INDEXES TO 708 UNCLASSIFIED DOCUMENTS ON CIVIL DEFENSE

Joanne S. Gailar, Wilma H. Baldry, and Ann S. Klein*, Editors

INTRODUCTION

Seven hundred and eight unclassified, unlimited-distribution documents** from the Civil Defense Research Library are provided with five indexes: Bibliographic, Key Word, Corporate Author, Report Number, and Author. They are described below.

Description of Indexes

Bibliographic

The Bibliographic Index lists the 708 documents according to the 22 subject fields and 188 groups provided by the COSATI¹ Subject Category List (DOD--Modified).²

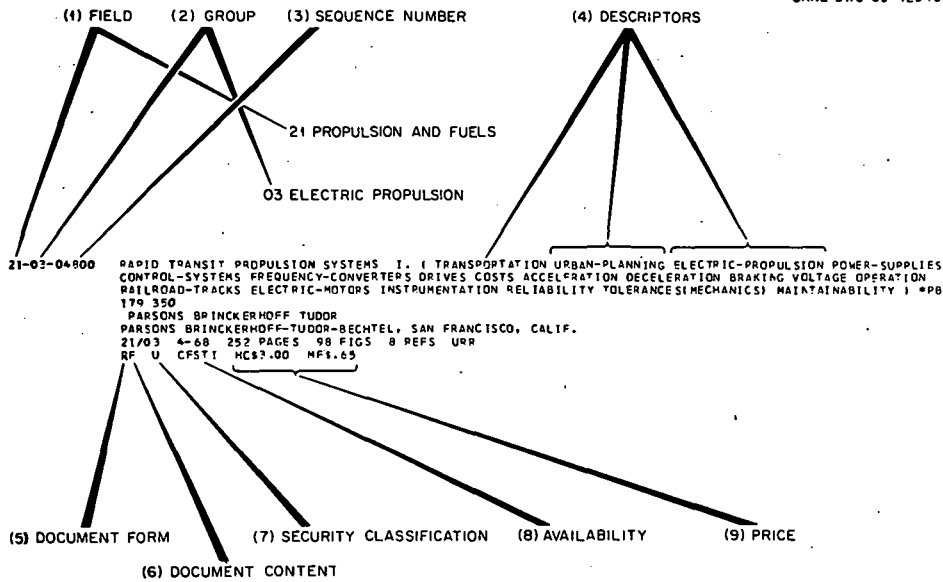

In addition to the self-explanatory features (author, title, corporate author, etc.), each entry includes the following explanatory information.

* Technical Information Division.

** Indexes to the Civil Defense Research Library's classified and unclassified-limited-distribution documents have appeared initially as ORNL-CD-3 and subsequently as ORNL-CD-odd number documents. They carry the security classification CONFIDENTIAL.

¹ Committee on Scientific and Technical Information of the Federal Council on Science and Technology.

² COSATI Subject Category List (DOD-Modified), Defense Documentation Center, Defense Supply Agency, Alexandria, Virginia (1965).

- | | | | |
|---|----------------------------|---|-----------------------------|
| 1 | Field | D | Data Source, Handbook |
| 2 | Group | E | Research (Theoretical) |
| 3 | Arbitrary Sequence Number | F | Research (Experimental) |
| 4 | Descriptors | G | General, Nontechnical |
| 5 | Document Form ³ | H | Historical, Mainly |
| | B | I | Computers |
| | J | L | Social Science Research |
| | K | N | News, Press Report |
| | M | O | Other |
| | P | S | Symposium, Meeting Coverage |
| | Q | T | Topical Subject |
| | R | U | Progress Report |
| | X | V | State-of-the-Art Review |
| | Z | Y | Trip Report |
| 6 | Document Content | 7 | Security Classification |
| | A | U | Unclassified Unlimited |
| | C | 8 | Availability |
| | | 9 | Price |

³Codes for Document Form and Document Content are adapted from the Document Types List of the Nuclear Fuel Technology Information Center (NUFTIC) at Oak Ridge National Laboratory.

For vocabulary control and compatibility with comparable systems, the descriptors added to the titles are selected to conform with those in the Defense Department's Thesaurus of Engineering and Scientific Terms.⁴

Key Word

The second index is a permuted Key Word Index (KWIC). Each significant word in the title of a document, together with each descriptive term by which the title has been extended, is printed in alphabetical order down the center of the page. Thus every title will appear in the index as many times as there are key words in the title.

When the title (with descriptors) is too long to fit on one line, the computer indicates the location of the omitted words by a slash (/). The user may quickly locate the complete title by checking the document number at the far right against that of the bibliographic entry in the first section.

Report Number

The third index lists in alphabetical-numerical order all Report Numbers which are preceded by one or more letters. The number at the far right of the page indicates the entire bibliographic entry of the document to which the Report Number refers.

Corporate Author

The fourth index lists alphabetically the names of the Corporate Authors which appear in the main bibliography. The user may link the corporate author (or installation) with the entire bibliographic entry through the number at the right.

⁴Thesaurus of Engineering and Scientific Terms, prepared for the United States Department of Defense by the Office of Naval Research in joint operation with the Engineers' Joint Council, 1967.

Author

The fifth index lists the Authors whose names appear in the main bibliography. Again, as with the installations, the user may check the number at the right of each author against that of the bibliographic entry for a more complete description of the document.

Suggested Uses for the Indexes

Bibliographic Index

1. To provide a rudimentary micro-abstract of the contents of the document through the use of descriptors attached to the title.
2. To indicate at a glance the length and date of the document as well as its form (report, journal, etc.) and nature (historical, bibliographical, etc.).

