson
