May 19, 1958

JOURNAL ARTICLES

Akopov, E. K. and Bergman, A. G.

Complex formation between the molten chlorides and sulfates of lithium, sodium, and potassium. Doklady Akad. Nauk. S.S.S.R. 102:81-3 (1955) (CA50:100e)

_____ and Bergman, A. G.

Fusion diagram for the quaternary system $\text{Li}_2\text{Cl}_2\text{-Na}_2\text{Cl}_2\text{-K}_2\text{Cl}_2\text{-Li}_2\text{SO}_4$. Zhur. Neorg. Khim. 2:383-94 (1957) (CA51:17384c)

_____ and Bergman, A. G.

Interaction of the sulphates of lithium, sodium, & potassium in melts. The ternary system of the sulfates of lithium, sodium & potassium. J. Gen. Chem. USSR 24: 1499-1508 (1954) (In English) (CA50:8310f)

_____ and Bergman, A. G.

Reaction of the Sulfates of the alkali metals and of thallium in melts. I. Ternary system of the sulfates of lithium, potassium, and thallium. Zhur. Neorg. Khim. 2:193-200 (1957) (CA51:10212h)_____ Ternary system of the chlorides of lithium, sodium, and potassium. Zhur. Neorg. Khim. 1:1019-25 (1956) (CA50:16323g)

Antill, J. E. and Murray, P.

Thermodynamic properties of slags. Silicates Ind. 20:293-8 (1955) (In English) (CA49:15683c)

Bakumskaya, E. L. and Bergman, A. G.

Ternary system of the sulfates of lithium, sodium and cadmium. Zhur. Neorg. Khim. 1:1629-37 (1956) (CA51:1715h)

JOURNAL ARTICLES (cont'd)

Balyaev, I. N.

Double decomposition in a reciprocal system of sulfates and tungstates of lithium and lead. Zhur. Obshchey Khim. 25:230-4 (1955); J. Gen. Chem. U.S.S.R. 25:213-16 (1955) (English trans.) (CA49:11383b)

Double decomposition in melts and the nature of the chemical bond. Zhur. Neorg. Khim. 1:1501-11 (1956) (CA51:6244c)
Halides of group I & II metals

and Doroshenko, S. S.

The interaction of the sulfates and molybdates of lithium and silver in fusions. J. Gen. Chem. USSR 26:2027-31 (1956) (English translation) (CA51:6306f); (CA51:17383i)

and Sigida, N. P.

Reaction of lithium titanate with other salts in melts. Zhur. Obshchey Khim. 26:1553-8 (1956) (CA51:4805f); J. General Chem. U.S.S.R. 26:1739-43 (1956) (English trans.) (CA51:14385d)

Bergman, A. G. and Akopov, E. K.

Reciprocal system of lithium and sodium chlorides and sulfates. Izvest. Sektora Fiz. Khim. Anal. Akad. Nauk S.S.S.R. 23:222-32 (1953) (CA48:9170i)

and Bekumskaya, E. L.

Ternary system of the sulfates of lithium, potassium and cadmium. Zhur. Neorg. Khim. 1:2083-92 (1956) (CA51:7214c)

and Benashok, E. I.

Reciprocal system of lithium and barium fluorides and chlorides. Izvest. Sektora Fiz. Khim. Anal. Akad. Nauk S.S.S.R. 23:201-21 (1953) (CA48:9170a)

and Bychkova-Shul'ga, N. A.

Fusion diagram of the reciprocal system of the fluorides and silicates of Li and K. Zhur. Neorg. Khim. 2:179-92 (1957) (CA51:10213g)

and Bychkova, N. A.

The ternary reciprocal system of lithium and calcium fluorides and silicates. Zhur. Obshchey Khim. 25:1876-90 (1955); J. Gen. Chem. U.S.S.R. 25:1821-9 (1955) (English trans.) (CA50:11781e); (CA50:6168e; NSA 10:638) Trans. C-55-1779

JOURNAL ARTICLES (Cont'd)

Bergman, A. G. And Kislova, A. I.