Key Word Index

1. To serve as a subject index to the 708 documents listed and--when joined to subsequent indexes in the series--to serve as a subject index to the entire ORNL civil defense research document collection.
2. To indicate the current research interests of the Civil Defense Research Project staff and--over a period of time--the scope of the Project's coverage.

Corporate Author Index

To indicate the installations actively engaged in research relevant to civil defense and to provide the nucleus for a referral-oriented information center on civil defense.

Author Index

To indicate the individuals actively engaged in research relevant to civil defense.

Acquisition

Since the ORNL Civil Defense Research Library is at present principally for the use of Project members, copies of the documents listed are not normally furnished to outside requestors. However, members of the library staff will gladly provide qualified users with information on how to obtain a document.

EXTERNAL DISTRIBUTION

- 256. Prof. Frank Agardy, Dept. of Civil Engineering, San Jose State College, San Jose, Calif. 95114
- 257. Harold M. Agnew, Director, Weapons Physics Division, Los Alamos Scientific Laboratory, Los Alamos, N.Mex.
- 258. Robert E. Bailey, Nuclear Engineering Dept., Purdue University, Lafayette, Ind. 47907
- 259. Miss Eleanor Boyles, Librarian, School of Police Administration, Michigan State University, East Lansing, Mich.
- 260. Arthur Broyles, Dept. of Physics, University of Florida, Gainesville, Fla.
- 261. Zolin G. Burson, Scientific Executive, Edgerton, Germeshausen, and Grier, Inc., 680 E. Sunset Road, Las Vegas, Nev. 89101
- 262. Frank H. Chick, Engineer, Dept. of the Army, Office of the Secretary of the Army, Office of Civil Defense-Region Eight, Everett, Wash. 98201
- 263. C. E. Collins, Tennessee Valley Authority, Building 604, Power Building, Chattanooga, Tenn.
- 264-265. D. D. Davis and R. C. Kelly, Division of Technical Information Extension, USAEC-ORO
- 266-284. L. J. Deal, Chief, Civil Effects Branch, Division of Biology and Medicine, U.S. Atomic Energy Commission, Washington, D.C.
- 285. R. Easley, Dept. of Defense Research and Engineering, Pentagon, Washington, D.C. 20310
- 286-287. L. N. FitzSimons and Douglas Griffin, Office of Civil Defense, Washington, D.C.
- 288. Prof. Raymond R. Fox, Nuclear Defense Design Center, School of Engineering and Applied Science, The George Washington University, Washington, D.C. 20006
- 289. Col. Robert L. Fox, State Director, Civil Defense, National Guard Armory, Sidco Drive, Nashville, Tenn. 37204
- 290. Barbara Frautschie, Battelle Memorial Institute, Columbus, O.
- 291. Robert Gilpin, Dept. of Political Science, Princeton University, Princeton, N.J.
- 292. Prof. Robert M. Holcomb, Dept. of Civil Engineering, Texas A and M University, College Station, Tex. 77843
- 293. Davis C. Holder, University of Colorado, Dept. of Civil Engineering, Boulder, Colo. 80302
- 294. Walter Kee, Division of Technical Information, AEC Headquarters, Washington, D.C.
- 295. Prof. Carl Koontz, Dept. of Civil Engineering, Worcester Polytechnic Institute, Worcester, Mass. 01609
- 296. Prof. Richard Kummer, Dept. of Architectural Engineering, Pennsylvania State University, University Park, Pa. 16802
- 297. Prof. William Miller, Dept. of Civil Engineering, 307 More Hall, University of Washington, Seattle, Wash. 98105
- 298. Adolph T. Molin, Advanced Power Engineering Dept., United Engineers and Constructors, Inc., 1401 Arch Street, Philadelphia, Pa. 19105

299. Mary H. Newman, Science and Technology Branch, DTIE,
Oak Ridge, Tenn. 37830
300. Richard Park, National Academy of Sciences, Washington, D.C.
301. Sidney Passman, U.S. Arms Control and Disarmament Agency,
New State Dept. Building, Washington, D.C. 20451
- 302-321. Col. Ralph Pennington, ABMDA, Dept. of Defense, Washington, D.C.
322. J. C. Petree, National Resource Analysis Center, Office of
Emergency Preparedness, Washington, D.C.
- 323-332. J. E. Roembke, Architectural and Engineering Services Division,
Office of Civil Defense, Washington, D.C.
333. Lawrence Russell III, Office of the Chief of Engineers, Dept.
of the Army, Director T and ME, Washington, D.C. 20315
334. Prof. J. A. Samuel, Dept. of Mechanical Engineering, University
of Florida, Gainesville, Fla. 32601
- 335-336. W. E. Strobe, Office of Civil Defense, Dept. of the Army,
Washington, D.C.
337. J. A. Swartout, Union Carbide Corporation, New York, N.Y.
338. Lauriston Taylor, National Academy of Sciences, Washington, D.C.
339. Edward Teller, University of California, Livermore, Calif.
340. William Truppner, Director, National Resource Analysis Center,
Office of Emergency Preparedness, Washington, D.C.
341. Prof. G. K. Vetter, School of Architecture, University of
Colorado, Boulder, Colo. 80302
342. L. J. Vortman, Sandia Corp., Sandia Base, Albuquerque, N.Mex.
343. J. Wade, ARPA
344. Benjamin W. Watson, Executive Secretary, U.S. Civil Defense
Council, Editorial Office, P. O. Box 370, Portsmouth, Va. 23705
345. Captain Jack E. Weatherford, Director for Development and Analysis,
National Military Command System Support Center, Pentagon,
Washington, D.C.
346. Leon Weaver, School of Police Administration, Michigan State
University, East Lansing, Mich.
