Brief Description: The Meyerhoff Scholarship Program was created at UMBC in 1988 with a grant of $522,000 from the Robert and Jane Meyerhoff Foundation. Mr. Meyerhoff was particularly interested in addressing the shortage of African Americans, especially black males, who successfully pursue careers in science and engineering. The initial grant enabled UMBC to launch a program of full support for outstanding African American students, competitively selected from across Maryland, who would major in mathematics, science, engineering, or computer science, and then pursue Ph.D.s in these areas. The first group of Meyerhoff Scholars included 19 young men who enrolled in Fall 1989. Now in its seventh year, the Program has a total enrollment of 180 (95 male, 85 female), including 47 new Meyerhoff freshmen in Fall 1995 (average SAT scores of 1226) and 10 students from outside Maryland (New York, California, Indiana, Ohio, and Pennsylvania). The National Science Foundation has indicated the UMBC has one of the largest concentrations of high achieving African American students in science anywhere in the U.S.
