

RADIOACTIVE WASTE DISPOSAL*

April 25, 1957

University of California Radiation Laboratory
Livermore, California**ABSTRACT**

This is a selective bibliography of books and periodical articles relating to radioactive waste disposal. Material in the bibliography is concerned primarily with methods for the handling and disposal of wastes and the results of these methods. Auxiliary material indicating methods of determining radioactivity in wastes has been included. Sources consulted include: Chemical Abstracts, 1950-1955; Engineering Index, 1950-1955; Industrial Arts Index 1950- March 1957; Nuclear Science Abstracts, 1950- March 15, 1957; Physics Abstracts, 1950-1955; the Library card catalog; and the Technical Information Division AEC card catalog.

* This work was performed under the auspices of the U. S. Atomic Energy Commission.

RADIOACTIVE WASTE DISPOSAL

GENERAL	_____	1
GASEOUS WASTES	_____	5
LIQUID WASTES	_____	6
SOLID WASTES	_____	8
METHODS FOR ESTABLISHING RADIO ACTIVITY	_____	9
