The screenshot shows a web browser displaying a Perma.cc record. The address bar contains the URL perma.cc/7CN8-NJNV. The page header is blue and contains the text "This is a Perma.cc record" and "Created July 8, 2015". Below the header, there is a navigation bar with "Home", "Local News", and "Contact" links. The main content area features a large heading "Breaking News" and a sub-heading "Breaking news is always happening." followed by several lines of placeholder text represented by horizontal bars. A date stamp "July 8, 2015" is visible in the top right corner of the content area.

“This is what the Harvard Law School Library Says The Internet Looked Like Today”

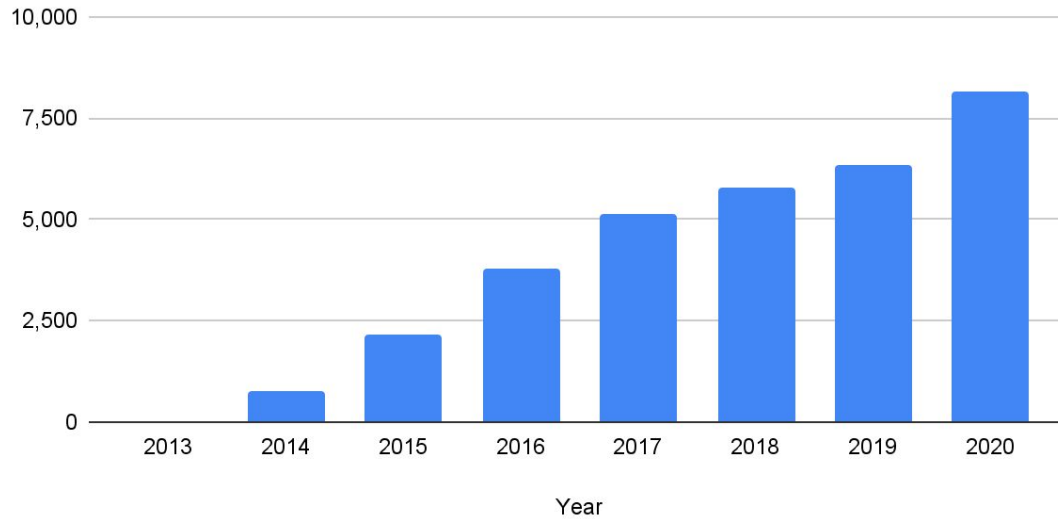

Long-Standing Financial Commitment to Libraries

The core of digital preservation is institutional commitment, and the means are people. They require dedication, expertise, and flexibility; the institution's commitment and its staff's dedication are constants, but their methods can't be. The resilience of a digital preservation program lies in their careful and constant attention, as in the commonplace, "The best fertilizer is the farmer's footprint."
