Mr. Peter J. Gross, Director
Environmental Protection Division
Department of Energy, Oak Ridge Operations
Post Office Box 2001
Oak Ridge, Tennessee 37831-8738

Dear Mr. Gross:

**Contract DE-AC05-84OR21400, Emergency Planning and
Community Right-to-Know Act (EPCRA), Section 313, Toxic
Chemical Release Reporting for Calendar Year (CY) 1996**

As required by provisions under Section 313 (Toxic Chemical Release Reporting) of EPCRA, the Y-12 Plant staff is transmitting the enclosed Toxic Chemical Release Inventory Reporting Forms, Form R(s), for CY 1996 (Enclosure 1). Also included in this submittal, as specified by provisions under Title 40, Code of Federal Regulations (CFR), Part 372.27, Alternate Threshold and Certification, are the Toxic Chemical Release Inventory Certification Statement Forms, Form A(s), for chlorine for CY 1996 (Enclosure 2). To comply with the law, these forms must be submitted to personnel at the appropriate federal and state agencies.

The reporting forms contain information on the Lockheed Martin Energy Systems (Energy Systems) Y-12 Plant and Johnson Controls Water Treatment Plant operational releases for specific toxic chemicals to the air, water, and land in addition to transfers to off-site disposal locations in CY 1996. Personnel from U.S. West reported no usage of the specified toxic chemicals in CY 1996; therefore, no Form R or Form A reporting data are included for U.S. West. The list for CY 1996 toxic chemicals reported under 40 CFR, Part 372, is provided in Enclosure 3. The Y-12 Plant staff did not manufacture, process, or otherwise use any additional toxic chemicals specified in the regulations in quantities above their threshold reporting levels; therefore, reporting of release information for these chemicals is not required under 40 CFR, Part 372.

Also included with this submittal is a key to the various codes which are used on the report forms (Enclosure 4). This information is included to aid in the interpretation of the data presented. It is not necessary that the code information be forwarded to personnel at the referenced federal and state agencies.

Mr. P. J. Gross, DOE-ORO
