Project Description

The University of North Texas Libraries have received a National Leadership Grant from the Institute of Museum and Library Services for a two-year study to identify the user interface requirements of genealogists interacting with the libraries' Portal to Texas History. The Portal provides users with a digital gateway to collections in Texas libraries, museums, archives, historical societies and private collections. It contains primary source materials, including maps, books, manuscripts, diaries, photographs, and letters.

The Iogene project will identify a model for digital library interface development using a user-centered design approach. Genealogists will be involved in the design process beginning with an assessment of their information use environment and continuing through usability testing of the redesigned Portal interface.

The results of this study will provide the library community with information about the needs and interface requirements of a little-studied group of lifelong learners who comprise a significant proportion of digital library users.

National Digital Newspaper Program
Chronicling America

Welcome to Chronicling America, enhancing access to America's historic newspapers. This site allows you to search and read newspaper pages from 1800-1910 and find information about American newspapers published between 1800-present. Chronicling America is sponsored jointly by the National Endowment for the Humanities and the Library of Congress as part of the National Digital Newspaper Program (NDNP).

READ NEWSPAPER PAGES FROM 1800 TO 1910
View newspaper pages from 1800 to 1910 from the following states: California, District of Columbia, Florida, Kentucky, New York, Utah, and Virginia. Why only these states and years?

SEARCH PAGES

FIND INFORMATION ABOUT NEWSPAPERS FROM 1890 TO TODAY
Find information about newspapers published in the United States from 1890 to the present in the Chronicling America Directory.