Ternary mutual systems of sulfates and tungstates of lithium and potassium. *J. Gen. Chem. U.S.S.R.* 25:827-32 (1955) (English trans.) (CA50:3940a)

_____ and Kislova, A. I. & Posypaiko, V. I.

Exchange decomposition in the absence of solvent I-II. Quaternary reciprocal system of the chlorides sulfates and tungstates of lithium and potassium. *Zhur. Obshch. Khim.* 24:1304-14 (1954) (CA49:5950g); 24:1722-30 (1954) (CA49:7356a); *J. Gen. Chem. U.S.S.R.* 24:1287-95 (1954) (English trans. pt. I); 24:1695-1701 (1954) (English trans., pt. II)

_____ and Kislova, A. I. & Posypaiko, V. I.

Exchange decomposition in the absence of a solvent. Phase diagram of the system $Li^+-K^+-SO_4^{2-}-BO_3^{3-}$ *Zhur. Obshch. Khim.* 25:1890-9 (1955); (CA50:9846h) *J. Gen. Chem. U.S.S.R.* 25:1831-40 (1955) (English trans.)

_____ and Sholekhovich, M. L.

A reciprocal system of the adiabatic-zone eutectic type from meta-phosphates and sulfates of lithium and potassium. *Zhur. Obshch. Khim.* 23:1075-85 (1953) (CA50:30561)

_____ and Sholekhovich, M. L.

Singular irreversibly reciprocal system, with stratification, of chlorides and sulfates of lithium and thallium. *Zhur. Obshch. Khim.* 25:451-8 (1955); *J. Gen. Chem. U.S.S.R.* 25:423-7 (1955) (English trans.) (CA50:10541)

_____ and Others.

Complex formation and metathesis in ternary systems of the sulfates, tungstates, and metaborates of lithium and potassium. *Doklady. Akad. Nauk. S.S.S.R.* 88:815-18 (1953); (CA47:12090e)

_____ and Others.

Complex formation in a quaternary reciprocal system of chlorides, sulfates, & tungstates of lithium and potassium. *Zhur. Fiz. Khim.* 28:1489-96 (1954); (CA50:4696e)

_____ and Others.

Exchange decomposition in the absence of a solvent. Phase diagram of the system $Li^+-K^+-WO_4^{2-}-BO_3^{3-}$ *Zhur. Obshch. Khim.* 25:2044-53 (1955); (CA50:9847b).

JOURNAL ARTICLES (cont'd)

Bergman, A. G. and Others.

Investigation of the ternary system of chlorides, sulfates, and tungstates of lithium and potassium. I. *J. Gen. Chem. U.S.S.R.* 24:1899-1903 (1954); (English trans.) (CA50:11793c)
 II. *J. Gen. Chem. U.S.S.R.* 25:9-11 (1955); (English trans.) (CA49:10034f)

_____ and Others.

Ternary adiabatic-type reciprocal system of sulfates and molybdates of lithium and potassium. *J. Gen. Chem. U.S.S.R.* 24:1121-7 (1954); (English trans.) (CA50:5385h)

Bouman, C. (ORNL)

Activities in the KCl-FeCl_2 & LiCl-FeCl_2 Systems. ORNL-2323
 100 p. (1957)

Bockris, J. O'M. & Richards, N. E.

The compressibilities, free volumes and equation of state for molten electrolytes: Some alkali halides and nitrates. *Prog. Roy Soc. A* 211:44-66 (1957) (CA51:15202h)

Bukhalovs, G. A. and Others.

Complex formation and exchange decomposition in the ternary reciprocal system of lithium and potassium sulfates and nitrates. *Doklady Akad. Nauk. S.S.S.R.* 71:287-90 (1950); (CA46:18498i)

_____ and Borezhnaya, V.T.

Phase diagram for the ternary system of the fluorides of lithium, calcium, and barium. (Eng.-Structural Inst., Koston-on-Don.) *Zhur. Neorg. Khim.* 2:1408-12 (1957) (CA52:3500c)

_____ and Bergman, A.G.

Ternary reciprocal system of fluorides and chlorides of lithium and calcium. *Doklady Akad. Nauk. S.S.S.R.* 66:67-70 (1949) (CA44:9234a)

Bychkova, N. A., and Bergman, A. G.

Reciprocal system with silicates of fluorides of lithium and barium. *Zhur. Obshchei Khim.* 26:639-51 (1956) (CA50:16325b)
J. Gen. Chem. U.S.S.R. 26:735-45 (1956) (English trans.) (CA51:4116h)

Coven, H. C., and Axon, H. J.

Electrical conductivity of the binary fused salt system AgNO_3 + KNO_3 and AgNO_3 + LiNO_3 . *Trans. Faraday Soc.* 52:242-6 (1956) (CA50:14324b)

JOURNAL ARTICLES (Cont'd)
