SECAF BRIEFING 16 December 2002

Internal Control Plan (ICP)

- Purpose Establishes process and management controls for entire BRAC process
- Required to meet statutory requirement for auditability of information and process(es) used in BRAC
- Includes:
 - Participants & responsibilities
 - Structure for analysis
 - Procedures for documenting processes, data, changes & decisions
 - Uniform guidance on sources and methods of collecting data
 - Systems for verifying the accuracy of data at all levels of command
 - Descriptions of tools, systems and documents
 - Procedures for categorizing bases
 - Includes non-disclosure statement for all participants
- Bottom Line: All data used in analysis must be certified, audited, and made available to the commission and the public upon release of the BRAC recommendations

DCN 8472 DCN 8472 DCN 8472 DCN 8472 DCN 8472

Military Value Primary Consideration

- Preservation of training areas, guarantee future availability to ensure readiness of the Armed Forces
- Preservation of military installations in the US as staging areas in homeland defense missions
- Preservation of military installations throughout a diversity of climate & terrain in the US for training purposes
- Impact on joint warfighting, training, and readiness
- Ability to accommodate contingency mobilization and future total force requirements at existing and potential receiving locations

DCN 8472 DCN 8472 DCN 8472 DCN 8472 DCN 8472

Return on Investments

- Extent and timing of potential costs and savings including number of years for savings to exceed the costs. (The cost and manpower implications)
- Must account for cost to other federal agencies if impacted by proposed closure or realignment

Impacts

- Economic impact on the communities
- Ability of both existing and receiving communities infrastructure to support forces mission and personnel
- The Impact of costs related to environmental restoration, waste management, and environmental compliance

OSD Kick Off Memo

- OSD establishes two oversight groups for BRAC 2005
 - Infrastructure Executive Council (IEC) for policy making and oversight of the entire BRAC process
 - Infrastructure Steering Group (ISG) directly oversees the joint cross-service groups analyses of common business oriented functions and integration of results into services processes
- Joint Cross-Service Teams will analyze common business oriented support functions.
- Military Departments will analyze all service unique functions
- Military Departments recommend force structure options that support the force structure plan required by BRAC statute
- Infrastructure Support Group (ISG) will recommend to Infrastructure Executive Council (IEC) specific functions for joint analysis and metrics to conduct analysis (150 days)

10 USC Section 2687 Limits

- PL 107-107 (BRAC 2005) only authority for actions above thresholds set in 10 USC 2687:
 - Closure of installation with <u>></u> 300 DoD, permanent directhire civilian authorizations
 - Realignment if action reduces the lower of:
 - 1000 or more civilian authorizations or
 - 50% or more of civilian authorizations (i.e. 150 or more)
- "Installation"includes:
 - Base, camp, post, station, yard, center, homeport facility for any ship, or other activity under DoD including any leased facility, in United States, DC, Puerto Rico, American Samoa, the Virgin Islands, or Guam.
