In support of ETX entrepreneurship and keeping alive the local economy, check this out. We stumbled on it on the way home from Montalba and stopped by. It was a fun 2 hours. The wines are not what I am used to, being sweet and not at all dry, but I liked them! We got a Jalepeno wine to cook with, and they made a delicious and refreshing 'slush' that was perfect for a hot afternoon. Check it out some Saturday when you've got 2-3 hours for a beautiful drive in the ETX countryside, a winery "tour" and a sampling. There is usually music on the porch from 5 - 8 on Saturdays. Have fun!

PS. If you know anyone who wants a part-time job washing stems and mixing slushies, I think they're looking for someone to help out a few flexible hours.....I'm guessing you'd need to be over 18.
