Subject: Philosophy
Keywords: science & technology policy; transdisciplinarity; interdisciplinarity; peer review; impact evaluation
ORCID: http://orcid.org/0000-0002-5804-0892
Description: Holbrook's current research focuses on interdisciplinarity, peer review, and the relationship between science, technology, and society. He is especially interested in the incorporation of societal impacts considerations into the peer review process of publicly supported funding agencies (e.g., NSF’s “Broader Impacts” Merit Review Criterion).

Strategies and Tips
Strategies and Tips

- Limitations
  - No automated methods for uploading
  - Limited importing and exporting of information
  - Permissions and copyright
    - E.g., Elsevier sending take-down notices
Strategies and Tips

- Pick your “primary” profile
  - Make sure this is maintained/updated
- Establish consistent citation formats
  - E.g., Google Scholar citation format
- Additional profiles amplify your work
Strategies and Tips

- Considerations:
  - Which ones colleagues are using
  - Ways to share your research
  - Functions, layout, ease of use
  - Metrics and citation tools
  - Just because...
